

Fearful Disaster at Toulon Arsenal

EXPLOSIONS OF HER POWDER MAGAZINES DESTROY THE BATTLESHIP IENA, ONE OF THE BEST IN THE FRENCH NAVY, WITH AWFUL LOSS OF LIFE.

COMMANDER OF THE VESSEL AND PROBABLY FOUR SCORE BLUEJACKETS ARE KILLED, SOME BLOWN TO PIECES, OTHERS INCINERATED, AND A REAR ADMIRAL AND HUNDREDS OF OTHER MEN ARE SUFFERING FROM GRIEVOUS WOUNDS—NATION STUNNED BY THE APPALLING CATASTROPHE.

Toulon, March 12.—A terrible disaster occurred here this afternoon. The powder magazines of the French battleship Iena blew up, and as a result Captain Adiger, commander of the ironclad; Captain Vertiz, chief of staff of the Mediterranean squadron, and seventy to eighty bluejackets are dead, while Rear Admiral Maneron and hundreds of other men are suffering from injuries, some of them horrible in their extent.

Naval circles are aghast, and the public is stunned by the appalling catastrophe, coming so soon after the loss of the French submarine boat Lutin, in which sixteen men met death.

Bodies Hurled Into the Air. The entire aft part of the Iena was blown to pieces. The bodies of the victims were hurled through the air by a succession of explosions, and the panic-stricken workmen at the arsenal fled from the vicinity of the drydock for their lives.

It is declared that for thirty minutes the authorities were unable to discover the keys with which to open the locks to flood the drydock and submerge the ship, but when they finally opened the locks the water rushed in onto the Iena and stopped the explosions.

Then, amidst masses of dense smoke, search for the dead and wounded was commenced. The bodies of the Iena were littered with fragments of shattered and torn bodies, while the surrounding water was dotted with human fragments.

It will be impossible to ascertain the exact number of killed and wounded until tomorrow, when a roll call will be held, as many of the men were blown to pieces while others were incinerated. Many of those who escaped with their lives, suffering in some cases severe injuries, became temporarily insane and rushed frantically around the vicinity of the drydock until they fell exhausted.

The arsenal authorities organized an ambulance service, and soon a long procession of injured men were on their way to the hospitals. This evening 150 wounded men were in hospitals or in their own homes, in addition to a number of people in town who had been struck by projectiles from the explosion. A two-year-old child was killed instantly in town by one of the missiles.

Many Caught Like Rats. The explosion came without warning. The first shock was extremely violent, and shook the vessel fore and aft. It was followed instantly by other shocks. The crew rushed wildly hither and thither. Those of the men forward clambered over the bulwarks and jumped down, some of them to the stone quay. Many of these sustained fatal injuries. The hundreds of men below deck were

CASIMIR-FEIRER IS DEAD. Former President of the French Republic Expires Suddenly. Paris, March 12.—M. Casimir-Feier, ex-president of France, died suddenly last night of embolism of the heart at his residence here. The news of the demise was not published until this morning. M. Casimir-Feier had not been well for two or three days, but it was supposed that he was suffering from influenza and no great importance was attached to his indisposition. He was not even confined to bed, but lunched and dined with his family and in good spirits. At about five last evening an abrupt prostration occurred. The ex-president was taken to bed and gradually became weaker until the end came. The cabinet met at noon and decided on a national funeral, but the family respectfully declined the honor in accordance with the wish of M. Casimir-Feier, expressed some time ago.

DUEL RESULTS FATAL. Captain in the German Army Shot and Killed by a Druggist. Berlin, March 12.—Captain Von Bercken, of the Ninety-third regiment of infantry, was killed in a pistol duel yesterday on the drill ground near Tegeln by a druggist whose name has not been disclosed. The cause of the dispute which led to the duel is unknown.

GOOD ROADS CONVENTION. Pittsburgh, March 12.—The fourth annual convention of the American Road-makers' association opened here today. Over 2,500 delegates, representing thirty-eight states, are in attendance, in addition to many prominent men interested in the advancement of good roads.

GERMANY TO FORTIFY. Berlin, March 12.—The Rheinische Westfallische Zeitung of Essex says that the navy department intends to acquire the entire tableland of the island of Helgoland, and will build a strong fortress there.

EACH ACCUSES THE OTHER. Chicago, March 12.—Howard Nicholas and Leonard Leopold were today placed on trial for the murder of Margaret Leslie, an actress, in the Palace Hotel Oct. 17 last. Each charges the other with the crime.

FLEECED TOURISTS, IT'S SAID. Salt Lake City, March 12.—Chief of Police George G. Shuest, charged with conspiracy to defraud tourists passing through Salt Lake City, was today held to the criminal division of the district court.

BALL PLAYER KILLED.

Pitcher P. J. Hines the Victim of a Saloon Brawl in St. Louis. St. Louis, March 12.—Patrick J. Hines, who two seasons ago pitched for the St. Louis American league and who came signed with Milwaukee for the coming season, was shot and killed this morning in the saloon of Harry V. Grover. Louis W. Richardson, the bartender, has been arrested, charged with the killing. Richardson declares that he fired in self defense. The trouble arose over Hines refusing to pay for beer he had ordered.

WON IN EIGHT ROUNDS. Davenport, Ia., March 12.—Paekie McFarland, of Chicago, tonight defeated Joe Galligan, Battling Nelson's former sparring partner, in eight rounds. A knockout was prevented by Galligan's seconds throwing up the sponge.

TODAY'S WEATHER. Washington, March 12.—The following is the weather bureau's forecast for Upper Michigan: Fair and colder, Wednesday; Thursday, fair; fresh northwest to north winds.

HARRY THAW SAFE FROM MADHOUSE. Prosecutor Jerome Definitely Abandons All Idea of Asking a Lunacy Commission, and Will Demand the Death Penalty. He Plays Probably the Strongest Card He Holds, Evidence Indicating the Prisoner to Have Been Sane the Night of the Tragedy, and a Serious Blow Is Dealt the Defense When the Testimony Is Admitted by the Court—End Is in Sight.

STICKNEY WARNS President of the Great Western Hoists the Danger Signal. Says People, Through State Legislatures, Are Laying Foundation for Tremendous Panic—Bankruptcy Threatens the Railroads, With Consequences Appalling to the Nation.

TRUSTS INDICTED Government to Prosecute Church and School Furniture Makers. Eighty per Cent of the Business Controlled by Combines Which Are Alleged to Have Allotted Territory and Resorted to "Straw Bids" to Pull the Wool Over Eyes of the Public.

CHIEGO, MARCH 12.—W. A. Holbrook, of Chicago, who has been referred to as the directing force of the so-called church and furniture trust, and nine church and school furniture manufacturers were named in indictments returned this afternoon by the federal grand jury. In addition, two petitions were filed in the United States circuit court, asking for an injunction restraining the furniture companies from further violations of the Sherman anti-trust act, under which law the indictments were returned. The indictments charged the defendants with controlling 80 per cent of the church and school desk business in the United States.

The companies manufacturing church furniture against which indictments were returned are: American Seating company, Chicago; A. H. Andrews, company, Chicago; E. H. Stafford Manufacturing company, Chicago; Superior Manufacturing company, Muskegon; Owensboro Seating & Cabinet company, Owensboro, Ky.; Southern Seating & Cabinet company, Jackson, Tenn.; Cincinnati Seating company, Cincinnati, O.; Friedman Seating company, New Richmond, O.; H. C. Voght Sons & Co., Parker City, Ind.; F. A. Holbrook, Chicago.

In addition to the alleged violation of the anti-trust laws, the indictment also charges that Holbrook has organized an association, called the Prudential club, the object of which is to prevent competition in the sale of church pews throughout the United States. It is also charged that the defendants reported the names of all such churches or purchasers requiring furniture to F. A. Holbrook, and that Holbrook assigned and allotted prospective sales to different corporations in the combination, it being agreed by the members of the association that no sales would be made by any of them except in cases where they were assigned and allotted the privilege by Holbrook. The indictment also states that the members put in "straw bids" for the purpose of deceiving the public and making a show of competition.

The school furniture companies indicted are: Minneapolis Office & School Furniture company, Minneapolis; Owensboro Seating & Cabinet company, Owensboro, Ky.; the Hudson School Furniture company, Cincinnati, O.; Henry School Furniture company, Grand Rapids, Mich.; Peabody School Furniture company, North Manchester, Ind.; the Illinois Refrigerator company, Morrison, Ill.; E. H. Stafford Manufacturing company, Chicago; A. H. Andrews & Co., Chicago; American Seating company, Chicago, and F. A. Holbrook, Chicago.

According to the indictment, the plans of the corporation was very similar to that of the church furniture makers.

ILLINOIS TRAGEDY. Alfonso Jolly, Aged Forty, Murdered by His Son-in-Law. Pana, Ill., March 12.—Alfonso Jolly, aged forty, was shot and killed tonight by John Collier, his son-in-law, who was arrested and hurriedly taken to Taylorville, as it was feared that the intense feeling aroused might result in mob violence. Last Saturday Jolly preferred charges against Collier, alleging cruelty to Jolly's daughter. Today Jolly and Collier settled their differences out of court. This evening Jolly went to Collier's home, and was shot three times.

ALLEGED BANDIT CAPTURED. Wichita, Kas., March 12.—A man believed to be one of the Hunnewell (Kansas) bank robbers was captured tonight in a straw stack near Caldwell, Kas. He gave his name as Charles Arthur, and claimed St. Louis as his home. His face was badly mutilated, one eye was hanging out of its socket and one hand was partially off. His injuries were received, it is said, in a premature explosion at the bank.

GOTCH DEFEATS FARMER BURNS. Omaha, March 12.—Frank Gotch won from Farmer Burns tonight in two straight falls, catch-as-catch-can, taking thirty minutes each time.

HARRY THAW SAFE FROM MADHOUSE.

Prosecutor Jerome Definitely Abandons All Idea of Asking a Lunacy Commission, and Will Demand the Death Penalty. He Plays Probably the Strongest Card He Holds, Evidence Indicating the Prisoner to Have Been Sane the Night of the Tragedy, and a Serious Blow Is Dealt the Defense When the Testimony Is Admitted by the Court—End Is in Sight.

STICKNEY WARNS President of the Great Western Hoists the Danger Signal. Says People, Through State Legislatures, Are Laying Foundation for Tremendous Panic—Bankruptcy Threatens the Railroads, With Consequences Appalling to the Nation.

CHIEGO, MARCH 12.—The end of the Thaw trial at last seems to be in sight. Tentative plans for the final stages were agreed upon today by the opposing counsel, even to the detail of allotting the time for summing up.

District Attorney Jerome has at last burned behind him all bridges leading to a lunacy commission and has irrevocably pointed his course to proving that Thaw was sane when he shot Stanford White and that, being sane, his crime constituted murder in the first degree. Within ten days or two weeks the case should be in the jury's hands.

Mr. Jerome played today probably the strongest card he holds—evidence which came to his knowledge but a few days ago and which undoubtedly caused him to abandon the idea of sending White's slayer to the madhouse and to try for a straight-out conviction under the criminal statutes.

The evidence came from Mrs. Stanford White's brother, James Clinch Smith, who told a remarkably clear and succinct story of the events in Madison Square garden last night. White was killed and of a long conversation he had with Thaw just previous to the shooting.

It seems that Thaw sat for some time with Smith during the fatal performance of "Alma Sells Gaiety" and discussed with him various topics in a manner, Smith declared, such as any sane man would. The witness gave the conversation in detail, omitting nothing, he asserted. With the brother-in-law of the man who was so soon to be a victim of his plot, Thaw was going abroad, Wall street gossip, common acquaintances, plans for the summer and many other things, including a "luxury brunette" whom Thaw declared he was anxious to have Smith meet. Thaw said that he and his wife were going abroad later in the summer. There was no hint anywhere in the repeated conversation of Thaw's intent to inflict bodily harm upon anyone. Smith did say, however, that Thaw, not having a reserved seat, scanned about the garden and continually looked in the direction of the spot where he subsequently killed White.

