## RUSSIANS AWAIT NEWS OF BATTLE

Paris, Thursday, Jan. 7.—The St. Petersburg correspondent of the Paris edition of the New York Herald cables: "There is almost no hope of a peaceful solution, and the public is expecting news of a battle resulting from the landing of Japanese troops in Korea. A battalion has been sent from Vladivostok to prevent the Japanese landing."

## DECLARES WAR INEVITABLE.

St. Louis, Jan. 6.—Hajime Ota, Japan's commissioner to the World's Fair, declared today that war between Russia and Japan is inevitable. "Whether now or later," he said, "it is bound to come." He expressed the opinion that Japan alone could whip Russia.

## RUSSIAN FLEET REPORTED IN MOTION.

London, Jan. 6.—A dispatch tonight to Reuters' telegraph company from Tokio says: "All the Russian warships recently at Vladivostok are reported to have sailed, probably for Port Arthur."

## ADVISES TO THE LONDON PRESS.

London, Thursday, Jan. 7.—Standard's Tokyo correspondent says that the Russian warships which until recently were with an investigation in a department made by the department itself. The debate continued for almost two and a half hours and was extremely spirited from start to finish.

## PAINE NOT IMPLICATED.

During the debate, Senator Carmack disclaimed any intention to charge Postmaster General Paine with complicity in or sympathy with the irregularities in his department. His suggestion was that of indifference to the wrong, and the natural inference was that if the inquiry had been left to him there would have been none.

## ENGLAND'S POSITION.

Despite the alarmist cablegrams from the Orient, the facts that the Japanese cabinet has been meeting in London on Thursday and that the British cabinet has been notified to assemble on Saturday are construed as indicating that nothing definite has developed in the Far East.

## RUSSIANS REFUSED TRANSPORTATION.

Seoul, Jan. 6.—A Russian legation guard of thirty men has been landed at Chempulpo, but the Japanese railway has refused to transport it to Seoul. It is reported that preparations have been made for the emperor of Korea to find an asylum at the French legation in the event of serious trouble. It is expected that France and Germany will send marines here to guard their legations.

## SUPPLIES FOR JAPAN.

San Francisco, Jan. 6.—The steamer Siberia, which will sail tomorrow for Chinese ports, will carry a quantity of pig lead for Japan and about 25,000 sacks of nitre consigned to Hong Kong and presumed to be for the manufacture of powder.

## NOT ONE JUROR SECURED.

Trial of Three of the Car Barn Bandits Opens in Chicago.

## NOT ONE JUROR SECURED.

## HAWAIIAN BILL IN THE HOUSE.

The only measure considered in the house today was a bill introduced by the delegate from Hawaii to ratify the act of the Hawaiian legislature authorizing the manufacture and distribution of electric light and power on the island of Oahu, territory of Hawaii. Owing to objections made to the bill in the form presented, it was recommitted to the committee on territories.

## JUDGE ADVOCATE ACCUSED.

Retired Paymaster of the Navy Brings Suit for \$50,000 Damages.

Washington, Jan. 6.—Robert Burton Rodney, paymaster, with the rank of lieutenant commander, on the retired list of the navy, today brought suit for \$50,000 damages against Captain Samuel C. Lemly, judge advocate general of the navy, for alleged long continued "pecuniary and naval grade losses" and indignities. The complaint alleges that Captain Lemly has usurped practical supremacy in the navy department and is depriving the complainant of legal rights under his commission.

## IS DEAD AT ST. PAUL.

St. Paul, Jan. 6.—General George L. Becker, former chairman of the state board of railroad and warehouse commissioners, a prominent politician and for many years actively engaged in public life at St. Paul and Minneapolis, died tonight.

## BOLD ROBBERY

CASH AND GEMS.**

Hold-Up Men Invade Masonic Temple and With Dagger at His Heart Compel D. Freeman to Open Safe.

## SENATE DEBATE SPIRITED.

Postoffice Department Scandal the Subject of an Extended Discussion.

## NAVY GIVES TUG PROTECTION.

San Domingo, Jan. 6.—The revolutionists having prevented the tug Ana from reaching the estate of her owners at San Isidro, the owner applied to United States Minister Powell for protection. The latter informed the officials that if they could not protect the Ana he would. Commander Mertz of the United States gunboat Newport furnished an armed convoy for the Ana, equipped with a field gun. The government endeavored to prevent the departure of the boat, but Minister Powell directed them to proceed. Later Minister Powell and Commander Mertz told the president that if his government could not protect American property, the Newport could and would. The Ana carried \$20,000, which the revolutionists hoped to capture.

## ATTEMPTED REVOLT IN HAITI FAILS.

Port au Prince, Hayti, Jan. 6.—During the absence from Port au Prince of President Nord at Gonaves, General Montplaisir attempted to raise a revolt against the president, but the movement failed. The general's son and an accomplice were killed. Numerous arrests have been made.

## OFFICE MAY BE ABOLISHED.

Washington, Jan. 6.—Secretary Hitchcock has recommended to the president that the office of railroad commissioner be abolished. It seems probable the recommendation will be adopted and no successor to General Longstreet will be appointed. The duty of the office has practically been absorbed by the interstate commerce commission.

## TODAY'S WEATHER.

Washington, Jan. 6.—The following is the weather bureau's forecast for Upper Michigan: Snow Thursday, continued rising temperature; Friday, snow and colder; brisk southwest to south winds becoming northwesterly.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

SUBSCRIPTION RATES: Per month, by carrier \$1.50

Entered as 2nd class matter of the second class in the postoffice at Marquette, Mich.

Eli R. Sutton did not appear before the supreme court to give reasons why he should not be disbarred from practice.

Iowa's state building was supposed to be fireproof, and the people are beginning to wonder where the money to make it so went.

New York has no less than twelve theaters that are running in violation of city ordinances.

Much regret will be felt at the death of Cecil Gooding, a prominent member of the Michigan "varsity" football team.

The Soo hockey team is proving unusually cozy about closing arrangements for a game or series of games with the Portage Lake aggregation.

In the interval since he signed Andrews' parole Governor Bliss has been condemned by resolution by pastors and teachers' associations and whatnot.

Between the war scare and the passing of the dividend stock common looked rather limp yesterday.

If the postal authorities, as indicated by the arrest of the Jaggers at Chicago, intend crusing against brokens who are selling mining stocks not worth a song by use of the mails, they have cut out a pretty piece of work for themselves.

It is sincerely to be hoped that Dowie does found a new Zion on Matagorda island, on the Texas coast, and that he moves his whole church there, out of the way of the thickly populated centers of the north.

The pass graft has its share in the responsibility for the Iroquois disaster, as is clearly shown by the exposures of the Chicago press.

Another important if true story from the lower part of the state is to the effect that Stearns is warning us to Perry, with the hope of making a working arrangement by which the latter shall become a candidate for governor this year.

The investigation of the Iroquois disaster is developing in a manner that shows a great degree of culpability on the part of the managers of the theater.

It does not follow, of course, that all farmers can make more money by letting their farms grow up to timber than by cropping them.

It might have been the cheapest wooden shell; the results could have been no more terrible. The lesson is plain. It teaches the necessity for thorough and periodical theater inspection and an exact compliance with the last letter of every ordinance.

The news that 40,000 men have been put back to work in the Pittsburg district during the past two weeks, on account of the resumption at numerous steel mills, is of a reassuring nature, and indicates that the revival in the iron and steel trade predicted for the new year is really having its beginnings.

Senator Platt's word of warning to Republicans should be carefully heeded. He again draws attention to the danger of a spirit of overconfidence in politics and warns Republicans that the signs of the times indicate that the Democrats may this year offer a much more effective opposition than they have been able to put forward in the past two campaigns.

W. J. Bryan is credited by an eastern dispatch with the intention, on his return to the states, of throwing his support to Hearst, as a possible Democratic presidential nominee.

It will be explained by and by that all this popular unrest has been hatched in Washington for the sake of executing the action of Panama in throwing himself into the arms of the United States.

ONE FARMER'S WISDOM. An object lesson in forestry which is said to have made a deep impression upon the farmers in this country, to which such an outcome would only present new and embarrassing problems.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around.

A Young Investor

can ill-afford to be without the book published by The Mutual Life Insurance Company of New York—"A Banker's Will." It explains a curious provision in the will of the President of a National Bank in New York City, and gives the list of securities in which the largest accumulation of trust funds in the world is invested. The book is sent free to those who write.

This Company ranks First—In Assets. First—In Amount Paid Policy-holders. First—In Age.

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK

RICHARD A. MCCORDY, President. R. S. DONALDSON, Manager, Marquette, Mich.

tial both for the farmer and for the consumer of farm products. But Mr. Spaulding's experience shows that there is profit in wood lots. He has no doubt utilized his timber lot for farm purposes, more or less, during all this time.

DANGEROUS SYMPTOMS.

It was an open secret for months before the failure of the Hay-Herran canal treaty that Panama would secede from Colombia in case Bogota persisted in opposing ratification. It was also expected that she would be joined by several of the other Colombian states.

The expected reduction in the wages of the men employed in the mines of the Oliver company has been announced, but it is not as large as was expected.

J. E. Jopling, of the Cleveland-Chiefs Iron company, states in an interview at Duluth that the company has no definite plan for the present year as regards mining operations.

The Great Northern road is planning a number of extensions of track to mines on the Mesaba range this year.

It will be explained by and by that all this popular unrest has been hatched in Washington for the sake of executing the action of Panama in throwing himself into the arms of the United States.

DOMESTIC TROUBLES. It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around.

IRON NOTES.

The freezing of air pipes has hindered operations at the Chapin mine, Iron Mountain, latterly.

According to advices from Madrid, important deposits of iron ore have been found recently near Almahaja, in southern Aragon. The ore is hematite containing about 54 per cent iron and 2 per cent manganese.

