CHICAGO STRIKERS KEEP POLICE BUSY

MUCH TROUBLE HAD ALONG THE ONE LINE OPERATED BY THE CITY RAILWAY COMPANY.

MANY ARRESTS ARE MADE

CARS ARE RUN ALL DAY DESPITE CONTINUAL INTERFERENCE.

Attempt to Extend the Service Now to Be Made If Adequate Protection Can Be Given—Some of the Old Employees Returning.

Chicago, Nov. 15.—Victory, temporary at least, was scored today by the management of the Chicago City railway against the striking employees. From early morning until dark tonight the company maintained a service on the Wentworth avenue line, which extended from the Seventy-ninth street to the downtown district, a distance of eight miles. Officials of the company say an attempt will be made tomorrow to operate some of the other lines of the system with non-union employees if the police department can supply protection.

Twenty-five cars in all were put into service today, but the schedule was frequently interfered with by delays caused by obstructions being placed on the tracks and through the inexperience of the men in charge of the cars. When night came on it was not considered safe to send more cars from the barn. More arrests were made during the day than on any day since the strike was declared. Most of the trouble was experienced between Twenty-second and Thirty-ninth streets, where crowds of men, women and children congregated and hooted at the railway employees who were passing. Barricades were piled upon the tracks, stones were thrown at cars and hand-to-hand conflicts between the police and crowds followed in several instances. Several patrol wagons which had previously been called were soon filled with prisoners.

"Our old employees are reporting back for work," said William A. Weatherwax, division superintendent of the road, tonight. This statement was supported by Police Inspector Hunt, who said: "I saw men I know to be striking union men reporting back during the day, and I learn on good authority that all the men on one of the cross-town lines have notified the company they are ready to return to work."

SEVERAL TIMES REPORTED DEAD.

Boris Sarafoff, Rebel Leader, Returns to Sofia from Macedonia.

Sofia, Nov. 15.—Boris Sarafoff, leader of the Macedonian revolutionists, arrived here last night and was received at the railway station by thousands of persons who brought laurel wreaths and flowers and acclaimed Sarafoff as a national hero. After patriotic speeches had been delivered, Sarafoff was borne on the shoulders of admirers to the house of his parents. Sarafoff thanked the crowd for their reception, declaring that the revolutionists were not only unconquered, but that their work was but now beginning.

Boris Sarafoff spent nine months in Macedonia. His life was one of constant peril, and he slept mostly in the open air. He went to Monastir with a band of sixty-eight men only eight survived. He has several times been reported killed.

Previous reports of a conspiracy of Bulgarian and Serbian officers to provoke war with Turkey have been officially confirmed. The minister of war has ordered the removal of 140 officers. Prince Ferdinand today opened the new sebanje and received a great ovation.

HEAVY FIGHTING. Forts at San Domingo Engage With the Insurgents.

San Domingo, Nov. 12.—[Delayed in transmission.]—There was heavy fighting here this morning. The forts around the city were engaged with the insurgents and there was considerable cannonading on both sides. The town was not damaged, and the situation is unchanged. The United States cruiser Baltimore arrived here this afternoon. Business is at a standstill.

American Demand Granted.

United States Minister Powell has finally carried his point against the Dominican government that it should agree to the provisions of the protocol regarding the San Domingo Improvement company. The government today informed the minister that it would grant his request, carrying out the provisions of the protocol and appointing arbitrators. This is considered a great victory for American interests.

Washington, Nov. 15.—Confirmatory information of the attack on San Domingo by the revolutionists reached the state department today in a dispatch from Minister Powell. He reported that revolutionists were attacking the city on three sides. There are no other details in Mr. Powell's cablegram.

FOUND DEAD IN BATH ROOM.

Apoplexy Kills Italy's Former Ambassador to Mexico.

New York, Nov. 15.—In the bath room of his home here was found today the body of Chevalier Luigi Petich, aged sixty-five, former ambassador of Italy to Mexico. He had been dead three days, and apoplexy is said to have been the cause of his death. Chevalier Petich was a man of many attainments as a scientist, inventor and scholar.

TODAY'S WEATHER.

Lewiston, Mont., Nov. 15.—Over twelve inches of snow have fallen on the level in Fergus county. Two locomotives are now cut deep in drifts within a few miles of Lewiston. The temperature tonight is five below.

DOWIE TELLS OF OFFERS.

Says Two Big Tracts Have Been Tendered as Sites for Cities.

Chicago, Nov. 15.—"I have just received an offer of 40,000 acres of land on which to build another Zion City, but the site must be kept a secret at present," said John Alexander Dowie, speaking in the tabernacle at Zion City today. "What is more," Dowie continued, "I have an offer of 10,000 acres of land within thirty-five miles of New York city for the same purpose."

KILLED IN STREETS.

Murder Follows a Dinner Party at St. Joseph, Mo.

St. Joseph, Mo., Nov. 15.—Irving McDonald, a wealthy young business man, was shot and killed today by J. F. Furlong, a traveling man of St. Louis. Furlong says his act was in self-defense, as he was assaulted by four men. The shooting occurred on a street and followed the visit of McDonald and Furlong, with Mrs. Lester Myrick and Grace Holt, of "The Governor's Son" company, and several other friends, to a cafe where the party had remained for several hours. The women are being held as witnesses and for investigation.

NEGRO FACES DEATH

INSANITY PLEA MAY NOT SAVE ASSASSIN OF A. H. GREEN.

Story Proves Tissue of Lies and He Is Formally Charged With Murder—All New York Stirred.

New York, Nov. 15.—Almost exactly twenty-four hours after the crime that has robbed New York of one of its greatest citizens, Cornelius M. Williams, the Negro assassin of Andrew H. Green, passed one stage on his way to the electric chair or the insane asylum. While the flags of the city were at half-mast in tribute to its slain benefactor a coroner's jury, after listening to the witnesses to the assassination, returned a verdict charging Williams with murder. Monday the grand jury will take up the same evidence and an indictment is sure to follow. The rest of the proceedings that will bring about justice according to the law will be rapid.

Williams' attorneys cling to the theory of insanity, the only hope of saving him from the electric chair, but even they doubt that if there is no reasonable doubt of the sanity of the slayer they will drop the case and leave him to the course of the law against murderers.

Horror Universal.

Few crimes have caused so much horror as the cold-blooded shooting of the venerable "father of Greater New York." At the house of sorrow thousands sought in vain to gain admission in order to gaze upon the body of the grand old man whose whole life had been devoted to the welfare of the city. Telegrams of condolence poured in upon the family, and it remains only for the consent of the family for New York to pay to the dead humanitarian the great tribute of a public funeral.

Before the coroner's jury the prisoner listened to the damning evidence without a trace of emotion, save for the constant twirling of his black derby hat. He was neatly dressed and looked as though he had spent a calm night, unharmed by the face of his victim. He listened attentively to the story of his crime, repeated again and again by the witnesses, and showed no signs of remorse as they told of the old man shot down in cold blood.

He gave no evidence of madness. He was calm and self-possessed, and apparently disinterested as to how the testimony might affect him.

Negro's Story False.

It has developed that the story told by Williams is a tissue of lies from beginning to end. The only truth that appears is the fact that he seized upon real characters to fill the cast for the tragedy that has appalled the city and thrown a shadow of gloom over all who were acquainted with the murdered man. Mr. Green seems to have been a victim of mistaken identity, but it does not appear that the woman, Bessie Davis, whom Williams declared was at the bottom of his troubles, ever enjoyed more than at least the most casual acquaintance with him. She was found and closely questioned by the police. Afterward Chief of Detectives McCluskey said: "From investigation and from an interview with the woman, this man's statement is a tissue of lies."

FIVE THOUSAND HANDS IDLE.

Trouble With Machinists Closes Shoe Factories at Quebec.

Quebec, Que., Nov. 15.—Twenty boot and shoe factories here have closed down, due to trouble with the machinists, who have refused to abide by their agreement creating a conciliation board. Five thousand operatives are affected.

MINERS VOTE AGAINST IT.

Proposition to Settle the Strike in Colorado Fails.

Louisville, Col., Nov. 15.—The official count today of the votes cast by the miners of the northern coal district last night reverses the decision and defeats the proposition for the settlement of the strike.

TWO TRAINMEN BADLY HURT.

Kent, O., Nov. 15.—In the overturning of the engine of a Wheeling & Lake Erie passenger train here today, Fireman Buris and Express Messenger Greenwood were badly hurt. The cars left the track, but the passengers escaped injury.

HEAVY SNOW IN MONTANA.

Lewiston, Mont., Nov. 15.—Over twelve inches of snow have fallen on the level in Fergus county. Two locomotives are now cut deep in drifts within a few miles of Lewiston. The temperature tonight is five below.

WARRANT SWORN OUT HERE.

W. B. Ash Arrested in Buffalo for Theft of Cash and Jewels.

Buffalo, Nov. 15.—Wilber B. Ash was arrested tonight when he stepped off a train. Ash is wanted for the alleged theft of \$2,000 in cash and papers and jewels worth \$2,250. The complainant is Charles N. Rapp of this city. The attorney representing Rapp has for the past few weeks been chasing Ash from one city to another in Wisconsin, Illinois and Michigan. He finally found Ash in Marquette, Mich., where a warrant was sworn out for his arrest.

DANES CELEBRATE.

King Christian Now on the Throne for Forty Years.

Copenhagen, Nov. 15.—Fetes were held throughout Denmark today in honor of the fortieth anniversary of King Christian's accession to the throne, the population everywhere rendering homage to the aged and beloved sovereign. Thousands of telegrams and addresses of congratulations, as well as gifts and flowers, have been received. Many messages came from the United States, among them President Roosevelt's hearty felicitations. The king is in excellent health.

LIGHT ON BIG GRAFT

LANT K. SALSBURY CONFESSES AT GRAND RAPIDS.

Involves Former Aldermen and City Officials in Water Scandal and Many Arrests Will Follow.

Grand Rapids, Mich., Nov. 15.—Lant K. Salsbury, former city attorney, has confessed to Prosecutor Ward the whole of his connection with the famous water scandal of two years ago in this city. More arrests of former aldermen and city officials are to follow. This announcement was made in the superior court yesterday when Salsbury appeared for sentence for accepting a bribe. Sentence was deferred until the December term, the respondent having promised to be a witness in other cases which are to be brought. The prosecution has not yet announced what arrests will be made.

A prominent official who is in close touch with the prosecution stated that the developments in the water scandal are to be of so sensational a nature that they would make this case the worst of the kind in the history of the nation, not even excepting the St. Louis scandal. After court adjourned, Salsbury said: "If I have told anything, I told all. Since I came home I have rather given out. I don't know whether my nerve has failed me or what it is."

Salsbury only a few days ago finished a two-years' sentence at the Detroit house of correction on a charge of accepting a bribe and greater pressure has been brought to bear on him by his friends who wanted him to minimize his further punishment by making a confession.

WILL BE PASSED THIS WEEK.

House to Send the Cuban Bill to the Senate on Friday.

Washington, Nov. 15.—It is the intention of the senate leaders to confine as closely as possible the legislation of the present extra session to the bill to carry into effect the Cuban treaty, and with that end in view the daily sessions of the senate during the present week will be brief and another adjournment will be taken Thursday or Friday until the following Monday. It is well understood that Senator Morgan is prepared for a prolonged discussion of the situation on the isthmus of Panama. While he seems not to have taken any one into his confidence, the general supposition is that he will defer his speeches until the new canal treaty shall be sent to the senate. It is expected that the Cuban bill will be received from the house on Friday, and it is probable that a session will be held on that day in order that the bill may be referred to the committee on foreign relations, which will begin its consideration at once.

The bill making effective the Cuban reciprocity convention reported by the House and means committee will be taken up in the house tomorrow and disposed of on Thursday. It is probable that it will be sent to the senate on Friday. The rule cutting off amendments will be opposed in order that an amendment may be offered striking out the differential on refined sugar and eliminating the five-year clause. The resolution passed made it the sense of the caucus that the Democratic members should vote for the bill either "upon the adoption or rejection of the amendment."

