STONWARE MEN COMBINE

Zanesville, O., Nov. 17.—The stoneware manufacturers east of the Mississippi river today formed a corporation embracing fifty shops; with a capital of one million.

GREAT STRIKE IS THREATENED

STREET RAILWAY MEN ON ALL LINES IN CHICAGO AND VICINITY MAY QUIT.

LEADERS TAKE INITIAL ACTION

VOTE FOR WALKOUT IF PRESENT DISPUTE IS NOT SETTLED.

Negotiations for Arbitration Are Begun in Mayor's Opinion Prospects Are Encouraging—Two Lines Operated Under Guard.

Chicago, Nov. 17.—Peace negotiations looking for an amicable settlement of the street railway strike were begun this afternoon and the indications tonight are that both sides to the controversy will agree to submit their differences to arbitration. A conference was held between Mayor Harrison and the council committee and the company officials and later between the committee and the union representatives. Another conference with the railway officials will be held tomorrow.

The mayor tonight declared that the outlook for a settlement was decidedly flattering. Despite the promising outlook, however, the management of the road will tomorrow renew its effort to break the strike. Announcement was made tonight that an effort will be made tomorrow morning to open the Indiana avenue branch.

Other developments today were: A bill filed in the superior court asking that a receiver be appointed for the railway company and challenging the company's right to operate its lines, on the ground its franchises expired last July and that the ninety-nine-year act claim is invalid. Five trains operated on the Cottage Grove avenue cable line under guard of 1,000 policemen. Twenty-five cars operated on the Wentworth avenue line under guard of less than 400 policemen.

MUST HAVE SHIPS
SECRETARY SHAW ARGUES FOR MERCHANT MARINE.

Is Only Unprotected Industry, He Says in Address at New York, and Must Be Given Help.

New York, Nov. 17.—The annual dinner of the Chamber of Commerce was held tonight, Morris K. Joseph, president of the chamber, presiding, with Secretary Shaw on his right and Governor Odell on his left. Among other distinguished guests were Postmaster General Payne, Senator Allison, Senator Dewey, Lieutenant General Young, Major General Corbin, Rear Admiral Rogers, Judge Alton B. Parker, Carl Schurz, Whiteley Reid, Bishop Potter and Bishop Doane.

A letter of regret from President Roosevelt was read. He spoke of the chamber's long history, the importance of the business interests it represents, and the great service it has rendered the American body politic. He said it is the good fortune of all of us that we are so conscientiously serving the Chamber of Commerce that among its members is to be found an unusually high degree of a combination of great business ability with a spirit which practices and demands integrity in public and private affairs alike.

Secretary Shaw responded to the toast, "Our Merchant Marine." "The only unprotected American industry," the secretary said, in opening, "is its merchant marine. An act of congress, approved by George Washington, and never repealed, though frequently amended, gives the American shipbuilder, American shipowner, American shipowner, American flag a monopoly in our coastwise trade, and we have not only the most efficient service, but the cheapest coastwise in the world."

The secretary pointed out that by acts of congress and through government encouragement this country has the best railway systems in existence and the cheapest rates. Its factories turn out more manufactured products than any other two countries on the map by more than three thousand millions per annum; its agricultural interests are more valuable than those of any other country, and its mineral output has passed the billion dollar line. Secretary Shaw compared conditions now with those of forty years ago, when we carried in American bottoms three times as much foreign commerce as we do today. He expressed his dissatisfaction with this condition and argued in favor of a change.

FIRE MAKES MANY IDLE.
Damage of Half a Million Caused by Flames at Philadelphia.

Philadelphia, Nov. 17.—Fire today practically destroyed the five-story brick building occupied by the Philadelphia Strawboard company and several other tenants. The loss is \$450,000. Five hundred persons, mostly women, are thrown out of employment.

North Dakota Court House Burns.
 Fargo, N. D., Nov. 17.—The Cass county court house here burned tonight. The loss is \$175,000, fully insured. It is thought that nearly all the records, which were in fireproof vaults, will be saved. The sheriff's residence and jail, adjoining the courthouse, were saved by a sudden change in the wind.

La Crosse, Wis., Nov. 17.—The Uhrlich building burned tonight. The loss is \$50,000.

AUTHORITIES CLASH.
State and Federal Officials Lock Horns in Illinois.

Springfield, Ill., Nov. 17.—M. Holmes, deputy revenue collector at Decatur, acting upon instructions which he said he had received from Washington, refused to answer questions before the grand jury as to whether Charles Swinney, of Farmer City, had sold liquor in certain quantities. The state court ordered him sent to jail. The attention of the authorities at Washington was called to the matter and Collector Mills will institute habeas corpus proceedings in the federal court here.

COLD WAVE GENERAL.
Falling Temperature Reported from Throughout the Middle West.

Chicago, Nov. 17.—The first cold wave of the season is being experienced today throughout the Middle West. Snow is delaying railroad traffic in western Kansas and throughout Iowa, Nebraska, Kansas, Illinois, western Missouri and the Indian Territory the thermometer registered from five to twenty degrees above zero, a fall in temperature of from thirty to fifty degrees in twelve hours.

STONEWARE MEN COMBINE.
Zanesville, O., Nov. 17.—The stoneware manufacturers east of the Mississippi river today formed a corporation embracing fifty shops; with a capital of one million.

WILD AND WOOLLY TALE.

Marquette Correspondent Locates a Big Copper Deposit at Carney.

Marquette, Wis., Nov. 17.—A copper deposit, rich in quality and of immense extent, has been discovered near Carney, Mich., about thirty miles north of Menominee. At a depth of 100 feet the drill tapped a deposit of ore that assayed \$60 per ton. Mining experts familiar with the Calumet formation declare the deposits at Carney exactly similar. Prospectors have been securing options on every piece of land in the vicinity, or purchasing outright, and a shaft will be sunk next week.

LONDON GIVES WARM WELCOME.

King Victor and His Consort Are Guests at Windsor Palace.

London, Nov. 17.—King Victor Emmanuel and Queen Helena of Italy reached Portsmouth on the royal yacht today. The Prince of Wales welcomed their majesties. The royal visitors received an enthusiastic welcome at Windsor. The streets were gaily bedecked and enormous crowds lined the approaches to the station and the road to the castle. King Edward, Queen Alexandra and other members of the royal family awaited the Italian sovereigns on the platform. The greetings between hosts and guests were most cordial.

CITY BOMBARDED

SAN DOMINGO COMPLETELY INVESTED BY REVOLUTIONISTS.

President Gil Declines to Capitulate and Desperate Fighting Is Certain—Americans in Peril.

San Domingo, Monday, Nov. 16, via Cape Haytien, Nov. 17.—The insurgents are bombarding the city. The city is completely invested by 4,000 men under Pichardo and four other generals. A general attack is expected within the next few days. General Wosy Gil refuses to capitulate, and it is certain the fighting will be severe. The situation is desperate and fighting in the streets is likely to occur at any moment.

United States Minister Powell is endeavoring to protect American interests with the limited means at his disposal. The cruiser Baltimore has been compelled to leave to recruit. The German naval vessel here is ready to land troops at a moment's notice. The insurgents have endeavored to have Minister Powell recognize them, but he has refused to do so.

Revolutionists fired on the Clyde liner New York as she entered the port of Samana, but the vessel was uninjured.

Cape Haytien, Nov. 17.—General Jimenez, leader of the revolution in the Dominican republic, has arrived at Santiago de los Caballeros, Santo Domingo, to take part in operations with a view of making a decisive attack on the capital, San Domingo.

RECOGNITION REFUSED.

Washington, Nov. 17.—The revolutionists of San Domingo today through J. M. Giordani, who represented himself as the agent of the revolutionary government, applied to the state department for recognition by the United States. The state department declined recognition, informing Mr. Giordani that it had been the unbroken policy of the state department to recognize only de facto governments and that if Minister Powell, who is on the spot, finds that the revolutionists have actually established a capital and opened ports and are able to protect life and property, he will recognize them. It is believed that Minister Powell has not looked with favor upon the recognition desired, as the revolutionists have threatened to invalidate and repudiate any arrangements which the United States minister may have made with the tottering government of President Gil.

BLOCKADE IGNORED.

New York, Nov. 17.—The United States government has refused to recognize the blockade of San Domingo ports, and has protested against it. This was confirmed by Nevada H. Stranahan, collector of the port of New York today, and he has notified the masters of vessels sailing to San Domingo ports that clearance papers will be issued for any parts in San Domingo, thus officially refuting the effectiveness of the blockade.

LITTLE HOPE FOR GERMANS.

Baron Sternberg Sees No Prospect of America Modifying Tariff.

Berlin, Nov. 17.—According to the North German Gazette, Ambassador Sternberg does not see much prospect of the United States customs authorities moderating their rigorous treatment of German goods nor does he see any indication of the adoption of specific instead of the ad valorem duties of which German exporters complain. Concerning the prospect of a commercial treaty with the United States, the ambassador is represented as saying: "At present such a treaty is not to be thought of. The Americans are fully aware of the advantages of their position and influential manufacturers would not willingly surrender them."

ALL DEPOSITORS PAID.

Run on Reading Bank Starts Through Mysterious Cause.

Reading, Pa., Nov. 17.—For some unexplained cause a run was started today on the Pennsylvania Trust company, especially in its savings department. All depositors were paid off promptly. The bank officials state the institution is in sound financial condition and will be able to meet all demands.

NEGOTIATIONS RESUMED IN ORIENT.

Negotiations Resumed by Japan and Russia Give Promise of Success.

Paris, Nov. 17.—The Associated Press learns from an authoritative source that negotiations have been resumed between Russia and Japan, in respect to Manchuria, which give great promise of a successful and peaceful termination.

BRIDE AND SISTER DROWN.

Minot, N. D., Nov. 17.—Mrs. Frank Downing, a bride, today jumped into Moose river to rescue her young sister, who had broken through the ice. Both were carried under and were lost.

KING LEOPOLD COMING.

Monarch of the Belgians to Visit America in the Spring.

KILLS CIVIL SERVICE LAW.

Supreme Court Rules Against the Milwaukee City Board.

Madison, Wis., Nov. 17.—The supreme court today decided that the city civil service board of Milwaukee has no right to force an appointee upon a city official who is under bond for the faithful performance of work by subordinates. This is looked upon as a death blow to the Wisconsin civil service law.

UNITED WORKMEN REVOLT.

