## GREAT COMBAT COMES TO AN END

### Battle of the Shakhe River Passes Into History as a Russian Defeat.

## FIGHTING HALTS FOR THE TIME BEING

### Heavy Rains and Impassable Roads Compel a Suspension of Operations, With the Japanese Within Ten Miles of Mukden, and on Each Side Advantage Is Being Taken of the Opportunity to Make New Dispositions of Forces Preparatory to Another Struggle for the Mastery--Is the Popular Impression at Tokio That Affairs at Port Arthur Are Reaching a Crisis and That the Fall of the Fortress Is Only a Question of Days.

London, Oct. 19.—There is nothing in today's news from the front to indicate, as rumored at St. Petersburg last night, that General Kurapatkin has resumed his forward movement after being so disastrously forced back, or that the "left flank" or any other force of Japanese has been cut off.

In comparison with recent days, today has been one of comparative quiet. It is the more than artillery exchanges taking place, although during the night of Tuesday several vigorous assaults were made against the Japanese center, all being repulsed. The condition of the roads, which are described as well nigh impassable because of heavy rains, largely accounts for the pause in the fighting. The concentration of Japanese west of the railroad, as reported to St. Petersburg in official dispatches, is, however, deemed of much significance and to portend probable important events.

### Tokio Reports Attacks Repulsed.

London, Oct. 19.—A dispatch to the Japanese legation from Tokio today says:

"Field Marshal Oyama reports that on Tuesday the enemy seemed gradually decreasing his force in the direction of the right (Kuroki's) army, only small detachments continuing the activity. The enemy beaten at Fenshin is retreating northwards."  
"In the direction of the central army (commanded by General Nodzu) the enemy last night made assaults, but all were repulsed and today there have been only occasional exchanges of cannon."  
"In the front of the left (Oku's) army the enemy is occasionally firing."

With General Oku's (Left) Army at the Front, Oct. 17, via Fusan, Oct. 19.—The Japanese advance is ten miles south of Mukden.

The Russians have built heavy defenses two miles south of the Hun river, where they are expected to make a stand.

The Japanese report the battle to have been the most severe yet fought on the plains.

Maps captured by the Japanese show that the Russians had arranged for a series of retreats, and these maps indicated where stands were to be made. This accounts for the slowness of the advance of the Japanese and their failure to cut off the Russian retreat, which was conducted with great skill. Ravines and gullies met with by the Japanese obstructed the advance.

Cavalry on the left crossed the Hun river and prevented a Russian flanking movement.

### From Russian Sources.

Mukden, Oct. 19.—Yesterday (Tuesday) passed off quietly. No firing was heard last night.

The Japanese appear to be slowly falling back. A glance seen above their encampments may indicate that they are burning their stores prior to withdrawal.

This morning broke chilly, but clear, and as soon as the roads are drier a resumption of the battle is probable. The Russians everywhere being in close touch with the Japanese.

St. Petersburg, Oct. 19.—General Sakharoff telegraphs that at noon today Japanese were concentrating at Linsulin west of the railroad.

The general also reports that a detachment of Russian cavalry, reconnoitering last night in the vicinity of Shakhe, captured two Japanese guns, with no losses to themselves. With the exception of this exploit, last night passed quietly.

General Sakharoff adds that the Russian left flank has advanced slightly.

St. Petersburg, Oct. 19.—The emperor received the following from General Kurapatkin, under date of Tuesday:

"During the night of Monday the Japanese attacked our advanced positions at Lone Tree hill, but were repulsed. No report has been received of any other engagements. Everything was quiet at all of our positions up to 10 o'clock this (Tuesday) morning. Rain fell all night and the roads are greatly damaged."

### New Lining Up for New Battle.

St. Petersburg, Thursday, Oct. 20.—For the moment, heavy rains and impassable roads have compelled a suspension of operations in Manchuria. There was practically no fighting yesterday, and none whatever last night.

There is evidence of a new disposition of forces on both sides. General Kurapatkin is extending his right, whether with a view to a turning movement for the safety of Lone Tree hill, or whether to meet and thwart a Japanese turning movement from the west, has not yet developed. The Japanese also appear to

be shifting their weight to the westward.

Veiled hints continue to arrive that the Russians have recovered from the blow inflicted last week by Oyama, and that Kurapatkin is preparing to renew the struggle as soon as the roads dry.

Two Associated Press dispatches from Mukden tonight mention reports that the Japanese already are preparing to retreat, and the war office admits that Kurapatkin's left has again moved slightly forward; but there is no light upon the movements of the Japanese. Practically the last stage of the battle has ended, and the conflict goes into history as a Russian defeat. When the operations are resumed, a new battle will begin.

The reappearance of Viceroy Alexieff at Mukden today for a conference is not particularly reassuring, as such conferences in the past have not been fruitful of success.

### Muscovite Battalion Annihilated.

London, Thursday, Oct. 20.—According to the Standard's correspondent with General Kuroki, writing under date of Oct. 18, Russian battalion which crossed the Tsing river has been almost annihilated. While retiring over a pontoon bridge, the correspondent says, the battalion was overtaken by a regiment of Japanese cavalry which got its machine guns into position and swept the bridge from end to end.

Special dispatches from St. Petersburg make mention of a crushing defeat of two Japanese divisions. However, there is no confirmation in any reliable quarter of such report.

### Tokio, Oct. 19.—There is a popular impression here that affairs at Port Arthur are reaching a crisis. It is believed the end is only a question of days.

### Japanese Diet Summoned.

Tokio, Thursday, Oct. 20.—An imperial ordinance has been issued, convening the diet Nov. 28.

### AID FOR EACH BELLIGERENT.

German Red Cross to Send Further Assistance to the Seat of War.

Berlin, Oct. 19.—As the result of a visit here of a delegate of the Russian Red Cross central committee, the German Red Cross society has decided to send further assistance to the seat of war and will erect a German hospital at Irkutsk, Siberia, and provide it with an auxiliary ambulance train. Negotiations are in progress regarding a similar offer to Japan.

The German central committee, in a circular on the subject, expresses the opinion that in view of the sanguinary character of the war being waged and the fearful obstinacy displayed, action on a large scale by neutral Red Cross societies, with the object of relieving the greatly overtaxed ambulance services of the belligerents, will appeal to the worldwide feelings of humanity.

### CALLS FOR ARBITRATION.

Christian Church Convention, at St. Louis, Protests Against the War.

St. Louis, Oct. 19.—The Christian church convention today adopted resolutions protesting against the continuance of the war in the Far East, and urging upon "our government the great

importance of taking such steps as will bring about peaceful arbitration by which all international differences may be settled without resort to arms."

### JAPAN MAKES PROTEST.

Russians Charged With Making Use of Chinese Costumes.

Tokio, Oct. 19.—The Japanese government today decided to draw Russia's attention to the unlawful action of Russian troops in using Chinese costumes. The notice will be served through the American state department, which will transmit it through the American embassy at St. Petersburg.

The memorandum issued by the foreign office says that on Oct. 4 a body of infantry wearing Chinese costumes and belonging to the Russian Third regiment of sharpshooters attacked Japanese forces on the Mukden road and that Russians similarly clad approached the Japanese lines at other points and attempted surprises. Different reports received, it is charged, indicate that the Russians are purchasing enormous quantities of Chinese costumes.

The memorandum points out that combatants not properly uniformed are liable to punishment as offenders against the laws of war, and that participation in fighting without uniforms is a violation of international usage, an unlawful act and contrary to the meaning of article twenty-three of the supplementary rules of the convention governing the laws and customs of war on land.

It is pointed out further that this action of the Russians will prove a source of great calamity to innocent Chinese, who will thereby be exposed to danger owing to Japanese inability from distances to distinguish Russian soldiers from real Chinese.

### BALTIC SHIPS TO DIVIDE.

Part Going by Way of Suez, the Others via the Cape of Good Hope.

St. Petersburg, Oct. 19.—The Baltic fleet will divide, part going by way of the Suez canal and the remainder by way of the Cape of Good Hope. It is believed the voyage to the Far East will be made in ninety days.

Korsor, Island of Zealand, Oct. 19.—The Russian Baltic fleet consisting of fifteen battleships and cruisers, seven torpedo boats and four colliers, has traversed the Great Belt, going northward.

