CZAR'S FLEET AT PORT ARTHUR IS SERIOUSLY CRIPPLED

One Report Is that Twelve Ships Have Been Destroyed and Eight Others Captured.

FIGHTING BETWEEN THE LAND FORCES BEGINS

Japanese Troops Disembark at Various Points on Liao-Tung Peninsula, With the Object of Taking the Enemy in the Rear, and According to Russian Advices Have Generally Fared Ill.

Nagasaki, Feb. 14.—According to advices received here, the engagement at Port Arthur commenced at 4 o'clock on the morning of Feb. 9. Altogether, twelve vessels were destroyed and eight were captured. The captured vessels are expected at Saeko soon. The mikado has congratulated Vice Admiral Togo for the victory. It is thought significant that the rigid censorship regarding the movements of the Japanese has been withdrawn.

The Foo, Monday, Feb. 15.—Eleven ships were damaged in the recent engagement at Port Arthur. The rest of the fleet has moved into the inner harbor. Five extra big guns have been mounted on the forts and they are firing at every object suspected of being part of the enemy's fleet.

The Foo, Feb. 14.—Passengers from Port Arthur say that the Russian cruiser Kozietz was damaged in Tuesday's battle in the roads outside of Port Arthur but was kept afloat until Saturday, when it sunk in thirty fathoms. After the attack on Port Arthur Tuesday, the Japanese fleet did not return. About thirty shells struck in the town. One in the main street broke every window. Others struck on the hills among small houses. One killed a woman and a child.

St. Petersburg, Feb. 14.—An account of injury to the wall at Port Arthur during the Japanese bombardment is the only total one that has been issued officially to date. Some newspapers are protesting vigorously against the censorship of the war news. The Novoye Vremya says: "We are not children; let us hear the worst."

Tokio, Feb. 13.—[Delayed in transmission.]—The Vladivostok squadron has not been reported today. It is unknown whether the squadron returned to Vladivostok or effected a passage into the Pacific. The Japanese are not specially concerned over the naval situation, as they feel confident that they soon will dominate the sea. There is no fear of the Russians intercepting the Kasuga and the Niasin or of effecting a junction with the Port Arthur squadron. The Russians possess no naval bases except those at Port Arthur and Vladivostok, and the latter may freeze up and bar the retreat of the squadron.

St. Petersburg, Feb. 14.—[Delayed in transmission.]—The Japanese fleet which entered Chemulpo the night of Feb. 8, escorting transports, captured one Russian volunteer warship and two steamers in the open sea.

Nagasaki, Feb. 14.—Six Norwegian steamers chartered by a Russian naval contractor have been captured. The steamer, Argos, and Lena, Activ, Sentis, Seir, and two others. They carried coal. The Hermes arrived today under the convoy of a cruiser.

Seoul, Feb. 12.—[Delayed in transmission.]—The Japanese fleet which entered Chemulpo the night of Feb. 8, escorting transports, captured one Russian volunteer warship and two steamers in the open sea.

Nagasaki, Feb. 14.—Survivors from the Variag and Korietz, the Russian cruisers that were sunk by the Japanese at Chemulpo last Tuesday, still remain on board the British cruiser Talbot, the Italian cruiser Elba and the French cruiser Pascal.

The situation is becoming acute as the Japanese have twice made demands on the commanders of the foreign vessels that the Russians be surrendered as prisoners of war. The captain of the Talbot, being the senior naval officer, has each time replied that he was awaiting instructions from his government.

WAR NEWS SUMMARIZED

Fighting on land is in progress near Port Arthur. The Japanese, in an attempt to take the Russians in the rear, severing communications, have landed detachments on each side of the peninsula and, according to advices from Russian sources, have been generally repulsed. It is asserted that at least a portion of the invaders have been driven back to their ships, at one point with heavy loss. The news, however, is indefinite.

News reaching Nagasaki is that twelve Russian ships were destroyed and eight captured in the battle at Port Arthur last Tuesday. It is not stated that these advices are official, but it is added that the emperor has congratulated Admiral Togo for the victory.

It is rumored at Nagasaki that 1,800 Japanese have been killed through the sinking of a transport. This report, however, lacks confirmation.

One volunteer warship and two steamers, it develops, were captured by the Japanese cruiser squadron prior to its attack at Chemulpo, Korea. Six Norwegian steamers under charter to a Russian naval contractor also have been taken.

The first authentic advices of the recent engagement at Chemulpo, Korea, show that both Russian cruisers were sunk. They fought gallantly against heavy odds and certain destruction. The Japanese did not lose a man.

Anarchy prevails in Korea. Malcontents are, it is said, everywhere plundering the country.

A British steamer is detained at Port Arthur for refusal to surrender Japanese passengers. It was because the Fu Ping left port without procuring clearance, it is asserted by the Russian officials, that that British craft was fired upon.

An acute situation has been raised at Chemulpo by the refusal of the commanders of the European warships to surrender the Russian survivors, members of the crews of the two cruisers destroyed there, as twice demanded by the Japanese. The stand of the Japanese is endorsed by the officers of the American gunboat Vicksburg, on which no Russians sought refuge.

Neutrality between Russia and Japan has been proclaimed by China. The edict of the emperor warns the neutrals to take every precaution to protect the lives and property of foreigners.

There is fear in diplomatic circles, both abroad and at Washington, that Russia may eventually, during the progress of the war, seize Peking, thus involving other powers and making possible the further dismemberment of China. It is to avoid this contingency that Secretary Hay, prompted by Germany, issued his circular note guaranteeing the integrity of the Celestial empire, and to which, it is deemed significant, neither Russia nor France have as yet given adherence.

The Russian forces in the Far East have, it is believed, been greatly overestimated. There is talk at London that Russia will sue for early peace, granting important concessions, with the intention of resuming the war when better prepared. Political circles, however, scout this idea.

The Baltic fleet has not sailed for the Orient, as reported. It is icebound at Cronstadt.

The Russian minister to Japan left Tokyo Thursday. No disorders marked his departure.

France has proclaimed neutrality.

WITHDRAWN FROM PANAMA

Battalion of Marines Leaves for San Domingo Under Hurry Orders.

Colon, Feb. 14.—Hurry orders from Washington were received last night to embark a battalion of marines on the Pacific. A special train left Colon this morning and returned at noon with 450 marines who were camped at the Bas Obispo station on the Panama railroad. The Pacific's boats were kept busy all day embarking the camp fittings, and the task is not finished. Major Lucas will command the battalion and the Pacific will sail tomorrow under scaled orders.

HANNA'S DOCTORS ABANDON HOPE

IS ANNOUNCED FROM THE BEDSIDE THAT THERE IS NO CHANCE OF RECOVERY.

MERELY QUESTION OF HOURS

PATIENT IS KEPT ALIVE ONLY BY POWERFUL STIMULANTS.

Washington, Monday, Feb. 15.—3:10 a. m.—No change in the senator's condition is reported from the sick chamber at this hour. He continues to rest comfortably. Except for the physicians and attendants, the members of the household are all asleep.

Washington, Monday, Feb. 15.—1:40 a. m.—Senator Hanna appears to be losing ground. He is gradually growing weaker.

Washington, Feb. 14.—8:35 p. m.—All hope of Senator Hanna's recovery is gone. Secretary Dover has just said that there is no chance for life. "It is just a matter of temporary improvement," he said. The doctors, however, are not preparing for immediate dissolution.

Washington, Feb. 14.—This has been regarded throughout as the crucial day in Senator Hanna's battle for life. It began with optimistic assurances. The senator, the doctors declared, had passed a quiet night. His temperature at 7 o'clock was 103.8, his pulse 120, strong and regular, and his respiration satisfactory. At intervals of two hours during the night the senator was aroused and given nourishment, after which he immediately resumed work.

Sudden Change for the Worse.

The doctors said the condition of the senator this morning surpassed expectations. The statement had hardly been issued when an unexpected change for the worse took place. The senator suddenly became noticeably weaker. His rapid breathing excited alarm, and other evident signs of distress caused a hurried summons for the physicians. The oxygen apparatus was put into use immediately, a breathing cone was placed over the mouth and nostrils, and relief was secured. The physicians' optimism of the early morning was dissipated by the 8 o'clock sinking pulse.

For the next few hours reports from the bedside told of the patient's wonderful recuperative powers. At 10:30 a. m. Dr. Osler declared the patient had recovered from the depression of the morning hours. Suddenly, at 2 o'clock, Representative Lock and Secretary Dover came from the senator's apartments with the announcement that the senator had suffered another severe sinking spell and had failed to respond to the stimulants.

The hotel corridors had been thronged throughout the day with anxious inquirers. The startling news from the sick room caused a hush throughout the lobbies.

Patient Has Wonderful Rally.

Medill McCormick, the senator's son-in-law, was despatched for more powerful stimulants. These came, but the next report, a few minutes later, said the doctors declared the end would be only a question of perhaps minutes, but at the most, of hours. Then, within three minutes, the patient rallied, consciousness returned, and by the exertion of wonderful will power Senator Hanna seemed to pull together in what the doctors regarded as a wonderful manner. Although the afternoon relapse had been rallied from, it had left a weakened frame for future battles. Restoratives were continued and the senator fell again into a stupor.

Dr. Carter's description of the sinking spell follows: "At 1:30 o'clock an unexpected sinking spell came on. We at once started work on the senator, but he failed to respond to the restoratives applied. During the spell the pulse disappeared from the wrist and only a slight flutter of the heart could be detected. We kept applying stimulants and finally got a slight response. Now he has a pretty good pulse and respiration. The spell was decidedly worse than the one this morning." As to the outlook, the doctor said: "We can only work and hope."

Family Called to Bedside.

When the situation looked the most critical this afternoon the members of the immediate family were assembled in the sick room. Mrs. Hanna has been in almost constant attendance at the bedside.

President Roosevelt called to make a personal inquiry shortly after noon. Governor Herick of Ohio arrived this morning and went at once to the senator's apartments. Charles Emory Smith arrived from Philadelphia. Speaker Cannon called more than once to learn the situation. Members of the cabinet, senators and representatives also called. Hundreds of telegrams of sympathy arrived during the day.

The bulletin issued at 6 o'clock p. m.

DAILY MINING JOURNAL.

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issues daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier.....\$.50 Per year, by mail.....\$ 6.00
MARQUETTE, MICH., FEB. 15.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Young America is straining at the leash and wants to help the Japs. Between frowning parents and the country's neutrality, however, his participation in the eastern campaigns promises to be very limited.

A number of upper peninsula papers are asserting that Captain Thomas Walters has withdrawn as a candidate for delegate at large. Nothing official to that effect appears to have been given out at Ishpeming. How about it, captain?

Just to expedite matters the Russians have begun to sink their warships on their own account. At the rate of destruction that obtained last week the Russian navy should be finally wound up and converted into junk not later than March 13.

No one maintains seriously at this comparatively remote date that the Japs were too quick with their shooting. It is generally acknowledged that the withdrawal of their ambassador from St. Petersburg was a sufficient declaration of war. Anyway there is that claim that the Russians fired the first shot.

Things are going to seed down Manistique way. In the current issues of the Pioneer-Tribune and Courier there are no new contributions to the judicial, senatorial or primary election situations. Added to this is the fact that neither paper pays its respect to the other. Can we be going to have peace in Schoolcraft county?

The skippers of the first-class craft in the lake marine trade want an increase in salary of \$500 for the forthcoming season, and have so informed the committee of the Lake Carrier's association. If they expect to get it they are exceedingly sanguine, and, indeed, there seems to be no particular justification for their demand. Wages and salaries are being scaled down instead of up, and just now the marine interests have in prospect what promises to be an unusually dull and profitless season.

William B. Weston, who has been managing the Grand Rapids Evening Post, in western Michigan, has tendered his resignation to William B. McKnight, the president of the company, who is also the controlling owner. There is no particular significance to be attached to the resignation. Mr. Weston says he has not been able to make the Post as strong a paper as he has wished, whatever this may mean. The Post has a good field and in the right hands would doubtless be made a very prosperous property.

The Mining Republican has a few words to say in favor of a temperate and contained attitude in discussing upper peninsula political questions. It is to the Republican's credit that it lives up to its preaching, even though it may now and then make an exception of its general rule in the case of its "esteemed contemporary." The Republican also recommends a fair and courteous treatment of all candidates, commenting that they are usually deserving and worthy men. There are a number of U. P. papers that might well profit by the Republican's good advice.

