MAYOR HARRISON IS DISCHARGED

JUDGE TUTTILL OF CHICAGO ORDERS HIS IMMEDIATE RELEASE FROM CUSTODY.

CENSURES CORNER'S JURY

DECLARES THE CITY EXECUTIVE ABSOLUTELY BLAMELESS.

Holds Him in No Way Whatever Responsible for the Theater Horror and Says the Stigma Placed Upon Him is Entirely Unjust.

Chicago, Jan. 27.—Mayor Carter H. Harrison was this afternoon ordered by Judge Richard S. Tutthill to be immediately discharged from custody in connection with any responsibility for the wholesale loss of life in the Iroquois theater fire.

The judge declared that the mayor was in no way whatever guilty or liable and that the stigma placed upon him by the mayor held to the grand jury had put an unjust stigma upon the mayor, who had failed in no particular whatever, either in omission or commission. In delivering his opinion, Judge Tutthill said:

No Evidence Against Him.

"I have gone over the testimony of Fire Marshal Musham and Building Commissioner Williams, that relating to the mayor particularly, and I can say without qualification or hesitation that I find not one word in the evidence, so far as I have examined it, which tends even remotely, in my judgment, to show that the mayor had any knowledge of this matter or that he was in any respect negligent in any duty imposed upon him by the laws or by rules that commonly apply to persons who are responsible for the safety of others."

Judge Tutthill then reviews the investigation into the condition of theaters ordered by the mayor, and the report of the investigators showing that many of the theaters were complying with the ordinance. He says that the mayor promptly presented this report to the council and that it was by that body sent to committee, as is usual with reports of that kind. He says that the mayor acted properly and in line with his duty. For the mayor to act otherwise than he did when he submitted the report to the council and to close the theaters simply upon the report of a committee would have resulted in unusual condemnation, he says. The mayor did what any mayor would have done. "The most careful and cautious man that could occupy the mayor's chair could not have done more than he did," says Judge Tutthill.

Were Gross Violations.

While the judge finds that there were gross violations, not only of the city ordinances, but of common rules of safety that anybody without any special knowledge would have said were absolutely essential at the Iroquois, Judge Tutthill says he cannot conceive how the mayor could be held responsible. He thinks it would be just as logical to hold the president of the United States responsible for the loss of life in the fire at Annapolis, or to hold the governor responsible should lives be lost in a fire at an insane asylum.

Judge Tutthill does not hesitate to say, in view of the evidence and under the facts admitted by the state, that it is a very great wrong "to place upon the mayor of the city this undeserved stigma, as I find it to be, without any basis in law or in facts that have been testified to before the coroner's jury upon which it can be properly based." He then ordered the mayor discharged.

Harrison Tells of Appointments.

Following his release, Mayor Harrison said to the Associated Press: "The only possible feature which the jury were able to find, connecting me with the Iroquois fire disaster, was the alleged negligence and incompetence of my appointees, Fire Chief Musham and Building Inspector Williams.

"I want to call attention to the fact that Chief Musham has been connected with the Chicago fire department for forty years, beginning at the bottom of the ladder and winning his way to the position of assistant chief by gallant and heroic conduct of a lifetime. Upon the retirement of Chief Swenice I appointed Musham chief. The appointment was strictly on its merits and met with unanimous approval.

"When the position of building commissioner became vacant last summer, I invited the Builders' club, an association of architects and various other non-partisan professional organizations, to nominate the best available man for the vacancy. They named, in nominating Williams, a Republican and gave me the strongest testimonials to his character and efficiency. I appointed him and he entered most earnestly upon his duties. Both of these men were considered ideal appointments.

"The imputation of guilt upon these two men is entirely unjustifiable, but to strike at me, over their shoulders, is little short of infamy."

The occasion of Judge Tutthill's action was the application of the mayor for his release on a writ of habeas corpus.

House Fireman Surrenders.

William Sellers, the Iroquois theater fireman, surrendered himself today. He was out of town when the coroner's verdict was returned.

TOM JENKINS DEFEATED.

Bellington, Wash., Jan. 27.—Frank A. Gotch of Humboldt, Ia., won the wrestling match tonight with Tom Jenkins of Cleveland for the championship of the world.

SECRETARY SHAW NOT TO QUIT.

Washington, Jan. 27.—The statement that Secretary Shaw intends to leave the cabinet is without foundation.

ALLEGED SWINDLERS HELD.

Stockholders from All Over Country Attend Hearing in Chicago.

Chicago, Jan. 27.—Frank Jager, president of the Model Gold Mining company, and his brother, John Jager, were today held to the federal grand jury under bonds of \$10,000 and \$7,500, respectively. They are held on the charge of using the mails to aid in a scheme to defraud. John Jager is treasurer of the Model company. Both were formerly connected with the Jager Oil company and several other mining corporations. Upwards of \$800,000 are involved in the case, and stockholders from all parts of the country attended the hearing.

CASE OF SUICIDE.

Death of Whitaker Wright Is Found Due to Poisoning.

London, Jan. 27.—The post-mortem examination today showed that Whitaker Wright, the company promoter who died suddenly yesterday, after being sentenced for fraud, committed suicide by taking potassium cyanide.

MUST SERVE OUT SENTENCE.

Release on Writ of Habeas Corpus Refused Alderman Brennan of Chicago.

Chicago, Jan. 27.—Discharge on a writ of habeas corpus was today refused Alderman John J. Brennan, who was sentenced to the Bridewell, charged with election frauds.

PLOT NETS \$50,000

SCHOOL BOARDS IN WISCONSIN ARE SWINDLED.

Supposed Contracts for Supplies Turn Up at Banks as Notes, and Alleged Agents Have Disappeared.

La Crosse, Wis., Jan. 27.—The district school boards of La Crosse, Vernon and Monroe counties have, it is alleged, been swindled out of \$50,000 notes for which have been deposited in several banks in the counties named. Persons representing themselves as agents of a Chicago concern took additional contracts for books and other school supplies. The conditions were on one end of each document and shortly after the contracts were entered into the papers turned up at the banks as notes, the conditions having been torn off. The agents have disappeared.

JUDGE TAFT IN WASHINGTON.

Successor to Secretary of War Root Arrives from the Philippines.

Washington, Jan. 27.—William H. Taft, former governor general of the Philippines and the new secretary of war, arrived here this evening. General Chaffee, chief of staff, Assistant Secretary of War Oliver and Colonel Edwards, chief of division of insular affairs, formally greeted the new head of the war department.

As Judge Taft and party passed through the large crowd in the crowd there was a prolonged outburst of cheering which was repeated vociferously by the crowd outside. Judge Taft, with General Chaffee and Colonel Edwards, entered on a carriage, Mr. Oliver followed in another and led by Troop E of the Cavalry, from Fort Myer, which had been drawn up in the plaza in front of the depot, they were rapidly driven to the war department building, where Secretary Root formally welcomed his successor.

Senator Alger Entertains.

Senator Alger, formerly secretary of war, gave a reception tonight at his residence in honor of Secretary Root. Among the guests were President Roosevelt, members of the cabinet, many senators and members of the house, supreme court justices, military officers, men distinguished in civil life and ex-Governor Taft. President Roosevelt and Judge Taft arrived some time after the reception began. They had not met since Judge Taft came to the city and the greeting between the two was very cordial.

SUDDEN DEATH AT L'ANSE.

G. R. Arnold, of the Worcester Lumber Company, Expires at Hotel.

L'Anse, Mich., Jan. 27.—George R. Arnold, vice president of the C. H. Worcester company of Marquette, Wis., and vice president of the Worcester Lumber company of Chassell, Mich., died very suddenly at the Thomas Hotel here tonight.

New York, Jan. 27.—Mrs. Annie Chambers Ketchum, author of the "Bonnie Blue Flag," one of the most famous war songs of the Confederacy, as well as of many other poems and prose writings, is dead, aged eighty.

ENROUTE TO PHILIPPINES.

American Torpedo Boat Destroyer Flo-tilla Touches at Gibraltar.

Gibraltar, Jan. 27.—The United States torpedo boat destroyer flotilla arrived here today on its way to the Philippines.

FRESH REVOLT PROCLAIMED.

Macedonian Revolutionists to Take Up Arms Again in March.

Belgrade, Serbia, Jan. 27.—Saraful's Macedonian agents have proclaimed a fresh revolt for March 28.

DEAD ESTIMATED AT 174.

Seventy-One Bodies Found in Wrecked Harwick Coal Mine.

Pittsburg, Jan. 27.—Three days have elapsed since the terrible catastrophe at the Harwick mine, and tonight at midnight seventy-one bodies have been recovered and brought to surface. Only eighteen have been identified. The total number of dead is now estimated at 174, including Engineer Taylor and Daniel Lysek, one of the rescuing party. This number may be increased, however, as the custodian of the lamps says that about 190 lamps were given out on the fatal Monday morning and that no man was given more than one.

Colorado Victims Fearfully Mutilated.

Victor, Colo., Jan. 27.—The fearfully mutilated and unrecognizable bodies of ten miners who fell with the cage 1,500 feet down the shaft of Stratton's Independence mine yesterday lay lying in a carpenter shop near the shafthouse. The body of only one victim—that of Edward Twigg—was recognizable from the features. There was no particle of clothing on any of the bodies or the dismembered limbs when recovered from the dump at the bottom of the shaft.

FIRE-BUGS BLAMED.

Lumber Valued at \$160,000 Destroyed at Tonawanda, N. Y.

Tonawanda, N. Y., Jan. 27.—An incendiary fire tonight in the lumber district destroyed \$160,000 worth of lumber.

NO ARMY NEEDED

PANAMA LOOKS TO UNCLE SAM TO MAINTAIN PEACE.

Constitutional Convention by Big Majority Adopts Article Placing Republic Under Yankee Protection.

