RUSSIAN NOTE IS DRAWN UP

CABINET COUNCIL DRAFTS COURTEOUS, BUT FIRM, REPLY TO JAPAN'S DEMANDS.

IT YIELDS CONCERNING KOREA BUT GIVES WAY BUT LITTLE AS CONCERNS MANCHURIA.

Is Maintained That This Province, Politically and Strategically Must Remain Amenable to St. Petersburg's Influence.

London, Friday, Jan. 22.—The Moscow correspondent of the Times says that Grand Duke Vladimir, commander-in-chief of the St. Petersburg military division, and Grand Duke Serge, military commander at Moscow, are strongly supporting Viceroy Alexieff and that the czar, although anxious to avoid war, is now wavering.

London, Friday, Jan. 22.—A statement is published in London this morning, with an air of authority, to the effect that the question of a neutral zone has disappeared from the Russo-Japanese negotiations. Although it is impossible to confirm this statement, it agrees with other inspired statements that Russia has acquiesced in Japan's view regarding the integrity of Korea and that the only trouble now remaining relates to Manchuria.

Is Firm in That Regard. Dispatches from St. Petersburg assert that Russia's reply to the latest Japanese note was drawn up at a ministerial council held yesterday (Thursday), at which the czar presided. The tenor of this reply is courteous but firm, and it was approved without a dissenting voice by the ministers. Nothing has been given out officially concerning this reply, but it is understood, according to messages from St. Petersburg, that Russia maintains that Manchuria must remain amenable, politically and strategically, to Russian influence, the concessions made being only of a commercial character.

Press Attacks United States. St. Petersburg, Jan. 21.—The foreign office does not offer any indication when the Russian reply to Japan will be ready. Some of the strongest men in the empire are working to secure a successful termination of the difficulty. The Listok says it expects the crisis to end in an understanding in the form of a treaty supplementary to the Russo-Japanese convention regarding Korea. The newspapers are still disposed to seek pretexts to attack the actions of the United States, considerable ammunition being wasted on an alleged decision to send the American Asiatic squadron to the Yalu river. These papers, however, have learned that the Associated Press that the squadron's destination is Olongano, in Subig bay, near Manila.

Arbitration Proposed. Paris, Jan. 21.—It has been learned in official quarters that the international peace committee (having its headquarters at Bern), which is an adjunct to the Hague arbitration tribunal, has sent a circular note to the powers, asking for the adoption of means to secure the settlement of the Russo-Japanese controversy.

It is understood that the note has had serious attention from some governments, including that at Washington, which has taken steps to learn the attitude of the foreign governments towards the proposition. It is expected that France will not act upon the note, as Foreign Minister Delcasse has already taken what is considered to be more effective means of exerting influence upon Russia.

London, Jan. 21.—The Westminster Gazette this evening voices the official and general opinion on the Far Eastern crisis by saying: "We believe the chances of peace are at this moment more favorable than they have been for some weeks past."

Russian Stores Found Insufficient. London, Friday, Jan. 22.—The Mail's correspondent at Chefoo cables that he is able to confirm the report that Vice-Admiral Arthur has discovered that instead of having on hand provisions for an army of 200,000 men for two years, as had been supposed, there were only sufficient stores, of an inferior quality, for six months.

MUCH UNREST IN KOREA. Serious Insurrection Is Threatened in the Southern Provinces. Seoul, Korea, Jan. 21.—A serious insurrection is threatened in the southern provinces because of official oppression. In the capital city, affairs are quiet. Seven of the ten ministers of the Korean cabinet have resigned and four have been appointed. They are all neutral as regards the revival of the progressive independence clause, which the government opposes. Mystery in Prince's Whereabouts. Washington, Jan. 21.—The Korean minister at Washington and his staff are guarding zealously the whereabouts of Prince Kuishe, who, according to report, will replace his father on the throne in the event the Korean emperor is deposed. The minister informed the Associated Press today that the prince's movements necessarily were confidential for the present. It is learned, however, from an attaché of the legation that the prince was expected in Washington this month, but has not yet arrived. It was said tonight that the prince was in New York inognito not long ago. At the legation there is considerable excitement over events in Korea. What affect the crisis there will have on the movements of the minister and staff is not certain, but it was hinted at the legation tonight that some of the legation personnel, if not all of them, were prepared to leave Washington on short notice.

HAS PASSENGERS ABOARD. Goodrich Line Boat Now Stuck in the Ice Off Milwaukee.

UERGE HIM TO KILL PRESIDENT. Mystic Influences at Work on Lunatic Picked Up in New York.

New York, Jan. 21.—E. A. Eler, a baker, who claimed that mystic influences at work on him through the agency of his stomach were bidding him to kill the president, was committed to Bellevue hospital today for examination as to his sanity.

SUSPENSIONS THREATEN. Live Rooster Torn to Pieces in a Class Rush in Iowa.

Sioux City, Ia., Jan. 21.—During a color rush today between the freshmen and sophomores of Morning Side college, a live rooster, decked in class colors, was torn to pieces. The faculty and the local humane society are investigating, and suspensions may follow.

WILL VOTE FOR ROOSEVELT. Florida Delegates Under Instructions to Support the President.

Washington, Jan. 21.—Every delegate to the national convention tomorrow selected yesterday in Florida is instructed to vote for Roosevelt for president.

NAPOLÉON OF FINANCE THREE DIE IN FLAMES TWO OTHERS ARE BURNED SO BADLY THEY CANNOT LIVE.

Bank Accounts Offered as Evidence Show That on \$3,500 Salary, the Former Official Saved \$20,000 Per Year.

Washington, Jan. 21.—An interesting incident, the trial of Augustus M. Machen, the Groff brothers and the Lorenzen on the charge of conspiracy to defraud the government in connection with the sale of letter box fasteners, came today just before the hour of adjournment. Throughout the day bank accounts had been on the stand, testifying concerning various checks and drafts which had passed between D. B. Groff and Martha J. Lorenz and George E. Lorenz and Machen.

After J. W. Herring, cashier of the Union National bank of Westminster, Md., had told of the various transactions of Machen with his bank, Mr. Taggart, assistant district attorney, offered in evidence a transcript of Machen's entire dealings with that institution, to the admission of which Attorney Charles A. Douglas objected.

Taking up the document, Holmes Conrad, special counsel for the government, contended that it was admissible and remarked that in looking over it, it appeared that by strict economy, Machen, on a salary of \$3,500 a year, had managed to make \$20,000 a year.

This brought forth a storm of protest from the counsel for the defense, who appealed to the court to let the defendant, Machen, be tried on only one charge at a time. In the midst of the argument, adjournment was taken until tomorrow.

Immediately after court convened in the postal trial this morning, Attorney Kuntler, for the defense, presented affidavits from three government witnesses who alleged that Postoffice Inspectors Meyer and Gregory had approached a witness in the witness room. Justice Pritchard directed that a rule issue against the inspectors, requiring them to make answer to the complaint by affidavit.

BRYAN TALKS OF PEACE. Advocates Arbitration at Annual Dinner of the Holland Society.

New York, Jan. 21.—Over four hundred members and guests of the Holland society of New York attended the annual dinner tonight. The list of toasts included the following: Peace—William J. Bryan. Holland, Our Ally in the Revolution—Rev. Dr. George C. Lorimer. The Friendly Relations of the Dutch With Other Nations—Sir Chen Tung Liang Cheng. Our Hero Ancestors—James M. Beck. A letter of regret and hearty good wishes from President Roosevelt was read.

Mr. Bryan's address was an approval of the substitution of reason for force in the settlement of differences between nations, as intended by the peace conference which met at The Hague by invitation of the czar and which resulted in the establishment of The Hague tribunal. Concluding, he said: "It is not upon plutocracy of wealth, nor upon aristocracy of learning, but upon democracy of the heart, that the hope of universal arbitration and permanent peace must rest. Today an increasing number of people throughout the world, standing upon the heights, are learning that God is not in iron-clads, nor in armies, but in the still, small voice of justice that issues from tribunals like that recently instituted at The Hague."

SUPPORTS CANAL TREATY. National Board of Trade Urges the Ratification of the Pact.

Washington, Jan. 21.—The National Board of Trade today adopted a resolution in favor of the ratification of the Panama canal treaty. Other resolutions urged on congress the early construction of a ship canal from the great lakes to the Atlantic seaboard; favor the establishment of a navigable waterway from the terminus of the Chicago sanitary and ship canal to the gulf, provided that no expenses in connection with its construction be assumed by the government; favor the construction of levees along the Mississippi river by the national government; favor international arbitration; and favor judicious reciprocal commercial relations with the chief foreign markets of the world, especially with Canada and other contiguous countries.

COSTLY FLOOD IS THREATENED WORST RISE IN THE HISTORY OF THE RIVERS IS DUE AT PITTSBURG TONIGHT.

OHIO STREAMS ARE BOOMING DANGEROUS FRESHETS OCCUR ALL OVER THE STATE.

In Indiana, the Wabash Is Out of Its Banks and in Iowa as Well Lowlands Are Under Water—Ice Gorges Menace.

Pittsburg, Jan. 21.—The worst flood in the history of western Pennsylvania since the establishment of the weather bureau at this point is expected here Friday night. Experienced river men tonight predict the stage of thirty-five feet will be reached, which is 17 feet higher than the flood of 1884. Manufacturers and other property owners along the rivers are preparing for the expected flood.

Bad Floods in Ohio. Columbus, O., Jan. 21.—An almost continuous fall of rain for the last thirty-six hours has caused freshets in practically all Ohio streams. The rainfall throughout the upper Scioto valley during the last thirty-six hours ranged from .96 inch at Columbus to 2.96 inches at Kenton. The Scioto river is out of its banks at many points north of Columbus.

Zanesville, O., Jan. 21.—The Baltimore & Ohio railway has loaded coal trains across three bridges of the Licking river between this city and Dillon's Falls, four miles west, where the ice is gorged ten feet high. Dynamite was used to break the gorge, and the waters of the stream are pouring into the Muskingum river at this place in an alarming manner.

Hamilton, O., Jan. 21.—The Great Miami river left its banks, both north and south of Hamilton, today. The water inundated the tracks of the Cincinnati, Dayton & Toledo traction road, and through service from Cincinnati to Dayton has been abandoned.

Have in Indiana. Lafayette, Ind., Jan. 21.—Considerable damage is reported throughout the country by heavy floods in creeks and the Wabash river. The river has risen twenty-two feet in the last sixteen hours. Connorsville, a suburb of this city, is covered with the flood.

Peru, Ind., Jan. 21.—Amboy and Denver report large flooded sections, from which the residents have had to move. The suburbs of Elwood and North Peru are in immediate danger of great damage.

Iowa Farms Submerged. Keokuk, Ia., Jan. 21.—A repetition of last summer's flood seems probable. A gorge has formed at the mouth of the Des Moines river, and the water has backed over miles of lowlands in the Missouri and Iowa bottoms. The Fox river has overflowed its banks. The Indian Grove and Lima levees broke today, causing heavy losses to farmers having land in wheat.

