BATTLE FOUGHT IN SNOWSTORM.

Crowd of Twenty Thousand Sees the Michigan-Chicago Contest.

Chicago, Nov. 26.—Twenty thousand enthusiasts braved a heavy snowstorm today and saw Michigan overwhelm Chicago, the score being 28 to 0. Chicago had a decided handicap in the illness of Coach Stagg, who suffered from fever and, despite the advice of his physicians, saw the game while lying bundled up in blankets in a closed carriage. Holding Michigan only once for downs in the first half and having the ball in her possession only three times, Chicago displayed football strength no higher than that of the teams the Maroons have beaten in practice. This remark Chicago from the front row of Western claimants for the championship. It was Chicago's first defeat by a Western team. A slight shifting of Chicago players in the second half was barren of results, and in vain did Stagg direct the movement of new forces from his carriage.

Story of the Game. Michigan won the toss and chose the north goal. Ellsworth's kick-off was brought back twenty yards by Longman and Heston, Graver and Maddock, with Longman occasionally bucking the center hard, made the first downs with rapidity. Chicago held on her fifteen-yard line, but her offense was repulsed and Michigan gained the ball, Maddock soon being over the goal line for the first score.

The eagerness of the Michigan men resulted in several penalties for off-side play, but on the whole the game was clean. Michigan's physical condition was little short of marvelous. Chicago's eleven, a makeshift at its best today, was below Michigan's in condition. Heston, on Michigan's line, made some sensational gains around the left end, but once after running thirty yards and having a clear field for goal was tackled from behind by Eckersall. Hammond failed on his first try for goal from placement, but on a second try, but a moment later Heston, by an end run, scored the second touchdown and Hammond kicked goal. Score, Michigan, 12; Chicago, 0.

Hammond failed on his first try for goal from placement, but on a second try, but a moment later Heston, by an end run, scored the second touchdown and Hammond kicked goal. Score, Michigan, 12; Chicago, 0.

Hammond failed on his first try for goal from placement, but on a second try, but a moment later Heston, by an end run, scored the second touchdown and Hammond kicked goal. Score, Michigan, 12; Chicago, 0.

READY TO FIGHT RUSSIA.

Chinese Commanders Offer to Send 90,000 Troops to Manchuria.

London, Nov. 27.—The Telegraph's Shanghai correspondent cables that the viceroy and governors of thirteen provinces outside of Chi Li have offered to send 90,000 foreign-trained troops to fight Russia for Manchuria.

STEEL PLANT SHUT DOWN.

Refusal to Accept Lower Wages Throws 1,500 Men Out of Work.

Chicago, Nov. 26.—The Inland Steel company, at Indiana Harbor, has decided to shut down its plant because 450 skilled workers refused to accept a reduction in wages. Sixteen hundred men are now out of work.

TRIED TO CORNER MARKET.

La Crosse (Wis.) Cheese Company Is Adjudged Bankrupt.

La Crosse, Wis., Nov. 26.—As the result of an attempt to corner the cheese market, the La Crosse Cheese & Butter company, doing a large business in Wisconsin, Minnesota, Illinois and the Dakotas, has met with financial difficulties and has been adjudged bankrupt.

DUEL OF REPORTEE

CROATE AND BRYAN CROSS WITS AT LONDON BANQUET.

Nebraskan Is Guest of Honor and Speeches Term With References to Anglo-American Friendship.

London, Nov. 26.—Thanksgiving Day was celebrated at a banquet at the Hotel Cecil tonight. There were over four hundred covers. William Jennings Bryan was the guest of honor. The speeches, well flavored by the usual seasonal cheer and references to the Anglo-American friendships, developed particularly into a duel of repartee, good natured, but almost on the sulcid order, between Mr. Bryan and Ambassador Choate.

There were a number of notable guests at the banquet. The Duke of Marlborough proposed a toast to President Roosevelt and, addressing himself to the guests, said that the Anglo-American friendship has in common, referred to in terms of the highest praise to President Roosevelt.

Ambassador Choate, responding to a toast to his health, spoke of the mutual sympathies of the American and British people. Turning to Mr. Bryan, Mr. Choate said it was the custom of Americans, torn from their native shores, to gather annually and refer to their country. The American society in London had now among them another of these exiles, for whom personally he, as ambassador, had been doing the best he could. He spoke of accompanying Bryan to the Bank of England, where he was able to study the fiscal question in its native land. The company would be edified, said the ambassador, had they seen Mr. Bryan cross-examine the natural resources of the Bank of England. The ambassador said he had aided Bryan to hear Asquith, Chamberlain and Lords Goschen and Rosebery, all within forty-eight hours, so if his views on the fiscal question were not utterly mixed, they would appreciate at least the quality of the man they had before them.

The speech of the ambassador was followed by an ovation to Bryan which lasted for several minutes. Mr. Bryan, responding, paid a graceful tribute to the English guests of the society. He thanked the British nation for the kind and honorable manner in which he had received him, the protestations for letting him land at all, and the "gold-bugs" for not having deported him immediately after his arrival. Mr. Bryan said he had profited exceedingly by his visit to the Bank of England. He spoke eloquently of the natural resources and advantages of the United States, for which the people must return thanks to God, and of the ideals of liberty and progress, for which they must thank their English progenitors. He urged the necessity of the present generation becoming imbued with the spirit of the men of the past, and of the blessings they had received from their ancestors, and suggested that they bequeath the ideal of international amity, of which The Hague arbitration tribunal was a last gift monument. "Hail to the nation," concluded Mr. Bryan, "whatever her name, who leads the world toward this higher ideal for the lasting good of all humanity."

FIRST TIME ON RECORD.

Thanksgiving Day Special Service Is Held in Church at Rome.

Rome, Nov. 26.—For the first time on record a special service was held here on a Thanksgiving Day. It took place in the Catholic church of San Silvestro Monsignor Robert Seton of Newark, N. J., titular archbishop of Heliopolis, giving the benediction. The church was filled, all the members of the English pilgrimage now in Rome being present.

Banquet at Berlin. Berlin, Nov. 26.—Three hundred members of the American colony here attended the Thanksgiving Day banquet at the Kaiserhof tonight. Ambassador Tower, who presided, proposed toasts to President Roosevelt, Emperor William and the German royal family. Professor W. A. Brown, of Union Seminary, delivered an address on "American Ideals." The felicitations of the colony were called to President Roosevelt.

Reception at Vienna. Vienna, Nov. 26.—United States Ambassador Storer and Mrs. Storer held their first Thanksgiving Day reception at the embassy this afternoon. About two hundred persons were present, including a large representation of the American colony of Vienna, a number of tourists and all the members of the staff of the embassy.

Dinner Held at Munich. Munich, Bavaria, Nov. 26.—The American colony here celebrated Thanksgiving Day by a banquet tonight. United States Consul General Worman proposed a toast to the prince regent of Ba-

varia and spoke of the cordial relations existing between Germany and the United States. Professor Mary, formerly under secretary of state, made the principal address. He spoke of the peaceful character of the economic struggle between the people of the United States and those of Germany. The professor proposed a toast to the health of President Roosevelt, which was received with great applause.

QUIET DAY AT WHITE HOUSE.

President Spends Thanksgiving With Family and Personal Friends.

Washington, Nov. 26.—The president spent the greater part of the day with his family and personal friends. In the forenoon he and a number of friends took an extended horseback ride in the suburbs, from which they did not return until luncheon. The afternoon was spent at the White House. President and Mrs. Roosevelt left here tonight for New York to attend the funeral of the president's uncle, James Gracie.

TODAY'S WEATHER.

Washington, Nov. 26.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer, Friday; Saturday, fair; winds shifting to fresh southeast.

DIE IN FLAMES

FOUR OMAHA FIREMEN PERISH IN PERFORMING DUTY.

Are Caught by Falling Walls While at Work in Burning Wholesale House—Loss Is \$300,000.

Omaha, Nov. 26.—Four members of the fire department—Leroy W. Lester, William Burmeister, Lou Goldoroug and William A. Barrett—were burned to death in a fire early today that destroyed Allen Bros.' wholesale grocery house and the Pacific Storage company's warehouse, together with their contents. The loss is \$300,000. The firemen were working inside the Allen building, when the floor above collapsed, catching the men and their comrades in a cage of fire and smoke.

ONE LIFE LOST AT CINCINNATI.

Cincinnati, Nov. 26.—One fireman—William Greve—was killed and seven were injured while fighting a fire which destroyed the plant of Smith, Myers, Schmier & Co., manufacturers of cigar box machines, here today.

POSSIBLE SEEK A MURDERER.

Lynching Threatens an Indiana Man Who Killed a Town Marshal.

Fairmount, Ind., Nov. 26.—James J. Payne, town marshal, was shot and killed on a street this afternoon by Harry "Red" Hooper, whom he had arrested as a suspect for burglary. Hooper also fired twice at Alonzo Dyeing, who attempted to assist the dying marshal as he lay on the street, but both shots missed. A crowd followed Hooper, but he kept them at bay with his revolver and escaped. The stores were closed and a heavily armed posse went in pursuit. In the meantime others were organized for the purpose of lynching Hooper should he be brought back to town alive. The chase continued all afternoon, but the result is not yet known.

GETS BULLET MEANT FOR WOMAN.

Prominent 'Frisco Man Seriously Shot in Trying to Prevent a Murder.

San Francisco, Nov. 26.—Major W. J. McClung, a well known broker and diamond dealer, was shot and fatally wounded last night at the Palace Hotel by Alex. Garnet. The shooting took place in the rooms of Mrs. Lillie Hitchcock, who is famous as the only woman ever actively connected with the fire department, having in the pioneer days run a fire with firemen and being elected a member of the fire company. Garnet, who was discharged a few days ago as the business agent of the woman, appeared in an intoxicated condition and attempted to shoot her. Colonel McClung, in attempting to save the woman, received the bullet. Garnet escaped.

MARINES AND SAILORS CLASH.

Pitched Battle Fought on Government Reservation Near Norfolk.

Norfolk, Va., Nov. 26.—With seventy marines on one side and fifty sailors on the other, a pitched battle was ended here today by the stern orders of a number of masters-at-arms. The scene of the trouble was the government reservation at St. Helena. The cause is said to have been a fight between a marine and a landsman. During the melee pistols and bayonets were drawn several of the participants were knocked down and many were bleeding from wounds in their faces and hands.

COST MILLIONS OF DOLLARS.

Ogden-Lucien Cut-Off Across Great Salt Lake Is Completed.

Ogden, Utah, Nov. 26.—One hundred and two miles of track, composing what is known as the Ogden-Lucien cut-off across Great Salt Lake, were formally declared completed today and made a part of the Harriman system. The dedication of this track, which cost the Southern Pacific Railroad company many millions of dollars, was the occasion of the assembling of fifty of the most prominent railroad officials in the country.

TREO SHAFPER SERIOUSLY ILL.

Pittsburg, Nov. 26.—Theodore J. Shafper, president of the Amalgamated Association of Iron, Steel & Tin Workers, is confined to his bed, suffering from typhoid pneumonia. His condition is considered critical.

ESCANABA LOSES TO BENTON HARBOR

UPPER PENINSULA TEAM IS COMPLETELY OUTCLASSED IN GAME AT ANN ARBOR.

FOUR TOUCHDOWNS TO NONE

FOOTBALL PUT UP BY VICTORS ALMOST 'VARSITY CLASS.'

