GREAT BRITAIN NEARER TO WAR WITH RUSSIA

North Sea Affair Leads to a Complicated Diplomatic Situation Fraught With Danger to the Peace of Europe.

ROJESTVENSKY'S REPORT SENSATIONAL

Declares Squadron Attacked by Torpedo Boats and Shelling of Fishers Merely an Incident of the Fighting, Deeply Regretted but Unavoidable--Explanation Amazes and is Styled Ridiculous, but It Gives the Crisis a new Turn Which London, in Courtesy, is Obligated to Investigate--Tremendous Naval Activity is Occurring Meanwhile, and Everywhere There is a Significant Concentration of Warships--Battle Near Mukden is Resumed.

London, Friday, Oct. 28.—Notwithstanding the diplomatic check in consequence of Admiral Rojestvensky's report, it is evident that Great Britain is preparing for the possibility of war.

Tremendous activity is reported from all the dockyards, where vessels under repair are being made ready for sea under urgent orders from the admiralty. At Cardiff it is stated that admiralty agents are securing great quantities of coal for Gibraltar, Portsmouth, Malta and other ports, and are paying high freight.

The Mediterranean fleet is hastening in the direction of Gibraltar, and it is announced that the channel squadron, with decks cleared, will leave Gibraltar early this morning, its alleged object being "a sham attack on the rock."

The home fleet, likewise, is concentrating in fact, almost the entire British navy is pointing in the direction of the Baltic fleet, a portion of which is expected to sail from Vigo during today.

Perhaps the most significant development is the cabinet meeting which is called for noon today. While the call was issued prior to the receipt of Admiral Rojestvensky's report, which changed the situation considerably and appears to place some of the burden of proof upon Great Britain, the meeting undoubtedly marks the reaching of a serious stage.

London, Oct. 27.—While no time limit for the receipt of Russia's reply has been filed, it is generally understood today that the route of the Russian squadron past Gibraltar will be barred by the channel squadron.

Rome, Oct. 27.—The Italian Anglophile feeling is voiced tonight by the Tribuna, a leading government paper, which calls Admiral Rojestvensky a fanatic, adding that if complete and prompt satisfaction is not given war will be inevitable.

St. Petersburg, Oct. 27.—Vice Admiral Rojestvensky's explanation of the trawler incident is fully as sensational as the news of the firing upon the fishing fleet. He declares that he was attacked in the darkness by two torpedo boats which came upon the squadron from the direction of the fishing fleet. He opened fire and believes he sank one torpedo boat, the other making off for cover among the fishermen.

As soon as he noticed the fishermen, Admiral Rojestvensky ceased firing. He proceeded on his way without leaving any vessel behind and says he believes that the vessel which the fishermen reported remained at the scene for six hours without offering succor to the drowning was the other torpedo boat, either waiting for her consort or repairing damage inflicted by the fire of his ships. It is pointed out that the original version of the incident, regarding two torpedo boats, recited by the captain of the trawler Moulmein, coincides closely with Admiral Rojestvensky's report.

In view of the entirely new complexion placed upon the incident, regarding the trawler, it is not improbable that the whole course of exchanges between the two governments may be altered.

London, Oct. 27.—The Japanese minister, Baron Hayashi, said today that the idea of Japanese torpedo boats being in the North sea was not only unfounded, but absolutely ridiculous.

London, Friday, Oct. 28.—Admiral Rojestvensky's statements are declared at Hull to be absolutely inaccurate. The fishermen declare it can be proved that no Japanese torpedo boats were in the vicinity of the Dogger bank. They assert that the Baltic squadron was thirty miles out of its proper course, with the result that the vessels steamed into the midst of the trawlers; and this is the only foundation, they assert, for the allegation the transport Anatol was surrounded by unknown vessels.

Berlin, Friday, Oct. 28.—A dispatch to the Lokal Anzeiger, dated Gesteimunde, Oct. 27, 11:55 p. m., says: "The fishing vessel Sonntag, which arrived here today, reported it had been fired upon for two and a half hours off the Dogger bank, but was not hit."

Peace of Europe at Stake. London, Oct. 27.—11 p. m.—One of the most complicated diplomatic situations in recent history, and one attended with the most dangerous possibilities for the peace of Europe, exists tonight, with no sign of an immediate solution.

The tension that arose when the dispute between Great Britain and Russia resolved itself into the simple question whether Russia would or would not guarantee that some punishment would be administered to the offending officers of the Baltic squadron, has been mollified by the introduction of an entirely new set of contentions contained in Admiral Rojestvensky's report, yet even the most astute diplomats who recognize the temporary improvement in the conditions are puzzled by the complications that so curiously cause it. However, there is tonight at the embassies of the powers not concerned in the dispute a very strong conviction that a way out will be found either than in recourse to war.

Had Admiral Rojestvensky's report not arrived, it is probable the dispute would have been settled one way or the other tonight. His terms, however, are generally held to prevent the presentation of the ultimatum which Great Britain undoubtedly intended to send. Although Lord Lansdowne has frankly said that the circumstances reported by Admiral Rojestvensky are to him inconceivable, the foreign minister is not prevented from seeing that a new light has been thrown on the "outrage" and that diplomatic usage now compels less urgent action than the British government at first contemplated.

In the present temper of the British nation, it is not at all likely that the preparations for hostilities will be discarded or that the popular outcry will be diminished by Admiral Rojestvensky's report; but it is understood that Great Britain would run the risk of forfeiting in some degree the good will of France, and certainly that of Germany, if she proceeded to substitute warlike for diplomatic steps, of which intention, so it is stated at the Russian embassy tonight, there is no indication in Lord Lansdowne's communication. The attitude of France is held to be of

the highest importance. It was said today by representatives of another great power that if France had given definite assurance that she would not support Russia in the event of a war growing out of the North sea incident, a hostile issue would be almost inevitable, as the temptation to crush the Russian naval power after such a provocation could scarcely have been refused by Britain. It is pointed out that it is greatly to France's interest to preserve peace, and her efforts in that direction obviously will be strengthened by not committing herself except at the last moment. So long as Great Britain is not sure whether France will help Russia, she will not be likely to engage in war; while Russia, with France neutral, would, so it is thought at most of embassies here, scarcely invite defeat.