Falkenberg, Denmark, Oct. 19.—The remainder of the Baltic Russian fleet sailed this morning for the north.

Berlin, Oct. 19.—Confirmation of the St. Petersburg statement that part of the Russian Baltic fleet will follow the Cape of Good Hope route is contained in a dispatch from Kiel which says that the Hamburg-American line has contracted to coal the battleship squadron, which, it is added, will go by way of the Cape of Good Hope.

The business men of Kiel complain at the outcry regarding Germany's alleged breach of neutrality, which they say prevented the fleet from visiting Kiel, as intended, and thus deprived the merchants of that port of the opportunity to supply the Russian ships with coal and provisions, which business now falls into French hands. French firms have been entrusted with coaling the Russian cruisers and torpedo boats, which will traverse the Mediterranean.

Warnemunde, Mecklenburg-Schwerin, Oct. 19.—The mail steamers Kaiser Wilhelm and Koenig Christian, recently sold to an Odessa firm, have been re-christened and have sailed for Russia.

### EMPEROR WILLIAM PRESENT.

Funeral of King George of Saxony Is Held at Dresden.

Dresden, Oct. 19.—With cannon booming and with volleys of musketry outside, and with Emperor William, King Frederick August, Archduke Franz Ferdinand and other royal persons, courtiers and dignitaries standing about, the catafalque bearing the remains of the late King George of Saxony was tonight lowered into the vault of the Catholic court church. When the red velvet covered casket beneath the black blachin was no longer visible, a choir composed of church and opera singers burst forth with the "Salve Regina."

At 8 o'clock this evening the royal party entered the church, the new king walking between Emperor William and Archduke Franz Ferdinand, behind whom came the Grand Dukes of Mecklenburg-Schwerin, Mecklenburg-Strelitz and Saxe-Weimar, Princes Albert of Prussia and Ludwig of Bavaria, the hereditary Grand Duke of Baden and many others.

After the singing of the "Miserere," Bishop Watschulsky consecrated the remains according to the ritual of the Roman Catholic church after which the "Profundis" was sung. The court preacher, Dr. Kummer, spoke feelingly of the late King George's heroism in suffering, which, he said, more than doubled the laurels won in war by this soldier-king.

### TAFT GOING TO PANAMA.

Secretary of War Delegated to Adjust Matters With the New Republic.

Washington, Oct. 19.—The president has instructed Secretary of War Taft to proceed, at an early date, to Panama to confer with the president of that republic with a view of adjusting the differences that have arisen between the two countries. Secretary Taft is instructed to assure the president of Panama that it is not the purpose of the United States to take advantage of rights conferred on it by treaty to interfere with the welfare and prosperity of the state of Panama. The secretary will probably leave for Panama about Nov. 24.

### ACCUSES WIFE OF VICTIM.

Missourian Confessing Murder Says Deed Was Prompted by Woman.

Fayette, Mo., Oct. 19.—Edgar McKenzie confessed today that he had shot John Smithers, a farmer, on the latter's place near here and declared he had been influenced by Smithers' wife to commit the deed. Smithers was shot several days ago and died today, when McKenzie was arrested. McKenzie says he shot Smithers from behind as the latter was working in a field.

### GUARD FOR WARSHIPS.

Detail of Marines Sent to the Cramp Company's Shipyard.

Philadelphia, Oct. 19.—A detail of marines was sent to the Cramp shipyard today to guard the battleships and cruisers now on the ways.

### WOULD WILL OFF DEGENERATES.

Illinois Medical Man Startles the National Prison Congress.

Quincy, Ill., Oct. 19.—At today's session of the National Prison congress an animated discussion was caused by Dr. Henry Hatch, of this city, advocating the infliction of death upon degenerates as a means of preventing the spread of degeneracy. Dr. Hatch advocated homicide or the right to let a diseased person take his own life when he is found to be incurable. He said he also would have the state dispose of the permanently insane and incurable by putting such persons to an easy death.

Dr. Ransom of New York declared that reforms were started to save human life, not to destroy it. If the system advocated by Dr. Hatch was carried out, the question would be to decide who would be the first victim. "I do not believe," he said, "we had better take into our hands the functions of the Almighty."

### ANOTHER ARMY MADE AVAILABLE

SIGNIFICANT EVIDENCE CZAR HAS COME TO AN UNDERSTANDING WITH THE KAISER.

### CONCERNS WESTERN FRONTIER

TROOPS IN POLAND NOW TO GO TO THE FRONT.

Number 600,000 All Told and the Mobilization of Many of Them, Preparatory to Active Service, Has Already Been Started.

St. Petersburg, Thursday, Oct. 20.—A movement of troops on the Russian western frontier and preparations to further reduce the garrisons in this region revive the talk of a complete understanding with Germany, under which the frontier will be protected so as to permit of the despatch to Manchuria of many of the troops stationed in Poland. There are about 600,000 soldiers in Poland, comprising some of the best troops in the empire.

It is already known that practically all of the three corps in the Vilna government will be included in General Gripenberg's army, but as these troops are included in what is known as Russia's third line of defense, the fact has not attracted much attention. It now develops that the rifle brigade at Ploek, in the government of Tschernovozh, directly on the frontier, is mobilizing.

In the best informed diplomatic circles it is believed that nothing in the shape of a treaty between Russia and Germany has been committed to writing, but that there is simply a mutual personal understanding between the two sovereigns covering this point and, some believe, going much further. So far as the present war is concerned, there is no evidence that the supposed agreement covers active aid, as such agreement would render operative the Anglo-Japanese alliance. It is thought, however, in diplomatic quarters, that there is something in the nature of a pledge on the part of the emperor of Germany concerning Russia's western frontier.

It is now recalled as significant of the deep personal friendship of the two emperors that when Emperor William was about to undergo an operation last year he commended his eldest son to the hands of Emperor Nicholas. This fact was mentioned at the time in the Official Messenger but did not attract as much attention as it is now receiving.

### CHILDREN'S HOME DESTROYED.

Two Lives Lost in an Early Morning Fire at Shelbyville, Ills.

Shelbyville, Ills., Oct. 19.—The Midwestern Children's Home was destroyed by fire today. Although the flames were discovered while the children were asleep, all but two were rescued. There were thirty-one children sleeping in the upper rooms of the house, which was a three-story frame and brick building. It is believed the two children burned were overcome by smoke while in their beds, as they had evidently made no effort to escape.

Three Perish in Nebraska.  
Huntington, Neb., Oct. 19.—The two infant children of F. W. Barnhardt, together with Bertha Felber, the servant, were burned to death as a result of Miss Felber throwing kerosene in the stove, causing an explosion, at the Barnhardt home last night.

NEGRO KILLS WHITE.  
Quarrel on a North Dakota Farm Ends in Murder.

Portal, N. D., Oct. 19.—James Gousby, a negro, shot and killed Walter Gates, white, today on a farm fifteen miles from this place. The men quarreled and Gates struck Gousby with a shovel. The negro secured a rifle from the farm house and shot Gates, who died almost instantly. The colored man escaped but was later captured and was brought to jail here.

REPORTED DISASTER DISCREDITED.  
Officers of the Cunard Line Not Advised of Steamer's Loss at Sea.

London, Oct. 19.—At the offices here of the Cunard Steamship company, today, a rumor published in America to the effect that the steamer Slavonia had been lost in a storm off the Spanish coast, was entirely discredited. The Slavonia passed Gibraltar Oct. 11 and is due in New York the 22nd.

BOODLER GETS NO RELIEF.  
Lansing, Mich., Oct. 19.—The supreme court yesterday affirmed the conviction of ex-Alderman Jacob E. Ellen of Grand Rapids, Mich., found guilty of bribery in the Lake Michigan water deal. The court holds that the water contract was a matter that could be brought before him in his official capacity.

GREAT CROWDS HEAR FAIRBANKS

INDIANA SENATOR ADDRESSES TWO BIG MASS MEETINGS IN GREATER NEW YORK.

UPHOLDS PRESENT POLICIES

WARNS THAT THEIR OVERTHROW WOULD MEAN DISASTER.