The Crystal Falls Diamond Drill states, concerning reported reductions in wages: "We have been advised that nothing resulted from the conference, the Cleveland-Chiefs and Jones & Laughlin people refusing to meet the cut. Notices have been posted at Pickands-Mather properties saying that there will be no reduction there."

The Champion mine, Marquette range, is, it is believed, the deepest iron ore property in the United States to be on the western shaft on the line of the strike of the ore formation is down to the thirty-fourth level, and it is interesting to note that the ore holds strong at this point from the surface, the lenses pitching sharply to the westward.

William Maas, who, with his brother George, and John O'Callaghan, is exploring for a short distance from Norway, reports that at present the drill is in the slates. There is strong belief, however, that ore will be encountered, and that it will be necessary to go to considerable depth. Mining men are watching the work with interest; the discovery of ore at that point would mean much to the district.

In payment of its taxes at Ironwood, the Oliver Mining company has sent a check for \$87,183.25 to the city treasurer. A comparison to show the proportionate tax of the Oliver company is found in the fact that it pays, on its mines in Ironwood alone, \$320.72 of the agricultural society tax on a total assessment of only \$250, thus leaving the balance of the county but \$179.28 of this tax to pay.

The Beaufort mine, the only iron ore producer in Baraga county, is working a force of about 250 men. The ore is being stock-piled, and there are no indications of a reduction in force or curtailment of operations. The property is owned by Roger Brown & Co., the big independent pig iron producers, who use every pound of ore produced at the Beaufort and are anxious to increase the present output, a pleasing exception to the rule now prevailing.

The expected reduction in the wages of the men employed in the mines of the Oliver company has been announced, but it is not as large as was expected.

The Great Northern road is planning a number of extensions of track to mines on the Mesaba range this year. Among the improvements which have been ordered is a spur track to the Frantz mine at Buhl and a line to the Yates mine at Lucknow.

Iron mining men are watching the steel rail market with considerable interest and officials of the railroad companies are engaged in the same occupation. The price remains at \$28, which has been the prevailing figure for a long time. Some of the roads in the north-west are anxious to begin making extensive renewals, but are waiting in the belief that prices will drop.

It is the opinion of Thomas F. Cole, president of the mining department of the United States Steel corporation, that the iron and steel business of this country will grow until it has attained wonderful dimensions. He believes the time not far distant when America will make twice as much steel as now and when every mine in the Lake Superior country, including producers of all grades of ore, will be working full handed.

MINING NEWS

MICHIGAN.

The product of the Michigan, which is furnishing rock to one head at the Mass-mill, was 100 tons during December. The output includes the mass and barrel work and shows returns of better than 1 1/2 per cent mineral in the rock treated.

Superintendent Brady, of the Michigan, says: "There is very little drifting being done at present, the ground already broken being more than sufficient for needs of the mill for some time to come. The drainage vein is looking well. About 250 tons of rock are being treated each day, which amount will be steadily increased to the full capacity of one head, about 500 tons.

Concerning the Michigan, the Ontonagon Herald says: "The past year has been an important one in the history of Michigan. It entered the list of producers during the latter part of the year, using one head in the Mass mill at Keweenaw Bay. About 250 tons of rock are being treated daily and while it is impossible to determine the average yield of the rock at this time the returns are said to be highly satisfactory. A and B shafts are down to the fourteenth level and much ground is opened on the Calico, Branch and Conglomerate. The Calico is a pure stamp vein and when stopped is a very fine mineralized that the rock was really better mineralized than anticipated from the earlier openings. The Branch is a producer of heavy copper to a large extent, although much rich stamp rock is being found. Not enough work has yet been done up on the Conglomerate to determine its value, but in the main it resembles the Branch and it is expected that these two leads will converge at a greater depth. During the past year shaft and rock-houses have been built for both A and B shafts; a powerful new hoist has been installed for A and a new forty drill compressor has been erected and put into commission. Three acetylene gas plants have been put in for lighting the various buildings around the mine and a water system has been installed. Thus it will be seen that the Michigan is well equipped both for mining and handling its output economically and upon the most approved plans. While the output at the present time is only about 250 tons of rock daily it should be remembered that the mine is in position to supply a much larger amount and undoubtedly will do so a little later. Those who are familiar with the conditions of the Michigan are confident that it is a good property and that this will be amply substantiated before the present year is brought to a close.

CALUMET & ARIZONA.

The Calumet & Arizona during the year just closed produced a total of 25,978,676 pounds of blister copper, which averaged about 99 per cent fine. On this basis, the output of pure copper in 1903 was 25,718,800 pounds, compared with 2,000,000 in 1902. The record was made by the mine, which is but three years old, is little short of remarkable. During the last four months of last year the output steadily increased and it is believed that the total product of 1903 will exceed that of 1902 by at least five million pounds.

The December product of the mine was 1,439 tons of blister copper, the largest for the year and exceeding that of November by 117 tons. The nearest approach to the yield in December was in August, when the output was 1,439 tons.

Table showing monthly production of blister copper from January to December 1903. Total: 25,978,676 lbs.

VICTORIA.

Much work has been done upon the Victoria during the past twelve months and the property is in a most satisfactory condition. No 2 shaft is now more than 2000 feet in depth and it is down to a point where the management can gain an excellent idea of the relative value of three lodes which are being opened. That they are proving quite satisfactory is evinced by the fact that active preparations are being made for the erection of a stamp mill upon the river near the mine.

Iron mining men are watching the steel rail market with considerable interest and officials of the railroad companies are engaged in the same occupation. The price remains at \$28, which has been the prevailing figure for a long time.

FRANKLIN.

The annual report of the Franklin Mining company for the year ended Dec. 31, is expected to show that the company has passed through a prosperous twelve months. An official of the company states that with copper selling at eleven cents the company can make money. The average price in 1903 received for Franklin copper was better than thirteen cents. Costs have been steadily reduced during the coming year it is expected that the figures will be materially below ten cents per pound.

TONOPAH.

In the Seibert shaft of the Tonopah Mining company ore has been encountered at a depth of 920 feet. The development is regarded as settling beyond question that the ore of the camp goes deep. For some time there has been

FIFTY CENTS

A small bottle of Scott's Emulsion costing fifty cents will last a baby a month—a few drops in its bottle each time it is fed. That's a small outlay for so large a return of health and comfort.

Babies that are given Scott's Emulsion quickly respond to its helpful action. It seems to contain just the elements of nourishment a baby needs most.

Ordinary food frequently lacks this nourishment; Scott's Emulsion always supplies it.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

much anxiety about the permanency of the Tonopah ore bodies. This was due to the fact that the big original Tonopah mine lost its ore at a depth of 650 feet several months ago. There appeared to be a serious fault and much prospecting has been in progress to find the continuation of the vein. From the 700-foot level a diamond drill was used with the result that a small vein was encountered at 850 feet which carried good values.

MINING GOSSIP.

The new slimes cyaniding plant of the Consolidated Mercur is now in commission. It began to handle the entire output of the mine, amounting to 800 tons daily, last week.

The Franklin Mining company has a handsome surplus in its treasury, according to advices from Boston, and it is said that the annual report up to date will show a number of agreeable surprises. The mine is improving with depth.

Arizona produced about 150,000,000 pounds of copper in 1903. The Clifton district produced 52,000,000 pounds, the Copper Queen at Bisbee 38,000,000 pounds and the United Verde about 22,500,000 pounds, not half the capacity of that plant.

At the Hamilton development work is still underway under the supervision of Captain Finnegan. Good progress is being made upon the tunnel which is being driven to the high bluff for the purpose of tapping the various lodes which traverse that district.

The extensive enlargement and improvements that are now being made to the smelting plant and mines of the Greene Consolidated Copper company will be completed in about five months and it is said that the property will then be in a position to increase its output to more than 8,000,000 pounds of blister copper monthly. The present monthly product is about 5,000,000 pounds.

The treasurer of a large copper mining company says: "In copper I expect a sharp rally, amounting to at least one cent the pound, in the immediate future. I look for the prevalence of a stronger tone throughout the year, or at least for some months. Consumers' wants must be large, and as soon as stock taking is completed a great many orders should be placed in the market. War between Japan and Russia should stimulate the copper industry."

The New York Times is authority for the statement that William Greene, president of the Greene Consolidated Copper company, is shortly to resign from the presidency of the company. The control or very nearly the control of the company is now understood to rest with the so-called Standard Oil interests. In order to assure to themselves the management of the property, they intend to issue a convertible bond, which may be exchanged for stock at the expiration of two years.

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment.

A REGISTERED DRUGGIST SPEAKS. Mr. Homer Alvey, registered pharmacist and manager of the West Side Drug Store, Lincoln, Ill., in speaking of a medicine advertised in our columns, says: "I have sold Hart's Honey and Horehound for two years and regard it as a medicine of exceptional merit for the cure of Croup, Coughs, Colds and Jaundice." For children Hart's Honey and Horehound is undoubtedly the safest and best, as it contains no opium or other narcotics and is pleasant to taste. 25c, 50c and \$1.00 bottles sold by the People's Drug Store.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

HOMESEEKERS' EXCURSIONS

## THINKS HE'S AN ANGEL.

Calumet Man Has a Fight With the Devil and Wins.

Peter Lahti, a Calumet man, is an inmate of the county jail awaiting examination as to his sanity. There seems little doubt of Peter's mental affliction. His mind is deranged over religion and his actions of late have been so queer that it is believed Newberry is the best place for him. He is not at all violent, but his mind wanderings have been getting more and more pronounced. His present trouble has been growing upon him for several months. It was first noticed about three months ago and at that time he was brought to Houghton, but as his case was not at all serious he was sent back home in the hope that he would soon recover. His insanity took a different form at that time. He imagined that he was to blame for the death of several miners in an imaginary explosion in the Marquette mine. On Tuesday last the attention of Marshal Trudell was called to Lahti's present condition and the officer decided that he was a fit subject for examination. Lahti was brought to the county jail yesterday.

