

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

The Pace That Tells. In the six day bicycle races the pace tells terribly at the end. Man after man falls out exhausted.

abolish the shore organization, to do away, in fact, with the business agents. The desire is to settle affairs in the spring and close the offices of the association during the sailing season.

One is not apt to look upon cut flowers as a tremendous industry, but some generous figures with regard to the sale of flowers have just been printed.

big concerns down here, to render their operations independent of their big smelters in Colorado, because of the labor troubles there. It need hardly be pointed out that it is, in general, precisely this sort of development of Mexico that we should desire.

The important role which the item of transportation plays in foreign trade is strongly brought out by Frank H. Mason, the consul general of the United States at Berlin, in his recent report to the government.

stream tin of Nome came from the ledge so far away. Claims have been located on the ledge and it is probable that, with the opening of the season next spring, development work will begin and then it will soon be ascertained whether the Alaska tin deposit is less deceptive than that of the Black Hills.

A COMPULSORY BLOCK SYSTEM. The interstate commerce commission has recommended the passage of a federal law requiring the adoption of block signals by the railroads of this country.

MINING NEWS

WILL CURTAIL PRODUCTION.

Engine House at No. 3, Tamarack, is Partially Destroyed by Fire. The engine house at No. 3 shaft of the north branch of the Tamarack mine was partially destroyed by fire at an early hour yesterday morning.

OLD DOMINION. Boston advises that Messrs. F. S. Moody & Co. will issue a circular to shareholders of the Old Dominion Copper Mining & Smelting company, outlining the formation of a new holding company to acquire the stock of both the Old Dominion and United Globe companies.

UNITED METALS SELLING CO. The Amalgamated Copper company's selling agency known as the United Metals Selling company, which the Boston Herald recently termed "the handmaiden who presides over Amalgamated and skims the profits of the copper industry for a select coterie of insiders" has declared a semi-annual dividend of \$10 per share upon a capital of \$5,000,000, from its 1903 operations.

the official figures are in I expect them to show an increase in the world's production for the year of between 5 per cent and 7 per cent, which compares with a normal increase of 8 per cent to 10 per cent.

The world's output of copper now amounts to about 1,100,000,000 pounds annually. To increase it 10 per cent, as is necessary to keep pace with the normal growth of consumption, 110,000,000 pounds must be added yearly.

The Amalgamated Copper company's selling agency known as the United Metals Selling company, which the Boston Herald recently termed "the handmaiden who presides over Amalgamated and skims the profits of the copper industry for a select coterie of insiders" has declared a semi-annual dividend of \$10 per share upon a capital of \$5,000,000, from its 1903 operations.

Miss Nellie Holmes, treasurer of the Young Woman's Temperance Association of Buffalo, N.Y., strongly advises all suffering women to rely, as she did, upon Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Your medicine is indeed an ideal woman's medicine, and by far the best I know to restore lost health and strength. I suffered misery for several years, being troubled with menorrhagia. My back ached, I had bearing-down pains and frequent headaches. I would often wake from restless sleep, and in such pain that I suffered for hours before I could go to sleep again. I dreaded the long nights as much as the weary days. I consulted two different physicians, hoping to get relief, but finding that their medicine did not seem to cure me, I tried your Vegetable Compound on the recommendation of a friend from the East who was visiting me.

is Ely's Cream Balm

For Piles. Sample mailed free. One application gives relief.

The continued use of Humphreys' Witch Hazel Oil permanently cures Piles or Hemorrhoids—External or Internal, Blind or Bleeding, Itching or Burning, Fissures and Fistulas. Relief immediate—cure certain.

NERVOUS DEBILITY.

Vital Weakness and Prostration from overwork and other causes. Humphreys' Homeopathic Specific No. 28, in use over 40 years, the only successful remedy. \$1 per vial, or special package for serious cases, \$5.

Joseph B. Moore, of Lapeer, who was a guest of the Marquette County Bar association on the occasion of its banquet last week, is now chief justice of the supreme bench, having just displaced Justice Hooker, who has entered on his new term, to which he was elected last spring, and who is now at the foot of the list again.

Andrew Carnegie has found something to do with his money which will, of course, cause the steel workmen of the Carnegie company to bless him. He has set aside \$4,000,000 as a perpetual fund to aid those injured at the works and for the benefit of the heirs of men killed in the service of the company.

State Game Warden Chapman, of the Soo, broke a record for his office in December, collecting the largest amount in fines ever collected in any single month. The total of these penalties was \$1,557. The game warden reports that there were many violations of the law governing the closed season for commercial fishing, but the heavy December storms prevented arrests that would otherwise have been made.

Marquette will improve its municipal electric lighting plant, adding new and newer machinery. It would be interesting to know what the total outlay on this plant has been since its starting. There has been considerable said about what it has accomplished for the taxpayers, but we would like to know the real cost, with credits from other funds, etc. We are told the total would show a great expenditure. It should be brought out in the interest of the municipal lighting subject—Iron Ore.

All good things come high, and if complete figures on the lighting plant here were available it would be interesting to see what the taxpayer has not escaped unscathed. Municipal service in public utilities is generally more expensive than private service. Marquette taxpayers can draw from unusually cheap electric light and cheap gas, the latter resulting from the hard competition.

The Lake Marine Review and Marine Record says of the lake labor situation: "All of the elements subsidiary to the operation of lake vessels, that is masters and mates, engineers, wheelmen, watchmen, stewards and firemen, are getting their affairs into shape so that each may have a definite program and plan of action when the time comes for taking up the matter of contracts with the Lake Carriers' association if that body is itself strong enough in another year to act for the great bulk of the vessel owners. Of course most of the vessel owners are now saying that they are not borrowing trouble as yet on the score of their dealings with labor, as the outlook for another season's business is such that a long delay in starting would not be at all surprising and might be welcomed from the standpoint of better freight prospects in a short season.

In union circles difficulties with the owners are not looked for, as no radical demands are talked of. While it looked, indeed, a few months back as though the masters and engineers would clash on the question of recognition, the situation now, dictated very largely by the state of industry, has completely changed. Sober counsels will probably prevail in the different organizations representing the men that operate the vessels. It is well known that the trouble between the masters and mates and the Pittsburgh Steamship company was brewed on shore, while many of the older and cooler heads were sailing. There is a movement now on foot to

There has been a flurry all over the country to inspect theaters and to have made such changes as, compatible with the construction of different buildings, will assure, at a reasonable outlay, the greater safety of the public. All theaters that are not fireproof cannot be condemned, and anyway fireproof theaters seems as dangerous as the other kind, but it can be seen that all exits are in good condition, that there are standpipes in working order and that other fire fighting devices and trained firemen are kept in the houses whenever performances are on. The improvement that the Iroquois disaster will lead to will mean an expenditure of many hundreds of thousands of dollars, particularly in Chicago, and will obtain for the public a much greater degree of safety than has been enjoyed at any time in late years. The fresher the memory of the Iroquois holocaust remains in people's minds the less danger there will be of its repetition. Trouble comes when public and managers allow themselves to be lulled into a feeling of false security.

John H. McLean will be presented by his Gogebic county friends to the convention that will shortly assemble in this congressional district as a candidate for district delegate to the national Republican convention to be held in Chicago in June. Mr. McLean's name had been suggested in connection with one of the four places as delegate at large, but he modestly believes that there are other men better entitled to this honor and he prefers to seek selection in his own district. Mr. McLean, for twenty years, has been one of the most energetic and active Republicans in his county and in the upper peninsula. He has been a hard and consistent worker in the interests of the party, and at the same time his demands on it have been unusually small. His selection as a district delegate, now that he seeks the favor of the convention, would be an honor worthily bestowed and richly earned. He has pledges of general support in his own county, Gogebic, and the suggestion of his name has been well received in other parts of the upper peninsula. Judging from the warmth of the favorable expression he stands an excellent opportunity of having his desire gratified. The Mining Journal takes great pleasure in endorsing him for the choice as one of the delegates.

Imports of iron and steel are the largest items of Mexican trade with the United States, and they increased most in the decade 1892-1902, United States Consul Leroy, Durango, Mexico. Machinery alone jumped from \$1,500,000 in 1892 to over \$7,000,000 in 1903. Our sales in these items, responding to Mexico's industrial development, will likely continue to increase, but it may be doubted if they will gain relatively as they have in the past ten years. It will not do to overlook the establishment of such concerns as the Mexican iron and steel plant near the "Iron Mountain" at Durango, the very large new steel plant at Matamoros, and the smelters at Torreon and elsewhere. We cannot expect to continue to take Mexico's raw material, principally mineral products, behind a tariff barrier, and return them to her as finished products—at least in anything like the proportion that has of late ruled in this trade. It is inevitable that a country waking to life as this country is should both learn from us and turn our conditions to her own advantage. The establishment of industrial concerns such as cotton mills, shoe factories, etc., goes along with and stimulates an economic and social advancement and increases the call upon the United States for machinery; but the internal advancement in its turn leads the country, newly dependent on the outside world for more highly finished products, to seek to become again self supporting. As the railroads open up the country more and more, smelters increase both in size and number, a movement stimulated of late by the disposition of the Guggenheims to build up

tin ore at last—PERHAPS. According to information obtained from the United States geological survey a monograph is shortly to be issued by the survey giving an account of what it has discovered in the way of tin in Alaska. Previous "discoveries" of tin in North America and what followed tend to cause distrust as to the real value of the present alleged find, but this time the geological survey is responsible both for the first announcement and for the actual discovery.

