**CRISIS IN FAR EAST**

MANCHURIAN SITUATION IS  
ALARMINGLY GRAVE.

**DANGER IN RUSSIA'S DEMANDS**

NOTE PRESENTED PEKIN VIOLATES  
THE AGREEMENT.

Washington and London Are Aroused  
and Already a Joint Forceful Pro-  
test by America, England and  
Japan is Contemplated.

London, Saturday, April 25.—The As-  
sociated Press learns that there is in  
contemplation a forcible protest on the  
part of Great Britain, the United States  
and Japan against the Russian demands  
in the matter of the sovereignty of Man-  
churia. Foreign Secretary Lansdowne in-  
tends to circulate pamphlets looking to  
joint action from Washington, London  
and Tokio, provided further information  
sustains the present abstract of the  
Russian demands.

**Demands in Violation of Treaty.**

The Associated Press is authorized by  
the foreign office to state that if the  
Chinese government directly represents  
Russia's claims, these claims constitute  
an absolute breach of all undertakings  
given in connection with Manchuria and  
utterly abrogate the principles of the  
open door, territorial division and inter-  
national comity to which the British  
government constantly and publicly has  
committed itself. It is added that in  
these principles Great Britain had al-  
ways acted with the United States, and  
it is presumed that similar feelings exist  
at Washington.

Nothing, however, is definitely known  
as with the exception of the British min-  
ister to China no British ambassador has  
yet reported. It is pointed out that  
Russia's explanation may throw a dif-  
ferent light on her demands, although in  
official circles here there is the frank  
expression of the belief that Russia has  
no intention of evacuating Manchuria,  
and that she hopes, after demanding the  
maximum, to secure a compromise.

It is pointed out that unless there was  
pointed out that Chancellor Van Buelow  
had expressly exempted Manchuria from  
the British-German-Chinese agreement.  
Count Bernstorff, first secretary of the  
embassy, said: "While Germany is a  
friend and supporter of the open door,  
our interests in Manchuria are scarcely  
sufficiently important to justify our in-  
terference."

**Crisis of Extreme Danger.**

No attempt is made even by the most  
careful students of Far Eastern condi-  
tions to underestimate the gravity of the  
Manchurian situation. Lord Lansdowne  
is moving slowly. He has been warned  
not to take any steps to embroil Great  
Britain in unnecessary trouble, but there  
does not appear to be the slightest hesi-  
tation in joining with America and  
Japan in a joint protest in the event of  
the Russian refusal of the conditions which  
has been placed on Russia's attitude.

Baron Hayashi, Japanese minister to  
Great Britain, said tonight that there is  
every reason for the correctness of the  
reports of Russia's demand, which he  
characterized as contrary to the prin-  
ciples of the open door. He pointed  
out that China had not yet given her  
consent to these demands.

**French Support for Russia.**

Paris, April 24.—The foreign office of-  
ficials maintain reserve in the matter of  
the Russian terms for the evacuation of  
Manchuria, but it is accepted that the  
strong ties existing between France and  
Russia assure at least sympathetic sup-  
port of Russia's position or else silent  
acquiescence.

Victoria, B. C., April 24.—Recent arriv-  
als from North China, including a well  
posted army officer, state that Japanese  
engineers disguised as laborers or com-  
mercial men have large quantities of ex-  
plosives stored at various places along  
the Russian railway in Manchuria, ready  
to blow up the line if war is declared  
between Japan and Russia.

**DISTINCT BREACH OF FAITH.**

Russian Demands Startle Washington—  
Matter Referred to Roosevelt.

Washington, April 24.—Minister Con-  
gert, at Pekin, has cabled Secretary Hay  
a synopsis of the demands made by Rus-  
sia respecting control of Manchuria.  
This account agrees precisely with the  
press reports from Pekin. The secretary  
will take no action in the matter until  
he has communicated the facts to the  
president and has learned the latter's  
wishes. The present impression here is  
that the Russian action is a distinct  
breach of faith with the United States.  
The matter has caused a great stir in  
official and diplomatic circles.

**Policy of the United States.**

The nature of some of Russia's pledges  
and the policy of the state department  
are disclosed in the following official cable  
message dated Washington, D. C., March  
1, 1901:

"The following memorandum, which  
was handed to the Chinese minister on  
Feb. 19, is transmitted to you for your  
information and communication to the  
government to which you are accredited:  
"The preservation of the territorial  
integrity of China having been recog-  
nized by all the powers now engaged in  
joint negotiation concerning the in-  
juries recently inflicted by certain offi-  
cials and subjects of the Chinese em-  
pire, it is evidently advantageous to  
China to continue the present interna-  
tional understanding upon the subject.

It would be, therefore, unwise and dan-  
gerous in the extreme for China to make  
any arrangements or to consider any  
proposition of a private nature involving  
the surrender of territory or financial  
obligations by a convention with any  
particular power; and the government  
of the United States, aiming solely at  
the preservation of China from the dan-  
ger indicated and the conservation of  
the largest and most beneficial relations  
between the empire and other coun-  
tries, in accordance with the principles  
set forth in its circular note of July 3,  
1900, and in a purely friendly spirit to-  
wards the Chinese empire and all the  
powers now interested in the negotia-  
tions, desires to express its sense of im-  
propriety, inexpediency and even ex-  
treme danger to the interests of China of  
considering any private territorial or  
financial arrangements, at least without  
the full knowledge and approval of all  
the powers now engaged in negotiation.  
(Signed) Hay."

**Assurances from Russia.**

These instructions were called our  
representatives at St. Petersburg, Lon-  
don, Berlin, Paris, Vienna, Rome and  
Tokio. On representative at St. Peters-  
burg on Aug. 30, 1900, wired the state  
department:

"Count Lamsdorff has volunteered the  
statement in most positive terms that  
while Russia is at present, for certain  
necessary military purposes, occupying  
certain points within the Chinese do-  
minions, this is a temporary measure  
and that Russia has no intention what-  
ever of seeking to acquire or retaining  
a single inch of territory in either China  
or Manchuria."

**Naval Strength in the Orient.**

In view of the latest developments in  
Manchuria, the naval strength of the  
various powers in Chinese waters be-  
comes interesting. The Russian fleet  
has been gradually increased until now  
it numbers forty-two vessels. France  
has thirty-one ships, and twenty others  
in India and Cochin China waters. Great  
Britain at last accounts had thirty-seven  
war vessels in Chinese waters, and Ger-  
many had seventeen.

The Kentucky and Oregon are the only  
American battleships on the Asiatic sta-  
tion, but there are twenty-four other  
smaller American warships, including  
two monitors and some small gunboats,  
in Philippine waters. Japan has a  
strong naval force on the coast.

**KNOX RULES AGAINST ARREST.**

Must First Be Proof Papers Taken from  
Tyner's Safe Were Public Property.

Washington, April 24.—Attorney Gen-  
eral Knox today expressed the opinion  
of Postmaster General Payne that unless  
there is something to show whether the  
documents taken from the safe by Mrs.  
Tyner are government property or pri-  
vate papers, no case would lie against  
General Tyner. Mr. Payne replied by  
stating the circumstances attending the  
taking of the papers and the fact that  
most of the papers filed in such govern-  
ment safes are of confidential nature and  
therefore are not of record. There will  
be a conference tomorrow between  
Messrs. Payne and Knox. The postoffice  
department considers that the impor-  
tance of the papers is of equal impor-  
tance to the nature of what was taken.