Match Is Called an "Exhibition" Contest, Although Protested Man Does Not Play, and Officially the Winners Are Not Champions.

Ann Arbor, Mich., Nov. 26.—Benton Harbor, 22; Escanaba, 0 was the result of the final game in the interscholastic schedule, played here today, and it is too bad that the lads from western Michigan had precluded the possibility of being official champions, as they put up an article of football that was almost "varsity class."

Benton Harbor had played a man named Arthur Bausko, who is over twenty years of age, against Kalamazoo and Muskegon, and this infraction of the interscholastic rules took from the team a title that could probably have been earned by his services. When the facts became known to the board of control here, it was too late to make a substitution and hence the game today was called an "exhibition" game, rather than one for the state championship.

The teams today representing the two peninsulas were nearly equal in weight, but Benton Harbor completely outclassed the men from the north. At no time did Escanaba have a live play on a score. On the other hand, Benton Harbor, by getting the jump, could smash Escanaba's single line of defense to pieces and F. Armstrong went through in the style of a Longman, a Neil Snow or a Paul Jones. The "pickers" also showed good interference on end runs, and with good interference Wadsworth and Bridgeman tore around for big gains. McCune, of Escanaba, made a fifteen-yard gain on a quarterback play, but Benton Harbor was another good coach winner for the Sandy City chaps.

Coach Joliffe, of Escanaba, said: "We cannot acknowledge Benton Harbor as champions." Their team was thrown out of the championship race, and today's game was simply an exhibition. To which Coach Tetzell, of Benton Harbor, remarked: "I am well satisfied with the showing, and we did not play the protested man today. I think anybody who saw the contest will agree with me that we have the real champions."

Professor Joleyn, of Ann Arbor, summed it up thus: "Technically, Benton Harbor is not the champion team, but really it deserves fine recognition on the showing made today."

The line-up was as follows: Benton Harbor—Lester, left end; Cunningham, left tackle; Lee, left guard; Armstrong, center; Handy, right guard; Lath, right tackle; Ludwig and L. Bausko, right end; Gore, quarter; Bridgeman, left half; Wadsworth, right half; F. Armstrong, fullback.

Escanaba—Hessell, left end; Ems, left tackle; Driscoll, left guard; Stonehouse, center; Bessey, right guard; J. Semer, right tackle; Nugent, right end; McCune, quarter; P. Semer, left half; Bartley, right half; Stephenson, fullback.

ITALIAN POLICE KEPT BUSY.

Anti-Austrian Demonstrations Occur at Rome and Other Cities.

Rome, Nov. 26.—Demonstrations against Austria resulting from the prohibition by the Austrian government of the institution of a free Italian university at Innsbruck continued throughout Rome today, but were at all points broken up by the police, who gathered in large numbers, especially around the Austrian embassy and consulate. An estimated 1,000 students held an indignation meeting and then decided to make a demonstration in the streets. As soon as the students emerged they were attacked by the police and compelled to re-enter the university. The students showed their indignation by breaking the windows and furniture of the class rooms and burning an Austrian flag. The authorities have decided to close the university until order is restored.

An anti-Austrian demonstration was held at Turin, where the demonstrators broke windows and benches and exploded firecrackers, producing a slight panic. Similar demonstrations were held at Milan, Parma, Padua and Genoa. The government has determined to suppress these demonstrations at any cost, as it wishes to avoid complaint from Austria.

STRIKING MINERS DESPERATE.

Attempt at Wholesale Killing Prevented by Troops in Utah.

Salt Lake, Utah, Nov. 26.—A special detachment to the Desert News from Scofield, Utah, says that an attempt was made today by a number of striking coal miners to roll a box car down the railroad tracks leading through a deep canon, through which a party of railroad and mine officials were coming. The attempt was prevented by the military and a number of arrests were made.

LAWMAKERS INDULGE IN RIOT.

Scenes of Indescribable Confusion Mark Session of Hungarian Diet.

Budapest, Hungary, Nov. 26.—Scenes of indescribable confusion marked today's session of the lower house of the diet. The trouble originated in a proposal to hold two sessions daily. The members of the Extreme Left vehemently protested and several of them were suspended for disorderly conduct. As a riot threatened, the house was adjourned.

FALL COLDS.

DANGEROUS BECAUSE HARD TO CURE.

An Offer to the People of Marquette from The Stafford Drug Co.

The Stafford Drug Co. claim they have a cure for colds and coughs, and if it fails they will refund your money.

A hard cold and hacking cough may be the means of undermining your constitution and terminate in consumption.

The Vinol manufacturers separate them for you, throw away the useless oil and give you in a delicious, concentrated form all the healing and life giving elements which are to be found in fresh cods' livers.

You would not eat an egg, shell and all. For the same reason you should not take old-fashioned cod liver oil or emulsions, just to get the medicinal curative elements which they contain.

The Vinol manufacturers separate them for you, throw away the useless oil and give you in a delicious, concentrated form all the healing and life giving elements which are to be found in fresh cods' livers.

MARQUETTE, MICH., NOV. 27.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The house has served notice that it will hold the senate to early action on the Cuban bill, but the senators are too busy, particularly Morgan, worrying over the Isthmian situation, and thus it is likely that the special will run over into the regular session.

A year ago this time there was a wild scramble for boats to move a few cargoes of coal to Lake Superior points, and shippers had literally to beg for tonnage. Now there are enough idle craft to move about a year's supply in one trip. The marine traffic has been practically at a standstill for a number of weeks past.

The Baraboo iron range, with the center of its operations at North Freedom, Ill., concerning which so much has been heard lately, has to shoulder its share of the depression in mining circles. Although hardly opened, the only real mine in the district, that operated by the Illinois Iron Mining company and employing 400 men, has suspended. The property is being stripped and the workings are to be allowed to fill with water. This turn will do the new range little good, although it is the general testimony of mining men that it has an opportunity for an excellent development.

One of the pleasant contrasts between present financial conditions and those of 1893 is furnished by the gold stock of the country. Today the United States possesses a larger supply of gold than any other country in the world. At the beginning of October it amounted to \$1,277,000,000. The increase of the stock of gold of the United States in the last five years has been \$376,000,000, while in all Europe the gain has been \$423,000,000. In 1893 gold was being hoarded throughout the country; we were compelled to export it to Europe in large quantities; the government found difficulty in keeping the reserve above \$100,000,000.

The acquittal of ex-Senator Holbrook of the charge of bribery in connection with E. R. Sutton's trial was not so unexpected as to prove a particular surprise. It has been an even break between the defense and the prosecution all through the trial, and the latter did not gain anything through being under the necessity of mainly relying on Sutton's testimony to make out its case. Sutton is not an imposing spectacle on the witness stand. Naturally a jury is nonplussed as to how to take uncorroborated statements of a self-confessed perjurer. If there is any doubt they will give the benefit to the other fellow. The jury was out twelve hours and for a time it looked like a disagreement.

Frank Pallister, the Wayne county hunter who accidentally shot Henry Minko while they were out after quail, and who was arrested with the purpose of holding him under the new law making it a statutory offense to kill or wound men in the woods, has been dismissed on the order of Prosecuting Attorney Hunt, who thinks that the new law does not apply in Pallister's case. There was no negligence on Pallister's part, the accident happening through circumstances over which he had no control. Then, too, Mr. Hunt is of the opinion that the new law was meant particularly for people who hunt in the upper peninsula and who mistake men for deer. There have been a number of such accidents north of the straits already this year, but as yet there have been no prosecutions, and most people express a belief that the law will be a dead letter statute from the very beginning. If it was thought that it had any real value, there might be a more general demand for its enforcement, but common opinion holds it very faintly framed and insufficient.

The president is a great harmonizer. Lately there has been a tendency with Senator Platt and Governor Odell of New York to drift apart, and the malcontents who are cherishing the hope of driving Senator Hanna into the campaign have been doing all they can to foment the trouble, hoping that Odell and Hanna might form a combination against the president. There has, it appears, been no misunderstanding between the president and Governor Odell, the newspapers to the contrary notwithstanding, and this week, meeting on the president's invitation, Platt, Odell and the president came to a satisfactory agreement to work unitedly for the welfare of their party. Platt will, it is said, remain the leader of the New York

machine. Odell will direct the next campaign and both will be friendly and well disposed to the president. Thus a new possibility of friction and discord in New York is nipped in the bud. The trouble makers will have to turn their attention to other fields.

Senator Alger has introduced a bill providing for a pension for the widow of the late General Ludlow. It was General Ludlow who was placed in command at Havana immediately after the close of the Spanish-American war and who had the tremendous task of putting the city in a sanitary condition. It was, as is well known, one of the most unhealthy and disease afflicted cities in the world, and General Ludlow made the start with the task of redeeming it. His were the first labors, his to large degree the plans, and he did his work with zeal and ability. General Ludlow died in service, leaving his family in poor circumstances. Senator Alger's bill may be commended to the early attention of congress.

RELIGION AND THE SCHOOL.

The Rev. W. M. Geer, a Protestant Episcopal clergyman, has taken up arms against the public school system, and about him have gathered those who advocate what has been increasingly regarded as the old style method of education in private and parochial schools. Mr. Geer objects to the public school on the ground that it fails to teach religion, when religion is essential to good character. He lays the blame for present-day social difficulties at the door of education. He says: "We are bringing up all over this land a lusty set of pagans, who sooner or later, they or their children, will make havoc of our institutions."

With a view to determining the accuracy of Mr. Geer's stand, the Outlook has secured from nineteen college presidents their views as to the morality of college students who have come from public schools as compared with the morality of those who come from private or parochial schools. All of these authorities agree, as far as they are able to answer the question definitely, that the two classes are morally and religiously equal, at least, while President Schurman of Cornell, who is the only one able to give statistics bearing directly upon the question, is even stronger than the rest in his championship of the public school system. Of 574 members of the present freshman class in Cornell 456 came from public schools and 118 from private or denominational schools. Of 456 public school people 65 per cent declared themselves to be church members. Of the 118 from private and denominational schools only 56 per cent made such a declaration.

These college presidents commonly agree that it is not so much the set teaching in formal fashion of morality and religion that counts, as it is the inculcating of it by the teacher through his own life. This view is summed up by President Angell of Michigan thus: "The character of pupils is affected far more by the character and personal influence of the teachers than by formal instruction in ethics and religion. And it may be confidently asserted that in general the character of the teachers in the public schools is not inferior to the character of teachers in other schools. This position of experts in education is in entire accord with common experience. Mr. Geer is surely mistaken in his diagnosis of the disease of the social organism, if, indeed, there is a disease."

NOT THROUGH WITH IT YET.

The rather bombastic utterances of the Colombian generals and the almost frantic conduct of the civil officials excite some amusement, yet there can be no doubt that they are thoroughly in earnest. They have reason to be, and when we consider all that the revolution in Panama means to them and to their country we can appreciate their feelings, even though we may have no sympathy for them.

The mere political separation of Panama and Colombia would not be a matter to seriously disturb the Colombians, damaging as it might be to their pride. The separation, however, damages their pocket even more, and the injury is a serious one. The annual income from the Panama railroad was one of the principal items of the national income, and for years the treasury department has depended on it to keep up the interest charges on the foreign debt, to pay current expenses. Even with that sure and steady source of income the government has with difficulty maintained its credit, and the probabilities now are that it will be compelled to default in the payment of interest on its bonds. The foreign bondholders have already taken alarm, and at a meeting held by them at Amsterdam resolutions were adopted requesting the governments of the Netherlands and Great Britain not to recognize the republic of Panama until some arrangement is secured whereby the new republic shall assume some portion of the debt. In the language of one of them, "no set of bondholders the world over has fared so badly as the British who have advanced the Colombian government money, and they feared the republic might take advantage of the secession of Panama as an excuse to repudiate all international obligations. Our view is that Panama, having greatly benefited by the money sunk in the country by the British and other bondholders, should assume a certain portion of the debt of the country to which it recently belonged."