It is suggested that by the time the state convention gets around it will be necessary to number the supreme court candidates, if business is going to be disposed of with any expedition. If favorite sons get into the field or are trotted out by admiring friends at the rate maintained to date there should be a candidate for every lower Michigan county. The upper peninsula's contribution to the confusion promises to be limited to three, and may possibly be reduced to two, if Chippewa county Republicans can persuade either of the Chippewa aspirants to step down and out.

The grand lodge of the A. O. U. W. did not go the whole length of the supreme lodge's plan for securing the permanency of the order, balking on its most important feature, the proposed increase in assessments. However, the delegates to the state convention were apparently impressed with the necessity for greater safeguards against financial disaster and the repudiation of any claims, for they acted favorably on the reserve fund proposition and henceforth the grand lodge will nearly double its contribution to the supreme jurisdiction for guarantee purposes. There are members of the order, many of them, who sincerely regret that the grand lodge did not accept without qualification the su-

SUPERIOR TRUST COMPANY.

M. C. GETCHELL, Sec'y.
1-5-11

preme jurisdiction's plan, holding that such would have been the truly wise and conservative course. However, these members are thankful for the ground gained in the adoption of the guarantee fund feature of the scheme, and are of the opinion that it indicates a change in sentiment that will sooner or later bring about such an increase in the rates as shall make the fraternity secure for all time. In the interval the old members are assured cheap insurance, but they may be obtaining it at an ultimate heavy price for the whole order.

Russia is said to be likely to call off its St. Louis exhibit. It needs the money. If Russia takes this step, she will follow the course of the merchants of Moscow, who expected to put \$500,000 into displays, but who have now determined to devote the money to the Red Cross fund. It will be of much use there, and if Russia cannot afford to support the Red Cross work adequately and come to the exposition too, there should be no fault found that the exposition is to be made to suffer. It can stand the loss very well if it knows that its loss is the gain of wounded and dying soldiers. Japan, according to late advices, does not expect to allow the war to interfere with her world's fair plans. Her intention in this respect will not lessen her popularity in America.

The Detroit Free Press has a word of warning for the friends of primary election reform, and it is timely, no doubt. The Free Press, with characteristic caution, says that "it knows of no reason why the Republicans of Michigan, if they are in favor of direct nominations, should not nominate a candidate who is closely in sympathy with that policy; but it would be well for them to remember that the executive is not the law-making branch of the state government." In other words the Free Press advises the superheated friends of primary election to give some of their valuable time to the legislative districts, if they really are sincere in their demands. That such advice should even be necessary shows in itself that many of the radical advocates of direct nominations are more concerned with the head of the ticket, with his possibilities of patronage and machine building, than they are with that indefinable something euphony described as the "good of the public."

Mr. Longyear's presentation of the arguments in favor of a harbor of refuge at Partridge bay is welcome. There has been much said in the connection, but his letter marks the first time that the public has been given an opportunity to become acquainted with a statement of the alleged advantages of the proposed alternative to extending the breakwater in the lower harbor. It would be interesting to know whether the engineers were made acquainted with these arguments before they reported unqualifiedly in favor of lower harbor project. In regard to the proposed improvement, it goes without saying that the engineers' recommendations carry great weight, and that it will require strenuous work to get, at this hour, even consideration for the alternative plan. It is, however, entitled to respectful consideration. The statements embodied in Mr. Longyear's letter are worthy of close study in connection with the question of harbor improvement. It is to be regretted that they were not made public earlier. There has been more or less said about the Partridge bay project, but to date people have known little about it, and have accepted as a foregone conclusion that the extension of the lower harbor breakwater was the proper step.

Galusha A. Grow, of Pennsylvania, who was a representative in congress as a Free Soil Democrat when the party was organized, and who was speaker of the house from '61 to '63, has lately written to William Alden Smith, contributing his testimony to the claim that Jackson is fully justified in asserting his right to be considered the birthplace of the Republican party. Mr. Grow's statement shows again the absurdity of all counterclaims on behalf of other cities and states. He writes:

The law repealing the Missouri Compromise passed May 30, 1854. On the 7th of June following a mass meeting was held in Detroit protesting against the outrage. One of the speakers at that meeting was Zach Chandler. The meeting appointed a committee to call a mass meeting, irrespective of party, of all citizens of the state to meet at Jackson on the 6th of July, 1854. There being no hall large enough for the meeting, the people assembled adjourned to the "oaks" and there it was resolved to call the new party the Republican party. Greely, in his Tribune, had suggested Democratic-Republican. At this meeting Kinsley S. Bingham was nominated for governor with a full ticket for state offices. Bingham was elected, and afterward was elected United States senator. This was the first state ticket nominated under the name of Republican party after the repeal of the Missouri Compromise.
The meeting at Pittsburg Feb. 29, 1855, was the first meeting of delegates from the states forming a national party, and they called a national convention to meet at Philadelphia June 17, 1856, to nominate a candidate for president.

I have given in brief the information you request. The mass meeting at Detroit was seven days after the act passed. Any one to be ahead of that has been up early. The meeting under the "oaks" at Jackson came thirty-six days after the passage of the act which was to be denounced. There were local mass meetings held in various states during this time, but no state convention put in the field a ticket of state officers to be voted for at an election by the people of the state previous to July 6, 1854.
THE REAL TUG OF WAR.
That eminent American author on naval strategy, Captain Mahan, is not moved from his strictly judicial attitude by the early and not unexpected triumphs of the Japanese navy. Unlike many others far less qualified to judge he recognizes that the campaign, to say nothing of the war, is just beginning and that this is no time to jump at conclusions. Even with her fleet destroyed, captured or bottled up, Russia is not

OIL FOR THE BODY

You can't lose an atom without feeling it. The body is like an engine, a watch, a machine; must be kept in good order to run right.

That's the reason Scott's Emulsion is so successful in all wasting diseases. It feeds, nourishes and strengthens when ordinary food won't.

Doctors say Scott's Emulsion is the best nourishment for those who are not as well as they should be—young or old.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

defeated and not as seriously weakened as many imagine.

The Japanese have set for themselves a three-fold task. They must clear the seas of Russian ships, occupy Korea and drive Russia out of Manchuria. The first is practically accomplished, the second is under way, while the third and most formidable of all has not been attempted. Japan has already landed a large force in the peninsula and cut the railway between Port Arthur and the Russian base. From now on the land fighting will engage attention, and this, more than battles at sea, will give the world the true measure of the belligerents. It is here that the real tug of war will come. Russia has never been formidable at sea. In real war on land Japan is an unknown quantity. She must now measure herself against a foe whom she has never before met. She must now measure herself against a foe whom she has never before met. She must now measure herself against a foe whom she has never before met.

In attempting to dislodge Russia from her chosen and fortified positions on the continent Japan faces one of the most serious of military problems. Her naval successes, which give her control of the sea, enable her to "turn" the Russian advanced position on the Yalu and thus isolate Port Arthur, which can be attacked by land as well as by sea; but the world will receive another surprise and Russia another crushing blow if it shall be found that the land defenses are not strongly manned and the town amply provisioned. It would seem that the main Russian force, if compelled to give ground, can withdraw from one position to another, fighting on ground of its own choosing, inflicting more loss than it suffers and always retiring along the line of its communications. Long ago the Russians taught Napoleon the trick and recently the British learned it from the Boers.

The land campaign, in short, will test the fighting qualities of the men, as well as the merits of the respective military systems and the capacity of the generals. In the last two respects Japan will not be found wanting. As to the first all is problematical. There is no doubt as to the dash of the Japanese soldier, but the history of war gives no hint as to his staying qualities, while in the Russian these are proverbial. The Japanese may be depended upon so long as things go his way, but he has never been tested under reverses. There is a strong element of fatalism in his composition, which in the face of a stubborn foe like the Russian, may prove an element of weakness if Japan encounters those checks which must always be counted on in war. One or two pitched battles, which cannot now be far in the future, will give the world its first trustworthy estimate of the Jap as a fighting man.

PERFECT CONFIDENCE.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Bassford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by Stafford Drug Co., J. M. Perkins, Neganue. Henry Harwood, Ishpeming.

NOTICE.

We have been employed to act as the attorneys for the trustees of the Military Road lands belonging to the Ayer estate to protect said lands against trespass or pillage. The prompt communication to us of any information as to trespass on said lands will be esteemed a favor.

ELDREDGE & MILLER, Marquette, Mich. (1-3-21m-1f)

A THOUSAND DOLLARS THROWN AWAY.

Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did, and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Desjardins' Pharmacy.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Desjardins' Pharmacy.

Mining News

HAVE TURNED TO ARIZONAS.

Copper Country People but Little Interested in Boston Stocks.

Interest in the Warren mining district properties, particularly those of the so-called "Bonanza circle," is on the increase. Recent developments at these mines have furnished the cause and the confidence that was at first shared by only a few has spread and is still spreading throughout the Lake district. Less and less interest is being taken in the stocks of the Lake copper mines. People investing in the good Bisbee stocks consider that they are almost certain to make profits that there is absolutely no hope of making in the Lake "coppers" with the same amount of money invested. The fact is that the Boston stocks are dependent almost entirely on the market conditions. The shareholders cannot rely on possible physical changes at the mines to give them a chance to make a few dollars. Market conditions only will now materially affect the prices of the Boston "coppers," and the present prospects are no more encouraging than they have been for months. There has been "nothing doing" in Lake copper stocks for some time and the outlook promises no radical change.

Boston is still promising the same old things. Not many of the promises have materialized but still the same old story of bright predictions is heard every day. Lake people have contributed liberally to Boston coffers. They have been paying toll for some years, but in recent months it cannot be denied that there has been a gradual falling off in the Lake account. The development of Bisbee properties is the cause. People are selling their Lake "coppers" to put the money into Bisbee stocks that they feel satisfied will make good. Many of them have tired of playing the Boston game, and are satisfied to try the Bisbee stocks for a change.

When the Calumet & Arizona was floated by Lake people, Boston was surprised that the Lake could have the proposition without Boston assistance. Boston rather expected to see the proposition fall flat, but was disappointed. The stock was easily placed and the Calumet & Arizona became a producer in a surprisingly short period. Other properties in its immediate vicinity will follow in its footsteps. Boston has awakened to that fact to the extent that it is now quite sorry that it did not get in line for some of the good things.

The Calumet & Arizona dividend has done much to impart confidence in the properties of the "Bonanza circle," which, apparently, is well named. The late developments at these properties also are having a good deal to do with the steadily increasing demand for stocks in the Lake Superior & Pittsburg, Calumet & Hecla, Pittsburg & Duluth, Higgins and Junction. The local brokers dealing in the Arizona stocks are having difficulty in supplying the demand for these shares. Holders are satisfied that they have a good thing and are for the most part holding on. The big prices offered have led some to part with part of their stock but those who have entirely sold out are few.

Nearly every day brings some news of an encouraging nature from the best of the Bisbee properties. This is just why the interest is so keen. There is something doing most of the time to keep people expectant. With every bit of particularly good news there is a demand for stock. The recent strike at the Higgins, although it presumably is nothing more than a "bunch" of ore, reported last week, caused a brisk demand for stock but there was little offered even at higher prices. The ore in the Higgins was encountered in a drift from the winze connecting the two tunnels that have been driven. It is a high grade glance ore and its extent will be determined as soon as possible. The local officials of the company, however, do not look upon it as the main ore body, which they consider lies deeper. They are not just the same as the strike being taken as an indication that the Higgins has the ore. Diamond drills are now being rushed to the property and it should not be long before particularly good news is heard from the claims. Next to the Copper Queen the Higgins is well located and it has the same ear marks that the Copper Queen had when that property began its career.

The Lake Superior & Pittsburg is looked upon as a "big winner." It has the ore and it has a much larger acreage than any other property with good prospects in the district. Men who have lately returned from Bisbee say that the L. S. & P. will be the biggest producer in the district and that it likely will begin production this year. The ore is as rich, if not richer, it is said as any in the district. The L. S. & P. will easily make a bigger mine than the Calumet & Arizona. It is still a development company but within a few months it will be transformed into a mining company on the basis, perhaps, as the Calumet & Pittsburg was not long ago. There is no question, whatever, about the success of the Lake Superior & Pittsburg and the Pittsburg & Duluth have each encouraged looking ore stringers, and as each is well located their future is taken to be assured. Although the ore already out is not a part of the main body, the indications are that the main body is not far away at a greater depth.