In response to the offer of General  
Tyner's attorneys today that they would  
be glad to have the department's rep-  
resentative look over the papers at Gen-  
eral Tyner's house, the postmaster general  
pointed out the fact that the papers  
were given opportunity immediately af-  
ter the papers were taken to open them  
in the presence of officers of the depart-  
ment, but refused to show them or in-  
dicate even the nature of the papers. It  
is stated that the department is not likely  
to report the charges, did not warrant  
further investigation.

Later—At 1:30 the committee ad-  
journing until Monday evening with the  
examination of Miller uncompleted. No  
subpoenas were issued for any other  
person, and so far the testimony of the  
speaker has not incriminated any other  
person. It is not thought probable he  
will make a direct accusation against  
anybody.

**EXPULSION FOR MORMONS.**

Emissaries of the Church in Prussia and  
Mecklenburg Must Get Out.

Berlin, April 24.—The governments of  
Prussia and the grand duchy of Meck-  
lenburg have decided to expel the Mor-  
mon missionaries, of whom there are  
145 in Germany, ninety of them in Prus-  
sia, on the ground that they are propa-  
gating a form of religious belief incom-  
patible with the laws of the state and  
public morals and because polygamy is  
not excluded from their doctrines. The  
missionaries, who are all Americans, will  
be allowed sufficient time to settle up  
their personal affairs.

**CUP DEFENDER'S TRIAL TODAY.**

Bristol, R. I., April 24.—The cup de-  
fender Reliance was warped into the  
docks and anchored off the Herreshoff  
shops this afternoon, where the boat  
will remain until tomorrow morning.  
Then the sails will be hoisted and she  
will start on her trial trip.

**TRAINMEN TO VOTE ON STRIKE.**

St. Paul, April 24.—The question  
whether a strike shall be declared on the  
Great Northern system is to be submi-  
tted to the vote of the trainmen. The  
road was willing to grant concessions in  
wages, but refused to be dictated to in  
the matter of double-heading.

**SLEEPING PASSENGERS ROBBED.**

Lincoln, Neb., April 24.—Several pas-  
sengers in the Burlington Union station  
were robbed of a total of \$1,000 while  
asleep this morning, awaiting connec-  
tions north and west. An immigrant  
dormer on the track was also entered  
and robbed. The thieves escaped.

**\$100,000 FIRE AT DETROIT.**

Detroit, April 24.—The manufacturing  
department of Seherer & Co.'s carriage  
works was damaged by fire today to the  
extent of \$100,000.

**TODAY'S WEATHER.**

Washington, April 24.—The following  
is the weather bureau's forecast for Up-  
per Michigan: Partly cloudy, Saturday;  
Sunday, fair; fresh to brisk north winds.

**LAWMAKERS REVOLT**

ILLINOIS SOLONS VOTE "NO CONFIDENCE"  
IN SPEAKER.

**WILL LOOK INTO BRIBERY STORY**

COMMITTEE IS NAMED TO SIFT  
MATTER TO BOTTOM.

Investigators Selected by Presiding Of-  
ficer Are Made the Minority and Chi-  
cago Editor Is Called to Tell  
What He Knows of Charges.

Springfield, April 24.—The Illinois  
house of representatives today, by the  
vote of seventy-two to sixty, declared  
"no confidence" in its presiding officer,  
Speaker John H. Miller, whose alleged  
unwarranted use of the gavel in fur-  
thering a proposed enactment affecting  
rich street railway franchises in Chi-  
cago led to the riot in the chamber yester-  
day.

A committee of five, all personal fol-  
lowers of the speaker, had been appoint-  
ed by him to investigate the charges of  
attempted bribery in connection with  
the passage of the Mueller traction bill.  
There was a strong feeling among the  
anti-Miller legislators that there was a  
possibility of a whitewash, and steps  
were taken to increase the committee in  
such manner as to leave the speaker's  
appointees in the minority if anything  
in the line of a whitewash should be at-  
tempted.

**Speaker's Friends Out-Voted.**

The Miller men fought hard to retain  
the committee as originally appointed,  
but were out-voted and the report of the  
committee, increased to eleven members,  
was made the special order for next Tues-  
day morning. A subpoena issued for  
Editor George W. Humann of Chicago  
was made returnable at the same time.  
It is the intention of the house to in-  
terrogate him regarding the facts upon  
which an editorial in the Inter Ocean  
alleging bribery in connection with the  
Mueller bill was based.

The anti-Miller men came into repre-  
sentative hall today determined to force  
the speaker to prove his charges, or  
withdraw them. If he could not readily  
be induced to act, they had decided that  
no business should be transacted in the  
house until he had complied with their  
demand. They had their own way in  
everything from first to last, and the  
speaker's forces were defeated at every  
point. All traction legislation went over  
until Tuesday.

Miller Unable to Substantiate Charges.

Springfield, Ill., Saturday, April 25.—  
Speaker Miller went before the investi-  
gating committee at 10:45 p. m. and at  
12:30 a. m. was still on the stand. He  
did not give the name of any person who  
had approached him with offers of mon-  
ey, saying he did not know the identity  
of the people who had told him money  
could be made by urging the passage of  
the Mueller bill. A member of the com-  
mittee announced early this morning  
that unless stronger evidence was pro-  
duced, the committee would be compelled  
to report the charges, did not warrant  
further investigation.

Later—At 1:30 the committee ad-  
journing until Monday evening with the  
examination of Miller uncompleted. No  
subpoenas were issued for any other  
person, and so far the testimony of the  
speaker has not incriminated any other  
person. It is not thought probable he  
will make a direct accusation against  
anybody.

**GEN. FUNSTON EXONERATED.**

War Department Declines His Request  
for a Court of Inquiry.

Washington, April 24.—By direction of  
the secretary of war, Judge Advocate  
General Davis today addressed a letter  
to Brigadier General Funston, refusing  
his request for a court of inquiry to  
investigate his conduct in the Philip-  
pines.

The letter says the secretary is satis-  
fied with General Funston's attitude in  
asking an inquiry into the allegations  
of cruelty toward the Filipinos and of-  
fering to resign his commission should  
the court of inquiry find him guilty.  
General Davis' letter concludes:  
"The matter has already been made  
the subject of an official investigation  
upon three separate occasions. In one  
of these investigations, which occupied  
sixteen days, an officer authorized to ad-  
minister oaths to witnesses, examined  
over 200 witnesses. Neither in that or  
in any other investigation was there  
any testimony elicited showing or tend-  
ing to show that orders directing the  
killing of prisoners of war had been given  
by you at any time, or under any  
circumstances; on the contrary, the evi-  
dence leaves no reason for doubt the  
charge was without foundation. The  
secretary is therefore of the opinion the  
public interests will not be served by  
the further prosecution of an inquiry and  
directs that you be so advised."

**TO BE SEEN NO MORE BY PUBLIC.**

Historic Declaration of Independence Is  
Withdrawn from Exhibition.

Washington, April 24.—The declara-  
tion of Independence is to be seen no  
more by the public. An order has been  
issued that henceforth the historic  
manuscript shall be kept under lock and  
key in a great fire and lock proof safe.  
This decision was reached today.

Most of the text of the declaration  
is still legible, but only one or two  
signatures can be made out. There is  
only a trace of the autograph of John  
Hancock, the first to sign. The fact  
that the engrosser (now unknown to  
history) used a sharp pen and bore  
steadily upon it accounts in a measure  
for the better preservation of the text  
as compared with the signatures. The  
great damage sustained, however, was  
in 1820, when a copy was taken by the  
cruel letter press process. This was  
done in order to secure a fac simile for  
the surviving signers (one of whom was  
Thomas Jefferson) and their families.

