RUSSIA IS STILL TO MAKE AMENDS

Tentative Reply Is Received at London but Only Serves to Inflammate the Public Mind.

PRESS IS MORE BELLICOSE THAN EVER

Tension Increases as Time Passes Without Reparation and Reports From All Naval Stations Show Extraordinary Activity--Is Reason to Believe, However, the Associated Press Is Authoritatively Informed, the Situation Is Brighter Than Appears on Surface and that the Incident Will Be Satisfactorily Ended--Blunder of the Russians Due to Panicky Fear Fishing Smacks Were Japanese Torpedo Boats--Squadron Arrives at Spanish Ports and Inclines to Ignore the Mandates of Authorities.

London, Thursday, Oct. 27.—Information has reached the Associated Press from an authoritative source that puts a brighter light on the Anglo-Russian crisis and that indicates that the North sea incident will be satisfactorily ended.

London, Thursday, Oct. 27.—The Mail today editorially speaks of war threatening, and gives in scare headlines, "Ultimatum to Russia expires this afternoon," etc.

The Telegraph, representing the government view, says: "There is no doubt whatever of the government's seriousness. No responsible ministers would order a fleet adrift the path of vessels of a foreign power without recognizing the responsibility of such a grave step; yet this is what his majesty's government has done with its eyes wide open."

London, Oct. 26.—The Russian reply to Great Britain's note on the North sea tragedy was received by the British government today. It expresses deep regret at the occurrence and promises full reparation as soon as the official report of Vice Admiral Rojestvensky, now on its way to St. Petersburg, is received.

Foreign Secretary Lansdowne considers Russia's reply, in its present form, incomplete, and especially in its failure to grant Great Britain's demand for the punishment in principle of such officers as might be found responsible. Lord Lansdowne said late this afternoon, however, that he trusted the matter would be settled within twenty-four hours.

In interviews at the foreign office with foreign ambassadors, Lord Lansdowne, though in no degree pessimistic regarding the eventual outcome, gave his callers clearly to understand that he did not regard Ambassador Benckendorff's letter as altogether satisfactory, and that it was distinctly incomplete. In the meantime the British naval preparations proceed quite apart from the diplomatic phase of the situation or the Russian's expressed belief in an early settlement.

During the day Ambassador Harding, at St. Petersburg, sent a note to Foreign Minister Lansdowne expressing his opinion that the measures reported to have been taken by the Russian admiralty to communicate with Admiral Rojestvensky are entirely inadequate.

Two Trawlers for Torpedo Boats. Vigo, Spain, Oct. 26.—The Associated Press has obtained an interview with Admiral Rojestvensky, who expressed great regret over the North sea incident. The admiral stated that the unfortunate occurrence was purely accidental. The weather on the night in question was rather hazy. About 1 o'clock a. m., two torpedo boats, which the Russians supposed were Japanese craft, suddenly appeared between the two divisions of the squadron and seemed to discharge torpedoes. The Russians immediately opened fire. They saw no fishermen, and were not aware any damage had been done. Evidently, the admiral said, the fishermen had shown no lights. The admiral repeated that he was greatly regretted that any injury had been done the fishermen, and added that he had no doubt the Russian government would make compensation.

Prince Kretschell, an officer of the battleship Emperor Alexander III, gives the following explanation of the North sea affair: "The transport Anadol, which was steaming ahead of the squadron, was suddenly surrounded by eight torpedo boats and requested assistance, whereupon the battleship division advanced and signalled to the unknown vessels to leave or disclose their nationality. The vessels refused to obey and advanced among the Russian battleships. Suddenly a cannon shot was heard from an unknown vessel. Then the admiral formed in battle line and replied to the fire, afterwards continuing his voyage."

Madrid, Oct. 26.—A telegram from Vigo says: "Officers of the Russian squadron have given the following explanation of the North sea incident: While steaming by night they saw two torpedo boats within the lines of the squadron. Supposing a Japanese attack was impending, they opened fire. They say they did not see any sailors looking like fishermen aboard the two boats fired at. The officers say they do not know if any members of the

crews were wounded. They express regret at the occurrence."

St. Petersburg, Oct. 26.—It is asserted on high authority that the emperor this afternoon received Admiral Rojestvensky's report. Vice Admiral Avellan, chief of the admiralty, has gone to the Tarskoye Selo and will not return until late this evening.

London Press More Impatient. London, Thursday, Oct. 27.—At 3 o'clock this morning there is no sign as yet as to when Admiral Rojestvensky's report will be made public, but if the official reports should turn out to reflect the admiral's official report it is evident that the Russian officer of making the extraordinary blunder of mistaking the trawlers for torpedo boats and firing on their phantom foes.

This astonishing explanation is regarded here as not inconsistent with the state of panic suggested as having prevailed among the officers of the Baltic fleet, and in that case it is suggested that the Russian government should find no difficulty in removing and punishing the officers responsible.

The newspapers this morning evince more heat and impatience than heretofore at Russia's delay, which is considered absolutely indefensible in the present circumstances.

Significant Naval Orders. Gibraltar, Oct. 26.—The battleships Victoria, Illustrious and Majestic (flagship of Vice Admiral Boreas) and the cruisers Lancaster, Thesens and Endymion are under orders to sail the morning of Oct. 28. It is reported the purpose is to shadow that portion of the Russian Baltic squadron which is expected to go via the Cape of Good Hope.

The Russian Baltic squadron's cruisers and torpedo boats are expected to pass through the straits of Gibraltar on their way to Suez. The whole Gibraltar torpedo flotilla has been commissioned.

The ships of the channel fleet have filled their bunkers with coal and have replenished their ammunition and other stores and will be ready for sea at a moment's notice. The battleship Hannibal and the cruiser Doris are watching the straits closely.

There is great activity at the dockyard, where men are working night and day. The admiralty is making inquiries concerning the coal available here.

TENSION INCREASES.

Russia's Tentative Reply but Inflammates the British Public Mind.

London, Oct. 26.—Tension increases as time passes without a definite settlement of the situation created by the Russian blunder in the North sea. Ambassador Benckendorff's tentative communication to Lord Lansdowne today and the fact it was regarded as unsatisfactory only served to inflame the public mind.

The arrival of Admiral Rojestvensky at Vigo and the certainty that he is in direct communication with his government removes at once the possibility of any delay on account of the inability of Russia to get his side of the affair. With this official version before the Russian government, together with the official statement of the members of the fishing fleet, it is unlikely the British government will allow another twenty-four hours to pass quietly without receiving a satisfactory reply to a note which demanded a quick answer.

Meanwhile the admiralty is not idle. Reports from all the naval stations show that tremendous activity exists. This is especially true of Gibraltar, from which place it is announced that some of the best of Great Britain's war vessels are under orders to proceed in the direction of the Baltic squadron and that all the ships of the British channel fleet are ready to go to sea at a moment's notice. Hitherto there has been no indication that the time limit had been set for Russia's reply, but the fact that three battleships and three cruisers are under orders for the morning of Oct. 28 is construed to mean that Great Britain will not wait longer than that date before unleashing her sea dogs.

REFUSES PERMISSION TO COAL.

Spain Serves Notice but Russians Are Inclined to Ignore It.

Vigo, Oct. 26.—Four Russian battleships and a transport have anchored in port. Other ships are approaching. The government has ordered the local authorities to only permit the re-voicing of the Russian fleet within the port on condition that the ships enter one at a time.

Later—The arrival of the Russian battleships Emperor Alexander III, Borodino, Grel and Kinzsh, twenty-four and the transport Anadol, which have anchored in this port, has caused considerable excitement.

The commander of the port immediately boarded the Russian flagship and informed Admiral Rojestvensky that the Spanish government would not permit the warships to coal within the port. Admiral Rojestvensky replied that his vessels needed repairs, and that for that reason he had separated from the remainder of his squadron.

The commander of the port promised to inform the Spanish government of the admiral's statement and to communicate the government's reply as soon as it was received. In spite of the fact that five German colliers anchored in port alongside the battleships, whereupon the commander of the port sent an aide-camp to beg Admiral Rojestvensky not to violate Spanish neutrality, and also ordered the commanding officer of the Spanish cruiser Estremadura to notify the colliers that they must obey the port authorities.

Eventually Admiral Rojestvensky promised he would get coal in Spanish waters, at the same time begging the commander of the port to obtain the government's permission for each warship to take on 400 tons of coal with which to reach Tangier. Shortly afterwards three colliers sailed for Tangier, but two remained alongside the Russian warships.

Madrid, Oct. 26.—The minister of the marine confirms a report of the arrival of a Russian cruiser at Villagarcia. The minister has received a telegram from the authorities at Vigo to the effect that two of the Russian battleships now there have sustained damages which will render it impossible for them to leave port within the prescribed twenty-four hours. The minister will discuss the question with the foreign minister at San Pedro and will give such orders as he may consider right. He declares that he will not authorize the coaling of the Russian warships in Spanish ports.

ARMIES MAKING READY.

Slaughter South of Mukden Soon to Be Resumed.

Mukden, Oct. 26.—There was no incident of importance yesterday. Both armies are resting and preparing to resume the slaughter. There is a rumor among the Chinese at Mukden that the Japanese are ready to attack.

Both Building Entrenchments.

Yantai Coal Mines, Manchuria, Tuesday, Oct. 25.—[Delayed in transmission.]—The two armies remain entrenched one another at close range along the entire lines. Both forces are working hard on the construction of strong entrenchments. On the Japanese left artillery is exchanging bombardments.

"Sniping" in the Trenches.

Oku's Headquarters, Monday, Oct. 24.—[Delayed in transmission.]—The position of the opposing armies is unchanged. Yesterday Russian cavalry drove back Japanese outposts on the extreme left, in turn retiring before a detachment of Japanese cavalry. A desultory artillery fire continues daily, and sniping goes on between the infantry in the trenches. Information regarding the reason for the delay in making further movements is undependable.

Russian Attack Repulsed.

With Rennenkampf's Column, by Courier via Mukden—[undated]—The critical day of General Gergross' attack on Tumin pass was Oct. 10. The attack began about daylight and about noon the attacking columns reached the hills adjoining Eagle Nest rock. The artillery fire was intense until 1 o'clock, when it was stopped. Storming the heights then began, and as the Russians advanced a perfect rain of lead was poured down upon them. The scene was one of horror. The Japanese once attempted to charge. They rose as one man in their trenches, but dropped back under a withering fire. The fighting continued for two hours, when the Japanese received reinforcements and the Russians were forced to retire.

