GOLF CHAMPION MARRIES.

Bessie Anthony the Bride of Bernard S. Horne of Pittsburg. Chicago, Nov. 3.—Miss Bessie Anthony, the golf champion, was married tonight at Evanston to Bernard Shea Horne of Pittsburg. The ceremony, which was held in the First Presbyterian church, was attended by over 1,500 invited guests. The bride has been widely known for a number of years as an expert golfer, won both the Western and national woman's golf championships this year.

WAR CONSIDERED REMOTE.

Conviction at St. Petersburg Is That the Crisis Is Past. St. Petersburg, Nov. 3.—The optimistic feeling of the Russo-Japanese situation which has continuously prevailed here has now become a distinct conviction that the crisis is past and a rupture is now regarded as extremely remote. The negotiations at Tokyo are proceeding without a hitch towards adjustment.

OUTBREAK ON THE ISTHMUS

PEOPLE OF PANAMA IN ARMS AGAINST THE GOVERNMENT OF COLOMBIA.

INDEPENDENCE IS PROCLAIMED

REJECTION OF TREATY BELIEVED TO HAVE CAUSED REVOLT.

News of the Revolution Creates a Stir at Washington and Orders Go to Warships to Proceed to the Disturbed Section.

Panama, Colombia, Sept. 3.—The independence of the isthmus was proclaimed at 6 o'clock p. m. today.

A large and enthusiastic crowd of all political parties assembled and marched to the headquarters of the government troops, where Generals Tovar and Amaya, who arrived this morning, were imprisoned in the name of the "republic of Panama." The enthusiasm was immense and at least three thousand of the men in the gathering were armed.

The battalion of Colombian troops at Panama favors the movement, which is also thought to meet with the approval of the officers at least two of the government transports now here.

Washington, Nov. 3.—The following telegram was received tonight by the state department from the United States consul at Panama: "An uprising took place at Panama tonight. Independence was proclaimed. The Colombian army and navy officials were made prisoners. A government is to be organized, consisting of three consuls and a cabinet. It is rumored at Panama that a similar uprising was to take place at Colon."

Later the following official statement was made regarding the news from Panama: "A number of confused and conflicting dispatches have been received from the isthmus, indicating rather serious disturbances at both Panama and Colon. The navy department has dispatched several vessels to these ports with directions to do everything possible to keep travel open and to maintain order along the line of the railroad."

Stirs Up Naval Activity. These sensational advices from the isthmus were not entirely unexpected in view of other advices that had come to the departments here very recently. The presidential contest in 1904.

Charles F. Murphy, leader of Tammany Hall, said: "The figures speak for themselves, and the people have spoken. Of course we are pleased at the result. It bears out the figures we gave. If the election had been a week further off, the chances are that Devory would have polled a larger vote than Low."

Means Much to Murphy. The victory, great as it is for McClellan, is of more significance to Murphy, who made up the Democratic ticket and managed the campaign. Defeat today would have meant for him deposition from his post as leader of Tammany Hall, with all its power and opportunities, and the accession to control of another faction. Indeed, plans had been made by certain independent Democrats, based on a belief that Low would be elected, to reorganize the Democracy of the city with Tammany left out.

To Senator McCarren, also, the result meant much, for had McClellan lost, McLaughlin, who for a quarter of a century has been the undisputed leader in Kings county, would have been again in control and McCarren and his friends would have had little to hope for. The carrying of Brooklyn for McClellan caused astonishment, as it was believed the cry of "No red lights in Brooklyn" would cause an increased vote for Low in that borough.

Aside from the local issues, McClellan's supporters appealed to Democrats to vote for him in view of the important bearing this city's vote would have on the presidential election next year. McClellan also had the support of Bourke Cochran, who returned to political activity and made several speeches. The Tenderloin district tonight is the scene of a noisy revel over the result of the election. It is the most tremendous demonstration the Tenderloin district of the city itself has probably ever seen.

Republicans Gain in Assembly. New York, Nov. 3.—The returns at midnight gave the Republicans a net gain of six in the assembly, with two districts in doubt, thereby increasing the Republican majority in the state assembly.

The proposition to expend \$101,000,000 for enlarging the state canals has a majority of 175,000.

Republicans Win in New Jersey. Trenton, N. J., Wednesday, Nov. 4.—The Republicans of New Jersey have elected four out of six state senators

and enough of the assembly to claim both houses.

GORMAN'S PARTY ON TOP. Democrats Win on State and Legislative Tickets in Maryland. Baltimore, Wednesday, Nov. 4.—At 1 o'clock this morning the returns indicated the election of Edwin Warfield, Democrat, as governor, and that the legislature, which will elect a United States senator, will also be Democratic.

FUSIONISTS LOSE. Election of Judge Barnes, Republican, Conceded in Nebraska. Lincoln, Neb., Nov. 3.—The Republican committee claims the election of the entire state ticket by not less than 10,000 plurality. The first reports were all favorable to the fusionists, but later returns have almost wiped out the early gains.

Omaha, Wednesday, Nov. 4.—The election of John D. Barnes, Republican, for justice of the supreme court, is conceded.

Republican Victory in Colorado. Denver, Colo., Nov. 3.—The indications late tonight favor the election of John Campbell, Republican, for member of the supreme court.

BATES LEADS BY 35,000. Massachusetts Reelects Republican Governor—Democrats Make Gains. Boston, Nov. 3.—With returns complete from every town and city in the state the total vote for governor is: Bates, Republican, 199,393; Gaston, Democrat, 163,544. The legislature practically is unchanged so far as the Democrats and Republicans are concerned, but the Socialist party, which had three members last year, will be represented by only one.

Boston Strongly Democratic. Boston, Nov. 3.—The total vote of the city for governor is: Gaston, Democrat, 47,323; Bates, Republican, 28,394. Last year the city gave Gaston, 45,666; Bates, 32,127.

GREAT TRIUMPH IN OHIO. Republicans Carry the Election by Record-Breaking Plurality. Columbus, O., Nov. 3.—The Republicans of Ohio today broke their record in pluralities for governor by electing Colonel Myron T. Herrick, over Mayor Tom L. Johnson, Democrat, by considerably over one hundred thousand, while the plurality on joint ballot of over one hundred the legislature assured for the re-election of Senator Hanna more than double any previous record.

Senator Foraker had the record-breaking majority of thirty-five on joint ballot for his re-election two years ago, and that for Hanna this year is three times that majority. Senator Hanna succeeded John Sherman in the senate on March 5, 1897, by appointment from Governor Bushnell and when Hanna was elected for the unexpired Sherman term and the full term of six years ending March 5, 1905, he had only one majority after the most bitter contest that was ever waged in an Ohio legislature.

Senator Hanna will now have the distinction of having the largest, as well as the smallest, majority of any senator elected from Ohio.

City of Columbus Republican. Columbus, O., Nov. 3.—Returns from one-third of the precincts indicate that Herrick, Republican, for governor, will have about 3,900 plurality in the city of Columbus and about 2,200 in Franklin county. Two years ago Kilbourne, Democrat, for governor, carried the county by 2,270. The indications are that all of the Republican representatives in the county will be elected. At 9:30 p. m. it was estimated that the Republican plurality would not be less than 125,000 and that it might beat the record of 137,000 in the year of 1894.

Staubenville, O., Nov. 3.—Weems, Republican candidate for congress in the Fourteenth district, is elected by 5,000 majority.

IN PENNSYLVANIA. Plurality Exceeding 200,000 Is Rolled Up by the Republicans. Philadelphia, Nov. 3.—9 p. m.—Returns from counties outside of Philadelphia indicate that the entire Republican ticket will come to Philadelphia with majorities ranging from 50,000 to 75,000.

Philadelphia, Nov. 3.—All the candidates on the Republican city ticket were elected today by the usual large Republican majority.

Philadelphia, Nov. 3.—James E. Roberts, who has been in jail at Edwardsville, was brought here today and pleaded guilty in the United States district court to robbing mail pouches at Springfield Junction on March 12. He was sentenced to two years in Chester penitentiary. James Ryan, alias Walter Hiatt, on whose confession Roberts was implicated, has been sent to Chester for robbing postoffices in McLean and Dewitt counties. Roberts says that A. E. Bell, who was arrested at Denver, Colo., and who confessed to robbing mail pouches at the junction, was not engaged in the robbery in March.

TAMMANY VICTORIOUS

M'Clellan Is Elected Mayor of New York By a Plurality of 70,000 or More.

SENATOR HANNA TRIUMPHS IN OHIO

Legislature Will Be Overwhelmingly Republican.

Democrats Win in Maryland, Kentucky and Rhode Island, While in Nebraska, Massachusetts, Iowa, New Jersey, Colorado and Pennsylvania the Count Goes Against Them.

New York, Nov. 3.—After a remarkable campaign in which there were fought against him nearly all the newspapers and practically every minister of religion in the city, George B. McClellan, son of the Civil War general, was elected third mayor of Greater New York over Seth Low, fusionist, the present mayor, by a plurality of about 70,000.

Edward M. Grout was elected comptroller and Charles V. Fornes president of the board of aldermen. These two men were originally on the fusion ticket and were endorsed by Tammany, whereupon the fusionists took their names from the Low ballots and nominated other candidates.

It was the nomination of Grout and Fornes by Tammany that caused Hugh McLaughlin, the veteran leader of the Kings county Democracy, to bolt and declare he would not support men who were not Democrats. In spite of his defection, however, McClellan, Grout and Fornes carried Kings county. The management of their campaign there was taken over by State Senator Patrick H. McCarren when McLaughlin refused his aid.

The surprise was the low vote for William S. Devery, former chief of police, who ran on an independent ticket which was given practically no support.

Remarkable Change in Sentiment. The result shows the tremendous change of public sentiment since Low's election two years ago, when he won by 31,831. At that time he carried all the boroughs but Queens, his plurality in Manhattan and the Bronx being 5,963, in Brooklyn, 25,767, and in Richmond, 733. Queens, Sheppard, the Democratic candidate, had a plurality of 561.

Today McClellan carried Manhattan and the Bronx by about 58,000, a gain of 63,000; Brooklyn by about 6,000, a gain of 31,000; and Queens by about 5,000, a gain of more than 4,000. This makes a total net gain for McClellan of about 103,000, compared with Sheppard's vote of two years ago. Low carried only one borough—Richmond—and that by about 290 votes.

Colonel McClellan, who is at present a member of congress, made a statement tonight expressing gratitude to the citizens for their confidence in him, reviewing his promises made before election and inviting the corporation of citizens in the advancement of the city's good. He says: "The victory should encourage and unite all Democrats for the presidential contest in 1904."

Charles F. Murphy, leader of Tammany Hall, said: "The figures speak for themselves, and the people have spoken. Of course we are pleased at the result. It bears out the figures we gave. If the election had been a week further off, the chances are that Devory would have polled a larger vote than Low."

The victory, great as it is for McClellan, is of more significance to Murphy, who made up the Democratic ticket and managed the campaign. Defeat today would have meant for him deposition from his post as leader of Tammany Hall, with all its power and opportunities, and the accession to control of another faction. Indeed, plans had been made by certain independent Democrats, based on a belief that Low would be elected, to reorganize the Democracy of the city with Tammany left out.

To Senator McCarren, also, the result meant much, for had McClellan lost, McLaughlin, who for a quarter of a century has been the undisputed leader in Kings county, would have been again in control and McCarren and his friends would have had little to hope for. The carrying of Brooklyn for McClellan caused astonishment, as it was believed the cry of "No red lights in Brooklyn" would cause an increased vote for Low in that borough.

Aside from the local issues, McClellan's supporters appealed to Democrats to vote for him in view of the important bearing this city's vote would have on the presidential election next year. McClellan also had the support of Bourke Cochran, who returned to political activity and made several speeches. The Tenderloin district tonight is the scene of a noisy revel over the result of the election. It is the most tremendous demonstration the Tenderloin district of the city itself has probably ever seen.

Republicans Gain in Assembly. New York, Nov. 3.—The returns at midnight gave the Republicans a net gain of six in the assembly, with two districts in doubt, thereby increasing the Republican majority in the state assembly.

The proposition to expend \$101,000,000 for enlarging the state canals has a majority of 175,000.

Republicans Win in New Jersey. Trenton, N. J., Wednesday, Nov. 4.—The Republicans of New Jersey have elected four out of six state senators

and enough of the assembly to claim both houses.

GORMAN'S PARTY ON TOP. Democrats Win on State and Legislative Tickets in Maryland. Baltimore, Wednesday, Nov. 4.—At 1 o'clock this morning the returns indicated the election of Edwin Warfield, Democrat, as governor, and that the legislature, which will elect a United States senator, will also be Democratic.

FUSIONISTS LOSE. Election of Judge Barnes, Republican, Conceded in Nebraska. Lincoln, Neb., Nov. 3.—The Republican committee claims the election of the entire state ticket by not less than 10,000 plurality. The first reports were all favorable to the fusionists, but later returns have almost wiped out the early gains.

Omaha, Wednesday, Nov. 4.—The election of John D. Barnes, Republican, for justice of the supreme court, is conceded.

Republican Victory in Colorado. Denver, Colo., Nov. 3.—The indications late tonight favor the election of John Campbell, Republican, for member of the supreme court.

BATES LEADS BY 35,000. Massachusetts Reelects Republican Governor—Democrats Make Gains. Boston, Nov. 3.—With returns complete from every town and city in the state the total vote for governor is: Bates, Republican, 199,393; Gaston, Democrat, 163,544. The legislature practically is unchanged so far as the Democrats and Republicans are concerned, but the Socialist party, which had three members last year, will be represented by only one.

Boston Strongly Democratic. Boston, Nov. 3.—The total vote of the city for governor is: Gaston, Democrat, 47,323; Bates, Republican, 28,394. Last year the city gave Gaston, 45,666; Bates, 32,127.

GREAT TRIUMPH IN OHIO. Republicans Carry the Election by Record-Breaking Plurality. Columbus, O., Nov. 3.—The Republicans of Ohio today broke their record in pluralities for governor by electing Colonel Myron T. Herrick, over Mayor Tom L. Johnson, Democrat, by considerably over one hundred thousand, while the plurality on joint ballot of over one hundred the legislature assured for the re-election of Senator Hanna more than double any previous record.

Senator Foraker had the record-breaking majority of thirty-five on joint ballot for his re-election two years ago, and that for Hanna this year is three times that majority. Senator Hanna succeeded John Sherman in the senate on March 5, 1897, by appointment from Governor Bushnell and when Hanna was elected for the unexpired Sherman term and the full term of six years ending March 5, 1905, he had only one majority after the most bitter contest that was ever waged in an Ohio legislature.

Senator Hanna will now have the distinction of having the largest, as well as the smallest, majority of any senator elected from Ohio.

City of Columbus Republican. Columbus, O., Nov. 3.—Returns from one-third of the precincts indicate that Herrick, Republican, for governor, will have about 3,900 plurality in the city of Columbus and about 2,200 in Franklin county. Two years ago Kilbourne, Democrat, for governor, carried the county by 2,270. The indications are that all of the Republican representatives in the county will be elected. At 9:30 p. m. it was estimated that the Republican plurality would not be less than 125,000 and that it might beat the record of 137,000 in the year of 1894.

Staubenville, O., Nov. 3.—Weems, Republican candidate for congress in the Fourteenth district, is elected by 5,000 majority.

IN PENNSYLVANIA. Plurality Exceeding 200,000 Is Rolled Up by the Republicans. Philadelphia, Nov. 3.—9 p. m.—Returns from counties outside of Philadelphia indicate that the entire Republican ticket will come to Philadelphia with majorities ranging from 50,000 to 75,000.

Philadelphia, Nov. 3.—All the candidates on the Republican city ticket were elected today by the usual large Republican majority.

Philadelphia, Nov. 3.—James E. Roberts, who has been in jail at Edwardsville, was brought here today and pleaded guilty in the United States district court to robbing mail pouches at Springfield Junction on March 12. He was sentenced to two years in Chester penitentiary. James Ryan, alias Walter Hiatt, on whose confession Roberts was implicated, has been sent to Chester for robbing postoffices in McLean and Dewitt counties. Roberts says that A. E. Bell, who was arrested at Denver, Colo., and who confessed to robbing mail pouches at the junction, was not engaged in the robbery in March.

ALLEGED DOUBLE TAXATION.

Chicago Manufacturers Make a Plea for Lower Assessment. Springfield, Nov. 3.—Fifty representatives of the Illinois Manufacturers' association of Chicago appeared before the state board of equalization today and made a plea for a lower assessment against manufacturing and mercantile corporations. Attorney Frost spoke for the committee and a statement was read by D. C. Newell, which the association claimed that the method of assessment now followed by the state board is "double taxation."

FATALITY ON BATTLESHIP.