Today the document was photographed  
and then locked up. At certain long in-  
tervals it will be taken from its case  
and rephotographed, the purpose being  
to measure as nearly as can be done  
the result of the protective steps.

**PRESIDENT RESUMES HIS TOUR.**

First Takes Part in Cornerstone Laying  
in Yellowstone Park.

Gardiner, Mont., April 24.—President  
Roosevelt this afternoon resumed his  
tour to the Pacific coast. Before going,  
however, he participated in the laying  
of the cornerstone of the new gate at the  
northern entrance to Yellowstone Park.  
The ceremony was performed accord-  
ing to the Masonic ritual and was in  
charge of the grand officers of Montana.  
Two troops of the Third cavalry were  
drawn up before the speaker's stand as  
a guard of honor. The president, one-  
half of the Montana Masons, was pre-  
sented with a Masonic charm mounted  
with a nugget of Montana gold.

The president delivered a brief address  
to the hundreds of people assembled, in  
which he spoke of Yellowstone Park as  
a veritable wonderland and praised the  
scheme of its preservation. He expressed  
the hope that more of the people of the  
nation will appreciate its really marvel-  
ous character. He spoke also of the  
importance of the preservation of the  
forests and water supply.

At the conclusion of the cornerstone  
ceremonies the president's train pulled  
out for Livingston.

**CONVICTED BANKER RELEASED.**

Supreme Court Gives Anton Boernert of  
Chicago His Freedom.

Springfield, Ill., April 24.—Former  
Banker Anton Boernert, relator in habeas  
corpus proceedings against Sheriff Bar-  
cott, of Cook county, was released from  
custody by the supreme court today.  
Boernert was convicted of larceny and  
embezzlement in Chicago two years and  
a half ago. Several stays were granted  
and finally the court, two years after his  
application for a new trial, refused one  
and ordered him taken to the peniten-  
tiary at Joliet. A petition for a writ of  
habeas corpus was filed in the supreme  
court, and that body in its opinion says  
it is not within the power of the court  
to arrest judgment for an unreasonable  
length of time, as this movement is cal-  
culated to obstruct the administration of  
public justice and operate as a denial of  
the rights of citizens to speedy trials.

**DIES IN A DOCTOR'S OFFICE.**

New York, April 24.—Anthony J.  
Thomas, vice president of the Chicago,  
Indianapolis & Louisville railroad, for-  
merly with the banking firm of Drexel,  
Morgan & Co. and for many years prom-  
inent in railroad circles, died today in  
physician's office. The cause of death  
was cerebral hemorrhage.

**LONG TROLLEY LINE PROJECTED.**

Cincinnati, April 24.—A contract was  
closed today for the construction of  
eighty-six miles of electric railroad from  
Richmond to Marion, Ind. It is contem-  
plated to extend the road so as to make  
a through line from Cincinnati to Chi-  
cago.

**BOODLER TO DON THE STRIPES.**

St. Louis, April 24.—Louis Decker, a  
former member of the house of dele-  
gates, who has been on trial on the  
charge of perjury in connection with the  
suburban franchise boodler legislation,  
was found guilty today and was sen-  
tenced to four years' imprisonment.

Her Life Might Have Been Saved.

Two-thirds of the inmates of our hospitals are women. They are in most cases either for treatment or for an operation, made necessary by advanced stages of female troubles which have resulted in ovaritis, a tumor, or displacement of the womb.

"AN OPERATION NECESSARY." How these words after the examination strike terror to a woman's soul, and with what regrets she hears them, when she considers that the operation has become necessary through her own neglect.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion and nervous prostration; or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, and "want-to-be-left-alone" feelings, and the blues, they should remember that there is one tried and never-failing remedy; Lydia E. Pinkham's Compound at once removes such troubles.

READ THE FOLLOWING LETTERS.

"DEAR MRS. PINKHAM:—I cannot tell you how much good you have done me and how thankful I am to you for it. For five years I have not been free from pain for a day. I have had backaches, headaches, and those awful dragging sensations with leucorrhoea, and when menstruation appeared I was in such a condition I could hardly sit up. I doctored all the time, but nothing helped me, and I was told that an operation was necessary."

"Two months ago a friend suggested that I try Lydia E. Pinkham's Vegetable Compound. No one knows what it has done for me and how thankful I am for it. It brought me the first well days I have had for five years. It did for me what doctors could not do, and I want every suffering woman to know about it."—LOUISE NAUER, 751 E. 160th St., New York City.

"DEAR MRS. PINKHAM:—I wish to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I had terrible hemorrhages, being lacerated from the birth of my child. The doctor told me that if I would have an operation I would be well and strong. I submitted to it, but was worse than before; no one knows what I suffered. Finally a friend advised me to try your Vegetable Compound; I did so, and commenced to feel better; I continued its use, and it has done for me what doctors could not do. I am strong and well. If women with any kind of female troubles would only consult you before submitting to an operation they would be spared many hours of pain and suffering. I cannot thank you enough for what you have done for me."—ANNA KIRCHHOFF, 156 E. 100th St., New York City.

A STUDY IN COPPER COSTS.

It is doubtful if the increased cost of making copper today as compared with the former days of 12-cent copper (prior to the promotion of the Amalgamated Copper Company) is fully appreciated.

We have prepared some figures which strikingly set forth the contrast existing in the cost sheets today and those of 1898 under 12-cent copper conditions.

It will be news to many that these six companies during 1902 were unable to make their copper, excluding all construction charges, for less than 10.35 cents per pound, but such is the fact.

It will be noted that the cost today is just two and a fourth cents per pound above the average cost of 1898, when the average market price of copper was twelve cents.

BRITISH IN RETREAT

DISASTER IN SOMALILAND A CRUSHING ONE.

MAD MULLAH TURNS THE TABLES

COMPELS ABANDONMENT OF CAMPAIGN AGAINST HIM.

English Base of Supplies Is Evacuated, Stores Are Destroyed and Troops Started Back for the Coast—Details of the Battle.

London, April 24.—Late advices from Aden, Arabia, show that the British defeat in Somaliland, reported yesterday, was a crushing one. General Manning, in command of the British forces in Somaliland, has been compelled to abandon his base of supplies and retreat toward the coast. The British post at Obbia, General Manning's base, has been evacuated and the stores destroyed. The British and native sick soldiers were sent to the coast. All posts along the line of communication have been abandoned and the stores destroyed.

To add to the seriousness of the situation, Colonel Cobbe, with a force of 220 men, was on April 17, surrounded at Gumburu, forty miles west of Galadi, with only three days' supply of water. He had 1,000 camels, but was unable to move them. On the evening of April 18 General Manning, with a force of 300 Sikhs and sixty African rifles, started to rescue Colonel Cobbe's force. He expected to do this on April 19, and to start back at once. General Manning telegraphed that he will be unable to do more than rescue Colonel Cobbe.

It has developed that the rebels who on April 17 attacked and nearly annihilated Colonel Plunkett's force of 211 troops were led by the mad mullah himself. Only thirty-seven escaped. The others, 188 in number, including ten English officers and two white privates, were killed. They lost three Maxim guns, their camels, and all their supplies and ammunition. Colonel A. W. V. Plunkett, Captains Johnston, Stewart, Olvey, Norris, and McKinnon, Lieutenants Gaynor and Bell, all of the King's African Rifles; Captain Vazey of the Second Sikhs and Captain Sims of the India Medical staff are the officers killed. The privates killed include 128 men of the African Rifles, forty-eight of the Second Sikhs, and two white soldiers.

