HERE YOU GET WHAT YOU ASK FOR

We do not practice, or allow to be practiced, in our store, the custom of offering "something else" on which there may be a larger profit (and really be a better article) when you call for a certain thing. We hand out the exact thing called for without remarks unless asked for our opinion, and then we give it honestly. We do not try to sell, or want to sell, any goods that are not wanted by the customer. We prefer to build up our business—and are building it up—by Satisfied Customers. Come and let us serve you.

CRASH WAS TERRIFIC

INTER-COLONIAL TRAINS COLLIDE HEAD-ON NEAR HALIFAX.

FOUR PERSONS KILLED; TWO DYING

ENGINEER OF THE FREIGHT RESPONSIBLE FOR ACCIDENT.

Had Orders to Take a Siding but Instead Met the Fast Express Two Miles Beyond—No Passengers Among the Victims.

Halifax, N. S., April 12.—Four persons were killed, two were fatally hurt and several others were less seriously injured early this morning in a head-on collision on the Inter-Colonial railway near Windsor Junction, seventeen miles from Halifax.

The trains in collision were the Canadian Pacific railway express from Montreal and Boston for Halifax and a fast freight from Halifax for Montreal. The conductor and engineer of the freight had orders to take the siding at Windsor Junction and let the express pass, but for some unknown reason Engineer Copeland, of the freight, ran past the junction on the main line and met the express two miles beyond.

Thought He Lost Control.

It is thought that Copeland must have lost control of his train, which was made up of seventy-five cars. The freight was running twenty-five miles an hour and the express, which was two hours late, was traveling about forty-five miles an hour.

The dead were: Express Engineer William Wall, Express Fireman Michael Oakley, Freight Fireman Hill and Freight Brakeman Thorpe. Those fatally hurt are: Freight Engineer Copeland and a tramp named McReady, of Antigonish.

Both trains were hauled by powerful locomotives and crashed together on a level piece of track. The crash was terrific. The engine crew of the express and Fireman Hill, of the freight, died almost immediately after the crash and Brakeman Thorpe was instantly killed. Engineer Copeland, of the freight, is in a hospital with a broken spine and cannot live.

Two Cars Hurlled Into Lake.

When the crash came the postal and baggage cars went over an embankment down into a small lake. The railway mail clerks in the postal car escaped by climbing through a window in the roof and wading ashore. The men in the baggage and express car had a like experience.

The passenger coaches were considerably damaged, but remained on the track. Several passengers were thrown down by the shock or cut by flying glass.

POSSE KILLS BRUTAL NEGRO.

Murder of an Alabama Woman is Speedily Avenged.

Shreveport, La., April 12.—Mrs. Frank Matthews, aged forty-nine, wife of a civil engineer on the Seaboard Air line, and her child were brutally assaulted by an unknown person at their home near Amiston, Ala., yesterday morning. Mrs. Matthews' head was crushed to a jelly. She died from her injuries. After assaulting the mother, the assailant attempted to criminally assault her, but after beating her into insensibility, fled. The child is at a sanitarium dying.

The discovery of the crime was made by a servant, who entered the bedroom of Mrs. Matthews. The unfortunate woman was almost dead, and the assailant was still alive. Entrance was effected through a side window, and although there were fifteen persons in the house, which is situated in the very heart of the residence district of Shreveport, no one heard a sound during the night. The skull of Mrs. Matthews was crushed, and she bore evidence of having been assaulted. The child's skull was fractured, her chest crushed, and her head severely injured and comatose in the room were not disturbed. An axe covered with blood and hair was found in the kitchen.

Bloodhounds took up the trail, but lost it after going a short distance. A Kansas City & Southern engineer notified the police of the appearance of a negro covered with blood on the railroad, and a posse was organized to hunt him. Sergeants Gerald and Roquemore soon came upon the negro. He made a desperate dash for a ravine, and the officers fired four shots at him, two of which took effect in his back, killing him instantly. The negro's clothing was covered with blood, and his shoes fitted the bloody footprints in the kitchen of the Matthews home. His name was Ed Porter, and he was a well known Shreveport negro.

At 1:30 this (Sunday) morning the body of Porter was seized by a mob, placed in a funeral casket and consigned to the past. The police attempted to bury the negro's body before the crowd could get it, but failed.

TO REMARRY PRINCESS LOUISE.

Crown Prince of Saxony Will Take Back His Erring Wife.

New York, April 12.—Princess Louise of Saxony, who eloped on Dec. 11 with Andre Giron, the financier of her children, and her husband, the crown prince of Saxony, are to be reunited this week, according to a dispatch from Berlin, says the Paris correspondent of the World.

The reconciliation is to be effected for the sake of the dynasty and their children. It is announced that the crown prince will visit the princess at Salzburg this week and that they will immediately be remarried. It is reported they have agreed to this course and have pledged each other not to refer to the past. A dispatch from Salzburg confirms the above, stating the reconciliation is complete.

LEANED OUT TO DEATH.

Engineer of a Baltimore & Ohio Flyer Killed in His Cab.

Baltimore, April 12.—The fast flying Royal Blue train on the Baltimore &

RELIANCE AFLOAT

NEW CUP DEFENDER IS SUCCESSFULLY LAUNCHED.

THOUSANDS CHEER THE PLUNGE

BOAT A DECIDED DEPARTURE FROM OLD YACHTS.

Will Be Rigged at Once and Is Expected to Prove the Fastest Sailing Craft on the Ocean—Her Cost Nearly \$300,000.

Bristol, R. I., April 12.—With an American eagle at her bow the cup defender Reliance was launched just before sundown last evening. Five hundred persons stood beside the glistening under body, when at 5:30 o'clock Miss Cora Ilesin christened the vessel with a bottle of champagne. Laurel wreaths and bunches of pinks, tied with red and black ribbons, were fastened around the car and as the yacht slowly drew out of the shop, the American yacht ensign was raised at the stern with Mr. Ilesin's private signal amidships, and the colors of the New York Yacht club at the bow.

Three thousand persons greeted the initial plunge of the Reliance with lusty cheers, while a bugler on a torpedo boat played "The Star Spangled Banner." Among the yachts anchored off the works was the Constitution, the unsuccessful candidate for cup honors two years ago, and this year destined to be one of the keenest rivals against the Reliance.

Yacht a New Departure.

As the Reliance lay for a few minutes alongside, some comments on the lines of the two boats could be made. The bow of the Reliance turns out the water more sharply, her stern is lower and flatter, and she has a trifle less freeboard.

The new boat was hauled back into the dock, where she will be rigged. It is expected that she will have her trial spin in about ten days, after which she will have a thorough trying out, meeting both the Constitution and the Columbia in a series of thirty-five races.

The Reliance is a decided departure on the part of Herreshoff from his other cup defenders, and is an excellent example of the American type of flat-floored, fin-keel boat. She is not such an extreme skimming keeled ship as was the Independence, but nevertheless resembles the Crownshield boat more than she does any of her predecessors built here. Her lines are very easy.

The stern is very flat, so that she will leave but little wake, while her bow, although not quite so broad and flat as the Independence, is still very much different from the heavily snuffed bows of the Constitution or the Columbia. She has a long keel, but owing to her good beam does not carry so much lead in her hull as the other cup defenders. Her bow toward the end, is quite sharp, while her tailfin measures scarcely eight feet. Her greatest beam is well up in the shoulder, and is carried out in a curve. At the water line, forward, she is curved like the inside of a saucer.

Strongest in Smooth Sea.

It is believed the new yacht's strongest point of sailing will be with started sheets in a comparatively smooth sea. She is also likely to go very fast down wind, her long keel holding her well on her course. Her weakest point, therefore, will be on the wind with flattened sheets, a point on which the Shamrock III is said to be very fast. The broad floor of the Reliance will probably cause her to pound considerably, especially in a lumpy sea. The boat, however, with her easy lines and tremendous sail spread, over 15,000 square feet, will be easily driven, and it seemed to be the unanimous opinion of yachtsmen that she would prove the fastest sailing vessel ever built.

The brimmed underbody of the Reliance, as she stood propped up in her cradle, before launching, aroused much admiration. It shone like old gold, and so well had it been rubbed down by the sailors that it seemed as if the very bolts must have been made of the metal. The seams were scarcely discernible, while the rudder was a marvel of workmanship. The Reliance is built of robin bronze, and nickel steel, the former in the underbody and the latter in the top and sides. It is 14 feet over all, 25 feet beam, and draws 19 feet 6 inches.

Built by Syndicate of Millionaires.

The Reliance, whose cost is estimated at close onto \$300,000, has been built by a syndicate of nine members of the New York Yacht club. They are: Judge E. H. Gary of Chicago, a director of the United States Steel company; Clement A. Griseom of Philadelphia, president of the International Mercantile Marine company; Henry Walters of Baltimore, president of the Atlantic Coast line; Cornelius Vanderbilt of New York, P. A. B. Widener of Philadelphia; William Rockefeller of New York, vice president of the Standard Oil company; James J. Hill, of St. Paul, president of the Great Northern railroad; Norman B. Ryan of Chicago, and W. B. Leeds of Pittsburgh.

CHALLENGER DISAPPOINTS.

Outsails Shamrock I but 6 1/2 Minutes in a Course of 30 Miles.

Weymouth, April 12.—The first contest of the challenger for the America's cup under actual racing conditions was distinctly disappointing to those who have exulted so much at the results in the preliminary trials. The Shamrock I won on her handicap allowance of ten minutes, the new craft only beating her six and a half minutes over a course thirty-four miles long. On the first half of the course the challenger outsailed the older boat handsomely, but in the fresher wind on the second turn she hit the more than held her own. This was only partially explained by the fact that the wind which favored the Shamrock I, which enabled her to gain considerable ground on the second boat.

The Reliance, whose cost is estimated at close onto \$300,000, has been built by a syndicate of nine members of the New York Yacht club. They are: Judge E. H. Gary of Chicago, a director of the United States Steel company; Clement A. Griseom of Philadelphia, president of the International Mercantile Marine company; Henry Walters of Baltimore, president of the Atlantic Coast line; Cornelius Vanderbilt of New York, P. A. B. Widener of Philadelphia; William Rockefeller of New York, vice president of the Standard Oil company; James J. Hill, of St. Paul, president of the Great Northern railroad; Norman B. Ryan of Chicago, and W. B. Leeds of Pittsburgh.

CHALLENGER DISAPPOINTS.

Outsails Shamrock I but 6 1/2 Minutes in a Course of 30 Miles.

Weymouth, April 12.—The first contest of the challenger for the America's cup under actual racing conditions was distinctly disappointing to those who have exulted so much at the results in the preliminary trials. The Shamrock I won on her handicap allowance of ten minutes, the new craft only beating her six and a half minutes over a course thirty-four miles long. On the first half of the course the challenger outsailed the older boat handsomely, but in the fresher wind on the second turn she hit the more than held her own. This was only partially explained by the fact that the wind which favored the Shamrock I, which enabled her to gain considerable ground on the second boat.

RELIANCE AFLOAT

NEW CUP DEFENDER IS SUCCESSFULLY LAUNCHED.

THOUSANDS CHEER THE PLUNGE

BOAT A DECIDED DEPARTURE FROM OLD YACHTS.

Will Be Rigged at Once and Is Expected to Prove the Fastest Sailing Craft on the Ocean—Her Cost Nearly \$300,000.

Bristol, R. I., April 12.—With an American eagle at her bow the cup defender Reliance was launched just before sundown last evening. Five hundred persons stood beside the glistening under body, when at 5:30 o'clock Miss Cora Ilesin christened the vessel with a bottle of champagne. Laurel wreaths and bunches of pinks, tied with red and black ribbons, were fastened around the car and as the yacht slowly drew out of the shop, the American yacht ensign was raised at the stern with Mr. Ilesin's private signal amidships, and the colors of the New York Yacht club at the bow.

Three thousand persons greeted the initial plunge of the Reliance with lusty cheers, while a bugler on a torpedo boat played "The Star Spangled Banner." Among the yachts anchored off the works was the Constitution, the unsuccessful candidate for cup honors two years ago, and this year destined to be one of the keenest rivals against the Reliance.

Yacht a New Departure.

As the Reliance lay for a few minutes alongside, some comments on the lines of the two boats could be made. The bow of the Reliance turns out the water more sharply, her stern is lower and flatter, and she has a trifle less freeboard.

The new boat was hauled back into the dock, where she will be rigged. It is expected that she will have her trial spin in about ten days, after which she will have a thorough trying out, meeting both the Constitution and the Columbia in a series of thirty-five races.