Defense Is Overruled. Mr. Delmas, for the defense, bitterly fought the introduction of this testimony for nearly two hours today. He declared that Smith was properly a witness in chief and should not be allowed to testify in rebuttal. Mr. Jerome replied that he had known only for a few days the real value of Smith's testimony, and that he was going abroad, hoping thus to establish the day that Mrs. Thaw says she had her ghastly experience with White in the Twenty-fourth street house. Answering Mr. Delmas' objection, Mr. Jerome declared that if he allowed to fix the date of these pictures, he would show "that on the night following the day they were taken, when Mrs. Thaw says she was ruined, White was not in the Twenty-fourth street house at all."

Justice fairly shouted the last words, and pounded on the table before him. Mr. Delmas said he must stand upon his objection, and it was sustained. He then moved that the district attorney's improper remarks, "for which he had given much emphasis of voice and gesture," be stricken from the records. Mr. Jerome retorted by asking the court to instruct the jury that the alleged ravishment or non-ravishment of Evelyn Nesbit had nothing whatever to do with the case.

Justice Fitzgerald admonished the jurors to pay attention to the remarks of counsel addressed to the court, and to confine themselves strictly to the evidence. It was after this conflict that the agreement as to the closing stages was reached.

CAN HAVE HIS ROADS. J. J. Hill Would Be Only Too Willing to Have Government Step In. Minneapolis, Minn., March 12.—President J. J. Hill, of the Great Northern railroad, before the legislative committee, today declared without qualification that he would be only too willing to have the United States government take over his roads. He predicted, however, that if the government went into the railroad business it would have a white elephant on its hands and would very soon try to find some means of disposing of it.

Union Pacific Retrenching. Omaha, March 17.—General Manager Mohler of the Union Pacific tonight declared that his company is considering the transfer of its headquarters from Omaha to some other city on account of the recent legislation in Nebraska, but he declines, when asked, to say whether he looks out a policy for retrenchment had been inaugurated.

Washington, March 12.—A. B. Stickney, of St. Paul, president of the Great Western railroad, tonight in an interview discussing the railroad situation said: "The people are now laying the foundation, firm and strong, for a tremendous panic."

Mr. Stickney said he did not believe the crisis would be reached within the next two years, but he took the position that it will certainly come and will be even more disastrous than the panic of 1893. He declared, however, that if a railroad agitation is kept up, all the railroads are threatened with bankruptcy, and that hundreds of thousands of men will be thrown out of employment.

The great unrest in the financial world, President Stickney said, is not due to the policy of President Roosevelt, but is brought about by "hostile legislation by state legislatures."

Mr. Stickney contended that the only solution of the railroad problem is to grant all the power to regulate the roads to the federal government. He urged the establishment of a department of "interstate commerce," its head to be a member of the cabinet, and he asserted that the present interstate commerce commission is a failure because the power to act is placed in the hands of too many men. He said he believed that far better results could be secured if the entire matter were placed in charge of a cabinet officer, with power to enforce the laws now on the statute books.

His Visit Held Significant. President Stickney's visit here to the city, following so closely that of E. H. Hill, and the hurried trip of J. P. Morgan last evening, caused considerable comment in official circles tonight. Mr. Stickney says he has no appointment to see the president, but he intimated that he might call at the White House before he leaves for the West.

"I am in favor of all that the president, by his public acts, stands up for, up to this time, in respect to the regulation of the railroads and their rates," said Mr. Stickney, "but the legislatures of the different states have taken the matter up where the president left off, and seem to be vying with each other to reduce rates and make other regulations in regard to methods of conducting the railroad business which are entirely inconsistent with each other and regulation by the federal government. This has brought about a condition of affairs which threatens disaster in the immediate future. The railroads already are finding the greatest difficulty in obtaining sufficient capital to complete improvements now under way and to pay for additional rolling stock which has already been contracted for."

The railroads of the country will be forced into bankruptcy, Mr. Stickney predicted, unless the revenues increase greatly over those of the past year. "A decrease in the average rates of only a mill per ton a mile," he said, "would wipe out all dividends, and a further decrease of a third of a mill per ton a mile would be equivalent to all the interest on their bonds and other indebtedness. During the past six months the wages of all employes, who constitute about 60 per cent of the operating expenses of the railroads, have been increased fully 10 per cent, and unless the railway rates can be increased 10 per cent to cover this increase of wages the leading railroads will be forced into bankruptcy."

GOES TO GOULD LINE. Stuyvesant Fish Elected a Director of the Missouri Pacific. St. Louis, March 12.—Stuyvesant Fish, former president of the Illinois Central, was today elected a director of the Missouri Pacific at the stockholders' annual meeting. Mr. Fish was elected to succeed James H. Hyde. It is stated that more than 80 per cent of the stock of the Missouri Pacific was voted in today's election, which is said to be a larger amount than has been voted in any previous election. Mr. Fish was unanimously elected, which is considered significant of the important part he will take in the future conduct of the road.

New York, March 12.—G. J. Gould, evidence. It was after this conflict that the agreement as to the closing stages was reached.

New Coup d'Etat Planned by Osceola?

GRAND RAPIDS ADVICES INDICATE THAT THE COPPER COUNTRY CONTEST HAS BEEN CARRIED TO THE UNITED STATES DISTRICT COURT. JUDGE HAIRE, THE BIGELOW AND ATTORNEYS HAVE BUSINESS BEFORE THAT TRIBUNAL, AND WHILE NOTHING OF DEFINITE NATURE CAN BE LEARNED IT IS SUSPECTED AN INJUNCTION HAS BEEN ASKED, AND DOUBTLESS GRANTED, RESTRAINING THE CALUMET & HECLA FROM VOTING ITS STOCK.

Grand Rapids, Mich., March 12.—[Special.]—The legislature having failed to prevent the Calumet & Hecla from controlling the Osceola, it is now believed that the United States court has been asked to take a hand. This belief cannot be verified, for Judge Knappen and Clerk Fitch absolutely refuse to discuss the subject; but Judge N. W. Haire and Attorney John G. Stone of Houghton, A. S. and A. P. Bigelow of Boston and Attorney Herbert E. Boynton of Detroit are here and are known to have had business in the United States district court today. What that business was, they absolutely refuse to say.

"Mr. Boynton is my attorney," said Judge Haire. Mr. Boynton refused to discuss the matter. The judge was asked for information. "I can't tell you a thing," he said. "I have been discussing the matter a good deal the past few days, but can't say anything now."

Judge Haire would not even admit that he represented the Osceola. "I won't admit anything but that I am here," he said. He refused absolutely to reply to questions asking if he had filed or expected to file a petition for an injunction restraining the Calumet & Hecla from voting its Osceola stock.

Judge Knappen and Clerk Fitch of the district court would not say about the matter at all. "If any such action had been commenced, the rules of the supreme court would not only make it my privilege to refuse information, but would make it my duty to refuse to talk about the matter until the process had been served," said Clerk Fitch.

The words "until the process had been served" was the nearest it was possible to come to any definite information on the matter. It is believed that these words signify that an injunction of this court has been applied for, and in all probability granted, but it is sure that there will be no news here in the matter, if suit has been filed, until the process has been served.

DESTRUCTIVE FIRE AT THE SOO. Iroquois Hotel Is Destroyed at a Loss of Two Hundred Thousand Dollars. Sault Ste. Marie, Mich., March 12.—The Iroquois Hotel was destroyed by fire today. The loss is \$200,000. All the guests escaped safely.

STRIKE CRISIS COMES TODAY. Action of Chicago and Bay City Shipbuilders Anxiously Awaited. Cleveland, March 12.—The officials of the International Boilers Workers & Iron Shipbuilders' organization and of the American shipbuilding company concede tonight that the critical point will be reached tomorrow in the strike of the shipbuilding employees here and at Lorain, O., and other points on the lakes. The officials of the company have persistently declined to treat with the men on the terms struck tonight, with the concessions and have adopted the policy of refusing to discuss the strike in any of its phases. It is known, however, that they will regard the fight as practically won if the men in the Chicago and Bay City yards do not go out tomorrow. The union men likewise admit that the result will be influenced in no small degree by tomorrow's developments. There was no change in the situation at the shipyards here today.

Detroit, March 12.—The South Chicago employees of the American Shipbuilding company struck tonight. There are no indications of a walkout at Bay City.

EYES ON FOREIGN NAVIES. United States Eagerly Watching the Developments Abroad. Washington, March 12.—The navy department is watching with the interest the development of foreign navies as revealed by recent reports. The rapidity of construction of big ships is as notable as the increase in size. Japan is a close second to England in quick construction. British builders boast that they can turn out a battleship in twenty months. The Japanese battleship Sagama was launched eighteen months after her keel was laid. Japan is now busy constructing armored and second-class cruisers, as well as one battleship of 15,000 tons, the Okl. This vessel and one of 14,000 tons, and the Kurama, of 14,000 tons, will be launched this year, as well as three second-class cruisers of 3,000 tons each.

Russia will begin the construction of two battleships this spring, each of 21,800 tons displacement, with a speed of twenty-one knots, and armed with ten twelve-inch guns. They will be equipped with turbine engines. The Russian program indicates clearly the determination of the government to restore the navy to a high rank among the powers. Reforms in the personnel are also being prepared. Brazil has ordered a battleship of the Dreadnought type, which will be built in England. The Spanish minister of marine announces that the new program for naval construction, which includes the launching of several vessels of heavy tonnage, will be put into operation as soon as it has received the approval of parliament.

The two battleships to be added to the United States navy have a displacement of 22,075 tons each, when fully equipped, armed, ammunitioned and manned. They will have a length of 518 feet over all, a beam of 85 feet 2 1/2 inches, and a draft of 29 feet 5 inches. Few harbors in the United States will accommodate these great vessels. They will be armed with ten 12-inch 45-caliber rifles, mounted in five turrets, besides secondary batteries, and two submerged torpedo tubes. Extraordinary efforts will be made by the navy department to secure the rapid construction of the two new battleships. They will be built by contract at two different yards.

Mexico City, March 12.—The pennant winners of the Mexico City league, the Records, were defeated by the Chicago American league team today, 12 to 2. White, Altrock and Walsh alternated in the box for Chicago.

MRS. RUSSELL SAGE'S LATEST BIG GIFT

\$10,000,000 TO BE USED IN IMPROVING SOCIAL AND LIVING CONDITIONS IN THE U. S. Albany, N. Y., March 12.—Mrs. Russell Sage, through her attorney, has issued a statement in relation to the Sage foundation, a bill incorporating which has been introduced in the legislature. She says that this \$10,000,000 foundation is to be used in the improvement of social and living conditions in the United States, and that it will be national in its scope and activities.

RANSOM DEMANDED. Supposed Kidnappers of Missing Boy Threaten His Death. New York, March 12.—The receipt by a New York detective agency of a second letter purporting to come from the supposed kidnappers of Ned Martin, a four-year-old boy of Kirkwood, Delaware, was announced today. In this letter the alleged kidnappers are reported to have declared that unless a ransom is offered at once they would kill the boy. As to the authenticity of the letter or the identity of the writer nothing was made public.

WON BY FIVE INCHES. New York, March 12.—The greatest interest at the meet of the New York Athletic club at Madison Square Garden tonight was in the 600-yard special, in which Harry L. Hillman, of New York, defeated J. B. Taylor, of Pennsylvania University, by five inches. The time was 1:14.5.

