PRESIDENT FIGHTING ON

POSITIVELY SD TO BE IN DIRECT COMMATION WITH RUSSIANEMERIGN

New Proposition omitted, and Tokio Also Is Aed to-Reports Are Persistent Is an Obstacle to Urges the Czar N Yield.

St. Petersburg, 24-The correspondent of Reuttelegraph company was today authorized Foreign Minister Lansdorff to officially and in the most formal manner that Russia will pay Japan contribution, direct or indirect, nor to make any cession of territory ever.

St. Petersburg, 24-Foreign Minister Lansdorff at the Peterhof last night and discussed the emperor the communication of the Russian Emperor presented by Ambassador Meyer yesterday. The Emperor, on returning, told a friend he considered there was still hope for.

London, Friday, 25-The Portsmouth correspondent of the Post still insists that peace be concluded, and declares that Russia willing to pay \$50,000,000.

Desperate but Hopeless. Portsmouth, N. Aug 24-The prospect of peace is desperate, but not hopeless, despite prevailing pessimism. There is a chance and the forces working for are continuing laborers. This has failed twice, but he is on.

The result of Assador Meyer's audience at Peterhof yesterday was unsatisfactory, but at it was not a rebuff. It left the open, and within a few hours after receipt at Oyster Bay of Mr. Meyer's account of his audience the president had sent a new appeal through Mitte, who received it from Assistant Secretary of State Peire about 3 o'clock morning.

The Emperor lately in effect defined the proposition offered by Japan. He refused it because, under a disguise, an offer to withdraw the article regarding remuneration for the cost of the war.

Russia repurchase the island of Sakhalin at a fixed price of 1,200,000,000 yen. Every message received from Peire, including that which came early today, was indisputable that point.

Japan Willing to Recede. Japan, it is believed would make further concessions if Emperor Nicholas were to consent to this solution. This statement is based upon the words of Japanese authority most competent to speak. When asked if it was correct, reported that the Japanese had said it last word and a price, and it is believed, although this cannot be affirmed that his latest effort was to secure consent of the Emperor to accept Japanese proposition with the amendment to future adjustment.

ence to the principle of monetary compensation and the expenses of the war. The authoritative statement made to the Associated Press at Portsmouth, which in the same tenor was followed last night by a declaration from the official spokesman of the foreign office, made almost with the force of a formal communique, that under no circumstances and no disguises would the principle of indemnity be admitted, is accepted by the Russian public as final.

Brave Reports from Linvitch. The emperor's inflexible determination to continue the war rather than yield to a demand which is regarded as war-rantable only in the case of a vanquished nation, is strengthened by dispatches from General Linvitch in which he reports the strength of the Russian position and speaks favorably of the spirit and condition of his latest reinforcements and the condition of the front are reported as steadily arriving.

Vladivostok Impregnable. A competent military attaché of a European power who is acquainted thoroughly with the defensive facilities at Vladivostok has informed the Associated Press that the Japanese will find that fortress a harder nut to crack than Port Arthur, if they decide to break off the negotiations. This authority declares that the Japanese fleet will not be able to co-operate with the attacking army, except in the way of an ineffective bombardment of the sea front, as the mine fields and heavy artillery make it out of the question for big ships to run by the fortress and get in touch with the besiegers on the mainland.

160 SOLDIERS DROWN. JAPANESE TRANSPORT SUNK BY A BRITISH STEAMER IN THE INLAND SEA. Nagasaki, Friday, Aug. 25.-Noon.-The British steamer Harling and the Japanese transport Kingo collided at 10 o'clock last Tuesday in the inland sea. The transport was sunk, and 160 men were drowned.

MICHIGAN INVADED. YELLOW JACK NEAR GRAND RAPIDS-PATIENT A REFUGEE FROM NEW ORLEANS. Grand Rapids, Mich., Aug. 24.-A case of yellow fever has been discovered in Okemos county, ten miles from here. The patient is Godfrey Limburg, a telephone lineman, who left New Orleans a week ago last Tuesday.

RUSSIAN PEASANTS IN ARMS. Bloody Outbreak in Southern Provinces-Merchants Massacred. Odessa, Aug. 24.-Fresh agrarian disorders have broken out in the Elizabethgrad and Alexandria districts. Peasants are destroying property of land owners. During a village fair in Livovia, district of Veroneprowsk, a crowd of peasants attacked the merchants. After pillaging their goods, the peasants massacred number of merchants and mutilated others, pricking out their eyes and cutting off their ears. Cossacks arrived too late to save the village, which was completely devastated.

Minister of the Interior Resigns. St. Petersburg, Aug. 24.-The Emperor has accepted the resignation of M. B. Ruvinn, minister of the interior. Count Alexis Ignatiev, a member of the council of the empire and ex-governor general of Kiel, it is thought, will probably succeed him, although General Trepoif is mentioned as a possibility.

PRESIDENT ROOSEVELT HOPEFUL. Has Made Appeals to Both Belligerents, Now Awaits Developments. Oyster Bay, Aug. 24.-The crisis in the peace negotiations is approaching rapidly. Whether there is to be peace between Russia and Japan or a continuation of the war will be determined very likely within a few days.

President Roosevelt is awaiting developments. Beyond his direct appeal to Emperor Nicholas, he does not feel he can go further at this time. There are reasons for the statement that the president also has made some representations to the Tokio government, but whether they were made direct to the Japanese Emperor is not known.

Since he made his direct appeal to Emperor Nicholas, President Roosevelt has been hopeful that such efforts as he has felt proper to make to avert a failure of the Washington conference might not be futile. Today a report from Ambassador Meyer, at St. Petersburg, of his audience with Emperor Nicholas yesterday, received, and in addition some important advices from Portsmouth reached the president. They were regarded as so urgent that as soon as they were received in the executive offices in the village they were carried to Sagamore Hill by a messenger executive clerk. The utmost secrecy is maintained regarding the communications, not the slightest intimation of the nature of their contents being permitted to become public.

DROVE THE JAPS. Linvitch Reports Ousting the Enemy from Three Positions. St. Petersburg, Aug. 24.-The Emperor has received the following from General Linvitch, dated Aug. 22: 'Advanced Russian detachments, Aug. 20, drove back the Japanese from three positions. One detachment in the Zimche valley occupied Lagovitzky, another operated in the direction of Schimidzky, and a third dislodged the Japanese from a position southward of Mopeyschan. The three Russian columns drove the Japanese back to their positions near ports the republic of detachment of Sendjan.' NEGRO SUSPECT RELEASED.

Mystery of the Murder of Mrs. Mize More Dense Than Ever.

Chicago, Aug. 24.-The murder of Mrs. E. F. Mize is still unsolved by the police, and all former clues, including the case of centering around William Bracey, the negro arrested on suspicion, have been abandoned. Bracey was released last night after he had satisfactorily explained his whereabouts on the night of the murder.

HOCH'S CASE APPEALED. Bigamist Convicted of Wife Murder Will Not Die Today. Springfield, Ill., Aug. 24.-On order from Judge Magruder of Chicago, the clerk of the supreme court today issued writ of supersedeas, staying the case of Johann Hoch, convicted of murdering his wife and sentenced to be hanged tomorrow. The review of Hoch's case will come up at the October term of the supreme court.

SISTERS DIE A TROPIC. One Iowa Girl Drowns, Another Sustains a Fractured Skull. Fort Dodge, Ia., Aug. 24.-Pauline and Ida Metzner met death while picnicking near Humboldt today. Pauline fell into the Des Moines river and was drowned. Charles Nelson recovered the body, and was trying to climb ashore with it, when Ida Metzner, trying to assist, lost her balance and fell, striking her head on a rock and being instantly killed.

DETROIT SCHEME OPPOSED IN CANADA. RAISING BRITISH SHIPS SUNK BY PERRY MAY CAUSE COMPLICATIONS. DOMINION PAPERS STIRRED. OTTAWA GOVERNMENT URGED TO INTERFERE WITH THE WORK OF EXPLORERS.

Three of Four Vessels Sent to the Bottom in Battle on the River Thames in 1813 Are Already Located, and Plan Contemplates Their Removal to Belle Isle.