For a long series of years there has been persistent search for tin ores on this continent, but without practical success. Many years ago an explorer brought to the Sault a number of specimens of tin ore which he claimed to have dug out on the north shore of Lake Superior. Close investigation of his story threw doubts on its truth and examination of the ore by an expert proved it a Cornish product. That claim was followed up and evidence obtained of bags of ore having been taken up through the Sault canal some time before being brought down to the Sault from the "mine."

When the tariff on tin plate was in controversy a discovery of tin was opportunely made in the Black Hills. Elaborate accounts were published of the extensive mining going on and the large output of tin. When the tariff fight ended the tin mine disappeared. If there ever was tin there it seemed to have been in quantity or character that did not pay to work the lode. From time to time there have been reports of discoveries of tin north and south, east and west, but nothing came of them. The "tinstone" turned out to be something else. The geological survey has had nothing to do with these "discoveries" beyond announcing their illusory character. Now, according to report in Washington, it is about to proclaim its own success in finding tin, and that where it was least likely to be discovered.

Stream or placers tin was found in the Nome region of Alaska in 1900 by Alfred H. Brooks, assistant geologist of the survey carried on in the territory by order of congress. Heavy black stones among the placer gold had been thrown aside by the miners. Mr. Brooks analysed some of the stones and pronounced them a very rich tin ore. The quantity being small, it was scarcely worth mining. Search for the parent lode proved unavailing.

Later last year another geologist of the survey, Arthur J. Collier, was closing up his work for the season when a piece of tourmaline was brought in for examination. Imbedded in it was a black stone from which, on a blow pipe test, was obtained a globule of pure tin. Mr. Collier immediately left for the place whence it had been brought, and found a ledge of tin stone at a point fifteen miles east of York, on a branch of Lost River. It is about 100 miles northwest of Nome, almost on the Arctic ocean, and almost in sight of Siberia. From its location it is improbable the

United Copper. The syndicate ownership in United Copper will be dissolved, it is understood, and the Amalgamated people will be permitted to quote United Copper as low as they please.

IN DEFENSE OF COPPER RANGE. A large holder of Copper Range stock says: "The publication of lengthy statements showing that the Trimountain was running as low as twenty pounds to the ton and that the new Copper Range smelter was to be a failure on account of arsenic in the South Range properties is a good illustration of the means that are being employed to induce Copper Range stockholders to sell their stock that agents may buy the same for the Standard Oil crowd, who over sixty days ago entered into an agreement to exchange Amalgamated stock share for share any time before July. There are four simple answers to these statements: "First—At the time of the consolidation of Copper Range and Trimountain the Standard Oil crowd owned 72,000 shares of Trimountain and 55,000 shares of Copper Range, and they entered into an agreement with the Trime-Stanton people, and it was deposited, and therefore not a share could have been sold. "Second—The one man over all others who knows the Trimountain mine is H.

COPPER MARKET. Walker stays in his weekly copper letter: Domestic consumers have begun to make inquiries for lots of copper deliverable in January and February, and prices are standing unyieldingly for higher prices. None of them have any surplus worthy the name, and they all know that the demand this month will be large enough to clean the market of everything in sight. The foreign market has halted itself. The foreign market has halted itself. The foreign market has halted itself.

MINING GOSSIP. Schaw's mineral output for December was 319 tons. The Franklin produced 361 tons of mineral during December. Atlantic's product in December aggregated 336 tons, 680 pounds. The mineral output of the Wolverine for December was 508 tons, 1,575 pounds. Copper was higher in London yesterday, advancing 4 1/2 to 4 3/4, 25, 64, with spot quoted at 458, 28, 64 and futures at 457, 12 1/2, 64. At New York copper was firm and was held a little higher. Lake is now quoted by the metal exchange at 12.37 1/2 to 12.75, electrolytic at 12.25 to 12.50 and casting at 12.12 1/2 to 12.37 1/2. Complaint is made that the Boston News Bureau persistently states the Baltic output at twenty-two pounds of copper per ton of rock when twenty-three pounds is claimed by the Copper Range people. The Boston News Bureau will now state, even at the risk of again being disputed from the official Copper Range channels, that the Baltic output is now under twenty-two pounds of copper per ton of rock. The last report is 21.4 pounds.—Boston News Bureau. Exports of copper for the month of December were on an extremely heavy scale, being the largest of any month of the year, due principally to the demand for electrolytic, which was bought in large quantities on account of the heavy selling of standard copper abroad. The former could be purchased here at a large concession and standard sold abroad against it at a high figure. An excellent opportunity was thus given for arbitrage business. The December exports figure about 17,000 tons. This compares with 14,222 tons in November and 10,751 tons for December, 1902. The total exports for the year will figure out about 139,503 tons, against 164,206 tons in 1902. A VERY CLOSE CALL. "I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Ely's Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by The Stafford Drug Co. Price 50 cents. JUST ONE MINUTE. One Minute Cough Cure gives relief in one minute because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Sold by The Stafford Drug Co., Marquette; H. N. Meloeche, Ishpeming. Terrible plagues, those itching, pestering diseases of the skin. Put an end to misery. Doan's Ointment cures. At any drug store.

NEGOTIATIONS ARE ON.
Soo Hockey Team May Play Portage Lake Here Next Week.

The managements of the Portage Lake and American Soo hockey teams are negotiating for games and the prospects for an interesting series of contests between the seven are now brighter than at any other time during the season. The only difference at present is in regard to the dates, but it is expected that the matter can be compromised in some satisfactory manner. The long distance telephone wire between Houghton and the Soo was kept busy yesterday forenoon in an effort to arrive at a definite understanding then and there, but the matter was put off for further consideration by the people at the other end of the line. An answer one way or the other is expected at any time. The Soo has consented to come to Houghton for the first game, as demanded by the local management, and they have the promise of early return games. The only dates that could possibly be arranged yesterday for the Soo games in Houghton are Jan. 8 and 9—Friday and Saturday evening of this week—the schedule of the local team is pretty well filled up. The Soo has a game for Friday evening, but as it is thought to be with the Canadian Soos it is believed that contest can be easily postponed. The idea of the local management in arranging games is not to bunch them by fours or more, as the work is too hard on the players. The Soo management promised yesterday to come for the 8th and 9th if possible, and if it can do so return games at the Soo probably will be arranged for Jan. 22 and 23. The games will be returned earlier if possible, but the schedule is pretty well taken up until that time. Unless the Soos can come for Friday and Saturday of this week it is questionable whether the two teams will meet this season, unless Portage Lake can arrange for games later on. From now on the games will come fast and at short intervals apart. Local hockeyites are well pleased with the prospects for matches with the Soo and will be sorely disappointed if they are not arranged. It is believed that the games would draw larger than any others.

It is reported in Houghton that the Soo management has been busy of late in its efforts to get an extra man or two to strengthen its forward line. It has one extra player at present, but no doubt feels that one or two more would not be a burden, especially when games with Portage Lake are now about to be arranged. Portage Lake is handicapped in respect to extra men. It is without a single spare player, and if one can be secured that step likely will be taken by the management. At present if one of the men is injured there is nobody to take his place. Later—the Portage Lake management has been informed the Soos cannot come to Copperdome this week, but that the Lock City seven will play at Houghton on the 15th and 16th. This reply has developed the plans of the local team and it is not known just what will be the result. The Portage Lakes have matches booked for the 15th and 16th with the Keystone seven and it is not desired to so closely bunch the games as would be the case with the Soos here on the 15th and 16th. The Keystone seven has been wired, however, asking if the games can be transferred to the 8th and 9th, and if the answer is favorable the Soos will be taken on for the dates requested by the Lock City management, otherwise contests at that time are problematical. It is hoped the Pittsburgh seven will consent to play here this week, and strong representations have been made in the connection.

OPPOSITION PLAN FAILS.
All but Two Stores at Portage Lake Close Their Doors Early.
The movement instituted by two Houghton merchants opposed to the early closing agreement, which went into effect last night, has fallen flat. The merchants in question endeavored to rally others to their standard, but their efforts failed. The clerks heard of the movement before it had progressed very far and they took immediate steps in the way of opposing it. Not another merchant outside of the two in question would withdraw from the agreement.

