## BRITISH NOTE TO ST. PETERSBURG VIGOROUSLY WORDED

### Prompt and Adequate Reparation for the North Sea Outrage Urgently Demanded.

## POPULAR RESENTMENT IS AT FEVER HEAT

### Jingo Element Calls for War and Czar's Ambassador Is Attacked at a London Railway Station--Russian Officials Are Dumbfounded on Learning of the Bombardment and Express the Deepest Regret--Is No Question of Full Amends, Providing the Naval Commander Is in Fault, but as Yet the Admiral Has Not Been Heard From--Japanese in Manchuria Are Receiving Heavy Reinforcements and a Great Battle South of the Hun River Is Expected--Kuropatkin's Dead Now Put at 13,333.

London, Oct. 24.—There was a hostile demonstration at Victoria station on the arrival of Count Benckendorff, Russian ambassador to Great Britain, tonight. A crowd gathered and hooted him and attempted to break the windows of his carriage.

Victoria, B. C., Oct. 24.—It is learned from officials at Esquimault tonight that orders have been received directing the immediate concentration of the entire Pacific squadron at Esquimault. There is much activity at the naval station and imperial barracks.

St. John's, N. F., Oct. 24.—The British cruiser Charlybis received orders this evening to be in readiness to proceed to England on a moment's notice.

The training ship Calypso has been ordered to arrange for the mobilization of 500 men of the Newfoundland naval reserves.

There is much excitement in naval circles here.

London, Oct. 24.—The mayor of Hull telegraphed to Premier Balfour today that the greatest indignation prevails there and appeals to the government to take the speediest and strongest measures to ensure full redress and complete security against further Russian outrages.

Premier Balfour has telegraphed the mayor of Hull as follows: "You may have full confidence in the government's action." King Edward has sent the mayor of Hull \$1,000 as his donation for the families of the victims of the North sea firing. His majesty's message of sympathy to the mayor is as follows: "The king commands me to say that he has heard with profound sorrow of the unwarrantable action which has been committed against the North sea fishing fleet, and asks you to express the deepest sympathy of the queen and his majesty with the families of those who have suffered from this most lamentable occurrence. (Signed) King Edward."

Portsmouth, Eng., Oct. 24.—Vessels arriving at Portsmouth report having sighted four Russian torpedo boat detachments and four battleships making for Cherbourg. One battleship appeared to have broken down.

Cherbourg, France, Oct. 24.—The advance guard of the Russian second Pacific squadron, consisting of torpedo boats, is in the outer harbor. The main squadron is expected here.

The torpedo boats were not with the large ships when the latter fired on British fishing boats in the North sea. They are surrounded by guardboats, owing to fears of Japanese ships being in the channel. The commander of the flotilla says he does not know anything about the North sea incident.

Two divisions of the Russian squadron have been observed in mid-channel, steaming westward. It is expected they will coal at sea.

Later—Four Russian torpedo boats and a Russian transport sailed this evening. There is no longer any Russian vessel in this port.

The Bombardment Amazes Russia.

St. Petersburg, Oct. 24.—No official information from Vice Admiral Rojestvensky, commander of the second Pacific squadron, or from other Russian sources has reached the authorities up to this evening in regard to the firing by the squadron upon British fishing boats early Saturday in the North sea.

The authorities were dumbfounded by press reports of the affair and cannot credit the accounts as presented. For this reason the censor today declined to allow the publication of foreign accounts of the affair.

At the foreign office the sinking of the British fishing vessels was deplored. Instructions were sent this afternoon to the charge d'affaires in London to express to the British government the intense regret and grief with which the reports have been received.

The foreign office also decided to prepare a semi-official note expressing the regret of the government and its will-

ing to make full reparation as soon as the responsibility is fixed. This step will, it is hoped, mollify the government and public opinion in Great Britain and pave the way for an honorable diplomatic adjustment.

London, Tuesday, Oct. 25.—A strong force of police guarded the Russian embassy throughout the night.

After escaping from the hoodlums who had met him at the station, Count Benckendorff, the Russian ambassador, drove at a gallop to the embassy. Half a dozen rowdies followed him, but he arrived unharmed. His pursuers encountered a cordon of police that had been dispatched to guard the embassy. After singing "Rule Britannia," the disturbers dispersed, no arrests being made, but the police continued to guard the embassy, as if it is British property.

The ambassador tonight summoned his secretary, M. Mirsky, to write a long dispatch message to St. Petersburg, describing tonight's hostile demonstration. The ambassador would make no statement, but it is said his dispatch may increase the existing delicacy of the situation.

M. Mirsky made a statement in which he pronounced the attack on the trawlers a great mistake. He did not believe that either that incident or the mobbing of the ambassador is likely to produce a clash between the two powers.

St. Petersburg, Oct. 24.—Midnight—No official or unofficial Russian explanation of the unfortunate affair of the Dogger bank is forthcoming up to this time and the world must wait tomorrow to hear Vice Admiral Rojestvensky's version of the firing upon the British fishermen.

Admiral Rojestvensky has, it is understood, communicated direct to the emperor, but at 11:30 o'clock tonight the admiralty announced that the same hour the foreign office issued a statement expressing the regret of the government for the deplorable incident, but explaining that no formal action is possible until Admiral Rojestvensky's official report has been received.

While no formal action has been taken, the deepest regret is expressed in all quarters, and the purpose of the government to make amends is generally admitted. It is felt that Admiral Rojestvensky shall be found to have been in fault, has been proclaimed in every government department. Emperor Nicholas himself was greatly aggrieved when he heard the news, and he expressed his deepest personal regrets. The Russian embassy at London has also been directed to convey similar expressions to Great Britain. It is felt that this is all that can possibly be done, pending the receipt of Admiral Rojestvensky's statement.

That a horrible blunder has been committed is recognized and deplored everywhere, and nowhere has there been an attempt made to justify the firing upon the innocent fishermen. It is felt that Admiral Rojestvensky is, too good a man and officer to be summarily condemned. It is agreed that he is entitled to a hearing, but even the admiralty regretfully admits that it is at a loss to understand what explanation could justify such an apparently cold-blooded act as the firing is made to appear by foreign representatives.

The failure of the trawlers with their nets out to obey signals from the Russian warships or the nervousness of some officer who imagined that the fishermen, working with their nets in the water, were laying mines, may be responsible for the incident. As soon as the facts are established it is certain that the Russian government will voluntarily offer the fullest reparation.

In diplomatic circles the gravity and delicacy of the situation is recognized. Unquestionably, nervousness exists, but in view of the sentiment in government circles here the feeling prevails that an amicable adjustment will be reached. This evening the censor passed all telegrams relating to the subject, which immediately became the all-absorbing topic in every public resort. The war in the Far East, seemingly, was temporarily forgotten.

BOSTON BOXER THE WINNER.

Chicago, Oct. 24.—"Honey" Melody of Boston was given the decision tonight over "Jack" O'Keefe of Chicago at the end of ten rounds.

down and was the first information on the subject he had received from St. Petersburg.

The absence during the day of Count Benckendorff, Russian ambassador, necessarily caused some delay; but the Russian charge d'affaires, who called at the foreign office in response to a note from Lord Lansdowne, unofficially expressed deep regret and, as far as it was possible for him to go, gave assurance of speedy action by the Russian government. Lord Lansdowne in this interview told M. Sansonoff, the charge, that he desired to see Ambassador Benckendorff Tuesday morning.

Lord Lansdowne asked M. Sansonoff if he could offer an explanation of the affair, and the latter replied that he only knew what had appeared in the papers and that he had not received any word up to that time from St. Petersburg. Lord Lansdowne gave no suggestion as to what might be done in the matter.

At the Russian embassy it was stated that "the whole affair was so obviously a mistake, from whatever cause, that Russia's course was plainly dictated, namely, an apology and ample compensation."

All eyes are now turned toward St. Petersburg, awaiting word from the Russian government.

Calls Affair a Gigantic Blunder.

The Earl of Onslow, president of the board of agriculture, speaking at Stirlingshire tonight, said it would be well if explanations were not sought for this "extraordinary incident" until the country had some authentic information. The whole affair, he said, seemed so unaccountable that one could not help feeling sure there would be an explanation of what has been a gigantic blunder. He added that the country might rely upon one thing, namely, that the emperor of Russia, "who is known throughout the world for his feelings of humanity, could not fail to be depressed by such an incident."

The actual casualties during the one-sided bombardment of the Dogger bank can be correctly stated since the arrival at London this evening of the carrying ship Swift, reporting the safety of the fleet at 10 a. m., Oct. 23. Her captain says:

Guns Boomed Without Warning.

"The Russians gave not the slightest warning prior to the commencement of the firing. The admiral of the fishing fleet sent up a warning rocket, and then the firing commenced. He again sent up four green rockets, but this only seemed to increase the ferocity of the bombardment. The poor marksmanship of the Russian gunners was the only thing that saved the entire fleet within range of the searchlights of the guns."

At the inquest at Hull today it was stated that one vessel, the Crane, was sunk and that four or five were more or less damaged. In the statement of the coroner to the jury that official said it was a question of very grave and possible international importance. This question was, who were the murderers of the dead men? After the identification of the bodies the inquest was adjourned to Nov. 2.

Supply Ship Wantonly Disabled.

The steamship Esperanza, due to sail from Barry with provisions for the Russian Baltic fleet, was found today to be in a sinking condition, her hull having been pierced below the water line. The injury is not explained, but it must have been done today, and it is suggested locally that it was the wanton act of some man employed about the ship in resentment of the North sea incident.

FULL REPARATION LIKELY.

St. Petersburg but Awaiting the Naval Commander's Explanation.

St. Petersburg, Oct. 24.—Midnight—No official or unofficial Russian explanation of the unfortunate affair of the Dogger bank is forthcoming up to this time and the world must wait tomorrow to hear Vice Admiral Rojestvensky's version of the firing upon the British fishermen.

Admiral Rojestvensky has, it is understood, communicated direct to the emperor, but at 11:30 o'clock tonight the admiralty announced that the same hour the foreign office issued a statement expressing the regret of the government for the deplorable incident, but explaining that no formal action is possible until Admiral Rojestvensky's official report has been received.

While no formal action has been taken, the deepest regret is expressed in all quarters, and the purpose of the government to make amends is generally admitted. It is felt that Admiral Rojestvensky shall be found to have been in fault, has been proclaimed in every government department. Emperor Nicholas himself was greatly aggrieved when he heard the news, and he expressed his deepest personal regrets. The Russian embassy at London has also been directed to convey similar expressions to Great Britain. It is felt that this is all that can possibly be done, pending the receipt of Admiral Rojestvensky's statement.

That a horrible blunder has been committed is recognized and deplored everywhere, and nowhere has there been an attempt made to justify the firing upon the innocent fishermen. It is felt that Admiral Rojestvensky is, too good a man and officer to be summarily condemned. It is agreed that he is entitled to a hearing, but even the admiralty regretfully admits that it is at a loss to understand what explanation could justify such an apparently cold-blooded act as the firing is made to appear by foreign representatives.

The failure of the trawlers with their nets out to obey signals from the Russian warships or the nervousness of some officer who imagined that the fishermen, working with their nets in the water, were laying mines, may be responsible for the incident. As soon as the facts are established it is certain that the Russian government will voluntarily offer the fullest reparation.

In diplomatic circles the gravity and delicacy of the situation is recognized. ## REINFORCEMENTS ARRIVING.

Indications of Another Great Battle on the Shakhe River.

There has been no resumption of fighting of a general character on the Shakhe river. Both the Russians and Japanese are entrenching their positions. The outposts are within 700 yards of each other, and less than four miles separates the main armies. The scarcity of fuel is causing the soldiers to suffer greatly, since the cold weather set in.

St. Petersburg has information that the Japanese army confronting General Kuropatkin is receiving heavy reinforcements from the Port Arthur army and direct from Japan.

Russian Dead 13,333.

Tokio, Oct. 24.—Field Marshal Oyama reports that the total number of Russian dead discovered, as a result of the battle of Shakhe, now stands at 13,333.

General Oku's Headquarters, Oct. 21.—(Delayed in transmission.)—While the field near the village of Shakhe, the Japanese found nine abandoned Russian guns. This makes a total of fifty-four cannon captured by the Japanese.

Both armies are resting on their arms, although continuous skirmishes are occurring between outposts and patrols and the artillery is firing daily. A great battle is expected south of the Hun river, where heavy field works have been erected. A great number of Japanese reinforcements are arriving.

