CALLS MEETING OF THE NATIONS

INSTRUCTIONS OF THE PRESIDENT CARRIED OUT BY SECRETARY OF STATE HAY.

CIRCULAR NOTE IS ISSUED

URGES A SECOND CONFERENCE BE HELD AT THE HAGUE.

Is Pointed Out That Much Remains to Do in Furtherance of the World's Peace and Action on Various Specified Questions is Urgently Recommended.

Washington, Oct. 30.—In a circular note Secretary Hay has carried out the president's instructions relative to proposing a second peace conference at The Hague. The note not only contemplates the re-assembling of The Hague conference, for the consideration of questions specifically mentioned by the original conference as demanding further attention, such as the rights and duties of neutrals; the involubility of private property in naval warfare, and the bombardment of forts by a naval force, but goes further by endorsing a project of a general system of arbitration treaties and the establishment of an international congress to meet periodically in the city of peace.

The issue of the call while the present war is in progress is justified by the fact that the first The Hague conference was called before our treaty with Spain was concluded. The note is addressed to the representatives of the United States accredited to the governments who were signatories to the acts of The Hague conference of 1899, with the request that these representatives confer there with the foreign ministers of the various states.

The note first reviews the objects and results of the first The Hague conference and then gives great credit to the wisdom of the policy which was followed in the British house of commons in 1888. It reviews its valuable work towards peace and the result of its recommendations in St. Louis, quoting the resolution there passed making The Hague conference call a second The Hague conference for the consideration of certain questions therein quoted.

In regard to the war between Russia and Japan, the note suggests that the fact of the existing war is no reason why the nations should relax the efforts they have so successfully made hitherto toward the adoption of rules of conduct which may make more remote the chances of future wars between them. It says: "In 1899 the conference of The Hague dealt solely with the larger general problems which confront all nations, and assumed no heavy burden of intervention or suggestion in the settlement of the terms of peace between the United States and Spain. It might be the same with the re-assembler conference in the present time. Its objects naturally lie in the direction of further codification of the universal ideas of right and justice which we call international law; its mission would be to give them future effect."

In regard to the objects of the conference, Secretary Hay says: "Should his excellency (the foreign minister) invite suggestions as to the character of the questions to be brought before the proposed second conference, you may say to him that at this time it would seem premature to couple the tentative invitation thus extended with a categorical program of subjects and the present time is only a comparison of views that general accord can be reached as to the matters to be considered by the new conference. It is desirable that in the formation of a program, the distinction should be kept clear which belong to the province of international law and those which are conventional as between individual governments. The final act of The Hague conference, dated July 29, 1899, kept this distinction clearly in sight."

"Among the broader general questions affecting the right and justice of the relation of the sovereign states which were then relegated to future conferences, were the rights and duties of neutrals; the involubility of private property in naval warfare; and bombardment of forts, towns and villages by naval force. Other matters mentioned in the final act take the form of suggestions for consideration by the interested governments."

The note then calls particular attention to the importance of the rights and duties of neutrals and particularly suggests comparison from capture of all private property, not contraband, on the sea, as it is exempted on land. Other questions closely affecting the rights of neutrals are referred to, including the definition of contraband, the status of official and private correspondence, and the proper treatment of refugee belligerent ships in neutral ports. It is also suggested that the enrollment of states non-signatory to the first conference might be taken up.

Buffalo Elevator Containing 370,000 Bushels of Barley Collapses.

Buffalo, Oct. 30.—For some unexplained cause the Ontario elevator collapsed today and sank into the waters of Evan's slip. The elevator contained 370,000 bushels of barley, a large portion of which lies at the bottom of the slip. The loss on the grain and building is \$350,000. Charles Bartholomy was seriously injured.

FIRE ADDS TO THE HORROR AT PORT ARTHUR

Japanese Shells Hit the Only Smokeless Powder Magazine and in the Conflagration That Follows Much of the Town Is Destroyed--Russian Trenches and a Fortified Position Taken as a Result of the Third General Attack Opened Some Days Ago-- Battle Near at Hand at the North--Much Fighting in Moving for Position.

St. Petersburg, Monday, Oct. 31.—The third general attack on Port Arthur began Oct. 24. On Oct. 25 Japanese shells set fire to the only smokeless powder magazine in Port Arthur. Portions of the town caught on fire, the conflagration continuing the whole day, destroying much property. On Oct. 27 the Japanese captured the Russian trenches on the slope of Eblung mountain, also a fortified position protecting that fortress. The Japanese hold the progress of the siege to be highly satisfactory.

ARMIES IN THE CLOSEST TOUCH.

Mukden, Oct. 30.—There have been a number of skirmishes along the whole front, but no development of any serious import has yet appeared, though the armies are in the closest touch and a general engagement may be precipitated at any time. At one point the trenches are only 400 yards apart. They are separated by a small stream which is the only war supply in the neighborhood. By consent there is no firing on water carriers, who visit the stream with buckets.

MINOR VICTORIES REPORTED.

Tokio, Oct. 30.—A report from the Manchurian army headquarters received today, regarding a successful night attack against a Russian outpost at Wumington and two unsuccessful counterattacks made by the Russians. The report follows: "On the night of Oct. 28 a small force of the enemy attacked Wumington mountain, but were immediately repulsed. Oct. 29 at 3 o'clock in the morning a detachment of infantry was dispatched from the center army against Wumington. The enemy was surprised and the houses occupied by the enemy were set on fire. Wumington is situated midway between the outposts of both armies. Using the place as a base, the enemy had made frequent night attacks against our outposts. On the night of Oct. 28 a force of the enemy of unknown strength attacked the eminence near Santaokangtau, but were immediately repulsed."

MONARCHS TALK FOR PEACE.

King Peter of Serbia the Guest of Ferdinand of Bulgaria. Sofia, Bulgaria, Oct. 30.—King Peter of Serbia arrived this morning and was cordially welcomed at the station by Prince Ferdinand. The day's ceremonies concluded with a dinner in honor of the royal guest at which is offering a toast to King Peter, Prince Ferdinand said the visit constituted an epoch in the life of the two peoples and was an expression of their sincere and mutual understanding. The prince emphasized the necessity of a friendly and intimate union, on which the future of the two countries depended. He said: "I am convinced that today's events will contribute to the triumph of our efforts to preserve peace."

MARQUETTE, MICH., OCT. 31.

Accepted as mail matter of the second class in the postoffice at Marquette, Mich.

If protection is indeed robbery, and if our opponents really believe what they say, then it is precisely to the destruction and uprooting of the tariff, and therefore of our business and industry, that they are pledged.

The president's invitation to attend the proposed peace conference finds two great powers with all their energies concentrated on one of the most sanguinary wars in history and another parading around with a chip on its shoulder.

The Democratic state committee modestly claims Michigan for Ferris by 40,000 votes, and asserts that Warner hasn't a ghost of a show.

