WHEN LIFE'S AT STAKE DAILY MINING JOURNAL. ng on the lakes, especially after the upletion of the Panama Canal.

The most timid man will take any chance of escape. The slender rope dropped down the precipice, the slip-pery log over the abyss, anything that offers a chance of life, is eagerly snatched at. The end the man seeks is safety.

He cares nothing for the means to that end.

There are thousands of men and women whose women whose lives are at stake, who are hindered who are hindered from accepting the one means of safety by foolish prejudice. Doctor Pierce's Golden Medical Discovery has been the means of restoring health to many men and women whose hollow cough, bleeding lungs, ema-ciation and weakness seemed to warrant the statement of local phy-

sicians-"There is

no cure possible." Why should prejudice against a put-up upon. medicine hinder you from trying what has cured thousands of suffering men

and women? "Only for Dr. Pierce's Golden Medical Dis-covery I think I would be in my grave today," writes Mr. Moses Miles, of Hilliard, Uinta Co., Wyoming. "I had asthma so bad I could not bleep at night and was compelled to give up work. It affected my lungs so that I coughed all the time, both day and night. My friends all thought I had consumption. My wife had taken Dr. Pierce's Favorite Prescription and it had helped her so much she insisted on my try-ing his 'Golden Medical Discovery '-which I did. I have taken four bottles and an now a well man weighing 185 pounds, thanks to Dr. well man weighing 185 pounds, thanks to Dr. Pierce's Golden Medical Discovery."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose.

LIQUIDATION IN STOCKS.

Demand Is Lacking and New Low Records for the Year Are Made.

New York, May 15 .- There was some liquidation in stocks today which. though not of large volume, was effective in depressing prices on account of the almost total absence of any buying demand. Today's declines carried a Osc Par number of prominent stocks to the low level for the year, including St. Paul. New York Central, Pennsylvania, Southern, and the United States Steel stocks. The previous low level was at the time of the break in connection, with the

Northern Securities decision. The steel stocks were notably firm to day, although the dealings in them were small and the price variation narrow. Reports of a further reduction in the price of iron did not affect them, although the condition of the iron market was a continued influence in the general air of discouragement over the stock market. Reports that the Lehigh Valley had determined to curtail its intended improvements owing to the high cost of material and labor were accepted as a symptom which promises badly for the Michigan further demand for finished iron prod

ONE MORE DAY OF THE GREAT SUMMER SALE ...

No time in the history of our store has our summer sales proven so successful as has this sale. All through our store the sales have been phenominal. True it is, "nothing succeeds like success." Goods well bought are half sold. We have proven this fact to the entire satisfaction both to our customers and ourselves. While we have a very large force of salespeople at all times glad to attend to your wants, it has kept us hard at it all about as expected, a little less than a authorized Frank Finnerty to solicit for day long. Compare our prices with those of any other store in town on same quality of goods. That tells the story; not big gusts of wind in advertisements. People find these things out. That they are "onto it" is proved by our steadily increasing trade. Lowest prices consistent with high quality and prompt and efficient service is our constant aim. SATURDAY MORNILG, MAY 16, 1903.

THE DAILY MINING JOURNAL.

Girls who work are particularly susceptible to female ills, especially when obliged to stand on their feet from morning until night.

Day in and day out, month in and month out, the year through, the working girl toils; she is often the bread winner of the family, and must work that others may live; whether she is sick or well, whether it rains or shines, whether it is warm or cold she must get to her place of employment and perform the

duties exacted from her. Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach; in consequence of frequent wetting of the feet monthly periods become painful and irregular, and frequently faint and dizzy spells, with loss of appetite, until life is a burden and it is hard work to drag about. All these symptoms point to a derangement of the female organism, and if taken in time can be easily and permanently cured.

A Cordial Invitation to Every Sick and Ailing Working Girl.

It is to these girls that Mrs. Pinkham holds out a helping hand, and extends a cordial invitation to correspond with her. Her unrivalled record of success in treating woman's ills makes her letters of advice of untold value to every ailing working girl, and from her wide experience and skill she quickly points the way to health. Her advice is free, and all letters are held by her in the strictest confidence. Address, Mrs. Pinkham, Lynn, Mass. Don't put off writing her until your health is wrecked.

Grateful Words from Working Girls Who Have Been Helped.

"DEAR MRS. PINKHAM :- I want to thank you for what you have done for me. I was dreadfully tired, I stand over my work all day, and no one who hasn't tried it knows how it makes your back and sides ache. I couldn't sleep, and had no appetite, but thanks to Lydia E. Pinkham's Vegetable Compound. I feel entirely different now; it is a wonderful medicine. I do not feel that my work is hard now, and I recommend your medicine to other girls who are always tired." — MISS ISABEL SURGIN, 293 Willis Ave., New York City.

"DEAR MRS. PINKHAM :- Lydia E. Pinkham's Vegetable Compound has done so much good for me that I wish to recommend it to all girls whose work keeps them standing on their feet all day in a hot store. The doctor said I could not live and I must give up work, and stay out of doors; he did not seem to realize that a girl cannot afford to stop working. My back ached, my appetite was poor and I could not sleep; menstruation was scanty and very painful. One day when suffering I commenced to take Lydia E. Pinkham's Vegetable Compound and it helped me, I soon found that my menstrual periods were free from pain and natural; now my health is fine, and every one is surprised at the change in me, and I cannot be too grateful for what you have done for me." - MISS JANET PAINE, 530 West 125th Street, New York City.-\$5000.00 forfeit if originals of above letters proving genuineness cannot be produced.