Shaw, Higgins and Root Also Speak, the Latter in Criticism of Judge Parker's Mis-statements Concerning the Philippines.

New York, Oct. 19.—A Republican mass meeting held at the Clarendon rink in Brooklyn, tonight, was addressed by Senator Fairbanks, Secretary Shaw and J. F. Griffiths of Indianapolis. George H. Roberts presided and introduced Senator Fairbanks as the first speaker.

During his speech Senator Fairbanks said: "We have never had a Democratic administration under which the people have prospered so fully as under the administration of President Roosevelt," and he asked, "Is it part of national wisdom to overthrow a successful administration and invite into power one pledged to carry out unwise opposing policies?"

Second Big Rally Held. Following the Brooklyn rally, Senator Fairbanks, together with Lieutenant Governor Frank W. Higgins, Republican candidate for governor of New York, addressed a Republican mass meeting in Madison Square Garden.

Large delegations of the graduates of the United States Military Academy and the United States Naval Academy were present and took part in the parade which preceded the meeting. Several delegations from other cities, including the Pittsburgh Marching club of Pittsburgh, attended.

Opening the meeting, Secretary Root spoke chiefly of national issues. He criticized Judge Parker's recent speech concerning the Philippines. He expressed the opinion that the Democratic nominee has been elected "without any anti-imperialist who led him to overstate the cost of the American occupation in the Philippines by some four hundred and fifty million dollars."

The speaker suggested that Judge Parker read the statutes enacted for the Philippines, and said that if he did so he would find "a body of law, which, for wisdom, for due regard to the interests of any people for whom they are enacted, and for constructive ability, challenge comparison with the statutes of any state of the American union."

Senator Fairbanks said, in part: "Commercial growth is not the mere result of chance; industrial development is not the fruit of accident. Our progress is due to an adherence to rational policies which do not change with changing seasons."

"There is no political party success so important as the triumph of sound national policies. Capital must be assured that it may safely plan for the future. It must feel satisfied that the basis upon which it calculates will not be undermined or disturbed by irrational or temporary policies. The Republican party has, during its entire career, stood for those policies which have been enduring. It has stood for the best thought with respect to economic and financial policies, knowing full well that the highest and best interests of later and capital are to be promoted by rigid adherence to the soundest policies."

The senator said that the policies for which the Republican party stands have been tried for years and have been vindicated by experience. In his discussion of the tariff, he said: "The Republican party has always been ready to revise the tariff whenever revision has been essential in the public interest. It is not in favor of revision for the mere sake of a change. It is not in favor of revision along free trade lines. Whenever it becomes evident that revision is needed in the public interest, the Republican party is willing and able to make such revision."

THOUSAND NAMES SECURED. Populist Electoral Ticket to Be Placed in the Field in Wisconsin.

Milwaukee, Oct. 19.—The 1,000 names necessary to place the Populist electoral ticket in the field in Wisconsin have been secured and the ticket will be filed with the secretary of state tomorrow.

BLACK VOTE ELIMINATED. Poll Tax in Louisiana Cuts Negro Registration on to Less.

New Orleans, La., Oct. 19.—The poll tax provision has served to reduce the negro registration in Louisiana, from 131,000 to 147,773.

131,000 to 147,773. This in short means that the black vote has been eliminated from state politics and that the chance of Republicans ever obtaining a foothold in Louisiana has disappeared.

PRAISES AMERICAN POLICY. Methodist Bishop Approves of What Has Been Done in the Philippines.

Washington, Oct. 19.—Bishop H. W. Warren, of the Methodist Episcopal church, having returned recently from India and the Philippines, called on President Roosevelt today to express his approval of the American policy in the islands. In his talk with the president, he particularly referred to what had been done in the direction of securing peace and assisting the inhabitants in various ways. The president expressed pleasure that the bishop could bring such a report from personal observation.

PREDICTS DEMOCRATIC VICTORY. Nominee Davis Confident West Virginia Will Go for Parker.

Wayne, W. Va., Oct. 19.—Henry G. Davis ended his whirlwind campaign through West Virginia at Wayne tonight with a speech in which he expressed confidence in the state going Democratic.

General Miles' Opinion. New York, Oct. 19.—General Nelson A. Miles called on Judge Parker today, and said that it is possible he is being done for Judge Parker, and when the voters go into the booths, in the presence of their God alone, they will vote the Democratic ticket.

ORATORY FLOWS IN INDIANA. Bryan, Hill, Stone and Tom Watson Speak in the Hoosier State.

Evansville, Ind., Oct. 19.—William Jennings Bryan addressed a very large and enthusiastic meeting here tonight. Campaign issues were discussed generally, with special emphasis upon the Philippine problem and the alleged militarism.

South Bend, Ind., Oct. 19.—David B. Hill delivered a political address tonight to a large and enthusiastic assemblage. During the day he was the guest of Notre Dame University, where he delivered an address to the students.

Bluffton, Ind., Oct. 19.—Senator William J. Stone of Missouri delivered an address before a mass meeting of Democrats here tonight. He discussed the course of the campaign in such manner as to arouse the enthusiasm of his hearers.

Vincennes, Ind., Oct. 19.—Thomas E. Watson, Populist nominee for president, spoke here tonight to a large crowd.

Eckles Speaks for Tariff Reform. New York, Oct. 19.—A "tariff reform" mass meeting was held in Cooper Union tonight. James H. Eckles, former principal of Princeton and the currency was the principal speaker.

SEES NO HOPE FOR PARKER. New York Herald Democratic, Concedes Roosevelt's Election.

New York, Oct. 19.—President Roosevelt's election is conceded by the Herald (Dem.) in a double headed editorial, in the course of which it says: "In three weeks the people will have to decide who will be their choice, Mr. Roosevelt or Judge Parker."

"To speak frankly, there does not appear to be room for much uncertainty as to the probable decision. It seems almost a foregone conclusion that Mr. Roosevelt will be elected, not perhaps, because the people have confidence in him and in his conception of the presidential functions, but because the country is ripe for a change and the necessity for a change is not very pressing."

"Such questions do not concern practical politics; they are of interest only to debating societies and the question of home rule for the Philippines has only a theoretical importance."

Even Judge Parker would not argue that the general levels of intelligence and education or the standards of industry and enterprise are as high in the Philippine islands as they are in the United States. It would be more practical, therefore, and more beneficial to the people, to demand a good American government for the Philippines than to indulge in oratory about their right to autonomy and independence.

"One is tempted to ask whether Mr. Roosevelt's election may not prove a blessing in disguise. The president may regard his victory as an encouragement, to flourish the 'big stick' more energetically than ever. This, sooner or later, will involve the United States in foreign complications and thus surely open the eyes of the American people to the dangers of imperialism in a republic. Thus his election may turn out to be blessing in disguise for the cause of constitutionalism."

BRYAN'S CHEERFUL VIEW. Thinks Silver Men Will Line Up for Parker With Possibility of Electing Him.

Indianapolis, Ind., Oct. 19.—In a written statement, William Jennings Bryan declares there is a possibility of Democratic victory. The statement reads: "Insofar as one can form an opinion from a hurried trip, gathering impressions from the actions of the crowds and from the reports of reception committees, I should say that the chances of Democratic success are not so bright, but improving. From what I have heard there was considerable soreness just after the St. Louis convention among what are called silver Democrats, but I am satisfied that the soreness has constantly decreased and that there will practically be no silver disaffection when election day arrives. Democrats who did not secure at St. Louis all they wanted in the platform or their choice as nominee, may have felt some resentment, and the Republicans, of course, attempted to stir up discontent by citing the action of gold Democrats eight years ago. But the words that have elapsed since the convention have enabled these disappointed Democrats to take a more rational view of the situation. They see that they cannot hasten any reform in which they are interested by aiding in the election of Roosevelt. They see that every criticism that can be made of Judge Parker can be made of

President Roosevelt, and they also see that upon the issues most important at present Judge Parker represents what the party was fighting for four years ago, and in accordance to this they recognize that Mr. Roosevelt has brought in new issues which the Democratic party must oppose. From talking with Democrats along the line I am sure they are rapidly coming to an enthusiastic support of the ticket, and if I can contribute toward this I shall feel that I have done my party good and my country good."

