always on hand.

## TIDE OF BATTLE STILL GOES AGAINST THE RUSSIAN ARMY

### Reports Indicate That the Czar's Forces, Badly Beaten, Are in Full Retreat.

## SLAV ATTACK HAS FAILED EVERYWHERE

### Is Reported That the Whole Line Has Been Driven Back Twenty Miles, the Japanese Pursuing, That Seventy Guns Have Been Taken and That One Wing Isolated and Is Doomed to Destruction—Slaughter Has Been Immense, Much More So Than at Liao Yang, and Wounded Soldiers by the Thousands Are Streaming Into Mukden—Little News Is Given Out at St. Petersburg and the City Is Filled With Rumors of Dire Disaster.

St. Petersburg, Oct. 14.—Evening—Nothing official regarding today's fighting is yet obtainable, but the prevailing impression in St. Petersburg is that the day has gone against Kuropatkin. The city is filled with rumors of his disastrous defeat.

Mukden, Oct. 14.—At 3:30 o'clock this afternoon the fight is still in progress with terrible bitterness. The losses on both sides are enormous. The Russians have fifteen thousand wounded, hundreds of whom are streaming back from all directions. In the distance the sounds of battle are distinctly heard.

London, Oct. 14.—A dispatch to a news agency from Mukden, timed at 2 o'clock p. m. today and received by way of Paris, says that the Japanese have gained a great victory and that the Russian lines are withdrawing slowly northward, having suffered heavy losses. The battle continues and the dispatches are strictly censored.

London, Saturday, Oct. 15.—The Chronicle's correspondent at Yantai, under date of Oct. 12, says: "The Russian attack failed everywhere, and they are in full retreat along the whole line, pursued by the Japanese. Thirty Russian guns were captured. The Japanese turning movement is pressing the Russians back to Mukden. The Russians made sixteen counter-attacks with splendid bravery, sacrificing themselves freely but unavailingly."

London, Saturday, Oct. 15.—A dispatch from Tokio to the Standard says: "It is unofficially reported that the Japanese army has succeeded in isolating a force of three or four divisions of Russians in the Bensihi-Kaotan district. It is rumored that Kuropatkin himself is with the force, which seems doomed to destruction."

London, Saturday, Oct. 15.—The Standard's correspondent at Yantai says that at the time of filing the dispatch, the whole Russian line had been driven back over twenty miles and seventy guns had been captured. The pursuit is being kept up by strong forces on both flanks. There is good reason to hope that Field Marshal Oyama has succeeded in enveloping the enemy. Prisoners say that General Kuropatkin personally commanded the troops on the main road and General Mischenko at Bensihi. The Japanese hurled back sixteen counter-attacks upon their right.

Tokio, Oct. 14.—Field Marshal Oyama reports fighting in progress along almost the entire front and that the Japanese are making satisfactory progress.

Tokio, Oct. 14.—An extended report from the Manchurian headquarters records severe fighting during Wednesday and additional Japanese gains. The conflict around Bensihi continues to be undetermined. Yesterday a force of Japanese cavalry made a detour of the Russian left flank in the rear of Bensihi, and partially scattered the Russian supports.

Headquarters of the Russian Western Army, Oct. 13, via Peking, Oct. 14.—Situation was safely held until midnight tonight, when all the wounded and baggage had been removed. Contrary to former reports, the advance of the Japanese, which had been pushing up the Liao river, as though with the determination to turn the Russian right flank, has now crossed the Hun river.

London, Oct. 14.—A news agency dispatch from Harbin says that the hospital are preparing for the reception of officers and men wounded in the battle at Yantai.

Kuropatkin Reports Failure.  
St. Petersburg, Oct. 14.—The emperor today received the following dispatch yesterday, from General Kuropatkin:

"Two regiments of the Russian right on Wednesday sustained heavy losses. The commander of one was killed and the brigade commander was wounded. Both regiments were compelled to withdraw, abandoning their artillery, but subsequently, under Colonel Vannovsky, who temporarily assumed command of the brigade, they after a desperate assault regained possession of the guns with the exception of sixteen, which remained in the hands of the Japanese. "The final issue of the battle of Wed-

The main armies of Russia and Japan in Manchuria continue to be engaged in a desperate struggle for supremacy south of Mukden. On both sides there have been such losses in killed and wounded as make the contest one of the bloodiest battles in history. Already the losses at Liao Yang have been approximated and the indications are that they will be exceeded, that of the Russians up to noon of Oct. 14 being estimated at fifteen thousand in wounded alone.

The Russian advance has been converted into a stubbornly fought retreat. The result, according to the Russians, is still to be determined.

Reports from the Russian left wing are lacking, leaving room for question if that part of General Kuropatkin's army is not being exterminated. The center and right were at any stage of the battle.

On both sides the soldiers have shown the utmost tenacity and bravery, and whole regiments have been obliged to retire upon Mukden, a position will be quite favorable as it was when the order to advance was given.

Oct. 6, and that, on the other hand, the Japanese powers for future resistance will have been materially weakened.

There is no news from Port Arthur.

nesday on this flank was unsuccessful for us. On account of a night attack of the Japanese, who executed a turning movement, our troops were forced not only to abandon their positions, but again lost the guns previously recovered from the Japanese. Our forces retired to a position previously prepared on the Shaike river.

General Kuropatkin reports that he has ordered the Russian troops on his left flank to retire because Japanese reinforcements threatened to cut them off. The dispatch reiterates that the Russians have suffered heavy losses, but no details are given out.

Wild Rumors of Disaster.  
St. Petersburg, Saturday, Oct. 15.—2:30 a. m.—The great feeling of concern which exists in high circles here by no means equals the foreboding of coming disaster prevailing the general public, which is muttering in the deepest pessimism.

In the absence of official news the public is being fed on the wildest rumors of defeat suffered by Kuropatkin. The fact that no word regarding yesterday's (Friday's) battle has been officially given out only confirms the popular fear.

General Kuropatkin's report of the results of yesterday's operations has reached the emperor at Parakee Selo, but it had not been returned here before the war commission adjourned for the night. The emperor himself is represented as being bitterly disappointed and spending hours with his cabinet, studying out, with the help of his military aids, the reports of the battle. The general staff, however, by no means despair, though admitting that the tide of the last two days has been against Kuropatkin. It says that the battle is not yet over and that in any event there is no question of a rout.

Dispatches from the front give a vivid picture of the desperate character of the fighting along the whole line. There have been desperate and repeated attacks upon almost inaccessible positions, which leave no question of the resolution and gallantry of the Russian forces. Guns have been captured and recaptured in fierce hand-to-hand fights. The latest word directly from the field of battle is a Mukden dispatch to the Associated Press, in which it is stated that 15,000 Russians had been wounded, which, together with yesterday's casualties, would make the total probably exceed the figures of Liao Yang and make the fight rank as one of the

## WASHINGTON STIRRED

Mail Consigned to a U. S. Cruiser Opened by the Russians.

Washington, Oct. 14.—It developed today that a pouch containing mail for the United States cruiser Cincinnati, then at Nagasaki, Japan, which was aboard the British steamer Calcha when that vessel was seized by the Russian Vladivostok squadron, was opened while in possession of the Russian officials, was subsequently resealed, and was sent on to its destination.

This information came to the post-office department today in a communication from the Japanese post administration in conformity with the practice always followed when there has been any mishap in the delivery of mail pouches. The matter will be referred to the state department for action, as was done with the case of ordinary United States mail on the vessel at the time she was seized.

The latest phase of the seizure of the Calcha's mails has caused a painful surprise in official circles, and if the act of opening the pouch addressed to the Cincinnati was wittingly done, the probability is that a strong protest will be lodged with the Russian government.

It is stated at the navy department that the mail pouch referred to did not contain any official communications, simply mail for the men aboard the ship.

bloodiest battles in history. A pitiable feature is the coming of the roads are crowded with long trains of wagons, baggage and transport wagons, as well as ambulances, being pressed into service, even Chinese two-wheeled carts filling the mandate of the military.

Coming from All Directions.

Mukden, Oct. 14.—Wounded soldiers are coming in from all directions. The roads are crowded with long trains of wagons, baggage and transport wagons, as well as ambulances, being pressed into service, even Chinese two-wheeled carts filling the mandate of the military.

Men afoot are limping in, using their guns as crutches, the less severely wounded supporting their comrades, after a first aid dressing on the firing line. Even across the fields you meet them, taking the shortest and straightest road for help and shelter.

It is a most pitiful feature of the bloody drama being enacted at the front, when, stiffening with wounds, pain-racked bodies sink to the roadside after the glory of active fight has been withdrawn.

Thousands Fall in Night Attack.  
Souzoum, twelve miles south of Mukden, Oct. 13.—[Delayed.]—A Russian correspondent of the Associated Press gives the details of the fighting, his story beginning with the Japanese attack about midnight Oct. 10.

The Japanese hurled their full force against the Russian intrenchments. The attack did not cease for hours. Just as the day dawned the Russian batteries poured shrapnel into the Japanese and soon the enemy were leaving their trenches. But the shells followed them and the Japanese fell literally like wheat thrown by the hand of a sower.

In their flight the Japanese fired a village, rightly calculating that the wind from the east would carry the smoke towards the Russians, making a screen for them and confusing the aim of the Russian gunners. The fight raged along the whole line all morning. At noon the Japanese batteries opened and the battle continued.

During the night attack the losses were heavy. The Tomsk regiment suffered terribly, but few of that brilliant command surviving. There are only remnants left of many other regiments, but the few left bravely continue to fight.

The Japanese today landed an unexpected blow on the Russian right flank and took two batteries which the Russians subsequently regained.

Japanese Squadron Off Vladivostok.  
Paris, Oct. 14.—Five Japanese cruisers are reported off Vladivostok. The commander-in-chief of the Russian fortress has summoned the inhabitants to surrender firearms of all descriptions within a week.

St. Petersburg, Oct. 14.—The admiralty discredits the Paris report that five Japanese cruisers have appeared off Vladivostok.

Losses at Port Arthur.  
Tokio, Oct. 14.—It is officially announced that twenty-seven officers were killed and 133 wounded during the operations against Port Arthur from June 25 to July 31.

MANY ARRESTS MADE.  
Revolutionary Movement Against Castro Develops in Venezuela.

Washington, Oct. 14.—Private advice from Venezuela state that many arrests are being made there to check a revolutionary movement on a large scale directed against President Castro's administration.

MONARCH EXPIRES.  
Demise of King George of Saxony Occurred This Morning.

Dresden, Saturday, Oct. 15.—King George of Saxony died at 2:25 o'clock this morning. His end was peaceful. His sons were present at the deathbed.

CLEVELAND CLUB THE WINNER.

Pittsburg, Oct. 14.—By winning today's game Cleveland took the post-season series from Pittsburg. Summary:

Cleveland ..... 4 11 2  
Pittsburg ..... 1 2 2  
Batteries: Flaherty, Robertaille and Phelps; Hess and Bemis.

OBITUARY MENTION.  
Iowa City, Ia., Oct. 14.—John H. Humpston, a star member of the university baseball team, died today.

Chicago, Oct. 14.—M. Bensing, president of the Irons'wick Bulke-Collender company, died today at French Lick, Ind.

TODAY'S WEATHER.  
Washington, Oct. 14.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy Saturday and Sunday; fresh east to southeast winds.

## YANKEE GUNNERS BEST.

Cruiser New York Breaks the World's Record for Eight-Inch Guns.

San Francisco, Oct. 14.—News reached the city today that Rear Admiral Goodrich's flagship, the cruiser New York, during target practice last month in Magdalena bay, Mexico, broke the world's record for firing eight-inch guns, making the greatest score ever made with guns of this calibre in any navy.

TWELVE PERSONS PERISH.

Schooner Goes to Pieces Off Massachusetts Coast.

Chatham, Mass., Oct. 14.—Everyone of the twelve persons aboard the schooner Wentworth perished when that vessel struck on Chatham bar last night. The vessel went to pieces and despite the efforts of the life saving crew to reach them not a soul aboard survived. Two bodies were rescued from the surf this morning, one that of a woman, believed to be that of the wife of the captain.

## SENATOR ALLISON TALKS IN INDIANA

GREAT CROWD AT SOUTH BEND ADDRESSED BY THE IOWA STATESMAN.