The Standard Oil officials might as well have continued to pursue their policy of silence. At this late day and hour they cannot expect their state measures to carry any conviction unless proven by slow and laborious steps.

Today is the first of the final week of the presidential campaign. A week from tomorrow the sovereign American voter will record his will.

The present state campaign is productive of at least one pretty deed. It is being carried on in daily installments between the Detroit News and the Detroit Journal, respectively.

In the press of other things it isn't attracting the attention it does in an off year, but the fact remains that Detroit is engaged on an important mayoralty contest, with Mr. Maybury, who seems to have gotten a sort of divine right to hold the office for all time, matched against young Mr. O'Connell.

This is the week of the "great invasion" of Woodbridge N. Ferris. He will devote several days to the formidable task of trying to impress upon peninsula Republicans the belief that there is something they can gain by voting for him.

"At last," exults the New York World, "the foremost representatives of the Democratic party have struck the true keynote of an aggressive campaign: 'Corruption and Corruption.'" Now if it were someone else and corruption the Democrats might have struck a lead, but Corley, oh no!

Saginaw and Battle Creek are among the most prosperous of Michigan cities and are returning rapidly to the front. Census returns from Washington relative to Saginaw's manufacturing industries credit it with 189 establishments, with a capital of \$7,638,416.

SUPERIOR TRUST COMPANY. Hancock, Michigan. Capital - \$150,000. This Company is under the supervision of the state banking department and is authorized by law to act as executor, administrator, guardian, assignee, receiver, or trustee.

The product is \$12,296,820. It may be deduced from these figures that it does not take as many men to get out breakfast foods as it does to operate Saginaw's industries, though the latter are capitalized at a smaller figure and have a smaller product.

The Bankers' Monthly says that the treasurer of the United States last year redeemed two half-cent pieces. We are surprised that any one having the old half-cent in his possession presented them for redemption instead of keeping them as curiosities.

In Wisconsin both the La Follette and Stalwart factions are primed for a sizzling finish, and the campaign has not been very slow at any stage of the game.

The Emperor Francis Joseph of Austria is a man of simple, frugal habits and a hard worker. He is an early riser, and for many years after ascending the throne he was up at 5 o'clock in the morning to begin his day's work after a breakfast of coffee and bread and butter.

The Iron Trade Review has the following weekly comment on the iron situation at Cleveland:

The improvement in the demand for foundry pig iron and the accompanying advance in price have been the prominent features of the week and the market for finished materials is also stronger. The question which all are asking is, "Will the decided change for the better continue?"

Whether municipal ownership and operation of street railways is regarded as consistent with the genius of American institutions or not, there seems to be little doubt that it is a great success in England.

On one occasion Wayne MacVeagh succeeded in adjourning the supreme court before the usual hour. Mr. MacVeagh never remained in Washington on this occasion if he could help it, and on this occasion he greatly desired to take the 4 o'clock train for Philadelphia.

What is RE-DO? Re-Go Tonic Laxative Syrup is a preparation originally put up for physicians' use, and it is still largely prescribed by the best practitioners.

Colonel Henry Hatz of Pittsburg, the veteran political observer, was out in Indiana during one of McKinley's campaigns. While he was waiting for a train at a junction he talked with a farmer who was lounging there.

There is no lack of excitement along the line of the Uganda, East Africa, railway. At Nairobi, one of the principal stations, the postmaster found a lion on his front stoop one morning; several natives and more than one white officer along the road have been eaten by lions; on one occasion an engine could hardly make its way through miles of locusts on the track.

All sailors in the British navy are obliged to buy a black silk handkerchief. They get it from the government stores, and the price, about \$1, is deducted from the pay. This year the admiralty has ordered 160,000 handkerchiefs from the largest silk manufacturer in the world.

companies are mainly intent on securing dividends, while a municipal line is operated principally for the accommodation of the public. This makes a vast difference in the operation of a street railway system, and explains why municipal ownership is favored.

PERSONAL POINTS

An extraordinary nickname has been given to King Peter of Serbia. The name is "Peter Provocant" meaning Peter the first provoked, a title which was assumed in 1195 by Stephen Uros, who was really entitled to it, being the first Serbian king to be crowned.

Karl Hind, the noted German revolutionist, who has lived in England for many years, celebrated his eightieth birthday last week. He was a leader in the revolution of 1848, for which he was condemned to death, afterward being reprieved. However, he suffered eight months' solitary confinement.

John Carey, a banker of Des Moines, is at the head of a movement for the formation of a local municipal league there, the object being to watch the city council and all other governing bodies in the Iowa state capital. The movement is the outcome of a general belief that there is a good deal of "grafting" in the place.

The Emperor Francis Joseph of Austria is a man of simple, frugal habits and a hard worker. He is an early riser, and for many years after ascending the throne he was up at 5 o'clock in the morning to begin his day's work after a breakfast of coffee and bread and butter.

Few women have fitted into a new social sphere more easily than Mrs. Samuel Newhouse, wife of one of Colorado's richest men. This charming woman married Mr. Newhouse when he was poor, and she had to do her own cooking and washing. Now she travels in state, with two maids to take care of her wardrobe, but neither she nor her husband makes the slightest effort to conceal their early struggles.

Ralph Hulse, who is running for assembly on the Republican ticket in Trenton, N. J., has made a tremendous hit with the women of his district. While helping his wife with the family washing one day last week he attempted to empty a tub of water, but slipped and fell, springing his back rather severely.

The late Sir William Vernon Harcourt, though an ardent fighter, was one of the most forgiving and kind-hearted of men. On one occasion in Washington he was asked him in the house of commons regarding the size of cells in convict prisons. Sir William gave the desired information with such exactness as to suggest a laugh in the house, but when he followed the speaker to the home office quietly explained that he had considered it his duty to visit several such cells, so as to know by personal knowledge how the unfortunate beings who were condemned to dwell there were accustomed to fare.

On one occasion Wayne MacVeagh succeeded in adjourning the supreme court before the usual hour. Mr. MacVeagh never remained in Washington on this occasion if he could help it, and on this occasion he greatly desired to take the 4 o'clock train for Philadelphia. Although talking to the court, he kept his eye on the clock and at 3:46, giving himself just enough time to reach the station, he ceased his argument and said: "May it please your honor, I move that the court do now adjourn. I want to catch the 4 o'clock train for home. The cool audacity of the request seemed to rattle the justices, but the chief justice made the customary order without a protest and Mr. MacVeagh got his train.

What is RE-DO? Re-Go Tonic Laxative Syrup is a preparation originally put up for physicians' use, and it is still largely prescribed by the best practitioners. Its wonderful cures of Constipation, and all attendant evils, such as Nervous Dyspepsia, Sick Headache, Biliousness and indigestion, have led the manufacturers to believe that a great service would be rendered to their fellow men by offering to the public this famous medicine in convenient form. They have each little offer a trial bottle free to any one who will cut out this notice and present it to the Peoples' Drug Store.