Massachusetts Organization Cuts Relations With the Supreme Lodge.

Boston, Nov. 17.—As the result of a movement started some years ago to change the method of assessment from the flat rate, a meeting of the Massachusetts grand lodge of the Ancient Order of United Workmen here today ended in the adoption, after a heated discussion, of a resolution to sever all connection with the supreme lodge.

ISTHMIANS SPURN PROJECT TO TREAT

COMMISSIONERS FROM BOGOTA ARE INFORMED THE PANAMA REVOLUTION IS IRREVOCABLE.

ANSWER IN DEFIANT MOOD

SAY COLOMBIA WILL ENFORCE ITS RIGHTS AT ALL COST.

Conference Between Junta and Peace Envoys Is Held on the Mayflower at Colon and Has Result Only in Widening the Breach.

Colon, Nov. 17.—During a conference on the Mayflower between the Panama junta and the Colombian commissioners today, Nienor Insiguarnes, spokesman of the Colombians, made a strong appeal to the Panamanians not to disrupt the republic of Colombia and supplemented his appeal by assurance that Colombia would grant all rights demanded by the isthmians, and eventually would carry out their grand project of building the canal.

Replying, Tomas Arias, representing the junta, said that the revolution was the unanimous desire of the entire people of Panama and was irrevocable. It was the act of a now independent government, already thoroughly organized and formally recognized by the United States, as well as by France and Italy. He said the political ties binding the isthmians to Colombia were broken, but it was not the fault of the isthmians. "The ties of affection, however, never can be broken," he said.

Senor Insiguarnes, in answer, expressed deep sorrow at finding the hopes of reconciliation impossible of realization and that the actions of the people of Panama were irrevocable. He declared that the people of Colombia would unite in an effort to enforce the rights of the republic on the isthmians, even at the cost of great sacrifices. Senors Arosemena and Morales followed with addresses in which they expressed views similar to those of Senor Arias.

The threat of Senor Insiguarnes that Colombia would enforce its alleged rights in isthmian territory did not cause apprehension to the Panamanian commissioners, who received it with equanimity and did not give it serious consideration.

The Colombian commissioners, after the conference aboard the Mayflower, under the escort of officers of that vessel boarded the Trent and sailed for Cartagena. The approachers and the wharf were guarded by Panama troops and American marines.

Eleven irrevocables were arrested on the street today and were shipped on the Trent without being given opportunity to say farewell to their families.

ISTHMIANS PLEASED.

Flag of Panama Officially Recognized by the American Squadron.

Panama, Nov. 17.—At 8:30 o'clock this morning the United States flagship, the Marblehead, hoisted the flag of the republic of Panama and saluted it with twenty-one guns. The Tres Noviembre, the gunboat of Panama, displaying the American flag, answered the salute. The shore batteries also fired a salute of twenty-one guns, which the Marblehead answered.

Rear Admiral Phelps, Consul Gudgeon and Commander Phelps, accompanied by Lieutenants Philip Andrews and S. W. Trellinwidder, officially called on the junta. The military band played "The Star Spangled Banner" on the American arrival at the palace and on their departure from that building. They were received by members of the junta, cabinet ministers and several generals and their staff.

Admiral Gudgeon said he was glad to officially call upon the government of Panama. It had been a great pleasure for him to salute the flag of the new republic, for whose prosperity and greatness he made the best wishes. Senor Arango, a member of the junta, answered, saying that in the name of the junta and the people of Panama, he expressed sincere pleasure at the presence of the gallant fleet in Panama bay, representing the noble people and government of the United States, to whom the isthmians are deeply grateful for the hand of fellowship so generously and promptly extended to them by its great president.

Consul Gudgeon proposed a toast to a new Panama canal treaty, which was answered by General Vason, who toast of President Roosevelt and the United States army with great cordiality.

The people of Panama are happy over the official recognition of the flag and the event is being celebrated enthusiastically. During the ceremonies today large crowds of people surrounded the palace. The flag of Panama saluted by the Marblehead this morning was made on board of that vessel.

Washington, Nov. 17.—The French ambassador, M. Jusserand, today formally received M. Buzana-Varela at the French embassy as envoy extraordinary and minister plenipotentiary from the republic of Panama.

The isthmian minister today addressed a note to the envoys of the powers represented here, requesting them to notify their respective governments of the formation of the state of Panama and expressing the hope his government will receive recognition at their hands. The envoys will transmit the communication to their foreign offices and wait instructions.

ARTHUR'S DAUGHTER WEDS.

Albany, N. Y., Nov. 17.—Miss Ellen Herndon Arthur of this city, daughter of the late President Arthur, was married today to Charles A. Pinkerton of New York city. The ceremony occurred in St. Peter's Protestant Episcopal church.

KAISER'S WOUND HEALING.

Kaiserslautern, Nov. 17.—A bulletin issued by the emperor's physicians today says the healing process of the vocal cord continues regularly. No more bulletins will be issued.

TODAY'S WEATHER.

Washington, Nov. 17.—The following is the weather bureau's forecast for Upper Michigan: Fair in south, snow flurries in north portion, Wednesday; Thursday, fair, brisk northwest winds.

A NOTED WOMAN.

WIDOW OF LATE U. S. PRESIDENT ZACHARY TAYLOR.

76 Years of Age, Recommends Vinol for Old People.

Mrs. Sarah J. Windrom of 429 W. Erie St., Chicago, a member of one of the most distinguished families in the country, cousin of Zachary Taylor, 12th President of the U. S., and grand-niece of Alexander Hamilton, who signed the Declaration of Independence, writes: "Vinol is a godsend to old people. I am 76 years old, but I feel active and young today, thanks to the vitalizing effects of Vinol.

"My appetite is all that could be desired. I sleep well, and my mind is clear, and I am interested in the affairs of life as I was fifty years ago. "When I was young cod liver oil was dispensed in a greasy, unpalatable form, and it fairly gagged me to get it down. Vinol is so different, palatable and nourishing to impoverished blood. "I feel so much stronger, both mentally and physically, since I used Vinol that I feel it my duty, as well as a pleasure, to recommend Vinol as the most tonic I ever used in my life."

MRS. SARAH J. WINDROM.

Such words of praise from a person of such high standing must be accepted as unquestionable proof of the superiority of Vinol.

Do you wonder that our Vinol has such a strong hold upon the esteem of doctors and patients? We know of nothing else that will accomplish such wonderful results; and, remember, Vinol is not a patent medicine.

There are hundreds of old people in this vicinity who need just such a strength-giver and tissue-builder as Vinol. Their blood is thin and sluggish. Vinol will enrich and quicken the blood and build up the system. It is so much better than whiskey and strong stimulants, which always have a bad after effect and weaken and break down. Where is nothing in the world so good for the weak, the aged, or the run-down system and to cure a hanging on cold or hacking cough as Vinol, and because we know so well what it will do we are always ready to refund every cent paid us for it if it fails to do what we say. Try it on our guarantee.

SUBSCRIPTION RATES: Per month, by carrier, \$1.50. Per year, by mail, \$15.00.

MARQUETTE, MICH., NOV. 18.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The north country appears to be in the grip of an early winter. The present snow acts as if it were here to stay. If this proves the case it has come a number of weeks early. However, this was to be expected in such a year as 1903 has proved to be.

The New York horse show is now open and the society women of the metropolis are making strenuous efforts to have the garments worn by their Chicago sisters on a similar occasion recently look, in comparison, like the proverbial thirty cents. The horses will be, to no small extent, the same horses, but they are a secondary attraction anyway, though through courtesy, or modesty, it is called their show.

Lant K. Salisbury is said to have implicated an additional twenty-five prominent residents of Grand Rapids and the state at large in his latest confession. The names are as yet withheld, much to the disgust of a highly curious people. The assumption is that the guilty parties are being kept under a close surveillance, to prevent their disappearance into Mexico. If all twenty-five cases are pushed to their bitter end the courts are going to have their hands pretty full.

Bryan is going to spend a week with Croker at Wantage, and the New York World comments that it will be a notable meeting of wreckers. Croker wrecked the old line Democratic organization in New York and then he turned around and helped Bryan do the same thing for the nation. Now they are leaving nothing undone to prevent the reorganization of the party on a platform that will repudiate the Bryan fallacies. In truth, Bryan and Croker have much in common.

In the current issue of the Scientific American, devoted particularly to the subject "Modern Aids to Printing," are some statistics on American publications of one kind or another which are calculated to make the uninitiated eyes stick out. There are no less than 18,229 publications, of which 2,102 are dailies, with a circulation of 15,102,156; 62 are tri-weekly, with a circulation of 228,610; 637 are semi-weekly, with a circulation of 2,832,868; 12,979 papers are issued weekly, with a circulation of 39,822,062; there are 1,817 monthly publications, whose circulation is 39,519,897. The quarterly publications are mostly devoted to special subjects, and only number 237, but their circulation is very respectable, as they issue 11,217,422 per quarter. Semi-monthly, semi-annual and yearly publications number 268, and have a circulation of 5,541,329. Out of 18,226 publications, 17,194 were printed in English.

The Marine Review and Marine Record says of the lake freight situation: Rail shipments will probably have to be added to lake shipments of iron ore if the total movement of the season is to exceed 24,000,000 tons. There has been a steady slump in the movement of ore for the past month and it is, of course, growing more pronounced now. Practically none of what is now coming down is going to the furnaces direct, the furnaces feeling that they have already sufficient in their stockpiles to carry them well into the winter. The October movement of ore was 3,006,557 tons or 304,569 tons less than that of October, 1902. The total movement to Nov. 1 this year is 22,383,350 tons as against 24,020,036 tons to Nov. 1 of last year or a decrease of 1,636,686 tons. None of the Steel Corporation steamers are loading ore at this time and other of the big shippers are practically out of the market. Still, notwithstanding the drastic curtailing of the movement and the almost total absence of wild cargoes, the independent vessels manifest reluctance to go to the dock. Mr. Gilchrist expects to keep his fleet in commission for the balance of the month, but some of the smaller class of carriers will probably have to seek winter quarters very shortly now. The lumber market was very firm at the beginning of the week but it is not likely that rates in this trade will further advance, as some of the ore carriers have entered it.

