RIOTING ATTENDS STRIKE IN CHICAGO

SOUTH SIDE STREET RAILWAY EMPLOYEES WALK OUT AND EFFECTUALLY TIE UP TRAFFIC.

DISORDER CONSTANT ALL DAY

ONLY CARS CARRYING MAIL ARE PERMITTED TO RUN.

Trolley and Cable Trains Are Derailed or Blocked and Many Persons, Chiefly Non-Union Men, Suffer in the Accompanying Attacks.

Chicago, Nov. 12.—Constant scenes of disorder over a district approximately fifty square miles in extent resulted today from the launching of a strike by the employees of one of the principal surface street railway companies in Chicago.

Strike Breakers Suffer Severely. Three thousand employees of the Chicago City railway struck at 4 o'clock this morning for an increase of 25 per cent in wages and recognition of the union. All the electric and cable lines on the South side were tied up. Cars carrying mails were allowed to proceed without molestation, but all other cars started by the company with a view of breaking the strike at its inception met with trouble. They were derailed or blocked by trucks and other vehicles, windows were smashed and non-union crews were assaulted. The mail cars were managed by union men.

Mayor Harrison early issued a proclamation warning citizens from assembling on streets near the company's lines, while all the police reserves were held in readiness for emergencies and squads of patrolmen were sent to the cars. Thousands of persons were late for work today, and the suburban steam service was badly congested. The strikers declare they will remain idle until the company consents to arbitrate the issues that brought on the strike.

Tie-Up Is Made Complete.

All along the lines, wherever cars were started strike sympathizers made desperate onslaughts on the cars, beginning at dawn of day and continuing throughout the day. The tie-up was made complete. Many persons chiefly non-union street car men, were injured by flying stones or splintered glass. Two women were among those hurt, and one man had his back broken.

With faces and hands bleeding from the attacks of the strikers, motormen, gripmen and conductors who tried to run trains returned to the barns and refused to go out again unless the trains bore platoons of police or patrol wagons were alongside. The police confined their efforts to seeing that the passage of cars from the barns was unobstructed, and that crowds and blockades in the streets were quickly cleared. This was done under the orders of Mayor Harrison, whose announced purpose was to preserve an impartial attitude.

Federal Intervention.

The possibility of federal intervention under certain contingencies is being discussed. The situation in this aspect was outlined today by Postmaster Coyne. He said: "Thus far there is no cause for alarm as to the mail service. It is true that trains have been delayed, but that is not serious matter. What has happened at Washington street car company owns the mail cars, and by contract is obliged to run them in separate trains and deliver the mail at specified points. There is no ground for objection against the company sending out mail trains between passenger cars. The strikers have no right to interfere with the mail service. If serious delay occurs, we will report the fact to Washington and act on instructions from the postal department." After nightfall the company abandoned its effort to operate cars. It is expected the effort to run cars will be resumed tomorrow under police protection. The railway officials declare that 30 per cent of their employees are loyal, and that if accorded sufficient protection by the police they will be able to operate cars.

Public Much Inconvenienced.

As a result of the tie-up of the surface lines, the elevated and steam roads traversing the strike district were taxed to their utmost capacity. The train service on all lines was doubled and every effort was made to accommodate the thousands of additional passengers. Meanwhile the lines hauled by express wagons did a thriving business in transporting people to and from their places of work or business. The strike, aside from the demand for increased wages, is an outgrowth of demands for the exclusion of non-union employees, and practically the entire force of the company's wage earners is idle. The company's stationary firemen, who have also presented demands for increased wages, and to whom the trainmen looked for assistance, have declined to go out, however, expressing the belief after a conference with General Manager McCulloch, of the railway company, that he had not refused arbitration.

Mob Howls for Lynching.

Derogatory remarks regarding the union by an armed non-union employee of the company caused a riot at Thirty-Sixth and State streets tonight. The man was chased into an engine house near by and before the police could reach the spot a mob of 2,000 persons surrounded the place, howling for the life of the refugee. A squad of policemen arrived and finally quelled the disturbance and removed the man to a place of safety.

H. S. Orton, a conductor who was beaten while trying to run a Cottage Grove avenue car, is in a critical condition and may die. Seventeen men have been arrested for participating in riots during the day.

COSTLY FIRE IN RUSSIA.

Blaze in Mail Car Burns Valuables Reported Worth \$3,500,000.

St. Petersburg, Nov. 12.—Fire in the mail car of the St. Petersburg-Moscow train Tuesday night is reported to have destroyed valuables, estimated to be worth three and a half million dollars. The postoffice authorities attribute the outbreak to spontaneous combustion.

DISMISSAL ORDERED.

Clerks Who Conspired Against Postmaster Now Out of Jobs.

Washington, Nov. 12.—Postmaster General Payne today directed the dismissal of Annie Drayver, Samuel Kolzer, Joseph Kreyer and Birdie Nott, clerks in the St. Louis postoffice, for an alleged conspiracy to secure the removal of Postmaster Baumhoff of that city.

TOBACCO TRUST SCORES.

Dealer to Whom It Refused to Sell Loses in Litigation.

St. Paul, Nov. 12.—The United States circuit court of appeals decided today that the so-called tobacco trust did not violate the interstate commerce law or the anti-trust law when it refused to sell to a dealer in St. Paul, Minn., tobacco dealer, its manufactured product. In a suit brought in the lower courts Whitwell claimed that the trust refused to sell its product to him because he could not dispose of the amount of goods required of him in a given time.

OPEN SHOP CONDEMNED

FEDERATION OF LABOR CONVENTION DISCUSSES MILLER CASE.

President Is Criticized, but Is Not Without Defenders and Resolutions on Matter Are Recommended.

Boston, Nov. 12.—President Roosevelt's name and his action in the so-called Miller open shop case were brought before the American Federation of Labor today, when several delegates criticized his decision not to discriminate against non-union labor in federal employment.

The question came before the convention through the committee on resolutions in the way of a report that a resolution on the "open shop" issue be referred to the committee of the executive council. The substance of the resolution was that the "open shop" whether under private or government control, "cannot be recognized by labor."

Delegate Barnes of Philadelphia, president of the Cigar Makers' international union declared that President Roosevelt's decision was "a slap in the face" for laboring people. President Hayes, of the International Association of Glass Blowers, defended the president's action. Eventually the resolution was recommended to the committee from which it originated.

A resolution was adopted urging that the government construct all its ships in government yards, on the ground that such policy was fairer to labor.

JUDGE MISQUOTED.

No Decision That the Strike Commission's Award Is Not Binding.

Shamokin, Pa., Nov. 12.—In the report from Sunbury today, Judge Auten was misquoted, he says in stating that he had decided the strike commission's award was not legal. That question was not brought directly or indirectly to his attention, he said tonight, and he was at a loss to know how such a mistake could have occurred.

KAISER IS THANKFUL.

Cables Thanks to President Roosevelt for Message of Sympathy.

Washington, Nov. 12.—Immediately upon hearing that Emperor William had been obliged to submit to a surgical operation, President Roosevelt dispatched a personal cable message expressive of his sympathy and earnest hope for his speedy convalescence. The emperor has returned a personal message, thanking the president in warm terms for the exhibition of interest manifested by him in his condition.

There is no late report from the German court of the emperor's progress, and deep concern is manifested in official circles here.

SIGN OF PROSPERITY.

Postal Receipts Show a Heavy Gain Over Those of Last Year.

Washington, Nov. 12.—A statement of the gross postal receipts at the fifty largest postoffices in the country for October, 1903, compared with October, 1902, shows aggregate receipts of \$5,900,310, an increase of almost 7 per cent.

THIRD FAILURE CAUSED.

Chicago, Nov. 12.—The recent failure of Sutter Bros. is responsible for the failure of another tobacco concern, Randall & Landfield seeking relief in the federal court in bankruptcy today. The liabilities are \$40,000 and the assets of an equal amount.

PORTO RICO PROSPEROUS.

Washington, Nov. 12.—Governor Hunt's annual report on the conditions in Porto Rico shows that the exports in 1903 total \$14,800,000, against \$12,309,000 last year. It is also shown that the balance of trade is in favor of Porto Rico.

ULTIMATUM SENT THE PORTE.

Austria and Russia Demand Acceptance of Reform Scheme Without Delay.

Constantinople, Nov. 12.—It transpired today that the latest Austro-Russian note to the porte contained the specific declaration that further refusal to accept the reform scheme will expose the Ottoman empire to great danger, and that the proposals of the two powers must be accepted entirely and without delay.

AIRSHIP ATTAINS HIGH SPEED.

French Aeronauts Achieve Great Triumph With a Dirigible Balloon.

Paris, Nov. 12.—One of the greatest triumphs in dirigible ballooning was achieved today by the Lebaudy brothers, whose airship in one hour and thirty-five minutes covered forty-six miles. The balloon attained extraordinary high speed, dashing through the air some times at the rate of two-thirds of a mile per minute, the mean speed being twenty-nine miles per hour.

FOG BLAMED FOR COLLISION.

Six Trainmen Killed in Wreck on the Louisville & Nashville Road.

New Hope, Ky., Nov. 12.—In a collision between two Louisville & Nashville freight trains near here early today, three engineers and three firemen were killed and two brakemen were seriously injured. The engines were demolished and fifteen cars were burned. The collision was due to fog.

FIGHT AGAINST FLAMES

GALLANT OFFICER AND MEN SAVE TORPEDO BOAT DESTROYER.

Several Times Overcome by Smoke, but Succeed in Quenching Fire Just Before It Reaches the Magazine.

Norfolk, Va., Nov. 12.—The heroism of Lieutenant Curtin and several seamen of the torpedo boat destroyer Lawrence today saved that craft from destruction. A lighted candle left by a workman on a wooden box in the vessel's forward compartment caused a fire which burned through the woodwork before it was extinguished by Lieutenant Curtin and some seamen just before the flames reached the magazine, in which a quantity of explosives was stored.

In their battle against the flames Curtin and his men were so overcome by smoke that they lost consciousness after the fight was won and were hurried on board the cruiser Olympia for treatment. Their condition is not serious.

Battle in Dense Smoke.

The fire occurred in a stuffy compartment directly adjoining the magazine and had gained considerable headway when it was discovered. The place was filled with dense smoke that baffled the efforts of the crew and caused them to fall helpless to the floor. Then and again Lieutenant Curtin dived into the fire chamber and emerged with the unconscious form of a seaman. After a hurried resuscitation, the seaman and his officer would return to the fight, only to again succumb to smoke.

Finally, the flames were extinguished, and then the lieutenant was missed. A sailor plunged into the compartment and a second later came out with the limp body of the officer in his arms. Five seamen in similar condition were stretched out on the deck. All were hurried on board the Olympia and surgeons soon brought them to consciousness.

The damage to the Lawrence is slight.

ELECTIONS IN PRUSSIA.

Socialists, Heretofore Refraining as a Protest, Go to the Polls.

Berlin, Nov. 12.—The election of the electors, who are to choose the deputies to the lower house of the Prussian diet on Nov. 20 occurred today. A new feature was the participation of the Socialists, who had hitherto refused to vote for electors as a silent protest against what they regarded as being a "plutocratic election system." The diet consists of 433 members, and 170 electoral districts out of a total of 279 elect 87 Conservatives, 27 Free Conservatives, 57 Liberals, 51 National Liberals, 20 Rightwingers, 4 Barth Liberals, 2 Dames and 5 Independents.

