BAD WRECK ON ERIE

FAST TRAIN CRASHES INTO A FREIGHT AT A SIDING.

AT LEAST EIGHT PERSONS KILLED

BODIES OF THE VICTIMS BURNED BEYOND RECOGNITION.

Passenger Coaches and Pullman Sleepers Are Hurled from the Track and With Other Cars Are Consumed by Fire That Follows.

Jameson, N. Y., April 20.—A coupling broke on an eastbound freight on the Erie railroad at Red House at 4 o'clock this morning, just as the train was leaving the main tracks. Before it could be stopped, the New York-Chicago limited eastbound crashed into the freight and several cars, including the day coach and two sleepers, left the tracks. The wreck caught fire immediately and the derailed cars were quickly consumed.

Bodies Horribly Burned. Baggageman Hotchkiss was killed and two women and a child who boarded the train at Youngstown, O., and the bodies of two men were taken from the wreck, burned beyond identification. N. S. McCready, the mail weigher, of Mansfield, O., and Frank Barthe, a traveling salesman, of Jamestown, N. Y., are missing, as well as an unknown passenger of one of the Pullman sleepers.

Later—the number of dead in the wreck today is placed at eight. Ten persons were injured, three of them seriously. Only one body, that of Brackman Hotchkiss, has been identified, the others being burned beyond recognition.

The injured are: H. Pulsifer, New York, badly bruised; C. W. Mesick, Chicago, back badly injured; H. F. Cleminger, mail clerk, Gerry, N. Y., ribs fractured, body bruised; John Drougoman, Duluth, bruised and badly injured; Mrs. Foote, eighty years old, St. Paul, bruised and shocked; S. A. Cooke, porter, N. Y.; C. S. Johnson, porter, Conoverville, N. J.; H. C. Gabler, express messenger, Marion, O., leg cut off; probably fatally injured; R. T. Bell, fireman, head and back bruised.

In the fire which destroyed the wreckage, a combination car, two day coaches and two sleepers, together with several freight cars, were consumed.

Cause of Disaster in Dispute. There is some dispute as to the cause of the wreck, and it now seems evident that a broken coupling was not responsible, as first reported. The passenger train was running east and the freight west. The freight had trouble in entering the siding and the foremost engine of the train was sent in along the siding with a flagman to hold the express. It is alleged that the operator in the tower, Lawrence Vale, a boy of seventeen years old, saw the light of the engine of the freight and supposed the freight was on the siding behind it. Vale then displayed the signal toward the passenger train indicating to the engineer he had a clear track. The engineer of the passenger train failed to see the flagman sent out from the forward engine of the freight and saw only the clearance signal from the tower.

The train ran toward the east end of the siding at high speed and collided with the second engine of the freight just as it was about to clear the main line. The passenger engine and several of the coaches crashed into a small wooden structure. The first half dozen cars of the freight were wrecked. All but three of the cars of the express followed the engine, and the whole mass of wreckage was soon in flames. The tracks were strewn for rods with burning wood and coal and heaps of twisted iron work.

The passenger train was one of the fastest trains of the Erie.

THREE GENERALS AMONG DEAD. Santo Domingo Rebels Again Repulse Attack Upon the City.

Santo Domingo, Republic of Santo Domingo, April 20.—Government troops shelled this city yesterday and several houses were damaged. Government soldiers attacked the city in force at several points this morning, and the fighting lasted one hour. General Cordero, minister of the interior; General Alvarez, governor of Puerto Plata, and General Quesada were killed. Over one hundred government soldiers were killed or wounded, and the government forces were obliged to withdraw. The revolutionists made several prisoners and captured horses and ammunition. Their losses were slight, only a few men being killed or wounded. President Vasquez narrowly escaped being shot.

The rebel gunboat Independencia has returned here, and it is reported that General Navarro, with a quantity of ammunition, landed from her near Monte Cristi. Revolutionists are surrounding Monte Cristi.

Rebels on Top in Honduras. New Orleans, April 20.—Bonilla is now president of Honduras. Arias is in prison at Tegucigalpa, and Sierra is a fugitive in Nicaragua, having fled to that country when the handful of government troops deserted him in Nicaragua on April 6, when the rebels attacked the government forces under Sierra and marched to the capital, where Arias was made a prisoner.

KILLS TWO AND ESCAPES.

Ex-Treasurer Keefe of Rawlins, Wyo., Sought by a Posse.

Rawlins, Wyo., April 20.—F. J. Keefe, head of the Keefe Commercial house and ex-city treasurer, shot and killed Thomas King and Policeman Baxter tonight and escaped. Sheriff Horton and a posse are in pursuit.

Policeman Baxter and Spencer had gone to his place of business to arrest Keefe for being disorderly. Keefe appeared at the door with gun and began shooting. Baxter was shot through the stomach and King, who was passing, was shot through the heart. King was a lieutenant in Torrey's rough riders during the Spanish war.

Ends Wife's and His Own Life. Bloomington, Ills., April 20.—Benjamin Cox, a mechanic, of Clinton, tonight shot and killed his wife and himself during a quarrel. Mrs. Cox had left her husband. He had persuaded her to return and was taking her from the home of her parents when the tragedy occurred.

Husband Victim of Jealous Wife. Cranston, Wis., April 20.—Farice Duff was shot and fatally wounded tonight by his wife while he was bidding goodby to another woman upon whom he had been calling. The wife was arrested.

Private Shoots Down Sergeant. Valentine, Neb., April 20.—Private Linaire, of Company L, Twenty-fifth infantry, shot and killed Sergeant Yours of the same company at a result of a quarrel tonight. Linaire was arrested.

BRYAN HAS VISIONS. Says He Finds Much Dissatisfaction Among the Republicans.

Kansas City, April 20.—Wm. J. Bryan was a speaker today at the Missouri Democratic party association convention. He said that throughout the country he found "deep and growing dissatisfaction among the Republican voters with the policy of the national administration," and urged his hearers to keep the Democratic party so different from the Republican so "that in time of stress the people will turn to the Democracy for deliverance."

The speaker praised Missouri for its prosecution of the packing houses, and said "the federal government seems afraid to enforce the criminal law, and prefers the use of injunctions." He said that some of the professed Democratic papers of the East "did more harm in their four years of apologizing for the Democratic platform than they could undo in the four months of the campaign when they supported the ticket."

YANKEE TARS WILL COMPETE. Invited to Participate in the Boat Races at Kiel Celebration.

Washington, April 20.—News that the American sailors on the occasion of their visit to Kiel will be invited to participate in the boat races is received with satisfaction in official circles here tonight. It was stated today on authority that it is the wish and will be the effort of the president and every member of his cabinet to promote the best relations between the United States and Germany, and the president before leaving Washington on his Western trip assured Baron von Stenberg, the German minister, of this fact. It is realized that the navy is a potent factor in forming and maintaining international friendships, and Secretary Moody shares the president's wishes to cement on good relations with Germany.

ROOSEVELT ACCEPTS. Will Be Guest of the Labor Unions While at Butte.

Butte, Mont., April 20.—President Roosevelt has accepted the invitation of the Butte union labor unions to be their guest a portion of the time he expects to spend here on May 27. Cincinnati, Mont., April 20.—President Roosevelt has about completed his tour of Yellowstone Park. Today he was at the Fire Hole geyser basin. Tomorrow he will return to the Norris geyser basin and go from there to the Grand canyon. He expects to return to the post headquarters on Wednesday, and on Friday afternoon he will resume his trip.

SNOWFALL HEAVY IN GERMANY. Much Havoc Done by Gale at the Kaiser's Potsdam Palace.

Berlin, April 20.—A thirty-six hour snow-storm over middle Europe ceased today at daylight. The snow was two inches deep in Berlin, increasing to a yard in the Hartz highlands. The snow is melting rapidly and he screams already are flooding. Telegraph and railroad communication is seriously interrupted. Sunday's gale, wrought much havoc on the grounds at Potsdam, and the imperial park was seriously injured.

FAMINE KILLING THOUSANDS. Women in China Selling Themselves to Escape Starvation.

Hong Kong, April 20.—The famine in Kwang Si province is killing thousands of persons, and women there are selling themselves into slavery to escape starvation. The American consul at Canton has inaugurated a relief fund.

RELIEF FUNDS SUFFICIENT. Stockholm, Sweden, April 20.—In its official report of the distress in northern Sweden, the central relief committee says that the funds at the disposal of the committee are sufficient, provided the growth of the pasturage is not retarded.

ARBITRATION TO SETTLE STRIKE. Chicago, April 20.—Two thousand strike frame makers, who went on strike a month ago for better wages and shorter hours, will return to work tomorrow, pending a settlement of their demands by arbitration.

MANY MINERS IDLE

THIRTY THOUSAND LOCKED OUT IN THE SCHUYLKILL REGION.

READING CLOSES ITS COLLIERIES

DISPUTE OVER NINE-HOUR DAY CAUSES COMPANY'S ACTION.

To Interpret This and Other Points of Award, Union Leaders Meet at Wilkesbarre—Coal Roads Merger Investigation Ordered by Knox.

Shenandoah, Pa., April 20.—The Philadelphia and Reading Coal & Iron company forced a lockout at every one of its collieries in this district today. The men were notified on Saturday that if they did not work a full nine hours on Sunday they could consider themselves discharged. "The miners ignored the order. The majority of the Reading collieries in the Pottsville and Mahanoy regions also are closed. Upwards of thirty thousand mine workers are locked out.

Union Conference Opens. Wilkesbarre, April 20.—Executive boards representing the Mine Workers' union in the entire anthracite region began a conference here today for the purpose of interpreting various features of the strike award. President Mitchell presided.