JEALOUS HUSBAND KILLS.

Finds Wife Talking to Man and Forthwith Cuts Latter's Throat.

Bradford, Pa., Nov. 15.—William P. Peaseley this evening found his wife and John Beardsley talking at a railway station. He cut Beardsley's throat and Beardsley died within a few minutes. Peaseley gave himself up.

SIoux City, Ia., Nov. 15.—James Dunn, a saloon keeper, today fatally shot his wife and then killed himself. Dunn's wife had refused to live with him.

JOINT CAPITAL \$71,000,000.

Two Leading German Banks Arrange a Consolidation.

Berlin, Nov. 15.—The Dresdener bank and the Schaaffhausen Bank Verein have arranged a combination, to continue thirty years, beginning January next. The reserve funds of the two banks amount to \$13,500,000 and their joint capital to \$71,000,000, thus making their union the strongest aggregation of banking capital in the world, except the Bank of England.

KAISER PERMITTED TO WHISPER.

Berlin, Nov. 15.—A bulletin issued today regarding the condition of Emperor William says the wound in the throat is nearly healed and that the emperor has been permitted to whisper freely since yesterday.

HOPES TO APPEASE THE ISTHMIANS

COLUMBIA SENDS ENVOYS TO PANAMA WITH FULL POWER TO EFFECT A SETTLEMENT.

MISSION WILL BE IN VAIN

STATED NO TERMS FROM BOGOTA WILL BE CONSIDERED.

Is No Indication an Army Has Been Dispatched to Invade the Seceded Territory, Nor Would It Be Permitted to Land.

Bogota, Colombia, via Buena Ventura, Nov. 15.—Generals Reyes, Holguin and Ospina have left here for Panama on a diplomatic mission with full powers to offer the isthmians a satisfactory treaty and such other concessions as may bring the isthmus back to the Colombian union. It is expected that amicable arrangements will be made, and such are heartily desired here.

Revolution Threatens.

Washington, Nov. 15.—A revolution in Colombia is not impossible, according to the opinion expressed in a dispatch to the state department today from United States Minister Beaupre, at Bogota. The cablegram was dated Nov. 12, and at that time Mr. Beaupre described the feeling in Bogota as panicky. Mr. Bunau-Varilla, minister from Panama, continued his efforts today to secure recognition of the new government by European nations.

Excitement at Colon.

Colon, Nov. 15.—The overture German steamer Scotia arrived from the coast at sundown today, flying the Colombian flag. Cutters from the United States auxiliary cruiser Dixie are plying to and from the Scotia, which has no communication with shore. There is great excitement, as it is stated that General Reyes and his staff are aboard the vessel. When the Scotia anchored twenty marines from the cruiser Dixie were landed here.

Threatened Invasion Ridiculed.

Panama, Nov. 15.—President Marroquin's statement as conveyed in a cablegram to General Plaza, president of Ecuador, that Generals Reyes, Caballeros, Ospina and Holguin are now marching on the isthmus to "suppress the isthmian traitors," has set the entire population of the isthmus laughing. Protected by the impenetrability of the land and the many leagues of coastline separating the isthmus from Colombia, and confident that the United States intends to prevent the landing of Colombian soldiers from the isthmus, the isthmians view their security as absolute.

The growing feeling against President Marroquin is believed to be due to the fact that he did not show sufficient determination to effect the ratification of the canal treaty, which would have saved the isthmus to Colombia, and because he appointed General Obaldia, governor of the department of Panama after Obaldia had declared he would remain Colombian if the treaty were ratified but that otherwise he would only be a Panamanian.

The revenues of the new republic, if economically administered, promise to meet all expenses. The government of the new republic, realizing the necessity of keeping the army contented, is paying the soldiers promptly. No proposition from Colombia, other than one involving recognition of independence, would, it is stated, be entertained.

General Obaldia appeared on the streets of Panama yesterday for the first time since Nov. 3, when the independence of the isthmus was proclaimed. He was greeted cordially by friends and acquaintances.

Consul Guider Arrives.

United States Consul Guider arrived here this evening. He was met at the railway station by a great number of persons, including the members of the provisional government, army officers and others. General Obaldia was among those present. Mr. Guider returned thanks for the reception and said that he and Rear Admiral Walker would call upon the members of the junta tomorrow.

NO ARMY ON THE WAY.

Report of Colombian Invasion Is Not Credited at Washington.

Washington, Nov. 15.—The state department has no knowledge of the marching of an army from Colombia upon the isthmus, and the officials state that were any such movement in progress it would certainly be informed by its agents in the south, the cables being still open. These officials scout the idea that any such march is in progress as the president of Colombia is reported to have described to the president of Ecuador.

It is assumed here that the "army" said to be marching on Panama was nothing more than the few men, perhaps 500 all told, who were about to embark at Buena Ventura a few days ago when they were turned back from the isthmus by notice of the determination of the United States naval commanders to allow no landings in that quarter. These troops cannot reach the isthmus by water and the officials here are positive that they cannot do so by land. The character of the country is such that there is no subsistence for an army on the route of the wild mountain trails and the passages through the morasses that lie between Colombia proper and the isthmus. Even if there were subsistence, the trails are so rough that it would require many weeks or even months for even a small army to make the journey.

Uncle Sam to Protect Isthmus. But there are more than physical obstacles in the way of the approach of an army upon Panama. The officials do not care to express publicly their plans.

(Continued on Page Four.)

A CRAZY MAN

FOUND EATING AN EGG, SHELL AND ALL.

Rational people thought it was awful, as the shell had no food value, and was, of course, indigestible and injurious.

It is just as crazy for rational people to swallow a lot of cod liver oil, to get the medicinal curatives from it, as it was for the crazy man to eat the egg, shell and all.

Modern science has proved that the oil, or gross part of cod liver oil has no value whatever, and only upsets the stomach and retards recovery.

The medicinal elements which are enveloped in the cod liver oil, of which there are about fifty, that represent all the tonic and curative power of the famous old remedy.

A preparation containing all the medicinal curative elements of cod liver oil, actually taken from fresh cods' livers, but entirely free from the oil, or grease, work, therefore, the very best tonic, reconstructer possible.

Knowing its wonderful medicinal and curative power, we guarantee to restore health and strength to the following or refund their money without question: Run-down, debilitated, tired, over-worked people; old people, weak women, nursing mothers, puny, ailing children, neurasthenics, or to people suffering with hard colds, hacking coughs, incipient consumption and bronchitis.

It never fails to make rich, red blood and give strength to the weak and health to the sick. Try it on our guarantee. If it doesn't do you any good it won't cost you a cent. The Stafford Drug Co.

The Tender and Juicy Kind...

of motion chops, the kind that always greets the eye in Haden's butcher shop. We know where to buy carefully and generally feed well, and how to handle the best of the best results. This combination assures you just what you're looking for—sweet, wholesome, tender, juicy meat chops—if you place your meat orders with us. We also have fresh killed spring turkeys, chickens, ducks and fowls.

FRANK W. HATHWAY'S PALACE MEAT MARKET.

GUNS, RIFLES, AMMUNITION

Loaded Shells, all sizes, 10, 12, 14, 16, 20, 24 gauge. Shell Bags, Rifle Cases, Cartridge Belts, Hunting Knives and Cleaning Rods. Foot Balls, Indoor Baseball Sets and other Sporting Goods.

B. NEIDHART & CO.

Hardware and Sporting Goods. Front St. Marquette

N. M. KAUFMAN, President. E. N. BREITUNG, Vice President. S. R. KAUFMAN, 2nd Vice President. GEORGE BARNES, Cashier. W. B. MC COMBS, Assistant Cashier.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$3.50. Per year, by mail, \$36.00.

MARQUETTE, MICH., NOV. 16.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Joe Chamberlain might have enumerated the names of the Tammany district leaders to accent his point, but he was, apparently, too kind.

"Somebody will be proposing Mr. Cannon for the presidency pretty soon," says the Chicago Chronicle. Perhaps it would be well to wait until the end of the short session at least. Give Mr. Cannon a chance to get a reputation in his new job.

The important question of the upper peninsula football championship now being settled, we can all tend to business again, while the coaches of a number of notably successful high school teams begin casting their eyes about for another crop of 170 pound freshmen.

The St. Louis Republic says signs are multiplying that the Democracy will be victorious in the presidential election next year. There is always a Democratic haze in the air in Missouri, and predictions of Democratic national victories carry more weight when they come from somewhere else.

Secretary Wilson, of the department of agriculture, will visit the lower part of the state the latter part of the month to inspect the sugar beet industry and the numerous factories. His itinerary will not bring him into the upper peninsula, so this region will have to reserve its hospitality for another time.

The current issues of the Manistiquette papers, as far as their editorial columns are concerned, are uninteresting to a degree. The fight over the office of judge of probate has been settled by Governor Bliss's action in naming Supervisor Rockwell for the place, and for the time being the Manistiquette publications are at a loss for anything to quarrel about.

It seems a pity that after a life spent up to date without a single concession to sensationalism, and one that has compelled the respect of every American man and woman, Miss Helen Gould should be exploited in a party in an international marriage with a man whom she avows she has never seen. Verification of these reports before printing would be a beneficial thing for the country at large and particularly for the individuals involved.

Detroit has practically withdrawn from the fight for the Republican national convention. It looks as though Chicago would get the plum when the national committee meets on the 11th of next month. It is centrally located, has abundant hotel facilities and the Coliseum is admirably suited for the meeting of the delegates. Other cities mentioned are Pittsburg, Omaha and Cleveland, but it is not believed when it comes to the show down that they will be very much in the race.

The news regarding the reciprocity treaty is encouraging. The clouds are clearing away and it is reported from the capitol that the indications favor its passage before the adjournment of the special session. The influence brought to bear in its favor has not been without result, and it is hoped to reach a vote on it in the house by Wednesday. It is conceded in advance that this vote will be favorable. The senate will surely not be outdone by the house in honoring this debt against the national honor.

Representatives Smith, Fordney and Hamilton, who had been having such a spirited debate as to who was entitled to the place on the ways and means committee which it was assumed would be given to the Michigan delegation, are all out in the cold, because Speaker Cannon passed them by in his plum raffle. It is reported that the reason lies in their fractiousness on the Cuban reciprocity question. Its a good deal of a joke, because the trio's concern was solely as to which one of their number was going to land the prize. It is, of course, particularly rough on William Alden.

The row between State Game Warden Chapman and the state fish commission will likely prove a good deal of a tempest in a teapot. The present bunch of state officials do not seem to be a very harmonious lot. As soon as one of their number gets into a difficulty, legal or otherwise, the rest seem to take delight in making the predicament as bad as possible; witness, the attitude of two of the tax commissioners toward the attorney general's railroad suits and now

as the value of other products appears to, and there is ground for the workman's complaints. Nevertheless, a strike for higher wages at this time, or for anything that will increase the cost of production is pretty sure to fail, simply because employers cannot increase the cost of production safely in the face of a falling market.

The New York Post in discussing the financial and business outlook calls attention to an analogy between the conditions encountered by capital and those often met by labor which is often overlooked. The manner in which stocks were advanced and the ease with which any kind of security was marketed during the Wall street boom is compared with the ease with which labor during the past year was able to secure almost any sort of demand. A movement to secure higher wages now is like starting out to buy stocks just prior to the panic of May 9, 1901. That was not the time to buy stocks, and now is not the time to start labor strikes. The man who did the first is now suffering from it, and the union which does the second will suffer from it by and by. "Even the best of securities have had slitting in times of financial depression. The lack of buyers frequently sends them below their normal value and keeps them there for a long interval; and labor cannot hope to escape a similar fate in periods of industrial reaction."

The tin boxes in which securities are kept have suffered severely from the effects of mistakes and misguided judgment, and labor should be careful that the tin pail does not suffer in the same manner from similar causes.

