TRACTION STRIKE STILL UNSETTLED

NEGOTIATIONS SO FAR FAIL TO BRING ABOUT ARBITRATION IN CHICAGO.

MEN MAKE LAST PROPOSAL

ANSWER OF THE COMPANY WILL BE GIVEN TODAY.

Cars Are Operated on Four Trunk Lines While Unionists Parade and Hold Meeting at Which Mayor Harrison Is Denounced.

Chicago, Nov. 22.—The strike on the Chicago City railway is still unsettled. The strikers have submitted the latest of several proposals, but the negotiations are still fruitless. The railway will answer the latest proposal tomorrow.

Cars were operated all day on four trunk lines, and the patronage was large, while the police protection was reduced. There were three arrests for interference with cars. It is probable that two more lines will be opened by the company on Tuesday if no settlement is reached tomorrow.

A procession and a mass meeting of 15,000 union men were held today, in sympathy with the strikers. The meeting proved to be an attack on Mayor Harrison and a plea for municipal ownership.

Strike of Teamsters Ordered.

Later—The union teamsters tonight approved the action taken last night when the drivers employed by the Chicago City railway were ordered on a strike in sympathy with the carmen, and all teamsters were ordered to cease delivery to the plants of the traction company. The associated teaming interests have declared this action a violation of contract, and yesterday issued an ultimatum to President Shea, of the teamsters, that the order be rescinded or the employers would abrogate every contract existing with the teamsters' union. President Shea advised the teamsters against antagonizing the employers, but the teamsters unanimously decided to ignore the ultimatum of the employers.

The union also decided to call a strike of the teamsters employed by the Jones Transfer company, which has been making deliveries to the railway company. This is in violation of a contract not to declare a sympathy strike. It is thought a general strike of thirty thousand union teamsters in Chicago may result. The employers will hold a meeting tomorrow to decide on their action. The impression tonight is that the teamsters will be summarily dealt with.

SENATE TO POSTPONE VOTE.

Final Action on Cuban Bill Unlikely Until the Regular Session.

Washington, Nov. 22.—The house will meet on Tuesday. Having disposed of the Cuban bill, it has no business, and adjournment probably will be taken until Friday. The senate begins the week uncertain about the adjournment of the special session. Most senators are anxious to close the session. However, it is probable that final adjournment will be taken and that the vote on the Cuban bill will be fixed for December 16 with the concurrence of the house. The Cuban bill is likely to be reported tomorrow and laid on the table, though the debate may begin immediately. Senator Morgan may make a speech about the canal.

DI-RICH MAY NOT BE TRIED.

Was Not Yet a Senator When the Alleged Bribery Occurred.

Omaha, Neb., Nov. 22.—That Senator Dietrich can escape trial on the indictment charging him with selling postoffice appointments by pleading that the alleged deeds were committed before he became United States senator in fact, is the opinion in Nebraska legal circles. Mr. Dietrich is charged with accepting bribes as United States senator and as participating in a conspiracy as an officer of the government, the indictments being based on the supposition that he was a senator at the time the acts complained of are said to have been committed. Dietrich was not sworn in until nearly six months after the alleged bribery occurred.

WATERY GRAVES FOR MANY.

Reported Loss of the Steamer Discovery, from Nome, Is Confirmed.

Juneau, Alaska, Nov. 22.—The steamer Excelsior confirms the report of the loss of the steamer Discovery, which sailed from Nome in October. The Discovery carried fifty passengers.

Point Arenas, Cal., Nov. 22.—The steamer Scotia arrived today with five of the crew of the bark Francois Coppe, which was wrecked last Friday. Thirteen of the crew are missing.

IRON WORKERS TO QUIT.

Strike Is Ordered on Numerous Contracts Throughout the Country.

Boston, Nov. 22.—President Buchanan, of the Bridge & Structural Iron Workers' union, tonight said that a general strike of iron workers had been ordered on every contract in the country which is executed by members of the New York Builders' association or by the Iron League. The strike is effective tomorrow.

LAWLESSNESS AT MINES.

Sheriff of a Utah County Asks the Governor for Troops.

Salt Lake City, Nov. 22.—Sheriff Wilcox, of Carbon county, has appealed to Governor Wells for troops to protect the coal mines. He says the police are unable to cope with the lawlessness. Men have been assaulted and threatened with death by strikers.

FALLS DEAD IN PULPIT.

Apoplexy Kills Rev. James Minto Pullman at Lynn, Mass.

Lynn, Mass., Nov. 22.—At the close of a vigorous and eloquent sermon, Rev. James Minto Pullman, brother of George M. Pullman, the late car builder of Chicago, this evening dropped dead of apoplexy at the Universalist church, of which he was the pastor.

DRUG TO INDUCE SLEEP FATAL.

Ex-Treasurer Jerome, of the Colorado Fuel & Iron, Is Found Dead.

Denver, Nov. 22.—John L. Jerome, formerly treasurer of the Colorado Fuel & Iron company, was found dead in bed today. Death was due to an overdose of drug which Jerome was in the habit of taking to induce sleep. The coroner says death was accidental.

BLOODY FIGHT EXPECTED.

Friends of Captured Wyoming Bandit Rally to His Rescue.

Cheyenne, Wyo., Nov. 22.—Tom O'Day, an outlaw, formerly a member of the notorious Curry band, was captured today by the Big Horn mountains by a posse. The sheriff has taken O'Day to Caspar and friends are gathering in the Lester mountains to rescue the prisoner. A bloody fight is expected. O'Day had twenty-three horses.

MOROS LOSE HEAVILY

MANY FALL IN BATTLE WITH GENERAL WOOD'S TROOPS.

Rebel Dead at Least 300, While the Americans Have but Six Wounded in Five Days' Fighting.

Manila, Monday, Nov. 23.—Three hundred Moros are known to have been killed, and many others were carried off, dead or wounded, as the result of five days' fighting in Jolo between the Americans under General Wood and the insurgents, Major Scott and five privates were wounded.

General Wood landed in Jolo on Nov. 17. Major Scott, of the Fourteenth cavalry, was taking Pagline Hasen, a Moro leader, to prison at Jolo. Enroute, Hasen asked to be allowed to see his family. The appeal was granted, and Hasen led Major Scott into an ambush. Major Scott was shot in both hands. Hasen escaped, but is supposed to have been killed the following day.

The fighting in which Hasen was captured occurred in a rock-jutted swamp. The Moros were driven across the country to Hasen's headquarters, where the insurgents were two thousand strong. The rebels were attacked in the flank by the Americans, who occupied the town and killed fifty Moros. Hasen, with a small party surrendered. The other Moros entered the swamp, out of which they were driven on Nov. 16, leaving seventy-six dead. The next day the Americans renewed the attack on the remaining Moros, killing forty. The rebels in that section were mostly destroyed by General Wood, who says it is unlikely the uprising will extend.

On Nov. 18 General Wood started against two thousand Moros in the mountains back of Tabliti. No news of the result of this movement has been received. General Wood has three battalions of infantry, Sattley's battery, two troops of cavalry, and a detachment of engineers. Major Scott has three infantry companies, a battery and a troop of cavalry.

Battle in Macedonia.

Salonica, Nov. 22.—On the arrival of troops to reinforce a Turkish command, besieged for two days in the mountains by 350 insurgents, the latter today withdrew. The losses of the insurgents are unknown. Thirty Turkish soldiers and one officer were killed. Forty-seven men were wounded.

URGES REDUCTION IN TARIFF.

Colonel Edwards, Chief of Bureau, Reports on the Philippines.

Washington, Nov. 22.—Colonel Clarence Edwards, chief of the bureau of insular affairs, today published a report on the Philippines. He says that the new official system launched will be in full operation in January. Bonds for \$6,000,000 will be issued at a premium to support a currency of eighteen million pesos in fractional silver and ten million pesos in paper.

Colonel Edwards urges a reduction in the tariff. He says that not only a small part of the trade goes by American vessels and he urges the enforcement of an act requiring that trade be confined to American ships. Eighteen American vessels are building, and the prospects are good for transferring the shipping to home vessels.

The change from the military to civil government has developed many intricate legal questions. The recovery of duties collected under the military regime is the basis of most suits.

GETS FOREIGN CONTRACT.

American Company to Install Street Railway System in England.

New York, Nov. 22.—The greatest advance of the American invasion into foreign territory was marked yesterday, when the Lorain Steel company secured the contract to put in the entire trolley system in the city of Wolverhampton in the west of England. This is the first contract ever given an American concern for establishing a complete electric railway system in any English town. The granting of the contract marks the end of a two years' fight which has become almost national in its character in England.

LARGEST STEAMER LAUNCHED.

White Star Liner Baltic Successfully Floated at Belfast.

Belfast, Nov. 22.—The White Star liner steamer Baltic, the largest steamer in the world, was successfully launched here yesterday from the shipyard of Harland & Wolff. Her displacement is 39,800 tons.

CALLS FOR ACTION BY EUROPE.

French Engineer Would Aid Colombia in Regaining Panama.

Paris, Nov. 22.—Bonaparte Wyse, the French engineer to whom Colombia granted the original concession for the Panama canal, today addressed a letter to the Belgian which he says is a candid and impudent attitude of the Washington government should have the effect of rousing France, bringing about common action by the European governments against the American peril and proving to the incredulous the importance of piercing the isthmus.

A reasonable understanding among the powers of Europe should suffice to maintain the sovereignty of Colombia and prevent the United States from following to its logical end the dangerous course on which the United States has started. He suggests that if diplomacy fails, the questions at issue might be submitted to The Hague tribunal.

M. Wyse points out that Colombia's efforts to regain the isthmus might meet with difficulties. It would be impossible to send troops overland, and American warships would stop transports. He suggests that an escort of European warships for the Colombian troops would prevent this.

The engineer concludes with the statement that if the United States resorts to the employment of force, Colombia would be justified in seizing the United States minister at Bogota and other American residents in Colombia.

CHILE APPROVES

SIDES WITH UNITED STATES IN THE ISTHMIAN AFFAIR.

Colombian Press Continues Bombastic, and It Is Declared March on Panama Will Be Undertaken Soon.

Washington, Nov. 22.—A dispatch from Minister Beaupre, at Bogota, says the Colombian press continues to denounce the United States for recognition of Panama, attacking both President Roosevelt and the congress.

Minister Wilson, at Chile, reports that the action of the United States in Panama has been received favorably in Chile.

Talks of Invasion.

Panama, Nov. 22.—General Salazar, formerly governor of Panama, telegraphs: "The departments of Cauca and Antioquia and all Colombia will rise to defend national integrity. All liberals offer their services. An army of one hundred thousand men is now organizing and will march on the isthmus soon."

Since Admiral Casey, in 1902, refused passage to Colombian troops on the Panama railroad, General Salazar has desisted from the idea. He is indignant, although quiet. War Minister Obarrío today was presented to the Panamanian troops. Senator Arias addressed the soldiers, who paraded before Obarrío.

German Sympathy for Colombia.

Bogota, Nov. 20, via Buena Ventura, Nov. 22.—The German minister yesterday gave a banquet to the Colombian ministers of war and state. He said he deplored the occurrences on the isthmus.

BARE ALLEGED BRIBE PLOT.

Warrants Out for Seventeen Former Officials of Grand Rapids.

Grand Rapids, Mich., Nov. 22.—Warrants were issued yesterday for seventeen former city officials, charging them with accepting a bribe in connection with the famous German-Cameron scheme for supplying the city with water from Lake Michigan. All of the warrants are the result of the confession made by Lant K. Salsbury, former city attorney, on his return last week from serving a two-year term in the Detroit house of correction for breaking the federal banking law in connection with the scheme.