Official News of the Disaster.

General Manning's official report to the war office of the disaster in Somali is dated twenty miles west of Galadi, April 24, and is as follows:

"I regret to report that Cobbe's flying column, which left Galadi on April 10 to reconnoiter the Walwal road, met with a serious check on April 17. Cobbe, who was forty miles to the westward of Galadi, decided to return, owing to the difficulty of finding a road and the shortness of water. When firing was heard in the direction of a small reconnoitering party under Captain Olvey Cobbe dispatched Colonel Plunkett with 160 rifles, forty-eight Sikhs, and two Maxims to extricate Olvey. A few hours later heavy firing was heard in Plunkett's direction. Fugitives came in and reported the total loss of Plunkett's force with the exception of thirty-seven. The latest information received from the fugitives about the affair is that Plunkett pursued the enemy in the open country seven miles westward of Gumburu, where a strong force of the enemy's mounted men and infantry attacked him at close quarters. Plunkett held out until his ammunition was exhausted. He then formed a square and made a bayonet charge in the direction of Cobbe's zereba (improvised stockade made of thorn bushes). The enemy pursued the British and finally overwhelmed the square, annihilating all except the thirty-seven mentioned above.

Mullah a Bitter Enemy.

Haji Mohamed Abdullah, the "mad mullah" of Somaliland, has absolute control of the many fierce tribesmen in that country. Several of the British expeditions sent against him have been defeated, principally because of the utter worthlessness of British native troops. The depredations of the mullah in Northern Somaliland and Abyssinia led to a joint expedition against him in 1901, and another in 1902. After gaining several victories the British, under Colonel Swayne, were defeated at Erego, on Oct. 6, last, with losses of seventy killed and 180 wounded. This defeat was caused through the cowardice of the Somali levies.

Colonel Swayne then retired to his base to wait for reinforcements, being afterwards succeeded in supreme command by General Manning. The latter, with Major Rattigan and Colonel Cobbe, commanding a flying column, advanced from Berbera on Nov. 12. The garrison at Bohote was relieved and reinforced. Permission was received from the Italian government for the British troops to enter Somaliland in pursuit of the mad mullah, and Obbia was selected as a base from which to send a strong force against him. At the same time officers went to Abyssinia to secure the cooperation of King Menelik's forces. In a fight with the Abyssinian troops shortly afterwards the mullah lost 1,000 men.

A flying column under Major Sharpe had an engagement with Somalis in the latter part of March, in which the mullah's force was defeated with the loss of twenty-seven men. On April 16 General Manning reported that the British had gained an important victory over the mad mullah on April 11, near Galadi. Heavy losses were suffered by the mullah's forces. Now, however, the mullah has turned the tables and all the advan-

STOCK MARKET VERY DULL.

New York, April 24.—The dealings in stocks fell back again today to nearly the low level of the year. Only a half dozen stocks of any prominence got as much as a point away from last night's level at any time.

Some impression on sentiment was caused by the disapproval of the newly inaugurated freight rates from Chicago to New York on the part of the interstate commerce commission, much importance attaching to the advance in freight rates as an offset to the large increases in the cost of operation, which have produced the recent downward tendency in the net returns from the transportation industry. The rise in freight rates has been so general that it is feared the decision of the commerce commission is preliminary to similar action toward other railroads.

Late in the day the forecast of the bank statement had a stiffening effect on stocks. Various estimates of the week's gain in cash ranged from \$5,000,000 to \$7,000,000, of which \$2,985,000 comes from sub-treasury operations. The progressive ease of the money market confirms the promise that the position of the banks has been much strengthened. Amalgamated Copper suffered from the weakness of the copper market. The market closed intensely dull, but fairly steady at a late recovery, as follows, Paine, Webber & Co. reporting the quotations:

CHICAGO GRAIN MARKETS.

Chicago, April 24.—Lower Liverpool cables had a weakening effect on the prices of wheat at the start today. May opened unchanged to 1/4 lower, at 78 to 1/4, with July 1/4 lower to a shade higher, at 72 1/2 to 73 1/4. The outside markets were easier and there was considerable selling by commission houses and pit traders, while long sold freely, which resulted in a still further decline. Stop loss orders on the decline, in connection with the dullness of the trading, brought more wheat on the market than could be readily absorbed and extreme weakness followed, May declining to 77 1/2, July to 72 1/2. Buying by Armour interests gave support to the situation and a firmer feeling developed. Reports of a good export demand helped to create a better tone late in the day. May closed 1/4 lower, at 77 1/2, and July was down 1/4, at 72 1/2. Liverpool was 1/4@1/2 lower. On the coast forty-eight boatloads were taken.

The corn trade was of larger volume and the market active and stronger, the deferred futures more so than the May. The close showed July up 1/4@1/2, while September gained 1/4 and May 1/4. A better demand for the cash article, small receipts, showery, cool weather and higher cables were bull helps. The "long" interest in July was credited with adding to its line, and provision houses took September. The selling was widely scattered and was mainly by traders with profits in sight. At the seaboard nineteen boatloads were accepted, Liverpool was 1/4 higher.

MATTER TAKEN TO THE COURTS

DECLARED PAPERS WILL PROVE AN ILLEGAL COMBINE.

Witnesses at Inquiry Tell How Project for Independent Line Was Knocked and Testify to High Rates—President Beer Also Heard.

New York, April 24.—President George F. Baer, appearing before the interstate commerce commission, today testified that about 68 per cent of the mining properties in the anthracite region were owned or controlled by the Reading company and that about 21 per cent of the coal produced was the property of that company. He said he would welcome any proceeding in any court, if it were for the purpose of testing the validity of any law. He could not recall the details of the contracts with the coal companies, and said that if his counsel declined to produce the contracts he would abide by his decision.

Mandate of Commission Refused.

Counsel for the roads were instructed by the commission to produce a series of contracts made between the coal roads and the Temple Iron company and which were declared by counsel for the other side to prove that a stifling combine existed, and refused to do so. A long argument followed the order, but the coal roads men were firm and the issue will now go to the United States circuit court to determine whether the roads can be compelled to produce the contracts.

Telegraphic News Condensed.

Chicago, April 24.—Ten get-rich-quick concerns alleged to be controlled by H. W. Curtis were raided today by the police.

New York, April 24.—The jury in the trial of John M. Wisker, engineer of the Harlem railway train at the time of the Park avenue tunnel disaster in 1902, which caused the death of seventeen persons, today brought in a verdict of not guilty. Wisker was charged with criminal neglect.

Butte, Mont., April 24.—As a result of a strike of the messenger boys of the Western Union Telegraph, the local office today announced that business would be entirely suspended here until further notice.

Indianapolis, April 24.—Mayor Bookwalter today told a committee that presented the workmen's petition for Sunday baseball, that he could not set aside the law against Sunday games and that any one that violated it must suffer the penalty.

Newark, N. J., April 24.—In a race riot between three hundred Christian and Hebrew working girls who gathered for a labor union election in this city last night, blows were freely exchanged and a number of girls were injured before the police restored order. The trouble started over the counting of the ballots cast for the president of the union.

