VAST CROWD WITNESSES CEREMONIES AT ST. LOUIS.

ROOSEVELT AND CLEVELAND SPEAK

SAVE FOR WEATHER, EXERCISES ARE A GREAT SUCCESS.

Winds Raises Clouds of Dust and Temperature Is Bitterly Cold—An Amusing Feature the President's Part in a Scramble for Lunch.

St. Louis, April 30.—The buildings of the Louisiana Purchase exposition were today formally dedicated to their purpose with all possible pomp and ceremony. One hundred and fifty thousand persons witnessed the ceremonies. In every way save one the exercises were an unequivocal success, and this one was the weather. It would be difficult to imagine a more disagreeable day.

President Nearly Frozen.
The wind blew fiercely, sending great clouds of dust whirling into the faces of the troops as they marched past the president, and at times so nearly blinding the president it was well nigh impossible for him to see across the street upon which the troops were marching. Both President Roosevelt and ex-President Cleveland remained in the reviewing stand exposed to the icy winds until the end of the parade, although their faces were blue and their limbs were stiffened by the cold.

The conditions in the liberal arts building, where the dedication ceremonies proper were held, were little better. There was no wind, but there was a penetrating chill that was uncomfortable to a degree. Despite this heavy handicap, however, the ceremonies proper were splendidly handled and the program was carried out to the letter.

The parade which took place in the morning was somewhat longer in passing before the president than had been expected, but for all that he was but fifteen minutes behind the schedule when he was escorted by the committee into the liberal arts building; and in order to arrive at that time the president was compelled to take his noonday meal under somewhat uncomfortable circumstances.

Participates in an Amusing Scramble.

During lunch, which he took at the conclusion of the parade, he was shoved hither and thither by the people who had been in the grand stand. The food was placed on a counter and the president, like everybody else, "helped himself." The crowd inside the tent was dense when the president, with secret service men and Adjutant General Corbin acting as "interference," forced his way to the counter. He was so closely pressed that when he attempted to move his arm his elbow disturbed a cup of coffee held by General Corbin.

With some difficulty the officers forced the crowd back to allow the distinguished guest elbow room, but they would allow him nothing more. This maneuver forestalled the general out of range of the sandwiches, but the president devoted one hand to passing food to his escort while the other was devoted to his own advantage. Owing to his advantageous position the president soon felt called upon to help other friends, and he was kept busy passing plates, a service which he performed with alacrity and cheerfulness.

The manner of the president's lunching was sufficiently unconventional to excite curiosity, and probably 25 per cent of the people who congested the tent were present merely to witness the chief executive of the nation eating at the democratic level of a clerk in a quick-lunch restaurant.

Muffled Roar Drowns Voices.

The liberal arts buildings were handled with all possible despatch. Of all the speakers, President Roosevelt alone was able to make his voice carry further than fifty feet from the stage. By far the largest part of the assembly could hear nothing. The crowd was nearly freezing to death and thousands of people in the rear of the hall were constantly moving about and producing a muffled roar that would have baffled a fog horn.

When the president rose to speak he was cheered to the echo. He bowed again and again, suggesting by his manner that quiet be restored. Finally he mounted the broad railing in front of the rostrum where he could be seen from every part of the hall and again motioned for silence. There was everything but silence, and President Francis suggested that he proceed with his speech and quiet would follow. Roosevelt laughed and shook his head. Taking advantage of the lull, he called, "Now you, my fellow citizens, give me all the chance you can, for I need it."

Great Applause Greets Him.

A chance was given and the president began his address. A burst of applause greeted his statement that the Dutch had done great things for the country in its infancy, and the president laughed in a manner which plainly said, "That means my ancestors." During the speeches of President Francis and Senator Carter, there were brief intervals of sunshine and the crowd cheered loudly as the brightness came.

The president once during his speech requested those standing in chairs to be seated, so others behind them could

FIRE SWEEPS WIDE AREA.

Millions of Dollars' Worth of Property Destroyed in Pennsylvania.

Bradford, Pa., April 30.—Forest fires are sweeping this section tonight and millions of dollars' worth of property already has been destroyed.

Watsonville is reported burning, and it is feared a number of lives have been lost, as there is no avenue of escape for the people.

At Simpson, where the forest was thick and a large number of oil wells were located, the fire was very fierce. The woods were a mass of flames that swept over an area two miles wide, taking everything in their path. The people of the town were rescued by a special train being run as far as Davis City and brought here this evening. They lost all their belongings. The latest advices from there state the town is destroyed, and it is feared some have perished in the flames.

Fires are reported from all sections, and lumber camps and chemical factories are reported as being in ashes.

BRITISH ABANDON THE FIELD.

Campaign Against the Mad Mullah Is Postponed Indefinitely.

Aden, Arabia, April 30.—In consequence of the recent British reverses in Somaliland, it is reported here that the advance of the British expedition has been suspended indefinitely. Major General Egerton is mentioned as the successor of Brigadier General Manning. It is feared the recent victories will embolden the forces of the mad mullah to attack isolated posts.

London, April 30.—In common tonight Secretary Brodick announced the virtual abandonment of the Somali campaign. Defending the course of the government, Secretary Brodick said Captain Plunkett had been carried too far by his eagerness to attack; his advance, he said, was undertaken on his own responsibility.

STRIKE AT KALAMAZOO.

Carpenters Quit to Enforce Demands and Building Work Stops.

Kalamazoo, Mich., April 30.—Two hundred and fifty carpenters and builders struck this afternoon for better pay and shorter hours. Building operations are at a standstill.

3,000 Illinois Miners Out.

Springfield, Ill., April 30.—The miners and operators of the Ninth sub-district have failed to agree upon a plan of settling their differences, and 3,000 miners have struck.

Strike Threatens Shipyards.

New York, April 30.—The shipbuilders and employes have failed to agree on the questions of wages and recognition of the union. A strike of 12,000 men is threatened.

POWDER EXPLOSION DISASTROUS.

Nine Men Killed and a Pennsylvania Works in Ruins.

Hollidaysburg, Pa., April 30.—The plant of the Cresson Powder works, located on Piney creek, ten miles south of this town, was wrecked by an explosion today. Nine workmen were killed and Superintendent Taggart of Pittsburg was fatally injured. The cause of the explosion is a mystery. The victims were blown to pieces and the buildings took fire and are still burning. Rescuing parties dare not approach the scene as another explosion is feared, immense quantities of explosives being stored in the plant.

AMERICANS IN PERIL.

Consul McWade, at Canton, Reports an Attack on Engineers.

Washington, April 30.—The state department today received a cablegram from Consul General McWade, at Canton, dated yesterday, stating that a mob of anti-foreign Chinese had made an attack at Yuan-Tai, on North river, 140 miles from Canton, upon a party of American engineers. The consul appealed to Lieutenant Anderson, commanding the American gunboat Callao, and the officer went immediately to the rescue. The attack is not believed to be associated with the Boxer movement.

MASSACRE OF JEWS.

More Than Three Hundred Killed in Recent Rioting in Russia.

