

THAW'S MOTHER ON THE STAND

A Pathetic Figure in Black, and Treated With the Utmost Defiance, She Scores Heavily for Her Wayward Son.

Her Story Is Deeply Impressive in Its Simplicity and Brevity, and Adding Immeasurably to Its Effect Is Her Anxiety to Go On—Great Consideration Is Shown by Jerome, and Her Cross-Examination Is Short and Ineffectual.

New York, March 6.—Another dramatic chapter was added to the history of the Thaw trial today when the mother of the defendant took the witness stand. Mrs. Thaw's stay before the jury was brief.

When Mr. Delmas had definitely limited her examination to the change she had noted in her son's condition following his return from Paris in 1903, after Evelyn Nesbit had told him her life story, and when Mr. Jerome had with great consideration conducted a short and ineffectual cross-examination, the mother rose and said she had not done her all. She was loath to leave the witness chair.

"There is the question of heredity," she protested when both Mr. Delmas and Mr. Jerome told her she might stop down.

"I have asked you, madam, all that is considered necessary," said Thaw's attorney, with the utmost deference.

Mrs. Thaw half rose, hesitated and was about to sit down again, when Mr. Delmas offered her his hand to assist her from the stand.

Twice during her recital of the events which had caused her to fear that all was not right with her son, Mrs. Thaw broke down and was unable to proceed. Her face flushed, and she made an effort to speak, but the words would not come.

After a few moments, Justice Fitzgerald asked solicitously if she felt able to proceed, and Mrs. Thaw, evidently much exhausted, that her great grief had overcome her strong will of resistance, nodded in the affirmative.

Mrs. Thaw declined a glass of water, and made an effort once more to proceed. Justice Fitzgerald then interposed a relief for which the elderly woman facing him must have been deeply grateful. He said that as many of the remarks of the witness had been uttered in a very low voice, it would be necessary to have the stenographer read all her testimony up to that time to the jury.

When the reading was ended, Mrs. Thaw had regained her composure and was able to proceed to the end of her narrative.

Tells of Change in Her Son. She said that when Harry came home in 1903 he seemed depressed and apparently had lost all interest in life. He passed sleepless nights, would often leave the table at meals and go into the parlor to play upon the piano, the music playing softer and more in a finally died away. She told in a motherly way of her solicitude for the boy.

"He told me that a wicked man—probably the wickedest man in all New York—had ruined his life.

It was not until some time after he had offered this explanation of the change in him that she learned the story of the young woman who was to become her daughter-in-law.

Mrs. Thaw told of her son breaking down at church in Pittsburgh after the wedding, and that it was because of sorrow that the young woman he loved was prevented from being at his side.

Mrs. Thaw told of coming to New York to meet Evelyn Nesbit and of giving her consent to her son's marriage—the one condition being that the girl's past life in New York should be a closed book, never to be referred to in any way.

Then came the story of the marriage in Pittsburgh in April, 1905; the honeymoon trip, and then a happy, placid summer spent at the mother's country home in the mountains.

That was all. Mr. Delmas ended her testimony abruptly.

Jerome Taken by Surprise. The district attorney was taken by surprise, and began to cross-examine Mrs. Thaw in a very low voice. He asked the conditions surrounding the increase in her son's allowance, but Mr. Delmas objected. He asked what the son's income amounted to. Mrs. Thaw said that it was moderate, and nothing like the sum the newspapers have so often reported.

Mr. Jerome ext treated upon what he must have felt was the thinnest of ice, lest he put himself in an attitude of attempting to harass the pathetic figure in black on the witness stand. He asked the mother what she knew of her son's relations with Miss Nesbit before she became his wife.

"Nothing," she replied, with hesitancy. The district attorney seemed completely baffled, and speedily brought his cross-examination to a close.

EXCITING DAY IN WALL STREET

Enormous Buying of the Shares of the Reading Company Carries the Price Up More Than 8 Points in Half an Hour.

Movement Is a Mystery to the Traders, but it Savors of a Contest for Control Involving the Harriman, Morgan and Other Interests—Weak Early, the Market Turns Strong on This Development, and the Close Is Active and Higher.

New York, March 6.—Sensational buying of shares of the Reading company today gave Wall street its most exciting experience since the Northern Pacific contest of six years ago.

Reading had been strong in the face of a generally weak market all through the morning session of the Stock exchange, when, shortly after 1 o'clock, there developed an enormous buying movement in the shares which carried the price up more than eight points in half an hour.

Many Rumors Circulate. Up to the close of the market there was nothing official to show the source of the purchasing orders, but a persistent rumor was in circulation that E. H. Harriman was buying the stock with the object of acquiring control of the property, and that Harriman was taking all that was offered in the open market in addition to the holdings of H. C. Frick, which he was said to have purchased privately. It was said also that the Reading stock held by the Lake Shore was to be turned over to Harriman, so that he would have absolute control.

Reports are to the effect that buying was circulated generally throughout the financial district, and was given credence in spite of the lack of anything official to confirm them; but there were other rumors, too. One of these was that J. P. Morgan & Co., who formerly dominated the Reading, were buying to resume their former position in the property, another was that the New York Central, which owns the Lake Shore, was adding to the Lake Shore's holdings of Reading; a third attributed the buying to the Delaware, Lackawanna & Western. Still another rumor was that H. C. Frick was buying back the stock he sold some time ago at higher prices. E. H. Harriman, who is in Washington, made the statement through his secretary to the effect that he was not "interested in Wall street, and did not care to be denying all the rumors circulating there."

Big Blocks Traded In. The trading in Reading reached the extremely large total of 736,500 shares, or about one-third of all the transactions on the Stock exchange for the day. The magnitude of the sale seemed to preclude the idea that an ordinary manipulative maneuver for higher prices was being executed. The blocks traded in were large, ranging up to 4,000 and 5,000 share lots, with one block of 10,000 changing hands at 125.

The strength in Reading attracted attention early in the session, owing to its being in sharp contrast to the weakness in the list generally. The market opened with a rally from yesterday's decline, but before noon the better tone gave way to a renewed bearish sentiment and the decline became violent.

The feeling on the exchange bordered on demoralization, with extreme heavy liquidation, and the declines brought many issues to the lowest point in months. The Harriman shares and the stocks in what is called the Standard Oil group were notably sensitive to the pressure, and this fact emphasizes the strength of Reading and the relative firmness of the Morgan and Hill stocks.

Market Suddenly Turns Strong. This condition held until shortly after 1 o'clock, when the sensational buying of Reading began. At that time, the stock was selling at 116 1/2. Suddenly it developed that all the stock offered was being taken on an ascending scale of prices. Lots of 2,000 to 6,000 shares were traded in rapidly, and the price rose in half an hour to 125.

This sudden turn after the recent weakness in market served to strengthen the entire list, and a general rally was soon in progress, which continued up to the close, which was strong and active, with the quotations in the main at the best of the day. Prominent in the recovery were Great Northern preferred, which closed at 157 1/2, an advance of 3/4; Southern Pacific, which closed at 86, a rise of 2 points; and Northern Pacific, which improved 2 1/2 to 139 1/2.

Fluctuations Rarely as Violent. Wall street has seldom if ever seen such varied and violent fluctuations in the prices of securities as those which occurred today. The market was two-sided from the start, then followed a period of abrupt reversals of the general current of values, and ultimately excited and disorderly movements at cross-currents. The whole movement was without definite news to explain it, but the volume and the aggressiveness of the operations were sufficient to stamp them as coming from sources of importance.

There were many theories tending to indicate distress among certain capitalists, and the action of the market for several days, and of special stocks not at all.

The general has never met John D. Rockefeller or Mr. Carnegie, the latter of whom, according to General Booth, says he can not spend his money on people who are down, but will help those who want to get up. "I hold that the time to help a man is when he is going down," continued the head of the Salvation Army. "You would be surprised at the beautiful people who are down."

General Booth is going to Canada and Japan.

CONGRESSIONAL JUNKET.

Fifty-Three House Representatives Sail from New York for Panama.

New York, March 6.—Fifty-three congressmen who desire to know for themselves the conditions under which the Panama canal is being built sailed today on the steamship Panama for Colon.

ELECT SENATOR AT ONCE. Governor Davidson's Suggestion to the Wisconsin Legislature.

Madison, March 6.—Governor Davidson today transmitted to the legislature the resignation of Senator Spooner, and suggested that the election of his successor proceed at once. The legislature by a standing vote adopted a resolution of tribute to Senator Spooner.