Visitors to Bisbee returning home are all enthusiastic over that field. All have good words of the better prospects. Not all of the numerous properties in the district, they say, will make good, but many of them will.

ATLANTIC'S BEST YEAR.

Production in 1903 the Largest in the Mine's History.

Among the most interesting of the forthcoming reports of the local mines for the year recently ended will be that of the Atlantic, which will record the largest production in its career, and also the lowest cost per ton of rock treated ever attained in the Michigan copper district. The official report will reach the shareholders for some little time, but some of its most important features here presented will furnish an excellent idea of the progress being made at what was for a quarter of a century the only active producer located south of Portage Lake.

The actual production for 1903 was, according to S. J. Beach, 5,205,598 pounds of refined copper. The increase over the former high record, that of 1902, was approximately 550,000 pounds.

LOSS OF THE ST. CLAIR.

Disaster Off Ontonagon Twenty-Eight Years Ago Is Recalled.

In the visit to Duluth last week of L. D. Collins, representing the "Peck's Bad Boy" company, which appears at the Lyceum this week, the destruction of the old steamer St. Clair by fire off Ontonagon, was recalled to the minds of several of the older inhabitants of the Zenith City. Mr. Collins' father, familiarly known as "Dave" Collins, was a passenger on the boat and his was the first of the bodies found. Supported by a life preserver, it was picked up off Ontonagon by the tug Bob Allen. Other bodies on which there were life preservers were also found but many of the crew and passengers were never recovered. The survivors numbered five and of these John B. Sutphin of Duluth is the only one now living.

"I was a boy living in Duluth at the time of the St. Clair tragedy," said Mr. Collins, "and I remember it well. My father had been in the theatrical business but finally settled down to private life in 1808 in Duluth where he became interested in a number of speculations. Finally, however, he returned to the theatrical business and associating himself with another old minstrel man organized what was known as Collins & Stuart's minstrels.

"In July, 1876, the company left Duluth in the yawl boat and into the St. Clair for Houghton and Hancock, Mich., and it was the following morning that the tragedy occurred. The boat took fire and there was a wild scramble for the small crafts. The only one available was the yawl boat and into this a few scrambled. It is claimed that my father jumped from the rail of the burning vessel for the yawl but missed it and struck his face on the edge. When the survivors were picked up there was blood on the rail of the small boat and the captain's head bore out the theory that it all happened that way. An examination of his watch showed that it had stopped shortly after two o'clock and the supposition is, therefore, that the fire occurred about that time in the morning of July 8. He was known to have a good deal of his money with him but nothing of his effects was ever recovered except his watch and diamond pin.

The St. Clair was one of the Ward line boats and an attempt was made to recover from the company by the relatives of those who were lost. Judgments in the sum of several thousand dollars were secured but the Ward company was in financial straits at the time and went to the wall without paying any of the claims.

FOR THE HOCKEY GAMES.

South Shore Makes Low Rate of Fare from the Iron Country.

The South Shore road is offering the low rate of \$2.50 for the round trip to Houghton from Iron country points for the Portage Lake-American Soo hockey games in the Amphidrome Tuesday and Wednesday evenings. The tickets will be on sale Tuesday and Wednesday and will be good to return until Thursday. The Copper Range road has made arrangements to run a special train from Calumet, leaving at 7 o'clock, each evening. The fare will be fifty cents for the round trip from Calumet, Lake Linden, Habel and the Mills. The train will stop at the Quincy smelters, opposite the Amphidrome, and will leave that place for the return trip directly after the games.

ELECTRIC-LIGHTED TRAINS.

C., M. & St. P. Pioneer in the Adoption of the System.

One of the many practical features in the realm of railroad operation, and which has attracted especial attention, is the illumination of trains. H. E. Stewart, commercial agent for the Chicago, Milwaukee & St. Paul railway at Houghton, says that the C., M. & St. P. is the pioneer in the lighting of trains by electricity. It started the practice over sixteen years ago, and during that time the managers have experimented with many different systems. They have found, however, that the most successful, and without doubt the most reliable and efficient system for solid trains, is that in which a dynamo is operated by a small engine located in the baggage car and taking steam from the locomotive. Each car of the train is equipped with an auxiliary storage battery. By this means it is made possible for the lighting to continue uninterrupted when locomotives are changed at terminals.

BAD FIRE AT HANCOCK.

The residence of L. Wolfsky on Franklin street, in West Hancock, was badly gutted by fire Friday evening. Most of the contents were destroyed and the house, together with the neighborhood, is a ruin. It is estimated that the loss is about \$50,000. The fire broke out about 10 o'clock and the flames spread rapidly. The firemen arrived at the time the telephone in the city hall was out of order and as there was no alarm, the firemen were called in by the neighbors. The fire in the house some time was lost before the department was notified. The firemen, most of whom were attired in their dress suits, preparatory to attending the funeral at the Baltic, which property adjourns, lost no time in getting to the scene of the blaze after they were called in and in short order two streams were playing on the flames.

FUNERALS HELD YESTERDAY.

The funeral of Mrs. T. Gauthier of Lake Linden, who died Friday afternoon after a lengthy illness, was held yesterday morning with services at St. Joseph's church. She was forty years of age and the wife of T. Gauthier, an employee of the Calumet & Hecla company. Besides her husband she is survived by four children. Tuberculosis was the cause of death.

WAR WILL BOOST UP TEA.

War in the orient will raise the price of tea five cents a pound, according to a well known Houghton grocer.

WOLVESKIN PRODUCTION.

The estimated output of the Lake district in pounds of refined copper for the month of January was 16,285,000. This compares with 17,237,000 for December and 16,825,000 for January, 1903. The outputs of the various mines were as follows:

Calumet	6,600,000
Osceola	1,680,000
Tamarack	1,400,000
Champion	965,000
Baltic	950,000
Quincy	904,000
Trimountain	810,000
Wolverine	756,000
Mohawk	649,000
Franklin	599,000
Miss	544,000
Isle Royale	170,000
Adventure	130,000
Michigan	130,000

MINING GOSSIP.

The mineral yield from the Atlantic "A" shaft which will be abandoned one year hence, when the present ground broken will have been hoisted, averages about eight pounds per ton of rock.

LAKE COPPER PRODUCTION.

The Kimberley cage in the Red Jacket shaft of the Calumet & Hecla struck some obstruction late Thursday night while being hoisted to surface and the guide timbers in its compartment were stripped from the twenty-first to the twelfth level in consequence. Hoisting will be at a standstill in the compartment until repairs, which likely will take several days, are made.

A NIGHT ALARM.

Worse than an alarm of fire at night is the brass cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Mannington, Ky., writes: "My three year old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Desjardins' Pharmacy.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

Mining News

(Continued from Page Two.)

PRISONER CONFESSES GUILTY.

Detective Trudell Runs Down a Man for Highway Robbery.

Marshal "Joe" Trudell of Red Jacket is gaining considerable of a reputation as a detective. Working on only a slight clue, he succeeded in running down John Takko, the man who assaulted and then robbed John Nikkenen of \$100 last Monday night. Takko was arrested Friday. The company secured 12.7 pounds of refined copper per ton of rock treated last year, which is about one and a half pounds better than the average for 1902.

A Fortunate Accident.

With regard to the underground operations, shareholders were particularly pleased to learn the greatly increased output of last year was secured from a smaller rock volume than was treated in 1902, a fact that aided materially in reducing the costs. The increase in the copper contents of the rock stamped was partially due to the comparative falling off in the rock shipments from "A" shaft, which suffered the loss of its shaft and rock house by fire in the early part of July.

VANDERCOCK GETS OFFER.

Former Leader of C. & H. Band May Locate at Marinette.

The Menominee Herald says: G. H. Vanderoock, of Michigan City, Ind., formerly leader of the famous Calumet & Hecla band, will probably succeed Professor Frank Dana as the band leader in the twin cities. He was here this morning in conference with business men of the twin cities and left in the afternoon for his home with a contract in his pocket, agreeing to either accept or reject it within the next forty-eight hours but intimating that he would likely accept it. He agreed, but expects the twin cities a band superior to Dana's and it is known that he can do it.

LAKE COPPER PRODUCTION.

The suspension of operations at the north end of the mine will not interfere with the current daily volume of rock furnished, as the contemplated reduction will be made up from the openings tributary to "D" shaft, and in this connection it may also be stated that the operating statistics are compared as follows:

1903.	1902.
Receipts.....\$2,447,351	\$2,275,819
Expenses.....\$1,573,863	\$1,447,813

RUSSIAN FLEET
BADLY CRIPPLED

(Continued from Page One.)

The Russian government to release one hundred Japanese subjects reported to be detained at Port Arthur. The Japanese minister is expected to present an appeal to Secretary Hay tomorrow. The best naval opinion here is to the effect that the detention of these Japanese at Port Arthur is a preliminary step to prevent the Japanese gaining information as to the fortifications and troops.

FRANCE NOT TAKING SIDES.
Neutrality in Oriental War Is Declared at Paris.

Paris, Feb. 14.—The French government has declared its neutrality in connection with the war between Russia and Japan.

RUMORS OF DISASTER.
Hundreds of Japanese Reported Lost in Sinking of a Transport.

Nakasaki, Feb. 14.—It is rumored that 1,800 Japanese soldiers have been killed, presumably by the sinking of a transport. No confirmation of the report can be obtained.

WARSHIPS ICEBOUND.
Reported Sailing of the Baltic Fleet Stamped as Nonsense.

St. Petersburg, Feb. 14.—The admiralty stamps as nonsense the story that the Baltic fleet has been ordered to start for the Far East, pointing out the ships are laid up at Cronstadt, where they will be icebound all winter.

DISORDERS IN KOREA.
Malcontents Everywhere Said to Be Plundering the Country.

Seoul, Feb. 12.—(Delayed in transmission.)—All mails have been suspended. Korean malcontents are plundering the country widespread.

The Japanese minister has advised the emperor of Korea to arrest Yi Yong Ik, who has been a practical dictator and who was very friendly to Russia until there was danger of Japanese predominance.

BARON DE ROSEN WITHDRAWS.
Czar's Minister to Japan Quits the Mikado's Capital.

Tokio, Feb. 13.—(Delayed in transmission.)—Baron De Rosen, the Russian minister, withdrew from Tokio Thursday night. The streets were filled with mobs from the legation to the Shinjimbashi station, where the minister took the train. The crowds were difficult to handle, but were good-naturedly intent on celebrating the success of the Japanese navy.

JAPAN CONTROLS EASTERN SEAS.
Significance of Blow Struck by Mikado Scarcely Realized by Europe.

London, Feb. 14.—Europe does not yet appreciate the full significance of the momentous events of the last week. It is understood that Japan has won almost by a single blow the virtual command of the sea. It is realized also that this success enormously enhances her chances of being able to inflict a prompt military assault, which further will exalt her prestige.

Japan Teaches All Nations.
All critics agree that Japan has taught the nations the only effective method of waging war—namely, initial velocity of action.

The Times frankly admits that Japan has vastly improved upon British practice. It continues: "We have waged many wars and often struck hard and quickly by sea, but seldom or never did the army land ready to second this action at the outbreak of war. Hence all the long, desultory, costly wars of the past."

ENGLAND MASSING TROOPS.
Will Send Seven Regiments to Canada to Be Nearer the Far East.

Halifax, N. S., Feb. 14.—The British government is making inquiries concerning the possibility of quartering in Canada seven regiments of troops, in addition to those already here, during the war in the East. It is proposed to send two regiments to this city, two to Esquimaux, B. C., and one each to Quebec, Montreal and Toronto.

TAKE CARGOES AT NIGHT.
Ships Loading at New York Seek to Conceal What Is Taken Aboard.

New York, Feb. 14.—There is a general air of mystery around the docks where vessels are being loaded with merchandise bound for ports in the Far East. The regular shipments to Japan and other Eastern ports show a big increase since actual hostilities have begun. This is particularly so on all the steamship lines to Japan from this port.