The Reliance is a decided departure on the part of Herreshoff from his other cup defenders, and is an excellent example of the American type of flat-floored, fin-keel boat. She is not such an extreme skimming keeled ship as was the Independence, but nevertheless resembles the Crownshield boat more than she does any of her predecessors built here. Her lines are very easy.

The stern is very flat, so that she will leave but little wake, while her bow, although not quite so broad and flat as the Independence, is still very much different from the heavily snuffed bows of the Constitution or the Columbia. She has a long keel, but owing to her good beam does not carry so much lead in her hull as the other cup defenders. Her bow toward the end, is quite sharp, while her tailfin measures scarcely eight feet. Her greatest beam is well up in the shoulder, and is carried out in a curve. At the water line, forward, she is curved like the inside of a saucer.

Strongest in Smooth Sea.

It is believed the new yacht's strongest point of sailing will be with started sheets in a comparatively smooth sea. She is also likely to go very fast down wind, her long keel holding her well on her course. Her weakest point, therefore, will be on the wind with flattened sheets, a point on which the Shamrock III is said to be very fast. The broad floor of the Reliance will probably cause her to pound considerably, especially in a lumpy sea. The boat, however, with her easy lines and tremendous sail spread, over 15,000 square feet, will be easily driven, and it seemed to be the unanimous opinion of yachtsmen that she would prove the fastest sailing vessel ever built.

The brimmed underbody of the Reliance, as she stood propped up in her cradle, before launching, aroused much admiration. It shone like old gold, and so well had it been rubbed down by the sailors that it seemed as if the very bolts must have been made of the metal. The seams were scarcely discernible, while the rudder was a marvel of workmanship. The Reliance is built of robin bronze, and nickel steel, the former in the underbody and the latter in the top and sides. It is 14 feet over all, 25 feet beam, and draws 19 feet 6 inches.

Built by Syndicate of Millionaires.

The Reliance, whose cost is estimated at close onto \$300,000, has been built by a syndicate of nine members of the New York Yacht club. They are: Judge E. H. Gary of Chicago, a director of the United States Steel company; Clement A. Griseom of Philadelphia, president of the International Mercantile Marine company; Henry Walters of Baltimore, president of the Atlantic Coast line; Cornelius Vanderbilt of New York, P. A. B. Every Exertion a Task

There is failure of the strength to do and the power to endure; a feeling of weakness all over the body.

The vital functions are impaired, food does not nourish, and the whole system is run down.

A medicine that strengthens the stomach, perfects digestion, invigorates and tones is needed.

What Hood's Sarsaparilla did for Mrs. L. B. Garland, Shady, Tenn., it has done for others. She took it when she was all run down—without appetite, losing flesh, and unable to do her work.

Hood's Sarsaparilla Promises to cure and keeps the promise. The earlier treatment is begun the better—begin it today.

NOTICE!

For the next thirty days, commencing Jan. 2nd, I will deliver two and three cord lots of No. 1 16-in. dry hard block wood, also No. 1 16-in. green hard block wood, two and three cord lots, at \$2 per cord, c. o. d. I also carry all kinds of 16-in. stove wood, also hard wall plaster, lime and cement, sewer pipe and brick, and do general teaming.

sons among the plain people, though he is a millionaire himself. He is Democratic, but he is not the type of Democrat the party is likely to nominate, or if nominated, to elect. He is a little too radical a Democrat for this day and generation and the reorganizers will have none of him.

Secretary Wilson is enthusiastically in favor of the introduction of the study of plant life into the normal schools, and thence into the common schools of the country, the object being the gradual inculcation of a better knowledge of the fundamental principles of agriculture.

Farmer boys get a good deal of information in this line by being yanked out of school in the spring and being set to work plowing up the face of the earth, but city boys have no such opportunity.

To be sure they are given a chance to weed the onion patch now and then and may hoe two or three rows of corn in the back yard, but that is not scientific and is hardly practical.

Moreover, the boy will duck the job and go swimming if you don't watch him. Secretary Wilson's idea is entitled to prayerful consideration.

Pope Leo XIII has within the last few days named three new bishops for sees in the Philippines and they have all been chosen from among the Catholic clergy of the United States.

Rt. Rev. George Montgomery, coadjutor archbishop of San Francisco, has been made archbishop of Manila, one of the most important ecclesiastical posts in the islands.

Father Dennis J. Dougherty, an instructor in a Philadelphia seminary, has been made a bishop, and Mgr. F. Z. Rooker, secretary of the apostolic delegate at Washington, has been elevated to the same dignity.

All three are men thoroughly familiar with American ideas. They will carry with them to the Philippines the seed of American sympathies and American patriotism.

These appointments of the pope indicate the adoption at Rome of a policy helpful to the government in Americanizing the islands. The American bishops succeed Spanish prelates.

The recognition by the Vatican of the position of the United States in the Philippines, and its apparent readiness to accommodate the ecclesiastical law as far as possible to existing conditions, may have a far reaching effect.

A Paris correspondent of the London Times comments on the German Weltpolitik:

The invitation addressed from Berlin to the United States for an American squadron to visit Kiel has evidently had precisely the contrary result to what was intended.

The German people cannot but feel hurt at being so gratuitously subjected to a slight that might easily have been foreseen had previous experience been borne in mind.

As regards the impression produced here by this fresh rebuff of German advances to the United States, it may be well imagined that it does not leave the French public indifferent.

But Frenchmen are polite, even toward their traditional foes, and ostentatious Schadenfreude is not one of their weaknesses.

Yet it cannot be denied that there is a certain suppressed smile, which at Germany's next misadventure of the kind could not fail to develop into a burst of hearty laughter.

This is excusable, for it is the third rebuff which Germany has counted in rapid succession at Washington, and this time she has sacrificed a sloop to the blunder made in Berlin.

Miscalculation No. 1 was Prince Henry's visit and the invitation to Miss Roosevelt to stand godmother to the Kaiser's yacht.

The offer of the statue to the United States, it is not the fault of the Times, nor of any of the other numerous factors who are regarded in Berlin as arch-enemies of the fatherland, if miscalculation number three has so quickly followed its predecessors.

But whoever is to blame, there can be no doubt that the request that an American squadron should be allowed to visit German waters and President Roosevelt's polite refusal mark the climax of a hopeless policy based on a total misapprehension of the extent to which the American people are amenable to fulsome flattery prompted by selfish parent motives.

It may or may not be true, as one Paris newspaper affirms, that the German Weltpolitik is already a failure. In any case its most ardent advocates would scarcely think of calling it a complete success, although it is costing Germany quite as much as if it had strength been in her position as a great power at home and abroad instead of the reverse.

Nor should it escape the German people that, in the same proportion as the German empire is losing popularity and prestige in the comity of nations, France is gaining in both respects.

The plan to have the plant completed by the first of January next, but this is

Another Cordwood Camp—The Cleveland-Cliffs Iron company has established another wood camp on its lands out from Marquette. The camp is located five miles east of Eben, on the Soo line, and employs about thirty men.

Cordwood for use in making charcoal at the company's furnaces will be cut.

Ontagon's New Saw Mill—Joseph Atkinson, who operates a head- and stave factory at Ontagon, is erecting a saw mill to be conducted in conjunction with the old plant. It will give employment to a good-sized force of men and will be a notable addition to the industrial activity of the village.

Will Cost a Million—The Soo is assured of the early development of about 10,000 horsepower in the rapids and the building of an immense paper mill by the American Sault Pulp and Paper company.

H. T. Dunbar, of the Chandler-Dunbar Water Power company, states that the enterprise will be rushed to completion. It is the plan to have the plant completed by the first of January next, but this is

MR. BARCOCK IS RIGHT. The speech on tariff revision delivered by Secretary Root in Massachusetts the other day and the one on the same subject delivered by the president a few days later read surprisingly alike, and evidently it is not a mere coincidence.

The two speeches outline the president's attitude towards the tariff as a political issue during the coming campaign, and it is the same as that of the dozen or so of senators who join with Mr. Aldrich in shaping affairs at Washington.

Briefly the plan is to admit that some changes may be desirable, but to urge their postponement until after the presidential election.

The present congress, it is urged, will not have time for that careful attention that the subject demands. Besides, it is added, the country is extraordinarily prosperous under the present schedules, and as a proposal to revise the tariff always unsettles business and tends to cause industrial depression, it will be better to wait until it is more clearly ascertained what changes are desirable.

This platform is probably the one the party organization will adopt, ostensibly on the grounds above mentioned, but really because it is feared that an immediate attempt to effect a revision

might harm the party's chances in the coming presidential campaign. Whether it is a wise course or not time will show, but that there is a considerable element in the country to which it does not appeal is evident from the comment already heard. There, for instance, is Congressman Babcock, chairman of the Republican congressional committee. In an interview in the New York Tribune he reminds his party associates:

At the last congressional election the Republican party lost practically every city district in the country. The generally accepted explanation was that the price of commodities had gone up, that the city man was the salaried man, and his wage had not kept pace with the cost of living. In the country that condition did not prevail.

But imagine what would happen if the American cereal crop should fail, or if that crop should be unusually large. This city condition would then be practically universal.

The Republican party, says Mr. Babcock, should be warned in time, and should lay the foundation for its future perpetuation while the country is prosperous. It should "abide strictly by its fundamental principle of protection," but should be equally careful to avoid overprotection.

This means that if it costs \$1 (6 manufacture) an article abroad and \$1.25 to manufacture that same article in the United States, the tariff on that article should be 25 cents. The minute the tariff exceeds the difference in cost of manufacture between the two countries, that minute it fosters monopoly.

The iron and steel industry is a great example of this fact. Heavy castings in steel and iron can be produced in the United States for less money than in any country in the world, yet there is a tariff of nearly \$8 a ton on these same products.

This means that the American consumer of steel is required to pay to the American manufacturer at least \$3.50 on each ton purchased. In the aggregate this amounts to over \$80,000,000 a year. The glass industry presents another example on the same line.

A few years ago you could buy a box of glass for something like 90 cents. Today it costs the neighborly price of \$3.50. When conditions change in this manner, it is the part of political wisdom and patriotism to change these particular tariff schedules.

When the true principle of protection is maintained, this country will be prosperous. This has been demonstrated over and over again. The evil of overprotection, however, must be recognized as an evil and should be corrected.

Eighty per cent of the American people, in Mr. Babcock's opinion, believe in protection, but the great majority are firmly opposed to over protection, and that is what we now have in many branches of industry.

He warns his party that if the friends of protection put off revision too long, its enemies are likely to be given the job, and judging from the general comment on his views he is right about it.

Upper Peninsula.

Will Have Fire Alarm System—The village of Munising has awarded a contract to the Munising Telephone company for the installation of an electric fire alarm system.

The cost of installation will be \$1,200 or upwards.

A Huge Sign—What is declared to be the largest sign in the state has been installed by the Great Lakes Laundry company at its new place of business at the Soo. The sign is sixty feet long and six feet in height.

New Bank Building—The First National bank of St. Ignace has decided to put about \$15,000 into the construction of a bank building. The structure will be about forty by sixty feet in dimensions and will be built of artificial stone. It is planned to have it ready for occupancy in July.

City of Labor Unions—Escanaba promises to be the banner union town of the upper peninsula. Nearly all lines of labor are now organized, and the other branches are fast joining in.

Recent additions to the roll were the printers and the electrical workers.

Boom for Pentago. A man from southern Michigan has purchased nine thousand acres of timber land located across the river from Pentago, Iron county, and is preparing to put up a mill to convert the timber into the manufactured product. The plant will be built some time this summer.

Another Cordwood Camp—The Cleveland-Cliffs Iron company has established another wood camp on its lands out from Marquette. The camp is located five miles east of Eben, on the Soo line, and employs about thirty men.

Cordwood for use in making charcoal at the company's furnaces will be cut.

Ontagon's New Saw Mill—Joseph Atkinson, who operates a head- and stave factory at Ontagon, is erecting a saw mill to be conducted in conjunction with the old plant. It will give employment to a good-sized force of men and will be a notable addition to the industrial activity of the village.

Will Cost a Million—The Soo is assured of the early development of about 10,000 horsepower in the rapids and the building of an immense paper mill by the American Sault Pulp and Paper company.

This platform is probably the one the party organization will adopt, ostensibly on the grounds above mentioned, but really because it is feared that an immediate attempt to effect a revision

PURITY STRENGTH CALUMET BAKING POWDER

Calumet is the most economical Baking Powder on the market because it is the strongest. One heaping teaspoonful or two rounded teaspoonfuls is sufficient for one quart of flour.

considered almost impossible. However the work will be pushed by a large force of men, and it is estimated that the enterprise will mean the expenditure of more than a million dollars.