The principal point in dispute is the interpretation of the nine-hour day. There has been much friction over this question, and the matter reached an acute stage today when the Philadelphia and Reading Coal & Iron company shut down nearly all its collieries in the Schuylkill region because the men would not accept the interpretation of the company.

Another grievance made known tonight is the alleged refusal of Cox Bros. & Co. in the middle coal field to permit the miners to employ check weighmen. The award of the commission makes it compulsory for operators to employ, at the expense of the miners, a check weighman whenever requested by the majority of the men at any colliery. The joint conference will appoint tomorrow three persons to represent the miners on the board of conciliation, as provided for by the strike commission. Springfield, Ills., April 20.—At Pana today the operators of the Ninth sub-district refused to discuss the differences with the miners except in the local unions. A committee was appointed by the miners to present the matter to President Mitchell. Three previous efforts to settle the differences have failed. Merger to Be Looked Into. New York, April 20.—Acting under the advice of Attorney General Knox, the interstate commerce commission will begin an inquiry here tomorrow into the merger of the coal roads.

BIG TROLLEY PROJECT. St. Louis and Pittsburg to Be Connected by Electric Road.

Indianapolis, April 20.—The Union Traction company has secured franchises from Hammond, Valparaiso and Hobart for a line which will connect Indianapolis with Hammond and there the electric system to Chicago. A line is also projected which it is said, will eventually be continued to East St. Louis and in connection with other lines make a thorough line from East St. Louis to Pittsburg.

Important Michigan Extension. Jackson, Mich., April 20.—A syndicate has been formed here to complete the connection of the Jackson & Battle Creek railway east of Jackson to Detroit. The statement is positively made that the new system will be in operation the entire distance by the end of the year.

FALLS VICTIM TO CHOLEERA. Judge L. P. Carlock of Illinois Dies in the Philippines.

Manila, April 20.—Judge Carlock, of the court of first instance, is dead at Cebu of cholera. He contracted the disease in Bohol. The deceased was a native of Illinois and a valued member of the judiciary. The epidemic of cholera is practically over, there being but few cases in the southern islands.

Bloomington, Ills., April 20.—A cable message received today announces the sudden death at Manila of Judge Advocate Lyman P. Carlock, who was appointed to the Philippines a year ago by President Roosevelt. Judge Carlock spent most of his life in central Illinois.

IMPORTANT TEST AT FORT. New System to Be Tried May Revolutionize Firing of Guns.

Pensacola, Fla., April 20.—Lieutenant General Nelson A. Miles, General Wallace Randolph and twelve other army officers arrived here today to inspect the testing of the new Wadsworth system of fire control, which has been instituted at Fort Pickens. The new system is expected to revolutionize the firing and aiming of coast defense guns if it proves practicable.

OUTLAW'S BULLET IS FATAL. Bakersfield, Cal., April 20.—City Marshal T. J. Packard, who was shot in yesterday's battle with Outlaw McKinney, died this morning.

FLOUR MILLS TO RESUME.

Get Assurances Discriminating Freight Rates Will Be Withdrawn.

Minneapolis, April 20.—The shutdown of the Minneapolis and Northwestern flour mills, undertaken as a protest against the discriminatory freight rates on flour as compared with wheat, has come to an end. While no formal concessions have been made by the railroads, assurances have been received which justify the millers in resuming. It is understood that one of the Minneapolis-Chicago roads gave signs of breaking away from the concert of action.

Chicago, April 20.—After considerable opposition the Western traffic men today consented to allow the Omaha differential of four cents above Kansas City on the proportionate through rate from that city to the Gulf to apply on grain. The rate permits wheat to move from Omaha to the Gulf for twenty-one cents and corn for twenty.

BILLIONS OF TONS OF IT. Steel Better Than Bessemer Is Made from Titanic Iron Ore.

St. Paul, April 20.—An experiment that may revolutionize the iron and steel industry of the country was successfully made this afternoon at the plant of the Valley Iron works in this city. A ton of iron ore, of which there are billions of tons in northern Minnesota, was melted in an ordinary cupola and turned out pig which polished up like steel and which, according to those interested in the experiment, is better than the finest Bessemer steel. Aside from solving the question of how to smelt this refractory ore, it is said the process produces a steel better than Bessemer, because with one-third the weight the same tensile strength is secured.

WM. VANDERBILT TO WED. Court Gives Him Permission to Undertake Another Matrimonial Venture.

New York, Tuesday, April 21.—The Tribune says that having yesterday received permission from the court, in special order of the supreme court, William Vanderbilt will wed a week from tomorrow in London "a young American widow," who, it is believed, is Mrs. Lewis M. Rutherford, daughter of Oliver Harriman. "Mrs. Rutherford is at present in Paris," says the Tribune, "and Mr. Vanderbilt has been much in her company there. This would be her third marriage and his second."

MANY WOULD FIGHT THE TURK. Men the Over Offer to Join Expedition to Free Macedonia.

Rome, April 20.—Ricciotti Garibaldi, leader of the Italian volunteers in Greece during the war with Turkey, has received letters from almost every country in the world from men who volunteer to join his expedition to free Macedonia from Turkey. These offers include the formation of a battalion of yeomanry and cavalry in South Africa. Many offers to volunteers have been received from the United States. It is reported, however, to be Garibaldi's opinion that no serious rising in the Balkans is possible this year.

SENATOR ELKINS IS SUED. Half a Million Wanted for Railroad Information Furnished Him.

Washington, April 20.—Senator Stephen B. Elkins of West Virginia is defendant in a suit for \$500,000 filed today in the district supreme court by Robert Burton and George A. Dubruell. They allege they were employed by Elkins to furnish him certain information regarding the Western Maryland railroad for which they say he agreed to pay them. They furnished the desired information, upon which, they allege, Elkins made big profits, but has neglected to pay them their fees.

GERMANY TO RETALIATE. Tariff Reprisals Against Canadian Products to Be Enacted.

Berlin, April 20.—The Tagliche Rundschau says it learns authoritatively that Germany will enact reprisals against Canada on account of the action of the Dominion government in imposing a surtax on German goods. The paper adds that all political parties condemn the step taken by Canada.

TYPHOID ATTACKS STUDENTS. Serious Epidemic in Progress at Stanford University.

Stanford University, Cal., April 20.—Twenty additional cases of typhoid fever have broken out yesterday and today. The total number stricken by the epidemic since its first appearance now aggregate close to 100. Only one death has occurred, but more fatalities are feared.

PREACHER ACCUSED OF FORGERY. Carbondale, Ills., April 20.—Rev. Charles E. Campbell, pastor of the Christian church at Anna, Ills., has been arrested at the request of the police of Marshall, Ills., on the charge of forgery. Campbell came to south Illinois from California and became a railroad fireman. He became interested in religious work and became a preacher. Last fall he was connected with the Illinois Anti-Saloon league and with that organization he had trouble.

DERBY CANDIDATE INJURED. Memphis, April 20.—Sam Hildreth's American derby candidate Witful ran into the fence in the fourth race today and had her jaw broken. It is believed she will be able to race again in about a month. The race was run in blinding rain storm.

The crowning joy of womanhood is to have healthy children.

\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Protrusion, or Falling of Womb which they cannot cure.

World's Dispensary Medical Association, Proprietors, Buffalo, N. Y. Mrs. W. J. Kiddler, of Hix, Dele Farm (Enosburg Center), Enosburg, Vt., writes: "During the past year I found myself expecting maternity, and in rapidly failing health. I suffered dreadfully from bloating and urinary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I felt that something must be done. Took twelve bottles of Dr. Pierce's Favorite Prescription, and also followed your instructions to begin to improve immediately, my health became excellent, and I could do all my own work. I had a short, easy confinement and have a healthy baby boy."

C. A. WRIGHT, President. JACOB BAER, Vice President. M. C. GETCHELL, Cashier.

DAILY MINING JOURNAL. A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Pig iron production in the United States now exceeds all previous figures. The weekly output April 1, as compiled by the Iron Age, was 376,576 tons, as compared with 354,733 tons March 1, the latter figure having been approximately several times during the past year, but never having been just reached. The present rate of pig iron production is, therefore, at a rate of 1,000,000 tons per annum greater than ever before, with excellent prospects for large additional gains.

That famous old southern hospitality we read about has been strained severely in Mississippi and the planters of that state have filed a protest. It has been the custom there for farmers to entertain candidates and their horses in campaign times and charge nothing for the favor. The candidate's discourse upon the issues of the day was regarded as sufficient compensation. This spring, however, there are 5,000 candidates in the field and their entertainment is a matter of considerable expense.

The Germans are somewhat "huffy" because the European squadron of the United States is going to Marseilles on the 30th to participate in a demonstration in honor of President Loubet, of the French republic. They cannot see why our warships can go to Marseilles when they cannot go to Kiel.

The Times, the only Democratic publication at the Soo, a weekly, looks with equanimity on the consolidation of the Soo Journal and the Soo News-Record. The Times believes it will be a good thing for both papers concerned and the Soo, and it proceeds to give the new Soo Evening News the following excellent advice: The Times hopes that until the Soo grows to a considerable degree the city will have but one daily paper and we believe that if the management of the Evening News is conservative and wise it can monopolize the daily field until the business situation will warrant the publication of another daily paper.

Easy to Take Easy to Operate Hood's Pills

Because purely vegetable—yet thorough, prompt, healthful, satisfactory—Hood's Pills

WRECKING AN INDUSTRY. A striking and public example of the manner in which a business, a firm, and even whole towns may be built up or ruined by freight discriminations is afforded by the Minneapolis milling industry.

Chancellor Day, of Syracuse University, says he believes in hazing, though the practice will not be encouraged in the institution over which he presides. Freshmen need a wholesome reminder now and then that they are not the whole university, and the sophomores are the ones to administer the reminder.

