Ordering Drugs By Mail.

We have quite a number of out-of-town patrons who come to town once in a while, but who prefer our prescription work and general goods so much that they are frequently ordering by mail.

Then we have quite a few town customers who, when away for any length of time, order by mail of us, in preference to having prescriptions put up in unknown stores.

We invite more trade of this character. We have a special care in packing for economical and safe shipping. We make change by mail just as in the store. If you send too much money we return the excess.

This Mail Order Service is proving very satisfactory and a great convenience to those at a distance. Try it, and see how nicely it works.

ROOSEVELT AGAIN ARGUES FOR INCREASED POWER AT SEA.

IS SUREST GUARANTEE OF PEACE

NATION MUST ALWAYS BE PREPARED TO "MAKE GOOD."

President Enters the State of Washington, Visits Olympia, Tacoma and Other Places and Everywhere Is Received With Enthusiasm.

Kalama, Wash., May 22.—President Roosevelt entered Washington here this morning. Governor McBride welcomed him to the state, the president responding in a brief address. The engine that pushed the president's car onto the ferryboat on which it crossed the Columbia river, had a live bear cub attached to a pole on the tender. The president was greatly interested in the little fellow and, boarding the engine, patted the cub's head. The bear, failing to appreciate the honor paid him, however, signified his disapproval by uttering baby bear growls.

Chehalis, Wash., May 22.—Ten thousand people greeted the arrival of the president here. Among those who greeted him were the parents of the two Lieutenants Hazzard who were with General Funston at the capture of Aguinaldo. In his address later the president referred to this incident, adding: "With men such as you, and with two of your citizens, the father and the mother of those two boys, of course you are expansionists. If you were not, I would want to know what was the matter with you."

Visit to State Capital.

Olympia, Wash., May 22.—The president was officially welcomed to Washington here this afternoon by state officials and was escorted to the capitol by regulars and militia. A brief reception was held, after which the president made a ten-minute speech and later drove about the city. At 2:30 he left for Tacoma.

Tacoma, May 22.—The president arrived here at 4 o'clock and was received with the cheers of thousands of people and a salute from the revenue cutter McCulloch, lying in the harbor. A long procession escorted the party through the principal streets to Wright Park, where the president addressed a great crowd. His speech was on the foreign policy and the American navy.

Quotes Wild West Motto.

"In the old days, when I first came to the Little Missouri," he said, "there was a motto on the range, 'Never draw unless you mean to shoot.' That is a pretty sound policy for a nation in foreign affairs. Do not threaten; do not bluster; do not insult other people above all; but when you make up your mind the situation is such as to require you to take a position, take it and have it definitely understood that what you say you are ready to make good."

"I earnestly believe, and of course I hope with all my heart, that there will always be peace between the United States and other powers; but I wish that peace to come to us not as a favor granted in contempt, but to be the kind of peace that comes to a just man armed, a peace that we can claim as a matter of right. An adequate navy," he continued, "is the surest guarantee of peace and the best possible guarantee against war."

Lays Masonic Temple Cornerstone.

On leaving the park the president laid the cornerstone of the Masonic Temple, and at the conclusion of the ceremonies made a few remarks. Tonight Senator Foster gave a dinner in honor of the president.

SHINGLE MEN ON STRIKE.

Every Mill but Two Closed Down at Marinette and Menominee.

Menominee, Mich., May 22.—The shingle weavers and knot sawyers on both sides of the river have gone on a strike and every shingle mill on the river, except those of Donovan & O'Connor and Burns & Hicks, which have made satisfactory arrangements with the men, is closed down.

For some time the shingle weavers and knot sawyers have been asking for a raise in wages. They gave the mill men until the 15th of this month to grant the demand. The mill men held a conference and decided not to grant the increase, for the present at least, claiming it impossible considering the present status of the market.

About 350 men on both sides of the river are affected by the strike. They were getting from \$2.25 to \$3.50 a day and ask an increase of twenty-five cents.

POSTMASTERS ACCOUNTABLE.

Bowling Green, Ky., May 22.—Judge Evans, of the United States court here, today ruled that men in charge of post-offices must pay to the government any amount burglars may steal from the offices.

KOREA ORDERS RUSSIANS OUT.

London, May 22.—A dispatch from Tokio states that Korea insists on the Russians crossing the Yalu river. The request is couched in vigorous language.

BIG FIRE AT NORFOLK.

Norfolk, May 22.—The Seaboard Air line shops and roundhouse here burned tonight. The loss is \$750,000.

WESTERN UNION SUFFERS.

Pennsylvania Road Continues Work of Destroying Telegraph Lines.

Philadelphia, May 22.—In all parts of Pennsylvania and New Jersey and some parts of Delaware and Maryland, the Pennsylvania railroad today continued the work of dismantling the lines of the Western Union wherever they encroached upon railroad property. The work of destruction will continue until every pole, wire and fixture belonging to the Western Union is removed from the Pennsylvania property. The Western Union asked and has received permission to remove the tangled masses which line the road for miles and will save as much out of the wreck as possible.

Operation of Trains Hampered.

Pittsburg, May 22.—The cutting of the Western Union poles and wires by the Pennsylvania Railroad company has compelled the Baltimore & Ohio road to run trains temporarily by telephone. If tomorrow the Pennsylvania continues its cutting beyond Willow Grove, business between Pittsburg and the West will be at a standstill.

CHICAGO BROKER ARRESTED.

R. D. Oliver Charged With Using the Mails to Defraud.

Chicago, May 22.—Richard D. Oliver, who conducts a brokerage business in the stock exchange under the name of Oliver & Co., was arrested today on the charge of using the mails to defraud. The complaint against Oliver was filed by Dr. W. D. Eads of Cannerton, Ind., who alleges that Oliver secured \$1,000 from him and did not invest it as agreed. Thousands of dollars for investment in stock and grain are said to have been secured from residents of the country by Oliver.

POSSE SEARCHES FOR NEGRO.

Black Fiend Wanted in Indiana for Assault and Murder.

Hillsboro, Ind., May 22.—As Martin Kaiser, a farmer aged seventy, living near Manchester, and his daughter Anna, aged seventeen, were returning from church last night they were waylaid by a negro. Kaiser was found near the Big Four track. He regained consciousness sufficiently to tell that a negro did the deed. The girl was assaulted and it was thought her body was thrown in Tanner's creek. Kaiser is likely to die. A posse with bloodhounds is searching for the negro.

TAKEN AFTER FIERCE FIGHT.

Burglar With National Notoriety Fatally Wounded at Chicago.

Chicago, May 22.—After a terrific struggle in which he was probably fatally wounded, Edward H. Lucas, who has a national notoriety as a burglar, was captured here today. With his right arm shattered by a bullet and his abdomen perforated by another, he escaped from three officers and was captured only when he fell.

BAD BLOW FOR BESSEMER.

Ore Deposits at the Tilden Said to Be Practically Exhausted.

Bessemer, Mich., May 22.—Announcement was made today by an official of the Tilden mine at this point that the ore deposits are practically exhausted and a complete shutdown is probable. This would practically depopulate this city.

BULGARIA APPEALS TO PORTE.

Sofia, May 22.—The new ministry has made representations to the porte on the severities practiced in Macedonia, urging their cessation as a means of bringing about more cordial relations between Turkey and Bulgaria. The Bulgarian government will appeal to the powers for their mediation.

BRITISH TRADE MENACED.

London, May 22.—Replying to a memorial from the Associated Chambers of Commerce, protesting that reciprocity between the United States and Cuba will be injurious to British trade with Cuba, Lord Lansdowne writes that the representations to the United States on this subject have been without effect and he fears no useful purpose could be served by further representations.

MEMPHIS COURT TO TRY HER.

Memphis, May 22.—Judge Galloway today dismissed the Cincinnati warrants charging Lizzie McCormick with sending poisoned whisky to a Cincinnati woman, thereby causing the death of one person and serious illness of others, and held her on a charge preferred by local citizens. This means that Mrs. McCormick will stand trial here.

TREATY WITH CUBA SIGNED.

Havana, May 22.—The permanent treaty between the United States and Cuba, in which is incorporated all the provisions of the Platt amendment, was signed this afternoon.

The act of signing the treaty occurred at the office of the secretary of state. The signers were Secretary of State Taft and Minister Squires. The permanent treaty contains no provision for its abrogation and no extraneous conditions of any kind. It simply incorporates the entire Platt amendment into the form of a treaty.

GIVES \$500,000 TO ORPHANS' HOME.

Louisville, May 22.—The will of the late Captain W. F. Norton, Louisville's eccentric capitalist and land proprietor, gives \$500,000 to the Baptist Orphans' Home at Louisville and \$71,000 to friends. Norton was not a member of any church.

HORRIBLY CRASHED

ONE MAN AND THREE WOMEN MEET SHOCKING DEATH.

AN ELEVATOR FALLS AT PITTSBURG

BESIDES THE DEAD, FIVE OR SIX PERSONS ARE INJURED.

Balance Weights, Weighing Over a Ton, Crash Down on Occupants After Cage Has Dropped Fifty Feet, Badly Mashing the Victims.

Pittsburg, May 22.—One man and three women were killed and five or six injured tonight at 1025 Fifth avenue, a building occupied by a dancing academy. The cause of the fatalities was the snapping of the elevator ropes, allowing the cage to drop fifty feet.