Russia May S seize Yekiu.
Already there is talk that Japan will follow up its present advantage at such a terrific pace that Russia will seize upon the outbreak of hostilities in the Balkans and attempt to force domestic uprisings as an excuse to make early peace with the intention to renew the struggle when really prepared, which at present she certainly is not.

Political circles scout this idea, saying it would involve the confession that Russia is only a third-rate power, whose very strength is scarcely a greater element of bulk than that of China. Diplomats argue Russia must retrieve her reputation as a fighting force at any expense of men and treasure.

Cherry Pectoral
for the children. One dose at bedtime quiets their night coughs and prevents croup. Ask your doctor.

whole purpose of the Russian war party, who deceived and forced the czar into hostilities. It was, still, their purpose to conduct the campaign with the sole object of gaining Peking before the finish. Their policy will be during the winter to incite China to some action which they can construe into a violation of neutrality. They then will march on Peking and depend on Germany and France to co-operate against any diplomatic effort to displace them. This secret purpose is so well understood in diplomatic circles that Hay's note is warmly welcomed by all except pro-British circles. It is recognized as the most effective possible method of settling the Russian situation, and one which Russia herself has the greatest difficulty in finding plausible grounds for opposing. Korea and Manchuria the Prizes.

The impression prevails, however, that it will be impossible to prevent both Korea and Manchuria becoming virtual prizes of the victor. Prompt and clear action by the powers at the present moment should, however, suffice to prevent any further dismemberment of China. This, of course, is based on the assumption the war is confined to the present belligerents.

CHINA PLEDGES NEUTRALITY.
Viceroy Enjoined to Protect Foreign Lives and Property.

Washington, Feb. 14.—China has proclaimed neutrality between Russia and Japan. The Chinese minister here, called at the state department yesterday and formally notified Secretary Hay that the emperor of China had issued a proclamation of neutrality.

JAPS LEARN IN AMERICA.
Victor Over Russians Is Graduate of United States Naval School.

Washington, Feb. 14.—Rear Admiral Soto Kichi Uru, who commanded the Japanese squadron that won the fight at Chemulpo, the first engagement of the present war, is a graduate of the United States naval academy. His wife is a graduate of Vassar college.

FEAR FLIGHT OF CHINESE COURT.
There is grave danger of the flight from Peking of the Chinese court if it is not speedily convinced that there is no danger of an invasion of China by either the other of the belligerents.

The state department has been warned by a dispatch from Peking that there is no danger to the Chinese court. The result of this flight would certainly be a general upsurge against foreigners that might result in massacres. And the end would be perhaps the disruption of China. In this event it is believed here that the neutral powers would make off with the lion's share, the belligerents being too much occupied to prevent them.

INTERNAL TROUBLES THREATENS CZAR'S EMPIRE—REVOLUTIONARIES ACTIVE.
London, Feb. 14.—That Russia is threatened with a duplication of the French revolution is a growing conviction among those who are familiar with the internal conditions in the czar's empire.

Dispatches from continental capitals call attention to the increasingly dangerous internal conditions. The peasantry is represented as being in a condition of angry discontent fast passing beyond police control.

REVLUTIONARIES ARE AT WORK.
It is stated in Vienna that the revolutionary party in Russia is circulating a secret manifesto against the war, declaring the task of the Russian people does not lie either in Manchuria or Korea, but in Russia, where domestic reforms are pressing.

The manifesto concludes: "Japan is a free nation. Russia's Asiatic despotism and will prove the grave of the czarist system. The czarist system is admitted in St. Petersburg that the financial situation, though improved, is still critical. Some banks are regarded as being in a perilous position. The Imperial Bank of Russia has raised its discount rate 1 per cent.

Berlin Boerse in Bitter Mood.
Following Panic Bankers Accuse Government of Doubt Dealing.

Berlin, Feb. 14.—Charges of double dealing, little short of criminal are brought against the imperial government by German bankers and brokers who yesterday ended the blackest week in the fatherland's financial history.

naturally they both are buying a good deal from this country. "Most of these supplies are shipped clandestinely. It is necessary, under the circumstances, that they should be so shipped. False invoices have always played a part with the merchant marine in time of war, and the war in the Far East is no exception to the rule."

DANISH TROOPS GET ORDERS.
Fear of Russian Attempt to Seize Forts Stirs to Action.

Copenhagen, Denmark, Feb. 14.—The British government has inquired if the Danish government is prepared to defend Denmark's neutrality, especially the important sea routes. Denmark replied in effect: "We will defend ourselves."

The construction placed on this inquiry here is that Great Britain apprehends the danger of a Russian attempt to seize the Danish fortresses in the event of complications between Great Britain and Russia over the Far Eastern question. In consequence of the possibility of such an outcome the Danish government has ordered the army reserves to be ready for mobilization throughout Denmark within twelve hours. All the regimental offices are open day and night.

WAR NEWS IS EXPENSIVE.
Rates and Routes of Press Dispatches from Nagasaki or Chee Foo.

Chicago, Feb. 14.—News from the seat of the Russo-Japanese war is being carried and telegraphed to Chicago at a rate of from 2 1/2 to 5 1/2 cents a word. The former rate obtains from points in China, especially Chee Foo, where much of the direct originates. The higher rates from Japan, before they reach their destination. A cablegram from Japan containing 1,000 words, less than a newspaper column, costs \$505.

The route which such a message would take if sent west from Nagasaki or Chee Foo, indicating the relay points, is as follows:

- | | |
|------------------------------------|--------|
| Shanghai, China, eastern sea cable | 476 |
| Hong Kong, Chinese telegraph | 945 |
| Saigon, Annam, China sea cable | 951 |
| Singapore, Chinese cable | 626 |

RACE ISSUE STIRS MARYLAND.
Legislature Expected to Pass a Law Disfranchising Negroes.

Annapolis, Md., Feb. 14.—It is almost certain that during the present session of its state legislature Maryland will join the states of the South which have practically disfranchised the negro. The members of the present legislature, over three-fifths of whom are Democrats, were elected last fall upon a platform pledged to this course, and there is little doubt that it will be accomplished in some form. The negro population in Maryland is not large, and therefore the movement does not spring from any grave danger to the supremacy of the whites, but rather the abstract question of the fitness of the negro for the exercise of suffrage.

MINE BURNS SEVEN YEARS.
Stubborn Blaze in Colliery About to Be Brought Under Control.

Wilkesbarre, Pa., Feb. 14.—The fire in the famous Jersey mine, the most stubborn in the anthracite region, is now about under control, according to Mine Inspector Davis, who has just finished his report. The fire, which started seven years ago, and ordinary methods were entirely inadequate to cope with it. Bore holes were sunk and floods of water poured in from the surface, but these were not effective. Inspector Davis now reports that the officials have managed to nearly surround the fire with noncombustible material, and when this is completed the fire will be confined to a certain space to eat itself out or will be suffocated.

TOWN HALL DESTROYED.
Meridan, Conn., Feb. 14.—Fire today destroyed the town hall and injured six firemen. The loss is \$130,000.

When you feel like sighing—sighing. Sighing will never pleasure bring. Learn to laugh, and laugh right. By taking Rocky Mountain Tea at night.

ACTOR ROBT. BELL DEAD.
Denver, Feb. 14.—Robert E. Bell, the actor, died today after a lingering illness, of consumption. He was born in Rochelle, Ill.

A strong, healthy, active constitution depends largely on the condition of the liver. The famous Little Pills known as DeWitt's Little Early Risers not only cleanse the system but they strengthen the action of the liver and rebuild the tissues supporting that organ. Little Early Risers are easy to act, they never gripe and yet they are absolutely certain to produce results that are satisfactory in all cases. Sold by Stafford Drug Co. H. N. Meloche, Ishpeming.

A RINGING APPEAL
To awaken your interest in the meats we supply day in and day out, week in, week out, finds sad judgement in this fact: We have well-earned the reputation of providing the highest quality of meat, but we are not doing so well as we should. You will love good thing in the meat line by buying here.

We have also Turkeys Capons, Ducks, Geese and young Chickens.

HANNA'S DOCTORS
ABANDON HOPE

(Continued from Page One.)

was as follows: "Senator Hanna was not so well this afternoon, but has rallied. Pulse, 130; respiration, 40; temperature, 102.5. A statement accompanying the bulletin stated that the rally was due to injections of brandy and water under the skin.

For about an hour and a half following the severe sinking spell, the senator had been conscious but made no attempt to speak during that time. At 3:30 o'clock he dropped into a doze and at times slept peacefully. Later he took a little nourishment. The physicians used oxygen continuously throughout the afternoon.

DOCTORS ASTONISHED.
The rally from the third sinking spell was so unusual that the physicians themselves were astonished. They said they believed it was due largely to the patient's wonderful efforts to aid in his recovery.

It was said that the recurrence of the sinking spells did not imply that these would continue and that there was no reason to look for another drain of a like character on his vitality. At the same time the doctors hardly knew what to expect.

W. J. LEMP A SUICIDE.
Wealthy Brewer of St. Louis Ends His Life by Shooting.

St. Louis, Mo., Feb. 14.—William J. Lemp, president of the Lemp Brewing company, committed suicide yesterday at his residence, 3332 South Thirteenth street, by shooting himself in the right temple with a revolver. He died an hour after firing the shot.

Depression over the death of his favorite son, Fred Lemp, three years ago, and the loss of Frederick Pabst of Milwaukee, a life-long friend, is believed to have been the cause of his suicide.

Mr. Lemp, who was sixty-eight years old and a native of Germany, had lived in St. Louis for forty-eight years. He was reputed to be a millionaire.

Mr. Lemp was alone in his room when the shot was fired. Complaining of not feeling well, he had not arisen as early as the other members of the family. Breakfast had been served and the sons had gone to their duties at the office and Mrs. Lemp had gone up town.

A shot was heard from the apartment of Mr. Lemp's room. The servants who hurried to the apartment found Mr. Lemp lying on the floor, a revolver clutched in his right hand, and a bullet wound in his temple.

One of the servants ran to the brewer's office to get by and summoned the two sons, Edward and William. Several physicians who were soon at the house, said there was no hope of saving his life. He still was breathing when Mrs. Lemp returned home, and died a few minutes later without having regained consciousness.

FIGHT UPON BARCOCK IS HOT.
Governor La Follette Personally Conducting Contest Against Him.

Milwaukee, Wis., Feb. 14.—The hottest convention congressional contest that has ever taken place in Wisconsin is now under full headway in the Third district, at present represented by Joseph Weeks Barcock, chairman of the Republican national congressional committee. Governor La Follette is leading the fight against Barcock with all the forces at his command, and for the first time in the history of Wisconsin a speaking campaign of this kind is being conducted in midwinter. The principal cause of the extraordinary efforts to dislodge Barcock is his refusal to endorse the governor's primary election bill.

TODAY'S WEATHER.
Washington, Feb. 14.—The following is the weather bureau's forecast for Upper Michigan: Fair and continued cold. Monday; Tuesday, partly cloudy, probably snow in west portion.

FEELING IN THE BALKANS.
Turks and Bulgarians Meet in Pitted Battle on the Frontier.

Berlin, Monday, Feb. 15.—The Frankfurter Zeitung's Salonica correspondent telegraphs that 100 Bulgarians have been attacked at Dehumbala by Turkish frontier guards who were reinforced by two companies of infantry. The battle lasted a long time and the Bulgarians fled at night, leaving twelve men dead on the field. The Turkish loss was one killed and two wounded.

FEARED ULTIMAY MAY STRIKE.
London, Feb. 14.—Turkey has prompted Russia's military necessities the occasion for repudiating the only operative part of the Russo-Anatolian reform scheme for Macedonia. The Italian general, Georgis, recently appointed to command the gendarmerie, is practically superseded by the sultan making him only an inspector general under Mustapha Pasha. As commander in chief of all three provinces of Macedonia, Mustapha is ready to assume the aggressive against Bulgaria the moment the annual sorties across the Macedonian frontier commences. Bulgarians not only are eager to fight but say that this is the best year in their memory to free their countrymen across the border.

Since the failure of the rising last spring they have been incessantly collecting war funds and armaments, and the support is now more cordial from disinterested friends, since the situation precludes Russia playing a masterful hand.