Vienna, April 30.—Private letters received here from Czernowitz say that over three hundred Jews were killed during the recent anti-semitic riots at Kischineff, capital of Bessarabia.

London, April 30.—Letters from Bessarabia confirm the accounts of the anti-semitic riots. Over two thousand stones were wrecked, not a building in the Jewish quarter being spared. There are 15,000 troops there now.

LOODY RIOTS IN TRINIDAD.

Fifteen Sailors of the British Cruiser Pallas Reported Killed.

Halifax, N. S., April 30.—It is reported here tonight that fifteen of the crew of the British cruiser Pallas were killed and a number injured during rioting at Port of Spain, Trinidad, on Tuesday. The officials at the admiralty refuse to confirm or deny the reports.

BOY INCENDIARY CONFESSES.

Says He Set Fire to Livery Stables to See the Horses Run.

Logansport, April 30.—George Craven, aged nine, of Champaign, Ill., confessed today to firing three livery stables here last week. He says he did so to see the horses run. He also says he set fire to several buildings in Champaign, and South Bend.

Claremont, N. H., April 30.—Dennan Thompson, the actor, was stricken with neuralgia of the heart today and is in very serious condition.

ROCK FILLS VALLEY

FRANK, ALBERTA, IS A SCENE OF DESOLATION.

TEN SQUARE MILES DEVASTATED

MONETARY LOSS EXCEEDS A MILLION AND A HALF.

Official Figures Place the Number of Dead at Eighty-Three and Some Bodies Will Never Be Recovered—Earthquake Blamed for Slide.

Vancouver, B. C., April 30.—An official report tonight places the number of dead at Frank at eight, and of whom fifteen were women and fifteen children.

Frank, N. W. T., April 30.—It is now definitely known that about eighty persons lost their lives here before daybreak yesterday by the sliding of the rocky top of Turtle mountain upon the sleeping village of Frank.

Besides killing eighty persons, the slide destroyed the plant of the Canadian-American Coal and Coke company, a vast amount of damage to the mine and completely devastated ten square miles of the finest and most picturesque section of Frank's Nest pass. The monetary loss exceeds a million and a half.

Many bodies of the dead will never be found, as some cabins are buried under 150 feet of rock. Only nineteen bodies have so far been recovered. Most of the corpses are mangled almost beyond recognition.

The material from the slide came down in an almost vertical wall of rock and crossed the valley, a distance of over a mile, and went part way up the foothills on the opposite side to a height far above the highest building in town.

Where once existed cozy homes, fertile farms and stock ranges, there is now nothing but huge chaotic piles of debris from the mountain, which has all the appearance of a volcanic eruption. Land which was once of great value and rapidly increasing in price on account of the known presence of natural gas as well as coal deposits, is now almost valueless. It is the opinion now that the slide was caused by an earthquake or a subterranean explosion of gas. Huge masses of rock continue to fall from the top of the mountain, making it extremely dangerous to approach the vicinity of Turtle mountain in order to make an investigation into the exact cause of the catastrophe.

KAISER ADJOURNS REICHSTAG.

Session Now Ended Among Most Important in History of Germany.

Berlin, April 30.—The reichstag completed its term today. In announcing the end of the session, Chancellor von Buelow appeared during the closing moments and read Emperor William's decree, proroguing the reichstag. Before President Billeström could rise to propose three weeks for the emperor, the socialists had left the hall.

This was one of the most important reichstags in the history of Germany. It has passed many important measures upon the statute books. The tariff law passed gives the country the highest duties ever known. The fleet bill was the most important step ever taken to give Germany a strong navy. Other measures of the term just ended were the adoption of the secret ballot system, and the abolition of sugar bounties in accordance with the Brussels convention.

During this term there were more frequent discussions of American relations than in the course of any previous term. Such discussion was generally in the form of attacks upon the commercial policy of the United States, complaints of the treatment received at the hands of American customs, complaints of the enormous preponderance of imports from the United States into Germany over German exports to America, and criticisms of the government for lack of energy in handling questions relating to German-American trade relations.

CALLS IT A MORAL SCANDAL.

Bishop of London Condemns the Vanderbilt-Rutherford Wedding.

London, April 30.—At a long session of the London diocesan conference last night the bishop of London, the Right Reverend Arthur P. Ingham, made a statement to the effect that he had three sent for an explanation from Reverend Hadden regarding the Vanderbilt-Rutherford wedding and that none had been received. Continuing, the bishop characterized the use of St. Mark's church for the performance of the ceremony as constituting a "grave moral scandal," and he expressed a determination not to enter the church "until reparation has been made for the insult thus offered to the marriage is based on the decision of the Lambeth conference of 1888, condemning the practice of marrying divorced persons and recommending that in case an innocent party to a divorce should desire to marry, the question of church service should be left to the bishop of the diocese.

HOWARD AGAIN FOUND GUILTY.

Murderer of Governor Geobel Sentenced to Prison for Life.

Frankfort, Ky., April 30.—The jury in the case of James Howard, on trial for the murder of William Geobel, today found the defendant guilty and fixed his punishment at life imprisonment.

FORCED AGENT TO OPEN SAFE.

Two Masked Men Make Off With \$10,000 or More at Britt, Ia.

Mason City, Ia., April 30.—Agent John Peterson, of the United States Express company at Britt, was compelled by two masked men to open the shipping safe in his office this morning and permit the robbers to take a package containing \$10,000. They also secured other packages of money, and after binding and gagging Peterson, escaped. Two traveling medicine men have been arrested, but Peterson is unable to identify them.

The \$10,000 package was registered and was to be transferred from the Milwaukee to the Minneapolis & St. Louis railway. It was taken to the express office, an isolated building, from the train that arrived here at 7:15 a. m. Peterson reached the office half an hour later and placed the package in the safe. He then worked at his desk until a hand on his shoulder started him, and he turned to be confronted by two robbers. The men, after compelling him to open the safe, tied and gagged him securely and placed him in the rear room. How much the men secured is not known. Except for the arrest of the medicine men, no progress has been made in the case.

Postoffice Plundered.

Evanswood, W. Va., April 30.—Burglars robbed the postoffice here last night of \$10,000 and escaped.

REBELS USE DYNAMITE BOMBS.

Ottoman Bank at Salonica Destroyed in a Raid by Insurgents.

Salonica, European Turkey, April 30.—The Ottoman bank here was destroyed by dynamite today. The Turkish postoffice and other buildings also were attacked, resulting in a panic during which two men were killed and two persons injured.

A detachment of two thousand additional troops has since arrived from Smyrna. The attack on the bank was carried out by two bands of men. One attacked the guard at the bank and the other hurled bombs.

The destruction of the French steamer Guadalquivir by an explosion yesterday leaving this port on Tuesday was evidently caused by a bomb.

In an encounter with Turkish troops yesterday at Nevrokop, eighteen Bulgarians were killed and fourteen made prisoners. In an encounter near Djum-bala a band of over a hundred insurgents were annihilated.

Many Reported Killed at Salonica.