Panama, Jan. 27.—At this afternoon's session of the constitutional convention, Dr. Amador proposed that the following article be included in the constitution of the republic: "Should public peace or constitutional order be disturbed in any part of the republic of Panama, the government of the United States may, in order to restore peace or order in the event that the United States, by treaty or convention, shall have assumed or expressed the intention of assuming the obligation of guaranteeing the independence and sovereignty of this republic."

The article was approved by a big majority. Another measure by which the convention ratifies all the acts of the provisional governing junta, including the ratification of the canal treaty, was also approved.

RECOGNITION POSTPONED.

Guayaquil, Ecuador, Jan. 27.—A cablegram has been received from the minister of Ecuador at Rio Janeiro, Brazil, announcing that owing to his diplomatic influence Brazil, Chile and Argentina have postponed recognition of the republic of Panama.

PITTSBURGH STRIKE ENDS.

Peace Is Finally Restored in the Building Trades.

Pittsburg, Jan. 27.—The lockout of the building trades, which had been on for seventeen days, was settled tonight by agreement between the master plumbers and their employees. The plumbers struck for an increase of fifty cents per day and the allied trades struck in sympathy 2,900 men going out. The Builders' league ordered a shutdown of all building operations, throwing idle 10,000 men. The agreement reached is for an eight-hour day, arbitration and open shop. The men have lost \$700,000 in wages, but there are over a million in delayed and cancelled contracts. The building operations suspended are valued at \$11,825,000.

INDICTMENTS IN CHICAGO.

Chicago, Jan. 27.—The grand jury has voted indictments against eight men charged with rioting during the street railway and Kellogg Switchboard company's strike. The names of the indicted were not announced.

MITCHELL LEADS FOR MINERS.

Joint Conference on the Wage Scale Opens Today at Indianapolis.

Indianapolis, Jan. 27.—The joint conference of operators and miners will meet tomorrow morning. Each state will have four operators and four miners on the scale committee. The miners are led in their fight by President John Mitchell and Vice President Lewis. To take care of the miners' end of scale matters, President Mitchell has appointed a committee which bears the same relation to the miners' organization that the operators' general scale committee bears to the coal producing interests.

SENATOR OUT ON BAIL.

Burton of Kansas Gives Bonds for His Appearance for Trial.

St. Louis, Jan. 27.—United States Senator Burton of Kansas was this afternoon admitted to \$5,000 bail to appear at the March term of the United States circuit court for trial on an indictment charging him with accepting money for the alleged use of his influence with the postal authorities to prevent the issuance of a fraud order against the Rialto Grain & Securities company.

GRAIN RATES SLASHED.

Omaha, Neb., Jan. 27.—The Chicago Great Western railroad today announced a further reduction on wheat and corn between Chicago, Minneapolis, St. Louis and Missouri river points. The new rate is made to meet one recently announced on through shipments from Nebraska and Kansas points by the Chicago & Northwestern, which was followed by similar action on other lines.

NEWS OF WAR PROVIDED FOR

JAPANESE CABINET ARRANGES TO ISSUE BONDS AND INCREASE TAXATION.

IS GREAT ACTIVITY IN RUSSIA

NOW BELIEVED THERE THAT HOSTILITIES ARE NEARER.

All Advances Reaching Paris Show that Situation Extremely Acute—and His Ministers to Draft Response Today.

St. Petersburg, Thursday, Jan. 28.—6 a. m.—A council of state will meet today, under the presidency of the czar, to consider the terms of the Russian response to Japan's last note.

Tokio, Jan. 27.—It is understood the cabinet has completed its financial program, which includes the issuance of exchequer bonds to the amount of a hundred million yen and increasing the taxes to the extent of fifty million yen annually.

Active Preparations in Russia.

London, Thursday, Jan. 28.—The correspondents of the Times in the principal towns of Russia report active war-like preparations and a belief that war is appreciably nearer. At Vladivostok large orders have been given for American corned beef for the Russian army. The Times publishes the following from Tokio: "The government has resolved to impose a war tax by doubling the land and income taxes, thereby obtaining an additional revenue of 44,000,000 yen (\$22,000,000)."

Paris Reports Situation Acute.

Paris, Jan. 27.—Official advices received here from St. Petersburg show that Foreign Minister Lamsdorf, before giving Russia's answer, has called in the Japanese minister, Mr. Kurino. The two ministers are now conferring with a view of so shaping the response as to avoid conflict. It is considered to be an explanation of the dispatch from Tokio saying that Japan has requested Russia to hasten her reply. All information reaching the highest quarters here tends to show that the crisis continues very acute.

St. Petersburg, Jan. 27.—The exchanges regarding the Russian response to the Japanese note are still progressing and the foreign office here announced today that there is no change in the situation. The Japanese telegram does not credit the report from Tokio that Japan has requested Russia to hasten her reply. Mr. Kurino, the Japanese minister, has received no instructions on the subject. On the contrary he apparently realizes that the delay is consequent upon the exchanges between St. Petersburg, Viceroy Alexieff, and Baron De Rosen, the Russian minister at Tokio. Mr. Kurino reiterates his opinion that Japan will not press Russia for reply.

Berlin Hopeful of Peace.

Cologne, Jan. 27.—The Berlin correspondent of the Cologne Gazette denies that the Japanese demands have assumed the rightness accorded to them by leading newspapers. Both sides have made concessions and there is still room for diplomacy, the correspondent continues. Russian popular feeling has begun to be aroused by a belief that national honor is involved.

Paris, Thursday, Jan. 27.—The St. Petersburg correspondent of the Paris edition of the New York Herald telegraphed an extraordinary story to the effect that Germany and Denmark have reached an understanding under the terms of which, in the event of Great Britain fighting with Japan against Russia, Germany would amicably occupy Copenhagen with a powerful force, thus effectively closing the Baltic and preventing the Russians from leaving or the British from entering that sea.

POPULACE ACCLAIMS KAISER.

Great Crowd Congregates in Front of the Royal Residence in Berlin.

Berlin, Jan. 27.—A great crowd gathered in front of the palace early today, both to salute Emperor William on his birthday and to get good places from which to see the royal family and the court and other officials and to offer their congratulations to the emperor. The latter, surrounded by generals, appeared before a window overlooking the square and acknowledged the acclamations. From that time onward carriages filled into the castle square, each containing those of sufficient rank to permit them to offer their good wishes.

The business portion of Berlin was a sea of light and waving flags tonight in the emperor's honor. A vast number of people were attracted to the city by the festivities. The royal birthday was celebrated in a similar manner throughout the empire, and at Hamburg all the Norwegian ships in port were decked with flags.

ROW OVER A NICKEL IS FATAL.

Twenty Persons Injured in Street Car Collision in St. Louis.

St. Louis, Jan. 27.—More than twenty persons were injured, some fatally, when two cars on the Broadway line collided today, the result of a dense fog. The accident occurred while one car was stationary owing to a quarrel between the conductor and a passenger over a fare.

Cable, Ills., Jan. 27.—The identity of the victims of the grade crossing accident on the Northwestern road near Crystal Lake last night was learned today. The dead were Rev. J. H. Cully, wife and two children of Wheaton, Ills. Two other children may die.

TODAY'S WEATHER.

Washington, Jan. 27.—The following is the weather bureau's forecast for Upper Michigan: Fair Thursday and Friday; variable winds.

DAILY MINING JOURNAL.

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Entered as mail matter of the second class to the postoffice at Marquette, Mich.

A Boston grand jury has been asked to face Pugilists Choyinski and "Kid" Carter, and there seems to be little doubt that both of these lively fighters will be stopped in the first round.

Illinois actually talks of cutting down taxes because the surplus in the state treasury is becoming uncomfortably large. Her Missouri neighbors could show her a much quicker way of reducing the burden.

Who said state of Superior? The amount of windjamming that is done in connection with this fabulous proposition is wonderful in view of the fact that it is about as impossible as a Democratic congressman in the twelfth district.

The suggestion may not be respectful, but there is no doubt the Kaiser, the czar, King Edward and the King of Italy would win success as members of a pony opera company. Their combined heights aggregate something less than twenty-one feet.

Michigan Democrats must be first in something so they have hit upon the expedient of getting their call for the state convention out first. It will be held in Detroit on June 1; at this date any predictions as to what it may or may not do are worse than fruitless.

Representative Young does not say much, but he keeps doing business and ought to have the upper peninsula pretty well fanned for his next campaign," says the Washington correspondent of the Free Press. "He has just secured the establishment of a new pension examining board of surgeons at Sault Ste. Marie, those appointed being Dr. T. W. Kirby, E. K. Webster and B. D. Harrison."

With Demec, Yates and Lowden already active in the field and some more candidates coming, perhaps, Illinois has made an early start on what promises to be in that state one of the liveliest gubernatorial campaigns of recent years. The active and general support given Lowden and Demec even at this early date conveys some idea of the number of Republicans in Illinois who long ago came to the conclusion that they want no more of Yates.

Wonder if Whitaker Wright, whose sudden and dramatic end was chronicled in yesterday's press dispatches, was much more unscrupulous than some of our American promoters? Were his companies any more reprehensible than the shipping trust, which fortunately fell apart of its own weight and which has lately furnished such an interesting chapter for the history of contemporaneous industrial organization. Wright, now a poor suicide, lacked but a little finesse; otherwise he might have lived and reigned on as a prominent financier.

Mayor Harrison declines to discuss the action of the coroner's jury in holding him in a degree responsible for the Iroquois disaster, but he impassionately defends Building Inspector Williams and Fire Chief Musham and thus, in effect, defends himself. Everything that the mayor can say, everything that Mr. Davis can say, everything that anyone can say pales into insignificance in the light of the overwhelming fact that the Iroquois was a hopeless deathtrap on the day of the fire. Who but the men designated by the grand jury are blame-worthy?

