NEW REPUBLIC IS RECOGNIZED

ADMINISTRATION AT WASHINGTON WILL DEAL WITH PANAMA AS A SEPARATE NATION.

ISTHMIAN PEOPLE JUBILANT

ENTHUSIASTIC CROWDS WILDLY CHEER THE UNITED STATES.

Consul Gujger Is Ordered to Assume Charge at Colon and Leaves Sunday Armed With Special Instructions from Roosevelt.

Washington, Nov. 6.—The United States government has recognized the defacto government of Panama. It was announced at the state department this afternoon, after the return of Secretary Hay from the cabinet meeting, that instructions have been sent to Minister Beaupre, at Bogota, and Acting Consul Ekanan, at Panama, to inform the governments of Colombia and Panama respectively that the defacto government is recognized.

The decision to recognize the defacto government of Panama was arrived at after a protracted session of the cabinet at which every member was present except Secretaries Root and Wilson. The president emphasized the importance of recognition of the defacto government. With the withdrawal of the Colombian officials the isthmus was left entirely without a government unless that established by the secessionists should be recognized, and this step seemed necessary for the transaction of the routine business of the United States on the isthmus.

Under personal instructions which he will receive tomorrow from the president, Consul General Gujger, who arrived today from Asheville, will leave on the government yacht Mayflower on Sunday for Colon to assume command of the American consulate there. These instructions will be of the most minute character, though of course much will be left to the discretion of Mr. Gujger, in whom the administration has the fullest confidence.

On the arrival of the Mayflower at Colon, Mr. Gujger will make himself known to the defacto government and the usual formalities in such cases will be observed. He will do business directly with the republic of Panama, which in its provisional form at present consists of an executive board but which before his arrival may easily take the form of a permanent government.

In an interview with the Associated Press, Mr. Gujger tonight said that he was not surprised that the isthmus had declared its independence. The revolution was a foregone conclusion five months ago, he stated. Mr. Gujger said that the isthmus is now in a friendly relation with the United States.

"If you have ever been to South America you have seen for yourself that the American flag is respected and trusted as the flag of no other nation, and nowhere in South or Central America is that more true than on the isthmus."

Mr. Gujger's departure for Colombia, and declined to make any comment upon the policy of the Washington government. He went to the Colombian legation today and had a conference with Dr. Herran, the Colombian charge, who is his personal friend.

The navy department has received a cablegram from Commander Delano, of the auxiliary cruiser Dixie, announcing his arrival at Colon, that the Colombian troops have evacuated and that the situation is quiet. The commander says he has landed an adequate force of marines from the Dixie and that the blue jackets who were landed from the Nashville have re-embarked. The Dixie carries four hundred marines.

The department also has received a cablegram from Rear Admiral Glass, commanding the Pacific squadron, announcing the departure of the Marbatia, General, Wyoming and the collier Nero yesterday from Acapulco, Mexico, for Panama. The squadron is proceeding at full speed.

New Officials in Control. Colon, Nov. 6.—The government of the republic of Panama last night appointed Senator Perferio Melendez civil and military governor of Colon, pending the appointment of the permanent officials. Those of the old government have been impotent since the troops left. The prefect and alcade are now nonentities. Governor Melendez has notified the officials that they may remain at their posts for the present if they swear allegiance to the new republic.

The new republic is doubtlessly firmly established. There are no Colombian troops on the isthmus and satisfaction everywhere is expressed at the new order of things. Shortly before the flag of the new republic was formally hoisted over the prefecture here this morning, Perferio Melendez, delivered an oration in which he recounted Panama's greatness against Colombia, and said: "The government of this new republic aspires to give the isthmus a definite and true era of progress so that it may not remain behind in the advance of civilization which the clock of time marks in other states of the universe. The supreme good which I represent desires nothing else but to found a government of and for all citizens. Let us unite in a spirit of truth without hatred or rancor towards any, and, after

ALLIANCE IN THE EAST.

Czar and the Kaiser Said to Have Signed a Convention. London, Saturday, Nov. 7.—A dispatch from Vienna says a rumor is current there that the czar and Emperor William have signed a convention for a defensive alliance in the east should Great Britain support Japan.

MELEOR TO COMPETE.

Kaiser's Yacht to Participate in the Race Across the Ocean. Berlin, Nov. 6.—Emperor William's schooner yacht Meteor will go to the United States in the spring to take part in the ocean yacht race for the emperor's cup.

GOES TO PRISON FOR LIFE.

Bloomington, Ill., Nov. 6.—On his plea of guilty, Judge Mohan, at Havana today sentenced Edward Barton, a horse trader of Springfield, to the Joliet penitentiary for life. On July 10 last Barton shot and killed Irving Rosenfeld, a prominent merchant at Mason City, and seriously wounded Julius Frank a clerk, who came to the rescue of his employer.

COLOMBIA WILL FIGHT

SENATOR MORGAN PREDICTS TROUBLE FOR UNCLE SAM. Says Government Will Have to Deal With Complications in Panama Like Those in the Philippines.

Washington, Nov. 6.—Senator Morgan said today that soon after congress convenes in extra session he will introduce a resolution calling on the senate foreign committee to obtain from the state department a detailed report of the relations between the United States and Colombia under the treaty of 1846. According to Senator Morgan the attitude of this country is not justified by a careful construction of the provisions of the treaty and is at variance with precedents laid down by the United States. Discussing the situation today, he said: "This is the first time the United States has landed troops on the isthmus under cloak of the treaty. Heretofore it has been for the suppression of rioting and for the protection of Colombia. Now that it is against the wish of Colombia, it is undoubtedly will provoke a just protest."

"Colombia means war. Of that I am certain. This government will find it will have a series of complications on its hands not unlike that offered by the Indians when they were met with the territorial aggression of this government. It is the intention of the United States to make will be similar to that of the Philippines, with the conduct of the warfare far more difficult. I believe, however, the administration will not have this matter to decide. It is a question for congress, and that body is not likely to shirk the responsibility."

Senator Cullom, chairman of the committee on foreign relations, believes the United States will negotiate a treaty with the new government for the construction of the Panama canal, though he expresses the hope that any new convention which may be framed will be without certain features of the Hay-Herran treaty which in his opinion are open to criticism.

U. S. Policy Upheld at Paris.

Paris, Nov. 6.—The feeling in government circles here continues strongly favorable to allowing the revolution in Panama to take its course. It is distinctly stated that no steps have been taken or are contemplated toward intervention. A few irresponsible newspapers criticize the United States and show ignorance of that government's position. These views are not shared by the government or by the more serious element of the press and public. Official sentiment is distinctly sympathetic to the United States and there is reason to believe an official exchange of views between Washington and Paris will tend toward harmonious action on the part of the two governments.

PRESIDENT TO DINE UNION MEN.

Hospitality at Butte to Be Reciprocated at the White House. Butte, Mont., Nov. 6.—Upon invitation of President Roosevelt, six members of organized labor of Butte will dine at the White House Nov. 18 next. When the president was in Butte last spring he expressed himself as pleased with his reception. He expressed the wish that he might show his appreciation of the hospitality shown him by entertaining members of the Butte unions at the White House in Washington.

Recently Secretary Loeb wired Malcolm Gillies concerning the invitation, and asked that the men be named and a time set when they could visit the nation's capital. Mr. Gillies answered that any time after Nov. 15 would be agreeable to the Butte delegation, and Secretary Loeb immediately set the 18th as the day when they should visit the president at the White House. The party will leave Butte Friday or Saturday of next week. A stay of four or five days will be made in Washington, during which time the union men will be the guests of the president.

MANIPULATED BOOKS FOR YEARS.

Ohio Banker Confesses to a Shortage of \$76,000 in Accounts. Newark, O., Nov. 6.—Harry J. Hoover, former cashier of the Licking County bank and former cashier of the People's National bank, confessed to be short in his accounts \$76,000. Hoover, who was a presidential elector in 1900, president of the Newark school board, intimate friend of Senator Hanna, Republican State Chairman Dick and Governor Nash, is seriously ill at home.

It is alleged he began manipulating the books ten years ago in the People's National bank. Recently the Licking bank directors learned of the situation, and, as a result, Hoover surrendered a \$20,000 building, a \$22,000 life insurance policy and other property. The bank directors took Hoover's note for \$41,000 and paid \$24,000 themselves to the bank, in the presence of other Newark bankers, to make the institution sound.

MIDSHIPMEN'S HEADS FALL.

Dismissal the Penalty of Naval Cadets Convicted of Hazing. Washington, Nov. 6.—The secretary of the navy today signed orders dismissing Midshipmen Joseph Dammund Little of Ohio, John Henry Lofland of Iowa and Earl Worden Chaffee of Wisconsin from the service of the United States. They were members of the first class at the naval academy and were convicted by court-martial on the charge of hazing.

PARKS TO DON THE STRIPES.

Convicted Labor Leader Is Sentenced to a Term in Sing Sing. New York, Nov. 6.—Sam Parks was today sentenced to two years and three months in Sing Sing on the charge of extorting \$500 from the Tiffany Studios concern. Parks was taken to Sing Sing this afternoon.

GETS THREE-YEAR SENTENCE.

St. Louis, Nov. 6.—Charles Weissman, vice president of the Hebrew Jefferson club, was today sentenced to three years in the penitentiary for his connection with the fraudulent naturalization of aliens.

WINDOW GLASS INTERESTS COME TO AN AGREEMENT.

Wage Scale Is Increased but Concessions Are Made That Will Shut Out the Foreign Manufacturers. Pittsburgh, Nov. 6.—As a result of a general conference of window glass interests held in Philadelphia yesterday, fully 10,000 skilled window glass workers who have been idle over six months will be back at work within ten days, and before Dec. 1 at least 40,000 workmen dependent upon them will have employment. Under the agreement the workers will receive a 2 1/2 per cent increase in wages, but the important part of the new scale is the concession which will enable the manufacturers to shut out from \$80,000 to 900,000 boxes of foreign window glass imported annually from Belgium and France.