Vienna, April 30.—Telegrams from Sofia declare the Mitylene bank at Salonica has been burned. An official telegram says that fifty other dynamite explosions occurred in different parts of the city at the same time, and that many persons were killed or wounded.

AMERICAN SHIPS SALUTE HIM.

European Squadron Joins in Welcoming Loubet Back to France.

Marseilles, April 30.—President Loubet arrived here today from Bizerta, Tunis, on board the warship Jeanne D'Arc, escorted by a French fleet. As the president's ship approached port she was saluted by the land batteries, and the American warship under command of Rear Admiral Cotton.

As the Jeanne D'Arc entered the roadstead Admiral Cotton proceeded in a steam launch alongside the French cruiser. He was met at the rail by the captain of the vessel, who presented him to M. Loubet. Admiral Cotton greeted the president and expressed the affectionate sentiments of President Roosevelt and the American people toward the government and people of France. The president cordially returned Admiral Cotton's greeting and asked the admiral to assume President Loubet's salute in France entertains the most cordial sentiments for the United States. The ship's band played the "Star Spangled Banner." The Jeanne D'Arc fired the admiral's salute and the American ships answered. The French sailors cheered America and the Yankee tars replied with cheers for France.

Later President Loubet landed and took a train for Paris.

Edward Leaves Rome for France.

Rome, April 30.—King Edward left Rome today for Paris amid a tremendous farewell demonstration.

FLOUR MILLS WIN POINT.

Railroads and Boat Lines Make a Material Cut in Rates.

Chicago, April 30.—As the result of a joint session held in Chicago today between Eastern and Western railroads and lake lines, the rates on grain and grain products have been reduced two cents per 100 from Chicago to the seaboard. The traffic men united in protesting that the interstate commission (threat to institute proceedings if the rates were not lowered had not the slightest influence in producing the result. It was asserted that commercial conditions alone supported the cause for the rate reductions. The mills of the twin cities will now, it is asserted, begin working again to their capacity.

Thomas Testifies at Coal Inquiry.

New York, April 30.—R. Thomas, president of the Lehigh Valley railroad, was a witness before the interstate commerce commission this afternoon. He told of the handling of coal and of the agreement with independent operators, and said the importance of that contract was overestimated. He gave it as his opinion that "unrestrained and unrestricted competition was one of the worst evils to which the country could be exposed."

W. J. BRYAN ISSUES A DENIAL.

Lincoln, Neb., April 30.—On account of certain advertisements, William J. Bryan today issued a statement, denying that he has any interest whatever in any oil wells, oil lands or oil fields.

amusing his eccentric old age by trying to get rid of his great fortune to the profit of the world at large.

It is worth recording that a New York jury refused to convict John M. Whisker, engineer of one of the trains in the New York Central tunnel collision last year, in which several lives were lost.

The Chicago Tribune comments on the recent Alabama decision of the supreme court: The decision of the supreme court of the United States denying the relief asked for by a colored citizen of Alabama who was not allowed to register as a voter under the new constitution of the state does not appear to be an affirmation of the constitutionality of provisions which discriminate against the black men by allowing illiterate whites to be registered and to vote while illiterate blacks are denied the privilege.

There are still to be found in Marquette a great many people to whom the "great fire" of '08 is a vivid memory.

The fire was first discovered by Mr. Anthony, night watchman for the M. & O. Railroad company, at about half-past eleven o'clock on Thursday evening, in the engine room of the company's machine shops.

By far the most destructive fire which has ever occurred on the upper peninsula, broke out in the village of Marquette on the evening of Thursday last.

Location of Shops. The shops were situated on the corner of Front and Main streets, and included the machine shop, blacksmith shop, carpenter shop, pattern room, gas house, tank house and an office, and it was here all the repairing and car building of the road was done.

WHILE THERE IS LIFE THERE IS HOPE.

removing their goods from the stores, placed them on the docks for safety, but only, as the sequel proved, to see them at last destroyed.

The flames had consumed everything to Superior street, and now sought to advance up it to the Tremont House, situated a short distance from the corner, it being next attacked. A party had been at work here for a considerable time throwing water on the exposed end of the building and keeping it covered with wet carpets, and their exertions were at last rewarded in the flames die away and the house saved.

But One Fire Engine. The only fire engine with which Marquette is provided, is a small hand machine, which was little better than nothing.

The Cleveland Iron Mining company's ore dock, which is situated at the foot of Superior street, was the only one saved in that portion of the town, and in fact, the only one excepting that at the rolling mill, a quarter of a mile south.

Stone Warehouse Saved. In the rear of Wetmore Bros.' store is a stone warehouse, which the fire could not reach, when built, was intended to be fireproof, and it could not have had a more severe test than that given it on Thursday night.

The total number of buildings destroyed, including barns, etc., will reach over one hundred. A number of families resided in the upper stories of the stores, and, probably, their number will reach forty.

WHILE THERE IS LIFE THERE IS HOPE.

SKIN-TORTURED BABIES

And Tired, Fretted Mothers

Find Comfort in Cuticura Soap and Ointment

When All Other Remedies and Physicians Fail.

Instant relief and refreshing sleep for skin-tortured babies and rest for tired, worried mothers in warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment, purest of emollient skin cures, to be followed in severe cases by mild doses of Cuticura Sensitive Pills. This is the purest, sweetest, most speedy, permanent and economical treatment for torturing, disfiguring, itching, burning, bleeding, scaly, crusted and pimpley skin and scalp humours, as well as adults, and is sure to succeed when all other remedies and the best physicians fail. The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalded head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of worried parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures and humour remedies of the civilized world.

Upper Peninsula.

Cedar Posts Fed Flames—

Fire early in the week destroyed 150,000 cedar posts and poles piled in the yards of A. P. Hopkins & Co., two miles northwest of Escanaba. The loss is estimated at \$15,000, with insurance of \$3,000. The greater part of the property destroyed was owned by Erickson & Bissell of Escanaba. The fire is believed to have caught from bush fires that were raging in the vicinity.

The Soc's New Library—

The proposed \$30,000 Carnegie library building may be erected in the Soc during the present season. The plans, which have been presented by Architect James C. Teague, are approved and the library commission is only waiting for the return of Judge Steere from lower Michigan, when bids are to be advertised. It all depends on the bids whether the building will be constructed this year.

Means Work for a Hundred—

Finn & McGinn of Munising have closed another contract with the Chicago Lumbering company for peeling bark and lumbering hemlock and cedar. Their contract calls for peeling cords of bark, lumbering about 6,000,000 feet of hemlock and cutting a large quantity of cedar. Two new camps are now being built ten and twelve miles south of Shingleton and preparations are being made for a busy season. The Munising firm will employ about 100 men.

Illegal Fishermen Hard Hit—

State Game Warden Chapman and Chief Deputy Brewster, this week, at Middle Grounds in the straits of St. Marie, made one of the most important seizures ever made in the state and especially in the upper peninsula. Several tons of perch, bass and other fish illegally caught and found in nets were put back into the water. One hundred and nineteen nets were seized, twenty-five were burned and sixteen fishermen were arrested. The value of the nets seized is about \$14,000 and of those burned \$2,000.

