PEACE CONFERENCE OPENS TOMORROW

ENVOYS MEET AND BREAK BREAD, THEN SET OUT FOR PORTSMOUTH.

ALL SMILES AND GOOD WILL

BELIEF FELT, HOWEVER, IS THAT DELIBERATIONS ARE DOOMED TO FAILURE.

President Manages Historic Assemblage on the Mayflower With the Utmost Diplomacy—Prays for Peace, but Has Grave Doubts That It Is Possible.

Lidjapuzo, Manchuria, Aug. 6.—The Japanese have concentrated in Manchuria, in front of the Russian armies, 430,000 infantry, with 1,600 cannon. This is exclusive of the detachment of General Hasagawa, commander of the forces in Korea, and a special detachment, the destination of which is not known. The weather is good and the roads are drying up. The Japanese who landed at Castries bay have returned aboard the warships. All buildings on the bay were burned.

Oyster Bay, N. Y., Aug. 6.—President Roosevelt brought the peace envoys of Russia and Japan together yesterday afternoon in the pretty cabin of the Mayflower, and saw the handshake and break bread, and sent them off to Portsmouth with a toast for their sovereigns and people and a prayer for the successful issue of their negotiations.

If they don't conclude the "just and lasting peace" which is hoped for, it will be no fault of the president, for yesterday's ceremony like every other step that he has taken in these delicate proceedings was crowned with absolute success. Everything passed off like clockwork, and all was smiles and hearty good will.

But in spite of all the gaiety there was an undercurrent of belief, more felt than expressed, that the Portsmouth conference would end in failure. It is certain that the president has the greatest doubts of peace resulting from their deliberations, and the woe-begone expressions upon the faces of the Russians shows how desperate they believe their cause and how slim they think their chance of bettering it.

Roosevelt Shows Diplomacy. The president managed the affair with the utmost diplomacy. His idea of making it a "stated luncheon" was an evidence of that diplomacy and every step in the day's history showed how careful he was to treat each side with the utmost caution lest he should by some mischance hurt someone's feelings.

The most delicate function of the day, the introduction of the envoys to each other by the president, was performed in less time than it takes to tell it. The Japanese filed in, Count de Witte was first introduced to Baron Komura and Mr. Takahira to Baron Rosen. The introductions then became general; every Russian gentleman shook hands with every Japanese gentleman, and all smiled serenely.

"Now let us go in to lunch," said the president. "Captain is lunch ready?" he asked Commander Winslow. Commander Winslow said it was and the president led the way with a wave of his hand to the dining room. Count de Witte and Baron Komura and Mr. Takahira followed. The members of the two parties trailed in and the general attack on the edibles began. The president took a sandwich in one hand, a plate of salad in the other and motioned to Count de Witte and Baron Komura to follow his example. They did. Count de Witte took a seat in one corner of the room. Baron Komura sat down beside him. Then the president moved a chair directly in front of them both; then Baron Rosen and Mr. Takahira took seats beside him, side almost touching his right hand.

Toast to Two Nations. The rest of the company sat or stood around the room, while the Chinese waiters filled up plates and cups and glasses, in the middle of the meal the president proposed the following toast: "I propose a toast to which there will be no answer, and to which I ask you in silence standing. I drink to the welfare and prosperity of the sovereigns and peoples of the two great nations whose representatives have met one another on this ship. It is my earnest hope and prayer in the interest of not only these two great powers, but of all mankind, that a just and lasting peace may speedily be concluded between them."

As the luncheon neared its end some one suggested that the president and the envoys be photographed. The idea met with instant favor and the president walked out into the hallway where the light was better. "Stand anywhere," said the president diplomatically. "Suit yourselves about your positions," and the two Russians at once stepped to his right hand side. The Japanese smilingly accepted the left hand side and so the picture was made. Then there was another general handshaking and the Japanese said goodbye. The ship's officers gathered on deck near the head of the stairway the band played and the Japanese party disappeared over the side to sail to the Dolphin, which was to take them to Portsmouth. In a few minutes the president and his coxswain, W. E. Bullin Roosevelt, left the ship, the president's flag was pulled down from the peak and the Russian flag took its place. The visiting officers from the other ships, including Admiral Coghlan, commandant of the Brooklyn navy yard, and Major General Fred Grant, commanding the department of the east, then left the ships and the business of the day was over.

The Dolphin, bearing the Japanese;

the Mayflower, with the Russians on board, and the Galveston, acting as convoy, will reach Portsmouth at 10 a. m. on Monday.

Count Witte Proceeds by Train. Newport, R. I., Aug. 6.—The converted yacht Mayflower, with Count de Witte and Baron Rosen on board, arrived late this afternoon and arrangements were made for Count de Witte to continue the journey to Portsmouth, N. H., by train. The Mayflower was expected here about 11 a. m., but was delayed by thick weather. The dispatch boat Dolphin, which is conveying the Japanese representatives from Oyster Bay to Portsmouth, did not come into the harbor, but anchored off Brenton's reef light-ship. The commanders of both vessels expected to resume the trip to Portsmouth tonight.

Anxiety in Russia.

St. Petersburg, Monday, Aug. 7.—The morning newspapers appear to be firing of commenting blindly on the possibilities of the Portsmouth peace conference, but the movements of Count de Witte and the others are followed closely and with interest by the people in the daily papers, and they are awaiting actual news of the negotiations with anxiety. The Novoe Vremya declares that Russia's internal troubles will be ended with the introduction of a representative government. Russia, it says, wishes peace, but peace is necessary to Japan.

TRAIN HITS STREET CAR

Child Killed and Six Persons Fatally Hurt in Cleveland.

Cleveland, O., Aug. 6.—The fast Pittsburgh train on the Cleveland & Pittsburgh railroad crashed into an eastbound St. Clair street car at 9:30 o'clock tonight, killing one child instantly and fatally injuring six other persons. Fifteen more sustained injuries.

TWO MINERS KILLED.

Salt Lake City, Aug. 6.—A special to the Tribune from Cumberland, Wyo., says: "Two men were killed and two severely and six slightly injured by a fall of coal in mine No. 1 of the Union Pacific Coal company today. The dead were Joseph Anderson and James Seelers."

ADVOCATES ALLIANCE WITH AMERICA

Article Written in 1859 by a Russian Exiled Because of His Advanced Views Is Re-Published in St. Petersburg With Knowledge Its Author's Ideas Were Acceptable to the Government—Is Deemed of High Significance.

St. Petersburg, Aug. 6.—The republication here today by the Novoe Vremya of an article written in 1859 by Alex Eudor Hertzgen, the Russian author and political agitator, in which a strong plea was made for a Russo-American alliance and in which the American and European systems of government were compared, most favorably to that of America, is not without interest and considerable significance, particularly in view of the general political situation and the fact that Russia today is upon the point of establishing a general assembly and granting the country some sort of a constitution.

The presence of the Russian plenipotentiaries in the United States also adds significance to the republication of the article, as likewise does the Novoe Vremya's relation with the government. The Novoe Vremya was fully aware that the re-launching today of Hertzgen's ideas was acceptable to the government, and, in fact, the painting of the Kokoi Bell and in which he carried on a relentless propaganda for the constitutionalism of Russia. The circulation of Hertzgen's works in Russia was prohibited until within the past few months, when the ban was removed. The opening paragraph of the article published by the Novoe Vremya today is a strong and logical plea for an alliance between Russia and America quoted by Hertzgen from a Philadelphia newspaper printed in 1858 and citing physical and political reasons therefor. The idea of a possible alliance is one of the principal themes of the article, which, continuing, says that Russia should free herself from all world prejudices and fallacies and turn to her great neighbor across the Pacific, and learn a good lesson from her political and commercial successes.

"Russia having reached the Pacific," says the article, "there stands between two nations only the broad ocean, but naught of untamed peoples or envy. If Russia can free herself from the St. Petersburg traditions, her best and most natural ally is the United States of America." Hertzgen notes a lack of sympathy on the part of other European nations for Russia and refers to America's kindness to that country. "Both countries overflow with strength, energy and the spirit of organization," continues the article; "both are without past and both began their national lives by breaking with traditions."

Hertzgen commends America's handling of questions of state, declaring that the American institutions fulfill the demands of the democratic republic. He eulogizes the American constitution and the electoral system, saying that Russia should study these carefully and follow many of the features thereof. He says that the European systems of government mean war, misery and poverty, and asks why Russia follows Europe.

The Novoe Vremya, referring editorially to the article, says that it is worthy of the closest scrutiny.

BLOODSHED IN CHINATOWN.

Three Celestials Killed in Battle in Theater in New York.

New York, Aug. 6.—As a result of a battle between big Chinese societies in a Chinese theater in Doyer street tonight, three Chinamen were killed, two others probably fatally wounded and many others injured.

