Ordering

Drugs

By Mail.

We have quite a number of out-of-town patrons who come to town once in a while, but who prefer our prescription work and general goods so much that they are frequently ordering by mail.

Then we have quite a few town customers who, when away for any length of time, order by mail of us, in preference to having prescriptions put up in unknown stores.

We invite more trade of this character. We have a special care in packing for economical and safe shipping. We make change by mail just as in the store. If you send too much money we return the excess.

This Mail Order Service is proving very satisfactory and a great convenience to those at a distance. Try it, and see how nicely it works.

PEASANTS IN ARMS

REVOLT IN CROATIA IS BECOMING INCREASINGLY SERIOUS.

SPREADING TO EVERY DISTRICT

SERIOUS CONFLICTS BETWEEN TROOPS AND POPULACE.

Military Reinforcements Are Ordered to Disturbed Sections and Martial Law Is Proclaimed—Trouble Primarily Due to Race Hatred.

Vienna, May 21.—The revolt in Croatia is spreading to every part of the titular kingdom and threatens to extend to Dalmatia.

The celebrations at Agram yesterday of the anniversary of the death of Jelacich Von Buzim, former ban of Croatia, culminated in a fierce conflict with the police, who attacked the crowds with their wounding many persons and making 350 arrests, including several students and women. The city of Agram is now completely under military rule. Martial law has been proclaimed. The principal streets are closed by cordons of troops. Four regiments, fully equipped for war, have been ordered to proceed from Odenburg to the Agram district.

At Buceari and Meja thousands of peasants attempted to destroy a railroad in order to prevent the arrival of troops. They tore up the rails at five different points and when the military arrived the peasants pelted them with stones, injuring several soldiers. The troops retaliated by shooting and bayoneting many peasants.

Race Hatred at the Bottom.

The disturbances in Croatia are primarily due to the long standing race hatred between the Slavs and Magyars. The present outlook has two main sources. First, the general discontent of the peasantry arising from the extreme poverty prevailing everywhere and from the fact that in some parts of the country the peasants are on the verge of famine. Second, the indignation aroused by the alleged tyrannical rule of Count Khun Helderway, the present ban of Croatia.

The present agitation covers the entire country, from Esseg, in the east, to the districts of the Adriatic coast, its immediate cause varying according to the different localities. In the districts around Kreutz the disturbances have a socialistic origin, the peasants attacking the Hungarians not on account of their nationality but because they are wealthy. In the towns of the Agram district generally the language question is the principal cause of the trouble. In the coast districts hatred of the public officials has caused the outbreak.

STORMS DO GREAT HAVOC.

Indiana a Heavy Sufferer and Cyclone Kills in Kansas.

Indianapolis, May 21.—A heavy storm swept Indiana this afternoon. The wire service is almost paralyzed and the damage to buildings and crops will reach many thousands. The principal damage was done by lightning. Lebanon, Ellwood and Crawfordsville report the destruction of a number of buildings.

Salina, Kas., May 21.—The third cyclone in Salina county within twenty-four hours struck Assaria tonight. Two persons, Peter and William A. Olson, were killed, and a dozen or more were injured.

Ashtand, Kas., May 21.—The best residence portion of this place was wrecked by a cyclone this afternoon. A score or more houses were destroyed. Great damage is reported from the country. Many persons were injured.

Blaine, Kas., May 21.—A cyclone passed through here tonight. The Commercial Hotel was demolished and many houses were damaged.

York, Neb., May 21.—A tornado in this vicinity tonight blew down several houses and barns. Among the buildings destroyed in this city was the United Brethren church. There was much destruction in the country, but no fatalities are reported.

Orl, Neb., May 21.—A tornado this evening wrecked a number of buildings. No fatalities occurred.

BLIZZARDS DEADLY TO SHEEP.

15,000,000 Have Perished in Montana Since Last December.

Helena, Mont., May 21.—Statistics compiled by President Power, of the state board of sheep commissioners, fixes the total number of sheep lost in the recent blizzard at 900,000. Up to the time of the storm 600,000 had been frozen in the snow of previous blizzards, making a grand total of 1,500,000 lost in Montana since December. This means a monetary loss of \$3,750,000.

GENERAL GORDON REELECTED.

New Orleans, May 21.—The actual business of the Confederate reunion was brought to an end today and the delegates adjourned sine die at noon. General Gordon was reelected commander-in-chief, as were also all the other officers. It is expected that in tomorrow's parade at least twenty thousand veterans will be in line.

BROKERAGE FAILURE AT BOSTON.

Boston, May 21.—F. M. Tucker & Co., bankers and brokers, have suspended. Slow collateral in cotton transactions is said to be the cause.

SIX THOUSAND TICKETS SENT.

Many of the Jewish Sufferers in Russia Coming to Chicago.

Chicago, May 21.—To Chicago alone, it is said, 6,000 persons from Kishineff and other stricken towns in Bessarabia, Russia, will come, that number of tickets having been sent from here by friends and relatives of Jews there. Although the public relief funds raised in this city have been remarkably large, about \$20,000, inquiry has shown that perhaps even more money than the Russian Jews has been sent privately in the form of tickets and postal remittances. A careful estimate of the amount expended privately by several leaders among the Jewish people in the Ghetto is \$150,000.

Jewish Leader Arraigns Cassini.

Philadelphia, May 21.—Hon. Meyer Sulzberger, a distinguished member of the Pennsylvania judiciary, today in a statement to the Associated Press, replied to the assertions of Count Cassini, Russian ambassador, that the troubles in Kishineff are due to an uprising of peasants against money lenders. Judge Sulzberger said:

"Count Cassini is confronted with the fact there have been rapes and murders of women, horrible cruelty of babies and murder of unoffending men committed. His first instinct is to excuse the criminals and throw the blame on the victims. A man with that attitude of mind is not to be argued with. His real conviction, of course, is that the common people have no rights, and what happens to them is a matter of supreme indifference, since there are so many of them he can spare a few thousand."

"It was the attitude of the French nobles before the revolution, and that must be shared by a great many of the white nobles is proved by the fact that while all this massacre was occurring in Kishineff and went on three days, five Russian regiments were quartered in the town. It was therefore certain the police and military departments permitted the massacre and are responsible for it."

"As regards his purile remarks, it is enough to say: First, the great bulk of the Jews in Russia are the poorest people in the world and have no money to lend; second, babies do not lend money; third, murderous criminals are not usually borrowers."

Tolstoi Scores Government.

St. Petersburg, May 21.—Count Tolstoi, writing his opinion of the Kishineff massacre, says:

"The Kishineff crime was the consequence of the policy of lies and violence which the government carries on with such stubborn energy. The government's relation to the affair is now proof of its rude egotism, hesitating at no atrocity when it is a question of crushing movements regarded as dangerous, and is proof of its complete equanimity, which is like that of the Turkish government towards the Armenian massacres and the most horrible atrocities if only its interests remain untouched."

Cassini's Life Threatened.

Washington, May 21.—The Russian embassy in Washington is closely watched by secret guards and Count Cassini, the Russian ambassador, is on a constant lookout to prevent violence by Jews who are incensed over the reports of outrages at Kishineff. Count Cassini has received several threatening letters from Jews in various parts of the United States. The letters denounce the Russian government for permitting the Kishineff outbreaks and breathe vengeance against the czar and his representatives in this country.

HIS REPORT NOT SUPPRESSED.

Charges of Dr. Kemster of Milwaukee Not Substantiated at Washington.

Washington, May 21.—The statement of Dr. Walter Kemster of Milwaukee last night that the entire government edition of ten thousand copies of the report made by him on the condition of the Jews in Russia in 1901 has disappeared, indicating it was destroyed through Russian agencies, is not substantiated by the records of the government printing office. Only six thousand copies were printed and they were placed to the credit of the senators and representatives in the usual way and distributed through them. Some reports still stand to the credit of the congressmen.

AUTOMOBILE'S TANK BLOWS UP.

Gasoline Explosion at New York Injures a Score or More Persons.

New York, May 21.—A score or more persons were injured by the explosion of the gasoline tank of an automobile today. All the injured, among whom were a policeman and three firemen, were burned by the shower of blazing gasoline which followed the explosion. None are fatally injured.

PRESBYTERIANS MEET.

General Assembly Convenes in Annual Session at Los Angeles.

Los Angeles, Cal., May 21.—Nearly all the seven hundred delegates were present when Dr. Van Dyke called the Presbyterian general assembly to order today. A notable feature is the unusually large number of young men among the commissioners. Comparatively few of the older men who had heretofore shaped the policy of the church are in attendance. That is explained by the fact that the campaign for commissionships, which will close upon the final adoption of the creed revision, was an exceptionally warm contest and the younger element went out. Dr. Van Dyke called the assembly to order at 11 o'clock and delivered his annual sermon.

Following a recess until 3 o'clock the election of moderator was taken up. On the second ballot Rev. Dr. Robert F. Coyle of Denver was elected. Minor business was transacted and adjournment was taken until tomorrow.

NEW YACHT WINS

RELIANCE GIVES COLUMBIA A DECISIVE DEFEAT.

PROVES MUCH THE BETTER BOAT

OLD CUP DEFENDER IS BEATEN AT EVERY POINT.

Is Miles Astern When the Victor Crosses the Finish Line of a Twenty-Five-Mile Course Nearly Fifteen Minutes Ahead.

New York, May 21.—By a combination of good luck and splendid sailing qualities the new cup yacht Reliance today inflicted a defeat upon the former cup defender, Columbia, such as she never had suffered, leading her over the finish line of a twenty-five-mile course off Glen Cove by fourteen minutes and forty-three seconds official time.

The Reliance convincingly showed herself to be the better boat. She had beaten Columbia nearly eight minutes in the broad reach of eleven miles in fluky zephyrs, had beaten her one minute and fifteen seconds in running free for three miles in a steady twelve-knot breeze and had beaten her four minutes and fifteen seconds in an eleven-mile stretch to the windward close-hauled in a fifteen-knot southwest. These times are unofficial and allow for Reliance's fifty-five seconds advantage at the start. When Reliance crossed the finish line Columbia was miles astern, hopelessly beaten.

