

TRIAL OF THAW NEAR ITS CLOSE

Case for the People Is Concluded, and but Four Witnesses Remain to Be Called in Behalf of the Defense.

Last Evidence Will Be in Today, and Verdict Is Possible by Friday Night—Hummel Affidavit Is Admitted and Proves a Surprise Only in the Severity of the Alleged Assaults Suffered by Miss Nesbit at the Hands of the Man Now Her Husband.

New York, March 18.—When the Thaw trial was adjourned this afternoon there remained but four expert witnesses to be examined before the taking of evidence closes.

The case for the people was finally closed today by the introduction of much discussed Hummel affidavit, which, with the consent of the defense, was read in full to the jury.

Whipped Unmercifully. In this affidavit Miss Nesbit charges Thaw with having attacked her with a cowhide whip while they were stopping at an old castle in Austrian Tyrol and lashing her bare skin until she became faint from pain and swooned.

When Mr. Delmas began the introduction of testimony in rebuttal he introduced first of all the record in the trial and conviction of Hummel on the charge of conspiracy.

Thaw Insane, Says Experts. Mr. Delmas then passed to the final stages of the trial by introducing more alienists in behalf of the defense, three experts new to the case—Drs. Hammond, Jellicoe and Wilson—all of whom deposed that Thaw was so mentally unbalanced at the time he killed White that he did not know the nature or quality of his act, and did not know that the act was wrong.

FAIRBANKS IN CHICAGO.

Vice President Orator at Banquet in Honor of St. Patrick. Chicago, March 18.—The banquet held at the Auditorium tonight under auspices of the Irish Fellowship club was according to its projectors the most elaborate celebration of St. Patrick ever held in this country.

UNIONS GAINING GROUND. Federation of Labor Enrolls 50,000 New Members in Five Months. Washington, March 18.—At a meeting of the executive council of the American Federation of Labor today, Secretary Morrison submitted a report for the five months since the close of the federation's fiscal year, showing an increase of more than 50,000 members compared with the corresponding five months of the preceding year.

PASSENGER RATES ARE CUT IN CANADA

GOVERNMENT RAILWAY COMMISSION ORDERS A REDUCTION TO THREE CENTS A MILE. Ottawa, Ont., March 18.—The railway commission today ordered the Canadian Pacific and Grand Trunk to reduce their passenger rates to three cents a mile.

SCIENTIST SUCCUMBS.

Washington, March 18.—W. J. Riese, keeper of the archives of Smithsonian Institution, died of heart failure today. He had been connected with the institution since 1852.

CLEVELAND'S BIRTHDAY.

Former President Attains the Age of Three Score and Ten. New York, March 18.—By order of Mayor McClellan, the national, state and city flags were run up on the city hall flag staffs today in honor of former President Grover Cleveland's seventieth birthday.

SCARLET FEVER EPIDEMIC.

Indianola, Ia., March 18.—Sixty young women, students of Simpson college, residents of the women's dormitory, are quarantined as a result of an outbreak of scarlet fever.

E. H. HARRIMAN A BULL ON STOCKS

FINANCIAL SITUATION "IS GOING TO IMPROVE FROM NOW ON," HE SAYS. New York, March 18.—E. H. Harriman returned to this city today. He expressed the opinion that the financial situation "is going to improve from now on."

Continuing, he said: "The decline in the stock market was due to a combination of circumstances—a combination of men and circumstances. Some of these men made a lot of money as a result. I don't think it will do them much good in the end."

President Davidson Optimistic. Birmingham, Ala., March 18.—President Davidson of the "Frisco system," who is here today, sees the bright side of the present anti-railroad agitation. "I do not see," he said, "in the present situation all the trouble some people see, and I believe it will adjust itself for the best interests of the people and the railroads."

VIEW OF LESLIE M. SHAW.

Former Secretary of the Treasury Discusses the Railroad Situation. New York, March 18.—The South Carolinians of New York gave their first annual dinner tonight, with former Secretary of the Treasury, Leslie M. Shaw, President Woodrow Wilson of Princeton and Judge Joseph A. McCullough of South Carolina as the principal speakers.

Union Pacific Retrenches. Onaga, Kas., March 18.—Pursuant to orders from the Chicago office headquarters at Omaha, work on the construction of the Topeka & Northwestern railroad, from Onaga northwest, has been suspended.

NO LET-UP ON RAILROADS.

President Determined to Perfect Rate Bill by Other Legislation. Washington, March 18.—It was stated last week that there would be no let-up in the president's railroad policy. That statement can be reiterated today in the most emphatic terms.

STOCK MARKET MANIPULATED.

Prevalent in official circles here today is a suspicion that certain railroad interests have been deliberately manipulating the stock market for the purpose of alarming the president about the yielding to the railroads in certain important points.