What is RE-DO? Re-Go Tonic Laxative Syrup is a preparation originally put up for physicians' use, and it is still largely prescribed by the best practitioners. THE SUNNY SIDE

The Happy Medium. There is a Happy Medium Whom all the spirits heed. A misty, mystic sleeper Whose name is Mrs. Pepper. (Don't sneeze at Mrs. Pepper For she is smart indeed.)

By spook communication, From out the foggy veils, Grandfathers, aunts, and cousins She'll summon by the dozens. (We all have aunts and cousins Whom we would like to lose.)

She whistles up her spectres From out the twilight glow, And by their kind suggestions She'll answer certain questions. (We all have certain questions Which we would like to know.)

She says, "You had a friend once Whose maiden name was Jo, Or James or Jim or Daniel Or Jazy or Nathaniel." (Perhaps it was Nathaniel— He's dead, that much I know.)

She knows the words you're saying Before the words are said. The spookologic science In her pads now resides. (She's more than Christian Science Because she wakes the dead.)

Don't sneeze at Mrs. Pepper. Ye men of earthly mind. If life to you is tedious Observe the Happy Medium. (Don't strike the Happy Medium, For that would be unkind.)

The Limit. "Why is Blockley suing the baseball association?" "An accident happened to him at the last game, and he claims the association is to blame for it. A girl with an awfully big picture hat was sitting in front of him, and he couldn't see even a little piece of the field just east of the girl's left ear. And at that exact moment a foul ball came whirling into the grandstand and smote him grievously on the nose." (Cleveland Plain Dealer.)

Well Defined. "What is your idea of a truly good wife?" asked the youth. "A truly good wife," answered the Commissioner, "is one who loves her husband and her country, but doesn't attempt to run either." (Philadelphia Inquirer.)

A Faint Reminder. "What's the matter, Mr. Crabtree?" asked Mrs. Starvon. "The way you sin your soup and stare up at the ceiling in that far-away manner it would seem it reminds you of something." "Yes," replied the sarcastic boarder, "it reminds me of soup, faintly." (Philadelphia Press.)

The November Christmas. You can't help kind of wishin' dat de time would hurry 'round When you're on de Christmas tree an' snow is on de ground. But dey've fixed up an arrangement dat will help de time to pass. Until de sleighbells ring an' tross is silverin de grass.

It sho'ly is mos' comfortin' an' cheerfu' to find So many folks in 'bout yeh generous Day folks a-axin' 'bout yeh very honest An' sayin' 'How well you look!' An' sometin' even takes an interest in yeh pocketbook.

De band is sweetly playin', an' de people marchin' in a slosh. But dar ain' much need of Christmas when you's got election day. De wind is tempered to de lamb, jes' like de Good Book say. Dar ain' much need of Christmas when you's got election day.

Reduced Rates on Empties. Dean Hole, the noted English clergyman who died recently, was the leading figure in many humorous stories. On one occasion he was crossing the channel after a visit to the continent, the voyage being very stormy.

Colonel Henry Hatz of Pittsburg, the veteran political observer, was out in Indiana during one of McKinley's campaigns. While he was waiting for a train at a junction he talked with a farmer who was lounging there.

There is no lack of excitement along the line of the Uganda, East Africa, railway. Orders from Papa. "What in the world is that you have out?" roared her father. "Why that is the coming-out gown mamma had made for me." "Well!" with a snort. "Don't you dare to come out of it any farther!" (Honest Post.)

From too much love of living, From hope and fear set free, We thank, with brief thanksgiving, Whatever gives or eases thee. That in life lives forever, That dead men rise up never, That even the weariest river Winds somewhere safe to sea. (Swinburne.)

Don't Buy Any Whiskey Until You Read This

DO YOU KNOW that choice grain and pure water are the two essentials for making good whiskey?

DO YOU KNOW that Government statistics prove that the Miami Valley, in the very heart of which our distillery is located, produces the best grain and has the purest water of any section of this country?

DO YOU KNOW that we have one of the largest and most completely equipped distilleries in the world?

DO YOU KNOW that we have had over 87 years' experience in distilling good whiskey?

DO YOU KNOW that we have a capital of \$500,000.00, paid in full?

DO YOU KNOW that we have more whiskey in our bonded warehouses than any other distiller in the world?

DO YOU KNOW that there is more HAYNER WHISKEY sold than any other brand of whiskey in the world?

DO YOU KNOW that we supply regularly with HAYNER WHISKEY nearly half a million of the most prominent and influential business and professional men in this country?

DO YOU KNOW that these are the very people who want the best and wouldn't be satisfied with anything else?

DO YOU KNOW that HAYNER WHISKEY goes direct from our distillery to you, with all its original strength, richness and flavor, thus assuring you of perfect purity and saving you the enormous profits of the dealers?

DO YOU KNOW that WE ARE THE ONLY DISTILLERS IN THE WORLD WHO SELL DIRECT TO CONSUMERS, though we have many imitators who call themselves distillers? These imitators don't distill a drop of whiskey. They are simply dealers who buy to-day cheap spirits made yesterday, and after "doctoring" it up, sell it to-morrow as 8 to 20 year-old whiskey, pure whiskey, all whiskey and no water. You cannot buy anything purer, better or more satisfactory than HAYNER WHISKEY no matter how much you pay.

IF YOU DIDN'T KNOW these facts before, you know them now, and knowing them, how can you longer doubt our ability to please you? How can you hesitate to accept our offer? YOUR MONEY BACK IF YOU'RE NOT SATISFIED.

OUR OFFER We will send you FOUR FULL QUART BOTTLES of HAYNER'S SEVEN YEAR-OLD-RYE for \$3.20 and we will pay the express charges. Try it and if you don't find it all right and as good as you ever used or can buy from anywhere at any price, then send it back at our expense and your \$3.20 will be returned to you by next mail. Just think that offer over. How could it be fairer? If you are not perfectly satisfied you are not out a cent. Better let us send you a trial order. If you don't want four quarts yourself, get a friend to join you. We ship in a plain sealed case, no marks to show what's inside. Write our nearest office NOW.

Orders for Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington or Wyoming must be on the basis of 4 quarts for \$4.00 by Express Prepaid, or 20 quarts for \$16.00 by Freight Prepaid.

COPPER
The new edition of the Copper Handbook
has been issued. It contains 231 copper mines and
copper mining companies, in all parts of
the world, covering the globe, these de-
scriptions ranging from two lines to twelve
pages each in length, according to im-
portance of the mine. The descriptions are
not padded, but give facts in the most com-
pact and get-at-able form.