Whatever Bryan's subject may be he manages to get back to his stock topics of discussion, the desirability of the principles for which he has come to stand and for which he has refused to accept his doctrines. Thus his address on "Moral Issues" at New York Tuesday night was a resume of his other addresses during the past few weeks, with abuse for Cleveland and the harmonizers served red hot. With every speech Bryan is reducing any little apprehension that the Republicans may entertain regarding the forthcoming presidential election.

President Mitchell, of the Mine Workers' union, has just been unanimously reelected by the delegates representing the organization, a vote of confidence that he has richly earned. He waved aside a proposed increase of salary in the amount of \$2,000, the best evidence he could offer that he is not exploiting the organization for money, but is really laboring for what he conceives to be the best interests of his men, if not of the commonwealth in which they live. The news of Mitchell's reelection will be welcome. His conduct during the past

few years has inspired a great deal of public confidence in his ability and clear vision. With him at the helm it will be felt that the Miners' organization will not be allowed to stray very far from the path of rectitude and good citizenship.

At the Soo Shoring Bone, acting on the suggestion of some superstitious people who should stick to ping pong and keep away from the ice, warned the hockey players that they must refrain from roughness or be liable to arrest. Naturally the players were highly indignant at the sheriff's interference, which put them on a level with ordinary bruisers, and his action is greatly regretted by the Soo people in general. However, it is not a parlor game, but the men go into it prepared for hard knocks. Those who do not care to see it played ethically should remain at home. In the crowd of enthusiasts they will hardly be missed.

Henry W. Carey, a member of the state central committee of the Republican party, expresses a hope that there will be three state conventions this year, so as to remove the judicial nominations from all danger of being influenced by purely political considerations. No one will be disposed to find any fault with this. Mr. Carey also suggests that it would be a good thing if the judicial convention would not divide the nominations solely with regard to a geography plan, and expresses a hope to see the selections made on a basis of ability. This will also be satisfactory, providing it is remembered that we have a lot of first class lawyers north of the straits.

W. R. Hooligan Hearst has evidently opened his grab bag to a select coterie of Michigan Democrats, for the lower peninsula has its full quota of Hearst boomers. Chairman Campau, however, is still curmy, and inasmuch as he is not in the procession the assumption is that he does not look with favor on Hearst's candidacy. If this is true he is not alone. Mayor Maybury of Detroit can't as yet see his way to stand for Hearst, and there are many other Democrats who still retain their political sanity, also of his way of thinking. Still Hearst's agents have undoubtedly impressed a certain not inconsiderable fraction of the Michigan Democracy, and if it should chance that he should be seriously before the public as a candidate when the convention meets June 1 he will doubtless be a factor with the delegates. This couldn't possibly have been true ten or a dozen years ago.

Says the Grand Rapids Press: During the recent session of the legislature his wife introduced calling for an appropriation for the establishment and maintenance of a penal institution for female prisoners, but it was never reported out of committee. Under the present system female criminals in Michigan are confined in a private institution and the state is paying for their care at regular rates. They may be sentenced, as in the case of Mrs. Flood, to the Jackson prison and taken there, but as the penitentiary has no employment for women they are at once transferred to the Detroit house of correction, which is owned and operated by the city of Detroit. It is an excellent institution, to be sure, so far as management and treatment of prisoners are concerned, but it is not the ideal reformatory for women. Instead of building monuments, spending money extravagantly on costly junkets, and making large appropriations generally, the state can well afford to establish and maintain an institution where female prisoners, whether petty criminals or unfortunates, can be cared for at state expense. It would not only save money in the long run, but afford much more satisfactory treatment for the inmates.

The marine underwriters are giving no little attention to a bill it is proposed to introduce in congress, as a result of a movement started by the Masters and Pilots' association, for a load line law, providing for a clearly defined mark on each vessel which shall show the maximum depth to which it can safely be loaded. This law will provide adequate penalties for overloading and make due provision for enforcing them. Many fresh water underwriters are heartily in favor of the proposed bill, and others regard it as impractical for the lakes. However, it is claimed that the weight of opinion is just now with the bill. Underwriters assert that there is a great deal of overloading on the lakes and that much property and many lives are thus year after year put into jeopardy. They claim that this is particularly true of ore carriers, into which the cargoes are dropped with more or less velocity and in which they rest largely on the bottom, without any of the burden being carried by the sides. As a general thing vessel owners will be found to be a unit against load line legislation, fearing interference with their operations. This is to be expected, however, and too much importance should not be attached to their stand. It is inevitably dictated to a large degree by selfish considerations. There should be some thought for the safety of cargoes and sailors. There seems to be no legitimate argument of any weight against the principle, at least, of the proposed bill.

WHAT FORESTRY DOES. Forestry advocates can find an excellent object lesson in the little German city of Freudenstadt. This is a busy little community, with iron and chemical works of some magnitude, located in the Black forest. It contains seven thousand people, maintains a city government, with police and fire departments, and expends for public purposes about \$25,000 annually. The lucky inhabitants, however, do not pay a dollar in the way of taxes. It is the one city in the whole civilized world where there is no tax gatherer, no assessor, no contention over equalization of valuations, none of the vexations which we in America regard as inevitable concomitants of municipal government. Freudenstadt is enabled to enjoy this immunity from taxation through the possession of 6,000 acres of fine forest. The lands are managed in accordance with the best forestry methods. For every tree cut down a new one is planted. No tree is cut until it will yield the maximum profit, and even the small

branches and twigs are put up into bundles and sold for firewood. In this way an annual income above all expenses of about \$50,000 is secured, or \$5 an acre. Of this amount the municipal government absorbs about \$25,000, and the rest, presumably, goes to pay the levy of the general government.

This shows what forestry will do under what are admitted to be favorable conditions. In this country at this time it is not possible to obtain as good results. Even here, however, there is now a moderate profit in forestry. The New York Sun states that there is a record of a forty-acre tract of white pine in New Hampshire for eighty years showing an average annual profit per acre of \$3.75. Professor F. W. Ward, of the Rhode Island experiment station in a recent bulletin recites the fact that Zacharia Allen of that state in 1820 planted a worn-out pasture with trees and kept an accurate account of expenses and receipts for fifty-seven years. After deducting all expenses his profit was nearly 7 per cent per annum.

These are not enormous profits. No one can hope to become rich from forestry lands in a short space of time. As the forest lands become more scarce and the population larger, however, the margin of profit will increase, and in these days of 4 and 5 per cent bonds and 6 per cent real estate mortgages taxed at the rate of 3 per cent, an investment which brings in a certain income of 7 per cent, and cannot be blotted out by a sudden slump in the stock market or through the defalcation of a trusted official, is not to be despised.

HORRID CRUELTY. Executions in the Good Old Days Didn't Lack Ghastliness.

If capital punishment today was attended with one-half the horrors that marked such enforcement of the extreme penalty of the law in olden times the advocates of its abolition would have much better grounds for demanding its abolition than they now have. However deplorable may be the fact of the survival of the practice into the twentieth century, there remains an item of consolation in the contrast of the modes of infliction employed in civilized nations of the present day with those of the mis-called "good old times." In all savage countries which have organized a monarchy of considerable extent the office of public executioner is one of the most important. Even in some European states within less than a century ago surviving traces of this dignity were very recognizable. When the state executioner of the duchy of Wurtemberg had completed a certain number of hangings, decapitations, breakings-on-the-wheel, burnings-at-the-stake, rackings, thumb-screws, leg-gings, etc., he always received an honorary degree of "doctor of medicine" from the national university.

Toward the end of the first quarter of the nineteenth century Karl Ludwig Sand was beheaded in Heidelberg by "doctor" Wiedemann and the city for the assassination of Kotzebue was named in his honor. The resources of the more purely fendish ingenuity sometimes displayed by homo sapiens would appear to have been exhausted in the details of the execution of the weak-armed and weak-minded Danians for a penknife scratch inflicted on the forehead of the worthless sensualist Louis XV. of France. The right hand and forearm of the culprit were roasted in a slow fire, his flesh was nipped off in pieces with red-hot pinchers, boiling pitch, rosin, wax, etc., were poured into the wounds so made, and finally, when the last remnant of vitality were obviously ebbing, his arms and legs were lashed to four wild horses, which were then vigorously whipped in different directions. It is a very noteworthy anatomical fact that the attempt so made to have the wretched culprit torn to pieces proved an absolute failure, so that the body of the doomed man was actually carried on the scaffold by the executioners!

A comparatively frequent mode of execution for political and other aggravated forms of crime in France was "breaking on the wheel." This instrument had four spokes, placed in form of an X, or St. Andrew's cross, to which the arms and legs of the doomed man were firmly bound. Opposite the middle of each arm, forearm, leg and thigh was a hollow-eight inch wide iron ring, the ends of which were attached to the limb with a stroke of a heavy iron bar. A ninth wheel was administered—known as the coup de grace. It was over the pit of the stomach. If the culprit had been recommended to mercy, this stroke ended his sufferings; if not, it was a mere matter of time, and sometimes lingered in agony for forty-eight hours.

The Maiden ("Jungfrau") of Nuremberg is another of the horrors of the history of criminal law. A gigantic wheel and iron doll, of feminine outlines, opened vertically, one side being hinged on the opposite. The interior was a cavity of size to receive the human body. From the movable side of this "maiden" doll projected a half dozen spikes of some six or seven inches in length. The two uppermost were intended for the eyes; there was one meant for the heart, and the others for the principal abdominal viscera. When a person was legally prepared for the sentence of the "maiden" his feet were placed on the stand and the door was forcibly closed and bolted. The Jungfrau was placed over a pit covered by a trapdoor through which his body was dropped after sojourn of twenty-four hours in her embraces.—Chicago Chronicle.

JUST ONE MINUTE.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Sold by The Stafford Drug Co., Marquette; H. N. Meloche, Ishpeming.

