IRISH ENDORSE BILL

WYNDHAM'S LAND MEASURE IS AC-
CEPTED IN PRINCIPLE.

GREAT CONVENTION AT DUBLIN

3,000 DELEGATES FROM THROUGH-
OUT IRELAND ATTEND.

"Eager for Peace but Ready for War"
Is the Keynote and Leaders Are En-
trusted With the Task of Se-
curing Desired Amendments.

Dublin, April 16.—By unanimous vote
the Irish national convention, which met
here today, accepted in principle the
Irish land bill introduced in the house
of commons by Mr. Wyndham, chief sec-
retary for Ireland, and entrusted to
John Redmond and his party the task
of securing in commons that "serious
amendment in various points of vital
importance" which the national conven-
tion may consider essential.

Discontent With Various Features.
The convention tomorrow will outline
the form the amendments should take,
and on Saturday Lord Dunraven, the
lord mayor, Captain Shaw-Taylor,
John Redmond, William O'Brien and T.
W. Russell likely will meet to discuss
the landlord and tenants' opinions on
the land bill and try to arrive at a com-
mon basis of parliamentary action.

Today's proceedings revealed discon-
tent with various features of the bill,
but nothing so serious as to indicate
danger of its ultimate rejection. Even
Michael Davitt, who had opportunity of
dividing the delegates into bitterly op-
posing camps and who amidst dramatic
indignation subordinated his own views,
pledged himself to abide by the verdict.
John Redmond and William O'Brien
triumphed over all objections; indeed,
the objectors, save Michael Davitt, were
scarcely given a hearing by the dele-
gates.

Remarkable Enthusiasm Shown.

Not for many a day has such a rep-
resentative gathering been seen in Dub-
lin. Irish wit and eloquence lived up
to its reputation. Speaker after speaker
brought the audience to that pitch
of enthusiasm where hats were thrown
up and men stood upon chairs, yelling
with delight. When a speaker failed
to please, comments from the audience
supplied impetus. The crowd was ir-
responsible.

Old men, white-haired relics of the
land league, and young farmers, rising
factors in the United Irish league, fresh
from the fields of Connaught and Mun-
ster; county councilors, and priests,
young and old rose constantly from
their seats to hurl some interjection of
approval or otherwise at a speaker.

Fore of habit was far too strong
to prevent the sons of the soil from
cheering madly when some speaker re-
ferred to the landlords as "blood suck-
ers," which not infrequently brought
the response from the body of the hall,
"to — with them." The audience
would shout when William O'Brien,
Michael Davitt or some other popular
orator voiced the prevailing sentiment.

John Redmond in the Chair.
Throughout the day this gathering of
Irish tenants, so picturesque, so terribly
in earnest, so swayed by the eloquence
of Irish leaders, never ceased to make
a fit setting for the heroic epithets in
which the speakers described the con-
vention and the issues depending on its
decision.

Through all the various waves of
emotion John Redmond sat in the
chair, impassive and keeping order "like
Parnell," as an old Nationalist said. His
head was constantly endangered by the
swinging hands and arms of the speak-
ers.

William O'Brien and Michael Davitt
were the heroes of the hour. T. W.
Russell, the Ulster member, who unex-
pectedly appeared in the hall, received
a great welcome from his former op-
ponents. Much significance attached to
his presence, as he is not a member of
the Nationalist party.

After the convention the leaders ex-
pressed complete satisfaction at the
proceedings and the practical unanimity
of so many representatives of various
bodies throughout Ireland.
"Eager for peace, but ready for war
in case the English wish to continue,"
was, to quote one speaker, the key-
note of today's convention, which was
attended by some 2,000 delegates from
all parts of Ireland.

COINS FOR THE PHILIPPINES.

Philadelphia Mint Finishes Manufacture
of a Large Consignment.

Philadelphia, April 16.—There are
ready for shipment to the Philippine
two million and five hundred thousand
pieces, coined at the Philadelphia mint
in the last twenty-five working days.
The coinage is equal to mintage the
same number of American dollars, and
it thus required the handling of an av-
erage of 100,000 pesos daily for twenty-
five days. During this time the mint
also added to the Philippine coinage 9,
100,000 pieces of bronze, value \$91,000,
and 3,000,000 nickels.

500 PAPERS CONSOLIDATE.

Sault Ste. Marie, Mich., April 16.—
The Journal and the News-Record have
consolidated and will appear as the
Evening News.

ODELL'S CANDIDATE REJECTED.

New York State Senate Is Scene of a
Bitter, Personal Fight.

Albany, N. Y., April 16.—The rejec-
tion of Frank Baker, Governor Odell's
candidate for railroad commissioner, in
the state senate today, created a scene
of bitter personalities, recalling the
memorable days of the Conkling-Platt
contests. The rejection was brought
about by a coalition of the three so-
called "insurgent Republicans" with the
Democrats.

The speeches on both sides were bit-
ter, and an intensely personal conflict
was participated in between Senator
Brackett, one of the "insurgents," and
Senator Barnes, Republican, president
pro tem. Others denounced the efforts
of the "insurgents," which it was
claimed were directed against Senator
Platt.

It is likely that the battle will be re-
newed tomorrow, when it is expected
the judiciary committee will report the
nomination of George Wilson Morgan
to take the place of John McCullagh
as superintendent of elections, sent in
by Governor Odell today.

BOODLERS IN HOT WATER.

Prosecutor Folk at St. Louis, Has Evi-
dence to Indict Several.

St. Louis, April 16.—A committee of
the St. Louis grand jury visited the La-
Fayette bank this afternoon to inspect
the books relative to the \$7,000 said to
have been deposited there by State Sen-
ator Collins of St. Louis soon after the
legislature adjourned. It is said that
Circuit Attorney Folk has enough evi-
dence to indict several persons for brib-
ing or forgery, or both, if the offenses
had been committed within the jurisdic-
tion of the St. Louis grand jury. The
evidence, he said, would be turned over
to the Cole county grand jury, which
would make use of it.

Jefferson City, April 16.—The Cole
county grand jury, investigating the al-
leged bribery, examined several wit-
nesses today. Editor I. N. Page of
Bonne Terre, cited to appear and ac-
count for the possession of a \$1,000 bill
during the last legislature session, ar-
rived today in custody and was ordered
by the court to pay the cost of the at-
tachment proceedings, \$110.

Later—Indictments are reported to
have been voted against four members
of the Missouri senate, the indictments,
it is said, charge bribery.

Lieutenant Governor Ignores Subpoena.

Kansas City, April 16.—Lieutenant
Governor Lee was served with a sub-
poena by the Jackson county deputy
marshal tonight as he was leaving the
city on a Chicago & Alton train. Lee
said he was going to St. Louis to tes-
tify before the grand jury. The subpoena
was served in a local case and was in-
tended to prevent Lee's leaving the ju-
risdiction of the Missouri courts before
the St. Louis subpoenas were served on
him. Lee ignored the subpoena.

MERRIAM TALKS OF TRUSTS.

Says Combines Make for Stability but
Must Keep Within the Law.

St. Paul, April 16.—William R. Mer-
riam, formerly governor of Minnesota
and until recently United States census
commissioner, was the principal speak-
er at the St. Paul Credit Men's asso-
ciation banquet in this city tonight. His
address was on "The Present Business
Condition and Financial Outlook."

Speaking of great industrial combina-
tions, Mr. Merriam said he had come
"to the conclusion that the concentra-
tion in a few hands of so large a number
of industrial concerns throughout the
country must have an effect like ballast
on a ship—to steady the situation."

He asked: "Is it not a fact that the
combinations producing various articles
of necessity will be enabled by their fi-
nancial strength, as well as by their able
management, to adjust the affairs of the
corporations to the changing conditions,
and thus put off, or at least greatly mul-
tity, the eras of depression which have
been so common in our country as far
back as 1857?"

From this hypothesis he argued that
"there is much that is advantageous to
the business interests of the country
in this one regard, that the aggregations
of capital engaged in manufacture and
productivity will result in adjusting sup-
ply and demand and in avoiding the
great cry which comes up from the so-
cialist, that the capitalist makes slaves
of his workmen, whenever a day of in-
dustrial panic comes."

Touch of Socialism in Merger Decision.

Reviewing the recent decision affect-
ing combinations, Mr. Merriam conclud-
ed that while the courts "recognize the
right of corporations to transact their
legitimate business, and in no way re-
strain them, yet, whenever they
touch the citizen in such a way as to
prove a public menace, in that moment
they become enemies of the common-
wealth, disobedient to the law, and li-
able to be destroyed."

"Does this mean," he asked, "that
there is to be a realignment of the ideas
on the subject of private ownership?
Has there some other evolution which
practically obliterates the tradition of
centuries, that a man may do what he
chooses with his own? Is it a touch of
socialism, and must we be prepared for
greater changes? The conclusion is in-
resistible that in the central govern-
ment rests the power to determine that
an individual or corporation transacting
any business that is interstate in its
character cannot hold, maintain or op-
erate any property that results in in-
jury to the public. Surely, such con-
trol in effect materially tends to cen-
tralize the power in the national govern-
ment."

Mr. Merriam spoke at some length on
credits, trusts and national finances, fa-
voring an elastic currency and other
changes in present financial methods,
and concluded with advising all citizens
to "utilize their citizenship against ev-
ery incursion of capitalization that
looks to the invasion of the laws of
states or in any sense appears as a pub-
lic menace."

FLOUR MILLS CLOSE

OPERATIONS UNIVERSALLY SUS-
PENDED IN NORTHWEST.

TIME OF SHUT-DOWN INDEFINITE

INTOLERABLE CONDITIONS FORCE
DECISION OF COMPANIES.

High Wheat and Freight, With Markets
Depressed, Have Caused Loss, and
Now Action of Boat Lines Has
Further Paralyzed Industry.