Pensacola, Fla., April 24.—A chemical analysis of the remaining portion of the package from which Rowland L. Morgan ate and soon after died showed streptococci mixed with the food. It is believed a postal card received by another person here a few days ago stated that before many days Morgan would be dead. The postal authorities will be asked to trace the sender.

Washington, April 24.—Secretary Root and Rev. Edward J. Vattman, chaplain of the Twenty-ninth infantry, had an important secret conference today concerning affairs in the Philippines. It related to the friar question and to the attitude of the Catholic church toward "Americanizing" the islands. Father Vattman will now confer with the church authorities at Rome. For over a year he has made a thorough investigation of church questions in the Philippines.

Washington, April 24.—Chandler P. Anderson of New York has been appointed assistant counsel for the United States in the presentation of its case to the joint commission which will consider the Alaskan boundary question. Mr. Anderson was secretary for the United States to the high joint commission and occupied a like place with the Berlin Sea arbitration. General Foster, who is preparing the case of the United States, expects to be able to submit it early in May.

A THOUGHTFUL MAN.

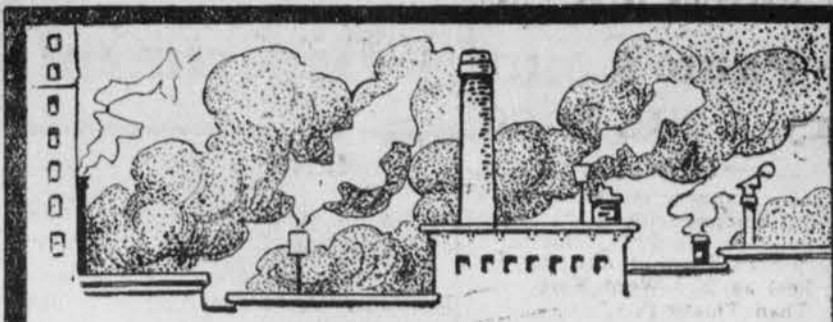

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an ailment as stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at Stafford Drug Co.'s drug store.

A SWEET BREATH.

A never failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, writes: "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like." Kodol digests what you eat and makes the stomach sweet. H. Harwood, Islip, N. Y. Stafford Drug Co., Marquette.

TO KNOW WHEN TO INSURE

It is hardly more important than to know when to insure, and greater the wisdom of how to insure. We challenge on the first and say, insure now. On the second, we offer our service, and on our record, say "here." On the third, we will give information and advice. 5th year, doing business in 35 states. Nat'l Life Ins. Co. of N. Y. (Mutual) ORGANIZED 1850. M. W. MARSHALL, General Manager, Marquette, Mich.

REPORT OF PRIVATE CHANG:

"In the down-town business district where everyone is rushing and bustling every moment of the day, all are working on their nerves, and are either irritable or melancholy. They are troubled with palpitation, dizziness, crave acid drinks, and suffer severe pain whether the stomach is full or empty. Sometimes they have no appetite and other times the appetite is excessive. All this is particularly true of woman workers, thousands of whom are pale and constipated, and have frequent attacks of nausea and vomiting at night; also much female weakness is due to dyspepsia.

"I inform the people that all this suffering will quickly pass away and they will regain their health if they will use Rexall Dyspepsia Tablets, which may be obtained at the store of The Stafford Drug Co."

Rexall Dyspepsia Tablets are Warranted to Cure all Forms of Indigestion and Dyspepsia. Money will be refunded, exactly as printed on package, in case of dissatisfaction. Price, 25 cents, at our store or by mail.

A HAPPY ASSERTION AFTER USING

Paine's Celery Compound

The Popular Manager of the Lehigh Oil Company Says:

"I am Fifty-Five Years of Age, but Do Not Feel as if I Were More Than Thirty-Five."

The many marvelous cures wrought for the sick, suffering and diseased by Paine's Celery Compound, should compel the attention of every prudent and judicious person who feels that he or she is out-of-health in the spring-time. The rundown, weak, sleepless, dyspeptic, rheumatic and those afflicted with that Paine's Celery Compound frees the system from the seeds of disease and blood troubles, should realize at once

dearly impurities, strengthens the tired nerves, arouses a healthy appetite, regulates the sluggish bowels and gives normal action to the liver. A few bottles of Paine's Celery Compound used at once, means the building of a vigorous health for the coming summer. Mr. John S. Coin, manager of the Lehigh Oil Company, Philadelphia, Pa., says: "It affords me great pleasure to add my testimony to the wonderful virtues of Paine's Celery Compound. My system being completely run down, I was advised to use your remedy, and after use of eight bottles I am better, have a ravenous appetite and sleep well every night. When I first began using Paine's Celery Compound, I was also suffering from nervous prostration, but that has disappeared, and my nerves are now steady. I am fifty-five years of age, but do not feel as if I were more than thirty-five."

CITY BREVITIES.

Today's weather: Possibly snow; northeast winds shifting to northwest. Yesterday's temperature: 7 a. m., 34 degrees; 12 noon, 33 degrees; 7 p. m., 35 degrees; maximum, 41 degrees; minimum, 33 degrees.

Dr. A. W. Hornbogen left last evening for a short stay in Chicago and Detroit. F. A. Bell was down from Negaunee yesterday, on business at the county building.

Yesterday's storm blew up a very fair sized sea on the lake. The rollers came in high and formidable. The fishing tugs were out, however.

The A. T. Van Alstyn company's store will be closed between the hours of two and three this afternoon, while the ceremonies at the court house are in progress.

A. F. March, representing the Hall Safe company, is in the city meeting old friends. He was formerly a resident of Marquette, but at present is making his headquarters in Duluth.

A mass meeting in the interest of the proposed organization of a lacrosse team has been arranged to be held next Tuesday evening. It will take place at the opera house, beginning at 8:15 o'clock.

Street Commissioner French has been making good progress with the street cleaning during the past few days. Much of the winter's litter has been removed, and soon the entire city will be neat and orderly.

There was a suspension of building operations at the new court house yesterday, on account of the bad weather which prevailed up to an early hour in the afternoon. Other outdoor work about the city was also abandoned for the time being.

Rev. J. M. Rogers left on the early train this morning for Sault Ste. Marie, where he will, in company with Rev. J. M. Burkley, D. D., of Detroit, dedicate the new Presbyterian church. It has been erected at a cost of about \$30,000, and is a credit to the church and the city.

A large force of men has been employed at the gas works for the past few weeks, making extensive improvements in the main building, the north end of which has been largely rebuilt. Cement floors have been laid, windows cut in, etc., the intention being to make the plant thoroughly modern and up-to-date in all respects.

The board of supervisors will assemble this morning for a regular meeting. A list of business will be transacted and the organization for the ensuing year will be effected. It is expected that all business will be concluded by noon, so that the supervisors will be able to attend the exercises at the laying of the corner stone of the new court house.

The Athletic association of the high school entertained a large assemblage at Fraternity Hall last evening at a dance for which the music was furnished by the Ideal orchestra. The decorations were novel, being composed largely

of athletic paraphernalia of one kind or another. Refreshments were served at the hall. Dancing continued until about 2 o'clock.

It now seems certain that a chapter of the Daughters of the American Revolution will be organized as soon as the papers can be returned from Washington. It is requested that those whose papers have not been forwarded, try and have them in by the 20th of May. The agent, Mrs. K. Brooks, has recently had some additional information sent her, which will be of service to those who are at work on their records, and she will be glad to give help to any who need assistance.