While in prison Salsbury's conviction on a bribery charge in the state courts in connection with the same matter was affirmed by the supreme court and with prospect of being returned to prison Salsbury went to the prosecutor's office and made a long confession, which resulted in yesterday's issuance of warrants.

Following are those indicted: Ex-Mayor George R. Perry, State Senator David Burns, Corey P. Bissell, former member of the board of public works, and the following ex-aldermen, who were in office when an attempt was made to put the water deal through: James McCool, Peter Depagter, Jacob Ellen, Malachi Kinney, John T. Donovan, Jacob Mel, Abraham Ghysels, Charles Johnson, Ryner Stonehouse, Daniel Loder, John McLachlan, Clark Stocum, John Muir and Adrian Shriver.

Revelations in the service of the warrants show that the common council was controlled during the attempt to put through the water scheme by the fourteen votes, which included both Democrats and Republicans. Mayor Perry's share, it is charged in the warrant, was \$3,333 and Corey P. Bissell is charged with receiving \$500 while State Senator Burns is alleged to have received \$200 for his support.

Aldermen Mol, Charles Johnson, Ryner Stonehouse, John McLaughlan, Jacob Ellen, Peter Depagter, Malachi Kinney, Adrian Shriver and Abraham Ghysels, it is charged, received \$350 each. Aldermen Daniel E. Lozier, Clark Stocum, James O. McCool, John Muir and John Donovan received \$500 each, it is charged. Four of the men arrested are members of the present council, as follows: Depagter, Ellen, Mol and Shriver.

It has developed that Salsbury's first confession was not so complete as the prosecution had hoped for. Prosecutor Ward went to work at once upon the leverage offered by the incomplete statement and secured enough additional evidence, so that Salsbury was summoned again for a conference. The result, the prosecutor says, was a statement which is regarded as complete.

Ex-Mayor George R. Perry heard of the warrant against him and walked into police headquarters and gave himself up. State Senator Burns and ex-Alderman Kinney came in next. They were in the custody of officers. Prosecutor Ward states that there were, according to Salsbury's confession, sixteen aldermen in the deal, two of whom have since died.

CHARGE UNION WITH MURDER

CRIPPLE CREEK MINE OWNERS OFFER REWARD FOR ARREST OF DYNAMITERS.

EXPLOSION KILLS TWO MEN

SUPERINTENDENT OF PROPERTY IS ONE OF THE VICTIMS.

Is Declared That an Infernal Machine Was Used and That Plot Was Devised and Executed by the Strikers' Leaders.

Cripple Creek, Colo., Nov. 22.—A committee of mine owners today offered a reward of \$5,000 for the arrest of the persons who yesterday dynamited the Vindicator mine, killing two men. The committee in a statement says: "The killing of Superintendent MacCormack and Melvin Beck was a diabolical crime and is another step in the trail of blood which has been made by the Western Federation of Miners. We do not hesitate to say that this crime was devised and executed by the inner circle of this organization. This statement is made after careful investigation. Not a circumstance surrounding this crime is compatible with the theory of accident or any other theory than that of premeditated murder by dynamite. The executive committee of the Federation of Miners characterizes the explosion as a lamentable accident, regretted by all. The two men were killed shortly before noon yesterday. Officers of the company positively assert that the explosion was caused by an infernal machine, or bomb, killing two men. The mine has been placed on guard around the company's properties.

Superintendent MacCormack, one of the best known mining men in the district, and Miner Beck were descending into the mine in the cage. They were the only passengers. When it reached the sixth level the explosion occurred, wrecking the cage and shaft, and instantly killing both men.

The officers declare that the infernal machine, containing many pounds of dynamite, had been placed in the sixth level within a few inches of the shaft. Then a loaded revolver was fixed in the shaft, with its muzzle pointing directly toward the infernal machine. To the trigger of the revolver, it is said, was attached a string, which was thrown across the shaft in such a manner that the revolver would explode the shaft striking the infernal machine. Pieces of the revolver have been recovered from the bottom of the shaft.

The military by order of General Bell today arrested fourteen members of the miners' union on a charge of directly or indirectly being accessories to dynamiting the mine.

LIVES LOST IN GERMANY.

Havoc by Storm Reported in Many Sections of the Empire.

Berlin, Nov. 22.—The telegraph lines have been interrupted by a general storm. All western Europe is only indirectly connected with Berlin. At Frankfurt, on the main street, car traffic is suspended. Trees have been uprooted and buildings demolished at Chemnitz. A tug sank at Emden and one man was drowned. Several lighters were sunk on the river Ems and it is believed numerous lives were lost. Seven passengers were seriously injured by the derailing of a train near Berlin.

SHORTAGE IN ACCOUNTS.

First National Bank of Dundee, Ill., Is Forced to Close.

Dundee, Ill., Nov. 22.—The First National bank tonight advised depositors that the doors would not open for business tomorrow. The directors, it is said, have found discrepancies in accounts. The controller of the currency has been advised and a bank examiner will take charge of the books tomorrow. It is believed the bank will open for business soon, when the accounts are straightened. The capital is \$50,000.

LIVELY RIOT IN RUSSIA.

Jews Attack Soldiers in an Effort to Rescue Prisoners.

St. Petersburg, Nov. 22.—An affray is reported between soldiers and Jews at Orsha, Vilna, on Nov. 19. The Jews attempted to rescue six Hebrew prisoners. They attacked the soldiers with stones and bludgeons and the soldiers used the butts of their rifles. The troops were later praised in a military order for their work.

HOSTILITIES SUSPENDED.

Rebels and the Government of San Domingo Open Negotiations.

San Domingo, Nov. 22.—The negotiation of a treaty of peace between the rebels and the government of President Woz y Gil has been begun. There will be a suspension of hostilities for forty-eight hours under an amicable arrangement.

DR. R. D. MURRAY DEAD.

Injuries Received in a Runaway Kill Yellow Fever Expert.

Laredo, Tex., Nov. 22.—Dr. R. D. Murray, the well-known yellow fever expert, dean of the marine hospital service, died today of injuries sustained in a runaway a week ago while returning from the bedside of a yellow fever patient.

KINGS APPROVE IT.

England and Italy Negotiate a Permanent Arbitration Treaty.

London, Nov. 22.—It is said that the English and Italian kings, at Windsor last Thursday, approved a permanent Anglo-Italian arbitration treaty.

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES:
Per month, by carrier, \$1.50
Per year, by mail, \$15.00

MARQUETTE, MICH., NOV. 23.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

As usual the upper peninsula is displaying an enlightened public spirit, and the Michigan mineral display at the St. Louis exposition promises to be worthy of the state.

Ex-senator Holbrook has proven that he was in Detroit when Sutton swore that he was in Lansing. There's a liar somewhere, but it will likely be no small job to smoke him out.

The Detroit Journal wonders whether it is worth the while to protect the game, because now and then a hunter is shot. This is a popular subject of debate in the lower part of the state, where the president people can't help but remember that though they help pay the bills they get but little share in the sport.

Concerning Carrie Nation the Cleveland Plain Dealer asks "umatic or plain nuisance?" Whether she is the one or the other it is equally evident that she should be suppressed. Her outbreaks at the White House and capitol last week were only the culmination of a long series of similar performances, all purposeless.

How glad the people of Michigan will be when the military frauds and the Grand Rapids water works job are finally a matter of forgotten history, if such time will ever come. The state takes little pride in these episodes and even the consolation that the rogues are being made to sweat for their rascality is not full consolation for the dishonor to Michigan's fair fame.

Senator Dietrich may be guilty, but he does not act the part. He is now in Omaha, where he is doing what he can to secure an early inquiry into the charges of graft lately preferred against him. The senator is apparently a man not afraid, and it is to be hoped, from considerations of national pride and honor, that he will be shown to be justified in his confidence of vindication.

The Le Budy airship, which responded so satisfactorily to an exciting test the other day, has gone the way of other airships, having hit a tree and exploded. However, the Le Budy's performance of traveling forty-five miles in an hour and thirty-five minutes is a guarantee that there is some virtue in their designs, and it is to be hoped that they will not be discouraged from further efforts at aerial navigation. Its present rewards are not very great, but when there are air ship lines between all the principal cities the names of these pioneers will be written in history.

The clear sailing of the Cuban reciprocity bill in the present session is in marked contrast to its tempestuous experience when it failed in the last congress. In the interval the representatives and senators have been coming to see the light, and the attitude of the people at large, which has all along been favorable to the treaty, has had its influence. The people are, it appears, more likely to be right on a question involving moral considerations or higher politics than their leaders, who are always inclined to regard things solely from the materialistic standpoint.

Michigan has made \$20,000 out of football so far this season and the biggest game is yet to come. The Minnesota contest netted \$15,000 and Wisconsin and Michigan divided about \$12,000. The receipts for the entire season, if the weather is fair at Chicago Thursday, should mount up to \$400,000. Of course the expenses are heavy and what money is not needed for football comes in handy to make good deficits in other departments of intercollegiate sport which are not such fine money makers. It's odd that the excellent returns from football do not encourage some promoter to get up a professional league. It could hardly make money, but promoters are throwing their cash away on even more hopeless projects every day in the year.

The outlook for the marine shipping season of 1904 is, according to the reports of the best authorities, very dubious. The lower lake docks, both at the receiving ports and at the furnaces, are said to contain much more ore than was the case at this time last year, and in the months intervening before spring the demand promises to be much less than in the corresponding period in '03.

Unless there are some new unforeseen developments, and they would have to come almost at once, to set all the stacks producing to their capacities it appears that the navigation season next year will have a sluggish opening, with prospects for an ore movement considerably under that for the season just closed. There can be no great activity in iron trade until the surplus stocks at the lower lakes are pretty well cleaned out.

The Colombian envoys to the revolutionary government at the Isthmus received just the welcome that everyone predicted for them. The Panama leaders, in the flush of victory, would hear of no terms and indeed were loath to at all discuss the matter of their revolt, holding that the incident is closed. Now the Colombians are to take their complaints to Washington. The developments of the past week are a fair indication of the reception they will meet with there. It will be different in no essential from that which was their lot at Panama. The Colombians' initial blunder was far too serious for recovery. They should have had foresight enough to come to terms with the United States on the canal question on the basis of the original treaty. Then they would have saved money, friends and honor. Now they have apparently lost all three.

It is not easy to see why the visit of the king and queen of Italy to England should have such important political results as certain newspapers imagine. Great Britain has always been on more friendly terms with the peninsular kingdom than with any of the great continental powers, and these relations have not been seriously disturbed of late years. The fleets of Italy and England would indisputably control the Mediterranean in case of war, a fact never overlooked in Rome or London, and the two powers have often been regarded as possible allies. Should Italy ever find it her advantage to break away from the triple alliance the natural course would be for her to throw herself into John Bull's arms. The royal visit to London is rather the cementing of an old friendship than the formation of a new one. Moreover, the English monarch has shown the world his desire to conciliate old foes and promote more friendly relations among the European powers.

Everybody is aware in a vague sort of way that Spain gained a good deal when the United States took her colonies from her, but William E. Curtis has reduced her profits to figures. It cost \$50,000,000 a year to hold the colonies and returns were so small that an enormous debt was piled up. The young men are no longer taken from the farms and factories to die in the Philippines and the West Indies, but stay at home to contribute to the prosperity of the country instead of being a burden upon the taxpayers. Army and navy expenses have been reduced, but set off against this fact is the disadvantage of having a large number of ex-soldiers and proteges of prominent men in politics at home, whereas before the war they would have been stowed away in the colonies. It is not probable, however, that Spain will enjoy immunity from the burden of a navy very long, for the minister of marine has prepared plans for the expenditure of \$150,000,000 on the reconstruction of the navy during the next ten years and his plans are very likely to be carried out.

