SAKHALIN FORCE YIELDS TO JAPS

RUSSIAN GOVERNOR AND THE BULK OF THE INSULAR GARRISON SURRENDER.

SEVENTY OFFICERS, 3,200 MEN

ALL GOVERNMENT PROPERTY AND SUPPLIES TURNED OVER TO THE MIKADO'S TROOPS.

Opposing Armies Are in Close Touch in Northern Korea, and Early Battle Is Considered Inevitable—Ships of Togo's Fleet Hovering Off Vladivostok.

London, Saturday, Aug. 5.—The Telegraph's Japanese correspondent at Moji comments upon the tremendous extent of General Linvitch's command, including as it does Vladivostok and northern Korea, and doubts the Russian general's ability to have effective control of such a far-extended line, which is unprecedented in the world's history. He declares that the coming battle, unless averted by peace negotiations, will be on such a gigantic scale as to decide the war once and for all.

Tokio, Aug. 4.—The bulk of the Russian garrison in Sakhalin island, consisting of Governor Liapoff, seventy officers and thirty-two hundred men, surrendered to the Japanese July 31, the Russian governor saying that lack of baggage material and medicines compelled him from a sense of humanity to terminate the struggle. All the war supplies and property of the Russian government were turned over to the Japanese.

Battle at Hand in Korea. Tokio, Aug. 4.—It is reported that the advance guards of the host forces south of the Tumen river, Northern Korea, are within rifle range. An early conflict is regarded inevitable.

Godoyandani, Manchuria, Aug. 4.—Dispatches from Korea to the Russian headquarters report that the Japanese began simultaneous advances from Kanchodori against Musariet and Piatshang passes, but that both columns were checked under the pressure of the Russian advance detachments. The Russian losses are reported insignificant. Japanese warships are reported cruising off the mouth of Peter the Great bay, on which Vladivostok is situated.

Deluge of Rain in Manchuria. Godoyandani, Manchuria, Aug. 4.—Almost tropical rains are falling in Manchuria, and the hilly regions are impassable for trains or artillery. Every mountain path is a torrent, and every stream a quagmire. Important operations apparently will be impossible for a long time to come.

RUSSIANS AT OYSTER BAY.

Peace Plenipotentiaries the Guests of President and Mrs. Roosevelt. Oyster Bay, N. Y., Aug. 4.—President and Mrs. Roosevelt today informally entertained Sergius Witte and Baron Rosen, the Russian emperor's plenipotentiaries to the Washington peace conference. The distinguished visitors arrived in Oyster Bay on the 12:30 p. m. train from New York.

The journey to Oyster Bay was begun directly after services in St. Nicholas' church in New York city, New York city, attended by the plenipotentiaries. Prayers were offered at the service for the envoys personally and for the successful accomplishment of their mission of peace with all honor to their emperor and to Russia.

A considerable number of the residents of Oyster Bay had assembled at the station to see the Russian envoys. The envoys were met by messengers from the president's official household, escorted by the officers, they were directed to the carriage which President Roosevelt had sent to the station to convey them to Sagamore Hill.

Formal Reception Today. Tonight the final arrangements were completed for the reception by President Roosevelt of the Russian and Japanese peace envoys tomorrow. The reception, which will be a formal greeting to the representatives of the belligerent powers by President Roosevelt on behalf of the United States government, will take place on the cruiser Mayflower at 1:30 o'clock p. m., and will be attended by a notable demonstration in honor of the distinguished guests of the country who have been designated by their emperors as their plenipotentiaries to the peace conference.

The president and the state and navy departments will unite to extend cordial greetings to the plenipotentiaries and to facilitate in every possible way their mission of peace. Every honor due their rank will be paid the envoys, and the cordiality of the president on behalf of the American people will leave nothing to be desired.

RUSSIAN GOVERNOR ESCAPES.

Would-Be Assassin Fires Three Shots but Without Effect. Athens, Russia, Aug. 4.—An attempt was made today to assassinate M. St. Lypine, governor of Saratoff, while he was driving. Three shots were fired at him, but without effect.

REACTIONARIES OUT-VOTED.

Russian Council of Ministers Approves the National Assembly Plan. St. Petersburg, Aug. 4.—The council sitting at Peterhof has approved the first thirty-four clauses of the national assembly project, without important

modifications, despite the determined opposition of M. Pobedonosteff, procurator general of the holy synod, and his adherents.

DAY OF ILL OMEN.

Muscovites Elated Peace Conference Will Not Open on Monday. St. Petersburg, Aug. 4.—The selection of Tuesday as the day for the opening of the Russo-Japan peace conference has relieved the minds of many Russians, who feared the conference might begin Monday, which to Muscovites is a day of evil omen. Definite information as to the nature of the Japanese terms is not expected before Thursday.

GUNS BOOM IN MANILA.

Taft Party Arrived from Japan at 10 O'Clock This Morning. Manila, Saturday, Aug. 5.—Secretary of War Taft and party arrived here on the steamship Manchuria at 10 o'clock this morning. Their arrival was made the occasion of a gorgeous water pageant. Governor General Wright, Major General Corbin and Rear Admiral Train, with their staffs, and the official reception committee met the party when the Manchuria anchored.

The battleship Ohio, the forts and the craft in the harbor fired the regulation salute for the secretary of war. After the party left the steamship they proceeded to the governor general's residence, where the official welcome was made and where the golden keys of the city were presented to Secretary Taft. Many thousands lined the streets, which were elaborately decorated.

STATE GIVES UP

FEDERAL GOVERNMENT ASKED TO TAKE CHARGE OF THE FEVER SITUATION.

The following is the yellow fever record at New Orleans up to 6 o'clock last evening: New cases 43 Total to date 475 Deaths yesterday 5 Total deaths to date 89

Washington, Aug. 4.—President Roosevelt tonight forwarded to Surgeon General Wyman, of the public health and marine hospital service, a telegram from Governor Blanchard of Louisiana, requesting the United States government to take control of the yellow fever situation in New Orleans. The president directed the surgeon general to take every step in his power to meet the situation in New Orleans and to notify him what further action is advisable and possible for the federal authorities to take.

New Orleans, Aug. 4.—With no intention of admitting that the fever situation is beyond control, but in the hope of reviving confidence, it was decided today to request President Roosevelt to have the United States government assume full charge of the struggle now in progress to wipe out yellow fever. The public approves the action taken. The expectation is that within the next two days Surgeon General Wyman, with all his resources, will be enlisted actively in the campaign.

The action was the result of a meeting held today, attended by city officials and the state board, Surgeon White, of the marine hospital service, and a number of representative citizens. It was the consensus of opinion that if government control was resolved upon, there would be an immediate restoration of confidence throughout Louisiana and other states where there has been criticism of the local authorities for not making prompt action in the belief that prompt action now in turning over the direction of affairs to the marine hospital service, in which there is supreme confidence here, would almost certainly avert an epidemic.

INDIANA MAN KILLS HIS WIFE.

Then Walks Four Miles to a River and Drowns Himself. La Porte, Ind., Aug. 4.—David Reed, fifty-five, at Hamlet today shot and killed his wife, after which he walked four miles to the Kankakee river and drowned himself. No reason is known for the act except that Reed's wife wanted to return to Michigan.

ILLINOIS GIRL SHOTS HERSELF.

Decatur, Ill., Aug. 4.—While returning from a concert last evening Anna Oye borrowed a revolver from Jules Garland to shoot at marks on the roadside. Suddenly, she asked Garland to shoot her. On his refusal, she killed herself. No reason is known.

THEIR BOAT MISSING.

Kansas Woman and Six Children Thought to Have Drowned. Wichita, Kas., Aug. 4.—Mrs. Louis Steinbuehl, together with her three children and three children of Rev. Mrs. D. F. Lynch, a neighbor, are all believed to have been drowned in Little river, near this city, today. The party went out boating shortly after the noon hour and have not yet been found.

PASSENGERS PANIC-STRICKEN.

Locomotive of Crowded Train Plunges Into River, Drowning Engineer. New York, Aug. 4.—The locomotive of a crowded excursion train at Bayonne, N. J., rolled down a steep embankment today, leaving the passengers panic-stricken on the trestle above. The engineer was drowned. None of the passengers were injured.

KING ALFONSO'S NEPHEW.

Death Takes the Heir Presumptive to the Spanish Throne. San Sebastian, Aug. 4.—The infant Don Alfonso, son of the late Princess of Asturias (sister of King Alfonso) and heir presumptive to the throne, died today.

NORSE THRONE THE TOPIC.

Swedish Crown Prince in Denmark to Confer With the King. Copenhagen, Aug. 4.—Crown Prince Gustave of Sweden arrived here today to discuss with King Christian the question of the Norwegian throne.

TODAY'S WEATHER.

Washington, Aug. 4.—The following is the weather forecast for Upper Michigan: Showers; Saturday; Sunday, partly cloudy, showers in the north; variable winds, becoming north.

TOPPLED OVER INTO CASKET.

Heart Disease Kills Man Engaged in Trimming a Coffin. St. Louis, Aug. 4.—While in the act of trimming a coffin in a coffin-making establishment here today, George Diehl, an employe, was suddenly stricken dead and toppled over into the casket. Heart failure caused his death.

GAMBLERS QUIT CHICAGO.

City of Traverse, Floating Pool Room, Clears for Kenosha, Wis. Chicago, Aug. 4.—The steamer City of Traverse, the floating pool room, whose passengers underwent so many vicissitudes yesterday, cleared tonight for Kenosha, Wis. It is the generally accepted opinion of the Illinois authorities that no further effort will be made to use this city as a base for the operations of the boat, and that she will hereafter leave the Wisconsin port to receive the wireless messages.

JAP WINS WRESTLING MATCH.

Jiu Jitsu Instructor at Annapolis Downs Bulky Opponent. Asheville, N. C., Aug. 4.—Professor Ono, Japanese instructor of jiu jitsu at the Annapolis naval academy, tonight defeated "Big Tom" Frisbee of Madison county, North Carolina, in a mixed wrestling match. Ono secured the first fall in one hour and twelve minutes and the second in thirty-five seconds. Ono weighed 207 pounds and stands 5 feet, 6 1/2 inches, while Frisbee weighed 305 pounds and is 6 feet, 5 1/2 inches.