It is announced from the Boston headquarters that the Masters and Pilots' association will endeavor to obtain in the present congress the passage of a load line bill, designed to provide against the overloading of vessels and thus secure the safety of both ships and mariners. The bill, as proposed, provides that the owner of every American vessel, except craft of small register employed solely for fishing purposes or as pleasure yachts, shall mark upon each side of the vessel, amidships, in white or yellow on a dark ground or in black on

a light ground, a circular disc twelve inches in diameter with a horizontal line eighteen inches in length drawn through the center. The center of this disc is to be placed at such a point as may be directed by the inspector of the district and shall indicate the maximum load line. If the vessel is so loaded as to submerge the center of the disc such loading shall be sufficient cause for the detention of the vessel. Suitable penalties for disobeying the law and for failing to have ships properly marked are provided. The ship owning interests are opposed to this bill, believing that it would cause too much government interference with their operations. However, this does not indicate that the bill is a bad one and to be sure it looks good and safe enough. It is a measure designed, evidently, to secure a nearer approach to the maximum of safety for ships and men. It, or some bill embodying its main idea, would seem deserving of a favorable reception in congress.

NOT "UNECONOMIC"

Henry George, Jr., who is something of an authority on economic questions, takes issue with Samuel Gompers, president of the American Federation of Labor, on the latter's claim that wage reduction as a measure of meeting the conditions created by diminishing consumption is "unwise and uneconomic."

In a communication published in the Chicago Record-Herald discussing the Gompers proposition, Mr. George says: Mr. Gompers says that "any attempt to cut wages will be disputed" by the unions; that they "will make a stand against it." Most assuredly they will. Yet I cannot say that I support the grounds of justification. He says: "We will make a stand against it, not alone because it is uneconomic and unwise, but because it simply accentuates the industrial crisis and gives it greater strength."

Now, why is it "uneconomic" for employers to try to reduce wages and why is it unwise? The employer, to use the language of common speech, buys labor. It is his purpose to buy the labor and labor at as low a figure as he can and to sell the fruit of that labor at as high a price as possible. This is in accord with the principle we all follow—namely, to buy what we want in a cheap market and to sell what we have in a dear market. It accords with the fundamental law of political economy, which is, that each individual will seek to satisfy his desires with the least exertion.

If this be true there can be nothing "uneconomic" in the attempt of employers at this time to reduce wages. That is what they strive at all times to do. If they do not succeed at other times it is because of the prosperous condition of industry and the large demand for labor and its consequent rising scarcity. But when the industrial world ceases to be so prosperous, when manufacturers have fewer orders and the opportunities for employment are not so numerous, then the wages that laborers can demand and that employers will be compelled to give will be reduced.

These are commonplaces. It seems needless to mention them, yet they must be mentioned when Mr. Gompers speaks of the effort of employers to cut wages as being "uneconomic." On the contrary, it is "economic." Since it is the foundation natural law of political economy for individuals to satisfy their desires with the least exertion, it is in accord with that law for employers to strive to obtain what labor they need at the lowest price they must give, and this, not merely at one time, but at all times.

FLAWS IN VOTING MACHINES.

Ex-Mayor McGuire of Syracuse believes that the use of voting machines is unconstitutional "because of the large number of voters which they disfranchise at every election." Here is his testimony:

"I know in one instance in our Syracuse election of November, where 200 voters in one election district were disfranchised, and I know of a second instance where in another district 100 voters were disfranchised. Now, every man's vote should be counted, and every man should be enfranchised. But the voting machines operate against the voter and, consequently, they are a menace to our elections. I believe myself that if a test is made today after experience with Syracuse and Buffalo to have had with voting machines in the recent election the system of voting machines will be declared unconstitutional.

This is interesting in view of the fact that Mr. McGuire was responsible for introducing the machines in his home city. His assertion that they have not stood the test is re-enforced by the experience of other New York cities where these appliances have been given a longer and more thorough trial than in any other part of the country. The complaints of the machines' shortcomings are many. They may be summarized in the statement that they can be and have been successfully tampered with; that secrecy is not assured, since it is possible to tell by the sound whether straight or split tickets are being cast, and that mechanical imperfections cause failure to register votes and, consequently, disfranchise voters. Syracuse was not alone. All these complaints were heard in Buffalo after the last election, and the city council has decided to investigate the whole subject. Disaffection was expressed also in Rome, Troy, Oswego and smaller towns.

In Rome, for example, certain independent candidates were nominated in the prescribed legal form, but it was found impossible to register the vote cast for those not supplied with separate columns. The Oswego Palladium called attention several days before the election to the fact that it would be possible to vote twice for certain candidates. It asserts that this was done. In the same city, too, a remarkable thing took place, if the machines told the truth, for a large proportion of men who went to the polls refused to vote for either candidate for mayor. Everywhere the tell tale "click" of the machine declared that a split ticket had been voted.

If this testimony is to be credited, and it is sufficiently impressive greatly to stir the communities immediately affected, it is plain that the voting machine there in use does not insure absolute secrecy, does not prevent repeating, but does prevent that full expression of opinion which the election laws contemplate. No account has been taken of mistakes arising from the haste, ignorance or stupidity of the voter, for these may and do happen where the blanket ballot is in use. Attention is paid only to those mistakes due to mechanical in-

fections. It seems to be the gist of the complaints that a man can never be sure whether his vote is registered as he meant to cast it, if in fact it is registered at all.

The experience of these New York towns is peculiarly important, in view of a movement, more or less general, in favor of the voting machines. It shows that no mechanical contrivance for this purpose is anywhere near perfection, and that the delicate and complicated mechanism is easily impaired by use. The mistakes may not have been serious, but no mistake at all can be risked. The investigation to be set on foot in Buffalo will be watched with interest, and the constitutional objection raised by the ex-mayor of Syracuse merits serious consideration. Other cities will have the advantage of these New York towns' experience, and in view of it may well consider whether it is prudent to discard the election devices now in use until the results of the investigations are known.

Upper Peninsula.

Takes a Logging Contract—H. E. Simmons of Manistique has entered into a contract with Kibbee & White, of Albany, N. Y., to lumber a tract of about 400,000 feet of white pine. The timber is located near the South shore railway at Walker's Pit, between Wetmore and Shingleton and will be cut this winter.

As Commercial Agent—Geo. N. Foresman, formerly of the Soo line and Wisconsin & Michigan, has been engaged by the Manistique, Marquette & Northern as commercial agent, with headquarters at Manistique. Mr. Foresman is one of the best known railroad men in the north and will be a strong factor in pushing the business of the road.

Is Thought to Be Dead—It is regarded now as practically certain that Patrick Curley, an old soldier who formerly made his home at South Manistique in Schoolcraft county, is dead. He has not been heard of for years and his accrued pension has not been claimed. It amounts now to \$600. An effort is to be made to secure a pension for his widow.

To Bridge the Menominee—The Marquette (Wis.) board of supervisors has endorsed the proposition of the Dickinson county board providing for two new steel bridges over the Menominee river at Niagara and Norway. The bridges are to be five miles apart and the estimated cost of the two structures is \$34,000. Each county's share will be about \$17,000.

Peculiar Accident—Jacob Schram of Ontonagon was the victim of a peculiar accident a few days ago. While splitting wood the handle to the axe caught in his clothing and the blade descended upon his left hand, cutting the first two fingers nearly off. Mr. Schram is seventy-six years old and yet during the painful operation of having the fingers dressed he refused to take any anesthetics and bore the pain without a murmur.

Hold Fish for Better Prices—Most of the fishermen at Menominee and vicinity are holding their fall catch of fish for better prices, accounting for the few sales made the past two months. The wholesale fish dealers have not offered any higher than \$2.50 per package while the fishermen insist on \$2.75 to \$3. Some fishermen have sold part of their catch but the aggregate of the sales does not reach over 5,000 packages and this is less than half of the fall catch.

Plan Big Timber Purchase—Fred and Frank L. Carney of Menominee have left for Chicago where it is expected they will close a deal for the purchase of the first two miles of timber in the Georgian Bay district, Canada, with the purpose of erecting a mill plant and operating there in the future. Cruisers who inspected the lands say that the timber is of excellent quality. The lands are situated adjacent to streams so that the timber could be gotten out easily. The deal, if closed, will involve about \$300,000.

Hauled a Big Load—Gustave Theurkauf of Birch Creek, Menominee county, has broken the record for hauling heavy loads of sugar beets to the Menominee factory. With a three horse team he brought in 4,655 tons. The horses weighed 1,400, 1,100 and 1,000 pounds respectively. The average load hauled by a two horse team is about two tons. This heavy load is an argument in favor of good roads and shows that the farmers and others who use them gain in the interest of the long run the county gets back all of the money expended in making the roads, and more too. On a poor road, or even an ordinary road, a load could not have been hauled nearly as heavy as this one. The Menominee county road is one of the best in the upper peninsula.

Released on B. I.—The three Chinamen who have been held in jail at the Soo for some time because of charges preferred against them by the immigration officers, have been released on bail and have left for Chicago, which they claim is their home. May Stone, a wealthy merchant of Chicago, went to the Soo in the interest of the prisoners and looked after their case. It was he who obtained the money necessary to liberate the prisoners. They will appear for trial at the next session of the United States district court at Marquette, which will be held in July. Jack Lynch is also to be released on bail. He is the man charged with smuggling the men into this country. The money with which he is to be bailed comes from Buffalo, where he has been operating for some time past, according to the belief of the authorities.

CHRONIC DIARRHOEA CURED.

Mr. Walter Richardson, of Trentville, Va., had an attack of diarrhoea that came near ending his life. His physician had failed to relieve him and the disease had become chronic when he began using Chamberlain's Colic, Cholera and Diarrhoea Remedy. It soon cured him and he now recommends that preparation whenever an opportunity offers. For sale by The Stafford Drug Co., J. M. Perkins, Negaunee, and Henry Harwood, Ishpeming.

ANXIOUS MOMENTS.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. Sold at Desjardins' Pharmacy.

HERPICIDE Relieves Dandruff Immediately and causes thick, glossy hair to supplant the former thin, brittle growth. Newbro's Herpicide performs its work on the principle, "Destroy the cause, you remove the effect," and consequently it reaches and kills off the ever-busy microbes, which is responsible for all scalp diseases. It thus makes dandruff and falling hair impossible, and promotes a luxuriant growth of hair that soon becomes the pride of the owner. Even on bald spots it soon produces hair as thick and luxuriant as anyone could wish for. One bottle will convince that it is the only hair restorer that really restores. For Sale by all First-Class Drug Stores.