STRIFE AT CHURCH CONVENTION.

Scenes of Disorder Mark Sessions of the Reformed Episcopalians.

Chicago, May 21.—A debate so acrimonious and violent that business was suspended while prayer was invoked for a feeling of peace and good will broke forth at today's session of the triennial general council of the Reformed Episcopal church of America.

Though for ten minutes the delegates prayed earnestly for divine guidance, they renewed their squabble as soon as the "amen" had been heard and overrode the wishes of Bishop Fellows on two points. Both Bishops Fellows and Cheney begged the delegates to exhibit more decorum, and after a pathetic appeal by the former something like order was restored.

It was discovered soon after the opening of the session that the younger element was determined to prevail in the matter of the election of a missionary bishop. This majority ruled the council, ignoring the wishes of the veteran members. On two occasions it appealed from the decision of Chairman Fellows on parliamentary questions and carried its points by a vote of two to one. The chairman's vigorous use of the gavel had little effect in bringing about order.

It was a determined effort of the majority to suspend the regular order of business and proceed to the election that brought about the disorder. The election was finally postponed until after recess, when Rev. H. S. Hoffman of Philadelphia was chosen missionary bishop of America.

The boy's mother, Mrs. Eva Sue Figgert Rosseau, was on the stand again and told of her relations with the blind millionaire. She declared she knew Rosseau was married when she went to live with him, but that she always considered herself a Christian woman. She said that the boy did not as yet know that she was not married to Rosseau when the child was born. She maintained that a common law marriage existed after Mrs. Rosseau's death.

Mrs. Rosseau said that although she was living with Rosseau while his wife was still alive she tried to convert him to Christianity and she believed she succeeded. She admitted that she had received from the Rosseau estate \$25,000 in lieu of dower.

JURY AWARDS \$100,000.

Alleged Son of New York Millionaire Wins Suit Against Estate.

New York, May 21.—The jury in the suit of Charles Broadway Rosseau against the Charles Broadway Rosseau estate for \$100,000 for maintenance and support, returned a verdict for the full amount today, with interest. The boy claims to be the son of the late Charles Broadway Rosseau.

The boy's mother, Mrs. Eva Sue Figgert Rosseau, was on the stand again and told of her relations with the blind millionaire. She declared she knew Rosseau was married when she went to live with him, but that she always considered herself a Christian woman. She said that the boy did not as yet know that she was not married to Rosseau when the child was born. She maintained that a common law marriage existed after Mrs. Rosseau's death.

Mrs. Rosseau said that although she was living with Rosseau while his wife was still alive she tried to convert him to Christianity and she believed she succeeded. She admitted that she had received from the Rosseau estate \$25,000 in lieu of dower.

HUGE CRACK OPENS AT FRANK.

Immediate Evacuation of the Town Is Advised by the Authorities.

Victoria, B. C., May 21.—A dispatch from Frank says that a crack four feet wide and 3,000 feet long has opened a couple of hundred yards back from the face of the western peak of Turtle Mountain at the summit. The lieutenant governor of the territory suggests the immediate evacuation of the place.

CHILDREN DIE IN FIRE.

Merrill, Mich., May 21.—Pearl and Edna Gill, aged three and five, orphans, who had been adopted by Mrs. E. L. Butler, were burned to death today in a fire that destroyed the Butler home. Mrs. Butler was at a neighbor's when the fire broke out.

TODAY'S WEATHER.

Washington, May 21.—The following is the weather bureau's forecast for the week: Showers, Friday and Saturday; fresh east to southeast winds increasing.

OREGON WARMLY GREETED HIM.

President Is Enthusiastically Welcomed at Salem and Portland.

Salem, Ore., May 21.—The president was greeted by an immense throng here today. Under a military escort he was driven to the capitol, where he delivered a half-hour speech.

On his way to the capitol the president stopped at Marion square, where 2,000 school children were assembled. The president delivered a few words of greeting and encouragement to the children, who responded by singing "America." The president joined heartily in the chorus.

At the conclusion of his address at the capitol the president returned to his train, leaving immediately for Portland. On the way to the depot the president noticed an invalid child lying upon a stretcher on the curb. He stopped his carriage, alighted and kissed the little girl.

Sees Historic Flag at Portland.

Portland, Ore., May 21.—President Roosevelt arrived at 2:15 o'clock this afternoon and spent the night here. He was welcomed by an artillery salute and the cheers of several thousand people, and was escorted through the streets by a long procession of military and citizens.

A section of the parade that attracted great attention was a human flag, composed of 400 school girls. Another feature that pleased the president was an assemblage of 12,000 school children, massed in raised seats at the city park. Each child waved an American flag as the president passed and cheered him lustily.

One of the street decorations was a large flag, the first American flag hoisted on the walls of old Manila. It took the place of the Spanish flag and marked the end of the Spanish regime in the Philippines. When the president passed under the flag, he and the other occupants of his carriage took off their hats.

At the city park, in the presence of 25,000 people, the president laid the cornerstone of the Lewis and Clark monument to be erected in honor of the expedition of 1805 which explored the United States territory known as the Oregon territory. The president delivered an address in which he extolled the achievements of Lewis and Clark and the results that have followed.

After the exercises at the park the president returned to his hotel and at 8 o'clock attended a banquet given by citizens of Portland.

WIRES AND POLES CUT DOWN.

Pennsylvania Road Ousts Western Union from Right-of-Way.

Philadelphia, May 21.—The last obstacle in the litigation between the Pennsylvania railroad and the Western Union Telegraph company over the poles and wires of the latter on the railroad's right-of-way having been removed by the United States circuit court at Pittsburgh today, President Cassius M. Pennypacker issued an order for the removal of the poles and wires. By nightfall many miles of wire were cut down. There are about 25,000 miles of wire and 20,000 poles, covering a territory of 500 miles, belonging to the Western Union, on the Pennsylvania's right-of-way. About half of this is affected by Mr. Cassett's removal order.

HARD FIGHTING IN NICARAGUA.

Government Troops Routed by Rebels and Their General Killed.

San Francisco, May 21.—Eugene J. Grunnet, an American, of Salt Lake City, who arrived from Corinto today on the steamer Newport, says that General Estrada, leader of the forces of President Zelaya in Nicaragua, was killed in a battle with the insurgents near Rivas on April 27. His troops were routed with great loss and the revolutionists succeeded in capturing a large quantity of arms and ammunition. The insurgents now have possession of Port San Carlos and complete control of Lake Nicaragua.

IS ENTITLED TO STATEHOOD.

Oklahoma Should Be Admitted Immediately Says Secretary Hitchcock.

Washington, May 21.—Secretary Hitchcock returned today from a tour of the Indian Territory and Oklahoma. He was very favorably impressed with the outlook. He speaks highly of the class of people settling both territories. The secretary takes positive grounds against the consolidation of the two territories and their admission as one state. He says Oklahoma is entitled to immediate statehood.

DENVER STRIKE IS SETTLED.

Denver, May 21.—The strike which for several days has practically paralyzed the business of the city, involving nearly ten thousand men and women, and threatening to force into idleness twice that number of union members, was settled tonight through the efforts of a committee of the Chamber of Commerce and the local typographic union. By the agreement the right of both sides to organize is conceded, the employers are permitted to choose their employees regardless of membership in unions, discrimination against union men is forbidden and the differences will be settled by arbitration.

HARRISBURG STEEL MILL BURNS.

Harrisburg, Pa., Friday, May 22.—The original Bailey mill of the Central Iron & Steel company burned this morning. The loss is a quarter of a million dollars.

GEO. F. TRAIN HAS SMALLPOX.

Stamford, Conn., May 21.—George Francis Train is quarantined at the home of his sister, Helen M. L. Gulader, in this city, suffering from a mild case of smallpox.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$10.00.

MARQUETTE, MICH., MAY 22, 1903.

More than 22 per cent of the men who enlisted in the United States army for the war with Spain have applied for pensions and it is estimated that more than 50 per cent will have filed their claims before the end of the year.

When the shoe is on the other foot it pinches. Germany is making a great howl over the clause in our last agricultural appropriation bill providing for the exclusion of adulterated food and drinks.

The conference committee on primary election legislation is not making much progress with the task of getting together on a bill satisfactory to both houses, and it is said to be altogether likely that the matter will be left at deadlock until the next session of the legislature two years hence.

bill at all and a half hearted measure of the complexion of the Baird bill he prefers the former, and the people at large in the state undoubtedly agree with him.

The Baltimore American has the following comment on the Pennsylvania gas law: There are papers, it is true, that in their strictures and treatment of public men far exceed the bounds of propriety.

What makes it a greater folly is that it cannot accomplish its purpose, and the majority of those who voted for it must have known this. The freedom of the press is as carefully guarded by the courts of Pennsylvania as in any other state.

The veto message was received very quietly. It is said that there is a possibility that an attempt will be made to pass the bill anyway, but it does not appear that the report is very well founded.

A WONDERFUL SHOWING.

Our interests in Manchuria are considerable and are growing, so that while we should keep clear of entangling political alliances, and should, in fact, make no particular point relative to the political control of the province, we are justified in taking rather vigorous action both to preserve and extend our rights whenever there is a possibility that something will be done to limit them.

AT THE JACKSON PRISON. It is reported that Governor Bliss will order an investigation of the charges of lax discipline that have lately been circulated in regard to the Jackson prison.

There has just appeared in a Jackson paper an article singularly confirmatory of what the News had to say. It asserts that the convict is the "whole thing" at Jackson, and that the guards and minor officers are not upheld in their efforts to secure discipline, with the result that the convict is constantly becoming more arrogant and careless.

THE PERPETUAL WAR

There is always a fight going on in every human body between health and disease. On one side are poor food, bad air, over-work, worry, colds, accidents. On the other are sunshine, rest, cheerfulness and nourishment.

