Ordering

Drugs

By Mail.

We have quite a number of out-town patrons who come to town once in a while, but who prefer our prescription work and general goods so much that they are frequently ordering by mail.

Then we have quite a few town customers who, when away for any length of time, order by mail of us, in preference to having prescriptions put up in unknown stores.

We invite more trade of this character. We have a special care in packing for economical and safe shipping. We make change by mail just as in the store. If you send too much money we return the excess.

This Mail Order Service is proving very satisfactory and a great convenience to those at a distance. Try it, and see how nicely it works.

BRITAIN PLANS WAR

HER TRADE MENACED BY NEWLY ADOPTED TARIFFS.

MINISTRY URGES RETALIATION

STATEMENTS THAT STARTLE ARE MADE IN COMMONS.

Tax on Foodstuffs, With Preferential Rates for Colonies, and Authority to Fight Canada's Battles Are Proposed by Chamberlain.

London, May 28.—In commons today, replying to a speech of Sir Charles Dilke opposing the recent fiscal views of Secretary Chamberlain, Premier Balfour said that present Great Britain is the only free trade country in the world. If the prevailing tendency continued, the time must come when the only neutral markets where she could dispose of her exports would be her own protectorates, her own crown colonies, and India, leaving this country helpless in the hands of other nations.

With respect to tariff negotiations, continued the speaker, if foreign countries were to be allowed to treat the British colonies as foreign nations, Great Britain would be forced by patriotic interests and regard for her colonies to retaliate. He declared himself in sympathy with Chamberlain's views.

Preferential Rates for Colonies. Secretary Chamberlain spoke on the same subject. He said that if there be no change in the fiscal system, the country would have to give up hope of closer fiscal relations with the colonies and abandon all idea of securing closer political relations with them. His idea of a solution of the problem is to give the colonies preferential rates. He preferred the taxation of food notwithstanding the objections of the working classes. He would, however, endeavor to convince these classes through arguments showing how they would really be benefited by such taxation.

"It was inevitable," he said, "if preferential duties were levied, that a tax be placed on foodstuffs, and as the working classes would pay three-quarters of such tax, it was only fair that money, should be applied to social reforms, like old age pensions. Such a tax was not proposed in intention, but, incidentally, it would be protective.

Britain a Dumping Ground.

"At present Great Britain is the one open market of the world and, therefore, a general dumping ground. If dull trade came the trusted world of our markets, and the markets in which we compete, with iron and steel at prices we cannot meet. If that happens, nothing will prevent the people from putting on a duty protecting our staple industry."

In addition to asking for a mandate to tax food, Secretary Chamberlain asked for power to engage in a tariff war with Germany on Canada's account and to fight the American trusts. The debate practically ended with Chamberlain's speech. It is safe to say that no such sudden revolution has been experienced in the political situation for very many years, nor anything so sensational.

PRESIDENT IN IDAHO.

Finds Enthusiastic Crowds Awaiting Him at Every Stop.

Pocatello, Ida., May 28.—President Roosevelt reentered Idaho this morning and received a warm welcome here. He was met several miles outside of town by a band of Indians from the Blackfoot reservation, who raved alongside the train into Pocatello. The president was met at the depot by a large crowd and, escorted by cowboys and Indians, he was driven to a stand from which he delivered an address.

Boise, Ida., May 28.—President Roosevelt made a number of short stops in Idaho today after leaving Pocatello, at each of which he was greeted by enthusiastic crowds. In his speeches he confined himself mostly to the benefits of irrigation and the qualities that go to make up good citizenship.

Plants a Tree at Boise.

The presidential party arrived at Boise at 4:50 this afternoon. The president and party marched through a lane of children as they approached the grand stand from the capitol. Two thousand little ones cheered him lustily and waved a forest of flags. The president spoke for forty minutes, principally upon irrigation and good citizenship, and afterwards planted a tree beside the one planted by President Harrison in 1891. After a drive about the city the party left for Salt Lake city.

WILL BAR ALL SALOONS.

City Officials of Bremerton Accede to Secretary Moody's Wishes.

Seattle, Wash., May 28.—The city authorities of Bremerton today telegraphed Secretary Moody that not only would no licenses be granted for saloons on streets in the vicinity of the navy yards, but that if the secretary requested it no licenses would be issued for a saloon anywhere in Bremerton. This was the result of Secretary Moody's recent order that no further repairs be made at the Bremerton yard because of the demoralizing effect of the saloons upon employees and sailors.

TRAMPS SUSPECTED OF MURDER.

Whitehall, Wis., May 28.—The body of James Campbell, who lived near Arcadia, was found in a pond near his house today. On the bank of the pond was a broken spade covered with blood and hair, and in Campbell's back and neck were charges of bird shot. His head and face were frightfully mutilated. Campbell was last seen alive on Sunday. It is believed he was killed by tramps.

YACHT RACE A PROCESSION.

Reliance Badly Defeats Columbia, With Constitution, Disabled, Out of It.

New York, May 28.—Constitution's hoodlum almost spoiled the race of the cup defenders today. After sailing nine miles of the first leg Constitution's topmast was carried away, and she was out of it for the day. When the accident occurred Constitution was half a mile behind Reliance and was leading Columbia by an equal distance. Reliance and Columbia finished the race, but it had become a procession, for Columbia was never formidable after the first five miles had sailed. Reliance crossed the finish line a winner by eight minutes and twenty-seven seconds. Constitution had sailed a game race until the accident. She was handled skillfully, but was unable to hold the fast Reliance.

Gourock, May 28.—Lipton's flotilla, consisting of the Shamrocks I and III, the steam yacht Erin and the ocean tug Cruiser sailed for Sandy Hook this afternoon.

TRAINMEN EXPEL A SPY.

Delegate in Denver Convention Found to Be a Detective.

Denver, May 28.—V. L. Wisner, acting as a delegate to the convention of the Brotherhood of Railway Trainmen, whose sessions are secret, was expelled today after he had confessed he was an employe of a Chicago detective agency.

PAYNE IN EARNEST

POSTAL ADMINISTRATION TO BE PROBED TO THE BOTTOM.

HINTS OF FURTHER ARRESTS

LARGE CORPS OF INSPECTORS ENGAGED IN THE INQUIRY.

Intermediary in the Alleged Bribery of Supt. Machen Will, It Is Said, Turn State's Evidence—Some Gross Extravagance Found.

Washington, May 28.—A large corps of inspectors, including the veterans of the service, were at work probing into the alleged irregularities in the post office department today, but no further arrests were made. It is said to be possible that the intermediary who it is alleged figures in the transactions which led to the arrest of Machen, former general superintendent of the free delivery service, may turn state's evidence. His identity has not been disclosed.

Machen's counsel issued a statement today, asserting ability to fully disprove all charges. The investigating officials are fully as confident. The government is anxious to expedite the trial of Machen as much as possible consistently with the proper handling of the case. It is arranging to have witnesses at Machen's preliminary hearing on June 5. The preliminary hearing of the Goff brothers, the profits of whose firm Machen is accused of sharing on a 40 per cent basis, has been set for June 9.

Extravagance in Beavers' Bureau.

Postmaster General Payne, asked today as to the nature of the charges against George W. Beavers, former superintendent of the division of salaries and allowances, replied that they might be summoned up as the payment of extravagant prices for materials and supplies used in his division, including time clocks and stamping machinery. He said there was only one charge that Mr. Beavers had received a commission on these supplies, and that charge, he said, is under investigation.

The postmaster general also said today that one of the charges against Machen which inspectors are investigating was an allegation that Machen had "forged the name of another man on an official paper ten years ago. Machen knew of this charge, he said, and had informed him (the postmaster general) that he (Machen) was ready at any time to bring conclusive proof he was innocent of the transaction. Other charges involve letter box contracts. Some of the charges are of similar nature to those on which yesterday's arrest was based.

The postmaster general today declared with emphasis that the investigation would not end until all irregularities had been thoroughly inquired into and eradicated. There are intimations that further arrests are not far off.

SLAPS AT GENERAL MILES.

General Davis further says: "As Major Hunter was detailed by superior military authority to investigate these matters, I deem it inappropriate for me to discuss the propriety of his selection for the purpose."

The reports show that General MacArthur desired to have Major Hunter court-martialed for addressing a private communication to Governor Taft on the subject of the alleged cruelties instead of filing charges through his army superiors but that he was dissuaded by Governor Taft.

"In a letter on the subject, General Taft," says Governor MacArthur, "set himself like flint against all officers guilty of cruelties, and any such complaint to the general always were investigated carefully and remedied if true."

BIG STRIKE BEGINS TODAY.

Philadelphia, May 28.—Eighty thousand employes of the textile industries in this vicinity will strike tomorrow night unless the manufacturers grant the demand for shorter hours.

ELABORATE SCHEME OF DEFENSE.

Coast Line of the United States Is Divided Into Naval Districts.

Washington, May 28.—The division of the coast line of the United States into thirteen naval defense districts has been ordered by Acting Secretary Darlin on recommendation of Admiral Dewey, president of the general board. The line of defense extends the entire length of the Atlantic, Gulf, Pacific and Great Lakes coasts and is the first in an elaborate scheme of defense for the United States in time of war on which the general board has been at work for some time.

In several districts will be established torpedo boat houses, and torpedo boats will be regarded as part of the mobile defense in such districts. Means for exchanging information between shore stations and ships at sea will be provided, the system to be known as the naval patrol.

BLOOD POISONING SET IN.

Insect's Bite Causes Death of Prominent Columbus Attorney.

Columbus, O., May 28.—Colonel Charles E. Burr, a prominent attorney, died today at Mount Carmel hospital, aged fifty-five years. His death, in the opinion of the attending physician, was directly traceable to the bite of an insect which caused blood poisoning. Later erysipelas and then spinal meningitis developed.

HORROR IN TURKEY

EARTHQUAKE DESTROYS THE TOWN OF MELAZGERD.

ENTIRE POPULATION IS KILLED

NUMBER OF THE DEAD PLACED AT TWO THOUSAND.

Have Is Wrought Also in the Surrounding Country, It Is Reported, Several Hundred Houses in Neighboring Villages Collapsing.

Constantinople, May 28.—Official advices reached here today that the town of Melazgerd, eighty miles south of Erzerum, on the Euphrates river and a few miles north of Lake Van, Asiatic Turkey, was totally destroyed by an earthquake on April 29. Its entire population, numbering two thousand, including seven hundred Armenians were killed. Four hundred houses in neighboring villages collapsed.

COLD-WATER MEN IN WRANGLE.

Reference to Christ in Platform Report Stirrs Iowa Prohibitionists.

Marshalltown, Ia., May 28.—The Prohibition state convention today nominated J. P. Hanson, of Mahaska county, for governor. A wrangle followed the report of the platform. The majority report contained a preamble which declared that "all governments derive authority from Jesus Christ." This was looked upon as an intimation that Christ was responsible for the saloon business, trust evil, etc. A substitute, cutting out all reference to Christ, was finally adopted after a hot fight which lasted for two hours.

As finally adopted, the platform censures the government for deriving revenue by taxation on the manufacture and sale of liquors; favors equal suffrage; asks that the taxes and moneys collected from saloons be used to bear the expense of treating inebriates; declares against divorce, and favors the election of senators by direct vote.

FAVORITE LOSES BY A NOSE.

Irish Lad, 12 to 1, Wins the Brooklyn in Record-Breaking Time.

New York, May 28.—Irish Lad, carrying 103 pounds and selling at 12 to 1, won the seventeenth Brooklyn handicap at Gravesend today in 2:05 2-5. In doing this, Irish Lad lowered the record for the race—2:06 1-2, made by Banastar in 1899—and equaled the record for the track, made by Gold Heels last October. Only once before has a three-year-old won the Brooklyn. In 1901 James R. Keene's Cymroy, carrying 102 pounds, won the classic in a sea of mud, in 2:09.

Gunter, winner of the Metropolitan handicap, the favorite, was second today, beaten by not more than three inches. Hemo, was third, eight lengths behind. Oom Paul, the second favorite in the betting, was close on Hemo's heels. The race was worth \$15,150, the winner's share being \$15,150, the second taking \$2,000 and the third \$1,000.

EULOGIZES ROOSEVELT.

Senator Hanna Pays a High Tribute to the Nation's Chief.