KAISER IS THANKFUL.

Cables Thanks to President Roosevelt for Message of Sympathy.

Washington, Nov. 12.—Immediately upon hearing that Emperor William had been obliged to submit to a surgical operation, President Roosevelt dispatched a personal cable message expressive of his sympathy and earnest hope for his speedy convalescence. The emperor has returned a personal message, thanking the president in warm terms for the exhibition of interest manifested by him in his condition.

There is no late report from the German court of the emperor's progress, and deep concern is manifested in official circles here.

NO ATTEMPT AT INVASION.

Governor Melendez said that it was impossible for Colombia to send troops overland to the isthmus, because of the physical conditions of the country. It also is apparent that the United States warships will not permit any movement by armed forces. Governor Melendez tried to send twenty-five armed men to Porto Bello, but they were stopped by the United States gunboat Nashville and compelled to return. A shipman loaded with Panamanian troops, was sent yesterday to Boca del Toro, but the men were unarmed.

No news has yet been received here of any attempt on the part of Colombia to invade the isthmus.

(Continued on Page Four.)

COLOMBIANS LOSE THEIR TEMPER

NEWS OF THE SECESSION OF THE ISTHMUS AROUSES GREAT ANGER.

IS FEAR FOR AMERICANS

GOVERNMENT IS BLAMED AND REVOLUTION IS TALKED.

Has Yet Been No Attempt to Move Troops to Panama, Nor Will U. S. Warships Permit It—Invasion Overland Impossible.

Colon, Nov. 12.—The Royal Mail steamer Orinoco arrived today, bringing news of General Torres and the Colombian troops he took from here after the proclamation of the republic of Panama. On the arrival of General Torres and his troops at Cartagena, the news of the events on the isthmus quickly spread and caused excitement. General Torres and his officers were threatened with arrest as traitors, but the threat was not put into effect. The populace, greatly excited, soon crowded the streets, crying "Down with the Americans." United States Consul Ingersoll, fearing violence, remained shut up in the consulate.

Excitement at Barranquilla.

The Barranquilla authorities had intended sending three hundred Colombian troops by the Orinoco to Cartagena, but learning that the vessel had embarked General Torres and his men there decided to keep the troops at Barranquilla. The excitement at Barranquilla increased with the spreading of the news of the secession of the isthmus, which was supplemented by exaggerated accounts of the alleged part played by the United States in the matter.

Panama's declaration of independence was read from a newspaper in the plaza to a crowd assembled in the plaza and was greeted by furious outcries and shouts of "Death to the Panamanians," "Death to the Americans." The prefect followed the reading by a speech in which he declared that Colombia would never permit the secession of the isthmus and would win back the lost territory at any cost. The crowd in the plaza indulged in many extravagant threats, impossible of execution.

United States Vice Consul Lovelace was sitting on the balcony of his house at Barranquilla when several stones were thrown at him. He retired indoors and was not further molested by the Colombians.

Clamor for Revolution.

The people of Barranquilla have been swept off their balance by the suddenness and seriousness of the news. Revolutionary talk began immediately, and threats were made against the congressmen responsible for the non-ratification of the Hay-Herran canal treaty. Fears are entertained for the safety of Americans in Colombia, and of the possibility of the anger of the populace being vented against foreigners generally. The authorities at Savannah have mounted two obsolete guns covering the wharf.

REPUBLIC-MAKERS ELATED.

Success of Secession Movement Far Greater Than Anticipated.

Colon, Nov. 12.—What most impresses all observers of the present situation on the isthmus of Panama is the complete success of the secession movement and the orderly continuance of affairs since the change of government. All governmental functions have so far been carried on with complete success, and the unanimous feeling throughout Panama is in favor of the new government is far beyond what its promoters anticipated. The municipal and provincial laws and regulations which existed under Colombian rule have been continued without any practical change. With three or four exceptions, all the civil employees of Colon and its neighborhood have taken oath of allegiance to the new republic and have been continued in office, those who refused to take the oath being sent to Savannah.

Grateful to United States.

Porfirio Melendez, the new civil and military governor of Colon, interviewed today by the Associated Press correspondent, expressed his full realization of what Panama owed the United States, saying that country "the new republic's powerful and generous godmother."

Regarding the mission of General Reyes, Governor Melendez said: "A telegram has been received by the government of Panama that General Reyes is coming to the isthmus in the hope of saving Colombia's honor, and is ready on behalf of the Colombian government to promise Panama all concessions and considerations. The Panamanian government, however, has answered that unless General Reyes comes ready to recognize the new republic and is accredited to it as the Colombian envoy, he will not be received." Governor Melendez further said that he would arrest General Reyes on his arrival here unless he immediately accepted the Panama stipulations.

No Attempt at Invasion.

Governor Melendez said that it was impossible for Colombia to send troops overland to the isthmus, because of the physical conditions of the country. It also is apparent that the United States warships will not permit any movement by armed forces. Governor Melendez tried to send twenty-five armed men to Porto Bello, but they were stopped by the United States gunboat Nashville and compelled to return. A shipman loaded with Panamanian troops, was sent yesterday to Boca del Toro, but the men were unarmed.

No news has yet been received here of any attempt on the part of Colombia to invade the isthmus.

 Entered as mail matter of the second class in the postoffice at Marquette, Mich.
 Why wouldn't Mayor-elect McClellan of New York make a good presidential candidate for the Democracy? If he is a true son of his father he would know how to take a defeat gracefully.
 The Detroit Journal affects to believe that the Democrats of Michigan are going to be hard driven next year to find a consenting candidate for the governorship. Has the Detroit paper forgotten that Senator Helme still lives?
 The Cuban congress has just voted \$50,000 to Gomez, their great revolutionary leader. Where's the money to come from? Maybe there's a string to the gift and it is not to be made in fact until President Palma floats his \$50,000,000 bonds, which are, we understand, still awaiting a purchaser.
 Would the international federation of labor now being discussed as a possibility at Boston go out of the country to declare sympathetic strikes on foreign soil? Such a proceeding would not be more preposterous than some of the things the unions have done during the past twelve months. This little point should be cleared up at once, so that the public may have a satisfactory understanding of the situation.
 The courts of appeals are not the only sufferers by "the law's delays." There are crowded dockets in the lower courts, too. In New York state litigation has choked the channels of justice to such an extent that it sometimes takes two years to get a jury trial. If there is any such scientific science of law its experts should devise some way of fixing things so that one may get his lawsuit settled while he waits.
 According to Escanaba's view of the situation Saturday's game with Ishpeming is already won by a big score. The Escanabans are too modest by far. Without wasting any time, they should proceed to win the state championship by the same course of reasoning. As for Ishpeming, well, her football heroes should be happy for the privilege of meeting such a very superior organization as that developed at the Sandy City this year.
 The night superintendent of a Cincinnati hospital does not seem to be enjoying the acme of popularity among her nurses and internes. A few nights ago a coffin was brought from the storeroom and placed where the lady in question must see it, with a placard attached reading, "Where we would like to see the superintendent." With such inordinate subordinates, a coffin is probably the place where the night superintendent would like to be.
 Upper peninsula papers are preaching long and short sermons with this week's hunting tragedy here as a text. The trouble is these sermons seem not to impress the very people who need them most, like many uttered from pulpits. Sermonizing by the press on the necessity of caution in the woods is, it must be confessed, a good deal of a failure as far as putting an end to accidents is concerned. But who can say that it is not the means of preventing many which fail to happen?
 As an exhibition of American vulgarity in its crudest and most reprehensible form the demonstration at the Roxburgh-Goeliet wedding will be remembered for a long time to come. It was the very summit of snobbish and bad manners, and the country blushes for it and the poor brainless women who composed the wild mob. It is just such exhibitions that justify foreign authors in their oft repeated claim that as a nation we are hopelessly raw. What can be done about it? Nothing, it appears. Only time and education to some sense

ABOUT THAT COAT
 You wear a coat. Why? To keep the cold out? No; to keep the warmth in. What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs? For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means bodily warmth.
 We'll send you a sample free upon request.
 SCOTT & BOWNE, 409 Pearl Street, New York.

OF THE FITNESS OF THINGS
 can eradicate the fault, and it can never be completely eradicated, for fools and snobs, like the poor, will be always with us.
 What a lot of trouble the Colombians would have saved themselves had they compelled their congress to ratify the canal treaty. Then there would have been no revolution in Panama, with its almost certain loss of the Isthmus; no accusation and counteraccusation at the Colombian capital. The people of the republic were not at all farsighted. Some nations, under the circumstances, would have anticipated just what happened and would have governed themselves accordingly.
 Ex-Senator John Holbrook is on tenterhooks at Lansing, where he is under indictment for alleged tampering with the Sutton jury. His frame of mind is not improved by the fact that Eli R. Sutton, late of Mexico, is on the scene, with the ostensible purpose of telling what he knows about the case, and he is presumed to know a great deal. The trial is now in hand. A delay was caused this week by the exhaustion of the first panel. It is generally claimed that ex-Senator Holbrook is in a very ticklish predicament.
 Ann Arbor, where Michigan and Wisconsin will battle, and the gridiron on which Yale and Princeton will meet to settle their annual difference will claim the closest attention of football fans all over the country tomorrow. Here in the west the Ann Arbor game will take to itself practically all the public interest, being the lone championship contest of importance. Both east and west it is likely that the results will determine the champions of the respective sections, and the chances seem to favor Michigan and Yale. However, both have sturdy opponents and there may be surprises that will upset all calculations.
 Even faraway Alaska has concluded that Mr. Roosevelt is the legitimate Republican candidate for president next year, and its six delegates have pledged to his support. The 1904 Republican convention promises to be little more than a huge ratification meeting. Were it not for the question of the candidate for vice president, about the only thing not cut and dried, it would be looked forward to with very little interest. If Mr. Roosevelt will consent to be notified "under the oaks" at Jackson, it will help out some, enlivening the campaign by a picturesque incident of both state and historical importance.