To meet the increase in wages, the price of glass will probably be advanced 15 to 20 per cent. Under the new scale, the wages for blowers will average \$180 per month for single strength glass and \$400 per month for double-thick plates. Springfield, Ill., Nov. 6.—At a conference today between the coal operators and representatives of the hoisting engineers of Illinois, it was decided to leave the question of increased wages to arbitration. Pending the decision of the committee work will continue at the mines.

DISAGREE OVER THE TITLE.

Delegates to Episcopal Congress Favor Changing the Church Name. Pittsburgh, Nov. 6.—The twenty-second congress of the Protestant Episcopal church of America closed today. Several delegates read papers or made addresses on the topic "Is it desirable to change the name of this church?" The general trend was favorable to a change of name, but the title—"The Catholic church of America"—did not meet with unanimous favor.

Rev. E. M. Clendenin of New York championed the name and in the course of a paper on the subject said, "That the mighty house of Protestantism is falling according to Divine prophecy is a fact as sure as that death is coming to us all, a fact to which their own great leaders have open witness."

Rev. William R. Huntington, a member of the general executive committee and rector of Grace church, New York, argued that a change of name was urgent, but that the word Protestant was singularly and strikingly apostolic in Latin and the exact equivalent of martyr. He said the three features of Roman religion which commended it to its adherents were, eucharistic adoration, confessional, and the invocation of Mary and the saints—"and when they are convinced that not one of these was contained in the original deposit of faith, there will be some chance of persuading them to listen, and with their help we can build up a national church large enough for all." No final action was taken. The congress elected officers. The president is always the bishop in the diocese in which the congress is held. The vice presidents were elected as follows: The bishops of Missouri, Albany, South Dakota, Kentucky, southern Ohio, West Virginia, New York, southern Virginia, Louisiana, Texas, Tennessee, Massachusetts, Vermont, Michigan, City, Los Angeles, Washington, Connecticut, Rhode Island and Sacramento. The only change in the executive committee was the replacing of Rev. Dr. J. S. Shipman by Rev. Dr. W. T. Manning. All the present active officers were re-elected.

KANSAS CITY, NOV. 6.—Another effort was made today before the Methodist Episcopal general committee on church extension to suspend the rule limiting the church extension work to assisting in the erection of buildings not costing more than \$10,000. The effort failed, however.

EVANGELIST JAILED.

Orillia, Ont., Nov. 6.—Dr. A. Judkins, who has been conducting evangelistic services here, was arrested today on information from Marshalltown, Ia., where he is wanted on a charge of obtaining money under false pretenses. Judkins' real name is said to be A. J. Wheeler.

FALL KILLED HIM.

Waterloo, Ia., Nov. 6.—The coroner's jury found today that John Bush, president of the gas company, who was found dead on the floor of his office in this city a week ago and who was believed to have been murdered, died of injuries accidentally inflicted by a fall.

PINE RIDGE INDIANS QUIET.

Washington, Nov. 5.—Indian Agent Brennan, in charge of the Pine Ridge agency, South Dakota, reports everything quiet on the reservation.

NINE LIVES LOST IN A MINE FIRE

KEARSARGE GOLD PROPERTY, NEAR VIRGINIA CITY, MONT., IS SCENE OF DISASTER.

VICTIMS DIE IN A TUNNEL.

FLAMES IN TIMBERS AT ENTRANCE SHUT OFF ESCAPE.

Superintendent R. B. Turner of Butte, a Wellknown Mining Man, Among Those Who Are Trapped and Burned to Death.

Virginia, Mont., Nov. 6.—Fire in the Kearsarge gold mine, six miles from Virginia City, today killed nine men. The damage to the surface buildings is slight. Among the dead was Superintendent R. B. Turner of Butte, one of the best known mining men in the Northwest. Four bodies have been recovered up to tonight.

The dead, aside from Superintendent Turner, were: George Allen, stationery engineer; John Tobin; James Powers, Edward Lahredy; William Fleming; Robert Donnelly, and two unknown men, all miners.

The origin of the fire is not known. When discovered the timbers in the tunnel were all ablaze and flames were issuing from the tunnel house. Mines across the gulch hastened to rescue those known to be in the mine. Near the mouth of the tunnel they stumbled over the dead body of John Tobin, who evidently had made an effort to escape but was driven back by flames and smoke. They carried the body to the surface and again entered the workings to rescue their comrades. Up to a late hour the bodies of Tobin, Powers, Fleming and Donnelly were all that had been recovered.

CONGRESS IN A TANGLE.

Opinions Vary as to Form of the Cuban Reciprocity Legislation. Washington, Nov. 6.—On the question of Cuban tariff legislation, as promised by the Cuban treaty, there are divergent views among senators and representatives, who will soon take the matter up in special session.

"That treaty was amended by the senate, which added the words: 'This treaty shall not take effect until the same shall have been approved by the congress.'"

It has been generally supposed that a joint resolution or a bill approving the treaty would be all that was necessary, but members of the house and some senators take an entirely different view. They say that a bill must be passed providing the duty on the products of Cuba, and that every provision affecting duties must be enacted in the legislation.

Representative Tawney of Minnesota, who was leader of the Republican minority in the latest congress, said today that the provision inquiring congressional approval, when inserted in the treaty, was known by him to be defective and open to constitutional objections.

The treaty of 1854 with Great Britain for reciprocity with Canada and the reciprocity treaty of 1878 with Hawaii, he added, had the same provision, but the very beginning that, when suitable legislation was enacted by congress to carry out the provisions of the treaties, then the president should issue a proclamation announcing the fact, and the treaty thereupon should become effective.

Mr. Tawney contends that to approve the treaty by a simple resolution would be void, and asserts that the sugar provision of the treaty is nothing more than a pledge of the good faith of the government. Any tariff bill, he contends, can abrogate this provision of the treaty, or the treaty itself.

The finance committee, which meets tomorrow, will take up the subject of the form of legislation necessary to carry the treaty into effect. Generally the senators believe that simple resolution of approval will be all that is necessary, but the senators who oppose, notably Senator Teller, think that if approval is attempted in any such form it will raise a constitutional question that will cause a long debate in the senate.

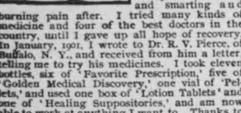

Representative Payne, who is to be chairman of the ways and means committee, said it was his intention to take measure in form would be a bill rather than a resolution.

HOOSIERS DEFEAT ILLINOIS.

Bloomington, Ind., Nov. 6.—The football game between the teams of the University of Indiana and Illinois today resulted in a victory for Indiana by the score of 17 to 9.

DISCOURAGED

COAL PILE ON FIRE. Copper Range Meets With Loss in Its Houghton Sheds.

Smoke from a fire caused by spontaneous combustion was discovered in the Houghton sheds of the Copper Range railroad on Thursday.

Immediate steps were taken by Superintendent C. S. Falst to reach the seat of the fire and the big clam shell digger was pressed into service.

Much coal was moved, but up to yesterday morning the fire had not succeeded in extinguishing all of the fire.

A considerable amount of the coal has been converted into coke by the smoldering blaze and the loss will be in the hundreds.

The work of removing the coal from where the fire is still burning is necessarily slow, but it is believed the efforts of the men will be rewarded today.

Fire at the bottom of huge piles of soft coal is a common occurrence. Unless due care is taken it is almost certain that fire will result from spontaneous combustion.

A fire of the kind is most difficult to contend with. It usually necessitates the removal of a large quantity of the fuel, a slow and laborious job, and the smoke and gas is hard on the men and at the same time dangerous.

Officer Knute, who is in charge of the fire, is difficult matter to locate the fire in time to prevent big loss.

A man who has had considerable experience in fighting fires of the kind said yesterday that soft coal should not be piled to a height of over eighteen feet.

Above that height fire is almost certain to break out. Fine coal at the bottom of the pile is usually the first to catch.

MAY PLAY AT DULUTH. Houghton Indoor Baseball Team Is Asked for Games.

Duluth wants to meet Houghton in indoor baseball. Secretary Martin Haas of the Light Infantry team was apprised of that fact yesterday.

Interest in the game in the Zenith City is at fever heat just now and as the Houghton aggression is recognized as a worthy opponent the Duluthians are inclined to believe that it would make an early season star attraction.

Mr. Haas says the invitation undoubtedly will be accepted. The dates named are Nov. 26, 27 and 28.

The Houghton team has not been formally organized for the season, but the players say it is unnecessary.

The line-up with one exception is intact and the boys are ready to play any time.

If the Duluth invitation is accepted some sharp practice will be started so that the team can play in something like its old form.

The exception in the line-up is the old form of catcher, Perley Croze, last year's backstop, has taken up his residence elsewhere and it is not likely that he will return.

It was said yesterday that Will Brand, who has had some experience in the position, would go behind the bat and catch for Mackin.

The game of the Dollar Bay team would play second, his regular place in the outdoor game. The rest of the line-up is well known locally.

"Jack" Murphy, who is believed to be equal to the best in the position, will again be seen in the pitcher's box.

If the Duluth trip is taken, as it undoubtedly will be, a team picked from the five clubs in that city will be played.

It will be the best that Duluth can put in the field and if Houghton is successful in winning two of the three games it will be a greater feather in its cap.

The team will go to the intention. The teams played a series last season, both at Houghton and Duluth, and Houghton won the majority of the games.

The local team is recognized as one of the strongest in the upper peninsula and it will be heard from this fall.

From Duluth yesterday said that everybody is talking indoor baseball up there and that if Houghton plays there big crowds will be out.

Outlook for Local Season. The outlook for the present indoor baseball season is not as bright as it was at this time last year.