HOMESEKERS' EXCURSIONS.

On the first and third Tuesday of each month, December to April, 1904, inclusive, round trip tickets good for twenty-one days to points West and Southwest for about one fare. For full particulars regarding rates, routes, etc., inquire H. E. STEWART, C. A. Houghton, Mich. Phone, 339.

HOBBIES.

They Are a Relief from the Routine of Life.

Arctic explorers tell of the dreadful persecution of the six months' polar day, and of the terrible depression produced by perpetual darkness in the six months' night. But hardly less depressing is perpetual work, day after day in the same shop or office, at the same unchanging task, in the same mill-horse round. It is a hobby which a man springs the moment the pressure of his customary work is removed draws him out of his rut. It breaks up the stagnation and monotony of his life, and vivifies the faculties which have become blunt and dull. It opens the eyes of a student from the books over which he has porled too long, a merchant or a stock broker from the click of the telegraph and the boning of the day book and the ledger, a clergyman from his mystic theology, and a lawyer from his wearisome precedents, obiter dictums and *fi. ds.* Last, but not least, it delivers a jaded and fretted household from the round of petty, monotonous domestic cares which tyrannize over her daily life, and out of the toiler reproduces and recreates the workman.

Not the smallest merit of a hobby is that it liberalizes its rider. It delivers him from narrowness and one-sidedness—that tendency to judge everything from a single standpoint which is so often the curse of the toiler in one of his trades. It is a hobby that is not an artisan in the country who, if he but had a hobby—a pet vocation—would not be a more contented man, less a victim of acidity, and less disposed to believe in the wrongs of inequality of condition.

Not the least of a man's differences and idiosyncrasies more vividly seen than in his hobbies. Of the odd tastes of collectors, especially, there is no end. A century or two ago there was a mania for collecting old hats, caps and boots—of which last there was a famous collection of the Hotel de Paris, showing all the changes in the cobbler's art since the flood—also shoes, slippers, garters, wigs, snuff boxes, pipes, walking sticks, brushes, gloves, watches, clocks and even ropes with which men had been hanged! In our day there is a rage for old china, armor, brasses and bronzes, bric-a-brac, carvings, pictures, furniture, books, postage stamps, butterflies and bugs.

One of the pleasantest, but one of the most expensive, hobbies is that of picture collecting. A charming hobby for a man with money is that of a rose fancier. The favorite diversions of the greatest number of persons are probably autograph hunting and collecting rare books. Few men ever experience a keener delight than that of a bibliomaniac when, after mousing for days in the quaint old book stalls, he comes suddenly upon a rare old volume, for which he has a long searching, and which, thanks to the ignorance of the owner, he bears triumphantly home for a few silver coins.

One of the best of all hobbies, for one who has the requisite natural gifts, is music, because it has the charm of perpetual variety, and its delights are inexhaustible. Gardening is another varied diversion which is healthful as well as pleasant. Sketching and natural history have similar attractions.

Such was the case with that English glutton of work, Sir George C. Lewis, who, when chancery of the exchequer, military secretary and secretary of war, devoted his leisure to the perusal of his official labors, to the study of history, politics, philology, anthropology and antiquarianism, and to the copying of Greek manuscripts in the British Museum. The result was that he died at the age of fifty-seven, when, if he had had fewer hobbies and ridden them less hard, he might probably have lived to four score or longer.

"Blessed is the man that has a hobby," says Lord Brougham, who kept a whole stableful, and I agree with him; but I also agree with Bulwer that it will not do to have more than one at a time. "One hobby leads you out of extravagance. A team of hobbies you cannot drive, till you are rich enough to find room for them all."—Success.

ANOTHER STRIKER.

Is the startling announcement in our newspapers. Men in almost every branch of trade are making demands, which must be granted or a serious strike will result, in which both time and money will be lost. But when the stomach "goes on a strike" or neglect or overwork the results are going to be far more serious unless you "settle it" at once. The only sure way to taking the stomach working again is to start Hostetter's Stomach Bitters. It has been the result of fifty years of cure back of it and has never been known to fail in cases of poor appetite, sour stomach, indigestion, dyspepsia, dizziness, constipation, liver troubles, chills, colds or malaria. You surely ought to give it a trial at once. For sale by druggists everywhere.

AN EDITOR'S RECOMMENDATION.

Mr. H. J. Keeler, publisher of the Press, Maiden Rock, Wis., writes, "All I have to say is that I have recently used a bottle of Hart's Honey and Borehound and found it a valuable remedy for a cold and cough. I have personally recommended it in several cases and bear a good word from all." When our readers need a reliable medicine for Colds, Coughs, Croup, Whooping Cough, there is no other so satisfactory as Hart's Honey and Borehound. Large bottles 25c, 50c and \$1.00. Sold by the Peoples Drug Store.

WHAT'S IN A NAME?

Everything is in the name when it comes to Witch Hazel Salve. E. C. De Witt & Co., of Chicago discovered some twenty years ago how to make salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases De Witt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for De Witt's—get genuine. Sold by The Stafford Drug Co., Marquette; H. N. Meloche, Ishpeming.

STOP IT.

A neglected cough or cold may lead to serious bronchial or lung trouble. Don't take chances when Foley's One and Two affords perfect security from serious effects of a cold. Desjardins' Pharmacy.

Iron Notes

Operations have been suspended at the Ottawa mine at Gile, Gogebic range. The Ottawa includes the old Olanah and the Amazon, and the shutdown affects something over 100 men. A large stock of unsoiled ore is given as the reason for stopping operations. The shutdown came as a surprise even to those in charge of the mine, as a new shafthouse had just been completed on the Amazon and it was expected that development and stockpile work would continue throughout the winter.

The movement of iron ore from Lake Erie docks has been light since the close of navigation, and it will take a marked increase in shipments from now on to put the docks in good shape at the opening of navigation. Before the close of another week, however, fully 70 per cent of the furnaces, which have been out of blast, will be in operation, and it is expected that ore will go forward more freely. There will be no rush to bring the iron ore down from Lake Superior early next season. A leading shipper and dock owner says that unless there is a big change in the outlook for the iron ore market, he will not be expected to transfer to Mr. Coates and associates. The property is described as lot 12, section 36, 58-15. It has been quite thoroughly explored, and contains at least 1,000,000 tons of very high grade ore and very desirable as to its structure. Another find of the same kind of ore in the same district was recently announced.

The belief prevails in the Lake Superior district that the outcome of the readjustment of the iron trade will result in the restoration of activity at the mines before the end of 1904. This optimism is based on the increased market of recent weeks and on the fact that the reduction of the price on iron will extend the consumption and in some cases result in the consumption of part of the product by the foreign market. The business of the Lake Superior mines is greatly dependent on the iron trade, since they supply such a large proportion of the iron ore actually consumed, and the prospect of larger shipments next year is entirely dependent upon the continued and increased consumption of finished iron which has marked the opening of this year.

The machinery for the new electrical equipment of the Lincoln mine, at Virginia, has arrived and installation of the same will be made within a short time. At present, twenty-seven men are engaged in placing timbers in the mine and it is expected that an end of their task will be reached within two weeks. This is the first season that the Lincoln mine has closed down ore hoisting and dumping operations. Usually the miners have been kept at work during the winter as well as summer months. "In the spring with the opening of navigation will start up with as many men as we had employed when we shut down

last fall," said Superintendent C. T. Fairbairn in a recent interview, "and it is possible that the number may be increased. However, we have received no positive assurance of the amount of ore that will be needed by the Pittsburgh furnaces next season, and consequently, it is yet early to state the amount of the expected output for the year 1904. The electrical equipment delivered for the mine is of a capacity to admit an increase in the volume of the output without difficulty." The Lincoln mine is an underground proposition, located adjacent to the townsite of Virginia. The fee is owned by P. L. Kimberly and others; and the lease is controlled by Jones & Laughlins.

A former Pittsburgh steel man says as to the cost of making steel rails: "Bessemer pig iron is selling between \$12.50 and \$13 at furnaces, and no one claims it is being made at a profit. Notwithstanding the fact that pig metal is put into rails while in a molten state, the waste in conversion, the cost of pig iron, etc., is more than \$2 per ton. To this must be added the cost of rolling and finishing the rails. When Bessemer pig iron was selling at \$10 per ton, Carnegie could not make rails at a profit at \$17.50 per ton, although Schwab expected to create a lower cost. For today, add to the cost of the pig iron from \$5.25 to \$5.50 and you will have a low cost for rails." The United States Steel corporation today furnishes its own ore, coal, limestone and pig iron for practically all of its rails, so that the statement that the net cost of its rails is approximately \$14 per ton, is considered conservative.

Surveyors for the Great Northern railroad company have completed the work of running the lines for the spurs, extensions to the Grant and the Yates, mines adjacent to Buhl, Mesaba range. This fact, coupled with a recent visit of Edward H. Bolton, of the M. A. Hanna company, of Cleveland, is taken to indicate that much work will be done at the two new properties this season. Mr. Bolton made no statements regarding the conclusion of his inspection of the two mines, except that he was well pleased with the progress made. Neither of the properties has been a shipper and both have been the scene of much development work in the way of drilling and sinking shafts by the Consumers Ore company for the Hanna concern. The two properties are being operated on state leases, which calls to mind the fact that the same people are pushing forward work on two other state option propositions on the Mesaba.

The report from Hibbing to the effect that Joseph Sellwood and his associates are surrendering their leases to the Pearce and Longyear iron mines in that district is denied by Mr. Sellwood. The rumor was accompanied by a further statement that the mines are passing from Sellwood and his associates, would go into the hands of the steel corporation. "There is no truth in the report that we are surrendering the Pearce and Longyear mines," said Mr. Sellwood. "As for the statement that there has been dissatisfaction on the part of the fee owners, I would say that we have mined every year the minimum, or more, provided for under the contracts. I am not aware that the fee owners are dissatisfied and in fact do not think they are. We have not the slightest intention of surrendering the leases to the mines." The two mines were opened up in 1902 and a total of 108,000 tons of ore shipped that year. Last year the increase in the shipments amounted to less than 40,000 tons. The surrender of options is reported to be by mutual consent.