The dead are so badly mangled identification is impossible up to midnight. A banquet and a ball were being held in the building, and the victims of the accident were from those attending the functions.

After the cage had struck the floor the balance weights, weighing over a ton, crashed down upon the people, horribly crushing four and maiming the others.

STORM HAVOC IN NEBRASKA.

High Water and Lightning Responsible for Four Fatalities.

Lincoln, Neb., May 22.—Storms and high water caused four fatalities and much damage to property in Nebraska today.

At Sterling an attempt to cross the Nemaha river on a weakened bridge caused the drowning of three persons—Frank Harns, a farmer; his sister, Mrs. Edward Pulke, and her six-year-old child.

At Lewiston, during an electrical storm, John Bowen, a Rock Island railroad employe, was struck dead by lightning.

Two inches of rainfall within an hour flooded the business district of Plattsmouth and a wall of water four feet high swept through the Burlington shops, causing a damage of several thousand dollars.

Cyclone Kills in Kansas.

Clay Center, Kas., May 22.—A cyclone passed over Clay and Riley counties this afternoon. At Bala, two little girls named Daul were killed and a number of persons were injured. Five houses were blown away at Bala and many cattle were killed.

Vermilion, Kas., May 22.—A cyclone struck here this evening. The Missouri Pacific depot was entirely demolished and many other buildings were unroofed.

Franklin, Neb., May 22.—Many persons were injured and much damage was done to property by a tornado north of here this evening.

TOPEKA, KAS., MAY 22.—It is reported that Myvale, west of here, has been laid in waste by a cyclone. All wires are down.

DROUGHT RUINS IN VERMONT.

New York Also a Heavy Sufferer from the Undue Heat.

Middlebury, Vt., May 22.—Vermont has experienced forty-three rainless days and the earth resembles a burned boot. All grain and hay crops are ruined and forest fires have caused vast damage to timber. Over 3,000 acres of grain in Addison county will be a total failure unless rain falls within a few days. No dew even has fallen for two weeks, which is ascribed to the heated air from forest fires.

NEED NOT SHAVE NEGROES.

Illinois Jury Approves Action of White Barber Who Refused.

Belleville, Ill., May 22.—I. Baumgarten, the white barber who refused to shave Rev. Mr. Thompson, a negro preacher, won his case before a jury in court yesterday. The suit for damages was brought under the equal rights act passed by the state legislature in 1870. The jurors agreed on a verdict of no cause for action in less than three minutes after the case was given to them.

UNION PACIFIC STRIKES ENDED.

New York, May 22.—While no official information has been given out, it is generally understood here that the conference between the Union Pacific officials and representatives of the striking boiler makers have led to an amicable settlement. It is understood the machinists also have reached a settlement.

TODAY'S WEATHER.

Washington, May 22.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Saturday; Sunday, showers; fresh northeast winds becoming southeast.

Washington, May 22.—The interior department today let a contract for the timber on the newly allotted lands of the Bid River Indian reservation in Wisconsin to Julius Stearns of Ludington, Mich.

RUSSIAN NOBLES ARRANGED.

Cultivated Classes Blamed by Novelist Gorki for Jewish Massacre.

Berlin, May 22.—The Frankfort Kleinse Presse publishes an article on the massacre written by Maxim Gorki, the Russian novelist. The article is a bitter denunciation of those who encouraged the mob to commit the excesses it did at Kishineff. He does not blame the mob so much as he does the "cultivated society of Russia."

"The cultivated classes," he says, "are a crowd of cowardly slaves, without feeling of personal dignity; a weak and lawless element almost without conscience and without shame, in spite of its elegant exterior."

He declares that "cultivated society is not less guilty of the disgraceful and horrible deeds committed at Kishineff than the actual murderers and ravishers." Continuing, Gorki says:

"These hypocrites, with the name of God on their lips, who preach in Russian society hatred against the Jews, Armenians and Finns, today heap base and cowardly calumnies upon the corpses of those killed through their influences, and they shamelessly continue their hateful work of poisoning the mind and feeling of the weak-willed Russian society."

Gorki concludes with an appeal to "Russian society that is not yet wholly ruined by these bandits," to assist the orphaned and desolated Jew.

Photographs Confirm Atrocities.

St. Petersburg, May 22.—Photographs from Kishineff received here, besides fully sustaining the reports of the worst atrocities committed during the outbreak against the Jews there, contradict the official account of the massacre and the stories printed in the Nationalist press. The people of Kishineff declare that no Christian received a gunshot wound and that there are no Christians in the hospitals.

Chicago Sends \$10,000 to Sufferers.

Chicago, May 22.—Samuel J. Kline, chairman of the Chicago Jewish massacre relief committee, today cashed \$10,000 as the first installment of Chicago's contributions to the Kishineff sufferers.

ENGLAND ASKED TO SETTLE.

American Demands \$5,000,000 for Lands Taken by Boers.

Washington, May 22.—The claim of Charles Brown, an American mining and civil engineer, for \$5,000,000 for lands of which he was deprived by the Boer government before the South African war, has been called to the attention of the British government by the state department.

Brown located, as he claims, in conformity with Transvaal law, a large number of land entries including mining properties. He was enabled to do this by adopting the methods of the "American sooners" to the astonishment of the slow-going Boers, with whom he was competing for the land. However, his proceedings were within the letter of the law according to a decision of the supreme court of the Transvaal.

But President Kruger was autocratic in his methods, and had little regard for the courts, according to the testimony. He sent for the chief justice, and demanded that he reverse the decision of the court in Brown's favor, and on the refusal of that officer to do so, Kruger promptly expelled him from office without troubling himself about the formality of impeachment proceedings, and then vacated Brown's title. Brown appealed to the state department, which had begun to move in the case when the war broke out. The claim lay in abeyance. Now it has been taken up afresh, but with this new complication, that there is no Boer republic, and that England is the sovereign, and it is a question whether she can be held responsible for the misdoings of the Boers.

ST. LOUIS STRIKES SERIOUS.

Seven Thousand Men Out and Commerce at a Standstill.

St. Louis, May 22.—With over 7,000 men on strike in St. Louis and vicinity, the labor trouble here has been keeping here for some time are approaching a crisis. Already the city's commercial interests are suffering seriously. The freight handlers of all the railroads doing business in St. Louis and East St. Louis went out yesterday in sympathy with the porters and packers, who recently struck at Staples' Station, where most of the wholesale firms of St. Louis are located, and commerce is practically at a standstill. Serious alarm is felt among the merchants and shippers of the city.

In addition to the striking freight handlers the ranks of the idle include 4,000 metal workers. This has resulted in tying up about \$400,000 worth of contract work throughout the city. Some of the men demand shorter hours and the majority want an average increase of 10 per cent in wages.

CONFEDERATE VETERANS PARADE.

New Orleans, May 22.—The last feature of the Confederate reunion was the great parade held this afternoon. The line of march was five miles in length and as the parade was conducted north a hot sun the older veterans found the way a trifle long.

It is estimated ten thousand veterans took part in the parade. The greatest enthusiasm prevailed. General Gordon was too ill to join the procession and reviewed it from a stand. Many prominent former Confederate warriors in line, among them Generals Joseph Wheeler, A. P. Stewart and S. D. Lee.

TRAGEDY DUE TO JEALOUSY.

Milwaukee, May 22.—Joseph Gutsch, residing on Fond du Lac avenue, several miles from the city, probably fatally stabbed his wife today and then shot and killed himself. Jealousy is the supposed cause of the tragedy.

THE AX of toughest steel becomes dulled by constant use and must have a new edge if it is to do good work.

Dr. Pierce's Golden Medical Discovery puts new life into weak, worn-out, run-down men and women.

"I was confined to my bed for four months from January 1st, 1890, and commenced to take your medicine January 15th, 1890."

Don't be fooled into taking a substitute for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery," is a shadow of that medicine.

The Cleveland Iron Trade Review says of the ore situation: The movement of ore from the mines is progressing rather slowly.

Andrew Carnegie may not always appear consistent in his phrases about division of profits and other labor issues.

The London Daily Telegraph expresses itself in the following strain in relation to the suggestion of an autonomous Macedonia:

Some people think that the remedy is to be found in an autonomous Macedonia. The inherent difficulties of such a solution are but too apparent.

Representative "Link" Rogers of Muskegon has been keeping himself in the limelight during the present session.

APPROPRIATIONS MOUNT UP. The members of the house of representatives realize that money is going out pretty fast at Lansing and they now show a disposition to call a halt on appropriations.

GOOD FOR CHILDREN. The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and Whooping Cough.

LAND! LAND! LAND! TIMBER AND FARMING LAND of quality and quantity to suit the purchaser. Enquire of the MICHIGAN IRON & LAND CO.

IRON NOTES. Shenango mine, of the Shenango Furnace Co. (W. P. Snyder & Co.), will be shipping soon.

The new Stevens mine of the Oliver Iron Mining company will commence shipments in a short time.

The Meteor mine, Gogebic range, which has been operated by Corrigan, McKinney & Co. for four years, will be closed by June 1.

The Armenia mine, a Corrigan-McKinney property, located about three miles east of Crystal Falls, has been closed down.

The Duluth correspondent of the New York Times says: "Oh, King, live forever! But the King will not be satisfied until he has smelted the most numerous magnetites in an ordinary foundry cupola at St. Paul in order to raise money among Duluth men for the exploitation of the magnetite belt east of the Mesaba range."