Minneapolis, April 16.—The North-
western Miller this afternoon says:
"Tonight every flour mill in Minne-
apolis and practically all the merchant
spring wheat mills in Minnesota and
the Northwest will shut down entirely
and will cease turning out flour for an
indefinite period. This has been forced
upon the millers by the intolerable con-
ditions surrounding the manufacture
and sale of flour."

"For some time, owing to the price
of cash wheat, the high rates of freight
and the depressed state of the flour
markets, the mills have been operating
at a loss, but the crowning disadvantage
which has paralyzed the milling indus-
try throughout the Northwest was the
act of the boats operating between Du-
luth and Buffalo in today deciding to
move wheat on the basis of two cents
per bushel while the present proportion-
ate rate on flour from Duluth to Buf-
falo is maintained at nine cents per
hundred pounds, equivalent to five and
four-tenths cents per bushel."

Continuing, the paper says: "Until
the freight rates on the manufactured
products are placed on a parity with
those given raw material or until the
two-cent rate given wheat is advanced,
the millers find it impossible to
grind, and unless something occurs to
improve the milling situation the pros-
pects are that the practically universal
shut-down of the merchant spring
wheat mills will be indefinitely pro-
longed."

Decides to Build Grain Elevators.

Chicago, April 16.—The stockholders
of the Farmers National Co-Operative Ex-
change company tonight voted to change
the by-laws so as to provide that the
proceeds of one-fourth of the total
amount of stock be used in the erection
of grain elevators and the two transacted
some routine business. The corpora-
tion is capitalized at \$12,
500,000.

PRESIDENT LEFT GUN BEHIND.

Is Doing No Hunting but Has Had Some
Good Fishing.

Glenn, Mont., April 16.—President
Roosevelt came into Fort Yellowstone
today in splendid condition and en-
thusiastic over the good time he has had.
Secretary Loeb met him at Major Pitch-
er's headquarters and the two transacted
some routine business. Later Mr. Loeb
issued a statement, telling briefly of the
president's trip. He had some good fish-
ing, but did no hunting, not even taking a
gun with him. The party starts to-
morrow to visit the geysers and perhaps
Yellowstone falls.

THOUGHT FIRE HIDES CRIME.

Two Wisconsin Women Believed to Be
the Victims of Robbers.

Tonawanda, Wis., April 16.—The bodies
of the Misses Phoebe and Libbie Heely
were badly burned in a fire which de-
stroyed their home at Bear Creek, six
miles south of this place last night.
They were seventy-five and eighty-six
years of age, respectively, and lived alone
on the farm. It was thought they had
a large sum of money in the home and
were robbed and murdered and the fire
started to cover traces of the crime. The
coroner will investigate.

JURY HOLDS SCHISSLER SANE.

Milwaukeekean Who Killed Wife's Com-
panion Now to Be Tried for Murder.

Milwaukee, April 16.—The jury this
evening decided that Al Schissler was
sane on the night of Nov. 25 last, when
he shot and killed F. William Beal of
Watertown, Wis., who was returning to
the Schissler residence from a theatre
party in a carriage with Mrs. Schissler
and two others. Schissler will now be
tried on the charge of murder.

FIFTEEN HUNDRED WERE KILLED.

Said Arsenal at Canton Was Blown Up
to Hide Officials' Stealings.

London, April 16.—A Hong Kong dis-
patch says that the arsenal at Canton,
which was destroyed by an explosion
last week, was blown up by officials,
whom the viceroys had charged with sell-
ing powder to the rebels, in order to hide
their defalcations. Fifteen hundred
persons were killed in the explosion.

ORIENTAL WAR CLOUD PASSES.

Japan Assured by Russia That Man-
churia Will Be Evacuated.

Yokohama, April 16.—After receiving
a communication from St. Petersburg,
Japan is satisfied that the evacuation of
Manchuria by Russian troops will be ef-
fected in accordance with Russia's agree-
ment on the subject.

Appleton, Wis., April 16.—The River-
side Fibre Paper company today con-
ceded the demand of the employees that
there be no Saturday night work.

CANADA TO RETALIATE.

Increased Duties to Be Assessed on Im-
ports from Germany.

Ottawa, Ont., April 16.—An important
feature of the budget speech of the min-
ister of finance today was the announce-
ment that Canada had decided to impose
a tax of one-third over the general Can-
adian tariff on imports from Germany.
This is owing to Germany's discrimina-
tion against Canadian goods.

LITTLE MISS ARMOUR NOW WALKS

Dr. Lorenz Removes the Cast and Finds
the Leg in Perfect Condition.

Chicago, April 16.—Dr. Adolph Lorenz,
the Australian specialist, arrived in Chi-
cago today for the purpose of removing
the cast from the leg of little Miss Ar-
mour, upon whom an operation for con-
genital dislocation of the hip was per-
formed last October. Upon removing the
cast the limb was found to be in perfect
condition and the little patient is now
able to walk around the house without
any difficulty.

GARDINER FINED FOR ASSAULT.

Way to Punish Pugilists Found by the
Authorities of Boston.

Boston, April 16.—A fine of \$100 was
imposed on George Gardiner, the pugilist,
today, the fighter having been pro-
nounced guilty of assault upon Peter
Maher, with whom he recently fought
before a club here. Persons interested
consider the case important, as it indi-
cates a method whereby the authorities
may reach bouts given before private
clubs, with which the courts had decided
they could not interfere.

STRIKING FIREMEN BLAMED.

Powdered Emery Badly Damages Engine
of Anchor Line Cadorous.

Detroit, April 16.—The Anchor line
steamer Cadorous arrived from Erie to-
day with her engine so badly injured
that she had difficulty in coming up the
river. The captain reported that pow-
dered emery had been found in the high
pressure crank journal and it is alleged
to have been put there by strikers.

Majority Favors Arbitration.

Buffalo, April 16.—Reports from the
great lakes on the vote today, though
incomplete, indicate a majority of the
firemen favor settling the strike by ar-
bitration.

BADEN-POWELL IN AMERICA.

Hero of Mafeking Comes to Study Cav-
alry Tactics and Methods.

Washington, April 16.—Major General
R. Baden-Powell, the "hero of Mafek-
ing," recently appointed chief of cav-
alry of the English army, is on a visit
to the United States to study American
cavalry tactics and methods. He is trav-
eling incognito and unofficially. He vis-
ited the war department today and paid
his respects to Secretary Root, Lieuten-
ant General Miles and Adjutant General
Korbin. The cavalry troops at Fort
Myer gave a special exhibition of the
cavalry drill and tactics this afternoon
for the benefit of the distinguished vis-
itor.

SEVERE STORM IN GERMANY.

Heavy Snow Falls and the Mercury
Drops Below Freezing.

Berlin, April 16.—Unusually wintry
weather prevails in northern and central
Germany, particularly in the Hartz
mountains. The weather station in the
upper Hartz reported yesterday a fright-
ful snowstorm and a temperature of
twenty-five Fahrenheit. Mails have
been carried since Tuesday on sleighs,
and the letter carriers, gendarmes and
woodcutters are only able to move about
on snowshoes. The snow in some places
is three to four feet deep. The storm
continues with increasing violence. Gos-
lar, at the northeast foot of the Hartz
mountains, reports one of the most se-
vere snowfalls in several winters. Heavy
snow has also fallen throughout West-
phalia, and the country about Essen
looks as if it does in midwinter.

FIST FIGHT IN COURT ROOM.

Attorney at Lafayette, Ind., Assault Fel-
low Member of the Bar.

Lafayette, Ind., April 16.—There was
a fist fight in the court room this after-
noon between Attorney Dan Simms, rep-
resenting Fred Chase, father of Moses
Fowler Chase, and A. L. Kummer, repre-
senting Mr. and Mrs. Charles Duhme of
Cincinnati, who are contesting for the
possession of young Chase, the million-
aire.

The attorneys had met for a confer-
ence with the judge as to what should
be done with Moses Fowler Chase pend-
ing the hearing of the guardianship
case. Kummer denounced the attorneys
on the other side and also Chase's father,
and declared that Moses Fowler
Chase had been brought from France by
force and fraud. Simms struck Kummer
twice before bystanders could interfere.
The judge fined Simms \$25, but at Kum-
mer's suggestion this was remitted and
Simms apologized.

The court ordered that Chase should
remain in the court's jurisdiction and
that the boy's aunt and uncle, Mr. and
Mrs. Duhme, should not interfere with
him. Physicians who examined the boy
this afternoon pronounced him insane.

ROOSEVELT TO BE INVITED.

Chicago Centennial Committee Wants
Him to Attend the Celebration.

Chicago, April 16.—The executive com-
mittee of the Chicago Centennial decid-
ed today to go to St. Louis on the
night of April 29 for the purpose of
formally inviting President Roosevelt
to be the guest of Chicago for a week
during the centennial celebration next
September. It is the committee's inten-
tion to invite also the cabinet, diplo-
matic corps, United States senators and
representatives and the principal offi-
cials of the Canadian government.

DR. FENNER'S KIDNEY and Backache CURE

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a life time curing just such cases as yours. All consultations free.

MARQUETTE, MICH., APRIL 17.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Now that the latest Vanderbilt wedding is over the country is breathing easy again. Photographers in Newport will be safe for a period. Of course Reggy was flustered.

What is the cause of the great wave of anti-negro sentiment that is now sweeping the south? The aspect of the race problem in the black belt has never looked so threatening at any time in years as at present. The whites seem to be letting an unbridled rage against their black neighbors carry them away, and it is to be feared that a horrible series of lynchings and miniature race wars are in prospect. They will have to run their course. There appears to be no practical way of suppressing them, or even of diminishing their fury.