PROVES A SECOND-RATER.
Wrestler Jack Tippett Was Easy for Ole Olson of Calumet.
Local lovers of the Cornish wrestling game do not think very much of the prowess of "Jack" Tippett, the Calumet man who came to the copper country a few months ago ready to challenge almost any copperdome man to a tussle with the jackets. He was easily defeated by Ole Olson of Calumet in an Italian hall this Saturday night. Several hundred persons were present, attracted by what each one of them thought would be a very clever and strong match, but all who attended were disappointed. Not much was known of Tippett's ability as a wrestler before the bout. Now it is not likely that he would attract a baker's dozen if he wrestles again in this section. He did considerable talking before his match with Olson was arranged and every local man interested in the sport naturally thought he was a dangerous adversary. Olson is not considered a first-rater and that makes Tippett's defeat all the more humiliating for him. Olson has been wrestling for two or three years and has not yet learned all the tricks of the game. There are several others in Calumet better than he, but nevertheless Olson was too much for Tippett. He has a mill at the forge to the front and it is believed the time is not far distant when he will be able to hold his own with the best of the men in the heavyweight class. He never lets up in his training and is wrestling almost all the time.

OVER THREE FEET OF SNOW.
According to the report for December just issued by Weather Observer R. B. Harkness at Houghton, there were thirty-seven inches of snow on the ground on Dec. 31. On Dec. 15 there were 24.8 inches. There were only three clear days during the month. Three were partly cloudy, while twenty were cloudy. The lowest temperature for the month was nine degrees below zero, on Dec. 13. The highest temperature was 34 above, on Dec. 19. The mean temperature was 17. The lowest it has been in December in four years. The wind blew strongly during the month and there was plenty of it. Its prevailing direction was northwest, while its total movement was 5,561 miles. The maximum velocity was twenty-five miles an hour from the north-west on Dec. 13. It was the lowest temperature for the month.

METHODIST PREACHERS MEET.
The Copper Country Methodist Preachers' association held its regular monthly meeting at the Calumet M. E. church yesterday. The members and their ladies were the guests of Rev. and Mrs. W. B. Coombe. An interesting program occupied most of the morning, after which dinner was served at the Calumet hotel. Rev. A. R. Johns of the Hancock M. E. church read a paper on "The Gospel of St. John: Its Authenticity," which was followed by a discussion. Another paper on the subject, "The Parable: Its Place in the Gospel Teaching of Today," was read by Rev. R. Hancock, which also was followed by a discussion.

WONDERFUL NERVE.
Is displayed by many a man enduring pains of accidental cuts, wounds, bruises, burns, scalds, sore feet or stiff joints. But there's no need for it. Bucken's Arnica Salve will kill the pain and cure the trouble. It's the best Salve on earth for Piles, too. 25c at The Stafford Drug Co.'s store.

A VEST-POCKET DOCTOR.
Never in the way, no trouble to carry, easy to take, pleasant and never failing in results are DeWitt's Little Early Risers. A vial of these little pills in the vest-pocket is a certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation. They tone and strengthen the liver. Sold by The Stafford Drug Co.; H. N. Meloche, Ishpeming.

HAD PREVIOUS ENGAGEMENT.

Ex-Gov. Hoard Not to Address the Agricultural Society.
Ira E. Randall of Houghton, secretary of the Houghton County Agricultural Society, was notified by letter yesterday that ex-Governor Hoard of Fort Atkinson, Wis., could not accept the invitation of the society to address the annual meeting to be held on Jan. 13. Mr. Hoard stated that he already had accepted an invitation to go to New England and that he necessarily would have to postpone his trip to the copper country to some other time. Mr. Randall and the other officers of the society are disappointed, but an effort will be made to get some other well-known agriculturalist to come in Mr. Hoard's stead. Mr. Randall has written to the local cultural college for its assistance in the matter. It is expected that the college will suggest some speaker of note who can be secured. The program for the meeting will not be arranged until the speaker is decided upon. It is the intention of the society to make the 13th a rally day for all those interested in the welfare of agriculture in Houghton county. The officers of the society are not superstitious of the date and they look forward to a big attendance.

NOW COMPRISES SIX TEAMS.
Houghton Bowling League Reorganized—Starts Play Next Week.
The Houghton Bowling league has been reorganized. The Antiques have dropped out, but three new teams have been added, making the total number of teams six. A regular schedule of games, the first of which will be played next Monday evening, will be arranged today. The teams are the following: Honnes, Bankers, Businessmen, Electricians and Silvers. All games will be played on the Dee alleys, and three series will be played each week—Monday, Tuesday and Wednesday evening. Each team is composed of experienced bowlers and interesting and close games are anticipated. Before the holidays the Honnes team won the championship, but a closer race for the honors is expected in the schedule to be arranged.

AT THE KERREDGE.
Two attractions will hold the boards at the Kerredge theater, at Hancock, this week. "The Little Christian" will be presented tomorrow evening, and on Thursday evening "The Chaparons," the well-known operatic comedy, will be seen. The latter production is one of the best on the road today. It jumps from Duluth to the copper country, and from here goes to Chicago, Ishpeming, where it stops off Friday night.

COPPERDOME BREVIETTES.
Mr. and Mrs. A. R. Gray of Houghton left on Sunday for Chicago.
C. D. Sheldon of Houghton left Sunday afternoon for a business trip to Chicago.
Silvert Olson and family of Calumet will leave this week for Phoenix, Arizona, via Ishpeming. They expect to return in June.

This is a week of prayer at the Hancock M. E. church. Addressing the pastor and other clergymen will be given each evening.
Seth Mickelton of Houghton won the ten-dollar prize offered by the Dee Bowling alleys for the highest score made during December. His record was 239.

Miss Miriam Rees of Houghton and Miss Hubbard of Painesdale left Sunday afternoon for Bryn Mawr. They spent the holiday vacation with their parents.
The Houghton County Medical society held a regular meeting in the Hancock city hall last evening. Dr. A. J. Maas reported on a case and Dr. I. Lawbaugh read a paper on "The Diagnosis of Diseases of the Head."

John M. Wagner, purchasing agent for the Copper Range Consolidated company, has been in the city. He spent the holiday vacation with their parents.
The Houghton County Medical society held a regular meeting in the Hancock city hall last evening. Dr. A. J. Maas reported on a case and Dr. I. Lawbaugh read a paper on "The Diagnosis of Diseases of the Head."

John St. Antoine of Redbridge has challenged Goltieb Messner of Atlantic to a race in which St. Antoine says he will run four laps while Messner skates five and a half the race to take place in any rink in the county. St. Antoine will race for a purse of \$25.
The St. Paul train now leaves Calumet at 3:58 o'clock in the afternoon, two minutes earlier than formerly. The extra Sunday trains on the Mineral Range road between Houghton and Calumet have been taken off and hereafter there will only the regular trains between the towns.

CONGRATULATIONS.
Mr. John H. Cullom, editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. It has cured my children and given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. Congratulations to you upon the success of your remedy." For sale by The Stafford Drug Co., Marquette; J. M. Perkins, Negaunee; Henry Harwood, Ishpeming.

HOMESEEEKERS' EXCURSIONS
Chicago, Milwaukee & St. Paul Railway, at Very Low Rates.
On the first and third Tuesday of each month, December to April, 1904, inclusive, round trip tickets good for twenty-one days to points West, and Southwest for about one fare. For full particulars regarding rates, territory, etc., inquire H. E. STEWART, C. A., Phone, 339. Houghton, Mich. (12-1-14)

Upper Peninsula.

Every Bone Broken—
John Retondi, an Italian, while in a crazy fit, ended his life by jumping into the pit of the Mikado mine, at Wakefield, his body being frightfully smashed where it landed, six hundred feet below the surface. Every bone was broken.

New Postmaster Appointed—
On the recommendation of Congressman Young, George Watson has been appointed postmaster at Pickford, Chippewa county, in place of A. H. Taylor, whose term has expired. Mr. Watson is old resident and his selection meets with general approval.

First Illness in 20 Years—
Officer Jacobor Manistiquie, through exposure one night recently, had his face frost-bitten, and as a result erysipelas has set in. This is the first time that he has ever been confined to his bed on account of illness, and during the twenty years that he has been on the local police force he has not lost a day on account of illness.

An Expensive Spot—
The Chicago & Northwestern railroad has a big crew at work filling up the sink hole at Beacom's lake, below the Watersmeet, Gogebic county. This is an expensive spot to the railroad company, as every year it has to be refilled and holes are never reached. This time some 50,000 yards of dirt will be dumped in. A temporary track on corduroy road over ice and frozen ground is being used for traffic.

Former Editor a Priest—
The Rev. D. S. Benedict, who was recently ordained as a priest in the Episcopal church by Bishop Williams, in St. Ignace, the Rev. Benedict was formerly engaged for a number of years in newspaper work in Wisconsin. He has at various times been editor and publisher of several papers, including the Iola Herald, the Lodi Enterprise and the Augusta Eagle.