The Appleyard Electric roads contemplate a decided innovation in electrical transit. They expect to put electric sleeping and parlor cars on their lines between Cincinnati and Wheeling, W. Va., with connections for Pittsburg. It is asserted that when the pending trolley schemes are carried out in Pennsylvania it will be possible to ride through the entire state on the trolley cars.

It is likely that the state senate will act on the Coby-Stone-Powell primary election bill, passed by practically a unanimous vote in the house, this week. It is an open secret that the bill will not be approved by the senators.

Opponents of woman suffrage have used as one of their staple arguments the alleged fact that women, if given the franchise, would not avail themselves of it. A recent election in one city in that state of political surprise, Kansas, goes to disprove the assertion that women will not exercise the franchise.

via the Northwestern line. Excursion tickets will be sold at one fare for round trip May 1, 2, 3 and 4, limited for return by special extension until May 30, inclusive, on account of annual meeting of American Medical association.

Simple Things About Food of a Class of Schoolgirls Didn't Know. The new teacher of domestic science in a girl's school lately questioned her class on the first principles of food stuffs, the better to get her bearings.

Future Housekeepers. Things That Weaken Man's Gallant Admiration of Women. The consequences of a woman's adopting customs unbecoming to herself are manifold, says M. E. W. Sherwood in Success.

Copper Country Department

FOUND DEAD IN BED.

Broker Nicole, of New York, Expires at the Douglas House.

Charles Nicole, a New York stock broker, was found dead in his room at the Douglas House, Houghton, last evening. Heart failure, it is believed, was the cause of his demise.

Mr. Nicole came to the copper country early in the present month with Colonel E. E. Phelps, of the United Mines Development company. Their mission was to sell stock in the corporation, and they have been very successful. Mr. Nicole went to his room about 11 o'clock Sunday night. Yesterday morning he failed to appear in the dining room at breakfast time, but nothing unusual was thought of the matter. Last evening, however, when it was reported to the office that the door of his room was still locked, an investigation was instituted. The lock was forced, and the body of the broker was found on the bed, cold in death, the demise having apparently occurred at an early hour yesterday morning.

The deceased was in good health, evidently, when he retired Sunday night, and the fact of his sudden taking of life caused a severe shock to the people at the hotel. It is said, however, that Mr. Nicole had been troubled with heart failure for some years, and this disease, in the opinion of the physicians, caused his demise.

IS CUT BUT \$2,180.

State Senate Acts Favorably on the College of Mines Bill.

President McNair of the Michigan College of Mines received some cheery news from Lansing yesterday. It was to the effect that the state senate had taken action on the college appropriation bill and had sent the measure to the house with a cut of but \$2,180 in the amount asked for new building and improvements. The total sum requested for this purpose was \$63,180, of which about \$40,000 is proposed to be expended in the construction of the new building. It is expected that the house will take action on the measure before the end of the present week, and hopes are high at the college that its consideration of the bill will result as favorably as it did in the upper branch of the state legislature.

TAKES CHILD TO DR. LORENZ.

Calumet Man in Hopes His Daughter Can Be Made to Walk.

A Horwitz of Calumet left yesterday for Chicago with his little daughter Norma to consult with Dr. Lorenz, the noted Austrian surgeon, concerning the child and to endeavor to induce him to take charge of her case. The girl, who is three years of age, is troubled with congenital dislocation of the hip, as was little Miss Armour, to treat and cure whom the doctor has made two trips from his home across the water, and it is with the hope that his little girl will likewise be made to walk that Mr. Horwitz has left for the western metropolis. There is reason to believe the famous surgeon will undertake the case.

COPPERDOM BREVITIES.

The work of clearing away the ruins of the burned St. Joseph's church at Calumet preparatory to the erection of the new edifice has been started.

A concert and supper will be given at the Holy Rosary parochial school, Lake Linden, this evening by the young people of the Holy Rosary church. A one-act farce comedy, entitled, "Fun in a Restaurant," will also be given.

A male quartet has been organized at Lake Linden. Its members are Peter Pedant, first tenor; John Nichols, second tenor; Alex. Collins, first bass; Charles Francis, second bass. Each has a well cultivated voice of high quality.

The old officers of the village of Laurium have been reappointed. The salary of Marshal Drapeau has been raised \$10 per month. John Stetter has been appointed a member of the health committee.

Rev. Father Proulx, a Jesuit priest of Sault Ste. Marie, opened a mission for French Catholics at St. Joseph's church, Hancock, Sunday morning. Services will be held all this week, at 8:15 o'clock in the morning and 7:30 o'clock in the evening.

An old English morality play, entitled, "Everyman," will be presented at the Sacred Heart auditorium by the Young Ladies' league this evening. The drama has been presented in this country by Charles Frohman, the well-known stage manager, and it is said to make an interesting production.

William Kemp, of Calumet, has resigned his position in the electrical department of the Calumet & Hecla mine, to accept a place with the Bisbee Improvement company under James G. Cowan, formerly of Lake Linden, who is at the head of affairs for the Bisbee concern. Mr. Kemp left yesterday afternoon for Arizona. He will have charge of the office and whatever electrical work is necessary. He was employed at the Calumet & Hecla for several years.

The funeral of the late William Barkell, a well-known Hancock young man, who died at St. Joseph's hospital last Friday evening, was held yesterday afternoon from the Congregational church. He was twenty-five years of age. For some time he suffered from tuberculosis of the lungs, in one of his lungs, with the result that amputation was necessary. He died from the effects of the operation, which was held Friday morning. Mr. Barkell was employed for the last year in the Mitchell howling alleys, and previous to that time at Witting's market.

A THOUGHTFUL MAN. M. M. Austin of Winchester, Ind. knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at Stafford Drug Co.'s drug store.

CIRCUIT COURT OPENS.

Saloon Keeper Who Sold Liquor to a Minor Severely Punished.

In accordance with a previous warning, Judge A. T. Streeter, who opened the April term of circuit court yesterday morning, meted out punishment to one violator of the liquor laws which the saloon man will not soon forget and which will probably be heeded by others. Joel Ruppia, an Atlantic location saloon keeper, who was arrested on complaint of Sheriff Wills for selling liquor to a minor, was sentenced to thirty days in the county jail and was fined \$50 and costs. Should Ruppia fail to pay the fine, he will be obliged to remain in jail sixty days longer. In sentencing Ruppia, who pleaded guilty to the charge, the judge remarked that it had previously been stated, both in court and in the newspapers, that violators of the kind would be punished by a sentence in addition to fines. Ruppia sold liquor to Eric Heikala, the nineteen-year-old Finlander who shot and seriously wounded Jacob Pelkala, his brother-in-law, during a drunken row in Ruppia's saloon one day last week. The saloon keeper was arrested as soon as Heikala's age was ascertained. Ruppia made the excuse that he did not know Heikala was a minor, but the judge did not accept it.

Heikala Pleads Guilty.

Heikala, who was charged with assault with intent to murder, pleaded guilty. He will be sentenced later. His plea was a surprise, as it was thought by nearly everyone that the case would come up for trial. Heikala's crime was that of shooting his brother-in-law, Jacob Pelkala, during an altercation while both were under the influence of liquor.

Four saloon keepers, charged with violations of the liquor laws, pleaded guilty. They were Joseph Sigouin, Herman Matson, Joseph Simmons, all of Calumet, and A. Phillipson, of Laidlaw town.

The first three names were fined \$25 and costs, which they paid. Phillipson has not yet been sentenced.

William Piche, one of the three men who were arrested several weeks ago for stealing copper, pleaded guilty to simple larceny. He was fined \$30 and costs, with the alternative of seventy days in the county jail. His fine has not yet been paid.

Nearly one hundred citizenship papers were issued yesterday. The court adjourned at the conclusion of the morning session until 2 o'clock in the afternoon for the purpose of hearing applications for citizenship. The jury did not report at all yesterday. They will be in their seats this morning, when the regular work of the court will be taken up.

The saloon cases are the first on the docket. That of Allan McKinnon, of Calumet, charged with a violation of the liquor laws, will be first on trial, while those against John Simmons and G. Vignette, of Calumet, will follow. The criminal calendar, arranged yesterday, promises to be short.

FOUND ICE A BARRIER.

Steamer Osceola, Bound for Lake Linden, Unable to Make That Port.

The steamer Osceola, of the Lake Michigan & Lake Superior Transportation company, bound for Lake Linden and carrying a quantity of freight, reached the Entry at 8 o'clock, yesterday morning. It was unable to reach its destination, however, as the ice in Big Portage and Torch Bay prevented it. The boat then proceeded to Dollar Bay, arriving in the afternoon at Hancock, where the Lake Linden freight was unloaded.

After leaving Portage river the Osceola's troubles began. The ice was found firm and thick when the craft, in order to reach Torch Lake, endeavored to turn out of the passage broken Saturday by the John M. Nichol. The large field of ice extending from the east side of Big Portage into Torch Bay proved too much for the boat, although the captain did not give up until he had bucked it for several hours. He then decided that, even with the aid of a tug, it would take two or three days to plow through the ice, and he abandoned the idea of reaching Lake Linden. Arriving at Dollar Bay, a carload of copper wire was taken aboard for shipment to Duluth. At Hancock the freight consigned to Lake Linden was taken off to be shipped to the mill town by rail. The Osceola cleared for Duluth last midnight.

Could Clear With Copper.