Cleveland, May 28.—In the Republican county convention today, Senator Hanna paid a high tribute to Roosevelt and his administration, saying in part: "I have nothing but commendation for the record of the president who from that mournful day in Buffalo when in the presence of his cabinet he registered a vow and called as witnesses the whole American people that it would be his duty as well as his pleasure to carry out the policies of William McKinley, has served his country well. That assurance gave him a high place in the hearts of the American people, and to the best of his ability he has labored honestly to carry out that pledge."

KAISER IS MUCH PLEASED.

Decision to Send American Squadron to Kiel Gratifies the Emperor.

Berlin, May 28.—The foreign office has been informed officially that the United States European squadron will arrive at Kiel on June 25. Chancellor Von Buolow is much gratified and Emperor William is highly pleased.

Washington, May 28.—The navy department has decided to send the battleship Kearsarge to Kiel as the flagship of the European squadron instead of the Alabama, which could not be prepared in time.

GERMAN MANEUVERS SECRET.

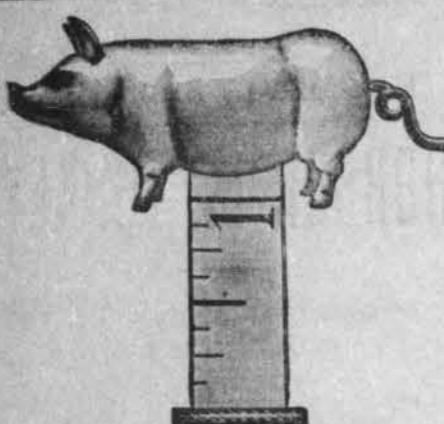

Berlin, May 28.—Emperor William assembled all the commanding generals at the annual review near Potsdam today to initiate them into new exercises, which are kept secret from the public. No civilians were permitted to be present.

ST. LOUIS BOODLER SENTENCED.

St. Louis, May 28.—J. J. Hannigan, a former member of the house of delegates, was sentenced to five years in the penitentiary today on a charge of connecting him with the passage of the suburban railway bill. He will appeal.

EXPULSED FROM RUSSIA.

London, May 28.—The Russian government has expelled the London Times correspondent from St. Petersburg.

MARQUETTE, MICH., MAY 29.

Rev. Louis Richter of Minnesota is a highly original character. It is not every minister of the gospel who would conceive the plan of giving out the scanty pickings from a not too numerous congregation by acting as agent for some cheering brand of beer, but Rev. Richter not only had the ingenuity to conceive the idea, but, what is as wonderful, the nerve to put it into active practice.

The bill to exempt all credits, including mortgages, from tax, bringing to an end the long struggle over this much disputed measure, failed of passage a number of days ago, but its friends were confident that it would succeed when there was a full attendance of representatives, and they have been waiting for this favorable condition. Tuesday it developed that their calculations were right, for the vote was fifty-six for to thirty-five against the bill.

They must have a weak and puny lot of preachers at Terre Haute. Although they banded together to secure the observance of Sunday closing laws and the doing away with other abuses, they have been able to accomplish nothing, and their association has just made a humiliating confession of failure, in which they request that a municipal league be formed to take up the work that has proved too much for them. The ministers set forth that their sermons on the subject were printed in the papers and that they had even petitioned the mayor, in protest against the existing order, yet nothing was done.

The postal department investigation seems to be winding up, and it is not yet a month. The arrest of Miller for bribing the other day was ample testimony that Mr. Payne had finally taken the warpath, and now the apprehension of A. W. Machen, superintendent of free delivery, the man against whom most of the charges have been directed, shows that the postmaster general is finally getting sure of his ground. Possibly the impatience that has been manifested at his apparent procrastination has been unjust. It takes time to work up these complicated cases, and perhaps the postmaster general has only been waiting until he was in a position to strike surely. However this may be, the fact that he has not satisfied with the fact that he has not begun to strike. A few more arrests and the general public will feel assured that the postal investigation is going to be thorough and far-reaching.

Machen seems to be in a pretty bad box. Judging from the reports the inspectors have a complete case against him.

Says the Philadelphia Ledger:
Time, the great solvent, seems to be working with slowly increasing momentum toward the ultimate union of British North America with this country. Self-interest, if nothing else, on the part of the Canadians will speed the day when the "flag of the free" shall float over the "home of the brave" on all of this continent north of the Rio Grande. Of course, no country knows what the future has in store for it, but when the matrix of time shall have opened we believe its greatest development will be the United States of North America, whose leadership in the arts of peace none shall dispute, and whose influence for good shall be paramount. Manifest destiny is for us—the hegemony of the world is within our grasp. No anti-imperialist society will endeavor to prevent a consummation so devoutly to be wished. May we prove worthy of it.

The State Federation of German societies for Illinois, a Catholic organization which met at Bloomington this week, adopted an impressive resolution declaring against yellow journalism and yellow journals. It warned all Catholics against the dangers of this journalism, setting forth that it not only imperils the religion but also the morals of the country at large, and declaring that the yellow journals are not fit to enter Christian homes. To a considerable extent the convention cast doubt on the meaning of this resolution by urging a cordial support of the religious press. If it terms all the journals yellow which are not religious the public will pay precious little attention to its resolution. However, this was not the intention, in all likelihood. When the convention denounced yellow journalism it had in mind a few of the metropolitan papers whose careers during the past few years have resulted in the creation of that term of reproach. With the really decent papers, with their power for good and desire to accomplish it, the German societies of Illinois, or any group of societies in any state, can have no quarrel.

The convicts of the Jackson prison are going to emulate the inmates of the Marquette institution and publish a prison paper. It will be a four page weekly, and the initial number will soon be out. The plant that will be used to issue it cost some \$700 and was purchased through the investment of the meager savings of sixty long term prisoners, who are of the opinion that the prison population has been without a mouth-piece long enough. The editorial management will rest with a committee of prisoners, who will prepare manuscript for it nights and Sundays, the warden exercising a full censorship over its pages. There are numerous typesetters doing time at Jackson, so there will be no trouble about getting the matter up. Contributions from the inmates will be accepted, and it is expected that some of the touted wise men among the convicts will seize the opportunity to display their wisdom. There will be no little interest to observe how the new prison publication compares with Progress, issued at the Marquette prison, although comparison will be difficult, as Progress is a monthly, largely devoted to essays and editorial matter. The Jackson sheet is to be a weekly, and, judging from the comment, it will be given over particularly to current news. However, it is a safe venture that Progress will hold its own.

The meeting of the conference committee on primary election Tuesday night came to naught. Both the senate and house delegations had lots of backbone, and neither were willing to hear of concessions that were worthy of the name. The senators would not concede the governorship to the primary election men, and while they professed to be willing to have the senators and representatives nominated directly, they were not willing to have the system introduced in connection with the county offices. As for the representatives, they too wanted the whole thing or nothing. Of course flat disagreement was the result. This latest failure of the conference committee to come to terms is said to be likely to end the primary election discussion for this session. The whole subject will now go over for two years, in the meantime being thoroughly investigated and discussed. This is perhaps not the most unfortunate result in the world. Two years from now the people of the state will know just what they want, and they will see that they get it. The reason that primary election has failed in this session has been that the demand for it, instead of starting generally at the bottom, started with certain elements at the top. If the people throughout the state had been fairly behind it there is no doubt that it would have been successful.

There is no little satisfaction and some little surprise in this country to learn that there are really some lengths to which German officers cannot go in maltreatment of privates without bringing punishment down on their guilty heads. For instance murder of offending men from the ranks is deemed reprehensible and is liable to expiation by imprisonment, although to be sure the precedent of short terms has been set. Naval Ensign Hussner, who ran his sword through Artilleryman Hartmann, an old schoolmate, at Mason Good Friday last has been sentenced to four years and a week's imprisonment and degradation from his rank. Of course if Hussner had been a private citizen and his victim also a commoner he would have hung or served a life sentence for the murder, but some consolation was to be expected because both of the parties

FROM LAST TO FIRST

People used to take plain cod liver oil for coughs, colds, throat and lung troubles after other remedies had failed.

Scott's Emulsion is the modern idea of cod liver oil—the first instead of the last resort when such ailments appear. The taste of the oil is not apparent and the oil itself is partly digested—makes it easy for the stomach. Scott's Emulsion is a quick, reliable help at all ages.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

were in the service of Kaiser Wilhelm's invincible army. In fact many people were of the belief that Hussner would be let off altogether. The trial seemed to show that the naval ensign is a dull fellow, whose ideas have been rather perturbed by the German training. The Hartmann murder at the time aroused general and horror-stricken comment, and it was seized upon, with justice it must be feared, as an object lesson of what the military training of the German empire is doing for certain classes of men who of necessity fall under its influence. All German officers are not Hussners, but developments of late years lead inevitably to the conclusion that there are many Hussners in their midst.

BOERS WERE MISSING.

The cable dispatches telling of the opening of the first British Transvaal parliament at Pretoria dwell at some length on the array of dignitaries present and their fetching costumes. No special prominence was given to the far more significant fact that the Boers were conspicuous by their absence. Not a Boer member was in his seat. Naturally this fact deprives the inauguration of local government under the union jack of much of its importance.

The hostility or indifference of the Boer representatives is easily accounted for. They were appointed by the British lieutenant governor, not elected by the people. The British authorities did not think it the part of prudence to allow the conquered people the full measure of self-government and the latter showed their resentment by declining to take part in the proceedings. Probably this was to have been expected. An intensely proud people cannot easily reconcile themselves even to the inevitable. It will naturally be some time before the Boers can bring themselves to accept the right hand of fellowship extended by their conquerors and co-operate heartily in the new government of their country. The lieutenant governor's speech reads well and the legislative program proposed is not ungenerous. The British intend to give the Boers good government and earnestly desire the co-operation of their late antagonists in the field. It is to be hoped that they will succeed in winning the confidence of the Boers and inducing them to accept a political order that will eventually mean local self-government as complete as is enjoyed by any British dependency.

The present condition is anomalous, even from the British point of view. It presents only the forms of representative government. The new Transvaal parliament is to all intents and purposes an alien body. When this is to be otherwise depends mainly upon the Boers themselves. Popular elections will be provided as soon as it is seen that they are willing to do their part in good faith. This wholly natural reluctance is merely delaying the co-operation between Boer and Briton without which the regeneration of South Africa cannot be complete.

DEAFNESS CANNOT BE CURED

By local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Hall's Family Pills are the best.

WILL CURE CONSUMPTION.

A. A. Herron, Finch, Ark., writes, "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." Sold by People's Drug Store.

Republic.

TAKEN IN BY HORSE THIEVES.

Thomas McCusker Was Mixed Up With a Couple of "Slippery" Canadians.

Thomas McCusker, who had charge of the exploratory work near Republic for the Cierge syndicate last summer, arrived in Crystal Falls the other day from the Northwest Territory, Canada, where he has been for some time looking after things at his farm there, says the Mail. He has taken up 320 acres of government land and expects to have one of the first farms in that region in a few years. He planted forty acres this spring but could not stay there as it was impossible to get men and the material to build himself a house. The cause of this he says is the great influx of emigrants who are taking up land there. He expects to have the necessary building up by the spring when he will move his family out there. He says he put up before next spring, when he can dispose of his property here in the meantime. Mr. McCusker was accompanied out there by Harry Foster who was formerly employed at the Great Western mine, and who has taken up a 100-acre tract of land adjoining Mr. McCusker's farm. During the latter's stay here Mr. Foster will look after his interests.

Mr. Cusker tells of how he got mixed up with two horse thieves, which led to their exposure. They were two young fellows who had been brought up in that country and of well-to-do families but who had been stealing and selling horses for four years. No evidence could be gotten against them until they sold a horse to Mr. McCusker, although they were under suspicion. He purchased a horse from them, but when he went to get it, it was found that they had borrowed money on the horse and the lender of the money would not give up the animal. He then became suspicious and set to work to find out who had sold him the horse. He informed them of the condition of affairs and they said they would go with him and get the horse. On the way they met another man who was looking for two horses that had been stolen from him and he at once recognized those ridden by the two fellows with McCusker as being his own. They would proceed no further, but Mr. McCusker forced them to give up a gold watch which they had received from him in part payment for the horse and he started for Carlton. On his way there he met five mounted police and informed them about the horse thieves and they started after them. Mr. McCusker came direct home from Carlton and he says that he expects to hear of the capture of the culprits in the next letter he gets from Mr. Foster.

RED STOCKINGS DEFEATED.