The most probable solution or rumor regarding France's position is said by a high authority to be that she has given both disputants to understand that she does not desire to become involved, but has reserved her final decision.

No representations have been made either by the Japanese or British government regarding the action of the Spanish authorities in connection with the Baltic fleet, both governments being perfectly satisfied of the correctness of the Spanish attitude.

So far as is known here, the United States is not moving in the present dispute, statements alleging expressions of accord with the British attitude on the part of the United States being emphatically denied by the State Department in the absence of Ambassador Choate, who is in the country.

Earlier Dispatches from London. London, Oct. 27.—1 p. m.—The Russian ambassador, in a conference with Lord Lansdowne today, maintained that a demand for a foreign power that Russia shall punish her officers cannot be entertained, and that Russia could not mete punishment to her officers without having an official statement of the facts.

Russia's continued failure to comply with the British demand has created a gloomier feeling in diplomatic circles. The ultimatum stage likely will be reached in a few hours unless some punishment in principle is recognized by Russia. The cabinet ministers have been instructed to hold themselves in readiness in case a council should be necessary.

London, Oct. 27.—5 p. m.—Ambassador Benckendorff paid another visit to Lord Lansdowne at three this afternoon, presumably to discuss Admiral Rojestvensky's report. This report has caused considerable bewilderment here, since, while the statement that two torpedo boats were among the fishing fleet is generally scouted, there is beginning to be evidence of some disposition to believe in the possibility there is another side to the fishermen's story.

London, Oct. 27.—6 p. m.—A dispatch from Gelle, Sweden, says that the Swedish steamer Aldebaran reports that she was fired at by a supposed Russian warship the evening of the 21st, but sustained no damage.

The foreign office regards this statement of the Swedish steamer, which sailed to Gelle from Hull, Eng., as being very important in indicating that the Russians had previously fired on a defenseless ship where there was no question of the presence of torpedo boats. It is understood this point was brought before Count Benckendorff this afternoon.

London, Oct. 27.—7 p. m.—The Associated Press understands that the new phase introduced into the situation by Admiral Rojestvensky's report was almost the exclusive subject of discussion at the two conferences between Count Benckendorff and Lord Lansdowne today. In consequence, the question of punishment is held in abeyance. The general situation had improved to some extent this evening and in some quarters it was considered not improbable that the whole matter might be submitted to arbitration.

Japanese Attack Declared Intended. Copenhagen, Oct. 27.—The correspondent of the Associated Press learns that the Danish ministry of the navy has been informed that several ships were chartered by the Japanese at Hull and intended to attack the Russian second Pacific squadron in the North sea. The Russians were informed of this. Marine authorities here credit the report.

The Danish ministry was officially informed that thirteen Swedish vessels had been chartered by the Japanese to attack the Russian squadron in the Baltic. A Danish cruiser and torpedo boat watched the vessels so closely, however, that their approach to the Russian squadron was impossible.

While this engaged the Danish torpedo boat Havhesten had a narrow escape. The commander of a Russian battleship mistook the Danish torpedo boat for an enemy and fired a blank shot. The quickness of the torpedo boat in displaying its flag saved her. This happened at midnight. When the captain of the torpedo boat boarded the battleship he found large quantities of ammunition piled ready for use. This incident was reported to the Danish marine minister at the time. The Danish warships acted as police for the Russian squadron until the latter reached the North sea.

Mikado's Minister Makes Denial. London, Oct. 27.—Baron Hayashi, Japanese minister to Great Britain, was asked tonight by the Associated Press for his side's statement from Copenhagen that the Danish ministry of the marine was informed recently that several ships were chartered at Hull by the Japanese government to attack the Russian Baltic squadron, and that thirteen Swedish vessels had been chartered by the Japanese for the same purpose.

Baron Hayashi said that no ships had been chartered by his government from Hull or elsewhere to destroy the Baltic squadron. The chartering and arming of thirteen ships, Baron Hayashi said, would be impossible in those waters. It would have been necessary to man them with Japanese, and there are not enough Japanese here. The minister said the whole story must have been concocted in order to throw dust in the eyes of the Danish ministry of marine and of the world.

CZAR'S ADMIRAL REPORTS. Maintains His Squadron Was Attacked by Torpedo Boats. St. Petersburg, Friday, Oct. 28.—5 a. m.—The naval general staff publishes the following two dispatches from Admiral Rojestvensky. First dispatch: "The North sea incident was caused by two torpedo boats advancing to the attack, without lights, and under cover of darkness, against the vessel leading the detachment. When the detachment

BATTLE IS RENEWED

Japanese Attack and Capture Several Positions Near Mukden.

Mukden, Oct. 27.—Fighting began at ten last evening, southeast of Mukden. The Japanese advanced to the village of Joragan, which they are reported to have captured after a fight lasting until this morning.

There was an artillery fight Wednesday night on the north shore of the Shinkai river, directly south of Mukden. The cannonading, which was heavy, continued today.

Mukden, Oct. 27.—8 p. m.—News has been received here that the Japanese yesterday assumed the offensive on the east front and made a slight advance. It is rumored that the Japanese have taken all the Russian positions at Erdagou, between Huanian and Fendilapu, on the road from Mukden to Bentsiapute, but the report has not been confirmed and looks improbable.

turned on its searchlights and opened fire, the presence of several small steamboats resembling steam fishing boats was discovered. The detachment endeavored to spare these and ceased firing as soon as the torpedo boats were out of sight.