MURDERER OF THREE TO DIE.

"Somnambulist Insanity" Plea of John Mueller Does Not "Go."

Chicago, Aug. 6.—Only forty minutes was necessary for a jury to decide John Mueller must hang for the murder of his wife and two babies last January. The stolid prisoner showed little emotion and soon was led away to his cell in the county jail. His defense was "somnambulist insanity." The crime for which Mueller must hang is the murder of his wife, Annie, and his two young children in their home at 83 Lewis street, one night last January. The three victims had been slain brutally with a knife. Every effort to secure a confession failed, the man's plea being that he had killed his family while asleep and insane.

CRAP GAME FATAL TO TWO.

Smyrna, Del., Aug. 6.—An early morning riot today among negroes at the

CLAIMS WIDE APART.

Telegraphers Deny Companies' Assertions Strike Is Practically Over.

St. Paul, Aug. 6.—There continues to be a wide variance between the official statements given out by the contending sides in the strike of the Order of Railroad Telegraphers against the Northern Pacific and Great Northern roads.

The officials of the roads claim that the strike practically is at an end and twelve hours more will see the finish; that strikers are applying for their old positions and new men are being constantly employed; that regular trains are on schedule time and freight is being moved promptly.

On the other hand, President H. B. Perham said to the Associated Press that the situation is reported to him more favorable to the operators than at any stage of the strike, and he is confident of victory. He denies that there has been any other defection since that reported yesterday in the Idaho division, and twenty men have been sent to "pull" the operators who returned to work on that division. As to their success, he is not yet advised. He admitted that the companies are sending strike-breakers west, but not in such large numbers as the companies claimed. These men, he averred, are being hired under false pretenses, and as soon as they become cognizant of the true state of affairs the majority quit work and join the strikers.

According to Mr. Perham, the claim that trains are being run on schedule time and that freight is handled as usual is incorrect, and in substantiation of this statement he reported reports from various chairmen on Western divisions showing that perishable freight is being refused and in many cases yards are blocked and little or no freight is being moved.

ALLEGED BOODLER FREED.

Jury Acquits a Missouri State Senator Charged With Bribery.

Jefferson, Mo., Aug. 6.—State Senator Farris today was acquitted by a jury in the circuit court of the charge of bribery in connection with the bill introduced in the state legislature in 1901 to repeal the statute prohibiting the use of alum in the manufacture of baking powder, commonly known as the "alum bill."

NEW ORLEANS PLEDGES CASH

\$250,000 NECESSARY TO FEDERAL CONTROL OF THE SITUATION IS MADE AVAILABLE. TOTAL DEATHS NOW OVER 100. FACT BUT TWO NEW OUTBREAKS OCCUR IS A SOURCE OF SPECIAL ENCOURAGEMENT.

New Orleans, Aug. 6.—The fever report up to 6 o'clock p. m. today shows the following:

Table with columns for 'New cases', 'Total to date', 'Deaths today', 'Total to date', 'New sub-foei', 'Total sub-foei'.

Sailor Succumbs, a Victim of Yellow Jack, at New York, Making the Second Fatality of the Kind There This Summer—These Cases from Panama.

New Orleans, Aug. 6.—The fever report up to 6 o'clock p. m. today shows the following:

An effort is being made to determine the number of cases of fever under treatment and allowing ten days, which is a liberal estimate for a patient either to recover or die. It is figured that there are now 233 cases under treatment.

City Will Foot the Bill.

The marine hospital service has not assumed control of the local situation, but is expected to do so tomorrow. The condition precedent to this assumption—that the citizens of New Orleans pledge themselves to put up \$250,000 to defray the cost of labor and material—has been met, and Surgeon White is in momentary expectation of receiving the formal order from Surgeon General Wyman to take charge.

President Roosevelt and General Surgeon Wyman have both been wired by the citizens' committee of New Orleans that all the funds the service may require outside of its own stated expenditures will be supplied by the people of the city. This action was taken at a special meeting of the finance committee held at noon. It followed the news received from Surgeon White that Surgeon General Wyman had asked for a definite statement of the financial intentions of the people here and had given a definite statement himself of what the marine hospital service could do with the funds at its disposal.

Surgeon White returned today from Gulf Port and Ocean Springs, where he had gone to arrange for improving the camp at Fontainebleau, on the Louisville & Nashville road, and stated that he probably would not establish any camp on the Mississippi coast in view of the attitude of the people of Ocean Springs and Governor Vardaman's determination to abide by their wishes. The camps at Slidell and Wyman will be enlarged to accommodate such travel as would have gone over to a camp on the Mississippi coast.

Dr. Larue announced tonight that Archbishop Chappelle is holding his own and there is no change in his condition since last night.

Federal Control Immediately.

Washington, Aug. 6.—Active control of the yellow fever situation in New Orleans by the United States public and marine hospital service will begin immediately. Orders to that effect have been wired to Surgeon White, the marine hospital officer now on duty in that city. These orders follow reports from Dr. White during the day, which showed that the citizens of New Orleans had promised hearty and unrestricted co-operation in the work to be undertaken by the federal government and would meet certain financial requirements imposed by the marine hospital service as a preliminary to assuming responsibility.

Anticipating this outcome, Dr. White has already determined upon tentative plans for the work in hand. The city will be divided into wards and each ward placed in charge of a responsible surgeon of the marine hospital service, who will have absolute control of the locality. Already Surgeon Wyman has given directions to a number of marine hospital surgeons to proceed to New Orleans for assignment to work under Dr. White. These are all officers who have had experience in dealing with yellow fever epidemics.

Fruit from the South Destroyed.

Cairo, Ill., Aug. 6.—Dr. W. H. Garland of Chicago arrived here today and joined the force of health officers, making the number of inspectors seven, besides Dr. Egan, secretary of the state board of health, and his assistant. A carload of bananas received yesterday from New Orleans was ordered destroyed by Acting Mayor Wood. Mosquitoes were found in the car.

Second Fatality at New York.

New York, Aug. 6.—One man died of yellow fever in New York's detention hospital at quarantine today, making the third case of yellow fever discovered on ships entering New York this summer and the second death.

"This is the first time in five years," said Health Officer Doty, "that New York has been threatened by more than one yellow fever case in a summer. Alton B. Smith, a pantryman, taken off the steamer Advance, from Colon, last Thursday with nine other suspects, died today with an acute case of yellow fever. Seven other members of this party are still under inspection, but I am positive they are not suffering from yellow fever. The other two yellow fever patients came early in the summer."

Not one of these fever cases, Dr. Doty said, came from the fever districts of the United States. Panama supplied all.

Tangier, Morocco, Aug. 6.—The German government has intimated to the Moroccan government that it does not desire to secure any concessions pending the international conference.

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Double the apparent purpose of Milwaukee grand juries to go "higher up" will be commended by the small fry grafters, as well as by the general old-fashioned public.

It is sincerely to be hoped that, whatever befalls, the semi-centennial celebration of the beginning of work on the Panama canal will not be pulled off before its completion.

The fact that mosquitoes are reported to be entirely to blame for the yellow fever epidemic reminds that no one has yet satisfactorily explained what the pesky things were ever made for.

Hereafter all that loyal residents of Superior will have to do to refute aspersions cast on the fair reputation of their city will be to point to the tabulation of returns of the state census of 1905.

Press reports say that the weather bureau, Willis L. Moore the head, will soon be under investigation for alleged improper use of government money.

The imagination gives out when one attempts to speculate on what a district attorney like Mr. Jerome and a chief of police like Mr. Collins might do, working together, to render either Chicago or New York decently habitable.

Political economists tell us that the telephone is a natural monopoly; experience has taught us that it is usually an expensive one, so the news of the proposed absorption of the County company by the Michigan company is not a cause of unmixing joy.

Charles Pfister's assurance of the absolute falsity of the charges on which the indictment against him are founded will be accepted with a big allowance of salt by the public at large, which will want to be "shown." Mr. Pfister's statement is simply a reiteration of the formula resorted to by nine out of ten indicted men.

The Russian and Japanese armies are within rifle range in Manchuria, but the Russians still have time to save Linévitch. If they are really desirous of peace it is apparent that terms can be agreed on quickly and hostilities suspended.

The fire loss in Canada and the United States amounted to \$13,173,250 for July, and was heavier by a million dollars than the July loss a year ago, and heavier by \$300,000 than the July loss in 1903.

The British food supply in war. The British food commission which has been wrestling for more than three years with the question of importation of food in time of war has just made its report.

The Chicago Tribune is correct in concluding that the future of trade unionism in this country depends on the ability of union men to discriminate between "real leaders" and "parasitic scoundrels."