In addition to losing the income from the railroad Colombia also loses the canal route, which was one of the most valuable assets the country possessed, the lease of which would have made the country financially independent. So far the United States has not been drawn into the matter, but it is easy to see that complications may follow our prompt recognition of the new republic. There seems to be an element of justice in the contention of the bondholders who in loaning the money may claim to have taken the railroad and canal routes into consideration as sources of revenue. Even should it be decided that Panama need not assume any portion of the debt, there is still a chance for trouble if Colombia repudiates her bonds and

European governments seek to enforce the claim, conditions may be created which will call for our active intervention. In one way and another, therefore, the Isthmian region is likely to be demanding a large share of our attention for some little time.

MINING NEWS

ORE DEPOSITS OF TONOPAH.

Extracts from an Official Report to the U. S. Geological Survey.

In an article written by J. E. Spurr for the United States geological survey the author says, in part: "The mining district of Tonopah is situated in Nye county, Nevada, south from Belmont. It is reached by stage from Sodaville, on the Carson & Colorado railroad. The region is arid, and until the discovery of the camp in question, was uninhabited. At the present writing there is a estimated population of 4,000 people in Tonopah. The town has electric lights, waterworks, two newspapers, and has attracted much attention all over the country. Tonopah was discovered in 1900 by J. L. Butler, the prospector. The original eight claims which he located are now the property of the Tonopah Mining company. Mr. Butler's mine camp developed from the start. The method of leasing was adopted in December, 1900, and before the end of 1901 the lessees are said to have extracted nearly \$4,000,000 worth of ore. Leasing was discontinued in January, 1902, and the Tonopah Mining company commenced development work, which it is now engaged in. Up to April 1, 1903, there was shipped from this mine a total weight of 33,285,650 pounds of ore, containing 40,997 ounces of gold and 3,431,620 ounces of silver. Large quantities of unshipped ore remain on the dumps. Subsequent to Mr. Butler's locations, ledges were cut by underground development work in a number of different prospects, such as the Montana-Tonopah, Mizpah Extension, California-Tonopah, West End, Tonopah Extension, Ohio-Tonopah, McNamara, Fraction, Wanderer Hoy, etc. Some of these show low-grade ore, while some show high values of ore in the development stages. The Montana-Tonopah, the only mine actually shipping outside of the Tonopah Mining company, shipped up to July 15, 1903, a total of about \$15,000 worth of ore. Large shipments have been made by both companies since these data were collected."

The productive veins in the early adit belong to the type of linked veins. Their physical characteristic is that they branch and reunite in both a horizontal and vertical direction. There is generally in each group a master vein, from which smaller veins branch. It is only the veins on Mizpah which have been sufficiently developed to give information concerning the vein system. On this hill there may be recognized at present three main groups of veins, the Valley View group, the Mizpah group, and the Montana-Tonopah group. The trunk vein of the Mizpah group is called the Mizpah vein, and crosses Mizpah Hill in an east and west direction. Its outcrop is cut off both to the east and west by heavy faults. From it a succession of branches, known as the Burro Nos. 1, 2, 3, etc., depart in a southwestern direction. The Valley View shows a distinct group of veins of the same general type as the Mizpah, but with minor differences. The main vein has, like the Mizpah, a northerly dip, but is very much flatter. As it approaches the surface it passes into a number of smaller, nearly vertical veins. The Montana-Tonopah group shows a strong main vein running east and west and dipping north with various branches. In all these veins the width of two branches is generally attended by increase of value, and conversely, the place where a small vein leaves the main one is often impoverished to a greater degree than the size of the branch would lead one to expect. The veins are usually strong and well defined, yet they are not fissure veins.

The oxidized ores are important, practically all the ore shipped from the Mizpah vein being of this character. The limit of oxidation is irregular, penetrating most deeply along the veins and along faults, and thus varying from 100 to 700 feet below the surface. In the oxidized ore the sulphides are usually entirely altered, or can only be made out with the microscope. The products of alteration are silver chlorides with some bromides and iodides, and iron and manganese oxide. It seems probable that in places some slight transfer and re-deposition of the precious metals has taken place during the process of oxidation. This action, however, is not believed to be important. For example, the chief shoots in the oxidized ore of the Mizpah vein are believed to correspond with the original sulphide contents. The oxidized bodies are all broad and irregular in detail, but are all parallel and pitch east, having the same pitch in general as the intersection of the branch veins with the main one; this coincides also with the pitch of abundant post-mineral fractures, and even faults.

It is certain that many more veins than those now known will eventually be discovered, and from them much ore will be extracted. The exceptionally complicated geology, however, will make prospecting difficult and expensive, unless carried on in the most cautious and scientific way. When it is repeated that the veins have been covered by numerous volcanic flows and sediments, have been cut through and displaced by volcanic intrusions, and have finally been cut and displaced by complicated faults, it will be seen how difficult are the local problems with which the miner has to deal.

CALUMET & HECLA.

A Boston man identified with the Calumet & Hecla says relative to the \$10 dividend just declared on the company's stock: "The amount of the Calumet dividend never actually represents the earnings for the period which is covered thereby, although something of an idea can be obtained from the amount agreed upon. During the past quarter the company has really earned more money than for any previous quarter during the year, and it could easily have paid \$5 more than it did if the conservative policy of the management had permitted. Conditions at the property were never better than they are at the present time, and the Red Jacket shaft, since the repairs were completed, is working satisfactorily and will give a materially increased output for the current month."

"So far as the metal situation is concerned, it may be said that the Calumet & Hecla people have a smaller supply of

copper on hand at the present time than at any previous time this year. The demand for their copper at times has slackened of late in keeping with the general letup that has come over the whole copper situation, but the company does not regard this with any concern, nor is it at all anxious to sell its copper. The management is still hopeful regarding the future and believes that the market will soon work out into better conditions in response to the natural law of supply and demand."

AMALGAMATED.

In view of several columns published in various papers concerning Amalgamated, a large part of which is erroneous, it may perhaps be just as well to say, comments the Boston News Bureau, that the Amalgamated's present large cash balance is not due to earnings but to sales of assets, notably Anaconda shares.

It is not true that the Heinze litigation is under the mining laws of Montana. It is under the mining law of the United States, which alone is responsible for the apex law under which a man can follow his vein on "all dips, spurs and angles." It is not true that Heinze has been reversed on final decision in the higher court. His associate, Mr. MacGinnis, says: "We have been before the supreme court at Washington, and every time we have won. We have been before the United States circuit court of appeals twelve times and we have lost only once, and that case goes up on appeal. We have been before the supreme court of Montana nearly every month for five years and in every case finally adjudicated we have won."

The report that the higher courts have reversed the lower courts in Montana is as erroneous as that Lawson statement that if Heinze was not held down by Amalgamated injunctions on his famous Nipper mine, he could tie up everything in Butte.

As a matter of fact, there never was and never can be any litigation reaching beyond the end lines of a United States mining claim. A United States mining claim is 1,500 feet long, supposedly the outcropping on the vein, and 600 feet wide and terminates the ownership in the vein at the end lines. Within those two parallel ends or short lines of 600 surface feet, a mine owner can follow his vein as many feet or as many miles as it goes into the earth, but the end lines are always fixed. If he follows his claim 1,000 feet or 10,000 feet into the earth it can never be more than 1,500 feet long. While his claim at the surface is only 600 feet wide, it may go under the ground following the same vein an unlimited number of feet. End lines where they go into the earth are always vertical with the earth's surface, so that mining litigation is not open on four sides as Lawsonian literature has endeavored to represent. The estimate that litigation increases the cost of Butte's annual copper production of 250,000,000 pounds by two cents per pound, or \$5,000,000, is a trifle.

OLD... VELVET A GOOD LIQUOR The F. Bending Co. WHOLESALE LIQUORS Marquette, Michigan.

SAVE YOUR COUPONS! FOR A SHORT TIME ONLY IN ORDER TO THOROUGHLY ADVERTISE UNO WHEAT CRISPS. "The World's Greatest Food for the World's Greatest People," we offer the FOLLOWING PREMIUMS: With 6 Coupons, Premium No. 101, 1-2 Doz. Fine Silver-Plated Teaspoons With 12 Coupons, Premium No. 102, 1-2 Doz. Rogers' Silver-Plated Teaspoons With 25 Coupons, Premium No. 304, 1 Gorham's Sterling Silver Teaspoon Beautiful Strassburg Pattern. With 35 Coupons, Premium No. 305, 1 Gorham's Sterling Silver Teaspoon Handsome Newcastle Pattern. NO PREMIUMS WILL BE GIVEN WITH SINGLE COUPONS. Cut out the picture of the child on package of UNO WHEAT CRISPS, give the name of grocer from whom purchased; also sign your name and address on back thereof, and mail or bring the required number of pictures cut from packages of Uno Wheat Crisps to Manna Cereal Co., Limited, 45 East Fort Street, Detroit, Mich. Remember! THAT UNO WHEAT CRISPS IS SUPERIOR to any other breakfast food on the market today, being made from No. 1, sound, white Michigan wheat and best medicinal malt, rich in starch-digesting principles, which gives it a delicate nutty flavor. No human hand touches the food from the time the wheat enters the bins until the package is opened by the consumer, thereby making it free from germs, and absolutely clean and wholesome. Being a partially predigested food, a child two months old can digest it and thrive upon it; for invalids it is unsurpassed, as it is easily maintained on the most delicate stomach; it does not tax the digestive organs, but will stimulate their healthy development. We recommend it for the entire family. Do not confound it with the other so-called malted foods. THE MANNA CEREAL CO., Limited. THIS OFFER EXPIRES SEPTEMBER 1st, 1904.

Copper Country Department

PLAN OPPOSED HERE. WILL STICK TO PORT HURON.

Coppermen Workmen Now in Favor of Changing Assessment Rates. Michigan Macabees Will Not Move Supreme Tent May Do So.

There are nine A. O. U. W. lodges in Houghton county, located at the following places: Red Jacket, Laurium, Lake Linden, Houghton, Hancock, Quincy, Chassell, Painesdale and Jacobsville. It is believed that each will be willing to send five delegates to the meeting at Houghton on Friday, Dec. 5, announced in yesterday's issue, as the members of the order throughout the copper country, as is the case elsewhere in the upper peninsula and state, are much interested in the new assessment plan proposed by the supreme lodge. When the plan is understood in a general way, there are many little details which could be explained to the enlightenment of the members. That will be the purpose of the next week's meeting. Then the lodges will be better posted and able to instruct the delegates they will send to the grand lodge as to how they shall vote on the question of a change in the rates. Each lodge will select a delegate and an alternate next month to attend the grand lodge session to be held at Grand Rapids in February. Deputy Holdings will be in attendance next Friday evening and he is now making arrangements for the meeting, acting with the committee appointed by the supreme lodge. Copper country members of the order seem to be much opposed to the new plan of assessment. The opposition is principally from the older members, which is natural, as the proposed change would affect only members over 55 years of age. It is the opinion of Deputy Holdings, who spoke to the members at the lodge last Tuesday evening, that the order has got to come to it sooner or later. The organization, he believes, cannot live under the present schedule of rates.