DAMAGES OF \$7,300 AWARDED. AND STILL NO ACTION.
Jury in Circuit Court Decides Bovine Case Against Street Railway.

The jury in the case of Charles O. Olivier, administrator of the estate of Cyril Bovine, versus the Houghton County Street Railway company, a suit for \$25,000 damages, yesterday afternoon in circuit court returned a verdict for the plaintiff. Damages were fixed at \$7,300. The case was given to the jury the first thing in the morning. This was the second time the suit was tried. On the first occasion four dollars damages were awarded on a ruling by Judge Streetier that damages could only be given for the time lost by Bovine between the hour of the accident and that of death. The verdict was thrown out by the supreme court and a new trial was granted. Bovine was injured on June 15, 1902, being struck by a street car, and died two hours later.

FARMERS' INSTITUTES.
A series of one-day farmers' institutes has been arranged for Houghton county by Leo M. Gossard, superintendent of the experimental farm at Chatham, acting in conjunction with L. R. Taft, superintendent of farmers' institutes for Michigan. Secretary Ira E. Randall of the Houghton County Agricultural society has received a list of the dates. It is as follows:
Chassell, Dec. 9, afternoon and evening.
Hancock, Dec. 10, afternoon and evening.
Calumet, Dec. 11, afternoon and evening.
Lake Linden, Dec. 12, afternoon and evening.
Atlantic Mine, Dec. 14, afternoon and evening.
Alston, Dec. 15, afternoon and evening.
Topics that will be discussed are: Small fruits and their care; poultry and how to handle it; sheep and clover; crops for the general farmer; feeding of livestock. Professor Geismar will conduct the sessions, assisted by Mr. Randall. It is believed that the institutes will be better attended than those recently held at Baraga and Houghton, as the farmers are not now so busy.

BADLY BATTERED UP.
Victor Gedda, employed as a delivery clerk by a Franklin location baker, appeared in Justice Brand's court at Houghton yesterday morning in a badly battered-up condition. The greater part of his face was covered with bandages crossed in all directions and two or three of his fingers were bound up. He was the complaining witness in an assault and battery case. Edward Broemer, a South range miner, was the accused. Through an interpreter Gedda told the court that he was set upon by Broemer the afternoon before while delivering bakery goods in the town of South Range and was badly beaten. Not satisfied with giving him one beating, Broemer, according to Gedda, went at him a second time, the second assault being worse than the first. Broemer did not deny the beating and Judge Brand fined him \$5 and costs. Gedda stated that his dog was following his wagon at the time of the assault and that as Broemer came riding along on horseback the dog started to bark at the latter's horse. Broemer threatened to maul Gedda if the dog was not called away and he proceeded to carry out his threat. He first brandished a knife, but finally put it in his pocket and went at Gedda with his fists.

CURLING CLUB MEETING.
An important meeting of the Portage Lake Curling club will be held at the Douglass House this evening. A permanent organization will be effected. Names of the charter members will be enrolled and the objects and purposes of the club will be stated. Everyone at Portage Lake interested in the game is expected at the meeting. The members are entering into the project with a good deal of enthusiasm and the game promises to be popular. The committee appointed to see about renting the Palace rink on the Hancock shore, opposite Houghton, probably will report this evening.

WEDDING THIS MORNING.
Miss Elsie Blanche Hooper, daughter of Captain George Hooper, of the Victoria mine and Charles Ray Everett of Victoria, formerly of Marquette, will be married at 10:30 o'clock this morning at the home of the bride's parents. The young people will leave this afternoon for a two weeks' wedding trip to Milwaukee and Chicago. Mr. Everett is employed as clerk at the mine. Mrs. Dickens and son, M. R. Dickens, of Houghton left yesterday to attend the wedding.

ANNUAL CHURCH FAIR.
The annual fair for the benefit of St. Patrick's church of Hancock will be opened in St. Patrick's Hall Friday evening and will continue for ten days. A large number of prizes have been donated by local merchants and members of the congregation. The Lady Fortresses and the members of the Ladies' auxiliary to the Hibernians will have charge of the various booths. The ladies will look after most of the arrangements. The hall will be nicely decorated for the event.

JUST AS A FIRE
spreads in dry grass and weeds, so does an inflammation of the throat—the result of a cold—grow down into the sensitive air passages of the lungs. The cold, like the fire, should be promptly dealt with. When you begin to cough use Allen's Lung Balm. It will certainly heat the sore throat and lungs and it may save you from consumption.

Foley's Honey and Tar for coughs and colds; reliable, tried and tested, safe and sure. Sold at Desjardins' Pharmacy.

A CARD.
We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

VANDERCOOK RESIGNS.

Director of the C. & H. Band Accepts a Position at Michigan City.
H. A. Vandercok, director of the Calumet & Hecla band and the man who has been largely responsible for the organization's present state of proficiency, has resigned. He will leave Calumet soon to take charge of Ames' Second Regiment band at Michigan City. He has had several good offers of better positions and has had the matter of resigning under consideration for some time. Mr. Vandercok has been with the Calumet & Hecla band for three years. Six months after he took charge the musicians went to Milwaukee and won the thousand dollar prize offered at the Edgewater carnival by the local musical organization. He was always a hard worker and the success of the band has been largely credited to him. His departure will be regretted, not only by the musicians, but by a large circle of friends.
Although Mr. Vandercok's successor has not yet been appointed it is said that Henry C. Abeel, who recently arrived from Toronto to take the position of director of the Calumet & Hecla band, may succeed him. Mr. Abeel will at least take temporary charge of the band.

HOKEYITES AMUSED.
Portage Lake hokeyites were considerably amused yesterday when they heard that Duluth expects to have a team during the approaching season that will make the locals "play fast to win." This reminds them of the grade exhibition put up by the team Duluth sent to Houghton last winter, and they say that if this season's seven at Duluth is not any better, last year's performance is likely to be repeated. Duluth is nervous, however, and they report that another attempt will be made to get a team together to meet Portage Lake. Seriously speaking local people would like to see hokey introduced in Duluth to the extent that it is played here. It would mean more good sport in the states and would serve to spread the interest in the game. The only reason that retarded the progress of the game in Duluth last season was the lack of a suitable rink.

SAILORS DESERTING.
Lake captains are experiencing some difficulty in securing sailors and wheelmen to take positions which happen to fall vacant while the boats are in port. At the head of the lakes many men leave their berths on board vessels at this time of the year and take jobs in the woods or something else more agreeable than sailing. The woods are attractive and in the spring the men are no difficulty in getting on the boats again. The same trouble is experienced by captains at the lower lake ports, where men will quit to follow other vocations. Although this state of affairs is not so pronounced as it is at the upper lake ports, nevertheless a little delay and annoyance. The wheelmen are receiving \$95 per month and will be paid that amount until the close of navigation.

WILLING TO WRESTLE ROWETT.
William Jones, the wellknown Calumet wrestler, has accepted the challenge of "Jack" Rowett of Ironwood and it is likely that the men will come together at Calumet at a near future date. Rowett has not wrestled in recent years, but he is again anxious to get back in the game. Jones says he is willing to wrestle for a side bet providing Rowett can come down in 160 pounds or near it. If Rowett finds it impossible to reduce his weight the Calumet man says he will go into the match for the gate receipts, winner to take 75 and the loser 25 per cent. Rowett is considerably heavier than Jones, and it is not known whether he could come down to the latter's weight. There is no doubt that a match between the men would prove a good drawing card.

PRIMARY SCHOOL MONEY.
County Treasurer W. Frank James has received a draft for Houghton county's share of the primary school interest fund. The amount is \$55,135, apportioned among the various townships as follows:
Adams \$ 3,300.00
Calumet 21,862.50
Chassell 967.50
Duncan 425.00
Egan 200.00
Franklin 3,615.00
Hancock 4,567.50
Laird 315.00
Oceola 6,640.00
Portage 4,280.00
Quincy 11,032.50
Schoolcraft 5,805.00
Stanton 10,030.00
Torch Lake 795.00

GOOD TO RETURN SATURDAY.
E. C. Griffin, general agent for the Northwestern road, said yesterday that the special rate tickets to Chicago over the Northwestern line for the Michigan-Chicago game on Thanksgiving Day will be good to return Saturday evening, Nov. 28, instead of Friday evening, Nov. 27. This arrangement will give copper country enthusiasts who go down to see the game one more day in Chicago. The tickets will be good on Wednesday, Nov. 25. All those desiring seats at the big game may procure them from Mr. Griffin.

COPPERDOM BREVITIES.
Construction work is being pushed on the new Light Guard Armory at Calumet. The roof is about completed and this week all exterior work will be stopped and attention paid to the interior work. The interior finishings will be pleasing in appearance but nothing elaborate.
A LINGERING COUGH
The cough that holds on in spite of all remedies needs energetic and above all thorough treatment. A mere cough mixture won't do. Root out the cold that causes the cough.
How? Scott's Emulsion.
Why Scott's Emulsion? Because it stops the irritation, soothes the tissues and heals the affected membranes.
When? Right away. Scott's Emulsion begins to help with the first dose.
We'll send you a sample free upon request.

MINING NEWS
On all levels of the Quincy mine where tramming is done by electricity the wooden tram cars are being replaced by steel cars. The old cars were too small and could not stand the hard usage. The new cars are constructed of one-half inch steel and are seven feet long, four and a half feet wide and four and a half feet deep. Each will hold three tons of rock. There is but little difference in the weight of the cars. The new cars are being built in the Quincy shops.
The drill sharpener set up in the Quincy blacksmith shop is temporarily out of commission. The dies which with the style of the bits of the drills used by the company, and a new set of corresponding dies has been ordered. It is said that the machine is capable of giving satisfaction and that it will do good work when the new dies are received. It is believed that the time is coming when drill sharpening machines will be in use at all mines in the district.
Tonopah will be connected by railroad with Soudaville, the nearest railroad point, in less than six months. The effect of the road on the activities of the camp will then soon be apparent. A. Tripp, superintendent of the Rhodes & Tonopah Railroad company, which will build the road, and Paul Eigelhart, the engineer who will be in charge of the construction work, are now at the camp. The entire line has been surveyed and many of the ties have been purchased. Mr. Tripp is negotiating for rails. It will be a narrow-gauge road and will be supplied with a permanent concrete constructed. The Tonopah Mining company is largely interested in the venture.
An intercommunicating telephone system is being installed at the Quincy, another step in the march of progress for which the company has been noted during the last few years. The shaft and rock houses, shops, engine and boiler room, offices and all buildings will be supplied with phones, which will total twenty-five in number. The line also will be extended to the Peawick branch. The system will be operated from an exchange which will be located in a new building especially constructed for that purpose. It is located back of No. 7 shaft. The system will be complete in every respect and will be found very convenient. It will be in operation in about two weeks. The work of stringing the wires is under way.