The dissolution of the State League of Municipalities is said to be impending. Grand Rapids has just withdrawn and it is expected that its action will be followed by other cities in the lower part of the state. The league is in a bad way because it has not lived up to the bright promise of its start. Theoretically it was organized for the purpose of giving members of various city governments an opportunity to consider and discuss municipal problems of one kind or another, the disposal of garbage, sewerage, franchises, gas lighting, municipal ownership, etc., etc. In practice the delegates assembled for an annual frolic, and while municipal problems languished, there had a rattling good time. The League of Municipalities does not seem to have been worth the price and anything that isn't worth the price does not last long in these modern days.

The typhoid fever epidemic in Ithaca is near enough its end to permit a summing up of results. It appears that there were nearly one thousand cases of fever and over fifty deaths, about one-third of each being students of Cornell university. The journal of the American Medical association, in commenting upon this fact, criticises the university authorities very severely for oversight and neglect. Instances of indifference to contamination by private water companies and municipal authorities are common enough, it says; but it is amazed "that the authorities of a great university should fail to realize their responsibility in such an important matter." Probably Cornell will pay for its carelessness in loss of prestige and students for many years. Meanwhile, the distressing affair is stimulating all the other colleges to careful investigation of their water supply.

It is unfortunate that the National Association of Manufacturers did not meet in a different humor. It seems absurd to assert that the annual convention of such a large and powerful organization is not representative of its members, but such would really seem to be the case. The addresses have been delivered by extremists who have couched their remarks in highly sensational and intemperate language, language calculated to stir up bad blood between laborer and employer, where the effort should be to promote harmonious and peaceful relations. The majority of manufacturers, it will be readily believed, will not approve the tenor of the addresses delivered by President Perry, Mr. Post and others.

Constipation

Headache, biliousness, heartburn, indigestion, and all liver ills are cured by

Hood's Pills

Sold by all druggists. 25 cents.

The majority of the manufacturers are sensible and clearheaded enough to realize that the trades unions are here and here to stay. Their efforts will be expended in harmonizing the various elements of the American industrial world. They will not go to emblatter present misunderstanding but rather to correct it; not to stir up rancor but to procure a constant peace and good will.

Reform is contagious. District Attorney Folk of St. Louis started out only to root corruption out of the city government. But when his grand juries tasted blood there was no stopping them. Perhaps the odium drawn upon St. Louis by the exposures of the municipal prosecutions stung the grand juries to wider effort. Anyway, they went on from the city council to the swindling companies which made St. Louis their headquarters. From them the transition was easy and natural to the legislature. The legislature started the crusade against the get-rich-quick companies, probably for hold-up purposes, because later developments have shown the legislature to be the worst confidence game of all. The attorney-general has now joined forces with the St. Louis prosecutor, and together they are shaking thousand dollar bills out of the pockets of honorable senators and members at a great rate. Where is this thing going to stop? It has already gotten into the postoffice department, and that is pretty close to congress.

The new general staff corps, organized under the recent law of congress, does not begin operations until August 15, but it is already picked out. In the selection of the corps the records of no less than 793 officers were studied, and the presumption is that the cream of the service is to go into the general staff. Secretary Root's purpose in fixing the date of the start of the new staff's work as the 15th of August is to give General Miles plenty of time to get out of the way. The general retires on the 8th of that month. Naturally Secretary Root preferred to wait until after that date before introducing his pet scheme, as General Miles has been openly hostile to it right along, and if it was exploited in his regime it would have the disadvantage of an inharmonious start, even if it escaped the general's active antagonism. Officers of the general staff are detailed for four years, this short term being designed to secure the staff's greatest usefulness in time making all line officers thoroughly acquainted with staff duties. The short term will also mean the constant infusion of new blood into the staff. The regular officers have not taken the interest in the new staff organization that might be wished. This is evidenced by the fact that out of 4,000 of their number only forty-nine applied for staff details. The shortness of the term of staff service and the expense of maintaining a Washington establishment are offered as an explanation of this discouraging reluctance to voluntarily assume the duties of the new service. However, the staff is young. Time will likely demonstrate both its usefulness and desirability. Lake Superior will send one officer to the new staff, Captain D. D. Gaillard of Duluth, the engineer who has been in charge of the river and harbor work in this district. This is a good appointment.

The Chicago Tribune has the following sensible comment on D. M. Perry's loose talk, which has attracted much more attention than it really deserves:

Mr. D. M. Perry, the president of the National Association of Manufacturers, is too much given to invective. If all manufacturers shared his sentiments and expressed them as freely as he does, the relations of employer and employee would be strained to the breaking point. Violence of speech on one side leads to violence of speech on the other. Labor men will be all the more inclined to make intemperate remarks when the head of a great association of employers sets them an example. Trades unionism is here to stay and it is useless for manufacturers to revile it. The great manufacturer is here to stay, and organized labor gains nothing by violent abuse of him. It is the business of each to treat the other civilly and get along as smoothly as possible.

Mr. Perry professes to be alarmed about the state of affairs in Chicago. He thinks the city may be under martial law in a few months. He is of the opinion that trades unionism here has reached a point where it has become a menace to all law abiding citizens. He believes Chicago "cries for redemption" from organized labor. Perhaps some of the Chicago manufacturers who listened to that trashy talk may think it worth their while to assure other members of the association that the situation here is not so black as Mr. Perry has painted it.

Chicago employers have had controversies—angry and protracted ones occasionally—with trade unions. Sometimes one side has come out ahead and sometimes the other. Some unions have made unreasonable demands, while others have been conservative.

As manufacturers and other employers and organized employes in Chicago get better acquainted they work together with greater ease. With the aid of conciliation and arbitration, which Mr. Perry is so unintelligent as to call a myth and a failure, they will manage to get along with reasonable harmony. There is no occasion for Mr. Perry to borrow trouble on account of Chicago.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases. Sold by People's Drug Store.

HOW TO GAIN FLESH

The life of food is the fat within it—the more fat the more real benefit from the food; that is why cod liver oil is a powerful builder of flesh.

Scott's Emulsion of pure cod liver oil solves the problem of how to take cod liver oil. That is one reason why doctors have been prescribing Scott's Emulsion for all wasting diseases, coughs, colds and bronchitis for almost thirty years.

We'll send you a sample free upon request.

SCOTT & BOWNE, 409 Pearl Street, New York.

CHICAGO'S MUNICIPAL LEAGUE.

Chicago has long had the reputation of being a badly governed municipality. The streets have been filthy, hold-up men have worked in safety, and all kinds of corruption have existed in the several branches of the city service. The recent election of Carter Harrison as mayor has created an impression abroad that the baser elements are still in control of the government and that if conditions do not grow worse they will grow no better.

This latter impression is not altogether correct. While in too many instances men of bad character and antecedents are in positions of authority and trust, the better element of the city has gained an important victory in the council, and there is hope that conditions generally will be improved.

The victory resulted from the efforts of the Municipal Voters' league, a non-partisan organization which has been working for several years for the purification of city affairs and has now made itself felt where its influence was most needed. The league itself makes no nominations. Before the caucuses are held it looks up the various candidates and gives the voters the benefit of its researches. After the nominations are made it continues along this line, indorses those candidates whose records are the best, and blacklists those whose records are bad. Then it makes an effort to secure the election of the men who have its indorsement. It pays no attention whatever to party, but directs its efforts toward securing the best man for the place.

In the recent election, and in fact for two or three years, the league paid particular attention to aldermanic candidates. It has been very successful and at the late election twenty-nine out of thirty-four newly chosen aldermen were those who had its indorsement. Of the whole membership of seventy, only thirteen now remain in office who were on the league blacklist. The league has also obtained pledges from the aldermen for the organization of the council on a strictly non-partisan basis, and a committee consisting of three Republicans and three Democrats is now engaged in making up a non-partisan list of officers and committeemen.

Whether this success of the better elements in the council will result in converting Chicago from a badly and inefficiently governed city into a well governed one remains to be seen. In this beginning at the foundation, however, and in concentrating their efforts on a single object, the league has displayed excellent judgment, and it has only to continue along the same line to eventually effect a great change in the municipal atmosphere.

After securing the council and taking steps to perpetuate its control of that body, it can proceed to attack other branches of the city government, and by concentrating its efforts on one thing at a time can succeed at last in making Chicago, so far as municipal affairs are concerned, a model city.

The success of the Chicago league is an encouragement to good citizenship everywhere, and it furnishes a model for similar organizations in all of our larger cities. Municipal government should as far as possible be divorced from partisanship. The main effort should be to secure honesty and efficiency, and the voters should at all times act with independence.

HOW'S THIS?

MINING NEWS

COPPER "DEAL" RUMOR REVIVES.

A gentleman who by reason of his official connection has exceptional opportunities for knowing the status of the copper market, in commenting upon the present apparent anomalous conditions, says to the Boston Journal:

"Quotations for the metal at the present time are practically just what the large interests see fit to make them. It is clearly evident that they are not anxious to have the price of the metal advance, and it is also equally clear that they are willing to have the price of certain copper specialties decline. This condition of affairs means simply, as I understand it, that important plans are being worked out; that these will in due time be gotten into satisfactory shape, and that the numerous hitches that have been encountered in the past are now about overcome.

"From what I know of the metal situation and the manipulation that is now under way, many of the copper shares that have recently suffered a severe setback are exceptionally cheap. I know as a matter of fact that large interests have recently been taking up all the stock of certain properties that they could get. And if I am not very much mistaken their plans will be in such shape that the whole market will take a sharp upward turn before hot weather arrives. The speculation now under way is altogether one of the cleverest bits of manipulation that the metal market and the copper share market have been subjected to in many years. The 'deal' that is now being worked up is more comprehensive than the general public has any idea of, and one of these days when it is announced—and it is likely to be announced when the biggest sort of surprise will start the price of all the copper issues on a sharp up-turn. It ought to be added, however, in this connection that the position of the money market has proven a serious handicap to the work of the insiders and until the situation is cleared in this direction—as it is hoped that it will be at an early date—no attempt will be made to put the market and the copper share market in the position that they are now rightly entitled to."

FROM AN AUCTIONEER.