Fall Kills Lieut. Beecher, Ordnance Officer of the Maine. Newport, R. I., Nov. 3.—Lieutenant Albert M. Beecher, ordnance officer of the battleship Maine, fell from the forward turret to the handling room, forty feet, today and was fatally injured. He died an hour later without regaining consciousness. Lieutenant Beecher's home was at Fort Dodge, Kas.

ASSASSINATION IS ATTEMPTED

CAPT. EWEN, STAR WITNESS IN FEUD CASES, HAS CLOSE CALL FROM DEATH AT LEXINGTON. Lexington, Ky., Nov. 3.—Twelve shots were fired at Captain R. J. Ewen, the star witness in the feud cases recently tried in Breathitt county, as he passed along a street tonight. The shots were fired from a blind alley. One went through his hat and another through the lapel of his coat, but none touched him. He was walking with Judge Mann, at whose home he is stopping, and the judge had just crossed the alley in front of Captain Ewen when the firing began.

BULLETS PIERCE HIS CLOTHING

Two Men Killed and a Third Fatally Shot in Row in Tennessee. Bristol, Tenn., Nov. 3.—As the result of a row over a Republican judge of election, John Osborne and Ezekiel Nickols, Democrat judges, were shot and killed. J. H. Capron was fatally shot and Alexander Keyes was seriously hurt. More trouble is feared.

CASUALTIES IN KENTUCKY.

Louisville, Ky., Nov. 3.—Numerous disorders occurred in this state today incidental to the election. During a riotous fight in this city Tom Kiley, a Democrat election officer, shot and pistol-wounded Jacob Rieger, a Republican.

At Danville, Fountain Hasby's skull was crushed during an election row. At Troy, Philip Reilly was shot by a deputy sheriff for venturing too near the polls.

At Lawrenceburg, Constable James Edwards was fatally cut by Oliver Cary during a fight in an election booth.

CULMINATES IN A LYNCHING.

Race War in Arkansas Costs Two Lives and Injury to Three Persons. Lake Village, Ark., Nov. 3.—Two dead and three wounded—this is the result of trouble between whites and blacks here today and which was not settled until a lynching had quieted the excited people. A row occurred early today, and in the shooting which followed Frank Anderson, white, was killed; E. Vinson, an attorney, and Joseph Frame, both white, and Ella McDowell, colored, were wounded. Henry Johnson, colored, was arrested and placed in jail. This afternoon a mob broke into the jail, took Johnson to the center of the town and hanged him.

ASSAULTED BY TRAMPS.

President John Rush of the Waterloo (Ia.) Gas Company Is Killed. Waterloo, Ia., Nov. 3.—John Rush, president of the local gas company, was assaulted by tramps near his home late last night and died early today. His assailants have not been captured. Rush was well-known throughout the state.

Springfield, Ills., Nov. 3.—The dead and mangled body of Leona Granderry, aged fourteen, colored, was found this morning in a yard near the Alton passenger station. R. M. Terry and son William, colored, were arrested tonight on suspicion.

COUNTY CLERK ARRESTED.

Illinois Official Said to Be Short \$10,000 in His Accounts. Belleville, Ills., Nov. 3.—County Clerk Thomas was arrested today on an indictment charging embezzlement, failure to turn over fees collected and malfeasance in office. His alleged shortage is \$10,000. He was released on bonds.

MAIL POUCH ROBBER SENTENCED.

Springfield, Ills., Nov. 3.—James E. Roberts, who has been in jail at Edwardsville, was brought here today and pleaded guilty in the United States district court to robbing mail pouches at Springfield Junction on March 12. He was sentenced to two years in Chester penitentiary. James Ryan, alias Walter Hiatt, on whose confession Roberts was implicated, has been sent to Chester for robbing postoffices in McLean and Dewitt counties. Roberts says that A. E. Bell, who was arrested at Denver, Colo., and who confessed to robbing mail pouches at the junction, was not engaged in the robbery in March.

OLD FOLKS TESTIFY

VINOL WORTH \$1,000 TO A. J. BAKER

The Aged, and All Sons and Daughters of Aged People in Marquette Should Be Interested.

Mr. A. J. Baker of 713 Louest street, Evansville, Ind., writes: "I believe there is no other medicine equal to Vinol for elderly people. I would not take \$1000 for the good it has done me. It makes strength for the aged as no other medicine seems to do, and invigorates the whole system. Vinol was first recommended to me for a bad cough, which I could not seem to get rid of. Vinol not only cured my cough, but it made me strong and well, and I enthusiastically endorse Vinol."

Mr. Stafford, of the Stafford Drug Co., when interviewed in regard to this matter, said: "We have never sold our store such a wonderful vitalizer and strength maker for the aged as Vinol; it is nature's remedy for the sick, the weak and the aged."

"Vinol owes its virtue and great medicinal power to the fact that it contains a highly concentrated form of all the active curative properties of cod liver oil, without a drop of the nauseating grease which characterizes old-fashioned cod liver oil and emulsions."

"Vinol acts first upon the stomach, toning it up, and enabling it to obtain from the food eaten the elements needed for rich, red blood, healthy body material and sound, steady nerves. In this way it repairs worn tissues, checks the natural decline of the aged and never fails to replace weakness with strength."

"In the strongest manner we unhesitatingly endorse and guarantee Vinol to increase the appetite, cure stomach troubles, give strength and renewed vitality to the aged, build up the run down, tired and debilitated, make the weak strong, cure chronic coughs, colds and build up the convalescent, or we will return to the purchaser every dollar paid for it." The Stafford Drug Co.

This seems a strong statement for reliable druggists to make, and we think every person in Marquette ought to take advantage of The Stafford Drug Co.'s offer, as, of course, they have a very wide knowledge of medicines, and what they will, or will not accomplish.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00 Per year, by mail, \$10.00

MARQUETTE, MICH., NOV. 4.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Ann's age having been satisfactorily determined we are now ready to resume our cogitation on the great and apparently unsolvable problem of "who killed cock robin?"

Three midshipmen of the first class are on trial at Annapolis, charged with hazing men of the fourth class, and if proved guilty they will have to leave the service. It apparently takes the embryo naval officers a long time to realize that the naval academy authorities meant what they said when they announced that hazing would have to cease.

Dowie is now back at Zion City and it is claimed that the gross result of his New York pilgrimage is, at the outside, not more than a dozen converts. As for healing, it is said that he absolutely failed. From a financial point of view it was, practically, "all going out and nothing coming in." The pilgrimage was a failure, but it is doubtful if its lack of success will wind Dowie up. He has already, in all likelihood, explained everything to the satisfaction of his followers.

Joseph Folk has publicly announced his candidacy for the Democratic nomination for governor of Missouri. Mr. Folk's magnificent campaign against the hoodlums has made him immensely popular, and a majority of the honest citizens of Missouri would like to see him promoted, regardless of party, but there are indications that he will have a rough road in the convention. There is evidence that corporations, whose plans he has interfered with, and grafters, whose sources of supply he has, temporarily at least, shut off, are fighting him tooth and nail and will make it worth while for delegates to vote against him.

There is ugly talk from Ann Arbor. It is alleged that the tactics pursued on the football field Saturday by Minnesota were the roughest and most unsportsmanlike ever encountered anywhere by the Michigan team, and the condition of the Michigan stars is said to bear the report out. They are battered and punched to pieces. There is talk of severing athletic relations with Minnesota, a thing which Chicago did a few years ago for the same reason. It is too bad, indeed, that there should be such a disagreeable aftermath to the game, but it is assumed that the Wolverines are not talking without cause. They are not made of that kind of stuff.

And now a colonial department, to devote its attention to the interests and development of our insular possessions, is proposed as an addition to the cabinet. The suggestion came from Senator Foraker. Already a number of senators and representatives, including Alger of Michigan, have taken exception to it on the ground that the cabinet is now sufficiently large, if not, indeed, too large. There is little likelihood that a department for our new possessions will be seriously advocated for some time yet, but this is one of the inevitable developments. In time their trade, administrative forces, and general governmental business will grow to such proportions as to too heavily weigh down the present departments. Then some readjustment will surely be necessary.

It appears that we have not yet reached the golden mean of Christian charity. Since the death of Pope Leo and the accession to the papal throne of Pius X., the papers all over the land have been giving more than considerable space to the affairs of Catholicism. These affairs have seemed worthy of the attention they have received, but the Boston Transcript calls attention to the fact that certain denominational meetings have been commenting unfavorably upon the press for this state of things. At an Iowa conference recently Hon. J. P. Dolliver reproved his fellow laymen of the Methodist body for their attitude, which he criticized as being without reasonable basis. Mr. Dolliver very properly remarks that there is necessity for more concerted action between the Protestants and Roman Catholics if they are to fight, with any degree of success, the atheism and materialism that are threatening to engulf the American people. The Transcript points out the significance of this stand when taken by a leader of the laity in striving to put an end to the absurd prejudice between Christians of different creeds.

THE SUPERIOR TRUST COMPANY HANCOCK, MICH. CAPITAL \$150,000. SURPLUS \$30,000. Acts as Executor, Administrator, Guardian, Assignee, Receiver, Trustee, Registrar and Guaranty Agent. BOARD OF DIRECTORS: Charles Briggs, James MacNaughton, John D. Cuddy, Graham Pope, Rufus R. Gendell, Allen F. Rees, Lessing Karger, Albert R. Gray, John J. Case, Edgar M. Towar, William A. Paine, Harry F. Fay, James Chynoweth, William E. Parnall, Charles H. Hall, James R. Cooper, Jacob Baer, George Kuppe, Archibald J. Scott, Charles A. Wright.

The Superior Savings Bank, HANCOCK, MICH. Capital \$50,000. Surplus \$20,000. TRANSACTS A GENERAL BANKING BUSINESS. LOANS MONEY ON REAL ESTATE AND APPROVED COLLAT. PAL. Pays 3 per cent interest on Savings Deposits, compounded semi-annually. Pays 4 per cent interest on Certificates of Deposit payable one year after date.

and the consequent nullifying of the efforts of both Catholics and Protestants. This view of the case as coming from the ranks of Methodism, where intolerance of Catholicism has been strongly marked, is doubly significant of the hopeful trend of humanity toward the ideal of charity.

A National Contractors' union is proposed, its purpose to make agreements with the various labor organizations, so as to lessen the number of strikes and lockouts and to provide for settling all labor disputes by arbitration. Some such organization is sorely needed; at least the ends at which it proposes to aim are greatly to be desired. The interruption of building operations consequent on disagreements between contractors and labor has been one of the chief elements in unsettling business conditions this year. A contractor in any kind of industrial centers has never known whether he would be able to carry out his agreement or not, so irresponsible and whimsical have been the organizations controlling the men in his employ. Formal contracts with the central unions could not fail to secure a greater degree of certainty.

The United States Steel Corporation will spend for improvements during the calendar year, it is reported, \$20,000,000, according to the present estimate of a director. At the outset the corporation planned to spend \$36,000,000 for extraordinary replacements and improvements, which were all arranged to dovetail with the general scheme for harmonizing and modernizing plants. It was estimated that when these were completed the corporation would have added to the total capacity of the various subsidiary companies an annual tonnage of 2,700,000 tons of all products. A director says: "Because the cost of material and labor is higher now than it is likely to be next year it was deemed conservative to hold in abeyance some of the plans. Meantime, we get the use of the money, and when the improvements are introduced we can make a profit out of the lower cost of material and the probable decrease in wages."

Shreveport, La., furnishes a novelty in lynchings in an instance where white and blacks united in wreaking their vengeance on a negro who had been guilty of a triple murder of unusually atrocious nature. The blacks' participation in the lynching was as hearty and unrestrained in its enthusiasm as that of their white neighbors and they are reported to have pulled on the rope with a right good will. All this goes to prove that the two races were more akin than the Southern whites would have us believe and that the negroes are to a great degree modeling their conduct on that of these whites. Presently the negroes will go a step further. They will try lynching a white. It will be retributive justice, but is certainly to be expected in the natural course of events. It will create an awful disturbance and will likely start a race war at least of small proportions. When all this comes to pass, as it likely will in time, the whites will have to reflect that the ultimate responsibility lies with them. They were the discoverers of lynch law and it has flourished under their auspices.

Mayor Harrison has given many well-known and sanctimonious people of the city of Chicago a number of uneasy days and nights. In connection with his "graft" inquiry, which by the way is doing much better and more serious work than anyone expected of it, he threatens to secure the publication of the names of all so-called reputable citizens who own property under lease for disreputable purposes. Such a procedure would hurt many men and women with fine reputations for morality and goodness, people who shine in society and business and occupy front pews. If Mayor Harrison would only see fit to take this course some of their number might be ashamed to better ways. It is a sad commentary on latterday morality that there are many supposedly good and wholesome people who really extend underhand aid to the forces that make for vice and corruption simply because they have property interests at stake. If all the well appearing men and women were really good the fight on vice and sin would be much easier, but in too many cases fair exteriors are but a disguise to a real sympathy with bad practice, bad morality and bad government.

The Marine Record and Marine Review says of the freight and ore situation: While ore shipments for October will not, of course, be known for several days yet it is not now expected that the total shipments for the season will exceed 24,000,000 tons. The season's total of 19,375,000 tons on Oct. 1, but the movement has been so economical since that those best informed do not expect the shipments for the balance of the season to reach 5,000,000 tons. Even 24,000,000 tons, however, is a quantity not to be sneezed at. It is 2,500,000 tons more than was moved in 1901 when the iron boom of the country was at its flood. The total of 27,500,000 tons in 1902 was extraordinary and phenomenal, and moreover unwarranted. The furnaces of the country were not able to smelt the ore so spontaneously and so sudden an increase over the normal supply; and the natural consequence was that many of them entered the season of 1903 with very large stock piles. Even at the beginning of the year they were reluctant to order and ore sales were slow. It has been characteristic of the smaller class of furnaces that they have all ordered ore with extreme caution throughout the year, and even now many of them realize that they have all the ore they want to tide them over the winter. Certain deliveries, therefore, pledged for this fall will not now be delivered until next spring. So leisurely has been the movement of ore during the present month, and such the disposition of the mines themselves to curtail shipments, that contract vessels have easily cared for almost the entire movement. The stiffening of the Chicago corn rate was welcome news to the smaller class of

carriers and probably kept some of them from going to the dock. Lumber cargoes are being offered freely at the advanced rate of \$2.75 and as this class of tonnage is scarce and the feeling quite firm \$3 is being talked of. Coal docks at upper lake ports are so crowded that there is some fear of vessels not getting all the coal that is due them on contracts.

LONDON'S SCHOOL GROWTH.

Indulgence in what is said to be a characteristic American weakness for superlatives seems justified in speaking of the vastness of London. In the current issue of the Nineteenth Century Mr. Sidney Webb recalls that that great city has 800,000 school children. American cities, with their rapid growth, are troubled to accommodate their little armies of school boys and girls, but the difficulty under which London must labor is little less than appalling. Yet Mr. Webb shows that since the era of modern popular education set in the British capital has struggled bravely to furnish at least elementary instruction to its youth, and on the whole with striking success. London and all other British cities are far behind those of this country in this respect, yet a determined and intelligent effort is being made to recover the lost ground. The effect of the newly enacted educational law will be anxiously observed.

Mr. Webb credits the London schools with working a transformation in the character of that city's population which he calls one of the most remarkable chapters of social history. Fifty years ago, he says, two-thirds of the child population was without either secular or religious schooling and grew up immoral and brutalized in consequence. He claims that now the working people are "the least turbulent, the least criminal and the most assiduous in their industry of any of the world's great capitals."

Chief among the influences that have brought about this change has been that of the schools, which began with the so-called rescue work of 1870, resulting in the establishment of the voluntary, or charity, schools, which gave elementary instruction to 150,000 poor children. The London school board has now 800,000 children to care for, and has just erected 500 new school buildings at an expense of \$70,000,000. Something like 120,000 children are still left unprovided for, a showing which compares very favorably with that made by some large cities in this country. Schools of a higher grade are constantly being established, while the education law of last year provides for secondary and university schools.

The technical side of education is not neglected and constant efforts are being made to strengthen it. The night technical schools already provide for 50,000 pupils; for London, like all other large British cities, has begun to realize that the development of technical schools abroad and their neglect at home contributed not a little to the loss of British commercial supremacy. Mr. Webb believes that in a few years London will boast the best schools in the world.

NOTICE.

To the property owners, taxpayers and other persons interested in the following proposed improvements, to-wit: For the construction of sewers in Fifth, Bluff, Sixth, Michigan, Oak and Fisher streets, also in Baraga avenue, formerly called Superior street. Notice is hereby given, that the specifications for the construction of the following described sewers, together with estimate of the expense of constructing said sewers and profiles of the work to be done in said districts to be improved and assessed to pay the cost thereof, are now in the office of the city controller for public examination:

No. 1. The construction of an eight-inch tile sewer, with four-inch "Ys," in Fifth street, from manhole in sewer in Washington street to the center of Bluff street, and in Bluff street, from proposed manhole in Fifth street to a point thirty-seven feet east of the east line of Sixth street.

