CERTAIN TO FIGHT BEFORE RECEDING

JAPANESE GOVERNMENT IS PREPARED AND GRIMLY RECONCILED TO WAR.

NATION PATRIOTICALLY UNITED

RUSSIA'S REJOINER NOT EXPECTED FOR AT LEAST A WEEK.

Emperor Francis Joseph Asserts Everything Will Be Satisfactorily Arranged, and in Russia Pacific Views Again Predominate.

London, Monday, Jan. 18.—The St. Petersburg correspondent of the Times hears that a special council, presided over by the czar, has arrived at the conclusion that war should be avoided. It is reported as a result of this conclusion that Russia intends to open ports in Manchuria, withdraw her pretensions with regard to Korea and possibly not retain Port Arthur as a military stronghold.

Vienna, Jan. 17.—During the presentation of the general circle at the court hall last evening, Emperor Francis Joseph said to United States Ambassador Storero: "I think that affairs are going to be better in the Far East. Everything will be arranged." His majesty spoke in a similar strain to other members of the diplomatic corps. In view of the close relations between Russia and Austria, the emperor's remarks are regarded as highly significant.

War Talk in Russia Diminishes.
St. Petersburg, Jan. 17.—Emperor Nicholas's pacific utterances made during the New Year's reception at the winter palace last Thursday, together with the favorable comments of the foreign press, which have been repeated here, have created a splendid impression and have had good result in perceptibly diminishing the war talk in army and navy circles, which were quick to take the cue from the assurances from the throne. The newspapers, which have been discussing the Russian position with considerable freedom, have grown almost silent, and what they do say is complimentary of the improved prospects for peace.

Japan Done With Concessions.
Tokio, Jan. 17.—Japan does not anticipate Russia's rejoinder for at least a week. In the meantime Japan is prepared and grimly reconciled to war. Political and other distinctions have disappeared and the country is patriotically united. The government is receiving many offers of contributions, in the event of war, amounting to many millions of yen.

Japanese would welcome honorable peace, but are resolved to fight before receding from their position in the Orient. They fear the aggression of Russia and believe it is not stopped now it never will be stopped. They are confident that the demands are fair and moderate, and their diplomacy, which has been patient, has gone a reasonable limit. They expect the world's sympathy in the struggle, and have confidence in the army and navy. In the event of reverse or national disaster it is thought that England and the United States will intervene to preserve the balance of power in Eastern Asia. There is no fear of an invasion of Japan, which is probably the most strongly defended country in the world. The growth of British and American sentiment is remarked. Numerous displays of the flags of these nations are made and popular songs reciting the glories of the "lion" and "Uncle Sam" are sung. Characters of "Uncle Sam" and "John Bull" are seen at public dances.

The activity of the United States in opening the ports of Mukden and Antung is keenly watched and in some quarters it is hoped that this may aid in solving the problem in a manner insuring peace.

Sedition Hinges on Manchuria.
London, Monday, Jan. 18.—The Daily Graphic this morning authoritatively announces that the negotiations in the Far East have arrived at a stage leaving two points on which neither side has inclined to yield and as to which no means of compromise have been found. Both points concern Manchuria and their acceptance would not in the slightest modify the legal status quo nor change the administrative situation in Manchuria, but Japan insists "that they be embodied in a treaty between Japan and Russia, while Russia, as a matter of pride, refuses to accept such dictation at the hands of Japan." Much, however, is still hoped from the czar's influence. Of course any attempt of Russia to increase largely her naval forces in the Far East by moving the Black sea or Baltic fleets would make war a question of only a few hours.

This statement seems to be borne out by the Associated Press dispatch from Tokio yesterday that Japan had received a Russian communication, saying that Russia would respect the rights and privileges already acquired by the powers in Manchuria under existing treaties with China, except in the case of the establishment of foreign settlements, which she declines to negotiate on the question of Manchuria. At the Japanese legation it is said that no news has been received and that the situation remains unchanged.

Russia's Assurances Nullified.
Tokio, Jan. 17.—The Associated Press correspondent is tonight reliably informed that Japan has received a Russian communication, saying that Russia will respect the rights and privileges already acquired by the powers in Manchuria under existing treaties with China, excepting the establishment of foreign settlements and so far as these

FEDERAL OFFICE HOLDERS BARRED Cannot Be Delegates to the National Convention, It Is Said.