It is argued that the time will come when the older members will increase more rapidly than younger men can be taken into the order, although the argument has not up to the present held good in Houghton county, whose lodges have found no difficulty in securing young men. Members opposed to the plan say that all of the rates should be increased if any at all. They say a plan of that kind would be more fair, and the increase necessary would not hit any class of members very hard. On the other hand, those who favor the plan to increase the rates for members over fifty-five years say that the rates for younger members cannot be raised owing to the competition of other fraternities. However, the whole matter will be settled by the grand lodge at its session in February.

Well-known copper country members are authority for the statement that the coppermen lodges are likely to send delegates to the grand lodge instructed to vote against the plan, and that the sentiment throughout the upper peninsula, also, is largely against the proposed change. Numerous lower peninsula lodges are said to oppose the plan, and some of them have even gone so far as to suggest secession from the supreme lodge. The lodges of the order throughout the country are greatly divided over the proposition and in Milwaukee several lodges opposed to it have pulled out of the order entirely and have organized what is known as the Wisconsin Protective association, on lines similar to those of the A. O. U. W.

It is argued by the opposition that Michigan is not now in urgent need of the plan and that there is no need of adopting it just yet. The finances are in good condition and it is said that the amount of cash on hand has always been in excess of the losses, despite the fact that 30 per cent of the members are over fifty years of age. The new plan proposes the formation of a new class for members over fifty-five years old, increasing their rate of insurance from \$1.98 on \$1,000 to \$4.20. It gives the members so assessed from seven to eight different options, including the right to have their policies cut down one-half if they desire it, or to receive a paid-up or a partially paid-up policy.

LIGHT GUARD INDOOR BALL TEAM.
The Calumet Light Guard indoor baseball team, comprised of members of Company E and four outsiders, has been reorganized. The team has started practice and it is likely that a game with Houghton will be arranged for some evening next week. The Light Guard team, judging from the material, should prove one of the strongest indoor baseball aggregations in the upper peninsula. Captain Nick Kaiser, of last season's outdoor team, will officiate behind the bat, while Sullivan, Tobin and Jackman also will play. With the reorganization of the Calumet club it is hoped that interest in the game will be revived. The Houghton team, although it has had little practice, Pitcher Murphy having had none at all, is ready for a game with Calumet at most any time.

LIGHTS BRING BUSINESS.
Quincy street businessmen at Hancock are growing more and more in favor of retaining the rows of incandescent lamps on either side of the street for use on Saturday nights. The opinion among them seems to be that the extra business the lights bring is materially greater than the cost. When the current is turned on, the street is one blaze of light, and this naturally attracts people down town. The lamps have been up since the firemen's tournament last summer, during which they furnished a large part of the special illumination. The businessmen now pay an equal share for the maintenance of the lights, the agreement being that the lamps be left in place until Jan. 1. It is likely, however, that they will be continued after that time.

JUNIOR HOCKEY SEVENS.
The copper country will have a number of junior hockey teams this winter. The Houghton and Hancock High schools will be represented and Calumet will have a seven picked from among the members of the Invincible football team, which has just finished a successful season. The Hancock Juniors also have reorganized for the season, with Joseph Linder as captain and Will Waura as manager. Each member of the seven played last year and it is expected that the aggregation will be much more proficient this winter. The team will practice in the city rink. Mr. Linder was captain of this year's Hancock High school football team.

STEAMER BADLY WRECKED.

Liner Portage Probably Will Be Abandoned to the Underwriters.

A dispatch from Cleveland states: "Henry French of the Union Transit company has here from within an expert who examined the wrecked steamer Portage. The expert will report to the owners tomorrow and the steamer will probably be abandoned to the underwriters, as she is a constructive total loss. The Portage is insured for \$35,000."

The escape of the Portage from going down with its crew was one of the narrowest ever recorded for a lake steamer. So badly was the steamer beaten about by the storm that her masts broke at the after end of the craft, allowing the stern to drop two feet. She is practically broken in two. Only the prompt dispatching of rescuing tugs saved vessel and crew from sinking in Lake Erie.

The Portage was bound for Cleveland from Buffalo without cargo when she was struck by the storm. When twenty miles east of Cleveland a steam pipe burst and all the boiler connections gave way. Both anchors were immediately let go to keep the steamer from drifting ashore, but she drifted some distance before they held.

In response to signals of distress, the life saving crew from Fairport put out to the rescue, but they were unable to reach the steamer. A tug from Houghton was then sent ashore to order tugs from Cleveland. By the time the tugs Goulder and Kennedy arrived at the wrecked boat the water was eight feet deep in the hold, and gaining very fast. All speed was made for Cleveland and the Portage was towed into port a complete wreck, but with the crew of sixteen men safe. In addition to the breaking of the steel arches, the decks and sides are an open ulcer.

The Portage was built in 1875, and registers 1,808 tons. She has been trading regularly between Buffalo and Duluth in the package freight business.

BOWLING LEAGUE STANDING.

The standing of the teams of the Houghton County Bowling league is as follows:

Team	W	L	Pct.
Houghtons	10	5	.666
Calumets	10	5	.666
Millers	9	6	.600
Dritters	7	8	.466
Lakes	6	9	.400
Mitchells	6	9	.400
Hancocks	4	11	.266

The next series of games will be played next Thursday evening, Dec. 3. The Millers and Calumets will play on the Miller alleys at Calumet; the Mitchells will meet the Hancocks on the Mitchell alleys at Hancock; the Dees and Houghtons will play on the Dee alleys at Houghton; and the Dritters and Lakes will meet on the Dritter alleys at Hancock. The game between the Houghtons and Dees will decide the tie for first place.

CONFIDENCE IN MRS. WALKER.

The board of trustees of the Good Will Farm & Home Finding association, comprising W. H. Dodge of Calumet, president; J. Vivian, Jr., of Calumet, vice president; Webster Dock of Hancock, secretary; Ed. Haas of Houghton, treasurer, and Rev. Daniel Stalker, Calumet, has issued the following statement concerning Mrs. G. M. Walker, the financial agent of the institution:

"Members of the board of trustees of the above mentioned association, without any reservation whatever, hereby express their absolute confidence in Mrs. G. M. Walker, financial agent of our organization, and their unqualified approval of her official acts in that capacity."

MILL CLOSED FOR REPAIRS.

The Worcester Lumber company has closed its mill at Chassell for repairs and alterations necessary for the winter's run. It is expected that the plant will resume about the first of the year.

During the summer the mill was in constant operation with day and night forces, totalling about 200 men and many million feet of lumber, and lath and shingles were cut. While the mill is shut down logs will be brought in by rail from the various camps of jobbers in the employ of the company and by the time the mill is ready to resume operations a sufficient supply of logs will be on hand to keep it in commission for the rest of the winter. Most of the old men will return when the mill starts up again.

PRATISE MAINE SHERIFFS.

Are as Persistent as Hounds on the Trail.
Congratulations to Somerset county are in order on having as brave, energetic and persistent a force of deputy sheriffs as can be found in a day's journey. Sheriff F. W. (M. J. F.) Fenn, the chase of the Norridgewock burglars came to an end Tuesday, after nearly a week of pursuit, with the capture of the remainder of the gang in the northern wilderness, near the Canada line. Nothing quite like this affair has happened in the criminal annals of Maine for a long time. It recalls the famous flight and pursuit of the escaped convict Tracy through the states of Oregon and Washington, in the course of which he terrorized the people along his route, and made them do whatever he wished, and turned on his pursuers, and killed or injured in the service. It also recalls the more recent escape of a number of convicts from a California prison, when the state has never been able to retake. A week ago the citizens of Norridgewock were awakened in the small hours by the sound of an explosion. They seem to have had a vague suspicion what it meant, for they turned out at once, armed with pistols and guns, and found their suspicion confirmed. Burglars had blown the safes in two of the stores, but they had hardly time to secure their plunder before the aroused citizens were upon them like a swarm of hornets whose nest had been disturbed. A running fight for several miles ensued, and two of the gang were captured, one being wounded. The sheriff's force then took charge, organized a posse and began the pursuit, which led them many weary miles toward the Canadian border. They were persistent, however, as hounds on the trail, and they finally tired out and took their men. It is a good piece of work on the part of the sheriff's office, backed up by the yeomanry of Somerset, and it should be a warning to the burglarizing fraternity to keep away from Maine.

A RUNAWAY BICYCLE.

Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer yielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for Burns, Scalds, Skin Diseases and Piles. 25c. at The Stafford Drug Co.

MINING NEWS

(Continued from Page Two.)

Development work at the Trimountain is progressing steadily. Sinking is under way in four shafts and the openings are nearly six miles in extent. The filling system has been introduced and is proving highly satisfactory. The rock wall, or filling system, is not in the lake district, but has been used in other mining sections with great success. It was first introduced on Lake Superior at the Baltic, where it is advantageous because of the wide lode and amount of waste. The method is simply the filling of empty spaces with discarded rock; that is, material which is not wanted for the mine, is placed in the openings with timber, a wall of worthless material, which is right at hand without expense, is constructed. The filling system is gaining in favor in the lake district since it was introduced at the Baltic, and besides the South range mines it is now used with success at the Mass and Winona.

TRIMOUNTAIN.

Sinking to the twenty-first level has been begun in No. 2 shaft at the Victoria mine. Surface work will be suspended largely during the winter. The development of the mine will continue. A large quantity of medium quality rock is blocked out, and by next fall the reserves will be quite extensive. From the present outlook the Victoria mill will be the only one built next year.

There have been no less than ten stamp mills constructed in the Lake copper district in the last five years, and the present inactivity along this line is in marked contrast to three years ago.

OLD COLONY.

Good looking stamp rock has been encountered in the drift which the Old Colony has been running on the lode encountered from its crosscut from No. 1 shaft. The drift has not been sufficiently extended to determine the exact character of the formation, but it is believed the lode will retain its present regularity. The rock is the best that the Old Colony has yet encountered. The lode is the same that the management has been striving to reach and open for some months.

MINING GOSSIP.

An official of the Greene Consolidated Copper company denies that the company is considering a plan to raise new capital. It is said on excellent authority that the total production of the mines in which Amalgamated has an interest is at the rate of 17,000,000 pounds per month, or 204,000 tons per annum.

John Stanton says that the rock from the Winona mine is now yielding more copper per ton of rock than for several months past. About 150 tons of rock are being shipped daily to the Atlantic coast and the best rock is now coming from the deepest openings.

Ile Royale rock is now running about fourteen pounds of copper per ton of rock treated. The mill is stamping 900 tons of rock daily, recovering therefrom about 160 tons of copper per month. The Ile Royale sends practically all the rock it breaks to the mill.

Lake and electrolytic copper can now be secured from the leading copper selling agencies at 12 1/2 and 12 cents. Since the resumption of work at Amalgamated mines the demand for copper has been very light, and the leading consumers are holding off for 12 cents. Three weeks ago, lake copper sold at 14 cents.

The Centennial has two shafts down on the Keamsgrade lode—the grand mass of amygdaloid belt of the Lake district—one shaft some 1,200 feet deep and No. 2 about 2,500 feet, and the deepest openings disclose a very rich run of ground—good enough to fully justify putting the money raised from the last assessment in sinking and opening work.—Native Copper Times.