MINNESOTA ELECTIONS. St. Paul, March 12.—In the municipal elections today the question at issue was "license" or "no license." License carried in the majority of the towns reported up to midnight.

New York, March 12.—G. J. Gould,

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Largest daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month by carrier, \$1.00; by mail, \$1.25; by express, \$1.50.

MARQUETTE, MICH., MARCH 13.

Entered as second class matter of the second class on October 10, 1893, at Marquette, Mich.

The date for the transfer of the seat of local government from Birch to Marquette draws on apace.

The Detroit papers that are chronicling Senator Smith's political demise may presently find that he is not so dead after all.

The U. P. "interests" must reflect that direct primary legislation could have done no worse for them than the men of their own choice.

The Detroit Free Press is apparently entitled to the palm, for taking the sanest view of the mining law legislation of any of the lower state papers.

Assiduous effort at Ishpeming has resulted in digging up two more prospective candidates for mayor who will not take the nomination on the Citizens' ticket on any terms.

The recall of the mining law legislation by the senate indicates that the iron and copper country delegations at Lansing did not confine their attention entirely to the governor.

The Mining Journal is informed that Mr. Robertson favors a campaign having as one of its tenets the assumption that the water board is big enough to cope with the water question.

The new mayor, whoever he may be, must realize that he is not always bigger than the council. Failure to appreciate this fact wrecked one administration that The Mining Journal knows of.

Evidently our iron country members didn't see that in their bill for lopping the alleged copper octopus they were also taking a step to provide for the effectual lopping of the great iron companies of Michigan, octopi and otherwise.

A report that an injunction was sought with the idea of preventing Mayor Culver from making any appointments Monday night suggests that about the only thing some Marquette politicians have not sought to enjoin is the federal constitution.

The U. S. Standard Voting Machine company is entirely right in its complaint that its machine would secure no sufficient test if used only in the special election on the bonds wanted by the board of fire and water commissioners. It is not unlikely that its request that its machine be used in two of the wards at the regular spring election, and the Abbott machines in three, will be acted on favorably. Such an arrangement would afford opportunity for a fair comparison between the two devices, and if either possessed any advantages over the other they ought to appear. Doubtless most people would be satisfied with this disposition of the matter.

The reports from the Munising election would indicate that there is nothing like an elaborate plan of harmony to heat the blood for a lively political fight. When harmony came to naught the Munising factions fell to with great earnestness, and the result was the hottest election held in years, if not since the village was incorporated. When the majority is less than ten on a vote of 600 it is clear that an election has not been dull, and definite reports from Munising show that there was lots of local color. The Mining Journal would express a wish that the Munising factions might dwell together in peace and concord, if it thought it worth while.

When Marquette decided, in drawing the bill for ward reduction, to retain eight supervisors by the expedient of electing three supervisors-at-large it was felt that for political reasons, and to further the best interests of the city, it was advisable to provide for keeping the present strength on the board. In accordance with the recommendation of the present supervisors to the council Monday evening, however, the amended charter will be further amended by cancelling the provision for the three supervisors-at-large. It was represented by the present delegation that the advantage of eight members over five was

purely theoretical; that the control of the board lay in the western end of the county, whether Marquette had eight or five members, and that in all respects the city would be as well off with the smaller number as with the greater. The delegation was unanimous in favor of moving to lessen the number of supervisors on the county board by three, hoping, perhaps, that the other cities would be moved to follow the good example of Marquette. There should be no trouble about securing the proposed new legislation and there will be general agreement that it is good legislation.

The Detroit News says that to crystallize the two-cent fare sentiment into action some new leader is needed and remarks that

It has been suggested, in view of his Napoleonic success with the amendment to the mining stock law, that John R. Gordon of Marquette might aspire to this position. Any member who can rally seventy-four of his colleagues and put through within twenty-four hours a measure of which the house heard absolutely nothing until the bill came before it for final passage, is certainly entitled to several badges.

This Gordon accomplished, and did it handsomely, and despite the fact that men from his own section were against him. Gordon knows the rules of the game, and his first victory gives him prestige for the future.

However, in view of the fact that the gas is out of the mining law balloon and the further fact that Johnny has been compelled to take to his parachute the above seems to require revision.

THE BOARDS. In connection with the boards named by Mayor Culver Monday night, and confirmed by the council after much sparring for advantage, it was frequently commented yesterday that they might be better in spots, but that they also could have easily been made much worse, and while everyone is not, by any means, satisfied with them, on the other hand there is nothing resembling indignation with the way they are put up.

The parks, cemeteries, streets and sewers commission is composed of the old park and cemetery commission, Messrs. Ford, Archambeau and White, and two new members, M. W. Shea for the long term, and Nelson Cadarette for the next to the longest term. The principal fault found with this board is the presence on it of Mr. Shea, and in his case fault is mainly found on the score that he is now practically a resident of Birch, his business interests being there. However, Mr. Shea maintains a residence in Marquette and says he will be here much of the time. If this proves to be the case he can make a good member of the commission, for his service on the street committee has been attended with good results for the city. Mr. Cadarette is a civil engineer and a man who in his profession meets and copes with practical problems, and the commission is greatly strengthened by his presence on it. The other men, being former members of the parks and cemeteries commission, are experienced in public affairs. With the comparatively close system for street building provided for in the charter changes, and the council in possession of certain explicit rights in the matter, The Mining Journal sees no reason why the city shouldn't get excellent service from this commission. If it does not it will be easy to fix the responsibility, which was not the case under the old order of things.

Many people choose, for various reasons, not to like the police commission, but it will probably prove efficient enough. Some of the men on it are not widely known, but all of them appear to be average citizens of the community. The personnel is Joe Fay, George D. McCormick, Henry Hallam, Herman Bittner and J. A. Malhot. The Mining Journal believes that under the administration of these men the police department will not fall below the standard of the last several years, and it may easily rise above it. By common consent the liquor laws are not observed here to the letter. It is doubtful if any man could be elected mayor who announced an intention to bestir himself to secure their enforcement. At least no one seems to wish to hazard the experiment. Marquette has a little of the social evil, and it, too, seems tolerated by common consent, or at least with common knowledge. Marquette, it thus appears, is not a spotless town, but it is by no means a bad town. The liquor business is conducted, as a rule, within reasonable bounds, and the social evil at no time flaunts itself. Moreover there are no slot machines.

The Mining Journal has no information as to what the police commission will do, but it supposes that it will give the city about the same kind of a police administration it has had of late years. It is inconceivable that the commission will allow any more rein to the people who don't like exact administration of the liquor laws than has been given them. On the contrary, the commission is likely, if anything, to stiffen things up a bit. As regards the marshal, The Mining Journal wouldn't be surprised if Marshal Manning should presently resign his present commission, and then be re-engaged by the board. Something like that is likely to happen without much delay. In the view of most people Marshal Manning has made an acceptable officer, and probably as many people would like to see him kept on as would favor any other aspirant.

Finally, it is with the police commission as with the other commission named by Mayor Culver. If the people don't like its administration and style they will know just where to place the re-

sponsibility, and they won't be a bit chary about doing it. This fact the commissioners will doubtless keep prominently in their minds. Meanwhile the knowledge that they won't have to elect a marshal this spring will be a big factor in persuading many people to give the police commission plan a good trial without premature bewailings.

FOR SANE LEGISLATION. It is easy to refer to the governor's consent to the recall by the senate of the amendment to the mining laws passed through the legislature last week as a Calumet & Hecla victory, but it is more than that. It is a victory for sane and safe legislation. That the result favors the Calumet & Hecla is only incidental. Much of the sentiment against the amendment arose because of the manner in which its passage was secured.

The issue of the matter is generally regarded in this country as a proper one, and is more fortunate than many people who opposed the amendment expected. It has been believed in the upper peninsula that Governor Warner must have given at least a provisional approval to the legislation, or otherwise it could not have been passed through the legislature with such a rush. This belief, and his evident kindly attitude toward it, created an impression that he would probably sign the bill.

Its opponents made out a strong case against it at Detroit Saturday. Arguments were advanced showing that it would throw the entire mining law of the state into confusion. Its constitutionality was attacked in a plausible manner. Much relevant history in regard to the relations, past and present, between the Bigelow and Calumet & Hecla managements was raked over. The governor, who, up to that time, had been hearing only the other side of the case, had many things put before him in a new light. He also observed that the friends of the bill made but a weak showing in rebuttal of the case of its opponents.

The strong legislative combine for the bill began to disintegrate coincident with the showing against it at Detroit. "A number of Detroit legislators who voted for the bill," says the Journal, "favored recalling it, after listening to the debate before Governor Warner." This disintegration was hastened by the appearance of the lawyers and agents for the iron companies, both the Steel trust and the independents, against the bill. It is likely that some upper peninsula members who favored the bill in the first instance did not reason out very thoroughly its possible effects on the preponderant interests in their districts, and doubtless they were surprised, and possibly affrighted, by what they brought down on their heads. The hearing of the iron men at Lansing Monday hadn't begun before it was admitted that the measure would, at the worst, be recalled.

Governor Warner, of course, had the bill in his hands, and could have signed it, refusing to allow it to be recalled, just as the house refused the recall that courtesy last week, but the arguments against the measure had impressed the governor, and he concluded that the bill was crude, and carelessly drawn, no matter what good things might be said of its principle. Thus his willingness to have it recalled.

It is said at Lansing that there will be legislation during the present session to effect the ends aimed at by the Turner bill, as many legislators believe in its principle. But there will be no snap legislation. In the future there will be public hearings at which the parties in interest can present arguments. If a new bill is enacted after such precautions it may prove a boon for the state without unduly harassing the mining companies. But meanwhile the Calumet & Hecla company will vote its Osceola stock at the annual meeting this week, and it was not the welfare of the state with which the people behind the Turner bill were concerned so much as just this eventuality.

AN ORDINANCE. An Ordinance Granting a Franchise and Right-of-Way for an Interurban Street Railway. The City of Marquette ordains: Section 1. That, subject to the terms and conditions hereinafter contained, consent is hereby granted to the Lake Superior Railway Construction Company, of the State of Michigan, the right to construct, own, lease, operate, maintain, and run an interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires, and such Ya and loops in connection therewith as are necessary for the proper operation of such railway, with the right to cross at grade or otherwise all railway tracks and to cross all streets crossed by the route of such railway, also the right to run and operate interurban cars over the tracks and right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with right-of-way of any and all street railways in any right-of-way owned or controlled by the City of Marquette, and within the city of Marquette upon one of the routes hereinafter specified, a single-track interurban street railway, with all necessary and convenient switches, side-tracks, curves, poles, and overhead wires,

Copper Country

COUNTY BOARD SESSION.

Brief Meeting of Supervisors Held at Houghton Yesterday.

The board of supervisors held its March meeting yesterday morning in the county building in Houghton. The representation was small, as a number of the members are away from home. Supervisor MacNaughton of Calumet township, general manager of the Calumet & Hecla, was at the mines hill hearing in Detroit and Lansing; Chairman Edwards, representative from the Houghton district, is in Lansing as is Charles Smith, supervisor from Torch Lake township and senator from this district. Supervisor Calverley of Portage township acted as chairman pro tem.

The question of a renewal of the contracts with the St. Joseph (Hancock) and Lake Linden hospitals came up. The county has agreements with the two institutions for the maintenance of beds for county patients, paying an annual rental for the same. The arrangement was an experiment, and the report of the county clerk showed that the county about broke even on the matter. Chairman Calverley thought that the renewal of the contracts should be a matter for the new board, which takes hold in April, and Supervisor Cooper thought the contract should run from that time any way, covering the supervisors' year. The matter went over until the April meeting.