The reason Scott's Emulsion fights so powerfully for health is because it gives so much more nourishment than you can get in any other way. Get in the sunlight and try Scott's Emulsion.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

and if he concludes to look into Jackson discipline he will do so more with the purpose of putting to an end for all time the ugly stories that have been floated lately than with the expectation of finding anything amiss. Under the circumstances, however, it would be the part of wisdom to give some formal attention to these various complaints. They have been put forward in the most outspoken and public way possible and they should receive a conclusive refutation.

BREWSTER SURVIVES.

The state game warden's department is not going to be under the necessity of trying to worry along without Chief Deputy Brewster, as Governor Bliss has vetoed the bill, passed by both houses with a rush one day recently, abolishing the office. The governor's veto measure is a lengthy document. It sets forth the importance of game protection and a full enforcement of the game laws, which can be secured only by an adequate surveillance of the game regions.

It has been intimated that the bill in question is designed not so much for the abolition of the office, as it is to do away with the present chief deputy, and if this be true, I will say that the end sought could, in a proper case, be accomplished without the present enactment, as by the section which is sought to repeal the game warden has absolute authority to revoke the appointment of the chief deputy at pleasure. If any reason exists by which the present chief deputy is not a proper official, the game and fish warden will recognize his responsibility and perform his full duty in the premises.

The veto message was received very quietly. It is said that there is a possibility that an attempt will be made to pass the bill anyway, but it does not appear that the report is very well founded. It also appears as if the governor had the big end of the argument. The legislature is not in very big business when it endeavors to embarrass the administration of an important set of laws merely as a means of visiting its displeasure on a single individual. As a game warden Mr. Brewster has been a distinct success. He has been very active and efficient, and his unusual activity largely explains his heavy expenses, concerning which there has been some complaint.

A WONDERFUL SHOWING.

Our interests in Manchuria are considerable and are growing, so that while we should keep clear of entangling political alliances, and should, in fact, make no particular point relative to the political control of the province, we are justified in taking rather vigorous action both to preserve and extend our rights whenever there is a possibility that something will be done to limit them. It is but a short time since our trade in that region began to be important, and its growth has been so rapid that the general public as yet fails to realize how important it is. It has grown up largely since Russia took possession, and is due to a considerable extent to the operations of the Russian government, so that thus far we have received only good at Russia's hands. There are indications, however, that a new policy is about to be adopted, and the very least we can do is to protest at once and vigorously.

Consul Miller at New Chwang reports that the trade of that city has doubled in five years, and that the larger portion of the increase is in American products. The trade, however, passed through the treaty port to Dalny and Port Arthur where the Russians have been making extensive improvements, and as yet the Americans have made little impression on the interior. It is of the greatest importance, as the trade with Dalny and Port Arthur will fall away when Russia has completed the works now in hand, while the trade of the interior will be permanent.

In this larger field the Russians already have an immense advantage. The country is open to them, and they are busily engaged in establishing trading posts, erecting factories, opening mines and capturing the commerce of the region. Especially are they engaged in building up the business of cotton manufacturing, and their success will put an end to large American imports. We cannot complain if we encounter strong competition from Russia in this commercial field, but we have a right to complain if attempts are made to deny us free entrance into it. Recent events at New Chwang seem to indicate that by one means and another Americans are

to be barred out if possible. To be sure we have a number of direct and solemn promises to the effect that our rights shall not be interfered with, but evidently there is need of constant vigilance if we are to hold our own.

Michigamme.

MEMORIAL DAY EXERCISES.

Old Soldiers and Citizens Will Conduct Them at Michigamme Cemetery.

Arrangements will be completed within the next few days for the Memorial Day exercises, which will be conducted at the Michigamme cemetery. At a recent meeting of the citizens it was decided to invite all the lodges of the village to participate. The school children will also help swell the turnout.

Postmaster G. J. Murray was chosen marshal of the day. It is his wish that every lodge member in town make an effort to attend. The procession will be formed on Main street, between the band stand and the postoffice. There will be no services in town, so that the parade will move direct to the cemetery. The time of meeting will be announced next week. Mr. Murray will also look after the flowers to be used in decorating the graves.

BARAGA WILL BE IN IT.

The upper peninsula baseball fans who are just now wondering what aggregation will walk off with the championship honors at the end of the season had better keep their eyes on Baraga. The Michigamme Journal has been advised that five of the colored men, who did infield work for the famous Page Fence Giants, have been hired to play there. They will be paid salaries and will do nothing but play ball. It is said that the "coons" are expected at Baraga next Tuesday. The Giants' battery is included in the bunch. The other four players of the team will likely be Baraga men, though some other outsiders may be engaged, especially if the colored men do not prove capable of "doing" all the other strong teams of the upper peninsula.

TALKING RUNNING TEAM.

Michigamme will likely be represented by a running team at the Hancock tournament in August. The department has some thirty active members. Several were members of former teams, and they are familiar with the work. The changes in the races will work to the advantage of teams from the smaller departments. With most of the heavy contests cut out, the teams from the small towns will stand a better chance of taking prizes than they have at any time since the association was organized.

GOES TO IRON RIVER.

Miss Elizabeth Lyons, who has taught school here for the past eight years, has accepted a place at Iron River for the coming year. She has been preceptress here for some time and is an excellent instructor. Those who are most familiar with Miss Lyons' work declare that the Iron River school authorities are very fortunate in securing her services. The local school board is not yet ready to announce the corps of teachers for the ensuing year, but it is expected that at least a majority of the present instructors will remain.

GREATLY ALARMED.

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption. Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: 'I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured.'" Sold by Stafford Drug Co.

MICHIGAMME PICK-UPS.

Some of the young men of the village who conducted a dance at the town hall on Friday night of next week.

Operator Collins, who held down the door desk at the local South Shore station, left the village last week to take another position with the company.

Married last Monday morning at Champlain, have started housekeeping in a dwelling on Main street, next door to the groom's mother.

A class of twenty-four boys and girls will receive their first communion at the Catholic church here on Sunday morning, June 14. The class will be confirmed by Bishop Eis on the following Tuesday morning.

Oscar Johnson, who led the orchestra here for some years past, is now located at Saint Ste. Marie, where he has a good position. John Kingstrand, who returned a short time ago from Crystal Falls, is playing with the orchestra.

The local tent of the Maccabees initiated a class of candidates Wednesday evening. Refreshments were served at the conclusion of the meeting. There

CALUMET Baking Powder. You are not "held up" when you buy Calumet Baking Powder. It is not made by the trust. Trust baking powders sell for 45 or 50 per pound, and may be identified by this exorbitant price, which is an imposition on the customer and enriches the trust.

are now about 120 members in the local tent. It is the strongest organization, numerically, in the village. Mrs. B. O. Greening, who is visiting her parents at St. Joseph, Mich., will be in town until late in the summer. She has not been in the best of health since a month or so before she went away. Mr. Greening will likely spend the greater part of his summer vacation at St. Joseph.

Susan Neimi and Ole Pelto, two boarding house keepers at the Beauport farm, are preparing to leave there. Neimi will go to Texas, where he expects to purchase a farm. Pelto has his eye on a farm in lower Michigan, and will move his family down there. Herman Hill is to take charge of the house conducted by Neimi.

E. O. Muck's old gray delivery horse died Sunday. The animal was thoroughly trained in its work and the owner regrets its loss very much. The horse could make the rounds of all the customers without the direction of the driver. He was as gentle as a kitten. Mr. Muck had the horse twelve years and was the first person to harness it.

IRON NOTES.

The Great Northern Railroad company has let contracts for lines into the Cross mine and the Corrigan No. 1 and No. 2 which lie west of Hibbing. President Jas. J. Hill was on the range last week looking over the company's mines and making examination of the new washing machines just installed at the Arcturus mine, which may work a revolution in sandy lean ores of the western Mesaba Range.

All drills at work for the Great Northern road on the Eastern Vermilion have been pulled out and stopped. Other parties are going in the same country, however, and work will probably continue there some time. New explorers are also going to the Birch Lake country, on the very eastern end of the Mesabian Range, which has been gone over more or less for forty-five years and without result so far.

Eastern men, accompanied by dredge experts from Duluth, have gone on a most unusual mission to the north shore of Lake Superior. On the Canadian side of the lake, east of the Nipigon river, are immense areas of black magnetic sands, rich in iron, and it is the intention of these men to develop these beds of iron sand, and if found feasible, to dredge and concentrate the sand and ship the concentrates to furnaces. The ore can, it is stated, be made very pure by washing from the silica in the mixture, and it is said the physical character of the ore is excellent. Millions of tons of this said ore are said to be in the neighborhood, and the eastern men interested have secured concessions from the Canadian government on shore and other necessary rights.

Mining operations have been resumed on the properties of the Antoine Ore company, now owned by the Republic Iron & Steel company, and a large tonnage will be taken out this year. From the Antoine mine alone shipments are to be more than 100,000 tons, and several other mines are to be worked more or less, and the Vulcan silica is to be opened for mining. These mines produce a lean ore, high in silica, which makes them valuable for mixing with the almost pure ores of the Mesaba range. In the past year or two there has been a very active demand for these ores, and the Republic company has been only one of half a dozen large consumers.

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy. Mr. H. P. Burbage, a student at law in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption. Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: 'I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured.'" Sold by Stafford Drug Co.

TRUST THOSE WHO HAVE TRIED.

I suffered from catarrh of the worst kind and never hoped for cure, but Ely's Cream Balm seems to do even that—Oscar Ostrom, 45 Warren Ave., Chicago, Ill. I suffered from catarrh; it got so bad I could not work; I used Ely's Cream Balm and an entirely well—A. C. Clarke, 341 Shawmut Ave., Boston, Mass. The Balm does not irritate or cause sneezing. Sold by druggists at 50 cents, or mailed by Ely Brothers, 56 Warren St., New York.

Griffin, General Agent, Chicago & North-Western Ry., Houghton, Mich., (6-22-8-15)

Rheumatism "THE PAIN KING." Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain." All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time. An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy. If you have Rheumatism, write us, and our physicians will furnish without charge any information desired, and we will mail free our book on Rheumatism. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Copper Country Department

INSPECTIONS VERY GOOD.
GHASTLY FIND.

Copperdom Militia Companies Please Major Wood and General Green.