Calumet has done nothing towards organizing a team and interest in the game is held in abeyance. It has been given out that neither the city team nor the militia team will be reorganized, but local enthusiasts are hoping that that will not be the case.

Lake Linden, Dollar Bay and Hancock may have teams but there is no talk of their being elected to succeed themselves.

There is plenty of good material for first-class clubs in each place but interest is first have to be awakened. Some admirers of the game say it is a little early to talk indoor baseball but at this time last year there were very many of them.

Some of the first and minor importance in the county. That is not the case now.

The Houghton Light Infantry will go after big game during the season. Games with Marquette, Manistique, Ishpeming, Negaunee and other upper peninsula teams are anticipated.

The team is particularly desirous of meeting opponents, which claims the crack indoor baseball outfit of the peninsula.

The Houghton team may play its local games in the Amphidrome, although arrangements to that end have not yet been completed.

The team management is looking for satisfactory terms and if granted by the Amphidrome people the games will be pulled off there.

SMOKE FROM A FIRE CAUSED BY SPONTANEOUS COMBUSTION WAS DISCOVERED IN THE HOUGHTON SHEDS OF THE COPPER RANGE RAILROAD ON THURSDAY.

Immediate steps were taken by Superintendent C. S. Falst to reach the seat of the fire and the big clam shell digger was pressed into service.

Much coal was moved, but up to yesterday morning the fire had not succeeded in extinguishing all of the fire.

A considerable amount of the coal has been converted into coke by the smoldering blaze and the loss will be in the hundreds.

The work of removing the coal from where the fire is still burning is necessarily slow, but it is believed the efforts of the men will be rewarded today.

Fire at the bottom of huge piles of soft coal is a common occurrence. Unless due care is taken it is almost certain that fire will result from spontaneous combustion.

The Houghton team may play its local games in the Amphidrome, although arrangements to that end have not yet been completed.

The team management is looking for satisfactory terms and if granted by the Amphidrome people the games will be pulled off there.

EXTRA WIRES TO BE STRUNG.

Houghton-Lake Linden Phone Service Soon Will Be Improved.

The work of stringing an extra circuit of two wires between Houghton and Lake Linden will be commenced at once by the Michigan Telephone company's construction gang in this district, under supervision of Frank Long, superintendent of construction.

When that work is completed an additional circuit will be strung between Calumet and Houghton.

The extra circuits will give better service in each case. The wires between the towns are used almost continuously.

In the case that the manager is obliged to tell the patron that the line is busy, it is believed that the additional circuits will give better satisfaction to all concerned.

The telephone construction gang has just completed a large amount of work at Lake Linden. New wires were strung and the central service has been greatly improved.

MANY LICENSES ISSUED. Deer Season Opens Sunday to Continue Until the 30th, Inclusive.

Up to yesterday afternoon a total of 775 deer hunters' licenses had been issued for the season which opens tomorrow.

Nearly all the local hunters are preparing to go into the woods early and a general exodus from town may be expected during the coming week.

County Clerk Richardson, in his deputy, has been issuing licenses at the rate of about seventy-five a day all this week.

Wednesday was the biggest day in that respect, a total of 141 certificates being taken out.

The total number of licenses issued during the entire season last year was 1,075, which record is expected to be broken this year.

The season which opens tomorrow will continue until Nov. 30, inclusive. One of the features of the new game laws makes it a criminal offense, punishable by ten years' imprisonment or a fine of \$1,000, to shoot or wound a human being while hunting and it is believed that it will have a tendency to reduce the usual number of hunting fatalities.

Some hunters will take the precaution to supply themselves with red coats and hats before they go into the woods to lessen their chances to be taken for a deer.

SEEKS LIGHTING CONTRACT. The Houghton County Electric Light company now seeks to make a new contract with the village of Red Jacket.

It has offered several contracts of different terms of years, the rates varying accordingly. For a period of five years the company offers a lamp service at \$83 per lamp per year.

For an eight-year contract the rate is \$81. The best rate is given for a ten-year contract—\$78.

The village of Houghton has signed a ten-year contract and Hancock may sign a five-year agreement, although the recent decision of the council to that effect may be reconsidered.

The contracts of Houghton has signed a five-year contract. The rates given above are for the latest improved system of enclosed arc lamps.

The Red Jacket council took no action on the company's proposals at its recent meeting. The contracts were laid on the table for discussion at the next meeting.

The rates offered are exactly the same as offered in the other towns in the county.

SKULL WAS FRACTURED. Mike Klobeber, a timberman in the employ of the Tamarack Mining company, was so seriously injured while at work Thursday evening that he died at the Tamarack hospital four hours after.

He was engaged with several others in unloading timber with a block and tackle in No. 3 shaft at the north branch of the mine.

The chain holding the apparatus broke under the strain and the pulley fell, striking him on the head and fracturing his skull, where it was found that his skull was fractured.

Klobeber was twenty-seven years of age and is survived by a wife and one child. The funeral will be held tomorrow morning. Coroner Fisher impaneled a jury and conducted the inquest yesterday morning, the verdict being in accordance with the facts as above outlined.

OLD ASSOCIATES REMEMBER HIM. Martin M. Foley, Houghton's new superintendent of public works, was present at a dinner given at the hotel in honor of the old associates of the Copper Range railroad Thursday evening.

He resigned as yardmaster for the road at Houghton, a position he held for five years, the first of this month to enter the employ of the village.

General Manager R. T. McKeever made the presentation, which took place in the offices of the company in the presence of a large number of officials and employees.

He expressed regret at Mr. Foley's resignation from the employ of the road and wished him success in his new vocation.

ON TRIAL IN CIRCUIT COURT. The case of Thomas Harvey versus the Osceola Consolidated Mining company was on trial in the circuit court yesterday.

It is a civil action brought to recover wages which Harvey claims are due him for contract work while he was employed at the Osceola mine.

He alleges that he was only partially paid because the amount of ground taken out by him was not properly measured. The case was decided in favor of Harvey in a Calumet justice court and an appeal was taken.

Are You Afflicted With THE ITCH KING OF THE BOOBY? Eczema

The prevalence of Eczema among the young and old is due to the introduction of poisonous matter into the blood.

It attacks the face, neck and body and is caused by impure blood. Eczema is a living fire in the system.

RAINING NEWS

PAY VISIT TO MINES. Many Copper Company Presidents in the County This Week.

The present week has seen the most complete gathering of presidents of Lake Superior copper mining companies ever noted in this district.

The list of noted visitors to the local field including Presidents Agassiz of the Calumet & Hecla; Stanton of the Baltic, Wolverine, Mohawk, Michigan and Wisconsin; Todd of the Quincy; Bigelow of the Osceola, Tamarack and Isle Royale; Paine of the Copper Range and Fay of the Centennial, Mayflower, Old Colony and Union Land & Copper company.

Efforts have been made to find some ulterior motive in such an unusual congregation of officials, controlling about 95 per cent of the productive capacity of the district, but it does not seem probable that the visits are being made for any other purpose than to inspect the properties.

Some of the mining managements identified with the district have been making such visits, especially in the case of the Bigelow mines, this being Mr. Bigelow's first visit to the Lake district for sixteen years.

There is a commendable tendency toward more frequent visits to the ground by the part of officials of all mines. Mr. Agassiz and Mr. Stanton have always made visits to their mines at least semi-annually, and Mr. Fay and Mr. Paine have followed the same good example since becoming identified with the Lake mines.

Mr. Todd, who succeeded the Masons as president of the Quincy, has long been identified with that property, as secretary and treasurer and has made semi-annual visits here since his election to the presidency.

Michigan. The Michigan should be able to begin production next week. All that is now lacking is a little final work in balancing the extension of the Mineral Range railroads to the shafts.

One stamp will be used, on day shifts only, and this will crush 225 to 250 tons of rock daily. The modest start being made by the Stanton management, and it is a wise as well as a cautious policy.

John Stanton is the Nestor of the American copper trade, with which he has been actively and prominently identified for nearly fifty years.

In that time he has learned about all there is to be known about copper production, and one of the fundamental features of his policy is to cut his garment according to the cloth. He never makes the mistake, entirely too common with novices, of starting production upon a larger scale than the development of the mine warrants, and now that it is definitely decided to start one head on half time upon Michigan rock, it may be considered assured that the mine is opened profitably to supply this quantity of stamp-rock daily without the necessity of gouging the rich spots, or sending lean rock to the mill.

That the Stanton policy is the only right one is substantiated by ample evidence of both positive and negative nature—positive evidence in the form of a number of successful mines, brought to the point of substantial net earnings, by carefully following conservative methods, and negative evidence supplied by a dozen or more equally unsuccessful districts rendered especially noticeable by the wrecks of fine surface plants and stamp mills, erected before the productive capacity of the mines had been demonstrated.

Shortage of Miners. Despite the closing down of a number of iron mines in the Lake district, and reductions in forces at many of the properties, remaining active and the supply of skilled miners does not seem to be in excess in the copper district.

There is no scarcity of common labor, but there is an actual shortage of experienced miners. The scarcity is not serious, but several hundred good men could be employed to advantage, if found. It is not probable that the iron mines will make further important reductions in forces, though a few more men will be let out from time to time.

The mine managers have found from experience that it is difficult to secure good men when resuming work after protracted idleness, and it is policy to keep the best men at work, even though the mines could suspend operations to advantage, but for the question of labor that is certain to be faced when work is resumed.

The fine weather of early November is being utilized to clean the wharves of refined copper. With the close of lake navigation the copper must be sent by spring or forwarded by all-rail routes, at an average cost of about \$8 per short ton greater than the mixed lake-and-rail freights now enjoyed.

For several winters past the copper has been shipped by the seaboard to make use of a few weeks before the opening of navigation in April or May, and owing to the rather small supplies of copper now on hand, it is probable that all-rail shipments will be begun before the close of the year.

Should the Montana mines remain closed, all-rail shipments will be inevitable.