There seems to be a unanimity of opinion that the statute providing for the punishment by fine or imprisonment of men who accidentally kill hunters is a fool law and one calculated to aggravate rather than help the situation. It is claimed that if enforced, would have the effect of leading to the desertion of strikers hunters, in order to avoid arrest on a criminal charge. Anyway there is the question of its utility. It is generally agreed that it would be hard to secure a conviction because a conviction would be the equivalent of calling an accident, pure and simple, something else, another case of calling black white. Numerous plans are suggested by ingenious buglers for accomplishing what the law was designed to do, namely, curtail the number of cases of accidental shooting. Nearly all embody good ideas, and some look practical. Nevertheless it is too much to expect that any definite changes will follow the discussions. However, they are calculated to impress hunters with the necessity of greater caution while out after game, and thus are not without usefulness.

Senator Burrows, of Kalamazoo, is looking after the interests of the rural mail carriers among his colleagues during the present session. He has already introduced a bill providing for allowing them a flat salary of \$900 a year, a third more than they are now receiving, and also permitting them to carry express packages when such work will not interfere with their regular duties, thus in some cases providing a source of a little additional income. The city carriers are not being overlooked either. Representative Sulzer of New York has introduced in the house a bill in their behalf providing that on and after June 30, 1904, in cities of more than 75,000 population the pay of letter carriers for the first year shall be \$600; for the second year \$800; for the third year \$1,000 and for the fourth year and thereafter \$1,200. In cities under 75,000 it is proposed to make the allowance for the first year \$500; for the second year \$600; for the third year and thereafter \$1,000. Both these bills are said to possess merit. That of the first is beyond debate and generally admitted. However city carriers may fare, there is said to be no doubt that the rural carriers will be granted the desired increase.

A report from Ohio says that at the coming session of the legislature local bills will be enacted for Cleveland that will "clip the wings" of Mayor Tom Johnson. The Ohio legislature will be Republican by a large majority and if the desire be present there is no sort of doubt but that almost any kind of bills desired can be put through. Some satisfaction of a personal nature may be gained by the promotion of such legislation; but members should study carefully the probable effect before carrying such plans through. "Ripper legislation" is not popular with the people, nor does it permanently strengthen the party in power. The people believe in fair play, and fair play is not the principle upon which ripper legislation is based. When local laws are changed for the avowed and transparent purpose of giving one party an advantage, public sentiment is far more apt to resent it and to express its resentment at the polls than to approve. The control of the patronage may be an important factor in local politics, but still more important factors are honesty and fairness. The Ohio legislators will make a mistake if they carry their desire for vengeance upon Tom Johnson to such an extreme.

Doctors have preached against it, Brit fishers have written scathing articles about it, wives and mothers have crusaded against it—and yet the deadly "hurry-up lunch" marches on.

The fascinating doughnut, the alluring "sinker," the irresistible triangle of fondry pie, washed down by gulps of cold milk or hot coffee or iced water, continue on their death ray to the stomachs of thousands and thousands of America's hustling, capacious, world-conquering business men.

In all probability we will be unable to wipe out the "hurry-up lunch" for many years to come, but we can at least combat the evils wrought by the practice. Our recipe is simple, economical and effective. Buy a package of Rexall Dyspepsia Tablets; carry them in your pocket; and as the last gulp of milk chases the last chunk of refractory pie down your esophagus, swallow one tablet. Rexall Dyspepsia Tablets prevent and cure stomach trouble by supplying the one element, the absence of which in the gastric juice, causes indigestion and dyspepsia. They enable the stomach to digest all kinds of food and to quickly convert it into rich, red blood.

Our proposition is not merely to sell you dyspepsia tablets, but to sell you a cure for your dyspepsia and indigestion. If Rexall Dyspepsia Tablets do not effect this cure, we give you back your money. That shows how much confidence we have in this new remedy. Price 25 cents per large package. Sold only at our store or by mail.

BEWARE OF PIE AND SINKERS

Hurry-Up Lunches Pave the Way For Years of Suffering.

Doctors have preached against it, Brit fishers have written scathing articles about it, wives and mothers have crusaded against it—and yet the deadly "hurry-up lunch" marches on.

IN TIME OF REACTION.

The coal miners' strike in the West, the strikes in the building trades in a number of cities, and the labor troubles in Chicago and other quarters cannot but arouse regret in business circles. It is a somewhat trying time just now in a good many branches of industry. While there is no prospect of marked industrial depression, it is a time which calls for the most careful management on the part of all industrial concerns. Every strike accentuates the difficulties of the situation, and the setting effect. There is very much to excuse labor for its attitude and to justify its desire for greater compensation. It is a fact that in an advancing market the wage of labor is about the last thing to go up, and that it responds more quickly to a fall in values than to a rise. The post of living does not seem to yield as readily to the downward tendency of prices

as the value of other products appears to, and there is ground for the workman's complaints. Nevertheless, a strike for higher wages at this time, or for anything that will increase the cost of production is pretty sure to fail, simply because employers cannot increase the cost of production safely in the face of a falling market.

The New York Post in discussing the financial and business outlook calls attention to an analogy between the conditions encountered by capital and those often met by labor which is often overlooked. The manner in which stocks were advanced and the ease with which any kind of security was marketed during the Wall street boom is compared with the ease with which labor during the past year was able to secure almost any sort of demand. A movement to secure higher wages now is like starting out to buy stocks just prior to the panic of May 9, 1901. That was not the time to buy stocks, and now is not the time to start labor strikes. The man who did the first is now suffering from it, and the union which does the second will suffer from it by and by. "Even the best of securities have had slitting in times of financial depression. The lack of buyers frequently sends them below their normal value and keeps them there for a long interval; and labor cannot hope to escape a similar fate in periods of industrial reaction."

The tin boxes in which securities are kept have suffered severely from the effects of mistakes and misguided judgment, and labor should be careful that the tin pail does not suffer in the same manner from similar causes.

There seems to be a unanimity of opinion that the statute providing for the punishment by fine or imprisonment of men who accidentally kill hunters is a fool law and one calculated to aggravate rather than help the situation. It is claimed that if enforced, would have the effect of leading to the desertion of strikers hunters, in order to avoid arrest on a criminal charge. Anyway there is the question of its utility. It is generally agreed that it would be hard to secure a conviction because a conviction would be the equivalent of calling an accident, pure and simple, something else, another case of calling black white. Numerous plans are suggested by ingenious buglers for accomplishing what the law was designed to do, namely, curtail the number of cases of accidental shooting. Nearly all embody good ideas, and some look practical. Nevertheless it is too much to expect that any definite changes will follow the discussions. However, they are calculated to impress hunters with the necessity of greater caution while out after game, and thus are not without usefulness.

Senator Burrows, of Kalamazoo, is looking after the interests of the rural mail carriers among his colleagues during the present session. He has already introduced a bill providing for allowing them a flat salary of \$900 a year, a third more than they are now receiving, and also permitting them to carry express packages when such work will not interfere with their regular duties, thus in some cases providing a source of a little additional income. The city carriers are not being overlooked either. Representative Sulzer of New York has introduced in the house a bill in their behalf providing that on and after June 30, 1904, in cities of more than 75,000 population the pay of letter carriers for the first year shall be \$600; for the second year \$800; for the third year \$1,000 and for the fourth year and thereafter \$1,200. In cities under 75,000 it is proposed to make the allowance for the first year \$500; for the second year \$600; for the third year and thereafter \$1,000. Both these bills are said to possess merit. That of the first is beyond debate and generally admitted. However city carriers may fare, there is said to be no doubt that the rural carriers will be granted the desired increase.

A report from Ohio says that at the coming session of the legislature local bills will be enacted for Cleveland that will "clip the wings" of Mayor Tom Johnson. The Ohio legislature will be Republican by a large majority and if the desire be present there is no sort of doubt but that almost any kind of bills desired can be put through. Some satisfaction of a personal nature may be gained by the promotion of such legislation; but members should study carefully the probable effect before carrying such plans through. "Ripper legislation" is not popular with the people, nor does it permanently strengthen the party in power. The people believe in fair play, and fair play is not the principle upon which ripper legislation is based. When local laws are changed for the avowed and transparent purpose of giving one party an advantage, public sentiment is far more apt to resent it and to express its resentment at the polls than to approve. The control of the patronage may be an important factor in local politics, but still more important factors are honesty and fairness. We Will Buy

A 50c. Bottle of Ligozone and Give it to You to Try.

Ligozone—liquid oxygen—is the only product that can kill germs in the body without killing you. No man knows any other way to destroy the cause of any germ disease.

It is new to America, and millions who need it don't know of it. For that reason we make this remarkable offer. We will buy the first bottle and give it to you if you need it. We will do it willingly, gladly, to convince you at once and forever that Ligozone does kill germs.

We Paid \$100,000

For the rights to Ligozone for the United States. We tested this product for years in the most difficult germ diseases; then we bought these rights for the highest price ever paid for a scientific discovery.

We paid that price because Ligozone does what all the skill in the world cannot do without it. Any drug that kills germs is a poison to you and it cannot be taken internally. The best physicians, the world over, employ Ligozone alone for germ troubles; and any physician who doesn't is almost helpless in any germ disease.

Just Oxygen.

Ligozone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Pauli, the great German chemist, who spent 20 years on it. His object was to get such an excess of oxygen in staple

other day in regard to the incident, Mr. Gaynor said that if the hammer is not going yet it must have certainly gone in another state as it did not land anywhere in the county. The drummer got his board free and it was only a few days before Mr. Gaynor's hair had turned snow white.

Old Record Dug Up

As the result of a dispute as to whether the probate office or the office of the register of deeds has possession of the oldest records of official transactions in Chippewa county, some of the members of the office force made an investigation. The discovery was interesting and shows that the offices commenced doing business at about the same time. The first record in the register's office, as far as can be learned, was made in 1827 and a book in the probate office shows under the name of the judge the date of 1826. The first record in the book known as the probate book was made July 14, 1827. The first deed to be recorded was of property transferred from Elizabeth Saden to Antoine Gingross. The description of the property states that it comprised a lot 40 by 50 feet in dimensions, lying adjacent to a kitchen owned by D. S. Jones. The line of boundary started at the kitchen. The consideration in the deed was \$140. This record was made July 14, 1827. James L. Schockcraft was register of deeds at the time. The oldest deed of property transferred from Captain William Doyle of the Twenty-fourth regiment to John Johnson, July 1, 1792. The deed was registered Jan. 16, 1846. At that time Peter Barbas was register.

MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower restores the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles 25c; regular size, 75c. Stafford Drug Co.

form into the blood that no germ could live in any membrane or tissue. Ligozone does that. The results are so certain that we publish on every bottle an offer of \$1,000 for a germ that it cannot kill. Yet oxygen is Nature's greatest tonic—the very source of your vitality. Its effects are exhilarating, purifying, vitalizing. But germs are vegetable, and this excess of oxygen—the very life of an animal—is deadly to vegetable matter. We spend 14 days in making each bottle of Ligozone, and the result is liquid oxygen—the best thing in the world for you, yet certain destruction to disease germs, wherever the Ligozone-laden blood goes.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

My disease is: I have never had Ligozone, but if you will supply me a 50c. bottle free I will take it.

1 3 A

Any physician or hospital not yet using Ligozone will be gladly supplied for a test.

Copper Country Department

THINKS BONES HER HUSBAND'S.

North Dakota Woman Writes Concerning Skeleton Recently Found.

Mrs. Kate Soule of Harvey, N. D., believes that the skeleton of the man recently found in a field near the canal by a farmer is the remains of her husband, who has been missing for over three years. In a letter to local authorities she states that Soule came to the copper country three years ago and that up to that time she heard regularly from him. The letters suddenly ceased and since then his whereabouts have been unknown to her. She all along has feared that something had happened to him, and found upon reading an account of the discovery of the skeleton that the description of a man who was given food and shelter by canal residents about three years ago and whose bones they are believed to be, tallied with that of her husband. According to witnesses at the inquest, there were in question showed signs of temporary insanity. He called at several farms on Thanksgiving Day, 1900, and was given food. He acted very queerly and had it not been for the fact that he disappeared soon after he would have been taken to Hancock and turned over to the authorities.