With the Japanese Left Army in the Field, Oct. 22.—The advanced forces of the respective armies are lying in trenches seven hundred yards apart. Their inaction cannot be explained.

St. Petersburg Anxious.

St. Petersburg, Oct. 24.—There is no news of immediate importance from the Far East tonight. The indications are that both sides are heavily entrenched, although it is believed that Kuropatkin will be ready for a forward movement at an early moment, unless the heavy Japanese reinforcements complete him to remain on the defensive. Reports that Japanese reinforcements are arriving, taken in connection with the enforced inactivity of the Russian forces on account of the weather, are felt to be a grave factor in the situation.

Emperor Nicholas today received the following from General Kuropatkin, dated Sunday: "Sunday night passed quietly. At nine Sunday morning the whole of our volunteer sharpshooters harassed the enemy, while the Japanese tried to attack our outposts but were everywhere repulsed."

"OLEO" LAW SUSTAINED.

U. S. Supreme Court Upholds It in a Case from Chicago.

Washington, Oct. 24.—Justice Brewer, of the supreme court, today announced the decision of the court in the oleomargarine case of August Cliff of Chicago, affirming the decision of the lower court by which Cliff was convicted of violating that portion of the oleomargarine law fixing a tax of ten cents per pound on oleomargarine artificially colored. In this instance palm oil was used for coloring, and prosecution was based on the ground that the oil produced a natural and not an artificial coloration. The court did not sustain this view.

VIRGINIA NEGRO LYNCHED.

Taken from Jail by a Mob of Fifty Masked Men.

Norfolk, Va., Oct. 24.—George W. Blount, the negro proprietor of an oyster shop in the suburbs of Norfolk, was taken early this morning from the police station by a mob of fifty masked men and lynched. Blount had been arrested for striking a Norfolk policeman in the face with a lighted lamp, badly burning him.

Berkley is tonight under martial law. Two encounters occurred tonight between troops and negroes. In each a negro was wounded.

CRUISER COLORADO SPEEDY.

Makes an Average of 22.7 Knots on Her Trial Trip.

Boston, Oct. 24.—The official figures of the cruiser Colorado's trial trip show that she made an average speed of 22.7 knots. The contract called for 22 knots. Her highest speed was 23.33 and this rate was maintained for 6.6 miles.

Today's performance rates the Colorado as the fastest vessel in the armored cruiser class, and one of the fastest in the navy, the only larger American ships that have ever exceeded her speed being the Columbia and the Minneapolis.

ANDREW CARNEGIE HONORED.

Iron & Steel Institute Gives Him the Bessemer Gold Medal.

New York, Oct. 24.—The opening exercises of the American meeting of the Iron and Steel Institute, the second meeting which this international organization has ever held on American soil, was held tonight. The session was marked by the presentation to Andrew Carnegie of the highest honors the institute can bestow, the Bessemer gold medal. Mr. Carnegie is the first American to become president of the organization.

LODGE SUEW FOR \$5,000.

Woodmen Accused of Using a Red-Hot Iron During Initiation.

Des Moines, Ia., Oct. 24.—Rolan Hunsowell of Peterson, Ia., has brought suit for \$5,000 against the members of the Woodmen lodge of that place. Hunsowell claims that he bears on his person the brand of a red-hot iron, inflicted during the progress of initiation, and claims he has never fully recovered from the shock.

RAILROAD TO SPEND \$2,000,000.

St. Joseph, Mo., Oct. 24.—Orders were received here tonight from the general offices of the Rock Island railway for initial arrangements for spending more than \$2,000,000 on the roadbed between here and Davenport and between this city and Topeka, Kas.

Chicago, Oct. 24.—The annual report of the Burlington road shows a decrease of \$1,317,985 in net earnings, caused by increased expenses. The receipts of the company were \$2,365,875 greater than those of the preceding fiscal year.

DAILY MINING JOURNAL. MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription Rates: Per month, by carrier... Five cents. Per year, by mail... \$6.00. MARQUETTE, MICH., OCT. 25.

It is said that the Harvard, Yale and Princeton varieties will be on the sidelines when the Army and the Navy fight the football championship of the east.

To most everyone on the outside the Democratic national campaign looks decidedly gloomy, but the national committee is putting up an admirable front of confidence.

Michigan fell down on that hoped for western game. If it had been arranged the Wolverines would doubtless have found themselves matched against Yale, Princeton, Columbia or some other second rate.

Detroit Democrats are now wondering whether after all they did such a smart trick in helping nominate Alderman Codd as the Republican candidate for mayor.

Woodbridge N. Ferris will doubtless have big meetings and a warm reception in the upper peninsula.

Col. Robert J. Bates is being freely lambasted for his unfortunate step in trying to drag the state militia into the present state campaign.

The announcement that the Pittsburgh Steamship company had placed an order for four modern steamships, larger even than the Wolvin, with a capacity of at least 800,000 tons.

SUPERIOR TRUST COMPANY.

Hancock, Michigan. Capital - \$150,000. This Company is under the supervision of the state banking department...

steamers will number 100 men; it would have required 1,080 to sail the schooners. Tug bills and other items of expense will be reduced in a corresponding degree.

Stranger to say Charles Towne has come to look at the matter in the same light as Boss Murphy, and has declined the Populists' endorsement for congress in the district in New York city in which he is a candidate.

From the Democratic viewpoint the worst thing about Governor Luke Wright's sweeping denial of Judge Parker's reckless charges in regard to the administration of the Philippines is the fact that Governor Wright is himself a Democrat.

The U. P. interscholastic football championship race appears to have narrowed down to three teams, Hancock, Menominee and Escanaba.

The worst booming that the Democrats have laid their hands to in the present campaign is the Philippine issue.

During the month of September only twenty-six bushels of wheat were exported from the Atlantic seaboard.

Whether it means that the United States have ceased to be a wheat exporting country is a debatable question.

Men and Women Unanimous About It. Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded.

Fall colds are liable to hang on all winter leaving the seeds of pneumonia, bronchitis or consumption.

Fall colds are liable to hang on all winter leaving the seeds of pneumonia, bronchitis or consumption.

To Spain, but there is little probability of the British yielding to geographical argument in either case.

According to the Berlin story, the German government asked the privilege of landing its troops and munitions of war at Walfish bay and marching the former through to the German hinterland.

MR. JUSTICE FINNEMORE

Judge of the Natal Supreme Court, Sends the Following Remarkable Testimonial

TO CUTCURA

The World is Cuticura's Field. Used Wherever Civilization Has Penetrated.

"I desire to give my voluntary testimony to the beneficial effects of your Cuticura Remedies. I have suffered for some time from an excess of uric acid in the blood; and since the middle of last year, from a severe attack of Eczema, chiefly on the neck, face, ears and neck and on one limb. I was for several months under professional treatment, but the remedies prescribed were of no avail, and I was gradually becoming worse, my face was dreadfully disfigured and I lost nearly all my hair.

NOTICE!

To Consumers of Building Material! I handle the best XXX strength Kodyland lime-light house brand; Atlas Portland cement; and many others.

COPPER

The new edition of the Copper Handbook lists and describes 2,311 copper mines and copper mining companies, in all parts of the world.

For Sale by THE STAFFORD DRUG COMPANY. DR. BELL'S PINE-TAR-HONEY Cures Coughs. Look for the Bell on the bottle.

Corrector Corrected.

Scene—Small wayside station; train approaching—Sandy (to his master)—Here's my train, my train.

No White Man Need Apply.

Boley, in the Creek Nation, Inhabited by Negroes Only.

No Need to Brag.

"Sir," began a creditor, who met one of his victims in the street the other day. "I sent you a bill in January."

Unhappiness Dispelled.

Men and Women Unanimous About It. Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded.

Ten Weeks in a Hospital.

Mr. Christ Scholz, of Phillips, Wis., writes: Gloria Tonic cured me completely of rheumatism. The hospital failed to do it. I was in it twice, one three weeks and another time seven weeks. Sold by The Stafford Drug Co.

EVERYTHING BUT THE ICE

In a package of JELLO ICE CREAM POWDER for making delicious ice cream. Simply add a quart of milk (or milk and cream mixed) to the contents of the package and freeze. No heating or fussing. This is the time of year when ice cream tastes better than anything else you can put on the table.

Car in Front of Engine.

New Type of Locomotive Used on Some Railroad Systems.

An oil-burning engine with the cab on the front end has been in operation on the Pacific coast for some time and locomotives of this construction have also been in use for several years on Italian railways.

Recommending the Looking Glass.

A waitress in a restaurant in a northern town is known to the members of the establishment for her ready wit. An occasional customer went in the other day for dinner. After receiving his order the waitress handed him a newspaper to while away the time that would elapse before dinner was served.

A New Breakfast Food.

A little girl who was eating codfish for breakfast the other morning for the first time was seen to stop and examine her plate with deep interest.

INVENTOR HATCH HERE.  
DOES AWAY WITH RINGING.

His Electric Smelter Declared to Revolutionize the Industry.  
Portage Lake Telephones Now on the Common Battery System.

F. F. Hatch of Sault Ste. Marie, the inventor of the Hatch electric smelter, is in Houghton on business. He was seen yesterday regarding his invention, which he modestly claims can do naught else but revolutionize the smelting industry. He has already demonstrated the satisfaction of such smelting men as John J. Case, formerly in charge of the Dollar Bay smelting plant, and others, by means of an experimental machine-furnace, that there is much of merit in the smelter.

The invention involves the principle of smelting any kind of ore or metal indirectly through an electric current. A uniform temperature is produced by the heat of the current, which passes under the ore or metal to be smelted and not through it. The furnace charge is in contact with the current and is not electrified. There are several hundred patents on direct electric smelting processes, but Mr. Hatch claims to have the only practicable indirect method patented.

In speaking of direct electric smelting, Mr. Hatch said it was not satisfactory for the reason that the current consumes the low grade ores or particles of metal in the charge, as in order to get a sufficient current through the material to smelt the high grade ore or single pieces of metal the low grade ore and small pieces of metal are burned up. The resulting waste is considerable. In Mr. Hatch's invention the electric current merely furnishes the required heat, taking the place of coal, and nothing of value in the ore or metal is burned up.

Mr. Hatch claims that two great advantages of his machine-furnace over the ordinary furnace is the saving in fuel and time. Compared with the present day smelting methods, he claims to save easily 50 per cent by his method, tests having shown seventy-five. His experimental machine, capacity twenty-five tons per day, at \$145 per ton, less than half the cost by the ordinary furnace method. The machine can smelt copper in the astonishingly short period of forty-six seconds. Ordinary furnaces take six to eight hours from the copper samples Mr. Hatch has with him. The power for the operation of his experimental plant is secured from the Lake Superior Power company, but the inventor claims that the 50 to 75 per cent saving will hold good anywhere.

The electric smelter is built in the form of a revolving drum, the inner lining of which is comprised of a series of carbons spread at uniform intervals apart over seven surfaces. The ore or metal to be smelted is placed inside through a center opening in the rear of the machine. The opening is closed airtight and the current is then applied to one section of carbons. The drum revolves and each section of carbons is heated in turn to the degree required and passes on to the next section of the furnace. The contents of the furnace are cradled in a bed of the most intense heat, yet are never in contact with the direct electric current. As the carbons pass the electric feed point, whatever heat is lost in the revolution is supplied by additional current.

The carbons which line the inside of the smelter are made in various sizes, according to the capacity of the machine. Instead of having a series of carbons on each surface, Mr. Hatch says he could have just one large carbon, his patent making provision for this, but the series of carbons require less of that material and give more surface, as between the carbons there are two surfaces, whereas there would be only one if the intervening space was filled. After copper is smelted it runs into a series of so-called settling tanks in which the metal is refined.

Mr. Hatch said that the material to be smelted can be put right into the smelter, crushing being the only preliminary necessary. It does not have to be stamped or concentrated. The inventor claims that the rock of the mountains in Ontonagon county, can be smelted in his smelter without first being washed in a stamp mill. The non-sulphur carries native copper freely, but in so many parts it cannot be saved in the washing process. Local men who have looked into the invention are inclined to believe the non-sulphur could be made a success with the installation of an electric smelter plant at the property.

Besides the advantages in saving fuel costs, time and labor Mr. Hatch claims his smelter requires only one heat for the simultaneous smelting of gold, silver, copper, zinc, lead, etc. It makes a complete perfect separation with the one heat whereas with the ordinary methods in use there must be as many heats as there are different ores smelted. The smelter in one process separates the sulphur and throws the lead and zinc distinct and the copper, silver and gold in a mat which is then refined.