THE MARINE SEASON OF '03.

It Has Held Mighty Little Joy for the Shipping Interests.

Navigation for 1903 is about over, says the Detroit Tribune in a review of the season. Many vessels are already in winter quarters and dozens more are now on their last trips. Of course there will be some boats out until Dec. 1 or later, but the bulk of the business is over and these late craft will simply take care of the dribblings. The closing of the season is the earliest in years.

The present season on the great lakes from a freight standpoint will go down into history as one of the most peculiar in the recollection of the oldest ship-owners and it is safe to venture that the majority of them are glad that it is about over. These owners claim that only the largest boats will show a balance on the right side of the ledger for the season's work, while the smaller vessels were operated at times at a positive loss.

Many agencies were responsible for these conditions, chief among them being the unprecedented delays at the loading and unloading ports and the high wages paid the crews. Vessel men are a unit in declaring that the trouble really started when contracts were made with the unions last winter. The agreements were made, however, because it was thought at the time that they would tend to the smooth running of the industry during the open season. The year opened with about the same rates prevailing as last year.

Three Weeks' Delay.

Going back to the opening of the season it will be remembered that the strike of the firemen, oilers and water-tenders practically held up navigation for nearly three weeks. This trouble was thought to be the last and the owners settled back to enjoy a fair season. By mid-season, however, the delays became numerous and boats were held at some ports for a period of ten days in a stretch, something never before known. On these occasions were piling up all this time with no returns coming in.

Another feature of the season was the strike of the Masters & Pilots' association, directed against the Pittsburg Steamship Co. This was the first walk-out of its kind in the history of the lake marine, and for a time the entire commerce of the inland seas was threatened. The strike proved conclusively the strength of the officers' organization, which is practically new on these waters.

The men won their point, and with the settlement the steel trust went after outside business, underbidding independent owners on grain and coal. Some

SAUER KRAUT?

WELL, VE HAFT GOT IT YET, ALREADY.

J. SIEGEL.

A WAY OPEN.

Many a Marquette Reader Knows It Well.

There is a way open to convince the greatest skeptic. Scores of Marquette people have made it possible. The public statement of their experience is proof of the like which has never been produced before in Marquette. Read this case of it given by a citizen:

Mr. A. Hoard of Dead River mill, says: "There was a dull aching pain across the small of my back and in my kidneys at times so severe that I could hardly stand it, particularly if I caught cold or did any heavy lifting. I took medicine at different times, but the trouble still remained as bad as ever. When I saw Doan's Kidney Pills advertised I got a box at the Stafford Drug Company and used them. The treatment cured me."

For sale by all dealers. Price 50 cents per box. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

OWNERS LOOKED UPON THIS AS REVINGE, because the trust was not backed up in its trouble with the masters and pilots. There has been a steady slump in the movement of iron ore during the past month, and it is of course more pronounced now, so that there is practically little left to be carried down. If the total movement of this season is to exceed 24,000,000 tons, rail shipments will have to be made.

As if to add to the worries of the owners, the steamer John N. Glidden was sunk in the St. Clair Flats canal Oct. 9, almost blocking the narrow channel and causing more exasperating delays, as well as heavy towing bills. A portion of the wreck still remains.

The losses by foundering and otherwise have been confined almost wholly to wooden craft during the season, and some thirty-two of them, all classes and sizes, are out of the business for good. It is figured that the underwriters had to settle nearly \$1,000,000 worth of losses to the old-timers and their cargoes.

Gilchrist Losses.

In connection with the losses the Gilchrist Transportation Co. figures uniquely, seven of the company's boats being totally lost or were abandoned. They were the steamers V. Swain, Waverly, Manhattan and burge Moonlight.

From present indications the casualty list by reason of vessels foundering will be much smaller than last year, when a large number of lives were sacrificed on the different lakes. The loss of the little steamer Erie L. Hackley, on Green bay, Oct. 2, in which twelve persons perished, is the worst to date. Three lives were lost when the steamer Chemung ran down the tug Cheney near Buffalo, June 23. Two more were lost in the wreck of the steamer W. F. Sauber on Lake Superior, Oct. 23.

The crews of other vessels had narrow escapes, but by some stroke of good fortune or the heroism of lifesavers, they were spared from watery graves. Of course many sailors lost their lives by accident, but the list is not yet complete.

Leaving the ore, grain and coal trade, a glance at the lumber carrying industry is of interest. The owners of this class of tonnage likewise had their troubles this season, and it began with the making of season contracts with the unions, the first ever made. The season had not advanced far before the carriers knew they were up against a bad proposition. In the first place, their boats were not classed, and the little fellows were obliged to hand out as much in wages as the large craft. The lumber markets of the East were given W. F. Sauber a building strike, and the season had a very bad outlook, that did not improve until a month or so ago. Rates went up and shippers could not secure enough boats to carry their product. The same condition exists today. There is one bright spot on the season's business, however, and Detroit figures in it to a large extent. That is the passenger trade. The season of 1903 was better than in many years before, which is saying a deal, when it is considered that about 6,000,000 people traveled by water on the lakes in 1902, and of this number Detroit steamers carried almost a third. The total for 1903 should be largely in excess of this number.

Outlook for 1904.

What next season has in store for freight traffic cannot be foretold, but it is safe to say that the associations will deliberate long and earnestly before agreements for 1904 are made. In commenting on this point the Marine Review says: "Present outlook as to the lake trade next season it is quite possible that there will be so little to do as to leave no room for the struggle that has been looked for between labor organizations and the vessel owners. If differences are to be amicably arranged, however, a little more harmony than now exists in some of the organizations,

COURT DENOUNCES THE RICH.

Millionaires in Autos Becoming a Curse to Common People.

New York, Nov. 17.—In a sensational statement made in the Harlem police court, Magistrate Crane denounced the wealthy for their cold indifference to and disregard of poor people. Magistrate Crane made the statement in holding a \$300 bail for trial Jackson Gouraud on a charge of running an automobile over the speed limit.

"The power of wealth," he said, "is becoming one of the greatest evils in this country. Men, when they get rich, have no kindness toward others as when they are in automobiles. Wealth is becoming so powerful that there will have to be some legislation enacted to curb it. The state of things is becoming terrible when rich people can ride over poor people in the streets and escape without punishment. Rich people generally don't care for anybody."

Hall's Family Pills are the best.

UNCLE SAM SHIPS ELOPERS.

Wife of a Wine Merchant Must Return to France With Lover.

New York, Nov. 17.—Down on Ellis Island, waiting to be deported, are Mme. Eugenie Boucot Isner, wife of one of the wealthiest wine-merchants of France, and Albert Jules Lathuraz, for whom she gave up her husband, her children, her wealth and her home to flee to America.

"But, messieurs, there was no harm, because we love each other," she protested in a naive way to the business-like immigration officials, who decreed they should go back to France. "I told my husband I would leave him some time, for I was tired of him."

The beautiful Eugenie was told she would have to go back to Paris to face the law. She argued and expostulated, but there was her own admission that she had 3,000 francs of her husband's money and had left him for Lathuraz. Lathuraz is a slight, curly-haired chap not twenty years old, while Mme. Isner is thirty-two.

Small waists are no longer in style. It's the round plump waists that come by taking Rocky Mountain Tea that's all the go. 35 cents. Stafford Drug Co.

Suits and Overcoats

may be seen at our store. Anything you like. The above applies to both men and women.

JOHN GATELY CO.
ISHPEMING, MICH. WITH THE BIG ELECTRIC SIGN.

Ishpeming and its Environs.

WANT THANKSGIVING GAME.
Blaine Team of Superior Desires to Meet Ishpeming.

THEATER DIRECTORS MEET.
Tuesday, Dec. 1, the Date for Drawing Seats for Opening.

The Blaine team of Superior, one of the strongest aggregations of its class in this region, has written the management of the high school eleven asking for a game Thanksgiving Day. It is not yet decided whether the offer will be accepted. Conditions are rather unfavorable for football just at present. The boys have been unable to practice for the past two nights on account of the snow and the chances are poor for obtaining a clear gridiron again this year. The offer from the Blaine team would no doubt be accepted if it were possible to get into condition for the game.

The Superior eleven has won seven consecutive victories this season and has been scored on only once. It defeated the Duluth Central High, Ishpeming's old friends, a few weeks ago. The Blue has been anxious to get a crack at Duluth all the season, but the Cliff Dwellers have turned down all propositions advanced by the local management. A game with the Blaine would give Ishpeming an opportunity to find out how the eleven compares with Duluth.

Football prospects for next year are a popular subject since Escanaba won the championship. Ishpeming's team will lose several of the best seasoned men and players will have to be recruited from the ranks of green candidates. The eleven will not lose so many players as last school last year, but those who will drop out count for a good deal in the line-up.

PREMIER MAGICIAN.
The next attraction at the opera house will be Powell, an illusionist and magician. He will appear here Nov. 21. In speaking of Powell one of the leading newspapers of New York says: "The great Powell is a refined and suave entertainer and a very clever magician. There are a number of extremely neat deceptions practiced upon the audience and as his work progresses it gains in magnitude the feats attempted. The vaudeville support is bright and neat and comprises many well known and popular artists, including Lazell and Vernon, in a comical absurdity; Robert Macaire; Dick and Dick, in a comical horizontal bar and boxing act, and several others."

ISHPEMING IN BRIEF.
Dr. Nelson P. Hulet was here yesterday.

Mr. and Mrs. T. E. Ludlow arrived home from their wedding tour Monday.

Will Watson arrived home yesterday from a hunting trip. He brought back two deer.

Will Gleason has returned from Colorado, where he has been located for several months.

The library will be closed today on account of the installation of the new heating plant.

A. J. Dishno and company, who recently purchased Beal's restaurant, have made several improvements.

Loeb & Hammill of Appleton, horse dealers, have subscribed for tickets for the new theater, through John T. Burke.

A party from the Johnston House enjoyed a sleigh ride to the Country Club last evening, the guests of W. M. Boaz.

