JAPS FALLING BACK AS RUSSIANS ADVANCE

Mukden Advances Report the Outposts Being Driven in All Along the Line.

KUROPATKIN'S FORCES NOW THE STRONGER

Are Moving South Along the Railroad in Two Columns, With Oyama's Armies Concentrating Upon Positions North of Liao Yang, and What Is Believed Will Be a Battle Deciding the Fate of the Campaign Seems Only a Few Days Ahead--St. Petersburg Confident a Weak Point Has Been Found in the Enemy's Armor and That the Lost Ground Will Speedily Be Regained.

Mukden, Oct. 9.—[Delayed].—The sound of heavy cannonading is distinctly audible from the center of the Russian advance.

Mukden, Oct. 10.—The Japanese main army is retiring southward, its right wing having gone thirty miles. The Japanese are giving up not only positions which they occupied after the battle of Liao Yang, but places they had previously taken.

St. Petersburg, Oct. 10.—Midnight.—A battle upon which the fate of this year's campaign in Manchuria depends seems only a few days ahead.

Advices from the front are meagre. All that is positively known officially is that General Kuropatkin has cast the die at last, has about-faced his army and is marching resolutely against the enemy as if resolved to do or die.

According to unofficial reports, Field Marshal Oyama, at the first sign of General Kuropatkin taking the offensive, began drawing in his line and concentrating upon fortified positions north of Liao Yang.

According to the latest reports from Mukden, dated at 6 o'clock tonight, the Japanese outposts are being driven in all along the line. The strategy of the forward movement will be concealed, as were the preparations for the advance, so that all surmises as to where Kuropatkin intends to strike are mere guesses.

Light has been thrown upon the considerations which led General Kuropatkin suddenly to assume the offensive; but no word is heard at the war office intimating that the course was ill-considered, while not underestimating the heavy task and severe sacrifices involved in assuming the offensive, nevertheless express absolute confidence that Kuropatkin has found a weak point in the Japanese armor.

Different explanations abound as to the reason for making the forward movement at this time. The advance is attributed to realization by Kuropatkin of the difficulty the Japanese have encountered in making good their losses at Liao Yang and replenishing their supplies and ammunition, or possibly to a drawing off of a portion of the Japanese troops to reinforce General Nogi in a desperate endeavor to end the siege of Port Arthur.

Whatever the explanation, it is apparent from the hasty manner in which the Japanese withdrew before the first show of Russian strength that their recent ostentatious preparations for an advance were largely a bluff.

The best opinion here is that the impending battle is likely to develop with startling rapidity. It is reported that the Japanese have abandoned Shianhan, Saimatze and Meichoulin, east of Liao Yang.

Russians the Stronger. St. Petersburg, Oct. 10.—The report of the capture of Bentsiapuz, which was strongly fortified and where General Kuroki commanded in person, is officially confirmed.

The fighting was not severe, the Japanese retiring on finding themselves outflanked. The Russian losses were only twenty-five men killed or wounded, including one officer.

A high officer of the general staff informed the Associated Press today that General Kuropatkin has prepared his advance with great care but that when the main collision will occur will depend on circumstances. Heavy fighting is hardly likely before a week, at the earliest.

According to the estimates of the war office, Field Marshal Oyama's total strength is about 200,000 men, of whom 150,000 are posted between the Hun river, to the west, and Bentsiapuz, at the eastward, the remainder being held in reserve at Liao Yang.

General Kuropatkin disposes of nine corps, giving him, perhaps, a slight superiority in numbers. With Kuropatkin acting on the offensive, reinforcements will be pushed forward with all possible speed, the remainder being held in reserve at Liao Yang.

The Russian commander is in the field, personally directing the forward movements of the army, which, it is now understood, is divided into two detachments, moving on each side of the railroad, whence they will draw their supplies, their flanks being assured by no less than one hundred and fifty squadrons of Cossacks. The Russians are operating along a front of between forty and forty-five miles.

Jap Reinforcements Coming Up. A dispatch from the Russian headquarters at Mukden says that the land blockade of Port Arthur has been weakened, that the Japanese at Liao Yang have been reinforced by fifteen thousand men by way of New Chang and that they expect three additional divisions in a few days.

Chinese Troops Defeat Rebels. Shanghai, Oct. 10.—A telegram from Kwellin, southern China, says that Chi-

While General Kuropatkin has continued to advance his entire front against the armies of Field Marshal Oyama, he has not met with any formidable opposition. However, the expectation is that a battle of magnitude must be fought within a few days. It is believed the Japanese will make a stand at Liao Yang.

Several positions east of that place have been abandoned by the Japanese. At St. Petersburg it is surmised that Oyama's forces have been weakened by the dispatch of troops to the west Nogi relieving Port Arthur, and that this condition has afforded Kuropatkin opportunity to recover the ground lost during August.

ness troops have defeated a large body of rebels at Loehenschier after three days fighting. The boxer movement is reported spreading in the northern provinces.

RUSSIAN SQUADRON SHELLED. Three Ships Reported Destroyed in the Port Arthur Harbor.

Tokio, Oct. 10.—It is reported here that the Japanese recently centered their fire from the land positions and from the fleet blockading Port Arthur on the west harbor with the object of destroying the Russian fleet, the bombardment being successful in sinking three vessels, the names and character of which are unknown.

Bombardment Occurring Daily. The Foo, Oct. 10.—A Russian agent here announces authoritatively that there has been no fighting of importance at Port Arthur since Sept. 19 to 25. On the night of Oct. 5 the Japanese landed a force from Tache bay and the Russians retired in the face of superior numbers. The next day, however, the Japanese were driven out by an artillery fire, one of which they had managed to bring destroyed. The Japanese engage in bombardments for three or four hours daily.

London, Tuesday, Oct. 11.—The Post's Shanghai correspondent says it is stated that Lieutenant General Stoessel has reported that unless he is relieved before December, he must surrender.

Car Bids Fleet Farewell. Revel, Russia, Oct. 10.—Emperor Nicholas today inspected the torpedo flotilla that are to accompany the Baltic fleet to the Far East. His majesty made a speech to the crews, thanking them for their past services and wishing them a pleasant voyage.

St. Petersburg, Oct. 10.—After a farewell review of the Baltic fleet at Revel today by Emperor Nicholas, the squadron sailed for Libau, whence, it is declared, it will within a few days weigh anchor for the long voyage to the Pacific.

SECRET UNDERSTANDING. Rumor of a Russo-German Agreement Again Being Discussed.

St. Petersburg, Tuesday, Oct. 11.—The rumor of a secret understanding between Russia and Germany covering the war in the Far East has again been revived. According to the latest version Germany gives certain guarantees to the czar regarding the German frontier, which will enable Russia to withdraw troops from garrisons in Russian Poland and dispatch them to the Far East, besides agreeing to support Russia in the peace negotiations at the end of the war. Germany's compensation, in addition to the concessions made in commercial treaties already negotiated, is to be the support of Russia in an attempt to incorporate The Netherlands in the German confederation in the event of the death of Queen Wilhelmina, without a direct heir. Nothing contradictory of the report is obtainable in responsible governmental circles.

NEW DEVICE SWEEPS CLEAN. Model Labor-Saving Machine Leaves No Dust on the Street.

Worcester, Mass., Oct. 10.—After ten years of experimenting Edward S. Day, a foreman in Worcester's street-cleaning department, has devised a sweeping machine which, it is claimed, will revolutionize this branch of city labor. Last night the new machine was used for the first time. It did the work of three ordinary machines and fourteen men and did it even better.

One man and a pair of horses are all that are required to run the Day sweeper, which may be attached to any ordinary wagon. With the new sweeper no dust is left behind, it taking up even pins in actual test.

END LIVES WITH POISON.

Reading of Trashy Novels Leads to the Suicide of Two Iowa Girls.

Kankakee, Ill., Oct. 10.—A suicide pact has resulted in the death of Minnie Island, twenty years old, and Lulu Cook, aged fourteen, daughters of farmers living twenty miles south of this city. Clashed in each other's arms they drank the contents of an empty bottle of strychnine. Death came before medical aid could be summoned. Reading trashy novels is said to have led to the suicide.

Kills His Two Children.

Cleveland, Oct. 10.—Bohumil Schnepf, a Bohemian, today shot and killed his two children—Emma and John, aged four and three years. Then went to a cemetery and shot himself on his wife's grave. He may recover. Besides shooting his children, Schnepf struck them on the heads with a hammer. He had been ill for months and has brooded over his wife's death.

New York Clubman Kills Himself.

New York, Oct. 10.—Frank Depeyster Hall, a member of several prominent clubs, today shot and killed himself. Suit brought by him against two other clubmen, alleging slander and demanding \$100,000 damages, was to have come on in court today.

Wealthy Nebraska Man Murdered.

Lead, S. D., Oct. 10.—Robert Cummings last night shot and fatally injured Daniel Scanlon, a wealthy resident of Hastings, Neb. The cause of the shooting is a mystery.

SOLDIERS' PAY TOO SMALL.

Should Be a Substantial Increase Declares Brigadier General Funston.

Washington, Oct. 10.—Brigadier General Funston, commanding the Department of the Columbia, in his annual report, made public today, says that additional observation and conversation with officers confirm him in the views expressed in his last report that there should be a substantial increase in the pay of the enlisted men of the army. General Funston says: "There can be scarcely a doubt that such action would bring into the army a vastly superior body of men who would remain in the service. It is doubtful if an increase over the present rates of pay of 50 per cent for non-commissioned officers and 30 per cent for privates would be more expensive than under the present rates, when so much time and money are wasted in trying to make soldiers out of an inferior class of men who constitute at least half of the rank and file of the army today."

EVIDENCE OF TRUST RULE.

Refrigerator Car Situation Now Being Officially Looked Into.

Chicago, Oct. 10.—The interstate commerce commission today began an investigation of the private car question and heard the testimony of a number of witnesses. The movement to investigate the situation was originally begun by the National League of Commission Merchants at Louisville a year ago. Evidence is said to have accumulated to show that the entire refrigerator service is in a trust. Companies not only insist upon exclusive contracts, but also demand mileage from the railroads, and thereby gain annual returns of 20 to 25 per cent on the investments. The same statements are made concerning the oil and beer car lines.

SCANDAL IN KANSAS.

Public Funds Found Short Many Thousands of Dollars.

Topeka, Kas., Oct. 10.—Governor Bailey today gave out an official report covering an examination of state treasury and school fund accounts which says: "This examination has developed shortages, irregularities and discrepancies amounting to many thousands of dollars in the twelve counties examined."

MANY NEW FEDERAL BUILDINGS.

Washington, Oct. 10.—James Knox Taylor, supervising architect of the treasury, in his annual report says that during the past year fifteen entirely new buildings and seven extensions to old buildings were completed and occupied. In addition, drawings have been prepared and contracts entered into for thirty-three buildings, making the total number now under construction fifty-three. The total expenditure for the year was \$10,064,142. Mr. Taylor makes special mention of the Chicago fire, and says that unless unforeseen contingencies arise the building will be entirely completed and ready for occupancy by April 1, 1905.

GREAT MISSIONARY MEETING.

Boston, Oct. 10.—The Archbishop of Canterbury and bishops representing various parts of the world addressed a great missionary mass meeting in Tremont Temple tonight.

The principal business transacted by the Episcopal convention today was the adoption of a resolution naming Richmond, Va., as the place for the next triennial convention, in 1907.

HIGHER WAGES FOR MINERS.

Wilkes-Barre, Pa., Oct. 10.—Commissioner Neill has informed the coal companies that he finds the average price of coal at tidewater during September to have been \$4.98. On this basis, he fixes a 5 per cent increase for the miners over the April basis, according to the sliding scale adopted by the strike commission. This is 2 per cent more than was paid in August.

NEW BISHOP INSTALLED.

Missoula, Mont., Oct. 10.—With impressive services and all the ceremonial of the Catholic ritual, and in the presence of a distinguished gathering of church dignitaries, Rev. Matias Clement Lemhan, of Dubuque, Ia., was today installed as bishop of the newly created diocese of Great Falls.

TODAY'S WEATHER.

Washington, Oct. 10.—The following is the weather bureau's forecast for Upper Michigan: Clearing; Tuesday; Wednesday, increasing winds and fair.

FIFTY CHILEANS KILLED.

Santiago de Chile, Oct. 10.—By the collapse of a building in course of construction here, today, fifty men were killed.

WYNNE SUCCEEDS PAYNE.

First Assistant Postmaster General Becomes Chief of the Department.

Washington, Oct. 10.—The president today announced the appointment of Robert J. Wynne as postmaster general. The newly appointed postmaster general was formally inducted into his new office at 4 o'clock this afternoon. The ceremony occurred in the private office in the postoffice department which he has occupied since he became first assistant postmaster general. The oath was administered by Chief Clerk Howley, of the first assistant's office, who now becomes acting first assistant postmaster general. The commission, like that of most recess appointments, makes the appointment effective "until the end of the next session of the senate of the United States."

TWENTY-NINE DIE IN RAILROAD WRECK

PASSENGER TRAIN AND A HEAVY FREIGHT MEET HEAD-ON IN MISSOURI.

CONSEQUENCES ARE HORRIFYING

ENGINE PLOUGHS HALF WAY THROUGH A COACH.

Excursionists Bound for the World's Fair Are the Victims, and Aside from Those Killed Three Score Are Hurt, a Number Fatally.

Warrenburg, Mo., Oct. 10.—Twenty-nine persons were killed and sixty injured, some of them fatally, in a head-on collision at 4 o'clock this morning two miles and a half east of here between the second section of a Missouri Pacific passenger train, which left Wichita, Kas., last night for St. Louis with World's Fair excursionists, and a heavy westbound extra freight train. Both engineers and firemen saw the danger and jumped.

The passenger train was made up of three coaches and a Pullman, with no baggage car, the front coach being next to the tender. When the trains met, the heavy freight train pushed the passenger engine back into the first coach. The tender literally cut the coach in two and never stopped until it had ploughed itself half way through the car and its passengers, killing those in the forward end, and mangle all within reach in the most horrible manner.