Victoria. The skip is now running to the twelfth level in the main shaft of the Victoria mine. The Victoria is much the deepest mine in Ontonagon county, and the work of development has been going on in a very thorough as well as in a highly economical manner.

If there is enough copper in the Victoria rock to make the property payable, which seems probable, the present management may be relied upon to render the mine a success. The great water power developed will furnish energy for the operation of both mine and mill, and the Victoria will begin production with a number of highly favorable conditions.

The new shafthouse at "A" shaft of the Atlantic is in commission, replacing the structure burned last summer. The Atlantic is doing very well at present, the percentage of copper carried in the rock milled being greater than for several years.

The Atlantic rock is of such low-grade throughout that no selection is attempted, everything mined between walls going to the mill. Where the rock runs too low in copper to pay for operating, stopping is stopped.

The new No. 2 shaft of the Winona is to be sunk to the sixth level during the winter. The bottom of the shaft is in good ground, and the Winona continues to supply its quota of medium-grade stamp rock to the single head running thereon at the Atlantic mill.

Quincy. Wm. P. Smith is in charge of the Quincy smelters, having assumed control on Monday of this week, succeeding Jas. R. Cooper, who took the smelter on a five-year contract, when built by the Quincy company in 1898.

It is the intention of the Quincy to make a number of minor changes at the smelters, in the way of introducing trolleys in place of hand-dipping and installing other labor-saving devices. The Quincy management is well pleased with the results secured in doing up the smelting.

The mine the electric locomotives employed in underground tramming are proving highly economical. The Quincy is now crushing about one million tons of rock yearly, and the work is being done in a highly efficient manner, with the aid of the latest appliances and methods. Upon such an immense rock production a saving of only ten cents per ton means a profit of one dollar per share at the end of the year.

The Old Colony and Mayflower are continuing exploratory work, but the results secured by four years of efforts are mainly of a negative nature. The area of the properties is so great that they cannot be condemned as valueless until thoroughly explored, and this work will require several years of further effort.

Elm River. No. 1 shaft of the Elm River is now more than 400 feet in depth. It is the intention of the management to sink to perhaps 1,000 feet in depth, before opening on the Winona lode. This is a wise plan, as the upper portions of all of the cupiferous beds of the Winona district are much disturbed and broken. At a depth of 1,000 feet the true value of the Winona amygdaloid upon the Kim River tract can be determined.

Good progress is being made in the erection of the buildings of the Michigan Smelting company. Two miles west of Houghton. The plant will be both large and modern, and is to care for the mineral of the Stanton-Paine mines, from the Phoenix in Keweenaw county on the northeast, to the Michigan, in Ontonagon county on the southwest.

HORACE J. STEVENS. NORTHWESTERN DEVELOPMENT. There is still hope of saving the property of the Northwestern Development syndicate, in the Lardau district of British Columbia, for the stockholders. Officials of the Northwestern Trust Securities company, organized locally to finance, aid and loan money to the Northwestern syndicate, express confidence in the hope that sufficient money will be received this month from the assessment of fifteen cents a share on Northwestern stock to make the final payment on the property due Dec. 1. The amount is about \$28,000. The income assessment money is coming in. As the amount of the property due Dec. 1, the amount is about \$28,000. The income assessment money is coming in. As the amount of the property due Dec. 1, the amount is about \$28,000.

POWELL ASKS FOR A WARSHIP

AMERICAN MINISTER REPORTS IN-SURGENTS MARCHING ON THE DOMINICAN CAPITAL.

HE HAS ROW WITH OFFICIALS

CUYDE LINER IS PREVENTED FROM HANDING HER CARGO.

Vigorous Protest Is Filed, but President of the Black Republic Declines to Yield—German Cruisers Also to Take a Hand.

St. Thomas, D. W. I., Nov. 6.—The German warships here are coasting. It is reported that they have been hurriedly ordered to San Domingo, owing to the seriousness of the situation there.

Washington, Nov. 6.—A cablegram received at the state department from United States Minister Powell, dated San Domingo City, today, states that insurgents are marching on that city and asking that a warship be at once sent there. The cruiser Baltimore, which sailed from Hampton Roads several days ago, is now due at San Domingo and the state department believes her presence there will be sufficient.

American Steamer Menaced. San Domingo, Nov. 6.—A Dominican warship stopped the Clyde line steamer Cherokee at the latter was nearing Puerto Plata and informed the captain that he could not enter that port. The Cherokee then proceeded for Samana and was also prevented from entering that port, the captain of the Cherokee refused to comply and appealed to United States Minister Powell for protection. Minister Powell interviewed the president and argued that since the government of Santo Domingo had not advised the foreign legations of any blockade, it could not prevent the Cherokee from entering the ports of Puerto Plata and Samana, and he insisted that the cargo should be landed at its destination. The president in reply reiterated his demand that the Cherokee's cargo be landed at San Domingo, but this Minister Powell refused to permit and declared that he would have the government responsible should any violent action be adopted towards the Cherokee.

When the Cherokee was ready to leave for Azua, clearance papers were refused and it was again demanded that she land her cargo at San Domingo. Powell instructed Captain Archibald to take his ship out and proceed for Azua, keeping his cargo aboard and landing at the ports of destination.

The energetic action of Minister Powell has caused a great sensation, especially as his proceedings lacked the support of American warships. The Cherokee left harbor without a pilot. The city is quiet, but preparations looking to its defense are in active progress.

Blockade Reported Forced. Cape Haytaim, Hayti, Nov. 6.—The Clyde line steamer Cherokee, which was prevented by the authorities from entering the ports of Puerto Plata and Samana, was forced to land at the former port and entered there today.

Minister Powell, at San Domingo, has informed the Dominican government that his proposition regarding the claims of the San Domingo Improvement company of New York is not accepted by his government, which insists upon the naming of the arbitrators without further delay.

CHICAGO GRAIN MARKETS. Chicago, Nov. 6.—In the wheat pit today firm sales caused a better tone at the start, December opening a shade to 1/4% higher, at 78 1/2 to 79. Confirmation of a report that a million bushels of No. 1 Northern had been chartered at Duluth to come here brought out general liquidation early and the market turned weak. December declined to 77 1/2 within the first hour. On the decline there was a good demand from shorts and commission houses and with lessened offerings the prices again started upward. The strength of corn was a bull factor the latter part of the session, as were the higher prices in the outside markets. Reports of eighty boatloads taken for export caused a sharp demand from shorts during the last few minutes and the closing prices were at the top for the day, December being up 1/4. December opened at 78 1/2 to 79; highest, 78 1/2 to 79; lowest, 77 1/2 to 78; Liverpool closed 1/2 lower to 1/4 higher.

The sentiment in the corn pit was bullish and the market ruled strong. There were reports from sections of the corn belt showing a good deal of soft grain, and the market turned weak. December crowd was working was that in another week or ten days the pressure from the old corn would be over and this year corn would then begin to come on the market. Commission houses were active buyers, but the offerings were moderate. December closed 1/4% higher. Liverpool left off 1/4% higher. On the coast fifteen boatloads were taken. Oats were strong, particularly December, which was influenced largely by the strong cash situation, and the strength of the nearby delivery helped the more distant ones. The bullish feeling in corn influenced a good deal of buying by locals. The close was at the top, with December 1/4% higher. December

A bald head, or Ayer's Hair Vigor? You can't have both.

St. Thomas, D. W. I., Nov. 6.—The German warships here are coasting. It is reported that they have been hurriedly ordered to San Domingo, owing to the seriousness of the situation there.

Washington, Nov. 6.—A cablegram received at the state department from United States Minister Powell, dated San Domingo City, today, states that insurgents are marching on that city and asking that a warship be at once sent there. opened at 35 1/2, highest, 35 1/2; lowest, 35 1/2, closing 35 1/2. Receipts and shipments were as follows: Receipts. Shipments. Flour, barrels 16,000 16,000 Wheat, bushels 128,000 143,000 Corn, bushels 294,000 339,000 Oats, bushels 175,000 218,000

STEEL STOCKS UNDER PRESSURE.

Is Heavy Liquidation and the Prices Touch New Low Records.

New York, Nov. 6.—The stock market was submerged again today under a deluge of United States Steel stocks. The general list, however, responded much less to the influence of the liquidation than was the case yesterday. When ever the severe pressure on Steel was suspended, as happened at intervals, the railroad stocks rallied easily so that their level of prices was about as high as last night's for about as much of the time as it was below. The market closed prices in the first hour when there were no banks have made net shipments west and south of upwards of \$3,000,000. The indicated cash decrease of more than ten million dollars is about equal to the surplus reserves shown by the banks in last week's statement. The stock market community seemed to rest in a sense of security that this threatening showing would be averted from reflection in tomorrow's bank statement, as it was last week and for the two weeks preceding. Further large shipments of currency were made today and the rate of call loans touched a high of 10 per cent, but sterling exchange fell weakly to as low a point as on Monday, when gold was engaged in London, and there can be no doubt that an overflow of gold would easily result from any additional pressure from money here.

DRUNK ON COLOGNE.

Indians of Northwestern Canada Fond of Toilet Preparation.

Eau de cologne and other toilet preparations are doing a great deal of harm among the Indians of Peace river district, in northwest Canada, according to a member of the Canadian Geological Survey who has just returned to Ottawa from a visit to that region.

The harm comes from the fact that the Indians drink them. Cologne and various other concoctions known as Florida water, essence of ginger and essence of peppermint are prepared especially for internal use by traders, who are not permitted to sell whiskey to the Indians. The stuff is in reality nine-tenths pure alcohol. J. M. Macoun, of the Canadian survey, says that the traffic in alcohol thus disguised has become such a serious matter that the missionaries have become discouraged and the business of the Hudson Bay Co. promises to be embarrassed.