DETROIT, Mich., Aug. 24.-Questions arising from the famous land and naval battle of Oct. 5, 1813, may bring up a mild controversy between the United States and the Dominion of Canada government. It has been proposed to raise and remove to Detroit three British warships which were sunk in the River Thames during the engagement. Little opposition was encountered when the plan was first mentioned, but several dominion newspapers got in their work and now an effort will be made to defeat the removal of the vessels.

The remains of these once staunch war vessels were a part of the British fleet that attempted to resist Commodore Perry at Put-in-Bay. At that time the whole northwestern country, through the surrender of Detroit by Hull, had fallen into British hands. After the crushing defeat administered by Perry, the shattered remnant of the British fleet slipped to Detroit and was hastily pressed into service by General Proctor, who realized that safety lay only in flight. Four vessels were hastily loaded with arms, ammunition, stores, government papers and other plunder from Detroit and all speed made to Lake St. Clair. The little fleet took refuge on the Thames and in the battle which followed the ships were sunk. Tecumseh, the great Indian chief who assisted the British, lost his life, and Proctor, who escaped later, committed suicide.

Little Change at New Orleans. New cases 44 Total cases to date 1,600 Deaths 5 Total deaths 226 New Orleans, Aug. 24.-With the fever here coming steadily under control, and apprehension of a great epidemic no longer felt, the authorities are anxious to put restrictions against free intercourse between New Orleans and infected communities in Louisiana and elsewhere. This will be decided at a meeting of the state board of health tomorrow.

Another case of fever at Terre Aux Boeufs, the parish seat of St. Bernard, was reported today, bringing the total there to eleven. The disease is of a mild type. In the same parish, is, however, of a more malignant type.

VICTIMS IN MANY STATES. Alleged "Get-Rich-Quick" Concern Closed at Council Bluffs. Council Bluffs, Ia., Aug. 24.-Alexander Bushanan, secretary of an alleged "get-rich-quick" concern known as the Northwestern Trust company, was arrested here today on a charge of conducting an unlawful business. The office of the company was closed by the sheriff, who seized the records. The stockholders ask for a receiver.

The victims, several hundred in number, live all over Iowa, Nebraska, South Dakota as well as in other states. The president of the concern is Peter P. Jacobs, a farmer living near South Omaha. The company is not incorporated and no other persons than those two are known to be associated with it. The business was that of securing monthly payments for contract holders, who were to be furnished with homes when their term came.

BLOODY WARFARE FEARED. Rival Chinese Societies in New York Expected to Clash. New York, Aug. 24.-Extraordinary precautions are being taken by the police to prevent another outbreak of the bloody warfare which has been waged recently between the rival societies in Chinatown. Last night uniformed officers were thick in the crowded streets of the district and patrolmen were stationed about fifty feet apart along the principal thoroughfares.

Princinet detectives and private agents in the employ of the Chinese consul were everywhere. At the Chinese theater there was a performance given under a guard of five policemen in plain clothes and uniformed men on the stage, in the aisles and in front of the building.

Tragic Death Recalled. Sensational Story of Attempted Bribery in the Mrs. Stanford Case. Honolulu, Aug. 24.-The tragic death of Mrs. Leland Stanford has been recalled by a sensational story published here today to the effect that representatives of the Stanford estate practically offered monetary inducements to local physicians to change their opinion that strychnine caused the death of Mrs. Stanford.

San Francisco, Aug. 24.-Referring to the cable dispatch from Honolulu which intimated that efforts have been made by the Stanford estate practically to induce the autopsy surgeon and physicians who attended Mrs. Leland Stanford at the time of her death to modify their first statements regarding the poisoning, Attorney Wilson, representing the Stanford estate, and Detective Mulvaney deny that there was any such attempt.

Rock Island, Ill., Aug. 24.-James McKinney, Republican of Allede, was nominated for congress today to succeed Bl. F. Marsh, deceased.

The Portland exposition is being very
well attended. Up to Aug. 2 over 1,
000,000 people had viewed its wonders.
During the first two months the Buffalo
exposition, with a much more densely
populated country to draw on, attracted
only 1,203,236 people, and the attendance
during the same period at the Omaha
exposition in 1898 was only 611,935, or
60 per cent of the attendance at Port-
land. Within a radius of 500 miles from
Buffalo were 40,000,000 people, and the
Omaha exposition drew from 13,000,000
people in the same area. In a like
amount of territory there are tributary
to the Portland fair but 1,800,000 people,
a fact that makes the very large attend-
ance particularly significant. There has
been much travel from the east to
Portland. Exceptionally favorable rail-
road rates have been the means of in-
ducing thousands of people to make long

postponed trips to the coast, incidentally

evident that it has received the loyal
support of the people of Oregon and
neighboring states.

German municipalities are expressing
their discontent with the tariff on live
animals and meats by telegraphic ap-
peals to Chancellor Von Buelow. Thuringian
petitioners allege that prices are
40 per cent higher than they were ten
years ago and that the increase within
a year has been from 20 to 30 per cent.
Customs duties and the sanitary bar-
riers are credited with a large share of
the cause, and the conditions they have
brought about are immensely distasteful
to the German artisan and laborer,
whose protests will sooner or later have
to be heeded and weighed.

The disbandment of the Soo ball team
probably means that the Soo will cease
to become a factor in the one-time Cop-
per Country-Soo league. The franchise
is still retained at the Leek City, but
a franchise without a team is more or-
namental than useful. If a league organi-
zation is maintained in the copper coun-
try next year the iron country may
have a chance to break in. Good attend-
ance at poorly played and managed ball
games shows at intervals that baseball
interest in this part of the upper penin-
sula is at a high point, and is waiting
only for an opportunity to manifest
itself in support of a regularly organized
team. A league embracing three copper
country teams and one in Marquette
county would be a much more wieldy
and easily financed organization than
the now disrupted Copper Country-Soo
organization.

CUBAN ANTE-ELECTION METHODS.
Political conditions in Cuba do not
closely resemble those of this
country, but in one respect there is a
striking similarity between them. In
the course of a presidential campaign
"everything goes." To this fact may
be attributed many of the reports that
have reached the United States relative
to present and prospective conditions in
the island. The sensational dispatches
printed of late are quite likely to have
been inspired by one party or the other
engaged in what is Cuba's first real
election, for the elevation of President
Palma was chiefly the popular ratifica-
tion of a choice previously made in the
United States. The Liberals who are
now opposing Palma are taking a leaf
out of the political campaign books of
American parties in charging to his ad-
ministration all the island's real and
imaginary ills and in "viewing with
alarm" the calamities they are certain
will follow his reelection. On the other
hand published stories of the radical and
even revolutionary remarks and pur-
poses of his opponent, Gomez, probably
do not suffer in the telling.

There is at least one man in this coun-
try who has no doubt that all is well
in Cuba. He is Mr. Quesada, the Cuban
minister at Washington, naturally a
Palma adherent, who now comes out in
a most optimistic interview in which
he asserts that the financial, commercial
and social conditions of the island are
full of promise for the future. The
interview was plainly called forth by the
sensational reports referred to, and espe-
cially by the criticism of the action of
the Cuban congress in voting another
large loan to be applied to the pay-
ment of the Cuban soldiers. Political
as well as patriotic motives may have
been behind this legislation, but even
if so the fact should cause no surprise
in a country where lawmakers have nev-
er shown themselves blind to the im-
portance of the old soldier vote.

All things considered it will be well
for Americans not to despair of the new
island republic by reason of trusting too
implicitly reports sent out from its capi-
tal in the heat of a presidential cam-
paign, even though these may seem more
damaging to the country than any
political party in it. Every four years
the people of the United States hear it
solemnly avowed in congress and from
the stump that one half of the American
people are bent on misruling the other
half. It may be much the same in Cuba.

DETROIT TRIBUNE ABSORBED.
This week has brought announcement
of an important change in the Detroit
newspaper field. The Tribune is ab-
sorbed by the News and the name of the
combined paper is to be the Detroit
News, an afternoon publication with an
early morning edition. The Free Press
is to be left the only paper of impor-
tance in the morning field. The Detroit
News is to be given all the good fea-
tures and strong men of both the former
Tribune and the afternoon News, and
will be sent to subscribers of both pub-
lications. The consolidation will have
the effect of making the News, the paper
whose identity is to be preserved in
fact, a much stronger and more influ-
ential publication than before, and one
of the finest newspaper properties in the west.