Lahti imagines that he is an angel from heaven. He readily converses with strangers and when seen yesterday told of a little experience with his angelic majesty. The devil, Peter remarked that the ruler of the lower regions had tried hard to get him, and he gave a rather graphic description, accompanied by many realistic gestures, of his struggle to rid himself of the welcome visitor. He finally succeeded but after all, Newberry, and not heaven, is his destination. That is all that Peter is angry about just now. He said that he did not know what he has put in jail for, as he believes he has a right to fight the devil the same as anyone else.

In relating his story Peter said that one night as he tried hard to sleep he looked up and saw his satanic majesty in all the finery of the lower regions and with the characteristic horns and spear, standing in the doorway. Peter was much perturbed, but he immediately proceeded to oust his visitor. The devil disappeared, but he reappeared the next night, that time bringing with him a fiery bit of paper which he desired Peter to sign. Another struggle ensued and the unwelcome guest again disappeared. Then Peter, much disturbed, went to a minister and asked him for help. The minister told him to pray and that the devil would leave him. But he wanted a more effective method. He pleaded with the minister to take out his coat and wash it so that he could begin life over again, but the preacher again told him that praying would be best. Peter tried it. He got down on his knees that night, but as soon as he got up the devil appeared. Down Peter went again and his satanic majesty made a hurried exit. When Peter had finished, the devil again made his presence known. Then Peter was angry. He fought the caller from the door, but the devil came in, struck him and scored a knockout. He told the minister that he could not pray all of the time and that pugilistic methods were the most effective in a case of the kind. Then Peter received his promotion to the angel corps.

Peter also had a little love experience. Some years ago, he said, a Calumet woman offered to marry him if he would give her \$500. He did so and a few days later they prepared to be married. The minister came to officiate, but the local justice of the peace joined in legal wedlock. But there the woman of his choice decided that she did not want him. She refused to keep her part of the agreement and left the court room but did not leave the five hundred. Peter took steps to get the money back but he could begin proceedings. The woman had left town with another man. He has never since heard of the woman, man nor the money. It is believed that little "love" episode set Peter going. He likely will be examined before Judge of Probate Gray today.

**Sad Case of Aged Woman.**  
Mrs. McKenney, an aged Dollar Bay woman, was examined in Judge of Probate Gray's court Tuesday afternoon as to her sanity, the petition coming from her children. It was found that she is suffering from hallucination that she owns the mineral rights of a piece of property in Calumet, and it was decided to commit her to the asylum. The property in question was owned by Mrs. McKenney at one time, but she never owned the mineral rights. She broods over her belief that her children are trying to take the mineral rights from her so that she cannot sell them for a high figure. Her case is particularly sad because of her age, which is eighty-two. Other than her one hallucination she is apparently all right. Although aged she is still in good health.

## GAMES WITH THE SOO.

Lock City Hockey Seven Is Coming Next Week.

"The Soos are coming" was the welcome news passed back and forth among the local hockey enthusiasts yesterday. It spread like wildfire and it is needless to say that everybody interested in the game was pleased. It was the principal topic of conversation in Houghton. Final arrangements were completed yesterday for two games with the Lock City aggregation in the Amphidrome next Wednesday and Thursday evenings. The Portage Lake management has been negotiating for games with the Soo for some time, and on Tuesday President James R. Dee of the hockey club, informed the present committee of the Lock City organization that the games must be played on Tuesday or Wednesday or on Wednesday and Thursday evenings of next week or not at all, as the local schedule was too well filled to make other dates. A committee was organized by the company at once and would give a definite answer as soon as possible. The answer came and it was perfectly agreeable. It must not be understood that there is any discussion existing between the respective managements at present. All troubles have been patched up and the managements are now on very friendly terms. They have none but the kindest of feelings towards each other. Return games will be played at the Soo as early as possible. The dates have not yet been fixed, but there will be no trouble in arranging them.

The Soo will send a big delegation of hockeyites to Houghton, and there is the utmost confidence at the Lock City that Portage Lake will go down in defeat. It is reported that the Soo will come up with a strengthened forward line and that it will be prepared to play hard hockey. There is no doubting the fact that the contests will be exciting and fast from start to finish, and that they will be numbered among the best of the winter. Since the opening of the season local hockey has been patiently waiting for the "Soos" game, and now that they have been arranged there is great rejoicing in the camp of the locals.

Reports are that the Soos are strong. So much the better, as a good class of hockey will be seen. Two camps that are money's worth and they will surely get it. The attendance both nights promises to break all previous records. The games will figure conspicuously in the race for the championship, both teams being active aspirants for the honor.

**Hockey Notes.**  
The Winnipeg Rowing club team won the second game from Ottawa, which holds the Stanley cup, emblematic of the world's hockey championship, in the championship series at Ottawa a few evenings ago. The score was 6 goals to 2. Ottawa won the first game by the score of 9 to 1 and it was then thought that the challengers would have little chance to win the trophy. One more game will decide the matter. The Benedictines and Bachelors, the latter better known as "The Woman Haters" of Houghton have not yet set a date for their proposed hockey match. They have, however, been indulging in a few preliminary practice games. The Palace rink opposite Houghton, has been a favorite place for them to steal away from curious eyes, the curling club generously allowing them the use of the ice. Monday evening, at the conclusion of the skating party given by Miss Pope in the Amphidrome, the teams decided to challenge in an afternoon what they could do. They did. It really was a fierce contest, the Benedictines winning out by the score of 3 to 2. Captain Gibson of the Portage Lakes was the referee. He was compelled at one stage of the game to rule Joe Hodgson off for rough work, although the latter was all out for a day when he got bumped. The goal umpires also did good work. Every time they saw the puck coming in their direction they would conveniently place the goals so that the rubber would have a better chance of getting away to the teams. The forthcoming contest between the teams will certainly be awaited with interest.

**NOW WANTS PAY FOR BOARD.**  
Gabriel Moreau of Hancock has presented a bill to the city council for \$10 for fifteen days' board during the time his home was quarantined, due to a case of diphtheria. Moreau claims that he was not allowed to return home and that he should be reimbursed for the board he had to pay elsewhere. The council is inclined to think that Moreau has a good deal of nerve to present a bill of the kind, for the reason that the city paid the expenses of the quarantine and medical attendance. Had the disease been any other than diphtheria Moreau and druggist's bills himself. The council has referred the matter to City Attorney Finnegan and he will report at the next meeting.

**WOODMEN TO CELEBRATE.**  
The members of Seneca camp, Modern Woodmen of America, of Calumet, will celebrate the twenty-first anniversary of the birth of the order by a social gathering this evening. The recently elected officers for the ensuing year will be installed, following which dancing will be in order. An oyster supper will be a feature. The camp has been in existence for fifteen years and it is in a prosperous condition, numbering in the neighborhood of 300 members. The order was instituted in the city of Fulton, Ill., on Jan. 5, 1883.

**SICK PARTS.**  
Dr. Humphreys' Specifics cure by acting directly on the sick parts without disturbing the rest of the system. There are thirty-five separate cures for the following maladies:  
Fever, worms, colic, diarrhea, dysentery, cholera, colds, neuralgia, headache, dyspepsia, female weakness, cramp, the skin, rheumatism, malaria, piles, ophthalmia, catarrh, whooping cough, asthma, carache, scrofula, general debility, dropsy, sea-sickness, kidney diseases, disease of the heart, epilepsy, sore throat, la grippe.  
Dr. Humphreys' medical book telling how to get well and keep well will be mailed free on request. Address: Humphreys' Medicine Co., corner William and John streets, New York.

## PRECAUTIONS TAKEN HERE.

Iroquois Theater Horror Serves as a Warning in Copperdom.

Since the Iroquois theater disaster in Chicago, municipal officials all over the country have inquired into the safety of public halls, churches, schools and theaters. In many towns measures have already been taken leading to improvements which will afford easy means of exit in case of fire, and also keep flames confined to theater stages. Hancock has not been backward in this respect. At Monday evening's meeting of the common council, the attention of the board was called to the fact that there are many buildings in the city which are not provided with fire escapes and sufficient means of exit, and the existing state of affairs was seriously discussed. Mayor Scott remarked that he thought it was the duty of the fire warden to look into the matter, but City Attorney Finnegan stated that he doubted whether the fire warden could take any specific action without instructions from the council. The council finally referred the matter to the committee and the ordinance committee with instruction to investigate, and if necessary to frame an ordinance which would cover it. There may be ordinances in existence which are not in force, but if so they have long been in force through neglect. It was remarked during the session that there are many old ordinances which need redrafting and attention. The city attorney intends to give this matter his attention.

## INDEBTEDNESS REDUCED.

Red Jacket Village Finances Show Notable Improvement.

The report of Clerk Nicholas Kaiser, of the village of Red Jacket, for the year ending Dec. 31 is gratifying to the common council and the taxpayers, and considerable agreeable comment is being heard since the report has been made public. The figures show that the debt of the municipality is fast being reduced. Eight months ago the indebtedness was \$10,833.83, and on Sept. 1 last it was \$3,647.46. It is now \$3,085.51, showing a total decrease since May 1 last of \$25,498.88. Collections of overdue water taxes, all delinquencies brought up to date in their accounts, had some thing to do with decreasing the debt, while additional liquor taxes and an increase in the collections on real and personal estate taxes brought the revenue up.

The clerk's report is concise and, in fact, it is the best of its kind ever presented to the council. During the year the collection of water taxes aggregated \$2,255.20; real and personal taxes, \$12,222.47; poll tax, \$657.90, the largest ever collected in the village; liquor taxes, \$36,407.11. The rent from the theater was \$1,705.

The treasurer's report, prepared by Dan Harrington, who is filling the vacancy caused by the death of the late Jerry Cronin, shows that the receipts for all sources during the year were \$57,496.26 and that village orders paid total \$53,495.11, leaving cash on hand in the bank of \$4,001.15.