"The English press is indignant because torpedo boats left by the detachment on the spot until morning did not aid the victims. Now there was not a single torpedo boat near the detachment and none was left on the scene, consequently the vessel remaining near the small steamboats was that torpedo boat which was not sunk but only damaged. The detachment did not aid the little steamboats because we suspected them of complicity on account of their obstinately cutting into the order of positions of our vessels. Several of them showed no lights, and others lights only very late."

"The second dispatch reads: "Having met several hundred fishing boats, the squadron showed them every consideration except when they were in company with the foreign torpedo boats, of which one disappeared while the other, according to the fishermen's own evidence, remained among them until morning. They supposed it was a Russian craft and were indignant because it did not assist the victims; but it was foreign, and remained until morning, seeking the other torpedo boat, its consort; either to repair damage or through fear of betraying itself to those who were not its accomplices. If there were also on the spot fishermen dragged into the enterprise, I beg in the name of the whole squadron to express sincere regret to the unfortunate victims of circumstances under which no warship, even in time of deep peace, could have acted otherwise."

RUSSIAN EXCITEMENT HIGH. Is Believed, However, a Peaceable Adjustment Will Be Reached.

St. Petersburg, Friday, Oct. 28.—3:10 a. m.—The mystery of the trawler affair, instead of being cleared up by Admiral Rojestvensky's report, appears to be deeper than ever. The Russian minister's explanation is hailed with the greatest satisfaction at the admiralty and elsewhere, but it is felt that a direct issue has now been raised between Russia and Great Britain and that the incident has entered upon an even more delicate stage.

Public sentiment in both countries doubtless will demand the most searching investigation to establish the facts, and probably neither nation will be willing to accept the result of an expert inquiry by the other. The outcome will probably be a mixed tribunal of some sort. At least this is the suggestion of some of the cooler men here.

Popular excitement has reached a pitch unequalled since the beginning of the war. Public sympathy and confidence undoubtedly are with Admiral Rojestvensky, and should Russia choose to stand upon his version without further inquiry, there is no question that such course would be popular with the masses, who would be willing to back the government in the controversy to the utmost extremity. It is unlikely, however, that the government will adopt such course. It is much more probable that after the first flush of excitement has faded a middle way will be found whereby the facts can be established and the national pride of both countries be maintained.

WARSHIPS CLEAR FOR ACTION. Sensational Naval Developments Reported from the Mediterranean.

Gibraltar, Oct. 27.—The ships of the British channel fleet cleared their decks this afternoon. It is rumored that the battleship Caesar, will steam westward tomorrow morning with the alleged purpose of making a sham attack against the rock of Gibraltar. Several torpedo boats left Tangier this afternoon, fully equipped.

Work at the arsenal is proceeding under high pressure. A division of the Mediterranean fleet, comprising six battleships, all the armored cruisers and twenty torpedo boats, is expected to arrive here tomorrow.

Valletta, Island of Malta, Oct. 27.—The British armored cruiser Barchante, with Rear Admiral Baldwin-Walker aboard; the battleship Albatross, flying the flag of Rear Admiral Hamilton; the battleship Montague, and six torpedo boat destroyers have arrived here from Corfu.

The battleship Queen and nine torpedo boat destroyers sailed here today for an unknown destination.

Flume, Hungary, Oct. 27.—The division of the British Mediterranean squadron now here has received urgent orders from the admiralty to unite with the division anchored at Pola, Austria, and continue the voyage eastward.

Athens, Oct. 27.—All the vessels of the British Mediterranean fleet now in Greek waters have been ordered to sail forthwith. The Pola British squadron sailed at midnight.

More Colliers Chartered by Russia. Berlin, Oct. 27.—Six more colliers have been chartered at Flensburg to transport coal for the use of the Russian second Pacific squadron.

WOULD SUPPORT AMERICA. Hungarian Political Leader Urges Effort to End War in Far East.

Budapest, Oct. 27.—In the lower house of the Hungarian diet today, Francis Kossuth, president of the Independent party, introduced a resolution calling on the premier to urge the Austria-Hungarian foreign minister to support any diplomatic action on the part of the

GOLD MEDAL FOR MODEL
 Representation of Pioneer Furnace Recognized at St. Louis.

Among the prizes for the Michigan miners exhibit at the St. Louis exposition is a gold medal awarded the Cleveland-Chiffs Iron company for its model of the Pioneer furnace in North Marquette, the largest and most modern charcoal iron furnace in the world. This model was prepared by the company at a considerable expense, and is an exact representation of the North Marquette plant. It shows not only the stack and the furnace building proper, but also the charcoal kilns, and the by-product plant, together with the trackage in the yard. By an inspection of the model, any intelligent observer is enabled to get a good understanding of the processes in the manufacture of charcoal iron. The model exhibit is supplemented by a graphic exhibit showing the steps by which iron and the by-products are obtained from the hardwood burned in the kilns and the iron ore and lime. The proportions in this graphic exhibit are all correct. Together with the model it attracts much attention and is regarded as one of the best features of the Michigan mining exhibit. The Cleveland-Chiffs officials are to be congratulated on the fact that it has been recognized with a gold medal. They have done a great deal to make the Michigan mining exhibit a success.

The Michigan exhibit bears the distinction of having been awarded a grand prize for the collective exhibit, and was also given five gold medals, three silver medals and two bronze medals, distributed as follows:

Gold Medals—Irvin J. Shields, installation; Cleveland-Chiffs Iron company; model; Cleveland-Chiffs Iron company; specimens; Quincy Mining company; copper; Diamond Crystal Salt company, salt.

Silver Medals—Michigan College of Mines, specimen; Michigan College of Mines, model; University of Michigan, models.

Bronze Medals—Traverse Bay Stone company, stone; Great Northern Portland Cement company, cement.

Concerning the Michigan agricultural exhibit there has been much discussion. Many people have maintained that it should never have been set up, yet it has been awarded a grand prize for the collective exhibit and several other medals, as follows:

Gold Medals—Buhl Stamping company, Detroit; Williams Bros., Detroit; Dunkley & Co., Kalamazoo, celery salad; A. M. Todd & Co., Kalamazoo, aromatic plants and products.