No. 2. The construction of an eight-inch tile sewer, with four-inch "Ys," in Sixth street, from manhole in sewer in Washington street to the south line of Ridge street, and in Ridge street, from proposed manhole in Sixth street to a point thirty-seven feet east of the east line of Seventh street.

No. 3. The construction of an eight-inch tile sewer, with four-inch "Ys," in Michigan street, from manhole in sewer in Third street to a point forty-four feet east of the east line of Fourth street.

No. 4. The construction of an eight-inch tile sewer, with four-inch "Ys," in Michigan street, from manhole in sewer in Oak street, and in Oak street, from proposed manhole in Michigan street to a point thirty-three feet south of the south line of Ohio street.

No. 5. The construction of a six-inch tile sewer, with four-inch "Ys," in Fisher street, from west line of Fourth street to a point forty feet east of the east line of Fifth street.

No. 6. The construction of an eight-inch tile sewer, with four-inch "Ys," in Baraga avenue, formerly called Superior street, from a point 160 feet east of the center of Fifth street to a point 33 feet east of the east line of Seventh street.

insistent upon growing. Trees and plants that thrive despite discouraging environment. Almost any kind of vegetation in Chicago needs but to be looked at and it will grow the best. On certain unfrequented streets bushlike weeds almost as tall as a man's head spread their branches until it is impossible to get along the concrete sidewalk without being brushed by these on either side. A sandy block of street shut off from traffic will in a couple of years have as dense a growth of grass and weeds as the vacant bits of prairie which abound throughout the city, here covered with verberna, there with acres of wild onions or a profusion of sweet clover, and in some places with catnip and other domestic herbs. A sand pile thrown up by builders has been known to cover itself with beach grass and weeds in two months' time and a desolate lot treated to a little compost will shortly send up rank clover plants, stout grasses and a large variety of domestic and wild fauna. It seems as if the air were full of seeds ready to plant themselves. One of the most interesting illustrations of this surprising disposition to grow which all forms of vegetable life about Chicago possess is the willow twigs that often grow out of an old trunk that has lain prone on the ground for years. There are not a few of these memorials of old willow giants on vacant lots about the city, which were cut down when the street was opened or the sidewalk made. One of these is about a foot long and from three to four feet in diameter; five great trunks branch off from the main stem. These have been cut off within three or four feet of the parent trunk, and the front edge of the old tree as it lies prone is that of a Callian, and like Callian, it has growing things on its back. The secondary trunks, some of them, curve out and up where they leave the main trunk, and emphasize the resemblance to Callian, "with elbows wide." From nodes here and there over this branch little willow twigs, not large and flourishing, but look as though they might have been grown in the shade. They lie down each year, and if they have filled the node full there will be no more from that particular spot, but next year they will start up in a new place.—Chicago Tribune.

Champion.

Pair Captured at Escanaba Operated in Champion and Were Arrested Here.

Reynolds and Anderson, who were arrested at Escanaba last week on charges of having burglarized the postoffice there, are the crooks that Charles Lavigne and T. H. Wallace of Champion captured here two years ago.

They were taken captives on the St. Paul railroad track, about midway between here and Escanaba. They were walking toward Republic when Lavigne and Wallace overtook them. The latter were riding on a railway velocipede. They did their work very cleverly, getting the drop on the crooks before the latter even suspected that the Champion men were after them. They were taken to the jail here and released last night.

When Anderson and Reynolds saw that they would likely be shot in case they made a move to pull a revolver from their pockets they surrendered. Both were armed. They were handcuffed and brought back to Champion on the velocipede. On the way down one of the men tried to break away. When arrested the burglars had considerable jewelry and other valuables in their pockets. They had no less than thirteen gold watches, all high grade. Among the collection was a time piece worth \$125 which they stole from Charles Dudson of this place. While here the thieves entered the home of Mose Rippey and stole therefrom \$100 in currency, besides articles of more or less value.

They were convicted and sent to the Marquette branch of state prison for two years. They were released last May, since which time they have visited several places in the county, but they have not been seen in Champion.

The capture of Reynolds and Anderson, as announced in Monday's Mining Journal, was generally commented on here. The Humboldt store will soon be closed. The goods and fixtures are being disposed of with a view to shutting the doors as soon as possible.

BESSIE MINE CLOSED.

The Bessie mine at Humboldt, which has been operated for nearly four years past by the Oliver Iron company, was closed Saturday night. The shut-down caused no general surprise, either at Humboldt or here, as orders to close have been expected for some weeks past. It is said that the workings are not looking any too promising and that the ore body is nearly exhausted. A portion of the ore is stock, and the most of that hoisted during the summer, has been shipped since the track was extended to the property some six months ago. There is still a fairly large pile of ore in stock, the greater part of which will remain there during the winter.

The Humboldt store will soon be closed. The goods and fixtures are being disposed of with a view to shutting the doors as soon as possible.

CHAMPION CHIPS.

Dan Toms, who left here last week for the copper country, took a job as engineer at a South Range mine.

The Beacon House was closed Saturday night. The teachers were about the place with different families.

Dr. Paul Van Riper and wife left Sunday evening for Niles, in the lower peninsula, where they will spend a short time with relatives. The doctor intends to locate somewhere in the lower part of the state. Before leaving Dr. Beach presented him with a dog.

EL McNevis, E. Urickson and O. Christianson were among the rooters for the Michigan team at Minneapolis Saturday. The boys enjoyed the big game very much, and the trip was one round of pleasure from the time they left here until they arrived home Monday morning.

Henry Mayotte has taken a job with Pete Lacroix. He will work at his No. 1 camp, out from Michigamme. Pete is giving employment to many Champion men. He has two contracts, one for F. W. Read & Co., and the other for Brown Bros. He will keep his crew busy until the break-up in the spring.

With the male population of Champion reduced by over seventy-five per cent during the past month there will not be many deer shot by local men this season. The few who are still here and are out of employment will go to the woods. Most of the men who usually brought in deer have gone to other points.

Duplicates another Cremo. It never varies in quality, aroma or price.

The Largest Selling Brand of Cigars in the World.

The Band is the Smoker's Protection.

INSIST ON GROWING.

Trees and plants that thrive despite discouraging environment. Almost any kind of vegetation in Chicago needs but to be looked at and it will grow the best. On certain unfrequented streets bushlike weeds almost as tall as a man's head spread their branches until it is impossible to get along the concrete sidewalk without being brushed by these on either side. A sandy block of street shut off from traffic will in a couple of years have as dense a growth of grass and weeds as the vacant bits of prairie which abound throughout the city, here covered with verberna, there with acres of wild onions or a profusion of sweet clover, and in some places with catnip and other domestic herbs. A sand pile thrown up by builders has been known to cover itself with beach grass and weeds in two months' time and a desolate lot treated to a little compost will shortly send up rank clover plants, stout grasses and a large variety of domestic and wild fauna. It seems as if the air were full of seeds ready to plant themselves. One of the most interesting illustrations of this surprising disposition to grow which all forms of vegetable life about Chicago possess is the willow twigs that often grow out of an old trunk that has lain prone on the ground for years. There are not a few of these memorials of old willow giants on vacant lots about the city, which were cut down when the street was opened or the sidewalk made. One of these is about a foot long and from three to four feet in diameter; five great trunks branch off from the main stem. THE STAFFORD DRUG CO. WARDEN VIVIAN FINDS NO NETS OF ILLEGAL MESH IN COPPERDUM WATERS.

Copper Country Department

FISHERMEN OBEY LAW. ROBBED SLOT MACHINE. Hancock Young Man Confesses to Stealing About \$35 in Nickels.

"I can safely say that there are now no nets of illegal mesh in the lake along the eastern shore of Houghton county from Portage Entry to Big Traverse Bay."

The fishermen in that district are living up to the law and I so reported to the state game warden this morning," said County Game Warden W. H. Vivian, Jr., yesterday.

He had just returned from a trip to the district in question, his mission being to see whether the particular statute of the fish laws relating to the closing of the whitefish and lake trout season is being heeded by the numerous fishermen there.

The law states that all nets for the purpose of catching whitefish and trout must be out of the water by the first of November, unless the weather is such that they cannot be lifted. In that case three days of grace are given.

Mr. Vivian is well pleased that he found no violations. It speaks well for his work and shows that his efforts to make the fish laws better understood and obeyed have not been for naught.

He personally has given warnings to fishermen to live up to the law and the papers circulating throughout the district also have helped the good cause along.

In speaking of his trip to the east shore of the county, Mr. Vivian yesterday said that he visited Rabbit Bay and Little and Big Traverse bays and that in every case nets had been taken up.

He searched boats and found no evidences of violations and in one instance saw the nets that had been lifted. All were dry, giving evidence that they had been out of the water for several days.

Game Laws Not Violated. The game warden says he is satisfied that there are no violations of the game laws at present and that there have not been any for some time.

He and his assistant, W. J. Vivian, have thoroughly gone over all of the hunting grounds. They have been continually on the alert, so much so that they have kept would-be violators guessing.

Pot hunters know that the officers mean business and they have largely refrained from following usual practices. Speaking of pot hunters yesterday, Mr. Vivian said that they are the hardest kind of violators to catch.

They are unlike sportsmen who go into the woods for the pleasure of hunting. Instead of getting out after a deer they build a scaffold among the trees, get up on it, and wait for a deer to come along.

The game warden will be alert during the hunting season, which opens next Sunday. Hunters are liable to shoot more deer than their share under the law and others are just as liable to kill deer without any license at all.

The warden says, however, that he is through with swallowing a lot of indefinite information regarding alleged violations. Such tales usually lead him off on a wild goose chase.

Hereafter, he says, he will map out his trips entirely to suit himself. OFFICERS AT ODDS.

Lack of harmony among the officers of the Houghton county Manufacturing company of Calumet has, it is said, played havoc with the business of the concern.

It is reported that the company has a financial problem to solve and that a meeting of the stockholders will be held some time this month to talk over the affairs.

The company was organized some months ago to sell a stair rod fastener invented by William Richards, a Calumet man.

W. J. Ryan and others of Calumet were interested. Mr. Ryan was elected president of the new company and Mr. Ryan vice president.

Mr. Richards was elected secretary. Each man, it is said, put considerable cash into the enterprise. Business from the first did not increase as was expected, it is reported, and then the alleged disagreements arose.

The offices were finally removed to Boston, where it was thought the business could be better handled. From all accounts, however, the change was of no avail to much improve matters.

CALUMET'S NEW ARMORY. Work on the new Armory at Calumet, which is being erected for Company E by the Calumet & Hecla Mining company, is being rushed and the big structure will be ready for occupancy by the latter part of next month.

The Wisconsin Bridge & Iron company finished putting the huge steel trusses in position for the roof frame work last week and a large force of carpenters is now putting on the roof timbers.

The militia planned on opening the new Armory with the usual Thanksgiving ball, but other plans will now have to be made. The annual function may be given in the old Armory as a sort of a farewell party and the company's new home may be dedicated by a ball about the first of the new year.

It also is possible that the regular annual dance may be postponed until the new Armory is ready. TAKES UP HIS NEW WORK.

Martin M. Foley took hold of his new duties as superintendent of public works for the village of Houghton Monday. As the title of his position implies he will superintend all improvements and will purchase necessary supplies for such work.

His resignation as yardmaster for the Copper Range railroad at Houghton station took effect Saturday evening. It is believed that he will make a valuable village officer. He served as marshal for a period of nine years before the construction of the Copper Range road and during that time also looked after the duties of street commissioner.

HE COULD HARDLY GET UP. P. H. Duffy of Ashley, Ill., writes: "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief."

My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold at Desjardins' Pharmacy.

CHICAGO'S OLD QUARTERBACK.

Geo. Gerry, Mining Student, Reported Minnesota Game for Stag.

George Gerry, a Michigan College of Mines student, who played quarterback back on the Chicago University football team during the seasons of 1900 and 1901, entered the Michigan-Minnesota game at Minneapolis last Saturday for Coach Stagg of the Chicago Maroons.

He was sent from Houghton to Minneapolis to get a line on the playing of both big teams. Although he did not publicly proclaim his mission, his modesty preventing that, the object of his Minneapolis trip was given out by one or two of his close friends in whom he had confidence.

Gerry was a speedy man in his position and Coach Stagg always had a lot of confidence in his football ability. That this is the case is evident from the fact that he was selected by the great Chicago coach above everyone else on Stagg's list to cover the Michigan-Minnesota game, one of the most important of the year.

Chicago is to play both of those teams and Stagg was naturally a little anxious to learn how the big fellows stand under Gerry in his second year at the college of mines. He is not a football giant, but is rather small in stature, yet a perfect athlete.

NINETY-FOUR NEW CITIZENS. The number of citizens in the county was increased by ninety-four in the circuit court Monday.

That was the number of applications for naturalization disposed of. The workings of the new government entitles to full citizenship consume more time than under the old law and for that reason a larger number of applications could not be acted upon.

There are about fifty more petitions to receive attention next Monday. The number probably will be increased during the week. COPPERDUM BREVITIES.

Sheriff Willis took Henry Spicer of Hancock to the upper peninsula asylum for the insane at Newberry Monday.

President A. S. Bigelow and Secretary Treasurer W. J. Ladd of the Tamarack and Osceola mines are in the copper country.

Alexander Allport of Calumet has left for Fargo, Minn., where he will study for the ministry under Rev. W. Ten Broeck, an Episcopal divine.

Charles Dover, with a score of 233, won the five-dollar ten pin prize offered at the highest score on the Mitchell bowling alleys during the month of October.

The meeting of local Sylvania stockholders called for last evening was postponed until tomorrow evening. It will be held in the office of the Haas' Brewing company.

The Hadden-Rodee brokerage firm will open a branch office in the Douglas House at Houghton. The company recently opened offices at Calumet and Hancock.

The case of the People vs. Phillip Tourville of Dollar Bay, charged with assault with intent to do great bodily harm, was resumed in the circuit court this morning.

The City of Traverse, of the L. M. & L. S. T. company, is at Chassel taking on a cargo of lumber at the Worcester Lumber company's dock for Muskegon and Chicago.

Thomas Elder of Barberton, O., is in Houghton to install the new battery of the Houghton County Electric Light company's Houghton plant.

Ed. Rasleigh won the five-dollar ten pin prize for October on the Dee bowling alleys at Houghton. His score was 264. J. W. Hogben won the five-dollar St. Louis prize with a score of 59.

The Houghton Leaders, a juvenile football team, is highly elated over its victory over the Chassell Juniors at Dollar Bay, last Saturday. Houghton won by a score of 12 to 0.

A. D. Bohrer, who resigned his position as pharmacist in Scott's drug store at Hancock to take a similar position in Kirkwood's store at Negaunee, left for the iron country Monday afternoon, accompanied by his wife.

The Soo Times states that the line-up of the Soo hockey team is practically complete. There is one position to be filled and there are two candidates for the place.

The Times adds that all the players have won their spurs and should make good. The Duluth Curling club will meet today to appoint skips, form rinks and to talk over general plans for the approaching season.

A big bonspiel will be held at Duluth during the winter and it is very likely that the Houghton club will enter in the contest.

Seth Micklow's membership in the Mitchell bowling team may cause some trouble in the Houghton County Bowling league. He is a Houghton man and, according to the rules of the organization, cannot play outside of his town.

The next regularly scheduled game of the league will be played Thursday evening.

Angus McKenzie, son of Murdoch McKenzie of Seventh street, Calumet, died in Chicago on Friday last of consumption after an illness of nine months. He was thirty-six years of age and is survived by his wife and three children.

Murdoch McKenzie and the wife of the deceased accompanied the remains to Beardmont, Ont., where the funeral was held.

The funeral of the late Thomas Berryman of Calumet will be held this afternoon, with services in the Calumet Congregational church. The local society of Foresters, with which he was affiliated, will have charge.

Mr. Berryman died Sunday morning of malignant tumor. He was fifty-five years of age and was employed as a miner by the Calumet & Hecla company. He is survived by three sons and a daughter.

John Murphy and Frank Martin, Houghton village teamsters, and Louis Wallace, janitor of the city hall, got up their jobs yesterday owing to difficulty with village officers. Murphy quit because of extra work he claims he was not supposed to do, as was the case with Martin. Wallace's salary did not suit him and he was offered the job elsewhere for work he would meet Thursday evening, when the vacancies will be filled.

The case against John Kalestaja, charged with assault with intent to do great bodily harm, may not come up for trial in the circuit court. With his brother, Jacob, he was convicted last week of assault with intent to do great bodily harm less than the crime of murder and the second charge against him probably will be withdrawn, as it arose from the same fracas. Attorney J. F. Hamblitzer of Houghton, who defended the brothers, may move for a new trial.

