CZOLGOSZ ARRESTED

BROTHER OF M'KINLEY'S ASSASSIN JAILED AT LOS ANGELES.

IS ORDERED BY WASHINGTON

GREAT SECRECY ABOUT AFFAIR MAINTAINED BY OFFICIALS.

President, Now in California, Is Nearing the City and Man, It Is Declared, Was Taken Into Custody Merely as a Precaution.

Los Angeles, Cal., May 7.—Acting under instructions from the secret service bureau at Washington, the police today arrested a man suspected of being a brother of Czolgosz, the assassin of the late President McKinley.

Great secrecy is maintained about the arrest and practically no information is given out concerning the man. It is known, however, that he was arrested and confined in the city jail. No charge was lodged against him, the police, it being declared, simply detaining the man on suspicion until after the president shall have left Los Angeles.

It is said that Czolgosz has been living in this city for several months. His actions have been, it is said, not out of the ordinary and no complaint has been made other than that of his relation to the assassin of McKinley.

President in California.

Barstow, Cal., May 7.—President Roosevelt, who entered California last night, made his first speech in this state this morning. The stop here was only ten minutes and the president's address necessarily was brief.

Redlands, Cal., May 7.—President Roosevelt was formally welcomed to California this afternoon by Governor Pardee and a committee of the state legislature. He responded in a brief address and after luncheon was driven through the city and parks.

The enthusiastic people gave him an enthusiastic welcome on his arrival. Escorted by militia he was driven to the Calma Hotel, the streets in front of which were packed. Opposite the balcony from which the president spoke, 1,500 school children were seated on a stand. As the president approached each of the children waved a flag and their young voices were often raised in cheers. They also sang the national air.

After the usual introduction and welcoming speeches, the president delivered an address in which he complimented the people and praised the state. Irrigation was the principal theme discussed. Grand Army veterans came in for a share of the president's compliments, as did also the children.

"The sight of these children," said he, "convince me of the truth of the statement just made to me by Governor Pardee when he said that in California there is no danger of race suicide. You have done well in raising oranges, and I believe you have done better in raising children."

At the close of the president's speech an informal reception was held, attended by the governor, members of the legislature and a few others. The party left at 3 o'clock for San Bernardino, where a brief stop was made. The next stop was at Riverside, where the night will be spent.

SPIES AT LABOR CONVENTION.

Machinists in Session at Milwaukee Find Spotters in Their Midst.

Milwaukee, May 7.—Secretary Wilson, of the International Machinists convention, stated today that in California there is no danger of race suicide. You have done well in raising oranges, and I believe you have done better in raising children.

Metal Workers' Factions Merged.

A merger of the two factions of metal workers was effected today under the name of the Amalgamated Sheet Metal Workers' International Alliance. The consolidation brings together 12,000 workers.

A SECOND INDIANOLA CASE.

Negro Mail Carrier in Tennessee Forced to Abandon His Route.

Washington, May 7.—The postoffice department was notified officially today that John C. Algood, a colored rural delivery letter carrier, while making a regular trip near Gallatin, Tenn., was stopped by men armed and masked and that he and his colored substitute carrier were warned not to continue in the service under penalty of death. Postmaster General Payne has suspended the service on the route pending an investigation, and if the reports of the affair are confirmed summary action will follow. The incident may become a second Indianola case.

ANDREW CARNEGIE DECORATED.

Order of Bolivar Conferred by Venezuela on "Benefactor of Humanity."

Caracas, May 7.—Andrew Carnegie has been decorated with the order of Bolivar, second class, as a benefactor to humanity.

EDWARD'S VISIT IMPORTANT.

Trip to Paris Declared to Mean Much in Conserving Peace.

Paris, May 7.—Baron D'Estournelles de Constant, French deputy, who was a delegate of France to the Hague peace conference, today gave the Associated Press a statement regarding the political meaning of King Edward's visit to Paris. The baron says it will evacuate in Franco-British and other arbitration treaties between great powers and declares the United States is entitled to credit for initiating this world movement.

"Only a year ago," says the baron, "Europe sought to let the Hague court die a silent death. Then President Roosevelt saved the tribunal, first, by submitting to it the dispute between Mexico and the United States, second, by obliging Germany, Great Britain and Italy to take the Venezuelan complications to the Hague court. Finally, Andrew Carnegie enriches the court by the magnificent gift of \$1,500,000. Thus, thanks to America and the Americans the tribunal is not doomed to a slow death, and even Europe has been awakened to its merits."

"France and Great Britain should now be the first to follow the magnificent example of America and bring about their long retarded reunion. King Edward's visit will have the effect of hastening this happy result. With a strong public sentiment in favor of it in Great Britain and France, the two governments will be obliged to sign conventions of arbitration, and their example will be followed by other countries of Europe."

"The United States should justly be proud of being foremost in contributing to the realization of this immense progress in maintaining the peace of the world."

STONE INDUSTRY PARALYZED.

Five Thousand Employees of Indiana Quarries Out on Strike.

Indianapolis, May 7.—Five thousand union workmen are on a strike around Bedford and the stone industry there is completely tied up. The men seek to have the wages equalized at all the quarries.

Omaha Injunction Modified.

Omaha, May 7.—Judge Munger today modified the injunction issued against the union trustees. One section which restrained the union from continuing their organization or conducting business was so sweeping as to prevent the men from holding meetings, employing counsel or even declaring the strike off, but the balance of the order remains unchanged. Fewer teams were working today than yesterday.

The sheriff tonight issued a proclamation stating that at the request of the city authorities he will assist in preserving order and warns the people to avoid violation of the law. The only arrests made today were those of a number of saloon keepers who kept their saloons open contrary to the mayor's orders.

Springfield Contractors Grant Demands.

Springfield, Ills., May 7.—The strike of the building tradesmen in this city is virtually at an end. The contractors today acceded in most instances to the demands and the men returned to work.

Pana, Ills., May 7.—John Mitchell and State Secretary Ryan of the Mine Workers' union today attended a convention of the miners of the Ninth sub-district and authorized a settlement of the strike in this region.

WILL GIVE UP MANCHURIA.

Important Declaration by Russia Made Public at Washington.

Washington, May 7.—In the Russian series of diplomatic exchanges in the recent volume on foreign relations, now in press, is given the text of a communication addressed by Ambassador Tover to the Russian foreign office relative to the announcement that China was about to sign an agreement with the Russo-Chinese bank whereby valuable and exclusive privileges were to be secured by that institution. The note brought forth an important declaration from Count Lamoriniere, minister of foreign affairs, that Russia proposed to restore Manchuria to China and would recall her troops from that province and that there was no intention to interfere with the "open-door" arrangement.

Warlike Activity in Japan.

Victoria, B. C., May 7.—The steamer Tosa Maru, which arrived this evening, brought news that unusual activity is prevailing in Japan as a result of the feeling against Russia in regard to Manchuria. The arsenals are working day and night and vast amounts of military stores are being turned out. Yokohama papers say Japan is preparing for a decisive step.

ROOSEVELT'S GIFT PRESENTED.

Rev. Fathers Baudenill and Van Antwerp Have Audience With Pope.

Rome, May 7.—Rev. Father Baudenill, former provincial of the American Passionist fathers, and Rev. Francis J. Van Antwerp of Detroit were received in private audience by the pope today and presented to the pontiff President Roosevelt's jubilee gift of ten handsome volumes containing all the presidential messages. Father Van Antwerp also presented a golden scroll containing the signatures of twenty-five thousand Americans and Canadians.

WORLD'S MOST POWERFUL RIFLE.

Army Board After Exhaustive Tests Adopts New Service Musket.

Washington, May 7.—The army board which has been for months past considering the merits of the new service rifle or musket has finally declared in favor of a weapon with a barrel only 24 inches in length and using a .30 ball. It can easily penetrate twenty-four one-inch pine planks. It is asserted it will be the most powerful musket in the world.

SPEAKS AT LONDON

ANDREW CARNEGIE ADDRESSES IRON & STEEL INSTITUTE.

IS ITS NEW PRESIDENT

HE TAKES CAPITAL AND LABOR AS HIS THEME.

Tells of the Great Success of His Company and Gives the Chief Credit to the Profit-Sharing System Early Adopted.

London, May 7.—Andrew Carnegie was installed as president of the Iron & Steel institute here today. In his inaugural address, he said:

"More and more our institute becomes cosmopolitan and confirms its sway over the world wherever iron or steel is produced. It marches forward with the times. Indeed, its mission has been to keep in advance of the times, only now and then following, but oftener making, precedents. He who stands before you today does so through one of those precedents, as the first president not a British subject. You have sought by his elevation to the highest office to emphasize the fact that this, the pioneer institution in iron and steel, knows no petty lines of separation among nations. Gentlemen, if international politics were only as harmonious as international education, industry or science, what a wonderful and beneficent change would result! This alarming race among men divided into hostile nations, for increased weapons of destruction to be used not against outside foes but against each other, would promptly cease."

"Looking over the list of your presidents, their successor is struck by the value of the services they have rendered. Great names are they, among them the chief inventors and pioneers in iron and steel—Bessemer, Siemens, Bell and others, whose names are household words. There is scarcely one who has filled the office who has not been able in his inaugural address to deal with a branch of the subject, as perhaps the recognized first living authority upon it. What a contrast the present occupant presents, who has no show of a claim to rank either as inventor, chemist, investigator or mechanic. None know so well as you fellow members, that his attention has been centered upon the business department, and that it is experience in this alone which entitles him to address you. I invite your attention this morning, therefore, to the important question of the building tradesmen in this city that most complicated of all pieces of machinery—man—which has been my province."

His Profit-Sharing Plan.

"Speaking from experience, we had not gone very far in manufacturing before discovering that perfect management in every department was needed, and that this depended upon the men in charge. Thus began the practice of interesting young geniuses around us, as they proved their ability to achieve unusual results, the source of big dividends. These received small percentages in the firm, which were credited to them at the annual cash dividend, no charge being made for good will. Upon this they were charged interest, and the surplus earned each year beyond this was credited to their account. By the terms of the agreement three-quarters of their colleagues had the right to cancel it, paying the party the sum then to his credit. This provision was meant to meet possible extreme cases of incapacity of temper or if the recipient should prove incapable of development, or of enduring prosperity. At death the interest reverted to the firm at its book value."