Silver Medals—H. Foster, Allegan, wheat; A. M. Jewett, Mason, grain; Calvin Lazell, Napoleon, corn; H. D. Waldron, Tonia, wheat; experimental station, M. A. C., grains; J. W. Chapin, Eden, maple sugar.

Bronze Medals—David Woodman, PawPaw, grains; Jacob Pinmer, Muskegon, celery; American Condensed Milk company, Jackson, milk.

BOSTON HOLDS STRENGTH
 Advice on Metal Are Favorable, and the Outlook Is Good.

Paine, Webber & Co. wired concerning the Boston market:

"The market surprised everyone today by its strength. New York opened over a point, but Boston stocks for the most part were as high as yesterday. Atlantic rallied to 15 1/2, one hour's trading 1,000 shares and traders selling almost the entire amount. Calumet & Hecla was the special strong spot, selling up twenty points. All advices on the metal were very encouraging and the copper stocks are due for a much further rise. Mohawk was sold all day, two different houses selling 500 each. Traders are bullish on the property and took most of the stock."

Wheat Somewhat Higher.
 Logan & Bryan wired concerning the wheat market:

"The wheat market closed 1/4 to 3/8 higher. The high mark for the day was made at the opening. Broomhall called that the advance in Liverpool was caused by the extremely grave political situation abroad. Price current was bearing up, the wheat crop fine and an enlarged area. There was general buying at the opening on the war news, the market holding very steady the first hour of the session. The Northwest said through local commission houses, causing the market to break under yesterday's closing prices. The market, on the whole, is a very nervous affair, traders holding rather close to the shore. On good buying by Cudahy brokers the price crowd got long, but on a letup from that source they dumped their wheat at the close. The cash situation is slightly improved. If diplomatic relations are not broken off between the contending powers and the situation assumed a more peaceful aspect over night, cables are likely to come lower in the morning. We still feel the market needs some stimulating news and will be a scalping market."

New York Opened Lower.
 Logan & Bryan wired Paine, Webber & Co. regarding the New York market:

"Our market opened sharply lower, under the gravity of the situation abroad. The London market sent much lower quotations. When we consider the news, the action of the market showed fairly good staying qualities. All through the session stocks have been extremely nervous, but at no time did they appear panicky. There has been good selling in special stocks, notably Steel. \$900,000 in gold is reported for shipment to Paris by a Saturday steamer. J. J. Hill issued a very pessimistic interview on the stock market. This has caused some selling of stocks. The market is closing with a firm tone, showing substantial advance over the low prices made at the opening. We have been waiting for some time for a reaction in the stock market, but as usual when something happens to bring about the long looked for reaction, the public is a little scared about buying stocks. We are still believers in higher prices for stocks and strongly advise the purchase of good stocks on any favorable news from abroad."

Where are you going, my pretty maid?
 To the drug store, sir, said she,
 You see my complexion is getting bad,
 I need some Rocky Mountain Tea.

RUGS MADE OF OLD CARPET
 Address M. Hanson, Clifton Hotel.

City Brevities

Today's weather: Partly cloudy, with probably rain or snow; stationary temperature.

Yesterday's temperature: Seven a. m., 30 degrees; noon, 38 degrees; 7 p. m., 42 degrees; maximum, 42 degrees; minimum, 30 degrees.

Will Adams wishes to state that he is not the author of any of the "K. C." letters.

The Baptist ladies will meet with the Misses Leeman, 327 High street, at 2:30 o'clock this afternoon.

The Presbyterian Ladies' Missionary society will meet in the church parlors this afternoon at 4 o'clock.

The Women's guild of St. Paul's church will meet with Mrs. D. Murray this afternoon at 2:30 o'clock.

The Young Woman's guild will meet with Mrs. E. C. McIntosh, 713 North Third street, this afternoon at 2 o'clock.

The ladies of the Methodist church will have a sale of home-made bread, cakes, pies, etc., at the church Saturday, beginning at 10 o'clock a. m.

Richard R. Elliott, of Detroit, has presented the Peter White Public Library with two handsome leather-bound volumes of "DeBretts' Records" of Great Britain and Ireland.

R. P. Bronson, manager of the Consolidated Fuel & Iron company, was here yesterday. The company's fuel shed on West Washington street, beyond F. W. Reed & Co.'s mill, is well advanced.

The Whitney, for Ashland, and the Pontiac, for Cleveland, took out cargoes of iron yesterday. Their war loads at the L. S. & I. dock. The Mack, Curry and Hurlbut arrived, the latter for pig iron.

The candidates for county offices on the regular Republican ticket plan to hold a rally at Republic tomorrow night. There will be short talks from a number of speakers, and it is expected to have a large crowd out.

The Past Masters' night held by Marquette lodge No. 101, F. & A. M., will occur this evening, the exercises beginning promptly at 7:30 o'clock. An interesting program has been arranged and a large attendance is expected.

George Quarters was tendered a surprise party by the Spanglers' club last evening in celebration of the anniversary of his birth. The time was pleasantly spent, with music and singing as leading features, and Mr. Quarters was presented with a handsome pair of gold cuff buttons. Luncheon was served.

Street Commissioner French worked a number of men yesterday on a catch basin which was put in at the corner of Front and Main streets. The water caught at this point will be drained east on Main street, through the sewer just completed on that thoroughfare. The improved drainage will have the effect of lessening the wear and tear on Front street.

The hydrographic office has just issued a notice to mariners, furnished by Major Charles L. Foster, U. S. engineer at Duluth, regarding the wreck of the steamer Sitka, on October 4, 1904, show that she lies on a rocky shoal in from fifteen to seventy feet of water, her smoke stack, and twenty-one feet astern. The wreck is about one mile from shore and is headed about east-northeast and is about 100 feet from outer edge of shoal (see notice to mariners No. 16 (533) of 1902). It is located N. 45 degrees W. 1/2 mile (NW mag) from Sable Point light station, and is not on the regular steamship course. A buoy has been placed in twenty feet of water to mark the outer edge of the shoal.