San Antonio, Tex., Jan. 17.—Private instructions have been given to the leaders of the Republican party in Texas that no federal office holders be permitted to go as delegates to the national convention. These instructions, it is said, will be issued by the national committee to the leaders in all states.

"DOLLAR DINNER" TONIGHT.

Five Hundred Tickets Issued for the Bryan Banquet at Lincoln.

Lincoln, Neb., Jan. 17.—Five hundred tickets have been issued for the "dollar dinner" to be given tomorrow night in honor of W. J. Bryan. The speakers comprise many leading Democrats of Nebraska. Bryan may announce the policy he will pursue in the approaching campaign. It is more likely his speech will be short and along general lines, with a possible review of his European trip. Bryan's present stay in Lincoln will be short. Tuesday he leaves for New York city.

COLONEL BACON A SUICIDE.

Former Mayor of Colorado Springs Put to Rest by Shooting.

Colorado Springs, Colo., Jan. 17.—Colonel John H. Bacon, mayor of Colorado Springs in 1880, committed suicide today by shooting because of illness. He leaves a widow, who was Mary Weaver of Princeton, Ill., and a son, who is an attorney at Colorado Springs.

Colonel Bacon spent his youth in Michigan. Later he removed to Iowa, where he was trustee of the Iowa Agricultural college, for thirty years an active member of the Iowa Agricultural society and during the war was provost marshal of the First district of Iowa. He left an estate of a quarter of a million.

NEAR TO DEATH MUCH TALK DUE

SCORE OF TOURISTS HAVE CLOSE CALL IN MAMMOTH CAVE.
Boat Capsizes and Passengers Are Saved Only Through the Exertions of One of Their Number and the Guide.

Louisville, Ky., Jan. 17.—Eighteen delegates to the convention of the National League of Commission Merchants were today thrown into the icy waters of Echo river, which winds through the Mammoth cave, and were saved by Guide Nelson, and Charles A. Muehlbronner of Pittsburgh.

The party included: W. J. Harris, L. S. Owens, Frank E. Wagner, John H. Barnett, L. Lipman and Mr. and Mrs. A. W. Smith, Chicago; C. S. Stacey, Minneapolis; Edward Tubbs and Mr. and Mrs. J. W. Fillebrown, St. Paul, and Miss Lucie Patch, Boston.

The roof of the cave over the river is arched and the space in the center, owing to the rise of the river, is only thirty inches above water. In order to insure the passage of the boat, the men and women were forced to stoop. The boat swerved to one side, endangering the heads of the passengers next to the bank. These leaned farther forward to escape striking their heads. This lowered the level of the boat and the water began to flow in rapidly.

The guide called to Muehlbronner to jump and take a chain. This he did, landing on a steep bank, which offered only a slight foothold. Lying on his face, he held to the chain and pulled the boat toward the bank. The boat sank in eight feet of water. By the light of a lantern, the party escaped by climbing over Muehlbronner's body and, after waiting several hours for a boat, safely reached daylight wet but unhurt.

CHARGED WITH HOLD-UP.

Young Woman School Teacher in Custody at Sioux City, Ia.

Sioux City, Ia., Jan. 17.—Hattie Pilcher, a school teacher, who claimed to have been shot, bound and gagged last Tuesday night in a hotel at Miller, S. D., was today arrested on a warrant sworn out by half a dozen business men of Miller. She was charged with assault, with the intention to commit a felony, and administering ether to Wilbur Quirk for the purpose of robbery.

Quirk was a clerk in a Miller drug store. On Tuesday night he was held up by two masked persons, bound, gagged and after having been made unconscious by ether, was tied to a bed, where he was found next morning in a serious condition. He could not give a description of his assailants and the affair has remained a mystery.

Miss Pilcher at first claimed that she was shot in the Henshaw hotel, but since then she has told several different stories. Today she told the sheriff that she was shot accidentally on the railway east of Miller. She took the sheriff to the place and pointed out the revolver with which the wound was inflicted but would not say who shot her. Drops of blood were found leading from the drug store to the hotel. Other arrests are promised.