300 MEN KILLED OR WOUNDED. Three Battles With Rebels Won by Government Troops in Uruguay.

Washington, Jan. 21.—According to a report from Minister Finch, at Montevideo, the revolutionary disturbances in that country is much more serious and extensive than has been supposed here. The minister cables, under date of the 20th, as follows: "There have been three battles, all won by the government, the last one being on the 18th. The total number of killed and wounded is about five hundred. The government forces are estimated at 28,000 and the rebels at 7,000 to 9,000. The press and telegraph censorship continues, also martial law."

DENIES KNOWLEDGE OF MURDER. Mrs. Rechtel Takes the Witness Stand in Her Own Defense.

Allentown, Pa., Jan. 21.—Mrs. Catharine Rechtel, on trial on a charge of being an accessory after the fact to the murder of her daughter Mabel, took the witness stand in her own defense this afternoon. She told a plain, straightforward story. Briefly stated, Mrs. Rechtel positively denied that her son, Tom, killed Mabel or that she had guilty knowledge of the crime. She was under cross-examination when court adjourned, but the commonwealth failed to shake her story.

BLIZZARD AT MENOMINEE. Stage Fails to Arrive and Is Thought Lost on the Bay.

Menominee, Mich., Jan. 21.—The fiercest blizzard of the season is raging here today. There is a heavy snowfall and the stage from Sturgeon Bay, due here at 4:30 o'clock p. m., has failed to arrive, and it is feared it is lost in the fierce blizzard raging on the bay.

JUBILEE AT THE HAGUE. The Hague, Jan. 21.—Queen Wilhelmina inaugurated the festivities attending the queen mother's jubilee with a gala dinner tonight. There was a popular demonstration before the palace this evening, a torchlight procession and a military serenade.

MICHIGAN JURIST DEAD. Jackson, Mich., Jan. 21.—Circuit Judge Erastus Peck is dead, aged sixty-three. He served continuously on the bench since 1888.

FIRE AT DAWSON. Dawson, Jan. 21.—Fire today burned the L. S. company's storage plant and the Ames company's buildings. The loss is \$105,000.

RECEPTION AT THE WHITE HOUSE. Washington, Jan. 21.—The second of the formal levees at the White House for the season, the reception of President and Mrs. Roosevelt to the judiciary, was held tonight. The diplomatic corps attended in a body.

Marquette, Mich., Jan. 22. Entered as mail matter of the second class in the postoffice at Marquette, Mich.

ALASKA'S JUST CLAIMS.

The report of the senate sub-committee on existing conditions in Alaska, together with its recommendations, appears to have awakened some degree of interest on the part of the press in the present and future welfare of that long neglected non-contiguous territory of the United States.

Alaska became the property of the United States nearly thirty-four years ago, our flag having displaced the Russian standard in October, 1867, in accordance with the treaty of cession entered into that year by the two governments.

How many of the leading, influential journalists of the states and territories understand the nature and character of the local government provided by congress for Alaska? How many of them know, or if they know appreciate, the fact that it is devoid of the branch most essential to the government of a state or territory—a local legislature?

The city analyst at Milwaukee has just reported that an examination of an ordinary 81 bill, grown old in service, has disclosed 96,990,423 germs.

ritory at the time of its organization, with possibly one or two exceptions. She is producing twice or thrice the wealth of any territory at the time of organization, and has been a profitable investment for the government.

The right of the American residents of Alaska to some form of local self-government being conceded, and their capacity for its intelligent exercise unquestioned, the only objection to the creation of the district into an organized territory to be inferred from the report of the senate committee extends no further than to the question of practicability.

Michigan was organized as a territory in 1805, with a superficial area (at one time during its territorial existence) embracing, in addition to its present limits, all of what are now the great states of Wisconsin, Iowa, Nebraska, Minnesota, the Dakotas, and a large part of Montana, and having a white population of less than 5,000.

It is estimated that it will require \$500,000 to prepare for permanent opening such of the Chicago theaters as can comply with the new ordinance, and there are upwards of half a dozen which it now appears will have to be either rebuilt or closed entirely.

The city analyst at Milwaukee has just reported that an examination of an ordinary 81 bill, grown old in service, has disclosed 96,990,423 germs.

The Chicago Tribune also asks why the University of Wisconsin stops with the department for fitting girls for housewifery and inquires as to the reason that it is proposed to pay no attention to the young men, saying: "Having opened the department to fit girls

for wives, why should the University of Wisconsin stop there? Why does it not open a companion department to fit boys to become husbands and let women of marital experience run it?

Members of the Upper Peninsula Agricultural association should take note of the fact that the annual meeting has been called for Marquette on March 1, and lay their plans to be here.

Various railroad systems are beginning to adopt provisions against accidents with passenger trains. Minor precautions are being insisted upon and employees are being vigorously reminded of existing rules and impressed that the main requisite in handling the passenger traffic is safety.

The first of the Grand Rapids bribery cases resulted in a conviction, but it should be remembered that Alderman Ellen confessed to having received \$300 from Salsbury. The outcome of his hearing should not be hastily taken to indicate the guilt of all the accused.

The Bessemer correspondent now springs the following on the outside press: "A political agent from New York went over this upper peninsula district recently and reports are that he was sent to organize all mining interests affiliated with the Steel trust in opposition to Roosevelt.

Thieves Steal Wood Pile.—Thieves seem to be running riot at Escanaba. T. Killian, a retired railroad engineer, is the latest citizen to mourn the loss of property. He was relieved of a cord of wood more than 100 feet long, to the thieves. Chickens, clothing, etc., are easily taken but it is getting pretty strong when thieves drive up with a sleigh and carry off a load of wood, and Mr. Killian is naturally one of the most annoyed men in Escanaba.

STORM IN THE ROCKIES. The Thunder Worse Than the Roar of Battle. If you have never seen a mountain thunderstorm at an elevation of 7,000 feet or more, you have missed an experience that will add gray hairs to your head.

It is estimated that it will require \$500,000 to prepare for permanent opening such of the Chicago theaters as can comply with the new ordinance, and there are upwards of half a dozen which it now appears will have to be either rebuilt or closed entirely.

The city analyst at Milwaukee has just reported that an examination of an ordinary 81 bill, grown old in service, has disclosed 96,990,423 germs.

The Chicago Tribune also asks why the University of Wisconsin stops with the department for fitting girls for housewifery and inquires as to the reason that it is proposed to pay no attention to the young men, saying: "Having opened the department to fit girls

for wives, why should the University of Wisconsin stop there? Why does it not open a companion department to fit boys to become husbands and let women of marital experience run it?

Upper Peninsula

Traction Company Prosperous.—The office building the Menominee & Marinette Traction company has decided to erect in the spring will cost about \$15,000. It will be a two-story brick structure, with stone trimmings, and in addition to the offices will contain storage and freight rooms, instead of the building is to go up at Menominee.

Union Label Replevined.—An electotype of the union label of the tailors' union, which an Escanaba merchant tailor has been running in his "ad" in a local paper, has been replevined by the sheriff on a writ secured by the union.

Convict Reported Pardoned.—A rumor is current at the Soo to the effect that Spiridon F. Walsh, the inmate who was recently given a two-year sentence for the crime of burglary, has been pardoned.

Rearrested for Burglary.—For a few moments this week James Reynolds and John Anderson, the men suspected of having looted the Escanaba office, were rearrested by the sheriff on a charge more serious than the one on which they had been held.

Many Wildcats Killed.—It has cost Menominee county about \$300 the past year for bounties on wild animals killed within its confines and in a few days a demand will be made on the state treasury under the provisions of law for half of the expense incurred.

Miners for Roosevelt.—The Bessemer correspondent now springs the following on the outside press: "A political agent from New York went over this upper peninsula district recently and reports are that he was sent to organize all mining interests affiliated with the Steel trust in opposition to Roosevelt.

Thieves Steal Wood Pile.—Thieves seem to be running riot at Escanaba. T. Killian, a retired railroad engineer, is the latest citizen to mourn the loss of property. He was relieved of a cord of wood more than 100 feet long, to the thieves. Chickens, clothing, etc., are easily taken but it is getting pretty strong when thieves drive up with a sleigh and carry off a load of wood, and Mr. Killian is naturally one of the most annoyed men in Escanaba.

Much Paid Out in Claims.—The Northern Accident association has paid out \$250,000 in claims, according to the report of Secretary W. G. Curtis, which was read at the annual meeting of the stockholders at Menominee this week.

Soo Electric Company Sells Out.—The controlling interest in the Edison-Sault Electric company, hitherto owned by William Chandler and Harry T. Dunbar, has been sold to outside capitalists, headed by Alex. Dow, vice president and general manager of the Detroit-Edison Electric company.

Murder Was a Brutal One.—A Lammaie, who was recently pardoned from the Michigan penitentiary, is expected to return to Menominee soon. He was given a life sentence for the murder of Joseph Bishop. The murder of Bishop was a most atrocious one, and occurred at Menominee on the evening of Aug. 29, 1888.

THIN PEOPLE

want to get fat and fat people want to get thin—human nature. If you are fat don't take Scott's Emulsion. It will make you gain flesh. If you are thin Scott's Emulsion is just what you need.

\$20,000,000.00 Back of This Offer! Does this statement mean anything to you? Has the good judgment of the 1,000 best known druggists in the country, any value? If so, then you should not hesitate to try REXALL MUCU-TONE if you suffer from any form of Catarrh.

Price 89 cents. STAFFORD DRUG CO.

not fall from the blow, but ran toward the entrance of the hostelry to escape his assailant. Before he could reach the door he was struck again, the weapon being a scabbard, having been hit in the vital spot Bishop died almost instantly.

Old Robberies Recalled.—The recent robberies of box cars at Powers recalls the fact that in 1896 hundreds of dollars worth of goods were taken from box cars between Escanaba and Powers.

CHILDREN POISONED. Many children are poisoned and made nervous and weak, if not killed outright, by mothers giving them cough syrups containing opiates. Foley's Honey and Tar is a safe and certain remedy for coughs, croup and lung trouble, and is the only prominent cough medicine that contains no opiates or other poisons. Desjardins' Pharmacy.

MARDI GRAS. Low Rates to New Orleans, La., Mobile, Ala., and Pensacola, Fla., Via C. M. & St. P. Ry. Tickets sold Feb. 9th to 14th. Good to return Feb. 20th at about one fare for the round trip.

A GARD. We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

Iron Notes

New York advices are that for the coming season the Steel corporation is expected to reduce its ore output below 12,000,000 tons, as it has a surplus ore stock of some millions.

A large geological map of the Marquette iron range is now being completed on the mapping table of the Michigan College of Mines as a part of the school's exhibit at the St. Louis World's Fair.

President Alexis W. Thompson of the Republic Iron & Steel company, when asked the truth of the rumors that have been current regarding negotiations by the United States Steel corporation for the acquisition of the Republic company says: "No one man and no small set of men could sell control of the company. The stock is too widely and too evenly distributed for that to be possible."