John Schabach, superintendent of the county poor farm, presented his resignation, to take effect at the convenience of the board, but not later than May 1. Mr. Schabach said that during his twenty-three years of superintendency at the poor farm he had tried to faithfully perform his duties and thought he had succeeded, but was handicapped at times by the inadequate facilities and the condition of the poor farm buildings. The resignation was accepted, and the matter of the appointment of a successor was permitted to rest until the next meeting.

A Hancock supervisor said that Mr. Schabach would have continued in office had the board shown a disposition to build a new poor house. He is one of the oldest continuous office holders in the county and has been a faithful official. It is understood that he resigns to become connected with the new Park Brewing company of Hancock.

The committee appointed to confer with Superintendent Doolle of the Houghton schools on the question of purchasing a picture of the late Douglas Houghton, for whom the county was named, reported that the schools had been presented with a picture, and that the co-operation of the county was now necessary. Chairman Calverley thought that the board, if at some future time it desired a picture of the eminent geologist, might have a copy of this picture. Action on this matter was also deferred to the next meeting.

Chairman Calverley, as a member of the committee on the county bridge, reported concerning the bridge regulations which are now being framed by the United States engineer's office at Duluth. He said that he had recommended to Major Fitch, chief engineer, that the regulations compelling small craft to wait for pedestrians should not apply to tugs and scows, which do a big business in Portage lake. Major Fitch had thanked him for the suggestion, but had not said he would act on it. Mr. Calverley was of the opinion that the United States engineers should not be interfered with, as in any event they could make arbitrary rules without the consent of the county.

The meeting at this point adjourned after a session of only half an hour's duration. It was noticeable that much of the business which came up was deferred until the next meeting in order that the new board might act upon it. One of the supervisors was asked if any of the possible numerous changes in the person of the board after the township elections. He said that it did not, that candidates were as yet not numerous, but they might be, and the intention of the present board was not to take from the incoming board any matters which might properly belong to it.

IMPROVEMENTS IN CHURCHES.
Pewabic M. E. Edifice Completed—Hancock Congregational.
Rev. James Pascoe, presiding elder of the Houghton district of the Methodist Episcopal church, conducted services in the Pewabic M. E. church, Quincy, Sunday for the first time in several weeks. During that time the building had been in the hands of carpenters and decorators, and the old structure has been transformed into a place of beauty. There are new stamped metal ceilings, new wall decorations, the floors, pews and doors have been brightened up, and the entire edifice presents a most attractive appearance. At the close of the service conducted by Elder Pascoe a subscription was taken up to help defray the cost of the work.

A committee recently appointed by the Hancock congregational church to investigate the condition of the building and report on needed improvements has advised that the interior be overhauled. The church is an old one and has not been extensively improved in years. The contemplated changes will make the building much more comfortable and attractive. The plans of the committee will be carried out as soon as possible this spring.

The Trinitarian M. E. congregation is preparing to celebrate the third anniversary of the dedication of its church on April 2. Presiding Elder Pascoe will have charge of the morning and evening services that day, and there will be an extended program at each service.

PORTAGE LAKES RETURN HOME.

Quincy Band and the Whistles on the Lake Front Greet Them.

The Portage Lake hockey team, champions of the International league for the second successive season arrived in Houghton yesterday noon after winning the pennant and three straight games from Pittsburgh. A reception had been arranged for the men, and it took the form of the D., S. S. & A. depot and a dinner at the Business House which was attended by prominent citizens.

The Quincy band, which has played at all the games in the team's home rink, the Amphidrome, came down from the mine to play "See the Conquering Heroes Come" at the Northwestern train. The crowd at the depot, Stentorian whistling from all the mills, smelters, foundries, breweries and other plants greeted the boys long before their train was within the confines of the village. Bellman, the ringing of the whistles, the din from boiler shops, all the known noises in history and fiction seemed to have been rolled into one volume of sound to greet the men who had so successfully won the green and white this winter.

An immense throng of people gathered about the depot and crowded up to shake hands with the victorious stick-handlers. The crowd escorted them with cheers to the Douglas House, where the businessmen had prepared a dinner for them. John C. Mann, proprietor of the hotel, himself a hockey fan, offered to entertain and spread himself somewhat to satisfy the appetites of the young athletes and their hosts. It was a joyous occasion. Following the dinner there were songs and speeches, and everybody was very happy.

The boys returned in good condition. The games in Pittsburgh had resulted in only a few minor injuries, and tomorrow night they will be in condition to show their friends how the game is played. They will play Calumet tomorrow night in the first game of the last series of the season. This game will be played in the Palestra at Laurium. The following night the teams will cross sticks at Houghton. It had been a great hockey season, and the Portage Lake players have won honestly all the honors and victories which they have received.

The Calumet hockey team, accompanied by President Fisher of the International league and Manager John Amosch of the Palestra, returned home Monday from the tour.

Hod Stuart's Scars.
"You can all talk about 'Hod' Stuart being dirty," said Riley Horn of the Wanderers hockey club yesterday to Star reporter, "but there is nothing to it. I never saw Stuart do a dirty thing yet. Why he has played an entire season and only been on the fence twice, once for holding a man against the fence and once for tripping. He is not as bad as he is painted."

"And say," put in Tom Hodges, "he certainly takes all sorts of abuse too. Why in that Ottawa game everybody who came near him took a crack at him. I was over at his place the other day, and I took a close tally of the scars on his face alone. He has fourteen on the face to say nothing of the seams and cicatrices on his scalp. I guess maybe he hasn't been through the fray. He is always game to come back for more. Any fellow who makes him quit why just wire me, will you? I'll be interested."

MINING BILL RECALLED.
Calumet & Hecla Victory Brings Joy to the Copper Country.

There was no attempt yesterday to conceal the general pleasure felt by the copper country in the Calumet & Hecla Mining company's victory at Lansing. The report that the senators recall the mining stock bill pleased investors, businessmen and in fact everybody.

At the beginning of this fight, which was sprung on the copper country as a surprise, as it was on the legislature and the friends of the copper country in that assembly, the situation was not thoroughly understood. But the free discussion of the question, the mass of matter which has been printed about it gave copper country people a clear understanding, and there were few in the district who did not wish with the Calumet & Hecla in the fight and wish it to win.

That the Calumet & Hecla victory is pleasing to the friends of Osceola was shown yesterday morning when almost immediately after the opening of the stock exchanges Osceola shares went up seven points. It had been a weak stock for several days while the fight for the control was on, but the reports from Lansing showed that the Calumet & Hecla had a chance of success and this assured investors. The whole tone of the market was better yesterday as a result of the victory at Lansing, as well as the report of the ending of the Butte strike.

FAMILY TWICE BEREAVED.
William Bennetts and Granddaughter Die Within a Few Hours.

William Bennetts died at Calumet Sunday morning, and a few hours later his granddaughter, Mrs. Mary Thomas, passed away at the C. & H. hospital. Mr. Bennetts was an old resident of Calumet. He was for many years an employee of the Calumet & Hecla and was one of the men who broke ground for the big company's first shaft. He was a native of Cornwall, seventy-four years of age, and had lived in Calumet for forty-two years. His wife and six children survive him. He leaves also twenty-eight grandchildren and twenty-three great grandchildren.

Mrs. Thomas was twenty-eight years of age and was well known and popular in Calumet, where she had lived all her life. She was the wife of William Thomas of Newton.

A double funeral will be held this afternoon from the Calumet M. E. church. Rev. E. Sidwick officiating and the remains will be interred at Lake View.

CHAMBERLAIN'S COUGH REMEDY IS BOTH AGREEABLE AND EFFECTIVE.
Chamberlain's Cough Remedy has no superior for coughs, colds and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mrs. W. S. Pelham, a merchant of Kirksville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading remedy for all throat troubles, it is especially successful in cases of croup. Children like it and my customers who have used it will not take any other." For sale by The Stafford Drug Co.

DARANTELLA
216 Havana Street, Mich.

SHAKE THIS WELL IN A BOTTLE

A HIGHLY RECOMMENDED PRESCRIPTION FOR KIDNEY AND BLADDER TROUBLES.

A well-known authority states that there are more cases of kidney trouble here now than ever before, while recent reports show that more people succumb each year to some form of kidney disease than any other cause.

When there is sickness, examine the urine. Rheumatism is only a symptom of kidney trouble. It is nothing more or less than excessive uric acid in the blood, which the sluggish, inactive kidneys have failed to suit out, leaving it to decompose and settle about the joints and muscles, causing intense suffering; frequently resulting in deformity; often reaching the heart when death ensues.

Pains across the back, frequent, painful and suppressed urination and other symptoms of weak bladder are not the only signs of kidney trouble; many cases of stomach disease, headache, pain in the heart, inactive liver, etc. are but symptoms; the cause of which can be traced to feeble, clogged kidneys. The physician for the insurance companies always carefully examine and report on the conditions of the urine. It is a certain sign of sickness or health of the human body.

A test of the urine should be made by every man and woman at least once each year. A simple test is to void a small quantity of urine in a bottle or glass and let it stand over night. Next morning, if there is a reddish brick-dust sediment, or white, fecal substance present, either consult some reputable physician or take a good vegetable treatment. The following prescription is recommended highly in these cases.

If desirable the sufferer can mix it at home. Any good prescription pharmacy has the ingredients, which are harmless and inexpensive: Compound Kargon, one ounce; Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Shake well and use in teaspoonful doses after each meal and at bedtime. Where any of the symptoms enumerated above are present, good results are sure to follow immediately the use of this simple prescription.

LUMBERJACK ON RAMPAGE.
Charged with brutally assaulting a woman named Mrs. Bishop, at Mass City, Monday, a lumberjack who appears to be known only as "Texas" was booked for a hearing before an Ontonagon county justice of the peace yesterday. The fellow is said to have attacked Mrs. Bishop while she was alone in her home and to have severely beaten her before she was able to free herself and escape from his presence. The woodsman was arrested at the St. Paul depot at Mass City while waiting for a train that would take him out of town, and he was hustled to the county jail at Ontonagon for safekeeping by predatory methods. These were the objects of young Wind's attention.

The boy was arrested three years ago on a charge of pilfering from the poor boxes of Catholic churches, and he was sent to the industrial school until he was sixteen years of age. He has been home from the school but a short time. Recently priests of the various churches have suspected that their poor boxes were being tampered with, and last Sunday afternoon a watch was set in the Polish church. Young Wind was discovered in the act of robbing the poor box. He was arrested, and he confessed that on three previous occasions since his return he had robbed church boxes, securing a total of less than \$1. He was given a preliminary hearing before Justice Fisher yesterday afternoon.

COPPERDOME BREVITIES.
Phil Pinten has resumed his engine on the Copper Range railroad after a short absence through illness.

R. Skiff Sheldon of Houghton and J. C. Weissmiller of Hancock have returned from a trip to Hot Springs.

The Calumet Woman's club has elected Mrs. Robert Grierson president. She succeeded Mrs. Paul Grierson, resigned.

Jacob Baer of Hancock has returned from an extended Southern trip and a visit with relatives in Milwaukee and Cleveland.

Portage camp, Modern Woodmen of America, has announced that the annual ball of the camp will be held in Germania Hall April 1.

Rev. James Pascoe of Hancock, M. E. presiding elder of the Houghton district, is in Ontonagon today conducting the quarterly conference of the church there.

James MacNaughton, general manager of the Calumet & Hecla, is in Boston. He went East directly after the conclusion of the hearing on the mines bill in Detroit on Saturday.

H. E. Lean has retired from the general merchandise firm of H. E. Lean & Sons, of Calumet. The concern will hereafter be Lean Bros. & Co., Mr. Lean's sons succeeding him.

