## WARLIKE MEASURES

EASTERN NEWS TELLS OF SIGNIFICANT PREPARATIONS.

## JAPAN AND RUSSIA ACTIVE

BRITISH ASIATIC FLEET IS BEING STRENGTHENED.

Czar's War Minister Starts on a Special Train for Manchuria, and Formal Seizure of the Territory Is Reported Decided On.

St. Petersburg, April 28.—The war minister, General Kuropatkin, started on a special train today for a thorough inspection of Manchuria. The marine minister has decided to order the immediate construction of thirty gunboats for the protection of the Russian frontier along the Amoor river.

Britain Adding to Fleet. Honolulu, April 28.—(By Pacific cable.)—The British warship Amphion and two torpedo boats have arrived here on their way to Asiatic waters. The powerful fleet of Great Britain in the Orient is being greatly strengthened. The general opinion is that this is largely due to Russia's policy in the East.

Significant Preparations. Victoria, B. C., April 28.—Advises today from the Orient are that Japan was not surprised at Russia's Manchurian demands. Japan has been preparing for a crisis and Russia has been making warlike preparations. Both countries have been buying and importing large quantities of provisions, and Russia has purchased thousands of tons of coal. The Russian troops in Manchuria seem to be making ready for hostilities, and the actions of the czar's warships are considered suspicious. It is also reported that a large number of soldiers are being moved into Manchuria garbed as civilians and that the telegraph lines there and the cable are interfered with by the Russians.

The British minister at Peking has demanded an explanation of Russia's order that the British merchants vacate Kirin. Czar Will Gobble the Provinces. Tokio, April 28.—A local paper today published a dispatch from Peking in which its correspondent quoted the Russian minister as saying that the effect of the remonstrances of Japan and the other powers would be that the statesmen would decide to incorporate the three provinces of Manchuria into the Russian empire.

London, Wednesday, April 29.—The Tokio correspondent of the Mail says that the Russian charge at Peking told a Japanese journalist that the Japanese, English and Americans came to Manchuria with political objects, and that Russia's attempt to exclude them was an act of self defense. American war vessels are assembling at Yokohama, continues the correspondent, supposedly in connection with the Manchurian situation. The Japanese and British ministers at Peking have formally warned China against acceptance of the Russian demands.

American Strength in Pacific. The battleship Kentucky, flagship of the squadron, the Oregon, the New Orleans, and the Helena arrived several days ago at Yokohama from Manila, and they are still in the Japanese port. The Vicksburg is at Shanghai, nearer New Chungking than Yokohama, and other ships of the squadron, including the monitors Monterey and Monadnock, the cruiser Raleigh, and the gunboats Annapolis, Albany, Callao, Celtic, Don Juan de Austria, El Cano, Frolic, General Alava, Isle de Cuba, Princeton, Quifros, Sennar, Wilmington, and Yorktown, are scattered among various ports in the Philippines and China.

Russia's Strong Naval Force. Russia has a naval force in China stronger than any other one power, stronger than Germany and Great Britain combined, and stronger than Great Britain with any other one power, with the exception of Japan.

Ever since the Chinese crisis of 1900, which required intervention, all the powers have recognized that their policy in China depended much upon the manner in which they backed it up, and the fleets of all nations have been steadily strengthened, with Russia paying more attention than any other power to the increase of its naval force in the orient. Japan's entire naval strength is centered around the island kingdom.

Naval Strength Compared. Here is a comparative showing of the Asiatic fleets of Russia, Great Britain, France and Germany:

Russia—Six battleships, each of more than 10,000 tons displacement; three armored cruisers, of the same size; eight protected cruisers; two third-class cruisers; eight armored gunboats; two transports; seven torpedo boat destroyers. British—This fleet is second only to Russia. It is made up of four battleships; eleven cruisers, seven sloop; eight gunboats; seven torpedo boat destroyers.

France—Two battleships; two armored cruisers; three cruisers; twelve gunboats, and seven torpedo boats. In the naval division of the Indian ocean, France has three warships; at Cochin, China, four gunboats, and at Tonkin three gunboats. Germany—One armored cruiser of

(Continued on Page Four.)

## RALLY TO AID OF THE FRIARS.

Populace at Marseilles Again Engaged With the French Police.

Marseilles, April 28.—A riotous outbreak again occurred today in the streets surrounding the Capuchin convent, where the friars have barricaded themselves. The fight became general, stones and clubs being used. A number of policemen were injured and many arrests were made. Later in the day traffic was suspended in all the surrounding streets. A larger force of gendarmes arrived and tight surveillance of the neighborhood was established.

Paris, April 28.—Colonel Courbetin, commanding a regiment of dragoons, has telegraphed Minister of War Andre, asking to be placed on the retired list rather than to obey an order to send two squadrons of his command against the monastery of the Grande Chartreuse.

CASTRO ISSUES DRASTIC DECREE. Foreign Residents Hit by New Order Promulgated in Venezuela.

Caracas, April 28.—A decree just issued by the government defining the duties and rights of foreigners in Venezuela is most drastic in its character and excites great exasperation among all foreign residents. It is believed it will effectually end all immigration or the introduction of any foreign capital.

Agreement Reached With Allies. Washington, April 28.—Venezuela and the allies have agreed upon the terms of the protocol submitting to The Hague tribunal the question of preferential treatment, and this convention will be signed next Monday upon the return of the Italian ambassador from St. Louis.

MACHINISTS THREATEN STRIKE. Pittsburg Companies Employing 6,000 Men Refuse to Unionize Plants.

Pittsburg, April 28.—A conference today between the Manufacturers' association of Pittsburg and a committee of the international Association of Machinists representing nearly 4,000 men, held to settle the wage scale, ended in a disagreement. The manufacturers refused to unionize their plants. The scale expires on July first, and at this time there is no likelihood of an amicable settlement.

Chicago, April 28.—The number of strikes at the Dwingen Harvester works was increased to 3,500 today. The other 2,000 employes are ready to walk out when ordered by the unions.

DULUTH MAN ARRESTED. Benjamin Campbell, Lodge Clerk, Accused of Embezzlement.

Duluth, Minn., April 28.—Benjamin Campbell, chief clerk of the imperial council of Modern Samaritans, was arrested this afternoon, charged with the embezzlement of \$2,795 belonging to the order.

Administrator Jailed at Milwaukee. Milwaukee, April 28.—Arthur M. Kuehn, administrator of the estate of Charles W. Stolle, was arrested tonight at the instance of the company which had given bond for him as administrator. It is alleged that he has not accounted for \$13,000 belonging to the estate.

WILL DRAFT FINANCIAL BILL. Senators Spooner, Aldrich, Platt and Allison to Meet in Conference.

Milwaukee, April 28.—Senator Spooner arrived at Milwaukee from the East today, enroute to Madison, where he will rest for a few days prior to an important conference with Senators Aldrich, Platt and Allison bearing on the financial situation. Senator Spooner said: "The general purpose of our conference will be to frame a bill which shall mitigate as far as can be safely done the rigor of the subtreasury system, and inject as far as can be safely done, also, a greater measure of elasticity into the treasury system without greatly changing the present system."

INTERVIEW A CANARD. Gen. Baldwin Did Not Make Statements Attributed to Him.

Washington, April 28.—Colonel Miles, who was said to have been given by General Baldwin, in which the latter spoke in an improper manner of Filipino and negro soldiers, has reported to Secretary Root that the interview never took place and that the man who so reported it had been discharged from the paper.

ARE HELD SUBJECT TO TAX. Law Assessing Special Franchises Now Sustained in New York.

Albany, N. Y., April 28.—The court of appeals in a decision today unanimously sustains the special franchise tax law, reversing the decision of the appellate division of the supreme court handed down at the January term. The decision sustains the provision for the assessment of special franchises by the state board of tax commissioners.

RODE AUTOMOBILE TOO FAST. Baron Rothschild to Pay Small Fine and Spend Day in Prison.

Paris, April 28.—The appellate court today confirmed the sentence passed on Baron Henri de Rothschild of ten francs fine and one day in prison for driving an automobile at excessive speed on the boulevards.

TRAIN DERAILED IN OHIO. Toledo, O., April 28.—A Cincinnati, Hamilton & Dayton passenger train, southbound, was derailed at Bates siding, four miles south of this city, tonight. Thirteen people were injured, none fatally. The accident was due to the turning of a derailing switch.

## BIG PLANT IN RUINS

INTERNATIONAL SALT WORKS AT SOUTH CHICAGO BURN.

BUILDINGS COVERED SIXTEEN ACRES

AGGREGATE LOSS IS A MILLION AND A QUARTER.

Three Grain Boats, Large Docks and 125 Freight Cars Are Also Destroyed and Elevators and Manufacturing Plants Threatened.

Chicago, April 28.—The plant of the International Salt company, at South Chicago, with three boats in the Calumet river, burned tonight. The loss is estimated at \$1,250,000, that of the salt company being \$800,000. The buildings covered nearly sixteen acres, and in them were stored 400,000 tons of salt. Included in the losses are docks extending 1,500 feet along the Calumet river.

The fire threatened to spread to the grain elevators along the river, as well as to large manufacturing plants, but after a hard fight, the flames were gotten under control. About 125 freight cars also were consumed.

Fell Easy Prey to the Flames. The fire was discovered by a watchman, who turned in an alarm, but before the first engines arrived the first of the big sheds was a roaring furnace. Several additional engines were called and streams from every side were poured on the sheds. The buildings, however, were constructed of such inflammable material that they fell easy prey to the flames.

The wind blew the flames against three grain boats and soon the vessels were on fire from the decks to the top of the masts. The fire boat that was pouring water on the salt sheds was summoned to save the boats, but before it could reach them they sank.

Directly north of the salt company's plant are the buildings of the United States Gypsum company, covering ten acres and valued at \$1,000,000. These buildings were in danger, but were saved after a hard struggle.

BOODLE INQUIRY CONTINUES. Illinois Legislative Committee Hears More Witnesses at Springfield.

Springfield, Ill., April 28.—The legislative committee resumed the boodle inquiry tonight. The session, like the former ones, was held behind closed doors and the witnesses were requested by the committee not to divulge their testimony. Among the witnesses summoned were Colonel E. R. Bliss, general counsel for the Chicago city railway; Edwin Burritt Smith, special counsel for the city of Chicago, and Representatives Mitchell and Noble.

In regard to the theory that Colonel Bliss went to the Metropolitan bank on a certain day and got a package from the teller, he said before entering the committee room that he did go to the bank but it was to get a statement of his account, as he usually does on the last day of the month. L. G. Minzesheimer, who is associated with Colonel Bliss, was one of the men referred to in the testimony of Editor Hinman as being one who might be able to give testimony that would be of interest. Minzesheimer said he knew nothing of the matter referred to.

About midnight Attorney Smith was asked a set of questions based on statements before the committee of Hinman. He denied absolutely that he knew of any improper influences to advance the Mueller bill.

State Treasurer Busse before the committee denied emphatically he knew anything of an illegal influence being used in the interest of the Mueller bill. Springfield, Ill., Wednesday, April 29.—Mr. Lindley, chairman of the committee which reported the Lindley bill as a substitute for the Mueller bill, told the committee that no one ever approached him in behalf of the Mueller bill.

The committee adjourned about 1 o'clock this morning without concluding the investigation.

FIGHT WENT TWENTY ROUNDS. Jimmy Britt Wins Lightweight Championship at San Francisco.

San Francisco, April 28.—By a decision in the twentieth round tonight, Jimmy Britt won the white lightweight championship from Willie Fitzgerald of Brooklyn. Britt was cleverer and faster and landed two blows to Fitzgerald's one.

With the exception of the last round, when Fitzgerald put the San Francisco boy down with a left swing on the jaw, Britt's superiority was manifest during the entire fight. Britt occasionally landed on Fitzgerald's jaw, generally at the close of the round, but neither man was apparently able to seriously punish the other. Fitzgerald showed he could punch hard with either hand and could take lots of punishment. Britt demonstrated he is fast and scientific.

Britt finished the fight without a mark on him and Fitzgerald was also in good condition, although showing a few marks on his face and some red spots on his body.

## VOTE TO QUIT BATTLE CREEK.

Dire Prediction of Prophets Elicits White Fightens Adventists.

Battle Creek, Mich., April 28.—After a fight lasting more than a week, the stockholders of the Seventh Day Adventists' publishing house here tonight decided to move the plant east. The name of the city has not yet been decided on. This action shows that a majority of the stockholders believed in Mrs. Ellen White, the leading prophetess of the society, who predicted disaster if the plant were not moved and the Adventists colonized here do not scatter to various parts of the country. It is believed the action will split the denomination into factions.

CAUSE OF SMALLPOX. Harvard Professor Makes Announcement of Its Discovery.

Boston, April 28.—Announcement of the discovery of the cause of smallpox was made tonight by Dr. William T. Councilman, professor of pathology in the Harvard medical school, at a meeting of the Boston Society of Medical Sciences. It has been determined that smallpox is caused by a micro-organism representative of the lowest form of animal life. This fact serves to show the relation between smallpox and malaria and to distinguish it from many other infectious diseases caused by bacteria.

KING TO VISIT THE VATICAN. Edward and the Pope to Meet in Private Audience Today.

Rome, April 28.—King Edward will visit the vatican tomorrow afternoon and will be ceremoniously received. The pontifical guards will render royal honors. The pope will receive the king in his private apartments, and no one will be present except the pontiff and the king.

Church Association Protests. London, April 28.—The Church association tonight decided to send King Edward a protest against his visiting the pope.

STRIKE RIOTS AT MONTREAL. Troops Now Protecting Non-Union Men at Work on the Docks.

