The question of a lunacy commissio looms prominent still. Mr. Jerome may ask for the appointment of such a commission at any time, and this may halt the proceedings. Thaw's lawyers and the defendant himself, it is said, have more fear of the suspension of the trial in favor of a commission than the verdict by the jury. The defense is prepared to fight such an appointment.

The Thaw case begins to pale. We are about ready for a new nine-days sensation.

The suspicion that Mr. Harriman has been at work again is not yet a certainty.

The Bessemer correspondent evidently proposes to have a fight on Representative Young, if he has to run himself.

Between McClure's and Son Glover Mrs. Eddy and her kitchen cabinet appear to be getting a very liberal run for their spare change.

The Marquette council resembles congress in that while it has its sins of omission it is to be credited with many excellent things accomplished.

Governor Davidson's suggestion that the Wisconsin legislature proceed at once with the election of a senator finds Ike Stephenson of Marinette ready and waiting.

Next time we contemplate charter changes perhaps the invitation to attend the public meetings in which they are formulated will be more generally responded to.

The New York Sun unflatteringly dubs the magazine debating society in which W. J. Bryan and Senator Beveridge are the same fees and had, in general, folthe star performers "a duel of unregulated intellects."

The Mining Journal is inclined to believe that when the opinion of the voters is tested on the question of voting machines it will be found to run pretty strongly toward the machines. At least the majority of people one meets about the city seems to regard them with favor.

To a man up a tree it looks as if the long distance telephone field was pretty well filled in Michigan. However, com-

FOR COOPER MEDICINES From All Over the United States Startling Accounts are Received of the Unprecedented Re-

The wonderful new medicines, Cooper's New Discovery and Cooper's Quick Relief, with which L. T. Cooper has had such marvelous success in the treatment of stomach trouble, kidney trouble, catarrh, deafness, rheumatism and other diseases in every large city and about which every one has read numerous accounts in the newspapers, have become in great demand and have had a tremendous sale; this demand for these famous remedies is increasing. From this very city the sale and results obtained from Cooper's New Discovery and Cooper's Quick Relief has been marvelous.

DREAD CATARRH.

If you are troubled with a foul smelling breath, inflammation and soreness of nasal cavities and air passages and the dropping of a nasty mucous from head to the throat, if there is a dull heavy frontal headache and ringing sounds in your head and you find yourself gradually growing deaf, beware of catarrh.

Cooper's New Discovery should be taken internally to expel the catarrhal virus from the system and heal the mucous membranes of the nasal cavities and air passages. It heals the tissues of the throat and bronchial tubes, and frees the entire system of all catarrhal poison.

Cooper's Quick Relief should be used in connection with Cooper's New Discovery for catarrhal headaches and in all cases of catarrhal deafness to open the eustachian tubes and restore the nerves of the ear to their normal condition.

OF WILCOX, ARIZONA.

This company owns ten claims, or about 200 acres of mineral lands in Cochise County, Arizona, and within one-half mile of the new acquisition to the Calumet & Arizona, the Casey property, for which absolutely undeveloped property the said company paid \$100,000.

The Sunset Mining & Milling Company's property is being rapidly developed under the able and conscientious management of Mine Superintendent George H. Wilson. The ore which is taken out is being shipped to the nearby smelters for treatment and everything indicates that in the near future this will be one of the richest mines in Arizona. Samples of ore from this mine which have been assayed at the Michigan College of Mines by Professor L. S. Austin have shown an ore value of \$134.14 per ton of copper and silver.

The Board of Directors consists of some of the most prominent and substantial business and professional men in the state of Michigan whose very names are a guaranty as to the reliability of the company, and whose standing may easily be ascertained in any bank through the reports of Dunn or Bradstreet.

The developing work has now progressed to such an extent that the Board of Directors has decided to erect their own smelter and for the purpose of building this smelter and making some other necessary improvements a limited amount of stock will be sold. The first allotment of this stock is now offered to the public at 75 cents per share. No less than 50 shares sold. At least one-half of the amount must accompany all orders, the balance may be paid in two equal monthly installments. Five per cent discount will be allowed for cash within 30 days. a more potent remedy in the roots and herbs of the field than was ever produced from drugs.

In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value. During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded

person and every thinking woman. When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

The car that carried four passengers 1,050 miles over rough roads without stoppage, motor repairs or car repairs-The car that won the National Economy trophy and four other

prizes in the same contest; and that carried its passengers at a total cost of 30 cents each per 100 miles-

The car that was penalized 30 per cent, and practically barred out of the great 2-Gallon Efficiency Contest-

The only car that ever crossed this continent and back again on its own wheels-

The \$1.250 car which does all that the average \$3,000 car doesand more than most of them-

That is the car whose merit and real economy are self-evident. That is the car which you cannot afford to overlook. Write for the book that tells why.