Mining Company Settles—

A compromise has been effected between the officials and owners of the Millie mine, at Iron Mountain, and the relatives of the victims of the Millie mine accident, whereby the company has settled satisfactorily, so far as legal process goes, to all concerned for the lives of the four men who were drowned. For each life lost, \$1,500 is to be paid over. Two of the beneficiaries are the widows of John Davey and James Williams, residing at Iron Mountain. The two other men killed—John Richards and Henry Jaeger—were single and the money will go to relatives living across the ocean.

Human Hand Found by Dogs—

Something of a stir has been caused at Grand Marais by William Morrissey turning over to Coroner Anderson a human hand which he discovered a number of dogs playing with in the vicinity of his home on Burton avenue. From the appearance and condition of the hand, it had been buried only a short time, as the flesh was intact and mortification had not set in to any large degree. The coroner and other local authorities are investigating, but as yet the matter remains a mystery. What makes the case more curious, is the fact that there has not been an amputation of a hand made at Grand Marais for over a year.

Logging Railroad Being Demolished—

The M. Mutschkin company, of Detroit, has commenced the work of tearing up the rails of the Quinnesec logging road in Dickinson county and is shipping the rolling stock to different parts of the country. This company, whose headquarters are in Detroit, has just chased the entire road equipment and is disposing of it. There are twenty miles of rail which will be torn up and removed, several locomotives and cars, with other equipment. Some of the equipment will be shipped south for use on logging roads in that part of the country. The Detroit firm expects to have all of the rails up and the stock shipped within a month. The road was built twelve years ago.

'Phone Ordinance to Be Tested—

The telephone question is prominent before the people of the Soc at this time. Some time ago the council passed an ordinance fixing telephone rates at \$24 a year for business places and \$12 for residence. A special committee appointed to investigate the matter reported these rates as equitable and they were adopted in the ordinance mentioned. However, the Michigan Telephone company ignores the action taken by the city. The company now charges \$36 for business and \$24 for residence phones. Several citizens have each tendered to the company the price fixed by the city ordinance, but in each instance the tender was rejected. A movement is on foot to test the validity of the ordinance regulating telephone rates and many will anxiously await the outcome of the proposed litigation.

HERE AT HOME.

Marquette Citizens Gladly Testify.

It is testimony like the following that has placed "The Old Quaker Remedy" so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Marquette citizen: "Mr. Charles Parr of 118 East Jackson street, foreman of Pickands' coal dock, says: 'I was bothered a good deal for a long time with backache often very severe. I let it go for a time thinking it would wear off but instead it became more persistent. I then began to look for some remedy to give me relief, and seeing Doan's Kidney Pills so highly recommended I procured a box at the Stafford Drug Co. and began using them. I had taken but a few doses when I felt the pains were leaving me. Since I finished the treatment I have had no indications of a return of the trouble.' For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

When there was competition at the Soc,

the company's rates were \$24 and \$12.

Damage Suit Settled—

The suit which was brought some three years ago by Mrs. Annie Jones of Ontonagon, as administratrix of the estate of Ole Jones, against C. V. McMillan & Bro., for \$20,000, has been settled by the defendants paying Mrs. Jones the sum of \$450 in full settlement of her claims. Ole Jones, the plaintiff's husband, received injuries while working for C. V. McMillan & Bro. in the erection of their mill which resulted in his death a few days afterwards. This was in November, 1899. Mrs. Jones, as administratrix of the estate, brought suit against the firm for \$20,000 damages. The case was tried in the Ontonagon county circuit court at the February, 1901, term and a verdict for \$4,202.90 was given the plaintiff. The case was appealed to the state supreme court and the verdict of the lower court was knocked out. Last year the case came up for trial in the United States circuit court at Marquette and a verdict for \$1,200 was secured by the plaintiff. The court granted permission for a new trial, but this will now be unnecessary, as the case has been settled.

Game Law Violators Fined—

State Game Warden Chapman and his deputies have been getting busy in the eastern end of the peninsula during the last few weeks in a way that is making a lot of fellows squirm. At Newberry last week James Curto was arrested by Mr. Chapman for selling beaver skins. His examination was adjourned until Saturday next. A few days ago Deputy Coulter gathered in two trappers, John Howe and Martin E. Derry, on the same charge. The skins in their possession were confiscated and they were each fined \$20 and costs. Warrants are out for a number of other parties and interesting times are promised for the next few weeks. The Tahquamenon river district is the best game region in the state, and it has been an open secret for some time that the violations of the game laws have been most flagrant. The crusade against violators of the game law, however, is not confined to the eastern end of the peninsula, for in Gogebic county Deputy Brewster, who had been operating in that section for a few days has caused the arrest of Roy Wingardner of Wakefield. The prisoner was arraigned in justice court, pleaded guilty to the charge of having green deer hides in his possession, without license tags attached, and paid a fine of fifty dollars and fifteen dollars costs. Wingardner admitted that he took out no license to hunt deer last fall, and Warden Brewster has several other cases pending against him which may be pushed.

Still After Men Who Robbed Them—

The series of Raber & Watson embezzlement cases, which have now become famous throughout this part of the country, but which were supposed to have been ended when Charles Vroman was sent to the branch state prison at Marquette and Charles Sjoquist, his accomplice, was fined \$500 and released on suspended sentence, seems to have not yet seen their end. An officer has left Menominee for the west to bring back another man who, it is alleged, is implicated in the steal. With Archie V. Freeman, the former trusted business manager of Raber & Watson's interests in this part of the country, and Charles Vroman, formerly an inspector in the employ of the firm, who are now serving sentences at Marquette, may be more company from the same locality before next fall. Raber & Watson have had detectives quietly at work on the case ever since the conviction of the last two men and evidently do not intend to let a single person connected with the embezzlement and fraud escape. Warrants have been worn out for the arrest of Thomas Vroman, a brother of Charles Vroman, and another Iron Mountain man who is not yet under arrest and whose name cannot be given out until he is captured, and for Charles Vroman, now in the state prison at Marquette, on the charge of conspiracy with an attempt to defraud Raber & Watson out of a sum of money amounting to about \$1,000. Thomas Vroman, whose movements have been closely watched for some time, was located in Kootenay county, Idaho, and has been placed under arrest by officers of that place. An officer has left for Idaho to bring him back to Menominee, and another is on the trail of the other Iron Mountain man. The crime for which these men are wanted was committed in the spring of 1901. Vroman was then employed as an inspector by Raber & Watson, and with his brother Charles, it is claimed, made misrepresentations of the amount of timber inspected by them in an attempt to defraud their employers out of considerable money.

IN OFFICE TODAY.

New City Officers Will Assume Their Duties—Municipal Court Opens.

The new city officers will begin their service today. The city treasurer, school inspector, constables, supervisors and justice of the peace are the elective officers who will begin their terms, and all on the appointed day will also step into their positions today.

With Judge Andrews on the bench, the municipal court will be established and ready for business.

