Chop! Chop! Chop!

Tiresome, isn't it, to get down the chopping bowl and knife and prepare something for the next meal? But the tiresome method is out of date. You can do better work with Sargent's Gem Food Chopper—with but little work and no labor. The Gem chops all kinds of food in coarse, medium or fine pieces, as desired. Useful in the preparation of substantial and desserts. You need it in your kitchen every day. **M. R. MANHARD, Marquette.**

RUSSIA EXPECTING NEWS OF BATTLE

Advices From the Front Indicate the Near Approach of a Decisive Encounter.

MINOR FIGHTING IS MORE FREQUENT

Cossacks and the Advance Guard of the Enemy Continually in Conflict on the South Front of Kuropatkin's Army, Fifteen Miles From Mukden--Japanese Tactics Continue to Mystify, but the Definite Location of Kuroki's Flanking Column Brings Much Relief to St. Petersburg--No Word Comes as to the Situation at Port Arthur.

Frequent fighting between Japanese advance guards and Cossacks on the south front of General Kuropatkin's army, reported in dispatches to the Russian war office, is regarded at St. Petersburg as indicative of the near approach of a general forward movement by Field Marshal Oyama's forces and a consequent decisive battle. It is estimated that since the battle of Liao Yang 40,000 of the guards stationed in western Russia have been ordered to the Far East. No word has been received as to the condition of affairs at Port Arthur.

RUSSIAN POLICE DENY IT.

No Attempt Made to Wreck the Emperor's Train.

St. Petersburg, Oct. 4.—The police department has absolutely denied the story published in Vienna that an attempt was made to blow up the train on which Emperor Nicholas was traveling during his recent visit to southern Russia.

NOT TO SPEAK AT MARINETTE.

Uncle Joe Cannon Boycotted by a La Follette Organization.

Milwaukee, Oct. 4.—The date set for a speech by Speaker Cannon at Marinette, Wis., Oct. 7, has been cancelled, according to Secretary Bentley, of the anti-La Follette state central committee. Mr. Bentley stated today that Mr. Cannon had been assigned through the national committee. The reason for the cancellation is the refusal of the county committee at Marinette, a La Follette organization, to make arrangements for the meeting because Mr. Cannon was not assigned through the La Follette state committee.

JABS AT JUDGE PARKER.

Gubernatorial Candidate Higgins Is Notified of His Nomination.

Olean, N. Y., Oct. 4.—The notification of Frank W. Higgins, the Republican nominee for governor, and the other candidates on the Republican ticket, which was to have taken place at noon today, was delayed by a train wreck. First it was postponed to 2:30 p. m., and later to 4 o'clock p. m. In his reply to the notification Mr. Higgins congratulated the country upon the nomination of Roosevelt, and said: "Opposed to Roosevelt is a man whose chief claim for merit seems to be the telegram he sent—too late to change the result of a convention that had almost adjourned—defining a position which was well known to those responsible for his nomination but which they refrained from communicating to their fellow delegates." The remainder of the speech was devoted to state affairs.

HILL UPBRAIDS ROOSEVELT.

Denounces the Panama Affair in Speech Delivered at Albany.

Albany, N. Y., Oct. 4.—Former United States Senator David B. Hill made his first speech in the Democratic campaign here tonight before the Albany Convention club. The speech was devoted to an attack upon the course pursued by President Roosevelt in connection with the Panama canal treaty and the revolution which resulted in the secession of Panama from Colombia. He declared that the Republican platform adopted at Chicago did not commend the "big stick" diplomacy of President Roosevelt. It merely said that the possession of a route is now an accomplished fact and that work on a canal was at last begun, and it is due to the Republican party. The Democratic platform intended to assert that President Roosevelt did, in the Panama affair, violate plain treaty obligations, plain international usages and the constitution of the United States.

PEACE ADVOCATES HOPEFUL.

International Bureau Thinks Mediation Will Soon Prevail in the East.

Boston, Oct. 4.—At the first business meeting of the thirteenth international peace congress today Robert Treat Paine of Boston was elected president and Benjamin F. Trueblood secretary. The report of the international peace bureau...

INNOCENT MAN KILLED.

Milwaukeean the Victim of a Street Duel at San Antonio.

San Antonio, Tex., Oct. 4.—During a street duel here today between J. M. Clittim, a Texas cattle king, and W. V. Jones, a cattle man and banker of Beville, H. S. Elwell, a traveling man of Milwaukee, Wis., chanced within range and was killed. Clittim was arrested, charged with murder.

NAVY HUNTING CRIMINALS.

Bound to Find Those Who Tried to Ruin Battleship Connecticut.

Washington, Oct. 4.—The three attempts to wreck the battleship Connecticut previous to the launching of the vessel at the New York navy yard are receiving the attention of the officials of the navy department almost to the exclusion of all other matters except those of a routine nature which must go on every day in the year.

DEATH CLAIMS HENRY C. PAYNE

SENATOR HOAR'S SUCCESSOR.

Worcester, Mass., Oct. 4.—The Telegram says that at the next meeting of the governor's council, Governor Bates will probably announce the appointment of Attorney General Moody, of Haverhill, to succeed Senator Hoar.

DEATH CLAIMS HENRY C. PAYNE

DECEASE OF THE POSTMASTER GENERAL OCCURRED AT 6:10 LAST EVENING.

ILL ONLY ABOUT A WEEK

WAS HIS INTENTION TO SOON RETIRE TO PRIVATE LIFE.

His Health, Poor for Two Years, Undermined by Strain Incident to Direction of the Postal Inquiry—Cortelyou to Succeed Him.

Washington, Oct. 4.—Henry C. Payne, postmaster general of the United States, member of the Republican national committee and a stalwart of his party with the history of which, both in his home state and nationally, he had been identified for many years, died at his apartments at the Arlington Hotel at 6:10 o'clock tonight, aged sixty years. The death was announced in the following official bulletin, issued by the attending physicians: "The postmaster general died at 6:10 p. m. He died peacefully without a struggle. The cause of death was a disease of the mitral valve and dilatation of the heart."

Illness Covered Only Seven Days.

Mr. Payne had been in poor health for at least two years, but his illness covered only seven days, an attack of heart trouble last week precipitating the end at a time when after a rest he seemed to have recovered a small measure of his vitality, impaired by years of arduous labor.

Ship Found to Leak.

"After the launch on the 29th it was found that one compartment was making water. The pumps were started and the water was kept under control. It was decided to permit the compartment to be entirely full, close all air pipes and drain valves and let the compartment remain full during the night of the 29th. On the morning of Sept. 30 the pump was started, the compartment was pumped down and it was discovered that a three-quarter inch hole had been drilled through the outside shell plate. The location chosen for drilling this hole was over the packing on the sliding ways, where it would have been impossible to detect its presence from the outside. The location of the hole for working purposes being absolutely useless indicates that it was done maliciously. It was evidently drilled from the inside."

Vessel Under Extra Guard.

In forwarding Mr. Baxter's report to the department Admiral Rodgers, commander of the yard, said: "The recommendations of the naval constructor in the matter have been approved and are being carried out. Further precautions are being taken to guard the ship."

WOODMEN OUT \$100,000.

Sioux City, Ia., Oct. 4.—The case of the Modern Woodmen of America to collect \$100,000 from the estate of the late E. H. McCutcheon, a banker at Holstein, Ia., was dismissed today. Upon McCutcheon's death it was found that his bank was insolvent. He was a leading Woodman and had \$100,000 of the order's funds in his bank. The Woodmen sued the bondsmen, who replied that their names had been secured by fraud.

HOMESTEADERS WIN.

Suits Involving Valuable Land Decided at Sioux City, Ia.

Sioux City, Ia., Oct. 4.—Homesteaders of land formerly in the government grant to the Sioux City & Paul railroad won a decisive victory in the federal court here today, when eleven cases were disposed of in their favor. The value of the land involved is \$125,000. It is taken to mean that homesteaders in scores of other suits pending against purchasers from the railroad, involving over \$1,000,000 for the land, will win. The fight has been in progress for years. The homesteaders first got patents and purchasers from the railroad sued for possession in the federal and state courts. In the case of Sands against Nepper, the United States supreme court held that the Sioux City & St. Paul railroad never constructed its line as per agreement and therefore never earned the land and had no right to sell it. The land lies in Oregon and Lyon counties. The Omaha railroad now has the roadbed of the defunct Sioux City & St. Paul.

SENATOR HOAR'S SUCCESSOR.

Worcester, Mass., Oct. 4.—The Telegram says that at the next meeting of the governor's council, Governor Bates will probably announce the appointment of Attorney General Moody, of Haverhill, to succeed Senator Hoar.

MARQUETTE, MICH., OCT. 5.

Entered as mail matter of the second class
 in the postoffice at Marquette, Mich.

Sam Stephenson must be green with envy since Brother Ike, just across the river, has burst into fame as a Magarine Hero.