"The Royal Chef," one of the best liked comic operas ever seen in the copper country, will be presented tonight at the Kerzberg theater. It was seen last night at Calumet and pleased a large house.

LOOKS LIKE ROBBER GANG.

John Adams, Two Sons and Two Others Arrested in Hancock.

Sheriff Beck made a raid Monday night in Hancock which he thinks will effectually break up a bad gang of alleged burglars, robbers and petty thieves which is claimed to have been operating in that city for several months if not for years. The men arrested are John Adams; his two sons, Quincy and William, and Axel Simonson and Arthur Saam. Adams' two sons and Saam are boys. The quintet were arrested on the allegation of robbery, and it is thought a number of charges, ranging from burglary to petty larceny, will be brought against them. A considerable quantity of goods was found in the Adams home.

John Adams is reputed in Hancock to be a man who has not worked steadily for years. He has been in jail several times on various charges, including non-support of his wife. He was employed for a time with a cement sidewalk gang last summer, but was furnished for a debt and it evidently injured his feelings so that he has not worked since. His sons are said to bear a bad reputation. Simonson and Saam were arrested Saturday night, and information secured from them led to the arrest of Adams and his sons.

Hancock has suffered for several months from a series of small robberies, goods taken from stores, from wagons on the street, or from sleeping "drunks," and Sheriff Beck believes the Adams "gang" is responsible for a great deal of these depredations. Among the goods found in the Adams home was a gold watch which the sheriff suspects did not belong to any one of the family.

A great many allegations are made against the Adams. There is the case of a Finnish fellow who was going home from Hancock with a sleigh load of purchases. He called at the home of a friend near the Adams home, leaving his rig in the street. When he came out the rig was empty, all the goods having been taken.

The Adams family some time ago purchased from a Hancock grocery a tub of butter, paying cash for it. They took it home and tried it, and then returned it to the store, saying it was not suitable. They were given back their money, and a short time afterward the grocer missed the tub of butter. He suspects that while one of the family was negotiating for the return of the butter another was watching his chance to steal it. In any event a butter tub, which the grocer identified, was found in the Adams home Monday night.

A large number of similar stories of small robberies might be told. The Adams have long been suspected of gaining a livelihood by predatory methods. Justice Olivier gave them a preliminary examination yesterday afternoon.

Meaneast Thief Is Found.
Marshal Trudell of Red Jacket believes that he has arrested the meaneast thief in the world, or pretty nearly the meaneast, in the person of Ed Wind, a sixteen-year-old boy, who was captured last Sunday while in the act of pilfering from the poor box of the Polish Catholic church. In all Catholic churches there are placed near the doors a small box for the collection of alms which are to be used in various charitable works. These were the objects of young Wind's thieving.

The boy was arrested three years ago on a charge of pilfering from the poor boxes of Catholic churches, and he was sent to the industrial school until he was sixteen years of age. He has been home from the school but a short time. Recently priests of the various churches have suspected that their poor boxes were being tampered with, and last Sunday afternoon a watch was set in the Polish church. WOMEN WHO CHARM

Health Is the First Essential Toward Making a Woman Attractive.

MISS HULDA KUGLER MISS ELIZABETH WYNN

There is a beauty and attractiveness in health which is far greater than mere regularity of feature.

A sickly, irritable, and complaining woman always carries a cloud of depression with her; she is not only unhappy herself but is a damper to all joy and happiness when with her family and friends.

It is the bright, healthy, vivacious woman who always charms and carries sunshine wherever she goes.

If a woman finds that her energies are flagging and that everything tires her; if her feminine system fails to perform its allotted duties, there is backache, headache, bearing-down pains, and irregularities, causing constant misery and melancholia, she should remember that Lydia E. Pinkham's Vegetable Compound made from native roots and herbs will dispel all these troubles. By correcting the cause of the trouble it cures where other treatment may have failed.

Miss Elizabeth Wynn, of No. 205 8th Avenue, New York City, writes:

Dear Mrs. Pinkham—
"For months I suffered with dreadful headaches, pain in the back and severe hemorrhages. I was weak and out of sorts all the time. Lydia E. Pinkham's Vegetable Compound helped me when all other methods had failed. It seemed to be just what I needed and quickly restored my health."

Women who are troubled with painful or irregular functions, backache, bloating (or flatulence), displacements, inflammation or ulceration, that bearing-down feeling, dizziness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham's invitation to Women.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

Dear Mrs. Pinkham—
"For months I suffered with dreadful headaches, pain in the back and severe hemorrhages. I was weak and out of sorts all the time. Lydia E. Pinkham's Vegetable Compound helped me when all other methods had failed. It seemed to be just what I needed and quickly restored my health."

Women who are troubled with painful or irregular functions, backache, bloating (or flatulence), displacements, inflammation or ulceration, that bearing-down feeling, dizziness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham's invitation to Women.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

Dear Mrs. Pinkham—
"For months I suffered with dreadful headaches, pain in the back and severe hemorrhages. I was weak and out of sorts all the time. Lydia E. Pinkham's Vegetable Compound helped me when all other methods had failed. It seemed to be just what I needed and quickly restored my health."

City Brevities

Today's weather: Snow flurries, stationary temperature. Yesterday's temperatures: Seven a. m., 35 degrees; noon, 40; 7 p. m., 55. Maximum, 42 degrees; minimum, 33.

J. M. Garvey of Iron Mountain was in the city yesterday.

E. F. O'Leary of Escanaba is in the city for a few days.

W. B. Hunsley of Escanaba is spending a few days in the city.

Charles Kirkpatrick of Negaunee was a visitor in the city yesterday.

J. E. Ball left last evening for Chicago on a few days' business trip.

W. E. Rubin and Neil Livingston of Northland spent yesterday with friends here.

Austin Parrel and family left last evening for Florida to spend the remainder of the winter.

Louis Grabower, the Front street merchant, went to Chicago last evening to spend a few days on business.

Mr. and Mrs. A. F. Koepeke left for Detroit this morning, called there owing to the serious illness of Mr. Koepeke's mother.

The Federation of Woman's clubs will meet this afternoon at 4 o'clock with Mrs. Frances Kelsey at Lohdell's, East Arch street.

Miss Elsa Hoeh left Monday evening for her home in Duluth after a two months' visit with Miss Meeske of Washington street.

P. M. Moore returned yesterday morning from Milwaukee, where he attended the annual meeting of the Kimberly Mines company Monday.

E. F. Chapman, superintendent of the C. H. Worcester company's operations in this district, left last evening for Chicago to spend a few days.

Mr. Joseph Thibodeau, who had been visiting for the past week at the home of Zoel Ripelle, Bluff street, left for home at Lake Linden yesterday.

"The Old Clothes Man," a thrilling melo-drama based on East Side life in New York, played to a small crowd at the Marquette Opera House last night.

Representative J. B. Knight of Norway, one of the legislators who helped the Fuller-Gordon mining bill through the house was in the city yesterday.

Queen City tent, No. 448, K. O. T. M. M., will meet at Keogh's hall this evening at eight o'clock. Great Deputy Commander Peterson will deliver an address. Luncheon will be served.

The Ladies' Aid of the M. E. church will give a "Mystery Social" this evening at eight o'clock at the home of Mrs. D. W. Powell, corner Pine and Michigan streets. Admission will be ten cents, with other features extra.

The funeral of the late Clifford Peterson, whose death at the age of twelve years occurred Monday evening, will be held Thursday afternoon, at 2 o'clock from the house, 384 Morton street, and at 2:30 o'clock from the Episcopal church. The interment will be in Park cemetery.

To Address W. C. T. U.—Mrs. Ivey of Ishpeming will address a meeting of the Woman's Christian Temperance Union at the home of Mrs. James Pearce, 311 W. Bluff street, this afternoon at three o'clock. Mrs. Ivey is a prominent worker in the temperance cause in the upper peninsula and her remarks promise to be interesting. The members extend an invitation to their friends to be present. Refreshments will be served.

George Knapp Candidate—George Knapp last evening announced himself a candidate for the nomination for alderman from the First ward on the City ticket. Mr. Knapp aspires to succeed Michael W. Shea, who resigned from the council Monday night, but whose term would have expired this spring. Mr. Knapp succeeded to Mr. Shea's business on Front street and is well known in the city. He is talking his friends in the First and hopes to land the nomination.

Delinquent Tax Returns—City Treasurer Robert P. Byrne Monday made his returns on 1906 taxes to the county treasurer. Out of a city, county and state roll of \$163,959.00, there was returned delinquent \$8,782.25. Of this amount \$8,541.73 was property taxes and \$240.62 personal tax. The return is an excellent one, the percentage of delinquency being exceptionally small. The personal tax return, especially, is creditable, inasmuch as there are but nine parties returned delinquent. Those who have failed to settle with the city treasurer may do so with the county treasurer, as he will keep the rolls for a time. One per cent per month will be added while they are in his possession, as well as the four per cent collection fee.

Basketball Game—The Marquette and Champion basketball teams will meet at Fraternity Hall Friday evening of this week. The teams met last Friday night at Champion, the Marquette boys winning by a score of 15 to 12. The game is described as being hard fought and Friday night's contest should be a good one. There will be music for dancing after the game.

Claims Championship—The South Marquette indoor baseball team now claims the championship of Marquette county in that branch of sport. The South Marquette team has defeated every indoor baseball aggregation in the county, with the exception of the Unions of Negaunee. The Unions refused to play, either in Marquette or Negaunee, and the South Marquette boys claims this action gives them the title.

DO NOT CROWD THE SEASON. The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their fannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by The Stafford Drug Co.

Last week of the Harris auction sale. (3-12-24)

KNIGHTS TEMPLAR OFFICERS.

At a stated convocation of Lake Superior Commandery, No. 30, Knights Templar, held Monday evening, the following officers were elected for the ensuing year: Eminent Commander—E. W. MacPherson.

Generalissimo—H. B. Bell. Captain General—P. J. Delf. Senior Warden—F. G. Jenks. Junior Warden—J. E. Lautner. Prelate—A. A. Maywood. Treasurer—W. B. McCombs. Recorder—W. A. Ulrich. Standard Bearer—Louis Pendill. Sword Bearer—H. C. Wagner. Warden—C. L. Brainerd. Sentinel—James W. Young.

He had no coat upon his back, but had one on his tongue. And Reckley Mountain Tea, it's said, kept him from being hung. (Bad breath). —The Stafford Drug Co.

WORKS WONDERS.

A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It cures cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Marquette testimony proves it.

Ethan Hurley, carpenter, of 300 W. Washington St., Marquette, Mich., says: "For skin eruptions and skin sores of any kind Doan's Ointment is the best preparation I know. I had an eruption on my hands and arms that bothered me for years and was often so bad that I could scarcely bear the touch of my clothing. The annoyance was great and I tried salves, ointments and washes of all kinds but nothing helped me until I got Doan's Ointment at the Stafford Drug Co.'s store. One box served to drive the trouble away so that it has never reappeared."

For sale by all dealers. Price 50 cents Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

CITIZENS' CONVENTION.

(Official Call.) A Citizens' convention will be held in the assembly room of the city hall, on Washington street, Monday, March 18th, 1907, at 8:30 p. m., for the purpose of placing in nomination candidates for mayor, city recorder, city treasurer, two justices of the peace (full term), two constables (two years each), and three supervisors at large (two years each).

Ward caucuses for the election of delegates to the city convention and nominating candidates for ward offices will be held in the several wards the same evening as the city convention at 7:30 sharp. The places for holding ward caucuses are as follows:

First Ward—Lake Superior carriage works, Champion street; eight delegates. Second Ward—City market building, Baraga avenue; eight delegates. Third Ward—Hoogkin's livery building, Pine street; eight delegates. Fourth Ward—City hall, Washington street; nine delegates.