STATE'S ACTION CRITICISED. South Carolina's Importation of Immigrants Held Against the Law.

Washington, March 6.—An opinion has been rendered by Attorney General Bonaparte to the president bearing on the legality of the action of the South Carolina authorities in bringing to the United States a shipload of immigrants for work in various branches of industry in that state. The attorney holds in effect that it is unlawful for a state government to pay the passage of intending immigrants or to assist immigration otherwise than by advertisements.

NEBASKA JUDGE CONVICTED. Held Guilty of Embezzling \$3,385 of the Funds of His County.

Wilbur, Neb., March 6.—A jury in the district court tonight found former County Judge Hendree guilty of the embezzlement of \$3,385 of the funds of Saline county. Sentence was deferred.

GUNBOAT SAILS SOUTHWARD. San Diego, Cal., March 6.—The gunboat Princeton left last night for San Salvador, under hurry orders, to join the Chicago in Central American waters.

LEGISLATURE KILLS THRIVING INDUSTRY. DIVORCE BUSINESS IN SOUTH DAKOTA KNOCKED BY NEWLY ENACTED LAW.

Pierre, S. D., March 6.—The house today passed the senate divorce bill, requiring a residence of one year in the state and three months in the county before beginning a divorce suit, with all the bearings in open court. This law kills the divorce industry of the state, which has become distasteful to the people of South Dakota.

No Sunday Ball in Nebraska. Lincoln, Neb., March 6.—The house this afternoon, 48 to 41, defeated a bill permitting Sunday baseball games.

TREATIES ARE LACKING. Aliens Who Sue American Companies Cannot Get Damages.

Pittsburg, Pa., March 6.—Judge Nathaniel Ewing, of the United States circuit court, filed an opinion today to the effect that if non-residents are to enter suits in the future against American companies, there will have to be further treaties between this and foreign countries. Mayer Zeiger, a citizen of Zenta, Hungary, sued the Pennsylvania railroad for \$50,000 damages, a result of the death of George Zeiger, the sole support of the plaintiff. Zeiger was killed in the wreck on the Pennsylvania railroad at Harrisburg, May 11, 1905, in which a score of persons lost their lives. The court says that the courts of the United States cannot look after the interests of other than its own citizens, and the only way an alien can sue our courts is through treaties between this and other countries, which have never yet been made governing just such happenings as the one involved in the suit.

RIOTOUS WORK IN IOWA. Street Car Men on Strike Because of Delay in Paying Wages.

Waterloo, Ia., March 6.—The newly formed union of street car men has declared a strike against the Waterloo, Cedar Falls & Northern Railway company. Most of the employees went out, but the cars were run today without interruption by non-union men and office employees. The chief grievance of the strikers is the delay in paying wages. Sympathizers of the strikers entered the stations of the Waterloo, Cedar Falls & Northern and the Great Western railroads this evening, cut all the telegraph wires and tore out the instruments, which they carried away. Previously to this, railroad torpedoes were placed on the tracks near the company's shops, and stones were thrown through the car windows.

BOMB FAILS TO KILL. Commandant of Sebastopol Fortress Escapes With Slight Injuries.

Sebastopol, March 6.—As General Nephew, commandant of the fortress here, who has just been transferred for duty at a less hazardous post, was driving through the city this evening to attend a farewell banquet at the palace given in his honor, a bomb was thrown under his carriage, where it exploded, shattering the carriage and inflicting serious injuries about the feet; his coachman was wounded; a woman who happened to be passing sustained serious injuries, and the horses drawing the vehicle were crippled. The bomb-thrower escaped.

TODAY'S WEATHER. Washington, March 6.—The following is the weather bureau's forecast for Upper Michigan: Sun and warmer Thursday; Friday, snow.

Trains Are Under Water and Waves Wash Against Passing Trains. El Paso, Tex., March 6.—Another storm has broken over the Salton sea. The Southern Pacific tracks are reported under water, and waves washing against passing trains. Trains are from eight to twenty-four hours late.

BASKETBALL AT MADISON. Madison, Wis., March 6.—The basketball team of the University of Wisconsin defeated Chicago tonight, 22 to 11.

WARNING GIVEN BY HARRIMAN

United States Will Not Always Enjoy Prosperity Like That Experienced the Past Decade, Says the Railroad Magnate.

Hard Times Will Surely Come Again Unless Lawmakers and People Generally Change Tactics Toward Corporate Interests, He Declares—Better for Nation Had Congress Spent More Time Over Currency and Tariff and Less Over Rates.

Washington, March 6.—E. H. Harriman, the railroad magnate, in an interview tonight expressed the opinion that it would have been better had congress spent more time over needed currency and tariff legislation and less to rate regulation.

The United States will not always enjoy the prosperity that has prevailed during the last decade," he said. "Hard times will certainly come again unless congress and the people generally change their tactics towards the railroads and other corporate interests."

As an argument against the tendency for wholesale reduction in railroad rates, Mr. Harriman called attention to the increased cost of everything that enters into the maintenance of railroads.

RAILROADS RETALIATE. Big Projects at Omaha Called Off Because of Adverse Legislation.

Omaha, March 6.—Following the action of General Manager Mohler, of the Union Pacific, in calling off all work toward the construction of the twelve-story general quarters building at Omaha because of the supreme court's decision compelling the railroad to pay delinquent taxes amounting to \$1,000,000, with interest, and the action of the legislature in passing the two-cent fare bill, the Burlington, through General Manager Holdredegar, announced today that no work would be done toward the erection of its mammoth freight depot, for which plans have been completed, until conditions had at least reached a "more settled state."

In the legislature now is a bill providing for terminal taxation for Omaha which would impose heavy city taxes on the railroads with their new terminal facilities, and they propose to wait to see the outcome of the legislation.

Governor Signs the Rate Bill. Lincoln, Neb., March 6.—Governor Sheldon, shortly before midnight tonight, signed the two-cent railroad passenger bill. A few moments later the bill would have become effective with or without executive approval. The governor said that he was led to take the action he did because of doubt in his mind whether the emergency clause would be effective without his signature.

TRAINS CRASH TOGETHER. Seven Persons Injured, Four Seriously, in a Wreck in Illinois.

Neoga, Ill., March 6.—Seven persons were injured, four seriously, in a collision on the Toledo, St. Louis & Western railroad here this afternoon. An eastbound passenger train ran into a local freight. The engine of the passenger train was demolished. Those seriously injured are: Edward Kennedy, engineer on the freight, Charleston, Ill.; Mrs. Cora Welton, Greentown, Ind.; Allen Gaskell, Neoga, Ill.; Mrs. E. J. Ford, Delphos, O.

ASSAULTED BY STUDENTS. Teacher of an Oklahoma School Is Dead from Injuries.

Gotebo, Okla., March 6.—Because he attempted to whip a boy pupil, Perry Evans, teacher of a country school north of here, was assaulted here today by a number of male students and was injured so he died a few hours later. The young man who committed the assault are under arrest. The act has aroused intense indignation in the neighborhood.

WAGE DISPUTE ADJUSTED. Pennsylvania Trainmen East of Pittsburg Get \$1,830,000 More a Year.

Philadelphia, March 6.—The differences between the Pennsylvania railroad and its trainmen east of Pittsburg and Erie were settled this afternoon by mutual concessions. Under the agreement the men will receive a total increase in wages amounting to \$1,830,000 a year.

COSTLY FIRE AT SEA. Cargo of German Steamer Is Damaged to the Extent of \$500,000.

New York, March 6.—Damage from fire at sea amounting to a full quarter of a million dollars was reported by the German steamer Vandalia, which arrived here today from China. The fire started in the hold Feb. 25 and was subdued only after the hold had been completely flooded with water.

STORM SWEEPS SALTON SEA. Tracks Are Under Water and Waves Wash Against Passing Trains.

El Paso, Tex., March 6.—Another storm has broken over the Salton sea. The Southern Pacific tracks are reported under water, and waves washing against passing trains. Trains are from eight to twenty-four hours late.

BASKETBALL AT MADISON. Madison, Wis., March 6.—The basketball team of the University of Wisconsin defeated Chicago tonight, 22 to 11.

W. J. DAVIS' TRIAL AT A STANDSTILL

Manslaughter Case Resulting from the Iroquois Fire May Be Tied Up in the Courts Indefinitely on Legal Points.

Defense Strikes at the Very Heart of the Prosecution by Challenging the Legality of the Chicago Ordinance in Question, Holding That, if the Act Is Declared Invalid, No Law Has Been Violated and the Charge Thus Falls to Pieces.