Mayor W. T. Wood, the regular army officer who inspected the Houghton Light Infantry at the Amphidrome Wednesday evening, expressed himself yesterday as well pleased with the company, as also did Inspector General Fred M. Green, of the Michigan National Guard, who accompanied Major Wood to the copper country. The officers and men of the company, who have in common taken an interest in the welfare of the organization, believe that it was the best inspection the company ever had, and all were much elated yesterday. Over sixty men took part in the inspection, which was carried out like clock work and without a hitch. An interested crowd of spectators was present and the manoeuvres of the militiamen were frequently applauded. The Amphidrome afforded an excellent place for the drill. The fact that the inspection was a good one and that it demonstrated the company is approaching a higher military standard is what particularly pleases both officers and men.

"Generally speaking, I found the company up to the average in efficiency," said Major Wood yesterday. "It is in good condition and ranks well with other companies I have inspected. It is good in every department. Its extended order drill was excellent. It is a good thing that the company has the use of the big tank structure for a drill hall. The size of the floor permits of the best work. I have found most drill halls too small. I have been traveling about the state since April 28, but expect to finish my work during the first week in June," the major went on. "I am through with the southern, eastern and northern part of the state. I go from here to Calumet, then to Ironwood and Iron Mountain and from there to Milwaukee and across to Grand Haven, where I will finish up the western portion. I have found only a few poor companies so far. Several are excellent while most of them are good."

"This inspection is being made in accordance with the Dick military bill, recently passed by congress. I look over a company as to its quality first to see if it is fit to be placed on a regular army basis and then I see what it needs in the way of equipment. It requires the taking of a great deal of data. These inspections are being made in all states in the Union.

"The most important requirements in the militia are good officers and men who are physically sound. Efficiency in drill can easily be attained as Americans are intelligent and can learn easily. This has been proven when men have been pressed into service."

In speaking of the Calumet company, Major Wood stated that he had heard of it and that he expected a good inspection. Some of the members of Company E attended the inspection at Houghton Wednesday evening to get a few pointers. The Calumet company is one of the best in the state and it always shows up well at inspection.

Inspector General Fred Green looked over the equipment of Company G yesterday for Major Wood. This is General Green's first visit to the copper country in two years. Inspections in the past have been made by his assistant. The general took notes on the inspection with Major Wood Wednesday evening and yesterday, and this will answer for a regular state inspection for Company G. General Green did the same thing at the inspection of Company E at Calumet last evening.

Major Wood, who is of the Twentieth infantry, will be headquarters at Fort Sheridan, spoke highly yesterday of Second Lieutenant Barlow Wallace, formerly of Marquette, who is now stationed at Fort Sheridan as Major Wood's battalion quarter master sergeant. "He is one of the best officers we have," said the major. "His character is exemplary, his habits excellent and he has good judgment."

A. O. U. W. ANNUAL REUNION.
 Date and Place to Be Fixed at a Conference at Houghton Tuesday.

A special meeting of the Houghton Lodge of the Ancient Order of United Workmen will be held next Tuesday evening to decide upon the time and place for this year's annual reunion of the lodges of the order in this county. The reunion, it was said yesterday, will likely be held at Houghton. A big delegation from the Calumet lodge will attend next Tuesday's meeting, as will also members from the Hancock and other lodges. The Calumet degree team will assist in special degree work. The A. O. U. W. has a very large membership in this county.

CEMENT WALKS WANTED.
 A general sidewalk ordinance, which will compel the property owners on the north side of Quincy street between Reservation and Tezeco to build cement walks at once, will be drawn up and passed at the meeting of the Hancock city council next Monday evening. The present plank walks are in bad condition.

Mr. Joseph Pomerville, of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richards, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets a trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box by Stafford Drug Co.

A LESSON IN HEALTH.
 Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Sold by People's Drug Store.

GETS THIRTY-DAY SENTENCE.

Calumet Man Punished for Non-Support of His Children.
 Stephen Ahola of Calumet has been sentenced by Justice Jackola to thirty days in the county jail. Ahola was arrested for the non-support of his four children, particularly of his seventeen-year-old daughter, who is not in the best of health. The three other children are virtually supported by charity. He refused to furnish a bond to support his children, hence the sentence. If at the conclusion of his term in jail, his mind isn't made up to be more human in the future, it is likely he will be more severely punished.

AGREEMENT IN SIGHT.

Car Line and Laurium Council Expected to Come to Terms.
 The street railway company, by Vice President W. C. Chapman, and the Laurium common council will, it is expected, soon reach an agreement whereby the company will be given permission to build the 300-foot stretch necessary to connect the Laurium end of the Lake Huron extension with the main line at Laurium. Mr. Chapman has agreed to present a petition making certain concessions in return for a franchise, and if the council is satisfied the company will be given the desired permission.

LAUNDRY NOW GOING UP.

Facilities at the Douglas House Being Further Increased.
 A small addition that will be used as a laundry, being built adjoining the kitchen at the Douglas House, Houghton. The laundry will be equipped with up-to-date machinery, already ordered. After the laundry is built, Mr. Mann intends to install a refrigerating plant, which will complete the hotel equipment. The private telephone system in the house is now in good working order and Wire Chief L. H. Corrigan, of the Michigan Telephone company, pronounces it the best system of its kind in the state. A guest may talk to any part of the hotel, town, county or state without leaving his room.

HIGH SCHOOL BALL GAME.

The Hancock and Calumet high school baseball teams will line up at the Hancock Driving Park Saturday afternoon for the first game of the season. Both aggregations are in fine trim and a first-class exhibition should be the result. A small admission fee will be charged, the proceeds to be devoted to the fund to pay the expenses of the track teams to Ishpeming next week.

GOOD SPEAKER SECURED.

The Calumet school authorities have secured the services of S. H. Clark, associate professor of public speaking at the University of Chicago, to address the graduating class at the commencement exercises to be held on the evening of June 17. Professor Clark has the reputation of being a public speaker of ability and an author of high repute.

BALL PLAYERS WITHOUT WORK.

Two of Calumet's baseball players are without work and unless they soon get employment they may leave town. Manager Cox has endeavored to land jobs for the boys, but he has so far failed to do so. An appeal has been made to the "fans" to help the team out in this matter.

AFTER MATCHES AT BUTTE.

William Morgan, of the Centennial location, a well-known Cornish wrestler in this county, has left for Butte, Mont., where he expects to arrange several contests on the mat. He will remain in Butte for at least six months.

COPPERDOM BREVITIES.

The selecting committee appointed to canvass Hancock for funds for the firemen's tournament in August will soon get to work.

The commencement exercises of St. Patrick's parochial school, Hancock, will be held on the evening of Monday, June 22, at the Keridge theater.

The Colonial Motion Picture company will give an entertainment at the Keridge theater, Hancock, on the evening of June 25, for the benefit of E. R. Stiles post of the G. A. R.

Dr. and Mrs. H. M. Joy and Drs. G. M. Rees of Calumet are expected home from the south Saturday or Sunday. They attended the recent convention of medical men at New Orleans and went from there to Cuba, where they spent a few days visiting points of interest.

President Sandin, of the street railway company, says open cars are impracticable on an interurban line such as between Houghton and Calumet. The cars travel at a high rate of speed over the line and the breeze created would be too great for the comfort of people in open cars. Closed cars are preferable for this climate.

DEAFNESS CANNOT BE CURED.

By local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Caught a 130-Pound Fish—
 Louis Setunsky, a fisherman, brought a big sturgeon to Menominee this week that caused crowds to congregate about the wagon at every stop. The fish was still alive in the afternoon, although it has been taken from the water at eight in the morning. The sturgeon weighed 130 pounds, was six feet long and measured forty inches about the body. It was sold to a Menominee fish dealer and brought about \$11. It will be retailed at about 15 cents a pound fresh and twenty-five cents a pound smoked. It weighed five pounds more than any other fish that Mr. Setunsky has caught and is probably the largest sturgeon that has been taken from the bay in years. Last year Mr. Setunsky caught twenty-five or thirty sturgeon, the largest of which weighed 125 pounds. The monster fish was caught in a gill net and was landed alone. It was put into the boat, but there it flopped about so that a rope had to be placed around its neck and it was towed ashore. Mr. Setunsky says that great care has to be taken in hauling these big fish up so as not to scare them. If they become frightened and make a sudden dive to get away, they will easily go through a net. Landing the fish into the boat is not a difficult task if the fisherman knows how. When it is hauled near enough to the boat a noose is gotten over its head in some manner and the fish is hauled up so that the head is drawn close to the rail of the boat. The fish will then flop itself into the boat. Sturgeon are now very scarce in Green Bay.

AGAIN GARRISONING FORT BRADY—
 After an absence of nearly thirty years, the First United States Infantry—or one battalion of it—is again garrisoning Fort Brady at the Soo, having just arrived from the Philippines. The First Infantry's former occupation of Fort Brady began in 1829 and continued until 1871 when it was transferred to Dakota. It was scattered among various posts in that territory until 1879 and was then transferred to Texas under the command of Colonel (now Major General) Shafter, who was promoted from the position of lieutenant colonel of the Twenty-fourth infantry at that time. In 1882 the regiment took part in the Apache Indian uprising in Arizona which had a sensational climax in the capture of the leader Geronimo by General Lawton. For the next three years the regiment remained in Arizona quelling Indian uprisings and attacks of Mexican marauders. From 1885 until the outbreak of the Spanish-American war the regiment spent most of the time about San Francisco harbor. It took an active part in the Sioux Indian uprising at Pine River agency when the battle of Wounded Knee was fought. A detachment of the First under Lieutenant (now colonel) John J. O'Connell had the honor of being the first body of troops to land in Cuba in the late war. The entire regiment participated in the invasion of the island under the leadership of its old commander, General Shafter, and the latter

had reason to be proud of the fact that he was once at the head. The regiment has served in the Philippines for three years and comes directly from there, having landed at San Francisco only two weeks ago. The First is the oldest infantry regiment in the service. It was organized in 1789 from the state troops raised under a resolution of June 3, 1784.

