### FRIGHTFUL DAY IN STOCKS.

Condition of Markets Absorbed Interest of Local Speculators Yesterday.

The heavy decline in the prices of stocks yesterday caused many heart aches among the speculators of this region. Ishpeming men, who have been trading for years and have followed the stock market daily, could not make up their minds when the slaughter started Wednesday that the declining prices would reach such low marks as were recorded in North Butte, Amalgamated, Calumet & Arizona, Superior & Pittsburg, Green Consolidated, Green-Cannona and Butte Coalition. There was no selling here except in cases where the traders were unable to hold on longer. There were a few cases of this kind, but as a rule the stocks of the local traders are pretty well protected. Men who realized that it was an opportune time to buy stocks of the better class could not get them on the best of security. The banks here or elsewhere were not desirous of loaning money, even where first-class security was offered, as there was no indication that the bottom had been reached. The stocks appeared to be weaker at the close than at any previous time of the day, so that the traders are expecting more sensational declines today.

Information received over the wires was that the panic was the worst ever experienced on the stock exchanges since May 13, 1901, when the bottom dropped out of both the New York and Boston markets. Paine, Webber & Co. advised George E. Ruez at the close of last night's market that the panic was the worst in the memory of the "oldest inhabitants." Stocks in Boston were thrown over in all directions, and there was absolutely no support to the market. It was predicted that today will not pass without some failures, which should clear the air. Good stocks, the firm stated, are cheap, but they must be paid for in full, before orders will be accepted.

### HIBERNIANS ENTERTAINMENT.

Excellent Program Will Be Given Sunday Evening at Ishpeming Theater.

Following is the program to be given at the annual St. Patrick's day entertainment at Ishpeming theater Sunday evening, under auspices of the Ishpeming divisions of the Ancient Order of Hibernians and Ladies Auxiliary:

- Overture, "American Airs"..... Selected Orchestra
- Soprano solo, "The Bells of Shandon"..... Moore Miss Julia McAniff
- Bass solo, "Kathleen Aroon"..... Bullard Henry Nevins
- God Save Ireland..... Audience
- Overture..... Selected Orchestra

### VOTING MACHINES GONE.

George P. Myers, the U. S. Standard Voting Machine company's representative, packed up the sample machine on exhibition at the city building the past two weeks, and it is to be shipped away today. It is not expected that the Ishpeming council will purchase machines this year, a member of the board yesterday saying that the aldermen did not feel disposed to ask for an appropriation for that purpose on account of the extra money the city has been obliged to spend on moving the water main, on account of the cave-in at the Lake Angelina mine, and on building the new section of road south from Washington street.

### RHEUMATIC PAIN RELIEVED.

B. F. Crocker, Esq., now eighty-four years of age, and for twenty years justice of the peace at Martinsburg, Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and it did me lots of good." For sale by The Stafford Drug Company.

### WILL HAVE FINE STORE.

Interior of August Henrickson's Block Has Been Greatly Improved.

Within a week the improvements which have been under way at August Henrickson's block on Cleveland avenue for the past two months or more will be completed. Mr. Henrickson will have on the first and second floors, as formerly, as the rear rooms on the second floor are now to be used as stock rooms, and the rear rooms of the lower floor have been turned into a meat market. Seventeen feet in depth of the space formerly occupied as a stock room on the first floor has been added to the main store room. The rooms formerly occupied by the bakery, which was some time ago moved to the building at the rear and facing Bank street, have been given over to the meat department. A roomy ice box, with space for five tiers of ice, has been put in. At the old market Mr. Henrickson had much difficulty during the warm seasons keeping his meats and other perishable goods in good condition, owing to the limited space available for ice. The market will be moved from the Kjesboe block early next week.

A basement has been provided beneath the entire building and a steam heating plant has been installed. There will be two entrances to the meat market, one through the main store and the other on the alley, from which a walk will lead to Cleveland avenue. The stairway on the alley side of the block has been removed and the eave of the roof extended to cover the entire walk, so that people passing from the street to the market in wet weather will be protected from the rain.