Danville, Ill., March 6.—The trial of Will J. Davis, charged with manslaughter on account of the fire in the Iroquois theater in Chicago in 1903, is now at a standstill so far as evidence is concerned, and promises to be tied up in the courts indefinitely on legal points.

Not only this, but it may be carried to the supreme court before the trial itself can go on. The witnesses have been released and have returned to Chicago, subject to further notice.

When the prosecution had finished its statement to the jury, today the defense waived the right of address temporarily. The prosecution had scarcely begun with the first witness, when the defense objected to the entire proceedings and moved that the court direct the prosecution to introduce, first of all, the Chicago ordinance, the alleged violation of which resulted, as claimed, in the fire and in the indictment. Notice was served that the validity of the ordinance would be attacked. If the ordinance was invalid, then, as argued, there was no law to violate, and Davis is guilty of no crime.

The entire afternoon until the trial itself can go on. The witnesses have been released and have returned to Chicago, subject to further notice.

Still Another Vital Point. When this point has been passed to the court, another vital one will be submitted. The defense offers to admit facts. The prosecution denies its right to do so. If the defense can admit its facts, then the prosecution will be denied its chance to introduce witnesses, some of whom were retained in the fire.

SECOND SUIT THREATENED. Christian Science Officials May Be Defendants in Massachusetts Also.

Boston, March 6.—Former United States Senator William E. Chandler, special attorney for George Washington Glover, of East S. D., and other relatives of Mrs. Mary Baker G. Eddy, who have brought suit against the Christian Science officials in three states, started tonight that possibly a second suit will be instituted either in the state or the federal court in Massachusetts.

Mr. Chandler said: "It has been decided to serve immediately processes on the four New Hampshire defendants, and to give notice to the Massachusetts defendants so that they may be present and join in the New Hampshire suit if they choose. If they do not join in the suit, possibly a second suit will be instituted in Massachusetts—in the state or federal court."

It was decided today to begin immediately the taking of testimony in various places in both states and get ready for the trial as soon as possible.

FUGITIVE FROM JUSTICE. Abraham Ruef, Indicted at Frisco, Fails to Appear in Court.

San Francisco, March 6.—Abraham Ruef, jointly indicted with Mayor Schmitz on five charges of extortion, is a fugitive from justice, according to Superior Judge Dume, who this afternoon decided that Sheriff O'Neill had not shown due diligence in producing him for trial, and appointed Coroner Walsh as elisor to serve a bench warrant for his appearance in court. The coroner was ordered to make return of the service at 2 o'clock tomorrow afternoon. This was the net result of a day devoted to a fruitless search for Ruef, although none of those interested deny he is in the city.

FATE IN JURY'S HANDS. Wallace, Idaho, March 6.—The case of Steve Adams, charged with the murder of a rancher, was given to the jury today.

Culpeper, Va., March 6.—The case of James and Philip Strother, charged with the murder of Wm. F. Bywaters, their brother-in-law, is completed and will go to the jury tomorrow.

BLOODSHED IN PERSIA. London, March 6.—In a dispatch from Teheran the correspondent of the Mail says that the president of the local assembly at Tabriz and an important priest of Rasht have been shot down in the streets. Trouble has occurred also at Paskan.

CANNOT PAY IN FULL. Freeport, Ill., March 6.—O. C. Steitz, who came from San Francisco to investigate the condition of the German Insurance company, started home tonight, convinced that the company could not pay more than offered the policy holders in San Francisco.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: For month, by carrier, \$1.00; For year, by mail, \$10.00.

MARQUETTE, MICH., MARCH 7.

Entered as mail matter of the second class by the postoffice at Marquette, Mich.

Very evidently Dan Hanna isn't the man his daddy was.

And we all supposed that Company I was getting along swimmingly.

The common council continues to muckrake, with excellent results.

However, it is safe to assume that Mr. Tom Lawson has been making money all the time.

Today Governor Warner is expected to give us some action on the charter amendment bills.

Apparently the tediousness of the Thaw trial has left its mark on the prosecutor's temper.

Among the questions that have gone over until the next session is that of the army canteen.

The market for coppers was very sick yesterday, so sick that the brokers were calling for cash.

Judging from its early start the present contest will prove to be the champion long distance campaign in the annals of local politics.

Unless Hurley, Wis., is a very different place than it used to be it appears that no very territorial deal that would annex the territory containing it to Michigan would be a rather dubious boon.

If the proposed new state fish hatchery will reconcile Keweenaw county to getting along without State Road Commissioner Earle's proposed new state prison, by all means let Keweenaw county have it.

Governor Warner cannot long hesitate over the proposed Marquette charter changes. The bills proposing them were passed early last week.

We don't know anything about it, but it is safe to predict that the Soo Times and the Soo News have widely different ideas about what Congressman Young ought to do with the Soo postoffice.

However, it is much to be doubted whether General Grosvenor's 300-piece silver service consoled him for the knowledge that the Littauer substitute was killed off in the senate.

After a thorough consideration of the subject, the Menominee council decided that the municipal court it has been experimenting with the past few years is a great advance on the old justice courts, and decided to retain it.

Just now it is said to be a hundred to one shot that Marquette will vote in five wards, that Mayor Culver will name the police commission and that the streets and sewers work will be taken over by an enlarged park and cemetery commission—in other words, that the charter amendment bills will this week be made into the law of the land.

Ike Stephenson of Marinette says that he is a party to no political deals; that he wants to be elected to the United States senate on his record as a Republican.

What will La Follette do, is one of the questions of greatest concern to the Wisconsin legislature. Ike Stephenson of

Marinette, a candidate for the two years remaining of Senator Spooner's term, has every right to expect La Follette's support. For his part he has stood behind La Follette through thick and thin, and has backed him in a financial way even to the extent of establishing a newspaper for him, than which there could be no greater sacrifice. But if La Follette supports Stephenson he will weaken himself with other strong men in the state, it is said. If he doesn't, however, he will appear an ingrate, particularly as Stephenson modestly asks only for the two years of Senator Spooner's term, and promises to step down when they are passed. There is general recognition that Senator La Follette holds the balance of power with the legislature, and thus the question of what he will do becomes one of paramount interest.

What's this we hear? A new story, speaking of the early inspection of Company I, M. N. G., of Ishpeming says: "There is doubt in the minds of some of the members of the organization whether the company will be able to pass the inspection, as a number of the men have not been attending the drill meetings regularly. It is said that the company's discipline is not of the best and that some of the officers, as well as the privates, are not manifesting the interest that they did at the start. About sixty-five men are enrolled, and it is seldom that half this number turns out to the drills." The Ishpeming company is only about a year old, and the first enthusiasm for military organization should still be carrying it along on its first burst of interest, and prosperity. It is disquieting to learn that the officers and men are apathetic. It creates apprehension that the company may fare but poorly at the hands of the inspectors. There would be general disappointment in the county if it were reprimanded, or if it were prematurely disbanded. Ishpeming ought to be a good location for a company, and its Company I ought to be one of the best in the regiment.

The referendum is a good thing in its place. It is perhaps not out of place in regard to voting machines. The voters are entitled to a voice in regard to the manner in which they shall cast their ballots. Moreover they have in their own experience, and in their knowledge of the course of elections under the old method of balloting, data on which they can arrive at a valid opinion in the matter. Such a matter as what is best to do about the city water supply is another thing, however, and it is hard to see how a referendum in regard to it would help. The questions involved are largely technical, and are such that they can be understood only by long and careful study, such as the rank and file of voters has not given, and will not give, them. The members of the water board were nominated and confirmed for their positions with the idea that they were men capable of grappling with such problems and capable of arriving at a decision as to the best course of several alternative courses. The board has decided that the best thing to do to assure Marquette a supply of safe and untainted water is to extend the intake. Many people have all along believed this course to be the best. As the board has canvassed the matter thoroughly, it should not consult the people further, except to secure the authorization of the necessary bonds, for on the major question involved the people have not the knowledge to warrant them in passing judgment.

RAILROADING THE RAILROADS.

Under the above heading the initial issue of Detroit Saturday Night has some sane comments in regard to railroad legislation, pending and otherwise, in Michigan. It is not far out of the way when it remarks that "it is getting to be a habit in Michigan to legislate for the railroads with an ax and a crosscut saw." It might have truthfully remarked that the habit has extended far beyond the confines of Michigan. The paper expresses a belief in the ad valorem system of taxation and favors the regulation of public service corporations. Neither does it pronounce finally against the lower passenger rate bills pending in the legislature. The bill backed by the administration may be, it admits, a virtuous measure. Still it calls attention to the fact that the Wisconsin railroad commission found that for that state two and a half cents a mile was a fair rate. This does not prove that two cents would not be a fair rate for some lower Michigan roads not already on that basis, but it suggests that perhaps a general two-cent fare bill would work some injustice.