The woman gives a detailed description of her husband, but there was nothing about the remains to prove their identity. All possible means of identification had been wiped away by long exposure to the weather. What Mrs. Soule believed would be a sure test of identification was that her husband had two teeth on the left side of the jaw bridged in with gold. Undertaker John D. Crawford of Hancock, who prepared the bones for burial, said yesterday that all of the teeth had dropped out and that none were found. Not enough of the clothing was left to distinguish its color or texture. Mrs. Soule also states that her husband carried two photographs of herself and two children, but there was anything of the kind on the remains the postcard crumbled away with the rest of the effects. The height of the man was given as five feet ten inches, and this is the only thing that might tally with the skeleton. There is absolutely nothing to determine identity by means of the bones. Residents at the canal are confident that the skeleton is that of the unknown man whom they saw wandering about three years ago. It was from their description of him that led Mrs. Soule to believe that he was her husband. The mystery of her husband's disappearance probably will remain unsolved, so far as the skeleton found at the canal is concerned.

STRUCK BY BULLET.

Houghton Boy Wounded While Hunting Near Nestoria.

Allie Nichols, son of Ed Nichols, proprietor of the Michigan House at Houghton, was struck in the right hand by a bullet fired by some unknown hunter while hunting in the woods near Nestoria late Friday afternoon. His fingers were badly lacerated and it may be necessary to amputate them. He fainted when shot, but upon recovering managed to get to Nestoria, where his wound was dressed. He boarded the train for Houghton and arrived in the evening. Whether he was mistaken for a deer or whether it was a stray bullet that struck him is not known. If the former case, the man who did the shooting made himself scarce without making his identity known and without attempting to aid his victim. Seeing the boy in a faint, he probably thought he had either killed or seriously wounded him, and thinking of the possibility of such a crime made from the spot as fast as possible.

LIKE THE LARSON MURDER.

Steamer Peerless Again Figures in a Mysterious Death.

The steamer Peerless, of the Lake Michigan & Lake Superior Transportation company, a frequent visitor at Portage Lake points, is again figuring in a mystery involving the death of one of its crew. It will be remembered that last winter the body of a woman named Carrie Larson was found near the place where the boat was tied up in Chicago. It was subsequently proved the woman had been murdered aboard the vessel and guilt fastened on Louis Coombs, one of the crew, who later was convicted. On Friday last the body of a man named Nikula, a member of the crew, was found in the water near the boat. It is thought that he was murdered aboard the steamer and that his body was thrown overboard, but as much mystery surrounds the case as that which first baffled the police in the Larson murder. The Peerless only recently went into winter quarters at Chicago. She stopped at Portage Lake on her last trip a short time ago.

OFFICIALS MAKE DENIALS.

Officials of the Bloy-Richards Manufacturing company, organized at Calumet last year to put a patent stair rod fastener invented by William Richards of Calumet on the market, state that the reports to the effect that the company is financially embarrassed and is likely to go under unless stringent means are taken to prevent it, are misleading. Like all other new corporations due allowance must be made for the handicaps usually encountered during the first few years of organization. Although not flush with cash, officials of the company deny that there is any friction among the directors. Secretary William Richards is in Boston, the present headquarters of the company, pushing business for the firm. There are great possibilities for the ultimate success of the corporation, but none of the stockholders should expect dividends until that time is reached. Until then it is believed the company can get along very well with the cash available providing some stockholders do not "knock" too hard. No sacrifices on the part of the stockholders have been necessary to date. The prospects look good and if the stockholders do not get dissatisfied it is believed the success of the company is assured.

HE COULD HARDLY GET UP.

P. H. Duffy of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold at Desjardins' Pharmacy.

SPALDINGS COMING.

Chicago's Crack In-door Ball Team to Play at Houghton.

The Spaldings of Chicago will cross bats with the Houghton Light Infantry indoor baseball team in the Amphitrome on Thanksgiving Day evening. Secretary Mac Haas, of the local team, says that the terms named by the Chicago aggregation. He acted for the Amphitrome management, which will pay all expenses and give the visitors part of the net receipts. The Duluth trip contemplated by the Houghton team has been postponed until a later date. The locals indulged in their first practice yesterday and expect to be in good trim by Thanksgiving. Will Mutter of Hurontown probably will do the catching this year while Johnnie Mackin of Dollar Bay may play one of the short-stop positions. The Spaldings played at Houghton last winter, breaking even in the series. They are looked upon as one of the best indoor baseball aggregations in the country.

SAD CASE AT HANCOCK.

Mother and Seven Children Found in Desperate Circumstances.

A case of a family in desperate circumstances came to the ears of charitably inclined Hancock people Saturday. Mrs. Ed. Bondet, living at the corner of Hancock street and Railroad avenue, in West Hancock, and her seven children were found sorely in want of food and clothing. Steps were immediately taken to supply them with the necessities of life. Businessmen sent groceries and charitable women called at the house and brought clothing. The house was found scantily furnished and with the usual comforts. Although the family has been helped more or less by the neighbors in that vicinity, Mrs. Bondet, too proud to appeal to the public, suffered in silence, doing as much outside work as possible to provide bread for her little ones. It was not until the latter part of the week that the real state of affairs in the little home became generally known. The oldest child is about nine years.

Mrs. Bondet's lot in life since she has been married has been sad. When fifteen years of age she was wedded to Ed Bondet and for a time they lived happily together. He had a good position with the Mineral Range Railroad company, but he took to drink and lost his position. He left his wife five years ago and during his absence Mrs. Bondet was supported by her father, a hard working man who later died. Bondet returned after two years, but again left, eloping, it is said, with another woman. His present whereabouts are unknown. The family will be looked after, now that its destination is known. Mrs. Bondet will be given a small sum of money for the children will be provided for. A subscription list is being circulated by Hancock young men to raise money for the family.

LEGALITY QUESTIONED.

Some Calumet merchants question the legality of the ordinance providing that outside firms pay a license fee to do business in town. The case brought by D. Horwitz, the local furrier, against E. Reckmeyer of Milwaukee, has created considerable interest in business circles. The case is set for January on the occasion of Mr. Reckmeyer's next visit to this region, and the outcome will be curiously awaited. The Milwaukee house undoubtedly will put up a strong defense, although Mr. Reckmeyer in conversation with a Mining Journal man shortly after he was arrested stated that he was undecided at that time whether to fight the case or not. If the case is decided against him, it practically will mean that all outside houses selling goods from stock in Calumet hereafter will have to pay the license prescribed by the ordinance. There is no question that an ordinance of the kind works for the benefit of local merchants if held constitutional.

MARCH'S HEARING THIS WEEK.

Albert March, ex-village clerk of Red Jacket, who was arrested in Cleveland and brought back to the copper country several weeks ago, will be brought into Justice Curtis' court at Calumet some day this week for a hearing. At the time of his arrest he was in a bad condition physically and his examination was postponed. He has now recovered, and the proceedings brought against him by his bondsmen will be taken up. Prosecuting Attorney Larson will look after the case for the people, the charge being embezzlement, and Attorney A. L. Peckerman will defend March. Since his arrest March has been out on bail.

HANCOCK TEAM AGAIN WON.

The Houghton High school football team was defeated for the second time this season by the Hancock High school eleven at the Hancock Driving Park Saturday afternoon. Although Houghton played a hard game it was unable to withstand the onslaughts of Joe Linder and Wasara through its line and it went down in defeat by a score of 27 to 0. A small crowd saw the match. Hancock made five touchdowns and a safety.

SCOTT'S EMULSION

makes pale, thin children fat and chubby. Overcomes wasting tendencies and brings back rosy cheeks and bright eyes.

It's surprising how quickly children respond to Scott's Emulsion. It contains just the element of nourishment their little bodies need. They thrive on it.

Even a few drops in the baby's bottle have a noticeable effect for good. Nothing better than Scott's Emulsion for growing children.

We'll send you a sample free upon request.
SCOTT & BOWNE, 409 Pearl Street, New York.

MANY BOATS SOUGHT SHELTER.

Fierce Storm Raged Off Keweenaw Point Late Last Week.

A severe northwest storm which began last Thursday continued with unabating fury until an early hour yesterday morning, when boats were again unable to venture out into the big lake. At the canal and the entry the waves ran high. Boats near the canal ran for shelter as there were a score of them in the Lily pond. The wind blew at the rate of twenty-five miles an hour. As far as could be learned no accidents occurred in this vicinity. The sight at the canal was a magnificent spectacle. The breaking of the oncoming waves, which appeared as if they would sweep everything before them, afforded a panorama that excited the admiration of those who saw it. The entire west pier was lured in the sea.

Boat captains are very cautious these days. They are not taking any long chances, but are venturing out only when there is no immediate danger from severe blows. Storms of the kind that raged last week will be frequent from now on until the close of the season. It was remarked by local marine men yesterday that vessel captains and their men are earning their wages these days. Most of the severe winds are accompanied by snow flurries which make the gales doubly uncomfortable.

Largest Boat Passes Through.

The Isaac L. Elwood, of the United States Steel corporation fleet, passed through Portage lake Saturday morning, heading a procession of large boats that followed at intervals during the day. The Elwood is the largest craft that has ever used the local canal. She is twenty feet longer than any vessel that ever went through previous to Saturday. Her length over all is 498 feet. The length of her keel is 478 feet, while in beam she measures fifty-two. She has fifteen hatches. She was on her way to the head of the lakes, light, and probably will lay up at one of the upper ports for the winter.

News came Saturday that the steamer Smith was picked up in a disabled condition near Devil island by the Mohawk, of the Western line. The boat was towed back to Duluth. She was damaged during the storm here. The pressure cylinder head was blown out and when the Mohawk came upon her she was drifting helplessly.

LOW RATES TO CHICAGO.

A rate of one fare for the round trip to Chicago is announced by the Northwestern road for the benefit of those who wish to attend the Michigan-Chicago game to be played on Marshall field on the afternoon of Thanksgiving Day. The tickets will be on sale Nov. 25 and will be good to return until Nov. 27, inclusive. Extra returns will be provided. Berths can be reserved at once through E. C. Griffin, general agent at Houghton. He also will secure tickets at the game for a large party. From what can be learned, a large party country delegation will see the match, which will be one of the all important struggles on the gridiron this season.

FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: A neighbor of mine had a child just over two months old and he had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some on the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and high praise to the remedy. Since his illness Stafford Drug Co., J. M. Perkins, Negaunee, and Henry Harwood, Ishpeming.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

W. A. Herren of Finch, Ark., writes,

"I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors had given up." Sold at Desjardins' Pharmacy.

CRUSHES OUT THE LIFE

The most loathsome and repulsive of all living things is the serpent, and the vilest and most degrading of all human diseases is Contagious Blood Poison. The serpent sinks its fangs into the flesh and almost instantly the poison passes through the entire body. Contagious Blood Poison, beginning with a little ulcer, soon contaminates every drop of blood and spreads throughout the whole system. Painful swellings appear in the groins, a red rash and become ulcerated, and the hair and eye brows fall out; but these symptoms are mild compared to the wretchedness and suffering that come in the latter stages of the disease when it attacks the bones and more vital parts of the body. It is then that Contagious Blood Poison is seen in all its hideousness. The deep eating abscesses and sickening ulcers and tumors show the whole system is corrupted and poisoned, and unless relief comes soon this serpent disease tightens its coils and crushes out the life. The only antidote for the awful virus is S. S. S. It is nature's remedy, composed entirely of vegetable ingredients. S. S. S. destroys every vestige of the poison, purifies the blood and removes all danger of transmitting the awful taint to others. Nothing else will do this. Strong mineral remedies, like mercury and potash, dry up the sores and drive in the disease, but do not cure permanently. Send for our home treatment book and write us if in need of medical advice or special information. This will cost you nothing.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

COPPERDOM BREVITIES.