The stock has been re-arranged in the main store room, and the office moved to the rear. Some alterations are also to be made in the men's furnishing goods department in the east room. The stairway leading to the second floor was being moved from the main store to the room occupied by the men's furnishings department and an opening has been made in the center of the main floor ceiling, with balcony extending around it on the second floor. A millinery department is to be located in the front of the second floor. Several of the partitions in the rear of the second story have been removed, and the stock rooms are now more convenient than formerly.

Mr. Henrickson now has a much more attractive store than the outward appearance of his block indicates. The shelving fixtures and walls are being brightened with paint and the general improvements have been well planned. A cash carrier from the departments on the lower floor, including the meat market, is to be installed after the other work is finished.

### FINE ENTERTAINMENT TONIGHT.

Howe's Company Will Present Complete Program of New Pictures.

The savings industry of France, showing the whole process from the hauling in of myriads of the little silver mites to the soldering of the tins, forms a most interesting feature of Lyman H. Howe's liorama to be seen at Ishpeming theater tonight. A fitting companion to this is another series depicting the perils and hardships of whaling, which is now almost an absolute calling. The two pictures shown in one program form a striking contrast of the infinitely mighty with the infinitely weak of "the deep sea's toll." Differing only in kind, but not in interest, is another feature showing the agility and dexterity of maniacs evading the furious charges of an enraged bull. One of them as a last resort escapes from imminent danger only by leaping clear over the full length of the animal. "Ireland and Its People" is still another feature that reveals city life in Cork, Dublin and Limerick, as well as some quaint Irish characters engaged in cutting, drying and marketing peat. Novel in the extreme are the scenes shown in and around Mr. Wellman's camp on Dane's island and the preparations being made to carry out his slaying plans to reach the North Pole in a balloon. How the Dolomites in the Northern Italian Tyrol were finally conquered only a few months ago after many defeats will also be shown. Throughout, Mr. Howe's new program promises to surpass in quality and human interest any he has ever presented hitherto. His exhibition is universally recognized as the finest of its kind at home or abroad, and the new program can safely be relied on for an evening of rare pleasure and information.

Father says: "Say, Mother; can't you make us some more of those fine doughnuts if I will bring home a pair of Cudahy's Peaseek Lam again?" (11-27-ed)

## TIRED AND SICK YET MUST WORK

MRS. AUG. LYON

"Man may work from sun to sun but woman's work is never done." In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirals are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

**Lydia E. Pinkham's Vegetable Compound** keeps the feminine organism in a strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

### Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

### MAY NOT USE VOTING MACHINES

SPECIAL COUNCIL MEETING WILL PROBABLY BE HELD TO RESCIND RESOLUTION.

### COMPLICATIONS ARE FEARED

Aldermen Feel That so Much Is at Stake This Election That Time Is Not Opportune for a Thorough Test.

It is now practically settled that voting machines will not be used in Marquette at the election April 1. It is very probable that a special meeting of the council will be held sometime next week and the resolution passed March 4, providing for the testing of the U. S. Standard machines at the special election and the Abbott machines at the regular election, will be rescinded.

At the time the resolution was passed it was thought that a special election to vote on the question of allowing the water board to issue bonds would be held. Since then the water board has decided to submit the question at the regular election. Thus, under the provisions of the resolution, only the Abbott machines would be given a test. At last Monday night's session the U. S. Standard company's representative, George P. Meyers, petitioned the council to use two U. S. Standards and three Abbotts at the coming election. The matter was referred to the committee on purchases.

#### Use Regular Ballots.

The voting machine question is now so complicated that there is some sentiment in favor of passing them by and holding the coming election by the old ballot system. If the resolution passed March 4 is not rescinded, the Abbott machines will be used at the April election. If those machines alone are used the test will not be conclusive, as the U. S. Standard machine will be untried, and the aldermen feel that both should be given a practical test before any purchase is made. The proposition to use two U. S. Standards and three Abbott machines is not looked upon favorably by the members of the committee on purchases, as one portion of the city would be familiar with one machine, and another portion might be just as strongly in favor of the other. Thus the council would be no farther ahead than it is at present.