No. 3 shaft of the Winona mine has been bottomed at the fourth level and timbering is now under way at that point. It is not planned to sink any deeper this year, but the lateral openings will be extended. Winona is making a good showing and should develop into a valuable mine. The lode continues to yield a good percentage of copper. Copper courses are making southward and a better grade of ground is opening in No. 3 shaft.

There is little prospect of the Champion Copper company increasing its production until next March, as the new 100-drill air compressor will not be ready for operation before that time. The mine is now shipping 1500 tons of rock daily and fifty-five power drills are in service. The Champion now ranks fifth in point of production in the Lake district and it will be merely a matter of growth in its store for the mine for many years.

The attorney representing the Johnson Mining company, one of Heinze's assets, has filed notice in the federal court directed to the Butte & Boston company, that on Nov. 30 he will present to the supreme court at Washington a petition asking for a writ of certiorari to review the recent decision of Judge Knowles and the circuit court in granting the Butte & Boston permission to survey and examine the Michael Davitt lode through the Rarus, Johnstown and Pennsylvania.

Exploratory work has failed to reveal anything of a very promising nature at the Rhode Island property. Developments on the Alouez conglomerate at the Jubilee branch of the Franklin mine indicate that the copper courses run to the south, or away from the

In behalf of its faithful servants, the railway mail clerks, will be asked and urged to pass a law requiring mail cars to be more substantially constructed.—Portland Oregonian.

PROTECTION OF MAIL CLERKS.
Fragile Coaches in Which Postal Employees Work.
It is asserted, and proof of the truth of the assertion is not wanting, that measures for the protection of railway mail clerks from injury by collision and other forms of railway disaster have not kept pace with measures with which the great railroad systems have in recent years been busy for the protection of other classes of travelers. For example, engines have increased in weight and strength of construction, and vestibuled cars have been built that are almost proof against telescoping, whereas such changes as have been made in the mail car render it more likely than ever to be crushed between the heavy masses before and behind it in case of collision. In hastily proof of this neglect is the large percentage of mail clerks who are killed or injured in the service. Considering its present session will be asked to look into the matter and enact a law compelling railroad companies to extend improvement in car building to the mail cars that are a part—and a very important part—of their rolling stock.

COULD NOT BE RECEIVED.
Russian Peasants Did Not Understand a Police Conductor.
An Englishman traveling in Russia furnishes the following incidents to a London paper—an incident which he personally witnessed and which he says "shows better than volumes of description the customs and social conditions of Russian peasants." At a railway station, the train is on the point of starting. As usual in Russia, the left rings three times before departure, to warn the passengers to take their seats. At the first ring the chief conductor, seeing on the platform a group of peasants standing humbly and cautiously together, says very politely to them: "Gentlemen, the first signal is given, please take your places."
One of the peasants, turning to his comrades, says: "Dimitri, Ivan, Steven, do you hear? The master tells us to enter the train." Oh, you stupid, says another. "Are you a gentleman? You heard him say 'gentlemen.' He invited the gentry." "There is a second ring of the bell. The conductor calls, hurriedly and angrily: "Please gentlemen, take your seats; you hear the second signal." The same peasant says to the others: "It is for us. We must take our seats; the train will start." "You are wrong," says the companion. "Do you think, you are called a gentleman?" The third ring of the bell is heard. The conductor, losing his temper and hustling the peasants forward cries: "Idiot! Pigs! Boast! Do you hear or not? Be off and take your seats!" "That is for us," says the peasant. "Dimitri, Ivan, hurry up. We must take our seats."

A POLICEMAN'S TESTIMONY.
J. N. Patterson, night policeman of Nashua, Ia., writes: "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold at Desjardins' Pharmacy.
There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. Sold at Desjardins' Pharmacy.

PUTS ALL BLAME ON WASHINGTON

COLOMBIAN ENVOY DECLARES UNITED STATES HAS CAUSED THE TROUBLE IN PANAMA.

CHARGES VIOLATION OF TREATY

SAYS HIS REPUBLIC IS BOUND TO REGAIN THE ISTHMUS.

Does Not Wish to Make War, but That Is Assured to Be Probable Should Negotiations Looking Toward Settlement Fail.

New York, Nov. 26.—Francisco De Monotas, a lawyer sent to the United States by Colombia in relation to canal affairs, arrived today on the steamer Adromedak. He denied the reports that Colombia would seek annexation to Panama.

"Colombia," he said, "does not want to make war on Panama. She wishes to make arrangements looking toward a settlement. She wishes to regain Panama, and if not, war is probable. To say whether she will make war is a very hard question to answer. War with the United States is not to be considered."

Senator Monotas did not care to discuss the possibility that at attempt to land Colombian troops in Panama might mean a clash with the United States. He continued:

"Action of the U. S. Surprised. "The conduct of the United States has been a surprise to us. We did not imagine the United States would do that which she has done. The action of the United States has been directly against the treaty of 1846. The government of this country guaranteed the peace of the isthmus. Under that treaty, the United States had no right to prevent the landing of Colombian troops, for she goes there to pacify, to put down an insurrection and to restore peace.

"The United States has caused all the trouble in Panama. It is she who has made the republic of Panama, and she ought not to prevent the landing of our troops. Colombia does not want war; she wants to retake Panama.

"The canal decision was not brought about by any consideration of money to be paid Colombia. The money was but a little thing. The decision of Colombia was brought about on the question of the sovereignty of the United States over the canal strip. The United States wanted full sovereignty and that was the beginning of the trouble."

Gen. Reyes Threatens Invasion.

New Orleans, Nov. 26.—General Reyes, the peace commissioner from Colombia, arrived here today and tonight left for Washington. The general said he was going to see the president with his colleagues and hoped to have the United States declare to keep hands off on the isthmus and allow the Colombians to regain their lost territory. If the United States would not agree to this, then the Colombians would march an army of 100,000 men across the mountains to Panama and, meeting only the 3,000 isthmians, would soon regain the isthmus. Then the United States would have to negotiate with Colombia or build the Nicaragua canal. He said the Colombians had no thought of declaring war against the United States because they saw it would be a futile task.

Colombia Closes Ports.

Colon, Nov. 26.—The text of a decree closing the ports of the department of Bolivar reached here today. It prohibits until further notice all traffic of business between the ports in that department and the "rebel department" of Panama.

The Royal Mail steamer Trent returned here today from ports on the coast. She landed some of the Bolivarian commissioners at Savannah on Nov. 21, shortly after the arrival of a decree closing that port to vessels to and from Colon, and sailed thence for Cartagena, where she was only allowed to communicate with the shore because she had the Cartagena commissioners from Colon on board.

It is stated from a good source of information that much bitter recrimina-

tion is still indulged in at Cartagena against the American consul there. When on the point of going on board the Trent at Cartagena, in company with the captain of that vessel, the consul was hindered by the police and was turned back. It is understood the consul is protesting against the indignities to which he has been subjected.

The German steamer Scotia, on her arrival at Cartagena, was not allowed to communicate with shore and turned back.

Junta Approves Canal Treaty.

Panama, Nov. 26.—The junta, composed of Jose Agustin Arango, Tomas Arias and Manuel Espinosa, held a meeting today, all the ministers of state and councillors being present, and unanimously decided to ratify the canal treaty as soon as it is received here. Minister Varilla was authorized to officially communicate the junta's decision to the United States government. The decision of the junta was received with great joy throughout the isthmus without distinction of parties or classes. Rear Admirals Walker and Glass have been informed of the action taken by the junta.

Washington, Nov. 26.—Official confirmation of the determination of the Panama junta to ratify the canal treaty, as told in the Associated Press dispatches, has been received by Minister Varilla.

CUBA HIS HAVEN.

Deposed President, General Gil, to Quit San Domingo.

Washington, Nov. 26.—The end of the San Dominguan revolution is officially recorded in a cablegram received at the state department today from United States Minister Powell, dated yesterday. The minister reports all quiet and that the president (Wos y Gil) and his cabinet were leaving for Cuba. The Newport has withdrawn its marines from the city of San Domingo, the revolutionary party having guaranteed order and safety for all persons. The election of a president to succeed the deposed Wos y Gil will take place in three months.

San Domingo, Nov. 26, via Cape Haytien, Nov. 27.

The act of capitulation signed on Tuesday last by President Wos y Gil and the ministers of the United States, Belgium, Hayti and Spain calls for elections within three months and the installation of the new president on Feb. 27. The warships have withdrawn their guards with the exception of the United States marine guard at the British consulate, where General Gil is a refugee.

CROWN PRINCE ATTENDS.

Represents the Kaiser at Dedication of the American Church.

Berlin, Nov. 26.—The crown prince, Friedrich Wilhelm, in behalf of Emperor William, took part today in the dedication of the new American church, situated between Ambassador Tower and Mrs. Tower. The emperor sent the court chamberlain, Count Von Muelinen, to represent her. Chancellor Von Buelow was represented by Privy Councillor Conrad. The president wrote a letter to the pastor, extending congratulations.

GREAT FLOOD IN RUSSIA.

Much Havoc Done and Many Persons Homeless at St. Petersburg.

St. Petersburg, Nov. 26.—A flood which has caused much damage here was the greatest since 1824. The intense cold is causing much distress among the homeless. In the factory quarter twenty thousand persons were driven into the streets, many of them losing their all. The authorities are doing everything in their power to relieve the sufferers. There have been some fatalities.

VALUABLE CATTLE KILLED.

Herd Worth \$50,000 Perishes in Train Wreck in Indiana.

Crown Point, Ind., Nov. 26.—In a blinding snowstorm here today, a valuable herd of short horn cattle consigned from Ohio to Chicago, where they were to be exhibited at the livestock show, was killed in a rear-end collision on the Panhandle railway. The collision is attributed to the snowstorm, which prevented the engineer of the stock train from seeing the freight that preceded him. The loss on the cattle is estimated at \$50,000.

DEATH OF MRS. H. C. SMITH.

Adrian, Mich., Nov. 26.—Mrs. H. C. Smith, wife of former Congressman H. C. Smith, of the Second district, died today.

Never give up! Not while you can buy Ayer's Sarsaparilla.

MICHIGAN MEN PLAY FAST GAME

(Continued from Page One.)

score and Minnesota set out to better Michigan's score of 16 to 0. The gofers, realizing that it was not a weak team they were struggling against, played faster, more vigorously, and more together than they had before. During the second half the ball was almost continuously in Minnesota's possession. Wisconsin was fighting an uphill game all the time and there was no Abbott to help them. Twice Schacht carried the ball across Wisconsin's goal line, and the third time Burdick had the honor. Rogers kicked goal twice. A fierce effort was made to add another score, but Wisconsin's desperate, despairing defense checked this ambition and the score stood 17 to 0.

Wisconsin bid for glory four times, three in the first half and one in the second when Baine, an ex-Carlisle player, essayed placement goals from the field. The first one, from the forty-yard line, was so close that the cardinal rooters set up a shout of triumph, but the ball fell slightly short. The others went wide of the goal posts. Wisconsin never stood a chance of making a touchdown save one, and this chance, with the ball on Minnesota's twenty-yard line in the first half, went glimmering in favor of one of Baine's bootless kicks.