WHEN YOU BEGIN TO THINK about Life Insurance, you will begin to understand it better. We say think, not just imagine how you can find fault with it.

NOTICE! To Consumers of Building Material: Having the triple X-Lox brand mass limestone-lime-light house brand.

QUICK ARREST. J. A. Gullidge of Verbena, Ala., was twice in the hospital from a severe case of piles causing 24 tumors.

LAND! LAND! LAND! TIMBER AND FARMING LAND of quality and quantity to suit the purchaser. Enquire of the MICHIGAN IRON & LAND CO.

There is increased activity in the mining district about Baraboo, Wis. Several thousand tons of ore have recently been mined by the Deering and other interests.

The parties who are exploring a part of section 6-37-29, near Hibbing, are finding a good deal of ore that was represented to them when the option was taken.

M. L. Fay, one of the pioneers of the Mesaba range, has recently bought a fine iron showing in the Birmingham district, Alabama, and will develop it at once.

The Oliver company is getting the machinery and materials on the ground for the sinking of a large shaft on Section 13-47-47 north of the Bonnie mine.

The Duluth correspondent of the New York Times says: "Oh, King, live forever! But the King will not be satisfied until he has smelted the most numerous magnetites in an ordinary foundry cupola at St. Paul in order to raise money among Duluth men for the exploitation of the magnetite belt east of the Mesaba range."

WHEN YOU BEGIN TO THINK about Life Insurance, you will begin to understand it better. We say think, not just imagine how you can find fault with it.

NOTICE! To Consumers of Building Material: Having the triple X-Lox brand mass limestone-lime-light house brand.

BEAUTIFUL WHITE BOAT COMES. Tionesta Pays Portage Lake a Visit and Gets a Hearty Welcome.

The elegantly furnished and superbly arranged steamer Tionesta, the Anchor line's new passenger and freight boat, arrived at Houghton on her maiden trip at 9 o'clock yesterday morning.

As she passed up Portage lake to the Hennes dock, where a large portion of Houghton's population congregated to see her, she was greeted by a great din of whistles from the foundries, smelters and plants of other industries along the shores. Not until the boat had tied up to the dock, when she was immediately thrown open to the public, did the whistles cease their welcome.

It is only on rare occasions that such welcomes are given, but the Tionesta was deserving of it. Much had been heard of the boat and much was expected of her, but The Mining Journal is safe in saying, to judge from numerous expressions heard, that no one was disappointed. Upon first sight she was much admired and after people had gone through her she became a favorite. Her elegance and convenience and, not the least, her fine lot of officers and gentlemanly attendants, made people long for a lake trip aboard the "queen of the lakes."

Inspected by Hundreds. Hundreds of Houghton went through the steamer at Houghton during the forenoon and Hancock people enjoyed the same privilege in the afternoon, the boat leaving Houghton at 1 o'clock for Close & Bowden's dock at the sister town. Some were not content to take one trip through but made several pilgrimages in order that nothing should escape them. Aboard the boat were Western Manager J. C. Evans; Charles J. Fox, of Buffalo, chief engineer of the Anchor line, and John D. Langley, assistant superintendent of the Detroit

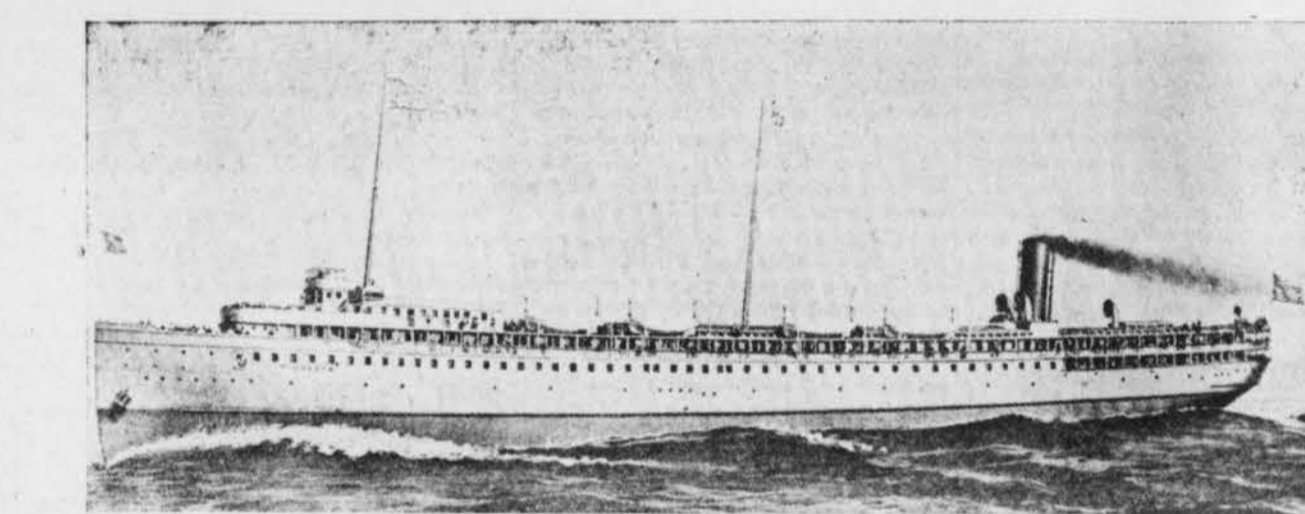

fact the steamer has had on its trip. In his mind the interior decorations and furnishings are unequalled by any of the ocean greyhounds. The Tionesta left last evening for Duluth. Aside from her small freight cargo, she carried 900 tons of water ballast. She drew about thirteen feet of water aft.

This initial trip the boat carries two bridal parties, a pretty good starter for a new boat. MEET MAY BE POSTPONED. High School Athletes May Not Contest at Ishpeming on May 30.

Principal E. H. Comstock, of the Houghton High school, who is secretary of the Upper Peninsula Interscholastic association, left yesterday afternoon for Ishpeming to consult with Superintendent Scribner and others who have to do with the annual field day meet scheduled to be pulled off at that place on the afternoon of Saturday, May 30, in regard to postponing the event. Mr. Comstock stated before leaving that things were in somewhat of a muddle and that he did not know just what would be done. There are several good reasons for postponing the event to a later date.

All of the entries are in for the meet. Ishpeming's list of athletes was not received until yesterday, six days overdue. It was first thought that Superintendent Scribner had neglected to send it, but investigation resulted in finding the letter at the Hancock postoffice, where it had been sent by mistake. There are eight schools entered as follows: Ishpeming, Sault Ste. Marie, Menominee, Escanaba, Quinnesec, Calumet and Hancock.

Houghton Not to Compete. Houghton has decided not to send a team. The boys did first rate up to the time the recent series of rains started and then most of them lost nearly all they had gained in the previous training. They were unable to get out owing to the muddy track and they stiffened, got discouraged and backed out. The same conditions have been true at Hancock and Calumet, but the athletes of those schools stuck to it, determined to go, win or lose. Both Hancock and Calumet are in fair condition and al-

STEAMSHIP TIONESTA, THE "QUEEN OF THE LAKES."

Shipbuilding company, which constructed the craft. The latter is accompanied by his bride, and in this connection there is a little romance to tell.

The officials of the Anchor line extended the courtesies of the boat to Mr. Langley on her first trip, but it so happened that he had not yet joined the ranks of the beneficiaries. He was not inclined to let such a delightful invitation pass by, however, and as the story goes he quietly slipped away and got married. He and his bride came aboard at the appointed time and officers and men proceeded to make things pleasant. A gorgeous bouquet of dozens of American Beauties was presented to them from the Anchor line as a remembrance of the happy occasion.

Frank E. Kirby, the designer of the boat, was aboard until the Soo was reached, when he had to leave. All of the old officers of the China are in charge of the Tionesta. They are Captain Charles Christy; E. L. Hazard, purser; C. C. Thomson, steward, and John Wise, chief engineer. These men are well known and popular to the traveling public.

Finest on the Lakes. The steamship Tionesta is the finest passenger boat on the lakes without exception. The plan of the Tionesta embraces many new ideas in boat building, prominent among which is the placing of the dining saloon, library, music hall and social hall on the promenade decks. This makes it more pleasant for passengers and adds much to the pleasure of

every person who goes through the boat. It is the full width of the ship and the windows at the sides furnish a fine view of outside surroundings. Off the dining room is the gallery or kitchen, where there is everything conceivable in the way of labor and time saving appliances for cooking. The smoking room, aft of the kitchen, is away from all other parts of the boat and this is an apartment which will be highly enjoyed by the men and one which will, perhaps, be the most frequented by them.

The features of the interior decoration of the boat are the cupid-decorated panels of the social hall; the Elizabethan carving of the baluster guarding the staircase; the overhead panels of the dining room, one representing the Chase and the other Music, and the decorations of the smoking room. The last named is done in Flemish oak, with a metallic ceiling effect to match. Extending around the room is a lounging settee upholstered in green Spanish leather. The floor is covered with a geometric design in parquetry, with antique Oriental rugs.

The engine room will be reached from either the berth or main decks. The engines are of the quadruple expansion type, which will drive the boat at a rate of seventeen miles an hour with a stroke of 100 per minute. The boilers are of the latest and most improved type and are capable of furnishing an abundance of steam in all kinds of weather. The boilers number four, each 12 1/2 by 11 1/2 feet in size.