The next two coaches were badly damaged, but the passengers fared better, all except a few, escaping with slight injuries. The wreckage was upright and none of its occupants were hurt.

Names of the Victims. The dead were: Mrs. A. J. Darsk and twelve-year-old son Gilbert, Dexter, Kas.; W. H. Allen and two sons, Baird and Francis, Pittsburg, Kas.; Dorsey Green, Pennsylvania, Mo.; F. P. Doree, Dick Ream, Cal Ream, and Gertrude Loud, Bronaugh, Mo.; Ada Kane, Pittsburg, Kas.; Dollie Sullivan, T. H. Alley and Miss Nellie Sullivan, Cedarvale, Kas.; G. A. Weber, Forestville, Pa.; Dr. H. P. McIlhenny, Bessie McIlhenny and Mrs. Susan Cooper, Kingman, Kas.; Phil Ragel, wife and son, Edna, Kas.; Harry Karr and Mrs. J. J. Cassant, Solon, Kas.; W. Seidl, brakeman, Jefferson City, Mo.; Clarence Ollie and Jessie Herring, Coffeyville, Kas.; Josie Gregg, Sedan, Kas.; and an unidentified woman riding in the cab of the passenger engine.

Most of the injured are from small towns in Kansas and only one—Mrs. A. J. Wood, of Oxford, Kas.—is now reported fatally hurt.

LOSES LIFE IN TEST OF STRENGTH

Chicago Man Killed Amid an Admiring Thrill in a Dance Hall.

Chicago, Oct. 10.—Lifting a keg of beer high above his head as an exhibition of his strength at an admiring throng, Henry Peters, son of John Peters, formerly building commissioner, slipped upon the wet floor and fell, the heavy keg striking his head and fracturing the skull. He died a short time later at the Alexian Brothers' hospital. The accident occurred at a dance hall at 150 North Clark street. Young Peters, who was twenty-four years of age, was noted for his strength throughout the neighborhood. He noticed a group of men standing about the keg of beer, discussing its weight, and joined in the conversation. Someone in the crowd declared that no one present could put the keg over his head. "Why, that's easy," said Peters; "I'll show you."

A group of young men and women, all friends of Peters, gathered about to see him perform the feat. The keg and its contents weighed nearly 200 pounds, and none of those present believed the young giant could make good his boast. Peters had no difficulty in swinging the keg to a point several inches above his head. Then, slowly, he extended his arms, raising the keg higher.

Having assumed the new position with the keg Peter's entire strength was necessary. His attitude was tense when he decided to lower the keg to the floor. A slight awkward twist proved the undoing of his feat of strength as he endeavored to hold the keg so it would not strike the floor too hard.

Policeman John O'Connell of Summerdale station, who was among the spectators, sprang forward to help Peters, but was too late. Peters' feet slipped and he fell on his back, the heavy keg striking his forehead.

A call for help was at once given and an ambulance hurried to the hall. The unconscious man was placed in the vehicle, but Alexian Brothers' hospital had just been reached when Peters died without having regained consciousness.

JURISTS AT THE WHITE HOUSE.

Washington, Oct. 10.—President Roosevelt today received a formal call from Chief Justice Fuller and the associate justices of the United States supreme court on the occasion of the opening of the fall term of court.

 Per month, by carrier, \$1.00
 Per year, by mail, \$10.00

MARQUETTE, MICH., OCT. 11.

Entered as mail matter of the second class
 at the postoffice at Marquette, Mich.

Press dispatches convey the information
 that Judge Parker has hopes of
 carrying Rhode Island. It would re-
 quire at least two dozen Rhode Island
 to help out his case.

The Democrats and Republicans at
 the Soo have reached a point of enthu-
 siasm where they have been impelled to
 organize campaign clubs. For a city
 north of the straits that is doing pret-
 ty well.

"Naturally when the staff correspond-
 ent gets to presenting Candidate Ferris
 with an audience larger than the gross
 population of the town, there's bound
 to be a popular protest," remarks the
 Detroit Journal.

The Detroit Tigers are through with
 their American League baseball season,
 and Michigan fans feel greatly re-
 lieved. No longer will they have to
 seek the sporting column of their news-
 papers to ascertain how badly the re-
 spectable team has been defeated.

All roads now lead to the Worlds
 Fair and the railways are doing their
 best to make travel cheaper than stay-
 ing at home. In a Milwaukee paper is
 noticed an advertisement of a rate of
 \$7 for the round trip to St. Louis. If
 this is a sample of what the railroads
 are doing, no wonder the fair attend-
 ance is picking up.

In view of the recent happenings in
 the state of Wisconsin the Milwaukee
 Sentinel, stalwart down to the newest
 "devil," should receive ready sympathy.
 Its roars have lost all their wonted
 boldness. It is becoming meek and lam-
 like, and its new tone indicates that at
 last it is beginning to comprehend the
 handwriting on the wall.

There was little of significance in
 Saturday's football games participated
 in by the colleges of the Big Nine. They
 were all in the nature of easy triumphs
 for the leading teams. Michigan nearly
 made a century score against Kalama-
 zoo, but from the Michigan standpoint
 it was only a romp. Wisconsin, it
 seems, should have done better against
 Marquette college, but Wisconsin will
 doubtless be strong enough when her
 crucial games are due. Michigan con-
 tinues to look like a champion.

The official attendance statement for
 Chicago day at the World's Fair cuts
 the figures given out originally in half,
 it having been but 163,000. The attend-
 ance for last week was well up to
 1,000,000, being 800,000 in round num-
 bers. Lately fair attendance has shown
 a goodly increase and the remaining
 weeks of October and the month of
 November should be the heyday of the
 exposition. Michigan Day came this
 week, tomorrow, and will be attended
 by appropriate exercises at the Michi-
 gan building. The day will see the
 largest attendance of Michigan people
 on the grounds that has been present at
 any time since the fair opened.

If Kuropatkin is acting on orders
 from St. Petersburg, the sudden change
 in his tactics involved in the turn on
 the Japanese is likely to prove the
 most disastrous step yet undertaken by
 the Russians. If, on the other hand,
 Kuropatkin has figured out an oppor-
 tunity to win and is taking the step on
 his own responsibility he must surely
 at least have an even chance for victory.
 In any event it is a welcome variety to
 see the Russians on the offensive, al-
 though in reflecting how they were
 handled by the Japs when all they had
 to do was hold their ground and fight
 it is impossible to avoid solitude for
 their welfare in the immediate future.

The trials and vicissitudes of the
 Wisconsin Stalwarts multiply with each
 passing day. How long the movement
 will continue to stagger on unless there
 is a speedy end to the buffets from
 Dame Fortune is problematical, but it
 would seem that it must soon go under.
 Last week supreme court to keep hands
 off the factional troubles of the party,
 a virtual La Follette victory. It was
 followed by Mr. Cook's withdrawal
 from the Stalwart ticket, on which he
 had been placed on the gubernatorial
 nominee. Now the La Follette state
 central committee has been reorganized
 by the national committee, with the
 request that it arrange a Milwaukee
 date for Senator Fairbanks. In Mil-
 waukee county the canvases resulted in
 giving the La Follette the control of
 the county convention, which they
 dominated and ran at Milwaukee yester-
 day. These are all body blows for the
 Stalwart pretensions and the Stal-
 wart campaign. They would seem to
 indicate that no true Wisconsin Repub-
 lican in the rank and file has any busi-

ness associating himself with any but
 the La Follette organization. They
 suggest that the Stalwarts might as
 well gracefully confess defeat and pro-
 ceed to get off the political earth.

General Apathy is a gentleman who
 has had a hand in several presidential
 campaigns in years gone by, and this
 fall he is demonstrating that he is
 quite as alive as ever. From all parts
 of the country come reports of slight
 interest in matters political, even prom-
 inent speakers failing of good audiences
 unless local conditions have contributed
 to arouse an unusual interest. The ex-
 planation doubtless lies in the fact that
 people have pretty well decided how
 they are going to vote. They have
 greatly liked the past eight years, and
 want some more like 'em. The doubtful
 vote in the hand was probably never
 smaller, and that's why empty chairs
 make up so large a part of many rally
 audiences.

The Soo News spent some money to
 get a first-hand view of the workings of
 the Minnesota primary election law,
 sending a representative to Minnesota
 to give the system an extensive study
 and to get the opinions of party leaders
 and office holders concerning it. Last
 week the News printed an extensive re-
 view of the workings of the reform in
 Minnesota and the esteem in which it
 is held by leading citizens of the state.
 The conclusions are by no means favor-
 able to the Minnesota law. Some of its
 features are good; others have proved
 very bad. The lesson conveyed by
 Minnesota's experience is the necessity
 of going slow in any measure to re-
 place the present nominating system.
 This necessity was urged here Saturday
 night by Judge Kendrick and Speaker
 Carlton. It has been the burden of
 whatever comment The Mining Journal
 has made on the subject. There are
 some features of a reform measure that
 would be a distinct gain for any state,
 but the reform is new and it should be
 handled gingerly. If a sample proved
 good and wholesome the people of
 Michigan could easily place an order for
 as much more as they might want. Thus
 the Republican plank on the subject is
 much more wise and conservative than
 the Democratic plank, the latter call-
 ing, as it does, for "free and unlimit-
 ed" primary reform. This time, too, it
 may be taken for granted that the Re-
 publican plank is a promise that will
 be fulfilled. It will have to be if the
 party is not to stultify itself.

HIS IS A SAD LOT.

While there are encouraging signs in
 other portions of the South of a revolt
 against lynching and of a growing will-
 ingness to give the negro a fair chance,
 the race problem in Mississippi is be-
 coming more and more acute. There it
 is no longer a question of burning the
 black man at the stake for slight of-
 fenses, but of punishing him for being
 a decent, law abiding, thrifty citizen.
 If a negro commits the least infraction
 of the law, or is suspected of having
 done so, he is put to death with horri-
 ble tortures, and if he minds his own
 business, works hard and saves his
 money, he is threatened with the same
 fate.

In one Mississippi town a short time
 ago, the publisher of a religious paper
 who was prosperous, had a piano in his
 house, and drove a horse, was ordered
 out of town under pain of death, his
 business was broken up, and his family
 separated. A store keeper who had a
 horse and buggy was ordered to sell
 them and another negro who was a
 property owner and wore good clothes
 was ordered to wear cheap clothes and
 go to work with a shovel and hoe. These
 men, it was alleged, exerted a bad in-
 fluence upon other negroes by inspiring
 them with too lofty ideas, and showing
 them that negroes could do something
 besides hoe cotton.

Another outbreak of this kind on the
 part of the whites occurred recently at
 Gloster, Amite county. In 1902, it
 seems, certain agreements, or promises,
 were made by the people of that place,
 and a few weeks ago a public meeting
 recited them as follows, and demanded
 their fulfillment:

"That no further land sales be made to
 negroes, that the trade and business of
 negro tenants be solicited without the
 consent of his landlord, and that every
 white person owning large places
 worked by negro labor would always
 keep a white man in charge of those
 places. At the meeting the citizens re-
 solved to encourage no more negroes to
 purchase land because they would not
 be allowed to remain in the South
 should they become the land owners,
 and the promises made at the Liberty
 meeting five years ago were reiterated
 on the grounds that their fulfillment
 was essential to the peace and prosper-
 ity of every citizen of Amite county,
 whether black or white.

This policy will eventually result in
 driving the negroes out of the country.
 They will seek a locality where the op-
 portunity to be men and women, not
 mere beasts or burden, is open to them.
 The people of Amite county are very
 short sighted, but their course shows
 very clearly the underlying sentiment
 which governs the whites of the South
 in their dealings with the negroes.

MORE TROUBLE FOR GERMANY.

The commander-in-chief in Ger-
 man southwest Africa called to Berlin
 a few days ago that he had succeeded in
 breaking the resistance of the rebellious
 Hereros, that the chiefs were quarrel-
 ling among themselves, and that many
 warriors are ready to surrender, but
 feared they would be shot were they to
 come in. The news was received with
 great official satisfaction at Berlin,
 where it was hoped the exceedingly an-
 noying "little war" in south Africa
 might soon be regarded as a "closed in-
 cident."

Unfortunately the substance of the
 report from General Van Trotha had
 hardly become generally known when
 another German quarrel in southwest
 Africa announced an outbreak in a
 new quarter, and under still more dis-
 quieting conditions. A tribe that had
 been regarded as thoroughly loyal, and
 that had acted with the German troops
 against the hostiles, made a sudden at-
 tack on two of the German stations.
 Envoys had been sent to another tribe
 urging cooperation in a general rising
 against German rule. The general send-

ing the report was considerably distur-
 bed by the news, as the tribe in revolt
 had not only been regarded as thorough-
 ly loyal, but had furnished many re-
 cruits to the native troops under Ger-
 man command, and were relied on great-
 ly as scouts.

The Berlin dispatch says "no explana-
 tion is given of the present discontent,"
 but there cannot be much doubt as to
 its cause. The Hereros were not the
 only natives who had suffered from the
 arrogance and autocratic methods of
 the German administrators of the col-
 ony. It wanted only the revolt of one
 tribe to make others imitate their ex-
 ample when opportunity offered. Por-
 tuguese southwest Africa, which ad-
 joins the German possessions on the
 north of the latter, is also in distur-
 bance, and there are indications of a
 possible general movement of the na-
 tives against European rule.

The "rebellious" tribesmen will of
 course be taught a severe lesson on the
 wickedness and folly of resisting the
 civilizing hand grasping a modern
 weapon, but these "little wars" gener-
 ally are costly, and reflect but small
 credit on the "great nation" that is in-
 variably victorious in the end.

Mining News

BISBEE (ARIZ.) DISTRICT.

Correspondence from Bisbee, Ariz.,
 says:

G. H. Crosby, of Duluth, Minn., has
 been here the past few weeks, and has
 taken an option for himself and asso-
 ciates on a number of claims lying east
 of Sacramento hill and on the opposite
 side of the great fault from all mines
 in the camp. Nobody has ever sup-
 posed, and most do not think now, that
 there has been any concentration this
 side of the divided fault. Mr. Crosby
 says that he will explore there with
 drills the coming winter. In the Par-
 adise district his Sullivan claim is show-
 ing some carbonates that look well and
 the owners are very much encouraged.