John Stanton left for the East Friday afternoon. A regular meeting of Houghton Lodge, F. & A. M., will be held this evening.

Mrs. John MacNaughton of Calumet has returned from a six weeks' visit in Chicago and Cincinnati.

Avery T. Hanson of Milwaukee, formerly of Calumet, is in Houghton. He has business in the circuit court.

The ladies of Trinity Episcopal church held, Houghton, will hold their annual bazaar and supper in the Citizens' National bank hall tomorrow evening.

The Hancock Y. M. C. A. Bible class has been organized. John Lees will conduct the work, and one regular meeting will be held each week during the winter.

Re Haas, Paul Swift, Ed Emmons, John Pryor and Charles Mills of Houghton have returned from a week's hunting trip near Baraga. They got eleven deer.

The Copper Range Railroad company has started the construction of a branch track from its Lake Linden depot to the Bloy broomery, near the heart of the business district.

Calumet tent, K. O. T. M., will give a charity ball next Wednesday evening at the Red Jacket town hall. The proceeds will be used for the benefit of widows and orphans and other worthy poor.

Under Sheriff Beck escorted a number of visitors, witnesses and members of the jury in the Bovine case, through the county jail Saturday. It was the first visit to the county lock up for some of the men.

Graham Pope of Houghton has returned from a visit to the property of the Houghton Development company, in the Warren district of Arizona. He is president of the company. The property is better known as the Solomon Springs.

The Antiques, of the Houghton Bowling league, were again defeated on the Doe alleys Friday evening, but they managed to get one of the three games played. The Bankers were victorious. The Antiques' scores were 619, 591 and 607. The Bankers' scores were 712, 659 and 639.

Returns of the Michigan-Wisconsin football game were received in the office of the Northwestern road at Houghton Saturday afternoon. Much interest was taken in the contest, and enthusiasm was unbounded when it was made over and it was known that Michigan had won by a good score.

Secretary Steele of the Portage Lake branch of the Y. M. C. A. at Hancock, is well pleased with the increase in the membership since he has taken hold. He started out to get 200 new members by the first of April, and it looks as if he will succeed. From ten to fifteen a week are now being added to the roll.

The funeral of Henry Champion, an old resident of Ripley, was held from the residence yesterday afternoon, Rev. A. R. Johns of the Hancock M. E. church officiating. Mr. Champion was eighty years of age. He was one of the oldest of Portage Lake residents. He is survived by three sons and one daughter.

Stella Rebekah lodge, auxiliary to the Odd Fellows, was surprised by a visit of a number of members of Hecla lodge, I. O. O. F., Friday evening. At the conclusion of the regular routine work a social session began which lasted until after midnight. Excellent music for dancing was furnished by the high school orchestra and a dainty repast was served.

Rev. A. L. Heideman, pastor of the Finnish Lutheran church at Calumet, conducted the services at the funeral of John Hammer, the Herman contractor who died of a severe attack of appendicitis on a South Shore train leaving L'Anse and Baraga while enroute to a Calumet hospital one day last week. The remains were taken to Herman, where the funeral was held.

Martin Mullen of Cleveland, a coal dealer well known in the copper country, gave an exhibition of fancy billiards at the Board of Trade at Houghton Saturday evening. A large crowd witnessed his performance. Some of the shots were marvelous and brought out much applause. Mr. Mullen is the former amateur champion billiardist of the world. He visits copperdom about once a year.

The Calumet Woman's club held an interesting meeting Friday afternoon. A paper dealing with different periods of the Norman and Saxon regimes was read by Mrs. Willmar, and Mrs. Getchell talked on the subject of "Richard and the Crusades." "The Affect of the Norman Conquest on the Initiative Period of English Literature" was the subject of a paper read by Mrs. Vastbinder. Several musical selections were rendered during the course of the program.

The funeral of the late Mrs. W. T. Daniell of Calumet was held yesterday afternoon, with services at the residence, 411 Seventh street. Rev. W. B. Coombe, pastor of the Calumet M. E. church, officiated. Mrs. Daniell died Friday morning after long suffering. She had been an invalid for the last ten years, during which time she was practically helpless. She was sixty-five years of age and is survived by her husband and two sons, Thomas of Calumet, and Williams of Detroit.

The Houghton High school monthly journal will be issued for the first time Nov. 25. It will be edited by Missa Sagagan, the Indian term for "red island lake." As the water of Portage lake is often discolored by the copper sands from the stamp mills in the Torch lake district, the name was considered appropriate. Sufficient advertising has been secured to pay all expenses. The journal will contain all the news of the school and each issue will have a special article on some educational topic. Superintendent of Schools Constock will contribute to the first number.

Rev. A. Lincoln Shear, pastor of the Calumet Congregational church, took for the subject of a lecture to his sermon last evening, "Judge Street's Startling Remarks in the Circuit Court." It had to do with the little temperance talk given by Judge Streeter the day he sentenced a batch of prisoners to Marquette. He then remarked that all of the criminal cases before him during the term were due directly or indirectly to an over-indulgence in drink, also that the fact was never more striking to him than it was during the sessions he had just sat through. His remarks were significant.

Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes, sold at Desjardins' Pharmacy.

SAM HOUSTON'S INDIAN WIFE.
A movement is on foot to remove the remains of the Cherokee wife of Gen. Sam Houston at Fort Gibson, to rest in the national cemetery here. She was married to Sam Houston at Fort Gibson, where her people resided, not long after his arrival from Tennessee, where he resigned the office of governor of that state, which movement is shrouded in mystery so far as history is concerned. Miss Rogers is said to have been very beautiful, and that Houston knew her in Tennessee before her removal here. Chief-elect Rogers of the Cherokee nation is one of her nearest relatives. Mrs. Heffernan, landlady of the Trent House, is also a relative. Both have consented to the removal of the remains, which now lie at Wilson's Rock, on the Arkansas river, about twelve miles from Muldrow. A suitable monument will be placed above the grave in the national cemetery at Fort Gibson.

HOPE TO APPEASE THE ISTHMIANS

(Continued from Page One.)

but enough has been gleaned from the instructions given to our naval commanders to make it evident that never again will the isthmus become a zone of warfare so long as the United States government can prevent it. The difference between the present situation on the isthmus and that which existed last year when Commander McLan prevented armed troops from crossing the isthmus by rail is this:

The authorities have now determined to extend their lines of protection to the railroad. They will not allow hostile forces, no matter whether they are Colombian or Panama troops, to come into collision anywhere near the railroad, and to prevent such collisions will be necessary to extend the neutral zone clear to the north and south boundaries of the republic of Panama. Officials here will not make such a statement publicly. They simply say: "Wait till the emergency arises." But it is known that such were the plans of the naval commanders, and as there is no indication of a change in these plans not the slightest apprehension is felt here of the encroachment of any Colombian army upon Panama.

Seven American Warships.

There are now seven vessels guarding the interests of the United States on the isthmus of Panama. Of these four are on the Pacific side, the cruisers Boston and Marblehead, the gunboat Concord and the monitor Wyoming. So far as known, no other naval vessels, except possibly colliers or supply ships, will be sent to the west shore of the isthmus for the present.

On the Atlantic side of the isthmus are the cruiser Atlanta, the gunboat Naahville and the training ship Dixie. This fleet will be reinforced in a day or two by the battleship Maine and the president's yacht Mayflower. Rear Admiral Coghlan commanding the Caribbean squadron, Rear Admiral Walker, president of the isthmian canal commission, and Consul General Gudgeon, who is expected, will be given diplomatic powers at Colon, are passengers on the Mayflower.

EUROPE SEES PRECEDENT.

Panama Affair Held to Open Way for Attack on Monroism.

London, Nov. 15.—The revolution in the isthmus of Panama is attracting great attention in continental diplomatic circles, especially in view of the attitude of the United States in the matter. It cannot be denied that many members of the elder school of diplomacy, who have no reason to love the United States, are highly delighted at the latest developments, many of them holding that the action of the United States

opens the way to an assault on the Monroe doctrine. That this view is held by many well informed diplomats is certain, and they have not been slow in expressing their belief that the time is approaching when the United States will be sorry for its precipitate action in recognizing the new republic. Germany has never had any too great a regard for the Monroe doctrine and the application of it that has been made by certain chief executives of the United States. Therefore any move that could be construed as weakening its government.

As the matter was put by a well known German diplomat: "Now that the United States has established the precedent of protecting its interests by practically fostering a revolution and then establishing a protectorate over the revolutionists, what is to prevent other nations following her lead? For instance, German interests are very important in southern Brazil. Well, suppose it was considered advisable to oppose the regulations established by Brazil, what is to prevent German capitalists supplying the needed funds, organizing a revolution, establishing a new government and then calling on Germany to protect her interests and send warships to prevent Brazil reclaiming her territory? I tell you it is a feasible scheme and the end is not yet."

SQUADRON TO ESCORT THEM.

King and Queen of Italy Leave for Cherbourg, Enroute to England.

Rome, Nov. 15.—King Victor Emanuel and Queen Helena left for London today. There was no demonstration, as their departure was kept strictly private.

Paris, Nov. 15.—The train bearing King Victor Emanuel and Queen Helena passed through Nice this afternoon. The entire railway line is guarded by troops. A British squadron has arrived at Cherbourg to escort the royal visitors to England.

TEN THOUSAND STARVE.

Terrible Devastation by Famine in the Cape Verde Islands.

New Bedford, Mass., Nov. 15.—Letters received here from Cape Verde islands, dated Sept. 20, tell of frightful loss of life in the islands by the recent famine. Since last March, when the famine began, 10,000 deaths have occurred in the island of Santiago alone. The present death rate is given as from 30 to 35 a day. The Portuguese government has taken no steps for the relief of the stricken population, and all outside aid has come from the board of trade of Lisbon.

LITTLE GOES TO CHARITY.

Estate of Thirty Millions Left by W. L. Elkins of Philadelphia.

Norristown, Pa., Nov. 15.—The will of William L. Elkins, the millionaire of Philadelphia, who died at his home at Ashbourne, Montgomery county, was admitted to probate yesterday. Mr. Elkins is reputed to be worth \$30,000,000. It was reported that a third of this sum would be devoted to charity. The only bequest, however, is one of \$240,000 to the Masonic home of Philadelphia for Masonic female orphans, to be erected on a lot 200 feet square on North Broad street.

The will is dated July 11, 1892, and contains five codicils. It is the largest estate ever probated in this country. The widow and John G. Johnson are named as executors. Mr. Elkins' art collection will go to the city of Philadelphia after the death of his widow and children.

CUTS RELATIONS WITH NEBRASKA.

Lawrence, Kas., Nov. 15.—The University of Kansas has severed all athletic relations with the University of Ne-

braska, owing to a dispute over the eligibility of two of Nebraska's football players.

MAY BE A VICTIM OF MAFIA.

Priest Disappears After Receiving a Letter Demanding \$3,000.

New York, Nov. 15.—Since the Rev. Father Joseph Chirigione, pastor of the Catholic Church of the Immaculate Conception at Williams Bridge, in the northern outskirts of the city, left his home Thursday night, not a trace of him has been found and his friends and relatives fear he has been kidnaped or murdered by members of the Mafia, who had threatened him with death. It is known that Father Chirigione received a letter Thursday morning which contained a threat unless he paid \$3,000 by the following night he would be "removed."

CONGRESSMEN GO "DRY."

Law Barring Liquor from the Capitol is Now in Effect.

Washington, Nov. 15.—For the first time in the memory of the present generation of congressmen the capitol of the United States is "dry" this session of congress. Legislation enacted by the last session of congress has made this an accomplished fact. The other day a party of congressmen met outside the house appropriation committee room and in the midst of the greeting someone proposed they adjourn to the restaurant for a little refreshment. The consternation among the party was great when they were informed that there would be "nothing doing" for the congressmen in the drink line this winter.