IN ANCIENT TIMES
 "Oh, King, live forever." But the King didn't and couldn't do it, sometimes even a little bit. Modern wisdom says: "Oh, King, insure and do it quickly, or buy an Annuity." 34th year and doing business in 35 states. Nat'l Life Ins. Co. of Vt. (Mutual) Organized 1859. M. W. Marshall, Gen. Mgr., Marquette, Mich.

BARGAINS IN LANDS

STATE OFFICIALS OFFERING THEM FROM TIME TO TIME.

THEIR PROCEDURE SOMETHING NEW

EACH COUNTY WILL HAVE THE SALES IN ITS TURN.

Hundreds of Thousands of Acres of Very Fair Lands Are to Go Under the Hammer—Speculators Are Watching Things Close.

It may be news to a great many people of Michigan to learn that State Land Commissioner Wilder has begun a series of monthly bargain sales of some hundreds of thousands of acres of land, a good deal of which is as fine farming land as can be found, says a special correspondent writing from Lansing to the Detroit Evening News. The lands of but one county, was sold at a bargain. At the two sales already held—Crawford and Roscommon lands—prices ranged from 25 cents to \$9 an acre. The average was a little over \$1 an acre. When the last of the sales shall have been held there will be precious little unimproved farming land left in Michigan for homesteaders except about 73,000 acres of swamp lands, unless the homesteader is willing to pay a speculator's price for it.

Commissioner Wilder and Auditor General Powers, alone by themselves, ordered these sales, an amendment to the homestead act of 1893, passed by the last legislature giving them the authority, so they claim. The lands are what are known as state tax lands. To be exact, there are 411,379 acres. The lands are in the counties of Alcona, Allegan, Alpena, Arenac, Clare, Crawford, Delta, Emmet, Gladwin, Grand Traverse, Huron, Iron, Kalamazoo, Lake, Mackinac, Mecosta, Menominee, Midland, Missaukee, Montmorency, Muskegon, Newaygo, Ogemaw, Otsego, Presque Isle, Roscommon and Schoolcraft.

Many Licenses Issued.

In the ten years that have elapsed since the homestead law was passed, which says that a settler can get a free deed of not to exceed 160 acres from the state providing he has lived on the land five years, 4,143 homestead licenses have been issued by the state land department. The gross amount can only be approximated, but it is probably not less than 400,000 acres. A good many of these homesteads have reverted to the state by tax sales after the settlers could not pay the taxes, which might have been paid by the state. The amendment referred to in the act of 1893 is found in section 137. The section as it now reads is as follows, the part in parentheses being the amendment:

"All such lands shall be held by the commissioner of the state land office, subject to entry as homestead lands (unless withheld and reserved in the manner following: The commissioner of the state land office and the auditor general, acting jointly, may reserve and withhold from entry under the homestead right, such portion of the lands deemed by the auditor general to be the state under section 127 of act number 206 of the public acts of 1893 and acts amendatory thereto as, in their opinion, may not be advantageous to open for homestead, and they may withhold and reserve such lands from entry for so long a time as will, in their opinion, best subservise the interests of the state. The said land commissioner and auditor general shall affix a minimum price upon all lands so reserved and withheld. All such lands withheld from homestead entry shall be offered for sale by said land commissioner at prices to be determined by him: Provided, that in the sale of these lands so reserved and withheld, the same rules and regulations as provided in act No. 21, of the public acts of 1873, entitled, 'An act to require the commissioner of the state land office to give public notice of state lands of reserved and forfeited lands to market shall govern, and no bid shall be accepted for less than the minimum price affixed by said land commissioner and the auditor general. The proceeds of such sale shall be accounted for to the state, county and township in which said lands are situated pro rata, according to their several interests therein, arising from the non-payment of taxes thereon as such interest shall appear in the office of the auditor general) and if any person shall apply for any lands subject to entry as homestead, etc."

Red Tape Regulations.

The rest of the section defines the red tape regulations that a homesteader must observe. The commissioner and the auditor general interpret the clause in the amendment, "may withhold and reserve from homestead entry such portion of the lands as, in their opinion, may not be advantageous to open for homestead, and they may withhold and reserve such lands from entry for so long a time as will, in their opinion, best subservise the interests of the state. The said land commissioner and auditor general shall affix a minimum price upon all lands so reserved and withheld. All such lands withheld from homestead entry shall be offered for sale by said land commissioner at prices to be determined by him: Provided, that in the sale of these lands so reserved and withheld, the same rules and regulations as provided in act No. 21, of the public acts of 1873, entitled, 'An act to require the commissioner of the state land office to give public notice of state lands of reserved and forfeited lands to market shall govern, and no bid shall be accepted for less than the minimum price affixed by said land commissioner and the auditor general. The proceeds of such sale shall be accounted for to the state, county and township in which said lands are situated pro rata, according to their several interests therein, arising from the non-payment of taxes thereon as such interest shall appear in the office of the auditor general) and if any person shall apply for any lands subject to entry as homestead, etc."

A WAY OPEN.

Many a Marquette Reader Knows It Well.

There is a way open to convince the greatest skeptic. Scores of Marquette people have made it possible. The public statement of their experience is proof of the like of which has never been produced before in Marquette. Read this case of it given by a citizen:

Mr. A. Hoard of Dead River Mills says: "There was a dull aching pain across the small of my back and in my kidneys at times so severe that I could hardly stand it, particularly if I caught cold or did any heavy lifting. I took medicines at different times but the trouble still remained as bad as ever. When I saw Doan's Kidney Pills advertised I got a box at the Stafford Drug company and used them. The treatment cured me."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name, Doan's, and take no substitute.

tion of the lands... as in their opinion may not be advantageous to open for homestead, as meaning that they may withhold all of the lands for the reason that they claim it would be a disadvantage to the state to continue to hold them for homesteads. The point is made by some prominent lawyers that sweeping powers on the two officials named, Don M. Dickinson has been retained by attorney in two suits against the state, arising in the upper peninsula, in which this question is involved. It may strike some folks that it would be better policy for the state to hold these lands and boom them so as to attract bona fide settlers, like, for instance, our neighbors across the border are booming the Canadian northwest. The land commissioner and the auditor general do not think so, and they believe they have the whole say in the matter. The commissioner is the auctioneer. He explained their reasons to the News.

The Commissioner's Reasons.

Admitting that speculators may get hold of more or less of the good lands, he insisted that if they do they will hustle to attract settlers better than the state would do it through a department. They will have to hustle. Being obliged to pay state and county and township taxes they must sell within a few years, else their venture will be unprofitable. At the Crawford county sale an Iowa man bought 6,000 acres better than the state, John Carter, a former Chicago man, now living at St. Helens, has bought 68,000 acres—about three townships. He did not, however, get it at one of the bargain sales. Instead, he bought the original title, paid the county and township taxes. The board of supervisors generously rebated 90 per cent. Carter has four portable sawmills on the tract, and he is said to have picked up enough of scattering timber to reimburse him for all he has paid out. Now he is plugging for settlers to beat the band, and with considerable success, it is reported. All of his land is in Roscommon county.

Bid in by the State.

By way of explanation it may be stated that all homestead land are lands upon which the taxes have been delinquent for five years and which have been bid in by the state. Last year 43,000 acres were bid in in Gladwin county, 37,400 in Arenac, 57,700 in Roscommon, 63,285 in Gladwin, 18,000 in Alcona. There were delinquent for taxes in the entire state a year ago 6,077,000 acres, appraised at \$38,183,000. The law, before it was amended by the legislature two years ago, specified that all state tax lands must be held for homesteaders. As amended it specified that the commissioner and the auditor general power to withdraw such lands for homestead entry, if they were regarded as disadvantageous for homestead purposes. The explanation given by Mr. Wilder as to why the law was so amended is: First, settlers often took up a homestead, and when they had cut off the timber they would let the land go back to the state for delinquent taxes, take up another timbered homestead and do the same thing over again. Secondly, men owning portable sawmills were continually cutting timber on state lands, always pleading if caught that they got over onto the state land without knowledge.

Some timber Still Left.

The greater portion of the tax lands were originally covered with timber, principally in the Gladwin and Arenac counties. When the big operators cut the timber they abandoned the land on the theory that it would cost more to keep it and pay the taxes than the land was worth. It is asserted that there is hardly a pine baron in Michigan who has made a barrel of money or more in the business, when the original deeds of thousands of acres of these lands do not run. The dumps of timber left were so scattered that they couldn't see any profit in cutting it, but as timber became scarcer and dearer others with portable mills went after these dumps and made money, and are still going after them. A man who is not in the service of the state reports that in Roscommon county alone there are 100,000,000 feet of standing timber on the state tax land that will in due time be offered at one of the land commissioner's bargain sales.

Good Farming Lands.

The land lookers' reports show that fully 70 per cent of the tax lands in Alcona, Arenac, Gladwin and Roscommon counties are good for farming. In the other counties the percentage ranges from 40 to 60 per cent. Nothing larger than a forty-acre piece can be sold at one time at the bargain sales, according to the law, but there is no limit to the amount of land that one person can bid in. With the lands that are reverts to the state from month to month, Commissioner Wilder estimates that he will have sold 1,000,000 acres over the bargain counter before he gets through. If the prices keep up as they have been going, this will bring about \$1,000,000 into the state treasury. Each bargain sale is advertised extensively in the big cities, not only of Michigan, but of Illinois, Ohio, New York, Pennsylvania, and several other states. If amount of the lands in all the counties taken together will average 60 per cent good for farming, it means that 600,000 of farm lands are to go under the hammer.

Doctor Stranghoff, the noted German scientist, says: "The most beautiful and well formed women are Americans, where 90 per cent use Doan's Kidney Pills. The great beautifier." 35 cents. The Stafford Drug Co.

Cudahy's Kettle Rendered Lard—like mother used to make."

NOTICE TO CONTRACTORS.

Sealed proposals for the erection of a library building in the city of Marquette, Mich., will be received at the office of the secretary until one o'clock p. m. upon the 10th day of June, 1903. Each bid must be accompanied by a certified check payable to the undersigned for two per cent of the amount of same. Plans and specifications may be had at the office of the architect, Patton & Miller, 153 La Salle street, Chicago, Ill., or at the office of the secretary in Marquette, Mich. The library board reserves the right to reject any or all bids.