HIS COMPANION JAILED. Michigan Boy, Accidentally Shot, Left to Die in the Woods.

Loomis, Mich., Oct. 19.—A sixteen-year-old boy has been arrested in connection with the death of Arthur Burwash, aged eight. The dead boy lay in the woods for ten hours with his left leg almost entirely shot off below the hip. His two companions had shot him accidentally, it is alleged, and then, becoming terrified, carried the wounded boy to a swamp and after covering him with leaves, abandoned him to his fate. Clyde Harvey, aged twelve, alleged he was threatened with death if he reported the accident. The boy who is alleged to have done the shooting went about his customary duties until compelled to accompany a searching party into the woods. He denied all knowledge of the missing lad's whereabouts until the party reached a spot where the groans of the dying lad could be heard.

WILL FIGHT IN LONDON. Young Corbett Matched With English Lightweight Champion.

New York, Oct. 19.—As a result of long negotiations Young Corbett and Jabez White, the English lightweight, have been matched. They have agreed to battle in London about the first of the year for a purse and a large side bet. The fighters will meet at 130 pounds and Charley White will be the referee. Charley Mitchell, former English heavyweight champion, acted for Jabez White and will back him heavily. In London the affair can be conducted without interference, and this was the point which caused the matchmakers to decide upon England as the battle ground. It is not known how what of the fight will have on the proposed fight with "Batting" Nelson, or whether it will take place before or after the trip to England.

FAILS TO EQUAL HIS RECORD. 2:01 the Best Time Alert Can Do on the Memphis Track.

Memphis, Oct. 19.—The Dividend stake for 2:14 trotters and the Magnolia stake for 2:24 trotters were decided today. Bonnie Russell winning the former in straight heats, while Lizoner had no trouble in annexing first money in the latter in straight heats. Both were the favorites.

Prince Alert, with Curry in the sulky, attempted to lower his own pacing record of 1:59 1/2. Accompanied by a runner, the horse negotiated the mile in 2:01 flat.

Lou Dillon has recovered from the "thumps." She was taken out of her stall today and jogged slowly around the track. A summary of today's races follows:

Dividend stake, 2:20 trot, \$2,000. (Five starters): Bonnie Russell 1 1/2, Lizoner 1 1/2, Clarence S. 1 1/2, Magnolia stake, 2:14 trot, \$2,000. (Six starters): Lizoner 1 1/2, Angola 1 1/2, Lulu 1 1/2, 2:07 pace, \$1,000. (Six starters). Unfinished: Sphinx S. 6 1/2, King Direct 2 1/2, Belle Me 1 1/2, 2:05 pace to wagon, amateur drivers, unfinished. (Three starters): Angus Pointer 2 1/2, Baron Granton 1 1/2, Morning Star 1 1/2, Best time, 2:04 1/2.

Prince Alert to beat 1:59 1/2, pacing—Time by quarters: 30, 1:00, 1:29 1/2, 2:01.

HARVARD DEFEATS YALE. For the Seventh Time Wins the Intercollegiate Golf Championship.

Hamilton, Mass., Oct. 19.—Harvard won the intercollegiate golf championship for the seventh time today, defeating Yale in the final round by the score of 13 to 7.

WAR VETERANS' REUNION. New York, Oct. 19.—The twenty-sixth annual meeting of the Fifth anniversary of the New York state veteran volunteers was held here tonight in celebration of the anniversary of the battle of Cedar Creek, Va. There are more than 600 survivors on the roll, residing in thirty-two states.

RIGHT TO GIVE BEER AWAY. Lansing, Mich., Oct. 19.—The supreme court yesterday reversed the conviction of Calvin Bird, charged with giving liquor to a minor, ruling that only a druggist or saloonkeeper could be tried for this offense. Bird gave a young girl, guest some beer out of mere hospitality.

FEDERAL EXHIBIT AT PORTLAND. St. Louis, Oct. 19.—At a meeting today of the United States government board of the Lewis and Clark expedition it was decided to ship 60 per cent of the government exhibits to the Lewis and Clark exposition at Portland, Oregon.

NEW SUPERVISING INSPECTOR. Washington, Oct. 19.—The president today appointed Ira Harris, supervising inspector of the steamboat inspection service of the district of New York, in place of Robert S. Rolfe, removed.

TODAY'S WEATHER. Washington, Oct. 19.—The following is the weather bureau's forecast for Upper Michigan: Clearing and colder Thursday; Friday, fair; brisk northwest winds.

OBITUARY MENTION. Washington, Oct. 19.—General George D. Bangles, for several years manager of the Soldiers' home in this city, died here tonight.

London, Ont., Oct. 19.—The Right Rev. M. C. Baldwin, bishop of Huron, is dead, aged sixty-eight.

J. C. Hanson, Rhineland—Hollister's Rocky Mountain Tea is the greatest tonic I have ever used. Gained 55 pounds in ninety days. Tea or Tablets, 35 cents. The Stafford Drug Co.

CONGREGATIONALISTS TAKE ACTION After Years of Effort to That End.

Des Moines, Ia., Oct. 19.—Closely union and federation with the Methodist Protestant and United Brethren churches was tonight voted by the national Congregational council. This consummates the labors of twenty years in Congregational ranks for such an end, and the council was jubilant at the final result, adopting resolutions commending the ceaseless labor of William Hayes Ward. The council today adopted resolutions commending President Roosevelt for his action in declaring he would call an international peace conference, also resolutions opposing Chinese exclusion. The annual council will meet in Philadelphia.

Rev. Nehemiah Boynton, D. D., of Detroit, was today elected president of the Home Missionary society.

COMPROMISE PROPOSED. Divorce Issue the Order for Today in the Episcopal Convention.

Boston, Oct. 19.—An attempt was made today by the committee on canons of the Episcopal house of deputies to arrange a compromise between that body and the house of bishops. The bishops were to consent to a searching bidding the remarriage of divorced persons, while the deputies had declined to accept so rigid a provision, notwithstanding the fact that a majority of the house of bishops. The committee on canons offered a resolution compelling divorced persons seeking remarriage to wait one year after the decree of the court had been issued before the solemnization of the ceremony. By this resolution, which referred to the individual person to a divorce for infidelity only, it was hoped to procure at least a temporary agreement between the two bodies. After some debate, the divorce issue was made the special order for tomorrow.

The deputies devoted a large part of the day to the consideration of a request from several dioceses for permission to use the revised version of the Bible in the churches. When the house was divided, the request was refused by a majority of both the clerical and lay delegates.

In the house of bishops, Bishop Henry C. Potter of New York, chairman of the standing committee on relations of capital and labor, presented a lengthy report which touched upon certain evils the committee had found, and discussed the industrial situation at great length.

MOTORMAN MEETS AWFUL FATE. Fatally Injured in Wreck, His Body is Almost Consumed by Fire.

New York, Oct. 19.—Irving Lamphere, a motorman, was mortally injured and then burned to death in the midst of a thrilling electrical display on the Lamps here, which was taking an empty train consisting of seven cars at Ninety-eighth street. On a grade Lamphere evidently lost control of the train. It rushed down the siding at terrific speed and struck a high-voltage power line, which riding turned over, crushing him beneath it. Suddenly there was a blinding flash from the third rail. Sheets of flame shot upward fifty feet, and with great roar, the train was hurled down the street. In this blaze Lamphere was burned to death and his body was almost consumed.

NEW RULE ON CONSUMPTION. Life Insurance Companies Now Recognize It as Contagious.

New York, Oct. 19.—The big life insurance companies have made radical changes in their attitude toward consumption. Under the new blanks, the interrogations are confined to the parents, brothers and sisters, with the question added: "Is there any one in your household in which you live?" Apparently, this is the first practical recognition of the theory that consumption is contagious and not hereditary.

RAID HOME FOR EPILEPTICS. Chicago Authorities Close Institution Which is Called a Fraud.

Chicago, Ill., Oct. 19.—The office of a home for epileptics was raided by the police yesterday as a result of an investigation made by Secretary J. A. Egan of the state board of health, who notified Chief of Police O'Neill, charging that the home was a fraud. The twelve epileptics are said to collect from \$150 to \$200 a day.