The utter absurdity of Link Steffens hinting that money had ever been used in politics in the state of Wisconsin! How could he have been so foolish.

The chaps that seem so ambitious to send the Connecticut to the bottom of the ocean must be Bryan Democrats gone crazy in their opposition to naval expansion. This theory seems as reasonable as any yet advanced to explain the mysterious series of attacks.

Here's a chance for Andrew Carnegie. He might endow a campaign fund. It is one of the few things left which the Lord of Skibo hasn't endowed. Of course he would provide that the party would have to annually raise 10 per cent of the amount of the fund, also to be used for campaign purposes.

Charles A. Towne's eloquence is again to resound in the halls of congress, i. e., whenever Uncle Joe Cannon consents to turn him loose. Towne's next entry into the house will be as a Tammany henchman, with the Tammany collar around his neck. He is an eloquent and flowery talker, the kind that Tammany loves, therefore his elevation. He will doubtless enjoy the traditional lack of influence of the Tammany congressman.

In Iron county, Wis., the Statecrafts have showed their appreciation of Governor La Follette's attempt to clean up the stinkpot town of Hurley by renominating the prosecuting attorney and the sheriff whom the governor removed from office because of manifest malfeasance in neglecting to control the noise-diving and gambling hells which the town is infected. The moral seems to be that you can't save some people from their own slime.

Fred M. Warner is bravely carrying war into the enemy's country this week. He is in Wayne county, where the Democrats are making a strong fight, aided by the strenuous efforts of the Scripps papers, and which they confidently expect to carry. Mr. Warner is not at all daunted and is holding some notably successful meetings. There is a host of Warner Republicans in Wayne, and the Democrats may yet be greatly disappointed in the size of their anticipated majority.

The Japanese are confident that they can get 1,000,000 men in the field in case of necessity. It will be many months before Russia can place and sustain an equal number at the front. From whatever point you regard it, army, navy or finance, the war in the east is not going to proceed on an unequal basis, for some months at least. Japan's resources may be much the smaller, but she has them right at the seat of war. Furthermore her governmental and administrative efficiency in army and naval affairs permits her to get along as well on comparatively limited resources as does Russia with a much greater apparent strength.

Mr. Bryan says "The platform at St. Louis is bad only where it omits to state the party's position on two questions—the money question and income tax." As for the former question, Judge Parker very carefully made good the omission with his gold telegram. Mr. Bryan must have read it. It has had the effect of making the Democrats as permanently a gold party as the Republicans, and there lies one of the reasons why the present campaign is attended by so little disturbance of business. As for the income tax, if Judge Parker could have foreseen that omission of reference to it was going to cause Mr. Bryan any concern he would doubtless have filed another supplementary telegram at Esopus on the Hudson.

One of the most remarkable documents ever filed in an American court is that in which President Frank A. Barnaby of the Knickerbocker Steamship company, the owners of the ill-starred General Slocum which was destroyed by fire with the loss of over 700 lives at New York some three months ago, asks the United States court at New York to quash the indictment against him. In this singular demurrer, filed last Saturday, it is alleged that the indictment fails to state whether a certain person killed in the disaster was "a cabin or deck passenger" and advances the novel plea that Michael McGrann, another victim, "was himself negligent in selecting a life preserver which was in bad condition, and he could have saved himself if he had not been hampered by a life preserver." If the matter were not so serious, the allegation about McGrann would be nothing less than ludicrous. In what spirit was such an absurdity introduced into the demurrer?

The department of commerce is hot foot after a manufacturer of life preservers who is charged with putting small iron bars in the preservers to save a few cents worth of cork and still have them the proper weight. The iron bar weighs but eight ounces, but eight ounces of iron where there should be eight ounces of cork would in many cases be just the difference between life and death. It seems inconceivable that in this day and age any manufacturer should play such a dastardly trick, but the facts seem uncontrovertible. There is hardly a penalty that would be too severe for a man guilty of such a crime, and all associated in the fraud should be freely punished. Meanwhile it wouldn't be a bad idea to instruct the steamship inspectors to tap other life preservers for iron deposits.

There may be some defection from Warner below the straits. It can hardly be otherwise, as the whole campaign is directed against him, he being the scapegoat for the party's sins of omission or commission for many years past. However, it does not appear that the defection north of the straits will be particularly noticeable. The Democrats are confining their campaign to the lower peninsula, and no plans are announced for an aggressive fight in this region. Thus from present indications the Warner majority at the straits, contributed by the Twelfth district, will be well up to the usual mark. Then, too, defection in lower Michigan will hardly prove as serious as anticipated. Many Republican voters who are now stewing and fusing and telling what they are going to do will doubtless be lined up for their regular ticket when Nov. 8 comes around.

Senator Spooner, in replying to Lincoln Steffens article in McClure's, devotes no little of his space to Ike Stephenson of Marinette, whom Mr. Steffens quoted as saying to the late Philletus Sawyer that it cost him \$22,000 to secure Spooner's election to the senate. Senator Spooner denies Stephenson's charge (this article is a denial of about everything that Mr. Steffens saw fit to say), and he says that he "hopes Mr. Stephenson will inform the public whether he intends it to be understood that he spent \$22,000, or any money, to purchase the votes of members of the legislature to send him to the senate." Steffens does not specify that the \$22,000 was used to purchase votes direct. He simply refers to the sum as Stephenson's cash donation to the Spooner campaign fund. Perhaps Ike will throw a little more definite light on the question by answering Senator Spooner's query. Speak up, Ike, and tell us your own story.

By the fact that notwithstanding the high Canadian tariff American manufacturers are selling large quantities of their products in the Canadian market. The American manufacturers who are opposing reciprocity are also short-sighted. The high tariff is encouraging American, as well as Canadian, capital to invest in plants in Canadian territory. American capital thus invested, no doubt, brings in good returns to the investor, but every factory built by Americans in Canada is a detriment to the American laborer who have been making articles for the Canadian market. Canada is the one country with which we should seek the freest possible trade consistent with our industrial policy. It is one of the best markets we have, and our present policy is rapidly alienating it.

THE SUNNY SIDE

Practical Alchemists,
 In good old medieval times,
 The days of fools and saints and crimes,
 The Alchemists in pots and pans,
 Strange looking soups were stewing.
 By these manoeuvres, so they said,
 They'd make gold mazing out of lead.
 But they were doomed to grief and tears,
 For there was nothing doing.

But time has taught us just a few,
 And we've learned a thing or two.
 The Alchemists are dead, you ask?
 Nay, nay, my son and daughter,
 For in that magic street called Wall,
 In buildings short and buildings tall,
 Stand many Wizards making gold
 From paper, wind and water.

I've seen a Wizard take a mine
 (bought for a dollar forty-nine),
 A vacant, worthless hole with also
 Nothing but nothing in it,
 And this he'd name it Gas and so:
 "The Perisilage Gold Mining Co."
 Come in and get your Dividends,
 A Dollar Every Minute!"

These words he sent by many mails;
 The dollars came in stacks and piles—
 Which shows how every shark that
 swims finds suckers by the billions.
 He had no money to begin,
 He never put a dollar in:
 Yet when he went to Ossining he'd
 cleaned up thirty millions!

In simple ages long ago
 The Alchemists were pretty slow;
 They spent their time with chemicals
 a-brewing and a-stewing—
 If they had put their empty dream
 into a fake investment scheme
 they would have had their gold all
 right and lots of dollars doing
 —Wallace Irwin in New York Globe.

When Told in England.
 At a dinner given recently in London an American actor proposed the conundrum: "What goes round a button?" After the problem had been given up by the party he gave the answer: "A goat." There was a moment's silence.
 Finally one of the women spoke up, "Why," she said, in a puzzled tone, "I didn't know they ate buttons."—Harper's Weekly.

Two Pictures.
 One the twinkling green
 See the whizzing
 Fly ball.
 One the firing serene
 Note the fizzing
 Highball.
 —New York Herald.

The Sticky Octogenarians.
 They were neither of them brilliant scholars, but they like to move with the times as regards the knowledge of current events, so the daily newspaper was regularly delivered at their humble domicile, and it was Jennie's duty to read out during breakfast time all the most interesting items of the day. One morning, after wading through the latest intelligence from the front, she turned to another page of the paper and said:
 "Herbie, it says here that another octogenarian's dead!"
 "What's an octogenarian?"
 "Well, I don't quite know what they are, but they must be very sickly creatures. You never hear of them but they're dying."—Scratch American.

Genius in Disguise.
 Benevolent Lady—My man, you appear to be strong and able to work. How can you be content to remain a hen's egg?
 Tired Tinker—Sh, mum! I don't dast tell you me real name, fer fear of de shock to yer nervous system, but I don't mind lettin' you know, mum, dat I'm a well-known scientific guy, wat is merely don't dis to collect de material fer a book!—Houston Chronicle.