Bonds on the Michizona, amounting
 \$100,000, will be paid and the property
 taken before January 1. There is con-
 siderable ore in sight from the develop-
 ment of the past three months, and the
 property looks like a mine, when suffi-
 ciently opened. This property is in
 what is called the Turquoise district,
 and much activity has sprung up there
 since the Michizona company took the
 Leadville group. Another large group
 is now on the market, and attempts are
 being made to place it in Minnesota
 and Michigan for \$165,000.

Copper Glances has practically given
 up the ghost, has quit work, pulled its
 drills, paid off its men, and is through.
 It has a few hundred dollars on hand,
 and may sell new stock and become ac-
 tive later if conditions seem favorable.
 In a recent article in the Evening News
 on the Bisbee district, this property
 was referred to as one of those likely to
 be through soon.

Another of the prospects spoken of
 unfavorably in the same article was
 Higgins. At present it is drifting along
 under way in Higgins for the last two
 weeks the drift on about September 20
 should have cut an ore body that had
 been found in a mine. Reports do not
 indicate that it has come in yet. That
 this pocket of ore amounting to 200,000
 pounds, in 1902, the product of the
 Lake mines amounted to 170,325,598
 pounds. The Lake mines stamped last
 month an average of 28,550 tons of rock
 per day, from which the copper product
 was 368 tons, and the gold 2,000 oz.
 or twenty-four pounds of copper per
 ton of rock. Statistics for the month
 as compiled by the Boston News
 Bureau, follow:

LAKE COPPER PRODUCTION.

Plant	Tons	Lbs. cop	ozs. gold
Calumet	6,450,000	5,800	43
Wolverine	823,000	1,000	31
Champion	1,250,000	1,000	30
Tamarack	1,200,000	2,200	24
Mass.	210,000	400	24
Baltic	1,163,400	2,000	23
Amheek	40,000	80	22
Michigan	250,000	480	21
Trinidad	1,575,000	1,200	20
Osceola	1,000,000	3,000	18
Quincy	1,816,000	3,500	20
Centennial	225,000	450	20
Mohawk	706,800	1,500	18
Phoenix	114,000	200	17
Isle Royale	200,000	500	17
Winnona	100,000	150	17
Advent	214,000	380	16
Franklin	488,000	1,250	15
Atlantic	482,000	1,400	13

UNITED STATES MINING.

The United States Mining company's
 new aerial tramway that is being in-
 stalled to handle the ores of its Galena
 mine and deliver them at the Old Jordan
 headworks on the main line, is
 nearing completion. E. E. Allen, gen-
 eral superintendent of the company,
 states that the line will be ready to go
 into commission in ten days. This line
 of tramway will be 1,640 feet long. Its
 operation will be practically automatic.
 It is a double-rope, reversible, self-
 dumping equipment, and to operate it
 one man on a shift will be all that is
 required. All of the lead ores of the
 company's Galena mine will be sent over
 the line to the Old Jordan connection
 with the main line to the loading sta-
 tion at Bingham, so the cost of trans-
 portation from this property, like the
 others of the company, will be reduced
 to a minimum.

ADVENTURE.

The sentiment in regard to Adventure
 is changing. There are now many
 persons who are satisfied that the mine
 is coming out on top. They are basing
 their belief upon what has been accom-
 plished during the past few months.
 From an output of 64 tons for last
 May to 165 tons for September is
 showing worthy of consideration, and
 one which augurs well for the future of
 the property. This, too, has been se-
 cured without any material increase in
 the amount of rock stamped.

The September output is a source
 of gratification to those who are inter-
 ested in the property and is better than
 was anticipated. This places the Ad-
 venture almost on a self-sustaining
 basis and it is believed that in a short
 time it will begin to show good gains.

Operations are being carried forward

LAGRIFFE THEN PNEUMONIA.

No remedy equals Warner's White
 Wine of Tar Syrup for these terrible
 and fatal diseases. If taken thorough-
 ly and in time, will cure a case in 48
 hours, and for the cough that follows
 it never fails to give relief.

THE BEST IN THE WORLD.

Dr. J. W. Hamilton, of San Francisco,
 Cal., says: "I have sold Warner's
 White Wine of Tar Syrup for years. It
 is the best cough remedy I ever saw and
 has no equal for asthma."

THE SHUNNY SIDE

The Shake of Terror.
 (Judge Parker began lightly by shak-
 ing 2,000 Democratic hands at a recep-
 tion one night this week.)

The Democratic Candidate to the door
 post limply clung.
 When full two thousand worshippers
 his cheerful hand had wrung,
 But still he smiled, and still he shook,
 and not a word he said.
 Though this delightful little dirge was
 running through his head:

Beggar and King.
 Jewels have points that wound up; for-
 tune has eyes that sting—
 Better the dream of a beggar than the
 discontent of a king.

Asleep in the nodding grasses, the beg-
 gar had dreamed a dream:
 His was a crown and scepter, rich in
 their jeweled gleam,
 Purple and gold and ermine lent him
 their pride supreme.

Revel and rout and feasting centered
 about his throne,
 Yeoman and slave and noble yields to
 him alone;
 Castle and field and forest—all of them
 were his own.

Waking, his dream was broken, as are
 the dreams of men,
 Idle he thought upon it, laughed, and
 he murmured then:
 "I may regain my kingdom, for I will
 dream again."

Fretting within his palace, there sat the
 king in thought;
 Doubts of his sway assailed him, oft
 with his fears he fought—
 Always asleep of sleeping, he dreamed
 of a traitor's plot.

Kings they must sit and wonder; beg-
 gars may rove and sing—
 Better the dream of a beggar than the
 discontent of a king.
 —W. D. Nesbitt in Chicago Tribune.

QUINCY.

Quincy's output of 1,324 tons of mineral
 was the largest for any month in the
 fifty years that this company has been
 a producer. In these figures, com-
 ments S. J. Beahan, are to be found
 food for reflection among those who
 consider the copper country's copper
 deposits are diminishing in value with
 increasing depths. The claim holds true
 of the Calumet conglomerate but if it
 applies to the amygdaloids the fact has
 yet to be demonstrated. Quincy No. 7
 is an operating shaft only below the
 forty-second level, and yet it supplies
 nearly one-third of the entire mine out-
 put. In fact the great bulk of the com-
 pany's rock is being hoisted from ab-
 normal depths, and yet here it is
 breaking all former records of produc-
 tion. There is as much copper between
 the walls of the Quincy vein in the low-
 er levels as was secured from the opera-
 tion of the early openings, but a disad-
 vantage of the Quincy vein is that it
 is a monthly product of about 1,300
 tons will henceforth be reported regu-
 larly. The increased output cannot but
 be a splendid achievement for the
 amygdaloids, and it is interesting to
 note that the Quincy vein is more
 widely disseminated and does not occur
 in the rich bunches for which the upper
 levels are noted.

The Quincy has already fully recover-
 ed from the strain incident to the
 closing down of No. 5 shaft, and there
 are the best of reasons for believing
 that a monthly product of about 1,300
 tons will henceforth be reported regu-
 larly. The increased output cannot but
 be a splendid achievement for the
 amygdaloids, and it is interesting to
 note that the Quincy vein is more
 widely disseminated and does not occur
 in the rich bunches for which the upper
 levels are noted.

STAMP HEAD CAPACITIES.

The Iron Trade Review's recent ar-
 ticle describing the tour of the Ameri-
 can Engineering Co. in the Lake district
 through the copper country is interest-
 ing and fairly accurate, but it contains
 the astonishing statement that the
 twenty-eight stamp heads in the Calu-
 met & Hecla mills "have an average
 capacity of less than 400 tons of rock
 daily; and there would be a wonder-
 fully different showing in the costs
 of the Calumet & Hecla copper if the
 conglomerate were easier to stamp than
 the amygdaloids, instead of being half a
 dozen times harder. But these condi-
 tions do not exist. An 800-pound
 iron stamp shoe has a maximum life of
 only four days on conglomerate rock,
 according to the Calumet News. This
 means that the stamp heads, which
 weeks on amygdaloid, while stamping
 approximately 20 per cent more amygdaloid
 than conglomerate per diem, some of the
 heads on amygdaloid are going well
 above 600 tons a day and practically
 all are stamping over 500 tons.

ALLOUEZ.

Diamond drill boring in the Kearsarge
 lode at the Allouez property has indi-
 cates that the lode has a width of
 at least eighteen feet, horizontal to the
 plane of the formation. No official re-
 port has been given out as to the rich-
 ness of the rock, but the portion en-
 countered is of the rich chocolate con-
 dition which is characteristic of the richest
 portions of the Kearsarge lode. The
 diamond drill struck the lode 300 feet
 below the bottom of the shaft, a dis-
 tance of 1,390 feet from surface. This
 indicates that the lode has steepened
 considerably, giving the Allouez a great-
 er extent on the vein than at first sup-
 posed.

PHOENIX.

As a result of the recent mill test,
 the Phoenix has suspended mining work
 in the shaft on the West vein. The
 rock already broken, however, will be
 hoisted and sent to the mill. Opera-
 tions in the No. 5 shaft, where the rock
 is exceptionally rich and the vein has
 been gradually widening as depth
 has been attained, will be enlarged,
 most of the miners from the West shaft
 being transferred to that point. The
 action of the company will result in a
 materially increased yield per ton of
 rock stamped.

MINING GOSSIP.

The production of the Michigan mine
 for the month of September was 167 1/2
 tons of copper, against 173 tons for
 August. This decrease of 5 1/2 tons was
 due to the fact that there was one less
 working day in September than in
 August—Labor Day. The showing is
 most gratifying to the management
 and stockholders, as a goodly sum is
 being cleared monthly above all expenses.
 —Rockland Reporter.

Present indications are that the Osceola
 will report a refined yield for
 1904 of more than 21,000,000 pounds,
 with every prospect that these figures
 will be somewhat improved upon next
 year. The mine is now in excellent
 condition, physically and otherwise,
 while, according to the most reliable
 gossip, operating costs have been grad-
 ually decreasing since the advent of a
 close to normal production.

Although Tamarack's production
 showed a material increase in Septem-
 ber, still there is certain seeds are
 planted and properly cared for that Nature
 will take care of the rest. In the same
 way you are sure of your own destiny.
 Providing your blood is in good order, it
 only needs a little effort on your own part
 to keep healthy and strong—rid your body
 of the poisons that are apt to accumulate,
 and your system is ready to ward off the
 attack of the germs of disease. Dr. Pierce's
 Golden Medical Discovery cures the
 poisons that are apt to accumulate, made
 only of herbs and roots it goes about its
 work in nature's way. It stimulates the
 liver into proper action, and sends the
 pure blood. Used more for a third of a
 century it has sold more largely than any
 other blood medicine in the United States.
 More bottles of Dr. Pierce's Golden Medical
 Discovery are sold to-day than ever before—
 that is a true test of its medicinal value after
 thirty-eight years of deserved popularity.

Neglected Education.

Oliver Herford was entertaining some
 men friends in his flat one evening,
 when a servant from the apartment be-
 low his brought a message to the effect
 that the gentleman in 316 was unable
 by reason of the alleged noise made by
 Mr. Herford's party to enjoy that peace
 and quiet he thought was due him.

"He says he can't read," remarked
 the servant.

"Present my compliments to the gen-
 tleman," said Herford calmly, "and tell
 him that I could when I was three years
 old."—Harper's Weekly.

Makes Her Frisky.

A good deal of the money that makes
 the mare go is invested in wild oats.—
 Puck.

Lion Sausages.

During an action brought by a lodger
 against his landlord for permitting a
 naturalist to set up a lion in his court-
 yard a butcher testified that he had
 made the animal into sausages.
 Whether the King of beasts died a nat-
 ural or a violent death was not made
 clear. The court awarded nominal dam-
 ages.—Paris Gil Blas.

Motherless.

He was so small, so very small,
 That since he ceased to cry,
 'Twas easy just to pass him by,
 Forgetting he was there;
 But though too slight a thing he seemed
 Of interest to be,
 One heart had loved him with a love
 As boundless as the sea.

He was so poor, so very poor,
 That now, since he had died,
 He seemed a tiny thrush-like note
 With nothing much inside.
 But, as a treasure he concealed,
 And asked of none for one thing,
 His shabby little bosom hid
 A mighty, grown up grief.
 —Florence Earle Coates in Harper's Bar-
 zar.

His View of It.

"Have no fear," said the sheriff to the
 negro prisoner. "You will be hung ac-
 cording to law."
 "Thank de Lawd!" exclaimed the pris-
 oner. "I is ter die a nat'ral death!"
 Atlanta Constitution.

Just Brothers.

A brother extolling a permitting is un-
 usual. "I don't drink to see you of-
 tener because, frankly, I don't like
 your brother," said one man to an-
 other. "I'm sorry," was the reply.
 "You don't know your brother. He is
 the whitest man on earth. He is so
 much better than all other men that I
 worship him. He has the clearest

refused to take them. After the vendor
 had left, he asked the other man why
 he had not snapped as such an evident
 bargain.

"Well," was the answer, "dot man
 Isaacs be a very smart man!"
 "But what has that got to do with it?"
 asked Welch.
 "Well, I pe afraid of him."
 "Afraid of him? Why?"
 "By golly! He's such a smart man!
 He's nooch smarter dan me! Say, dot
 mans could haf married my wife, and
 he didn't. He's smarter mans dan me, py
 golly."—Era Magazine.

A Numerical Mistake.

"Private" John Allen tells us of an
 old-time politician of Mississippi who
 was making a personal canvass of his
 territory.

"One day," relates Mr. Allen, "the
 statesman was doing the southern por-
 tion of the state. Suddenly he struck
 a community that appeared fairly ac-
 quainted with children. Never had he
 seen so many little ones in so small a
 place. Clustered about one doorway
 were some fourteen tots of various
 ages. In their midst stood an extreme-
 ly good-looking young woman.