"The young men were not permitted to assume any financial obligation, and not until their share was fully paid by the profits and there was no further liability upon it, was it transferred to them. Thus thoughts of possible loss never prevented concentration upon their daily duties. They were not absorbed in the daily quotations, for the shares were not upon the stock exchange or transferable. This policy resulted in making some forty old young partners, a number which was increased at the beginning of each year. By this plan they were rapidly paying for their interests and promising to become millionaires of the future, which, however, proved not so very distant. They are now rich men."

Extended to Mechanical Department.

"We did not fail to see, as the works enlarged, how much success depended upon the mechanical men, the superintendents and foremen, yet not one of these had up to that time been admitted as a partner. The business and the mechanical men—office and mill—were still widely separated. Well do I remember the first attempt to bring these two departments into closer relations. It was made with our Capt. Jones, one of your members, well known and appreciated by many of you as in the foremost rank of managers, perhaps the foremost of his day in America. He came to us as a working mechanic at eight shillings per day. I explained to the captain how several of the younger men in the business department had been made partners and were actually receiving much greater rewards than he, while his services were at least equally valuable, and informed him that we wished to make him a partner. I shall never forget his reply. 'Mr. Carnegie, I am much obliged

VOTES AGAINST CHANGING NAME.

Washington, May 7.—In the Episcopal convention today the majority report opposing any change in name was adopted, eighty-eight to twenty-eight.

BIG VOTE GIVEN IRISH BILL.

Land Measure Passes Its Second Reading in Commons, 443 to 26.

London, May 7.—The adjourned debate on the Irish land bill in the house of commons was resumed today. Several speakers were followed by Timothy M. Healy, Nationalist, who said he regarded the bill as being a measure of peace which he hoped would infuse new spirit into the hearts of Ireland and England. Tonight the bill passed its second reading by the vote of 443 to 26.

John Morley, Liberal, while pronouncing the bill a bold and courageous measure, declared he had never known a bill that could be so riddled with objections. He cited some of these objections. He said the bill marked the collapse of the system by which England had governed Ireland since the union, and that it would create fresh problems and inevitably lead to further changes.

Secretary Wyndham, closing the debate, made light of what he called the "bogey of home rule" and argued at considerable length in favor of the pending measure. He urged the members not to lose the opportunity offered to settle the question, and declared he did not, despite of passing the bill. At the conclusion of his speech the division was taken and the bill passed its second reading as above stated.

An analysis shows that all the Nationalists, the main body of ministerialists and almost all the Liberals voted with the majority. The minority consisted of the radical section of Liberals, including Sir Charles Dilke, and a couple of Unionists.

GOVERNOR MAY VETO BILL.

Hard-Won Victory for the Chicago Traction Measure May Be Lost.

Springfield, Ills., May 7.—A report was current tonight that Governor Yates before the final adjournment of the legislature would send in a veto or other message affecting the Mueller traction bill, the measure the attempt to defeat which by gaveling through a rival bill led to a riot in the house. The legislature tonight declined to accede to the request of the governor for the postponement of sine die adjournment at midnight. About that hour the governor closed his office and it was stated authoritatively there would be no action on the Mueller bill by the governor tonight.

Should the governor veto the bill and not call a special session the hard-won victory for the Mueller bill is nullified and the traction situation in Chicago becomes chaotic, as the existing franchises soon expire in a number of cases. One of the principal corporations, the Union Traction company, has recently gone into the hands of receivers appointed by the federal court.

Attorney General Hamlin tonight submitted to the governor a lengthy opinion declining to pass upon the wisdom of the Mueller bill but firmly upholding its validity. The opponents of the bill claim to see in it a loophole for perpetual franchises. The attorney general declares this view not well founded. The governor has ten days in which to act.

TRAIN CRASHED INTO CABOOSE.

Twelve Men Killed in a Collision on the Canadian Pacific.

St. Paul, May 7.—Measure reports have received of an accident today at Dexter, on the Canadian Pacific, fifty miles west of Port Arthur, Ont., in which twelve lives were lost and a large number of laborers were wounded in a work train at Dexter. Their train was on a side track and the men were at breakfast in a boarding house. A passenger train crashed into the caboose, overturning the car, and the wreckage caught fire almost immediately. Twelve of those in the car were instantly killed or burned to death in the wreckage where they had been pinned by the overturning of the car. Eight others were seriously injured.

SLAUGHTERED LIKE SHEEP.

Jews in Besarabia Not Allowed to Defend Themselves.

New York, May 7.—According to the statement of the central committee for the relief of the Kishineff (Besarabia) sufferers, at least 100 Jews were shot and 1,000 persons were wounded in the recent riots. Van-loads of cripples were sent to Odessa, while terror drove many mad. The Jews were not allowed to defend themselves until after the excess had lasted three days. Not one Jewish house escaped unscathed. Christians who attempted to defend the Jews also were killed. Wealthy people were robbed of all their valuables.

EX-MAYOR AMES CONVICTED.

Minneapolis Former Executive Found Guilty of Accepting a Bribe.

Minneapolis, May 7.—Albert Alonzo Ames, once mayor of Minneapolis, has been found guilty of accepting a bribe of \$600 while chief executive of this city. After being out twenty-four hours, held up by disagreement, the jury returned a verdict of guilty late this afternoon. The usual motions were made for a stay and the arrest of the execution of judgment, to be followed by a long fight on appeal.

AMNESY ON TONIGHT.

Ames was tonight released on bonds of \$21,000.

MONITOR'S STRANDING SERIOUS.

St. Louis, May 7.—River men believe the monitor Arkansas will not be able to get away from St. Genevieve before next March, unless the June rise in the river is sufficient to release her.

VOTES AGAINST CHANGING NAME.

 MARQUETTE, MICH., MAY 8.
 Entered as mail matter of the second class in the postoffice at Marquette, Mich.
 Royalty is just now doing a lot of visiting, but too much should not be made of the fact that this king is received with great enthusiasm here and that the populace goes crazy to welcome that king there. These social amenities are always carried out in the best of good form, and for the time being the national animosities seem to have been forgotten. However, they have not. They are every whit as bitter and virulent for their concealment for the moment.

The advance of electricity as a motive power for urban traffic is well illustrated in the census report on that subject for 1902. During the twelve years succeeding the census of 1890 the length of line has increased from 5,783 miles to 16,647 miles, or 187.87 per cent; the length of single track from 8,123 to 22,589, or 178.69 per cent; the number of fare passengers carried from 2,023,010-202 to 4,813,466,001, or 137.94 per cent. The miles of single track operated by electric power increased from 1,261 to 21,920, or 1,636.97 per cent; the miles operated by animal power decreased from 5,661 to 259, or 95.42 per cent; the miles operated by cable from 488 to 240, or 50.71 per cent; and the miles operated by steam from 711 to 189, or 76.13 per cent.

A bill creating a school board for the city of Ann Arbor proposes a penalty for a member who refuses to hold office, something that, it is said, has never before been found necessary in Washtenaw county. Of course there is no salary connected with membership, but there must be something peculiar in conditions at the university city, for elsewhere, in Marquette county for instance, there is always a sufficient scramble to get on the board under identical conditions. A section in the bill effecting Ann Arbor provides that anyone who, without sufficient cause, shall neglect or refuse to accept such office and discharge the duties thereof shall forfeit for the use of the district \$10, provided, that no person shall be compelled to serve two terms successively." If such a provision is really necessary to keep the school board full it does not appear that the penalty for desertion is high enough. Almost anybody would pay \$10 to be quit of the annoyance entailed by membership in a board he is compelled, otherwise, to stay on.

The Providence Journal comments as follows on our interests in China: The rather impudent protest of the United Irish societies of New York expresses in an exaggerated fashion a not uncommon feeling. The accusation of their bodies that the state department has "a settled purpose to serve British at the expense of American interests" will no doubt be treated by the president with the contempt which it deserves. Statesmen of every age and nation have been insulted by similar charges. The name of England in particular is still a red flag to many otherwise sane and responsible persons, although Germany has of late usurped the place our kindred in blood and speech so long held unchallenged. But when the United Irish societies go on to condemn any protest against the action of Russia they must express only their own prejudices. The American people in general cannot be prepared to abandon without a word their important commercial interests in China. The semi-mythical Russian "friendship" guarantees them nothing. How our protest against them nothing is the real question. Perhaps individual action is best for the present. But the somewhat delphic statement that the

Constipation
 Headache, biliousness, heartburn, indigestion, and all liver ills are cured by
Hood's Pills
 Sold by all druggists. 25 cents.

state department does not intend to join the other powers in opposing the Russian demands and will confine its efforts to safeguarding American commercial interests seems to indicate a policy lacking in real grasp of the situation. The statement comes from Paris, and it may not be true. Already, in fact, protest has been made to China. But the nation that is content with paper assurances will most assuredly get the worst of the bargain.

The bill designed to secure the exemption from taxation of all credits, including land contracts and mortgages, was defeated in the house Tuesday afternoon by the close vote of forty-four to forty, after a period of practically no debate. It was expected that there would be a great deal said, pro and con, in connection with the proposed legislation, but the representatives appeared to have run out of arguments in the committee room, for there was little debate when the measure was brought up. The bill will be considered again later, when there is a full attendance of the members. Then, friends of the legislation predict, there will be no trouble securing a sufficient number of votes to pass it. That this bill will be the result will be the hope of a great many people who have given no little consideration to the merits of the bill in question. They maintain that the present taxation of credits is usually a double taxation, and that it is a heavy load gratuitously put on the business world, a load which does much harm in return for an insignificant tax revenue for the state.

When Leo Scott decided to declare rough house in the Hotel Montgomery, Jersey City, he was not posted as to the pluck of Mrs. Arthur Weldon, the proprietor's wife. Mr. Scott ran amok in the hotel corridors, frightening the guests and servants. He was well under way when Mrs. Weldon appeared. He had a big revolver and was flourishing it most menacingly. He was proclaiming by word of mouth that he would murder anybody who got in his way. Suddenly Mrs. Weldon confronted him. She seemed to regard Mr. Scott's demonstration as a bluff, for she seized him by an ear and twisted it in a way that made him howl. Mr. Scott drew his revolver and said he would blow her head off. Mrs. Weldon knocked the artillery from his hand and then began hammering his countenance in a way that merged his features into one shapeless mass. When the patrol wagon arrived he said they made a mistake in failing to send an ambulance and all that the plucky Mrs. Weldon said was "Shaw, that was nothing!" If that was nothing it behooves the boarders to behave pretty well hereafter.