Only Playing.
 "Jimmie, Jimmie, don't you know it's awful to say those swear words?"
 "I was dis' playin' I was papa huntin' for his collar button."—Detroit Free Press.

The Little Japanese.
 Once I knew a Japanese,
 With a little blue chemise,
 Socks and sandals and a pretty paper fan,
 Lady foot and dandy hand,
 Microscopically planned;
 And he didn't seem at all a fighting man,
 He was neat and he was clean,
 Most delightful to be seen;
 He was spotless; he was epic and he was spun;
 He was sugar; he was spice;
 He was everything that's nice;
 And he didn't seem at all a fighting man.

He would greet you with a smile
 Which would carry half a mile,
 Sweet as summer, and expansive in its plan;
 He would nod his beaming noll,
 Like a polished little doll;
 And he didn't seem at all a fighting man.

Which is why I'd give a lot,
 Could I camp upon the spot,
 Where his winning bloody laurels for Japan,
 Just to watch him wading in,
 With that smile above his chin;
 For he didn't seem at all a fighting man.
 —Bertrand Shadwell in Boston Transcript.

MOTHER AND CHILD
 Scott's Emulsion is cod liver oil made almost as palatable as milk. It is easy and soothing to the weak stomach; it checks the tendencies of children toward thinness. Scott's Emulsion gives strength to weak mothers because it creates healthy flesh and new blood. Nursing mothers will find a special value in Scott's Emulsion because it insures a flow of rich, nourishing milk for the baby. More and better than a medicine; Scott's Emulsion is a food.

The Little Japanese.
 Once I knew a Japanese,
 With a little blue chemise,
 Socks and sandals and a pretty paper fan,
 Lady foot and dandy hand,
 Microscopically planned;
 And he didn't seem at all a fighting man,
 He was neat and he was clean,
 Most delightful to be seen;
 He was spotless; he was epic and he was spun;
 He was sugar; he was spice;
 He was everything that's nice;
 And he didn't seem at all a fighting man.

He would greet you with a smile
 Which would carry half a mile,
 Sweet as summer, and expansive in its plan;
 He would nod his beaming noll,
 Like a polished little doll;
 And he didn't seem at all a fighting man.

Which is why I'd give a lot,
 Could I camp upon the spot,
 Where his winning bloody laurels for Japan,
 Just to watch him wading in,
 With that smile above his chin;
 For he didn't seem at all a fighting man.

MOTHER AND CHILD
 Scott's Emulsion is cod liver oil made almost as palatable as milk. It is easy and soothing to the weak stomach; it checks the tendencies of children toward thinness. Scott's Emulsion gives strength to weak mothers because it creates healthy flesh and new blood. Nursing mothers will find a special value in Scott's Emulsion because it insures a flow of rich, nourishing milk for the baby. More and better than a medicine; Scott's Emulsion is a food.

THE SUNNY SIDE

Practical Alchemists,
 In good old medieval times,
 The days of fools and saints and crimes,
 The Alchemists in pots and pans,
 Strange looking soups were stewing.
 By these manoeuvres, so they said,
 They'd make gold mazing out of lead.
 But they were doomed to grief and tears,
 For there was nothing doing.

But time has taught us just a few,
 And we've learned a thing or two.
 The Alchemists are dead, you ask?
 Nay, nay, my son and daughter,
 For in that magic street called Wall,
 In buildings short and buildings tall,
 Stand many Wizards making gold
 From paper, wind and water.

I've seen a Wizard take a mine
 (bought for a dollar forty-nine),
 A vacant, worthless hole with also
 Nothing but nothing in it,
 And this he'd name it Gas and so:
 "The Perisilage Gold Mining Co."
 Come in and get your Dividends,
 A Dollar Every Minute!"

These words he sent by many mails;
 The dollars came in stacks and piles—
 Which shows how every shark that
 swims finds suckers by the billions.
 He had no money to begin,
 He never put a dollar in:
 Yet when he went to Ossining he'd
 cleaned up thirty millions!

In simple ages long ago
 The Alchemists were pretty slow;

SCROFULA

Swollen glands, tumors, whiteswelling, sores, pustular or scaly skin eruptions, flabby muscles, brittle bones, weak digestion, emaciated, ily-nourished bodies, are some of the well-known earmarks of Scrofula. Scrofula is inherited. Parents too closely related by the ties of blood, or tainted with consumption or blood poison, may often find signs of Scrofula in their children. The middle-aged often have it, but children are the chief sufferers. Scrofula breaks down the vital forces, and the blood becomes so weak and poor that it does not nourish the body. The remedy in all scrofulous affections must be one that purifies the diseased blood, builds up the weak digestion, increases the appetite and gives new energy and strength to all life's forces. No medicine has won so much fame as a blood purifier as S. S. S., and its tonic effects upon the system are not equalled by any other remedy. It makes the weak, tainted blood rich and strong, and drives out of the circulation all tubercular deposits and morbid matter that cause the glandular swelling, abscesses, tumors and other horrible symptoms that make Scrofula so dreaded and dangerous.

Cow Swam the River—
 A cow swam the St. Mary's river from the Canadian to the American side a few days ago. The feat was heretofore thought impossible.

Independent Nominations.
 Independent Republican nominations have been made for three offices in Dickinson county and have been duly filed with the county clerk. The nominees are: E. A. Neuhauer, ex-mayor of Iron Mountain, for sheriff; Don Cameron, for prosecuting attorney; Levi Collette, of Quinnessee, for register of deeds.

Internal Revenue Law Violated.
 John R. McDonald, of Lake Linden, deputy United States revenue collector, spent several days in Iron Mountain recently. While there he rounded up six violators of the internal revenue laws. Among others was a case of a retailer wholesaling beer without a license. The attempt to economize will cost the individual the snug sum of \$150.

Lost a—
 James Bradley, an old employe of the Norris mine, sustained a distressing accident last week. He was taking samples as the steam shovel was loading from stockpile when he lost his balance and fell between the moving cars. The wheels passed over his right arm below the elbow and his feet were badly crushed. He was taken to the Union hospital, where the arm was amputated.

Many Inquiries for Bonds.
 With the announcement that Escanaba may issue bonds to the amount of \$500,000 in order that extensive paving operations may be undertaken next year, the city clerk's office is flooded with inquiries for information. Some fifty letters, all from conceivably in all parts of the county, have been received, when it even has not yet been decided by the council to submit a bonding proposition to the people.

Tax Titles Involved.
 An important civil case on the calendar of the Iron county circuit court for the October term, is that of Louis Stegmiller against Fred Hanhold. The suit is over a piece of property in Stambaugh township which Mr. Hanhold has farmed for many years and which was generally supposed to be his. Recent iron ore discoveries in the proximity to this land have given it a greater prospective value and it develops that the land was acquired by Hanhold on a tax title many years ago. One of the owners, Louis Gray, attacked Hanhold's title a year ago and was defeated. Now another of the original owners seeks to oust him from possession. The case is important as it tends to settle the validity of tax titles in general.

Big Land Swindle Suspected.
 What may prove to be a big land swindle, or an attempt to lay the foundation of one, is being disclosed through correspondence which the officials of Alger county are having with a Chicago man who signs himself "L. J. Hitz." His letter head indicates that he is a real estate dealer and also an agent for the Hartford Fire Insurance company, and his office is at 24 Washington street. The papers which Hitz has sent to the county officials apparently show that he has been swindled out of \$100,000, which sum he is supposed to have paid for an entire township in Alger county. The man who deeded the land to him does not own, and never has owned, it is stated, an acre of real estate in the county and his name does not appear upon the county records. This matter first came to the attention of the Register of Deeds Shady two weeks ago, when he received for record a warranty deed conveying a whole township of land for a consideration of \$100,000. A peculiar feature of the deed is the absence of the name of the person to whom the land is purported to be conveyed. The name of

COPPER

The new edition of the Copper Handbook lists and describes 2,311 copper mines and copper mining companies, in all parts of the world, covering the globe, these descriptions ranging from two lines to twelve pages each in length, according to importance of the mines. The descriptions are not padded, but give facts in the most condensed and get-able form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. IT IS THE WORLD'S STANDARD REFERENCE BOOK ON COPPER.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is \$5 in buckram binding with gilt top, or \$7.50 in full library morocco, and the book, in either binding, will be sent, fully prepaid, on approval, to any address in the world, to be paid for if found satisfactory, or may be returned, within a week, or receipt, and the charge will be cancelled. ROOM FOR HER AT LAST.

Feeble-Minded Woman Long Confined to Jail Is Taken to Lapeer.

A place in the state home for the feeble-minded has at last been found for Barbara Sadler, who has been confined in the women's ward of the county jail for the past two years and a half. Sheriff Wills and wife left yesterday for Lapeer with the woman. The sheriff and two deputies also had in charge three insane men for the asylum at Newberry. The patients are: Oscar Laxon of Atlantic, Stefanie Tichoff of the Osceola mine location, and Matt Thompson of Hancock. Tichoff is a Russian, whose mind is unbalanced over religion. The Thompson case is a pitiable one, as the patient is well along in years, having passed his seventy-third birthday.