## ICE HARVEST IN PROGRESS.

Martin Bros., the Houghton ice dealers, are harvesting a small crop of ice in the immediate vicinity of the Schuurman brewery on Portage Lake. The ice in the lake is poor this year, the poorer, it has been for several seasons, for the reason that the snow came early and kept coming. The consequence has been that the ice, which is eleven or twelve inches thick, is largely frozen snow. The ice that is now being cut will be used for storage and warehouse purposes. The firm contemplates cutting ice for domestic uses at the Huron dam and in Keweenaw Bay. The ice at those places is said to be clear and thick and especially desirable. A large crop will be harvested, and operations are soon to commence. Most of the copper country dealers carried stocks over from last year.

## FINNISH FRATERNAL HALL.

The Calumet Finnish societies, nine in all, which will join in the erection of a fraternal hall, are making preparations to start construction work as soon as possible in the spring. Each society has appointed a member to act for his respective organization in the matter. This committee will draw up by-laws and rules and regulations to govern the proposed home and will report at a joint meeting of the societies to be held next Sunday. The various organizations are much interested in the project. Plans for the building have not yet been made in detail, but there will be a large hall for use by all of the societies and reading rooms, also offices and store rooms for rental purposes.

## WANTS PEDDLERS TAXED.

At tonight's meeting of the Houghton common council, the Retail Clerks' union of Houghton and Hancock will present a petition asking that the council tax peddlers and fakirs who are regularly in competition with local merchants. A similar petition was presented at the regular meeting of the Hancock council Monday evening. The ordinance committee of the body already had under consideration the matter of regulating and taxing such lines of business. The petition, however, was accepted and referred to that committee.

## PAVING MAN ON DECK.

George H. Bussey of Detroit, representing Warren Bros. of New York, manufacturers of bitulithic paving material, has returned to Houghton. He will be in attendance at the council meeting this evening to tell the councilmen something about the material in the hopes of landing the contract for the paving of Sheldon street.

## WONDERFUL NERVE.

Is displayed by many a man enduring pains of rheumatism, Cuts, Wounds, Bruises, Burns, Scalds, Sores, frost or stiff joints. But there's no need for it. Buckley's Arnica Salve will kill the pain and cure the trouble. It's the best Salve on earth for Piles, too. 25c at The Stafford Drug Co.'s store.

## THE CONDUCTOR.

I had been suffering with a severe cold several days, and was so hoarse I could not speak above a whisper. Nov. 10th, I met one of Dr. Warner's cures on my train, he handed me a bottle of the White Wine of Tar Syrup, and one hour after taking the first dose my hoarseness commenced leaving me. In twenty-four hours my voice was quite clear and natural, the cold nearly cured. It is the best remedy I ever saw. Respectfully, Conductor Warren, Chicago & Northwestern R. R.

## "Little Colds" neglected—thousands of lives sacrificed every year.

Dr. Wood's Norway Pine Syrup cures little colds—cures big colds, too, down to the very verge of consumption.

## AT THE BRIDE'S HOME.

Miss Cameron and Wm. C. Douglas, Houghton, Are Wedded.

The marriage of Miss Grace Amelia Cameron, only daughter of Mr. and Mrs. John A. Cameron of Houghton, to William Corbin Douglas, also of Houghton, was solemnized at the Cameron home on Sheldon street last evening. The parlor, in which the ceremony was performed, and a dining room were tastefully decorated with holly and cut flowers, arranged by A. M. York, the Hancock florist. Only relatives of the young people were present. Rev. J. E. Curzon, rector of Trinity Episcopal church, officiated, the service being read under floral arch in one corner of the parlor. Miss Estelle Pryor was bridesmaid, and Robert Douglas, brother of the groom, was best man. The Lohengrin wedding march was played by Joseph Weismuller of Hancock. Miss Cameron was attired in a beautiful gown of white net over white silk, and Miss Pryor wore white chiffon over taffeta. The bride carried white roses and lilies of the valley, and the bridesmaid a bouquet of red roses. At 8:30, the wedding supper was served. Mr. and Mrs. Douglas left on the late train for Duluth and will go from there to Chicago and points East for a three weeks' honeymoon. On Monday, the bride will be "at home" in East Houghton. Both are well-known and popular young people.

## MEMBERS OF PORTAGE LAKE CLUB TAKING MUCH INTEREST IN CURLING.

A meeting of the Portage Lake Curling club will soon be called for an early date, probably this week, to make plans for the season soon to select regular skips for various teams of the organization. Much pleasure will be taken in the game by the members from now on. Before the holidays most of them were too busy to pay much attention to it, and the Palace rink, which will be used exclusively by the club this winter, remained deserted for many a stretch. A large number of the members are inexperienced, but with the help of those who understand the game they are rapidly learning.

Although curling is a poor game for the spectator, it is intensely interesting for the players. For a single game one rink against another, four men on a team, a space of 136 by 16 feet is absolutely necessary. The rink on which the game is played is forty-two yards in length. The two "tees," or scoring places, are thirty-eight yards apart. When two or more stones are within five feet in diameter, are drawn around the tees. The two "hog lines" are seven yards from each tee, and every stone not clearing these lines is called a "hog." There is also a middle line halfway between the tees.

The director of the team is the skip. He is the captain of his side and must be an expert in all the finest points of the game. A skip should be a man of imperturbable temper, never put out when a mishap occurs, never angry at his men, never blaming anybody but himself, in the hour of defeat unmurmuring, and in the hour of triumph generous. He should know what each man is able to perform, and have his place to fill. It is four against four battling around the tee, seeing who first will take it and who last will hold it.

The most important article to a curler is the curling stone. The Canadian curlers use stones of a rounded, smooth, weigh about ninety pounds, but in this vicinity only stones are used, and they weigh about forty-eight pounds. The Portage Lake club was organized this winter. The game has never been played to any extent in the copper country. As a skip should be a man of imperturbable temper, never put out when a mishap occurs, never angry at his men, never blaming anybody but himself, in the hour of defeat unmurmuring, and in the hour of triumph generous. He should know what each man is able to perform, and have his place to fill. It is four against four battling around the tee, seeing who first will take it and who last will hold it.

The members of Seneca camp, Modern Woodmen of America, of Dollar Bay, and their ladies enjoyed a social evening Tuesday in celebration of the twenty-fifth anniversary of the institution of Woodcraft in America.

Gus Larson of Florida street, Calumet, an employee of the Calumet & Hecla Mining company for a good many years, has left for California, where he will reside in the future. He has purchased a fruit ranch in "Frisco" county.

The Hodge Iron company's moulder, who walked out Monday owing to a misunderstanding over an agreement between the men and the company, returned to work yesterday morning, an amicable settlement having been reached.

Mrs. Thomas Hoatson and daughter, Gussie, of Calumet, have left for California, where they will spend the remainder of the winter. They go direct to Los Angeles, but will visit other places in the state before returning home.

The stores in Lake Linden, with few exceptions, are now closing at 6 o'clock each evening except Saturday. The clerks believe that the merchants who have not yet signed the agreement will soon do so. The agreement will be in effect until April 1.

George Mitchell, the well-known skater of Marquette and the Soo, will race a local man in the Hancock city rink tomorrow and Saturday evenings. Mitchell easily defeated Davey and Fredstrom, two of the best skaters in Calumet, in the Park rink in Red Jacket last week.

Marriage licenses were issued by County Clerk Richardson yesterday to the following: William Corbin Douglas and Miss Grace Amelia Cameron; William A. Robarge, Han-

**COPPERDOM BREVITIES.**  
Paul Fromholz has resigned his position as clerk in the postoffice at Calumet.  
News has been received of the death in Milwaukee of Benedict Lambie, a former resident of Calumet.  
The Invincible hockey team of Calumet will meet the Lake Linden seven in the Park rink at Calumet tomorrow evening.  
The German Aid society of Houghton has elected officers for the ensuing year as follows: Christof Fox, president; Michael Michaels, vice president; Jacob Hildebrand, secretary; Joseph Snitzer, treasurer; Joseph Etahl, Matt Hirsch, Jacob Steimle, Michael Messner, Casper Schulte and Joseph Vogt, Sr., trustees.  
Director S. J. Freeman of the Quincy band, has been put under a bond of \$200 to keep the peace for six months by Justice Oliver of Hancock. He was arrested on complaint of Elmer Johnson, a member of the band, who alleged that Freeman struck him during an altercation at the city rink in Hancock a few evenings ago.  
Emil Hendricksen has resigned his position with the Trivalente Publishing company of Calumet. Up to last October he was manager of the daily. He was succeeded at that time by Sacris Sivola, but he remained in the employ of the company as Mr. Sivola's assistant. The latter is now fully acquainted with the work.

William Snell, past president of One and All lodge, Sons of St. George of Calumet, has been presented with a past president's badge by his fellow members. He has just completed his term as president. The presentation was made at the regular meeting of the lodge Monday evening. Mr. Snell, in reply, spoke of the origin of the order and of the meaning of the various emblems of the badge, stating that he would prize the gift as long as he lived.  
The members of the Red Jacket fire department held a social session in the fire hall last evening. The event has been customary with the company about this time each year. The evening was pleasantly passed in games and other amusements and supper was served. Each single member of the department was presented with a box of cigars and each married member with some article of furniture or silverware as a holiday remembrance by the Gately-Wiggins company of Calumet.

**JUST ONE MINUTE.**  
One Minute Cough Cure gives relief in one minute, because it kills the microbes which tickle the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Sold by The Stafford Drug Co., Marquette; H. N. Meloché, Ishpeming.

**AN IMPERATIVE NEW YEAR'S ESSENTIAL**

is good meat, as it should be one of your good resolutions to have no other. New Year's happiness in a great measure depends upon what you eat and they whose table is supplied from Hathway's Meat Market are sure of always receiving the best of Best, Lamb, Mutton and Veal.