MINING NEWS

RICH STRIKE OF ORE. Lake Superior & Pittsburg Company Taps a Big Deposit.

A telegram received last evening from Bisbee, Ariz., by Louis Grabower of Marquette, an official of the Marquette & Arizona, told of another rich strike of copper ore in the Warren district, this time the find occurring on the property of the Lake Superior & Pittsburg Development company, in which upper peninsula people are largely interested. The telegram was as follows:

"South Bisbee has struck veins of 45 per cent ore."

The South Bisbee is the name by which the property of the L. S. & P. company is known at Bisbee. The mine is located south of Bisbee and the rich strike now reported from it is of much importance to other properties in that locality.

FIRE AT THE MOHAWK. Shaft and Rock House at No. 3 is Entirely Destroyed.

The combination shaft and rockhouse at the Mohawk mine's No. 3 shaft was destroyed by fire early yesterday morning. The loss is estimated by the mine management as \$15,000, fully covered by the insurance. The flames left nothing but ashes of the structure, and burned from the collar of the shaft down into the mine about a distance of forty feet.

The fire was discovered at 5:45 o'clock, but it had too much of a start to check it. The flames spread rapidly and in a short time the entire structure was enveloped. The exact origin of the fire is unknown, but the blaze presumably caught from a miner's lamp carelessly burning near inflammable material.

The house was of wooden construction. With Nos. 1 and 2, No. 3 shaft was one of the mine's producers. It is not believed the fire will materially affect the production as the other two shafts and rock from the stockpile can, in a pinch, make up for the loss from No. 3.

A temporary hoist may be set up at No. 3 shaft, but this has not yet been decided. The No. 24 combination steel shaft-rockhouse, which has been under construction for some time, is nearly ready for use. It could be equipped and put into readiness in two or three weeks, and this may be done. The machinery is all on the ground. Some steps on the lines given may be taken to keep the production up to the normal figure.

COPPER SHIPMENTS RUSHED. With the close of lake navigation only a few weeks distant, copper shipments are increasing and the remainder of the season will see the heaviest movement of the year.

The closing down of the Amalgamated properties in Montana has had the inevitable result. Prices for the refined metal have advanced and there is an increased demand from consumers many of whom are carrying small supplies.

If the Amalgamated properties remain idle for any length of time there promises to be a further hardening in the copper market. Very little refined copper is on the wharves at the local smelting plants. The increased demands from the trade and the approaching close of navigation have resulted in clearing this district of all marketable forms of copper.

The independent mines of the Lake Superior district are well sold ahead, and from the sales already made for winter delivery it is certain that there will be all-rail shipments after lake navigation ceases, as during the last three years. There is a saving of about 88 a ton, or four-tenths of a cent a pound on mixed rail-and-lake shipments to the Atlantic seaboard from Portage and Torch lake ports. This difference, which ordinarily causes a rush of copper down the lakes at the end of the season, coupled with the closing of the Amalgamated mines, should result in an unprecedented movement during the new few weeks.

None of the Lake mines, with the exception of the Calumet & Hecla, has any Eastern reserve of metal, and all orders from customers are shipped from the mines. The Calumet & Hecla has a large smelting plant at Black Rock, Buffalo. During the past twelve or fourteen years, or since it has been in commission, it has been customary in the lake season to ship sufficient mineral, or crude copper—as it comes from the stamp mills—to the Buffalo plant to keep it supplied until the opening of navigation the next spring.

OLD DOMINION. There has been considerable comment as to the attitude of Messrs. Towle and Fitzgerald in connection with the Old Dominion affairs. Mr. Towle being a director and approving the plan and Mr. Fitzgerald openly opposing it.

Mr. Towle says: "In view of the discussion going on in regard to Old Dominion and the United Globe property, I coincide with Mr. Fitzgerald's position that the Old Dominion stockholders should have all available knowledge as to the United Globe property, in order that they may act intelligently in their acceptance of the Phelps-Dodge offer."

Considering the fact that he took the control of the property from the Bigelow management with the promise that the stockholders should have full and complete information, it appears to me that this information is due them and is their right. If they then choose to deposit their stock and accept the plan, they will do so in the light of full knowledge. Whom I voted for the acceptance of the Phelps-Dodge offer.

WHY MOTHERS WORRY. Did you ever hear a mother worry over a plump child? There is no better bank of health for a child to draw from than a good supply of healthy flesh.

Scott's Emulsion not only gives a child weight and plumpness, but it feeds the brain, bones and nerves with strength and active power.

Fewer mothers would worry if they knew more about Scott's Emulsion.

We'll send you a sample free upon request. SCOTT & BOWNE, 493 Pearl Street, New York.

TONOPAH-SUPERIOR ACTIVE DEVELOPMENT WORK IS NOW BEING PURSUED ON THIS PROPERTY. A CONTRACT HAS BEEN LET TO CONTINUE THE SINKING OF THE MAIN SHAFT SHIPPING ORE. will be taken from this shaft, which will mean the withdrawal of the treasury stock now being offered at 50c per share for the purpose of erecting a mill to treat the ore ready in sight. GET YOUR STOCK NOW BEFORE THE STOCK IS WITHDRAWN. For full particulars, maps, etc., address

TONOPAH-SUPERIOR GOLD MINING CO., Suite 947 Drexel Building 7-4-31W Philadelphia

THE NORTHWESTERN HOTEL HANCOCK, MICH. Refurnished and Renovated Throughout. UNDER NEW MANAGEMENT and in better condition than ever to serve the traveling public in first-class style.

RATES \$200 PER DAY. E. B. CUMMINGS, PROPRIETOR. (10-26-3m)

culated that four years will be consumed before the entire plant is finished. The new mill, which has been in commission several months, gives excellent results. All the new appliances that have demonstrated their value by actual results will be installed in the remodeled mills.

Surface work at the Victoria is well advanced. A few weeks more and the power canal should be completed. The force not power drills, wood and iron drills are in use underground. No. 2 shaft is down to the twentieth level, making it the deepest mine in Ontonagon county. From present indications the Victoria will not begin regular production until late next year. The management is proceeding slowly but surely. While the mine is not a rich proposition, it possesses a wide field of good character. A good little mine is undoubtedly better than a large poor one, and the Victoria promises to be the former. Nature is proceeding slowly but surely. A large shaft will greatly increase its productive capacity once it is in good working order.

NEW OPENINGS AT THE MOHAWK. New openings at the Mohawk mine are in good ground. The lower levels expose a lode well charged with copper. Development work continues on a large scale, thirty power drills being in commission. Construction work at No. 4 shaft is nearing completion and rock shipments will begin so soon as the third stamp is ready. The Mohawk has quite a stretch of undeveloped ground south of No. 4, which in time will be opened by a new shaft. That the tract is well mineralized is reasonably certain, judging from the openings south of No. 4 and on the Ahmeek.

CONSTRUCTION WORK ON THE PORTION OF THE CALUMET & HECLA STAMP MILL UNDER REPAIR IS COMPLETED. A force of men now engaged on the interior work, which will require several months. The company is rebuilding its entire milling plant at Lake Linden. Five heads are under repair at one time and it is cal-

culated that four years will be consumed before the entire plant is finished. The new mill, which has been in commission several months, gives excellent results. All the new appliances that have demonstrated their value by actual results will be installed in the remodeled mills.

LOSS EXCEEDS ONE MILLION FIRE AT TROY, N. Y., RAGES FOR TWO HOURS BEFORE ITS SPREAD IS STAYED.

STARTED ON STEAMBOAT PIER SIX BUILDINGS OCCUPIED BY BUSINESS CONCERNS DESTROYED.

Newspaper Is Driven From Its Offices, Western Union Is Burned Out and Telegraphic Communication Is Badly Crippled.

Albany, N. Y., Wednesday, Nov. 4.—A fire which started at 10:30 o'clock last night in the Citizens' Steamboat Pier at Troy raged for two hours before it was under control and destroyed six buildings on River street. The buildings burned included the Western Union office, Reynolds' furniture store and the Old Chert building.

The Troy Record, morning newspaper, was driven from its offices by fire and water and took refuge in the offices of the Troy Budget. All telegraphic communication on through Troy was crippled for an hour. The loss will exceed a million dollars.

HOLIDAY IN RUSSIA. Anniversary of the Accession of Nicholas II Is Celebrated.

St. Petersburg, Nov. 3.—Following solemn ceremonies in the Greek churches throughout Russia in commemoration of the death of Czar Alexander III, yesterday was given up to a universal holiday in celebration of the accession of Czar Nicholas II. Business was suspended. The streets of St. Petersburg were elaborately decorated with the imperial colors and private dwellings as well as public buildings and the foreign embassies, including the United States legation, displayed flags. There were services in all churches and a scene of great magnificence was witnessed at St. Isaac's cathedral, where the official celebration occurred with great pomp. Owing to the absence of the czar and his suite in Germany, only a few members of the imperial family were present, but all the court officials were in attendance.

Paris, Nov. 3.—Count Cassini, Russian ambassador to the United States, and Countess Cassini took part in a brilliant ceremony yesterday at the Russian church in commemoration of the accession to the throne of Czar Nicholas II. Mikado's Birthday Observed.

Washington, Nov. 3.—In observance of the birthday of the emperor of Japan, a large Japanese flag was raised over the Japanese legation early today by order of the minister. Tonight the minister and Mrs. Takahira gave a dinner to the legation staff.

PROMISES SENSATIONS. Princess Radziwill Sues Trustees of Cecil Rhodes Estate for \$7,000,000.

London, Nov. 3.—Princess Radziwill today instituted formal proceedings demanding seven million dollars from Lord Rosebery, Earl Grey, Alfred Beit, Dr. Jamieson, L. L. Michael and B. A. Hawksley, trustees of the estate of the late Cecil Rhodes, under an agreement alleged to have been made in June, 1890, between herself and Rhodes. This is a sequel to the arrest and imprisonment of the princess at Cape Town in 1902 on the charge of forging Rhodes' signature to bills for several hundred pounds. The case, which doubtless will prove sensational, is expected to lead to many exposures, dealing with South African matters, particularly with the Jameson raid and the alleged complicity of former Colonial Secretary Chamberlain therein.

WANTED FOR MURDER. Detectives at St. Louis Pick Up a Desperate Crook.

St. Louis, Nov. 3.—Detectives arrested a couple giving the names of George and Maudie Dolle on a street here last Saturday, and after a close examination at the police headquarters they were taken to Chicago, where Dolle was taken to charges of killing one policeman and wounding another while resisting arrest. Burglar tools were found in the room occupied by the couple here. It is stated that Dolle is wanted in Evansville, Ind., for burglary and jail breaking, and at Cincinnati for diamond robbery.

MACHINISTS LOSE STRIKE. Will Return to Work in Eastern Shipyards Under Former Conditions.

New York, Nov. 3.—Conferences today between the executive committee of the International Association of Machinists and Secretary Huber, of the New York Metal Trades association, resulted in an agreement by which the strike declared last May in the shipyards has been declared off. The men will return to work under the former conditions and will be taken back where positions are vacant for them.

TRAIN KILLS THREE IN OHIO. Steubenville, O., Nov. 3.—A Pennsylvania passenger train today ran down a party of nine Austrian laborers who were walking along the track. Three were killed, the others escaping unhurt.

JOE WALCOTT IS VICTOR. Boston, Nov. 3.—Joe Walcott received the decision over Kid Carter of New York in a fifteen-round battle here tonight.

A bad cold; a good doctor. Ayer's Cherry Pectoral. "Thanks."

INDIAN BAND SEPARATES.

Chase Prosecuted by Poses in Wyoming Is Temporarily Abandoned. Douglas, Wyo., Nov. 3.—John Morton, a member of the sheriff's posse, reports that the Indians have separated and that each party is taking a different trail. The posse was unable to follow the lead and the pursuit was abandoned temporarily.

TURKEY MAKES PROTEST.

Some Points in the Scheme of Reforms for Macedonia Objected to. Constantinople, Nov. 3.—The Turkish government's reply to the Austro-Russian reform statement was communicated to the ambassadors of the two powers this evening. In brief, the Porte receives unfavorably some points in the project and reiterates the sincerity of the government's application of the former measures of reform and the success of its efforts in applying them.

CAR LEFT TRACK AT CURVE.

Conductor Killed and Passengers Hurt in Trolley Wreck in Illinois. Danville, Ill., Nov. 3.—Conductor Lew Lashley was killed and a dozen passengers hurt in a wreck on the Danville, Urbana & Champaign interurban line at Vermilion Heights tonight. The seriously injured are: Willis Chapman, Vermilion Heights; Olive Carmody, Mission Field; Tony Gaston, Chicago; Charles Anderson, Hilliary. A car jumped the track while rounding a sharp curve.

CITES COAL COMBINE.

Victim of Business Riots Demands Their Books in Court. Kansas City, Mo., Nov. 3.—Application on behalf of P. Forsee, a former coal dealer who says his business was ruined by the coal combine, was made to Judge Phillips in the United States district court today for a subpoena duces tecum ordering the coal combine to bring correspondence, books and papers into court to be used as evidence of the existence of such unlawful combination. Counsel for the coal combine objected to such an order on the ground that it was in violation of the fourteenth and fifteenth amendments of the federal constitution, which prohibits the seizure of private papers and exempts a party at law from furnishing evidence to convict himself. Judge Phillips took the point under advisement.

SCHWAB SILENT ON CHARGES.

Accusations of Ship Trust Receiver Go Unanswered. New York, Nov. 3.—The report of Receiver Smith on the condition of the United States Ship Building company was read with a great deal of interest in Wall street. It was stated that at least one and possibly more of the suits to recover from the receivers of the stock, which the receiver contends they got in excess of value received, would be begun shortly. The most likely of these to be tried first is the suit contemplated against Mr. Schwab and the Bethlehem Steel company. None of those accused in the receiver's report had anything to say today. For Mr. Schwab this statement was made by a representative: "Mr. Schwab will continue to refuse to make any statement until he is called to the stand, when he will make an explanation that will be satisfactory."

BISHOP BRONDEL DEAD.

Head of the Catholic Church in Montana Expires at Helena. Helena, Mont., Nov. 3.—The Rt. Rev. John Brondel, first bishop of the diocese of Helena and head of the Catholic church in Montana, died today. Ex-Consul Seymour Succumbs. Madison, Wis., Nov. 3.—Word has been received here of the death of Charles Seymour at Burlington, Vt., aged eighty-three. Mr. Seymour was for many years United States consul at Canton, China. At one time he was prominent in Wisconsin politics. He was formerly postmaster of La Crosse.

DEATH OF MRS. HENDRICKS.

Indianapolis, Nov. 3.—Mrs. Eliza C. Hendricks, widow of the late Vice President Hendricks, died early today from paralysis, aged eighty. She was a woman of great learning and always took great interest in politics. Mrs. Booth-Tucker's Funeral. New York, Nov. 3.—The last rites over the remains of Mrs. Emma Booth-Tucker were performed today at the Salvation Army headquarters and at Woodlawn cemetery, where the interment took place. Judge Estee's Body Arrives. San Francisco, Nov. 3.—The remains of the late Judge Estee arrived today on the steamer Alameda from Honolulu.

PLACES BLAME ON ALVERSTONE.

Canadian Commissioner Talks at Banquet in His Honor at Toronto. Toronto, Ont., Nov. 3.—A. C. Aylesworth, the Canadian member of the Alaskan commission, who has just returned from London, was banqueted last night by the Canadian club and tonight occasion to criticize Lord Alverstone most severely for the decision in the case. He declared it was not a judicial, but a diplomatic decision. Lord Alverstone, he says, changed his mind, but never consulted the Canadians on the change, and gave his decision then without their knowledge. Mr. Alverstone wound up his speech by declaring it would take many such decisions to alter Canadian loyalty to Great Britain, but there probably would never be such another case affecting Canada. Canada, he said, never stood higher in Great Britain and she could now get anything she desired. The whole speech was a successful effort to soothe the Canadian feeling. He declared that Canada could afford to accept the decision, although it meant Lord Alverstone's expulsion from all further cases of the kind.

TODAY'S WEATHER.

Washington, Nov. 3.—The following is the weather bureau's forecast for Upper Michigan: Fair, Wednesday; rain or snow and cooler, Thursday; fresh southwest shifting to northwest winds.

TO CURE A COLD IN ONE DAY.

Take Lavative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

TAMMANY WINS IN NEW YORK

(Continued from Page One.) lican plurality. Although the vote was not heavy, the official figures will show a plurality probably exceeding 100,000. The candidates on the Republican state ticket carried the city by a plurality as large as those given the local candidates. Philadelphia, Wednesday, Nov. 4.—The latest estimates indicate a plurality for Mathews, Republican, for state treasurer, of 217,784.