Gets a \$20 Watch—Captain William McCarthy and Engineer Jerry Estus of St. Ignace have been sent to Cheboygan by the Arnold boat line to put the steamer Chippewa into condition for its trip to the Atlantic coast.

The boat has been sold to New York parties for service along the coast. The sale price is about \$100,000.

Will Take Boat to Coast—Captain William McCarthy and Engineer Jerry Estus of St. Ignace have been sent to Cheboygan by the Arnold boat line to put the steamer Chippewa into condition for its trip to the Atlantic coast.

The boat has been sold to New York parties for service along the coast. The sale price is about \$100,000.

Crist Mill for Crystal Falls—A flour mill is in sight for Crystal Falls. Senator Morarity, who recently contracted for the surplus electrical power from the city's new power plant, is said to be in negotiation with parties desirous of obtaining the power for grist mill purposes and will probably close the deal unless the Illinois Mining company clinches a proposition it made for the power some time ago.

Money in Apples, She Thinks—Mrs. Owen Reilly, living near Munising, believes there is money in raising fruit in the upper peninsula and she will get the idea to a practical test.

This spring she will set out 600 apple trees and in the fall will probably serve to rebuild the plant entirely, or delay it until the winter.

Depot and Office Building—The Manistique, Marquette & Northern road has decided to build a depot and office structure at Manistique. The lower story will contain waiting rooms, passenger and freight offices and freight warehouses and the second floor will be arranged for the general offices of the road. Work on the building will be commenced about May 1.

Its Daily Output Seventy Tons—The old blast furnace at St. Ignace, which recently went into commission after a long shut-down and after extensive repairs which practically served to rebuild the plant entirely, is turning out about seventy tons of pig iron daily.

This compares with an output of sixty tons every twenty-four hours under the former condition of affairs. The product will be further increased on the completion of certain improvements now in contemplation.

A Marine Railway—Hickler Bros. of the Soo propose the construction of a "marine railway" to be operated in connection with their shipyard at the Leek City. The plant will cost about \$30,000. A marine railway is a substitute for a dry dock. That proposed by Hickler Bros. will be able to accommodate vessels up to about 1,000 tons burden and will mean that considerable repair work now of necessity done at the lower lakes will be handled at the Soo.

Fraternity Hall Project—A movement to erect a fraternity hall at Crystal Falls has been launched by the Macabees of that place, with indications the project will be successful. It is proposed to erect a brick block at a cost of about \$10,000. The structure is to be of two stories, the ground floor to be utilized for mercantile purposes and the upper floor to be devoted to the use of the various lodges of the city. The scheme contemplates the organization of a stock company.

Prosperous Year for Munising—Munising gives promise of being exceedingly prosperous and lively this summer. A large force of men is at work on the million dollar pulp and paper mills; the Brown & Moore and the Foster mills will be in operation, and the Big Bay Lumber company will probably soon have its new mill in process of construction.

All these, together with the operations of the C. H. Worcester company and the Munising Leather company, will give employment to many hundreds of men.

Hospital for Norway—Something badly needed at Norway will shortly be supplied by Dr. E. F. Swift of that city. It is a hospital. Plans for a structure to cost about \$5,000 have been drawn and it is expected that the building will go up within a few months. The institution will be well equipped with modern appliances.

Free Homes in Algoma—The Colonization & Repatriation society of Quebec has completed arrangements with F. H. Clergue of the Soo whereby 200 French-Canadian families, principally from upper Michigan, will be located in one of the fertile valleys on the line of the Algoma Central railway in northern Ontario. They will be given 100 acres each. Clergue will build a church for them and also promises to buy all the wood they will cut. This is said to be the beginning of the work of the society.

After the Garth Mill—A lumbering concern which makes a specialty of hardwood flooring is negotiating for the purchase of the saw mill plant at Garth owned by the Garth Lumber company, which has exhausted its supply of pine and will not operate the mill in the future. The deal will probably be closed. The plant is valued at \$75,000. The prospective purchaser has secured an option on a tract of 21 acres of hardwood timber, and will, if the sawmill deal goes through, employ about 150 men at the plant, in addition to operating one or more logging camps.

Escanaba Elks to Build—The Escanaba Elks are figuring on having a home of their own and propose to spend about \$10,000 in bringing that to spend about \$10,000. A committee is looking over prospective sites for the hall or clubhouse and arranging other details of the proposition. Aside from a large lodge room, it is the plan that the building shall possess a gymnasium, billiard and pool rooms, parlors and other quarters. The lodge has on hand about \$3,000 of available cash and expects to raise the balance by selling bonds to be taken by the members themselves.

GRIP REMEDIES IN GREAT DEMAND

When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDan, Va., says that he was cured of a very deep and lasting attack of the grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by the Stafford Drug Co.

PNEUMONIA IS ROBBED OF ITS TERRORS.

By Foley's Honey and Tar. It stops the racking cough and heals and strengthens the lungs. If taken in time, it will prevent an attack of pneumonia. Refuse substitutes. Sold by People's Drug Store.

HABITUAL INDISCRETION

is an unmeasured and unappreciated waste. Some people lose half their time and poison the rest of their lives by vacillating consideration of things which should be recognized as fixed duties and done without debate or delay. Life Insurance, for instance. We teach the WHEN, WHERE and WHY of Life Insurance. Co. of Vt. (Mutual) ORGANIZED 1850. M. W. Marshall, Gen. Mgr., Marquette, Mich.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Stafford Drug Co. Price 25c and 75c.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. Stafford Drug Co., Desjardins Pharmacy, (11-16m-c) The People's Drug Store.

MAY GO TO SUPREME COURT. Election Contest in Franklin Township Apparently Still Not Settled.

Andrew Johnson and Mat A. Pelto, who claimed they were elected highway commissioner and overseer of highways, respectively, in Franklin township, and who petitioned for a recount, claiming that fifteen straight tickets containing their names had been omitted in the count at the close of last Monday's election, have been officially declared elected to the offices in question.

It is probable that the end of the matter is not yet. The Mining Journal yesterday informed that Messrs. Vial and Sullivan are seriously thinking of taking under quo warranto proceedings, the matter to the supreme court, which has jurisdiction in cases of the kind. They allege that the ballot box was re-opened by the election officials after the first count was over, and they assert that the ballot box should have remained closed until a recount was ordered.

DEGREE TEAMS COMING. Marquette, Soo and Ishpeming to Contest for Pythian Cup.

The executive committee in charge of the jubilee and reunion of the Knights of Pythian lodges of the upper peninsula, which will be held under the auspices of Houghton lodge, on April 30, has been definitely notified that the Marquette, the Soo and Ishpeming teams will be the participants in the contest for the silver cup to be offered on that occasion.

NEW POSTAGE STAMPS. Series of 1902 to Be Seen at Copper Country Postoffices.

The new postage stamps of the series of 1902 have been received at the copper country postoffices, but many of them have yet been given out. This issue contains a thirteen-cent stamp, a denomination that was never before issued by the government.

NARROW ESCAPE FROM DROWNING. Miss Redna Dahl, the thirteen-year-old daughter of Jacob Dahl, of Laurium, narrowly escaped drowning while on a visit to the Houghton Douglas falls near Lake Tota, Friday afternoon.

ENGINEER SEWELL DEAD. Herbert J. Sewell, a well-known resident of Houghton, for years an engineer for the fire department, died of pulmonary trouble early Saturday morning.

HAAS ASKS A RECOUNT. Frank Haas, who was defeated by George W. Quirk for treasurer of Portage township in his votes at the recent election, has petitioned for a recount, claiming that some ballots marked for him were illegally thrown out.

HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

DREADFUL ATTACK OF WHOOPING COUGH. Mrs. Ellen Harrison, of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose."

SEVERE ATTACK OF GRIP. Cured by One Bottle of Chamberlain's Cough Remedy.

THE STAR OF HEALTH. KODOL digests what you eat! KODOL cleanses, purifies, strengthens and sweetens the stomach.

KODOL cures indigestion, dyspepsia, and all stomach and bowel troubles. KODOL accelerates the action of the gastric glands and gives tone to the digestive organs.

KODOL relieves an overworked stomach of all nervous strain, gives to the system a full, free and unhampered action, normalizes the nervous system and feeds the brain.

KODOL is the wonderful remedy that is making so many sick people well and weak people strong by giving to their bodies all of the nourishment that is contained in the food they eat.

Your Dealer Can Supply You. Bottles only, \$1.00. Six holding 24 times the trial size, \$5.00. PREPARED ONLY BY E. C. DEWITT & CO., CHICAGO.

For sale by H. Harwood, Ishpeming, The Stafford Drug Co., Marquette.

BUT THIRTEEN CASES.

Criminal Docket of the Circuit Court's April Term Shorter Than Usual.

The criminal calendar for the April term of circuit court, which will convene next Monday, has but thirteen cases and it is likely that several of these will not come up for trial. The number is unusually small for Houghton county.

The cases, as announced by Prosecuting Attorney O. J. Larson, of Calumet, are as follows: The People versus Fred Peterson, embezzlement; Fred Blanchard and robbery; John MacLeod and robbery; William Piche, larceny; Joseph Norieka, larceny; Joseph Sigonin, violation of liquor law; Herman Matson, same; Joseph Simmons, same; Al McKinnon, same; John Simmons, same; Giacomo Vignetto, same; William Wilson, same; J. J. Healy, forgery.

NEW POOR HOUSE. County Board Expected to Soon Order Its Erection This Summer.

A new poor house will be erected at the county poor farm during the coming summer and as the season for building is short the supervisors will likely take some action in the near future. At the March meeting of the board A. D. Edwards, supervisor from Adams township, brought up the new poor house proposition, with the result that it was referred to the building committee for attention.

WOMEN AND JEWELS. Jewels, candy, flowers, man—that is the order of a woman's preferences.

COPPERDOME BREVIETTES. The concert given at the Calumet Armory Saturday evening by the Cornish people was largely attended.

MEDALS AWARDED GRADUATES. Honors have been awarded to the young people who will be graduated from St. Anne's academy at Lake Linden in June as follows: Miss Emily Girard, honor for Christian doctrine; Miss Vina Toupin and J. Romeo Plante, honors of commercial course.

HANCOCK'S FIRE ANNIVERSARY. Saturday was the thirty-fourth anniversary of the destruction of almost the entire town of Hancock by fire.

CHRONIC BRONCHITIS CURED. "For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Mr. Joseph Coffman of Montmorenci, Ind.

Foley's Kidney Cure makes kidneys and bladder right. Don't delay taking. Sold by People's Drug Store.

W. J. Galbraith, the Calumet representative in the house at Lansing, who came home Friday evening, left on his return to the state capital yesterday.

George Hall, the Calumet lumberman, who has been cutting timber on company lands, has about finished the season's work.

VALLEY OF THE ONTARIO. A gentleman who is closely allied with the Calumet & Hecla company in speaking of Calumet mining companies, has about finished the season's work.

METAL MARKET CONDITIONS. The Ajax drill sharpener, which was given a month's test in the blacksmith shop of the Baltic mine, has been found unsatisfactory, it is said.

THE SURF AND SAFEST REMEDY FOR KIDNEY AND BLADDER DISEASE IS FOLEY'S KIDNEY CURE. Sold by People's Drug Store.

LAST CHANCE. To Buy Bisbee Consolidated at \$1.00 Per Share. My right to sell Bisbee Consolidated Treasury stock at \$1.00 per share terminates April 14th.

The Solomons Springs Copper Company is like the Copper Queen, a close corporation and is controlled by a New York syndicate.

At the present selling price of claims in the Bisbee Consolidated District her property alone is worth twice the capitalization of the company at the price I now have an option on the stock, and were her owners disposed, they could easily sell their properties for much more than they are now receiving in full payment for them in the stock of the company.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption.

PRaises DECISION

SEABOARD AIR LINE PRESIDENT TALKS OF MERGER OPINION.

DECLARES IT A GREAT BOON

IS A BLESSING TO RAILWAY AND BUSINESS INTERESTS.

An Important Result of the Protection of Independent Systems and Holders of Their Stock—Of Large Benefit to the Big Lines Also.

Richmond, Va., April 12.—The decision of the United States circuit court of appeals in the Northern Securities case was pronounced by John Skellon Williams, president of the Seaboard Air Line railway, in an interview today, one of the greatest blessings and brightest promises for the railroad lines and general business that the country could have.

He said that independent roads and systems are by this decision assured that the connecting lines with whom they interchange business cannot be brought up by some powerful competitor of their own and of such friendly connecting lines, and that the holders of the securities in independent systems will be assured that their interests cannot be jeopardized by the sale of a majority of the shares of the company.