DETROIT SATURDAY NIGHT.

Detroit Saturday Night, however, only asserts an obvious fact when it says that "if the two-cent fare bill passes in Michigan, it should only pass on the merits of the arguments advanced by both sides. Under the existing statutes the most prosperous roads are already on a two-cent basis, and there are other transportation lines in Michigan that are bad enough at three cents, and in the upper peninsula even at four cents, in spots." Neither the railroads nor the state can profit from haphazard legislation on this subject. While bearding the railroad lion in his den may have an attraction for some members, they should be restrained by their more reasonable brethren to approach the problem on a basis of facts.

There are some definite things about this matter of railroad passenger fares. One is that the people want the service maintained at its present standard, at

least. Can the railroads thus maintain it, on two-cent fares below the straits and three-cent fares in the upper peninsula, and make a fair profit on their passenger business? This business should bear its pro rata share of the fixed costs, interest charges, etc. It should also pay its pro rata share of earnings on all watered stock. The water shouldn't be there, but it is, and there's an end to it. If the railroads can do these things and give the people lower fares, well and good. Let's have them. But if they cannot it would be a mistake to pass any lower fare bills. The matter is one which should receive the calmest, most searching investigation possible.

Mining News

IN THE BUTTE CAMP.

Richest Deposits of Copper Are Being Found at Depth.

The experience of all mining companies in the Butte district is demonstrating the fact that great depth is required to uncover the richest copper deposits in the Anaconda, Neverawit and High Ore mines of the Anaconda company, the biggest copper deposits so far opened have been found at a depth of 2,400 and 2,500 feet, and the indications there are that the ore bodies will continue to improve the deeper they are developed.

The history of all mines is that above a depth of 1,200 to 1,500 feet the veins are filled with low-grade ore. Some of the richest mines in the district, notably those of the North Butte company, were practically barren above the 500 and 700-foot level. At a depth of 1,500 feet the North Butte has opened the richest copper deposits ever known in the world.

On the east side the Pittsburg & Montana company has been mining to a depth of 1,200 feet, but the ore there was low grade and not extensive, so the company decided to add 200 feet more to the depth of the workings. At a depth of 1,400 feet the ore became so much richer and more extensive that all problems as to the future were settled.

The failure of the Butte Copper Exploration company to find ore at a depth of 1,000 feet may be disappointing to the stockholders who had expected good results, but the failure does not indicate that the ground does not contain commercial copper ore. On the contrary, there is every reason to believe that if the shaft is sunk 500 feet deeper it will be found.

The Butte & London company is profiting by the experience of others, and its shaft will be sunk to a depth of 1,500 feet without cessation, that will place it 700 feet deeper than the present depth of the six O'clock shaft of the Butte Exploration, there being a difference of about 200 feet in the elevation of the two properties, which adjoin each other.

There is not a shaft in the Butte district that did not uncover commercial ore bodies, if sunk deep enough, that is, 1,500 feet or more.

Amalgamated.

The Amalgamated Copper company is conducting experiments with the coal from its mine at Storr's for the purpose of determining whether or not it is suitable for coking purposes, as it is becoming necessary for the Amalgamated to have a source of supply for coking coal in the state, instead of depending entirely on Canadian and eastern points, as it is compelled to do at present.

OSCEOLA.

The Osceola report for 1906 fails to tell many things, says the Lake Linden Times. It fails to tell shareholders what became of the stamp heads and machinery in the old mill; who they were sold to, and what was received for them; it fails to tell stockholders what the company received for stamping some 700 tons of rock per day for the Ahmeek, and at a fair price the profit must or should have been considerable.

FROM FOUR STATES.

Testimony to the Efficacy of the New Scientific Dandruff Treatment.

REPUBLIC IRON COMPANY.

The annual meeting of stockholders of Republic Iron company will be held at the office of the company, Arcade building, S. E. corner 15th and Market streets, Philadelphia, Pa., on Wednesday, March 20th, 1907, at 12 o'clock M.

WOLVERINE.

It is amusing to see Eastern writers talk of the earnings of Wolverine for the fiscal year ending June 30, 1907, and comments the Native Copper Times. One writer says the average price for year ending June 30, 1906, was 17.1c. The pound, that the price for this year will be much in excess, and continuing grants an average of twenty-five cents per pound, so that with the usual low costs of production he figures earnings of \$30 per share. The average cannot be anywhere near twenty-five cents per pound, as it was not until 1907, or after over six months of Wolverine's output for the present fiscal year was sold and marketed, that copper went to twenty-five cents, and it is doubtful if any mines have up to date had full benefit of the 25-cent market.

Complies with all requirements of the National Pure Food Law, Guaranteed Pure, 2000 Lbs.

Advertisement for ARIOSA Coffee featuring an illustration of a man carrying coffee bags. Text: Advice of the largest coffee dealers in the world is always to buy the old-fashioned Arbuckles' ARIOSA Coffee in the sealed packages. Don't ask for a pound of Mocha and Java, or buy by the price for coffee fluctuates and you cannot get the same coffee for the same price all the time unless you pay too much for it. Most of the so-called Mocha and Java Coffee is simply watered-down, and is not nearly so good coffee for you as Arbuckles' ARIOSA, the blend of the Brazilian Coffees most suitable to the taste and health of American people.

STANTON PROPERTIES.

The so-called Stanton mines produced in the calendar year 1906 a total of 23,214,798 pounds of refined copper, as compared with 40,451,462 pounds in 1905 and 39,321,886 pounds in 1904.

BUTTE COALITION.

The recent report that a large vein has been opened in the Butte Coalition's Minnie Healey ground by the Boston & Montana company by means of a crosscut at a depth of 2,000 feet below the present workings of the Minnie Healey, is news half a year old.

OSCEOLA.

The Osceola report for 1906 fails to tell many things, says the Lake Linden Times. It fails to tell shareholders what became of the stamp heads and machinery in the old mill; who they were sold to, and what was received for them; it fails to tell stockholders what the company received for stamping some 700 tons of rock per day for the Ahmeek, and at a fair price the profit must or should have been considerable.

FROM FOUR STATES.

Testimony to the Efficacy of the New Scientific Dandruff Treatment.

REPUBLIC IRON COMPANY.

The annual meeting of stockholders of Republic Iron company will be held at the office of the company, Arcade building, S. E. corner 15th and Market streets, Philadelphia, Pa., on Wednesday, March 20th, 1907, at 12 o'clock M.

WOLVERINE.

It is amusing to see Eastern writers talk of the earnings of Wolverine for the fiscal year ending June 30, 1907, and comments the Native Copper Times. One writer says the average price for year ending June 30, 1906, was 17.1c. The pound, that the price for this year will be much in excess, and continuing grants an average of twenty-five cents per pound, so that with the usual low costs of production he figures earnings of \$30 per share.

show earnings of \$60,000, or within \$50,000 of the amount called for by the dividend just declared.

One thing stockholders may rest assured, and that is that none of their money will get away, and that every dollar, above that required for operating, is deposited and drawing interest for the benefit of the shareholders. There will be no juggling with the assets of the mine, and there are no special methods of bookkeeping employed in the offices at 15 William street New York.

MORE ICE THAN USUAL IN LAKES

IMPORTANT HARBORS AND PASSAGES ON GREAT LAKES ARE BLOCKED WITH HEAVY MASS OF ICE.

The first report of ice conditions on the Great Lakes for this year, issued by Norman B. Conger, inspector and marine agent at Detroit, was received in Marquette yesterday. The reports from the regular and display stations of the weather bureau indicate that there is more ice in all lakes than at this period last year. Over western Superior the ice fields extend beyond Two Harbors; over the central and eastern portions the fields are heavier and more extensive. St. Mary's river ice is solid and extends the entire length of the lake and extends to the north end of the lake. The ice in Lake Michigan is solid. The fields in Lake Michigan are more extensive than last season, but have impeded navigation but little this winter. The ice at the Straits is solid and extends from the east end of Bois Blanc island to Lake Michigan. It is not as heavy as usual nor is it wind-eroded. There is but little snow covering it. There are extensive fields over the northern portion of Lake Huron. The ice bridge at foot of the lake which formed Sunday night is firm. St. Clair river is solid from Port Huron to Lake St. Clair. The ice in the Detroit river extends from about Smith's Coal dock to the mouth. The ice fields along the south shore of Lake Erie extend beyond vision. In Ontario there have been extensive fields in sight during the past week.