"Madam," said the politician, with a
 gallant bow, "you must permit me to
 kiss these charming little ones."
 "The woman merely smiled.
 "After he had affectionately saluted
 each of them, he asked, with a genial
 smile, 'All yours?'"
 "The young woman blushed.
 "The statesman, with another bow,
 then said, 'I trust, madam, that I may
 further trespass upon your good-nature
 by asking that you will be so good as
 to inform your husband that Col. Allen,
 candidate for congress from this dis-
 trict, called upon him this afternoon.'"
 "Pardon me," gasped the woman,
 "but I have no husband!"

MINE FATALITIES.

Forty-Five in Houghton County During Year Ending Sept. 30.

Out of a total of 14,321 men employed, there were forty-five mine fatalities in Houghton county during the year ending Sept. 30, according to the annual report of Mine Inspector Josiah Hall submitted to the board of supervisors at its annual session yesterday.

Of the fatalities forty-three occurred underground. Commenting on this showing of casualties, Captain Hall states that one cannot fail to note the fact that many accidents are due to carelessness or lack of judgment. The inspector says that after careful examination of every mine in the county, at frequent periods during the year, he is gratified to state that all properties are in charge of competent and careful men.

The casualties are apportioned among the several nationalities as follows: Austrians, 13; English, 6; Finns, 14; Italians, 9; Swedes, 3. Apportioned among the various mines, the accidents were as follows: Baltic, one man killed by fall of rock. Champion, one fell down shaft. Calumet & Hecla, one struck by descending cage; two struck by descending skip; six by fall of rock; one fell down shaft; one struck by pry while getting skip on track; one by riding on drill car, contrary to rules of mine; one jammed between car and side of drift; one by timber falling down shaft; total, 14.

Quincy, three by fall of rock; two struck by descending skip; two fell down shaft; total, 7. Isle Royale, three suffocated by mine fire; two fell down shaft; total, 5. Osceola, one struck by descending cage; one by trying to jump on ascending skip; one by fall of rock; total, 3. Tamarack, one jammed between car and side of drift; six by fall of rock; one by falling timber; total, 8. Triumphant, one struck by car in shaft-house; one struck by rock or falling timber; two by fall vein rock; one by falling down shaft; total, 5. Wolverine, one suffocated by powder smoke.

A table showing the number of men employed and the casualties in the active mines in the county from Oct. 1, 1887, to Sept. 30, 1904, has been prepared by Captain Hall, as follows: Year. Employed. Casualties. 1887. 6,221. 22. 1888. 6,310. 21. 1889. 6,480. 21. 1890. 7,210. 36. 1891. 7,702. 28. 1892. 7,640. 21. 1893. 7,591. 25. 1894. 7,245. 22. 1895. 7,249. 44. 1896. 8,170. 19. 1897. 8,726. 26. 1898. 10,467. 23. 1899. 13,651. 27. 1900. 15,971. 36. 1901. 13,498. 33. 1902. 14,130. 44. 1903. 13,629. 33. 1904. 14,321. 45.

Of the twenty-four fatalities reported for 1888, eight were due to a fire in the Calumet branch of the Calumet & Hecla mine on Nov. 29. In 1893 ten of the twenty-five men killed lost their lives by an overhead in the Red Jacket shaft of the Calumet & Hecla. The great Osceola mine fire happened in 1895. Thirty men lost their lives at that time, the total number of fatalities for the year numbering forty-four. During the past year, it will be noted, three men were suffocated by a fire in No. 1 shaft of the Isle Royale mine.

LITTLE SMALLPOX. Only One Case in the County the Past Fiscal Year. County Physician W. H. Matchette of Hancock reported to the supervisors at their annual session yesterday that during the year ending Sept. 30 there was but one case of smallpox in Houghton county, although the Michigan Bulletin of Vital Statistics for August reported the disease prevalent in 106 places in the state. The disease has apparently run its course in Houghton county. Two years ago it was too prevalent for public safety and the county board ordered the erection of a detention hospital in an unused building for the treatment of smallpox as well as other contagious diseases.

Although there is not so much use for the hospital as formerly, Dr. Matchette states in his annual report that it is found useful in contagious cases that cannot be kept elsewhere. Consumptive patients looking to the county for aid may not be housed at the poor farm, and the hospital affords the proper place for them. Three consumptive patients were brought to the institution during the past year. One of them died shortly after but the other two improved steadily and are now practically cured. In cases where operations are necessary the hospital is useful when the patients are convalescing, as it reduces the cost of regular hospital maintenance. Traveling men suffering with contagious diseases are also sent to the hospital. During the past year the institution was kept open at a low cost.

Dr. Matchette examined thirty-three insane cases during the year, and performed four post mortems. All medical dressings and medicines for the jail and poor farm were furnished from the county dispensary. PUNISHED FOR SLASHING HORSE. Erick Olsen has been sentenced by Justice William Anglin of Ontonagon to serve sixty days in the county jail and pay a fine of \$50 and costs. He was arrested by Marshal Weir on the charge of cruelty to an animal. He pleaded guilty, but claimed that he was intoxicated when he committed the deed and did not realize what he was doing. Olsen's crime was one of the most revolting which has taken place in Ontonagon for some time, and he got off with a light punishment, declares the Ontonagon Herald. A few weeks ago he got in a passion while riding in a wagon with Charles Unger and after slashing Unger's hand with the knife he climbed out of the rig and cut the horse in such a terrible manner that it had to be killed to end its sufferings.

SOLDIERS AND SAILORS' RELIEF. E. G. Brown, Calumet, secretary of the soldiers' and sailors' relief commission, stated in his annual report to the county board yesterday that the sum of \$1,900 would be required during the ending year. The amount disbursed by the commission during the year ending Sept. 30 among old soldiers and sailors amounted to \$1,313.75.

ALLEGES UNJUST TAXATION.

Quincy Mining Company Asks New Division of Township Boundaries.

The Quincy Mining Co. is desirous of having the boundaries of Quincy township extended so as to include the company's stamp mill, now in Osceola township, and that portion of the mine now in Franklin township. A written request to this effect was presented to the board of supervisors at its annual session yesterday, and Supervisor S. R. Harris of Quincy township, formerly superintendent of the Quincy mine, asked that a committee of three be appointed to investigate the matter and to report at a subsequent meeting. However, upon the request of Supervisor W. E. Parnall of Osceola township, he also superintendent of the Osceola mine, asking that Osceola township and others concerned be given opportunity to present their side of the matter in detail, as well as the Quincy Mining company, the board deferred action of any kind until its next regular meeting in November.

The Quincy Mining company alleges unjust taxation in School District No. 2 of Osceola township, in which its stamp mill is located. It has no jurisdiction over Osceola township as it has in Quincy township and desires Quincy township extended to include the mill so it will have jurisdiction. The board of supervisors, also that it was a matter for each individual member of the county board to investigate for himself. He stated that the whole matter arose from building a school house at Dollar Bay, located in District No. 2 of Osceola township. The district was bonded for \$14,000 to pay for the structure, and in consequence the taxes of the Quincy Mining company were increased. Mr. Parnall said that it would be noted that nothing was said in the Quincy Mining company's request concerning the rate of taxation previous to the erection of the school building. Whether the building is too large and expensive for the district, he would determine, but he inferred that it is not.

In its petition the Quincy Mining company alleges irregularity in the formation of School District No. 2 of Osceola township. Mr. Parnall stated that a mistake was made in not recording the organization of the district in the township clerk's books, but said that the law explicitly states that it may be legally contested in two years if it may legally stand. Such is the case, he argued, with District No. 2. He stated that the taxation was regular in form, amount and every way. The Quincy people intend taking the matter to the legislature if the county board refuses its request. The matter will be fully investigated at the next regular meeting of the supervisors.

ACCUSED OF MANY CRIMES.

399 Prisoners in the County Jail Since a Year Ago.

The board of county jail inspectors, composed of Judge of Probate Gray, County Agent W. H. Mason and Superintendents of the Poor R. J. Haas, A. F. McDonald and Thomas Lyon, presented its annual report to the supervisors yesterday. It shows that during the year ending Sept. 30 there were confined to the jail at different times 399 prisoners, thirty of whom were women. The charges and number confined on each were as follows: Disorderly, 260 males and 29 females; total 289. Seduction, 1. Counterfeiting, 2. Vagrancy, 7. Violation of game laws, 4. Adultery, 2. Embezzlement, 1. House-breaking, 1. Assault and battery, 17. Unlawful use of firearms, 1. Carrying concealed weapons, 1. Murder, 2. Arson, 1. Disorderly house, 1. Burglary, 4. Rape, 1. Non-support, 10. Basting, 6. Intent to murder, 8. Keeping house of ill fame, 1. Highway robbery, 3. Violations of liquor laws, 1. Breach of promise, 1. Destroying property, 1. Robbery, 2. The condition of the jail is reported good. The number of prisoners at present is nineteen, five of whom are awaiting trial. Seventeen are men and two women.

ISLE ROYALE, LAKE SUPERIOR.

Major C. H. Feldmann, a prominent mining engineer of Port Arthur, is prominently identified with the Isle Royale Land and Lumber syndicate, which owns 80,000 acres of land on Isle Royale. By many persons the property is supposed to be valuable for copper and in past years considerable exploratory work has been done. Major Feldmann has just returned from a business trip to England. "There is nothing new in regard to our holdings on Isle Royale," said the major in an interview at Duluth. The conditions are apparently not opportune for developments of any kind at present. There are many people who think that the Isle Royale copper mine is located on the island of that name but it is in the Portage Lake district on the Michigan mainland, and is one of the old group of mines there. The mistake is a very natural one, and has led to much confusion. I have been contemplating for some time, and he got off with a light punishment, declares the Ontonagon Herald. A few weeks ago he got in a passion while riding in a wagon with Charles Unger and after slashing Unger's hand with the knife he climbed out of the rig and cut the horse in such a terrible manner that it had to be killed to end its sufferings.

W. A. Brunkner of Chicago, a well-known temperance lecturer, will be heard at the Lake Line Methodist church this evening. He is said to be an entertaining and instructive speaker, and undoubtedly will be greeted by a large audience.

WILL WORK 200 MEN.

P. McDonald, the local contractor, is shipping about twenty laborers, each day to Hancock, where he has a sewer contract calling for improvements to the amount of about \$40,000. There are now about sixty men on the ground and Mr. McDonald expects to increase his force as rapidly as possible until there are 200 on the job. Work has been begun on the contract and Mr. McDonald expects to push it forward early completion.—Duluth News-Tribune.

COST OF THE COUNTY POOR.

More Than \$50,000 Expended During the Past Twelve Months.

During the year ending Sept. 30 a total of \$51,949.00 was expended by the county for the maintenance of poor people. The superintendents of the poor districts, who presented their annual report to the county supervisors at their annual session yesterday, apportioned disbursements in the districts as follows: Houghton \$10,325.29 Hancock 15,993.38 Calumet 13,137.16 Portage 6,883.97 The amount received from the sale of poor farm products was \$400, which was turned over to the county treasurer.

COUNTY FINANCES.

Cash on hand on Sept. 30 Last Was Nearly \$62,000. According to County Treasurer W. Frank James' report for the year ending Sept. 30, 1904, submitted to the county board yesterday, the amount of cash in the bank and office totals \$61,889.87. The receipts and disbursements are given as follows: Cash on hand, Sept. 30, '03, \$ 54,353.70 Received from all sources during the year, 711,705.77 Total, 766,059.47

Total disbursements, \$766,059.47 Paid out from all sources, \$704,169.61 Cash in bank, Sept. 30, '04, 60,763.54 Cash in office, 1,126.32 Total, 61,889.87 From delinquent taxes, 17,969.14 From liquor tax, 110,613.60 From all other sources, 583,123.03 Estimates of amounts required for the ensuing year: Poor orders, 55,000.00 U. P. hospital, 60,000.00 County salaries, 28,000.00 Total, 143,000.00 Portage Lake bridge bonds, 8,300.00 Cash in bridge fund, 30,000.00 ALMOST 200 STUDENTS. Seventeen States Represented at the Michigan College of Mines.

Seventeen states are represented in the enrollment of the students at the College of Mines, Michigan, of which the whole number of students is 192, of whom seventy-three are new men. The Michigan students number 119, and those from other states sixty-nine. Besides Michigan the graduates are from Minnesota, California, New York, Wisconsin, Colorado, Pennsylvania, Missouri, Illinois, South Dakota, Iowa, Montana, Texas, Washington, Connecticut and Massachusetts. Four students are from other countries, one being registered from England, one from Scotland and two from Canada. The two from abroad are Marcus C. H. Little of London and Harold Charles Ewing of Scotland. The Canadian students are Walter E. Segsworth of Toronto and James Garfield Sippell of St. Johns, N. B. The fact that so many states and two foreign countries are represented in the enrollment of the graduates of the college has spread broadcast. It has an enviable reputation, largely because the success of its graduates who hold responsible positions in every mining district in the world. The graduates have done much for their alma mater. Their work in the practical field of mining has reflected most credit on the institution. Students not only get the necessary technical education at the college, but they are instructed in practical mining methods as well, the mines, mills and smelters of the copper country, among which are some of the most wonderful plants in the world, affording splendid opportunities for the purpose. The institution could not be better located. It is right in the heart of one of the richest and most progressive mining districts in the world. A handsome twelve-page booklet containing the names of the graduates of 1904 has just been issued by the college. The names with the addresses, and the degree attained by the graduates are engraved on scrolls. The figures "04" are encircled by a wreath of gold on the title page. The graduates total seventy-two, of whom twenty-eight received the degree of bachelor of science and forty-four the degree of engineer of mines, some of the men attaining both degrees.

REHEARSALS STARTED.

Rufus K. Love, who is to stage the Calumet Elks' annual theatrical performance for the benefit of the lodge's charity fund at the Calumet theater Thursday and Friday nights, Nov. 10 and 11, has started the rehearsals for the specialty acts which will be introduced no matter what play is selected for the "stunts" in order to make the entertainment as bright and possible. He has the privilege to use a number of the best acts now in use in the best comic operas. Although not definitely decided it is probable the committee named to select a play will select one written by C. E. Rogers of Chicago. The play has a story of more than usual interest and is brimming over with bright lines. Mr. Rogers is well-known as a writer of snappy short sketches, popular with vaudeville artists. The Calumet Elks are fortunate in having an abundance of home talent to draw from for the cast and specialty work, and a successful entertainment is bound to be the result. The proceeds will be placed in the charity fund of the lodge to be used during the winter in the aid of worthy poor families.