SOUNDING THE POWERS.

Russia Anxious to Make Use of Her Black Sea Fleet.

London, Oct. 26.—The Associated Press learns that Russia is actually taking steps to sound the continental

(Continued on Page Four).

COUNTY TREASURER INDICTED.

Robbery Laid to Burglars Now Charged to the Official Himself.

Pomeroy, O., Oct. 26.—Late this afternoon the special grand jury investigating the alleged robbery by masked men of the county treasurer's office here Sept. 8, when it was stated \$14,000 had been taken, brought in an indictment against Thomas J. Chase, county treasurer, charging him with the embezzlement of that amount. Chase was arrested in his office and was brought in to court. Bond was fixed at \$10,000, but being unable to furnish it Chase was placed in the custody of the sheriff.

Others Thought Involved.

After Chase was locked up the grand jury resumed its investigation. It is expected indictments will be reported tomorrow of others who, it is said, are connected with the locking of Chase in the vault where he was found by his laughter. There is much excitement here this evening.

SECRETARY HAY GIVES WARNING

SAYS NOTHING BUT DISASTER COULD FOLLOW REVERSAL OF PRESENT POLICIES.

HE SPEAKS IN NEW YORK

CROWDED HOUSE ATTRACTED GIVES HIM AN OVATION.

Premier Declares the Democratic Campaign One of Fiction and Stander and Vigorously Arraigns Parker and His Platform.

New York, Oct. 26.—Secretary of State Hay was given an ovation when he appeared before a crowded house at Carnegie Hall tonight. A brass band played and flags were waved in every part of the house, while the audience cheered. Secretary Hay was introduced by Senator Elberg as "one of the greatest living Americans and the foremost diplomat in the world, a man whose name in every cabinet in the world is synonymous with honesty and fair dealing." Great cheering greeted the secretary as he arose. In part, he said:

"None of us will make the mistake of thinking the contest of this year unimportant. On the contrary, it goes down to the very foundations of our national welfare. It is not campaign rhetoric. It is merely the simple fact, to say that nothing but disaster could follow the reversal of the policies to which we are indebted for the prosperity of the past few years. The country can not afford to give up the gold standard and to drift on the shifting currents of financial experiment and quackery. It can not afford to give up the principle and practice of protection to American industries. Any radical meddling with the tariff would throw a thousand industries into confusion and bring many to ruin. Stability, unity of purpose, is absolutely necessary to the complicated and delicate machinery of modern business, where the change in the price of a single by-product may virtually affect the prosperity of a great industry and may make all the difference between comfort and want to thousands of workmen and their families."

"Nobody denies that the tariff must from time to time be revised, but it is too evident for argument that the revision must be entrusted to friendly hands—to those who believe, as a matter of business and of public morals, in the policy of cherishing American manufactures and of caring for the well-being of millions of American workmen. It is not a matter to be handed over to those who insist at the start that American industries have no right to protection at all, and that such protection is the robbery of the many for the benefit of the few." It was an old maxim of English law that said: "A child should not be given in charge to a nurse that loves it not."

"Neither can the country afford to trust its vast domestic interests to those who denounce as extravagant and unconstitutional all money spent for the 'general welfare,' to promote which was one of the special objects for which the constitution was brought into being. Do we want to give our gallant little army to the care of those who think it ought to be disbanded, or our navy—which under this administration has carried our flag into so many distant seas, never on a wanton errand of hostility, but always as the friend of American commerce and the protector of our citizens—do we want it handed over to the men who say it ought to be thrown to the scrap heap?"

"Do we want the Philippines abandoned to be the victims of misrule at the hands of their own agitators, or the prey of any covetous power that may wish to enslave them for its own profit? Do we want to snook out of the Isthmus of Panama, acknowledge we have no right there, and basely surrender the hope and the dream of centuries? And do we want to forsake and repudiate the foreign policy of McKinley and Roosevelt, which was also the policy of Lincoln and Monroe, which had its origin in the heart and brain of George Washington, of treating all countries as friends, doing business with all the peoples of good-will, meeting courtesy and wrong with firmness, being just to all nations and partial to none?"

"These are not idle questions. Every one of them is directly involved in the result of this election. On every one of them there is not a man here tonight but knows how the Republican party stands. In our platform, in our record, in the words of our candidates, our views and our intentions are made known to the world. Our path is marked out for us so plainly that even if we wanted to we could not deviate from it. If the people want a continuation of the policies of the last eight years, they know they will get it from the Republican party. But what man in this audience, what man in this universe, can tell what Judge Parker

(Continued on Page Four).

DAILY MINING JOURNAL, MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Rev. Silas C. Smallwood, just like the Democrats, is campaigning zealously, and asking for all the world as if he had a chance.

If the campaign orators and the political workers have any influence, the day will have at least one easy day during the forthcoming open season.

No wonder Admiral Jellicoe and his commanders so long avoided getting in communication with St. Petersburg. Wouldn't you, had you been in their places?

In the light of what happened to the Russian fleet at Port Arthur it is interesting to speculate on what the British might do to the Baltic fleet in European waters if they set out in earnest to do it.

The powers should join in the organization of a police squadron to accompany that Baltic fleet with the purpose of seeing that it sticks to the straight and trodden paths, and properly behaves itself.

The New York World, brought face to face with the facts of our expenditures in the Philippines and the great discrepancy between the actual figures and the \$600,000,000 mentioned by Judge Parker, remarks that the administration got the money and that if it was not spent on the Philippines it was spent somewhere.

Grover Cleveland remains the idol of the best Democracy. His New York speech created one of the best impressions of the campaign. Were a man like Grover Cleveland the candidate the Democrats would have a candidate without a peer, but he would not have half the Democratic support for the party, at least half of it, is still radical.

Mr. Bryan justifies his campaign work for Judge Parker by an elaborate argument to prove that the money question is not finally settled, but may later again become an acute issue.

Invitations for another Hague peace conference have now been forwarded to the signatory powers and, in addition, to four of the Central and South American republics which desire to adhere to the articles of the Hague treaty.

The time and place of the meeting will be determined by a majority of the powers which see fit to accept the invitation. This arrangement is a wise precaution against offending either the Russians or Japanese.

The Hon. Tim Nester evidently intends that there shall be no misunderstanding as to where he stands, and indeed there seem to be good grounds for his assertion that Mr. Ferris' course is "rank political treachery."

The comment of the Minneapolis Tribune on the workings of the direct nomination law in Minnesota, republished in yesterday's issue of The Mining Journal, is well worthy of attention from any person interested in this important question, and every voter should be interested.

If you didn't read it yesterday, look it up and read it now. It's a very impressive note of warning to Michigan to send the direct nomination system very closely before thinking of adopting it.

As outlined in The Mining Journal yesterday, primary reform is quite another thing, and a thing with which all good citizens cannot fail to sympathize.

The Democrats claim to have proof that the Panama revolution which gave birth to the present republic was fomented by agents of the administration. If they had such proof it would be produced posthaste.

The Panama revolution was, of course, highly opportune, so opportune, indeed, that suspicious people can hardly be blamed for thinking it was fomented. However, the right thing at the right minute is constantly coming to pass outside the covers of story books, and no one but a suspicious Democrat would warp the happenings in Panama into such an unholy fabric as a fomented revolution.

Thomas S. Baldwin of San Francisco is the designer and builder of a unique airship, one that is really capable of remaining in the air and of being steered and handled according to the will of the aeronaut sailing it.

Marine insurance has been profitable for the companies this year, as the record for the season's operations is blotted by but a few serious disasters and as yet the underwriters have been called on to pay but a limited number of heavy losses.

A large manufacturer in Madison was granted a rebate which made his rate \$1 on shipments which, according to the published tariff, called for \$1.50.

And certain Candidates I met, Their wrinkled tents will fold, And some will say that it is God, And others it is Gold.

Senator Beveridge was talking about several rebates. "An severe a rebate as I know of," he said, "was one granted a New York millionaire administered to his son."

What did Nesh live on when the flood subsided and his provisions in the ark were exhausted? asked a Sunday school teacher of his class.

One Too Many. The Youth's Companion prints this story of Lincoln, which was related by the late Senator Hann at an old settler's meeting at Mount Pleasant, Ia.

Rev. William May, probably the oldest Methodist preacher in Kentucky, if not in the country, is dead at his home in Perryville, Mo. He was ninety-three years old and had been preaching for seventy-five years.

As the Atlantic liner Colne was about to sail from New York the other day the ship steward informed the purser that Mr. Morgan had given orders to be notified five minutes before the gang plank was to be hoisted.

Illustrative of the czar's lack of confidence in the Russians who surround him is the following incident: "Czar Nicholas I had some trouble with his back and his physician ordered massage treatment.

Colonel John W. Crookman tells a good story related to him by General Benjamin Flager of Suspension Bridge. When the late William M. Everts was United States senator General Flager went to see him at Washington to secure his influence toward the appointment as collector of customs at Suspension Bridge.

Mrs. Allie—Of course you married Mr. Bobo for love? Mrs. Bobo—Well, yes, I suppose you would call it that. I married him to protect him from no less than three widows in our street. If I hadn't snapped him up, one of the other widows would have been sure to get him.—Boston Transcript.

"I see the trainer of men is called a 'coach,'" said the woman who had been reading the sporting page. "Yes," replied the husband; "that's right."

Would not interest you if you're looking for a guaranteed Salve for Sores, Burns or Piles. Old Dodd, of Ponder, Mo., writes: "I suffered with an ugly sore for a year, but a box of Bucklen's Arnica Salve cured me. It's the best Salve on earth, 25c at Stafford Drug Co.'s store."

Walter Wellman, the newspaper correspondent, who has been investigating the situation in the state, throws a strong light on this matter. The cry raised by La Follette against the railroads, it appears, has a much better foundation than demagogism. It is not only true that the railroads pay a less amount of taxes, proportionately, than other business institutions, and less in proportion to value and earnings than farm property, but it also seems to be true that they are guilty of unjust and demoralizing discriminations.