Booker T. Washington addressed a distinguished audience at Detroit Tuesday night, his subject being the negro problem in its general aspects. He seized the occasion to reiterate his well known belief, that the negro will find his troubles solving themselves in proportion as he fits himself to be a valuable and useful member of the community in which his lot may be cast. First in Washington's plan, and who shall say he is not right, comes industrial advancement, with its consequent thrift giving the ownership of his place, his farm, his brickyard to the negro and making him a contributor to his community's economic wealth, who, on account of his usefulness and capacity for production, will command the respect and consideration of all his white neighbors. Mr. Washington, as is well known, thinks that there is lots of time for determining the status of the negro in politics. Just now he believes that the negro should be principally interested in arriving at a satisfactory status in the economic world. He discourages offensive activity by his people in politics, and if they must putter in the great game he advises them to counsel with and consider the interests of the best of their white neighbors. Mr. Washington's Detroit speech reflected all the sound sense of the position outlined above. Little wonder it is, therefore, that it made a profound impression on his auditors. Detroit newspaper men complain that the head of the Tuskegee institute is the hardest proposition to interview that they have encountered in many a long day. He showed his astuteness by refusing to discuss any question where his utterances might possibly inflame without doing good. Tillman's Detroit speech, his own Washington dinners with the president, the feeling toward the president in the south, these and kindred questions he neatly sidestepped. On the necessity of the industrial uplifting and development of his people, however, he talked earnestly and convincingly. He is a man of one theme, one thought, one purpose: that is why he is accomplishing so much.

 Bad blood and indigestion are deadly enemies to good health. Burdock Blood Bitters destroys them.

ABOUT THAT COAT
 You wear a coat. Why? To keep the cold out? No; to keep the warmth in. What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs? For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means bodily warmth.
 We'll send you a sample free upon request.
SCOTT & BOWNE, 409 Pearl Street, New York.

SPEAKS AT LONDON
 (Continued from Page One.)
 but I know nothing about business and never wish to be troubled with it—I have plenty to trouble me here in these works. Leave me as I am and just give me a thundering salary." Hereafter, I said, "the salary of the president of the United States is yours, captain," and so it remained till the sad day of his death. "My seniors, the presidents of the other manufacturing concerns, did not fail to take me to task for ruining the steel business by paying a mechanic more salary than any of them received. Being much the youngest of these great dignitaries, I humbly confessed my wrongdoing, not, however, failing to inquire if they knew where we could find two or three more Captain Jones at double the price. We did not overpay the captain, he was worth several ordinary salaried presidents. The captain's declaration of partnership was the only one which ever came within my experience. None of the other mechanics ever preferred salary to partnership, and they were wise. Nothing can compare with that form.
 "From that time forward the union of the mechanical and business partners went steadily forward until no manager of a mill was without his interest in the business, as pertaining to the position, and no board of management, or important committee, was without a mechanical representative. Thereafter, mill and office went up all interest and sales or contracts. The mechanics and the men of affairs were in constant consultation and fellow partners—one of the most profitable changes that ever we made.
 Bonuses Given for Economy.
 "There was another step taken in the same direction. Men having others under their charge were given an interest in the proceeds, or savings in cost, in their department. Where it was possible to decide the limits of a department, the managers were rewarded by handsome bonuses beyond their salary, based upon the general profits of the year. Thus, as a rule, every man in authority became more than a mere wage-earner. He felt himself on the first step of the ladder which led to partnership sooner or later, and was worth any two mere employees paid only a daily or monthly wage. This plan of reward according to results, for heads of departments, has already become so general and is spreading so fast, we may be sure it has proved its efficiency. There are few large department stores or important houses in retail trade which have not been forced to adopt it. The plan is probably bound to prevail to greater or less degree in manufacturing concerns, and the sooner the managers of all important workers capital can compensate, and in one sense reward, by sharing its gains, the more harmonious and therefore more profitable for both must the relationship become.
 "I never see a fishing fleet set sail without pleasure, thinking this is based upon the form which is probably to prevail generally. Not a man in the boats is paid fixed wages, each gets his share of the profits. That seems to me the ideal. It would be most interesting if we could compare the results of a fleet so manned and operated with one in which men were paid fixed wages, but I question whether such a fleet as the latter exists. From my experience, I should say a crew of employees, vs. a crew of partners, would not be in the race.
 "The great secret of success in business of all kinds, and especially in manufacturing, where a small saving in each process means a fortune, is a liberal division of profits among the men who help to make them, and the wider distribution the better. There lie latent unsuspected powers in willing men around us which only need appreciation and development to produce surprising results. Money rewards alone will not, however, insure these, for to the most sensitive and ambitious natures there must be the note of sympathy, appreciation, friendship. Genius is sensitive in all its forms, and it is unusual, not ordinary ability that tells even in practical affairs. You must capture and keep the heart of the original and supremely able man before his brain can do its best.
 "One of the chief sources of whatever success may have attended the Carnegie Steel company was undoubtedly its policy of making numerous partners from among the ablest of its men, and interesting so many others to ability in results. I strongly recommend this plan to the members of the institute engaged in business, believing that in these days of threatened exhausting competition it will be the concerns which adopt this plan will survive and flourish.
 "If the managing owners and officials of great corporations could only be known to their men and, equally important, their men know to their employers, and the hearts of each exposed to the other, as well as their difficulties, we should have in that troublesome field such harmony as delights us in the domestic. It is mainly the ignorance of contending parties of each other's virtues that breeds quarrels everywhere throughout the world, between individuals, between corporations, and their men—and between nations.
 Comments the Shipping Scale.
 "In the progress toward more harmonious conditions between employer and employed we see that the system of payment by fixed wages has been largely supplanted by payment according to value of service rendered by workmen in positions of authority over others, and by recognition not only in money, but in position, which often counts quite as much as coin, and not seldom much more with the ablest. There remains still receiving the fixed wages the great mass of ordinary workmen—but we see in the history of relations of employer and employed that these have not failed to give greatly also. The movement tending to improve the position of the worker has not passed over even the humblest, but has reached and benefited all.
 "But the irresistible pressure which has forced change after change in the relations of capital and labor still operates unchecked—a sure indication that the final stage has not yet been reached. We have evidence of this in another important advance, the sliding scale, which provides not a fixed wage but higher prices and profits to the employer, which in turn bring workmen higher returns, so that as the employer's profits rise and fall, so do the workman's rewards.
 "I was asked what was the best service the Carnegie company was ever able to render the wage-earner, next to giving steady employment at wages equal to any, I should answer, 'By persuading them to adopt the sliding scale, with a minimum insuring living wages at its works at Braddock fourteen years ago, which has given perfect satisfaction from that day to this and is still in force, and has produced multi-turbed harmony between capital and labor.'
 "Gentlemen, while, as you have seen, the Carnegie Steel company interested its young men as partners and was always anxious to reward exceptional service, and carried the bonus system to an extent, perhaps, unknown in any similar organization, the masses of the ordinary workmen could not be embraced under the limited partnership form, even if it had been thought desirable that their savings could be so invested. The objection to this from the point of view of the workman, which always arose in our minds and which we were never able to surmount, was the sad and instructive history of the largest manufacturing concerns, especially those of iron and steel. More than once in the history of the Carnegie Steel company, leading its partners have been so doubtful of its future as to beg their more optimistic senior partners to buy large amounts of their interests at actual cost.
 "You know too well, gentlemen, how the path of iron and steel is strewn with financial loss in all countries, and that all forms of business must encounter great risks. Scarcely a week passes without news of a railroad or factory failure in the industrial world. This has ever been, and ever must be, while human nature remains unchanged. Bearing all this in mind, the thought of asking the working man to risk his precious savings in the manufacturing or any form of business was always discarded by us at too dangerous for him. He was advised to buy a home instead and save his rent. To facilitate this, money to build homes was lent to the employees who had the ground clear of debt. Their savings up to \$2,000 each were taken by the company and placed in a special trust fund, entirely separate from the business. Interest at 6 per cent was allowed to encourage the workmen to save part of his earnings for old age. The funds received were lent upon mortgage or real property, generally to such workmen as wished to build homes. It was believed that this was the safest, and therefore the wisest use of their savings, which workmen could make.
 Lauds Steel Trust Scheme.
 "The most convincing proof of the steady march of labor to recompense more and more, based upon profits, and in forms drawing capital and labor into the peaceful bonds of mutuality, is to be credited to the United States Steel corporation, the largest of all industrial corporations, and for which it deserves unstinted praise, as proving a genuine interest in the workmen and sagacious thought for its own. To this step I invite your earnest attention, for it may well prove of surpassing importance and mark an epoch in the history of the relations of capital and labor. It may be looked upon as having furnished the solid foundation for the solution of most of the troublesome questions between them.
 After a review of the plan of the United States Steel corporation, Mr. Carnegie went on to say:
 "There is another point of view, the influence upon the prudent workman of a distracting anxiety in regard to the absolute safety of what may be his sole provision for old age. He will see every morning the stock exchange quotations, for the American workman reads the papers. Only recently he would have seen the preferred stock of the United States Steel corporation temporarily quoted lower than the price charged for it to him. This may mean little to the man of affairs familiar with the ups and downs of the mercantile stock exchange. But what must be the effect upon the unfortunated workman? As I am a well assured man, the workman whose thoughts are upon the speculative surmise of the exchange will not prove desirable.
 "Speculation is the parasite of business, feeding upon value, creating none, and is wholly incompatible with the satisfactory performance of other regular work requiring constant care and caution. The workman's investment should never be at risk, for if his thoughts are upon the stock exchange they cannot be upon the machinery and machinery, like art, is a jealous mistress, brooding no rival chimney to its absorbing demands. In the interest of the employer, therefore, as well as that of the workman, the savings of the latter should be secure here, as in other respects, their interest is mutual, and hence I believe the needed change will be made by the Steel corporation in the near future. I cannot speak too highly of this experiment nor give the Steel corporation too much