The baseball fans, particularly the friends of the first nine, are just now trying to figure out where the Red Stockings (second nine) stands, since its defeat by the Pork City team last Sunday. There is no little rivalry between the different teams of the village and many warm discussions are heard by the players and supporters of the several aggregations. Early in the season the second nine defeated the first nine and now the Pork City chaps have complicated things by taking the former team into camp. The Red Stockings claim that their defeat was due to the fact that they played without their regular pitcher. The player who held down the position the first three innings allowed twelve men to cross the plate. The second twirler did much better work, but the Pork City fellows had the game won when he went into the box. The score at the end of the ninth inning was 23 to 14. The first nine was scheduled to play at Crystal Falls last Sunday, but the weather was unfavorable and the team remained home at the request of the Crystal Falls management. It is possible that the teams will meet here next Sunday, but definite arrangements have not been completed.

SHEA-POWERS NUPTIALS.

The marriage of Michael Shea and Miss Mary Powers, two well-known young people of Republic, was solemnized Tuesday morning at the Catholic church, Rev. Father Burns, the pastor, officiating. The bride was attended by Miss Julia Blair, and John Lowmyer supported the groom. The bride was attired in white tulle and carried roses. The bridesmaid wore a gown of pale blue organdy. The bride and groom were tendered a reception during the day at the home of the bride's parents. A number of invited friends partook of a feast at noon. Mr. and Mrs. Shea were recipients of a large number of beautiful presents.

SNAP SHOTS.

Al Davidson is home from St. Paul, on a month's visit. Pete Hubert returned Tuesday from a visit with relatives at Marinette. Professor Chamberlain came over from Iron Mountain Tuesday to instruct the band. Miss Melvina Tomason of Marquette attended the Shea-Powers nuptials here Tuesday. Mrs. M. Shea left Saturday for Calumet, where she will visit friends for a week or two. Miss Kate Zeiler returned Sunday from Ishpeming and Negawane, where she had spent a week visiting friends. Oscar Carlson, a former resident of Republic, spent Saturday and Sunday here. He is now located at the Baltic mine. Jake Scholten's logs are in the river near the mill. The plant was started up one day last week. The average daily cut of shingles thus far is nearly 50,000. No. 9 shaft of the Republic mine has been idle since last Friday, while a new drum is being installed in the engine house. Nearly two hundred of the workmen are resting. F. H. Armstrong and Dr. Tombs have purchased a two-horsepower naphtha launch, which will arrive here within the next few days. The boat will carry seven or eight persons. Ed Schmidt left last week for Proctor, Minn., where he has taken a position.

CALUMET Baking Powder
Don't stand in a "brown study" when your grocer asks you what baking powder you want. Say "Calumet."
Calumet is the only high-grade baking powder sold at a moderate price.

ation in the machine shop of the Duluth, Mesaba & Northern Railway company. His brother Will has been in the shop for some time past, and he likes the place. The Republic band will give a ball at Woodmen's hall Friday night of next week. The net proceeds will go into a fund being created to purchase new uniforms. Several new instruments were bought a short time ago and the band is now pretty well supplied in that regard. The band is rehearsing regularly, from two to three times a week, and satisfactory work is being done. Music for the ball will be furnished by one of the Ishpeming orchestras.

Upper Peninsula.

Postmaster Gets Increase—The salary of the Marquette postmaster has, owing to increased business, been raised from \$1,800 to \$1,900 per annum. Citizens Subscribing for Stock—Perkins, Delta county, is to have a sawmill, planer and feed grinder. A stock company capitalized at \$5,000 is being organized by citizens of the town who already have subscribed nearly all of the amount needed. Hotel Gutted by Fire—The Lakeview House, on Ridge street, at the Soo was badly gutted by fire early in the week, the loss being estimated at \$4,000. The blaze broke out at an early hour in the morning and there were many narrow escapes from death. A Case of Suicide—The body of Nels Nelson, the Iron Mountain man who disappeared a couple of weeks ago, has been found in Bass lake, two miles from the city. From remarks made by Nelson just prior to his disappearance, his death is believed to have been suicidal. Menominee Man a Suicide—William Bang, forty-four years old, a successful mason contractor of Menominee, is dead from a gunshot wound self-inflicted with suicidal intent. His body was found on a railroad track near the city. He leaves a wife and nine children. An Old Army Veteran—Sergeant Martin Schacht, retired, a resident of the Soo, is among the oldest army veterans in the country. He first came to the Soo, as one of the military garrison, in June, 1852, being a high private in battery A, Fourth United States artillery, commanded by the late General G. W. Getty, then a captain in the Fourth. Old Fort Brady at that time was enclosed by a tight stockade seven-hundred feet high and contained two block-houses. Soldiering was a good deal different then than now. The pay was smaller, \$7 a month. Mr. Schacht served during the entire war of the rebellion, from 1861 to 1865, in the Army of the Potomac and was in many battles. He was retired as an ordnance sergeant in 1886 after thirty-two years honorable service in the army and has since that time been a resident of the Soo. Two Close to Sink Holes—The Chicago & Northwestern station at Stager, a junction point in Iron county, has been moved half a mile to the northwest. This was necessary because of the proximity of dangerous sink holes which it was found almost impossible and too expensive to fill. It required a considerable outlay of money to move the station and tracks. Audit Company Organized—Three Sault Ste. Marie men have organized a rather novel corporation. It is the Sault Ste. Marie Audit company, which will solicit business from the smaller business concerns whose work is not great enough to justify the expense of maintaining a regular book-keeper or collector. Deputy County Clerk Farsille is at the head of the enterprise. Take a Big Timber Contract—Kinball & Co. of Newberry have closed another contract with the Michigan Iron company for lumbering the hemlock and pine timber scattered through the company's hardwood holdings north of town. There is estimated to be at least thirty million feet of hemlock on the tract. The logs will be brought to Newberry over the Michigan Iron company's road and will in all probability be manufactured there. Cement Walks Favored—An ordinance has been introduced in the Menominee common council providing that hereafter all sidewalks constructed on Main street between Ogden avenue and the bridge, and on Grand avenue and Ludington avenue, between thoroughfares, be built of cement, and condemning many of the board walks now down. Considerable cement walk construction is now on at Menominee and it is evident that cement is to become the popular material there. A FARMER STRAIGHTENED OUT. "A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Hayder, of Pattons Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by Stafford Drug Co.

Red Stockings claim that their defeat was due to the fact that they played without their regular pitcher. The player who held down the position the first three innings allowed twelve men to cross the plate. The second twirler did much better work, but the Pork City fellows had the game won when he went into the box. The score at the end of the ninth inning was 23 to 14. The first nine was scheduled to play at Crystal Falls last Sunday, but the weather was unfavorable and the team remained home at the request of the Crystal Falls management. It is possible that the teams will meet here next Sunday, but definite arrangements have not been completed.

WASHED OVERBOARD AND LOST. Capt. Gordon, of Barge Maxwell, Drowns in Lake Superior.

In a heavy sea off the Portage Lake ship canal, Captain Patrick Gordon, one of the oldest mariners on the great lakes, lost his life in Lake Superior yesterday morning. He was swept overboard from his vessel and was drowned. His body was not recovered. Captain Gordon was master of the barge A. C. Maxwell, which, with another schooner, was in tow of the steamer A. S. Turner, about midnight, or shortly after, while the three boats were laboring in the heavy blow prevailing, the Maxwell careened and parted her tow line, the steering gear being carried away during the maneuver. The barge swung around, and as she did so shipped a sea. Captain Gordon, who was leaning forward, washed overboard while vainly trying to grasp a support and maintain his foothold, and the crew took to the rigging.

The Turner stood by to the rescue of the imperiled craft, but hampered by the seas and the barge still in tow she could do but little to aid the Maxwell until daybreak had broken, when the schooner finally was picked up. The propeller and her tow came to Hancock, where the news of the fatality was reported.

The drowned mariner was aged about sixty, and for forty years had sailed to and from a resident of West Bay City, where he leaves a family to mourn him.

BAD SMASHUP. Copper Range Engine and Cars Wrecked at Trimountain.

The worst wreck on the Copper Range road since it has been in operation occurred a short distance south of No. 4 shaft of the Trimountain mine on the Painesdale branch, at 8:50 o'clock yesterday morning. A section of a rock train rolled down an embankment, badly damaging the locomotive and cars and slightly injuring the engineer and conductor, who were in the midst of the mixup. The accident was caused by a 100-foot stretch of track across a deep gully giving way. The track had never been properly ballasted, causing it to settle, and the recent heavy rains had washed much of the sand of the road-bed away.

Engine No. 53, two loaded rock cars and a flat car went over the embankment. The locomotive is almost a total wreck and the cars are badly smashed up. Engineer William Whitford, who was hurled down the embankment, a distance of between twenty and thirty feet, sustained slight injuries to one of his hips, while Conductor Charles Avery was also painfully but not seriously injured about the hips. Fireman William James escaped by jumping. The train had passed over the dangerous spot once before in the morning and it was returning at the time of the accident. The wreck severed a small compressed air pipe running to No. 4 Trimountain shaft, but this was repaired shortly after.

FELL FROM FISHING TUG. Wm. J. Corgan of Ontonagon Meets Death by Drowning.

News of the drowning of William J. Corgan, son of James Corgan, the veteran lighthouse keeper at Ontonagon, was received at Houghton yesterday. Particulars other than that the young man, who was employed on a fishing tug, was last noticed sitting at the stern of the boat as she was steaming out into the lake, are lacking. It is believed he fell into the lake. The body has not been recovered as the exact location of the accident is not known. Mr. Corgan was a married man and is survived by a young child. He was about thirty years of age. He was well known at Portage Lake. At one time he was captain of the steamer Thomas Friant. He was formerly in charge, also, of the steamer Gertrude and the tug Jim Puller. Word was received yesterday that the young man had been found off Fourteen-Mile point, near Ontonagon.

MEMORIAL DAY PROGRAM. The committee in charge of the Memorial Day exercises will be held at Houghton did not meet on Wednesday evening to conclude final arrangements as was planned. The meeting was postponed until last evening. It has been decided that the graves of the soldiers in Forest Hill cemetery will be decorated in the morning and committees to attend to this work have been appointed. Flowers for the purpose will be provided by the school children. A parade will precede exercises at the Amphidrome in the morning. Graham Pope, a member of the E. R. Stiles Grand Army post, will be the grand marshal of the day. Major Charles Hendricksen and Captain George Miller will be his aides. The several military organizations will participate in the parade. The exercises at the Amphidrome will consist of patriotic addresses and songs.

ANNUAL DANCING PARTY. The annual dancing party of the Houghton chapter, Order of the Eastern Star, will be held in the Hall building this evening. Members from Lake Linden and Calumet and Rockland and Ontonagon have been invited to attend and it was said yesterday that a big delegation from those places would be on hand. Good music and excellent refreshments have been provided and it is believed the function will be a decided social success.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. For sale by Stafford Drug Co.

WHAT IS FOLEY'S KIDNEY CURE? Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically combined to get their utmost value. Sold by People's Drug Store.

A REVELATION. If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. People's Drug Store.

DECIDES ON WIRELESS SERVICE.

Capt. Singer to Install System Between Copperdom and Isle Royale.

Captain W. H. Singer of Duluth was in Chicago this week, negotiating with the De Forest Wireless Telegraph company for the installation of a wireless system between the copper country and Isle Royale. The station are to be located at Houghton and Hancock on Portage lake and at Washington Harbor on the island. Negotiations were also made to continue the service on to Port Arthur on the north shore of Lake Superior, but Mr. Singer thinks it more probable that he will run a short cable line to the mainland and connect with the Dominion service along the Canadian Pacific road. Contracting Engineer G. H. Barbour of the De Forest system also presented figures to include the installation of the service on the steamer Easton of the White Line, which is to ply between the above ports.

STEAMER EASTON DUE TODAY. Will Be Open to Inspection and Later Run Excursion to Duluth.

The steamer Easton, recently purchased from the Dunckley-Williams Transportation company of South Haven for \$60,000 by Captain W. H. Singer of the White Line, for the Duluth-Portage Lake-Isle Royale and Port Arthur route, will arrive at Hancock and Houghton on her first visit to Portage Lake today. She left Chicago on Tuesday. The boat will replace the regular trips between Duluth and Portage Lake and at Houghton will connect with other line steamers. The Easton is a sixteen-mile-an-hour boat, and although not as large as the Ironquits, it is large enough to handle the local business. Captain Singer, who was in Houghton yesterday, says that the steamer is a good sea craft. The boat will be open for inspection today.

