PEACE IN ORIENT SEEMS ASSURED

ST. PETERSBURG ADVICES REPORT RUSSIA AND JAPAN NOW CLOSE TOGETHER.

MAIN CONTENTIONS SETTLED

ALL CABLEGRAMS AGREE THE TENSION IS MUCH RELAXED.

Czar Is Quoted as Declaring All Danger of War Ended, and Representative of the Mikado Makes Significant Statement.

London, Tuesday, Jan. 19.—The czar in receiving the ministers in state last Sunday declared, says the Mail's St. Petersburg correspondent, that all danger of conflict was ended.

Other cablegrams from St. Petersburg confirm the belief that the tension has been greatly relaxed, but, according to the correspondent of the Paris edition of the New York Herald, there is a strong feeling in official quarters in St. Petersburg against the representatives both of Great Britain and the United States.

Status of the Negotiations. St. Petersburg, Jan. 18.—The Associated Press, on high authority, is tonight able to give the following as the present status of the negotiations between Russia and Japan.

Russia recognizes Japan's preponderance in Korea, and Japan recognizes Russia's special position in Manchuria. Two leading questions are still at issue—the Russian demand for a neutral zone on the Korean side and the Japanese demand for certain guarantees covering Manchuria which Russia thus far has declined to grant. It is pointed out, however, that the assurances given a few days ago by Russia regarding open ports in Manchuria and Russia's respect for treaty rights, is a concession on this point.

That the two countries are not as far apart as may be fairly inferred from the following statement made by Mr. Kurino, the Japanese minister, to the Associated Press: "War would only be disastrous to both countries. Owing to the geographical situation, an armed conflict would result in a great drain of men and treasure of both Japan and Russia without being decisive. Besides, I believe it would not be worth while to go to war on the questions still in dispute."

Russian Peace Party Regains Power. St. Petersburg, Jan. 18.—There is strong indication that through the czar's personal acts, the peace party is in the ascendancy.

M. Bezobrazoff, head of the war party, has gone abroad; the foreign minister, Count Lamsdorf, who from the beginning has favored peace, is now completely unshackled. His memorandum has been made subservient to the foreign office in the Russo-Japanese negotiations. His extensive powers are curtailed and he can make no move without the czar's personal approval. In fact, the fresh assurances, conveyed through Ambassador Cassini to the authorities at Washington, of Russia's recognition of the rights acquired by the Chinese treaty, are largely attributed to Count Lamsdorf's influence. Diplomatic circles regard Count Lamsdorf's conduct of the negotiations under the czar's direction as a very hopeful sign.

Another strong influence on the side of peace has been the attitude of M. Witte, president of the council of state, who has been bending his energies to avoid a conflict. At the recent meetings of the council of state M. Witte has pleaded the cause of peace, pointing out the disastrous consequences of war to Russia and declaring that Russia had everything to lose and nothing to gain. It is predicted that if peace prevails M. Witte again will become a great power in the government.

Fear of American Attitude.

London, Tuesday, Jan. 19.—The St. Petersburg correspondent of the Times comments on the extreme significance of the fact that the czar's New Year peace message only became known in St. Petersburg through re-transmission from New York of the Associated Press dispatch from St. Petersburg which contained the extreme sentiments of the czar. Mr. Kurino, the Japanese minister, but to other diplomats assembled at the winter palace. The correspondent says: "Nothing has surprised the Russians so much during the past year as the attitude of the American people towards Russia and nothing has been kept so closely in view as the possibility, which was to be avoided at all hazards of serious complications with the United States; the ratification of the Chino-American treaty may be said to have cut the ground from under Russia's feet and, in the circumstances, Russia had nothing to do but acquiesce."

Allen Asks More Marines.

Washington, Jan. 18.—Minister Allen, at Seoul, Korea, has requested the state department to increase the legion guard. The request has been referred to the navy department, which is considering means of sending more marines from Cavite to Chemulpo. It will require about a week to reinforce the present guard.

RUSSIA AIMS AT CONQUEST.

Consul Goodnow Says Control of Manchuria Is Clearly Indicated.

Chicago, Jan. 18.—That Russia is determined to control Manchuria was demonstrated in the opinion of John Goodnow, United States consul at Shanghai, by the comments of official organs on the treaty in which China grants this country two ports in Manchuria.

Mr. Goodnow was in Chicago today.

CHICAGO THEATERS HIT.

Council Adopts Amendments Necessitating Much Reconstruction Work.

Chicago, Tuesday, Jan. 19.—The city council is holding an all-night session for the purpose of considering the new theater ordinance. At midnight several sections of the proposed law had been adopted, but there still remained so much to do that a recess was taken until 1 o'clock, when the ordinance was again taken up. At the time of taking recess it did not seem probable the ordinance would be adopted before several hours and an adjournment without final action was among the possibilities. The most important provisions adopted up to the time of the recess provided for fire pumps both on and under the stage; that the theaters must open on at least two thoroughfares, that no theater be more than twelve feet above the street level, and that the stairway space be at least twenty inches for each hundred seats.

The provision that each building shall adjoin at least two public thoroughfares will compel the reconstruction of several leading theaters. A strong fight was made to have this section read "one public thoroughfare and one public or private alley," but it was defeated. The provision fixing the maximum height above the street at twelve feet will practically put two prominent downtown playhouses out of business and kills off a number of outlying houses.

CALL ON ROOSEVELT

100 MICHIGAN MEN PAY VISIT TO THE WHITE HOUSE.

Ask President to Participate in the Celebration at Jackson July 6, but He Is Unable to Give Definite Answer.

Washington, Jan. 18.—A delegation of about 100 Michigan men called upon the president today and invited him to attend the semi-centennial of the Republican party at Jackson on July 6. The president expressed a desire to attend the celebration but could not give a definite answer until after he had finally decided upon other invitations for his presence at other places about the time of the Jackson celebration. He said: "It would be a peculiar pleasure to come on the sixth of July to Jackson, because I feel with all the strength there is in me that our ability to make the Republican party be a live power for the good of the country now depends upon the way in which we stand for just the tendencies, just the fundamental principles, for which those men stood in 1854."

The conditions we face in 1904 are totally different from those of 1854. It yet remains true that we need essentially the same attributes in order to wrest good results from these conditions. I feel we are now carrying out policies as Americans which are in line with clear-headedness to celebrate the birth of the Republican party fifty years ago.

"We have the right to appeal to what was done by the great men of the past because we are treating the memory of their great deeds not as an excuse for our failure to grapple with the emergencies of the present but as a spur to make us grapple with them well."

SETTLERS MURDERED.

Troops in German Southwest Africa Unable to Cope With the Natives.

Berlin, Jan. 18.—Further advices from German Southwest Africa say that the Herero warriors are murdering settlers and burning homesteads over a wide area. The German colonial troops in the disturbed district are wholly insufficient to deal with the revolted natives. Chancellor von Bülow, in the reichstag today, said that reinforcements would leave Thursday.

Reichstag Asked for Funds.

The government sent to the reichstag this evening bills authorizing a supplementary of \$376,500 for the current fiscal year for the suppression of the uprising of Hereros in South Africa and also an additional appropriation of \$31,300 in the 1904 budget. The memorandum accompanying the bills explains that when the full force now provided for reaches the scene of action it will amount to 1,125 men. Provision is made for the purchase of 750 horses, since only cavalry can operate successfully in the region, and also for the purchase of revolver cannon and machine guns, which have proved unconvincingly effective weapons in the peculiar topography of the colony. The plan of action contemplates keeping open the railway between Swakopmund and Windhoek. The government's memorandum further says that there are only four hundred men now at the disposal of the authorities in the entire national part of the colony, while the Hereros have by far the larger number.

According to a dispatch from Kiel, the cruisers Prinz Heinrich and Medusa will proceed by German Southwest Africa to support the land force there in suppressing the revolt.

HER MARRIAGE HELD BIGAMOUS.

Former Husband of Mrs. Dan Hanna Gets a Divorce in England.

London, Jan. 18.—Justice Founie, in the divorce division of the high court of justice, today granted Major Walter De Saumarai a divorce from his wife on the ground that her marriage to Daniel R. Hanna of Cleveland, O., was bigamous. While Major Maud was fighting in South Africa, his wife obtained a divorce from him in America and married Hanna.

DEATH HARVEST ON THE RAILS.

Peoria, Ill., Jan. 18.—A string of cars on the Iowa Central broke away from a switch engine today and rushed down a hill at fearful speed, colliding with a work train just outside the city limits. Three car repairers were killed and two section men were probably fatally injured.

OHIO THEATER BURNS.

Findlay, O., Jan. 18.—Turner's Opera House burned today. The loss is \$40,000. The cause was a defective fuse. The opera house was "dark" when the fire started.

GEO. FRANCIS TRAIN DEAD.

A Victim of Heart Disease at New York, Aged Seventy-Five.

New York, Jan. 18.—George Francis Train died here late tonight, aged seventy-five. He was active in business in the early days and made an independent fortune for president in 1872. He was noted as a prolific writer and for his eccentricities. The heart disease from which he died followed an attack of acute nephritis.

Omaha, Neb., Jan. 18.—George Francis Train came to Omaha in the early sixties and at once became prominent in business affairs. It was he who conceived the idea of constructing the Union Pacific railroad, and he organized a syndicate for the purpose of raising the money to finance the Union Pacific.

ROBBED DYING WOMAN.