A PLAUSIBLE PLEA.
 Arguing against a reduction of the wage rate as an economic expedient for the purpose of meeting the partial paralysis that has befallen the leading industries of the country within the past few months, President Gompers of the American Federation of Labor made a strong and shrewd plea for a continuance of high wages in the course of his address at the opening of the annual convention of the Federation at Boston Monday.
 He pointed out very clearly and forcibly that to cut the wage rate throughout the country would inevitably result in reducing the purchasing power, hence consuming power, of the workers of the land; that this would, in turn, necessitate the further suspension of productive energy, with consequent increased impairment of the ability of the toilers to buy and consume; that this policy would defeat its own purpose, intensifying the distress now complained of and delaying the day when conditions will improve. "It is the height of economic wisdom to curtail the consuming power of the masses as a means to industrial revival, or prosperity," he asserts, and he advised organized labor to resist, to the limit of its strength and by every means at its command, every attempt to reduce the wage rate from the high level which it attained during the recent prolonged period of industrial activity to a lower one, corresponding to the reduction in prices of its products arising from diminishing demand.
 While this is the opinion of a labor leader, and therefore open to the charge of being one-sided, yet it is well to take account of it in considering means to be adopted with a view to tiding over an interval of industrial stagnation which has become serious enough to excite general alarm. Mr. Gompers may not be entirely right in his assumption, yet he may be partially right, and his argument has at least enough force and plausibility to entitle it to respectful discussion.
 It is undeniably true that our best market is the home market, that our own people are the largest consumers of what we produce. It follows, logically, that whatever hurtfully affects the consuming power of our own people tells most directly and potentially against our national prosperity. So far as it accords with these propositions the argument of Mr. Gompers is sound. But if a high consuming power is the great essential condition to general prosperity, cannot the

BARRING THE PASS.
 Robert Baker, the Eastern congressman who has gained some notoriety, if not fame, by refusing railroad passes, is proving to be about as much of a thorn in the flesh of his own party as that of the Republicans. He began to make himself an uncomfortable factor at once by introducing at the Democratic house caucus a resolution to the effect "that regardless of the practice of the Republicans it is the sense of this caucus that its members do not accept passes or other favors from the railroads."
 The introduction of such a resolution put the statesmen present into a quandary. They did not dare to take a position in favor of free passes, and at the same time had been using them, had them in their pockets in fact, and had no wish to forego them in the future. In this extremity they finally hit upon the expedient of referring the matter to a committee, which it is believed will never report. Mr. Baker himself, however, was almost from necessity made a member of the committee, and it is quite possible that the attempt to avoid action may fail. Mr. Baker is evidently a man with a hobby, and is bound to jump into public notice at all hazards. Such a man is difficult to handle, and the Democratic members are likely to be harassed by him more or less during his entire term of office.
 While it may be doubted that Mr. Baker's attempt to bar free passes for public officials will succeed, it is to be hoped that he will persevere in his endeavor to secure some action. There are many people, no doubt, who are not in office, and never expect to be, who see no harm in the free pass, and in practice it probably is productive of much less evil than its opponents assert. Yet the principle is wrong, and its influence is bad. Recipients are often affected in their course unconsciously, and they are never affected by passes to the harm of those who present them. It is beneath the dignity of a United States senator or member of congress to accept gifts of free transportation, to say nothing more, and they ought to so regard it. If free transportation is to be one of the emoluments of office, let it be made so openly and legally. Then there could be no ground for adverse criticism or suspicion.

ANXIOUS MOMENTS.
 Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. Sold at Desjardins' Pharmacy.
 Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. Sold at Desjardins' Pharmacy.

CIGAR SAVED HIS LIFE.
 Dramatic Incident Connected With Guizot, Great French Historian.
 M. Guizot, the great French historian, owes his life to a cigar, according to a story which is now being told. One day he was walking in one of the gardens of Paris when he noticed that he was being followed by a shabbily dressed man, who evidently had some purpose in view which included the historian.
 M. Guizot finally sat down on a bench and his unwelcome follower seated himself there also, all the time watching him with a threatening air, which might have proved disconcerting to a man troubled with "nerves." The historian was not troubled. He pulled a cigar out of his pocket and lighted it.
 At that action the strange man arose and muttered that he had been mistaken, as the scoundrel he meant to kill did not smoke. The historian was considerably puzzled by this occurrence until he learned several days afterward that a man answering the description of the fellow who had followed him had been arrested for a murderous assault on a public official, against whom he had a grudge.
 The late King Humbert of Italy in his youth was an habitual smoker. One day while driving through the streets of Naples he happened to drop a cigar which he had just lighted. He noticed that a singularly dejected looking citizen darted forward and grabbed the cigar from the street. He thought nothing more of the matter until some months later, when it was called to his memory upon receipt of an unsigned letter relating how the writer had been on the verge of committing suicide when he had chanced to pick up the cigar which the king had dropped.
 The smoking of this, he said, had changed the moodiness of his thoughts for the time being and the impulse to suicide had been overcome. He added that he was happy to say that the troubles which had threatened to overwhelm him then had left him. In that case the king's cigar saved not himself, but the other man.

APT ILLUSTRATION.
 How The Stafford Drug Co. Showed the Difference to a Mining Journal Man.
 A Mining Journal man was talking with Mr. Stafford, of the The Stafford Drug Co., lately, discussing a very interesting subject, when Mr. Stafford said:
 "See here, I'll show you now just what I mean."
 He went out and soon returned with a bit of board and two bottles. Resting one end of the board on the counter, he supported the other end with his fingers, and poured on the board from one of the bottles a drop of this oily substance, which slowly oozed down the slope. Then Mr. Stafford took the other bottle and poured out just a drop of a clear, delicious, dark red liquid. This drop shot down the incline in the twinkling of an eye.
 "This first bottle," said Mr. Stafford, "is the old-fashioned cod liver oil, or emulsion, as it is called. The second bottle contains Vinol. See how slowly the emulsion creeps along the board. It is thick, sluggish, unwholesome. But the Vinol dashes to the bottom at once. These two substances act like this in the human body—the cod liver oil is so thick and clogging that it merely sets digestion, and its medicinal value is lost, while Vinol goes at once to the seat of trouble and corrects the difficulty by creating an appetite and building up the strength and general health."
 "Vinol, you know, is a cod liver oil preparation, and while it contains all the medicinal elements which have made cod liver oil famous, it contains not a drop of oil, and is delicious to the taste. We cannot guarantee old-fashioned cod liver oil or emulsion, but Vinol is guaranteed to the limit, and if it fails to give satisfaction, it costs nothing. We stand the loss. But it won't fail. Try it on our guarantee and see." The Stafford Drug Co.

SAVE YOUR COUPONS!
 FOR A SHORT TIME ONLY
 IN ORDER TO THOROUGHLY ADVERTISE
UNO WHEAT CRISPS.
 "The World's Greatest Food for the World's Greatest People," we offer the FOLLOWING PREMIUMS:
 With 6 Coupons, Premium No. 101, 1-2 Doz. Fine Silver-Plated Teaspoons
 With 12 Coupons, Premium No. 102, 1-2 Doz. Rogers' Silver-Plated Teaspoons
 With 25 Coupons, Premium No. 304, 1 Gorham's Sterling Silver Teaspoon Beautiful Strawberry Pattern.
 With 35 Coupons, Premium No. 305, 1 Gorham's Sterling Silver Teaspoon Handsome Newcastle Pattern.
 NO PREMIUMS WILL BE GIVEN WITH SINGLE COUPONS.
 Cut out the picture of the child on package of UNO WHEAT CRISPS, give the name of grocer from whom purchased; also sign your name and address on back thereof, and mail or bring the required number of pictures cut from packages of Uno Wheat Crisps to Manna Cereal Co., Limited, 45 East Fort Street, Detroit, Mich.
Remember! THAT UNO WHEAT CRISPS IS SUPERIOR
 to any other breakfast food on the market today, being made from No. 1, sound, white Michigan wheat and best medicinal malt, rich in starch digesting principles, which gives it a delicate nutty flavor. No human hand touches the food from the time the wheat enters the bins until the package is opened by the consumer, thereby making it free from germs, and absolutely clean and wholesome. Being a partially predigested food, a child two months old can digest it and thrive upon it; for invalids it is unsurpassed, as it is easily maintained on the most delicate stomach; it does not tax the digestive organs, but will stimulate their healthy development. We recommend it for the entire family.
 Do not confound it with the other so-called malted foods.

Copper Country Department

ABOUT POTATO CULTURE. TAKES ISSUE WITH MR. MYERS.

Home Crop Not Large Enough and Farmers Sell too Cheaply.
"I believe that here in the upper peninsula you consider potatoes the money crop," remarked A. P. Gray of Traverse City, one of the state speakers in attendance at the Houghton county farmers' institute, in beginning his talk on the subject of "Growing and Handling Potatoes in the Forenoon session, held in the Citizens' National bank hall at Houghton, yesterday. "Down in our country fruits bring the best values, but in this section, other crops considered, I understand the potato can be made more profitable than any other," he continued. "You inform me, however, that you do not produce as many potatoes as are consumed here. More of the tubers should be raised. When we started in to get large fruit crops down in our country people told us that we were taking a wrong step, that we could not find a market. We were right ahead, however, and it was not long before our fruit attracted the attention of buyers from other states. They even came down from Minnesota and the Dakotas to get it. If you establish a reputation for fine quality and large quantity there will be no trouble about the market. The market will create itself and people will come after your product. It's the same way with potatoes. You do not raise enough of the tubers now to supply consumption but you should. You should not go about potato raising in any haphazard way. Like every other thing else in the agricultural line, there are rules to follow. Location, cutting the seed, planting and cultivating, all have to do with the success of your yield. You must not think how little you can do to make your potatoes pay, but how much you can do to get the best results. Potatoes need attention. "New land is the best. Deep rich soil is ideal for potatoes, as it is for anything else. A mistake that is often made in a new country is that of raising crop after crop on the same land. In potato raising there should be a rotation as in any other crop. Potatoes need water and not too much sun. The planting should not be done in dry time. In lower Michigan planting for the best potato crop is done after the first of June, as rains can be counted on while the growth is under way.

"It is as much of a problem to plant potatoes growing too large as it is to make them grow large enough. Large potatoes are apt to be hollow and poor for eating, although some farmers find them the best sellers. Varieties which are apt to grow large can be lessened in size by planting them thicker. The soil must be well prepared for potatoes as for anything else. In planting, the seed should be covered as soon as put into the ground to retain the moisture. A planter is convenient for that work. The seed potatoes should not have sprouted before going into the soil. They should be about ready to sprout, and then when planted they will grow rapidly and give better results. Cutting the seed depends on the conditions. Sometimes the whole potato is needed. If the soil is moist and rich one eye to the piece is sufficient. Two or three such pieces or a piece with two or three eyes may be used to a hill.

"After the vines come up if the soil is a little weedy furrow run between the rows will check the weeds and make a new covering which will foster the growth. Particular attention should be paid to cultivation. Cultivation may be done after blossoming if you do not go too deep. I believe that this is really the best time, although the cultivation should not go deeper than two inches, but it should be done often."

Views of a Commission Man.
In the absence of Andrew Johnson of Hancock, who was down on the program to lead the discussion, A. J. Ruhl, manager for the Superior Produce & Cold Storage company, a firm comprised of local men and one which sells an enormous quantity of potatoes each year, was asked to say something on the subject. Mr. Ruhl stated that Mr. Gray was right in saying that the market for potatoes is raised in this region to supply the demand. Many bushels have to be shipped in every year. The market price is largely based on what it costs to bring them in. He gave it as his opinion that the farmers sell their potatoes too cheap, and that they are not as satisfied if they can get fifty cents a bushel at this time of the year. If more potatoes were raised here the farmers could get the same price for them as it now costs to buy them here, plus the freight. They ought to get that much for the potatoes they do sell. It costs the produce company an average of about sixty-five cents per bushel to bring potatoes in now and the farmers should get at least that much for them. The quality of the tubers grown here is as good as can be found anywhere. He believes that farmers at this time of the year should sell their potatoes at a smaller profit than to wait until spring when the price is higher. The shrinkage in weight and the potatoes that get bad lose money for those who keep their tubers through the winter.

J. H. Jansberg of Hancock, who entered the discussion, remarked that the peddling of potatoes or any other product from house to house should be stopped, that too much time is lost by the farmers in following that practice and that too often they go home with a "skin full of booze." He believes the farmer would be better off in the long run if he sold direct to the commission man or merchant, that he would save time and get better prices.