The steamer Jay Gould, of the L. M. & L. S. T. company, which arrived at Portage Lake from Duluth Sunday afternoon, cleared yesterday morning for Chicago. She took aboard fifteen tons of ingot copper at the Hancock smelter, fifty tons of cake copper at the Quincy

GOOD TESTIMONIALS ARE VALUABLE AND WE HAVE HUNDREDS OF THE VERY BEST. But, after all, what you want to know is whether it suits you, not whether it suits someone else. You can only tell by trying. You can try for 25c.

IRON-OX TABLETS A NERVE TONIC, TISSUE BUILDER AND BLOOD MAKER. A Cure for Constipation and Indigestion.

smelter, and 175 tons of ingot copper at Dollar Bay, also a carload of copper wire.

The John M. Nichol, of the Union Transit line, will take copper at Dollar Bay and South Lake Linden. The boat should be relieved of its coal cargo by this forenoon.

The steamer Ward, of the Union Transit line, arrived Sunday. The Rochester, of the same line, is due today. Either the Ward or the Rochester will take copper from the docks of the Quincy smelter. The New York, also of the Union Transit company, has left Buffalo for Portage Lake and is due Thursday.

The steamer Milwaukee, of the Western line, and the Schuykill, of the Anchor line, are expected this afternoon. Both will take copper at Dollar Bay and at the Quincy smelters.

Steamer to Replace the Iroquois.

H. J. Seaton, agent of the L. M. & L. S. T. company and the White line at Portage Lake, said yesterday that Captain W. H. Singer, of Duluth, who is largely interested in both companies, has two boats in mind, one of which will be selected to replace the passenger steamer Iroquois, sold during the winter to Eastern people. One of them is a sixteen-mile-an-hour boat and although not so large as the Iroquois is as good in accommodations and conveniences. The other boat is larger than the Iroquois. Whichever steamer is secured, it will not be put on the Duluth-Houghton run until the first of June, as passenger traffic on Lake Superior will not start until then.

The appointments of captains and engineers of the Union Transit company, are as follows: Steamer John M. Nichol, captain, William McLean; engineer, George W. Haig. Elmer B. Ward, captain, J. I. McIntosh; engineer, James J. McLaughlin. Steamer Rochester, captain, P. O'Neil; engineer, N. Johnson. New York, captain, N. McGuire; engineer, John Caul.

Tug Sold to Houghton Parties.

The tug Nellie Cotton, long the property of Peyton, Kimball & Barber, of Duluth, lumber dealers, has been sold to Houghton parties for \$4,000. She will start for Houghton at once. The Cotton has an iron hull and is quite old.

The tug J. C. Morse, now at Portage Lake, was rebuilt during the winter at a cost of \$6,000. She is owned by Charles Hebard & Sons, of Pequaming.

SHANNON.

Gay & Sturgis, Boston, devote a special circular to Shannon. They say: After over three years' development and construction work and the expenditure of nearly \$2,000,000 the company is now earning at the rate of \$2 a share a year. The property consists of forty-five claims in the Clifton, Ariz. district, adjacent to the properties of the Arizona Copper company and Detroit Copper company. Over five miles of openings have been made on the property. The smelter is designed for five 300-ton furnaces, and two furnaces have been installed. A concentrating plant, daily capacity of 500 tons, also has been erected, and machinery has been installed for 300 tons. The company is treating 450 tons of ore per day with one furnace, and the concentrating plant, now in commission, is making a million pounds of copper a month at an estimated profit of 7 cents a pound. This gives a profit of \$600,000 a year with present selling price for copper. The interest on the company's \$600,000 bonds and sinking fund of 10 per cent requires \$100,000 per year, leaving \$700,000 for the 300,000 shares of stock. Within a few months the concentrating plant will be brought up to a capacity of 500 tons, when the production will be at the rate of 18,000,000 pounds per year. Twelve months from this date the company should be making 25,000,000 pounds per year.

MICHIGAN.

The annual meeting of the stockholders of the Michigan Copper Mining company will be held in the company's office in New York city on Tuesday, May 5. Among other matters brought up for consideration it is likely that there will be some definite decision as to where the stamp mill will be located. The officials have had this matter under advisement for some time and as near as can be ascertained the choice lies between a site at Four Mile Rock down the lake shore from Ontonagon and a site upon the river in the vicinity of the mine.

The rumor that the company would make arrangements to use one head in the Mass stamp mill at Keweenaw bay for the present does not seem to be well founded, as the Mass company is getting in condition to run its mill at the full capacity and will probably be doing this early in the fall. Commenting on this the Ontonagon Herald says: The Michigan has the mine equipment well under way and by the earliest possible date that a mill can be erected everything will be in readiness to place it in commission. By that time the mine will be in condition to supply plenty of rock to keep it pounding away on full time; in fact, this could be accomplished now without any difficulty. It is pretty good policy to have the mine crowd the mill, instead of having this order of things reversed, and this is just what the Michigan proposes to do.

PHOENIX.

Relative to the assessment of \$1 just called on Phoenix stock, due on May 4, Director Cameron Currie of Detroit says: "This is the last call on the stockholders of the Phoenix. The management have not made the mistake that a number of others have in endeavoring to make a big mine out of a little one. One stamp is all the Phoenix is likely to ever require, at the present largely man copper, and in supplying a single head, most excellent results will be secured."

COPPER SHIPMENTS START.

Beginning with yesterday, the boats now coming into Portage Lake are taking out copper. Nearly every freight boat from now on during the season will take out more or less of the red metal. There is considerable copper on the docks of the several smelters, awaiting shipment, the amount on hand being about 3,000 tons. The railroad shipments, which have practically ceased, were heavy during the winter, the smelters being stripped almost as fast as the copper was turned out.

COPPER RANGE HOTEL

(formerly the Auditorium) CALUMET. MICHIGAN. European and American Plan. ROOMS: 50c, 75c, \$1.00. A. W. HANSON, Prop.

exposed and there are no indications, Judge Bartch stated, of the veins breaking or pinching out. All the development workings has been confined to the Sheba. What is known as the Mammoth has not been touched, the intention being to open that up later. Tunnels will likely be run from near the mill to both the Mammoth and Sheba veins. It is thought possible that the gold values in the Mammoth predominate, and that as soon as that part of the property is opened the company will have a gold mine.

The Sheba is a tunnel proposition and it can be easily mined and worked. The main tunnel has tapped and drained the main workings of the Sheba, thus affording excellent ventilation and exposing a vein which may be followed to advantage. The silver values predominate in the Sheba, but considerable gold and copper are also carried. Antimony is the principal base of the silver, however. Large antimony mines have already been opened up here, and it is the company's intention to extensively develop its property.

Judge Bartch is well pleased with Superintendent Kessel, who is in charge of the mill. He is acknowledged to be one of the best mill men in the West. Mr. Kessel wired Judge Bartch at Houghton, through W. H. Child, the Salt Lake broker, that the compressor has been installed and that air drills for the tunnel work will now be used.

SHANNON.

Gay & Sturgis, Boston, devote a special circular to Shannon. They say: After over three years' development and construction work and the expenditure of nearly \$2,000,000 the company is now earning at the rate of \$2 a share a year. STONE FLAYS PRESS

MISSOURI STATESMAN DENIES CHARGES AGAINST HIM.

IS VEHEMENT IN HIS REMARKS

DENOUNCES THE NEWSPAPERS WHICH HAVE "HOUSED" HIM.

New U. S. Senator Declares He Had No Part in Passage of the Anti-Alum Bill and for a Year Did Not Know of Its Enactment.

Kansas City, April 20.—United States Senator William R. Stone, addressing the annual convention of the Missouri Democratic Press association today, made an elaborate explanation of his connection with the baking powder legislation and the enforcement of the state pure food laws, and bitterly denounced the daily newspapers of the state, which he declared had "housed" him outrageously.

The senator labored under intense excitement and protested against the persecution to which he had been subjected by "these scoundrels of the press who had used assassin's methods." He shouted: "Before my God, I fear them not; I laugh in their faces, and spit upon them."

Senator Stone denied the reports he had been in conference with Colonel Phelps and Lieutenant Governor Lee since the legislative investigation had been begun. He declared he had no part in the passage of the anti-alum law of 1899 and did not know for nearly a year that it had been enacted. As a private attorney he had assisted in the enforcement of the state pure food laws, and in 1900, when it was proposed to repeal the anti-alum law, he wrote an argument against repeal, but he did not visit Jefferson City.

"I swear to you I never spoke nor wrote to any member of either house of the legislature concerning this matter, but what I have told you," he declared, "I hope every guilty man will be uncovered."

Closing his address, Senator Stone said: "I hope God will witness my hand, palsy my tongue and burn my heart in the flames of hell before I will intentionally dishonor any position to which the people of Missouri are assigned."

Proposition from Lee Rejected.

St. Louis, April 20.—Today a representative of Lieutenant Governor Lee called upon Circuit Attorney Foltz with a proposition that upon agreement to question Lee only about the alum deal in the legislative inquiry, he would appear before the grand jury immediately. Attorney Foltz informed the visitor that he would not promise to restrict himself in any part of the inquiry, and the conference was fruitless.

Robert F. Lee, a brother of Lieutenant Governor Lee, said today that his brother does not fear indictment himself, but that he is not vindictive and does not wish "to assist the St. Louis grand jury in indicting for perjury certain members of the legislature who have testified before it."

Boodlers Refused New Trials.

Judge Ryan today refused to grant new trials to the following members of the St. Louis house of delegates, who were tried and convicted of bribery, and notice of appeal to the supreme court was given: Charles Gutke, convicted on Jan. 10 and sentenced to five years in the penitentiary; and John A. Sheridan, Edmund Betsch, Charles Denny and T. E. Albright, all sentenced to five years in the penitentiary on Jan. 15. Perjury cases that will soon come up are pending against the defendants.

BOOKMAKER ARRESTED.