## PARKER AND DAVIS CENSURED

SPEAKER REPLIES TO CRITICISMS OF FEDERAL EXPENDITURES.

Aly Defends Republican Direction of National Affairs and Shows That the Appropriations Attacked Cannot Be Consistently Reduced.

South Bend, Ind., Oct. 14.—Senator Allison spoke to a large crowd here this evening, devoting most of his attention to the criticisms of Judge Parker and ex-Senator Davis as to the expenditures under the McKinley and Roosevelt administrations.

The expenditures of the government have been and are constantly being increased as conditions change, he said. This, he said, was not only true of the general government but also of states and municipalities. It is easy to criticize appropriations in the aggregate, he continued, and say that they are too great because they are greater than they were in Buchanan's time or because they are greater than during the first or last administration of Cleveland, or of Harrison, but it is quite another thing to take the trouble to analyze the appropriations and show how reductions can be consistently made.

The speaker said that an analysis of the attack upon expenditures shows it is an attack upon the army and navy expenditures. "We have an extensive system of fortifications recently constructed to protect our seaboard," said the senator. "Are these fortifications not to be manned and cared for? Is our seaboard to be left defenseless? Are the twelve or fourteen thousand men thus employed to be mustered out of the service?"

"The appropriations for the agricultural department have been increased during the last few years. The value of these appropriations to the people cannot be measured in money. Who will say that these appropriations are not needed, that they are not beneficial to the country, and that they are not wisely expended by Secretary Wilson; and who would propose to reduce them or disperse with them? These are questions for the consideration of those who insist that great reductions ought to be made in the public expenditures."

"The president has already reduced the army to 50,000 men, the minimum fixed by law, reducing it 41,000 from what it was when he was first sworn into office, and yet he is accused of militarism and it is charged that the army will be used by him for improper purposes."

"Is honesty in the public service a party issue? Has the Democratic party shown itself to be more honest than the Republicans? Is there anything in its record to justify such a statement? I do not believe that in any period of our history there has existed more integrity, more fidelity than is found now in the administration of President Roosevelt. He has shown himself to be a foe to dishonesty and speculation in public place. He has with unsparring hand brought to disgrace and punishment every violator of the law and every one who has been unfaithful in the discharge of public duty."

"It is easy for the party not in power to criticize in general terms. It is not so easy for it to point out specific defects. It is easy also to make promises in a political campaign when those promises are absolutely impossible of fulfillment when responsibility comes if it ever comes."

Wilson Speaks in Illinois.  
Springfield, Ill., Oct. 14.—Secretary Wilson spoke here tonight on the question of policy and government, eulogizing President Roosevelt and the Republican party. He charged Judge Parker with intent to reduce the pension appropriations.

Yale Republicans Organize.  
New Haven, Conn., Oct. 14.—The Yale University Republican club, six hundred members, was formed here tonight. Richard M. Fairbanks of Indianapolis, son of the vice presidential nominee, was chosen president.

BRYAN IN INDIANA.  
Makes Seven Speeches on the Third Day of His Tour.

Richmond, Ind., Oct. 14.—William J. Bryan closed the third day of his Indiana tour with a speech before a large crowd here tonight. Enroute from Fort Wayne to Richmond, Mr. Bryan delivered seven speeches.

Olney in New York.  
New York, Oct. 14.—Richard Olney was the chief speaker tonight at a Democratic meeting held under auspices of the Parker Constitution Club.

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription Rates: Per month, by carrier, \$1.00; per year, by mail, \$10.00.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

This is the time for the campaign roar; in other words don't believe all you hear.

The Northern Normal has at last taken rank among the full-fledged educational institutions. It has a football team.

Eighteen New Yorkers are dead from drinking bad whiskey. There is a rush to the milk men and also a rush to sign pledges.

Just about this time it is likely that General Kuropatkin is sincerely regretful that he didn't wait for General Gripenberg and that second Manchurian army.

For a Republican paper the St. Ignace Enterprise publishes a most un-Republican cartoon this week. It must have been left over from a job lot purchased by the Enterprise while it was still Democratic.

A Bay City Women's club this week discussed measures for the relief of shoe girls, and it didn't occur to a single member that they would accomplish a great deal toward the desired end by making a resolution to shop quickly, and then living up to it.

A Michigan editor has received a congressional nomination. He is Lloyd C. Feighner of Litchfield, where he presides over the destinies of the Gazette. As might be expected the nomination is by the Democratic party and carries not a ghost of a show. Feighner will run against Representative Gardner.

After a peace of a few days there is another revolution in Santo Domingo. The departments of the south are reported to have declared in favor of Jimenez, familiar name and Haytien exiles are said to have gathered near the frontier preparing to reenter Hayti to attempt a resurrection in favor of General Firmin against President Nord. Santo Domingo acts as if it were playing for a little benevolent assimilation.

Michigan day at the World's Fair passed off as pleasantly as could be asked. A large concourse of Michigan people were assembled at the state building to participate in the exercises. There were felicitations for the fair management by the Michigan speakers and felicitations for Michigan and Michigan people by President Francis and other fair officials. After everyone had assured everyone else of their great pleasure in being present the company adjourned en masse to enjoy the pleasures of the Pike.

As a general rule the county tickets placed in nomination this year by the Democrats are the strongest and best that have been selected since 1896. They contain names of men who hesitated to identify themselves with the organization during the period of the Bryan domination, but who are no longer ashamed to own up to their political affiliations. From the standpoint of Judge Parker's candidacy the present campaign may prove unquenchably disastrous, and yet it will doubtless be an excellent thing for the party. It will at least give it a comparatively clean and new start.

A tour of fourteen states in the course of which 6,391 miles were traveled and 119 speeches were delivered convinced Senator Fairbanks that the west is safe for Roosevelt, a thing of which he had a pretty well defined inkling before he started to swing around the circle. At Chicago Thursday night he concluded a day's campaigning in Illinois with a brilliant address. He warned against the danger of apathy. The apathetic attitude of the people toward the present campaign has been noted frequently. It is not an apathy of Democrats or of Republicans, particularly, but an apathy of a whole people well content with present business and industrial conditions. However, it is not a healthy condition, and Republicans should hasten to cast it off and bestir themselves for four more years of Roosevelt.

The Democrats will act wisely if they keep their candidate, Mr. Ferris, below the straits. Here on the upper peninsula, the picture being based largely on the word paintings of the indefatigable Scripps papers, Mr. Ferris has been conceived to be a very demigod of a man, broad classic brow, heroic stature, every utterance a weight of wisdom, and all that. If he should come north and be found to be a calm, ruminating and hesitating schoolmaster, not particularly sure of himself or of anything else, with baggy trousers and a straw between his teeth, the result would be most disappointing. Of course Mr. Ferris might not turn out that way, but can the Democrats afford to take any chances?

There is a marked contrast between such a season as 1904 and the years immediately following the panic of 1893. In the past ten years Lake Superior ore interests have been passing year by year into strong hands, and there is now no such experience as used to be common when weak producers, in order to meet obligations, would force their stockpiles to sale, and always at sacrifice prices. There is throughout the entire Lake Superior district a very distinct recognition today of the value of every ton of iron ore in the ground. In the old days those who were trying to stiffen the backbone of weak sellers used to urge with great vigor that one taken from the ground could not be replaced, and that to sacrifice it was to weaken and foolish. Such urging is not needed today. The value of iron ore as a world commodity was never better understood. The years that do not bring a good return to owners of iron mines will be the exceptional years.

While the movement of ore from Lake Superior this year is light as compared with the two years preceding, the average of which was close to 26,000,000 tons, the total for 1904 will exceed considerably some of the early estimates. Shipments of 18,500,000 tons now seem well assured, and the total may run to 19,000,000 tons, saying nothing of the Baraboo district, which sends ore direct to South Chicago, and the Michigan district, which, however, will be a relatively small contributor this year. At the opening of navigation on May 1, 1904, there were about 9,500,000 tons of ore on Lake Erie docks or in furnace yards of users of Lake Superior ores. Adding 19,000,000 tons gives a total of 28,500,000 tons available for the year ending with the opening of navigation in 1905. It would be safe to estimate that the stocks on hand at the opening of the season will be between 6,000,000 and 7,000,000 tons on May 1 of next year; and in the evolution of the Lake Superior ore trade from a 10,000,000-ton movement only eight years ago to a first-class shipment of 30,000,000 tons are counted on as a probable record of one or two seasons hence, such a stock at the opening of navigation is a very moderate factor of safety.

when the Scripps papers have done such a fine piece of work in presenting him to the north country?

IN A SAD PLIGHT. The Wisconsin Stalwarts are in a sad plight. They decided this week to keep their ticket in the field, and thus their plight forces itself on the public's attention. If they had bowed to adverse circumstances and withdrawn from the political arena with whatever of grace they could command, they would soon have been to some degree forgotten, if not forgiven, and received back into the ranks of the real Republicans. However, they have elected to push their fight on La Follette to the last ditch, and they must abide by the results.

They are a badly discredited lot. For one thing the La Follette organization has been recognized as regular by the National committee, and has been asked to arrange the dates and take care of the details for the reception of all the administration speakers. This week Senator Fairbanks spoke at the Davidson at Milwaukee under La Follette auspices. Again there seems every likelihood that the late Mr. Payne will be succeeded on the National committee by a La Follette man. Congressmen Minor and Cooper, erstwhile Stalwarts, have announced their intention to abide by the results of the supreme court's disposal of the Stalwart's case and will support the regular, or La Follette, ticket. The latter delivered a plain unvarnished speech in which he spoke most enlighteningly of the manner in which the Stalwarts got themselves endorsed by the National committee and convention. Congressman Esch has followed the example of his colleagues. Senator Spooner, the arch Stalwart, spoke in favor of abandoning the ticket at the Milwaukee conference. On concluding he left the conference, and then was overruled. What his attitude will be remains for the future to determine, but he is unlikely to deliver any Stalwart speeches in Wisconsin. He may confine his campaign work to other states.

Who, then, are the Stalwarts who have decided to continue the fight? They are men with whom hatred of La Follette has become a guiding instinct. They would gratify that hatred at any cost, even at the expense of the national ticket. This their course in continuing their state ticket in the field clearly shows. When Senator Spooner pleaded, very tardily, indeed, against a continuance of their fight he was pleading for the administration. The administration was, in effect, told to go to Tophet.

The Stalwart movement is doubtless a blind. It is probably designed to hold the Republican vote that the Stalwart leaders knew would go to La Follette were Scofield withdrawn, making it a question of La Follette or Peck. The man whom the Stalwarts really hope to elect is Peck, and they will throw to him all the votes they can control. Whether their headstrong campaign against the governor can avail them anything is a question that only election results can definitely determine. They have succeeded in so involving the situation that predictions are rather futile.

THE IRON ORE SITUATION. The Cleveland Iron Trade Review has the following extended editorial comment on the iron ore conditions.

It has been a matter of comment among buyers of iron ore in the past few months that there was very little difference between prices quoted by various selling firms on orders of similar analysis and physical characteristics. Predictions of demoralization, which were freely made when it was decided to have an open market in 1904, have not been borne out by actual transactions. It is a noteworthy fact that sales have been made through the season within fifteen to twenty cents a ton of the prices which the strictly merchant ore firms advocated at the conference held in Cleveland and New York last April.

The fairly uniform prices secured have been due not at all to agreement among sellers, for there has been none, but rather to the fact that these prices have been practically profitless. At best the margin was very meager, as compared with what has existed in the past three years. While a \$3.25 price for old-range Bessemer ore, running 63 per cent in iron, .045 per cent in phosphorus and carrying 10 per cent moisture, was favored by the merchant ore men, sales made in the vicinity of \$3.65 to \$3.10. Similarly, old-range non-Bessemer ores of 60 per cent iron and 12 per cent moisture were figured at \$2.80 to begin with, and in the market have brought \$2.65 to \$2.70.