INDIANA MAN ARRESTED FOR ATTEMPTING TO WRECK A TRAIN.

Kokomo, Ind., March 18.—David Van Neeken was arrested today for an alleged attempt to wreck a Pennsylvania passenger train. He had wired a tip across the rails, it is said.

TIE FOUND ACROSS THE RAILS.

Indiana Man Arrested for Attempting to Wreck a Train. Kokomo, Ind., March 18.—David Van Neeken was arrested today for an alleged attempt to wreck a Pennsylvania passenger train.

ADMIRAL TILLEY DEAD.

Philadelphia, March 18.—Rear Admiral Tilley, commandant of the League Island navy yard, died tonight of double pneumonia. He was once governor of Tutuila, in the Samoan islands.

TODAY'S WEATHER.

Washington, March 18.—The following is the weather bureau's forecast for Tuesday: Rain or snow and warmer; Wednesday, rain or snow and colder.

R. R. CHIEF BLAMES THE PRESIDENT

Roosevelt Responsible for the Present Uncertain Conditions in Wall Street, Says Magnate Ripley of the Santa Fe.

Chairman Yoakum of the Rock Island Comes Out Unreservedly for Close Co-Operation With Government—Administration's Policy Will Be Continued, It Is Reiterated—Rate Bill to Be Perfected by Legislation Putting Capitalization Under Restraint.

Los Angeles, March 18.—In an interview here this afternoon President Ripley of the Santa Fe, who is now at Parabara, is quoted as saying that President Roosevelt is responsible for the present uncertain conditions in Wall Street and attributes the present sentiment to "brush fires which the president started."

Mapping Out Legislative Program. Meantime the president is devoting the greater part of his time to a study of the railroad problem, and the members of the interstate commerce commission have been at the White House all hours of the day and night for the last week going over the question with him.

Yoakum Strong for Co-Operation. Washington, March 18.—President Roosevelt had a conference today with B. F. Yoakum, chairman of the board of directors of the Rock Island railroad. It was the second conference the president has had with Mr. Yoakum within the past ten days.

GOVERNOR ACCUSED OF FRAUDS IN LANDS

SCANDALS IN NEW MEXICO TO BE INVESTIGATED BY A COMMITTEE OF THE LEGISLATURE. Santa Fe, N. M., March 18.—The fight in the lower house on Governor Hagerman culminated today in a decision to investigate the governor's alleged connection with the disposal of seven thousand acres of timber land by the territory to the Pennsylvania Development company of Pittsburg.

WILL FIRST VISIT MICHIGAN.

President Going to Oyster Bay the Latter Part of June. New Haven, Conn., March 18.—The Yale chapter of the Phi Beta Kappa held its annual dinner tonight, at which Secretary of War Taft, a member of the chapter, was a guest.

STEAM SHOVELS FOR PANAMA.

Milwaukee Company the Lowest Bidder for Twenty-Two Machines. Washington, March 18.—The Bucyrus company of South Milwaukee, Wis., was the lowest bidder for twenty-two steam shovels to be used on the isthmus, for which proposals were opened today.

TRAIN WRECK IS FATAL.

Robinson, Ill., March 18.—One man was killed and two fatally injured in the wreck of a gravel train here this afternoon. Engineer Tate was instantly killed, fireman Gregory was scalded and brakeman Hinsling was internally injured.

JUDGES FOR CANAL ZONE.

Washington, March 18.—Thos. E. Brown, Jr., and Charles R. Williams, of Columbus, Ga., were today named as district judges for the isthmian canal zone.

TIE FOUND ACROSS THE RAILS.

Indiana Man Arrested for Attempting to Wreck a Train. Kokomo, Ind., March 18.—David Van Neeken was arrested today for an alleged attempt to wreck a Pennsylvania passenger train.

ADMIRAL TILLEY DEAD.

Philadelphia, March 18.—Rear Admiral Tilley, commandant of the League Island navy yard, died tonight of double pneumonia. He was once governor of Tutuila, in the Samoan islands.

TODAY'S WEATHER.

Washington, March 18.—The following is the weather bureau's forecast for Tuesday: Rain or snow and warmer; Wednesday, rain or snow and colder.

SHELLS WERE FIRED FROM ARMY RIFLES

Experts of the Ordnance Bureau of the War Department Report to Senate Committee, Incriminating Colored ex-Soldiers.

Exhaustive Tests Made at the Springfield Arsenal Are Held to Prove Beyond Question That All Thirty-Three Cartridges Picked Up at Brownsville Were Shot From Four of the Muskets in Possession of Company "B" of the Discharged Battalion.

Washington, March 18.—The reports of experts of the ordnance department of the army, who examined thirty-three discharged shells picked up in the streets of Brownsville on the morning following the affray, were laid before the senate military committee today by officers who examined the shells at Springfield arsenal under glass and microscope.