Mr. Hatch is an expert electrical engineer by profession. He has spent many years and considerable money perfecting his invention and believes it is now ready to reap the benefit. Mr. Case, who was formerly superintendent of the Dollar Bay smelter, is interested in a company which plans the erection of an electric smelter plant at the Seeley smelter, which will be 1,000 tons per day. The Hatch Electric Smelter company, which will only manufacture the machines, having no intention of going into the smelting business, will furnish Mr. Case and his associates with either a 1,000-ton machine or a number of machines of smaller capacity. A 100-ton machine is now in course of construction and will be completed in a few months. As soon as the company is in a position to turn out machines it is better for Mr. Hatch believes an immediate market awaits them.

Mr. Hatch has his invention thoroughly protected by letters patent not only in the United States, but in Canada, Mexico, Belgium, Australia, Denmark, France, Germany, Great Britain, Ireland, Hungary, Norway, Spain, Sweden, Russia and Switzerland. The company is capitalized at \$2,000,000, the par value of the stock being \$25 per share and non-assessable. The object of Mr. Hatch's visit to Houghton was to bring his invention to the notice of O. P. Hood, professor of mechanical and electrical engineering at the College of Mines, L. S. Austin, professor of metallurgy, and mining men who might be interested.

**BROKE LEG PLAYING FOOTBALL.**  
Robert Clarke, a thirteen-year-old actor, boy, broke a leg last week while playing football with his schoolmates. The rest of the youngsters have now decided to give up the game entirely, at least for this season.

**ALGER AND DIEKEMA**  
Prominent Republican Leaders in the Copper Country This Week.

Senator R. A. Alger and G. J. Diekema, chairman of the state Republican committee, will visit the copper country this week, speaking at Hancock tomorrow evening and at Calumet Thursday evening. Big meetings have been planned. The Republicans are making a lively campaign out of what promised to be a lifeless, apathetic affair a few weeks ago. There is no longer any fear that the many-at-home vote will be very large. The only danger regarded as such by the Republicans was the feeling of apathy which may have affected the number of votes polled. It is believed that the series of meetings that have been held has stirred up an interest that will swell the party's majority in the county. Tonight a big meeting is planned to be held in the Laurium town hall. A meeting was held last evening at the Kearney location.

**SMALL PROFIT SHOWN.**  
Ontonagon County Telephone Company Elects Its Officers.

At the annual meeting of the stockholders of the Ontonagon Telephone company, held at Rockland last week, the old board of directors, and officers were re-elected as follows:  
President—James Mercer.  
Vice President—B. F. Chynoweth.  
Secretary—L. Stannard.  
Treasurer and General Manager—George W. Stannard.

The past year has been a fairly prosperous one for the company, reports the Ontario Herald. The earnings have covered expenses with a little to the good and it was felt that this surplus in improving the lines at Ontonagon and Greenland by making return circuits. This will be done next summer. This company has been in existence for many years, being organized under a private enterprise. The stockholders have never realized any cash out of their investments, but at the same time the line has proven very convenient to the residents of Ontonagon, Rockland, Greenland and Mass City.

**FOR HOSPITAL'S BENEFIT.**  
A number of Houghton ladies are planning to hold a dance in the Citizens National bank hall for the benefit of St. Joseph's hospital of Hancock in the near future. It is believed that Houghton people will liberally patronize a New Orleans ball for the hospital's benefit, as the institution serves Houghton as well as Hancock. The dance will be purely an informal affair and preparations will be made to give those who attend a good time. Good music will be provided. Tickets are to be sold and no doubt many people who do not dance or attend dancing parties will help the project by purchasing tickets. The details are yet to be arranged and the ladies have decided to serve supper in connection with the dance.

**CUPID BUSY AT DOLLAR BAY.**  
Three Dollar Bay young men came to Houghton yesterday and procured licenses to marry. With their prospective brides they are: Joseph Fiset and Rosanna Bedore; Ed Filion and Emma Fiset; Miss Fiset and Mary McGrath. Miss Fiset is only seven years of age and had to have the consent of her parents before the license was issued. Another license issued yesterday was made out to Anton Langus and Mary Schlutte, both of Calumet.

**ONE HUNDRED NEW CITIZENS.**  
Over one hundred new citizens were turned out by the circuit court mill yesterday, just in time for election. There were also in the register for the job, but of course most of them are Republicans. The jury cases will be resumed this morning. The jurors were not present yesterday, as there was nothing for them to do. Besides the case of Stephen Pavlyshik versus Joseph Stukel, a damage suit.

**ANXIOUS TO MEET STOLL.**  
Professor Pearl T. Boman, champion Cornish wrestler of Ohio, who is conducting a number of classes in the catch-as-catch-can style in the copper country, states that he will meet Ed Stoll of Calumet at any weight for the heavyweight championship. Besides the purse he is desirous that a side bet of goodly proportions be posted. It is believed the men will soon reach a satisfactory agreement.

**PRESIDENT MILLER "CANED."**  
President W. F. Miller of Houghton has been presented with a gold-headed cane by the Calumet aerie of Eagles. The presentation was made by John Burns of Duluth, Minn., at Chicago last Saturday. Mr. Miller delivered the principal address at the Calumet Eagles' picnic last summer and appreciation of his effort was shown in a pleasing, material way.

**WEDS AN IOWA MAN.**  
Pearl Esther Thomas, daughter of Mrs. Martha Thomas of Sixth street, Calumet, was married to James G. Early of Dubuque, Ia., at Chicago last Saturday. Mr. Early is a representative of the Heinz Pickle company. They will make their home in Dubuque.

**A LOVE LETTER.**  
Would not interest you if you're looking for a guaranteed Salse for Sores, Burns or Piles. Otto Dodd, of Ponder, Mo., writes: "I suffered with an ugly sore for a year but a box of Buckle's Arnica Salse cured me. It's the best Salse on earth. 25c at Stafford Drug Co.'s store."

**SEVENTY YEARS OLD.**  
Wonderful cure by Gloria Tonic. Mr. Abr. G. Groff, of Petersburg, Pa., writes: "I am 70 years old and am entirely cured of rheumatism through that marvelous remedy, Gloria Tonic. I am entirely free from pain." Sold by The Stafford Drug Co.

**LAGRIFFE THEN PNEUMONIA.**  
No remedy equals Warner's White Wine for the cure of these terrible and fatal diseases. If taken thoroughly and in time, it will cure a case in 48 hours, and for the cough that follows it never fails to give relief.

**HANCOCK ONE OF THEM.**  
Now Only Four Football Teams in the U. P. Championship Race.

The Hancock and Sault Ste. Marie High school football teams will play next Saturday, probably at Hancock. Menominee will play Escanaba, this being the schedule arrangement given out yesterday by E. H. Comstock of Houghton, secretary of the interscholastic association. The four teams mentioned are now the only ones in the race for the peninsula championship and next Saturday two more of them will drop out. The Soo was scheduled to play Manistique last Saturday but Manistique failed to appear and forfeited the game.

The statement in yesterday's issue that Hancock would play Calumet next Saturday was erroneous. Calumet re-organized too late for recognition in the association schedule, the time limit for the reception of entries having expired, and is out of the race in consequence. From all accounts Calumet is playing a strong game, having defeated the Y. M. C. A. team of Calumet Saturday afternoon by the score of 12 to 5. It was a fast contest and full of interest.

Although it is considered essential that it did not seem advisable to inaugurate such a step until the present time. But now that all of the preliminaries have been arranged for the work it will be pushed systematically as expediently. From now on the property will be the scene of great activity.

**COPPERDOM BREVITIES.**  
M. R. Gillis of Chicago, general agent for Schwartzchild & Sulzberger, meat packers, is a Houghton business visitor.

Mr. and Mrs. Rex Seiber of Painesville left Sunday afternoon for St. Louis for a two weeks' visit at the World's Fair.

Miss Olive Hennes of Houghton is home from Hibbing, Minn., where she visited her sister, Mrs. E. F. Remer. Mrs. Remer returned with her.

Invitations have been issued by Miss Jane Pryor of East Houghton for a dancing party in the Citizens' National Bank hall next Saturday evening.

Charles Moss and wife of Houghton have left for an extensive trip in the south and west. They will go first to New Orleans; from there to Bisbee and then on to the Pacific coast.

Mrs. Elizabeth Hennes of Houghton and Mrs. George Ruppe of Hancock have left for West Superior to attend the funeral of their late sister, Mrs. Barney Schwannkamp, formerly of Houghton.

Mr. and Mrs. Joseph Bohrer and child of Hancock have left for Los Angeles, Cal., where they will permanently reside. Mr. Bohrer has been engaged in the contracting business at Hancock but plans another line of work at Los Angeles.

**Mining News**  
MASS INCREASING FORCES.

Aggressive Policy Decided Upon at a Conference at Boston.

Development work on an extensive scale has been resumed in "C" shaft of the Ansonia mine, as the mine was started last week and a force of 100 men will be added as soon as it can be secured. This shaft is located about a mile west of "B" and is being sunk by the Butler & Knowlton shaft. It is about 153 feet and is a three compartment shaft. The purpose of the company, says the Ontario Herald, is to open as soon as possible the Butler and Knowlton shaft and on a scale which will make it possible to keep both heads of the mill working on full time. This will mean an output of three or four times what it is now and should place the property in a position where it will show good earnings.

This aggressive policy was decided upon at a meeting of the directors in Boston at which Captain J. M. Wilcox was present. When operations were discontinued in "C" shaft it was not on account of any showing, but because the directors did not deem it advisable to continue the work at that time owing to the unsettled condition of the metal market. Copper is now selling for better prices and the prospect of opening the mine on a much more extensive scale has been underway for some time, but no definite action was taken until last week.

Operations in this shaft will be conducted solely by the Butler and Knowlton shaft. Both of these shafts are being worked from the other two shafts and it is from them that the larger portion of the rock which is now being sent to the mill is being secured. They are stamp veins almost exclusively, although occasionally a mass is found. The Evergreen, which is the master heavy copper vein in both "A" and "B", will not be opened from this shaft at the present at least.

Work is also to be pushed more vigorously in "A" and "B" shafts. The former is sinking for the fourth level and the latter for the fifteenth. The work at the mine has numbered about 200 and it is the intention of the management to keep on adding men so that in the near future employment will be furnished to fully 500.

For several months the Mass has been earning a little money. Something like \$30,000 has been accumulated so far this year and considering that the output has been limited to about 500 tons of rock per day this is a very satisfactory showing. The management is convinced that the property can be made to pay handsomely as soon as it is sufficiently developed for an output of a 1,000 tons of rock every twenty-four hours. The larger the production the smaller the expense for both mining and milling.

"C" shaft is fully equipped for all present requirements, but it will probably be sometime next spring before it will be sufficiently developed for entering the producing list. The railroad track will have to be extended nearly a mile on account of the bluff to the west of "B" it will have to swing around to the north for some distance. However, the survey has been made and the railroad company has to stand the expense.

**HOTEL DEE**  
HOUGHTON, MICH.  
THOROUGHLY RENOVATED AND BETTER THAN  
Operated in Connection  
With the  
**Board of Trade Cafe**  
Rates:  
On the American Plan,  
\$2.00  
F. M. SACKRIDER, PROPRIETOR.

For some time that a more aggressive policy in development is essential it did not seem advisable to inaugurate such a step until the present time. But now that all of the preliminaries have been arranged for the work it will be pushed systematically as expediently. From now on the property will be the scene of great activity.

**AMALGAMATED.**  
When John D. Ryan, managing director of Amalgamated, undertook to tell the Society of Montana Pioneers something about Amalgamated, it was only natural that he should call their attention to what would most interest them—the magnitude of the company's operations in the state.

Mr. Ryan says Amalgamated employs 14,000 men and pays them \$50,000 a day. The items which alone for Amalgamated must then be over \$18,000,000. Freight charges are stated to be \$3,700,000 a year, although probably not all of this amount is a net charge to the company. Taxes amount to \$400,000 a year, and at a reasonable estimate the 60,000,000 feet of lumber and 1,005,000 tons of coal would cost the company about \$1,000,000. Amalgamated costs as measured by these statements of Mr. Ryan cannot be less than \$22,000,000 and in this estimate no mention is made of the expenses of management or the cost to Amalgamated of its political aspirations, which must run at least \$1,000,000 additional.