REGARDS OUTLOOK SERIOUS.
The organ of the French foreign office today views the outlook as the most serious and says one of the mandates of the powers in adjusting the Balkan situation is incapacitated by having to attend to their own affairs. It is desirable that the collection and together use their own initiative. It is admitted that should Russia call out further reserves Abdul would openly offset all schemes directed toward controlling his European provinces. The Macedonian committee now has ample force. Its representatives in London are buying arms on a large scale and an Austrian firm has just secured a contract to carry 200 truck loads of guns, rifles and cartridges of French manufacture for the Bulgarian government, which has called out the reserves of three classes, giving the reason for violence of the Turkish troops on the frontier.

YOST'S TEAM IN THE COLD.
Michigan Has No Game Scheduled After Chicago Contest Nov. 15.

Ann Arbor, Mich., Feb. 14.—Michigan fears now that Yost's football team will be left out in the cold next fall, without a game after the Chicago contest on Nov. 15. It has developed that both Harvard and Yale refused to play several weeks ago, when Mr. Baird visited the East.

Princeton, it is said, has no game scheduled after Nov. 15 and yet has hesitated so long about taking on Michigan that now there is little hope for a contest between the two. Columbia will not play Michigan unless her schedule happens to come out just right. The whole Eastern project so far has been a poor lottery.

Meanwhile Michigan's old friends in the West have been making up to each other in a way that shuts out the Wolverines. Chicago and Wisconsin will be met early in the year, and Minnesota and Northwestern have arranged their Thanksgiving games. Out of the big teams in 1904 only Illinois and Iowa are left.

Though Eastern negotiations are not closed, they have dragged far enough to decide some of the Michigan authorities against ever straying so far away from home again. It is quite possible that if Columbia and Princeton refuse Michigan will not play after Nov. 15, even if other Eastern teams offer. There is pride about the university which will prevent any such thing as "second rate" opponents at the close of a season.

FIGHTING IN THE BALKANS.
Turks and Bulgarians Meet in Pitted Battle on the Frontier.

Berlin, Monday, Feb. 15.—The Frankfurter Zeitung's Salonica correspondent telegraphs that 100 Bulgarians have been attacked at Dehumbala by Turkish frontier guards who were reinforced by two companies of infantry. The battle lasted a long time and the Bulgarians fled at night, leaving twelve men dead on the field. The Turkish loss was one killed and two wounded.

WANTED—A girl for general housework. 1023 North Front street.

THE BEST hemlock slabs you ever used—four foot—are for sale by Wetmore Mercantile Co.

FOR RENT—An eight-room, modern house, 622 High street. Enquire at 602 Spruce St.

FOR SALE—A double circular sawmill complete, with building; also several engines. F. W. Read & Co., Marquette.

FOR SALE—Choice building lots in Nestor addition for sale cheap for cash or on time at low rate of interest. For particulars inquire at office of Peter White.

STATE OF MICHIGAN, County of Marquette—ss. Probate court for said county. At a session of the probate court of said county, held at the probate office, in said county, on Saturday, the thirtieth day of January, in the year of our Lord one thousand nine hundred and four. Present, Charles Kelsey, judge of probate.

In the matter of the estate of Henry D. Lyons, deceased. J. N. Williams, administrator, c. t. a. of the estate of Jeannette H. Lyons, executrix of said estate, now deceased, comes into court and represents that he is now prepared to render her final account as such executrix.

Thereupon it is ordered, that Tuesday, the twenty-third day of February next, at 10 o'clock in the forenoon, be assigned for the examining and allowing such account and that the next of kin and heirs-at-law of said deceased and all other persons interested in said estate are required to appear at a session of said court, then to be held at the probate office in the city of Marquette, in said county, and show cause, if any there be, why the said account should not be allowed.

And it is further ordered, that said J. N. Williams, administrator c. t. a., give notice to the persons interested in said estate, of the pendency of said account, and the hearing thereof, by causing a copy of this order to be published in the Daily Mining Journal, a newspaper printed and published in said county, three successive weeks previous to said day of hearing.

A true copy. CHARLES KELSEY, Judge of Probate.

R. PETERS, (Successor to Sidney Adams), Insurance and Collections. I Represent 15 Solid Companies.

PALACE LIVERY STABLE, FAY & BEICKER, Props. FIRST-CLASS LIVERY SERVICE AT ALL HOURS. FIRST-CLASS BOARDING STABLE. Teams of All Kinds.

"POLLY PRIMROSE"

Elks Benefit Largely Attended Saturday Evening.

Miss Adelaide Thurston was warmly received in "Polly Primrose" at the opera house Saturday evening, the engagement being the annual Elks' charity benefit. The house was large, and was quickly appreciative of all the good things in the offering.

The engagement marked Miss Thurston's first appearance in Marquette. She has been making a good deal of a name for herself the past few seasons in the south and northwest, but has never heretofore played the upper peninsula circuit. Her performance here Saturday evening showed Marquette people that she is possessed of not inconsiderable talents.

"Polly Primrose" is a pretty play, adequately mounted. There is nothing important or heavy about it, it being but the simple telling of a simple story. It is said to be the best vehicle with which Miss Thurston has yet been provided, but even it is not entirely worthy of her powers. It contains such a deal of dialogue and talk unadorned by sufficient action that it times it moves but indifferently well.

However, with all this activity or in spite of it, Miss Thurston by the end of the first act has made a considerable impression on her audience, and Saturday evening at that stage of the play she received a very cordial curtain call.

Miss Thurston is the leading spirit of the play. As a Georgetown belle just home from boarding school and in love with a Yankee captain, a guest for the time being in her father's house, she furnishes both its motive and its life, and she makes an admirable Polly, convincing and vivacious, maybe a little too vivacious. In her company are a number of clever people, foremost among them James R. McCann, who takes the part of Polly's father. His characterization is very finished and acceptable piece of work, and adds a great deal to the performance. Lizzie Kendall as Mrs. Kendall plays opposite him in an adequate manner, and Brinsley Shaw makes a sufficiently good Captain Carlisle. Minor parts are taken in a satisfactory manner, although Frederick Kirby, as Oliver Chase, hardly measures up to the rest of the company.

The play is very well mounted, with scenery of the period, and the costumes are correct. There were certain calls after all but the last act, and the general attitude of the audience toward the play was one of undoubted approval.

MARKET AT STANDSTILL.

Traders in Boston Seem to be Waiting for Developments. Paine, Webber & Co. wired concerning the Boston market: "The bank statement figures were very small today, and it was unimportant, except that it showed a loss of a little more than a million in reserves. It made almost no impression on the market. The traders are undecided and waiting. Meantime the market shows a slight tendency to work higher. The copper market is considerably stronger."

Hayden, Stone & Co. wired W. H. Laidley & Co.: "The market was dull, with no feature. It was fractionally higher. The market is so dull there is nothing to say. We expect the market to continue dull, with a sagging tendency." Saturday's New York Market. The Hadden-Rodee New York letter was as follows: "The short Saturday session was one of no particular interest. The leading traders were inclined to play the long side for a time and during the first hour they bid prices up against the short interest with some success. With something likely to happen in the foreign war over Sunday of an evil nature, the bank statement was a negative exhibit. On the whole, perhaps, it was less favorable than expected. It showed a loss of \$1,463,300 in cash; the nominal increase of \$719,000 in loans and a decrease of \$799,000 in deposits. This decrease in deposits reduced reserve requirements by \$199,750, which, with the loss of cash, or actual reserve, gives a decrease of \$1,463,550 in the surplus reserve. It remains a very professional market. We think it is oversold and are looking for a recovery next week."

NO CHANGES OF IMPORTANCE.

Bowling Teams Have About the Same Standing as Last Week.

Last week's bowling in the city league produced no particular changes in the standing of the several teams, being unattended by unusual or unexpected developments. The Wolverines are still in first place with a comfortable margin, and it begins to look as if they might stay there, the second third of the league play being about finished. The feature of the week, insofar as the week may be said to have had a feature, was the continued success of the Indians, who fattened their average considerably, and who are rapidly getting within striking distance of first division, where they will soon land if their present winning streak continues. The team standings are now as follows:

Table with columns: P, W, L, P.C. Rows include Wolverines, King, Eagles, Superior, Standard, Indians, Inquisitor, Shamrocks, Individual averages, G.P., Average.

HOCKEY RATES.

South Shore Offers Them for This Week's Games. The South Shore passenger department announces special rates for the hockey games to be played at the Amphidrome, Houghton, Tuesday and Wednesday evenings between the Portage Lake and Soo teams. For all points in Marquette county, and Sidaus and Kenton, the round trip fare will be \$2.50, and agents from Marquette to Michigan inclusive have been authorized to sell tickets for both the morning and afternoon trains of the 10th and 17th, making them valid for return until the train leaving Houghton at 11 a. m. on the 18th. At Sidaus and Kenton tickets will be sold for Trains 6 and 1, good for return until the train leaving Houghton at 9:40 a. m. on the 18th. The game between the Portage Lake and Soo organizations promise to be the best of the year, as their rivalry is intense, and the Lock City seven has been strengthened particularly with a view to humbling Portage Lake. It is expected that a good sized Marquette county delegation will take in the contests.

FIRST USED IN CIVIL WAR. Hypodermic Syringe Owed Its Existence to the Exigencies of Battle. "The subject of the first use of the hypodermic syringe was discussed at the last meeting of the army surgeons in New Orleans last spring," said Dr. R. D. Jackson, "and one surgeon stated that the first time it was used, he thought, was in the army of the Tennessee. While in the Tennessee army I wrote to a friend in Augusta, J. P. K. Walker, to try to get me a hypodermic syringe and send it to me. I never had seen one, but thought from what I had heard about it that it would be very useful in relieving the wounded soldiers of pain."

"My friend was fortunate enough to secure one from a physician and sent it to me while I was on duty at the hospital at Ringgold, Ga. I exhibited it to my friends—the surgeons there, eighteen in number—none of them had ever seen one before. At that time I was treating a very severe case of dysentery, the patient being a chaplain from Texas and one of General Bragg's most reliable scouts. One of the surgeons suggested that we try the hypodermic syringe on the patient, which was done by inserting a quarter of a grain of morphine in the back. It is possible that the army surgeon at the New Orleans convention who referred to the first use of the syringe in the Tennessee army was one of the eighteen I have referred to."

Removes the microbes which impoverish the blood and circulation. Stops all trouble that interferes with nutrition. That's what Hollister's Rocky Mountain Tea will do. 35 cents. Tea or tablet form. The Stafford Drug Co.

Good dry hardwood, block or split. Dry pine stabs; dry hemlock or cedar. Lightly required. F. W. Read & Co., Marquette. (12-19-04) Ask your grocer today for a sack of Gold Medal Flour. LIGHT THE GAS HEATER when you awake in the morning. Go back and in five minutes get up and dress in comfort. The Marquette Gas Light Co. The popular Flour—Washburn-Crosby's Gold Medal. Ask your grocer for it. Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. Desjardins' Pharmacy. It's a mistake to imagine that itching piles can't be cured; a mistake to suffer a day longer than you can help. Doan's Ointment brings instant relief and permanent cure. At any drug store, 50 cents. HOMESEEKERS' EXCURSIONS Chicago, Milwaukee & St. Paul Railway at Very Low Rates. On the first and third Tuesday of each month, December to April, 1904, inclusive, round trip tickets good for twenty-one days to points West and Southwest for about one fare. For full particulars regarding rates, territory, etc., inquire H. E. STEWART, C. A., Phone 339, Houghton, Mich.

The Marquette National Bank. CAPITAL, \$100,000. SURPLUS, 10,000. F. J. JENNISON, Cashier. H. C. DAVIS, Assistant Cashier. ...DIRECTORS... JOHN M. LONGYEAR, WILLIAM G. MATHER, WALTER FITCH, F. W. READ, E. H. TOWAR, DAN H. BALL, F. H. BEGOLE, D. W. POWELL, F. J. JENNISON. 3% Interest allowed on Savings deposits at three per cent. per annum compounding semi-annually. Letters of credit and foreign exchange issued available in all parts of the world. 3% INSURANCE DEPARTMENT. 25 Strong Board Fire Insurance companies represented. Employers and Physicians' liability policies a specialty. Boiler, Plate Glass and Accident Insurance. Let us quote you our rates.