The subject of "The feeding of dairy cows" was taken up by E. A. Croman at the conclusion of the talk about potatoes. He handled the topic in a thorough manner. Robert Manderfield, a local dairyman, led the discussion. The institute came to a successful close in the afternoon. A. P. Gray spoke on the subject of small fruits and poultry culture. W. B. Hoar leading the discussion. Mr. Gray has devoted much of his life to raising fruit and he gave those present many of the practical ideas that he had gained through experience. Mr. Croman spoke on "Poultry For Profit," a talk which contained many helpful hints, and Mrs. Saunders took "Houses and Homes" for her subject. Mr. Gray made a few closing remarks in which he encouraged the farmers to greater endeavor and thanked them for their attendance.

WANTS INDOOR BALL GAME.
Amphidrome Management Plans Contest for Thanksgiving Day.
The management of the Houghton Amphidrome is desirous of arranging a game of indoor baseball between the Houghton Light Infantry team and a Calumet team or some outside aggregation for the afternoon of Thanksgiving Day. Secretary Mart Haas, of the Houghton team, was yesterday asked to lay the matter before the team. The boys practically decided earlier in the week to go to Duluth for three games with a picked team of that city on Nov. 23, 27 and 28, but that decision may now be rescinded. A meeting for a team at all this year. Sufficient interest may be aroused, however, to bring the members of last year's city team together. The Amphidrome people guarantee the expenses of any team that is brought to Houghton and agrees to play, but the one game will be played on Thanksgiving Day, just to afford some pleasure for the general public on that naturally quiet holiday. If an outside team is brought in, games will be arranged for Thanksgiving and the Friday and Saturday following.

THAT LIGHTING CONTRACT.
Hancock City Council to Again Take Up the Proposition.
The matter of a contract with the Houghton County Electric Light company for furnishing the city lighting will again be taken up by the Hancock council when the city fathers next meet in regular session. Although a motion was passed at the last meeting to the effect a five-year contract should be drawn up, there is some doubt as to the legality of the action, and the contract will not be signed until the city attorney gives some satisfactory opinion. The aldermen rather believe that the motion was not regular and that the attorney's decision will pronounce it illegal. In that event, the council necessarily will have to again consider the proposition of the electric light company, which offers varying rates for different terms of years from three to ten.

In questions, of the kind, it is said, it requires a majority of the full council—five of the eight members in a meeting on a town council. At the last meeting the aldermen were divided as to the term of years of the proposed contract. Three favored a one-year term and the other three a five-year contract. A motion favoring a five-year term agreement was declared passed, three members supporting it and the others refusing to vote. After the meeting those opposed to the measure stated that they would appeal from the council's decision. The aldermen, claiming that the matter should be acted on when all eight aldermen were present and that a motion of the kind requires five votes to pass. The rate per lamp per year under a five-year contract is \$83. For three years or less the rate is higher in proportion, while for ten years the rate is less. The aldermen opposed to a long time contract do not believe that the city should enter into a contract of that length for the reason that it may be necessary in a municipal plant before the expiration of the time. Those favoring the five-year agreement believe that the city will save money by signing for that length of time, and that the city can afford to wait a few years before considering the idea of a municipal plant. In the meantime, Hancock, whose old contract with the company has expired, is paying for an improved lamp service under the old rate. The new enclosed type of lamps is giving good satisfaction. Although not furnishing as intense a light in the immediate vicinity of the lamp, the light is diffused over a greater area and that which is more serviceable. Again, the lamps being enclosed, will burn in any kind of weather. They are not affected by rain, snow or wind.

CURLERS TO RENT OLD RINK.
At the meeting of the Portage Lake Curling club Wednesday evening, a committee was appointed to secure the old Palace ice rink on the Hancock side of Portage lake, opposite Houghton, for the use of the curlers. It was felt that it would be impossible to build an addition to the Amphidrome at Houghton, because there is not the ground for it. The Palace rink proposition was the only one that could be considered. It is believed that the old rink can be secured at a reasonable rental. It is large enough for four curling rinks and sufficient for a bonspiel. It is barely possible that such an event will be pulled off during the coming season. The expense of the Palace rink will be the rental of the building, lights and the salary of a man employed to keep the ice in good condition. It is not thought the items will amount to a very large total.

MILLIONAIRE'S POOR STOMACH.
The worn-out stomach of the over-fid millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. Stafford Drug Co.

COPPERDOM BREVITIES.
C. D. Sheldon of Houghton left yesterday afternoon for Chicago on business.
Joseph Croze, Jr., and wife of Houghton have left for Denver to spend the winter.
Mrs. T. L. Chadbourne of East Houghton will be in the afternoon for a visit to New York city.
Over 100 deer hunting licenses have been issued so far this season by the Keweenaw county clerk.
N. P. Leopold of Chicago, president of the Higgins Development company, has returned home after a short business visit in Houghton.
John Stanton of New York, who has spent the past two weeks at the Stanton group of mines, will leave this afternoon on his return to the East.
A Calumet & Hecla orchestra will furnish music for the dance to be given by the "Clear Makers' union, No. 408, of Hancock, at the Hurontown fire hall Saturday evening.
The Finlander who died on the South Shore train between L'Anse and Baraga while enroute to Calumet Wednesday morning, was John Hammar of Herman, a small town near L'Anse.
In a letter to Director Vandereck, of the Calumet & Hecla band, Fred Miller, formerly an orchestra leader at Calumet, states that he is rapidly improving in health. He is on a ranch near Phoenix, Ariz.
A banquet will be tendered to members and friends of the Epworth league of the Grace M. E. church of Houghton in the church parlors this evening. An interesting program of musical selections will be rendered in connection.
Houghton is still without a poundmaster. Superintendent of Public Works Foley has not yet succeeded in finding a suitable man for the place. It is an office seeking the man rather than just the opposite, which is usually the case.
"Jimmie" Duggan, who has made Houghton his home since he was defeated in a ten-round boxing match by Noah Brusso several weeks ago, will meet in this region for forty years. He is still in a ten-round boxing match at the Atlantic mine location on Saturday evening. His opponent is an "unknown."
Mrs. Eleanor D. Gardner of Fourth street, Calumet, died Wednesday morning after a long illness. She was fifty-nine years of age. She was one of the older copper country residents, having lived in this region for forty years. She was married to the late Mr. Walter Fetterly, and two sons, Octave and Walter, all of Calumet.
The work of putting the three new fire alarm boxes in place at Hancock is under way. Two of them will go up in the east end. The new boxes will bring the total number up to twelve and it is likely that another new alarm will be ordered for the Franklin addition, in East Hancock. The system will be overhauled and put in good working order as soon as the new boxes are in place.
The street railway trestle over the South Shore and Copper Range railroad tracks on the street railway branch to the Centennial mine is about completed. The trestle is similar in construction to those on the street railway line between Hancock and Calumet. It is built of Washington fir timber. The trestle is the largest on the road, its length from one end to the other being 900 feet.
"Jack" Baker of last year's Portage Lake team has, along with five others, signed with the Soo seven. He will play his regular position at point. The Soo News states that the hockey enthusiasts there are well pleased with the acquisition of Baker. From all accounts the Soo will have a strong team. With one or two exceptions it will be last season's champion Portage Lake aggregation.
Justice Jackola of Calumet suspended sentence in the case of Elizabeth Nickolis, fourteen years old, of the Florida location, who was arrested on a charge of assault and battery preferred by Mrs. Jennie Ruutala, a neighbor of the Nickolis family. Mrs. Ruutala claimed that Elizabeth had roughly used the complainant's daughter. The trouble was the result of a neighborhood quarrel of long standing. Elizabeth promised to be a good girl in the future.

HE COULD HARDLY GET UP.
P. H. Duffy of Ashley, Ill., writes: "It is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold at Desjardins' Pharmacy.

and Portage Lake points will be in commission until the ice prevents passage through the local canals. The captain states that Isle Royale enjoyed twice the patronage last summer that it did the season before. It is becoming more widely known and he believes the accommodations afforded for a delightful outing are largely responsible. At Washington Harbor there is a large hotel and numerous cottages. The latter are rented at reasonable rates to families or parties who wish to remain a week or more. Captain Singer says a regular boat service between Houghton and Isle Royale will be established for next summer.

WANTS INDOOR BALL GAME.
Amphidrome Management Plans Contest for Thanksgiving Day.
The management of the Houghton Amphidrome is desirous of arranging a game of indoor baseball between the Houghton Light Infantry team and a Calumet team or some outside aggregation for the afternoon of Thanksgiving Day. Secretary Mart Haas, of the Houghton team, was yesterday asked to lay the matter before the team. The boys practically decided earlier in the week to go to Duluth for three games with a picked team of that city on Nov. 23, 27 and 28, but that decision may now be rescinded. A meeting for a team at all this year. Sufficient interest may be aroused, however, to bring the members of last year's city team together. The Amphidrome people guarantee the expenses of any team that is brought to Houghton and agrees to play, but the one game will be played on Thanksgiving Day, just to afford some pleasure for the general public on that naturally quiet holiday. If an outside team is brought in, games will be arranged for Thanksgiving and the Friday and Saturday following.

THAT LIGHTING CONTRACT.
Hancock City Council to Again Take Up the Proposition.
The matter of a contract with the Houghton County Electric Light company for furnishing the city lighting will again be taken up by the Hancock council when the city fathers next meet in regular session. Although a motion was passed at the last meeting to the effect a five-year contract should be drawn up, there is some doubt as to the legality of the action, and the contract will not be signed until the city attorney gives some satisfactory opinion. The aldermen rather believe that the motion was not regular and that the attorney's decision will pronounce it illegal. In that event, the council necessarily will have to again consider the proposition of the electric light company, which offers varying rates for different terms of years from three to ten.

In questions, of the kind, it is said, it requires a majority of the full council—five of the eight members in a meeting on a town council. At the last meeting the aldermen were divided as to the term of years of the proposed contract. Three favored a one-year term and the other three a five-year contract. A motion favoring a five-year term agreement was declared passed, three members supporting it and the others refusing to vote. After the meeting those opposed to the measure stated that they would appeal from the council's decision. The aldermen, claiming that the matter should be acted on when all eight aldermen were present and that a motion of the kind requires five votes to pass. The rate per lamp per year under a five-year contract is \$83. For three years or less the rate is higher in proportion, while for ten years the rate is less. The aldermen opposed to a long time contract do not believe that the city should enter into a contract of that length for the reason that it may be necessary in a municipal plant before the expiration of the time. Those favoring the five-year agreement believe that the city will save money by signing for that length of time, and that the city can afford to wait a few years before considering the idea of a municipal plant. In the meantime, Hancock, whose old contract with the company has expired, is paying for an improved lamp service under the old rate. The new enclosed type of lamps is giving good satisfaction. Although not furnishing as intense a light in the immediate vicinity of the lamp, the light is diffused over a greater area and that which is more serviceable. Again, the lamps being enclosed, will burn in any kind of weather. They are not affected by rain, snow or wind.

COULDNT STAND HIS CHAFFING.
Calumet Young Man Punished Brother of Girl Who Jilted Him.
Because the brother of the girl who jilted him a few hours before they were to be married, made mean remarks about his character Anton Anniesen, a Calumet young man, decided that he would get some satisfaction out of his disappointed love by punning the brother. He did, but he paid the consequences. He was arrested for assault and battery on complaint of Charles Olson, whom he had assaulted, and upon being brought before Justice Jackola was assessed \$10 and costs, which he paid.