Right of Betting at Hammond Track to Be Tested in the Courts.

Chicago, April 20.—"Kid" Weller, who has charge of the betting at Lakeside, and a sheet writer were arrested today by Chief of Police Cox of Hammond, Ind., just as the horses were going to the post in the fourth race. There was little excitement over the arrest. All the bookmakers were working under the English system and were anticipating some such action. Chief Cox said he

DEGREE IS MODIFIED

PETITION OF NORTHERN SECURITIES COMPANY IS GRANTED.

DIVIDENDS TIED UP ARE RELEASED

THIS THE ONLY CHANGE MADE IN THE MERCER DECISION.

Appeal to Supreme Court from the Original Opinion Is Filed by the Defendant Companies, Thirty-Four Points of Error Being Alleged.

St. Paul, April 20.—In the United States circuit court today, Judge Sanborn granted the petition as prayed for by the Northern Securities company and the Great Northern and Northern Pacific railway companies, asking that the recent merger case decree be so far suspended as to permit the payment by the railroads of the regular May dividends to the securities company.

On all the other points of the decree no modification was asked. The decision does not affect any other portion of the decree against the Northern Securities company, and during the appeal to the supreme court, which probably will be determined next November, the United States will have complete remedy for any violation of the anti-trust act.

Points of the Appeal.

Thirty-four points of error are alleged by counsel for the Northern Securities company and the other defendants in their appeal from the decision of the circuit court. Exceptions are noted to every paragraph in the decree, and the court is claimed to be in error in rendering any decree, save one for a dismissal of the petition and proceedings.

The appeal alleges, among other things, that the court erred in finding that the stockholders of the defendant companies had practical control of the defendant companies, and that the stockholders had agreed to form a corporation to buy the stock of the defendant companies. It also claims the court erred in finding that the stockholders agreed to exchange their holdings in the defendant companies for stock in the new corporation.

It says the court erred when it found that the plan of the new corporation placed control of the defendant railroads in the hands of the Northern Securities company and destroyed competition between the said companies, and that a pooling of earnings was contemplated. It also alleges the court erred in finding that combinations which merely tend to restrain interstate commerce are violations of the anti-trust act, and that it erred in holding that every combination having power to suppress competition between parallel lines is in violation of the anti-trust act, whether the power was exercised or not.

Power of Congress Denied.

Error was made, it is alleged, in holding that congress has power to prescribe who may or who shall not be shareholders of companies chartered under state laws but doing an interstate commerce business, and that the court erred in holding a state has not exclusive power to forbid the combination of two such railways.

It was also erroneous, it is alleged, to hold that two competing roads could not place a majority of their stock in the hands of a single person or a few persons with power to operate said roads and stifle competition, and yet the same persons might create a corporation to accomplish the same purpose. Error was also made, the appeal alleges in deciding that the existing combination gives a few men control of all the means of transportation of the defendant railway companies.

The defendants allege it was an error to hold that the anti-trust act, if construed as forbidding the shareholders of the defendant companies from selling their shares to the securities company, is a valid law and not in conflict with the federal constitution. It is further claimed the court erred in holding that the proceeds disclosed any combination in restraint of commerce than one to build up and enlarge interstate and foreign commerce without any restraining of either.

Error was made, it is likewise alleged, in deciding that the securities company be enjoined from acquiring further stock of either of the defendants and voting such stock or exercising any control of the assets of either railway company. Also that the court erred in enjoining the defendants from paying the securities company any "dividend" on the stock of such railway companies which it now claims to own and hold, and in deciding that the securities company cannot lawfully hold shares in even one of the defendant companies or exercise any rights of such ownership.

Finally, the appeal declares the court erred in rendering any decree save a decree for the dismissal of the proceedings.

WALL STREET SURPRISED.

Modification of the Merger Decision Unexpected and Market Rallies.

New York, April 20.—There was much hesitation and uncertainty in today's stock market. This tendency was attributed in the early part of the session to dread that the United States circuit court at St. Paul would refuse the petition of the Northern Securities company to modify the decree against the company pending the appeal. The general expectation in Wall street was that the petition would be refused, and the unexpected decision in favor of modification caused a precipitate buying movement in which the short sellers of the morning were conspicuous. This advance met opposition before it had proceeded far and the prices were carried backwards again, after which the mar-

IS ODELL AGAINST PLATT.

Bitter Fight for Leadership Threatens New York Republican Split.

Albany, N. Y., April 20.—Will Platt down Odell or will Odell down Platt? Every important Republican at the capital and especially state officials and leaders in the legislature are seeking the answer. If the old boss is to retain the mastery they want to climb back into the Platt hand wagon. If, on the other hand, Platt's sun has set, they want to cement the friendly relations they now have with the governor.

In a way the situation is quite similar to that of five years ago, when Frank S. Black, then governor, set up business for himself and cut the telephone line between the executive chamber and 49 Broadway. Scores of big Republican politicians were kept busy for weeks trying to determine whether Black would down Platt or whether Platt would down Black. There was much less doubt about the result of that fight than there is about the present struggle.

Republican Leaders Puzzled.

Few of the old-time politicians landed on the wrong side of the fence in the Platt-Black row. Nine out of ten of them took early occasion to renew their allegiance to the Tigra boss. There is so much doubt about the final result of the Platt-Odell split, however, that scores of influential Republicans admit that they are perplexed.

They realize that it is now or never with Platt and that the "old man" will insist on having every one of his old friends line up on the Platt side at once. They also realize that if Platt should win he would pursue relentlessly every man who either wavered or joined the Odell forces.

If there comes an open break between Platt and Odell most Republicans on the state believe that Odell will win. Party leaders in New York city take the opposite view. Platt has won in so many previous fights that they regard him as invincible.

Urged to Crush Odell.

Both Odell and Platt, if left to follow their own inclinations, would avert an open breach. Each fears that such a rupture in the party might lose New York to the presidential ticket next year. But Platt's lieutenants are urging the "old man" to "crush Odell" as he crushed Black, and Odell's friends are advising him that if he would avoid Black's fate he must fight every minute from now on.

If President Roosevelt can bring it about both Governor Odell and Senator Platt will be members of the Republican "big four" to head New York's delegation to the next national convention.

If the president should prove unable to effect this compromise the feeling at the state capital, where the political atmosphere is saturated with Odellism, is that the governor will settle the question of leadership by himself heading the delegation and that there will be more Odell than Platt men among the New York representatives. Governor Odell, it goes without saying, would go to the convention to work for the renomination of President Roosevelt.

COLONEL ARTHUR DEAD.

Ex-President of Illinois Central and Engineer of High Ability.

Chicago, April 20.—Colonel Wm. R. Arthur, formerly president of the Illinois Central, died today on his farm near Urbana, Ill., aged eighty-two. He was an engineer of great ability. It was under his direction that the Marietta & Cincinnati road was built. Immediately after the construction of that line, Arthur was elected president and general manager of the Illinois Central, holding the position from 1888 to 1889. In 1889 he became general manager of the St. Louis, Iron Mountain & Southern, holding the position for four years. Then he became commissioner for all railroads south of the Ohio river, with headquarters at St. Louis. In 1884 he purchased a 1,000-acre farm near Urbana, where his old age was spent in peace and quiet. The remains will be taken to Hillsboro, O., where he was born. President Fish, of the Illinois Central, has sent his private car to convey the funeral party to Ohio.

TORNADO HAVOC IN MISSOURI.

Fredericktown, Mo., April 20.—A tornado passed over this section yesterday, nearly destroying White Springs, a summer resort. Seventeen of thirty houses were wrecked, including a large hotel. No fatalities are reported.

MASONIC GRAND SECRETARY.

Grand Rapids, Mich., April 20.—Lou B. Winsor of Reed City has been appointed grand secretary of the Michigan grand lodge of Masons to succeed J. S. Conover of Hillsdale, deceased.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause, you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Stafford Drug Co., special agent.

YOU DON'T NEED THE THINGS

you think you need, as much as you need the insurance you think you don't need. Only those who come to need, realize what they need. Those who ignore Insurance, Auto, and Endorsements, Paid-up Policies, Cash Surrender Values and our various non-forfeiture contracts, may some time realize the pinch of poverty, and know the difference between Need and Desire. Staff Life Ins. Co. of Vt. (Mutual) ORGANIZED 1850. M. W. Marshall, General Manager, Marquette, Mich.

PRIVATE KAISER REPORTS.

"I have seen many sad cases in my search. So many suffer with sour stomach and fermentive dyspepsia. Their cheeks and lips are pale; their tongues flabby and tooth-marked; some have no appetite, in others the appetite is very irregular; many have a feeling of distress after eating and pain in the stomach. There is a general feeling of lassitude, and in all cases weak pulse and muscular weakness may be noted. It is surprising to see the gladness in the faces of those who have been long sufferers and are now experiencing relief after using Rexall Dyspepsia Tablets.

The Stafford Drug Co. is receiving the grateful thanks of thousands for the blessings Rexall Dyspepsia Tablets have brought to Marquette people."

Rexall Dyspepsia Tablets are Warranted to Cure all Forms of Indigestion and Dyspepsia. Money will be refunded, exactly as printed on package, in case of dissatisfaction. Price, 25 cents, at our store or by mail.

THE STAFFORD DRUG CO.

CONTRACTORS LOOK TO KEEFE.

Longshoremen's President Expected to Settle the Dredgemen's Strike.

Chicago, April 20.—Daniel J. Keefe, president of the International Longshoremen, Marine and Transport Workers' association, is expected to take a hand in the strike of dredgemen this week. Marine men who know Keefe's conservatism in handling labor troubles believe that the strike will soon be ended, and that work on the \$3,000,000 contracts for dredging on Lake Michigan that is tied up will be resumed.