The decision, he said, seems to make impossible the success of the projected Southern Securities company which J. Pierpont Morgan proposed, the organization forming certain important roads in the South.

Prosecution of Coal Trust Urged.

Washington, April 12.—The executive committee of the American Anti-Trust League have sent Attorney General Knox a letter in which they congratulate the department of justice on the conspicuous success its efforts have achieved in securing a vital and far-reaching judicial interpretation of the Sherman anti-trust act of 1900.

WILD DAY IN WHEAT PIT.

Armour Manipulates the Market and Shakes Out Small Holders.

Chicago, April 12.—Wheat prices went wild on the board of trade yesterday, first going in an upward direction, then falling in a way which for a time made traders believe that the bottom had dropped out of the market, and later recovering.

PRESIDENT HUNTING LIONS.

Is Believed to Be Off on a Chase With Trained Dogs.

Cinnabar, Mont., April 12.—It is generally believed here that the president, with Major Pitcher and the escort, are off in the vicinity of Yanceys on a mountain lion hunt.

COLONEL WILDER INDICTED.

Wealthy New Yorker Is Charged With Bribing Witnesses.

Huntington, W. Va., April 12.—Colonel V. A. Wilder, of New York, leading representative of the King syndicate, now suing in the federal court to recover 500,000 acres of valuable lands in the Virginias, was indicted here last night for conspiracy, it being alleged that he paid a certain sum to witnesses to testify regarding certain boundary lines contrary to the previous testimony of the witnesses.

CROKER IS NOT TO RETURN.

Says His Last Announcement on the Subject Was Final.

New York, April 12.—Richard Croker is not returning to New York in July, or at any other time, cables the World's London representative. Replying to an inquiry, he telegraphs from Letcombe Regis: "My last announcement was final. Croker." In this announcement Mr. Croker said: "Once and for all I am not returning to New York."

AN IOWA TOWN SCORCHED.

Marshalltown, Ia., April 12.—Fire which started this morning at Dywidd with an explosion in J. A. Dayton's store destroyed that and Mayer & Lonsden's drug store, Weitz & Schroeder's market and the postoffice. Dywidd cannot be reached by wire tonight and it is impossible to learn the amount of the loss.

ACCUSED OF PLOT TO KILL.

Akron, Colo., April 12.—Charged with a conspiracy to kill Joseph Meenan, who was shot to death near his ranch, fourteen miles from here, on the night of April 3, George I. Tuttle, Parry Tuttle, Frank Irvine, Elmer Shanks and Clinton Bensdill were arrested today. George I. Tuttle is a prominent man in this section.

MORO BATTLE WAS BLOODY.

Bacolod Rebels Fought Like Demons When Attacked by Americans.

Manila, April 12.—The investment of Bacolod, Iloilo and Mindanao, which was captured by Captain Pershing's forces, after a fight in which 100 Moros were killed, occupied three days. The final assault was made at noon Wednesday. Desperate fighting took place inside the forts. Seven cannon were captured and eleven Americans (not three, as previously called), were wounded, a few of them seriously. It is probable that all the Americans will recover.

IS A BLESSING TO RAILWAY AND BUSINESS INTERESTS.

The column approached Bacolod early on Monday and found new forts, which had been a year under construction, flying battle-flags. The Moros did not seem to be attacked, but fired a volley, which wounded two Americans. Captain Pershing then decided to bombard the fortifications and McNair's and Gately's batteries took up positions and shelled the forts and works until Wednesday morning. The infantry and cavalry supported the attack. Many of the Moros left the forts on Monday and Tuesday nights and escaped in boats on the lake.

The assault on Wednesday was carefully prepared. The column carried forward a bamboo bridge, on which the troops crossed the most under fire and afterward scaled the walls. The fighting inside the forts was most desperate. Sixty dead Moros were found inside the walls and forty were killed in the trenches. The whereabouts of the sultan of Bacolod is not known. He is believed to have escaped Monday night.

BRIGHAM YOUNG DEAD.

Prominent Leader of Mormon Church Expires at Salt Lake.

Salt Lake, Utah, April 12.—Brigham Young, president of the council of the twelve apostles of the Mormon church, died last night. He was born at Kirtland, Ohio, in 1806, and was the eldest son of President Brigham Young.

Throughout his life, Brigham Young was prominently identified with the work of the Mormon church, both at home and abroad. He was a member of the Utah legislature several terms, and had occupied many positions of honor and trust.

Other Obituary Mention.

Salt Lake, Utah, April 12.—Colonel Bill Root, aged sixty, a frontiersman, companion of "Buffalo Bill" and friend of Bill Nye during the latter's reportorial days in Laramie, Wyo., and several days in Laramie, Wyo., died today. He was one of the largest manufacturers of water wheels in the United States.

Los Angeles, Cal., April 12.—S. Morgan Smith, aged sixty-five, president of the Morgan Smith company of York, Pa., died here today. He was one of the largest manufacturers of water wheels in the United States.

Louisville, Ky., April 12.—Vicar George Bouchet, of the Roman Catholic diocese of Louisville, died today. He was stricken with apoplexy while at prayer last night. He was born in France seventy-six years ago.

PROMOTIONS SOLD TO CLERKS.

Investigation of Postal Scandal Brings Out Startling Revelations.

Washington, April 12.—Startling revelations have resulted from the investigation which has been going on for some time into case No. 2 in the postoffice department's catalogue of scandals. Detailed charges have been filed at the department alleging the existence of a powerful "promotion syndicate," whose operations have included the postal service of the entire country and whose methods and influence have rendered practically null and void the "merit system," which is nominally in effect.

SPRING HAS COME

and our appetite probably has become fastidious with the balmy days and craves something delicate and tempting. We have provided for it with delicious Spring Lamb, Broiling Chickens, Turkeys, Ducks and Roasting Chickens. Our Sugar Cured Hams and Bacon are toothsome and appetizing.

FRANK W. HATHWAY'S.

PALACE MEAT MARKET.

Van Cott Declared to Be Innocent. It is expressly stated in the charges that Postmaster Van Cott is altogether innocent of any connection with the syndicate, and that its operations were conducted without his knowledge. The charges are exceedingly circumstantial. In addition to naming Well as the New York agent of the syndicate, a number of clerks in the New York office are mentioned as having bought their recent promotions, and it is asserted that all the allegations contained in the document can be verified upon investigation.

THE PERPETUAL WAR

There is always a fight going on in every human body between health and disease. On one side are poor food, bad air, over-work, worry, colds, accidents. On the other are sunshine, rest, cheerfulness and nourishment. The reason Scott's Emulsion fights so powerfully for health is because it gives so much more nourishment than you can get in any other way. Get in the sunlight and try Scott's Emulsion.

THE PERPETUAL WAR

ANT-STRIKE LAWS ARE ENACTED IN HOLLAND.

WILL TAKE EFFECT IMMEDIATELY

PASSAGE OF MEASURES RESENTED BY THE PEOPLE.

Labor Troubles Continue in Some Cities but Will Be Suppressed, if Necessary by the Kingdom's Entire Military Strength.

The Hague, April 12.—The strike-opposed labor bills to prevent such on government railways were signed by Queen Wilhelmina yesterday after being passed by an urgent session of the first chamber of the Netherlands parliament. The whole military and naval force of the kingdom will now be used, if necessary, to quell the strike. It is predicted by government officials today that the trouble will soon be ended.

Strike Considered a Fiasco.

Cowardly vacillation on the part of the strike leaders has turned the Dutch labor world topsy-turvy. Politically the strike may be reckoned a fiasco. The struggle is ended as far as The Hague is concerned. In Utrecht, Harlem, Rotterdam and elsewhere, however, the agitation continues. Mr. Otterspoor, president of The Hague committee, said today to the correspondent: "Lack of money caused the collapse of the general movement. The government had stated its plans to win foreign support could not be matured soon enough. The problem involved in Premier Kuypers' measures must be solved in a manner that leaves the laborer no cause for complaint, or there can be no peace in Holland. We will take such action as appears wise when the existing situation clears up."

Weak Strike Leadership Condemned.

That the resentment toward the course pursued by the government springs from the people and not from the socialist political headquarters is illustrated by the angry revolt of the rank and file when the leaders capitulated. Telegrams from foreign countries condemn the weak leadership of the strike agitators. The house of J. A. Brummeler was struck by lightning. Mrs. Brummeler was shocked, and may not survive. William C. Morton, a Pere Marquette employe, was struck by lightning. His condition is reported as serious. The fruit orchards were badly damaged.

Michigan City Visited by a Destructive and Terrific Storm.

Grand Rapids, Mich., April 12.—A terrific storm struck this city last evening. In twenty minutes two inches of rain fell. Hail stones as large as walnuts broke windows and did much damage. The house of J. A. Brummeler was struck by lightning. Mrs. Brummeler was shocked, and may not survive. William C. Morton, a Pere Marquette employe, was struck by lightning. His condition is reported as serious. The fruit orchards were badly damaged.

THE PERPETUAL WAR

There is always a fight going on in every human body between health and disease. On one side are poor food, bad air, over-work, worry, colds, accidents. On the other are sunshine, rest, cheerfulness and nourishment. The reason Scott's Emulsion fights so powerfully for health is because it gives so much more nourishment than you can get in any other way. Get in the sunlight and try Scott's Emulsion.

THE PERPETUAL WAR

ANT-STRIKE LAWS ARE ENACTED IN HOLLAND.

WILL TAKE EFFECT IMMEDIATELY

PASSAGE OF MEASURES RESENTED BY THE PEOPLE.

Labor Troubles Continue in Some Cities but Will Be Suppressed, if Necessary by the Kingdom's Entire Military Strength.

The Hague, April 12.—The strike-opposed labor bills to prevent such on government railways were signed by Queen Wilhelmina yesterday after being passed by an urgent session of the first chamber of the Netherlands parliament. The whole military and naval force of the kingdom will now be used, if necessary, to quell the strike. It is predicted by government officials today that the trouble will soon be ended.

Strike Considered a Fiasco.

Cowardly vacillation on the part of the strike leaders has turned the Dutch labor world topsy-turvy. Politically the strike may be reckoned a fiasco. The struggle is ended as far as The Hague is concerned. In Utrecht, Harlem, Rotterdam and elsewhere, however, the agitation continues. Mr. Otterspoor, president of The Hague committee, said today to the correspondent: "Lack of money caused the collapse of the general movement. The government had stated its plans to win foreign support could not be matured soon enough. The problem involved in Premier Kuypers' measures must be solved in a manner that leaves the laborer no cause for complaint, or there can be no peace in Holland. We will take such action as appears wise when the existing situation clears up."

Weak Strike Leadership Condemned.

That the resentment toward the course pursued by the government springs from the people and not from the socialist political headquarters is illustrated by the angry revolt of the rank and file when the leaders capitulated. Telegrams from foreign countries condemn the weak leadership of the strike agitators. The house of J. A. Brummeler was struck by lightning. Mrs. Brummeler was shocked, and may not survive. William C. Morton, a Pere Marquette employe, was struck by lightning. His condition is reported as serious

REPORT OF THE CONDITION OF THE

First National Bank

At Marquette, Michigan, at the close of business April 10, 1903.

FOR FIVE YEARS.

Dispute Has Been Carried on Concerning Land in Schoolcraft.

The land office has received the decision of the commissioner in the case of Robert C. McKesson vs. Elmer X. Orr, a former postmaster at Manistique. Eighty acres in Schoolcraft county are affected and the dispute concerning them is of over five years' standing. The present contest is the third that has been instituted. The commissioner has just authorized Mr. Scadden, the local register, to issue a final certificate to Mr. Orr, so there will be no additional chapters in this case. Mr. Orr was the original filer. This suit was instituted by Randolph Stoll, with McKesson for his principal witness. They lost the case. Then McKesson contested, with Stoll for his principal witness, he too failing. Finally McKesson filed objections to the title levied against him, but he has again been turned down by the recent decision of the commissioner. The eighty acre tract is said to have a considerable value.

THE CHICAGO MARKETS.

Wheat Was Notable Saturday for Violent Fluctuations.

Laidley & Co. said of the Chicago markets:

"After a wild and excited opening, wheat sold up 1 cent a bushel and off again just as rapidly 3 cents a bushel. From this price the market recovered about 2 cents and again settled off, closing 3/4¢ above Thursday for May and 1 1/2¢ for July. July was heavily sold by the Southwest. Armour controls the May option. Statistics cut no figure whatever.

"Corn, in direct contrast to Thursday, remained strong throughout the session, closing 3/4¢ above. We would not be surprised to see May corn follow May wheat, as the positions are identical, and we think it should be bought on every little setback.