A few weeks ago Anniesen was about to lead Miss Olson to the altar, when the girl decided at the last minute that she would not marry him. She went to her liking, and she refused to enter into the sacred contract. Anniesen went after the marriage license, which was afterwards returned to the county clerk, and the bride that might have been had her trousseau packed in a fine street saloon. Olson told Anniesen that he was glad his sister did not marry him and coupled the statement with a remark that was not to the liking of the once-prospective groom. Anniesen made for the trouble occurred in a Pine street saloon. Olson told Anniesen that he was glad his sister did not marry him and coupled the statement with a remark that was not to the liking of the once-prospective groom. Anniesen made for the trouble occurred in a Pine street saloon.

WATER CONSUMERS MUST PAY.
Superintendent of Public Works M. M. Foley of Houghton has issued an order in which he states that unless all arrears in water bills and meters are paid by tomorrow, the water will be shut off Monday morning. He means business. The common council at its last regular meeting placed the matter of dealing with delinquent water consumers in his hands, and suggested that the water be turned off unless the bills were paid. The amount due the village on old accounts is about \$300, and after many months of waiting, the authorities are now determined to get the money. All water consumers are supposed to pay for the meters installed in their respective homes or places of business.

UNTIL ICE STOPS THEM.
Captain W. H. Singer of Duluth, general manager of the White line, who is in Houghton on business, says the White line boats plying between Duluth

MINING NEWS
COPPER SITUATION.
The Influence of Amalgamated as Viewed by the London Statist.
The London Statist contains the following on the copper position in this country: America is now producing a little more than one-half the copper of the world, and demoralizing forces in the American and international copper markets have come into existence with the formation of the Amalgamated Copper company. The Standard Oil party, or that part of it represented by H. H. Rogers, William Rockefeller and James Stillman, started out to control the copper industry of the world. There were to be five \$75,000,000 copper company promotions in the United States, embracing all the leading copper producers, and these were to be operated in harmony with the concentrated European production. Instead of a normal price of 12 cents per pound for copper, the quotation was to be fixed at 22 cents per pound and the profit was to be 10 cents per pound. This would warrant the capitalization of the American copper output at \$1 per pound, with dividends of 8 per cent per annum and 2 per cent for improvements and reserves. Amalgamated and its allied companies stored their copper in an endeavor to hold the price at 17 cents. Calumet & Hecla dumped loads of copper on the market to prevent the Amalgamated plans for a higher price. They permitted a 17-cent market, but when they could not get this price, sold for less, despite the protests of the Standard Oil-Amalgamated people. The Amalgamated Copper company had left out of its calculations E. Augustus Heinze, a producer of about 1,000,000 pounds a month. Mr. Heinze developed unexpected strength, winning important victories against the Amalgamated and retreating with litigation against their properties. Heinze is today winning legal and political victories, carrying everything before him, producing 3,000,000 pounds of copper per month and bids fair, within a year, to be producing between 4,000,000 and 5,000,000 pounds of copper per month. The chagrin of the Standard Oil-Amalgamated party is something beyond description. They have poured millions into the state; they have owned both political organizations within the state; they have made overtures and offered Heinze millions upon millions for settlement, but Heinze has pledged himself to defend the individual rights of property against Standard Oil-Amalgamated aggressions, and the result is that the advance of the Amalgamated Copper company in copper fields beyond the confines of Montana is stayed by this young Lochinvar from out of the West, and in all that wide border he is still the only one who has met and successfully defeated the Standard Oil millions. Heinze declares that 12 cents for copper is the equivalent of dollar short, and ought to satisfy any good miner. The Amalgamated party thought that in smashing copper from 17 to 11 cents they would be able to force Heinze to a settlement but they failed. Now they

(10-26-3m)
are working the copper market in this country and internationally in conjunction with their speculations in Amalgamated shares, of which there were formerly more than 20,000 holders. At present, there are between 10,000 and 11,000 stockholders, but more than 40,000 people have suffered by the decline in the shares of the company from 130 to 25. All the copper manufacturers in the country watch Amalgamated speculations in conjunction with their manufacturing business, and when Amalgamated is declining they refuse to buy copper except as their necessities demand. They also speculate in Amalgamated shares against their legitimate business. When copper is advancing, they will buy the shares if they think they are relatively cheaper, and if they have to pay a high price for copper, they will sell shares as a hedge against a decline in the metal before they can get their manufactures into consumption. The feeling here in well-informed circles is that the Standard Oil-Amalgamated party will never relinquish its efforts to control the world's copper situation and that, with intermissions, it will continue to be a disturbing, unsettling factor in the world's copper production and prices for a considerable time to come.
MINING GOSSIP.
Copper at London had a slight recovery yesterday from Wednesday's break, spot closing at £56. 5s and futures at £55. 17s. 6d. At New York copper was rather unsettled and more or less nominal. Lake being quoted at \$16.13 1/2 by the metal exchange, electrolytic at 13 1/2 and casting at 13.
The Isle Royale is daily sending to the mill about 150 tons of rock, which is yielding a fair percentage of mineral. Two leads are in commission. New openings are being extended from the tenth, eleventh, twelfth and thirteenth levels north of No. 1 shaft in addition to the work of extending the drifts at the fifteenth and sixteenth levels at No. 2.
All east bound freighters are taking out large shipments of copper. Supplies of the red metal at the smelters are not large and by the close of navigation, which is expected about Nov. 25, it is likely that all of the docks will be bare. Lake shipments are considerably cheaper than the rail shipments necessary during the winter, and for that reason as much of the metal as can be gotten out will be sent East before ice blocks the progress of the boats. A thousand tons constitutes a fair average shipment per boat at this time of the year.

SENATE ENGAGES IN LIVELY DEBATE

RIGHT OF MORMON SMOOT TO A SEAT IS DISCUSSED, BUT NO ACTION IS TAKEN.

CUBAN BILL IN THE HOUSE

DEMOCRATS WILL TRY TO AMEND, AND THEN SUPPORT IT.

Removal of Tariff on Bituminous Coal Is Proposed by a Massachusetts Republican, Who Introduces a Measure to That Effect.

Washington, Nov. 12.—Immediately upon assembling today, the senate entered into a discussion of the question of the eligibility of Reed Smoot of Utah to a seat in the senate. The debate was out of remarks made yesterday by Senator Hoar, to the effect that petitions bearing upon Senator Smoot's case were as much out of place as similar petitions to the supreme court of the United States would be in the interest of any case before that tribunal.

Speaker Cannon in the house today announced the composition of the ways and means committee as follows: Republicans, Payne, New York; Dulzell, Pennsylvania; Grosvenor, Ohio; Tamm, Minnesota; McCall, Massachusetts; Babcock, Wisconsin; Metcalf, California; Hill, Connecticut; Boutwell, Illinois; Watson, Indiana; Curtis, Kansas; Democrats, Williams, Mississippi; Robertson, Louisiana; Swanson, Virginia; McClellan, New York; Cooper, Texas; Clark, Montana.

Chairman Payne will call the committee together tomorrow to consider the Cuban bill. He today introduced a bill making effective the Cuban reciprocity treaty whenever the president shall have received satisfactory evidence that Cuba has made provisions to give full effect to the articles of the convention between the United States and Cuba signed last December.

A meeting of the minority members of the ways and means committee was held tonight for the purpose of outlining several amendments to the Cuban bill. These amendments will include one removing the differential on refined sugar and the elimination from the treaty of that portion of Article 8 which binds the United States government not to reduce the duties on sugar for five years. Should these amendments fail, the indications are that the Democrats will support the Cuban bill.

THE SON OF EX- U. S. MINISTER TO ENGLAND

Commends Pe-ru-na to All Catarrh Sufferers.

Hon. Louis E. Johnson

Hon. Louis E. Johnson is the son of the late Reverend Johnson who was United States Senator from Maryland, also Attorney General under President Johnson, and United States Minister to England, and who was regarded as the greatest constitutional lawyer that ever lived.

In a recent letter from 1006 F St., N. W., Washington, D. C., Mr. Johnson says: "No one should longer suffer from catarrh when Peruna is accessible. To my knowledge it has caused relief to so many of my friends and acquaintances, that it is humanity to commend its use to all persons suffering with this distressing disorder of the human system."—Louis E. Johnson.

Catarrh Poisons.

Catarrh is capable of changing all the life-giving secretions of the body into the life-destroying fluids, which destroy and inflame every part they come in contact with. Applications to the places affected by catarrh can do little good save to soothe or quiet disagreeable symptoms. Hence it is that gargles, sprays, atomizers and inhalants only serve as temporary relief.

FORCED TO LEAP FROM TRAIN.

One Victim of Highwaymen Is Killed and Companions Are Injured.

Minneapolis, Nov. 12.—A man whose body was found beside the railway track near Maple Plain has been identified as that of Carlton G. Gordon, of Vail, Ia. His companions, Frank Kelly of Philadelphia and F. Williams, were seriously injured. The men were riding on a Great Northern freight train, when they were set upon by highwaymen. After being robbed the three were compelled to jump from the train while it was going at the rate of twenty-five miles an hour.

FIVE CARDINALS GET RED HATS.

Rome, Nov. 12.—Pope Pius X held his first public consistory today. Five cardinals, including the papal secretary of state, Mr. Merry Del Val, received their red hats.

Confide in a Woman

How Women Act While Consulting a Male Physician.

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story. She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor. Is it any wonder, therefore, that the doctor fails to cure the disease? Still, we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician. It was for this reason that years ago Mrs. Lydia E. Pinkham determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to their complaints, and, being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering. In this way

Mrs. Pinkham, in Lynn, Mass.,

was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago, a great army of her fellow beings are to-day constantly applying for advice and relief, and during the last year many, many thousands every month have written and received valuable advice and help.

Nowhere except at Lydia E. Pinkham's laboratory in Lynn is there such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation, to the most complicated diseases of the womb. The records of all the many hundreds of thousands of cases as to which advice has been asked are there kept on file by Mrs. Pinkham, and from this vast experience she is able to do more than the family physician for ailing women. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham for advice. The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of LYDIA E. PINKHAM'S VEGETABLE COMPOUND to conquer female diseases.

BIG GUN SUCCESSFUL.

Gen. Crozier, Chief of Ordnance, Speaks Well of the 16-Inch Rifle.

Washington, Nov. 12.—Brigadier General Crozier, chief of ordnance, today submitted his annual report to the chief of staff of the army. It deals minutely with many experiments to improve the military armament.

Speaking of the success of the sixteen-inch gun constructed by the government, General Crozier says that the use of smokeless powder in such large charges "was beyond the experience of the world" and that the demonstration it would, when so used, follow the same law of burning as with charges of the size previously employed, gave testimony to the great strides forward in the art of construction of ordnance. In testing this gun, a charge of 640 pounds of special smokeless powder and a 2,400-pound projectile were used. A velocity of 2,317 feet per second was attained.

On the subject of the United States magazine rifle, General Crozier says that the results obtained from the few made by hand were so satisfactory as to secure the approval of the secretary of war for adoption of this pattern. The reduction in the length of the barrel from thirty to twenty-seven inches, General Crozier says, met unanimous approval in all arms of the service.

The report says there have been issued to the militia free of charge a total of 69,063 magazine rifles and 3,665 carbines, with accompanying equipments, aggregating in value \$1,209,488.