Montreal, Quebec, April 28.—Tonight 600 militiamen are stationed at the harbor front, guarding property and protecting the non-union men who can be secured to work on the ocean liners loaded at the docks. During the afternoon a mob overpowered the policemen, boarded the steamers and chased the non-union men ashore. The troops were then ordered out and now control the situation.

HIS WIFE ARRESTED. Body of Wealthy Minnesota Farmer Found on River Bottom.

La Crosse, Wis., April 28.—The body of Gus Krueger, a wealthy farmer, aged seventy, missing since last Friday from Granger, Minn., was found tonight, weighted down with stones on the bottom of Root river. His face and head were beaten to a pulp. Krueger's wife, thirty years his junior, has been arrested.

WOODS BURNING. Forest Fires Threatening Towns Along the Detroit & Mackinac.

Alpena, Mich., April 28.—Forest fires are raging in the surrounding country. Unless rain falls the damage will be great. Many towns along the line of the Detroit & Mackinac railroad are endangered. Forest fires are also reported in the vicinity of Cheboygan.

TURKEY LIFTS THE EMBARGO. Entry of American Pork Permitted After Long Prohibition.

Washington, April 28.—Minister Leishman cables the state department that the prohibition against American pork in Turkey which has been in effect for five years has been removed, and that orders have been issued permitting its entry after the customary inspection.

ELECTRIC SHOCK FATAL. Duluth Man Dead from Turning on a Light at His Home.

Duluth, Minn., April 28.—Samuel V. Gilbert, cashier of the Red Cliff Lumber company, died today from the effects of an electric shock sustained while turning on the light in a room at his residence.

WM. R. HEARST WEDS. New York, April 28.—Congressman William Randolph Hearst, proprietor of several large newspapers, was married at Grace church here today to Miss Millicent Wilson, daughter of George H. Wilson, president of the Advance Music company of this city. The couple sailed this afternoon for Europe.

COLLEGE STRONG MAN'S RECORD. Cambridge, Mass., April 28.—Fred Foster, Harvard's strong man, has just made a remarkable record under Dr. Sargent's new strength test, his figures being 100,000 foot pounds more than the old record. His grand total was 330,215 foot pounds. He is undoubtedly the strongest man in the college world.

GROVER LEAVES FOR ST. LOUIS. Princeton, N. J., April 28.—Former President Cleveland left today for St. Louis, where he will deliver a dedicatory address at the exposition on Thursday.

WYOMING'S GOVERNOR DEAD. Cheyenne, Wyo., April 28.—Governor De Forest Richards died at his home here today from acute kidney disease.

Mrs. Tupman, a prominent lady of Richmond, Va., a great sufferer with woman's troubles, tells how she was cured.

"For some years I suffered with backache, severe bearing-down pains, leucorrhoea, and falling of the womb. I tried many remedies, but nothing gave any positive relief. I commenced taking Lydia E. Pinkham's Vegetable Compound in June, 1901. When I had taken the first half bottle, I felt a vast improvement, and have now taken ten bottles with the result that I feel like a new woman. When I commenced taking the Vegetable Compound I felt all worn out and was fast approaching complete nervous collapse. I weighed only 95 pounds. Now I weigh 109 1/2 pounds and am improving every day. I gladly testify to the benefits received." - Mrs. R. C. TUPMAN, 423 West 30th St., Richmond, Va. - \$5000 forfeit if original of above letter proving genuineness cannot be produced.

When a medicine has been successful in more than a million cases, it is justice to yourself to say, without trying it, "I do not believe it would help me." Surely you cannot wish to remain weak and sick. Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women. Perhaps she has just the knowledge that will help your case - try her to-day - it costs nothing.

NOTICE!

For the next thirty days, commencing Jan. 29th, I will deliver two and three cord lots of No. 1 16-in. dry hard block wood, from same, at \$2.50 per cord, cash on delivery; also No. 2 16-in. green hard block wood, two and three cord lots, at \$2 per cord, c. o. d. I carry all kinds of saws, shovels, axes, hard wall plaster, lime and cement, sewer pipe and brick, and do general teaming. GEO. FRENCH, Marquette, Mich. Both 'Phones.

CHARTER No. 390. First National Bank of Marquette Mich Organized January 22, 1864. CAPITAL AND SURPLUS, \$200,000 DESIGNATED DEPOSITORY OF THE UNITED STATES.

DAILY MINING JOURNAL. A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests. SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$10.00. MARQUETTE, MICH., APRIL 29.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

As everything else has been unusually high during the last few years, it is strange to be able to comment that the lake freight rates for 1902 were the lowest that had prevailed for four years. In 1897, which was regarded as a poor year, the estimated average freight charge on all traffic to and from Lake Superior was 0.083 cents a ton-mile, and in the following year it was 0.079 cents. In 1899 it rose to 0.105 and the next year to 0.118 cents. Lower season rates brought the average down in 1901 to 0.099 cents and in '02 it fell to 0.098, this on an average carry of 827 miles. These rates are claimed to be the lowest freight charges to be found anywhere in the world.

Charles Towne is for harmony. Of course he is; so are all the other Democrats, Bryan or anti-Bryan. There are no two opinions about harmony. Everywhere in the ranks of the disorganized Democracy there is but one opinion; that it is just the thing the disorganization needs to prepare it to battle with the foe, but, alas, all the leaders and factions are sticking out for their particular brands of harmony, and in each case they demand, as a prime requirement, that the "other fellow" shall come home to the fold, sue for forgiveness and be forgiven. Naturally this situation rather complicates the task of securing an all-prevailing harmony, rendering it, the most clearheaded Democrats must realize, a most unlikely outcome.

The New York Commercial Advertiser comments that while many of Andrew Carnegie's money gifts have been criticized on the ground that they have not been wise there will be no disposition to accord him anything but praise for his latest benefaction, his gift to the Tuskegee institute. Says the Advertiser, in part: Perhaps Mr. Carnegie's wisdom is most clearly seen in this one fact: That he has limited himself to the sum of \$600,000, and has not given more. He might very easily have presented the institute with the whole \$2,000,000 which it needs in order to defray its annual disbursements. At the present time the income of the school at Tuskegee is about \$50,000, while the current expenses are \$152,000 per annum. Thus it will be seen that Mr. Carnegie's gift will only partially lessen the burden which has rested upon Mr. Washington and which has compelled him personally to raise a large annual sum for the support of the school. But, as we have said, it is exceedingly desirable that no single philanthropist should set the institute above the need of soliciting support.

As Mr. Washington himself pointed out in his book entitled "Up From Slavery," the most valuable asset which Tuskegee possesses is the stock of good will which it has accumulated from the interest in it which is felt by those who have contributed to its support. The first persons whom its founder approached when he began his educational work were the influential whites of the neighboring community. When he persuaded them to aid his project, he secured something more than money. He won their active interest and sympathy and without these the real purpose that he had in view would have been frustrated. In this he showed his shrewdness, just as in the perpetuation of these same conditions Mr. Carnegie has equally shown his. Place the institute beyond the need of help and it no longer keeps making an incessant appeal to the notice, the interest and the support of men and women all over the country, South as well as North. Mr. Carnegie, indeed, instead of endowing the institute as he might have done, has endowed Mr. Booker Washington, and has thus insured the continuance of his active propaganda which, even more than the institute itself, makes for the rational solution of a problem which has often appeared to be insoluble.

Says the Engineering and Mining Journal: A recent comparison made by our esteemed contemporary, the London Iron and Coal Trades Review, shows that the entire mineral traffic of Great Britain, large as it is, barely exceeds that carried by the Pennsylvania railroad alone in this country. Taking the Pennsylvania report for 1901 we find that that road carried a total of 69,985,715 tons of coal and iron ore, while its tonnage of finished iron and steel was 12,027,216. This gives, in round figures, a total of 82,000,000 tons. The total mineral traffic of Great Britain for the same period was, also in round figures, 300,000,000 tons. The average haul of the Pennsylvania was about 110 miles, while the average haul on British railroads was only about thirty miles, so that the total movement of minerals in Great Britain was about 900,000,000 ton-miles, while that on the Pennsylvania was 902,020,000 ton-miles. The comparison in favor of the American road would be much more favorable, if the transport of building stone, sand and the like were included.

And now again it is to be the far east. In the interim that the public attention has been directed more particularly on other happenings in other quarters of the globe, Russia has been scheming and planning, and the result of her scheming and planning has been that she is now more than ever convinced that she desires to remain in Manchuria, to be the dominant power, and that her vantage in the east is somewhat better than it ever has been before. The eastern question is again up, with all its complexities, bristling with the danger of manifold complications. Secretary Hay has announced the decision of the American state department to act singly, not in co-operation with any other power or powers. It is a commendable decision, but one that was to be expected, as it has been by virtue of our course in acting singly that our recent diplomatic history is a record of a series of brilliant triumphs. Alliances are restrictive and stultifying. It requires a big unit to act singly, but we seem to be a pretty big unit.

Jaroslav Kocian, the famous Bohemian violin virtuoso, who came to American shores to be lionized by the ladies and to reap a harvest of the dollars of their fathers, husbands and big brothers, sailed for Hamburg last Thursday in the company of a \$30,000 Gurnarsian violin, the property of W. C. Klopston, attorney-at-law and art connoisseur, who in a misguided moment lent the valuable instrument to the Bohemian. In explanation of the grand larceny Kocian wrote the owner a sentimental note about the instrument's having grown close to his soul. Klopston, however, is going to redeem his first indiscretion in letting the violin out of his hands by having a detail of police officers in waiting to demand back the spoils that he lugged off from New York. Kocian's idea of American hospitality may be severely jarred, but he will have an increased respect for our hardheaded business sense after he comprehends Klopston's last play.

Why Not Johnson? Tom Johnson's unsuccessful campaign for the office of governor of Ohio for a time put a stop to the talk about his availability as a presidential candidate, but the talk is now revived, and he may after all cut some figure in the Democratic national convention. A warm endorsement of the Johnson candidacy appears in the Johnston Post, Democrat of recent date. It cites as illustrative of his possession of "the moral perception and courage that the Democratic party needs in its candidate" his nearly forgotten career from 1891 to 1895, and asks: "Who that remembers his free trade speech on the floor of the house can forget his retort when a protectionist rebuked him as a beneficiary of protection for speaking against it? 'As a business man in business affairs,' he exclaimed, 'I will take advantage of all the bad laws you pass, but as a member of this house, on this floor, I will try to make you repeal them.'"

What his enemies describe as hypocrisy and demagoguery the Democrat regards as an exhibition of genuine love of principle and sincere concern for the welfare of the common people. More over, he possesses peculiar qualifications for the presidency. In business he has forged ahead from a poor boy, the son of a confederate of fiercer impoverished by the Civil War. He

WHY MOTHERS WORRY

Did you ever hear a mother worry over a plump child? There is no better bank of health for a child to draw from than a good supply of healthy flesh. Scott's Emulsion not only gives a child weight and plumpness, but it feeds the brain, bones and nerves with strength and active power. Fewer mothers would worry if they knew more about Scott's Emulsion. We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

has played in the same game of business that the great captains of industry are playing yet, and he has won at it. His ability as a business man not even the best of them will dispute. Johnson is no weakling "theorist." He knows all the twists and wriggles in the diplomacy of plutocratic business with which the plutocrats so bewilder President Roosevelt, and he knows how to turn them to account for the people. This he has demonstrated in his career as mayor of Cleveland.

If not Johnson, who can be nominated by the Democracy with any chance of success? He would be acceptable to Bryan and his followers, and though they may not be able to name a candidate in the convention their defection would doom any ticket that can be named, and there is really no reason why the Eastern Democracy cannot support him. He may not be pleasing to Wall street, but neither is Roosevelt, so that the ticket would lose nothing from that. Johnson, also, is a good campaigner and has the means with which to conduct a canvass. He is not perfection as a candidate, but who among the others mentioned presents fewer bad points or more better ones? At any rate, if Ohio, Pennsylvania and the Bryanites should be for him in the convention he would stand a pretty fair chance of being nominated.

Mexico is moving cautiously and slowly in the inquiry being carried on to ascertain whether the best interests of the country demand a change from a silver to a gold system of coinage. The very leisure and conservatism that is being manifested in the inquiry minimizes the danger of serious mistakes, and thus a commendable. The commission charged with this investigation of the silver question is now sitting in the city of Mexico. It is cosmopolitan in its makeup and includes many men of marked ability. The committee arrangement has been introduced for convenience in getting over the great amount of ground to be covered by the inquiry. One of the most important of these committees is that which is charged with the task of collecting information as to the evils and disadvantages consequent on the decline of silver, and it is taken as a significant fact that the mining interests are not represented among its members. In fact mining men, it is very apparent, are to have no great say in the finding of the commission as a whole. They are not largely represented, and men prominent in the business and industrial world are more likely to have the controlling influence. The unique claim is made that industrial expansion in Mexico today is based on gold mining, which is very profitable owing to the fact that the labor is paid in a depreciated silver currency, worth less than half of the value of American money. With gold mining an industry constantly increasing in scope and value, Mexico will naturally gravitate toward the better money standard, but the process is likely to be slow. The report of the present commission promises, however, to be a step in the right direction.

HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CLEGGY & CO., Toledo, O. We, the undersigned, have known F. J. Clegg for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. West & Traux, Wholesale Druggists, Toledo, O. Wadding, Kinnan & Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all druggists. Hall's Family Pills are the best.

CHRONIC BRONCHITIS CURED. "For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Mr. Joseph Coffman, of Montmorenci, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." Sold by People's Drug Store.

Foley's Kidney Cure makes kidneys and bladder right. Don't delay taking. Sold by People's Drug Store.

Champion.