In comparison with same period last year there is more ice reported in all the lakes.

The usual details follow:

Lake Superior.

Duluth—Harbor ice ranges from 16 to 24 inches thick and averages about ten inches thicker than last year; ice field in the lake extends beyond Two Harbors and ranges from two to eight inches thick.

Ashland—Harbor ice averages 18 to 20 inches and is not as thick as usual.

Washburn—Harbor ice 24 inches thick; clear and solid.

Houghton—Ice in harbor 20 inches. Eagle Harbor—Harbor ice 20 inches; the field ice in the lake is moving east with small open places.

Marquette—Harbor covered with cake ice about 12 inches thick; ice fields extend beyond vision, with some open water to the north.

Munising—Ice in the harbor 12 inches.

Grand Marais, Michigan—Harbor ice 28 inches and solid; lake ice extends one mile from shore and is heavily wind-eroded; open water beyond with fields moving with the wind.

Whitefish Point—The bay is open from Whitefish Point to Persian island; west side of bay full of rough ice; above the Point the ice fields are extensive and moving with wind.

Sault Ste. Marie—Harbor ice 21 inches thick; river ice solid entire length.

Lake Michigan.

Ennabaw—Ice in Little Bay DeNoquet averages about 26 inches and extends beyond vision; ice at Washington island reported 25 inches; the ice is covered with 5 inches of snow.

Green Bay—Ice in harbor 8 inches thick and solid.

Milwaukee—Harbor and bay free of ice.

Chicago—The ice fields visible over the south end of the lake during the past week were carried away Saturday by strong westerly winds.

Mackinaw—Ice 16 inches thick and not so heavy as usual; it is free from windrows.

Lake Huron.

Mackinac Island—A solid field of ice covers the Straits from the east end of Bois Blanc island to Lake Michigan; the ice ranges from 12 to 18 inches; there is but little snow covering it and there are no windrows; there is open water east of Bois Blanc island.

Detroit River.

The ice in Lake St. Clair averages about 16 inches and covers the lake. The ice is running in the Detroit river from the lake to about Smith's Coal dock. At Amherstburg the ice is from 6 to 7 inches thick. It extends out from shore in Lake Erie about two miles; beyond this there is open water.

Lake Erie.

Cleveland—Harbor ice about 8 inches; the field ice covers the lake in all directions extending beyond vision.

Buffalo—The harbor ice averages 12 inches; the ice fields in the lake extend beyond vision; there is an area of open water about one-half mile in diameter around the outer lighthouse.

IDAHO COPPER PROPERTY.

Prominent Detroit Men Interested in the Cabinet Range Company.

Thomas W. Payne, secretary of the Cabinet Range Mining company, has been in the city the past few days and has placed an allotment of 25,000 shares for Marquette with Frank Steckney, the broker. The Cabinet Range mine is located in the Priest Lake mining district of Idaho, and backing it, with large holdings of stock, are such prominent Detroiters as W. C. Maybury, the president and treasurer of the company, A. I. Marquette, Malcolm J. McLeod, state railroad commissioner, and others. The details of the organization, together with other information of interest, are given in an advertisement now running in The Mining Journal.

W. M. Courtis, a prominent engineer, writing in a conservative publication as the Engineering and Mining Journal, predicts that the Priest Lake Mining region of Idaho will soon have to be taken into consideration. At present the district is reached only by stage every other day from Priest Lake station on the Great Northern railroad to the lake and about the lake by launch to the trails. But the country invites railroad building, as the rise in sixty miles from lake to mines is only 700 feet, and Priest river has the power for electric operation of railroads.

Mr. Courtis writes that the formation of this district is gray granite and schists, cut by diorite or diabase dikes, with interbedded dolomites. Quartz veins along the zones of action of the dikes, both fissures and interbedded, are a prominent feature. The schists and dolomites are very much altered along the contacts or near the dikes where

are many quartz and calc spar veins, and ore impregnations. There is an immense amount of disseminated copper pyrites and galena, the latter especially near the lime contacts.

The surface ores are leached, but in a short distance come to the original form, with indications of boron coming in with the pyrites. At the State of Idaho group there is great deposit of iron, which in great depth becomes pyrrhotite and chalcopyrite.

At the Idaho Continental, the mine most advanced, there are several deep tunnels 500 to over 1,000 feet long. The ore is mostly galena, sometimes massive, but of small separate quartz crystals so that the best ore would be improved by concentration. The quartz crystals are like plums in a pudding. The ore bodies are four or five feet wide, apparently solid galena, and of large extent, making the mine one of great promise. Gold occurs with the ore to the amount of \$1 to \$12. The lodes, or ore zones, are very wide.

According to all the assays, the galenas at the Cabinet Range property average from 87 to 187 ounces in silver to the ton, and in lead the same. The company is cutting a forty-foot zone of ore, the copper in which runs from 8 to 26 per cent.

NEW BOOKS AT LIBRARY.

Twelve Volumes of Late Fiction to be Put in Circulation.

Twelve volumes of late fiction by well known authors will be placed on the shelves of the Peter White public library for circulation today. The books have just been received and are the latest works of their authors. They are: Bennett, Hugo; Bowen, Viper of Milan; Conner, Doctor; Conelli, Treasure of Heaven; Freeman, Light of Soul; McGrath, Half a Rogue; Mearns, At Court Maharaja; Warner, Seeing France; White, Mystery.

City Brevities

Today's weather: Probably snow; rising temperature.

Yesterday's temperatures: Seven a. m., 5 degrees; noon, 13; 7 p. m., 19. Maximum, 23 degrees; minimum, 4.

Harry Berman of Calumet was in the city yesterday on business.

Fred W. Hobard of Peppanung was a visitor in the city yesterday.

The Retail Clerks' union will hold a meeting at 8 o'clock this evening.

Mrs. C. Burt leaves today for Detroit, where she will spend the next three months.

Roy Young, of the Marquette National, spent Tuesday in Calumet, on a business mission.

Division No. 4, A. O. H., will hold a meeting tonight in the A. O. U. hall on Washington street.

Jacob Rose, the front street merchant, left Tuesday evening for Chicago on a few days business trip.

H. E. Stewart, of Houghton, commercial agent of the St. Paul road, was a Marquette visitor yesterday.

E. V. Hillyer of Ishpeming, engineer for the county road commission, was in the city yesterday on business.

T. W. Simcox of Negaunee was in the city yesterday attending the plumbers gathering at the Hotel Marquette.

The Marquette and City teams will play indoor ball at Fraternity Hall Friday evening. Ladies will be admitted free.

Sheriff John Rough arrived yesterday afternoon from Ionia, where he placed three prisoners in the Michigan Reformatory.

Martin Johnson and Gary Gustafson, both of Marquette, were granted a marriage license by County Clerk Mark Elliott yesterday.

L. W. Atkins left for Chicago last evening, to join S. S. Ormsbee, with the purpose of doing some buying for their Marquette store.

H. L. Kaufman leaves tonight for New York, where he will spend a few days on business. He will later go to Hot Springs, Ark., to remain about a month.

Charles Schaffer and sister, Miss Marie Schaffer, arrived home yesterday morning from a trip to Mexico City and points in the southwest. They were absent about two weeks.

Will H. Boon of Calumet, Will C. Funkey and Ed. A. Hamilton of Hancock and Fred W. Stoye and T. A. Steiler of Houghton are here to attend the master plumbers' convention.

Frank J. Jennison, cashier of the Marquette National, left last evening for Florida, where he will enjoy a vacation. It is expected that he will be absent from the city about a month.

Col. Robert J. Bates of the Third Regiment, M. N. G., passed through Marquette yesterday on his way to the copper country, where he will inspect the companies at Houghton and Calumet.

S. S. Cameron, manager for the Singer Sewing Machine company, is now nicely settled in his new quarters on Third street opposite the postoffice. Increasing business necessitated the change to the larger office.

Elma Johnson was granted a divorce from Harvey J. Johnson in circuit court yesterday on grounds of cruelty. The custody of the three children was given to the woman's brothers, both parents having the privilege of seeing them whenever they desire.

James T. Fisher, president of the International Hockey league, and John Amoloch, manager of the Palestra, the home of the Calumet team, of Laurium, were in the city yesterday on their way to Sault Ste. Marie, where the Calumet team plays a series this week.