MAKES PLEA FOR THE NEGRO.

Sociological Society Calls for National Aid in Solving Race Problem.

Washington, Nov. 12.—The National Sociological society convention held to consider the race problem closed its session today by the adoption of resolutions on the subject. One of the most important results of the meeting was the creation of a mixed special commission of six members, three from each race, to carry the plans and conclusions into effect, to lay the matter before congress, to gather material and to aid as permanent body in the solution of the race problem.

The resolutions declare that it is the duty of the government to afford adequate protection to every citizen and that the perpetration of the crime is dependent upon fidelity to this principle; that there can be no recognition of a master class and a subject class, and that the government must treat all as equals in the eyes of the law. The resolutions deplore mob violence and deplore the crimes alleged in excuse of such violence; express faith in the increasing intelligence and thrift of the negro; urge congress to make liberal appropriation for the national bureau of education that the scope of its work may be enlarged, and urge the national government to authorize an inquiry as to the condition of the colored people.

NEW STOCK ISSUE OPPOSED.

Contest Develops at the American Malt-Jeremy Company's Annual Meeting.

Jersey City, Nov. 12.—At the postponed annual meeting of the American Malt-Jeremy company today a contest developed over a plan of reorganization proposed by the present management, involving the issuance of an additional \$100,000,000 of preferred and \$10,000,000 of common stock. The stockholders opposing this plan attacked the present management and nominated a ticket of directors in opposition to those now in control, but the present board of directors with one exception was re-elected.

EXPLORER PEARY GIVEN MEDAL.

London, Nov. 12.—Commander Peary, the Arctic explorer, was presented with the Livingstone gold medal by the Royal Geographical society of Edinburgh tonight, and at the same time was made an honorary member of the society in recognition of his work in Arctic explorations. The Livingstone medal was founded by the daughter of the late Dr. Livingstone.

MINISTERS AID ASSOCIATION.

"A FRIEND OF THE FAMILY."

This Farce from the German Was Well Received at Duluth.

At the opera house will be presented, tonight, "A Friend of the Family," a farce from the German described as one of the best plays of the kind that has been produced during the past few seasons. It is on its way east and this week played at Duluth, where the papers speak of it in most complimentary terms. The Herald says, in part: "The farce is one of the best seen recently and is of the uproarious type, of which 'Charley's Aunt' and others of that ilk are representative. It in brief tells the story of a former traveling man who marries a young woman of a jail-

"COME KISS YOUR MOTHER"

ous nature and persuades her that she is the one and only woman he ever loved or ever made love to. By and by his wife's stepmother, married to her father in Tokyo, Japan, where he soon dies, turns up and in her traveling man discovers a charming young actress to whom he made violent love while he was in Tokyo himself, afterward jilting her. He cannot get rid of her and she, while having long before outgrown her love for him, determines to have a little revenge and proceeds to get him into hot water. She does it most effectually and the water gets hotter and hotter until it is at the boiling point. All comes out right in the end, but there is a hot time while it lasts.

"Bartley Swift is the husband of the play and a clever farceur has not been seen here. He is not of the mock and lively type of husbands in trouble, but rugged and storms and fights as hard as he can, and in general is an excellent and breezy victim of circumstances.

"To Emile Croix must go a large measure of the praise for the success of the farce. In the character of a violent tempered Frenchman, violently in love and seeking revenge upon all that come between him and his adored, he was inevitable, and uproars followed in his wake throughout the performance.

"Miss Alice Johnson as the widow's stepmother and the cause of all the trouble, was good, acting it well and keeping the fun moving."

"Mrs. Louis Ernest, Evansville, Ind.—'Rocky Mountain Tea' is splendid. Makes sick people well. Cured me after others failed." Tea or tablet form. 35 cents. Stafford Drug Co.

Happy is the kitchen where Gold Medal is used. Your grocer keeps it.

JOHN GATELY CO.

ISHPEMING, MICH.

WITH THE BIG ELECTRIC SIGN.

Ishpeming and its Environs.

BIG CROWD OF ROOTERS.

They Will Give the Blue Royal Support at Escanaba.

Ishpeming will not lack for enthusiastic support from the side lines tomorrow, when the eleven goes to Escanaba to meet the big team representing that city, to decide the championship of the upper peninsula. From all indications the crowd of Ishpeming rooters will surpass in size any that has ever left Ishpeming to attend a football game. The delegation will leave here on the regular Northwestern train at 8:55, arriving at Escanaba at 10:40. Extra coaches will be provided for the excursionists. A special train will return from Escanaba at eight o'clock in the evening.

The Northwestern has given a rate of \$1.50 for the round trip. Fully 100 high school students plan to go. One or two large parties have made arrangements for going in one party, alone. In order to give all an opportunity of purchasing tickets and to prevent a possible delay of the train by a rush at the last moment, tickets will be on sale all through today. The agent desires that as many as possible should secure tickets before tomorrow.

A special train will probably be run from Negaunee to Marquette, connecting with the returning special. Marquette people have shown a lively interest in the championship contest and will no doubt attend in large numbers.

Escanaba Press Comment.

The Escanaba Mirror says of the gridiron in that city, on which tomorrow's game will be played:

"The commotion which was raised by the superintendent of schools at Ishpeming concerning the condition of the local football grounds last fall cannot be raised this year, as we have now one of the finest football grids in the upper peninsula. The field is an uncommonly level one, and contains no places for mud puddles even after a heavy rain. Also a solid post fence of wire screening has been placed around the field on all sides, so that there is no possibility of anyone getting on the ground. The fence is stable, supported by strong posts set in every ten feet, and as far as the grounds are concerned, no kick can be made on the game here."

The Mirror also says:

"The Escanaba team is getting steady practice and is playing a fast, snappy game. Peter Semer is again able to be out and will surely be in condition to play Saturday. Although the general statement made is that there is no show for Ishpeming, those who watch the matter closely know that the case of Ishpeming is not nearly so desperate as people are inclined to believe. There are many arguments in their favor, counterbalancing that of comparative scores made against Hancock. For instance, Ishpeming argues that when it played Hancock it was on Hancock grounds, and therefore Hancock played stronger. Also that Hancock has not practiced steadily and was not in as good condition last Saturday as two weeks ago. Also that Ishpeming has been working steadily and is better than when it played Hancock. All these things tend to take some of the Escanaba-Hancock score, and make the game Saturday appear more even. These are the arguments advanced by Superintendent Jolliffe, and he is inclined to think that the idea of a big score against Ishpeming is all in the eye of enthusiastic fans. He looks for a famous game of football, the greatest high school game ever played in the upper peninsula."

BRAASTAD'S OPENING.

Public Invited to Inspect the New Block Next Monday.

In F. Braastad & Co.'s advertisement in today's issue, the public is extended an invitation to attend the formal opening of the new stores, which event will occur on Monday of next week. A dozen or more employees have been busy arranging the goods in the different departments for some time past and both floors of the new block are now practically ready for inspection. Each visitor on Monday will be given a souvenir. Extra help will be employed to take all who call through the several departments.

It is doubtful if a more attractive store is to be found anywhere in this section. The ground floor space alone covers an area of 153 by 97 feet. Every foot of space on both floors is utilized and some of the departments are crowded. The present interior arrangements will prevail until after the holidays, when more extensive improvements will be started with a view to adding additional space. With the work planned for next year, it is doubtful if all the alterations and additions will be completed before next fall.

A feature of next Monday's opening will be a mammoth display of fur goods. This exhibit will last for ten days. Mr. Braastad stated yesterday that the line will be the largest and most complete ever shown in this section.

BUSINESS MEN COMPLAIN.

Some of Them Allege That Things Have Not Been So Dull in Years.

Some of the business men complain of the dull state of trade. One of their number who conducts one of the largest establishments in the city, said yesterday that trade had fallen off greatly during the past month or two, now being at a very low ebb. He does not know to what to attribute this condition, but supposes that people are afraid that the winter will be a hard one, having become alarmed by the reductions at the mines.

Other tradespeople view the situation in an entirely different light. They say that business is as brisk now as at any time this year. One man declared that the fall season just closed had been one of the most successful he had ever known. He anticipates a more active winter for several years past.

Conditions in the different lines of trade are governed a good deal by the classes of the population that are dependent upon for patronage. Some classes have been hit harder than others by the recent reductions at the mines. Those that have been most affected naturally are more economical than before, cutting out many of the items that formerly figured largely in their expense accounts. This, of course, has a direct influence upon the business men with whom they deal. There are still many who have not felt the effect of the curtailments. Though business has no doubt been light in certain lines, there seems to be no particular cause for looking forward to a hard winter.

Ladies', misses' and children's cloaks, jackets, suits, skirts, etc., arriving daily. Great assortment of new goods. Prices right. N. E. SKUD. (11-12-17)

ISHPEMING IN BRIEF.

Sheriff Penglase was up from Marquette yesterday.

Bishop Eis of Marquette was an Ishpeming visitor yesterday.

George A. Newett and son will left yesterday for a deer hunt.

The Powatan club will give a party this evening at Anderson's hall.

The Young Men's Dancing club will give a party tomorrow night at Anderson's hall.

The next hop by Trombly's orchestra will be given Monday instead of Wednesday evening.

New matting has been placed in the aisles of the high school room and in the halls on the upper floor of the building.

The employees of the Cleveland Lake mine will not be paid today as previously announced. The pay day was yesterday.

T. S. McMahon arrived here Wednesday from Butte, Mont. He brought with him a young coyote which had been sent to Mike Nolan by a friend in Montana.

The Lady Foresters will entertain their gentlemen friends at the Lady Foresters of Negaunee Wednesday evening, Nov. 18, at the convent hall. Pedro will be played. No persons under sixteen will be invited.

Mrs. M. J. Taylor has returned home from Milwaukee, where she was called by the death of her grandson. She was accompanied by Miss Mary Platz, Manitowoc, a relative, who will remain here for an extended visit.

There will be a football game at Union Park Sunday afternoon at 2:30 between the Peerless team and the "Stars," a recently organized eleven, including a number of former high school players. The price of admission will be fifteen cents.

"The Helsingfors" is the name of the new saloon opened in the Agnitsch block on Fifth street, Calumet. It is being managed by Professor Sanfred Mustonen and is named in honor of the capital of Finland. The professor intends to run a saloon upon the most modern lines. Professor Mustonen has long been prominent in local musical circles and was instructor and leader of several local glee clubs and choirs, and his deep base voice was heard in local church choirs for several years.—Houghton Mining Gazette.

THE BEST LINIMENT. "Chamberlain's Pain Balm is considered the best liniment on the market," write Post & Bliss, of Georgia, Vt. No other liniment will heal a cut or bruise so promptly. No other affords such quick relief from rheumatic pains. No other is so valuable for deep seated pains like lame back and pains in the chest. Give this liniment a trial and become acquainted with its remarkable qualities and you will never wish to be without it. For sale by The Stafford Drug Co., J. M. Perkins, Negaunee, and Henry Harwood, Ishpeming.

BOARDERS WANTED. Good sleeping and boarding accommodations, board by day or week, at Harper's restaurant, Nos. 116 and 118 Cleveland avenue. (11-10-17)

THE SELLWOOD MINES.

Interesting Resume of Their Operations and Present Status.