Three Chicago Men Are Taken Into Custody on That Charge.

Chicago, Jan. 18.—Louis Witz, a saloonkeeper, and Charles Conway and Thomas McCarthy were arrested today charged with robbing Mrs. E. J. Trask of Ottawa, Ill., one of the Iroquois theater victims, of \$199. The woman was taken into the Witz saloon in a dying condition. The physician it is said handled the money to Witz, who, it is claimed, gave Conway and McCarthy a small amount and turned \$11 over to the police. The police say the men have confessed.

BRYAN STICKS

STILL CLINGS TO HIS SILVER AND OTHER ISSUES.

Declares Kansas City Platform Must Be Reiterated and the Nominee Must Be in Full Accord With It.

Lincoln, Neb., Jan. 18.—The formal welcome to W. J. Bryan on his return from Europe, taking the form of a "dollar dinner," was held tonight and was attended by nearly 700 Democrats, made up principally of men in full sympathy and accord with Mr. Bryan's political policies. Several other speakers preceded the guest of honor, whose declaration that the Kansas City platform was sound in every plank and must be reiterated, together with his demand that the nominees of the St. Louis convention be in accord with that platform, brought out the demonstration of the evening.

Mr. Bryan spoke to the toast, "The Moral Issue." The first part of his address was devoted to consideration of the corruption which he said is found everywhere. "Voters are bought at so much per head, representatives in our city governments are profiting by their positions and even federal officials are selling their influence," he said. He blamed this condition on commercialism, which he said puts a price upon everything.

Discussing policies, he said he would not think of such a thing as accepting imperialism as an accomplished fact. Neither would he change his position on the trust question, because the opposition of the republicans to the trusts is a matter of principle, and their support would cast suspicion upon us.

"Shall we abandon our advocacy of bi-metalism at once to conciliate those who defeated the party?" he asked. In answer to the toast, "The Moral Issue," he declared, "Never," and, continuing, said: "Some phase of the money question is always before congress and not one can predict when the coinage phase of the money question will again become acute. No reform of any kind would be possible with the money changes in the control of the Republican party." Neither would he change his position on the tariff in order to win over the Democrats who are enjoying the benefits of protection. Concluding, he said:

"The Kansas City platform is sound in every plank, and the first act of the next Democratic convention should be to reaffirm it in its entirety, and its next act should be the addition of new planks in harmony with it and covering such new questions as demand consideration. Then, the convention should select a candidate who believes in the platform—no candidate whose democracy will not be an issue in the campaign and whose fidelity to Democratic principles will not be doubted at the election.

"And then, the national committee should announce that it will neither accept nor receive contributions from those who are entreaching behind the bulwarks which we are attacking. Finally, let us defend our position, not upon the low ground of dollars and cents, but by showing how the Republican policies violate moral principles and invite the punishment that sooner or later overtakes the wrong-doer."

STILL FOR THE IOWA IDEA.

Gov. Cummins Will Endeavor to Have National Convention Endorse It.

Washington, Jan. 18.—Governor Cummins of Iowa arrived in Washington today and will remain until Wednesday. He said tonight that he was here on business and not politics. Some differences have arisen between the national Shiloh commission and the Iowa Shiloh commission regarding the inscription on two monuments which are to mark the advanced location of two state regiments in the battle of Shiloh and the governor is going to appeal to Secretary Root to uphold the contention of the state commission.

Governor Cummins said he is still for what is popularly known as the "Iowa idea" in the treatment of the tariff question, and he expects to be a delegate to the national Republican convention. He said he will make an effort to have the "Iowa idea" incorporated in the Republican platform. While in Washington, the governor says he expects to call on President Roosevelt, although he declares his visit will be to pay his respects and not for the purpose of discussing political matters.

CHAIRMAN JONES ISSUES CALL.

Washington, Jan. 18.—An official call was issued today by Chairman Jones for the assembling of the Democratic national convention at St. Louis on July 6. Each state is entitled to representation therein equal to double the number of its senators and representatives in congress. Each territory shall have six delegates.

PANAMA LOST TO COLOMBIA

SECESSION OF THE ISTHMUS IS TREATED BY WASHINGTON AS A CLOSED INCIDENT.

CORRESPONDENCE GIVEN OUT

NOTES EXCHANGED ARE SUBMITTED TO THE SENATE.

Able Defense of the Position of This Government Made by Secretary Hay in Answer to General Reyes' Statement of Grievances.

Washington, Jan. 18.—President Roosevelt transmitted to the senate today additional correspondence touching upon the relations of the United States with Colombia and Panama, covering the period from Dec. 23, 1903, to Jan. 6 last. A statement of the grievances on the part of Colombia was presented to the state department by General Reyes on Dec. 23. General Reyes said in this that the course of the United States had worked deep injury to Colombia, and he cited the treaty of 1846 as showing that the independence and sovereignty of Colombia was to be maintained intact between the two governments.

General Reyes deals minutely with various phases of the questions at issue and, discussing the rejection of the Hay-Herran treaty by Colombia, he expresses the conviction that the treaty would have been approved "with amendments that would probably have been acceptable to the United States had not the American minister at Bogota repeatedly declared in the most positive manner that his government would reject any amendments that might be offered."

Charges Conquest.

Summing up, General Reyes says that Panama has become independent because the United States desired it; because with its incomparably superior force the United States prevented the landing of Colombian troops; because even before the separatist movement was known in Bogota the United States had its war vessels at the entrance of Colombian ports, preventing the departure of Colombian battleships; because without regard to the precedent established by statesmen who have dealt with this matter, the United States has not respected our rights in that strip of land which Colombia considers as a divine bequest for the use of the American family of states, and, finally, because the government of the United States, invoking and putting into practice the right of might, has taken from us by bloodless conquest, but by conquest nevertheless, a most important part of the national territory.

The general then appeals to the sentiments of justice animating the United States to act with wisdom in this crisis, and concludes with the suggestion that the matter be submitted to The Hague tribunal.

A Closed Incident Says Hay.

Secretary Hay replied under date of Jan. 5. The questions submitted, he says, can be considered only in the light of accomplished facts, of which one is that the republic of Panama has become a member of the family of nations.

The secretary expresses surprise at the imputations upon the conduct of this government. He says that the United States had faithful borne during the period since the treaty of 1846 was completed the full burden of its responsibilities. "Meanwhile," he continues, "the great design of the treaty of 1846 remained unfulfilled, and in the end it became apparent, as has heretofore been shown, that it could be fulfilled only by the construction of the canal by the government of the United States.

"By reason of the action of the government at Bogota in repudiating the Hay-Herran convention, and of the views and intentions disclosed in connection with that repudiation, the government was confronted, when the revolution at Panama took place, with the alternative of either abandoning the chief benefit which it expected and was entitled to derive from the treaty of 1846, or of resorting to measures of necessity of which it could contemplate with regret.

New Situation Created.

"But, by the declaration of the independence of the republic of Panama, a new situation was created. One hand freed the government of Colombia, invoking in the name of the treaty of 1846 the aid of this government in its efforts to suppress the revolution; on the other hand stood the republic of Panama, that had come into being in order to carry out the great design of that treaty which might be forever frustrated but might be fulfilled.

"The isthmus was threatened with dissolution by civil war; not were the rights and interests of the United States alone at stake. The interests of the whole civilized world were involved. The republic of Panama stood for these interests; the Colombian government opposed them.

Compelled to choose between these two alternatives, the government of the United States, in no wise responsible for the situation that had arisen, did not hesitate. It recognized the independence of the republic of Panama, and upon its judgment and action in the emergency the powers of the world have set the seal of their approval."

Offers Good Offices.

Secretary Hay denies the validity of Colombia's complaints against the United States. He says that the United States, in common with the civilized world, shares in the sentiments of sorrow in the unfortunate conditions which have long existed in Colombia by reason of factional wars which have devastated the country and impoverished the people. He offers the good offices of the United States to bring about an understanding between Colombia and Panama. He sees no occasion for resort to The Hague, because Colombia's grievances are of a political nature.

General Reyes submitted another note, on Jan. 6, in which he intimates that Colombia will hold the United States for all damages caused by the loss of Panama.

Replying, on Jan. 9, Secretary Hay

(Continued on Page Four.)

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription Rates: Per month, by carrier, \$4.00; Per year, by mail, \$40.00.

MAQUETTE, MICH., JAN. 19.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

As there are four or five months of the present session of congress left there is some hope that the senators will get talked out on the Panama subject in time to get down to real business before adjournment.

Detroit has had another in her succession of grade crossing accidents. They are an old story there, but the lesson carried in their repetition does not as yet seem to have sunk home, for, while there is lots of desultory discussion, the city does not take hold vigorously to separate the grades.

President Roosevelt and his advisers should beware of crediting too much to the disinclination of Senator Foraker. The latter would welcome any rupture that would make him the representative of the administration in Ohio, irrespective of its effect on the party at large.

Walter Wellman says that Senator Hanna has again denied that he is a possible presidential candidate. On his return to Washington, just before issuing the call for the national convention, he was much annoyed by being repeatedly questioned on this score, as he considered that the matter had been definitely settled by his previous announcement.

Hearst has evidently been warning up to the nominal leaders of the Michigan Democracy, for they express themselves to the effect that he would make an admirable leader, with the exception of Chairman Campau, who is doing a lot of looking before he takes his leap.