The Indians have learned that the sweet-smelling things are to drink and are not to be wasted as exterior ornaments. If they were to consult the Dominion records of importations, one would suppose that the Indian halfbreeds of the northwest had suddenly developed a remarkable fondness for cleanliness, for the customs reports show an unusual increase in the quantity of toilet waters imported. Most of these preparations come from the United States.

According to Mr. Macoun, the effects of drinking these preparations are very serious. The cologne is especially injurious as it has shown a tendency to affect the eyesight.

An Indian who has drunk a pint bottle of cologne and had a drink of whisky would put a continuous round of ten Manhattan cocktails to shame. The prevailing tint of everything, according to a few intelligent halfbreeds who have used cologne, was a beautiful green of varying shades.

Mr. Macoun also asserts that he took one link of cologne just to see what sort of stuff the Indians were drinking, and found it so sweet and nauseating, and at the same time so burning hot, that he was glad to end his experiments. The essence of peppermint water, if taken in moderate quantities, and the essence of ginger, he thought, might be beneficial to persons exposed to the rigors of the northern climates, but it would be far better to secure unadulterated essences prepared at a chemist's rather than to drink the stuff prepared for the Indians and half-breeds.—New York Sun.

BOSTON MARKET WEAK.

Copper Stock Quotations Show Sympathy With New York.

Paine, Webber & Co. said of the Boston market: "The market was not as bad today as had been expected. Liquidating sales outside of Steel were not as heavy as usually come with a weak market. Unless there is some so far unknown sequel to this slump in the Steel stocks the market ought to have a rally. When it rallies, however, no one should be led into the belief that it is the beginning of a bull market. Bullies are made to sell on and when one sees a profit on long stocks he should take it. There is nothing in the news to cause any one to believe that the Amalgamated settlement is any nearer than when the mine was first closed. On rallies sell stocks."

Hayden, Stone & Co. wired W. H. Laidley & Co.: "The market has been weak today, in sympathy with a weak New York market. There has been a good deal of making on the bear side, however, and on weak spots we would buy, as we think they will sell higher."

Steels the Whole Thing.

The Hadden-Rodee New York letter was as follows: "There is not much to comment upon today, except further developments of an unfavorable nature in the shares of the United States Steel corporation. Both classes of stock made new low records. We have reason to believe that the London selling has been exaggerated and that the heaviest selling orders have come from Wall Street sources. Manipulations have again been very heavy, not to say flagrant, but there can be no question as to the actual liquidation. The managers of the corporation would have done much better, no doubt, to have been frank about the conditions of Steel trade, which were favorably misreported for reasons which we may only surmise. The true condition can not longer be concealed. All classes of finished steel, barring possibly steel rails, will be reduced. Trade developments, however, insufficiently explain the extreme demoralization of the stock. It is evident there must be something radically wrong with a seven per cent stock selling near 50. We understand that discussion is rife with respect to the fact that a number of high priced officials will be let out."

THE FRENCH "DR. MARY."

Mme. Dieulafoy Wears Men's Clothes for Convenience.

France has a Dr. Mary Walker in the person of Mme. Jeanne Dieulafoy. Like "Dr. Mary," she is attired in trousers and Prince Albert—a costume she has worn since 1881 with the consent of the French government. Like her, she wears her hair short.

But there all likeness ceases. Mme. Dieulafoy has no hankering after woman's rights, having all she cares for, and avows she wears men's clothing purely for convenience.

This gentlemanly Frenchwoman is a devoted wife, provides over a charming home, and is so variously accomplished that she attracts some of the most distinguished Parisians to her salon.

Born in Toulouse, she came of the Magre family, which, in the sixteenth century, manufactured armor that rivaled that of Sarragosa. Her maternal great-grandmother was an Englishwoman.

She was graduated from the Convent of the Assumption in Paris, and married Mr. Dieulafoy, a young civil engineer just entering upon a brilliant career.

Her honeymoon was not yet waned when she went out with her husband for Persia, where he was charged with an archaeological mission by the French government. They made some most interesting researches at Susiane, and great risk to their lives. They discovered the splendid ruins of Artaxerxes, the king of Persia, from which they brought the celebrated frieze of the archers to the Louvre.

It was at this time that Mme. Dieulafoy first donned male attire, for the double reason that it was much more convenient for her researches and that her life was in danger. She was once shot by "At. Sasa," a Persian scene as background and its epoch is 4000 B. C.

In winter the Dieulafoys, who are an ideal couple, live in Paris, in Rue de Valenciennes, where they have a handsome dwelling constructed from their own plans. Last winter a piece by Calderon, in five acts, "The Tetrach of Jerusalem," translated by Mr. Dieulafoy, was presented there. Their summer home is Pempertuzat, in the Haute-Garonne. Her husband being an intrepid traveler and brilliant writer, Mme. Dieulafoy has made a success as a lecturer.

Her personality is charming. She belongs to the Legion of Honor, while her husband is a member of the institute.—New York World.

SMALL CALIBER RIFLES.

Small bore rifles are again coming in to favor with the big game hunters. Twice as many of these arms have been taken into the woods of Maine this year as last.

When the small bore was first put upon the market nearly every hunter carried one, but in the course of a few years the number began to diminish until these arms were decidedly in the minority. The argument used was that the small bore would not stop the game, and hunters went back to their former caliber.

The light weight of the small bore has always appealed to the hunters, and with new loads, mushroom bullets and slightly increased calibers the weapon is again coming into favor. The .33 is an especially popular weapon this season.

Among the larger bore the 38-55 still holds its place and bids fair to do so always, because it is a happy medium; but advocates of the 44, the 45-70 and the 45-90 are still to be found, and they continue to argue that the shock from one of these bullets does not do the thing.

These guns are much in favor with the guides and woodsmen.

"Why, I've put a whole magazine of thirty-three into a deer and he's kept right on. Never knew he was hit until he dropped dead," said a guide. "But Charles says you that when I hit a deer with my old forty-five-ninety he knows something's struck him, and for just that reason I'd rather carry a little extra weight when I am in the woods."

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overrated. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectation in the morning, as much as you can, when I hit a deer with my old forty-five-ninety he knows something's struck him, and for just that reason I'd rather carry a little extra weight when I am in the woods."

FOR BOWEL TROUBLES

A Magic Cure That Relieves Pain Instantly.

Dr. Colwell's Magic Egyptian Oil is a marvelous remedy for the cure of bowels troubles, such as cramps, diarrhea, dysentery or any other complaint of any kind. It is constant relief to all.

Mr. Chas. W. Cooper who has been a conductor on the Michigan Central Railroad for several years, and who is so justly popular, has spoken of Magic Egyptian Oil. "I have used Magic Egyptian Oil for the past three or four years, and have never in a single instance known it to fail to give relief. It is a sure remedy for rheuma, ism, neuralgia and every other painful affection, and in bowel complaints or any intestinal distress it cannot be equalled."

It only costs 50 cents to have a bottle sent "round the house" and remember, every druggist in Michigan sells it and that each druggist is authorized to refund your purchase money on any bottle of Dr. Colwell's Magic Egyptian Oil that is not entirely satisfactory.

MONTE CARLO'S BLACKLIST.

It is usually imagined that anyone may enter the gambling saloons at Monte Carlo and try his luck at the tables where roulette, trente-et-quarante and baccarat are played. But the princes of Monaco has made a rule that no resident in his "dominion" is to be allowed admission, and the privilege is consequently denied his "people."

The casino authorities decline admission on their own account to any person who on a previous occasion may have lost all his money at the tables and may have had to ask for financial assistance from them to procure a railway ticket for home.

To secure this money one goes to the office of the administration—which is at the top of a steep staircase—and after signing sundry documents the victim has to sit to a photographer. This photograph is preserved for future reference, and the man who is on this "blacklist" has very little chance of renewing acquaintance with the gilded saloons until he has repaid the debt.—New York World.

DR. WEAVER'S TREATMENT.

Syrup for the blood; Ointment for skin eruptions.

CURED OF PILES AFTER 40 YEARS.

Mr. C. Haney, of Geneva, O., had the piles for 40 years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, sores, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap worthless counterfeits. Sold by The Stafford Drug Co., Marquette, and H. N. Meloche, Ishpeming.

D. SEIDENFELD

Next Door to First National Bank.

Business is booming at our store. We are cutting and slashing prices, the like of which is an unknown factor in the annals of merchandising. We realize we have entirely too many goods on hand. We had too many opportunities this season of buying goods from hard-up manufacturers and jobbers at much under-value and in consequence overladen. This in ordinary times, however, would be just what we could want, but this is rather peculiar season. There seems to be an under current of mistrust in financial and business circles. We cannot see any cause for this whatsoever; labor is well employed all over the country at remunerative wages; farmers raised a fair crop and are receiving higher prices for their produce than they have received for years. Had we an average size stock on hand we would not be apprehensive, but having such immense quantities of goods we are somewhat uneasy and have decided to sacrifice all our overstock at positively less than cost price.

Better Than Honey For Less Money

KARO CORN SYRUP is a food and table delicacy combined. It makes you eat. Contains all the nutritive, strengthening properties of corn in a pre-digested form, ready to use by the blood immediately upon entering the stomach. A fine food for feeble folks, as well as well folks. Children love it and thrive upon its pure, wholesome goodness. It is a remarkable energy and strength producer. Excellent for all home uses from griddle cakes to candy. Its reasonable cost appeals to the prudent housewife. A better syrup than you ever bought.

The Great Spread for Daily Bread.

Sold in airtight, friction-top tins which are excellent for various household purposes when empty. Sold by all grocers in three sizes, 10c, 25c and 50c.

Two Extremes!

THE DREW **THE GILLETTE**

BOTH very popular. Both faultless in style. Both are K. N. & F. made, which answers all questions as to quality. It is extreme folly to waste money in having overcoat's made to order when such as these are offered ready-to-wear at such prices. The other extreme is the deluded man who buys a cheap, made, ill-fitting garment on the score of economy. Our coats represent the happy medium between the extremes. Don't be an extremist.