Col. C. H. McDonald of Greenview, Ill., in a letter May 1st, 1901, says, "I am an auctioneer and being often exposed to the weather, am seriously troubled by my head, becoming irritated and hoarseness following. When troubled in this way, I always use Harts' Honey and Horsebalm. It is the only remedy that has ever done me any good and it positively cures." Sold by the People's Drug Store.

MINING GOSSIP.

The Boston & Montana directors yesterday declared a dividend of \$2 per share.

The London visible supply of copper as it stood yesterday was reported at 15,865 tons, an increase of 1,481 tons since April 1.

The mill at the Phoenix will be started soon now and the stock is stated to be good for a 100 per cent advance—Detroit Tribune.

The directors of the Amalgamated Copper company, at a meeting at New York yesterday, declared the usual quarterly dividend of half of one per cent.

Augustus Heinze of the United Copper company is reported as saying that his company produced more than 30,000,000 pounds of copper in 1902, notwithstanding the burning of the works, and at the present selling price of copper is earning at the rate of \$1,800,000 per annum.

Copper declined 17s 6d on spot and 15s on futures in the London market yesterday, spot there closing at £62 2s 6d and futures at £62 5s. There was no change in the New York metal exchange prices, which were 15¢15.25 for Lake and electrolytic and 14.50@14.75 for casting.

A Butte (Mont.) dispatch says: Butte is to have a new smelter to cost several million dollars, to be built by a local firm. Work will begin almost immediately on the flats below the Columbia Gardens. The Pittsburgh & Montana Copper company will own the plant, which will be one of the largest in the camp.

The Kearsarge shafts of Osceola are furnishing 1,200 tons of rock daily and the old Osceola 1,040 tons. Six stamps at the mill are in operation and it is expected that the seventh will be started this month. The rock discarded at the South Kearsarge will not exceed 7 per cent. Osceola is now believed to be breaking all former production records, while the rock should average 1 per cent, refined copper.

The American Metal Market says: "In these days of theories and guesswork with virtually no market, any actual facts are interesting. One fact that reaches us is that for a prime brand of casting copper 15¢, extra, delivered, had to be paid today. Evidently there is a vigorous campaign on to depress the copper shares and Amalgamated stocks. There has not been a quotation on copper on the daily call on the New York Metal exchange for the past four days. There is no business apparently doing and prices are nominal."

It is time that the so-called Osceola Stockholders' Protective committee made public the agreement under which the Osceola mine is now operating. It is understood that a compromise was entered into at the time of the annual meeting between this Stockholders' Protective committee and the powers now operating the mine. If the professions and canvass of this committee were genuine, that agreement under which the property is now being operated belongs to all shareholders alike and should be published by the stockholders' committee.—Boston News Bureau.

The annual meeting of the Tonopah Mining company of Nevada is called for May 15 at Philadelphia. Owing to the limited time for the compilation of in-

formation of future plans for further development work, however, the meeting will be adjourned to June 16. John Hayes Hammond, the well-known mining expert, whose services were secured by the directors during the past year, will report on the property. A considerable block of the stock is held in the upper peninsula.

The decision of the Montana supreme court, finally settling the litigation of the Barus-Pennsylvania ground, is worth \$5,000,000 to Heinze when compared with the original contents of the Amalgamated company. The Boston & Montana, which was named as defendant in the suit, maintained that Heinze had no extralateral rights to the Barus mine, and could not mine beyond the exterior boundaries of that claim. Judge Clancy decided otherwise, and the supreme court sustained him in the decision that Heinze had the right to follow his Barus veins into the Pennsylvania ground to any distance. According to testimony offered at various hearings in the Pennsylvania case by

PALACE MEAT MARKET.

engineers of the Boston & Montana company, Mr. Heinze has already taken no less than \$2,000,000 worth of ore out of the disputed territory in the Pennsylvania, and the decision is worth that much to him in addition to the value of the ore still in the ground, which is estimated at \$3,000,000 to \$5,000,000. It is by all odds the most important victory scored by either side to the mining litigation.

MAKES A CLEAN SWEEP.

There's nothing like doing a thing thoroughly. Of all the Salves you ever heard of, Bucklen's Arnica Salve is the best. It sweeps away and cures Burns, Sores, Bruises, Cuts, Boils, Ulcers, Skin Eruptions and Piles. It's only 25c, and guaranteed to give satisfaction by Stafford Drug Co., druggist.

HOUGHTON LOAN AUTHORIZED.

Legislature Passes Bill Permitting the Village to Borrow \$100,000.

Word has been received from Lansing that the bill authorizing the village of Houghton to borrow \$100,000 for municipal improvements passed the house on Tuesday and the senate on Wednesday. There is no question that the governor will sign the measure, and the village will then be in a position to go ahead with the plans for necessary improvements, such as securing a more adequate water system and the paving of Sheldon street.

A prominent citizen said yesterday that the men on the council are sure to be upbraid by some taxpayers for borrowing money for extensive improvements, but he predicted that in the end the same ones will change their tune and will be willing to subscribe to a monument to be erected in commemoration of President W. F. Miller and the council of 1903.

STEAMER NICHOL DUE THIS WEEK

The steamer John M. Nichol, of the Union Transit line, is expected at Portage Lake this evening or tomorrow morning at the latest. Agent Loftis was the captain of the boat at the Soo yesterday morning, advising him to reach Houghton by way of the upper canals of the Portage Lake waterways, as the usual route by way of the Entry is not yet open to navigation.

TO ADVERTISE COPPER COUNTRY.

W. D. Calverley, of Houghton, has received a request from the Northern Steamship company, owner of the beautiful steamer Northwest, which will make regular trips to Portage Lake this summer, for a folder of Houghton to be used in a folder for advertising purposes. The company intends to advertise the copper country and other parts of the Lake Superior district in order that some idea of their charms may be secured by prospective travelers and tourists.

A GREAT SENSATION.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I contracted insupportable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure."

PNEUMONIA IS ROBBED OF ITS TERRORS.

By Foley's Honey and Tar. It stops the racking cough and heals and strengthens the lungs. If taken in time, it will prevent an attack of pneumonia. Refuse substitutes. Sold by People's Drug Store.

SCROFULA A DISEASE WE INHERIT.

Scrofula manifests itself in many ways. Swelling of the glands of the neck and throat, Catarrh, weak eyes, white swelling, offensive sores and abscesses, skin eruptions, loss of strength and weakness in muscles and joints. It is a miserable disease and traceable in almost every instance to some family blood taint. Scrofula is bred in the bone, is transmitted from parent to child, the seeds are planted in infancy and unless the blood is purged and purified and every atom of the taint removed Scrofula is sure to develop at some period in your life.

No remedy equals S. S. S. as a cure for Scrofula. It cleanses and builds up the blood, makes it rich and pure, and under the tonic effects of this great Blood Remedy, the general health improves, the digestive organs are strengthened, and there is a gradual but sure return to health. The deposit of tubercular matter in the joints and glands is carried off as soon as the blood is restored to a normal condition, and the sores, eruptions, and other symptoms of Scrofula disappear. S. S. S. is guaranteed purely vegetable and harmless; an ideal blood purifier and tonic that removes all blood taint and builds up weak constitutions. Our physicians will advise without charge, all who write us their case. Book mailed free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

CAPT. GAILLARD IN HOUGHTON.

Engineer Promoted to the General Staff Comes to Map Out Work.

D. D. Gaillard, captain in charge of the government work for the Lake Superior district, with headquarters at Duluth, who was recently promoted to a position on the general staff of the United States army, arrived at Houghton yesterday morning to confer with Major Mann in regard to plans for work on the Portage Lake ship canals during the coming season.

The captain does not know what his duties at Washington will be, as he has received no information other than his removal to the capital city. Where he will go and what he will do after he gets there are questions to be decided later. Upon his arrival at Washington he will report to the chief engineer for instructions. Captain Charles L. Potter, of Memphis, Tenn., has been appointed successor to Captain Gaillard as engineer in charge of this district. He will assume the station at Duluth as soon as the flood in the Mississippi river subsides. Captain Gaillard will be temporarily relieved by Major Lausung H. Beach, who is engineer of the Eleventh lighthouse district and of the rivers and harbors on Lake Michigan, with headquarters at Detroit.

Captain Potter, who will have permanent supervision of this district, has been in charge of the third district of the Mississippi river from the mouth of the White river to Warrenton, for improvement, construction and repair of the levees; a member of the board of engineering officers in building and repairing levees on the Mississippi; engineer of the Sixteenth lighthouse district; in temporary charge of the improvement of the mouth of the Yazoo river and its tributaries, and in charge of the engineering work in connection with the Vicksburg national military park.

ERIC HEIKALA A MINOR.

Saloon Keeper Accused of Selling Him Liquor Now in Trouble.

Joel Ruppia, an Atlantic mine location saloon keeper, has been arrested on a charge, preferred by Sheriff Willis, of selling liquor to a minor. Under Sheriff Beck went to the South range yesterday afternoon to bring Ruppia to Houghton for a hearing before Justice Brand. Ruppia, it is alleged, sold liquor to Eric Heikala, the man who shot and seriously wounded Jacob Pelkala, his brother-in-law, during a drunken brawl a few days ago. Heikala is now in the hands of the law. He was brought before Justice Brand Wednesday afternoon and upon waiving examination was bound over for trial in the circuit court. The charge against him is assault with intent to murder.

Heikala may be tried for murder unless the condition of Pelkala improves. The bullet in the latter's lung has not been located and he is in a precarious condition. The surgeons do not dare probe for the bullet as the man's X-ray machine will be used to locate the lead. An attempt will then be made to remove the bullet. Heikala's bail has been fixed at \$5,000. He is still in jail.

SCHOOL ATHLETES IN TRAINING.

Copperdom Teams Hope to Make Good Showing at Ishpeming.