"Oats remained rather dull and inactive, closing at Thursday's prices. The receipts were a little heavier, although the estimates are small. The cash demand was reported somewhat better. They should follow corn.

WILL SURELY COME.

Secretary Hopkins Writes Concerning Newspapermen's Plans.

George W. Hibbard, general passenger agent of the South Shore, has heard from Mr. Hopkins, secretary of the Michigan Press association, in answer to his letter conveying to Mr. Hopkins knowledge of the South Shore's desire to do all it can to make pleasant and eventual the association's visit to the North country. The proposed joint will be made, and it is expected that the newspaper men and commercial organizations here and in the copper country will do all they can to insure the visitors a good time. This matter will be taken up later. Mr. Hopkins says in part:

"Personally and on behalf of the Association I want to convey our gratitude for the very gracious manner in which you received my intimation that we were coming to you, whether or no. I know all too well that what you say concerning the ignorance of the people here, and to the wonderfully rich country and the especially broad-minded good people that you have up north is so. It should not be so. I hope it will be so when we return and tell about that rich country and the good people that inhabit it. I have had a glimpse of the upper country because of going on two legislative junkets, and I have learned and I have learned to love your men because of a very close acquaintance with one of them, Thomas H. Dunstan, now gone before. The glimpses of your land and your people have made me hungry for more, and I esteem it especially fortunate for me that I have to get the Association to take the trip before I know it will be a success chalked up for my administration of the affairs of the Association.

"It all comes so easy. You good people seem so willing to do it all yourselves. The new junket I had for every inch of ground gained. Knox is taking care of everything at Menominee, and you say: 'How much time can you give us; leave it to us, and we will fix it for you.' Jove, it is refreshing and quite typical of the upper country way of doing things. But really our time is limited and the limit cannot be sprung. We are to spend Tuesday and Wednesday, June 23 and 24, at the Soo for our meeting proper. We arrive there the night before, the 22nd. Now if you want to send us out of the Soo the evening of the 21st, I cannot see why it is not going to be possible for us to leave. That would give us the 25th for Marquette and we want to spend the 26th at Houghton. We are due in Menominee the morning of the 27th and we take the trip across the lake from Menominee to the new kitchen, which is not yet in use. This room has been used as a chapel since the chapel proper was pronounced unsafe for general use.

Members of the Marquette Light Infantry and others will attend the Light Guards' Easter Monday ball at Ishpeming tonight, leaving here at 8 o'clock in a special train over the South Shore road. The round trip tickets will be fifty cents. Returning, the Marquette delegation will come down on the train leaving Ishpeming at 4 o'clock Tuesday morning.

The electric light and power commission is raising the small windlasses attached to the cables by which the arc lamps are lowered for trimming to a point about six feet above the ground, where they cannot be reached by pedestrians. This precaution is taken to avoid a repetition of the accident in which Andrew Johnson lost his life early last Tuesday morning.

NOTICE.

Notice is hereby given that a special meeting of stockholders of the Marquette & Southeastern Railway company will be held at the office of said company in Marquette, Michigan, on May 19, 1903, at 12 o'clock, noon, for the purpose of ratifying the action of the stockholders of said company in entering into a contract for the acquisition and construction of the railroad of said company, and to authorize the execution and delivery of a first mortgage on all the property of the company to secure an issue of bonds, not to exceed, in the aggregate of par value, one million dollars, (\$1,000,000), and the transaction of such other business as may be before the meeting.

By order of the Board of Directors. JAMES H. HOYT, (4-13-03) Secretary.

Peacock's Hams and Bacon, the epicurean's delight.

STATE OF THE NATION'S TRADE.

Weekly Summaries of R. G. Dun & Co. and Bradstreet's.

New York, April 12—R. G. Dun & Co.'s weekly Trade Review says: "Aside from the prevalence of strikes and the possibility of further interruption to industrial activity next month on this account, the business outlook is more gratifying. Late frosts caused some damage early in the week, but the low temperature did not continue and in most sections the agricultural products had not advanced sufficiently to suffer materially, while the prospects are bright for large crops and heavy sales of fertilizers testify to extensive operations. There is less complaint regarding delivery, due to better traffic facilities. The railway earnings in March increased 13.8 per cent, compared with last year, and 24.1 per cent compared with 1901. "Under significant conditions is attached to the recent reduction in the prices of Southern pig iron and throughout the country a tendency to delay placing contracts is noticed. No other cut in quotations has followed, and in the trade it is believed that after a temporary uneasiness there will be a resumption of buying on the former liberal scale. Finished steel is eagerly sought, and there is increased activity in outdoor work. Makers of agricultural implements and all kinds of machinery have more business than can be handled promptly. The pig iron output has bounded upwards with the better movement of fuel, and in a short time the production will be at the rate of 20,000,000 tons annually. These figures are better appreciated when it is remembered they are more than double the maximum year's output prior to 1890. "Beyond a moderate revival of export purchases for China, there is no increase in the sales of cotton goods, both sellers and buyers awaiting some more definite information as to the future. Another rise in raw cotton has weakened down several mills which have light supplies and few contracts. Wool has been fairly steady since the month opened, but none of the March decline is recovered. "Bradstreet's says, in part: "The prices during March showed exceptional strength, despite the seasonal changes downward in dairy products, grains and fuel, partly counteracted, however, by advances in livestock and meats. Lumber and building materials of all kinds have remained in exceptional good demand in spite of numerous strikes, and finished products in iron and steel show strength, but the cruder forms, such as pig iron, have weakened perceptibly, ostensibly because of the lowering of the quotations on Southern iron but really because with improved transportation and better supplies of the raw materials an enlargement of production to the highest point ever known. "The situation in coffee is an interesting one. After a decline early in the week, which brought the future deliveries to the lowest prices ever recorded, and on which decline an extensive liquidation of former bull interests was reported, a slight upturn was noted, due to reports that Brazil will adopt radical measures, such as burning the surplus supplies of the low grades, in order to lighten the load on the market. This is regarded, however, as hardly possible of fulfillment. "After a further decline, due to dullness in the refined market and the pressure of supplies, raw sugar has steadied at what is said by authorities to be the bottom. "The exports of wheat (including flour) for the week total 2,633,000 bushels, against 2,842,000 in the week a year ago; since July 1 they are 178,213,000 bushels, against 202,688,000 last season. The corn exports are 2,655,000 bushels, against 159,000 a year ago, and for the fiscal year 49,902,000 bushels, against 24,023,000 last season."

PROMOTION FOR GAILLARD.

He Has Been Selected as an Officer of the General Staff.

Captain David D. Gaillard, of the engineer corps of the United States army, who has been the engineer in charge of the government river and harbor work in the Lake Superior district for the past two years, has been selected as one of the officers of the newly-created general staff of the United States army. Inasmuch as the law creating the general staff does not become operative until Aug 15 of this year, Captain Gaillard will continue at his present post at least until that time. It is not probable that he may be left in charge of the Lake Superior work until the close of the present season next fall. The detail on the general staff is for a term of four years, and whenever he is ordered to report it will sever the captain's connection with the river and harbor work. Just what the duties of his new position will be is uncertain. The general staff of the European armies have a similar position, and in brief, have charge of the entire mechanism of the army organization. They formulate the regulations for the mobilizing of the army at any desired point in the country in case of actual hostilities, lay out plans for subsistence and transportation, organize the various branches of the auxiliary services and in brief, have charge of the entire mechanism of the army organization. While a large proportion of the members of the general staff will probably be located at Washington, it is likely that some will remain at the headquarters of the various army departments. Some of them will almost certainly be ordered to the Philippines, to study the conditions there and to have direct charge of the work of the general staff in that section of Uncle Sam's vast domain. There was much opposition to the law, which was only passed at the last session of congress after a spirited and at times almost bitter fight. The chief of the general staff will have the entire direction of the details of army affairs through his subordinate on the general staff. Selection to serve on the general staff is a distinction which speaks well for the standing of Captain Gaillard in army circles.

CITY BRIEVES.

Today's weather: Probably threatening; stationary temperature; variable winds, mostly fresh northerly.

Yesterday's temperature: 7 a. m., 36 degrees; noon, 37 degrees; 7 p. m., 39 degrees. Maximum, 39 degrees; minimum, 35 degrees.

Marshall Tom Gribble of Negaunee was a Marquette visitor Saturday.

John E. McCarthy came down from Duluth Saturday, to spend Easter.

Mrs. Grace Tucker, mother of George Tucker, died last evening shortly after 6 o'clock.

Miss Anna M. Chandler returned last evening to Escanaba, after spending a few days of her vacation here.

The sessions of the public schools will be resumed this morning, after a week's vacation for the Easter season.

A social hall will be given at Fraternity Hall Wednesday night by St. Cecilia's court of the Catholic Order of Foresters.

Miss Frances Russell and Miss Gen Sherman arrived home Saturday afternoon from a week's visit at Detroit and Ann Arbor.

If the weather is fair today Street Commissioner French will probably get his "white wings" out and commence the task of putting Marquette streets in orderly condition.

The death of George W. Sparks occurred Saturday at the residence of his daughter, Mrs. E. S. Bice, 326 East Hewitt avenue. The remains were taken to Detroit for interment.

The two Finns who were concerned in the brawl in Aho's saloon, Third street, Friday afternoon were taken before Justice Byrne Saturday morning, and assessed nominal fines, it being shown that the row in which they were involved did not amount to much.

Father J. G. Pinten, assisted by the choir of St. Peter's cathedral, said high mass at the branch of state prison at 7 o'clock yesterday morning. The mass was said in the new kitchen, which is not yet in use. This room has been used as a chapel since the chapel proper was pronounced unsafe for general use.

Members of the Marquette Light Infantry and others will attend the Light Guards' Easter Monday ball at Ishpeming tonight, leaving here at 8 o'clock in a special train over the South Shore road. The round trip tickets will be fifty cents. Returning, the Marquette delegation will come down on the train leaving Ishpeming at 4 o'clock Tuesday morning.

The electric light and power commission is raising the small windlasses attached to the cables by which the arc lamps are lowered for trimming to a point about six feet above the ground, where they cannot be reached by pedestrians. This precaution is taken to avoid a repetition of the accident in which Andrew Johnson lost his life early last Tuesday morning.

NOTICE.

Notice is hereby given that a special meeting of stockholders of the Marquette & Southeastern Railway company will be held at the office of said company in Marquette, Michigan, on May 19, 1903, at 12 o'clock, noon, for the purpose of ratifying the action of the stockholders of said company in entering into a contract for the acquisition and construction of the railroad of said company, and to authorize the execution and delivery of a first mortgage on all the property of the company to secure an issue of bonds, not to exceed, in the aggregate of par value, one million dollars, (\$1,000,000), and the transaction of such other business as may be before the meeting.

By order of the Board of Directors. JAMES H. HOYT, (4-13-03) Secretary.

SUFFERED SERIOUS WOUND.

Stephen Slaymaker, the Boy Soprano, Accidentally Shot Saturday.

Saturday afternoon the city was shocked to learn that Stephen Slaymaker, the well known boy soprano singer, was hanging between life and death as the result of a dangerous revolver wound. He is still in a critical condition and it will not be known for several days whether or not he will survive. The details of the accident are not positively known, for the boy was alone when it occurred and he has not yet been in a condition to give a connected or reliable account of the affair.

He had been playing with a neighbor's boy of about the same age until about 4 o'clock, when he returned to Miss Carrie Sweet's residence, where he boarded. He went upstairs to the apartments of one of the young men who room at the place and there found several firearms. In about twenty minutes a shot was heard. The door was the first to be opened, and there where he found the boy lying prostrate on the floor, though evidently not suffering much pain. Blood was flowing from a wound about two inches below the heart and an inch to the right, and from another in the back, but quite a distance to the left. The wound in the arm, showing that the bullet had passed clear through the body. The lead was found afterwards, imbedded in the woodwork of a dresser. A forty-four calibre revolver with one chamber emptied was found lying by the side of the suffering lad, it being the weapon by which the fatal wound had been inflicted. Medical assistance was secured as soon as possible and the doctors did everything in their power to save the boy's life. His mother arrived yesterday morning, in response to a telegram. Firearms of all kinds held a great fascination for the youth, and he, though he had been repeatedly warned against handling them.

MAY BE DROWNED.

A Lumberjack Thought to Have Met His Death in Mulligan's Creek.