The removal of the Sadler woman is a great relief to Sheriff Wills. He and his assistants at the jail have had considerable trouble with her ever since she was sent to the county lock-up to await committal to Lapeer. She was always stubborn and continually defied the officers. Effort after effort was made to send her to the state institution but word was always sent back that the home was crowded and room could not be found. At a meeting of the county supervisors two or three months ago the matter was brought up and Senator Charles Smith, a member of the board, was asked to use his influence towards finding a place for the woman in the state home. He stated at that time that he knew the institution to be very crowded and that a large addition was planned. He remarked he did not believe he could help the matter any, but promised to make an effort in the desired direction. Recently word was received that there was room for the woman at last.

CLOSE TO THE CHAMPIONSHIP.

Hancock School Eleven to Play But Two Games for the Title.

Now that both the Houghton and the Calumet high schools have given up their claim for the season, the Hancock school will not play their first interscholastic game until Nov. 5, unless the schedule is changed. On that date Hancock is slated to meet either Ironwood, Bessemer or Ishpeming, depending on which of the teams is victorious in previous contests. Hancock was scheduled to play Calumet for the first game Oct. 22, and the winner of that match was to play Houghton Oct. 29. The schedule is not likely to be changed, as the teams that have dropped out simply forfeit the games they were to have played with other teams. The dropping out of Calumet and Houghton simply puts the Hancock high in the first division for the penultimate championship. If Hancock wins on Nov. 5 it will have but one game between it and the championship, Captain Linden and his men are practicing hard for the honor and feel confident.

New Rules for the Game.

The new rules for 1904 seriously affect the scrimmage development. This year a team can never have fewer than six men on the rush line, and if only six are on the rush line then one of the men who play behind the line must be outside the line. This is the position on the end of the line of scrimmage. It is inadvisable, however, to run the quarterback at any time or in any part of the field, so long as the above provision is complied with.

County Board's Annual Session

The annual meeting of the board of supervisors will be held next Monday. It will take the place of the usual monthly meeting, held the second Tuesday of every month. According to the statutes, the annual meeting is the only one the supervisors are legally bound to hold, although they may meet as often as they desire. In some counties the annual meeting is the only one held, but in Houghton county the board gets together once every month. This is quite necessary as usually there is a big batch of business to attend to each month.

VILLAGE WILL APPEAL

A judgment for \$1079.38 and costs amounting to \$24.10 was given the Diamond Mill against the village of DuPont in a suit tried in circuit court last week. The suit was brought to recover a portion of the taxes which the company had paid under protest. W. R. Adams, the attorney for the village, stated that the case will be appealed to the supreme court.

ANOTHER TOURNAMENT LIKELY.

Much Interest in Cornish Wrestling Stirred Up at Calumet.

A decided interest has been stirred up in Cornish wrestling circles in Calumet as a result of the recent tournament at that place. Bert Williams, who won first prize, is now desirous of adding to his reputation and has challenged any man in the Northwest for any sum, the details to be arranged by the principals. It is likely that he will be accompanied, as there are several wrestlers in Calumet who believe they can defeat him. Williams wrestled at 247 pounds at Calumet last Saturday. He depends on his great strength and bulk, more than on his science, as was proven in his match with William Jones, one of the most scientific wrestlers in the copper country. Joe Ziehr of Calumet has challenged Jones for a match in four weeks for a purse, the best two out of three falls to determine the winner. Jones and Ziehr split even at Saturday's tournament, each taking one fall. Ziehr was barely thrown and for that reason he believes his chances in any other match with Jones will be bright. Both men are decidedly clever and a match would prove popular. It is probable that another tournament will be arranged before long and that Williams, Jones and Ziehr will be the principals in match contests.

Is Organizing Classes.

Pearl T. Beeman, champion catch-as-catch-can wrestler of Ohio, who came to Lake Linden a few weeks ago to participate in several exhibition matches, has decided to remain in the copper country, and will open schools of instruction in catch-as-catch-can wrestling at Calumet, Hancock, Houghton and Lake Linden. He has secured the Italian hall on Seventh street for the Calumet classes, the first of which was organized last evening. A second meeting will be held Saturday evening. Mr. Beeman has demonstrated to the satisfaction of local lovers of the game that he is an adept in the catch-as-catch-can style. He had no difficulty in defeating the men with whom he was matched here, and it is believed he can defeat any man of his weight in the country. He already has twenty pupils at Lake Linden and is meeting with success in organizing a class at Houghton and Hancock.

WILL COST \$3,000.

Three-Story Apartment House to Go Up at Hancock.

Ground has been broken for the erection of a three-story apartment house for Peter Larsen, the Hancock pop manufacturer, on Hancock street. The contract was recently awarded to Crutcher Bros. by H. T. Liebert, the Hancock architect. A small building forming a part of the pop factory at the rear of the site is being removed. The work is being supervised by Mr. Larsen, desiring the building completed and ready for use Feb. 1. The structure is to be built of brick and will contain two flats on each floor, the second and third story flats to consist of seven rooms each, and the first floor flat of six. The general entrance will be in the center of the third floor. The building will be forty-two feet wide and sixty feet long, and the cost about \$3,000. The structure will have modern improvements, including a heating plant, electric light, gas and open plumbing.

LARGEST ON THE LAKES.

The new steamers Duluth and Utica, of the Western Line, were Portage Lake visitors this week. Each is 44 feet long and fifty-three feet wide and are the largest package freight carriers on the lakes. The Duluth made a previous trip to Portage Lake, but the Utica was in port for the first time Monday. Both boats have speed engines and are equipped with the latest in machinery. The boats are up-to-date in every respect and are the finest appearing freight steamers ever seen in Portage Lake waters. Agent J. C. Thomson states that the Western Line will continue to run between Buffalo, Detroit, Portage Lake and Duluth until the end of the season of navigation, although she has finished her regular passenger schedule. She will carry freight, running on a schedule slower than usual Lake shipments, having been heavy of late, this being the season of the year when considerable grain, flour and package freight are carried. The Anchor and Western Lines now have a number of big steamers on the Buffalo-Portage Lake-Duluth route.

BOXING BOUTS TOMORROW.

Jimmy Duggan of Houghton and Fred Toranzo of Lake Linden will don the gloves for the main bout of a five exhibition at the Lake Linden Opera House tomorrow evening. The winner is to receive a purse of \$100. Both men have been training for the match the past two weeks and are in fine condition. The men will be about even in weight. Toranzo, who was the heavier, having reduced his weight considerably by hard training. The bout is scheduled for ten rounds. Two preliminaries between above local boys have been arranged for. Richards and Haran will be the principals in one, and Nelson and Frank in the other. It is expected a large delegation from Calumet and the Portage Lake towns will attend, and arrangements for special train service probably will be made.

RESULT OF THE "JUNKET."

Paving Materials Discussed by the Hancock City Council.

Paving materials were informally discussed at Monday evening's regular meeting of the Hancock city council. The recent trip of the mayor and some of the aldermen to Duluth, where pavements were inspected, was responsible for bringing up the subject at this time. The different kinds of asphalt and tar macadam streets most interested the council. Duluth, who is in charge of the city, who continued on to St. Paul and Minneapolis, stated that he was very favorably impressed with the crescent wooden block pavement. Mr. Coughlin remarked that he believes the block is a fine thing for boulevard, because it is practically noiseless.

The method of constructing the tar macadam pavement was described. The foundation is a mixture of coarse rock, pitch and asphaltum, while the surface layer is finer. The wearing surface is as hard as rock. The tar macadam makes a street somewhat similar in appearance to asphalt. It is a cheaper pavement, the cost in Duluth being about \$1.50 per square yard, while the cost of asphalt is \$2.70.

Municipal Finances.

The report of City Treasurer Borst for the month of September was presented. It shows a cash balance on hand of \$16,646.59. The board of education asked that the sum of \$19,000 be appropriated for the conduct of the schools by the city, and a resolution, and a resolution was passed to that effect. The total needs of the school for the year amount to \$23,750, with the primary school fund of \$4,750 deducted. The sum of \$19,000 has been the amount required for the year.

HOTEL FOR ARHEEK.

The Bosh company of Lake Linden has awarded a contract for the erection of a hotel building at the Arheek town site, in Keweenaw county. The structure will be fifty by twenty-eight feet in size and will contain twelve rooms. The first floor space will be devoted to a store room for business purposes. The building will be constructed of wood and will have modern conveniences. The foundation is now being constructed.

INSPECTED THE MINES.

Baron Charles Helldorff of Klagenfurt, Austria, has left for the World's Fair after spending several days inspecting mines in the copper country. In an interview the Baron stated that the people of the copper country are doing very well. He said he is in America for the first time and is much impressed with its extent and the enterprise of the people. The Baron is an officer of dragons in Austria.