Ordered from Church by Priest—
Andrew Gniotowski, proprietor of the Grand Avenue Hotel at Menominee, was ordered out of the local Polish church at high mass New Year's morning by Rev. Father Papon, the pastor, and this action has renewed a feud which has existed for some months. Chief of Police A. P. English was called to the church but he failed to find where any one had misbehaved or where he had any authority to interfere. Gniotowski, who was one of the organizers of the church and has contributed largely to its support, alleges that the action of the priest was entirely unprovoked and he is at a loss to explain it. He threatens to resort to the law, alleging that the priest used libelous language, calling him a "big pig," a "murderer," a "thief," and the like. Gniotowski declined to obey the order to leave the church, and when the chief of police refused to interfere, the services were dismissed.

Early Closing Agreement—
The agreement between the merchants of Menominee and the Clerks union regarding early closing hours has gone into effect. From now on every Monday, Wednesday and Friday night all of the stores of any consequence will close at 10 o'clock p. m. On Tuesdays and Thursdays they will close at 10 o'clock and on Saturdays they will close at 10 o'clock. The most difficult question to decide was the matter of Sunday closing. Heretofore the merchants have been in the habit of keeping their doors open Sunday mornings and, it is claimed, there was one or more who did not care to discontinue this practice. Most of them, however, were in favor of closing altogether on that day and the clerks were unanimously in favor of it. All of the merchants have now agreed to close on Sundays and the officers of the Clerks' union say that they intend to see that the agreement is lived up to. There is a state law prohibiting stores, as well as saloons, from keeping open Sundays.

Handles Much Lumber—
During the past season the Edward Hines Lumber company has handled about 7,000,000 feet of lumber on the Menominee river, as well as over a hundred million feet being the heaviest buyers in that section of the country. The company secured the cuts of the H. Whitbeck mill and two of the N. Ludington company mills. These mills manufacture upwards of 65,000,000 feet of lumber. It is estimated that the Hines company the past year handled about 300,000,000 feet of lumber, more than than any other corporation in the country. The Hines company is handling the cuts of several mills at West Superior and other Wisconsin cities. It owns several hundred million feet of standing timber, which will keep some of these mills stocked for several years more. The company was exceedingly fortunate in shipping most of its lumber on the Menominee river. It sold the greater portion of the cut of the H. Whitbeck mill to the W. H. Sawyer Lumber company, Buffalo, and without turning a hand or taking any financial chance, cleaned up two dollars a thousand on that stock alone. It is expected that the Hines company will secure the cut of the N. Ludington company mills, again next season.

Stole a Valuable Bracelet—
A boy seven years of age last week committed one of the most daring robberies that has occurred at Escanaba in some time, and he got away with a richer prize than he did the men who looted the postoffice. He was apprehended, but on account of the extreme youth of the lad the proceedings against him were dropped, the booty being recovered. The stolen article was a valuable bracelet, taken from the American Express company's sleigh while the delivery man was delivering some goods. A passer-by saw a small boy enter the sleigh and look into the wagon. Suddenly the lad jumped on the sleigh, which was almost filled with packages, and seizing a small bundle jumped off again and started up street at full speed. The man who had witnessed the steal immediately informed the press messenger of the occurrence, but at first it was thought that the boy had not really taken anything. A checking

up of the packages on hand, however, showed that the most valuable package was missing. It was addressed to Mrs. Dufraisse and was valued at between three hundred and four hundred dollars. Sheriff Roberts was informed of the occurrence and started a thorough investigation. A description of the little fellow was obtained and Mr. Roberts found him after half a day's work.

Liquor Law Question—
Can a retail liquor dealer holding the necessary legal licenses for certain specified premises in the city of Iron Mountain solicit business through agents and deliver goods in other sections of the county? That is the question which Judge Stone will be called upon to decide at the present term of the Dickinson county circuit court. The persons the most interested in the case are the members of the firm of A. Kramer & Co., August Williams, who had been employed by the Kramer firm to solicit orders and deliver spirituous liquors, was arrested while pursuing his regular duties in the town of Norway. It is charged that at the time he was taken into custody, Williams was selling liquor without a license. Upon being arraigned before Justice Patenaude of Norway, Williams waived examination and was released on bail furnished by M. Kramer. The Kramer firm of the firm of A. Kramer & Co. assert that the duties of Williams were merely those of an agent, taking orders and then delivering the goods. All goods it is stated, were delivered in the original package as prepared in the Iron Mountain store, and the insinuations that any "single drinks" were sold by the agent are denounced by the firm as malicious and without the slightest foundation. In explanation, Mr. Kramer states the best explanation to admit that prospective customers were permitted to "sample" the goods they intended to buy, but stated that all the "sample" stuff was carried in small phials, and that the "samples" were given a very minute quantity of the liquid, merely enough to give him an idea of the flavor of the liquor he might contemplate purchasing.

Liabilities Heavy—
At the meeting of the creditors of the Federal Leather company held before R. O. Pearl of Marquette, referee in bankruptcy, at Manistiquie last week, a large number of claims were presented. Several propositions were made and more or less fully discussed, considerable argument pro and con being had over the status of the claims of the parties from whom hides were purchased, these claims being largely represented by trust receipts and title notes, by the terms of which the hides remained in vendors until paid for. It may be necessary to have the validity of these decided by the courts. A resolution was offered and adopted, advising the trustee to sell the plant, at the earliest date possible, without sacrificing the interests of the creditors. I. M. Bushong, president of the Northwestern Coupage company, of Gladstone was the choice of the creditors, and was appointed trustee, under bonds of \$50,000. An adjourned meeting was appointed for Feb. 9 at Marquette, for the purpose of taking evidence in support of claims. The Marquette County Savings bank was designated as the depository of funds by the trustee. Receivers Bushong and Orr filed a statement of assets and liabilities, as follows:

Assets 32 40-100 acre land, buildings and machinery	\$ 62,500.00
Material	1,433.00
Tools and Impls.	290.00
Office furniture and fixtures	200.00
Bark	32,356.00
Leather and Hides	60,272.00
Accts. Rec. and Cash	38,641.23
Total	\$149,922.71
Liabilities	\$149,922.71
This includes C. L. mortgage and bank claim amounting to \$78,101.85. The balance is made up of trust receipts.	
Bills payable unsecured	\$ 46,679.54
Estimate shortage on hides and leather	25,000.00
Accts payable unsecured	23,700.75
Receiver Bills	3,332.16
Total	\$149,922.71

Over-Work Weakens Your Kidneys.
Unhealthy Kidneys Make Impure Blood.
All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers; they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.
Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.
It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.
If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar packages. You may have a sample bottle by mail. Write for it. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

CHURCHES ALONE ARE NOT AFFECTED

ALL OTHER PUBLIC MEETING PLACES IN CHICAGO ARE CLOSED BY CITY OFFICIALS.

NUMBER UPWARDS OF 400

REQUEST OF THE THEATER MANAGERS IS REFUSED.

Doors of the Playhouses Cannot Be Opened Until the Law Is Fully Met—Further Evidence of Violations of the Iroquois.

Chicago, Jan. 4.—After tonight it will for some weeks at least be practically impossible to hold public meetings in the churches, outside of in the churches. Building Commissioner Williams tonight issued an order closing all public halls, dance halls and taverns and all similar places of public assembly until an inspection has shown that they are complying with all the provisions of the building ordinances.

There are upwards of 400 public halls in Chicago having a seating capacity of from fifty to 500 each. Protests are numerous, but the building commissioner is inflexible. The sole exemption is in favor of private lodge halls, which do not fall within the scope of the order.

Theater Managers' Petition Refused. Mayor Harrison and the seven aldermen who have been appointed members of a council committee to consider legislation in relation to theaters met this afternoon with the theater managers. The request of the managers for permission to open their houses if they agree not to seat above the lower tier was refused. They were informed that all places must remain closed until the law is fully met.

This afternoon the attorneys for the fire department secured from five witnesses a corroborated of the charges that the wrecking crew of the George A. Fuller company had destroyed the skylight at the Iroquois the day after the fire. Inspector Tulerson said today that it was the intention that these skylights should open automatically to allow the escape of heat and smoke upwards, instead of over the audience, but that he is positive the opening of the Iroquois skylight was impossible because beneath each section of the light were pieces of scumming which rendered them until removed by employees of the Fuller Construction company Thursday afternoon.

Standing Room Sold. The statement of Messrs. Davis and Powers, managers of the theater, that the house was not filled at the time of the fire was fully contradicted this afternoon by Mayor Pryor of the Blue-Island company, who estimates that nearly 100 tickets were sold after the theater was entirely filled.

George M. Dusenberry, chief usher, was arrested today on the charge of manslaughter, based on statements of many people that the ushers closed the doors and at first refused to allow the people to pass out.

The council tonight approved the course of the mayor in closing the theaters and halls and all action following the recent theater fire. It also referred to a special commission an ordinance calculated to insure greater safety in places of public amusement.

COMMUNICATED.