STRIKEBOUND ROADS HAVING INCREASING TROUBLE IN MOVING TRAFFIC.

St. Paul, Aug. 4.—Although conditions approaching complete demoralization of traffic have not yet developed as a result of the strike of telegraphers on the Great Northern and Northern Pacific railways, increasingly serious delays are being caused.

Tonight the effect of the strike is becoming manifest in the movement of passenger trains, which the officials by strenuous efforts have been able so far to keep practically on schedules. Information given out at the Union depot in St. Paul shows that while nearly all the morning trains on both roads were on time, the midday and afternoon trains have been coming in at all hours.

Railway officials say that they are taking all the freight business offered and will be able to take care of it. The operators, however, are aware of the difficulty with which freight is being moved and predict that when the heavy movement of the crops begins presently, the tie-up will be realized. Railway managers say that they are continuing to get men from the union ranks, while President Perkins of the telegraphers' union, declares these statements greatly exaggerated.

Numbers of stations are being opened, nevertheless, on both roads, clerks from the general offices and other employes besides dispatchers being used. Those who are not telegraphers are assigned to smaller stations to take care of the freight and express traffic.

INTERESTED IN CONTRACT.

U. S. Bureau Chief Admits Former Connection With Business Concern. Washington, Aug. 4.—Dr. D. E. Salmon, chief of the bureau of animal industry, of the department of agriculture, who has held that office many years, today admitted that he was a business partner of George E. Howard, of this city, when the gelatine meat label was patented, and also when, in June, 1901, the first contract for the label was awarded by the department of agriculture.

After the first contract was secured from the department, Dr. Salmon withdrew from the partnership, having, he said, already practically withdrawn before that. His interest in the printing establishment then was apparent. Dr. Salmon said he had absolutely no interest in the "meat label," directly or indirectly, since July 1, 1901.

Secretary Wilson said tonight that Dr. Salmon had explained his connection with the printing company substantially as related by the doctor in his conversation with newspaper men. He also said that Howard had come to the department, bringing with him the books of his firm, and had shown that no one in the department had any connection with the company since Dr. Salmon had withdrawn.

Regarding the allegations of favoritism in packing houses in the assignment of government meat inspectors, Secretary Wilson and Dr. Salmon today expressed the opinion there had not been any undue discrimination.

JURY EVENLY DIVIDED.

Trial of Congressman Williamson of Oregon Ends in Disagreement. Portland, Ore., Aug. 4.—The jury in the case of Congressman Williamson, tried in connection with the land frauds, disagreed today. Seventeen ballots were taken, the vote standing almost throughout at six to six.

JUDGE LYNCH PRESIDED.

Two Negroes, Charged With Murder, Executed by a Mississippi Mob. Hattiesburg, Miss., Aug. 4.—Edward Lewis and "Kid" George, two negroes, were lynched here tonight. They were charred with being accessories in the murder of Constable Guert Smith today.

ARCTIC RELIEF SHIP SIGHTED.

Christiana, Norway, Aug. 4.—The Arctic vessel, Bangsund reports that on July 16 she spoke the Magdalene, the relief ship for the Ziegler polar expedition, in latitude 74, degrees 25 minutes north, longitude 10 degrees 22 minutes west. The Magdalene reported all well.

MRS. JOHN G. CARLISLE DEAD.

Babylon, L. I., Aug. 4.—Mrs. Mart J. Carlisle, aged seventy, the wife of former Secretary of the Treasury John G. Carlisle, died today at her country home in West Islip, after an illness of three weeks.

HIS INDICTMENT STIRS MILWAUKEE

GRAND JURY RETURNS A TRUE BILL AGAINST CHARLES F. PFISTER.

ACCUSED MAN MILLIONAIRE

BANKER, NEWSPAPER OWNER, AND IDENTIFIED WITH MANY OTHER ENTERPRISES.

Charge Is the Conversion to His Own Use of Money Held by Him in the Capacity of Bailie, an Allegation He Brands as Absolutely False.

Milwaukee, Aug. 4.—The grand jury returned five more indictments late today. Among those indicted is Charles F. Pfister, one of Milwaukee's most prominent citizens. The charge against Mr. Pfister is that of larceny as bailie in connection with the Wisconsin Rendering deal.

Profound Sensation Caused. The indictment against Mr. Pfister alleges that "March 30, 1901, the accused was bailie of a sum of money stated to be \$14,000, the said amount being placed in his hands and deposited with him for the Wisconsin Rendering company for handling garbage, and if not so used and expended, to be returned to the company; and not having been used for the purpose aforesaid, and whilst he was bailie of said sum, did unlawfully, feloniously and fraudulently steal, take and carry away and fraudulently convert the same to his own use."

The indictment created a profound sensation, as Mr. Pfister is one of the wealthiest and most prominent men in Milwaukee, a banker, newspaper owner and identified with many other enterprises.

Mr. Pfister tonight declared the charge absolutely false. He said that eight years ago President Gross, of the Rendering company, did place the money in his hands, and he used a portion of it according to instructions, two years ago paying over the balance on Mr. Gross' orders.

State Senator Accused of Bribery. The others indicted are: John F. Dittmar, former supervisor; George F. Reichert, supervisor, fourteen counts; bribery; Barney A. Eaton, state senator; bribery.

The indictments against Reichert and Dittmar—allege bribery in connection with county "deals."

Senator Eaton is charged with accepting a bribe in connection with a stationery engineers' bill in the legislature.

133 Indictments Altogether. Tonight's batch of indictments makes the total by the present grand jury 133. The jury has taken a recess until Aug. 22.

A Boon to the Strikers.

Later—The difficulties in train operation will be greatly increased by orders issued tonight to the conductors and engineers on the two systems. Grand Chief Engineer Stone, of the Order of Railway Engineers, instructed the members of that body to cease assuming any of the functions of telegraphers, and Grand Chief Clark, head of the Railway Conductors, has issued like orders. Telegraphers say that much of such success the roads have had in moving trains was due to aid given by members of these orders.

INDIAN MAN KILLS HIS WIFE.

Then Walks Four Miles to a River and Drowns Himself. La Porte, Ind., Aug. 4.—David Reed, fifty-five, at Hamlet today shot and killed his wife, after which he walked four miles to the Kankakee river and drowned himself. No reason is known for the act except that Reed's wife wanted to return to Michigan.

ILLINOIS GIRL SHOTS HERSELF.

Decatur, Ill., Aug. 4.—While returning from a concert last evening Anna Oye borrowed a revolver from Jules Garland to shoot at marks on the roadside. Suddenly, she asked Garland to shoot her. On his refusal, she killed herself. No reason is known.

THEIR BOAT MISSING.

Kansas Woman and Six Children Thought to Have Drowned. Wichita, Kas., Aug. 4.—Mrs. Louis Steinbuehl, together with her three children and three children of Rev. Mrs. D. F. Lynch, a neighbor, are all believed to have been drowned in Little river, near this city, today. The party went out boating shortly after the noon hour and have not yet been found.

PASSENGERS PANIC-STRICKEN.

Locomotive of Crowded Train Plunges Into River, Drowning Engineer. New York, Aug. 4.—The locomotive of a crowded excursion train at Bayonne, N. J., rolled down a steep embankment today, leaving the passengers panic-stricken on the trestle above. The engineer was drowned. None of the passengers were injured.

KING ALFONSO'S NEPHEW.

Death Takes the Heir Presumptive to the Spanish Throne. San Sebastian, Aug. 4.—The infant Don Alfonso, son of the late Princess of Asturias (sister of King Alfonso) and heir presumptive to the throne, died today.

NORSE THRONE THE TOPIC.

Swedish Crown Prince in Denmark to Confer With the King. Copenhagen, Aug. 4.—Crown Prince Gustave of Sweden arrived here today to discuss with King Christian the question of the Norwegian throne.

TODAY'S WEATHER.

Washington, Aug. 4.—The following is the weather forecast for Upper Michigan: Showers; Saturday; Sunday, partly cloudy, showers in the north; variable winds, becoming north.

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The great reform question of the present hour is whether Chief Collins will be able to keep it up as long as Chicago can.

The South Shore receipts for the first week in August ought, according to all accounts, to show some effects of the Soo canal semi-centennial.

Press reports are to the effect that James Hazen Hyde is now a-wooing. It will be reflected that matrimony has in the past proved a cure for some desperate cases.

It is to be hoped that the czar and his advisers have given due thought to what the Japanese peace terms will likely be, if a continuance of the war results in the defeat of Linévitch by Oyama.

The general participation of senatorial candidates and members of the state legislature in the Soo semi-centennial was inevitable. One bunch couldn't well have attended without attracting the other.

Despite their assertion that they should be parties in interest to the peace negotiations, it is very clear that China and Korea will have to take rank with other nations as nothing more than interested spectators.

Reports from the Soo indicate that the legislators and other politicians attending the canal celebration have shown a notable hesitancy about pledging allegiance to any one of the several senatorial candidates. The situation indicates that all reasonable precautions are being taken against boarding any but the "sure 'nuff" band wagon.

The Detroit police frankly confess themselves baffled by the mystery of the Meyer murder, and if it is solved they expect that this result will come about through the agency of women, liquor or reward. Either one of these three agencies frequently leads to the detection of crime, but they certainly hold out but slight hope when they are the sole dependence.

Superior, popularly supposed to be one of the dearest towns in the state of Wisconsin, is shown by the 1905 census to be the second city, being exceeded in population only by Milwaukee. Superior is credited by the census returns with 36,665 people, or an increase of 5,574 since the government census in 1900. These figures compel the conclusion that the town is not so moribund after all.