THIN PEOPLE

want to get fat and fat people want to get thin—human nature. If you are fat don't take Scott's Emulsion. It will make you gain flesh. If you are thin Scott's Emulsion is just what you need.

It is one of the greatest flesh producers known. Not temporary gains but healthy, solid flesh that will fill out the body where it is needed. There's nothing better than Scott's Emulsion for weakness and wasting.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

The Longyear mine is located less than one mile east of Hibbing and is a property containing an ore body of considerable size. The equipment consists of excellent machinery for mining on the underground system. The Pearce mine is four miles north of town and is considered a smaller property, though the shipments for 1902 from it were double the output of the Longyear. Last year the order was reversed. The underground system is employed, as at the Longyear.

The Republic Iron & Steel company's Pettit mine at Sparta, with which the company last year had so much trouble on account of excess of water, is producing at the rate of 275 tons a day. Its Franklin mine at Virginia is producing at the rate of 225 tons a day. The Bessemer, also of the Virginia group of Republic mines, is hoisting 275 tons a day. The Union, another Republic property at Virginia, and the Kinney mine at Buhl are idle except that the pumps are not working. They will be in a condition for active operations in the spring. The company is working single shifts at the properties which are now producing ore. The Kinney mine at Buhl entered the shipping list last season for the first time. The Republic Iron & Steel company is one of the large independent concerns in the country, and for some months there have been reports that it may be absorbed by the United States Steel corporation. A. W. Thompson, of Chicago, is president, and A. Matland, of Negeenaw, is general manager.

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Stafford Drug Co., special agent.

KIDNEY AND BLADDER TROUBLE CURED—FREE

Bright's Disease, Backache, Dropsy, Diabetes, Rheumatism, Gout, Weak Heart, Nervousness, Gravel, Stone in the Bladder, Aching Pains over Hips and Kidneys, all Irregularities caused by Bladder Trouble—Dimmed Vision, Periodical Headaches, Pain in Urethra, Dependancy or "Blues," Sallow Complexion, Foul Breath, Bad Taste in the Mouth and all associate symptoms of Kidney and Bladder Trouble, etc., are POSITIVELY GUARANTEED to be quickly and permanently cured, no matter how severe or of how long standing the disease and even after all other medicines and physicians have failed by

DR. GOSSOM'S Kidney and Bladder Cure

In order that you may no longer suffer, that perfect and permanent health may be yours and that you may test for yourself the wonderful curative powers of this never failing remedy, we propose giving you, without one cent of cost, a trial package of Dr. Gossom's Kidney and Bladder Cure, by simply calling upon the druggist whose name is at the bottom of this advertisement. For your own sake and in the interest of those near and dear to you—Do not neglect this opportunity. This free offer means health, happiness and many years added to your life. Don't despair, don't delay—attend to this vital matter at once. You can be cured. Dr. Gossom's Kidney and Bladder Cure is the only remedy for these diseases which has never failed. It is guaranteed to cure. Remember, health awaits you for the mere asking.

Read these honest words from grateful ones cured by Dr. Gossom's Kidney and Bladder Cure. Thousands of similar letters on file.

Cured by Dr. Gossom's Kidney and Bladder Cure After Doctors and Other Medicines Had Failed.

I have been suffering for the past ten months with pains in my back and stiff joints. I could get no relief from anything. I tried many doctors and used many medicines. I am happy and thankful to say that three boxes of Dr. Gossom's Kidney and Bladder Cure entirely cured me. I can always cheerfully speak a good word for this wonderful remedy. J. D. McGAW, Athol, Mass.

A Serious Case of Kidney Trouble Cured by Less than One Box.

It is a good, safe cure and I recommend it to all. MRS. AMELIA KUHN, 5305 Ohio St., Chicago.

A Free Sample Treatment Laid the Foundation for a Permanent Cure.

I was suffering with my back and kidneys, and no medicine which I took brought me any relief. I was greatly benefited by the free sample of Dr. Gossom's Kidney and Bladder Cure, and one box of it worked a complete cure. I can always speak a good word for such a wonderful remedy. CHARLES HAWLEY, Greenfield, Mass.

Raised from a Bed of Torture to Immediate and Permanent Health by One Box.

I want to tell you how much good Dr. Gossom's Kidney and Bladder Cure has done for me. I was down in bed with my back and could not get up and nothing seemed to help me. Seeing your advertisement in the paper I bought a box of my medicine and after the second day I commenced to get better and now I am completely cured. The pain is all gone and I feel just as well as ever. Dr. Gossom's Kidney and Bladder Cure is certainly a wonderful remedy. MRS. A. HEDDOWS, Clinton, Mass.

Cured by Dr. Gossom's Kidney and Bladder Cure After Spending \$1,000 With Doctors.

I paid a thousand dollars to doctors but nothing helped me as Dr. Gossom's Kidney and Bladder Cure did. JOHN LETTON, Hartford, Conn.

TO THE PEOPLE OF MARQUETTE AND VICINITY:

We are pleased to inform the public that we have arranged to give to every adult calling at our store a FREE TRIAL PACKAGE of Dr. Gossom's Kidney and Bladder Cure. This wonderful remedy is performing cures which seem almost miraculous. As our supply of free packages is not large, it will be to your own interest to call early.

Copper Country

EIGHT MILES IN SIX MINUTES. GREAT INTEREST IN CASE. Runaway Coach on Copper Range Road Makes Remarkable Time.

Eight miles in six minutes was the record made by a runaway passenger coach on the Copper Range railroad yesterday morning. Starting from Mill Mine Junction, the car never stopped until it reached the Hancock side of Portage lake at a point between the Hodge and Cleaves foundries.

The train crew was switching on the "Y" at the junction at the time the coach started. The coach was separated from the train and it started away down the main track. Word was immediately telegraphed to Houghton that the coach was coming.

After an eight-mile run in record-breaking time the car was not damaged and no accidents had happened. It was a fortunate escape all around. The fact that the car kept the rails speaks well for the Copper Range track, which is well laid and ballasted.

WILL TOUR THE PENINSULA. College of Mines Students Will Give Concerts in Several Cities.

The Michigan College of Mines Glee and Mandolin clubs will as usual this year make a tour of upper peninsula cities in the spring.

The Mandolin club was recently organized and is now including in regular practice. Ed Heckel likely will lead the club. He assisted Fred Reuther, who directed the club last spring, and is well fitted for the position.

Before the upper peninsula tour is started, opening entertainments will be given as usual in the copper country. Last year the first concert was given at the Kerredge theater and was a splendid success.

A ten days or two weeks' trip will be taken through the upper peninsula. The Soo, Ironwood and Ishpeming likely will be included in the itinerary, and Manager Turner figuring on a Duluth trip. The clubs have never yet visited Duluth, but it is believed they would meet with a cordial reception there.

It's folly to suffer from that horrible plague of the night, itching piles. Doan's Ointment cures, quickly and permanently. At any drug store, 50 cents.

MOODY URGES MORE WARSHIPS

SECRETARY OF THE NAVY ASKS FOR THIRTY MILLIONS FOR NEW CONSTRUCTION.

HOUSE COMMITTEE FAVORABLE

EVINCES DESIRE TO LARGELY INCREASE NAVAL STRENGTH.

Is the Recommendation of the Department That Stations Be Built in Cuba and the Philippines at an Ultimate Cost of \$21,000,000.

Washington, Jan. 27.—Secretary Moody concluded his recommendations today before the house committee on naval affairs.

The secretary recommended the building of naval stations at Guantanamo, Cuba, and at Subig Bay, Philippines, the station in Cuba ultimately to cost \$12,000,000 and that in the Philippines \$9,000,000.

While nothing definite was decided on the general discussion in committee of the permanent naval program revealed a desire that the strength of the navy in 1919 should be forty-eight battleships and half that number of armored cruisers, with auxiliary boats in proportion.

DEMOCRAT SUPPORTS TREATY.

Simmons, of North Carolina, Addresses the Senate on Panama.

Washington, Jan. 27.—The senate proceedings today included a speech by Senator Simmons of North Carolina in support of the canal treaty and the passage of a number of bills and resolutions.

Among the bills passed was one granting to citizens of Porto Rico and the Philippines the right to take advantage of the naturalization laws of this country, but Senator Spooner moved to reconsider the vote, thus leaving the question undisturbed.

Much More Debate Scheduled.

In the executive session of the senate Senator Morgan discussed the amendments which had been adopted by the committee on foreign relations and later abandoned by that committee.

It was made plain that the Republican senators would not be able to shorten the debate and it is believed a number of senators will insist on discussing the resolutions relating to the alleged participation of United States officials in the Panama revolution.

AERIAL NAVIGATION A TOPIC.

Politics and the Racial Question Also Are Discussed in the House.

Washington, Jan. 27.—The general debate in the house today on the urgent deficiency bill progressed to a discussion of political topics, the race question and aerial navigation.

Mr. Burkett of Nebraska led off with a discussion of the political situation from a Republican viewpoint and Mr. Cochran of Missouri spoke for the Democrats.

The discussion of flying machines was precipitated by the report of the appropriations committee which recommended the tabling of a resolution calling on the secretary of war for information as to expenditures that had been made in connection with flying machine tests.

Mr. Landis, Republican, of Indiana, closed the day in a political speech lasting an hour. He declared that President Roosevelt will be nominated with the record of his administration for his platform.

WHITE MAN SUCCEEDS NEGRESS.

Washington, Jan. 27.—The president has appointed W. B. Martin (white) to succeed Minnie Cox (colored) as postmaster of Indianapolis, Miss.