In Madison today it was generally admitted that Wisconsin was outclassed. The game marked the farewell appearance of Abbott, captain of the Wisconsin eleven. Abbott, with his limbs bruised and battered from recent contests, was the center of many eyes when the game began. His reputation of having been almost unanimously picked by critics for three years for left end on the "all Western team" lent a peculiar interest to the validity of that selection this year, when as he was. He lasted less than half an hour and was fairly dragged from the field, crying and protesting, in favor of a substitute.

Wisconsin had lost her best man, but still she fought on, undismayed. Harris, whose quarterback runs were the one spectacular feature of the game, played a star game, probably the best of his career, for Minnesota. The Minnesotans suffered the most from penalties, their offense plays, as usual, this season, counting heavily against them. At the beginning of the game, they lost five yards three times in succession in consequence of anxiety to get the jump.

GAVE NEBRASKA A SCARE.

Illinois Gained Two Yards to One in the First Half at Lincoln.

Lincoln, Nov. 26.—Nebraska defeated Illinois this afternoon in her hardest football game of the season. The score was 16 to 0. Illinois did her best work in the first half, gaining two yards to Nebraska's one and fairly playing the locals off their feet. Twice on steady line bucks and mass plays on center they carried the ball dangerously near Nebraska's goal, only to be held for downs. It was all Nebraska's in the second half. The visitors played wholly on the defensive and the ball was constantly in their territory. Two sensational end runs, one by Bender and one by Wilson, relieved the monotony of what was otherwise straight football.

INDIANS MUCH THE BETTER.

Redmen from Carlisle Win Easily in Contest With the Purple.

Chicago, Nov. 26.—The Carlisle Indians in today's game with Northwestern University demonstrated the superiority of the football that has made the redmen formidable gridiron warriors in the East, by defeating the purple by the score of 24 to 0. McCormack's eleven was materially weakened by the absence from the line of Guard Phillips, who refused to play against his former

colleagues. At no time was Northwestern dangerous on offense. Captain Flager and his men fought gamely to withstand the almost irresistible attacks of the Indians and Peckum and Weinberger, the purple's ends, showed fierce tackling.

Half Backs Charles and Sheldon, light but fast as the wind, and Full Back Williams circled the purple ends almost at will. Occasionally when a short gain for first down was needed, Left Tackle Johnson ran the team's attack with a bewildering mixture of wing shifts and cross bucks, followed by fake interference plays that yielded twenty-three of Carlisle's points. Johnson's brilliant goal from the field furnished the other five points.

POLICE HAD TO INTERFERE.

Scrimmage in Grand Stand Marks the Iowa-Washington Match.

St. Louis, Nov. 26.—In a fiercely fought contest on the gridiron, Iowa University today defeated Washington University by the score of 12 to 2. Washington was outclassed on previous form, but went into the battle with more than ordinary valor and during the early part of the first half seemed to have the advantage. Iowa was spurred up, however, and maintained its prowess throughout, finally winning the game.

During the intermission between the halves, the Iowa rooters endeavored to raise their colors in the grand stand. The Washington supporters interfered and a scrimmage resulted that required the police to quell.

Philadelphia, Nov. 26.—Pennsylvania wound up her football season of disappointment by defeating Cornell by the overwhelming score of 42 to 0.

Sancton, S. D., Nov. 26.—Yankton college won the championship of South Dakota in a football game with Huron today. The score was 18 to 0.

Rockford, Ill., Nov. 26.—Knox college easily defeated Beloit college (Wisconsin) here this afternoon, 23 to 0. Several players were injured, but none seriously.

Football Player Badly Hurt.

Paris, Ills., Nov. 26.—Felix McWhorter, Jr., of DePaul, is still unconscious and believed to be fatally injured as a result of a collision with Shaw, the Paris halfback, in a game of football here this afternoon.

GERMAN REICHSTAG CALLED.

Kaiser Anxious to Renew Existing Commercial Treaty With England.

Berlin, Nov. 26.—The German reichstag has been called to meet in short session Dec. 3 because the kaiser and his government are anxious to renew the existing commercial treaty with England and this must be done before the end of the year.

It had been rumored that important military bills would be taken up before Christmas, but this point has not been definitely decided upon. It is stated by persons connected with the war department that in view of the strong opposition in the reichstag, the government will not try to force through the army reform bill for another year.

It is said, however, that the kaiser insists on having the naval bills, calling for a large increase of the German navy, pushed through at any cost and that he hopes to find means to force the opposition to give in.

WILL USE ELECTRICITY.

New York Central Will Spend Millions in Superceding Steam.

New York, Nov. 26.—According to plans now under consideration, the New York Central railway is to be equipped with an electric system which will definitely establish the theory that steam is a motive power for railroads has been superseded.

Contracts for the work involving between \$15,000,000 and \$20,000,000 are said to have been already awarded. If the project is brought to completion, which should be within five years, virtually all the trains on the New York Central within a radius of fifty miles from Forty-second street will be hauled by electricity.

R. OF L. F. ELECTION.

Peoria, Ills., Nov. 26.—The grand trustees of the Brotherhood of Locomotive Firemen today elected W. S. Carter of Indianapolis secretary-treasurer to succeed Frank Arnold, resigned.

IOWA BANK IS CLOSED.

Algona, Ia., Nov. 26.—Judge Quanton has appointed Frank Weimar of Ledyard receiver for the State Bank of Germania. The institution has \$25,000 capital and \$40,000 deposits.

CONSUMPTION CAN BE CURED IN THE FIRST STAGES.

A Beautiful Girl Saved From Dread Consumption—Other Wonderful Cures.

Miss Amelia Weymer.

Hundreds of Women Cured of the First Stages of Consumption by Per-na.

The Following Letter from a Thankful Woman Tells Its Own Story.

Mrs. Mary E. Hobbit, 2301 Clinton avenue, Minneapolis, Minn., writes: "My son suffered for three months with catarrh of the bronchial tubes which threatened to become very serious. The doctors advised that he seek a more favorable climate, but as he had heard of Per-na as a specific for lung trouble he decided to give it a trial before he left his family for an expensive journey among strangers. For six months he used it faithfully and found that the trouble gradually disappeared and blessed health took its place. In two months he was perfectly well and able to perform his duties. You have indeed a grateful mother's thanks."—Mrs. Mary Hobbit.

Miss Amelia Weymer, Appleton, Wis., writes: "Early last summer I contracted a cold which seemed to hang on to me and could not be shaken off. From the head it went to the throat, and then affected my lungs. My mother felt very anxious and as we had used Per-na in the family before, she advised me to try it. I was somehow very opposed but was persuaded to try Per-na. Using it one day convinced me that it was no ordinary medicine, within a week I was much better and in two weeks I was well, and I felt much stronger, and in three weeks better health generally. I was perfectly satisfied with the results from the use of Per-na."—Miss Amelia Weymer.

CATARRH CAUSES CONSUMPTION

Per-na Never Fails to Cure Catarrh Wherever Located.

THE medical profession has so thoroughly prejudiced the minds of the people against patent medicines that it is with great reluctance that anyone can be persuaded to try such a remedy at first.

In nearly every one of the thousands of remarkable cures that Per-na has made the patients had to be persuaded by friends very strongly before they could lay aside their prejudice against it. A large multitude, of course, hold out against the persuasions of friends and die simply because they have allowed their minds to be poisoned against this very excellent remedy.

But fortunately there is another large multitude of people who are able to shake off their prejudice and try Per-na before it is too late. These people are rarely disappointed. They generally try other remedies at the beginning of their troubles. They allow a cold to develop into catarrh of the head. They allow catarrh of the head to gradually become catarrh of the throat. They still keep using the doctor's medicine, or some other ineffectual remedy. The catarrh stealthily spreads down the bronchial tubes and reaches the lungs. Everybody then becomes alarmed. Faith in the doctor begins to disappear. The patient reaches a state of mind in which he is willing to try almost anything. A bottle of Per-na is sent for.

The first week it produces a decided change for the better. A few weeks' continued treatment cures the patient. Then another happy man or woman is added to the long list of people who are praising Per-na.

If you do not derive prompt and satisfactory results from the use of Per-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Ask Your Druggist for a free Per-na Almanac for 1904

BRITAIN TO FAVOR THE JAPS.

Lord Milner Outlines Plan to Open Transvaal to M'Ka'o's People.

London, Nov. 26.—Lord Milner, high commissioner of South Africa, states in an English friend that he purposes to secure the passage of a bill through the legislative council of the Transvaal colony rigidly limiting the importation of Chinese into the colony, but providing for the admission of Japanese on terms agreeable to the M'Ka'o's government.

This first official intimation of the government's proposed policy touching the great South African labor problem reveals a determination to conciliate as far as possible the anti-Asiatic instincts of the Boers and at the same time to execute a striking piece of imperial diplomacy.

Viscount Milner's language ran something like this: "The Transvaal cannot get on without Chinese labor, but it must be imported under contract according to stringent limitations. The feeling against Asiatics in South Africa is wide and deep and everything compatible with the economic necessities of the country must be done to avoid offending it. The influx of Chinese must be restricted to the laboring class. We hope thus to obviate much opposition hitherto exhibited on account of the influx of petty Chinese and Indian merchants."

"However we intend to treat the Japanese on an entirely different basis and shall conclude a convention with the

ere had it not been for police interference.

VEGETARIAN TURNS TO MEAT.

Perverted Taste of Butcher's Horse Here—Lore Content With Breakfast Food.

Most horses have a liking for sugar, and some have been known to drink beer, but an Eighth avenue butcher owns a nag with an eccentric taste for fish and meat. At least the butcher says so, and he ought to know.

"After Tom has finished his midday meal of oats and hay," said he, "the driver frequently gives him a bit of steak or liver, or sausage, which he eats with apparent relish. No one knew of his partiality for meat until one day about two weeks ago he was seen to reach into a cart just ahead of him and calmly begin eating a steak. Since then we have been feeding him with bits of meat, and many a bet has been won and lost on his peculiar appetite.

"Up to last week Tom varied his flesh diet by eating fish, but one day, while reaching into a fish wagon for a smelt, a crab took hold of his lip and hung on until help came. Since then, nothing would tempt Tom to look at a fish."

M. J. Bain, Ann Arbor—"Have tried many medicines but find nothing so good as Rocky Mountain Tea." There's no other medicine that makes sick people well so quickly. 35 cents. Stafford Drug Co.

SAFE IN PORT.

Steamer Cedric, Reported Lost, Arrives at New York.

New York, Nov. 26.—The steamer Cedric passed the Nantuxet lightship early today. This disposes of the rumor that she was run down in mid-ocean. She signalled, "All well."

JACK ROOF GIVEN THE DECISION.

Pueblo, Colo., Nov. 26.—In the eighth round of what was to have been a twenty-round go, Jack Roof was tonight given the decision over Jim Flynn of Pueblo. The crowd disapproved the decision and probably would have attacked the ref-

Household Cares. A Sick Woman's Devotion to Duty is a Heroism which a Well Person Cannot Understand. Lydia E. Pinkham's Vegetable Compound. "I have read of your medicine making so many cures and have been advised to write to you, but I feel that it is of no use. The doctor says that I have womb trouble, but he does not seem to help me a great deal. I have such a weakness across my most of the time—have backache, am very nervous, and am troubled with leucorrhoea. I am very weak, cannot walk any distance or stand long unless I ache all over. I would like to know if you think your medicine would do me any good."—Mrs. SAMUEL FRAKE, Prospect Plains, N.J.

You can live in California

You do not have to be a millionaire to enjoy California.

For three or four thousand dollars you can buy an 8-room cottage, covered with roses, and a few acres of ground filled with all manner of trees and flowers.