Gasman Addicks stands an excellent chance of encountering his finish if the reviewer of the Bay State Gas company can substantiate even a few of the sensational charges brought against this painfully persistent senatorial aspirant.

Italian immigration to the United States in 1903 aggregated 250,000 people. If some educational test had been applied this number would have been greatly reduced, as many of these emigrants were illiterate.

Suddenly the Dominion officials became imbued with the fear that Denmark was preparing to cede Greenland to the United States. The Yankees, it was reported, might some time buy the islands of St. Pierre and Miquelon, and from these points of vantage launch an invasion.

It is expected that the third furnace at the Calumet & Arizona smelter will be blown in within a few days. Two stacks are now in commission treating between 500 and 600 tons of ore a day.

BAD YEAR FOR BRITISH SHIPPING.

To show how disastrous is the present state of British shipping, Fairplay of London has compiled from the annual reports of thirty-six cargo boat companies an interesting statement of earnings. An interesting statement of earnings is included in the list own 245 vessels, aggregating 731,019 tons gross, which stand on the companies' books at a present valuation of £7,283,955.

TROUBLES OF A DEPENDENCY.

Ever since the award in the Alaska boundary case Canada has been burning with a desire to do something. Independence, semi-independence, territorial expansion, preferential tariffs—all these have occupied the attention of the Dominion at various times and in different phases.

Then Mr. Laurier voiced a demand for Canada's right to make treaties for herself without reference to England, and the cry was taken up by the Canadian press. England, however, very quickly made the Dominion government understand that she would not consent to a policy which might involve her in trouble for which she was not herself responsible.

Then, in order to strengthen the Dominion government and forestall any cession of near-by territory to the United States, negotiations were begun to effect a union with Newfoundland. Newfoundland, however, refused to consider the proposal.

It is expected that the third furnace at the Calumet & Arizona smelter will be blown in within a few days. Two stacks are now in commission treating between 500 and 600 tons of ore a day.

Mining News

QUINCY IS CLOSED

STRIKE LEADS TO AN ENTIRE SUSPENSION OF OPERATIONS.

A walkout of the trammers yesterday morning has caused a suspension of operations at the Quincy mine. A cut in wages constitutes the grievance of the men. Last Saturday was pay day at the mine and each trammer was given \$5 less than his previous wage, which was cut from \$69 to \$55.

TRAMMERS QUIT ON PAY BEING REDUCED \$5 PER MONTH AND MANAGEMENT DECIDES TO STOP WORK ALTOGETHER.

A walkout of the trammers yesterday morning has caused a suspension of operations at the Quincy mine. A cut in wages constitutes the grievance of the men. Last Saturday was pay day at the mine and each trammer was given \$5 less than his previous wage, which was cut from \$69 to \$55.

TONOPAH (NEV.) DISTRICT.

THE MOST IMPORTANT DEVELOPMENT OF THE PAST WEEK, SAYS A TONOPAH (NEV.) CORRESPONDENT OF THE MINING WORLD, HAS BEEN IN THE GROUND OF THE TONOPAH EXTENSION COMPANY.

The discovery sets at rest all controversy as to the true course of the Mizpah vein, which is now proven to be about four degrees south of west. The Tonopah Extension company is a private corporation owning three claims and a fraction west of the Tonopah Mining company's ground, and the principal stockholders, Charles M. Schwab and others, have long been claiming adjoining, all of which are being developed.

ALLOUZE.

Allouze promises to come in for a goodly share of attention during the latter part of the year, when its new shaft, now well under way, is expected to tap the Kearsarge lode and lay the foundation of another profitable producer on this copper belt.

ISLE ROYALE.

No. 2 shaft of the Isle Royale mine is running to its full capacity, with about twenty power drills, and is supplying rock for one head. Whether No. 1 shaft turned a month ago, will be re-built or not has not been stated by the management.

MINING GOSSIP.

The Arizona supreme court has denied the application of A. W. Hallenburgh for a receiver for the Cobro Grande Copper company owned by W. C. Greene.

EXPERIENCES OF MR. BENOIT.

How a Spiritualist Scared Him by a Fire Prediction. Mr. Arthur L. Benoit, who was business manager of the Holliday street theater, Baltimore, under the management of Mr. John W. Albaugh, is a firm believer that a calamity similar to the burning of the Iroquois theater in Chicago could not occur in Baltimore.

A VERY CLOSE CALL.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life."

A REGISTERED DRUGGIST SPEAKS.

Mr. Homer Alvey, registered pharmacist and manager of the West Side Drug Store, Lincoln, Ill., in speaking of a medicine advertised in our columns, says, "I have old Hart's Honey and Horehound for two years and regard it as a medicine of exceptional merit for the cure of Croup, Coughs, Colds and La Grippe."

\$20,000,000.00 Back of This Offer!

Does this statement mean anything to you? Has the good judgment of the 1,000 best known druggists in the country, any value? If so, then you should not hesitate to try REXALL MUCU-TONE if you suffer from any form of Catarrh.

Our Offer: We want every sufferer to know from actual experience that Mucu-Tone will positively cure catarrh, no matter where located or how long standing. We will give absolutely free to every catarrh sufferer who deals at our store, a bottle (regular size) of Mucu-Tone, if they will fill in this coupon and send it to the United Drug Company, Boston, Mass.

FREE COUPON. Fill in and send to Medical Department, United Drug Co., 43 Leon St., Boston, Mass. Name, Address, Street and Number, Town or Suburban P. O., Suburb of what City, if any, County, State.

Rexall Mucu-Tone will Cure

- CATARRH (OF THE STOMACH). Symptoms: Weakness, dizziness, emaciation, dullness of vision, restlessness, nervousness, troubled sleep, bad dreams, dyspepsia, dull, grinding or sharp shooting pains in the side or stomach; nausea, bitter fluid rising in the throat and shortness of breath. CATARRH (OF THE LIVER AND KIDNEYS). Symptoms: Skin drawn and yellow, sight blurred with black floating specks; dizziness, weakness and vertigo; a dull pain in the small of the back, also a constant desire to urinate. CATARRH (OF THE BLADDER). Symptoms: Pains in the bladder, feverishness and loss of control of the urine; constant desire to urinate with burning, scalding and stinging; urine contains mucous threads, flakes and pus. BROKEN-DOWN SYSTEM. Symptoms: Loss of weight and strength, pallor, palpitation of the heart, shortness of breath, nervousness, despondency and restlessness; lassitude and dullness; lack of energy and inability to concentrate thought; irregular appetite and bowels; dyspepsia and headache. CATARRH (OF THE NOSE). Symptoms: Chilliness, lassitude, feverishness and a tight sensation and fullness in the head, obstructing the nasal passages. CATARRH (OF THE THROAT). Symptoms: First, an irritation and sensation of heat and dryness, with a constant hacking. CATARRH (OF THE INTESTINES). Symptoms: Constipation, dull, colicky pains, tenderness and rumbling noises in the bowels; constant diarrhoea, the discharges containing much mucous, undigested food and particles of membrane; emaciation, weakness, dyspepsia and nervousness. PELVIC CATARRH. Symptoms: A constant leucorrhoea, exhausting, often offensive accompanied by dragging pain in the back and hips, lower abdomen and thighs. Stomach disturbances and skin eruptions, headache and dizziness.

Mucu-Tone is sold on merit. The first dose will benefit you. When you have taken one bottle you will be glad to tell your friends about it and will tell us we have not overstated its virtues.

Price 89 cents. STAFFORD DRUG CO.

Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period.

To Young Women:—I suffered for six years with dysmenorrhoea (painful periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. I consulted several doctors, but this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds.

The monthly sickness reflects the condition of a woman's health. Anything unusual at that time should have prompt and proper attention.

WONDERFUL NERVE.

Is displayed by many a man enduring pains of accidental Cuts, Wounds, Bruises, Scalds, Sore feet or stiff joints. But there's no need for it. Backlen's Arnica Salve will kill the pain and cure the trouble. It's the best Salve on earth for Piles, too. 25c at The Stafford Drug Co's store.

Copper Country

SCORE WAS NINE TO FOUR.

Portage Lake Hockey Team, Defeating Pittsburg, Keeps Up Winning Gait.

Last evening at the Amphidrome the Portage Lake team added another victory to its string by defeating the speedy "Keystone" seven of Pittsburg in one of the best games ever seen at Houghton.

The visitors, individually and through means of combination plays, put up the best game yet given the locals this season, but throughout the team work of Portage Lake was the superior and this, more than anything else, landed the victory.

The Pittsburg seven improved considerably in the second half, when it made all its goals, presaging a closer match tonight. For Portage Lake, Bruce and Hod Stuart and Shields did the best work, while Joe Linder of Hancock, who took Gibson's place at point, did remarkably well.

The first half ended with the score 3 to 0 in the local's favor. The goals were made as follows: Bruce Stuart, first, three minutes; Shields, second, five minutes; and Shields to Bruce Stuart. In the second half the goals were scored in this order: Four, Bruce Stuart; Morrison; fifth, Shields; sixth, Morrison; seventh, Fields (Pittsburg); eighth, McLaughlin (Pittsburg); ninth, Shields; tenth, Fields; eleventh, Shields to Bruce Stuart; twelfth, Morrison; thirteenth, Fields.

The teams lined up last evening as follows: Keystones. Portage Lake Sheppard. Goal. H. H. Hern. Shields. Point. Linder. Linder. Coverpoint. H. Stuart. Fields. Rover. Morrison. McLaughlin. Center. B. Stuart. Young. Left wing. W. Scott. Youngson. Right wing. Shields.