SENATOR DANIEL REELECTED.

Richmond, Va., Jan. 27.—The general assembly today reelected United States Senator Daniel.

FAST SIX-ROUND BOUT.

Jack O'Brien Gets a Shade the Better of Tommy Ryan.

Philadelphia, Jan. 27.—"Philadelphian Jack" O'Brien and Tommy Ryan fought one of the fastest six-round bouts ever seen in this city tonight.

In the sixth and last round both men put up a good fight. At the very opening of this round Ryan landed a left on O'Brien's stomach and the latter, on his stomach, failed to land hard.

METHODISTS AGITATED.

Election of Bishops Under Fifty Demanded by the Younger Clergy.

New York, Jan. 27.—"No man for the Episcopacy who is over fifty years of age," is the rallying cry of a certain element of clergy of the Methodist Episcopal church which has recently stirred up opposition of the hottest sort in its expected quarters.

The cry is raised now, on the eve of the meeting of the general conference of the church, when the friends of ministers who think that they would make good bishops of the church are active in the matter.

MURDERED GIRL LIVED IN FEAR.

That Miss Schaefer lived in fear of an unknown person is indicated by a statement made today by Edward Day, substitute teacher in the high school.

Turning to the relations of the public at large to this situation and its consequences, the speaker proceeded: "In wars between nations, the victor lays in indemnity for his losses upon the vanquished."

Revive Theory of Mistaken Identity.

An attempt to revive the theory of mistaken identity resulted in partial success tonight. A certain domestic wife is of about the same stature as the murdered girl secured a divorce from her husband some time ago upon the ground of this theory.

MRS. CORA ALSIP HELD INSANE.

Heroine of Noted Divorce Case Is Ordered Sent to Elgin Hospital.

Chicago, Jan. 27.—Mrs. Cora E. Alsip, the divorced wife of Charles F. Alsip, son of Frank Alsip, the millionaire brick manufacturer, was yesterday adjudged insane by a jury in Judge Ruth's court and was ordered sent to Elgin.

ARREST IN SCHAEFER CASE.

Man Suspected of Teacher's Murder Is Jailed at Louisville.

Bedford, Ind., Jan. 27.—With the arrest of Harry Behr, a white man, at the home of Roger White, colored, in Louisville today, the officials believe they have at last established a tangible clue to the murder of Miss Sarah Schaefer, the high school teacher who was assaulted and mysteriously killed last Thursday night.

Behr's clothing and laundry were spotted with blood and his face is scratched in several places. Behr claims to be from Memphis and says he received the scratches on his face in election fights at Memphis, but detectives say this statement cannot be true, as the scratches have been made within only a few days.

When Behr came to the home of the negro, it is claimed, he told the negro and his wife that he got the blood on his clothes from beating a woman. Since he has been at his house the negro claims that Behr has evinced intense interest in the Schaefer murder and has always remained in the house.

His address.

Judge Grosscup spoke on the subject "The Next Step in American Politics—The Re-Populating of Our Industries." After expressing his confidence in the continuance of prosperity, and his friendliness to honest corporations as "civilization's way of wielding large masses of capital," and his friendliness to law-abiding labor unions, the speaker sketched the present conditions and complaints of employer, employee, and the general public; and upon the relations of employers and employees, said:

"It has come to pass that instead of the standing relation between them is that of war. They look upon each other, not as neighbors or co-partners, but as belligerents. When they sleep, it is upon their arms."

Turning to the relations of the public at large to this situation and its consequences, the speaker proceeded: "In wars between nations, the victor lays in indemnity for his losses upon the vanquished."

Chicago, Jan. 27.—Governor Cummins of Iowa addressed the Kansas Bar association here tonight on "The Rights of Man." He said, in part:

"The present situation between labor and capital is tending to war. Out of this war will come the settlement of the question of man and master. The government must restrict this trend of organization. Organization is all right, but it must be looked after by the law makers and lawyers of the country."

Chicago, Jan. 27.—Governor Cummins of Iowa addressed the Kansas Bar association here tonight on "The Rights of Man." He said, in part:

SAYS TRUSTS ARE HERE TO STAY

THE EMBODIMENT OF INDUSTRIAL PROPRIETORSHIP DECLARES JUDGE GROSSCUP.

HE URGES NEW LEGISLATION

WOULD NOT DESTROY BUT EFFECTUALLY REGULATE.

Dishonest Corporations Should Be Made Impossible, Asserts the Speaker, and the Others Made the Open Door to Opportunity.

Springfield, Ill., Jan. 27.—Twenty-five hundred Republicans from all over the state assembled today at a "love feast" held in connection with the meeting of the Republican state central committee.

During the day, the annual meeting of the Illinois County & Probate Judges' association was held in Springfield. The principal speaker was Judge Peter S. Grosscup of Chicago.

His address.

Judge Grosscup spoke on the subject "The Next Step in American Politics—The Re-Populating of Our Industries." After expressing his confidence in the continuance of prosperity, and his friendliness to honest corporations as "civilization's way of wielding large masses of capital," and his friendliness to law-abiding labor unions, the speaker sketched the present conditions and complaints of employer, employee, and the general public; and upon the relations of employers and employees, said:

"It has come to pass that instead of the standing relation between them is that of war. They look upon each other, not as neighbors or co-partners, but as belligerents. When they sleep, it is upon their arms."

property of the country is now corporate property, the ultimate effect of the existing state policies respecting the organization of corporations—the free for all, go-as-you-please policy—upon active proprietorship by the people at large is clearly discernible.

"I have no fault to find," said the speaker, "with the corporation legislation of the last congress. To the extent that it will get together the data on which to build a future national policy respecting corporations, it is constructive legislation. But if it stop at that, or what is more likely, if it turn its whole thought to what is known as the affairs of present incorporated enterprises, and those that shall come after them, leaving it to the five and forty states to organize as corporations are now organized those that do come after—the legislation will have wholly missed the mark."

Publicity Not the Remedy.

"The main object to be aimed at is not general and promiscuous publicity. It would not be good for the sense, it would not be fair to compulsorily hang up every incorporated business, great or small, where every mischief maker could hawk at and every competitor copy it. The main object to be aimed at is a re-populating of the industries of the country, and this can be accomplished by a corporate policy under which a corporation dishonestly conceived cannot be organized at all, and a corporation dishonestly administered will pass at once, before the evil is irremediable, into the hands of the courts or some department of the government."

"What is to be sought is not so much publicity as prevention; not so much the turning of incorporated enterprise out of doors, where every fault finder and rival may lay hands upon it, as to make them reasonably safe either to the public or to the owners who will entrust their investments. Corporate organization has come to be the embodiment of our entire industrial proprietorship. The great aim, the transcendent aim, should be to make this a proprietorship widely diversified among the people—the vastness in substance, though different in form, of that widespread popular ownership upon which, as one of its chief corner stones, our republican institutions were founded, and without which no republic can remain secure."

Concluding, Judge Grosscup said: "Corporations are here to stay. Big corporations are here to stay. Labor unions that abide the laws are here to stay. To deal with them, as one would deal with mad dogs, is to ask public opinion itself to go mad. But these things, corporate and personal, on and all must be brought under the full dominion of law. They must be allowed to trample no man's rights on the ground. They must be allowed to successfully shelter no man bent on robbing his fellow men. They must, and they can, make the open door to opportunity, the door through which every American, great and small, may with reasonable security, carry his ambition to share in his country's prosperity, and in the freedom of his country's laws."

SAYS SITUATION TENDS TO WAR.

REPORT OF THE CONDITION OF THE—

"I Grow Hair in One Night."

A Famous Doctor-Chemist Has Discovered a Secret Compound That Grows Hair on Any Bald Head.

SENDS FREE TRIAL PACKAGES TO ALL WHO WRITE.

Discoverer of This Magic Compound That Grows Hair in a Single Night.

After half a century spent in the laboratory, crowned with high honors for his many world famous discoveries the celebrated physician chemist at the head of the great Altemheim Medical Dispensary has just made the startling announcement that he has produced a compound that grows hair on any bald head. The doctor makes the claim that after experiments, taking years to complete, he has at last reached the goal of his ambition. To the doctor all heads are alike. There are none which cannot be cured by this remarkable remedy. The record of the cures already made is truly marvelous and were it not for the high standing of the great physician and the convincing testimony of thousands of citizens all over the country it would seem too miraculous to be true.

earnestness in making his claims, nor can his cures be disputed. He does not ask any man, woman or child to take his or anyone else's word for it, but he stands ready and willing to send free trial packages of this great hair restorative to anyone who writes to him for it, enclosing a 2-cent stamp to pay postage. In a single night it has started hair to growing on heads bald for years. It has stopped falling hair in one hour. It never fails, no matter what the condition, age or sex. Old men and young men, women and children all have profited by the free use of this great new discovery. If you are bald, if your hair is falling out, or if your hair, eyebrows or eyelashes are thin or short, write the Altemheim Medical Dispensary, 133 700 Building, Cincinnati, Ohio, enclosing a 2-cent stamp to pay postage for a free package and in a short time you will be entirely restored.

Red Letter Prices

Ishpeming Department

MUST HAVE FIRE ESCAPES. IRONWOOD ALSO HAS CRAZE.

Finance Committee of Milwaukee Council Is Meeting With Hot Opposition.

A few days ago reference was made in the Neegaunee department of The Mining Journal to the action of the finance committee of the Milwaukee city council relative to the establishment of fire escapes at the different school buildings. In view of the fact that the board of education of this city is taking steps to provide fire escapes for the school buildings, the contention between the Milwaukee committee, the chief of the fire department and the factory inspector is of particular interest. The committee decided that there should be no fire escapes, that fire drills would be the only precaution taken for the protection of the children. The committee has been severely criticized by many leading citizens of Milwaukee and now the factory inspector, who has jurisdiction over the school buildings, says the state law must be obeyed, and he has notified the city officials to that effect. He comes out flatfooted and says that any official who does not live up to the law will be arrested. Speaking of the matter one day this week the inspector said: "Fire escapes will be placed on every public school building in the city of Milwaukee, even if I have to cause the arrest of every member of the council. Under the state law, if a fire occurs in one of the school buildings not equipped with fire escapes and a loss of life follows, every member of the council can be held for manslaughter."