There are also three miscellaneous chap-
ters, devoted to the History, Uses, Terminol-
ogy, Geography, Geology, Chemistry, Min-
eralogy, Metallurgy, Finances and Statistics
of Copper, rendering the volume a veritable
encyclopedia of the subject of copper and
everything pertaining to the metal.

IT IS THE WORLD'S STANDARD REF-
ERENCE BOOK ON COPPER.
Every Miner, Prospector, Investor, Banker
and Broker needs the book. Price is \$6 in
bookman binding with gilt top, or \$7.50 in
cloth library binding, and the book, in
either binding, will be sent fully prepaid
on approval, to any address in the world
to be paid for if found satisfactory, or may
be returned, within a week, or receipt, and
no charge will be cancelled. Address the

Copper Country

WEATHER SIDE SCORED.
Great Game of Football Played by Me-
nominee and Hancock.

It will be necessary for the Hancock and Menominee high school football teams to play another game before it is determined which eleven is to meet Escanaba for the championship of the upper peninsula. Neither team scored in their match at the Hancock Driving park Saturday afternoon. Each eleven was near to a touchdown on at least two different occasions, but the coveted goal could not be reached. On the whole Hancock played the better game, showing superiority in both offense and defense. The contest was stubbornly contested throughout, however, and was easily the best ever seen on a local field. Hancock's fumbling was costly. It prevented what looked like a sure score in the second half, when the ball was brought up to the visitors' twenty-yard line. The fumble on this occasion undoubtedly was due to the rooting of the Hancock enthusiasts, who yelled for a touchdown. The locals got badly rattled and the pigskin was lost. The fumble not only spoiled Hancock's opportunity to cross goal line, but it nearly resulted in a touchdown for the visitors. Solvay got the ball and started down the field with nothing but the Hancock goal before him. Tamblin, the speedy left end of the Hancock team, started after the Hancock runners held their breath. The play was done quickly and could not be blocked by the locals. The Hancock boys should have scored in the first half, when they brought the ball to the Hancock thirty-yard line. A breach of rules gave the visitors fifteen yards and the ball, however, and Hancock's chance to cross the opposing goal went a-glimmering. Menominee punted, and the ball to the end of the half went back forth with punts and short passes. Hancock's goal was not once in danger during the half. Most of the playing was in Menominee's territory. Throughout the game there was considerable punting, Menominee doing the most of it.

Twenty-five-minute halves were played. Arthur Redner, a former University of Michigan football man, referred to the satisfaction of both teams. The line-up was as follows:

Hancock:
Nichols, Center; Gagnier, Math; Walsman, R. G.; Garbell, Matt; ...
Menominee:
Wealdon, R. T.; ...

It is likely that the game to decide the tie will be played at Menominee next Saturday. Hancock had the advantage of playing on its own grounds Saturday, and Menominee undoubtedly will figure on winning at home.

Calumet and Atlantic Lose.
Two games of football for one price of admission were played at Atlantic Park Calumet Saturday. The first match, played between the Marquette Normal school team and the Calumet High school eleven, resulted in a victory for the visitors by the score of 10 to 5, following which the Calumet team defeated the Atlantic, 9 to 0.

Marquette's greater weight and costliness was fact and had no difficulty in flooring through the Marquette line, holding at critical times preventing further scoring. Marquette played a staid game, and its weight helped considerably on the offensive. The score at the end of the first half was 10 to 0 in favor of the visitors. Calumet braced and played a better game in the second half, managing to cross the line for a score. All three touchdowns were made by straight football.

The Atlantic team went to Calumet with several of its regular men missing, filling the vacancies as best it could. Both teams showed lack of practice. Atlantic especially was badly handicapped because the signals were strange to the substitutes in the line. Neither side scored in the first half, Atlantic doing better than expected. The Pioneers managed to score by straight football in the second half, and goal was kicked.

LOW RATES FOR VOTERS.
The South Shore and other railroads in Michigan are going to do their share towards getting out a large vote on Nov. 8. They have arranged low rates of fare for electors away from home who desire to return to vote. Although certificates showing that the voters wishing to avail themselves of the low rates are really voters in other places must be presented when tickets are purchased, the roads are not drawing the line on any party. Republicans, Democrats, Socialists, Prohibitionists or followers of any political faith will be treated alike.

The South Shore passenger department has authorized its agents to issue round-trip tickets at the rate of one fare plus twenty-five cents between points on its line in the upper peninsula. Between points where the regular one-way fare is less than one dollar the additional twenty-five cents will not be collected. The sale of tickets will be confined to Nov. 6, 7 and 8 and made valid for return passage until Nov. 9, inclusive. Tickets under the conditions named will be sold only to those voters presenting certificates signed by the executive officer of the state or county committees. The form of these certificates may be seen at any of the stations. The fact that agents are authorized to sell the tickets Nov. 6 will give the voters three or four days to spend at their old homes if they can spare the time.

EVERYTHING BUT THE ICE
is a package of JELLO ICE CREAM POWDER for making delicious ice cream. Simply add a quart of milk (or milk and cream mixed) to the contents of one package and freeze. No heating or fussing. This is the time of year when ice cream tastes best. Than any time else you can put on the table. Order to-day from your grocer. Two packages 25 cents.

districts may demand and direct. To that end we reaffirm the action of the Republican convention at Grand Rapids, May 18, 1924, in favor of primary election reform where changes from the existing caucus and convention systems are desired.

HOUGHTON PEOPLE PLEASED.
Street Car Service in Sheldon Street Has Been Resumed.

Although the Sheldon street pavement in Houghton was not completed as expected Saturday, owing to the non-arrival of a carload of brick, street car service was resumed in the evening, and for the first time in several months the big cars went thundering through town, much to the satisfaction of Houghton people. The lack of the service during the summer was a great inconvenience. Only a few hours' work remain to be done at the west end of the thoroughfare and that will be given attention as soon as the brick arrives. The copper brick, which will mark the completion of the pavement, will be laid at the same time.

MINING NEWS
MORAWK'S OUTLOOK BRIGHTER.
Prospect Much Improved by Reason of Recent Developments.

Concerning the Morawk, S. J. Bohan of Houghton says:
The outlook for Morawk has improved for various reasons, the most important of which is to be found in the character of the developments on the south side of the property. In addition to this, the heavy expenditures for construction is fast coming to a close, and No. 3 shaft will soon return to the active list.

Recent developments at the site of No. 5 shaft have added materially to the established intrinsic value of the property; the limited extent of disclosures are amazingly rich and compare favorably with any surface showing thus far obtained on this copper belt. The power plant for Nos. 1 and 2 shafts is located conveniently to the latter. The machinery installation is progressing rapidly, and the No. 1 hoist will commence rendering service next month, while shortly after the equipment at No. 2 will be permanent and up-to-date in every respect.