CHAMPION EATER SUCCEUMS. Devours Eighty-Five Pounds of Raw Beef and Dies in Terrible Agony.

Dubuque, Ia., Oct. 19.—His stomach distended to three times its normal size after he had eaten eighty-five pounds of raw beef, Phil Melloy, who posed as the world's champion eater, died in terrible agony here.

FOOTBALL SCORES. Ann Arbor—University of Michigan, 72; American College of Medicine, Chicago, 0.

St. Louis—Washington University, 35; Deury College, 0.

Is it a burn? Use Dr. Thomas' Electric Oil. A cut? Use Dr. Thomas' Electric Oil. At your druggist.

STOCKS BREAK BADLY. Prices Give Way All Around Under a Deluge of Selling Orders.

New York, Oct. 19.—The reactionary tendency of stocks, which was under restraint yesterday, broke through that restraint today and took on precipitancy during the afternoon. The reaction has been long expected and needed no news to explain it, beyond the unwieldy proportions to which the long interest has extended and the consequent growth of the burden of realizing profits, which grows too heavy for the usual supporting tactics to sustain. Once the reaction was established, professional bears gained sufficient confidence to fall upon the market in the usual overwhelming fashion and this sharpened the fall with the result of uncovering stop-loss orders and wiping out narrow margins, thus shaking out weak holdings and bringing stocks on the market in a shower.

The absence of any considerable reactions through the long course of the present advance has been one of its principal features and has added to the suspicion of its artificial character. There was nothing in today's dealings to show that any effort was relaxed to sustain the market and to hold prices in the face of the selling to take profits. Erie, St. Paul, Southern Railway, Atchafalaya, Reading and Leather preferred were at different times cleared into various activities, and long strings of transactions in blocks of 1,000 to 7,000 shares were run through the market on a rising scale. Determined selling of United States Steel preferred was the first incident to cause uneasiness and was not checked by the good tenor of the news from the trade. The routine news of the day was generally favorable to values, and money continued easy.

The last prices were considerably above the lowest but a rally on short covering at the last was not held and the closing was irregular, as follows:

Table of stock prices including Erie, St. Paul, Southern Railway, Atchafalaya, Reading and Leather preferred, etc.

Chicago, Oct. 19.—The annual report of the Illinois Central shows the gross receipts from traffic to have been \$46,831,135, a net increase of \$12,005,453.

BOSTON COPPER QUOTATIONS. Closing prices at Boston yesterday were as follows, Paine, Webber & Co. reporting the quotations:

Table of copper quotations including Annual, Special, etc.

BOSTON STOCK SALES. The following were the transactions in copper stocks at the Boston exchange yesterday as furnished to The Mining Journal by Paine, Webber & Co.:

Table of Boston stock sales including Royal, Quincy, etc.

QUOTATIONS ON PORK. Chicago, Oct. 19.—The prices of October and January pork today ranged as follows:

Table of pork quotations including Open, High, Low, Close.

CHICAGO GRAIN MARKETS. Chicago, Oct. 19.—Today witnessed a better trade and a broader market in wheat, December closing with a gain of 1 1/2, while May showed an advance of 1 1/2. The start was stronger, influenced by wet weather at the Northwest and reported delayed threshing. The strong position of the cash article was also a factor, and the buying was of good character, while the early offerings were comparatively small. The Southwest was a buyer and local shorts covered on the advance. As the session advanced local and outside realizing became more general and many early buyers turned sellers. Further reports of damage by the Illinois dry in Missouri and Kansas were a bull factor. The four days from a bull market was bullish, December opened at 114 1/2 to 3/4; highest, 116 1/4; lowest, 113 1/2; closing, 115 1/2. May closed at 113 1/2.

The Sale of Two Bankrupt Stocks CONTINUES TODAY More salespeople have been added to our force, and we hope to have the doors open throughout the day. J. H. FOSTER.

ROYAL FADS. The rulers of Europe at present are not so much engrossed in ruling that they have no time to indulge with the rest of the world in "fads." King Carlos of Portugal is said to be especially fond of the camera, and spends a considerable part of his royal leisure in taking "snapshots" of things. King Emmanuel of Italy has a particular fancy for automobiles, a liking shared also, it may be added, by President Loubet of France, the Shah of Persia and Prince Ferdinand of Bulgaria. The Queen of Roumania is a great collector of rare books, as well as being a poet herself. The Prince of Monaco is an expert in deep sea life and phenomena, and Queen Wilhelmina of Holland boasts the finest collection of old lace in Europe. But most curious of all perhaps is the specialty of the venerable King of Denmark, the collection of birds' eggs. His present collection is said to be worth \$75,000, and it may in time go to some museum.—Leslie's Weekly.

WHAT IS A BABY? A London paper offered a prize for the best definition of a baby. The last one of the following took the prize: "The bachelor's horror, the mother's treasure and the despotic tyrant of the most republican household."

MARRIED MEN LIVE LONGER. Mortality among bachelors from the age of thirty to forty-five is 27 per cent, while among married men of the same age it is 18 per cent.

THE DIFFERENCE IS STILL MORE STRIKING in persons of advanced age. At sixty years of age there remain but twenty-eight bachelors for forty-eight married men.

WHY A HFN CAN LEARN. When a boy I had a fat, lively hen so educated that at my bidding she would lie on her back and slide head first down an inclined plane two or three feet in length without the slightest effort to turn upright or stop herself; and at the bottom she would remain just as she landed until I touched her of, spoke to her—unless interfered with by some other person or animal. Incredible as this may seem, it is a trick easily taught any gentle, affectionate hen.—L. R. Morpheus in Forest and Stream.

SOME GARTER SUPERSTITIONS. The marriage of a bride who wears any but white garters on her wedding day will have an unhappy ending.

THE GIRL WHO WEARS HOT GARTERS below the knee will early lose her beauty.

TO PUT ON THE LEFT GARTER before the right on dressing in the morning will bring bad luck all day.

GOLD GARTER buckles are lucky and silver ones the reverse.

THE LUCKIEST colors for garters are white, blue and black. The wearer of yellow garters will lose a friend within a year.

IF A GARTER breaks in church the wearer's marriage will be happy, at a dance it is a sign that the wearer's sweetheart is faithless to her.

HAVE YOU GOT THEM? Do you feel anxious and preoccupied when the gas man goes by?

DO YOU GO TO BED HUNGRY? Does your heart palpitate when you see a steak?

DO YOU HAVE NIGHTMARES? Do you do mental arithmetic every time you contemplate the purchase of "coffee-and's"?

DO YOU WALK DOWN DARK ALLEYS when you go down town?

BEWARE! Those are the symptoms. You're busted.—San Francisco Bulletin. (7-5-1)

CONKLIN'S BUSINESS record of thirty-four years is an open page. We do not know of a dissatisfied customer. He has placed hundreds of pianos in Marquette homes. His personal guarantee is back of each and every instrument. (7-5-1)

**DEJARDINS' PHARMACY,**  
 417 N. Third St.

**THOMAS A. EDISON, the inventor, in mapping out the problems of the future, gives first place to the necessity of fighting the bacteria which give us diseases.** Next to the actual bacteria of disease, the mosquitos and flies are the most dangerous enemies of man. The mosquito with its bite injects into our veins malaria, yellow fever, and other fatal troubles. The fly, with spongy feet, collects the invisible germs of diseases, spreads them over our food and poisons us with typhoid, cholera and other plagues of the human race.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in these germs of disease." Every healthy man has five million red blood corpuscles to every square millimeter of blood. The best tonic for increasing the red blood corpuscles and building up healthy tissue is no doubt Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over a third of a century and numbers its cures by the thousand.

Many popular patent medicines and tonics are made up largely of alcohol and will shrink the corpuscles of the blood and make them weaker for resistance. What is needed as an alternative extract, like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking from the food such elements as are required for the blood, also an extract that will assist the activity of the liver and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street-cars, the shops, the factories, the bedrooms, wherever many people congregate, or where sunlight and good air do not penetrate.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs. Protracted constipation means headache, heart-burn, sour stomach, foul taste in the mouth, biliousness, pimples, and palpitation of the heart. Constipation is promptly cured by Dr. Pierce's Pleasant Pellets. Use for mild cases, otherwise two.