Besides working in their respective gymnasiums to get into condition for an annual meet of the upper peninsula high schools at Ishpeming on May 30, the Hancock and Houghton high school athletes are in training out of doors. The Hancock boys have laid out a running track on the sands just west of the Hancock end of the county bridge, where they may be seen hard at work late in the afternoon. The Houghton boys have been given the use of the Amphidrome, which has ample floor space for track events. The Y. M. C. A. gymnasium is being utilized by the Hancock young men; the Houghton school has a gymnasium of its own. The Calumet high school athletes are in training at that place and they, too, will soon get to work outside.

TWO NEW LODGES PROJECTED.

Twenty-eight names have been secured for membership in the proposed new lodge English, the condition of Houghton. Fifty must be enrolled before a charter can be taken out. Those back of the movement say they will have the requisite number before long. An effort is also being made to organize a lodge at Hancock and it is said that fifty members will be secured there by the first of the week. Should either movement fall through, a lodge for Houghton and Hancock together will be launched. A lodge was recently organized at Calumet by Deputy State Organizer Seaman of the Soo.

DREADFUL ATTACK OF WHOOPING COUGH.

Mrs. Ellen Harrison, of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough; one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Sold by People's Drug Store.

A. W. HANSON, Prop. 8-23-17

COPPERDOM BREVITIES.

The Junior club of Houghton will give a dancing party at the Armory this evening.

Window displays of dog huzzies are features at hardware stores in copperdom just now.

Mrs. J. J. Sullivan, of Calumet, has left for San Antonio, Tex., for a six weeks' visit with her sister.

R. B. Vincent, of Calumet, has returned from Redlands, Cal., and Denver, where he spent a five weeks' vacation.

C. D. Bushell has been admitted to membership in the Laurium fire company to fill the vacancy caused by the resignation of A. Stillman.

Hoyt's "A Trip to Chinatown" will be the attraction at the Kerredge theater, Hancock, this evening. Seats went on sale yesterday morning.

Senator Charles Smith has returned to Lansing. He stated before leaving that the legislature would finish the business on hand about May 10.

A party of ten Finns left on Wednesday for Rudyard, near the Soo, where they may decide to locate on farms. The colony of Finns at that place is a large one.

Ellsworth Plumstead, a well-known humorist, vocalist and character delineator, will give an entertainment under the auspices of the Ladies' Aid society of Grace M. E. church, Houghton, on the evening of April 21.

Work on the foundation for the new Harrington block to be erected in the burned district of Houghton has been started. Plans for the new Foley block will soon be ready for bids from contractors.

The Royal Arch degree was conferred at a special meeting of Gate of the Temple chapter, E. A. M., of Hancock, Wednesday evening. A banquet was served at the Northwestern Hotel at the conclusion of the work.

The total receipts at the Hancock postoffice during the fiscal year ending March 31, according to Postmaster Emery, were \$14,671.36. The money order business amounted to about \$125,000, a large increase over last year.

The primary departments of the Hancock schools are overcrowded owing to the large number of new pupils enrolled at the beginning of the spring term last Monday. Before another year arrangements to supply extra school room will likely be made.

The remains of Charles Helberg, the fisherman who was drowned in Portage lake last fall and whose body was recovered on Tuesday, were interred in Forest Hill cemetery. Accidental drowning was the verdict of the coroner's jury Wednesday afternoon.

The funeral of the late Charles Kehl, of Houghton, will be held from the residence in East Houghton at 2 o'clock this afternoon under the auspices of Houghton lodge, A. O. U. W., and the Sons of Hermann lodge. Both lodges will attend in a body. The interment will be in Forest Hill cemetery.

The asphalt pavement on Quincy street, Hancock, withstood the conditions of winter even better than was expected. It looks as well as when first put down and the municipal authorities are highly pleased. The street gives the city a clean appearance, quite in contrast with that at Houghton.

The Calumet lodge of the National Protective Legion held its first "pay-off" at the Red Jacket town hall Wednesday evening. Fifteen members were presented who checks for \$250 each, a reward for five years' membership during which time they paid in two dollars a month. The society has a membership of 184.

Rev. Mr. Elliott, pastor of the Marquette Methodist church, will deliver the last of a series of four lectures under the auspices of the literary department of the Hancock Epworth league at the church this evening. He will take for his subject, "Making the Most of Life." Richard Moxley of Calumet will sing several selections.

Dr. A. A. Parisot, a former Keweenaw county young man, was recently elected mayor of Mt. Clemens. He was born at the Cliffs location in "Old Keweenaw" in the sixties. By diligent work he earned enough money to take a course in a lower peninsula business college. Later he went to Montana and afterwards returned to Michigan to enter the Detroit College of Medicine from which he was graduated in 1892. He has practiced at Mt. Clemens since.

The Lakeside Cemetery association of Hancock has decided to make numerous improvements in the appearance of the cemetery this spring. Trees will be planted and the roads will be put in good condition. The fences will also be repaired to keep cows from wandering over the graves. The improvements have been badly needed. At a recent meeting of the association John Crawford was reappointed superintendent. The other officers were selected as follows: W. H. Mason, president; William Kerredge, vice president; Thomas Coughlin, secretary; W. W. Stockley, treasurer.

AN INSURANCE EDITOR says, "Spinsters smile when they see a widow who persuaded her husband to buy some of that remedy she wanted instead of insurance which she might need," and who would not see she did it need H. Nat'l Life Ins. Co. of Vt. (Mutual). ORGANIZED 1858. M. W. Marshall, General Agent, Marquette, Mich.

CURES CHRONIC CATARRH. Hyomei Cures Worst Forms of This Disease in Any Part of the System.

It is the height of folly to continue doctoring a catarrhal disease by stomach drugging, when the whole trouble lies in the respiratory organs where nothing can reach the germs but a local direct treatment by inhalation.

Hyomei is nature's remedy for the cure of catarrh, but breathes it a few times daily and it will effect a cure. You may have catarrh of the stomach, liver or kidneys and Hyomei will as surely cure it as it will catarrh of the head and throat.

The moistened dry air that goes through Hyomei is breathed through the inhaler that accompanies the bottle, which is supplied with the purest vegetable and filled with marvellous healing and strength-giving qualities.

If you are tired of stomach drugging and seem to grow weaker all the time, "throw physics to the dogs" and get well with the health giving Hyomei treatment that is Nature's own method.

Dr. E. C. Clark of Holliston, Mass., says: "My wife has suffered greatly from catarrh for fifteen years. Nearly four weeks ago she commenced to use Hyomei and the beneficial effect was immediate. It is very seldom that she needs to clear her head and throat and she is able to rest quietly at night. For years past she had been troubled with pain in her limbs which was diagnosed as rheumatism, but since she has used Hyomei that affliction has disappeared."

The Stafford Drug Co. will return your money if Hyomei does not cure you of catarrh. This shows its faith in the remedy.

SEVERE ATTACK OF GRIP. Cured by One Bottle of Chamberlain's Cough Remedy. "When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I have never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by the Stafford Drug Co.

MICHIGAN COLLEGE OF MINES. An Engineering School with unique location, giving it unusual facilities. New Mining, Engineering, and Hydraulic Building, also Chemical and Metallurgical Building, ready for full term, 1902. For catalogue giving list of graduates and their occupations, address F. W. McNAIR, President, Houghton, Mich. (7-1-17)

THE STAR OF HEALTH. KODOL digests what you eat! KODOL cleanses, purifies, strengthens and sweetens the stomach. KODOL cures indigestion, dyspepsia, and all stomach and bowel troubles. KODOL accelerates the action of the gastric glands and gives tone to the digestive organs. KODOL relieves an overworked stomach of all nervous strain, gives to the heart a full, free and untrammelled action, nourishes the nervous system and feeds the brain. KODOL is the wonderful remedy that is making so many sick people well and weak people strong by giving to their bodies all of the nourishment that is contained in the food they eat.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c. Foley's Honey and Tar contains no opiates, and will not constipate like nearly all other cough medicines. Refuse substitutes. Sold by People's Drug Store.

For sale by H. Harwood, Ishpeming. The Stafford Drug Co., Marquette.

WANTED—FOR SALE, OR RENT.

WANTED—Trustworthy person in each county to manage business of old established house of solid financial standing. Straight bona fide weekly salary of \$15 pair by check each Wednesday with all expenses direct from headquarters. Money advanced for expenses. Manager 332 Carlton, Chicago. 4-16-03

COPPERS IMPROVE.

Along With the New York Stocks They Made Advances Yesterday. Paine, Webber & Co. said of the Boston market: Amalgamated did not increase its dividend rate, but declared the regular half of one per cent. Coppers all acted well today. The general market will probably be a sale on sharp rallies and a buy on reactions for some time to come.

Upper Peninsula.

Goes to Newfoundland—N. O. Lawton, who for several years past has had the general management of the Iron Belt mine in the Ironwood district, has gone to Newfoundland to assume charge of extensive mining interests there.

FOR WOMEN

Much That Every Woman Desires to Know About Sanative Antiseptic Cleansing And About Curing Ulcerative Pains and Weaknesses. Too much stress cannot be placed on the great value of Cuticura Soap, Ointment and Pills in the antiseptic cleansing of the mucous surfaces and of the blood and circulating fluids, thus affording pure, sweet and economical local and constitutional treatment for weakening discharges, ulcerations, inflammations, itching, irritations, relaxations, displacements, pains and irregularities peculiar to females.

WANTED

to hear from a reliable and energetic man or woman who can and will sell goods, and who would like to make more money. Here is the opportunity for the right party to make a permanent and profitable connection with one of the oldest and best corporations in this country. Address, in strict confidence, with age, references, business experience, and pay expected.

OUT NEXT WEEK! THE 1903 COPPER HANDBOOK. INTERNATIONAL EDITION

A New Book from Cover to Cover. Much Larger. Much More Comprehensive. Much Better Than Ever Before.