The present facilities at No. 3 shaft will be ample for a number of years, while at No. 4 there has been provided a permanent and complete power plant, which for economy and effectiveness, is not excelled in the district. The new sixty-drill compressor, of the Ingersoll-Sargeant pattern, is housed conveniently to this shaft, and is now supplying air power to the entire workings, this without in the least taxing its capacity.

Each of the three Morawk shafts is about to be provided with a set of rolls, such as are in use at the Osceola mill, and in this way it is hoped to increase the daily output of the mine to 1,800 tons, which will be ample for some little time, probably until No. 5 becomes a source of production. The mill provides for the erection of a fourth stamp, and as yet nothing has been done with a view to its installation. It is quite probable that the company is watching with interest the progress being made in improving the stamp capacity, especially that at the Osceola mill, where the staple-competing stamp has been demonstrated its value in the treatment of a large rock volume at a minimum cost. In view of the fact that this stamp has accomplished more than was claimed by its sponsors, its introduction into the district would not occasion no surprise.

A visit to the Morawk will convince those who have been predicting early dividends that the needs of the company were far from having been provided for at the present time. The current year, and also that the modern hoists were fast becoming a necessity, considering the working depths at Nos. 1 and 2 shafts. As it is now, the mine is fast approaching the period when the best results will be obtained in the way of operating costs.

The Morawk yield of late is said to have been eighteen pounds of refined copper per ton of rock stamped, but, as indicated at No. 3 shaft, which has been practically all silver, the district promises to be in the direction of better results. No. 1 shaft gives evidence of improvement with depth, and this, with the bettered results that will follow the resumption of operations at No. 3, has given rise to the belief that the future refined yield will be twenty pounds or better.

No. 3 shaft possesses a virgin territory from the collar to the bottom; the openings show good bunches of copper, and while some very hard rock is in evidence, the content is not such as to cause any apprehension. With this shaft in commission, the volume of rock shipments from No. 2 will be curtailed, an arrangement that will surely be reflected in an increased average mineral yield per ton of rock stamped.

No. 4 shaft is opened to the eighth level, with drifts opening north and south at the seventh. The second level south, in the direction of the new No. 5 shaft, has been extended for a length of 1,000 feet of which all but the last 300 feet has been in copper ground. The past week's operations have indicated some improvement, however, and at the present the trend of the drift is in a

AS TO COLDS
Feed a cold—yes, but feed it with Scott's Emulsion. Feeding a cold in this way kills it. You cannot afford to have a cough or cold at this season or any other. Scott's Emulsion will drive it out quickly and keep it out. Weak lungs are strengthened and all wasting diseases are checked by Scott's Emulsion. It's a great flesh producer.

productive vein. The mass and barrel product from this shaft is larger than that combined from shafts Nos. 1 and 2. The mine is operating forty-two drills. The power plant for Nos. 1 and 2 shafts is located conveniently to the latter. The machinery installation is progressing rapidly, and the No. 1 hoist will commence rendering service next month, while shortly after the equipment at No. 2 will be permanent and up-to-date in every respect.

MINING GOSSIP.
Exports of copper continue heavy, and it is believed that the shipments this month will come very near equalling those of August, when nearly 25,000 tons (50,000,000 pounds) were sent hence to Europe.

The Old Colony has cut an unidentified lode in the cross cut 580 feet from the surface. The lode is twelve feet wide, of which three feet shows very good copper values. The lode will be further explored by drifting.

A new hoist has been installed at Franklin Junior No. 2 shaft, which is now in commission to the ninth level. The daily shipments from this source have now been 200 tons, making the company's aggregate value nearly 25,000 tons, or sufficient to tax the available mill capacity.

INSOMNIA AND INDIGESTION CURED.
"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tullahoma, Ontario, Canada. For sale by the Peoples' Drug Store.

ESCANABA HOWL UNWARRANTED.

Match With Ishpeming Saturday Was an Exhibition Contest.

According to the Escanaba Mirror a great howl went up in that city because the Escanaba football team was booked for two games Saturday—one in the morning with the Soo, the other in the afternoon with Ishpeming—and the board of control of the interscholastic association was criticized for an alleged "conspiracy" to pull down the Sandy City eleven in the championship race.

The facts are that only one game was to be a championship contest, that with the Soo in the morning and by the time it was anticipated that Escanaba would win easily. The Lock City eleven did not put in an appearance, however, and in consequence forfeited the match. As far as the game with Ishpeming was concerned, the board of control had nothing to do with it. This was a match arranged between the two teams themselves, independent of the interscholastic schedule, and its result has no bearing on the race for the honor of contesting at Ann Arbor on Thanksgiving Day for the championship of the state, Ishpeming having lost to Menominee a week ago Saturday and thus having been eliminated as a factor. As the Soo forfeited to Escanaba, and as Menominee and Hancock played to a tie 0 to 0 at Hancock Saturday, the upper peninsula championship lies between Escanaba, Menominee and Hancock—at least this is how it is figured here. There was no basis for the howl raised at Escanaba, and from all accounts the Sandy City aggregation stands in little fear of any team winning the honor of playing the Thanksgiving Day match on the Ann Arbor gridiron. Escanaba defeated Ishpeming Saturday, 30 to 0, yet the best Menominee which held its own with Hancock, 9 to 0, could do against the Hemetite City team was to win by the score of 6 to 0. The "dope sheet" clearly shows Escanaba the strongest team in the association.

FORMERLY OF MARQUETTE.

John Thornton Slated to Be Alger County's Next Sheriff.

John T. Thornton, the Republican nominee for sheriff of Alger county, is a former Marquette man. He came to the upper peninsula from Saginaw in 1879, landing at Marquette. Constructing work on what is now the South Shore railway was just beginning and he was sent out in charge of a crew of men to clear right-of-way. He continued as a foreman for the contractors until they turned the railroad over to the government in 1882, and then he accepted a position as foreman of a construction crew for the railroad company. After working on the line for six months he returned to Marquette and took the foremanship of the crew, engaged in building the company machine shops. After the shops were completed he took charge of the engine in the shops, in that capacity operating the dynamo which furnished the first electric lights ever seen in this section of the country. After three years in the shops, Mr. Thornton took charge of a construction crew on the railroad extension from L'Anse to Houghton. When this was completed he returned to Marquette and for two years was employed as a carpenter. In 1888 he took charge of a construction crew on the extension from Nestora to Duluth. Later he was placed in charge of the bridgework on the extension. When the road was completed he returned to Marquette and took charge of a crew on No. 1 ore dock. After working on the dock for a few months he resigned. For the next six years he worked as carpenter, hand-lumbering and jobbing, and in March, 1896, he went to Munising to work for the Munising Railway company. He continued in the employ of the company until his appointment as village marshal in 1898. He was succeeded as marshal by A. S. Ives, in 1899, and during that year was engaged as a contractor on the construction of the Copper Range railway. He was reappointed village marshal in 1900 and served for three years. Mr. Thornton was born in New York state in 1855.