RELIEF SOCIETY TO REORGANIZE.

A meeting of the Portage Lake Relief Society for the purpose of reorganizing for the winter season, called for Thursday afternoon at the Hancock city hall by Mrs. Reynolds, the president. The society was actively engaged all last winter soliciting articles and food for the needy. The work was very successful. Much good was accomplished and the ladies have decided to continue the charitable work.

WORKMEN'S ANNIVERSARY.

Oct. 27 will be the thirty-sixth anniversary of the Ancient Order of United Workmen. Since its organization the order has paid out practically \$140,000 in relief to the needy. Besides this it has extended charity to hundreds of members. The order is very strong in the copper country, having large memberships in Houghton, Hancock, Calumet and other towns.

COPPERDOM BRIEVITIES.

A. J. Ruhl of Houghton has left for Chicago on business.

Third Baseborn Propagand of the Lake Linden team has left for his home in Detroit. He may return to the Lake next season.

Leonard Leigh, Jr. of Laurium has returned from South Africa, where he spent some time. On his way back he visited with friends in England several weeks.

J. Squires of Hancock was the winner of the prize for vegetables exhibited at the county fair last week. The display embraced specimens of nearly every vegetable grown in the county.

The Calumet & Hecla band will give a concert at the Calumet Armory Friday night. The instrumentalists will give service between Calumet and Lake Linden and Calumet and the Portage Lake towns will be provided.

Arthur Hess, who played third base for Dollar Bay during the summer, has left for his home in Michigan. He will return to the copper country next season, having been signed by the Indianapolis team of the American league.

Attorney Arthur H. Brown of Ontonagon, well known in Houghton, was last week in this city. He is in town in Baldwin, the ceremony taking place in the Episcopal chapel at Wauwatosa, Wis., the home of the bride. Mr. Brown was a former resident of Houghton.

Charles A. Lyon of Sault Ste. Marie, district deputy of the Modern Woodmen of America, has decided to make Houghton his headquarters during the winter months. While in the copper country he will endeavor to add to the membership of the several camps of the order.

On account of lack of room in the Holmes school at the Florida location the Calumet school board has rented the Hustad building, on Lake Linden avenue, for school purposes. The interior of the structure is being remodeled for the occasion. The building will accommodate one hundred pupils.

Mains for gas are now being laid in Franklin street and in the Quincy and Franklin additions at Hancock by the Portage Lake Gas & Coke company. The connecting main to the plant at Ripley also is being constructed. Building operations at the plant will be well under way before the end of the month.

Rev. R. Bruce Brown, a Church of Christ evangelist of Yale, Mich., is conducting services in the Looselying hall at Laurium. The meetings are being well attended. It is said that the church stands fifth among the churches of the world in respect to membership. The number of communicants in the United States is given as 1,250,000.

A GUARANTEED CURE FOR PILES.

Mining News

ARIZONA MINING NOTES.

Gossip Concerning Properties in North Michigan Money is Invested.

Bisbee (Ariz.) correspondence says: A find has been made on the 1,250-foot level from the Irish Mag shaft, in the Pride claim of the Calumet & Arizona mine, that is of much importance. It is a valuable orebody evidently, but it is another proof of the theory on which work has been proceeding in the camp for some time, that the bodies of oxidized lime and leached material found in such quantities in some of the properties, are earlier ore. On the 650 and 1,050-foot levels, through this same claim, drifts cut big bodies of this lime, but no ore; now a drift 200 feet lower is in a large body of it, running high in copper. The Pride claim is sure to make a mine. In both Senator claims the same company is opening ore on drifts from the Oliver shaft, so that four of the six claims of Calumet & Arizona's central block of ground have been proved as ore-bearing.

Ore finds in Pittsburg & Duluth look very encouraging, and the statement has been made that there is a better showing than in any of the development companies of the Calumet & Arizona group when they were combined in the copper companies. Though this is not true, two orebodies have been shown, one by drill holes from No. 12 cross-cut and the other in the breast of No. 2, where iron pyrites has been found in a copper tenor till it now runs about 5 per cent and is growing better. The bonds on this property have been extended until late this year, and it is understood that conversion to a mining company takes place in November or December, and that the plan has been settled upon; it probably will be similar to that on which Calumet & Pittsburg was converted a year ago.

The conversion of Pittsburg & Duluth will leave only Junction as a low capitalized development company, and finds in the shaft with diamond drill indicate that it, too, is liable to be a mine. There yet remain 80 to be called of the original subscription, and the company share on this mine, and this will be called for slowly during the coming year. It is quite possible that Junction may never be converted, even if a mine is found for it will not require the large sums that have been necessary in the case of each of the other companies.

Calumet & Bisbee has not been able to make arrangements for an extension of its bonds, and though it owns fifty acres in fact is a subsidiary as to the future. All its improvements are upon the ground held in fee. The company is busy and in hopes of finding ore later. It owes \$85,000 on the Denn group of 212 acres, the major part of its capital.

In the Higgins Development property where they have been driving a tunnel under the top of the mountain to cut some ore found in surface exploration, they have been successful to the extent of getting several feet of good ore. It is at no considerable depth, and the tonnage exposed is yet quite meagre, but the exploration is looking better than at any time since the company began, two years ago.

In the Lake Superior & Pittsburg the 1100-foot drift, which has been cutting toward ore bodies encountered in the 1000-foot drift, finally has reached them, and at a point that indicates a considerable extension of the ore lens with depth. This ore body is the most important that has been cut in the camp. Development underground at this property will be stopped in a few days, for the enlargement of Cole shaft.

It is a curious thing, but the Calumet & Pittsburg pumps are now draining the Junction shaft, though the two are more than 5000 feet apart. It is an indication that the entire ground between the two is mineral bearing, broken line on the surface. This is an indication of the fact that the Junction shaft is of great importance to that mine.

The new mine of the Coelise Consolidated Copper company, in the Chiricahua Mountains, is employing about twenty-five men and is making shipments to the Douglas smelters. The ore carries considerable lead in addition to its copper contents. This property has been examined by noted engineers, including J. H. Hammond, and is said to be an excellent showing. It is the most advanced of any of the Chiricahua group.

The Duluth & Chiricahua Development company has cut a large amount of carbonate on the Sullivan claims. Development has not extended below oxidation, and the beginning of iron staining has delayed. The company has a large number of claims and is carrying forward development slowly. This group is about four miles from that of the original Chiricahua development.

A group of claims lying on the east side of Sacramento Hill, and generally supposed to be on the wrong side of the porphyry dyke, has been bought by G. H. Crosby and associates, from Minneapolis. They will explore for a diamond drill. That line does dip under porphyry for at least some distance has been proved already by the explorations at Junction, where the drills have proved a depth of half a mile of possible mineral bearing ground that was not looked for from surface work.

The Apache group and Blue Bell properties, near Hecla, are under option to the Guggenheim Exploration Syndicate. The Copper Glance has pulled its drills, paid off its indebtedness, and the affairs of the Calumet & Coelise are even worse than was supposed possible. It now seems that all its machinery must be left on the ground, reverting to the owners of the land, and the stockholders, who put up \$200,000 will not even get the money for which this valuable plant is sold.

The report that the Wolverine & Arizona stop work is denied. The Copper Queen mine is employing a force of 1,200 men underground and is daily sending to the new smelter at Douglas some 12,000 tons of ore. With overworked, it is a fact that the recent decision to increase the capacity of the smelter.

The Houghton has recently put off a part of its working force pending the arrival of additional machinery to be installed at the property. Orders for this machinery were recently placed at El Paso, and delivery is expected in about thirty days. When it is made the force at the mine will be restored to its normal strength. The tunnel being driven is now in 1,300 feet levels. The new hospital being built by the C. & A. Mining company is nearing completion and will be a model in every respect.

Mitchell Development.

The Bisbee Review says: A delegation of stockholders of the Mitchell Development company interested in its Houghton property, is expected to arrive in this city shortly from Michigan.

The object of the visit is understood to be to carry out the instructions of the recent stockholders' meeting held at

HOTEL DEE HOUGHTON, MICH. THOROUGHLY RENOVATED AND BETTER THAN EVER Operated in Connection With the Board of Trade Cafe Rates: On the American Plan, \$2.00 F. M. SACKRIDER, PROPRIETOR.

Save Fuel and Money! You can do this every day during the winter months by covering your Heater Pipes, Steam Pipes, Heater Flues, etc. WITH... Keasbey and Mattison Company's Sectional Magnesia Coverings, or with Ambler Asbestos Air-Cell Coverings. For prices and information call or write Keasbey and Mattison Co. THOMAS BEYENKA, MGR., HOUGHTON, MICH.

Shipping, at which it was decided that if the company could secure an extension of the time fixed in its bond for the next payment on the claims, resumption of development would be in order. The delegation will talk to that end with the owners of the property, who are located in this city and immediate neighborhood.