On account of the many changes in the charter and the various other complications facing the voters at the coming election most of the aldermen seem to favor holding it under the ballot system, and, such being the case, a special meeting to rescind the former action is probable. It is argued by some that the city's political affairs are already too complicated to allow of their

being further complicated by the use of voting machines.

#### Merely a Postponement.

There will not be another election in the city until November, 1908, and this is also brought against the purchase of the machines at this time. Those favoring putting the matter off say that the machines can be given just as thorough a test at some future time, when there is not so much at stake as now, and then, if the voters favor securing them, the council can take the necessary action.

There seems to be no sentiment against the machines themselves, but it is against the proposition to test them at this time.

### GAME LAW BILLS ARE INTRODUCED

SUGGESTIONS OF UPPER PENINSULA SPORTSMEN ARE PLACED BEFORE LEGISLATURE IN NUMBER OF BILLS.

The upper peninsula sportsmen have finally put their case before the legislature by the introduction of a number of bills providing for the revision of the game laws, in accordance with the changes recommended by the sportsmen's convention held here Feb. 6. A Lansing dispatch says: "Game and fish laws will occupy much attention this session. Representative Gordon of Marquette today introduced seven bills on these subjects. Greater protection of the deer is one of Representative Gordon's aims."

"If his bills pass only one deer can be killed a year by any one hunter and the season is restricted to from Nov. 10 to 25. Another provision calls for six tags with each license, one for the head, another for the skin and four for the quarters. This will enable a hunter to cut up his game and send it to different destinations.

"Representative Gordon would increase the wolf bounty to \$100, while Representative Hardich has a bill to make it \$50 for full grown wolves and \$25 for whelps.

"Fox, American, black or grey squirrel would be protected under one of the Gordon bills, except from Oct. 15 to Nov. 13, and at no time could they be killed in any city or public place.

"The open season for ruffed grouse and spruce hen is made from Oct. 15 to Nov. 13 in the lower peninsula and from Oct. 1 to Nov. 30 in the upper peninsula. Not more than thirty of these birds may be taken in a season.

"From Aug. 15 to the April 15 following speckled, California, Lock Leven and steel head trout and land lock salmon and grayling are protected.

"To every hunter and fisherman another bill would apply. This establishes a hunter's license costing fifty cents and a fisherman's license of twenty-five cents, for residents of the state, and \$10 and \$1, respectively, for non-residents. This, however, does not affect the deer license law. Maximum punishment for the law's violation is \$50 fine or sixty days in jail."

R. E. Schneider of Grand Marais is in the city, for a few days.

### PAPER PROFITS VANISH IN AIR

DECLINES IN STOCK MARKET HEAVIEST IN MANY YEARS—MOST MARQUETTE PEOPLE ARE SAFELY PROTECTED.

Deep gloom hung over the stock market yesterday. As Marquette traders stood before the board and watched the quotations fall below those preceding, they racked their brains for recollection of a more pronounced decline in as short a space of time, but they failed to recall one. Paper profits were wiped away in less time than it took to figure things out. The drop was a panic, nothing less, a panic such as one would hardly expect the market to experience at a time when copper is selling at twenty-five cents a pound.

The decline was pronounced and steady. There were no rallies, no spasmodic efforts at support. Down went the values with each quotation, some by drops of one, two and three points at a time, and even more. As severely as the copper market suffered, the New York market led in the procession downward. The New York market is undoubtedly the weak point. For months past the Wall street list has been shaky, and New York leading, Boston must follow. There is no other course, and as long as the New York railroads and industries continue to drop, so long must Boston coppers continue in their decline, in the opinion of local traders.