Of the Pittsburg aggregation, four are regular Keystone men. They are Stein, Fields, Willett and Young. The others are members of other teams in the Smoky City. Sheppard, formerly of the Winnipeg Victorias, is a Pittsburg Athletic association man, playing golf for that seven last season. Sheppard played in Houghton with Pittsburg teams last year and his work was much admired.

The dates for the return games at the Soo have been changed from Friday and Saturday evening of this week to Saturday and Monday evenings. The switch was made to accommodate the local City management. The new arrangement is not satisfactory to local enthusiasts who contemplated taking the trip and a large number of them will not go in consequence.

In order to take in both games, the delegation would have to remain in the Soo over Sunday. Many do not think they can spare the time. It is expected, however, that a fair-sized bunch of "rooters" will accompany the team.

The hockey situation in Pittsburg, with four teams striving to win the championship, is unusually interesting just now. The Victorias and Bankers have a little the best of the argument so far and each seven is recruiting new men in an effort to win out.

Each has won an equal number of games. The Bankers have just secured Liffiton of Montreal, one of the best wing players in the game. Liffiton played in Houghton last season with one of the Pittsburg aggregations and his work was brilliant.

The bankers have just secured Liffiton of Montreal, one of the best wing players in the game. Liffiton played in Houghton last season with one of the Pittsburg aggregations and his work was brilliant.

The bankers have just secured Liffiton of Montreal, one of the best wing players in the game. Liffiton played in Houghton last season with one of the Pittsburg aggregations and his work was brilliant.

in two games played with Portage Lake at Houghton on Wednesday and Thursday evenings of this week. The first game stood 6 to 1 and the second 12 to 2, apparently one-sided contests.

The showing made by the local team during their first visit from home is a disappointment to the puckeys of the city is but stating the case mildly. It was fully expected that at least one if not both of the games would be taken by the Soo and large crowds waited expectantly about the telegraph offices for the result.

"The games at Houghton are said to have been characterized by a good deal of rough work on the part of the Portage Lake players which was overlooked by the referee. This may be true, but the scores of both games were so decisive as to leave no doubt as to which side won and a mixup or two was expected. There is a wide divergence of opinion among the Soites who witnessed the games as regards the abilities of the two organizations until the referee's decision was reached.

The Times has talked say that had clean hockey been played the tables would have been turned and the Soo would have been at least broken even, while others incline to the opinion that the Portage Lake players faster and better hockey than the local's. The referee, however, judged that any team can play best on its own territory where the conditions are familiar and where the players know that they have the sympathy of the crowd with them, and the Times will reserve an opinion as to the superiority of the two organizations until after the copper country team has played its return games. It would be unfair to the locals to do otherwise.

"In all the discussions concerning the recent contests there is no difference of opinion regarding the work of Jones at goal. He was the bright and shining star of all players who took part in the games and is acknowledged to have no peer in the country as a keeper of goal. Lake, Sweitzer, Haller and Hamilton, for the locals, also come in for a large amount of praise.

"The Times states his faith in the locals and believes that the championship pennant will come to the Soo at the end of the season."

TWELVE CRIMINAL CASES. Calendar for the January Term of Circuit Court is Arranged.

The calendar for the January term of circuit court, which convenes next Monday, was arranged yesterday. There are twelve cases on the criminal calendar, which is shorter than usual; thirty-two issues of fact cases for trial by jury, and three issues of fact cases for trial by court. The number of chancery cases is five.

The criminal cases are as follows, the calendar including several which will attract widespread attention: The People vs. Peter Faletti; murder. The People vs. Gust Sampson; malicious injury to building. The People vs. Bud Higgins; keeping house in flames. The People vs. Edward J. Dunn; keeping saloon open after hours.

The People vs. Matt Wagner; desertion of family. The People vs. Frank Townsend; assault with intent to murder. The People vs. Thomas White, Jr.; larceny. The People vs. A. Louis Levy; keeping saloon open after hours. The People vs. John Reint; seduction. The People vs. Charles Keranen; assault with intent to do great bodily harm.

The People vs. Adolph Jestila; larceny from the person. The Faletti murder case will be followed by the case of E. J. Eales, the man who shot and killed Thomas Cox, a bartender, in Fat Quo's saloon at Laurium in a few months ago. The crime was committed during a quarrel in the barroom and Faletti will claim self-defense. He will be defended by Hon. John Power of Escanaba, one of the best known criminal lawyers in the state, and Attorney Louis N. Legris of Houghton. It promises to be a hard fought case. Faletti is said to have good grounds for his claim and his lawyers will do their utmost to clear him.

The prosecution will get in with the case early in the row and that he interfered merely to stop the fight.

SAYS COPPERDOM'S HOCKEY MAD. Visiting Railroad Man, too, Becomes Infected With the Microbe.

HENRY BAER WOULD RUN. Well-known Hancock Man Mentioned for the Mayoralty Nomination.

Henry Baer, who has been prominently mentioned by his friends in connection with the mayoralty of Hancock, states he expects to be a candidate for the position at the election in the spring. He does not intend to enter any scramble for the office, but if the voters consider that he possesses the necessary qualifications and will elect him, he will strive to uphold the dignity of the position and give the duties of the office with the same conscientiousness.

Mr. Baer says he would consider it a great honor to be elected mayor, as in his mind it is one of the most honorable and important of all the offices in the county. Mr. Baer possesses good business judgment and he is looked upon as a capable man for the position. He was a candidate last year, but President A. J. Scott won out, the majority of the electors believing that he was entitled to be Hancock's first mayor.

Mr. Scott may also seek the office again, providing his friends insist. He has served the city faithfully, devoting most of his time and attention to its affairs and would always be a strong candidate. Both Messrs. Scott and Baer are popular.

WAS AGED SEVENTY-THREE. Chas. G. Lieblein Sr., Dead at Hancock, a Copper Country Pioneer.

Death claimed Charles G. Lieblein, Sr., a copper country pioneer, at his home in Hancock, at 6 o'clock Sunday evening. His demise was principally due to general debility. About three years ago he sustained a hard fall and from that time he steadily declined in health. He was nearly seventy-three years of age at the time of his death. He was a native of Pennsylvania and had lived in Hancock for many years. He was married to Miss Emma Lieblein and Mrs. Webster Dock of Hancock and Mrs. Lorenzo Bree of Atlanta—four sons—Edward M., Albert E., George L., and William H., and two daughters—Miss Mary and Miss Emma.

Mr. Lieblein came to the copper district forty-five years ago, settling at Eagle River, where he looked after some mining operations for Cleveland parties. After a residence there for a number of years he went to the Minnesota mine, in Ontonagon county, where he lived for five years. He was agent for the Minnesota during that time. From there he went to Ontonagon to reside two years. He came to Hancock twenty years ago and lived there the time of his death. For several years he was justice of the peace in Hancock and also filled other positions of a public nature.

Mr. Lieblein was a native of Bavaria, Germany, coming to this country with his wife and three children. He was educated in Cleveland and previous to coming to Eagle River was bookkeeper for a large manufacturing concern in that city. The year before he came to this district he was married at Racine, Wis., to Miss Katherine Becker.

WILL COST ABOUT \$100,000. Two Fine Buildings Going Up This Year at College of Mines.

Ground will be broken as early as possible in the spring for the erection of the proposed new gymnasium and metallurgical buildings at the Michigan College of Mines. The plans for the structures are practically ready. They were submitted to the board of control some weeks ago and were accepted with a few changes. The metallurgical building will be erected by the state, an appropriation for that purpose having been made by the legislature. The "gym," however, will be paid for by the students, members of the faculty and friends of the institution. An amount that is nearly sufficient has already been pledged and with the promises of further aid when the building is under way most of the balance of the funds.

Both structures will be built of brick and stone and will be creditable additions to the present group of buildings. They will be ready for use by the opening of the regular term next fall. The metallurgical building will cost \$40,000 and the gymnasium \$50,000. Both will be model structures of their kind. The need of these buildings has been felt for several years. All metallurgical work has had to be done in cramped quarters and on a smaller scale than will be the case when the new buildings are ready for use. An additional instructor will be employed.

Because of the lack of a gymnasium the students have not paid much attention to physical exercise or athletics. They have long desired a "gym" but have expected to get an appropriation from the state for a building of the kind. Last year a movement was started by the students that has resulted in the raising of sufficient funds to insure an up-to-date gymnasium. The "gym" will be well equipped and it will be the headquarters of the students during their leisure hours.

GO SOUTH TO HUNT QUAIL. J. H. Rice, F. I. Cairns and John Pryor of Houghton left Sunday afternoon for Birmingham, Ala., near which in a series of games to decide the supremacy. It is up to the Lauriums to accept.

Fred Stoye and Frank Major of Houghton left Sunday afternoon for Lansing, where they will attend the annual gathering of delegates of the Chamber of Commerce of the state, which convenes today. Both will represent Gate of the North chapter, R. A. M., of Hancock. The grand lodge of the F. & A. M. meets next week at Lansing and Mr. Major will attend that session as a delegate from the Houghton lodge. Before returning home Mr. Stoye will take to Detroit, where he will take the thirty-second or thirty-third degree in Masonry. Both gentlemen went to Lansing via Chicago.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

HOME FOR IMMIGRANTS. Finnish Labor Society of Hancock Starts a Commendable Movement.