REPORTS GAME PLENTIFUL.

Partridge and deer are both plentiful, according to County Game Warden, W. E. Vivian. He runs across hunters with strings of birds and predicts a fine period of sport for deer hunters when the season opens next month. But few deer have been killed out of season. Mr. Vivian and his deputies are scouring the woods sufficiently to know that the law is being fully up to.

TEMPERANCE TALK.

W. A. Brunkner of Chicago, a well-known temperance lecturer, will be heard at the Lake Line Methodist church this evening. He is said to be an entertaining and instructive speaker, and undoubtedly will be greeted by a large audience.

A QUART OF MILK

and a package of JELL-O ICE CREAM POWDER is all that is required to make nearly two quarts of delicious ice cream. Everything else in the package is simply stir in the milk and freeze in the usual way; make the nicest ice cream you ever ate. Order a package to-day, you will be highly pleased. Post Office, Duluth, Minn. 2 packages for 25c.

DULUTH TO THE 500.

Booth Line People Decide to Institute New Service Next Season.

H. H. Brigham, tariff manager for the A. Booth company, announces that the company has definitely decided to institute a through steamer service between Duluth and Sault Ste. Marie next summer and that two boats will be put on. Heretofore the Booth line has had steamer service between Duluth and Houghton and between Munising and Sault Ste. Marie. Between Houghton and Munising, however, there was no service. Marquette is the principal point in the break between those points. The steamer C. W. Moore will be one of the boats to run between Duluth and the Sault and another about the same size will be procured. The Booth people will put two additional boats on Lake Superior next season. One will be the Soo City, which will run in conjunction with the American on the north shore to Port Arthur and Houghton. The other will run in conjunction with the C. W. Moore. The new arrangement will give the Booth line a daily boat to Port Arthur and a semi-weekly one to Sault Ste. Marie.

FOR THE GOOD WILL FARM.

Houghton and Calumet Eagles to Play Ball at the Amphidrome.

The Houghton and Calumet lodges of Eagles have arranged a game of indoor baseball for tomorrow evening in the Amphidrome for the benefit of the Good Will farm. The match promises of interest in more ways than one. The Houghton Eagles have prevailed upon a number of merchants to contribute various articles which will be drawn for by those who attend. Each admission ticket will have a coupon attached entitling the holder to one chance for some of the donated goods. It is expected the plan will result in a larger attendance than if the game were arranged for the sport only. The entire proceeds will be given to the Good Will farm.

The contract for the interior work in the new Good Will farm building has been let to Parker & Hamill, Hancock, contractors. Work on the exterior of the structure is being rushed by McCurdy Bros. of Houghton and the interior work will be started shortly. Superintendent Draper expects now to have caught from sparks from the engine the interior work. He hopes to see the new home ready for occupancy by Christmas.

METHODIST RALLY.

Workers' Council to Meet at Laurium Tuesday, Oct. 18.

Presiding Elder C. M. Thompson, of the Marquette district of the M. E. church, has arranged a big meeting of the "workers' council" for Tuesday, Oct. 18, at the Laurium church. Topics relating to the attack on the denomination will be presented in short talks by various copper country Methodist ministers and a number of other prominent members of the council. A helpful gathering is anticipated. Most of the pastors and district stewards of Houghton, Ontonagon, Baraga and Keweenaw counties are expected to be present. The ladies of the church will serve both dinner and supper, thus giving an opportunity for long talks and greater sociability. The program of the three sessions during the day is as follows: 8:30 Devotions, S. D. Eva. 9:00 Object of this council. Presiding Elder. 9:10 Raising the Benevolence. J. J. Balmer, R. Hancock, R. W. Van Alstyne, Wm. Phillips. Discussion. 10:00 Raising the Pastor's Salary, and other current expenses. W. E. Marvin, A. F. Hagan, A. M. Schulte, Thomas Whittle, I. John Truscott, James Pryor. Discussion. 11:00 How to Improve our Sunday Schools. Epworth Leagues and Class meetings. R. H. Hewson, H. N. Aldrich, W. R. Fruit, H. Rogers, John Salmon, Arthur Williams, James Milford. Discussion.

FINED FOR VIOLATING GAME LAWS.

At Norway recently, Baptist Alteman was brought before Judge Patterson charged with having in his possession a part of the carcass of a deer. It was shown to the satisfaction of the judge that the man was hunting partridge and found the deer, which had just been killed, and that his only crime was bringing home the carcass. However, he was fined \$10 and costs.

LAD TO DEFEND FIRE.

The barn of John McGrath in Ironwood township north of the City of Ironwood was destroyed by fire the other night, together with about forty tons of hay stored thereon. There had been no fire around the barn and it is practically certain that the fire was of incendiary origin. The loss was about \$800 with \$500 insurance. This fire following so closely upon the destruction of the barn of Peter Johnson in the same manner leads to the conclusion that there is a fire bug in the township. Court Declines to Interfere.—T. B. White will remain on the Republican ticket, a candidate for probate judge of Delta county, in accordance with the action of the convention. The supreme court at Lansing has denied the petition for the writ of mandamus, asked by Attorney Jennings, the defeated candidate, and in effect declined to interfere in any way with the politics of the county or the action of the convention. It was contended by Mr. Jennings that as he had a majority of the votes cast on the first, or informal, ballot, he should have been the nominee. Brakeman Crushed to Death.—Henry Ostermeyer, a brakeman on the Wisconsin Central, was killed by being caught between two sections of an ore train at the Palms mine at Bessemer. Ostermeyer was engaged in adjusting a coupling on the front section of the train, with his back to the rear section, when the air brakes relaxed on the latter allowing the cars to move down pinning the unfortunate man between the couplers of the two sections. He was quickly released by the train crew, but life was extinct and death must have been almost instantaneous. Prisoners Sentence.—Prisoners convicted at the October term of circuit court for schoolcraft county have been sentenced by Judge Steere as follows: Daniel Bunkley, who murdered Pearl Stanaway, was given a life sentence at Marquette prison. George Miller, found guilty of rape and incest, his daughter being the victim, will spend ten years at Marquette prison. Stone, convicted of for-

F. M. SACKRIDER, PROPRIETOR.

HERE ONLY A FEW WEEKS.

Rev. Mr. Pederson, Norwegian Lutheran Pastor, Dies at Calumet.

Rev. Mr. Pederson, pastor of the Norwegian Lutheran church at Calumet, died Sunday morning. Tuberculosis was the cause of death. He is survived by a wife and child. Mr. Pederson was a resident of Calumet just a few weeks, succeeding his brother, Rev. M. A. Pederson, who was transferred to India as a missionary. He came to Calumet from Minnesota. He was about thirty-three years of age.

INDOOR BASEBALL SEASON.

The indoor baseball season has already opened in the copper country. Two teams, known as Case's and Wells', have been organized among the employees of the Lake Superior Smelting company at Dollar Bay and one game has been played, resulting in a victory for Case's aggregation. The teams will line up for a second game Thursday evening in the ice rink building.

FOUND LABOR SCARCE.

The Ontonagon Lumber & Cedar company is now operating its mill on a single shift only. Some trouble has been experienced in securing the common laborers for the night run and consequently it was deemed advisable to operate the mill on the day shift only for the balance of the season.—Ontonagon Herald.

Upper Peninsula

Democratic Nominations.—The Democrats of Gogebic county have nominated the following ticket: Judge of probate, A. D. Goodwin; sheriff, R. G. Spencer; clerk, Charles Mattson; treasurer, Nels Bloomquist; prosecuting attorney, J. J. Patek; register of deeds, John Lilrose. For the legislature, Charles Graves of Ironwood was selected.

HAD NO INSURANCE.

The saw mill and lumber yard of Charley Olson of Bates township, Iron county, were entirely destroyed by fire last week. The fire is supposed to have caught from sparks from the fire box of the engine. The stock consisted of rough and planed lumber, maple flooring, etc., and the loss is about \$2,500, with no insurance.

HUNTER LOST FINGERS.

Octave Le Due, a young man who has been employed a barber at Escanaba for some years was accidentally shot in the right hand while hunting partridges. It was found necessary to amputate the thumb and two fingers. The accident is particularly unfortunate in that it will necessitate Le Due giving up his trade. However, he considers himself fortunate that he was not killed.

FINED FOR VIOLATING GAME LAWS.

At Norway recently, Baptist Alteman was brought before Judge Patterson charged with having in his possession a part of the carcass of a deer. It was shown to the satisfaction of the judge that the man was hunting partridge and found the deer, which had just been killed, and that his only crime was bringing home the carcass. DELAWARE LEADERS AGREE TO A TRUCE

ADDICKS FACTION AND THE REGULAR REPUBLICANS COME TO TERMS.

UNITE ON HEAD OF TICKET

FULL COMPROMISE EXPECTED TO SPEEDILY FOLLOW.

Situation in Wisconsin Continues Unchanged but It Is Generally Believed the Nominations of the Stalwarts Will Be Withdrawn.

Wilmington, Del., Oct. 10.—The regular Republicans and union or Addicks Republicans this evening agreed upon Preston Lee as the candidate for governor in place of the one nominated by their respective conventions. The two factions will attempt to agree on the remainder of the state ticket Wednesday.

Thought Stalwarts Will Yield.

Milwaukee, Oct. 10.—Considerable discussion was indulged in today over the probable outcome of the political situation existing between the two Republican factions of Wisconsin. It seems to be the general opinion that when the executive committee of stalwarts meets tomorrow or Wednesday definite action will be taken regarding the belief today that the ticket would be withdrawn. Senators Spooner and Quarles stated they had no more appointments to make speeches in the state at present.

No Conflict of Authority.

New York, Oct. 10.—It was stated at the Republican national headquarters today that there was no conflict of authority about the Wisconsin Republican organization. As soon as the Wisconsin court decision was announced in favor of the La Follette electoral ticket, Chairman Cortelyou directed the Western national headquarters to recognize the La Follette state committee as the regular Republican organization.

BROUGHT NATION PROSPERITY.

Senator Fairbanks, at Omaha, Talks of the Dingley Tariff Law.

Omaha, Oct. 10.—Senator Fairbanks addressed a large assembly here tonight. He said the Dingley law had the effect of opening many factories and of spreading prosperity from one end of the country to the other. He outlined the policy of the Republican party with reference to the Panama canal, claiming for that party all the credit for what has been done in the interest of that enterprise.

Secretary Shaw at Oswego.

Oswego, N. Y., Oct. 10.—Oswego gave Secretary Shaw a cordial greeting to-night and a large assemblage listened to his address at the Richardson theater. A dinner in Mr. Shaw's honor was given at Colonel John T. McJannet's home tonight, following which a public reception was held and the secretary met hundreds of workmen. Many uniformed clubs from surrounding towns held a parade and later escorted the secretary to the theater.

Taft in West Virginia.

Wheeling, W. V., Oct. 10.—Secretary Taft was the principal speaker at the greatest Republican demonstration of the campaign tonight. He devoted himself principally to the Philippine question.

SAYS CORPORATIONS RULE.

Candidate Watson Sees No Difference in the Two Major Parties.

Chicago, Oct. 10.—Thomas E. Watson, Populist candidate for president and dressed a large crowd here tonight. He said that more energy was displayed in securing nominations than in securing elections, and that this was particularly the case with Judge Parker's campaign, which he said, controls the Republican party, and desires to perpetuate that system. To do this they must, if possible, secure control of the Democratic organization, and this they did, Mr. Watson alleged, by purchasing delegates who nominated Judge Parker. His election would mean the continued existence of the system, just as the election of Roosevelt would. Continuing, he declared that all know where Roosevelt is—the open enemy; Parker is the enemy in ambush, "the toe who wears the mask."

ADMIT PARKER CAUSE HOPELESS.

Democrats Concede That Roosevelt Will Have 317 Electoral Votes.

New York, Oct. 10.—With election day only a month away, it looked today to candid Democrats and Republicans alike that Roosevelt and Fairbanks would have 317 electoral votes and Parker and Davis 159. The latter figure is four votes more than went to Bryan in 1900. It is considered probable that the Democrats will use Maryland, Montana and Idaho. This would be a net loss of two states. The advance from Idaho and Montana continue to be favorable to the Republicans and the same can be said of Colorado.

Do you know "The Song of 60 Years?"

There are four verses. Verse 1. Ayer's Hair Vigor makes the hair grow. Verse 2. Ayer's Hair Vigor stops falling hair. Verse 3. Ayer's Hair Vigor cures dandruff. Verse 4. Ayer's Hair Vigor always restores color to gray hair.

Maryland bids fair to give the man-man Cortelyou a surprise. Chairman Cortelyou has kept it in the Democratic column. In doing so he followed the judgment of Senator Hanna in 1896 and again in 1900. Each time Maryland went Republican in 1896 by more than 25,000 and in 1900 by about 14,000. It was not until the last week of the campaign four years ago that Chairman Hanna took Maryland out of the Democratic column and put it in the doubtful column, with the probability that it would go Republican.

History is repeating itself. William E. Stone, collector of the port of Baltimore, told Chairman Cortelyou last week that he would guarantee Maryland would give the electoral vote of Roosevelt and Fairbanks if the national committee would co-operate with the Republicans there to the same extent as four and eight years ago.

SCORES THE ADMINISTRATION.

Nominee Davis Speaks to a Great Gathering at Baltimore.

Baltimore, Oct. 10.—The campaign tour of Henry G. Davis, Democratic vice presidential candidate, through Maryland and West Virginia was begun here tonight by an immense gathering of Democrats in Lyric Hall, the consumable to an admission to the hall, were addressed at an overflow meeting from a stand on the public street. Nearly all the leading Democrats of the state and city were present. Senator Gorman presided. Senator Davis said:

"We are now in the midst of a presidential campaign in which the people are called upon to determine whether they will permit partisanship to control the government. In their official capacity as the constitution and laws, or are to be governed by the spirit of extravagance, party advantage and domination. The Democratic party has been called by its political opponents a party of strict constructionists. No gratuity or compliment could be paid them, and no policy is more needed at the present time than one which recognizes fully the restrictions and limitations of executive authority and action. Encouraged by the practice of the party in power, we are fast driving in the direction of centralization and imperialism."