An echo of the case of Cassie Chadwick, once a nine-day wonder, is found in a Cleveland dispatch which conveys the information that the Chadwick creditors are in line to receive seven mills on each dollar coming to them. The assets will amount to about \$25,000. The attorney's fees and court costs will aggregate about \$10,300, leaving about \$14,000 to be divided between creditors whose claims amount to approximately \$2,000,000. Cassie Chadwick has certainly made a bold bid for the distinction of being the prize fakir of the new-century.

The local officials at South Haven, Mich., seem unable to cope with the people who want to lead the lid off, and there are great goings on at this Lake Michigan town. It is reported that Governor Warner may be impounded to send militia to secure the enforcement of the laws at Grand Haven. It is not likely that the governor will do any such thing. There is no precedent for it, and it is likely that when the people of the town want a cleanup they can have it. The wide open conditions are a fine attraction for Chicago excursionists, and it appears that Grand Haven, from the mayor down, has an insatiable appetite for Chicago shekels.

George Kenyon, in the Outlook, pays the following tribute to the marksmanship of the Japanese gunners who blew Admiral Rojstvensky's fleet out of the water: "I hesitate to say how many holes, dents, bruises and abrasions had been made in the superstructure of the Orel by fragments of these shells, but I think I do not exaggerate when I estimate the number at one thousand. When every shell that bursts inside a ship or on her deck sets fire to everything that will burn and at the same time throws hundreds of fragments in every direction, it becomes impossible to navigate the ship or work her guns, even though she be perfectly seaworthy." The Orel's condition is due chiefly to the skill of the man behind the gun, and this skill will ever remain, other things being even fairly equal, the decisive factor in naval engagements. When President Roosevelt was assistant secretary of the navy he was regarded as wildly extravagan-

gant in his powder-burning for target practice, but the wisdom of his policy was vindicated at Manila and Santiago, and not the least of the confidence in the American navy is felt by the people because the confidence in the "man behind the gun" given birth in the naval engagements of the Spanish war has been continued unimpaired.

Henry Waterson says that there is no comparison between European and American aristocracies, remarking on his return from a trip to the continent: "I observed European aristocracy pretty closely while I was over there and I have arrived at the conclusion that foreign aristocracy is of a much better grade than the American article. This aristocracy means lineage and brains. Here—well, it ranges chiefly from bad whiskey to Standard Oil." Colonel Waterson's definite statement of opinion can probably be accepted as throwing some light on the question of whether we really have an aristocracy. By his comparison he indicates that he believes that we indeed have one, such as it is.

There is a likelihood that Detroit will follow Cleveland's example and put an end to horse racing. 'Twould be as well. Horse racing in these modern days means good sport, but mostly it means handbooks, defaulting clerks, a procession of tourists and dead things. In Detroit there is a suspicion that the recent Meyer murder was the work of desperate followers of the race track. Detroit is one of the few remaining cities that haven't taken a stand against the racing game. The general tightening of the strings will doubtless lead promoters to take some steps to clean up the sport, and eliminate the following of roughs and confidence men that has come to be so closely identified with it.

Concerning District Attorney Jerome's announced intention to become an independent candidate, the New York World has the following comment: "Mr. Jerome has made a platform of a principle. That principle is the right of the people to elect a public official merely because they know he is honest and untrammeled, not to suit the convenience of one party boss or another. His attitude is a challenge to all party bosses. It is a rallying-cry to free voters who place public above party service. Doubtless Mr. Jerome might have secured a nomination in the usual way if he had been willing to play politics with a party machine. Professional ticket-makers would have been glad to use so popular a candidate to further their own schemes. Mr. Jerome refuses to lend himself to them or to court their favor. He has the courage to trust the people. He has the pride to defy the bosses. It is truly a test case that Mr. Jerome is making. Less a test case of his personal merits than of the independence of the people of New York county. He is asking them to elect him not to prove their power of control over their own votes. It is precisely because the politicians have learned to fear him, because he has taught them that he cannot be influenced, that he is the fitting leader in such a fight. It would be a political calamity to lose Mr. Jerome in the office of District Attorney and to replace him with a ready-made candidate of the type of Fellows or Gardner. It would doubly be a calamity to lose him on the platform he has drawn."

GERMANY'S NEW TARIFF. There continues to be a constant interest in the German-American trade situation. The new German tariff, effective March 1 next and expected to affect Americans trade with Germany in a manner distinctly disadvantageous to this country, is an arrangement long in the course of being worked out, and provides for two rates of duty. The higher is termed an "autonomous tariff," and works without a reciprocity agreement, which includes, of course, the United States. The lower rate is to apply in the cases of countries which have lowered their tariff walls in favor of Germany.

The American trade is to be affected mainly in American exports of foodstuffs. The most important item in our exports to Germany is cotton, of which we sold \$109,000,000 worth to German manufacturers last year, and it is not to be affected by the new tariff, but will remain duty free. This is also true of copper and unmanufactured tobacco, but it is an entirely different story when it comes to foodstuffs. As is well known, the tariff policy adopted by Germany in regard to American exports of foodstuffs was entered upon largely at the dictation of the Agrarians. It has already caused an outcry among the employed class, but is in no way to be altered as long as the Agrarians maintain their present great influence in determining the commercial policy of the country.

It is of interest to note the increase in tariff that will be charged against certain American products after March 1. Lard, an important export, will have to pay duty at the rate of \$1.36 a hundred pounds, instead of \$1.09 as at present. American bacon will have to pay about double the present duty, and the increase on rye will also be 100 per cent, approximately. There will be a somewhat heavier increase on wheat and a treble increase on corn. The flour duty will be \$4 a barrel, an advance \$1.55 at present. Outside of foodstuffs, the duty on American boots, shoes and leather will be about doubled, these being some of the more important changes.

As suggested, there will be a great outcry against the new schedules for American goods, particularly where foodstuffs are concerned, from the German consumer, but he will be powerless, at least for a considerable time, to give his dissatisfaction tangible expression in any lowering of the tariff walls deliberately raised against American products. Also it appears from the facts herewith cited that the American trade is going to be badly disturbed by the new tariff arrangement. The statistical bureau of the department of commerce and labor has issued a statement designed to quiet popular fears, but the plain facts remain very formidable. All situation is one that naturally suggests

whether it wouldn't be the part of wisdom to hilt the approaching German tariff storm by reasonable concessions. It is an old suggestion, but so far has fallen on arid ground. "Standing pat" is still too popular.

WHERE ENGINEERS CAN BE HAD. The Army and Navy Journal is in the habit of "speaking out in meeting," and with an authoritative voice, despite its semi-official character. Taking as a text the recent explosion of the Bennington boiler the Journal comments on what it calls the deterioration of the navy engineer corps since the passage of the personnel law four years ago which amalgamated that corps with the line. It asserts that engineering efficiency has been impaired throughout the navy, that engineering duty is unpopular with navy officers and that a satisfactory engineering force has not been built up from the force of warrant machinists, as was once fondly hoped.

Moreover, the Journal charges that full and free discussion of this vitally important subject by navy officers, who alone are acquainted with the inside workings of the new regime as well as the old, is forbidden by an order of which the paper says: "There never was a more unjustifiable application of the muzzling process in any navy of the world." It is plain enough that the public will never know as much about the navy as it should unless navy officers are allowed to speak and write about it, of course under proper restrictions the total absence of which would be subversive of discipline.

It is pretty generally admitted that the root of the trouble responsible for the Bennington disaster and the unsatisfactory condition of other and more important ships lies in the shortage of properly trained engineers, a deficiency not to be supplied in a moment, especially as the number of fighting ships in the navy will be doubled in a few years. Nor is it certain that the navy academy can be depended upon to make good the lack. That institution can be relied upon to supply the line officers, but the experience of the last four years raises doubts as to whether it can turn out in the next five or ten years a sufficient number of well trained engineer officers for the navy of that time; officers willing to be engineers and nothing else.

At all events should there be a scarcity of such in the future there is no apparent reason why the government should not bid for the services of young civilian engineers, educated in the country's technical schools, many of which provide an engineering training far superior to that of Annapolis. As regards engineering capacity, general education and social antecedents the civilians of the merchant marine are not as a rule inferior to officers of the navy. These civilians would form an invaluable source of supply in the event of war and in time of peace could be drawn upon with hardly less advantage to the naval service.

PLEASANT PORTER, GOVERNOR OF THE CREEK INDIANS, pointed one day to a brave in paint and eagle feathers.

"He doesn't look enlightened, does he?" said Governor Porter. "Yet he can read Virgil and Horace in the Latin and Homer and Theocritus in the Greek, and once he wrote a sonnet that a leading New York magazine printed and paid \$4 for."

"Enlightenment," said Governor Porter, smiling, "is everywhere. One day I visited an apple farm. The farmer and his sons were filling barrels with apples. They put the big apples in the bottom of the barrels and the little ones on top. I thought this was a place that enlightenment had not struck, and I said: 'My good old friend, don't you know it is unwise and unusual to put the big apples in the bottom and the little ones on top?'"

"Yes," said the farmer, "but these city chaps is gettin' so sharp nowadays that they open all the apple barrels from the bottom, so as to see whether us farmers is tryin' to cheat 'em or not."—Kansas City Journal.

THE UMPIRE. Bring forth a hero medal. For now begins the fray. Put on the loudest pedal.

Let herald his praises carol. As modest, yet severe. Unmoved by thought of peril. The umpire doth appear.

We loudly hail the pitcher. The catcher too we laud. Each year we make them richer. And we gather to applaud. But the man who dares unflinching. Each swift and wrathful ball— We mention him with jeering. If we mention him at all.

And when the chariot carries. The victors from the fray. He goes, and never tarries. Unmoted on his way. In splendor they are riding. With the world's admiring glance. While the men whom they are aiding. Has to take the ambulance. —Washington Star.

SIoux Indian Smart Set. Charlie Dog Eyes hauled a cord of wood to the shed this week. Mr. Pup is not feeling at all well now. He has bleeding from the lungs. Mr. Wasmud and family spent Saturday at He Dog's camp, visiting with Mr. Ege's.

It is reported that Spider Brave Bird and Rose Crow Head are married without the services of a preacher. Circle Fool, one of our most thrifty Indians, died after a brief illness. Eagle Elk, who is visiting Never Miss a spot, went to the agency Sunday.