FAVOR THE UNITED STATES.

Quarter of a Million Italians Emigrated to America Last Year.

Rome, Jan. 17.—The United States continues the chief objective point of Italian emigration, the number of emigrants going there in 1903, according to official figures announced today, reaching a total of nearly 250,000.

KING'S HEALTH RESTORED.
Gmunden, Austria, Jan. 17.—King Christian of Denmark, who is now restored to health, left for Copenhagen today, accompanied by his daughter, the Duchess of Cumberland, and son, Prince Waldemar.

CONCESSION TO AMERICANS.

Lima, Peru, Jan. 17.—The government has granted permission for the use of freight trains, having a velocity of twenty kilometers an hour, to be run on the new American railway line between Oroya to Cerro De Pasco.

JAILED FOR SWINDLING.

Chicago, Jan. 17.—George Henderson was arrested today on the charge of having attempted to defraud a farmer of Galesburg, Ill., out of \$50,000 in a real estate transaction more than two years ago. The police say that Henderson and two companions have operated extensively through Michigan, Illinois and Indiana.

TODAY'S WEATHER.

Washington, Jan. 17.—The following is the weather bureau's forecast for Upper Michigan: Snow Monday and Tuesday.

FEDERAL FORCES TAKE PORTO PLATA

DOMINICAN CITY FALLS BEFORE A COMBINED ATTACK BY LAND AND SEA.

CAPITAL IN SORE STRAITS

SIERGE CONTINUES, CAUSING MUCH MISERY AND SUFFERING.

American Estate Is Looted, but Minister Powell Can Give No Protection—Execution of Five Conspirators Occurs at Cape Haytien.

Cape Haytien, Jan. 17.—Government troops, which disembarked recently at Sosavia, yesterday were ordered to march on Porto Plata. A brisk attack supported by the guns of the Dominican warship, began in the evening. This morning the operations were resumed and the government troops entered Porto Plata, causing the flight of General Deschamps, who took refuge in the United States consulate. The British cruiser Pallas has landed marines to protect the consulate. The cruiser Hartford has arrived.

Attack on San Domingo Continues.

San Domingo, Jan. 15.—[Delayed in transmission.]—The revolutionary General Navarro, having seized the cattle on an estate at La Es which is American property, the agent of the estate applied to Minister Powell for protection. The minister was compelled to refuse the request, as he has no force at command sufficient to guard the estate. The minister says there is great need of a larger warship. If the revolutionists, headed by General Jimenez, should enter the city now it would be impossible to prevent pillage, and there is no warship here to support the Newport should it be necessary to land men.

There was continued firing around the city last night and this morning. A shell from the enemy's camp entered a private dwelling and injured a child. There is great misery and suffering among the poorer classes.

San Domingo, Jan. 17.—The United States cruiser Columbia arrived today. Minister of Foreign Affairs Sanchez left this evening for Washington to solicit recognition by the United States for the Dominican government and of the ex-qua-tor of the consul general at New York. This morning the insurgents fired more shells into the city. It is said a woman and a child were injured.

VAST CROWD WITNESSES EXECUTION.

Cape Haytien, Jan. 17.—Five persons connected with the conspiracy headed by General Moynatir to start a revolt against General Nord, president of the Haytien republic, were condemned to death by the military tribunal and were executed here today in the presence of a vast crowd. Several foreigners, who took part in the conspiracy, probably will be deported.

Port au Prince, Hayti, Jan. 17.—The government refuses to liberate the officers of the National bank, charged with participation in the issue of \$200,000 worth of fraudulent securities last year.

COSTLY BLAZE AT WHEELING.

Loss of a Quarter of a Million Done in the Business District.

Wheeling, W. Va., Jan. 17.—Fire tonight burned an entire block in the heart of the business district within an hour, entailing a loss of \$250,000. The fire originated in the boiler rooms of the Daily News, consuming the newspaper plant. Night Editor Allen B. Smith and his assistant, R. M. Archer, were compelled to jump from the second story, escaping with slight injuries.

SUNDAY FIRMS ELSEWHERE.