The absorption of the Tribune occa-
sions no particular surprise in news-
paper circles, as it was foreseen and in-
evitable. The Tribune has had a check-
ered career, at no stage of which it has
made money in sufficient amount to en-
title it to be called a good property,
and most of the time the balances have
been on the wrong side of the ledger.
It has been under a succession of own-
erships and has expressed from time to
time very varied shades of political opin-
ion, local, state and national. The past
nine months have seen an energetic at-
tempt to rejuvenate the property, under
the able management of Ralph H. Booth.
The paper was spruced up, its features
increased and its editorial staff strength-
ened. The attention given the paper
was reflected in its improved and newsy
appearance, and it was made a very cred-
itable publication. Yet it appears that
its earmarks of prosperity were mis-
leading, for had it been a financial suc-
cess this week would not have seen for-
mal announcement of the plan to con-
solidate it with the News. The aban-

donment of the Tribune is a sequent
announcement of the failure of the effort
to give it a new lease of life. This
failure is not chargeable to the hands
that it has been in. The paper has
been excellently managed and edited,
and would have been pulled through
had that been possible. Its hoodoo fol-
lowed it, however, and doubtless the
decision to consolidate it with the News
is a wise one.

The readjustment of the Detroit news-
paper situation finds the city pretty
well supplied with papers. The Free
Press will take care of the dignitarily
morning field most creditably. The De-
troit News will be all that the Evening
News has been, and then some, and it
is safe to predict that the Journal
will not lag behind in the procession.
The Detroit Times and other publica-
tions contribute to furnish Detroit abun-
dant means for keeping abreast of the
times. All shades of opinion are rep-
resented, and as a whole, well represent-
ed. For the consolidated Detroit News
there should be a large field of useful-
ness.

Joseph Webber and Mary Culligan, of
Winters, will be married at the par-
sonage of the Sacred Heart church Friday
morning, announcement of the approach-
ing nuptials having been made last Sun-
day.

W. M. Langley expects to leave this
week for Portland, Oregon, called there
by the serious illness of his sister, Mr.
Langley will be absent but a short time,
but will again visit the west with the
view of finding a suitable location to
engage in business.

Andy Herron has moved his liquor
store from the Clark hotel to the Levy
building on Superior street, formerly oc-
cupied by Geo. McCann. The Clark
house has not been rented, and it is not
known who will occupy the place. T. G.
Sullivan, owner of the building, is ex-
pected here this week.

A new twenty-ton Lima locomotive, to
be used by the C. H. Webster, formerly oc-
cupied by the Munising railway, arrived
here Wednesday, and will be
stored in the railway yards until such
time as it will be needed by the com-
pany. The engine is a strikingly in-
novative design, and attracted no little
attention while standing on the side-
tracks near the freight depot.

The new pipe organ at Sacred Heart
church was dedicated Tuesday evening,
by an interesting musical program, and
a lecture by Rev. W. J. Bucholtz, of
Ironwood. The attendance was large,
and Father Bucholtz was accorded a
splendid reception by his former parish-
ioners. His subject was "The Song of
Salvation," and was delivered in his
usual forcible style. Miss Elizabeth
Cox, of Ishpeming, and Mrs. Jay Conry,
of this city, rendered vocal selections,
Miss Cox's numbers were "Ave Maria"
and "Happy Days." She is possessed
of a singularly sweet voice, and Mrs.
Conry shared the honors of the
evening. A violin obligato by Frank
Trombley, of Ishpeming, was received
with favor by the audience, and was
recalled for an encore. The Sacred
Heart choir gave their "Arias" from
Rossini's mass in excellent manner. The or-
gan dedicated was recently purchased
from Lyon & Healy, Chicago, and was
installed three weeks ago. It is a fine
instrument, and cost the maker \$500 to
build.

There is no longer any doubt regard-
ing the organization of an agricultural
association in Alger county. The papers
incorporating the society were forwarded
to Lansing last week, and committees
appointed to look after the work of
organizing for the first exhibition to be
given the last week in September. The
officers elected were George Wilson,
president; Edwin Nimness, secretary; H.
A. Holden, treasurer. Arthur Ward, H.
B. Freeman and F. L. Baldwin were
elected as an executive committee. It is
probable that a site for the fair grounds
will be chosen at an early date, but as
yet the committee has made no decision
in the matter. The names of the incor-
porators of the association are as fol-
lows: A. Ward, C. H. Schaeffer, L. M.
Geismar, H. A. Holden, Wm. Leighton,
R. E. Schneider, C. C. Brown, E. M. John-
son, A. O. Jopling, A. Swanson, J. G.
Gibson, C. A. Gogarn, Robt. Gogarn, C.
A. Tester, F. J. Carrier, Geo. Wilson, Jos.
Pelissier, J. T. Thomson, C. D. De-
Witt, W. Tenary, F. L. Baldwin, Edwin Nim-
ness, H. B. Freeman, M. D. Viou, John
Levy, Andrew Herron.

CURED OF BRIGHT'S DISEASE.

Mr. Robert D. Kinross, Saratoga Co., N. Before I began it had not taken me so long each night to relieve my bladder. I was all bloated up with dropsy and my eyesight was so impaired that I could scarcely see one of my family across the room. I was so badly used up that I had given up hope of living when I was urged by a friend to try FOLEY'S KIDNEY CURE. One six-cent bottle worked wonders, and before I had taken the third bottle the superfluous flesh had gone, as well as all other symptoms of kidney trouble. My friends were surprised that I was cured, as they all thought I was going to die. UNUSUAL SERIES OF EVENTS.

Golden Wedding, a Marriage and a Christening All in One Family.

There was an unusual series of events at the home of Mr. and Mrs. William H. Roberts, Sr., of the Quincy addition, Wednesday, when the aged couple celebrated the fiftieth anniversary of their marriage. In connection with the golden wedding celebration, William H. Roberts, Jr., son of the couple, was united in marriage to Miss Catherine Vass of Big Rapids, Mich., while immediately following the nuptial ceremony a double christening took place. The children baptized being a daughter of Mr. and Mrs. Donald McDonald of Hancock and a daughter of Mr. and Mrs. Henry Roberts of Painesdale, both grand children of Mr. and Mrs. Roberts, Sr. Rev. W. J. Balmer, pastor of the Hancock M. E. church, officiated at the marriage and christening ceremonies. The baptism of the children was followed by a sumptuous wedding dinner. Elaborate decorations added splendor to the occasion.

SEEKS FRANCHISE AT LAURIUM.

If Given Gas Company Will Extend Its System to Lake Linden.

Whenever a franchise is secured from Laurium, the Portage Lake Gas & Coke company will extend its system to that village, touching at Dollar Bay, Hubbell and Lake Linden enroute. This is the substance of a statement made by Robert H. Shields, a director of the company. E. T. Berger of Detroit, one of the promoters and owners of the company, was here this week, and it is understood that an effort will be made to secure the desired permission at Laurium with a view to an early commencement of construction work.

FRANCHISES BEING SECURED IN LAKE LINDEN AND HUBBELL.

Franchises have been secured in Lake Linden and Hubbell and the company has received assurances of patronage from people all along the proposed route.

FRANCHISES BEING SECURED IN LAKE LINDEN AND HUBBELL.

During the next few months Director William E. Robinson will introduce several new features in the Calumet & Hecla band. The most important and the one that will be likely to please the most will be singing by the members.

WHEN DIRECTOR ROBINSON HAD A CHARGE OF TWENTY-FOUR VOICES AND INVARIABLELY USED THIS CHOIR IN RENDERING SOME OF THE BAND SELECTIONS.

Among these selections was "A Hunting We Will Go," which is one of the finest ever written. The instrumentalists imitate animals and birds as they start on the morning's search for food. Later in the piece the bugle call is heard for the meet of the dogs. The audience are then carried in imagination to the cry of "Tally ho," and the hunt is heard with astonishing distinctness. This is followed with the "Kill." Later the echoes are faithfully portrayed, a cornet in the band being sent to some remote corner to repeat faintly the call heard from the band stand. It is realistic in the extreme, and Director Robinson hopes to some day produce this charming piece.

MUCH BUILDING.

Copper Country Towns Experiencing a Boom in This Line.