For the entertainment of the visiting grand officers and those Masons from Negaunee and Ishpeming who may wish to stay over this evening, there will be a session of the Masonic lodge about 7:30, followed by a banquet and speeches, also music by the male quartet. If a sufficient number from Negaunee and Ishpeming are in attendance a special train will be run to take them home after the festivities. The work will be in the Third degree. The Masons who are to act as grand officers at the cornerstone laying this afternoon are requested to meet at the Hotel Marquette at 1 o'clock p. m.

### MRS. IDA McDONALD,

Supreme Deputy of the Maccabees of the World.

Mrs. McDonald, No. 477 Beaubien Street, Detroit, Mich., is a prominent woman who was greatly benefited by the great woman's medicine, Wine of Cardui. Mrs. McDonald is the supreme deputy of the Maccabees of the World, and one of the most widely known women in the United States. Thousands of women gather to hear her lecture everywhere she goes. The great work she has done for the Maccabees is appreciated by every member of the order. She was so absorbed in her work that she neglected to give her health proper care—failed to take warning that the symptoms of approaching kidney trouble gave her, the sallow complexion and torpid liver. But Wine of Cardui cured her the same as it has cured thousands of others and Mrs. McDonald has written this letter in order that other suffering women may secure from Wine of Cardui the same relief she got from it.

"For four years I suffered with torpid liver until my skin looked yellow and dull. I then found my kidneys were affected and had severe pains across my back, and I felt that I must do something to regain my health. A friend advocated your Wine of Cardui treatment so strongly that I decided to try it, although I had little faith in patent medicines. I am now very thankful that I did so, for within ten days blessed relief came to me, and in less than three months I was cured, and have enjoyed the health ever since. I know there is nothing better for a sick woman who wishes to enjoy perfect health and am very pleased to give my hearty endorsement."

No suffering woman can afford to ignore such a letter as Mrs. McDonald writes. Her plans and advice have everything valuable in building up one of the greatest women's organizations in the United States and she takes time to give advice which she knows will help you.

Do not delay in securing this medicine. There is nothing to gain and everything to lose by delay. The choice is before you. Will or will you not secure relief now by taking Wine of Cardui? All druggists sell \$1.00 bottles of Wine of Cardui as well as 25c packages of Theodor's Black-Draught.

A million suffering women have found relief in Wine of Cardui.

A NEW EDITOR.

Glenn R. Miner Will Take Charge of the Peninsular Record.

Next week Glenn R. Miner, recently of Canisteo, N. Y., will become the editor and manager of the Peninsular Record. Mr. Miner was for three years assistant city editor of the Detroit Tribune and has had a good deal of experience in newspaper work. It was rumored this week that J. D. West would open a job printing office on his own account. This, however, he denied, saying that he had signed a contract at the time that the Record was brought under the control of a stock company not to engage in the printing or publishing business in Ishpeming for five years.

IN THE SIXTH WARD.

Some time ago The Mining Journal published a list of the office holders who reside in the Fifth ward. Now a number of individuals from the Sixth ward have come forward and have not only laid claim to a greater number of public servants than hail from the Fifth, but further declare that the Sixth can provide more and better timber for city positions than any other two wards. The Fifth has the advantage, however, for it can number two state officers and the county treasurer among its residents, while the neighboring precinct can only show city officials. To make good the claim one of the loyal residents of the Sixth made out a list which he handed to the Mining Journal. According to the data which he gives the Sixth has nine officials, including the city recorder, city treasurer, two trustees of the cemetery, E. A. Johnson and H. Routhier; three night watchmen; Charles Burt, school trustee, and the secretary of the fire department. The aldermen are also included in the list, as well as the supervisor, but of course they would not count as every ward stands the same in respect to these three officials.

FARM BUILDINGS BURNED.

All the buildings on the farm of Frank Brown, situated between Michigamme and Champion, burned to the ground a few days ago. Fires had been started along the sides of the road to clear away the brush. The flames caught in some dry grass and got beyond control, reaching the barns a short distance from the road. They were totally destroyed, together with a large amount of hay and farm implements that could not be removed. The loss is estimated at about \$200. The Michigamme fire department turned out, but the barns were partially consumed when they reached the farm. Mr. Brown lives in Michigamme.

THE CHILDREN'S FRIEND.

There is no use trying to persuade American mothers that a substitute exists for Perry Davis' Painkiller. They know how it relieves the troubles of childhood, from sprained arms and legs to stomachic ailments, and preparations may do good. ROBBED AT CHAMPION.

Dr. L. A. Gibson, a Calumet oculist, who is well known throughout the county, was robbed of a considerable amount of money at the Beacon House at Champion Thursday night. The money was taken from the doctor's clothing while he was asleep in his room. The thief took the clothing to the alley and there went through the pockets, taking everything of value that he could find. In cash, \$64 was taken. Other guests at the hostelry also were robbed, it is reported. The thief left no clue that would show how he effected his entrance to the hotel or the room, and the identity of the guilty party remains a mystery.

ROBBED THE GRAVE.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Stafford Drug Co., drug store.

Above drawing shows highly magnified section of skin from a healthy scalp, cut through in such a way as to show the hair follicle with its hair in place; also the oil and sweat glands.

The Scalp? How many know about it? How many give it a thought, so long as an abundant growth of hair is in evidence? Yet upon this very day thousands of young and middle-aged men are rushing thoughtlessly toward baldness. Thousands of loving mothers are this day planting the seeds of future baldness in their children, by neglecting the precautions that are necessary to prevent it. But these people should not be blamed, for no one ever instructed them to the contrary. It has been but a few years since the discovery was made that a germ of microbe is the cause of most hair and scalp diseases. Less than four years ago Dr. Sabouraud, of Paris, succeeded in transplanting human dandruff germs to a rabbit, causing its rapid denudation, and thereby proving conclusively the parasitic and contagious nature of dandruff.

The world at large is slow to accept great truths. Some centuries ago the people wanted to send Columbus to a mad house for stating that the world was round. Even our educators show this popular disbelief; the author of one of our best school physiologies says, in his preface, "The heart and stomach receive full treatment, while matters of such slight importance as the hair and nails are briefly dismissed." Is it any wonder that many of these teachers' students "briefly dismiss" their hair? On the other hand, read what Dr. George Thomas Jackson, an author and authority of world-wide reputation, says of the hair and scalp: "Prophylaxis should begin at the beginning of life and should be continuous." Prophylaxis means literally a fight against disease; to preserve free from disease. In this case it refers to cleanliness, and the use of a germ-destroying fluid, that prevents the dandruff microbe from establishing itself in the scalp. As dandruff is highly contagious, it is plain that the indiscriminate use of unclean hair brushes should be avoided. Upon this point Dr. Isador Dyer, a noted dermatologist, says, "This crusade (against unclean hair brushes) should begin with the barber shop and end in the legislature. It should act at home and abroad until every school child should know that it is as dirty to use the hair brush of anyone else, as it is to use a community tooth brush." It is the duty of everyone to know something about the scalp, and anyone sending a postal request to the Herpicide Company, Detroit, Mich., will receive free of charge a short description of the above drawing, that will prove highly instructive. No. 3 in particular should be studied by

everyone. It is the sebaceous or oil gland situated near the top of the hair follicle into which it empties. Its important duty is to secrete sebum, a semi-fluid oily matter, that softens and oils the hair and skin; it is first to be attacked by the scalp microbe and it gives the first warning of danger to the hair. In chronic baldness (which is incurable) this gland is completely dried up. The drawing at No. 5 shows how easy it is for the scalp microbe to find lodgment in this gland, where it establishes one colony after another, deranging the gland and causing dry, brittle or lusterless hair. After the sebaceous gland is completely diseased—it requires months and sometimes years—the microbe works its way down the follicle to the hair root, where its destructive action is so rapid that baldness is quickly produced unless the microbe growth is stopped with Newbro's Herpicide, and the impoverished tissues coaxed back to health.