The walk-out of the dredgemen is not fully endorsed by other marine workers, who believe that the dredgemen's contractors acted hastily in the matter. Chicago contractors whose work is tied up declare that the real object of the leaders is to organize the dredgemen around the lakes, and that the contractors here are being used as a club for that purpose. Outside of this city the union of dredgemen has little strength, according to the contractors, although the men demand a uniform scale of wages at all lake ports.

No conferences were held with the employers before the strike was called, and this fact is said to have alienated the sympathy of some of the other marine workers, who have been forced out of employment through the action of the engineers.

The pile-drivers, although out of work, are not in sympathy with the engineers, and are ready to resume work. The strike is the only serious trouble on the lakes at the present time, and would probably have been settled before now had it not been for the more important strike of firemen. As the dredgemen are relying on the support of the longshoremen to win, it is believed that Keefe will have no difficulty in bringing about a settlement.

Form Marine Council.

In two weeks Chicago's marine council, formed by labor unions with a purpose of preventing strikes among marine workers, will be completed, with a membership on the start of 10,000. Five unions in South Chicago with 2,000 members will be represented in the council, which will be the greatest amalgamated body of longshore laborers on the great lakes. All its members will be taken from the International Longshoremen's union, whose chief work at Chicago will be performed by officers of the council.

PHONE COMPANY SELLS OUT.

Fond du Lac, Wis., April 20.—The property of the Little Wolf River Telephone company was today sold to Leander Chouteau of Oshkosh, Wis., for \$650,000.

ROBBED THE GRAVE.

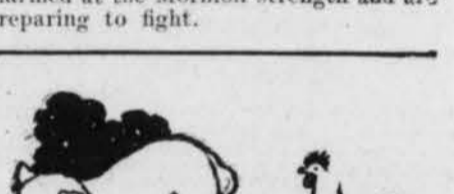

A startling incident is narrated by John Oliver of Philadelphia as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Stafford Drug Co., drug store.

MORMONS GAIN IN BOSTON.

Converts Prepare to Build Tabernacle for Rapidly Growing Church.

Boston, Mass., April 20.—A small army of Mormon elders is rapidly though quietly extending Mormonism over New England. A Mormon tabernacle is being planned for Boston by converts, of whom there are many in the hub, as well as in suburban towns. The headquarters of the New England conference is at 82 East Newton street and there are strong branches in Medford and Somerville.

One of the elders puts the number of converts in Boston at 100 and as many more will be baptized this spring. Protestant clergymen are becoming alarmed at the Mormon strength and are preparing to fight.

THE SPRING LAMB

and poultry-for-the-table season is here. The tender and palatable variety of both here, too. By here we mean the butcher store known for blocks and squares around as Hathway's. We claim to know a good deal about meats and poultry, and use our knowledge to your benefit. If you want strictly fresh eggs and imported Frankfurter sausage direct from Germany, this is the place to get them.

FRANK W. HATHWAY'S.

PALACE MEAT MARKET.

A PLEASANT SURPRISE

awaits the man who drinks his first glass of our beer. It is so palatable and delicious, so invigorating and healthful, to drink it once is to want it always. Good, pure beer like the "U.P. Kaiser" is a tonic and an appetizer and makes the German people who make it their national drink, one of the healthiest in the world.

U. P. BREWING CO.,

Marquette, Michigan.

Advertisement for Ayer's Hair Vigor. The text reads: "Your HAIR IS HUNGRY FEED IT". Below this is an illustration of a woman's head in profile, looking to the right. The text continues: "If your hair is turning gray or falling out, it is starving. There isn't life enough in the roots. The remedy is simple: Feed your hair. Feed it with Ayer's Hair Vigor. It will not do impossible things, but it often does wonderful things. It always restores color, stops falling, cures dandruff, and prevents splitting at the ends." At the bottom, it says: "My hair was three parts gray before I used Ayer's Hair Vigor. Now there isn't a gray hair to be seen. I have many friends who have had the same experience with it." —Henry Coleman, New York City, N. Y.

WOUND WAS FATAL.

Mrs. Gust Clauson's Attempt at Suicide Ended Fatally Yesterday.

Yesterday morning, shortly after 8 o'clock, Mrs. Gust Clauson succumbed to the wound that she had inflicted upon herself Sunday afternoon with suicidal intent. The doctor pronounced her case a hopeless one after the first examination of the wound. The bullet took effect in the abdomen and passed almost entirely through the body, lodging near the spinal column. The woman lingered on in a conscious state most of the time, and at times her suffering was intense. At her request the sacrament for the dying was administered to her Sunday evening.

Mrs. Clauson's name before her first marriage was Mary McGreevy. She was married to Thomas Richards in June, 1900, but her husband deserted her in New York city within a few months. This first matrimonial venture was concluded last September, when the couple were severed by a divorce sought by the wife on the grounds of desertion and failure to provide support.

The funeral will take place tomorrow morning from St. John's church.

"A THOROUGHbred TRAMP."

The "tramp" play, with the knight of the road as the central figure, will always retain a place in the hearts of the masses. The American people are sympathetic and they are always ready to listen to the story of the unfortunate, and this peculiar class of never-do-well nomads amuse and at the same time appeal to them. Of the numerous plays of this kind none has achieved greater success than Elmer Walters' big scenic production, "A Thoroughbred Tramp," and certainly none deserve it more, for the attraction stands without a rival in its class.

"KENTUCKY" AGAIN TONIGHT.

The Catholic Dramatic club will give a second presentation of "Kentucky" tonight at the opera house. Among the special features will be solos by Mrs. Watson and Messrs. Locher and Robbins. Trombly's orchestra of seven pieces will be present and render several selections. The price of admission will be fifty cents. The proceeds will be devoted to St. John's church.

ISHPEMING IN BRIEF.

Trombly's orchestra will give a hop tomorrow night at Anderson's Hall.

The Finnish male quartet gave an entertainment Saturday evening at the Finnish hall.

Benjamin Youren, 706 North Pine street, is the father of a boy born Saturday.

The ladies of the Presbyterian church will serve a supper tonight at the church parlors.

The Recreation club will entertain the members of the Quid Nunc club at Anderson's hall Saturday evening, April 25.

The condition of Stephen Slaymaker were much less favorable yesterday and the chances of his recovery appeared doubtful.

The Virginian of Friday says, "Plantation" Jaedecke came up from Ishpeming today to interview his customers on the range."

Sib Larson will catch for the Marquette baseball team during the coming season. He will probably continue his work here.

Rev. David Castler occupied the pulpit at the Methodist church Sunday. Rev. J. G. Whitford of Lake Linden will officiate next Sunday.

The condition of W. E. McKee, who has been taking medical treatment for rheumatism at West Baden, Ind., remains about the same.

The board of editors is busy preparing the high school annual, which will be issued about commencement time. It will be embellished with a number of cuts.

Manager Knapp, of the Hi Henry minstrel show, was here yesterday, looking for a date. He wanted Tuesday, April 28, which had already been booked for "For Her Sake."

C. T. Fairbairn expects to move back here early next month. He now has charge of the mines of the Jones & Laughlin company on the Mesaba range, and is located at Virginia, Minn.

A party of ten, bound for England, Sweden and Finland, will leave here today for Boston, where they will embark on the Dominion liner Mayflower. The vessel is one of the largest that line and makes its maiden trip out from Boston.

Miss Pansy Milton, Dr. Eldred Robbins, Fred Bennett and Miss Olga Girzi will take part in the concert at Marquette tonight. Miss Milton and Mr. Bennett will sing a duet and Miss Girzi will act as Miss Farm's accompanist. Dr. Robbins will render several solos.

Ishpeming people interested in the oil fields at Beaumont, Texas, suffered no loss from the fire that recently destroyed much property in that region. The conflagration was confined to the property of the Hogg-Swayne company, which lost over half a million.

Dr. Carl C. Warden, formerly a member of the hospital staff, has recently taken the position of superintendent and head surgeon of a sanitarium recently established at Battle Creek. Since leaving here and before going to Battle Creek, Dr. Warden practiced his profession at Nashville, Tenn.

Where to Stop When in Detroit. Hotel Metropole, Woodward Ave., opp. City Hall, European plan. Rooms, \$1 per day; with bath, \$1.50.

SEND IN BIDS.

Time for submitting bids for building proposed hall under the Finnish church has been extended to April 24. Specifications can be seen at E. Ristkangas' jewelry store, First street. (4-17-1w)

SEASON IN SWING.

One Shipments Started Yesterday from Oliver Company's Mines.

The ore began going forward yesterday from all the shipping points of the Oliver company. The labor difficulties on the lakes have been adjusted, and the orders to begin shipments were received as soon as the settlement with the striking firemen was settled. Small shipments have been going on for some time, but from only a few of the mines and they would have been practically suspended very soon if the strike had not been settled.

Immense quantities of ore have been piled up at all the mines, and the ore docks are filled to their capacity. Large amounts of certain kind of ore have been produced that can be wasted for some time to come, and this fact, coupled with the great amount to be moved in order to secure stock pile room, has made a reduction in the working forces necessary. One shift has been laid off at Section 21, also a number of men at the Hematite mine and at the Volunteer mine at Cascade. Future conditions will determine how long the curtailment in production will last. Probably as soon as the ore carriers have all been put into commission and navigation is fully opened the men will be taken back.

The force at the Lake Angelina will also be cut considerably, so that there will be no danger of overproduction. The shipments from this mine have been smaller during the past two years, and will probably be even smaller this season than last year.

The stock piles at the Cleveland-Chiffs mines are not over crowded, and it is doubtful if their forces will be reduced.