The Duluth Herald has the following resume of the operation and present status of the Sellwood mines:

What are known as the "Sellwood mines" of the Mesabi range are closing down for the winter, having mined their minimums or allotments. These are as follows: Kanawha mine, closed permanently with a shipment this year of 35,000 tons, making its full record 180,000 tons. It was a small pocket of ore in the northwest quarter of section 1-38-1.

The Cass, another small property in section 2, same township, has shipped 60,000 tons this year and is closed. It was opened this year and produced a good grade of ore. This mine is generally supposed to be the property of the Zenith Furnace company, of Duluth, but through a slip did not pass into its hands.

Leontina mine, in section 10-57-21, has closed with a shipment of 200,000 tons. It is an open-pit mine, and a large amount of stripping has been done this season in preparation for increased mining another season.

The Cypress, adjoining Leontina, closes this week with 125,000 tons for the year. It also is a new property.

The Pearce and Morrow mines, sections 28 and 29-58-20, are through with 50,000 tons each, their minimums. The Longyear in sections 5-57-23, is through with 85,000 tons, a little more than its minimum. It carries over a stockpile of 25,000 tons made last winter and not shipped. The Croxton, in section 13-58-20, is through with 101,800 tons. It is an open-pit mine.

The Hawkins and Agnew mines, belonging to the International Harvester company and under the management of Mr. Sellwood, are through this week with about 110,000 tons each. The Hawkins is an open-pit mine and the Agnew is to be made such for another year. It has a thickness of surface of about sixty feet, and the company has commenced stripping it without contracts. About 1,000,000 yards of surface and 300,000 of tonnage will be taken off, making the job one of the heaviest undertaken for a long time. The removal of about 1,500,000 yards of earth and 204,000 of tonnage, including the slopes, will uncover about 5,200,000 tons of ore, and this will all be taken out before the present job is completed. The tonnage is not a thorough capping over the ore, but in benches and shelves, and runs in thickness from nothing to about ten feet. There is an average overburden over the ore in this mine of sixty-three feet, and an average thickness of ore below the stripping of 121 feet, making it an ideal proposition for stripping, and one in which the cost of stripping and mining will be very low.

Just what Mr. Sellwood expects to show in the way of costs for this stripping operation cannot be told, but it is doubtless well under thirty cents a yard, and the cost of breaking and removing the tonnage should be probably less than \$1 a yard. He has let contracts to stripping firms in which they have moved both earth and rock for less than these figures.

At his Larue mine, adjoining the Hawkins on the north, they have been at work only since the railroad connection was made in August last, have shipped so far about 35,000 tons, and hope to move 10,000 tons more before they close down. This is a stripped property also and is very easy to mine. Even so, this season for the past two months is a very remarkable one.

Mr. Sellwood's Brotherton and Sunday Lake mines, on the eastern Gogebic, will close for the season shortly with a production of about 100,000 tons each for the season, about their average. He is also in charge of mining operations in the Baraboo district for the International Harvester company. Here he is getting out but little ore now, as the railroad connection has not been made, but the upper drift is in 800 feet and the lower 500 feet, and there are some 25,000 tons of ore on surface. It will be easy to stop and hoist 500 tons a day as soon as a railroad connection has been made to the property.

MARRIED YESTERDAY.

The marriage of Miss Susie Maroney and Edward Thomas of Painesdale occurred yesterday morning at St. John's parsonage. A reception was held in the afternoon at the residence of the bride, attended by a large number of guests. The couple left on the afternoon train for Painesdale, where they will reside. They were accompanied to the train by a large number of friends, who showed liberal quantities of rice.

CHANGE IN SCHEDULE.

A new time schedule will go into effect on the L. E. & T. Sunday, Nov. 15. Trains will arrive at 10 a. m. and 6 p. m. daily and on Sundays, only, from Marquette at 12:30 p. m. Trains will leave at 4:45 p. m. daily and on Sundays, only, for Marquette at 10:30 a. m. The trains that have been leaving at 7:45 a. m. and 6 p. m. Sundays will be discontinued.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Like a Comet

This famous remedy does for the stomach what which it is unable to do for itself, even if but slightly disordered or overburdened.

Kodol

supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles and membranes of that organ are allowed to rest and heal. It cures indigestion, flatulence, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the glands, membranes of the stomach and digestive organs.

Kodol Dyspepsia Cure

Your Dealer Can Supply You. Bottles only, \$1.00. Size holding 2 1/2 times the trial size, which sells for 50c.

Prepared by E. C. DEWITT & CO., CHICAGO.

Sold by Stafford Drug Co., Marquette, and H. N. Meloche of Ishpeming.

Overcoat Selection

WERE not knocking anybody; but if it is a question of overcoat selection, there is just one place to come, and that is here. We'll pass over the question of variety and quantity, and talk about style, price and quality. We show more styles than any other store (not knocking); but in the style, the fit and workmanship there is none to compare with these faultless K. N. & F. overcoats. We are very proud of our showing and you will feel likewise should you buy one. Don't knock, walk in. The latch-string is out, and you'll be in.

\$25 commands our finest coats.

\$12 buys an excellent one.

CATARRH A COMMON COMPLAINT.

Catarrh begins with a stubborn cold in the head, inflammation or soreness of the membrane or lining of the nose, discharge of mucus matter, headache, neuralgia and difficult breathing, and even in this early stage is almost intolerable. But when the filthy secretions begin to drop back into the throat and stomach, and the blood becomes polluted and the system contaminated by the catarrhal poison, then the sufferer begins to realize what a disgusting and sickening disease Catarrh is. It affects the kidneys, and stomach as well as other parts of the body. It is a constitutional disease and as inhaling mixtures, salves, ointments, etc., are never more than palliative or helpful, even in the beginning of Catarrh, what can you expect from such treatment when it becomes chronic and the whole system affected? Only such a remedy as S. S. S. can reach this obstinate, deep-seated disease and purge the blood of the catarrhal poison. S. S. S. purifies and builds up the diseased blood, and the inflamed membranes are healed and the excessive secretion of mucus ceases when new, rich blood is coming to the diseased parts, and a permanent cure is the result.

S. S. S. is guaranteed purely vegetable and a reliable remedy for Catarrh in all stages. Write if in need of medical advice; this will cost you nothing.

CALLS IT A POOL LAW. NEW WATER RATES LIKELY.

Negaunee Sportsman Doesn't Think Much of Accidental Shooting Statute. It Is Said That Some Important Changes Are Contemplated.

Hunting fatalities and accidental shootings have been the all-absorbing topics of conversation here the past few days, owing to the recent happenings near Marquette. Naturally much attention has been directed to the law passed by the last legislature, which makes the accidental shooting of a human being while the pursuit of game is in progress a misdemeanor, punishable by fine or imprisonment.

Yesterday a well-known Negaunee man, who requested that his name be withheld from publication, stated his views on the new statute. "I consider it a fool law," he said, "and I am willing to wager that not a single conviction can be obtained under its provisions. A purely accidental occurrence can't be construed as a crime and the man who may be responsible for it cannot be made to suffer punishment by the state. It is contrary to every principle of justice to convict a man for an act that he committed entirely without the intention of doing wrong. In the majority of hunting accidents, the victim is one of the best friends of the man who did the shooting, the deed being wholly accidental. Probably no one feels greater remorse than the person who is responsible for the awful occurrence.

"Fatalities during the deer season can be prevented only by educating the hunters in the proper use of firearms. Considering the amount of carelessness that is displayed by seven or eight out of ten sportsmen, it is a wonder that there are not more fatalities. The early part of the week I was hunting in the lower part of the county, and across to my acquaintances, both veteran sportsmen, and we stopped for a short time to talk. Now it would be expected that these men would use good judgment in handling their rifles, but far from it. When they stopped, each planted the muzzle of his gun on the ground and put one of his hands over the muzzle. Presently one of them shifted his position and leaned on the end of his rifle. Men are killed as a result of such carelessness about as frequently as they are from being mistaken for deer. And it's not always the tenderfoot on his first hunt who causes the trouble. The men who have been going out for years are as careless as the rest. I believe that a knowledge of the use of firearms is as essential to a boy's education as training in any other line. I learned how to handle a rifle when I was eight years old. Few take more pleasure than I do in training the woods for game and I can truly say that few are more careful, due in large part to what I learned when a boy.

"Now as a substitute for the present ineffective statute which makes an accident a misdemeanor, I would suggest that a measure be adopted providing for the education of deer hunters. I would have a board of examiners appointed in every county where licenses are issued. This board should be in session continuously from the middle of October to the end of the deer season, at the county seat. Every applicant for a deer license would have to appear before it and answer a list of questions, the same time being allowed for that. He will obey a few instructions governing his conduct when after deer. I think it would be well to have this affidavit cover such points as the loading and unloading of a rifle, shooting at objects before they can be clearly seen, carrying the gun cocked. The oath regarding the loading or unloading of the magazine of a rifle ought to be strong and unambiguous. The applicant ought to swear that he would not perform the operation in a house or camp and agree to hold the muzzle of his weapon toward the ground. The number of fatalities would be greatly diminished if such a plan was followed. In case accidents should happen, however, the party responsible could be brought to book for violating his oath, for I believe that an investigation would show, in ninety-nine cases out of a hundred, that the mistake occurred through carelessness. It would serve some of the requirements. Details regarding the organization of the board, and its compensation are not essential to the general principle of the scheme and could be arranged when the law is framed. The hunters would be increased if it was necessary to have more funds.

"There was some talk last fall about prohibiting the use of high power guns. Such weapons are the best that can be used in hunting deer. The danger is very slight if ordinary precautions are heeded. Spent bullets seldom do any harm. The haunts of the deer are mostly in dense growths of trees or in localities where hills abound and the bullets bury themselves in the trees or hillsides soon after leaving the gun."

STARVATION CANNOT CURE DYSPESIA

Miss Clark Tells How She Was Restored To Health After Years of Suffering.

If you cut off every article of food that disagrees with you, it will not be long until you have nothing left. You cannot cure stomach troubles by starving yourself.

The sensible, logical course is to get your stomach into such shape that you can eat anything and digest it.

Science has at last discovered a pleasant, reliable specific for the treatment of dyspepsia.

Recall Dyspepsia Tablets cure stomach troubles by supplying the one element, the absence of which in the gastric juices, causes indigestion and dyspepsia. They enable the stomach to digest all kinds of food and to quickly convert it into rich red blood.

READ WHAT MISS CLARK SAYS: "I was in a very critical condition, very pale, could not eat anything. The thought of food was distasteful to me. I tried Recall Dyspepsia Tablets and immediately commenced to gain. I was hungry for my meals and relished my food. The color came back to my face, and I commenced to think I had something to live for. I can cheerfully recommend Recall Dyspepsia Tablets. - LUTIE CLARK, 903 East Washington St., Syracuse, N. Y."

We guarantee Recall Dyspepsia Tablets. Price 25c. Sold only at our store or by mail.

STAFFORD DRUG CO.

complained of were not in town Hal-love-en. As far as doing his duty is concerned, Mr. Oie wants it understood that he will show no favors. The shooting near Albert Luno's house was purely accidental and was done by a foreigner from the Beaufort, whose revolver went off while he was examining it.

Archie Looose and Miss Tillie Greenleaf, two popular young people of Michigan, were united in marriage Wednesday morning of last week at the Catholic church. Rev. Father Hasenberg, the pastor, tied the nuptial knot.