"The people will have to decide whether the policy is to be confined to permitting partisan participation in the work of election by a hundred thousand salaried office-holders, including members of the cabinet. The civil service law, its rules and regulations are being set at naught and the army of government employees is laboring for a continuance in power of the present administration. This can be done only at the neglect of their duties and to the detriment of the public service."

"The nomination of Roosevelt as Republican nominee for president, and as called the last congress for failing to pass the river and harbor bill and for hurriedly adjourning to prevent an investigation of the departments."

Hill Criticizes Roosevelt.

Senator Hill followed Senator Davis in a speech of great length. He severely criticized President Roosevelt for appointing his private secretary to the department of commerce for the palpable purpose of "acquiring much valuable information which might be utilized in obvious ways in the campaign to the political advantage of the party in power" and for making him chairman of the national committee to especially represent the candidate himself.

Mr. Hill discussed the tariff in much detail, defining the Democratic attitude to be taxation for revenue and that of the Republicans taxation for protection. He declared that the protection policy of the Republicans had bred monopolies and combinations and that the Democratic stand pledged to a revision of the tariff. He also discussed the Philippines, the present's Panama policy and the race question.

Bryan in Missouri.

Maryville, Mo., Oct. 10.—William J. Bryan addressed an open air meeting here tonight. He appealed to Democrats to support the national ticket, so that if Judge Parker should be successful the supporters of the Kansas and Chicago platforms would be in line to do those things they had always believed in and in which they still believe.

Taggart and Parker Confer.

New York, Oct. 10.—Chairman Taggart had a long visit with Judge Parker tonight. Inasmuch as the chairman is seen to leave for Indiana to give to the supporters of the Kansas and Chicago platforms would be in line to do those things they had always believed in and in which they still believe.

STALLION SELLS FOR \$70,000.

New York, Oct. 10.—The stallion Hamburg, one of the stud of the late William C. Whitney, was sold for \$70,000 tonight to Harry Payne Whitney.

WELDING THE TWO NATIONS.

London, Oct. 10.—Important effects are hoped for from a mutual exchange of visits to France and England of the French and English workmen. One of the most active promoters of the scheme furnishes some interesting details of the composition and experiences of the French and English delegations.

NOTICE OF SALE.

Sealed proposals will be received by W. A. Ross, county clerk, for the purchase of the old Marquette County Court House up to 10 o'clock a. m. Oct. 15th, in separate bids. One bid for the iron work including the heating apparatus, piping, radiators, stairway and vault doors. And one bid for the building, including all masonry and storm sash. Or parties may bid for the whole as they choose. All to be removed and the premises left clean by Dec. 1st, next. Also one license reserve.

NOTICE TO PAINTERS.

City Controller's Office, Marquette, Mich., Oct. 10th, 1904. Pursuant to resolution of the common council of the city of Marquette, notice is hereby given that sealed proposals will be received at my office on Oct. 11th 6 o'clock p. m. Oct. 12th, 1904, for furnishing all labor and material required to paint window sash, and frames, doors and storm sheds at the city hall, according to specifications therefore, in file in my office. The right to reject any or all bids reserved.

THOUSANDS OF PEOPLE

are splitting their throats and are coughing themselves to death, when a bottle of Gloria Tang Balsam would stop the trouble at once. It is made of healing balm and the best for children. Sold by The Stafford Drug Co.

MUCH PROFIT-TAKING.

Stock Market Closes Heavy at Trivial Net Gains and Losses.

New York, Oct. 10.—There was but a sluggish response to the accumulation of various factors favorable to values of securities in today's market. The industrials, and especially the iron and steel stocks, were lifted out of this indifference during the day, but the railroad stocks made but little headway. The opening prices were higher and had the combined advantage of considerable buying orders received over Sunday, a better range of prices in London before the opening here and some large supporting orders for the purpose of establishing a higher basis on which to sell. The customary selling to take profits under these circumstances made its appearance and did not cause surprise. But the recovery from the effect of this was less buoyant than had been the case in Monday markets for some time past. Here and there an individual stock was pushed upward but without much response in the general list. The United States Steel made good resistance to the heaviness in the market, and when preferred advanced to the highest prices of the present movement the other iron and steel industrials followed to a lesser extent.

TROTS A MILE IN 2:01 1/2.

All Workout Records Broken by Lou Dillon at Memphis.

Memphis, Oct. 10.—Lou Dillon, the world's champion trotting mare, owned by C. K. G. Billings, broke all workout records for trotting horses today by circling the course in 2:01 1/2. The fractional time was: First quarter, :30; half, 1:00; three quarters, 1:29 1/2; mile, 2:01 1/2. The former workout record of 2:02 was held by Lou Dillon and was established at Cleveland Sept. 28 this year.

TERRY MCGOVERN WINS.

Eddie Hanlon Badly Punished in a Bout at Philadelphia.

Philadelphia, Oct. 10.—In a whirlwind fight scheduled to go six rounds, tonight, Terry McGovern had Eddie Hanlon so badly beaten that the police stopped the contest after the fourth round. At the time the authorities interfered the former champion was raining blows on the prostrate form of Hanlon, who was hanging on the ropes.

The contest was a terrific one. Up to the fourth round McGovern had a shade the better of it. In the fourth, Hanlon, seeing an opening, sent a left hook hard on the chin. The former champion went down for the count, and to many spectators it looked as though McGovern was out. Hanlon, however, threw discretion to the winds and tried to put in a finishing blow. He fought so recklessly, however, that it proved his downfall. McGovern going at him so viciously that almost before the spectators realized it he had the Californian help. It was at this time that the police interfered.

Tommy Ryan Scores a Knockout.

St. Louis, Oct. 10.—With a left hook on the jaw, Tommy Ryan, middleweight champion, knocked out Bob Douglas of St. Louis in the fourth round tonight. The fight was to have been an eight-round go.

BEAN-EATERS WIN OUT.

New York, Oct. 10.—Over twenty-eight thousand people today saw the Boston American league team win the championship pennant for the second time. Summaries of the games follow:

Table with columns: W, L, P, C. Boston, New York, Chicago, Cleveland, St. Louis, Detroit, Washington.

POST-SEASON GAMES.

Table with columns: B, H, E. Cleveland, Pittsburgh, Boston, Philadelphia, Washington.

STALLION SELLS FOR \$70,000.

New York, Oct. 10.—The stallion Hamburg, one of the stud of the late William C. Whitney, was sold for \$70,000 tonight to Harry Payne Whitney.

WELDING THE TWO NATIONS.

London, Oct. 10.—Important effects are hoped for from a mutual exchange of visits to France and England of the French and English workmen. One of the most active promoters of the scheme furnishes some interesting details of the composition and experiences of the French and English delegations.

NOTICE OF SALE.

Sealed proposals will be received by W. A. Ross, county clerk, for the purchase of the old Marquette County Court House up to 10 o'clock a. m. Oct. 15th, in separate bids. One bid for the iron work including the heating apparatus, piping, radiators, stairway and vault doors. And one bid for the building, including all masonry and storm sash. Or parties may bid for the whole as they choose. All to be removed and the premises left clean by Dec. 1st, next. Also one license reserve.

NOTICE TO PAINTERS.

City Controller's Office, Marquette, Mich., Oct. 10th, 1904. Pursuant to resolution of the common council of the city of Marquette, notice is hereby given that sealed proposals will be received at my office on Oct. 11th 6 o'clock p. m. Oct. 12th, 1904, for furnishing all labor and material required to paint window sash, and frames, doors and storm sheds at the city hall, according to specifications therefore, in file in my office. The right to reject any or all bids reserved.

THOUSANDS OF PEOPLE

are splitting their throats and are coughing themselves to death, when a bottle of Gloria Tang Balsam would stop the trouble at once. It is made of healing balm and the best for children. Sold by The Stafford Drug Co.

MUCH PROFIT-TAKING.

Stock Market Closes Heavy at Trivial Net Gains and Losses.

New York, Oct. 10.—There was but a sluggish response to the accumulation of various factors favorable to values of securities in today's market. The industrials, and especially the iron and steel stocks, were lifted out of this indifference during the day, but the railroad stocks made but little headway. The opening prices were higher and had the combined advantage of considerable buying orders received over Sunday, a better range of prices in London before the opening here and some large supporting orders for the purpose of establishing a higher basis on which to sell. The customary selling to take profits under these circumstances made its appearance and did not cause surprise. Ishpeming Department

CAMPAIGN OPENS TONIGHT.
 Congressman William Alden Smith Will Speak at Ishpeming Theater.

TWO FIRES SUNDAY NIGHT.
 Fire Department Called Out Twice Between 8:30 and 11:30 O'Clock.

The Republican national campaign will be opened in Ishpeming tonight, when Hon. William Alden Smith of Grand Rapids, congressman from the Fifth district, will speak at the theater. The Ishpeming committee extends a particular invitation to the ladies of Ishpeming and Negamie to attend. Mr. Smith is recognized as one of Michigan's greatest orators, and is besides a national figure, the theater should be packed. Mr. Smith is possessed of a rare gift of oratory.

The musical feature will alone be worth attendance. The Light Guard band will present selections and the Glee club, which made such a hit in the two last national campaigns, will be present. The club has a list of new songs, the latest out of the campaign. The club is composed of A. G. Johnson and Charles Soderman, first tenors; Alfred Ryberg and Gust Nordstedt, second tenors; Albert Hasselblad and George Skogberg, first basses; Arthur Sandberg and Charles Swan, second bass.

Stevens Thursday Evening.
 Mart Stevens of Flint will open the Democratic party's campaign at the theater Thursday evening of this week. Mr. Stevens has never been heard in this county, but the members of the Ishpeming committee are confident that he is a gifted orator, and that he is well informed on national and state affairs.

WENTHENTIETH ANNIVERSARY.
 Herman Jaedecke and Wife Entertained About Fifty Friends Saturday Night.

Mr. and Mrs. Herman Jaedecke entertained about fifty friends at their home on West Barnum street Saturday evening, the occasion being the twentieth anniversary of their marriage. No labor or expense to make the evening enjoyable for the guests were spared. While the reputation of Mr. and Mrs. Jaedecke as royal entertainers is well known they outdid all former efforts Saturday evening.

The parlors were very tastefully decorated with cut flowers. While the guests were arriving and later the Jaedecke brothers, four sons of Mr. and Mrs. Jaedecke, furnished music. The evening was spent in progressive pedro. The ladies' prizes were won by Mrs. August P. Schmidt of this city and Mrs. John Manning of Negamie. John B. Pearce of this city and A. H. Knight of Negamie took the gentlemen's prizes.

The cigars the guests smoked were made twenty years ago, this meant the Jaedecke's brother, the late Paul Jaedecke. The stripping for them was done by John Hosking, who was present at the party and is still in Mr. Jaedecke's employ. Mr. and Mrs. Jaedecke were recipients of a large assortment of beautiful presents.

HOPKINS' CURB LETTER.
 Hopkins' curb letter, issued yesterday, was as follows:
 "The market today opened with many requests for offerings, but none came out and the would-be buyers began bidding rather timidly at first. They soon realized what was necessary to get the stocks, and prices soon got a good start toward last week's high marks. Junction has already reached the previous high record, and promises to be the leader. Late Saturday afternoon I received a message from Bisbee reading: 'Lake Superior & Pittsburg found finest lot of ore on today on 1,100-foot level. Inasmuch as we know ore was struck on this level ten days ago, this must mean that they are continuing to find new bodies of ore in this drift which are of high grade.'

"Pittsburg & Duluth sold from 74 to 80. Calumet & Pittsburg from 39 to 40 1/2. Junction opened at 29 bid and sold at 41, with many orders to buy at 41 unfilled. Lake Superior & Pittsburg offerings around 50 were entirely absorbed. Calumet & Arizona is holding steady at 90 bid and 99 asked. Black Mountain subscriptions closed today. The stock is oversubscribed, and purchases will now have to be made in the open market."

Yesterday's prevailing prices were:
 Bid. Asked.
 Calumet & Arizona, \$98.00 \$99.00
 Calumet & Pittsburg, 40.00 42.00
 Lake Sup. & Pittsb., 50.00 51.00
 Pittsburg & Duluth, 76.00 80.00
 Junction, 41.50

UNIQUE CUTTING PLANT.
 J. J. Lettler, who deals in wood, as well as meats and groceries, has just added another to his cutting plant. For some time past Mr. Lettler has been splitting and loading his wood by hand, making it slow and expensive work. His splitter, installed a few weeks ago, worked so well that he decided to put in the loading elevator. The team drive under the elevator and a load is split and dumped into the box in about fifteen minutes. Mr. Lettler claims power for his plant from the boiler in his sausage factory across the street. The same boiler also furnishes heat for his market and dwelling on the second floor of the business block.

SPEAKS WELL OF SHOW.
 An Ishpeming man who saw "Why Women Sin" at Green Bay Sunday night reports that the performance was excellent. He said that the company played last Wednesday night at the Bay, returning for the Sunday performance, and that the show made such a favorable impression Wednesday that people were turned away Sunday. The company carries all the scenery used in the production. The sale of seats starts this morning at 10 o'clock.

CONFESSIONS OF A PRIEST.
 Rev. Jno. S. Cox, of Wake, Ark., writes, "For 12 years I suffered from Yellow Jaundice. I consulted a number of physicians and tried all sorts of medicines, but got no relief. Then I began the use of Electric Bitters and feel that I am now cured of a disease that had me in its grasp for twelve years." If you want a reliable medicine for Liver and Kidney trouble, stomach disorder or general debility, get Electric Bitters. It's guaranteed by Stafford Drug Co. Only 50c.

You will see the excellent effect after taking the first dose. Sold by druggists everywhere. Large bottles 25 cents and 50 cents.