GARVIN SQUEEZES IN.

Rhode Island's Democratic Governor Gets a Reduced Plurality. Providence, R. I., Wednesday, Nov. 4.—The returns indicate the reelection of Governor Garvin, Democrat, by a greatly reduced plurality.

BECKHAM WINS.

Kentucky Democrats Reelect Their Governor by 15,000 Majority. Louisville, Ky., Nov. 3.—The Republicans concede the reelection of Governor Beckham over Belknap. The Democrats say the majority is 15,000.

Louisville, Nov. 3.—9:30 p. m.—Returns received from the state indicate the reelection of Governor Beckham, Democrat, by a majority conservatively estimated at 14,000.

Richmond, Va., Nov. 3.—The election in Virginia, which was for members of the assembly, resulted in a Democratic sweep of the state.

Jackson, Miss., Nov. 3.—The Democratic ticket headed by J. K. Vardaman for governor was elected today, there being no opposition.

LIGHT VOTE CAST IN IOWA.

Republican State Ticket Is Successful by About Sixty Thousand. Des Moines, Ia., Wednesday, Nov. 4.—The returns up to 12:30 a. m. indicate the reelection of Governor Cummins and the other Republican candidates by a plurality of 60,000. A light vote was cast. At the Democratic headquarters so large a plurality is not admitted. The legislature returns, although not complete, indicate little change from two years ago.

Des Moines, Ia., Wednesday, Nov. 4.—Governor Cummins' plurality is now figured at 56,000. The returns indicate a material Democratic gain in this matter, but the Republicans have a good working majority in both houses.

Des Moines, Ia., Nov. 3.—The returns from Iowa are coming in slowly. Those received up to 10 o'clock indicate a plurality for Cummins, Republican, of 50,000 against 83,000 two years ago. The returns from 120 precincts give Cummins 12,524; Sullivan, 7,577; a Republican loss of 1,300 from the vote of 1901.

Des Moines, Ia., Nov. 3.—Three hundred and fifty precincts give Cummins 40,943; Sullivan, 26,046. The same precincts in 1901 gave Cummins 42,552; Phillips, 23,598.

Governor Cummins said tonight that his estimate was about 60,000 plurality. J. B. Sullivan, the Democratic candidate for governor, at his home in Creston tonight expressed the belief the Democrats had made material gain over two years ago, when Cummins was elected by 83,000, and expressed sympathy with the outcome of the campaign.

Davenport, Ia., Nov. 3.—Returns from 156 precincts show that the Democrats carried Scott county by 500 plurality, against 185 Democratic plurality last fall.

PRESIDENT CASTS HIS VOTE.

Hears Election News on Return to Washington but Makes No Comment. Oyster Bay, N. Y., Nov. 3.—President Roosevelt arrived here at ten this morning. After casting his vote he took a drive to Sagamore Hill and left for Washington at 11:15 o'clock.

Washington, Nov. 3.—President Roosevelt arrived in Washington at 8:10 o'clock tonight from Oyster Bay. He drove at once to the White House. As soon as the train stopped the president was handed the latest dispatches of the Associated Press of the election and stepped under an electric light in the station to read them. He made no comment.

A big crowd was at the Pennsylvania station to greet the president. As is his usual custom, he shook hands with the engineer and fireman on leaving the train.

VATICAN FIRE AN ACCIDENT.

Various Theories Given Out, but Incendiary Story Proves Groundless. Rome, Nov. 3.—Several causes are given for the fire in the Vatican building. One explanation is that a servant of the librarian threw a lighted cigar near his clothes before going to sleep. He is said to have had barely time to escape before the floor of his room fell in. Another theory is that the fire was due to a servant's carelessness in leaving the kitchen fire burning. A third is that it originated from the combustion of acids which M. Marle kept for the purpose of his work in making reproductions of ancient manuscripts and illuminated books for exhibition at St. Louis. The rumors of incendiarism are proved to be altogether unfounded.

RARE BOOK SELLS FOR £600.

Old Volume of Shelley's Poetry Bought by British Bibliophile. London, Nov. 3.—Shelley's original poetry, by Victor and Cazire, one of the rarest volumes known to bibliophiles, was sold at Sotheby's today to J. T. J. Wise for £600. Until recently it was thought that there was only one copy of this book in existence, which is also owned by Mr. Wise.

Daisy—There's nothing like deep breathing and Rocky Mountain Tea to make broad shoulders, a fine figure and good health. Tea or tablet form 35c. Stafford Drug Co.

CURED OF PILES AFTER 40 YEARS.

Mr. C. Haney, of Geneva, O., had the piles for 40 years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap worthless counterfeits. Sold by The Stafford Drug Co., Marquette, and H. N. Meloche, Ishpeming.

COMBES TO STEP OUT.

French Premier Announces His Early Forthcoming Resignation. London, Nov. 3.—A Paris dispatch says that Premier Combes announced today that he will resign immediately after the budget is voted.

Rome, Nov. 3.—The new cabinet headed by Signor Giolitti as premier took oath of office today.

Vienna, Nov. 3.—The new Hungarian cabinet, formed by Count Stephen Tizsa, took the oath today.

WILL REFORM CONEY ISLAND.

Plan to Replace Burned Shanties With Gifted Palaces of Amusement. New York, Nov. 3.—J. Edward Swanton, president of the borough of Brooklyn, threw all his energies today toward the rebuilding of a better Coney Island, particularly a better bovery than the famous old one, which was wiped out by fire. There is little doubt now that the dreams of many devoted progressive showmen of the resort will be realized and that possibly by next spring visitors to Coney Island will find rising from the ashes of the shanties and dilapidated palaces of amusement illuminated with electric light and decorated by the hand of high-class scenic artists.

"OOM PAUL" STILL HOPEFUL.

Boer President Says Future Will See Triumph of Justice. Mentone, France, Nov. 3.—"I do not despair," said former President Paul Kruger of the South African republic, in his reply here today to a telegram from subscribers to La Patrie. "A man of my age has no further earthly expectations, but I have confidence in the justice of God. The younger generation will witness the triumph of this justice and the realization of our experience and patience."

Mr. Kruger is described as being constantly occupied in reading the Bible, as desiring isolation, and as maintaining a dignified bearing. But he is calmly resigned to the events in South Africa. La Patrie asserts that an unwritten article of the will appears, disclosing the fact that the Boers relied on the promises of Germany, but that Great Britain succeeded in gaining German neutrality. It will also be shown, La Patrie adds, that the Boers had planned to cripple British commerce by the fitting out of privateers, "which Mr. Kruger prevented, not wishing to have resort to such a supreme remedy."

TELEGRAPH BY AURORA BOREALIS

Expert Operators Utilize Electric Impulses of Mysterious Phenomenon. St. Paul, Nov. 3.—By utilizing natural electric energy O. C. Greene, superintendent of the Northern Pacific telegraph system, and Assistant Superintendent Bidline of the same department Saturday afternoon performed the notable feat of telegraphing 500 miles without the aid of a dynamo or batteries.

Mr. Greene says the disturbance was the greatest since 1875. It was plainly visible to the naked eye shortly after sunset Saturday night in the form of a red aurora, and the orders given to telegraphers were to send out a signal of pale green light toward the earth. Each time these points descended it charged the electric wires all over the country to such a degree that communication was stopped for a time and disturbed for many hours.

"We found," said Mr. Greene today, "that the electricity from the over-charged atmosphere registered twenty-three millimeters positive back to the same figure negative. A wire leading to Dickinson, N. D., was cleared of all battery and other artificial current and subjected to the atmospheric tests. This line was 560 miles long and was successfully operated a number of times by using only the electricity which descended from the skies."

Attributed to Sun Spots.

Paris, Nov. 3.—The almost complete paralysis of the telegraph system on Saturday last is attracting the attention of numerous scientists, including Camille Flammarion, the astronomer, who attributes it to magnetic disturbances, caused by huge sun spots which crossed the center meridian of the sun on Saturday. Eugene Antoinelli, formerly a co-worker of M. Flammarion at Juvisy, says the disturbance was due to a storm caused by a group of sun spots, 125,442 miles in length. The largest sun spot, according to M. Antoinelli, was 37,200 miles long.

FEDERAL JUDGE IS DENOUNCED.

President Asked to Cause Impeachment of New Jersey Jurist. Philadelphia, Nov. 3.—In a letter which he has sent to President Roosevelt James W. Newlin, a lawyer of this city, urges the impeachment of the United States district judge, Andrew Kirkpatrick, United States district judge for New Jersey.

Mr. Newlin declares that Judge Kirkpatrick "should be impeached because he has brought the administration of justice into contempt," the astronomer, who attributes it to magnetic disturbances, caused by huge sun spots which crossed the center meridian of the sun on Saturday. Eugene Antoinelli, formerly a co-worker of M. Flammarion at Juvisy, says the disturbance was due to a storm caused by a group of sun spots, 125,442 miles in length. The largest sun spot, according to M. Antoinelli, was 37,200 miles long.

CHICAGO GRAIN MARKETS.

Chicago, Nov. 3.—There was plenty of wheat on sale today, but very little demand, and as a result the prices ruled weak the entire day. The opening was weak, due to poor cables, large receipts in the Northwest and Southwest, and favorable weather. December being off 3/8c to 1/2c at 80 1/2c. The outside markets were all lower, and with renewed selling by Armour the December option was especially weak and had a declining tendency from the start. Persistent selling by the big operator caused many recent buyers to turn sellers, and this aided in the down turn. December declined to 79c and closed at 79c 1/2c. A loss of 3/8c. Liverpool was off 1/4c to 1/2c. The shipping demand at New York was moderate, the exchange there being closed. December opened at 80 1/2c to 81c; highest, 80 1/2c; lowest, 79c; closing, 79c 1/2c.

Corn ruled weak, due largely to lower cables and bearish government report. The market also was influenced by the weakness of wheat, which not only encouraged short selling by provision interests, but brought out some liquidation by yesterday's buyers. The market received some support early from the good cash business of yesterday and scattered reports of poor huskings. December closed 3/8c 1/2c lower. It opened at 46 1/4c; highest, 44c; lowest, 43 1/4c; closing, 43c.

Longs were inclined to liquidate their holdings in oats owing to the weakness of the cash article yesterday and to liberal receipts. The weakness of the article also was a help in inducing freer offerings. Commission houses bought sparingly, but the demand was not sufficient to prevent a small loss. December

Scrawny Girls

With Hollow Cheeks and Sallow Complexions May Again Be Plump and Rosy

Many girls have grown old and homely with the best part of life still before them. Something has gone wrong with the seat of life—the stomach. Foods do not digest and consequently there is no new blood. The body becomes a furnace without fuel. It begins to eat itself. The tissues, the muscles, the strength, built up in the past, now go to support life. The once beautiful and healthy girl becomes emaciated, angular, hollow checked and stoop shouldered. Her complexion is yellow and wrinkled. She is a soured old woman.

Dyspepsia does all this. This terrible disease was always difficult to overcome, but we have at last found a positive and permanent cure—Rexall Dyspepsia Tablets. Our new remedy supplies the one element, the lack of which in the gastric juices is the sole cause of dyspepsia. It stimulates the digestive organs to perfect action and enables them to extract the last particle of blood and health and strength from the food eaten. Rexall Dyspepsia Tablets will tone up your system, quiet your nerves, make you sleep sound, show you the bright side of life, clear your complexion and give you the firm, plump flesh nature intended you to have. We give you back your money if they fail to cure you.

Price 25 cents. Sold only at our store or by mail.

THE STAFFORD DRUG CO.

OUTBREAK ON THE ISTHMUS

(Continued from Page One.)

at Colon and that the situation was serious. In addition to the orders given above, late tonight orders were issued to the Atlanta, to proceed at once from Jamaica to Colon. The White House conference broke up about 11 o'clock, but not much beyond the official telegrams received and the orders given could be stated by those participating in it.

There is very general belief that the rejection of the canal treaty by Colombia caused the people of the isthmus to look to the independence of the isthmus, but none of the officials of the administration would authorize any statements to the effect that this was the case.

Outbreak Anticipated at Colon.

Colon, Colombia, Nov. 3.—There is a persistent rumor here that during the last few days a movement has been on foot looking to the independence of the isthmus. Soon yesterday was the time mentioned for its active inauguration, but no event publicly antagonistic to the government of Colombia took place. A rumor is prevalent today that several men are expected tonight. The government, however, is not alarmed and apparently no steps have been taken to quell any anticipated disturbances. This seeming inactivity on the part of the government is looked upon as showing confidence in the reports made by General Obaldia, governor of the department of Panama, who has issued a manifesto, thanking all political parties for the adhesion promised to a revolutionary force was marching in the vicinity of Penonome. In this manifesto the governor also thanked the inhabitants of the department of Panama for the sincere proofs of their patriotism and expressed the hope that they will maintain the same line of conduct and thus save the government the painful duty of adopting stringent measures.

The United States gunt boat Nashville arrived here late last evening. The streets of Colon today presented somewhat the same appearance as during the days of the late revolution. Several hundred troops under General Tovar arrived from Savannah on the Colombian gunboat Cartagena. The Tovar left for Panama today, but the troops still remain here.

A REMARKABLE CASE

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by The Stafford Drug Co., Marquette, and H. N. Meloche, Ishpeming.

CHEAP POSTAGE IN JAPAN.

The cheapest postal service in the world is that of Japan, where for two sen—about seven tenths of a penny—letters are conveyed all over the empire. This is remarkable when you consider the mountainous country and their poor facilities for travel, railroads being very few. The progress made by Hostetter's Stomach Bitters during the past fifty years is also very remarkable, especially when you remember the fact that in spite of all opposition it now occupies the first position as a family remedy. There's a good reason for it, too. It has never failed in the most severe cases of sick headache, belching, heartburn, indigestion, dyspepsia, constipation or liver troubles. Therefore, we urge you to try a bottle of one for your stomach's sake. It will do you good.

THE PAVEMENTS OF LONDON.

First Laid in the Fifteenth Century—Cordova the Pioneer.

The Romans paved both their streets and their highways with stones in a most substantial manner, and, moreover, gave to the former elevated sidewalks; but until the twentieth century mediæval cities were almost all unpaved, while the modern sidewalk is barely a century old. Cordova, paved in 850 A. D., claims to have been the first city so treated; Paris followed her example about 100 years later, but on a much smaller scale, and in London some of the chief streets, commencing with Holborn, were first paved in the fifteenth century. However, the original street pavement was, and long continued to be, an extremely crude affair, in that it consisted of rough, oblong blocks of stone—"cobblestones," set close together, but with little or no attempt being made at the provision of a suitable foundation. Till comparatively modern times the paviers were known for their peculiar exclamation, "Hoh!" or "Hah!" as they brought down the ram, which drove the cobbles into the ground, with a thud.

The beginning of a sweeping reform in the paving of London streets took place in 1762, when the city of Westminster abolished cobbles and substituted blocks, or "sets," of Scotch granite, laid on a suitable foundation. Other metropolitan parishes soon followed the example. In 1834 the first of many attempts was made to pave the streets with some material that would produce less noise, better facilitate traction and be more hard-wearing than granite blocks. Cast iron in square pieces, suitably shaped, rougher, and dove-tailed, was laid down in Blackfriars road and Leicester square, but the experiment turned out a failure. In 1820 many of the west end thoroughfares were macadamized; "quackadamized," Sydney Smith called it. In 1839 further elaborate experiments were made in Oxford street, the space from Tottenham Court road to Charles street being laid with a dozen different kinds of pavings in stone, wood, bitumen, asphalt, or some other material. "The portion to which attention was more particularly directed," says the Mirror, "was that of the blocks, the tendency of which appeared to be rolling over a thick carpet or rug." But the Russians had been many years ahead of the rest of Europe in the matter of wood paving. In the "Travels of Sir Anthonie Shenle," published in 1601, "the streets of Moscow" are mentioned as "being paved with square pieces of timber sette close one by another."

The Oxford street experiments being somewhat in advance of the age, the roadway remained unaltered till 1847, when the worn-out materials were removed, and a new granite pavement was on a concrete foundation, as patented by Walker, the inventor of the modern sett pavement, effected. The subject, in fact, appears to have elicited little public interest, though for some inexplicable reason a dead set against the idea of wood paving was maintained by certain bigoted individuals. For example, Sir Peter Laurie, an ex-lord mayor, announced it his resolve as strongly to oppose all wood paving as he was to "put down suicide." Nothing further was done in the matter of improving the paving of London streets till 1859, when asphalt was reintroduced, and began to be much used. Then, in November, 1872, the improved wood pavement company put forth a prospectus, and in May, 1876, wood was reported to be the best pavement for London. Most of the principal west end streets adopted the improved paving between the years 1870-81. In 1885 granolithic stone was laid in a plastic state in the Strand and other places, but proved a failure. The ideal pavement should provide a noiseless surface for the passage of vehicles, offer the least resistance to traction, consistent with a foothold for horses, be easily cleaned, impervious to moisture, retain no filth within it, and produce from itself no odor or dust.