The bride was attended by Miss Josephine Foubert of Marquette and Miss Edith Dompiere of this place. Maurice Dower and Joseph Greenleaf supported the groom. After the ceremony the bridal party partook of a feast at the home of the bride's parents. Later in the day they drove to Champion and back.

LOCAL LACONICS.

Henry Pascoe, the drayman, lost his grey horse Wednesday.

J. B. Brooks, of St. Ignace, was a Negaunee visitor Wednesday.

John Shea, Jr., is here from Ironwood, to spend a week or two visiting friends.

Trombly's orchestra will give its next hop at Anderson's hall Monday instead of Wednesday evening.

Anderson & Hanson of Ishpeming will open their branch store in the Johnson building on Iron street tomorrow.

J. M. Perkins arrived some yesterday from a hunting expedition north of Michigan. He brought back a deer.

On account of the football game at Escanaba tomorrow the Northwestern offers a special round trip rate of \$1.50, for passenger leaving here at 9-10. The returning train will leave Escanaba at 8 o'clock p. m.

The marriage of Jerry Driscoll to Miss Mary Hines occurred Wednesday at Eureka, Neb. The groom was once assistant postmaster here, leaving a year ago. He is now assistant cashier in a bank at Eureka.

Anderson & Hansen of Ishpeming will open their Negaunee store, Johnson block, 405 Iron street, on Saturday, Nov. 14, with a new and up-to-date line of clothing for men and boys, also furnishing goods. Fair prices and honest dealings will be our motto. We solicit your patronage. (11-13-14)

WATER MAY BE SWEET AGAIN

BOARD HAS TAKEN COGNIZANCE OF THE OBJECTIONABLE PRESENCE OF THE CREOSOTE.

MATTER UNDER ADVISEMENT

SUPT. KERN INVESTIGATING NEAR THE INTAKE PIPE.

Matter Will Be Taken Up With the Furnace People in the Hope of Putting an End to Any Cause for Complaint.

Marquette people who profess great annoyance at the occasional presence of creosote in the city water will be pleased to learn that the board of fire and water commissioners have taken cognizance of the situation and intend to see if something cannot be done to insure a constant supply of water that is sweet to the taste as well as pure in fact. The matter has been canvassed by the board members and as a preliminary they have instructed Superintendent Kern to pursue investigations designed to show how far out in the neighborhood of the city intake pipe the water is impregnated with creosote at such times as northerly winds bring the objectionable water down from North Marquette, where the refuse from Pioneer furnace gives it the creosote flavor that is the subject of so much complaint. Mr. Kern now has this work in hand, and will be prepared to make a report before very long.

The matter was discussed at some length at the last meeting of the board and it is said to be the intention of the members to find out just how things stand. It is the purpose to take the furnace people into consultation, and to have any action taken amicable and harmonious. It is felt by the members of the board that some adjustment of the matter can be arrived at that will not cause either the furnace people or the city too much annoyance and expense and which will still do away with the objectionable presence of creosote in the drinking water.

The creosote comes and goes, at present, with storms. For days at a time there is no trace of it, though some supersensitive or highly impressionable people profess to detect it week in and week out. When the wind is from the south or west there is never any trouble, but let it veer round to the north or northeast and it is a matter of but a few hours when the water is decidedly tainted, and it grows worse as the storms continue and the winds increase in intensity. The creosote usually comes to stay for a few days, and until the wind changes there is a constant uproar of complaint, directed indiscriminately at the wind, the water board, the furnace people and the council.

At times the creosote is offensively evident and causes Marquette housewives no little annoyance by flavoring their tea and coffee and giving an unwanted taste to numerous dishes in which water must be used. It makes the water unpalatable to drink and many people complain that it has, as far as they are concerned, a nauseating af-

fect. Others do not mind it, they say, to any extent. Just now the water does not appear to be tainted. At least no great fault has been found during the past few days. If the wind continues in the north, however, the creosote will soon be evidence again. What to do about it is, as indicated above, a question now receiving attention from the board of fire and water commissioners, who are the municipal officers most directly concerned in finding a remedy. They will take the matter up with the furnace people and endeavor to come to some arrangement satisfactory to all concerned.

INQUEST YESTERDAY.

Verdict of Accidental Shooting Returned by Jury in the Pickett Case.

The inquest in the case of David P. Pickett, the victim of the hunting tragedy northwest of the city Tuesday, was held yesterday morning in Corner Cray's office, under the direction of Prosecuting Attorney Bell. The verdict returned by the jury on the conclusion of the examination of the witnesses was as follows: "David P. Pickett came to his death on Tuesday Nov. 10, 1903, from a gunshot wound, said shot being fired by Fred Murray, said action on Fred Murray's part being purely accidental."

The witnesses examined were Murray himself, A. C. Parker and James Cud-dahy, who were at the scene of the shooting, and Dr. Harkins, who gave testimony relative to the nature of the wound. There was agreement between the stories of Murray, Parker and Cud-dahy and their recitals, in all essential particulars, coincided with the story of the sad affair published in The Mining Journal Wednesday morning. It was plainly and conclusively shown that the shooting was accidental, and to be explained by the fact that Pickett was mistaken for a deer.

The prosecuting attorney now has the case under advisement with reference to proceeding, under the new law covering the accidental killing of hunters, against Murray. He did not care yesterday to say what he would do, but something definite in the connection will be known this week.

It is said that there is some popular misapprehension concerning this law. Many people have assumed from its phraseology that it makes the prosecution of all cases similar to that arising from the death of Pickett here specially incumbent on the prosecutor. This, however, is claimed not to be the case. The prosecutor has the same discretion, it is said, that he has in any other case. A third party can swear out a warrant, or the prosecutor may take this step himself. If on the other hand he thinks the evidence warrants it he may drop the proceedings entirely.

In the Marquette case it is asserted that no third party is likely to push a case against Murray. The outcome thus rests with the prosecutor.

Constipation, headache, backache, feel mean, no appetite, all run down? Rocky Mountain Tea will make you well and keep you well. Money back, if it fails, 35 cents. Stafford Drug Co.

SPECIAL RATES.

They Are Offered for the Escanaba-Ishpeming Game.

For the Escanaba-Ishpeming championship football game tomorrow the Northwestern road is offering a round trip rate of \$1.50, with a special train returning after the game. The South Shore announces that for the benefit of the Marquette people who may be figuring on seeing this crucial contest it will offer a rate of fifty cents to Negunee for the 8:30 train tomorrow morning. Tickets good for return on the first train Sunday morning. The South Shore is further willing to make arrangements for a special to return to Marquette Saturday evening, if a party of fifty or more can be formed to take the trip. There is much local interest in the game and many people would like to see it. It is not impossible that fifty will agree to take the trip, in which event a special will return to Marquette from Negunee, connecting with the Northwestern special at that city. This would give Marquette people an opportunity to take in the game and return home the same day. People who would like to take this trip are requested to hand their names to City Ticket Agent Wright.

SNOW AT LAST HERE.

Deer Hunters Will Now Follow the Chase With Renewed Zest.

Yesterday the hunters, those in the woods and many who have not yet left the towns, got what they have been waiting for in a goodly fall of snow, which will set all the sportsmen on the track of the deer with renewed zest. The fall was fairly heavy for November, and unless the weather should at once turn very mild, a thing not regarded as likely, the ground will be well covered for a number of days, perhaps until the end of the season. This means that the deer will be severely punished, for its matter of common knowledge that the snow is a great help in tracking game, also an aid to quiet movement in the woods. Veteran hunters do not disdain its assistance and to the inexperienced sportsmen it is a veritable boon. The slaughter during the remainder of the week should be very heavy, and many people who have been holding off their hunting trips awaiting a change in the weather will now take to the woods without further delay.

As a matter of fact the common report is that the season to date has been, despite the absence of the snow, very favorable to the hunters, who are said to have fared very well. The woods have been somewhat noisy, but not so much so as in other seasons, and the game has appeared to be plentiful. At least most parties have been successful in getting venison. The camps where the hunters have failed are few and far between, and to these the snow will doubtless bring success.

The storm yesterday set in about noon, after a cold night and morning, which froze up the ground and prepared it to retain the snowfall. With the coming of the snow the temperature moderated perceptibly, but the fall did not melt away, gradually accumulating a depth of three or four inches. Reports are that the fall was general over a large area, if not the entire county, and in the woods the snow will remain on the ground even after it disappears in the city.

It is already apparent that the slaughter of deer will be much heavier this season than last. In 1902 the game escaped with less punishment than usual, all the conditions being against the hunter. The season was dry and the woods noisy. It was hard to get shots and more than one good marksman came home empty handed. This year the hunters are having their innings, and the deer will suffer severely, particularly as long as the present snow holds out.

CITY BREVITIES.

Today's weather: Snow and colder; high northwest winds.

Mr. and Mrs. A. B. Eldredge are absent in New York for a few days' visit. The Woman's guild of St. Paul's church will meet this afternoon at 2 o'clock in the chapel.

The Baptist Ladies' Aid society will meet this afternoon at 3 o'clock with Mrs. Charles Button, East Michigan street.

There will be a meeting of the Ladies Aid society of the M. E. church this afternoon at 2:30 o'clock in the church parlors.

The Young Woman's guild of St. Paul's church will meet with Miss Fanny Jopling, East Ridge street, this afternoon at 2 o'clock. The Marquette land office has rendered a decision in the case of James Inglis vs. Gust Wenzel, forty acres in Presque Isle county affected. It is in favor of Inglis.

The street rollers are through with their season's work. They were yesterday brought down from the hill, where they had been working lately, and were run to the storage shed, east of the fire department's headquarters.

Joseph Harvey Rose, son of A. L. Rose, 120 W. Prospect street, entertained a party of his young friends yesterday afternoon from 3 to 5 o'clock, the occasion being his tenth birthday. About thirty youngsters were present.

Men were busy yesterday locating and preparing to set the new iron poles. They are to be set partly in the sidewalk and partly in the street, but they will not to any noticeable degree obstruct the gutters. The poles are to be firmly fixed in cement.

"Arizona", which has made good its claim of being the best American drama ever written by several seasons' success, will be the attraction at the opera house next Wednesday evening. It is being presented by a capable company and is said to be one of the best attractions on the road.

The football team expected to meet the Manistique eleven at that city, playing a return game, but the contest has been cancelled at the request of the Manistique management, the team there having disbanded for the season. Consequently the Marquette players are without a game for tomorrow.

For the International Live Stock exposition the St. Paul road will sell excursion tickets to Chicago from Nov. 29 to Dec. 1 for one fare plus \$2. The tickets will be good for return leaving Chicago as late as Dec. 7. H. E. Stewart, the company's commercial agent at Houghton, will supply any additional information required.

There is much interest here in the outcome of tomorrow's football games, particularly the Michigan-Wisconsin meeting at Ann Arbor and the Upper Peninsula Interscholastic association's championship game, at Escanaba, between Escanaba and Ishpeming. There is an abiding belief among the fans that Michigan will win. As for the Escanaba game the popular opinion seems to be that Escanaba has it safe. It is not believed here that Ishpeming can handle the Sandy City heavyweights who are at least of the proportions of a prep school team. Many Marquette people expect that Ishpeming will be defeated by a good sized score, something almost unheard of for Ishpeming.