Miss Nellie Huber spent the greater part of last week with friends in Chicago. Miss Tekla Farm is announced for a concert here on Friday evening of this week. "A Thoroughbred Tramp" company played to a good house here last Friday night, giving excellent satisfaction. C. A. Vanderpool, who has charge of the St. Paul tower here, is off on a few days' vacation, which he is spending at Crystal Falls. Dr. G. D. Beech and family have gone to New Orleans, to be absent some time. Dr. G. P. Raynold of Birmingham, Mich., will assist Dr. Van Riper during Dr. Beech's absence. William Rickard will succeed Edward Bradley as proprietor of the Champion House. Mr. Bradley and his family will move to Ironwood, where they will remain permanently. Jake Davidson arrived home Monday, after a month's absence. He departed again the following day, going to Chicago, where his wife is confined to a hospital, she having recently submitted to a surgical operation. Anos Saladine was in town Monday delivering a high grade Bradbury piano to Captain S. Simmons. Mr. Saladine will furnish the new piano for the Degree of Honor society. The deal will be closed within a few days. A number of Champion men are preparing to go trout fishing as soon as the season opens. If the weather is favorable next Sunday many of them will visit the Peseke river. The stream is still high and it is not likely that there will be many large catches for a few weeks at least. Harry Trembath, of Negaunee, was here Monday working for the Michigan Inspection bureau, which is managed by T. D. Hall. The lumber is re-rating the upper peninsula towns with a view to bringing them under a new schedule. While here Mr. Trembath looked over the buildings of the Champion Iron company. Other property of the village will not be re-rated at this time. Fred Derocher and Miss Virvile, well-known Champion young people, were married Monday morning at the Catholic church, Rev. P. Girard, the pastor, performing the ceremony. The bridal party and their invited friends took a drive during the morning. In the evening there was a dance at the town hall in honor of the event. The bride and groom will begin housekeeping at once. Tom Larke has a new bowling record. One day last week he scored 248 points. This is ten points better than his own previous record, also the record of his brother, Ed. Fred Sleeman's name was on the board early in the week for 264 points, but the score was "faked" by some of his friends. The bowling record is much discussed at the club's headquarters, and all are anxious to set a pace for the Larke brothers.

The burglar who relieved Dr. Gibson of \$64 at the Beacon House Thursday night of last week, also paid a visit to the Champion Hotel and the Valley House. At the Valley in the neighborhood of \$15 was taken from the pockets of the boarders, Peter Christianson, a railroad man boarding at the Champion, was the only one "touched" there. His loss was \$125. Two hobos who were in town that afternoon and evening are suspected. The work was done between 9 and 11 o'clock in the evening, while most of the boarders of all the hotels were attending a show in the town hall. The hobos spent several hours at the depot, and they departed for Negaunee on the early morning train. All of the men robbed had watches and other jewelry in their clothes, and the thieves only took money.

A THOUGHTFUL MAN. M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c. at Stafford Drug Co.'s drug store.

A CHATTANOOGA DRUGGIST'S STATEMENT. Robt. J. Miller, Proprietor of the Read House Drug Store of Chattanooga, Tenn., writes: "There is more merit in Foley's Honey and Tar than in any other cough syrup. The calls for it multiply wonderfully and we sell more of it than all other cough syrups combined." Sold by People's Drug Store.

Cudahy's Kettle Rendered Lard—like mother used to make. YOU DON'T NEED THE THINGS you think you need, as much as you need the insurance you think you don't need. Only those who come to realize what need is. Those who ignore insurance, Annuities, Endowments, Paid-up Policies, Cash Surrender Values and our various non-forfeiture contracts, may some time realize the pinch of poverty, and know the difference between Need and Desire. Chronic Sores Eating Ulcers, Upon the System.

Nothing is a source of so much trouble as an old sore or ulcer, particularly when located upon the lower extremities where the circulation is weak and sluggish. A gangrenous eating ulcer upon the leg is a frightful sight, and as the poison burrows deeper and deeper into the tissue beneath and the sore continues to spread, one can almost see the flesh melting away and feel the strength going out with the sickening discharges. Great running sores and the deep offensive ulcers often develop from a simple boil, swollen gland, bruise or pimple, and are a threatening danger always, because, while all such sores are not cancerous, a great many are, and this should make you suspicious of all chronic, slow-healing ulcers and sores, particularly if cancer runs in your family. Face sores are common and both the greatest annoyance because they are so persistent and unsightly and detract so much from one's personal appearance. Middle aged and old people and those whose blood is contaminated and tainted with the germs and poison of malaria or some previous sickness, are the chief sufferers from chronic sores and ulcers. While the blood remains in an unhealthy, polluted condition healing is impossible, and the sore will continue to grow and spread in spite of washes and salves or any superficial or surface treatment, for the sore is but the outward sign of some constitutional disorder, a bad condition of the blood and system which local remedies cannot cure. A blood purifier and tonic is what you need. Something to cleanse the blood, restore its lost properties, quicken the circulation and invigorate the constitution, and S. S. S. is just such a remedy. S. S. S. reaches these old chronic sores through the blood. It goes to the very root of the trouble and counteracts and removes from the blood all the impurities and poisons, and gradually builds up the entire system and strengthens the sluggish circulation, and when the blood has been purified and the system purged of all morbid, unhealthy matter the healing process begins, and the ulcer or sore is soon entirely gone. S. S. S. contains no mineral or poisonous drugs of any description, but is guaranteed a purely vegetable remedy, a blood purifier and tonic combined and a safe and permanent cure for chronic sores and ulcers. If you have a slow-healing sore of any kind, external or internal, write us about it, and our physicians will advise you without charge. Book on "The Blood and Its Diseases" free.

FOR PYTHIAN JUBILEE.

Hundreds of Visitors Expected at Houghton Tomorrow.

Upper peninsula Knights of Pythias will gather at Houghton in large numbers tomorrow for the big reunion to be held under the auspices of the copper country lodges. Hundreds of visitors, at least, are expected. The members who will attend are anticipating a happy copperdom Pythian have joined hands to make the gathering a rousing success and if good, hard work counts for anything the event can be naught else. Special rates have been offered by the railroads. The Citizen's National bank building, in which the chief exercises of the day will be carried out, will be handsomely decorated, both in the hall and within, with Pythian emblems and colors. Many of the business houses of the town will also be well decorated for the occasion.

Program for the Day—  
The program for the gathering was arranged yesterday. It is as follows:

8:30 a. m.—Reception of visitors at Castle Hall.

11:30 a. m.—Reception of grand lodge officers.

2:00 p. m.—Opening of the convention by Columbia lodge, No. 144, of Houghton.

Entry of the grand lodge officers.

Address by Dr. W. H. Dodge, Hancock, chairman of executive committee.

Extending hospitality to all visitors and a welcome to grand lodge officers.

Address of welcome by Attorney Joseph Hamblitz, Houghton.

Response by Grand Chancellor Leo A. Caro, on the benefit of a jubilee reunion to the order and its members.

Piano solo, Brother H. T. Liebert.

Conferring the rank of page on three candidates by the following: C. C. Williams Ross, Marquette; V. C. Joseph Kemp, Calumet, prelate; Webster Dock, Hancock; M. A. William C. Kautz, Hancock.

Conferring rank of aspirant on three pages by the grand lodge officers. Work conducted by Grand Chancellor Leo A. Caro.

Address—"The Birthplace of the Order of the Knights of Pythias," Brother A. T. Hanson.

Lunch will be served at 6 o'clock in the gallery, after which a reception will be held until 8 o'clock.

Third Rank Contest—  
Conferring rank of knight by team of Zenith lodge, No. 31, Ishpeming.

Conferring rank of knight by Hancock lodge team of Hancock.

Conferring rank of knight by team of Red Cross lodge, No. 51, of Sault Ste. Marie.

Presentation of loving cup by Grand Chancellor Caro.

Closing of lodge in regular form.

ROLLER RINK IDEA DROPPED.

Not Decided to What Use the Amphidrome Will Be Put.

The Amphidrome management has not made definite plans as to what use to make of the big structure at Houghton schemes are in prospect, and it is probable that a portion of the building will be used for warehouse purposes. As far as now arranged the Amphidrome will be temporarily used in rainy weather by the high school athletes in training for the annual field day meet; the Houghton Light Infantry has secured permission to use the large floor space for drilling purposes; the St. Ignace church people will hold a big fair during the winter season by affording to much continuous skating. To equip the Amphidrome for rolling skating would necessitate the expenditure of a considerable sum and the management is not willing to try the experiment.

SETTLES THE LAND SQUABBLE.

Compromise Offer of Court Ends Litigation Over Hancock Property.

The settlement of out of court of the five ejection cases brought by the Hancock Copper Mining company and the Quincy Mining company against the occupants of certain holds in West Hancock is believed to end the litigation. The mining companies have been paying the taxes on the land in dispute and none of the adjoining owners openly laid claim to the property. It is held that the tenants cannot establish title by adverse possession, notwithstanding their occupancy for fifteen years, because they virtually recognized the title of the owner or landlord. The occupants claimed the land, but the matter was satisfactorily adjusted at a conference between Hanchette & Lawton and Chadbourn & Rees, counsel for the plaintiffs, and Kerr & Petermann, attorneys for the respondents. The mining companies' title to the land is now undisputed.

PRISON TERM THREATENS HIM.

John Barrett, the Calumet chimney sweep, well-known to the Calumet police because of periodic offenses, has been arrested again. This time he is charged with burglary and is threatened with a term in the Marquette penitentiary. It is alleged that he is the person who burglarized the Glocke cigar store about two weeks ago and there is said to be some strong evidence against him. Barrett's previous mix-ups with the law, although serious at times, have resulted either in his getting off free or in light sentences. Lack of evidence at times prevented the court from severely punishing him.

MASS MEETING CALLED.

Hancock Citizens Will Assemble Tonight to Talk Tournament Matters.

A mass meeting of citizens of Hancock will be held at the city hall this evening to take action relative to the annual tournament of the Upper Peninsula Firemen's association, which will be held at Hancock apartment, a channel. The meeting was called by Mayor A. J. Scott, who is chief of the Hancock department, and he hopes that a large number of citizens will attend. The success of the tournament depending largely on the interest and support of the Hancock people. There are many arrangements to make before the time for the tournament and Mr. Scott desires that the work be started as soon as possible.

The running track, where the athletic events will be pulled off, has been located on West Hancock street. There will be no delay between races this year, as there has been at other tournaments. One will follow the other in quick succession to make things more interesting.

Change in the rules governing the races adopted by the executive committee at its recent meeting are many. In addition to the various departments, it is that no points will be given for the smaller events or individual races. Prizes will be given instead. This will give the teams participating in the heavier races a better show and it will be fair to all concerned.

The Lake Linden fire department, which has sent speedy track teams to tournaments held in the past, may not be represented by a team this year. The firemen feel that they have won their share of honors and they are willing to give other departments a chance.

By remaining out of the races they think new teams will have a better show of winning. Firemen accustomed to the races would not have much difficulty in besting inexperienced teams. The Lake Linden firemen at all events will attend the tournament in spirit and will otherwise help to make it a big success.

EIGHT TEAMS TO COMPETE.

School Athletic Meet at Ishpeming Promises a Huge Success.

E. H. Comstock, principal of the Houghton high school and secretary of the Upper Peninsula Interscholastic association, believes that the annual field and track meet to be held at Ishpeming on May 30 will be a record-breaking success. He has practically been assured that eight high schools will be represented, viz: Marquette, Ishpeming, Sault Ste. Marie, Menominee, Escanaba, Houghton, Hancock and Calumet. The teams of those schools are now in training. Mr. Comstock thinks the exhibition will eclipse that of last year in every way and he looks for fast work from most of the teams. Last year's meet, which was participated in by Marquette, Menominee, Calumet, Negaunee and Champion, was won by Menominee.

In speaking of Menominee's chances, Mr. Comstock does not believe that they will stand a show at all. Last spring because of the fact that the school has lost three men who won the meet for the team last season. He thinks well of Ishpeming and Marquette, both of which have good material from whom much may be expected. This is the first year that the copper country high schools, with the exception of Calumet, have taken enough interest to send teams to the annual meet, and it is not to be expected that the schools can develop athletes in one year. For this reason it is not thought Houghton, Hancock or Calumet will win the meet, but the teams will undoubtedly show up well and will return home with some points to their credit. Each of the copper country teams is practicing hard and the work should be productive of good results.

FORESTS IN FLAMES.

Bad Fires Raging in the Woods in Ontonagon County.

Threatening forest fires are raging at McMillan farm No. 2 about six miles up the lake shore from Ontonagon, on land that had been cut over and settled by homesteaders. It is believed the fires originated from brush fires made by the homesteaders. Just what area they cover is not known, but as there has been comparatively little rainfall this season everything in the woods is dry as tinder. Weather conditions are favorable to a great spread of the flames unless checked by a heavy rainfall.

Another forest fire is reported to be raging on the Adventure bluff, sweeping the woods in a westerly direction, as long from the Mass mine to the Adventure mine. Workmen at the Adventure were called out to fight the flames. The details of the fires are meagre.

Later—it was learned last evening that the situation was much improved and that the danger was practically over. Heavy rains fell in the area in which the fires were raging and effectively put a stop to the further progress of the flames.

JURY FINDS THEM GUILTY.

Fred Blanchard and John McLeod, workmen, who had been on trial in the circuit court for several days, were yesterday adjudged guilty by the jury. The men were charged with assault with intent to rob, their victim being an Arabian peddler who visited the logging camp near Kenton where the defendants were employed. The case was given to the jury at 10 o'clock yesterday morning, and at 5 o'clock in the afternoon a verdict of guilty was returned. The men will be sentenced later.

CHANGE IN HOTEL MANAGERS.

R. J. Taylor, of Sturgeon Bay, Wis., an experienced hotel man, will succeed Henry Larose as proprietor of the Larose Hotel, at Lake Linden, during the coming month. Mr. Larose retires owing to the ill health of his wife. Numerous improvements will be made on the lower floor of the hotel. The dining room will be enlarged and a new outfit built.