MARRIED WEDNESDAY.
 The marriage of Miss Sophie Beaudry, daughter of Charles Beaudry, 221 Seymour Ave., and Mr. Frank St. Arnold of Saxonville, was celebrated at 6 o'clock at the French Catholic church. The bridesmaid was Miss Rachel Beaudry, a sister of the bride, and S. Dubois supported the groom. The couple left on the 8 o'clock train for Milwaukee and will return to Saxonville, where they will make their home, by way of Minneapolis.

NEARER TO WAR WITH RUSSIA
 (Continued from Page One)

United States tending to put an end to the bloodshed in the Far East.

SAYS JAPANESE WILL WIN.
 War Correspondent of the Opinion Peace Is Not Far Off.

Boston, Oct. 27.—George Lynch, the war correspondent of the London Daily Chronicle, has returned here overland from Japan and the seat of war operations in Manchuria on his way to London. He was present at the battle of Liao Yang and in response to an inquiry as to prospects for peace, number of men engaged, war methods, etc., he said:

"Japan has an army of 500,000 men now in Manchuria and before next summer, unless the war is ended, she will have 1,000,000 men there under arms. Russia has 600,000 men in the war and will have 1,000,000 men there in a few months if the war continues, but I do not look to see the war a prolonged one. The Japs are driving everything before them and in such a war combination as the world has never before seen, a combination of individual valor, patriotism and athletic training welded in the most complete system that modern science provides. The Japanese forces move to clockwork machinery. Every fighting formation has been trained since Sunday morning to be connected by a covered wire with telephone or telegraph at the staff headquarters; men move as units on a chess board and fight or fall as directed, but with an individual force and valor never before surpassed.

"I should not be surprised to see the war over by Jan. 1 or after the Japs make their headquarters for the winter at Mukden while the Russians fall back to winter at Harbin. The Russians have only to say: 'It is enough. Our czar was the author of The Hague conference and let The Hague conference decide.'"

"The resources of Japan are very little understood. Tokio has her electric tramways paying 10 per cent, and might almost say that the electric development of Japan today equals that of Great Britain.

"Japan has this year the largest rice crop she has ever gathered and of the finest quality and is selling it for 30 per cent more money than in any previous year. She exports and sells her best rice and consumes the poorer. The increased value of her rice crop this year equals one-third the cost of the war. I believe Japan today offers one of the greatest fields for the investment of European and American capital."

VATICAN SOUNDS THE POWERS.
 Anxious to Be Represented at the Peace Conference at The Hague.

Rome, Oct. 27.—The Vatican is sounding the different powers on the subject of admission of its representative at the second The Hague conference, on the same ground as the suggested admission of South American republics, which were not represented at the first conference.

The Vatican emphasizes the fact that Italy was excluded from the first conference chiefly because of the opposition of the Italian government, supported by Great Britain, which asked in exchange Italy's support for the exclusion of the representatives of the Boer republic.

LOSS IS HALF A MILLION.
 Pier and Steamer Destroyed at Brooklyn Early Today.

New York, Friday, Oct. 28.—Fire this morning destroyed a pier at Brooklyn, the steamer City of Palermo and considerable merchandise. The loss is half a million.

Fatal Fire in Chicago.
 Chicago, Oct. 27.—In a fire in a rooming house in West Madison street to-night which caused a property loss of \$50,000, Henry A. Slater was burned to death, and Morris Burns was seriously burned.

GOES TO PRISON FOR LIFE.
 Indiana Woman Confesses the Murder of Her Stepdughter.

Hartford City, Ind., Oct. 27.—Indicted this morning for poisoning her stepdaughter, Crystal Krauss, the defendant, Mrs. Rae M. Krauss, after demanding an immediate trial, today pleaded guilty to murder in the first degree and calmly handed Judge Vaughn a signed confession written Oct. 16 while a prisoner in jail.

When the reading of the confession was completed, the jury retired for fifteen minutes, returning with a verdict of guilty. Immediately the woman was electrocuted in the infirmary shortly after midnight on her way to prison.

The confession pleads that the crime was committed while the defendant was disposed of her senses, and that she had confessed to her husband, W. R. Krauss, that she was prompted to poison her stepdaughter by an indelible desire to kill.

Ohio Murderer Electrocuted.
 Columbus, O., Friday, Oct. 28.—Louis Harmon, one of the trio of robbers who murdered George Geyer, a farmer near Alton, O., more than a year ago, was electrocuted in the infirmary shortly after midnight this morning.

FAMILY FEARS POUL PLAY.
 Neil S. Phelps of Battle Creek Missing Since Sunday.

Battle Creek, Mich., Oct. 27.—Neil S. Phelps, well known in the cereal food business, and builder of the Phelps sanitarium, has been missing since Sunday afternoon and sensational rumors have been set afloat by his disappearance.

Within the past two years Phelps had made and lost a fortune. A year ago his creditors agreed to refrain from interfering with him and his business for one year, the agreement running until Nov. 4, 1904. His family believe he is a victim of foul play.

Phelps was last seen on a bridge over the creek near noon. This fact led the police to have the mill race emptied and a search was also made of nearby lakes, but no trace of Phelps has been discovered.

CECILIA LOFTUS ENGAGED.
 Betrothal of Popular Actress Is Announced at Pittsburgh Dinner.

Pittsburg, Pa., Oct. 27.—Announcement was made last night of the engagement of Cecilia Loftus, now playing at the Nixon theater, to William Courtenay, leading man of the Avenue Stock company of this city. The announcement was made at a dinner at the Union club. They will be married in New York Easter week.

REST MADE EASY.
 There Will Be Less Sleeplessness When Marquette People Learn This.

Can't rest at night with a bad back. A lame, weak or aching one. Doan's Kidney Pills are for bad backs.

