at \$20,000,000 and whose retail business aggregates over \$70,000,000 annual sales, have agreed to give their name, financial backing and endorsement to the guarantee that Rexall Mucu-Tone will cure any disease or trouble arising from Catarrh or they will refund the money.

We are proud of our connection with the Rexall Remedies, particularly so of Mucu-Tone.

Why? Because a remedy must be something out of the ordinary that will get our backing. It's not all profit that leads us and our 1,000 associates into endorsing this remedy. It is our years of experience with medicines and our knowledge of them that teaches us that

REXALL MUCU-TONE

is a bona-fide discovery for the cure of all ailments due to Catarrhal affections. We know that it is not a cure-all, but a remedy built on scientific lines—not a patent medicine—each one of the 1,000 druggists knows its formula and its value. It has one great additional value besides curing constitutional Catarrh—that is as a system builder. No such tonic was ever before designed for the curing of inflammation of the mucous membrane—nor can it be improved on in the present age.

Just stop and reason with yourself for one minute—we are doing business right here in your midst-could we afford to offer our name and endorsement to Mucu-Tone as we do if we did not know that it is an honest medicine? Can we afford to agree—as we hereby do—that we will refund you every penny you pay us for the medicine if it does not benefit you?

All we ask is your word and the empty bottle and we'll give your money back. No signed certificate. We believe the public, especially the sick, are honest—and we hope that they believe we are honest also. If they do, certainly every sick person who suffers from any of the following ailments should take advantage of our offer to-day.