Copper Country

DATES ARE FIXED. CLOSE MATCHES EXPECTED.
Agricultural Society Arranges for the County Fair.

The Houghton County Agricultural Society, encouraged by the success of its first annual county fair last fall, intends to make this year's show larger and better in every way and it already has taken steps in that direction. At a meeting of the board of directors and managers Wednesday afternoon, Sept. 27, 28, 29 and 30 and Oct. 1 were selected as the dates of the fair. The place for the show was left with a committee, but Secretary Randall states that the Amphidrome at Houghton likely will again be selected. It really is the only suitable location in the copper country for an event of the kind. The building is plenty large enough for exhibits of almost every description and the available grounds in the vicinity afford a desirable place for the stock exhibits.

James R. Dee of Houghton was chosen chairman of the committee on the annual fair, and Mayor A. J. Scott of Hancock was appointed to act on that committee. These gentlemen took great interest in last year's show and did much to make it a success. They were empowered at Wednesday's meeting to select three other members for the committee. It was decided to name the president, secretary and treasurer, together with C. A. Wright and Andrew Johnson of Hancock, as the executive board of the society. The president is J. H. Jansberg of Hancock, Ira E. Randall of Houghton is secretary and C. H. Moss of Houghton is treasurer. The same prices of admission will be charged this year as at the last fair, twenty-five and thirty-five cents.

HOCKEY AT HANCOCK TONIGHT.

The Hancock High school and the Barrage hockey seven will play in the Hancock city rink this evening. Hancock will go into the game without Joe Linder, but it expects to win anyway. Tamblin will take Linder's place at cover-point. Linder will accompany the Portage Lake team to the Soo this morning.

The Japs and the Russians are the names of two hockey teams just organized in Hancock and which will soon meet in the Amphidrome at Houghton for supremacy. The date of the proposed contest has not yet been set, as just so much negotiating is necessary before actual warfare can be commenced. But when the teams do get together, there will be something "different," as Jim Lucas says. Special uniforms will be procured for the occasion. The teams will start training at once. They will bring all their reserve powers into prominence for the battle and the contest will be the most spectacular exhibition as a really, truly fight between Russian and Japanese engines of warfare may be expected. Arrangements for the match will be taken in charge by the Ladies' auxiliary to the Hancock Y. M. C. A., as the society will reap the benefit. Then the ladies will donate the proceeds to the Y. M. C. A. as a portion of the \$500 which it promised a few months ago to contribute to the association.

MUCH ICE ON LAKE SUPERIOR.

There is more ice on Lake Superior at present than has been seen at this date in many years. Captain Charles L. Potter, the United States engineer in charge at Duluth, has received a report from his assistant at Houghton, G. A. Marr, regarding the ice conditions in the lake opposite the upper canal. He says that no water is now in sight even from the high ground on the shore. No open water can be discerned in any direction. Mr. Marr says that it is quite remarkable that the lake should be frozen out such a great distance as the weather has not been of extraordinary severity. It is also reported that the ice is quite extensive around Isle Royale and off the Canadian head of the lakes. The ice field off Duluth has an air of permanency and is growing steadily. Unusually heavy winds are experienced before another cold snap the ice formation at the head of the lakes promises to be of unusual extent by Feb. 1. The ice in Allouez bay and vicinity is from one to two feet thick and more than two feet to be found at many places in the upper harbor on the Duluth side.—Duluth News-Tribune.

SAVED FROM PROBABLE DEATH.

Night Watchman Charles Armstrong of Houghton saved Michael Shannon of Hurontown from probable death by exposure Wednesday night. Shannon, in a badly intoxicated condition, was on his way to Houghton in company with another man when he wandered off the road about half way between the two places and laid down in the snow and went to sleep. His companion had sense enough to tell a passer-by that Shannon could not be rescued, and word was telephoned to Sheriff Willis. The latter sent Officer Armstrong to take Shannon in custody. The man was found in a pitiable condition and it took some time to get him thawed out at the county jail. His fingers were badly frozen and Shannon been left in the snow all night he would have been a corpse in the morning.

WRESTLING MATCH IN SIGHT.

Friends of Ole Olson, the Calumet wrestler, who easily disposed of "Jack Tippet" in a bout at Calumet a short time ago, are now endeavoring to bring about a match between him and Eddie Tremberth, also of the copperdom metropolis. They have \$100 to put up for Olson and want Tremberth, if he agrees to meet Olson, to put up the same amount. The conditions named are that the contest take place in Calumet and that the winner of three falls in five take the match. Both men are in the same class in respect to weight and it is said that they would put up an exhibition worth seeing.

MINES AND MILL.

Gold mines promising enormous profits, mineral pictures, free. Shares, 5 cents. SUNSET GOLD CO. (1-20-34) 506 Mack, Denver, Colo.
A VEST-POCKET DOCTOR.
Never in the way, no trouble to carry, easy to take, pleasant and never failing in results are DeWitt's Little Early Risers. A vial of these little pills in the vest-pocket is a certain guarantee against headache, biliousness, torpid liver and all of the results resulting from constipation. They tone and strengthen the liver. Sold by The Stafford Drug Co.; H. N. Meloche, Ishpeming.

LIKE THE IDEA.

Local Militiamen Would Be Pleased to Visit St. Louis.

An encampment at the World's Fair city, mention of which was made in yesterday's issue, would suit local militiamen just right. They would favor the idea from the start and would bring all the influence possible to get the state military board to allow the guard to go, but it is still a question whether the Michigan militia will be given an invitation. An encampment at St. Louis would be an incentive for greater endeavor on the part of each company in the state. Captain Hecla of the Hecla Company, Houghton, stated yesterday that there would be no trouble in getting new recruits if a St. Louis encampment was in sight. There would be plenty of men to spare after all vacancies were filled. The trip would be considered a treat by each militiaman. The Wisconsin guard has been offered a camp site and free passage through the gates of the fair after the payment of one admission. The guard is asked to stay as long as it likes, and no drills or parades will be demanded by the export. Such will be an voluntary matter. Uniforms must be worn. If the men do not wish to live in tents, the fair will furnish barracks and cots. It will be agreed to furnish meals at twenty-five cents each if the soldiers do not wish to have their own mess.

Nothing Done With Army.

The old Army of Company G of Houghton which collapsed from the weight of the snow a few weeks ago still presents the same unsightly mass of debris. No steps have been taken to remove the wreckage. The village authorities are seriously considering some action in the matter. The council looks upon the pile of wreckage as a public nuisance and Village Attorney Reeves has been instructed to report to the council on what action can be taken. If adjudged a public nuisance the council can order the debris cleared away. Captain Hecla states that nothing has been done to date concerning the mortgages. The company would desire to drop them, but the mortgagee is not willing to be left out of court, but it is of little use to the militia. All the company can hope for is that it can get out even.

INSPECTION OF COMPANIES.

The annual inspection by State Inspector General Green and the United States army officer detailed for that work in Michigan is expected to occur some time before May 1. The exact date of the visit of the officers is not known, but it is expected that the inspection will be among the last to be inspected. The first inspection by a United States army officer in accordance with the Dick military bill, which provides for raising the standard of the militia to that of the regular army in the matter of equipment and efficiency, was made last year by Mayor Wood. Company G is not yet ready for an inspection and will not be until twenty-five men additional are enlisted. Captain Hecla wants that number and probably will issue the first call about Feb. 1. Then the work of bringing the company up to a standard of perfection equal to that of any company in the state will begin in earnest. Captain Hecla does not anticipate much trouble in securing the required number of recruits. Last year there were plenty of applicants for membership and some were rejected because of the surplus.

NEW CALUMET ARMY.

The new Army, which the Calumet & Hecla Mining Company is practically completed and the company is now planning to get into its new quarters the latter part of next month. The handsome structure, which is formally known as the grand hall under the auspices of the militia, is the furniture has not yet arrived, but is expected in time for the opening. The Army is an ideal building of its kind and Company E will soon be able to boast of a comfortable quarters as there are in the building. The building has succeeded in getting sixty honorary members to date. Each has paid \$10 for the privilege, which exempts from jury duty. An effort will be made to increase the number. There has been considerable criticism going the rounds against the plan of the formally principle involved, the argument being advanced that no citizen should try to avoid jury duty. Usually, it is said, it is just the class of men who are wanted on juries who become honorary members of militia companies. On the other hand, they are the men who cannot afford to run the risk of leaving their business for a week or more to serve on juries. They would rather pay the \$10 yearly and be exempt.

PNEUMONIA AND LA GRIPPE.

How to Prevent Croup.

It Means Death to the Baby—Dr. Colwell's Magic Egyptian Oil is a Certain Cure for Croup, Diphtheria, Croup, Whooping Cough, Gripe and Quinsy.
Croup comes on suddenly and without warning in the night. If you are not prepared for it, your baby will probably die before you can get a doctor. Dr. Colwell's Magic Egyptian Oil cures croup in one night. It also cures diphtheria, whooping cough, croup, grip and quinsy. It is a certain cure for all these ailments. It is a certain cure for all these ailments. It is a certain cure for all these ailments.

NORTHWESTERN DEVELOPMENT.

Former stockholders of the Northwestern Development syndicate, now the Goldfield Mining Company, are urged by General Manager A. F. Rosenberger to take stock in the new investment. Money has been raised to meet obligations, but additional funds are needed for development work. About \$12,000 was subscribed by former Northwestern stockholders and others to meet some of the indebtedness while stock was issued for payments due on the property. The mine is well equipped and has a stamp mill, and all money received from the sale of stock will now be put into development work. The property is located in the Lardian district of British Columbia and is considered a good prospect. A series of meetings in the different copper country towns has been held by Mr. Rosenberger during the last week or so for the purpose of presenting stereopticon views of the Lardian district and for the presentation of facts in order that all interested might gain a clearer insight into the situation.

MINING GOSSIP.

The lodges has been reached by the two shafts started by the Calumet & Hecla to tap the Kearsage lode.
The Ahmeck shaft and rockhouse is fast nearing completion and regular hoisting from No. 1 will start about Feb. 1.
The directors of the Portage Lake & Bisbee Mining company held a meeting

Mining News

LAKE COPPER PERCENTAGES.

In the table below are presented the figures a Lake Superior authority has furnished the Boston News Bureau with respect to the rock now being stamped by the various mills in the district, the daily product in tons of refined copper, the pounds of refined copper per ton of rock stamped and the per cent of copper in each ton of rock. Seventeen producing properties are now stamping daily 29,760 tons of rock. Of this total Calumet supplies 6,000 tons, or 22 per cent. The daily product of all the mines amounts to 350 tons, or 700,000 pounds of copper. This production, maintained throughout the year, would mean a total output in 1904 of 210,000,000 pounds, which compares with about 195,000,000 pounds for 1903. A daily production of 350 tons of copper from 26,700 tons of rock indicates a refined copper percentage of 1.3 per cent or twenty-six pounds of copper per ton of rock stamped. Excluding Calumet & Hecla the remaining mines are producing 215 tons of copper from 20,760 tons of rock stamped daily—a refined copper percentage of exactly 1 per cent or twenty pounds of copper per ton of rock stamped.