BUTTERINSKI. The man who's prompt to give advice. When anything goes wrong. May have some friends to start with, but He will not keep them long. For people who are in a mess (Of course, excepting you!) Get wrathly when outsiders come And tell them what to do. The man who's ready with advice And his opinion airs. When things go wrong, would be more wise. To mind his own affairs. When he puts in his oar. And so his victims let him live. But oh, he is a bore!—Somerville Journal. NOTHING EQUALS CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY. Dr. P. B. Spear, of Pinchard, Ala., has become acquainted with the good qualities of Chamberlain's Colic, Cholera and Diarrhoea Remedy and uses it in his own family and in his practice. He says: "It beats any preparation I have ever seen for all bowel complaints. I do not think of recommending any other, and also use it with my own children." This remedy is for sale by Stafford Drug Co., J. M. Perkins, Newagen, Henry Harwood, Ishpeming.

"Will Astonish You." If you have no Savings Account let us fit you out. Even though you begin in a small way, so that you add to the Account regularly the result will astonish you. GATELY'S

Steel Ranges.

CASH OR CREDIT.

Don't you think food cooked on a nice Steel Range tastes better? That old, cracked cook stove may burn your house down some day or night, then you'll be sorry you didn't go to Gately's and get one of the styles they show, and which they are willing to place in your kitchen for a small down payment, the balance to be paid monthly. Some may charge more, but none sells a better range than we. Better ones are not made. You are invited to call and interview us on the range question.

Sometimes a Good Brandy is Wanted.

Care should be taken where and what brand is purchased. A stock that carries such brands as Brandenburg Freres, Hennessy, Pellission Pere & Co., Merman's in bottles and Imported French Cognacs in bulk, besides such an American brandy as Stearn's, is a pretty safe one to buy from.

301 S. FRONT ST. MARQUETTE, MICH. THE F. BENDING CO., WHOLESALE.

Ishpeming Department

BOARD WANTS VAULT.

Council Will Be Asked to Provide Room for the School Records.

The members of the Ishpeming board of education feel that a vault of sufficient capacity to hold the books and papers pertaining to the school system should be provided. They will ask for a meeting room and vault in the city building. The sessions are at present usually held in the council chamber.

It is thought that when the city building is remodeled there will be ample space for quarters and a vault for the trustees, although it has not yet been definitely determined just what work will be done. As soon as the library is moved to the new building the council will be able to decide on the alterations.

The interior is in bad repair. Many of the doors do not fit well, and much of the plaster is cracked and broken. The structure was considerably damaged when the new foundation was being put in.

In case the council does not comply with the wishes of the board a vault will be provided in the basement of one of the school buildings.

TRAINMEN'S BALL TONIGHT.

Banner Attendance of the Season Is Expected at the Annual Dance.

Members of Hematite lodge of the Brotherhood of Railway Trainmen have made extensive preparations for the entertainment of those who attend their annual ball at Braastad's Hall tonight. A large number of tickets have been sold in the three cities of the county and Munising. A special train will be run over the Lake Superior & Ishpeming line from Marquette and the Marquette & Southeastern from Munising. All ticket holders will be given free transportation good for lady and gentleman on the special train. As a result it is expected that the outside towns will be largely represented. The attendance of Ishpeming people will also be large.

The Lady Macabees will serve supper in the dining room adjoining the assembly hall. The price per plate will be thirty-five cents. The Ishpeming City Band orchestra will furnish the music. Special street cars will be at the service of Neegaunee people. Dancing will start promptly at 9 o'clock.

FIRE SALE STARTED.

It will be seen by August Hendrickson's advertisement in this issue that his fire sale is now on. He intends to clean out his entire stock of groceries, dry goods, shoes, notions, etc., selling both damaged and undamaged goods at a great sacrifice.

He did not intend to begin the sale until today, but so many people applied for admission Saturday that the doors were opened after the dinner hour. From that time until after 10 o'clock p. m. the place was crowded.

Mr. Hendrickson is anxious to make his sale as brief as possible, in order to begin his regular business again, and for this reason is making prices that will move the goods quickly. The interior of the lower story has been repaired, but there is considerable work to be done up stairs. The carpenter work will not be resumed until the sale is concluded.

OLD RESIDENT DIES.

Mrs. Anderson, wife of Oscar Anderson, North Euclid street, died yesterday morning at 7 o'clock. Stomach trouble caused death. She had been ailing about a year, and was confined to her bed for a month past.

The deceased was an old resident of Ishpeming, having been here over thirty years. She is survived by her husband and seven children, the youngest child being fourteen years of age. Mrs. Anderson was married at Humboldt thirty-six years ago, and was fifty-four years of age. Relatives from Minnesota are expected to attend the funeral, which will likely be held Wednesday afternoon, though the exact time has not yet been set. Services will be conducted at the Swedish Methodist church.

SUPPER AT 9 TONIGHT.

Members of the Ishpeming Snowshoe club will not have their supper at the clubhouse this evening until 9 o'clock, after the tramp. It is expected that a large party of members will be on hand for the outing. Girz's orchestra will furnish music during the evening.

A GUARANTEED CURE FOR PILES.

Medical. Blind, Bleeding, Protruding Piles. Your druggist will refund money if PAZO OINTMENT fails to cure you, in 14 days. See.

NOTICE.

Water rates on all metered service for the three months ending Dec. 31, 1903, are due and payable. If not paid on or before Feb. 15, water will be shut off and the penalty of \$2 will be charged for again turning it on.

W. H. DEVINE, Superintendent.

SUPPLEMENTARY REPORT.

Building Inspectors Make Statement of Condition of the Churches.

At the special meeting of the city council Friday evening the following supplementary report from the board of fire inspectors, was accepted:

Ishpeming, Mich., Feb. 9, 1904.

To the Mayor and Common Council of the City of Ishpeming:

Gentlemen:—Your board of fire inspectors would make report on their visit to the different churches of the city, with recommendations, as follows:

St. Joseph's Catholic church—Second staircase to gallery, and all exit doors to be made to open outward.

St. John's Catholic church—Straight stair to gallery from main entrance, in place of winding stair now in from church. All exit doors to be made to open outward.

First Methodist church—Considered safe.

Swedish Lutheran church—A second stair to gallery; an outside door in rear end of building. All exit doors to open outward.

Young People's society hall—To have second staircase or safe fire escape from second floor to open outward.

Finnish church, East Cleveland avenue—An exit door in rear wall. All exit doors to be made to open outward.

Salvation Army hall—All exit doors to be made to open outward.

Swedish Methodist church—All exit doors to be made to open outward.

Swedish Mission church—All exit doors to be made to open outward.

Finnish Lutheran church—A second stair from main floor, either by door direct to outside, or by stairs to basement. All exit doors to be made to open outward.

Norwegian Lutheran church—On account of the narrow stair to gallery would limit the use of this gallery to choir only. All doors to be made to open outward.

Calvary Baptist church—A second stair from main floor through a door in the rear end of building. All exit doors to be made to open outward.

Presbyterian church—All exit doors to be made to open outward.

Grace Episcopal church—All exit doors to be made to open outward.

Your board has been unable to visit the Salisbury Methodist church and was unable to get into the Finnish church on Division street and the Swedish Baptist church. We would recommend that the board be notified to obtain the certificate of this board.

JOHN S. MENNIE, Chairman,
R. E. SMITH,
J. SIMON WAHLMAN.

Board Inspecting Escapes.

The council decided to send the members of the board and the chief of the fire department to Chicago and Milwaukee to inspect the different styles of fire escapes, with a view to ascertaining which would be best suited for the local buildings. The board departed last night for Chicago. They will spend a couple of days there, then returning by way of Milwaukee.

The council Friday night decided that all changes must be completed within sixty days, instead of ninety, the limit first set. It was on this account that the members of the board and fire chief were asked to make an early inspection of the escapes used in Chicago and Milwaukee. It is assumed that the board will submit its recommendations before the end of this week.

IN BUSINESS AT HUMBOLDT.

Louis Tourville and his son Edward recently opened a grocery store at Humboldt, occupying the building vacated a short time ago by the Humboldt Store company. They are conducting a cash business. The Tourvilles are Champion men and much of their trade comes from that place, though they also supply nearly everyone in Humboldt. Mr. Tourville has had many years' experience in the grocery business. Away back in the seventies he was connected with an Ishpeming mercantile establishment, and for some time past he has held a position with Jake Levine at Champion.

WILL TAKE IN TOURNAMENT.

A number of copper country skiers will witness the tournament to be given here a week from today under direction of the Ishpeming Ski club. A club is soon to be organized at Hancock. There are many young men taking to the sport in the copper region, and it is expected that in the near future riders of Ishpeming will in the near future find their lively opponents. Nearly all the local men who will enter the contest next Monday were out of practice yesterday. The hill was in fine condition and some long jumps were made.

Winter coughs are apt to result in consumption if neglected. They are soon broken up by using Poley's Honey and Tar. Desjardins' Pharmacy.

ISHPEMING IN BRIEF.

Mrs. H. S. Thompson entertained lady friends Saturday afternoon.

Mrs. G. R. Jackson of Swanzev was a visitor at her parents' home here last week.

Special services will be conducted during the Lenten season at the Catholic and Episcopal churches.

Erick Hult, who has been with T. H. Dawson for a number of years, has taken charge of the china and crockery department of P. Braastad & Co.

E. J. Sweeney, superintendent of the Michiganamie school, visited Ishpeming friends Saturday. He came down the evening before to attend the Inter-Urban club's party at the Anderson Hall.

Taxpayers who have not yet settled their taxes for the past year and intend doing so before the roll is sent to the county treasurer's office at Marquette, will do well to call within the next day or two.

The dancing party conducted Friday night by the Inter-Urban club was one of the prettiest functions given here in years. A number of outside people were present; the music was all that could be desired; the decorations were beautiful; the luncheon delightful, and nothing but words of praise were heard for the committee in charge.

Superintendent P. H. Devine of the public works gives an important notice to delinquent water takers in this issue. All meter customers who have not paid their taxes for the last quarter of 1903 must do so today, otherwise the water supply will be discontinued. A fee of \$2 will be charged in all cases for again turning on the water.

Upper Peninsula

Adds to His Livestock.

L. Van Winkle of Van's Harbor, Delta county, has this winter added several head of high bred cattle, including a herd of Jerseys, to his livestock. Along with the herd he purchased a costly bull which is one of the best in the upper peninsula. Mr. Van Winkle has one of the finest stock farms in the northwest, and is constantly adding to it.

Cold Weather Closes Mill.

The Brittingham & Hixon company's shingle mill at Perkins, Delta county, has been closed on account of the severe cold. The company had been cutting from timber taken directly from the mill. For several weeks the timber has been little more than chunks of ice, and could not be manufactured in a way that was altogether suitable. The crew was paid off and dismissed, and the mill closed for the remainder of the winter. Operations will start up again when the ice breaks up in the spring.

Building & Loan to Quit.

The Menominee Building & Loan association will close out its business after March 8, paying off all investors in full and transferring the mortgages and loans now held. For the past five years the business has depreciated to such an extent that the directors have finally decided to close it up. The Menominee Building & Loan association was organized in 1877 with such men as John Hemes, S. M. Stephenson, and others equally prominent in the management. During its life the association has assisted investors in building several hundred homes and has done a business amounting to half a million dollars.

Tramps Find Haven.

Menominee officers report that the county jail contains over forty prisoners, most of them tramps who have committed some misdemeanor solely for the purpose of being incarcerated that they might be provided with shelter and food. It is said that there have been as high as sixty tramps sheltered at the jail in one night during the past month. Sheriff Stiles says that the tramps are brought there by the officers and there is nothing for him to do but provide shelter. The reports show that one day this month there were sixteen tramps arrested. They evidently see one sign near Ogden avenue. "Menominee is a Good Town," and get off the train there, for it is certain Menominee seems to be a sort of rendezvous for them.

Tackled a Sampson.