Two teeth visited the school Monday a. m. and Little Bald Eagle ditto Monday p. m. Kate Hunts Horse has been sewing for two weeks at the school. Oliver Yellow Hair, policeman, returned last Saturday from a two weeks' visit at Pine Ridge.

Annie Goes to War visited our school last week Wednesday. Master Harry and Lucy Roan Horse have been visiting at home for a few days. Aloysius Shooting Cat has left a warm comfortable house and pitched his tent in a sheltered nook of the hills bordering Spring creek for the purpose of being near school.—Rosebud Indian Agency News.

A TOUCHING STORY. Is the saving from death of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "A little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first day she gave relief, after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At the Stafford Drug Co.'s drug store; 50c and \$1.00. Guaranteed. Trial bottle free.

CONSUMPTION CURE. Warner's White Wine of Tar Syrup, the best cough remedy on earth, cures a cold in one day if taken in time. 25 and 50 cents.

FOLEY'S KIDNEY CURE. Will cure Bright's Disease. Will cure Diabetes. Will cure Stone in Bladder. Will cure Kidney and Bladder Diseases. Stafford Drug Co.

WELCOME WORDS TO WOMEN.

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over forty years' experience—a skilled and successful specialist in the diseases of women. Every letter has the most careful consideration and is regarded as strictly confidential. Many sensitively moored women write fully to Dr. Pierce, what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Treatment cures in the privacy of your home. His "Favorite Prescription" has cured hundreds of thousands of bad cases. It is the only medicine of its kind that is the product of a regularly graduated physician. Some unscrupulous medicine dealers may offer little pills, little doses, but give great results in a curative way in all derangements of Stomach, Liver and Bowels.

Write to Dr. R. V. Pierce, Buffalo, N. Y. Take his advice and be well.

On receipt of 21 one-cent stamps, we will send to any address a paper-bound copy of Dr. Pierce's Great Peppermint Cure. The Common Sense Medical Adviser. Or, for 31 stamps the same in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Mrs. E. D. Montfort, of Lebanon, Warren Co., O., writes: "I have received the Medical Adviser. A crisp, new five dollar bill. I have it with me to pay cost to part with it."

Kenton Catches.

Ed. Rocherleau and family moved to Greenland Monday.

Mrs. Rose Lamoureux is visiting friends in Montreal, Canada.

Rev. Father B. Eiling of Even conducted services at the school house Sunday.

Miss Gertrude Smith of Tacoma, Wash., is visiting her aunt, Mrs. A. B. Kennedy.

Charles Schriver, a lumber dealer of Massillon, Ohio, was a business caller here Saturday.

Miss Helen Raynor and little niece, Erroll Raynor of Saranac, are the guests of Mrs. Wm. Shingler.

O. C. Griswald returned Tuesday from Bessemer, where it is reported, he was awarded the contract to erect twenty houses.

Commissioner Bacon has completed the work of relaying the sidewalk along "Chick Row." The improvement is decidedly welcomed.

William Vetter went to Marquette Thursday. Mrs. Vetter has been receiving treatment at St. Luke's hospital there for several weeks.

Will Lewis has recovered from his recent illness and has resumed his studies at the College of Mines. He spent Sunday with his parents at the York.

Mr. and Mrs. John M. Kinney and children of Spencer, Ia., are visiting Mrs. Kinney's sister, Mrs. Frank Warner. Mr. Kinney is a conductor on the St. Paul road.

Mrs. Eli Aho is convalescent after several weeks' illness with typhoid fever. A second case, that of Mrs. Victor Watanabe, developed this week. Both cases have been traced to the use of spring water.

Henry Murray has purchased and moved to the J. D. F. Pierson dwelling, corner of Conklin and Townsend streets. Charles Jacobson, who has been living in the house, has moved to the house on Conklin street vacated by Ed. Rocherleau. Mr. Jacobson has bought the place.

Ira Blossom, life insurance man of Marquette, made his farewell trip to Kenton yesterday and received the well wishes of his new friends here for success in his new field, he having been transferred to the Grand Rapids district and given a more responsible position.

The F. W. Burns railroad shows gave afternoon and evening performances here Thursday to well filled tents. The trained animals and the difficult feats of the acrobats, as well as the good deportment of the management and attendances, gave excellent satisfaction. The shows left on the night train for Baraga.

The Sparrow-Kroll Lumber company will move its loading equipment to the Baltimore operation the coming week. Foreman Wm. Murray will be in charge. Several million feet of logs will be delivered from there to the Kenton mill, via the South Shore. From fifteen to twenty cars per day, it is estimated, will be brought down.

John Patz received word Tuesday of the death of a sister, aged eleven years, at the family home at Coleman, Wis., and at once departed for that place. Before reaching home a brother, seventeen years old, also died. Both deaths were due to diphtheria, while owing to the contagious nature of the disease the instrument took place before the bereaved brother could reach the scene.

H. R. McPherson marketed his first cultivated raspberries and currants here Monday. With four and one-half acres set out to these small fruits he is anticipating bountiful harvests in the coming years. The prospects point to a good yield this season. Berry picking is at its height now, rasp and blue berries being in abundance where cut-over lands have not been fire-swept.

U. S. Hayes, who returned from a trip to the copper country Thursday, reports unusual activity in the building line in that district. He booked orders for thirty cars of lumber and similar material, which will materially increase the already heavy shipments made by the Sparrow-Kroll Lumber company in that territory. The general prosperity in the lumber industry is evident from the fact that the demands of the trade are such as to consume the output of the mills from the highest grades of lumber down to slabwood, and that, too, by advance purchases. Some of the lower grades, together with lath and shingles, which were practically a drug on the market two years ago, have been cleaned up and the manufacturer cannot keep pace with orders. Prices hold firm, with a tendency upward.

It is ten times easier to cure coughs, croup, whooping-cough and all lung and bronchial affections when the bowels are open. Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. Gently moves the bowels and expels all cold from the system. Cuts the phlegm, cures all coughs and strengthens weak lungs.

CONSUMPTION THREATENED. "I was troubled with a hacking cough for a year and I thought I had consumption," says C. Unger, 211 Maple St., Champaign, Ill. "I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me, and I have not been troubled since." Stafford Drug Co.

NOTICE TO CONTRACTORS. Sealed proposals will be received by the Board of Trustees of the Public Schools of the city of Ironwood, at the office of George N. Sleight, director, at Ironwood, Michigan, up to Tuesday, August 9th, 1905, noon, for the furnishing of all materials and the building of a six room brick school building in the second ward of said city.

Two separate sets of plans and specifications have been prepared, one known as the "Humboldt plan" and the other as the "Arnolds plan." Separate proposals are invited for each set. The plans and specifications are on file and may be seen at the office of the director.

All proposals must be made in a lump sum, in accordance with the plans and specifications. Each proposal must be accompanied with a certified check for the sum of two hundred dollars, payable to Frank H. Lesselyou, treasurer, which will be returned to each bidder, respectively, when the successful bidder has entered into a contract with the district to perform the work.

Proposals must be presented in sealed envelopes, directed to George N. Sleight, director, and endorsed: Bid for building a school building in the city of Ironwood.

The right to reject any and all bids is expressly reserved.

GEORGE N. SLEIGHT, Director. Dated, Ironwood, Michigan, July 27th, 1905.

Prescription Excellence. We are certain that nowhere can you get better service than here when you have a prescription to be filled. We know we have the finest drugs money will buy. We know that our methods of compounding are wholly scientific. No prescriptionist can do more than to accurately fill a prescription with pure, full strength drugs, though it is easy to do less than this. Here you are certain of right attention and the service is always worth more than it costs you.

STOPPED FREE. DR. KLINE'S GREAT NERVE RESTORER. Permanent Cure, and a complete relief, for all cases of Nervous Debility, Headache, St. Vitus' Dance, Trembling, etc.

FRIENDS BIG LOSERS

MAYOR OF PATERSON, N. J., SAID TO HAVE GOTTEN AWAY WITH \$100,000.

PATERSON, N. J., Aug. 4.—The unfavorable financing of Mayor Belcher of Paterson, N. J., has left many victims who have lost an amount far in excess of any estimates heretofore given.

Assemblyman Wright has been engaged by the department of banking and insurance to make a search of all the mortgages and deeds affecting the Manchester Building & Loan association, of which Belcher was president and counsel.

Costs His Friends Money. Nearly all of the mayor's personal and political friends have lost money, most of which was loaned without security.

Belcher's Whereabouts Unknown. Nothing is known of Belcher's whereabouts. George H. Burke, deputy collector of internal revenue, Mr. Belcher's closest friend, heard that the mayor was seen Tuesday walking along the canal towpath in the direction of his farm at Midvale.

At a meeting last night of the directors of the Mutual Building & Loan association it was decided to call in all the passbooks. This decision was made about by the knowledge that money had been regularly paid as dues to Belcher at his office; that the dues were credited on the shareholders' books, but not on the books of the association.

Widow Is Heaviest Loser. The largest individual loss has been sustained by Mrs. Henry Latham, a widow. Belcher had charge of the Latham estate, valued at 15,000. Mrs. Latham frequently asked for a settlement, but Belcher managed to put her off.

PERFECTS STORAGE BATTERY. Edison Will Erect Factory to Make Cells on Large Scale. New York, Aug. 4.—Thomas A. Edison announced this afternoon at his home in Orange, that after two years of experimentation, he is finally satisfied with the merits of his new storage battery and that he will at once begin the erection of a factory to manufacture the cells on a large scale for the trade.

APPLETON MAN WILL DIE. Gasoline Explosion Injures Several Persons and Destroys a Saloon. Appleton, Wis., Aug. 4.—A gasoline explosion at Dale today fatally injured John Humming, Jr., and severely injured several others. The explosion destroyed Keuchel's saloon by fire and damaged several other buildings.