Nearly every stock on the board opened yesterday morning at figures below those of the close of the preceding day. And the close Wednesday was anything but encouraging, for they bore every earmark of panic values. Down rushed prices all along the list and by noon traders saw what they were in for. The predicted panic had come, and they began to wonder where it would end up. In the afternoon an even worse condition prevailed and the close showed figures from two to fifteen points, or even more, below the opening prices all along the list, both on the Boston and New York boards.

Yesterday of the coppers Amalgamated suffered the most, going from 98 1/2 at the opening to 80 1/2 to 81 at the close, almost twenty points below par. North Butte was little better. From 93 at the opening, it fell to 85 by noon and the closing figures were 77 1/2 to 78. Anaconda went off from 65 1/2 to 54 1/2. Copper Range from 82 1/2 to 73 1/2. Tamarack from 115 to 110 asked, Utah from 61 to 51 and the others all along in the same way. The lower priced issues on the Boston list suffered equally with the high priced stocks. Coalition opened at 30 and closed at 24 asked, Trinity fell from 26 1/2 to 20 1/2, Greene from 24 1/2 to 21 1/2 and Superior & Pittsburg closed at 20 1/2. Calumet & Arizona broke from 170 to 160 asked.

Marquette traders are, for the most part, safe, as far as actual losses are concerned. And paper losses do not count for much in a market like that of yesterday. For some time past Marquette traders have bought either outright or on substantial margins and those who are thus protected can afford to stand by and hold on until the market gets back on a sane basis. Of course there are some who have been caught

in the decline and pinched. There always are. Margin calls have gone out in some cases, but on the whole Marquette people have fared well, much better, perhaps, than those in some other parts of the country. It has been the policy of the brokers for some time past to demand heavy margins, and in comparatively few cases are there people loaded up beyond their means.

Marquette people cannot see how the present prices can continue, as far as copper stocks are concerned. They have little direct concern in the New York market, for there is little local dealing in it. With the price of copper where it now is producing mines are paying dividends far out of proportion to the prices at which their stock was quoted yesterday. Unless the price of the metal suffers, which does not appear likely, it is believed present conditions must be only temporary.

For the present Marquette traders are selling but little. Those who are protected are holding on and if they have any surplus capital are buying moderately. The greater number, however, are on the fence and at the first signs of a letup in the decline, they will be ready to jump in and lend their support to the rise, which must surely follow.

#### FINISH CUTTING ICE.

Lake Superior Company Cuts 300 Cords West of Presque Isle.

The Lake Superior Ice company will this week complete its season's harvest. At present, the force of men under Manager Louis Reidinger is at work cutting ice for the domestic purposes just west of Presque Isle. With the completion of the harvest the company will have cut about 300 cords at that point. The ice is being shipped in over the Marquette & Southeastern to the ice house of the company, and it will be used wholly for domestic purposes.

The company has cut an immense amount of ice this season. Part of the harvest was secured in the harbor near the city and that, stored in a separate ice house, will be sold to large consumers for refrigerator purposes. The ice cut west of Presque Isle in the open lake is about 20 inches thick and of fine quality. It has not melted out this winter and has thus been forming since the first really cold snap.

It flows like fire through your veins; it does the work. If you're wasting away day by day, take Hollister's Rocky Mountain Tea, 35 cents, Tea or Tablets. The Stafford Drug Co.

#### THIS IS WORTH REMEMBERING.

We do all kinds of upholstering, and always carry a full line of samples of furniture coverings in the latest patterns and do all kinds of furniture repairing; also renovate hair mattresses, and make them as good as new. We make and hang Window Shades, we make Picture Frames, we sell Colaraine Furniture polish, the best now on the market, and sell the best Carpet Cleaning Soap on earth. We sell Carpets, Rugs and Portieres, and as good Furniture as is made in this country, at a reasonable price. Last but not least we are manufacturers' agents, and can sell you as cheaply as any furniture house in Chicago, Grand Rapids or Detroit, assuming all risk of breakage and placing the goods in your home. When in need of anything in our line give us a call.