BROOK TROUT FRY PLANTED.

Fish Car from Soo Hatchery Brings Consignment to Copperdom.

The fish car from the state fish hatchery at the Soo arrived at Houghton yesterday noon. The brook trout fry for the streams near Houghton were taken in charge by several members of the Houghton County Gun & Rod club at the Houghton depot and transported at once to the streams in question. Other members of the club, including President George Williams, accompanied the car on its trip over the Copper Range road into the South range district, where baby fish were deposited in all the important streams.

SOME SALOONISTS TO QUIT.

Red Jacket's Council Approves Forty-One Liquor Bonds.

The bonds of forty-one liquor dealers were accepted by the Red Jacket village council at the special meeting Monday evening. Several saloon keepers have neglected to file their bonds and these will be acted upon later. It is said that ten or twelve saloon men will quit the business, owing to a falling off in receipts and the campaign of the Civic Federation.

The bonds of the following liquor dealers have been accepted: John Sunich, John Porembio, Joseph Stuckle, Frank Schroeder, Ben Blum, M. Curtz, A. W. Hanson, Joseph Stefanie, Allan McKinney, Joseph Wilmes, Jr., Booz Choapp, John Gasparovich, G. F. Suino, John Schenk, Schlitz Brewing company, N. Laurie, Mike Klobueher, John Knute, B. Lancoen, Oscar Bair, J. R. O'Neill, J. S. Zymostny, Knivel Bros. C. Schenk, F. Papsich, Joseph Gerzin, P. Bandettini, Ed. Merz, Joseph Gardetto, August Hillen, James Smith, Wills & Strom, Joseph Decker, Stephen Klenivich, Robert Nelson, John Tambollini, G. Martini, M. Stark, R. Ruppe, E. Ryan estate, and Wertin estate.

TO INCORPORATE AS ONE.

The residents of South Lake Linden and Tamarack City, who have been for some time in favor of incorporating the two places as one village, will take steps at once to bring the desired end. A movement in this direction was started on a previous occasion but it fell through because the law read that the territory to be included must comprise at least one square mile. The territory in question is less than a square mile in area, but since the law relating to the incorporating of villages has been amended, through Representative A. W. Kerr of Calumet, to read less than a square mile, the residents are free to go ahead with their plans. A plot of the territory will be drafted and a census taken. The county board of supervisors will then appoint a board of election commissioners. The election to select village officers will follow. Needed improvements may then be made.

CLASS DAY EXERCISES.

Senior class day exercises will be held at the Houghton high school on Friday evening, June 12. A musical program, now in preparation, will be given. The entertainment will conclude with the presentation of a farce entitled "A Box of Monkeys." The cast has not been selected. The commencement exercises will be held a week later at the school, on Thursday or Friday evening. A speaker of repute will soon be chosen to address the class. There are thirteen graduates this year, most of whom are girls. No class honors have been awarded. The school authorities being opposed to the practice.

ALLOUEZ AND MOHAWK.

The Boston News Bureau, in answer to an inquiry, considers Allouez cheaper than Mohawk; one is selling for \$7 per share and the other is selling for \$5 per share. Both have 100,000 shares of stock. Mohawk has had a good name from the beginning and Allouez has had a bad record for years because it has never paid a dividend although nearly \$2,000,000 has been spent on the property. Nearly all of this money was expended on the Allouez conglomerate lode which is harder than the Calumet conglomerate to work and yields less than 1 per cent copper. The company now proposes to sink a vertical shaft 1,000 feet deep for the Kearsarge lode which is now considered one of the master lodes of the district, and is found rich north and south of the Allouez property. If the Kearsarge lode continues as a present indicated it will at depth underlie the entire 600 acres of the Allouez property.

FRANKLIN.

In answer to another inquiry, the same paper gives these views concerning Franklin: The Franklin is a low grade copper proposition which depends upon a high copper market to enable it to show operating expenses earned. The company's mining cost in January was 9.50 cents per pound, in February it was 9.45 cents, while the average cost in 1902 was 9.92. Add to this one cent per pound for smelting and the total is found to have been eleven cents. As copper averaged a trifle under twelve cents for the year, it can be seen that Franklin's profits were very limited. If proper allowance is made for necessary machinery replacements, improvements, etc., it is doubtful if Franklin can show expenses earned on a 12-cent copper market. Should there be an indefinite contract of the present 15-cent copper market, Franklin on the basis of the above costs with no allowance made for extraordinary expenses, could at best only show \$1.50 per share for the stockholders at present rate of production. The company has a modern, efficient surface equipment in marked contrast to the value of the property underground.

WOLVERINE OF UTAH.

In a letter from L. A. Jeffs, superintendent of the Wolverine mine of Utah and a director of the Columbus Consolidated, he says in part: "I visited the Columbus Consolidated a week ago and

**MINING NEWS**

COPPER COSTS.

Copper costs in the United States today are more variable in different camps than ever before.

There was a time when the Calumet & Hecla could have sold copper at 5 cents per pound and shown a profit. But its cost sheet have not to do with poorer rock held for a greater depth and its total costs including construction are not far from eight cents per pound, while the average cost of all other Lake Superior mines is above ten cents per pound for copper.

Years ago the Calumet & Hecla people studied the Butte district which began as a gold camp and ran into silver, with copper production as a by-product. Then the fear was that with copper as a large by-product in the Anaconda silver mine, the Calumet & Hecla might have something unpleasant to reckon with. It was then never dreamed that the Anaconda would continue the greatest silver mine in the world, but later produced that silver as a by-product in the largest individual copper production in the world. At the present time and on an ordinary copper market, the production of copper in Anaconda is made possible only by reason of the three millions of precious metal values in the copper ore.

A few years ago Anaconda paid \$3,000,000 a year in dividends which was wholly the fruit of its gold and silver. The copper was sold at cost far from dividends were reduced to fifty cents semi-annually, or \$1,200,000 per annum. It can be readily seen how reduced had become the copper profits of the Anaconda. The Amalgamated Copper company was saved by the purchase of the Boston & Montana. Here copper is costing only about five cents per pound, but this is due to the rich reserves stored in the upper portion of the mine. In six or seven years the Boston & Montana ores from present indication will be no richer than those of the present Anaconda ores and its cost sheets should be, like Anaconda, above ten cents per pound. Hence, if he wins the Minnie Healey and frees the Nipper of litigation, will have the great virgin mines of Butte and for ten years will be able to increase his production and hold the copper sheets at not far from eight cents per pound, while the Amalgamated costs average a cent a pound higher by reason of the dead weight carried in Butte & Boston and the decreasing richness of Anaconda at depth.

In brief, the American copper situation as respects cost sheets may be tabulated as follows:

United Verde	4
Boston & Montana	5
Columbus Consolidated	6
Calumet & Hecla	8
Other Lake Superior mines	10
Anaconda	12
Butte & Boston	13 to 14
Average cost Amalgamated copper	9 1/2
Heinze copper	8 1/2

BE LIEVED TO BE INSANE.

Gus, Westerbach, the young man who created a disturbance at the Finnish college, Monday, Friday afternoon, by frightening the students with a little play and who was taken in custody by the county officers, is believed to be insane. It has been found that he is from Marquette county, coming from Champion here. His examination is set for May 5 and the verdict of the court will be given. Westerbach is confined in the county jail. It is said that a blow in the head received about a year ago caused his mind to give way.

COPPERDOM BREVITIES.

The trout fishing season opens on Friday.

The steamer Portage, of the Union Transit company, is due to arrive at Portage Lake today.

Alex. McDonald, a Calumet young man, is suffering from a mild case of snuffbox. He has been removed to the county detention hospital.

Physical Director C. M. Douthitt of the Calumet Y. M. C. A. will doubt of the association, at least until next fall, and he may decide not to leave at all.

The Pythian prize cup, which will be awarded the winning degree team at the reunion and jubilee of the upper peninsula lodges at Houghton on Thursday, is on exhibition in the window of Ed. Haas & Co. at Houghton.

This week will end the grand fair and bazaar which is being conducted at Lake Linden by the St. Joseph's church people. A special program of entertainment will be provided for each evening. The sessions have proven highly interesting and successful in every way.

The Canadian Soo lacrosse team will be strong this year. Practice work has started and the candidates for positions are showing up well. It is expected that the Portage Lake team will play the Soo aggregation at the Hancock Park before the season ends.

The new steamer Tionesta, of the Anchor line, which will enter to the passenger business between Duluth and Buffalo this season, may make a trip to Portage Lake before its regularly scheduled time, which is in June. The boat will be thrown open for inspection on that occasion.

Peter Fabler, of Calumet, has received a motor bicycle, the first machine of the kind to be brought to the copperdom metropolis. It weighs 105 pounds and is guaranteed to make thirty miles an hour on good roads. The motor is of two and a half horse power. The gasoline tank is of sufficient capacity to run the wheel 100 miles.

ufacturers. Trade with us and save the small,  
dealers extra cost in buying from second hands.  
(1-3-14.)

I am satisfied that we have a mine. There is plenty of ore and we can build our mill from shipments if we choose. The Braine fissure is all right, having eight feet of ore including three feet of shipping ore along the foot wall. The eight-inch streak, reported some time ago as running \$250 per ton, flattened on its dip and no doubt is part of the Braine fissure, joining this vein, says fifty feet below the main tunnel. The Braine fissure was cut 300 feet east of the contact of lime and quartzite rocks. When we cut the contact there will be found, without doubt, a big ore body, as we have all the necessary conditions of the district which have never yet been known to fail. About fifty feet of crosscut in the hanging wall of the Braine shows high grade seams, and I believe we will get another fissure as good as the Braine if we continue to drift. The sixty-foot vein in No. 2 fissure has opened up four feet of lean copper ore, with gold, silver and a little lead. This vein is to be sunk to the 150 foot mark and crosscuts will be run to No. 1 fissure, tapping the big body of galena showing in that vein in the tunnel. I look for very important developments within the next three or four months and when the work planned out is finished expect the mine to be on a paying basis."

MINING GOSSIP.

Winona rock is reported to be still running at the rate of thirty-seven to forty pounds of mineral per ton. The April product is expected to aggregate about 200,000 pounds.

The production of the United Copper company for April will be approximately 3,000,000 pounds. That of March was 2,450,000 pounds, and of February 2,900,000 pounds.

Copper advanced 12 1/2 ct at London yesterday, to 500 for both spot and futures, while it remained unchanged on

TO KNOW WHEN TO INSURE  
is hardly less important than to know where to insure, and greater the wisdom of how to insure. We challenge on the first and say, insure now. On the second, we offer our service, and on our record, say "here." On the third, we will give information and advice. Fifth year, doing business in 25 states. Nat'l Life Ins. Co. of N. Y. DASHES ACROSS IOWA

ROOSEVELT SPENDS DAY IN THE HAWKEYE STATE.

IS RECEIVED WITH ENTHUSIASM

CHEERING CROWDS TURN OUT EVERYWHERE TO GREET HIM.

Step at Des Moines Is the Most Important and Is Characterized by the President Kissing a Number of Babies—At St. Louis Today.

OTTAWA, Ia., April 28.—President Roosevelt dashed across Iowa today and was everywhere met by enthusiastic crowds. His speech-making began at 7 o'clock this morning and his last speech was delivered here at 8 o'clock tonight.

The president spoke tonight on the good work Secretary Wilson has done in the field of agriculture. The president has had as his guests today Governor Cummins and Secretary Shaw and for a part of the day Congressmen Hull and Hepburn.

At Des Moines the president kissed a number of babies. During her four mothers, each with a baby in her arms, approached his carriage and handed him bouquets of flowers.

At every place the president stopped today and at many places where the train did not stop, small American flags were waving and the children were very much and referred to the children several times during the day.

DEFENDS THE ARMY

GENERAL BELL TAKES ISSUE WITH GENERAL MILES.

CHARGES OF CRUELTY REFUTED

ACCUSATIONS WARMLY SCORED IN AN OPEN LETTER.

Brother-in-Law of Major Glenn, Assailed in the Commander's Report, Writes Vigorously in Reply to the General's Strictures.

Southampton, April 28.—General J. Franklin Bell, United States army, who is on his way home from the Philippines, when today shown a cabled digest of General Miles' report declined to comment further than to remark that all complaints had been investigated and the reports forwarded to Washington.

Concerning the accusations and complaints of occurrences in Batangas province while he was in command, General Bell said he would "greatly regret to have the American people believe any American officers or soldiers had been wantonly cruel or inhuman in their treatment of the natives."

However, he does not believe that anything I can say unofficially will change any one's opinion; nothing certainly would make any one who served creditably in the Philippines think the conduct of the American army had been characterized by cruelty, nor could I change the opinion of anyone who wishes to believe the contrary."

Referring to the comments of the London papers upon the alleged brutality of the American army in the Philippines, General Bell expressed the opinion that these comments were inspired by misapprehension and he trusted that "the American army may not long rest under such stigma in the eyes of foreign nations. The truth is powerful and it must finally prevail."

Sharp Criticism for Miles. St. Paul, April 28.—George C. Squires, a prominent attorney of this city and a brother-in-law of Major Edwin E. Glenn, has written an open letter to General Miles, replying to the strictures upon Major Glenn in the general's report upon alleged atrocities in the Philippines.

Mr. Squires recalls the trial of Glenn over a year ago, and says that while he was convicted and given a light sentence, this was after the court had unanimously acquitted him, but later voted conviction on the theory acquittal would be construed in the United States as approval of the water cure. The court attached to the findings a paper highly recommending Major Glenn's conduct and recommending clemency by the reviewing authority.