INTERNAL REVENUE RECEIPTS. Washington, Aug. 4.—The preliminary report of Commissioner Yerkes shows that the receipts from all internal revenue sources during the year ended June 30, 1905, were \$24,187,976.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portions, as they cannot reach by one way to cure deafness, and that is by constitutional means. Deafness is caused by an inflamed condition of the mucous membrane of the Eustachian tube.

CHERRY PECTORAL. We believe in doctors. They believe in us. We give them the formula of our Cherry Pectoral. They order it for coughs, colds, bronchitis, croup, the grip, etc.

PUT OUT IN THE ELEVENTH.

Rufe Turner Defeated by Jimmie Gardner at Colma, California.

Colma, Cal., Aug. 4.—The scheduled twenty-five-round contest between Jimmie Gardner and Rufe Turner was won by Gardner tonight in the first three seconds of the eleventh round with a terrific right to the body.

TRADE EXPANDING

RECORD CROPS ARE PROMISED AND BUSINESS DISPLAYS REMARKABLE STRENGTH.

New York, Aug. 4.—Bradstreet's will tomorrow say: Trade and industry improve as the crops mature. Fall business, while not yet in full swing, shows signs of expansion.

The bank clearings for July break all records for that month, the failures are strikingly few for a normally dull period, and the railway earnings show progressive gains on the best summers of previous years.

The wheat (including flour) exports for the week were 1,041,000 bushels, against 1,379,900 last year, July 1 to date, 4,374,000 bushels against 6,565,000 last year.

The textile markets all display notable strength. In the Northwest, the trade sentiment is stronger, now that the most damage is no longer feared.

Chicago, Aug. 4.—The wheat market opened a trifle easier today, the result of selling by pit traders, induced by clear weather in the Northwest.

Chicago Grain Markets. Chicago, Aug. 4.—The wheat market opened a trifle easier today, the result of selling by pit traders, induced by clear weather in the Northwest.

Bank Clearings. The total bank clearings compiled by Bradstreet's for the past week were \$2,520,375,514, an increase of 39.3 per cent compared with the corresponding week of last year.

MYSTERY OF LOAN IS SOLVED. Details of the \$685,000 Equitable Deal Given to State Official.

New York, Aug. 4.—Frederick D. Kilburn, superintendent of the state banking, now has in his office in Albany the complete report of the mysterious \$685,000 loan made to the Equitable Trust company by former Equitable Assurance society officials on behalf of the state.

Want an Honest Lawyer. The legislative committee appointed to investigate the insurance scandal has not yet selected counsel.

STOCK MARKET DROOPS. Active and Higher Early, to Lose Its Animation Later.

New York, Aug. 4.—The Stock exchange had quite a lively hour following the opening today, and the market showed more confidence in the future during that period than at any time during the week.

Improves the flavor and adds to the healthfulness of the food.

ONE BATTLESHIP YEARLY. Tentatively Agreed That This Be Basis of Future Naval Increase.

Washington, Aug. 4.—While no definite program has been fixed upon for increasing the number of ships in the navy, it has been tentatively agreed between the two houses of congress and the president that one battleship shall be laid down each year as a basis of the increase.

Congress last winter allowed only about one-third as much as the first estimate of the general board of the navy; and this was given only after a sharp struggle, during which Mr. Roosevelt made personal appeals to members to stand for two battleships.

When the naval bill was in the senate in the last days of February, Mr. Hale, chairman of the senate committee on naval affairs, speaking of future construction, said: "It is only a question of assuming a reasonable program, and I hope we shall come next year to it, so that we shall build one battleship a year, to make good the waste of time."

President and Hale Agree. It is believed that the president and Senator Hale are now in practical accord on this view of naval expenditures.

FREE SCHOLARSHIPS. In The Mining Journal every day during August will be a voting coupon for the Marquette Business College scholarship.

LEPER BROUGHT TO CHICAGO.

Victim of Disease Is Examined by Doctors at Medical College.

Chicago, Aug. 4.—With distorted face and blotched skin, Jim See, a Chinaman, was brought to Chicago yesterday, a victim of leprosy. All through the day he was restrained in a room of the Dearborn Medical college, at Michigan avenue and Twelfth street, under scrutiny of medical men who had previously seen a case of the oldest disease known to medical science.

Jim See, who is twenty-six years old, has owned a laundry in a Michigan town since his return from a visit to China. For six months he had been affected with unusual symptoms of facial swellings and as country physicians afforded him no aid he came to the local Chinese quarter in petition for assistance.

No danger was imminent to persons with whom he associated, according to the physician, but the leper was isolated until night in order that no fear might be aroused through his presence in the city. Late last night the Chinaman was taken to the train and sent to San Francisco, but no publicity was given the route in fear that the passengers might be alarmed.

See was alarmed by his examination. A constant watch was required to keep him from escaping from the medical college. The visits of the doctors and students aroused his fear and even his countrymen were unable to calm him.

It is not many years ago, Dr. Baldwin said, after he had diagnosed the case as leprosy, "when the presence of this man would have caused a stir in the city. At that time leprosy was considered the worst of contagious diseases, and even now the public loathes and shuns such a man, unmindful that the trouble is infectious only. It is perfectly safe for anyone to meet and associate with the Chinaman. His case, which is the latest in a series of cases, is the variety of the disease. In this case it will be years before he can contaminate those among whom he mingles."

Heroism of a Priest. Leprosy always recalls to my mind the heroism of Father Damien de Veuster, a Catholic priest, who devoted his life to the amelioration of the condition of lepers in the Hawaiian colony. He was consular agent from 1864 until 1873 and then became a victim of the scourge himself, dying among those he had helped.

Leprosy is the oldest of diseases, but no cure for it has yet been found. In the United States it exists in California, New York and some parts of Wisconsin. Few cases are found, however, in this country.

See had exhausted the medical knowledge of the locality in which he lived before he came to Chicago. "When I heard of his condition," Chan Pak Sun said, "I sent for him. The Chinese throughout the country always refer their troubles to Dr. Baldwin. Now that he has said the trouble is, I will see that See gets back to China. The celestial is believed to have contracted the trouble a year ago when he left the United States and visited China to see his relatives."

FREE SCHOLARSHIPS. In The Mining Journal every day during August will be a voting coupon for the Marquette Business College scholarship.

TOLD BY TRAVELERS

"The man or woman who attended the canal celebration at the Soo this week had hard work to do. It was especially impressed by the friendly spirit manifested by the Canadians in the event, and I think their display of pyrotechnics Wednesday night was the most beautiful I have ever witnessed. Fireworks cannot be easily described; at least I do not think I have the vocabulary to do justice to the display made by the people on the Canadian side of the river. They had one large piece representing Niagara Falls, that would be instantly recognized by any person who had ever seen the big cataract. It was over 500 feet long, and the show outline on both sides of the stream with the rushing waters in the center, presented an animated picture that will live in the minds of those who witnessed it. I am not enthusiastic over events of the character of the Soo celebration, but I do think that it was the biggest thing of its kind the peninsula has ever seen."

City Brevities

Today's Forecast: Showers and cool; fresh southwest winds.
Harry Simmons, of Munising, was in the city yesterday.
Born, yesterday, to Mr. and Mrs. F. L. Simmons, a daughter.
Edward Levy, of Chatham, was a Marquette visitor yesterday.
Mrs. J. N. Suits, of Ewen, is visiting for a few days in the city.
Miss Mary T. Dougher leaves today on an extended trip in New York state.
Van Alstin Maxson of Chicago is visiting his uncle, the Rev. C. H. Maxson.
Mrs. J. E. Brown left this morning for Detroit, where she will visit with friends.
Miss Ella Mieske departed yesterday for Milwaukee, where she will visit friends.
The ladies of the Baptist church will hold a pantry sale at the church this afternoon.
H. S. Powell, of Duluth, an official of the Oliver Mining company, was in the city yesterday.
Dr. Moll, of Kenton, was in the city attending an operation at St. Luke's hospital yesterday.
Mrs. Eugene Swift and daughter Elizabeth of Chicago are visiting Marquette relatives and friends.
Hon. Charles Van Curen of Howell, Mich., is visiting at the home of Percy G. Teeple, for a few days.
Miss Henrietta Barnes departed last night for Detroit, where she will visit briefly before going to Detroit.
F. Mahoney of Chicago, accompanied by his daughter, Mrs. Sisson, are guests of E. C. Cassidy, at the Clifton.
Joseph Lenerier and Miss Miline Morin both of Marquette, were granted a marriage license yesterday by the county clerk.
Mrs. J. R. McPherson, of North Fifth street, departed yesterday for a two weeks' visit at her old home at Stratford, Ont.
J. H. Parks, of Crystal Falls, was here yesterday on his way home from the Soo where he attended the canal celebration.
Miss Josephine Egan, of Amboy, Ill., and Louis Egan, of Sault Ste. Marie, arrived in the city yesterday for a brief visit with friends.
E. H. Comstock, superintendent of schools, Houghton, accompanied by Mrs. Comstock, stopped over at Marquette yesterday while on their way to Milwaukee.
There will be an organ recital in connection with the service at the Episcopal church Sunday evening. Fred R. Peschan of LaGrange, Ill., will be the performer, and will be assisted by several vocalists.
Principal J. H. Kaye, accompanied by Mrs. Kaye, departed yesterday for Ludington, where they will remain during the last two weeks of the summer assembly. The family will occupy their cottage at Epworth Heights, one of the resort suburbs near Ludington.
Rev. W. E. Hopkins, a friend from school days of Rev. C. H. Maxson, has returned with Mr. and Mrs. Maxson from Menominee, where they attended the Baptist association of the upper peninsula. Mr. Hopkins was moderator of this meeting. Mr. Hopkins will preach at the Baptist church here at both services Sunday, giving an illustrated lecture in the evening.
Will visit Portland Fair—Prof. J. E. Lautner, of the Normal faculty, and F. A. Jeffers, superintendent of the Atlantic schools, will leave today for Portland, where they will visit the Lewis and Clark exposition. Superintendent Jeffers' family will accompany him on the trip.
Going to Isle Royale—Max Peet, of Ypsilanti, who has been the guest of F. M. Moore for a few days, departed yesterday for Isle Royale where he will join the University of Michigan natural history expedition, now making a biological survey of the island. The party numbers six men, and they will spend a month gathering material for the university museum.
Good Game Sunday—The Marquette Juniors and the Crystal Falls team will play at the fair grounds Sunday afternoon. The Juniors will hereafter be known as the Marquette first team; the name Junior having been dropped from the title of the organization. The Crystal Falls team is one of the best amateur organizations in the peninsula, and the game Sunday will be the best seen here this season. Game will be called at 3 o'clock.
Summer Normal Closed—Yesterday was the closing day of the summer normal, and non-resident students to the number of over 100 departed on the evening trains for their homes. The school this year was the largest in point of attendance in the history of the institution, 265 students being enrolled. Members of the normal faculty who taught at the summer school will take their vacation between now and the date of the opening of the fall term.
Frost Does Damage—Reports from many towns on the South Shore and Marquette & Southeastern railways, indicate that frost has done considerable damage to growing root crops. The frost Monday night did the most damage, the zone being from Sault Ste. Marie westward to the copper country. In many places the berry crop is badly injured, and truck farms in the vicinity of this city were damaged more or less, according to exposure to the light.
Tax Commission Will Act—In the matter of the double assessment of \$20,000 worth of saw logs by the assessor of the city of Marquette and by the township of Michigan, the state tax commission yesterday decided that a review will be necessary in order to determine which place has the prior right of assessment. Evidence was obtained here yesterday relative to the city's side of the case, and it is probable that the review will be held in Marquette during the month of September.
Moisture Filled the Air—The real difficulty with the local atmosphere yesterday was not in the excessive degree of temperature, but in the extreme percentage of humidity. With a maximum of 72 degrees and a minimum of 61, it would appear that comfort was not at a premium, but with 81 to 82 per cent humidity the discomfort was most pronounced. Occasionally during the day the cooling zephyrs from the lake came in contact with the humid atmosphere, causing showers. At times the equalizing process was so balanced that scarcely ten minutes of rainfall occurred before the counteracting sun rays stopped the precipitation. Almost instantly the atmosphere became laden again with the moisture.
1004 calls up Geill's new paper and paint store, located at 120 N. Third St., in the Coles' block. (12-20-t)
A little floor paint or floor stain will make your home more agreeable. Geill has it. (3-9-o)