Calumet continues to enjoy an active building boom. Several large buildings are rapidly nearing completion, and work on others in the residential district especially is being commenced. Architect Charles MacFarland has purchased a lot on Tamarack street, near Third street, Laurium, and will shortly commence the erection of a home for his own occupancy. It will be a two story frame building containing about ten rooms, and will cost approximately \$6,000. Ground has already been broken for a home which ex-Sheriff Joseph Willis will build in Laurium. Mr. Willis originally intended to have a frame building, but last week decided to build with brick. His house will cost about \$11,000, the plans calling for a structure which will greatly add to the beauty of Laurium's residential district.

REWARD OFFERED FOR BODY.

Waldo R. Eaton of Cambridge, Mass., brother of Harry W. Eaton, who was drowned in Lake Superior last Saturday, has arrived in the Copper Country. The search for the body so far has proved fruitless. Rewards have been offered and the shore for miles on either side of Gay is being patrolled daily. The diver employed has made a number of trips to the bottom of the lake, but not a trace of the remains has been found.

COOPER QUITS HANCOCK BOARD.

Resigns Membership as Result of Illness—Temperance People Heard.

James R. Cooper has tendered his resignation as a member of the board of public works of Hancock, and it was accepted by the council Wednesday night with regret. The city clerk was instructed to convey to Mr. Cooper the council's appreciation of his services, and his sympathy with him in his present condition.

THE COUNCIL RECEIVED SEVERAL PETITIONS, AMONG THEM FROM THE HANCOCK CONGREGATIONAL CHURCH REGARDING THE TEMPERANCE MOVEMENT RECENTLY INSTITUTED.

"We, as members of the Congregational church of Hancock and worshippers in that church, wish to put ourselves on record as believing in the enforcement of the law as one of the fundamental elements of our national permanence. We believe the laws for the regulation of the sale of intoxicating liquors are violated in Hancock and we would urge our police officers to a more careful surveillance of these offenders and an enforcement according to the spirit of the law. We pledge them our active moral support in whatever sincere effort they may make in this line." Rev. J. S. Gould, pastor of the church, presented the resolution and spoke in favor of its enforcement.

Calumet an odd town.

Up in the copper country is the oddest town in Michigan, writes a newspaper correspondent who recently visited here. It is odd in the cosmopolitan character of its 20,000 inhabitants and positively startling in the matter of its police protection. The name of this town is Calumet and it is by far the largest city north of the Straits of Mackinac and is situated in a township which pays more taxes than any other township in the state outside of Detroit. Embraced in the 20,000 of its population are thirty-one nationalities. About every race and nationality on the globe has its representation.

LAWSON MAKES HIS REPLY.

"Unwinds" the Skein of "Facts" Regarding the Copper Range Controversy.

In a rejoinder to the charges of fraud brought against himself and A. C. Burrage by the bill of complaint filed in the suit against them by Paine, Webber & Co. in the Copper Range case, Thomas W. Lawson has issued a long statement in which he gives his version of the history of the Copper Range-Trimountain deal.

LAKE COPPER GOSSIP.

Sinking at Centennial No. 1 shaft has reached the twenty-ninth level. The Osceola mines are now supplying about 2,500 tons of rock daily, which establishes a new record. The Rockland shaft at the Michigan mine is being rapidly unwatered and will soon permit investigation. The copper output of this district for August will be about 10,000 tons, figures which have never heretofore been reached. Superintendent Van Orden of the Wyandotte mine reports that the east drift on the Winona lode is in excellent shape. The heavily mineralized portion of the vein is only a few feet wide, it seems to be widening as the miners drift east. If it holds its richness it certainly will be of great value. The policy of the Rhode Island company management is to let the Tecumseh on the north and the Franklin Junior on the south explore the Kearsarge lode, which is known to underlie the Rhode Island property, and if this lode is found by the adjoining properties the future of the Rhode Island will then be determined by what is found by its neighbors. It has a shaft down 1,100 feet and keeps about twenty-five men at work. Present operations are on the Pevabie vein, but this vein is not very promising at the present depth and the future of the property will be in the Kearsarge lode. The company has about \$400,000 cash in its treasury. Sinking is in progress from the 500-foot level at the Elm River shaft on the Winona lode after having been suspended since the late fall of 1903, about eighteen months ago. In the preceding June all energy was given to the Elm River shaft, which had been centered at this shaft, which was 100 feet deep and which had been idle for quite a period. The encouraging results secured by the Winona on the same lode prompted the management to this policy. It was found that the lode had caused it to leave away from the line of the shaft, which consequently proceeded in the footwall. Between the 400-foot and 500-foot levels the lode was found to be a few feet from the place indicated by the bloodhound. Apple Crop Poor—Magnus Nelson, a well-known farmer of Menominee county, says that the apple crop in that district will in no way come up to the crops of former years. He gives as the reason for this the cold, late spring and the heavy rains since, which either rotted the blossoms or else spoiled them just as they were forming into fruit. Mr. Nelson has made a success of apple growing where a large number of other farmers have failed. When it was said that good apples could be grown in the upper peninsula, lower Michigan fruit farmers ridiculed the idea, but Mr. Nelson planted his young

'THE GIRL FROM KAY'S.' Eastern Attraction Will Play Here Next Wednesday.

Possibly the most important musical comedy production asking the attention of the public is 'The Girl from Kay's', which is now headed this way. Its large company includes Bobby North, whose hit in the piece has been pronounced. The comedy will be presented at the opera house Wednesday, Aug. 30, with its original cast, costumes and settings. To Owen Hall is credited the work of supplying the book of the comedy, and to Ivan Caryll that of furnishing the music. At the Apollo theater, London, the comedy had its original production, remaining there over two years. The American production was unfolded in New York last year and made such an impression that it remained there for nine months. The Boston engagement, which opened early in September and lasted six weeks, was tremendously successful. The work is said to contain all the elements so much liked by the audience: spirited scenes, scores of well-wrought music, a consistent story, and a plot of the highly rollicking order. In addition there is a cast that contains the names of many people of acknowledged cleverness. Mr. North's portrayal of a wealthy English cad who imagines that his riches are sufficient to gloss over his arrogance and shortcomings, is said to be one of the most comic impersonations seen on the stage in years. Heading the cast is Lila Blow, who is seen in the title part, and whose songs are among the comedy's most entertaining features. The comedy was during the three acts of the piece described as being of great beauty.

SCHOOL ELECTION. Notice is hereby given that the annual election of trustees of the public schools of the city of Marquette, will be held on Monday, September 4th, 1905, at the city hall in said city, at which election two (2) school trustees will be elected for the term of three (3) years.

The polls of said election will be open from 8 o'clock a. m. until 8 o'clock p. m. of said day. The annual meeting for said public schools will be held at said city hall, on said day at 8 o'clock p. m. for the transaction of such business as may lawfully come before such meeting. Dated August 22nd, 1905. By J. R. VAN EVERA, Secretary.

City Brevities

Today's weather: Fair and cooler; fresh northerly winds. Yesterday's temperature: Seven a. m., 59 degrees; noon, 64; 7 p. m., 60. Maximum, 66 degrees; minimum, 57.

Arthur Ward, of Munising, was in the city yesterday. George D. Arnold of Escanaba was in the city yesterday.

Captain John Trebilcock, of Winthrop, was in the city yesterday. Mrs. Theo. Wolfe left yesterday for Milwaukee where she will visit friends.

Mrs. Hugh Montgomery, of Chicago, is a guest at the home of Mrs. E. N. Breitung. E. S. B. Sutton of Sault Ste. Marie is here for a few days on a business mission.

Miss Marie Fisher, of Chicago, is visiting at the home of her sister, Miss Virginia Fisher.

Dr. L. S. McArthur, of Chicago, is visiting in the city as the guest of Harry G. Kaufman.

Miss Catherine McLaughlin, of Lake Linden, is the guest of her uncle, John McLaughlin, West Bluff street.

Mrs. R. S. Donaldson and children have returned from Colorado, after an absence of two months.

Miss Grace Harris, formerly of Marquette, now of Seattle, Wash., is visiting relatives in the city.

Mr. and Mrs. Otto Young, of Chicago, are visiting at the home of their daughter, Mrs. L. G. Kaufman.

H. S. Powell, of Duluth, who has been in the city for the past two days, left yesterday for his home.

The ladies of the Baptist Aid society will meet with Mrs. Cavis, East Hewitt avenue, at 3 o'clock this afternoon.

Mrs. Albert Breitung, of Chicago, arrived yesterday for a brief visit at the home of Mr. and Mrs. N. M. Kaufman.

Miss Jennie Broad, librarian of the Carnegie library, Ishpeming, left yesterday for her home after visiting here for a week.

Robert Emmet Burke of Chicago, accompanied by his wife and son, are sojourning in the city, having arrived yesterday morning.

F. S. Childs and wife, D. Government, E. A. Haire and wife, and Mrs. W. A. Smith, compose a party of Kalamazoo people now sojourning here.

Thomas M. Sambrook left yesterday for Champion where he will join a week's sport on the trout streams of that locality.

A. E. Cranage, of the Chicago Tribune, is spending a week in the city on business for the paper. The Tribune has a corps of men in the peninsula working for the circulation department.

Made Fine Catch—Henry E. Kellan, deputy game warden, made a fine catch of trout yesterday at the Chocoma river, six of the fish weighing nearly ten pounds.

Policeman Weds—John Schrandt and Miss Minnie Anderson were united in marriage Wednesday evening. Mr. Schrandt is a member of the city police force. The couple will reside on West Ridge street.

Distemper Is Epidemic—Many horses in the city are affected with distemper, said to have been introduced in this locality by animals recently imported from other states. The disease spread to nearly every livery stable in the city and many horses owned by private parties are also afflicted. None of the

cases are considered serious, but liverymen and horse owners are experiencing trouble in treating them.

Improvements at Lakewood—H. R. Patrick, observer at the Marquette station of the weather bureau, has completed a summer cottage at Lakewood, the new resort near Harvey station, making the sixth to be built there this season.

Otto Tuch has finished packing his household effects preparatory to shipment to Duluth, which will be the future home of the family. Mr. and Mrs. Tuch will leave today. The household effects of the Rivers family were also shipped to Duluth yesterday.

Excursion to Presque Isle—The Epworth League and Sunday school of Winthrop will picnic at Presque Isle tomorrow. The excursion party will consist of 300 people, and they will arrive in the city, but no trace of the boy thus far will be in waiting on the arrival of the train to take the excursionists to Presque Isle.

Boy Is Missing—The twelve-year-old son of Mrs. Minnie Reese has been missing from his home, 207 Crescent street, since Monday. Diligent search was made in the city, but no trace of the boy thus far has been found. It is thought that he is at Ishpeming or in some of the near-by towns, and the officers in the county have been notified to apprehend the youth.

Jury Acquitted Morgan—Thomas Morgan occupied last week on the charge of using abusive language to Mrs. Agnes Poole, a former tenant, was tried yesterday before a jury in Justice Gray's court. Nine witnesses were sworn for the defense and prosecution, and the trial occupied the entire afternoon. The jury returned a verdict of not guilty.

Shows Signs of Improvement—August Swenson, an insane man who was found standing in the Chocoma river last Monday morning by Sheriff Rough, shows signs of improvement, and the officers are of the opinion that he may yet regain his reason. His case was on a protracted spree, and it is thought that over-indulgence in alcoholic stimulants is the cause of his mental disorder.

Grand Rapids Tourists Here—A party of Grand Rapids tourists arrived yesterday on the steamship Junonia, of the Anchor line, and will remain in the city for a week. The party is composed of the following persons: Clyde J. Holmes and wife; Dr. and Mrs. E. B. Crandall; M. B. Wheeler and wife; Frank G. Holmes and wife; G. W. Holmes and wife; James Ramsey; R. H. Updyke; Obed Nichols and Theo. O. Williams.

Prison Team Defeated—The Marquette baseball team defeated the branch prison team yesterday in a fast game, by a score of 3 to 1. The "insiders" put up a good game, but could not hit Scholtes, the Marquette pitcher, when hits were needed. It is probable that the teams will meet again on Labor Day, if arrangements can be made for the game. The game scheduled for Saturday afternoon and evening between the Marquette and Cherokee Indian team was cancelled by the latter yesterday. Arrangements will be made to have the Indians here next month.

Awarded Four Prizes—The prizes offered to four persons selling the greatest number of tickets for the St. Jean Baptiste fair were awarded to the following persons: Mrs. W. H. Morse, out glass berry dish and tray; Miss Rose Godette, gold chain watch; John Vachstein, round trip ticket to Montreal; Louis Levasseur, silver loving cup. The attendance at the fair is large, and the receipts at this time fully up to the fair held two years ago. Fraternity Hall is decorated tastefully for the occasion, large streamers to which are attached colored lanterns and lights, reaching from one end of the hall to the other. There are six booths at which various articles are sold, being provided

over by the following societies: St. Genevieve's Guild, the Sodality, St. Monica's Guild, the Blessed Virgin Sodality. The fair will continue until the end of the month.

County Roads System—It is probable that the board of supervisors at the meeting to be held next month, will take up the matter of county roads, and take the initial steps looking toward putting into effect the provisions of the special act passed by the legislature for this county. By the terms of this act, a board of county road commissioners is created, the duties of the members being similar to that of boards of public works in cities. The commissioners are elected by the board of supervisors, and the term of office is three years, except in the cases of two of the first three appointees, whose term shall be one and two years respectively. Each subsequent year a new member is appointed for three years, which will make the term of office of one member expire every year. The commissioners may expend the sum of \$10,000 yearly on highways, without authority of the board of supervisors, and a greater sum, the supervisors concurring. All work done at county expense is under the supervision and direction of the commissioners, who also have power to employ competent superintendents to look after the work. The originators of the new law contend that with the amount of money wasted annually on county roads by incompetent pathmasters and highway commissioners, a first class system of highways could be built. The law when passed was given immediate effect, after it received the signature of the governor.

EVANGELISM IN FACTORIES. Young Women's Christian Association at Work in Many Cities.

Williams Bay, Wis., Aug. 24.—Dr. Anna Marion MacLean, of the University of Chicago, addressed the Young Women's Christian association conference today on the present industrial conditions of women in the United States. Various cities reported varied activities in the factories. Rockford, Ill., has regular Bible classes in factories. Milwaukee was the first city in the country to call a secretary to work wholly among young women in manufacturing institutions. This work has since been taken up in Chicago, Omaha, Des Moines, Sioux City, Grand Rapids, Rockford, Cedar Rapids and many other cities.

BANKRUPTCY LAW ENDORSED. Repeal of the Statute Proposed by the American Bar Association.

Narragansett Pier, Aug. 24.—An address entitled "The American Lawyer," delivered today by Alfred Hemeway of Boston, in which the speaker touched upon many topics of interest to the legal profession, was a feature of the second day's session of the American Bar association. The recommendation of the committee on commercial law that the association oppose the repeal by congress of the present bankruptcy law was adopted. The minority reported the adoption of a resolution which proposed two specific remedies for unlawful combinations which may threaten commerce, one being the extension of the equity jurisdiction of the Sherman anti-trust law, the other the taxation of corporations at an increasing rate in proportion to the capital added.

WILL HOLD FIELD DAY.
Cleveland-Cliffs Company Men Will Have Meet at Union Park.

The Cleveland-Cliffs iron company will have a field day for its employees at Union Park on Labor Day. All employees will be given an opportunity to compete. In the morning two baseball teams, composed of men employed at the Hard Ore and the Negaunee mines, will play a five inning game. In the afternoon at 1 o'clock representatives of the Cliffs Shaft and the Lake mine will also play five innings. The winners of these games will play at 3 o'clock, in a nine inning game.

The other sports for the afternoon are: Baseball throw, shot put and tug-of-war, hundred yard dash, for pumpmen, shift bosses and timbermen. The big feature will be the hand drilling contest. A down hole will be drilled, the men to drill double and the time allowed for drilling will be ten minutes. The judges for this event will be: William Quayle, Sam Mitchell, William Carlson and Captain Anderson. A prize of \$125 will be given to the winners; second prize, \$10.

Other athletic events will be: Two hundred and twenty yard dash, three-legged race for fifty yards; sack race; pole vault; running high and broad jump; standing long and high jump and one-half mile bicycle race.

MINING INSTITUTE.
1905 Meeting Will Be Held Oct. 17 and 18 on Menominee Range.

The officers of the Lake Superior Mining Institute have decided to hold this year's meeting Oct. 17 and 18 in Menominee range, toward and north of the mine on the range, also the paper mill at Niagara, and possibly Escanaba and Gladstone.

It will require the greater part of two days to visit the principal mines in and near Iron Mountain, Crystal Falls and Iron River. It is now five years since the Institute met on the Menominee range, and a number of changes and improvements have been made in that time. At Escanaba the Institute from the company's new ore crusher will be visited, and at Gladstone the Cleveland-Cliffs iron company's furnace will be seen.

There are about 400 members in the Institute, and Mr. Yungbluth said that the officers expect at least 300 to attend the meeting. The program, transportation arrangements and other particulars will be announced as soon as the officers have definitely decided on them.

FALL EXCURSIONS.
South Shore's Annual Autumn Trips Occur on Sept. 16 and 17.

The Duluth, South Shore & Atlantic will run its annual fall excursions to Toronto, Toledo, Cleveland and Buffalo this year on the 16th and 17th of September. The tickets will also be sold to Alpena, Harbor Beach and Port Huron at the rates offered to Detroit, and will have the same return limit. Tickets will be sold from Ishpeming and Negaunee to Detroit and return for \$7, and the return limit will be the steamer leaving Detroit Friday, Oct. 6.

The journey from here to St. Ignace will be made by train and from there to Detroit on the Detroit & Cleveland Navigation company's steamer City of Alpena. The cost of living on the boat are berth, \$1 for the upper and \$1.50 for the lower; the whole room accommodations three people and costs \$2.50. Meals are served at 75 cents each.

For excursionists wishing to go to Toledo the fare will be 50 cents higher than to Detroit and to Buffalo \$1.50 higher. The trip from Detroit to Buffalo will be made on the new steamer, Eastern States and Western States. The return limit to Toledo will be the day previous to the return limit authorized for the Detroit tickets. The tickets for Buffalo will be valid for return passage up to the day prior to the last day of departure from Detroit.

SMALL FIRE AT THE HEMATITE.
Fire at the miners' changing house at the Oliver company's Hematite property was the occasion of an alarm which summoned the city department to the scene shortly before 1 o'clock last night. The blaze was quickly quenched. The loss is small.

OUR NEW MINISTER.
Plays may come and plays may go, but the character play, "Our New Minister," which Ishpeming sees at the theater on Tuesday, Sept. 5, is one of those plays that once seen is never forgotten. It is playing everywhere in packed houses and achieving that just need of recognition which it deserves. The original New York star cast will be seen.

Iron Notes

Rumors are in circulation on the Gogebic range to the effect that the old Iron Belt mine location has been leased or optioned and that operations will soon be started. Reports are also current that the old Shores property, which joins the Iron Belt on the west, is to be reopened and developed.

Ore is not moving fast enough from the head of the lake to take care of the fleet. As an illustration of the way the ore carriers are bunching, the steel corporation one day this week had eighteen vessels at the docks at Two Harbors and twenty-two were at Duluth docks. Chartering is light all around at the old rates.

A telegram was recently received at the Vivian mine at Quinnesec, to cease all operations until next spring and send the men to the company's mines at Stambaugh. Out of over a hundred men only two were willing to go, and the management promptly sent word to resume operations. The mine was idle less than thirty minutes.

Three stripping companies, Drake & Stratton, Winston Bros. & Dear and the Wallace Contracting company, operating on the Mesabi, have advanced wages of common labor from \$1.75 to \$2 a day. The advance was voluntarily made by the companies and is an indication that common laborers are becoming scarce, many of them going to the harvest fields.

The next meeting of the Lake Superior Mining Institute will be held beginning about the 17th of October. The program will probably include a trip to Republic to the Menominee range, Escanaba and to Gladstone. The finances of the Cleveland-Cliffs company should be in blast by that time, and the crushing plant of the Steel corporation will be active at Escanaba. The Niagara paper mills may also be visited. It is the intention to have a good, old-fashioned meeting that will be enjoyable and instructive. Secretary A. J. Yungbluth is already making plans with this object in view.

The Lake Superior Corporation has a crew of men at work in Michipicoten engaged in again opening up the Josephine iron mine. The work is being done under the direction of the company's metallurgist, Professor A. B. Willmott. The reopening of the Josephine is in accordance with the announcement made by company officials some time ago that an endeavor would be made to use as much Canadian bessemer ore as possible at the steel plant. The Josephine is considered one of the most valuable mining properties in the possession of the Lake Superior Corporation apart from the Helen mine. It is located on the Algoma Central Michipicoten branch, about ten miles from the Helen mine.

The Pewabic Mining company has abandoned its exploratory work in 49-19, Florence county, Wis., after carrying on operations with a diamond drill the past five months. The tract is located about seven miles east of Florence. The surface indications were excellent, there being an abundance of red strata mixed with lean ore, but at no great depth only green rock was encountered, and the company finally decided the outlook for ore to be too discouraging to warrant a further continuance of exploratory work. The diamond drill outfit has been moved to a point near Ragsville, where the Pewabic people intend testing a tract of land which the Josephine is now exploring. The company will explore its lands in the vicinity of Keyes Lake, four miles southwest of Florence.

Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE
Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant, but simply because it is the most wonderful tonic and reconstructive ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties. My oldest daughter found it very beneficial for uterine trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength."

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular menstruation, bloating (or flatulence), leucorrhoea, falling, inflammation or ulceration of the uterus, ovarian troubles, that bearing-down feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, at Lynn, Mass., for further free advice. No living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

LIVED IN DULUTH.
Manager of "Girl from Kay's" Worked in Zenith City Fifteen Years Ago.

A. M. Miller, one of the owners of the musical comedy, "The Girl from Kay's", which is to have its first presentation in this region in a few days, is an ex-newspaper man of Duluth, and speaks interestingly of his experiences as a show man since his departure from the Zenith City some fifteen years ago. Mr. Miller was a member of the editorial staff of every newspaper in Duluth during his residence there, and followed the natural drift into the theatrical business as press agent for Jacob Litt's attractions. Eventually he became a producer on his own account, and has found almost every country on the globe in that capacity.

When "The Girl from Kay's" was imported from London two seasons ago Mr. Miller was given charge of the attraction, and last spring took the company to Australia for a fifteen weeks' engagement. Perhaps no musical comedy has covered such a vast territory as "The Girl from Kay's", and certainly not had enjoyed such remarkable runs. It was first given to the public at the Apollo theater in London, where its success was so pronounced that the engagement continued two years. Afterwards it came to New York and played at the Grand Square theater continuously for ten months. This season the play visits the smaller cities. It is presented on the northern Michigan circuit enroute to California, where it is booked for the month of October.

Mr. Miller told a Mining Journal representative that The Mining Journal looked to him like an old friend, as it was one of his favorite exchanges during his newspaper career in Duluth. He says that he views with wonder the vast improvement in the northern cities, and asserts that in all his travels he has never encountered a more salubrious climate or more pleasant people than are to be found on the shores of the great unsalted sea.

HOPKINS' CURB LETTER.

The Wallace Hopkins company had this to say in its market letter yesterday:

"All attention seems to be centered in the Boston market, and in consequence the curls are rather inactive, but sets will be sold from Ishpeming and Negaunee to Detroit and return for \$7, and the return limit will be the steamer leaving Detroit Friday, Oct. 6.

"The directors of the North Rutbe Mining company today declared an initial dividend of fifty cents a share, payable Sept. 30 to stock of record Sept. 12.

"Mr. Miller today with practically no stock coming out. Pittsburgh & Duluth and Calumet & Pittsburg were quiet, with a moderate trade. Calumet & Arizona failed to come out on bids of 100."

DEAFNESS CANNOT BE CURED
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an indurated condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SPENT NIGHT IN WOODS.

Two Escanaba Women Were Lost Wednesday Near Swaney.

Mrs. Fisher, wife of John Fisher, engineer on the Chicago & Northwestern passenger train running between Green Bay and Ishpeming, and a woman friend from Escanaba, were lost Wednesday night in the woods near Swaney.