Mr. Squires in view of these facts criticizes General Miles for the language of his report, and says a general listened to "the unsupported statements of irresponsible natives."

"In conclusion," says Mr. Squires, "let me suggest that not even your prejudice against the administration or the well-founded impression that you went to the Philippines to look for fault with existing conditions, is sufficient justification for the general of a great army, which has gone through untold hardships and privations, to announce to the world upon hearsay and unsworn testimony that his brother officers, graduates of the finest of all military schools, are unworthy of the uniforms they wear."

COMES AS ENVOY FROM MARS. Crazy Man Makes the Statement in Church and Startles Worshipers.

New York, April 28.—Announcing that he was a messenger from Mars, a crazy man caused a sensation this evening in Calvary Episcopal church. "Listen, ye mortals of the earth," he said as he stepped inside the chancel. "I am a messenger from Mars, the first ever sent by our glorious ruler to the mean inhabitants of this lowly planet."

Everybody looked up in amazement. The man bowed, and turning to the altar, picked up a service book. "Hear the message," he went on. "I will read it to you."

The stranger started to read solemnly, but the sexton hurried upon and asked him to stop. The man complied, and bowing to the worshipers, marched out of the church.

SCOTT, WARSHIP BUILDER, DEAD. San Francisco, April 28.—G. Scott, vice president and general manager of the Union Iron works, is dead. He supervised the construction of the cruiser San Francisco, the first warship built on the Pacific coast.

FUTURITY WINNER WINS. Nashville, April 27.—Savable, John A. Drake's Futurity winner, showed his class at Cumberland Park today. He is big and fat and the books laid twenty to one against him. In the five furlong race he came from the rear and bested J. Sidney Walker in a pretty contest through the stretch. Carl Kahler was third. The time was 1:04 1/2.

WALTHY NEW YORKER SHOT. New York, April 28.—Leopold Werthimer, a wealthy dry goods merchant, was shot and seriously wounded at his home today. Joseph Simpson, formerly employed as a watchman by Werthimer, has been arrested, but the motive for the shooting is a mystery.

GRIP REMEDIES IN GREAT DEMAND. When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDan, Va., says that he was cured of a very deep and lasting attack of le grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by the Stafford Drug Co.

FATAL EXPLOSION ON A SHIP. Salonica, April 28.—The boilers of the French steamer Guadalupe blew up today as she was leaving port. Several engineers were killed. The passengers are safe.

Sister—when your complexion begins to fade don't use powder, paint or skin foods. Go to bed early and take a little Rocky Mountain Tea. This brings back the real beauty of youth. The Stafford Drug Co.

WARLIKE MEASURES

10,650 tons; six protected cruisers; six gunboats, and two torpedo boat destroyers.

Japan's Fighting Force.

The Japanese fleet available for immediate service in Asiatic waters consists of the battleships Yashema, Fuji, Schickishima, Ashai, Mikasa and Hatsuse; the armored cruisers Tokiwa, Asama, Izumo, Iwate, Yakumo, and Amuro; twenty-four torpedo boat destroyers and forty-seven torpedo boats.

The latest report of Captain Andre Brewster, United States military attaché in Peking, states that there are 54,000 Chinese soldiers trained by Europeans in the two provinces bordering on Manchuria. The Japanese army is 100,000 strong. The facilities of Russia are such that more than 1,000,000 troops could be rushed into Manchuria within three weeks. Nobody here pretends to know how many Russian troops there are already in Manchuria and just beyond the Russian border.

All the Amer. soldiers in China are included in the troop of the Ninth cavalry in Peking, while the military force of the other powers is proportionately small.

WALL STREET STOCKS. New York, April 28.—Today's stock market was strictly professional, unless there may have been some dribbling of liquidation of small holdings due to weariness with the persistent apathy of the market. The announcement of the engagement of \$500,000 gold for export was made the occasion for more general selling, but shorts in the general list were equally indisposed to leave their commitments uncovered over night. The result was a show of exceedingly small net changes. Most of these are on the side of losses, as the declines were not all completely covered.

Amalgamated Copper gained 1/2, being helped by a rally in the metal market. St. Louis and San Francisco closed 1/4 higher on account of a report the San Antonio and Kansas road had been acquired from the Southern Pacific. New York Central rose sharply at the last. Some special weakness was manifest in Southern Pacific and St. Paul and was the cause of some eager conjecture on the part of traders, who professed to see signs of influential selling in those two stocks. Closing quotations are reported by Paine, Webber & Co., as follows:

Amalgamated Copper gained 1/2, being helped by a rally in the metal market. Some special weakness was manifest in Southern Pacific and St. Paul and was the cause of some eager conjecture on the part of traders, who professed to see signs of influential selling in those two stocks. Closing quotations are reported by Paine, Webber & Co., as follows:

Amalgamated Copper gained 1/2, being helped by a rally in the metal market. St. Louis and San Francisco closed 1/4 higher on account of a report the San Antonio and Kansas road had been acquired from the Southern Pacific. New York Central rose sharply at the last. Some special weakness was manifest in Southern Pacific and St. Paul and was the cause of some eager conjecture on the part of traders, who professed to see signs of influential selling in those two stocks. Closing quotations are reported by Paine, Webber & Co., as follows:

Fifty Years the Standard

DR. HARPER'S VIEWS AGITATE. Baptist Ministers Ask Withdrawal of Invitation to University Man.

Toronto, Ont., April 28.—The views on higher criticism held by President Harper of the University of Chicago have caused a storm in local Baptist circles. The Baptist university has invited the Chicago educator to give an address to the graduating class, and preparations were made to receive him with ceremony. The Baptist ministers of the city met and asked the university to withdraw the invitation, declaring that the Baptist church is opposed to President Harper's views on higher criticism of the Bible. The request was laid before the faculty of the university, but it was decided to ignore the request of the ministers and go on with the arrangements for President Harper.

BASEBALL SCORES. National League. Cincinnati, April 28.—The locals broke their losing streak today by winning from Chicago. Ewing not only pitched a good game, but batted well. Summary: Cincinnati... 000003600—9 11 3 Chicago... 000300001—4 8 2 Batteries: Ewing and Bergen; Lundgren and Kling.

St. Louis, April 28.—A one-hand catch by Wagner in the eighth inning was the feature of the game today. Summary: St. Louis... 010002000—4 7 0 Pittsburgh... 000000101—2 5 3 Batteries: McFarland and Weaver; Doherty and Smith.

Brooklyn, April 28.—Evans was wild in his work in the box today and gave seven bases on balls, besides hitting a batsman. Summary: Brooklyn... 000000110—2 8 1 Boston... 101101000—4 5 0 Batteries: Vickers, Evans and Jacklitsh; Pittinger and Kittredge.

New York, April 28.—A home run by Bresnahan with the bases full was the feature of the game today. Summary: New York... 50004102—12 15 3 Philadelphia... 100200310—7 15 2 Batteries: Taylor, Cronin, McGinnity and Bresnahan; McPetridge and Zimmer.

American League. Cleveland, April 28.—The baseball season opened here today in the presence of nearly 20,000 persons, the largest crowd ever present at a ball game in Cleveland. The temporary bleachers erected in right field fell, several persons being hurt. Summary: Cleveland... 031101000—6 13 5 St. Louis... 100000200—3 11 1 Batteries: Joss and Bemis; Powell and Kahler.

Chicago, April 28.—The Cubs won from the White Sox. Summary: Chicago... 100020201—6 10 1 Batteries: Kitson and Buelow; Patterson and McFarland.

Washington, April 28.—The Senators won from the Athletics. Summary: Washington... 000003001—4 9 2 Boston... 110403200—11 13 2 Batteries: Townsend and Clark; Drill, Young and Griger.

American Association. Indianapolis, 4; Columbus, 3. Louisville, 13; Toledo, 5. Kansas City, 7; St. Paul, 8. Milwaukee, 5; Minneapolis, 1.

Western League. Kansas City, 3; Peoria, 14. St. Joseph, 1; Milwaukee, 5. Colorado Springs, 12; Des Moines, 3. Denver—Game postponed; rain.

FAVOR THE CANAL TREATY. Colon, Columbia, April 28.—The deputies of the department assembly of Cartagena today rejected a petition to address a memorial to the coming congress praying that that body reject the canal treaty.

SEVERE STORM IN IOWA. Council Bluffs, Ia., April 28.—Southwestern Iowa was this evening visited by a heavy wind and rain storm. The telephone and telegraph wires were crippled and in some places railroad tracks were damaged.

COTTON HOISTS HIS FLAG. Ville Franche, April 28.—Rear Admiral Cotton, commander-in-chief of the United States European squadron, arrived this afternoon and hoisted his flag on the Chicago.

GOOD SHOOTING BY GILBERT. Paducah, Ky., April 28.—In the shooting tournament here today Fred Gilbert of Spirit Lake, Ia., broke sixty-eight targets out of seventy.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases. Sold by People's Drug Store.

Peacock Hams and Bacon are unexcelled. (3-23-3m-0)

WARLIKE MEASURES

10,650 tons; six protected cruisers; six gunboats, and two torpedo boat destroyers.

Japan's Fighting Force.

The Japanese fleet available for immediate service in Asiatic waters consists of the battleships Yashema, Fuji, Schickishima, Ashai, Mikasa and Hatsuse; the armored cruisers Tokiwa, Asama, Izumo, Iwate, Yakumo, and Amuro; twenty-four torpedo boat destroyers and forty-seven torpedo boats.

The latest report of Captain Andre Brewster, United States military attaché in Peking, states that there are 54,000 Chinese soldiers trained by Europeans in the two provinces bordering on Manchuria. The Japanese army is 100,000 strong. The facilities of Russia are such that more than 1,000,000 troops could be rushed into Manchuria within three weeks. Nobody here pretends to know how many Russian troops there are already in Manchuria and just beyond the Russian border.

All the Amer. soldiers in China are included in the troop of the Ninth cavalry in Peking, while the military force of the other powers is proportionately small.

WALL STREET STOCKS. New York, April 28.—Today's stock market was strictly professional, unless there may have been some dribbling of liquidation of small holdings due to weariness with the persistent apathy of the market. The announcement of the engagement of \$500,000 gold for export was made the occasion for more general selling, but shorts in the general list were equally indisposed to leave their commitments uncovered over night. The result was a show of exceedingly small net changes. Most of these are on the side of losses, as the declines were not all completely covered.

Amalgamated Copper gained 1/2, being helped by a rally in the metal market. St. Louis and San Francisco closed 1/4 higher on account of a report the San Antonio and Kansas road had been acquired from the Southern Pacific. New York Central rose sharply at the last. Some special weakness was manifest in Southern Pacific and St. Paul and was the cause of some eager conjecture on the part of traders, who professed to see signs of influential selling in those two stocks. Closing quotations are reported by Paine, Webber & Co., as follows:

**U. P.'S AGRICULTURE**

DISCUSSED IN AN INTERESTING ARTICLE BY A DETROIT MAN.

**THINKS IT HAS A BRIGHT FUTURE**

ADVISES PERSONAL INSPECTION BY PROSPECTIVE SETTLERS.

He Finds This Region Suitable for a Diversified Farming Industry—What the U. P. Land Company Is Doing.

L. W. Hardwicke, of the Detroit Tribune's staff, had in Saturday's issue of that paper an illustrated article on the agricultural possibilities of the upper peninsula, dated from Marquette. Mr. Hardwicke now being engaged in looking over the upper peninsula counties, he says:

"Copper, iron and lumber have long been the principal products of the upper peninsula, but this country within the past few years has been undergoing such a remarkable change in the matter of agricultural pursuits that a more truly great industry must now be added to our natural resources."

Thus spoke a well-known and close-observing citizen of Marquette to me. "And I want to add in general terms that I do not believe there is a section of country in the United States or Canada that offers the farmer greater inducements if he will only apply himself intelligently to existing conditions. The soil in almost every portion of the peninsula is such as will produce abundant root crops of all kinds, as well as small fruits, and as far as raising and farming it is ideal, the climatic conditions, especially in the eastern portion, owing to lake influences, and great number of pure fresh water streams, together with the certainty of hay crops, abundance of grasses and other food for cattle, being as good as any in the upper stock country. I predict a splendid future for Michigan north of the straits from an agricultural point of view. This is a timber country, you know, unlike the treeless plains of the far west or Canada, and is therefore more inviting to the settler."

The above statements from a man in position to know what he was talking about were necessarily encouraging to one who had been sent into the upper peninsula to ascertain the future of that section of the state as to farming. In my investigations throughout the several counties visited I found a rising and improving state of affairs, both among the older farming settlements as well as in the newer. There are four distinct soils—heavy red clay, dark loam with clay and marl subsoil, sandy loam, and a heavy black or muck soil, the whole affording exceptional advantages for diversified farming, and I do not hesitate to say that when the country becomes fully developed farming will prove of equal, if not greater, benefit to the upper peninsula than are the great mining interests at the present time.

**Progress Has Been Slow.**

I am frank to admit, however, that progress has been slow in developing the agricultural resources of this section, a fact almost wholly attributable to the seeming disinclination of a majority of the more extensive land owners, many of whom were lumbermen in the past, who have devoted their efforts to marketing their timber without a thought to the future of the country. It is charged that the lumbermen have until recently even tried to keep out the actual settlers. If the owners of the large tracts of land were to get together and formulate some concerted action in advertising the agricultural advantages of the upper peninsula, as I understand there is such a movement on foot, I am certain the movement would result in a complete change for the better in the up-country within a very short while.

I know of no place where grass will run so long without reseeded. I learned of several cases where timothy has been cut continuously for fifteen years without reseeded. This is a statement that will probably be doubted by most lower peninsula farmers, but it is a fact, nevertheless, and can be proven to anyone who will take the trouble to investigate.