Quarters for the officials of the company should they take trips on the boat are on the upper deck. They are comfortably and handsomely furnished. The captain's quarters and the room are also here. Quarters for the crew are aft of the berth deck. They have all the conveniences, including shower and tub baths.

Left Detroit Wednesday. The boat left Detroit Wednesday morning and had a very pleasant trip up the lake. She has a cargo of 164 tons of merchandise for Duluth. Before leaving Detroit the boat held a public reception at the docks, which was attended by over 2,000 people.

The start on the return trip to Buffalo will be made June 2. The boat will carry a cargo of 3,000 tons of flour from the mills of the northwest on this trip. From Buffalo she will go to Erie and Cleveland for inspection. Returning to Detroit, the Tionesta will depart for Duluth on another preliminary trip, carrying delegates to the Northwestern Millers' association convention. The steamer will begin making regular trips June 15.

Tionesta is an Indian name and, translated, means "Sweetheart." The boat was built at a cost of over \$500,000. Her ports of call will be Erie, Cleveland, Detroit, Mackinac Island, Sault Ste. Marie, Marquette, Houghton, Hancock and Duluth. She will travel on a ten-day round trip schedule, which will give passengers ample time to see points of interest.

Mr. Fox, the chief engineer of the Anchor line, stated yesterday that Houghton and Hancock feel the boat an exceptional welcome, the most cordial, in

though neither team expects to get the meet it expects to win a few events.

Hancock and Calumet Teams.

Hancock will send the following team: Shot put, John Shields, Emory Jones; 220-yard dash, Mort. Keough, John Shields; running broad jump, John Shields; Joseph Linder, Mort Keough; running high jump, Charles MacLean; 120-yard hurdles, John Shields; 220-yard hurdles, John Shields; 220-yard pole vault, Charles MacLean, Vont Blodgett; mile run, Will Vaara, John Tamblin; one-mile bicycle, Emory Jones, Norman Starrett.

The Calumet team is comprised of the following young athletes: Shot put, Will McKinnon, Alfred Messner, Harry Vivian; 220-yard dash, Elbert Martin, Fred Herman, Walter Edwards; running broad jump, James Mott, Christ Trevor; running high jump, Harry Vivian; half-mile run, Chester Saddy, Elbert Martin, Alfred Messner.

ARRESTED BY GAME WARDEN.

Laurium Dealer Offers Fish Under the Legal Size for Sale. Upon complaint of County Game Warden W. H. Vivian, Joseph Salmo, a Laurium fish dealer, has been arrested for violating the fish laws. Salmo's son was in Lake Linden the other day selling lake trout and whitefish. The warden went through the lot and found a number that were below the weight allowed by the statutes. The law says that it is unlawful to sell or to have in one's possession lake trout weighing under a pound and a half and whitefish that weigh less than two pounds. A fine of \$25 and more than \$100 is recommended by law. Salmo will be given a hearing before Justice Steffes at Lake Linden today.

ABUSED A HORSE.

Calumet Man Gets Thrashing and Is Arrested and Fined. Justice Jackola of Calumet and Joseph Niemi 810 and costs for abusing a horse, the property of Village President J. R. Ryan of Red Jacket, on Thursday. Niemi and three companions proceeded to get drunk after engaging a rig at Ryan's livery and then began racing the horse until it was about fagged out. It came to the ears of Mr. Ryan that his horse was being abused and he started after the party. He found Niemi and his friends near the Lake View cemetery and proceeded to give Niemi a merited thrashing, later causing his arrest.

MADE YOUNG AGAIN.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens again," writes D. H. Turner of Dempseytown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c at The Stafford Drug Co.'s drug store.

GAS SERVICE WANTED. Houghton Council Likely to Grant Franchise Next Week.

The Houghton council will meet next Thursday evening to consider several applications from West Houghton residents asking for sewers. The desired improvements will be made if necessary, warrants and the bulk of the cost of the work—two-thirds—will be borne by the property owners. The village will pay one-third. This is a new ruling recently adopted and it will likely be adhered to until the village is in better financial condition.

The question of granting a franchise permitting the Houghton County Gas company to enter the village with its mains may be brought up for consideration. The committee in whose hands the matter was left and most of the council are said to favor the proposition. The franchise will undoubtedly be passed, but as a committeeman said yesterday, the council does not intend to hurry the action.

The prevailing sentiment about town is that the gas company should be allowed to do business in Houghton because gas as a fuel for cooking purposes is cheap and desirable. It is assured that a large number of families would have gas ranges installed and not a few would have gas put in for illuminating purposes. The committee and council as a whole look upon the terms named by the gas company as fair, and no good reason is seen why the franchise should be refused.

The Lake Linden council granted the company a franchise on Wednesday evening. One of the stipulations named is that the plant shall be built near the city instead of within the limits. The company will pay the village \$250 annually for the privileges secured. As soon as the Houghton and Laurium councils take favorable action on the franchise question, the company will be in position to start work on its Lake Linden central plant at once. Red Jacket will grant the desired permission but, like Houghton, it is taking time to consider the proposition from all sides. Hancock may take up the question at next Monday evening's meeting.

BOWLING MATCH CALLED OFF.

The bowling match between Captain Stehlin of the Stehlin team, Hancock, and Charles Kottenbell, Houghton, who were to have played ten games for a small purse, has been called off. Manager Small of the Dee bowling alleys, Houghton, accepted the challenge of Stehlin's backers on behalf of Mr. Kottenbell, but when he went to put up the money the other people backed out.

Mr. C. L. Hizer, of Lincoln, Ill., says: "I have been a sufferer from constipation for the past twelve years, with severe gripping pains in my bowels nearly every day. Since I began taking Re-Go Tonic Laxative Syrup my bowels have moved freely without gripping. It is certainly a wonderful laxative." Sold by People's Drug Store.

COPPERDROM BREVITIES.

Ingot hive, L. O. T. M., of Hancock gave its annual ball at St. Patrick's Hall last evening.

Rev. A. L. Heilmann of Calumet has returned from a visit to Finland. He says that conditions in the famine districts are as bad as reported.

A popular program has been prepared by Director Vandercook of the Calumet & Hecla band for the promenade concert at the Armory this evening.

The Lake Linden firemen gave a dancing party at the town hall last evening. The attendance was large. The Linden orchestra furnished the music.

William Hoffenbacher of Hancock, who is in charge of the Copper Range coal docks at Houghton, was struck on the head by a bucket and slightly injured Wednesday.

Manager Kerwidge, of the Kerwidge theater, is negotiating with a leading opera company for its appearance at Hancock three days or more during the summer season.

Kaiser Wilhelm lodge, Sons of Hermann, will give its annual picnic at Haus Park, in East Houghton, on Sunday, June 21. Music will be furnished by the Quincy band.

The Sons of St. George of Calumet will give a concert at the Red Jacket town hall this evening for the benefit of the family of the late John James of Rockland street.

Rev. Fathers Isidore and Chrysostom of Cincinnati will open a week's mission at St. Joseph's church, Hancock, tomorrow evening. The priests belong to the Franciscan order.

The Lake Linden council has ordered the signing of contracts with the Houghton County Electric Light company for furnishing light for the streets and pumping the village water.

The street railway company has not yet opened negotiations with the Lake Linden common council to complete its line into the village. The Laurium controversy will likely be settled first.

State Secretary L. E. Buell, of the Y. M. C. A. will address the young men's meeting at the Hancock association rooms Sunday afternoon. In the even-

ing the anniversary services will be held. Company E of Calumet showed up well at the inspection conducted by Major Wood, of the regular army, Thursday evening. Over sixty men participated and they upheld the splendid reputation of the organization.

Members of E. R. Stiles post, G. A. R., of Portage Lake, will attend divine service in a body at the Hancock Congregational church Sunday morning upon the invitation of Rev. W. B. Millard, the pastor, who will give an appropriate address.

Representatives of the Society of Santiago, G. A. R., Spanish-American war veterans and Company G of Portage Lake will meet at the Houghton Armory Sunday morning to make arrangements for an appropriate observance of Memorial Day.

The new Armory for Company E, Calumet, promised by the Calumet & Hecla company, will likely be built this summer. The site has been staked off by the company's engineers adjoining the Calumet & Hecla library and it is expected that construction work will soon be commenced.

It is a question whether the Clerks' social club of Calumet will decide to give the usual annual picnic this summer. The members seem to be divided in the matter. The outings were great successes when the organization was first launched, but in late years interest has dwindled and the work has fallen upon a few.

THIS CLIMATE IS GOOD enough for anybody with weak lungs. The patient need not travel. He can get well here with the help of Allen's Lung Balm, taken frequently when coughing and shortness of breath, after exercise serve notices upon him that serious pulmonary trouble is not far away. Allen's Lung Balm is free from any form of opium.

Noting the return of President Fay, of the Centennial, from the copper country, a Boston paper says he is understood to have accomplished most excellent results on the trip, both in connection with the Union Lead consolidation proposition and the Centennial property. Indeed, it is understood that a "deal" of much importance and value to the Centennial company has now practically been arranged and will be ready for an early announcement. Mr. Fay also worked out numerous plans in connection with the sinking of the Altoness shaft, and he, together with Captain Chynoweth, is confident that the results that will this year be achieved on this property will fully meet present expectations.