The feeling has been general among ore producers that it was not good policy to throw away any of the money earned in recent years, by demoralizing the market in 1904. It has been generally considered that one season of light shipments would be sufficient to correct the bad adjustment of supply and demand which had resulted from the over-shippments of 1902 and 1903. Meantime producers were willing to accept a year of small business and to look to 1905 to give them both profits and a fair tone. It can readily be seen that such a condition makes an agreement among the merchant ore firms in 1904 more of a possibility than was generally supposed when the ore association dissolved last spring. There has been no slaughtering of the market, and there will be no heartburnings to stand in the way of an amicable discussion early next year of the feasibility of renewing the old agreement, with such changes as may be necessitated by the increasing importance of the producing consuming interests.

There is a marked contrast between such a season as 1904 and the years immediately following the panic of 1893. In the past ten years Lake Superior ore interests have been passing year by year into strong hands, and there is now no such experience as used to be common when weak producers, in order to meet obligations, would force their stockpiles to sale, and always at sacrifice prices. There is throughout the entire Lake Superior district a very distinct recognition today of the value of every ton of iron ore in the ground. In the old days those who were trying to stiffen the backbone of weak sellers used to urge with great vigor that one taken from the ground could not be replaced, and that to sacrifice it was to weaken and foolish. Such urging is not needed today. The value of iron ore as a world commodity was never better understood. The years that do not bring a good return to owners of iron mines will be the exceptional years.

While the movement of ore from Lake Superior this year is light as compared with the two years preceding, the average of which was close to 26,000,000 tons, the total for 1904 will exceed considerably some of the early estimates. Shipments of 18,500,000 tons now seem well assured, and the total may run to 19,000,000 tons, saying nothing of the Baraboo district, which sends ore direct to South Chicago, and the Michigan district, which, however, will be a relatively small contributor this year. At the opening of navigation on May 1, 1904, there were about 9,500,000 tons of ore on Lake Erie docks or in furnace yards of users of Lake Superior ores. Adding 19,000,000 tons gives a total of 28,500,000 tons available for the year ending with the opening of navigation in 1905. It would be safe to estimate that the stocks on hand at the opening of the season will be between 6,000,000 and 7,000,000 tons on May 1 of next year; and in the evolution of the Lake Superior ore trade from a 10,000,000-ton movement only eight years ago to a first-class shipment of 30,000,000 tons are counted on as a probable record of one or two seasons hence, such a stock at the opening of navigation is a very moderate factor of safety.

THE SUNNY SIDE. A Letter from Sulu. (The Sultan of Sulu wants the government to pension him.) The Sultan's stenographer called swiftly to his side. "A letter to the government. For I am tired, and I have in the future the greatest living foe of racial suicide!"

"You pension all your generals. Who've been through storm and strife I fight my daily Waterloo. With fifty kinds of wife—Has any soldier suffered more? Not on your double life!"

"Observe this strip of baldness which surmounts my forehead pale. Aye, count my scars, for they were made by many a tooth and nail; It's hard to keep a cattery in Jolo's quiet vale."

"I am a Moslem monarch known To earth's remotest ends; I am the excellent Mogul And other Turkish blends—But oh! above all other things I am a Husband, friend."

"So kindly Christian government. Advance the money, please, Enough for alimony, costs, And court and lawyers' fees. Then I'll retire to private life Among the lofty trees."

"Even as I write a creditor Upon my doorstep came—Even as I write the tortured sweat My princely forehead damps—(Send money order, draft or check. Bank notes or trading stamps.)"—Wallace Irwin in N. Y. Globe.

Up to Her. Mr. Crimmonback—You women never know when to say no. Mrs. Crimmonback—Pd like to know why we don't. "Because, if you'd have said no when I asked you to marry me, see the trouble you would have saved!"—Yonkers Statesman.

Undergraduate's Humor. John Jacob Astor was talking at the Newport reading room about the humor of the college boy. "My class at Harvard was '88," Mr. Astor said, "and we had in '88 a typical college humorist. He and I, one autumn day, took a long walk in the country. At noon we stopped for luncheon at a little inn. We were placed at a long table with a dozen persons, and before us was set a pea soup. In my soup there was not a pea, but in my friend's there was one. "All of a sudden he stared everybody by leaping up, peeling off his coat, beaming, as it seemed, a regular disrobing act. "Here," said I, "what are you about?" "Why," said he, unfastening his necktie, "I'm going in after that pea."—Boston Post.

A Reasonable Request. A Scotch preacher who found his congregation going to sleep one Sabbath before he had fairly begun, suddenly stopped, and exclaimed: "Brethren, it's na fair. Wait till I get along, and then, if I'm na worth listening to, gang to sleep; but sinna gang before I get commenced. (Gie a non a chance!"

Too Many Questions. The fallacy of asking too many questions is generally followed by much embarrassment. I was stopping at a large hotel, and one day as I came out and took my hat from the hands of the hat keeper I said to him: "How do you know that is my hat?" "I don't know it, sir," said the boy. "Then why do you give it to me?" I insisted. "Because," replied the boy, "you gave it to me!"—Lippincott's.

A Song of Stars. Open my window to the stars; The stars are jewels rare; A myriad shining swords to guard My love tonight. Open my window to the stars; The stars are jewels rare; The best is not too fine a crown For my love's hair. Open my window to the stars; The stars are angels' eyes, The happy angels set to watch Where my love lies. —Ethel Clifford.

Awful. Mrs. Bender was sobbing at breakfast. "Oh, Tom!" she faltered, "y—y—y were drinking last night." Mr. Bender frowned. "What gave you such a silly idea?" he demanded. "Why—why, Tom, you started to lie down." "Well, madam, is there anything in a tired man wishing to lie down?" "Yes, but—but you started to lie in a trolley car fender and thought it was a hammock." Bender coughed and said he thought it was time to get down to the office.—Baltimore Herald.

Retort Courteous. Pett Ridge, the London journalist and author, is of the opinion that the keenest repartee, after all, is that half-conscious sort which stings so wholeheartedly from the masses, and here is a story he tells in support of his theory: A woman who had been selling fish entered an omnibus with the empty basket on her arm still giving forth an inimitable rattle of the funny folk it had carried. She took a vacant seat next a young "gentleman" who drew his

age of which was close to 26,000,000 tons, the total for 1904 will exceed considerably some of the early estimates. Shipments of 18,500,000 tons now seem well assured, and the total may run to 19,000,000 tons, saying nothing of the Baraboo district, which sends ore direct to South Chicago, and the Michigan district, which, however, will be a relatively small contributor this year. At the opening of navigation on May 1, 1904, there were about 9,500,000 tons of ore on Lake Erie docks or in furnace yards of users of Lake Superior ores. Adding 19,000,000 tons gives a total of 28,500,000 tons available for the year ending with the opening of navigation in 1905. It would be safe to estimate that the stocks on hand at the opening of the season will be between 6,000,000 and 7,000,000 tons on May 1 of next year; and in the evolution of the Lake Superior ore trade from a 10,000,000-ton movement only eight years ago to a first-class shipment of 30,000,000 tons are counted on as a probable record of one or two seasons hence, such a stock at the opening of navigation is a very moderate factor of safety.

THE SUNNY SIDE

A Letter from Sulu. (The Sultan of Sulu wants the government to pension him.)

The Sultan's stenographer called swiftly to his side. "A letter to the government. For I am tired, and I have in the future the greatest living foe of racial suicide!"

"You pension all your generals. Who've been through storm and strife I fight my daily Waterloo. With fifty kinds of wife—Has any soldier suffered more? Not on your double life!"

"Observe this strip of baldness which surmounts my forehead pale. Aye, count my scars, for they were made by many a tooth and nail; It's hard to keep a cattery in Jolo's quiet vale."

DIVORCE CANON TO STAND AS NOW

PROPOSED AMENDMENT REJECTED BY THE EPISCOPAL GENERAL CONVENTION.

REFORMERS WIN, THEN LOSE

LEAD IN VOTE IN COMMITTEE OF THE WHOLE.

Ballot in the House itself, however, goes against them, Dioceses Equally Divided Being Registered in the Negative.

Boston, Oct. 14.—The house of deputies of the Episcopal general convention, at the close of a four days' debate, today rejected the amendment to the divorce canon which sought to prevent the re-marriage of divorced persons by clergymen of the denomination. While the house of bishops may act on the matter, it is certain that no change will be made by the present convention.

The present law of the church, which has been in operation since 1859, allows the re-marriage of the innocent party to a divorce granted for infidelity. At several conventions attempts have been made to repeal this law, and when the vote was taken today by the deputies sitting as a committee of the whole on the question of rejecting the proposed amendment to the house itself, the reformers were successful by a vote of 214 to 191.

The proposition bearing on changing the name of the church also was before the house of deputies today. The committee on prayer book reported that it considered it inexpedient to strike the words "Protestant Episcopal" from the title page of the prayer book. The matter will be discussed later.

SIGNS OF WIDESPREAD REVIVAL. Church Leaders Declare Better Things Coming in the Religious World.

Des Moines, Ia., Oct. 14.—Discussion of the needs and prospects of a genuine and widespread revival of religion was the feature of today's session of the national council of the Congregational church. The subject was discussed by four different speakers who agreed that signs of an existing revival are present and that a better state of things is coming in the religious world.

Secretary Anderson's triennial report showed that only sixteen churches have a membership exceeding 1,000 each. He says that 72 per cent of the Congregational churches have less than 150 members each. More than 20 per cent of the churches received no new members, he said; 2,371 churches ten and less; 1,075 from eleven to twenty-five; 600 from twenty-six to fifty and twelve over fifty.

"We have gained during three years 387 churches, or 3.2 per cent, and 23,495 members, or 3.9 per cent. We have lost 1,689 in Sunday school membership and 19,722 in the membership of the young people's societies, but have gained \$234,240 in benevolence and \$220,880 in home expenses during the same period. Churches, 5,900; membership, 660,000; Sunday school members, 738,840; members of young people's societies, 166,726."

Tonight two large labor meetings were held at which the report of the council's committees on labor was presented by Rev. Frank W. Merrick of Roxbury, Mass. The report declared that the labor question had come to stay and that nothing short of justice—justice by and justice to capital and labor alike—can reach the cause.

At the session of the Congregational Education society, Rev. Barton, of Oak Park, Ill., stirred the meeting with his arraignment of what he called lack of

thorough religious spirit in existing educational conditions.

DUE TO CANAL PURCHASE. Federal Receipts the Past Year \$41,770,000 Less Than the Expenditures.

Washington, Oct. 14.—United States Treasurer Roberts today submitted his annual report on the transactions of the treasury during the past fiscal year. The ordinary revenues are shown to have been \$540,631,749, a decrease of \$19,764,925 compared with 1903, and the net ordinary expenditures \$582,402,221, an increase of \$76,303,314.

In the receipts the principal falling off was in the disbursements important increases were \$11,423,446 in commerce and labor, \$60,788,580 in the treasury proper and \$20,338,067 for the navy. Un-ordinary expenditures were \$50,000,000 on account of the Panama canal and \$4,600,000 on the Louisiana Purchase exposition, which latter has now been nearly all repaid. But for this, the recorded deficiency of \$41,770,571 would have been changed to a surplus of \$12,829,428.

The operations affecting the public debt exceeded those of the preceding year—amounting to \$699,690,941 receipts and \$638,924,379 disbursements. The aggregate receipts for the year were \$1,240,292,690 and the aggregate disbursements \$1,221,526,791.

For the first three months of the current fiscal year the revenues show a falling off of \$6,516,373 and the expenditures an increase of \$18,073,539. In consequence of the deficiency in the revenues, the rash in the policies of the treasury and the decline during the year from \$170,020,562 to \$137,520,264, and by Oct. 1 to \$125,964,888.

The increase in the number of banks during the year was 353. The total number of banks is 5,396. An addition of \$18,793,148 was made during the year to the monetary stock of the country and another of \$31,829,599 in the following quarter. The aggregate supply on Oct. 1 exclusive of certificates was \$825,333,737, of which \$2,562,149,489 was in circulation. On Oct. 1 the circulation reached a maximum of \$811.6 for each person.

The national bank notes presented for redemption during the year amount to \$262,141,930, or 61.12 per cent of the average outstanding. This is the highest record of any year for the thirty years during which these notes have been redeemed by the treasury.

Postal Deficit \$6,500,000. The postal deficiency for the fiscal year ended in 1904 was \$6,500,000. The figures were completed by the auditor for the postoffice department today. They show that the total postal expenditure during the year was \$192,362,116 and the revenue \$145,862,624.