The following brief comparison between the three editions of the Copper Handbook will give an idea of the scope of the 1903 edition:

Table with 4 columns: Scope, Number of pages, Number mines described, and Year (1901, 1902, 1903). 1901: Lake Superior, 328 pages, 250 mines. 1902: United States, 416 pages, 656 mines. 1903: The World, 600 pages, 2,217 mines.

The first edition, devoted to Lake Superior mines only, had a statistical section only, in addition to the mine descriptions. The 1902 edition had a number of chapters devoted to the scientific features of the subject.

DON'T THINK because this book is published in Houghton that it doesn't amount to much. On the contrary, it is the unanimously accepted Work of Reference on Copper for the entire world, and is bought as such by the Mining Companies, Scientists, Mining Engineers, Metallurgists, Brokers, Mining Colleges, Libraries, Smelters, Manufacturers, Promoters, Investors,

—PRICES AND TERMS:— The price of the Copper Handbook, delivered PREPAID to any address in the world, is as follows: Buckram binding, gift Tops \$5.00. Full library Morocco \$7.50.

The book will be delivered, fully prepaid, to any address, upon order, on the following terms: If it suits keep it, and remit; if it doesn't suit, send it back. Return it within a week after receipt, for any reason whatsoever, and the charge will be cancelled, and no grumbling.

OF GENERAL INTEREST.

WAS A FINE TAILOR.

Library Notes Prepared by Mrs. Fiske, the Librarian.

Charles B. Conway Was Recognized as One of the Best in This Region.

Mrs. Fiske has contributed the following notes of interest in regard to the library:

We wish that library patrons would remember that the library is not open in the morning, except Saturday; that it closes at 6 o'clock in the afternoon, and does not open until seven. There is no use congregating in the hall, for even if we are in the library at work the doors can open no sooner.

"Bob Knight's Diary" in two parts, is a new book that is very popular. We have just one copy at present, but a dozen would not meet the demand.

It will be a long time before "Mrs. Wiggs" and "Lovey Mary" have run their course. It is a pity that much of the sensational and worthless fiction that is called for could not be replaced by books of this class. Well written, witty, soundly philosophical, true to life and with "the one touch of nature that makes all the world kin," no one, young or old, can read them without enjoyment and a broadening of sympathies.

The ending of Lent does not seem to decrease the demand for books, as so far we have kept the average of 100 a day. The weather, however, has much to do with people's reading.

The crying need of the library at present, next to the subject catalogue, is a number of first class books for the young people. Some of the boys and girls get much discouraged when asked for a certain good book and are told repeatedly that it is "out."

At the dedication of the Washington Carnegie library building President Roosevelt said: "It seems to me that the man has a right to call himself a citizen blessed who combines the power and the purpose to use his wealth for the benefit of our people at large in a way that shall do them real benefit; and in no way can more benefit be done than through the gift of libraries, such as this—a free library where every man, each woman, has the chance to get for himself or herself the training that he or she has the character to desire and to acquire."

In one of the letters of "A Self-Made Merchant to His Son" is the following: "The latter had just gone to Harvard; 'You'll find that education's about the only thing lying around loose in this world, and that it's about the only thing a fellow can have as much of as he's willing to haul away. Everything else is screwed down tight and the screw driver is in the hands of some business with liars; and some by going to Sunday school. Some men learn the cussedness of whiskey by having a drunken father; and some by having a good mother. Some men get an education from their men and newspapers and public libraries, and some get it from professors and parchments—it doesn't make any special difference how you get a half-nelson on the right thing, just so you get it and freeze on to it. The first thing that any education ought to give a man is character, and the second thing is education. That is where I am a little skittish about this college business. I'm not starting in to preach to you because I know a young fellow with the right sort of stuff in him preaches to himself harder than any one else can, and that he's mighty often switched off the right path by having it pointed out to him in the wrong way. When a boy's had a good mother he's got a good conscience, and when he's got a good conscience he don't need to have right and wrong labeled for him."

WILL PRESENT "KENTUCKY."

Following is the cast of characters of "Kentucky," the play that will be presented by the Catholic Athletic club at the opera house Monday and Tuesday evenings:

John Woodford..... Ernest Ludlow
Major Rube Pointdexter..... R. D. Kyle
Gwynn Powell..... J. F. Labreche

Synopsis: Act I. Woodford Dale park. Act II. The Woodford stables. Act III. Lexington race track. Act IV. The old Kentucky home. Musical selections will be rendered by Mrs. Will Watson, Dr. Edwin Robinson and William Locher. The full orchestra will play each evening. The sale of seats will begin this morning at Tillson's. The price is fifty cents.

PROF. DOWNING'S LECTURE.

A stereopticon lecture will be given in the auditorium of the Methodist church Wednesday evening, April 22, by Professor E. R. Downing of the Marquette Normal school, subject, "The Making of the World." Professor Downing was formerly a resident of Ishpeming. The prices of admission will be twenty-five cents for adults and fifteen cents for children. An informal reception will be given in honor of Professor Downing by Mrs. Bessie Phillips Sunday school class in the church parlors after the entertainment. The following is from the Menominee Evening Leader of March 28: "Professor Downing, of the Marquette Normal school, delivered a fine lecture at the high school last night before a large and appreciative audience on 'The Making of a World.' Mr. Downing is a fine speaker and was thoroughly conversant with his subject. The lecture was beautifully illustrated with stereopticon views."

SEND IN BIDS.

Time for submitting bids for building proposed hall under the Finnish church has been extended to April 24. Specifications can be seen at E. Ristinkangas' jewelry store, First street. (4-17-11)

The ladies of the Presbyterian church will serve a supper at the church parlors on Tuesday evening, April 28. Price, twenty-five cents. All are invited. (4-17-11)

The ladies of the Presbyterian church will serve a supper at the church parlors on Tuesday evening, April 28. Price, twenty-five cents. All are invited. (4-17-11)

ARTFUL ALLEUREMENTS.

Alliterations Are Dangerous Expedients to Lead Unwary Astray.

How the vulgar are led by words! The alliteration of the Cape-to-Cairo scheme carried away Cecil Rhodes and hundreds of thousands of Jingoese. Catching phrases are explosives of the great power when circumstances at all favor them. The Monroe message to the United States congress, in so far as it embodied what is known as the Monroe doctrine, was borrowed from a euphoniously written pamphlet which Ganning asked a nameless Irish scribe to write for him about the time the nationalist congress met at Verona, says London Truth. This pamphlet was sent to Washington by the English secretary of state for foreign affairs. He had an eye on South America as a country that, if developed under Republican government, might be a great customer of England. Monroe found in the pamphlet a few telling phrases that he adopted. These phrases are now stronger than all Europe and are a strait-waistcoat on the Kaiser. Had America, when Monroe penned them, been a cultured nation, they would have probably been as the seed that fell on stony ground. It is dangerous to take up one's stand on a strong alliterative phrase when circumstances may be hostile. This one to the greatest causes of embarrassment of the national defense government was Jules Favre declaring in his mark that France would not yield a stone of her fortresses nor an inch of her territory. Louis Napoleon reopened Pandora's box by uttering a resonant phrase about the principle of nationalities. He gave a text to all those agitators who were restless and daring because they had nothing to lose, and could only "protest" through some great work of demolition. Having a text, they proceeded to work it to the destruction of the author. "The peace-at-any-price party" is another ear tickling phrase. It seriously hindered the usefulness of Cobden and Bright. "The peace with honor" of Disraeli fell flat. It was not alliterative. One of the phrases of history that operated most rapidly was that in which Gambetta ordered Marshal MacMahon to "se sonnettre ou se denetre."

A THOUGHTFUL MAN.

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at Stafford Drug Co.'s drug store.

A PROPER START INSURES A GOOD FINISH.

When an athlete is training for a hundred yard sprint, a great deal of his time is spent in learning how to start right, for almost everything depends upon it.

After he has left the line all his energies are bent on keeping to the front. If his start has been a bad one he is seriously handicapped and his chances for success are very slight.

So it is with health in business. It is necessary to have health to start by causing the mind cannot afford to be diverted in the carrying out of large plans of innumerable details, by the misery of a suffering stomach.

"A bad stomach" means not only pain, but it means impaired nourishment, poisoned blood, a lessening of brain power; it unfits its victim for prolonged physical and mental work; it spoils his temper and he becomes a cranky, capricious nuisance, a burden to himself and those about him.

The Stafford Drug Co. just now are having a wonderful sale of the Rexall Dyspepsia Tablets which are so extensively advertised. Mr. Stafford is particularly enthusiastic about the virtues of the remedy for stomach troubles, and in conversation he brought out a few interesting points.

"Among other things Mr. Stafford said: 'Did you know that a man in perfect health is practically immune from all forms of disease, and if perchance he should contract disease, his resistant power is such that he can easily throw it off?'

"Such is the case and the moral is plain. Get your stomach in condition and you are practically certain to enjoy health.

"Start right. Buy Rexall Dyspepsia Tablets. These tablets will not only cure indigestion and dyspepsia, but they will strengthen the stomach forces, improve digestion, increase appetite, enrich the blood, act gently on the liver and bowels, and put the whole body in the best possible condition to prevent disease.

"We know what they will do and for this reason we offer them to you with a specific guarantee. 'We say to our customers, try them. If they do not help you we will cheerfully refund your money. You know us and you know our standing, and you are aware that we could not afford to make such a guarantee unless it was genuine.'

There will be a special meeting of the Royal Arcanum tonight at 7:30 o'clock, for the purpose of initiating two candidates.

A number of Negaunee people attended the concert given last night under the auspices of the Ishpeming Presbyterian choir.

The liquor boards were not considered at the meeting of the council yesterday afternoon. Another meeting will be held later for that purpose.

Thomas Broad, a former resident of Negaunee, was elected supervisor of Mansfield township, Iron county, at the last election, securing fifty-one votes to thirty-three for his opponent.