It was reported yesterday as very likely that the extension of time would be granted. Though not all the owners favor this action the majority are favorable and it is believed that the others will be shown satisfactorily that refusal to extend the time would mean that they would be left in the way of their own betterment in the end.

The company will argue that it has put \$73,000 into the ground to get a seven-foot streak of ore. This ore is at 731 feet in the drill hole, and is not considered a brilliant showing for the amount of money expended to get it, though further development may make a big mine. However, the eastern stockholders think that they should be shown the consideration asked in the way of some time on payments, while going ahead to see what they really have. It has also been pointed out that the drill hole is a distance from the principal body of claims under bond, and that the company might, if it desired, very easily purchase the ground upon which the drill hole has ore and let the rest slide. Indications are, however, as stated above, that adjustment of matters will be made satisfactorily to all parties, and the development of the property will proceed from the point where it was recently left off.

In reply to recent criticism published in the Bisbee Review, Horace J. Stevens of Houghton writes that paper as follows: I have gone on record too emphatically and too many times as to my high opinion of the value of the Warren district in being desiring that field be opened to the copper business. I have never lost faith in Bisbee, and have just as much as I ever had and believe that Bisbee is certain to make another Butte. This does not mean, however, that every mining company organized there will be successful. For several years past I have been commenting favorably on the fine new mines opened there, and have warned investors to be careful when putting their money into the Arizona district, as to leave something about the company, its finances, lands and management before investing in the stock.

Bisbee is too big a mining camp and too great a stimulus to worry about honest criticism. The greatest failures in the world are invariably to be found in the best mining districts. Mineral values do not extend indefinitely in all directions from even the richest mines. A mining camp may prosper temporarily because of the unwise investments on its prospects, but in the long run the truth will cut. Bisbee has enough good mines and good prospects to stand any amount of criticism, so long as it is well informed and honest.

I have confidence that there will be more mines opened in the Warren district than have yet struck ore. Although the Calumet & Coelise has thrown up the sponge, I believe that two of their claims are of exceptional promise. It is one thing to criticize a company that has gone under through defective plans or hard luck, and another thing to condemn the ground on which their work was done. The best dividend payer of Lake Superior, outside of the Calumet & Hecla, is the Wolverine, which was a thoroughly discredited property when taken by the present management. Alton is a prime favorer of Bisbee. I have known Alton for years of repeated failures and nothing but failures. Our people are persistent and they are not going to be scared out of Bisbee because a few failures are scored, some of the ground on which development companies are now falling will eventually make good mines.

In conclusion I would advise you not to be too touchy because of criticism or what you may deem criticism of Bisbee's mines and its prospects. Unless the history of mining for the past 30 years goes for nothing, you will have several failures to each success. Our people are getting a better understanding of the Warren district than ever before, and they are profiting by their failures.

EVERYTHING BUT THE ICE! In a package of JELLO-ICE CREAM POWDER for making delicious ice cream. Simply add a quart of milk (or milk and cream mixed) to the contents of one package and freeze. No heating or cooking. This is the time of year when ice cream tastes better than anything else you can put on the table. Order to-day from your grocer. Two packages 50 cents.

A VERY REMARKABLE REMEDY. "It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever." For sale by Stafford Drug Co., Hartford, Conn. J. M. Perkins, Negamere, Henry Harwood, Ishpeming.

S. W. Kerr, a prominent business man of Houghton, Wis., says, "Your cough medicine, Hart's Honey and Horshorn, is a good seller and seems to give excellent satisfaction." Hart's Honey and Horshorn contains no opium or other stupefying drugs, and is the best medicine in existence today for Croup and Whooping Cough and the only safe one to give to small children. 25c, 50c and \$1.00 bottles. Sold by The Peoples' Drug Store.

F. MAYER BOOT & SHOE CO. MILWAUKEE, WIS.

City Brevities

Weather forecast: Rain and stationary temperature. Yesterday's temperature: Seven a. m., 43 degrees; noon, 50; 7 p. m., 48. Maximum, 55 degrees; minimum, 43.

Mrs. C. S. Pollock of Duluth is in the city the guest of Mrs. Fraser.

Louis Corbett and C. L. Sporey were Negaunee visitors here yesterday.

There will be a regular meeting of Morse Hose company at 8 o'clock this evening.

The Anchor line freighter Muncy unloaded a consignment of freight here yesterday.

The shrubbery is being planted on the court house grounds. Several hundred plants are being put in.

There will be a meeting of the G. I. A. to the B. L. E. this afternoon at 2 o'clock at the A. O. U. W. hall.

The Ladies' Auxiliary of the L. O. O. F. C. E. will give a dance at Fraternity hall the evening of Monday, Oct. 17.

Mr. and Mrs. J. H. LaRoche have returned from their purchasing trip. Their trunks, Miss Campbell, is also back, and they are preparing for their fall opening, which will occur as soon as the goods are received.

An auction sale of Oriental rugs and fine bric-a-brac will open at three o'clock this afternoon in the store next to the gas office.

The owners are two Armenians named Buchakian and Zambakian, and they carry a really fine stock.

Mrs. Price, 131 West Arch street, was tendered a party by her relatives Monday evening in honor of her sixty-ninth birthday. Cards were played and with other social amusements a pleasant evening was passed.

Mrs. Price herself won the prize for the card playing.

Justice Byrne yesterday sentenced Ole Hanson, a fisherman, to ninety days in the county jail. Hanson is said to periodically indulge in intoxicants to an excessive degree, and while in the absence of his family. There have been several complaints against him on this score, and yesterday when arraigned before Mr. Byrne he was given the limit.

The meteorological summary gives the mean temperature for September as 54 degrees, compared with an average of 55.7 degrees for that month.

The precipitation was 2.56 inches, compared with an average of 3.63 inches. There were only five clear days in the month, twelve being partly cloudy and thirteen cloudy.

The steamer Palmer, with coal, was an arrival at the Pickands dock yesterday. The Rust is taking on pig iron at the upper harbor, and the schooner Johnson is loading lumber at the Dead River dock.

One carrier clearing yesterday were the Masaba, whaleback barge No. 132, Trevor and Joliet, for Conneaut, loaded at the South Shore docks, and the Kallyuga, for Cleveland, the Grammer, for Ashtabula, and the Sika, for Toledo, loaded at the L. S. & I. dock. The arrivals, both at the upper harbor, were the Cadillac and Frontenac.

Supreme Court Matters. The state supreme court disposed of the following matters on Monday last: Mandamus denied in the case of Brown v. Benson. Circuit judge orders to show cause were granted in the cases of Kent and Walker vs. Auditor General and in Jennings vs. Board of Election Commissioners of Delta County.

A writ of certiorari was allowed in the matter of Barlow vs. Sika. A writ of error was allowed to the supreme court of the United States in the case of the People vs. J. L. Congdon. The court convened for the October session yesterday.

The first cases of the docket were on call. Court will adjourn on Friday of this week until Tuesday, the 18th.

Card of Thanks. I wish to thank my relatives and friends for their kindness during my late bereavement, and for the floral tributes at the funeral of my late son, MRS. DUBEX AND FAMILY.

A very large line of goods' neckwear and a general line of furnishings that comes with the Albright bankrupt stock to H. Foster sewer go on sale in connection with the stock of the Van Alstyne company.

Stierle's Photograph gallery moved to 306 North Front street. Now ready for sittings.

Notice. To the property owners, taxpayers and other persons interested in the following proposed sewer in addition to the sewer for the construction of a sewer in Ohio street.

Notice is hereby given that the specifications for the construction of an eight-inch sewer from the street, from a point 30 feet east of the east line of Oak street to a point 400 feet west of the west line of Oak street, with four inch "Y" for lateral sewers, together with estimate of the expense of construction, said sewer go on sale in the city of Marquette. The best offer taken to be done and district to be improved and assessed to pay the cost thereof, are now in the office of the city controller for public examination.

The district to be assessed to pay for said sewer comprises all the lots and parcels of real estate abutting said portion of Ohio street on both sides thereof. The common council of the city of Marquette will meet on Monday, the 17th day of October, A. D. 1904, at 8 o'clock p. m., at the council chamber in the City Hall and consider any objections to said proposed improvement, and the district assessment roll prepared therefor, and for the final confirmation of said sewer.

Dated, October 4th, 1904. DANIEL S. DONOVAN, Recorder of the City of Marquette.

INTERESTING EXHIBITION AND Auction Sale

Lovers of the Luxurious Old Rugs found in Persia, and fine Bric-a-Brac will find entertainment and pleasure in attending the exhibition and superb collection of Rare Oriental Rugs and Bric-a-Brac

Now Being Exhibited by us at 113 North Front St., Next to Marquette Gas Light Co.