MINE	Rock stamped daily	Daily refined copper	Pounds of copper per ton of rock	Percentage
Cal. & Hecla	6,000	135	45	2.25
Mass	250	4.01	37	1.85
Champion	1,400	21	30	1.50
Wolverine	1,050	15.5	29	1.43
Phoenix	250	3.5	27	1.35
Michigan	240	2.8	23	1.15
Mohawk	1,000	11	22½	1.125
Baltic	1,800	20	22	1.10
Tamarack	2,600	27	21	1.05
Quincy	3,400	34	20	1.00
Trinomin	1,650	16	19½	.975
Beesha	3,600	33	18½	.925
Adventure	320	2.8	17½	.875
Isle Royale	500	4	16	.80
Winona	150	1.2	15½	.775
Franklin	1,150	8.5	15	.75
Atlantic	1,400	10	14½	.725

PHOENIX.

The auction sale of 471 shares of Phoenix stock, held at Detroit this week, amounted to a mere formality, legally freeing the stockholders who were delinquent in the matter of assessments. The company had in the stock for the amount of the assessments due, amounting to \$3 each on 200 shares and \$1 each on 271 shares. About 6,000 shares had been advertised for the sale, but an opportunity was given delinquents to make good their assessments and a large number took advantage of it. The shares bid in by the company become treasury stock. The ground openings from both Phoenix shafts are satisfactory, the average mineral yield, including that from stock piles, being 150 to 160 pounds or twenty-seven pounds of refined copper. The west vein shaft opened to the tenth level and the bottom openings bear close resemblance to the rich copper courses mined at Cliff near by, years ago. The St. Clair vein is narrow and largely a mass of copper pyrites. The Phoenix property will not become a larger producer, but it makes its copper at a fair profit. At the St. Clair shaft at the mine, a rockhouse is in course of construction. Work on the superstructure is now under way. The rockhouse will be a duplicate of that at the west shaft. Rock shipments from stockpiles are still being sent to the mill and considerable rock from underground is also going forward. The underground showing in both shafts continues good, and considerable mass copper is being encountered. The fissure veins maintain a good average of copper contents.

QUINCY.

The Quincy presents an exceptional illustration of continuous and successful copper mining on Lake Superior. For fifty years it has been in operation and from the payment of its first dividend in 1862, except in the years 1866 and 1867, until date, has annually made a divide with stockholders, says the Native Copper Times. This success is due to the permanency of the mine, as has also the entire capital stock of the United Globe mines together with the \$250,000 cash payment, for which stock of the new Maine corporation has been issued. This completes the merger of these two companies and enables their operation as contemplated under the circular of F. S. Mosely & Co. dated Dec. 30.

WOLVERINE DEVELOPMENT.

John Stanton was asked this week if it were true that Wolverine would declare a dividend of \$4, payable in April. In view of the time to elapse before the directors meet to consider the question Mr. Stanton did not care to commit himself. It is understood, however, that it is unlikely that the company will pay as much as \$4. The October payment was \$3, as compared with \$2.50 in April, 1903. It is claimed that the company had no hand at the close of the year cash and cash assets of \$360,000. The fiscal year begins July 1.

MEDORA AND HER PIANOLA.
We're gathered in the parlor,
Electrified and bound
By the soulful strains of music
That Medora passes round,
Sonatas from Beethoven,
And other things she plays
From the rolls of brown manilla
With her dainty little heels.
It saves a lot of money
And a lot of time to boot;
We couldn't give Medora
A conservatory too,
But now we get it faster
Than a faming mill, I say,
While Medora treads a solo
From a pianola gay.
We couldn't stand the prices
For the opera at all,
So we bought a roll of paper
Punched with holes from "Parsifal."
And now we're just delighted
To the seventh heaven, say,
While Medora does the treadmill
On the pianola gay.
Some folks prefer the classic—
Got enough to kill a cat;
Some folks prefer the other sort—
We've forty rolls of that,
Medora is an artist
Whose music it appeals
To your soul until you're dizzy,
As she hits it with her heels.
—Horace Seymour Keller, in New York Sun.

LIMITED SUPPLY OF PLATINUM.
One of the most valuable minerals of which the source of supply is very little known, and is consequently very limited, is that of platinum. In December, 1901, a discovery was made of a platinum group of metals in the copper ore of the Rambler mine in Wyoming. The uses of this metal would be greatly increased if it could be found in sufficient quantity to reduce the present high price and to make a certainty of a sufficient supply to warrant a further enlargement of its uses. For very many purposes there has as yet been found no other metal that will perfectly take its place. The consequence is that the price of platinum keeps up almost equal to that of gold, and the demand for it has been somewhat increased in the last few years by the discovery of a use of osmium which occurs in a considerable extent in American platinum as the mineral osmeridium.
The present known deposits occur in three forms. First, in placers, as exemplified by those in the Urals, Colombia, Brazil and British Columbia. Second, in veins, as to Tilkerton in the Hartz Mountains, Minas Geraes in Brazil, Santa Rosa in California, Beresford in Russia, Gaudinal Canal of Spain and the Rambler mine already mentioned. The third is by dissemination in eruptive rocks found in Canada, also a native metal in basic eruptive rocks.—Philadelphia Record.
THOUGHT TO BE IN THE LAST STAGES OF CONSUMPTION.
I have just received the White Wine of Tar. We think there is no medicine like it. It cured me when I was thought to be in the last stages of consumption. I will always recommend it to those that have any disease of the lungs. Mrs. Minerva Burgess, Byars, Ill.
Don't let the little ones suffer from eczema, or other torturing skin diseases. No need for it. Doan's Ointment cures. Can't harm the most delicate skin. At any drug store, 50 cents.

Ayer's Cherry Pectoral
for the children. One dose at bedtime quiets their night coughs and prevents croup. Ask your doctor.

BOLD RAID MADE ON EXPRESS CAR

SAFE IS TAKEN FROM SOUTHERN PACIFIC LIMITED TRAIN IN CALIFORNIA.

MESSENGER HAD LEFT POST RETURNED FEW MINUTES LATER TO FIND IRON BOX GONE.

Booty of the Robbers Is Reported to Amount to \$80,000, but This the Company Officials Ridicule—One Suspect in Custody.

San Luis Obispo, Cal., Jan. 21.—The Southern Pacific's Sunset Limited was robbed near here early today of a safe said to contain \$80,000. Messenger Sullivan had occasion to leave the car for a few moments, and upon returning found the door burst open and the safe gone. Officers are in pursuit.

Later—The stolen safe has been found in the rough lands alongside the track. It had been rifled of everything except a valuable diamond and some valuable papers. Wells-Fargo officers say that there were two safes on the train, one of which is locked at New Orleans, the other being a depository for local valuables and which safe they assert seldom contains more than \$1,500. It was the latter that was stolen.

A man's hat was found in the vicinity of the stolen safe today. After the robbery a man bought a hat from a section man, and on the arrival of the southbound train this afternoon he was arrested and identified by the section man. It is believed that one of the robbers has been captured.

San Francisco, Jan. 21.—At the office of the Wells-Fargo company little information regarding the robbery is obtainable. It is admitted the safe was taken during the temporary absence of the messenger, but the report that the amount taken is \$80,000 is denied. It is asserted the contents of the safe are of little value.

PROHIBITION GAINS IN GERMANY. Ten Years May Find Total Abstinence the Rule in the Fatherland.

Washington, Jan. 21.—Germany is being swept by a wave of temperance reform. The fatherland, the home of the brewery, will, if the present rate of progress is continued, see a prohibition law before many years.

Mr. Dietrich, United States consul at Bremen, has sent a report to the state department which shows how the movement is gaining ground. He says: "Germany has passed the first stage of reform—that of moderation. Abstinence is the general cry, and with a decided squint toward legislation, both remedial and preventive. At the present swift rate the reform may have complete prohibition for its watchword in ten more years."

The imperial health office at Berlin is sending out elaborate literature against the use of alcohol as a beverage. Count Douglas, brother-in-law of the emperor, is one of the foremost temperance reformers in the country, and day after day the journal of the imperial parliament has contained pages of his arguments against drink. Leading lights in German universities are also leaders in the new reform. Plans are even being matured for a German temperance exhibit at the St. Louis exposition.

Huge Output of Books. An article in a Berlin paper, reviewing recent German publications on the drink question, says: "Considering the newness of the propaganda in the fatherland, the output is enormous. There is a total of 871 books printed in the German language, dealing with the temperance question, by 413 different authors, and practically all

UPHOLDS ACTION OF ROOSEVELT

SENATOR PLATT OF CONNECTICUT STRONGLY DEFENDS THE PANAMA POLICY.

BRANDS ATTACKS AS DISGRACE

DECLARES RECOGNITION OF REPUBLIC TIMELY AND PROPER.

Will Assure the Building of the Canal So Long Delayed and Will Stand Out as the Greatest Act of the President's Career.

Washington, Jan. 21.—Senator Platt of Connecticut, speaking in the senate today, made a strong defense of the president against the charge of committing an act of war in Panama or even an act of intervention, and denied that his acts in connection with the revolt amounted to either. He demanded specifications from those who made these charges, and declared that it amounted to a national disgrace that such charges were made. He discussed the president's course at length and, speaking of the recognition of the new republic, said: "The act stands out as that of a brave and fearless man—as that of a man who is neither rash nor impetuous. He did the right thing at the right time, a thing which will insure the building of the canal which has been long delayed. We will ratify the treaty; we will build the canal, and when the ships of the whole world with their cargoes are traversing it, these criticisms, these attacks, these vituperations will be forgotten, and whatever President Roosevelt may do in the present or any other term of office, this act will stand forth as the greatest of his career."

Opposition Heard From. Senator Tillman followed Senator Platt, contending that the policy of the present administration was that might makes right. "It is," he said, "the doctrine of the wolf in Aesop's fable that 'whether the stream runs up or down, I am above you and I want you for supper.'" He declared our course in Panama to be "simply greedy and dirty."

Senator Teller announced his intention to vote against the treaty, because it had been negotiated with a combination of men who had no right to make it. If the treaty should be ratified, he would accept it as the law of the land, but until that was done he should exercise his right as senator to oppose it, even though he thereby should run executive disfavor.

During the morning hour Senator Morgan spoke in explanation of his bill for the annexation of Panama to the United States, basing his argument on the ground that the pending treaty practically contemplated that result.

MORGAN ASKED TO YIELD. Mobile Cotton Exchange Urges Quick Action on Canal Treaty.

Mobile, Ala., Jan. 21.—President D. E. Huger, of the Mobile cotton exchange, by instructions of the directors, has issued a letter to Senators Morgan and Pettus, advocating strongly quick action on the Panama treaty, setting forth the advantages to the gulf ports from the construction of the canal, and declaring that the republic is established and further opposition to the treaty can be of no benefit to this country.

HOUSE SPENDS DAY IN TALK. Army Bill Is Up, but the Tariff Is Given General Discussion.