Of course Mr. Ryan speaks of the entire expenses of all the sub-companies of the Amalgamated. As is well known, the Amalgamated's policy towards its sub-companies is one of shifting the burden of expenses, so far as possible, to the companies in which its ownership is small. Consequently the profits of Amalgamated are probably relatively greater than those of the combined subsidiary companies.

In some cases, these sub-companies are producing in the aggregate 240,000,000 pounds of copper, the net profits on above basis of costs, would work out a little over \$5 per share on a 10c copper market. Amalgamated is now appropriating the outstanding minority interest in Ansonia and Parrot.

The extreme view, however, of reckoning this matter is to allow that Mr. Ryan is speaking at the maximum, say election time, the Amalgamated companies are today producing at the rate of 270,000,000 pounds, worth at thirteen cents per pound, \$35,100,000, which would be a total maximum expense of \$24,000,000, leaving \$11,100,000 as the net earnings of all the Amalgamated companies. Of such earnings nearly one-sixth, or say \$2,000,000, would belong to shares not owned by Amalgamated Copper company, and still the remaining \$9,000,000 would scarcely be sufficient to enable Amalgamated to return to its regular production dividend of \$6 per cent or 1 1/2 per cent quarterly, which would be the regular dividend which Amalgamated was started. Eight per cent was paid at first from a 17c copper market, but only 1 1/2 per cent was declared as a regular dividend, the other 1/2 per cent extra representing a 17c copper market.

It is, therefore, clear from Mr. Ryan's figures that a full realization of Amalgamated stockholders' hopes can never be had.—Boston News Bureau.

**WYANDOT.**

At the Wyandot property preparations are now in hand to install machinery and put down a shaft on the recently discovered lode which is now being developed. A wagon road is being constructed in the Wyandot location down the valley of the Misery river for a distance of a little over a mile, to the point where work is in progress. The high embankment which rises from the river at the point where the lode outcrops is being excavated in order to provide an area for the shaft house. Stripping continues on the lode and an occasional blast is being put in. It has not yet been ascertained whether the width of the formation is, but according to the Calumet News, it is approximated at twenty to twenty-five feet.

In view of the success which the Winona has attained in depth on its property and south of the first level, the shaft agreement desires to make a more thorough investigation of this mineral formation on its own property. It is with this purpose in view that shaft No. 3, which opened the Winona lode and attained a depth of 250 feet, has been watered and explorations resumed.

**ISLE ROYALE.**

The new shaft of the Isle Royale, on section 11, is now down about 150 feet, and drifts have been started both north and south on the first level. The shaft was started in the foot of the lode, which carries the best values, and has gone gradually, well over to the hanging wall, as the lode swings to a sharper angle in its descent, by reason of which the rock taken from the bottom of the shaft, while much above the average of the district, is not so rich as nearer surface, when the shaft remained close to the focal zone. The lode is so rich, however, that practically every foot of the course penetrated is fit to send to mill, without selection, as soon as broken.

**COPPER FIRM AND HIGHER.**

Copper was firm and higher yesterday. Spot closed at \$20.15, 3d in London and at \$20.16, 3d for futures. At New York copper was said to be meeting with better demand and ruled firm, with Lake quoted at 13.25@13.37 1/2.

**MINING GOSSIP.**

The eighth level eastern drift of the Alvertine shows an improving mineral value. The end of the drift is now 400 feet from the shaft. The mine is shipping 325 tons daily.

The installation of the more powerful hoist at Franklin, Jr. shaft No. 2 is progressing rapidly, and when in commission the company will be in position to mine a total of 1,500 tons of rock daily, which is about all that the mill is able to take care of.

The extension to the Champion mill is being enclosed. When completed it will provide for two additional heads of stamps. It is doubtful, however, if any machinery is installed before next summer. Rock shipments now average 1,000 tons daily, requiring three heads of stamps.

General Manager Dwight, of the Greene Consolidated Copper company, reports that the production for the first fifteen days of October was 225,000 pounds in excess of the first fifteen days of September and that the production for the month will be 500,000 pounds more than September.

The recent extreme north Baltic disclosures indicate that the Baltic lode traverses Section 16 west of the exploratory pit unless a fault exists between these points. The indication is that the lode will permit the opening of at least one shaft on the outcrop, while the second one would reach the vein at a very limited depth on this section.

Good progress is being made at the Victoria mill-site, in completing foundations. The mill is being started on the one-stamp mill. The stamp itself, with much washing machinery, boiler, engine and miscellaneous fittings, shafting and sundries, was bought from the Butte mine, and the old plant, with the addition of more modern jigs and tables for saving the fines, should do efficient work.

Statements in Eastern publications that the Wolverine is making copper for six cents per pound are received with some incredulity locally, though it is certain that the Wolverine is making the metal for less than seven cents, and it is possible, though scarcely probable, that the six-cent mark has been reached. The company is any better smaller returns than ever before and the earnings for the present fiscal year will be the best ever secured in all history.

The most prominent feature of the copper situation is the strength displayed by producers respecting far off positions; that is, they are holding their first of January, 1905. Holders are still disposed to sell moderate amounts for November and December shipments at 5 to 10 points under prices demanded for January shipments, and for February and March it is difficult to obtain any firm offers. It is predicted at Boston that Lake copper will cross fourteen cents by Thanksgiving.

The extreme north drift from Baltic No. 5 shaft at a depth of 600 feet has encountered a healthy and richly mineralized vein about 100 feet thick, which is 900 feet north of No. 5 and 1,400 feet from Atlantic Section 16. The lode swings west and new data indicate its traversing the Atlantic tract, which has now more and more the appearance of a producer. Where exposed this lode shows a width of twenty-seven feet. The strike promises much to the undeveloped Baltic ground to the north.

A dispatch from Butte, Mont., says: "Two million dollars is the amount of damages asked for an alleged trespass, which has been extracted illegally from the Niper mine through the underground workings of the Parrott claim in 1902 by representatives of the Amalgamated Copper company, according to a complaint filed with the federal court." Augustus Heinze and others are plaintiffs in the action against the Parrott Silver and Copper Mining company and the Ansonia Copper Mining company, both auxiliary corporations of the Amalgamated company.

The first meeting of the Pittsburg & Duluth Mining company was held at Duluth Saturday. Secretary Gordon R. Campbell and other officers of the associated Calumet & Arizona companies were present. Officers identical with those of Calumet & Arizona, Calumet & Pittsburg and Lake Superior & Pittsburg were elected as follows: President, Charles Briggs; vice president, Jas. Houston; secretary, G. R. Campbell; treasurer, Peter Ruppig. These and Thomas F. Cole, Chester A. Congdon and Charles d'Autremont, of Duluth, and George E. Tener, of Pittsburg, are the directors.

**SAVES TWO FROM DEATH.**  
"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. E. Hildbrand, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used the wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infants for Coughs and Colds. 50c and \$1.00 bottles guaranteed by Stafford Drug Co. Trial bottles free.

**BUR SALES CHEAP.**  
A carload of choice winter potatoes. Apply to F. H. Vandenberg, Marquette, (10-24-1w)

Cures cough, sore throat, pulmonary troubles.—Monarch over pain of every sort. Dr. Thomas' Electric Oil.

FAIRBANKS IN MICHIGAN TODAY

IS BOOKED FOR A DOZEN SPEECHES, CONCLUDING AT GRAND RAPIDS TONIGHT.

STARTS AT WHEELING, ENDS IN THE CAPITAL CITY.

Senator, in Address at Columbus, Defends the Administration Against Charges of Extravagance—Declares Allegations Unfounded.

Columbus, O., Oct. 24.—Senator Fairbanks concluded a strenuous day of campaigning with a speech here tonight. His tour of Ohio today began across the Ohio river from Wheeling and ended in the capital city tonight.

Michigan will be traversed by Senator Fairbanks tomorrow. The first speech will be at Monroe very early in the morning. The stops in Michigan will include Monroe, Adrian, Tecumseh, Manchester, Ypsilanti, Ann Arbor, Chelsea, Jackson, Lansing and Grand Rapids, where the evening meeting will be held.

In his speech here tonight the senator defended the administration against Democratic charges of extravagance, and declared that the charges are unfounded. He made special reference to the Democratic statements concerning the cost of the Philippines and said that the war department records "show these statements grossly incorrect."

Parker Called by Shaw. New York, Oct. 24.—Secretary Shaw addressed a largely attended meeting at New Rochelle tonight. His speech was largely devoted to consideration of the Democratic statements concerning the cost of the Philippines and said that the war department records "show these statements grossly incorrect."

Washington, Oct. 24.—Acting Secretary of the Treasury Taylor, in a statement issued today, says that the charge made by Judge Parker that there have been administration orders issued forbidding the publication of information concerning government expenditures, is a mistake, that Judge Parker has been misinformed.

New York, Oct. 24.—Secretary Tatt was the principal speaker at a Republican mass meeting in Brooklyn tonight. His speech was upon conditions in the Philippines.

Trusts in Control of the Administration, the Nominee Declares.

Memphis, N. Y., Oct. 24.—In an address before a large crowd today, Judge Parker spoke upon campaign practices and abuses. He rebuked the present administration for the part government officials are alleged to be taking in the campaign, charging that the government officers are now practically chosen by corporate managers, who contribute money to keep the conduct of the government in lands in recent years.

Judge Parker also charged that the plan of the trusts and heavily protected interests is to perpetuate the present administration. Such combinations of trusts as do not profit by expenditures, are opposed to the enforcement of the laws against them," he said.

"When such forces unite to furnish money which they are promised will control the election, their purpose is as clear as a noon day—it is to buy the election, to purchase four years more of profit by tariff taxation, or four years more of extortion from the public by means of monopoly."

"The scheme of our government," he continued, "opposes favoritism, but in its administration there has been much of it. Indeed, it has been growing with such rapidity in recent years that those few who have enjoyed favors contributed directly by statute or indirectly by non-prosecution of violations of the law, represent, control and are possessed of many hundreds of millions of dollars. These interests have decided to attempt to continue the present administration in power."

"Their representatives scolded about the president for some months and thus contributed their part towards the effort which was assiduously made to satisfy the country that the trusts were opposed to the present administration. Their action being but a play to deceive the voters, the fact remains that the trusts are not, as they are represented to be, opposed to the continuation of the present administration. On the contrary, it is common knowledge that they have determined to furnish such a sum of money to the Republican national committee as will help to secure 'beaters' in doubtful states for the Republican ticket. Such attempt constitutes both a menace and a challenge to every patriotic and law-abiding citizen in this country, a challenge which ought to be accepted."

"The question ought to be settled now whether 'beaters' and illegal combinations can together control an election in this country. Such control means, on one side, vast sums of money and every man with an itching palm. It ought to array every honest, independent and patriotic citizen on the other side."

NOMINEE VISITS NEW YORK. Is the Guest of Tammany Leaders and Gets a Big Ovation.

New York, Oct. 24.—Judge Parker was the center tonight of the wildest and most enthusiastic demonstration that has greeted him in his campaign for the presidency. As guests of the Tammany leaders of the East side, the Democratic candidate for president and William Travers Jerome, district attorney, attended a performance at the Grand Street theater and later a dinner at a restaurant nearby.

The theater was packed and the streets for blocks around were so congested that it was impossible to get a car to the restaurant.

gated that a reserve force of police was required to open a passageway from the theater to the restaurant. In the theater, when the Parker party entered, the applause was so great that the performance was stopped for twenty minutes with the cast of the play unable to proceed or leave the stage. Many calls were made for a speech, but Judge Parker only smiled and bowed. When the demonstration subsided the play proceeded.

While the dinner was in progress, at the conclusion of the play, police lines were maintained and the crowd was kept out of the square in front of the cafe. The dinner continued nearly two hours, after the candidate went to his apartments at the Hotel Seville, where he will remain until Thursday night or Friday, conferring with his political lieutenants and advisors.

LA FOLLETTE AGAIN UPHELD. Another Opinion Against the Stalwarts Filed at Madison.

Madison, Wis., Oct. 24.—A third opinion came down in the Republican faction case in the supreme court today. Judge Winslow filing a long concurring opinion in favor of holding the La Follette ticket regular. Judge Winslow holds the party committee in the state superior to the national committee because recognized and regulated by law, while the national committee is merely a "voluntary" body.

D. B. HILL IS CONFIDENT. Calls Victory in Maryland, West Virginia and Indiana Cinched.

New York, Oct. 24.—In an interview today, David B. Hill confidently expressed the opinion the Democrats would carry Maryland, West Virginia and Indiana, the states where he has been campaigning for the past two weeks. He also expressed satisfaction with the situation in New York.