The Finnish labor organization of Hancock has started a movement to build a home for Finnish immigrants arriving in the copper country with no definite destination. A fund to carry out the project has been started and it will be gradually added to until a sufficient amount has been raised. A Finnish melodrama was presented by the Finnish Dramatic club of Hancock at the Kerodre theater Sunday evening for the benefit of the fund and \$350 were cleared. Other entertainments will be given at regular intervals and Sunday evening's success may be repeated, as there is a considerable demand for a repetition of the performance. No details have yet been made for the proposed new home but it will have among other features a hall for lodge meetings and social events. The structure will be built in Hancock, but the site has not yet been selected. It has not yet been decided how much money will be put in to the building. The home, when completed, will be thrown open to all Finnish immigrants and they may make their headquarters there until they find a residence elsewhere. The strangers will be well taken care of. The idea is a good one and the home will supply a need that has been felt for some time.

MAY DRAW PARTY LINES. Sentiment in Favor Is Growing Among Hancock Republicans.

Party lines may be drawn in the forthcoming municipal election in Hancock. Prominent Republicans in the city favor the idea and the sentiment in its favor appears to be growing. It is said that the Republican leaders are planning to hold a mass meeting next month for the purpose of forming an organization to conduct the campaign. Although not all members of the party in the city think party lines should be drawn in municipal affairs a considerable number who have been interviewed support the plan.

The principal argument against party tickets is that the best men should always be elected, and it may happen that the best men are on the ticket that loses. The Democratic ticket would be the one that would suffer defeat at Hancock, because the Republicans predominate with the ratio about ten to one. It is not likely that any of the nominees on the Democratic ticket would stand a ghost of a show of election, even though a better man for the office than his opponent. Some Republicans might object that it is not true, but the number would not be sufficiently large to outweigh the vote of the many other Republicans who would vote the straight ticket. There are Democrats, too, who would vote for naught else but the Democratic ticket, just for principle's sake, but in Hancock it happens that the Republicans are in greater number.

If party lines are drawn in the city, all Democrats who wish to land municipal offices hereafter will have to join the Republican ranks or else give up all hope of ever being successful. At least it appears that way.

The Republicans favoring party tickets say there are plenty of good men in their own ranks for any and all of the offices, and that as the Republicans do predominate the reason is all the more apparent why they should control municipal affairs. They say party lines can be drawn in the city just as successfully as they are in the county. A Democrat could not be elected to office in the county now, no matter how popular he is. The Hancock Republicans who favor the party tickets further say that Hancock has outgrown its awfully dingy clothes and that the introduction of politics into city affairs would become its growing size and importance.

JUNIOR HOCKEY THIS WEEK. The Hancock High school hockey team will meet a seven of Beraga players in the Hancock city rink Friday evening. The Beraga aggregation will not be the same that was badly defeated by the Hancock Junior team a few evenings ago, but a more experienced lot of players. The high school seven may meet a Dollar team in the Hancock rink Thursday evening. The smelter town has a number of clever players and if the game is arranged some fast hockey will be seen.

COPPERDOM BREVITIES. Captain James Houston has returned to Arizona after a short business visit in Calumet. Dr. Will King, who has been visiting his parents in Calumet, left Sunday for New York city, where he is taking post-graduate work.

Sheriff Wills has of late informed several women of loose character throughout the county that they must make themselves scarce by leaving for other pastures. He intends to weed them out.

The Crescent hockey team of Laurium is claiming the intermediate championship of the county. Its claim is disputed by both the Lake Linden and Red Jacket aggregations. Both say that their records are equally as good and that they are willing to meet Laurium in a series of games to decide the supremacy. It is up to the Lauriums to accept.

Fred Stoye and Frank Major of Houghton left Sunday afternoon for Lansing, where they will attend the annual gathering of delegates of the Chamber of Commerce of the state, which convenes today. Both will represent Gate of the North chapter, R. A. M., of Hancock. The grand lodge of the F. & A. M. meets next week at Lansing and Mr. Major will attend that session as a delegate from the Houghton lodge. Before returning home Mr. Stoye will take to Detroit, where he will take the thirty-second or thirty-third degree in Masonry. Both gentlemen went to Lansing via Chicago.

DIED IN THE WEST. George Monroe, a former Calumet young man, died in Denver last Friday of consumption. He was born and raised in Hancock, and was a member of the late William Monroe, for many years chief of the Red Jacket fire department. The young man leaves a wife, who is at present with her parents, Mr. and Mrs. August Monroe, at Hibell, Wis. The remains will be brought to Calumet for interment.

WHAT'S IN A NAME? Everything is in the name when it comes to Witch Hazel Salve. E. C. De Witt & Co., of Chicago discovered some years ago how to make salve from Witch Hazel that is a specific for Piles. PAY FOR THE NAPKIN. Though the Charge Is Not Made Openly as in Europe. Is of Much Advantage to American Golfers. On the continent of Europe, the table napkin is charged to you put down in cold pencil on the check brought by the waiter—two cents in our money whatever it may happen to be in centimes or pennings.

This, at first blush, appears to be a trifle, but many a woman of indignation has gone up from American travelers abroad because of the injustice of it; but, when all is said and done, in New York, though it is not itemized, the napkin is paid for, just the same, the price of the dinner deciding its quality and frequently its presence.

One of the Oxford and Cambridge players is quoted as saying: "We won our matches on the putting greens, where all matches between players anywhere evenly matched are always won or lost. Your players do not seem to realize the important place accurate approaching and putting play in the game." This once more emphasizes the necessity of practice at the short game. A visitor to almost any American course in the season will find some of the club's best players driving ball after ball, with a caddy on the fair green collecting them. With the Britons the practice is mostly on and about the putting green. On almost every course visited by the British golfers, it was common previous to the match to see several of them pitching approach shots and putting. They worked hours at such plays, and practiced on every green on the course, and, as a rule, learned in a day more regarding the peculiarities of each green than local club members had picked up in hundreds of rounds, played over a period of years. As a result, the Britons had their American opponents distinctly at a disadvantage when it came to serious match play. The visitors were just as good as, if not better than, the best American players at the long game, and won their matches through accurate approaching and deadly putting.

Don't let the little ones suffer from eczema, or other torturing skin diseases. No need for it. Doan's Ointment cures. Can't harm the most delicate skin. At any drug store, 50 cents.

HOMESEEKERS' EXCURSIONS. Chicago, Milwaukee & St. Paul Railway, at Very Low Rates. FORMER PRESBYTERIAN DIVINE NOW STARTLES NEW YORK EPISCOPALIANS.

PAPER GIVES MUCH OFFENSE

BISHOP URGED TO INVESTIGATE ITS PRONOUNCEMENTS.

These Said to Have Declared Apostolic Succession Hangs by Slender Historical Thread, and Pope Right in Discrediting Anglican Orders.

New York, Jan. 18.—Rev. Dr. Charles A. Briggs of staff of the Cathedral of St. John the Divine and professor in Union seminary, has set the Episcopal church into a mild ferment. The president of the Church club of New York, George McCulloch Miller, has called the attention of Bishop Potter to the paper which Rev. Dr. Briggs read recently before the club.

Suspended by the Presbytery.

It was shortly before Easter, 1895, that Dr. Briggs was received as a communicant in the Episcopal church, having left the Presbyterian church, to which he had previously belonged, and in which he had been for many years a distinguished preacher and theologian.

PANAMA LOST TO COLOMBIA

(Continued from Page One.)

says he finds almost all the propositions brought forward in the second note had been considered and fully answered in his note of the 6th of January. He says, however:

"I will not for a moment accept the imputation of unfriendly motives or sentiments on the part of this country toward Colombia, and even if Colombia should persist in assuming a hostile attitude toward us it will only be after most careful deliberation, and with extreme reluctance, that this government would shape its course in accordance with the deplorable conditions thus created."

On Jan. 11, General Reyes again addressed Secretary Hay, stating that he finds his arguments have not been refuted by the otherwise forceful papers which he has received. He then discusses at some length his proposition to refer the matter to The Hague, and concludes with regret on the failure of his mission to the United States.

Secretary Hay answers, on Jan. 13, with the statement that there is no reason to reconsider the attitude of the United States as heretofore set forth.

SENATOR MORGAN PROTESTS.

Panama Treaty Is Reported and Brings on a Heated Controversy.

Washington, Jan. 18.—While the Panama question has been before the senate on general principles during the greater part of the present session, the canal treaty was not reported until today. It had no sooner been reported favorably to the senate in executive session than it became the subject of a heated controversy.

WOULD COST \$15,000,000.

Washington, Jan. 18.—A six-foot channel in the Mississippi river at low water from St. Paul and Minneapolis to Cairo, a distance of 1,000 miles, is the project now being pushed by the upper Mississippi delegation.

JUDICIAL DEADLOCK CONTINUES.

Washington, Jan. 18.—The Iowa delegation in congress took a number of ballots today for candidates for federal judge in the Northern district of Iowa.

MUCH DISTRESS IN MACEDONIA.

Boiler Explosion Kills Seven.

Newbern, N. C., Jan. 18.—Seven colored people were killed today by the explosion of a boiler in the Sullivan saw mill near here.

SOCIALISTS' CONVENTION CALLED.

Omaha, Jan. 18.—The executive committee of the national Socialist party, in session in Omaha today, issued a call for the national convention to meet in Chicago on May 1.

Amendments to the Treaty.