GET INSIDE.

Marquette People Should Take Advantage of the Advice Offered Here.

Rubbing the back won't cure back-ache. A liniment may relieve, but can't cure. Backache comes from the inside—from the kidneys.

Doan's Kidney Pills get inside. They cure sick kidneys.

Here is proof that this is so: Theo. Farrell of 411 Weeks' avenue, Escanaba, engineer on the Northwest coast says: "The majority of men who follow the rail are a long time on the road before the symptoms develop, in others the jarring and swing of the cab brings on attacks much sooner. I watched the motion of my kidneys carefully and had a specially constructed seat on the engine to counteract its effects. As soon as I found that my kidneys were not just right I took some kidney tonic to correct them. I found Doan's Kidney Pills answered my purpose admirably. Reading about them I decided to leave off the remedy I always depended upon and procured a box of Doan's Kidney Pills at a drug store with the intention of giving them a chance to prove that there was something of merit in their composition. The results obtained were all that could be desired. Since I stopped the treatment I have had no indication of a return."

Just such emphatic endorsement can be had right here in Marquette. Drop into the Stafford Drug Co. and ask what their customers report. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

BEST IN THE WORLD.

Gold Medal Flour gets first prize at the World's Fair. Sold by all grocers. (10-22-11)

LAST NIGHT OF FAIR.

Promises to Be a Large Crowd at Fraternity Hall This Evening.

This will be the last night of the fair being held at Fraternity hall this week by the ladies of St. Peter's congregation. It promises to attract a large crowd for the reason that the various drawings are to occur and it will be the most cheerful night of the entire fair. People will be desirous of seeing how they come out with their chances. The fair has been well attended since the first evening, and has proven a financial success. There will be music this evening.

The attendance Saturday evening was very large and a gratifying patronage was accorded the various departments. Supper was served to many guests by the ladies of St. Agnes court of the Foresters. One of the best features of the entire fair to date was the entertainment given Friday evening by members of the Hogan family. An excellent program of musical selections was rendered, including solos, duets, quartets and choruses, and in each case the audience insisted on encores. Several of the selections were from Nevin, while in a lighter vein, the singing of "The Royal Troupe at the opera house recently, and Friday night the "Royal Chorus" was duplicated by the Marquette singers.

PORTER J. WHITE TONIGHT.

Will Appear as Mephisto in Production of "Faust."

Porter J. White will be seen at the Marquette Opera House this evening, after a lapse of some years, in his role of Mephisto in a complete and semi-spectacular production of "Faust." The play is familiar to Marquette people, as it has been presented here a number of times. It possesses a perennial interest, being weighty in subject matter and skillful and dramatic in treatment. As Mephisto Mr. White has won very con-

siderable praise, and he will be found a strong member of what is said to be an able cast.

The Goldwater Reporter of recent date had the following reference to Mr. White's appearance in that city: "While we thought we knew just what to expect from Porter White's Mephisto, yet he seems to gain new majesty and power with every representation—yes, majesty, for he certainly is the devil incarnate, yet as he stands out from the surrounding gloom in that blood-red light which accompanies him like an atmosphere, he appears a most majestic and terrible figure. It is only when his sardonic laughter gets on our nerves and his evil grin sends a shiver down our spine that we feel what a downright devil he is. Miss Olga's 'Maggierie' is his absolute antithesis—his softness, sweetness and girlish resolution are in sharp contrast to his cool, persistent malice and to the fire and fury of Frederic Williams' 'Faustus.' We feel here our defeat before it is revealed to us, and so much greater is the marvel when true love and perfect purity conquer, even through weakness. Mr. Sherman, too, has a difficult part in 'Valentine' and makes it very real, both as the swaggering soldier and the crushed and broken brother, while Mrs. Davis, as the old gossip, Dame Martha, is inimitable and gives the one touch of humor in a too-sombre drama."

MORE BIG FREIGHTERS.

Cleveland Concerns Order Four Steamers—Total Cost \$1,500,000.

D. R. Hanna of Cleveland has closed a contract with the American Shipbuilding company for two steamers of 9,000 ton capacity each, to cost \$350,000 apiece and to be ready for service June 1 next. The two steamers will be duplicates of the last two boats ordered by C. A. Thompson, measuring 524 feet long over all, 54 feet keel, 54 feet beam and 20 feet deep. They will have triple expansion engines and Scotch boilers fitted with Ellis & Evans draft. One of the boats will be built at Cleveland and the keel for the other will be laid at the Wyandotte yard.

C. O. Jenkins and others of Cleveland also have just placed an order, in this case with the Craig Shipbuilding company of Toledo, for a 500 foot, 9,000 ton capacity freight steamer, to be ready next spring and to cost \$400,000.

The Presses Line Transportation company of Cleveland has placed an order with the Great Lakes Engineering works of Detroit for a similar vessel to be ready next spring.

"If a woman ever gets so 'homey' she isn't worth looking at, she'd better take Hollister's Rocky Mountain Tea. Brings back the bloom of youth. 35 cents. Tea or Tablets. The Stafford Drug Co.

HALLOWEEN.

This a Night of Revelry and Fun-Making for the Small Boy.

This evening—the night preceding All Saints, or All Hallows day—will be Halloween, and the small boy will be in his glory. The night was formerly observed with religious services and in a solemn manner by the public, but it has degenerated into a night of revelry and fun-making. In by-gone days the spirits of the dead were supposed to roam about the earth on Halloween, accompanied by wifed and elfs bent on mischief, and the small boy has taken advantage of this custom to tear down fences and frightening the neighborhood with can squawks, jack o' lantern and tick-tacks.

The origin of Halloween is not definitely known, but it can be traced back hundreds of years to the Druids, who on that evening lighted bonfires and on the next day celebrated the feast of Pomona, goddess of fruits and seeds. On that day the stores that had been laid away for winter were opened and the day was spent in feasting and religious services.

During the early history of this country when the people believed in witchcraft, it was said that no honest person would be out of his home after 7 o'clock on the night of Halloween. The people who were classed as witches in New England were supposed to use this evening to revenge themselves on their neighbors if they found them out of doors.

WEATHER FOR NOVEMBER.

Some Data, Covering 32 Years, Compiled by Observer Patrick.

The following data, covering a period of thirty-two years, have been compiled from the local weather bureau records by Observer Patrick. They are issued to show the conditions that have prevailed during November for the period of years stated, but must not be construed as a forecast of the conditions for the coming month:

Mean or normal temperature, 31.9. The warmest month was that of 1899, with an average of 41.2 degrees; the coldest, that of 1880, with an average of 23.7 degrees. The highest temperature was 69 degrees on Nov. 1 and 2, 1886; the lowest, 9 below zero on Nov. 29, 1875.