Let us now trace the evolution of the footway. In France the footway is, unusually speaking, distinguished by the term "trottoir," in Ireland as "the flags," and in our own colonies and in America as the sidewalk, but in this country the term pavement is applied both to the roadway and the footway, and must be taken to represent the generic name of both. Sidewalks were paved long before elevated footways were heard of. In London the genesis of the footway took the form of posts, to draw a line of demarcation for the protection of the foot passenger. These posts were instituted at about the same time as the Scotch pavement was introduced. There is the pen picture of Dr. Johnson, when describing Paris as he found it in 1815, that at that date elevated footways were known in London, but not in the French capital. Speaking of that then magnificent new thoroughfare, the *Champs Elysees*, he says: "But even the Emperor Napoleon, in the height of his dignity, dared not introduce the novelty of a pavement on each side. This would

GET DOWN TO FACTS.

Read What Marquette Citizens Say.

Get down to the facts of the matter. Don't take a stranger's word. It is easier to prove the truthfulness of statements made by citizens of Marquette than endorsement coming from some far-away place. Read the following: Mr. C. C. Young, 127 E. Michigan street, painter and decorator, says: "I had such pains through my back and loins at times that I could scarcely keep at my work. The kidney secretions became affected, were highly colored, unnatural, irregular, and deposited a heavy dark matter. I felt not well, comfortably at night, lay awake for hours at a time and was rarely able to secure more than three or four hours' sleep during the night. I saw Doan's Kidney Pills advertised, procured them at the Stafford Drug Co.'s store and began to use them. I felt relief almost at once. They relieved the irritated condition of my nerves. I was able to enjoy a good night's rest and arose in the morning feeling strengthened and refreshed."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name Doan's and take no other.

indeed, to have destroyed that equality between horse and foot, walkers, drivers and driven, which appears to give such delight to a Parisian, that if you extol to him the safe pavements and footpaths of an English street, or road, he will answer with polite composure: "C'est tres bien pour Messieurs les Anglois, pour moi j'aime la totalite de la rue." It is generally understood that London was paved with flagstones between 1811 and 1825. Lastly, the street refuge is peculiarly an English, or rather, a London, institution, and the first as ever was, erected at the north end of St. James street, in 1853. The expense was defrayed by Mr. Pierpont, who from being a member of White's and the Turf club, then in Arlington street, was constantly crossing the thoroughfare at this point. The foot of the old lamp-post in the center of the refuge, removed in 1897, when an electric lamp standard was substituted, was inscribed, "Pierpont's Refuge, 1853." The very day this refuge was opened to the public Mr. Pierpont was run over and killed by a hansom in another part of London—London Globe.

DUST IN LONDON STREETS.

Steps Being Taken to Lessen the Objection to Automobiles.

It is hoped in London that by next summer the nuisance of dust stirred up by motor cars will be very greatly alleviated. The Hon. John Scott-Montagu, the editor of The Car, is raising a fund for experiments in this direction, and hopes to secure a sufficient amount to deal with the matter in a thoroughly practical fashion. "Westrumite" Limited, are also making some experiments which should prove very useful. They have treated several sections of road with their material, "Westrumite," and the results at present are quite excellent.

"Westrumite" has been laid on the Old Windsor road, and on the lower part of River Hill, which lies between Sevenoaks and Tonbridge.

A fast motor car was recently ridden over both sections of road. In each case there was not a trace of dust so long as the car was traversing the road, which had been treated, while immediately this was left the usual horrible cloud arose.

"Westrumite" is the invention of a German chemist, by name Van Westrum, who, being practically expelled from his own country, which was on the highway in a suburb of Berlin, by reason of the dust raised by passing motors, set himself to find a remedy, and found it in a preparation of petroleum and ammonia, which is soluble in water. It has been adopted in Frankfurt and Dresden by the councils of those two cities.

It is claimed for "Westrumite" that 5 per cent of the liquid, added to 95 per cent of water, is sufficient to lay the dust on any ordinary road, and that having once been sprinkled the road will be free from dust for a period varying from two to four weeks, according to the amount of traffic on it. It is claimed that the material is a disinfectant, that it prevents both dust and mud, and, consequently, to a great extent wear and tear. It is non-inflammable, and it is not so sticky as some of the main clothes should it fall upon them.

The benefit derived from the disappearance of dust would be sufficient to commend it, even if it involved the ratepayers in an increase of their rates; but although the cost of the material is £10 per ton, yet the saving in the cost of water and of labor involved in the existing processes of laying the dust is so great that the ratepayers can treat their roads with "Westrumite" without any additional expense whatever to themselves, while, on the other hand, there should be a corresponding "saving" on the point of view of maintenance.

The best-known test at present is that of the Gordon Bennett race, where certain portions of the road were treated with this material, and ten weeks later, according to the report of a road expert, the road in London, are in almost as good a condition as are free from dust and mud as on the day upon which they were treated. Of course, roads in a country district are not subjected to heavy wear and tear.

The first cost of treatment of a thirty-foot wide road in London, are in almost as good a condition as are free from dust and mud as on the day upon which they were treated. Of course, roads in a country district are not subjected to heavy wear and tear.

No special machinery is required for purposes of spraying, the "Westrumite" being put into the ordinary water car, which is then filled in the usual manner.

It is a point in favor of "Westrumite" that there is no need to close the road during its application. All that is required for it is from two to four hours rest after following the treatment, and, of course, while still wet, the less traffic the better. After this period, of say, four hours, rain has the effect of improving the surface.

There is no question that the dust nuisance is the main cause of the antipathy which the majority of the public feel toward motor cars. Were a car able to go along on a dusty road without rendering itself objectionable to everybody in the neighborhood the greater part of the illfeeling which has been evoked would never have arisen; and we are confident that were it to become possible for motors to travel without raising the suffocating clouds of dust which now accompany them, motorists and the non-motoring public would very shortly be on much more friendly terms.—London Express.

CURSE FOLLOWS A FAMILY.

Singular Malediction Fulfilled in a Historic English House.

The Erskine family, the youthful head of which, the twelfth earl of Mar, has just attained his 38th year, provides one of the strangest and most terrible curses on record. By some the curse has been attributed to Thomas, the Rhymer; by others to the abbot of Cambuskenneth and by many to the bard who was attached to the house of Mar just prior to the elevation of the earl in 1751 to be regent of Scotland. It is a most comprehensive curse, but local tradition claims that it has been fulfilled, in every detail, not only in the banning, but in the blessing with which it concluded. The "proud chief of Mar" was assured that his work would be cursed and never finished and that only when an ash sapling sprang from the topmost bower of his ancient tower would the sorrows of his family be ended and the "sunshine of royalty beam on them once more."

The earl to whom the curse was delivered destroyed Cambuskenneth abbey and with the stones began to build a palace at Stirling. It was never finished and is still known to the people and punningly as "Marr's work." Other clauses in the curse received strange fulfillment and the predicted ash sapling was found on the "topmost tower" between the years 1815 and 1820. In 1822, when George IV. visited Scotland, he restored the estates which had been forfeited for the family's support of the Stuarts. Finally Queen Victoria accidentally met the countess in a room at Stirling castle, spoke with her and kissed her on parting. Thus, in the words of the curse, "the kiss of peace was given to her, though she sought it not," and another prediction justified.—London Chronicle.

HAD THE FASTING HABIT.

Missouri Pauper Lived Fifty-Seven Days Without Eating Food.

William Sorrell, who died in the infirmary at Huntville, Sept. 1, starved himself to death. In a fit of insanity he set out to fast eight years. He lived without food fifty-seven days and then expired. This gives an inadequate idea of the record he made, however. He had been in the infirmary four years. He worked on the farm until three months ago. Then he became violently insane and went without food a week. Later he fasted seventeen days. "This pleased him so well," says a correspondent, "that he made the third trial and lived twenty-seven days without eating. Between fasts he would eat regularly as ordinary people do, but the periods of eating would not continue long enough to enable him to regain his natural vigor."

It was on June 6 that he started on this intended eight years' fast, and there is no doubt that he would have gone through it but for the interference of death, for all expedients had been exhausted to get him to eat, and without the slightest success. He might have lived longer, but that he drank little water and daily diminished the amount. Sorrell's case is a complete vindication of the teaching of the fasting cultists. It shows that fasting will cure all ills if only long enough persisted in.—Macdon, Mo., Republican.

THE NEW DENSMORE No. 6

Is now ready for the market. This machine takes an 11 1/2 inch paper and writes a 9-inch line. We furnish an extra, interchangeable, narrow carriage with this machine, and thereby combine two machines in one. This is ANOTHER exclusive feature of the "World's Greatest Typewriter," and should be much appreciated.

The Densmore Does More!

If you require a wide carriage machine, examine the new DENSMORE NO. 6 before purchasing. Descriptive catalogue sent on application.

Machines for rent, from \$5.00 per month up.

You Can Be Cured.

No. 11 Cedar Terrace, Hot Springs, Ark., April 20, 1903.

When I was first married I found that my strength and health were gradually diminishing. I became nervous and irritable, and was in bed a week and sometimes ten days of every month, and had intense bearing down pains. My husband had the best physician for me and I used his medicine for nearly four months, but I gradually grew worse, had less strength, and finally, I was unable to leave my bed at all.

A friend who was calling on me brought me a bottle of Wine of Cardui and was so fond in its praise that I told her that I would take it to please her. I was surprised and pleased that before I had used the bottle I really felt better, so I kept on using it. Eight bottles brought back my lost health and strength, and I have not had a sick day in six months.

Wine of Cardui and was so fond in its praise that I told her that I would take it to please her. I was surprised and pleased that before I had used the bottle I really felt better, so I kept on using it. Ishpeming and its Environs.

STILL UNDECEDED.

FAVOR POLICE COMMISSION.

Place of Championship Game Not Fixed—Team Meets Ironwood Saturday.

Plan Suggested When Charter Was Revised Is Considered Practical.

The scene of the championship game between Ishpeming and Escanaba is still in doubt. The local management still insists that it shall be played on the home ground and Escanaba is fully as determined that it shall be played elsewhere. The board of control of the inter-scholastic association will probably settle the question if an agreement is not arrived at pretty soon. Ishpeming fans are beginning to feel much more confident of holding Escanaba to a close score at least and there are not a few who will be disappointed if the Blue does not retain the championship for another year. With increased confidence more interest is being taken in the game and when it finally occurs excitement will no doubt run as high as for years.

The game will be played Saturday, Nov. 14. The Ishpeming school team goes to Ironwood Saturday to play a return game with the team that met defeat here on Oct. 17. The game is not a scheduled contest and will, of course, have no effect on the championship. Ironwood is said to have improved considerably since the eleven was here. A week ago Saturday the team defeated Ashland by a score of 34 to 0. Ironwood will also have the advantage of being on her own grounds, which will no doubt be a considerable factor in bracing up the eleven.

Ironwood enters Duluth's class by defeating Ashland. Several weeks ago Ishpeming's friends from the head of the lakes played with Ashland and gained a decisive victory, the score being 34 to 0. Duluth was beaten by the tenth consecutive time by the Minneapolis Central high a short time ago, by a score of 28 to 0. If any comparisons can be drawn from the figures of the Ironwood and Ashland scores, the results might show that Dr. Sweetland was not much mistaken when he said that "We can beat Duluth if they are willing to play with us."

ONLY MAKES A BAD MATTER WORSE.

Perhaps you have never thought of it but the fact may be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and gentle in their effect, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them. For sale by The Stafford Drug Co., J. M. Perkins, Negaunee, Henry Harwood, Ishpeming.

ISHPEMING IN BRIEF.

A son was born to Mr. and Mrs. Ted Murray Monday.

Mrs. M. M. Allen left yesterday for a visit with her parents at Danville, Ky. Trombly's orchestra will give its regular weekly pop tonight at Anderson's Hall.

Miss Jennie Kilstrom has taken a position as clerk at Roberts' jewelry store.

Memorial services in honor of Mrs. Booth-Tucker will be held at the Salvation Army barracks Sunday afternoon.

Tom, Hughes and Lou, Toulloff went to Moore's camp, north of town, yesterday to remain until after the opening of the deer season.

Mr. and Mrs. G. G. Greenway, who had been visiting their son, John G. Greenway, left yesterday for their home at Hot Springs, Ark.

Miss Kate Ready returned to her home at Ironwood Monday after spending several days here, the guest of her sister, Mrs. Miles Butler.

There were nineteen deaths in the city during the month of October, the same number as in September. During October, 1902, there were sixteen deaths.

August Hendrickson is remodeling the upper story of his building on Cleveland avenue. Two rooms will be finished off and used to accommodate part of the stock.

Miss Etta M. Brown, aged sixteen, the daughter of Gust Brown, 318 North Third street, died Monday. The remains will be sent to Amberg, Wis., today for burial.

A chicken pie supper will be given by the Ladies' guild of Grace church tomorrow, from five until seven, at the guild hall. The charge will be thirty-five cents.

The funeral services of the late William N. Lynch will be held tomorrow afternoon at 2:30 o'clock from the Presbyterian church, starting from the residence at 2 o'clock.

Rev. Alex. Danskin, of Detroit, representative of the Michigan Presbyterian, arrived yesterday and will spend a few days in town in the interest of the church publication.

Victor Pikkumaki, who was convicted of stealing \$104 from one of his countrymen and was captured at the Soo, was taken to Marquette yesterday to serve a sentence in the county jail.

H. O. Young and wife left yesterday evening for Washington, where Mr. Young will take his seat in the house of representatives. They will remain throughout the special and regular sessions of congress.

An entertainment and supper will be given in the parlors of the Methodist church Thanksgiving eve. The principal feature of the entertainment will be a series of tableaux representing the first Thanksgiving, observed by the Pilgrim fathers in the early days of New England.

The remains of Mike Savant, the murdered Italian, were interred with much pomp and ceremony yesterday afternoon. The funeral was held from St. John's church. The entire membership of the local Italian society, supplemented by many Italians from Negaunee, were out in full regalia, with caps and uniforms, and many wore swords. A dozen carriages or more were in the procession.

WELCOME AS SUNSHINE after a long storm is a feeling of relief when an obstinate, pitiless cold has been driven away by Allen's Lung Balm. Only people who have been cured of throat, chest or sore lungs by this remedy can quite realize what the feeling is. There is no oil in the Balm; its good effect is radical and lasting. Take a bottle home today.

Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. Sold at Desjardins' Pharmacy.

Upper Peninsula.

Bridge Is of Steel—The American Bridge company of Chicago is building a steel bridge over the Escanaba river at Wells. Under the contract the bridge must be completed and open for service by Dec. 1.

Many Years' Justice—Judge Vanderberg, a justice of the peace at Menominee, has officiated in that capacity for the past thirty-three years. He was one of the first justices elected in that city and is booked to continue in office as long, evidently, as he desires.

An Old Gun—J. R. Brooks, of Menominee, owns what is said to be the oldest shotgun in the upper peninsula. It was brought in this country from Germany over 100 years ago, and though it lacks some of the modern improvements shoots just as accurately as an up-to-date weapon.

A Big Purchase of Poles—The Western Union Telegraph company has bought upwards of 120,000 telegraph poles from Lindsay Bros., the Naugle Tr company, C. J. Huebel and Baber & Watson of Menominee. Most of the stock is long poles and the total amount paid is in the neighborhood of \$50,000.

Too Heavy for the Bridge—The steam road roller recently purchased by the city has arrived at Marquette, but an unlooked-for complication has arisen. Owing to its weight the roller cannot be taken across the iron bridge that connects the East and West sides. It will be necessary to load the roller on a car and have it transferred over the railroad bridge.

Copper Near Ironwood—The North Star Mining company is exploring with much encouragement in its explorations on section four, three miles north of Ironwood. A shaft is being sunk in an amygdaloid vein twenty-five feet wide, and from a depth of thirty feet the mines are getting much rock that is well charged with fine copper. At a depth of fifty feet it is expected that the character of the vein can be accurately determined.

Creamery for the Soo—J. N. Mallery, representing a Clinton (Iowa) manufacturing company, has been making a canvass of Chippewa county for the purpose of securing endorsement from the farmers relative to the installation of a creamery at the Soo. He states that he was given the glad hand everywhere and that the prospects for the successful issue of his plans are good. He will return in the spring prepared to carry his plans into execution.