St. Bridget's court, Lady Foresters, will entertain their gentlemen friends and the ladies of the Negaunee court tonight at Convent hall.

For the great football game at Chicago Thanksgiving Day, between Michigan and Chicago, the Northwestern offers a special rate of one fare, \$10.35 for the round trip. Tickets will be on sale Nov. 25.

John Zoberlein has taken a position as assistant bookkeeper at the Ishpeming Co-operative store. Mr. Zoberlein is a former Ishpeming man, returning here from Bessemer, where he held a similar position.

Ore shipments are proceeding at a lively rate from the East New York mine. A steam shovel will be set to work today to remove the ore from the stockpiles. Night and day forces are employed in loading the cars.

A surprise party was given in honor of Flora Davis Monday night at her home on North Lake street, the occasion being her birthday. A large number of her young friends were in attendance, spending a very enjoyable evening.

Frank Zoberlein and wife celebrated the fortieth anniversary of their marriage a few days ago. They entertained a number of their friends at cards in honor of the event, and served a dainty lunch. They received many beautiful presents.

Professor M. W. Broman is here from Calumet, where he recently accepted a position as musical director in the Swedish Lutheran church. He is very much pleased with his situation. His family will move to Calumet the latter part of the week.

The advent of cold weather has caused an interruption in work on the new library, leaving the front entrance partially completed. The big stone pillars are in place but a good deal yet remains to be done. Work is still going on, however, on the interior.

SUNDAY DINNERS.
The Dishno restaurant (formerly Beal's) is open day and night. Good service; prices reasonable. Oysters any style. Regular dinners served daily. Sunday dinners a specialty. (11-18-19)

Great variety of fur goods, including jackets, coats, muffs, etc. Prices away down. N. K. SKUD. (11-12-19)

IRON NOTES.

The United States Steel Corporation has begun opening another mine in the Hibbing district, called the Niles. There are more than 10,000,000 tons of good ore in the deposit, and it is to be mined underground. This makes two large mines the corporation is opening near Hibbing.

Mining men take very little stock in the reports of a new range parallel and a few miles south of the Gogebic, and look upon money spent there as wasted. The pits sunk by a few enthusiastic miners are understood to be bottomed in granite. Iron ore, in merchantable grades and quantities, does not occur in the granites.

At the old Taylor mine, near L'Anse, forty men are working uncovering the ledge, which is said to show up well. Those in charge say they have run into an important discovery, and that the Taylor district will once more become a producer, and a far larger and more permanent one than before. This mine was worked in a small way thirty years ago, but was abandoned absolutely long ago.

The work of exploration in all Lake ranges is pretty well stopped, and on the Mesaba range fully one hundred churn drills have been stored within the month. On the Vermilion there are but three drills working. Even on the Baraboo district, where most deep exploration has been looked for now, there is not much new work. Churn ranges are all quiet, and there is scarcely a drill or shaft exploration under way anywhere.

Shipments from all ranges are practically over for the year. Coal and iron ore are sent along the lakes for three weeks yet, and the fall grain movement promises to be large, but at its best this trade is infinitesimal in point of tonnage with ore. A million tons of ore is not very much, so far as tonnage is concerned, but \$7,000,000 bushels of wheat is quite a shipment, and the two are equivalent. There are probably three or four million bushels of wheat to go down from Duluth yet this year and perhaps half a million tons of coal to come into Lake Superior. Aside from lumber and package freight, which do not enter into competition with the other articles, there is all that vessel men can see from now to the close of navigation. At this time last year there were several million tons of ore to be moved.

It is very evident now that iron mining all round Lake Superior has been largely overdone, and that the business of 1904 will not be large, comparatively speaking. This will be true no matter what may be the outcome of present questions of price and furnace consumption, for there is an immense stock of ore at some of the lower lake ports, and at Conneaut, which is the Lake Erie terminal of the Carnegie road to Pittsburgh, there is ore still on hand that was received there more than a year ago. An enormous quantity of ore has been taken at Conneaut and stored. For a long distance around the dock and terminals the receivers have been leasing property and have hauled back ore from the water front and stacked it, awaiting consumption. Of course this is a good move, in that it maintains a reserve as a sort of balance wheel against possible strikes on the lakes, and at mines, delays and difficulties of any sort that may arise anywhere between the mines and the furnaces. But it is probable that much of this stored ore will be melted before the quantity mined and shipped forward from the upper lake ports will reach any such amount as in 1902. This ore has been mined, shipped, delivered and paid for, and represents an asset of millions of dollars. The United States Steel Corporation and other shippers will now have to get something out of this asset and will proceed to realize. This is one of the secrets of the lessened movement this fall, and of the certainty of a light operation of mines, on all ranges, the coming winter.

All the latest styles in trimmed hats, below cost until Thanksgiving. Miss H. Kennedy. (11-17-24)

BOARDERS WANTED.
Good sleeping and boarding accommodations, board by day or week, at Harper's restaurant, Nos. 116 and 118 Cleveland avenue. (11-10-24)

Military goods below cost from now until Thanksgiving. Miss H. Kennedy. (11-17-24)

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Drug stores or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. Sold at Desjardins' Pharmacy.

J. SELLWOOD & CO.

Sure Relief for Women.

No. 38 Central Ave. Herkimer, N. Y. April 30, 1901.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any.

A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years. I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels weak and tired of life.

Anna Nelson
GATOR, WEDNESDAY CHAUNOQUA CLUB.

WINE OF GARDUI

Mrs. Nelson describes the condition of thousands of women. That condition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No woman who takes it suffers as Mrs. Nelson suffered. It gives speedily and complete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.

THE FIREMEN'S BALL.
The members of the fire department will at once begin a canvass for the annual ball Thanksgiving eve, Nov. 25, at Braastad's Hall. The tickets will be \$1 per couple. Supper will be served at the Nelson at a charge of \$1 per couple. A souvenir program will be provided. The committee in charge consists of Chief Forester; Assistant Chiefs Trembath and Kruse; Secretary Koutier and Treasurer McNamara.

STICKNEY RESIGNS.
John Stickney has resigned the management of the Ishpeming Livery Co., and will leave the first of the coming month for Herman where he will conduct a general store. The building he is to occupy is now in process of construction. It will be twenty-four by forty in size and Mr. Stickney and his family will reside up-stairs. It will be the only store in the town. The directors of the livery company will meet tonight to elect a new manager.

FROM SOUTH AFRICA.
New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy next the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby." This remedy is for sale by Stafford Drug Co., J. M. Perkins, Negaunee, and Henry Harwood, Ishpeming.

Ladies', misses' and children's cloaks, jackets, suits, skirts, etc., arriving daily. Great assortment of new goods. Prices right. N. K. SKUD. (11-12-19)

HE COULD HARDLY GET UP.
P. H. Duffy of Ashley, Ill. writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold at Desjardins' Pharmacy.

RHEUMATISM

NOT A SKIN DISEASE.

It is natural to rub the spot that hurts, and when rheumatic pains are shooting through the joints and muscles and they are inflamed and sore, the sufferer is apt to turn to liniments and plasters for relief; and while such treatment may quiet the pain temporarily, no amount of rubbing or blistering can cure Rheumatism, because it is not a skin disease, but is in the blood and all through the system, and every time you are exposed to the same conditions that caused the first attack, you are going to have another, and Rheumatism will last just as long as the poison is in the blood, no matter what you apply externally. Too much acid in the blood is one cause of Rheumatism; stomach troubles, bad digestion, weak kidneys and torpid liver are other causes which bring on this painful disease, because the blood becomes tainted with the poisonous matter which these organs fail to carry out of the system. Certain secret diseases will produce Rheumatism, and of all forms this is the most stubborn and severe, for it seems to affect every bone and muscle in the body. The blood is the medium by which the poisons and acids are carried through the system, and it doesn't matter what kind of Rheumatism you have, it must be treated through the blood, or you can never get permanently rid of it. As a cure for rheumatic troubles S. S. S. has never been equalled. It doesn't inflame the stomach and ruin the digestion like Potash, Alkalies and other strong drugs, but tones up the general health, gently stimulates the sluggish organs, and at the same time antitoxins and filters out of the blood all poisonous acids and effete matter of every kind; and when S. S. S. has restored the blood to its natural condition, the painful, feverish joints and the sore and tender muscles are immediately relieved.

Our special book on Rheumatism will be mailed free to those desiring it. Our physicians will cheerfully answer all letters asking for special information or advice, for which no charge is made.

FOUL PLAY SUSPECTED

AUGUST CORBELL RUN OVER BY CARS EARLY YESTERDAY.

However, It Appears He Was Dead Some Time Before Train Struck Him.

Yesterday morning the freight train that reaches here at three o'clock ran over the body of a man, lying prostrate on the rails, in the rock cut below the cemetery. The train, under full speed at the time, proceeded some distance before the trainmen were aware of the occurrence. They declare that when the body was picked up life had been extinct for several hours, as the corpse was cold and stiff. The body was left beside the track and on arriving here the train crew notified the police of their ghastly find, at the same time turning over to the officers a man whom they had captured a short distance from the place where the train stopped in the cut. The fellow was intoxicated and seemed entirely bereft of his senses. His actions were peculiar, giving rise to a suspicion that he had had a hand in bringing about the death of the man who was crushed beneath the wheels. The prisoner was lodged in the jail. Coroner Prin impelled a jury and went to the place where the corpse was lying at about six o'clock. The body was brought to the city and placed in Dawe's undertaking rooms.

An investigation by Marshal Gribble led to the identification of the remains as those of August Corbell, who was employed at the Queen mine. It was learned that he had spent the evening in town, about different saloons, in company with two of his countrymen. One of them was the fellow picked up near the place where the body was found. The proprietor of the boarding house alleges that the third member of the party came in at about 11:30, alone. He went to work as usual yesterday morning. All of the trio were employed at the Queen mine. Corbell, who was recovered his wits the marshal questioned him closely, but gained little information, he being very evasive and guarded in his answers. The other party was also corralled, but little could be learned from him that would assist in unravelling the mystery.

Corbell's body bears a bad scalp wound and a cut on the face. The wheels of the locomotive passed over both the legs. It has not been determined with certainty whether the hurts on the head were produced by the train or were the result of an encounter with his companions. If Corbell was murdered before the train struck him, the motive could have been robbery, for \$12 in money and a time check for \$48 were found in the dead man's pockets. If he was slain his death was more likely the outcome of a quarrel. A man who lives near the railroad track, but a considerable distance from the rock cut, says that he saw several men fighting savagely on the railroad just before the 11:25 train arrived.