credit for making it, since it is declared to be in the experimental stage, and subject to future improvement, as all new schemes should be. Its able and progressive author, Mr. Perkins, is to be heartily congratulated.
 Solves the Labor Problem.
 "Thus we see, gentlemen, that the world moves on step by step toward better conditions. Just as the mechanical world has changed and improved, so has advanced the world of labor from the slavery of the laborer to the day of his absolute independence, and now to this day when he begins to take his proper place as the capitalist-partner of his employer. We may look forward with hope to the day when it shall be the rule that the workman is partner with capital, the man of affairs giving his business experience, the workman in the mill giving his mechanical skill to the company, both owners in the shares and so far equally interested in the success of their joint efforts, each indispensable, without those co-operation success were impossible. It is a splendid vista along which we are permitted to gaze.
 "Perhaps I may be considered much too sanguine in this forecast, which no doubt will take time to realize, but as the result of my experience I am convinced that the huge combination, and even the moderate corporation, has no chance in competition with the partnership which embraces the principal officials and has adopted the system of payment by bonus or reward throughout its works. The latter may be relied upon as a rule to earn handsome dividends in times of depression, during which the former, conducted upon the old plan, will incur actual loss and perhaps land in financial embarrassment.
 "The idea of making every workman a capitalist and of sharing large percentages of the profits among those rendering exceptional service will probably encounter the opposition of the extrem-

ists on both sides, the violent revolutionist of capitalistic conditions, and the narrow grasping employer whose creed is to purchase his labor as he does his materials, paying the price agreed upon and there end. But this opposition will, I believe, amount to little. It will even speak well for the new idea if scouted by the extremists and commended by the mass of men who are on neither dangerous edge, but in the middle, where usually lies wisdom.
 "Meanwhile, here is the germ of a promising plan offered as a solvent for one of the pressing problems of our age, which may prove capable of development. As members of the Institute let us receive, study and discuss it with open mind. That the problem will be solved, and that the two allies are some day to live in friendly co-operation, let no one doubt. Human society bears a charmed life. It is immortal and was born with the inherent power or instinct, as a law of its being, to solve all problems finally in the best form, and among these none more surely than that vexed question of our day, the relations between these Siamese twins, which must mutually prosper or mutually decay—capital and labor."

WHAT IS FOLEY'S KIDNEY CURE?
 Answer: It is made from a prescription of a leading Chicago physician, and is the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically combined to get their utmost value. Sold by People's Drug Store.
 "NINE-TENTHS OF ALL THE MISERY of this world arises from a false estimate placed upon the value of things." (Franklin)
 The remaining one-tenth is without doubt, directly traceable to wrong estimate of or mistaken in. Endowments. Annuities, Trust Certificates, Paid-up policies or some other form of the grand insurance policy which we represent each year, doing business in 35 states, Nat'l Life Ins. Co. of Vt. (Mutual), ORGANIZED 1856, M. W. Marshall, Gen. Mgr., Marquette, Mich.

MORE EXTENSIONS PLANNED. DUAL FIELD DAY MEET.

Street Railway Vice President Coming Today on Important Business. W. O. Chapman of Boston, vice president of the Houghton County Street Railway company, will arrive at Houghton today on an important business mission.

While here Mr. Chapman will endeavor to make arrangements with the Lake Linden village council so the line can be built into the village. At present the Lake Linden terminus is outside the village limits, the hitch between the company and the council over the well-known snow problem having resulted in the denial of a franchise permitting the street railway to use certain village streets.

An important extension nor two, which The Mining Journal is not at liberty to divulge at present, are also planned. The present system will be enlarged there is little doubt, and Mr. Chapman will give this matter his attention during his present visit.

FARMERS' INSTITUTES. Programs Arranged for Hancock, Lake Linden and Baraga Meetings.

The following are the programs for the farmers' institutes soon to be held at Hancock, Lake Linden and Baraga under the direction of the Houghton County Agricultural society, with Leo M. Geismear of the Michigan Experiment station at Chatham as director: At Hancock, May 13, at the city hall. Afternoon meeting, commencing at 2 o'clock: Music. Address, "Clover and Forage Crops," Leo M. Geismear.

At Lake Linden, Mich., May 14, at city hall. Afternoon meeting, commencing at 2 o'clock: Music. Address, "Setting Out an Orchard," Leo M. Geismear.

At Baraga, May 15, at township hall. Afternoon meeting, commencing at 2 o'clock: Music. Address, "Farming in the Upper Peninsula," Leo M. Geismear.

At Hancock, May 16, at city hall. Afternoon meeting, commencing at 2 o'clock: Music. Address, "Does Dairying Pay?," E. F. Brown, Grand Rapids.

At Hancock, May 17, at city hall. Afternoon meeting, commencing at 2 o'clock: Music. Address, "Farming in the Upper Peninsula," Leo M. Geismear.

G. A. R. REUNION. E. R. Stiles post, G. A. R. of Hancock, has decided to hold a reunion of upper peninsula veterans of the Civil war at Hancock on August 17 and 18. Arrangements will be made to royally entertain the visiting "vets." On Aug. 19, 20 and 21 the annual tournament of the Upper Peninsula Fencing association will be held at Hancock.

Humors come to the surface in the spring as in no other season. They don't turn themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

SPECIAL GENERAL ASSEMBLY TRAIN TO LOS ANGELES. The passenger department of the Chicago & Northwestern railway announces that a special train has been arranged for account the general Presbyterian assembly at Los Angeles, to leave Chicago 10:30 p. m., Wednesday, May 13th, with through Pullman standard and Pullman tourist sleeping cars from Chicago to Los Angeles without change.

The route is over the only double track railway between Chicago and the Missouri river, and via Denver, Colorado Springs, Pueblo, Leadville, Glenwood Springs, Salt Lake City, and Sacramento to Los Angeles. The special will stop a few hours for sight-seeing at Denver, Colorado Springs, Salt Lake City and Sacramento, spending the Sabbath at Salt Lake.

Apply to E. C. Griffin, general agent, Chicago & Northwestern railway, Houghton, Mich. (5-7-St)

MINING NEWS MARQUETTE & ARIZONA.

Advice yesterday from President Marks, of the Marquette & Arizona, conveyed the news that the machinery recently purchased was in place and in commission and that work at the property was now progressing in a very satisfactory manner. The shaft is going down at the rate of three feet per day. It is at present in the line, and Mr. Marks writes that he is exceedingly hopeful of good results. Up to a short time ago, before the hoist and other equipment was installed, the work of sinking was necessarily slow and the miners were hampered in more ways than one. Now the operations are proceeding with all despatch and will not be allowed to lag.

RED JACKET VILLAGE TO SUE. Steps to Be Taken to Recover Alleged Shortage of ex-Clerk March.

The village of Red Jacket has decided to start suit against Albert J. March, former clerk and secretary of the water board, and also against Frank Ward and Frank Schroeder, his bondsmen, to recover the amount of March's alleged shortage while in office. The municipal authorities have determined to institute the proceeding upon the return of Justice Curtis, who is expected home from British Columbia in a few days. The authorities desire to know how much money the justice turned over to March in order to fix the amount of the supposed shortage as near as possible. At the regular meeting of the council last Tuesday evening Mr. Ward was present. He addressed the council, saying that he believed the village should institute criminal proceedings against March to punish him for the alleged defalcation. Mr. Ward said the action should be taken from a moral standpoint as an example to the other members of the village. Attorney W. J. MacDonald stated that the village was interested only in the matter of getting the money back, and that it was not in its province to start criminal action. He said that it was the business of the prosecuting attorney to commence criminal action if any citizen made the complaint.

COPPERDOM BREVITIES. The Calumet High school orchestra is arranging for a dancing party which will be given at the hall in the Washington school building on the evening of May 15.

The Calumet & Hecla Mining company has over 5,000,000 feet of square timber at its sawmill at Lake Linden. About 2,500,000 feet of timber is used in the mine every month.

The Woman's Catholic Order of Foresters, South Lake Linden, will give a dancing party at the Bismarck hall on Monday evening, May 18. Music will be furnished by the Hart orchestra.

The annual reunion of the A. O. U. W. county lodge will be held at Hancock this summer. Last year's gathering took place at Calumet. The dates have not been decided upon.

The junior class of the Lake Linden High school will tender a reception to the graduating class on the evening of Friday, May 29, at the school hall. An interesting program of entertainment will be arranged for the occasion.

The Ojibwa club, of Calumet, has elected the following officers for the ensuing year: James Hosking, president; C. L. Paterman, vice president; C. L. Noetzel, secretary and treasurer; Fred Smith and John Burder, directors.

The Gardner property on Scott street, Calumet, has been purchased by John H. Hays. He bid \$7,000 for it at the conclusion of the auction sale. The property has a frontage of 215 feet and is very desirable for residence purposes.

Rose Coghlan, the well known actress, will be seen in "The Second Mrs. Tanqueray" at the Kerredge theater, Hancock, on Wednesday evening of next week, will sue for a divorce from her husband, John T. Sullivan, in the district court at Houghton, Mich.

Young men who attend the promenade concerts given at intervals by the Calumet & Hecla band without sale tickets are now required to pay just as much admission as the young men accompanied by ladies. At the last promenade, as a result, it was noticed that there were more girls than usual.

Hotel Dee! European plan Sackrider & McKenzie proprietors. Houghton, Mich. NEWLY FINISHED, ELEGANTLY FURNISHED, COMMERCIAL MEN CAN OBTAIN RATES UPON REQUEST.

I. E. SWIFT CO. HOUGHTON, MICH. Shelf and Heavy Hardware AND MINING SUPPLIES. We carry the only complete stock in the Upper Peninsula, bought direct from the manufacturers. Trade with us and save the small dealers extra cost in buying from second hands.

The Lake district is the result of the opening of new mines. In 1891 the new mines made in excess of 5,000,000 pounds of copper, in 1902 about 18,000,000 pounds, and this year their production should amount to nearly 40,000,000 pounds.