MINING NEWS

TAMARACK.

Tamarack promised to be a wonderful property, heir to the rich conglomerate territory underlying the Calumet & Hecla, says the Boston Herald, commenting on the extensive decline in Tamarack stock. The latter was supposed to be proving the wealth of Tamarack with every perforation of the drills. The management was highly praised for courage and skill in delving something like a mile underground in quest of the lode. All that was going to be was hailed as probable until the reality was reached. Then came disappointment. The No. 5 shaft, in process of sinking for years, proved disappointing. Sinking vertical shafts and running levels of ever increasing length to the lode proved costly, and Tamarack went on the non-dividend list, after distributing \$8,000,000 among its shareholders, at about the time the great promise was due for fulfillment. Is Tamarack a failure? One would not like to say it. It were better to call it a disappointment. And one might wonder what would happen to it if the Calumet & Hecla, which it was to supersede,

should annex the Tamarack to its own property. But without annexation Tamarack ought, under the law, to return to the list of dividend-paying mines. Tremendous losses of paper values have fallen to the lot of heavy Tamarack shareholders.

MINING GOSSIP.

A Butte (Mont.) despatch says: The Nipper Consolidated company and the Rock Island Mining company have brought suit in the district court at Butte against the Parrot company, controlled by the Amalgamated, to restrain the latter company from mining on veins alleged to belong to the Nipper, of which the Heinze company owns a 31-36 interest. It is alleged that the veins dip under the Oden, Adventure, Parrot, and Bellona mines owned by the Parrot, and that the latter is unlawfully mining upon them. A restraining order has been issued.

Commenting on the Calumet & Hecla dividend of \$10, compared with \$5, the previous declaration, the Boston Journal says: The action taken was really what had been expected in many quarters and is simply the result of the increased revenue secured through the improved copper market. It is to be counted a very favorable indication, not alone as regards the excellent financial condition of the Calumet & Hecla, but also in its bearing upon the general copper share situation, inasmuch as its declaration, at this time, emphasizes very clearly the faith of the conservative element in copper circles of a continuance of the present favorable conditions for the metal market.

Noting the return of President Fay, of the Centennial, from the copper country, a Boston paper says he is understood to have accomplished most excellent results on the trip, both in connection with the Union Lead consolidation proposition and the Centennial property. Indeed, it is understood that a "deal" of much importance and value to the Centennial company has now practically been arranged and will be ready for an early announcement. Mr. Fay also worked out numerous plans in connection with the sinking of the Altoness shaft, and he, together with Captain Chynoweth, is confident that the results that will this year be achieved on this property will fully meet present expectations.

STRIKES A MENAGE

TRADE FEELS SPIRIT OF UNREST IN LABOR WORLD.

NEW ENTERPRISES ABANDONED

PAYMENTS SLOWER AND RAINS HAVE RETARDED CROPS.

Situation Is Favorable, Aside from These Factors, and With Average Weather and Industrial Peace Continued Prosperity Is Indicated.

New York, May 22.—R. G. Dun & Co.'s Trade Review tomorrow says:

Weather conditions and the labor situation are the dominant influences in the business world. The unseasonably temperatures at many points, especially in the East, have stimulated the retail trade in wearing apparel and other summer merchandise to an unusual degree. More conservatism shows at the interior, where agricultural progress has met with a check, and while no serious injury to the great staple crops is yet reported, the delay to planting induces caution among dealers.

On the whole, there are fewer earners voluntarily idle, yet the spirit of unrest has caused the abandonment of some new enterprises and the postponement of others, which means less demand for structural materials and labor. Payments are also less prompt, time often being asked where formerly cash transactions for a slight discount were the rule.

Aside from these two adverse factors, the trade situation is favorable, and with average weather and industrial peace there is every prospect of continued prosperity throughout the country. The manufacturing plants are generally well occupied, especially in footwear, iron and steel. The traffic on the railroads is heavy, the earnings thus far reported for May exceeding last year's by 13.6 per cent and surpassing the record of 1901 by 25.7.

The readjustment of the prices of iron and steel continues, the market gradually resuming its normal conditions. There is no evidence of diminished activity as yet, and in many cases prompt deliveries are urged, but as the increased capacity brings the plants nearer their orders, buyers are naturally less eager to place contracts. The fact that some concessions have been made in quotations tends to postpone business, prospective buyers waiting for still more favorable terms.

Bradstreet's Summary. Bradstreet's will say: Iron is dropping, largely because buyers are holding off on future purchases. Steel is firm at the West, but resales of foreign steel at the East lead to an easier feeling in billets. Finished products are in good demand, the war scale in the tin plate trade has been settled for another year, and the demand for hardware is very active, an element of importance in the present state of the market.

A less favorable situation in trade is lumber, which notes the effect of the building trade labor troubles. Cotton manufacturing is claimed to be unprofitable at present prices. New business is small with the mills, but jobbers and retailers are making money because of the active retail demand. The shoe and leather trade is in fairly good condition. The sugar market is steady.

The wheat (including flour) exports this week total 5,293,000 bushels, against 5,185,000 in this week last year; since July 1 the total is 390,500,000 bushels, against 229,224,000 last season. This week's corn exports foot up 1,814,000 bushels, against 91,000 in the week a year ago; for the fiscal year they are 60,257,000 bushels, against 25,829,000 last season.

The total bank clearings at the principal cities of the United States for the week were \$2,217,581,508, an increase of 3.8 per cent compared with the corresponding week of last year.

GAINS IN STOCKS ARE LOST.

Profit-Taking at the Last Leaves Net Changes Small and Mixed.

New York, May 22.—Today's early stock market did not give good promise of maintaining the strength which developed yesterday, but the announcement that a bankers' syndicate had been formed to underwrite the new Pennsylvania stock issue caused a sudden upward spurt in that stock to a level two points over last night. The stock held that point but momentarily and did not get back to the top level again for the rest of the day.

In the general market the average high level for the day was touched in the afternoon, when the preliminary estimates of the cash movements for the week were published, showing an unexpected heavy receipt on the balance from the interior, thus offsetting the week's loss by gold exports, which it was feared would make tomorrow's bank return very weak.

There was sufficient selling to take profits during the last hour to make considerable inroads upon prices, and the closing was dull and heavy and below the best. The net changes for the day are mostly very small and mixed between gains and losses.

There was continued heavy selling this morning of St. Paul and the Erie, and the United States Steel stocks were inclined to be reactionary later on account

THE OLD RELIABLE

ROYAL BAKING POWDER

Absolutely Pure

THERE IS NO SUBSTITUTE

count of a further drop in the prices of iron. When the underwriters' offer to assure the taking up of the new issue at 120 was made, Pennsylvania was selling above 140, so the right to subscribe at 120 seemed sufficiently attractive. But from the first knowledge of the issue there has been persistent selling of the stock against the expected new issue and of the rights to subscribe to the new stock. The decline this week to 125 1/2 brought within measurable distance the extinguishment of the value of stockholders' rights to subscribe.

The news that sufficient money had been sent to New York from the interior to offset the rather heavy outgo of gold came as a pleasant surprise. The known movements of money indicate a gain to the banks of several hundred thousand dollars, the receipts on the balance from the interior amounting apparently to over four million dollars. The sub-treasury absorption, which includes the payments for the gold exported, was \$2,384,000. Sterling exchange broke fully twenty-five points today in response to the reduction of the Bank of England rate.

WILL MAKE BAER ANSWER.

Attorney General Knox Takes a Hand in the Coal Conspiracy Case.

Washington, May 22.—Attorney General Knox has taken a hand in the effort to bring the anthracite coal roads to terms, and it is stated on excellent authority that he will not call a halt until President Baer and his associates have been made to pay the penalty of their repeated violations of the law. During the hearings recently given in New York by the interstate commerce commission in the matter of the complaint brought against the coal roads for forming a conspiracy in restraint of trade considerable difficulty was experienced by the commission in its efforts to get at the facts by the repeated refusals of Mr. Baer and other coal road presidents to answer certain questions asked them and to produce copies of contracts entered into between the roads limiting the production of anthracite coal and fixing the rates for its transportation, etc. The interstate commerce commission several days ago appealed to Attorney General Knox to obtain the desired information and Mr. Knox forthwith ordered General Burnett, district attorney for the southern district of New York, to present the case to the United States circuit court and ask for an order to compel the officials of the coal-carrying roads to appear before the commission, answer the questions and produce the documents desired.

Raises Important Question.

The petition in the case has been prepared by General Burnett and the attorneys for the complainant in the case and it was submitted today to the interstate commerce commission for examination and approval. It will be signed by the members of the commission tomorrow and immediately forwarded to New York. It is the intention to present it to the court next Monday, but the hearing of arguments in the case will probably not occur until early in June. The importance of the petition lies in the fact that it directly raises the question as to whether or not the interstate commerce commission has power to get at the facts in any matter affecting interstate commerce. The commission realizes the great importance of the fair and intends to insist upon an order from the court compelling the railroads to furnish the information desired, and, if necessary, will carry the case to the supreme court in order to sustain its position.

Will Bring Suit Against Roads.