Bryan in the Buckeye State. Hamilton, O., Oct. 24.—William J. Bryan tonight concluded his tour of Ohio for the Democratic national ticket with a speech in this city. Twenty-two states were visited today, beginning at Wheeling, W. Va., and closing here tonight. Here, Mr. Bryan was greeted by an immense crowd. He reviewed his speeches of the day, embracing the national issues which he spoke for or against.

Mr. Bryan will reach Toledo, Ohio, early tomorrow morning, and will then leave for Kendallville, Ind., and to spend two days in the Hoosier state. He will make a speech in Kansas City, Mo., Thursday night and then return to Nebraska for a number of addresses in his home state.

Bourke Cockran in Colorado. Denver, Oct. 24.—W. Bourke Cockran addressed a large assemblage here tonight. He discussed the Colorado situation resulting from the miners' strike, and protection and trusts.

SETS NEW TROTTING MARK. Major Delmar, Unpaced, Covers a Mile in 2:01 1/4 at Memphis.

Memphis, Oct. 24.—Major Delmar, owned by E. E. Smathers, established a new world's mark for unpaced trotters today when he circled the track in 2:01 1/4. The previous mark was 2:01 3/4, held jointly by Major Delmar and Lou Dillon. Today's performance was cheered by a large crowd, and horsemen generally were of the opinion that had the weather conditions been more favorable the horse would have made even a lower mark.

Delmar stepped the first quarter in :31 flat, the half in 1:00 3/4 and the three-quarters in 1:51 1/4. In the run home Delmar perceptibly tired and paced the judged stand in 2:01 1/4. Dan Patch, the pacing champion, failed to break his own mark of 1:59 1/4. His time was 2:00 3/4. Both horses were accompanied by runners on the side. The race summaries follow:

The Sunny South 2:13 pace, \$2,000. (Five starters): The Broncho 2:14 1/2, 1; Ash Rose 2:15 1/2, 2; Birdie B. 2:16 1/2, 3.

Best time, 2:07. 2:15 pace, \$1,000. (Four starters): Gayety 2:16 1/2, 1; Dr. Francis 2:17 1/2, 2; Delpha 2:18 1/2, 3.

Best time, 2:09 1/2. 2:30 pace, \$1,000. (Three starters): Funston 2:31 1/2, 1; Ethel D. 2:32 1/2, 2; Bonita 2:33 1/2, 3.

Best time, 2:14 1/2. 2:12 trot, amateur drivers. (Two starters): Imogene 2:15 1/2, 1; Live 2:16 1/2, 2.

Best time, 2:13 1/2. 2:07 pace, amateur drivers. (Unfinished): Dry Monopole 2:08 1/2, 1; Don N. 2:09 1/2, 2; Green Line 2:10 1/2, 3.

Best time, 2:09 1/2. (Only starters).

BANK CASHIER ACCUSED. Des Moines, Ia., Oct. 24.—S. F. Shaw, cashier of the bank at Pleasanton, Ia., which made an assignment recently, has been held to the grand jury at Leon for responsibility for the bank failure. Shaw is accused of having borrowed \$8,000 from the bank on his individual note without giving security, and of not being able to explain what became of the money. It is stated that the bank will be able to pay out in full.

BASEBALL MAGNATES MEET. New York, Oct. 24.—The annual meeting of the National Association of Baseball Leagues opened here today. Representatives of twenty-three leagues, containing 108 clubs, are present. Late in the afternoon the national board went into executive session to consider thirty-one disputes.

TODAY'S WEATHER. Washington, Oct. 24.—The following is the weather bureau's forecast for Upper Michigan: Snow or rain and colder, Tuesday; Wednesday, fair, except snow flurries in the east; brisk north winds.

OBITUARY MENTION. London, Oct. 24.—The wife of Sir Charles Dilke died today.

S. M. Whiteside, Aurora—Suffered many years with indigestion, constipation, a stomach trouble. Holister's Rocky Mountain Tea cured me completely. 35 cents, Tea or Tablets. The Stafford Drug Co.

POPE FIGHTING THE SOCIALISTS

VATICAN VITALLY INTERESTED IN THE COMING GENERAL ELECTIONS IN ITALY.

DANGER THREATENS CHURCH LEGISLATION HOSTILE TO IT OPENLY ADVOCATED.

Hope of the Papacy Is in the Retention of the Present Ministry and It Will Aid the Government in the Coming Contest.

Rome, Oct. 24.—The vatican authorities are greatly concerned about the coming general elections in Italy, which occur on Nov. 6 and the Sunday following. In former times the vatican officials took little more than superficial notice of the personalities of those who sought election as representatives of the Italian people in the parliament, but this year there are special reasons why the vatican should not only be concerned as to the results of the election, but should have practically joined with the government authorities in seeking to prevent the success of the socialistic element, which in the last ten years has secured an enormous following among all classes.

The recent "general strike" organized by the socialists was only an indication of what they purpose doing at the next elections in order that they may overthrow the present ministry and supplant it by members of their own party. To succeed in this purpose they have allied themselves with the republicans and with all extremist organizations, including the anarchists.

Active work is in progress all over Italy in this attempt to elect candidates who will overthrow the ministry and in course of time bring about a republican regime. The government is doing its utmost to check the socialistic activity and has promised support to all monarchic candidates, even those belonging to the opposition.

Appeal to Nation. The vatican officials have been enlisted to bring the Catholic element to the support of government candidates, and although the pope has not yet officially given permission to Italian Catholics to vote at the elections, the bishops all over the peninsula have been directed to approve, in exceptional cases, the candidacy of those who present guarantees of loyalty to the church.

The attitude of the vatican is occasioned not only by government pressure, but by the instinct of self-preservation. A socialistic triumph at the polls is with much much more giving because of the possibility of legislation adverse to the church, which might follow in the next parliament. Among the projects openly favored by the socialistic party is one to do away with religious teaching in the public schools. Another is to place restrictions on the religious communities in the peninsula. Still another is a law authorizing divorce, which has been pending for years in the vatican.

For these and other reasons Catholics are now being urged to support the government candidates, but the urging is done by individual bishops, and to prevent the impression that Catholicism officially permitted to take part in the elections.

Will Publish Leisy's Errors. Because of the large following which Abbe Leisy has obtained among the younger clergy and the pope has ordered the congregations of the index and the holy office, which condemned the abbe's works because of alleged false interpretations of the scriptures, to print a summary of all the errors found in the books, each extract to be followed by an official retraction in accordance with the theological views held by the church. It is proposed to distribute the publication widely in the French diocese most actively in opposition to the vatican. The French clergy may gain a correct idea of the motives which led to the prohibition of the works.

This is the first time in the history of the church that any Roman congregation has been called upon to support an action in the case of a forbidden book. It is also the intention to secure from the abbe a formal retraction of the errors, or if he will not make one, to proceed against him as usual according to the law of the church.

Pius X has given permission to one of his old friends, Monsignore Marchesani of Treviso, to write his biography. The work is to contain many little known details of the life of the pope as priest and bishop in the Venetian provinces and will prove of great interest to Catholics. Arrangements have already been made for its translation and publication in other countries, including the United States. The work will be beautifully illustrated.

French Secretary to Return. It is rumored here that the French government will soon agree to the return to Rome of M. De Courcelles, formerly secretary of the French embassy at the vatican. He will resume, it is said, the transaction of business at the embassy and, although he will not have the grade of an ambassador, he will be the practical means of communication between the vatican and the French government. It is expected here that the step will be taken soon after the meeting of the French parliament and that it has been brought about by the contention of the foreign minister, Delcasse, that France must keep some representative in Rome for the transaction of religious business, even if the concordat were to be abolished by the government.

The action of Archbishop Farley of New York in following the papal decree on church music and dismissing the women members of the choir, is theatrical and adopting the exclusive use of the Gregorian music for the services, has been favorably mentioned at the vatican. At the same time it is said that the pope is himself convinced that the change can not become general in the United States, because of the peculiar church conditions prevailing there.

It is feared that the entire elimination of women from the choir might cause hardship in many localities and non-Catholics kept away from services who now attend because of the excellence of the music and the splendor of the ceremonies. It is said the pope is not further insist on the adoption of the reforms, but has decided to leave the matter entirely in the hands of the

American bishops, who can best judge conditions in their respective fields.

Will Move Pope's Body. It has been arranged that the remains of the late pope will be transferred next month from the Church of St. Peter's, where they were temporarily entombed, to that of St. John at the Lateran, where the permanent monument is nearing completion. In order to avoid disturbances such as occurred when the remains of Pius IX were taken to San Lorenzo Pius X has ordered that the transfer be made in the daytime, and the necessary arrangements have been made by the cardinal vicar general of Rome with the Italian officials to preserve order. Most of the cardinals and representatives of all the religious orders and excess of Rome will be in the funeral procession. Cardinal Satolli, arch-priest of the Lateran, will officiate at the re-burial.

KILLS WOMAN AND HIMSELF. This the Crime of Charles Brown, a Rejected Suitor, at Minneapolis.

Minneapolis, Oct. 24.—Last night Charles Brown, aged forty, fatally shot Mrs. Pauline Weiselle, thirty-eight years of age, and then killed himself, because the woman refused to marry him.

DOOMED TO DIE ON GALLOWES. Hold-Up Man Confesses the Murder of a Chicago Saloon Keeper.

Chicago, Oct. 24.—Malcolm R. Taylor, arrested tonight on suspicion of being connected with the murder, last night, of William H. Kniering, confessed that he fired the shot during the fight between Kniering and five men who attempted to rob his saloon, and acknowledged that he killed the saloon keeper.

St. Louis, Oct. 24.—William Morris, the self-confessed train robber, died tonight as a result of wounds received in the battle with detectives last Friday. His is the fifth death resulting from that fight.

Suspect in Custody in Iowa. Des Moines, Ia., Oct. 24.—Homer D. Wright was arrested at his home in Ottumwa today, charged with the murder of Mary Chesser, the woman killed in that city Saturday night. Wright is said to have been in the house at the time of the murder, which is now thought to have been committed in a free-for-all fight.

RED TAPE IN BRITISH NAVY. Cumbersome Method Used to Transfer the Stores of Two Ships.

London, Oct. 24.—Dikins' circumlocution office was exemplified recently at Portsmouth in a specimen of admiralty red tape not often surpassed. Two destroyers were lying alongside each other at one of the dock yard jetties. The destroyers were the spirit of warlike unrest which began in German south-west Africa has spread into the Portuguese dominion. It has only to extend eastward a little to involve some of the wisest and bravest tribes of British central and South Africa. To the north-east is the Congo Free State, where the natives, outraged and trampled upon, are beginning to show signs of resistance. The proposition of white men throughout this entire region is about what it is in the Congo state, where there are 2,000 whites to 15,000,000 blacks.

The extension of peace and order in the interior of Liberia has been steady and the trade of the country is advancing in an encouraging manner. The present president Arthur Barclay, is a West Indian, being born in Barbados, and is spoken of as a man of energy, ability and integrity. Although the Liberians from the United States and from the West Indies do not now number more than 12,000, they are reported to be an active and intelligent class, who are gradually extending their influence over the natives of the interior, of whom there are 2,000,000.

Sir Harry Johnston entertains the liveliest hopes for the commerce of the interior, the resources of which he finds varied and rich. The back lands are filled with rubber forests, an excellent soil is indigenous and is also cultivated; long and straight rivers are in the clearing; the oil palm is abundant; cacao thrives; there is a great variety of timbers, dyewoods and drugs; there is hematite iron on the seaboard and there are indications of gold in the hinterland. The only unworkable element in the situation, according to Sir Harry Johnston, is a boundary question with France, which, however, does not seem threatening.

RUSSIAN WORKMEN OPPOSE WAR. A correspondent of the Times says that the officially organized lectures to the industrial workers and harbor laborers of south Russia have failed completely to rally them to the support of the present war. Openly in the workmen's long and bitter opposition to the war is criticized unsparingly, and the great bulk of south Russian reserves dread the day when they will be sent to the front to fight in a conflict of which they never approved and from which they expect neither national nor personal profit.

As for the large Jewish element in the south, they are positively solid against the war, in spite of statements to the contrary which have already been partly untrue. Their credit has been diminished abroad by the assaults which have been made upon them. Establishment after establishment has been driven into liquidation. Others are being called upon to support the war, most notably, scores of large and hundreds of smaller industrial concerns are struggling along on half time. Tens of thousands of workmen are idle and the working men of our world daily increase.