To the Editor of The Mining Journal:—In your issue of this date your inquiry pleased to note the interest you have taken in the matter of safety of life in our home theater. But one particular criticism has been made, which to my mind is well founded and should be speedily corrected. That is, the time your inquirer attended our home theater, after the people had been seated, crowds from the rear of the balcony were allowed to stand in the aisles, and, in fact, to sit down in them in such a manner as to completely choke them up. I should like to inquire, then, of what use doors, fire escapes, and other means of egress on the walls of the building are, if people are allowed to occupy these aisles and thus cut off the means of egress from the seats? It is well enough to talk of "reasonable" crowds, when every person who has had experience in stampedes, especially where there were fainting women to be feared, would tell you that there is no such thing as a "reasonable" crowd in cases of a stampede. It has been and probably always will be a "maddened" crowd under such circumstances. If the Iroquois horror of Chicago has taught the people anything, it is that their lives are worth more than any show, and they should be particular to see that in case of any accident which causes a rush for the doors the means of reaching those doors should not be blocked by people to whom "standing room" has been sold. Will the horrible lesson of Chicago be heeded by our people, or in a short time will one or two persons be allowed to stand in the aisles, next time a half dozen and finally the lesson forgotten altogether, and the aisles choked up as usual? Let us see, Respectfully,

A SUBSCRIBER, Marquette, Mich., Jan. 4, 1904.

BOSTON STOCK SALES.

The following were the transactions in spot stocks on the Boston exchange yesterday as furnished to The Mining Journal by Faine, Webber & Co., Advertisers:—

Dr. Weaver's Treatment. Syrup for the blood; Cereate for skin eruptions.

STOCKS GO UP, THEN DOWN.

War News Still an Influence on Prices in Wall Street.

New York, Jan. 4.—Today's stock market was much less subject to the influence of war news than on Saturday, feeling being somewhat better than the prospective outbreak of war between Russia and Japan might be overhauling the market had something to do with the sharp reaction from the early bulge. But the influence of the war news was again largely lacking in the reaction, as London renewed its selling on the advance here and Japanese bonds in London did not hold all of their first gain.

The recovery of the first hour were quiet violent in some cases, and were quite generally as much as 1 to 2 points. All but a small portion of these gains were lost in the second hour. The drop of prices was not checked by the market's recovery of the call money market and the progressive easing of call loans during the day. This development robbed the bank statement of its unfavorable influence and pointed to the conclusion that the \$16,000,000 loan increase was largely due to the annual interest and dividend requirements, such as would soon be released to the market again. The satisfactory outlook in the money market was a factor in the final market of the stock market, which left a fair showing of net gains at the end of the day.

Heavy corporation borrowings are still counted upon, but the reflex of funds from the interior is looked to to replenish the local bank reserves. United States Steel preferred was the leading feature in the speculation, owing to the dividend meeting to be held tomorrow. Much interest is felt also on the showing to be made by the company in the showing of earnings for the quarter. The strength of the London market for raw copper was the only news that would account for the strength of Amalgamated Copper. The reopening of the Amalgamated mines after a ten days' shut-down was a help to the market. The railroad officials continue to report traffic well sustained and to speak hopefully of the prospects.

The market closed fairly steady, but very high as follows, Faine, Webber & Co. reporting the quotations:—

Table with columns for various stocks and their prices, including Wabash, Erie, and others.

Range of Money Rates.

Money on call, easier at 2 1/2 to 3 percent; closing bid and offered at 2 1/2 percent. Prime paper, 5 1/2 to 6 percent.

CHICAGO GRAIN MARKETS.

Chicago, Jan. 4.—There was a fair trade in wheat today, the market being somewhat better and more quiet later. The market at times was decidedly nervous and unsettled. The start was exceedingly weak, influenced by political news regarding the relations between Russia and Japan, the statistics on the export of wheat, and the fact that the market at times was decidedly nervous and unsettled.

Receipts and shipments were as follows:—

Table with columns for Receipts and Shipments for Wheat, Corn, and Oats.

Closing prices at Boston yesterday were as follows, Faine, Webber & Co. reporting the quotations:—

Table with columns for various copper stocks and their prices.

Years ago you never heard of appendicitis. Why? Because grandfather and grandmother used Hollister's Rocky Mountain Tea as a preventive. 35 cents, tea or tablets. Stafford Drug Co.

ATTACK POLICY OF ROOSEVELT

RICHARD OLNEY AND DAVID H. HILL ARE SPEAKERS AT BANQUET IN NEW YORK.

EX-PREMIER URGES HARMONY

MAKES REFERENCE TO CLEVELAND AS PROSPECTIVE CANDIDATE.

Occasion of the Speeches a Dinner in Honor of Mayor McClellan, Attended by Men Prominent in Both Factions of the Party.

New York, Jan. 4.—Democrats of prominence from the city, state and nation assembled here tonight at a dinner in honor of George B. McClellan, the newly elected mayor of New York city. Grover Cleveland, Judge Alton B. Parker, Senator Arthur B. Morgan of Maryland and Senator Morgan of Alabama sent letters of regret.

Mr. Cleveland's letter referred entirely to the government and New York city and the influence it will have on citizens throughout the country. He said the manner in which the Democracy of the city meets its responsibilities will determine the extent to which the people will be willing to trust the Democracy of the nation in broader fields of governmental reform.

The speakers included Mayor McClellan, Richard Olney, David H. Hill, General A. Montague Virginia, Charles A. Towne, and Congressman DeArmond. Mayor McClellan spoke briefly, urging the party to unite so that "we may restore the rule of the people in its true sense and insure to ourselves and posterity the blessings of liberty."

Ex-Secretary Olney's Address. Mr. Olney was the next speaker, saying in part:—

After an opening personal tribute to Mayor McClellan and the Democratic party, Mr. Olney declared that was a misfortune for the country that the Republican party had for seven years been in undisputed control of all departments of the government, and he considered the present gathering a good sign that there will be in the future a well organized and patriotic opposition.

Recounting what the Democratic party would stand for, he said that in matters of foreign policy it will stand for international morality and decent international conduct; for the observance of treaties and obedience to international law; for respect for the rights of small nations, however small; for refusal to take by stealth or by robbery what we have no right to get except by consent of the owners; for continuing our traditional role as the defender of the weaker states of the hemisphere instead of becoming their oppressor.

Mr. Olney was the next speaker, saying in part:—

PLAIN NOTICE TO COLOMBIA

CORRESPONDENCE MADE PUBLIC SHOWS WASHINGTON'S ATTITUDE MOST VIGOROUS.

INVASION WOULD MEAN WAR

WARNING IS GIVEN THAT PANAMA WILL BE PROTECTED.

Time Has Come, It Is Declared in Official Note to Gen. Reyes, to Close the Chapter of Bloody Revolutions on the Isthmus.

Washington, Jan. 4.—Accompanying the president's message today was the correspondence between General Reyes and Secretary Hay, General Reyes' first letter was dated Dec. 8. In it he inquired as to the attitude of the United States in the event of the landing of Colombian troops in Panama.

The feature of Secretary Hay's reply to the letter was his creation of General Reyes' inquiry. Secretary Hay said: "The government of the United States would regard with the gravest concern any invasion of the territory of Panama by Colombian troops for the reason that bloodshed and disorder would ensue, the whole of the isthmus, and for the broader reason that in the opinion of the president the time has come, in the interest of universal commerce and civilization, to close the chapter of sanguinary and ruinous civil war in Panama."

President's Course Debated. Panama Police Is Attacked and Defended by Senate Speakers.

Washington, Jan. 4.—Following the reading of the president's message this afternoon, Senator McClellan of Maryland began a discussion of the isthmian situation. He characterized the president's message as "a timely and abundantly convincing presentation of the situation." He was interrupted several times by Senators Morgan, Bacon, Tillman and others.

Morgan's Voice in Opposition. Senator Morgan opposed the position of the administration not, he said, on slight grounds but because he believed in the president's policy. He argued that according to precedents the de facto government of Panama has no right to transfer territory, but he declared the president knew that only by his recognition of Panama could he acquire a concession for the canal.

Investigation Demanded. Democratic Congressman Charges Bristow's Report Reflects Upon House.

Washington, Jan. 4.—With the reassembling of congress after the holiday recess, the chairman of the house in the opening session of the body prayed that war between Russia and Japan might be averted by the peaceful adjustment of their differences.

URGES TREATY BE RATIFIED

travesty on right and justice to treat the governments in possession of the isthmus as having the right, in the language of Mr. Cass, "to close the gates of intercourse on the great highways of the world, and justify the act by the pretension that these avenues of trade and travel belong to them and that they choose to shut them."

When this government submitted to Colombia the Hay-Herran treaty three things were, therefore, already settled. One was that the canal should be built. The time for delay, the time for permitting any government of anti-social spirit and of imperfect development to bar the work, was past.

Second. While it was settled that the canal should be built without unnecessary or improper delay, it was no less clearly shown to be our purpose to build it not merely in a spirit of justice but in a spirit of generosity with the people through whose land we might build it.