The Easton will commence the season by running an excursion to Duluth. She will leave the dock at Port of Isle Royale street, Houghton, at 5 o'clock this afternoon and the Close & Bawden dock, Hancock, at 5:30 o'clock. Returning the boat will leave Singer's dock, Duluth, at 5 o'clock Sunday afternoon and it is due at Hancock at 7 o'clock Monday morning. The craft will run numerous excursions during the summer.

POPULAR YOUNG COUPLE WEDS.

Miss Belle Whittle, daughter of Captain and Mrs. Whittle of the Quincy mine location, was married to Albert J. Potter, also of the Quincy, at 2:30 o'clock yesterday afternoon. The ceremony was performed at the Whittle home, which was prettily decorated for the event. Rev. W. B. Coombe, pastor of the First M. E. church of Calumet and an uncle of the bride, officiated. The newly wedded couple are popular young people at the Quincy. Mr. Potter is employed as bookkeeper at the North store. He and his bride left yesterday afternoon for a trip to Milwaukee and Chicago and other points. They will be at home to their friends after July 1 on Center street, West Hancock.

"RESURRECTION" TONIGHT.

Tolstol's play, "Resurrection," will be the attraction of the Kerredge theater, Hancock, this evening. A. J. Hancock saw the production of "Fedora" last evening and Melbourne MacDowell and Florence Stone, the stars, were accorded a hearty reception.

COPPERDOM BREVITIES.

Leo M. Ebertski, a well-known Hancock barber, and Miss Louise Gamache of Escanaba, daughter of Mr. and Mrs. A. Gamache, were married at Escanaba on Wednesday morning. The young people will be at home at Hancock after July 2.

Owing to other attractions, the Houghton Light Infantry will not give its annual bi-monthly promenade dancing party this evening.

The Pryor dredge, which is finishing up a last year's contract in Portage river, resumed operations yesterday morning after losing three days owing to a mishap to two of its "spuds." Repairs were made at the Pryor dock at East Houghton.

The rains of the past week have seriously interfered with the plans of the Houghton golfers. The grounds, however, are in fair condition and about all that is necessary is mowing the grass. The upper peninsula tournament will be held at Houghton during August.

Dr. W. H. Dodge, who represented the Hancock lodge of the Knights of Pythias at the recent session of the grand lodge at Saginaw, reported at a meeting of the Hancock Pythians Wednesday evening. Webster Dock reviewed the recent successful reunion of the upper peninsula members at Houghton. F. M. Loudy, secretary of the reunion committee, gave a detailed report of his work, and F. W. Taylor said the "Last Word" on the subject. The members enjoyed a smoker after the session.

Nothing is known as yet of the whereabouts of Edmond Lacombe, who recently left his position as instructor in St. Anne's parochial school at Calumet, to seek a more congenial climate where creditors will no longer trouble him. It is said he left several unpaid accounts. Several of his creditors have heard from him but he gave no address. He says he will settle his debts at some future date. He did not finish the school year and the school authorities were in a predicament for a while to fill the vacancy.

MINING NEWS

HIS FAITH IN THE HIGGINS.

A. F. Leopold Looks to See a Big Mine Opened There.

A. F. Leopold of Chicago, one of the men who recently closed the deal for the property of the Higgins Development company with Thomas Higgins at Los Angeles, Cal., is in Houghton. He has just returned from Bisbee, where he visited the Higgins claims. Like all others who are acquainted with the geology of the Warren district and who have looked over the Higgins property, Mr. Leopold had much faith in the value of the claims.

In an interview with a Mining Journal representative yesterday Mr. Leopold stated that he believes a fine body of copper ore will be encountered on the Higgins within the next six months. The Copper Queen, one of the largest producers in the world, lies just to the east of the Higgins and its ore body apparently dips into it. The Copper Queen first began work on the Copper Queen claim. Ore was taken out right at the surface and from a vein which was sunk in the cut to a depth of between seventy-five and 100 feet. Just to the west of the open cut an incline shaft was sunk. Ore was encountered at a depth of 200 feet, when a drift was started to the westward through the Belle Isle, Copper Globe, Golden Gate and Hendricks claims. This drift goes through a big stop of ore, known as the Southwest stop, in which the Copper Queen has been working for the past four years and from which about \$10,000,000 worth of copper has been taken. This drift is now going through the Hendricks claim, which adjoins the Twilight claim of the Higgins.

The geological formation of both properties is Mr. Leopold's belief, is much alike as two eggs. The hill having the Copper Queen claims and that just to the west with the Higgins property are so much alike in contour and surface appearance, each having the same characteristics, that they seem to be identical. A porphyry dike similar to that where the open cut on the Copper Queen claim was started is found on the Webster claim of the Higgins hill in the same relative location and another dike which corresponds with a similar dike on the Copper Queen property, is found on the Twilight claim of the Higgins. Dikes of the kind, Mr. Leopold stated, are almost invariably associated with ore in the adjacent limestone, as shown by results on the Copper Queen.

On the Twilight claim are two tunnels, one of which has been driven in for 200 feet and the other for 700 feet, and it is intention of the company to resume operations in these. The tunnels were opened by Mr. Higgins, who did some assessment work on the property a few years ago. Winzes will be sunk in the tunnels to the main body of ore which is thought to lie at about a depth of between two and three hundred feet. Mr. Leopold has a sample of malachite, a rich copper ore, from the Twilight claim. The ore is identical with that from the open cut on the Copper Queen property. A two-compartment shaft has been started by Superintendent S. A. Parnall on the Webster claim of the Higgins. When a depth of 200 feet is reached a drift will be run in the direction of the Twilight claim and towards the "Southwest" stop of tapping the hill in the hopes of tapping the big deposit.

Until the Calumet & Arizona uncovered an enormous copper deposit at a depth of about 1,100 feet, it was thought by geologists and others who had studied the district that there was no east of the Copper Queen. The increased depth at which ore was found in the C. & A., however, shows that the deposit occurs at increasing depths towards the west. The belief that the American interests are the dominant influence in the copper situation today. In London it is believed that the speculation in warrants is based largely on manipulation, yet it is quite generally conceded that underlying all is a real substratum of ore. The belief that the remainder of the copper in their country and in America are by no means large.

"Personally, the copper situation appears to me to be perfectly sound. There is a big consumptive demand and current stocks indicate anything but over-production. Copper mining companies are making money. These increased earnings will be gradually reflected by payment of dividends, payment of initial dividends by new companies and increase disbursements by old ones.

"The increase in the Calumet & Hecla dividend is a straw of much significance and gives an excellent idea of what Mr. Agassiz and his associates think of the current situation and the future. They evidently believe that the strength which has developed in the copper industry during the past five months or so is to be maintained.

"The outlook for revival of speculation in the shares of resumption of buying by the public is not so bright, yet it is only a matter of time before copper stocks will be bought on the strength of dividend payments. These will be object lessons sufficient to encourage buying of stocks.

"An increase in the Amalgamated dividend would be of material benefit in this respect, for, in popular opinion, Amalgamated is the key-stock and its course marks the way for practically all other copper shares.

"Undoubtedly in two months Amalgamated will be in a position to increase the dividend rate, yet it is by no means certain to do so, and moreover, you must not forget that by the time of the next

...THE... COPPER RANGE HOTEL

(formerly the Auditorium) CALUMET, MICHIGAN. European and... American Plan. ROOMS: 50c, 75c, \$1.00. A. W. HANSON, Prop.

dividend meeting the company will hardly have had time to reflect in its financial department the full benefit accruing from the increased price received from sales of its product.

"The whole speculative outlook is tinged strongly by the uncertainty surrounding the approaching presidential campaign. The larger interests have for months past been modifying their plans so that they may come into the campaign period as strongly as possible."

MARQUETTE & ARIZONA.

A letter received yesterday from President Marks, of the Marquette & Arizona Mining company, says: "With pleasure I report that below the 125-foot level we struck some stain, also a little copper in the shaft, and our future looks bright. We are still in iron, lime and quartzite, and are putting in a set of timbers every other day."

COPPER A BIG PURCHASE.

Paine, Webber & Co. yesterday wired from Boston: "We believe the coppers generally a big purchase. The weakness today is caused by a London order in both stocks and metals becoming embarrassed and forced to sell. Purchases of Copper Range and Centennial will show good profits before long at present prices."

ARCADIAN.

It was announced yesterday from an authoritative source that on the first of the coming month the Arcadian would suspend stamping operations. For some time past the mine has been sending about 200 tons of rock to the mill daily, the remainder of the capacity of the two heads being given over to the treatment of Trimountain rock. It is the intention of the Arcadian people to henceforth concentrate all energy on the development of the property. The sinking of the Douglas shaft will be continued, and the diamond drill work will be given increased attention. The release of the Arcadian head kept partly occupied on Arcadian rock will permit of the mill handling 200 tons more rock from the Trimountain daily.

COPPER MARKET HEALTHY.

The Native Copper Times ventures the opinion that the copper market has all the marks of being based on supply and demand and therefore all that could be desired. The tendency of the market appears to be upward, so that 1903 may see even higher prices for a pound of Lake ingot than was recorded in the big boom of a few years ago, and with the ever increasing uses for the red metal, the price of the metal is expected to be a permanent feature of the world. John Stanton, sag glimpees of a few short years ago, may be a reality.

The Quincy, with the improvements underground and on surface completed, should make handsome profits; should make copper for the year, should be a per cent. of the world's supply of copper, will meet all expectations of its most sanguine admirers, and the circular writers' eighteen pounds of copper per ton of rock will give way to not less than twenty-five pounds, and the cost of production will be as low as any mine on the Lake, except possibly the Wolverine and Mohawk.

The last mentioned two properties, the Stanton favorites, are growing in popular esteem every day, and are the very best things on the Lake--will both pay something regardless of the price of the metal, and any advance in the price of copper will mean just so much more for shareholders.

Franklin keeps on pounding away with three heads and making good money, while the material has been ordered for another head. This mine is either scumming away down, or the shares in some others are away up. Franklin will be heard from some day.

A BOSTON EXPERT'S VIEWS. BOSTON & MONTANA.

W. B. Thompson, a well-known Boston copper expert, who has spent some time in England, partly on pleasure and partly on business, says: "I found that English copper interests were impressed with the belief that the American interests are the dominant influence in the copper situation today. In London it is believed that the speculation in warrants is based largely on manipulation, yet it is quite generally conceded that underlying all is a real substratum of ore. The belief that the remainder of the copper in their country and in America are by no means large.

"Personally, the copper situation appears to me to be perfectly sound. There is a big consumptive demand and current stocks indicate anything but over-production. Copper mining companies are making money. These increased earnings will be gradually reflected by payment of dividends, payment of initial dividends by new companies and increase disbursements by old ones.

"The increase in the Calumet & Hecla dividend is a straw of much significance and gives an excellent idea of what Mr. Agassiz and his associates think of the current situation and the future. They evidently believe that the strength which has developed in the copper industry during the past five months or so is to be maintained.

MUSEUM IS TO COST \$3,500,000.

Will be at Washington and House Government's Scientific Collections.

Washington, May 28--Plans have been completed for the new \$3,500,000 structure that is to be erected for the national museum in Washington, and bids for its construction will soon be called for. The regents of the Smithsonian Institution are superintending the work, and it is their idea when the new building is completed to have a complete rearrangement of the exhibits now in the national museum and the Smithsonian Institution buildings.

The new structure is to be devoted to the scientific collections of the government, the present national museum building to the industrial arts, and the old Smithsonian building to the Smithsonian and national museum library and art collections.

The regents propose that the scientific collection in the new building shall be the finest in the world, and it is their idea when the new building is completed to have a complete rearrangement of the exhibits now in the national museum and the Smithsonian Institution buildings.

The chief subjects to be covered are biology, anthropology, geology, zoology, botany, and American history. The present National museum building will be given up to a great exposition of industrial art, including the already immense and unique collection of the museum, and many additions that the regents are planning to secure as rapidly as possible. The museum will be modeled in its scope and general plan after the Victoria and Albert museum of Great Britain. Among the chief departments will be those of land transportation, best models, implements of war, and electrical apparatus, of which the museum already has rich collections.