They cure every form of kidney ills. From common backache to diabetes. They are endorsed by Marquette people.

C. C. Young of 127 E. Michigan street, painter and decorator, says: "I had such pains through my back and loins at times that I could scarcely keep at my work. The kidney secretions became affected, were highly colored, unnatural, irregular and deposited a heavy dark sediment. It was rarely able to secure more than three or four hours sleep during the night. I saw Doan's Kidney Pills advertised, procured them at the Stafford Drug Co.'s store and began to use them. I felt relief almost at once. They relieved the irritated condition of my nerves. I was able to enjoy a good night's rest and arose in the morning feeling strengthened and refreshed."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

The Lanpher Furs
 A Fur Coat or Jacket
 should fit properly, wear well and be stylish. It will fit properly if the workmanship is good, wear well if the furs are properly selected, and be stylish if it is well designed. In buying the Lanpher Furs the style and fit speak for themselves and the quality of the fur is vouched for by twenty-eight years' experience. It pays to buy a brand of established character and reputation.

Miss Rose Peterson, Secretary Parkdale Tennis Club, Chicago, from experience advises all young girls who have pains and sickness peculiar to their sex, to use Lydia E. Pinkham's Vegetable Compound.

How many beautiful young girls develop into worn, listless and hopeless women, simply because sufficient attention has not been paid to their physical development.

If you know of any young lady who is sick, and needs motherly advice, ask her to write to Mrs. Pinkham at Lynn, Mass., who will give her advice free, from a source of knowledge which is unequalled in the country.

Miss Hannah E. Mershon, Collingswood, N. J., says: "I thought I would write and tell you that, by following your kind advice, I feel like a new person."

"I tried a bottle of your Vegetable Compound and began to feel better right away. I continued its use, and am now well and strong, and menstruate regularly."

How Mrs. Pinkham Helped Fannie Kumpfe. "Dear Mrs. Pinkham:—I feel it is my duty to write and tell you of the benefit I have derived from your advice and the use of Lydia E. Pinkham's Vegetable Compound."

Lydia E. Pinkham's Vegetable Compound will cure any woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, nervous prostration, and all forms of woman's special ills.

\$5000 FORFEIT! If we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness, Lydia E. Pinkham Med. Co., Lynn, Mass., J.

Negaunee Department

TRAINING OF CHILDREN. PLAN ACTIVITY. Suggestions That Parents and Teachers Can Profit By.

A Negaunee mother, deeply interested in her children, sees much good in a recently published article, giving advice to parents and teachers, particularly the former, as to what they should do to aid one another in educational matters. The request a few extracts are herewith given.

The average father, it is said, thinks he has done his duty to his family when he pays his taxes for fighting the streets, for police and fire protection and for the children's education.

"But when a balanced ration" for pigs, calves and lambs, instead of being left to conjecture, has been, by infinite pains, accurately determined by scientists and growers, in order to safeguard market returns, it would seem reasonable to expect of parents that they make the moral and intellectual ration of their children an equally careful study, in order to safeguard all that life holds of possibilities for those children.

Dr. G. E. Lingle was up from Princeton yesterday. George B. Huddall of Superior was here yesterday. Sol Powell was up from Sands yesterday, on business.

Miss L. C. Leary of Detroit will be at the Breitung House today. Mrs. P. O. Bakke of Hancock is here visiting Mrs. Dagmar Lavigne. The temperature dropped to twenty-seven above zero here yesterday morning.

Mrs. Andrew Buckley, who spent the past three months here visiting her daughter, Mrs. H. McNabb, returned to her home in Escanaba yesterday. Ed Schwartz has taken the contract to build the foundation for George J. Maas' dwelling on East Main street. Marquette sandstone will be used exclusively in the walls.

A number of Negaunee men will take in the Republican rally at Marquette this evening. The South Shore railway is giving a fifty-cent rate for the round trip from this city and LePoncing. A large delegation will go down from the Hemetite City.

A few Negaunee people are talking of going to Madison to take in the Michigan-Wisconsin football game tomorrow. It will perhaps be the most important athletic event to play in the city, and much interest is manifested in the outcome by upper peninsula fans.

Re-Go Tonic Laxative Syrup is a preparation originally put up for physicians' use, and it is still largely prescribed by the best practitioners. Its wonderful cures of Constipation, and all attendant evils, such as Nervous Dyspepsia, Sick Headache, Biliousness and indigestion, have led the manufacturers to believe that a great service would be rendered to their fellow men by offering to the public this famous medicine in convenient form.

Many persons suffer from dizziness, headaches and backaches who treat themselves for stomach troubles or indigestion, when the disease is some affection of the kidneys which could be quickly cured by Foley's Honey and Tar. Take it in time. Refuse substitutes. Stafford Drug Co.

SORES AND ULCERS SHOW A BAD CONDITION OF THE BLOOD

When the blood is in bad condition a bruise, cut, scratch, or any slight injury to the flesh, is apt to become an ugly-looking sore or ulcer. Sometimes a boil, blister or pimple is the beginning of a large eating ulcer or open, discharging sore.

A common beetle appeared on the calf of my right leg. I used the simple home remedies but the place refused to heal. The physician I consulted did me no good. My leg was a solid sore from calf to ankle, and I then began to feel better. I improved rapidly, but an attack of typhoid fever set in in the original sore, causing a backset. I began it again as soon as I was over the fever, and was completely and permanently cured.

THE SWIFT SPECIFIC CO., ATLANTA, GA. SSS will heal. Washes and salves, while cleansing, soothing and helpful, will not do it, because they do not purify the poisoned blood; but S. S. S. cleanses and enriches the diseased blood, and when this is accomplished the place heals.

Upper Peninsula Black Bass Planted. A consignment of thirty-one adult small mouth black bass has been planted in the lake on Grand Island, the Cleveland-Cliff company's game preserve near Munising. The fish were secured from the Michigan fish commission.