"Mr. Jerome's methods have never savored of political expediency," says the Boston Transcript, commenting on Mr. Jerome's announced intention of becoming an independent candidate for re-election as district attorney for New York county.

"The hotel is so crowded, sir, that the best we can do is to put you in the same room with the proprietor."

"I do not own a cent of stock in any big concern. I haven't any city blocks. Which in a night might burn. I pay no life insurance bill, and so you must agree. This world that uses others ill is pretty good to me."

"There's nothing like perseverance; it's bound to tell in the long run."

"The American touring in the country with an English friend stopped to point out to him a sign-post on which was a dog had printed this sign: 'This way to Squandunk. Those who cannot read apply at the blacksmith's opposite.'"

"Why, I had a splendid time!" she said, earnestly. "Didn't you see me laughing? I laughed several times." New York Evening Mail.

"Mosses' mother pitched his little cradle within and without with pitch and led him to the pool of Sioam. But when the daughter of Solomon got the green leaf from the dove she hastened and brought food convenient for him, and the babe crawled three and grew up in her court."—Century Magazine.

"There was a wooden wedding down our way last night. 'Old gag? Girl married blockhead?' 'No; a couple of Poles got married.'—Brooklyn Life.

"Beyond a doubt," he remarked, "I am the best paid of living men of letters. I receive 30 sous a line."

"I am the best paid of living men of letters. I receive 30 sous a line."

should be accomplish nothing else. His stand is a knightly one and the people have not entirely lost their admiration for chivalry, even in politics."

J. E. Coffland, a Democratic member of the Wisconsin legislature, reports that there is a prospect for an extra session of that body, to be called by Governor La Follette. Mr. Coffland expresses a doubt that Governor La Follette intends to qualify as United States senator, and intimates that the administration forces are contemplating "doing something" for the Stephenson of Marquette, or in other words having him named senator after Governor La Follette declines to qualify.

Insurance Commissioner Berry does not regard highly the proposed insurance investigation by state commissioners. He says that there are now in progress three separate inquiries into Equitable affairs, and until it is established that these examinations are inadequate to give the public a full and fair understanding of insurance abuses he doubts the advisability of starting another inquiry.

"We don't hear anything more of the proposed new daily newspaper," says the Shipping Iron Ore. "Those who have been approached to buy stock haven't a very substantial looking record of daily newspaper dividends to refer to. The number of successes are surprisingly few, while failures make a very solemn and lengthy list. So long as the gentlemen desire to put up their own money it is their own affair, but when they ask for public aid then it is a public matter and as such we discuss it. As an investment there are many things that would give a better return, and we are told it is as an investment that the promoters are discussing the matter. Few newspapers, daily or weekly, make money. They unquestionably do a lot of good when properly guided, but as money makers for those who own them they are disappointments. They are attended by great big chunks of glory, but this isn't much to warm on a cold night, or to make a stomach glad. The same amount of hard work put into almost any other channel would give many times the profit in dollars and cents. But of course if one is seeking fame it's different. A lot of good fellows go wrong every year by trying for halos through the medium of newspapers."

"I don't see how you could have the heart to beat your own child that way." After a pause the woman answered, "Look here, Master Judge, is you ever been the mother of a black rasal like that?" "Why, no," answered the judge. "Well, then, how do you know how to treat one?"—New York Times.

He—How awfully mannish she is. She—Isn't she? He—Yes, and the funny part of it is that she thinks people admire her for being that way. I should think she'd realize that people are only laughing at her.

One day as he was leaving his office in Portland the late Thomas B. Reed was accosted by a stranger who had been imbibing so freely that he was being things double. After apologizing profusely, the stranger managed to ask the congressman where he could get a car for the depot.

Mr. Reed replied: "Go to the next corner; there you will see two cars; take the first one; the other one won't be there."—Boston Herald.

He smiled a smile of glee intense. And then he cleared his throat. And warbled in an idle strain. A small impromptu lay. He sang it o'er and o'er again. Throughout the summer days: "I do not own a cent of stock in any big concern. I haven't any city blocks. Which in a night might burn. I pay no life insurance bill, and so you must agree. This world that uses others ill is pretty good to me."

"There's nothing like perseverance; it's bound to tell in the long run."

"The hotel is so crowded, sir, that the best we can do is to put you in the same room with the proprietor."

"I do not own a cent of stock in any big concern. I haven't any city blocks. Which in a night might burn. I pay no life insurance bill, and so you must agree. This world that uses others ill is pretty good to me."

PERSONAL POINTS Senator Clark of Montana has furnished means to defray the expenses of an expedition to explore the unknown mountains of his state.

J. R. T. McCorkle, a graduate of the school of agriculture at Cornell this year, is about to try a gardening scheme on an extensive scale at Nampa, Idaho.

Robert Hoe, the famous builder of printing presses, has this for his favorite maxim: "It is better to get behind things and push it along than to get in front of it and drag it after you."

A real daughter of the revolution has just died in Westmoreland county, Pennsylvania. Mrs. Sarah Atchison Ross was ninety-eight years old and was the daughter of Thomas Atchison, who fought under Washington at the battle of Trenton, and the widow of Thomas Ross, a veteran of the Mexican war.

There is a romantic story attaching to the great rope of pearls worn by the Princess Frederika of Hanover at recent functions. They are magnificent specimens and very old. Centuries ago a prince and a princess loved each other so that they were buried with her. But in process of time the great grief of her relatives grew gradually fainter and fainter until they began to whisper what a shame it was that such glorious jewels should be wasted. Then one day the princess' tomb was opened and the pearl necklace taken from her neck. But the pearls were spoilt; they had lost their luster and beauty. Their new owner wept over them and dreamed about them and her dream told her that three generations of her family would have to wear them before their luster returned. Three lovely princesses did wear them, and they are now pearls without peers.

The recent death of Dr. J. H. Stringfellow, speaker of the first Kansas house of representatives, recalls the fact that he was the first person to whom the famous epithet "border ruffian" was applied. Governor Reeder is said to have used the term, whereupon the doctor's indignation was so great that he resigned his seat in the legislature. Pursuant to the authority given the committee, it employed George C. Higbee as official stenographer to take in shorthand the testimony given before the committee and to transcribe it into longhand, and he has furnished two copies of the testimony, one of which to file as a part of the records of this investigation and one for the use of the committee in preparing its report.

Professor Herman V. Hilprecht of the University of Pennsylvania has received from the Sultan of Turkey the decoration known as the Order of the Golden Linklet. Usually the medal is conferred for valor and loyalty. His bravery in rescuing from oblivion clay tablets of the Babylonian era is believed to have been the cause of the presentation of the medal. Professor Hilprecht's comrades in the Order of the Golden Linklet are Turkish generals, whose victories for the Ottoman empire have won the medal for them. The sultan is reported to regard Professor Hilprecht's services as great as those of the distinguished Turkish warriors and he has placed the American savant on a parity with them. The Hilprechts are now in Germany and have received the cablegram announcing that the professor was exonerated by the trustees of the University of Pennsylvania of the charges preferred against him by Drs. Peters and other noted scientists. He is reported in the letter as being satisfied with the verdict.

A TOECHING STORY Is the saving from death of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "The age of the child was months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and croup. The first bottle gave relief after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At the Stafford Drug Co.'s drug store; 50c and \$1.00. Guaranteed. Trial bottle free.

It is ten times easier to cure coughs, croup, whooping-cough and all lung and bronchial affections when the bowels are open. Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. Gently moves the bowels and expels all cold from the system. Cuts the phlegm, cures all coughs and strengthens weak lungs.

MARQUETTE COMMON COUNCIL PROCEEDINGS. (Official). Marquette, Mich., July 31, 1905. A special session of the common council was called to order at 8 o'clock p. m. by the mayor, the Hon. Walter T. Ward.

Present—Aldermen Ball, Bush, Corbett, Donovan, Ekstrom, Godwin, Gorman, Gray, Gustafson, Reichel, Shea, Van Cleve and Williams—13.

The call for this session, signed by Aldermen Ball, Williams and Gustafson, together with the affidavit attached, showing proper service of the notice of the same on all the aldermen of the city, was read, the object of the session as stated in the call being: "For the purpose of considering the report of the committee on claims and litigation relative to the Bluff street sewer and the claim of Mamie View and others."

The committee on claims and litigation reported as follows: Marquette, Mich., July 31, 1905. To the Honorable Mayor and Common Council of the City of Marquette: Your committee to whom was referred the claim of Mamie View and others for injuries sustained by driving into an excavation on Fifth street on the evening of the 24th, respectively report that they have reached a settlement with Miss View for the sum of fifteen dollars (\$15.00) and agreed that the city should assume and pay the hospital and physician's bills, which are herewith presented. Your committee, in view of the reasonable settlement, proposed the necessary money from the treasurer.