CRUSHES OUT THE LIFE

The most loathsome and repulsive of all living things is the serpent, and the vilest and most degrading of all human diseases is Contagious Blood Poison. The serpent sinks its fangs into the flesh and almost instantly the poison passes through the entire body. Contagious Blood Poison, beginning with a little ulcer, soon contaminates every drop of blood and spreads throughout the whole system. Painful swellings appear in the groins, a red rash and copper colored spots break out on the body, the mouth and throat become ulcerated, and the hair and eye brows fall out; but these symptoms are mild compared to the wretchedness and suffering that come in the latter stages of the disease when it attacks the bones and more vital parts of the body. It is then that Contagious Blood Poison is seen in all its hideousness. The deep eating abscesses and sickening ulcers and tumors show the whole system is corrupted and poisoned, and unless relief comes soon this serpent disease tightens its coils and crushes out the life. The only antidote for the awful virus is S. S. S. It is nature's remedy, composed entirely of vegetable ingredients. S. S. S. destroys every vestige of the poison, purifies the blood and removes all danger of transmitting the awful taint to others. Nothing else will do this. Strong mineral remedies, like mercury and potash, dry up the sores and drive in the disease, but do not cure permanently. Send for our home treatment book and write us if in need of medical advice or special information. This will cost you nothing.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

CREED IS REVISED

PRESBYTERIANS AMEND THEIR CONFESSION OF FAITH.

VOTE OF ASSEMBLY UNANIMOUS

ACTION ENDS QUESTION AGITATED FOR FIFTEEN YEARS.

Policy of the Church on Divorce and Re-Marriage Is Outlined, and the Negro Problem Is Given Committee to Investigate.

Los Angeles, May 28.—In the Presbyterian general assembly today, the report of the revision committee was adopted as a whole by a unanimous vote. The moderator was also authorized to appoint a committee to confer with the Cumberland Presbyterian committee on the question of uniting the two churches.

After the adoption of the revision, Chairman Van Dyke said he wished to make it clear, and especially did he wish to say "to the brethren of the press, that this revision does not mean the Presbyterian church has changed her base one inch, but it does mean that she has broadened and strengthened her foundations. Her divine sovereignty shall never be interpreted so as to mean fatalism."

The adoption of the revision of creed disposed of a question that had been before the last three assemblies and had agitated Presbyterian circles for fifteen years. Important additions, applications and amendments are made to the confession of faith.

Text of Leading Changes. One of the most vital is the erection into the church doctrine of the belief that all who die in infancy are saved, which follows:

"That concerning those who are saved in Christ, the doctrine of God's eternal decree is held in harmony with the doctrine of His love to all mankind, and His gift of His love to be propitiation for the sins for the whole world and His readiness to bestow His saving grace on all who see it; that concerning those who perish, the doctrine that God desires not the death of any sinner, and has provided in Christ a salvation sufficient for all, adapted for all and freely offered in gospel to all; that men are fully responsible for their treatment of God's gracious offer; that His decree hinders no man from accepting that offer, and that no man is condemned except on the ground of his sin."

"Also that it is not to be regarded as teaching that any who die in infancy are lost. We believe that all dying in infancy are included in the election of grace and are regenerated and saved by Christ, through the spirit, who works where and how He pleases."

"Also that it is not to be regarded as teaching that any who die in infancy are lost. We believe that all dying in infancy are included in the election of grace and are regenerated and saved by Christ, through the spirit, who works where and how He pleases."

For Section IX, Chapter XXV, the following is substituted: "The Lord Jesus Christ is the only head of the church, and the claim of any man to be the vicar of Christ and head of the church is unscriptural, without warrant in fact and is an usurpation dishonoring to the Lord Jesus Christ." Three additional chapters are added to the confession concerning "the love of God for all men, missions and the Holy Spirit."

The "Tennessee overture" in regard to "separate presbyteries in the same territory" commonly known as the "colored question" of the Presbyterian church, was disposed of by referring it to a committee to report at the next assembly.

Divorce and Re-Marriage. The special committee on divorce and re-marriage reported in part as follows: "The report being unanimously adopted: "The question is serious enough. The state is imperiled, the family is threatened, and the church, the guardian of both, too frequently puts its seal and sanction upon unrighteous relationships, does not refuse its sacrament to those who lightly regard the sacred bonds of marriage, and for reasons not recognized in God's word separate themselves and seek new alliances."

"Unless ministers will carefully inform themselves of the social condition of persons proposing marriage, and strictly conform to the laws of God regarding divorce and re-marriage, re-

vealed in the scriptures, and unless professing Christians strictly regard such laws in their own conduct, how can we hope through the influence of the church, to correct the evils that are made possible by immoral legislation? The conviction is deepening that something should be done to save society and the state from the terrible consequences of lax legislation, which disregards the law of God and the protests of the church.

"The divorce laws enacted in many states entirely disregard the sacredness of marriage, and serious complications are occasioned by the contradictory legislation that prevails in our country. A recent decision of the supreme court of the United States has brought to the attention of citizens the deplorable conditions that exist, and some of the serious consequences of such conflicting legislation."

"Without the united influence of those who profess to regard the laws of God and the morality taught by Jesus Christ, it will be impossible to secure such legislation as will enact righteous laws regarding divorce and marriage. But we believe that Christian law-givers, if supported by Christian opinion, are ready to test the power of this Christian nation to so amend its constitution that its citizens shall be protected in their homes and in their estates, from the terrible wrongs that are being inflicted by unrighteous legislation. It is the desire of all good citizens that virtue and domestic happiness should be defended against all those who disregard their solemn vows, deny their obligations, pollute the very fountains of life, and destroy the foundations of society. The committee recommends the adoption of the following resolution:

"Resolved, That this General Assembly favors every lawful endeavor to correct the evils of lax legislation regarding the subjects of divorce and re-marriage, and to secure such uniformity of legislation thereon as may best promote the purity of society."

"Resolved, That this General Assembly hereby enjoins all ministers under its care and authority to refuse to perform the marriage ceremony in the cases of divorced persons, except as such persons have been divorced upon grounds and for causes recognized as scriptural in the standards of the Presbyterian church in the United States of America."

"Resolved, That the committee appointed by the General Assembly of 1902 is continued, with instructions to diligently pursue the work entrusted to it, and to report to the next General Assembly."

After hearing the report of the committee on correspondence, the assembly adjourned for the day.

WATERY GRAVES FOR MANY.

Lanenberg, N. S., May 28.—News has been received from Newfoundland, of the drowning at Bay of Island of eight men, the crews of two schooners.

Posen, Prussia, May 28.—As the result of the capsizing of a ferryboat, with forty-five children aboard, on the river Warthe, near Dembro, today, the ferryman and eleven children were drowned.

THEIR ARBITRATION IMPOSSIBLE. Lake Mohawk, N. Y., May 28.—At today's session of the international arbitration conference, Dr. Lyman Abbott declared arbitration was not a solvent of all difficulties. The right of free man to labor was one of the things that could not be arbitrated, he asserted, and the Monroe doctrine was another.

SERIOUS RIOTS IN RUSSIA.

Berlin, May 28.—The Tageblatt learns that serious rioting has broken out in the government of Woronesch, Russia. Ten thousand strikers there are threatening renewed violence and the governor has asked for a large military force to disperse them.

SULTAN'S BROTHER POISONED.

Madrid, May 28.—A report from Ceuta says that the Moorish sultan's brother, Mulai Mohammed, is dead. He was poisoned, according to the dispatch.

TODAY'S WEATHER.

Washington, May 28.—The following is the weather bureau's forecast for Upper Michigan: Fair Friday and Saturday; light variable winds.

CANADIAN TOWN BURNING.

Mariesville, Can., May 28.—Fire tonight has already destroyed fifty houses and is still raging.

SHOTS ALARM AT JACKSON.

Searchlight from Mountain Trained on Soldiers Guarding the Feudists.

Jackson, Ky., May 28.—As a result of shooting occurring last night the tension was greatly increased today. A statement issued by the commander of the military guarding the jail is to the effect that last night a sentry, observing a man approaching the jail, ordered him to halt. The man replied by firing a gun. Three guards returned the fire. A moment later an object was seen moving toward the jail from the opposite side and was fired upon by the guards. The object, a cow, was instantly killed.

The soldiers remained awake all night, apparently expecting an attack. It is the popular belief that a plan has been arranged to "pick" off the Gatling gun squad with the aid of a searchlight on the nearby mountain and then rush the guard with the possible intention of rescuing Jett and White, the accused feudists.

No one knows who owns the searchlight used by unknown parties on the side of the mountain last night. A Hotchkiss gun was placed beside the Gatling gun tonight, and if the searchlight appears again explosive shells will be trained on it.

The press correspondents are laboring under great difficulty. The telegraph office is a mile away, and messengers carrying press dispatches are guarded by soldiers.

Lexington, Ky., May 28.—Colonel Williams, who was here tonight, says his troops at Jackson are well treated by the people. He intimated that the shooting last night was by drunken men. No request for additional troops will be made.

BLOW MAY BE FATAL.

Doctors Unable to Revive a Fugitive Knocked Out by Jeffords.

Savannah, Ga., May 28.—Jim Jeffords of San Francisco and George Feeley of Sioux City, heavyweights, met for a twenty-round contest tonight. In the third round Feeley went down under a left to the jaw and took the count of six. As he came up groggy Jeffords sent another to the same spot and Feeley was counted out. At 11 p. m., an hour after the conclusion of the contest, Feeley was still unconscious, notwithstanding the efforts of physicians to revive him. The physicians said Feeley's heart is all right, but that he was suffering from the concussion.

Later—At 2 o'clock Friday morning Feeley's condition is unchanged. Jeffords is detained at the police station.

Portland, Ore., May 28.—Joe Walcott of Boston won from "Mysterious Billy" Smith of Portland in the fourth round tonight.

Louisville, May 28.—Rube Ferns was knocked out in the thirteenth round tonight by Martin Duffy of Chicago.

MICHIGAN EXCELS IN TENNIS.

Honors at Chicago Tournament Taken by the Ann Arbor Men.

Chicago, May 28.—The championship in the singles in the western intercollegiate tennis tournament was won by Michigan University today, although the final round is still unplayed. In the semi-finals, Danforth and St. John, both Michigan players, won their matches. The final match will be played off at some future date on the Ann Arbor courts. The championship in the doubles lies between Michigan and Wisconsin and will be decided tomorrow.

CHICAGO GRAIN MARKETS.

Chicago, May 28.—Wheat opened firm today, on steady cables, July being unchanged to a shade higher, at 73 3/4¢, but the strength was of short duration, an absence of trade and a lack of bull energy soon bringing about a decline. July selling down to 72 3/4¢ after touching 74 1/4¢ soon after the opening. The outside markets were also easier, while St. Louis and the Northwest had considerable wheat for sale, which contributed to the declining tendency. The prices held steady at the decline until late in the day, when a scattered demand caused a slight rally, and the close was steady, with July 1/2¢ lower, at 73 3/4¢. May closed 1/4¢ better and September 1/2¢ lower. Liverpool was steady to 1/4¢ higher. A feature was a sharp bulge in May at New York, which was up 3 1/2¢ at one time, acting as though a squeeze was contemplated. At the seaboard twenty-five boatloads were taken.

Corn was dull throughout the day, the pit at times being almost deserted. The market had a firm undertone, however, when a rumor of a strike among the freight handlers at St. Louis being a bull factor early in the day. Commission houses bought moderately and the offerings were light. The receipts were smaller and the country acceptance not large, fears of a railroad strike being a restriction on business. July closed unchanged and May 1/2¢ lower. Liverpool was unchanged to 1/4¢ higher. On the coast three boatloads were accepted. July opened at 45 1/4¢; highest, 45 1/2¢; lowest, 45 1/4¢; closing, 45 1/4¢.

In oats there was a fairly good trade the first hour, but later the market became dull and featureless. Reports of rain in the East caused an easier feeling at the start, but the prices quickly responded to a small scattered demand and a firmer tone developed. Late in the session the market eased off again, July closing 1/4¢ lower, May 1/4¢ weaker and September down 1/4¢. July opened at 33 1/4¢; highest, 34 1/4¢; lowest, 33 1/4¢; closing, 33 1/4¢.

Receipts and shipments were as follows: Receipts. Shipments. Flour, barrels, 25,000 24,000 Wheat, bushels, 33,000 15,000 Corn, bushels, 238,000 161,000 Oats, bushels, 184,000 163,000

BOSTON STOCK SALES.

The following were the transactions in copper stocks on the Boston exchange yesterday as furnished to The Mining Journal by Paine, Webber & Co.: Adventure, 90; Mohawk, 90; Arnold, 90; Old Dominion, 90; Arcadian, 90; Osceola, 90; Anaconda, 137 1/2; Phoenix, 90; Big, 90; Santa Fe, 90; Centennial, 90; Rhode Island, 90; C & B, 90; Tamarack, 90; E. H., 90; U. S. Mining, 90; Franklin, 90; U. S. Mining, 90; Mayflower, 90; Victoria, 90; Isle Royale, 90; Winona, 90; Phoenix, 90; Wauve, 90; Michigan, 90; Wyandot, 90.

