> > There are no frills about the presient's message to the present congress, It is a plain, straightforward review of the Cuban reciprocity question to date and an eloquent appeal for favorable action on the treaty. No other subject is referred to, even in the briefest manner. Unfortunately there seems to be doubt whether the president's advice will be taken, at least until there has been much debate and delay. The house and senate are in open disagreement on a number of important points in connection with the treaty, and their differences seem far from settlement. To be sure they ought to dismiss their jealousies for a time and succor Cuba, but they are both highly egotistical bodies. They each consider that it is more important to preserve their perogatives unimpaired than to act on even the most pressing legislation now before

VALUABLE PUBLIC SERVANTS.

By act of the legislature at the session of last winter, the advisory board of pardons will be limited to three members after the 29th of this month. The board now consists of only three members, owing to the resignation of Judge Pealer, who retired on the first of September last, the governor having allowed the vacancy to remain unfilled. The remaining members of the old board are Judge William R. Kendrick, of Saginaw; Dr. F. W. Shumway, of Williamston, and Hon, C. W. Giddings, of St. Louis, the secretary being Will B, Reardon, of Lansing.

If Governor Bliss should see fit to constitute the new board of the present character, tried integrity, and proved capacity for the work the pardon board has to deal with. It has to investigate

Republic.

GIBSON MINE ABANDONED.

Oliver Iron Co. Surrenders It to T. J. Gibson, a Former Republic Man.

The last issue of the Crystal Falls Diamond Drill contained the following

The Escanaba Mirror, referring to last Saturday's game of football with Hancock, which Escanaba won by the score of 60 to 0, says:

The game was a slaughter. Using the strongest football tactics ever seen here, the locals fairly mowed the Hancock team down. The procession of orange and black moved steadily from one end of the field to the other, scoring touchdown after touchdown.

Hancock was neither slow nor weak. They played an excellent game, Their interference was fine; they played in good "Orders were received from Duluth to

except smoothing the floor. This work was immediately started to that end.
The pumps are now out of the mine and feet formation with four men between the Hancock boys and the man with the ball, and they put a fierceness into their play that sent their opponents bowling in all directions, while the backs shot down the field for run after run in quick and they put after run in quick and they provide the condescent area. diseases of the skin.

We have lately secured the agency for this city and vicinity of a preparation which is reliable and certain in clearing away troubles of the skin. Many forms of skin affections which have been considered incurable are conquered by this medicament as easily as a cough is stopped by the proper soothing and healing influences. This preparation is now in use among skin specialists, and many large hospitals have adopted it for eczema and kindred cases. It stands among the most useful medical

We have evidence of its work to show which will interest any sufferer. Call and investigate same. Since we have been handling the remedy-known as D. D. -its work proves so effective we guarantee its efficacy. In all cases of skin affection we will refund the price of a bottle (\$1) if the sufferer does not consider it literally a Godsend after trying. It is curing the worst kind of cases every day. It seems a pity any one should suffer the torture of skin troubles when so dependable a curative agent can be

INQUEST TO BE

TESTIMONY IN THE CASE OF KILL-ING OF D. P. PICKETT TO BE TAKEN THIS MORNING.

ARRIVE AT VERDICT.

Is Not Yet Announced That There Will Be Prosecution Under the New Law, but This Is

neighborhood at the time of the shooting, Murray, Parker and Cuddahy, and there is virtual agreement on all the important points in connection with the sad affair. The verdict will doubtless be that the deceased came to his death as a result of accidental shooting, the gun being discharged by Fred Murray. The jury is composed of S. W. Wheeler, J. E. Reau, James MacKenzie, M. H. Mullaly, Peter Boyer and Robert Young.

Prosecuting Attorney Bell was in the city yesterday looking into the case preliminary to the inquest. He was unable, or at least did not care to, say whether the killing of Pickett would be made the occasion of a test of the new law relating to such accidents, published in The Mining Journal yesterday morning. The prosecutor will be guided in his decision in this regard by the proceedings of the inquest. It is not unlikely, however, that the new statute will be given a test, as the conditions framed it and finally secured its pass- J. Wirtz: age. As for pushing the case, the law is explicit on this point, as may be seen at a glance. It makes it incumbent the prosecutor and sheriff to take necessary steps to do so.

Law a Subject of Debate.

The killing of Pickett continued to a general subject of conversation a comment yesterday. The discussion the most part turned on the law ma ing the killing of hunters manslaught and punishable by fine or imprisonme Concerning this law there seems to be Assessments, work, patents and wide difference of opinion. The general comment would indicate that it is held by most people to be a pretty poor sort of law, one that cannot well enforced, even if it is not liable to attack on the score of its constitutionality, the latter a point, however, which comparatively few people know anything

At the time the law was passed there was much comment similar to that now heard. It was claimed that it did not improve the situation at all and that any action that could be undertaken under the new statute might previously have been taken under existing laws. The difference of opinion in regard to plans. the new law does not seem to be confined to laymen, but is also manifested among the lawvers.

As pointed out yesterday the statute has yet to receive its first test and should it be made the basis of an action connection with this week's tragedy e proceedings will be followed with much interest and the result, whatever it may be, will be fraught with im

The unfortunate affair in which Murray and Pickett were the principal actors has caused not a little timidity among the hunters. It is reported that many people have abandoned proposed trips, and that those who have heard of the tragedy are employing unusual precautions to secure their safety while in Phelps 147 149 162 458 152 Phelps 159 124 137 420 140

Full of Hunters.

The maximum of care can safely recommended, both as a guard again mistaking other hunters for deer an allowing other hunters to make the san mistake. The "don'ts" of the hunti season have been repeated so often th hunters greet them with a smile, a presently someone is killed. The don't is the most essential one; it don't shoot until there is no possib doubt of what you are shooting at.

The woods are full of hunters. Never

before have there been so many sports men abroad in Marquette and neighboring counties. Favorite hunting grounds have a truly surprising population of sportsmen, judging from all reports. It will be only a general caution on the to be closed without other fatalities.

on the Munising fine are to the effect that bullets are flying free. A man returning from this region reports two horses killed, the hunters who slew them any purpose. Lump or crushed \$5.50 per laboring under the delusion that they ton delivered. The Marquette Gas Light were deer. In another instance a man Co.