Third. Finally the congress definitely settled where the canal was to be built. It was provided that a treaty should be made for building the canal across the isthmus of Panama; and if, after reasonable time, it proved impossible to secure such a treaty, that then we should go to Nicaragua. The treaty has been made; for it needs no argument to show that the intent of the congress was to insure a canal across Panama, and that whether the republic granting the title was called New Granada, Colombia, or Panama, the intent was to build the canal there.

When in August it began to appear probable that the Colombian legislature would not ratify the treaty, it became a matter for me to consider well what the situation was and to be ready to advise the congress as to what were the various alternatives of action open to us. There were several possibilities.

One was that Colombia would at the last moment see the advisability of ratifying the treaty. That there might be nothing omitted, Secretary Hay, through the minister at Bogota, repeatedly warned Colombia that grave consequences might follow from her rejection of the treaty.

Second. While it was settled that the canal should be built without unnecessary or improper delay, it was no less clearly shown to be our purpose to build it not merely in a spirit of justice but in a spirit of generosity with the people through whose land we might build it.

Third. Finally the congress definitely settled where the canal was to be built. It was provided that a treaty should be made for building the canal across the isthmus of Panama; and if, after reasonable time, it proved impossible to secure such a treaty, that then we should go to Nicaragua.

Fourth. While it was settled that the canal should be built without unnecessary or improper delay, it was no less clearly shown to be our purpose to build it not merely in a spirit of justice but in a spirit of generosity with the people through whose land we might build it.

Fifth. Finally the congress definitely settled where the canal was to be built. It was provided that a treaty should be made for building the canal across the isthmus of Panama; and if, after reasonable time, it proved impossible to secure such a treaty, that then we should go to Nicaragua.

INSPECTED THE THEATER.

Fire Warden Devine and Chief Lacey Went Through New Playhouse.

Inspection of theaters is quite the order all through the country since the recent horror in Chicago. It is well that such steps are taken, as there will doubtless be found many fire traps among the playhouses, especially in some of the smaller towns, where "town halls" are used for the production of plays.

Fire Warden P. H. Devine and Chief John Lacey of the fire department spent an hour or more in the Ishpeming theater yesterday, thoroughly inspecting the house. Later in the day Insurance Inspector T. D. Hall of Negaunee paid the house a visit.

The building committee of the theater had arranged to extend a water pipe from the alley at the rear to the basement and stage. The work on this will be started today and will be completed within a day or two. From this pipe there will be six water plugs, two in the basement, where most of the dressing rooms are located, and four on the stage. Two of the latter will be on the floor level, one on either side, and the other two will be in the fly gallery. To some who are not familiar with the stage, the fly gallery hose may seem useless. Speaking of this yesterday one gentleman asked the manager what good a hose would do so far up, with no one to turn on the water in case of fire. He was informed that from three to six men work in the flies at every performance.

Those racks of the latest design will be put in. They will be built in shelf fashion, so that the water can be turned on as soon as a man takes hold of the nozzle. The reel process is not considered as desirable as the shelves. Each line of hose will be fifty feet in length.

An alarm system, extending from the theater to the main engine house of the fire department, will also be installed.

It is the opinion of all who have examined the theater that there are ample exits. There are two large double doors leading from the stage to the alleys, one on the east and one on the west. The fire escapes on the east side are easily opened. They are fastened with very light straps and can be pushed open by a child. All the doors in the theater open out, so that in case of a rush none of them can be blocked.

The local officials, also Mr. Hall, were well pleased with the general arrangement of the theater. Mr. Hall's suggestions regarding the water plugs will be carried out. He seems most interested in now being made by Superintendent Pearce, of the electric light company, in the stage circuits.

The exit arrangements of the playhouse could not be very well improved. With two big exits from the stage and six from the body of the house, the theater could be emptied in a very short time.

A TALENTED YOUNGSTER.

Master Georgie, appearing here with "The Man from Sweden" tonight at the Ishpeming theater has a reputation that he may well feel proud of. A mere child, he can put to shame many of his elders in the theatrical profession. He has had the pleasure of being admired by the president of the United States, and applauded by the largest and best city audiences. The youngster is not only a born actor, but sings well, his singing especially being one of the big hits of the show. For the past few seasons he retired from the stage while attending the New York Normal school. So great has been the success of the child that he has played several European engagements under a wellknown management.

OLD-TIMER RETURNS.

Thomas Cassin of Manitow, Canada, dropped in on his brothers, Michael and John Cassin, giving them a complete surprise, Saturday. He had been at Rhineland, Wis., attending the funeral of his brother-in-law, and after reaching there decided to come to Ishpeming. Mr. Cassin was one of the early settlers in this city. He left here twenty-nine years ago. His brothers had not seen him since he left here.

HEARING POSTPONED.

The hearing in the case of William Dobbs against Dr. H. N. Meloche has been postponed one week. Mr. Meloche's attorney, M. H. Crocker, appeared before Justice Hans Gunderson yesterday and asked for an adjournment, stating that he was not ready to proceed with the case.

DOMESTIC TROUBLES.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around. Much trouble they save by their great work in stomach and liver troubles. They not only relieve you, but cure. 25c, at The Stafford Drug Co.'s store.

BOWLING ALLEYS.

Will Be Ready for Business at Old Opera House in Two Weeks.

The bowling alleys being installed in the old opera house are fast nearing completion. J. Wahlman & Son have several carpenters at work overhauling the room and laying the alley floors. The floors come in sections and the surface is as smooth as glass. The alleys will be opened for business in about two weeks.

Mr. Bowsher, the proprietor, is here superintending the work. Four alleys are being put in. They will doubtless be ample to accommodate all who desire to play the game.

The interior of the room has been repainted papered and calcimined. Ample heat will be provided so that the place will be comfortable for spectators.

WILL TOUR EUROPE.

Famous Kilties Band Will Go Abroad Next August to Remain a Year.

W. W. Power, advance representative for the Kilties band of Canada, went yesterday in Ishpeming. The band is making its farewell American tour for a year or perhaps more. It will be at the Ishpeming theater next Sunday evening and Monday afternoon and evening.

Mr. Power leaves the first of next month for England, where he will concert the arrangements for the band's European tour. The fame of the Gordon Highlanders has spread to all parts of the world and the management has refused several flattering offers from theatrical managers abroad to make a tour of the principal cities of the old world. Now, an English capitalist has taken the matter in hand and has signed a contract for a stated amount for each engagement. The countries visited will be England, Ireland, Scotland, France and Russia.

The band will leave on its European tour about Aug. 1. All the present members of the organization, including the famous troupe of Clon Johnstones, said to be the finest Scottish and Irish jig and reel dancers in the world, will take the trip. This is the first season that the Kilties have had ladies in the company.

AN OCEAN CUP RACE.

The proposition to have a series of races across the ocean for a \$2,500 prize cup in 1905 should appeal with considerable interest to all lovers of this sport.

Now, an English capitalist has taken the matter in hand and has signed a contract for a stated amount for each engagement. The countries visited will be England, Ireland, Scotland, France and Russia.

The band will leave on its European tour about Aug. 1. All the present members of the organization, including the famous troupe of Clon Johnstones, said to be the finest Scottish and Irish jig and reel dancers in the world, will take the trip. This is the first season that the Kilties have had ladies in the company.

The local officials, also Mr. Hall, were well pleased with the general arrangement of the theater. Mr. Hall's suggestions regarding the water plugs will be carried out. He seems most interested in now being made by Superintendent Pearce, of the electric light company, in the stage circuits.

IRON NOTES.

Last year the blast furnaces of the United States produced 40 per cent of the world's production of pig iron. To produce this pig iron there were burned during 1902 in the blast furnaces 16,000,000 tons of coal, and 300,000 tons of charcoal. The amount of limestone used for fluxing purposes amounted to 9,500,000 tons.

The iron ore consumed amounted to 24,000,000 tons. All of these materials were consumed last year to produce 17,820,000 tons of pig iron. The larger part of this pig iron production was converted into steel, 14,947,000 tons of steel having been produced last year. Of this, 9,138,000 tons were made by the Bessemer process, 5,687,000 by the open-hearth process, and 121,000 tons was crucible steel. It is an interesting question what became of this 14,947,000 tons of steel produced during 1902. The railroads consume about 40 per cent of the steel production of the country. The steel rails alone used by the railroads during 1902 amounted to 3,000,000 tons. The railroads also consumed an enormous amount of steel in building bridges, constructing locomotives, freight cars, passenger cars, etc. Altogether, the railroads consumed fully 40 per cent of the entire steel production. Next in quantity to the amount of steel consumed by the railroads is the output of plates and sheets. During 1902 there were manufactured 2,665,000 tons of steel plates and sheets. This amount, if rolled into a single sheet of No. 30 standard gauge, would cover 420 square miles, or nearly twenty times the area of the island of Manhattan. Next to the output of plates and sheets comes structural material, used in the construction of massive office buildings. The production of steel and wire nails forms a considerable part of finished steel products. There were produced last year 10,082,000 one-hundred-pound kegs of wire nails and 1,633,000 kegs of cut nails.