**What an Editor Has to Say.**

One of the most enthusiastic men on the subject in the upper peninsula is George E. Holbein, editor of the Manitowish Pioneer-Tribune. He says, "The area of cleared land for agricultural purposes is rapidly increasing, and more interest in agricultural pursuits is being taken now than at any time in the history of my country—Schoolcraft. Sugar beets will be grown extensively this year. Tests of native beets show a very high percentage of sugar. Vegetables of all kinds thrive exceptionally."

**HERE AT HOME.**

Marquette Citizens Gladly Testify.

It is testimony like the following that has placed "the Old Quaker Remedy" so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Marquette citizen:

Mr. Charles Parr of 118 East Jackson street, foreman of Pickands' coal dock, says: "I was bothered a good deal for a long time with backache often very severe. I let it go for a time thinking it would wear off but instead it became more persistent. I then began to look for some remedy to give me relief, and seeing Doan's Kidney Pills so highly recommended I procured a box at the Stafford Drug Co. and began using them. I had taken but a few doses when I felt the pains were leaving me. Since I finished the treatment I have had no indications of return of the trouble." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

well, as do small fruits. Thousands of apple trees will be planted this spring. It has been clearly demonstrated that apples of excellent flavor can be raised here, and the farmers, after careful experiments, are satisfied that there's no more apple country in the world. Residence in the upper peninsula, and being thoroughly conversant with the possibilities of the section from an agricultural standpoint, I am frank in saying that the young man with meager capital is making a serious mistake in following the Canadian will of the west. He should come to the upper peninsula, where excellent farming land in a timber country can be purchased for a mere song; where every cereal matures and yields abundantly; where there is an active market and high prices paid for farm produce. Some of our farmers are engaging extensively in stock raising. One of my friends, E. Waterman of Manistique township, purchased a small herd of Ayrshire cattle, and several of his neighbors, spurred on by his success, contemplated engaging in fancy stock breeding on a large scale. To the man of moderate means stock raising would bring big returns. There is a limitless market for beef for local consumption, and the cut-over lands afford excellent pasturage."

**A Progressive Concern.**

Today I met E. J. Merriam, general manager of the Upper Peninsula Land company, whose offices are located in the telephone building in Detroit, and he informed me that his company has decided to start the ball rolling toward the settlement of its farm lands. This company has a million acres of timber and farming lands scattered throughout the seven upper counties of the upper peninsula, most of which he expects to be sold to buyers in blocks of a thousand acres or more and to actual settlers. "We have already disposed of considerable of the land within the past few months," said Mr. Merriam, and shall take any other offers as they come and summer in the work of inducing settlers from the overcrowded lower portion of Michigan and adjoining states to locate in the upper peninsula. The country is still undiscovered in which an honest man can earn a living without work. There is no section of the country where intelligent work is sure to meet with better success than in the upper peninsula of Michigan. The soil is wonderfully productive. There is an unsurpassed home market for all food and building material. It has the mines, lumbering and manufacturing industries afford outside employment to those who desire it.

The advantages of the woodland country of the upper peninsula for settlement are so many and so varied the comparison is difficult to make without lengthy expatiation. It will be difficult to find a more favored section in the matter of nearby markets. The iron and copper mines employing thousands of men, together with the vast number working in the saw mills, tanneries, blast furnaces, hardwood factories, chemical plants, and in the woods getting out timber, consume immense quantities of farm products and make a demand for the same at prices equalled by no other section of the United States. Where else can a settler find money produced on his own farm every day of the year? Here he can make good wages at all times cutting and hauling timber, cordwood and other forest products on his land. The future of the upper peninsula of Michigan points plainly towards its development into the great agricultural fruit and dairy land of the west; for it has the water, the climate, the soil, the luxuriant growth, and more than all, nearby markets."

**What the Farmer Can Get.**

Asked as to what steps his company was taking to induce settlers to go into the upper peninsula, Mr. Merriam said: "Well, we are offering them as good farming land as there is in the world at from \$5 to \$10 an acre; offering them land that will double in value in five years without touching it; offering them land in a section that is bound to become truly great, both from an agricultural and manufacturing point of view; offering them land that if properly and intelligently cultivated will make the owners independent in a very few years; offering them land practically upon their own terms. What more could be asked? To any well-meaning, industrious man, whether farmer or not, who will write me at my Detroit office, saying how would like to purchase a farm in one of the best sections of the upper peninsula, I will quickly demonstrate the advisability of the investment. Candidly, I do not know any place on earth where a man of limited means can do better at farming than he can in the upper peninsula. Land is cheap now, you know, very cheap, but it won't always be so, and the men who get in on the ground floor are the ones who will profit most."

I should warmly recommend Mr. Merriam, and do not hesitate to advise the young farmer, or old one either, or the man who is now renting or working as a laborer in a section of the country where agricultural lands are high priced, to at least personally investigate the upper peninsula. I am honest in the belief that the man with the proper sort of go in him can do better there than in most comparatively new countries.

**LOW RATES TO HOUGHTON.**

The South Shore road is offering very low rates of fare to Houghton and return on account of the Knights of Pythias reunion on Thursday of this week. The tickets will go on sale Thursday morning. But two dollars and a half will be charged for the round trip—less than a one-way rate—good for return until the train arriving here Friday evening. In case it desired to remain at Houghton until Sunday, a person may do so by paying a small extra charge for the extension in time limit. It is expected that a considerable number of Marquette people will take advantage of the South Shore's offer.

**A GREAT SENSATION.**

I there was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I was of enormous size, suffering from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c. and \$1.00. Guaranteed by Stafford Drug Co., druggist. Trial bottles free.

Peacock's Hams and Bacon, the epicurean's delight.

**RUGS MADE OF OLD CARPET**

Address M. Traless, Clifton Hotel.

Nothing But Coke.

Will burn in any kind of a stove, furnace, boiler and give complete satisfaction. Try it and be convinced.

Use Cudaly's Kettle Rendered Lard. Pure and wholesome.

**A NEW FACTORY BY A WELL-KNOWN FIRM.**

The Petoskey Rug Manufacturing Co., Ltd., have opened a branch factory for the manufacture of Rugs from old carpets at Sault Ste. Marie, Mich. Write them for a booklet about the way they make beautiful and sanitary Rugs from old worn-out carpets. They also manufacture a new rug from new wools which has proven to be the best thing of its kind as a low-priced rug on the market and as beautiful as an Oriental. They have no agents soliciting orders; write direct. (4-22-61)

**"THE MANXMAN"**

James O'Neill Will Present It Here Monday Evening.

James O'Neill as "Pete" Quilliam in the Hill Caine-Wilson Barrett dramatization of Hill Caine's book "The Manxman," a five-act story of Manx life, will be the attraction at the opera house Monday evening, the east including a large company of well known players.

The time of the play is the present and the place of action is the Isle of Man. The first act shows "The orchard of 'The Manx Fairy Inn.' Act II, the exterior of 'The Manx Fairy Inn.' (Pete's return from Kimberley.) Act III—Pete's cottage. (The Trail of the Serpent.) Act IV—Room in Philip's house. (The thumb-screw and rack of conscience.) and Act V—Same as Act I. (The wages of sin.)

James O'Neill has never found a role more suited to his art, to the talents that have brought fame and fortune to him in many years of activity on the American stage, than that of "Pete" Quilliam, the hero of "The Manxman." This "Pete" is first discovered as a humble man at "The Manx Fairy Inn," but his love drives him forth to seek fortune, and he returns, after a long absence, loaded with riches. He claims his love, not knowing that the friend in whose care he entrusted her, has betrayed him and her. He marries her, only to have his happiness wrecked by the discovery of the perjury of his trusted friend. In the hour of his bitterness, however, he proves to be a man of the truest nobility, for he declares he cannot believe it right to punish a woman who will not love him, and lays the blame on her faithless lover rather than on her. He compels her father to take her in and takes noble revenge by leaving her to find a new and better life.

**SUPERVISORS' COMMITTEES.**

List for '03-'04 Announced by Chairman Walter Fitch.

Following are the committees of the board of supervisors announced by Chairman Walter Fitch:

Finance and Taxation—Trebilcock, O'Donoghue, Kemp, Sharon, Agnew, Roberts, McCarthy, Sink, Jacob Smith, R. T. Smith, Ayotte, Hodgson, Fred. Hoyt, Lyons, Campbell, Morgan, B. J. Goodman, Barbe, Nelson, Robbins, Nord, Wm. Goodman, Eggan, Pappin, Allen, Johnson, Kuepper, Shaw and Harper.

## Ishpeming and its Environs.

### BALL PLAYERS AROUSED.

Former Members of "Setters" Team Will Organize Within a Few Days.

There are a number of old-time ball players in Ishpeming who think they are still capable of doing good work on the diamond and they have been quietly agitating the idea of the city again being represented by a team. The start made by the Marquette fans evidently has created a desire among the Ishpeming players to again don the uniform. Back in the early nineties Ishpeming possessed a team that stood second to no aggregation north of Milwaukee. The players started in when mere boys, calling their nine the "Setters." The reputation of the team extended throughout the upper peninsula and ball cranks in many points of Minnesota and Wisconsin knew something about the work of this sturdy little aggregation. There are six or seven of the "Setters" still in the city and they have about decided to organize, using the old name. The men who have signified their intention of playing are John Goodman, "Del" Heard, Tom Lynn, "Chinney" Larson, Mike Navin and Tom Cooney. The latter is slated for the captaincy. Len Olson and Simon Olson will likely be among the new players of the team.

J. J. Kerr, who held down third base for last year's Ishpeming team, and was captain of the aggregation, will wear a Marquette uniform this year. He will play at third base. Kerr is recognized as one of the best basemen in the upper peninsula and he can usually be depended upon to play fast ball. He has taken a position as brakeman on a South Shore freight and is on a night run between Marquette and Michigan. "Sib" Larson will catch for the Marquette nine, though he will continue to live in Ishpeming.

There is talk of the Cleveland-Cliffs team being reorganized with several new players. Some of the old men have expressed a desire to play this season. There will be some rivalry, with prospects of several warm contests, between the Cleveland-Cliffs and the "Setters." The latter will be obliged to procure new uniforms. The Cleveland-Cliffs team has a good outfit, purchased last season.

### Indoor Game Outdoors.

The traveling men's teams of the county will play ball again this summer. They are talking of introducing the indoor game on an outdoor field. The diamond would be the same size, or perhaps a little larger, than the indoor diamond, but the ball and bat would be the same. Many of the traveling men have such weight to carry that they dislike running the long bases. And, besides, the "indoor" game is more to their liking.

### NEW HORSES AND VEHICLES.

The Ishpeming Livery company has just added six new driving horses, also some new vehicles, to its outfit. The horses were purchased from Kaufman & Son. All the horses were thoroughly tried out before the company accepted them. They are gentle and can be driven alongside a moving street car or locomotive without fright. Some of the old horses have been disposed of to make room for the new stock. The management of the company is spending money freely in the improvement of the stable and the equipment. Manager Stickey has a number of changes in mind that will add to the betterment of the service.

### CHEAP RATES TO HOUGHTON.

The South Shore people are offering a very satisfactory rate for fare to the Pythians and others of the county who will attend the reunion at Houghton tomorrow. To those who go from Ishpeming Thursday and return Friday a rate of \$2.50 will be given for the round trip; to all who go up Thursday and return Sunday the tickets will be a little more. About forty members of the local lodge, including the degree team, will go up.

### SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I have never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by the Stafford Drug Co.

### AND STEP BY STEP SINCE

time began, we see the steady gain of man, immortal in endurance, and conquer by the will-tried lance, the lance of life insurance. Insurance. Today. Also. Annuity. Endowments, etc. 5th year, doing business in 25 states. Nat'l Life Ins. Co. of N. Y. (Mutual.) ORGANIZED 1850. M. W. Marshall, General Agent, Marquette, Mich.

We are selling sixteen-inch pine slabs at \$3.00 per load. Consolidated Fuel & Lumber Co. (11-24-11)

### INVALIDS WOULD STEP QUICKLY

In if they could, and they gaze with wonder when healthy men hesitate to insure. The word wonder, when they can't and those who pay the price of income for life. So insurance and annuity are often better understood by those who can't and those who didn't. Meanwhile we serve those who come in time. Nat'l Life Ins. Co. of N. Y. (Mutual.) ORGANIZED 1850. M. W. Marshall, General Manager, Marquette, Mich.

### WILL LIVE FOREVER.

Stetson's "Uncle Tom's Cabin" Here Next Monday Evening.

Stetson's Uncle Tom's Cabin company, said to be the biggest aggregation of its kind in America, will hold the boards at the local theater next Monday evening. There are thirty-eight people, twenty white and eighteen colored, in the troupe. Eleven ponies, several "blood hounds," chariots, etc., are carried. The band is composed of white men, while the drum corps is made up of colored people of both sexes. The drum corps will be the largest that has ever visited this section. The Stetsons show plays to large houses everywhere. Two quartets are carried and many single specialties are given. The company plays at popular prices, and as a rule hundreds are turned away from the theaters. The prices will be twenty-five, thirty-five and fifty cents, the latter for reserved seats, which will go on sale Saturday morning.

### ROBBED THE GRAVE.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Stafford Drug Co., drug store.

### ISHPEMING IN BRIEF.

Simon Wahlman is spending a week or ten days in the East.

Trombly's orchestra will give a hop tonight at Anderson's Hall.

The second annual report of the Good Will farm has been received at the library.

The party of geological students who were here conducting research work left yesterday for Madison, Wis.

New sidewalks are being laid in front of the Blackney building and the Ishpeming Livery company's stables on Pearl street.

A new foundation is being put in at the residence of John E. Skoglund on First street. Other improvements will be made on the property.

Sheriff Ponglase was in town yesterday serving subpoenas on Ishpeming men who have been selected for jury service at the next term of court.