UNLISTED MINING STOCKS.

The copper country curb quotations of Arizona and other western mining stocks are reported by Wm. Carr & Co., Hough-

STOCKS AGAIN HARD HIT.

Acute Weakness Develops and Copper Especially Is a Heavy Sufferer.

New York, May 28.—The stock market developed acute weakness today. The pressure to sell stocks encouraged the bears to attack the market, and they succeeded in wiping out margins. There was no new account for the selling, but it was general throughout the list. There was a substantial rally in the last three-quarters of an hour, when covering by shorts to take profits caused recoveries of one to two points in the principal active stocks.

The notable center of disturbance for the whole market was Amalgamated Copper. Its decline was shared in by copper securities all over the world, and a violent slump in the price of the metal in London gave color to the suspicion that the metal market was under manipulation for a rise to assist in the speculation in copper securities. Rio Tinto was sold in Paris and London on an enormous scale. The extreme decline in Amalgamated reached 4 1/2¢ and its rally on short covering left it still 3 1/2¢ lower on the day.

Riock Island was under severe pressure all day and professional bears were confident in the supposition that large accumulations in the stock were in a vulnerable position. Heavy selling of Union Pacific and its lack of support caused a bad impression. The same was true of the abandonment of St. Paul and Pennsylvania to the vicissitudes of the market.

Rumors of a freight handlers' strike were given as the reason for some of the troops at the very end. Other depressing factors were authoritative denials of reported conferences looking to the adjustment of the Pennsylvania railroad and Gould dispute, the obstacles in the way of the organization of the anthracite coal condition, heard, a reduction in the amount of Bessemer pig iron said to have been purchased by the United States Steel corporation from yesterday's report and the bad effect produced by the United States Shipbuilding reorganization.

The very strong tone of foreign exchange also gave an intimation that further exports of gold are likely. Call money remained very easy. The banks are apparently gaining on the interior movement to offset the export of gold. The rates of time money were appreciably firmer today.

The rather favorable reports of net earnings were entirely ignored. Closing quotations are reported by Paine, Webber & Co. as follows:

Wabash, 3 1/2; Mo Pacific, 10 1/4; N. Y. Central, 12 1/4; U. S. O., 3 1/4; N. Y. Ry., 2 1/2; Southern Pac., 3 1/4; Alton, 3 1/4; Metropolitan, 1 1/4; St. Paul, 1 1/4; Mex. Cen., 3 1/4; C. & N. W., 2 1/4; Penn. Ry., 1 1/4; Canadian Pac., 1 1/4; L. & N., 1 1/4; U. S. W., 2 1/4; C. & P., 2 1/4; Illinois Central, 1 1/4; Republic Steel, 1 1/4; Leather, 1 1/4; Erie, 1 1/4; Steel, 1 1/4; P. & N. E., 1 1/4; M. & T., 1 1/4; People's Gas, 1 1/4; Western Union, 1 1/4; Atchafalaya, 1 1/4; Nor. Pac., 1 1/4; Mex. Nat'l, 1 1/4; Snelter, 1 1/4; Union Pac., 8 1/4; Wis. Cent., 4 1/4.

"A newspaper contributor was lately admitted into the extensive suite of offices which constitute the headquarters of Dr. Hartman, who treats catarrh patients by the thousand. Among the busy swarm of assistant doctors, clerks, stenographers and bookkeepers, Dr. Hartman stopped long enough to say a few words.

"A large number of female patients visit me every year, but the number who are entered on my books as regular patients and are treated by correspondence is very much larger. Hundreds of letters are received and answered free every day. A yet greater multitude take my catarrh remedy, Peruna, and are cured, of whom I never hear. Some of this latter class write me years after their cure.

"I never allow a name published except by the written consent of the patient. We make no charge at any

THE TRIUMPHS OF PE-RU-NA INCREASE.

Nervous Depression.

Summer months are peculiarly the months of nervous diseases, especially nervous prostration and other depressed states of the nervous system. People who are not at all inclined to be nervous or suffer from weak nerves find this time especially trying. Sultry heat and electrical disturbances of the atmosphere are probably the cause of this.

Invalids need to be particularly careful to fortify the nervous system by the use of Peruna.

Miss Helen Roloff, Kankakee, Wis., writes:—"Several times during the past two years or more my system has been greatly in need of a tonic, and at those times Peruna has been of great help in building up the system, restoring my appetite and securing restful sleep. I know a great number of women who are using it for the troubles peculiar to the sex, and with the best results."

Miss Helen Roloff, Kankakee, Wis., writes:—"Several times during the past two years or more my system has been greatly in need of a tonic, and at those times Peruna has been of great help in building up the system, restoring my appetite and securing restful sleep. I know a great number of women who are using it for the troubles peculiar to the sex, and with the best results."

Miss Louise Bertsel, 191 Second street, Brooklyn, N. Y., writes:—"My health was excellent until about six months ago, when I seemed to have a collapse from overdoing socially, and the doctor ordered an entire change of scene and climate. As this was an absolute impossibility at the time, I had to try and regain my health in another way and was induced by a friend, who gave Peruna such a good recommendation to try Peruna. I can not tell you the condition of my nerves when I began to use it. The least noise irritated me, and I felt that life was not worth living, but Peruna soon changed me into a well woman, and now I do not know I have nerves."

"A newspaper contributor was lately admitted into the extensive suite of offices which constitute the headquarters of Dr. Hartman, who treats catarrh patients by the thousand. Among the busy swarm of assistant doctors, clerks, stenographers and bookkeepers, Dr. Hartman stopped long enough to say a few words.

"A large number of female patients visit me every year, but the number who are entered on my books as regular patients and are treated by correspondence is very much larger. Hundreds of letters are received and answered free every day. A yet greater multitude take my catarrh remedy, Peruna, and are cured, of whom I never hear. Some of this latter class write me years after their cure.

time. The medicine only is obtained by each patient at her own drug store.

Those desiring to become regular patients have only to send address, duration of disease and treatment previously received, and directions for the first month's treatment will be sent at once.

Over half the women have catarrh in some form or another. And yet, probably not a tenth of the women know that their disease is catarrh. To distinguish catarrh of various organs it has been named very differently.

One woman has dyspepsia, another bronchitis, another Bright's disease, another liver complaint, another consumption, another female complaint. These women would be very much surprised to hear that they are all suffering with chronic catarrh. But it is so, nevertheless.

Each one of these troubles and a great many more are simply catarrh—that is, chronic inflammation of the mucous lining, of which organ is affected. Any internal remedy that will cure catarrh in one location will cure it in any other location. This is why Peruna has become so justly famous in the cure of female diseases. It cures catarrh wherever located. It cures remittent. Peruna does not palliate—it cures.

Piano Tuning

RECOMMENDATIONS FOR THE CARE AND PRESERVATION OF THE PIANO. ADOPTED BY THE NATIONAL PIANO MANUFACTURERS' ASSOCIATION OF AMERICA. BEAR IN MIND that a Piano is more than a piece of furniture in its mechanism, and delicate in its case, and often receives greater injury through lack of care than from excessive use. TUNING: A Piano should be tuned at regular intervals, preferably after the beginning of each season. It becomes out of tune as much by change of temperature as by use. Too much stress cannot be placed upon the necessity of regular and expert tuning.

DAVID KIRKPATRICK KILLED. Conductor on the Northwestern Meets Death Under the Wheels.

David Kirkpatrick, the conductor of a Northwestern freight train, well known here, was killed yesterday near Cedar siding tank on Schlesinger's siding. When last seen alive Kirkpatrick was walking on top of the train. It is supposed that he fell beneath two cars, going down beneath the wheels. His body, badly mangled and cut, was found by a crew of section men soon after the train passed. The trainmen did not miss the conductor until after they were thirty miles beyond the siding. They searched through the train, and failing to find him backed the cars to the scene of the accident. Death had apparently been instant. Kirkpatrick was in charge of a gravel train at this end of the division all last summer and made his headquarters here.

MEMORINEE IS CONFIDENT.

Six athletes representing the Menominee high school will leave Friday noon for Ishpeming, where they will compete in the annual track and field meet of the Upper Peninsula Interscholastic Athletic association, of which the Menominee high school is a member, says the Menominee Herald. These six athletes are the pick of all in the high school and have been consistently and steadily training all spring. Since the Marinette meet, particularly, has the work been severe, until now every one is in a physical condition which will enable him to do his best.

The six men who will go are Captain Leonard, Brooks, Mattson, Dunning, Livingston and Smith. Their work during the past few weeks has been especially satisfactory and should their showing in the meet come up to what their practice promises, Menominee will have the handsome cup which Congressman Young has donated to the winners. Mattson is said to have thrown the twelve-pound hammer 125 feet in practice, and the four runners who will enter the one-mile relay race have all been running the quarters well under sixty seconds. Leonard, Menominee's captain and star long distance runner, was caught at fifty-five seconds, remarkably good time. If he can duplicate this performance, he will undoubtedly win the quarter-mile run. Leonard and Brooks are the only members of last year's team who remain this year, but the other members are all consistent performers who have fully demonstrated their ability to be in the class with the best high school athletes. The Menominee students place great faith in the ability of the team to win the meet for the third consecutive time.

OPEN AIR CONCERT.

The city band will give an open air concert tomorrow night, beginning at 7 o'clock. The place has not yet been definitely decided upon. It has been customary in previous years to hold the concerts from the veranda of the Nelson House, but on account of repairs that are now being made on the foundation of this structure it will probably be necessary to secure another place. A stand will either be erected near the Lake Superior office, or the concert will be given near the fountain. A definite announcement will be made tomorrow.

The band is planning to give a series of open air concerts through the summer, one every two weeks on Saturday night. It was the intention to begin the series earlier in the month, but the unfavorable weather and other factors have interfered to prevent the plan from being carried out. Several additions will probably be made to the band during the summer, so that the instrumental music will be greatly improved. The leader is negotiating with two clarinet players from other towns and hopes to secure both of them. The organization is now in a flourishing condition. It is composed of experienced musicians who have been associated for a long time. Meetings are held regularly for practice and a high standard of proficiency is maintained.

HEAD WAS HURT.

Yesterday afternoon John Marinelli and Edwin Liddin were the center of interest in Justice Andrews' court. John came with his head bandaged up and the marks of a sharp weapon were very evident on his person. Through an interpreter he related to the court that Liddin was the sole cause of his battered appearance. The two men work at the Barnum. While they were in the dry they became involved in a mix-up, in which the complainant fared badly. He claims that Marinelli assaulted him, and, after searching his clothes to find a knife, picked up a large piece of rock and hit him in the head, inflicting a serious wound. A number of important witnesses could not be secured yesterday, so the case was adjourned till Monday morning at 9 o'clock. The defendant was placed under bonds. Prosecuting Attorney Bell and T. F. Nolan will have the case in charge. Liddin will probably be held on the charge of assault with attempt to do great bodily harm. This is the first case of the kind that has come before the municipal court. A number of the friends of the interested parties were on hand to witness the trial.

HERE FROM MICHIPICOTEN.

Richard Quayle is here on a visit from Michipicoten, where he has charge of a store at the Helen mine, one of the Clergue properties. Mr. Quayle says that the policy of the Consolidated Lake Superior company has been greatly changed since the new management has assumed control. Expenditures have been cut down to a much lower figure and there has been a ruthless removal of officials holding easy jobs and drawing big salaries. It is estimated that only \$20,000 was saved in this manner alone during the first month that the new management has been in authority. It is said to be the determination of Mr. Shields to put every one of the manifold industries of the great company on a paying basis and not to branch out on any new lines till there is ample assurance that they will very soon be able to support themselves. Mr. Quayle says that the new policy of retrenchment has reassured the people who are interested in the great enterprises and they are more confident than ever in their ultimate success.

MARRIED WEDNESDAY.

Charles Anderson and Miss Hannah Bengson were married Wednesday evening at the Swedish Lutheran church, Rev. E. V. Isaacsott, the pastor, performing the ceremony. The bride was dressed in white silk, trimmed with organdie, and carried a bouquet of roses. She was attended by the Misses Isaacson, Leland, Bjork and Hannah Peterson. Miss Nylander was maid of honor. She wore a pink dress covered with white organdie. Oliver Rye and Charles Sandberg assisted the groom. After the ceremony a bridal supper was served at the Rye's residence, following which there was a reception at the home of the bride, corner of Ridge and Fifth streets.