The readiness with which Attorney General Knox came to the aid of the commission in its efforts is significant. It is directly in line with the policy which was predicted in these dispatches some weeks ago the department of justice would pursue in dealing with the coal roads. As soon as the information desired by the interstate commerce commission has been obtained an array of facts will be in the possession of the government showing unmistakably that an illegal combination exists among the anthracite coal-carrying roads to control the output of their product, its transportation to market and the prices at which it can be obtained. The department of justice is only waiting for the submission of the testimony taken by the interstate commerce commission before beginning work on the preparation of a suit against the coal roads, charging them with violation of the interstate commerce act in several ways.

NEW LABEL LAW TO BE TRIED.

First Suit to Be Brought Under the Pennsylvania Act.

Connellsville, Pa., May 22.—The first suit for libel under the new Salus-Grady act will probably be brought against the Connellsville News. That paper on May 16 published an article saying that several members of the Connellsville city council had demanded annual passes over the Baltimore & Ohio railroad and charged them with seeking "graft."

BOSTON'S BARBER REGULATIONS.

Board of Health Orders Sterilization of All that Barbers Use on Customers.

A special despatch from Boston, May 5, 1900, to the N. Y. Sun gives as new regulations of the Boston Board of Health as to barber shops: "Mugs, shaving brushes and razors shall be sterilized after each separate use thereof. A separate, clean towel shall be used for each person. Material to stop the flow of blood shall be used only in powdered form, and applied on a towel. Powder puffs are prohibited."

NOTICE TO CONTRACTORS.

Sealed proposals for the erection of a library building in the city of Marquette, Mich., will be received at the office of the secretary until one o'clock p. m. upon the 10th day of June, 1903. Each bid must be accompanied by a certified check payable to the undersigned for two per cent of the amount of same. Plans and specifications may be seen at the office of the architects, Patton & Miller, 153 La Salle street, Chicago, Ills., or at the office of the secretary in Marquette, Mich. The library board reserves the right to reject any or all bids.

Creed Revision Favored.

Vote of the Presbyteries Almost Unanimous in Support.

Los Angeles, Cal., May 22.—The morning session of the Presbyterian general assembly today was taken up with reports. The first was that on creed revision. The report showed that all of the eleven amendments had been adopted by an almost unanimous vote. Commenting on this, one of the commissioners said:

"This does not mean that the church has changed or revised its faith. The revision is in the line of dropping some phrases capable of a double meaning and the more explicit statement of others."

Desecration of the Sabbath. The special committee on Sabbath observance reported in part as follows: "Notwithstanding the tendency of so many thousands of American citizens to treat the claims of the Christian Sabbath with indifference, if not with contempt, and to denigrate all efforts to maintain the sacred character of this day as attempts to perpetuate 'blue laws' and to interfere with personal liberty, and with the carelessness of so large a percentage of professed Christians, there are indications of a quickening appreciation in the minds of our people of the value of this divinely appointed rest day, as shown by the latter discussions of the Sabbath question in both the religious and secular press, and by the prompt and strong opposition manifested against all attempts to destroy the legal safeguards which the penal codes of nearly all the states of our Union have thrown around this day."

The committee recommended the passage of the following resolutions: "Resolved, That the general assembly hereby expresses its strong and emphatic disapproval of all secular uses of the day, all games and sports, all social functions, all traveling for pleasure, all excursions by land or water, all uses of this day as a day of convenience to do that which has been left undone during the past week, or to promote the secular interests of the coming week, both at home and abroad.

"Resolved, That, while we are persuaded that obedience to the Fourth Commandment, by the suspension of business will increase rather than decrease the profits of any and all commercial enterprises, the general assembly does hereby earnestly urge all officers and boards of directors of corporate industry, and all employers of labor, to subordinate if need be, the matter of dividends to the demands of this divine law.

"Resolved, That the general assembly hereby expresses its emphatic condemnation of every day journalism, which, in our opinion, is doing as much or more than any other influence in the United States of America to wipe out the distinction of days and to secularize the Christian Sabbath. Seven day journalism voices the intense commercial spirit of our age, that would rob God and man of the rest day for financial ends. Seven day journalism causes a vast amount of Sunday labor. Seven day journalism is a most efficient enemy of the church of Christ. Seven day journalism prevents untold thousands of our citizens from attending divine service on the Lord's day, and unites many thousands of others for receiving the benefits of such service.

UPPER PENINSULA.

Maccabees in Contest.

The Iron Mountain Maccabees have accepted the challenge issued by Northern ten of Crystal Falls for a sixty-day membership contest. The ten securing the most members between May 1 and July 1 will dine at the expense of the other.

Big Forest Required Each Year.—Commenting on the statement that the blast furnaces at Marquette, Gladstone, Manistique and Newberry will consume 400,000 cords of kiln wood annually, the Munising Republican says: Kiln wood cuts on an average thirty-five cords per acre. On this basis, to feed the stacks of the above named furnaces it requires the wood from 11,429 acres, or eighteen square miles of solid timber land.

Saloonists Protest to Brewers.—The retail liquor dealers of the Soo held an important meeting this week, at which the chief topic discussed was the price they are being charged by the brewers for beer. When the war revenue tax of \$1 per barrel was put on the beverage, the brewers added that sum to their wholesale price, and since the revenue has been repealed have only reduced the price seventy-five cents. The rate now charged is \$7.25 per barrel, but the dealers feel that \$6 ought to be sufficient, as they understand that beer is delivered at other points in the upper peninsula at that price. A committee was appointed to wait upon the local agents and present a remonstrance.

Foxes Numerous in That Section.—Lars Johnson, a farmer near Birch Creek, Menominee county, caught five young foxes a few days ago. After his dog had driven the old fox away, Mr. Johnson heard the young foxes squealing in the holes and securing a shovel he proceeded to dig them out. It was no easy job for the young animals were six feet beneath the surface. The holes were quite large at the bottom, and there were three tunnels, all connected and each with an opening in a separate place, affording the animals a means of escape by one opening, if the others were stopped up. All three of the openings were guarded in this case and none of the young ones escaped. Mr. Johnson brought the young animals to town and sold them in Menominee and Marinette for three dollars each. He says that foxes are quite numerous in his neighborhood and that his capture explains why rabbits are not more plentiful there. Each of the young foxes was found with a dead rabbit with which to make a meal.

In Box Car for Three Days.—While George Lawrence, baggage man at Powers for the Northwestern road, was checking box cars in the yard he noticed a somewhat peculiar object protruding from one of the cars. Investigation disclosed that it was the arm of a tramp. The car door was opened and two young men jumped out, calling for water the first thing. The two men entered the car at Escanaba enroute for Green Bay, thinking that the car would not be locked and that it would go straight through to their destination, but instead the box car remained in the yard at Powers for three days. Had not Lawrence discovered them the two men would undoubtedly have starved to death. They were obliged to lay down all this time, as the car was loaded with empty butter tubs within about eighteen inches from the top of the car. They succeeded in cutting a hole through the car about four inches square with a small pocket knife, through which the arm that gave the alarm was extended. They also tried to break the seal on the car with a wooden hoop but were unsuccessful.

INCREASED FACILITIES TO POLICY-HOLDERS.

The Mutual Life Insurance Company of New York, the largest, strongest and best company in the world, has established a managing agency in Marquette, Mich., for the care of its business in the peninsula of Michigan and Northern Wisconsin. Increased facilities are thus afforded to the policy holders and agents of the company.

Exceptional opportunity is given to bright, energetic men to engage in the business. For particulars concerning agency contracts apply to E. M. Post, manager, Marquette, Mich.

For Poor Health. There is no health possible without pure blood, and no pure blood if the stomach is weak or disordered. Rid the blood of all impurities by making the stomach strong and healthy with Hostetter's Stomach Bitters.

Hostetter's Stomach Bitters. Nausea, Headache, Heartburn, Indigestion, Dyspepsia, Liver and Kidney Troubles, Nervousness, and Malaria, Fever and Ague.

Its past record of 50 years of cures certainly justifies a fair trial. Avoid all Counterfeits. The genuine is sold only in bottles with our Private Stamp over the neck. Your druggist will supply you.

Renewed Nervous Energy, Pure Blood, Freedom from Pain.
PAIN'S CELERY COMPOUND
 THE ONE REMEDY THAT WILL REALLY MAKE YOU WELL.

Years ago when a great public demand arose for a remedy for nervous ailments as well as a reliable blood purifier, Dr. Edward E. Phelps, professor of Materia Medica and Medical Botany, of Dartmouth Medical College, gave to diseased and suffering men and women his great discovery, Paine's Celery Compound. The success of this wonderful prescription has been phenomenal. No other remedy known to medical science enjoys such a widespread reputation today.

In this month of May when so many are sick, Paine's Celery Compound makes people well. It is the one true specific prescribed by eminent practitioners for diseases arising from a debilitated nervous system; it is a positive cure for sleeplessness, wasting strength, rheumatism, neuralgia, dyspepsia, liver

and kidney troubles, and all blood diseases. Mr. J. H. Lewis, of Denver, Col., one of the most prominent life insurance men in the United States, writes as follows:

"After an attack of Grip, I found myself broken in nervous vigor, and with bowels and kidneys seriously deranged. As time brought no improvement, but rather an increased nervous prostration, I was induced to make use of Paine's Celery Compound. Before the first bottle had been used, I found a marked improvement, and its use was discontinued after I had finished the second bottle. After doing without the Compound for over a month, I find myself with the same springy step and usual vigor as before my illness, all the former lassitude and nervous disarrangement having disappeared, and difficulty with bowels and kidneys have been corrected."