Johnson & Peterson.

WELL, MR. SMOKER you certainly placed CONFIDENCE in what we told you about the **DARANTELLA** Cigar. Our increase in sales prove that we shall continue at all times to give full value. **JOHN E. KENNING & CO.,** Grand Rapids, Mich. Distributors and Makers.

THE NEW DENSMORE No. 6

In now ready for the market. This machine takes an 11 1/2-inch paper and writes a 9-inch line. We furnish an extra, interchangeable, narrow carriage with this machine, and thereby combine two machines in one. This is ANOTHER exclusive feature of the "World's Greatest Typewriter," and should be much appreciated.

The Densmore Does More!

If you require a wide carriage machine, examine the new DENSMORE NO. 6 before purchasing. Descriptive catalogue sent on application.

Machines for rent, from \$3.00 per month up.

PENGLASE MAKES STATEMENT.
Says Escanaba Officers Had No Grounds for His Arrest.

John Penglase, Jr., who was arrested at Escanaba on suspicion of being implicated in the recent postoffice robbery there, was in Ishpeming yesterday, having come up from the Sandy City on the morning train.

Mr. Penglase feels deeply grieved at the sorrow his arrest has caused upon his people, but he told The Mining Journal representative that he will have no difficulty proving that he was in no way concerned in the robbery. He says he will prosecute the parties who caused his arrest and imprisonment with a view to making them pay damages.

In talking over the trouble young Penglase said: "During the three months Anderson and Reynolds were confined in the Marquette county jail awaiting trial for the burglary of which they were subsequently found guilty and given a term at the branch of state prison, I brought them their food. The greater part of the time I became quite well acquainted with them.

"After Anderson and Reynolds were released from the prison I met them occasionally. I think they were out here early in May. On June 3 I went to Hibbing, Minn., where I secured a position. On Sept. 17 I returned from Hibbing. Soon after my arrival in Ishpeming I met Anderson and Reynolds. We were around together a short time, later going to Negaunee.

"I did not see either of them again until the night before the postoffice robbery at Escanaba. Bert Boddy and I were on our way to Boddy's home, he having invited me to supper. We passed Anderson and Reynolds on the street. Recognizing them as I passed I waved my hand to them, at the same time remarking to Boddy that they were crooks and would never watch me and then told Boddy something about their history.

"A day or so after the robbery Boddy told Postmaster Ryan what I had said about Anderson and Reynolds. This is what caused the suspicion that they were the postoffice robbers. Wednesday Boddy told me that Ryan wanted to see me. I went over to the postoffice, but he was not in. The following day Ryan and Postoffice Inspector Escanaba came to the place where Boddy works. We talked the matter over at considerable length. I agreed to help run down Anderson and Reynolds. Both Ryan and Backus promised to give me all the information they could for my work if it was found that the suspected pair were guilty.

FOOTBALL NEWS.
Ishpeming Eleven Plays Ironwood a Return Game Today.

The football team left yesterday morning for Ironwood, where it plays a return game today. The boys traveled in a special coach, provided with mattresses and blankets, so that the members of the team may have sleeping accommodations on the return trip. They will leave Ironwood this evening and arrive here on the early train tomorrow morning. Four substitute players and a few rooters went along, the party numbering about twenty. It is thought that the team will be able to hold its own. Urquhart remained at home and his absence from the lineup will be a big handicap. Collick, who has been showing up well of late, has not yet completely recovered from his injury.

The Hancock-Escanaba game will attract much attention. Hancock was the most formidable opponent that Ishpeming has met this season and if the eleven plays in the form it displayed two weeks ago it will be likely to give a good account of itself.

The decision of the manager of the state board of control in regard to the Ishpeming-Escanaba game is generally regarded as final. The management, however, has no intention of taking the team to Escanaba unless assurance is given that its terms will be complied with. Ishpeming asks that the gridiron be fenced, that proper police protection be afforded and that impartial officials are provided. Escanaba made practically the same stipulations last year before consenting to come here for the return game. Escanaba had no complaints to make of ill treatment on the occasion of the last championship contest.

The Escanaba Mirror, in its efforts to throw discredit upon Ishpeming, has given a foreigner who is not conversant with the ways of American advertising struck town with his kitescope Wednesday. For lack of patronage there was no entertainment and he tagged his apparatus for Agate Siding the next day.

The funeral of the late Bruce Cameron was attended Sunday afternoon at 2 o'clock by a throng that filled the Congregational church to overflowing. Rev. Joseph Billings, of Ishpeming, conducted the service, taking for a text the fifth verse of the thirty-first psalm. A special choir rendered three appropriate hymns.

F. Burgess, F. L. Albertson, H. J. Purse, F. H. Jerome and Martin Kelly, all of Detroit, composed a party that reached Kalamazoo Thursday, armed with rides and licenses, to kill the unsuspecting deer. They were driven to Frank Arnold's lodge near the slate quarry, where they will be in camp during the open season.

The many friends of Jas. Reed, a brother-in-law of P. J. Elliott of this place, will regret to hear of an accident so badly that amputation was found necessary. Mr. Reed was for years in the employ of the Sparrow-Kroll Lumber company before going to Negaunee.

The township board has condemned the highway bridge over Junco creek between Kalamazoo and Trout Creek, and for several days Commissioner Elliott, with a crew of men, has been constructing a new one on the south side of the D. S. S. & A. right of way. This necessarily changes the course of the road a few rods, but makes the approach to the bridge less steep and avoids a railroad crossing at a dangerous point. The new road will intersect the highway running north and south about twenty rods west of the bridge and will make a course direct to a well-populated district southwest of Kalamazoo and at the same time eliminate two railroad crossings.

FOR RENT—Large front room, furnished, with privilege of bath room, very fine and convenient location. Apply at 312 West Euclid St. 11-7-30

LOST—A pocketbook containing \$21 and odd cents. For finder of same will be paid \$7. Return to Henry Helzel. 11-1-19

LOST—Pair spectacles, on first street, between depot and High school. Reward, Bayard & Hosselblad, 8 1/2 and Second St. 11-3-30

FOR RENT—Four rooms, corner Empire and First streets. Apply to S. Johnson, office opposite Nelson House. 11-4-19

WILL HOLD JUBILEE.
The Swedish Home society will hold a jubilee celebration Thanksgiving Day commemorating the payment of the indebtedness on the property of the society. When the lodge bought the lot and erected the building it now occupies it incurred a debt of over \$6,000. By the unanimous effort and sacrifice of the members the last dollar of the indebtedness has been paid. The celebration will begin in the afternoon, when the members and their families will gather in the new Braastad hall at 4 o'clock. An entertainment will be held there lasting until six. Supper will be served in the lodge hall from six until seven.

IT IS EASY TO SAY "be careful, but we must all go from head to toe into the mire of sin and the chance sets us coughing and wheezing. Avoiding the mire is not hard if you take Allen's Lung Balm. Better begin when the cold is young and not wait until it settles into the lungs, for then, even with Allen's Lung Balm, complete relief will be slower.

ISHPEMING IN BRIEF.
Mrs. Jennie Fisher has returned from a two weeks' visit to Chicago.
The Young Men's Dancing club will give a hop this evening at Anderson's Hall.
The Peerless team will meet a picked eleven from Negaunee tomorrow afternoon at 2:30 at Union Park.
Phillip D. Kennedy, manager of Hadden-Rodee's branch offices in the peninsula, was in the city yesterday.
Rev. John Gray, D.D., president of the Michigan Seminary for Young Ladies at Kalamazoo, was in the city Thursday.
George Voyer left yesterday to spend ten days hunting in the vicinity of the public. John Nordgren is filling his place at the Nelson.
J. Wesley Sears is now fully established in his new quarters in the old steam laundry building, at the corner of Pine and Division streets.
Parties keeping cows or pigs can get a quantity of overgrown rutabagas and small potatoes cheap while they last. Apply 312 West Euclid street.
Frank Lassenius has given up his position at Crystal Falls, where he was bookkeeper in a mercantile establishment, and has returned to Ishpeming.
Isaac Gustafson, a former Ishpeming man, is expected here in a few days, after spending the past two years in the Nome district, Alaska. He has some valuable claims there.
Regular services will be held at Grace church tomorrow, at 8 and 10:30 a. m. and 7 p. m. Sunday school will be held at 12 o'clock. All services will be conducted by Rev. William Poyser, of Crystal Falls.
Professor M. W. Broman has been obliged to postpone his intended removal to Calumet on account of a painful injury to a foot, sustained a few days ago. He stepped upon a sewing needle. It penetrated the bone and broke off.
Mrs. James Connors of Commonwealth, Wis., was here Thursday, in attendance upon the funeral of the late William Lynch. Mrs. James Connors, Mrs. Robert Talbot and Mrs. Elizabeth Lee of the Soo, sisters-in-law of the deceased, were among other out of town visitors who attended the funeral.
William Leininger has a quart jar filled with peas on exhibition in his display window. Every person who purchases a bottle of Cedarine Furniture polish will be entitled to make a guess on the number of peas in the jar, and the one who makes the most accurate calculation will be rewarded by a free ticket to the opening performance at the new theater.
A RUNAWAY BICYCLE. Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for Burns, Scalds, Eruptions and Piles. 25c, at the Stafford Drug Co.

CHARGED WITH LARCENY.
"When I was brought before Judge Glazer the charge preferred against me was larceny. This is where the funny part of the whole affair comes in. I was told that I was arrested on suspicion of having stolen a watch and coat from some hotel. That was the first I had heard about the coat and watch deal, and I can't even tell now what hotel it was alleged the stuff was taken from.

"After being in the court room a short time I was released. Cummins said I could go and that my hearing would be next Monday, but he did not notify me to be on hand I need not come around. I told him that I would be there whether he called me in or not.