The treaty was reported today with three amendments. By these amendments the United States is granted more direct power in all sanitary regulations.

Fleet at Panama Reinforced.

Washington, Jan. 18.—The United States fleet at Panama has been augmented by the gunboat Bennington and the torpedo boat destroyers Preble and

PEACE IN ORIENT SEEMS ASSURED

(Continued from Page One.)

on his way to China after a trip to Washington with this treaty. "Whether war between Japan and Russia will be declared I do not know," he said, "but that Russia is determined to control Manchuria many things indicate."

"I am not certain that Russia has lodged any complaint or is even angry at the United States for its part in the treaty. But I do know that the Novoi Krai, the official organ of Port Arthur, found fault with it when it was first mentioned. One of its salient features is the provision for two ports in Manchuria, Mukden and Antung. It was the provision for these ports that angered the Russian organ."

"It pointed out the fact that while China was in control of Manchuria at the present time it might not be in the future. It added that if at any time Russia was in control of Manchuria it would have to recognize the terms of the new treaty. Rather a significant stand, was it not?"

Benefits of Chinese Treaty.

Then Consul Goodnow explained a few of the benefits that will result from the treaty. "China is rich in minerals. It has been said that China was as rich in that particular as the United States," he said, "but the interests of Americans who have invested their money in Chinese mines have never been protected. The treaty provides that Americans shall be afforded the same protection the natives receive. That means there will be much American capital invested in the mines."

MINE WORKERS MEET.

A Thousand Delegates Present at the National Convention.

Indianapolis, Jan. 18.—The fifteenth annual convention of the United Mine Workers of America opened today with approximately a thousand delegates present. Illinois has the largest single state representation.

CHINESE MILITIA BRIGADE.

Unique Company of Soldiers Is Organized at San Francisco.

San Francisco, Jan. 18.—A Chinese brigade is an innovation in military circles, and its organization gives San Francisco one of the most unique companies of soldier boys in America.

MACHEN SCORES.

Government's Case in the Conspiracy Case Seems Weak.

Washington, Jan. 18.—In today's trial of August W. Machen and others for alleged conspiracy in furnishing postoffice supplies, Counsel Taggart, for the government, offered in evidence an order dated June 29, 1895, for 350 fasteners, but Attorney Douglas objected, saying that the indictment charged the alleged conspiracy to have commenced in July, 1900. He pointed out that the government had so far taken no steps to produce evidence showing a prima facie case of conspiracy. Justice Pitcheard excluded the evidence for the present, saying: "Until we have some evidence of overt, I shall require a case of conspiracy to be made out."

COLORED OFFICIAL CENSURED.

Collector at Atlanta Failed to Half-Mast Flag at Gordon's Funeral.

Atlanta, Ga., Jan. 18.—The failure of Collector of Customs H. A. Rucker, the negro office holder who has received so much adverse criticism here, to lower the flag on the federal building during the hours of the funeral of General John B. Gordon has caused him again to be named a target for unpleasant remarks, Confederate veterans being especially severe in their denunciations.

PANIC IN BURNING SCHOOL.

One Pupil Fatally Injured During a Fire at Dayton, O.

Dayton, O., Jan. 18.—The Allen school building at North Dayton was gutted today by a fire which originated in the basement. The pupils, numbering 400, were gotten out in safety with the exception of Edna Baum, a little cripple, who was fatally injured in the panic. A man who was at work in the basement is missing.

FOUND STAINS OF HUMAN BLOOD.

Biological Expert an Important Witness in the Bechtel Murder Trial.

Allentown, Pa., Jan. 18.—In the trial of Mrs. Catherine Bechtel, charged with being an accessory to the murder of her daughter Mabel, Dr. John Lear, a biological expert of Muhlenberg college, today testified that he had made three tests of the stains on various articles found in the Bechtel home, microscopic, chemical and biological. He said that this was the first application of the biological test in an American court, although it has been accepted as practical in all European courts. In making his tests, Dr. Lear said that he had used two rabbits into which he had injected human blood. The stains on the articles, he said, were shown by all the tests to be blood, but it was only by the biological test that he could determine that it was human blood.

MINE WORKERS MEET.

A Thousand Delegates Present at the National Convention.

Indianapolis, Jan. 18.—The fifteenth annual convention of the United Mine Workers of America opened today with approximately a thousand delegates present. Illinois has the largest single state representation.

Unique Company of Soldiers Is Organized at San Francisco.

San Francisco, Jan. 18.—A Chinese brigade is an innovation in military circles, and its organization gives San Francisco one of the most unique companies of soldier boys in America.

MACHEN SCORES.

Government's Case in the Conspiracy Case Seems Weak.

Washington, Jan. 18.—In today's trial of August W. Machen and others for alleged conspiracy in furnishing postoffice supplies, Counsel Taggart, for the government, offered in evidence an order dated June 29, 1895, for 350 fasteners, but Attorney Douglas objected, saying that the indictment charged the alleged conspiracy to have commenced in July, 1900. He pointed out that the government had so far taken no steps to produce evidence showing a prima facie case of conspiracy. Justice Pitcheard excluded the evidence for the present, saying: "Until we have some evidence of overt, I shall require a case of conspiracy to be made out."

COLORED OFFICIAL CENSURED.

Collector at Atlanta Failed to Half-Mast Flag at Gordon's Funeral.

Atlanta, Ga., Jan. 18.—The failure of Collector of Customs H. A. Rucker, the negro office holder who has received so much adverse criticism here, to lower the flag on the federal building during the hours of the funeral of General John B. Gordon has caused him again to be named a target for unpleasant remarks, Confederate veterans being especially severe in their denunciations.

CUTICURA SOAP

The World's Greatest Skin Soap.

The World's Sweetest Toilet Soap.

Sole Greater than the World's Product of Other Skin Soaps.

Sold Wherever Civilization Has Penetrated.

Millions of the world's best people use Cuticura Soap, assisted by Cuticura Ointment, the great skin cure, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, for annoying irritations, or too free or offensive perspiration, for ulcerative weaknesses, and many sensitive, antiseptic purposes which readily suggest themselves to women, especially mothers, as well as for all the purposes of the toilet, bath and nursery.

Cuticura Soap combines delicate emollient properties derived from Cuticura, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is so to be compared with it for preserving, purifying and beautifying the skin, scalp, hair and hands. No other foreign or domestic toilet soap, however expensive, is so to be compared with it for all the purposes of the toilet, bath and nursery. Thus it combines in one soap at one price the most effective skin and complexion soap, and the purest and sweetest toilet, bath and nursery soap.

Sold throughout the world. Cuticura Remedies, 56c. Sold from Cuticura Case, 10c. Price of Cuticura Soap, 25c. Price of Cuticura Ointment, 50c. FITS HIM TO A NICETY.
"We Are King" an Admirable Vehicle for Walker Whiteside.

In "We Are King" to be presented at the opera house tomorrow evening, Walker Whiteside has a dual role that fits him to a nicety and in which he is enabled to display the full scope of his characteristic talents. The play has already been presented once in this country, Mr. Whiteside and company coming north to open the Ishpeming opera house. "We Are King" has received much favorable mention in all the cities where it has been given during the past few months of the present dramatic season. Miss Lella Woolstan continues to be Whiteside's leading lady, and she also is well cast in the play. The support is excellent. The piece is given in a complete scenic investiture, the production being, in all respects, adequate.

A SIGHT FOR VESSELMEN.
Is the Hutchinson, in Dry Dock at Buffalo Shipyards.

John Chamberlain, a Buffalo correspondent of the Cleveland Marine Review and Marine Record, writes more in detail concerning the condition of the steamer Hutchinson, as follows:
It is at least safe to say that the vessel man who looks at the steamer as the board side of her bottom is much more astonished at her history than he could have been at any previous time. There were reports while she was on the way down that she leaked but comparatively little and that her bottom might not be so badly injured as she merely being dented on the rock of Keweenaw point with deep water almost all about her. There will not be any more such views of the case. Those who are best acquainted with navigation are saying now that the bottom is a sight to go a long way to see and some of them go far enough to add that had all the facts been known it would have been very hard to get a crew to come down on her.

The Hadden-Rodee New York letter was as follows:
"Today's market has been largely in industrial and railroad specialties. The trading element was inclined to work on the long side of the more active stocks, no matter what they happened to be, because it seemed that prices could be more safely advanced than depressed. This was due to the absence of selling pressure, which continues to be perhaps the most conspicuous feature of the whole market. United States Steel preferred was strong. It sold at 66 1/2. There is evidently a lot of stock for sale at that price. They are talking 65 for it on this swing. If the bull crowd takes the stock that is waiting to be sold at sixty it will be an excellent thing for the confidence and we shall then expect to see the price work higher. Meanwhile we should be inclined to take profits and stand out to see what the bull crowd will do. The United States Steel 5 per cent bonds were the feature of the bond market, advancing sharply and contributing up to 1/16 more than one-half of the total transactions in bonds."

CONSOLIDATED LAKE SUPERIOR.
Summary of the Condition of the Various Subsidiary Companies.
The Montreal Herald publishes the following statement of the condition of the various subsidiary companies of Consolidated Lake Superior: "While only three of the subsidiary companies of the Consolidated Lake Superior now in operation are earning anything above operating expenses, if the money were provided for operation and working capital by Feb. 15, by May 1 everything would be running on earning basis of \$168,500 a month of \$2,022,000 per annum. The pulp, veneer and sawmill have been most affected, as men should have been in the woods all winter, but not enough to keep them all continuously employed. The sawmill, however, could start May 1 and be supplied with sufficient logs to run steadily. There is 6,000,000 feet available as soon as streams open in the spring and further supply could be cut and sent in by rail before the 6,000,000 feet is exhausted."