Walter Wellman, the newspaper correspondent, who has been investigating the situation in the state, throws a strong light on this matter. SUPERIOR TRUST COMPANY. Hancock, Michigan. Capital - \$150,000. This Company is under the supervision of the state banking department and is authorized by law to act as executor, administrator, guardian, assignee, receiver, or trustee.

Do You Play Foot Ball? or engage in any athletics that stretch the sinews and strain the muscles? Do you want to escape soreness and injury, and get the greatest good from your exercise? If so, use ARNICA LINIMENT after exertion. Penetrates instantly, soothes and relaxes every fiber. Note the peculiar sense of rest and comfort that follows. If an injury befalls, nothing will relieve quicker. Two sizes; 25 and 50 cents. DESJARDINS' PHARMACY, 417 N. Third St.

DO YOU SHOOT? We have a new stock of WINGHESTER LOADED SHOT GUN SHELLS AND Rifle Ammunition ALSO SINGLE BARREL UTICA SHOT GUNS \$4.50 and up. Hunting Knives, Game Bags, Etc. B. Neidhart & Co. Sporting Goods. MARQUETTE, MICH.

Colds. It should be borne in mind that every cold weakens the lungs, lowers the vitality and prepares the system for the more serious diseases, among which are the two greatest destroyers of human life, pneumonia and consumption. Chamberlain's Cough Remedy has won its great popularity by its prompt cures of this most common ailment. It aids expectation, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It contracts any tendency toward pneumonia. Price 25c, Large Size 50c.

There is Satisfaction on the face of the man who drinks our beer—satisfaction with his judgment in selecting with his judgment in selecting a small price, for Dr. P. Brewing Co. Handy thing to have about the house. Shall we send you a case? U. P. Brewing Co., Marquette, Michigan.

Artistic Effects are shown in our entire stock, and through our New Catalogue, we bring our out-of-town customers in touch with our large and complete lines of Jewellery—In Precious Stones and Gold Watches—American and Swiss Gold and Silverware—Flatware—Staple and Fancy Articles—Novelties—Glassware—Rich Cut Glass—Favrre—Imported Fancy Stationery—Wedding Invitations—Crests—Monograms, etc.—Superior in workmanship. Correct in form. Leather Goods—Complete Lines in Foreign and Domestic Leathers. The catalogue is filled with suggestions for wedding and holiday gifts, and contains many duty and inexpensive articles. We guarantee our goods to prove entirely satisfactory or money refunded. Catalogue sent on request. Correspondence solicited. Wright, Kay & Co. 115-25

THIS REMEDY CATARRH IS SURE TO GIVE Satisfaction. GIVES RELIEF AT ONCE. It cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly. It soothes, protects and restores the senses of taste and smell. Full size, 50c; at druggists or by mail. Trial size, 10c, by mail. BLY BROTHERS, 56 Warren St., New York.

CHICHESTER'S ENGLISH PENNYROYAL PILLS. Original and Only Genuine. It is the best remedy for all ailments of the stomach and bowels. It is the best remedy for all ailments of the stomach and bowels. It is the best remedy for all ailments of the stomach and bowels.

DR. BELL'S PINE-TAR-HONEY Cures Coughs. Look for the Ball on the bottle. Lake Superior Carriage Works. E. J. WOLF, Proprietor. Manufacturer of and Dealer in Fine Carriages, Buggies, Cutters, Sleighs, Wagons, Rubber Tires, etc.

Sour Stomach. No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Kodol DIGESTS WHAT YOU EAT Gives Health to the Sick and Strength to the Weak. Bottles only \$1.00. Size holding 2 1/2 times the trial size, which sells for 50c. Prepared by E. C. DeWitt & Co., Chicago. For Sale by THE STAFFORD DRUG COMPANY.

CHICAGO GRAIN MARKETS. Chicago, Oct. 26.—There was only moderate speculative trade in wheat today, but the tone, nevertheless, was quite unsettled. The most quotations showed December of 5 and the May also down 5/8. The start was steady, but the commission house trade was light. Later on, the demand for December became more general and the situation turned quite firm. The contract values were rather surprising to the shorts, in view of yesterday's liquidation by the Northwest, and many covered on the rise. Toward the close the selling pressure was renewed and the market again became active. December opened at 114 1/2%; highest, 115 1/4%; lowest, 113 1/2%; closing, 113 1/2%. May closed at 112 1/2%.

COPPER
 The new edition of the Copper Handbook lists and describes 2,511 copper mines and copper mining companies in all parts of the world, covering the globe, these descriptions ranging from two lines to twelve pages each in length, according to importance of the mine. The descriptions are not padded, but give facts in the most condensed and readable form.
 There are also fifteen miscellaneous chapters devoted to the history, uses, metallurgy, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal.
 IT IS THE WORLD'S STANDARD REFERENCE BOOK ON COPPER.
 Every Miner, Prospector, Investor, Banker and Dealer needs the book. Price is \$5 in cloth binding with gilt top, or \$1.50 in paper binding. The book, in either binding, will be sent, fully prepaid, on approval, to any address in the world, to be paid for if found satisfactory, or may be returned, within a week, or receipt, and the charge will be refunded. Address the Author and Publisher.

Copper Country

NOTED MANY CHANGES.
 General Alger in the Copper Country Eight Years Ago.

Senator R. A. Alger, who addressed a large Republican meeting at the Keredge theater in Hancock last evening and who will be heard at the Calumet Armory tonight, expressed himself yesterday as well pleased with the substantial appearance of things in the copper country. He complimented Hancock on its paved business street and fine public buildings and spoke of the general air of prosperity that pervades the entire district.

The senator was much interested in the local political situation and heard with satisfaction that the county is safe for Roosevelt, Warner and the Republican ticket as well. He remarked that it was just eight years ago that he visited the copper country, speaking in Calumet, and that the changes since then have been noticeable as far as he has seen. He expressed confidence in a great Republican victory this year. The general was accompanied to Hancock by Fred Alger, his son; G. J. Diekmann, chairman of the Republican state central committee; George W. Hanson, Senator Alger's private secretary, and Fred Marston, R. H. Shields of Houghton, chairman of the Houghton county Republican committee, met the party at Nesteria. They came to the copper country by the new route.

An enthusiastic assemblage heard the senator last evening on national and state issues. Chairman Diekmann also spoke. Tonight a big rally is planned for Calumet.

DEMOCRAT DOWNED.
 A Democrat and a Republican were having a hot discussion about the tariff, money question, trusts and the like, the other night. The Republican was telling his friend how he had to wear calico trousers way back in '56 on account of the Democrats and of the hard times in general in Democratic administrations. And during the course of his remarks he put in a fine bit of sarcasm by saying he wouldn't care very much if the Democrats got in again, that during the last Democratic administration he made all kinds of money—because he hired men for a dollar a day and they were glad to get it, and now that the Republican party is in power he has to pay them two dollars a day and they aren't a bit satisfied. The Democrat got red hot, but of course got the worst of it because his friend had the goods. The Democrat was game, however, and offered to be a straw that that Parker party was bent on breaking. The Republican then added the stipulation that the loser would have to wear the hat for a month after election the Democrat went down and out, and only a high ball with lots of ice in it brought him to.

CONSTRUCTION WORK AT HANCOCK.
 General Manager Herbert Isaac, of the Portage Lake Gas & Coke company, is expected home this morning from Detroit with the plans and specifications for the plant which will be located just west of the Portage Lake & Dock company's docks on the Hancock shore of Portage Lake. Chief Engineer Parker said yesterday that construction work would be started at once and that about twenty-five or thirty masons would be employed. The stone for the building foundations is on the site which will be crushed on the premises. The work will be rushed, as the company is desirous of furnishing Hancock people with gas now that the mains are in and many of the houses piped. Houses are being piped daily. Houghton will be supplied with gas as soon as navigation closes. A main across the lake from the lake cannot be laid until the lake freezes as the work now would interfere with passing boats. Most of the mains have been put down in Houghton and houses are being piped. The company expects to extend its service there early next summer.

RHODE ISLAND AND TEXAS.
 "Louie, the biggest boy in the world, regularly employed at the Board of Trade," does not attract much attention at a distance, but when he passes an ordinary sized individual he is a sight to behold. In fact, Louie, who is taller than the average run of men, looks dwarfed alongside Louie. One young lady remarked yesterday that she had the opportunity to sit on the same bench with Louie just the day before as he passed herself and her son on the street. "My, but he's tall, isn't he?" she said. "Average sized persons feel rather small in passing him. And just after that he struck me in a more amusing light when the gentleman with me said, 'There goes Rhode Island and Texas.'"

JUBILEE WEEK.
 Rev. W. J. Balmer and the members of the Hancock Methodist church are arranging for a "jubilee week" beginning next Tuesday, in honor of the first anniversary of dedication week. There will be special services, good music and an anniversary sermon, the programs for each evening and Sunday remaining to be arranged. The Epworth League will be in charge of the first evening's program, next Tuesday, and it is likely that supper will be served. Wednesday evening, Nov. 2, the Brotherhood of St. Paul, which was organized a year ago, will celebrate its anniversary and Rev. Mr. Hewson of Painesdale will give a lecture on "Billy Bray." Rev. Mr. Balmer will preach the anniversary sermon Sunday, Nov. 6.

TO REMOVE TO WISCONSIN.
 W. R. Daskam, who has conducted a hardware store in the Dees postoffice block at Houghton the past two years, will leave this week for Park Falls, Wis., where he will engage in the same business. He started to ship his goods yesterday. Park Falls is a thriving little town and has a large population. The Wisconsin Central railroad in Price county. The opening for a hardware business is a good one and Mr. Daskam undoubtedly will do well.

CHURCH FAIR VERY SUCCESSFUL.
 The fair conducted in St. Patrick's Hall during the past ten days by the ladies of St. Joseph's church at Hancock came to a close last evening. It was a great success and a large amount of money was raised for the support of the church. The entertainment line every evening, interesting contests for prizes and a large display of various ornamental and useful articles for sale made the fair attractive.

ALARM SIGNALS AT CROSSINGS.
 The Copper Range railroad is preparing to install a system of electric alarm signals at grade crossings along its line. Each signal will be a large bell which will begin to ring as soon as a train approaches the crossing and continue ringing until the train has passed. At night the bell will be supplemented by a red light. The system is valuable and it is a great preventative of serious accidents.