THOUGHT TO BE IN THE LAST STAGES OF CONSUMPTION.

I have just received the White Wine of Tar. We think there is no medicine like it. It cured me when I was thought to be in the last stages of consumption. I will always recommend it to those that have any disease of the lungs. Mrs. Minerva Burgess, Byars, Ill.

Better than the Pacific

You can bathe in California at any time of year and at almost any point on the Coast. But the strong probability is you won't. There are other things to do that are better worth doing and, besides, there are better places to bathe in than the cool waters of the Pacific. All along the coast—at San Diego, Colorado, Santa Barbara, Monterey and a dozen other places that might be named, luxurious bath houses have been built, where the water, fresh from the sea, is heated and tempered to your liking.

If you are figuring on passing the winter in California, you owe it to yourself to ascertain what the Rock Island System offers in the way of rates and through car service. Information on request.

GREATEST MODERN STRENGTH CREATOR

known to medicine—the original GUARANTEED REMEDY FOR

- Chronic Colds—Hacking Coughs. Sore signs of danger ahead. VINOL is the exact medicine needed. It does not upset the stomach, and it surely heals and renews the irritated, diseased surfaces that cause the cough.
Bronchitis—Sore Lungs. There is no medicine so valuable for restoring strength to the throat and lungs as VINOL. It is the grandest lung medicine known. This we guarantee.
Debilitated—All Tired Out. It is not natural to feel continually tired. We guarantee VINOL will bring life, strength and vigor to the debilitated, run-down system.
To Gain Flesh—To Get Strong. We know VINOL will make flesh faster than any preparation containing grease. We can prove that VINOL quickly creates strength.
Old People—Weak People. Need a strengthening and invigorating re-builder. VINOL is of exceptional value in such cases. VINOL positively rejuvenates old folks. Money back to those not satisfied.
Nervousness—Irritability. Diseased nerves are due to overwork, insufficient nourishment or slow breaking down of general health. VINOL actually rebuilds the entire body and heals ragged nerves.
Pale Women—Pale Children. Pale, haggard faces show that the blood is poor and thin, also indicate imperfect digestion. VINOL will correct such troubles as surely as the sun shines.
Nursing Mothers—Weak Mothers. You know the life and future development of the child depend upon proper nourishment. VINOL helps nature change food into body material. VINOL costs nothing unless it benefits.

THIS WARRANT IS PRINTED ON EVERY VINOL PACKAGE.

We mean exactly what we say in this Warrant—without reservation or equivocation. We know VINOL is the best tonic preparation and general re-builder of health known to medicine. We bank our reputation and fortune on its being wholesome, delicious and most efficacious, and on the fact that no other maker can produce anything like VINOL. The statement that any other medicine is the same as VINOL is false. Don't take our word for it—try it yourself at our expense—if it does not help you we stand the loss—it costs you nothing.

YOUNG FIXED IT UP.

He Arranged to Have Peter Trudell, Sr., Located in the Postoffice Lobby.

Postmaster Thomas Connors, who was anxious to have Peter Trudell, Sr., conduct his store in the postoffice lobby, and did all he could with the postal officials to land him there, yesterday said that the credit is due entirely to Congressman H. O. Young.

As soon as it was decided to move the office from the Muck block to its present location the postmaster took up the matter with the Washington officials. He had letters from headquarters in which the favor was practically refused, despite the fact that the store in the lobby was a great convenience to the people of the city and the local post-office employees.

As a last resort Mr. Connors wrote to Congressman Young, asking him to call upon the officials in the postoffice department and explain the situation. He was also reminded of the fact that Mr. Trudell is a war veteran and that he was worthy of consideration on that account, if on no other.

It did not take Mr. Young long to convince the officials that the lobby store was very much desired in Negaunee. Only a few days elapsed when Mr. Connors received instructions to permit Mr. Trudell to open up again.

WILL SEE "THE CHAPERONS."

Negaunee will be well represented Friday night at the Ishpeming theater, when "The Chaperons," the first operatic comedy to play the house, will be the attraction. The reputation of this bill is such that a mere announcement of its coming should be sufficient to fill the theater. A great many are already placing their orders for seats. They will be filled immediately after the opening of the sale, Thursday morning at 10 o'clock. There are only thirty and sixty people in the company. It is playing but three theaters in the upper peninsula upon its present tour. A jump is being made from St. Paul to Chicago.

OLD RESIDENT ILL.

Michael O'Leary, one of Negaunee's oldest and best known residents, has not been feeling as well as usual for some weeks back. He is out occasionally, but he is getting very feeble. The old man had a bad spell Saturday, while about town. Mr. O'Leary is eighty-one years of age. He has been here since early in the sixties, and is well known to all the older residents of the county. He was the city's first marshal, a position he held for some years.

ALBERT BOYER'S FUNERAL.

The funeral of the late Albert Boyer, held Sunday afternoon from St. Paul's church, was very largely attended. Friends of the deceased were present from nearly every place in this county, and some were also here from the copper country and Escanaba. The obsequies were conducted under direction of the local French society. A large delegation from the Ishpeming society was in line.

KILTIES BAND COMING.

The Kilties band, Canada's famous musical organization, will give a concert at Ishpeming theater next Sunday and Monday evenings and Monday afternoon. The Kilties are one of the strongest organizations of the kind in the country. After spending about six months on its present tour the band will go abroad for a year or so.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

ARTISTIC TEACHER OF MANDOLIN, GUITAR AND BANJO.

Italian method taught. For terms call or address, Mme. Nettie R. Callama, (formerly with Chicago Conservatory), Studio, McKenzie Ave., near Main St., Bell phone 150. (12-16-3w)

CURED AFTER SUFFERING TEN YEARS.

B. F. Haro, Supt. Miami Cycle & Mfg. Co., Middletown, O., suffered for ten years with dyspepsia. He spent hundreds of dollars for medicine and with doctors without receiving any permanent benefit. He says: "One night while feeling exceptionally bad I was walking through down the evening paper when I saw an item in the paper regarding the merits of Kodol Dyspepsia Cure. I concluded to try it and while I had no faith in it I felt better after the second dose. After using two bottles I am stronger and better than I have been in years and I recommend Kodol Dyspepsia Cure to my friends and acquaintances suffering from stomach trouble." Sold by The Stafford Drug Co., Marquette; H. N. Meloche, Ishpeming.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil. Monarch ever pain.

A REGISTERED DRUGGIST SPEAKS.

Mr. Homer Alvey, registered pharmacist and manager of the West Side Drug Store, Lincoln, Ill., in speaking of a medicine advertised in our columns, says, "I have sold Harts' Honey and Horchound for two years and regard it as a medicine of exceptional merit for the cure of Croup, Coughs, Colds and La Grippe." For children Harts' Honey and Horchound is undoubtedly the safest and best, as it contains no opium or other narcotics and is pleasant to take. 25c, 50c and \$1.00 bottles sold by the People's Drug Store.

Two million Americans suffer the torturing pain of dyspepsia. No need to buy Burdock Blood Bitters cures. At any drug store.

COUNTERFEIT DOLLARS.

A Number of Them Are in Circulation in This County.

Counterfeit dollars are said to be numerous in Marquette county, particularly in Negaunee. One of the street car conductors had no less than four presented to him in payment of fares Sunday. He rejected all but one, which was given him in the evening, when he was in a hurry to get through the car. He did not see that the dollar was worthless until next morning, when he was figuring up his receipts.

The counterfeit money is easily detected, being dull in appearance and a trifle light.

CURIOSITY.

Leads to Investigation and Truth.

What shall we do to be saved? was the title of one of Robt. Ingersoll's lectures. People of faith and people of no faith flocked to hear it. Thousands are asking, "What shall I do to get rid of dandruff?" The answer is "Kill the germ that causes dandruff, falling hair and finally baldness; and the only thing that will do it is Newbro's Herpicide. That is the very latest discovery of the laboratory, and it is the only preparation that claims to do that will kill the pestiferous dandruff germ. It also is a delightful hair dressing, free from oil or grease or sticky substances. Try it and be convinced of its actual merit. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Stafford Drug Co., special agents.

SAVED FROM TERRIBLE TROUBLE.

The family of Mrs. M. L. Bobbitt of Bargerton, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for Consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed Bottles 50c and \$1.00. Trial Bottles Free at The Stafford Drug Co.'s store.

LOCAL LACONICS.

R. G. Quinn arrived in the city yesterday morning, on a visit to his trade.

The city council will hold its regular monthly session Thursday evening of this week.

Christ White arrived in the city yesterday. He is still traveling for a dry goods house.

The time for payment of water taxes for the last quarter of the old year expires on the 10th inst.

Lawrence Arland, who spent a week or more here visiting his people, returned to Gladstone yesterday.

Hose company No. 1 of the Negaunee fire department, met last night in regular monthly session. No. 2 company will meet tomorrow evening.