Order your Turkeys for New Year's early at  
**FRANK W. HATHWAY'S,**  
PALACE MEAT MARKET.

**LIQUIDATION YESTERDAY.**

It Marked the Boston Coppers Off Somewhat.

Paine, Webber & Co. said of the Boston market:

"London was a heavy and persistent seller of stocks in New York, on the war prospect. Prices were supported by Wall street buying until about an hour before the close, when liquidation became urgent and prices ran off rapidly. Copper was lower today than yesterday, but partly recovered the loss later. Sales of Lake were made in New York yesterday at 12 1/2 cents. If there is a war it will be pretty sure to help the copper situation and for that matter it should make all our standard commodities sell higher. This would be likely to help the stock market in the long run. We are disposed to favor purchases of good stocks on these sharp reactions."

Hayden, Stone & Co. wired W. H. Laidley & Co.:

"Our market sold off fractionally and became dull. Utah has been the feature for the last few days. We are very bullish on it and expect it to sell much higher, after it has recovered from its weak spots. United States Mining will sell higher. The balance of the list is strong, but there is nothing doing. Wolverine and Franklin are working higher each day, on very few sales."

**War Scare Continued.**

The Hadden-Rodee New York letter was as follows:

"There was another day of war scare. Acute uneasiness over the situation in the Orient governed not only this market, but those of Europe as well, and securities everywhere showed a speculative discounting of an outbreak of hostilities between Japan and Russia. We do not pretend to say that war would not be a serious matter for this country, but we do insist that its advantages have been overlooked in the general excitement inspired by the present prospect. The thing we have most to fear, perhaps, is the drain on our money resource, direct or indirect, this being one of the principal money centers of the world, but on the other hand the general liquidation of the market will certainly stimulate industries as to the immediate future of which some of our economists are apprehensive. News of a declaration of war no doubt, if it were given, would cause a shock in the financial center, but after this we should our securities should recover sharply in all departments, except those in which selling pressure might arise from a foreign account. If this uncertainty and apprehension continues for say a week the declaration of war will certainly discount the fact that the worst had already been done. The declines we have had in the stock market already discount a good deal. Steel common made a new record today that being the response to a demand for profit which would certainly not surprise us to see it sell now around 5 or 6, owing to general apprehension of the fact that once it has been stricken from the dividend list it will never look back. We have not yet experienced the full sentimentality of this action on the part of the steel corporation directors. There are many holders to whom the news will mean the wiping out entirely of their incomes."

**Upper Peninsula.**

Telephone Line Branching Out—  
The Finch Telephone company of Escanaba intends to extend its line to Cedar River this winter. In the spring it is the intention to extend on to Menominee.

Cutting Wood for Charcoal—  
The Manistique Iron company has put in a camp of thirty men at Garnet, Mackinac county. The force will be employed during the winter, cutting hardwood for use in making charcoal.

Library for the Men—  
The Wm. Mueller Lumber company of Chicago has established a library for the use of its employees at Blaney, Menominee county. Late books, the leading magazines, newspapers, etc., have been provided.

Now Located in the West—  
Albert J. Pauli, formerly a well known merchant of Menominee and ex-treasurer of Menominee county, is now located at Portland, Oregon. He is the head bookkeeper for the American Fisheries company, a most remunerative and responsible position.

Sleigh Under the Ice—  
A loaded logging sleigh, the property of J. E. Bergeron of Norway, is somewhere under the ice in the Menominee river. The load broke through at the landing (the horses having been unhitched) and disappeared. Most diligent search has so far failed to locate it.

Cupid Busy in 1903—  
County Clerk Smith issued 248 marriage licenses in Delta county during the year of 1903. This is a record breaking number for the county, being ten ahead of the number issued in 1902. During the last two months, however, the matrimonial market has been remarkably quiet.

Rose Boscomb, Detroit: "I paid out all I could earn trying to cure the eruptions on my face. All failed except Hollister's Rocky Mountain Tea. Now have rosy cheeks, skin soft and fair." 35 cents. Stafford Drug Co.

Terrible plagues, those itching, pestering diseases of the skin. Put an end to misery. Doan's Ointment cures. At any drug store.

Twenty per cent off on cut glass at Stafford's. Some good things, too. (1-1f)

Every barrel Gold Medal Flour guaranteed the same—the best.

Now is your chance to get china and cut glass at a bargain at Stafford's. (1-4-1f)

**PROPOSALS.**

Buildings to be Erected for the MICHIGAN EMPLOYMENT INSTITUTION FOR THE BLIND.

Office of the Board of Trustees of the Michigan Employment Institution for the Blind, Saginaw, West Side, Michigan.

Sealed proposals will be received at the above specified office up to noon February 17th, 1904, for the construction of the following buildings:

- One Dormitory Building.
- Two Dormitory Buildings.

According to plans, drawings and specifications prepared by Clarence L. Cowles, Architect, of Saginaw, Michigan. Said plans, specifications, drawings, etc., may be consulted at the office of Clarence L. Cowles, Architect, of Saginaw, Michigan, and after January 17th, 1904, where blank forms for proposals can be obtained, or at this office. Said proposals must be in conformity to and with all laws of the State of Michigan, and be accompanied by a cash deposit of not less than 5 per cent of amount of bid. No bids considered unless accompanied with certified check. To above specified local address, the right to reject any and all bids in part or entirety. J. P. HAMILTON, Secretary.

**LIQUIDATION YESTERDAY.**

highway commissioner. Strand's claim is that the highway commissioner ignores his petition to have a highway laid out to his farm of 160 acres, located seven or eight miles from Au Train. To provide the road, some two and a half miles of highway would have to be built. The order to show cause is returnable on the first day of the February term buying until about an hour before the close, when liquidation became urgent and prices ran off rapidly. Copper was lower today than yesterday, but partly recovered the loss later. Sales of Lake were made in New York yesterday at 12 1/2 cents. If there is a war it will be pretty sure to help the copper situation and for that matter it should make all our standard commodities sell higher. This would be likely to help the stock market in the long run. We are disposed to favor purchases of good stocks on these sharp reactions."

**Has an Asbestos Curtain—**  
The Menominee theater is provided with fire escapes for the balcony and galleries as well as the main entrances and also has an asbestos curtain. There are plenty of exits from the stage, so that the theater building is considered reasonably safe and in the event of a fire the people would probably be able to get out safely. Other places of amusement, as well as hotel buildings, need attention in this regard, however. There are no fire escapes at most of the hotels. A proposed ordinance will direct that they be provided. The ordinance will be presented at the next meeting of the city council.

**Cardwood Mill Ready—**  
The sawmill of the Mashek Chemical company at Welsh, Delta county, is practically finished, and will be put in operation in a few days. The mill is the first individual part of the plant to be used in the manufacture of wood alcohol to be finished. It will employ a crew of eighteen or twenty men, and will generate about a million gallons of wood alcohol per year. The sawmill is not to be used in the manufacture of lumber, but will saw cardwood logs into cordwood from which the alcohol will be manufactured. The capacity of the sawmill will be several cords a day. The chemical manufacturing plant will not be completed until some time in March, and by that time the sawmill will have a good start at producing thousands of cords of cordwood cut per day.

**Government May Not Prosecute—**  
A decision in the minds of the officers of the Escanaba Police department is as to what will be done with the Escanaba crooks now in the county jail on a charge of robbing the Escanaba bank and of other offenses. The officers expected to see before this government officials would have had the state case dropped, the men remaining on a more or less charge. Nothing has yet been done, but the men are charged with stealing clothing, a gold watch from the City Hotel, and a watch from the City Hotel, and a watch from the City Hotel. Sheriff Alex. Robison says that he has no objection to the men being let out, but that they are going to do it in the future. He is confident that they have done considerable damage to the city, and that they are a real menace to the community. He does not know what the city will do, but he thinks the men will be let out on the grand larceny charge.

**In the Chicago Horror—**  
It was not learned until the week that Hugh Robertson, the brother of Escanaba and his little daughter Norma were among those who were in the line in the Inoquois theater in Chicago at the time of the fire and were among those who escaped without injury. Their escape was due to Mr. Robertson's presence of mind in a moment of emergency. He and his daughter occupied the front of the parquet. When the rush for the exits started, Mr. Robertson waited a few moments until the flames were seen roaring through the mass of scenery, and then seeing that it was impossible for a person to pass through the crowd, he led his daughter to the door, and she climbed up on top of the seats, started to run over the backs of them. It was a very remarkable physical feat and one very difficult to accomplish had he not been spurred on by the flames behind him. He reached one of the exits while the rest of the people who had been seated near him were still struggling in the front of the aisles. He pushed through into fresh air and safety. The little girl retained her composure, although much alarmed, but her father, the child not Mr. Robertson himself realized at first how narrow an escape they had until the awful holocaust within the balconies became known. As far as can be learned, these are the only Escanaba people who were in the theater at the time of the fire.

**THE "BITS" GIRL.**

The Source of Her Curious and Fragmentary Wardrobe.

A bit of ribbon, a wisp of lace, a scrap of chiffon, the fragment of a feather—this is the lot of the "bits" girl, while her gowns are adorned in the same irresponsible fashion. Watch her going down town on a morning full of consciousness pride in her personal toilet with a little swagger in her walk, plenty of frayed edge visible at the hem of her skirt, usually a pair of down-trodden heels very much in evidence, while her showy kid gloves present more than one peeping finger-tip.

Should a sportive wind meet the "bits" girl at some unsheltered corner there is a frantic striving to catch the hat, from which the bits of its trimming are swiftly parting; a desperate clutching at the lace and furbelows that float round her neck and flutter over the collar of the nearly always buttonless coat.

Bargain sales find the "bits" girl very much to the fore. Bits, bits, bits, all ways those everlasting bits. Never by any chance does she buy enough material to make any one garment, it is always bits of this, bits of that, bits of the other. Even her coats and skirts are certain to be short somewhere of their original base, a bow being dabbed on here or a streamer of chiffon suspended there to hide the deficiency.