Small Timber Now Utilized—This is an age of small timber with Menominee lumbermen and everything in the lumber line, no matter how small, is being utilized in some way. One concern is having some poles put in less than three inches through. These will be cut and used for box shooks. All the jack pine is also being put in and manufactured into box lumber. When a "forty" is cut over now, it is stripped of all timber. The amount of cedar to be put in this winter will be greatly decreased and it will have its effect on the little jobs all over the northern country who a year ago were all busy getting out cedar stock.

Junk Dealers Warned—Chief of Police Burdick of the Soo has sent out notices to all the junk dealers in the city calling their attention to the law governing the purchase of junk from children. According to the provisions of the statute no dealer can legally purchase stuff from a person under sixteen years of age unless he has the written consent of the parents, and a heavy fine is provided for violation in any manner. Chief Burdick gives warning that from now on it will be strictly enforced, according to the orders of the council. For some time past the authorities have been troubled with the petty looking creature that was lengthily brought alongside the boat, and there was debate, after it was gaffed, as to whether it would be a welcome addition to the crew.

Hung up on the rack here, the creature began to exclaim comment. To the casual observer it was but a moonfish, rather unusual catch, but occasionally caught and brought in by being entangled in the fishermen's nets. This, however, was caught with a hook on rod and reel, something unknown to fishermen hitherto. A glance at the fish also showed a radical difference between this and the swordfish. Its sword is not so long as that of the genuine swordfish of this length; the lower jaw is unduly elongated; it had on its back a collapsible fin, which when extended, stands up 13 inches above the fish, but folds down into a groove until it is unnoticeable; the tail is like the screw of a propeller, and very similar in appearance to that of the tuna. The fish sharps are all guessing. The like of this has not been seen here before, nor can any enlightenment be had from any books on the subject to be had here.

The strange creature is nine feet long and weighs 125 pounds. The sword is twenty-four inches long, and the tail is thirty-nine inches across. Los Angeles Times.

COFFEE DEMONSTRATION.

A representative of Sprague, Warner & Co. will demonstrate the firm's coffee at our store during the week of Nov. 2, beginning Monday morning. The ladies are invited to call. Boys and girls will be given drawing books. The boy submitting the best work will get a football, and the girl winning in the competition will get a \$3 doll. A. W. Myers Mercantile Co. (10-30-1w)

SOME HINTS FOR DETROIT.

Although certain of Detroit's business men have been considering ways of winning the trade of the Soo and other towns in the upper peninsula, it is evident from the expressions heard among the people of this city that Detroit will not get any business in this part of the country, especially in Sault Ste. Marie, until the Wolverine metropolis mends her ways in regard to the views she holds regarding the business methods of the northern part of the state, comments the Detroit Telegraph. Toledo, O. Hal's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

HAL'S FAMILY PILLS ARE THE BEST.

Tilson has received a new supply of the Cadarett Johnson county map. The road and camp feature on this map makes it especially valuable to hunters. (10-29-1w)

PHYSICIANS PRESCRIBE IT.

Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for throat and lung troubles as this great medicine. Sold at Desjardins' Pharmacy.

MONSTER WIELDS A SWORD. Strange Marine Creature That Is Armed to the Teeth.

Edward Llewellyn, a cornet soloist of the Catalina Island band, is proving one of the most enthusiastic and picturesque anglers this season. Last week he made the record in the fish line, when he caught 425 pounds. This morning he thought he would inscribe the tuna record also on his diadem, and, taking the Catalina, hiked out after the biggest specimens of the tiger fish to be taken. He had unhooked but a small portion of his stock of patience when his reel began to whirl. And then it whizzed. By consummate skill Llewellyn prevented the fish from getting away in the first grand rushes, and then he began on the aggressive.

For an hour and twenty-one minutes a fierce fight lasted. It was a formidable looking creature that was lengthily brought alongside the boat, and there was debate, after it was gaffed, as to whether it would be a welcome addition to the crew.

Hung up on the rack here, the creature began to exclaim comment. To the casual observer it was but a moonfish, rather unusual catch, but occasionally caught and brought in by being entangled in the fishermen's nets. This, however, was caught with a hook on rod and reel, something unknown to fishermen hitherto. A glance at the fish also showed a radical difference between this and the swordfish. Its sword is not so long as that of the genuine swordfish of this length; the lower jaw is unduly elongated; it had on its back a collapsible fin, which when extended, stands up 13 inches above the fish, but folds down into a groove until it is unnoticeable; the tail is like the screw of a propeller, and very similar in appearance to that of the tuna. The fish sharps are all guessing. The like of this has not been seen here before, nor can any enlightenment be had from any books on the subject to be had here.

The strange creature is nine feet long and weighs 125 pounds. The sword is twenty-four inches long, and the tail is thirty-nine inches across. Los Angeles Times.

Like a Comet

This famous remedy does the work of health to the weak and weary dependent, dyspeptic, curing all ailments, even if but slightly disordered or overburdened.

Kodol

supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles and membranes of that organ are allowed to rest and heal. It cures indigestion, flatulence, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the glands, membranes of the stomach and digestive organs.

Kodol Dyspepsia Cure

Your Dealer Can Supply You. Bottles only \$1.00 Size holding 2 1/2 times the trial size, which sells for 50c. Prepared by E. B. SWITT & CO., CHICAGO.

Sold by Stafford Drug Co., Marquette, and H. N. Meloch of Ishpeming.

DO YOU WANT 12% INVESTMENT? Everything favorable for an increase in both dividend and value of principal. Call or write. F. M. Delano. Detroit, Mich. 10-28-1w

MICHIGAN COLLEGE OF MINES

A state institution located in and making use of an active mining district. For Year Book giving list of graduates and their occupations, apply to President of University, Houghton, Mich.

AS OLD AS THE PYRAMIDS

That blood poison existed among the ancients has been proven beyond question. It has been traced back thousands of years, and is as old as the Pyramids. This blighting curse has been handed down from nation to nation and from individual to individual till it has spread to all parts of the world.

Contagious blood poison, as it is called in modern times, begins with a small sore or ulcer through which the virus enters the blood. This is followed by inflammation and swelling of the glands of the throat, and as the disease takes a deeper hold and the blood becomes more thoroughly infected, the hair and eyebrows drop out, the skin is spotted with copper-colored spots, the bones and muscles ache, and it seems to the victim of this monster scourge there is not a sound spot in the whole body.

The horror of this awful disease can never be told. The one who contracts it suffers in body and mind, and if the poison is not eradicated transmits the taint to his children, and Contagious Blood Poison thus becomes responsible for many of the ills of childhood—Skin Eruptions, Catarrhal Troubles, Sore Eyes, Scalp Disease, White Swelling, Scrofula and others just as bad. S. S. S., the great vegetable blood purifier and tonic, has long been recognized as a radical and safe cure for Contagious Blood Poison. It counteracts the deadly virus and cleanses and purifies the diseased blood, and under its tonic effects the general health improves and soon all signs of blood poison are gone. The strong mineral remedies, Mercury and Potash, which are so often prescribed for the disease, dry up the sores, skin eruptions and all external signs, but leave the stomach and digestion ruined and the system in such condition that the disease usually returns in worse form than ever.

S. S. S. is guaranteed a purely vegetable remedy. \$1.00 is offered for proof that it contains a single mineral ingredient. If you have blood poison write for our special book, describing the different stages and giving all the symptoms, with directions for treating one's self at home. Our physicians will furnish any information or advice wanted free of charge.

KILLED BY THE CARS.

Body of Charles Holm Found on Railroad Track Yesterday Morning.

When Will Argall and John Williams, of the Negaunee & Ishpeming street railway, were driving the passenger car on the track to the power house at an early hour yesterday morning they discovered the mangled remains of a man lying across the track near the diamond crossing. The section boss, who lives close to hand, was notified and the body was conveyed to the undertaker's home here, where the body was identified by Ola Johnson as that of Charles Holm, a section employe on the Northwestern.

Holm had been working at Sands for several months. He had been transferred to the section four days before the accident at a place near the section foreman's home at the South Jackson location. He arrived in Negaunee on the freight Monday noon and spent the rest of the day here. It is said that Holm drank heavily whenever he visited town. He imbibed freely Monday afternoon and when last seen late in the evening he had started out for his new boarding place, having made arrangements to have his trunk and effects taken there Tuesday. He likely went down the railroad track, as that is the shortest route.

The body was found with one foot firmly wedged in between two slender strips of wood. The body was lying across one of the rails. The car wheels completely dismembered one leg, passing from the thigh almost to the arm, and grinding the body diagonally across the trunk. Death must have been almost instantaneous. It is thought that the man was struck by the fast freight on the Northwestern. It passes through here at 12:30 a. m.

Holm had no family in this country but his friends say that he has a son living in the old country. He had lived here and in this vicinity for years and had many acquaintances among his countrymen. He was about thirty-five years old. Besides carrying a life policy of \$500 in the Danish Brotherhood he left a considerable amount of money in the possession of his landlord.

LOST THEIR HORSE.

Gaffney and Buzzo Had a Laughable Experience Sunday.

T. F. Gaffney and Tom Buzzo had a laughable experience while out hunting Sunday. They set out early in the morning for a place north of Eagle Mills, driving a horse and buggy. The horse, considered docile and reliable. On arriving at their destination they fastened the steed to a tree and started off into the bush. They enjoyed an excellent day's sport, and reached the spot where they had left the buggy late in the afternoon. They found that the horse had broken away from the shafts, and snapped its tie strap.

It took the two men some time to recover from their surprise sufficiently to express their feelings. A search through the surrounding timber was unavailing; the animal had clearly gotten away. But the buggy had to be brought home, horse or no horse, so the disgruntled hunters proceeded to make beasts of burden of themselves. Gaffney went ahead in the shafts, while Buzzo pushed. When they came to a bad stretch of road both would go from tandem. The road was heavy in several places, as the sand is pretty deep in the neighborhood of Eagle Mills. Before a mile was covered Buzzo's lame foot began to

THE RED-HAIRED WOMAN.

She Is Warm-Hearted and Demonstrative, and Makes a Good Wife.

In the matrimonial market the favorite hue for hair is red—not auburn, but red of an uncompromising shade, that glints in the sunlight and warms the heart with its radiance. At least, such a girl seems to be the case, for a red-headed old maid is almost unknown, asserts the Pittsburg Leader. As a wife, a girl with bright locks is a success, if you catch a mild one, according to many a man who has married a red-headed beauty. She makes life at home a bright and happy one. She is warm-hearted, affectionate and demonstrative. She is buoyant in spirits, her nature being as bright as her hair. She is ambitious and, as a rule, she is cleverer than her dark-haired sister. The brighter her hair, the cleverer she is. Of course, they are exceptions to this rule, but they only prove the rule.

In Spain, a woman with red hair is so seldom seen as to be considered a great beauty, no matter what her complexion, the shape of her nose or the tone of her voice.

In China they have no bright-haired women, or so few that one with bright, glowing locks is regarded with wonder and awe. In New Zealand a red-haired woman is considered as on the right road to paradise.

On the other hand, in Egypt the red head is regarded with aversion. The ancient Egyptians explained this by supposing to hair of this tone that once a year they burned a maiden who possessed bright locks, in the hope of exterminating or lessening what they considered a curse.

Sentiment aside, people of the carrot-head type are a very gigantic and they are less liable to baldness than those who own brown or black hair. The reason thereof is that one red hair is as thick as three dark hairs. With 70,000 red hairs the scalp is well thatched. With the same number of dark hairs a person is almost bald. The average number of filaments that the brunette possesses is 102,000.

As to red hair in the masculine matrimonial market, in Munich a club of girls has been formed, the members of which pledge themselves to the old maid rather than marry any but a man with red hair. They are under the delusion that the most devoted of husbands have fiery heads.

CHRONIC DIARRHOEA CURED.

Mr. Walter Richardson, of Troutville, Va., had an attack of diarrhoea, which was very bad, and he had failed to relieve him and the disease had become chronic when he began using Chamberlain's Colic, Cholera and Diarrhoea Remedy. It soon cured him and he now recommends that preparation whenever an opportunity offers. For sale by The Stafford Drug Co., J. M. Perkins, Negaunee, and Henry Harwood, Ishpeming.

The new-Marquette county map, with a special feature of roads and camps for hunters' use, is on sale at Perkins' drug store. (10-29-1w)

ALEXANDER.

There was a chap who owned a store and often wished it grander. He sold his goods to all who came—His name was Alexander.

He mixed his goods with cunning hand, (He was a skillful brander). And since his sugar was half sold They called him Aleck Sander.

He had a sweetheart (pretty maid), Admiringly he scanned her. And asked her if she'd change her name, A ring did Alex-hand-her.

"Oh, yes," she said, and sweetly smiled, "If I may be commander!" And thus they formed a partnership. The firm name, "Alex & Her."

TERRIBLE RISKS.

Will Be Taken If Trains Are to Run at 100 Miles an Hour.

The German engineers are spending a large amount of time and money on experiments whose aim is the production of an electric or steam locomotive which can run 100 miles an hour, says the Engineering News. According to a cable dispatch they succeeded last week for the first time in reaching 100 miles an hour; but the question which naturally suggests itself to railway engineers in the United States is, who wants to travel at such speeds? Side by side with the speed records of this German experiment we would set the discussion which took place on the location of distant signals at the recent meeting of the Railway Signaling club, reported in our last issue. The signal engineer of a leading railroad there stated that he had not been able to work satisfactorily a mechanical signal with a greater length of wire than 2,000 feet.

It is well known that if trains are to be run with safety under the block signal system from the spacing of the distant signal from the home must be proportioned to the speed of the fastest trains. The distant signal tells the engine runner that the home signal stands at danger and that he must stop his train before reaching it. The faster the train is running the further back must this information be given him. With present train speeds it is not uncommon to place the distant signal 2,500 feet back of the home; and if this is a proper distance for sixty mile an hour trains, then for 100 miles an hour the distant signal ought to be placed at least 7,500 feet back.

But trains are run a large share of the time when the signal cannot be made out at 1,000 feet, or anything like that distance. They are often run when a semaphore cannot be clearly seen till one is within, say 200 feet. Under such conditions the engine runner would have just one and one-half seconds to decide whether his train were dashing on to safety or destruction.

Numerous other considerations might be cited to show that whether it be practicable or not to attain 100 miles an hour in a burst of speed, it is not practicable on railways carrying a general traffic to run trains at speeds very much in excess of the highest now attained.

AGED BUT ARDENT WOOER.

Millionaire Weds Pretty School Teacher After Pursuit to Europe.

Many romances have been the lot of Mrs. Sarah J. Fowler, a teacher in the old more happily dreamt of when Mrs. Lockport (N. Y.) high school, but none has ended more happily than the last, when she and Joseph P. Dudley, representative of the Standard Oil company and a millionaire, were married in the First Presbyterian church. Dudley is 72 years old and Mrs. Fowler, who is beautiful, is 40. Besides being a school teacher she is well known in Lockport society and is a clubwoman. She is president of the Lockport Saturday club and an officer of the Western New York Federation of Women's Clubs.

The courtship of the school teacher by the old millionaire has not been unknown to Lockport gossips, for his automobile was often seen outside Mrs. Fowler's modest home. Mrs. Fowler has lived in Lockport since she became a widow. She has had many admirers and one young man whose suit she repulsively committed suicide. In a note he left behind he said his hopeless love was the cause.

It is said Mrs. Fowler accepted Dudley's offer of marriage after much hesitation. In July she sailed for Europe with the wealthy prospector, leaving Dudley in Buffalo. She had deferred her answer until her return in the autumn. But Dudley could not endure the suspense and he followed her across the sea. They met in London, and there he obtained her promise. He wanted to be married in London and arrangements for a wedding in the consul's office were advanced when Mrs. Fowler said the "red tape was annoying" and sailed for America.

Dudley met Mrs. Fowler in the Waldorf-Astoria in New York a few days ago, and her apartments were made gay with American beauty roses. Again Dudley pleaded for an immediate wedding. Mrs. Fowler refused and said she preferred to be married in Lockport. To that he consented, and the date was a compromise.

Editor Stecker has been living among the Mexicans for a dozen years now, and he testifies that the love of gambling is born in them. Everybody buys lottery tickets. The chief attractions at all Mexican fairs are the ball games and the gambling games. When he was new to Mexican ways the gambling in Linares astonished him. He knew it was contrary to Mexican law, yet he saw games running in the town hall itself and in school houses. Another thing that puzzled him was a monthly lottery of this sort in the official paper of Nuevo Leon: "Several public spirited people of this city have given \$3,333.33 toward the construction of the state capital building." Being in Monterrey one day he asked the commissioner of schools about it. That functionary explained that the queer looking gifts were monthly installments of the sum demanded and paid for the exclusive gambling house privilege in the city.