Springfield, Ill., Jan. 17.—The Peter Vredenburg Lumber company suffered a \$50,000 loss by fire today. The yards were destroyed. Eight horses were burned to death.

The plant of the Springfield Ice company was damaged to the extent of \$15,000. The Western and Commercial hotels were damaged by smoke and water, and the guests were compelled to flee. Fireman Sweeney was overcome by smoke and is in serious condition.

Chicago, Jan. 17.—Fire in the Chicago Consolidated Milling & Malting company's plant today caused a loss of \$75,000. Eight firemen who were overcome by smoke were rescued.

EDUCATION IN PORTO RICO.

Washington, Jan. 17.—The annual report of the commissioner of education for Porto Rico, Samuel McCune Lindsay, announces substantial and satisfactory progress in school affairs of the island. The year closed with 1,905 schools open. The total enrollment was 72,216, which is 17 per cent of the estimated school population of the island and 7 per cent of the estimated population of the island for 1903. For the support of all schools the department had available from insular appropriations \$547,797, of which \$315,196 was actually spent. Other expenditures bring the total spent for education during the fiscal year to \$817,815.

CROOKS IN CUSTODY.

Kansas Farmers Surround and Capture Suspected Safe-Crackers.

Paola, Kas., Jan. 17.—Charles Gorney of St. Paul and Thomas Rorer of Butler, Mont., who are suspected of attempting to rob a bank at Cleveland, Mo., and of blowing up a safe in the "Katy" station at Louisburg, Kas., last night, wrecking the safe and the interior of the station, were surrounded today and captured by 200 farmers. Several shots were fired, but no one was hurt. The men had revolvers, ammunition and nitro-glycerine.

Entered as mail matter of the second class in the postoffice at Marquette, Mich. If William Randolph Hearst, the son of his father, puts in an Examiner and an American at St. Louis, that city will find that it has paid a very dear price for the Democratic convention.

Miss Helen M. Wells, of Saginaw, has just made a worthy gift to the Saginaw general hospital, presenting \$30,000 for the erection of a cottage for the treatment and care of consumptives, and the support thereof.

Bryan denies that he has any knowledge of a Hearst paper to be established in St. Louis to take a hand in the Democratic family row antedating the convention.

Angus Kerr holds the balance of power on the state tax commission and below the straits certain interests are very anxious to learn how he will exercise it.

Upper peninsula readers of Prison Progress will regret to learn that it has, with the January number, ceased publication, after a fairly successful year.

The Detroit Journal thinks that Railroad Commissioner Atwood is building up a machine that will enable him to take to himself the powers and airs of a Michigan Warwick.

A Chicago architect is engaged in planning a modern American skyscraper for erection in London. The English architects are quite capable of building such a structure, but their intense conservatism, combined with that of the property owners, has in the past kept buildings not more than seven stories from the ground.

HAPPY NEW YEAR.

Health and strength means happiness. If you are not strong and healthy you cannot be happy—you need Vinol.

Vinol contains no poisonous drugs, and it is not a patent medicine. It is now recognized throughout the world as the greatest strength creator for old people, weak, sickly women and children.

Mr. J. B. Keener, deputy clerk of the superior court, Atlanta, Ga., writes: "Vinol is the ideal preparation of cod liver oil; it purifies and enriches the blood, induces a good appetite, promotes digestion and invigorates every organ of the body."

The United States can supply all the wants of its people for coal, iron, copper, petroleum and all the useful minerals, and gold and silver also are found in generous quantities.

The United States geological survey has just published a report by George F. Kunz on "The Production of Precious Stones in 1902."

Nearly all the diamonds come from the Kimberley mines. The south African mines have recovered from the setback of the Boer war and apparently have an inexhaustible supply of diamonds.

The number of diamonds from Brazil has fallen considerably during the last few years, because of the crude and unsystematic methods of mining for diamonds in the country.

A new diamond field is being exploited in southwestern Borneo, where diamonds have long been known to exist.

India, so long renowned in history and tradition as the source of gems, produced in 1902 no diamonds and no precious stones with the exception of considerable numbers of rubies mined in upper Burma.

JESSE JAMES' AVENGER SHOT.

Ed Kelly, Murderer of Bob Ford, Killed by an Oklahoma Policeman.