Washington, Jan. 21.—The army appropriation bill was under consideration by the house in committee of the whole today for five hours, most of which time was devoted to a general discussion of the tariff question.

Mr. Hull of Iowa, chairman of the committee on military affairs, explained the provisions of the army bill, and Messrs. Parker, Republican of New York, and Prince, Republican of Illinois, paid tribute to the army as now organized.

Mr. Williams, the minority leader, taking the phrase "stand pat" for his text, made a general arraignment of Republican policies and declared the Republican party had become one of negation. Replying to a question by Mr. Watson of Indiana, he said the tariff should be revised. If he had the power he would bring about a Democratic tariff, but it would take time.

Mr. Lacey of Iowa reviewed the conditions, past and present, and said the people had not forgotten to "let well enough alone." He opposed reciprocity with Canada and was, however, in favor of reciprocity as a general principle.

Mr. Hill, Republican, of Connecticut, replied to the arguments presented on the minority side, employing figures to sustain his contentions, saying it was not a question of how high the tariff is fixed, but the method of fixing it.

The only opposition to the army bill itself was voiced by Mr. Baker, Democrat, of New York, who said he was opposed to war.

WANT MORE POLITICAL PLUMS. South Dakota Senators Urge Appointment of Agents for Reservations.

Washington, Jan. 21.—Senators Gamble and Kittredge of South Dakota had an interview with the president today in an effort to induce him to appoint Indian agents for the Yankton and Sisseton agencies in their state. These agencies now are in charge of the school superintendent. The senators urge that the agencies be of sufficient importance to be under the control of agents, who would be appointed by the president on the recommendation of the congressmen instead of school superintendents, who are appointed through the civil service commission.

No decision as to the appointment of the agents was reached. It is believed, however, that the Yankton reservation will be restored to its former rank, but that the Sisseton reservation will remain as at present. The president will consult with Bishop Hare of South Dakota before acting on the Yankton appointment.

The house committee on Indian affairs took favorable action today on the Burke bill, opening the South Dakota reservation of the Rosebud Indians for settlement.

ASK BIG APPROPRIATION. Missouri River Delegates Appear Before House Committee.

Washington, Jan. 21.—The Missouri River Improvement association today opened its annual convention in St. Louis and harbors advocated a project to devote \$1,000,000 a year for the next ten or twelve years to control the current and protect the banks of that river. The delegation was headed by H. E. Clark of Omaha, president of the association. Senator Millard and the entire Nebraska delegation in the house, as well as Representatives Burke and Martin of South Dakota and members of the association presented arguments to the committee.

CUT STONE CONTRACTORS UNITE. Chicago, Jan. 21.—The National Cut Stone Contractors' association was finally organized here today, and Charles H. Isch of Peoria, Ill., was elected president. The object is to advance the interests of the members. It is said there is no intention to control or in any way to deal with prices or restrict competition.

"CITIZEN" TRAIN BURIED. New York, Jan. 21.—After a musical service held an undertaking establishment here, the remains of "Citizen" George Francis Train were buried today in Greenwood cemetery. The services were private.

CAVE-IN KILLS SIX MINERS. Walsenburg, Colo., Jan. 21.—In a cave-in at the Midway coal mine at Rose, six miners lost their lives.

TODAY'S WEATHER. Washington, Jan. 21.—The following is the weather bureau's forecast for Upper Michigan: Snow Friday and Saturday; fresh west to northwest winds.

The Ex-CONSUL GENERAL TO AUSTRALIA

ALSO Ex-Lieutenant United States Navy and Ex-Lieutenant Confederate Navy Uses and Recommends Pe-ru-na.

Pe-ru-na Is a Safeguard Against the Ills Incident to Inclement Weather.

Hon. James M. Morgan.

HON JAMES M. MORGAN, 1735 Twentieth Street, Washington, D. C., Ex-Lieutenant U. S. Navy, Ex-Lieutenant Confederate Navy, and Ex-Consul General to Australia, writes: **Peruna Medicine Co., Columbus, Ohio:**

Gentlemen:—The use of your Peruna as a remedy or cure for catarrh by many of my friends who have been benefited by the same, as well as my own experience as to its efficacy and good tonic properties causes me to recommend it to all persons, and you are at liberty to use this endorsement and my photograph if it will give any force to same.—James M. Morgan.

knowing that the undertaker was carrying out his wish at that time, suddenly exclaimed, "I feel the cold wind striking my leg."

He noted the exact time, and afterward asked the undertaker about it, and his claim was confirmed, because the leg was disinterred at the very time that he said he felt the cold wind strike it.

Dusser is a man of intelligence, and while many in the community are skeptical he is so sincere that his conviction is shared by many.

A DOOR FOR NEGROES. Radium, It Is Said, Will Turn Colored Persons White.

San Francisco, Jan. 21.—A startling series of experiments, their object being to turn the skin of a negro white, has been started by Robert A. Roos, a senior in the college of chemistry in the University of California, who will work under the supervision of the professors of that department.

Radium and X-rays will be the factors in the experiments, and the effect of the combined rays of the two forces on the coloring cells of the body, both in the blood and the skin, will be the object of the research.

An exhaustive study of the properties of radium will be made and a large sum has been set aside for the purpose. No

Catarrh of the Head Which Affected Hearing Cured by Pe-ru-na.

Mr. J. Emile Tangany, No. 332 John St., Quebec, is Secretary of the Jacques Curling Club of Quebec, one of the leading sporting clubs in the city. Its members are composed of young men of the best families. He writes:

"Last winter I caught a severe cold which developed into a severe case of catarrh of the head, affecting my hearing especially. My eyes ran, my system seemed to be generally clogged up, I was advised by a club friend to try Peruna, and did so at once. To my delight I found a change set in for the better within three days, and in eight days I was entirely well."—J. Emile Tangany.

Mr. Adolph Koehler, President of the North Side Turners' Club, writes from Clark and Leland Ave., Chicago, Ill.:

"It is with pleasure that I endorse Peruna as a first-class medicine especially for catarrhal affections of the throat and lungs. I have used it with much benefit and several of my friends have been cured of catarrh entirely where Peruna was used."—Adolph Koehler.

"Nothing Better Than Pe-ru-na for Catarrhal Troubles," Says Congressman C. P. Dorr.

C. P. Dorr, Hotel Johnson, Washington, D. C., Ex-Congressman from West Virginia, writes:

"I can cheerfully recommend Peruna to anyone who wants a safe and permanent cure for catarrh. For throat, lung and catarrhal trouble there is nothing better than Peruna."—C. P. Dorr.

Colds Lead to Chronic Catarrh. A common cold is acute catarrh, which quickly becomes chronic catarrh if allowed to remain.

Every cold snap leaves in its trail thousands of cases of catarrh, many of whom for want of an effective remedy, will suffer from this disease the rest of their lives.

Is there anything that can be done to prevent all this? In the first place, Peruna used as the proper time will prevent taking cold. In the second place, Peruna will cure a cold in from two to five days.

Again, Peruna will cure catarrh quickly in the first stages, and finally Peruna will also cure chronic catarrh, if used properly and persistently.

Peruna kept in the house and properly used will therefore not only act as a safeguard against the ailments which result from sudden cold waves, but will also prove a sure remedy for this class of ailments.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Peruna can be purchased at any first-class drug store for \$1.00 per bottle. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

LOST LEG HURT HIM. Queer Experience of a Lineman Causes Widespread Interest in Southwest.

Las Vegas, N. M., Jan. 21.—A widespread and growing interest prevails here on account of the assertions of William Dusser, a Postal Telegraph lineman, who four weeks ago had one of his legs amputated, necessitated by a fall from a telegraph pole. The amputated member was buried.

After Dusser rallied from the immediate shock of the operation he asserted that his lost leg hurt him. The attendants tried to turn his mind from what they supposed was pure imagination to other matters. But he asserted with greater emphasis, that the amputated leg gave him great pain.

He grew so persistent that the undertaker who buried it was consulted, and asked to take it up and examine it. Today the leg was taken up and examined, and Dusser's claim that there was something between the toes was verified.

The undertaker carefully washed the offending member, straightened it out, and dressed it. Dusser now claims that the leg gives him no more pain, and that that which was unbearable is now removed.

The most astounding statement that the man makes is that when his leg was taken from its grave he was sitting talking with some friends, when, he not

A DOOR FOR NEGROES. Radium, It Is Said, Will Turn Colored Persons White.

San Francisco, Jan. 21.—A startling series of experiments, their object being to turn the skin of a negro white, has been started by Robert A. Roos, a senior in the college of chemistry in the University of California, who will work under the supervision of the professors of that department.

Radium and X-rays will be the factors in the experiments, and the effect of the combined rays of the two forces on the coloring cells of the body, both in the blood and the skin, will be the object of the research.

An exhaustive study of the properties of radium will be made and a large sum has been set aside for the purpose. No

expense will be spared in discovering the exact effect the wonderful mineral has under all possible circumstances.

In the experiment on the negro it is the intention to use the blackest that can be found. From minor experiments already made it is believed that, by careful treatment, he can in a short time be turned absolutely the color of a white man, and with no pain or danger.

The subject has already been selected as far as color goes, and if he is found to be in perfect health, physically and mentally, the experiment will begin shortly.

The man will be kept isolated from all but Roos and the professors while the test is being made and will be fed on a special diet calculated to put him in the best condition for the experiment.

There is a movement on foot to establish a bank on the World's Fair grounds at St. Louis. This was unnecessary at Chicago. The fair organization itself took care of all the surplus the average visitor had.—Oxford Junction, Iowa, Mirror.

The largest punch bowl ever made will be exhibited in the Palace of Varied Industries at the World's Fair. It weighs 134 pounds, and its cost in glass and labor alone is over \$1,800.

The famous McKinley bowl, heretofore the greatest made, weighs seventy-five pounds.

Tired, Nervous Mothers

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing a child involves; it is impossible for her to do anything calmly. She cannot help it, as her condition is due to suffering and shattered nerves caused by some derangement of the uterine system with backache, headache, and all kinds of pain, and she is on the verge of nervous prostration. When a mother finds that she cannot be calm and quiet with her children, she may be sure that her condition needs attention, and she cannot do better than to take

Lydia E. Pinkham's Vegetable Compound

It builds up her system, strengthens her nerves, and enables her to calmly handle a disobedient child without a scene. The children will soon realize the difference, and seeing their mother quiet, will themselves become quiet.

Read what the Vice-President of the Mothers' Club at Hot Springs, Ark., says:

"DEAR MRS. PINKHAM:—Lydia E. Pinkham's Vegetable Compound will make every mother well, strong, healthy and happy. I dragged through nine years of miserable existence, worn out with pain and weariness. I then noticed a statement of a woman troubled as I was, and the wonderful results she had obtained from your Compound, and decided to try it. It would do for me, and used it for three months. At the end of that time I was a different woman, and the neighbors remarked it, and my husband fell in love with me all over again. It seemed like a new existence. I had been suffering with inflammation and falling of the womb, but your medicine cured that, and built up my entire system, till I was indeed like a new woman. Sincerely yours, Mrs. CHAS. F. BROWN, Vice President Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark."