Hereafter all criminal cases and all legal business in which the city is concerned and which would ordinarily come up in a justice court will be brought before Judge Andrews. In civil cases the municipal court will not have a monopoly by any means, but will share with the justices of the peace, who will continue in business as long as they are usually assessed against prisoners convicted of petty offenses will not be divided between the justice and the officer making the arrest as formerly, but will go directly into the city treasury and the expense will be used to defray the expenses of the court. The judge's salary and the matter of hiring a clerk will be considered at the coming meeting of the council.

Mr. Andrews has intimated that he may bring about some innovations in his court. He has been studying the charter carefully of late and in his research he found an ordinance relating to the duties of the city attorney. The ordinance reads: "The city attorney shall act as attorney and solicitor for the corporation in all legal proceedings in which the corporation is interested; he shall prosecute for all offenses against the ordinances of the city." Mr. Andrews lays strong emphasis on the last clause and if he succeeds in enforcing it in the spirit of its literal interpretation the city attorney will have to be on hand at every trial, little or big, that comes up in the court to act as the public prosecutor. This part of the ordinance has become practically obsolete, as it has never been enforced.

The hours and minor rules of the court will probably be announced at the first sessions today. The apartments are not very well provided with furniture, but will be fitted out in better style after the council meets and makes an appropriation.

NEW SUNDAY SERVICE.

Sunday a new schedule will go into effect on the L. S. & I. and the associated roads. Two trips are made through to Munising and return and one trip to Marquette and back, thus providing an excellent service. Sunday trains on the L. S. & I. have always been largely patronized during the summer months, as the trip to Munising affords an opportunity for a long day's outing in an ideal place. The fare is also very reasonable.

The schedule of Sunday trains is as follows: Train leaves Ishpeeming 7:25 a. m. for Marquette and Munising.

Train leaves Ishpeeming 10:30 a. m. for Marquette.

Train leaves Ishpeeming 6:00 p. m. for Marquette and Munising.

Train arrives at Ishpeeming from Munising and Marquette at 10:00 a. m.

Train arrives at Ishpeeming from Marquette at 5:55 p. m.

Train arrives at Ishpeeming from Munising and Marquette at 9:05 p. m.

The fare to Marquette and return will be fifty cents; to Marquette & South-eastern stations, 81, and to Munising railway stations, 81.25. There will be no change in the week day service.

FRED BENNETT AS "UNCLE TOM."

The ever-welcome play, "Uncle Tom's Cabin," will be produced at the Ishpeeming opera house next Monday evening on an elaborate scale, under the management of Leon Washburn. The part of "Uncle Tom" is played by Mr. Fred Bennett, probably the best-known impersonator of the character in America, as he was the original Tom in Stetson's company, which has been before the public for many years. Misses Kitty Morgan and Bertha Crooks are the Fannies, and Nick Glinn and George Harris play the character of Marks, the lawyer. There will be forty capable people in the cast who are players of more than ordinary ability. Among novel specialties introduced will be the buck dancing of Tom Kelly, superb vocal numbers of the Ladies' Creole Quartet and the Lone Star Male Quartet. A street parade will be given at noon.

CANADIAN STUDENTS.

A large party of students from McGill University, Toronto, Canada, will arrive here tonight on the 11:50 train. They are on the way to the copper country to do geological work. The majority will go straight through, but some of them may remain here for a day or two, as the tickets are good to stop over at Ishpeeming. Dr. Adams, professor of geology at McGill, will be in charge of the party. This is the first time that students from the Canadian university have visited this section on a similar errand, but if the trip is successful other parties will probably be sent out.

MADE YOUNG AGAIN.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens' again," writes D. H. Turner of Dempscytown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c at The Stafford Drug Co.'s drug store.

A TALLOW CANDLE.

is a bright light compared with total darkness, and a small insurance will return to a large amount. 4th year, doing business in 35 states. Nat'l Life Ins. Co. of Vt. (Mutual) ORGANIZED 1850. W. Marshall, Gen. Mgr., Marquette, Mich.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Sold by People's Drug Store.

CHANGE AT URBAN.

Mrs. V. Gignass Retires from Management and Will Reside at Greenwood.

Today Mrs. V. Gignass will retire from the management of the Urban House, and, together with her husband, will take up her residence at her new home in Greenwood. Mrs. Gignass and Mr. and Mrs. Levalle have assumed the management of the hotel. Thomas J. Jordan, the clerk, will remain until the middle of the month, when he will leave for a visit at his home in Missouri. He has not decided as to a new position, but will probably return here from Missouri within a month or six weeks and will either take the management of a hotel or launch into the business on his own account. Mr. Jordan has been at the Urban for about four years, for three years on his own. John L. Bohn, the proprietor and ever since Mrs. Gignass took control eleven years ago. His long experience has made him thoroughly acquainted with the business. He is an excellent hotel man, and popular with his patrons.

The Urban is a fine business. The extensive improvements just were made some time ago put the house in first class condition.

GREATLY ALARMED.

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by Stafford Drug Co.

ISHPEMING IN BRIEF.

W. G. Curtis of Menominee was in town yesterday.

George H. Nicholas of Menominee was an Ishpeeming visitor Wednesday.

Richard Quayle is here from the Helen mine, Michipicoten, visiting friends and transacting business.

The tourist club will give a dance to-morrow night at Anderson's Hall. The price of admission will be fifty cents.

Hardwood floors are being placed in the Graycock building, at the corner of Second street and Cleveland avenue, occupied by Peter Gummerson.

The infant daughter of Octave Poquette, of Morris street, died yesterday. The funeral will be held tomorrow afternoon from St. Joseph's church.

The Carpenter-Cook company announces elsewhere in this issue that its wholesale grocery establishment will close every Saturday at noon, commencing to-morrow.

The funeral of the late John McHugh will be held this morning at 9 o'clock from St. John's church. Peter McHugh, son of the deceased, and wife, arrived here yesterday morning from Duluth.

There was an error in the announcement of the death of Mrs. L. E. Bancroft in these columns yesterday. The name Benedict was used instead. The date of the funeral has not yet been fixed.

John Ryan and wife, who left here five years ago for their native place in Ireland, have returned, and will remain here permanently. Mr. and Mrs. Ryan spent some years in Ishpeeming before going abroad.

Friday evening, May 29, the local French society will give a ball at Anderson's Hall for the purpose of raising funds to defray the expenses of the delegates to the meeting of the French societies of the upper peninsula, which takes place in June. Trombly's full orchestra will provide the music.

Nearly a foot of snow fell here between Wednesday noon and yesterday noon. Many of the business houses used sleighs in preference to wagons yesterday. The temperature dropped below the freezing point, making the weather anything but agreeable. The mercantile establishments did very little business yesterday and the streets were almost deserted, particularly during the forenoon.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. You can get this reliable remedy at the Stafford Drug Store. Price 25c. and 75c.

Mr. C. L. Hizer, of Lincoln, Ill., says: "I have been a sufferer from constipation for the past twelve years, with severe gripping pains in my bowels nearly every day. Since I began taking Re-Go Tonic Laxative Syrup my bowels have moved freely without gripping. It is certainly a wonderful laxative." Sold by People's Drug Store.