Iron Notes

Lake Superior Controls—In making its great output of pig iron last year the Englewood & Mining Journal says, the United States consumed approximately 35,000,000 tons of iron ore, the average being about 1.8 tons of ore per ton of iron. Nearly all of the ore was mined in this country, only 27 per cent of the total being imported. The foreign supply came chiefly from Cuba and Canada; the Cuban ore being all used in a few furnaces on the Atlantic coast.

By far the greater part of the iron ore mined and used in this country are hematites. The carbonate ores—mined only in Ohio—formed 0.1 per cent of the total, the output of the once famous black-band ores of that state having fallen to insignificant proportions. The magnetites—mined chiefly in New Jersey and New York—were 4.4 per cent of the total. The red hematites formed 86 per cent, and the brown hematites 25 per cent. The line between these two varieties is not always closely drawn; but together they made 95.5 per cent of the total.

The following table shows, by percentages, the different districts from which the iron ore supplies of the United States are derived; and, in the second column, the proportions of the total pig iron output made from the ores of each region. The latter calculation is based on the average tonnage of the ores, but is believed to be approximately correct:

Alabama	74.0	78.9
Other Southern States	10.1	7.5
Atlantic Seaboard states	6.1	4.5
Rocky Mountain states	1.8	1.6
Southwestern states	0.3	0.3
Ohio	0.1	0.1
Imported ores	2.7	0.1
Totals	100.0	100.0

No ore was mined on the Pacific coast, which is, indeed, not well supplied with iron ore, the only deposits known to be of probable extent and value being in the state of Washington. California's varied mineral output does not include iron ore available for the establishment of a local iron and steel industry. If such an industry is established at all on the coast it will be probably in the Puget Sound country.

These figures show how dependent our iron and steel industry is upon the Lake Superior region for its supplies of raw material. There is no other district now producing iron ore in which an early expansion of output is possible, except the Alabama belt. There are large possibilities in Wyoming, perhaps, but of probable extent and value being in the state of Washington. California's varied mineral output does not include iron ore available for the establishment of a local iron and steel industry. If such an industry is established at all on the coast it will be probably in the Puget Sound country.

COPPER

The new edition of the Copper Handbook lists and describes 2,211 copper mines and copper mining companies, in all parts of the world, covering the globe, these descriptions ranging from two lines to twelve pages each in length, according to importance of the mines. The descriptions are not padded, but give facts in the most condensed and get-at-able form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a valuable encyclopedia of the subject of copper and everything pertaining to the metal.

Negaunee Department
 IMPROVEMENTS STARTED. THEY DON'T REMAIN LONG.
 Work at Episcopal Church Will Be Finished Before Christmas.
 Negaunee Man Just Back from Soo Says Canal Work is Difficult.

Emil Gagnon who has the contract for the improvements at St. John's Episcopal church intends to push the work to an early close. He has given Anderson & Kilbride a contract for the cement work, basement floors, sidewalks and front steps. It will be impossible to put in the concrete for at least ten days or so as the weather is so cold. The building must be finished before the ground has been broken for new guild hall, to be built at the rear of the edifice, and the foundation will be started within a day or two. If the weather remains favorable it will be completed to employ as many masons as he can secure, realizing that there will not be many more days this fall for outside work. The guild hall will be 20 by 36 feet in size. Immediately east of the hall there will be a robing room and choir loft twenty feet in length by eight feet wide. The roof of the main building will be covered with tile. The exterior work will be largely completed before the interior work is started. The gallery, at present used as a choir loft, will be removed, adding greatly to the appearance of the main room. The latter will be replastered and attractively decorated. The main entrance will be remodeled and much other work of minor importance will be done. The expense of enlarging and remodeling the property will be borne by Mr. and Mrs. Alexander Matland. The need of many of the improvements has been apparent for some years, as the property was considerably run down. A rector will be obtained at some time the church is again ready for use.

Al Hooper, who spent the past seven weeks working on the new canal job some twenty miles below the Soo, returned from there Saturday night. He did not like the work and was only one of many who quit during the past few weeks. McArthur Bros., who started the canal under contract from the government, have let a sub-contract for all work except the pumping to Grant Smith & Co. There are now about 300 men on the job. Hooper says that the men are continually in and out. They are satisfied with the wages, but the work is hard and only a small percentage of the hands stick to it. The smallest pay is \$1.75 a day. Their board and house accommodations are good. Thomas Buzzo, ex-superintendent of the Negaunee water works, is the only Negaunee man still in the employ of McArthur Bros. He has charge of the pumping apparatus, his position being one of the best on the whole job. Hooper says Buzzo likes the place, and so far as he now knows will remain there permanently. Robert Penglass, formerly of this city, has taken a bossing job with the sub-contractors. It will require about five years to complete the improvement. A young man named Thompson, who lived in Negaunee some years ago, is the government inspector. He has a very good position, and is drawing big wages. **ORE MOVING RAPIDLY.** Every Steam Shovel on Range is Now Being Operated. The ore movement from the Negaunee and Ishpeming mines is now more rapid than at any previous time this season. Irons are being made in every stockpile all the way from the mines, and some are moving from idle properties. The Cleveland-Cliffs Iron company's shipments have been slack compared with those of the Oliver Iron Mining company, but now the Cleveland-Cliffs people are rushing out additional tonnage. Three steam shovels are working at the Cleveland-Cliffs mines, one having recently been brought up from Iron Mountain. The shovel was operated yesterday at the Negaunee mine, and some were at the Cleveland Lake. Later in the week one and perhaps both of the Ishpeming shovels will be transferred to the Cliffs shaft mine. The Oliver company's shovels have been working steadily for two months past, and now there is not a great deal of ore left in stock at any of the mines. It is expected that nearly all the company's pile of active properties will be cleaned out before the season closes, the railroads are having all they can do to keep the mines supplied with cars.

A prominent Southern lady, Mrs. Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me. "Better health is all I wanted, and cure if possible. Lydia E. Pinkham's Vegetable Compound brought me health and happiness in a few short months. I feel like another person now. My aches and pains have left me. Life seems new and sweet to me, and everything seems pleasant and easy. "Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am satisfied there is no medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."—MRS. B. A. BLANCHARD, 422 Broad St., Nashville, Tenn.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, nervousness, irritability, nervousness, sleeplessness, melancholy, "all-gone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

A Severe Case of Womb Trouble Cured in Philadelphia. "DEAR MRS. PINKHAM:—I have been cured of severe female troubles by the use of Lydia E. Pinkham's Vegetable Compound. I was nearly ready to give up, but seeing your advertisement I purchased one bottle of your medicine, and it did me so much good that I purchased another, and the result was so satisfactory that I never will be without it. I hope that my testimonial will convince women for falling of the womb or any other female complaints."—MRS. MAY COYR, 2660 Birch St., Philadelphia, Pa.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Her address is Lynn, Mass. Her advice is free and cheerfully given to every ailing woman who asks for it.

FAILURE OF THE AIR SHIP CONTESTS.

As a substitute for the great aerial contests so extensively advertised at the St. Louis Fair the balloon race was also a disappointment, as none of them proved controllable. Thus the secret of air navigation still remains unsolved. The secret of retaining good health was solved over 50 years ago, when Hostetter's Stomach Bitters was first presented to the public. It has been proven time and again that when this medicine is used sickly and delicate people are soon made strong and healthy. It tones up and strengthens the stomach, liver and kidneys, and cures nausea, flatulency, heartburn, indigestion, dyspepsia, belching, constipation, biliousness, and malaria, fever and ague. Don't waste time experimenting when the Bitters will cure you quickly. Try it and see for yourself.

LOCAL LACONICS.

Fred E. Nightingale returned to Sault Ste. Marie yesterday.
 Captain E. Tom's new dwelling on Mill street is enclosed.
 Ed Brand has taken a position as bartender with R. G. Jackson.
 George A. McDonald is now in Detroit working for an insurance company.
 Silver street, from Iron street to the South Shore tracks, is receiving a gravel dressing.

BACK FROM BISBEE.

Ernest Hodge has returned from Bisbee, Ariz., where he spent the past fourteen months. He was foreman in one of the mines. He is not certain that he will return, as his mother wishes him to remain at home. Before leaving Arizona Mr. Hodge was offered a good position in charge of work in a Mexico property. Mr. Hodge's mother is at present in the copper country, visiting relatives.

CURIOSITY.

What shall we do to be saved? was the title of one of Dr. Russell's lectures. People of faith and people of no faith flocked to hear it. Thousands are asking, "What shall I do to get rid of dandruff?" The answer is, "Kill the germ that causes dandruff, falling hair and finally baldness, and the only thing that will do it is Newb's Herpicide. That is the very latest discovery of the laboratory, and it is the only preparation that claims to, or that will, kill the restituous dandruff germ. It also is a delightful hair-dressing, free from oil or grease or sticky substances. Try it and be convinced of its actual merit. Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich. Stafford Drug Co., special agents.

SAVES TWO FROM DEATH.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by Stafford Drug Co. Trial bottles free.

CONFRONTS THE GRAVE.

Neglecting a cough means confronting the grave. Use Gloria Lung Balm before it is too late. It is the one remedy which brings quick relief. It is made of honey and tar and other healing herbs, and is best for children. Sold by The Stafford Drug Co.

LOOSE LEAF LEDGERS
What They Are. They are the business men's best friend. They save time, worry, money. They are being introduced by all progressive merchants, and give universal satisfaction. Possibly you are not familiar with their benefits. Give us a call, look over a sample and listen to our explanations. It will be all to your advantage.
What We Can Do. We can, first of all, meet all reasonable competition on these ledgers. We can guarantee material and workmanship without qualification. We can fill orders for any size, promptly and exactly. We can cheerfully make figures and give information, and we can furnish all accessories, as they may be needed.
THE STENGLEIN BINDERY, MARQUETTE, MICHIGAN.

NOW A PROSPECT FOR GOOD COUNTY ROADS

SUPERVISORS YESTERDAY DECIDED TO SUBMIT THE QUESTION TO THE VOTERS NOV. 8.

OTHER MATTERS DISPOSED OF

County Road System Was Subject of a Considerable Discussion, but the Vote Was Finally Unanimous.

Yesterday afternoon the supervisors decided by unanimous vote to submit the question of adopting the county road system to the electors of the county at the election to be held Nov. 8. The resolution originally introduced by Supervisor Powell was taken from the table. There ensued a rather lengthy discussion of its merits. Supervisor Ewing expressed himself as favorable to the introduction of the county road system, and suggested that if the supervisors did not approve of the board of road commissioners necessary under the present general statute they could doubtless get a special act for Marquette county passed by the legislature, giving the board full power to hire its own engineer and supervise the expenditures on its roads.

Prosecuting Attorney Bell informed the board that he construed the statute to mean that there must not be more than five or less than two road commissioners; also that the board commissioners is empowered under the statute to raise \$1 for each \$1,000 valuation for road building purposes, and the board of supervisors is authorized to double this amount if it sees fit. In other words in Marquette county the commissioners could require the supervisor to raise as much as \$2,000 for road building, and the supervisors could increase this amount to \$2,000. In practice, of course, the expenditures for roads would fall far below even the maximum amount that could be raised by the commissioners. Upwards of \$10,000 annually would be about the limit of the amount that the county would be likely to put into road building.

Eggen Suggested a Delay. Supervisor Eggen suggested that if the question of a special act was to be introduced, it would be well to ascertain whether such an act could be procured before putting the question up to the voters. Supervisor Treblecock seemed impressed with this reasoning and offered an amendment to the motion for the passage of the resolution providing that a committee of three be appointed to look into the question; and also that the adoption of the road system be submitted to the voters at the spring election.

Being asked to speak on the matter, Representative Wells said that he had no doubt that if a request for a special act came to the legislature with the unanimous backing of the supervisors it would be very quickly passed. Supervisor Hodgson spoke in favor of the immediate passage of the resolution. Captain Treblecock finally withdrew his amendment and the vote was on the resolution. Supervisors Kemp and Eggen alone voted in the negative, and then they changed their vote, making the action unanimous, a result that was received with a hearty burst of applause.

Even if the voters act favorably on the question, and little doubt is expressed that they will, the actual work under the county road system until 1906. No steps can be taken to raise money for county road work until after the system is adopted by the people of the county. The supervisors yesterday prevented from providing in advance for work that might well be done next year.

Other Matters. The board elected its new chairman yesterday, and conferred the honor on Captain John Treblecock of the National location, a member of the board for many years. D. T. Morgan was nominated, but at once withdrew, saying that he was not a candidate. C. F. Sundstrom also said that he had not authorized his name to be used. This left the field to Captain Treblecock, and he was elected by unanimous vote of the board.

There is a change in the poor commissioner for the third district, John Milroy of Michigamme, the incumbent for many years, being retired in favor of Philip P. Chase. The vote stood twenty-four for Chase, thirteen for Milroy and one for Joseph Zeiler. Superintendent Monical, of Champion, was elected school examiner, to succeed himself.

F. M. Moore, J. E. Sherman and George A. Newell were named as election commissioners. The report of the committee on salaries was approved. There is but one change in the salary list from that adopted last year. The prosecuting attorney was given a raise of \$400, to \$2,200 a year. The salaries are as follows: Treasurer, \$3,400; clerk, \$2,000; prosecuting attorney, \$2,200; sheriff, \$1,500; mine inspector, \$1,800; county school commissioner, \$1,500; poor commissioner, first district, \$900; poor commissioner, second district, \$750; poor commissioner, third district, \$600.

The township of Michigamme was, on recommendation of the highways and bridges committee, allowed an appropriation of \$400 to be used, in conjunction with an appropriation from the township, in repairing a bridge across the Michigamme river. The township of Ishpeming was on recommendation of the same committee given \$300 to be used in providing a road for which there is a pressing need.

The various annual reports were received and acted on favorably. They were all regular, and were disposed of without comment.

Pleasant Incident of Afternoon. A pleasant incident of the afternoon was the throwing open of one of the ante-rooms of the supervisors' chamber to disclose a brimming punchbowl at which the members, county officers and a few other visitors were invited to imbibite with the compliments of Chairman Fitch. The punch was served with champagne, and while it was being circulated, the half hour digression from business proving most pleasant and entertaining for all the members. The retiring chairman was frequently toasted, and the recipient of additional best wishes for success in his new field.