Creede, Col., Jan. 17.—Another chapter has been added to one of the most sensational series of tragedies the west has ever known.

When Frank and Jesse James were the terror of Missouri, when scores of Pinkerton men, sheriffs, special deputies and policemen of many cities had failed to round up the notorious train robbers and desperadoes, Governor Crittenden decided on a radical way to exterminate the leader of the band.

Ford accepted the offer, although Jesse James was one of his most intimate friends.

After killing Jesse James, Ford came west, locating in Creede. He was a marked man from the first.

FIRE SCARE IN THEATER.

Audience at the Majestic, New York, Thrown in a Panic.

New York, Jan. 17.—Excitement closely approaching a panic arose in the Majestic theater last night owing to the smell of smoke during the second act of "Babes in Toyland."

A score of persons rose to their feet. They were very quiet, but evidently greatly excited.

Cry Scares Whole Audience.

This instead of having a quiet effect caused the entire audience to arise and start for the doors.

When the flames were discovered an usher seized the coat and ran with it across the promenade on his way to one of the side exits.

Rolling the Steel.

When open-hearth steel, which is the kind from which plate is made at South Chicago, has been cut to width in the slab mill it goes to the furnace to be heated and thence passes to the table in the rolling mill.

STEEL MILLS RESUME TODAY.

Chicago, Jan. 17.—The steel mills at South Chicago will resume activity Monday morning. The tonnage men employed in the open-hearth, plate and slab mill departments of the Illinois Steel company have decided to accept the cut in wages and all the men are preparing to be on hand Monday.

When the men are returning to work rejoicing. They are glad to work to live. But the tonnage men complain.

A Superintendent's View.

A man connected with the executive end of the steel company said: "Several years ago we made a wage agreement with the rollers. We agreed to pay them a certain amount based on standard of 100 tons of work each day." It was satisfactory and we paid the wage. Since then inventions for labor saving have been numerous and large and as a result many of the men are now turning out twice as much work a day as was agreed in the wage scale, and this with no greater labor nor longer hours.

Now we have decided on a cut, which comes close to that decided upon in the last wage agreement."

Mayor Houle Does Not Think City Will Have to Borrow Money This Year.

The expenditure of nearly \$15,000 for the improvement of the municipal lighting plant during the present year has cost many to predict that the council will find it necessary to negotiate a loan to liquidate the debt.

Mayor Houle thinks that no outside assistance will be necessary. He is of the opinion that if the finance committee curtails in various ways during the balance of the winter and the summer there will be sufficient money saved to wipe out the debt.

Piccadilly seems cold and blatant by contrast as one charges down it. Yet even here, be the sunshine ever so bright, the visitor is crowned in the pearly haze that tones, attenuates, unifies most of not all of London, that haze that has tantalized and defeated how many artists! Even over Piccadilly, even over this most mundane of all London streets, it throws its saving glamour. Indeed, the whole splendid avenue might serve for a studio, not for its value alone, but for the complexity of the types which through it, it is the quintessence of London, the distillation of all London humanity, to be studied nowhere so narrowly as from a 'bus top.

OWNERS OF BUILDINGS OF THREE STORIES AND OVER ASKED TO PROVIDE FIRE ESCAPES.

ORDINANCE COVERS MATTER

FIRE WARDEN O'MEARA HAS SERVED SEVERAL NOTICES.

Standpipes Also Required—Will Be Protested from Some Property Owners, as Upper Parts of Their Structures Are Not Occupied.

Fire Warden William O'Meara, pursuant of the instructions of the board of fire and water commissioners, has during the past few days been serving on owners and agents of all the three-story buildings in the city notices calling their attention to section eleven of a city ordinance entitled "an ordinance relative to fire limits, and the construction of buildings therein."

This ordinance was adopted in 1898, but up to this time no attention has been paid to section eleven, which provides that fire escapes and standpipes must be supplied at every building of public nature which is three stories or more in height. The ordinance, now that formal notice has been served, must be complied with not later than a year from the date of service.