Says the Iron Trade Review:
The Duluth, Mesabie & Northern road is through shipping ore for the season, and the record of ore forwarded to Duluth to be shipped is 5,339,775 gross tons, as compared with 5,010,407 gross tons for the season of 1903, a decrease this season of 329,368 gross tons. In the published comparative statement it is noted that the Hibawik mine shipped only 10,772 tons this year, as compared with 623,125 tons last year, and it should be explained that the bulk of the Hibawik ore went over the Duluth & Iron Range road this year, whereas the Hibawik road last year handled the bulk of the tonnage. The Hibawik really shipped over 550,000 tons in round numbers this year, so that the discrepancy in the following statement will be understood. Of the ore shipped there is still 33,425 tons in the docks in Duluth, and this will be moved out in a day or two. The shipment by mines follows:
Mines 1903 1902
Adams 1,109,759 1,242,923
Spruce 587,032 543,397
Troy 10,267
Duluth 7,405 150,220
Biswabik 10,722 623,125
St. Clair 6,148
Burr 429,711 100,331
Day 111,009 106,510
Glen 171,705 23,875
Hull 432,916 423,266
Pittsburg 229,133 228,122
Rust 160,624 242,715
Sellers 451,633 193,429
Lincoln 279,632 87,779
Poole 200,029
Mesaba Mt. 5,866 5,131
Mountain Iron 1,217,156 1,430,103
Etna 119,212 199,473
Totals 5,339,775 5,610,407

Chamberlain's Stomach and Liver Tablets are becoming a favorite for stomach troubles and constipation. For sale by The Stafford Drug Co., Marquette, J. M. Perkins, Negaunee, and Henry Hartwood, Ishpeming.

A POLICEMAN'S TESTIMONY.
J. N. Patterson, night policeman of Nushua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold at Desjardins' Pharmacy.

A CARD
We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

MARQUETTE COMMON COUNCIL PROCEEDINGS.
(Official.)
Marquette, Mich., Nov. 16th, 1903.
An adjourned regular session of the common council of the city of Marquette, Michigan, was held at 7:30 o'clock p. m. on the 16th day of November, 1903, the president, the Hon. Merwin E. Asire, presiding. Present: Aldermen Anderson, Asire, Bush, Donovan, Ekstrom, Gorman, Gray, Holley, Jones, Mack, Reau and Shea-12.
The report of the session of November 10th, and approved.
The report of Elmer E. Wenzel and nine other property owners on Michigan street, between Third and Fourth streets, against the construction of an eight-inch sewer in Michigan street, between Third and Fourth streets, as they believe the property owners on said street who had petitioned for the same sewer connection more economically by laying a six-inch sewer near south curb line, from the intersection of Michigan street and Third street, to the intersection of Michigan street and Fourth street, and that they were willing to assist said sewer financially so that the expense of such sewer would be less to said petitioners as well as to all property owners of Michigan street, was read and approved, and on motion of Alderman Holley, laid on the table.
The recorder presented a deed to the city from the Marquette City and Presque Isle Railway Company for alley in North Marquette Addition.
On motion of Alderman Shea, supported by Alderman Reau, the following was adopted:
Whereas, On June 1, 1903, there was presented to the common council and placed on the record of the proceedings a petition of the north one hundred and twenty-five feet of the alley running north through the center of Block six of North Marquette Addition; and
Whereas, The Marquette City and Presque Isle Railway Company has dedicated by deed to the use of the public a strip of land, from the intersection of Michigan street and Fourth street, to the intersection of Michigan street and Fifth street, and that portion of said strip of land proposed to be vacated;
Resolved, That the north one hundred and twenty-five feet of the alley running north and south through the center of Block six of North Marquette Addition, be and the same is hereby vacated.
Yeas—Aldermen Anderson, Asire, Bush, Donovan, Ekstrom, Gorman, Gray, Holley, Jones, Mack, Reau and Shea—12.
Nays—None.
The committee on streets and sewers presented the following and recommended its adoption:
That the common council recommends to the Light and Power Commission that electric lights be placed at the intersection of the following streets, to-wit: Marble and Hampton streets, and Third and Spence streets.
The city treasurer reported as follows:
To the Honorable Mayor and Common Council of the City of Marquette, STATE OF MICHIGAN, County of Marquette, I, Charles A. Eggers, treasurer of the city of Marquette, in said county and state, do hereby certify that I have received and collected the sum of \$1,109,759.00, covering estimated cost of constructing an eight-inch sewer in Hewitt avenue, from manhole in sewer in Third street to the center of the alley running north and south through the center of Block six of North Marquette Addition, and that the sum of \$1,109,759.00 is still remaining due and uncollected on the account of said sewer, and that I have not, upon diligent inquiry, been able to discover any persons or chattels liable to pay such sums whereupon I could levy the same.
Dated, Marquette, Mich., Nov. 16, 1903.
CHAS. A. EGGERS, City Treasurer.

REPORT OF THE CONDITION OF THE First National Bank
At Marquette, in the State of Michigan, at the close of business November 17th, 1903.

SCROFULA A DISEASE WE INHERIT.
Scrofula manifests itself in many ways. Swelling of the glands of the neck and throat, Catarrh, weak eyes, white swelling, offensive sores and abscesses, skin eruptions, loss of strength and weakness in muscles and joints. It is a miserable disease and traceable in almost every instance to some family blood taint. Scrofula is bred in the bone, is transmitted from parent to child, the seeds are planted in infancy and unless the blood is purged and purified and every atom of Scrofula removed Scrofula is sure to develop at some period in your life. No remedy equals S. S. S. as a cure for Scrofula. It cleanses and builds up the blood, makes it rich and pure, and under the tonic effects of this great Blood Remedy, the general health improves, the digestive organs are strengthened, and there is a gradual but sure return to health. The deposit of tubercular matter in the joints and glands is carried off as soon as the blood is restored to a normal condition, and the sores, eruptions, and other symptoms of Scrofula disappear. S. S. S. is guaranteed purely vegetable and harmless; an ideal blood purifier and tonic that removes all blood taint and builds up weak constitutions. Our physicians will advise without charge, all who write us about their case. Book mailed free.

COPPER COUNTRY
(Additional.)
BOWLING LEAGUE STANDING.
The standing of the teams of the Houghton County Bowling league is as follows:
Houghtons W L Pct.
Dees 3 4 .566
Calumets 7 5 .583
Lakes 7 5 .583
Dritters 7 4 .616
Mitchells 5 7 .416
Hancock 4 8 .333

It will be seen from the table that the Dees, Calumets and Lakes are tied for second and the Lakes, Dritters and Mitchells for third place. The games played so far show that the teams are quite evenly matched. The rivalry consequently has caused a deep interest in the game and it is expected that the next team will finally win out. The next series will be played tomorrow evening, instead of Thursday, the usual day, on account of Thanksgiving. The Mitchells will meet the Houghtons on the Mitchell alleys at Hancock; the Dees will meet at Hancock on the Dees alleys at Houghton; the Dritters will meet the Lakes on the Dritters alleys at Hancock, and the Calumets will meet the Lakes on the Miller alleys at Calumet. After tomorrow's games there will be nine more series to play or twenty-seven games for each team. The present schedule will be finished on Thursday evening, Feb. 18.

LOSING MONEY NOW.
The city of Hancock is now paying at the rate of \$90 per acre lamp year for the service supplied by the Houghton County Electric Light company. The arrangement is not as economical as it could be, and the sooner the council gets to work and signs some sort of a contract with the company the sooner will the city be money ahead. That appears to be the sentiment of Hancock business men. Lights on a five-year contract would cost the city \$83 per lamp year, and this arrangement appears to be in most favor. Some businessmen favor the ten-year contract at \$78, but it is not likely that an agreement for that length of time will be reached. The less number of years the greater the rate, and vice versa. A one-year contract would cost the city \$90 per lamp and there are not many who favor a one-year agreement at that rate, which is the lowest offered.

CHANGE OF TIME.
A new time table went into effect on the Copper Range railroad yesterday. The changes are as follows:
The 6:30 p. m. train from Houghton to Calumet will be discontinued. The 6 o'clock train from Calumet to Houghton will be discontinued. Trains will leave Houghton for Painesdale daily, including Sunday, at 5:45 p. m. and 11:05 p. m. The train from Greenland will have its leaving time changed from 7 o'clock to 5:15 p. m. daily. A train will leave Painesdale for Houghton every day except Sunday at 7 p. m. The Sunday train from Painesdale will continue to leave at 6:25 p. m. The train which has been leaving Freda at 1:45 and 5:30 p. m. will now leave at 1:30 and 4 p. m. The Sunday train for Freda will leave at 4:30 p. m. instead of 5:15 p. m.

WAS LOST IN THE WOODS.
Clarence Kelly, clerk of the Central Hotel at Calumet, who had returned from a deer hunting trip, passed through an experience in the woods that he will not soon forget. While hunting alone he lost his way and wandered about all night. He was found by friends the next morning in a much exhausted condition. Kelly started out by himself last Thursday afternoon and he became so interested in pursuit of a big buck that he did not notice particularly where he was going. After killing the deer he started back for camp, but not having a compass soon lost his bearings. A small-sized blizzard added to his discomfort. He had a few matches but used them up in attempting to build a fire, and was then compelled to keep moving to keep from freezing.

FINED FOR ASSAULT.
For assaulting Joseph Sonthe, a teamster in the employ of the Haas Brewing company, William Jarvela of the South range was fined \$5 and costs by Justice Brand of Houghton. Sonthe accompanied Jarvela with a ride towards Houghton and the latter when he had reached his destination repaid Sonthe, not with thanks, but with a hard cuff or two on the driver's anatomy. Sonthe was surprised to say the least. He lost no time in getting out a warrant for Jarvela's arrest. The latter, it is said, had some sort of a grudge against Sonthe and took a punch at him to get even.

HEAD HIT A CAR.
Richard Letcher, a Copper Range engineer, was painfully injured in a peculiar manner Friday. He was engaged in cutting out a box car from the track at South Range. The car was left to the switch leading to the side track, and while running past it on the main track Letcher put his head out of the cab window and was struck by the blood spout of the Malco loco Co., Marquette, and H. N. Stelco, Ishpeming.

A SCIENTIFIC DISCOVERY.
Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by The Malco Drug Co., Marquette, and H. N. Stelco, Ishpeming.

(Additional Copper Country on Page 2.) CONVICTION SET ASIDE.

New Trial Granted John McLachlan, Found Guilty of Arson.

On motion of Attorneys Allen F. Rees and J. F. Hamblitzer of Houghton, Circuit Judge A. T. Streeter on Sunday set aside the verdict of guilty in the case of John R. McLachlan, convicted of the crime of arson and granted a new trial. McLachlan was sentenced to ten years in the Marquette prison, but was there but a short time when he was adjudged insane and committed to the asylum for criminal insane at Ionia. It was then that the movement for a new trial was started. In handing down his opinion Saturday, Judge Streeter remarked that the evidence presented in the trial was so contradictory that a reasonable doubt as to whether McLachlan was sane or insane at the time the offense was committed. He further stated that there is no question that the evidence is newly discovered and such that could not be properly anticipated by the attorney for the respondent at the time of the trial.