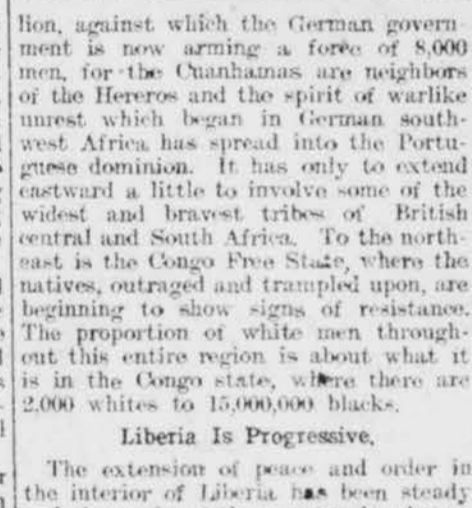

Prises of many necessary foodstuffs have risen and the small shops refuse to retail even a pound of bread save on cash terms. The outlay of various public services has been cut, and the authorities, acting on instructions received from the Russian ministry of finance. Everywhere there is evidence of a desire for "retrenchment" and the working in the long run are inevitably heavy losers.

ROAD AROUND LAKE BAIKAL. The railroad around Lake Baikal is said to be the most expensive line ever built within the Russian empire, and has presented the most serious engineering difficulties. The vast of the lake, from the mouth of the river Angara to Kulkut, a distance of some eighty verst, is very mountainous, the rocks in many places having but a narrow strip of foreshore, while in others they descend sheer into the lake, rising to a height of 1,000 feet above the level of the water. These mountains are outcropped by awkward crevices and cliffs.

On this section of the line there are no fewer than thirty-two tunnels, in addition to 210 bridges, viaducts, etc. It has often been necessary to take special measures to be seen carried heavily by the enormous weight of the rock, the line of pieces of loose rock, as the mountains in this region have been much affected by volcanic eruptions. Water is apt to make its way into the tunnels from the surface, and the loss of the looseness of the rock in many places also necessitated the bricking up of the tunnels to a far greater extent than was originally calculated. The work has often been carried on in the most enormous quantities, the former reaching the figure of 70,000 cubic feet per verst. The remaining section of the line from Kulkut to Myssovsk runs over an entirely different kind of country and presented no particular engineering difficulties.

Black Revolt in West Africa. The black revolt in West Africa grows, the insurrection which has now resulted in the massacre of a large force of Portuguese and their native auxiliaries on the Congo river is to be regarded as a result of the bloody Herero rebel-

Jacob Rose The Home Of Good Clothes. If the cold weather caught you unawares, we are here to your rescue with a splendid assortment of warm and stylish Overcoats. No tedious waiting here for the tailor to have your Overcoat ready. At a moments notice you can slip into a garment and have the satisfaction of knowing that you possess the very best garment obtainable for the price. The immense assortment we show, the high character of the lines we carry and the volume of our present business has been built up in less than a decade by adhering to only honorable principles, giving the public the very best made merchandise that can be obtained at the very lowest prices. GUARRY GIVES UP MYSTERY. Peculiar Creature Resembling Lizard Inhabited in a Stone. Kokomo, Ind., Oct. 24.—Incessant in the solid rock ten feet below the surface of the earth, a mystery of animal organization, a living creature resembling a lizard, was unearthed by a blast at the Deffenbaugh stone quarry. The cap in which the creature was concealed was to all appearances hermetically sealed by air, light, heat and sustenance and how the creature subsisted during its long imprisonment is a mystery. It is six inches long and has the general contour of the lizard family. It has four legs. Its feet are shaped something like the paws of a kitten, those in front having four toes and those behind five. Heavy toe terminates in a sharp claw. The creature is still alive and swims around in a jar of water, apparently contented with its new environment.

Have you a friend who has a hard cold? Then tell him about Ayer's Cherry Pectoral. Tell him how it cured your hard cough. Tell him why you always keep it in the house. Tell him to ask his doctor about it. Doctors have known the formula for over sixty years.

THE GENUINE DR. BELL'S PINE-TAR-HONEY has the Bell on the bottle.

# FAIR OPENED LAST NIGHT.

Will Be in Progress at Fraternity Hall the Rest of the Week.  
The fair being held this week at Fraternity Hall under the auspices of the ladies of the congregation of St. Peter's cathedral opened last evening, with a good attendance, despite the inclement weather. The ladies are displaying a tasty array of fancy and useful articles. Refreshments are sold and served and there is musical entertainment. There was much excitement and life at the fair last evening, and all the visitors were well pleased. The ladies expect to realize a large sum from their week's work.

# REPAIRED OLD LOCOMOTIVE.

Was No. 1 on South Shore, Now Owned at Newberry.  
The Lake Shore Engine works has lately shipped a veteran locomotive back to the Michigan Iron company at Newberry, by which it had been sent to Marquette for repairs. The locomotive was built in 1872 and was used on the old M. H. & O. road before the South Shore had an organized existence. Subsequently it was used on the South Shore road, on which it was known as No. 1. Some years ago the locomotive was sold for use at the Newberry furnace, and has been there in the interval. The Lake Shore Engine works replaced all the completely worn out and un-serviceable parts, and the veteran is now in good trim once more.

# "QUINCY ADAMS SAWYER."

New England Play to Be Presented Here Tomorrow Evening.  
"Quincy Adams Sawyer," the famous New England play based on the novel of that name, will be presented here tomorrow evening. "Quincy Adams Sawyer" played the Marquette house last season, and greatly pleased a large audience. The New York Sun recently took its cast as a proof of its theory that the greater success of a play was made by a competent company of players who were not well known, rather than by a cast of favorites. To quote the Sun: "An illustration in point is given in 'Quincy Adams Sawyer' at the Academy of Music. No more than two members of that company were known to the first audience. Yet the cast was complete and truly admirable. Several of the Yankee types were sketched by real artists and made to make Mr. Stephen's delineation of a rustic old bachelor in demonstratively amusing moods is a fine achievement in artistic eccentricity, and all the more enjoyable because the artist is not a celebrity."

# NOW DOWN TO \$25,000.

Hadden-Rodde Assets Are Rapidly Dwindling Away to Nothing.  
Still trying to figure out what has become of some of the assets from branch offices, which are known to have been sold by numerous parties, the trustees in the Hadden-Rodde bankruptcy estate, advised by the appraisers that while the total assets claimed by the company's officials are something like \$205,337, with liabilities to the amount of \$120,623, there will probably be found not more than \$25,000 worth of assets, which are good, says the Milwaukee Evening Wisconsin. Possibly, even these assets will not stand up for 50 per cent of the amount they are claimed to be worth.

One of the appraisers, in report of diminution of the assets is that while there are a total of \$20,167 worth of notes figured to be due the company, only \$1,908 of this amount is called good by the appraisers, and the other were \$18,257 in uncollected accounts, the appraisers say that only about \$7,000 of the total can be realized on.

The announcement has caused an even greater sensation than the report that some of the assets were spirited away and sold. Figures now given by the appraisers, who are not quite through with their work, and filed with the referee in bankruptcy, D. Lloyd Jones, are as follows: \$1,778.20 Mining stocks on hand here; 137.00 Notes to collect; 1,008.37 Uncollected accounts; 6,914.87 Cash on hand in Milwaukee; 5,149.92 Total local assets; \$14,988.36 Outside of Milwaukee there are approximately thirty branch offices to account for among the assets. These are each estimated to contain \$250 worth of fixtures, etc.

Thus it is figured out that the total of visible assets at present is something like \$25,000, although these figures are by no means final. One of the attorney's in the case says that if there is any difference, it will be to make the total even smaller than it stands now.

# ACTIVE BOSTON MARKET.

Paine, Webber & Co. wired concerning the Boston market: "As everyone expected the market here opened intensely active, with considerably higher prices. The traders in gold stocks in particular are expecting to get them back at low prices during the day. The good demand, however, kept up and prices held strong up to the very close. Copper Range was again the leader today, at least 10,000 shares being traded in. Bullish sentiment is another strong stock that looks as if it would go higher. New York orders again appeared in Wolverine and a new high mark was made. We have now a good broad market and stocks can be traded in at almost any time without making a great change in prices. The interget in Centennial was kept up and the stock closed at the top, one house buying about 1,500 shares during the day."

Wheat Higher and Firm.  
Logan & Bryan wired Paine, Webber & Co. concerning the wheat market: "The wheat market was 1/2 to 3/4 higher. The tone during the day was, under the circumstances, fairly steady and firm. The item of interest was the European political news. This has advanced Liverpool a fraction and consols were moderately lower. Apart from this, conditions were unchanged. The cash markets, while not particularly active, followed the options. Bullish sentiment still prevails and the only active interest on the other side of the market, apparently, is the Armour's, trading moderately on the short side."

New York Does Well.  
Logan & Bryan wired Paine, Webber & Co. concerning the New York market: "We have another broad, active and strong market. The trading upon English vessels by the Russian war fleet occasioned a little hesitation and some little scattered selling pressure at the opening. In the main, however, everything seemed to take the rational view that this incident was but another unfortunate accident and that an apology had ample reparations would immediately follow. Election day is still more than two weeks off, all occasions of anxiety and it is questionable whether preceding that time we will get any im-

# City Brevities

Today's weather: Threatening with snow near the lake; stationary temperature. Yesterday's temperature: Seven a. m., 42 degrees; noon, 42; 7 p. m., 39. Maximum, 44 degrees; minimum, 39.

Judge Norman W. Haire of Ironwood was in the city Sunday, leaving yesterday for his home.

T. M. Wells, candidate for representation on the Independent ticket, was in Marquette yesterday.

The Scandia Aid society will attend the funeral of Charles P. Johnson this afternoon, leaving their hall at 1:30 o'clock.

The girls' choir will sing at the church fair at Fraternity Hall this evening. The art gallery will be an additional special attraction.

The funeral of the late Carl Johnson will be held from the house, on North Fourth street, at 2:30 o'clock this afternoon. The interment will be in Park cemetery.

The steamer German, which cleared Sunday evening with ore taken on at South shore docks, was severely pounded while making wet in west Saturday's blow. She shipped considerable water and sustained a number of cracked plates which will have to be replaced when the boat ties up for the winter.

The W. C. T. U. will hold a ten-cent tea and a "convention meeting" at the residence of Mrs. James A. Pearce, 341 W. Bluff street, this afternoon, beginning at 2:30 o'clock. Reports concerning the proceedings at the district convention recently held in Detroit will be made by Mesdames Pearce, Richardson and McPherson.

Good progress was made with the task of installing the new generator at the light and power plant yesterday. Last night the machinery was operated by use of the belt drive. Before 6 o'clock the incandescent lamps burned rather dimly, but after the stores were closed the service was up to standard. At 2 o'clock this morning the lighting service was suspended.

C. E. Foote of Kalamazoo, Mich., a pension claims agent, spent yesterday in the city, at Captain C. D. Blanchard's office, looking into the cases of a number of Marquette veterans. Mr. Foote has had a big experience in the pension department, formerly being located at Washington, D. C. He is a great friend of the old soldiers, and is always solicitous to see that deserving cases get all the attention that they are entitled to. Mr. Foote will spend today at Negaunee and tomorrow at Ishpeming.

Our carriers clearing yesterday were the Mariner, Matt and large 118, from the South Shore docks, and the Business, Germanic and Frontenac, loaded at the L. S. & I. dock. All except the Mariner, which cleared earlier in the week, are to make heavy weather. Other boats in port were the Ireland, which will load ore at the L. S. & I. dock, and the steamer Fulton, unloading coal.

It's like a "dip in the fountain of youth." Touches the cheek so gently that "youth lingers on the face of old age." That's what Hollister's Rocky Mountain Tea does. 35 cents, Tea or Tablets.—The Stafford Drug Co.

# DIVORCE CANON IS AGREED TO

EPISCOPAL GENERAL CONVENTION TAKES ACTION AFTER MANY DAYS OF DISCUSSION.

# DEPUTIES ACCEPT AMENDMENTS

RESTRICTIONS AS FINALLY ADOPTED VERY STRINGENT.

Re-Marriage in One Contingency Is Permitted After One Year but in Such Manner as to Make It of Rare Occurrence.