Rev. Mr. Coombe of Calumet will occupy the pulpit of the Methodist church next Sunday. Rev. Dr. Dawe of Detroit will preside the Sunday following.

John Farm, who arrived home a few days ago, brought a high-bred stallion from Cashton, Wis. He sold the animal to Joseph Goldsworthy of this city.

Herbert E. Stewart, commercial agent of the St. Paul road, was here from Houghton yesterday. He is the successor of S. H. Vaughan, recently promoted.

Charles Benedict, who left here over a year ago to take a course of training preparatory to entering Uncle Sam's navy, arrived home yesterday on a visit to his parents.

Losselyong Bros. announce elsewhere in this issue that they are still dealing in farm machinery. They handle the well-known Fish Bros.' wagons and the Smalley plows.

Peter Fitzpatrick is making some improvements at his dwelling, corner of Houghton and Pine streets. The construction of a veranda extending the entire length of the building, is among the work being done.

Mrs. F. J. Wright, who has held the position of house-keeper at the Nelson House for some time past, has resigned to accept a place in Milwaukee, Wis. Miss Sadie Benedict, who has been employed at the hotel for several years, succeeds her.

Thomas Bettison was severely injured at the Schichers mine late Saturday night. He fell eighty feet and struck his head against some timbers, making an extensive scalp wound. He also was badly bruised about the face. His hurts were dressed at the hospital.

Dr. T. A. Feleh, wife and daughter expect to leave today for New Orleans to attend the meeting of the American Medical association. They will join Dr. and Mrs. Beach of Champion there and together the party will later make an extensive trip through the southern and eastern states. They expect to be absent for a month or six weeks.

Rev. Mr. Fosnes, who leaves here next Sunday evening for Clear Lake, Iowa, will be tendered a farewell supper tomorrow evening at the home of one of his parishioners. A number of friends will attend. Rev. Mr. Fosnes' departure from Ishpeming is very much regretted by the members of the Norwegian church, as he is one of the most popular pastors ever stationed here.

### JOINTS LIKE RUSTY HINGES

are among the consequences of rheumatism. The sufferer can move knees and elbows, but the effort makes him wince. He realizes when a good rubbing with Perry Davis' Pain-Killer drives the stiffness out and brings the freedom of motion back. No wonder our grandfathers believed heartily in this benevolent liniment. There is but one Pain-Killer, Perry Davis'.

Foley's Honey and Tar contains no opiates, and will not constipate like nearly all other cough medicines. Refuse substitutes. Sold by People's Drug Store.

### A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. Stafford Drug Co., Desjardins Pharmacy, The People's Drug Store. (11-1-0m-0)

## Noted Michigan Railroad Man.

E. W. Barber, Secretary and Treasurer of Grand River Valley Railroad Co., and Prominent Editor, Tells of Magic Egyptian Oil.

In case of accident, where someone is badly hurt, or in cases of croup, where the child is choking to death and the doctor is several blocks or more away, people are apt to use their heads and the sick or injured die from want of an emergency remedy. In such cases, if there is in the house some handy remedy that is known as a panacea for all ills and complaints, it is many times saved. People get used to having a remedy setting around the house handy in case of emergency and thus never lose their heads when there is necessity for quick work to save a life. Dr. Colwell's Magic Egyptian Oil is just such a remedy. It cures croup, diphtheria or sore throat; gives instant relief to the terrible pain of a burn, scald or bruise; relieves immediately

Hon. E. W. Barber, Jackson, Mich.

the tortures of rheumatism, and cures it absolutely in a few days, no matter how bad the case; stops carache or toothache as quickly as applied; stops diarrhea, stomach cramps or cholera morbus; is a positive cure for quinsy, or any throat or lung trouble; takes all the soreness of frost-bites or chilblains or swelling from the feet; stops the aching of corns and bunions, and, in fact, it is the most magical and wonderful remedy in the world, causes you rub it on the outside or take it internally, or both, and it cures and cures instantly.

For several years, after the amputation of a leg just below the knee, in 1881, I had much trouble from trying to wear an artificial limb, which caused soreness and pain in the stump, and all applications for relief failed until I tried Magic Egyptian Oil. It relieved the soreness and pain so that for the past few years I have had almost no trouble. For as it has been a remedy of inestimable value. Two years ago my wife had a serious stomach difficulty, with intermitting pain, caused by indigestion, which was immediately relieved by a teaspoonful of the oil taken with a little sugar and water. The effect was magical. It is a remedy that every household should have, as its use will save many a doctor's bill. I always keep it on hand. E. W. Barber, secretary and treasurer Grand River Valley railroad.

Dr. Colwell's Magic Egyptian Oil is for sale by all druggists at 25 cents per bottle. It is a remedy that every household should have, as its use will save many a doctor's bill. I always keep it on hand. E. W. Barber, secretary and treasurer Grand River Valley railroad.

R'y and Republic daily, From Chicago, Milwaukee, Green Bay and Intermediate points via C. M. & S. P. R'y and Republic through train service, From Duluth, Superior, Ashland, Ironwood, Ontonagon, Houghton, the copper country and Intermediate points.

DANGER OF COLDS AND GRIP.

The greatest danger from colds and grip is their resulting in pneumonia. If Chamberlain's Cough Remedy taken, all danger will be avoided.

DREADFUL ATTACK OF WHOOPING COUGH.

Mrs. Ellen Harrison, of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough; one of them in the paroxysm of coughing would faint and bleed at the nose."

IF INSURED, THERE'S HOPE.

There was a merchant in our town, and he was wretched sick. He went into an outside deal, which bulged out both his eyes, and when he found his eyes were bulged, with all his might he tried to get his life, kept at his job, and bulged them in again.

PNEUMONIA IS BOBBED OF ITS TERRORS.

By Foley's Honey and Tar. It stops the racking cough and heals and strengthens the lungs. If taken in time, it will prevent an attack of pneumonia. Refuse substitutes. Sold by People's Drug Store.

Negaunee and Vicinity.

Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription account.

FOR CLEANER STREETS.

A Taxpayer Thinks That Present Methods Might Be Improved. The condition of the streets has been the subject of a good deal of comment of late, and those who have had the most to say have not been sparing in their criticisms of the method, or lack of method, of keeping the city's highways clean.

LOCAL LACONICS.

Trombly's orchestra will give a pop at Anderson's Hall, Ishpeming, tonight. Miss Anna Engstrom left Monday night for Burke, Idaho, where she will spend the summer.

Fred Hodge, Sam Treloar and Charles Thomas expect to leave tomorrow night for Hibbing, where they have secured positions. The price of tickets for "61 to '65" which the Ishpeming Light Guard will present here May 5 will be thirty-five and fifty cents.

Alex. Maitland expects to be in Pittsburgh, Penn., for a few days on a business trip. From there he will go to Hot Springs, Ark., to spend two weeks or more taking medical treatment.

Chris Schroeder desires The Mining Journal to state that the report that he intended to leave in a short time for a visit to his native land is not correct. Mr. Schroeder says he expects to remain in Negaunee indefinitely.

J. D. Chubb of Chicago was in town Monday conferring with the building committee of the Odd Fellows. All the members of the committee are not in town, and matters are at a standstill as no further arrangements can be made until those who are absent return.

Monday a deputy sheriff took possession of a portion of Max Hershowitz's stock of furniture and removed it to the vacant apartments in the bank building in order to satisfy an execution of \$80, which had been levied on the stock by Lyons Brothers of Chicago, wholesale furniture dealers. Mr. Hershowitz conducts the "Exchange" in the Shea building.

The street sprinkler met with an accident that might easily have resulted seriously. While it was passing along Jackson street, in the rear of Rosen Brothers store, one of the front wheels broke through the surface of the street. There was a large hole over the sewer, the earth appearing to have settled or to have been washed away, leaving only a thin crust on the surface. The wheel sunk clear to the axle. One of the horses was thrown, but was uninjured. Charles McComber, the driver, jumped from his seat and landed right side up. The sprinkler was badly wrecked and a few parts were broken. A good deal of difficulty was experienced in removing it, for the ground kept caving, until the whole outfit was nearly engulfed. It was a big job to repair the sewer.

UPPER PENINSULA.

Col. C. H. McDonald of Greenview, Ill., in a letter May 1st, 1901, says, "I am an auctioneer and being often exposed to the weather, am seriously troubled by my heart, becoming irritable and hoarseness following. When troubled in this way, I always use Hart's Honey and Horehound. It is the only remedy that has ever done me any good and it positively cures." Sold by the People's Drug Store.

MEMORIAL DAY.

Memorial Day will be observed here this year with appropriate services, such as have always marked the occasion in former years. Ishpeming members of the Grand Army post will attend in a body. The Ishpeming Light Guard will have a share in the ceremonies and the Swedish and Finnish societies will probably follow the custom which they have observed for a number of years and attend the exercises in a body. The proceeds of the play the Ishpeming Light Guards will present here May 5 will be used to engage carriages in which the old soldiers will ride to the cemetery, and also to meet other expenses. The program of the exercises has not yet been arranged but will be announced soon.

LABOR UNION MAY BUILD.

A movement is on foot at the Soo for the erection of a trades and labor building. The movement has been started by the Trades and Labor council. There are many unions in the Soo, in fact almost every trade is organized, and it has become almost impossible for them to get halls in which to meet. As it is many of the unions can only find hall accommodations to meet but half the time they wish. A large building two stories in height with stores on the first floor and a hall of ample proportions upstairs is the kind of a building most talked of and it is probable that the committee will recommend the erection of such a structure.

Business District to Be Shifted.

Early last week, the National Tube works, subsidiary to the steel trust, owners of the Aragon mine at Negaunee and large holders of realty in the vicinity, issued circulars to the business men which stated that on Thursday afternoon it would offer for sale, at an average price of six dollars per front foot, building lots on Nelson street, south of the C. & N. W. track, between Harrison and Arthur streets, to those who would agree to erect buildings thereon. The sale of lots took place in the office of H. C. Blamignon, the company's attorney, and nearly every business man in the city was present. There were certain stipulations that were insisted upon by the sellers, viz: The lots were to be used for building purposes and not for speculation; the time within which buildings were to be commenced was limited and the buildings must be brick or brick veneer, with all out-buildings covered with galvanized iron. Many of the business men purchased with the understanding that they were to commence the erection of buildings within sixty days. A free site will be given for the erection of a modern hotel building. There will be a sewer system and all telephone and telegraph poles will be placed in the alleys. The sidewalks will be of cement twelve feet wide. Provision also has been made for a town hall in the new district. The transfer of the business quarter to the south side of the city is forced by the fact the ground in the present section, built over the Aragon mine, has been steadily sinking.

Gets Charcoal at St. Ignace.

Superintendent Johnson of the Newberry furnace has returned from St. Ignace, where he succeeded in making arrangements for securing a supply of charcoal from Palms during the period the St. Ignace furnace will be out of blast. The furnace at Newberry has been running under check owing to the scarcity of charcoal and it was feared that it would be necessary to shut down for a short time to enable it to get a supply of coal ahead. It is the intention of the furnace management to erect twenty more eighty-cord kilns, making a total of sixty, which will furnish an abundance of coal. The Newberry furnace is at present turning out between seventy and eighty tons of iron daily.

Young Lady's Close Call.

One her way to visit a friend, Miss Elizabeth Gille of Allenville, Mackinac county, riding on her bicycle, had to cross a bridge near the town. The road proving very muddy she rode along the edge of the bridge; her dog had followed her and she, not being aware of it, became frightened at him jumping up at her. Losing her balance she fell head first into the water, over six feet deep. Coming up the second time she managed to catch a post that was floating in the water to which she clung, crying for help. Some time when by until her cries were heard by Otto Roggenbuck, who was about a half of a mile away. He ran to her rescue and soon had the young woman out of the stream.

City Ordinance Sustained.

In the circuit court for Delta county last week the case of the People vs. Benjamin Salinsky of Escanaba was tried before Judge Stone, who affirmed the judgment of the justice court from which Mr. Salinsky had appealed. He had been tried and found guilty in the lower court of violating a city ordinance in moving a wooden building inside the fire limits against the provisions of a city ordinance covering such cases. From this judgment of the justice court the defendant took an appeal to the circuit court, with the result as stated. Sentence was suspended, however, until next term of court and upon condition that Mr. Salinsky moves the building back to its original site. Judge Stone rendered an elaborate opinion upon the validity of the ordinance in question and the value and justice of its strict enforcement by the city authorities.

Deed of a Fire-Bug.

Three barns on the farm of John Sexton at Garden, Delta county, were destroyed by fire recently, together with most of their contents. The loss foots up about \$4,500, with an insurance of \$750. Of the livestock which perished in the flames, there were twenty-one head of young cattle, seven cows, a thoroughbred Galloway bull and eight work horses. Sixteen head of young cattle were liberated from the burning buildings and in doing so Mr. Sexton and son John were considerably injured. That the fire was of an incendiary origin there is no doubt. Boot prints over a plowed field leading from the burned buildings were noticeable and a man was seen to come from that direction while the buildings were burning, by a neighbor. John McGurr, a son-in-law of Mr. Sexton, whose wife left him some time since, was suspected and was arrested but at the examination testimony sufficient to hold him was not obtained.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. Try a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boche's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. You can get this reliable remedy at the Stafford Drug Store. Price 25c. and 75c.

DO NOT BE AFRAID

To look the facts squarely in the face. That cough, racking and persistent, accompanied by tightness in the chest and spitting of sticky mucus, is a sign of consumption. Common sense dictates the use of Allen's Lung Balm, an honest remedy, since it contains no opium, an efficient remedy, since it heats the irritated, inflamed throat and lungs, and so prevents a deep-seated cold from running into incurable forms of consumption.