THE MAID, THE MOON AND MACKINAC

A Real Love Story.
A delightful romance of a young business man of Buffalo and an ideal summer girl with lustrous eyes and glowing cheeks. This story is enacted while en route on a D. & C. steamer and at Mackinac Island. It tells, in an interesting way, what was seen by the moon, and a little bird heard in the land where cool, bracing breezes always blow. Sent to any address for a two cent stamp. A. A. Schantz, Gen'l Supt. & P. T. M., Detroit, Mich.
DENVER, SALT LAKE AND COLORADO SPRINGS.
Daily Until Sept. 30th.
Round trip tickets at about half rates via C. M. & St. P. Ry. Also low round trips to Pacific Coast points. Inquire for particulars.
H. E. STEWART, Commercial Agent, Phone 339.

COMFORTS THE HEART, STRENGTHENS THE MIND.

Is good ill or well. Makes the face bright as the summer morn. That's what Hollister's Rocky Mountain Tea will do. Cures when all else fails. 35 cents. Stafford Drug Co.
If your furniture requires a fresh coat of varnish stain, Geill has got it. 120 N. Third street. (3-9-o)

"BUYING A PIG IN A POKE."

There is great difficulty confronting one who buys anything where all sides of his purchase cannot be seen. This applies in this instance to Garden Hose. Now, the inside of a Hose is hidden and one cannot see it. Therefore a buyer has to take the word of a dealer that there's rubber in that particular Hose. Our Garden Hose is reliable, for we have taken great pains to get only good stock. You can safely use our Hose, knowing it will give good service. Pure rubber and cotton grades from 9 cents per foot up to 18 cents. If asked, we can furnish Hose Menders, Lawn Sprinklers and Sprayers. All we need is to be asked.
B. Neidhart & Co. Hardware and Sporting Goods, Marquette.

Ishpeming Department

DEATH OF THOMAS ENRIGHT.

Thomas Enright, one of the city's oldest residents, died yesterday noon. He has been ill for some time, but his condition was not considered alarming. Mr. Enright was one of the eleven oldest living employes of the Lake Superior mine at the time of the semi-centennial two years ago. He worked for the company thirty-four years, starting in 1867. He was absent from the city for four years at one time, but later found employment again with the company. For a number of years he had been shift boss at the company's Hard Ore mine.

The deceased is survived by a widow and two daughters. He had merely foreclosed a mortgage, which he and others held on the mine and adjoining lands, embracing three forties. Mr. Mildon owns a five-twelfths interest in the property; F. O. Clark and others of Marquette own four-twelfths.

THE SAGINAW MINE.

Present Owners Have No Intention of Developing the Property.

The announcement yesterday that Henry H. Mildon of this city had come in possession of the Saginaw mine, caused many here to wonder if negotiations were pending for a resumption of operations at the property. Mr. Mildon said yesterday that he had merely foreclosed a mortgage, which he and others held on the mine and adjoining lands, embracing three forties. Mr. Mildon owns a five-twelfths interest in the property; F. O. Clark and others of Marquette own four-twelfths.

MINE RE-OPENED.

The Oden mine, located two miles from the Anthony Powder works, on the Cliffs drive, has been re-opened. The Cleveland-Cliffs Iron company started a force of twenty men at work at the property Aug. 1. The work is under the supervision of Captain Johns Skews. The mine is only being explored and opened up and the work will be carried on until October.

ISHPEMING IN BRIEF.

Born, Aug. 1, to Mr. and Mrs. Thomas Derocka, a boy.

Fred A. Coombe, of Madison, was in the city yesterday.

Nels Mahmann of Michigan, was in the city yesterday.

August J. Moilanen of Calumet was here yesterday and Thursday.

Michael C. Griffin has returned from an extended trip to points in Canada.

A daughter was born to Mr. and Mrs. Sidney Vail, 641 Empire street, Aug. 2.

Mrs. Johnston of Pennsylvania is visiting with her sister, Mrs. Dennis Maloney.

Mrs. Ed. Clark is in Detroit visiting friends. She will remain about three weeks.

A boy was born to Mr. and Mrs. James McCormick, 219 E. Johnston street, August 2.

Mr. and Mrs. M. M. Allen arrived home yesterday morning from Danesville, Ky.

John Keifer and family will spend the coming week at Lake Laurin, south of Clarksburg.

Mrs. P. F. Small and children and sister, Miss A. Adelia Bright, are visiting at Iron Mountain.

Fred M. Prescott, of the Prescott pump works, Milwaukee, was in the city yesterday on business.

The family of Thomas Watters and guests will go out to Camp Nine today for a few days' outing.

Peter Gingrass and wife left Thursday evening for Milwaukee, after visiting here for the past week.

H. S. Powell of Duluth, of the Oliver Iron Mining company, transacted business in the city yesterday.

The ball game between the railroad men and the City team will be called tomorrow afternoon at 2:30.

Miss Elizabeth C. O'Brien will leave tomorrow evening for Chicago, where she will resume her art studies.

Mrs. William Ponglase, who has been visiting with friends in Bessemer for some time, arrived home last night.

M. H. Crocker left last night for Chicago. He was called there on account of the dangerous illness of his brother.

Miss Geraldine Quinn will leave the fore part of the week on a lake trip to Ashtabula and other Ohio lake ports.

Herman Jaedecke and wife will leave tomorrow evening for the Mesaba range. They will be absent from the city for two weeks.

Mrs. Cornelius Kennedy and daughters, Louise, Nell and Clare, will leave tomorrow night on a three weeks' trip to Belleplaine, Iowa, Chicago and other points.

The funeral of Patrick McEnroe was held at 9 o'clock yesterday morning from St. John's church, Rev. J. A. Keul officiating. A large number of friends attended the obsequies.

Ed Clark announces in this issue that he will hereafter conduct special sales every Tuesday and Friday, marking down the prices on goods in all departments for those days.

John Olson, of the Carpenter-Cook company, has left on an extended vacation trip. He will visit relatives in Menominee and Wisconsin and from there he will go to Denver, Colo.

A gas main is being laid in the alley on the east side of Main street. The main thoroughfare will not be disturbed, as the branches will be laid into the stores from the rear of the buildings.

Joseph Walters and his son Charles and wife will arrive today from Antigo, Wis. Mr. Walters, Sr., has been there for the past four months and will locate there permanently, and will move his family from here in two weeks.

A special meeting of the Ishpeming division of the Hibbernians is called for Sunday afternoon at 2 o'clock to make arrangements for attending the funeral of the late Thomas Enright. The obsequies will be held at 9 o'clock Monday morning from St. John's church.

The seat sale for the Monday night performance of the Robinson Stock company will open at the box office this morning. Ladies will be admitted to the downstairs seats for fifteen cents the opening night. The regular admission will be ten, twenty and thirty cents.

"The Leadership of Children" will be the subject at the morning service at the Methodist church tomorrow. At this service a large class of boys and girls will be admitted to full membership. The evening subject will be "The Poor Man's Enemies," the second in a series of practical talks.

Misses Doyle and Anderson are again in the city and have opened a display of art needlework at Mrs. J. Lallerstedt's. The newest things in the eyelet and Mount Melleck embroidery, also in Cluny laces, are shown. The ladies are invited to visit the display. Lessons free. Stamping done. (8-2-1w)

Johnson & Rundman, painters, 109 North Second street, can do your paper hanging, decorating or painting promptly and at right prices. "Nuf said.

BUSINESS IS DIVIDED.

School Board Authorized Four Firms to Furnish Year's Fuel Supply.

The four Ishpeming coal firms, viz: The Consolidated Fuel & Lumber company, The Superior Lumber company, Losselyoung Bros. and J. J. Leffler, have secured contracts from the school board to furnish coal, both anthracite and soft, for the city schools for the coming year.