A QUART OF MILK.
 and a package of JELLO-ICE CREAM POWDER is all that is required to make nearly two quarts of delicious ice cream. Everything else is the package. Simply stir in the milk and freeze in the usual way. Makes the nicest ice cream you will ever buy. Your kind: Vanilla, Chocolate, Strawberry and Unflavored. At all grocery stores; 1 package for 25c.

TEN WEEKS IN A HOSPITAL.
 Mr. Christ Schorr, of Phillips, Wis., writes: "Gloria Tonic cured me completely of rheumatism. The hospital failed to do it. I was in it twice, once three weeks and another time seven weeks. Sold by The Stafford Drug Co."

FOR SALE CHEAP.
 A carload of choice winter potatoes. Apply to F. H. Vandenberg, Marquette, (10-24-1w)

MEANS MUCH TO COPPERDOM.

Advancing Prices of the Red Metal of Much Importance Here.

A resumption of aggressive activity at the Mass mine in Ontonagon county represents a condition that is more than interesting to every man who has the interests of the copper country sincerely at heart, editorially declares the Calumet News. It is also subject to interpretation which reflects a meaning of vital importance to all copper interests. The determination to increase the output of the Mass mine was reached at a meeting of the directors of the company in Boston. Unquestionably their action was based in a large measure upon the outlook for the copper metal market. Boston men of unquestioned judgment who have long been familiar with the copper market during the last month have predicted fifteen cents for copper before the present advance ceases. These men may be mistaken in their forecast. But whether they are mistaken or not, their predictions are certainly based upon indications that lead to a belief in an increased demand for the metal. The outcome of these signs of the times cannot be forecast with absolute accuracy. But the indications are certainly based upon a "health germ" which is of the "best culture."

In connection with the resumption of operations at one idle shaft of the Mass mine, the development of a new shaft, a new operating shaft, may be mentioned as a decided improvement in the character of the copper rock announced from the Adventure, the continued encouraging outlook at the Michigan and the Victoria. All of these conditions portend well for the south end of the copper country.

The management of the Adventure reports a decided improvement in the last few days. The ore has been opened in the eighth level drift as it makes away from the rugged surface and comes out under the more level ground. Plans are making for an increased shipment of ore, and the character of the ore is of the proper character can be opened up. Close selection of rock is being made, and with such a condition existing, demanding a larger amount of available sloping ground, it is possible, the rock shipments are gradually increasing and the copper output is more than proportionately enlarged.

The Michigan mine has already established a creditable record and several months ago gave excellent promise of accomplishing the anticipations of those who were responsible for its development. This promise is being redeemed by present conditions, and the outlook is even brighter than that of last spring. The Victoria has developed ground which the management considers sufficient to keep the mill in operation from three to five years, and has distinct promise of producing a large amount of ore. It is possible to resume with air power generated from the falls of the Ontonagon river at a minimum of cost. In the meantime the completion of the hydraulic compressor being driven is soliciting business in the mill. It has been purchased and is at the nearest railroad siding, ready to be carried to the location as soon as snow ceases, and preparations are under way in the shaft for permanent hoisting.

QUINCY ADAMS SAWYER.
 "Quincy Adams Sawyer" is presented at the Keredge theater Saturday night. This production was given with great success in the copper country last season, and it will be heartily received here. The play is a comedy and is a popular one, will hold the boards.

SHINGLE MILL CLOSED.
 The Worcester Lumber company of Chassell has closed its shingle mill for the winter, having a sufficient stock of shingles on hand to supply the market. In a short time the sawmill will shut down for a few weeks for repairs preparatory to an active winter. The night shift at the mill has been taken off until the first of the year.

LOW RATES TO MADISON.
 The St. Paul road also has arranged for a cheap rate to Madison, Wis., for the winter. The rate is \$1.00 for the round trip. Tickets will be sold tomorrow for one fare plus fifty cents for the round trip, and will be good to return until Monday. It is expected a large delegation of local enthusiasts will go.

COPPERDOM BREVITIES.
 The Houghton women council has approved the liquor bond of Henry M. Feldman, who will open a new liquor store in the Carpenter building at the corner of Sheldon and Quincy streets Nov. 1.

Beer hunting licenses are being issued by county clerk Richardson at a special rate these days. About eighty permits to hunt have already been taken out with the season nearly two weeks off.

John S. Bleaker, the new superintendent of the Houghton County Street Railway company, has arrived in Houghton yesterday on the Pittsburg & Duluth road. He was formerly in charge of an electric line in Seattle for Stone & Webster.

The schooner Ashland, a consort of the steamer Progress, of the Corrigan line, is undergoing repairs at Houghton. She shipped her lumber while being in the harbor at the canal, and the mishap required the services of a diver.

Superintendent Draper of the Good Will farm yesterday sent an incoffable boy to the Coldwater reformatory. Draper has had considerable trouble with him and finally reached the conclusion it would be best to turn him over to the authorities.

The Baltic football team, which will meet the Atlantic eleven in association style Saturday afternoon, will be reinforced by a number of old players, including Dr. Gibson, Bert Morrison, Dr. Hay, Dr. Wilson and Percy Hartney of Portage Lake fame.

COPPER AND NICKEL PLATING.
 The attention of manufacturers who have copper and nickel plating, or enameling on metal of any description to do, and not in sufficient quantities to warrant their putting in a plant of their own for this purpose, is called to the advertisement of the National Cycle Mfg. Co., of Bay City, Mich., in this issue. This concern is thoroughly reliable, and has every facility for supplying your needs at the lowest prices consistent with first-class work.

THOUSANDS OF PEOPLE
 are splitting their throats and are coughing themselves to death, when a bottle of "Gloria Lung Balsam" would stop the cough and soothe the throat. It is made of healing balsam and the best for children. Sold by The Stafford Drug Co.

Mining News

NOTES FROM BISBEE.

Correspondence from Bisbee, Ariz., says:
 Up to Oct. 1 the Calumet & Arizona mine has made 24,875,000 pounds of copper for the year, against about 25,800,000 pounds for the entire year 1903. The remainder of this year should bring its total up to 32,000,000 pounds. When the company's Irish Mag shaft was sunk no ore was cut before 1901, and since that time the mine has been raising ore above that level in hope of getting large bodies at about 700 feet. This development toward the surface will be continued as far as possible.

The annual meeting of the Calumet & Cochise will be held Nov. 15.

Reports from Gold Hill are that the Houghton Development company has cut copper ore in a tunnel, after passing through several feet of a mixed siliceous ore of high value. It looks as though there were several hundred feet of ore above the tunnel.

Ore has been cut from the shafts of the Chiricahua Development company at Paradise, forty miles east of here, and the outlook for the district there is very promising.

What is generally stated to be the biggest ore body ever cut at Cananea, and is known to be one of the largest copper bodies ever found anywhere, has been opened in the Greene Consolidated, a capacity of 24,000 tons of ore monthly, and the addition of these concentrates will largely increase the smelter production. Concentrator "A" is now treating better than 20,000 tons a month. Greene ore is high in silica and concentration increases not only copper, but sulphur and iron, so that smelting is a much more simple proposition than on raw ore.

The Higgins company is now busily endeavoring to secure an extension of its bonds, which come due shortly. If no extension is given the company doubtless will abandon the property, as nothing valuable has been found. It is said that Calumet & Bisbee is not at all sure that its plan for rehabilitation by the substitution of more stock is assured, and its time is growing short.

The Shattuck Arizona is sinking about three feet a day and is down 200 feet. It is hoped that the mine may be out long in February, and at a depth of 500 to 600 feet. The shaft is now in line.

The half-cent increase in the price of copper during the past few weeks, making an annual advance of \$450,000 to the two companies in this camp that are now smelting.

Old Dominion, at Globe, has blown in both its new furnaces. No. 1 is now running 150 tons of ore daily, and No. 2 is not yet up to full capacity. The mine should make from now on better than 20,000,000 pounds of copper annually. Some 70,000 tons of stock are held by the Copper Queen smelter at Douglas, and some Bisbee ore is going to Globe, for a mixture with the siliceous ore of that camp. It was this possibility of a fine mixture that gave the Phelps, Dodge & Co. interest in such an opportunity at the Old Dominion.

The Bisbee Review says:
 The rich ore encountered in the Houghton two weeks ago continues. There is now a flow of ore in the tunnel. The further in the tunnel gets the richer the ore gets. Samples brought to the city yesterday by R. L. Samuels, of the Bisbee Consolidated, showed leaves of silver, lead and copper. The outlook at the property is most encouraging. It is now expected that another 100 feet will put the tunnel into the body of copper that it is expected to catch under the iron caping on the surface.

Word was received in the city yesterday that the new well recently put down at the Calumet & Arizona smelter, has secured a flow of water. The well was now down 400 feet, into a strong water bearing strata, and then capped. This water which was opened for use and the water immediately poured over the top of the casing. It has since continued to flow about two inches of water over the top of the pipe. The development of artesian water at the smelter property is valuable not only to the Calumet & Arizona, but to the ranchers in the valley and adjacent as well. If the water can be turned to their condition will be greatly benefited.

George Tenner, Chester A. Congdon, L. Merrill and Captain James Houston, who comprise a committee representing the eastern stockholders in the Bonanza Circle, have concluded their investigations in this section and will return east this morning. The first business of importance to be transacted was securing a short extension of time on the contract for the Pittsburg & Duluth property. This was accomplished yesterday upon the arrival of Martin Costello from Los Angeles, and the final agreement between the company and the original owners was signed. The Pittsburg & Duluth has been reorganized as a mining company, and the first payment on the new mining stock comes due next month. It was in order to get this money, from the sale of the mining stock, that the extension was asked. When seen at the Copper Queen, Mr. Tenner said: "The extension asked for by the Pittsburg & Duluth company was conceded by the original owners. We have all the time we need. It is expected that the final payment on the property, amounting to about \$700,000 will be made early next spring. When asked for a statement regarding conditions at the several properties in which his people are interested, Mr. Tenner said: "The committee which has been in Bisbee for the past several days is entirely satisfied with conditions at the mines. We find the work going ahead in a very pleasing manner, and some of the principal property in that district will be shipped over to the smelter at Douglas."