"The veneer mill could be kept running steadily after July 1 by logs cut in the woods and sent in by rail. One pulp mill could run from May 1 with logs now frozen in the streams and by August 1 enough could be cut to keep them all keep both pulp mills running continuously there after. The steel plant could run now with American pig iron, but of course more money could be made by using our own pig iron. Ore to make our own pig iron cannot be brought in here May 1. The steel plant cannot run as there is no market for the charcoal. The blast furnaces in the steel plant will require 15,000 bushels of charcoal per day. The Helen ore mine and the car shops cannot earn before May 1. The three companies now earning above operating expenses with the amount per day are the Ground Wood Pulp Mill, \$150 a day; the Tagona Water & Light company, \$50 a day; and the North Shore railway, making \$25 a day above operating expenses. The Algoma Central railway and the street railway companies on the American and Canadian sides while not making any net profits are earning operating expenses. Of the companies that will contribute toward an earning basis of \$168,500 some will work for different conditions than they did before the shut-down occurred."
"The veneer mill could now earn \$3,000 a month. It never ran more than half capacity because we had no money to build warehouses and were in the market only five months. Had we kept going we would have sold full capacity inside ninety days, and at half capacity made \$1,200 a month. The sulphide pulp mill had just been repaired and improved to earn \$4,000 a month when the shut-down came. The paper mill, which can earn \$3,000 a month, has just been completed, and has not yet run on regular order. The Copper Nickel Reduction works, if money is furnished, can be completed in sixty days and can earn \$30,000 a month, and the Michigan & Lake Superior Power company, which now has only a half of its power rented, could earn \$25,000 when all the power is being used. The estimates made for other companies are on the basis of what they have already earned."

STOCKS DO BETTER.
Favorable Oriental Advices and Easier Money Create Strength.

New York, Jan. 18.—The stock market responded today to the favorable turn of sentiment abroad over the Far Eastern outlook and the notable ease of the local money situation. There was a more active and broader market and during the hour the trading took on something like animation. New York Central and Louisville & Nashville achieved a one-point movement early in the day, but it was not until late in the last hour of the session that the Paul moved up 1 1/2. This caused the price of standard railroad stocks which made any movement worthy of notice.

The Rock Island stocks were taken vigorously in hand, evidently for a speculative campaign, the common being lifted 1 1/2 and the preferred 3/4. The bonds of the Rock Island group of companies made even more sensational advances, five scoring an upward bound of 4 1/2 and the four an advance of 3 points, these advances were made in a spasmodic manner on comparatively small dealings. The five jumped 1 1/2 points on a single sale in the course of the advance. Larger advances were made in the first hour of trading, but in these few standard stocks, being for the most part a continuation of the movements recently commented upon.

The industrial department of the market was rather broader, but was considerably overshadowed by heavy dealings in United States Steel preferred. The par value of the day's sales of United States Steel stock exceeded that of all the rest of the bonds sold during the day.

The movement was induced by the announcement that the bonds had been listed on the London stock exchange. Amalgamated Copper rose a point.

Money was offered with great freedom and the rate of sterling exchange to the gold export note was not a cause of any surprise or apparent uneasiness.

Paine, Webber & Co. reports closing prices of stocks as follows:
Wash. 1/4 Mo. Pac. 99 1/2
N. Y. Cent. 119 1/8 N. Y. Pac. 143 3/4

Range of Money Rates.
Money on call, easy, at 1 1/2 @ 2 per cent; closing, bid at 1 1/2, offered at 1 1/2. Time loans, much easier; sixty days, 3 per cent bid; ninety days and six months, 4 1/2. Prime paper, 4 1/2 @ 5 per cent. Exchange, steady, demand at 48.30 @ 48.32 @ 48.65 and sixty days at 48.10 @ 48.20. Bar silver, 58 1/2.

CHICAGO GRAIN MARKET.
Chicago, Jan. 18.—The wheat pit was without any new news to encourage the "bull" side today and the "bear" element sold the price to a lower level early, but as the offerings were well absorbed on the decline the early loss was not only regained but small advances were also made. There were many in the trade who were working for a reaction and decline in the absence of war news, but no one cared to assume the "bear" leadership owing to the strong fortifications that seem to surround the "bulls" in the market, coupled with their ability to sell large quantities of wheat at will. The trade was comparatively quiet. The close showed May 4 higher, July unchanged and September 3/4 lower. On the coast sixteen boatloads were taken. Liverpool closed 3/4 @ 1/4 higher. The visible increased 176,000 bushels. May opened at 88 1/2 @ 88 1/2; highest, 89 1/2; lowest, 88 1/2; closing, 88 1/2.

UNION CLOTHING HOUSE, WERNER'S OLD STAND
1-19-04

A 5,000-horse power engine is being installed in Machinery Hall at the World's Fair. The transportation required a train of 21 cars. The total weight of the shipment was 720 tons, divided into 202 packages.

Colorado will exhibit potatoes at the World's Fair of monstrous proportions. The commission has 500 tubers that aggregate a ton in weight. The heaviest weighs ten pounds and the lightest one three and one-half pounds.

A practical working laboratory for assaying minerals will be an exhibit of the Colorado School of Mines at the World's Fair. It will be operated by students. The Colorado commission has appropriated \$3,000 for the exhibit.

A Tell City (Ind.) furniture factory is making what it is said will be the largest chair in the world. This piece of furniture will be exhibited in the Varied Industries palace at the World's Fair. Its proportions are such that the company will have a fully furnished office beneath the seat of the mammoth chair.

The figure of a miner, carved from a block of Couer d'Alene ore, mounted upon a pedestal of copper and lead ore weighing many tons, will be a feature of Idaho's exhibit in the Palace of Mines and Metallurgy at the World's Fair. This unique statue will be contributed by the mine operators of the Couer d'Alenes.

Now is your chance to get china and cut glass at a bargain at Stafford's.

All prices quoted are genuine reductions and quality of goods can be relied on at Conklin's pre-inventory sale, ending Jan. 31. (1-16-04)

Cooks ask for it—Gold Medal Flour.

A FEW OF ITS ADVANTAGES.
By using gas you are absolutely sure of a rich, steady, bright and perfect light at all times. No disappointments; always ready. The Marquette Gas Light company.

SOUP TO DESSERT

In the preparation of a dinner something requires chopping—sometimes in one, sometimes in two, sometimes in three. Whether much or little, Sargent's Gem Food Chopper will prove useful—it chops all kinds of food; it chops fine, coarse or medium, as desired; it chops quickly and quietly—it's chopping power is so far ahead of the chopping bowl and knife that there is no comparison. You should have the Gem in your kitchen because it is so useful; you will find it a time-saver, labor-saver and drug-giver.

Negaunee

WILL COST \$12,144.42. That is the sum City Will Pay Central Construction Company.

The contract between the city of Negaunee and the Central Construction Company of Oshkosh for the complete rebuilding of the municipal lighting plant, has practically been closed.

Novelists whose output has been lessened by the necessity of tediously writing dialect stories will hail with joy an invention just patented by a Portland man...

PORTUGAL. Will Hutchins, the diamond drill man, has given up his job with the Maas brothers on the Memorial range...

LOST BOTH GAMES. The Negaunee indoor baseball team arrived home yesterday from Manistiquish...

LOCAL LACONICS. Alexander Maitland and son, A. F. left Sunday night for the Mesaba range.

UNHAPPINESS DISPELLED. Men and Women Unanimous About It. Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded.

CURED AFTER SUFFERING TEN YEARS. B. F. Hare, Supt. Miami Cycle & Mfg. Co., Middletown, O., suffered for ten years with dyspepsia.

DOMESTIC TROUBLES. It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by using Dr. King's New Life Pills.

LE WELCOME

Whether you buy and or ten, or a hundred times the of groceries, you are just as welcome. You will receive the same at the same courtesy, the same to return. We look not for large volume but constant custom, which drive to merit by supplying first-class articles in a first-class way at reasonable figures.

Next day a woman came to my office. "I am told by Messrs. Blank," she said, "that you furnished the models for this picture. Do you mind telling me who that girl is with the parrot?"

TO PREVENT THE GRIP. Laxative Bromo Quinine removes the cause. To get the genuine, call for the full name. 25c.

A VEST-POCKET DOCTOR. Never in the way, no trouble to carry, easy to take, pleasant and never failing in results, are DeWitt's Little Early Rubbers. A vial of these little pills in the vest-pocket is a certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation.

NOBODY is as wise as everybody. Numbers count, no matter what the problem. The majority of hat wearing men have decided that the GORDON hat is their choice. Why not join the majority?

We Carry A FULL LINE OF Blank Books...AND... Office Sundries. If you need anything in the above lines you will find our stock complete and our prices reasonable.

J. M. Perkins. Druggist and Stationer. ...THE... First National Bank, Negaunee, Mich. Capital Stock, \$100,000 Surplus, - 14,000.

A. Maitland, President. T. C. Yates, Cashier. G. E. O'Connor, Asst. Cashier. BANKING BUSINESS SOLICITED. Keep it in your house. Keep it in your shop. Keep it in your office. Keep it at your stables. Keep it at your car barns.