WHAT IS FOLEY'S KIDNEY CURE? Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically combined to get their utmost value. Sold by People's Drug Store.

Republic.

J. Morrison of Crystal Falls visited Scott Rowland here this week.

John Carlson is erecting a fine barn on his home. Charles Calstrom is doing the work.

Carl Jacobson has opened a shoe shop in the Frizzie building, adjoining the Everson Hotel.

Louis Besse left one night last week for Mexico, where he will conduct diamond drill work.

Dave McHugh, a former resident of Republic, has been in town the past few days, visiting Miles Sealy and family.

Oscar Antilla will not buy B. Levine's farm, south of Republic. The men could not agree on terms, so the deal has been declared off.

Jake Scholtzen's logs arrived in the bay early in the week. The shingle mill will be started up soon, as the repairs to the machinery are about completed.

A few members of the local Knights of Pythias lodge took in the reunion at Houghton Thursday. Pythians from nearly every town in this region were present.

Mrs. I. Lallerstedt, the milliner, who spent three days in Republic last week, intends to pay the village another visit about the 15th of May, when she will display a line of children's hats.

Forest fires did some damage out here early in the week. On Monday the flames were traveling rapidly along the right-of-way of the Chicago & Northwestern line, between here and Champion.

Mrs. B. Levine left last Friday evening for Chicago, where she will spend a week or two with her daughter, Mrs. J. Davidson, who is confined to a hospital there. Mr. Levine went down Monday night to remain a few days.

Arthur Ruttenberg, for some years in business at Ishpeeming, spent Monday in Republic. He recently closed out his business at Calumet. Mr. Ruttenberg intends engaging in business again as soon as he decides on a new location.

It is pretty generally understood that the change in the passenger schedule referred to in last week's Republic items will go into effect on the South Shore line in spite of the protest filed by the business people of the village. The change will be inaugurated next week, it is said.

The members of the Republic band are under many obligations to the young people comprising the Kendall Dramatic company, who produced the comedy "McGilly's Widow" for the band's benefit. The net proceeds were larger than the band expected. The band will make good use of the money, as some new instruments and music are needed to properly equip it.

Louis Miller, who did the decorating at B. Levine's store when the interior was rearranged about two years ago, visited here Monday, having stopped off on his way from Lake Linden to Chicago. Mr. Miller is now in the clothing and furnishing goods business at Lake Linden. He is a brother of Mose Miller, who is in Mr. Levine's employ.

Here he has dressed the windows of the Levine store.

The snow storm this week will keep a number who planned on an early fishing trip from going to the streams, for a few days at least. Several had arranged to go Friday, and others had prepared for an outing Sunday. There is better fishing in the streams near Republic than at any other point in the county. A drive of from four to ten miles will bring the sportsmen to a number of desirable fishing resorts.

The first and second ball teams met last Sunday. The contest resulted in a victory for the second nine. The score was 21 to 20. Up to the seventh inning, the first team had the better of the game, but during the last two innings the runs piled up rapidly for the other nine. The game caused no little excitement and the rivalry between the aggressive nine is now intense. The men of the first nine are talking money, and it is not unlikely that a contest for a wager will be arranged.

Mrs. William Hocking, Sr., whose illness was mentioned in last week's items, passed away Sunday afternoon at 2 o'clock. Mrs. Hocking had been unable to continue house-keeping, so she had spent three or four months with her daughters. The previous Monday she had felt so well that she concluded to take a walk up to her home to see if everything was in order. On her way she was seized with paralysis. One of her daughters was with her. Assistance was obtained and the old lady was taken home, where she remained in an unconscious condition until death came. The deceased was seventy years of age. She is survived by her husband, three sons, William, Albert and Homer Hocking, and three daughters, Mesdames George McDonald, J. A. Kingstedt and Mary Vincent, all residents of Republic. The funeral was held Wednesday afternoon from the Methodist church. The services were conducted by Rev. W. J. Harper of Iron Mountain, formerly pastor of the local church.

TO DETERMINE VALUATIONS.

Assessor Will Soon Send Out Blanks to Be Filled by the Taxpayers.

In a short time taxpayers will be reminded that the assessor is making out the tax roll, for blanks will soon be sent out to all their number with the request that they act promptly in making out an accurate list of all their taxable possessions.

The unfavorable weather has given baseball a set-back and it is doubtful if there will be any practice until the middle of next week.

The party of Soo Pythians bound for Houghton spent some time here yesterday while their train was waiting to make connections with the Northwest.

Isaac Treudo is spending the week in Chicago. He will return with a carload of cattle for his farm near here.

W. S. Johnson, who has conducted the big boarding house at the Beaufort mine for some time past, has decided to move back to Keweenaw Bay, where he will engage in the same line of business.

Frank Goodroe has ordered a new gasoline engine from a Negaunee, Wis., firm for the Beaufort. It will be eight-horsepower and is guaranteed to do good work.

The township officials have called for bids for the construction of 2,000 feet of sidewalk, starting on Second street near the Methodist church and continuing to the cemetery.

"Dick" Brown of Michigan was the only person present who put money under the court house corner stone at Marquette last Saturday.

The operators of the Beaufort and Ohio mines have done no little improvement work at the properties during the past year.

Already arrangements are being made to rebuild the burned district, and we hear of several stone blocks to be commenced immediately.

The annual meeting of the Michigan fire department will be held this (Friday) evening.

To save a life, Dr. T. G. Merritt, of No. 760, Michigan, Pa., made a startling test resulting in a wonderful cure.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's Warranted Syrup of Tar if it fails to cure your cough or cold.

We have been employed to act as the attorneys for the trustees of the Military Road lands belonging to the Ayer estate to protect said lands against trespass or pillage.

DID MUCH DAMAGE

STORM BLEW DOWN SOME FIFTEEN ELECTRIC LIGHT POLES.

WIND'S VELOCITY WAS TERRIFIC

TELEPHONE SERVICE ALSO SUFFERED SEVERELY YESTERDAY.

Superintendent Retailic Made Temporary Repairs to Secure Light for Last Night—Suspensions of Outdoor Activity.

An April blizzard is the novelty that Marquette people had an opportunity to experience yesterday, but they did not appear to be particularly enamored with it. Wednesday's sleet and rain storm turned to snow over night, and yesterday morning it was falling and being whirled around by the wind at a merry rate, several inches accumulating on the ground in level stretches and pretentious drifts here and there being in evidence. The snow fell and the wind howled with little lull until afternoon, when the sun appeared, a fair augury of the thaw that is coming to again convert the streets into formidable mud lanes for the brief period that it will take to dry them up. The storm caused a general suspension of activity, both on land and sea. All outdoor work had to be stopped, and there were no clearances from either harbor until late in the afternoon. The high seas make it safer for the various boats to remain in the harbor, and there was a big fleet in shelter. It will be thinned out today by clearances, as the storm was rapidly subsiding last evening.

The combination of sleet storm, with the accompanying ice, and yesterday's snow was one made to prepare work for the linemen, and they had plenty of it. The heavily laden wires caused much trouble. In some instances they broke; in others they became disarranged, in either case interfering materially with the telephone and electric light service. All the linemen worked overtime yesterday repairing the havoc wrought by the storm, a task with which they had made good progress by nightfall.