Interesting developments are expected from the inquiry by the coroner's jury, which meets Friday.

ONLY MAKES A BAD MATTER WORSE.

Perhaps you have never thought of it but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and in their effect, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them from the Stafford Drug Co., J. M. Perkins, Negaunee, Henry Harwood, Ishpeming.

LOCAL LACONICS.

Mrs. C. Martel is at Escanaba, visiting her sister, Mrs. A. Clement.

William Villeneuve, of Munising, was a Negaunee visitor yesterday.

W. B. Groesbeck and wife of Escanaba were in the city Monday.

A hot water heating plant has been installed in Werner Nikander's new residence.

The fire department's outfits were changed from wheels to runners yesterday. The chief concluded that the snow has come to stay.

Misses Rose and Lydia Villeneuve, who have been here for several days visiting friends, returned to their home at Champion Monday.

The report that Louis Legault, of Sparta, Minn., had been shot while hunting near his home was incorrect. He died in a hospital at Evelet, a victim of pneumonia. Relatives who went from here to attend the funeral arrived home Saturday.

A woodsman named John Colter passed through here yesterday morning on the way from Bruce's Crossing to Oconto. He had met with a serious accident Monday, losing all the fingers on one hand. The wound was very painful.

The Escanaba lodge of the Brotherhood of Railway Trainmen have sent out posters advertising the fifty annual Thanksgiving ball Wednesday evening, Nov. 25. Those who attend from here will make the trip on the regular trains leaving Wednesday evening and returning the following morning.

The snow storm interfered with the street car service early yesterday morning, but after the line had been cleared the usual schedule was maintained. The temperature dropped to the lowest point it had reached this season. Reliable weather prophets say that the sleighing will now be good until spring.

Dr. Weaver's Syrup and Corrosive. Successful treatment for blood and skin diseases.

A POLICEMAN'S TESTIMONY.

J. N. Patterson, night policeman of Nausla, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold at Desjardins' Pharmacy.

HIS FRIENDS DESPAIR.

Snow Storm Took Away Hope of Finding Stephen Nichols Alive.

The chances of finding Stephen Nichols, the young deer hunter lost near Floodwood, appear very remote since the heavy snow storm of Monday night. Even the most sanguine of the searchers began to lose hope when the storm came up. There are few now who expect to discover any trace of the young man until the thaws in the spring reveal his dead body. It seems impossible that Nichols could have survived, wandering about in the bleak wilderness without food or protection from the bitter cold. The fall of snow Thursday, the day he was lost, was much heavier in the Floodwood district than here. Men who have visited the locality say that the dense swamps which are difficult to travel through even when the ground is bare and dry, became well nigh impenetrable after a snow storm.

It is thought that Nichols became confused and exhausted in attempting to make his way through the snow, and finally sank down in his tracks, unable to move further.

A hunter who was camping in that vicinity Thursday night was in town Monday. He said that he heard three shots fired in quick succession at about eleven o'clock. However, he paid no attention to them, as he thought some hunters were shooting at game.

The tract is of such wide extent and so hard to travel over that it would require a small army of men well skilled in woodcraft to explore it thoroughly.

MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attending on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over a half-century.

August Flower cures the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. Stafford Drug Co.

Champion.

Ed Lally came up from Ishpeming the latter part of last week on a few days' visit to M. Belhumer's family.

Taking effect Nov. 3rd, Dr. C. M. Owen will be at his Champion office Mondays and Tuesdays and the remaining days at the Republic office.

The shipments of ore from the Champion mine stockpile have been brought to a close. The last of the loaded cars were taken from the mine Monday.

Eugene Marchand, who spent the past three or four months at Duluth, has returned, and is again in the employ of his father, who conducts the Beacon livery.

B. R. Delorimier has taken a position as bookkeeper in the main office of the Cleveland-Cliffs company at Ishpeming. He began work yesterday. His family will remain here for the winter.

F. S. Moniac, superintendent of the Champion schools, shot a fine duck Saturday. It was his second trip to the woods since the season opened. The professor is an enthusiastic hunter.

James McNevin, of Champion, is now a member of the antlered herd, he having been initiated in the Ishpeming lodge last night. He was accompanied down by Ed Paul, who has been an Elk for over a year past.

John Beldo, who has been employed as clerk at the Champion Co-operative store for the past three or four years, has gone to Ishpeming, where he has accepted a position in the Peninsula bank. He will do the collecting.

There are not as many deer coming in as there were last year, in proportion to the number of hunters in the woods. Those who went out and remained a day or two, returning without a carcass, are planning on going into the woods again before the season closes.

Will Villeneuve, who recently resigned his position with the Champion Co-operative society, will open a grocery store at Munising, in the bank building, Dec. 1. Will has had considerable experience and he will doubtless be successful. His stand will be one of the best in the town.

A BLOW IN THE BACK.

An overcoat is a necessary nuisance and the tendency to take it off on warm days in late autumn and winter is as strong as it is unwise. A treacherous wind hit you in the back and the next morning you have lumbago. Rub well and often with Perry Davis' Painkiller and you will be astonished to find how quickly all nervousness is banished. There is but one Painkiller, Perry Davis'.

VERY LOW RATES.

To International Livestock Exposition at Chicago.

Via the North-Western line. Excursion tickets will be sold Nov. 29, 30, and Dec. 1, limited to Dec. 7, inclusive. Apply to agents D. S. & A. R'y., or P. C. Griffin, G. A. C. N. W. R'y., Houghton, Mich. Phone 269. (11-3-30)

LOW RATES TO CHICAGO AND RETURN VIA C. M. & ST. P. RY.

For the International Live Stock exposition at Chicago Nov. 28th to Dec. 5th the Chicago, Milwaukee & St. Paul R'y. will sell round trip tickets at greatly reduced rates. Tickets sold Nov. 29th to Dec. 1st good to return Dec. 7th. For further particulars enquire H. E. Stewart, Commercial Agent, Houghton, Mich. Phone 339. (11-4-30)

LOW RATES TO CHICAGO.

One fare to Chicago and return, via the Chicago & Northwestern line, on account of the Michigan-Chicago football game on Thanksgiving Day. Tickets on sale Nov. 25th, good to return to Nov. 27th, inclusive. Extra sleepers; reserve your berth at once. We also secure your seat to the game. Make application early, as seats will go fast. EXCURSION RATES FOR CONVENTIONS, MEETINGS, ETC.

Michigan-Chicago Football Game at Chicago, Thanksgiving Day, Thursday, Nov. 26th, 1903.

Single Fare for the Round Trip. Tickets on sale Nov. 25th and valid for return up to and including Nov. 29th.

Fourth Annual International Live Stock Exposition, Chicago, Ill., Nov. 25th to Dec. 5th, 1903.

Single Fare Plus \$2.00 for the Round Trip. Tickets to be sold Nov. 29th and 30th and December 1st, and valid for return passage up to and including Dec. 8th.

Low one way second class colonist rates to points in Montana, Idaho, Washington, Oregon, British Columbia, Arizona, California, Colorado, Nevada, New Mexico and Wyoming. Practically half fare. Tickets on sale every day up to and including Nov. 30th, 1903.

For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich.

WILL OBTAIN MANY SAMPLES

IT IS PLANNED TO FIND CONDITION OF WATER AT BOTTOM OF LAKE NEAR INTAKE.

CREOSOTE AT ROOT OF TROUBLE

ARE WAITING FOR THE STUFF TO BECOME EVIDENT AGAIN.

Just Now the Water is Sweet—Matter of Extending the Intake Has Already Been Informally Discussed.

Superintendent Kern, of the board of fire and water commissioners, has completed arrangements for obtaining samples of the water out from the intake at the city pumping station the next time it becomes impregnated with creosote from the neighborhood of the Pioneer Iron company's plant in North Marquette.

Arrangements have been made with Captain Cleary, of the life saving station, to get a number of samples of water the next time the creosote becomes offensively evident. It has not been tasted for some days now. Yesterday there was no trace of it. The winds were westerly, having a tendency to send the polluted water out into the lake.

It is planned to get about six samples, taken at varying distances from the shore. Thus it is thought it will be possible to determine just how far out the creosote affects the water. It is the intention to get samples at about 500, 1,000, 1,500, 2,000, 2,500 and 3,000 feet. As indicated above, these samples will be obtained from near the bottom of the lake.

A jug, corked and with a string attached to the cork, will be weighted and sunk; then the cork will be pulled and the jug will fill. This water will be placed in bottles, and will be kept for such tests as may be deemed advisable. After this work is at hand the board will have an adequate idea of what the conditions really are.

Intake Extension a Possibility. It is expected that the tests will show that one way out of the difficulty arising from the presence of creosote in the city water is the expedient of lengthening the intake pipe.

It is known that many people favor this procedure. They argue that it would be wise even if the presence of creosote did not seem to make some remedial step imperative. They maintain that the present intake does not extend far enough out into the lake to escape water contaminated in some degree by the stuff poured into it from the shore. The harbor water is impure. In it all the sewerage flows, and its volume is constantly increasing as the town grows.

It should not be gathered from the above that any plan to extend the intake is actually under consideration. This is not true, at least not at this time. However, such an extension is one of the possibilities, and it is not unlikely that it will be undertaken. In the present state of the iron and steel market this work could be done much more cheaply than was the last extension of the intake.

One Suggestion. A suggestion of a step that might have the effect of alleviating the occasional trouble with the creosote has lately come to The Mining Journal. If the water nearer the bottom of the lake is less impregnated with the creosote it is suggested that the mouth of the intake might be so adjusted as to draw its supply from the lower levels of the deposit at the end of the pipe. At present this

mouth points to the surface of the lake, and draws in the surface waters, those particularly impregnated with the objectionable creosote. Whether this suggestion is of any value or practicable is a matter for debate, but it looks reasonable at first glance.

"All sorts of wild schemes are proposed to me in connection with this matter," said Superintendent Kern, "but I think about the best practical of all is the suggestion which you hear every now and then that the city should settle the water question once and for all by moving its pumping station out to the north and just west of Presque Isle. I believe some think that such a step is practical. It would undoubtedly mean a permanent supply of fresh water, but the cost is prohibitive. Why? It would require upwards of \$700,000 to make such a change. The pipe alone would cost over \$300,000, as two supply pipes would be necessary. We would find it much cheaper to go several miles out moving its pumping station out to the north and just west of Presque Isle."