DOES IT PAY TO BUY CHEAP? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Bosche's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. You can get this reliable remedy at the Stafford Drug Store. Price 25c and 75c.

A LESSON IN HEALTH. Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Sold by People's Drug Store.

ANNUITIES AND INSURANCE. are two different things, a put and a call as it were. Each useful and legitimate, and we invite your inspection, your confidence and your patronage. 5th year, doing business in 28 states. The Ins. Co. of N. Y. (Mutual) ORGANIZED 1859. M. W. Marshall, Gen. Mgr., Marquette, Mich.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Sold by People's Drug Store.

SSS FOR THE BLOOD. The best known and most popular blood purifier and tonic on the market to-day is S. S. S. There is hardly a man, woman or child in America who has not heard of "S. S. S. for the blood." It is a standard remedy, a specific for all blood troubles and unequalled as a general tonic and appetizer. S. S. S. is guaranteed purely vegetable, the herbs and roots of which it is composed are selected for their alterative and tonic properties, making it the ideal remedy for all blood and skin diseases, as it not only purifies, enriches and invigorates the blood, but at the same time tones up the tired nerves and gives strength and vigor to the entire system. For Chronic Sores and Ulcers, Catarrh, Rheumatism, Blood Poison, Malaria, Anemia, Scrofula, Eczema, Psoriasis, Salt Rheum, Tetter, Acne and such other diseases as are due to a polluted or impoverished condition of the blood, nothing acts so promptly and effectually as S. S. S. It counteracts and eradicates the germs and poisons; cleanses the system of all unhealthy accumulations and soon restores the patient to health. Write us and our physicians will give your case prompt attention without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

UPHOLD THE PORTE

POWERS WILL KEEP HANDS OFF IN THE BALKANS.

BULGARIA IS GIVEN WARNING

CAN EXPECT NO HELP IN CASE TURKEY ATTACKS.

Principality an Insurrectionary Base and Russia, Germany, Austria and Britain Will Not Interfere Should Sultan's Troops Cross Border.

Paris, May 7.—A division of the French Mediterranean fleet was today ordered to sail tonight for Salonica.

Vienna, May 7.—A Bulgarian band yesterday attempted to blow up a powder magazine at Monastir. It was suppressed by Turkish troops and a fight ensued in which many combatants were killed or wounded.

Turkey's Measures Endorsed.

Berlin, May 7.—The German government continues to steadily support the Russian policy at Constantinople and in the Balkan capitals, that policy being understood here as encouraging Turkey to repress the disorders firmly and as representing to Bulgaria especially that not a finger will be lifted to help her should the porte claim it necessary to attack the principality.

In striving to reach the root of the anti-Turkish agitation, Germany, Russia and Austria, it is explained here, in their recent representation to Bulgaria, notified her that she need not expect even sympathy should the sultan's troops march over the frontier to do what Bulgaria refuses to do. At present her territory is used as an insurrectionary base.

Two of Germany's permanent policies for the moment coincide. They are, first, not to oppose Russia at Constantinople and, second, to support Turkey. Germany's purpose can best be realized by strengthening Turkey as a European power and as a counterweight to Russia.

The German foreign office does not regard the Balkan situation as serious and would not so regard it even were Turkey to declare war against Bulgaria, it being regarded as highly improbable that any ruthlessness by Turkey would occasion war among the powers.

Britain Will Lend No Aid.

London, May 7.—The British government's attitude in the Balkan crisis may be summed up as being one of passive indifference. It is pointed out that the foreign office here that Great Britain is not bound by any treaties to interfere in behalf of Bulgaria. Although she was chiefly responsible for bringing Bulgaria into existence, Great Britain never undertook the preservation of Bulgaria's interests, although she is pledged to maintain the integrity of the Ottoman Empire. The British foreign office also understands that neither Russia nor Austria intends to interfere, unless some unseen issue becomes involved.

FAVORITE WINS GREAT RACE.

Gunfire, Whitney's Swift Filly, Captures the Metropolitan Handicap.

New York, May 7.—Gunfire won the Metropolitan handicap at Morris Park today before 45,000 cheering spectators who had made Whitney's swift filly the favorite in the betting. With T. Burns in the saddle, she went the mile in 1:38 1/2, breaking the track record by one second and the record for the race by one and a quarter seconds. She displayed speed and gameness and was the first of her sex to win this classic.

Two lengths behind the winner came Old England, the famous sprinter of Green B. Morris, ridden by Shaw. Lux Casta, the Albenarle stables' entry, with Gannon up, was third. These three had the race among them from the start. Articulate, who was pulled up by his rider, the apprentice, Larsen, when the barrier rose, ran a remarkable race and finished fourth, a length behind the tired Lux Casta. Yellow Tail was fifth. Masterman, the pride of the Belmont stable,

was an inglorious last, with Herbert and Col. Bill Ciolet in front of him.

Gunfire's price was 2 to 1, and she won \$11,180 for her owner; Old England won \$2,000 while Lux Casta took \$1,000. Every famous stable in the country was represented in the race, and hundreds of thousands of dollars were wagered.

MEXICO SELLS BONDS.

Loan of Twelve and a Half Millions Negotiated at New York.

New York, May 7.—Jose y Limantour, Mexican minister for finance, who is at present in New York, has sold to Speyer & Co., subject to the ratification of the Mexican congress, \$12,500,000 of 4 1/2 per cent two-year treasury gold notes. The proceeds of the loan are to be applied to paying for the Tehuantepec railway and other public works.

WOODMEN DIVIDED

FATE OF STEP-RATE PLAN, AS RECOMMENDED, IS IN DOUBT.

SOME CHANGE CERTAIN, HOWEVER

STATE RETURNS SHOW BIG MAJORITY FOR READJUSTMENT.

Michigan Convention Selects Delegates All Favorable to the Proposition and Reelects Fleishaur Consul and E. J. Butler Clerk.

Rock Island, Ills., May 7.—Official returns from thirty-three state conventions of Modern Woodmen show that 355 of 469 delegates elected to the head camp are instructed in favor of rate readjustment. Many of these delegates, however, are instructed to oppose the step-rate plan recommended two years ago by the readjustment committee. The returns do not show who will be elected head consul. J. G. Johnson of Peabody, Kas., one of the candidates, is said to have only seventy delegates.

The Modern Woodmen have led the fight, begun by the National Fraternal congress, to place all benefit orders on the foundation of graded rates of assessments. It is thought the leaders of the various beneficiary societies will await the result of the convention of Woodmen next month at Indianapolis before taking steps to place other societies on the readjustment rate basis.

Michigan Camp's Meeting.

Orosco, Mich., May 7.—The majority rule advocates were viewed under the state camp of the Modern Woodmen today. All the delegates chosen to the Indianapolis head camp meeting are staunch supporters of the administration, the readjustment plan and Byrns for national director. Kent county, the home of majority rule, did not get a single delegate.

The state consul, A. M. Fleishaur, was reelected, as was also State Clerk Ed. J. Butler. The upper peninsula delegates to Indianapolis are: W. J. Galbraith, Calumet; Albert Hass, Menominee; Thomas Trathen, Negaunee; John O'Hara, Iron Mountain, and W. Moore, Sault Ste. Marie.

According to advices received here, nearly all the largest of the jurisdictions have selected delegates favorable to readjustment, so that a new rate plan will surely be adopted at Indianapolis.

Kansas Convention Splits.

Emporia, Kas., May 7.—The Kansas convention of Modern Woodmen, which has been in session here for the last two days, has ended in a split with J. G. Johnson and E. E. Murphy both chosen for head consul of the order. Two committees were chosen for the national convention at Indianapolis in June and two sets of resolutions were adopted. Delegates almost came to blows and the Murphy men left the opera house and held a convention of their own.

Woodmen Absconder Arrested.

Chicago, May 7.—Walter K. Crandall, who for more than a year had eluded the police, was arrested here today. He is wanted at Rock Island, Ills., on accusation of having embezzled \$12,000 of the funds of the Modern Woodmen.

RAILROAD DEAL COMPLETED.

Rock Island in Control of the St. Louis & San Francisco System.

New York, May 7.—The Wall Street News Bureau today states that the negotiations recently renewed for the purchase of control of the St. Louis & San Francisco railroad by the Rock Island have been practically closed.

Later—President Yoakum of the St. Louis & San Francisco Railroad company today was elected a director of the Chicago, Rock Island & Pacific. J. Pierpont Morgan & Co. later made a statement in which it was said that the election of Mr. Yoakum as a director of the Rock Island company "means that the harmonious relations which have existed for some time between the two roads are to continue." Financiers interpret this as official acknowledgment that the long pending deal providing for one management of the two roads has been completed.

The Herald tomorrow will say that the Frisco-Rock Island agreement was signed late today. The terms are not stated, but it is understood they vary but little from the original contract which was shaken up by the recent decision in the Northern Securities case.

STOCKS SEEK A LOWER LEVEL.

Room Traders Take Profits on a Small Volume of Dealings.

New York, May 7.—Prices went downward on the stock exchange today without any very clear reason, although the theories current for the decline took a wide range over the whole financial field on the part of room traders, who had the market to themselves.

A simple explanation seems to be that these professional operators, who have been buying and bidding up stocks during the week, find themselves with little company and feel that they have reached the limits of their courage in speculative commitments. The process of selling to take profits finds as narrow a participation in the market as that during the advance. The prices consequently recede easily and in pretty close proportion to the advance on the same volume of dealings.

A factor which came in for most discussion today in seeking an explanation for the decline was the problem of foreign exchange. The subscriptions to the Transvaal loan for American account are small, but the maturity of foreign loans in this market makes the London pressure for money effective in New York. Only 3 per cent of the subscription is required to be paid

MOROS PUT TO ROUT

CAPT. PERSHING'S COLUMN TRIUMPHS IN MINDANAO.

DEFEATS STRONG FORCE OF REBELS

TWO AMERICANS ARE KILLED AND SEVEN WOUNDED.

Ten Forts Are Captured and 115 Tribesmen Slain and the Sultan Who Led the Enemy Is Among the Sixty Prisoners Taken.