The collection embraces an assemblage of rare antiques collected piece by piece in the interior of Persia, including Saruks, Sehnaas, Kermanshahs, Mirs, Serabands, Ardelans, Ispahans, Baku, Teherans, Tabriz, Shiraz, Feraghans, Irans, Mushgabs, Sultanabads, Turkoman, Bokharas, Royal, Princess and rare Khiva Bokharas, original Antique Kilims, Old Mountain Kazaks, and other varied weaves; many of which are entirely out of the market today. Ishpeming Department

LAKE SHAFTS' NEW DRY. SUPERIOR BUTTER BREAD.

Structure Will Be Ready for Use Within the Next Few Weeks.

The modern dry of the Cleveland-Cliffs Iron Company is creating at its new mine a rapidly moving condition. The last of the roof work was finished yesterday and from this time forward the workmen will be employed inside.

The dry will be one of the finest in the iron country. Everything about it will be up-to-date, and nothing will be slighted. The building will accommodate a larger number of men than the present dry, and the men will have the advantage of shower baths, hot and cold water, improved and enlarged lockers, and other conveniences not afforded at the old place.

"YON YONSON" TONIGHT. Dialect Comedy Will Re-Open Theater After Ten Days.

There has been nothing on the boards at Ishpeming theater for the past ten days, but the house opens again this evening with "Yon Yonson," a comedy.

NEARLY 5,000 BARBERS. Registration List Has Increased Considerably During Past Year.

"Michigan's registered barbers have grown in number considerably during the past year," said J. H. Hooper, president of the state board of barber examiners, yesterday.

Henry I. Busby of Hastings, who has been a member of the board for the past three years, is succeeded by Harry C. Wheeler of Saginaw. Notice of the latter's appointment by Governor Bliss was received Monday by Mr. Hooper.

The secretary's office will be removed without delay from Lansing to Saginaw, in order that the new certificates may be issued. The change came at a bad time for Mr. Wheeler as he will have the heaviest work of his incumbency during the first few months, while the licensed barbers throughout the state are being supplied with their certificates.

The board will not likely hold another meeting until all the new certificates are issued. By that time there will be a large number of applicants for examination.

OLD RESIDENT TO LEAVE. Michael Crow, who has lived in Ishpeming for the past thirty-one years, is about to leave for his native place in Ireland.

Michael Crow, who has lived in Ishpeming for the past thirty-one years, is about to leave for his native place in Ireland. He has not been in the best of health lately, and she is not likely to live much longer.

DEMOCRATIC RALLIES. Marquette county Democrats do not intend to let the present campaign pass without a little excitement.

Patrick McKenna, who is known to many Ishpeming people, having lived here a number of years ago, is confined to a hospital at New York, suffering from chronic diabetes.

Agent James H. Malloy, of the Chicago & Northwestern line, has been advised that the time limit on prepaid ticket has been extended to one year, instead of to March 31.

CHAMBERLAIN'S COUGH REMEDY. No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy.

Rev. S. Polkinghorn, late pastor of the Division street Methodist church, was given a line reception at Lake Linden Sunday. His church was crowded at all the services, and Mr. Polkinghorn preached two sermons, making a very favorable impression.

WHAT IS REGO? Re-Go Tonic Laxative Syrup is a preparation originally put up for physicians' use, and it is still largely prescribed by the best practitioners.

Re-Go Tonic Laxative Syrup is a preparation originally put up for physicians' use, and it is still largely prescribed by the best practitioners.

Iron Notes

MESABI DISTRICT.

The Mesabi iron district in Minnesota has been widely known by reason of the practice of mining the ore with steam shovels from open cuts or pits. However, in recent years the Mesabi district has developed a new and more advanced method of mining the ore.

The Mesabi ore is soft and it lies in shallow troughs of large horizontal extension. The covering ordinarily is a mantle of drift material—gravel and boulders—varying in thickness from nothing to 60 feet or more.

The material to be removed varies from glacial till to coarse gravel and boulders weighing several tons. The gravel is frequently hard and is then loosened by blasting with black powder.

Each steam shovel will load seventy-five cars of ore of seventy-five tons capacity in ten hours. The shovel works on a face about 25 feet high. The ore is loosened by blasting with the gravel.

The system of tracks in the different mines varies considerably. The Mahoning mine has one approach and the tracks are laid on the plan of a spiral with the lowest in the center.

The "milling" system of mining is used for about seven per cent of the Mesabi ore. The ore is stripped as in the open cut mining, but instead of loading directly into railroad cars, a shaft is sunk usually in the wall rock and drifts run out into the ore at a base level.

The Medicine That Cures.

WINE OF GARDUI

Wine of Gardui absolutely does cure sick women. I consider it the most valuable medicine, and it is the cheapest cure any sick woman can use, as it takes as a rule, only a few bottles to effect a complete and lasting cure. I especially recommend it for uterine or ovarian troubles, inflammation and ulceration, painful profuse or scanty menstruation and it is a most valuable adjunct to use during the gestative period, insuring easy childbirth and speedy recovery.

It should have a place in every home as it is a true friend to wife, mother and maiden and I most heartily recommend it.

Dr. E. Buchanan
WRITER AND LECTURER.

Dr. Mrs. Buchanan is an authority on the science of medicine and certainly appreciates the great work physicians are doing for the relief of sufferers. But this does not deter her from expressing her views in praise of Wine of Gardui.

Mrs. Buchanan's high intelligence and long and successful experience render her advice of great value. Wine of Gardui regulates menstruation, cures bearing-down pains and relieves suffering women of the pain and misery to which their sex is heir. You have the word of Dr. Buchanan and thousands of other eminent women that Wine of Gardui will completely cure you.

All druggists sell \$1.00 bottles Wine of Gardui.

WILL DETERMINE TAX RATE.
Assessor's Roll Will Be Presented to the Council Tomorrow Evening.

The regular monthly meeting of the city council will be held tomorrow evening, and City Assessor T. M. Wells will present his tax roll for consideration. The board will determine what per cent it is necessary to charge this year. The assessment for real and personal property foots up \$5,698,393, compared with \$5,627,283 last year, or an increase of \$71,110. Last year the board of review decreased the assessor's figures \$281,218, while this year the valuations were lowered \$9,200.

In this year's roll the most important changes in reality were made on the Queen, Lucy, Prince of Wales and Marie Charlotte, the latter having a large percentage of advance than any other property on the roll.

TIME LIMIT EXTENDED.
Tickets for Foreign Passage Bought Now Are Good for One Year.

The Negaunee and Ishpeming agents of the Chicago & Northwestern railway system have been advised that the time limit on tickets from foreign countries has been made one year, instead of six months, as was announced a short time ago, when the advance in third-class tickets was made. The previous time limit was to March 3.

The extension of the time limit will be appreciated by foreign-born people in this country who contemplate sending abroad for relatives or friends. The railroad company advises the early purchase of tickets by all who want to take advantage of the present rates, as there is every indication that they will not stand long. The announcement of another advance, particularly in the price of third-class tickets, is expected at any time.

An agent said yesterday that a large percentage of the people who come from Europe to locate in this country have their tickets sent them. Very few who send for their people forward the cash. The ticket agents here are active in hunting up prospective purchasers, and information as to the best methods of travel is more easily obtained.

The emigrant agents in this country do a great deal to drum up business. The foreign ticket business has increased considerably in the upper peninsula during the past few years. A number of men are now permanently engaged looking up prospective patrons. It is said that more tickets have been sold in northern Michigan, Wisconsin and Minnesota in the past year than during any similar period in years. Several parties of from fifty to one hundred residents of this region have come abroad at one time during the past few months.

WILL REMODEL BLOCK.
Lobb Building on Gold Street Will Be Improved.

Material is being delivered for improvements to be made at Mrs. Lobb's building on Gold street, occupied by Joseph Trathen. The front will be changed from Gold street to the south side, facing the South Shore tracks. The entire west end, now the main entrance, will be closed by a solid brick wall, leaving only one window, and possibly a small door. The new front will be larger than the present one and will be provided with plate glass. The interior will be thoroughly overhauled, painted and otherwise improved. Andrew Lindquist has the contract, and the work will be started before the close of this week.

Mr. Lindquist is also improving the interior of Mrs. Lobb's property on the corner of Main street and Brown avenue, which is occupied by T. C. Yates and family. The old chimneys are being torn down and larger ones put in. A modern fire place is also being added.

The new office which Mr. Lindquist created for J. Larson & Son at their fuel yards just below the Consolidated Fuel & Lumber company's yards, was finished Saturday. It is a neat little building and well suited to the needs of the firm.

The shop building at the Negaunee mine will be ready for use within the next week or so. The masons and brick layers finished last Saturday, and the carpenters will be through within a day or two. J. Waldman & Son have the contract for all but the painting. The latter is being done by Trembath Bros. of Ishpeming. The new structure will accommodate the carpenters, blacksmiths and machinists, the three shops being connected by doors.

MANY JOBS AHEAD.

J. W. Simcox, the plumber, is perhaps one of the busiest men in the upper peninsula. He and his help have been kept on the go all summer, and just now the work is crowding in on them unusually fast. Mr. Simcox has a large number of orders booked ahead, and if the rush continues he will soon add another man to his force. He has several good-sized contracts, on some of which he has started work.