Philip P. Chase likewise sent in the reports on being elected poor commissioner for the third district, and two

boxes made their appearance with such celerity after Captain Treblecock's selection to succeed Mr. Fitch as chairman that the suspicion that the thing was all out and dried was inevitable. The board adjourned until Wednesday, Nov. 23—the day before Thanksgiving.

WORKERS' COUNCIL.

One for Marquette District M. E. Church to Be Held Here Tomorrow.

A Workers' council for the Marquette district of the M. E. church will be held here tomorrow under the direction of Presiding Elder G. M. Thompson. It is expected that all the clergymen in this group will be present, and they will be entertained by Marquette people. In the following program the papers, fifteen minutes each, will be given by the first named person. The leaders of the discussions will have five minutes each:—

—Morning—
8:30 Devotions. W. L. Brown.
9:00 Object of this council. Presiding Elder.

—Evening—
7:30 Hymns and Prayer.
8:30 Theme—How to succeed in Church Work this year. Addresses. E. R. Downing, Ames Maywood, Frederick Spence.

DEMONSTRATES OLDSMOBILES. D. B. Huss of the Olds Motor Works is in the City.

D. B. Huss, representing the Olds Motor works, is in Marquette for two or three days to demonstrate the machines manufactured by his company. He has three machines with him, the famous Oldsmobile runabout, one of the most serviceable machines on the market, the Oldsmobile touring runabout, and the Oldsmobile commo. The runabout is similar to the machine used here by J. E. Ball the past two seasons, but is of course improved and more powerful. The commo is a duplicate of Austin Farrell's machine. Mr. Huss will be invited to demonstrate either of the machines to any Marquette people interested, and appointments may be made by calling him up at the Hotel Marquette. Later he goes to Negaunee and Ishpeming.

WILLIAMS A PARTNER. Is Now Associated With Needham Bros. in Laundry Business.

St. Williams is now associated with Needham Bros. as a partner in the Marquette steam laundry, which will henceforth be conducted by Needham Bros. & Williams. Mr. Williams has been associated with Needham Bros. here and at Ishpeming since 1892, and has been in Marquette since 1895. Lately he has had the full management of the Marquette laundry, the Needham brothers having spent but little time in the city. Under his management the business has grown and prospered. Improvements have been made from time to time, and the patronage is now larger than ever before. The plant is in excellent condition.

"WHY WOMEN SIN." Melodrama at Popular Prices at Opera House This Evening.

"Why Women Sin," a melodrama, presented at popular prices, will be the bill at the opera house this evening. Good reports are heard from it. The play is said to be given by an adequate company and to receive an effective and complete scenic production. It is a sensational play, but one that is written carefully and from which all matter likely to offend good taste has been eliminated. In the play are several unusual and unique scenes.

UPBOUND BOATS. Names of Craft Passing Canals Enroute to Lake Superior Ports.

South Ste. Marie, Mich., Oct. 10.—Leonard, 7:30 last night; Panay, Nottingham, 8:30; Lagonda, 9:40; S. A. Frick, 5:40; Donaldson, Dayton, Wright, 7; Maricopa, Bell, Pontiac, 8:40; Woodruff, 9:20; Parks, Foster, 10; Colonel, Saunders, noon; Amaranth, Clemons, 1 p. m.; Ireland, Albright, 2; Ogley, 3:20; Kaliyuga, Edenborn, 4; Marina, Whitworth, 4:30; Zenith City and wheelack, 5; Jupiter, 6; McWilliams, 6:30.

Would you buy gold dollars for fifty cents? You would, of course. But you would not get nearly so much profit out of the transaction as you would if you should buy wheat, corn or copper stocks at present prices. J. W. Spear, No. 8 Harlow block, Marquette. (10-11-11)

Buy your piano at home. We represent manufacturers whose instruments are acknowledged to be of the highest known standard. You have both their warranty and our personal guarantee back of them. We invite comparison of prices and terms at Conklin's. (7-5-11)

STORM SASH. Let us measure your windows and quote you prices for storm sash. Compare our prices with others and order early. Both 'phones. Bell No. 41, Marquette County No. 66. F. W. READ & CO.

LOBSTERS AND OYSTERS. For a good oyster stew or broiled lobster try the Superior Cafe, 303 South Front street. Theater and dinner parties receive strict attention. Catering a specialty. (8-30-11)

AFTER TWENTY-ONE YEARS OF SERVICE

WALTER FITCH BROUGHT CONNECTION WITH SUPERVISORS' BOARD TO AN END.

RESIGNED THE CHAIRMANSHIP

Was Presented With Handsome Solid Silver Water Pitcher by the Members, F. A. Bell Making the Address.

Walter Fitch, of Beuron, yesterday brought to a close a twenty-one year's connection with the board of supervisors of Marquette county, resigning both his membership and his chairmanship. Following his formal resignation, F. A. Bell, for the board, addressed Mr. Fitch, expressing the supervisors' regret at his early departure from the county, but also congratulating him on the fact that the change introduces him to a larger field. In conclusion Mr. Bell, in behalf of the board, presented Mr. Fitch with a substantial token of the members' esteem, a solid silver water pitcher. Mr. Fitch responded briefly in thanks and the meeting then adjourned, these events happening the last thing at the morning session.

Mr. Fitch spoke at some length in presenting his resignation, which he asked should be made effective with the adjournment of the meeting on which the members were then engaged. He referred to the fact that he has been chairman of the board for the past three terms, and expressed his deep appreciation of the honor and the gratifying support he has received from the members of the board. His chairmanship of the board was coincident with the period during which the new court house was under construction, and he referred to the pleasure he experienced in connection with other members of the board in carrying on this work. It is a matter well worth noting, Mr. Fitch said, that in the business connected with the erection of the court house there was never the slightest disagreement, either on the board or the building committee. There were, naturally, differences of opinion over some points, but in all cases the differences were gone over amicably and harmoniously and in every instance the final vote was unanimous.

Everyone Well Satisfied. As for the court house Mr. Fitch said that all appear very well satisfied with the structure. It is well and substantially built, with promise that a minimum of repairs will be needed. Speaking of the beginning that the project would be expensive for the county, but that he and the other members of the board felt that Marquette county wanted a creditable and substantial building. The cost is in the neighborhood of \$204,000, but at that the building is cheap. As such a corporation as Marquette county can well afford a rich and expensive court house. Mr. Fitch said that he had given the property a valuation of \$8,044 a year per \$1,000 valuation for a period of ten years, or that it will cost each \$1,000 of assessed valuation but \$45. He drew attention to the necessity of providing the county with rich and substantial buildings while the mineral wealth of the county is yet unexhausted, and in this connection referred to the co-operation of the mining companies in securing the success of the court house project, and their satisfaction with the result. The presentation by the board to Mr. Fitch, through Mr. Bell, came to him as an entire surprise. Mr. Bell said that he had been directed by the board to address a few remarks to the chairman. The resignation was accepted, he said, not because the board wished to accept it, but because it was realized that Mr. Fitch had to present it and wanted it accepted. Mr. Bell tendered the chairman the board's sincere thanks for his loyalty to the interests of the county and the board during his long service as one of its members; its appreciation of his courtesy to individual members and his congratulations to him on his departure for a field of enlarged duties and responsibilities. With a few well chosen sentences Mr. Bell indicated the great regret felt at the necessity of losing Mr. Fitch, and then presented the board's gift. There was a great outburst of applause for both Mr. Fitch and the speaker and Mr. Fitch, and the latter was given a genuine ovation on concluding his response to the presentation.

Blow Up Poor Commissioners. In compliance with a request made at the previous meeting of the board, the poor commissioners yesterday presented more detailed statements of their business for the last month. They presented statements showing with what merchants they had been trading. These reports were read for all three districts. Captain Hodgson arose to find fault with the item of salaries credited to John Stewart, keeper of the poor house. All the salaries due employees were credited in one amount to Mr. Stewart, he having the disbursement of the money to the people entitled to it. Captain Hodgson said he thought that there should be an itemized statement in regard to these salaries.

In the report of C. L. Sporley, commissioner for the second district, it was shown that F. Braastad & Co. had obtained over \$400 worth of the business, and Captain Hodgson used this fact as a basis for a complaint that the recipients of the county's bounty were not allowed to trade where they wanted to, but were told by the poor commissioner where to go. Captain Hodgson said he did not blame F. Braastad & Co. because they had the lion's share of the business, but he did blame the commissioner for the second district. He asserted that poor people who are extended aid by the county should have the privilege of doing their trading where they desire, and said that there was much complaint with the present manner of conducting the relief work. He cited Captain Sam Mitchell of Negaunee as complaining that the poor people in that city were not allowed discrimination in doing their trading. Captain Treblecock was heard from along the same lines. He said that the poor relief had certainly not been carried on properly and he favored some changes. Captain Hodgson proposed a resolution asking for participation in regard to the item of salaries at the poor house, and also directing the superintendents to allow poor people to have discretion about where they will trade. Mr. Bell was asked whether such action would be legal. He said legally the board had no direct power over the commissioners,

but that if it desired to pass the proposed resolution it would be eminently fitting for it to do so. Captain Treblecock remarked that if the board had no legal power over the commissioners, it at least had the whole say about their election, and he expressed no doubt that the commissioners would acquiesce in its demands. Captain Hodgson's resolution was passed unanimously.

City Brevities

Today's weather: Fair and stationary temperature. Yesterday's temperature: Seven a. m., 55 degrees; noon, 51; 7 p. m., 47. Maximum, 58 degrees; minimum, 47.

Charles Sechoh left for a business trip to Chicago last evening. F. L. Coventry of Iron Mountain was a Marquette visitor yesterday.

The W. C. T. U. will meet this afternoon at 2:30 with Mrs. M. W. Anderson, 217 W. Ridge street.

Peter E. Paquin of Michigamme says that his name was used without his knowledge as a member of the Independent county committee. He is not taking any active part in politics this fall.

T. M. Wells of Negaunee and J. H. Quinn of Ishpeming, assessors in those cities, and the township assessors were here yesterday attending the session of the board of supervisors, at which the annual apportionment for the county was determined.

The Merrimac, for Ashabula, was the only one carrier clearing yesterday. Her cargo was taken on at the L. S. & I. dock. The arrivals in the upper harbor were the Watson and Falcon. In the lower harbor the P. J. Ralph, Olga, Conolly Bros. and Harold were in for shelter.

Rev. J. M. Rogers left on the early train this morning for Saganay, to attend the meeting of the synod of Michigan, which convenes this evening. He expects to be back in Marquette Thursday afternoon. George P. Cummings, an elder, is also a delegate representing the Marquette Presbyterian church.

Edward P. Burch, the expert retained by the light and power commission, has just returned from Minneapolis, Minn., where he attended the convention of the National Electric Light Association. Speaking of last week's interruption of the lighting service, Mr. Burch says it was due to one of those inevitable accidents that are bound to occur in every plant of the kind. He is further of the opinion that many cities are usually more inconvenienced than was Marquette. In St. Paul, for instance, last week the electric service was suspended for three full days, during which the city was practically in darkness as far as electricity was concerned. The immense main steam pipe leading from the battery of many boilers to the engines burst, and it was a protracted and difficult job to replace it. Mr. Burch says that if the people of St. Paul could have gotten off as lightly as did the people of Marquette they would have considered themselves lucky.

Maud—Last night Jack told me that he wouldn't marry the best girl living, unless—what—unless she took Hollister's Rocky Mountain Tea. Bright fellow, 35 cents. Tea or Tablets. Stafford Drug Co.

If you wish to be supplied with the finest milk and butter in the market, just call up Vandenberg's dairy. Both 'phones. (10-11-11)

Copper stocks are booming. Now is the time to buy them. J. W. Spear, No. 8 Harlow block, Marquette. (10-11-11)

Sterile's photograph gallery moved to 506 North Front street. Now ready for sittings. (8-31-11)

CLIFTON BARBER SHOP. George Perrin, the Clifton Hotel barber, located in writing room. Shop open from 7 a. m. to 8 p. m. (9-29-11)

Conklin's business record of thirty-four years is an open page. We do not know of a dissatisfied customer. He has placed hundreds of pianos in Marquette homes. His personal guarantee is back of each and every instrument. (7-8-11)

CANNEL COAL. Just the thing for the grate and chilly evenings. F. B. SPEAR & SONS. (9-12)

For the best in the line of photographs come to Sterile's new gallery, 506 North Front street. Now ready for sittings. (8-31-11)

CLIFTON HOUSE. Renovated and improved throughout. Best table service. Buffet in connection with house. Most convenient and best place to get your Sunday dinner. Boarders taken at reasonable rates. (10-1-11)

WAGONS, BUGGIES, Harness and Farm Implements of all kinds. Best Assortment in Upper Peninsula. H. E. BITTNER. 7-3-11

TO NURSING MOTHERS. Are you worn out? Tired and completely run down? You have no vitality, no energy. You are nervous, weak, fretful and cry easily. For just such cases as yours Vin-Tone has been prepared. It overcomes that tired, weak feeling and puts new energy into body and mind. Do not be skeptical and refuse to believe what eminent physicians pronounce to be a fact. A doctor who has made a deep study of this subject, have, after much patience, experimenting and expense, succeeded in compounding Vin-Tone. And having been convinced of its wonderful strengthening power, they now send it out into the world to do its work among poor weary human beings. We are glad to be able to print the good news that a remedy has at last been discovered which takes right hold of any worn-out system and builds a foundation to health and happiness. To the nursing mother this will come like a God-send. One bottle will convince you. Sold on a positive guarantee by... THE... People's Drug Store, S. B. Jones, Mgr. Marquette, Mich

No More Coughs

There is a flood of new cough cures on the market that claim to cure coughs quickly—some in a day. Remedies that cure in a day do not cure at all. They stop the cough by deadening the nerves of the air passages with opiates. Tar, Honey, Horsebalm and Wild Cherry cures—cures to stay cured because it cures the right way—by removing the cause. It is equally good for children and adults. Your money back if results are not satisfactory. Price, 25 and 50 cents.

DEJARDINS' PHARMACY, 417 N. Third St.