IS WINTER HERE? Snow Seems Ready to Stay, But It Is Rather Early Yet. Is winter here at this comparatively early date, is a question that many Marquette people are asking themselves. It certainly looked yesterday as if the winter season had arrived a few weeks ahead of its usual time for putting in an appearance. The cold wave predicted Monday arrived early yesterday morning, freezing up the slick and wet snow that fell Monday. The falling temperatures were accompanied by more snow, and in the morning the ground was well covered, so much so that the sleighs were generally brought out and put into service. The weather was wintry indeed, cold and somewhat blustery. The depth of snow was the greatest seen on the ground in the middle of November for a good many years, and it had all the appearance of being here to stay. One thing is certain, it will last out the deer hunting season. It is proving a good deal of a boon for hunters, who are, with its aid, meeting with more success than attended their efforts earlier in the season. They are shooting more deer and are enabled to run down those which they wound.

The weather yesterday was severe enough to cause suspension of much outside work. If the present snow marks the advent of winter the library contractor is fairly caught, for that structure is not yet under cover and there remains much work to be done before it is secure against the weather. At the court house things are in better condition, though here too there remains no little exterior work to be done. At the library the early arrival of the snow and the cold is likely to cause no little trouble and inconvenience.

A BRIEF RALLY. Oversold Market Caused It Yesterday, But It Did Not Last Long. Paine, Webber & Co. said of the Boston market: "The oversold condition of the market brought a fair rally today, but prices did not hold. Traders found that there were no buyers at the advance and therefore turned sellers. The day's operations furnish an illustration of the desirability of selling stocks on rallies. There was nothing new in the coppers, London metal prices are unchanged. Amalgamated met free selling on the rally."

Hayden, Stone & Co. wired W. H. Laidley & Co.: "Coppers were dull, there being practically no trading. Everyone is waiting for the New York market to become more active. Daily West was stronger, but we do not believe the talk of labor troubles has been the cause of the dullness."

Somewhat Better Tone. The Hadden-Rodoc New York letter was as follows: "The stock market today held strong during the early trading, but most of the buying still represented the covering of short sales. There was an increase in the volume of buying for the long account. Commission houses were moderate buyers for the first time in several weeks. The traction showed the most aggressive strength and the report that the different tractions of Greater New York are to be consolidated continued to be circulated. This report is not very generally credited. Pennsylvania advanced over a point by noon, on the covering of shorts. In the afternoon the market reacted. The advance in foreign exchange, which was taken by traders as meaning that the gold import movement is over, and the advance in call money to 6 per cent caused some selling by traders. Under this selling the market reacted from the highest price, but at no time showed any sign of weakness. The closing prices show very small net changes for the day. The speculative sentiment of the street, after the close of the market, may almost be described as bullish. Commission houses were generally advising purchases of stocks in the belief that the market will advance to a higher level before the close of the week."

M. J. Bain, Ann Arbor—"Have tried many medicines but find nothing so good as Rocky Mountain Tea." There's no other medicine that makes sick people well so quickly. 35 cents. Stafford Drug Co.

A good housekeeper uses Gold Medal because she knows it makes more bread than any other flour. IT'S UP TO YOU to save the dollars when heating your home. No easier way than "using coke." \$5.50 per ton delivered. The Marquette Gas Light Co.

"ARIZONA" TONIGHT. Excellent Play to Be Presented at the Opera House.

This evening "Arizona," most successful of American dramas, will be presented at the opera house by an adequate company. Marquette theatergoers are not unfamiliar with this play, as it was seen here two seasons ago and in addition they are acquainted with it through its successes in other cities and favorable reviews. It has been in high favor since the night of its first performance, and it has never failed to please large audiences, and large audiences have been its rule.

"Arizona" teems with life and action, the dash of cowboy frolics and military duties, while the atmosphere is so subtle and real that one can almost catch the scent of the sage brush and cactus, and feel the sting of the alkali dust in one's nostrils. This western flavor is so pungent with local color character and force that the whole seems more like a bit of real life from the Aravaipa Valley itself than the artistic creation of the playwright's brain. An essentially human play, throbbing with dramatic moments, there is withal a virile force in "Arizona" that imparts a thrill to every word and action, while the climaxes are surprises, wrought with a skill that disarms anticipation. Having a military background, the play is a momentous one when the nation's flag floats into the story with a deft touch of patriotism.

TWO FINE ATTRACTIONS. They Are Billed for the Opera House Next Tuesday and Wednesday.

Marquette playgoers will be offered their choice of two unusually good attractions at the opera house next week. Tuesday evening Mary Shaw and company will appear in one of the best offerings of the present season, Ibsen's "Ghosts." Miss Shaw is an artist who commands attention in all the leading theatrical centers, and whose appearance in "Ghosts" always means large houses where her work and standing in the dramatic world are known. She should be well received by Marquette people, as there is no doubt that her appearance here will be one of the artistic events of the season. Following Miss Shaw will be an attraction of an entirely different calibre, and one that will appeal more specially to the popular taste. Wednesday evening the bill will be "Mrs. Wiggs of the Cabbage Patch," a dramatization of the story of that name which has had such a tremendous sale during the past year or so. "Mrs. Wiggs" is something new as far as the stage is concerned, as this season marks her advent before the footlights. She has made an undoubted hit in the East and is destined to entertain many people in the metropolitan theaters before the end of the year. The management is pursuing the policy of putting her on the road at the same time that she is scoring her metropolitan successes.

300 CANAL PASSAGES. List of the Boats Locked Through on the Up-Bound Trip.

Sault Ste. Marie, Mich., Nov. 17.—Up: Keweenaw, 4 a. m.; Nels, 5; Ross, 7:30; New York, Schuck (steel), Westcott, Venezuela, 1:30 p. m.; Osborne, Zenith City, 2; Brazil, 3; Forest City, W. S. Mack, Sultana, 4; Caledonia, Andaste, Genoa.

STANDING OF THE TEAMS. Following is the standing of the teams in the City Bowling league, also the averages of the leading players:

Table with columns: Team Name, P, W, L, P.C. Lists teams like Eagles, Superiors, Iroquois, Wolverines, Shamrocks, Magicians, Indians, Standard, H. Hogan, Kimbell, Bowsher, Foley, S. Rose, Stafford, Weiser, H. O. Bell, Jenks, Allen, Herrmann with their respective records.

INVESTORS. If you are interested in a mining proposition based on merit, investigate the extremely Mount Zion Mining company.

That's proof that coke is a popular fuel. We crush it just as you want it. \$5.50 per ton, delivered. The Marquette Gas Light Co.

NOT SO BAD, EH? If you can save a couple dollars on every ton of fuel you use its worth while. Use coke and you'll do it. The Marquette Gas Light Co.

STORM SASH. We make them, price and quality right. Special quotations before the fall rush. Order now. F. W. READ & CO.

DIGGING A CANAL. Powell & Mitchell Have a Contract Under Way at Munising.

Powell & Mitchell now have a contract from the new paper company under way at Munising. They are digging a canal to carry the waters of the Anna river to the plant and thence to the lake. This water will be used altogether at the paper mills, and Anna river will be a cheap and sufficient source of supply. Considerable excavation is required to open the canal, and Powell & Mitchell will be busy with the contract for the next few months. The new paper mills will go into commission next year. The Northern Construction company has its work on the buildings well advanced and will be prepared to turn them over within a few weeks.

CITY BRIEVITIES. Weather forecast: Partly cloudy, with snow flurries; stationary temperature; brisk to high northwest wind.

Yesterday's temperature: 7 a. m., 17 degrees; noon, 18 degrees; 7 p. m., 12 degrees; maximum, 18 degrees; minimum, 12 degrees.

W. P. Belden was an Ishpeming visitor in Marquette yesterday. The lighthouse tender Amaranth is in port, on one of its regular calls.

The board of supervisors will meet today to transact regular business. A number of craft were in for shelter yesterday, there being a pretty stiff blow on the lake.

The Ketchum, for Ashtabula, was the only ore carrier to clear yesterday. She was loaded at the L. S. & L. dock.

The Women's home missionary society of the M. E. church will meet this afternoon at 2:30 o'clock in the parlors of the church.

Howard Greer, Jr., formerly manager of the Lake Shore Engine works, has returned to the city from a deer hunt, on which he had very fair success.

The Knights of Columbus and their families will participate in a social dancing party Thursday evening. The function will be held at the A. O. U. hall.

The ladies of the Swedish M. E. church will serve an oyster supper tomorrow evening from 6 o'clock on. They are selling tickets for the supper at twenty-five cents.

The Japan was in port yesterday, bound up. The freighter Mahoning, also of the Anchor line, is on the way up the lakes, and should arrive here today or tomorrow. The last boat on the Anchor line will be here in about a week, and a number of other freighters are to call before the close of the season.

The mercury tumbled down at a lively rate yesterday afternoon and last night. It dropped at times a little below the zero. The weather was unusually severe for this time of the year and caused not a little discomfort for people who are accustomed to having the winters, come in a more gradual manner.

Charles Patermade made a record deer hunting yesterday that is rarely equaled here and that has not been approached, it is believed, this season. He returned yesterday afternoon with two large bucks, after an eight hour hunt. He left the city only yesterday morning. At that the woods are full of people who spend days in the quest of game without getting even one shot.

Another hunting accident is reported, this time from Crystal Falls. Edward Groop was shot as a result of blundering onto a shot gun in the Deer river country Monday. Prompt action in the case resulted in the arrest of Levi Bandy and Charles Herald of Belding, Mich., charged with complicity in setting the gun. It is claimed that John Gorman, a third member of the party who made good his escape, is really the man who set the gun, and every effort is being made to effect his capture. People are greatly incensed over the affair. The setting of a gun is a crime liable to a heavy punishment and it is likely to go hard with the men from lower Michigan. Groop was seriously injured, but will recover.

A REWARD will be paid for any information concerning persons who may snare or shoot the Belgian hare I have in loose on my place. EDWIN D. COX. (11-17-34)

Bread making made easy by using Washburne-Crosby Gold Medal.

Free reading room, Christian Science hall, Spring street. Open every day except Saturday from 1:30 to 5:00 p. m. All are welcome. (10-22-1m)