**WANTED, FOR SALE OR RENT**

**SPECTACLES LOST**—Some one has by mistake or accident taken my glasses from my shop. I would be greatly obliged if the party will return them to me at 214 North Third street, J. G. Koepff. (10-20-14)

 Both 'Phones. Marquette, Mich.

**WILL DISCARD STEAM POWER.**

Electric Locomotives Ready for New York Central Railway.

The sovereignty of the steam engine, which made the great railroads of the world possible, will suffer eclipse in the near future, when the electric locomotive begins hauling through passenger and freight trains out of this city. That will be soon. The first of the New York Central railroad's huge and speedy electric locomotives is completed and in final trial operation at Schenectady. Others are nearing completion.

The number of trains now passing in and out of the Grand Central station is between 600 and 700 a day. More than 300 steam locomotives are required to handle this enormous traffic. All these are soon to be replaced with electric power.

Coincident with this notable advance of electricity in supplanting steam, another movement in the same direction is still more significant. This is the choice by the New York Central Railway company of nearly 200 miles of electric railways and the proposed electrification of a considerable part of the West Shore railroad to unite this acquisition with Albany, to connect many cities and towns. This movement is in the central and western parts of the state. It contains a promise that an electric railway under one management will soon extend from Albany, to Buffalo, if not from New York to Chicago.

The conversion of a large section of the West Shore railroad into a third-rail electric road—through its 100 miles—raises the question of the future of the entire Vanderbilt trunk line, whether it will not on some unsuspected day blossom into a great electric line, uniting the eastern and western limits of the state.

A glance at the map of the electric lines in this state will show that regardless of this action by the steam railroad company in acquiring control of the electric lines, the longest road will soon be accomplished. Work began last month on the Buffalo, Rochester and Lockport Electric railroad, which will connect Rochester with Lockport, Buffalo and Niagara Falls, and the ninety-mile line connecting Rochester with Syracuse is also in process of construction.

Other significant facts may be gathered by an inspection of the state lines. Along the southern part of the state the short interurban lines intersected by the detached links of a broken chain, paralleling the Erie railway. From Albany and Troy, south along the Hudson, the trolley has begun its march in part of the longest electric line in the state—the Hudson Valley railway. This line extends north from Hudson to Warrensburg, a distance of 120 miles, and unites in its system a score of important towns, and so the work of electrifying the country towns, and then linking them all together, goes steadily on.

The New York Central's electric locomotives for express trains, of which the company will have from thirty to fifty under the present contract, are of 2,300 horse power, or 700 horse power stronger than the giant steam engine that draws the Empire State Express. They are to have a speed, drawing a heavy train of seventy-five to eighty miles an hour. They touch the top notch of electric locomotive construction in the world thus far, in their combination of power and speed. They have more than twice the drawing strength in part of times, and the speed capacity of the locomotives that handle the Baltimore and Ohio 100-train daily traffic in the city of Baltimore. Upon the successful operation of these electric locomotives will depend to some extent the rapidity with which electricity advances in its contest for the supremacy of the railroad.

The Central's plan, soon to be put in execution, is to connect its system with electricity from Croton on its main line, and White Plains, on its Harlem line, to the Grand Central station; to operate all suburban traffic by the third-rail system; and all through traffic by its electric locomotives.

When the Pennsylvania railroad completes its arrangements for its vast terminal facilities in this city the electric locomotive will draw its trains through the Hudson River tunnel.

On June 30, 1900, according to the United States census, there were 1,262 miles of electric railroads in operation in this country. Two years later this mileage had increased more than 1,000 per cent, or to 21,250 miles of electric trackage. This has now advanced to more than 32,000 miles—it was 29,212 on the first day of the present year. This is all exclusively of lines in operation, while several thousand miles are building or are definitely projected.

The "bite-line" is out, extending the "glad hand" of life, hope, and happiness, reaches around the globe. The Hollister's Rocky Mountain Tea, 35 cents. Tea or Tablets. The Stafford Drug Co.

Men's woolen underwear, 50 per cent cheaper than you can buy it of any other store. Johnson Clothing Co. (10-14-14)

**NOTICE OF SALE.**  
 Sealed proposals will be received by W. A. Ross, county clerk, for the purchase of the old Marquette (Bell) Court House up to 10 o'clock a. m., Oct. 25th, in separate bids, one bid for the iron now including the heating apparatus, piping, radiators, stairway and vault doors. And one bid for the building, including all masonry and storm doors. Or parties may bid for the whole as they choose. All to be removed and the premises left clean by Dec. 1st, next. Also one large office safe.  
 The committee reserve the right to reject any or all bids.  
 BY ORDER OF THE BUILDING COMMITTEE. (10-12-15)

**THE "PRINCES" IN WAR.**

Russian Battles Compared With Royal Heroes in the German Armies.

Bismarck throughout the Franco-Prussian war grumbled at "the Princes" who commanded under Prussian leadership. "The princes have taken all the comfortable lodgings," the princes drink up the fine wines," the caterers for the princes carry off the best joints from the butchers and the best vegetables and fruits from the green grocers," the princes are a cause of constant friction and embarrassment."

Prince Leopold of Hohenzollern's baggage as described in a French paper reminds me of Bismarck's groans. His Royal Highness, who is brother-in-law of the German Emperor, wanted to take to the Far East 300 calfs or trunks, bales mostly bulky and weighty.

Prince Khilkoff, Director of railways, is said to have turned pale on receiving a letter from Prince Leopold's secretary, in his embarrassment he applied to the czar for guidance, reminding respectfully His Majesty that Russian officers could only take a single box and a hand bag.

After an exchange of telegrams between St. Petersburg and Berlin, the Emperor William decided that his cousin could do with fifty boxes and bales. Members of the Imperial Japanese family are on the same footing as other officers and not up with buy one year's harvest of our corn and wheat. To buy one season's wheat crop would take all the gold mined in this country, in six years.

In the past three years, while our exports have averaged more than fourteen hundred million dollars, agriculture's share in this trade has been nearly nine hundred million dollars. More than one-third of our export trade has been in the two great crops—wheat and cotton.

Cotton is assuming a more and more important position in our foreign trade. Our Southern plantations, producing all but a fifth of the cotton of the world, have a monopoly of the trade.

What England would do and how her people would subsist if deprived suddenly of her American source of supplies, it is difficult to imagine. It is no secret in European politics that England normally has in store only a few weeks' supply of food, and at times the reserve would last only a few days.

Our home consumption of wheat for food is about five and a quarter bushels a year for each of our 81,000,000 inhabitants. This per capita consumption appears to be increasing. The high prices of meats are probably increasing the demand for bread.

During the past twenty years the milling industry has been revolutionized. The substitution of rolls for millstones in grinding wheat into flour wrought as wonderful a change in the milling industry as the paper did in agriculture. Five years before the introduction of rolls a great impetus was given to milling in the Northwest by the discovery that by the use of a purifier the best flour in the world can be ground from the despised spring wheat.

Because this country raises more wheat and more cotton and more than any other country in the world, it is to the eyes of the world are trusted. The price of bread in Europe depends in a great measure upon the amount of wheat we have to export. The price of beef in England hangs on our corn crop.

One hundred million bushels of grain are sent every year to the mills of Duluth and Minneapolis.

—Frank Fayant in October Success.

**HIGH THINKING AND OLD AGE.**  
 That mental power helps to keep the body strong and to preserve it from decay cannot be doubted. The longest-lived men and women have been, as a rule, those who have attained great mental and moral development. They have lived on a higher plane than other men of a serene upper region, above the jive, tumult and fret that weaken most lives. It was at the age of seventy-five that the Count de Tressan recomposed his old chivalric romances and wrote a history of the progress of the human mind. Herbert Spencer, one of the deepest thinkers and hardest thinkers and hardest workers of his day, has just passed away at the age of eighty-three. The intellect of Thomas Wentworth Higginson, who reached a score on Dec. 22, 1903, shows no signs of abating vigor. His publishers have recently announced a new work—William Matthews in Saturday Evening Post.

**FACTS ABOUT NEW YORK'S BIG SUBWAY.**

The subway will be formally opened Oct. 27.