When asked pointedly if the committee had considered the proposition of a new shaft at the Calumet & Arizona point but Douglas, Mr. Tenner stated that they had not, and went into figures to show that there was very little to be gained by having the smelters within four or five miles of the mines over their present location. Machinery has already been ordered for another furnace at the Calumet & Arizona smelter at Douglas, and will probably be put into commission during March next. This is the only increase in the capacity of the smelter for the Bonanza group that is being considered just now. Mr. Tenner said that there was a

great deal of work to be done before any of the other properties would be taking out ore for shipment to the smelters. While the ore is there in large quantities it takes a great deal of preliminary work before the ore can be loaded and handled in an economical manner.

The committee expressed themselves as gratified at the rapid progress being made by the E. P. & S. W. railway in getting their track up to the Lake Superior and Pittsburg shaft, and from the present outlook the first ore will be hauled to Douglas from this mine early in the spring. Speaking of the Calumet & Cochise, Mr. Tenner stated that the pumps were gradually getting the best of the water at the mine, which was very gratifying to the management.

JOHN STANTON ON COPPER.
 John Stanton of New York is quoted as follows:
 "The Copper Producers' association developed the fact that normally the increase of copper production in the United States is 10 per cent annually. This was about the rate in 1902, but 1903 did not show such a large increase nor will 1904."
 "It seems to me the fact is overlooked or underestimated that it takes from two to three months to deliver copper from the time it leaves the mine. At the Lake two months is about the average. For example we have not as yet managed to get all our August copper smelted. In the West the time is longer as the copper is treated electrolytically and this process consumes approximately three months. My theory is that we must always have a stock on hand (meaning by this at the smelters, in transit and in consumers hands) equivalent to nearly one-fourth of the annual output of our mines."
 "At the beginning of the year the stocks were a little over the necessary supply, probably 15,000 tons surplus, but this has now been eaten into and today we are selling pretty close to the wind. The Metal Exchange's estimate of 70,000 tons stocks on Jan. 1, included Copper Queen smelter at Douglas, and some Bisbee ore is going to Globe, for a mixture with the siliceous ore of that camp. It was this possibility of a fine mixture that gave the Phelps, Dodge & Co. interest in such an opportunity at the Old Dominion."

Early in the year things were bad. Steel was down and general business had slackened up. With it the demand for copper fell and producers cut prices to secure orders. Then came the foreign exports. At first we thought them temporary. I was pessimistic as to their continuance, but recently I have talked to men who have just returned from Europe and they say the electrical works are running night and day, particularly on the continent, and they could do more business had they the plants to handle it. We are also shipping copper to China and will probably continue to do so.

"Our consumers have used the surplus up. The business outlook is rosy. Betting odds indicate an easy Republican victory. After the election we shall see the American consumer rushing for copper and the producers are holding off. "After November, when Roosevelt is elected president, we shall see fourteen cents for Lake copper. If Parker is elected, bisbee will halt, but not go to the bad and the halt will not last long. I expect no great scarcity of copper, but it will be scarce enough to call for higher prices."

NORWICH.
 As previously mentioned, Marmaduke Richardson of Paris has sold the Norwich and Lafayette properties in Ontonagon county to the Copper Crown Mining company, composed chiefly of St. Louis, Mo., people, which is developing the Hamilton mine. It is understood that Alfred Menzies, formerly of Ontonagon, but now a resident of Marquette, conducted the negotiations for Mr. Richardson. It is presumed that the Copper Crown Mining company will at once take steps towards the development of the properties.

The Norwich, with the possible exception of the Victoria, is the most important mine west of the Ontonagon river. It has figured in so many supposed sales in the last few years that Ontonagon county people are glad that it has actually passed into the control of a concern which proposes to investigate the merits of the property.

The Norwich is an immediate neighbor of the Hamilton, where the Copper Crown Mining company is doing some exploratory work, lying to the west of that property and is about eight miles as the crow flies from the main shaft of the Victoria mine, being a little to the southwest. From the Norwich it is a straight-line distance of fourteen miles northwest to the Noncuch mine in the Porcupine mountains, the latter being the principal property in that district.

Work at the Norwich was first commenced in 1850, when the company was organized. In 1856 an old-fashioned eight-stamp mill was built but the company suspended operations a couple of years later. During the next five years it was worked by tributors. In 1863 the Windsor property adjoining was absorbed and additional capital was obtained by a reorganization. The mine was shut down in 1868 after expending assessments aggregating \$230,000.

It was thirty-five years before a re-emption occurred, in 1893, but after eighteen months the work ceased again. The Norwich, like many other properties west of the Ontonagon river outside of the Porcupine mountains, has produced considerable mass copper, some pieces weighing as much as ten tons.

COPPER QUOTATIONS.
 Copper was a little higher in London yesterday, closing at £60, 17s, 6d for spot and £61, 3s, 6d for futures. At New York the market was firm and a little higher on the inside price of Lake, which is now quoted at 13.37 1/2 @ 13.50. Electrolytic is held at 13.12 1/2 @ 13.17 1/2 and casting at 13.00 @ 13.12 1/2.

DANGER IN FALL COLDS.
 Fall colds are liable to hang on all winter leading the seeds of pneumonia, bronchitis, etc. Dr. C. D. Warner's White Wine & Tar cures quickly and prevents serious results. It is old and reliable, tried and tested, safe and sure, contains no opiates and will not constipate. Stafford Drug Co.

FREE TO ALL MINISTERS.
 I will send one bottle of Warner's White Wine of Tar—the best cough remedy on earth—free to all ministers who will recommend it to their friends after giving it a fair trial. Address, Dr. C. D. Warner, Coldwater, Mich.

CONFRONTS THE GRAVE.
 Neglecting a cough means confronting the grave. Use Gloria Lung Balsam before it is too late. It is the only remedy which brings quick relief. It is made of honey and tar and other healing balsam, and is best for children. Sold by The Stafford Drug Co.

A YEAR OF INTENSE SUFFERING.
 Mrs. Carrie Askey, Cumberland, Wyo., suffered for more than a year with sore throat and a tickling in the throat, that kept her coughing night after night. She used Warner's White Wine of Tar and has not lost a night's sleep since. Write her.

CAN YOU EAT?
 J. B. Taylor, a prominent merchant of Christiana, Tex., says: "I could not eat because of a weak stomach. I lost all strength and ran down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol Dyspepsia Cure, I concluded to try it. The first bottle benefited me, and after taking four bottles, I am fully restored to my usual strength, weight and health." Kodol Dyspepsia Cure is sold by all druggists and confectioners. Sold by The Stafford Drug Co.

SPECIAL EXCURSION RATES TO COLORADO, UTAH AND THE BLACK HILLS.

HOPKINS' CURB LETTER. The curb letter issued yesterday from Hopkins' office was as follows: "It is the same old story after a break and the public are of the opinion they can buy cheap stocks but when we go to buy them there are none for sale."

SPECIAL RATES TO MARQUETTE. Ishpeming and Negaunee people desiring to attend the Republican rally at Marquette tomorrow evening will be given a special rate of fifty cents for the round trip, good on the South Shore train leaving here at 2:15, 4:15 and 6:50.

POPULAR COUPLE WEDS. John Hosking and Miss Lizzie Freeman, two well-known and popular young people of this city, were united in marriage yesterday afternoon at 4 o'clock at the home of the bride's mother, Mrs. Eliza Freeman, on East Cleveland avenue.

SAVES TWO FROM DEATH. "Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well."

"A dose in time saves lives." Dr. Wood's Norway Pine Syrup; nature's remedy for coughs, colds, pulmonary diseases of every sort.

NEVER ASK ADVICE. When you have a cough or cold don't ask what is good for it and get some medicine with little or no merit, and perhaps dangerous. Ask for Foley's Honey and Tar, the greatest throat and lung remedy, it cures coughs and colds quickly. Stafford Drug Co.

NOTED MEN WILL SPEAK. Senator Dolliver and Dr. John C. Freeman Here Next Month.

Superintendent E. E. Scribner, of the Ishpeming public schools, has secured two prominent men, both of national reputation, to address the teachers who will meet in this city during the Thanksgiving vacation, when the annual session of the Upper Peninsula Teachers' association will be held.

Both of the evening meetings will be held at Ishpeming theater, Senator Dolliver opening the educational sessions Thanksgiving night. His subject will be "A Poor Man's Government and a Poor Boy's Country."

On Friday evening Dr. Freeman will talk on "American Methods Abroad." The doctor was United States minister to Greece a number of years and he has talked many times on the subject announced for his Ishpeming engagement.

Mr. Scribner expects that not less than 300 teachers will attend the institution, inasmuch as the hotels will not be able to furnish accommodations to all the visitors he will be pleased to have the citizens open their homes for them.

The teachers will be tendered a reception and hop Friday evening at the conclusion of Dr. Freeman's lecture. It will be held at Braastad's hall. Trombly's orchestra will furnish the music.

GOOD PLAY TONIGHT. "Quincy Adams Sawyer," a Story of New England, Will Be the Bill.

From the moment the curtain rises on "Quincy Adams Sawyer," the great rural drama which will be at the Ishpeming theater tonight, the genuine country atmosphere is established and everybody is directly put into that receptive mood which is a guarantee that the play is a thorough pleasure to theater-goers.

MICHIGAN-WISCONSIN GAME. C. E. Webb, general passenger agent for the Chicago & Northwestern railway, has secured from the passenger department a special rate of fare for upper peninsula people attending the Michigan-Wisconsin football game at Madison next Saturday.

SPECIAL RATES TO MARQUETTE. Ishpeming and Negaunee people desiring to attend the Republican rally at Marquette tomorrow evening will be given a special rate of fifty cents for the round trip, good on the South Shore train leaving here at 2:15, 4:15 and 6:50.

ISPEMPEM IN BRIEF.

G. L. Woodworth was down from the Beaufort mine yesterday. Mrs. M. W. Krogman left Tuesday for Chicago on a business trip.

A special meeting of the local branch of a "Clubs" union will be held Monday evening. D. M. McDonald, a mining man of Virginia, Minn., had business in the city yesterday.

Miss Emily Harris and her mother have gone to Chicago, where Mrs. Harris will undergo a surgical operation. Louis J. Dunn and O. A. Holliday of Charlotte, Mich., were in the city yesterday. Mr. Dunn is sheriff of his county.

C. E. Poole, pension attorney of Kalamazoo, Mich., spent yesterday at the Nelson House. He had a few cases to adjust here. A. B. Miner arrived home yesterday from the World's Fair. Mrs. Miner and daughter Mary remained in Chicago for a few days.