Your committee recommended that an order be drawn, payable to the treasurer, out of the general fund for the sum of fifteen dollars (\$15.00) and that the hospital and physician's bills be allowed and ordered paid.

Respectfully submitted, COMMITTEE ON CLAIMS AND LITIGATION. J. E. Ball, Chairman. E. H. Bush. E. Gustafson.

On motion of Alderman Donovan, supported by Alderman Ball, said report was adopted by the following vote: Yeas—Aldermen Ball, Bush, Corbett, Donovan, Ekstrom, Godwin, Gorman, Gray, Gustafson, Reichel, Shea, Van Cleve and Williams—13. Nays—None.

The committee on claims and litigation presented a report of which the following is a copy, omitting their recital of the evidence on which their findings were based: Marquette, Mich., July 10, 1905. To the Honorable Mayor and Common Council of the City of Marquette: Your committee on claims and litigation, to which was referred by resolution adopted on June 12, 1905, the duty of investigating the matter of the construction of the sewer and laterals on Bluff street, from the sewer in Third street to a point thirty feet east of the east line of Fourth street, respectively reports that pursuant to the above mentioned resolution the committee met in the council room of the City Hall on the 28th and 29th days of June, 1905, and heard evidence from a number of witnesses relative to the question under consideration. Pursuant to the authority given the committee, it employed George C. Higbee as official stenographer to take in shorthand the testimony given before the committee and to transcribe it into longhand, and he has furnished two copies of the testimony, one of which to file as a part of the records of this investigation and one for the use of the committee in preparing its report.

The first question to be considered by the committee under the resolution of the common council was "Whether said work has been done in accordance with the profile and specifications thereof."

Your committee has had an examination of the depth of the sewer made at a point 300 feet west of the manhole in Third street, and the evidence shows that at that point the sewer is one foot above grade. We have also had an examination made at a point midway between the 300-foot station and the western examination made by Mr. Cummings, at a distance of about 350 feet from the manhole in Third street, and this shows the sewer to be one foot and two inches above grade at that point.

Your committee finds from the evidence submitted to it that the construction of the sewer in Bluff street has not been in accordance with the profile and specifications in this: that from a point 150 feet west of the manhole in Third street there was no evidence whatever produced before the committee tending to show that the sewer was laid in accordance with the profile. On the other hand, the weight of the evidence shows that from some undetermined point between the 150-foot station and the 240-foot station, the sewer departed from profile and never again was laid according to profile.

The second question submitted to your committee was whether "If said work, or any portion thereof, has not been so done, the reasons therefor, if any, and who is responsible therefor."

From the evidence submitted on this question your committee finds that the reasons for the sewer not being built in accordance with the profile, and the responsibility therefor, are: First, The total regard on the part of the contractors of the profile and of their contractual obligations to the city to put the sewer at the specified depth.

Second, The confidence on the part of the executive officers of the city that these contractors would properly perform their contract according to profile and specifications, without any proper supervision, and the acceptance of the assurances by the contractors that the construction would be in accordance with the contract, without the proper inspection or measurements provided for by the specifications or ordinarily necessary as a proper business precaution; and

Third, We find that the responsibility for the improper construction rests on the contractors, who agreed to build the sewer in a certain manner and at a certain depth, and upon former Street Commissioner French, who, by his negligence in failing utterly to perform his duty of supervision and inspection of the construction, made it possible for the contractors to improperly perform the work.

The third question submitted to your committee was "Whether any portion of said work should be relaid, and if so, at whose expense?"

This question is divided into two parts: First, Whether any portion of the work should be relaid. If this sewer was laid according to the profile as adopted by the common council, all of the records but one on the south side of Bluff street could use this sewer and would have from 1 1/2 to 2 1/2 foot drop from the bottom of their respective basements to the sewer, which would be amply sufficient to afford the proper drainage. In the opinion of the present city engineer, Mr. Cummings, the basement of this one owner is unreasonably deep, but even he could reach the sewer, if laid to profile, from a point about ten inches above his basement floor and would then have a ten-inch drop from the point where his lateral pierced his cellar wall to the main sewer. Part of

the property on the south side of Bluff street, and which this sewer was designed to serve, is at present unoccupied, but in the opinion of your committee all future buildings along the south side of this street would be constructed with the grade of the sewer in view.

Your committee therefore recommends that the sewer be relaid from the lamphole on the west to the point where the sewer departs from the adopted profile. The second portion of this question is at whose expense this should be done. The contractors proposed to build this sewer according to the profile adopted by the council and according to the Davis specifications. These specifications also required inspection on the part of the city engineer and imposed severe penalties on the contractors, if the work was not kept in proper condition for inspection by him. Mr. French, by his inattention to the duties of his office, made it possible for these contractors to construct the sewer improperly, and in the opinion of your committee he and they should be required to relay the sewer at profile grade.

The last question submitted to your committee is "By what authority said payment of \$300.00 was made." The minutes of the meeting of May 11, 1905, as they stand upon the records at present (page 471) are as follows: "The controller presented bill of Johnson and Peterson for first payment on contract for the construction of the sewer in Bluff street between Third and Fourth streets, amount, \$300.00. On motion of Alderman Gustafson, supported by Alderman Ekstrom, a warrant was ordered drawn for the payment of said amount if said sewer shall be found to be constructed according to profile."

According to Alderman Gustafson's recollection of his motion, it was that the \$300.00 should be paid providing the sewer should be accepted by the street committee and the street commissioner should find, upon examination, that the sewer was constructed according to the contract or according to profile. It appears that the minutes of this meeting have not yet been approved and that the street commissioner, finding the records as we do, however, we must be governed by them so long as they remain a record of the proceedings, and are not amended or corrected.

Your committee finds from the evidence submitted on this question that at the time the bill was first presented to the council and was held up by the mayor, the mayor had protests from property owners along the street that the sewer was not properly constructed; that he inquired of the street commissioner as to whether the sewer was all right and that the street commissioner told him that it was (according to the contractor's statements); that without further investigation to determine the question of whether the sewer was laid to profile or not, and so far as the evidence shows, without any further investigation of the matter whatever, the mayor, after the passage of the resolution offered by Alderman Gustafson, immediately signed the warrant for the payment to the contractors; that in view of the fact that complaints had been made as to the faulty construction of the sewer, and which were known to the mayor, it thereupon became his duty to have the complaints investigated by a proper and competent officer before the warrant for the payment of the money was signed by him or issued to the contractors.

It is the unanimous opinion of the committee that it would be hard to discover a case of more wanton disregard by contractors of their obligations to the city, or of more gross negligence on the part of the executive officers in looking after the city business, than the case

which has been presented during this investigation. Your committee recommends that in future construction of sewers by the city, the proposal be submitted in duplicate, and when accepted by the city that the acceptance be endorsed upon both copies and one copy of the proposal, accompanied by a copy of the profile and a copy of the Davis specifications relative to the construction of sewers, be furnished to the contractor, so that he may know the terms of his contract and govern himself accordingly. Your committee therefore recommends that that portion of the sewer in Bluff street between Third and Fourth streets, between the lamphole at the west end of such sewer and the point where the same first departs from grade running west from the manhole in Third street, be relaid; that Robert B. French, and Jacob Werner and Martin Vierling, sureties on his bonds, and Erick J. Johnson and Christ Peterson, contractors for such sewer, and Anton Manthei and Frank Freil, sureties on the said contractors' bonds, be forthwith notified to relay the same to grade, and to begin thereon within five (5) days of service of such notice upon them, and that upon default of their commencing said work within five (5) days after such service of notice, that the sewer be relaid according to profile by the city at the expense of such commissioner and engineer and contractors and their several sureties. Your committee respectfully requests to be discharged from further consideration of the matter. All of which is respectfully submitted.

COMMITTEE ON CLAIMS AND LITIGATION. J. E. Ball, Chairman. E. H. Bush. E. Gustafson.

On motion of Alderman Williams, supported by Alderman Godwin, said report was adopted by the following vote: Yeas—Aldermen Ball, Bush, Corbett, Donovan, Ekstrom, Godwin, Gorman, Gray, Gustafson, Reichel, Shea, Van Cleve and Williams—13. Nays—None.

The council then, on motion, adjourned. DANIEL S. DONOVAN, Recorder.

Copper Country

MERCHANTS HERE TODAY.

Milwaukee Association on Its Fifth Annual Outing—Many Coming.

The special train carrying members of the Milwaukee Merchants & Manufacturers' association is due to arrive in Houghton about 9 o'clock this morning. There are eighty-one in the party, including the Merchants and Manufacturers' cotette, the members of which are: R. W. Tait, director; Frank Boden, Archie Daniels, Ossian F. Bird, C. E. Sammond, W. W. Wallis, H. A. Meurer, John S. Blackney, and Charles M. Lurvey, pianist.

Today the visitors will be afforded an opportunity of becoming acquainted with the Houghton and Hancock merchants and this evening they will be royally entertained by the Hancock Business Men's association. Advice from Milwaukee yesterday was to the effect that the members were looking forward to a pleasant vacation and expected that this, the fifth annual outing, would be the greatest of them all. During their stay in the upper peninsula the members of the party will distribute 4,000 buttons advertising Milwaukee.

KNIGHTS GOLDEN EAGLE.

Calumet Man Has Been Elected Grand Chief of the Order.

The following officers were elected at the sixth annual session of the grand council of Michigan, Knights of the Golden Eagle, held at Traverse City last week.

Grand Chief—Richard James, Calumet. Grand Vice Chief—Reuben Penna, Ironwood.

Grand Master of Records—F. W. May, Ironwood.

Grand Keeper of Exchequer—Horace W. Dickinson, Detroit.

Grand Sir Herald—Thomas McNamara, Ironwood.

Grand Trustee—George Hand, Calumet.

Grand First Guardsman—James H. James, Calumet.

Grand Second Guardsman—John H. Wright, Ironwood.

Supreme Representative—Captain Joseph Hodgson, Ishpeming.

St. Ignace was fixed as the place of the next meeting. The by-laws were so amended that hereafter Grand Castle elections will be held in the Grand Castle instead of subordinate lodges.

The plan of holding biennial sessions was voted down. Horace W. Dickinson of Detroit, past grand chief, was in charge of the meeting. John D. Bierge of Detroit, the only supreme lodge officer in Michigan, was present. The supreme castle meets in Detroit in October.

FUNERAL AT ONTONAGON.

The funeral of Arthur Emmons, who died suddenly Friday morning, will be held in Ontonagon this afternoon, the body having been taken to that place Saturday morning. Mrs. Emmons and Mrs. Corbett, mother and sister of the deceased, arrived from Saginaw Saturday night. The funeral will be in charge of the Ontonagon county Masons.

LEAVE FOR LUDINGTON TODAY.

One Hundred Copper Country Militiamen to Participate in State Encampment.

The copper country militia companies leave this morning for Ludington to participate in the annual state encampment. There are about fifty men, and Houghton will be represented by nearly as many. Accompanying the troops will be Major Charles Hendrickson of Houghton and other regimental officers. They will probably be the last encampment to be held at Ludington, for some years at least, judging from reports received from the lower portion of the state. Ludington has made an ideal camping ground and the copper country militiamen regret that a change is contemplated.

SOLDIERS WILL EAT TWELVE TONS OF BEEF.

The quartermaster general's department, in arranging for the state military encampment, has estimated that it will require twenty-four thousand pounds of fresh beef to supply the men during the outing. There will also be purchased twenty-five hundred pounds of bacon, five hundred pounds of flour, ten thousand pounds of soft bread, thirty-three hundred pounds of beans, eighteen thousand pounds of potatoes, eleven hundred and fifty pounds of evaporated apples, eighteen hundred pounds of coffee, one hundred gallons of vinegar, one hundred quarts of pickles, and fifty-five pounds of pepper. To keep the troops clean nine hundred bars of soap will be required and three hundred and fifty pounds of candles will be distributed. For the horses forty-five tons of straw will be purchased, fifteen tons of hay and twenty-five thousand pounds of oats. The state will burn one hundred and sixty four cords of wood, twelve gallons of lard oil, three barrels of kerosene and four barrels of gasoline. Ninety tons of ice have been contracted for.

WILL OPEN THURSDAY.

Sunday School Association to Hold Sessions in Every Town.

Opening this week and continuing into the next, the Houghton and Keweenaw County Sunday School association will hold its annual sessions. The first meeting will take place at the Grace M. E. church, Houghton, Thursday, Aug. 10, and from that time on a meeting will be held in every town in the county. This is a new departure. It gives those affiliated with the different churches in the county an opportunity to attend the meetings, and it is believed the inauguration of this increased activity in Sunday school work, and greater interest in the association. Details of the program follow:

Conductors—Rev. H. A. Dowling, assistant secretary Ohio Sunday School association, Columbus, O.; Mrs. G. L. Fox, primary superintendent Michigan Sunday School association, Grand Rapids, Mich.

Time and places of meetings: Thursday, Aug. 10, Grace M. E. church, Houghton; Friday, Aug. 11, First M. E. church, Atlantic; Saturday, Aug. 12, First Presbyterian church, Calumet (Rev. Dowling); Sunday, Aug. 13, 10:30 a. m., First Congregational church, Calumet; 2:30 p. m., First M. E. church, Calumet (Mr. Dowling and Mrs. Fox); 6:30 p. m., First M. E. church, Laurium (Mr. Dowling); Monday, Aug. 14, First M. E. church, Lake Linden; Tuesday, Aug. 15, First M. E. church, Hancock; Wednesday, Aug. 16, St. James M. E. church, Tri-mountain.

Afternoon sessions—1:45, Opening devotional service conducted by pastor. 2:05, "Organization of the basis of effective work" Rev. H. A. Dowling. 2:45, "Practical Primary Plans," Mrs. G. L. Fox. 3:15, "The Sunday School from All Sides," LA round table conference. 4:15, Adjournment.

Evening sessions—7:30, Song service; Scripture reading and prayer; Special music by local choir. 8:00, Address, Mrs. G. L. Fox; thanks offering; Special music. 8:30, Address by Rev. H. A. Dowling. Officers of the association: E. T. Daume, president, Laurium. Rev. Frank Miner, vice president, Dollar Bay. Eugene La Rowe, second vice president, Hancock. W. J. Reynolds, secretary-treasurer, Laurium.

Mrs. J. J. Goodsole, superintendent primary department, Laurium. Mrs. W. Moir, superintendent home department Houghton. Mrs. W. R. Fruitt, superintendent Normal department Houghton. T. E. Mitchell, Tri-mountain; Rev. J. N. Hartness, Houghton; Miss Ella Rogers, Laurium; Ino Less, Hancock.

REPORTS WAGON UNGUARDED.

A prominent Houghton citizen who had just returned from a trip through Keweenaw county stated yesterday that while near Eagle River, on the return trip, he came across a wagon in the middle of the road with no one in charge. The driver was forced to alight and having proceeded to such an extent as to open a small channel. As yet the channel is not wide enough for large vessels, but by Sept. 1 it is hoped that coal carriers and other large craft will be able to put in there soon as the ice has melted, the rail for the new railroad will commence to arrive.

ATLANTIC MINER KILLED.

Lambert Symons, employed in B shaft of the Atlantic, received injuries in an early hour Saturday morning which resulted in his death shortly after noon. The young man returned to work too soon after a blast and was struck on the head and hip by some loose hanging. Symons was taken to the company hospital, where he lingered for several hours. His skull had been fractured and his hip broken. The deceased was twenty-six years old, and single. A brother resides at the Atlantic location.

INSANE MAN IN CUSTODY.

Under Sheriff W. H. Vivian was called to Chassel yesterday morning to take into custody an insane man named John Komula. The officer had a hard tussle with the fellow and on several occasions was required to resort to force to keep him under control. He is a hopeless case and will be sent to Newberry.

SAUSAGE FACTORY BURNS.

Fire shortly after 1 o'clock yesterday morning at Paul Hancock's sausage factory on Hancock street, Hancock, caused heavy damage, the structure being almost totally destroyed and the contents ruined. The loss is partly covered by insurance. The structure was a two-story frame building. For a time adjoining buildings were in danger, but efficient work on the part of the fire department saved them.

WITH THE BALL TEAMS.

Calumet and the Soo Won Saturday—This Week's Schedule.

In a game in which both pitchers were hit hard Calumet again won from Hancock Saturday. Paige, who twirled for the Aristocrats, allowed five hits, which netted four runs, in the first, but after that held the infants down and managed to pilot his team to victory, seven to four. Kippert pitched for Hancock and was touched up for twelve runs against the secure Calumet. Calumet scored three runs in the fourth and four in the sixth.

The Soos defeated Lake Linden Saturday in one of the best games ever played on the Soo diamonds. Although Schureh kept the Honespuns from getting a hit and the Lakes scored four off McCutcheon, the Soos won out, a single score in the first winning the contest. The Lakes made two errors and the Soos three. Burka got to first on four wild ones and managed to steal home on a wild throw by Schureh, who thus lost his own game.

The Soos will play at Hancock today and tomorrow, and Lake Linden will play at Calumet. Hancock will cross bats with the Aristocrats at Calumet Wednesday and Thursday and the Lakes will play at Hancock Friday, Saturday and Sunday. The Soos will be at the Lake Wednesday and Thursday and at Calumet Friday and Saturday. Calumet and the Soo will finish the series at Lake Linden Sunday.

FIRST PAVING BLOCKS LAID.

In the Neighborhood of 50,000 Will Be Required at Houghton.

Walter Buehler, consulting engineer for the Kettle River Quarries company, Minneapolis, who came to Houghton for the purpose of giving advice regarding the laying of the crosstied blocks on College avenue, left Saturday night and home. The Soos, the blocks were laid yesterday, and by evening the work had progressed so favorably that Mr. Buehler's services were no longer required.

The Minneapolis man gave very interesting data concerning the manufacture of the blocks, which will be used in Houghton. The blocks, he said, are made of Norway pine and tamarack. They are first cut to the regulation size, after which they are placed in a large cylinder tank and treated by a steam process. After this the blocks are covered with oil and put under a pressure of from 100 to 140 pounds, remaining so until a coating has formed, when they are ready for use.

Mr. Buehler said that in the neighborhood of 50,000 blocks would be necessary on College avenue. The blocks are of uniform thickness and make a fine street.

HAD SEVERAL RIBS BROKEN.

Mrs. Martin of Houghton Met With Accident While Going to Church.

Mrs. Anton Martin of Houghton suffered a painful accident while driving to church yesterday morning. The car became unmanageable with the result that the carriage was overturned and Mrs. Martin was thrown to the ground, suffering the fracture of several ribs and sustaining other injuries. She was removed to her home by ambulance and during that time her life was despaired of.

CONFERENCE ARE COMMENCED.

Rev. C. M. Thompson of Marquette, presiding elder of the M. E. church for the Marquette district, arrived in copperdom Saturday to conduct the fourth quarterly conference at the different churches under his jurisdiction here. Saturday evening the first of the conferences was held at Lake Linden. Yesterday Mr. Thompson occupied the pulpit at the Lake Linden church, both morning and evening. This evening he will conduct a conference at Hancock, tomorrow at Painesdale, Wednesday at Houghton, Thursday at Hurontown, Friday at Painesdale, Saturday morning at Tri-mountain, Saturday afternoon and Sunday morning at Baltic and Monday evening at Atlantic.

HELD TO CIRCUIT COURT.

Mareus Manninen, John Moilanen and Edward Heikkinen, of Painesdale, who were arrested a week ago, charged with breaking windows in a Copper Range train, have been bound over to circuit court, under bonds of \$500 each. The security was furnished and the men have been released. The examination was conducted before Justice Brand Friday and was continued until Saturday, there being a number of witnesses examined. Attorney John Kiskola of Hancock appeared for the defendants and Attorney A. E. Peterman represented the prosecuting attorney.

LAC LA BELLE HARBOR OPEN.

Charles A. Wright, Jr., was in Houghton yesterday from Keweenaw county, where he is directing the work of building the new Keweenaw Central railroad. Mr. Wright said that after many years the first tug has been able to enter Lac La Belle harbor, having proceeded to such an extent as to open a small channel. As yet the channel is not wide enough for large vessels, but by Sept. 1 it is hoped that coal carriers and other large craft will be able to put in there soon as the ice has melted, the rail for the new railroad will commence to arrive.

COPPER CONSUMPTION HEAVY.

Increase in Production Most Opportune to Meet the Vast Demand.

D. Houston & Co., metal brokers, of New York, say: Current consumption is at a very high mark, and the prospect for large prospective requirements is unlimited. The present development of point to the employment of immense quantities of copper for years to come which will insure a steady outlet for a long period. The increase in production in recent years has been the opportunity to meet the vast demand that has arisen, but the rapid growth in consumption has brought the adjustment of supply and demand into a sensitive position.

At no previous time has production been carried on at the great rate of the present. But notwithstanding this fact the urgent world demand for copper is providing many channels of distribution for the supplies from all producing centers. The rapid development of the copper industry in this country is the history of remarkable achievements in mining. Less than twenty years ago the total United States copper production did not amount to 100,000 tons per year, or 48,784 tons less than the exports from this country in the first six months of this year. If we go back only twenty-five years we find that the annual American output of copper then did not equal a single month's production at the present time.

COPPER ORE IN KEWEENAW.

One of the most important deposits of copper yet discovered in Keweenaw county is in Bohemian mountain, on the shores of Lac Labelle. The deposit was opened probably thirty years ago by the Sibley people of Detroit, who were largely instrumental in building the Lac Labelle ship canal and who acquired extensive holdings at that time. The work was done on the northeast side of the mountain and considerable shipments were made to Saranac, Wales, for smelting. It is stated that the even under these adverse conditions an excellent profit was realized from the undertaking. This ore is bournite or peacock copper and chalcopryite.

Another copper ore deposit is on the Suffolk property, near where the Bohemian was operating a few months ago. Two smelters were built on this property, but both met with evil fates. The first one was burned out in the first charge of copper which was made into it. The second, which was erected in this place, was abandoned after the first charge because of the presence of 50 per cent from in the ore, which the management did not know how to handle.

QUICK RELIEF FOR ASTHMA SUFFERERS.

Foley's Honey and Tar affords immediate relief to asthma sufferers in the worst stages and if taken in time will effect a cure. Stafford Drug Co.

COPPERDOM BREVITIES.

Miss Laura Shields of Hancock has returned from a visit in Escanaba.

Mrs. J. F. Smulski of Chicago is a guest of Mrs. Spencer of Houghton.

Miss Anna McGrath of Duluth is the guest of Mrs. James Sibley of Houghton.

William Bath of Negaunee is visiting John Olds, of the Tamarack Junior location.

Miss Annie Dougher of Marquette is spending a few days with copper country friends.

Thomas S. Dee of Houghton has gone to Chicago and other points on a brief business trip.

Mrs. D. McDonald of Superior, Wis., is the guest of Mr. and Mrs. C. A. Renard of Houghton.

Rev. J. E. Curzon, pastor of Trinity Episcopal church, Houghton, is home from a visit to Huron Bay.

Probate Judge G. C. Bentley has been called East on business. He expects to be gone a week or ten days.

Miss Grace Moyle has returned to Hancock from an extended visit with her brother in Great Falls, Mont.

Mr. and Mrs. A. Feiss of Toledo, who have been visiting their son, A. L. Feiss of Hancock, have returned home.

Mrs. H. G. Wormer has returned to Detroit after a visit with her parents, Mr. and Mrs. W. R. Hoar of Houghton.

W. E. Mizer, secretary of the Michigan State Telephone company, has arrived in copperdom on a tour of inspection.

Miss Allie McKernan, assistant postmistress at Houghton, has left for a several weeks' visit in Detroit and other cities.

Mr. and Mrs. Otto Borresen of Hancock are home after a several weeks' visit at Mackinac Island, Marquette and Sault Ste. Marie.

Miss Amy Veasme of Calumet has returned from Chicago, where she has been taking a summer course at Chicago University.

Circuit Judge John W. Stone of Marquette arrived in Houghton Saturday night for a visit with his son, Attorney John Stone.

Mrs. George Kirban, a Syrian woman, reported to the Hancock police that she has lost \$61. The money was tied in a handkerchief.

Mrs. H. F. Stang and son, Irving, of Milwaukee, are the guests of Mrs. Stang's parents, Mr. and Mrs. J. B. Smith of Houghton.

Circulars have been received announcing the meeting of the National Association of Fire Chiefs, which will be held in Duluth Aug. 15.

J. B. McLaughlin, member of the state tax commission, the guest of his brother, W. B. McLaughlin, cashier of the Houghton National bank.

E. G. Halbert, representing The Milwaukee Journal, is in Houghton. He will report the outing of the Merchants & Manufacturers' association.

Mrs. Frank J. Voith and daughter, Miss Beatrice, of Houghton, are home from a three weeks' visit in Buffalo, Detroit and Pennsylvania cities.

Miss Kippatrik and brother, William H. of Philadelphia, who have been in the city of Miss Koenig of Houghton, left on the Junata enroute for home yesterday.

Mrs. W. H. Taylor and daughter, Miss Marjorie, of Chicago, are visiting Mr. and Mrs. F. J. Bowden of Houghton. Mrs. Taylor and Mrs. Bowden are sisters.

Harry R. Rogers of the Franklin has left for an extended trip through the West. He will be joined at Denver by his brother, Ben, who will accompany him to Portland and other points.

Major E. D. Ellis and wife of Houghton left yesterday for the Soo, enroute to Ludington, where Mr. Ellis has been invited to attend the annual state encampment of Michigan troops.

J. John Turcott and family of Hancock have gone to Chicago to remain a few days. They will also visit at the Soo, Marquette and Ishpeming before returning home, being gone about two weeks.

Taking a dose of poison in mistake for medicine, the seven-year old daughter of Solomon Parski of the Wolverine locality here, died yesterday. The physician called did everything possible to relieve the little one's sufferings, and yesterday there was hope of recovery.

Mining News

COPPER CONSUMPTION HEAVY.

Increase in Production Most Opportune to Meet the Vast Demand.

D. Houston & Co., metal brokers, of New York, say: Current consumption is at a very high mark, and the prospect for large prospective requirements is unlimited. The present development of point to the employment of immense quantities of copper for years to come which will insure a steady outlet for a long period. The increase in production in recent years has been the opportunity to meet the vast demand that has arisen, but the rapid growth in consumption has brought the adjustment of supply and demand into a sensitive position.

At no previous time has production been carried on at the great rate of the present. But notwithstanding this fact the urgent world demand for copper is providing many channels of distribution for the supplies from all producing centers. The rapid development of the copper industry in this country is the history of remarkable achievements in mining. Less than twenty years ago the total United States copper production did not amount to 100,000 tons per year, or 48,784 tons less than the exports from this country in the first six months of this year. If we go back only twenty-five years we find that the annual American output of copper then did not equal a single month's production at the present time.

COPPER ORE IN KEWEENAW.

One of the most important deposits of copper yet discovered in Keweenaw county is in Bohemian mountain, on the shores of Lac Labelle. The deposit was opened probably thirty years ago by the Sibley people of Detroit, who were largely instrumental in building the Lac Labelle ship canal and who acquired extensive holdings at that time. The work was done on the northeast side of the mountain and considerable shipments were made to Saranac, Wales, for smelting. It is stated that the even under these adverse conditions an excellent profit was realized from the undertaking. This ore is bournite or peacock copper and chalcopryite.

Another copper ore deposit is on the Suffolk property, near where the Bohemian was operating a few months ago. Two smelters were built on this property, but both met with evil fates. The first one was burned out in the first charge of copper which was made into it. The second, which was erected in this place, was abandoned after the first charge because of the presence of 50 per cent from in the ore, which the management did not know how to handle.

QUICK RELIEF FOR ASTHMA SUFFERERS.

Foley's Honey and Tar affords immediate relief to asthma sufferers in the worst stages and if taken in time will effect a cure. Stafford Drug Co.

increase at the ratio of the recent past, production will have to be greatly stimulated to keep pace with the huge consumption in prospect. All the facts make it apparent that the copper situation is remarkably and intrinsically sound. The present level of values, however, is sufficiently high, and any attempt to force buyers to pay more should not be encouraged.

Production Statistics.

The Boston News Bureau gives these statistics: The production of copper throughout the world in 1904 is placed at 1,407,056,000 pounds, an increase of 7 per cent over the output in 1903. In fact, the average yearly increase for the past ten years has been 7.3 per cent. The average yearly increase in the United States production during the same period was 8.2 per cent. The United States has been supplying until today its mines furnish 55 per cent of the world's output. The world's production of copper during the past decade, in pounds, and the yearly per cent of increase:

Year.	Pounds.	Per Cent Increase.
1895	749,425,000
1896	830,333,120	12.0
1897	830,333,120
1898	961,309,440	8.0
1899	1,051,254,400	9.0
1900	1,088,312,960	4.0
1901	1,144,686,560	5.0
1902	1,214,453,980	6.0
1903	1,310,581,280	8.0
1904	1,407,056,000	7.0
Average	7.3

The production of the United States during the same period, our percentage of the world's output and the yearly increase have been as follows:

Year.	Pounds.	U. S. P. Ct. of output.
1895	380,614,080	50.0
1896	400,160,160	58.0
1897	404,079,040	54.0
1898	526,510,200	54.0
1899	568,668,800	54.0
1900	602,808,640	57.0
1901	601,480,000	53.0
1902	629,225,280	53.0
1903	697,943,520	53.0
1904	772,800,000	55.0

A survey of the above figures warrants no apprehension of any over-supply of copper. It is conceded by eminent trade authorities that the normal yearly increase in domestic consumption is about 10 per cent, in which event the demands for the red metal in this country are increasing faster than are the new or enlarged sources of supply.

On the other hand there is in reality no such condition possible as a "shortage," so often referred to in checking up the world's demands against its production. Every fraction of a cent advance beyond 15c in the selling price to that extent checks the absorption of the metal, so that an advancing market sooner or later brings about its own readjustment to normal conditions.

At the moment a world-wide view of trade conditions reveals activity in America and Germany, while in France and England business is between fair and poor. The strength of the copper industry lies in the fact that it is an international commodity and depression in one center has its compensation in prosperity in another.

OLD DOMINION.

The concentrator at the Old Dominion is now doing duty, and by the end of the month its effect upon the monthly output should be noticeable. Within a week's time the Old Dominion will also begin hoisting through the new shaft, which has been under construction for the past three months and thereafter the entire output will be handled through this outlet, instead of the old opening. With these improvements the mine will be in better condition than since the consolidation with the Phelps-Dodge interests. These improvements are the work of the new management and will also be a factor in the concentrator the company will be able to get the full benefit of its modern plant. Therefore, the output for August should show a very substantial increase over the output for June and July.

In this new plant the company will be able to use the native copper, which its location contains, and this can be used at any time in bringing up its metal average. The monthly reports heretofore issued have not reflected the true producing capacity of the company, as about 4,000,000 pounds of the product was the result of the company's custom trade, mainly sulphides, which the company is obliged to use for fluxing purposes. Recently these ores have been running as high as 8 per cent in copper values. At this percentage the company could not handle the ores at a profit if they were not for their value as fluxes. The policy of the management, however, has been to use as much of the company's own ore as was possible and it was for this reason that the production of copper has fallen off.

The management has been pushing the underground work to the utmost limit. In the Old Dominion's mines the maximum depth is 800 feet and this is being sunk to 1,000 feet in which distance there will be twelve levels. On the Globe property there are a great number of small shafts. The Gray shaft is the most developed of any on the Globe property, but good ore is coming from several of the holes. Great things are expected from the future development of this property. The Globe on its present shipments is making some good money, which is being held in its treasury for the benefit of the holders of the consolidated company's stock. No shipments have as yet been made to the Old Dominion by the Arizona Commercial, but just as soon as the railroad to the Old Dominion is completed, ore will be shipped. Considering these things, August should mark a new era in the history of the company.

COPPER ORE IN KEWEENAW.

One of the most important deposits of copper yet discovered in Keweenaw county is in Bohemian mountain, on the shores of Lac Labelle. The deposit was opened probably thirty years ago by the Sibley people of Detroit, who were largely instrumental in building the Lac Labelle ship canal and who acquired extensive holdings at that time. The work was done on the northeast side of the mountain and considerable shipments were made to Saranac, Wales, for smelting. It is stated that the even under these adverse conditions an excellent profit was realized from the undertaking. This ore is bournite or peacock copper and chalcopryite.

Another copper ore deposit is on the Suffolk property, near where the Bohemian was operating a few months ago. Two smelters were built on this property, but both met with evil fates. The first one was burned out in the first charge of copper which was made into it. The second, which was erected in this place, was abandoned after the first charge because of the presence of 50 per cent from in the ore, which the management did not know how to handle.

At no previous time has production been carried on at the great rate of the present. But notwithstanding this fact the urgent world demand for copper is providing many channels of distribution for the supplies from all producing centers. The rapid development of the copper industry in this country is the history of remarkable achievements in mining. Less than twenty years ago the total United States copper production did not amount to 100,000 tons per year, or 48,784 tons less than the exports from this country in the first six months of this year. If we go back only twenty-five years we find that the annual American output of copper then did not equal a single month's production at the present time.

CHANGE IN LAW. Circuit Court Commissioners Will Have Charge of Child Cases. **TERMS OF HAWKERS' LAW.** Statutes Prohibit Selling of Any Articles Without License.

A recent act of the legislature, which goes into effect on the 10th of September, provides that in this county the circuit court commissioners shall have charge of all juvenile cases, now within the jurisdiction of the justices of the peace. The law provides that in counties having 100,000 population the circuit court shall have charge of all minors. In counties of less than 100,000 and more than twenty-five thousand all cases concerning children come within the jurisdiction of the circuit court commissioners. The probate court will attend to these cases in counties having less than twenty-five thousand people. The commissioners will receive the same fees as those now received by the justices of the peace in such cases, in addition to their regular salaries. The provisions of the act do not apply in the counties of Berrien, Jackson, Houghton, Mecosta, Barry, Ottawa and Manistee.

ARE NOW ON THE ROAD. Milwaukee Merchants and Manufacturers On Upper Peninsula Jaunt.