MRS. ARLAND'S MILLINERY OPENING.

I take pleasure in announcing my fall millinery opening for Wednesday and Thursday next, Oct. 5 and 6, at which time I will display all the latest novelties for the fall and winter season, including the St. Louis sailor, the latest novelty. All are invited to call and inspect my stock.

MRS. ARLAND.
(10-14)

LOCAL LAONICS.

Richard Stevens is building an addition to his residence property.

Mrs. N. Oswald, an old resident of Turin, was a Negaunee visitor yesterday.

Thomas Connors and Hans J. Peterson spent yesterday near Lathrop bird hunting.

Joe Lacombe has an offer of a position as bartender in Ishpeming and may decide to accept it.

A regular monthly meeting of No. 1 hose company was held Monday evening. No. 2 company will hold its regular meeting this evening.

Paul Greer, who is overlooking Ferguson Bros.' work in the camps, twenty-five miles north of here in the Dead River district, rode in Monday.

The street cars have been provided with improved trolley holders, which save the conductor a great deal of work. The rope winds and inwinds automatically.

The plants and foliage that escaped destruction by frost at the Cleveland-Citrus company's office lawn last week have been removed to the Negaunee greenhouses for the winter.

James Demarse and Frank Daniel left yesterday for a lumber camp near Escanaba, where they expect to remain all winter. A few of their friends talk of joining them soon. They have been advised by the management of the camp that they can get work any time they apply.

Nicholas Laughlin, Jr., D. McDonald, Jr., John Kelly and Ed. Laughlin, ticket agent at the Chicago & Northwestern depot, will leave this evening for the World's Fair. They will be away ten days or two weeks. A number of other Negaunee people contemplate taking in the Fair during the next few weeks.

BETTER THAN PILLS.

The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartics and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine. Then they not only make the bowels but improve the appetite and aid the digestion. For sale at 25 cents per bottle by Stafford Drug Co., Marquette, J. M. Perkins, Negaunee, Henry Harwood, Ishpeming.

Dr. Weaver's Syrup
Purifies the blood; Cerate (ointment) for the skin.

MILLINERY OPENING.

My fall opening of millinery will take place on Tuesday and Wednesday, Oct. 4 and 5. A large assortment of the season's latest styles and novelties. The ladies are invited to call.

MRS. J. S. JOHNSON,
Mulvey building, Iron street.

MUCH MONEY PUT IN STREETS AND WALKS

WORK ON FORMER HAS CEASED FOR THE SEASON OF 1904 AND ROLLERS WILL BE STORED.

WHAT HAS BEEN ACCOMPLISHED

Year Unusually Big in the Matter of Concrete Sidewalk Construction—Mr. French Has Had Some Large Special Jobs.

Street and sidewalk work for the season of 1904 is rapidly being brought to a close in Marquette. The concrete work is already practically finished and the road rollers will be put in storage for the winter season this week.

There is no letup in the demand for concrete walks. The street commissioner has orders sufficient in number to keep him busy until the end of the season, and he expects to have to let some of the jobs go over until next spring.

Mr. French says that upwards of two miles of walks have been laid this year. But about 200 feet of plank walk has been put in. People all demand cement, irrespective of their circumstances or where they live.

Mr. French says that upwards of two miles of walks have been laid this year. But about 200 feet of plank walk has been put in. People all demand cement, irrespective of their circumstances or where they live.

Mr. French has done a number of special jobs this year. The most important of these were the walks and flights of steps at the court house, a prominent feature on the grounds.

Street Work. Street work has progressed with excellent results during the season, under the supervision of the street commissioner and the street and sewers committee.

rolling mill and the Carp furnace, a stretch of over a mile which for several years had been in abominable condition. It is now a firm, permanent driveway, and is greatly appreciated by the farmers from the townships and many other people who have occasion to use it.

The season has seen a great advance for Marquette toward a goal of an irreplaceable civic beauty. The various street and sidewalk improvements above mentioned will be no mean achievement for any city of 10,000 people in a single year.

AN INSURANCE CENTER

Marquette is rapidly becoming one of the Upper Peninsula. Very few people not directly interested in getting to what an extent Marquette is really to be the insurance center of northern Michigan.

The latest general agency appointment. The Michigan Journal notices by the last issue of the Western Underwriter, is that of the firm of Peter White & Co., the Mutual Benefit Life Insurance company of Newark, N. J., one of the old line, conservative companies, organized in 1845, having divided the state and placed this north country under the control of the above named Marquette agent.

PROHIBITION ADDRESS

W. A. Brubaker Talked at Swedish M. E. Church Last Evening. A Prohibition rally was held last evening at the Swedish M. E. church, the speaker being W. A. Brubaker.

FELL INTO THE LAKE

Unknown Man Drowned in the Harbor This Morning. An unknown man, apparently a stranger in the city, lost his life by drowning in the harbor early this morning.

It brings to the little ones that priceless gift of healthy flesh, solid bone and muscle. That's what Hollister's Rocky Mountain Tea does. Best baby medicine on earth.

J. H. Foster has just received the inventory of the bankrupt Albright company's stock which was sold at his bid in New York.

Buy your piano at home. We represent manufacturers whose instruments are acknowledged to be of the highest known standard.

George Perrin, the Clifton Hotel barber, located in writing room. Shop open from 7 a. m. to 8 p. m.

For a good oyster stew or broiled lobster try the Superior Cafe, 303 South Front street. Theater and dinner parties receive strict attention.

GRABOWER-LEVINE NUPTIALS.

Were Celebrated Here at Bride's Home Yesterday Afternoon.

The nuptials of Miss Bertha H. Grabower, daughter of Mr. and Mrs. Louis Grabower, and Philip Levine, a member of a leading mercantile firm at Negaunee, were celebrated yesterday afternoon at the bride's home on East Arch street, in the presence of a company of relatives of the contracting parties.

HARVEST FESTIVAL SALE.

Was Held Last Night by the Salvation Army.

The sale that always concludes the annual Harvest Festival of the Salvation Army was held last evening at the barracks, and a quantity of vegetables, fruits, potatoes, provisions, garments and other things donated by friends was disposed of at auction.

SPECIAL MEMORIAL DAY.

Will Be Observed by the Elks Lodges October 15.

At the grand lodge meeting of the Benevolent and Protective Order of Elks, held last July in Cincinnati, Ohio, a resolution was passed designating October 15 of every year to be observed by every subordinate lodge as a special memorial day.

COURT SITS SATURDAY.

Judge Stone Will Then Grant Second Papers to Applicants.

Hon. J. W. Stone has notified County Clerk Ross that he will hold court Saturday, Oct. 8, at 1:30 o'clock, for the giving of second papers to all applicants entitled thereto.

"YON YONSON."

Drew a Good Crowd to Opera House Last Evening.

"Yon Yonson" drew a good crowd to the opera house last evening. Yon is the same old, delightful fellow, and is well depicted in the present company by Mr. Brodstone.

OPPORTUNITY FOR BARBERS.

We are prepared to receive proposals for rental of our new barber shop, recently fitted up in the southwest room of our basement. In addition to three chairs, there are two bath rooms, ventilated by forced draft and an electric massage machine of the most recent pattern.

MARQUETTE NATIONAL BANK.

(10-5-11)

The sale of two bankrupt stocks, the Van Alstyn stock and another large stock from New York, at the same time will no doubt cause quite a stir in Marquette and nearby towns.

F. H. Vandenhoeck is now ready to put in the market 1,000 bushels early Dewdrops, the earliest known and best grown potatoes in Michigan.

HARD WOOD.

Dry Block and Split Maple Wood. (9-12) F. B. SPEAR & SONS

OPPORTUNITY FOR BARBERS.

Marquette National Bank Wants to Rent a Modern Shop.

The Marquette National bank has fitted up one of the finest barber shops in the north country in its southwest basement room, corner of Front and Washington streets, and is now advertising for proposals for rental of the same.

The bank has no tenant in sight as yet, and has borne the considerable expense of fitting the shop up itself. The fixtures will be rented, not sold, and it is the purpose of the bank management to get in a responsible and well recommended barber.

STOCKS WELL BOUGHT.

Alouze Has Held Up Under Persistent Selling—Other Notes of News.

Paine, Webber & Co. wired concerning the Boston market: "Stocks were well bought today on all sides. Heavy liquidation from the lake on Alouze made a very feverish market.

Wheat Market Lower.

Logan & Bryan wired Paine, Webber & Co. regarding the wheat market: "The wheat market is about 1/2 lower. It was very dull and hesitating during the early part of the day, but closed well.

Continued Great Strength.

Fanis & Stoppani wired J. A. Fuller & Co. regarding the New York market: "The market has continued to show great strength and absorptive power, some stocks making new high records while other leaders reacted slightly under the profit-taking.