Section 11 reads as follows: "All buildings except such as are used exclusively for private residences, of three or more stories in height, now or hereafter erected within the fire limits, shall be provided and equipped with one or more standpipes and ladders combined with cast iron balconies, with suitable railings, at each floor, firmly secured to the outer walls and in such location or locations as shall be approved by the fire warden. Such standpipes shall be three inches in diameter, of material approved by the board of fire and water commissioners, and shall extend from the ground to and above the roof, and shall have automatic simease connection at bottom and hose couplings at top and bottom, to conform to the size and pattern adopted and used by the board of water and fire commissioners. Such ladders shall extend from bottom balcony to roof; and all buildings more than three stories in height used as hotels or for manufacturing purposes, shall have at least one combined metallic standpipe and ladder approved by the board of fire and water commissioners; and if more than fifty persons are commonly lodged or employed in any such building above the first story thereof, there shall be at least two such combined ladders and balconies affixed to the walls of such building.

blocks and buildings affected, as follows: Peter White, Hotel Marquette; Martin Vierling, block corner Front and Main streets; Olive L. Harlow, Bacon building; Ellen J. Clark, Harlow block; Harriet R. Adams, Clifton House; F. H. W. Bailey, secretary Odd Fellows' Building association, Fraternity block; A. E. Koepeke, secretary, St. Luke's hospital; Marquette County Savings bank, Savings Bank block; Peter White and Mrs. Mary H. Longyear, opera house block; James Russell, Mining Journal building; Gad Smith, federal building; F. E. Bay, city hall; H. E. Ritterer, Bittner block; Scott & Morrison, Nester block; W. A. French, Brunswick Hotel; A. C. Anderson and wife, Summit House.

Nester Block the Worst. There are a number of the buildings enumerated above that are for all practical purposes but two story structures, as their third stories are not used to any extent, and are never the scenes of large gatherings. From the owners of buildings of this class there will be a vigorous protest against being required to undergo the expense of complying with the requirements of section eleven when there is practically no good that can come from such compliance.

The English dancing girls made the greatest hit here. Their Champagne dance was as effervescent and enlivened as the sparkling distillation from which it is named. It was executed with rare precision, abandon and skill and won a number of enthusiastic encores. In addition to this turn, the dancing girls were constantly flitting in and out of the scene, in different costumes, their clever stepping and graceful lithesome poses always compelling recognition.

Snitz Edwards has the burden of the task of furnishing the fun, in a German dialect character, a showman, card sharp and all around fakir. He is the life of the play and although the demands on him are great and he has the stage much more than his share of the time there are only one or two points in the action of the piece when the audience gets a little weary of him.

After the Champagne dance "Four and Twenty Little Men" aroused the most approval. The sextet is a pretty thing, but is dimmed in its general effect by the memory of the famous Florida hit on the same lines.

The choruses were large, well trained and tuneful. The costuming was more than usually elaborate, and the scenic investiture of the piece complete.

"THE SILVER SLIPPER."

"The Silver Slipper" at the opera house Saturday evening was a bright, tuneful and attractive musical comedy. Neither better nor worse than one or two other attractions of the same stripe that have been presented here this season. It was generally expected to prove better, the best in fact, because of the management's course in holding the seats at a price a peg higher than the rates demanded by the other companies presenting the same class of bills. It may be said that this course is not justified by the net amusement results. "The Silver Slipper" is not a whit better than "The Chaperons" or "The Chinese Honeymoon," if it is quite as good. However, it is larger and more bulky. There is a big boy of people connected with the staging of the comedy, and the company carries its own orchestra. Thus the management probably was under the necessity of increasing the regular house tariffs if it was to break even on the upper peninsula tour. People should realize these facts in advance; then, if they think tickets at rates of from \$2 down are too high there is always the alternative of remaining at home.

MAY ADD NEW BOATS. L. M. & L. S. T. Co. May Replace the Peerless and City of Traverse.

Captain W. H. Singer, president of the Lake Michigan and Lake Superior Transportation company, on his return to Duluth last week from the annual meeting at Chicago gave out the information that there is a possibility of new boats being added to the line for the season of 1904.

Nothing definite is said in regard to this matter, it is assumed that the company has its eyes on one or two craft which may be purchased for the Chicago-Lake Superior service. It is building no new boats and it is now too late to get any ships laid down in time to get them into service next season.