Polks smile at the "bits" girl, this typical daughter of suburbia, but shake their heads mournfully at the mere mention of marriage in connection with her name.

**CHILDREN POISONED.**

Many children are poisoned and made nervous and weak, if not killed outright, by mothers giving them cough syrups containing opiates. Foley's Honey and Tar is a safe and certain remedy for coughs, croup and lung trouble, and is the only prominent cough medicine that contains no opiates or other poisons. Desjardins' Pharmacy.

**PRESIDENT OR VICE PRESIDENT?**

Which Office Does Theodore Roosevelt Hold Today?

Is Mr. Roosevelt president? Is he not in reality the president?

In case of the disability or removal of the president his duties under the constitution devolve upon the vice president, but does the constitution provide that he shall become president? Were the president living, but unable to discharge the duties of the office, would the vice president become president by reason of exercising the presidency? Can we have two presidents, the constitution providing one? If not, then by what provision of law does the president cease to be president during his disability? Would he not discharge the duties of the office when he resumes the duties of his office? Is not the president, notwithstanding his disability, still president until removed by death or impeachment? If the vice president cannot become president during the disability of law can he become president upon the removal of the president?

Congress under the constitution may provide and has provided by law that officers shall exercise the presidency during the disability of both the president and vice president. This law designates the secretary of state as one who shall so act; but would the secretary of state become president? Would he not still remain the secretary of state? Could he resign as secretary and still perform the duties of the presidency? Is it not true that in order to exercise the presidency he must be secretary of state? Would he not discharge the duties of the presidency by virtue of his office as secretary of state? Is it not equally true that the vice president discharges the duties of the presidency by virtue of being vice president? Were he not vice president, could he discharge the duties of the presidency? The constitution defines the duties of the vice president. He shall preside over the senate except when exercising the office of president. Does this provision mean that he shall under any circumstances be president? If this were indeed the case, would the constitution so state? Can there be a president elected by election? Does not the constitution in fact provide for election and against succession? And is not Mr. Roosevelt still vice president discharging the duties of the presidency by virtue of his office as vice president?

Monarchs reign by succession—the king is dead, long live the king! But in a republic, the people are the rulers and it is their will alone which makes or un-makes presidents. Not the mere accident of death, or any other accident, which cuts short the term for which they are elected. William McKinley could make Theodore Roosevelt cease to be vice president (the office to which he was elected) and become president, to which office he has not been elected.—Albany Argus (Dem.)

**GAMBLING FACE.**

Expression Announces Whether a Man Is Short in Accounts or Not.

"How the fellow looks who loses or wins a bet on a race horse is an old subject, and yet it is ever new," said the observant manager of a track, within his own limited range of observation. "I have noticed differences more or less striking in the cases of men who were manifestly passing through the same kind of emotion. It may be said of poolrooms that there is the winning and the losing, and these looks are widely different as it is possible for the dissimilarities of the human countenance to make them.

"It is easy enough to tell from the look of a man's face whether he has won or lost. But the degree and nature of the expression is quite a different matter. Here is where the interesting part of my observation comes in. One man's winning or loss may mean much or little to him. Whatever it means, and whatever the result of the bet, it may be found in the way he looks and the way he acts. The man who is successful in his betting, who has won by a bet, will listen to the calls and may detect somewhat of the significance of the event to him. If the result is large in its consequences one may tell it by the desperate look which his face wears pending the result, or the nervousness he displays when tearing at the losing ticket; or the inexpressible brightness which shines in his face when he rushes up to cash in the bet he has made, in the event of success. Let me observe a man's conduct in the pool-room and I will tell you nine times out of ten whether his accounts are straight or not. Of course, there are exceptions to the rule, but no mistake will be made on the basis I have suggested—nine times out of ten."—New Orleans Times-Democrat.

**WINTER IS COMING BRINGING CATARRH**

Every Catarrh sufferer dreads the coming of winter, for with the first breath of the "ice-king" this miserable disease is fanned into life and all the disgusting symptoms return. The nostrils are stopped up and the throat can be kept clear of mucous secretions only by continual hawking and spitting. Catarrh is a nuisance and source of annoyance, not only to the one who has it, but everybody else. The thick, yellow discharge from the head produces a feeling of personal defilement, and the odor of the breath is almost intolerable. The catarrhal poison brings on stomach troubles and affects the Kidneys and Bladder. It attacks the soft bones and tissues of the head and throat, causing total or partial deafness, the loss of smell, and giving to the voice a rasping, nasal twang. No part of the body is secure from its ravages. Catarrh makes you sick all over, for it is a disease of the blood, and circulates all through the system, and with this reason, sprays, washes, inhalers, powders and salves have proven failures.

The way to cure Catarrh thoroughly and permanently is to cleanse the blood of the unhealthy secretions that keep the membranes of the body inflamed, and nothing does this so surely and promptly as S.S.S. As long as the blood is poisoned with Catarrhal matter the discharge of mucus and other disgusting symptoms of the miserable disease will continue. S.S.S. goes to the fountain source of the trouble and purifies and enriches the blood, and so invigorates and tones up the system that catching cold and contracting Catarrh is not so likely to occur. Keep the blood in order and winter's coming brings none of the discomforts of Catarrh.

Write us particulars of your case, and let our physicians help you get rid of this blood-tainting and stubborn disease. We make no charge whatever for medical advice.

It cleanses, strengthens and purifies the entire System. Price 50¢ and \$1.00 at your druggists.

**A. H. Lewis Med. Co., St. Louis, Mo.**

**Save Your Daughter**

No. 185 West 88th Street, New York City, N. Y., April 2, 1903.

Wine of Cardui has been a blessing to my home. I have often found that it was a great relief when I was weary or in pain, but I am especially grateful for what it did for our daughter and only child. I noticed that her menses were tardy and she suffered with headaches and riddiness, heaviness in the abdomen and about the loins. This seriously interfered with her studies and she had to discontinue several of them.

My doctor calling on me and discussing the matter suggested that I give her a course of your Wine of Cardui as it had relieved her daughter of a similar trouble. After my daughter had used it for five weeks I found a great improvement in her looks, health and behavior, in fact she was a different person.

The flow of menses regular and we have not had any difficulty since.

Lizzie H. Thompson  
TREASURER, HATHORNE MEMORIAL ASSOCIATION.

**WINE OF CARDUI**

If the menstrual function had not been properly started and the unnatural condition was making the young girl an invalid. The headaches and riddiness, indicated something more than a mere temporary ailment. They were symptoms of a functional weakness which would become more and more aggravated as years went by. But Mrs. Thompson was ready to take advice for her daughter's welfare and she gave the little sufferer Wine of Cardui and now she is a well young woman.

If your daughter is sickly and frequently ailing the letter of this good mother containing the best advice you can follow.

Wine of Cardui is the menstrual regulator that cures nine cases out of every ten. Young girls, mothers and aged women find this tonic indispensable. All druggists sell \$1.00 bottles Wine of Cardui.

**DOES ANYONE KNOW HIM?**  
Body of a Former Ishpeming Man Identified at Hancock.

The following account of the sickness and death of Fred Anderson, evidently a former resident of Ishpeming, appeared in a copper country paper:

"The remains of Fred Anderson, the man who died last Saturday morning in St. Joseph's hospital, are still lying in Crawford's morgue awaiting a claim from some one of his relatives, if any there be. Anderson came to the hospital from Boston, where he had been working on the section a few days before his death. Death was caused by cancer of the stomach.

"After his death a search of his personal effects revealed nothing but a bank book and a few photographs. There was nothing which might lead to locating his relatives, except the fact that the pictures were taken in Ishpeming and in a town in Norway, his native land. There was a slip of paper bearing the address of Franz Skjyllberg, 3097 Wentworth avenue, Chicago, but this was evidently an address given him in Sweden by some one who desired him to look Skjyllberg up. Anderson was at Johnson's saloon before going to the hospital and Mr. Johnson learned that he had returned from a visit to Sweden only a short time ago.

"He took out his papers in Marquette county in 1880 and there has been a resident of the United States close on to thirty years. His bank book shows that he has an account in the Superior Savings bank of Hancock of \$225. If no relatives claim the body before that time, Anderson's remains will be buried in Lakeside cemetery next Thursday afternoon from the Swedish Lutheran church."

**OUT FOR TRACK HONORS.**  
Escanaba Will Have a Fast Team in the Field in Spring.

The Escanaba Mirror publishes the following:

"We are going to have a track next spring," said Superintendent Jolliffe of the city schools, "and I think we should have a good one. We have some good sprinters, some good distance men and with the number of large men we have we ought to develop something good at throwing weights. We have plenty of material for a good team."

This means that Ishpeming is not to have everything its own way on the track in the upper peninsula next spring. The men who played in the football team last fall are all good athletes and they are going to get out and train next spring. We have men with weight and strength who with some training and coaching should overcome anything in the north at throwing weights. Emil and J. Sener, Escanaba's two tackles, should both do great work in this line. Then there are several men who are speedy runners and of good wind, and Superintendent Jolliffe thinks we could develop some excellent men for the distance events. We have good jumpers also, and some good coaching will make a formidable team to represent Escanaba. We have all the material necessary and all that is needed is for the boys to take up the spring training in earnest, which they promise to do.

Already the boys are talking track events, and there seems to be much interest. The boys look upon Frank Nugent as a strong point in the team. Nugent was Escanaba's right end, and he demonstrated the fact whenever he was allowed to carry the ball last fall that for a short distance he can run in a circle around the average high school sprinter. The hundred and twenty yard dashes should be good game for Nugent, and he looks to many like a prospective ten second man.

"THE OLD SCRATCH."

How the Evil One Came to be Popularly Known as "The Old Scratch."