Assessments Scaled Down. The total assessed valuation of cities and townships of Dickinson county as returned to the board of supervisors was \$8,936,465. As equalized, Iron Mountain is down from \$2,870,000 and Norway for \$1,428,000.

John E. Ouilard of Sagola has taken a contract to put in 1,000,000 feet of pine and cedar for the Sagola Lumber company. The Sagola Lumber company has finished logging operations at Trout Creek and has moved its camps to Findley Junction. It will begin logging there about the first of November.

The Manistique railway is pushing forward to completion its extension of road to Manistique. The Portage Schoolcraft county, to accommodate a large industry being promoted by Moffat & Fairchild. The latter have been buying timber land in that district for the past three years and have acquired a large acreage.

Chippewa county poultry breeders have taken preliminary action towards forming a poultry club or association for the purpose of advancing the interest of poultry breeders in the vicinity. A committee to prepare a constitution and by-laws was selected, consisting of L. C. Holden, Jacob Bainbridge and G. F. Cracknell, who will report at an adjourned meeting to be held Monday evening, the 31st.

Aler & Gray, wholesale cordwood dealers of Iron Mountain, have purchased the timber on thirteen acres of land near Sagola from the Angus Smith estate of Milwaukee. Camps are now being built convenient to the St. Paul road and the timber, mostly hardwood, will be cut and shipped at once. This firm is now doing a large business and is finding a ready market for its product in the Chicago and Milwaukee markets.

County salaries for the ensuing term have been fixed by the Law board of supervisors as follows: circuit court judge, extra compensation, \$250; probate judge, according to statute \$388.20; additional salary \$150; treasurer, \$1,200; prosecuting attorney, \$1,000; secretary independent of poor, \$250; superintendents of poor \$3 per day and mileage, meetings limited to twelve per year; county canvassers \$4 per day and mileage.

The best of everything in modern railway service. Dining cars—meals à la carte. Through Pullman sleeping cars from Negaunee to Chicago.

OLD COURT HOUSE TO BE TORN DOWN

ITS PURCHASER IS FATHER J. G. PINTEN, ACTING FOR ST. PETER'S CATHEDRAL.

PRICE WAS ONLY \$240

Much of the Material Will Be Used in the Erection of the Baraga School—Building a Landmark in Marquette.

The Marquette county court house, a landmark in the city and said to be the oldest Temple (?) of Justice in the north country, has been sold and shortly will be completely demolished, with no vestige left to remind of its existence. The purchaser is Father J. G. Pinten, acting for the St. Peter's congregation, and much of the material from the structure will be used in the construction of the new Baraga school, corner of Baraga avenue and Fourth street.

The price for which the old court house was sold was \$240, at which figure it will be generally held that Father Pinten got an excellent bargain. There were other bidders, but his offer was the best. The purchase includes the entire structure, just as it stands, and the vaults go with the building. The structure will be demolished, and Father Pinten is expected to complete its removal as soon as possible. There is much of the material that can be used in the new Baraga school, and it is expected that the vaults will be moved and rebuilt there. Whatever material is not needed in the present building operations can do doubt be sold readily. It will cost a considerable sum to demolish the building but in these late days \$200 does not go very far in buying lumber, and the deal is doubtless a good one for the purchaser.

The new Baraga school, into the construction of which various and sundry parts of the old court house are now to enter, is still several months from completion. The roof is now being covered with slate, and this work will be finished in a few days, when the structure will be secure against the rough weather of the fall. Work on the tower is about complete, and when it is finished and the roof fully slated the exterior labor will be about done.

In the interior, however, a start is just being made. It is planned to install the heating plant. Bids are now being considered and the contract will be let shortly. It is the purpose to heat the interior, so that the workmen can proceed without delays on account of cold weather. Some of the radiation in the old court house will be used, if it is expected.

Already some brick and tile partition walls have been built in the new school, but this is about all that has yet been accomplished in the interior. The work will be pushed steadily during the winter, but will not be done hurriedly with the expectation of occupying the structure at any given day. It will be done well, and speed will not be made the main concern. No date for occupying the new school has yet been predicted, and indeed it will occasion no surprise if it is not ready for use until the fall term next year.

The exterior appearance and proportions of the Baraga school have already

attracted much favorable comment. Its architecture is plain, but very dignified and graceful. The tower is in admirable proportion. The material is Marquette rhyolite sandstone and all construction is very solid, with brick and tile partitions, steel girders, etc. When completed the building will be one of the most handsome and substantial schools to be found anywhere in the north country. At the same time it will be about the largest.

"FAUST" MONDAY NIGHT.

Porter J. White Will Be Seen in the Role of Mephisto.

"Faust" will be presented at the opera house Monday night, with Porter J. White in the role of Mephisto. Mr. White has been identified with productions of "Faust" for the past several years, and has been seen before in the Marquette opera house, though not recently. His Mephisto is an excellent and carefully studied piece of acting, and has been responsible more than any other one thing for the continued success of his production, although Mr. White has always been careful to provide himself with good companies. The Flint Daily Journal said the other day of a presentation of "Faust" in that city:

"Mr. White is so closely identified with the character of Mephisto that the part would seem incomplete without him. His impersonation of the crafty individual who is popularly supposed to be forever engaged in the business of making mischief on this mundane sphere has always been distinguished among the stage characterizations familiar to local theatergoers, but in his portrayal of the part last night he appeared to be unusually strong and impressive. Possibly the fact that for several days during the interval since his last appearance here he laid aside the lurid orb of the cunning and guileful Mephisto to essay other roles may have sharpened him to better appreciation of the character in which he is popularly known, but in any event his work last night indicated a deeper and more thorough conception of a part in which he has heretofore won high distinction. The support throughout was capable, Miss Olga Verne making a particularly favorable impression as Marguerite and proving herself equal to all the requirements of a difficult and exacting role. Walter M. Sherwin was strong and manly in his portrayal of the part of Valentine and evidenced possession of a high order of histrionic ability. Frederick Wilson made a pleasing Faust and as Dame Martha Mrs. Mary Davis has had no superior in the part on the local stage. The production scenically and otherwise, has been much improved since it was last seen here, and is now more than ever an attraction to command special attention and merit hearty commendation."