James K. Anderson, president of the Bethaven Sanitarium company, is in the city disposing of the company's stock and bonds. C. J. Byrns, wife and son Charles returned yesterday from the copper country, where they were called Monday on account of the death of a relative.

Will Mugfur returned yesterday from a visit to Chicago. He was accompanied on the trip by Will Minah and Harry Trebbloch, who will remain until the end of the week. The six-month-old baby of Thomas Wood, formerly of this city, died Tuesday at Star Siding. The remains were brought to this city yesterday afternoon and interment was in the local cemetery.

The Bowman's will give a children's matinee at the Ishpeming theater on Friday afternoon. Each child attending will receive a present. The admission will be ten cents for children and twenty for adults. An Ishpeming lady broke the best record ever made by a woman at Toulloff & Wanda's. The best highest score for this month is 151 and the third highest is 132.

ARE MEN BECOMING TOO POLITE? Such Tendency Appears to Exist, So It Is Claimed by Some.

Can politeness be overdone? The other day a man met a lady in a prominent street. They stopped to chat. The man removed his hat. He struck an attitude of humility. They chatted for ten minutes. All the time the man held his hat in his hand and stood there in an apologetic attitude while the lady talked and talked and talked.

We have heard it announced as an axiom that the best education of the schoolmar in our public school system is doing a great deal to eliminate our boys. If it is responsible for the tendency to over-politeness, the point is perhaps well taken. It won't do to be too dogmatic on this subject. Perhaps better wisdom may offset this conclusion. But the fact remains that a tendency does exist among us to be overpolite, and the case cited bears witness to this belief.

Out in the wild and woolly west and down south men still preserve a primitive form of politeness in their bearing to strangers. One is permitted to ask questions and to receive answers and giving a courteous reply. In some sections the person addressed is apt to know all about your family before he knows you. In the west the wayfarer is expected to be communicative and to dip in his own pocket, whether it is a game of seven-up or a discussion of crops and politics.

Confucius was born, and here his bones lie buried. The tomb, which is located in the province, three miles out from the city above mentioned, is one of the most imposing in the whole empire. The grave itself is surrounded by an earth mound twelve feet in height, the whole surrounded by a cluster of ornamental oaks and stately cypress trees. Before the mound is a tablet six feet broad and twenty feet high, upon which are inscribed the names and deeds of the great founder of Confucianism, a religion adhered to by 400,000,000 human beings.

The grave itself is surrounded by an earth mound twelve feet in height, the whole surrounded by a cluster of ornamental oaks and stately cypress trees. Before the mound is a tablet six feet broad and twenty feet high, upon which are inscribed the names and deeds of the great founder of Confucianism, a religion adhered to by 400,000,000 human beings. The burden of this inscription, according to reliable translation, is "Perfect One," "Absolutely Pure," "Perfect Sage," "First Teacher," "Great Philosopher," etc.

The avenue which leads up to the philosopher's tomb is even more interesting than the actual place of burial itself. On each side of the avenue are rows of figures of huge animals cut in stone—lions, tigers, elephants and horses, besides numerous mythical creatures, such as animals half dog and half frog, beasts with four legs and twice as many wings, besides a multitude of unnamable monsters that never lived on earth, in the water or in the air. Taken altogether, the burial place of Confucius is one of the chief spots of interest in the orient.

DON'T MAKE A MISTAKE. Many persons suffer from dizziness, headaches and backaches who treat themselves for stomach troubles or rheumatism, when their disease is some affection of the kidneys which could be quickly cured by Foley's Honey and Tar. STOLE THE BREAD AND MILK. Horse and Mule Made Night Raids and Raised Unfounded Suspicion.

Spurred to activity by persistent complaints made by grocers in Grove street, Jersey City, Policeman James McCowan early the other morning stood in a doorway where he could see and not be seen. While hidden there he witnessed a remarkable exhibition of equine depravity.

McCowan was looking for boys who he believed, had been stealing bread and milk and he paid little attention to a horse and a mule which ambled leisurely down Seventeenth street and turned into Grove street. McCowan, however, was amazed when he saw the animals stop in front of a bread box outside a grocery store at Sixteenth street.

Catching the edge of the lid of the box between its teeth the horse lifted it up. The mule stepped forward and dragged out two loaves of bread. The lid was closed and each animal devoured a loaf. The horse then pushed over a big can of milk and both animals lapped their thirst by lapping the fluid. Policeman McCowan arrested the horse, leading it to the second precinct station. The mule followed meekly. When Thomas Hogan, the owner of the horses, was notified he promised to reimburse the grocer and to lock the animals in a stable at night. The horse and mule were paroled in his custody.

OLD GREAT SEAL IN USE. New One for Edward Will Not Be Finished for Some Time.

Although Queen Victoria has been dead for a few years, yet, astonishing though it may appear, her great seal still continues to be used for the sealing of all official documents. This is in accordance with precedent and has led to a good deal of confusion among historians, since ancient documents are often found bearing the seal of sovereigns who have died as many as ten and fifteen years prior to the date recorded therein. The new great seal of King Edward will not be ready until the end of this year, and instead of being made of silver, as has always been the case since the days of William the Conqueror near 900 years ago, it is for the first time being made of a finely tempered steel.

It consists of a pair of dies six inches in diameter and three-quarters of an inch thick. When it is required for the completion of any state documents the dies are closed, melted wax is poured in and the great seal is ready to be attached to the document to which it is to give official value.

GREAT TOMB OF CONFUCIUS. Burial Place and Its Approaches Somewhat Remarkable Interest.

The city of Chufuensis, the Mecca of the believers of Confucianism, is in the province of Shantung, one of the most populous districts of the orient. Here Confucius was born, and here his bones lie buried. The tomb, which is located in the province, three miles out from the city above mentioned, is one of the most imposing in the whole empire.

The grave itself is surrounded by an earth mound twelve feet in height, the whole surrounded by a cluster of ornamental oaks and stately cypress trees. Before the mound is a tablet six feet broad and twenty feet high, upon which are inscribed the names and deeds of the great founder of Confucianism, a religion adhered to by 400,000,000 human beings. The burden of this inscription, according to reliable translation, is "Perfect One," "Absolutely Pure," "Perfect Sage," "First Teacher," "Great Philosopher," etc.

SAYS PROPERTY IS RICH.
Duluth Man Favorably Impressed with Belmore Bay Mine.

Marquette county people, holding stock in the Belmore Bay Gold Mining company, now operating a mine and exploring on adjoining claims in Canada, will be pleased to know that good reports are being received. Perhaps the most encouraging late information has been given out at Escanaba, and its source is William Faucett, of Duluth, manager of the Northern Light mine at Strugan Lake.

Mr. Faucett confirms all the favorable reports received from the Belmore Bay mine during the past year, and says that in his recent examination of the property he was much pleased with the showing. A short time ago Superintendent Louis St. Julian reported having encountered some rich quartz. Mr. Faucett says that the discovery is an exceedingly important one; that the vein is over three feet in width and that the ore is very rich, much of it showing free gold. He also reports having examined the rich Weiden reef, recently discovered close to the Belmore Bay line. It is from sixty to eighty feet in width. Samples of ore show excellent values. It is now assured that this reef extends into and across some of the company's locations.

It is reported from Escanaba that applications for stock from men working at the mine have lately been received. It is now intended that mining operations shall be continued throughout the winter. Steps are being taken for the installation of a stamp mill.

WILL SHIP SUGAR BEETS.
Sixty Tons Soon to Be Forwarded from Bellevue to Menominee Company.

The first shipment of sugar beets ever made from Negaunee will go forward from the Bellevue farm to the Menominee River Sugar company within the next few days. The consignment will consist of sixty tons, or over two carloads. The farmers concerned contracted with the menominee company to take its entire yield of beets. A little less than four acres were planted, and the result has been very gratifying. The yield would have been larger had the weather been more favorable. There has not been a good season for sugar beets in this particular section. Samples were sent to Menominee a few weeks ago, and the test showed that they contained over 14 per cent sugar. This is a very fair average, but the best beets will run from 16 to 18 per cent, occasionally reaching nineteen or twenty. Under more favorable weather conditions it is expected that future beet product of the Bellevue farm will run from 15 to 18 per cent.

Sugar beet raising is about as profitable a business as the Negaunee farmers could engage in. The yield at the Bellevue this season will bring from \$80 to \$90 an acre. The labor expense, including the cost of loading the beets on the cars for shipment, is about \$25 an acre.

Sugar beets will grow in almost any place in Marquette county where there is good loamy soil. They need very little attention and the crop very seldom fails.

The Bellevue people will go into the business on a more extensive scale next season, putting in from six to eight acres. The Menominee company has promised to take all the product. It is said that the company is prepared to make similar arrangements with other farmers in this region. The yield per acre, according to the tonnage taken from the Bellevue farm, is about 600 bushels. The best land does but little better than this, and it is seldom that the yield reaches 750 bushels.

COLDEST OF THE SEASON.
Negaunee people have had a few gentle reminders of winter the past few days. There has been no less than three snow storms, each time from two to three inches falling. Yesterday morning was the coldest of the fall season in Negaunee, the temperature having dropped to 25 above zero at 6:30 o'clock. Monday morning it was one degree warmer, but at no previous time has it been below 32 degrees. Many people are putting up their storm windows and sheds.

BROKE INTO HIS HOUSE.
S. Le Quinn of Cavendish, Vt., was robbed of his customary health by invasion of Chronic Constipation. When Dr. King's New Life Pills broke into his house, his trouble was arrested and now he's entirely cured. They're guaranteed to cure. 25c at Stafford Drug Co.'s Drug Store.

SLEEPER TO MADISON.
Upper peninsula football fans who take in the Michigan-Wisconsin game at Madison next Saturday will be provided with ample sleeping car accommodations. Besides the regular sleeping car, the management of the Chicago & Northwestern line will provide an extra one running through from the copper country to Madison, the train reaching the latter city at 7:40 Saturday morning. Reservations may now be made at the depot. A number of upper peninsula men will witness the big game.