Manila, May 7.—Captain Pershing's column has defeated a strong force of Moros in the Taraca country, on the east shore of Lake Lanao, island Mindanao. The Americans captured ten forts. One hundred and fifteen Moros were killed, thirteen wounded and sixty made prisoners, including the sultan who led the tribesmen. Two Americans were killed and seven wounded.

Filipinos Take Oath of Allegiance.

Pittsburg, May 7.—Ten Filipinos appeared in federal court today and took the oath of allegiance to the United States. They are connected with a traveling show.

YANKEE TARS PARTICIPATE.

Cornerstone of Victoria Memorial Hospital Is Laid at Nice.

Nice, France, May 7.—The cornerstone of the Victoria hospital was laid this afternoon by Grand Duchess Mary of Saxe-Coburg and Gotha, who was accompanied by Princess Beatrice. Men from the crews of the American squadron and a detachment of British bluejackets formed the guard of honor. At the conclusion of the function, the Chicago's band played the national hymns of France, Great Britain and the United States.

DISASTER AT TUNNEL.

Mountain Slide in Virginia Kills Nine Men and Injures Others.

Roanoke, Va., May 7.—Nine men were killed and five others injured, three fatally, by a slide of rock in the east end of a tunnel at Eggleston Springs, on the Norfolk and Western railroad, today. Contractors were double-tracking the two tunnels at the point named and when the tunneling force had removed the earth and stone for the tracks a huge slide of stone gave way on the mountain side and struck a gang of laborers.

CHICAGO GRAIN MARKETS.

Chicago, May 7.—The sentiment in the wheat pit was extremely bearish today, the outside markets and cables being lower and the weather favorable for the growing crop. Under these influences the market opened a trifle easier, July being a shade lower, at 72 1/2, while May was unchanged to 1/4 lower, at 78 1/2. Commission houses were liberal sellers early and there also was selling by brokers which was credited to the leading long, who was supposed to be getting out of his July holdings. Later in the day smaller holders began to follow this lead and the price dropped abruptly. July selling off to 71 1/2 and May declining to 77. The latter month, however, rallied under the last quarter of an hour of the session, on covering by shorts, and sold up to 77 1/2, the closing price being 77 1/2, a net loss of 1 1/4 for the day. July closed steady, at a decline, at 71 1/2, a loss of 1 cent. Liverpool was steady to 3/4 lower. On the coast thirty-eight boats were taken. July opened at 72 1/2; highest, 72 3/4; lowest, 71 1/2; closing, 71 1/2.

The weakness in wheat had but little effect on corn, and as a rule the market showed firmness, with a fair demand and small offerings. There was only scattered trade by the commission houses, and the volume of business was light. The weather was more favorable for planting, the receipts were moderate and the cash demand was fairly good. After selling between 44 1/2 and 44 3/4, July closed 1/4 lower, at 44 1/2. May closed unchanged and September 1/4 lower. Liverpool was steady to 1/4 lower. At the seaboard thirteen boats were taken.

Oats were active and irregular, selling off slightly early, advancing 1/4 and receding at the last, the close being the same as yesterday on July and September and 1/4 higher on May. There was better weather, but unfavorable crop reports. There was a little late selling in sympathy with wheat, but the close was steady. July opened at 31 1/2; highest, 32 1/2; lowest, 31 1/2; closing, 31 1/2.

Receipts and Shipments were as follows:

Table with columns for Receipts and Shipments for Flour, Wheat, Corn, and Oats.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

A PROMINENT COLLEGE MAN.

One of Indiana's Useful Educators Says: "I Feel Like a New Man."

MR. JOHN W. MENG.

Mr. John W. Meng, 54 Jefferson Ave., Indianapolis, Ind., State Representative of Indianapolis Business College, writes: "I firmly believe that I owe my fine health to Peruna. Constant travel and change of food and water wrought havoc with my stomach, and for months I suffered with indigestion and catarrh of the stomach. I felt that the only thing to do was to give up my occupation which I felt very reluctant to do. Seeing an ad. of Peruna as a specific for catarrh I decided to give it a trial, and used it faithfully for six weeks, when I found that my troubles had all disappeared and seemed like a new man. I have a bottle of Peruna in my grip all the time, and occasionally take a few doses which keeps me in excellent health."—John W. Meng.

The most common phases of summer catarrh are catarrh of the stomach and bowels. Peruna is a specific for summer catarrh.

Hon. Willis Brewer, Representative in Congress from Alabama, writes the following letter to Dr. Hartman: House of Representatives, Washington, D. C.

The Peruna Medicine Co., Columbus, O.: Gentlemen—I have used one bottle of Peruna for lassitude, and I take pleasure in recommending it to those who need a good remedy. A tonic it is excellent. In the short time I have used it has done me a great deal of good."—Willis Brewer.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

REWARD FOR GIRL'S SLAYER.

Church Orders and Ohio Officials Offer Money in Reichlin Case.

Lorain, O., May 7.—The release of Rev. Ferdinand Walser from the charge of murdering Agatha Reichlin has discouraged the local police, but the search for the murderer has been vigorously taken up by the Precious Blood Fathers, to which order Rev. Mr. Walser belongs. Rev. Boniface Russ, who is at the head of the order, announced today that a large reward would be offered by the order for the capture of the murderer. The order has already employed detectives who are to take up the search. In addition to this, the Knights of Columbus have issued a call for a meeting to consider the advisability of offering another reward, and the county commissioners today made the reward offered by the county \$2,000.

Attention is being paid to the robber theory again. The silver and gold plate of the church was kept in the Reichlin house and this would be a sufficient bait for a desperate burglar.

The arrest of a man giving the name of Kennedy at Sandusky is being carefully looked into. There was discovered in his possession property stolen from a hardware store at Bellevue and it is possible that he could have been in Lorain between the time of this burglary and his arrest near Sandusky. The man claims Chicago as his home. He refuses to disclose his identity, but stoutly denies that he was in Lorain. His clothing was evidently obtained but a few hours before his arrest.

THE JUDGE'S CLERK.

Was Subject of a Little Breeze in the Council Wednesday Night.

Judge Williams Andrews will have a clerk, and the city will pay his salary. This was settled at the council meeting Wednesday evening, after a lively tilt of words while it was up for consideration. It all started when the following communication from Judge Andrews was read a short time before the close of the meeting:

"To the mayor and common council of the city of Ishpeeming:

"Gentlemen:—I beg leave to inform you that in accordance with the recent amendments to our city charter, I have appointed and employed as clerk of the court presided over by me, William St. John, and I ask your honorable body to confirm such appointment and to fix the salary of said clerk.

"Dated May 1, 1903.

"WILLIAM ANDREWS,
"Justice of the Peace."

Alderman Trebilcock was on his feet immediately, moving that the council confirm the appointment. Alderman Barnett amended the motion to the effect that the matter be deferred until the next regular meeting. Being asked his reasons, he said that the municipal courts had been created with the idea that it should be self-supporting and a source of revenue. The business of the court is not so great that it cannot easily be handled by one man, but if it had increased and the income was sufficient by the time of the next meeting he would be heartily in favor of hiring a clerk. Alderman Nichols entered an emphatic protest against deferring the consideration of Judge Andrews' appointment. He believed that the opposition was prompted solely by a spirit of antagonism toward the judge. During all of the six years that he had been on the council he had never known the question of expenditure for salary to be debated, and he wanted to clinch their little victory by making sure that the clerk would be provided for and Alderman Williams moved that his salary be placed at \$40 per month. This called forth a rebuke from Alderman Persons, who declared that it would be a discourtesy to the committee on salaries to take the matter out of its hands and that the action would be entirely without precedent. Alderman Williams' motion was lost by a decisive vote. Alderman Trebilcock then moved that the committee on salaries retire and prepare a report on the clerk's salary to be presented at the present meeting, but later withdrew the motion.

Street Improvements.

The question of street improvements came up for considerable discussion, following the reading of the following recommendations from the superintendent of the board of public works:

"To the common council of the city of Ishpeeming.

"Gentlemen:—In conference with your street committee on the 5th inst., the subject of highway improvement was discussed at length. It was mutually agreed that there should be expended on the streets of the city this year a sum not less than \$12,000, this being necessary in the interest of true economy, which makes it imperative to keep the highways in proper repair. Little work was done upon the streets last year, and the wear is constant and heavy.

"The city under present systems spends too much money in street and alley cleaning, it taking all manner of waste from business and residence places wherever the streets and alleys have been dedicated to its use. The task is a most expensive one. Could the bulk of the money thus expended be directed to the construction and maintenance of the highways it would be a great gain for the better, and we respectfully suggest that some plan be perfected for bringing this about.

"Very respectfully,
"Board of Public Works."
"P. H. Devine, Supt."

The recommendations of the board of public works were concurred in, \$12,000 being appropriated for building and repairing streets and alleys during the year. Alderman Persons called attention to the ordinance requiring that the owners of property adjoining alleys provide for the proper cleaning of such thoroughfares. The ordinance has not been enforced of late years, and the city is put to great expense each season for cleaning alleys alone. Mr. Persons believed that much could be saved if the alleys should be attended to by property owners. He offered a motion to the effect that the committee on streets and alleys, together with the city attorney, devise some means for enforcing the ordinance.

Other Matters.

Alderman McCutcheon, on behalf of the committee on bonds and sureties, recommended the acceptance of the following bonds, with their sureties:

John Hakkinen, principal; George Jones, Richard Trembath, sureties.
Herman Murto, principal; Andrew Kuttunen, John Westlund, sureties.
John Tulo, John Peltola, principal; Damasse Perrault, Urgel Lavigne, sureties.
Peter J. Denn, principal; Thomas J. Dundon, Marvin L. Lee, sureties.
Adolph Lafreniere, principal; August Lafave, Henry Adams, sureties.
John H. Skews, principal; Donald McVichie, H. O. Young, sureties.
John Stein, principal; John Nolan, Alex Swanson, sureties.
Richard E. Jenkins, principal; Louis Tontlof, Thomas Walters, sureties.