Thinks He Has a Case.
"I think I have a good case against the people responsible for my arrest and imprisonment, and I intend to employ a good lawyer to look after my case.

"I think my arrest was due to the work of a federal officer at Marquette, who was in Escanaba Monday. This man has been disgruntled ever since my father refused to appoint him a deputy sheriff.

"I was informed before leaving Escanaba that Backus and Ryan were in no way responsible for my arrest. I have reason to believe that both of them opposed it; in fact they had the council engage me to work on the case."

Penglase said that he would today receive a check from Postmaster Ryan for \$25 in payment of his services. He left last evening for Iron Mountain, where he will solicit the aid of relatives with a view to raising sufficient funds to employ a competent attorney to represent him at Escanaba.

CARD OF THANKS.
We desire to express our most sincere thanks to all friends who showed kindness to us in our recent sad affliction. We wish to specially thank all those who sent floral tributes.

MRS. ALENA LYNCH and Family.

Tilson has received a new supply of the Cadrette and Johnson county map. The road and camp feature on this map makes it especially valuable to hunters. (10-29-19)

COFFEE DEMONSTRATION.
A representative of Sprague, Warner & Co. will demonstrate the firm's coffee at our store during the week of Nov. 2, beginning Monday morning. The ladies are invited to call. Boys and girls will be given drawing books. The boy submitting the best work will get a football, and the girl winning in the competition will get a \$3 doll. A. W. Myers Mercantile Co. (10-30-19)

Kenton Catches.

William Kroll returned from his western trip Tuesday morning.
Robert A. Douglas of Ironwood was here early in the week.
A daughter was born to Mr. and Mrs. Jas. Lafave Thursday morning.
Joseph Videl has purchased a saloon at Republic.

Walter Pethis has moved with his family into town for the winter.
Rev. B. Eiling, of Ewen, called on his Kalamazoo parishioners Wednesday.

Kenton people have taken out about fifty deer licenses.
E. W. Sparrow of Lansing arrived yesterday and is the guest of Mr. and Mrs. Wm. Kroll.
F. G. Carpenter of Chicago and P. J. O'Donald of Duluth were business visitors here Friday.

M. S. Brown of Saginaw and Grant and J. C. Holden of Yale have located near the slate quarry, for deer hunting.

Jno. Yourd of Big Rapids returned Thursday to Kalamazoo to resume his position with the Sparrow-Kroll Lumber Co.

Mrs. John Smith and children of Kalamazoo reached here Thursday for a few weeks' visit with Mr. and Mrs. Wm. Kroll.
W. S. King, of Detroit, Alex. E. Kerr, of Laurium, W. A. Lincoln, of Chicago and R. Francis of Greenland were here during the week.

William Daniels was taken to Marquette Saturday where an operation for appendicitis was performed at St. Luke's hospital. His ultimate recovery is hoped for by his friends here.

G. C. Haus and Stanley Elkins, of Estherville, Ia., spent Wednesday and Thursday examining lands about Kalamazoo. They left for Matchwood on the noon train Thursday. It is their intention to take up several large tracts.

A foreigner who is not conversant with the ways of American advertising struck town with his kitescope Wednesday. For lack of patronage there was no entertainment and he tagged his apparatus for Agate Siding the next day.

The funeral of the late Bruce Cameron was attended Sunday afternoon at 2 o'clock by a throng that filled the Congregational church to overflowing. Rev. Cures a Cold in One Day, Grip in 2 Days

The Effective Remedy

WASHINGTON, IOWA, April 4, 1903.

I was troubled for over a year with so scanty a flow that it was virtually suppression. A heavy cold superinduced this condition and nothing I could do seemed to help me. The only effective remedy I ever found was Wine of Cardui. Within two weeks I felt the good effects of the medicine and after I had used 12 bottles in all I was as healthy and regular as any woman could wish to be.

My sister used it while expecting to become a mother and found that it made childbirth comparatively easy and after the child was born she found that it helped her to regain her strength.

Jennie Root

GRAND WORTHY ASSOCIATE, SOUS OF TEMPERANCE.

WINE OF GARDUI

Wine of Cardui cures nine out of every ten cases of the disorders of menstruation. These cures are permanent, whether the trouble is complicated or not.

Wine of Cardui cures the sickness of young girls, relieves the weakness of adults, banishes leucorrhoea, headaches, backaches and nervousness and eases the crisis attendant on the change of life.

Thousands of mothers besides Miss Root's sister have found grateful relief from the pains of childbirth and have had a quick and happy recovery from its use. You cannot afford to suffer when \$1.00 bottles are sold by all druggists.

MORE ARRESTS MADE YESTERDAY

DEPUTY STATE GAME WARDEN BREWSTER MOVED AGAINST FISH LAW VIOLATORS HERE

MAY TEST STATE STATUTE

CASE AGAINST S. P. WIRES ONLY ONE TO BE PUSHED.

He Plead Guilty Yesterday and Will at Once Take an Appeal to Circuit Court, Where There Will Be a Trial in December.

Deputy State Game Warden Brewster made no less than eight arrests here yesterday afternoon, on the return of the tug Theora and Peter Anderson's fishing craft to the harbor from lifting their nets. They were for violations of the state game and fish law, the offense being fishing for spawn without the supervision of a representative of the state game and fish department, and included the owners and captains of the fishing craft and the United States employes, not excepting S. P. Wires, the superintendent of the Duluth hatchery. The warrants were for Samuel Gervin, Peter Anderson, William Parker, John Parker, Frank Thomas, William Gerou, William Wilson and Mr. Wires. Mr. Brewster likewise seized the nets and the day's catch, which, however, he immediately returned to the fishermen on their signing a receipt for the same.

There was a hearing in the cases at Justice Byrne's court at 5:30 o'clock all the accused being present. D. H. Ball appeared for Mr. Wires. It was suggested that all that was desired by the state was to get a judgment against one of the United States officers, and Mr. Brewster agreed that if Mr. Wires would plead guilty, with the expectation of sending the case to the circuit court, he would hold all the other cases in abeyance. After a discussion of the matter in its various aspects it was decided to take this course. Mr. Wires pleaded guilty to a violation of the state statute. Judge Byrne assessed him the minimum fine, \$25, and costs, and notice of appeal was immediately given. The case will come up for trial in the December term.

There is said to be little doubt that the United States government will this fall finally determine to close the fall fishery to fish for the purpose of gathering spawn to be used in the propagation of commercial fishes, into the closed season fixed by the state, without the interference of state officials. Mr. Wires has not yet received instructions from Wires as to what he should do in the litigation here through all the courts, making it a test case, but he will likely receive such instructions, and even if the Marquette case is settled or dropped, it is expected that the long standing question between the state and federal authorities will still be passed upon. If a test case is not undertaken in Marquette it will undoubtedly be started in the lower part of the state, where the United States authorities are also accustomed to fish in the closed season.

Situation in Lower Michigan.

In lower Michigan their conduct is, indeed, more likely to arouse the opposition of the state authorities than is true in the upper peninsula. In Lake Superior the fish begin spawning before the end of the open season and by running over into the closed season but a few days the hatchery at Duluth is able to get all the eggs it requires. In Lake Michigan, however, the source of supply for the Northville hatchery during the open season does not open until after the beginning of the closed season for commercial fishing, and the government officials are accustomed to break into the latter, starting the fishing craft up in their service after all commercial fishing has ceased, a much more aggravated form, it may be readily seen, of violation of the state laws, if, indeed, it develops that there is any such violation. The dispute between the state and federal authorities is not anything new, but, on the contrary, is one of long standing. For the past six or seven years there has been more or less debate between them as to the government's right to fish for spawn during the closed season, but in previous years, although there has been some sputter and controversy over the matter, the state authorities have never seen fit to push any case against the U. S. officers. Now, however, it appears that State Game Warden Chapman of the Soo has determined to have the question cleared up once for all. In a Soo special to the Free Press the game warden is credited with the intention of making it warm for the United States authorities wherever they have tugs out under their direction. The arrests here by Deputy Warden Brewster are the first of a series that are to be made wherever the government does post-season fishing without complying with the state statute governing the manner in which it shall be done.

As set forth in The Mining Journal the other day, there is an amendment to the general game and fish statutes for the state, providing that the government

may fish during the closed season for the purpose of collecting spawn, if the work proceeds under the direction of a duly authorized representative of the state game and fish department. Deputy Brewster tried to put these representatives on the Marquette craft this week. His man was not allowed on the Theora, Parker's tug, as the crew has strict orders against carrying any strangers or passengers, its license being explicit in this respect.

Claim of U. S. Officers. The United States officers claim the right to fish when they please and when they please, and without any interference from agents of the state game warden's department. These latter, they say, would interfere with their work, and cause them endless trouble in the collection of spawn.

An important point in the dispute, as has been stated, is the disposition of the fish. These are now kept by the fishermen in return for the use of their spawn. The state authorities claim that only the ripe fish, those from which spawn is taken, should be thus kept, the unripe fish going to the state. The Soo special referred to above says that affidavits show that eighty per cent of the fish taken are sold by the fishermen, giving them a considerable profit, but, as one of the fishermen remarked in this connection, "What does Mr. Chapman think they are running their boats for?"

The Theora is now lifting its nets as usual for the season, but for about all the spawn that can be procured this year having already been collected.

At the Duluth hatchery, for which the spawn taken here is being secured, there is a capacity of about 15,000,000 lake trout and 35,000,000 whitefish fry each year. In addition some brook trout fry are produced.

APPOINTMENT EXPECTED.

Is Thought That Archbishop Katz's Successor Will Soon Be Named. The clergy of the Milwaukee archdiocese, of which the diocese of Sault Ste. Marie and Marquette is a part, are now momentarily expecting advice from Rome as to the successor of the late Archbishop Katz, of Milwaukee. The Sentinel says that a great deal of confidence is felt among them that the successor will be Rev. A. P. Schinner. It is an open secret that he is the favorite among a majority of the younger men among the clergy, and that certain information that has been called for by the appointing power at the holy see indicates his appointment.