The following testimonial was received from Mr. John W. Young, an old soldier and highly respected citizen of Lincoln, Ill., who says, "I had a severe cold and cough and I decided to get some kind of medicine. I purchased a bottle of Hart's Honey and Horehound, and am pleased to say I am now well. I advise anyone suffering from throat or lung affections to use this valuable remedy. I cannot recommend it too highly." Sold by People's Drug Store.

We have many desirable pieces of furniture, rug, carpet or household article in our stock. Our discount sale continues a few days longer. Swanson, Warnberg & Co.

We are selling sixteen-inch pine slabs at \$3.00 per load. Consolidated Fuel & Lumber Co. (11-24-1f)

DR. FENNER'S KIDNEY and Backache CURE

All diseases of Kidneys, Bladder, Urinary Organs, Also Rheumatism, Backache, Heart Disease, Gravel, Dropsy, Female Troubles. Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a life time curing just such cases as yours. All consultations Free. "Eight months in bed, heavy backache, pain and soreness across kidneys, also rheumatism. Other remedies failed. Dr. Fenner's Kidney and Backache Cure cured me completely." H. WATERS, Hamlet, N. Y. Druggists, Sec. 81. Ask for Cook Book—Free. ST. VITUS' DANCE Cure, Circular, Dr. Fenner, Fredonia, N.Y.

ISHPEMING IN BRIEF.

John B. Tibor was in town yesterday. Mrs. Peter Lafrenier of Iron Mountain is here visiting relatives and friends.

The funeral of Jean Muck, whose death was announced yesterday, will take place Sunday at 2 o'clock from the family residence.

Nels Robbins arrived home from Chicago yesterday morning. He received his diploma from the College of Physicians and Surgeons in that city on Wednesday.

Fred Eggan, Peter Aronson and Thomas Setzer were mentioned yesterday as being delegates to a convention of Swedish home societies. It is a convention of Scandinavian societies that they are to attend.

The flag pole is receiving a new coat of paint. The upper section has been lowered alongside of the lower portion so that the whole can be reached easily from ladders. Trembath Brothers have the job.

Work on the excavation and the foundation of the Braastad block has been much delayed during the past few days on account of the unfavorable weather, but it is expected the excavation will be all completed within a week.

The advertising car of Sells Bros.-Forepaugh circus was here yesterday and every available bill board is decorated with big posters telling of the wonders of the big show. Another car will be along in two weeks, distributing other advertising matter. A third one will be here a week ahead of the circus.

TOO GREAT A RISK.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be produced or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by Stafford Drug Co.

Our closing out sale is a hummer. We continue it for a few days longer. Swanson, Warnberg & Co.

PAINTING AND PAPER HANGING. W. J. Goldsworthy, 310 High street, painter and paper hanger. Large assortment of wall paper and paint on hand. First-class work guaranteed. A call solicited. (5-4-1m)

TRAVELING IS DANGEROUS. Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. H. Hansen, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Sold by People's Drug Store.

Confide in a Woman

Women may write about their ills to Mrs. Pinkham, and avoid the questioning of a male physician. They can tell their story without reservation to her; she never breaks a confidence, and her advice is the best in the world.

The questions asked of a woman by a male physician are embarrassing, and often revolting to a sensitive nature. In consequence the whole truth is not told; this makes it difficult for female troubles to be successfully treated even by the best physicians, and is the reason so many women grow worse rather than better. A woman understands a woman better than a man, — there are symptoms which sick women have that a man cannot understand, simply because he is a man, but the whole truth may be told to Mrs. Pinkham, and her vast experience enables her to give advice which leads to a cure.

All women who suffer should secure Mrs. Pinkham's advice; it costs nothing but a letter addressed to her at Lynn, Mass. Female troubles are real troubles, and must be treated understandingly. For a quarter of a century Mrs. Pinkham's advice and Lydia E. Pinkham's Vegetable Compound have been helping women to get strong and well, and her great file of letters prove that more than a million women have been restored to health and strength by her advice and her medicine when all other means have failed.

When you go to a druggist for Lydia E. Pinkham's Vegetable Compound, do not let him persuade you to try something which he says is just as good; there is nothing just as good, because Mrs. Pinkham's medicine holds the record for the largest number of cures of any female medicine in the world.

INTERESTING EXPERIMENT.

Cleveland-Cliffs Company Will Utilize Its Pasture Lands to Fatten Cattle.

Last week two car loads of cattle, consisting of about fifty head of two-year-old steers, arrived at the Bellevue farm direct from Chicago and were turned out to pasture. The cattle will be kept here all summer and will be returned to Chicago on the approach of cold weather in the fall. It is thought that by that time they will be in proper condition to be taken to the stock yards and transformed into beef. The cattle have been brought here as an experiment, and it is found that they can be kept for the summer at a sufficient profit many more will probably be shipped in next year. Much depends on the successful result of the experiment, for there are hundreds of thousands of acres of land, now practically worthless, which could furnish good pasturage for large herds.

BAD FOR FARMERS.

The extremely wet weather that has prevailed all through the month gives farmers a cheerless prospect of ruined crops and scant harvests. Many have delayed the usual sowing and planting, waiting in vain for the rain to cease and the ground to dry up sufficiently to allow them to continue work in their fields. Others, with more confidence in the rickety weather, who have already finished up their sowing are preparing to do the work over again, the continued rain and lack of sunshine having destroyed much of the seed. All farm work is practically at a standstill, even on the elevated ground, while on the reclaimed land and lower places the ground is badly soaked. Many are making gloomy predictions in regard to the potato crop, saying that it will be a complete failure if the ground does not dry up very soon. The season is so much delayed that the crop will not mature until late in the fall. Potatoes are the farmers' staple product and it would be a serious loss to have the crop ruined.

Not only the farmers are disconsolate on account of the weather. The masons and carpenters are feeling blue as well. Their work has been interrupted all through the month, they not being able to keep at outside work for more than two or three days in succession. Men working on the surface at the mines have also been greatly inconvenienced.

Mr. C. L. Hizer, of Lincoln, Ill., says: "I have been a sufferer from constipation for the past twelve years, with severe gripping pains in my bowels nearly every day. Since I began taking Re-Go Tonic Laxative Syrup my bowels have moved freely without gripping. It is certainly a wonderful laxative." Sold by People's Drug Store.

LOCAL LAONICS.

H. C. Kaskie, traveling agent of the New York Central & Hudson River railway, was here yesterday.

Alf Dyer has resigned his position as surface boss at the Breitung mines. He has been succeeded by John Lentz.

Fred Kochs sustained a serious fracture of his leg Tuesday night, while engaged in a friendly wrestling bout with another man.

The Negauneeonian, the high school annual, will soon be ready for distribution. The magazine will be one of the most attractive ever issued by the school.

The local Marcebes will march in the procession to the cemetery tomorrow afternoon, to assist in the ceremonies there and to decorate the graves of deceased members of the lodge.

The firemen are requested to meet tomorrow afternoon, promptly at 1 o'clock, at the department headquarters prepared to take part in the Memorial Day exercises. The procession will form at 1:30 o'clock.

Nothing has yet been done toward starting the improvements on the gas plant, provided for in the franchise recently granted to the company. However, ample time remains and it is said that the work will soon be taken up.

James Hodge arrived here from Naskaunuk, Minn., Wednesday, leaving for there yesterday again. He assisted in moving other members of his family who also left for Naskaunuk yesterday. Mrs. William Mudge and family accompanied them.

The funeral of Thomas Turi, who died Monday as a result of injuries received in a runaway accident, was held yesterday afternoon from the Finnish Lutheran church. The Finnish Marcebes, of which the deceased was a member, attended in a body.

The high school field day at Union Park will doubtless attract many from here, if the weather is favorable. The continuous rain has left the track in rather poor condition, but it will be all right for the contests if there are no more showers. Several from the local school will enter in a few of the events.

IRON NOTES.

The LaBelle Iron works of Ohio that last week closed the purchase of an exploration on the eastern Mesaba, has already begun sinking a shaft and will mine ore there this year.

The Buffalo & Susquehanna Iron Co., which is opening two mines on the central Mesaba and one on an older range, is to explore the Backeye mine on the extreme western Mesaba and hopes to find a property that can be made available if the ore is washed free of sand.

Explorations on the Mesaba range are active as the number of drills will permit. The larger companies are now doing an immense amount of work on their own lands, some of them lands that have been known to contain ore, but in what quantity and of what grade has not been thoroughly determined. It is said now that the Northern Pacific road, which owns lands of probable great value, will explore for ore during the present year.

Interests connected with President J. J. Hill of the Great Northern road, are opening the Leonard mine on his lands near Hibbing. It was expected that shipments would begin very soon and continue through this season, but it is now found impossible to get any ore out of the mine. The mine will have a thickness of stripping, that is, of removal of the earth over ore, of about seventy feet, and this is such an enormous job that it cannot be completed to reach the ore at any time this summer. There has been at this mine a stripping contract for the removal of 3,000,000 cubic yards of earth, boulders, and other overburden.

The Bishop Iron company, which is a sub-company of the United States Steel Corporation, has commenced explorations on the part of the famous section 30, Vermilion range, that it owns in fee and under lease. It has one diamond drill on the land and is to put on more in the near future. This work is being done close to that of Section 30 company, which is owned by a large independent steel-making corporation. Shipments from the Vermilion range are now very heavy, and will be at least ten per cent more than in any preceding year. The range is sure to increase regularly for a number of years, especially as its ore are of the highest grades and in considerable quantity. The United States Steel Corporation is now spending there more money than in any other district of similar area, in sinking shafts and making underground preparations for an immense output cheaply mined. Four immense shafts, some of them steel lined at the bottom, all very deep and all to be surmounted with head frames from 150 to 170 feet high, are going in there in the space of little more than a mile and a quarter.

Does it pay to buy cheap? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in the severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. You can get this reliable remedy at the Stafford Drug Store, Price 25c. and 75c.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Sold by People's Drug Store.

IN HONOR OF DEAD

DECORATION DAY WILL BE OBSERVED AS USUAL TOMORROW.

EXERCISES AT THE OPERA HOUSE

JUDGE J. W. STONE WILL DELIVER PRINCIPAL ADDRESS.

Negance Band Will Be Down to Furnish the Music—Public Is Invited and Urged to Take Part in the Program.

Decorations Day will be observed in the usual manner this year under the direction of Albert Jackson post, G. A. R. Arrangements for the observance are now about complete, having been looked after by Captain Kruger. The exercises will be participated in by the members of the Marquette post, the Marquette Light Infantry, which will escort the veterans, the volunteers of the Spanish war, and the public generally, to which a cordial invitation to take part in the observance is extended.

Judge J. W. Stone has been invited to deliver the address at the exercises in the opera house, and has accepted. He will speak on some appropriate theme, and the fact that he is to be heard will doubtless bring a large assemblage to the theater.

The members of the G. A. R., the Light Infantry and the Spanish war veterans will assemble in front of the opera house at 9 o'clock tomorrow morning, when the line of march will be formed. The Negance band has been engaged to furnish the music and it will lead the procession, which will move up Front street to the Ridge street school buildings on the Arch street side, where the school children will fall in. The procession will then move down Arch to Spruce street, south on Spruce to Ridge, west on Ridge to Third and south on Third to Washington, thence to the opera house, where the exercises will proceed shortly after 10 o'clock.

Captain C. D. Blanchard is expected to preside. The following program has been arranged:

- Music.....
- By the Band.....
- Prayer.....
- Reading of the General Order.....
- Adjutant Addison Cole.....
- Solo—"The Old Guard".....
- Miss Linton.....
- Memorial exercise; salute the dead.....
- Albert Jackson Post.....
- Duet—"Oh Stern, Old Land".....
- Miss Linton and Mr. Tucker.....
- Address.....
- Hon. J. W. Stone.....
- Singing—"America".....
- Audience.....
- Benediction.....
- Music.....

Decorations Day is a legal holiday, and it has been usual here to generally suspend business so that everyone can participate in the memorial exercises. It is expected that this custom will be observed tomorrow, and it is likely that all the business places will be closed.

The veterans wear a general attendance at the opera house and they hope that there will be a large representation of the school children, as in the past this has been one of the most pleasing features of the programs.

On the conclusion of the exercises, parties will be sent to the three cemeteries to fittingly decorate the graves of the veterans who have passed away. For this purpose contributions of flowers will be welcomed.

STORES TO CLOSE SATURDAY.