Here you can live in luxury and ease—as a man should when his days of activity are over.

Why not run out there this winter and look things over? In a couple of months you will know whether or not you will wish to remain indefinitely.

The trip to California is easily and quickly made in the through trains of the Rock Island System. Two routes—via El Paso and via Colorado. Information on request.

F. B. Gilman,
District Passenger Agent,

BLOW UP MINES THE MOUNT.
Military Investigation at Cripple Creek Exposes Plans to Murder.

Denver, Colo., Nov. 26.—Startling discoveries have resulted from the investigation into the blowing up of the Vindicator mine in the Cripple Creek district Saturday, according to Adjutant General Bell. He says that those who caused the explosion which killed Superintendent McCormack and Melvin Beck, also plotted to blow up the Gold Coin, Findlay, Golden Cycle, Stratton's Independence and several other properties.

General Bell learned that the revolver found at the scene of the explosion was one of a number sold to the San Juan Hardy & Co. by the manufacturers at Telluride on Oct. 2. A partial description of the man who bought the revolver was secured. General Bell is sure that the man is one of the sixteen now being guarded inside the military lines at Camp Goldfield. He is certain that all of those concerned in the Vindicator affair, with one exception, are in custody.

Dozen Charged With Crime.
Of the sixteen men now being held at Camp Goldfield about a dozen are charged with being principals or accessories in the Vindicator affair. The remainder are held in connection with the attempt to wreck a Florence & Cripple Creek train a few days ago.

It is generally believed that Charles McKinney, the alleged train wrecker, who was spirited out of the district to the penitentiary for safe keeping, is the person from whom the authorities have secured much incriminating evidence.

One proof that violence was plotted is the fact that non-union miners at work on the properties said to have been included in the doomed list have been receiving mysterious warnings not to work upon peril of bearing the consequences.

ERA OF PEACE BEGINS.
Visit of English Arbitrationists to France May Widen Treaty.

Paris, Nov. 26.—The arrival of the English parliamentary arbitrationists, said Baron d'Estournelles de Constant today, "is no mere visit of courtesy. As our visit to Great Britain was directly responsible for the present Franco-English treaty this English visit will doubtless result in an enlarging and widening of the scope of the agreement. Moreover, we expect that the reception accorded our guests will leave no doubt in the minds of French legislators and ministers of the opinion of the general public regarding the encouragement of our great principle.

"Close upon this visit we expect to see treaties with Denmark, which is holding out its hands to us, and with Sweden, Norway, Holland and Italy. When all this has been effected the principle of arbitration will have taken such hold on the public mind of Europe that speeches against war in continental parliaments will become less necessary than ever. We have found out the vanity of talk and at the same time the right channel for action. Paris will give a significant welcome to our English conferees."

Lively scenes are expected when the Englishmen visit the chamber. Numbers of Anglophobe nationalists have sworn that they will give unmistakable signs of their disgust. King Edward has assured Baron d'Estournelles de Constant that he takes the greatest interest in this visit and hopes to be kept thoroughly informed of its details.

TAKE SIDE WITH LOUISE.
Society Women of Saxony Resent Attitude of the King.

Dresden, Nov. 26.—A strong movement has been started by prominent society women of this city in favor of the ex-Crown Princess Louise of Saxony, who eloped with Giron. This movement is exceedingly disagreeable to King George and his family, who do not even allow the name of the princess to be pronounced in the royal palace.

A committee was recently sent to the king for the purpose of trying to induce him to let his former daughter-in-law see her children at Christmas, but as the king refused to receive the members of the committee, it was resolved that a valuable Christmas present should be sent to the former crown princess by thousands of society women all over Saxony.

It has not been decided what this present will be, but several thousand marks have already been collected and a committee is preparing an address, the contents of which will be published in all the newspapers of Saxony, though the court is making strenuous efforts to prevent its publication.

Small waists are no longer in style. It's the round plump waists that come by taking Rocky Mountain Tea that will go. 35 cents. Stafford Drug Co.

CURED OF PILES AFTER 40 YEARS
Mr. C. Hancy, of Geneva, O., had the piles for 40 years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap worthless counterfeits. Sold by The Stafford Drug Co., Marquette, and H. N. Meloché, Ishpeming.

CHASE SEA LION AT RACINE.
Escaped Animal from Lincoln Park, Chicago, Appears in River.

Racine, Wis., Nov. 26.—Big Ben, the sea lion which escaped from Lincoln park, Chicago, about two weeks ago, was seen in Racine river yesterday afternoon. Within twenty minutes 500 people gathered along the docks and bridges and in boats. The sea lion paid little attention to the crowd until rifles and revolvers were discharged and then the animal dived.

Men did not know that there was a reward of \$100 offered for the capture of the animal until two hours after the sea lion was being made the object of target practice, in which police officers, lifesavers and residents joined. When it became known that the sea lion was Big Ben and there was a reward offered for his capture, every effort was made to corral him, but for six hours the sea lion swam about the river and led his pursuers a difficult chase. Big Ben would allow the boats to come within ten feet and then would disappear. Pike poles, firearms, lassoes and even sledge hammers were placed in boats for the purpose of killing or wounding the animal. Nets were set across the river, but the sea lion went under and through them. Two or three times Big Ben went out into the lake only to return.

The animal was first seen at 10 o'clock near the Barry docks. No one seemed to know what it was, and for an hour men watched it sporting about the river. Salt water sailors who were called said that the animal was a sea lion, and then there was a scurry among all to secure firearms. At last Big Ben seemed to have had enough fun and went out into Lake Michigan and disappeared.

ABSOLUTE FAITH.
You Can Depend Upon the Word of This Marquette Citizen.

She has had the experience. She has thoroughly tested the article. She found it as represented. She has absolute faith in its merit.

Mrs. Wm. Warren, 229 W. Jackson street, says: "I had constant pain through the small of my back; at night I was very restless, I could find no position to lie in that was comfortable and consequently rose in the mornings feeling tired and worn out. The secretions from the kidneys were unnatural and greatly in excess. I also suffered from persistent headaches and had intense thirst, feeling as though I could not drink enough. I saw Doan's Kidney Pills recommended highly for just such troubles and I procured them from the Stafford Drug Store. The treatment promptly relieved me of the trouble."

For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

FIRE WOOD.
Good dry hardwood, block or split. Dry pine slabs; dry hemlock slabs—any length required. F. W. Read & Co., Marquette. (12-19-11)

W. A. Herren of Finch, Ark., writes: "I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors had given up." Sold at DeWitt's Pharmacy.

LARGEST EVER HELD.
Firemen's Ball Broke All Records in Point of Attendance.

DEFEAT CAUSED SURPRISE.
Escanaba Had Been Picked to Win from Benton Harbor.

As noted in the telegraphic columns this morning, Benton Harbor won a decisive victory from Escanaba yesterday, taking the upper peninsula champions into camp by a score of 22 to 0. This news, which was bulletined here yesterday afternoon, caused much surprise, the Soudy City team having been picked as an easy winner. This belief was strengthened after it was announced that the star player on Benton Harbor's team had been disqualified because above the age limit.

It is probable that the championship will not go to Benton Harbor, on account of the decision of the state board of control, so that the honors may yet be given to Escanaba. There will be little satisfaction, however, in gaining the championship in this manner, and all friends of football in the peninsula would much prefer that it had been won on the gridiron.

Escanaba has been defeated twice in lower Michigan after gaining first place in the upper peninsula by winning from Escanaba. The first time was in 1890, when the eleven from the lower part went against Orchard Lake.

ISHPEMING IN BRIEF.

Trombly's orchestra will give a hop Wednesday night at Anderson's Hall.

Mrs. Ed Thomas of Painesdale spent Thanksgiving with her parents here.

The Inter-Urban Dancing club will give its second party tonight at Anderson's Hall.

The snow plow was out yesterday morning, clearing the snow from the street railway tracks.

Miss Mabel Ellis, who is teaching school at Painesdale, is in town during the Thanksgiving vacation.

Frank Cronin arrived home Wednesday from the Mesaba range, where he had been for the past few months.

Bridget Cullen of Badger Hill died Wednesday afternoon, aged seven years. She was the daughter of Peter Cullen and had spent her entire life here. The funeral will be held tomorrow morning at 9 o'clock from St. John's church.

MANUFACTURE OF COTTON.

The South is Slow in Turning Out Finer Grades of Goods.

The rapid growth of cotton manufacturing in the south has become a source of frequent comment, concluding mostly with the remark that while we are doing much and doing well in this particular we should do more and do better. In other words, intelligent observers of the south's progress in the turning of the staple into merchantable fabrics are struck with the fact that, as yet, but few attempts have been made to produce cotton goods of the finer grades by southern promoters of cotton manufacturing plants.

Two-thirds of the south's crop of cotton finds its way abroad, absorbed as it is by nations that have learned to convert a pound of raw material worth 10 cents into a pound of finished goods worth fifteen times that amount and over. France, for instance, makes high-priced lace out of the product of our cotton field, while we are confining ourselves to the production of cheap, coarse fabrics. There is no good reason for not making a few steps into the domain of finer manufacture as a beginning. No one will seriously contend that the south is not ultimately destined to work up the bulk of its raw cotton. Why, then, should there be further delay in the promotion of industry in its higher branches?—Houston Post.

TABASCO.

Where It Was First Made in Louisiana.

Capt. John A. McIlhenny is in the city this week from Avery island, looking very much as if he had been on a long military campaign, judging from his rugged, sunburned appearance. He is now paying very close attention to his tabasco sauce manufacturing business, and at the present time a large new factory is going up.

"We are more than pleased with the growth that this business has undergone in the past few years," said the captain at the St. Charles hotel. "The expansion of tabasco manufacturing has been beyond our most sanguine expectations. All of the manufacturing is done on Avery island, and all of the peppers used are grown on the island. We raise them on our own plantation under our own supervision.

"Tabasco sauce was first made on the island in 1868 by my father, who thought he could make a sauce from the peppers which grew there equal to Maudslow's. At that time there was no postoffice at Avery island, and the label was made with New Iberia on it, which has been allowed to remain ever since.

"There has been a great deal written about tabasco sauce ever since I can remember. In fact, I think the subject is one that has rather been overdone from the newspaper standpoint, and the only new thing there is about tabasco is the factory. Of course, this was made necessary by the great increase in the business, and it will not be possible for us to make enough to supply the demand."

Avery island is perhaps the most delightful spot in the state, high, dry and healthful during all seasons of the year. As Capt. McIlhenny states, tabasco has been regarded and written about as one of the distinct products of Louisiana for more than half a century. It is almost impossible to get into any first-class hotel or restaurant anywhere in the United States without finding among the condiments tabasco sauce. It is not, however, a sauce that can be used in large quantities. It is put up in very small bottles and a single drop on an oyster is all that one can relish. Many funny stories are told of people who enter the New Orleans restaurants and try tabasco on oysters for the first time. They will insist on putting about a teaspoonful on an oyster and gulping it down, and then the waiter will see all the stars in the firmament. A teaspoonful of tabasco would be enough for a dozen of the largest oysters that ever came out of Bayou creek. Much to the surprise of those who have so long been familiar with tabasco sauce, all of the supply of the world's market is raised on about 100 acres of land. But the manufactured product of this 100 acres is perhaps the most valuable of any of a like area of land in the United States, if not in the world. It has been said by those who ought to know that the annual net revenue from tabasco manufacturing was no less than \$150,000.