The idea of an underground railroad for New York city was first broached officially in 1890, when Mayor Grant appointed a commission, headed by August Belmont, to suggest plans for rapid transit.

In 1892 the plan was reported on and abandoned, after an expenditure by the commission of \$136,000.

In 1897 the supreme court appointed another commission, headed by August Belmont, to suggest plans for rapid transit.

In 1899 the commission advertised for bids for building a subway route.

On Jan. 16, 1900, the contract was awarded to John B. McDonald for \$35,000,000. The time for completion of the road was fixed at one-half year.

On March 25, 1900, Mayor Van Wyck turned the first shovelful of earth, with a silver shovel, in front of the City Hall, marking the beginning of the work on the subway.

Since then work has been continuous, interrupted only by strikes. The completion of the road, therefore, comes only one month and two days later than the actual laying of the first stone on March 25, 1900, a wonderful achievement.

The New York subway is longer than the subways of Boston, Berlin, Paris and Budapest combined.

The main stretch of track, from City Hall to One Hundred and Fourth street, is 6.7 miles long and four-track all the way. There is a three-track system of 7.4 miles and a double-track system of 10.4 miles, making a total length of 24.5 miles. The entire track length is 70 miles.

Nineteen miles of the system are underground, 5.7 elevated.

The cost of construction has been \$35,000,000. The cost of equipment has been \$12,000,000, making a total of \$47,000,000.

The power-house for this enormous system is situated at the foot of Fifty-ninth street and the North River, and is the largest in the world. Its dimensions are 600x200 feet, and its engines will develop 132,000 horse-power.

The portion of the subway which will be opened to the public for traffic on Oct. 27 consists of the four-track route as far north as West Ninety-sixth street. The entire west side system runs to One Hundred and Forty-fifth street, so far, and will be opened very soon afterward.

Express trains to Harlem will run at the rate of fifty miles an hour, and cover the distance from City Hall to the river in fifteen minutes. Local trains will do the distance in thirty minutes.

The subway will accommodate nearly 1,000,000 passengers daily.—New York World.

**WILL EMPLOY 100 MEN.**  
Section 16 Mine at the Winthrop to Resume Operations Today.

After an illness of almost a year, the Section 16 mine at the Winthrop will resume operations today. One shift of 100 men will be put on at once and there is a prospect, with the iron market steadily improving, that the force will gradually be enlarged. The mine produces a non-lesser hematite and is one of the Steel corporation's Oliver Mining company group of properties. Considerable ore has been shipped from the stockpile this season.

**WITH THE BOWLING TEAMS.**  
Thompson and Watters Are at the Head of the Two-Men Team League.

Following is the standing of the teams competing in the two-men bowling league at Tontloo & Wane's alleys:

Thompson and Watters	29	10	744
Shudlok and Barbour	23	10	697
Krogdahl and Lokken	23	19	576
Ramsdell and Tontloo	23	19	576
Carney and Dyer	23	17	564
Schilling and Olson	22	19	549
Soderman and Watters	22	19	549
Lundquist and Orem	20	17	528
Wane and Eggan	18	21	462
Picotte and Zoberlein	24	11	458
Braastad and Francis	16	20	444
Trossig and Hall	12	21	364
Anderson and Egan	14	25	359
West and Quayle	12	27	305
Kinsman and Quayle	7	20	209

Following are the scores of games played Tuesday evening:

Braastad	175	157	171	168
Francis	120	159	157	145
Totals	295	316	328	313
Medlyn	136	133	126	132
Loekken	170	133	133	147
Totals	306	266	259	279
Krogdahl	129	164	110	124
Lokken	137	100	149	139
Totals	266	264	259	263
Carney	147	183	154	161
Dyer	157	108	166	144
Totals	304	291	320	305
Trossig	161	141	140	147
Holt	127	114	135	125
Totals	288	255	275	272

Al. Watters has the highest score this month, his mark being 224 pins.

**DENTIST LOCATES HERE.**  
Dr. M. D. McEae, who conducts a dental business in Escanaba in partnership with another family medicine, has opened an office in the Mortley block on Grand street. He has secured the two front rooms in the corner of the building. Additional windows have been put in the rooms, which have been neatly fitted up for the doctor. The office will be open for business early next week, perhaps Monday. Dr. McEae will give the Ishpeming business his personal attention, his partner remaining at Escanaba.

**THE PRESIDENTIAL FIGHT.**  
The political leaders of the country now actively engaged in a presidential contest, speeches are being made all over the country and both sides are presenting their strongest arguments in favor of their candidate. The strongest argument in favor of Roosevelt's stomach, liver and bowel complaints is the fact that for over fifty years it has never been known to fail. Many persons who have taken other remedies to cure have been restored to robust health in a short time by the use of the Bitters. Then there's no need for sickly people to be discouraged; just get a bottle of the Bitters from your druggist today, for it positively cures indigestion, heartburn, indigestion, dyspepsia, constipation, female complaints and malaria. Don't accept a substitute.

**ISHPEMING IN BRIEF.**  
Mitchell Belhumeur of Champion was in the city yesterday.  
John Anof and Miss Mae Poe will be married Saturday evening.  
William Peters is prepared to supply deer licenses to anyone desiring them. He received his blanks Monday.  
Andrew Anderson has resigned the management of the Ishpeming livery, in same to take effect Nov. 1.  
The Upper Peninsula Brewing company's block, corner Cleveland avenue and First street, is being painted.  
Rev. Frank Greene of St. Stephens church, Escanaba, will officiate at Grace church Sunday morning and evening.  
The ladies of Grace church promise their friends a treat this evening with the hot chicken pie supper which will be served at the Guild hall between 5:30 and 7 o'clock.  
Two more water leaks were discovered in the city mains yesterday. One is on Grand street, near the Jones block, and the other is on Cleveland avenue, near the Dundon block.  
Joe Collick, driver for Needham Bros., climbed a telephone pole on Fifth street yesterday and landed down a rascall that had come in from the woods. The animal made a fight, but when Joe got a grip on its neck it had no chance to get away. It is now in a cage at the steam laundry.  
Robert Tabl arrived in the city yesterday from Lansing, where he is employed in the tax commissioner's office. He will remain here three or four weeks, having been given his first vacation since he left Ishpeming. Mr. Crabl likes Lansing very much, and is pleased with his position.

**CHILD RUN OVER.**  
Margie Needham, seven-year-old daughter of Frank P. Needham of the Ishpeming Steam Laundry, was run over by one of Lether's delivery teams, yesterday on Ridge street, sustaining painful, but not serious injuries. The child was running across the street, just ahead of the team, when she tripped and fell in front of the horses. Neither animal stepped on the child, but it appears one of the wheels struck her. She was badly bruised on one side, from her head to her feet. No bones were fractured.

**WILL MOVE DEPOT.**  
South Shore workmen are preparing to move the company's passenger depot back some eight feet in order to allow greater platform space. A new platform will be built. The enlarged platform will be appreciated, as at times it is no easy matter to either board or get off trains. Sunday nights the platform is invariably crowded, principally by people who do not leave the city.

**NEVER ASK ADVICE.**  
When you have a cough or cold don't ask what is good for it and get some medicine with little or no merit and perhaps dangerous. Ask for Foley's Honey and Tar, the greatest throat and lung remedy, it cures coughs and colds quickly. Stafford Drug Co.

**THOUSANDS OF PEOPLE**  
are splitting their throats and are catching themselves to death, when a bottle of Gloria Lung Balm would stop the trouble at once. It is made of healing balm and the best for children. Sold by The Stafford Drug Co.

**Dr. Weaver's Treatment.**  
Syrup for the blood; Cerate for skin eruptions.

**WORLD'S FAIR, ST. LOUIS.**  
Special low rates for round trip tickets are on sale every day via the Chicago & Northwestern railway. Choice of routes. The St. Louis fair is held, the greatest exposition ever held. No one should miss seeing it. For full information address ticket agent D. S. S. & A. railway or C. E. Webb, general agent, Houghton, Mich. (10-12 to 11-30)

**Upper Peninsula**

**Dwelling Destroyed.**  
Fire originating from the kitchen stove destroyed the dwelling house of C. A. Johnson, on Garden avenue, at Manistique. Only a small portion of the household effects were saved.