Fifth Ward—Building at No. 825 North Third street; seven delegates. The following ward caucuses are to be nominated in each ward: One supervisor for the term of two years; one alderman for the full term of four years.

By order of the City Committee. JAMES E. SHERMAN, Chairman. Dated, Marquette, Mich., March 12th, 1907. (3-13-5d)

REPUBLIC IRON COMPANY.

Ishpeeming Department

BYRNS VERY CAUTIOUS.

Ishpeeming Man Wired Home Before Voting on Bill Introduced by Gordon.

The outcome of the fight against the bill which was railroaded through the legislature last week, affecting the interest of the Calumet & Hecla company, also the concerns operating mines in this section, was watched with no little interest, and was very generally discussed by Ishpeeming people. The home friends of Representative C. J. Byrns are much pleased that he was on the right side and that he has been working ever since the measure passed to the governor in an effort to have it annulled. For some time prior to the hearing in Detroit Saturday, Mr. Byrns and Cameron Currie of Detroit, laboring in the interest of the Copper Range Copper company, and allied with the Calumet & Hecla in the fight, were closeted with Governor Warner. Mr. Byrns has been prominent in the fight and word comes from Lansing that he has worked effectively. The Detroit Journal of Saturday gave him this mention:

"Only Representative Charles J. Byrns of Ishpeeming, as said in Friday's Journal, voted against the bill, because he wired north to determine how the interests which make his district would be affected by such a measure. Byrns is a cautious man, and if the steel men continue to look upon this bill as seriously as they now appear to look on it, he will have reason to feel glad that he went slowly. No community has much sympathy with a man who attacks home industries, and the upper peninsula is absolutely without any sympathy for such proceedings."

LADIES WILL ENTERTAIN.

The members of the Ishpeeming Ski club will be entertained this evening at the club's headquarters at the Deer lake location by the ladies. The ladies have been entertained several times during the winter by the men and they have planned to return the compliment in a proper manner. This will probably be the last outing of the winter and the ladies will be pleased if there is a large attendance. The club will furnish two buses for those desiring to ride out, leaving the Nelson House at 7:30, going to North First street and then over to North Third. A fine lunch will be served and there will be music and dancing. Children who have been attending the club's outings are requested to remain at home tonight.

LEAGUE BOWLING MATCH.

Following are the scores of a league match bowled Monday evening at the Bank street alleys:

Olson	131	143	168	442
Emblon	100	121	122	403
Gray	145	154	118	417
Totals	436	418	408	1262

Anderson	143	126	133	402
Talbot	113	117	113	343
Grummett	102	137	158	397
Totals	358	380	404	1142

DRAWING BIG HOUSES.

"The Royal Chef," the popular musical comedy attraction, which will be the offering at the Ishpeeming theater tomorrow evening, has lost none of its drawing power since having the Garrick theater, Chicago, where it originated, two seasons ago, as it is still playing to crowded houses nearly everywhere. The company comes with much the same cast that was seen in the piece soon after it left the Garrick, with the exception of Dave Lewis, the "chef," whose place is filled by Harry Hermonson. The latter played the part the greater part of last season. The same songs, which have become popular throughout the country, are still being sung. In fact the production would not be "The Royal Chef" without these delightful musical numbers. The advance sale of reserved seat tickets will open this morning and there is every indication that the demand will be large. The curtain will rise promptly at 8:15, owing to the length of the performance.

CAUSE OF STOMACH TROUBLE.

When a man has trouble with his stomach you may know that he is eating more than he should or of some article of food or drink not suited to his age or occupation, or that his bowels are habitually constipated. Take Chamberlain's Stomach and Liver Tablets to regulate the bowels and improve the digestion and see if the trouble does not disappear. Ask for a free sample. Sold by The Stafford Drug Co.

SUGGESTS OLSON FOR MAYOR.

F. Braastad Names Man Who Would Make Strong Candidate.

"I would like to suggest the name of John S. Olson of the A. W. Myers Mercantile company for the nomination of mayor on the Citizens' ticket," said F. Braastad yesterday. "I doubt if a stronger man can be found in the city at this time for the head of the Citizens' party. We all know that Mr. Olson is in political affairs but if he should receive the nomination and be elected I am satisfied that he will work for the best interests of the taxpayers. He would be a representative of the business interests and one whom I think the voters generally would be pleased to see nominated. Mr. Olson is well known, having been raised from childhood in Ishpeeming. During the years he served as alderman in his ward his work was always for the interest of the people. If Mr. Olson can be induced to accept the nomination I am satisfied that he would add strength to the ticket, as he is popular with all classes."

ISHPEMING IN BRIEF.

Peter Finnigan and wife arrived home Monday from Tacoma, Wash., and other points in the west, after an absence of several months.

Rev. E. V. Isaacson, pastor of the Swedish Lutheran church, preached last evening to the Lutheran congregation at Michigan.

Miss Marie St. John, who had been the guest of Miss Bellemeur of Champion the past week or so, has returned to her home at Escanaba.

Frank Harper spent yesterday in the city, departing again last evening for his home in Chicago. He attended the meeting of the directors of the Scheffer Development company.

Rev. C. L. Adams' Sunday school class of the First Methodist Episcopal church will conduct a pantry sale at Sellwood's grocery store Saturday morning, between 10 and 12 o'clock.

The ladies of Grace church have changed the date of their pantry sale from next Saturday to a week from today, the 20th. It will be held at Sellwood's grocery store between 10 and 12 o'clock.

The fire department responded to a call from the law near the high school yesterday afternoon, there being a chimney fire at one of William Andrews' houses at the corner of North and Vine streets.

The finance committee of the city council is checking up the recorder's books, preparatory to submitting a statement covering its work during the past year to the council at the next regular meeting.

George Skogberg, who has been mentioned in connection with the nomination for municipal judge on the Citizens' party ticket, is not a candidate for the office and he said yesterday that he would not accept the nomination.

Harry Williams, in the city's employ last month, yesterday lost a check for \$35, which he had received from the city recorder. The number of the check was 38,917 and it was made payable to Mr. Williams' order. Its payment has been stopped at the banks.

The new additions to the Consolidated Fuel & Lumber company's office, one on the east, or rear end, and the other on the northwest side, have been completed and are now being occupied. The additional space gives the clerical force ample room.

The South Shore will grant special rates of fare tomorrow evening for Humboldt, Champion and Michigan people desiring to attend the production of "The Royal Chef" at the Ishpeeming theater. The midnight train will stop at the three places.

W. H. Hopkins and Thomas J. Dellahunt, president and secretary, respectively, of the W. H. Hopkins company, came up from Chicago yesterday to attend a meeting of the directors of the Scheffer Development company, which is exploiting a lead and zinc property in Wisconsin.

The Finnish National Dancing club will give a masquerade ball a week from Friday night, March 22, at the Woodmen's hall. Dancing will start at 9 o'clock, continuing until 4. Clifford's orchestra furnishing the music. Tickets will be fifty cents for gentlemen and twenty-five for ladies. The National club has given a number of dances this winter, including a couple of masquerades, and all have been social successes.

"Let us have some Cudahy's Peacock bacon and calves liver for supper Mama," say young and old. (11-27-06d)

RHEUMATISM BREAKS DOWN THE STRONGEST CONSTITUTION

Rheumatism is caused by a sour, acid condition of the blood, brought on by chronic constipation, weak kidneys, poor digestion and a general sluggish condition of the system. Because of these irregularities the refuse and waste matters of the body are not promptly expelled, but are left to sour and ferment, producing irritating acids which are taken up by the blood and distributed to all parts of the system. This acid matter weakens and diseases the blood so that instead of supplying the body with nourishing, healthful properties it deposits the poison with which it is loaded into the muscles, nerves, bones and joints, and Rheumatism gets complete control of the system. Some suffer almost constantly with the disease, while others have intervals of freedom, during which they live in constant dread of the next attack, when an exposure to cold or dampness or some other irregularity will cause the symptoms to return. If the cause is not removed Rheumatism will progress and reach a point where it becomes incurable, and the strongest constitution will break down. S. S. S. has been curing Rheumatism for more than forty years. It attacks the disease at its head by going down into the blood and removing every particle of the acid matter and building up the weak, sour blood to a state of purity and richness. S. S. S. is the King of blood purifiers, just what is needed for the cure of Rheumatism. Book on Rheumatism and any medical advice sent free.

WIL REORGANIZE.

Stockholders of Bellmore Bay Gold Mining Company to Meet at Soo.

Joseph Barabe, a director of the Bellmore Bay Gold Mining company, who attended a meeting of the board at Escanaba Saturday, yesterday said that a stockholders' meeting will soon be held at Sault Ste. Marie, to reorganize the company with an increased capitalization, also to consider the proposition of bonding the property for a sum not to exceed \$50,000. The officers will issue a circular within a few days announcing the date of the stockholders' meeting, and outlining the matters to be acted upon.

At the meeting last week a number of changes in the by laws were discussed. The alterations desired will be given in the letter to the stockholders, and the proposed changes will be voted on by the stockholders. Under the constitution the corporation cannot bond a sum in excess of \$30,000, but the officers believe that \$50,000, or perhaps less, will be sufficient to put the property in good condition. The money will be used for the purchase of mill and mining machinery, also for development work.

If the reorganization plans desired by the board are adopted the capitalization of the company will be increased from \$1,000,000 to \$2,000,000, with an increase of 1,000,000 shares, the par value remaining the same, \$1. There are at present 210,000 shares in the treasury. A majority of the treasury stock has been sold at twenty-five cents per share, but during the past few weeks several thousand shares have been disposed of at fifty cents, the officers having increased the price to that figure. Because of the isolated location of the property reports are not received from the superintendent as frequently during the winter season as in the summer but all reports since last fall have been of a satisfactory nature. The mill run of a few weeks ago, during the winter, was made, stimulated interest in the property among the stockholders, and as a result there is very little desire on their part to dispose of their stock, while previously some of the shareholders sacrificed their holdings. The stock has sold as low as ten cents per share, but it is said that it cannot be bought at the present time under fifty cents, the price at which the treasury stock is held.

It is the purpose of the officers to conduct operations on a larger scale the coming summer than during any previous time. The parts of the crusher which were not ready for shipment before the boats stopped running last fall will be sent to the mine as soon as possible, the officers having been notified by the manufacturer that the equipment was ready to be shipped. The saw mill, which went into commission at the mine last season, has been successfully operated all winter.

CITY LOSES \$100.
By turning down the Abbott voting machines the city loses the \$100 paid the company for the use of the machines at the November election. The council's agreement with the company was that this sum would be applied on the purchase price of the machines, if it was decided to buy them prior to the April election. Speaking of the matter yesterday Mayor Winter said that he is satisfied that the voters who have examined both machines prefer the Abbott, and it was principally on this account that he recommended their purchase. The voters who were questioned at the November election as to whether they favored the use of the machines or not were unanimous in their favor. This, the mayor said, was sufficient ground for his recommendation that they be purchased and used at the forthcoming election. Many of the voters yesterday said they thought Mayor Winter did right in vetoing the resolution favoring the use of the U. S. Standard machines April 1. The Abbott machines are still in the city, but they have been packed ready for shipment to the copper country.

MAAS FAMILY ALARMED.
Mrs. J. B. Maas, whose illness was noted in yesterday's issue, was reported in critical condition yesterday. Her son, George L., who has been confined to his home for nearly a month past, was also very sick yesterday. The condition of both was of such an alarming nature that members of the family living at other points were summoned. Dr. Rudolph Maas of Hancock is here and is aiding the local physicians in administering to the care of Margaret Loustorff and daughter, Miss Viola, arrived yesterday from Milwaukee, and other relatives will be here within a day or two.