Mr. Hamblitzer, who prepared the affidavits, declares there is little doubt that McLachlan was insane at the time of the crime. The new evidence at hand is much in McLachlan's favor. A surprising amount of evidence concerning strange actions on his part both before and at the time of the offense was brought to the attention of the judge. It seems to be the opinion of those who know the nature of the evidence that Judge Streeter could not well have refused a new trial under the circumstances. McLachlan, however, probably never will be brought up for a second trial. He will be brought back to Houghton and examined by experts before the judge of probate and, on the strength of the newly discovered evidence that he has been insane since before the crime for which he was convicted, he likely will be committed to the hospital for the insane at Newberry. His mind is said to be completely unbalanced. He will not be brought back to Houghton until after the first of the year.

There has been much public sympathy for McLachlan and his family since his arrest and conviction and the setting aside of the conviction has been received with much satisfaction. The details of the crime for which he was sent to prison are well known locally, as William Warner, the self confessed fire-bug, told all during the trial, which was followed with curious interest by the public. Warner's confession satisfied the jury of McLachlan's guilt and there was not much hesitancy on its part in reaching a verdict of guilty. Warner's story was to the effect that he had been promised \$100 if he would set fire to McLachlan's store at Starwood, in the South range district. He did as he alleged he was instructed. James McLachlan also was suspected but was exonerated of any implication in the affair.

At the time John McLachlan was committed to Ionia, Attorney A. F. Rees, who defended McLachlan during the trial, became convinced, together with friends of the unfortunate man, that the man had been insane. Accordingly, application was made by Attorney Rees in the circuit court for a new trial on insanity grounds, but Judge Streeter, believing that it was not in his jurisdiction, denied the motion. The appeal was carried to the supreme court, which decided in favor of McLachlan. Judge Streeter was empowered to grant a new trial if the new evidence was sufficient to warrant it. The first application for the second trial in circuit court was made last April. After the supreme court's decision in the case, Attorneys Rees and Hamblitzer set about to secure conclusive evidence. Mr. Hamblitzer, who obtained the affidavits, had little difficulty in securing an abundance of evidence to the effect that the plea of insanity was well taken.

Judge Streeter heard the argument on the motion Saturday morning. Prosecuting Attorney Larson made no strenuous objections, other than stating his belief that McLachlan was sane at the time of his trial. He said that McLachlan's actions or appearance were not that of an insane person. In handing down his opinion Judge Streeter remarked that he was doubtful in his mind during the progress of the trial as to McLachlan's mental condition, but as there seemed to be no question on the part of either counsel as to the prisoner's entire sanity, he had said nothing one way or the other until after conviction. Then he spoke of his suspicions to Attorney Rees. Judge Streeter remarked at the same time that he would be better satisfied if physicians could examine McLachlan before sentence was passed, but that he preferred to have the examination made at the instigation of one or the other of the attorneys. That application was not made, and as Mr. Larson considered McLachlan perfectly sane sentence was accordingly passed.

FINE SCHOOL BUILDING.

The new John Duncan school at Laurium, which was opened last week, is much liked by teachers and pupils. The work is now going along smoothly. The average daily attendance is about 340. All of these pupils have been transferred from other schools, greatly relieving the pressure at each one of them. The teachers in the new school are: Miss McGinnis, principal; Miss Flora E. Rothchild, B fifth grade; Miss Louise E. Farnham, A fourth and B fifth grades; Miss Jean MacDonald, A and B third grade; Miss E. Watkins, A and B second grade; Miss Elizabeth McGill, A first grade; Miss Anna O'Brien, B first grade; Miss Amy Ohlman, kindergarten, with Miss Matilda Craze assistant.

The new school is one of the finest in the copper country. It is provided with eight large and commodious class rooms. The principal's office is located about in the center of the building. The rooms are fitted up in modern style with the best of school fixtures and furniture. The walls of each room are beautifully tinted. The structure is well ventilated and lighted. It was named in honor of John Duncan, assistant superintendent of the Calumet & Hecla mine, who has been a member of the school board for many years, rendering valuable service during that time.

NEW SUPERINTENDENT NAMED.

Mrs. Zada Pike of Ishpeming, formerly city librarian at that place, has been appointed superintendent of the Good Will Farm & Home Finding association. She will succeed Rev. K. A. Myers, whose resignation was accepted last week. She will take charge of

the home at once. Mrs. Fiske is a widow with two children.

WOULD OPEN SEASON HERE.

Victoria Hockey Team of St. Paul Proposes to Play Portage Lake.

The Victoria hockey team of St. Paul, champions of the league of that city and Minneapolis last season, is desirous of opening the local season in the Amphidrome with the Portage Lake seven. Fred C. Cook, captain of the aggregation, has written Manager Charles Webb of the Portage Lakes that effect. He states that the team is open for any date in December suitable to the locals and expresses confidence that his players will give Portage Lake a hard rub. It has not yet been decided whether St. Paul will be taken on for the opening game or not. However, the offer likely will be accepted, as the local management has great respect for the strength of the St. Paul team. If other arrangements are made the Victoria will be given dates later in the season.

The team is not the St. Paul seven that played at Houghton last winter. That seven lost the first game by a big score, but in the second match the visitors put up a far better game and Portage Lake managed to win out by only one goal. The Victorias had no difficulty in defeating the St. Paul team that played here by large margins. The seven won the championship of the Twin City league, comprising four teams, in easy fashion. Captain Cook in his letter states that his seven is out after the national championship this season and intends to lower the colors of Portage Lake. That statement is regarded as a local hockeyite, although at the same time they know that the Victorias will be stronger than before, because of the importation of several crack players. With another seven in the field for the national hockey honors, the situation is made more interesting.

New Players Coming.

Hall Bennett, the speedy Brandon forward signed by the local management, are expected at noon today. They will be speedy additions to the forward line and great things are expected of them. In a telegram received Saturday "Riley" Hern, Portage Lake's new goal tender, announces that he will leave his home, Stratford, Ont., for Houghton tomorrow morning. Hern is acknowledged by veterans and hockey experts as one of the best if not the best goal tender in the game. He formerly played goal for the Keystone of Pittsburgh and two years ago played with that team in a match against the Portage Lakes in the old Palace rink, opposite Houghton. His work at that time was greatly admired.

MANY YEARS IN SAME HOUSE.

Forty-four years' residence in the same house at Copper Harbor and one once farther away than the nearest neighbor's home is the story of Mrs. Jane Rogers of Keweenaw county. Mrs. Rogers is now well advanced in years and has no desire to see more of the world. For the last twenty years she has lived alone.

BLIND MEN MAKING BROOMS.

In an effort to provide a means of livelihood for the blind men of Calumet and vicinity, the past few days their eight as a result of mining accidents, the Calumet & Hecla company has established a broom factory where blind men are now receiving instructions in making brooms and are becoming proficient. The instructor, blind himself, is C. H. Van Etten, of Coopersville, Mich., a graduate of the Michigan School for the Blind at Lansing. The mining company is footing all bills for material, machinery and instruction, and there is great hope that the experiment will prove a success and solve a problem which has been a bother to these men for years. It is expected that the factory will become self-supporting in a few months and be in a position to put brooms enough on the market to make commercial travelers a necessity. It will be necessary for each man to turn out about five dozen brooms a day to put the institution on a profit-paying basis.

DRILL SHARPENING MACHINE.

One of Word Bros' drill sharpening machines has been installed by the Daly-John Mining company and reports from the mine say that the machine is doing excellent work. Advice received by the Portage Lake Foundry & Machinery company of Hancock, which manufactures the device, state that the machine at the Daly-John sharpened 180 drills in an hour the other day. It also was reported as doing satisfactory work. Drill sharpening is generally coming into more general use. They are great time and labor savers.

TWO KINDS OF CHILDREN

Children that grow too fast and those that grow too hardy to grow at all, both need Scott's Emulsion.

It gives that rich vital nourishment which is the secret of all healthy growth. It rounds out the long limbs, and helps children to grow without using up all their strength in growing.

Mothers ought to know more about the wonderful help which Scott's Emulsion would give their children.

Will send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

DRIVER HURLED INTO SNOW.

Street Car Hits Sleigh and Causes a Lively Runaway.

A street car traveling at a good rate of speed on Quincy street, in West Hancock, struck the rear end of a sleigh driven by Albert Priest, a teamster in the employ of Roach & Seebler of Houghton, Saturday afternoon, and Priest narrowly escaped injury. He was hurled out of the sleigh with great force, but other than a severe shaking up and a bad scare he was none the worse for the experience. The fact that he landed in a soft bed of snow had something to do with his escape. The sleigh was demolished. The horses, frightened by the collision, broke away from their traces and ran away. The sleigh was shortly after, unhurt. The sleigh was well loaded with produce of different kinds and it was scattered in all directions. Priest was turning into an alley at the time of the accident.

NOT MEETING WITH FAVOR.

Idea of a Municipal Plant Generally Opposed at Hancock.

Sentiment in Hancock appears to be much opposed to a municipal lighting plant. Since the matter of entering into a new contract with the Houghton County Electric Light company for the electric lighting has been before the common council, some members have opposed long term contracts have revived the discussion in favor of the establishment of a municipal plant. The project, however, is not meeting with favor. Last spring, about the time of the first city election, Mayor A. J. Scott and other prominent business men investigated the idea of the municipal ownership of the electric light company. A five or ten year agreement would suit him. On the other hand, Alderman Ryan, who opposes the proposition, is in favor of the municipal ownership. He does not want the city to bind itself to the electric light company for more than one year as the taxpayers may want to establish a plant of their own after that time.

It has been proven time and again that municipal plants are too expensive where water power is not available. In Marquette, where the municipal plant is operated by water power, the costs are lower than in other places where fuel has to be purchased. Marquette furnishes one of the few instances where municipal plants have proven successful from the standpoint of economy to the taxpayer. In Massachusetts, where fuel and other necessities are cheaper than here, it is proven by the annual reports of each municipal plant that the cost of maintenance are higher than for plants owned by private institutions. The reports in many instances are matters of public record, the laws of the state requiring their compilation. The number of taxpayers in Hancock favoring a municipal plant is said to be small. It is known that most of the local taxpayers are strongly opposed to the idea. They have investigated more or less to satisfy themselves that the risks of an undertaking of the kind are too great.

The examination of the accounts of the electric lighting plant owned by the city of Ashland, made by agents of the auditor of the county of Ohio, has been finished and it shows big cost sheets. For the past ten years the city lights have cost, on the average, about \$100 per year each, and this is for what is known as the moonlight, or short schedule, which gives at least twenty-five per cent fewer hours of lighting than the every-night schedule. The cost of the plant to the city for the years 1892 to 1898 is made up as follows: For operation, \$60 per lamp; for interest on bonds, \$40.54; for lost taxes, \$9; total, \$109.54 per lamp per year. This does not include the loss in county and state taxes, approximating \$4.65 per annum. From 1898 to Dec. 31, 1902, the cost was somewhat reduced. The operating expenses were \$60 per annum, while interest charges were reduced to \$31.45. The charge for lost taxes was \$9.10, but with the loss in state and county taxes \$13.75, a total of \$105.29. The cost to the taxpayers for the six years ending 1898 is given as \$685.14 per lamp; for the four years ending 1902, \$292.28, a total for ten years of \$977.42, or an average cost per annum of \$97.74 per lamp, and that on the moonlight schedule.

COPPERDOME BREVITIES.

The Houghton Gun club held a practice shoot on its grounds in East Houghton yesterday morning.

A large buck, which tipped the scales at 275 pounds, was brought to Houghton Saturday by Frank Kopp.