An unknown man is thought to have been drowned in Mulligan's Creek recently. The belief is not based on very conclusive evidence, but it has been sufficient to lead several men to search the bed of the stream in the hope of finding the body of the supposed unfortunate. It appears that a dam was built at a certain point on the creek for the purpose of floating logs. There had been a dispute between rival logging concerns about the right to use the stream, but Ferguson brothers had put in their logs before any of the others and had detailed a couple of men to attend the dam, lest it might be destroyed before everything was in readiness for the drive. A short time ago these men discovered the tracks of a man leading to a fallen tree whose trunk bridged the creek. The footprints were plainly visible and could be followed on the prostrate tree, but about half way over they came to an abrupt end, and, though a thorough search was made along both sides of the creek, not another trace of them could be found. The men at once came to the conclusion that someone had fallen from the tree trunk and had been drowned. The dam had been cut away and the body is supposed to have been swept down stream along with the logs. None of the lumbermen in any of the camps are missing and it has been impossible to ascertain the probable identity of the supposed victim.

TO GO TO HOUGHTON.

Zenith Lodge Will Be Represented at the Pythian Reunion.

April 30 representatives of the Knights of Pythias from all parts of the peninsula will assemble at Houghton to hold a jubilee and reunion. The big feature will be a competitive drill by the degree teams. A beautiful loving cup will be presented to the winner. The officers of the grand lodge will be present and will act as judges in the contest. From this end of the peninsula the Soo, Marquette, Escanaba, and Ishpeming will send teams ranging in number from ten to sixteen. The full team will go from here and will make a hard trip for the prize. John S. Olson is the captain and he commands a very well drilled company that will rank with the best teams that will take part in the contest. The Ishpeming delegation will leave Thursday morning, April 30. Tickets will be good to return until Sunday and it is expected that a number besides the members of the lodge will take advantage of the special rates to make the trip to the copper country town.

MINSTRELS TUESDAY.

Headed by the well known comedian, George Titchner, Mahara minstrels will hold forth at the opera house tomorrow night. Traveling in their own car, carrying a large equipment of scenery and effects, many different costumes, a brass band and orchestra and giving a fine street parade, Mahara Bros. seem to be able to substantiate their claim that they have a minstrel aggregation that if equalled cannot be excelled. Mahara's famous minstrel band will give a street parade at noon.

WARNING TO FINLANDERS.

They Cannot Return to Native Land and Escape Army Service.

A circular, giving valuable information to naturalized Finnish citizens of this country who have not served the required time in the army of the czar and who may be thinking of returning to their native country for a visit, has been issued by the state department at Washington. Should the information be heeded it may save a large number of Finnish citizens from being impressed into the army service upon their return to Finland or from possible banishment far away from their homes. That Finnish citizens may return to Finland and still be protected by the United States government is a mistaken one. The jurisdiction of this country ceases in such cases. The circular, which is an all important one, is as follows: "A Russian is entitled to perpetual military service at the beginning of the twenty-first year of his age, and remains on the rolls to the end of his forty-third year; but at the age of fifteen he is considered to be among those who are liable to perform military service, and he cannot, after reaching that age, ask for permission to become a citizen of a foreign country, unless he has performed his military service. A Russian who becomes a citizen of another country without imperial consent is liable under Russian law to the loss of all his civil rights and to perpetual banishment from the empire. If he returns he is liable to deportation to Siberia. When a Russian emigrates before he is fifteen years old, and subsequently becomes a citizen of another country, he is equally liable to punishment, unless when he attained the age of twenty-one years he took steps necessary to obtain the consent of the emperor to his expatriation. There is no treaty between the United States and Russia defining the status of American citizens of Russian birth upon their return to Russia."

RESOLUTIONS OF RESPECT.

Resolutions of respect adopted by Charles H. Towne post, No. 8, G. A. R.: Whereas, Death has entered the home of our esteemed Comrade Welsh and removed from his earthly home their beloved son and brother, Joseph Welsh; Resolved, That circumstances combine to make his death doubly sad and to cause a feeling of deep sorrow that one so young and full of bright anticipations for the future should so suddenly be called away. While we recognize the hand of an all wise providence and know that our Heavenly Father doth not afflict willingly, we would bear in consideration to the loved ones and say, Thy will be done; Resolved, That we extend our sympathy to the bereaved family and would commend them to Him who knows our hearts and pours upon all the balm of consolation; Resolved, That a copy of these resolutions be sent to the bereaved family and inserted in the Negaunee Iron Herald, the Iron Ore and The Mining Journal.

A. C. WEAD, JOHN SCOTT, THOMAS GAINOR, Committee.

ISHPEMING IN BRIEF.

Saturday was pay day for the city employees.

Gunnar Norberry of Sagola is here visiting friends.

Albert Hampton is home from the Sanks Head mine.

Mrs. M. M. Allen left last week for a visit at her home in Kentucky.

Miss Ida Schilling is here from the copper country, visiting her parents.

August Brodine, Jr., formerly of the Nelson House, has gone to Gladstone to take a position in a hotel.

Gordon Sheldon, an engineer at the Champion copper mine, on the South range, spent Sunday in town.

Gordon Rogers, a telegraph operator in the employ of the Northwestern road at Escanaba, is in town visiting his parents.

Dr. C. M. Raynald of Birmingham and son, Dr. G. P. Raynald, have been the guests of Dr. C. M. Leonard for several days.

Sellwood & Co. advertise for two experienced women clerks. Those of Finnish and of Irish nationality are preferred.

John Swahn and family have removed here from Gladstone. Mr. Swahn has taken a position as traveling salesman for a Chicago firm.

Miss Alice Swanson, of Sellwood's dry goods store, has taken the position of operator at the telephone central at the Lake Superior office.

Frank U. Nelson is here from the Helen mine, at Schipitoten. He expects to leave in a short time for Utah, where he will engage in mining.

and Ishpeming talent, will begin tomorrow morning at 9 o'clock at Tillson's.

The Easter services at the various churches were all largely attended yesterday. The music was a special feature. At Grace church the full choir of forty-seven voices rendered one of the most elaborate programs of music that has ever been given at the church.

Copies of a piano selection, "Spring Breezes," the composition of Eimer Tofelisen, have been received from the publishers. Musicians have pronounced very favorable judgment on the piece. The composer is an accomplished pianist and also an unusually good player on the violin.

Saturday night R. W. Smith started for Kansas City, where he will take his new position as traveling adjuster of the Firemen's Provident Fund Insurance company. His territory will cover Missouri, Kansas and Oklahoma, with headquarters at Kansas City. Mr. Smith expected to spend a week at Menominee, Chicago and other points before proceeding to Kansas City.

IRON NOTES.

Corrigan, McKinney & Co. have disposed of their big pile of basic ore at the Great Western mine and it will be hurried to the docks as soon as the shipping season is opened. The basic ore is obtained from portions of the mine where the ore is charged with manganese, making it undesirable for the general purposes and the market on this particular ore is limited. The Bristol has heretofore held the greater part of the market, but the great increase in the manufacture of basic iron has increased the avenues for the use of such ore. It was supposed that much of this particular ore would prove to be a drug on the market and there was prospect, early in the year, of much of the pile being carried over.

A big mining deal has just been completed whereby the Shenango Furnace company has secured a lease of the southwest quarter of the northwest quarter of section 16 of township 35 north, range 18 west, which is owned by R. B. Whiteside and the Rouchel Iron company. They receive a bonus of about \$100,000 and a royalty of 20 cents a ton. The land was originally explored by the steel corporation, but it substantially failed to take it, on account of a failure to make terms on certain details. The tract which is near the Sharon mine contains a deposit of 7,000,000 tons. The Mueller property which has been in litigation recently, adjoins the new mine on the south. The lease provides for a minimum output of 50,000 tons for the first two years, 1903 and 1904, and 100,000 tons a year thereafter. W. A. Barrows, Jr., manager of the Shenango Furnace company, has returned from the east and says that the report that the firm of W. P. Snyder & Co. has taken over the Kinney mine at Buhl is without foundation. The report is also officially denied by the Republic Iron & Steel company.

Senator E. B. Hawkins, manager for the Drake & Stratton company, which has a large number of mine stripping contracts on the Mesaba, says the company will remove about 1,900,000 cubic yards of material during the present year. Nine hundred men will be employed. The firm has a contract at the new Leonard mine, also known as the South Clark, near Chisholm, for the removal of 5,000,000 cubic yards, or about three years' work. The stripping of the Leonard mine is one of the largest contracts awarded on the Mesaba in recent years. The amount of material to be removed is about 2,000,000 cubic yards, of which 350,000 yards will be taken out this year. The ore deposit in this property has a surface of sixty feet in depth to be removed. The mine is to be stripped in the usual manner of mining. In addition to the Leonard, the firm has contracts for stripping the new Crosby mine near Nashauk, and the Morris mine near Hibbing. The latter property is named after Judge Page Morris, of Duluth, who has an interest in it. Among the old properties at which the stripping firm has contracts are the Stevenson, Fayal and Sharon mines. The fact that the Leonard mine is to be stripped is of more than passing interest. Formerly it would have been thought that the surface over the ore was too deep for stripping at the Fayal, but sixty feet is more than the average of a few years ago. The milling system is growing in popularity.

At the Vivian mine of the Verona Iron company on the Menominee range many improvements are in progress, says the Iron Mountain Press. Two new shafts have been sunk during the winter, several hundred feet to the south and west of No. 1 and several hundred feet lower. No. 1 shaft on the hill is soon to be abandoned and the machinery will be removed at Nos. 2 and 3. At No. 2 the shaft has been sunk to an underlay, about eighty-five feet in depth. The distance to the first level is seventy-five feet and from this there is a north crosscut at present one hundred feet in length, passing through the body. The milling system will be employed in mining the ore. This cross-cut has passed through twenty-five feet of slate and seventy-five feet of about forty per cent ore. The pocket is twenty by twenty-two feet in size and the total height of the shaft-house is fifty feet. The size of the shaft inside the collar is five by ten feet. The machinery at this shaft consists of one 125-horse power boiler, which is to be supplemented by another boiler of the same capacity when No. 1 shaft is abandoned. A new compressor has been installed and a double boiler will soon be replaced by a larger one. The new engine-house at this shaft is sixty-five by twenty-five feet in size and is sheeted with iron. A large office and warehouse building has been erected in the near vicinity, fifty by twenty feet in size, and a large dry-house is in course of construction. New No. 3 shaft is located several hundred feet further west. It is a two compartment affair, five by fourteen feet within the timbers; provision is also made for a laddervay. This shaft is a vertical one. It has reached a depth of seventy-five feet.

WANTED—Irish girl, also Finnish girl, to clerk in dry goods department. Experienced girls preferred. J. Sellwood & Co. 4-13-1d

LOST—A bunch of seven keys. Finder will oblige the owner by leaving at the Post office. 4-13-1d

SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run down condition. It contains no strong mineral or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep when in a low state of health, or sick and worn out with work or worry.

S. S. S. improves the appetite, aids the digestion and reinforces the system, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, nausea, shortness of breath, crossness and dizziness that so often come after eating.

S. S. S. is not only the best tonic but possesses alterative or purifying properties, and if there is any taint, humor or poison in the blood it searches it out, and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by a blood purifier and tonic combined, or such a remedy as S. S. S.

If you suffer from debility, insomnia, nervousness, loss of appetite, bad digestion, or any of the symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system as S. S. S.

NOVELTIES IN **TAILOR-MADE HATS.** MISS O. WEBB.

OTHER WORLDS.

In recent years the interest excited among all thinking people as to whether the stars and planets are inhabited or not, has made the subject one of enormous importance. Our sole knowledge of the people on other worlds and how far the people there differ from our inhabitants, can only be guessed by comparison with animal nature on this small sphere of ours. More important to us is a knowledge of ourselves. "KNOW THYSELF" was an old Greek thought. How to take care of one's own body is not so simple as some think; the human mechanism is a wonderful thing and requires watching.

HINTS FOR RIGHT LIVING.

One man who has done more to teach the American people how to care for their bodies than almost any other, is Dr. R. V. Pierce, of Buffalo, N. Y., the Author of the "Common Sense Medical Adviser." He says: It is not the quantity of the food eaten which produces strength and health (for some people can keep strong on a very meagre diet), but it is how much food is absorbed and assimilated by the blood and carried to nourish every organ of the body. It is, therefore, vitally necessary for the body that the stomach be in a healthy state. If disease of the stomach, or what is called "stomach trouble," prevents proper nutrition then the heart, liver, lungs, and kidneys do not get proper food—they are not fed on rich red blood, and in consequence, begin to show signs of distress. Outwardly these signs may be pimples and eruptions on skin, pale face, sleepless nights, tired, languid feelings, or, by reason of the nerves not being fed on pure blood, they become starved, and we receive a warning in the pain we call neuralgia. Rheumatism, too, is a blood disease. After years of practice and study Dr. Pierce found that one of his prescriptions, made from the extracts of several plants, invariably produced a tonic effect upon the system. It helped the process of absorption of the healthy elements in the food and increased the red corpuscles of the blood, as well as eliminated the poisons from the system. This Alterative Extract he named "Dr. Pierce's Golden Medical Discovery," a medicine made entirely of botanical extracts and which does not contain alcohol. Some blood medicines do, and when alcohol touches the little red blood corpuscles they begin to shrink and are reduced to broken fragments and shapeless masses.