This circumstance is significant when it is coupled with the fact that Father Schinner is not unknown to the heads of the church in Rome, he having been appointed by Archbishop Katz to be administrator of the archdiocese of Milwaukee during the protracted absence of the archbishop in Europe in 1895-6. He is a young man, but his lack of years has been fully atoned for by the heavy responsibilities that he has borne during his life in the service of the church. He was born in Milwaukee, May 1, 1873, and his early life was spent in the city of that name. He received the fundamentals of his education in St. Mary's parochial school, from which he was graduated in 1876. He was an apt scholar, and he fell in with the desires of his friends by determining to become a priest. With this end in view he entered St. Francis seminary, was graduated in 1888, and was ordained to the priesthood immediately on his graduation.

His first mass was celebrated in St. Mary's church, March 14, 1886, when he was but 23 years of age. He was given charge of the church at Richfield, in Washington county, and remained there sixteen months, when his health failed and he was obliged to retire.

At the beginning of the college year in 1887, he was appointed a professor at St. Francis and remained there five years, resigning his position to become secretary to the archbishop. He was appointed vicar general of the archdiocese to succeed the Right Rev. Mgr. Augustine Zeiminger. During the long illness and since the death of Archbishop Katz, he has acted as archbishop.

NEW BONDS REQUIRED.

Those Offered in Probate Court Have to Be Renewed Every Five Years. One of the statutes passed by the last legislature makes it the duty of the probate courts in the various counties to give written notice to each guardian, executor or administrator who has been acting as such for five years to come into court on a certain day and give a new bond in such sum as the probate court shall determine. The judge must give notice to all guardians, executors and administrators on the expiration of the five-year period, and then they must file their new bonds within thirty days of the date set by the judge. Furthermore the judge of probate is required to keep a book of the dates of the various bonds and to see that this requirement of the law is strictly fulfilled. Judge Kelsey is now issuing the requisite notices and preparing his records according to the law. He is going back to the first days of the court and finds that many estates probated in the fifties have not yet been closed up. The new statute means not a little additional work for the various judges of probate.

Into each life some ruins must fall, Wise people don't sit down and bawl; Only fools suicide or take to flight, Smart people take Rocky Mountain Tea at night.

COZY IN COOL WEATHER.

If you have a fireplace in your home use the "Grate" fuel; that's coke, \$5.50 per ton delivered. The Marquette Gas Light Co.

RASMUSSEN CASE AGAIN.

Attorneys Making Big Effort to Have It Dismissed.

The hearing in the case of Peter Rasmussen was resumed in Judge Byrne's court yesterday. The whole day was given over to the examination of Catherine Locke, the young girl, and Catherine Ziesch, her stepmother, by the lawyers for Rasmussen, Messrs. Hill, Joslin and Button. They are making a determined effort to have the case dismissed in justice court, and are endeavoring to show that there is no reason for sending it before Judge Stone. They are seeking to discredit the stories of the two prosecuting witnesses by trying to show that they are not straightforward, but are in many respects contradictory and conflicting. This is what yesterday was given over to, Rasmussen's lawyers taking up practically all the time. Prosecutor Bell was down looking after the People's case. The hearing was not finished, an adjournment being taken until Monday morning.

CURVED BALL PERMISSIBLE.

Changes in the Rules Governing Sport of Indoor Baseball.

Members of the executive committee of the National Indoor Baseball association met at Chicago this week and approved a few changes in the rules governing the game. The pitching rule was altered to allow curved pitching. The pitcher will be required to keep both feet on the rear line of the pitching box and only be allowed one step in the act of delivering. This will make the pitcher pitch the ball about three feet farther than under the old rule, and as he cannot get the speed on his body, he will be unable to get the speed on the ball as formerly. This should greatly increase the batting.

Another important change is that when a batsman intentionally gets in the way or interferes with a pitched ball a strike shall be called on him by the umpire. This rule will do away with a batter sticking out his knee or elbow and blocking any ball that does not suit him.

Interest in indoor baseball is by no means on the wane and according to reports received from all parts of the country the game will be followed with much zest through the coming winter. In Marquette the indoor baseball players have not as yet formulated plans for the winter campaign. There are many who take a real interest in the game and who hope to see it played in the city during the season, but the lack of a suitable place for the sport promises to be a great handicap. It is generally held that the Casino will not do, unless something is done to put its interior in good condition.

SOO CANAL PASSAGES.

List of the Boats Locked Through on the Up-Bound Trip.

Sault Ste. Marie, Mich., Nov. 6.—Up: Cort and whaleback, Roby, 9:40 last night; Fryer, 11:30; Saunders, 1:20 a. m.; Germanic, 2; Louisiana, 2:30; Sherriff, 12:30 p. m.; Troy, 1; Taylor, 3:30; Langhorn, 6; Venus, 7.

CURRENT EVENTS CLASS.

Will Hold Its First Meeting This Morning at Morgan Memorial Chapel.

The Current Events class will meet this morning for the first time at the Morgan Memorial chapel at 11 o'clock. The members are requested to be prompt in their attendance as Miss Hanson will begin her talk promptly at eleven. The ladies in charge of the class announce that the number of members is not limited and that the public generally is invited. All desirous of joining can procure their tickets at the door. The charge is \$2 for the course, or twenty-five cents for single lectures.

CITY BREVITIES.

Weather forecast: Warmer and generally fair; increasing southeast wind. Yesterday's temperature: 7 a. m., 30 degrees; noon, 32 degrees; 7 p. m., 29 degrees; maximum, 34 degrees; minimum, 29 degrees.

Born to Mr. and Mrs. John Stenglein, a boy. Mrs. W. J. MacAdams left last evening for Duluth after a six weeks' visit with her parents, Mr. and Mrs. Allen Cowden.

Rev. John Gray, D.D., who will be heard at the Presbyterian church tomorrow, addressed the young people of the high school yesterday afternoon.

Commencing Sunday evening, the pastor of the First M. E. church will preach a series of sermons to young men. The first sermon will, "The Young Man at Home." There will be good music each evening.

At the Salvation Army hall tonight, the meeting will be of special character. "Junior demonstration," including program of recitations, music and singing has been arranged, following the rendition of which cake and coffee will be served.

"When Knighthood Was in Flower" pleased a fine audience at the Lyceum, Duluth, this week, it being described as one of the best bills of the season. The Herald says "the Lyceum has not presented a more delightful piece in months than 'Knighthood' as played by Miss Roselle Knott and company."

Rev. J. M. Rogers has agreed to perform a wedding ceremony in the Salmon Trout region, beyond Lake Independence, Tuesday of next week. As this is the region in which he has hunted in past years, it is safe to assert that he will take a rifle along and keep his eyes open for deer.

As will be the case all over the United States, special services in memory of Consul Booth-Tucker will be held at the Salvation Army hall tomorrow as follows: Holiness meeting, 11 a. m.; Christian meeting, 3 p. m.; memorial service, 8 p. m. At the latter meeting a sketch of the life of the late consul will be read.

The glass is now being put in the windows at the new court house, and soon it will be completely enclosed. The unsettled weather prevailing during the past few days has somewhat interfered with the progress of the cement work, but men were busy on the dome again yesterday. It will soon be possible to enclose the roof of this part of the structure.

Rev. John Gray, D. D., who has been visiting in the city has been prevailed on to remain over Sunday. He will preach at the Presbyterian church at the regular morning service and in the evening will deliver a special lecture for young people, taking "Success" as his theme. Rev. Gray is the president of the Michigan Seminary for Young Ladies, at Kalamazoo.

County Clerk Ross will keep his office open this evening from seven to nine o'clock, for the accommodation of people who may desire to secure deer licenses before starting to the woods tomorrow.

The big demand for the licenses continued yesterday. In fact the clerk has done nothing else since the first of the month but wait on prospective hunters. The indications are that the total number of licenses issued will show a considerable increase over the record for last year.

The Soo football eleven is due to meet the Marquette team at the fair grounds this afternoon at 2:30 o'clock, when a good game is expected. The teams are pretty well matched. The locals defeated the Soo players at that city a few weeks ago, but look for a hard game today, as the Soo men have been working steadily in the interval in the hopes of turning the tables. There will be an informal hop in honor of the visitors at Fraternity hall this evening. Tickets will be fifty cents a couple. No invitations will be issued, but all who are usually asked to high school dances will be made welcome. Dancing will begin at 8:30 o'clock. The Soo players arrived last night.

The party taking the silver watch box from Bigelow & Co.'s yesterday afternoon no questions will be asked, if not, arrested will surely follow. (11-7-1d)

HEADQUARTERS FOR RYE BREAD.

At Deschaine's bakery. Made fresh every morning. (11-5-1f)

Bargain Prices on High Grade Furniture. When you can buy Karpfen furniture at such prices as we offer, it is folly to look at untrustworthy and unknown makes. Karpfen leather furniture may be recognized by the word "Sterling." The Sterling brand of genuine leather is guaranteed to always remain pliable, soft and rich in texture. Not even an expert can tell the difference between the best upholstery leather and cheap inferior grades of which there are about nine in number and a host of imitations. It is only by use that one learns the difference. Sterling genuine leather has a grain applied which lasts just long enough to deceive the purchaser. We offer the Sterling brand at lower prices than are asked for unknown makes. It is a pleasure to sell only leather furniture which we can guarantee to give satisfaction. Karpfen furniture is sold with a guarantee of satisfaction or money back. The following are some of this month's bargains. Karpfen Guaranteed Upholstered Furniture CHICAGO. STERLING LEATHER. Lounges, Couches, Ravenports, Easy Chairs, Patent Rockers, Morris Chairs.

We are sole agents for this celebrated make of FURNITURE. WE MAKE YOU CHICAGO PRICES.