The average precipitation for the month is 2.7 inches, and the average number of days with .01 of an inch or more of rain or snowfall, fifteen. The greatest monthly precipitation was 6.44 inches, in 1896; the least was 0.56 inches, in 1899. The greatest amount of precipitation recorded in any twenty-four consecutive hours was 2.78 inches Nov. 25 and 26, 1896. The greatest amount of snowfall recorded in any twenty-four consecutive hours (the record extending to the winter of 1884-85 only) was 15.2 inches on Nov. 22, 1893.

The average number of clear days is three, partly cloudy eight and cloudy nineteen. The prevailing winds have been from the west. The average hourly velocity is 11.2 miles. The highest velocity of the wind was forty-eight miles, from the southwest, on Nov. 14, 1894.

The earliest date on which the first "killing" frost occurred in autumn was Aug. 22, 1888; the average date on which the first "killing" frost has occurred in autumn is Oct. 2. The average date on which the last "killing" frost has occurred in spring is May 15. The latest date on which the last "killing" frost has occurred in spring was June 11, 1881.

Northern State Normal School,
MARQUETTE, MICHIGAN.

The Northern Normal admits graduates of approved high schools to the two years course leading to a life certificate and diploma. It offers courses leading to a three year certificate, which is renewable for three years and valid in graded schools, and also a rural school certificate. It has Excellent facilities for training teachers for special work in kindergarten, music, drawing and nature study.

It has an exceptionally fine corps of teachers who are specialists in their departments, and its training school gives a splendid opportunity for the training of teachers.

There is an excellent dormitory in connection with the school which is an ideal home for students. The building is lighted with electricity, and heated with steam; the living rooms are large, well lighted, and pleasant; and the dining room has a seating capacity of one hundred fifty persons. The expenses are moderate.

Students of the Northern Normal School who finish the Life Certificate course are given fifty-six hours credit at the University of Michigan.

ISHPEMING THEATER Tuesday, Nov. 1st. Mr. Porter J. White and Miss Olga Verne IN GOETHE'S IMMORTAL "FAUST"

FOLEY'S HONEY AND TAR CURES the Most STUBBORN COUGHS STAFFORD DRUG CO., Marquette, Mich.

Ishpeming Department

JEFFREY NUGENT DEAD. Pioneer Resident of Ishpeming Passed Away at Butte, Mont., Friday.

Jeffrey Nugent, who resided in Ishpeming from early in the seventies until about a year and a half ago, when he went to Butte, Mont., died in a hospital in that city Friday.

"FAUST" TOMORROW NIGHT. Porter J. White and Company Will Be at Ishpeming Theater.

Porter J. White and his company, who will produce "Faust" at Ishpeming theater tomorrow evening, will be greeted by a large audience.

The story of Faust has perhaps been made use of for dramatic purposes of tenor than any other on the stage. From the lines of the "Doctor Faustus" of Christopher Marlowe, Shakespeare's glorious contemporary, to that of Goethe, his only rival in the dramatic field, there has been an unceasing stream of Faust productions.

HOPKINS' CURB LETTER. Following is the curb letter issued from Hopkins' office Saturday.

"The volume of business continues heavy. Pittsburg & Duluth is leading in demand. While we believe Calumet & Pittsburg is a good mine the shaft must be put down another hundred feet and a drift of at least 200 feet made before the ore body will be reached.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers whether it was wanted for a child or for an adult, and if for a child they almost invariably recommended Chamberlain's Cough Remedy.

THOUSANDS OF PEOPLE are splitting their throats and are coughing themselves to death, when a bottle of Gloria Lung Balm would stop the trouble at once.

ISHPEMING LOST AGAIN. Escanaba Won by the Score of 30 to 0 Saturday Afternoon.

The football team of the Ishpeming High school was beaten, and beaten badly, at Escanaba Saturday afternoon.

DEGREE TEAM TO ENTERTAIN. Woodmen and Royal Neighbors Invited to Attend Social Function.

The members of the local degree team of the Modern Woodmen of America will enjoy their annual public entertainment this evening at the Woodmen's hall.

CHILD FATALLY SCALDED. Clifford, aged two and a half years, son of Otto Nelson, deceased, for E. Braasstad & Co., was fatally scalded Friday evening.

WON A TRACT OF LAND. Wm. P. Small of Ishpeming is among the winners of prizes awarded at the annual fair of St. Patrick's church at Escanaba last week.

ISHPEMING IN BRIEF. The police officers will have their hands full this evening—Hallow'een.

The dancing class will give a hop Wednesday evening at the Woodmen's hall, Anderson block.

G. R. Watts, the piano tuner, will be in the city Wednesday and Thursday. He can be reached at Girard's store.

Miss Clara Thropp, in Isen's "A Doll's House," will be the attraction at the Ishpeming theater Friday evening.

W. H. Hopkins left for Milwaukee Saturday night to spend Sunday with his partner, Phillip D. Kennedy. He will return today.

The Ishpeming High school football team was tendered a reception at the Escanaba High school Saturday evening. A great many Escanaba people attended.

Several Ishpeming men attended a Republican rally at Republic Friday evening. Among the speakers were H. O. Young, W. T. Potter, C. J. Byrnes and William Peters.

Miss Mae McKirrick and Ethel Rogers were among the local people who accompanied the high school football team to Escanaba Saturday. All returned on the early train yesterday morning.

J. C. W. Chipman, local cashier of the Oliver Iron Mining company, spent Saturday at Escanaba on business for the company. He was accompanied by Will O'Connor, the company's chief accountant from Duluth.

"The Rough Riders," a juvenile football team, composed of youngsters living on Strawberry hill, played a Marquette eleven Saturday at Marquette. Neither team scored. A return game will be played on the Union Park gridiron a week from next Saturday.

MILLIONAIRES' POOR STOMACH. The worn-out stomach of the over-fed millionaire is one of the greatest public evils.

Little are a terrible torment to the little folks and to some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

Upper Peninsula

Menominee Land Deal. William Kent of Chicago has purchased 6,000 acres of land in Menominee county from the C. H. Worcester company.

Has No Opposition. Judd Yelland of Escanaba is not worrying about the result of the election next month as he has no opposition for the office of prosecuting attorney.

Violated the Game Law. Game Warden Robbins and Deputy Sheriff Gleason of Dickinson county arrested Aloys Kempel, Arthur Welsh, Fred Kallman and Porter Plumley at Channing last week for violation of the game law.

Senator Went Underground. United States Senator Alger and State Chairman A. J. Dickema, who addressed a large meeting at the opera house at Iron Mountain last Tuesday evening, improved their opportunities to the utmost while there.

Owl Captured in Mid-Lake. A fine specimen of the snowy owl has been presented to the Melville museum of the Sault Ste. Marie high school.

Mill Being Demolished. The Bay Shore Lumber company has finished its operations in the Menominee district and has started demolishing its Menominee plant preparatory to its removal to Wabeno, in the county adjacent to Wisconsin.