**Gogebic Equalization.**  
The valuation of the taxable property in Gogebic county is \$10,000,000, according to the equalization of the assessment rolls. Ironwood is down at \$5,000,000, Bessemer at \$1,140,220 and Wakefield at \$1,010,000.

**Hunter Accidentally Killed.**  
Hubert LaCourt, a Menominee man, was killed near Nathan Monday while hunting. He was standing on a log at the time and it is thought the gun was discharged by the log rolling from under his feet. The charge of shot entered his breast and death resulted almost immediately.

**Will Sell Mining Drills.**  
Harry Soudy of Iron Mountain has accepted a position as traveling representative and salesman for the Rand drill company of New York. His territory will be in the Lake Superior district. For several years he has been an office man at the Chapin mine of the Oliver company.

**Prosecutors Get a Boost.**  
With the exception of that of the prosecuting attorney, the Schoolcraft county salaries will remain the same the existing year. The prosecutor was given an increase of \$200, bringing the amount up to \$1,200 per annum. The same action has been taken by the Delta county board of supervisors.

**Will Raise Livestock.**  
A concern known as the Wyoming Cattle company has purchased a section of land in Matchwood township of Ontonagon county and has commenced the erection of buildings. The company recently lost a horse in an unusual manner. The stock farm is situated about two miles out from the Matchwood post office. Mr. Kees, the manager, while riding horseback from the postoffice to the ranch heard a shot which was followed by a plunge by the horse. He dismounted and found that the bullet had pierced one of the legs of the animal, breaking the bone. He had to kill the animal to end its sufferings. It is not known who fired the shot, but it is supposed that it was somebody who was out hunting with a long range gun.

**Boys Shoot Little Girl.**  
Alolph Laramie, a lad about sixteen years of age, shot Viola Filtrahl, a ten-year-old school girl, while she was standing in the yard near the school house in district No. 4, Sugar Island. She was taken to the Sault Ste. Marie hospital, where she lies in a dangerous condition. Whether the shot was fired with intent to kill is not known. Laramie left home early in the morning with a shotgun with the intention of hunting partridges. During the forenoon he emerged from the bushes near the school house, and, raising his gun, fired at the girl, the shot taking effect in her breast. As soon as he saw what he had done he dropped the gun and rushed into the woods. He has not been seen since, but is supposed to be somewhere on the island. Mr. Filtrahl is of the opinion that the young man's mind is affected, as he had no cause to shoot the girl. It is alleged that the young man ran away from home recently and was caught by his father as he was about to leave the Soo on a boat.

**Alderman Forest Wins Out.**  
After a fight extending over two years over which has arisen more complications than any matter that has been before the city council in that time, a saloon is now in operation in the Forest building in the Fourth ward at the Soo. Mr. Forest commenced his campaign to have the district extended to the location in question soon after his election as alderman by the Republicans two years ago last spring. It was owing to the fact that a majority of his party would not consent to support his proposition that he decided to cast his lot with the opposition, and from that time on he worked with the Democrats in the council, having been reelected as a Democrat last spring despite a vigorous fight against him at the polls. After the organization of the new council, which consisted of three Republican and five Democratic aldermen and a Democratic mayor, Alderman Forest again began a campaign to get the liquor limit extended to take in his location. One or two Democrats hung out during the summer, but about two months ago he secured their unanimous consent for the passage of his ordinance, and it was adopted. This proved of no effect, as Mayor Lipsett exercised his veto power and refused to sign the measure. Then

**CLIMATIC CURES.**  
The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectation in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakened cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the great danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. Stafford Drug Co.

**DANGER IN FALL GOLDS.**  
Fall colds are liable to hang on all winter leaving the seeds of pneumonia, bronchitis or consumption. Foley's Honey and Tar cures quickly and prevents serious results. It is old and reliable, tried and tested, safe and sure, contains no opiates and will not constipate. Stafford Drug Co.

**CONFRONTS THE GRAVE.**  
Neglecting a cough means confronting the grave. Use Gloria Lung Balm before it is too late. It is the one remedy which brings quick relief. It is made of honey and tar and other healing balm, and is best for children. Sold by The Stafford Drug Co.

**LADIES'**

SNOWBOUND IN THE ALPS. Astronomer and Guide Held for Seven Days on Summit of Mont Blanc.

Albert Senouque, a prominent French astronomer, has just had a terrible experience in a thunderstorm on Mont Blanc, on the summit of which he was snowbound for seven days.

They had little fuel or food, but in the evening, after dining on a biscuit and a cup of chocolate, they went to bed, resting on the night.

It was impossible to sleep at all the second night and next day, as the storm had not diminished and the barometer continued to fall, the men remained in bed.

On the third night they fell asleep utterly exhausted, but woke to find themselves covered with snow.

They were in a little inner chamber, M. Senouque and his guide attempted, with frozen fingers, to light a fire, but they failed.

They were in a little inner chamber, M. Senouque and his guide attempted, with frozen fingers, to light a fire, but they failed.

They were in a little inner chamber, M. Senouque and his guide attempted, with frozen fingers, to light a fire, but they failed.

SOME GOOD STORIES.

While J. J. Roche was having a chat with President Roosevelt in the White House last week, the telephone bell was ringing somewhat persistently...

One of the stories told of the late Sir William Vernon Harcourt relates to a job at Tenby. The poet was one day reading him the lyrics for "The Princess" and when in "Tears, like tears" he came to the line...

Senator Winthrop Murray Crane of Massachusetts related this convention story to a couple of friends recently. The story was told to him by an acquaintance who was in St. Louis at the time of the Democratic national convention there.

"The incident in the story," said the story as it was told to me, went as follows: I will repeat it like this: "How did you get on at the meeting?"

"Yes, sir," "And you say 'Echo answers What'?" "That is what I said, sir."

"Then there's something mighty wrong with the acoustics of this building," said the man in the audience, as he sat down.

Says the Buffalo News: On his recent visit to Niagara Falls, in company with the Archbishop of Canterbury, the financial standing of J. Pierpont Morgan, owner of several railroads and a millionaire many times over, was questioned by a skeptical photographer...

"One dollar," replied the hopeful photo man. "Well, I wish you'd finish about forty."

"Forty?" gasped the photographer. Mr. Morgan said he understood rightly. "Just as they were about to ascend from the gorge Mr. Morgan spied a large group picture, perhaps two feet square, turning to the photographer he asked, 'How much for that?'"

"Five dollars," said the photographer. "Well, never mind the other," replied Mr. Morgan. "Finish forty of those larger ones."

"The photographer hesitated, and then stepped aside to Secretary Rankine of the power company at the falls. 'You'll stand good for these, won't you, Mr. Rankine?'" he asked.

"Yes," replied the power man with a smile. "I will, but I think perhaps that man's credit is all right. He's J. Pierpont Morgan!" The photographer seemed reassured.

Mrs. Porter went into philanthropy with the enthusiasm which characterized everything she did, says a writer in the Youth's Companion. "When I make my visits to poor people I take them just what I should like for a gift myself," she said to her sympathetic friend, "except, of course, you can't do quite as much for them as I."

Mrs. Porter stopped and appeared slightly embarrassed at her own process of reasoning, but the sympathetic friend stepped into the breach. "He's J. Pierpont Morgan!" she cooed, "and I've heard how perfectly sweet you have been in going to see that poor Sullivan girl, the one who has the trouble with her lungs."

"Yes," said Mrs. Porter, doubtfully. "But I don't really know as I shall go there much more, for I truly call them rather ungrateful. I took her over two big bunches of white grapes the other day, and when I asked her mother if she didn't think Jennie would be delighted, she just gave a kind of sigh and said: 'It's very kind of you, ma'am, and I guess she can eat 'em all right, but what she likes is something tasty, same as I do. Canned tomatoes or tinned herrings, or Saratoga chips'd be better than these, but probably you aren't used to sick folks.'"

FREE TO ALL MINISTERS. I will send one bottle of Warner's White Wine of Tar—the best cough remedy on earth—to all ministers who will recommend it to their friends after giving it a fair trial. Address, Dr. C. D. Warner, Coldwater, Mich.