\$5000 FORFEIT if we cannot forth-with produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

FREE MEDICAL ADVICE TO WOMEN. From a vast experience in treating female ills, extending over 20 years, Mrs. Pinkham has gained a knowledge which is of untold value. If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. Address is Lynn, Mass. Her advice is free, always confidential and helpful.

COULDN'T FACE THE MUSIC. MIGHT HAVE BEEN WORSE.

J. Wesley Sears, a Local Business Man, Has Gone, Leaving Many Creditors.

The second-hand business conducted by J. Wesley Sears in the old steam laundry building, corner of Division and Pine streets, has been conducted by credit. Sears very quietly departed before the crash, and it is reported that he has gone to Detroit.

He had been here less than a year, but during that time he managed to get credit from nearly every business concern in town. He was a swell dresser, fine looking, smooth talker, was well posted in all sporting events, records of fast horses, baseball players, football games, etc., but lacking in the qualifications to make his business pay.

He opened up an upholstering shop in the Lossyong block, Pearl street, and remained there a few months, then moving to the former steam laundry site. He did not carry a large stock, so that the wholesalers are not out much. Most of his creditors are local people.

He opened up an upholstering shop in the Lossyong block, Pearl street, and remained there a few months, then moving to the former steam laundry site. He did not carry a large stock, so that the wholesalers are not out much. Most of his creditors are local people.

Attorney M. H. Crocker has several accounts in his hands, and he is now in possession of the few articles left in the store. It is rumored in certain quarters that Sears was very active a few days before he departed packing goods preparatory to shipping them to some other point. This being true, it is not surprising that there is very little left for the creditors.

It would be difficult to estimate at this time the total sum of Sears' unpaid bills about town. Ever since he came in town he certainly worked the graft very well. He was a good dodger of collectors and usually kept the door locked, with a peep hole in a rear partition to see who was coming. If it was a creditor he would usually come forward, opening the door, at the same time remarking that the latch had caught. If it was a creditor, there was no response.

Sears claimed to have come to Ishpeming from Marquette, where he said he conducted an upholstering business.

Explosion at Cliffs Shafts.

An explosion of giant powder in the first level of the East shaft, Cliffs Shafts mine, caused the temporary suspension of work underground yesterday morning. It occurred about 9 o'clock, and in less than an hour all the workmen were on surface.

During the winter season the giant powder is frozen, and it is customary to thaw it in large and small quantities as it is needed at some point in the mine away from where the men are working. The thawer at the Cliffs Shafts is stationed about fifty feet from the shaft on the first level. Yesterday it seems the thawer exploded, setting off the powder. The explosion wrecked the timber some fifty feet back and a similar distance to the shaft, also damaged some timbers in the shaft, preventing the cage from going below that point. The cage was on surface, where a load of ore was being dumped, when the powder went off.

John Baser, the skip tender on the first level, received a severe shock, but he escaped with slight injuries, which were caused by flying gravel and escaping steam. One man was burned and his face and hands were marked by the gravel.

At first it was feared the mine was on fire, as heavy volumes of smoke and steam came from the shaft. The pipes on the first level and in the shaft burst, the escaping steam helping to carry the smoke to surface.

The men working in the mine, including those on the first level, had no difficulty getting out. All went to the west shaft, where they were hoisted to surface.

Captain Stephens and some of the other workmen spent the greater part of the day underground. They were able to enter the wrecked portion of the first level in a comparatively short time after the explosion. Steps were taken to replace the damaged timber in the shaft, and it is expected that the cage will again be in operation tomorrow. Meanwhile some of the men will resume their places underground. The damage to the timber in the drift will not interfere with operations as no mining work was being done anywhere near the powder thawer.

The concussion from the explosion was not felt a great deal in the vicinity of the mine, but the windows in the east shaft house were shattered. The men working there were considerably alarmed, but they stood their ground. A great many people came up from town to ascertain what damage had been done.

THE FINEST YET.

The International Bioscope company is credited with having the finest lot of motion pictures ever put together for an entertainment. The collection is large and well assorted. The company is said to have the finest motion picture market that produces moving pictures without flicker or vibration. The Bioscope runs so smoothly that the audience seldom hears it. Three entertainments will be given at the Ishpeming theater, next Wednesday evening and Thursday afternoon and evening. The afternoon performance will be given specially for the children. It will commence at 4 o'clock. The prices for the evening performances will be thirty cents for the entire floor and box seats; twenty for balcony and ten for gallery. The prices for the matinee will be ten for children and twenty for adults to any part of the theater. Reserved seat tickets for Wednesday night's performance will go on sale at 10 o'clock Tuesday morning.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science, however, has discovered that it is a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

Gylying Block Discovered on Fire at Early Hour Yesterday Morning.

A quantity of coal braze left near the ice box in the saloon in the first floor of the Gylying block, Main street, took fire at an early hour Wednesday and smoldered until 2 o'clock yesterday morning, when the blaze was first noticed. Plumbers were working about the box during the day, using lighted candles. It is assumed that the blaze from a candle came in contact with the coal, igniting it. The saloon was not closed until the usual hour, but the bartender did not notice the fire or smell the smoke.

An alarm was sent in and the hose and hook and ladder companies stationed at No. 1 engine house responded promptly. It was but a few minutes' work to extinguish the blaze.

Had the building gone up several would have sustained heavy losses. The rate on the structure is so high, it being brick veneer in front and wood siding in the rear, the owner has never carried much insurance. The same is true of the parties who have just equipped the bowling alleys on the second floor, as well as the owners of the saloon outfit down stairs.

MRS. M. J. TAYLOR TO LEAVE.

Ishpeming Milliner Will Move to Milwaukee in a Few Days.

Mrs. M. J. Taylor, who has conducted a very successful millinery business in the Truman block, Main street ever since the death of her sister Isabella Kelley, three years ago, is preparing to leave the city having decided to retire. Her goods are being sold at a sacrifice for a few days, but anything left in stock by Saturday night of this week will be shipped to Milwaukee, where Mrs. Taylor will live with her son, Edward, who holds an excellent position with the Milwaukee News.

Mr. Taylor is largely responsible for his mother's present illness. Ever since the death of his sister Isabella Kelley, he has not felt well and has been trying to persuade his mother to come and live with him. The boy's death was a most severe blow to the parents, as well as the grandmother. While out playing with his companions a few weeks ago he was shot into his ear. An operation was performed, but the boy lived less than two days.

Business Established Long Ago.

The business which Mrs. Taylor now surrenders was established many years before any other exclusive millinery house in the city was opened, and a most singular thing about it is that the location has never been changed. Mrs. W. J. Roberts started the store nearly a quarter of a century ago. For some years before she left here for the south the late Miss Kelley was her trimmer. When she retired Miss Kelley assumed ownership.

The block in which the business has been conducted is one of the oldest on the street, it having been erected about thirty-five years ago. During the big fire of the early seventies, when most of the buildings on Main street were wiped out, the old Truman shell, together with the wooden structures on either side of it, remained standing. The blocks immediately across the street went down, as did also the buildings exposed on both sides from Pearl to Myers' corner and the city hall.

Less than three years ago the structure had another fire call, and it was W. J. Roberts started the fire department, that it was saved. An explosion of gasoline occurred in the front window of the candy store in the south end of the block, causing a blaze that threatened the destruction of several buildings adjoining.

It is likely that E. F. Murray will move his confectionery store from his present quarters to the rooms Mrs. Taylor has occupied. They are much larger and better suited for Mr. Murray's business, as he is now very much crowded. Mr. Murray has had an opportunity to view the premises.

DRUG STORES ON DECREASE.

Total in United States Last Year 39,899, or 150 Less Than in 1902.

The number of drug stores in the United States has decreased during the last year. The "Ezra Druggists' Directory" gives the total number of drug stores in the United States in October of last year at 39,899, or 150 less than a year ago. In Canada the number of retailers has increased from 1,673 to 1,790, while in the other countries embraced in this country the number remains practically unchanged.

The most striking change in the character of the business carried on by America druggists is the addition of various side lines to the drug stock. On the other hand, many druggists, particularly in the larger cities, have dropped the sales of wines and liquors. A notable feature concerns the development of pharmacy in Oklahoma and Indian territory. In these two territories the numbers of retail druggists have increased 102 and 105, respectively. The preponderance of foreign names among the druggists of New York city and Chicago is more marked than ever. Native Americans bearing Anglo-Saxon names may be said to have deserted the calling in these large centers of population.

One of the features of the drug market during the last year was the stability of price and the lack of speculation in the leading articles. Quinine remained at a practically even price during the entire year, and the production of bark and the consumption of quinine were nearly equal. There has been a great scarcity of native American herbs, roots, and barks, and prices have been high in consequence. The scarcity was due to a decreased production, which was more profitably employed in the sections where these articles are obtained than in gathering these medicines. The scarcity was felt in nearly all varieties and in some instances prices were advanced as much as 100 per cent. In many other values were increased 25 per cent and upward, while in some there were times when needed goods were practically unobtainable for any figure. Stocks of cannabis indica have been gradually diminishing all over the world during the last year. In order to obtain fresh supplies, it will be necessary to pay a heavy export duty, which has been placed on the goods in India.

The phenomenal advance in cod liver oil constitutes one of the market features of the year. It was due to a scarcity of production. As a result of the scarcity the price of cod liver oil became common, and pure goods were held at a high figure, and will continue to be so held until the supplies of the next fishing season become available. The fluctuations in peppermint oil also attracted considerable attention in the drug trade during the year.

There has been a decided falling off in the sales of patent and proprietary medicines. This is due to two causes, one being that druggists have been making substitute preparations of their own, and the other that the profits derived by retailers have been reduced.

FOUND A CURE FOR INDIGESTION.

I use Chamberlain's Stomach and Liver Tablets for indigestion and find that they suit by case better than any dyspepsia remedy I have ever tried and I have used many different remedies. I am nearly 50-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to now.—Geo. W. Emery, Rock Mills, Ala. For sale by The Stafford Drug Co., Marquette, J. M. Perkins, Negaunee; Henry Harwood, Ishpeming.

If you want fresh sea fish call at Aug. Hendrickson's meat market. (1-18-1w)

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. Desjardins' Pharmacy.

SUCCESSFUL MEETINGS.

Methodists Are Holding Very Largely Attended Services at New Church.

The revival meetings held every evening since the week of prayer, the first week in this month, at the Division street Methodist church, are the most successful conducted in this city in some years. There is a large attendance at all the services and conversions are being made nearly every evening.

These are the first revival meetings held in the new church. Last year the church was just broken up, and the congregation was without a suitable place for worship. The services were postponed for the first time in the thirty-three years of the local society's existence. The members are making up for the time they lost last year, and many of their number are giving the pastor excellent assistance in bringing in recruits.

From present indications the revival meetings will continue at least a month longer. It is customary for the Methodist church to hold revival services at this time. In many places they are continued for from two to three months.

ISHPEMING IN BRIEF.

A license to wed has been granted to Herman Koivisto and Miss Hilga Kandelin, both of this city.