MAY BUILD A HUGE HOTEL. Otto Young of Chicago Has Plans for a \$10,000,000 Structure.

Chicago, Oct. 14.—Chicago soon may have a hotel on the lake front to cost \$10,000,000 or \$12,000,000 and to be twenty-two or perhaps twenty-five stories high. Plans for a twenty-two story structure are being calculated to dwarf all others in size as well as in magnificence of its exterior and interior finish were prepared some two years ago by Architects Holabird & Roche, owners of the block on Michigan avenue between Hubbard and Eldredge places. This property is 400x171 feet in dimensions. An effort was made to interest New York capital in the project of building a \$10,000,000 hotel. It failed and the property and plans were sold to Otto Young for something like \$3,500,000.

It is now declared that Mr. Young, having carefully examined the plans, has thought well of the suggestion for the erection of a hotel building that would outshine any other hotel in the world. Mr. Young is not now in Chicago. His son-in-law, Lawrence Heyworth, who is possessed of all the facts, spoke of the project.

There is absolutely nothing definite about the matter. No syndicate has been organized, no contracts have been let and nothing has been done save in the way of suggestion. It is agreed that the property described would be an ideal spot for a great hotel—the greatest in the world. And that is about all I can say.

Plans and Difficulties. "We have plans for a magnificent structure and the ground could be obtained from leaseholders without much difficulty. I presume if the capital to build such a hotel as is contemplated in the plans were available Mr. Young is prepared to consider the sum deemed necessary—\$10,000,000—it will be readily realized that the undertaking would require a vast amount of careful thought and planning. We hope to realize the fruit of our ambition. It is a possibility, but at present there is nothing definite."

Architects Holabird & Roche said that the plans they drew for the proposed twenty-two story hotel contemplated a structure that would eclipse any similar building in the world. It would overshadow into utter obscurity the Waldorf-Astoria and the St. Regis in New York, one of the members of the firm declared.

Neither the Carlton nor Cecil in London, the Elvsee Palace, the Ritz in Paris nor the Bristol in Berlin would be in the same class with the structure proposed. But these plans did not seem to appeal to New York financiers two years ago and the project has been hanging fire since the transfer of the property to Otto Young.

TRADE STEADILY GAINS.

A Notable Feature the Improvement in the Iron Situation.

New York, Oct. 14.—R. G. Dunn & Co.'s Trade Review tomorrow will say: "Progress is slow but sure in the leading branches of manufacture, contracts being more readily placed for distant delivery while the percentage of idle machinery steadily decreases. Satisfactory news from the leading iron and steel centers tends to strengthen confidence elsewhere as the consumption of iron has been found a good barometer of business conditions."

"The jobbing wholesale trade in fall and winter wearing apparel expands gradually, and such spring lines as are opened have met with a fairly satisfactory reception, considering the recent indisposition to provide for the requirements. At many points the return of warmer weather has checked the revival of retail trade in heavy goods, but as that movement had begun much earlier than usual, the net result thus far is better than last year."

"Building operations have expanded, at some cities establishing a noteworthy record for September, and permits recently issued promise well for the future. Labor is fairly well employed, according to the latest official trades union reports."

"The latest returns of foreign commerce compare very favorably with the corresponding time of last year, and the railway earnings in the first week of October were 6.9 per cent larger than in 1903."

All divisions of the iron and steel industry are making progress, tardy orders coming forward in greater number, and while few large contracts are recorded, the aggregate tonnage is encouraging. A big demand for agricultural implements is confidently anticipated.

"Little recovery has occurred as yet in the domestic demand for cotton goods. The woollens are the most active of the textile fabrics, and shipments of men's wear goods are going forward rapidly."

Bradstreet's Summary. Bradstreet's tomorrow will say: "Despite irregularities, due to warm weather conditions or to reductions in the crop movements, trade as a whole maintains a satisfactory volume. Nothing of boom character is noted, but many lines show gains over the corresponding period of 1903, confirmation of this being found in the record of the September railway earnings and the fact that the clearings have enlarged over last October's totals."

The better than expected current wheat crop outlook, favored by exceptionally warm weather for this season of the year, has induced freer buying from jobbers in the Central West and Northwest. Business is also better on the Pacific coast, where warm weather, however, is a drawback to retail business, which needs the stimulus of sharp cold weather. The Eastern trade also reflects the unseasonable weather in its general activity. Demand for fall and winter wear goods, but there is, in addition, a backwardness in the demand for dry goods."

"The Eastern shoe factories are receiving good orders for men's wear goods for immediate delivery, indicating that old stocks in retail and jobbing lines have been worked off. The wool and woollen goods situation is strong. Reports from the leading industries are fully as good as recently."

"Pig iron for foundry purposes is in especially good demand, and, in fact, all pig iron is stronger in tone and in better inquiry. In the finished product, the features are improved. Demand for railway supplies and large orders for new cars. Hardware is active the country over. Lumber is active at the West, but is quiet at the East."

"The wheat finishing dock exports for the week total 1,257,990 bushels, against 2,869,000 in this week last year; from July 1 to date the total is 19,106,000 bushels, against 45,542,990 last year. The corn exports for the week total 87,990 bushels, against 1,419,000 a year ago, and from July 1 to 9, 948,000 bushels, against 15,240,000 in 1903."

"The total bank clearings for the past week were \$2,456,339,424, an increase of 26.7 per cent over the corresponding week of last year."

BOSTON COPPER QUOTATIONS. Closing prices at Boston yesterday were as follows, Paine, Webber & Co. reporting the quotations:

Table with columns for various copper products and their prices. Includes items like Amal, Adv, and various grades of copper.

SENTENCED FOR LIFE. Springfield, Ill., Oct. 14.—Fio Roggio, an Italian, who murdered a countryman named Rudolph Lenz in a saloon here May 8, pleaded guilty today and was given a life sentence at Joliet.

SAVES TWO FROM DEATH. "Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we bought her life with Dr. King's New Discovery. Our niece who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well."

OPPORTUNITY FOR BARBERS. We are prepared to receive proposals for rental of our new barber shop, recently fitted up in the southwest room of our basement. In addition to three chairs, there are two bath rooms, ventilated by forced draft, and an electric massage machine of the most recent pattern; also shoe blacking stand. No expense has been spared in selecting fixtures of first-class quality and design. If interested please call and inspect premises.

MARQUETTE NATIONAL BANK. (10-5-tf) If you wish to be supplied with the finest milk and butter the market, just call up Vandenberg's dairy. Both phones. (10-11-1w)

\$100.—Dr. E. Dietrich's Anti-Diabetic may cost more than \$100 if you have a child who soils bedding from incontinence of water during sleep. Cures old and young alike. It arrests the trouble at once. One dollar. Sold by Pendlis' pharmacy, Marquette, Mich.

LOBSTERS AND OYSTERS. For a good oyster stew or broiled lobster try the Superior Cafe, 303 South Front street. Theater and dinner parties receive strict attention. (8-30-ft)

for milling purposes was the main cause of the active covering by shorts. December opened at 110 3/4; highest, 113; lowest, 109 1/4; closing, 112 1/2. May closed at 112 1/2 @ 1/4.

In the corn pit the selling was general at the start, led by commission houses, and lower prices were recorded. The Argentine shipments were heavy and the crop reports favorable. At the decline the demand improved, the feature being the call for December, which sold at 4 1/2 premium over May. Professional and cash houses were conspicuous on the buying side, the former taking May. The country acceptances were light and the receipts small. At the close December was up 3/4 and May 3/4 higher. December opened at 49 1/2; highest, 50 1/2; lowest, 48 1/2; closing, 50 1/2. May closed at 45 1/2 @ 1/4.

Cats were active. The prices were 4 1/2 @ 1/4 early, advanced to 4 3/4 and closed at a gain of 1/4 @ 1/4. The advance at the last was due to covering by shorts and with other grains and also on fair buying by cash houses. The selling was mainly by hedgers. The cash sales were 125,000 bushels, part standard. December opened at 28 1/2; highest, 29 1/2; lowest, 28 1/2; closing, 29. May closed at 31 1/4.

Receipts and shipments were as follows: Receipts, Shipments. Flour, barrels, 23,000 30,000. Wheat, bushels, 144,000 103,000. Corn, bushels, 116,000 406,000. Oats, bushels, 189,000 506,000.

BULL MARKET IN STOCKS. Activity in Wall Street Reaches the Boiling Point.

New York, Oct. 14.—The activity of the stock market reached the boiling point today and the trading took on the appearance of the great bull markets of a few years ago. It is highly probable that the source of buying has widened with the recent advances in the market and some outside participation may be thus represented. The commission houses through which this kind of business is usually transacted, however, report their business still restricted. It is certain that very large transactions in today's market were executed by single houses, the buying orders for single firms running in the hundreds of thousands of shares. This points unmistakably to a centralized direction and control of operations under combined resources.

The business which was caused yesterday by the comparative neglect of the railroad stocks while low-grade and unknown industrials and specialties absorbed all the speculative attention, was relieved today by the revived animation of the standard railroad stocks. These were not all shatters from the outset in today's market were executed by single houses, the buying orders for single firms running in the hundreds of thousands of shares. This points unmistakably to a centralized direction and control of operations under combined resources.

The United States having no extradition treaty with Panama the detectives had no authority to arrest Haas, who knew this and defied them. An appeal was made to the United States consul there, who made the request that Haas be given into the custody of the detectives. As an international courtesy the request was granted.

It is understood that the stock piles at Chisholm shaft No. 3 and at the Glen mine will be shipped this fall.

The receipts of ore at the Two Harbor docks have lately been running about 35,000 tons per day. The docks have been practically full and at times there were as high as 2,000 loaded cars in transit and at Two Harbors, which made it very difficult to get sufficient empties to keep the various mines supplied with enough cars to take care of their daily output. Much delay has been caused by the failure of boats to arrive when expected, a condition due to blockades at the lower lake docks and stormy weather.

All of the stripping concerns operating in the Hibbing district have made an advance in wages, and a great scarcity of men is reported even at the advanced scale. The Drake & Stratton company, Winston Bros. & Dear and the Killorn-Hibbing company have advanced the wages of common labor from \$1.60 to \$1.75 per day, and McArthur Bros. and the Wallace Contracting company, operating on the western end of the Mesaba range, have made a raise to \$2 a day for common labor. The manager of a Hibbing employment bureau states that a year ago there were a great number of men on call but that there was no work for them, while this year just the opposite condition prevails. It is expected that the increase of wages made by the mining companies and the stripping concerns will soon bring more men into the district.

Maud—Last night Jack told me that he wouldn't marry the best girl living, unless—unless she took Hollister's Rocky Mountain Tea. Bright fellow. 35 cents, Tea or Tablets. Stafford Drug Co. (1-30-1)

ROYAL BAKING POWDER

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder produces food remarkable both in fine flavor and wholesomeness.

ROYAL BAKING POWDER CO., NEW YORK.

IN CELL AFTER LONG CHASE. Alleged Embezzler of \$100,000 Brought Back from Panama.

Chicago, Oct. 14.—Herman Haas, former employe of the Corn Exchange bank, whose defalcations are said to amount to \$100,000, was brought back to Chicago yesterday by private detectives employed by the City Trust & Surety company of Philadelphia. Haas, who has been arrested twice in foreign countries, but once escaped from custody on a legal technicality, was arrested the last time two weeks ago in Panama city, Panama. Even when arrested there it was feared that the man would again evade the officers, as the United States has no treaty regarding the return of prisoners from Panama. Haas, who was being supplied with money by friends in Chicago, was posing as a tourist. He represented himself to be a wealthy American business man who was traveling "for his health."

As soon as Haas was brought to Chicago he was taken before United States Commissioner Foose and was remanded to the county jail. Haas communicated with his lawyer and his relatives and may later be released on bonds.

The arrest of Haas has cost the surety company, which furnished \$10,000 bonds to the Corn Exchange National bank when Haas secured his position four years ago, a large amount of money. A score of private detectives have trailed the auditor from city to city in the United States and Mexico, resulting in his arrest in Mexico some weeks ago.