THE GREATEST EMERGENCY LINIMENT KNOWN. Mexican Mustang Liniment. Penetrates as no other liniment can penetrate. Sinks right into the fevered skin and takes out pain. Good for everything that walks.

It is understood that the preliminary work will be started within the next few days. It will require about three months to construct the machinery.

Will Hutchins, the diamond drill man, has given up his job with the Maas brothers on the Memorial range, and will leave here on the 27th for Portugal, where he will take charge of exploratory work for the Sullivan Machinery company.

The marvelous properties of radium have made it a matter of wide interest to almost everyone, but to the medical man its possible value as a therapeutic agent renders it a subject of special importance.

Another diseased condition in which the induced radioactive salt solution is likely to prove of service is fermentation of the blood.

As a spray it will be found useful in catarrhal affections of nose, throat and lungs, by coating the membranes with a fine film of radioactive matter.

While all these possibilities of the use of radium fluid may not be borne out by actual clinical experience, nevertheless owing to the already known properties of radium and induced radioactive substances, it is certainly worth while to try them—especially in pathological conditions which are not amenable to other forms of treatment.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by using Dr. King's New Life Pills around. Much trouble can be saved by their great work in Stomach and Liver troubles.

CIGAR UNIONS MAY NOW MOVE

TWO DETROIT MEN ARE HERE LOOKING UP FACTS IN REGARD TO THE PRISON CONTRACT.

PLAN TO SEEK INJUNCTION

WANT TO STOP MANUFACTURE OF "SMOKES" BY CONVICTS.

Matter Has Been More or Less Discussed for Over a Year, and Some Action Now Seems Likely.

Two representatives of the union cigar makers, hailing from Detroit, are in the city, with the idea of taking the initial steps in an endeavor to have the manufacture of cigars at the Marquette branch of state prison shut off.

The union cigar makers have been greatly concerned at the Marquette branch of the prison here for considerably over a year. The local unions, through their officers, have addressed the governor, the local officers and members of the board of control on the subject, and in all a great number of communications have been received.

THREE STRAIGHT GAMES.

The Magicians defeated the Iroquois in three straight games on the Bowsher bowling alleys last evening.

Table with 2 columns: Name, Score. Lists scores for Iroquois and Magicians in three games.

ALWAYS SOMETHING NEW IN GAS.

The newest is the "Ignito" mantle. Lights itself; no match required.

You can buy a first-class piano at a bargain at Conklin's pre-inventory sale ending Jan. 31.

TWO PRISONERS RECEIVED.

Frank Van Gorder and John Carey Brought in Last Night. Sheriff Cudlip of Dickinson county, which contributes its full share of the population of the Marquette branch of state prison, accompanied by Will Cudlip, his brother and a deputy sheriff, came in on the late train yesterday afternoon with Frank Van Gorder and John Carey, who were forthwith taken to the Marquette branch of state prison, where they began to serve the terms to which Judge Stone sentenced them at Iron Mountain a few days ago.

Van Gorder is a man who has not borne a particularly good reputation. His offense, as has already been noted in these columns, was the killing of a young man named Salchert while engaged in a row with Joe Lawrence, an other fellow of his own stripe.

ANENT NESTER BLOCK.

Its Present Provision of Fire Escapes—Watchman Always About.

John L. Heffernan, agent for the Nester block, in relation to the article published in yesterday's issue calls The Mining Journal's attention to the present provision of fire escapes and other precautions to insure the safety of tenants at that building.

Mr. Heffernan has sent the fire warden's communication calling attention to Section 11 of the ordinance referred to in yesterday's issue of The Mining Journal to Mr. Morrison and Scott, the owners of the building, and he expressed the belief that they will see fit to do whatever else is reasonable to insure the safety of their building and its tenants.

BIDS SATISFACTORY.

Is Understood That the Court House Bonds Will Be Sold.

Yesterday the bids on the issue of \$110,000 court house bonds, four per cent, payable in 1930, were opened at the court house, Chairman Walter Fitch being down to look them over.

There were no less than twelve propositions from outside and local banks and bond dealing firms, and it required some time to tabulate and compare the different offers. The results of the bidding has not been announced, as it is not judged proper to make them public until a formal report is presented to the board of supervisors at the Wednesday session.

BIRDS WORK FOR MAN FROM THE FIRST GLIMMER OF LIGHT.

Rocky Mountain Tea works for mankind both day and night. That's why it is famous the world over.

It will not let you turn over and take another snore. Stafford Drug Co.

SUCCEEDS E. H. TOWAR.

Walter Fitch Becomes President of the Marquette National Bank. At a meeting of the directors of the Marquette National bank, held yesterday for the purpose of organizing for the ensuing year, Walter Fitch of Beacon, chairman of the county board of supervisors, was elected president, succeeding E. H. Towar, who still retains his place on the directorate.

MANAGERS TO MEET.

Northwestern Theater-Association Soon to Hold Its Annual Session.

The annual meeting of the Northwestern Theater Managers' association, comprising the managers of houses at Appleton, Ashland, Calumet, Duluth, Eau Claire, Escanaba, Fond du Lac, Green Bay, Hancock, Iron Mountain, Ishpeming, Janesville, Madison, Marquette, Menominee, Oshkosh, Sault Ste. Marie, Sheboygan, Superior, Wausau, Hibbing, Miam, and Racine, will soon be held, either in the latter part of this month or early in February, the exact date remaining to be determined.

TWAS A CHEAP TRICK.

Some Ishpeming Man Ordered Opera House Seats He Didn't Want.

The management of the Marquette Opera House would like very much to ascertain the identity of the person to whom it is indebted for the purchase of the sale of \$16 worth of parquet seats for "The Silver Slipper" Saturday night. The seats, a row of four divans, were ordered from Ishpeming during the advance sale and it is now plain that the purchaser had set aside deliberately planned to cause the management embarrassment and financial loss.

CO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box.

"SAG HARBOR" HAS CANCELED.

Was to Play the Marquette House the Evening of the 26th. Manager Koepeke, of the Marquette opera house, has received notice from the management of "Sag Harbor," the most popular of the Herne plays, that it has been decided to cancel the dates here, at Ishpeming and at Hancock. The Marquette date was the 26th. The reason is found in the fact that "Sag Harbor" has been having an unsatisfactory run of one night stand business of late, and it is felt that the prospects in this territory are not sufficient good to justify the considerable expense of playing the upper peninsula houses for which the attraction was booked.

CITY BREVITIES

Yesterday's temperature: Seven a. m., 3 degrees; noon, 8; 7 p. m., 10. Maximum, 12 degrees; minimum, 7. Today's weather: Partly cloudy with probably snow; warmer.

Mrs. E. J. Harris has returned from Milwaukee.

T. J. Dundon, of Ishpeming, was a Marquette visitor yesterday.

George S. Skogberg left last night for a month's visit in Texas.

A. C. Seass and Charles Johnson were Negunee visitors here yesterday.

J. Q. Adams and F. A. Bell were down from Negunee yesterday, on business.

T. Van Alstyn arrived home yesterday morning from a brief visit to Appleton, Wis.

A. E. Archambeau, of Archambeau & Co., left last evening on a purchasing trip of several days' duration.

He is accompanied by Mrs. Archambeau.

The Carpenters and Joiners' Union have engaged the Marquette City band to furnish the music for a dance which they will give at Fraternity Hall the evening of Easter Monday, April 4.

F. L. Dever, assistant United States engineer in charge of the breakwater work here, has been at Duluth the past few days. Mr. Dever was formerly stationed at the head of the lakes, being transferred here from Duluth.

J. H. Primeau, the register of deeds, who has been confined to his home for the past three weeks on account of a fall, is by no means well as yet, and it will probably be a number of days still before he is out.

Captain C. M. Gooding left yesterday afternoon for Lansing, where he will attend the convocation of the grand chapter of the Royal Arch Masons, as representative of the Marquette lodge.

When Captain Gooding concludes his business at Lansing he may go on to Washington, D. C.

The invitations are out for a leap year party to be given at Fraternity Hall the evening of the 22nd by the Misses Marjorie Thompson, Pearl Le Veque, Gladys Brown, Hazel Payne, Elythe Rose, Vida Gallagher and Laura Blake.

The grand march will be held promptly at 9 o'clock.

Mrs. Adeline Foubert, aged seventy-two years, died at the home of her daughter, Mrs. Henry Belmont, at Chocomaug yesterday.

The deceased is survived by two sons and one daughter. The funeral will be held Wednesday morning at 9 o'clock from the French Catholic church, with interment in the Holy Cross cemetery.

Superintendent Kern does not anticipate any further interruption of the water supply.

The lake in the neighborhood of the intake is frozen over and if the weather continues cold and without high winds for some little time the ice may remain. Anyway there is little likelihood that there will be a reappearance of the slush and snow that made the trouble last week.

Marquette had a visitor yesterday who has been very chary of his presence during the present winter, no less a one than the sun, which shone warmly throughout the day.

A sunny day has proven about as rare during the past few months as white blackbirds. This is one of the things that accounts for the unusual depth of snow now being commented on in this county and other parts of the upper peninsula. The rail has been almost continual and there have been practically no thaws. The proverbial January thaw is now overdue, but there is as yet no sign of it, unless yesterday's pleasant day is to be taken as one.

STAFFORD OFFERS MANY GOOD BARGAINS IN THEIR 20 PER CENT OFF SALE OF CHINA.