FEELING BETTER.
 Both Boston and New York Markets Rallied Yesterday.

Paine, Webber & Co. said of the Boston market:
 "The tone of the general market was decidedly firmer today. The market appears to be pretty well over for the present and it seems that a good rally must be overdue. As soon as improvement began to show in the general list the buying demand for copper stocks increased and they showed more strength than any other stocks on the list. It was bought heavily here for the New York account and it advanced nearly three points. It was stated that the United Metal Selling Co. had advanced the price of Lake copper to 15 1/2 cents and that sales had been made at that price."
 Hayden, Stone & Co. wired W. H. Laidley & Co.:
 "Our market has been much stronger and more active than for some time past. There is no special reason for this, unless it is that the general dealing is more bullish. It may be felt that the situation in New York is over, and that with a stronger market there we will have one here. Utah and Centennial were features. We think very well of Utah."
 Chicago Markets Strong.
 Laidley said of the Chicago market:
 "The market opened slightly lower, but turned firm and on good buying advanced easily, closing somewhat above last night. The receipts and estimates are small, the net interest receipts being slightly in excess of last year. Snow's report is rather bullish, but the Modern Miller was bullish and the general opinion is that the damage has been more severe than was expected. Pit conditions are such that the July option should sell somewhat higher, as there is an extremely large short interest. We would advise buying for a fair turn."
 "Corn opened at about last night's prices, but turned strong in sympathy with wheat and upon good buying, closing a little higher than last night. The receipts and estimates were a little more liberal and the receiving houses report offerings as being more liberal. The general conditions favor much higher prices, as the market is in a good deal the same position as when we advise buying upon every little recession, for a good turn."
 "Oats following the course of the other markets, closing at a fair advance over last night. The receipts and estimates were small, with a good cash demand, and higher prices should be seen."
 "Provisions opened steady, at about last night's close, but turned strong and the close is slightly above last night. The cash demand is only fair. The receipts are 19,000 with 10,000 estimated for tomorrow. The receipts at the eight principal western points were 54,000 as compared with 48,000 of year ago. As we stated last night, the price of provisions has had a very good break and should do much better. We would advise buying upon all reactions."

New York Rallies Some.
 Dick said of the New York market:
 "The market has been generally strong today, although no very important net gains have been made. Early selling by traders was checked by the announcement that Kuhn, Loeb & Co. and Speyer & Co. have underwritten the Pennsylvania stock issue, thus preventing any failure of the new issue. In the afternoon there was considerable profit taking, but the sales were well absorbed. Indications were that the bank statement will not be as bad as was feared. Pennsylvania was a strong feature and was most active, but it retained only half of its full gain. Good buying was seen in Atchinson, Baltimore and Ohio and New York Central. Among the industrials Sugar and Colorado Fuel & Iron were strongest. At the close the market was irregular with traders selling on the theory that the bank statement would be unfavorable and that a setback from the rally is due."

EVERY DROP COUNTS.
 Remember that when you are rubbing Perry Davis' Pain-Expeller on your muscles, you are not only relieving the pain, but you are also getting the benefit of the medicine. It is a good thing to have a bottle of Perry Davis' Pain-Expeller in your medicine chest, and it is a good thing to have a bottle of Perry Davis' Pain-Expeller in your first aid kit. It is a good thing to have a bottle of Perry Davis' Pain-Expeller in your pocket, and it is a good thing to have a bottle of Perry Davis' Pain-Expeller in your trunk. It is a good thing to have a bottle of Perry Davis' Pain-Expeller in your car, and it is a good thing to have a bottle of Perry Davis' Pain-Expeller in your house. SUNDAY AT THE CHURCHES.

Baptist—Rev. Charles H. Maxson, pastor. Morning worship at 10:30. The pastor will preach a sermon to the soldiers who are expected to attend in a body. Sunday school at 12 m., young people's meeting at 6:15 p. m. Evening worship at 7:30. The pastor will give his second sermon-lecture on Galilee. Its subject will be "Mt. Carmel and Haifa." St. Margaret's Mission—Sunday school at 2 p. m.
 Methodist—Rev. James Ivey of Opechee will preach in the morning, taking for his subject, "The True Spirit." In the evening the pastor, the Rev. E. A. Elliott, will preach; his theme will be, "Modern Society." All are invited to attend these services.
 St. Paul's cathedral—Sunday after the ascension: Holy eucharist, at 7:30 a. m.; matins and sermon, at 10:30 a. m.; Sunday school, at 12m.; evensong and sermon, at 7:30.
 St. John's church, Chocoley—Evening at 3 p. m.

CITY BREVITIES.

Today's weather: Threatening with showers. Brisk and high northeast winds with probably heavy thunder squalls.
 Yesterday's temperature: 7 a. m., 45 degrees; noon, 49 degrees; 7 p. m., 47 degrees. Maximum, 63 degrees; minimum, 45 degrees.
 The steamers China and City of Traverse are due here today, bound up.
 Robt. E. Lee of Milwaukee, the Smith Premier typewriter man, is in town.
 Mrs. J. H. Gillett has returned from Chicago, where she spent the winter.
 Mr. and Mrs. H. L. Wishart have arrived home from their wedding trip in the east.
 Judge Byrne Thursday married George McEachron of Little Lake and Dora Wilson of Sterling, Ill.
 There is a clever short story by Miss Beatrice Hanscom in the June number of Ainslie's. It is called "The Finish of a Devotee."
 W. C. Brown is down from Duluth, looking after business connected with the Marquette branch office of Paine, Webber & Co.
 The Spanish war veterans are requested to meet in front of the G. A. R. headquarters Sunday morning to prepare to attend church.
 John and Michael Losseloy, T. J. Daudon, W. T. Potter, H. O. Young and Ed Nelson were down from Ishpeming yesterday, attending circuit court.
 W. E. Thompson of Detroit, attorney for the Michigan Telephone company, was here yesterday on business connected with some litigation in circuit court.
 A letter received yesterday from Sidley Adams, who has been very ill at Upland, Cal., conveyed the information that his condition showed slow but steady improvement.
 The funeral of the late John Gilbert will be held tomorrow afternoon at 2 o'clock, from the house (on North Third street) to the Methodist church, thence to Park cemetery.
 J. M. Brown, who was sentenced to serve eight years for burglary at the branch of state prison this week, is now busy in the cigar shop at that institution, learning the fundamentals of the manufacture of "smokes," as they are termed out in the prison shops.
 There has been a taste of cressete in the water again during the past two days. The change in the wind is responsible for the unwelcome flavor. It has been blowing from the north lately, this having a tendency to bring the tainted water down to the intake. The cressete is not so evident as it was last week.
 The Wawatam, Corsica and whaleback barge No. 111 were loaded at the South shore docks yesterday and cleared for Cleveland. From the L. S. & L. dock, the McWilliams and Ketchum, for Astabula, and the Cadillac, for Toledo, took out cargoes. The Pioneer and Chattanooga were arrivals.
 The veterans of the G. A. R., members of Albert Jackson post, will attend services at the Baptist church in a body tomorrow morning. Spanish-American war veterans and members of the Marquette Light Infantry will accompany them. The infantry men will meet at the Casino at 9:45 a. m. for the purpose.

TO YOUR HEALTH!
 was never drank in a finer beer than the Drel Kaiser. It was made for health, and so it's capital for the drinking of toasts to your friend's health. It's good for a lot else, besides—to make well the ill; strong, the weak; stout, the thin; rosy checked, the pale. Drel Kaiser beer is a good beer first, last, all the time.

BYRNE GOT VERDICT

JURY ALLOWED HIM \$1,044.57 DAMAGES YESTERDAY.

WAS OUT FOR SEVERAL HOURS

CASE WILL LIKELY BE APPEALED TO SUPREME COURT.

It Involves an Interesting Point Never Directly Passed on by That Tribunal — Other Court News.

The jury in the case of S. E. Byrne, Jr., vs. J. P. and F. F. Werner yesterday afternoon returned a verdict in favor of Mr. Byrne for \$1,044.57. The plaintiff sought to recover about \$2,000, the alleged value of building material, mostly structural iron, that was stored about the premises of the present Werner block when building operations were commenced and part of which was used in the block. Although the Werners' names appear in the title Peter White is the party really concerned in the case, as it was he who sold the site of the Werner block, and the basement there on to its present owners, also giving them a bill of sale for the material which the jury yesterday decided was owned by Mr. Byrne. Mr. White's understanding of the matter was that this material had been transferred to him at the time he acquired the property.

The testimony in the case went back to the early eighties, when Samuel E. Byrne conceived the project of building on the site in question, as the Werners have lately done, and it went into, with no little detail, the business relations between the senior Byrne, Henry C. Tharner and Peter White, insofar as they concerned Mr. White's final acquisition of the property in question. Mr. White testified that he understood all along that he was the owner of the material lying about the premises, and his counsel laid much stress on this point.

It was in '96 that young Byrne's claimed ownership of the material in question began. Then his father made out in his favor a bill of sale for the stuff, under which he brought the suit that was concluded in circuit court yesterday.