ATHLETES IN TRAINING.

A considerable number of the high school boys are training for field day. They meet at Union Park every afternoon after school hours, though the track is in rather poor condition as yet. There is still considerable snow on one end and in other places it is wet and soft. In spite of these difficulties, the boys are making good progress.

ROLLING CIGARETTES.

Marked Increase in Tendency to Carry Tobacco and Make Them.

"Have you ever noticed the growing tendency to roll cigarettes by hand and the decrease in the use of cigarettes of the ready-made kind?" asked Mr. Clement C. Perkins, of Chicago, of a Star man at the New Willard this morning.

"Without entering into the question of the propriety of their use, the fact remains that more cigarettes are being smoked every day and less of them are being sold ready-made than ever before.

"Probably the best place to take a fair census of the kind of cigarettes used is the rear end of a street car. In every city that I have visited I have noticed that the large majority of the smokers when they wanted a puff would pull out a package of papers and a bag of tobacco, and in the strongest wind proceed to roll a perfect cigarette and puff away contentedly.

"Cigarette smoking was learned by the cowboys of the west and south from the old Mexicans. The average cowpuncher could lay in a supply of tobacco and a bunch of papers that would last him for many months, while he would number of cigarettes already made. To them cigarette rolling became an art. Always in the open and in a country where the wind never ceases to blow, they can, on the back of a mustang, riding before or against the wind, roll a cigarette under difficulties that would appear insurmountable to a messenger boy of the cities.

"On the range in the spring or fall every man carries his supply of tobacco and a bunch of papers. If he is galloping in the prairie breeze he slips to one side in his saddle, riding on one foot and clamping the other to the horse, and rolls his little weed deftly, lights it and in a moment is again in the saddle puffing away. A cowboy does not wet the paper as do most smokers; he simply puts a crimp in each end.

"There is a sort of freemasonry among smokers that has a greater griping habit. Any man who smokes cigarettes has not the slightest hesitancy in asking for the necessary materials for making one should he himself be temporarily without a supply. I take it that no such request has ever been refused. Cigarettes and tobacco have come to be a most common property among the users of the weed."—Washington Star.

DON'T!

Don't get the notion that the curative power of a medicine exists in the name. It must be in the medicine itself. You may not have heard of Re-Go Tonic Laxative Syrup. It is not made of figs because the laxative principle of figs are the seeds, yet it is as pleasant to take as figs are to eat and is a certain cure for biliousness, constipation, indigestion and stomach troubles. The name is Re-Go, which in Sanscrit means "good." The merit is all in the medicine itself. Sold by the People's Drug Store.

The ladies of the Presbyterian church will serve a supper at the church parlors on Tuesday evening, April 21. Price, twenty-five cents. All are invited. (4-17-1d)

IN MONARCHS' KITCHENS.

Culinary Regime Below Stairs in Many Royal Palaces.

The German emperor is disposed to be rather officious in the supervision of his kitchen. He has been known to make a special tour of inspection, under the guidance of the marshal of the court, and to harangue the soufflers, or give them lessons in the art of making coffee. As a rule, he gets his meals "en pension," there being a regular sum allotted per head for the board of the imperial family, and within these limits the cooks have a free hand. The chief cook is a German, and under him are a German and a Frenchman, although the use of the French language upon the menu is strictly forbidden. The chef has to get through about four hundredweight of a butcher's meat on ordinary days, for the meals of the court, and on greater occasions he usually begins his preparations a week before-hand and calls in the services of the confectioners in Unter den Linden. William II. believes in dishes en masse. The joints appear in the dining saloon, and are frequently fashioned into the shape of temples, minarets and castles.

The chef in the household of the czar is an Alsatian, an ex-soldier, who is paid a very high salary. He is an adept in the fabrication of appetizing Russian soups which are much liked by Nicholas II., and he has a regular dictionary of recipes for the treatment of caviare. He has had to overcome the nuisance of having two or three Circassians all ways hovering about the kitchen on the lookout for suspicious underlings, although these gentlemen apply themselves to the task of tending the imperial viands with greater zeal than the occasion requires. The empress often conveys to the kitchen a wish for a dainty dish to be prepared "a l'Anglais," and apart from the national dishes the composition of the imperial menu "en famille" is much English as French.

Emperor Francis Joseph is said to spend \$50,000 per annum upon his table, although he himself is one of the most abstemious monarchs in Europe. The staff consists of half a hundred trained cooks, equally divided as to sex, and a committee of the best of each department is held on the occasion of a state banquet. All the carving is done in an apartment reserved for the purpose, to which the comestibles are conveyed from the kitchen. The custom of perquisites is probably more firmly established in the Austrian imperial kitchen than anywhere else in royal Europe.

At some of the smaller courts native chefs are preferred, as, for example, in Rome, Madrid and Stockholm. At the Sublime Porte, Abdul Hamid formerly contented himself with French chefs, but after the last of the German emperor to Constantinople he engaged three German cooks, who assist him in dispensing the enormous daily sum of £1,000 upon the pleasures of the table for his vast establishment. All the sultan's personal dishes are prepared in silver vessels, and are sealed by the sultan's vizier before they leave the kitchen. The seal is broken in the presence of the monarch, and it is the duty of the chamberlain to taste the first mouthful if so commanded. The decoration of a chef by his royal master is a rare event. Even the Royal Victoria order was not considered by her late majesty to be a suitable method of acknowledging the services of her culinary artists. When a famous chef retired from the service of the imperial kitchen in Berlin he was rewarded by the empress with the gold cross of merit, but even in the fatherland the distinction was unique. Perhaps the most curious kitchen department in any imperial palace in the world is that of the emperor of China. The staff consists of no fewer than seventy-five experts, whose duties require them to be acquainted with the daintiest methods of serving such as birds' paws or antelope tails, eels' eggs or monkeys' lips, while there is a special department which concerns itself with the serious task of producing birds' nest soup.—Casell's Saturday Journal.

NEW COUNCIL MET

MAYOR GREENE'S SLATE WENT THROUGH WITHOUT OPPOSITION.

SEWER CONTRACTS AWARDED

JOHN DWYER LANDED THEM, BEING THE LOWEST BIDDER.

Initial Meeting of Present Board an Entirely Harmonious Affair—Rumors of Slate Breaking Proved Unfounded.

Controller—Franklin E. Bay. Marshal—T. J. Maney. Street Commissioner—R. R. French. City Attorney—George P. Brown. Harbor Master—Captain A. O. Kruger.

Member of the Electric Light and Power Commission (Full Term of Five Years from April 15, '03)—J. E. Sherman.

Member of Park and Cemetery Commission (Full Term of Five Years from April 15, '03)—D. W. Powell.

Member of Board of Trustees Peter White Public Library (Full Term of Five Years from April 15, '03)—Charles R. McCabe.

The Committees.

President—M. K. Asire.

Finance and Taxation—Asire, Gordon, Ball.

Streets and Sewers—Shea, Donovan, Anderson.

Sidewalks and Crosswalks—Donovan, Bush, O'Neil.

Police and Public Order—Gorman, Asire, Gray.

Claims and Litigation—Hall, Gray, Ekstrom.

Ordinances and Rules—Jones, Gustafson, Donovan.

Purchases, Salaries and Wages—Ward, Shea, Rosu.

Licenses and Trade Regulations—Bush, Anderson, Holley.

Railways and Public Conveyances—Mack, Bush, Gray.

Park and Cemeteries—Reay, Mack, Jones.

Public Health—Gray, Ward, Ekstrom.

Public Buildings—Gustafson, Bush, O'Neil.

Harbors—Ekstrom, Bush, O'Neil.

Foundations—Anderson, Jones, Holley.

Above is the personnel and manner of organization of the new city administration that was set on its feet by Mayor Greene last evening. All the mayor's appointive offices were filled with the exception of that of health officer, which is held open for the time being. The appointments were approved by the council without dissenting voice. There were no other names mentioned at the session than those of the successful candidates, although it was rumored during the afternoon that there might be something doing in the slate breaking line. These reports may have been responsible for the heavy gallery to which the council played its opening engagement. It was a matter of standing room only, but nothing untoward turned up to reward the general attendance.

Mayor Greene presided, behind a magnificent and large cluster of various flowers presented to his honor with the compliments of Division No. 94 of the Brotherhood of Locomotive Engineers. The bouquet was a beauty; attracted general admiration and the mayor was duly grateful.

The recorder read the mayor's appointments, which were all approved unanimously.

Sewer Contracts Let. Two sewer contracts were let, and in each instance John Dwyer was the successful bidder.

On the sewer for Hewitt avenue and Fourth street, between Third and Fourth on Hewitt avenue and on Fourth

from Hewitt avenue to a point forty feet north of the north line of Ohio street. Mr. Dwyer bid forty-one cents a lineal foot, \$1.40 for lamppoles, \$42 for the manhole and \$4 a cubic yard for rock work.

Other bidders and their bids were: John Plattenberg—Fifty-seven cents per lineal foot; \$2 lamppoles; \$45 manhole and \$3.75 cubic yard for rock work.

August Paulson and Hilmer Berg—Fifty-three cents per lineal foot; \$2 lamppoles; \$43 manhole; \$4 per cubic yard for rock work.

Michael Lane—Fifty cents per lineal foot; \$2 lamppoles; \$47.50 manhole; \$2.75 per cubic yard for rock work.

Dwyer's bid on a sewer for Presque Isle avenue and Fourth street was thirty-one cents per lineal foot for Section A; forty-one cents for Section B; fifty-six cents for Section C; \$42 for manhole and \$1.40 for lamppoles. The other bidders, the same men who bid on the Hewitt avenue and Fourth street sewer, submitted figures that greatly exceeded Dwyer's.