\$3,000 FORFEIT.

\$3,000 forfeit will be cheerfully paid, in lawful money of the United States, by the proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original statements and signatures of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people.

"Nine or ten years ago my health became very poor, and in 1892 was so far gone that good doctors pronounced my case the worst they had ever treated," writes Mr. Harvey Phipps, of Florence, Ala. "I had acute stomach trouble, liver complaint, catarrh, and was so nervous I could not sleep. Got so bad I rolled in bed with but a few minutes' sleep each night for three months. I finally took Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Pleasant Pellets, and in a few days noticed a decided improvement. I commenced to get more rest at night and could eat with pleasure. When I had used three bottles of the 'Discovery' I was a new man; could eat mince pie for supper, go to bed at seven P. M. and get up at seven A. M. A few years later, owing to exposure and impure water, I contracted malaria. Three months' treatment by doctors failed to produce the desired results, so I got one bottle of the 'Golden Medical Discovery' and it fixed me up in good shape. Food has agreed with me perfectly since. I am now working every day in all kinds of weather, and think if I had not taken your medicines I would now be under the sod."

"About two years ago a rash appeared on the arms and legs of my nephew, a boy twelve years of age," writes H. Greenfield, Esq., of 313 East 104th Street, New York, N. Y. "We paid little attention to it at first but it kept on getting worse every day, and we finally went to our family physician who pronounced it a case of eczema, and said he could cure it in a short while. After treating it about two months it got worse instead of better. I advised the use of Dr. Pierce's Golden Medical Discovery and after using two bottles the patient began to improve. The itching abated; he could sleep better; his appetite increased, and we continued to use the 'Discovery' and 'Pellets' until the scales came off by the handful. We used in all twelve bottles, and his whole body is to-day as clear and smooth as a baby's. This is the most wonderful and complete cure that ever came under my observation."

FREE! Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing ONLY. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address: Dr. R. V. PIERCE, Buffalo, N. Y.

Negaunee and Vicinity.

WANT BETTER ROAD.

Demand for a Shorter and Better Drive-way Between Palmer and Swanzy.

A number of the business men and those who are interested in the development of the lands lying southeast of town have been giving some thought to the condition of the roads in that part of the county. The section in the vicinity of Swanzy and extending from there to Little Lake is being rapidly taken up, on account of prospective mineral finds. Many believe that further development work will lead to the discovery of large deposits of ore and during the coming summer much exploring will be carried on throughout a widely extended territory. A large part of the region is almost inaccessible from this direction by any route that can be traversed by any vehicles but those adapted to going over deer trails or old log roads. From here to Palmer the road is fairly good. The farmers who have settled on the lands about Green creek and the east branch of the Escanaba river have opened up a passable road to Palmer, but from Green's creek through to Swanzy the road is little better than a trail, which winds in and out among the jack pines. It is proposed that an earnest good roads agitation be started for the purpose of having this stretch improved, for it is felt that if it should be opened up the improvement of the other sections of the road would follow without much special effort. In order to get action in the desired direction it will be necessary to secure the co-operation of the officials of Sandus township, and possibly the authorities of Richmond as well. It is said that the highway fund now on hand is sufficient to improve the road. A good deal of work would be necessary to put the highway in good condition, and it should be undertaken as soon as possible, so that the road can be used during the summer.

A NEW STORE.

John E. Lindholm, acting as manager of the Swedish and Finnish Furniture & Hardware company, has been engaged for the past few days in establishing a store here. The Quinn store on Iron street recently vacated by John Stevens, has been leased and most of the stock has already been moved. Undertaking will be one of the most important features of the business. Mr. Lindholm conducts a similar store in Ishpeming, and the local establishment will be a branch. The manager is well known here, having formerly resided in this city.

Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases. Sold by People's Drug Store.

LOCAL LACONICS.

August Johnson went to Milwaukee Friday night.

Samuel Redfern went to Detroit Thursday, for a short visit.

Felix Pesquale has gone to Roslyn, Wash., to work in the coal mines.

Born to Mr. and Mrs. A. E. Hodgkins of Palmer, Saturday night, a girl.

William Hallman has resigned his position as clerk at John Shea's store.

Misses Florence and Ruth Wells are in Lansing, visiting their father, T. M. Wells.

Thomas Shandaney of Gladstone was here over Sunday, visiting friends and relatives.

L. H. Kellan and H. P. Johnson have each filed homestead claims near Cascade Junction.

William Smith of Houghton and F. B. Baird of St. Ignace were Negaunee visitors Friday.

Meyer & Harris, proprietors of the "Model Clothing Store," will go out of business in a few weeks.

J. Martin and Mike Tighe, who are employed at the Bank's head mine, are home for a few days' visit.

Joseph Andrews, who has been visiting here for some time, left Thursday on his return to Butte, Mont.

A couple of drunks were up before Justice Trathen Saturday morning. They paid up and were released.

Miss Florence Hemmings and her brother, Raymond, are visiting their father, Hans Hemmings, at Swanzy.

Hans Jensen has taken a position as section foreman on the Northwestern at Sandus, and has moved his family there.

Miss Barbara Kirchner has been taking a vacation from her duties at the postoffice, and has been visiting in Chicago the past week.

The employees of the American Bridge company who have been engaged in painting the Hartford shaft house expect to finish today.

The city schools will re-open this morning. The convent school will open again tomorrow morning, having been closed since last Tuesday.

Captain James Piper and son, Gordon, were expected home yesterday from Chicago, where a successful operation for appendicitis was performed upon the latter.

The funeral of Mrs. Martin Renne was held yesterday morning. Two other members of the family are seriously ill. Father Langner was called to Little Lake Friday to visit them.

Baseball practice has already begun on Harris field, where as many as four or five teams are frequently playing at the same time. The field affords an excellent place for the sport, as it is level and generally dry.

John Sundberg, employed as section foreman at Baraga, and Miss Laura G. Peterson of Negaunee, were united in marriage in Baraga, on the 31st of March. They will make their home in Baraga. —Lansing Sentinel.

TO CURE A COLD IN ONE DAY Cream Balsam Bronchitis Tablets. All drug druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

CATARRH AND HAY FEVER.

Liquid Cream Balz is becoming quite as popular in many localities as Ely's Cream Balsam. It is prepared for use in atomizers, and is highly prized by those who have been accustomed to call upon physicians for such a treatment. Many physicians are using and prescribing it. All the medicinal properties of the celebrated Cream Balz are contained in the Liquid form, which is 75 cents, including a spraying tube. All drug druggists, or by mail, Ely Brothers, 56 Warren St., New York.

Michigamme.

LIVELY ELECTION.

Largest Vote Cast in Michigamme in Years Was Polled.

All but two of the candidates on the Citizens' ticket were elected last week. John Dower, candidate for justice of the peace on the People's ticket and John Veal, candidate for school inspector, were the only candidates on that ticket who came out with flying colors. Mr. Dower was a winner by eight majority and Mr. Veal won by one vote.

The contest between John Sundberg and John E. Meroy, candidates for treasurer, was close, Sundberg being but five votes to the good.

Unusual interest was manifested and in consequence the largest vote polled here in years was cast. The total for the head of the ticket footed up 197, in the neighborhood of forty more than last spring. Following is a complete record of the votes cast for the several candidates:

Supervisor—C. F. Sundstrom, 109; James P. Scanlon, 88.

Clerk—G. J. Murray, 116. Mr. Murray was the only candidate without opposition.

Treasurer—John Sundberg, 100; John E. Meroy, 95.

Highway commissioner—Ole Elmes, 102; Louis Backus, 92.

Overseer of highways—William Pote, 119; Thomas Laramour, 73.

Justice of the peace, four years—John Hickey, 100; Gus J. Schwendeman, 94.

Justice of the peace, to fill vacancy—Peter Peterson, 92; John Dower, 100.

School inspector, two years—Charles Jacobson, 90; John Veal, 97.

Member board of education, two years—Peter Dolf, 115; John Bonat, 80.

Member board of review, two years—John Milroy, 111; Frank W. Mahjannu, 84.

Constable—Ingeborg Oie, 11; Mayrice J. Dower, 119; Frank L. Brown, 119; Albert Olson, 104; Peter Jacobson, 106; John Treddo, 71; Isadore Lacrosse, 72; Louis LeClair, 86; Michael Young, 87.

ELECTION IN SPUR.

George McDonald, who is recognized as one of the best political workers in Baraga county, was the only candidate on the People's ticket elected in Spur township. He defeated Joseph A. Thoney by one vote. Mr. Thoney was at the head of the Miners' ticket, which was largely supported by the employees of the Beaufort mine. Mr. McDonald's success was due to the fact that he had the support of the men who were generally believed before election that the entire Miners' ticket would win out, and Mr. Thoney's defeat was not only a disappointment but a surprise to his friends.

Seventy-nine votes were polled, and it is said that every voter in the township was out. Last spring in the neighborhood of sixty votes were cast. The successful candidates were as follows:

Supervisor—George McDonald.

Clerk—Maxwell Beaupre.

Treasurer—John Pote.

Highway commissioner—John Ryan, Sr.

Overseer of highways—Alex Kutala.

School inspector—Joseph Martin.

School trustee—Frank Perry.

Justice of the peace, to fill vacancy—Harry Marks.

Member board of review—Andrew Laramour.

Constable—Joseph Beaupre, Charles Callahan, John Fahy and John Cleary.

Beaupre defeated McKeercher by thirteen votes; John Pote had a majority of twenty over John Olson, and John Ryan, Sr., defeated Fred Treddo by fifteen votes.

ONE OF THE OLDEST.

John Ryan, Sr., who was elected highway commissioner in Spur township last week, is a pioneer of the Lake Superior district. He came to the upper peninsula fifty years ago and he has resided here continuously ever since. He is the oldest resident of Spur township and he was also one of the first settlers of Michigamme.

In his younger days Mr. Ryan was an explorer. His business took him to nearly every section of land in the upper peninsula. For some years he was in the employ of the Canal company. He has a fine recollection of many important incidents of the pioneer days. He remembers much about the work that was done in the early days of the canal as being built. He also remembers the movements of the Illinois, which was the first boat to pass through the canal. It stopped first at Marquette; then it went to Copper Harbor, then to Eagle Harbor. From there it went to Ontonagon, and then on to Old Superior. The Planet was the second boat to come through. It was owned by Ward of Detroit.

Mr. Ryan knows nearly all the old settlers of the iron and copper districts.

MICHIGAMME PICK-UPS.

Bl. Stensrud offers a horse for sale. The animal is too light for Mr. Stensrud's work.

Ellsworth Plumstead, a humorist of considerable note, will give an entertainment here soon.

Mrs. C. Plumbach, who has spent the past few months at her native place across the water, is expected home with in the next few days.

A number of F. W. Reed & Co.'s men went to the woods early last week to start on the drive. The streams are open and all the operators are preparing to start their logs moving. It will take from four to six weeks to complete the drive. The year's haul is expected to be considerably greater than it was last spring.

The Woodmen expect a large attendance at their annual ball at Odd Fellows' hall this evening. The Ispheming Degree team will be present and will give an exhibition drill during the evening. Music for the ball will be furnished by the Michigamme orchestra. Supper will be served at the Northwestern hotel.

It pays to have your coal stoves well cared for. Store them with F. W. Simpson, the stove man, and they will be set up like new next fall. I make a specialty of carpet cleaning and laying. (4-9-34)

Men's and Ladies' \$3.50 and \$3.00 Shoes at \$2.50. All other goods in proportion.

Come and buy your Shoes of us and save money. Every pair warranted.

G. L. KUHLMAN, Mgr.

Kenton Catches.

Gus Johnson is now able to be about on crutches.

A. G. Johnstone of Sidnaw was a Kenton caller Friday.

B. W. Church has purchased the home of Otto Olson. Mrs. Olson left several days ago to join her husband at Lewiston, Idaho.

"The Breeze" published a special ten-page illustrated edition last week. The school children are taking a decided interest in their paper.

The town board recently ordered a new light placed opposite the South Shore depot. The lamp was put up and went into commission for the first time early last week.