Miss Millie Van Broeklin entertained the members of the Tonowania club at her home Thursday evening.

Mrs. E. C. Thomas, of Painesdale, is in the city visiting her parents, Mr. and Mrs. John Maroney, West Division street.

J. M. Hayden, former manager of the E. E. Swift Hardware company, now a resident of Chicago, visited Ishpeming friends yesterday.

James Roberts, the tea man, whose place of business is at the corner of Cleveland avenue and Third street, is reported dangerously ill with brain fever.

John Farm, ex-city marshal, is home on a two weeks' visit to his family. He is established in his new home at Reed City, Mich., where he represents importers of high-bred horses. John says he is doing well.

The local ice dealers have a number of men and teams cutting ice at Lake and hauling it to their storage houses in the city. The loads coming in are small, as the roads are not yet in good condition.

John Quayle is spending a few days at Swanzy, assisting John Willis at Richard Quayle's store. Mr. Willis is managing the business. A fine trade is enjoyed. It is the only mercantile establishment in the place.

DRUG STORES ON DECREASE.

Total in United States Last Year 39,899, or 150 Less Than in 1902.

WHAT BUSINESS TO TAKE HOME.

Try to Handle Your Work in Waking Hours.

It is a reflection upon your own business ability that you cannot make a living during business hours. Your ill humor is a confession to your wife of your weakness and incapacity, and of your not being master of the situation, or equal to confronting emergencies.

This does not mean that you should not keep your wife informed about your business. Every man should talk over his affairs with his wife, and she should always know the exact condition of his business. Many a man has come to grief by keeping his wife in ignorance of his straitened circumstances or declining business, or of the fact that he was temporarily pressed for capital and unable to indulge in certain luxuries. A good wife will help a man amazingly in his business troubles or struggles to get situated. If she knows just how he is situated, what is required of her. Her economy and her planning may give just the needed support; her sympathy may take out the sting of the pain, and enable him to bear his trials. This confiding frankness in a wife is a very different thing from revealingly harping on the disagreeable features of a business or letting them ruin your attitude toward your family, making life miserable for those not to blame.

Good cheer, a feeling of good will toward one another and toward other people, a spirit of helpfulness and utter unselfishness should always be present in the home. It should be regarded as the most sacred spot on earth. The husband should look upon it as the one place in all the world where he can get away from business troubles, and the excitements, grinding and crowding of life's struggles—a place to which he can flee from all in harmony and discord, and find peace and rest, contentment and satisfaction. It should be a place where he always longs to go, and from which he is loath to part.—Orison Swett Marden, in November Success.

CHARITY OF DEPUTIES' WIVES.

They Look After Poor in Paris from Their Husbands' Districts.

The wives of French deputies, by reason of the husbands' office, enjoy one very pretty distinction in the Paris world which is eminently characteristic of the beautiful spirit animating the French, individually considered. That is, the wife of the deputy conceives it to be a moral obligation devolving upon her to look after the poor in Paris who have come originally from her husband's district.

Every separate department in France is a singular social unity. The peasant from Pas-de-Calais, from Ardennes, from Loire, from where not, speaks lovingly of his "pays," and he means not France, but Pas-de-Calais, Ardennes, Loire, or the district where his home is located, which is him pre-eminently the country of his heart. Neighbors there so marry and remarry that the people of one "pays" are often nearly all of one family, and are always of one heart and of one profound sentiment of sympathy.

On such basis the members of each "pays" dwelling in Paris are organized for charitable purposes, and at the head of this work appears the wife of the deputy representing the district. In one instance the woman exercising this gentle office incident to political position in France is an American, the daughter of Mrs. Bellamy Storer and the wife of the Marquis de Chambrun, who represents in the French parliament the district of Lozere.—Harper's Bazar.

DENIED STEALING THE BELL.

But Brought It Back to Its Owner the Next Day.

Mr. William Alden Smith, representative from the Grand Rapids, Mich. district, was once defendant's attorney at a trial on a criminal charge. The complaining witness was known to be of bad reputation. Mr. Smith naturally made the most of that fact.

One of his witnesses was a stalwart blacksmith. This blacksmith had a venerable figure, a conspicuous feature of which was a long white beard falling upon his broad chest.

"Do you know the family of the complaining witness in this trial?" asked Attorney Smith.

"I do," replied the blacksmith in stolid tones.

"What is their reputation, good or bad?"

"Bad" (in the same stolid tones).

"The prosecuting attorney, to whom the witness was promptly handed over, was counted a clever man at cross-examination.

"Have you had trouble with the father of my client?" he inquired in exultant but impressive manner.

"No," replied the blacksmith deliberately. "No trouble at all!"

"Nuffin of much importance."

"Ah, there was something!"

"I accused him of stealing the bell off my bridle cow."

"And he denied it, didn't he?"

"Yes," rejoined the blacksmith of venerable beard, "but he brought the bell back next day."—Washington Star.

Like a Comet.

This famous remedy does for the stomach what which it is unable to do for itself, even if but slightly disordered or overburdened.

Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous system, while the inflamed muscles and membranes of that organ are allowed to rest and heal. It cures indigestion, flatulency, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the glands, membranes of the stomach and digestive organs.

MINERS GET WARNING.

Colorado Men Advise Marquette County People to Stay at Home.

A number of Negaunee men who have been out of work as a result of curtailments at the mine are the desirous of making a change went to the Nelson House, Ishpeiming, yesterday, in response to Donald Cameron's advertisement in The Mining Journal.

CONSIDERATION \$750,000.

Lackawanna Steel Gets Half-Interest in Negaunee Mine Lease.

According to advices from Duluth, the Lackawanna Steel company, which is erecting the largest steel works in the world at Buffalo, has secured a half-interest in the lease of the Negaunee mine here, for which it paid \$750,000 to the Cleveland-Cliffs company, holder of the lease.

IT MEANS PIONEER.

Letter Telling How Negaunee Was Given Its Present Name.

Every one in a while The Mining Journal receives inquiries from people who ask to know how Ishpeiming or Negaunee came to get their present names.

Cameron Ordered to Leave.

It was reported in Ishpeiming yesterday, although Mr. Cameron could not be reached to verify the rumor, that he had been ordered out of town by a delegation of Ishpeiming men, who evidently thought he was trying to deceive them.

Men Fought Few Times.

Marquette county miners are not easily provoked, and it has been noted that the few fights which have taken place among them were on affairs generally and can be looked on as accepting places of workmen let out on account of labor trouble invariably get left.

CONGRATULATIONS.

Mr. John H. Cullom, editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for croup, we have never been without it in the house since that time.

WANT CAMP HERE.

Members of the local camp of the Modern Woodmen of America are anxious for the organization of a Royal Neighbors camp in Negaunee. At the public installation of officers a short time ago there was much sentiment expressed in favor of an auxiliary organization, but no positive steps were taken to bring the ladies together.

IN BED FOUR WEEKS WITH 'LA GRIPE.

We have received the following letter from Mr. Roy Kemp, of Angola, Ind.: "I was in bed four weeks with la grippe and I tried many remedies and spent considerable for treatment with physicians, but I received no relief until I tried Foley's Honey and Tar. Two small bottles of this medicine cured me and now I use it exclusively in my family." Take no substitutes. Desjardins Pharmacy.

MARQUETTE FIRM GETS JUDGMENT

POWELL & MITCHELL NOW AMONG LEADING CREDITORS OF THE CONSOLIDATED L. S.

AWARD OF \$119,000 ALLOWED

CASE WAS LATELY DECIDED ON BY JUDGE JOHNSTON.

Suit Was for Violation of Contract in Connection With Their Helen Mine Operations—Asset Regarded as a Good One.

By a late decision of Judge Johnston, who dispenses justice in the Canadian circuit that includes the Canadian Soo, Powell & Mitchell of Marquette, the well-known contractors whose activity extends all over the Lake Superior region, became one of the heaviest creditors of the temporarily defunct Consolidated Lake Superior company, which has been so much in the public eye for the past several months. Judge Johnston has given Powell & Mitchell an award of \$119,000 for damages and breach of contract in connection with their operations at the Helen mine in the Michigan district. Shortly after the deposit of ore at that property was opened Powell & Mitchell took a large contract from the Consolidated people to conduct the mining operations on terms mutually agreed upon. They once proceeded to carry out their part of the agreement, putting in an equipment of sufficient size, a large force of men and beginning mining without delay. They carried out their part of the contract to the letter and would have continued to do so indefinitely had the Consolidated people not been equally solicitous about their end of the bargain. However, this they were not, but before Powell & Mitchell's operations had been in progress a year, in 1900, summarily and with no good and sufficient reason or cause compelled them to cease from their mining and to withdraw from the property, subsequently refusing any satisfactory settlement.

The Marquette firm lost no time in instituting legal proceedings for damages, and the cases were gotten under way. The course of the litigation was slow and tedious, and it was not until a few weeks ago when the judgment noted above. It has been properly filed and recorded, and is now collectable as soon as the Consolidated company is in a position to treat with its creditors and to take steps for obtaining a discharge of its various obligations.

Despite the fact that the Consolidated has been for some months and is now in what seems to be a terribly involved condition, the Marquette firm looks upon their judgment as a valuable asset. The Consolidated's troubles are regarded by them as being of a fleeting nature, and they have confidence that the company will soon be in a solvent condition, with its industries busy and due opportunity to develop its great natural resources. The creditors have had every assurance that their claims will be looked after in due time.

This faith in the ultimate solvency of the Consolidated seems justified by the reports of people who have carefully studied the situation at first hand. The company's natural resources, land grants, mines, etc., are very great, and the plants are capable of making big money once they are given a favorable start under efficient management. Cornelius Shields, still president of the company, is regarded as a very able man and an experienced executive, and it is felt that once he gets the concern on its feet again he will surprise his critics with his performance.

Powell & Mitchell's many friends throughout this region will be greatly pleased to learn that they have fared so favorably at the hands of Judge Johnston, although this was the outcome expected by all who were acquainted with the facts in the case. They will also sincerely hope that the judgment will soon be collectable at its full face value.

A diamond, a watch or any article in our entire stock at special low price during our pre-inventory sale ending Jan. 31. Conklin's. (1-16-13)

Now is your chance to get china and cut glass at a bargain at Stafford's. (1-16-13)

ALWAYS SOMETHING NEW IN GAS.
The newest is the "Ignito" mantle. Lights itself; no match required. You want the best, most reliable and cheapest light in your store and home? Then use gas. The Marquette Gas Light Co.

BIG CROWD AT PRISON.

Over Three Hundred People Saw Minstrel Show Last Night.
The attendance at the minstrel show given by the inmates of the Marquette branch of state prison at the chapel last night was attended by even a larger crowd than turned out to see the initial performance, before Christmas. The chapel was fairly packed, over 350 admissions being recorded at the gate. All the buses and large conveyances in the city were needed to carry the crowd, and at that many people walked. The show is said by those who saw both to have been an improvement on the first, and it appeared to give good satisfaction. There was much applause and laughter, and some of the features were excellent. The program was not finished until about 10:30 and then the crowd had to wait in the chapel until the lock of the prisoners was made, so it was pretty late when most of the people got home.