A new hardwood floor is being laid in the dining room of the Douglas House. The old floor was badly warped.

Houghton Lodge, F. & A. M. will hold its annual meeting this evening. Officers for the ensuing year will be elected.

Superintendent of Public Works M. M. Foley has announced that the water will be shut off this evening.

Mr. and Mrs. M. D. Ryan and Miss Geraldine Corrigan of Grand Rapids are visiting at the home of J. D. Cuddihy at Calumet.

The November term of circuit court will, it is expected, come to a close today or tomorrow. Several divorce cases remain to be disposed of.

Mrs. W. H. Hosking and daughters, the Misses Ethel and Eloise, of Calumet, returned Saturday from California, where they spent the past few months.

The Michigan College of Mines will be represented at the St. Louis World's fair next summer by an exhibit illustrative of the work done at the institution.

The steamers Japan and India of the Anchor line will make at least one more trip to Lake Superior and possibly two. The China is now downbound on her last trip of the season.

Arrangements have been made where by Commissioner of Highways George Brand of Portage township will use the Houghton village snow rollers on the township roads during the winter.

Arthur James, until recently a member of the Calumet & Hecla library force, has left for Senora, Mex., to act as representative for "The Mining World," a weekly journal published in Chicago.

The Red Jacket ice rink is being put in condition for the winter season. Contractor Edward Utseth has a number of men at work making improvements that will be appreciated by the patrons.

The ladies of the guild of Trinity Episcopal church of Houghton will give their annual supper and bazaar in the Citizens National Bank hall tomorrow evening. The proceeds will be turned into the fund for the proposed new church.

The Finnish Lady Maccabees of Hancock will hold their annual social at the I. O. O. F. hall on Friday evening, Nov. 27. A class of new members will be initiated during the early part of the evening, after which the members will indulge in their social session.

A. G. Carlson of Trimountain, formerly of Ishpeming, died Friday after a long illness. The remains have been sent to Ishpeming for interment. Mr. Carlson was a member of the Calumet lodge of Maccabees. He is survived by his wife.

The ladies of St. Ignace church, Houghton, will give the last of a series of social dancing parties at the Army on Thanksgiving eve. The Twin City Mandolin orchestra will provide the music, and the ladies will furnish refreshments. The socials may be resumed after the holidays.

The Hennes team of the Houghton Bowling league is in first place, with eleven games won and four lost. The Businessmen are second with ten games won and five lost. The Bankers are third, having won seven games and lost eight. The Antiques are last, with two games won and thirteen lost.

Walker Whiteside will be seen in his new play, "We Are King," at the Kerredge theatre at Hancock on the evening of Dec. 19. Melbourne MacDowell and Miss Florence Stone will present "Henry of Navarre" on Nov. 30. They made a favorable impression at Hancock last season in "The Resurrection."

Mrs. Willman, a Red Jacket widow, has, it is reported, started suit against Charles Huttu, a Mass City businessman, for \$5,000 on a breach of promise charge. She claims that they were to have been married some time this fall, but that Nettie picked a quarrel with her as a pretense to call their love affair off.

The Laurium fire department's new hook and ladder truck will soon be in commission. The truck is nearly completed at the Calumet carriage works and firemen who have seen it say that it will be second to none in the copper country. Laurium's old fire hall has been remodeled and the first floor will be used as a truck room.

The Methodists of Painesdale have been granted the use of the auditorium of the handsome new Paine Memorial library for their regular Sunday services until such time as they can erect an edifice of their own. The ladies of the society announce a musical and literary entertainment for a week from Saturday evening. An interesting program is in preparation.

Mrs. William Reed of Calumet, formerly of Ishpeming, died at the Tamarack mine hospital Saturday morning after a two weeks' illness from blood poisoning. She was twenty-nine years of age, and is survived by her husband and four children. The funeral will be held today from the residence of the deceased's mother, Mrs. Andrew Eddy, at Tamarack.

Trinountain's new Methodist Episcopal church will be dedicated on Sunday, Dec. 6. Rev. Dr. Elliott, pastor of the Central M. E. church, Detroit, will be the preacher of the day and Rev. C. M. Thompson of Marquette, presiding elder for this district, also will participate. A program for the occasion is now in course of preparation. The church was recently completed.

Captain Shields of Company G, Houghton Light Infantry, announces that the members of the company will not receive their "camp pay" from the state until they have returned all clothing and other equipment to their lockers. A number of articles are still missing. If the things are lost their cost will be deducted from the amount due. The money has been received and is ready for distribution.

Not many deer have been brought into town during the past few days. It would appear that the slaughter is slackening somewhat. There are still a large number of hunters in the woods, although the number probably is not as great as it was when the season opened. Then someone with a license seemed eager to get into the woods the first thing. Some of the hunters, however, have preferred to wait until after the rush. They considered it safer.

Wellknown Calumet Finnish residents have made arrangements for opening a night school, to be conducted at the home of Rev. Mr. Arkanen. Although not connected with the recently organized Finnish Literary society, some of the same people are interested in it. The school will be for the benefit of Finnish people who are desirous of better learning the English language. Already about thirty have been enrolled and the number promises to steadily increase. There are a considerable number of Finns in Calumet who are eager to learn the language of their adopted country and the night school will give them an opportunity to do so.

James Pryor, the wellknown Houghton dredging man, is offering his two dredging plants, consisting of two dredges, tugs and scoops, for sale. Mr. Pryor has done a large amount of dredging work in the Portage Lake water channel under the government started to improve them. The work mapped out has been finished and only a small amount of dredging will be required each year hereafter. No new work is contemplated, but some dredging will have to be done in places where the channel naturally fills up with earth and debris. The necessary dredging each year, however, will amount only to a small item, hardly enough for Mr. Pryor to refrain from selling his dredging outfit.

Foley's Honey and Tar always stops the cough and heats the lungs. Refuse substitutes, old at Desjardins' Pharmacy.

MAN PERISH IN DEATH TRAP

SEVENTY-SEVEN ITALIAN LABORERS DIE IN A FIRE IN PENNSYLVANIA.

SHANTY BURNED LIKE TINDER

FLAMES UP THE MEN BEFORE THEY WERE AROUSED.

Weaker Are Crushed Under Foot in Desperate Battle to Escape, and Others Meet Their Doom Trying to Save Hoarded Savings.

Johnstown, Pa., Nov. 22.—While over 100 Italian railroad laborers were asleep in a shanty near Lily, Pa., on the Pennsylvania railroad yesterday, the building caught fire and before the foreigners burned to death and a score or more seriously injured.

The men were employed by McMenamin & Sims, on the Pennsylvania railroad improvements between Lily and Portage. There were 500 on the job, all Italians, and in the shanty which burned were 125 of these.

The shanty was about 100 feet long, one story in height, and built in the usual style of such quarters. The eastern end was devoted to the cooking and eating, while the men slept in bunks, like sardines in a can, in the western end. There was only one door at each end and the windows were few and small.

The fire is supposed to have started from an overheated stove in the eastern end. The building burned like tinder and the flames were upon the men before any of them were aroused.

Desperate Battle for Life. Then began a struggle for the outside and life. They fought and scrambled for the doors, and the work was crushed down and trampled. Others were roasted to death there. Those who strove for the door were in the wildest sort of panic. They fought and kicked, and among those who escaped there are many who bear marks of the terrible struggle.

Many of those who did manage to get out had their savings of years in their trunks, which they left behind them in the building. Remembering this fact as soon as they got outside, they fought just as fiercely to get back. A few succeeded, but for the sake of their hoarded treasure they gave up their lives. One eyewitness says he does not believe that a single man of those who returned successful in getting out again.

In the ruins today some of the bodies were close beside the hooped hands of their trunks and melted gold and silver which had been kept in those receptacles. It is said, according to Commander Morrell's report, to have really been among the missing.

The report has been turned over to Brigadier General George F. Elliott, commandant of the marine corps, and will appear in a board of investigation to the conduct of the marines who, if the charges are proved, will be punished.

Secretary Moody has ordered a court of inquiry to convene at Iona island on Nov. 26 to place the blame for the accident.

BRINGS ERA OF PEACE IN SIGHT. Anglo-Franco-Italian Pact Makes War in Western Europe Unlikely.

Rome, Nov. 22.—Italian statesmen hear officially from London that an understanding has been reached between Lord Lansdowne and Sig. Tittoni, which is approved by King Edward and King Victor Emmanuel. The new arrangement recognizes Italy's special position with reference to Albania and Tripoli and accords Italy equal rights with England and France in the treatment of Mediterranean questions.

The general result of the negotiations at Windsor is said to be in perfect consonance with French ideas. Hence the understanding regarding Italy is the most favorable position it has ever occupied among European nations.

Especially welcome is the stipulation concerning Albania, inasmuch as Russia and Austria when dealing with the Balkan problem have shown a disposition to ignore Italian susceptibilities and interests. It is stated that England, France and Italy are now firmly pledged to a coalition of the Maccaroni question which will preserve the Balkan nationalities and provide a systematic political arrangement of the Balkan peninsula.

Turkish rule in Europe. Sig. Tittoni, the foreign minister, is reported as affirming that the Anglo-French-Italian understanding banishes all prospect of war in western Europe and brings an era of general international rehabilitation among European nations in sight.

King Victor Emmanuel and his foreign minister bear testimony to King Edward's business-like devotion to international amity and justice and declares that Lord Lansdowne, British foreign minister, is well fitted and heartily disposed to promote his majesty's purposes.

WILD RIDE ON BULL MOOSE. Duluth Man Carried Into Thicket on Animal's Back—Kills His Game.

Duluth, Minn., Nov. 22.—J. D. Campbell, a prominent and wealthy citizen of Duluth, had an exciting ride on the back of a huge bull moose forty miles north of here. Campbell and three others were hunting in a big swamp when suddenly they came upon the moose.

Campbell mounted its back with a single leap and away went the terrified animal through the thicket. Campbell, who had anticipated no serious danger from his performance, clung desperately to his position on the animal, which after a wild run of a mile or more plunged into a slough, where the moose sank to its belly and its rider dismounted in safety, finally killing the moose with one shot.

BIG SHORTAGE OF LABOR. South African Commission Reports Need for 241,000 Men.

Johannesburg, Nov. 22.—The report of the labor commission estimates the shortage of laborers at 241,000, of which 170,000 are needed in the mining industry alone.

APPEAL TO THE KAISER.

Scandinavian Peasants and Workers Urge Emperor to Come to Aid.

Berlin, Nov. 22.—Hundreds of remarkable letters addressed to the kaiser by the peasants and workers of Denmark, Sweden and Norway have reached the German foreign office lately.

These epistles pray his majesty, as the recognized head of the Germanic race, to interfere in the internal affairs of Scandinavia. Communications of this nature have arrived in large numbers since William's visit to the king of Denmark, last April.

They express gratification at the kaiser's growing interest in Scandinavia and point out that Germany is its natural ally. The letters from Denmark lament the war which diminished the two peoples.

Many of the writers suggest that the Scandinavians look to the German emperor for salvation against Russian aggression. The Norwegian correspondents lay stress on the kaiser's fondness for the picturesque fjord country and complain that bad times and high taxes have resulted in the eviction of many families from their homesteads.

They ask the kaiser to put an end to these conditions. All sorts of petitions come from Sweden asking the kaiser to "set things right." In the first instance, the writers ask for serious intervention, others request William to give Oscar and Christian aid how to serve the interests of the people.

All these documents are carefully indexed and filed in the foreign office archives for future reference. They have deeply impressed the kaiser with the hold he has won on the imaginations of the people of the north of Europe.