Pigeons Fly for Prizes. A considerable number of Norway citizens, for the most part Belgians, are owners of homing pigeons.

Wanted for Alleged Fraud. A warrant has been issued for the arrest of J. D. Parker charging him with fraud. Parker took an active part in encouraging the organization of the Newberry high school football team at a certain hour, the owners of the pigeons that arrive home first winning the prizes offered by the club.

County Court House at the Sault. The cost of the improvement will be in the neighborhood of \$25,000. One improvement will be increased vault accommodations. Hereafter many valuable papers have to be stored in the county offices in the building, with the result that the county will be saved the expense of renting office room in private buildings about the city.

Sand Causing Much Trouble. Contractor A. Q. Thatcher, who is constructing the new intake, nearly disgusted with Escanaba. His antipathy is not against the city itself but against the sand. He has found sand in many places but he has never found sand in any city that compared with the sand of Escanaba.

King Quality Shoe for Men. This shoe is one of the best of the new patterns—very dressy. Note the paneled Glove Top contrasted with the Patent Coltskin.

Johnson & Peterson. We Make.... Our Own Sausage. All kinds and cure our own Ham and Bacon. Try them.

J. J. Leffler. Original and Only Genuine. CHICHESTER'S ENGLISH PILLS. In need of relief, take these pills.

PARTNERSHIP IS DISSOLVED

WELLKNOWN FIRM OF GOODING & ORMSBEE PASSES OUT OF EXISTENCE.

FRANK H. GOODING RETIRES

HEALTH CONSIDERATIONS LEAD TO HIS DECISION.

His Interest, in Association With Mr. Ormsbee, Is Assumed by L. W. Atkins, and Business Will be Continued Under the Lines Followed in the Past.

Marquette people who became cognizant of the transaction were much surprised Saturday to learn that Frank H. Gooding and Sidney S. Ormsbee, engaged in business under the name of Gooding & Ormsbee, the wellknown clothing and gent's furnishing goods firm in the Nester block, had dissolved partnership.

Today, when through the medium of this article the news is circulated throughout the city, the surprise will be general. The firm of Gooding & Ormsbee had been in existence for so extended a period that it in itself had long ago become to be considered a permanent fixture in Marquette mercantile circles, and that it would be changed in any way through a business deal was something entirely unexpected.

L. W. Atkins, who assumes Mr. Gooding's interest, is a clothing man of ripe experience. For the past thirty-three years he has been on the road for some of the leading manufacturers of clothing in the United States, at present, as for some time past, being the Michigan representative of a big Chicago house.

The local business will rest with Mr. Ormsbee. The firm of Gooding & Ormsbee was organized almost eighteen years ago, the business being established in February, 1887, in the north store of the Marhard block on Front street.

LAST WEEK OF CAMPAIGN.

Candidates Will Now Crowd in Their Final Work. Today begins the last week of the county, state and presidential campaign, and the next eight days will be productive of more political activity than any other two weeks of the fall.

The big remaining rally of the campaign is to be held Thursday night by the Democrats. Woodbridge N. Ferris is to speak here. With one exception, this is the only meeting the Democrats have held in the county. This is unprecedented. Usually they put up more of a campaign, but this seems to be one of their off years.

The county candidates promise to be very active during the week. They have been doing considerable quiet work, but most of them have been holding their fire for the last seven days, on the theory that the work that really counts will have to be crammed into this period.

George Sherman, aged twenty-seven years, fell off a launch near the Coe-Orange company dock at Munising Friday afternoon and was drowned. The body was recovered about two hours later.

PRACTICALLY FOR LIFE.

Would-Be Assassin of Prosecutor Freeman Gets Stiff Sentence.

James Tyner, the Munising man, mentioned whose arrival at the Marquette prison Friday night was made in Saturday's issue, has practically been given a life term in the penal institution down the bay shore. His crime was the attempted murder of prosecuting attorney Freeman of Alger county last Fourth of July.

JUDGE BROWN PROSECUTOR.

Tyner's prosecution was in the hands of Judge C. E. Brown of this city, assisted by George P. Brown, his son, the fact that the Alger county prosecutor was himself the intended victim of Tyner's murderous assault necessitating the appointment of a temporary prosecutor.

HASNT LOST A GAME.

Repeaters Bowling Team Still at the Top of the List.

With a record of nine games won and none lost, the Repeaters team has retained its place at the top of the list as a result of the contests bowled during the past week on the Bowsher alleys.

INDIVIDUAL AVERAGES.

	P.	W.	L.	P.C.
Repeaters	9	9	0	1000
Badgers	9	7	2	778
Hornets	6	3	3	500
Hawks	4	4	5	445
Ravens	3	1	2	333
Beavers	2	2	7	222
Owls	1	5	167	167
Colts	0	3	000	

The players bowling better than an average of 100 pins rank in the following order:

	G.P.	Ave.
Kimbell-Hornets	6	177.2
Anderson-Badgers	6	176.6
Allen-Colts	3	171.2
Miller-Repeaters	9	170
H. O. Bell-Repeaters	9	168.5
Van Iderstine-Hawks	9	168.1
Simmons-Badgers	9	166.7
Bowsher-Badgers	9	165.5
Cunningham-Owls	6	165.4
Herrmann-Beavers	2	164.1
McKenna-Hawks	9	161.8
Werner-Hawks	9	160.8

BEST PRIZE

awarded to Gold Medal Flour at the World's Fair. Your grocer sells it. (10-31-04)

NORMALS WON.

Defeated a Picked Team at Calumet by the Score of 10 to 5.

The Northern Normal school football team, first organized this season, made a good showing on the Athletic Park gridiron at Calumet Saturday afternoon, triumphing over an eleven composed of high school and Y. M. C. A. players by the score of 10 to 5.

INSPECTED THE DOCKS.

L. S. & I. Officials Pay Visit to the Head of the Lake.

H. B. Harris, general manager of the Lake Superior & Ishpeming railway, which runs between Ishpeming and Marquette, and Frank Brown, agent at Marquette during the week and made an inspection of different docks and carrying equipment at the head of the lakes and Two Harbors, says the Duluth Herald in its issue of Saturday. It is understood that the Lake Superior & Ishpeming will be in the market soon for some new cars, and that the trip here was to inspect various styles of equipment in use in this neighborhood.

VEGETABLES FROM BIG BAY.

Some Fine Produce Is Already Being Raised in That Region.

The Mining Journal has received a number of samples of a vegetable crop raised this year at Big Bay. They include rutabagas, pumpkins and potatoes, and show by their good size, soundness and maturity that the Big Bay soil must be well adapted for general agricultural purposes.

BOY LOSES A LEG.

A ten-year-old boy named Daniel Barney, residing with Mrs. Brisson, a relative, on Hogan street, South Marquette, lost a leg Saturday as a result of stealing a ride on an ore train.