Knutte Erickson, the Swedish dialect comedian, is billed to appear at McDonald's opera house tomorrow night. The company is said to be a good one.

Mrs. E. A. Dreyer, of Detroit, is in the city, visiting her mother, Mrs. E. S. Green. On Saturday evening she was tendered a reception at Mrs. Green's home.

Mrs. J. C. Maynard and son, also a couple of lady friends, from Escanaba, attended the funeral of Albert Boyer here Sunday. The deceased was related to Mrs. Maynard.

The schools opened yesterday morning, with about the usual number present. In view of the short vacation during the holidays the schools will be dismissed one week earlier than most of the schools in the county.

The Woodmen and invited friends will enjoy a social hop this evening at the conclusion of the public installation of the newly elected officers. A lunch will be served. A large attendance is expected.

Albert Duschane of West Superior and Frank Duschane of Proctor Knott, former residents of Negaunee, are in the city. They came down to attend the funeral of their uncle, the late Albert Boyer.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

AN EDITOR'S RECOMMENDATION.

Mr. H. J. Keeler, publisher of the Press, Maiden Rock, Wis., writes, "Allow me to say that I have recently used a bottle of Harts' Honey and Horchound and found it a valuable remedy for a cold and cough. I have personally recommended it in several cases and heard a good word from all." When our readers need a reliable medicine for Colds, Coughs, Croup and Whooping Cough there is no other so satisfactory as Harts' Honey and Horchound. Large bottles 25c, 50c and \$1.00. Sold by the Peoples Drug Store.

WHAT'S IN A NAME?

Everything is in the name when it comes to Witch Hazel Salve. E. C. De Witt & Co., of Chicago discovered some years ago how to make salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases. De Witt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by The Stafford Drug Co., Marquette; H. N. Meloche, Ishpeming.

THE CONDUCTOR.

I had been suffering with a severe cold for several days, and was so hoarse I could not speak above a whisper. Nov. 16th, I met one of Dr. Warner's agents on my train, he handed me a bottle of the White Wine of Tar Syrup, and one hour after taking the first dose my hoarseness commenced leaving me. In twenty-four hours my voice was quite clear and natural, the cold nearly cured. It is the best remedy I ever saw. Respectfully, Conductor Warren, Chicago & Northwestern R. R.

Mr. Wm. S. Crane, of California, Md., suffered for years from rheumatism and lumbago. He was finally advised to try Chamberlain's Pain Balm, which he did and it effected a complete cure. This liniment is for sale by The Stafford Drug Co., Marquette; J. M. Perkins, Negaunee; Henry Harwood, Ishpeming.

CITY DADS HAD QUIET SESSION

BUT LITTLE BUSINESS TRANSACTED AT THE REGULAR JANUARY SESSION LAST NIGHT.

STREET RY. COMPANY FAVORED

ALLOWED TO SUSPEND WASHINGTON ST. LINE TILL SPRING.

Purchasing Committee Instructed to Buy Two Dump Wagons to Be Used in Handling Crushed Rock.

The council made short work of the business of the regular January session last evening, taking an adjournment some time before 9 o'clock with all matters cleared out of the way.

The Marquette City & Presque Isle Street Railway company was given permission to suspend the operation of its Washington street branch.

On recommendation of the street committee, the purchasing committee was instructed to arrange to buy two dump wagons to be used in the summer for distributing crushed rock on the thoroughfares which street work is in progress.

City Attorney Brown reported that he had written the state railroad commissioner, in accordance with the instructions of the council, asking if there was any statute prohibiting the employment of minors on street cars.

The following communication was received and referred to the committee on finance and taxation:

Marquette, Mich., Jan. 4, 1904. To the Common Council of the City of Marquette: Gentlemen—The undersigned, the Marquette County Savings bank, respectfully represents that it has been its custom for several years to carry \$10,000 of its undivided profits as a surplus fund, and the remainder of such profits as net undivided profits.

That, in making out its statement of taxable property for the year, this bank correctly stated the amount of its said surplus fund to be \$10,000, but that in stating the amount of undivided profits the total amount thereof was given as \$11,129.84, which sum embraced said surplus fund of \$10,000, and from which sum said \$10,000 should have been deducted to give the net undivided profits over and above said surplus fund, which was \$1,129.84; or, in other words, the total undivided profits should have been stated to be \$11,129.84, or the surplus fund of \$10,000 and the net undivided profits of \$1,129.84 given separately.

By reason of this manner of making our statement the controller, in fixing the value of the stock of our bank, has added to the reserve fund of \$10,000 and the total undivided profits of \$11,129.84, resulting in an erroneous over-assessment of \$10,000 against the stock of this bank.

This bank has for a number of years had charge of the payment of the taxes on account of its stock held by the following persons, Mary Breitung, Nathan M. Kaufman, Edwin Breitung, Samuel R. Kaufman, Reiner Hoch, Charles Meeske and George Barnes, and has paid for them so much of the taxes levied against them on account of such stock, in the year 1903, as would have been due from them had not the above error in assessment been made; and hereby, in their behalf, respectfully petitions your honorable body to rectify such over-assessment by rebating the remainder of such taxes, with interest and penalties, now standing against said persons.

Very respectfully, Marquette County Savings Bank. By Geo. Barnes, Cashier.

Stafford's offering good bargains in their 20 per cent off sale of china. (1-4-4f)

The best life preserver for children is plenty of Vandenberg's fresh milk. (12-31-64)

LAST WEEK FOR TAXES.

To Date in the Neighborhood of \$22,000 Has Been Collected.

This is a busy time at the city treasurer's office, where in the next few days a great amount of money will be received from the people of Marquette. This is the last week in which the city taxes can be paid with the one percent charge for collection.

FREE CLINIC.

Marlham Sanatorium Takes This Progressive Step.

Dr. Marlham, of the Marlham Sanatorium, submits the following for publication: On Sunday afternoons from 2 until 5 o'clock the Marlham Sanatorium throws its doors open to the deserving poor of the city and neighboring localities.

You will find here the X-Ray, the Ultra-Violet Ray, the Finsen Ray, which have brought cancer, lupus, ulcers, and many skin troubles within the range of curability.

The electric light bath, one of the latest therapeutic measures of great value, and which King Edward is now using with such marvelous and astonishing results at Windsor Castle, is placed at your disposal, together with the hot air or baking treatment, as well as the electric water bath, all of which are of the greatest importance in treating rheumatism and kindred troubles.

For the cure of dyspepsia, constipation, paralysis, neuralgia, and many obscure troubles having their origin in these conditions, no treatment succeeds like mechanical massage and Swedish movements, intelligently given.

Much more might be said about the appointments of our modest institution and its methods for the radical, bloodless, knifeless, cure of hemorrhoids, varicocele, hydrocele and rupture.

Remember there is no charge for these Sunday afternoon services. Treatments and medicine are absolutely free, with every advantage right at home that is to be had in the larger cities and sanatoriums away from home, where like methods are employed.

PAWNBROKERS TOOK ALL.

A match at the bowling alleys last evening, played between the Magicians and a team styled the Pawnbrokers, resulted in the winning aggregation—the Pawnbrokers—taking all three games. The scores follow:

Table with 3 columns: Name, Score, Total. Lists scores for Van Iderstine, Connell, Miller, Rose, Stafford, Kimball, Magicians, Cunningham, Eldridge, Swift, Woodcock, and Hermann.

Begin the new year right by ordering your fresh milk and Jersey creamery butter of the Marquette City Dairy, H. Vandenberg & Son, Props. (12-31-64)

ALWAYS READY; ALWAYS BRIGHT. Such is the verdict given to gas by our customers. Try gas for light. You'll be satisfied then. The Marquette Gas Light Co.

CONTESTS DROPPED.

Two Timber and Stone Claims in the Swanzy Region Affected.

Contests brought against James Maney and Mrs. Timothy Maney, who filed under the timber and stone act on claims in the Swanzy region, by Timothy Nester have been dropped.

The claims filed on by Mr. Maney and Mrs. Maney are among the fifty or so claims taken up under the timber and stone act by Marquette people in the so-called Cheshire range district.

There has not as yet been a boom on the Cheshire. The Cleveland-Cliffs Iron company is continuing operations at its new Austin mine, and there is some exploratory work.

COPPERS WERE BETTER.

Strong Buyers Are Watching the Boston Market for Bargains.

Paine, Webber & Co. said of the Boston market: "The way the market acted Saturday and today shows quite clearly that strong buyers are watching to take advantage of every good sized reaction in prices.

Hayden, Stone & Co. wired W. H. Laidley & Co.: "The market has been erratic today, under the lead of Amalgamated, which opened up and sold up to 49 1/2, but then sold off again.

Market Queer Mixture. The Hadden-Rodee New York letter was as follows: "Today's market was rather a curious mixture of hesitation and confidence.

Reports from the "Silver Slipper," the big extravaganza that will be presented by a company of upwards of eighty people at the opera house January 16, continue to be of a flattering nature.