A. E. DELF, Secretary Peter White Public Library, Marquette, Mich. (5-20-11)

Use Cudahy's Kettle Rendered Lard. Pure and wholesome.

CUTICURA SOAP

The World's Greatest Skin Soap.

The Standard of Every Nation of the Earth.

Sale Greater Than the World's Product of Other Skin Soaps.

Sold Wherever Civilization Has Penetrated.

Millions of the world's best people use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative, antiseptic purposes which readily suggest themselves to women, especially mothers, as well as for all the purposes of the toilet, bath and nursery.

Cuticura Soap combines delicate emollient properties derived from Cuticura, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap ever compounded is to be compared with it for preserving, purifying and beautifying the skin, scalp, hair and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath and nursery. Thus it combines in one and the same soap the best skin and complexion soap and the best toilet and baby soap ever compounded. Sale greater than the world's product of all other skin soaps. Sold in every part of the civilized world.

GREAT CONVENTION.

Dr. Felch Home from Meeting of American Medical Association.

Dr. Felch and family, who arrived home Tuesday from New Orleans, had a most interesting visit in the southern city. The doctor was one of the delegates from this state to the annual convention of the American Medical Association, a great gathering of physicians and surgeons from all over the country. Over two thousand were present, but of this number only one hundred were members of the house of delegates, the others being visitors. The delegates are appointed the number from each state being in proportion to the membership of the county medical societies. Dr. Felch was busy most of the time with the administrative work of the house of delegates, which met by itself, and he was able to attend only a few of the other meetings. Because of its size, the convention was divided into sections, half a dozen or more of them being in session at the same time. The physicians selected the sectional meetings they desired to attend, each being thus enabled to secure such work as applied directly to his own particular lines of research, or to lines in which he might be interested.

Dr. Felch says that the newspaper accounts of the hostility manifested by a number of physicians toward Dr. Lorenz, the great Vienna surgeon, were greatly exaggerated. He asserts that the Austrian physician was received with the greatest enthusiasm whenever he appeared, the wonderful success of his operations being accepted as abundant proof of his skill and standing by nearly all the doctors attending the convention.

The meeting did not lack for social features, the people of New Orleans displaying true southern hospitality in their royal treatment of the visitors.

Ample entertainment was provided for the families of physicians. There were receptions and boat rides and other attractive features. A large reception was held at the St. Charles Hotel, and several were given at private homes.

A boat excursion for about forty miles up the Mississippi river was one of the most enjoyable features. Dr. Felch says that few evidences of the havoc wrought by the recent floods on the Mississippi were noticeable in the vicinity of New Orleans, the damage being mostly confined to the region further up the river. Ample provision had been made, however, against a break in the levees. Portions of the great embankments of bags and other material that were piled up to provide a temporary barrier against the flood still remained in a good many places.

Dr. Felch says that the race question is a great problem, but he believes that the people of New Orleans are working along the right lines for its solution. He spoke of the restrictions that are placed on the negroes, who are obliged to ride in separate apartments in the railway and trolley cars and are not allowed to mingle with the white people in railway stations or in any other places of public resort. He believes that the southerners understand how to deal with the negroes much better than the people of the north and that, if allowed to work out the problem unhindered, they will ultimately secure its proper adjustment.

The portions of the south visited by Dr. Felch and his party presented a beautiful appearance, as the spring season was just opened when they were there. There were abundant evidences of prosperity, the whole section comparing favorably with the northern states in that respect.

Dr. and Mrs. George G. Beech of Clamilton were with Dr. and Mrs. Felch throughout the whole trip. After the convention they visited other points in Louisiana and on the gulf coast between New Orleans and Mobile. From there they went to Chattanooga, visiting Lookout Mountain and other points of interest on that historic battle field. After spending some time in Kentucky the party came direct to Ishpeeming.

In commenting on the new regulation relating to the organization of medical societies, Dr. Felch said that when the counties have been fully organized, each with a separate society, the system of selecting delegates would be the same as that followed by political parties, each county society holding a convention and electing delegates to the annual state convention, where delegates will be chosen for the national meeting. Under the present system delegates are appointed. Dr. Felch was appointed at the New Orleans meeting a member of one of the most important committees.

Sideboards, couches, chiffoniers, refrigerators, iron beds, bed room sets, odd chairs, rockers, etc., all going at 20 per cent discount. Swanson, Warnberg & Co.

The International correspondence schools will withdraw their 20 per cent industrial discount June 1. Applicants will do well to come in before that date. Apply to W. J. Williams, agent, room 13, Jenks' block. (5-18-1w)

LIVELY NIGHT FOR POLICE.

Five Men Gathered in Last Evening After Much Excitement.

John Barleycorn was responsible for considerable excitement last evening, and as a result five men were the guests of the city marshal at the city jail last night. Three different affrays were enacted, and in two of them foreigners were the culprits.

Three Finlanders were responsible for the main source of excitement. The men had spent the afternoon "bowling up," and along about supper time they started to raise trouble in the saloon they had made their stamping ground. The disturbance attracted a policeman, who soon found he had his hands more than full. The foreigners resisted arrest and they were only landed in the lock-up after several officers who had been called had taken a strenuous hand. The arrest caused a great commotion, and the struggles of the cops and their prisoners were watched with interest by the considerable crowd which had congregated.

Poundmaster Mike Tasson figured in another of the evening's affrays. The other principal was a man with whom Mike had trouble before, and the clash between them appeared to be for the purpose of settling old scores. The cow chaser does not appear to have been the aggressor, but at all events the two men were soon at it hammer and tongs. Mike's "enemy" was the more husky of the two and matters were faring badly for the poundmaster when a limb of the law hove in sight and gathered Mr. Tasson's assailant in. This was after Mike had called on bystanders to assist him and they had ignored the summons.

Deputy Sheriff Prin arrested the fifth man who spent the night in the municipal bastle. The fellow, a foreigner, was creating a disturbance on the street near Meloche's drug store, and it, also, was a case of too much booze. The foreigner resisted arrest and Prin had a hard tussle with him, which he swelled to all in all, it was an evening of unusual excitement, and business in the justice shops will be rushing today.

WILL DO OUTPOST DUTY.

Ishpeeming Light Guard Plans a Unique Outing for June 6 and 7.

Captain Will Russell, who recently returned to Ishpeeming and who is directing the Ishpeeming Light Guard, has planned an outing which the members will doubtless enjoy. The company will do outdoor picnicking, tents, about four miles south of the city. The boys will go out Saturday, June 6, and remain in camp until early Monday morning. The duty assigned the company will be similar to that performed by the regular army.

Captain Russell is arousing much interest among the members of the company. About twenty of the old members, who dropped out last summer, have returned, and are again drilling regularly. There are now over forty-five active members and at the rate recruits are coming in the list will be swelled to sixty within the next few weeks.

The Guard will turn out with the Grand Army on Memorial Sunday, also Decoration Day. The services this year will be conducted at Grace Episcopal church. The Grand Army will celebrate Memorial Day in Negaunee.

NOVEL ENTERTAINMENT.

The girls of St. Agnes Guild of Grace Episcopal church are planning to give a seven-cent sale next Wednesday night at the Guild hall. Among many novel features there will be a fortune teller, and Rebecca at the well. All kinds of fancy articles will be on sale at a minimum price of seven cents. The maximum price is not fixed. The following verses tell all about the interesting occasion:

On the twenty-seventh night, without fail, Will be held the annual seven-cent sale By St. Agnes girls of Grace church guild, With high and heavenly ardor filled.

The door of the Guild hall is wide, And for seven cents you may go inside, And every luckiest seventh one May go in free and see the fun.

There'll be bargain packages piled up high, And seven round cents your choice can buy, Each one warranted to contain Seven cents worth of certain gain.

A lady will tell your fortune true, For seven cents laid in her palm by you, For seven cents you can buy such cake As your mother herself never dared to make.

You can eat ice cream for seven cents, So good you'll forget all about expense, And of fancy work you'll find a feast At prices that end in seven at least.

So remember everyone, I pray, At seven o'clock on the twenty-seventh day Of this present month, come wet or dry, Please gather to laugh, and talk and buy. (5-3-3d)

Our special removal sale lasts but a few days longer. If you want furniture or household goods come in. Money saved. Swanson, Warnberg & Co.

PAINLESS TREATMENT FREE.

The Wireless Sun Glow Battery Co. of Detroit, Mich., are demonstrating an electrical cure for disease at the Urban House, which is marvelous and far-reaching in its results. Their methods are altogether different from the usual forms of electrical treatment. All persons suffering from rheumatism, neuralgia, paralysis, deafness, lumbago, nervous diseases and all female troubles, should take advantage of this generous offer of one week's treatment free. We have the only painless magnetic electrical apparatus for the cure of all chronic diseases. We can permanently relieve all pain. At Urban House. (5-20-4d)

Foley's Honey and Tar contains no opiates and can safely be given to children. Sold by People's Drug Store.

CAME IN AN ORE CAR.

Alex Nelson Landed in Ishpeeming Thirty Years Ago Yesterday.

"Ishpeeming is a much different looking place now compared with thirty years ago today, when I arrived here," said Alex Nelson, the ice man, as he related his experience in reaching this city to a Mining Journal man. Mr. Nelson came from his native country about a year before he came to Ishpeeming, taking up his residence in Chicago. The Chicago & Northwestern Railway company was advertising for men to work on the extension of the line to Ishpeeming and the Saginaw mine. Nelson and about one hundred others hired out, at \$2 per day and board, with free transportation to Ishpeeming.

It took a couple of days or more to cover the distance between Chicago and Ishpeeming in those days. The passengers were transported in a coach as far as Escanaba. They arrived there in the evening and the coach was switched to the end of an ore dock. The men were very hungry, as they had not had anything to eat from the time they left Chicago until they arrived at Escanaba. The doors of the coach were locked and the laborers were warned to not leave the car. The man in charge was afraid most of them would not return if he let them out. Some became disgusted and climbed through the windows, refusing to join the crowd again next morning.