CHEAPER POSTAGE.
Negotiations are now in progress for a reduction in letter postage between our country and Europe, also for the extension of parcels post to many other countries not now included in the arrangement. These will be of great advantage in extending international trade. In medicine, Hostetter's Stomach Bitters has a great advantage over all other remedies. It has been used successfully for over 50 years and has cured hundreds of the most obstinate cases of indigestion, nervousness, headache, heartburn, indigestion, dyspepsia, nausea, headache, pains in the stomach, liver troubles, or malaria. Bitters is the only medicine on ped to make you well again. Its results are certain. One bottle will convince you of its value. Try it today.

LOCAL LAOCINOS.
Alderman Dan Shea went down to his Little Lake farm Tuesday.

Mrs. J. F. Martin of Green Bay is here visiting her mother, Mrs. M. J. Gaffney.

Christian Hilkken, a wood and timber jobber of Covington, did business in Negaunee yesterday.

John P. Allison has reopened his bookstore in the rear of his store in the Sundberg block.

Dr. Bergeron is suffering with a sore foot. A marble slab fell from the mantle in his office, striking the instep.

Postmaster Thomas Omors was out yesterday for the first time in nearly a week. He has been suffering with quinsy sore throat.

J. W. Elliott's painters have finished the interior of Winter & Sues' tenement house on Jackson street, which was recently remodeled.

R. G. Jackson has returned from the lower peninsula, where he spent the past two weeks attending sessions of the Old Fellows' home committee and the grand lodge of the order.

Sherman & Mitchell started a crew to work yesterday morning on the concrete foundation for the new plant building. About 500 cubic feet of concrete will be required for the foundations of the building and reserve gas holder.

The South Shore company has resumed shipments from the Marie Charlotte mine. About 10,000 tons will go forward before the close of navigation. Most of the men working at the Breitung Hematite have been transferred to the Marie Charlotte to assist in the loading.

A number of Negaunee people will take in the production of "Quincy Adams Sawyer" at the Ishpeeming theater tonight. The play made such a favorable impression in Ishpeeming last season that a big house will greet the company tonight. Special street car accommodations will be provided for Negaunee people.

Discussing the potato question here yesterday, a farmer said that there is a big difference in the Michigan and Wisconsin crops this year, the former being much better stock than that raised in Wisconsin. He said that the greater part of the Wisconsin potatoes are large and hollow, which accounts for their low price.

Andrew Lindquist started work on the Lobb building yesterday morning. He planned to make a start two weeks ago, but was delayed on account of having a few other jobs that he did not finish up as early as expected. The entire front was removed yesterday morning and within a few hours the foundation was ready for the bricklayers.

WORLD'S FAIR, ST. LOUIS.
Special low rates for round trip tickets are on sale every day via the Chicago & Northwestern railway. The Chicago & Northwestern railway is one of the greatest expositions ever held. No one should miss seeing it. For full information address ticket agent D. S. & A. railway or C. E. Webb, general agent, Houghton, Mich. (10-12 to 11-30)

Upper Peninsula

Takes a New Position.
Edward Ellis, chief engineer at the furnace at Newberry, has resigned that position to accept a similar one in the big paper mill at Munising. He has already assumed his new duties.

Wounded While Hunting.
By the unexpected discharge of a shotgun Wesley Orr, of Manistique, while hunting, received an ugly wound in his right arm, crippling with his life only by the narrow margin. His own gun did the mischief.

Will Be a Fine Plant.
The last lot of new machinery for the Cooper and Johnson mill at Thompson Schoolcraft county, has arrived and the work of putting it in place is being hastened along. It is thought that the mill will be ready for operation by Nov. 10. It will be one of the best equipped plants in the upper peninsula.

Democratic Ticket.
The Democrats of Mackinac county have nominated the following ticket: Sheriff, Thomas Dolan; clerk, John Gleason; assessor, E. Murray; judge of probate, Wilson Newton; prosecuting attorney, James J. Brown; circuit court commissioner, Sedgwick Highstone; surveyor, Byron E. Culey; coroner, John Fritsch, George Appleford.

Game to Be Fenced In.
Five tons of wire fencing have been received at Munising for the Cleveland-Cliffs Iron company. The wire will be used to construct a fence fronting the lake shore near the north light on Grand Island where it might be possible, under present conditions, for animals included in the game preserve stock to reach the ice and cross the mainland in the winter.

Died in a Dentist's Office.
From the shock of having fourteen teeth extracted while under the influence of chloroform, Miss Matilda Jensen, twenty-four years of age, died in the dental office of Dr. A. S. Winn at Escanaba. Physicians summoned arrived before the end had come but the efforts to revive the young woman were fruitless. The verdict of the coroner's jury was as above stated.

See Headquarters for Peas.
This is the season when the Chippewa county pea crop is being harvested, most of which is being purchased by W. M. Howden, Sault Ste. Marie, representative of McMoran & Gray of Port Huron. The company is arranging with the farmers to largely increase their output of peas next year and will build a large warehouse in this city to take care of them. Mr. Howden has already secured about 1,000 bushels.

Must Pay or Be Sued.
A report made by the city treasurer to the council has developed the fact that there is due the city of Escanaba from delinquent personal and mortgage taxes the sum of \$16,231.17. This amount is due from the years of 1900, 1901, 1902 and 1903. In view of the fact that the city is hard put for money and has twice been forced to borrow to pay bills, the council decided that something ought to be done to enforce the payment of these delinquent taxes. The city attorney was instructed to commence suit in case the money was not paid in at once.

Train Wreck Attempted.
What appears to have been an attempt to wreck the last passenger train on the Soo Line occurred one night recently at a siding about four miles west of Faithorn Junction. The switch at that place had been turned and the switch lights put out. The fact that the last train was late and that a freight train was ordered to take this siding prevented what might have been a catastrophe. The company it is said is much alarmed, fearing a repetition, and has ordered the section men and track walkers to watch the track night and day. Detectives are working on the case.

Escanaba Man Found Dead.
Nearly covered with sand, washed by the waves over the shore, the body of John Martin, one of the oldest residents of Escanaba, was found on the shore of Portage island, four miles south of the city. The old man lay dead, stricken with heart disease, beside his wagon, on which he had been gathering fish, and one of his horses, which had evidently been forced to lie down from pure exhaustion, was choked to death by the collar which was wedged high upon the horse's neck. The body was found by Eugene Royce, who was hunting on the island and was attracted to the spot by the whinnying of the horse which remained alive.

Heavy Log Traffic Expected.
James McKay, of Chicago, who has charge of the log hauling department of the St. Paul road, was in the upper peninsula recently, looking over the prospects for the winter in the matter of log hauling. He stated that he would prepare the road to handle the greatest amount of timber this fall and winter that it has transported in its history. He stated that the St. Paul is now penetrating the very best timber lands that remain in the region to the north of Iron Mountain and that it will haul much pine out from them this winter. Not only will it handle a great amount of logs of all varieties, but an immense number of poles as well. A great season is expected.

Michigan Alumni Organize.
The Michigan Alumni association has been organized at the Soo. Officers have been elected as follows: President, Judge Joseph H. Stoerer; vice president, Dr. Helen A. Beadle; secretary, Merin Wiley; treasurer, F. R. Warner. The executive committee includes the officers and C. S. Beadle, Joseph Ripley, Gertrude Adams, Marion Kanouse and S. T. Handy. A committee was appointed to take up the matter of holding an annual banquet. A substantial subscription to the fund for the alumni and memorial hall at Ann Arbor was raised, and the class colors adopted were yellow roses and violets. One of the interesting features of the organization is that it composes members of classes from 1873 to the present year. Judge L. C. Holden represents the class of 1873 and Merin Wiley, Gertrude Adams and George Beadle the class of 1904.

CONFESSIONS OF A PRIEST.
Rev. Jno. S. Cox, of Wake, Ark., writes, "For 12 years I suffered from Yellow Jaundice. I consulted a number of physicians and tried all sorts of medicines, but got no relief. Then I began the use of Electric Bitters and feel that I am now cured of a disease that had me in its grasp for twelve years." If you want a reliable medicine for Liver and Kidney trouble, stomach disorder or general debility, get Electric Bitters. It's guaranteed by Stafford Drug Co. Only 50c.

Charm strip sore throat, pulmonary troubles.—Monarch over pain of every sort. Dr. Thomas' Electric Oil.

DO YOU COUGH

DON'T DELAY TAKE KEMP'S BALSAM

THE BEST COUGH CURE

It Cures Colds, Coughs, Sore Throat, Croup, Influenza, Whooping Cough, Bronchitis and Asthma. A certain cure for Consumption in first stages and a sure relief in advanced stages. Use at once. You will see the excellent effect after taking the first dose. Sold by druggists everywhere. Large bottles 25 cents and 50 cents.

VICTOR VANHALLA THE DEPUTY P. M.

WILL SUCCEED MILES GRILLS IN MARQUETTE OFFICE—IS NOW EMPLOYED AT LANSING.

IS AN ISHPERING MAN

In Consequence There Is Adverse Criticism of the Appointment—Will Have Some Political Effect Doubtless.

The successor to Miles Grills, the past few years the assistant postmaster in the Marquette office who lately resigned on account of ill health, will be Victor Vanhalla, of Ishpeming, an employe in one of the state departments at Lansing.

Mr. Vanhalla is a bright, clean young man, with many friends in the county, and there can be no question of his ability to satisfactorily discharge the duties of deputy postmaster.

The news of Vanhalla's appointment has been generally circulated about the city the past two days. Yesterday in speaking to The Mining Journal Mr. Mangum said that the reports were correct, and that Mr. Vanhalla would early take Mr. Grills' place in the Marquette office.

The appointment has created a great deal of comment, not unreasonably. Much of it has been in unfavorable criticism of the action, although it is all made in good personal spirit; that is, there is nothing personal about it. It is recognized that the appointment is a good one; that Mr. Vanhalla is a capable and deserving young man.

Much of the comment yesterday was in regard to the effect the Vanhalla appointment would have on the independent movement, for it is generally held that it is designed to have a political effect. Mr. Vanhalla is of Finnish birth and was a candidate for register of deeds as a representative of the Finnish element.

His failure to land the nomination left the Finns without representation on the Republican ticket, and they were an active force in bringing the independent movement to a head, and now have a representative on that ticket in the person of Werner Nikander of Negaunee, the candidate for treasurer.

Mr. Vanhalla's appointment to the Marquette position might not unreasonably be expected to placate them and to have the effect of rendering their support of the independent ticket less effective. All this is read into the fact of the appointment by Marquette men who discuss the matter.