Boston, Oct. 24.—An agreement on the divorce question was reached by the bishops and deputies of the Episcopal general convention today, after many days of discussion. That section of the canon bearing directly on the marriage of divorced persons, which was amended by the bishops Saturday, was concurred in by the deputies today and became effective at once. It is as follows:

"No minister, knowingly after due inquiry, shall solemnize the marriage of any person who has been or is the husband or wife of any other person then living from whom he or she has been divorced for any cause arising after marriage; but this canon shall not be held to apply to the innocent party in a divorce for adultery; provided, that in the application for such marriage a period of not less than one year shall have elapsed after the granting of such divorce. That satisfactory evidence touching the facts in the case, including the court's decree and the record if practicable, with special proof that the defendant was personally served or appeared in the action, be laid before the ecclesiastical authority, and such ecclesiastical authority, having taken legal advice thereon, shall have declared in writing that in his judgment the case of the applicant conforms with the requirements of this canon; and provided further, that it shall be within the discretion of any minister to decline to solemnize any marriage."

The bishops adopted an amendment to a section referring to the administration of sacraments providing that if a clergyman shall have reasonable cause to doubt whether a person has been married "otherwise as the word of God and the discipline of this church allow," such clergyman shall refer the matter to the bishop before administering the sacraments. The deputies had made an exception in favor of the innocent party divorced on the ground of adultery."

The bishops also adopted a resolution providing that if a clergyman shall have reasonable cause to doubt whether a person has been married "otherwise as the word of God and the discipline of this church allow," such clergyman shall refer the matter to the bishop before administering the sacraments. The deputies had made an exception in favor of the innocent party divorced on the ground of adultery."

The deputies today rejected, after a long debate, a resolution introduced by Rev. B. Talbot Rogers of Fond du Lac, Wis., to strike out the words "Protestant Episcopal" from the title page of the book of prayer.

Rev. Francis Taitt of Chester, Pa., was today elected assistant bishop of South Dakota.

Mrs. L. C. Glover, Vice Pres. Milwaukee, Wis., Business Woman's Association, is another one of the million women who have been restored to health by using Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: I was married for several years and no children blessed my home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. He tried to cure me, but after experimenting for several months, my husband became disgusted, and one night when we were in bed together, he told me to get up and go to the store and buy a bottle of Lydia E. Pinkham's Vegetable Compound. I went out and bought a bottle for me. I used your medicine for three and one half months, improving steadily in health, and in twenty-two months a child came. I cannot fully express the joy and thankfulness that is in my heart. Our home is a different place now, as we have something to live for, and all the credit is due to Lydia E. Pinkham's Vegetable Compound. Yours very sincerely, Mrs. L. C. GLOVER, 614 Grove St., Milwaukee, Wis." Vice President, Milwaukee Business Woman's Ass'n.

Women should not fail to profit by the experience of these two women; just as surely as they were cured of the troubles enumerated in their letters, just so certainly will Lydia E. Pinkham's Vegetable Compound cure others who suffer from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

An Indiana Lady Tells of a Wonderful Cure:

"DEAR MRS. PINKHAM: It is a pleasure for me to write and tell what your wonderful medicine has done for me. I was sick for three years with change of life, and my physician thought a cancerous condition of the womb. During these three years I suffered untold agony.

"I cannot find words in which to express my bad feelings. I did not expect to ever see another well day. I read some of the testimonials recommending your medicine and decided to write to you and give your treatment a trial.

"Before I had taken half a bottle of Lydia E. Pinkham's Vegetable Compound, I began to sleep. I have taken now six bottles and am so well I can do all kinds of work."—Mrs. LIZZIE HINKLE, Salem, Ind.

If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. She can surely help you, for no person in America can speak from a wider experience in treating female ills. Address is Lynn, Mass.; her advice is free and always helpful.

\$5000 FORFEIT if we cannot furnish you the original letters and signatures of those who testify, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.

Ishpeming Department

MELOCH, HAS DEPARTED. Ishpeming's Star Politician Left City Yesterday for a Warmer Climate.

Dr. H. N. Meloche, who disposed of his drug business here last week, left the city yesterday, with no particular destination in mind. He said he was going south and that he would likely remain there for the winter, returning to the lower peninsula in the spring to locate. He will spend a few days in Detroit and other Michigan cities before starting south.

Meloche called on a number of friends yesterday to bid them good bye. It was not generally supposed that he really intended leaving the city so soon, and many expressed surprise at his step. The doctor has been at times the most kind of man in the county. His political "stunts" created much talk and amusement, particularly for those who visited his store to listen to his utterances. "Doc" was an advocate of every reform ever mentioned, and he left Ishpeming firm in the belief that he was responsible for some of the changes that have occurred here during the years he has resided here.

Meloche was a candidate for the majority, but last spring was the first time he was successful in getting his name on a ticket. He then created a party of his own, and at the mass convention held for the nomination of the various candidates "Doc" was "the whole works." Very few of his ostensible supporters took him seriously, and his vote was not large. However, Meloche was not at all discouraged and up to a few days before he would turn things bottom side up. He is extremely witty and is never caught without a ready answer.

Yesterday Meloche said: "I feel sorry to leave Ishpeming. I have had a good time here and I have made a number of good friends in the city. I really owe my existence to Ishpeming; I have made my money here and I am now going to enjoy the fruits of my labor. I have raised as much here as I possibly could and if I remain here I will never get out of the city. I shall never forget Ishpeming and some day I may drift back here to visit, but I do not now feel that I shall ever again locate here, save without a grievance against anyone, but I hope for the good of the city and its people that the reforms I have talked about will some day be adopted. I feel responsible for the municipal court, which was in my platform, and was never talked of by my political opponents until I showed the benefits to be derived from it. According to my notion Ishpeming will never be a first-class town until it is run on the wide open plan."

It is estimated by friends of Meloche that he quit the city from \$9,000 to \$10,000 richer than when he came here some seven or eight years ago. He has attended strictly to his business and has kept a tight grip on his money.

JUVENILE RECHABITES.

A Tent Will Be Organized a Week from Next Friday With Fifty Members. A juvenile tent of the Rechabites will be organized in this city a week from next Friday evening. The initiatory work will be performed by the officers of the senior tent. At a regular meeting of the latter organization last week a class of thirty-seven boys, whose ages range from ten to sixteen years, took the preliminary work. From a dozen to twenty more will appear at the next meeting. Officers will be chosen from among the boys.

The Rechabites is a temperance organization. The senior tent has been in existence here a number of years, and its present membership is near 100. A number of the new society will be five cents per week, which will go to the benefit fund. The meetings will be held twice a month in the hall at present occupied by the senior organization.

The tent will be named after the late Joseph Atwell, who was an enthusiastic member of the senior society. He was the first to propose a juvenile tent, and at the time he met death in the mines had plans well along for perfecting the branch.

SPECIAL RAILROAD RATES.

The South Shore passenger department has granted a special rate of fare for up-the-road people wishing to attend the production of "The Princess Chic" at Ishpeming theater tomorrow evening. The round trip fare from Champion and Michigan will be seventy-five cents, and fifty cents from Hurlburt. The midnight train will stop at all three places on the return trip. A number of up-the-road people have already placed orders for seats. The sale opens this morning.

Dr. Weaver's Treatment.

Syrup for the blood; Cerate for skin eruptions. Don't buy your cloaks, jackets or skirts until you have seen my line. It will pay you. Splendid assortment. Prices right. N. K. SKUD. (10-25-04)

BROKE INTO HIS HOUSE.

S. Le Quinn of Cavendish, Vt., was robbed of his customary health by influenza, which he contracted in Vermont. Dr. King's New Life Pills broke into his house, his trouble was arrested and now he's entirely cured. They're guaranteed to cure. 25c at Stafford Drug Co.'s Drug Store.

Upper Peninsula

Philip H. Davis of the Soo has filed a trust mortgage running to Edgerton R. Shepley as trustee for his creditors. The mortgage covers his stock of clothing and footwear at 514 Ashmun street. The mortgage names twenty-four creditors, whose claims amount to \$3,233.34.

Julius Stein, three-year-old son of Frank Stein of Escanaba, had a narrow escape from death. The child got possession of a bottle of medicine which had been prescribed for his father and drank a large portion of it. The concoction contained morphine and it was only after much hard work on the part of a physician that the child safely rounded the crisis.

Chas. J. Winkquist, of Antrim, Iron county, was almost instantly killed at that place as the result of being kicked by a horse, which he had taken out to water. He was returning to the barn, when the horse suddenly kicked out with its hind feet striking Winkquist in the pit of the stomach and knocking him down. When men nearby reached him, Winkquist was dead. He was aged twenty-one years and is survived by wife and one child.

Julius Gurnard, a young man of Stephenson, Menominee county, who intended to lead a bride to the altar today, was so seriously injured at the post mill that, Koss that, even should he recover, his marriage had to be postponed for an indefinite period. Gurnard was a new employe at the mill and was splitting cedar posts. Miscalculating the force of the saw and his own strength the post was thrown back, striking him in the pit of the stomach.

Henry Ploutz, a farmer living about three and a half miles south of Powers, Menominee county, committed suicide late last week by shooting himself in the head. Shortly before putting on end to his career, he went to a neighbor's house and asked to borrow a rifle, saying he intended to kill a dog. The rifle was loaned him and when the man was a few rods from his home he placed the rifle to his face and shot. The bullet entered below the jaw and escaped through the top of the head, blowing the entire face off. Despondency prompted the deed. Ploutz leaves a wife and five children in poor circumstances.

The case which will attract the greatest attention at the term of the Alger county circuit court in session this week at Manistiquette is that of the People vs. James Tyrer. Tyrer is the man who made the dastardly attempt to murder Prosecuting Attorney Freeman on the evening of the Fourth of July. He will be defended by Attorney Crocker, of Ishpeming. The court will appoint some attorney to prosecute the case. It is said that an effort will be made by the defense to have the case continued until the next term of court in the hope that Tyrer will have recovered. Tyrer has said that he expects to get not more than a ten-year sentence.

Irving P. Leahy, of Leigh, who for some time had been cashier at the Soo Line depot at Manistiquette, disappeared some days ago, since which time it is stated by the Manistiquette press, it has been discovered that his accounts are several hundred dollars short. The man, says the Pioneer-Tribune, had been living beyond his means to such an extent for some time prior to his disappearance as to elicit comment among those knowing him. He was bonded in a surety company so that the company will not lose anything. Leahy is believed to have gone to Milwaukee, although some of his friends express the belief that he has committed suicide.

Investigations made recently have, it is said, developed some facts that Basil Lezni, treasurer of the township of Maple Ridge, Delta county, is short in his accounts to the extent of \$4,000. Lezni is at present lying in a critical condition at the Delta County hospital as the result of an accident which he suffered two months ago. It is because of this sickness that his business affairs have become so badly complicated. Last spring when his books were checked up everything was all right, but since the accident matters have, it is understood, become badly mixed. Attorney G. R. Elmsop of Gladstone is acting in the interests of Lezni and his bondsmen while attorneys Cummins and Yelland represent the township.—Escanaba Iron Port.

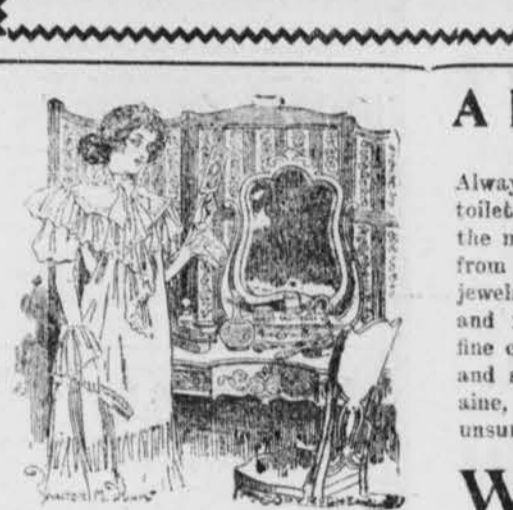

Matt Jylha, a young miner employed at the Tobin mine at Crystal Falls, was killed by falling from the skip into the shaft. The accident occurred when the men were going down to work and it is supposed to have been caused by the carelessness of one of the other men, who, in placing some drills in the skip, allowed one to slip down the shaft where it caught in the wall plate. Jylha fell and fell over into the other compartment of the skip. His body was found at the bottom and was badly broken up. Jylha was a Finn about twenty years old and has one brother in this country.