The surest and safest remedy for kidney and bladder disease is Foley's Kidney Cure. Sold by People's Drug Store.

WHILE THERE IS LIFE THERE IS HOPE.

I was afflicted with catarrh; could neither taste nor smell and could hear but little. Ely's Cream Balm cured it. -Marcus G. Shultz, Rahway, N. Y. Cream Balm reached me safely and the effect is surprising. My son says the first application gave decided relief. Respectfully, Mrs. Franklin Freeman, Dover, N. H. The Balm does not irritate or cause sneezing. Sold by druggists at 50 cts. or mailed by Ely Brothers, 56 Warren St., New York.

MISS SARAH FINLEY,

Vice-President of the Palmetto Club, Memphis, Tenn.

WINE OF CARDUI

Wine of Cardui is a thoroughly scientific and modern remedy, meeting the needs of the modern woman in the modern way—without the torture of an operation. Wine of Cardui has cured them in the privacy of their homes and it has found a place in the hearts of American women that no other medicine has found. In their gratitude over 10,000 American women have written letters commending Wine of Cardui. Wine of Cardui meets their wants as no other medicine does. It sustains the young girl at the shock of her entrance to womanhood. Women who take Wine of Cardui have little discomfort during pregnancy and little pain at childbirth. When the change of life appears they enter a happy, healthy old age. Every month it comes to the rescue to assist Nature in throwing the impurities from the body.

Miss Sarah Finley, of Memphis, Tenn., vice-president of the Palmetto Club of that city, speaks for herself and many friends when she bestows the following praise on Wine of Cardui:

"Amidst the numerous medicines placed before suffering women for their relief none can touch McElli's Wine of Cardui. It towers above them all as a reliable female remedy. It simply drives pain and disease away and restores health in an incredibly short period. I have taken great interest in this medicine for the past two years, since it brought health and strength to me. I have also recommended it to a number of my friends and they who have used it speak of it in the highest terms and I feel that it is praise well bestowed."

If you are suffering from female weakness Wine of Cardui is the medicine you need. You can have health the same as Miss Finley if you will take the Wine of Cardui treatment. If you need advice further than the complete directions given on the bottle, address The Ladies' Advisory Department, Chattanooga Med. Co., Chattanooga, Tenn.

WINE OF CARDUI

A million suffering women have found relief in Wine of Cardui.

### ARE READY TO MOVE

POWELL & MITCHELL TO DO PIER WORK AT GRAND MARAIS.

WILL BOARD MEN IN TENTS

WILL TAKE DOWN A TUG AND NO LESS THAN FOUR SCOWS.

Some 400 Feet of Crib and 550 Feet of Superstructure Work to Be Done—No Annoying Delays Anticipated.

Powell & Mitchell are ready to move on Grand Marais, where they have an important pier contract from the government this season. They have been spending the past few weeks overhauling their outfit in this harbor, and everything is now prepared for the start. If the weather is fair today the tug Ward will clear at once, with the fleet of scows. If it is unfavorable the various craft will lay over, but will leave as early as feasible this week. Powell & Mitchell have fitted up a complete outfit, including, firstly, the tug Ward, which the firm has owned for some years past, a derick scow, a sand pump scow, a pile driver scow, and an ordinary scow for general uses. These scows are thoroughly equipped with the various paraphernalia necessary for breakwater work.

In addition the outfit will carry various supplies, and tents for the "white city" which Powell & Mitchell plan to erect for the accommodation of their men. Their force will live under canvas while the work is in progress. There will be lots of room, and the "white city" will comprise sleeping, dining and cooking tents. The men will be very comfortably cared for. The tents will be erected at the land end of the piers on which the work is to progress.

Powell & Mitchell's contract covers one season's operations, and at the best they will busy the greater part of the open season of '03 on it. They hope to experience no delays on account of the non-arrival of material. It is expected to have all the iron work on the ground within a few days, and the supply of timber will be constant from the Grand Marais mill. At present the company is cutting at a little mill at the east bay, pending the time when the mill being erected to replace that destroyed by fire is ready to go into operation. This mill was moved from the lower part of the state. It is now well along toward completion and is expected to be started up about the middle of May.

Powell & Mitchell have about 400 feet of crib work and 550 feet of superstructure work to do. The crib work will be divided between the parallel piers, extending directly out into the lake, that furnish entrance to the Grand Marais harbor, so that they will be extended an additional 200 feet this season. The discrepancy between the crib and the superstructure work comes from the fact that some of the present crib work has not yet been built up.

Powell & Mitchell's operations will complete the pier out into the lake a distance of approximately 800 feet, but there is little doubt that they will have to be extended further. The current down the lake to the piers sweeps huge quantities of sand against the most westerly of them. It works along until it gets into the 500 foot channel, rapidly filling it up. The piers will have to be extended out in the lake until this trouble is finally obviated.

The channel is sixteen feet deep. Grand Marais is classed as a port of refuge and many craft do, from time to time, flee there to shelter. The channel takes all

medium sized craft loaded, and light, almost anything that sails the lake. However the harbor of refuge is little used by the large craft.

### 300 CANAL PASSAGES.

List of the Vessels Locked Through on the Up-Bound Trip.

Sault Ste. Marie, Mich., April 22.—Up: Murphy, Maderia, J. W. Moore, 10 p. m.; Geo. King and consorts, 11:40; Coffinberry and consorts, 4:20 a. m.; Willam Chisholm, 8; Kallyuga, Goodyear, 9:30; Yale, Portage, Pestigo, 10; Yosemite, 10:40; Alva and consort, 11:20; Rhodes, 11:30; Pioneer, Chattanooga, 1 p. m.; Troy, 2; Gayley, Domacoma, 4; Miami and consort, 5; Lefield, 7; Kirby, Parnell, 7:40.

### Notes of Marine News.

The steamer Republic cleared yesterday with ore for Ashtabula. The boat was loaded at the South Shore docks. The arrivals yesterday were the Wawatom, Colgate and whaleback barge No. 107, all of which will load in the lower harbor. There were no arrivals or clearances at the upper harbor.

The steamer Mecosta, one of the fleet which wintered here, has been chartered at Cleveland to take a cargo of ore from this port on a seventy-five cent rate.

### "FOR HER SAKE."

It Will Be the Bill at the Opera House This Evening.

"For Her Sake" will be the attraction at the opera house this evening. The play is a four-act melodrama, the general theme of which is that of the love of a prince of the blood for a serf girl, with the consequential opposition of his relatives, who hold before his eyes the law of caste, and also of the secret po-

lice; for jealousy of the prince prompts his rival to embroil him in a political conspiracy that ultimately introduces him and the spectators to the Siberian mines. The prince against whose life there is a plot enters a pheasant's hut and throws aside the long fur-trimmed overcoat worn by the men of Russia. While he sleeps one of the prince's foes, mistaking the coat in the darkness for his own, slips it on and steps across the threshold of the room. Shots ring out and the man in the borrowed overcoat falls dead in the doorway. The piece is full of similar episodes, calculated to keep the spectator on the qui vive from rise to fall of curtain. Though verging on the tragical in many of its situations, it is said that there is a well sustained comedy interest.

Superior tent, No. 28, K. O. T. M., will give a social hop at Fraternity Hall tonight. Admission, 25 cents. Good music. (4129-1d.)

Mrs. Lena L. Gibson, Moquoketa, Ia.: Rocky Mountain Tea is the grandest medicine I have ever used. I recommend it to everybody. 35 cents. The Stafford Drug Co.

DON'T FORGET TO ORDER COKE. If you need fuel why not have the best. See our big ad and learn the prices. The Marquette Gas Light Co.

### COPPERS DID BETTER.

Good Buying Demand Seems to Mark End of Reaction.

Paine, Webber & Co. said of the Boston market: "Coppers acted better today. The metal recovered twelve shillings six pence in London, and there was a decided improvement in the buying demand for Amalgamated, Copper Range and other stocks. It looks as though the reaction was over for the present, and prices will probably work up from this level. The market for railroads and industrials continues narrow, and we shall not be surprised to see coppers the only stocks on the list active enough to hold speculative interest."

Hayden, Stone & Co. wired the Laidley Commission company: "Our market continues dull, but as there were few stocks for sale today the market was stronger. With such a dull market and everybody so bearish on the New York market, it is extending to our local market, and the traders are bearish. We think that the coppers are cheap and that while there will be no sharp advance the tenency will be upward."

### Expect Recessions.

Laidley said of the Chicago market: "The wheat market opened at about last night's close, in response to slightly higher Liverpool markets. Paris was again very weak, one cent a bushel lower than yesterday. The market remained firm during the early part of the session, although very dull. Toward the close, however, prices eased off rapidly. The May option recovered a portion of the loss, closing 1/4 above last night, the July closing at the bottom, 3/4 under yesterday. The receipts and estimates are small. The Northwest receipts are somewhat under last year. Bradstreet reported a decrease of 4,752,000 bushels in the world's visible supply. The exports from the country vary, as there are some accounts of damage from wet weather in some sections. As we stated yesterday, we expect to see still further recessions in prices unless some extraordinary news should bring about a reaction.

"Corn opened firm, at about yesterday's prices, and, like wheat, remained very dull and inactive during the larger portion of the session. Toward the close, however, it sold off rapidly, upon what was believed to be liquidation of the Armour line, closing tonight 3/4 for May and 1/2 for July lower than yesterday. The receipts are a little more liberal, although the estimates are very small. The clearances are fair. Bradstreet reported a decrease of 1,251,000 bushels in the world's visible supply. As we stated yesterday, it looks to us as if some further reaction was due, and prices may work a little lower still, but we believe purchases upon a scale down from present prices will show excellent profits.

### Braced Up Late.

Dieck said of the New York stocks: "Stocks were quite weak in the early trading. The professionals were persistent sellers, and sharp declines were scored. The engagement of \$500,000 gold for export, although a special transaction, had an unsettling effect. Later came the news of the decision against the corporations in the New York franchise tax matter, and on this traction broke. Immediately, however, buying appeared and during the rest of the day stocks were strong. Money was easy. Good buying was seen in both Rock Island and Frisco shares."

A Warning—to feel tired before exertion is not laziness—it is a sign that the system lacks vitality, and needs the tonic effect of Hood's Sarsaparilla. Sufferers should not delay. Get rid of that tired feeling by beginning to take Hood's Sarsaparilla today.

KEEP YOUR HOUSE COMFORTABLE And keep your fuel bills down by using Coke. It's fine. Try it. The Marquette Gas Light Co.

RUGS MADE OF OLD CARPET Address M. Iranson, Clifton Hotel.

### CITY BREVITIES.

Today's weather: Snow and colder; brisk and high northwest winds. Yesterday's temperature: 7 a. m., 58 degrees; 12 noon, 70 degrees; 7 p. m., 37 degrees; maximum, 70 degrees.

The council will meet in special session this evening.

B. J. Goodman, Sr., of Sands and F. A. Bell of Nagannee were Marquette visitors yesterday.

C. W. Hall has been in Chicago the past few days, making spring purchases for Krofick's store.

The Degree of Honor will give a dance on the eleventh of May, as a benefit for the Sisters of St. Joseph.

St. Genevieve's guild will meet with Miss Emma Lariviere, corner of Third and Fisher streets, this evening at 7 o'clock.

The Marquette Light Infantry will hold a drill at the Casino this evening, assembling in uniform at 7:45 o'clock for the purpose.

The new Kelly road roller was unloaded and put under steam yesterday, being run up town. It seemed to work in a very satisfactory manner.

S. E. Emmons, who has been postal inspector in this district for the past few years, has been transferred to a Pennsylvania district, and will shortly leave Marquette.

There was a sudden change in the temperature early yesterday noon. The wind whipped around from the south-west directly to the north, the air chilling and sending the mercury down. A rain had been threatening all morning, but the colder weather prevented it from materializing.

The Ladies' auxiliary to the B. of R. T. is arranging for a "poverty" dance and supper, to take place at Fraternity Hall the night of May 7. A novel feature of the party will be that those who attend, ladies and gentlemen, dressed in fine foggy will be fined twenty-five cents. The admission price will be a quarter.

There is talk of an outdoor game of baseball between the high school team and a nine representing the high school alumni next Saturday, and it will not unlikely be played. The alumni would like to get some revenge for the drubbing the high school boys gave them at the indoor game, and they think they can find it on the outdoor diamond.

G. G. Seranton, of Shaw, Warren, Cady & Oakes, of Detroit, was here Monday. He was on his way home from Houghton, where he filed a petition of involuntary bankruptcy for Lena Miller. It was a result of the big Houghton fire, which destroyed the Miller store several weeks ago. Miller offered to settle for fifty cents on the dollar, but his proposition was turned down. Mr. Seranton represented big creditors in Detroit, Milwaukee and Chicago.

### DON'T!

Don't get the notion that the curative power of a medicine exists in the name. It must be in the medicine itself. You may not have heard of Re-Go Tonic Laxative Syrup. It is not made of figs because the laxative principle of figs are the seeds, yet it is as pleasant to take as figs are to eat and is a certain cure for biliousness, constipation, indigestion and stomach troubles. The name is Re-Go, which in Sanscrit means "good." The merit is all in the medicine itself. Sold by the People's Drug Store.

### PERSONAL.

If Daniel Flynn, son of the late Patrick Flynn, of Arthur township, Ontario, Canada, will communicate with James Egan, Mount Forest, Ont., he will hear of something to his advantage. Or anyone who knows anything of the whereabouts of the said Daniel Flynn, who was last heard of at Marquette, they will confer a favor by addressing Mr. Egan as above. (4-27-31)

NOTICE TO WHOM CONCERNED. After May 1, nine hours will constitute a day's work, with full pay, for the paper hangers and painters of Marquette. (Signed.) Committee. (4-24-81)

CHARTER NO. 390.