The marriage of Miss Fanny O'Leary and Harry Miller of Colorado has been announced to take place tomorrow afternoon. The couple will leave the same evening for Colorado, where they will make their home.

The proceeds of the entertainment given for the benefit of the Swedish famine sufferers by the Scandinavian society last Saturday night, together with the total of the subscription amounted to \$154. The members of the society extend their thanks to those who contributed.

T. J. Flynn expects to attend a meeting of the executive committee of the Upper Peninsula Firemen's association at Hancock tomorrow. The tournament takes place in Hancock in August. The local department will be represented. Mr. Flynn will make arrangements for hotel accommodations.

It is expected that extensive highway improvements will be undertaken during the coming season. The sidewalks will be placed in good condition last year and will need few repairs. The crusher will be placed in commission again to prepare top dressing for several of the streets. The crusher could not be used very much last year, owing to frequent breakdowns, but it is thought that it has been repaired so that it will cause no further trouble.

DANGER OF COLDS AND GRIP. The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided.

A CHATTANOOGA DRUGGIST'S STATEMENT. Robt. J. Miller, Proprietor of the Read House Drug Store of Chattanooga, Tenn., writes: "There is more merit in Foley's Honey and Tar than in any other cough syrup. The calls for it multiply wonderfully and we sell more of it than all other cough syrups combined." Sold by People's Drug Store.

TO KNOW WHEN TO INSURE is hardly less important than to know when to insure, and greater the wisdom of how to insure. We challenge on the first and advise. On the second, we offer our service, and on our record, say "here." On the third, we will give information and advice. 34th year of business in 25 states. Nat'l Life Ins. Co. of Vt. (Mutual) ORGANIZED 1856. M. W. MARSHALL, General Manager, Marquette, Mich.

MADE FIRST CAST

BIG PIONEER FURNACE IN NORTH MARQUETTE NOW IN BLAST.

START WAS AN UNQUALIFIED SUCCESS

IT TOOK JUST EIGHTEEN HOURS TO GET THE MOLTEN IRON.

Fire in Stack Was Lighted Wednesday Evening at 9:06 O'Clock by Miss Beatrice Hanscom—Cast Made at 3:06 p. m. Yesterday.

The North Marquette furnace of the Pioneer Iron company, the largest charcoal furnace in the world, went into commission yesterday afternoon, the first cast, which occurred at 3:06 o'clock, being a success in every particular. The furnace will, barring unforeseen accidents, be continuously in blast from now on, and soon it will be producing its nominal capacity of charcoal pig iron, 150 tons daily.

The fire in the mammoth stack was first lighted Wednesday evening at 9:06 o'clock, so the blast was on just eight hours to produce the first lot of pig iron from the virgin ore. On Miss Beatrice Hanscom fell the honor of first firing the new stack. Her act was witnessed by a comparatively small number of people, it not being known exactly when the fires would be started. A train of shavings in the vent from which the molten iron was soon to stream forth carried the flames to the charcoal in the center of the stack. This train Miss Hanscom lit with a torch gaily decorated with the Cleveland-Cliffs colors, which she carried off as a souvenir of the occasion.

An Eighteen Hours' Blast.

It was estimated when the stack was lit that it would require an eighteen hours blast to produce the iron needed for the desired cast, and the estimate was right almost to a minute. It was a few minutes before three when the workmen began attacking the vent in the stack and it was a few minutes after when the flow of the molten metal began. Slowly and steadily it flowed down the main channel to the various subdivisions of the bed that had been carefully prepared for it and into the moulds for the individual pigs. The moulds in the lower part of the bed were filled first. Steadily the iron mounted toward the elevation of the stack. The pig moulds were growing few. There was a moment's anxiety least perchance there might not be enough of them. But then the stack began to "blow" and everyone sighed audible relief. The first cast had been a complete success.

When the iron was all out of the stack the pigs were covered with sand and flooded with water. The vent was, as soon as possible, stopped up, and other preparations for the next cast taken up. Casts will henceforth be as regular as the clock at the North Marquette furnace.

The start with the new plant yesterday afternoon was witnessed by upwards of 100 people, about half of them employees of the furnace and about half people who had filtered out from town, attracted by a curiosity to see the furnace put into commission. The first cast was marked by no ceremony of any kind whatsoever. It was a business proposition, pure and simple. The charging of the stack began Wednesday morning. It was rather expected to fire it earlier than was really the case, in which event the first cast would have occurred a few hours earlier. However, slight delays were occasioned by the difficulty of breaking in new men and getting the various parts of the great plant working smoothly.

For repairs, enameling, cleaning and nickel plating. Take your wheel to the Cole Cycle company, 329 W. Washington street, Hicks' block, and let Mr. H. C. Cole, the old-time bicycle man of ten years' experience, figure on your wheel and the work to be done. He does the work himself personally; guarantees all work and charges reasonable prices. Also has in store a full line of new and second-hand wheels for sale or exchange, and also has wheels to rent by hour, day, week or month. A full line of tires, sundries and supplies for all makes of bicycles. All kinds of general repairing. Special attention given to bike buggies and new rubber tires put on your carriages. All work called for and delivered. Bell phone 808. (4-16-11)

Good dry hardwood, block or split. Dry pine slabs, dry hemlock slabs—any length required. F. W. Read & Co., Marquette. (12-19-11)

Don't get the notion that the curative power of a medicine exists in the name. It must be in the medicine itself. You may not have heard of Re-Go Tonic Laxative Syrup. It is not made of figs because the laxative principle of figs are the seeds, yet it is as pleasant to take as figs are to eat and is a certain cure for biliousness, constipation, indigestion and stomach troubles. The name is Re-Go, which in Sanscrit means "good." The merit is all in the medicine itself. Sold by the People's Drug Store.

Goldfish's Kettle Bordered Lead—Bills number used in make.

CAPT. CHARLES L. POTTER.

OF MANY YEARS STANDING

MONEY CHANGED HANDS IN AFTERNOON ABOUT 5 O'CLOCK.

No Less Than Five Different Actions Will Be Dropped as a Result—Many Lawyers Have Been Concerned With the Case.

The protracted litigation between T. G. Sullivan of Marquette and the Ross estate was settled yesterday, when Frank W. Ross of Quebec paid to Mr. Sullivan \$125,000 for a transfer to him of all of the Sullivan claims against the estate. The settlement was the outcome of an offer made by Mr. Sullivan a number of days ago by Mr. Ross. It was accepted as made, and the \$125,000 which changed hands yesterday is the sum proffered by Mr. Ross in the hope and expectation of bringing the long series of law suits to a final close. The matter was wound up in Clark & Pearl's office yesterday afternoon about 5 o'clock, when the payment was made to Mr. Sullivan.

By the terms of the settlement several suits are brought to a summary conclusion. They include that of James Russell, administrator, vs. the Chicago Lumber company of Marquette, involving lumber sold to the defendant by the Rosses for the sum of \$100,000, the proceedings having been instituted in Alger county; James Russell, administrator, vs. Frank Ross of Detroit, suit for all timber cut off the Ross estate in all parts of the upper peninsula, suit having been brought in Wayne county; James Russell, administrator, vs. John Barron, to enjoin cutting of timber on lands sold by the Rosses in Delta county, with a few descriptions in Marquette, pine, spruce and cedar only affected and the case of James Russell, administrator, vs. Mann Bros., suit to enjoin cutting timber, other than spruce, pine and cedar, and to collect damages for cutting, the same descriptions as in the Barron case being involved. Both these latter actions were brought in Delta. In addition there is the action in the matter of the application of the administrator to sell the lands of the Ross estate and the appeal of Frank Ross, now before the supreme court. This proceeding was instituted in the probate court by James Russell, administrator.

AT THE THEATER.

"The Strollers" Saturday Night Is a Strong Bill.

"The Strollers", which will be the bill at the opera house Saturday evening, was presented in Duluth Tuesday night, giving excellent satisfaction. The Duluth News-Tribune said of it: "The Strollers" played to a capacity house of pleasant temper at the Lyceum last evening. Dainty, winking Marguerita Sylvia kept the attention of the audience pretty well off the rest of the company and the general makeup of the comedy opera. "The Strollers" is very well equipped with attractive girls, and has a strong and tuneful chorus. Its women are beautifully gowned and its men wear fetching military uniforms. The last act is rich in spectacular effect.

"Miss Sylvia, smiled winsomely and displayed a set of teeth that is more perfect than any series of matched pearls ever strung. One turns reluctantly from her eyes to admire the teeth, but finds them well worth the effort. She has a voice that falls pleasantly upon the ear. It isn't a strong voice, and is not perfect by any means, but soothes one and charms one just the same. Miss Sylvia's magnetic personality is expressed in it, as it is in any move of hers. She is a young artist who does not depend upon her beauty for prestige. She tries to be something more than a lovely picture and she succeeds.

"D. L. Don, who is the only one of last year's principals to appear in his own eccentric way. His work is unique and vastly amusing. "George C. Boniface, who plays opposite to Miss Sylvia, makes as much as possible of his role. His admirers could wish it were a more congenial one. It doesn't give him half a chance" to express the art that is manifestly his. "Dorothy Hunting, who has a sweet contralto voice, sang a pretty song most effectively. David Torrence gave voice to some excellent baritone notes. The encores were numerous and insistent, and delayed the finish of the performance twenty minutes.

"The Strollers" is beautifully set, but its strongest feature is, of course, Miss Sylvia. She lends to it light and color and vivacity, and makes one forget the weak points of the libretto."

Monday night at the opera house will be presented Hoyt's well-known comedy "A Trip to Chinatown." As in most of the other productions of this playwright plot plays a small part in "A Trip to Chinatown." There is, however, enough plot to sustain the interest. Singing, dancing and specialties, elaborate and fetching costumes, strikingly handsome scenery, a splendid cast, ridiculously funny scenes and situations, and bright, crisp, witty dialogue are the principal features that go to make up an entertainment which is claimed by many to be the most wholesome and amusing piece Charles H. Hoyt ever offered to the public.