The Crystal Falls police force found itself in an embarrassing position the other evening. There was a row among a number of men, the lower end of the town, and Policemen Manning and Ashelman butted in in the interests of peace and dignity. Among the combatants was a big, burly Finn, a man of magnificent physique and with the strength of a Sampson. Manning wouldn't hesitate if it was a sea lion that he had to tackle and he immediately buckled into the Finn who refused to behave. Mr. Finn, however, quietly reached out and taking the policeman by the collar, lifted him out at arm's length and held him there, saying "Oh, no, you don't." Ashelman came to the assistance of his comrade when the Finn's other hand caught him by the coat collar and, with the same exclamation, he assailed "Lewie" on the other side. There they were and there they stayed for some time, until Manning got a chance to twist around and bring his club into action, when the siege was lifted and the police force marched up.

his attorney, in 1894 commenced suit in the circuit court for Lincoln county, Wis., to recover damages for the injury received, but the superintendent who had employed him having died, it became impossible for Nyback to prove his employment under the state laws of Wisconsin. The case was discontinued, and in 1896 the present suit was started in the United States courts in which such rule of law does not prevail. The case was first tried in September, 1898, at La Crosse, at which trial the jury disagreed. The second trial was had in June, 1897, at Eau Claire, and the court, Judge Bunn of Madison presiding, directed a verdict in favor of the defendant company. Nyback appealed, and the direction was reversed by the circuit court of appeals, and the case remanded for a new trial. The case was again tried in September, 1901, at La Crosse, and, under instructions of Judge Bunn, the jury returned a verdict against the plaintiff. Nyback again appealed, and the circuit court of appeals, holding the proceedings void, again ordered a new trial. The last trial was had at Madison, in February, 1903, and under the instructions of Judge Seaman of Milwaukee, who was requested to preside at the fourth trial of the case, the jury returned a verdict for the plaintiff for \$2,000 damages. The company being defeated on its motion for a new trial, in August, 1903, the case was then removed a third time to the court of appeals, where the same was argued on the 19th and 20th of January last, resulting in the judgment being affirmed with costs of all courts in favor of Nyback. The costs of the several trials and appeals run up to over \$6,000.

Dr. Weaver's Syrup Purifies the blood; Cures (ointment for the skin.

There is one rational way to treat nasal catarrh; the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tired of vain experiments should use Cream Balm. Druggists sell for 50 cents. Ely Brothers, 56 Warren street, New York, will mail it.

SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep when in a low state of health, or sick and worn out with work or worry.

S. S. S. improves the appetite, aids the digestion and reinforces the digestive system, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, nausea, shortness of breath, drowsiness and dizziness that so often come after eating.

S. S. S. is not only the best tonic but possesses alterative or purifying properties, and if there is any taint, humor or poison in the blood it searches it out, and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by a blood purifier and tonic combined, or such a remedy as S. S. S.

If you suffer from debility, insomnia, nervousness, loss of appetite, bad digestion, or any of the symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system as S. S. S.

Iron Notes

"It is so still one might hear a pin drop out at our diggings now," replied Supt. E. F. Bradt, when asked by the Mesaba Ore what was being done at the Leonard property, near Hibbing, Mesaba range. "Since the Drake & Stratton company ceased the stripping work in December there has been nothing done here. A crew of men is employed in the woods getting out mine timber for future use, but in the mining way nothing is being done. The mine is being developed as an open pit and the contracting company will not resume work until after the spring break up. The property joins the Clark mine at the east and the lease is owned by M. A. Hanna & company, of Cleveland. A large body of ore has been shown up."

Copper Country

(Additional.) WILL STICK TO THE 500.

The newspapers of the other end of the peninsula still claim, comments the Soo News, that Arthur Lizette, the clever catcher who has won the approval of the local baseball fans in the games he has played here, will have to play with the Dollar Bay this year because he has signed with that organization. Lizette tells the News, however, that he did not sign a contract to play with that team and will not appear with the Dollar Bay bunch this year. He believes that the coming season will be the most successful from a base ball standpoint that the Soo has ever seen and is confident that the team that is to be put into the field will be able to make a good record.

DUNCAN CLARK A HUSTLER.

Saturday Post Says Former Negaunee Lad is a "Money King" Among Boys.

Duncan Clark, the ten-year-old son of John D. Clark, for many years a resident of Negaunee, has been selected champion hustler of Michigan by the management of the Saturday Evening Post. In a full-page advertisement published in the last issue of McClure's Magazine the lad is mentioned as a "Money King" among boys. His picture appears in the center of the page and the following brief account of his work is given: "He is a 'Captain of Industry'—a little 'Money King' among his playmates. In controlling trade he is as shrewd as the money kings of the 'Catskills' and his profits are in proportion. Over \$50 in prize money alone from the Saturday Evening Post within three months is his record. "He began by making a clean sweep of his block, getting everybody to stand on one directing him to deliver for four successive weeks. Street by street he canvassed his part of town with such success that all his boy friends were excited about it, and were fighting for him to be agent. But Master Duncan had thought this problem all out for himself long before. He figured that we would not be apt to take chances on new boys to compete against him, if he could sell at the rate of fifty copies a week. So he wrote us a letter, requesting control of the whole town—know he 'could sell unassisted all the copies the people would buy'—wanted to refuse all other boys; said he could 'beat all of them put together, anyway' and wound up by inclosing a cash deposit to pay in advance for fifty copies a week for several months, just to show that he 'meant business.' "We complied with his request to refuse to sell to the other boys, and since then he has sold an average of 100 copies a week for almost a year. His town, lying in the copper country of the upper peninsula of Michigan, has been built four years and has just 750 inhabitants, and he is ten years old."

BRIGHT BOY DEAD.

Albert, the bright little son of John Shea, who had been ailing for two months or more, died at his home about 10 o'clock. Although the lad had been sick for a few days he died rather suddenly. Heart trouble, brought on by whooping cough, caused his demise. About three weeks ago Mr. Shea took Albert to Green Bay where he was examined by Dr. Mincham, who gave but little hope for his recovery. Albert was within two months of eight years of age, and was the second boy of the family. The funeral will be held Tuesday at 2 o'clock from St. Paul's church.

WILL ATTEND THE BALL.

A large number of Negaunee people will attend the ball to be given tonight at Braastad's hall, Ishpeming, by the Hatfield lodge of the Brotherhood of Trainmen. The local members of the order have sold tickets here. The ball will be the last in either city before Lent, which begins Wednesday. In view of this fact, the attendance is expected to be unusually large. Delegation will be present from Marquette, Munising and other points.

AT CALUMET & ARIZONA.

Arthur Houle, a Negaunee boy who is making good progress toward the top of the ladder in his profession, recently resigned the superintendency of the Old Dominion mine smelter to accept a place at the Calumet & Arizona mine under Superintendent S. A. Palma, formerly of the Old Dominion. Mr. Houle is a son of Mayor Cyril Houle of Negaunee.

LOCAL LAOCONICS.

Mrs. F. M. Beney has been a visitor with her sister, Mrs. Leslie M. French, at Escanaba, the past few days.

Mrs. A. M. Croll of Norway has been a visitor at the home of her parents, Mr. and Mrs. Charles Muck, the past few days.

Frank Anderson, Maurice Wolmer and H. P. Johnson will return home today from a few days' outing at Mr. Johnson's homestead near Cascade.

The employees of the Negaunee and Maas mines will be paid Wednesday for last month's work. The men at the Hartford will get their money next Saturday.

Patrick Delaughney, whose health has not been the best for some time past, is now confined to a hospital at Bisbee, Ariz. He went to the southwest some time ago.

The wife of William Mudge, who left here last summer for Hibbing, Minn., died here a few days ago. The deceased was well known and had many friends here.

T. D. Hall, of the Upper Peninsula Insurance Inspection bureau, has opened a branch office at Houghton. Harry Trembath will be in charge. His family will join him as soon as he can secure a desirable home.

Ben E. LaLonde writes friends that he still enjoys an occasional hunt. He is located at Hibbing, Minn., where he is assistant superintendent of the Buffalo & Susquehanna Iron company's properties. He has been there nearly a year.

In a private letter received at Houghton a few days ago, Captain S. H. Webb, formerly of Negaunee, now a resident of Tacoma, Wash., stated that in company with other parties he is engaged

The Tesora Mining company has obtained an interest in the iron property near Biwabik, Mesaba range, owned by Daniels and Spelman, and which is under lease to A. B. Coates and others of Virginia and Duluth. The mining company, which is controlled by Captain M. L. Bay, has acquired the interest of W. J. Moore, of Virginia. The Century Commercial company last fall obtained a lease of the property, and it was later transferred to Mr. Coates and associates. The property is described as lot 12, section 36, 58-15. It has been thoroughly explored, and contains at least 1,000,000 tons of very high grade ore and very desirable as to structure. Another find of the same kind of ore in the same district was recently announced. The Tesora company also has an option on the old Taylor mine in Baraga county.

The Florence mine, at Florence, Wis., which recently suspended operations upon accident and in an interesting manner early in the '70s by H. D. Fisher, at that time a resident of Mesaba, Wis., and for many years the leading citizen with non-partisan spirit, has been revived. Fisher has been the owner of the land and in the aggregate has received a large sum as royalty on the ore produced by the various operating companies. Fisher set out for the north country in 1871. From Powers, on the Chicago & North-western line, the nearest railroad station, he traveled a hundred miles on foot through a wilderness sparsely peopled by Indians and by lumbermen, who were just then beginning to invade the region in earnest. A number of finds of iron ore had been made in the easterly end of the Menominee range, and it seemed to Fisher that the mineral-bearing formation, apparently ending near the present site of the city of Iron Mountain, must jump across the Menominee river and extend into and find lodgment in Wisconsin. The great rush in those days was for pine. The possibility of iron did not appear attractive, despite that woodmen complained of the difficulty in following section lines because of the magnetic influence on the compass. However, Fisher prospected for over two years without results. Finally, late one afternoon, the party stumbled over an old Indian camp site. It was supposed there was one in the vicinity, nor did the party intend to stay there, but the place was such an ideal camping spot that it was concluded to pitch the tents and remain there overnight at least. Fisher went up the incline a little farther and sat down to smoke and rest. He had an explorer's pickaxe, which he stuck into a small hillock at his feet. His smoke over, Fisher arose and picked up his pick, noticing to his surprise, as he did so, that the point was covered with some reddish matter. A hasty examination showed that it resembled a soft hematite ore, and this it proved to be, a little vigorous digging being sufficient to uncover the mineral-bearing ledge. The land was government land that had not been taken up, and Fisher set out the same night for Mesaba to file upon it. He returned to his section and on these the Florence mine has been developed. To date the property has shipped a million and a half tons of high grade non-Bessemer ore and probably still contains treble that amount.

The circuit court is still engaged with civil cases. Its attention this morning will be devoted to applications for full naturalization and this afternoon the trial of litigation will be resumed. The jury was excused Saturday until this morning. The case on call today is that of the R. G. Uhlman Fur company versus Lena Horwitz of Calumet, asumpsit—appeal.

CIRCUIT COURT MATTERS.

The case of Frank Skobis and Joseph Skobis, plaintiffs and appellants, versus William Kerredge of Hancock, defendants, and appeal, was on trial Saturday. A verdict was returned for Kerredge. The plaintiffs had some corrugated iron and beams for use in the construction of the sidewalk in front of St. Patrick's Hall on Quincy street. Mr. Kerredge considered the iron extravagant and refused to pay only what he upheld just. The firm subsequently brought suit.

PROMENADE CONCERT.

The Calumet & Hecla band will give their first promenade concert in the new Army and Navy section of the city at 10 o'clock tonight. The concert numbers will be rendered during the early part of the evening. It is believed this arrangement will prove more satisfactory than the previous method of conducting the concert and dance numbers alternately. It will enable those who desire to hear the concert selections to depart for home earlier than heretofore and the dancers will be enabled to continue "tripping the light fantastic" until midnight. The popular program has been arranged by Director Quivron.

TEN-ROUND GO TONIGHT.

"Jimmy" Duggan and "Teddy" Ryan, the former of Houghton, the latter of Milwaukee, will box ten rounds to a decision tonight. The exact place of the meet will not be selected until today. A purse of \$200 has been put up by a few interested parties and the winner will take the money.

CHAMBERLAIN'S STOMACH AND LIVER TABLETS, UNEQUALLED FOR CONSTIPATION.

Mr. A. R. Kane, a prominent dr

HUNTLEY REPORTED AT HIS OLD TRICKS

FORMER DESPERATE PRISONER SAID TO HAVE VIOLATED CONDITIONS OF HIS PAROLE.