Reminiscences followed, and it developed that the measure which made the capitol a prohibition district slipped through congress partly because everyone was afraid to kill the measure, which came up in the house. The house committee was afraid to kill it and it was sent to the senate, which also refrained from molesting it, because there were too many watching its progress. That the bill had become a law did not appear to the house members until the other day, when they realized that beverages of a spirituous kind were to be had only in the up-town district.

CLAIM JOCKEY WAS A SLAVE.

Legal Fight Waged Over Negro Boy Bound Out by Father.

New York, Nov. 15.—In the legal fight over Wallace Hicks, the negro jockey, the supreme court was yesterday called on to uphold the famous Dred Scott decision of ante-bellum days.

The alleged attempt to hold young Hicks in so-called slavery came before the court on the return of an order issued recently by Justice McCall at the instance of Ernest V. Reiss, representing Hicks' father, commanding Alphonse J. Pique, a horse trainer and owner of race horses, to show good cause why he should not be compelled to "forthwith deliver Wallace Hicks, a minor," to Reiss. It was in opposing this surrender of Hicks that Mr. Page, counsel for Pique, asserted that by a certain contract entered into by the boy's father, Atimore Hicks, a negro of the parish of La Fourche, La., an attempt was made to sell the boy into slavery.

In his petition Reiss set forth the contract which Lawyer Page said was in effect no more than a sale of the boy into a state of slavery and that the "pretended contract of apprenticeship" is illegal under the law of Louisiana, which forbids any contract of apprenticeship to extend beyond the age of eighteen for male persons.

Reiss next set forth that the earnings of the boy as a jockey were in excess of \$10,000 a year, and that Pique only paid to the elder Hicks \$40 for each three months of the boy's services.

Mr. Page, in opposing the surrender

of the boy, said that he was not deprived of his liberty. He said that the jockey voluntarily remained with Mr. Pique, who, he said, was a man of high standing in his profession.

In an affidavit, Wallace Hicks, the jockey, said that Pique "has been just and kind to him; that his health is good; that he has learned to write a little and that Pique has secured many mounts for him." The jockey said that from fees he had saved \$1,000, besides a watch and chain and other valuables. He said that he had no wish to leave Pique. Justice Clark reserved his decision.

BLAMED FOR PURDUE WRECK.

Responsibility Is Fixed by Coroner on the Chief Train Dispatcher.

Indianapolis, Nov. 15.—Coroner Tutewiler rendered his verdict yesterday on the Big Four wreck which occurred in this city Oct. 31. The coroner blames R. C. Byers, the chief train dispatcher at Kanawha, Ill., who, he says, failed to notify the Indianapolis yardmaster that the special was coming. Sixteen people were killed in the wreck, fifteen of whom were Purdue students.

NEW GOSPEL IS FOUND.

Unknown Sayings of Christ Discovered in Papyrus Near Cairo.

London, Nov. 15.—Many hitherto unknown sayings of Jesus Christ have been discovered in Egypt by archaeologists, who have dug up papyrus buried since the second century, 100 miles south of Cairo. Dr. Bernard P. Grenfell, who has been engaged in Egyptian excavations since 1894, at the general meeting of the Egypt Exploration fund here yesterday, gave the following details: Accompanied by Dr. Hunt, Dr. Grenfell found a rich ptolemaic necropolis at El-Hibeh. The bulk of the documents from one mound consisted of a collection of sayings of Jesus. They are all introduced with the words, "Jesus saith," and for the most part are new. The ends of the lines, unfortunately, are often obliterated. Apparently all the sayings were addressed to St. Thomas. One of the most remarkable is: "Let not him that seeketh cease from his search until he find, and when he finds he shall wonder; wondering he shall reach the kingdom, that is, the kingdom of heaven, and when he reaches the kingdom, he shall have rest."

"Let not him that seeketh cease from his search until he find, and when he finds he shall wonder; wondering he shall reach the kingdom, that is, the kingdom of heaven, and when he reaches the kingdom, he shall have rest." Dr. Grenfell remarked that enormous interest would be aroused by the discoveries on account of the variations they disclosed from accepted texts. One variant from the mystical saying recorded in St. Luke, "The kingdom of God is within you," was of great value, as the saying in the papyrus appeared in quite different surroundings from those attributed to it by the evangelist, and extended far into another region.

According to Dr. Grenfell, these sayings formed the new gospel which is traditionally associated with St. Thomas. An interesting variation of the gospel according to St. Luke xi, 52, "Woe unto you, lawyers. For ye have taken away the key of knowledge; ye entered not in yourselves, and them that were entering in ye hindered," reads in the papyrus: "Ye have hidden the key of a knowledge, ye entered not yourselves, and to them that were entering in ye did not open."

Another fragment contained a discourse of Christ, closely related to passages of the sermon on the mount, and a conversation between Christ and his disciples, in which Christ answers a question as to when his kingdom will be realized, saying: "When ye return to the state of innocence which existed before the fall."

A valuable find was made in papyrus, written in Latin, giving the text of the epistle to the Hebrews, and an epitome of Livy's six lost books, throwing light on the world's history.

CITY BREVITIES.

Observer Patrick last evening received the following telegram from the weather bureau: "Cold wave; temperature will fall twenty or more degrees the next thirty-six hours."

Yesterday's temperature: 7 a. m., 25 degrees; noon, 33 degrees; 7 p. m., 32 degrees. Maximum, 34 degrees; minimum, 22 degrees.

Mr. and Mrs. C. H. Kelsey, of Houghton, spent Sunday in Marquette.

Men were employed at the court house yesterday, taking advantage of the clear weather to do some exterior work.

Attention is called to the "ad" of the Boston store. A closing-out sale of all lines will begin tomorrow morning, to last ten days.

Guy Neault is among the many successful hunters this season. He arrived home from Nestora last evening with a five-prong buck.

The council will hold a special meeting this evening. Miscellaneous business, none of it of particular importance, will be up for consideration.

The auditing committee of the supervisors was in session here Saturday, preparing the accounts for the regular meeting, to be held Wednesday of this week.

The funeral of the late Michael Lane, who lost his life in the cave-in of the Blumhuber avenue sewer, will be held this morning at 9 o'clock from St. Peter's cathedral.

Rev. Linder last evening preached a sermon that was highly spoken of by many of his auditors. His theme was "Duties of a Christian Citizen," and the discourse is described as having been admirable.

The Soo was too easy for Marquette. If Marquette practiced as she should she would keep all the teams busy, but she doesn't put in time enough learning the fine points of the plays.—Ishpeming Iron Ore.

David P. Pickett, who was killed here last week, was on the payrolls of the government at the head of the lakes, where he had been employed on harbor work. He had worked at the breakwater here during the summer.

Two fine bucks killed by Walter Story attracted much attention in front of Cotes' meat market Saturday. One of them weighed 224 pounds dressed, and is one of the largest, if not the largest, deer brought into the city this fall.

The Marquette delegation at the Ishpeming-Escanaba game Saturday was a missing quantity. The impossibility of getting back the same day discouraged prospective excursionists and there were not a sufficient number to obtain the special train on the South Shore. If it had been possible to return to Marquette Saturday evening a large number of Marquette people would have seen the contest.

The case of the People vs. Peter Rasmussen, concerning which there has been some inquiry during the past few days, will next come up again in Justice Byrne's court Saturday of this week. As has been stated Rasmussen's attorneys are making an earnest effort to secure his discharge by Judge Byrne, and they are going to argue the case at length, on the evidence which they have been submitting during the past two weeks or so.

Brussels, Nov. 15.—The Duc D'Ursula, president of the senate, is dead.

Do you feel mean, cross, all out of sorts, no ambition, all broke up? Rocky Mountain Tea will make you strong, healthy and robust. 35 cents, tea or tablet form. Stafford Drug Co.

High Art Tailoring

Applies to Women's Wear.

Ladies' Hand-Tailored Suits with a combination of woman's taste and man's skill designed by the most talented artists of France, cut by New York's most skillful cutters and sewed throughout by men journey-men tailors. That's the story of our Suits and Costumes from their inception until the finished product is displayed in the department set aside in our store for the sale of Ladies' Hand-Tailored wear. Every day brings new arrivals; every minute sees departures and the popularity of this line is growing hourly.

This season the styles are particularly bright and attractive and there are some stunning innovations along the lines of cut and drape that would seem almost daring were it not for the perfect harmony of color and design which prevails. Zibelines, Broadcloths, Cheviots and Tweeds are the favorites this season for materials, while the three-quarter length coat seems to have caught the popular fancy. For general wear the Blouse effect and Military Cape have their friends also, as well as other new but already sought-for creations.

LADIES' Hand-Tailored COATS \$7.48 to \$35.00.

D. Seidenfeld,

A GRAND BARGAIN FEAST FOR EVERYONE

GRABOWER'S BIG STORE.

Our Annual November Reduction Sale

feast of good things, you will join the crowds of eager buyers that will visit our store during this month

is beyond doubt Marquette's greatest money saving event. It is a spread of bargains that are bargains; a sale that saves you dollars. If you would share in the

50 CHILDREN'S WINTER COATS made of extra heavy Zibelines and Melton cloths; this lot received last week; why pay \$7.50 elsewhere? Ours go at **\$5.50 each.**

100 LADIES' SHIRT WAISTS made of fine quality material and all new; this season's styles, at **20 per cent off regular prices.**

Unprecedented Selling in Ladies' Skirts, Capes, Coats and suits.

No event could be more opportune than this great skirt and suit sale. A variety of skirts and suits so great and so diversified that we can safely promise assortment beyond anything ever before offered in Marquette. HERE'S A SAVING WORTH YOUR WHILE.

All the walking skirts worth up to \$5.00 to \$7.50 go at **\$4.50**

All the walking and dress skirts worth \$6 to \$7.50 go at **\$4.75**

All the walking and dress skirts worth \$8, \$9 and \$10 go at **\$6.50**

One lot of Ladies' Suits; the material in some of the suits is worth \$20; your choice for **\$4.98 a suit.**

Boys' Suits & Overcoats. Must be sold and price no object. We are going out of the boys' clothing business and are determined to clean them out as soon as possible; therefore we will make you some astonishing low prices of Suits, Reefers and Overcoats.

Millinery of Every Description.

As it is a well-known fact that we have the best and most up-to-date millinery in this city, and that we never carry millinery from season to season, therefore we have concluded to better dispose of what we have left now than later in the season. It will, therefore, be to every lady's advantage to come to us for anything wanted in the millinery line. Our assortment of the latest novelties is complete. Beautiful Hats, Plumes, Tips and Bird wings at low prices.

Shoes and Rubbers.

The celebrated Dorothy Dodd and Utz & Dunn Shoes which give such satisfaction to all who wear them carried by us in all styles. We can give you perfect satisfaction if you try a pair of our Shoes.

Blankets, Comforters, Ladies' Underwear, Hosiery, Gloves

Never have we shown such immense stock of the above goods as we have this season and our prices will be satisfactory to every purchaser.

Front Street....

LOUIS GRABOWER.

...Marquette.

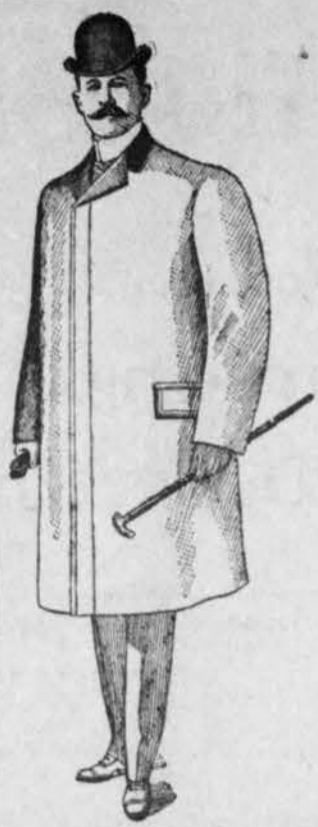

CASH OR CREDIT **GATELY'S** WE MEET Your Wants

We Want to Impress it on Your Mind

That we are able and willing to dress you in as neat a manner as you can be fitted out. A large variety of

Suits and Overcoats

may be seen at our store. Anything you like. The above applies to both men and women.