MARINES WERE COWARDLY. Report of Iona Island Explosion Shows Men Ran and Gave No Help.

New York, Nov. 22.—In an official report on the recent explosion on Iona island in which six men were killed, Commander Henry Morrell, U. S. N., on duty at the Brooklyn navy yard, not only verifies the rumors current at the time that the marines displayed great cowardice, but also asserts that the bravery of Sergeant Brooks and several other marines was greatly exaggerated.

Commander Morrell's report says in part: "At this moment an explosion occurred between the two buildings. Fries and Kullwein were thrown down and injured about the head. Fire alarm was sounded and only four men of the force employed on the island came to the gunner's assistance. These men were F. Danielson, who was probably blown through the roof of the shell house and injured; John W. Wilde, ordnance man; Frederick Gorat and Alah J. Jochumson.

"These men, together with Captain Magee of the naval tug Pontiac and his men, fought the fire bravely and deserve much praise. The women and children on the island were put aboard the Pontiac and the boat with the Illinois ammunition was placed in a safe position. The gunner, with the small force that came to his aid, got the fire under control and saved much ammunition and property as was possible.

"All men employed on the island except the first reports obtained on the island, including the marine guards, left the scene of the accident and rendered no assistance. The marine guard did not return until twenty minutes to 3 o'clock.

Sergeant Brooks, mentioned for bravery in the first reports obtained on the island, is said, according to Commander Morrell's report, to have really been among the missing.

The report has been turned over to Brigadier General George F. Elliott, commandant of the marine corps, and will appear in a board of investigation to the conduct of the marines who, if the charges are proved, will be punished.

Secretary Moody has ordered a court of inquiry to convene at Iona island on Nov. 26 to place the blame for the accident.

BANK STATEMENT BAD.

It Was Productive of Some Selling in the Boston Market.

Paine, Webber & Co. said of the Boston market: "Instead of being a good one, the bank statement was unfavorable and this caused some increased selling pressure.

The buying was good on the reaction, however, and price losses were surprisingly small. On a little further reaction the railroads ought to be a buy for a turn. Coppers were the victims of bearish reports and were pressed for sale."

Today's market was characterized by a general decline in prices. The bank statement was unfavorable and this caused some increased selling pressure.

The buying was good on the reaction, however, and price losses were surprisingly small. On a little further reaction the railroads ought to be a buy for a turn. Coppers were the victims of bearish reports and were pressed for sale."

MINING NEWS

RISE HAS BEEN RAPID.

S. A. Parnall Among the Top-Notchers in the Mining Profession.

Samuel A. Parnall, who has been appointed superintendent of the Calumet and Arizona property, heretofore mentioned in The Mining Journal, is a copper country man. He was graduated from the Michigan College of Mines and since then his rise has been rapid.

Before taking charge of the Higgins Development property, which position he will relinquish to go to the Calumet and Arizona, he was superintendent of a property in Mexico, operated by Eastern people. Mr. Parnall's father was the late Captain William E. Parnall, of the Higgins group of mines, and W. E. Parnall, who succeeded his father, is a brother.

The superintendency of the Calumet and Arizona is regarded as one of the best positions in the Western mining world. The Duluth & Pittsburg, Calumet & Pittsburg, Lake Superior & Pittsburg and the Junction Development are owned and controlled by the Calumet & Arizona people. All have excellent prospects of making large mines and the day will probably come when all will be under one management, as practically the same people own all the big things in Calumet & Pittsburg and Lake Superior & Pittsburg.

The report that the Calumet & Arizona dividend has made that stock a little more lively. Fifteen shares were offered by one broker Saturday for \$85 but the asked price is quoted at \$100. Holders in all three properties seem content to keep their stock. They look for big things in Calumet & Pittsburg and Lake Superior & Pittsburg.

The directors will meet at Calumet this week and the day of payment likely will be announced at that time.

MONTANA SITUATION. Boston Mining Man Talks Interestingly Concerning It.

A prominent Boston mining man who has just returned from Butte speaks thus interestingly of the situation in that state:

"I arrived in Butte the day the Amalgamated company closed down its properties, and as I have known all the contending parties in Butte for many years, I was able to get a clear view of the situation.

"The Amalgamated people, however, should not turn away with the idea that Heinze will die an easy death, for he is versatile and has great wealth back of him and he will fight to the last ditch, and the people of Butte will uphold his hands."

OSCEOLA. The directors of the Osceola Mining company are expected to meet shortly to declare a dividend of at least \$150 per share, although some of the directors are known to favor a disbursement of \$2. Dec. 31 last the company had a deficit of \$226,025. This has been made good and a substantial cash balance accumulated. The mine is at present producing copper at the rate of 30,000,000 pounds per annum, although for the calendar year 1903 the output will not exceed 16,000,000 pounds, a production which compares with 13,416,300 pounds in 1902.

In 1902 the company made its output of 17,777 cents per pound, including construction as an operating charge. This year the cost should not greatly exceed ten cents per pound, a substantial operating economies have been made possible by the expenditure of large sums of money during the past few years for improvements.

The Osceola mill is crushing 3800 tons of rock daily. The copper contents today are under rather than over eighteen pounds to the ton. The Osceola is now the second largest individual producer at the lake.

COPPER GLANCE. The management of the Copper Glance property, in the Warren mining district of Arizona, has decided to use a diamond drill in searching for the ore bodies thought to underlie the Copper Glance claims. The drill will be installed at the bottom of the 500-foot shaft and will soon be driving holes in various directions. The value of the property, by this means be the sooner determined, particularly as water has caused no little annoyance in sinking the shaft.

MINING GOSSIP. An early call of a \$3 assessment on the 50,000 shares of Alameda is expected. The Winona rock is now yielding a little more copper than for several months past. The mine is shipping about 150 tons of rock daily to the Atlantic mill, and is getting its best rock from the deepest openings.

Reports from the Phoenix from those in a position to know are to the effect that the rock is yielding well under the stamp, and the success of the mine is dependent merely upon the ability of the openings to feed the single stamp with rock of as good grade as is now being milled.

President Lamb, of the Mass Consolidated, one of the few heads of Lake copper companies not present at the notable gathering of two weeks ago, will arrive on a regular visit of inspection early next month. Matters at the Mass are running along very smoothly, and a considerable production of copper is being secured, while every economy is practiced.

The name of the new company that is to reopen the Helveta mines in the Michigan & Arizona. Developments Co., F. B. Closen, who was prominently connected with the old company, has been appointed the general manager for the new company and will have personal charge of affairs at the camp. Work will be started on the Isle Royale shaft of the group, which is now at a depth of over 400 feet, and it will be continued to a depth of 1000 feet.

A prominent brass manufacturer of Connecticut says: "I look to see copper sell at 12c early next year, if the Amalgamated mines continue in operation. The copper situation closely resembles the iron and steel situation. The brass people are not doing the business they were a year ago, but production of copper is larger. I am not buying copper at present prices, for I confidently expect to get all I want after the turn of the year at 12 1/2c."

Notice has been issued to Old Dominion stockholders to the effect that a special meeting of the company will be held at Jersey City, N. J., on Nov. 30, to see whether the stockholders will authorize an increase of the capital stock from 200,000 to 350,000 shares, and to see whether they will confirm and authorize the directors to carry out the making of an agreement between the corporation and the United States Globe mines and F. S. Moseley & Co., providing for an amalgamation of the two properties. The transfer books will be closed from Nov. 28 to Dec. 7. The Old Dominion has extended the time of deposit of shares with the National Shawmut Bank until the close of business Saturday, Nov. 28.

rapidly. Crosscutting to the copper belt will be commenced when a proper depth has been attained, and after the permanent shaft is under way the one now in use will become advantageous for drainage purposes.

The Kearsarge lode has been found profitable on the lands of the Centennial, adjoining, though not until after considerable depth had been attained, for which reason some little time may elapse before the value of this mineral belt is demonstrated on the Calumet & Hecla tract.

OSCEOLA. The directors of the Osceola Mining company are expected to meet shortly to declare a dividend of at least \$150 per share, although some of the directors are known to favor a disbursement of \$2. Dec. 31 last the company had a deficit of \$226,025. This has been made good and a substantial cash balance accumulated. WE PAID \$100,000

for the American rights to Ligozone.

That Heinze lawyers or experts testify to is gospel truth. Why, John E. Forbush, one of the leading lawyers in the state of Montana, who has been Montana for years, says that he has been engaged in litigation in Clancy's and Harney's courts in hundreds of cases in the last six and one-half years and he has failed to get a single favorable decision in all that time as against Heinze. It is a case of rank prejudice on the part of both Judges Clancy and Harney. Of course, a change of venue law would remedy this to an extent, although such a law would not necessarily be an assurance that Amalgamated would get all its decisions in Heinze's favor.

"I believe that Heinze now realizes his position and is willing to arbitrate, but if the Amalgamated people get a change of venue law, it is questioned if they will settle or arbitrate until they determine to what extent they are able to make good and a substantial cash balance accumulated. The mine is at present producing copper at the rate of 30,000,000 pounds per annum, although for the calendar year 1903 the output will not exceed 16,000,000 pounds, a production which compares with 13,416,300 pounds in 1902.

CITY LEAGUE BOWLING.
The Superior Team Got Into First Place Saturday Night.

The Superior team of the Marquette City Bowling League furnished the surprise of last week's bowling Saturday night by winning three games from the strong Eagles and taking first place, by a good margin.

The city league is now fairly started on its winter's sport and a great deal of interest is being taken by its members, while each of the matches brings out a goodly number of spectators and roofers. The games have been well contested as a rule and some good scores have been made. In this connection it is well to draw attention to the fact that in making up the teams it was aimed to get the good players evenly distributed, which accounts in some degree for the fact that the team scores are not so high as in towns where bowling has been in vogue for a longer time than is the case here. If an outside team was to be played the Marquette bowlers could get a strong combination of players together to meet it.

Some of the teams that occupy humble places on the list at this time are strong and will doubtless forge ahead later at the expense of teams which now have comparatively large percentages.

Of individual players Homer Hogan has the best average, 186 2-3, and Kimbell has the best average for three games, 202 2-3. Van Iderstine has the honor of the high score, 235.

Following is the standing of the teams, the first column indicating games played; second, games won; third, games lost, and fourth, percentage:

Superiors	12	9	3	750
Wolverines	6	4	2	667
Iroquois	6	4	2	667
Eagles	12	7	5	583
Stardards	9	4	5	444
Shamrocks	9	3	6	333
Magicians	6	2	4	333
Indians	6	0	6	000

The individual records of the best players are as follows, first column, showing, number of games; second, total pins; third, high score; and fourth, average:

H. Hogan	9	1,080	214	186
Bowsher	12	2,218	236	184
Kimbell	12	2,177	215	181
G. Anderson	12	2,065	194	172
Stafford	6	999	166	166
S. Rose	12	1,976	189	164 2-3
Maney	3	493	164	154
H. O. Bell	6	985	187	164 2-3
Weiser	6	984	211	164
Hermann	6	961	193	160

Following is the score for Saturday night's game:

Superiors	157	155	157
Allen	128	174	116
Brunner	109	131	111
Borst	101	120	100
G. Anderson	108	179	188
Bowsher	102	154	202
Totals	814	793	793

MUCH FOOTBALL INTEREST.
Marquette County People Will See Michigan-Chicago Game Thanksgiving.