IS DYING OF CONSUMPTION

HIS FIRST FRIEND, JUDD YELLAND, IS NOW INVESTIGATING.

If Rumors Regarding His Misbehavior Are True He Will Be Brought Back—Is the Man Who Assaulted Mosher.

Edward Huntley, one of the worst men ever sentenced to the Marquette branch of state prison, who was released the latter part of last year on account of the precarious condition of his health, is reported to have strayed from the trodden path again, and Judd Yelland of Escanaba, his first friend in the matter of the parole, has taken a flying trip to lower Michigan to investigate his case. If his conduct has not been commendable and if he gives promise of continuing in his bad ways his term of parole will be brought to a summary close, and he will be recommitted to prison, this time to die, as he is pretty far gone with consumption. It was the fact that he was a consumptive that had a great deal to do with his release. Otherwise, on account of his formidable record, he could hardly have hoped for or expected a parole.

Mr. Yelland became Huntley's first friend on account of a boyhood acquaintance and friendship for the fellow, and because Huntley gave fervent and repeated assurances of an intention to behave himself until the end of his days, which promises to come quickly enough. Mr. Yelland has no positive information of the nature of Huntley's alleged transgressions. He was simply informed that Huntley was again training with evil associates, and judged it best to investigate without delay, as in the capacity of first friend he is responsible in no small degree for Huntley's behavior.

E. D. Mosher, now circulation manager for the St. Paul Dispatch in this region, and formerly deputy warden at the prison here, knows about as much about Huntley as any man in the upper peninsula, and was the prospective victim of his murderous intentions at the local penitentiary at the time of the outbreak a few years ago. Previous to his experience in handling Huntley here, he also had him in charge at Jackson, where, too, he was regarded as a bad man and was mixed up in more or less trouble. To an Escanaba Mirror man Mr. Mosher talked interesting of Huntley's career, saying that he was without exception the worst criminal who ever was imprisoned in the state of Michigan. His nerve was so wonderful, his courage so great, and his passions and prejudices so sleepless, as to make him for many years, in fact from the time he was first imprisoned until he was taken ill with consumption, a constant source of fear and anxiety to his prison keepers. There was nothing that he would stop at when once he started, and he was the leader of not one but several of the most dare-devil attempts at prison-breaking ever known in this state. Mr. Mosher first incurred the enmity of Huntley at Jackson, when he had been a prisoner but a short time.

Huntley filed his window bars, and, in company with two other prisoners, one of them a negro murderer, started to escape. Mosher was the man who discovered them and gave the alarm. The three men sneaked upon an unsuspecting guard, seized him and at the point of a knife forced him to walk with them along the prison wall, using the guard's body as a partial shield to keep the other guards from firing. They began firing, however, and at last one of them brought Huntley down with a bullet through the side, and the other men gave themselves up. For his share in the discovery of their escape, Huntley cherished for Mosher a life-long hatred. Huntley, with twenty-five more prisoners, was transferred from Jackson to Marquette, and Mosher with them. One day Huntley asked to see Mosher in the office. As soon as he was brought in he rushed at Mosher and struck at him with a knife. The deputy warden struck the knife from Huntley's hand, and knocking him down, gave him a terrific beating. A short time afterwards, at the dinner table, Huntley again attacked Mosher with a knife, which had been ground down to a fine point. This attack was part of a delivery plan including a number of convicts. Mosher had a narrow escape from fatal wounds, and as it was suffered severe cuts.

MUCH NEED FOR CHARITY.

Donations of Clothing, Food or Money Will Be Thankfully Received.

The attention of Marquette people is called to the fact that there is now more than at any previous time a year a need for a kindly charity. The prolonged cold weather has caused great suffering among the poor. Much of it has been relieved. There is still necessity for more aid and it will continue for some weeks. The county officers are taking care of the extremely poor, but there are many other cases that have to be looked after with donations from outside these official sources. Rev. J. M. Rogers informs The Mining Journal that there is a pressing need of gifts of clothing, especially garments for children and garments that can be made over to fit in particular cases. If word is sent to Mr. Rogers or to Captain Corliss, of the Salvation army, messengers will call for the bundles. Mr. Rogers can also use donations of money to excellent effect to buy wood for poor people actually suffering from the cold and shoes for children. Many people being helped in this needful way ordinarily need no assistance, being accustomed to looking after themselves. Thus they are sensitive about having their names on the poor lists.

There are more cases needing relief than people living in comfortable houses and partaking of ample meals realize, and they would doubtless be quick to help were they acquainted with their nature. Only the other day a family was provisioned by kindhearted strangers when a bevy of youngsters were pretty nearly down to the starving point, with only potatoes in the house, after a several days' diet of potatoes. The family owns its little home, but was seriously thinking of mortgaging it to get through the winter. A boy, making what he can shoveling snow, is the only moneyearner for several months. This is a rather extreme case, but there are many plenty had enough. Send around your bundles or your donations of a dollar or two. The aid will be carefully administered and will prove a veritable Godsend to the people relieved.

If you haven't time to prepare Hollister's Rocky Mountain Tea, it is now made in tablet form also. Get a package already to use. Makes you well; keeps you well. 35 cents. Stafford Drug Co.

WHEN YOU HAVE COMPANY do not entertain them in a cold room. Order a small Gas Heater and be comfortable. The Marquette Gas Light Co.

DELEGATION OF THREE.

Late Train Friday Brought New Prisoners to Marquette Penitentiary.

The late train from the east Saturday evening brought a delegation of three new prisoners to the Marquette prison. One of their number is a distinguished rascal, with the imposing name of Albert S. Monsan De Porzia, who from his title might be a full fledged duke or an ordinary roadster. However this may be, the prison records credit him with forgery, and he was shipped north from Grand Rapids, where he was arrested and convicted to serve a term of not less than ten or more than fourteen years for forging a check for \$62.25. De Porzia should drop into the routine at the Marquette institution ready enough, as he has already had a training in the retired and regular course of prison life at the Illinois penitentiary, from which he was released only last summer after doing time for a similar crime. He is also wanted for a forgery at West Bend, Wis., having apparently operated in a number of states. At West Bend his ingenuity with the pen netted him \$396. The West Benders can have him if they wait long enough, but as his minimum sentence is ten years they will have to wait a considerable time.

De Porzia was compelled to enter prison in company with very inferior rogues, George King, who stole \$70 in Canadian money from a lumberman, and John Curry, who ran amuck at Brimley last fall, scaring a number of people half to death. These fellows were committed from Chippewa county and came up under the escort of Sheriff Bone and Deputy Sheriff Fleming.

OLD MEMBERS WILL FEEL IT.

A. O. U. W. Men Over Fifty-Five Years to Be "Touched Up" After All.

According to the lower peninsula papers' report of the action of the grand lodge of the A. O. U. W. last week, the old members are to be "touched up" after all, even though the supreme lodge's plan of increased assessments was turned down. As reported in The Mining Journal, the supreme lodge's plan to increase the guarantee fund was approved, meaning that Michigan will henceforth pay in annually about \$90,000 for this fund, instead of \$50,000, approximately, as heretofore. The old members are to be assessed heavier to raise a part of this extra money and according to present reports those of their number over fifty-five years will be raised \$1.04 for each assessment. Another important action of the grand lodge was its course in conferring on its officers the power to levy as many assessments as may be necessary to meet the death loss of the grand lodge jurisdiction. Heretofore the officers have only been allowed to collect twelve assessments each year.

In addition to affecting the old men at the rate of \$1.04 an assessment, the adoption of the supreme lodge's recommendation in regard to the guarantee fund will make it necessary to slightly raise the assessment rate on all members. The new order of things will make it possible for the supreme lodge to guarantee all the death claims that the grand lodge might be unable to pay. The grand lodge decided to change its date of meeting and hereafter it will assemble the second Tuesday in September every second year. The next session will be at Detroit in 1906. An invitation was received from Sault Ste. Marie, but was declined, owing to the great expense that would have to be incurred in sending the lower peninsula delegation to that city.

CARD OF THANKS.

I herewith tender my heartfelt thanks to the officers and members of the local union of the carpenters for paying my husband's, John Miller's, funeral expenses as he was, according to their laws, not entitled to any benefit. (2-15-24) MRS. JOHN MILLER.

City Brevities

Yesterday's temperature: Seven a. m., 6 degrees; noon, 10 degrees; 7 p. m., zero; maximum, 10 degrees; minimum, zero.

John Q. Adams and Theodore Thoren were Neguame visitors here Saturday.

T. N. Greer arrived home Saturday from a business trip to Cleveland and Buffalo.

L. Paradise is absent from the city on a visit to the various markets, where he will purchase his spring stock.

The funeral of Mrs. James Liberty will be held this afternoon at 2:30 o'clock from the Presbyterian church.

The Lady Macabees are requested to meet this afternoon at Fraternity hall at 2 o'clock, for the purpose of attending the funeral of Mrs. James Liberty.

The funeral of Mrs. John Savard will be held this morning at 9 o'clock from the French Catholic church. Mrs. Savard was a member of Superior high, L. O. T. M.

The American Express company has received a new delivery wagon. It was hauled to the livery stable for storage yesterday morning, and looked sadly out of place on Front street, with the temperature near zero and the snow several feet deep.

There has been considerable horse speeding on the bay during the past few days. A number of local men have had their drivers out, and have enjoyed some good sport. The ice makes an excellent track and the horses have been making good time.

The electric light and power commission has received the report of Edward Burch, the Minneapolis electrical and hydraulic engineer, on the plant and the projects for its improvement, and are now giving it their consideration. It is a complete resume of present conditions and embodies recommendations as to the future.

The cold wave flag was displayed Saturday, as if it could possibly be much colder than it has been during the past three weeks. It was followed by an incipient storm which promised to develop into a blizzard, but which fortunately failed of its promise, and yesterday was fair and pleasant, though it became cold again last night.

Mrs. Louis Page, 321 Baraga avenue, died yesterday, after a brief illness, aged thirty-nine years. Mrs. Page was a member of the Alpena and the Ste. Anne societies, which will attend the funeral in a body. It will be held Tuesday morning at 9 o'clock from the French Catholic church, with interment in Holy Cross cemetery.

The recital of Professor Kluge's pupils will be held at Fraternity hall tomorrow evening at 8:15 o'clock. About twenty young people will participate, presenting a varied and interesting program, which has been under preparation for several months. Professor Kluge says that the pupils have made excellent progress with their different numbers and he expects that they will acquit themselves in a manner creditable alike to themselves and their instructor. The program will include instrumental and vocal music. There is much interest in the recital and it is expected that the attendance will be large.

FRESH FISH.

Trout, Whitefish, Herring, Perch, etc. for sale. My sign is the horn. Listen for it. JOHN W. PETERSON, (2-11-1w)

Our Low Prices Are Attracting More Attention Than Ever.

Every attraction within the scope of Merchandising that can be offered by any store is offered here. Absolutely the lowest prices, the largest stocks, the most complete assortments courteous treatment. It will pay you handsomely to look into our line of kitchen goods. Never before were prices so low on White Graniteware, Blue Graniteware, Nickel Plated ware, Tinware, Woodware, Cutlery and Spoons, Tea and Coffee Pots, Tea Kettles, Water Pails, Stew Pans, Fry Pans, Dish Pans, Flour Bins, Bread Boxes, Boilers, Tubs, Clothes Baskets, and everything in the line of general household goods. A personal visit to our Store will convince you of the fact that we can save you money in that line of goods.

THE VARIETY STORE,

149-151 Washington St. J. A. MALHIOT, Prop.

\$1000 Worth of Lace Curtains

SPECIAL SALE TODAY!

Owing to a very advantageous purchase of an immense quantity of Lace Curtains recently, wherein we secured the entire lot at less than the regular prices prevailing last fall when the price of cotton was less than half of its present cost, we are able to offer Brussel Net, Renaissance, Cable Net and Nottingham Lace Curtains at less than the present cost of manufacture.

We have arranged this immense sale of Curtains for this week, beginning this, Monday, morning, and have devoted our entire Carpet Room for the display of these goods. In view of the sharp advance that you will have to pay for Curtains this spring this should be of much interest to intending buyers. We will be pleased to show you through the line whether you buy or not.

A. T. VAN ALSTYN DRY GOODS CO.