To Entertain April 8—The Ladies' Auxiliary of the L. U. F. C. will give a social hop at Fraternity hall Monday evening, April 8, instead of next Monday evening, as previously stated. Dancing, cards and luncheon will be the program of the evening's entertainment.

Gordon Back in Lansing—John R. Gordon returned to Lansing yesterday, after a several days' absence on account of the trouble he has been having with his eyes. He took up the charter amendment bills with the governor, and it is expected that they will be signed today. Some protests against them have been filed, but it is said they have been outweighed in the governor's eyes by the contacts or near the dikes where

Ormsbee & Atkins

Marquette's Largest Clothiers and Haberdashers. Nester Block. Washington Street.

considerations that have been placed before him. According to the charter changes, registration will not occur until the Saturday before election. On the assumption that the changes would be approved by the governor no registration notices were issued under the old law, and notices will not be out for some days yet. As there will have to be a complete new registration, the boards promise to have a busy day.

Hose Company Officers—The annual meeting of the Morse Hose company was held Tuesday night and the following officers were elected in addition to Chief T. J. Mancy and Assistant Chief M. D. Mulhally, who are appointed: Foreman, James J. Donovan; first assistant foreman, Frank LaBonte; second assistant foreman, Philip Hopkins; foreman of hook and ladder, Peter Donovan; secretary and treasurer, John Siegel.

Goes to Isle of Pines—John Herlick of L'Anse, an engineer on the South Shore and a former resident of Marquette, has gone to the Isle of Pines to look over some holdings of land. Mr. Herlick has been granted a ninety-day leave of absence. His land is reported to be well cultivated, in a district rapidly growing in commercial value, and if he finds all satisfactory he will return to L'Anse and remove his family to the West Indies to reside.

Mass Ski Tournament—Announcements have been received here of a ski tournament to be held by the Finnish Ski club at Mass City next Sunday and Monday. The South Shore offers special rates and it is probable some enthusiasts from here will attend. The ski season is fast drawing to a close and the Mass tournament will probably be the last for this year, all the other towns where the sport is in favor having already held their tournaments.

Children's Story Hour—The weekly story hour will be held at the Peter White public library at 11 o'clock next Saturday morning, as usual. The hour will be for children of the third to the sixth grades inclusive. Miss Ella Erickson will be in charge and she will talk on nature study subjects. Miss Erickson, who is a teacher in the public schools, has made a specialty of nature study and her familiarity with the subject insures an interesting talk to the children.

Stocks Attract Attention—Paine, Webber & Co.'s office was largely frequented all yesterday, not because stocks were going up, but because they were going down. The declines were numerous and in some cases of considerable proportions. On top of recent weakness they made new low records in many stocks. Paine, Webber & Co. were only buying for cash, and for this and other reasons there was little trading on the buying side of the market. Most of the local talent is either selling or just holding on.

"The Old Clothes Man"—Joe Santry, a well-known theatrical man, ahead of "The Old Clothes Man," which will hold the boards at the Marquette Opera House next Tuesday evening, is in the city completing the arrangements for the appearance of his company. "The Old Clothes Man" is a companion piece to the "Auctioneer" and "Musie Master," and according to Mr. Santry it scored a notable success on the Eastern circuit last season. The play was written by James Kyrle MacCurry. The author will be seen here in a leading role, supported by the original Tanhouser Stock company of Milwaukee.

CARD OF THANKS.

We wish to extend our heartfelt thanks to our many friends for their floral tributes at the funeral of Richard Tenby. We wish also to thank the Marquette Lodge No. 108, I. O. O. F., for their attendance. Their kindness will always be remembered.

A. W. MULLHAUSER, and family.

COMMUNICATED.

Marquette, Mich., March 6th, 1907. To the Editor of the Mining Journal:

In your editorial of this date you say, "In the First and Fifth wards the re-checking of the ballot boxes showed deplorable carelessness, if not worse, on the part of the election boards etc." While the above is true as to the First ward, I desire to state that it is wholly untrue as to the Fifth ward, and that it is an unwarranted criticism upon the election board of the latter ward.

Every vote that was thrown out by

the recount committee from the Fifth ward was a vote cast for Walter T. Ward for mayor, and was thrown out because the recount committee claimed that it bore distinguishing marks.

The recount of the Fifth ward, however, demonstrated the fact that the original count had been fairly and honestly conducted.

Yours, etc., C. F. BUTTON.

THIS IS WORTH REMEMBERING.

We do all kinds of upholstering, and always carry a full line of samples of furniture coverings in the latest patterns and do all kinds of furniture repairing; also renovate hair mattresses, and make them as good as new. We make and hang Window Shades, we make Picture Frames, we sell Cedarine Furniture polish, the best now on the market, and sell the best Carpet Cleaning Soap on earth. We sell Carpets, Rugs and Portieres, and as good Furniture as is made in this country, at a reasonable price. Last but not least we are manufacturers' agents, and can sell you as cheaply as any furniture house in Chicago, Grand Rapids or Detroit, assuming all risk of breakage and placing the goods in your home. When in need of anything in our line give us a call. HAGER BROS. CO., LTD. 118 South Front St. S-7-4fj

TWO IN ONE WINTER. C. E. Emerson, of Fitzwilliam, N. H., had two attacks of pneumonia in one winter. He writes that two physicians said he could not recover from the last attack. After they had given up hope he began taking Foley's Honey and Tar, which brought him out all right. He writes that he surely thinks Foley's Honey and Tar is the grandest remedy for throat and lung troubles. The Stafford Drug Co.

**Ishpeeming Department**

**GOOD MONTH REPORTED.**  
Total Receipts of Municipal Court in February Exceeded \$200.

February was one of the best months in point of business that the municipal court has had in some time. Judge Andrews' report was submitted to the council at last night's meeting. The sum collected for fines in the criminal cases was \$29; the costs in these cases were \$34.50, and the amount received on account of the civil cases was \$6. The sum received from the county for officers' fees in December and January was \$27.85, and the justice fees from the same source for December and January footed up \$43.69, making a total of \$203.04. From this sum \$20 was deducted, having been paid the county treasurer on account of fines collected.

Both December and January were light months in the court, but these, as a rule, are the two lightest months of the year. The total receipts in December were \$129.45. From this sum \$20 was deducted as the county's share of the fines collected, leaving a net balance of \$109.45. The total receipts in January were \$122, with \$20 deducted for the county, leaving a balance of \$102 for the city.

Under the present system there are not more than 50 per cent as many arrests of drunk and disorderly persons as there were when the justices of the peace were in office. This is largely accounted for by the fact that the \$1 fee formerly paid the officer making the arrest is no longer allowed. The officers, as a rule, are not as particular in watching the drunks as they used to be.

**GOES TO NEW YORK.**  
Ishpeeming Miner Accepts Position With Hudson Mining & Smelting Co.

Emil Vanner, who has been engaged in mining here a number of years, will leave today for New York, where he accepts a position as mining captain with the Hudson Mining & Smelting company, operating properties some forty or fifty miles outside of New York city. Mr. Vanner has been in the employ of the Cleveland-Cliffs Iron company a number of years and he has been one of the corporation's best and most trustworthy workmen. His family will remain in Ishpeeming until he finds it convenient to move them to New York.

Mr. Vanner was tendered a social surprise last evening at his home by a large number of the members of the Mission church congregation. He has been an active worker in the church society for a number of years and for some time past has been a member of the board of trustees, also the church treasurer.

**VOTING MACHINES.**  
Ishpeeming Council Decided Not to Invest in Them at Present.

The committee appointed after the regular session of the council in February to investigate voting machines submitted its report to the council at the regular monthly meeting last evening, recommending that the proposition of both the U. S. Standard and the Abbott machine companies be declined. The committee does not think it advisable to purchase machines because of the heavy expense. If the committee had recommended the purchase of ten Abbott machines and the council had concurred in the recommendation the total sum to be expended would be \$3,300. On the other hand, if the U. S. Standard machines were bought it would require an expenditure of \$6,000.

**ESCANABA BUYS MACHINES.**  
Mr. Blake advised The Mining Journal yesterday that the council of Escanaba decided at its meeting Tuesday evening to purchase seven of the Abbott machines, to be used in the April election. One of the machines has been on exhibition at Escanaba for four weeks past during which time about 100 voters have inspected it. Mr. Blake recently sold ten machines to one of the townships in Delta county, and he said yesterday that he has very good prospects of selling several more in the upper peninsula before the forthcoming election.