Alex was one of the stayers, as he did not like the looks of Escanaba as he viewed it from the car window at the end of the dock. There was but one or two coaches on the line between Escanaba and Ishpeeming and the management could not spare them from the regular run. A dozen or more "jimmey" ore cars were pressed into service and the passengers came up in them. They were taken around by Cascade Junction, landing out near West Ishpeeming.

Nelson was one of several in the party who did not like the looks of the town they were receiving from the boss and who quit their jobs early in the game. Nelson worked a half day. He came into town and secured a job at the Lake Superior Hematite open pit mine, working under Sheriff John Pengelase, who was bossing there.

It is some time now since Mr. Nelson quit mining work. He has been in business here, first as a baker and later in the ice business, for nearly twenty years.

RESOLUTIONS OF CONDOLENCE.

At a recent meeting of Mine Workers' union No. 8, the following resolutions of respect were adopted:

Whereas, Death has again broken into the ranks of Ishpeeming Mine Workers' union, No. 8, and has taken one of its choicest members in the person of our brother, Thomas Bettison; and, Whereas, We recognize in him a man who was kind and indulgent to his wife and one who was honorable and upright with his fellows, therefore, be it Resolved, That for the many virtues we express sincere appreciation and that while we greatly deplore his death, yet we bow in humble submission to the will of the Infinite One; and we also extend our heartfelt sympathy and sorrow to the bereaved wife and relatives who cherished him with such love and devotion. We would in this hour commend them to a loving Father who chasteneth them whom he loveth.

Resolved, That a copy of these resolutions be sent to the wife and relatives of our deceased brother and the same be published in our local papers and recorded in our minutes, and that our charter be draped for thirty days.

JOHN HANCOCK, SILAS HARPER, EDWIN HARPER, Committee. Ishpeeming, Mich., May 20, 1903.

LADIES INVITED TO CALL.

The ladies of Ishpeeming are cordially invited to call at the Urban House and receive free treatment for all diseases common to their sex, which the Wireless Sun Glow Battery company are giving for one week. We have the only painless magnetic, electrical appliance being the public and we make this generous offer to prove we are able to do what we claim. (5-20-4d)

A BIG UNDERTAKING.

A Concern Said to Intend to Purchase Electric Light and Water Plants.

If an able bodied rumor that has been much discussed here for the past week or more proves to be founded on reliable basis, an important proposition will soon be submitted to the city council regarding the purchase of a company that has been recently organized for the purpose of developing the water power on one of the streams not far distant will seek to gain a franchise from the city to furnish light and establish a new municipal water supply. It is said to be the intention of promoters of the concern to make the city a liberal offer for the electric light plant and the pumping station, buying them outright for about \$75,000 cash. Light and water would then be supplied by the power company, under a forty-year franchise, the rates for incandescent lights would remain the same as at present and the price of street lighting would be reduced to \$6 per month for each arc lamp. Water would be supplied at the same rates as now prevail, thus forever settling the meter question. The rates would be subject to increase once in five years, when a board of arbitration composed of representatives of the power company and the municipality would meet and make out a new schedule. At the end of forty years, when the franchise would expire, a special board of arbitration would arrange for its continuance or for the purchase of the company's plant.

The mayor and a number of prominent men yesterday said that they were familiar with the report, in all its elaborate detail but they declared that they do not know whether it has any foundation in fact. The rumor is regarded as a "rumor" seriously. What the source of the power will be, what capitalists are promoting the enterprise and in fact all the essentials which are lacking in regard to the scheme are all subjects for a good deal of conjecture. It is frequently accepted idea, however, that the capitalists who are planning to develop the power on the Escanaba river are interested.

Our 20 per cent discount sale continues until June 1. We are selling many articles below cost. It will pay you to call if you want furniture or household goods. Swanson, Warnberg & Co., Ishpeming.

Laid Out by a Doughnut.

DYSPEPSIA'S BEST FRIEND.

Good Advice from a Regular Soldier Saved Much Misery.

Private Kaiser: "Don't you think you are taking long chances, Mr. Bolter? Doughnuts, cheese, and boiling coffee would stagger the digestive abilities of a longshoreman."

Mr. Bolter: "Must be back to work in fifteen minutes! Can't stop for a course dinner!"

Private Kaiser: "Judging from the color of your skin and eyes, and the shortness of your breath, you certainly have flatulent dyspepsia."

Mr. Bolter: "Something is wrong, right now, there is a red hot lump in my stomach that has ragged edges and keeps grinding out pain every minute. I cannot apply myself to work, and feel drowsy all the time."

Private Kaiser: "Your whole digestive system is tired. Rexall Dyspepsia Tablets will help digest your food and give your stomach a rest. Eat regularly and slowly, and Rexall Dyspepsia Tablets will soon make a new man of you. They have cured thousands who have suffered more than you."

Warranted to cure all forms of Indigestion and Dyspepsia, or money will be refunded. Price, 25c, 45c, 89c.

Additional Ishpeming

FINE EXCURSION PLANNED.

The local degree team of the Modern Woodmen of America has accepted an invitation to accompany the excursion of candidates for a meeting of the Sault Ste. Marie camp on the evening of Decoration Day. The team will conduct an excursion to the Soo, leaving here early that morning, and returning the following night. The clerk of the Soo camp has advised for Ishpeming and Negaunce patrons that the excursion will be held on Decoration Day. The local team does the floor work as well as any team in this section and the Soo Woodmen will make a treat if they do not attend. Posters will be issued today announcing where tickets for the excursion can be purchased in Ishpeming, Negaunce and Marquette. The team will endeavor to ascertain as early as possible about how many will take the trip in order to arrange for a special train, leaving here between 6 and 7 o'clock Decoration Day morning. The fare for the round trip for Ishpeming and Negaunce patrons will be \$3.50, with time limit of two days. Marquette excursionists will be charged \$3.

MUCH INTEREST HERE.

Much interest is manifested here in the approaching semi-centennial celebration of the Lake Superior Iron company at Ishpeming. Negaunce will probably have representatives in the wrestling matches and the miners' drilling contests and some of the old time river men may take part in the log hurling, though lumberjacks are no longer met with here. There is a number of lightweight wrestlers who are expected to make a trial for honors. All of the steel corporation's mines here will send teams to take part in the drilling contests and a number will come from the Cleveland-Cliffs mines. Palmer will be represented. Power drills have almost entirely supplanted the hand drill, and many of the younger generation are not skilled in the use of the steel and hammer, so it can be assumed in advance that the prizes will go to old timers who received their training before the introduction of present day methods. There are a few men still living here who were employed with the Lake Superior company in the early days of its history. They worked in Ishpeming and had their homes in Negaunce, talking to their work and returning every day. The big mining company never operated any properties here until comparatively recent years, not until the organization of the steel trust.

THE PRIZE TROPHY.

Principal Elting H. Comstock, secretary of the Upper Peninsula Interscholastic Athletic association, was officially notified yesterday of the gift by Congressman H. O. Young of a cup to be competed for in the coming meet of the association at Ishpeming. Mr. Comstock has written the congressman all particulars. He understands that the cup is to go to the boy scoring the highest number of points in the meet and that the winner is to retain possession of it for one year. Mr. Comstock says that all the entries for the meet are not in yet, though the official day for closing the entries was May 15. He will hold the list open for a day or so to give the tardy schools a chance.—Houghton Mining Gazette.

"JOSHUA SIMPKINS" TONIGHT.

The sensational rural comedy drama, "Joshua Simpkins," will be produced at the opera house tonight. The play contains an interesting and intelligible plot, but it is not allowed to interfere with the fun. During the action of the play some startling scenes are presented. It is seen, the principal of which will be the country saw-mill, in the third act, shown in complete operation, cutting up real timber. The saw used is the genuine article, the same as used in large country sawmills. An excellent band and fine orchestra accompany this attraction. The band will parade in the afternoon, when some good music may be looked for. The prices will be twenty-five, thirty-five and fifty cents.

WOULD SAVE MONEY

LIGHT AND POWER COMMISSION MAY BUY NEW GENERATOR.

A DUPLICATE OF PRESENT MACHINE

PLANS OF RETIRING THE ARC GENERATORS DISCUSSED.

It Is Also Proposed to Install New Lamps of the Enclosed Type—Changes Would Mean Great Economies.

Superintendent Retalle is preparing for presentation at the next meeting of the members of the light and power commission figures to show the saving that would result from retiring from use the present arc generators, and arranging to take care of the arc service in some other way. This matter has already been discussed by the commission, and it is not unlikely that a change will be made very soon, as the retirement of the present arc generators, together with the installation of new lights, would result in economies that, it is estimated, would aggregate close to the neighborhood of \$1,500 a year, if not more.

One project considered, which is looked upon with no little favor, proposes to duplicate the present alternating current generator, and to arrange to put the arc lights down town, on the streets and in the stores, on the alternating system, whereas at present they are lighted by a direct current. The alternating current for arc lamps is now feasible, and indeed it is in general use in all cities where plants are operated with the purpose of securing the greatest economy in running expenses.

One great saving that would result from the proposed change would be found in the item of care of lamps. With the present arc lamps it is necessary to put in new carbons each day, a task which in every way is superior to the lamps now in use. The present arc lamps were put in when the plant was first established and of course at this late date they are considerably behind the times.

If it should be decided to install a machine duplicating the present alternating generator it would be ordered at once. It would be installed on the main shaft now in use at the station and would be driven by the present rope drive and belt, with the water turbine, as at present, the sole and sufficient source of power. Superintendent Retalle believes that a second generator, equal in power to that now in use, and new lights could be put in and the other minor improvements necessary in the connection made for an expense of in the neighborhood of \$6,000. As the plant has more than this sum to its credit in accrued earnings it is apparent that the expense will be no particular object if the commissioners really decide that it is advisable to proceed at once with the change. This is believed likely to be the outcome. The saving alone would make up the cost of the new apparatus and improved lights in a few years.