One of the many familiar names of his satanic majesty is "The Old Scratch." It is undoubtedly due to the fact that scratching is so disagreeable that people thought it no worse than the evil one. A scalp full of dandruff keeps one scratching all the time; not only disagreeable but considered very inelegant in polite society—as it should be—because one ought to keep the scalp so clean that it would not itch. To cure the scalp of dandruff effectively, use Newbro's Herpicide. It kills the germ that creates the dandruff, which is preliminary to falling hair, and, finally, baldness. No other hair preparation kills the dandruff germ. Herpicide also is a very delightful and effective hair-dressing. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Stafford Drug Co., special agents.

**WORKMEN AND FAMILIES.**  
All members of the United Workmen and Degree of Honor and their families are invited to attend a joint installation and social at A. O. U. W. hall Thursday evening, Jan. 7.  
(1-6-24) COMMITTEE.

**BULLS AFTER THE LADDIES.**  
Members of Kilties Band Had an Exciting Experience in Mexico.

W. W. Powers, advance representative of the Kilties band, which will give concerts at the Ishpeming theater next Sunday evening and Monday afternoon and night, tells an interesting story in connection with the famous Scottish musicians.

During the tour of the organization last year, the Kilties found themselves one afternoon at a big bull fight in one of the large Mexican cities, where they began their concert amid uproarious applause from the delighted Mexicans. As always the case, the Kilties were dressed in their picturesque uniforms, about which there is a great deal of red color. After the first part of the concert, a number of bulls were admitted to the arena, and the strenuous part of the entertainment began. Everything proceeded nicely until the leader of the bulls, a big shaggy, wild creature, caught sight of the mass of red color in the band stand occupied by the Kilties. The fight stopped right then and there—the bull gave a snort of rage, which seemed to call his fellows from their attacks, and the entire herd, without ceremony, made an onslaught on the band stand, attempting to elmb into it. The Kilties are brave and valorous men, but when they saw the charge of the maddened bulls, they fled incontinently from the stand, leaving instruments and other paraphernalia behind.

**HELPING THE NEEDY.**  
Scandinavian Society Distributes Funds to Assist Worthy Members.

The members of the Scandinavian society held an enjoyable meeting Thursday evening at the lodge hall, where the newly elected officers were installed, as follows:

Past President—A. H. Holter.  
President—A. Clifton.  
Vice President—Ch. Presthus.  
Recording Secretary—Ch. Wallenstein.  
Financial Secretary—A. Bjurman.  
Assistant Secretary—Peter Aronson.  
Marshal—John Ole.  
Assistant Marshal—Peter Solberg.  
Chaplain—Ch. Chillman.  
Inner Guard—Ole Syrstad.  
Outside Guard—Chas. Johnson.  
Librarian—Peter Olsen.  
Trustee (eighteen months)—Aksel H. Holter.

A fine supper was served. Baskets of groceries were sent to two needy widows, and a sum of money was voted for distribution among needy members. The society is now thirty-two years old and is one of the most prominent benevolent organizations in the city.

**EMPTIED IN TWO MINUTES.**  
As the crowd was leaving the Ishpeming theater Tuesday evening a man who stood outside took out his watch and observed the time it required to empty the house. Only a trifle over two minutes elapsed from the time the first person reached the sidewalk until the last came out. The two upper floors, which are the slowest to vacate, were well filled, although the attendance on the lower floor was not very large. With the fire escapes open it would be possible to empty the entire house in less than three minutes.

**INSTALLATIONS AND SOCIALS.**  
The members of St. John's court, Catholic Order of Foresters, will entertain the Women Foresters and other members of their families this evening at Convent hall. The newly elected officers will be installed, after which there will be luncheon, followed by card playing. It is expected that the hall will be well filled, as nearly every member of both courts has planned to attend.

**SAVED FROM TERRIBLE TROUBLE.**  
The family of Mrs. M. L. Bobbitt of Bargerton, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for Consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed Bottles 50c and \$1.00. Trial Bottles Free at The Stafford Drug Co.'s store.

**WHAT'S IN A NAME?**  
Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago discovered some years ago how to make salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases. De Witt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by The Stafford Drug Co., Marquette; H. N. Meloche, Ishpeming.

**MELOCHE BOUND OVER.**  
Doctor Must Answer in Circuit Court to the Charge of Assault.

The preliminary hearing of Dr. H. N. Meloche, charged with assault with intent to do great bodily harm, took place yesterday before Justice William Andrews, Attorney M. H. Crocker appeared for Meloche. He addressed the court for some minutes in the argument that Richard Chapman, the defendant, was not justified in taking the lumber away from Meloche's store, thus provoking the plaintiff so that he lost his temper. Mr. Crocker will defend Meloche at his trial at the circuit court. Young Chapman thinks he has a good case, and he declares that he will not settle. Meloche gave bonds in the sum of \$500.

**Dr. Weaver's Syrup**  
Purifies the blood and cures (obstinate) for the skin.

We will convey couples to and from the theater or dancing parties at \$1 per couple. Hodgkins' livery. (1-2-1w)

It contains ALL the medicinal elements of cod liver oil, actually taken from genuine, fresh cod-livers, with organic iron, and other body building ingredients...

GREATEST MODERN STRENGTH CREATOR

known to medicine—the original GUARANTEED REMEDY FOR

Chronic Colds—Hacking Coughs. Sure signs of danger ahead. VINOL is the exact medicine needed.

Bronchitis—Sore Lungs. There is no medicine so valuable for restoring strength to the throat and lungs as VINOL.

Debilitated—All Tired Out. It is not natural to feel continually tired. We guarantee VINOL will bring life, strength and vigor to the debilitated, run-down system.

To Gain Flesh—To Get Strong. We know VINOL will make flesh faster than any preparation containing grease. We can prove that VINOL quickly creates strength.

Old People—Weak People. Need a strengthening and invigorating re-builder. VINOL is of exceptional value in such cases.

Nervousness—Irritability. Diseased nerves are due to overwork, insufficient nourishment or slow breaking down of general health.

Pale Women—Pale Children. Pale, haggard faces show that the blood is poor and thin, also indicate imperfect digestion.

Nursing Mothers—Weak Mothers. You know the life and future development of the child depend upon proper nourishment.

THIS WARRANT IS PRINTED ON EVERY VINOL PACKAGE.

We mean exactly what we say in this Warrant—without reservation or equivocation. We know VINOL is the best tonic preparation and general re-builder of health known to medicine.

Negaunee and Vicinity.

[Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription account.]

A YEAR'S RECORD. There Were Twenty-Seven More Deaths in 1903 Than in 1902.

The total number of deaths in Negaunee during 1903 was 109, compared with eighty-two the previous year.

Last year's record is considered high, but an inspection of the records shows that nearly half the deaths were of children under one year old or men killed by accident.

There were thirteen deaths of persons whose ages were seventy years or over. The oldest was Marcellus Granz, who had passed the ninety-one-year mark.

Of the accidental deaths three occurred at the mines, three on railways, one by falling down stairs and the other by a runaway horse.

The officers were installed by Past Venerable Consul Thomas Treen, who was later called upon to speak.

WOODMEN ENTERTAINED. Members and Their Ladies Had a Good Time Tuesday Evening.

The A. O. U. W. hall was comfortably filled Tuesday evening with Woodmen, their ladies and a few invited friends.

SOLD THE OLD TREMONT. J. E. Sness, who has owned the old Tremont hotel on Jackson street for some years past, has disposed of it to John Stein.

ADDITIONAL ISHPING. ISHPING IN BRIEF.

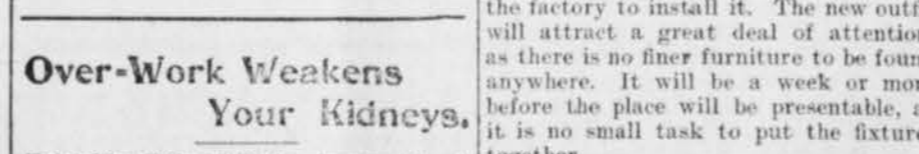

Ed Clark left last evening for Chicago, where he will spend a few days buying new goods.

LOCAL LACONICS. F. D. Davis arrived home Tuesday from the lower peninsula and other points.

A private hop will be given Saturday night at Cyr's hall. The invitations will be limited and a good time is assured.

OVER-WORK WEAKENS Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

A VERY CLOSE CALL. "I stuck to my engine, although every joint ached and every nerve was racked with pain."

"I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life."

A VEST-POCKET DOCTOR. Never in the way, no trouble to carry, easy to take, pleasant and never failing in results.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

YOU'LL HAVE NO GROUNDS

for complaint if you use coffee purchasable or ordered here. Watching our buying, as well as our selling, closely, every housekeeper dealing with us may be certain of securing not only good coffee, but other groceries, at prices not the biggest. A few hints like these suggest much.

MANY THOUSAND DOLLARS TIED UP

SOME SEVENTY TIMBER AND STONE FILERS WONDER WHAT DEPARTMENT WILL DO.

MAY GET THEIR MONEY BACK

SPECIAL AGENT DWYER TO INVESTIGATE THEIR CASES.

Irregularities Are Alleged—Agent Has Only Started the Work and Has Asked for Some Assistance.

Some seventy Marquette people have several thousand dollars tied up, and it isn't in stocks either. It is in the hands of Uncle Sam, to wit, in the hands of the government, which patents have not been forthcoming and are not expected until an investigation required by the department is concluded.

All this is simply another echo of the operations in this county, particularly in Marquette city, of David Holmes, a late resident. With no exception the seventy timber and stone claimants referred to above were located by Holmes, in the eastern part of the peninsula, especially in Lake and Chippewa counties.

Street Commissioner French says that when the projected work, for which contracts have already been let, is finished, Marquette will have built a little over two miles of sewer during the year, last summer and the present winter. This establishes a record that is likely to stand for a considerable time to come.