BICYCLES WANTED

For repairs, enameling, cleaning and nickel plating. Take your wheel to the Cole Cycle company, 329 W. Washington street, Hicks' block, and let Mr. H. C. \$125,000 PAID OVER

ENDS LITIGATION BETWEEN ROSS ESTATE AND T. G. SULLIVAN.

OF MANY YEARS STANDING

MONEY CHANGED HANDS IN AFTERNOON ABOUT 5 O'CLOCK.

No Less Than Five Different Actions Will Be Dropped as a Result—Many Lawyers Have Been Concerned With the Case.

The protracted litigation between T. G. Sullivan of Marquette and the Ross estate was settled yesterday, when Frank W. Ross of Quebec paid to Mr. Sullivan \$125,000 for a transfer to him of all of the Sullivan claims against the estate. The settlement was the outcome of an offer made by Mr. Sullivan a number of days ago by Mr. Ross. It was accepted as made, and the \$125,000 which changed hands yesterday is the sum proffered by Mr. Ross in the hope and expectation of bringing the long series of law suits to a final close. The matter was wound up in Clark & Pearl's office yesterday afternoon about 5 o'clock, when the payment was made to Mr. Sullivan.

By the terms of the settlement several suits are brought to a summary conclusion. They include that of James Russell, administrator, vs. the Chicago Lumber company of Marquette, involving lumber sold to the defendant by the Rosses for the sum of \$100,000, the proceedings having been instituted in Alger county; James Russell, administrator, vs. Frank Ross of Detroit, suit for all timber cut off the Ross estate in all parts of the upper peninsula, suit having been brought in Wayne county; James Russell, administrator, vs. John Barron, to enjoin cutting of timber on lands sold by the Rosses in Delta county, with a few descriptions in Marquette, pine, spruce and cedar only affected and the case of James Russell, administrator, vs. Mann Bros., suit to enjoin cutting timber, other than spruce, pine and cedar, and to collect damages for cutting, the same descriptions as in the Barron case being involved. Both these latter actions were brought in Delta. In addition there is the action in the matter of the application of the administrator to sell the lands of the Ross estate and the appeal of Frank Ross, now before the supreme court. This proceeding was instituted in the probate court by James Russell, administrator.

FOR A DOZEN YEARS.

The litigation has been going on for approximately the past dozen years, and in the interval, as appears, it has been much before the various courts. It was an outgrowth of the business relations between the Rosses and Mr. Sullivan, who claimed damages in connection with a number of lumber and land deals. Mr. Sullivan resorted to the courts early in the nineties and in the course of two or three years secured a judgment in the circuit court of Marquette county for upwards of \$90,000. On appeal by the Ross estate the ruling of the lower court was reversed by the supreme court. Here it was again decided in Mr. Sullivan's favor, the amount of the judgment of course being somewhat larger than in the first instance. Again the Rosses sent the case to Lansing, and again the supreme court reversed the ruling of the circuit court. However, it shortly reversed its own reversal and in the spring of 1900 it affirmed the judgment of the lower court. The history of the case since that time is the history of an effort on the part of the administrator to procure the sale of the lands of the Ross estate with the purpose of discharging the claims against it. The claims, it may be remarked, amounted principally to the single big claim of Mr. Sullivan. Petition was made to the probate court to authorize such sale, but the Rosses again appealed and at the time of the settlement the matter was before the supreme tribunal.

It is said that the lands of the Ross estate are now much more valuable than they were in 1900, owing to the great increase in the value of all upper peninsula timber lands. That they have a great value appears from the settlement for the sum of \$125,000. A large number of lawyers have been concerned in the litigation from time to time. Timothy Tarsney and Moore of Detroit and Ball and Ball of Marquette have been looking after Mr. Sullivan's interests. Clark and Pearl of Marquette and John D. Connelly of Detroit have represented the Rosses. At yesterday's meeting George W. Moore represented Mr. Sullivan, Ball and Ball James Russell, the administrator, C. R. Brown, the Chicago Lumber company and Clark and Pearl the Rosses. Frank W. Ross and James Gieggle of Montreal were also present.

CATARH AND HAY FEVER.

Liquid Cream Balm is becoming quite as popular in many localities as Ely's Cream Balm sold. It is prepared for use in atomizers, and is highly prized by those who have been accustomed to call upon physicians for such a treatment. Many physicians are using and prescribing it. All the medicinal properties of the celebrated Cream Balm are contained in the Liquid form, which is 75 cts. including a spraying tube. All druggists, or by mail. Ely Brothers, 56 Warren St., New York.

Stafford Drug Co. sells Ryckman's Old Brocton Port Wine and G. W. Blaine's Grape Juice. (4-9-3m-0)

Peacock Hams and Bacon are unexcelled. (3-23-3m-0)

300 CANAL PASSAGES.

List of the Vessels Locked Through on the Up-Bound Trip.

WILL BUILD BOULEVARD.

Northern Land Company Held Its Annual Meeting Wednesday.

The Northern Land company held its annual meeting Wednesday afternoon. The old officers were reelected, and it was decided to take steps to have the Lakeshore boulevard, which will run through from Ridge street to a juncture with the Presque Isle drive at a point near the former location of the Wornier ice house, completed during the summer. This boulevard, which will be probably the finest drive in the city, will cost in the neighborhood of \$9,000, according to the present plans, which call for a total width of eighty feet and a macadamized width of forty-one feet. About \$5,000 of this amount will be borne by the Northern Land company which will benefit in the greatest degree from the improvement.

This improvement has already been authorized by the council and the special roll was prepared several months ago. Bids for the contract will be advertised for as soon as two-thirds of the total of the assessments is paid in, and it is said that the necessary money will soon be in the controller's hands. It is possible that modifications of the present plans for the boulevard will somewhat reduce the expense.

CITY BREVITIES.

Today's weather: Fair. No material change in temperature. Fresh and brisk northeast winds.

Yesterday's temperature: 7 a. m., 36 degrees; noon, 37 degrees; 7 p. m., 35 degrees. Maximum, 38 degrees; minimum, 35 degrees.

A twenty-five-cent supper will be served this evening in the parlors of the Swedish Lutheran church, on Ridge street.

Carl Rydholm, wellknown as a baseball player, has joined the crew of the Pathfinder and will sail on the boat this season.

The Ladies' Aid society of the Presbyterian church will meet with Mrs. J. B. Wilson, 141 West Prospect street, this afternoon at 2:30.

Paul Greer, who was recently appointed by Congressman Young to a cadetship in the naval academy at Annapolis, is now at Annapolis preparing for his entrance examinations. Mr. Greer expresses himself as greatly pleased with the academy and its environment.

The tug Schenck is being fitted out at Sault Ste. Marie and will be added to the Duluth fleet this season. The Schenck was in commission at Marquette last summer. She is a very powerful tug. One of the Duluth tugs of the trust fleet will probably be sent to Marquette to take the place of the Schenck.

President David Kiffin, of the Marine Fishery, Oiler and Water Tenders' association, reports that the Lake Michigan & Lake Superior Transportation company has signed the union scale. G. J. Harris, Chicago manager for the line, however, denies the report and says that his company is a member of the Lake Carriers' association.

Street Commissioner French had no less than ten men busy on Washington street yesterday, and they worked a great change in the appearance of that thoroughfare. When they tackled the street it was dirty and untidy with the litter and mud of a winter's accumulation. They left it neat and clean. Their work is beginning to show in other sections of the city.

The funeral services of Mrs. L. D. Harvey will be held at Harvey Saturday at 2:30 p. m. Mrs. Harvey was born at West Stockbridge, Mass., Sept. 24, 1831, and she removed to Marquette in 1857, having resided in this county ever since. Paralysis of the heart was the immediate cause of her death, after an illness of about ten days. Her husband and a son, Arthur D. Moore, a resident of Jersey City, survive her.

The track team of the Marquette High school will give a dance at Fraternity Hall next Friday evening. Arrangements for the function are already under way. Invitations are about to be issued. The proceeds will be used to fit the boys out for the forthcoming season. They are now in training for the annual meet of the Upper Peninsula interscholastic association, which will be held in Ishpeming the last of May.

The Peet Bros. will be at the M. E. church this evening. The Linden, Mich. Leader said of their recent appearance at Linden: "The Peet brothers, entertainers, at the Congregational church last Thursday evening, were greeted by a full house. J. O. Peet, baritone vocalist, has a rich voice with wide compass. He delighted his hearers. C. D. Peet, humorist, in his delineations of a dude and the mischievous boy, is excellent. Their rendition of wellknown airs on the musical glasses brought forth hearty applause and an expression of satisfaction spread over the faces of the audience. The aluminum chimes make a popular hit wherever they are presented. A crowded house awaits them should they decide to visit Linden again." The entertainment here tonight will start at 8 o'clock sharp. The proceeds will be applied to the lighting fund.

Say, Brown, you and Mrs. B. look as young as the day you were married—20 years ago. That's a fact, Smith; we take Rocky Mountain Tea every spring. It's like a dip in the fountain of youth. Stafford Drug Co.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. Stafford Drug Co., Desjardins' Pharmacy, (11-16m-0) The People's Drug Store.

INDISPUTABLE FACTS ABOUT THE VARIETY STORE. This store satisfies the multitudes and pleases the people more than any other store through its sterling values truthfully named. The thousands of Bargains on sale here boldly stand at the head of the grandest money-saving opportunities ever offered. We are better prepared than ever to supply the wants of our customers, as we are constantly increasing our stock, and we are daily adding new lines. As our sales are increasing we are proportionally lowering our prices, always giving our customers the benefit of the deal. We are the originators of low prices in Marquette, and we shall not permit anyone to under-sell us. The Variety Store. 149 WASHINGTON ST., MARQUETTE, MICH. J. A. MALHIOT, Prop.