WOMEN'S TOURIST COATS JUST ARRIVED AT GRABOWER'S.

Last night's express brought us an entire new lot of Ladies' Brown Tourist Coats; the very newest in style and color. We ask all those who intend to buy a Coat to go to Grabower's and see these new garments before they are all sold. (10-28-14)

A fine line of men's sweaters going to be closed out at a big reduction. Johnson Clothing Co. (10-14-14)

RUGS MADE OF OLD CARPET

Address M. Iralson, Clifton Hotel.

CONTRACT CLOSED.

Great Lakes Engineering Co. Will Build C. C. I. Co. Steamer.

A Cleveland dispatch says: "The contract for the construction of another big steel steamer was closed Wednesday with the Great Lakes Engineering works of Detroit by the Cleveland-Cliffs Iron company. The boat will be a 10,000-ton steamer of the latest type. Although the new ship will be thirty-six feet shorter than the four big boats recently ordered by the Pittsburgh Steamship company, she will have four feet greater beam, a change which is claimed to be of advantage both from the standpoint of construction and operation. The new boat will be 513 feet long, 60 feet beam and 31 feet deep. Triple-expansion engines and Scotch boilers will give the boat a guaranteed speed of eleven miles an hour loaded. The steamer will cost \$410,000 and will be ready for service next July."

RALLY TONIGHT

IMPORTANT REPUBLICAN MEETING AT OPERA HOUSE.

Senator R. A. Alger and State Chairman Diekema Will Speak of the Issues of the Campaign.

At the opera house this evening will occur the last, also the most important, Republican rally of the present campaign in Marquette. Senator Russell A. Alger and State Chairman Garret J. Diekema will be speakers and will discuss the leading issues. They are the most prominent men who have visited Marquette this fall and they should be given a large audience. Their meetings on the upper peninsula this week have invariably been largely attended and they have evoked much enthusiasm. Marquette Republicans should do their utmost to make tonight's meeting eclipse all the others. There will be good music. The band will be in attendance, and in addition the Ishpeming orchestra that has been singing at all the rallies held in that city will be down to furnish a number of selections. There will be a fifty cent rate for Ishpeming and Negawane people who desire to attend the meeting, and it is expected that there will be a large up-the-road delegation present, as Senator Alger and Mr. Diekema do not visit Ishpeming or Negawane this year, and neither of them have been heard there. Ladies are particularly invited to be present at the rally.

SUPREME COURT DECISIONS.

The state supreme court Wednesday afternoon disposed of the following cases:

Alfred—Stoddard vs. Saginaw Building & Loan association; Michigan Buggy vs. Smalligan; Baber vs. Hyde; Sands & Maxwell Lumber company vs. Gay; Barnes vs. West Bay City.

Reversed—Cleveland vs. Rothschild; Popp vs. Connelly; Meesle vs. Miller; Hirsch vs. Fisher; Ware vs. Hall.

In Thompson vs. Bay circuit judge mandamus was denied. In Erickson vs. Alpena circuit judge motion to strike certain portions of the answer from the file was denied. In Canton vs. Grinnell, motion to dismiss writ of error was denied, with costs to the appellee. In Fiedler vs. Johnson, motion to strike from the docket was denied, without costs.

State cases will be heard Thursday, Nov. 17.

S. M. Whiteside, Aurora—Suffered many years with indigestion, constipation, and stomach trouble. Hollister's Rocky Mountain Tea cured me completely. 35 cents, Tea or Tablets. The Stafford Drug Co.

TOOK TWO OF THE THREE.

The Badgers bowling team defeated the Ravens on the Bowsher alleys last evening, taking two of the three games. The scores follow:

Badgers	Ravens	Total
Anderson	145	170
Simmons	179	147
Derleth	105	159
Brunner	150	145
Bowsher	194	148
Totals	773	709
Foley	141	116
Zerfel	156	147
Hank	113	173
Sink	146	125
Eldredge	109	152
Totals	725	713

Children's dancing class Saturday afternoon at 2 o'clock. Adults Saturday evening at 8 o'clock, at A. O. U. W. hall. (10-27-14)

NORMAL TEAM TO CALUMET.

Will Meet the Highs There Tomorrow Afternoon.

The football team representing the Northern Normal will go to Calumet tomorrow morning to meet the high school eleven, which recently defeated the Marquette school here, and is a strong organization. The game should be well contested, and should be won by either eleven by a close score. The Normal team has not been able to get a game since it played at Hancock, but hopes to play several contests before the season comes to an end. Mr. McCracken has been endeavoring to arrange to meet Ishpeming, and it is likely that a date will shortly be agreed on. An Ishpeming-Normal game would be well worth seeing and would draw a big crowd if played here.

CONCERT THIS EVENING.

Members of the Hogan Family at the Catholic Fair.

The special feature at the cathedral fair at Fraternity Hall this evening will be a concert given by members of the Hogan family. A program of vocal and instrumental music and specialties that is sure to please has been arranged. The supper announced for this evening, to be given by the ladies of St. Agnes convent of Foresters, has been postponed and will occur Saturday evening instead. In place of it, light refreshments, including ice cream and cake, will be served. Knights of Columbus especially are asked to note the change. The fair last evening was again largely attended.

5,000 FROM \$50.

Fifty dollars invested in certain copper stock will make \$5,000 in a year. Four years ago I had parties invest \$50 and they made over \$1,000; two parties (can give names) invested \$50 and made \$1,400. Prospects are better now. I have had thirty-five years' experience and ought to know. Call at office between 7 and 8 o'clock evenings. Women may call at residence or at office at 3 o'clock in the afternoon and I will explain how to make it. J. W. SPEAR, (10-28-14) Over Pendill's Drug Store.