John Plattenberg has men at work on Michigan and Oak. Monday he plans to start another gang on Michigan street, between Third and Fourth. Four other sewers are to be undertaken shortly, and will be finished before spring. Plattenberg has two of these contracts and Johnson and Erickson the others.

The demand for the sewers built to date this year, also those about to be undertaken, came from the people themselves, and in no instance have they been forced on the property owners, although there were some of the latter who protested against the sewer on Michigan, between Third and Fourth. Their protests, however, were dictated by the fact that they already had sewer connections, and not by a lack of faith in the utility of sewers.

What a happy world this would be if everybody would take Rocky Mountain Tea. 35 cents, tea or tablets. Stafford Drug Co.

The best life preserver for children is plenty of Vandendoom's fresh milk. (12-31-6d)

ALWAYS READY, ALWAYS BRIGHT. Such is the verdict given to gas by our customers. Try gas for light. You'll be satisfied then. The Marquette Gas Light Co.

The Marquette City band will give a hop at Fraternity Hall Thursday evening. Admission twenty-five cents. (1-6-2d)

ARTIFICIAL SUNSHINE. THE GAS ARC LAMPS. Use GAS FOR LIGHT. You will then have a rich, steady and shadowless light. The nearest approach to daylight. Gas Arc Lamps installed and maintained absolutely free. The Marquette Gas Light Co.

The amount of money involved cannot be definitely given, but \$20,000 is generally held to be a moderate estimate. Allowing 100 acres to a claim, said to be a very conservative figure, there would be 7,000 acres in all, worth at \$2.50 an acre \$17,500, a goodly sum to have tied up for an indefinite period.

JURY RECONVENED.

Damages on Piece of Mrs. Longyear's Property to Be Fixed.

The jury originally called to condemn the right of way for the Marquette & Southeastern railroad where it had to get around Lighthouse point has been reconvened to meet on the 12th of this month, for the purpose of allowing damages on the piece of property owned by Mrs. Longyear at the east end of Lake street, between Lake and Ridge streets.

DECEMBER WEATHER.

Meteorological Summary Contains Some Interesting Information.

The unusual cold spell occurring in the month of December had the effect of making it the coldest December experienced since 1886, as shown by the meteorological summary from the Marquette weather bureau. The mean average temperature for the month was seventeen degrees, compared with an average of 22.4 degrees for thirty years. In '86 the temperature for December was sixteen degrees. Back from '86 it is necessary to go to '79 to find a year when the December was as cold as 1903, and then it was seventeen degrees. The precipitation for the month, despite the fact that the snow on the ground is unusually heavy for this time of the year, was only about the average, 2.48 inches, compared with 2.45 for thirty-three years. The heaviest December for precipitation occurred in 1884, when the remarkable record of 8.65 inches was made.

TWO MILES OF SEWER.

They Will Have Been Laid When Projected Work is Finished.

Street Commissioner French says that when the projected work, for which contracts have already been let, is finished, Marquette will have built a little over two miles of sewer during the year, last summer and the present winter. This establishes a record that is likely to stand for a considerable time to come.

John Plattenberg has men at work on Michigan and Oak. Monday he plans to start another gang on Michigan street, between Third and Fourth. Four other sewers are to be undertaken shortly, and will be finished before spring. Plattenberg has two of these contracts and Johnson and Erickson the others.

The demand for the sewers built to date this year, also those about to be undertaken, came from the people themselves, and in no instance have they been forced on the property owners, although there were some of the latter who protested against the sewer on Michigan, between Third and Fourth. Their protests, however, were dictated by the fact that they already had sewer connections, and not by a lack of faith in the utility of sewers.

What a happy world this would be if everybody would take Rocky Mountain Tea. 35 cents, tea or tablets. Stafford Drug Co.

The best life preserver for children is plenty of Vandendoom's fresh milk. (12-31-6d)

ALWAYS READY, ALWAYS BRIGHT. Such is the verdict given to gas by our customers. Try gas for light. You'll be satisfied then. The Marquette Gas Light Co.

BAND MUSIC TONIGHT.

The Kitties Will Be the Attraction at the Marquette Opera House.

This evening at the opera house the Kitties, the famous Gordon Highlanders of Canada, will be heard in an entertaining and diversified program of classical and popular music, selections from the Kitties' choir and the band's soloists. In addition there will be Scottish reels and other national dances. The Kitties are now on their ninth annual tour of the United States, and it is anticipated with the same success that was the lot of its predecessors. Everywhere the band is greeted with large audiences, and in many of the leading theaters the house records for receipts are broken.

IN U. S. SUPREME COURT

IMPORTANT IRON LANDS LITIGATION TO HAVE HEARING.

Iron Cliffs Co., et al, Have Taken an Appeal in Case Against Neegaunee Co., et al.

W. S. Shaull, who was this week, together with Congressman H. O. Young, admitted to practice before the United States supreme court at Washington, has filed before that court his appearance, as counsel for the Neegaunee Iron company, et al, in the appeal brought by the Iron Cliffs company, et al, in the matter of the old ninety-nine year lease to lands now in possession of the Neegaunee company at the city of Neegaunee.

The electric light and power commission's horse ran away yesterday morning. It started from the hill and made a dash down Front street, turning on Main to Fay & Bricker's stable. No damage to speak of was done. This is the same horse that a few weeks ago ran nearly twenty miles north from the city to the neighborhood of Sauk's Head, getting itself lost, and finally returning to the stable after two days, stripped of the harness. The animal is unusually versatile and original in its stunts, and its driver never knows what is going to happen next.

ANNOUNCEMENT. The management of the Marquette City & Presque Isle Railway company desires to announce that hereafter parties desiring cars between the hours of 10:30 p. m. and 6:00 a. m. can secure the same on application at the office. The charge for these cars will be one dollar (\$1.00) per hour in addition to the usual fare.

NOTICE. Stafford's offers many good bargains in their 20 per cent off sale of china. (1-4-1f) DRY WOOD. Four feet and 16 inch dry pine slabs delivered on short notice. Phone 959 or 231. SOUTH ARM LUMBER CO. (11-26-1f) NOTICE. I am prepared to take pupils in shorthand and typewriting at my home, No. 219 Blaker street. Any bright young man or woman who wishes to be fitted for office work in four months' time will do well to begin at once. Testimonials furnished if desired. (1-2-1w) MRS. L. LOWELL.

NOTICE. Marquette, Mich., Jan. 1, 1904. Notice is hereby given that the annual meeting of the stockholders of the Lake Shore Engine Works, for the election of directors and the transaction of other business, will be held at its office in the city of Marquette, in the state of Michigan, on the third Monday (the 18th) of January, A. D. 1904, at 2 o'clock p. m. J. F. KEHN, Secretary. (1-2-14t)

THEY BRIGHTEN EVERY STORE IN WHICH THEY ARE USED. ALWAYS READY TO GIVE A STEADY, BRIGHT AND ECONOMICAL LIGHT. Try one. It costs nothing. The Marquette Gas Light Co. PROMPT SERVICE. We have engaged extra help and are now in a position to fill orders for photographs in from two to four days. M. M. STIERLE, (12-2-1m) Photographer. THOUGHT TO BE IN THE LAST STAGES OF CONSUMPTION. I have just received the White Wine of Tar. We think there is no medicine like it. It cured me when I was thought to be in the last stages of consumption. I will always recommend it to those that have any disease of the lungs. Mrs. Minerva Burgess, Byars, Ill. (1-2-14t)

CITY BREVITIES

Weather forecast: Warmer; probably snow flurries. Yesterday's temperature: Seven a. m., 21 degrees; noon, 25; 7 p. m., 23. Maximum, 28 degrees; minimum, 19.

T. E. Gaffney, of Neegaunee, was a Marquette visitor yesterday, being down on a business mission. The state supreme court has affirmed the circuit court decision in the case of Shoultice vs. the McLeod estate.

Mrs. Frank Olson, West Ohio street, was pleasantly surprised by a number of her friends last night. Cards and music were the order of the evening. Refreshments were served.

The street railway company gave its new snow plow and sweeper a trial yesterday. It will henceforth be used to clear the tracks after all storms and is expected to do the work speedily and with little expense. It is guaranteed to be serviceable in the worst of snow storms.

Deputy Game Warden Brewster investigated a case at Humboldt yesterday. It was thought that the deer from which the head found in William Corkill's possession was taken had been killed since the close of the season, but the man who killed it was ready to take affidavit to the contrary and had abundant witnesses to substantiate his statements.

The Marquette city band will turn out Friday morning to attend the funeral of the late Malachi O'Meara, which will be held at 9 o'clock with interment in the Holy Cross cemetery. The services will be attended by the local division of the A. O. H., in which the deceased was a member, having been associated with the organization for the past twenty-five years.

In another column the M. C. & P. I. Street Railway company announces that hereafter cars desired between the hours of 10:30 p. m. and 6 a. m. can be obtained by application to the general manager. There will be a charge of a dollar an hour for the cars, besides the regular fare. This change is made in order to insure covering the actual cost of this special service, and the extra charge will no more than take care of the extra fuel burned.

There has been good skating on the bay the past two days, the first of the year, and a large number of people have been taking advantage of it. The opportunity to get on the ice is well welcomed by lovers of the sport, who greatly miss the rink this season. At this late date it appears that there is to be no artificial provision for ice sports this year. The curlers are put out of business by this condition, much to the disappointment of a number of the more enthusiastic devotees of the game.

The electric light and power commission's horse ran away yesterday morning. It started from the hill and made a dash down Front street, turning on Main to Fay & Bricker's stable. No damage to speak of was done. This is the same horse that a few weeks ago ran nearly twenty miles north from the city to the neighborhood of Sauk's Head, getting itself lost, and finally returning to the stable after two days, stripped of the harness. The animal is unusually versatile and original in its stunts, and its driver never knows what is going to happen next.

ANNOUNCEMENT.