GREEN SOX WON.
In the league bowling contest Monday evening at Orr & Tompkins' alleys the Green Sox defeated the Owls, the scores being:

Owls—	Tot.
Peterson.....118	122
Johnson.....144	116
Peppi.....138	143
Totals.....400	381
Green Sox—	Tot.
Boase.....167	144
Pascoe.....112	133
Curley.....144	136
Totals.....423	413

THE DOG RACES.
L. Villeneuve, Robert G. Jackson, H. G. Muck, J. A. Goodman and Bert Balcom are making arrangements for the annual dog races, to be held next Saturday afternoon. Some of the members of the committee started in yesterday to solicit money and merchandise for the prizes. The committee may have all of the boys driving dogs masked during the race. Iron street will be in good condition by Saturday, as all of the snow heaps are being removed.

RHEUMATIC PAIN RELIEVED.
B. F. Crocker, Esq., now eighty-four years of age, and for twenty years justice of the peace at Martinsburg, Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and it did me lots of good." For sale by The Stafford Drug Company.

TRATHEN SELLS OUT.

Well Known Negaunee Man Will Probably Leave City the Coming Summer.

Thomas Trathen, who has been engaged in the hardware business here for the past fifteen years or more, and who also conducted a fire insurance business for several years, has disposed of both interests to his brother-in-law, El Paul, Mr. Trathen is at present visiting his mother and sister, Mrs. S. W. Roe, at Fremont, Neb., and it is not known here just when he will return. When Mr. Trathen announced a few weeks ago that he was not a candidate for re-election to the office of justice of the peace it was assumed by his friends that he contemplated a change in location. He has been absent from the city the greater part of the past two months.

The four insurance companies whose agency has been turned over to Mr. Paul are the Queen of America, the Royal Liverpool, Pennsylvania of Philadelphia and the Indianapolis Fire Insurance company.

WON EVERY GAME.
Charles Kirkpatrick, pitcher of the Negaunee indoor baseball team, yesterday received a post card from the manager of the Spalding team which played here about two weeks ago. The scores of all games played on the tour were given and they will interest many friends of the members of the Spalding team here. The Spaldings won every game, the scores being as follows, the Spalding score following that of the home team: Ishpeming, 1-17; Marquette, 0-9; Negaunee, 0-12; Munising, 2-3 (eleven in innings); Orr, 1-6; Iron Bay, 1-6; La Crosse, 1-6; Chatfield, 2-7, 3-6, 3-5; Spring Valley, 1-4, 2-3.

WOLF OF THE MINES.
The Frank Tueler company, which is billed for McDonald's opera house, the last three evenings of this week, will open its engagement with "Triss" or the "Waif of the Mines," a western drama. Tomorrow night ladies will be admitted free if accompanied by persons holding paid reserved seats. The company carries special scenery, and specialties are introduced between the acts. The prices during the engagement will be ten, twenty and thirty cents. Seats can be reserved in advance at Perkins drug store.

TETTER, SALT RHEUM AND ECZEMA.
These are diseases for which Chamberlain's Salve is especially valuable. It quickly allays the itching and smarting and soon effects a cure. Price, 25 cents. For sale by The Stafford Drug Co.

LOCAL LACONICS.
Richard McLain, a well known Escanaba man, looked after business in Negaunee yesterday.

The remains of the late Mrs. J. A. Smith, who died Saturday at Palmer, were yesterday taken to Big Saunico for interment.

Claude Mackenzie, formerly of this city, now superintendent of the Williams mines at Biwabie, Isabella range, spent Sunday here, visiting relatives.

Several men have been employed the past few days opening ditches leading to the catch basins, and the gutters, from street to carry the water from the sidewalks.

The Iron Herald fore has the newspaper press in position at the concern's new office, but the greater part of the other equipment will not be moved from the old office the Muck building until after the publication of the paper this week.

The howling match between the Green Sox and Ravens, scheduled for last evening at Orr & Tompkins' alleys, was postponed until this evening, on account of the meeting of the re department. Most of the bowlers are members of the department, and the match will be changed.

The "Royal Chef" company, which will be the attraction of the Ishpeming theatre tomorrow evening, passed through Negaunee yesterday morning enroute from Marquette to Ishpeming. The troupe is filling a limited number of dates in this section, it being skipped several of the good showmans in Wisconsin in order to reach Minneapolis for opening next Sunday evening.

Mining News

SUPERIOR COPPER.

Possibilities of Property and Plans of the Management to Develop Them.

The shares of the Superior Copper company have been inactive in the market as the greater part of the issue is either locked up in the big block owned by the Calumet & Hecla or in the strong boxes of those who like the kind of undertaking this represents. The company has discovered the Baltic lode and is busily engaged in opening it up at two shafts. It is figured that it will take about another year to make the property a producer in the true sense of the word, figuring that the lode will remain quite as good as it has shown to date. The Superior has enough territory to make a fairly large property, although its possibilities are not so great as those of several of its neighbors, judged from the standpoint of area, but all the company's territory is on the lode and mineralized ground, which counts for something. The Calumet & Hecla officials who are conducting the opening up of the property will not admit that the property is anything as yet but a prospect, and they will probably continue to consider it in that light until it shows itself to be a thoroughly well opened up property with several mill tests back of it.

The general opinion of mining men, however, is far more optimistic. It is stated that from the showing thus far made the property is located on one of those singularly rich spots, which will make a mine almost from the surface downward. Not much information leaks out concerning the property, but the rock that has been encountered in the upper levels is rich, quite as rich as anything that has been encountered on the Baltic lode, which means one of the best showings at the Lake. The Superior has two shafts to date. Shaft No. 1, the original opening on the Baltic lode, shows the best copper as it is more extensively opened up by lateral openings and drifts. This shaft has reached a depth of 600 feet and throughout the average showing is most encouraging. The lode shows a steady tendency to increase in richness with depth, which is most encouraging as mining things go. During the coming spring it is the intention of the management to increase the efficiency of the machinery and to make a still more vigorous effort to increase the rapidity of the development work. Shaft No. 2 is also down quite a distance—600 feet—but is not so extensively opened up as the other shaft. The showing of copper in this opening is also most encouraging and there is every indication that it will develop quite as satisfactorily and rapidly as No. 1.

It was the starting of this shaft which made the Lake take especial notice of the Superior Copper company, as it was taken for granted that the showing in shaft No. 1 must have been more than ordinarily good to warrant the management in undertaking a second shaft which would indicate permanent operations. Of late very little has been said about the showing in Superior Copper, which makes for the belief that the Calumet & Hecla people have an interest in the neighboring properties. Atlantic has likewise been making an excellent

showing in its exploratory shaft on section 16, and it does not escape notice how well the Atlantic mill would fit into the operations of a company that was developing a new property south of Portage lake. The Superior option was almost the first venture of the Calumet & Hecla excepting the acquisition of the Keeweenaw lands in the north, and its success has been a good omen for the requisitions since made.

BUTTE COALITION.
The management of the Butte Coalition believes that it now has the property in a position to produce 60,000,000 pounds of copper during the current year. During 1906 the company produced in the neighborhood of 30,000,000 pounds, or the same as when the properties were under the direction of F. Augustus Heinze the year previous to the taking over of the properties and the ending of the big litigation. Since the present management has been in control it has paid its principal attention to getting the shafts down deeper, and toward extending the lateral openings into ground that was previously forbidden, owing to injunctions against operation. The bringing in of this ground and the opening up of the Minnie Hooley, together with working the old mines to their fullest possibilities, has been the real reason of the Coalition's increase and it is felt that the mine have now been opened to an extent that will permit of a permanent increase in shipments. The company has done very little with the Alice territory. It is understood that the Alice charter is of such a nature that the company does not care to do any business until it can be superseded or revoked entirely and the company absorbed by the present holding concern.

During the year 1906 Butte Coalition paid its shareholders at the rate of \$1.00 per annum. When the company was formed it was understood that the management would pay small dividends that

Martha Washington Comfort Shoes
are made for genuine comfort. It is a pleasure and relief to wear them. There are no buttons or laces to lace. You just slip them on and off at will.
The elastic at the sides expands and contracts with the natural motion of the foot, insuring perfect ease and comfort. Can be worn all year round.
Three styles, low, medium and high. Your dealer will supply you. If not, write to us. Look for the name and trade-mark on the sole.
We also make the popular "Western Lady" shoes.
Send the name of a dealer who does not handle "Martha Washington" shoes and we will send you free, postpaid, a beautiful picture of "Martha Washington," size 15x20.
F. Mayer Boot & Shoe Co., Milwaukee, Wis.

would enable those who purchased the stock to have a small return on their investment, pending the time when their property could be operated to the full extent of its possibilities, and this promise has been kept. With the production on the basis of 60,000,000 pounds of copper per annum the earnings of the concern would be much greater than they are at the present time, when it is understood that about \$4.50 per annum is earned on the stock, the surplus of which above dividend requirements has been used in the opening up of new territory and the equipping of the property. It is estimated that Coalition copper costs in the neighborhood of twelve cents a pound, but it has also been claimed that it can be produced as low as eleven cents. Getting the top price of twenty-five cents a pound for its production and producing at 11 cents, Butte Coalition on an annual production of 60,000,000 pounds would be able to earn \$8,400,000, which would net the 1,000,000 shares outstanding \$8.40 per annum. As there is little reason for maintaining a large cash surplus in the treasury, the company ought to be able to disburse \$7 per annum. If the copper costs were increased a cent a pound and the metal was obtained at twelve cents, leaving a profit of thirteen cents, the company would earn \$7,800,000 per annum gross, or \$7.80 per share, which would still permit of distribution at the rate of \$7 per annum, leaving \$800,000 available for the surplus fund. These, however, are the extreme figures.

PAZO OINTMENT CURED IN 6 TO 14 DAYS.

CITY CONVENTION MONDAY NIGHT

WARD CAUCUSES WILL BE HELD ONE HOUR EARLIER ON THE SAME EVENING.

DELEGATES ARE APPORTIONED

Change in Number of Supervisors and Resignation of Alderman Cadarette Result in Complications for City Convention.

The call was issued yesterday for the ward caucuses and city convention, for the nomination of candidates for city offices on the Citizens' ticket. The caucuses and convention will all be held Monday evening, the ward meetings being called for 7:30 o'clock and the city convention for 8:30, the latter gathering to take place at the city hall.

Under the new arrangement of the wards of the city, and the resulting reapportionment of delegates to the city convention, there will be forty delegates seated. The different wards will have representation as follows: First, eight; Second, eight; Third, eight; Fourth, nine; Fifth, seven. The apportionment is made on the estimated voting strength of the different wards, one delegate being allowed for each fifty voters on the ward.

But Five Supervisors.

The action of the council Monday night in deciding to request legislation abolishing the office of supervisor at large, three of whom were to have been chosen at the coming election, brings up a new situation. It was understood previously that all of the eight supervisors now representing the city on the county board, were candidates for reelection. Now but five of the supervisors are to be chosen, and the proposed bill goes through the legislation.

It is a question whether or not the necessary legislation to do away with the supervisors at large can be secured by the time of the city convention. Unless the legislature acts speedily, it cannot be done. In that case, the city convention will probably nominate supervisors at large and, if the bill passes before the ballots are printed they will be removed from the ticket.

Providing the candidacy of present supervisors is looked upon favorably, William Dorais in the First ward, Joseph Fay in the Second ward and Martin Sweder in the new Fifth ward, will be nominated by their respective ward caucuses. Daniel W. Powell and Edwin J. Sisk both reside in the new Third ward and if both are candidates for a renomination, there will be a contest in that ward. It is said, however, that Mr. Sisk will drop out. In the new Fourth ward, Joseph F. Neidhart, Charles H. Krig and Jacob Smith have residences, they formerly representing the Fourth, Fifth and Sixth wards, respectively. Mr. Neidhart will be a candidate for the nomination at the Fourth ward caucus, but the other two supervisors have not yet expressed themselves.