The leaders in the independent movement assert that the appointment will give them additional votes in Marquette by increasing the dissatisfaction locally with the way this city is losing out when the "good things" are distributed, and they claim that they will hold

their Finnish strength intact. On the other hand there are those who claim that the appointment will make no difference, that it is a good appointment and that Mr. Mangum is entitled to an unrestricted choice as to his deputy.

CHARGED WITH EMBEZZLEMENT. Nels A. Anderson Taken to Chicago Last Night.

Nels A. Anderson, formerly city treasurer at Lamont, Cook county, Ill., was taken to Chicago last night in custody of Frank Tyrrell, a detective attached to the state's attorney's office. Anderson was arrested here Monday afternoon by Marshal Maney, in compliance with instructions from Chicago, he having been indicted by a Cook county grand jury. Anderson had been in Marquette a number of weeks, it is said. Marshal Maney was not acquainted with him, but on the receipt of the telegram started to look him up. He wasted no time about it and within a few hours had the man behind the bars, doing a fast and businesslike job. Detective Tyrrell came up from Chicago yesterday morning. Anderson is charged with the embezzlement of \$1,600 from the funds of Lamont.

CARIBOU RECEIVED YESTERDAY. Herd of Five Will Be Turned Loose on Grand Island.

T. H. Noble, of the Cleveland-Cliffs Iron company, yesterday talked to A. O. Jopling, the company's chief forester who had just arrived at Munising with a shipment of five caribou, reference to which was recently made in The Mining Journal. Mr. Jopling said that the caribou had come through in excellent condition. They were in individual crates and reached Munising none the worse for their long journey. They will be at once released and given the freedom of Grand Island.

The herd comprises two bulls and three cows, and is expected to propagate the species on Grand Island until it many times increases its present size. The caribou, which are also known as American reindeer, were obtained at Deer Lake, N. E. They were shipped from Sydney, Cape Breton, by the Canadian Express company to Montreal, where they were met by Mr. Jopling, who brought them on to Michigan via the Dominion Express company.

The caribou are peculiar to Greenland and are found north of the timber line on this continent. They are native to a country that is devoid of everything but the most sparse and hardy sort of vegetation and feed in their native haunts largely on mosses and lichens. They are native to a region much more northerly than Grand Island and will find the luxuriant vegetation of that beautiful resort a perpetual picnic. It is thought that the caribou will thrive there, however, and propagate freely, and it is expected that in time the herd will become one of the most interesting and unusual features of the abundant wild animal life with which the resort is being provided. The scientific name of the caribou is Rangifer Greenlandicus.

Children's dancing class Saturday afternoon at 2 o'clock. Adults Saturday evening at 8 o'clock, at A. O. U. W. hall. (10-27-34)

D. T. Hurley has a carload of fine winter apples; also a carload of onions, at very low prices. Come early, they are going fast; at Third street crossing. (10-18-14)

FURS! FURS! Mrs. G. L. Andrews, representing the T. A. Chapman fur department of Michigan, will be at Hotel Clifton, Thursday and Friday with a full line of gentlemen's and ladies' furs. Please call at hotel or call up by phone and have number. (10-25-24)

NESTER IN TOWN. Thinks That the Ferris Movement Is Rather on the Wane.

Timothy Nester, of Saginaw, is in the city, coming from home by way of Chicago. Mr. Nester, although a Parker Democrat, has announced his intention of supporting Fred M. Warner, the Republican nominee for governor. Yesterday he was asked what he thought of the present status of the Ferris campaign in lower Michigan. He ventured the opinion that the Ferris movement, if such it can be called, is hardly as vigorous as was possibly the case four or five weeks ago.

"Do you think the upper peninsula will have to save Warner, Mr. Nester?" was asked. "No, I don't," said Tim in reply. Ferris has been making an energetic and fairly effective canvass, and he will unquestionably cut in on the normal Republican majority for governor. However, personally I have no idea that he is going to come north to the straits with a majority. I think that he will be defeated in lower Michigan. Nevertheless, I would advise you upper peninsula Republicans to round up the biggest vote you can get out. That's always good politics, isn't it? "Why do I not support Ferris? Why, because his method of campaign is nothing more or less than rank political treason. No one can deny that by his course every candidate on the state ticket will suffer. Ferris may say that no one on the state ticket stands any chance but himself, but how does he know? Then, too, take the Democratic county and legislative candidates in close counties or districts, they cannot help but suffer through this sort of special pleading for one man's own selfish ends."

NEW MACHINE IN USE. Large Generator at Power House Was Started Yesterday Morning.

The new Westinghouse generator which has just been installed at the Dead river power house was started up for the first time yesterday morning, shortly after 7 o'clock, the coupling of its shaft with that of the water wheel having been finished. The machine was in operation all through yesterday and night, and it is expected that it will now be run indefinitely. Yesterday the machine was the subject of much regulation. It has to be studied so as to determine what are the best conditions under which to handle the day load. It ran as well as could be expected for the beginning, however, and there is no fault to be found. The new switchboards to be installed in conjunction with the generator have not yet arrived and for the present the old equipment is being used. The new boards have been shipped and are already due here.

CATHOLIC FAIR. Supper at 6 O'clock Tonight—City Band in Attendance.

The city band will be in attendance at the Catholic fair this evening at Fraternity hall, and will furnish a program of overture selections. It is announced that a warm supper will be served at 6 o'clock, the usual price being charged. There was a good attendance last evening. The fair is proving very successful.

Use Gold Medal flour, because it is the best. Sold by all grocers. (10-14)

SPECIAL RATES. Will Be Given Tomorrow Evening for Alger-Diekema Meeting.

The passenger department of the South Shore announces a fifty cent rate for Negaunee and Ishpeming tomorrow evening for all people who want to attend the Republican rally at the Marquette opera house, to be addressed by Senator Russel A. Alger and Garret J. Diekema, the state chairman. Senator Alger and Mr. Diekema will speak only in Marquette in this county, and it is expected that a good sized up-the-road delegation will be down to attend their meeting.

Here much interest is being manifested in the rally. On account of the prominence of the speakers, it is expected that the opera house will be well filled. The city band will furnish music. The rally will be the last held in Marquette before election, and will be the most important of the campaign in this city. In connection with General Alger's visit a few words of biography may not be amiss. He was born in a log cabin in Medina, O., Feb. 27, 1836. He came of New England Revolutionary stock and this rugged blood gave him the courage and persistency to force his way to the position which he now occupies in the political and business world. Farm hand, school teacher, lawyer, captain, major, lieutenant colonel, brigadier general, major general, governor of Michigan, secretary of war, United States senator, these are the steps upward in his career.

A job on an Ohio farm at \$3 a month was his first work and he had the care of a younger brother and sister in his keeping, his parents having died while he was still a boy. He managed to secure an education, however, studying at Richfield academy, Ohio. He went into the army as captain in the Second Michigan cavalry. All through the war he was conspicuous for gallantry and meritorious service and his promotion was rapid, he being mustered out as a brevet major general.

General Alger went into the lumber business in Michigan after the war and his success has been great, bringing to him a large fortune. He was always a Republican and has rendered his party valuable services. He was governor of Michigan in 1884-5 and was secretary of war in President McKinley's cabinet during the principal portion of the Spanish-American war. He was appointed to a seat in the United States senate by Governor Bliss on the death of Senator McMillan and in 1903 he was elected by the legislature to a regular term.

Everybody Convinced! That it pays to buy Dependable Merchandise at GRABOWER'S. IT IS the place to buy GOOD MERCHANDISE. It's the good goods that nine-tenths of the women are looking for--the good stuff, honestly priced. There is little or no satisfaction in buying trashy sort of merchandise; it may look as well at first, but it hasn't got the staying qualities. You may think that you have saved a dollar or a dime, but time proves the trick, and you find that your supposed economy was no economy at all, only deceptive. If you ever find that our merchandise does not tally in every respect as we claim for it, we want to know about it. Grabower's values are real bargains, and your money goes farther, because we sell dependable merchandise at the lowest prices. Very Special Bargains in Stylish Millinery. We are showing the newest of New Hats, and we will make prices that will please you. Matchless Styles at Matchless Prices. 50 very pretty Walking Hats, worth \$2.00 to \$5.00, for just HALF price to close. We want to sell every Hat we have in stock, as we need the room in our Millinery Department for Christmas Goods. Closing Out Boys' Suit and Overcoats. We still have a good stock of Boys' Clothing, which we are anxious to close, and if you will give us a show we will sell you a Boys' Suit or Overcoat at HALF what you pay elsewhere. Gloves---We Have Marked Gloves at a Great Bargain. 50 dozen Golf Gloves, worth 35c a pair; now 21c. 20 dozen Golf Gloves, very choice, worth 50c a pair; now 35c. We show a handsome line of Kid Gloves, in all shades and qualities, from \$1.00 to \$1.50 a pair. Ladies' and Children's Tourist Coats. It is now a well-known fact that we show the most choice line of Coats, at very reasonable prices. We show the very newest, right up-to-date Garments, for Ladies, Misses and Children. Dress Goods and Silks. There is no place in Upper Michigan where such a large assortment of Black and Colored Dress Goods and Silks are shown. You can buy Dress Goods of us at various prices, from 25c a yard to as high as you wish to go. Should we not have in stock the goods you want, we would gladly get it for you for less money than you could get it yourself, as we are in touch with large manufacturers, and you can only get it from a retail house, the same as we are. Ladies' and Children's Underwear. We can safely say that you cannot find a larger assortment of Underwear in the larger city stores than we show, and our prices will satisfy you whenever you consider quality. In Our Neckwear Section. We have just placed on sale a very large and choice line of Ladies' Neckwear, and have marked them at such low prices that they will sell on sight; so don't delay, but come and get a Collar. We also show a fine line of New Belts. Linings of Every Description. Are you aware that we have over twenty different qualities of Linings; then, why not come to the store that keeps the assortment? Prices are always right. 2 Specials in Handkerchiefs. 50 dozen Handkerchiefs, worth no less than 15c; this week 5c. 36 dozen fine Lace Edged Handkerchiefs, worth 25c; this week 10c. We were never before so completely prepared to prove the Big Store's superiority as the People's Bargain Store. LOUIS GRABOWER