The report was unanimously adopted. Alderman Peterson then reported for the committee on salaries, recommend-

ing that monthly salaries be paid as follows:

Marshal	\$85.00
Deputy Marshal	70.00
Police Constables	65.00
Poundmaster	65.00
Recorder	83.33
Health Officer	33.33
Assessor	56.50
Janitor City Building	50.00
Sexton Cemetery	40.00
Librarian	65.00
Assistant Librarian	45.00
Engineer Fire Department	90.00
Teamsters Fire Department	60.00
Chief Fire Department	15.00
Janitor No. 3 Hose House	10.00
Justice of the Peace	75.00

—Per Day of Ten Hours—

Carpenters	\$1.80
Foremen	2.00
Laborers	1.75
Teams	4.00
Single Horse	3.00

The committee also recommended that the salary of the justice of the peace be increased as the business of the said justice office increases. The committee asked for further time to report on the salary of the city attorney.

When a motion was made for the adoption of the report, Alderman Nichols expressed his dissatisfaction with the amount fixed for the judge's salary, saying that he ought to receive "what the law allows him—\$100 per month." Alderman Barnett explained that the charter does not specify the amount the judge should receive, only setting the limit at \$1,200 per year. The report was adopted by a substantial majority.

From Judge Andrews.

At this juncture a communication was read from Judge Andrews. It should have been presented earlier in the meeting, but was overlooked by mistake. The judge made an estimate of the receipts that would be collected by his court, basing his calculations on the amount taken in by all the justices of the peace last year from drunk and disorderly cases, which aggregated about \$1,900. Mr. Andrews begged the council to consider the probable income and fix his salary at a proportionately liberal figure. When the recorder had read the communication Mr. Andrews, who was among the spectators, said he would withdraw it as the council had already taken action in regard to the subject of which it treated.

When the question of electing a city engineer, which had been placed on the table at a previous meeting, was taken up it looked for a time as if another dead lock would result. Rudolph Erickson, Phillip Peppin and Andre Fornis were the candidates and seven ballots were necessary to make the selection. Erickson finally won out on the seventh ballot, when the vote stood Erickson, 10, Fornis 5, Peppin 3.

The petition of a number of residents of the Tenth ward, requesting the construction of a sidewalk commencing at Pine street near Horse House No. 3, and extending through Excelsior street to the Junction, was referred to the committee on streets and alleys, as was the petition of a number of the citizens asking for the grading and macadamizing of West Barnum street.

The total amount of the bills and pay rolls of the city for the month of April, amounting to \$3,871.23, was ordered paid.

NORWEGIAN CELEBRATION.

Ishpeeming Norwegians are making extensive preparations for celebrating the festival of the seventeenth of May, the Norwegian Fourth of July. As the seventeenth falls on Sunday, the exercises will be held the day preceding, Saturday, May 16, beginning at 8:15, at the Swedish Home hall. The following program has been prepared for the occasion:

National hymn
Audience
Piano solo Selected Prof. M. W. Broman.
Soprano solo Selected Miss Josie Hovseth.
Flute solo Selected Frank Sherman.
Recitation Carl Tellefsen.
"Song of the Vikings" Norwegian Oetel.
Clarinet solo Selected Carl Sundlie.
Vocal duet (soprano and alto) Miss Josie Hovseth and Mrs. Olga Holter.
Mandolin solo Selected Miss Marguerite LeBrecht.
Duet for clarinet and flute Messrs. Carl Sundlie and Frank Sherman.
Piano solo, "Spring Breezes" (own composition) Carl Tellefsen.
Song Selected Norwegian Oetel.

A humorous dialogue by Messrs. Tellefsen and Holter may be added to the program. Coffee, sandwiches, cake and ice cream will be served after the formal program, followed by games by the young people. Badges are sold at twenty-five cents each entitling the holder to admission to the hall.

"Mr. C. L. Hizer, of Lincoln, Ill., says: 'I have been a sufferer from constipation for the past twelve years, with severe griping pains in my bowels nearly every day. Since I began taking ReGo Tonic Laxative Syrup my bowels have moved freely without griping. It is certainly a wonderful laxative.' Sold by People's Drug Store.

DARING BURGLARY.

Safe in Davidson & Levine's Store, Champion, Cracked—\$265 Secured.

At an early hour yesterday morning burglars blew open a large safe in Davidson & Levine's store, Champion, and rifled it of all the cash it contained, securing \$165. It is supposed that the robbery occurred at about 1:30 a. m., but it was not discovered until the proprietors opened the store at 7 o'clock. The explosion must have been of great force, for the big double doors of the safe were found standing wide open. The money was found in an inner compartment. The other contents had been tumbled about considerably in the search for the coin. Books and papers were scattered around the floor, but the money was all that was missing. A number of rings were taken from a show case.

The job was very cleverly done, the perpetrators being by no means amateurs. They took their time and made thorough preparations before setting off the charge. All the openings around the doors had been filled with soap, so that the safe was entirely sealed, and a hole was drilled at the bottom of one of the doors, through which the explosive was inserted and fired. Several persons living near the store were awakened by the noise of the explosion, but thought it was nothing alarming and so made no investigations. The burglars gained entrance to the store through a back window, tearing off a heavy blind that was always closed at night.

It is thought that three or four men are implicated. Suspicion is directed toward a colored lad who was seen about the town the day before, and who is believed to be one of the members of the gang. No clues of any description were left. The burglars probably left town on an early train.

DEBATE TONIGHT.

The debate for which the teams from the Marquette and Ishpeeming High schools have been preparing for several months will take place tonight at the high school auditorium. This is the first debate that has ever been held here, but those who are most interested believe that it will be the beginning of a series. The high school orchestra will render a few selections. Each speaker will be limited to fifteen minutes. Members of each team will speak in alternate order, the affirmative side opening and the negative closing the debate. Hon. H. O. Young will preside. The price of admission will be twenty-five cents.

ISHPEMING IN BRIEF.

A new safe was installed in William Anderson's store yesterday.

Michael Griffin came home yesterday from an extended tour through parts of Wisconsin.

Miss Lizzie Black is here from Windsor, Ontario, visiting her father, William Black.

Work has been started on the lawn surrounding the Lake Superior office. It will be graded and seeded.

The fountain was connected with the sewer yesterday. The water can be turned on at any time now.

P. H. Tyler of Bislee was an Ishpeeming visitor yesterday. He is interested in some mining operations.

Dr. Thomas Fitzgibbon, a prominent physician and surgeon of Milwaukee, spent Wednesday in the city, the guest of Mr. and Mrs. J. H. Quinn.

Marshall Fandrem went to Chicago last night to look after Y. Deor and Mrs. Daniel Dattalei, who left here together last Saturday. The woman left her husband and child and departed for parts unknown in company with Deor. The husband secured a warrant for arrest of the pair and the police sent out inquiries to various places to learn their whereabouts. They have been located in Chicago and Mr. Fandrem goes there to bring them back.

THE BEST LINIMENT.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merit are wonderful." For sale by Stafford Drug Co.

NOTICE.

Water rates on all metered services for the three months ending March 31st, 1903, are due and payable. If not paid on or before May 15th, water will be shut off and the penalty of \$2.00 will be charged for again turning on the water. (5-8-24)

TO THE MERCHANTS.

I hereby give notice that I shall not pay any debts contracted by my wife. (5-4-1v) FRED HRIEBERNIG.

TAX SALE WOUND UP

ITS RESULTS PRACTICALLY THE SAME AS IN FORMER YEARS.

EDUCATION OF A YOUNG ATTORNEY

HE PURCHASED TITLES UNDER A DISASTROUS MISAPPREHENSION.

He Bid Lands in to Over Five Times His Available Capital, Not Having Figured on the Back Taxes.

The tax sale for the county of Marquette was concluded in the court room at the county building shortly before noon yesterday, when Deputy Treasurer Wright finished up the last of the description on their second reading.

A young Marquette county attorney this year received his introduction to tax sales and acquired a lot of valuable experience in regard to their workings.

The experiences of this young man at the tax sale were a wonder to the older heads who have been bidding in tracts for years, and it will be some time before they will cease to be commented on.

Up-the-Road Enterprise. It seems that some party, or parties, up-the-road, with about \$2,000 rattling around for investment, picked up a tax list, as advertised in The Mining Journal, and concluded that the cheap lands enumerated therein offered a promising investment.

However, there was no good angel in this case, and the young attorney delegated to pick up the desired lands appeared at the sale, armed with a list of about 300 descriptions and the "syndicate's" ready cash.

However, the second day it developed that the representative of the up-the-road parties did not want all the lands that he had bid in; in fact that he wanted and could handle but a small portion of the total.

"A PRINCE OF TATTERS." Will Be the Bill at the Opera House Wednesday Evening.

At H. Wilson will be in Marquette again this season, this time in the stellar role in "A Prince of Tatters," a story of heart interest interspersed with humor, filled with thrilling climaxes and interpreted by a clever company.

Through the action of the play Mr. Wilson sings six songs, giving ample opportunity for the enjoyment of his rich, melodious voice which has earned for him the title "Golden Voiced Singer."

KEEP YOUR FURNACE GOING or your house will be uncomfortable. A COKE fire can be regulated just the way you want it.

OFF TO ISHPERING.

High School Debaters Will Try to Win from Up-the-Road Team.

This evening a team of debaters representing the Marquette high school will go to Ishpeming to meet a team representing that school in a discussion of the question "Resolved, that the United States and the several states should establish and maintain courts for the compulsory adjustment of disputes between corporations operating under franchises of a public nature, and their employers."

LATTER PART OF JULY.

Dates of Midsummer Meeting of L. S. Press Association Fixed.

The dates of the annual midsummer meeting of the Lake Superior Press association, which at its winter session elected to go to Houghton this year, have been fixed as the 28th, 29th and 30th of July, three days whereas in the past the association's outing has continued but two days.

ROSE COGHLAN.

She Will Present "The Second Mrs. Tanqueray" Here.

Richard Obee, representing Rose Coghlan, is at the Marquette. He seems to have a penchant for exploiting women stars in the theatrical ferment, for he has been for five years past in advance of Julia Arthur, Olga Nothersole and Rose Coghlan. He has many entertaining anecdotes of these famous actresses to relate, but he was non-committal when asked regarding Rose Coghlan's suit for divorce against John T. Sullivan, which is set forth by Associated Press dispatch from Helena, Mont.