ELKS HAVE GOOD BILL.

Miss Thurston in "Polly Primrose" Is an Excellent Attraction.
The Marquette lodge of Elks feels that it is fortunate in getting Miss Adelaide Thurston in "Polly Primrose" for its annual charity benefit, to be given at the opera house Feb. 13. The Elks this year have decided not to stage an amateur production, but to give a regular road attraction under their auspices. The mention of Miss Thurston's name recalls the fact that this young woman, from Duluth, Minn., was the first player who had the courage to follow Maudie Adams as Lady Babbie in "The Little Minister." That she was successful in her daring venture was proven by the fact that she continued in the part for two seasons. At that time she was the youngest leading woman in the country. Previously she had been with the Pittsburgh stock. She had played in "A Texas Steer," and had enacted Cissie in "What Happened to Jones." After "The Little Minister" she went into Mrs. LeMoine's company and played Midge Chiswick in "The Greatest Thing in the World," this being her only appearance in New York. Later she became a star again, her first season appearing in "Sweet Clover." Her vehicle last season was "At Cozy Corners."

HAS NORWEGIAN BOAT.

J. M. Longyear Had It Shipped to Marquette, While Abroad.
There was received here the other day a Norwegian boat that J. M. Longyear had shipped to Marquette from Norway, when he was abroad last year. It is now in storage at the warehouses on Main street, and in the spring will be shipped up the lake to the Ives Lake farm, where Mr. Longyear and his family spend part of the summer. The Norwegian boat has been seen with curiosity by a number of people, and it is quite unlike the kind of small water craft to which people in this region are accustomed. It is not very large, being but eighteen feet over all, the size of an ordinarily large row boat. It is, however, broad in proportion to its length, and it has a high bow and stern. It is provided with a flat bottom, which gives it a peculiar excellence as a freight carrying or passenger craft. It can be loaded with safety to a much greater extent than the case with an American boat of about the same size. It is said that it can carry a dozen or more passengers. The craft is provided with a sail, and may also be propelled with oars. In Norway this type of boat is used for transferring passengers from ships to shore, there being no docks, as the term is understood in this country. On the arrival of a steamer these craft swarm to its side to be at the service of the passengers.

INDIANS LOST.

Last night's bowling match, one of the city league, series resulted in the defeat of the Indians by the Wolverine aggregation, the latter taking two out of three. The scores follow:
Wolverines— Tot. Av.
Weiser 151 172 116 439 146
McKenna 159 170 155 484 161
Stafford 141 165 133 439 146
L. Rose 167 196 131 494 164
Stevens 209 171 173 553 184
Totals 827 874 708 2409 160
Indians— Tot. Av.
Plozman 146 162 168 466 155
Palmer 170 137 150 457 152
Sink 162 136 131 429 143
Maney 145 98 221 464 154
Rouseffell 186 194 210 590 196
Totals 809 727 880 2416 161

F. W. READ, Vice President.

WILL PREPARE THE CASE.

Friends of the Proposed New Township Will Now Become Active.
People who favor the setting aside of another new township in the northern part of the county will now busy themselves with the preparation of a case to be presented to the board of supervisors, when they assemble the last of next month. A number of steps are necessary among them the advertising of the intention to try to have a new division set off, so that all property owners in the regions affected who do not favor the project may have a chance to protest. This will be done, and all other steps necessary to have the matter presented to the supervisors in the proper light will be taken.

As a matter of fact it is said that there will be no protests against the new township, as almost everyone interested in the north part of the county is heartily in favor of its creation. This is true of all the big interests, the Big Bay Lumber Co. and the heavy land owners, and it is certainly true of the homesteaders. In fact it is claimed that as yet no single voice has been raised against the project.

As far as it has been developed, the sentiment on the board is in favor of giving the people of the north part of the county the opportunity to vote on the township which will incorporate parts of Michigan, Champion, Ishpeming and Marquette townships, yet will include such a small and comparatively unimportant part of each that the townships affected all regard the movement with equanimity. A number of feasible boundary lines are suggested by the promoters of the scheme, and it is not yet known definitely which will be urged on the board.

Should the supervisors' action be favorable, as now promised to be, there will be nothing in the way of organizing the new township without delay, and this will doubtless be done. The primary object of the movement is to secure road improvement in the north part of the county, and if all goes well it is hoped to make a start with this work the coming spring.

Just now the roads to Big Bay and beyond are pretty well broken and good time is made on them. However, the heavy quantity of snow in the woods cause settlers and others using the highways to look forward to the spring with a great deal of foreboding.

KELLAN SEEKS RECEIVER.

Mismanagement and Waste of Funds Are Alleged.
In the Chicago Chronicle of Wednesday was contained the news that Edward L. Kellan, formerly a well-known Marquette business man, together with H. L. Godfrey, had made application to the superior court for a receiver for the wholesale grocery business and mail order house of Patterson, Kellan & Co., mismanagement and waste of funds being set up as the grounds on which the interference of the court was asked. The company's warehouses are at 175 W. Randolph street.

Beyond announcement contained in the Chronicle, Mr. Kellan's friends here have no definite news concerning his step, or the causes therefor. The last time he was in the city he expressed himself as very well pleased with the manner in which the company's business had opened up and did not, as far as known to people questioned by The Mining Journal, entertain any fears of its continued success.

Patterson, Kellan & Co. began business only a few months ago. Mr. Kellan left Marquette for Chicago early in the fall last year, but much time was consumed arranging the details of organization for the new company and in opening up warehouses. Stock in the enterprise was in a number of hands, including retail grocers, who were expected to become good customers of the concern. The intention was to expand the mail order branch to large proportions. The company had a large and complete wholesale grocery stock, and Mr. Kellan regarded its prospects as highly promising.

His friends here greatly regret to learn that he and Mr. Godfrey have had to file an application for a receiver, as they reason that the business must have been put in a bad way or such an extreme step would not have been resorted to. While they lack detailed information they are afraid that the breaking up of the new enterprise may be less loss to all the partners and stockholders, is indicated.

Mr. Kellan had planned to spend a good deal of his time in Chicago and some of it on the road. He resided in Marquette previous to his departure for Chicago for many years, being a successful grocery retailer for the greater part of the time. About four years ago he embarked in the wholesale business here, selling out to go to Chicago.

BOXING AND WRESTLING INSTRUCTIONS.
Rooms in basement of Nester block below Gooding & Orm for a store. Satisfaction guaranteed. Hours from 2 to 5:30 and from 7:30 to 10:00 p. m. Call for terms, etc. JOHN MCCLINCHEY. (1-22-1w)

All prices quoted are genuine reductions and quality of goods can be relied on at Conklin's pre-inventory sale, ending Jan. 31. (1-16-13)

It will pay you to look over Stafford's china and cut glass during the sale now on. (1-4-11)

A FEW OF ITS ADVANTAGES.
By using gas you are absolutely sure of a rich, steady, bright and perfect light at all times. No disappointments; always ready. The Marquette Gas Light company.

APPROVE NEW SYSTEM.

Supervisors' Contagious Disease Plan Should Prove Satisfactory.
There was comment yesterday by a number of city officers and others who have had occasion to acquaint themselves with matters pertaining to the handling of contagious diseases in this county on the new system adopted by the board Wednesday by which the responsibility for the care of communicable cases is put on the county physician, Dr. E. H. Flynn, with the power to contract and O. K. bills. The comment was all favorable, and it was the general opinion that the system and the new rules and regulations, if strictly adhered to, will greatly reduce the annoyance which has attended the care of contagious cases, as well as effect a great saving for the county.

Under the old system the city health officer took charge of these cases. He was empowered to contract all bills that he felt to be necessary. These bills were first sent to the city council, for approval. With the council O. K. they were transmitted to the board of supervisors, which had to pay them on the council's say-so, without any positive guarantee that they were all right, as the council's auditing of the accounts was purely perfunctory. If there were no objections under the loose system the good work of the health officer was the only thing to be thanked, for there was room for many irregularities and the absurdity of compelling the board to pay bills it had no hand in contracting was so manifest as not to admit of argument.

Under the old system there was much debate and quarreling over bills and since the first small pox scare two or three years ago the trouble has been continuous, with bills constantly being sent back and forth between the council and the board of supervisors. The board refused to pay some accounts, but under the old law it could be held responsible for a settlement, and this refusal only delayed matters, affording no permanent relief.

Now, however, the board has things its own way. Its officer has charge of the cases and contracts for all expenditures. If the board does not like his management, it is competent to call him to account. The results should be excellent. The new system takes all responsibility away from the city officers and relieves the council from any necessity of handling the bills, a thing for which the members are duly thankful.

City Brevities

Today's weather: Generally fair; stationary temperature.
Yesterday's temperature: Seven a. m., 22 degrees; noon, 19; 7 p. m., 19. Maximum, 22 degrees; minimum, 18.

A meeting of the Ladies' Aid society will be held at the M. E. church at 10 o'clock this morning.
The Marquette National's bid on four and quarter per cent bonds was \$110,011, instead of \$100,011, as stated in yesterday's issue.

The children's choir will sing at the union evangelist meeting tonight at the Baptist church. This evening's meeting will be the last held during the present week.

* Mrs. Joseph M. Hayden, formerly of Ishpeming, now a resident of Ravenswood, Ill., is in Marquette for a few weeks' visit with her mother, Mrs. J. N. Williams.

The board of managers of the Marquette County Agricultural association will meet this afternoon to consider plans for the exhibition to be given this year. The fair will likely be held the first week in September.

Walker Whiteside and his company left yesterday afternoon for Manistique, where they opened a new theater last evening, with a performance of "We Are King." Mr. Whiteside has opened several new theaters while he has been on the road this season.

The Young Woman's guild of St. Paul's church will meet this afternoon at 2 o'clock with Miss Jopling, East Ridge street. At three o'clock Bishop G. Mott Williams will give a talk on church work in Japan, Korea and northern China. These lectures will be given every alternate Friday.

Gad Smith has been at Washington, D. C., and in the lower part of the state during the past few days. He was one of the delegation of prominent Michigan men who waited on President Roosevelt to invite him to attend the "under the oaks" celebration of the semi-centennial of the Republican party at Jackson on the 6th of next July.

The M. C. & P. I. Street Railway company expects to open its ice rink today. It is found to the right of the Dead river trestle, just this side of the shoulder of rock south of the main river bed. Arrangements have been made for keeping the ice in good condition, and if the weather is favorable it is expected to see some excellent skating during the remainder of the winter.

This evening at Fraternity hall occurs an invitation dance that has created more than the usual amount of interest. It is a leap year party given by a number of the young ladies of the high school. Adequate preparations have been made and the young gentlemen expect to give the gentlemen a fine time. The cards were sent to the ladies, who invited the men, and who will do all the asking for dances this evening. It is expected that the attendance will be large. The Marquette orchestra will furnish the music, and refreshments will be served at the hall.