He was detained there but forty-eight hours by the Mexican officials and then released in spite of the protests of the detectives who arrested him. After his release from jail he escaped to the mountains. He was followed by Detective Marsh of the central police station, but escaped.

Haas was traced to Panama, but there another another obstacle presented itself to the detectives who were seeking his arrest.

The United States having no extradition treaty with Panama the detectives had no authority to arrest Haas, who knew this and defied them. An appeal

Iron Notes

Wages at the Cass mine at Bivahick, Mesaba range, have been advanced from \$1.75 to \$1.85 per day. This was caused by the scarcity of men. The Cass is the only mine on the range paying better than \$1.75 for common labor.

Two shovels are at work on No. 2 stockpile at the Fayal mine, at Eveleth. The last pile remaining, and it is expected that the entire stock will be moved to the docks at Two Harbors before the close of navigation. There were 200,000 tons of ore on the pile at the start. When the work is completed the shovels will be moved to No. 3 pit at the Fayal. Drake & Stratton are figuring on a contract to level off stockpile rooms at the new No. 4 shaft of the Fayal. The Minnesota Iron company intends erecting a shaft house there, probably this fall.

One steam shovel is at work loading the stock pile at the Clair mine, north of Chisholm, Mesaba range, and it is understood that an effort will be made to get the ore all out before the close of navigation. Shaft No. 2 at the Clair mine, is out of commission and probably will not be used again. During the early life of the mine No. 2 shaft was the leading outlet for ore, and much of the produce has been taken away from that part of the property. The little ore remaining will be trammed to No. 3 shaft and hauled to the surface from that point. From No. 2 a drift is being drawn north into the old workings of No. 1, and the work gives about ten cars of ore a day. The work of removing the stock pile from No. 1, at the Chisholm mine, is in progress and the ore will be removed as rapidly as possible. There were about 76,000 tons in stock at this point. It

Do you remember the little things that gave us so much pleasure when we were young? With what zest did we sit down to the table after our play was over and eat the mush and milk our mother put before us. But as we get older it takes more to give us pleasure. Mush and milk no longer tastes good to us and our digestion may be impaired. The best advice we can give to such a person is to tone up the stomach with Dr. Pierce's Golden Medical Discovery. It is nature's most valuable and health-giving agent—made without the use of alcohol. It contains roots, herbs and barks, and is the concentration of nature's vitality as found in the fields and woods. This remedy has a history which speaks well for it because it was given to the public by Dr. R. V. Pierce, founder of the Invalide' Hotel and Surgical Institute, at Buffalo, N. Y., nearly forty years ago, and has since been sold by druggists in ever increasing quantities. Some medicines, tonics or compounds, enjoy a large sale for a few years, then disappear from the public attention, but Dr. Pierce's Golden Medical Discovery has proved such a reliable blood remedy and tonic that it often enjoys the confidence of several generations in a family, and its increased sales year by year coming from the recommendations of those who have tried it, prove its lasting merit, so that every bottle bears the stamp of public approval. Every other blood-maker and tonic for the stomach that we know of contains alcohol, but Dr. Pierce guarantees that no alcohol is contained in his "Medical Discovery."

# SPRINGLAMB

of the French, tenderest, most delicate and delicious flavor. This superb meat at its best makes a course to your dinner that cannot be surpassed. Not all lamb is not Spring Lamb, and all Spring Lamb is not as fine as that you can procure at Hathway's. Whether for roasting or broiling there is none better. # No More Coughs

There is a flood of new cough cures on the market that claim to cure coughs quickly—some in a day. Remedies that cure in a day do not cure at all. They stop the cough by deadening the nerves of the air passages with opiates. Tar, Honey, Horehound and Wild Cherry cures—to stay cured because it cures the right way—by removing the cause. It is equally good for children and adults. Your money back if results are not satisfactory. Price, 25 and 50 cents.

**DEJARDINE'S PHARMACY,**  
417 N. Third St.

### "PRINCESS CHIC."

Will Be Presented Here a Week from Tuesday, the 25th.

A strong comic opera company, with Sophia Brandt as prima donna, will present "The Princess Chic" at the opera house a week from next Tuesday evening. "The Princess Chic" has toured the entire country and has everywhere met with the same enthusiastic approval which first characterized its reception in New York. The story deals with medieval days, and incidentally with the quarrel of Louis XI of France and Charles the Bold of Burgundy. Princess Chic of Normandy is herself a mythical character, but is thoroughly a part of the romantic era, although a fanciful creation. It is her intercession which enables Charles to hold his feudal possessions against the machinations of Louis. Although the story is consistent and sequential throughout, it is full of fun and music that pleases. Kirk La Shelle, librettist and proprietor, has secured a most accurate scenic mounting and has costumed this chorus in the real Frank Danish style. Miss Brandt's own role, that of the Princess, gives excellent play for her marvelous soprano voice.

### BOSTON VERY ACTIVE.

United States Mining Was the Leader, and Was Heavily Bought.

Paine, Webber & Co. wired concerning the Boston market:

"The Boston market showed great activity again today with United States Mining the leader. One house bought 2,000 shares and several others bought 500 each, advancing the price to 24 1/2, the highest for several months. Oswella opened one point up, at 91, but there seemed to be considerable stock coming out above 90 and the price sagged off to 89 1/2. Amalgamated and Steel preferred were the special strong stocks covering the day and high prices in these gave considerable courage to the traders in Boston. Wolverine is still in good demand, selling at the new price of 96 1/2. Take it all together, our market looks to be in first-class condition and is gradually getting broader. Prices are sure to be irregular from day to day, but with the increasing price of the metal we expect to see new high records made on each advance."

### The Wheat Market.

Logan & Bryan wired Paine, Webber & Co. concerning the wheat market:

"The wheat market was 3/4 to 1 1/2 cents higher. The great strength is still in December. Cables were lower. The market showed a little weakness early, but was without much selling pressure. Later there was again good covering of shorts and a good deal of buying of long wheat by commission houses. The cash markets were all higher. The action of the market seems to be a revival of the recently closed market and is gratifyingly so. Broomhall reported the Argentine prospects as favorable. We look for a good scalping market, but think there are two sides to it."

### Logan & Bryan Continue Bullish.

Logan & Bryan wired Paine, Webber & Co. concerning the New York market:

"It begins to look like a bull market. The transactions are not large enough yet to frighten any one, but pretty much everything on the list is higher. The outside buying is increasing, but is still of very moderate proportions. There is an expansion in business in every direction. We think we are going into a big stock market and that everything will sell higher."

### TOOK ALL THREE GAMES.

The "Repeaters" proved too much for the "Borneos" in the final game of the Bowler bowling alley last evening, taking all three games. The scores of the teams were as follows:

|            |     |     |     |
|------------|-----|-----|-----|
| Repeaters  | 112 | 138 | 132 |
| Borneos    | 168 | 186 | 209 |
| H. B. Bell | 145 | 129 | 101 |
| Ball       | 130 | 140 | 120 |
| Jenks      | 136 | 175 | 149 |
| Totals     | 691 | 768 | 702 |

A team of Milwaukee bowlers will be here to try conclusions with local crack bowlers on Monday night, the 24th. The evening of Monday and individual contests will be played. The visiting experts will number three or four of the best finger ball bowlers in the Cream City, headed by President Moll of the National Bowling Congress.

### SUNDAY AT THE CHURCHES.

Methodist—"The Author of Being" will be the theme of Mr. Graywood's morning discourse, "Your Responsibility" will be the theme for the evening. St. Paul's—Rev. Dr. Pelton, of New York, will be heard at both the morning and evening services. At the morning service there will be a sermon on "The Baptist Church, Rev. C. H. Maxson, pastor—10:30 o'clock, morning worship; 12 noon, Sunday school; 6:50 p. m., young people's meeting; 7:30 o'clock, evening worship with sermon on "The Dividing of the Way." This is a sermon in the series on "Abraham Up to Date." First Church of Christ, Scientist, 101 Spring street—Services, 10:30 a. m.; subject, "Probation After Death." Sunday school at 11:45 a. m. All are cordially welcome.

O, beauty! what a powerful weapon thou art. The bravest men fall at thy feet. No wonder women take Hollister's Rocky Mountain Tea to prolong that joyous spell. 35 cents, Tea or Tablets. Stafford Drug Co.

### AT THE GREENHOUSE.

Now is the time to secure yacynth bulbs for fall planting. For sale at the Stafford greenhouse, N. Third street. Also flowering house plants. (10-8-14)

Buy five shares Adventure, Mass or Victoria for \$20 and double your money. Office open evenings at 7 o'clock. Come and have a smoke and talk copper stocks. J. W. Spear, Harlow block. (10-14-14)

Sclerle's Photograph gallery moved to 506 North Front street. Now ready for sittings. (8-21-14)

Copper stocks are booming. Now is the time to buy them. J. W. Spear, No. 8 Harlow block, Marquette. (10-11-14)

### City Brevities

Today's weather: Partly cloudy and stationary temperature.

Yesterday's temperature: Seven a. m., 48 degrees; noon, 50; 7 p. m., 47. Maximum, 52 degrees; minimum, 47.

Born yesterday, to Mr. and Mrs. Benjamin O. Pearl, a son.

Charles Uren of Crystal Falls was a Marquette visitor yesterday.

J. A. Kirkwood of Duluth was in Marquette yesterday, calling on his trade.

A son was born yesterday morning to Dr. and Mrs. L. F. Anderson, 347 East Hewitt avenue.

Judge and Mrs. C. R. Brown are at St. Louis attending the World's Fair. They were present at the exercises at the Michigan building on Michigan day.

Several South Shore cars were detailed near the brewery early Thursday evening. The trouble was caused by the breaking of a wheel under one of the cars. The wreckage was cleared up with little delay.

Max Reynolds, who is attending Princeton University this year, is in Marquette on a visit. He is returning to Princeton for a complication of peritonitis and appendicitis. Mr. Reynolds has gone east and other relatives are with him.

The Cadillac, for Toledo, was the only one carrier clearing yesterday. It sailed toward the West early Thursday. The arrivals were the Western Star and Gilchrist, at the upper harbor, and the Coralia and barge 132 at the South Shore docks.

A. B. Eldredge this week presented the Marquette high school with Bryan's History of the United States in four volumes. It was a welcome and acceptable gift, as the school library is none too large and lacked the Bryan history. Sectional book cases have been ordered for the library.

### UPBOUND BOATS.

Names of Craft Passing Canals Enroute to Lake Superior Ports.

Sault Ste. Marie, Mich., Oct. 14.—Orinoco, Grand, Lake Shore Marquette, 9 last night; Joliet, Western Star, Midland King, 9:30; Crescent City, Matanza, Russell, Beauty, midnight; Crescent, J. J. Cole, 2:30 a. m.; Queen City, 3; French, Fairbairn, Magna, 4:30; Colgate Hoyt and whaleback, Major, 5; Hines, Wade, Galatea, W. L. Smith, 7; Branford, 8:30; Pringle, Sweetser, Unadilla, Wyoming, Lester, 10:20; George King, Teutonic, Gawn, C. M. Warner, Rees, Yosemite, noon; C. H. Green, Genoa, Commodore, 1:30 p. m.; North Star, 2:30; Panama, Proctor, 3:30; Jay Gould, 4; Roman, Widlar, Business, 6; Astor, Populist, 7.

### ATTENTION! POPULISTS!

I would respectfully call attention to the fact that we have a full ticket in the field for Watson and Tibbles, Populist nominees for the presidency in 1904. They are clean, able men and deserve the support of all Populists. In consequence of the duplicity of the Democratic party, coupled with the hybrid coalition of Bryan, Cleveland, Towne, Hill and Gorman, many Populists will vote for Theodore Roosevelt. There can be no progress until the Democratic party is destroyed. Vote for Watson and Tibbles.

EDWIN D. COX,  
Chairman P. P., 12th Con. Dis. Mich. Marquette, Oct. 10, 1904.  
(10-15-22-29)

### ATTENTION!

A special meeting of the Merchants' association will be held at the association rooms in the Nester block at 8 o'clock Monday evening, Oct. 17, for the election of officers for the ensuing term, and for the purpose of disposing of unfinished business from the last regular meeting.