Miss Coghlan is said to be doing the best work of her career in Piner's famous play, which has been reserved for the use of Olga Nothersole, Mrs. Kendall, Eleanor Duse and Mrs. Patrick Campbell. Miss Coghlan produced "The Second Mrs. Tanqueray" a week prior to Mrs. Patrick Campbell at San Francisco and won splendid recognition, the San Francisco "Call" and "Examiner" devoting a full page to her on the Sunday following her appearance in this difficult part, which so few actresses can properly essay.

ON CHRISTIAN SCIENCE.

Judge Septimus Hanna, of Boston, one of the leading members of the Church of Christ, Scientist, who has a reputation of being one of the best and most impressive speakers on the platform for that denomination, will be at the open house Sunday afternoon, when, at 3 o'clock, he will deliver a lecture on Christian Science. There will be no admission, and a general invitation is extended to the public to be present. It is understood that Judge Hanna's address will be expository in its nature. It is promised that it will be well worth hearing.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

Cudahy's Kettle Rendered Lard—like mother used to make.

TO CONTRACTORS.

Sealed proposals will be received by the undersigned until Wednesday, May 20th, 1903 at 12 o'clock m., for furnishing the several classifications of material and labor required for the erection of a church for St. Ignace Catholic church at St. Ignace, Mich. In accordance with the plans and specifications for the same prepared by Harry J. Rill, architect, No. 54 Buhl Block, Detroit, Mich.

CITY BREVITIES.

Today's weather: Generally fair; stationary temperature; fresh northeast to easterly winds.

Yesterday's temperature: 7 a. m., 44 degrees; noon, 48 degrees; 7 p. m., 58 degrees. Maximum, 60 degrees; minimum, 39 degrees.

Mrs. Al Maitland of Negaunee was a Marquette visitor yesterday.

The Retail Clerks' union's May party will be given on the 21st, not on the 25th, as stated yesterday.

The Ladies' Aid society of the Presbyterian church will meet with Mrs. Grace Hoyt Fraser, Michigan street, this afternoon at 2:30 o'clock.

The Northern Land company has been annoyed since the spring opened up by parties who have been taking sand from their lots along the lake front.

The clearances of ore boats yesterday were the Corsica and whaleback barge No. 118, loaded at the South Shore docks, for Cleveland, and the Pontiac and Cadillac, loaded at the L. S. & I. dock, for Erie and Toledo, respectively.

A ball game between the high school and alumni teams has been arranged to be played Saturday afternoon at the new fair grounds. An admission fee of fifteen cents will be charged. Street cars will run direct to the grounds.

C. W. Cameron, formerly in the milk and cream business on Third street, has located at Houghton, where he will start a store similar to that which he conducted here. He has secured a store on Dodge street and is about to open up.

There was a basket ball game at the Casino rink yesterday afternoon between teams representing the Sophomore-Junior and Senior Freshmen. The former were victorious by a score of twelve to two. There was a good crowd present and there was much vociferous rooting.

Fifty or more students of the high school will attend the Marquette-Ishpeming debate at the Hemette City this evening. The party will go up on the 6 o'clock train and return on a special leaving Ishpeming about eleven. The fare for the round trip will be fifty cents.

There is little doing at the break-water as yet, and present operations are entirely of a preparatory nature. It will be the middle of the month at least before work is taken up seriously, and it will probably be well along toward the end of May before it is in full swing.

Manager Price expects to have the Marquette team meet the South Marquette nine in the first practice game of the season Sunday. The details of the organization of the first team are pretty well advanced, and there is no doubt that the city is going to be represented by a strong organization. Full announcement cannot be made yet, as negotiations with a couple of men are still open.

Great progress has been made with the demolition of the Longyear mansion, and it is about all down. The work will be finished up in a few weeks now. A large force of men has been employed on it. The tearing down of the residence did not make as much of a change in the appearance of the locality as was anticipated. Very shortly after it is all out of the way people will have forgotten that it was ever there.

The Mining Journal has received from Childs Art Gallery at Ishpeming two fine photographs of the ceremony of the laying of the corner stone of the new court house, carried out under the auspices of the grand lodge of Masons in Michigan a week ago last Saturday. One photograph shows the grand lodge officers and the supervisors distinctly, and the other embraces a large part of the crowd which witnessed the proceedings. The photographs form an attractive souvenir of the occasion.

The "poverty social" at Fraternity Hall last night, given by the ladies auxiliary to the railroad trainmen, was largely attended and was a distinct social and financial success. Practically all of those in attendance were garbed in garments tattered and torn and it was a hard matter for the judges to pick the winners. It was finally decided that of the gentlemen Fred C. Myers had the shabbiest outfit and he was accordingly awarded the prize. The ladies' prize was won by Mrs. Neil Humes.

The New York Belting and Packing company, one of the largest manufacturers of hose in the world, has presented to the Upper Peninsula Firemen's association, through its representative, L. Armstrong, who called on President Caspar Brand at Houghton this week, 600 feet of hose for use in the annual tournaments. The hose will be of a light cotton quality, particularly well adapted for tournament use. With two official carts, the association will now have all the equipment necessary for the annual contests.

C. A. Stringer of Detroit, chairman of the Sank's Head Copper Mining company, was in Marquette this week, leaving yesterday for the copper country, where he is to spend two weeks. While here he visited the Keog mine near Sank Head, and on his return here from the copper country he will again go out to the property, this time in company with an expert, with the purpose of giving it a thorough inspection. Work at the mine is progressing steadily, and the promoters profess every encouragement with the outlook.

Give the children Rocky Mountain Tea, this month, makes them strong, makes them eat, sleep and grow. Good for the whole family. A spring tonic that makes sick people well. 35 cents. Stafford Drug Co.

COKE USERS ARE ALWAYS HAPPY because their homes are clean, their fuel bills are low, and peace reigns in their families.

THE MARQUETTE GAS LIGHT CO. A remarkable "Proof Positive Test" seance will be given at Fraternity Hall Sunday night. See advertisement, headed Spiritualism. (5-6-tf)

Old Braddon Port Wine and G. W. Blah's Grape Juice. (4-9-3mo)

300 CANAL PASSAGES.

List of the Boats Locked Through on the Up-Bound Trip.

Sault Ste. Marie, Mich., May 7.—Up: Matoa and whaleback, 11:40 last night; Colby, A. E. Stewart, 12:40 a. m.; Rockefeller, 1:40; Embury, Johnson, King, 3; Algonquin, 10:30; Frontenac, 11:20; Fryer, 12 noon; Yakima and consort, Colgate Hoyt, 1:30 p. m.; Trevor, Northern Light, Buffalo, 2; Manola, Carrington, 3; Ellwood, J. H. Wade, Mesaba, 3:30; Bessemer, Manda, 4; Strathcona, Donnacona, 5; Briton, 5:20; Mathew, Wentworth, 8.

A CHRISTIAN SCIENCE LECTURE.

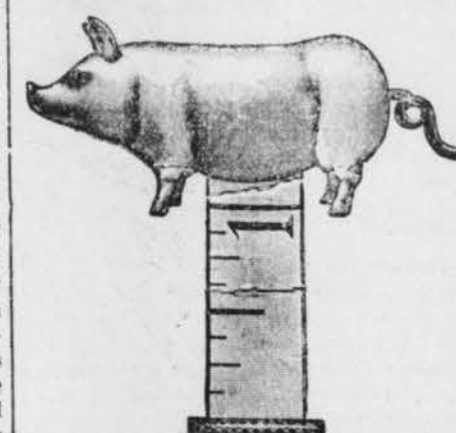

The public is cordially invited to attend a free lecture on Christian Science at the opera house Sunday afternoon at 3 o'clock, by Judge S. J. Hanna of Boston. (5-8-2d)

STOCKHOLDERS' MEETING.

The adjourned annual stockholders' meeting of the Marquette Gold Mining & Milling Co. will be held at its office in the city of Marquette on the 11th day of May, 1903, at 7 o'clock p. m. (5-8-3d) JOSEPH J. WIRTZ, Sec'y.

You never heard of any one using Foley's Honey and Tar and not being satisfied. Sold by People's Drug Store.

RUGS MADE OF OLD CARPET Address M. Iralsou, Clifton Hotel.

This copper pig tape measure 25c by mail

SCHOCH & HALLAM.

Reichenbach's Rheumatic Remedy.

If you want to be quickly and permanently cured of inflammatory rheumatism, send me one dollar and I will send you a copy of the original formula compounded and proven out in 35 years' practice by one of the leading physicians and scientists of the United States. W. F. Reichenbach, 32 King St., Rochester, N. Y. (5-8-2w)

FRANK W. HATHWAY'S PALACE MEAT MARKET.

SPRING LAMB

and every other meat delicacy here in abundance. In fact, chickens, turkeys, etc. Of course the old reliable beefsteak and beef roast are here all the time; but just now you may want a change that won't take too much of your change. Here, imported Frankfurt sausage and strictly fresh eggs.

Spiritualism Proof Positive Test Seance FRATERNITY HALL SUNDAY 8 P.M. BY THE BROCKWAYS.

Auspices of Marquette Spiritualist Association. Collection 15c. The Brockways are well known mediums endorsed by the public and press everywhere.

MRS. A. BROCKWAY Psycho-Clairvoyant

gives readings daily, which for detail, exactness, truth, interest manifested in each individual case, sound advice and counsel are unequalled anywhere. She will tell you what you want to know; eliminating all uninteresting features, and not tiring you with matters entirely irrelevant to the case in hand, as has been the case in readings you have had in the past. Many are groping along in darkness and gloom, not knowing what to do or which way to turn, who can be benefited by seeing her. She does all that anyone can, and much more than many who advertise impossibilities.

W. Brockway, Nervopathist,

locates diseases free without you telling symptoms and how you can get health without knife or drugs. IF SICK, IN DOUBT OR TROUBLE, GO SEE THE

BROCKWAYS

199 Washington St. Marquette, Mich. Hours: 9 a. m. to 8 p. m. (5-4-tf)

THE FIRST NATIONAL BANK, OF MARQUETTE, MICHIGAN. ORGANIZED JANUARY 22, 1864. Capital and Surplus, \$200,000.00. UNITED STATES DEPOSITORY. STATEMENT OF CONDITION Condensed from Statement to the Comptroller of the Currency, April 9th, 1903.