Newbro's Herpicide is the original dandruff germ destroyer; it is not an experiment, for thousands of physicians use it in their daily practice.

Persons who wish may get a sample by mail by sending five two-cent stamps to the Herpicide Company, Detroit, Mich. The regular size is sold by leading druggists.

Read what J. W. O'Harrow, a prominent citizen of Racine, Wis., says about it: "I had a bad scalp disease, and my hair was coming out by the handfuls. After using two bottles of Newbro's Herpicide I was completely cured; my hair commenced growing again, and has about covered a bald spot with new hair. I keep a bottle in my room and only use it once or twice a week, which keeps my head clean. Would also state that I have tried several other 'cures,' but without any benefit, and was about to give up and go bald. But now I am shaking hands with myself that I saw your advertisement and had sense enough to try your remedy." (Signed) J. W. O'HARROW.

Remember that Newbro's Herpicide is not a "Hair Grower." Nature grows the hair; but Newbro's Herpicide destroys the enemies of hair growth, and by keeping the scalp clean and wholesome, itching of the scalp stops, dandruff ceases, and the hair grows as nature intended. As a toilet dressing it is incomparable, for it is a pure antiseptic, containing no oil, dye, sediment or sticky substance.

The manager of the Soo base ball team has written to the local managers asking for a game with the Negaunee team at the Soo May 9 and 10. The offer will probably be accepted.

Fred Lavigne and bride left Thursday night for Escanaba on their wedding tour. They are expected back Monday. The couple will reside with Mrs. Lavigne's parents for the present.

A coroner's jury met Thursday forenoon in the case of Philip Lomphrey, who was killed on the Northwestern track by a train last Saturday. No new facts were developed, and the findings of the jury was a mere recital of the details of the accident.

Escorted by the Negaunee Orchestra band, the local lodge of the I. O. O. F. will attend divine services tomorrow morning at Mitchell Methodist church. The members will meet at the hall at 9:30 and will march to the church attired in full regalia.

The funeral of Charles Suomera, the miner who was killed at the Blue shaft Wednesday, will be held tomorrow afternoon from the Finnish Lutheran church. The deceased was a member of the Finnish National club and the Finnish Temperance society by which the funeral will be conducted.

An insurance adjuster is expected here within a few days to fix the loss caused by the recent fires. The contents of the Thoren building were insured for \$300, the tailor stock for \$300 and the household effects for \$200, in the Western Insurance company. Just as soon as the adjuster completes his work, repairs on the building will be started. Mr. Thoren expects to be back in his old stand in about three weeks.

Some person tried to gain entrance to the office of the Consolidated Fuel & Lumber company Thursday night. Judging from appearances the attempt was not made by would-be burglars, but by some individual who had imbibed too freely and wanted to make his sleeping quarters in the office, mistaking the place for his own abode. One of the storm sashes was smashed and a good deal of blood was splattered on the window. The door was badly battered, and bore distinct marks of heavy kicks from a hob nailed shoe.

Several complaints have been made lately that a proper quarantine has not been enforced in a number of cases of diphtheria. It is said that in several instances no care whatever has been taken to provide against the spread of the disease, but that children from homes where there were fatal cases have been allowed to attend school and mingle with others of the same age without

the least restraint. Children are particularly susceptible to the contagion of diphtheria and many believe that greater care should be exercised to prevent the malady from spreading.

### A NEW TRESTLE.

Consolidated Fuel & Lumber Co. Will Build One Costing \$3,000.

Preliminary work has been started by the Consolidated Fuel & Lumber company on the erection of a large trestle for the company's fuel business. The structure will be located below the greenhouse on the spot now used as a dumping ground. The ground is being graded to find how deep the piles will have to be sunk to reach a solid foundation. Work will be started as soon as the foundation has been established. The trestle will be 175 feet long by about fifty feet high, and sufficiently wide on top to accommodate two car tracks. It will be accessible from both railroads. Pockets for coal will be built in the lower portion and will be so arranged that coal can be dumped into them directly from the cars. The coal will be screened at the top before it goes into the pockets.

Wood will be unloaded and sawed on the trestle, and a splitting machine will work it into the proper stove sizes. When the process is completed the wood will be passed on to places provided for it in the yard below. The new plant will cost about \$3,000. It will be provided with the latest and best equipment throughout. The company has been handicapped ever since it began business here by inadequate facilities for handling its wood and coal business, which has grown rapidly.

### A GOOD CANAL TITLE.

The announcement that the title which the Panama Canal company can transfer to the United States is satisfactory, advances the canal-building project materially. It was feared that a satisfactory title could not be obtained. In medicine, Hostetter's Stomach Bitters has a clear title to first place among family remedies, having an unbroken record of cures, extending over half a century, back of it. No home is therefore complete without a bottle of it in the medicine chest. It will restore the appetite, positively cure dizziness, flatulency, nausea, headache, indigestion, dyspepsia, and constipation; also prevents grippe, chills, and malaria, fever and ague. A fair trial will convince you of its value. The genuine has our Private Stamp over the neck of the bottle.

### Additional Ishpeming

#### ISHPEMING IN BRIEF.

G. R. Jackson of Prichett was in the city Thursday.

The Ishpeming club will hold a smoker tonight at the club rooms.

Mrs. G. M. Walker of the Good Will Farm of Houghton was in the city yesterday.

D. B. Waldo, principal of the Marquette Normal school, was in town yesterday.

Mrs. A. J. Yungbluth came home Thursday from a visit to Chicago and other points.

Miss Jennie Harrigan, who has been visiting J. H. Brown, returned yesterday to her home at Marinette.

The Tonawanda club will entertain the Recreation and Quid Nunc clubs tonight at Anderson's hall.

The party given last night by Superintendent Scribner in honor of the football team was largely attended.

A large delegation of Ishpeming people will attend the ceremony of laying the corner stone at Marquette today.

Arvo Harkel, a miner at Section 16, fell on a piece of timber in the mine Thursday night and broke one of his ribs. He was taken to the hospital.

The remains of Arthur Whiteley, who died recently at Port Arthur, arrived here last night. The funeral will be held today at 10 a. m. from Grace church. Short services will also be held at the residence of William Sedgwick.

The council has made arrangements for securing the apartments in the Anderson block formerly occupied by C. B. Conway's tailor shop for the quarters of the municipal court. There are two rooms in the suite and they are well adapted for court purposes.

A large force of men was busy yesterday scraping off the surface layer of dirt from a portion of Division street. The street will be greatly improved during the coming season by the addition of a top layer of gravel, which will be thoroughly rolled to make a hard, even surface.

### A GREAT SENSATION.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 60c. and \$1.00. Guaranteed by Stafford Drug Co., druggist. Trial bottles free.

### MANY CLAIMS FILED

MARQUETTE PEOPLE ARE IN "STRONG" ON CHESHIRE RANGE.

FILINGS COVER ABOUT 5,000 ACRES

MOST OF THEM ARE HOMESTEADING THE LAND IN QUESTION.