These four firms all quoted the same price per ton, so the purchasing committee decided to divide the total amount. About 900 tons will be required to supply the several buildings. The first orders were filled this week. The Consolidated Fuel & Lumber company filled the bin at the High street and Cleveland schools. The Superior Lumber company supplied the High school building with coal yesterday morning. Losselyoung Bros. put in a carload of soft coal at the manual training school and hard coal at the Salisbury and J. J. Leffler delivered enough to fill the bin at the Ridge street school.

MINE RE-OPENED.

The Oden mine, located two miles from the Anthony Powder works, on the Cliffs drive, has been re-opened. The Cleveland-Cliffs Iron company started a force of twenty men at work at the property Aug. 1. The work is under the supervision of Captain Johns Skews. The mine is only being explored and opened up and the work will be carried on until October.

ISHPEMING IN BRIEF.

Born, Aug. 1, to Mr. and Mrs. Thomas Derocka, a boy.

Fred A. Coombe, of Madison, was in the city yesterday.

Nels Mahmann of Michigan, was in the city yesterday.

August J. Moilanen of Calumet was here yesterday and Thursday.

Michael C. Griffin has returned from an extended trip to points in Canada.

A daughter was born to Mr. and Mrs. Sidney Vail, 641 Empire street, Aug. 2.

Mrs. Johnston of Pennsylvania is visiting with her sister, Mrs. Dennis Maloney.

Mrs. Ed. Clark is in Detroit visiting friends. She will remain about three weeks.

A boy was born to Mr. and Mrs. James McCormick, 219 E. Johnston street, August 2.

Mr. and Mrs. M. M. Allen arrived home yesterday morning from Danesville, Ky.

John Keifer and family will spend the coming week at Lake Laurin, south of Clarksburg.

Mrs. P. F. Small and children and sister, Miss A. Adelia Bright, are visiting at Iron Mountain.

Fred M. Prescott, of the Prescott pump works, Milwaukee, was in the city yesterday on business.

The family of Thomas Watters and guests will go out to Camp Nine today for a few days' outing.

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER of ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

(Sold only in 1 lb. packages. Lion-head on every package.) (Save your Lion-heads for valuable premiums.)

Negaunee Department

SHORT COUNCIL MEETING.

Aldermen Were in Session Less Than Three-Quarters of an Hour.

Considering the reports of the superintendent of the board of public works from the different departments under the board's supervision and allowing bills, made up the principal business at the council session Thursday evening, the aldermen being held less than three-quarters of an hour. The report from the board was concise, but gave the council all the information desired regarding operations during the past month. The pay roll for labor for improvements to the water works plant amounted to \$829.20, and the total labor cost for new wiring, etc., for the lighting plant was \$64. The labor charged to the sewer account cost \$20.80. The amount expended for fuel and other supplies charged to the water plant was \$308.20, and the sum expended for general repairs was \$169.40, making a total of \$687.40.

STACK TO COME DOWN.

Concrete Chimney at Power House Will Be Rebuilt From Base.

The man sent here by the Weber Steel Company to complete the stack at the Marquette County Gas, Light & Traction Company's power station found, after removing the sixteen top sections, that in order to make a satisfactory job the entire stack must be rebuilt. The concrete at the point reached Thursday was no better than that in the upper part, as there was little difference in the sand used, all of it being too fine. Two kinds of cement were used on the job, and it was at first thought that possibly the concrete in the lower part of the chimney would be found of better quality than that on top, but it is now evident that the trouble lay not in the cement but in the sand. The removal of the lower part of the chimney was started yesterday. As it contains a great deal more concrete than did the upper part it will take several days, perhaps a week, to tear it down. Six or eight weeks will elapse before the new chimney is ready for use.

LOCAL LACONICS.

Stenart Soderland has accepted a position as jeweler in Sundberg's jewelry store.

Mrs. J. Ryan, a former resident of this city, is here from Ironwood, visiting Captain James F. Foley and family.

Mrs. John Ward returned to her home at Crystal Falls yesterday after spending a few days with her people here.

A number of Negaunee people have planned to attend tomorrow in the woods near the city, and others will go to Presque Isle.

The water in Teal Lake is several inches lower than it was at this time last year, due to the fact that there has been less rain this summer than last.

Some of Mrs. Voelker's pupils, assisted by Mr. Robins and Miss Elizabeth Cox of Ishpeming, gave a musical last evening at the home of Thomas Fellow.

Ed. Dobbs has taken charge of the Cleveland-Cliffs iron company's stable here, succeeding John Arnett, who resigned, after holding the position a number of years.

The annual picnic of the Sunday school society of the Mitchell Methodist church will be held today at the Cleveland Park. The trip to and from the grounds will be made on the street cars.

There will be a baseball game this afternoon at the Union park grounds between teams composed of employees of the Cleveland-Cliffs land department of this city and the railroad department at Marquette.

Mrs. Margaret McHale of Hurley, Wis., well known to a number of Negaunee people, was a visitor in the city Thursday, having stopped off here on her way home from Canada, where she had spent the past few weeks.

The Ishpeming City team and a nine composed of employees of the Chicago & Northwestern system of this county and Escanaba will cross bats tomorrow afternoon at 2:30 o'clock at the Union park. An admission fee of twenty-five cents will be charged men, but women will be admitted free.

Upper Peninsula

Ratter Arrested—George Ratter, formerly an employe of the Mueller company at Menominee, who left that city suddenly, after being let out by the Mueller company, leaving behind him many unpaid bills, some of goodly size, has been arrested at Escanaba.

To Be Held in Menominee—The police chiefs convention of the police chiefs of Michigan will be held in Menominee in 1907. Menominee wanted to land the 1906 meeting, but it had been promised to Lansing. Assurance was given Chief English, however, that the so much greater than here that he figured he would do better in this country. His pay was \$360 a day, but groceries and other provisions are high. He says there are a great many fakirs and grafters in the state of Washington. The merchants sell strictly for cash, and are doing a safe business.

ADVERTISING FOR MINERS.—Captain Alfred Newcomb, who has been in St. Paul the past few months supervising construction on a sewerage job for the city, and is now here, visiting his family for a few days, is advertising for miners. There is some drilling and other work on the job, and only experienced miners can do to advantage. He offers to pay transportation both ways to men who will accompany him and remain until the job is finished.

A WEEK IN THE WOODS.—A party composed of Mayor J. H. Winter, Postmaster Thomas Connors, Arthur Maas, Dr. A. W. Haidle and John H. Winter, of this city, Christ Wolf and two other Chicago men, left yesterday for a week's outing in Paradise lake, about twelve miles from Wetmore on the line of the South Shore road. Two or three more Negaunee men may join the party tomorrow or Monday.

PUBLIC IS AROUSED.—The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters I obtained relief, and in a short time I was entirely cured." Guaranteed at the Stafford Drug Co.'s drug store; price, 50c.

FOR YOUR HEALTH'S SAKE—Take a Lake Trip via the D. & C. Coast Line to Mackinac.

Away with the suggestion that you can't afford a vacation! There could not be a greater mistake. As a matter of fact, you can get more real value for your money, to say nothing of the increased happiness from your physical improvement, than you can get out of the same amount of time spent in any other way. For particulars address D. & C. Navigation Co., Detroit, Mich., Dept. B.

naba player returned to the game for two contests, playing in good form, when he became ill with an attack of malarial fever and for two weeks was confined in a hospital at Peoria.

Judge Wants Dignified Court—Judge Opsahl has announced his determination to hereafter preserve greater order and observance of form in the municipal court of Menominee. It has been the general custom for both participants and spectators at lawsuits to sit in the court room with their hats on but the judge declares that this practice will be tolerated no longer. At the beginning of the audience was serperitorily ordered to remove their hats and were "read the riot act" into the bargain. "I will make them take off their hats while the court is in session," said the judge, "and I will suffer fine any who do not do it. If I cannot keep order and preserve a proper respect for this court I will get someone who can."

To Furnish Hospital—It is likely that nearly if not quite all of the better rooms in the new part of the St. Joseph's hospital will be furnished and fitted up gratuitously by the citizens of Menominee. It is reported that a number of Menominee men have expressed a desire to fit up the addition in a manner corresponding as nearly as possible to the larger metropolitan hospitals. It is said that the interest is being shown regarding the project. The addition to St. Joseph's hospital is nearing completion. In about a month more the work will have been finished, with the possible exception of the installing of the new elevator. The mason work and all the outside work has been completed and the finishing of the interior has been begun.

Overdraft Increased—According to the report of the city treasurer of Escanaba submitted to the council this week, the overdraft charged against the city treasury during July of this year was \$9,955.95 and on August 1 it had mounted to \$10,895.95. The report of the treasurer shows that during July no money was received from the superintendent of the plant for collections, but in that period bills amounting to \$900 were paid. The Mirror comments: "With an increment of \$900 in the overdraft against the city treasury for the month the popularity of the idea of investing an additional \$90,000 in a municipal lighting plant will not be greatly increased, and the utility of continuing municipal ownership of the lighting plant in Escanaba is again strongly emphasized."

Merchants Badly Dissatisfied—Business men the entire length of Ludington street, Escanaba, are complaining bitterly about the slow progress being made by the Barber Asphalt Paving company, in the work of paving that street. It is claimed that with business being rapidly deteriorating, the officials in charge of the paving work are not exerting the proper effort to push the paving work to as hasty a completion as possible. Some of the merchants have claimed that the volume of business done by them this season has not been 50 per cent of that of last year, when different conditions combined together to make the season one of the least profitable in several years. The blame is laid by the majority of the merchants on the fact that the principal business street of the city has been torn up for the greater part of the season. With actual construction work under way for nearly a month, no portion of the street yet open to traffic and the prospect of an early opening not bright, a feeling of discontent has been gradually growing until hints of meetings being called by the merchants to express their dissatisfaction are freely circulated. It is said by the officials in charge of the pavement construction work that it has been impossible at any time since the work was undertaken to obtain all of the men necessary to carry on the work as fast as had been wished.

TO USE STEEL TIES.—One of our great railroads recently ordered several thousand steel ties and will give them a thorough trial. The experiment is of deep interest, because of the prospective increased demand upon our steel industries if they prove satisfactory. Everybody approves of these experiments, but when it is a question of health, experiments are often dangerous. Your best plan is to commence taking Hostetter's Stomach Bitters as soon as you notice the first sign of failing health. Thousands of persons, who adopted this plan, now enjoy robust health. Think it over, and if you suffer from poor appetite, heart burn, sleeplessness, indigestion, dyspepsia, cramps, diarrhoea, female ills or malaria, fever and ague get a bottle at once from your druggist. It will cure you without fail. Thousands have found this true.

If in a kind of bilious mood, You wish an aid to digest food, No other pill is half so good As DeWitt's Little Early Risers. When ever you feel impending ill, And need a magic little pill, No other one will fill the bill Like DeWitt's Little Early Risers.

POMPEIAN Massage Cream

CLEANSES WHERE SOAP AND WATER FAIL

Washing with soap and water makes the face look clean, but it cleans the surface only. It does not clean out the impurities in the skin that make it muddy and sallow. Pompeian Massage Cream goes through the surface. It sinks into every pore—reaches and loosens all foreign dirt and impurities that lodge in the pores. It is the only facial cream free from grease and that keeps the face free from it. Does not—cannot—promote the growth of hair on the face. Price 50c and \$1.00 per jar.

COUNTY 'PHONE TO BE ABSORBED?

RUMORED DEAL PENDING BETWEEN BELL AND COUNTY TELEPHONE COMPANIES.

NEGOTIATIONS ARE HINTED

McMillan's Visit to County Last Month Said to Have Been Accompanied by Overtures to Buy Independent Company.

From semi-official sources comes the information that negotiations are pending between the Michigan State Telephone company and the Marquette County Telephone company...

The Marquette County Telephone company was organized in March, 1895, with a capital stock of \$25,000, and among the original stockholders were prominent business men of Marquette, Ishpeming and Negaunee.

It is asserted that the Marquette County company is the strongest independent competitor the Bell has in the upper peninsula field, and that negotiations for absorption of the independent company has been attempted without success at different times in the past ten years.

IMPROVEMENTS AT BIJOU.

Fire Escape Erected in Rear of Theater, and Auditorium Redecorated.

Manager Ross of the Bijou, has made extensive improvements in his theater since the fire last week. The entire auditorium has been redecorated, the woodwork painted and the floors put in better condition...

The decorations in the auditorium and foyer are being done by C. T. Geill, and will be completed tomorrow.

Your carpet needs cleaning and brightening up. Geill will guarantee to renew it for you; or buy a can of Earthquake and do it yourself. (3-9-o)

ARTHUR EMMONS DEAD.

Succumbed to Heart Disease Yesterday at Houghton.

Arthur Emmons, a former resident of Marquette, died yesterday at Houghton, in the offices of the I. E. Swift company where he was employed as cashier. The news of his death will not come as a surprise to his friends who were aware of his physical condition, as it has been known for six months that he was afflicted with an incurable disease. Mr. Emmons was at his desk in the offices of the Swift company at the usual hour yesterday morning, and was at work when stricken, the end coming instantly and without warning.

GOES TO GRAND RAPIDS.

Ira Blossom Will Be Resident Manager for Northwestern Life.

Ira Blossom, of the firm Teiple & Blossom, district manager for Marquette of the Northwestern Mutual Life Insurance company, has been promoted to the district agency of the company at Grand Rapids. He will be resident manager and assistant to the general agent, in developing the company's business in the Grand Rapids field. Mr. Blossom will move to Grand Rapids, with his family, about the first of September, his partnership with Mr. Teiple having been dissolved August first. The Marquette agency will be continued, with Mr. Teiple as district manager. Mr. Blossom has been successful in the insurance business in Marquette, and while his numerous friends here regret to see him leave, they are glad to hear of his promotion.

ALLOUEZ LOOKS GOOD.

Touched High Point Yesterday at 35, But Closed One Point Off.

Paine, Webber & Co. wired yesterday concerning the Boston copper market: "The New York market was very strong and active today until one o'clock, when the pace set in the early dealings fell off considerably, and prices at the close were about the same as last night. Mohawk made a spurt in Boston, the last price being 55 1/2. Alouez made a gain to 35, but closed off a point. Range was hammered again this morning by Lawson brokers, but it later regained nearly all it lost. Atlantic was well brought around 18.

SUNDAY AT THE CHURCHES.

First Baptist—Rev. W. E. Hopkins, a returned missionary from India, will speak at 10:30 a. m. upon "The Missionary Enterprise in India and the East," including evangelistic, educational and medical work. At 7:30 p. m. he will give a lecture, illustrated by the stereopticon, upon "India."

Methodist, Rev. Ames Maywood, pastor—Services, with sermon, both morning and evening. Morning subject, "The Heart's Constancy in Affliction"; evening theme, "Business Integrity."

First Church of Christ, Scientist, 109 Spring street: Services, 10:30 a. m., subject, "Soul." Sunday school, 11:45 a. m.

When you feel a sense of weight and oppression after meals it means indigestion. Hollister's Rocky Mountain Tea positively cures indigestion, constipation and stomach troubles. 35 cents, Tea or Tablets. Stafford Drug Co.

Have you tried H. Blumhuler & Son's wonderful large head lettuce. The interior is beautifully blanched, creamy white, crisp, tender and delicious. On sale at Murray's, Werner's, Dell's and John Siegel's groceries. (8-5-1w)

I have the latest in stoves, in Flemish or Mission Oak, for furniture. You can do it yourself. Buy it at Geill's store, 120 N. Third street. (3-9-o)

SLABS. Four-foot and 16-inch dry hemlock slabs. F. B. SPEAR & SONS. (7-14-t)

The ladies of the Baptist church will hold a pantry sale at the church Saturday, July 5, at 1 o'clock. Orders taken up to noon Friday. Telephone Mrs. Sherwood. (8-2-3d)

HARD WOOD. Dry 16-inch block and split wood. (7-14-t) F. B. SPEAR & SONS.

BIDS WANTED.

Sealed proposals will be received by the Board of Fire and Water Commissioners of the city of Marquette until Aug. 8, 1905, for furnishing all fuel, either 4-foot seasoned hardwood, seasoned slabs, or coal, which may be required for the use of the City Water Works, to be delivered at the Water Works, for one year, from Sept. 1, 1905, to Aug. 31, 1906. Right to reject any and all bids. JOHN P. KERN, Superintendent. (8-1-1w)

CONLON PRAISES NORTHERN NORMAL

MEMBER OF STATE VISITING COMMITTEE SAYS INSTITUTION IS GROWING.

LAUDS PRINCIPAL KAYE

Heating Plant at School Branded as Inefficient—Domestic Science and Latin to Be Added Studies—Yearly Increase 25 Per Cent.

T. A. Conlon, of Detroit, member of the state visiting committee for the Northern Normal, spent the past two days inspecting the school, with the view of making a report to the state superintendent of public instruction. Mr. Conlon is a Detroit attorney, but previous to entering the practice of law served as superintendent of a number of public schools in the state.

"The upper peninsula needed the Northern Normal," said Mr. Conlon to The Mining Journal yesterday, "and I am glad to know that it is receiving the support it merits. The increase in the number of students attending the regular terms is about 25 per cent yearly, and for the summer school the increase is even greater. It should be a pleasure as well as a duty for superintendents and school officials in the peninsula to stand loyally by their Normal, giving it every encouragement and help within the limit of what it deserves. For a young institution, the school is doing splendid work, and there is perfect harmony between the principal and members of the faculty, who are all thoroughly equipped for the work. I consider it more than an ordinary factor for good in the peninsula, and while its work is largely pioneer, and not productive of full fruit at present, the value of the work accomplished is already being felt, and will increase as years pass."

"The salaries of the faculty are inadequate, when the cost of living here is considered. There are a number of changes that should be made at the Normal building. The present heating plant is inefficient and when the new addition is completed it will be found that changes will have to be made. A new heating plant should be put in, and I think it should be detached from the present building. One of the stumbling blocks to the installation of a new plant is the fact that money is not available for this purpose, but it will come in time. With the completion of the new wing of the Peter White science hall, there will be rooms available for a gymnasium, which will add to the present popularity of the school. Athletics are an important factor in the development of any educational institution, even high schools, and when reasonably employed, are a power for good. It is proposed to add to the curriculum the study of Latin and domestic science, both important to the finished student."

Heads of Departments Teach.

"An important feature of Normal schools of the size of the Marquette Normal is the fact that students have the benefit of instruction from the heads of departments. In Wisconsin they have a Normal whose student list is limited to 300, and the graduates from this institution are the best in average efficiency of any school in the state. The smaller school can do more for the student during the first few years in the way of personal attention and individual work than the larger institutions. The work of the departments here is excellent, and I observe that Principal Kaye has not made the common error of favoring one department to the detriment of others. The appropriations are evenly divided according to the importance of the work."

"Mr. Kaye is a man without frills in educational matters, and his work here is of a well balanced character. His successful experience as a superintendent in the public schools for many years has fitted him for the exacting work of training teachers, and he knows the needs of the public school. Marquette has the appearance of a college town, and I think the time will come when the Normal will be appreciated even more than it is at present. If the dormitory was owned by the state it would solve many vexing problems. The present dormitory has assisted in popularizing the institution to a great extent. I am sure that results will be forthcoming when the real work of the Normal is understood."

"I am taking home with me samples of the work done in the training school here, which I consider above the average."

Mr. Conlon is accompanied on the trip by his wife. They will leave today for the copper country, where they will sojourn briefly before returning to Detroit.

PECULIAR DISAPPEARANCE.

J. D. Rynyan, of Buttrickville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness, to Dr. King's New Life Pills. He says: "They are a perfect remedy for dizziness, sour stomach, headache, constipation, etc." Guaranteed at the Stafford Drug Co.'s drug store. Price, 25c.