E. B. PALMER,  
Secretary. (10-14-14)

Use Gold Medal flour, because it is the best. Sold by all grocers. (10-14)

### STORM SASH.

Let us measure your windows and quote you prices for storm sash. Compare our prices with others and order early. Both phones. Bell No. 41, Marquette County No. 6.

F. W. READ & CO.

### THOUSANDS OF PEOPLE

are splitting their throats and are coughing themselves to death, when a little of Glaxo Lung Balm would stop the trouble at once. It is made of healing balm and the best for children. Sold by The Stafford Drug Co.

### CLIFTON HOUSE.

Renovated and improved throughout. Best table service. Buffet in connection with house. Most convenient and best place to get your Sunday dinner. Boarders taken at reasonable rates. (10-14-14)

### NOTICE.

We have been employed to act as the attorneys for the trustees of the Military Road lands belonging to the Ayr estate to protect said lands against trespass or pillage. The prompt communication to us of any information as to trespass on said lands will be esteemed a favor.

ELDREDGE & MILLER,  
Marquette, Mich.

# 1,800,000 People

## Have Asked Us to Buy Them a 50c. Bottle of Ligozone.

We offer to buy the first bottle of Ligozone, and give it free to each sick one who asks it. And we have spent over one million dollars to announce and fulfill this offer. Our object has been to let Ligozone itself show what it can do. A test is better than testimonials, better than argument. In one year, 1,800,000 people have accepted this offer. They have told others what Ligozone does, and the others told others. The result is that millions now use it. It is more widely employed than any medicine ever was—more widely prescribed by the better physicians. And your own neighbors—wherever you are—can tell you of people whom Ligozone has cured.

**Not Medicine.**

Ligozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Ligozone its worth to humanity. And that worth is so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights.

**Germ Diseases.**

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

**CUT OUT THIS COUPON**

For this offer may not appear again. Fill out your blank and mail it to the Liquid Ozone Co., 424-426 Westab Ave., Chicago.

My disease is \_\_\_\_\_  
I have never tried Ligozone, but if you will supply me a 50c. bottle free I will take it.

W. F. E. Give full address—write plainly.

Any physician or hospital not yet using Ligozone will be gladly supplied for a test.

**Your New Overcoat**

WHAT IT SHOULD BE  
ITS COST  
WHERE TO FIND IT

It may be a belt (tourist) style, or a "regular." It should be long and very ample in dimensions. The chest should be "full," sleeves roomy. The materials may be any one of our plain colors or fancy mixtures.

So much for outward appearance.

It must be hand-tailored to bring out those nice effects so indispensable in a "swell" coat. Of course the materials must be the best, inside and out.

It should cost not less than \$15.00 and as much more as you can afford to pay up to \$25.00.

It should show that it was made by KUH, NATHAN & FISCHER & CO.

Copyright 1904 by KUH, NATHAN & FISCHER & CO.

Come to think of it, K. N. & F. clothes are the only ready made ones that answer all these requirements fully, and we are the exclusive agents for these clothes. If you've been a tailor-made man, try being a K. N. & F. made man and cut your clothing bills in half.

**Ishpeming Department**

DEMOCRATS WHOOPED 'ER UP.

Max W. Stevens Addressed a Large Assembly at Ishpeming Theater.

The opening rally of the Democratic campaign at the Ishpeming theater Thursday evening attracted a large assembly of voters. There were also a number of ladies in the audience. The Light Guard band furnished music, and the meeting was considered one of the most successful that the Democrats have ever held in Ishpeming.

The assembly was called to order by T. J. Dundon, chairman of the Democratic city and county committee. He talked about twenty minutes, reviewing local conditions and firing a few "hot shots" at the leaders of the opposition in this county. Mr. Dundon said he assumed that a number present were Republicans and Prohibitionists. These are the men the Democrats want to have attend their meetings, he declared, as the Democrats will vote for their party candidates anyhow, and converts are what are needed. Mr. Dundon said he was a frequent attendant at political meetings in this city, and he noticed that the opposition speakers invariably talk upon prosperity and protection. So far as he could judge, however, arguments based on prosperity in Marquette county are not warranted at this time, in view of the condition of the iron market.

The only reason any man should vote the Republican ticket, Mr. Dundon declared, is because Roosevelt is running. He expressed admiration for the president. Mr. Dundon said he did not intend to talk politics, but declared himself an advocate of primary election reform. Concluding he said: "Vote for either candidate for president and your vote won't be lost." In his reference to Mr. Stevens he said he was neither an office holder nor an office seeker, and that he would talk principally on state issues.

Mr. Stevens prefaced his remarks by expressing pleasure at the presence of the ladies. He said he was glad that the ladies are taking more interest in state and national affairs than they used to. He declared that every married woman controls at least one vote and that every unmarried one controls anywhere from one to a half dozen.

Mr. Stevens talked for nearly two hours, during all of which time he hammered away at state issues. He declared himself bitterly opposed to the present method of regulating the taxes in Michigan, particularly those of the railroads. He denounced the actions of the tax commission, declaring it is under control of one man, who dictates the policy it pursues. He said that the railroad corporations are being favored more now than during Pingree's last term.

In his reference to primary election reform Mr. Stevens declared that the sentiment of the voters is growing steadily in that direction. He cited some things that occurred in his county, tending to prove that the selection of delegates and nominees for the minor offices were dictated by parties outside the county. Men in his own city who were later given appointive offices or received the nomination for county offices controlled the election, and later had much to say at the conventions.

Mr. Stevens held his audience throughout. He is a pleasing speaker and he had statistics on state matters well rehearsed. He spoke very nicely of Congressman William Alden Smith, who addressed the voters here earlier this week. He said that he and Mr. Smith were friends, and that the Grand Rapids man is an honorable gentleman, and that he commends the respect of both Republicans and Democrats in the lower peninsula.

**WATER METER FOR WHOLE CITY.**

All Water Used in Ishpeming Is Now Being Measured at Section 16.

The members of the board of public works have decided to retain permanently the large water meter located at the end of the street car system, near Section 16 mine. Preparations are being made for the erection of a small stone building, in which the meter will be protected from the frost and mischievous boys. Mitchell & Sherman are building a concrete foundation for the structure.

The first week's test of the meter was taken recently. It was found that the daily consumption is a little over 1,000,000 gallons. The figures for the first week were higher than they will be when conditions are normal, as there were two fires.

The meter is a sixteen-inch Gem, manufactured by the National Meter company of New York. The pipe where it is installed is fourteen inches in diameter. The meter will not only record the number of gallons used throughout the city, but it will serve as an indicator when there are leaks in the mains. Weekly observations will be made.

There are now 1,350 meters in use in the city. A little over 100 were added this summer, but no more new ones will be installed this fall. The increase next year will be in proportion to that of this summer.

**WILL STAND BY THE TICKET.**

Captain William J. Allen, whose name was placed on the Independent Republican county committee without his consent, writes The Mining Journal to state that he is not in sympathy with the independent movement. When his name was first announced he asked that it be removed from the committee, but his wishes were not obeyed. Mr. Allen was a candidate for treasurer on the Republican ticket, and was asked to accept the nomination on the Independent ticket, but declined.

**CHICKEN PIE SUPPER.**

The Ladies Guild of Grace church will serve a chicken pie supper next Thursday evening between 5:30 and 7 o'clock at the Guild hall. The menu consists of hot chicken pie, salads, cranberry jelly, coffee, doughnuts, cold ham, etc.

**ISHPeming IN BRIEF.**

Garret Gilbert, formerly of this city, visited friends here Thursday.

Charles E. Jackson and wife of Rockford, Ill., are visiting Ishpeming.

A daughter was born Thursday evening to Mr. and Mrs. Richard Williams of 315 High street.

Mitchell & Sherman have started work on a cement walk in front of the Heine-man block, South Main street.

Mrs. William Dunstone of Vine street fell one day this week and fractured one of her arms at the wrist.

F. Braastad & Co. announce their fall opening of cloaks, etc., for today. The firm has an exceptionally large line this year.

W. T. Cole left last evening for Lansing to attend the annual convention of the Grand Lodge of Odd Fellows, which convenes early next week.

The Chancel society of Grace church will conduct a sale of cakes, pies and doughnuts at Sedgewick & Cooley's office this afternoon, starting at 2 o'clock.

George Junek of the Winthrop would like to ascertain who killed his heifer and carried away the carcass. The animal was in the vicinity of Brook's camp, some distance from the location.

Mrs. E. E. Grip, accompanied by her two youngest children, left yesterday for Kenosha, Wis. The children will remain there, while Mrs. Grip will go to Angustana hospital, Chicago, to receive treatment for ear trouble.

There will be a large attendance at the football game this afternoon at Union Park between the Calumet Y. M. C. A. and Ishpeming highs if the weather is favorable. All expect a close and well played contest. The game will start promptly at 1:30.

Poundmaster Tasson has a red and white heifer in the pound. He found the animal on North Third street and that he thinks it belongs to someone up that way. It is about sixteen months old. The poundmaster would like to have the owner call and redeem the heifer.

**STRONG CHORUS WORK.**

It is expected that the famous beauty chorus of "The Royal Chef" will create a sensation when this sparkling musical comedy comes to the Ishpeming theater Monday evening. It is not alone a chorus, every one of whom is entitled to the distinction of being the fairest of "God's" fairest creatures, but it has earned the distinction of being the best singing chorus in the musical line today. The ensemble work and the grouping show clever control that reflects credit on Frank Smith, the well-known stage director and producer. It is the aim of Mr. Sam S. Shubert, who is managing this attraction, to retain this chorus intact and utilize them in future productions that he will make. The strange part of the affair is that this play marks their first appearance on the stage. Another thing is that they are all western girls and in their work show that earnest endeavor to be better than anyone else in their line which is characteristic of the west.

**NO REASONABLE MAN**

imagines that a neglected cold can be cured in a day. The unreasonable air-colds in the lungs are inflamed and the throat is as tender as an open sore. But time and Allen's Lung Balm will overcome the cold and stave off consumption. The cough will cease and the lungs will be sound as a bell. All druggists sell Allen's Lung Balm.

The Amity Dancing club will give its next hop at Woodmen's hall, Saturday, Oct. 15. Street car after dance. (10-13-04)

**DO YOU COUGH**

DON'T DELAY TAKE **KEMP'S BALSAM**

THE BEST COUGH CURE

It Cures Colds, Coughs, Sore Throat, Croup, Indigestion, Whooping Cough, Bronchitis and Asthma. A certain cure for Consumption in its first stages, and a sure relief in advanced stages. Use at once. You will see the excellent effect after taking the first dose. Sold by dealers everywhere. Large bottles 50 cents and 50 cents.

**HOPKINS' CURB LETTER.**

Hopkins' curb letter, issued yesterday, was as follows:

"Latest news from Bisbee: Lake Superior & Pittsburg 1,100-foot drift now 35 feet in 15 per cent ore. My advice also says: 'They have stuff in that drift that beats anything they have as yet found.'"

"A nice, steady market today, with no sensational advances, but the demand exceeding the supply."

"Pittsburg & Duluth and Calumet & Pittsburg were in good demand today, all stock offered being taken, while Lake Superior & Pittsburg bidders are stubborn but must give way if they hope to get the stock."

"Black Mountain is already a favorite and many inquiries are being received; several transactions were made today at \$1.50 and \$1.75. We look for this to show a nice advance soon, and advise its purchase."

Yesterday's prevailing prices were:

|                     |         |          |
|---------------------|---------|----------|
|                     | Bid.    | Asked.   |
| Calumet & Arizona   | \$98.50 | \$100.00 |
| Calumet & Pittsburg | 42.75   | 44.00    |
| Lake Sup. & Pittsb. | 53.00   | 54.00    |
| Pittsburg & Duluth  | 78.00   | 82.00    |
| Junction            | 50.50   | 51.50    |
| Black Mountain      | 1.35    | 1.75     |

**BROKE INTO HIS HOUSE.**

S. Le Quin of Cavendish, Vt., was robbed of his customary health by invasion of Chronic Constipation. When Dr. King's New Life Pills broke into his house, his trouble was arrested and now he's entirely cured. They're guaranteed to cure. 25c at Stafford Drug Co.'s Drug Store.