That's the sort of thing that is going on pretty nearly all over Mexico except in the federal district (the capital) and its environs, where the President Diaz is enforcing the law, and where four government clerks were summarily hanged the other day for throwing dice. The governor of Tamaulipas is one of the best men in the republic—educated, enlightened, moral no gambler and no friend of gambling. Yet he recently sold the exclusive privilege in Tampico for \$39,000 a year. Editor Stecker is personally: "As every one will gamble, no matter what laws are made," said Gov. Pedro Arguelles. "It is my opinion that it is better for the gamblers to pay their cash to the state direct rather than to corrupt the judges and the police with bribes to shut their eyes." Hartford Courant.

DOING THE RIGHT THING.

The trouble begins with tickling in the throat and a nagging little cough. Soreness in the chest follows and the patient wonders why he is coughing. He gets all winter cold. Probably, if he does the wrong thing or nothing, "Chestnut" will be his. Perry Davis' Pinkettes, the stomach oil remedy that cures a cold in twenty-four hours. There is but one Pinketter, Perry Davis.

ANXIOUS MOMENTS.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. Sold at DeJager's Pharmacy.

LOW RATES TO CHICAGO AND RETURN VIA C. M. & ST. P. RY.

For the International Live Stock exposition at Chicago Nov 28th to Dec. 5th the Chicago, Milwaukee & St. Paul R'y. will sell round trip tickets at greatly reduced rates. Tickets sold Nov. 29th to Dec. 1st good to return Dec. 7th. For further particulars enquire, H. E. Stewart, Commercial Agent, Houghton, Mich. Phone 339. (11-4-30)

CHEAP TICKETS VIA THE C. M. & ST. P. RY.

Second-class colonist tickets on sale daily until Nov. 30, 1903, via the C. M. & St. P. R'y. to California and intermediate points at very low rates. Oct. 6th and 20th, Nov. 3rd and 17th low rates to Denver, Colorado Springs and the Southwest. For particulars call or write, H. E. Stewart, Commercial Agent C. M. & St. P. R'y., Houghton, Mich. Telephone 339. (10-5 to 11-30)

EXCURSION RATES FOR CONVENTIONS, MEETINGS, ETC.

Low one way second class colonist rates to points in Montana, Idaho, Washington, Oregon, British Columbia, Arizona, California, Colorado, Nevada, New Mexico and Wyoming. Practically half fare. Tickets on sale every day up to and including Nov. 30th, 1903.

For further particulars apply to station and ticket agents or to Geo. W. Hubbard, G. P. A., Marquette, Mich. (11-28-1w)

THEIR CONTRACT IS COMPLETED

POWELL & MITCHELL FINISH UP THEIR PIER EXTENSION WORK AT GRAND MARAIS.

NOW ON A SPECIAL JOB

FEW DAYS WILL WITNESS WIND UP FOR THE SEASON.

New Construction Makes Entrance to Harbor Safer in Time of Storm, but a Big Problem Still Remains to Be Solved.

Powell & Mitchell, who have been operating on a government contract at the Grand Marais harbor, have but a few more days' work before they will finish up for the season. In fact they are already through with their contract proper, and are now doing a little special work. They have been busy extending the piers that provide the entrance to the harbor and have put in about 450 feet of crib, giving the piers a total length of 1,200 feet.

These piers are parallel, providing between a safe and quiet entrance to the harbor of Grand Marais, which is used as a place of refuge for storm driven craft, as well as for the purposes of Grand Marais' commerce, which is principally in lumber. Many vessels make the harbor in times of storm and it is the purpose of the government to maintain it as a port of refuge, and to make it easy and safe of entrance in all weathers.

To do this the piers will have to be extended out into the lake a considerable distance beyond their present limits. The conditions at Grand Marais are peculiar, and make the establishment and maintenance of the right kind of an entry a matter of no little difficulty. The current in the lake at this point is easterly and is sufficiently strong to do a great deal of work in transporting the sand of the lake shore. The result is that there is a constant drift of sand toward the west pier. It piles against the timbering and gradually works its way into deep water, and the outer end of the pier. Then it circles the pier and gets into the channel, making it shallow and necessitating, in time, dredging. Before the improvement can be said to be permanently established the piers will have to be extended out into the lake sufficiently to overcome this trouble with the sand. One device that might possibly be used would be the building of a short pier at right angles from that extending out from shore, providing for catching the sand and preventing it from working around into the channel.

The problem offered by the conditions at this harbor are being studied by the U. S. Engineers, and a full plan for overcoming them and making the harbor accessible in all seasons of the year will be devised.

Additional work at Grand Marais will have to wait upon the next river and harbor bill, as the last appropriation was exhausted by the work on which Powell and Mitchell have been busy during the season now drawing to a close.

The season has not been a favorable one. The weather has been too unsettled to permit the work to proceed to the best advantage. It could only be prosecuted in fair weather and in times of storm it had to be dropped temporarily, and there has been much storm. However, all things considered, good progress has been made, and excellent work done.

300 CANAL PASSAGES.

When a doctor calls for certain ingredients in a prescription and the druggist substitutes some other drugs than those called for, then that pharmacist should be liable to incarceration in prison. He is juggling with the lives of the sick and afflicted. He is almost as culpable who substitutes some mixture of his own make—of the "just as good" kind—for some reputable, well-known medicine that has stood the test of many years.

COZY IN COOL WEATHER. If you have a fireplace in your home use the "Grate" fuel; that's coke, \$5.50 per ton delivered. The Marquette Gas Light Co.

WANT MORE EVIDENCE.

Postoffice Robbery Not Yet Fixed on Anderson and Reynolds.

The officers at Escanaba are still busy trying to work up a case against Anderson and Reynolds, the former Marquette prison convict in custody in that city and suspected of complicity in the robbery of the Escanaba postoffice several days ago. As yet it is said that evidence sufficient to secure the conviction of the men is lacking, although the officers feel sure that they are the guilty parties. It has been proven, however, that the men are crooks and burglars, even though, as yet, the postoffice job is not brought directly home to them.

It has developed that just before their arrest Anderson and Reynolds had robbed Nick Berrin and Frank Petrosky, two men who room together at the City hotel. Anderson is said to have been the man who did the job. He stole up to the men's room and, while they were sleeping, picked up a suit of new clothes belonging to Berrin and a gold watch and chain belonging to Petrosky. These articles Anderson hid just before his arrest by Sheriff Roberts, and they were subsequently found.

The men are also suspected of having broken into the Delta Hardware company's powder house, from which ten pounds of dynamite were taken last Thursday night. It is believed that they contemplated committing another burglary and needed the dynamite for that purpose or that they proposed to use it in opening the small safe taken away from the postoffice. This safe has not yet been found.

The officers, among other things, are conducting a close search for this safe. They are paying no little attention to the woods west of Escanaba, thinking that it may have been "planted" there. Some people believe that the safe has been opened and that its contents have been spent and dissipated by Anderson and Reynolds, who are known to have been drinking and playing poker about the saloons of the city, spending and losing money freely.

If the men are proven guilty of the postoffice robbery they will likely be sent to the state house of correction at Detroit. If, instead, they are convicted on one of the other charges they will probably be returned to the Marquette branch of state prison.

DE ANGELIS MADE A HIT.

"The Toreador" Greatly Pleased a Large House Last Evening.

Jefferson De Angelis in "The Toreador" made one of the biggest hits of the present dramatic season at the opera house last evening, where he was welcomed by a large and enthusiastic audience. He kept it in a mellow good humor until the conclusion of his performance and received a most enthusiastic reception. His own comicalities and stage "business" were irresistible and his company large and capable. "The Toreador" is set with one act in France and another in Spain, admitting of a fine display of scenery and costumes, of which the best advantage is taken. Its music is tuneful and well sung, both by principals and chorus. The lines are witty and bright, particularly those written for Mr. De Angelis. Like other operas of the class the piece is an absurdity of absurdities. The two acts follow the adventures of Sammy Gigg (De Angelis), an English footman, who is, by a strange series of mischances, taken for a champion Spanish bull fighter. His dilemmas are fast and furious, and all amusing. Other themes of interest run through the structure of the play. Mr. De Angelis has some excellent support, prominent among it Edgar Norton, whose reception was second only to that accorded the star himself. John Dudley, William Blaisdell, Edward Metcalf, Margaret McKinney, Edna Burt and Adine Boulier are particularly valuable members of the company. The musical numbers are, many of them, unique and peculiarly attractive and were received with acclaim, particularly "Beautiful Dreamy Eyes" and "All Right," by Mr. De Angelis and "The Language of Flowers" by Miss McKinney, the latter the daintiest thing in the opera. The performance as a whole was an excellent one, among the best of the season.

CARD OF THANKS.

We wish to express our most sincere thanks to our many friends who have shown their kindness during the last sickness of our son James, and who sent floral tributes at his funeral. Also those who by their presence in our hour of affliction brought solace to us. MR. AND MRS. JOS. L. SMITH.

Cook never fails with Gold Medal Flour.

HOW TO SPEND YOUR WINTER EVENINGS.

Spend them in comfort. To do this you must have a bright and steady light. Use Gas. An elegant line of Gas Reading Lamps will soon arrive. The Marquette Gas Light Co.

The publishers of the new Marquette county map have just received a second supply of the popular mounted and folded pocket map for the use of hunters and woodsmen. They may be had at Bigelow's, Willeson's, or of E. A. Johnson, East Main street. (10-29-1w)

NEW ART STORE.

I have opened a store at 509 North Third street where I will have on sale all kinds of art goods. Embroidery lessons given free. (10-7-1f) MRS. ROSE O'DONNELL.

HOME WORK WELL ALONG.

Court House Will Soon Be Completely Under Cover.

The task of covering the dome at the new court house was taken up yesterday and excellent progress was made with it before nightfall. The sides are now enclosed and the roof is to be covered without delay. The material used is cement. The first process is the setting of the steel lath. It is then covered with a mixture of plaster, cement and hair, pure cement not clinging to the lath in a satisfactory manner. When this material has hardened it is covered with a coat of cement colored a reddish hue to correspond with the Portage Entry sandstone of which the structure is mainly built. This coloring comes very well being put on, and the sides of the dome will soon be complete. The roof is to be constructed in the same manner as the sides, with the exception that it will also have a covering of copper, up to the point where the skylights are to be put in. A week more of fine weather will permit the dome to be completely enclosed.

Other work at the court house is being pushed. A force of men are now constructing the broad flight of cement steps leading up to the main entrance and also the steps on the south side of the building. The sandstone work for the sides of the front steps is all complete. Inside the structure a good force is also employed, on partitions and such other work as can be pushed to advantage. The contractors will be well pleased when the dome is completely enclosed, as then they will know that they will be able to proceed with the completion of the interior work without danger of interruption. It is important to get all the cement work out of the way before the frost comes and it now looks as if the contractors will be able to do this.

The magnificent October weather was a great boon to the contractors both on the court house and the city library. The beginning of the month found them pretty well behind, and if the weather had been unsettled, either wet or cold, they would have been hard pressed to catch up. As it is they have been able to make the best of progress, losing very little time. The prevailing good weather has been worth hundreds of dollars to them. The library is being advanced rapidly, but still much remains to be done before it can be enclosed.

NOTHING IN IT.

South Shore Will Not Put on New Trains Next Year.

A Duluth paper recently published a story to the effect that the South Shore road contemplated extensive additions to its passenger rolling stock next year, it being subsequently reprinted in a number of the upper peninsula papers. The Duluth paper said in part:

"The order, which will include the delivery of six coaches, equipped with reclining chairs, four sleepers, two observation diners and two or four baggage and express cars. The details as to the cost of the trains and the schedule which will be put into effect when they are out into service have not been decided upon by the management but it is supposed that the new trains will run on the schedules of the present fast trains and that the equipment now being used on these trains will be used on runs which will make connections with lines at the terminals of the road."

"It is thought that the orders for the cars will be placed with one of the large car building companies before January 1."

A South Shore official informs The Mining Journal that this story is composed of the stuff of which dreams are made and that the road is not contemplating the addition of the new rolling stock, at least not in 1903. The fact is sad but true. The officers would all like to see the proposed trains go on, but they will have to wait some little time for the gratification, although sooner or later the improvements in the rolling stock, indicated in the above, will doubtless be made.

The road is a little short on rolling stock for the passenger service. The addition of the trains that make the North Country express relieved it a great deal, as well as gave the upper peninsula traveling public the accommodation of two as fine trains as they could ask to have. However, the passenger traffic continues to expand and the capacity of the present equipment is severely taxed. It is but a question of time before additions will be necessary.

AN EXCELLENT BILL.

"When Knighthood Was in Flower" to Be Presented the Evening of 9th.

"When Knighthood Was in Flower" is announced for the opera house the evening of the 9th. The company will be largely the same as that which supported Miss Ellsler in the play here last season and the same elaborate production will be given. The leading lady is different, however, Miss Ellsler having retired from the company. In her place is Roselle Knott, a young woman who is fast winning laurels on the American stage and is steadily coming to the front. Of Miss Knott's performance in the role of E. E. Anderson, recently said "Miss Knott makes Mary just the sort of girl we like to watch when our senses are on the romp. She has the ribald grace, the spirit of fire, and she realizes the serious touches of the part most effectively. She interprets the role with much more vigor than did Miss Marlowe, whom I had the pleasure of seeing during the long run of the piece at the Criterion theater, New York, two years ago. Miss Marlowe only indicated with light touches the rugged points of

Mary's disposition. She made her temperamentally girlish, and her tempestuous scenes seemed to lack conviction. She was dainty, winsome, frowned while she smiled, and thundered in a way to indicate that she really did not mean it. With Miss Knott it is different. She gave a little bitter with the sweet, and there was a rugged interpretation of what was discordant in Mary's nature. She misses some of the airy deftness that should mark the merry moods of this ever-changing maid, but she is rich in tenderness, which is a most winning attribute. She pictured convincingly the woman of moods, whose strongest instinct is that of love, and who braves all dangers, hazards all royal prerogatives to secure for her own the man on whom her heart has fastened its affection."

CITY BREVITIES.

Weather forecast: Stationary temperature; partly cloudy; light variable winds. Yesterday's temperature: 7 a. m., 54 degrees; noon, 73 degrees; 7 p. m., 59 degrees; maximum, 74 degrees; minimum, 53 degrees.

Mrs. Charles Kelsey left last evening for a visit to Chicago.

J. C. Hanson, agent at Mass City for the Mineral Range railroad, is in the city on business.

The Baptist Ladies' Missionary society will meet this afternoon at 2:30 o'clock at the residence of Mrs. James Sinclair, North Front street.

Miss Thayer, the director of the domestic science department at the manual training building, has been called to Chicago on account of death in the family.

Ralph Sprato, formerly chief engineer for Frazer & Chalmers company and recently their resident engineer in Australia, has been added to the corps of the Lake Shore Engine works, as chief engineer.

At the Baptist church tonight at 8 o'clock, there will be an initial study of the Bible as literature, followed by a social half hour. There will be a pleasant musical feature. A general invitation is given.

Napoleon Barry, a teamster for the Lake Shore Engine works for the past ten years, was seriously injured early yesterday morning. He was helping unload a piece of scrap iron from a flat car to a dory, when it fell on him, accidentally, breaking three ribs and inflicting internal injuries. It is possible that he may recover.

A good delegation of up-the-road people attended the performance of "The Toreador" at the opera house last evening. It will be but a short time now when the Ispheming theater will be opened and then Ispheming and Negaume (theatergoers) will cease to swell the crowds attending Marquette attractions, as it is likely that the majority of the good things booked for the local theater will also pay Ispheming a visit.

A little street work is still being done on Hewitt avenue, but the year's operations are practically at an end. The most of the work on the street commissioner's pay roll have been let go and the road rollers are about to be laid up. There will be nothing doing from now on until spring, except a little work to keep streets and roads free of snow; if there are any big storms. It is anticipated that street work will be carried on during 1904 with the same vigor that has attended its progress during the past few years.

Burton Parker, of Monroe, Mich., for many years inspector of custom houses in the fourteenth district, and who has many acquaintances and friends in the north country, has been transferred from the fourteenth district and has been promoted to be chief of the division of special agents in the treasury department, with headquarters at Washington. His successor is Inspector Cross, from the Buffalo district. Inspector Cross has not yet visited Marquette, but is expected here very shortly. He is a Confederate veteran. Mr. Parker's friends in the fourteenth district are very sorry to lose him, but are pleased that he has been called away to accept a promotion.

Into each life some ruins must fall; Wise people don't sit down and bawl; Only fools suicide or take to flight; Smart people take Rocky Mountain Tea at night.

Good bread makes a happy home. Use Washburn-Crosby's Gold Medal Flour and you will have it.

HOW TO BE HAPPY ALL WINTER. If your fuel bills are high you will fret and worry. Just use Coke. Happiness will then be yours. It's economical for all purposes. The Marquette Gas Light Co.

RUGS MADE OF OLD CARPET Address Mrs. Irason, Clifton House.

APPLES