Football interest among the fans is at the high point for the season, despite the fact that the upper peninsula championship is settled for 1903 and the additional fact that upper peninsula gridirons are now pretty well snowed in. The main interest is no longer sectional or local. It is centered in the fact that, set for Thanksgiving Day, and its vicinity, expressed in solitude for the outcome of the great struggle between Michigan and Chicago. For this event the upper peninsula railroads, as advertised, are offering excellent chair rates. Many Marquette county people are planning on seeing the game, and the delegation will likely include a number from this city. Many are now talking of making the trip.

Michigan and Chicago are both unbeaten teams, and their game Thanksgiving will have a great bearing on the championship. Michigan's string of victories is marred only by its tie with Minnesota, and Chicago, in its western championship game, has only the tie with Northwestern to regret. To defeat Michigan would mean for Chicago the championship. On the other hand a decisive defeat of the Maroons by the Wolverines might be the means of giving Michigan this honor.

All last week the Maroons were working steadily under Stagg in preparation for the Thanksgiving Day engagement, and they will continue under his able instruction right up to Thursday. That they will be fit and on edge there is no reason to doubt. Chicago is always unusually well prepared for Michigan and this year Stagg will have had ten solid days to put the finishing touches on his squad. It will require all the Wolverines have got to win.

The championship is up in the air, and will doubtless be in dispute between Michigan and Minnesota when the season ends. This is the way the best informed fans now figure it out. They expect Michigan to beat Chicago and Minnesota to defeat Wisconsin. If it turns out this way, irrespective of the matter of scores, it is readily to be seen that neither Minnesota or Michigan, in view of the tie game, can have a clear claim to the honor.

If Michigan should defeat Chicago and Wisconsin should beat Minnesota, Michigan's title would be clear. If Chicago should win from Michigan and Minnesota from Wisconsin Chicago would have the best claim, and a postseason game with Northwestern would make its title clear. However, either of these combinations are regarded as unlikely. The outcome most generally expected is Michigan and Minnesota victories.

People who see the Thanksgiving game at Chicago, it may be said, going to be present at one of the most important and best played football games ever held in the west. It will be well worth the trouble for those in a position to make the trip.

THE GREAT FUR EXHIBIT.

The Northwest is justly proud of its greatest fur house—that of E. Albrecht & Son of St. Paul, whose representative is at present in the city with a full exhibit of the latest fur styles and novelties.

The house of E. Albrecht & Son was founded in 1855, and purchasers of Albrecht garments get the result of nearly 50 years of hard, conscientious study of one business. Styles and qualities are the world's latest and best. Ernest Albrecht, the senior member of the firm, makes annual trips to the Old World Markets, where he purchases the raw peltries at first hands at advantageous prices, and makes careful note of all fashion changes and features. The results of these trips of Mr. Albrecht, senior, taken together with the frequent New York visits of inspection by Mr. Otto E. Albrecht, the firm's junior partner, give to Albrecht furs a distinguishing quality and cosmopolitan style obtainable in no other furs in the world.

For further reasons why "Albrecht Furs are Standard" our citizens are urged to call at the exhibit and see for themselves. At Marquette Hotel, Monday and Tuesday, Nov. 23 and 24.

CITY BREVITIES.

Weather forecast: Brisk northwest wind; probably snow furries; colder. Yesterday's temperature: 7 a. m., 30 degrees; noon, 34 degrees; 7 p. m., 32 degrees; maximum, 36 degrees; minimum, 31 degrees.

The card party which was to be held tonight by Superior tent of the Maceabees will be postponed on account of the death of Sir Knight Schwartz.

Hathway advertises a specially fine lot of turkeys for Thanksgiving, and wishes his friends to order early as there will be a big demand for the birds this year.

Raymond G. Veasy, who has been the clerk in the United States inspectors' office for the past several months, has resigned his position, on account of ill health, and has left for his home in Jacksonville, Ills.

W. H. Volk, a former Marquette hotel man, who visited here a few weeks ago, is now managing the Hotel Norval at Lima, O., where he will be pleased to see any of his Marquette friends who may get around that way.

Workmen were busy Saturday with the erection of the pillared veranda at the north entrance to the new court house. It is an artistic piece of work. A similar veranda is to be built on the south side, going up on one.

The supper for the guests of the traveling men on the occasion of the ball at Fraternity Hall Thursday night will be served at the Clifton House. It is announced that tickets to both dance and supper will be \$2 per couple.

Owing to mild weather the sleighing got pretty thin in places yesterday, but an additional snow fall helped it out last night and there is no immediate prospect of its disappearance. On the contrary it looks as though it were here to stay.

Miss Bessie Casper was united in marriage last evening to Manager Kline, of the Fair department store of Escanaba. The wedding ceremony was performed at the residence of the bride's brother, Fourth and Prospect streets, in the presence of a large assemblage of invited guests.

The Pioneer cleared yesterday with pig iron. She is bound for Buffalo. The Pioneer has finished unloading coal and has gone to Ashland to take out ore. The Andaste and Chisholm are still at the coal dock, and the Castalia, with a cargo of anthracite, was due to arrive early this morning.

There is much interest here in the presentation Wednesday evening of "Mrs. Wiggs in the Cabage Patch," a dramatization of the story of that name and also of "Lovey Mary" stories that have been the most widely read of any writings of the past two years. The play is said to introduce the leading actors of both books very cleverly and to possess elements of dramatic interest. The company is composed of wellknown people. This season is the first time that "Mrs. Wiggs" has appeared on the stage, but she has won instant favor.

The death of Henry E. Schwartz occurred yesterday. Mr. Schwartz was born in Newstetten, Germany, Jan. 31, 1853, and came to Marquette twenty-one years ago. He lived here continuously from that time up to his death, and was a stone mason by trade. He was a prominent and devout member of a German Lutheran church, and was a leading member of the German Aid society. In addition he was a member of the Superior tent of Maceabees and of the Bricklayers and Stone Masons' union. The deceased is survived by a widow and nine children, two boys and seven girls.

SOO CANAL PASSAGES.

List of the Boats Locked Through on the Up-Bound Trip.

Sault Ste. Marie, Mich., Nov. 22.—Up: Traverse, 9:20 last night; Argo, 3:40 a. m.; Algonquin, 8; Mathews, 9:30; Chicago, Frick, 10; Woodruff, 10:20; Watson, Castalia, Curry, 11:20; W. L. Smith, 1 p. m.; Ireland, 2; Alva, Langham, 3; Strong, 4; Saxona, Hanna, Helena, 4:20; Anna C. Minch, 4:50.

ABSOLUTE FAITH.

You Can Depend Upon the Word of This Marquette Citizen.

She has had the experience. She has thoroughly tested the article. She found it as represented. She has absolute faith in its merit. Mrs. Wm. Warren, 220 W. Jackson street, says: "I had constant pain through the small of my back; at night I was very restless, I could find no position to lie in that was comfortable and consequently rose in the mornings feeling tired and worn out. The secretions from the kidneys were unnatural and greatly in excess. I also suffered from persistent headaches and had intense thirst, feeling as though I could not drink enough. I saw Doan's Kidney Pills recommended highly for just such troubles and I procured them from the Stafford Drug Store. The treatment promptly relieved me of the trouble." For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

BOY WANTED!

TWO DAYS ONLY!
at MARQUETTE

Hotel Marquette, Monday and Tuesday, November 23 and 24.

THE EXTENSIVE
Exhibit of Original Albrecht Furs.

You will be given an opportunity of examining these luxurious furs which represent the pick of the World's Fur Markets in peltries and the latest styles from the fashion capitals of Europe and America.

It is not safe to buy "furs," a commodity of which your personal knowledge is limited, from other than a reputable fur house. Nearly half a century of fair dealing has made the name of "ALBRECHT" SYNONYMOUS with "CORRECT FURS" THROUGHOUT THE LAND.

Our representative, Mr. Fitzgerald, will be pleased to show you this incomparable line of Fur Garments and neckwear and take your order for future delivery. Our goods and values are worth your consideration.

Mr. Fitzgerald will also visit the following places: Ishpeming, Nelson House, Nov. 20-21; Escanaba, Ludington House, Nov. 25-26; Menominee, Stephenson House, Nov. 27-28.

Attention Farmers.
Why remain in the North and stay in doors six months in the year consuming what you raise during the other six months?
Go South where you can work out doors every month in the year, and where you are producing something the year round. If you are a stock raiser you know your stock are not "eating their heads off" and, besides, have to be protected from the rigors of winter by expensive shelter.
Economical stock feeding requires the combination of both fleshing and fattening foods in certain proportions. Alabama and Florida produce in abundance the velvet bean and cassava, the first a flesh producer, and the latter a fat producer, and they are the cheapest and best fattening materials known to the world.
More money can be made and with less labor, in general farming, fruit and berry growing and truck gardening along our road in the South than in any other section of the Union.
If you are interested and desire further information on the subject, address
G. A. ARK.
General Industrial and Commercial Agent.

MADE FATAL MISTAKE.

Aged Hermit in Southern Part of County Used Arsenic for Baking Powder.

The details of the death of Alexander Turner, an aged hermit living in the woods near Camp One, about seventeen miles from Princeson, were received here Saturday. The old man was the victim of poisoning from arsenic, which he had used by mistake instead of baking powder in making some biscuits. He expired in great agony shortly after the death occurred Thursday morning. An old man from Escanaba who was out on a hunting trip had been staying with Turner for a few days and was present when he died. It was through him that Coroner Prin was notified. Mr. Prin ordered the remains shipped to Escanaba. The coroner of Dea county had also been sent for, but the case was outside of his jurisdiction.

Little is known of Turner's antecedents. So far as has been learned he was entirely alone in the world, without relatives or friends. He had lived in the woods for a number of years in a rough little cabin in a desolate spot, far removed from civilization. The old recluse was an eccentric character. People seldom visited him in his retreat, but he would stop there occasionally. He preferred to remain entirely apart, with no companions but his dogs. The old man gained his living from trapping and hunting.

Coroner Prin had a rough journey in reaching Turner's place. He received word late Thursday afternoon and was obliged to travel all night, most of the way in an open rig over bad roads. He went to McMann's farm from Princeson, from which it is eleven miles to where Turner lived. He returned Saturday morning.

According to the Escanaba Mirror Turner's companion had a narrow escape from his fate. The Mirror says: "The two men were doing their own house work, and Turner had charge of the baking. He made some baking powder biscuits for supper Wednesday evening, and in taking the ingredients from the darkened shelves, he mistook the can containing arsenic for that of the baking powder, and mixed the biscuits with a liberal quantity of the deadly poison. The biscuits were set on the table and both men had succeeded in eating a goodly number when both were seized at the same time with terrible cramps. It took but a few moments for them to realize what had really happened.

"With great presence of mind the young man began drinking the strong coffee that he had brewed, and the vomit that he had mixed with the coffee, but could not throw it up, and his agony soon became terrible. He died a terrible death toward midnight.

"The younger man made a gallant fight for life and he succeeded in getting rid of enough of the terrible poison to save himself, although it left him in a terrible state. All day Thursday he suffered, all that night, and it was Friday morning when he arrived more dead than alive at Northland, bringing his terrible news."

NICHOLS STILL MISSING.