Ironwood Ski Club Has Craze.

Ishpeming Not the Only Upper Peninsula City Where Skiing Is Popular. Olaf Holmoe, formerly of this city, is largely responsible for the interest in skiing lately aroused at Ironwood, he now being a resident of that city. The Ironwood Ski club has arranged to give a local tournament on the 31st inst. Mr. Holmoe was one of Ishpeming's crack riders two years ago. Many expert riders from different parts of the country have volunteered to participate in the annual tournament to take place here on Washington's birthday. Albert Aas, secretary of the club, is in receipt of a letter from Torjus Hemmestad, who made such a fine record in a tournament here some twelve or more years ago. He is now located at Ada, Minn. He writes that he has not done any jumping in three years, but that there are a number of men who are capable of competing against the best riders in this country. Mr. Hemmestad would like to arrange for a match with the local experts. A jumper from West Point, Wis., is also desirous of competing in the tournament. Four or five of the Red Wing riders have also written, asking that they be given a chance in case any outsiders are invited. They will come if their expenses are paid. It would cost a goodly sum to bring all of them here, but a few of the best jumpers may be selected to compete against Ishpeming men. The matter will be considered at a meeting of the club to be held soon. It is now very generally conceded that the Ishpeming jumpers are as good as any in America. The Red Wing experts have not been having as much practice as the local men, due to lack of snow in their country. Last winter they did very little skiing, but this year the conditions are more favorable.

Lowest Mark Yet.

Nelson House Thermometer Registered Twenty-Nine Below Tuesday. The lowest mark registered in some years by the Nelson House thermometer was recorded Tuesday morning, when the mercury dropped to twenty-nine below zero. Yesterday morning it went twenty-eight below and Monday morning the lowest point recorded was twenty-four below. These three are the lowest marks recorded at the hotel in as many succeeding days in the history of the house. Four years ago this winter there was an extended cold spell, but at no time then did the mercury drop below twenty for more than two days at a time.

Forty Below at Humboldt.

It was reported in the city yesterday that the government thermometer at Humboldt has registered forty below zero this week. This does not surprise anyone who has kept tab on the weather reports from that point. The thermometer is placed on the east end of the South Shore depot, facing the north, where it gets the full force of the wind. This is said to be a colder point than any at Michigan.

Dr. Weaver's Syrup

Purifies the blood; Cures (relieves) the skin. THOUGHT TO BE IN THE LAST STAGES OF CONSUMPTION. I have just received the White Wine of Tar. We think there is no medicine like it. It cured me when I was thought to be in the last stages of consumption. I will always recommend it to those that have any disease of the lungs. Mrs. Minerva Burgess, Byars, Ill.

Some May Go to Colorado.

D. Cameron, who is here from Colorado looking for miners, has had a number of calls at the Nelson House in the past few days. All the men are not being influenced by the telegrams and circulars of warning sent out by the union at Telluride. They argue that if there was trouble on there would be something in the papers. They are watching the press dispatches, and seeing nothing have come to the conclusion that the situation is not as serious as at first reported. Mr. Cameron claims there is room for more good miners than are at present available in Colorado, and that is why he is here looking for them.

In New Quarters.

The local camp of the Modern Woodmen of America will meet hereafter in the Ishpeming Co-operative society's hall instead of in the hall on the second floor of the Finnish Co-operative building. The lodge will hold its first session in the new location a week from Monday evening. The same meeting nights—the second and fourth Mondays in each month—will be retained.

Domestic Troubles.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around. Much trouble they save by their great work in Stomach and Liver troubles. They not only relieve you but cure. 25c, at The Stafford Drug Co.'s store.

STRONG ORGANIZATION.

Rose Cecilia Shay Is Not the Only Star With Her Opera Company.

The Company which Rose Cecilia Shay brings with her to the Ishpeming theater Saturday evening is the strongest organization of its kind outside of New York. It is equal to any and all of the demands of Miss Shay's high standard of grand opera. The chorus is capable, tuneful, well drilled and good to look upon. The costumes are all that art and generous expense could supply. The principals of the company include such artists as Joseph Fredericks, tenor; William Stevens, who has been prominently identified with the Emma Juch Grand Opera company, the Demroch and Seidel orchestras and other similar organizations; Lawrence Mooney, who is considered one of the best baritones now singing on the American stage, and Sarah Carr, formerly mezzo of the Bostonians.

Such an organization can scarcely fail to receive the most practical appreciation of lovers of good music. Balfe's beautiful opera, "The Bohemian Girl," will be given.

Nearly \$10,000 Damage.

August Hendrickson and his clerks have been busy since the fire taking an inventory of the stock with a view to obtaining an idea of the amount of damage caused by fire, smoke and water. A considerable portion of the stock is badly damaged. All the dry goods on the west side of the store were scorched more or less and nearly everything in the rear of the building, basement and first floor is in bad condition. Mr. Hendrickson's business is completely interrupted at his general store. The grocery department has been transferred to his meat market, a few doors east, where it will be conducted temporarily. Insurance adjusters are expected at any time, and as soon as the loss is settled a suit will be started. Mr. Hendrickson will dispose of everything in the building. He intends to clean the place out and put carpenters to work rebuilding the structure. There was \$1,000 insurance on the building in addition to \$5,000 on the stock. Mr. Hendrickson estimates his loss at nearly \$10,000.

Ishpeming in Brief.

Gunnar Norbergy was here yesterday from Sagala. A party of Marquette men tried the local bowling alleys yesterday afternoon. The Inter-Urban Dancing club will have a party tomorrow night at the Anderson Hall. The street commissioner had men out yesterday scattering sand on the slippery walks of the business streets. Dr. J. H. Andrus' horse "Dick" was killed yesterday. The animal fell in its stall the previous night and broke a leg. D. P. Householder is here from Hibbing, Minn., packing his household goods and preparing to ship them to the Mesaba. Trombly's orchestra will go to Republic this evening, to furnish music for a ball to be given there tonight under direction of the fire department. Otto Peterson, of the firm of Johnson & Peterson, arrived home yesterday morning from Chicago, where he spent several days buying spring goods. The Ishpeming Light Guard and Catholic Athletic club's indoor baseball teams have agreed to soon meet on the diamond. The game will be pulled off in Neegaunee. M. J. Olson, the piano tuner, arrived home from the copper country Wednesday. He will remain here until Monday, when he will go to Iron Mountain for a week or so. More than a dozen teams are engaged in the Ishpeming ice hockey company. This year's stock will be the largest ever put up by a local concern. The buildings will not be filled for at least a week yet. The International Bioscope company will give a matinee for the benefit of ladies and children this afternoon at 2 o'clock. The prices will be ten cents for children and twenty for adults, to any part of the theater. Another entertainment will be given tonight. Mrs. P. P. Tillson entertained about seventy-five friends Tuesday evening at a ski and snowshoe party. Those who preferred to tramp on shoes were taken for an outing across Lake Baneroff. The skiers went up to W. H. Johnston's residence, where some of the men gave an interesting exhibition of jumping. Later all assembled at the Tillson residence, where a luncheon was served and indoor amusements were introduced. Among the guests was Mr. Tillson's brother, who hails from the West. He departed yesterday.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

CATS ON STEAMERS. Needed to Keep the Vessels Free from Rats.

Few people are aware of the fact that cats form an important part of the crews of all ocean lines and that no steamer would dare to leave port for a trans-Atlantic voyage without a full complement of these useful animals. A comparatively small number of the passengers only one of these cats ever seen at sea. Recently a cat that mysteriously found its way into the cabin saloon of the St. Paul while the usual concert for aged sailors was in progress was hailed with much astonishment as a messenger from Mars might have been. Some of the passengers seemed to think she had come from the sea, like a mermaid. A steward seized pussy by the scruff of the neck and she promptly disappeared. Every big liner carries from fifteen to twenty cats on a voyage. As a general thing they find plenty of occupation scurrying after the mice in the hold, but if any of them come lurking around the pantry they are beautifully fed. The only duty imposed on the stewards is to see that the cats do not get into the sleeping cabins or the saloon. A cat once broke up a game of poker in the smoking cabin of the Germanic. It had eaten some poisonous stuff in the hold and reached the smoking cabin in great distress before going into convulsions. When the cabin was cleared an armed man from Kentucky shot the cat and threw it overboard.—Chicago Chronicle.

A VEST-POCKET DOCTOR.

Never in the way, no trouble to carry, easy to take, pleasant and never failing in results are DeWitt's Little Early Risers. A vial of these little pills in the vest-pocket is a certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation. They tone and strengthen the liver. Negaunee Department

MAY BUILD CHURCH HERE.

Finnish Methodists of Negaunee Contemplate That Step.

There are not a great many Finnish Methodists in Negaunee, but the few here are enthusiastic.

Rev. G. A. Hiden, pastor of the new Finnish church at Ishpeming, is at the head of the movement.

The same plan will doubtless be adopted in Negaunee.

The congregation will not be very large at the start.

At the present time Rev. Hiden is the only Finnish Methodist minister in the county.

In Negaunee a lot will doubtless be leased. In this way a site can be secured without much expense.

The first game of the league series at the rink Wednesday evening between the Negaunee city team and the Bismarcks was the most exciting seen here this season.

CONTRACT SIGNED.

The contract between the Central Construction company of Oshkosh, Wis., successful bidder for installing the new municipal electric lighting plant, and the city of Negaunee has been signed.