An interesting program, in charge of a committee composed of Mr. Toothaker and Mesdames Collins, Toothaker, Cushman and Baker, was rendered at the church by the children of the Sunday school the evening of Easter.

D. Hope is gathering together a crew of men who will be employed on the log drive which will begin on the East Branch of the Ontonagon this week. Over three million feet of logs are to be moved for the Sparrow-Kroll Lumber company.

The local camp of Modern Woodmen has arranged for a grand dress ball to be held at Opera Hall this evening. The Sparrow-Kroll engine and coach have been secured and will make a trip to Sidnaw in the early evening to bring up a large company of Woodmen and their friends who have expressed a desire to be present. The new Kenton orchestra will furnish music and supper will be served at the York.

The marriage of Miss Nina Whalen and Bart Chapman is announced. Mr. Chapman is associated with A. L. Garvin in the manufacture of shingles for the Sparrow-Kroll Lumber company and is a young man who will, wherever he goes, win friends and merit honor and respect. Miss Whalen is a Kenton girl, having lived the most of her life here. She has a wide circle of friends and is officially connected with the Lady Macabees.

The Citizens' ticket won out at the polls Monday. The township officials are now standing as follows: Supervisor, Wm. Kroll; clerk, Joseph Wilcox; treasurer, Aug. Nordine; member board of review, R. P. Kunze; school inspector, Haven C. Stewart; justices, Chalmers B. Cushman and A. G. Johnson; highway commissioner, P. J. Elliott; overseers of highways, District No. 1, Philip Voss; No. 2, Murray McCallum; No. 3, O. B. Connor; No. 4, Willis Shane; No. 5, Julius King; constables, David L. Snyder, Andy R. Pierson, P. J. Elliott and Frank N. Provost.

A LEADING ORATOR

ENGAGED TO DELIVER COMMENCEMENT ADDRESS AT NORMAL.

PROFESSOR GEORGE E. VINCENT

HE IS HIGHLY POPULAR IN BEST EDUCATIONAL CIRCLES.

Member of Faculty in Sociological Department in the University of Chicago—Will Speak on "Education and Efficiency."

Although it is a little early, Principal D. B. Waldo, of the Northern Normal, has already completed arrangements for the visit here of the man who will deliver the principal address at the Normal's commencement. In these matters it is necessary to act early; otherwise all the best talent would be picked up.

The Normal commencement will occur this year on the 23rd of June, when a large class will be graduated with appropriate ceremonies. This year the practice of making the commencement exercises one of the big events of the Normal year by reason of the popularity of the man engaged for the commencement address will be continued. This address will be delivered by Professor George E. Vincent, of the sociological department of the University of Chicago, who is generally recognized in school circles as being one of the most popular educational orators in the west. He is one of the strong men of the faculty at the University of Chicago, and is principal of the original Chautauques in Western New York, which, by the way, was founded by his father, Bishop John H. Vincent, who is still living. During the past five years Professor Vincent has refused the presidencies of a number of educational institutions, to continue his affiliation with the University of Chicago. On the occasion of President Roosevelt's recent visit to Chicago, he had the honor of being the only U. of C. man to ride in the president's carriage when he was taken out to the Rockefeller institution to be honored by the bestowal of a Chicago degree.

The subject of Professor Vincent's commencement address will be "Education and Efficiency." Principal Waldo and the members of the Normal faculty are greatly gratified at their success in securing Mr. Vincent's services for their commencement program.

SOO CANAL PASSAGES.

List of the Vessels Locked Through on the Up-Bound Trip.

FOR GRAND ISLAND.

Interesting Collection of Animals Received at Munising Last Week.

An interesting collection of animals and birds was received at Munising last week for the game preserve which W. G. Mather, president of the Cleveland-Cliffs Iron company, is creating on Grand Island. The greater part of the collection was exhibited at the National Sportsmen's show, recently held in Cleveland. Among the animals are the only Rocky Mountain sheep in captivity, it is said. Besides these sheep the consignment included a pair of blacktail deer, mule deer, whitetail deer, antelope, English grey rabbits, English black hares, snowshoe rabbits, jack rabbits, a big southern beaver, two northern beavers, forty-two ringneck pheasants and ten blackneck pheasants.

DAMP EASTER.

Wet Weather Interfered With the Observance of the Great Feast Day.

A damp Easter was the fate of Marquette women yesterday. This feast is supposed to be introductory to the real spring and, properly observed, it is characterized by a great blooming out of new clothes and saucy hats in the latest mode. However, a genuine Lake Superior mist and drizzle put new clothes and saucy hats at a discount yesterday, and most of the disappointed women were willing to lay them aside for fairer days, while appearing in raiment that had already been broken into service. Not one did the sun vouchsafe to smile, and the air was full of moisture that threatened dire ruin to the creations of the milliners and dressmakers. The church services were largely attended, special Easter services forming the particular attraction. In a number of instances appropriate Easter music was rendered.

BALL THIS EVENING.

Morse Hose Company Will Hold Forth at the Casino Rink.

The Morse Hose company will step off with the season of gaiety that always follows Lent at the Casino rink this evening, when it will hold its annual ball, giving the dancing people of the city a fine opportunity to enjoy their favorite amusement after a long period of deprivation. The firemen's balls are always elaborate and complete in detail, and this year will be no exception. The Casino has been thoroughly cleaned and the floor has been put in excellent condition. The decorations will be a feature, and they will be very fine. The full Marquette Ideal orchestra will furnish the music and Joe Hogan will do the prompting. Supper will be served at Prince's restaurant.

Following are the committees: Arrangement—John Siegel, J. L. Butcher, S. J. Patenaude, T. J. Downs, J. A. Rivers.

Reception—Mayor Russell, J. D. Mangum, George Barnes, J. E. Neidhart, C. M. Gooding, F. A. Wentworth, Chief T. J. Maney, Assistant Chief M. V. Mulaly, Foreman J. J. Donovan.

Floor—Members of Morse Hose company. The ball will be a benefit to the Sisters of St. Joseph, to whom the net proceeds will be turned over. The firemen have sold a large number of tickets already, and they expect a large attendance. They hope to be able to give the Sisters a substantial sum.

IF YOU PURCHASE

Ice cream, sweet cream, milk or baker's goods at Deschaine's, you may depend upon getting what you expect. Everything strictly pure and wholesome. (2-26-1f)

Stafford Drug Co. sells Ryckman's Old Brocton Port Wine and G. W. Blaine's Grape Juice. (4-9-3m)

WAS BADLY CUT UP.

Lifer at the Branch Prison Knifed by Another Lifer Friday Afternoon.

One lifer at the branch of state prison on nearly had his term cut dead short by another lifer Friday afternoon, as an outcome of a formidable quarrel in which the convicts became engaged. As a result, Charles Johnson, a Swede-Finn, sent to the penitentiary for murder from Houghton county, is in the hospital suffering from four or five gashes about the head, one of them having missed the jugular vein by about an eighth of an inch. His assailant was Eric Kangas, likewise committed from Houghton county for the crime of murder.

The men have worked in the shoe-making shop, in the room containing in addition the tailor shop and the printing office. Friday they became involved in some quarrel which they carried on quietly enough in their language until the hostilities became open. Then Johnson, with a hammer in his hand, moved on Kangas, probably thinking that he would take to flight. Kangas, however, stood his ground, and got busy with his knife, with the aforedescribed results. Before the pair could be parted he had all but ended Johnson's incarceration by sending him across the great divide.

Kangas has a good reputation at the prison. He has been there the past ten years, and he has always behaved himself, being, in addition, well spoken of by the officers and the inmates. Johnson has been in confinement a little over a year, and while there he has no bad marks against him, he has been inclined to be sullen and morose. Friday he was the aggressor, at least when the hostilities became open, and Kangas served his knife in self-defense. Johnson served in the United States army in the Philippines. He will doubtless recover from his wounds, but his countenance will be considerably marred, as one of the slashes was across his nose.

IMPROVED TRAIN SERVICE.

Are to Be Two Trains a Day Between Marquette and Munising.

General Passenger Agent H. A. St. John states that a new time card will go into effect on the Munising, the Marquette & Southeastern and the L. S. & L. roads on Sunday, April 19. There will be two trains a day each way between Munising and Marquette. The important changes under the new card will be as follows:

The train which now leaves Munising at 6:55 a. m. will leave at 7:00. The train now leaving Marquette at 3:40 p. m. will leave at 5:20 and will reach Munising twenty minutes earlier. The train for Little Lake will leave Munising at 5:00 instead of 4:30 p. m.

The new trains will consist of mixed trains between Marquette and Lawson to connect with the Munising-Little Lake trains. The mixed train will leave Marquette at 6:30 a. m. and will connect at Lawson with the train reaching Munising at 8:55. A mixed train will meet the Little Lake train at Lawson in the evening and will reach Marquette about 8:00 p. m. These trains, together with the regular Munising-Islepeping trains, will give an excellent service.

"THE STROLLERS" COMING.

Will Be at the Opera House Saturday Evening.

A comedy set to music is probably the best way to style "The Strollers," which Messrs. Nixon & Zimmerman will present at the opera house Saturday evening, with the organization known as the Marguerita Sylva Opera company. "The Strollers" was successfully produced last summer at the Knickerbocker theater and had a big run during the heated term. It was put on by

George W. Lederer and is the joint work of Ludwig Englander and Harry B. Smith. The latter was responsible for "Robin Hood," and it therefore comes here under the best auspices. It is said to be very pretty musically and has in the cast, which numbers some sixty people, three of the best comedians known to our stage, George C. Boniface, Jr., Neil McNeil and D. L. Don. "The Strollers" is an up-to-date, dressy sort of modern Broadway production with a smart and gaily costumed chorus. Scenically it is most elaborate, especially the scenes in the second and third acts, the latter almost approaching a spectacle. This scene is called "The Fate of the Fans" and gives great opportunity for costume display. Messrs. Nixon & Zimmerman are also the proprietors of the Francis Wilson company in the "Torreador" and half owners of "The Chinese Honeymoon", now running to crowded houses at the Casino in New York.

TIMES HAVE CHANGED.

Opening of Navigation Does Not Mean Much Any More.

"How times have changed," remarks the Soo News-Record. "Thursday the first boat of the season came up the river, locked through the canal and continued on her way up the lakes and no doubt there are many people in the Soo who have yet to learn of the fact. The opening of navigation on the river was heralded by the whistles of a few weak-voiced craft that did not make noise enough to attract the attention of people on the streets. Four years ago, or even since, it was different. The opening of navigation was the biggest event between Christmas and the Fourth of July. The mere announcement that a boat was expected up the river would put the people in a state of great expectancy and on its appearance in the river the inhabitants would flock to the shore and wharves to join in the general welcome to the first boat. The craft on the river would join without exception in the salute of whistles and continue for an hour or more a noise that would almost waken the dead. Stores could suspend business, and scholars would be let out, and cannons from Fort Brady would boom out the joyful tidings. A new hat for the captain and general handshaking often would mark the occasion and when the boat had passed on up the lakes the old Soo would feel like a Rip Van Winkle that had just awakened from a winter's sleep."

All this applies equally to Marquette. Here, where once the coming of the first boat in the spring was the occurrence of prime importance of the whole year, the opening of navigation is simply one of the minor incidents of fleeting time, and it attracts only passing notice. It is not many years ago that the entire population would have been greatly disturbed by the present conditions. For some days now the lakes have been open for navigation, but still no boats come through, owing to the continuation of strike, stocked docks in the lower lakes and a feeling among the shipping interests that, all things considered, they will fare better if the start with shipments is late. Yet the delay bothers no one, except, perhaps, to a small degree, the crew trimmers and the one train opens, who are awaiting the time when they will start on their season's work.

Say, Brown, you and Mrs. B. look as young as the day you were married—20 years ago. That's a fact, Smithy, we lake Rocky Mountain Tea every spring. It's like a dip in the fountain of youth. Stafford Drug Co.

The Great Purchase Arrives This Week

We will receive more Dry Goods and Carpets this week than our entire original stock. The efforts of our buyer in New York during the past month will only be realized this week when we will receive and open carloads of new goods. An examination of these goods will soon convince you that he has shown superior ability in buying.

At no time in the past have we been able to exhibit such a large assortment, neither have we been able to show such remarkable values.

Our Easter Opening of Millinery and Suits resulted in the largest selling record we have been favored with. Buyers have benefited by the values we secured in our recent purchases; we have fifty of these special bargains in suits still in stock to which will be added this week a large quantity that are being made to our order; and could not reach here in time for our sale the past week.

VALUABLE SUGGESTIONS TO BUYERS FOR THIS MORNING