**TOLD IN A FEW WORDS.**

Chas. Castleton, Cumberland, Wyo., says he had the worst cough a man ever had, and cured it in a few days with Dr. Warner's White Wine of Tar.

Thousands of mothers besides Miss Root's sister have found grateful relief from the pains of childbirth and have had a quick and happy recovery from its use. You cannot afford to suffer when \$1.00 bottles are sold by all druggists.

# Negaunee Department

## WINDING UP THE SEASON.

Negaunee Contractors Have Very Little Outside Work Left.

While fewer new buildings have been erected in Negaunee this summer than during any season in the past five or six years, the contractors have had a fairly busy season. About a dozen new dwellings have been erected, most of which have been completed and are now occupied. There are three or four places yet to receive the finishing touches. Two of these are houses being erected by Contractor Gagnon and Captain E. Tompkins, the latter on Mill street, and the other on the corner of Mill street. Mr. Tompkins' house is enclosed, and the work will now move along uninteruptedly.

The contractors are taking advantage of the fine weather and are working most of their men outside, leaving the interior work for wet days. Mr. Gagnon has the contract to remodel and enlarge the Episcopal church property, and will have the exterior work well along by the end of this month. Mr. Tompkins has the contract to remodel and enlarge the Episcopal church property, and will have the exterior work well along by the end of this month. Mr. Tompkins has the contract to remodel and enlarge the Episcopal church property, and will have the exterior work well along by the end of this month.

## MARRIED AT ROSSLAND.

Former Negaunee Man Weds a Popular Young Lady in British Columbia.

Harold W. Schorhammer, a young man who was raised in Negaunee, but left here a few years ago for Rossland, B. C., where he has since resided, was recently married to Miss Nellie L. Doolley of that city. The Rossland Miner gave the marriage this mention:

"Among pretty September flowers and in the presence of warm friends, two popular Rossland people joined hands yesterday for life in the bonds of matrimony. The participants were Nellie L. Doolley, daughter of Wm. Doolley, an entrepreneur of the War Eagle mine, and Harold W. Schorhammer, a trusted employee of the Center Star and a leading local musician. The nuptial knot was tied at the home of Mrs. John Fitzwilliam, where the bride has made her home for the past seven years. Rev. M. W. Mackinnon, rector of the Sacred Heart church, officiated, and the guests were confined to the close friends of the participants.

"The popularity of the bride and groom was amply attested by the number of valuable gifts of which they were the recipients."

## "THE OLD SCRATCH."

How the Evil One Came to be Popularly Known as "The Old Scratch."

One of the many familiar names of his satanic majesty is "The Old Scratch." It is undoubtedly due to the fact that scratching is no disagreeable thing to do, but it is a very disagreeable thing to be scratched. A scalp full of dandruff keeps one scratching all the time; not only disagreeable but considered very inelegant in polite society—as it should be—because one ought to keep the scalp clean that it would not itch. To cure the scalp of dandruff effectively, use Newbro's Herpicide. It kills the germ that creates the dandruff, which is preliminary to falling hair, and, finally, baldness. No other hair preparation kills the dandruff germ. Herpicide also is a very delicate and effective hair-dressing. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Stafford Drug Co., special agents.

## RAILROAD MEN BUSY.

The yard crews on the roads handling ore shipments from the Negaunee and Ishpeming mines are just now unusually busy. Most of them are working overtime, occasionally remaining out until 9 or 10 o'clock at night. Ore is moving from all the mines, but not as rapidly as the mining men would like to see it go forward. Three steam shovels are working here, one at the Negaunee mine, one at the Blue and the other at the Hartford. The piles at all of these mines are fairly large, but if the shovels are kept busy until the close of the season there will not be much ore left in stock. The Prince of Wales stockpile is almost cleaned out, and the ore being shipped at present is coming from the pocket. The steel corporation's shipments are now heavier than at any previous time this season. It is estimated that no less than 30,000 tons a week are leaving the company's properties here and at Ishpeming. Most of this ore is going to the Marquette docks.

## Kenton Catches.

Mr. and Mrs. C. B. Kroll arrived Tuesday from their wedding tour to Chicago and St. Louis.

Mrs. C. F. Moll returned to Kenton Saturday after a week's visit with Miss Streuter at Houghton.

Mrs. F. A. Lewis departed for Battle Creek Tuesday for a brief visit with her aunt, Mrs. Mary Macomber.

Dentist J. C. Thomas of Michiganami is occupying the office building formerly used by W. Latis, the jeweler.

Preparations are in progress for the production at Opera Hall in the near future of "The Spinsters' Convention."

Edward Hjort, Kenton's photographer, has pitched a tent on a vacant lot adjacent Exchange street and is taking advantage of all favorable weather for outdoor photography.

N. D. Gordon of Wyandotte, R. S. Black of Okosh and W. J. Bok of Minneapolis had business here this week. Other business visitors were Jas. Roper, of the Roper Cedar & Lumber company of Monticomee and E. H. Mayer of New York.

A rose bush owned by Mrs. Wm. Kroll that has alternated in producing pink and white roses during the summer months capped the climax when the last two buds opened last week and on the same stem there were suspended two perfect roses, one white and the other pink.

A plot of ground 208 feet square, located at the northwest corner of Section 24-37-37, has been donated by the Ayer estate to School District No. 6 as the site for the new school building, bids for which are now being received by Louis Sandon and Ernest Olette, members of the board of education.

A Republican rally is scheduled for Kenton the evening of the 28th. It is expected there will be a line-up of the several candidates for county offices and that an abundance of enthusiasm will be shown at a meeting in Opera Hall. A posting meeting is also being planned for Saturday night at Sidnaw. A special car will be run from Kenton to the occasion.

Watches, clocks, jewelry, silverware, etc. Cheap at Croll's auction sale. (10-14-24)

# Mining News

## FRANKLIN.

The Franklin Junior property is developing a good showing of ground toward the south. A. L. Carnahan, of Calumet reports that the territory opened by No. 2 shaft, which was holed through to the ninth level a few weeks ago and which was started from surface less than eighteen months ago. Drifts have been driven from No. 2 shaft at the fourth, fifth and sixth level sufficiently to allow stopes to be opened at these points.

The rock coming from these stopes is fully the equal of the average secured in No. 1 shaft, at the north, at the same respective depths. This average was sufficiently high to induce the Franklin management to develop the property thoroughly convinced that a paying proposition could be made of it.

That the ground to the south is holding up with that northward in the more thoroughly developed portions of the Alouez conglomerate which the Franklin Junior is working, is a source of much gratification to Franklin people. The ground could be operated at a profit which enabled the management to make extensive improvements in the mill and to build up a surplus, there is good reason to believe that two shafts can be operated at a profit which will return dividends to the stockholders after the openings are thoroughly extended and the preliminary expenses are wiped out.

The drift at the seventh level will soon be officially opened to enable the starting of a stope at that depth, and within the present year the Franklin will also have a stope at work at the ninth level. The constant increase of available ground not only enables the Franklin to get its complement of four heads in the stamp mills into full service, but also makes it possible to select a higher grade of rock for shipment and reduce the mill and transportation costs per pound of copper proportionately.

All sinking in the Franklin Junior has been suspended for several weeks, No. 2 shaft being bottomed at the ninth level, and No. 1 shaft being 1,800 feet deep. This suspension has been made in order to allow a more aggressive development of the drifts and stopes tributary to No. 2 shaft. The development now planned will have been completed by the end of the present year, and it is altogether probable that during January a resumption of sinking will take place in both No. 1 and No. 2 shafts.

There has been a gradual and gratifying increase of value as depth was attained in No. 1, and considering the fact that No. 2 is only half the depth of No. 1, with prospects for the same increase there as took place in the older opening, the Franklin's outlook for 1904 is very bright.

A hoisting engine with a capacity for raising rock from a depth of 2,500 feet or more is being brought from one of the abandoned amygdaloid shafts at the Franklin Junior and erected at No. 2. A new engine house is being constructed to enclose the hoist and the equipment will be in service by the time stopping starts at the ninth level. This will enable No. 2 shaft to handle the rock coming from that opening for many years, and the fact that it is secured without cash expenditure materially reduces the cost of equipping No. 2 when compared with the expense ordinarily entailed in opening a new shaft.

## ALOUEZ.

The Calumet & Arizona Copper company's output of copper for the month of September was 2,612,000 pounds of refined copper. This compares with an output for August of 3,225,000 for July, and an average monthly output for the nine months ending on September of 2,764,000 pounds.

The falling off for September was said to be due to the floods which visited the Southwest during that month, rendering railroad communication more or less difficult. One of the furnaces was also shut down for a part of the month.

But the company has made an exceptionally good showing for the year to date and the total output for the nine months was 24,876,000 pounds of copper as compared with a total for the entire year of 1903 of 25,978,576 pounds. On the basis of output for the first nine months, or 15,830 tons, the total output for the full year of 1904 would amount to 33,168,000 pounds of refined copper.

For the year ended Dec. 31, 1903, the company received an average of 13.08 cents for its copper, but this average will probably be reduced this year. Estimating at what is considered a low average, 12 cents a pound, and the total amount received would be \$3,480,460. The copper ore shows silver and gold values which last year were sold for \$144,682. The ratio of increase this year would make the total received approximately \$200,000, which would make gross earnings \$3,680,000. This would be equivalent to about \$13 per share on the 200,000 shares of stock outstanding exclusive of expenses and construction costs. Total dividends to date on a capitalization of \$2,500,000 have aggregated about \$1,000,000, which makes a record almost unparalleled in the copper world.

It is needless to say that these results have been due in large part to the ability with which the affairs of the company have been directed. In selecting the ground for development, the management made good use of the experience gained by others and showed a practical appreciation of the principles underlying the geological structure and mineralization of the district. No surface indications were at hand that could be used as guidance, the ore bodies lying beneath 700 feet of barren limestone.

Up to the present, exploitation has been conducted through a single shaft, the Irish Mag, but a second, known as the Oliver, is rapidly approaching completion. The mine is opened on six levels, beginning at 750 feet. New hoisting equipment has been installed during the current year which will enable the workings of the mine to be continued below the present depth.

**FOLEY'S KIDNEY CURE**

Cures Kidney and Bladder Diseases in Every Form—Many People Have Kidney Trouble and Do Not Know It.

**HOW TO FIND OUT.**

It is the function of the kidneys to filter and purify the blood which is constantly passing through them.

When the kidneys are out of order the other organs are affected immediately and you may have symptoms of heart trouble, stomach and liver trouble, and other ailments, which are all owing to the kidneys being weak and out of order.

If you are sick **Foley's Kidney Cure** will strengthen and build up the worn out tissues of the kidneys so they will act properly and the symptoms of weakness, heart, stomach and liver trouble will disappear and you will be restored to perfect health.

**HOW TO FIND OUT.**

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased and **Foley's Kidney Cure** should be taken at once.

**Foley's Kidney Cure** is pleasant to take and acts directly upon the parts affected and you begin to feel better at once.

It corrects slight disorders in a few days and it has cured many obstinate cases after other treatment had failed.

Doctors Said He Would Not Live.

Peter Frey, of Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. **Foley's Kidney Cure** was recommended to me by a friend, and I immediately sent my son to the store for it and after taking three bottles I began to get better and continued to improve until I was entirely well."

Two Sizes, 50c and \$1.00.

### NEW GENERATOR NOW BEING MOVED

IS BEING HAULED INTO STATION BY WAY OF FORESTVILLE, AND WORK IS PARTLY DONE.

WEIGHT IS FIFTEEN TONS

Largest Piece, Weighing Eight Tons, Will Be Hauled Tomorrow—Old Machine Will Be Retained at the Plant.

The task of moving the light and power commission's new generator to the Dead river station is now actively in hand. It is no small undertaking, as the generator weighs fifteen tons. It is being hauled into the station by way of Forestville, the management of the L. S. & L. road having put in a siding at the Forestville crossing to oblige the commission. The car containing the generator was run onto this siding and the machine is now being unloaded at the commission's leisure. One piece was hauled into the station yesterday morning. It was the bed plate and weighs about three and a half tons. Three teams were required to draw it and a broad tire wagon owned by the Lake Shore Engine works, the same employed in handling the granite pillars at the new court house, was used. Even with the bed plate this wagon at times sank deep in the sand at the soft places on the road. The bed plate is only half as heavy as the largest part of the generator, the frame containing the armature, which weighs upwards of eight tons, and it is expected to be a considerable task to get this piece into the power plant. It is expected to move it tomorrow, and five teams, at least, will be required. Fay & Bricker have the contract for the teaming. The third piece is also heavy, being the part of the generator that revolves.

The machine will quite dwarf all other electrical apparatus at the power station. It will stand about nine feet high, with the other dimensions in proportion. It is a 550 kilowatt induction load machine; on straight lighting service its capacity is about a third greater, and it is expected to suffice to furnish Marquette with electricity for many years to come. As already announced, it is to be driven by having its shaft connected directly with the shaft of the water wheel.

It is now planned to set the generator up in the yard, immediately outside the station, opposite the water wheel. When it is ready to be moved into place the wall of the building will be torn out and a large force of men will be employed to skid it into position in line with the water wheel. It will be placed on a foundation of railroad iron, which will afterwards be filled in with concrete.

The problem that confronts the commission in connection with installing the new machine is the necessity of avoiding any interruption of the lighting service. It is thought that the new generator will be moved into position and connected with the water wheel two weeks from tomorrow. The work will be started only on a Sunday, when it can be prosecuted without interruption. It is now the purpose to tear out the fixtures required by the rope drive and to move the new generator snug into the water wheel. The superintendent and members of the commission anticipate no trouble in carrying out these plans.

The generator is accompanied by adequate switch boards, recording instruments and all necessary supplementary equipment. The present generator, which has given such excellent service for the past eight years, will be retained at the plant ready for use in case anything should happen to the new machine, or to be thrown on in conjunction with it should the occasion ever arise. At the end of the water wheel opposite the new generator is a belt pulley by means of which the present machine can be operated.

#### REV. DR. PELTON TOMORROW

Will Preach at Both Services at St. Paul's Cathedral.

The Rev. Dr. Pelton, of St. Thomas church, New York, arrived last night and will preach tomorrow, both morning and evening, at St. Paul's cathedral. Mr. Pelton will be assisted by Mr. Burt, who has been conducting the services at the Episcopal church for several months past. The surplined choir, under the direction of C. J. Shadick, will render the musical portion of the service, and the vestry are anxious that the members of the congregation and their families be in evidence at the 10:30 a. m. service. A cordial invitation is extended to the people of the city and visiting strangers. Ushers will be in attendance to ensure the seating of all visitors, who will be heartily welcomed.

C. S. Neely, Omaha—Rheumatism and kidney troubles have entirely left me. Hollister's Rocky Mountain Tea made me well and strong. 35 cents. Tea or Tablets. Stafford Drug Co.

We have some broken lots in boys' fleece-lined and all wool underwear selling out very cheap. Johnson Clothing Co. (10-14-34)

#### FOOTBALL TODAY.

Marquette and Calumet School Teams Will Play at Fair Grounds.

The first Marquette football game of the season will occur this afternoon at 3 o'clock at the fair grounds, when the Marquette and Calumet high school teams will try conclusions. The teams are reported to be evenly matched, and a close score is expected. The Marquette team has put in a week's hard work and will present its strongest lineup, including Fred Kraft. It will be more formidable than was the case at the Soo, and it is expected to give the visitors a good argument, if not to win. The management hopes that the attendance will be good, as it is at a considerable expense in bringing Calumet to the city. Street cars will run to the grounds throughout the afternoon. The Marquette lineup will be as follows: Right end, B. Primeau; right tackle, Fred Kraft; right guard, Catlin; center, Van Curan; left guard, Flannigan; left tackle, Young; left end, Nichols; quarterback, C. Kraft; right half, Thompson; full back, Bodilly; left half, Calver. If Marquette gets along well in the first half Sherman, A. Primeau and Youngquist will be sent in. They have been doing good work, but are not as heavy as the other players.

#### FINE BILL TONIGHT.

"The Royal Chef" to Be Presented at Marquette Opera House.

Tonight the opera house will offer one of the biggest and best attractions that will be presented here this season, "The Royal Chef," a musical comedy, that demonstrated its claim to be a public favorite by running six months in Chicago. The cast here, as well as the production, is the same that won unstinted applause during its memorable run in

#### WORK AT CITY HALL.

Concrete Gutters Have Been Put in and Minor Repairs Made.

A force of men has been busy at the city hall this week with various work. For one thing concrete gutters have been put in at the front, west side and back of the building. Formerly only the east side was so provided, but in the future all drain from the roof will be caught and quickly carried away. At the front of the building it was necessary to cut out considerable sod to put in the gutters. The window sash in the large windows of the front of the building, on the first floor, have been repaired, and a new storm shed has been erected. The controller has been directed to advertise for bids for painting the outside of the doors at the building and also the window sash, which has not been retouched since the building was erected. It is planned to have this work done before the winter sets in.

As soon as the building is vacated by the girls' parochial school it is likely that bids will be called for on the decoration of the interior. This improvement was proposed over a year ago, as the interior is now rather dingy, after ten years of service. However, just when it was proposed to have the work done it was necessary to give the upper floors of the building over to the girls' parochial school, so it was judged advisable to postpone it until the children had finally left the structure.

#### FROM MR. WELLS.

Mr. Editor and People of the First Republican District Marquette county—As has been announced I am a candidate for reelection to the legislature in this district. Mr. Gordon secured the nomination in the regular convention in a manner surely not pleasing to me and I think the general public believes

## 4--Floors Full of Bargains--4

# GRABOWER'S BIG STORE

We are recognized as the largest and most up-to-date Dry Goods, Carpet, Millinery and Shoe Store in the Upper Peninsula. To look at our store from the outside is not doing it justice; you must come inside in order to appreciate the magnitude of it, and you will soon be convinced that we are not exaggerating--that what we say is true; and that we are not here to mislead, but to make customers, and to retain the custom we have established in the last eighteen years, which means good treatment to all.

## The Largest Cloak Department in Northern Michigan

With the Smallest Prices. We show the very latest styles of Ladies', Misses and Children's Coats. The exclusive models which it maintains earn for our Cloak Department much prestige.

## Special In New Coats for Ladies, Misses and Children

Stylish new modes in Women's Suits, Skirts, Waists, Wraps and Furs. "What is the advantage of buying at Grabower's?" You can buy for less money; you cannot buy anything but new, stylish, up-to-date, correct fitting garments, as we have no old goods to show you; other cloak departments are just loaded with all kinds of old stuff. Here you are certain of the highest satisfaction. When you are ready for that NEW COAT, SUIT, SKIRT OR FUR GARMENT, or anything else in women's wear, ask yourself if it isn't a good policy to come here.

Women's Coats in long, short and medium lengths, loose and half fitting in all the new materials, \$4.75 to \$35.00.

Walking Skirts in Cheviots, Venetians and many other popular materials \$3.50 up to \$12.00.

## Attractive Millinery Bargains

As many of the ladies remarked during our opening, "Why, you always have such pretty Hats--and so artistically trimmed; and such a large selection!" I tell them it takes years of experience in this line to produce such Hats as we show. We are showing a larger and prettier lot of Hats this season than ever before, with prices much less than ever. If you want something new, which nobody else has anything like, come to us, as we never make two Hats alike.

## Dress Goods Specials

Have you seen the new stock for fall? Come and take a look at our dress counter and see what we will do for you; we can save you considerable money and give you reliable merchandise.

## Shoes for Women

Dorothy Dodd and Utz & Dunn, the most satisfactory Shoes sold at popular prices. Never buy a cheap Shoe, or something "just as good," as some dealers call it, but come to us and buy something we recommend; we know what we recommend when we say to you, buy Dorothy Dodd or Utz & Dunn's.

## Underwear and Hosiery

Special Bargains in this department. We show you new, fresh goods, nothing old, and goods especially adapted for this climate. We have all qualities, and prices are in accordance with the quality.

## Lace Department

SPECIAL SALE THIS WEEK. 1000 yards of desirable Laces at 5c per yard.

## Domestic Department

Our stock of Flannelettes, light and dark effects, for Wrappers, Kimonos and House Jackets, have all been marked at a very low price. Prints, Gingham, Sheeting, Cretonnes, Shaker Flannels, Batts Yarn, and everything in the Domestic line you can buy from us for much less than in any other store.

EXCELLENT ADVICE--BE WISE. There is no doubt Marquette women are the wisest of shoppers; Grabower's is the busiest store in the Queen City when it comes to choice goods, large assortment and lowest prices. Our leadership is self-evident. We call your special attention to our bargains and well selected line of merchandise, knowing that we will save you money on goods that are thoroughly good and desirable. So, BE WISE, and be sure to come here.

# LOUIS GRABOWER.

Dave Lewis, Leading Comedian "Royal Chef."

the Windy City. The humorous story upon which the plot hinges is that of the adventures of one Heinrich Lemp, a man who takes a Cook's tour as a means of escaping from the arduous labor entailed in a political campaign, wherein he was a candidate for alderman. In his journey he lands on the mythical island of Oolong and is impressed in the service of the ruler of the island as the king's chef, notwithstanding his protestations and his appeal for release on the grounds of his American citizenship. Submitting to what seems to him the inevitable, he commences his labors as the culinary expert of the royal kitchen. Having been served with notice that unless his dishes find favor with the royal palate he will be beheaded, he endeavors to placate the local sovereign with jokes and songs in order to cover up his deficiencies and ignore the fact that he is not a chef. The means of what can be evolved with pets and pans, spices and condiments. It is needless to say that there is no end of humorous situations in which any audience can find merriment and laughter. The chorus assists materially, and catchy songs and ballads rendered by a cast of unusual merit will cause "The Royal Chef" to be a musical comedy that will long be remembered. Sam S. Schenbert has provided a production lavish in its beauty.

he did not secure it in a fair way, or in any manner according to the principles of "primary reform," which is the issue of the Independent ticket in this county, rather than procuring offices for personal friends by a few in control. This issue is a matter of legislation and necessarily pertains especially to the candidates for the legislature. I voted for the primary reform measure and was severely criticised for so doing by the senators; in fact was left out of their society, just as a man is liable to be left out here in Marquette county if he has an opinion different from that of the few who say "this slated ticket must be nominated." Mr. Gordon was in Ne-gaunee this week, and said to me, "Tom, I shall tell no lies in this campaign as I don't have to." I am pleased to know that Mr. Gordon has commenced reform even to that extent. I have many expressions from members of the last legislature, asking what happened to me, etc. I simply wish the voters to fully know what happened, and then to leave it to them to decide whether Gordon or myself should go to the legislature. Yours truly, T. M. WELLS.

Would you buy gold dollars for fifty cents? You would, of course. But you would not get nearly so much profit out of the transaction as you would if you should buy wheat, corn or copper stocks at present prices. J. W. Spear, No. 8 Harlow block, Marquette. (10-11-34)

Buy your overcoats at Johnson's. You can save from \$4 to \$6 on your purchase. (10-14-34)

For the best in the line of photograph come to Stierle's new gallery, 506 North Front street. Now ready for sittings. (8-31-34)

Buy five shares Michigan or Franklin for \$40 and double your money. J. W. Spear, Harlow block. (10-14-34)

Buy your piano at home. We represent manufacturers whose instruments are acknowledged to be of the highest known standard. You have both their warranty and our personal guarantee back of them. We invite comparison of prices and terms at Conklin's. (7-5-34)

Men's woolen underwear, 50 per cent cheaper than you can buy it of any other store. Johnson Clothing Co. (10-14-34)

Gold Medal flour goes further, makes more and better bread than any other flour. Sold by all grocers. (10-14)

CLIFTON BARBER SHOP. George Perrin, the Clifton Hotel barber, located in writing room. Shop open from 7 a. m. to 8 p. m. (9-29-34)

THE BRADBURY PIANO Was recently chosen by the Chicago Board of Education as the piano to be used exclusively in the higher grades of the public schools of Chicago. The fact that the decision was reached after very careful expert examination of the most renowned makes adds one more to the many valuable endorsements received during the half century of its existence by the Bradbury piano. In all about 500 Bradbury pianos have been sold recently to the Chicago schools and universities. Sold exclusively on the upper peninsula by Amos Saladin, Marquette. (9-23-34)