**"OLD CLOTHES MAN" TONIGHT.**  
"The Old Clothes Man," at Ishpeeming theater this evening, with James Kyle MacCurdy, the author, in the title role of Solomon Levi, is a melodrama dealing with slum life in New York. The play is rated above the average melodrama. The leading character part is that of a Jewish peddler and it is said to be very well portrayed by Mr. MacCurdy. Popular prices, twenty-five, thirty-five, fifty and seventy-five cents, will prevail.

For Catarrh, let me send you free just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. It is a snow white, creamy, healing antiseptic balm that gives instant relief to Catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by The Stafford Drug Co.

**CARD OF THANKS.**  
We desire to express our heartfelt thanks to friends for the sympathy tendered and favors extended during the death of our father, the late Richard Fenby. We feel under obligations to Ahmeek lodge of Odd Fellows, of Ishpeeming, also the friends and neighbors and particularly those who sent such beautiful floral offerings. The aid and sympathy so feelingly expressed did much to lessen our burden of sorrow.

M. R. and MRS. DAVID JOHNSTON.

**PURE FOOD IN PACKAGES.**  
Where possible every purchaser should buy goods in packages. When goods are put up in packages the manufacturer is interested in maintaining the standard of a brand, also packages preserve the goods in their original strength and purity and qualify for a great number of years. XXXX Coffee is also full weight and those who purchase it can be certain of securing the best brand of Coffee that is put up for the price. All good grocers keep in stock the XXXX brand of Coffee.

**CLERKS ENTERTAIN.**

The local branch of the Clerks' union entertained a large number following its business session Tuesday evening. The following program was rendered, after which a lunch was served:  
Piano solo Irene Tremberth.  
Boys' quartet Kinsman, Rogers, A. Conch and C. Conch.  
The Arlington quartet Bettson, Tremberth, Crab and Wills.  
Instrumental selection Boys' quartet Italian solo Beatrice Chapman.  
Piano duet Emily Sundberg and Nina Blomgren.  
The Arlington quartet.

**WILL VISIT IN EUROPE.**

Dr. J. I. Lindgren and wife will leave next Wednesday or Thursday on a three months' trip abroad. They will spend some time at their native place in Finland and will also visit the principal points in several of the other European countries before returning. Dr. Makkyla of Butte, Mont., a graduate of a Finnish institution, who has been practicing in this country for the past four years, will arrive here Saturday and will look after Dr. Lindgren's hospital and private practice during his absence. Dr. Lindgren has been in need of an assistant and expects to retain Dr. Makkyla permanently.

**WOOD SCARCE.**

Some of the Ishpeeming fuel dealers are out of wood and many of the orders received yesterday could not be filled. For more than a month past there has been a shortage, due to the inability of the railroads to deliver the wood as rapidly as it is needed. The shipments expected yesterday did not arrive, as the railroads at points west of here were unable to load the day previous, on account of the storm.

**FROM HOPKINS' CURB LETTER.**

The general stock market is weak. Ralls, industrials, and copper are all participating in the decline and it cannot be said that the weakness is any more pronounced in one direction than in another. On the Chicago Mining Exchange Superior & Pittsburg was in good request at 25 but the trading lacked life. Raven was off to 2 1/4, with very little demand at the decline. Utah Consolidated declared a regular dividend of \$1.25 per share with an extra of 25 cents per share payable April 15 to stock of March 15. No pronounced weakness is shown in metal. In fact the price is holding very well in the face of the general weakness, but public sentiment is against the market.

**Says I to myself says I—they only cost five cents a package.**

**NATIONAL BISCUIT COMPANY**

**ISHPEMING IN BRIEF.**

Ed. Clark left Tuesday evening for Chicago and Milwaukee on a business trip, to be absent a few days.

Victor Vallois has been appointed local agent of the Pabst Brewing company, succeeding Charles Skoglund.

F. E. Nightingale, traveling auditor for the Oliver Iron Mining company, was at the corporation's local office yesterday.

W. H. Johnston, general superintendent of the Oliver Iron Mining company, arrived home yesterday from Duluth, where he spent a few days on business.

The big road plow was run over the principal thoroughfares leading to the locations in the outskirts of the city yesterday. Three teams were hitched to it.

There were eighteen deaths in Ishpeeming last month, compared with fourteen in February of last year. The total number of births recorded with the register was twenty-seven.

T. J. Merrian of Chicago was here yesterday on business with the Cleveland-Cliffs Iron company. Mr. Merrian promoted Hawarden Inn, Gladstone's principal hotel, a few years ago.

The Cleveland-Cliffs Iron company will pay its Salisbury and Cliffs shaft mine employees a week from today, the 14th. The men at the Lake and Hard Ore mines here, and the Maas, Neganee and Jackson at Neganee, will be paid the 15th, and the men in the Swanzy district the 16th.

D. J. Shuey, who left here a week ago Sunday night for New York to meet his brother Jerry, who was being brought home from the Panama canal, has advised relatives that he will be home within a week or ten days and he will likely be accompanied by Jerry, who is at present confined to a New York hospital.

**Upper Peninsula**

**Mining Man Critically Ill—**  
John Cuff, well known on the entire Menominee range as an explorer, is seriously ill at his home at Norway, and the physicians do not hold out much hope for his recovery. Mr. Cuff has been troubled for years with kidney trouble which has developed into Bright's disease.

**More Honors for Chapman—**  
Hon. Charles H. Chapman, state game warden, has been commissioned judge advocate for Michigan with the rank of major on the staff of Governor Warner. In the Spanish war he was first lieutenant of Company C, of the Fifth regiment. Afterwards was made captain, and now receives further promotion.

**Crystal Falls Politics—**  
At Crystal Falls, all of the present municipal officials with the exception of Treasurer Nelson will be candidates for re-election. Mr. Nelson positively refuses to be a candidate again for the reason that he intends taking a trip to his old home in Sweden the coming summer. R. P. Hollow is out to succeed him. Robert Mums has proved so efficient an incumbent of the clerk's office that the people have been satisfied to let him keep it for the past four years and he hopes that he has not fallen

**Candidate for the Superintendency—**  
Professor J. F. Selbeck, superintendent of the Michigan schools, is an applicant for the superintendency of the public schools of Iron River, a position made vacant by the enforced resignation of the recent incumbent. He has had many years experience as a teacher and superintendent and carries strong recommendations, one of which is from Professor M. R. Parmelee, under whom he taught at Nashville some years ago.

**Smallpox in Mackinac—**  
Western Mackinac county, in the vicinity of Nausimaw, has another outbreak of smallpox. The report is that Dr. Tucker has two severe cases in charge, and has quarantined the camp in which the disease has appeared.

**PILES CURED IN 6 TO 14 DAYS.**  
Pazo Ointment is guaranteed to cure any case of Itching, Blind Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

"Cudahy's Brothers Co.'s Peacock Kettle Rendered Lard 'Like mother used' is what I want." Sold by all up-to-date dealers. (11-57-eed-3m)

**STORE OPEN AGAIN**

**MORE BARGAINS**

The prices on our Bankrupt Stock have received another big cut and those who did not take advantage of our bargain offerings during our big six-days sale will do well to call now. The stock must be reduced and in order to cut it down the prices have been greatly REDUCED.

**MRS. ELLEN CLARK**

### SPEAKER FOR COMMENCEMENT

PRESTON W. SEARCH TO DELIVER ADDRESS AT HIGH SCHOOL CLOSING JUNE 20.

### THIRTY MAY GRADUATE

Preliminary Arrangements for Commencement Exercises of Marquette High School Being Made—Class Day Probably June 17.

June, the month in which the graduate claims undivided attention, is still some time distant, but already arrangements for the commencement of the Marquette High school have progressed considerably.

Arrangements have practically been completed by which Preston W. Search, one of the most noted educational lecturers in the country, will deliver the principal address of the evening.

For several years past, Prof. Search has devoted his efforts in the educational line almost entirely to speaking from the lecture platform. He was formerly superintendent of schools at Pueblo, Colo., and later at Los Angeles, Cal., and Holyoke, Massachusetts.

Prof. Search came into prominence among educators in general through his origination of the "Pueblo Idea" of promotions. He devised this theory and put it into practical use while superintendent of schools at Pueblo and later in the other cities, where he acted in that capacity.

The Pueblo idea of promotions advocates the complete disintegration of the class system, new in vogue in almost every educational institution in the country.