Eighty-one members of the Milwaukee Merchants and Manufacturers' association left last evening on their trip to the upper peninsula. They will arrive here on the 4:10 a. m. train August 10th, and will visit in Ishpeming until about 11:00 a. m. the same day. The members of the association will distribute 4,000 buttons, its heart shaped emblem, showing Milwaukee as a trading center for the business men throughout this region. The badges which will be worn by the members during the trip will be of the same shape, but of more elaborate design. On the reverse side the pictures of the four officers are grouped. The Northwestern line has prepared leather bound ticket books containing coupons for various stages of the jaunt. A circular of information has been sent out with the ticket books by the secretary. The folders give an itinerary of the trip and hints for the members. At all cities where the jaunt will stop for any time the business feature of the trip will be emphasized, and the merchants of this section will be given plenty of information as to the mercantile and commercial resources of the Upper Peninsula. All functions en route will be informal and dress suits will not be in evidence. Arrangements have been made to permit the members of the party to entertain invited guests at meals in the dining cars. The officers of the association are: President, F. W. Sivy; vice president, W. W. Fitzgerald; Treasurer, John Campbell; secretary, L. C. Whitely.

The committee of the Ishpeming association is making preparations for the visit, and will show the Milwaukeeans the sights of the city.

GROUND CAVING. The surface of the old east Lake Angeline lake bottom was caving in all last week. When the new engine house was built and the machinery transferred, the company planned to undermine this part of the property. The old dry house is about to topple over into a large cavity in which opened up Friday. A considerable portion of the large cinder pile has also fallen and all the ground in the vicinity has been pronounced unsafe. A large pillar of ore is located under the old dry house and the miners have been blasting it down for the past few days. The company is transferring the old engine house property, which was formerly located directly across from the old shaft that has been removed, and now located near the new shaft. Carpenters are busy remodeling it for the purposes of a general repair shop. Down on the lake bottom, on a grade upon which cars are run, a new shop for the electricians has been erected. The electric motors can be run out on the track from the shop.

No hoisting is being done at the old shaft and it is now used for the lowering of timber. Nearly all the old pockets and some structures south of the railroad track have been torn down. The ground in this vicinity, south of the railroad line, slants down toward the new caving-in, and appears as if it were likely to drop off at any moment.

THEY APPEAL TO OUR SYMPATHIES. The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by the People's Drug Store.

Misses Doyle and Anderson are again in the city and have opened a display of art needlework at Mrs. I. Ladd's. The newest things in the eyelid and Mount Melick embroidery, also in Cluny laces, are shown. The ladies are invited to visit the display. Lessons free. Stamping done. (8-2-1w)

Johnson & Rundman, painters, 109 North Second street, can do your paper hanging, decorating or painting promptly and at right prices. 'Nuf said.

ROBINSON STOCK TONIGHT. The Robinson Stock company, featuring Tim and Kit Leavens, both people and plays entirely new to theater goers of this city, will open a week's engagement this evening at the Ishpeming theater. "The Twin Sisters," a comedy drama in four acts, will be produced this evening, and tomorrow night "The Queen of Hearts" will be the offering. There are a number of specialty people with the company, there being no waits between the acts. Among the specialties will be songs, dances, moving pictures and illustrated songs. The prices will be ten, twenty and thirty cents. Ladies purchasing ground floor tickets will be admitted for fifteen cents tonight.

WILL PRACTICE LAW. August J. Moilanen, of Calumet, will open a law office in the Robbins block about the 12th of this month. Mr. Moilanen is a graduate of the law department of the University of Michigan. He was in the city Friday and Saturday.

MICHIGAMME WOMAN DEAD. Mrs. John Hanson, a resident of Michigamme for the past thirty years, died suddenly at her home there Saturday afternoon. The deceased was very well

known in the western end of the county as she conducted a boarding house at Michigamme for a number of years. Her nephew, Will Hanson, is a meat cutter in the employ of F. Braastad & Co. The funeral will be held this afternoon, with interment in the Michigamme cemetery.

ISHPEMING IN BRIEF. G. Aleary, of Racine, Wis., was in the city Friday. Jandek's cigar makers enjoyed an outing Saturday.

Born, yesterday, to Mr. and Mrs. Fred Sharland, a son. Frank G. Bedell, of Iola, Kansas, was here Friday and Saturday.

F. D. Orr, of Duluth, was in the city Friday and Saturday on business. Mrs. J. H. Quinn will leave this week on a boat trip to Lake Erie ports.

A girl was born Saturday to Mr. and Mrs. James Martin, North Main street. George Wilbur left Friday night on a short trip to Chicago and points in Wisconsin.

Miss Elvira Olsen left for Chicago Friday night, for a month's visit with friends. The Lady Macabees will hold an important business meeting at their hall this evening.

William Treblcock left Sunday evening for Washington, D. C. He will travel part of the journey by boat. William Leininger was called to Michigamme Saturday evening on business. He returned yesterday morning.

John McNulty, of the Soo, was in the city Saturday and yesterday, visiting with his sister, Mrs. E. J. Butler. E. M. Fowler, special agent of the German American Insurance company, was in the city Saturday, on business.

Miss Margaret Whiteside, of Hurley, Wis., is visiting with her aunt, Mrs. Thomas Robison, on Cleveland avenue. J. C. McLaughlin, of Muskegon, a member of the state tax commission, was in the city Saturday, visiting with Manville Jenks.

Mrs. T. J. Delahunt and two children have joined her husband here. They will start housekeeping as soon as they can procure a dwelling. Yesterday's excursion to Presque Isle was well patronized. The previous Sunday over 500 passengers were carried on the Lake Superior & Ishpeming Railway company's trains.

Captain Joseph Hodgson has returned from a trip of inspection to the Mesaba range. At Boyce he was the guest of John C. Greenway, who has charge of the United States Steel corporation's properties there.

Over twenty captains and underground bosses of the Cleveland-Cliffs Iron company of this city and Negaunee, spent yesterday at Grand Island and Munising. They went down Saturday evening, returning last night.

The Ishpeming City team and a team composed of Chicago & Northwestern railroad men from Ishpeming and Escanaba crossed lats at Union Park yesterday afternoon. The railroaders were defeated by the score of 4 to 6.

Hundreds of Ishpeming people spent yesterday in the woods. It was impossible for those who did not place their orders for carriages and busses the previous day to secure them. A great many went to the woods Saturday night, remaining until late evening. The street cars were crowded nearly all day, particularly during the afternoon and evening.

A HOPELESS FIGHT

It is as impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment faithfully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone becomes affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for awhile; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again. S. S. S. while eradicating the poison of the disease will drive out any effects of harmful mineral treatment. A reward of \$1,000.00 is offered for proof that S. S. S. contains a mineral ingredient of any kind. Treatise with instructions for home treatment and any advice wished, without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

To Colorado How to Go Let us assume that you have made a wise decision and are going to Colorado for your vacation this summer. The next question is—how to go? Right here is the answer: via Rock Island System. The Rock Island has put on a new morning train from Chicago—besides its two evening trains. The new one—COLORADO FAST MAIL—is the quickest one-night train to Denver and Colorado Springs, leaving Chicago in the morning (8.35 a. m.) The Rocky Mountain Limited leaving Chicago at 5.45 p. m. reaches Colorado next evening—the Colorado Express is two nights in transit. This season Rock Island-Colorado trains are resplendent with new equipment—electric lights, electric fans. A full score of new chair cars and coaches just placed in service. Go via Rock Island and GO IN STYLE—it costs no more. Low rates all summer (\$30 from Chicago)—away down on certain dates. You can return via St. Louis or Kansas City, if you like. Coupon below will bring Colorado book with list of stopping places. R. S. TORRINGTON, Trav. Pass. Agent, La Salle St. Station, CHICAGO. Please send me illustrated Colorado booklet and information as to service and rates via Rock Island System. Name: Address:

STREET RAILWAY IMPROVES PLANT

ALTERATIONS MADE IN NEARLY EVERY DEPARTMENT OF THE SERVICE.

NEW SYSTEMS ADOPTED

Old Dynamos Have Been Rebuilt and New Machine Installed—Cars to Be Rebuilt This Winter, and Other Improvements Made.

Improvements recently made at the power house of the Marquette City & Presque Isle Street Railway company promise to greatly improve service on the system in many ways.

The installation of six lightning arresters on the different lines of the company effectively took away with the practice of cutting the current during thunderstorms, and stopping the cars.

Dynamos Were Rebuilt. The improvement in operating the dynamo will probably be the most appreciated of all the changes.

Lighting System Improved. The new lighting system at the power house consists of a series of switch combinations producing current from any one of several sources.

ORGANIZED JANUARY 22, 1864. Designated Depository of the United States. First National Bank OF MARQUETTE, MICHIGAN. Capital and Surplus, \$200,000.00. Accounts of Corporations, Merchants and Individuals Invited. Special attention given and facilities offered to out-of-town customers.