When the train arrived at Swaney on the return trip the women were not there. They had told Mr. Fisher that they would take train at that station, and as they had not been seen at any time during the day he came to the conclusion that they had strayed away and were lost in the woods.

Yesterday morning, before word was received in Negaunee that the women had been found, friends of Mr. Fisher were preparing to assist in the search.

MARRIED WEDNESDAY EVENING.

Miss Victoria Collins, youngest daughter of Samuel Collins, and Thomas Hartley, a popular young mining man of Crystal Lake, were married Wednesday afternoon at 4 o'clock, at the home of the bride's parents.

LOCAL LACONICS.

Rev. H. A. Dorland of Columbus, O., was a Negaunee visitor yesterday.

S. O. Clinton, superintendent of the Baraga schools, is spending a few days here.

John McCarthy, a prosperous farmer from Little Lake, was here on business Wednesday.

E. C. Anthony received a large brook trout from a friend at Sault Ste. Marie yesterday.

The barber shops of the city will close at noon Labor Day, remaining closed the rest of the day.

Mrs. F. Bending, of Marquette, and Mrs. Rothschild, of Chicago visited Mrs. Abel Levine here yesterday.

Captain Elijah Toms lost his gold watch near his home a few days ago, and is offering a reward for its return.

Mary Pichan, daughter of Joe Pichan, left yesterday for St. Louis, Mo., where she will attend a school for the deaf.

Charles Muck, Sr., and his son Charles and bride returned yesterday from the Muck homestead, where they spent the past five or six days.

Oyama to the Mikado. This confab international Inspires me with respect, Sir; I likewise hope the Peace Cabal Will have a good effect, Sir; Till you consent I won't efface The Enemy's repose, Sir—

'Tween you and me, Mik, what's the use Of all this Portsmouth chewing? The boys are willing—turn us loose To tell the truth, we fairly itch For exercises fit—

Why do the envoys sweat and toil In long grim and steady file To arbitrate a strip of soil That's ours (you bet) already? Why should indemnity intrude? When, honestly, we've got 'em In such an easy altitude It seems a shame to swat 'em?

They think our terms a bit too strong? I'm sorry things befall so; But I opine it won't be long Ere they are sorry also. So keep 'em to our peace, Sir, And if they seem to take 'em, By Fujiyama's sacred fire We'll just wait in and make 'em!

—Wallace Irwin, in N. Y. Globe.

Fair Play. A group of drummers were trading yarns on the subject of hospitality, when one, a little Virginian with a humorous eye and a delightful drawl, took up his parable thus.

"I was down in Louisiana last month traveling around with S. J. Carey (the same being Stonewall Jackson C. at our service) when we kinder got lost in a mighty lonesome sort of road just about dark. We rode along a right good piece after sundown, and when we saw a light ahead, I tell you it looked first-rate. We drove up the light, finding 'twas a house, and when I hollered like a lost calf the man came out and we asked him to take us in for the night.

He looked at us mighty hard, then said, 'Wall, I reckon I kin stand it if you kin.' So we unhitched, went in and found 'twas only a two-room shanty and just swarmed with children. He had six, from 4 to 11 years old, and as there didn't seem to be but one bed, me an' Stony was worried 'what in thunder would become of us.

"They gave us dinner, good and hominy, the best they had, and then the old woman put the two youngest kids to bed. They went straight to sleep. Then she took those other three over in the corner, put the next two to bed, and so on. After all the children were asleep on the floor, the old folks went in the other room and told us we could go to bed if we wanted to, and bein' powerful tired out, we did so.

"Well, sir, the next morning when we woke up we were lying over in the corner with the kids and the old man and the old woman had the bed!"—Lippincott's.

A Cure-All. Bilkins—I wish I could get rid of this horrible toothache! Spilkins—When I have it I get rid of it very simply. A kiss from my sweet-heart, and it's gone.

Not for Pleasure. "Have you read my article in this month's Review?" "Yes, I have read it twice."

"Oh, my dear fellow, you flatter me!" "Not at all, not at all. I had to read it twice to understand it."—Translated for Tales from Les Annales.

A Regret. He worked just seven days a week. He couldn't work much more. At night he made a bunk beneath the counter in the store.

And as he saved his pennies up, He dreamed of future bliss, "When I am rich," said he, "I'll have No hardship, such as this."

And when he had attained great wealth Men turned to criticize. The magazines declared that he Was neither good nor wise.

He viewed the prize which he had won With feelings of dismay. Men even railed at his attempts To give the stuff away. And as through sleepless nights he tossed He longed for days of yore When he was lost in dreams beneath The counter in the store.

A Strenuous Teacher. A little girl who reads nature books, studies natural history, and is devoted to pets, was discovered holding bunny in her lap, trying to direct his attention to a book that she had and ever and anon boxing his long ears vigorously.

"His so stubborn," replied the little teacher. "A rabbit stubborn! Why, child, I never heard of such a thing. What is he stubborn about?"

"I'm trying to teach him the multiplication table, and he just won't try to learn, nor even say it over after me. Now, you say it, sir. 'Three times two are six—three times three are nine.'"

And the rabbit didn't say it, and again auntie inquired into her little street's conduct as two or three more cuffs were administered to the poor creature's all too convenient ears.

"Why, auntie," explained the girl, "the books all say that rabbits multiply faster than any other animal, and this obstinate little creature won't even go through the three times three with me!"—Lippincott's.

Suspicious. "But, Rosa, if you have no talent for painting why not take up chemistry?" "Impossible, papa. The other members of the Emancipated club would think I was trying to learn cooking in a roundabout way."—Translated for Tales from Mezzanotte Blätter.

25 YEARS OF AGONY ENDED

Boston Business Man Cured By Cuticura of Awful Humor Covering Head, Neck, and Shoulders After Hospital and Doctors Failed.

Under date of September 9, 1904, Mr. S. P. Keyes, a well-known business man of No. 140 Congress Street, Boston, Mass., says:

"Cuticura did wonders for me. For twenty-five years I suffered agony from a terrible humor, completely covering my head, neck and shoulders, discharging matter of such offensiveness to sight and smell, that to my friends, and even to my wife, I became an object of dread. At large expense I consulted the most able doctors far and near. Their treatment was of no avail, nor was that of the—hospital, during six months' efforts. I suffered on and concluded there was no help for me this side of the grave. Then I heard of some one who had been cured by Cuticura, and thought that a trial could do no harm. In a surprisingly short time I was completely cured."

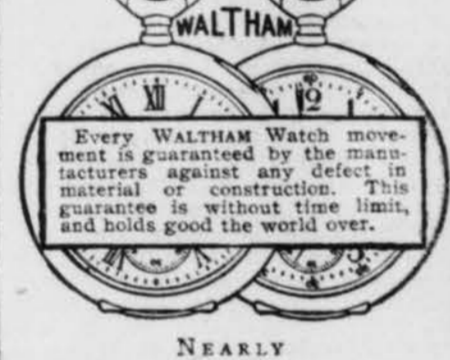

CUTICURA—THE SET, \$1.

Complete Treatment for Every Humor from Pimples to Scrofula

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle; dry without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation, and inflammation, and soothe and heal; and, lastly, take Cuticura Resolvent Pills to cool and cleanse the blood.

A single set is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humors, with loss of hair, when all else fails.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Write for a Free Copy of "How to Cure Every Humor."

MYSTERY OF FREIGHT RATES

SANTA FE RAILROAD OFFICIAL EXPLAINS HOW AND WHY THEY ARE MADE.

AN INTRICATE PROCESS

Men Who Make Them Are Among the Most Important Officials of a Railway System—Rates are Creatures of Conditions.

To the average man a table of railway freight rates is about as intelligible as the proverbial Chinese puzzle. Apparent incongruities and contradictions appear frequently, and on the surface the whole thing seems a mystic proposition. Yet these tables are the result of patient effort, perhaps years of close study, and the men who make them are among the most important officials of any railway system.

"Making railroad freight rates is a science, a complicated, exacting science, in the pursuit of which continual alertness is absolutely necessary," said Mr. Taylor, "for rates are based upon existing conditions, or if conditions are not satisfactory, whenever it is in the scope of rate adjustment to improve them, alteration must be made to effect the change. This explains only one phase of rate making which is hydro-headed in form, and each head of as much importance as its brothers."