Prof. Search came into prominence among educators in general through his origination of the "Pueblo Idea" of promotions. He devised this theory and put it into practical use while superintendent of schools at Pueblo and later in the other cities, where he acted in that capacity.

dividual promotion in his schools. At other places, the idea was used in a modified form, with good results. Prof. Search's subject for his address here has not yet been selected, but a most entertaining and instructive discourse is in prospect.

Just what number of students will be included in the graduating class this year, is, of course, not finally settled, nor will it be for some time yet. The average class of the Marquette High school in recent years has numbered between twenty-five and thirty.

### MASTER PLUMBERS ARE IN SESSION

UPPER PENINSULA ASSOCIATION WILL PROBABLY BE FORMED AT MEETING BEING HELD HERE.

Yesterday afternoon, the master plumbers of the upper peninsula began a two days' session at the Hotel Marquette. The initial meeting was attended by representatives from all the important centers of the upper peninsula.

Individually, a number of the master plumbers of the upper peninsula are members of the state organization. The distance of the upper peninsula cities from the headquarters of the association at Detroit, however, and the desirability of the members of this portion of the state being brought closer together and working more in unison, caused the officers of the state association to make this effort toward organizing an upper peninsula body.

Yesterday afternoon and evening, the plumbers discussed different subjects of interest to their craft and the state officers explained the purpose of the gathering. Today, the discussions will continue and this afternoon, it is expected, an Upper Peninsula Master Plumbers association will be organized.

While in Marquette, the visiting plumbers are the guests of the Marquette members of the craft and they are being shown every attention. The meeting will be brought to a conclusion tonight by a banquet.

You will always find three first-class barbers at the National Barber shop, GUY H. FREESE Prop.

### BULL DOG WILL CLOSE WITH WOLF

RUSSIAN HOUNDS, IT IS SAID, FEAR WOLVES AND WILL NOT ENGAGE IN COMBAT WITH THE ANIMALS.

State Game Warden Chapman's scheme of testing the ability of Russian wolf hounds to kill off the wolves in the upper peninsula is bringing out all sorts of suggestions. Frank Parker, a former chief of the fire department at Iron Mountain and now a resident of Chicago, is visiting in Menominee and in an interview with a newspaper man there he claims a bulldog is the only animal which will close with a wolf.

The Norway Current of last week says: "On account of the sickness of Rev. F. F. Datson, of Iron Mountain, the services at St. Mary's Episcopal chapel last Sunday were conducted by Bishop G. Mott Williams of Marquette, who delivered a very able address on George Washington."

"The bishop, in speaking of the chapel, which he had presented to the congregation, said that he was disappointed to find that it was so small, but was gratified to learn that the congregation is growing to such proportions as to already need a larger church, and also stated that he would like to see a brick church erected here. So enthusiastic is he over the results, that he agreed to give the amount of brick and cement required to build the church, so it now rests with the congregation whether or not they shall have a church."

Phone girls have many ills. For which they take some nasty pills; If a healthy and happy girl you'd be, Ring up for Rocky Mountain Tea. —The Stafford Drug Co.

We wish to announce the arrival of our spring line of Floor Rugs which include the Bigelow Bagdads, Arlingtons, Axminsters and Wellington Wiltons; all new and bright, direct from manufacturers at same prices as inferior stock is sold for. Do not invest a dollar in Rugs until you see our line. We will save you money, guaranteeing you Chicago or Milwaukee prices. HAGER BROS. CO., LTD. (3-7-11)

going to close with the wolf and the minute he does the others are going to take a hand in the fight and clean him up. A bulldog can't run as fast as a wolf, but if the snow is not over deep or there is a crust he will run just as far. Just look at the torso of a bull. No dog in the world has such lung development. A mixed pack is the only one to hunt wolves with and the hunters of the northern peninsula might just as well realize that fact now as later."

### SKI CONTESTS SUNDAY.

Boys Have Laid Out Good Hill in North Marquette, Back of Normal.

Sunday afternoon at 2:30 o'clock there will be an impromptu ski tournament on the new slide recently laid out on the heights back of the Normal. The prospective contestants will meet at the hill Saturday afternoon for practice slides, to become accustomed to the hill. It is expected there will be a number of entries, as there are many youths in the city who have aspirations to excel on the ski.

The hill laid out by the boys is reported to be an excellent one. The slope is sufficiently great so that good speed may be acquired. The run is about seventy-five feet long, with a good hump and a stretch at the bottom for recovery fully three blocks in length. The hill is in good condition and the boys expect to make some good records Sunday afternoon. The slide is convenient to the city, being only about 100 yards from the Normal and consequently accessible by street car.

### BISHOP OFFERS HELP.

Bishop Williams Would Give Brick for Church at Norway.

The Norway Current of last week says: "On account of the sickness of Rev. F. F. Datson, of Iron Mountain, the services at St. Mary's Episcopal chapel last Sunday were conducted by Bishop G. Mott Williams of Marquette, who delivered a very able address on George Washington."

"The bishop, in speaking of the chapel, which he had presented to the congregation, said that he was disappointed to find that it was so small, but was gratified to learn that the congregation is growing to such proportions as to already need a larger church, and also stated that he would like to see a brick church erected here. So enthusiastic is he over the results, that he agreed to give the amount of brick and cement required to build the church, so it now rests with the congregation whether or not they shall have a church."

Phone girls have many ills. For which they take some nasty pills; If a healthy and happy girl you'd be, Ring up for Rocky Mountain Tea. —The Stafford Drug Co.

### SPECIAL NOTICE.

We wish to announce the arrival of our spring line of Floor Rugs which include the Bigelow Bagdads, Arlingtons, Axminsters and Wellington Wiltons; all new and bright, direct from manufacturers at same prices as inferior stock is sold for. **NEW LONG DISTANCE TELEPHONE COMPANY**

ARTICLES OF INCORPORATION OF COMPANY WITH \$15,000,000 CAPITAL ARE FILED AT LANSING.

Papers have been filed at Lansing, the fees for recording which alone will amount to \$7,500, for the organization of a \$15,000,000 telephone company, with headquarters in Detroit and branch offices in different cities throughout the state, including Marquette. The company is incorporated for thirty years, for the purpose of building a long distance telephone system throughout Michigan, connecting with the various independent telephone systems of Michigan and other points east and west. The capital stock is divided into 150,000 shares of a par value of \$100 each. The initial subscription of stock is \$1,500,000 and of this amount \$500,000 has already been paid in. Of the total number of shares, 100,000 will be preferred stock. It is said that over \$1,500,000 will be expended on construction work during the coming summer. It is proposed to begin work immediately, with a large force of men, on the construction of sixty telephone circuits, including more than 3,000 circuit miles of wire. Dispatches from the lower part of the state say that the Marquette Construction company will do the construction work. Although the names of the incorporators of the new company have not been given out, it is inferred here that the Home Telephone company of Detroit is behind the project. The company has been fighting the Michigan Telephone

# THE CABINET RANGE MINING CO.

## OF THE

# PRIEST LAKE COPPER DISTRICT

## OF IDAHO.

Two million shares, par value one dollar, full paid and non-assessable. Treasury stock, 400,000 shares. All personal holdings pooled until company has been financed and on a paying basis.

Officers: President and Treasurer, William C. Maybury, Detroit; Vice President, A. I. Marentette; Secretary-Treasurer, Thos. W. Payne; Directors, W. C. Maybury, A. I. Marentette, Thos. W. Payne, Malcolm J. McLeod, Allen S. Brown, Chas.

D. McLean, L. R. Chace.

These men have invested their capital in developing the property, being assured that it will make a rich mine.

They now invite investors to join with them and aid in the further development of the property and share with them in its profits.

The management of the property is composed of gentlemen who are thoroughly trained in both the technical and financial

sides of mining.

**SHARES—25 CENTS.**

The property of this company is located in the United States Forest Reserve and lies along the hillside to the west of Priest Lake.

Property consists of 27 claims, 545 acres. The mineral is a smelting ore of copper, iron and lead, with good values in silver and gold.

25,000 Shares have been allotted to Marquette. Wire reservations for Cabinet Range to

OFFICE, 706 HAMMOND BUILDING

Cabinet Range Mining Co., Detroit, Mich., Feb. 9, 1907.  
Detroit, Mich.:

GENTLEMEN:—Since making report of the Cabinet Mining Property, I have kept in touch with the Priest Lake Mining district, being in correspondence with the owners of the several mines that are developing. From the reports and assays made of samples of ores sent me, the development of the district has come up to my expectations and, in fact, the ore has proven richer at the present depth than I anticipated. Copper has been struck under barren iron croppings, which corroborate my original report on Cabinet Range Property.