Successor to Cadarette.

As a result of the resignation of Nelson Cadarette from the council Monday night, the politicians face another complication. The question is whether or not an alderman should be elected to succeed Mr. Cadarette. Mr. Cadarette is one of the eight aldermen who would hold over as alderman at large for two years, by the provisions of the amendments to the charter made by the recently enacted legislation. The charter does not provide for such an emergency and there is a broad question presented.

City Attorney Hill said yesterday that the provisions of the charter bills do not admit of an arbitrary construction in regard to the points. He gave his opinion, off-hand, that the vacancy could be filled or ignored, with perfect legality in either case. He said that the question is one for the city convention to decide. The charter provides that the eight aldermen shall hold over until 1909. Whether Mr. Cadarette's resignation leaves a vacancy in the council, or whether no vacancy exists on account of his not representing any present ward, is up to the city convention for solution.

A majority of those who expressed themselves on the question yesterday favored leaving the vacancy. Even though another alderman could be elected to succeed Mr. Cadarette, some believe that, since the amendment of the charter was designed to reduce the number of aldermen in the council, no body should be elected to fill a vacancy thus created. Although the aldermen could not be legislated out of office, it is the general sentiment that since one chooses to resign, no action should be taken on electing a successor. It is believed that this view will be taken by the city convention also and the board for the coming two years will consist of twelve members. As M. W. Shea's term would have expired this spring his resignation has no effect on the situation.

HOWE'S MOVING PICTURES.

Scenes Along Picturesque Austrian Railway to Be Shown Here.

A ride over the most picturesque and remarkable railway in the world is one of the most notable features of Lyman H. Howe's new moving pictures to be shown in the Marquette Opera House Saturday afternoon and evening. It was secured from the front of a locomotive on the Austrian State Railway by courtesy of the Austrian minister, who granted special facilities for the purpose. It proceeds along the edge of a precipice at a dizzy height. Sublime mountain and valley scenery is constantly in view. Strong structures built to break the force of avalanches are shown en route. A bridge—250 feet above the road—is a magnificent engineering feat. Two trains passing each other in the air give the picture a fine effect. The sublime mountain scenery, precipices and ravines passing each other in rapid succession until the train plunges into the snow enveloped Arlberg Tunnel—the third longest in Europe—make the whole trip one of absorbing interest.

Last chance to buy at auction at Harris & Co. (3-12-24)

IN JAIL AT MUNISING.

Insane Man Who Made Trouble at Yalmer Is Captured.

Sheriff John Rough yesterday afternoon received a telephone message from Sheriff John T. Thornton of Alger county to the effect that Wilburn Crothers, the insane youth, who ran amuck in a camp at Yalmer about three weeks ago, was confined in the county jail at Munising. The Alger sheriff asked Sheriff Rough to come to Munising and take charge of the youth, but Sheriff Rough refused to do so, disclaiming all liability of Marquette county to care for the unfortunate man.

Crothers, who is but nineteen years of age, was seized with a violent fit of insanity at a camp at Yalmer on February 18. He attacked the other men at the camp with a poker and an ax. Sheriff Rough was summoned to take the youth to Yalmer, but before they arrived, Crothers had gone. Nothing was heard of him until yesterday.

Sheriff Rough says that Marquette county is not bound to care for Crothers, inasmuch as he is not a resident of the county. He had been at Yalmer only about ten days when he became insane and since that time he has evidently been in Alger county. About a year ago he was at Yalmer but only remained a short time. His grandfather conducts a camp there and it is understood that the young man's home is in Bay City. Sheriff Thornton said that Crothers is violently insane and it is necessary to confine him in a padded cell.

WILL NOT VOTE ON EXTENDING INTAKE

BONDING QUESTIONS ALONE TO BE SUBMITTED TO VOTERS AT ELECTION TO BE HELD ON APRIL 1.

The action of the members of the water board in deciding to submit the bonding question to the voters at the regular spring election dispenses with the necessity of a special election. The special election was not looked upon favorably in some quarters, nor did the members of the water board think it necessary after they had decided not to put the question of extending the intake to a referendum. The bonding question can be put just as well at the regular election and the expense of a special poll will be done away with.

The amount on which the voters will be asked to pass has not yet been fixed. Legislative action this session gave the commission authority to raise \$75,000 by issuing bonds, providing the referendum results favorably. Former authorization of the legislature makes the total amount which may be raised by the water system, but the entire sum could be put to a vote of the people, and if carried, the bonds could be issued at the discretion of the members.

It has now been definitely decided that the question of extending the intake will not be submitted to the voters. The members of the board figure that they were placed on the board to guard the interests of the whole people and work for the city. They have practically come to the conclusion that the extension of the intake is the only logical solution of the problem which faces the city in the purification of the water supply, and having come to this conclusion, they intend to act on their own initiative. The members of the board say that since, after months of study, they have found that the extension of the intake is desirable, the voter, who has not studied the matter, could not be expected to say off-hand, whether or not such a course would be proper. In other words, the members of the board think that, without going into the technical details of the matter, the voters could not vote intelligently on the question, and that being the case, those who have been selected to deal with it, should go ahead and act according to their own judgment.

KIMBERLY MINES OFFICERS ELECTED

AMICABLE MEETING OF STOCK-HOLDERS HELD AT MILWAUKEE—JAMES RUSSELL OF MARQUETTE IS PRESIDENT.

The annual meeting of the Kimberly Mines company was held at Milwaukee, Monday and the following directors were chosen: James Russell, Marquette; Dr. Frank Gregory, Marinette; J. W. Wegner, Milwaukee; Dr. Edward Sawbridge, Stephenson; H. G. Clausen, Chicago; Phil Check, Fond du Lac; G. W. Youngs, Iron River, Mich. At a meeting of the directors held yesterday, the following officers were elected:

President—James Russell, Vice President—Phil Check, Secretary—Dr. Edward Sawbridge, Treasurer—Dr. Frank Gregory. Advices from Milwaukee are to the effect that the meeting was well attended and everything passed off amicably. A number of upper peninsula stockholders were present, as well as many of the Milwaukee people and others interested in the company. The complexion of the directorate and list of officers was considerably changed at the meeting. The Marquette stockholders, as a whole, expressed themselves as well satisfied, the board being regarded as stronger than the one, which formerly directed the affairs of the company.

There were a number present at the meeting, who had visited the property of the company recently and they reported on the conditions as they appeared to them. Every report was highly satisfactory. With the new directorate at the helm, Marquette stockholders look for matters to go along smoothly both in the financing, and the active operations at the property and the prospects are regarded locally with unbounded optimism.

Last week of the Harris auction sale. (3-12-24)

BOAT INSPECTIONS WILL BEGIN SOON

LOCAL MARINE INSPECTORS ARE GIVEN SEASON'S ORDERS—THREE REINSPECTIONS MUST BE MADE.

C. M. Gooding and C. M. York, inspectors of marine for this district, are preparing for the opening of navigation. No inspections will be held for some three weeks or so yet, or possibly not until a later date. Although the supervising inspector general has issued an order for local inspectors to begin the inspection of steamers in their districts immediately, the order does not apply directly to this district, on account of the ice conditions and the improbability of navigation opening as early as it will at ports on the lower lakes. In the lower lake ports the inspectors can begin work immediately, but at Lake Superior ports few preparations have yet been made for the opening of navigation. The crews have not yet reported, nor are the boats being put in order for the season, no work being under way beyond that of regular winter remodeling.

Mr. Gooding said yesterday that he does not believe navigation will open in these waters until far into April. The ice conditions on Lake Superior are such that boats will not be able to run safely before that time. The snow on the frozen solidly and boats from the lower ports will not be able to break their way through until far into the spring. The fact that navigation will not open early here, and that they will thus be able to put off their inspections for a time is something of a relief to the inspectors. For some weeks past they have been busy examining applicants for papers, and these examinations continue in unusual number.

The order just issued by Supervising Inspector General George Uher, and approved by Secretary Strauss of the department of commerce and labor, is something of an innovation, as it provides for a minimum of three re-inspections of vessels during the season. Local inspectors in all districts are notified to begin the inspection of steamers in their respective districts immediately, with special attention to excursion and ferry boats.

After the regular inspection before the opening of navigation three inspections must be made during the season. It is specified that no notice or intimation of the time of the reinspection shall be given to boat owners. Where assistant inspectors are employed one cannot make two successive inspections of one boat.

Following is the list of vessels to be inspected by the inspectors of this district: "To Supervising and Local Inspectors of Steamboats and Other Concerned: "Supervising and local inspectors are hereby directed to begin at once a re-inspection of the various steamers within their respective districts, with particular reference to steamers carrying large numbers of people, such as excursion boats and ferry boats. The reinspection will begin with excursion boats, whose certificates of inspection will expire with the opening of this season, after which the order of inspection will be left to the judgment of the local inspectors. Notice of the contemplated reinspection of a vessel will be given the owner, master or other interested person.

Hereafter, in addition to the regular inspection, reinspection or examination of excursion boats and ferry boats shall be made at least three times the year or the season of service, and in districts where assistant inspectors are employed, such reinspection shall not be made by an inspector or inspectors who make the inspection immediately preceding the reinspection.

"If it is found at any time that any vessel is in any way unfit for service, or cannot be safely navigated, or that her equipment is not fully up to the requirements, the navigation of such vessel must stop immediately." The order relative to the number of re-inspections to be made during the season was evidently aimed at boards of inspectors which had been lax in their duties. It will add nothing to the work of the inspectors having their headquarters here, as they have always made it a point to inspect excursion steamers and ferry boats at least three or four times each season. Although notice is given of the initial inspection, the owner or master is given no notice of a reinspection and the inspector usually makes it a point to board the boat when he is not expected. Life preservers, life boats, fire fighting equipment are examined with especial care and any change in the equipment required by the inspectors must be made before the boat may be navigated again.

Once the inspectors begin the inspection of the steamers in this district they will be kept busy, as the district includes nearly all of the ports on the upper peninsula and includes within it a large number of steamers.

Not a "Prospect" But a Mine

In a Proven District

SUNSET MINING AND MILLING CO.

OF WILCOX, ARIZONA.

This company owns ten claims, or about 200 acres of mineral lands in Cochise County, Arizona, and within one-half mile of the new acquisition to the Calumet & Arizona, the Casey property, for which absolutely undeveloped property the said company paid \$100,000.

The Sunset Mining & Milling Company's property is being rapidly developed under the able and conscientious management of Mine Superintendent George H. Wilson. The ore which is taken out is being shipped to the nearby smelters for treatment and everything indicates that in the near future this will be one of the richest mines in Arizona. Samples of ore from this mine which have been assayed at the Michigan College of Mines by Professor L. S. Austin have shown an ore value of \$134.14 per ton of copper and silver.

The Board of Directors consists of some of the most prominent and substantial business and professional men in the state of Michigan whose very names are a guaranty as to the reliability of the company, and whose standing may easily be ascertained in any bank through the reports of Dunn or Bradstreet.

The developing work has now progressed to such an extent that the Board of Directors has decided to erect their own smelter and for the purpose of building this smelter and making some other necessary improvements a limited amount of stock will be sold. The first allotment of this stock is now offered to the public at 75 cents per share. No less than 50 shares sold. At least one-half of the amount must accompany all orders, the balance may be paid in two equal monthly installments. Five per cent discount will be allowed for cash within 30 days. Make all orders payable to:
