BATTLE CONTINUES DESPITE SLAUGHTER OF AWFUL PROPORTIONS

Slav and His Foe Still Engaged in Fearful Combat South of Mukden.

LATE NEWS CHEERING TO ST. PETERSBURG

Kuropatkin Is Reported Not Only Holding His Own at the Shakhe River but Even to Have Resumed the Offensive--Advices From Tokio, However, Declare All Attacks Repulsed With Great Loss and Indicate the Position of the Enemy, Cut Off From the North by Swollen Streams, to Be Exceedingly Grave--An Incident of the Fighting the Envelopment of a Japanese Column Which Succeeds in Extricating Itself Only at the Cost of a Thousand Men and Fourteen Guns, the First Lost by the Mikado's Legions Since the War Began.

Fidlyatun (six miles east of Shakhe), Oct. 18, via Mukden.—The fighting still continues along the whole front, although it slackened considerably today owing to a heavy rain and the impassable condition of the roads.

Mukden, Oct. 18.—It rained during the night, but the roar of artillery did not cease a moment. Today is cold, with a cutting wind. The roads have been ruined by the rain.

Mukden, Oct. 18.—It is reported that the Russian army is advancing. Cossacks have brought in captured guns and a body of Japanese wounded prisoners.

The news has just been received that the Japanese left flank has been driven back with heavy loss and is cut off.

Mukden, Oct. 18.—It is reported that General Mistechenko's Cossacks, under the command of Adjutant Givloff, were engaged in a hot fight Oct. 17 towards the southeast. A Cossack horse battery silenced the Japanese guns and drove back several infantry battalions, but were unable to capture the guns, which the Japanese succeeded in carrying off.

Shakhe station, or what is left of it, has been recaptured by the Russians.

Tokio, Oct. 18.—The Russians fiercely assaulted General Oku's forces and attacked the positions of General Nodzu Monday night, but were everywhere repulsed with heavy losses.

The Russians enveloped General Yamada's column on Sunday and captured fourteen guns.

The enemy is now concentrating in front of the left army under Oku and the center army under Nodzu, and another great battle is expected.

Tokio, Oct. 18.—A telegram from Field Marshal Oyama received today says:

On the night of Monday, Oct. 17, the enemy made two fierce counter-attacks against the right column of the left (Oku's) army, besides a counter-attack on a small scale in the direction of the center and right armies.

"We repulsed them entirely. The enemy retreated, leaving a great number of dead."

St. Petersburg, Oct. 18.—General Sakharoff telegraphs today:

"The Russians repulsed a Japanese attack with great success during the night of the 17th and seized the village of Shalantzi, on the Shakhe river. The enemy strongly bombarded the captured village."

"A considerable concentration of the enemy's troops has been observed against our center. There was no fighting yesterday on our left flank."

Up to 7 o'clock this evening no fresh news had been received from the front.

St. Petersburg, Wednesday, Oct. 19, 2:10 a. m.—There is jubilation throughout the city over the news that General Kuropatkin has resumed the offensive, and the holiday in honor of the czar's birthday, which began with little heart, closed brighter. Newsboys up to midnight raced through the thoroughfares with flags, shouting "Great Russian victory" and crowds bought the papers and discussed the change in the fortunes of war, but the population as a whole were slow to take fire.

The kaleidoscopic changes on the Shakhe have been too swift for the population to follow, and so the better news from the front has been so far taken with comparative quiet. In the best informed circles, however, it is already accepted as true. It is believed that Kuropatkin intended to signalize the czar's birthday by a victory just as grand as that of Duke Nicholas at Plevna.

The Associated Press hears on good authority that the emperor has received a telegram from Kuropatkin reporting that the Russians are moving forward.

The reverse sustained by General Yamada's Japanese column has not yet been reported by General Kuropatkin or Sakharoff, except in a reference to an unsuccessful Japanese attack near the village of Shakhe. The Associated Press Mukden dispatch evidently refers to this affair in reporting that the Japanese left has been beaten off with

cannonade. Out of one company of a Russian rifle brigade, only fifty men were left. Two companies that had expended their ammunition prior to the Japanese attack lay in the trenches until the Japanese were within a few paces. The Russians then hurled a volley of stones, charged and broke the attacking line, compelling the Japanese to flee.

As this dispatch is filed, Tuesday evening, the Russians are retaining the ground gained at the Shakhe river. Several Maxims have been captured. The firing ceased after dark today.

Battle Called Bloodiest in History.
Mukden, Monday, Oct. 17.—[Delayed in transmission.]—The continual vigilance of the combatants, and especially the serious acceptance by the Japanese army of the Russian advance, promises further fighting, although there has been already nine days of unprecedented and exhaustive conflict.

The Japanese have been alternately testing the Russian center and right flank, holding the Russians in a monotonous and bitter day-to-day resistance on the line of contact. The Japanese apparently feared that the Russian advance would develop a superior force of reserves.

The duration of the contest already exceeds by several days the common prophesies, as it was believed that neither side was capable of such expenditure of men and munitions, which is already in excess of all the previous fighting within twenty-five miles of Liao Yang.

The fighting on Sunday, Oct. 16, was most severe. Already the casualties reported are so great as to confirm the declaration of the leaders that the present conflict would be the bloodiest in history. It is not possible today to make any close estimate of the Russian losses.

After a threatening day, the Japanese at 11 o'clock the night of Oct. 16 rushed the village of Luecheno, on the north bank of the Shakhe river and west of the railway, precipitating a thundering cannonade and fusillade, which continued until midnight, the rifle fire continuing until dawn.

The Japanese now occupy the raised temple quadrangle near Luecheno, the only eminence for miles around and afford an unusual advantage in observation and artillery fire against the Russian right. Several attempts to dislodge them have failed.

Today the Japanese shells are falling at Choukiao, near Piatapo, showing that the heavy and continuous Russian cannonade has been ineffective.

Thousands of Russian Dead Buried.
Headquarters of General Oku's (Left) Army, Sunday, Oct. 16, 3 o'clock p. m., via Yusan, Oct. 18.—Since Sunday last the Japanese left army has buried 4,100 Russian dead. It is estimated that the Russian casualties in the fighting with this army alone are 20,000 to 25,000.

The Japanese report their casualties at about 3,000. Early this (Sunday) morning the Japanese continued to advance, driving the Russians before them and capturing two guns and many rifles.

At 7:30 o'clock this morning the Russians attempted to re-attack on the hills north of Yentai, from which the Russians were driven. On Monday the Japanese shelled the Russian positions in the villages north of Yentai. A terrific artillery duel continued all day, and night fell without decisive result.

On Tuesday the Japanese repulsed the force Russian attacks. The fight continued all day. The Russians lost heavily, the attackers being almost annihilated. During the night the Russians withdrew 200 yards and the Japanese took up an advance position at the same time.

Many Guns Taken.
Early Wednesday the Russians made an unsuccessful attack and the Japanese continued their advance. In the afternoon the Japanese captured a battery of eight Russian guns. The whole force of the artillery of the left army was turned on the retreating Russians, causing much havoc.

The left wing circled the Russian's extreme right, forcing the Russian flank back on the center and capturing twelve guns. The Japanese center captured four guns, and the left column took 10,000 rounds of gun ammunition.

On Thursday morning the whole left army advanced, driving the Russians back. In the meantime General Kuroki, on the right, cut off the Russians to the east. He and General Nodzu, in the center, drove the Russians back, capturing more guns, ammunition and men.

Thursday night a strong advance was made on the hills occupied by the Russians, and Friday morning the Russians retired in the direction of Mukden.

The only position now held by the Russians is in the center, where a fierce fight is being waged. The Russians appear to be cut off.

Japs, Entrapped, Cut Way Out.
London, Oct. 18.—A dispatch to the Japanese legation from Tokio, dated today, giving the details of the envelopment of General Yamada's column, says: "On Oct. 16 his column was proceeding to reinforce a detachment of our left (Oku's) army, which was attacking the enemy north of Shakhe. It defeated the enemy near Weichaloutz, captured two guns and two ammunition wagons and was returning to its original position when suddenly, at 7 o'clock p. m., it was enveloped by about a division of the enemy. It succeeded in breaking through and regaining its original position. The artillery, however, was lost, with most of the horses and men. We were compelled to abandon nine field guns and five mountain guns. Our casualties Oct. 16 were 1,000."

These are the first guns to be lost by the Japanese during the war.

FILIPINO BANDITS SUFFER.
Notorious Leader and Fifty Men Killed by the Constabulary.
Manila, Oct. 18.—A force under Lieutenant Pogue, of the constabulary, has defeated a large number of Pulajanes in the mountains of eastern Samar, killing the notorious outlaw Oyama and fifty of his followers.

FEARED SHIP IS LOST.
Labrador Mail Steamer Virginia Lake Now a Week Overdue.
St. Johns, N. F., Oct. 18.—The apprehension respecting the Labrador mail steamer Virginia Lake is increasing. She is now a week overdue.

RUSSIANS RESENT IT.
Suggestion of Mediation Causes Anger in the Czar's Capital.
St. Petersburg, Oct. 18.—The announcement from Washington saying that the administration believed that the time for mediation in the war approaching has aroused only resentment, and there is no doubt that if President Roosevelt should actually attempt to open the question at this time he would meet with a rebuff.

SUNK BY JAPANESE SHELLS.
Cruiser of the Port Arthur Fleet Said to Have Come to Grief.
London, Wednesday, Oct. 19.—A dispatch from Shanghai to the Post says it is reported there that Japanese shells have sunk the Russian cruiser Bayan in the harbor at Port Arthur.

Baltic Ships Reported.
Fakke-Bjerg, Denmark, Oct. 18.—Three Russian battleships, two torpedo boats and one transport belonging to the Baltic fleet sailed northward this afternoon.

DEAD SOLDIERS LAY IN HEAPS

LONE TREE HILL THE SCENE OF THE GREATEST SLAUGHTER OF THE WAR.

GHASTLY SIGHT PRESENTED

CORPSES CLUTCHED IN DEATH EMBRACE FILL THE TRENCHES.

Russians Retake the Position at Fearful Cost, Then Beat Off a Night Attack Marked by a Carnage Equally Sickening.

Mukden, Oct. 18.—Lone Tree hill, won by the Russians after a desperate struggle, was the object of an unsuccessful attempt at recapture by the Japanese.

In spite of the awful slaughter by which they had been driven from the hill, the Japanese returned to the charge during the night of Monday, Oct. 17, recognizing that the position on the hill was the position on the southwest front.

The Japanese were driven back with terrible slaughter.

Awful Spectacle Presented.
Fidlyatun (six miles east of Shakhe), Oct. 18.—The Japanese made an unsuccessful attempt to recapture Lone Tree hill last night. The Russian infantry met several attacks and repulsed them all. The battlefield at this point presents the most awful spectacle that can be conceived. Russian and Japanese dead are mingled in heaps in inextricable confusion. The ground is strewn with broken rifles that had been smashed in hand-to-hand fighting. Everything seems to have been utilized as weapons. The slaughter is declared to have been the most terrible of the war.

A Precipitous Rocky Height.
St. Petersburg, Oct. 18.—The general staff believes that the storming of Lone Tree hill will, for valor and slaughter, occupy a place by itself in military annals. The hill is a precipitous rocky height and, although the Japanese had occupied it for only a short time, they had thrown up very strong defenses. The river running at its foot increased the difficulty of the task, but the hill was scaled and carried successfully against the unprecedented opposition of fourteen thousand men, with many guns. The Russian losses, however, were terrible. Officers with swords aloft leading the scaling columns were literally lifted in the air by Japanese bayonets. All the dead in the trenches were bayoneted, their weapons bearing marks of the dreadful combat.

Murderous Fire Ignored.
St. Petersburg, Wednesday, Oct. 19.—Nonirovitch Danchenko, the Russian war correspondent, telegraphs a description of the recapture of Lone Tree hill, which fell into the hands of the Japanese during a night attack while the Russians slept. He says:

"General Kuropatkin the following day ordered the hill retaken. The whole of the Russian artillery was concentrated at five in the morning and showered the hill with projectiles. The awful spectacle lasting the entire day. It seemed that no human being could outlive such an ordeal, yet the defenders remained manfully at their posts."

"The sun was already declining when Kuropatkin gave the order to storm. Six regiments advanced, fording the river in the face of a murderous fire. The enemy determined to make us pay dearly for it. He poured a hail of gun and rifle fire on our advancing columns, but nothing could stop us. They reached the other side, clambered up and at eleven at night the position was in our hands."

"I have just visited the scene of our triumph. The trenches are filled with dead Japanese and Russians, clutched in the death embrace. I saw no such ghastly sight at Shipla or at Plevna."

BLIZZARD RAGING IN WYOMING.
Cheyenne, Wyo., Oct. 18.—The worst snow storm of the season is raging throughout this region. The storm is accompanied by a high wind and the air is full of drifting snow. Railway traffic has been impeded. The weather is not cold.

Heavy Storm in Nebraska.
Omaha, Oct. 18.—Western Nebraska was visited by a severe snow storm this afternoon and evening.

FALSIFIED ELECTION RETURNS.
All Members of a Cuban Board Sentenced to Long Terms in Prison.
Havana, Oct. 18.—All five members of the Santiago provincial election returning board have been sentenced to fourteen years and eight months imprisonment for falsifying in order to seat several congressmen belonging to the moderate coalition.

DAILY MINING JOURNAL.

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Marquette, Mich., Oct. 19.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

There are left less than three weeks of the open season for politicians.

Senator Fairbanks has now ridden the Democratic assertions about the cost of the Philippines, but it appears that Secretary Taft riddled 'em first.

This is the last day of the primaries in Wayne county, which possesses a primary election measure.

An eastern veteran of ninety-three married for the second time, and if all his descendants were present there couldn't have been much room for outsiders.

"In this struggle between the people and the railroads of Wisconsin the people are going to win."

Wall street leaders have banded together and appointed a "committee of safety," consisting of several prominent financiers, to take such steps as shall be deemed advisable to regulate the market.

It is now reported that Harry Yost and Keene Fitzpatrick are both likely to leave Michigan for the University of Pennsylvania.

A Tokio dispatch says that General Kuropatkin was ordered to begin his southward advance by Car Nicholas.

The management of the New York Giants has decided that it is willing after all to enter in a world's championship series with the American Boston.

It's tough luck to be a creditor of a busted broker. Cotton Sully is credited with one of the fattest collapses of late months, and now his bones are being picked in approved style.

Congressman J. W. Babcock has cheered up somewhat in his view of the outlook for the representative elections.

SUPERIOR TRUST COMPANY. Hancock, Michigan. Capital - \$150,000. This Company is under the supervision of the state banking department and is authorized by law to act as executor, administrator, guardian, assignee, receiver, or trustee.

MOTHER AND CHILD

Scott's Emulsion is cod liver oil made almost as palatable as milk. It is easy and soothing to the weak stomach; it checks the tendencies of children toward thinness.

Nursing mothers will find a special value in Scott's Emulsion because it insures a flow of rich, nourishing milk for the baby.

Dr. Koenig of Hoechst, Germany, has announced to a congress of scientists in Berlin that he has succeeded completely in solving the problem of colored photography through a simple process.

Both of Bismarck's sons died while still comparatively young men, "Bill" Bismarck having died in 1901.

An English officer is equally descended from King Charles I. and from Oliver Cromwell.

Mr. Ogden Goebel was said to be the owner of the jewels which temporarily disappeared recently and caused such a tremendous commotion in Newport.

These birds are especially fond of the United States Army transports, for these ships carry many men, who, denied the taste for books which renders an ocean journey less tedious and having limited facilities for deck sport, take to the water.

These birds seem to know when they are to be fed, for they come flying in ever narrowing circles until they are within a short distance of the vessel.

MAKING FRIENDS EVERY DAY. This can truthfully be said of JELLO ICE CREAM POWDER, the new product for making the most delicious ice cream ever eaten.

MINING NEWS

Arizona Mining Notes. Bisbee (Ariz.) correspondence says: The Red Jacket & Bisbee Copper company, another of the outside concerns that have been exploring in this vicinity, has abandoned its options permanently.

The general opinion is that the Houghton Development company is not likely to cut any profitable body of ore, and that its career is soon to close.

It now appears that the Lowell shaft of the Copper Queen is draining a trifle into the Calumet & Pittsburg, of the Cole group, though by no means all the water of the Lowell will go out that way.

At the annual meeting of the Calumet & Hecla Mining company, held at Duluth, a few days ago, plans for further development were outlined.

When Silas C. Swallow, prohibition candidate for president, was in Munich, Ind., he stopped at the Bram house, it happened that Clerk Morrison did not know the distinguished prohibition leader.

Both of Bismarck's sons died while still comparatively young men, "Bill" Bismarck having died in 1901.

An English officer is equally descended from King Charles I. and from Oliver Cromwell.

THE STAFFORD DRUG COMPANY. Sold and recommended by. Three sizes—25c, 50c, \$1.00. The 50-cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much. REFUSE SUBSTITUTES.

THE LANPHER FURS

CAUTION! One does not buy a Fur Garment every day and the points upon which its value depend should be considered carefully.

Who else information is not ventured, probably because a decision has not been reached, it is believed that as a result of the recent critical test the "West vein" shaft of the Phoenix mine will suspend operations.

During the next few weeks a force of men will be engaged in building a shaft lining on a dip equal to the plane of the ledge from the ledge to the surface.

Closely following the success attending the Calumet & Hecla drill operations at a point within 200 feet of its south boundary, a search for the Kearsarge lode was instituted by the Laurium Mining company, owner of the lands south adjoining and the Phoenix mine.

The position of the Laurium tract has not been fully appreciated, and it will probably occasion some surprise to learn that it possesses about a mile and a half of the Kearsarge outcropping, with good operating depth available for more than a mile.

Mr. Brown's latest attention to mining in this identification with the Black Mountain Mining company, whose property is located in the state of Sonora, Mexico, and in the shares of which company a large number of Duluth people are interested. He is a director of the company.

There is a growing sentiment to the effect that the Kearsarge is the great future copper belt of this district, yet the fact is scarcely appreciated that the combined output of its six active mines has yet to compare with that of the Copper Range Consolidated, operating the Baltic lode, which is also making the better showing per ton of rock treated.

Much interest is centered in the Mohawk's new opening as it is believed that it will eventually prove to be the richest producer of the mine. The lode exposed at the latest point of attack averaged 3,500 tons, from which was secured a mineral output of 2,519 tons.

There is a growing sentiment to the effect that the Kearsarge is the great future copper belt of this district, yet the fact is scarcely appreciated that the combined output of its six active mines has yet to compare with that of the Copper Range Consolidated, operating the Baltic lode, which is also making the better showing per ton of rock treated.

SOFT LUNGS. When your lungs are sore and inflamed from coughing, it is the time when the germs of PNEUMONIA, PLEURISY and CONSUMPTION find lodgment and multiply. FOLEY'S HONEY AND TAR stops the cough, heals and strengthens the lungs.

CANDIDATE FERRIS COMING. NOT A VOTE AGAINST HIM.

Ed. Ryan of Calumet, chairman of the Houghton county Democratic committee, was notified yesterday by wire that Woodbridge N. Ferris of Big Rapids, the Democratic candidate for governor, will speak in Calumet the evening of Wednesday, Nov. 2.

The county committee has been negotiating with the candidate for some time in an effort to get him to visit the copper country and a short time ago he promised to squeeze in a date for Houghton county.

The Democrats plan on holding at least two other rallies in the county before election day.

Independents Issuing a Paper.

The Independents have established a newspaper devoted to their interests. The first issue of which appeared this week.

CONDITION WAS SERIOUS.

J. H. Jasberg of Hancock Poisoned by Eating Canned Chicken.

J. H. Jasberg of Hancock, manager of the Finnish college and book concern and president of the Houghton County Agricultural society, was poisoned by eating canned chicken Monday afternoon and for a time his condition was serious.

Big Rally This Evening.

The Republicans will hold a rousing rally at Painesdale this evening.

IMPROVEMENT ORDERED.

Hancock Approach to County Bridge Also to Be Paved With Brick.

The Hancock approach to the Portage lake bridge will be paved with brick in accordance with a proposition submitted to the county board of supervisors and the Hancock city council by James J. Byers, who is the engineer in charge of paving work in Houghton.

AMATEUR HOCKEY LEAGUE.

The project to organize a junior hockey league in the county is said to be well thought of by the management of the various amateur teams and a meeting likely will be held at a near date to effect organization.

GAMBLING TABOOED.

Among the ordinances adopted for the new village of Hubbell by the common council is one prohibiting gambling of any kind or description.

BOXING SHOW PROGRAM.

The card for the boxing show to be pulled off under auspicious auspices at Houghton next Saturday evening has been arranged.

WAS AN OLD RESIDENT.

The funeral of the late John Rogan, an old resident of the copper country, was held yesterday morning.

AMATEUR HOCKEY LEAGUE.

The project to organize a junior hockey league in the county is said to be well thought of by the management of the various amateur teams and a meeting likely will be held at a near date to effect organization.

JACKOLA FOUND GUILTY.

Murder in the Second Degree the Verdict of the Jury.

The case of The People versus Paul Jackola, charged with murder, is on trial in the circuit court, being the first on the criminal docket to be taken up when the jurors reported for duty yesterday morning.

HIS INJURIES FATAL.

Dominick Pignocco, a Calumet & Hecla timberman, is dead as the result of injuries sustained while at work in No. 2 shaft of the Calumet branch.

MICHIGAN-WISCONSIN GAME.

Providing a sufficient number will go, Commercial Agent H. E. Stewart of the St. Paul road will endeavor to get a low rate for the Michigan-Wisconsin football game to be played at Madison, Wis., a week from next Saturday, Oct. 29.

SALOON KEEPER ACCUSED.

John Pastora of Adams township has been arrested on the charge of selling liquor without a license.

WRITES OF COPPERDOM.

Editor T. A. Rickard Tells of His Recent Visit Here.

Editor T. A. Rickard, who recently spent a number of days in the copper country, has this to say in the current issue of his paper, the Engineering & Mining Journal:

LARGEST FRESH WATER ISLAND.

Lying not far from the Canadian shore, but owned by the United States, and a part of the state of Michigan, is the largest fresh water island of the globe.

WRESTLERS MATCHED.

session at Lansing this week by Charles Schuler and William H. Vial. The grand lodge convened yesterday and will continue in session until Friday evening. The ladies' auxiliary to the order is also in session.

Another new cement sidewalk is going in on Sheldon street at Houghton, W. B. Hoar, the grocer, being favored with the improvement. Now that the street is paved the property owners are evincing an interest in the appearance of the sidewalks.

SCIENCE TO THE RESCUE. Nitrogen in the Soil Wasted by Careless Agriculture.

The greater part of the atmosphere consists of the gas called nitrogen, and compounds of this same substance enter into the most intimate constitution of all living tissue, animal or vegetable.

Free nitrogen, the gas which exists in such enormous masses in the air, is of no service to the plant or the animal yet the plant is absolutely dependent for its life on being able to obtain some of the simpler compounds, nitrates or ammonia, of this same element.

Thus the world's stock of nitrogen compounds is being rapidly exhausted, and the plant taking the simplest forms and elaborating them, the animal bringing these complex back to the starting point. All the time, however, the great stock of nitrogen gas in the atmosphere stands outside the cycle.

On the whole also the world's stock is diminishing. When we burn coal or wood the small proportion appropriate to all plant tissue is set free with the nitrogen and goes to swell the immense mass of nitrogen in the air.

Even in the use of a fertilizer, some inevitable waste goes on; if a certain amount of nitrogen as nitrate of soda is converted into a crop and after consumption by stock is reconverted into manure there is a loss, and the farm as a whole is not enriched by quite the quantity of nitrogen introduced.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box.

TRUST THOSE WHO HAVE TRIED. I suffered from catarrh of the worst kind and never hoped for cure, but Ely's Cream Balm seems to do even that. Oscar Ostrom, 45 Warren Ave., Chicago, Ill.

PROFIT IN THE EASTERN WAR

America Makes Money by Furnishing Russia and Japan Goods.

Every day furnishes new evidence of the profit to the United States of the war in the east between Russia and Japan. American trade with each combatant has increased by leaps and bounds since the beginning of hostilities. Much of the increase, if not most of it, is in contraband goods. To a surprising extent the two armies now struggling in the vicinity of Mukden are shod with American leather, clothed in uniforms made from American cloth, sheltered under the canvas of Yankee tent makers and fed on Chicago beef. Now the largest shipbuilding firms of the United States are racing to complete submarine boat contracts with both countries. In some of the yards submarines that may eventually come from each other as enemies on the seas are being assembled side by side. At the outbreak of the war the Japanese themselves declared that their navy possessed no submarines. This frank admission was naturally accepted as a strategic lie and it undoubtedly frightened Russian naval officers. It now appears that this official Japanese statement was strategic truth, intended to deceive the world. The navy's first endeavor by Japan to supply the deficiency. Meanwhile the Russians took steps with equal haste to meet a danger that as yet did not exist. It happens that the United States, of all the world, furnishes the most facilities for buying submarines in the open market at short notice. Other nations build their own or have them built by contract on plans devised by their officers. The development of the submarine in this country has been a thing of private enterprise. Two companies, the Holland and the Lake, have been rivals for several years for government patronage. For demonstration they have had working submarines completed and at their docks. When the eastern war began the Lake company had recently completed the Protector which was being tested by army and navy officers. One day the Protector was withdrawn from the tests. The next day she had disappeared from the face of the earth. A week later it was discovered that she was on the high seas, the sole cargo of an obscure but fast tramp steamer and bound for Russia. Finally it later developed that the Holland company had succeeded in delivering one of its submarines to Japan. Within a week a railroad wreck in the northwest disclosed the presence of two more Holland submarines en route for Japanese ports. It is now pretty well established that these are but a part of more than a score of such boats that have been completed for the Japanese navy.

The Fore River Ship & Engine company of Fore River, Mass., has done this work and has more of it on hand. At the same time it has leaked out that thirty submarines of the Lake type are being rapidly hustled toward completion in the Newport News Shipbuilding company, Newport News, Va. As fast as these are completed they are shipped in sections direct to Russian ports. Fifty submarines are said to comprise the total Russian complement for Russia. The United States for these small ships that the boats were never assembled or tested in the yards where they are built. They are being constructed on uniform patterns and all the parts are interchangeable. The same is said to be true of the Japanese construction. The two companies have sent submarine specialists and expert mechanics to Japan and Russia to aid in putting these boats in shape on arrival.

It is only by severely straining the laws of neutrality that this sort of enterprise is possible. As each nation is equally guilty and as each desires to avail itself of the opportunities American shipyards afford, neither will raise the question. In spite of the fact that neither has the facts in the matter have come to be so thoroughly common knowledge that the government might be compelled to take cognizance of it all, but for a convenient decision by Hamilton Fish when he was secretary of state under General Grant. The torpedo boat was in its infancy. He decided that it was not a vessel capable of taking the high seas or crossing them under its own power, the laws that would forbid supplying a belligerent with warships did not apply. In that the torpedo boat was merchandise, and, as such, a permissible article of commerce, war or no war. Since that decision the advances in torpedo boat construction has made it an absurdity. Five American torpedo boat destroyers recently made the voyage from the United States to the Philippines under their own power and without a breakdown or disaster.

Officials of the state and navy departments admit the dimensions of this situation that permits submarine boat construction in the United States for Russia and Japan without its being regarded as an infraction of neutrality. They admit that a protest lodged by either of the interested powers would compel stopping the whole business. But it is the good fortune of American shipbuilders that each belligerent is equally guilty and equally anxious to prevent the raising of the question.

The race to supply each with submarines has given one of the most picturesque features of any war to this one. But the United States is prospering from the war through other less spectacular avenues of trade as well.

Despite the dire straits of the contraband goods promulgated by Russia and regardless of the unsettled conditions that prevail in both Russia and Japan as the result of the war, the reports issued by the department of commerce and labor show that during July, 1904, Americans exported to Japan goods to the value of \$1,763,005, as against \$1,473,350 in July, 1903. During the first seven months of this year this country sent to Japan merchandise worth \$15,231,147. This is \$2,800,183 more than was sent them during the same period of 1903.

The same increases are noted in American trade with Russia. In July of this year goods were sent to Russia (European and Asiatic), valued at \$592,352, as against \$537,024 in the same month last year. For the seven months ended July 31, 1904, American exports to Russia amounted to \$11,359,420, as against \$10,165,386 for the same months in 1903. W. S. Couch in the Cleveland Plain Dealer.

BOSTON STRONG AND ACTIVE.

Mohawk and Copper Range Were the Leaders and Were Well Bought.

Paine, Webber & Co. wired concerning the Boston market:

"The Boston market was again strong and active, with Mohawk and Copper Range the leaders. Allzone was in good demand at the opening. One house bought 1,000 shares and another 500, which advanced the price to 12 1/2, the traders being the principal sellers. Mohawk opened in good demand. Later it was removed that the showing in No. 3 shaft was especially good and New York sent several orders to buy, which carried the price to 5 1/2, one house selling 1,000 at 5 1/2. Copper Range was steady and strong all day until about 2 o'clock, when orders came in to buy about 2,000 shares and the price advanced from 6 1/2 to 6 3/4, closing at 6 1/2. The interest in United States Mining and Bingham seems to have abated for the time and is swinging now towards Mohawk and Copper Range."

Wheat was Higher.

Logan & Bryan wired Paine, Webber & Co. regarding the wheat market:

"The wheat market was 1 to 1 1/2 higher. It opened weak on the cables, but no further selling pressure developing it ruled strong and closed at near the highest point. The congestion in the December continued to be a source of strength. There was a good selling demand in all the markets. Roomball cables that Liverpool is depressed by offerings of the new crop of Argentine wheat, for future shipment, of course. It was a nervous and hesitating market. With wheat on an import basis and stocks rapidly accumulating, the statistical position does not seem to us very strong, but there is enough bullish sentiment remaining on the short crop theory to lend the market a quiet, active support. We think it will continue to be a good selling market."

New York Market Hesitating.

Logan & Bryan wired Paine, Webber & Co. regarding the New York market:

"The action of the market is a little hesitating, but the reactions are unimportant and it holds the recent advance remarkably well. The buying represents to some extent an increasing outside interest. We do not think, however, that there is yet any dangerous accumulation of stocks in weak hands. The situation looks to us still a healthy one and when we look for conditions and influences which would tend to bring about anything in the nature of a bear market we are unable to see them. Stocks are not yet high. We still advise buying."

BEN HENDRICKS AS "OLE."

"Ole Olson" will be at the opera house this evening, with Ben Hendricks in the lead. Hendricks has been playing "Ole" with excellent success for the past few years. He is a sweet singer and introduces in the course of the play several songs written specially for him. The comedy will be presented at popular prices.

A JUDICIOUS INQUIRY.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by the Peoples' Drug Store.

A fine line of men's sweaters going to be closed out at a big reduction. Johnson Clothing Co. (10-14-19)

You can buy boys' overcoats at less than half price at Johnson's going out of business sale. (10-14-19)

LOBSTERS AND OYSTERS.

For a good oyster stew or broiled lobster try the Superior Cafe, 303 South Front street. Theater and dinner parties receive strict attention. Catering a specialty. (8-30-19)

CULTIVATE THE LEFT HAND.

Most people are not right-handed to the extent generally implied. Pianists and to a greater extent violinists give as different work to the left hand as to the right. Most cricketers can at any rate stop and catch a ball pretty well, as well with one hand as with the other. In the gymnasium, even in fencing and single-sticks, either hand is practised. In boxing the left is the more important. This may be due to the co-ordinate use of the right leg. Generally speaking when the two hands are used simultaneously the right has no excessive mastery. Right-handedness is a matter of degree with different people. Most surgeons are good deal better with the left hand than men of other professions, and a great many of them bear personal witness to the benefit they owe to their ambidexterity.

We may perhaps at once grant that almost every one would be the better for a little more control over his left arm and fingers. Let any one attempt to write a sentence with his left hand and he will feel some sort of shame for the impotence of his will over his members. The Japanese approach more nearly than any other nation to the ideal of ambidexterity, and it is a fair inference that they owe to the training of their left hand some part of the mechanical and perhaps artistic skill for which they are becoming famous. The left hand is practised considerably in the education of our sailors, and it may be their "business" is partly the result of this training. On the whole the educated classes are pitifully helpless in the common demands of manual work.—Saturday Review.

INDIAN WAS NOT HEATHEN.

In His Weird, Strange Way He Worshipped a God.

Charles Gibson disputes the assertion that the primitive Indian is a heathen. Says Mr. Gibson: "The Indian's green corn dances are looked upon as a vile, savage proceeding, but in reality these annual festivities are a species of religion. The Indian is more serious, sober and on good behavior at a 'hush' than at any other time."

"The reason for these annual festivities is the ripening of corn, which is two-thirds of an Indian's living. When he has corn in his crib he has plenty to hold on. These dances were originally held at the ripening of all fruits. In fact, it was the custom to celebrate in a simple way give thanks to the Great Spirit for granting the privilege of feasting upon the fruits of nature. The Indian has always in his simple way worshipped a God."

"The square grounds wherein these ceremonies are carried on are very sacred, when the customs are carried out properly. For instance, a drunken man is not allowed inside the tcho, as the dance ground is called. No loud talking or boisterous person is allowed to come within the grounds; furthermore, no woman with a clouded reputation is allowed to come into the grounds at night or day. The ceremonies are very solemnly carried out and no foolishness is allowed. It is also a custom not to allow any four-footed animal to come about the place, as they are looked upon as unclean."

"The man, woman or boy who had eaten green corn before these ceremonies were concluded was not allowed to take part at the 'hush,' as their taking a hand would destroy the good virtues to be received from the Great Spirit. The person who ate green corn before the black drink was administered at the regular 'hush' was considered a backslider."—Kansas City Journal.

OF LOCAL INTEREST.

Some People We Know and We Will Profit by Hearing About Them.

This is a purely local event. It took place in Marquette. Not in Buffalo or New York. You are asked to investigate it. Asked to be a citizen's word.

To confirm a citizen's statement. Any article that is endorsed at home is more worthy of confidence than one you know nothing about. Endorsed by unknown people.

Thomas Price, of 141 W. Ridge street, employed on the L. S. & I. R. R. as locomotive fireman, says: "For a year I was bothered off and on a good deal with pains through the small of my back and in the kidneys. At times when I stood I could hardly straighten again and any cold or sudden change in the weather aggravated my condition. I saw Doan's Kidney Pills advertised and went to the Stafford Drug Co. and procured a box. I soon felt the work being done. I have no hesitation in saying that they did me a lot of good."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.

INTERESTING RELICS. GOOD SHOVEL WORK.

Engines Used at Jackson Mine Many Years Ago Are Now a Curiosity.

A recent heavy wind which tore down the old Jackson engine shed, near the street car track brought to light two interesting relics of the early days of iron ore development in this county. They are the engines which were used by the Jackson Iron company for shunting their cars about their mines. They were out of commission some twenty years ago and apart from their historical interest they are a profitable study for persons interested in early railroading.

They are as different from the ordinary modern switch engine as was the famous "Puffing Billy" from the modern passenger locomotive. The boilers are of the upright type, but are devoid of tubes. The power was communicated to the drivers by means of crank axles and two pairs of cog wheels, and the cylinders and old D-type of valves look strange strapped up to and almost on a level with the top of the boilers.

Perhaps the most interesting feature about these engines are the brakes and coupling gear. The brake shoes are of wood and were forced against one pair of wheels by means of a screw brake wheel, and the couplers look like the ball on a coal bucket. The locomotives, without the stacks, would hardly reach to the top of one of the fifty-ton cars now in use and perhaps two or three would be all one could haul on a perfectly level track. They possessed none of the modern labor-saving devices, such as injectors, blowers, lubricators, or even a water glass, though in their day they were no doubt equipped with everything then up-to-date. Their day of usefulness passed with the "jimmy" ore car which they shunted in and out of the tunnel leading to pit No. 5, just west of the street car power house.

Speaking of the locomotives yesterday, a Negaunee engineer said that if they were exhibited at the World's Fair they would surely compare favorably with many of the relics in the transportation department. He further said that he had never seen similar locomotives.

Upper Peninsula

Big Crop of Potatoes—
A crop of 8,000 bushels of potatoes has been harvested at the farm of the Newberry insane asylum. The tubers were grown on a tract of forty acres, the yield averaging 200 bushels to the acre.

Gas Works Going In—
The work of laying the mains for the new gas plant at the Soo is in progress. It is expected to have the plant in operation early during next summer and the work will be rushed as fast as practicable.

Declines the Nomination—
Ex-Judge Flanagan, who was nominated for judge of probate by the Dickinson county Democracy, has declined the nomination. He has written Chairman McLaughlin to that effect. The vacancy thus created will be filled.

Delta County's Equalization—
The valuation of the taxable property in Delta county has been equalized at \$9,619,734. This is a reduction of \$56,814 compared with a year ago. Escanaba city is down at \$4,161,639 and Gladstone at \$738,301.

County Salaries Fixed—
The Ontonagon board of supervisors has fixed the salaries of the county officials as follows: Judge of probate, \$1,000; sheriff, \$1,000; clerk, \$1,200; treasurer, \$1,500; prosecuting attorney, \$1,200; county school commissioner (including expenses), \$650; county game warden, \$900.

Little Sickness Now—
For probably the first time in its history the Delta County hospital at Escanaba has not a single medical patient under its roof. There are a number of patients but they are all in the surgical class. The doctors report that there is little sickness in Escanaba now, in striking contrast to the conditions prevailing a few months ago.

Encountered a Game Warden—
Joe Marsh, a hunter living near Munising, shot two raccoons the other day. He was bringing home his game when he encountered Deputy Game Warden Beulah, who informed him that raccoons are protected by law. Marsh was off with the two light line of \$5 when arraigned before a local justice, his violation of the law having been unintentional.

His Brain Affected—
John Gary, who has been acting as deputy sheriff at Iron, Mackinac county, has been taken to the Newberry asylum. He is suffering from an injury to the brain, how received is not known but attributed to a fall or a blow over the head sustained three weeks ago. The unfortunate man's mind is a blank and his power of walking is practically gone. It is feared he cannot recover.

Printing House Failed—
The equipment of presses and type of the Finnish Printing and Publishing company of Ironwood will be sold by the mortgagee, the American Type Foundry company today, to satisfy claims against the concern. The venture proved disastrous to the local promoters and supporters of the company, not one of whom it is stated will get back a dollar of the money they put into the enterprise.

Agricultural Society—
Following a preliminary meeting held for the purpose of laying the project of organizing the Dickinson County Agricultural association, a partial canvass has been made to secure the names of those interested in the welfare of the county and who are willing to contribute a dollar toward forming the society. Many men have been seen, and from the success met with there seems little doubt that at least a thousand subscribers will be secured.

Vaudiville Theater Opens—
Benjamin Salinsky, a well-known local business man, has opened a vaudiville theater at Escanaba. The building has three floors. On the street level there will be a saloon and a restaurant, both large and airy. On the second floor will be a penny arcade, with a variety and multiplicity of picture machines, and on the top floor is the theater itself, a pretty little auditorium with plenty of light both at night and in the day time, and well heated. All the departments of the enterprise have not been opened, the entire work of rebuilding not yet being completed, but as engagements with vaudiville performers had been made it was decided to open the theater at once.

Wholesale Theft of Trout—
State Game and Fish Warden Chapman is pursuing an investigation of wholesale stealing of trout that has been going on at the government park near the locks have been stolen. Evidence received by the game warden department seemed to connect several of the Indian pilots who have been wont to shoot the rapids with tourists for the past few days. Several of these men were brought before the authorities and while in the sweat box admitted taking the fish. But the most startling phase of the situation is that the Indians claim they sold the trout to some of the leading people of the city, men who are high in business and professional circles. In the eyes of the law the purchasers of the trout are as guilty as the men who stole the fish, and the game warden is hot after them. It is the intention of the department to handle the matter without fear or favor. In case sufficient evidence to

BURROWS MAY NOT COME.

Senator Burrows, who is making a tour of the upper peninsula, and will speak in Ishpeming tomorrow, will visit Negaunee after that. He sent word yesterday that there is sickness in his family, and if favorable reports are not heard from home the latter part of the week he will be unable to cancel his date. Should the senator's engagement be cancelled the Republicans of this city will be very much disappointed, as they have planned to make Burrows' meeting the banner rally of the campaign. A large delegation will go to Ishpeming tonight. Special cars will leave here at 7:30.

LIKES ARIZONA.

Ernest Dodge, who recently returned from Bisbee, Arizona, where he had charge of underground work for the Houghton Development company, will join his parents in the copper country, they having departed for there yesterday to remain permanently. Mr. Dodge was one of the youngest mining captains in the Negaunee mines from the time he was a mere boy and has had an excellent training in mining and timbering. He spent two years at Bisbee, and liked the place. He intends to return either to Arizona or Mexico.

MILLIONAIRES POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrid example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they give themselves a standard medicine like Greene's August Flower, which has been a favorite household remedy for fifty years. August Flower restores the torpid liver, thus creating appetite and insuring perfect indigestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Try a bottle, 25c; regular size, 75c. Stafford Drug Co.

LOCAL LACONICS.

Sam McCall is down from the Mesaba range, on a visit to relatives.

Frank Anderson, the iron street saloon man, has been dangerously ill the past few days.

Thomas Trathen, nominee for register of deeds on the Democratic ticket, spent yesterday at Republic.

The street commissioner is spreading gravel on iron street, where filling is necessary, also removing the cedar block crosswalks.

Captain Harry Whitburn and family vacated G. L. Kuhlman's cottage Monday and departed that evening for Hibbing, Minn., their future home.

C. B. Burt, who travels in Colorado and other western states, for a brief moment, is expected home today or tomorrow on a visit to his family.

Yesterday was the warmest day of the fall season. The temperature was fifty-six above zero at 6:30 a. m. A number of Negaunee people spent the day either driving or in the woods.

John Stewart, who has been at Oshkosh the past few weeks, is visiting his son, John, who has been ill lately, returning that the young man is getting along nicely and that he will soon be around again.

The carpenters are making good progress with Captain E. Tom's new building on Mill street. The siding is now nearly all on and most of the other exterior work, except the building of the veranda, has been completed.

Max Marks, who came up from Arizona a few weeks ago to attend the Levine-Grabower wedding at Marquette, was in Negaunee Monday. He will spend the next few weeks in Milwaukee, Chicago, St. Louis and New York, meeting his niece in the latter city upon her arrival from abroad. Mr. Marks has had charge of prospecting work in Arizona.

CORNELL-LEWIS NUPTIALS.

The Chicago Chronicle of yesterday morning had this concerning the Cornell-Lewis wedding:

Yesterday brought the wedding of Miss Ethel Sterling Cornell, daughter of Mrs. A. Sterling Cornell, 317 Park avenue, to Frank Edwin Lewis, son of Mr. and Mrs. J. C. Lewis. The ceremony was performed at 6:30 o'clock in the Church of the Epiphany, Ashland boulevard and West Adams street, by Rev. John Henry Hopkins, Miss Katherine Matland of Negaunee, Mich., was the bride's only attendant. She wore a gown of pink chiffon and carried an arm bouquet of chrysanthemums. The bride's gown was of ivory-colored mesh silk, trimmed in old duchess lace. Instead of flowers she carried a white prayer book and a lace handkerchief that her mother used at her wedding. Frederick Bell Coey was the groom's best man and the ushers were Thornton Lewis of Cincinnati, Joseph Dixon Lewis and George Ely Van Hagen. The bride was given in marriage by her uncle, Alexander Matland. There was no reception after the ceremony, but a dinner was given in the Stratford hotel for the bridal party and immediate relatives. Mr. and Mrs. Lewis left for Newport News and from there will go by steamer to New York, returning by Washington, with a short visit in Cincinnati.

DOING THE RIGHT THING.

The trouble begins with tickling in the throat and a nagging little cough. Soreness in the chest follows and the patient wonders if he is going to have an all winter cold. Probably, if he does the wrong thing or nothing. Certainly not if he uses Perry Davis' Painkiller, the staunch old remedy that cures a cold in twenty-four hours. There is but one Painkiller, Perry Davis'.

SOME SEASONABLE ADVICE.

It may be a piece of superfluous advice to urge people at this season of the year to take a supply Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by the Peoples' Drug Store.

WORLD'S FAIR, ST. LOUIS.

Special low rates for round trip tickets are on sale every day via the Chicago & North Western railway. Choice of routes. The St. Louis fair is one of the greatest exhibitions ever held. No one should miss seeing it. For full information address ticket agent D. S. S. & A. Railway or E. E. Webb, general agent, Houghton, Mich. (10-12 to 11-30)

RHEUMATISM JOINTS AND MUSCLES SWOLLEN AND STIFF

A disease so painful and far-reaching in its effects upon the human system as Rheumatism, must have a deep and well-laid foundation. It originates and develops in the blood, and, like other diseases of the blood, is frequently inherited. The poisonous acids with which the blood is charged circulate through the system, breaking down the health, irritating

the nerves, settling in joints and muscles, and causing the sharp, cutting pains peculiar to Rheumatism. Unless the blood is purified, joints and muscles become coated with the acid matter and are rendered stiff and sore, and the nerves completely wrecked.

COLUMBUS, O., May 30, 1903.

I had a severe attack of inflammatory Rheumatism. I was laid up in bed for six months, and the doctors I had did me no good. They changed medicine every week, and nothing they prescribed seemed to help me. Finally I left off their medicine and began the use of S. S. S. My knees and bow joints were so swollen and painful that I could not close them when creased. I was getting discouraged when I began S. S. S., but as I saw it was helping me, continued, and to-day am sound, well man.

1355 Mt. Vernon Ave. R. H. CHAPMAN.

SSS

only temporary relief. S. S. S. is the recognized great-est of all blood purifiers and tonics, and in no disease does it act so promptly and beneficially as Rheumatism, neutralizing the acids and invigorating the blood to a pure, healthy condition and restoring the system, toning up the nerves and all parts of the system. It is guaranteed strictly vegetable. Write us should you desire medical advice, which will cost you nothing.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

convict is secured prosecutions will follow, regardless of who the guilty persons may be. Albert Krull, who was convicted a few days ago, was the first culprit to be discovered. The investigation uncovered other dark work and the further the authorities probe into the matter the bigger it gets. It also develops that many fish have been stolen from the ponds at the hatchery of late, and it is probable that some of them have also been sold about the city. Naturally the work of the hatchery will be retarded to a considerable extent by this wholesale stealing, as the fish taken on have been among the finest specimens in the state.

Dr. Weaver's Treatment.

Houghton 14.50
Marquette 14.15

Proportionately low rates from all intermediate stations in Michigan.

MERCHANTS' ASS'N WORK TO THIS DATE

SECRETARY JOSLIN REPORTS ON WHAT HAS BEEN ACCOMPLISHED SINCE REORGANIZING.

CREDIT SYSTEM ACCENTED

Membership Is Laying Particular Stress on It—Organization Has Taken Up Many Matters of Importance.

At a meeting of the Marquette Merchants' association Monday evening Secretary Joslin presented the following report on the association's operations since the date of its reorganization.

"In the month of April there were sixty-five paying members in the association; in May, sixty-eight; in June, seventy-two; in July, seventy-seven; in August, seventy-eight; and in September, seventy-eight.

"The credit system, which has been the strong point of the association, has been maintained with great care and due regard to the various elements which go to make up a person's financial credit.

"Since the re-organization of the association a great many matters of various natures have been taken up and disposed of. The Fourth of July celebration, which was undertaken by the association under great difficulties, is still fresh in the minds, if not in the ears, of our citizens.

"The efforts of the association to bring new industries to the city, to assist in the development of the surrounding farming country, and to maintain the industries which are already located here, are familiar to the members who have attended the various meetings.

"In the matter of the prices charged for the various commodities sold by our members, much complaint has been made, and much work done. In the clothing line no complaints have been registered with the secretary.

"Concerning Provision Dealers. The greatest complaint has naturally fallen on the provision dealers, and the association has endeavored to exercise a considerable influence in this direction, but has met with various obstacles, not from the local dealers, but from rising markets in various foodstuffs all over the country.

"The growth of the surrounding farming country and the efforts of the association to influence the establishment of a creamery, canning factory, flour mill and various other enterprises for the manufacture of foodstuffs, I believe will gradually make the city self-supporting.

"It is to be hoped that our citizens will unite with the association in making conditions such that the local dealers can enter into fair competition with any outside dealer, no matter where located. The efforts to establish a market place in the city for the neighboring farmers, it is hoped, will soon meet with success. The matter of bettering the tenement conditions of the city by atomized apartments has been discussed in our meetings at various times, and it is hoped that some public-spirited citizen will soon take the lead in this direction.

"Since the re-organization of the association, similar organizations have been perfected all through the Lake Superior country, some of which the secretary has visited in person. I wish spe-

cially to note the favor conferred upon us by the Retail Merchants' association of Negaunee in contributing to our credit reports.

"In the matter of the enforcement of the ordinances of the city, and in suggesting new reforms along this line, the secretary wishes to report that he has received much assistance from the city attorney and the police department. The pure food commissioners have likewise materially assisted our association in demonstrating to our citizens that all that glitters is not gold. While the local dealers are compelled to live strictly up to the pure food laws, the outside dealers can ship in almost what they choose, unless the local purchaser complains to the pure food commissioner."

RE-ADVERTISING FOR BIDS.

First Proposals for Purchase of Old Court House Were Too Low.

The special committee empowered by the board of supervisors to dispose of the old court house is re-advertising for bids, the first proposals for its purchase naming sums which the members considered too low.

LOOK FOR GOOD RALLY.

W. W. Wedemeyer Expected to Have Large Audience Thursday. Marquette Republicans expect that W. W. Wedemeyer of Ann Arbor will be greeted by a large audience at the open house Thursday evening, when he will discuss the issues of the present campaign.

HIGH SCHOOL TEAM QUILTS.

Game With Escanaba Will Be Forfeited to Sandy City Eleven.

The high school football team has disbanded for the season, and will forfeit its association game with Escanaba, which it was scheduled to play Saturday afternoon. The team had no particular success in its two games of the season, at the Soo and with Calumet here last Saturday, dropping both by one-sided scores.

"The dropping of the game here will not affect the association play particularly. Escanaba will be without a game Saturday, but otherwise the play will go on just as if Marquette had participated in the competition. Saturday there are to be three games, and a week later the winners will be matched. Then the two teams that are victorious in these games will play for the championship.

"Espingon, Escanaba and Hancock are considered the most likely aspirants for that honor, and it is also reported that Menominee has a good team. The first match eleven is reported to be displaying excellent form.

"The Northern Normal team expects to get a few games later in the season, and is practicing when the members can get together. It is handicapped by the lack of men to play against, the team members including about all the young men attending the Normal. It was hoped to get some practice games with the high school, but now that the school is closed, it is impossible. The Normal management has not any games scheduled just now, but is ready to arrange to meet a few teams.

UPBOUND BOATS.

Names of Craft Passing Canals Enroute to Lake Superior Ports. Sault Ste. Marie, Mich., Oct. 18.—Bermdia, 10:30 last night; Leafblad, 12:30; Bensen, Bryn Mawr, 12:30 a. m.; Matteloa, 1:30; E. A. Shores, Kingfisher, Knapp, 5:30; England, Wyoming, 6; Bossmer, Steinbrenner, 9; Fitch, Maitland, 11; Mahoning, 11:30; Warner, Thompson, noon; Caperton, 12:30; Alford, 1:30; Sophia Mineh, Tilden, North Wind, 1 p. m.; Maggie Duncan, 1:30; Houghton, Carrington, 2; Squire, 4:30; H. W. Smith, 5; Sheriffs, Mowatt, 6.

DANCING CLASS.

Prof. Murtaugh's dancing classes will be in the A. O. U. W. hall, beginning on the 29th inst. Applications for members to classes and all particulars, apply to Prof. Murtaugh at 216 West Ridge street, or phone 559. (10-19-a)

Use Gold Medal flour, because it is the best. Sold by all grocers. (10-14)

Would you buy gold dollars for fifty cents? You would, of course. But you would not get nearly so much profit out of the transaction as you would if you should buy wheat, corn or copper stocks at present prices. J. W. Spear, No. 8 Harlow block, Marquette. (10-11-1w)

City Brevities

Today's weather: Showers and cooler. Yesterday's temperature: Seven a. m., 55 degrees; noon, 60; 7 p. m., 54. Maximum, 64 degrees; minimum, 54.

Paul Greer came down yesterday from the Ferguson camps in the western end of the county.

There will be a meeting of the G. I. A. to the B. L. E. this afternoon at 2:30 o'clock in the A. O. U. W. hall.

The sixteenth annual ball of Superior tent, K. O. T. M., will be held Wednesday evening, Nov. 23, at Fraternity Hall.

The Woman's Home Missionary society of the Methodist church will meet in the church parlors at 2:30 o'clock this afternoon.

The steamer Blanchard and consort, the Kelly, cleared from the Dead River mill dock yesterday for Detroit with a combined cargo of 1,700,000 feet of lumber.

The Epworth league of the Swedish M. E. church will hold a festival this evening at the church, corner of Ridge and Third streets. An entertainment has been arranged.

The registration in the several wards yesterday was as follows: First, twelve; Second, twenty; Third, thirteen; Fourth, twenty-three; Fifth, twenty-five; Sixth, twenty-four; Seventh, twenty; Eighth, nine; total, 146.

The members of the Negaunee Business Men's association will be entertained here Friday evening by the Marquette Merchants' association. A good delegation of the Negaunee members is expected down. A luncheon will be served.

One carrier clearing from the South Shore docks yesterday were the Stephenson, Mariska and Marcia, all for Comman. The Choctaw took out a cargo from the L. S. & L. dock and the Pioneer, Chattanooga, Pontiac and Kalyuga arrived.

Edward P. Burch, the light and power commission's expert, is here from Minneapolis, to supervise the installation of the new generator for the commission. Preliminary work is already progressing at the station, and it is likely that the machine will be ready to go into operation some time next week.

The boards of registration sat yesterday, but they did not have a great deal to do. In no ward was the number of registrations very large, and for the most part the members found time hanging heavily on their hands. The boards will sit again today, and all voters not properly registered are warned not to put off the formality longer, otherwise they will not have a voice in the election Nov. 8.

The football team of the Eighth grade of the Fly school will try conclusions with the second High school eleven on the gridiron at the old fair grounds after school hours this afternoon. The contest, it is declared by the Fly youngsters, is for the "junior championship" of the city, the Eighth graders having already vanquished the "third High school" aggregation. Last Saturday the Fly boys defeated the Peeries Juniors of Ishpeming.

Considerable interest is being manifested among football fans in the forthcoming game between Michigan and Wisconsin, to be played at Madison on the 29th. If a sufficient number from this part of the upper peninsula decided that they wanted to see the game, it would doubtless be possible to secure a very reasonable rate from the railroads, and it is not unlikely that a party will be formed to take the trip. The game promises to be one of the most important of the season in the west.

There is much complaint here because the county officers are not provided with Bell phones, as well as the County instruments. There is one Bell phone on the main floor of the building, but it is in the corridor and it is difficult to get any of the officers by its use. They have the County phones in their offices. In Marquette the Bell phones are more generally used, and so the present arrangement is a continual source of vexation and annoyance. There has been some talk of taking the matter up to see if something cannot be done to make the phone service more satisfactory.

You cannot get rid of yellow skin, pimples, lusterless eyes, bad breath with paint and powder. Hollister's Rocky Mountain Tea, cures from within. Thirty-five cents, Tea or Tablets. The Stafford Drug Co.

Dancing school at A. O. U. W. hall. Term begins Oct. 29th. (10-19-22)

STORM SASH.

Let us measure your windows and quote you prices for storm sash. Compare our prices with others and order early. Both phones. Bell No. 41, Marquette County No. 66. F. W. READ & CO.

CLIFTON HOUSE.

Renovated and improved throughout. Best table service. Buffet in connection with house. Most convenient and best place to get your Sunday dinner. Boarders taken at reasonable rates. (10-14-f)

BADGERS WON ALL THREE.

Last evening's howling match between the "Badgers" and "Colts," rolled at the Bowsher alleys, resulted in a victory for the former team, the "Colts" losing all three games. The scores were:

Table with 3 columns: Name, Score 1, Score 2. Rows include Rodgers, Anderson, Simmons, Brunner, Wheeler, Bowsher, Totals, Colts, Phelps, Stewart, Stafford, Maney, Allen.

Meals at all hours, 109 Baraga avenue, Mrs. Love. (10-19-1w)

Gold Medal flour goes further, makes more and better bread than any other flour. Sold by all grocers. (10-14)

We have some broken lots in boys' fleeced-lined and all wool underwear selling out very cheap. Johnson Clothing Co. (10-14-f)

D. T. Hurley has a carload of fine winter apples; also a carload of onions, at very low prices. Come early; they are going fast; at Third street crossing. (10-18-1w)

Buy five shares Adventure, Mass or Victoria for \$20 and double your money. Office open evenings at 7 o'clock. Come and have a smoke and talk copper stocks. J. W. Spear, Harlow block. (10-14-1w)

An Unsatisfactory Reflection. It is to feel that you have spent the best part of your life without laying aside anything for your old age. Ask yourself if you are doing right by either yourself or family to fail to provide for yourself when you are no longer able to do so. Every man should save from his weekly salary, and put something aside in a savings bank for his old age, and it will surprise you how quick it will mount up by compound interest. 3 per cent. interest paid on Savings Accounts. UNITED STATES DEPOSITORY. First National Bank. Of Marquette, Mich. Capital and Surplus, \$200,000.

Cloak Opening! TO THE LADIES OF MARQUETTE: You are respectfully invited to call at our Store on Wednesday, Oct. 19th, and inspect a line of Cloaks, Jackets, etc., which Mr. J. C Ford, representing the Beifeld Co., will be prepared to show you. The Beifeld Garments are to the Cloak trade what Plant's Queen Quality Shoes are in the Shoe line--known the Country over for quality and style--and we have them both. WATSON & PALMER.

WE CARRY A FULL LINE OF... Blank Books, Typewriter Papers and Supplies, LEGAL BLANKS, Ink and other Office Supplies. Mail orders receive prompt attention. BIGELOW & CO., Stationers and Booksellers, FRONT ST., MARQUETTE.

CHARLTON & KUENZLI ARCHITECTS Marquette, Michigan. Milwaukee Wisconsin. It's a Fact. You can buy Groceries cheaper of me than at most other stores. For instance: First-class coffee from 15 cents to 35 cents per pound. And everything else in proportion. A. Kangas. Op. City Hall, Washington St. Both Phones.

Superb Showing...OF NEW... Children's Coats. A few of the many excellent opportunities to be found in our complete Cloak Department: CHILDREN'S COATS Zibeline, Kerseys, Miltons, etc., in all colors and sizes, from 4 to 14 years--nowhere such variety from \$3.50 to \$10.00. Striking Specials in Ladies' Coats A superb showing of Ladies' Tourist, in all the new fall styles, in all fabrics and effects, the positively best styles and greatest values, from \$10.00 to \$25.00. NEW SKIRTS Decidedly the handsomest line in new Fall Dress Skirts and Walking Skirts, in all the latest shapes. \$5.00 to \$10.00. FURS We are showing a choice and handsome line of Fur Coats, Scarfs and Muffs. Prices are sure to interest you. Come to us for whatever you want in Dry Goods, Carpets, Millinery and Shoes. Louis Grabower. 10-18-17

WALTER FITCH, President. F. W. READ, Vice President. CAPITAL, \$100,000. SURPLUS, 12,000. The Marquette National Bank. DIRECTORS: JOHN M. LONGYEAP, WILLIAM G. MATHER, WALTER FITCH, F. W. READ, E. M. TOWAR, DAN H. BALL, F. H. BEGOLE, D. W. POWELL, F. J. JENNISON. 3% Interest allowed on Savings deposits at three per cent. per annum compounding semi-annually. Letters of credit and foreign exchange issued available in all parts of the world. 3% INSURANCE DEPARTMENT. 25 Strong Board Fire Insurance companies represented. Employers and Physicians' liability policies a specialty. Boiler, Plate Glass and Accident Insurance. Let us quote you our rates.

Northern State Normal School, MARQUETTE, MICHIGAN. The Northern Normal admits graduates of approved high schools to the two years course leading to a life certificate and diploma. It offers courses leading to a three year certificate, which is renewable for three years and valid in graded schools, and also a rural school certificate. It has Excellent facilities for training teachers for special work in kindergarden, music, drawing and nature study. It has an exceptionally fine corps of teachers who are specialists in their departments, and its training school gives a splendid opportunity for the training of teachers. There is an excellent dormitory in connection with the school which is an ideal home for students. The building is lighted with electricity, and heated with steam; the living rooms are large, well lighted, and pleasant; and the dining room has a seating capacity of one hundred fifty persons. The expenses are moderate. Students of the Northern Normal School who finish the Life Certificate course are given fifty-six hours credit at the University of Michigan. For information and catalogue write to JAMES HAMILTON KAYE, Principal. LOUISE I. HOLMES, Secretary.