Most Merchants to Shut Up Shop at Ten for the Day.

Saturday being a legal holiday—Decorations Day—the merchants of the city desire to close their places of business at least a part of the day. A large majority of them favor closing at 10 o'clock, at which hour the G. A. R. exercises are to begin, and remain closed for the balance of the day. This arrangement will be general and probably all will adopt it.

In order that those who may find it more convenient to shop in the evening in preparation for Decorations Day and do so, the stores will be open Friday evening.

Mayor Green calls attention to the fact that tomorrow is a legal holiday, and that all business should be suspended. He desires that the stores generally be closed.

MISS THAYER IS COMING.

She Will Have Charge of the Domestic Science Work Here.

Miss Thayer has accepted the position recently offered her by the school trustees, and she will come to Marquette to assume charge of the domestic science work in the new manual training school. Miss Thayer has been two years in Jamestown, where she has been working under George M. Brace, who has accepted the directorship of Marquette's proposed new department. She is highly recommended by Mr. Brace, and the school officers feel that they are fortunate in getting for their manual training school two people who have already been associated in the work. Miss Thayer is a graduate of the University of Chicago and she later did work at the Lewis Institute.

I paid out over \$200, writes Mrs. S. P. Jones, Atlanta, for medicine but nothing did me any good until I used Rocky Mountain Tea. Made me entirely well. Stafford Drug Co.

Water rates are now due and payable at the office of the city treasurer. A discount of 10 per cent is allowed if paid on or before June 1st. After June 1st the full amount will be demanded. (5-26-1w)

Peacock Hams and Bacon are unexcelled. (3-23-3m-o)

THE STRENUOUS LIFE.

Officer Higgins Was Given a Taste of It Yesterday.

Officer Higgins tasted of the strenuous life yesterday, and it all happened while he was off duty. He shared the center of the stage with a young man who is now in the cooler awaiting trial today. In the course of their engagement both the officers and his opponent bit the dust and the latter enjoyed a little gun play with an empty revolver. All these things occurred shortly before noon yesterday, and they furnished several minutes' diversion to the bystanders down town.

The trouble dates back several days to a time when Officer Higgins, who has one of the mightiest, told the youth to "move on," thereby stirring up the worthy's ire. In the interval he has been "laying" for the copper. Yesterday morning he wasn't feeling very well. Report has it that he hadn't gone to bed the previous night, and, anyway, he was pretty well earned in bad whisky. Mr. Higgins, who was down town on business, dropped into Joe Mack's place with a couple of friends. Thither he was followed by his enemy, who invited trouble with the result that he was shortly laid out by a stalwart punch from the officer's fist. He cried quits and took a hasty departure. A few minutes brought him back, however, and he produced a gun, which he pointed at Higgins. He didn't respond to an invitation to shoot, however, it later appearing the weapon was not loaded, and he was shortly disarmed, making his escape with Higgins in pursuit, bent upon making an arrest.

The fellow shed his coat on Front street, and made away with great speed. Higgins saw that pursuit was useless and contented himself with picking up the garment. The runner pulled up and returned for his coat. He acted peaceable enough and the unsuspecting officer allowed him to get within range, thinking to seize his arm. There was a hearty "thump," and Higgins' punch had been revenged, for the copper was bowled over by a blow straight to the nose, followed by another love tap on the cheek. In the meantime Officer Foubert had appeared on the scene and between them they dragged the belligerent off to the lockup. The incident created no little excitement, as people did not know what was afoot.

Officer Higgins was about as usual last night, looking somewhat the worse for wear. He says that it is going to push the complaint against his assailant for all it is worth. The prisoner does not bear any too good a reputation among the police officers, and they hope he will be taught a lesson. He is said to be an overly fresh and constitutionally useless young man.

SOO CANAL PASSAGES.

List of the Boats Locked Through on the Up-Bound Trip.

Sault Ste. Marie, Mich., May 28.—Up: Fay; Cobb, 10 last night; Harvard, Naamylth, 12; Lagonda, 12:20 a. m.; Corona, 1:30; Kalkaska, Oak Leaf, 2; Robt. L. Fryer, Buffalo, Edenborn, Maida, 3; Bunsen, 4:30; Ogley, Centurion, 10; Mathers, 10:40; Elwood, 12 noon; Wells, 12:30 p. m.; Troy, 2; Rensselaer, 3:20; Nike, Peterson, 4; French, Oliver, 5:20; Morse, Madeira, 7:40; James Hoyt, 8.

Steamer Japan in Collision.

With the arrival at Duluth Wednesday of the Anchor line steamer Japan it became known that two big lake steamers collided in a fog off Two Harbors Tuesday night. Were it not that both vessels were under check because of the bad weather it is probable both would have gone down. The vessel figuring in the accident were the Japan and the Admiral. As related by men from the Japan, she was feeling her way slowly toward Duluth. Fog whistles were sounded frequently. Suddenly out of the mists ahead of the liner loomed the steel prow of the Admiral. An instant later the ships struck.

WILL PLAY TENNIS.

Marquette Club Is to Organize for the Season of '03.

The Marquette Tennis club is being organized for the season of '03, and it looks as if there would be a goodly membership. The courts are now being put in condition and it is expected that the first games will be played next week. Persons wishing to join the club should hand their names to Dr. E. L. Drake or Dr. W. H. Van Iderstine. A meeting for the election of officers will be held the coming week, the date to be announced later. The club was reorganized last year, after the game had languished for a year or two, and the sport was followed enthusiastically all through the season.

KNOW THE COMFORT OF GAS.

For cooking by ordering a range. We only ask \$2.00 down, then \$1.00 each month until it is paid for. Ranges \$13.50, \$15.00 and \$18.00. The Marquette Gas Light Co.

Only \$2.00 places one in your kitchen. All connections free. The Marquette Gas Light Co.

FIRE WOOD.

Good dry hardwood, block or split. Dry pine slabs; dry hemlock slabs—any length required. F. W. Read & Co., Marquette. (12-19-1f)

NOTICE TO CONTRACTORS.

Sealed proposals for the erection of a library building in the city of Marquette, Mich., will be received at the office of the secretary until one o'clock p. m. upon the 10th day of June, 1903. Each bid must be accompanied by a certified check payable to the undersigned for two per cent of the amount of same. Plans and specifications may be seen at the office of the architects, Patton & Miller, 133 La Salle street, Chicago, Ill., or at the office of the secretary in Marquette, Mich. The library board reserves the right to reject any or all bids.

A. E. DELF, Secretary Peter White Public Library, Marquette, Mich. (5-29-6-14)

ALUMNI MEETING.

This evening there will be a meeting of the Marquette high school Alumni association, and it is desired that there be a full attendance of all members, as considerable business is to be discussed. The meeting will occur at 7:45 o'clock at the high school assembly room.

CITY BREVITIES.

Today's weather: Partly cloudy with showers and probably squalls. Easterly winds.

Yesterday's temperature: 7 a. m., 59 degrees; noon, 49 degrees; 7 p. m., 43 degrees. Maximum, 59 degrees; minimum, 45 degrees.

T. J. Dundon of Ishpeming was down yesterday.

June 18 has been selected by the clerks as the date of their social hop to be given at Fraternity Hall.

The freighter Rochester was in this port yesterday with 4,000 bags of Atlas cement for F. B. Spear & Sons.

The postoffice will observe Sunday hours on Saturday—Decorations Day. It will be open only during 12 and 12:30 p. m.

C. J. Hanck has changed his residence to 123 E. Michigan street, where all Superior tent assessments are now payable.

The Ladies Missionary society of the Presbyterian church will meet in the church parlors this afternoon at 3 o'clock.

The Marquette Light Infantry will meet at the Casino at 8:30 o'clock Saturday morning in preparation for the Memorial Day exercises.

The Young Woman's guild of St. Paul's church will meet this afternoon at 2 o'clock with Mrs. S. S. Ormsbee. Plain sewing will be the order.

The city officers and members of the common council have been invited to participate in the Memorial day services, and have accepted the invitation.

Members of the A. O. U. W., the Odd Fellows and the Esquimaux lodge attended the funeral of J. H. Webb yesterday afternoon, the turnout being large.

All members of C. Y. Osburn camp, No. 13, N. L. V. S., are requested to meet at their hall Saturday morning at 9:30 sharp to take part in the Decorations Day parade.

Joseph Hooper of Ishpeming, secretary of the board of barbers' examiners, was in Marquette yesterday on official business. He called on a number of the Marquette barbers.

Four head of Holstein cattle were started on their trip overland to J. M. Longyear's Ives Lake farm yesterday. The cattle had just been brought up from Chicago.

People wanting books from the Peter White library for Sunday reading should get them today, as the library will be closed tomorrow, on account of its being a legal holiday.

Jack Larson, who pleaded guilty to assault and battery at the opening of the present term of circuit court, was sentenced to spend sixty days in the county jail and in addition to pay costs amounting to \$40.

The grading of the high school premises is about finished, and they present a greatly improved appearance. The grounds are to be seeded and when the grass is grown the new school buildings will show up better than ever before.

One of the changes in the plans for the new court house authorized by the building committee Wednesday is the substitution of granite for sandstone pillars in the main entrance. This change will greatly improve the appearance of this entrance.

People who did not inspect the Tionesta yesterday and who wish to do so on the occasion of some of her regular visits to this port will have to go through the formality of getting permits from the local agents. The steamer will not be open to the public, as the crowds that would swarm her if this was the case would seriously embarrass work and the progress of embarking and disembarking passengers.

The public steps at the rear and on the east side of the Merritt property on Ridge street, leading from Ridge street to Lake, are in a filthy and dilapidated condition, which has caused many people in that part of the town who have occasion to use them to get the M. & S. E. depot on Lake street to complain. If the steps were in good condition they would be used by many people, and there is a demand that they be fixed up.

The Mining Journal has heard numerous complaints of the effrontery of boys and girls who raid gardens in the residence districts. Some of them are so bold that they do not hesitate to take flowers in broad daylight, and to carry them off as if they had a perfect right to them. Tulips have suffered especially, and a number of people have had their gardens entirely spoiled. The youngsters had better be careful or they will get into serious trouble. It is said that some of them are encouraged by their parents to commit the thefts. Their elders should certainly know better.

The South Shore is announcing its annual spring excursions to Detroit and Buffalo, via the D. & C. boats from St. Ignace. They will occur this year on June 17 and 18 and exceedingly reasonable rates will be in vogue. From Marquette to Detroit and return the fare will be \$6.50 for the round trip; from Marquette to Buffalo and return \$8.50 for the round trip. Tickets will be good on the return trip for the steamer leaving Buffalo July 7 and leaving Detroit July 8. The patronage of these Detroit and Buffalo excursions is always large, and the first one this spring will be no exception.

CARD OF THANKS.

We desire to thank our numerous friends for the kindness and sympathy shown in various ways during our late bereavement. Especially do we wish to express our thanks for the many floral offerings received.

MRS. E. A. JILBERT and FAMILY.

Stafford Drug Co. sells Ryckman's Old Brocton Port Wine and G. W. Blake's Grape Juice. (4-9-3m)

BLOOD HUMOURS

Skin Humours, Scalp Humours, Hair Humours,

Whether Simple Scrofulous or Hereditary

Speedily Cured by Cuticura Soap, Ointment and Pills,

When All Other Remedies and Best Physicians Fail.

COMPLETE TREATMENT, \$1.00.

In the treatment of torturing, disfiguring, itching, scaly, crusty, pimply, blotchy and scrofulous humours of the skin, scalp and blood, with loss of hair, Cuticura Soap, Ointment and Pills have been wonderfully successful. Even the most obstinate of constitutional humours, such as eczema and scrofula, inherited and contagious humours, with loss of hair, glandular swellings, ulcerous patches in the throat and month, sore eyes, copper-colored blotches, as well as boils, carbuncles, scurvy, sties, ulcers and sores arising from an impure or impoverished condition of the blood, yield to the Cuticura Treatment when all other remedies and methods fail.

And greater still, if possible, is the wonderful record of cures of torturing, disfiguring humours among infants and children. The suffering which Cuticura Soap and Ointment have alleviated among the young, and the comfort they have afforded worn-out and worried parents, have led to their adoption in countless homes as priceless cures for the skin and blood. Infantile and birth humours, milk crust, scall head, eczema and every form of itching, scaly, pimply skin and scalp humours, with loss of hair, of infancy and childhood, are speedily, permanently and economically cured when all other remedies suitable for children, and even the best physicians, fail.