The whereabouts of Stephen Nichols, who has been missing for over a week, remains a mystery. No hope is entertained of ever finding him alive, but opinions differ as to the manner in which he came to his death. A hunter who has just returned from the region in which the young man is lost, stated that the new law, fixing a penalty for shooting a human being while hunting game, should be held responsible, in a measure, for Nichols' death. "There were hunters all through the region and I can't see how any man as at all familiar with the woods could remain lost there very long. Nichols was a strong, hardy chap who has been accustomed to hunting since his boyhood. Unless he went out entirely unprovided with the few necessities, with every one carries in the bush he must have had the means for building a fire, which would have kept the wolves away and saved him from freezing to death. If he had been able to provide for himself in this manner, he could have survived for two days or even longer without food and in that length of time he surely could have made his way out or found assistance. I know that the swamp where the unfortunate young man has been, is all probability lost to life is a desolate place and hard to travel through, but I am still confident that he could have escaped. It is my theory that some nervous hunter sent a bullet into Nichols, and he fell in its tracks, getting away as fast as possible to avoid facing a criminal charge. If the lad's corpse is ever located I'll wager that the bullet wound can be found."

WAS LOCKED IN.

A man who had become confused in his bearings and was making a vain attempt to get home made his way into the back door of Miller Bros. store Friday night and fell down stairs into the basement. His presence was not noticed and at closing time the store was locked up, leaving the man at the foot of the stairs. The fellow finally came to senses and finding himself the sole occupant of the place, with no means of getting out, raised a great uproar, probably with the idea of attracting attention from some of the passers by. He was entirely successful, rousing not only the neighbors, but bringing the marshal to the scene as well. It was thought that a party of desperate burglars had possession of the store and were trying to demolish it. The fellow was gathered in and lodged in the jail Saturday morning, appearing before Justice Verran, paying the usual drunk and disorderly fine.

J. C. MAYNARD INJURED.

Joseph C. Maynard is confined to his home by a fractured leg. He sustained the injury by accidentally falling on a few sidewalk on Ludington street last Friday afternoon. The injury is a quite serious one and will keep Mr. Maynard home for some time. Such accidents as these are unfortunately quite frequent in winter and too much care cannot be exercised by pedestrians, especially when walking over stone or cement sidewalks.—Iron Port.

Dr. Weaver's Syrup and Cerate.

Successful treatment for blood and skin diseases.

W. A. Herren of Finch, Ark., writes, "I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors given up." Sold at Druggists.

THE STAFFORD DRUG CO.

WANTS HOUSES NUMBERED.

Mayor Is in Favor of a Better System of Identifying Residences.

An innovation that will undoubtedly meet with favor has been suggested by Mayor Houle. He wants to have a uniform system of numbering the residences and business places introduced. At present there is absolutely no means of designating a house except by a roundabout and indefinite description of the entire neighborhood. Numbers have been placed on a few residences. The city has now attained such a size that unless a person is familiar with every part of it, he often has a hard time in reaching the place where he wants to go. A better knowledge of the names of the different streets would be necessary if the numbers were to be depended on. People who have lived in Negaunee for years do not know the names of more than half a dozen of the streets, using some well known residence or building as guide-marks in giving the location of the place they wish to designate.

It is said that there is an ordinance relating to the numbering of houses, but if it exists no attempt has ever been made to enforce it. The expense of introducing a complete system would not be large. If the city ever secures a free postal delivery system, numbering will be necessary.

THE BEST LINIMENT.

"Chamberlain's Pain Balm is considered the best liniment on the market," writes Post & Bliss, of Georgia, Va. No other liniment will heal a cut or bruise so promptly. No other affords such quick relief from rheumatic pains. No other is so valuable for deep seated pains like lame back and pains in the chest. Give this liniment a trial and become acquainted with its remarkable qualities and you will never wish to be without it. For sale by The Stafford Drug Co., J. M. Perkins, Negaunee, and Henry Harwood, Ishpeming.

LOCAL LACONICS.

C. E. Palmerlee of St. Ignace was a Negaunee visitor Friday.

Albert Story, of Stephenson, has taken a position in William Garbet's blacksmith shop.

Joe Richardson and A. C. Seass arrived here Friday from an extended outing at Little Lake.

Miss Maude Gibson, a student at the Marquette Normal, spent a trial and Sunday here visiting relatives.

Al Sanders, who was here attending the funeral of Will Argall's child, returned to his home at Sault Friday.

John Rock, the policeman, is unable to attend to his duties on account of illness. Ed Maroney is filling his place.

Mrs. R. G. Jackson, Mrs. Boyd and William Boyd concluded three days' visit to relatives and friends at Sault and returned home Friday.

J. H. Winter arrived home Friday from his hunting trip. Oscar Meyer and Emil Denny, of Chicago, who were members of the party, accompanied him here, leaving the same evening for Chicago.

The party given by the Masons Friday night was an enjoyable function. A large and enthusiastic assemblage was present, the members visiting their families and friends and the ladies of the sister lodge. Dancing was continued until a late hour.

The fountain has been enclosed for the winter, the same temporary covering being erected over it as served last winter. A good many complaints were registered last year because the water was allowed to run out from the catch basins and freeze around the edges of the fountain.

J. H. Sawbridge's delivery horse created a small sensation on Iron street Friday afternoon. It took fright while standing in front of the store and started on a wild run. It came into collision with a post before going far and broke away from the rig. The terrified animal then took the sidewalk, traveling at breakneck speed for about a block. Two ladies who were in its path had a narrow escape from being trampled by the horse, but succeeded in getting out of the way just in time.

Oxalic acid, largely used in households for removing stains, has often been accidentally taken instead of epsom salts, from the strong outward resemblance of the two. The activity of the poison when so taken admits of no delay. How to treat one thus poisoned is told in "Poisons Remedies," one of the series of medical handbooks being issued by The Mutual Life Insurance Company of New York. The book will be sent on request to any who addresses the Home Office of the Company, New York City.

Foley's Honey and Tar for coughs and colds, reliable, tried and tested, safe and cure. Sold at Desjardins' Pharmacy.

Fancy Groceries for the Holiday Season

swarm in this busy hive of table delicacies for Christmas week and the before and after days—so many their names would fill a page, so rich and so good you'll talk many minutes in their praise.

IMMIGRANTS ARE IN SAD PLIGHT

CHILD OF FAMILY BOUND FOR NO. DAKOTA DIED ON SOUTH SHORE TRAIN FRIDAY NIGHT.

BRONCHIAL PNEUMONIA CAUSE

TWO OTHER CHILDREN DOWN WITH DIPHTHERIA HERE.

They Are Being Cared for at St. Mary's, Where Other Members of the Family Are Also Being Treated.

An immigrant family by name of Hanser, Russian, but speaking German arrived here on the late train Friday night in a sorry plight, with one four year old child dead of bronchial pneumonia and two suffering from an attack of diphtheria.

The family was en route for Dickinson, N. D., where the mother says that she has a sister and friends. The parents are middle aged people, and seem to be of a very fair class of emigrants.

It appears that the dead boy was taken ill when the family was a day out on the twelve days' trip to New York. He was taken in charge by the ship's physician and placed in the hospital where he remained for a number of days.

It is thought here that the child was ill of diphtheria on shipboard and that

this disease was broken up, not, however, until the other children were infected. The dead boy was not affected with diphtheria, as examination showed, but the two little sufferers now at the hospital have true cases.

The family will suffer no little interruption of its journey, as it is likely to be delayed for several days, awaiting the recovery of the two sick children, even if other members are not taken down, something that is not unlikely.

"GHOSTS" TOMORROW NIGHT.

Miss Mary Shaw Will Be One of the Season's Best Attractions.

Miss Mary Shaw in "Ghosts", the bill at the opera house tomorrow evening, will be one of the best attractions that Marquette theater goers will have an opportunity to enjoy this season.

RESOLUTIONS OF RESPECT.

At a meeting of local union No. 958, Carpenters & Joiners of America, held on the evening of Nov. 20, the following resolutions were adopted:

Resolved, Whereas, David Perry Pickett, an honored member of this union, has by death, been suddenly taken from our midst, therefore be it

Resolved, That we express our sincere sorrow at his mysterious and sudden removal from among us, to the realms beyond from which no traveler returns, and be it further

Resolved, That this local union testify and place on record its appreciation of our deceased brother's merits as a member of the United Brotherhood by draping our charter for the period of thirty days, and be it further

Resolved, That we tender to the widow and relatives, our heartfelt sympathy in their hours of sorrow; that a copy of these resolutions be spread on the minutes of this union; a copy sent to the widow, and the same published in The Daily Mining Journal.

HOIST DAM WAS CLOSED TIGHT

AND SHORTAGE OF WATER CAUSED INTERRUPTION OF ELECTRICAL SERVICE SATURDAY.

NO WARNING WAS GIVEN

CONSEQUENTLY PEOPLE AT CITY PLANT WERE UNPREPARED.

Superintendent Retallic Made Trip to the Seat of the Difficulty—Normal Supply of Water is Now Available.

Superintendent Retallic returned last evening from a trip to Dead river made with the purpose of investigating the conditions that caused the shortage of water interrupting the operation of the municipal lighting plant Saturday. He found the seat of the trouble at the hoist, where the dam had been closed, without any warning being given the light and power commission, Friday, shutting off the normal flow of the river and quickly causing the exhaustion of the water in storage behind the light and power commission's dam.

The gates at the hoist were closed Friday, the last of them late in the afternoon. The diminution in the head of water behind the light and power commission's dam was noticed about midnight, and at that time the water had been falling off for some time. It was a good deal of a question whether the plant could be operated through the night, but this was done, and the shutdown did not come until about 10 o'clock Saturday morning, at which time the water behind the dam was about the lowest it has ever been.

During the shutdown, which lasted until late in the afternoon, water was being accumulated for the night run, but when the plant was started up about 4 o'clock there was so little water in storage that it was felt that it was doubtful whether it could be continued in operation for more than a few hours. Up to 6 o'clock the level of the water fell off steadily. From six until about seven-thirty it just about held its own, but after the latter hour it began to gain slowly, and yesterday conditions at the dam had become normal again.

Saturday Superintendent Retallic was at a loss to explain the sudden fall of the water. He was assured by the lumbermen that they had put no logs in the river and likewise that nothing had been done at the hoist. On the theory that the trouble was farther up the river he went to Ishpeming yesterday morning, and drove out north of that city, only to finally ascertain that the seat of the difficulty was really at the hoist. The man there said that he had been instructed to keep the gates open as long

as possible, as it was expected to make some repairs on the dam before the winter set in. However, when the snow came he judged it was time to lower them and begin accumulating a head of water. This he did without further orders, this fact explaining the lumbermen's ignorance of what had been done at the dam.

Fortunately the shortage of water came at a time that prevented the resultant inconvenience from becoming acute. The suspension at the plant came in the day, when there is little demand for light. The Lake Shore Engine works was one of the sufferers from the occurrence. Its power is furnished by an electric motor, and the shop work was all knocked out Saturday.

The incident is simply another example of the trouble that has been caused year after year for the light and power commission by the failure of people operating on Dead river to give it fair notice of what they were about, so that the proper arrangements might be made at their dam. An aggravated instance of this thing occurred last spring, when the hoist gates were thrown open without a word of warning and as a result the electric light dam missed going out by the narrowest margin. Nothing has ever been done to teach the offenders a lesson. There is some talk that an injunction may be applied for, to restrain operators from in any way obstructing the river bed. It is feared that unless some such step is taken there will be more trouble next spring.

E. C. ANTHONY HONORED.

Governor Bliss Has Appointed Him a Member of Board of Prison Control.

E. C. Anthony, of Negaunee, has been informed that he has just been appointed a member of the board of control for the Marquette branch of state prison by Governor Bliss, to succeed John Henes, of Menominee, resigned. The law provides that there shall be one Democratic member of the board, and Mr. Anthony will be the Democrat. He is one of the best known residents of the county, and has the qualifications for a valuable member. He will be down today to look over the prison and get an insight into his duties, preparatory to taking part in the regular meeting tomorrow.