The electric light and power commission was the greatest individual sufferer as a result of the storm. Early yesterday morning, when the wind was blowing a tremendous velocity, its poles this side of the Holy Cross cemetery, along the tract of land lumbered by Taylor & Gordon during the past winter, began to go down, and before the havoc ceased a half mile of them, no less than fifteen, were level on the ground, causing an entire suspension of the electrical service for the day. These poles were slightly rotted, but nevertheless they were strong enough to withstand any ordinary blow. People who were about in the early hours of the morning say that the wind was almost irresistible.

Yesterday Superintendent Retailic and his men labored long and without cessation to make good the damage, so that the city might be supplied with light last evening. They rigged up temporary horses for the wires and late in the afternoon had everything ready for turning on the power, a result that was only obtained by the most strenuous efforts. Permanent repairs of the dismantled pole line will be undertaken at once.

In the residence districts there was much complaint of trees and shrubbery bent down and broken, in many instances badly damaged, by the weight of the snow and ice.

SOO CANAL PASSAGES.

List of the Vessels Locked Through on the Up-Bound Trip.

Sault Ste. Marie, Mich., April 30.—Up: Andaste, Black, 9:30 last night; Stafford, McWilliams, 9:40; Tecumseh, 10; Strathcona, 11; Algonquin, 12; Neilson, Maia, 2:30 a. m.; Theano, 7; Mary Elphick, 8:30; North Star, 9:40; Linden, Wail, 12 noon; Hutchinson, Chas. Best, 2 p. m.; Houghton, Bryon Mawr, 3; Scranton, 5; Turner and consorts, 6; Queen City, 8.

No Work Done on the Docks.

The snow storm and the heavy seas on the lake kept the boats in port yesterday, and not until evening did any of them venture out. These were the steamer Warner and her consort, the Thompson, the former loaded with copper taken on at Lake Linden and the latter with ore loaded at the South Shore docks here. No work was done on the docks, and in consequence the departure of the Colgate and her tow, the whaleback barge No. 107, loading in the lower harbor, was postponed until early today. Other vessels in port last evening were the Wawalam, Republic, Choctaw, Andaste, Runnels, Pioneer, Chattanooga, Mesota, Centurion, Kaliyuga and the line boat Gould. Of these, those loaded were expected to leave about midnight. The Centurion is still discharging coal, and the Mesota will take on ore at the South Shore docks Saturday.

FIRST TIME THIS SEASON.

"The Manxman" Has Never Before Been Produced in the States.

"The Manxman," although it was the first of the great literary successes and although its adaptability to the drama was early recognized, has never been presented in the states before this year, when Lieber & Co. secured the play for James O'Neil, who will be seen here Monday evening in the role of "Peter" Quilliam. It was only at the beginning of this season that they were able to secure the rights, which were held by Wilson Barrett, the English actor, but as soon as they were secured the play was put in rehearsal with James O'Neil at the head of a strong cast. His appearance here will be one of the real good things of the coming season.

Mr. O'Neil was here last season in a big production of "Monte Cristo," which he could play to big houses to the end

of his days, if his ambition did not urge him to seek new conquests in other fields. He is an actor of sterling qualities and it is the unanimous testimony that he has never been more at home in a part than he is as "Peter" Quilliam, the big hearted, brave, magnanimous hero of "The Manxman."

In Miss May Buckley, a young lady of wide experience on the stage and great versatility, he has a strong and capable leading woman, and the other supporting players are said to be unusually well chosen. "The Manxman" is mounted with a wealth of special scenery and effects.

CITY BREVETTES.

Today's weather: Fair and rising temperature; fresh northwest winds. Yesterday's temperature: 7 a. m., 24 degrees; 12 noon, 24 degrees; 7 p. m., 28 degrees; maximum, 31 degrees; minimum, 24 degrees.

Severin Colman, a former Marquette resident, was here yesterday.

The Baptist Ladies' Aid society will meet at the church at 10 o'clock this morning.

An account of the great fire of 1868 will here be found this morning on the second and seventh pages.

Walter McGuire has gone out to Oregon to look into a business matter. He will be absent for a couple of weeks.

The meeting of the Young Men's Catholic society set for this evening has been postponed. It will be held next Tuesday night.

The Ladies' Aid society of the Presbyterian church will meet with Mrs. Blossom, 523 Pine street, this afternoon at 2:30 o'clock.

Pupils of the high school are preparing "The Garroters," a little play by W. D. Howells, for presentation at an early date. The first rehearsal has been held already.

Flynn and Fitzhenry are the new proprietors of the Queen City Hotel. They took charge this morning. The hotel will be remodeled and put into first-class condition.

Louis, the infant son of Octave Ayotte, aged three years, 374 Harrison street, died Wednesday of scarlet fever. The funeral was private, with interment in Holy Cross cemetery, the same day.

W. A. Ross and a number of other Marquette Pythians were at Houghton yesterday, attending the reunion of that order there. The Soo party which came in Wednesday evening got away on one of the early trains.

The Royal Arcanum will meet at Fraternity Hall this evening. A report of the work done at the recent session of the state grand council will be made by Jesse H. Young, who was elected grand sentry at the Detroit convention.

The steamer Gould, bound up, came into port for shelter Wednesday night. On account of the storm the Miami and Gehart, due here yesterday, did not get through. They are doubtless in shelter somewhere between here and the Soo.

A deed has been filed with the register recording the transfer of lot 13, Barlow's addition No. 3, from Joseph Belair to the Upper Peninsula Brewing company, the consideration being \$2,375. This is a Washington street lot on which is erected the Northwestern Hotel.

The senate passed Senator Moriarty's bill to allow the state librarian \$5,000 for the purchase of the records and briefs of the United States supreme court. There are only five sets in existence, and if the state purchases them it will be the only set west of the Allegheny mountains.—Detroit News.

A New York Central & Hudson River passenger coach left the track at Third street crossing early yesterday afternoon, and one of the rear steps was ripped off by reason of its crashing into a telegraph pole. The accumulation of snow on the track is said to have caused the accident. It was no little task to get the car back on the rails, but it was shortly accomplished.

Albert Cloutier was adjudged insane by Judge Kelsey yesterday. Cloutier was brought down from Champion some days ago, having terrorized the women in the Beacon House there. A man named Charles Raymond, who had been brought down from Ishpeming, was likewise examined, but no evidences of insanity were developed, and he will be let go. Cloutier will be taken to Newberry this week, probably today.

Today marks the opening of the fishing season, but needless to say, with snow on the ground the anglers are not as yet bothering much with their rods and tackle. The streams were pretty well down before this week's storm, but the thaw of the snow that now encumbers the ground will swell them to goodly proportions. There will be little or no fishing to speak of until the latter part of next week, and it will be about the middle of the month before the angling gets really good.