Cleveland-Cliffs Expansion Started the Excitement—Region Is Found in Townships of Forsyth and Wells.

The rush from Marquette to the new Cheshire range, for which many people are predicting a bright future, has been on for the past two months, with the result that there is now very little government land to be found on this range that has not been pre-empted. During these two months close to forty people from this city have made filings at the Marquette land office, and altogether they have taken up in the neighborhood of 5,000 acres. Thus it is a cinch that if the Cheshire makes good much money will come home to roost here. Marquette people get the lion's share of good things on the Cheshire, that is on the assumption that there are any good things there. They have taken up by far the greater part of the available government lands. They were in on the ground floor, and comparatively few people in the western end of the county succeeded in making down claims. They awoke to the possibilities of the situation at the eleventh hour.

Interest in the Cheshire was the outgrowth of the advent of the Cleveland Cliffs Iron company in this field. This well-known corporation is now developing a mine, called the Austin, in honor of Austin Farrel of Gladstone, on section 20, 45-25, where it controls a large tract of land in the mineral district. In addition to sinking a shaft, exploratory work is being carried on. The Cleveland-Cliffs operations are proceeding under the supervision of A. R. Jackson, formerly in the company's engineering office at Ishpeming. On the Cheshire also is the Tod, Staunbaugh & Co. mine, the Princeton, at the station of that name. This is a very valuable property, and if the new Austin proves up to compare with it the value of the range will be considerably increased. The mineral lands will be in great demand.

Where They Are Located. Far the majority of the Marquette filers are homesteading their claims. But about a dozen of their number are in under the provisions of the timber and stone act. Of this dozen the claims of three are contested by Timothy Nester, who has scripted the lands they filed on, and who will come into their possession in case his contests are upheld. The homesteading people, it is claimed, will be secure in their titles if they comply with the provisions of the homestead law. At the expiration of six months they will have to establish a residence on their claims, maintaining it for one year, with the privilege of buying the land in at \$1.50 an acre at the expiration of fourteen months.

All the Marquette filers are said to be within the mineral zone, as defined by the geological survey. Their claims run from forty to 160 acres, totalling, as has been remarked, in the neighborhood of 5,000 acres. Some of the claims are much more valuable than others, owing to their greater proximity to the Cleveland-Cliffs holdings, but all the filers hope that nature has not overlooked their prospective lands in the distribution of its riches.

That the Marquette filers are well distributed and that some of them should blunder into good things if they are to be found on the Cheshire will appear from the following statement of the sections they are on in the different townships where their claims are located: 45-25: Sections 6, 8, 4, 2, 10, 12, 14 and 22. 45-24: Sections 6, 8, 18, 28. 46-26: Sections 14, 24, 36, 28. 45-26: Sections 4, 12, 36. 44-25: Half of Section 12.

These lands are located in the townships of Forsyth and the new township of Wells, where there has been more activity in the matter of filing on government lands, the straightening out of titles and more real, genuine mining excitement than has been seen in any section of Marquette county since the

palmy days when almost any part of its several mineral zones was considered to hold forth alluring prospects of great mineral wealth.

It is said that there will be many contests over Forsyth and Wells township lands as a result of the possible development of the Cheshire range. They will effect owners of abandoned homesteads, who have skinned out the timber and then deserted their lands, and some filers on timber and stone claims.

READY FOR CEREMONY. Everything Looks Auspicious for Laying of Court House Corner Stone.

It is the request of Mayor Greene that the stones be closed and that business generally be suspended during the time of the exercises at the court house this afternoon.

This afternoon at 2 o'clock will occur the exercises attending the laying of the court house corner stone, and everything looks auspicious for the complete success of the program. The weather yesterday gave the committee and the supervisors a bad scare, but in the afternoon it cleared up and the probability now is that it will be fair, in which event there should be a large assemblage on the court house grounds to participate in the ceremony. It will begin promptly at 2 o'clock, previous to which hour the Masons, escorted by the Ishpeming City band, which has been engaged to furnish the music, will march to the court house from their lodge hall in the opera house block. The local lodge will be swelled by Masons from the neighboring cities.

Yesterday afternoon the grand lodge officers from the lower part of the state, Grand Master Roscoe W. Broughton of Paw Paw, Junior Grand Warden C. A. Sweet of Dowagiac and Grand Marshal James F. MacGregor of Detroit arrived here. Senior Grand Warden John Rowson of Grand Rapids was expected, but he failed to come through. The grand officers will remain over until Monday, and they will be tendered a reception by the members of the order at the lodge hall this evening.

Local Marine Notes. The steamer Republic arrived yesterday with a cargo of coal. There were no clearances from any of the ore docks yesterday. The Castalia, which has finished discharging its cargo of coal, consigned to Pickands & Co., will be loaded at the upper harbor today. The Palmer is due this morning and will also be loaded at the L. S. & I. dock.

BRAIN-FOOD NONSENSE. Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower—the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Stafford Drug Co. Price 25c and 75c.

NOTICE TO WHOM CONCERNED. After May 1, nine hours will constitute a day's work, with full pay, for the paper hangers and painters of Marquette. (Signed.) Committee. (4-24-81)

### COTTAGE POULTRY FARM.

Dan Sullivan Does a Good Business in Thoroughbred Chickens.

Dan Sullivan is several things, among them the proprietor of the Cottage Poultry farm, out on West Washington street, beyond the plant of the Upper Peninsula Brewing company. Dan is no tyro in the poultry business, having been engaged in it now for the past twelve years. He is well posted on the fine points of thoroughbred chickens and knows how to handle and raise them in an approved manner. The Cottage Poultry farm comprises seven acres, and is thoroughly equipped with modern poultry buildings. The two main structures are fifteen by seventy feet, two stories in height, and they contain twelve pens. The outdoor runs are fifteen by one hundred feet and the chickens also have a further wide outside range whenever it is desired. They are other buildings on the farm for feed storage and other purposes. With his present outfit Mr. Sullivan can comfortably house 600 birds, and at least 500 is his normal stock.

Dan pays particular attention to White Wyandottes, Plymouth Rocks, Buff Cochins, Partridge Cochins, Pekin ducks and English ring necked pheasants. All his stock is blooded. His business consists largely of the sale of chickens and pheasants to bird fanciers and of the disposal of eggs from his farm, for hatching purposes. He does a large business all over the upper peninsula and in Wisconsin and Illinois. On his list are customers who come to him for eggs and stock year after year, finding that his poultry farm products give the best of satisfaction. Dan reports this season's business as being the best he has ever enjoyed, and he intends to carry on the poultry farm on a larger scale than ever before.

At the same locality Mr. Sullivan runs a truck farm for the raising of general produce. He grows most of the green stuff that he uses at the Clifton.

### Source of Peril

When the blood is impure no one can tell what to expect. No permanent evil may result, but there is no use taking chances. The blood circulates through every organ and tissue of the body and when impure is a constant source of peril.

DESJARDINS' SARSAPARILLA purifies the blood. It is not intended to do anything else, though while doing its chief work it necessarily increases the activity of the stomach, liver and kidneys. It gives health a fresh impetus.

PRICE, \$1.00

DESJARDINS' PHARMACY, 417 N. Third St.

A PLEASANT SURPRISE awaits the man who drinks his first glass of our beer. It is so palatable and delicious, so invigorating and healthful, to drink it once is to want it always. Good pure beer like the Dret Kaiser is a tonic and an appetizer and makes the German people, who make it their national drink, one of the healthiest in the world.