The city recorder is in possession of a certified check from the Central people, placed in his hands when their bid was submitted, which will be held until the city requires a bond of \$20,000.

It is not expected that the company will do any work here until the new boiler, now being built arrives.

LOCAL LACONICS.

The Bismarcks and Ishpeming city team cross lats tomorrow evening at Adelphi rink.

Richard Stephens went down to Gladstone yesterday to do some brick work at the Cleveland-Cliffs company's furnace.

The street cars were out of commission for an hour or so yesterday morning, while some repairs were being made at the power station.

L. E. Chaussee went down to Princeton yesterday. He is erecting a shaft-house for the Cleveland-Cliffs Iron company at the Austin mine.

Negaunee thermometer registered low temperature yesterday. It was twenty-two below at 6:30 a. m., at several points in the residence districts.

James Barnette, who recently left here for Duluth, is working for the electric light company. He was formerly lineman with the Negaunee & Ishpeming Street Railway & Electric company.

Albert Johnson, who has been confined to his home with typhoid pneumonia since the death of his brother, Walter, about two weeks ago, was reported dangerously ill yesterday.

Dr. O. G. Youngquist was called up from Marquette yesterday to see the patient and consult with local physicians.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys.

Those who know say Mr. Bryce owes not a little of his success in politics and literature to his wife.

Mr. Bryce especially has no taste for the so-called political salon, through which many English women seek to exploit their husbands.

No longer a young woman—her marriage not occurring until she reached middle life—Mrs. Bryce is described as having "youthful manners, a tall, slender figure, almost girlish outlines, a beautiful color, indicating high health and high spirits, and masses of hair of a pretty shade of gray, which she wears off her face and in a huge low knot."

Women as well as men are made miserable with kidney and bladder trouble, and both need the same good remedy. The mild and the immediate effect of Swamp-Root is soon realized.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's Warranted Syrup of Tar if it fails to cure your cough or cold.

Stefford Drug Co., Desjardins' Pharmacy, People's Drug Store.

Upper Peninsula

School Must Be Moved.

A dispatch from Ironwood says: The Ashland school house in the First ward, a big two-story building costing \$10,000, will have to be moved or torn down by next spring, the land being leased from the mining company and now being wanted for mining purposes.

To Locate at Spokane.

J. B. Sweatt of the Soo has decided to remove to Spokane, Wash., where he will engage in the general contracting business.

City Water Impure.

Samples of Menominee's drinking water were sent by the health officer, Dr. B. C. Phillips, to two well known chemists for analysis.

Music at Timber Camp.

A dozen of the employees, musicians, have organized a band at Crawford & Son's "camp H," near Cedar River, Menominee county.

A Cordwood Center.

The new town of Herman, eight miles south of L'Anse, is an active place this winter.

Froze to Death.

Stupefied with liquor, insensible to any danger in the bitter cold, James Carroll, who lived near Harris, Menominee county, started to walk home from a saloon, and exhausted, lay down in the snow at the roadside and froze to death.

Finnish Republican Club.

A Finnish Republican club has been organized at Ironwood and will take an active part in the forthcoming elections of the county, state and nation.

EXCITING GAME WEDNESDAY.

The first game of the league series at the rink Wednesday evening between the Negaunee city team and the Bismarcks was the most exciting seen here this season.

BRITISH WOMEN TAKE PART.

While the Professional Woman's league of this city is making New Year's resolutions not to meddle in politics, various women's organizations of Great Britain are giving themselves to enter full into the fray of the approaching general elections.

Notwithstanding that the American women are generally regarded the most fully "emancipated" of the sex, the English women always have taken a more active part in politics.

London Times writes that women rally to the support of the feminine annex to the Tariff Reform league, the protectionist organization seems to have met with a hearty response, and, more-over, has had the effect of arousing the interest of the other side.

Among the most prominent of the women actively opposed to Mr. Chamberlain's tariff policy is Mrs. James Bryce, wife of the author of "The American Commonwealth." But Mrs. Bryce deserves to be known in her own right in addition to being the wife of her distinguished husband. She is the president of the Woman's National Liberal association, and is said to be an excellent public speaker, with unusual gifts of organization and leadership.

As the head of the liberal association she is sure to be a potent influence in the coming struggle. She is now reported to be preparing a half dozen speeches, which she will deliver in the principal cities of England in the coming winter.

Those who know say Mr. Bryce owes not a little of his success in politics and literature to his wife.

Having no literary aspirations herself, Mrs. Bryce has been of great assistance in gathering historical data for her husband, who places implicit reliance in her accuracy and thoroughness.

Neither Mr. nor Mrs. Bryce care for general society, and Mrs. Bryce especially has no taste for the so-called political salon, through which many English women seek to exploit their husbands.

No longer a young woman—her marriage not occurring until she reached middle life—Mrs. Bryce is described as having "youthful manners, a tall, slender figure, almost girlish outlines, a beautiful color, indicating high health and high spirits, and masses of hair of a pretty shade of gray, which she wears off her face and in a huge low knot."

FIRST NATIONAL FORTY YEARS OLD

ITS BIRTHDAY WAS THE 22ND OF THIS MONTH, WHEN ANNUAL MEETING WAS HELD.

PETER WHITE'S LONG SERVICE HAS BEEN ASSOCIATED WITH BANK SINCE ORGANIZATION.

Growth Has Been Particularly Gratifying During the Past Three Years—Interesting Facts of Its History.

The annual meeting of the First National bank of Marquette this year marked an event of more than usual importance and interest in its history, namely its fortieth anniversary.

While the present bank building was in course of erection, the bank had temporary quarters in the stone warehouse on the north side of Spring street.

Bank's Excellent Growth. The statement published subsequent to the annual meeting was the best ever made by the First National.

The mere statement of deposits, however, can convey no idea of the manner in which the business of the bank in deposits and discounts has expanded during the past three years.

The per capita deposit in the banks of Marquette is unusually large, being, as estimated from the statements, in the neighborhood of \$240.

As its charter number is 390 the First National may justly be considered among the pioneer banks in the country.

The record of the First National has throughout been a very honorable one. There has been no period in its history when it has not been completely solvent.

The panic of '73 and the panic of '93 were gone through with perfect safety. No obligation was not promptly met; no deposit not promptly returned on demand.

Ely the First President. Samuel P. Ely, a well-known Lake Superior pioneer, enjoyed the distinction of being the first president of the First National, Peter White being elected cashier and put in active management of the bank at the time Ely's selection to the major office.

Notice. I hereby notify those giving my wife credit that on and after this date I will not be responsible for bills contracted by her, she having left my bed and board.

Fire Wood. Good dry hardwood, block or split. Dry pine slabs; dry hemlock slabs—any quantity required.

ing on the site of B. Neidhart's present store, owned by Mr. White, where the village's banking was done for a year or two, until the completion of the Burt block.

First Permanent Bank Building. After this holocaust the bank sought temporary quarters in the present red, white and blue block, corner of Superior and Front streets, the fire having burned itself out at the north side of Superior street.

Subsequent to '90 there was a period of unusually good business, so the bank was located on Spring street but a short time when the directors began to think that the quarters were not compatible with the dignified growing importance of the institution.

Several years ago a similar accident on the Marquette and Western loop resulted more disastrously. The freight cars left the track at the curve, near the stone quarry and several cars were badly wrecked.

While the present bank building was in course of erection, the bank had temporary quarters in the stone warehouse on the north side of Spring street.

The Panic of '73. Yesterday Mr. White spoke interestingly in the Mining Journal on the subject of the panic of '73, generally referred to as the most acute industrial depression that the country has ever gone through.

The panic started on the 18th of September, 1873, said Mr. White, "with the failure of Jay Cooke's bank in New York. The country seemed ripe for trouble, for in New York, Boston and other principal cities in the East and West confidence seemed entirely departed and the outlook was gloomy indeed.

The panic started on the 18th of September, 1873, said Mr. White, "with the failure of Jay Cooke's bank in New York. The country seemed ripe for trouble, for in New York, Boston and other principal cities in the East and West confidence seemed entirely departed and the outlook was gloomy indeed.

Freight Cars' Swift Trip. A Number Broke Away from Train Yesterday Morning.

Yesterday morning about 7 o'clock a caboose and a number of freight cars which had broken away from a west bound freight on the old Marquette and Western track shot through the lower south shore yards and up through town with lightning velocity.

The freight from which the cars broke away was a heavy one, being hauled by a double header. It was not very far up the grade on the curve, near the stone quarry and several cars were badly wrecked.

Several years ago a similar accident on the Marquette and Western loop resulted more disastrously. The freight cars left the track at the curve, near the stone quarry and several cars were badly wrecked.

While the present bank building was in course of erection, the bank had temporary quarters in the stone warehouse on the north side of Spring street.

The Panic of '73. Yesterday Mr. White spoke interestingly in the Mining Journal on the subject of the panic of '73, generally referred to as the most acute industrial depression that the country has ever gone through.

The panic started on the 18th of September, 1873, said Mr. White, "with the failure of Jay Cooke's bank in New York. The country seemed ripe for trouble, for in New York, Boston and other principal cities in the East and West confidence seemed entirely departed and the outlook was gloomy indeed.

No More Road Building. Work on Grand Island Has Been Suspended for the Time Being.

Work on Grand island was suspended some time ago for the winter. At first it was planned to continue the road building through until spring, but the depression in the iron industry led the Cleveland Cliffs people to alter this plan and to put an end to operations for the time being.

The island is now well peopled with the animal inhabitants brought in during the past two years by the Cleveland-Cliffs company. Deer of various species, larger game and smaller animals and game birds abound, with the prospect that their progeny will soon make the island an out-of-door menagerie of wild life.

It is not known positively when the Cleveland Cliffs people will resume work on the island, but it is likely that considerable will be done there again next summer.