During the past few years there have been all sorts of imitations of tabasco put on the market, but regardless of the fact, those who really know the merits of tabasco try always to get the genuine McIlhenny brand. Such a reputation has this sauce that it is now sent to all parts of Europe and enters into competition with Maudslow's in all over England and European countries.

Therefore, despite all of the essays ever written on tabasco sauce and on Avery island and on the McIlhennys, it will always remain a fact that the manufacture of tabasco will be of interest because of the uniqueness of the industry.

TRAVELED IN SPECIAL TRAIN.

Five Knights of the Grip Are Accorded a Distinguished Privilege.

It is seldom that knights of the grip are accorded the distinguished privilege of traveling by special train. Several Ishpeming drummers and a Marquette man were thus honored Wednesday night, however, arriving here from Champion on a special consisting of an engine and coach. The party consisted of J. E. Gannon, Miles Butler, F. Raiskey and H. A. Tennis, and Lou Dingle of Marquette. They were all bound for the copper country and expected to make connections with the Marquette train at Keweenaw Bay. The Mineral Range train was an hour late, however, and the South Shore did not wait for it.

The prospects of eating Thanksgiving turkey at home seemed very small, but the related birds did not despair. They boarded the St. Paul train, which passed through Keweenaw Bay soon after their arrival there, taking them as far as Champion. There would be no way of leaving the train at regular intervals, however, until early yesterday morning, so in order to save the traveling men the painful necessity of waiting all night to catch their train, the railroad courteously provided the special, which arrived here at 9 o'clock.

PROFITS OF BEGGING.

A woman was arraigned for begging and vagrancy in the Essex Market police court in New York, a few weeks ago, who had among her belongings a heavy bundle tied in a large colored handkerchief, in which were found over seventy dollars in pennies and other small coin, the whole mass weighing more than fifteen pounds. This, according to the woman's own story, she had collected in two weeks, seated on the curb at a certain corner on the Bowery with a plate in her lap. And still more interesting was the disclosure made by a bank book of a savings bank in Syracuse, N. Y., in her possession, showing an account to the woman's credit of over one thousand dollars. It appeared also that the woman had three grown-up children, living in Syracuse, who were able to care for her. Yet so woe-begone and poverty-stricken did the woman appear when arraigned in court that not until her belongings were disclosed would even a police court slyster take her case.—Leslie's Weekly.

DULL SEASON FOR THEATERS

MANAGERS FREELY SAY THEY ARE UP AGAINST THE POOREST BUSINESS SEEN IN YEARS.

IT IS NOTICED IN MARQUETTE

HOUSES DO NOT COME UP TO AVERAGE FOR OTHER SEASONS.

In New York Many New Attractions Have Been Withdrawn—Only High Priced Shows Get the Patronage Here.

The dramatic season of '03-'04 is now old enough to justify a few observations on its prospects for full success.

Manager Koepeke of the Marquette opera house, reports that he has received a few cancellations on account of poor business on the road, an experience that he has not had at any other time during the past three years.

Not in years has Marquette had as wintry a Thanksgiving as that observed yesterday. The snow continued without cessation, the fall, if anything, being a little heavier than on any previous days of the week.

The holiday passed in Marquette with unusual quiet, people being prevented from being out and about town to any extent by the rough walking.

In the morning the union service at the Presbyterian church was largely attended by members of the congregations participating in it.

COKE USERS WEAR A SMILE because they are saving money every day. Why don't you smile too?

STORM SASH. We make them, price and quality right. Special quotations before the fall rush. Order now.

Cook wanted—who can make poor bread with Gold Medal Flour.

BIG DINNER AT PRISON.

As a Special Concession It Was Served in the Chapel. Thanksgiving will be remembered by the inmates of the Marquette branch of state prison for some time to come as a day affording a pleasant break in the dull monotony of convict life.

SMITH THE SUPERINTENDENT.

Marquette Man to Run the Boyne City Blast Furnace. Prof. Smith, one of the best charcoal iron men in the country, who has been superintendent at the Carp furnace under Messrs. Schaffer and Gray for the past few years and who was formerly at the Excelsior furnace at Ishpeming, is to have charge of the plant which is now being moved from St. Ignace to Boyne City, Charlevoix county.

QUIET THANKSGIVING. Snow Had Effect of Keeping People at Home Yesterday.

Refusal of Parole for Holzhey Not Liked by Some People. The board of pardons this week among other things announced that it had denied Raymond Holzhey's application for a pardon.

HAS MANY FRIENDS.

Refusal of Parole for Holzhey Not Liked by Some People. The board of pardons this week among other things announced that it had denied Raymond Holzhey's application for a pardon.

CARD OF THANKS.

We, the undersigned, desire to express our heartfelt gratitude to Superior, K. O. T. M., the German Aid society and Messrs. and Mrs. B. J. Schaefer, also to all others who so kindly attended us during our recent affliction through the death of our loving husband and father.

THE MAN OF THE HOUSE

has to foot the bills. If they are high he'll complain. Use Coke for fuel; no complaint then. The Marquette Gas Light Co.

DRY WOOD.

WE TAKE IT FOR GRANTED

that reducing your fuel expense will be of interest to you. Then try Coke for fuel. Fifty bushels to a ton. Five dollars and a half delivered. The Marquette Gas Light Co.

FOR HEATER OPENING.

Ishpeming Men Conducted a Canvass for Tickets Here Wednesday.

Ed J. Butler and J. H. Rough, Ishpeming Elks interested in the new opera house at that city, were here for a few hours Thursday afternoon canvassing for the sale of tickets for the opening performance at the new theater. They had very fair success, selling about twenty. They are \$10 each, it being the purpose to raise as much money as possible the first night for building account. Mr. Butler and Mr. Rough did not get here until the three o'clock train and so had an opportunity to call on but a limited number of people.

SOO CANAL PASSAGES.

List of the Boats Locked Through on the Up-Bound Trip.

Table with columns for boat names and dates. Includes Superior, Bell, Allen, Brummer, Anderson, Bowsher, Rouseffell, Maney, Sink, Byrne, Simons.

CITY BREVITIES.

Yesterday's temperature: 7 a. m., 16 degrees; noon, 18 degrees; 7 p. m., 16 degrees. Maximum, 20 degrees; minimum, 16 degrees.

Today's weather: Warmer; fair; increasing southerly winds.

Miss Maude Daley spent yesterday in Houghton, the guest of friends.

Mrs. J. H. Quinn of Ishpeming spent Thanksgiving in Marquette, visiting friends.

The Woman's guild of St. Paul's church will meet this afternoon with Mrs. A. B. Eldredge.

An assembly dance will be held at Fraternity hall Saturday evening. Dancing will begin at 8:30.

The Methodist Ladies' Aid society will meet in the church parlors this afternoon at 2:30 o'clock.

The steamer Wm. Chisholm, which has been discharging coal here, left yesterday for Duluth to take out a cargo of wheat.

The Young Woman's guild of St. Paul's church will meet this afternoon at 2 o'clock with Mrs. Richard Blake, East Ridge street.

The meeting of the Ladies' Aid society of the Baptist church this afternoon will take place at the residence of Mrs. L. C. Palmer, East Arch street.

One of the regular series of Masonic dances will be held this evening. A large attendance is expected, as arrangements have been made for special music.

The big fleet of boats which sought shelter in the harbor here during the fierce blow on Wednesday all got away yesterday. In the evening, however, the Robert Holland, Crosthwaite, Exile and White & Friaunt came in to wait until the weather moderates.

The steamer Walter Scranton was loaded at the L. S. & L. dock yesterday and cleared for Buffalo. There is only one more boat to load at this dock this season. This is the Castalia, now discharging a cargo of coal. The South Shore people still have several cargoes to load.

Marquette people displayed a keen interest in the outcome of the various football games yesterday and news was in great demand. There was great jubilation at the news of Michigan's fine victory over Chicago and no little regret that the Badgers could not have held out against the Gophers all through the game.

The championship of the west is left fairly in dispute between Michigan and Minnesota, which appear to be about as evenly matched as two teams can well be.

Do you feel mean, cross, all out of sorts, no ambition, all broke up? Rocky Mountain Tea will make you strong, healthy and robust. 35 cents, tea or tablet form. Stafford Drug Co.

AT THE NEW ART STORE. Underwear, hosiery, domestic and outing flannels; also boys' sweaters, mittens, etc. Art lessons given free on materials purchased. Mrs. Rose O'Donnell, 509 North Third street. (11-9-14)

The secret of good bread is good flour—Gold Medal. Ask your grocer.

HE COULD HARDLY GET UP. P. H. Duffy of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold at Desjardins' Pharmacy.

SUPERIORS WIN AGAIN.

Indians Dropped Two Out of Three Yesterday Afternoon.

The Superior team and Indians in the city bowling league took advantage of the holiday yesterday to bowl their regular contest and did so before a goodly crowd of onlookers. The Superior team, which is at the head of the list, defeated the Indians two out of three games. The Indians have not yet fairly gotten underway, and their friends are hoping that when they begin pulling together they will quickly forge to the front. The scores yesterday were as follows:

Table with columns for team names and scores. Includes Superiors, Bell, Allen, Brummer, Anderson, Bowsher, Rouseffell, Maney, Sink, Byrne, Simons.

SOO CANAL PASSAGES.

List of the Boats Locked Through on the Up-Bound Trip.

Table with columns for boat names and dates. Includes Superior, Bell, Allen, Brummer, Anderson, Bowsher, Rouseffell, Maney, Sink, Byrne, Simons.

CITY BREVITIES.

Yesterday's temperature: 7 a. m., 16 degrees; noon, 18 degrees; 7 p. m., 16 degrees. Maximum, 20 degrees; minimum, 16 degrees.

Today's weather: Warmer; fair; increasing southerly winds.

Miss Maude Daley spent yesterday in Houghton, the guest of friends.

Mrs. J. H. Quinn of Ishpeming spent Thanksgiving in Marquette, visiting friends.

The Woman's guild of St. Paul's church will meet this afternoon with Mrs. A. B. Eldredge.

An assembly dance will be held at Fraternity hall Saturday evening. Dancing will begin at 8:30.

The Methodist Ladies' Aid society will meet in the church parlors this afternoon at 2:30 o'clock.

The steamer Wm. Chisholm, which has been discharging coal here, left yesterday for Duluth to take out a cargo of wheat.

The Young Woman's guild of St. Paul's church will meet this afternoon at 2 o'clock with Mrs. Richard Blake, East Ridge street.

The meeting of the Ladies' Aid society of the Baptist church this afternoon will take place at the residence of Mrs. L. C. Palmer, East Arch street.

One of the regular series of Masonic dances will be held this evening. A large attendance is expected, as arrangements have been made for special music.

The big fleet of boats which sought shelter in the harbor here during the fierce blow on Wednesday all got away yesterday. In the evening, however, the Robert Holland, Crosthwaite, Exile and White & Friaunt came in to wait until the weather moderates.

The steamer Walter Scranton was loaded at the L. S. & L. dock yesterday and cleared for Buffalo. There is only one more boat to load at this dock this season. This is the Castalia, now discharging a cargo of coal. The South Shore people still have several cargoes to load.

Marquette people displayed a keen interest in the outcome of the various football games yesterday and news was in great demand. There was great jubilation at the news of Michigan's fine victory over Chicago and no little regret that the Badgers could not have held out against the Gophers all through the game.