"It is difficult to say where the science begins or ends; it is difficult to describe it at all. Rates are the creatures of conditions, and conditions, industrial or agricultural, are the prime factors in the establishment of rates of all sorts. The freight traffic managers or the general freight agents of all roads are merely the servants of the public, which imposes an increase or decrease in rates through conditions that it has either willingly or unwillingly brought about."

"A railroad, to be prosperous itself, must operate in a prosperous country, and its care, therefore, is to increase the prosperity of the territory it serves and which in turn serves it. Any other course would be suicidal to the road, for more than any other institution of man, the railroad waxes wealthy and powerful only by making those who contribute to its wealth and power rich as well. It must protect its territory, and it does this to the full limit of its power in the making of rates."

but by assisting the people it serves to sell their goods, the road keeps them in at least a fairly prosperous condition, and in the long run escapes the greater loss that impoverishment in its territory would entail. With the railroads and their freight rates it is always a case of 'live and let live,' insuring its own prosperity through the prosperity of its contiguous territory, it must needs do all it can to subserve and make permanent that prosperity, and it can never do this by applying an exorbitant rate. This is so clear when once understood that the wonder of it then is the fundamental principle underlying the complicated science of rate-making in railroad freight and traffic offices.

"Demand regulates freight rates quite as much as supply. One community may consume large amounts of fish, for example, while another city will consume very little. Naturally the city which is the largest consumer will have probably a lower rate on that particular commodity. Why? For two reasons. In the first place it does not cost proportionately as much to haul and deliver the larger quantities as it does the smaller lots and therefore the application of a simple business principle will serve to show why a lower freight rate should obtain, while in the second place the very demand for that commodity in this particular city causes spirited competition among a horde of dealers and the insistent cry of those dealers for 'better rates, better rates,' must necessarily have its effect in the adjustment of freight schedules bearing on the article in question.

Conditions Govern Rates. "It is conditions and nothing but conditions that affect railroad rates. Presuming the impossible thing that a community bought everything and sold nothing, inevitably the roads supplying such a community would have to haul empty freight trains one way or the other and though the volume of its inbound or its outbound freight traffic might be enormous, the empty haul would have to figure in the freight charges."

"Except under exceptional circumstances, the rates on merchandise—manufactured articles—do not fluctuate very much, for the simple reason that the movement of such freight does not vary to any great extent. If it did, rates would probably slide up or down quite as they do to meet the varying conditions of agricultural products. The desire of a road to keep its territory prosperous will invariably cause it to assist so far as it is able, to efforts of any community or section to add to its prosperity."

"It is in establishing through rates, that is, rates for goods originating as a shipment at some point on another road, that the science and diplomacy of rate-making reaches its apex. Not only to protect its territory, but also to protect itself, a railroad in these days must be in position to give through bills of lading for shipments offered to it to almost any part of the country, and also receive shipments made from any point to places on its road. It can only do this by agreements with foreign lines, and this understanding is usually arrived at on one of four basic points, either by a proportionate division of earnings, on a system of percentage, or proportionate mileage of the haul or any arbitrary or fixed agreement. Again, on certain classes of goods upon the manufacture of which the prosperity of a railroad's tributary country depends, the road will take care that the through rate does not permit competition to seriously impair that prosperity, ever and always the condition the railroad for the preservation of its own interests, must safeguard in its rate-making of all kinds."

WEDDED AT DULUTH.

Miss Jessie M. Palmer Becomes Bride of Minneapolis Man.

The wedding of Miss Jessie Mabel Palmer, a popular Duluth teacher, and James Richardson, which took place at the First Baptist church yesterday was one of the prettiest of the summer ceremonies. It was performed against a background of green and white, with that color combination pervading all the accessories even to the gowns of the bridal party.

Rev. T. R. Snow, formerly of Marquette, performed the ceremony at 2 o'clock, and A. F. M. Constance played the wedding music. The bride was attended by Mrs. W. A. Bennett, her matron of honor, and Miss Helen McGinnis, bridesmaid. Walter G. Palmer, of Pasadena, brother of the bride, performed the ceremony of bestowal and Frank Richardson attended the groom. The ushers were Messrs. John Brown, H. L. Dancer, W. R. Bagley and W. A. Bennett.

MUST EXERCISE CARE.

Township Treasurers Will Be Held Responsible for Errors.

Hereafter, township treasurers must exercise greater care in the discharge of business with taxpayers and the county treasurer, or suffer the penalty provided by a new law recently passed by the legislature. The law in question is operative after Sept. 16, and was passed for the purpose of affording protection to persons who have paid taxes, and by reason of negligent or design, township treasurers have failed to properly credit the amount on the roll.

The evil sought to be corrected is the returning to the state as delinquent descriptions of land on which taxes have been paid, and for which owners hold receipts. The state is compelled to advertise such descriptions for sale, and the first intimation the owner has that his land has been bought for taxes by another party is when he is notified that upon the payment of certain statutory penalties he can have a quit claim deed. It is now imperative for the county treasurer to begin suit for damages against any township treasurer who is guilty of such neglect.

"We have had very few cases of incorrect reporting of taxes by township treasurers," said B. W. Wright, deputy county treasurer, yesterday, "but I think the law is a good thing just the same. It will have a tendency to make treasurers more careful in making returns, and will also have the effect of removing the action for damages, in case suit is brought, from the township officers. I do not recall but one instance in this county where a treasurer was sued to recover the amount due to a taxpayer for incorrect return of the roll. It occurred about ten years ago in the township of Turin, and I do not think the case ever came to trial. Township officers are loth to bring an action for damage against a man who is their neighbor, even though by reason of his neglect as treasurer he caused a taxpayer extra expense by incorrectly reporting the roll. Most of the mistakes are made through incompetency, but we are fortunate in this county where an efficient township treasurer as a rule, hence the few incorrectly reporting the roll."

TRACK OF SOLAR ECLIPSE.

Phenomena May Be Seen to Best Advantage in the Morning.

Like other solar eclipse tracks, that of the coming one on Aug. 30 lies chiefly over the Atlantic ocean. Starting in at Hudson bay early in the morning the phenomena may be seen to best advantage by residents of the upper peninsula prior to noon, as the path runs southeasterly across Labrador, thence over the Atlantic and Spain, and the Mediterranean sea to northern Africa, where it traverses part of Algeria and Tripoli, ending in Arabia at sunset.

Contrary to the old belief that sun spots, being darker, were, therefore, cooler than the general brilliant surface of the sun, it is now apparently established by inference from the latest observations that the spots mean a giving off of very heated matter. It is possible that the unusually hot summer may be traceable to the large and very conspicuous sun spots now in evidence. In consequence of this eclipse track falling near the courses of so many vessels, there will be a far larger number than usual of persons observing it by pencil camera or otherwise.

As the long track of totality eclipses of the sun often extend for 5,000 miles or more across the earth's surface, and as that surface is much more largely composed of water than land, it is evident that the majority of eclipse paths must fall over some ocean where it is practically lost to science.

In 1856 Prof. Piazzi Smyth, late astronomer royal of Scotland, made experiments on a voyage to the island of Tenerife, with reference to devising instruments placed on the deck of a ship stable enough to make accurate astronomical observations, and the result was particularly encouraging. Similar attempts have been made by both French and American naval officers, and in the tropical waters of the Dutch East Indies of 1901 Prof. Todd tried another device, with effects which seemed to promise a possible solution of the problem.

A CLEVER ENTERTAINMENT.

The Boxer family, who give nightly entertainments on the streets here, present a novelty in the way of a boxing exhibition that is worth going a long distance to see. Their performance is exceedingly clever, and never fails to attract a large audience, who are delighted with the exhibition. It is clean and orderly, and the best thing of its kind in the way of an advertisement for their business. The Boxers will remain here several days, having come from a two weeks' engagement at the Soo, and also having visited other places in the peninsula. They will appear at Ishpeming, Houghton and Hancock.

OUR NEW MINISTER.

Plays may come and plays may go, but Denman Thompson and Geo. W. Ryer's character play, "Our New Minister," which Marquette sees at the opera house on Wednesday, Sept. 6 is one of those plays that once seen is never forgotten. It is playing everywhere to packed houses and achieving that just meed of recognition which it deserves. The original New York all star cast will be seen.