Other Matters. The controller reported that the necessary two-thirds had been paid in on the La Salle boulevard, and he was instructed to ask for bids for the improvement.

City Attorney Brown reported that the city charter amendments were ready for the governor's signature, having passed both houses. They provide for immediate collection of future special assessments, alterations of salaries and other minor matters. The water act amendments have passed the house and are before the senate.

The council adjourned to Wednesday, the 29th, when the liquor bonds will be taken up.

THEORA DISABLED.

Was Towed Into the Harbor by the Tug Ethel J. Yesterday Morning.

The tug Theora, owned and operated by Captain Parker, was disabled out in the lake yesterday morning by a breakdown of her engine and had to be towed into port by the Handford & Mitchell tug Ethel J. Both craft were out beyond Presque Isle at the time of the accident, being separated by a stretch of some five miles of water. The Theora, immediately following the breakdown, blew four blasts of her whistles, the distress signal, but the Ethel J. was so far off that it was not heard. However, the captain of the Ethel J. noticed from the Theora's smoke that she was stationary and as he knew that she was some distance from where her nets were set he ran up to see what was the matter. On ascertaining her plight he gave her a line and towed her into harbor, arriving here about 11 a. m. It will require three or four days at least to repair the damage and it is said that Captain Parker will be fortunate if he can get the tug out this week. The damage, including lost time and labor, will amount to at least \$200 or \$300.

WILL EXHIBIT PRIZE CUP.

Copperdorn Pythians Coming Today to Stir Up Interest in Reunion.

Fred Taylor, of the Hancock lodge of the Knights of Pythias, and several other copperdorn members of the order who are taking an active interest in the preparations for the big reunion and jubilee of the upper peninsula lodges to be held under the auspices of the Houghton lodge at Houghton on April 30, will leave Hancock for Marquette this afternoon. They will bring the \$75 prize cup, for which the Marquette, Soo and Ishpeming degree teams will compete, along with them. The cup will be placed on exhibition in the window of Stafford's drug store this evening, to remain until tomorrow evening. The delegation is coming down to stir up interest among the Marquette Pythians in the coming reunion.

Why, Mrs. Jones, what have you been doing to yourself; you're looking fine. Never saw you look so sweet. Simply took Rocky Mountain Tea last April. Felt fine all the year. 35 cents. The Stafford Drug Co.

RUGS MADE OF OLD CARPET Address M. Tralson, Clifton Hotel.

THREE OUTSIDE MEN.

Manager Price Has a Strong Ball Team in Contemplation.

Tom Price, who has been selected as manager of the baseball team, announced yesterday that there are good prospects of Marquette having a strong nine as at any time in the history of the city, and that is asserting a real deal. He has been in negotiation with a number of outside men and has closed a conditional deal with three who would prove a tower of strength in any semi-professional team. With this trio and the pick of the city, Mr. Price thinks there is no doubt that Marquette would be capable of gaining new laurels on the diamond this year. All that is required to secure the three men is the promise of work and a little extra compensation, and with this end in view, as well as to provide for other expenditures, Mr. Price will today start out on a canvass of the city and solicit subscriptions. The matter of a good ball team has now reached the point where it is up to the fans and others who like the national game to decide the fate of the movement to reorganize, and it is to be hoped that the response will be liberal. When sufficient funds are in sight, organization will be had and the team will be formally launched. The names of the three outside men cannot be announced at this time, nor until it is known for a certainty that they are to come.

FIRST FROM LOWER LAKES.

Steamer La Salle Arrives and Takes Out a Cargo of Ore.

To the steamer La Salle belongs the honor of being the first boat to arrive here this season from the lower lakes. The vessel steamed into the harbor at 6:30 o'clock yesterday morning and tied up at the No. 4 dock. A cargo of ore was taken on during the morning, and in the afternoon the boat left port bound for Cleveland.

Just when the next boat will reach the South Shore docks is rather indefinite, the plans of the vesselmen having been seriously interfered with by the labor troubles just settled. However, the local officials are advised that three boats will be here Saturday or Sunday, but whether other craft are to precede these is something as yet unannounced. The Nelson, which it was believed would open navigation from the lower lakes, passed the Soo canal on Sunday, as did the La Salle, but its orders to proceed here had been canceled and it went on, it is believed, to Duluth instead.

The Ketchum is expected at the L. S. & I. dock some time today from the lower lakes. The Choctaw, which also will load there, will probably get away by evening, and the Andaste, likewise one of the best which wintered here, will likely clear on Wednesday. The Meosta is still in the lower harbor and the time of its departure is indefinite, its crew not as yet having arrived.

The tug Schenk, stationed here last season, was in port for a short time yesterday, having come in on its way from the Soo to Duluth, whither it has been transferred.

Passed the Canal.

Sault Ste. Marie, Mich., April 20.—Up: Sultana, 3:20 a. m.; Helen C. 4:30; Schoelcraft, Nester, Burke, Keewenaw, G. Joliet, Buell, 7:30; Rappahannock, S. Ottawa, 8:30; Oliver, Mather, Thomas, 9:20; Jenks, 12 noon; J. B. Ketchum, Mahoning, 1:40 p. m.; Seveona, 3; Nipigon, 4:30; Hollome, 4:30; Rummels, Bradley and tow, 6:30; Jim W. Gates, 8.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all druggists.

Hall's Family Pills are the best.

LOTS OF MUSIC.

Two Excellent Concerts Are Offered Marquette People This Week.

The music loving people of Marquette have their choice of two excellent concerts this week, in both of which outside talent will be prominent. Miss Tokla Farm, a well known soprano who formerly lived in Ishpeming, will be the attraction at the Presbyterian church this evening, where she will be assisted by Dr. Eldred Robbins, tenor; Fred Bennett, base, and Ernest Ludlow, guitar, of Ishpeming, and Miss Norma Ross, the Mandolin club, Professor Kluge and the church choir of Marquette in an interesting and diversified program, one that anyone who is feeling whatsoever for music should be able to enjoy. It is the unanimous testimony of Miss Farm's friends that her voice has improved in a marvelous degree since she was last heard in this county, and she is heralded as a soloist of rich possibilities. The program tonight is, in part, as follows:

- "Tarentelle".....Rubinstein
- Miss Zaida Van Alstyn.
- "Il Bacio".....Arditi
- Miss Tekla Farm.
- "Tell Her I Love Her So".....Housley
- Misses Johnson and Withey.
- Messrs. Taylor and Alting.
- "The Sea Is the Home for Me".....Petrie
- F. C. Bennett.
- Agathe's Prayer from "Der Freischuetz".....Weber
- Miss Tekla Farm.

- Violin Solo.....Selected
- Merrily I Roam".....Schleiffarth
- Miss Norma Ross.
- "I Love You Dear and Only You" (from "The Burgomaster").....Ludlerer
- Dr. Eldred Robbins.
- "A Voiceless Sigh".....Stewart
- Quartet
- "True Love Is Not for a Day" (from Lady Marion).....De Koven
- Miss Tekla Farm and Dr. Robbins.
- (a) "The Years at the Spring".....Beach
- (b) "Good Morning".....Grieg
- (c) "Stolen Money".....Willby
- Miss Tekla Farm.
- "The Strain Upraise".....Baek
- Quartet.

Tomorrow evening occurs the engagement of the Michigan College of Mines glee and mandolin clubs under the auspices of the Marquette council of the U. C. T. This entertainment will be a benefit to the Sisters of St. Joseph. The clubs have already appeared in a couple of successful concerts in the copper country, so their program may be expected to go off with notable smoothness and spirit. The clubs are large and well trained, the best in the College of Mines' history. They are singing and playing the latest music. They should be welcomed by a large house. Their entertainment promises to be well worth while.

MAKING MANY HOISTS.

Lake Shore Engine Works' Plants Meet With Much Favor.

The Lake Shore Engine works appears destined to do a constantly increasing business in hoists for mining purposes. The plants are in great demand and the shops are always a number of orders ahead on them. They are now turning out six plants that will be delivered at intervals during the next two months, and two plants have been shipped during the past few days. All these hoists are destined for the Mesaba range, where the works' business is constantly expanding. The Lake Shore Engine works' plants are rapidly making a fine reputation among mining men. They are known to be substantially built on correct mechanical principles, and they are particularly well adapted to Lake Superior mining, for which they are especially designed. J. Fred Kern, the new manager of the works, has spent practically all of his time since his promotion on the road, meeting the trade, and talking hoists. The works turns out plants of all capacities. No order is too big or too small if overlooked in the attention that is to receive its attention. Needless to say the superior gas engine is not being paid to look building. It is being manufactured in number exceeding any former engine product of the works. The company is now employing more men than ever before in its history and the outlook was never brighter. President F. H. Begole and the other officers look forward to steady and large expansion.

CAPT. HOOPER HERE.

Captain Hooper of Victoria and Captain James Hooper arrived in Marquette last evening on their way to Mexico, where the latter goes to remain permanently as manager of the Lake Superior Gold Mining and Milling company's mines. Laidley & Co., the fiscal agents, are placing 50,000 shares of this stock at \$1 per share. The next allotment will go on the market shortly at \$2 per share.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Stafford Drug Co. Price 25c and 75c.

KNOW THE TRUE VALUE OF COKE.

Send a trial order today and be convinced that it is the best, cheapest, and cleanest fuel to use. The Marquette Gas Light Co.

FIRE WOOD.

Good dry hardwood, block or split. Dry pine slabs; dry hemlock slabs—any length required. F. W. Read & Co., Marquette. (12-19-1f)

Stafford Drug Co. sells Ryckman's Old Brocton Port Wine and G. W. Blaine's Grape Juice. (4-9-3mo)