It is said that there is a possibility that the Ringling circus will make a tour of the upper peninsula again this coming summer. One of the brothers has visited this region during the past few days and although he stated that it is too early to be sure of summer dates, his advent to the north country is regarded as significant. There is also said to be a likelihood that the big Barnum & Bailey shows will be in the peninsula this year. This report seems to be grounded on the fact that the management has sent no little advance advertising matter in the form of booklets to this region. The Sells Bros. & Forepaugh circus is a certainty. It will be in Marquette the latter part of June.

THE BEST LINIMENT.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by Stafford Drug Co.

Cudahy's Kettle Rendered Lard—like mother used to make."

NOTHING BUT COKE.

Will burn in any kind of a stove, furnace or boiler and give complete satisfaction. Try it and be convinced.

MUCH STREET WORK

COMMITTEE HAS PLANNED IT FOR THE SEASON OF 1903.

WILL MAKE START NEXT WEEK

FRONT STREET, FISHER TO WASHINGTON, TO BE REBUILT.

Also a Block on Washington, Front to Third, Which Will Put the Downtown Thoroughfares in Excellent Condition.

Street work for the season of 1903 will be taken up next week. Street Commissioner French and the members of the street committee have been rather busy on getting started Monday, but the beginning of the year's operations will likely be delayed until later in the week on account of the bad weather of the past few days. There has been a considerable snowfall, and it will be some time before the streets are dry again.

Street building and street repair work will be pushed this season with greater energy than ever before, as the equipment for carrying it on is the best in the city's history. The Pitts roller, which worked two shifts last year, will be used, and in addition the new Kelly roller, just unloaded and tested, will be available. These machines will work one shift of nine hours apiece, all the street work being done in the daylight, when the best results can be obtained.

Mr. French has had a number of men overhauling the rock crushing plant, and it will be ready to go into commission the early part of next week. The crusher was in excellent condition at the windup of operations last season, and needed very little attention this spring. The crushing plant has demonstrated its excellence in every way since it was first put into commission. It breaks the rock from the city's bluffs, without difficulty, to any desired degree of fineness and in the past it has been capable of turning out much more material than could possibly be used with one roller. It is predicted that it will be able to supply the Pitts and Kelly machines with all the material they can use and that even then there will be rock left over.

Front Street Improvement. The first rolling will be done on Champion street, where there is a stretch of several hundred feet that was not finished last year. One of the first things to be done is the preparation of Front street for the roller. The street car tracks are to be brought to the proper grade and the South Shore tracks, crossing the street between Spring and Main, are to be removed. If the corner of President Fitch can be obtained, it will be understood, if the tracks are taken up, that the road will have the right to replace them as it may desire. At present these tracks are not in use, and they are one of the main obstacles in the way of making Front street a thoroughly good thoroughfare.

As soon as possible the roller will be put on Front street and rock will be hauled for grading it up and finishing it in the proper manner. It will be rebuilt between Fisher street and the corner of Washington, the block between Washington and Bishop having been completed last year. The new street will be well rounded off, so as to shed water, it having heretofore always been too flat. Cement gutters, three feet wide, will be put in between Rock and Washington, and it is expected that a great deal of new cement walks will be laid. It thus appears that extensive improvements are projected for the city's main thoroughfare, and that when they are completed it will be in very slight condition.

Along with the work on Front street will be carried on the improvement of the block on Washington, between Front and Third. This block has been in poor condition for the past year or so, and the project of rebuilding it has been much discussed, but heretofore let go by default. It will be graded up, the tracks being raised if necessary, and finished in the most approved manner, completing the regeneration of the downtown thoroughfares.

The committee looks forward to build, in about thirty blocks of new streets this season, and it expects to build them better and more durably than has ever been the case before, owing to the improved facilities now at command.

DON'T FORGET TO ORDER COKE. If you need fuel why not have the best. See our big ad and learn the prices. The Marquette Gas Light Co.

TO ALL MECHANICS AND LABORERS OF MARQUETTE. Notice is hereby given that a meeting will be held by Local Union, No. 958 Carpenters and Joiners of America, in Sigel's hall, on May, the 8th, 1903, when a lecture will be given on unionism by Organizer William B. Macfarlan. All are cordially invited to attend. (Signed.) JAS. W. KIMBELL, Recording Secretary. (4-29-04)

A LESSON IN HEALTH. Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Sold by People's Drug Store.

ANNUITIES AND INSURANCE are two different things, a put and a call as it were. Each useful and legitimate, and we invite your inspection, your confidence and your patronage. 54th year, doing business in 35 states. Nat'l Life Ins. Co. of N. Y. ORGANIZED 1848. M. W. Marshall, Gen. Mgr., Marquette, Mich.

KOEPECKE ASST. TREASURER.

He Will Handle the Books for the M. C. & P. I. S. Ry Co.

L. G. Kaufman, treasurer of the Marquette City & Presque Isle Street Railway company, has appointed A. E. Koepecke his assistant. Mr. Koepecke will have charge of the company's books and will look after the business end generally. He has been going over the accounts the past few days, and will assume his duties on the first.

SUNDAY TRAINS TO MUNISING.

L. S. & I. and M. & S. E. to Put on a Train That Should Be Popular.

The Marquette & Southeastern railway company announces that commencing on Sunday, May 3rd, a regular passenger train will leave Ishpeming every Sunday morning at 7:25 o'clock and Marquette at 8:20 for Munising. Returning it will leave Munising at 6:10 p. m., arriving at Marquette at 8:15 and Ishpeming at 9:05. Round-trip rates will be sold as follows: Marquette to Munising, 50 cents; to Yalmer, Skandia and Lawson, 75, and to Runley, Chatham and a delightful Sunday trip and outing at small cost and it will doubtless be taken advantage of by many Marquette county people.

MAY PURCHASE STR. FRIANT.

Capt. Ripley of Sault Ste. Marie in Hancock for That Purpose.

Captain Charles Ripley of Sault Ste. Marie, manager of the Sault Ste. Marie Ferry company, is in Hancock on a several days' business trip, says the Daily Mining Gazette. Mr. Ripley is there for the purpose of purchasing a steamer to be used in the ferry business at the Soo and has practically completed arrangements for buying the steamer Thomas Friant, which for several years, until last season, was used for excursion traffic on Portage lake. Last season the Friant ran between Marquette and the Huron mountains. James McRae, the owner of the boat, has a contract with the Huron Mountain club to run the boat over the same route this summer, and should the deal with Captain Ripley be made, the contract will be transferred to him and the boat will be put on that run again the coming season.

Mr. Ripley has made Mr. McRae an offer for the boat and it will in all probability be accepted and the deal closed in a day or so. After next season the steamer, if purchased by the Soo gentleman, will be used for ferrying purposes between the American and Canadian Soos and on St. Mary's river.

Mrs. Lena L. Gibson, Moquokets, Ia.: Rocky Mountain Tea is the grandest medicine I have ever used. I recommend it to everybody. 35 cents. The Stafford Drug Co.

NOTICE TO WHOM CONCERNED.

After May 1, nine hours will constitute a day's work with full pay, for the paper hangers and painters of Marquette. (Signed.) Committee. (4-24-84)