The following is a story from the Soo News. Supervisor Sidney D. Smith of Trout Lake, otherwise known in Chippewa county diplomatic circles as "Cattish Jim," was reported to State Game and Fish Warden Charles H. Chapman that a terrible slaughter of deer is going on in his part of the county. Smith claims that the work is done by Finnish settlers who have adopted a novel method of rounding up the animals. According to the information had been the game warden these people go out at night and saturate a number of turpins with chloroform. During the night the deer come to the field and partake of the roots, and in the morning are found sleeping peacefully on the ground. It is the easiest thing in the world to kill the animals after they have become turpinized. This is not the first time the versatile states-

man from the wilds of Trout Lake has come to town with stories of adventure and unheard of proceedings and the game warden is yet in doubt as to whether the venerable Mr. Smith is throwing on talk at him or is serious. It is probable that the tarpit patches of that part of the county will be raided anyway.

AFTER WALT WHITMAN. It is afternoon. I am sitting on the bleachers with someone's feet in my coat pockets. There are about one eleven thousand fellow men, with their mouths open, and pop bottles on the way to or from them. Occasionally they shout. I am stammered, dumfounded, by the mightily outpouring of sound vibrations. But I do not mind it. I am wedged between mountains of flesh somewhat moist. It is hot. I am baked, parboiled, incinerated and perspiring. But not so much so as the man next me, whose collar resembles a rag. He is fat. For 5 cents I have protected myself against the adamantine of the planks beneath me. By a cushion. On the whole I am very happy.

A man has stepped to the plate. He is a short, squat man, earnest, portly, with wide hands, a red neck and dirt on his pants. I know him. Last year he batted .808. He is homerunful. If he hits the ball I have won two loaves from the man beside me. It is a crisis. The multitude, intense, surging, wild-eyed, holds onto its breath with both hands. Suspense incarnates itself. Hark! The short, squat man has connected with the ball. Like the spokes of a chariot wheel his legs revolve toward first base. I yell. I throw my hat, recently bought, in the direction of left field. My back receives the castigation of many maniacs behind me, while Pandemonium, lurid, deep-tongued, intense, stalks about the grounds with its coat off. Hush! Someone has turned off the cheering. A thing called the umpire has brayed. The short, squat man is out. I hear cries about me. They indicate rage, anger, fury, irony, disgust, hate, loathing, repulsion, passion, aversion, despair—what you will. I join in them. They reflect my sentiments to a T. I dash my cushion to the ground. I climb to my seat and yell: "Lynch the backhearted robber!" "Lynch him off the grounds!" "Desecrate him!" These, with other expressions and epithets of which I am now ashamed. I boil with rage. The fat man next to me has pocketed my money. —Council Bluffs Nonpareil.

NEVER ASK ADVICE

When you have a cough or cold don't ask what is good for it and get some medicine with little or no merit, and perhaps dangerous. Ask for Foley's Honey and Tar, the greatest throat and lung remedy, it cures coughs and colds quickly. Stafford Drug Co.

Scald head is an excema of the scalp—very severe sometimes, but it can be cured. Don's Ointment, quick and permanent in its results. At any drug store, 50 cents.

## LEAVES THE CITY AFTER 50 YEARS

JOHN THONEY DEPARTS TO TAKE UP HIS RESIDENCE AT HUNTINGTON, INDIANA.

## WAS A PIONEER SETTLER

In the Early Days He Was a Leading Contractor and Builder—Is Now Well Fixed, and Has Good Mining Holdings.

John Thoney left last night for Huntington, Ind., where he will henceforth make his home. In leaving Marquette Mr. Thoney concludes a half century's residence in the city, he being one of the earliest settlers here who still survive. He expects to visit Marquette and the upper peninsula from time to time, if his life continues to be spared, but his home will be permanently in Huntington, where he has just completed the erection of a handsome new dwelling. He selects Huntington as the place in which to spend the remainder of his days because it is the home of Mrs. Henry Hoch, his daughter. Mr. Hoch was formerly a resident of Marquette, leaving this city for Duluth, where he became interested in the Duluth Brewing and Malt Company. On leaving Duluth a few years ago Mr. Hoch went to Huntington, where, with another man, he embarked in a brewery business, which has prospered since the firm took it over. The original investment was \$125,000, and the business has grown appreciably in the intervening time.

Mr. Thoney was accompanied to Huntington last evening by his daughter Grace, and will live in his new home with Grace and another daughter. His next door neighbors will be Mr. and Mrs. Hoch, who are also occupying a new home. Mr. Thoney has invested a considerable sum in his new residence. It is modern and beautiful, and has been largely furnished anew. He was then in his twenty-third year, and now he is a man of seventy-four, but still well and hearty and apparently with promise of several years more of life. He found Marquette the smallest sort of a hamlet, with practically all the pioneer work to be done. Of this work he bore his share and in the early days was a prominent and active citizen. He was best known here previous to his retirement from active affairs as a contractor, and is the man who built a number of the business blocks on Front street. He built the old Masonic hall and the Adams block on South Front street, owned by Sidney Adams, and was also the contractor for the present M. E. church. Mr. Thoney was a good builder and a successful manager, so he profited well from his work.

It has been upwards of twenty years since Mr. Thoney took any very active part in affairs. He has been taking life easy during most of that time, looking after his interests without pursuing any definite business. He had a great deal to do with mining ventures from time to time, and now has one holding that is of considerable value. He controls the Beaufort property in the western end of the county, which has been operated the greater part of the past

few years, though now idle. Mr. Thoney is very comfortably fixed, with his various interests. His departure leaves but two members of his family remaining in this county, Fred and George, his sons, in business here and at Ishpeming, respectively.

### \$7,500,000 IN NEW SHIPS.

Nineteen Giant Lake Freighters Will Be Built for 1905.

In the past few weeks, as detailed in The Mining Journal from time to time, orders have been placed with the shipyards of the great lakes for no less than nineteen coarse freight carriers, all of them, with one exception, being of great size, 500 feet or over, sister ships. The largest of these is the largest single order for new ships ever placed on the great lakes. In this connection it may be stated that the new ships already contracted for will have a combined season's capacity of 2,000,000 tons, or over. On a basis of sixty cents a ton from Marquette these steamers would earn carrying over, if they were all engaged in the traffic from this port, at least \$1,800,000 next year. This, with other considerations, their freight earnings for the upbound trips. As a matter of fact most of them will carry ore from Duluth, Two Harbors and Superior, at a rate of eighty cents a ton or better, in all likelihood.

The American Shipbuilding company will construct fourteen of the projected giant freighters, including the four steamers to be built for the Pittsburgh Steamship company. The Great Lakes Engineering works at Detroit has contracts for four. Another big ship to be turned out for next year is the sister steamer to the Tonesia, which is to ply on the Anchor Line route, being a regular caller at Marquette.

### UPBOUND BOATS.

Names of Craft Passing Canals Enroute to Lake Superior Ports.

Sault Ste. Marie, Mich., Oct. 24.—Roman and whaleback, Fairbairn, 9:30 last night; Siemens, Manila, midnight; Ames, Wisconsin, Fulton, Krupp, 1 a. m.; Neuding, Ottawa, 2; Packard, Utica, 6; Volunteer, 6:40; Mueller, 7:30; Linden, 8:30; Ellwood, 9; Choctaw, 10; Roby, Corvina and whaleback, 11; Rees, noon; Osceola, 12:30 p. m.; Northern Light, Soroma, 3; W. ### HONORS WITH MARQUETTE.

Won Two of the Three Contests With the Milwaukee Bowlers.

The honors of last evening's bowling contests fell to Marquette, the local team taking the three and one-man matches from the Milwaukee visitors, who were compelled to be content with winning the two-man match. The highest scores of the evening were made by Van Iderstine of Marquette and Moll of Milwaukee, who each got 224 pins in the three-man contest. The summaries are as follows:

—Three-Man Contest—  
Milwaukee— Tot.  
Palmer ..... 173 139 181 493  
Moll ..... 165 224 178 567  
Lipman ..... 149 171 153 473  
Totals ..... 487 534 512 1533

Marquette— Tot.  
Bowsher ..... 152 189 161 502  
Van Iderstine ..... 224 197 201 622  
Miller ..... 200 158 166 524  
Totals ..... 576 544 528 1648

—Two-Man Contest—  
Milwaukee— Tot.  
Palmer ..... 159 156 203 518  
Lipman ..... 153 165 204 522  
Totals ..... 312 321 407 1040

Marquette— Tot.  
Bell ..... 157 127 148 432  
Herrmann ..... 192 183 201 576  
Totals ..... 349 310 349 1008

—One-Man Contest— Tot.  
Moll—Milwaukee ..... 121 188 164 473  
Kimbell—Marquette ..... 152 215 153 520

### "PRINCESS CHIC" TONIGHT.

Excellent Musical Bill the Offering at the Opera House.

"Princess Chic" a comic opera with a record of several seasons' excellent success, will be the bill at the opera house this evening. The libretto of this piece has a thoroughly logical plot. The period in which the scenes are laid shows the decline of the feudal system, and the locale is the Province of Burgundy, which Louis the XI is trying to take from the Duke known in history as Charles the Bold. The prima donna role, that of Princess Chic, is sung by Sophie Brandt, and the sourette part, "Estelle," is in the competent hands of Carolyn Lum. Gus Vaughan's matchless baritone is heard in the role of Charles the Bold. Jane Vander Zee, who appears as the page "Lorraine," is a recent acquisition to the operatic stage. She is a former society girl. After hearing her sing Kirke La Shelle wisely induced her to sign a five years' contract. The chorus of "The Princess Chic" is one of the most beautiful, individually and as to color-scheme, that has ever been seen here, it is said.

Where are you going, my pretty maid? To the drug store, sir, said she. You see my complexion is getting bad, I need some Rocky Mountain Tea. —The Stafford Drug Co.

Buy five shares Michigan or Franklin for \$40 and double your money. J. W. Spear, Harlow block. (10-14-1w)

Stierle's Photograph gallery moved to 506 North Front street. Now ready for sittings. (8-31-1f)

Buy your overcoats at Johnson's. You can save from \$4 to \$6 on your purchase. (10-14-1f)

BEST IN THE WORLD. Gold Medal Flour gets first prize at the World's Fair. Sold by all grocers. (10-22-1f)

### MARQUETTE G. M. & M. CO.

Work Will Be Resumed at This Boulder, Col., Property.

There was a well attended and interested meeting of local stockholders in the Marquette Gold Mining and Milling company last evening. It was held primarily to discuss and consider a late report, one dated Oct. 13, on the company's property by B. A. Cardwell, a mining engineer of reputation and experience. This report was of a most encouraging nature. Mr. Cardwell says: "In all of my thirty years' experience in mining and the handling of mines, I have never seen a more promising proposition, nor do I believe one exists in the mining world where there is so much ore in sight that can be taken for the small amount of money it will require to get it. Samples taken from this dike, all along, run from \$12 to \$16 a ton. These samples were taken from the surface. Now, a tunnel from either the Norma or Baltimore will tap these croppings from nine hundred to a thousand feet, and can be driven in ore the entire distance of fifteen hundred feet." Again Mr. Cardwell says: "After a careful examination, I consider this one of the greatest possibilities for a very large mine that I have ever seen. With the money to put in proper machinery and to carry on the work in a systematic and careful way, it can be made a large producer with very little outlay compared with the magnitude of the proposition." These sentences convey Mr. Cardwell's general impression regarding the property. His report sets forth in detail the reasons on which it is based. Last night the stockholders decided to push work at the mine and formulated plans for raising the requisite funds. A reasonable amount of money will suffice.

MICHIGAN-WISCONSIN GAME. South Shore Road Offers Low Rate of Fare to Madison. The passenger department of the South Shore road offers an exceptionally advantageous fare for upper peninsula people who may be desirous of attending the championship football game between the University of Michigan and the University of Wisconsin at Madison Saturday. Tickets will be sold from all the road's Michigan stations at a rate of one fare plus fifty cents. They will be sold on the 28th and will be good for the return trip until Monday, the 31st. The Michigan-Wisconsin game is to be one of the big football events of the year in the west and it will likely be attended by a number of upper peninsula friends of either one or the other team. Wisconsin has been rounding into form very rapidly of late, and is now expected to give "Hurry-Up" Jack's protégés a hard game.

Gold Medal flour goes further, makes more and better bread than any other flour. Sold by all grocers. (10-14)

Use Gold Medal flour, because it is the best. Sold by all grocers. (10-14)

You can buy boys' overcoats at less than half price at Johnson's going out of business sale. (10-14-1f)

Men's woolen underwear, 50 per cent cheaper than you can buy it of any other store. Johnson's Clothing Co. (10-14-1f)

D. T. Hurley has a carload of fine winter apples; also a carload of onions, at very low prices. Come early, they are going fast; at Third street-crossing. (10-18-1w)