Ishpeming and its Environs.

STUBBORN BLAZE

IT WROUGHT NO LITTLE DAMAGE SATURDAY EVENING.

Jochim Hardware Company and Grand Union Tea People Are the Principal Losers.

For over two hours Saturday night the firemen fought one of the most stubborn blazes that has occurred here in a number of years, located in the store of the John W. Jochim Hardware Company. Before it was overcome the entire upper story of the adjoining Milton block had been saturated with water, which leaked down and caused considerable damage in the Grand Union Tea company's store.

The fire was discovered about half past six. It originated in the second story and was detected when a great volume of smoke burst out from the stairway. The fire department was promptly at the scene. Several lines of hose were soon laid. The firemen made their way with much difficulty into the apartment from which the smoke was pouring, the suffocating fumes well nigh overpowering them. The seat of the blaze was hard to locate. The flames had eaten their way into the spaces behind the plastering and repeated attempts to reach the burning wood with the streams of water were unavailing. All parts of the building were drenched, and still the fire would break out in unexpected places. It was almost impossible to get into the room where the confused mass of hot, steaming iron ware was heaped up, with the smoke and darkness adding to other difficulties. The fire made great headway among the timbers of the roof. When it was finally put out, much of the metal roofing was hanging loose.

The water came pouring into the store in perfect torrents, finding its way thence into the basement. Pools several inches deep stood on the floor. Hardly an article escaped a thorough soaking. Fortunately, all the ammunition was in the basement, else the consequences of the fire would have been much more serious.

The adjoining buildings suffered considerably from the water. The Grand Union Tea company was a heavy loser. The store and its contents were pretty well soaked and the goods in the basement were damaged. Two tons of coffee were received a few days ago and about half a ton was damaged. A great quantity of holiday stock stored in the basement was, of course, nearly ruined. Streams of water trickling down the walls of the store wrought havoc with some of the decorations. Upstairs Dr. Jarvis sustained a loss. His dental office was saturated. The furnishings were spoiled, but the equipment escaped without injury. Water soaked through the wall into the basement of the Dundon block. There is a heavy stone wall on the side adjoining the Jochim building, and it offered an effective barrier to the flames.

The loss has not yet been adjusted. The damage to the hardware stock is roughly estimated at about sixty per cent of its original value. The Grand Union Tea company carries its own insurance. It is not yet been fixed. The cause of the fire has not been determined.

A large crowd gathered on the opposite side of the street, watching the firemen fight the flames. The only evidence of the fire were the dense clouds of smoke. Biting cold added to the discomfort of the firemen. The temperature was below the freezing point. Soon after the department had turned on the water a line of hose burst in the midst of the crowd, drenching a number of the onlookers. Another time one of the firemen lost control of a nozzle which was shooting out a heavy stream. A number of the spectators were wet down, and two or three of the firemen were soaked through in trying to recover the nozzle.

Ladies', misses' and children's cloaks, jackets, suits, skirts, etc., arriving daily. Great assortment of new goods. Prices right. (11-12-1w)

PHYSICIANS PRESCRIBE IT. Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for throat and lung troubles as this great medicine. Sold at Desjardins Pharmacy.

ESCANABA WON

TOOK ISHPEMING INTO CAMP BY RATHER LARGE SCORE.

Hematite City Players, Although Outweighed, Put Up a Plucky Game to the Finish.

Ishpeming was outclassed and outplayed by the Escanaba High school eleven at that city Saturday afternoon, the Escanabans revenging themselves for their defeat of last year by winning the upper peninsula championship by the score of 34 to 2 in a game in which they held Ishpeming safe throughout. Escanaba won the honor fairly. Its team is by far the strongest in the upper peninsula. Saturday Dr. Sweetland, Ishpeming's coach, expressed the belief that Escanaba can today defeat any high school team in the United States. He also is of the opinion that it will have little difficulty taking the lower peninsula champions into camp.

In spite of defeat Ishpeming people had no cause for complaint. Their treatment at Escanaba was all that could be desired. Nothing occurred to mar the pleasure of the game or the visit to the Sandy City. The Escanabans, apparently, wanted to show their Ishpeming visitors that they were not considered as enemies, but merely as championship rivals. There was no attempt to take advantage of the visitors in any way. A very different feeling from that which prevailed last year was manifest; even the small boys, who are so apt to misbehave, were friendly.

The best of feeling prevailed on and off the field. The gridiron was enclosed with a strong fence, about five feet in height. Ishpeming and Escanaba people mingled freely. The blue could be seen on all sides in the midst of the yellow and black. The Ishpemingites went down feeling that the team stood no show of winning, and the Escanaba people seemed to realize that it would be unkind of them to "rub it in." After the game friends from both towns met and enjoyed themselves. The teachers and high school pupils had a reception and hop planned for the Ishpeming team and their friends. This was not announced until the visitors arrived in Escanaba, otherwise the local people would have arranged to have their train held.

Ishpeming's Plucky Battle.

Although Ishpeming was outclassed by their heavy opponents all who witnessed the contest admired the Hematite City eleven for the grit and skill manifested by them all through the game. The team put up a superior array of football and had it not been for the local players' inability to solve Escanaba's double interference on end runs the score might have been different. Ishpeming repeatedly held the big fellows for downs. On the first time down the field Escanaba advanced the game freely. The blue could be seen to be held. Escanaba put up a strong defense in the next three plays and soon had the ball again. This is where Ishpeming used poor judgment. A punt would have saved the first touchdown at that particular time. Indeed if the team had played a punting game all the way through the score would not have been so one-sided. The Escanaba boys are clever on blocking punts, but in spite of this Ishpeming could have worried them if this style of playing had been resorted to.

Ishpeming won the toss and defended the north goal, playing with the wind. The ball was kicked to the ten-yard line and advanced to the twenty-eight-yard line. Steady gains of from one to four yards were made for a distance of seventeen yards. Here Escanaba held the ball for a punting game all the way to the ten-yard line. Bartley followed with fifteen on an end run. Semer came again with a run of twenty yards, landing the ball on Ishpeming's three-yard line. In the next three plays Escanaba gained but one yard, the ball going to Ishpeming on downs.

Three yards in three downs was the best Ishpeming could do. With the ball again in Escanaba's possession the line was soon crossed, Ishpeming's failure to punt proving costly. In the next kick-off Escanaba sent the ball to Sterling, who was downed on the twenty-five-yard line. After advancing eight yards Ishpeming lost the ball on downs on their thirty-three-yard line. Semer made an end run of twenty-eight yards, and in the next two downs Bartley was pushed over, this time in four minutes.

Escanaba kicked to Ishpeming's thirty-five-yard line. The ball was missed and in the scramble Escanaba got it. Ishpeming held for downs. On its first play Collins took thirty yards around right end. Ishpeming lost three yards on a quarterback play. Connelly punted to Escanaba's ten-yard line. The

ball was fumbled and rolled back of the goal line, where an Escanaba man got it. He was tackled back of the line. This gave Ishpeming its only two points, the play scoring safely. The ball was brought out to the twenty-five-yard line, in Escanaba's possession. Here the ball went back and forth twice on downs. The tackling on both sides was fast and fierce. Escanaba was finally forced to punt. Ishpeming got the ball on Escanaba's forty-yard line. After taking eight yards Connelly punted, sending the ball to Escanaba's four-yard line. Here was a chance for Ishpeming to do something. On the very first play Bartley got away for fifty yards on an end run. Urquhart tackled him, both getting a bad fall. Steady advances were made until Ishpeming's goal was crossed for another touchdown. The three goals were kicked. Time was up a few seconds after the touchdown, so the timers agreed to call it the end of the first half.

The Second Half. Ishpeming kicked off to Escanaba's ten-yard line, Semer advancing the ball ten yards. After the second down without making five yards, Escanaba punted forty yards to Sterling. Ishpeming tried center plunges, but lost on downs on the third play. The ball was then in the center of the field. Escanaba held the ball on a fumble. Four downs netted Ishpeming eleven yards, after which Escanaba held for downs, with the ball in the center of the field. Embs took four yards and in the next play Bartley ran for a touchdown. Time of play, five minutes. Goals were kicked.

Escanaba kicked to Urquhart, who advanced the ball to the twenty-yard line. Ishpeming hit the line hard, forcing their opponents back to the center of the field. Here Escanaba took a brace and Connelly was forced to punt. The punt was blocked, an Escanaba player falling on the ball. After making four yards in two downs Escanaba lost the ball on a fumble. Four downs netted Ishpeming eleven yards, after which Escanaba held for downs, with the ball in the center of the field. Embs took four yards and in the next play Bartley ran for a touchdown. Time of play, five minutes. Goals were kicked.

Escanaba kicked to Urquhart, who advanced the ball to the twenty-yard line. Ishpeming hit the line hard, forcing their opponents back to the center of the field. Here Escanaba took a brace and Connelly was forced to punt. The punt was blocked, an Escanaba player falling on the ball. After making four yards in two downs Escanaba lost the ball on a fumble. Four downs netted Ishpeming eleven yards, after which Escanaba held for downs, with the ball in the center of the field. Embs took four yards and in the next play Bartley ran for a touchdown. Time of play, five minutes. Goals were kicked.

During the remainder of the game there was some very vicious tackling on both sides. Long runs were few and both teams resorted to punting. When a punting game had just received the ball on a punt on its twenty-yard line. Max Barbour was referee in the first half and Charles Juttner refereed the second. W. W. Sears was the official linesman. The decisions were accepted by both teams. The work of Barbour and Juttner was satisfactory, but a few of the Escanaba fans thought Ishpeming was not entitled to the safety. The team had no complaint to offer on that point, however, so that the decision must have been all right. Discussing this question Barbour said that every player on the Escanaba team is up in the rules, and that if the decision was not made properly they would have registered a protest.

The teams' line-up was as follows: Escanaba—Stonehouse, center; Besler, right guard; Driscoll, left guard; J. Semer, right tackle; W. Embs, left tackle; Nugent, right end; Hessel, left end; McEwen, quarter; Bartley, right half; P. Semer, left half; Stevenson, fullback. Ishpeming—Hayden, center; Cullin, right guard; Collick, left guard; Urquhart, right tackle; Haglund, left tackle; Johnson, right end; Tellefsen, left end; Sterling, quarter; Collins, right half; Connelly, left half; Markert, fullback. Time of halves, twenty-five minutes.

TAKES NEW POSITION. W. S. Nelson has resigned his position as manager of the dry goods department at J. Sellwood & Co.'s establishment and takes a similar place at Braastad's this morning. Mr. Nelson has been connected with Sellwood's for seventeen years, acting as manager of the dry goods department the entire period. He is among the most competent men in his line of business in the county and Mr. Braastad considers himself fortunate in securing his services. Mr. Nelson succeeds Victor Eman, who becomes manager of the men's furnishing and clothing departments.

OPENING TODAY. Braastad's new store will be thrown open to the public today. The stock has been largely increased by recent purchases of new goods, and a fine assortment will be on display in all departments. Visitors will be welcomed and the whole establishment will be open to their inspection. Handsome souvenirs will be presented, and luncheon will be served. Dr. Weasleys Syrup Purifies the blood; Cures (obtainable) for the skin. Great variety of fur goods, including jackets, coats, muffs, etc. Prices away down. N. E. SKUD. 11-12-1w

ISHPEMING IN BRIEF.

Trombly's orchestra will give a hop tonight at Anderson's Hall.

The National Legion will hold its regular meeting Thursday evening, Nov. 19, at the Swedish Home Hall.

Miss Edith Gander of Menominee is filling the position of Miss Loretta Fitzpatrick as stenographer at Carpenter-Cook's office.

The snowshoe club will hold its regular meeting this evening. The members will feast on venison, presented by Lucien Eaton.