It is understood that the case will be appealed to the supreme court, and it is said that the main point involved in the case has never been met fairly by this tribunal. This point is, of course, whether material laid on the ground of an uncompleted building or plant becomes, through the mere fact of its being so laid and the intention of its then owners to shortly incorporate it in the said building or plant, a part of the real estate which is transferred, without specific understanding, in any regular sale of the property. Other state supreme courts have already passed on this interesting question, and it is said that they are pretty squarely divided on it. Some hold that building material on the ground is transferred by an ordinary sale of the property for which it is intended and others that this is not the case and that a separate and distinct bill of sale is necessary to make such transfer legal. Between these two positions the Michigan court will have to choose if the present litigation is appealed, and there will be no little interest to observe which course it takes.

The jury yesterday was several hours arriving at a verdict, it evidently having given the merits of the litigation a thorough discussion.

One Case Settled.

The case of Edward R. Nelson, appellant, vs. the Michigan Telephone company, appellant, was yesterday settled out of court, in consideration of a cash payment to Mr. Nelson. The plaintiff lives in Ishpeming, and brought suit, because the Michigan Telephone company refused him a long distance connection, thereby causing him annoyance and loss. The trouble in its beginning concerned a bill over which there was a dispute. Nelson refused to pay some charges which he would not acknowledge to be just. Then having occasion to use the long distance service he tendered cash in fee, but it was refused on the ground that he had not settled the outstanding account. All this happened several months ago, the

litigation having been pending in the meanwhile.

The case of Julia Goff vs. A. F. Brown, which was set for yesterday, was postponed until later, by agreement of the lawyers and judge.

The case of Selma A. C. Kowell, by August Kowell, her next friend, vs. Mary Stiette was ruled out of court.

Judge Stone succeeded in catching up with the business yesterday, and he will start court this morning according to the announcements made Monday. The cases set for trial are those of Erdie Brindel, by Jane Brindel, her guardian, vs. Michael Shea and John Shea and William H. Lucas vs. the Marquette City & Presque Isle Street Railway company.

OFF TO DOLLAR BAY.

Marquette Team Hopes to Make a Good Showing There.

The Marquette ball team leaves for Dollar Bay this morning to play two games with the strong Dollar Bay nine, one this and one tomorrow afternoon. The locals hope to make a good showing, and at the worst they expect to get an even break. They have been practicing this week, and although they have had an opportunity to do little actual playing they show good form. They will put the strongest team available into the games. The lineup will be as follows: Catcher, Larson; pitcher, Bowen; short stop, Ed Corbett; first base, Elton; second base, Colton; third base, Carr; right field, C. Connors; center field, P. Smith; left field, Will Corbett. Bowen, the pitcher from Saginaw, arrived here yesterday afternoon, and he will probably do the twirling in both games. He is said to be a very strong box artist, and from all accounts the local players believe that he has the "goods." On him will depend to no little extent the outcome of the games at Dollar Bay. If he is up to the mark it is altogether likely that the Marquette men will come home flushed with success. Concerning Morrissey, the former Sidnaw player who was expected to hold down second for the locals, Manager Price has heard nothing. He was to have returned to Marquette Wednesday, but he did not put in an appearance. It is possible that he may have concluded not to come to Marquette. He is a good player, but the team will not be materially weakened by his absence, as Colton plays an excellent game.

This week the new diamond at the fair grounds was surveyed. It will be put into good condition as soon as the committee in charge of the work can secure the necessary material. It is hoped to have it ready for use by the time that the team plays its next home dates. The management hopes to get the South Shore officials to consent to run two or three Sunday trains for the accommodation of the baseball public when the next outside team is brought here. At present the street car facilities are quite inadequate to get people to and from the grounds, as the Presque Isle traffic is enough of itself to give the traction line all it can handle. When strong outside teams are brought here the attendance at the park will probably at times be as high as 1,500, or more, people, and if such a crowd is to be handled with any expedition it will be important that the South Shore road help out. It is expected that the road will be willing to furnish the necessary accommodations, which action would assuredly be appreciated by the baseball fans. Later on, when the street railway is equipped with new rolling stock, it may possibly be able to handle the ball crowds in a satisfactory manner without any assistance from the railroad.

Next time there is a game at the fair grounds it is hoped that the fence route to the diamond will be abandoned in favor of the regular gates, and that all the people present at the game will produce the quarter admission. It is going to cost no little money to pull the team through the season, and the least that the public can do is to freely and ungrudgingly pay its way into the grounds. Officers will be brought to the grounds when the next game is played to encourage the general use of the gates.

CARD OF THANKS.

To the friends who by their cheerful and comforting words, the beautiful flowers given and the many acts of kindness did so much to brighten the last days of our dear departed one, we acknowledge our sincere thanks. No word can tell how deeply we appreciate the helping hand, the consoling word, that lightened the great loss that has come to us, and from our hearts we thank you one and all. (Signed) Mr. and Mrs. Paul Christensen and family.

Stafford Drug Co. sells Ryckman's Old Brocton Port Wine and G. W. Blaine's Grape Juice. (4-9-3mo)

NERNST LAMPS INSTALLED.

They Make Front Street, Between Main and Washington, Brilliant.

The Nernst lamps which the merchants between Main street and the South Shore cut north on Front ordered, to be used as an auxiliary to the regular street light, have been installed this week, and they now serve to light this section of the main thoroughfare with a brilliancy which makes the other parts of the street look dark indeed. There are four of these Nernst lamps, distributed at equal intervals in the stretch of street indicated above. They are kept lighted until 10 o'clock each evening, by which hour the streets are pretty well deserted. The contract for the lights runs for a year.

WENT RIGHT BY.

Tionesta Did Not Make This Port, as Announced, Yesterday.

The Tionesta, the elegant new steamer that the Anchor line is putting on its Lake Superior-Buffalo run this season, and which was announced to make its first call here yesterday, gave Marquette the go-by, proceeding directly to Houghton and thereby disappointing a great number of Marquette people who had planned on inspecting the new craft. The agents expected the Tionesta, as they had understood that she would call here on her initial trip up the lakes. They were besieged yesterday with telephone calls by people who wanted to know when she would be in. It is likely that the Tionesta will be in here on her return trip, down bound. If not, she will touch here somewhat later. She is not scheduled to begin her regular trips until next month.

PRETTY GOOD SCORE.

Dr. Will Van Iderstine Has the Best Bowling Record.

Dr. Will Van Iderstine has the best bowling record at the new alleys, and the frequenters of the resort predict that his mark will stand for some little time. It is 235, and it has not been closely approached of late, although on the same day on which Dr. Van Iderstine made this score Frank Connel ran up 224 points, the second best record. In the interval several bowlers have promised early in their game to about come up to Dr. Van Iderstine's score, but in each instance they have fallen down. There is talk that the lawyers intend to organize a team with the purpose of challenging the medical men. Both lawyers and doctors claim some good bowlers and a contest between them would be close and interesting. It is further reported that if this intention is carried out the business men will organize a team to try conclusions with the winner.

HERE TUESDAY NIGHT.

Melbourne MacDowell Will Appear in Tolstoi's "The Resurrection."

Count Leo Tolstoi, Russia's greatest philosopher, thinker, writer and philanthropist, gave to the world in his book "The Resurrection" one of the most remarkable pieces of fiction of all times. No other work in generations has been so widely read and discussed. It has been translated into all the languages, and has been read throughout the civilized world. It has been dramatized, and has created a sensation in this country, England and France.

Melbourne MacDowell, the eminent actor, and Florence Stone, supported by the Melbourne MacDowell company, will be seen in this play at the opera house Tuesday night. The company is large and excellent. The play admits of beautiful scenery and effects. Mr. MacDowell, as Prince Dmitri Nekhildoff, has a character that fits him as well as "Le Baron Scarpia," or "Mare Antony," and all who have seen him in these characters with the late Fanny Davenport, (his wife), will understand what that means.

TRACK MEET TODAY.

There promises to be a large attendance at the fair grounds this afternoon when the high school seniors will meet the freshmen, sophomores and juniors in track events that will determine the selection of the team that will go to Ishpeming next Saturday to compete for the championship of the Upper Peninsula Interscholastic association. There is much interest in the Marquette boys' work, and their showing today will give some sort of a line on what is to be expected from them next week. The meet will start at 2 o'clock. An admission of twenty-five cents will be charged. Street cars will run direct to the grounds.

REAL ESTATE DEALS.

Charles J. Hanck has purchased from Edmund Lirette the latter's house and lot on Michigan street, between Front and High. The transaction was made through Mike Foard's agency. Mr. Hanck will occupy the dwelling at once. Nelson Cadarette has purchased lot No. 80, Longyear addition, and intends to erect a dwelling thereon. This deal was also negotiated by Mr. Foard, as was likewise the sale of the Lundberg property, on Adams street, to Gros Anderson, the dairyman.

SPIRITUALISM.

The Brockways will give another seance Sunday at 8 p. m. in Fraternity Hall. Everyone who has attended the seances given the past few Sundays are loud in their praises of and astonishment at Mr. Brockway's great gift. You should by all means go and see these people, as they are highly endorsed by the public and press. A small admission fee of 15 cents is charged to defray expenses. Private readings daily on health or any affair of life at parlors 511 North Front street. (5-23-11)

If there is one time more than another that a woman looks like a real angel, it is after completing a course of Rocky Mountain Tea. Brings back that girlish beauty. The Stafford Drug Co.

WARNING.

This is a warning to the persons who are destroying the property or interfering with the horses on my pasture near the electric light station. The full penalty of the law will be the punishment. (5-20-1w) REICHEL BROS.