Superintendent Retalle believes that the installation of a second alternating generator would just about take up the minimum power of the Dead river water power, on which the commission relies for the operation of the municipal plant. It is said that a second machine would furnish all the additional light and power that the city is likely to need for several years to come.

TRACK MEET TOMORROW.

High School Athletes Will Compete at the Fair Grounds.

The high school inter-class track meet which will be held at the fair grounds tomorrow is the result of a challenge issued a few weeks ago by the seniors to the school and will be conducted by the High School Athletic association. The principal object of the meet is to finally determine upon the men who will uphold the red and white at the upper peninsula interscholastic meet at Ishpeming on May 30 and, secondly, to raise funds for the expenses of the Marquette team on that occasion.

Considerable enthusiasm has been shown in track athletics this spring and in spite of unfavorable weather good work has been done and the men are in the best of condition and ready to make a good fight for honors at the upper peninsula meet. Tomorrow will be the finishing touch to the training, as very little work will be done the last week before the Ishpeming contests. The "old hands" are all showing up better than ever and in addition some excellent new material has been found.

The seniors' side of tomorrow's meet will be in charge of Bert Lewis, captain of the high school track team, and James Whitman has been chosen captain of the junior-sophomore-freshman team. So far appearances would predict even chances for success so far as the chances are concerned, for while the seniors have the advantage of experience the men who represent the rest of the school have shown that it will be a close fight from start to finish. The meet will begin at 2 o'clock. The admission will be twenty-five cents. Street cars will run direct to the grounds.

NO HOME IS COMPLETE

unless there is a Gas Range in the kitchen. Two dollars down, \$1.00 monthly secures one from us. The Marquette Gas Light Co.

FIRE WOOD.

Good dry hardwood, block or split. Dry pine slabs; dry hemlock slabs—any length required. F. W. Read & Co., Marquette. (12-19-11)

Pecock's Hams and Bacon, the epicurean's delight.

DEATH WAS UNEXPECTED.

John Jilbert, Aged Sixty-Nine, Expired Last Evening.

John Jilbert, aged sixty-nine and residing on North Third street, died at 5:55 o'clock last evening. Heart failure was the cause of the demise, which was rather sudden and unexpected. Mr. Jilbert had been ailing for a week, but his condition was such as to cause no alarm. He had been a resident of Marquette for the past fifteen years, during which time he was employed at the South Shore shops. He is survived by wife and six children, these being Samuel J. and Mrs. Alfred Hebbard of this city, Mrs. Samuel Hebbard of Oscoda Mine, Mrs. Harry Cocking of Calumet, Edgar Jilbert of Harvey, Ill., and William G., lighthouse keeper at Lac la Belle, Keweenaw point. The funeral had not been arranged last night, but it will probably be held Sunday.

FINE PAID FINE.

Judge Stone Gave Junk Dealer a Severe Lecture Yesterday.

Judge Stone, at the opening of yesterday's session of circuit court in the morning, fined Abraham Fine, who had been convicted the previous day of receiving stolen goods. His honor assessed the junk dealer \$40 and costs, the latter amounting to \$1650. Along with this punishment, the judge served Fine with a severe lecture on the evils of his course of conduct in buying up stolen property, a lecture which he was particular to have understood was to be taken to heart by all other junk dealers who have laid themselves open to suspicion. He said that there has to be an end to complaints of the nature of those in the cases of Fine and Hoffenberg, or things will be made mighty unpleasant for the offenders.

In the case of Silas Moffat, the man who stole the copper fountains which Fine and Hoffenberg purchased, the judge announced that he had decided to suspend sentence until the first day of the next term of court in this county, in order that he might in the interval look into the old man's record and determine whether he is really mentally incapacitated. There seems to be no little doubt on this latter score.

NEW ROLLER SATISFACTORY.

It Is Found to Do Admirable Work, and a Great Deal of It.

The city officials are well pleased with the workings of the new Kelly street roller, purchased this spring, which has been thoroughly tested during the past few weeks. The new machine is giving excellent satisfaction and it is said to be every whit as good as the Pitts roller that has been in use here for several years. Under the present arrangement of working the rollers together, one is kept busy on the coarse rock while the other rolls away on the finer material. During the past few days the street commissioner has started his cement sidewalk work, and already a considerable amount has been put in. He expects to lay more of this improved walk this season than ever before.

SEASON NEAR AN END.

Fish Hatchery at the Soo Soon to Be Closed for the Year.

The fish hatchery will close up its United States business next week by making two plantings of lake trout in Lake Superior, says the Soo News. The first one will be made next Tuesday and the last one Friday. The number to be planted will be in the neighborhood of a million.

The state work will not be completed for some time yet, as there are several million walleye pike and rainbow trout to be planted. Only about 150,000 rainbow trout are left, but the pike will number not far from 5,000,000. As yet it has not been given out when these will be planted.

At this season of the year the general repairing is under way at the hatchery and several workmen are employed in fixing up the place so it will be even more inviting in appearance to visitors than formerly. The grounds about the building have been recently seeded, and until the grass gets a good start visitors will not be allowed to walk on the lawn. The ponds are receiving their annual dump of lake sand at this time. The sand is spread on the bottom and has a tendency to kill the germs that sometimes infest small bodies of water where the current is not very swift. If left a considerable length of time without this being done the health of the fish is liable to be affected. It is to the interest of the large fishing interests of the state that the minnows at the hatchery be kept in as good condition as possible, and to this end Manager Marks is taking extra precautions against disease.

The hatchery at the Soo is one of the most important in the state and some of the best fry have come from this place. When the improvements under contemplation are finished there will be no more complete institution of the kind in the country.

If there is one time more than another that a woman looks like a real angel, it is after completing a course of Rocky Mountain Tea. Brings back that girlish beauty. The Stafford Drug Co.

WARNING.

This is a warning to the persons who are destroying the property or interfering with the horses on my pasture near the electric light station. The full penalty of the law will be the punishment. (5-29-10) REICHEL BROS.

Notes of Marine News.

The resignation of Captain Z. Montague from command of the steamer Cornell has caused a number of changes to be made in the masters of the Steel corporation fleet. Captain Samuel Allen, who was in the steamer Robert Fulton, takes the Cornell. Captain W. J. Hunt goes from the Corsica, which this season is making Marquette, to the Fulton; and James H. Buchanan who was on the Colgate Hoyt, takes command of the Corsica, and Captain George Holbridge, who was on the big barge Smeaton, well remembered here through her stranding on Au Train reef two years ago, has been made master of the Colgate Hoyt.

The Castalia which arrived a few days ago with coal, was loaded with ore at the South Shore docks yesterday and cleared for Cleveland. It was the only ore carrier to leave port. The arrivals, both at the L. S. & I. dock, were the McWilliams and Ketchum.

The steamer Orinoco, loaded at Ash-tabula, is on her way to Marquette with a cargo of coal. The Alta, now discharging her cargo at the Pickands dock, is the only coal boat in port at present.

BY DOON-SIDE. AUGUST, 1902.

To me whose paddle blade has clef
The wave where great St. Lawrence
flows—
To me whose ears have heard the scream
Of eagle, high above the snows
Where Fraser runs among the hills—
What is this tiny stream to me?
And what this little melody
My soul with rapture fills
Like some old half forgotten croon?
A cradle song of long ago—
A mother's song so sweet and low—
Hush! it is the Doon!
—William Henry Drummond.

CITY BRIEVITIES.

Today's weather: Partly cloudy and slightly cooler. Fresh and brisk north-east winds.

Yesterday's temperature: 7 a. m., 59 degrees; noon, 58 degrees; 7 p. m., 62 degrees. Maximum, 64 degrees; minimum, 56 degrees.

S. E. Byrne, Jr., was down from the court country yesterday, looking after litigation which he had on in the circuit court.

Miss Kate Malone, C. S. B., the Christian Science teacher and healer, has returned to Marquette after a year spent in Boston.

Dr. J. S. Sherry, the osteopath, has moved his office from the Harlow block to Mrs. Billings' residence, 219 East Arch street.

R. D. Chubb, of Chicago, the architect, attended the sessions of circuit court here yesterday, in connection with one of the pending cases.

The Royal Aramian's hop at Fraternity Hall last night was largely attended and was a distinct social success. The decorations were very pretty and elicited much favorable comment.

The lacrosse players have had their first practice during the past few days. They have played at the old fair grounds, and they are already acquiring much facility in handling their sticks.

The Anchor line's handsome new steamer, Tionesta, which was expected here yesterday, did not arrive, having been delayed in leaving Detroit. The boat passed the Soo at 5 o'clock last evening, however, and will be in here this morning.

E. J. Mahan, formerly an employe of the Lake Shore Engine works here, Monday assumed the foremanship of the light machine shops for the company, coming here from the Soo to take the position. Mr. Mahan is well known in Marquette. He is a first class machinist.

At the twenty-ninth annual meeting of the Michigan Pioneer & Historical society, at Lansing June 3 and 4, a paper on "Work of the Jesuits," prepared by Richard Elliott of Detroit will be read by Hon. Peter White of this city. Hon. Charles Moore of the Soo is also on the program; he will deliver an eulogy on Hon. S. M. Cutcheon.

A popular trip these days is a visit to the Pioneer furnace at North Marquette at the time of the regular cast, and most of the casts are witnessed by people who have gone out to the plant with that purpose. The furnace makes iron at 3 and 9 a. m. and 3 and 9 p. m. The evening cast is usually seen by a number of visitors, and it is a pretty and interesting sight.

J. Fred Kern has just returned from Chassel, where he inspected a gasoline tug which the Lake Shore Engine works have gone out to the plant with that purpose. The craft is thirty-two feet over all, and is equipped with a twelve horse-power engine. It is used for log towing and various other purposes about the company's plant. The tug is giving excellent satisfaction. It is the first of the kind to be used in this region.

Martin Swedler arrived here the other day from Washington, where he went to look after the preliminaries for patents on his improvements on the present type of gas engine. He has to get three patents, one on the governor, one on the spark and one on the body of the engine. His attorney assures him he will have no trouble obtaining them. While in Washington Mr. Swedler looked after some business in connection with a possible sale of his coupling device, which he shortly expects to dispose of.