Clarence Dawson and wife arrived home Friday evening from their wedding tour. They are keeping house in the J. F. Gylling residence.

Charles Young, employed in Cuba as engineer on the Havana & Santiago railroad, has written friends that he is not very well pleased with the country and may soon return.

John Nolan, a well-known diamond drill operator, has sent his friends some interesting pictures of a South Africa drilling plant that he is managing. One of the pictures shows a steel scaffold fifty feet high on which the rods are hoisted.

The Northwestern sold 141 excursion tickets to Escanaba Saturday. Bulletins of the game were received at the Hadden-Rodee office, as was also news from the Michigan-Wisconsin game. A big chart drawn on the blackboard represented the gridiron. Telegraphic reports of the plays were received at short intervals and every important move was traced on the chart. The office was filled with football enthusiasts.

Otagonians who take much of an interest in football are rarely found, but there is one Ishpeming citizen eighty-five years old who is as much of an enthusiast as a boy. He is Samuel Parks, one of the oldest residents of the city. Saturday he joined the excursionists to Escanaba and watched the game from the sidelines until he could endure the chilling cold no longer. The second half had begun, however, before he left the field. Mr. Parks is remarkably active and well preserved for a man of his years. He has had an interesting career, being one of the few survivors of the Crimean war.

BOARDERS WANTED. Good sleeping and boarding accommodations, board by day or week, at Harper's restaurant, Nos. 116 and 118 Cleveland avenue. (11-10-2w)

CHAPMAN NOW UNDER FIRE

IS HINTED HE IS IN LEAGUE WITH CHICAGO TRUST IN PENDING FISHERIES DISPUTE.

HIS INDIGNANT DENIAL

CHARGES GROW OUT OF THE RECENT CASE IN MARQUETTE.

The State Game Warden Asks the Governor to Investigate the Fish Commission's Use of Its Appropriations.

The end is not yet in the controversy growing out of the encounter here several days ago between the state and federal authorities, in regard to the action of the latter in fishing from this port during the state's closed season. As already stated the case against S. P. Wires, superintendent of the Duluth hatchery, who was in charge of the fishing here has gone to circuit court, and the United States is seeking a perpetual injunction to restrain Game Warden Chapman and his employes from interfering with the operations of the federal fisheries officers.

Now the seat of the trouble has been transferred below the straits, and it is charged that Game Warden Chapman in his fight against the federal officers is in league with the Chicago fish trust. He has answered this allegation by requesting the governor to investigate the methods of the state fish commission, which he alleges to be irregular.

It is said that the fish trust is dissatisfied with the situation because it does not get any of the fish caught by the government, and it is desirous of getting at least a part of the government catch during the closed season. If the state game warden should be successful in his fight against the federal officers it is reported that the federal hatcheries will be closed.

Fishing on Lake Superior is now at an end, but it is just time to begin collecting spawn from the lower lake ports. In this connection the Detroit Free Press says:

The Fishermen's Stand.
At the present time the fishing at the Belle Isle station is done by the Wolverine Fish Co., of this city, for the United States fish commission. That concern is hired by the government to catch the whitefish and government employes do the stripping. Instead of cash the Wolverine Fish Co. takes the stripped fish for its pay, and in this way the expense of keeping the waters supplied is met by the government. When asked about the matter the other afternoon Manager S. P. Elliott, of the Wolverine Fish Co., said that a greater blow could not be struck at the Michigan fishing industry than to drive the United States fish commission out of Michigan waters.

"If Game Warden Chapman is sustained by the courts," said Mr. Elliott, "it will simply mean that the government will close up the hatchery and fishing stations in Michigan and that no more whitefish will be planted in our waters. The Michigan fish commission will never again take up the work under the present arrangement the United States commission does all the work of keeping Michigan waters supplied with whitefish at no expense to the state, and all it gets out of it is the right to dispose of the fish caught and 25 per cent of the spawn for the other hatcheries. It looks to me as though the fish trust is at the bottom of all the agitation, as its agents are very anxious to get hold of the fish caught at this time."

Another fish-trust voice, similar sentiments, declaring that it would be a shame for the state authorities to force the government to retire from Michigan waters. He said: "Just at the present time we are beginning to get the benefit of the spawning work done in the past. Many of the fish caught are of a similar size, showing conclusively that they were planted in the waters by the authorities. If this spawning is discontinued it will not be long before the waters will be depleted."

A Favorable Arrangement.
A glance at the arrangement under which the United States fish commission is working shows how favorable the terms of that contract are to Michigan interests. This bargain was entered into about five years ago when the local hatchery and the two fishing stations controlled by the Michigan commission were turned over to the government.

Details of the deal were arranged by Pres. Freeman B. Dickerson. By the terms of the agreement the Michigan fish commission turned over to the United States fish commission the hatchery on McDougall avenue, and the fishing stations at Belle Isle and Grassy Island, and gave the government control of them. The hatchery building belongs to the Michigan commission, but the ground on which it stands is leased. The United States commission assumes all the expense of maintaining the hatchery; it purchases the fishing supplies and carries on the work of collecting the spawn. For this privilege the government agrees to turn back into Michigan waters 75 per cent of all the whitefish spawn collected, and in addition, to furnish the Michigan fish commission with not less than 50,000,000 wall-eyed pike eggs for use in Michigan inland waters. Further, the Michigan commission is to have the use of the local hatchery to hatch the whitefish pike spawn, an operation which takes not more than sixty days. The only expense to Michigan attached to the entire bargain amounts to about \$400, the cost of planting the young pike in Michigan lakes.

Old Way Cost \$12,000 a Year.
Outside of the 25 per cent of the whitefish spawn which the government has for use in its hatcheries other than those of Michigan, the only remuneration given it for its work is the right to dispose of the fish caught. Inasmuch as the funds are not adequate to carry on the work the fish caught are sold to go toward meeting the expense of catching the spawning fish. The fishermen are actually employed by the United States fish commission; they turn in their vouchers for work done to the commission and receive payment in cash or in fish caught. As only a percentage varying from 20 to 70 per cent of the fish caught, are ripe and ready to be stripped, if the remainder are to revert to the state the United States commission will not be able to carry on the work.

Those who are in a position to know state that for the sake of a few tons of fish the people who are now trying to claim a part of the catch will eventually deprive Michigan waters of millions of fish yearly. An idea of what a great benefit this arrangement is to the state can be gained when it is known that under the old way the state used to spend from \$10,000 to \$12,000 annually to gather and replant the whitefish spawn. Now it gets each year not less than 200,000,000 whitefish planted in Michigan waters, and in addition 50,000,000 wall-eyed pike, which are plant-

ed in inland waters. All this costs the state less than \$500, as against \$12,000 under the old way.

Chapman Indignant.
In reference to the above State Game Warden Chapman, who is at Lansing preparing an answer to the bill of complaint filed against him at Marquette last week, seeking the perpetual injunction referred to above expressed considerable indignation, saying: "I have written a letter to Gov. Bliss asking him to make an investigation of the methods of the state fish commission, which has not yet made a report to the governor, or any other state authority that I can find, for several years. The last report filed with the secretary of state was made in 1898, and later reports are not to be found in the governor's office. The last legislature appropriated about \$75,000 for the state fish commission, and according to the statement of one of its members, it cost the state last year less than \$500 to stock the lakes and streams of the state with whitefish, trout and wall-eyed pike on account of its arrangement with the United States fish commission. I would like to know what the state commission is doing with its money."

Warden Chapman said that he had no desire to obtain fish from the United States fish commission, and his desire is simply to prevent the United States commission from doing commercial fishing during the closed season, while the 1,200 fishermen of the state are forced to quit business. He did not think it fair to permit the United States authorities to catch fish containing no spawn and sell them when the fishermen of the state were not permitted to fish.

Belongs to the State.
The answer of the attorney general to the bill of complaint of the United States fish commission sets up that 80 per cent of the fish taken are not spawned and are not stripped. These, it is claimed, belong to the state and should not be taken by the United States fish commission and sold. The answer of the state sets up that the state has the right to control its own waters, and to prevent the taking of fish by the United States as it has the right to protect its game. The old question of state's rights is raised, and it is contended that congress has no authority to confer upon United States authorities the right to fish in Michigan waters without the consent of the state.

The state, it is said, is willing to grant the right to fish for spawn and for scientific purposes, but objects strenuously to the United States doing a commercial fishing business.

Game Warden Chapman declares that the charge that he is in league with the fish trust in his fight against the federal authorities is absurd. "We do not ask for any fish so that we may sell them," he says. "All we are asking for is to stop the taking of fish during the closed season by the United States fish commission, and the sale of such fish at a time when our own fishermen are prohibited from fishing."

IMPROVEMENT FINISHED.

Marquette Is Now Provided With a Duplicate Water System.
Marquette now has the best water system and the best fire protection in the history of the city, being in these respects fully as well off as any northern Michigan town. Last week marked the completion and connection of the duplicate supply pipe, of twenty inches diameter, and now the city is practically assured that no accident will result in the cutting off of its supply of water. There is at the water works abundant boiler capacity and two large pumps, either one of which is powerful enough to furnish water for the entire system. To date the only weak point was the supply pipe, running from the water works to connect with the various mains of the city system. In case of accident to this pipe the water would have been shut off. Now this source of supply has been duplicated, and the city is invulnerable except in the case of some extraordinary catastrophe, such as the complete disablement of the pumping plant, which need not be said is unlikely, or the blocking of the intake, also a remote contingency.

The duplicate supply pipe runs parallel to the old pipe, a few feet to the north, from the pumping station to the corner of Walnut and Ridge streets. Superintendent Kern has had a force of men busied with its installation all the past summer. Much of the work of excavation had to be done in rock, and was very tedious. The pipe was twenty inches in diameter and in addition eight valves were put in, allowing of various combinations of connections to provide for getting water into the city. The cost of the improvement, labor, pipe, valves, and all, was in the neighborhood of \$5,000, and it was defrayed out of the commission's funds, without any unusual demand on the city.

The final connections had week were made without any interruption of the water supply to the city at large.

MERITORIOUS ATTRACTION.

Marquette theater goers are to have an opportunity of seeing a meritorious attraction here the evening of the 24th, in "Ghosts," one of Ibsen's great dramas, presented by Mary Shaw and her excellent company. Miss Shaw commands the attention of the best play goers wherever she appears, and her reception in Marquette should be a cordial one. She has just closed a successful engagement at the Davidson, Milwaukee, and is working toward Chicago, where she is booked for a run at the Studenbaker. She is filling an extra date in Marquette, and has only lately been booked for the engagement. Her appearance here is bound to attract no little attention. George C. Sackett, her representative, is now in the city, arranging for the presentation of "Ghosts."

ONLY MAKES A BAD MATTER WORSE.
Perhaps you have never thought of it but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and gentle in their effect, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them. For sale by The Stafford Drug Co., J. M. Perkins, Negaunee, Henry Harwood, Ishpeming.

STORM SASH.
We make them, price and quality right. Special quotations before the fall rush. Order now. (9-26-1f) F. W. READ & CO.

A Thanksgiving Surprise.

that will linger in your wife's memory the whole year through will be a little pass book with the words First National Bank imprinted thereon and an initial deposit—no matter how small—noted therein. Now don't put off preparing this welcome surprise, but drop in and talk it over today.

A Remarkable Purchase!

RESULTING IN A

GREAT.. November ...SALE

Beginning this morning and continuing all month.

They Arrived Saturday.

On our recent buying trip we were successful in securing a lot of Dress Goods from the mills direct at prices much below their real worth. They are what the mill had on hand of this season's production of the very latest weaves.

We took what they had. Some kinds they only had one piece left; others they had several pieces. They were glad to close out the lot to us at our own price. That is why we are able to sell them at less than most merchants would have to pay for them. Many buyers who noticed our ad Saturday availed themselves of the offer and bought freely, but there is enough for all on sale this morning.

TAILOR-MADE SUITS.

\$20.00 SUITS WHILE THEY LAST AT \$5.00