Belated Protection for the Jews. Yelisevetragrad, Russia, March 18.—Measures of special severity have been adopted here to prevent a repetition of the recent anti-Jewish disorders.

PERSIAN SITUATION ALARMS.

Russia Prepared, Jointly With England, to Step in at Any Moment. St. Petersburg, March 18.—Investigation of the reports of the despatch of many Russian troops to Persia shows that while it is true a few Cossacks have been sent to strengthen the consular guards in northern Persia, the whole number does not exceed a hundred.

EUROPEANS BEATEN BACK.

French Column in Upper Guinea, West Africa, Suffers Serious Reverse. Paris, Tuesday, March 18.—The Echo de Paris publishes a dispatch from Kouakry, French Guinea, West Africa, saying that the French column suffered a serious reverse in upper Guinea while attacking the Thomas tribesmen, who were strongly fortified in a village.

EASY TO ATTACK AMERICA?

Austrian Expert Sees Pacific Unprotected—Excellent Chance for Japan. Washington, March 18.—Captain Ignatz Rodie, of the general staff of the Austro-Hungarian army, has published a pamphlet entitled "The Prospects of the Future American-Japanese War," in which, after discussing the armies and navies and theaters of the war, he concludes with saying that the unprotected Pacific coast of the United States offers excellent chances for the success of the Japanese.

UNDEKMINED BY FLOOD.

Cincinnati House Collapses, and Two Persons Are Killed. Cincinnati, O., March 18.—A three-story brick building at the corner of Front and Plum streets, which had been surrounded by the Ohio river flood for several days, collapsed tonight. The building was occupied by several Italian families. A middle-aged woman and her three-year-old child were instantly killed.

TRAIL FOLLOWED BY DOGS.

Oklahoma Women Arrested for Prominent Physician's Murder. Guthrie, Okla., March 18.—The body of W. W. Davenport, a prominent physician, was found on a country road near Ardmore, I. T., and today Mrs. M. Brooks, a neighbor, was arrested, charged with the murder. Bloodhounds, it is said, followed a trail to her house, and a revolver with one chamber empty was found there.

LAKE ERIE GETS FAST BOAT.

Cleveland, O., March 18.—Cleveland capitalists have formed a company to inaugurate a fast steamship service this summer. Cleveland, Cedar Point and Toledo, upon which will be operated the greyhound of the lakes, the Eastland, a twin-screw, steel passenger boat, which has been running for two years between Chicago and South Haven, Mich. The vessel is practically new and besides possessing the lines of a racing yacht on a large scale is furnished in transoceanic style.

PRESIDENT TOUCHED BUTTON.

Louisville Exposition in Kentucky Metropolis Opened by Mr. Roosevelt. Louisville, March 18.—The Greater Louisville exposition opened at 2:30 o'clock this afternoon when President Roosevelt touched a button in the White House that set bells ringing and whistles screaming. Thousands of people were present at the opening exercises.

CASTRO ACCLAIMED.

Caracas, March 18.—President Castro has returned to Caracas, giving evidence of a wonderful improvement in health. He was given a most enthusiastic reception by the people.

POWERS MAY REDUCE PRESENT BIG ARMIES

LONDON SURPRISED TO HEAR GERMAN AND AUSTRIA WILL NOT OPPOSE THE PROPOSITION. London, March 18.—News received here from St. Petersburg that the German and Austrian ambassadors to Russia had had audiences of Emperor Nicholas to discuss the form in which the question of reduction of armaments should be presented to The Hague peace conference has gratified the officials of the foreign office here, as this was the first official intimation that Germany and Austria will not oppose the discussion of this matter.

PERSIAN SITUATION ALARMS.

Russia Prepared, Jointly With England, to Step in at Any Moment. St. Petersburg, March 18.—Investigation of the reports of the despatch of many Russian troops to Persia shows that while it is true a few Cossacks have been sent to strengthen the consular guards in northern Persia, the whole number does not exceed a hundred.

MORE "GRAFT" AT SAN FRANCISCO

Grand Jury Investigating the Municipal Scandals Holds an All-Night Session, and Extraordinary Results Are Looked For.

Street Railway Interests, Rival Telephone Companies and Prize Fight Promoters Are Said to Have Paid Out Large Sums in Return for Valuable Privileges—Board of Supervisors Is Involved, It Is Alleged, and Is Summoned to Give Testimony.

San Francisco, March 18.—The action of the grand jury in bringing before it today the members of the board of supervisors has aroused the greatest interest in the proceedings of the body. When it was announced tonight that the grand jury would probably remain in session all night, it was conceded that extraordinary results may be looked for.

Senatorial Allegations. The "Bulletin" tonight published an extra edition declaring that a plot involving the granting of valuable street railway privileges was laid bare today. It is charged that \$450,000 was paid to high officials to permit the conversion of street railway systems into electric lines, that the bulk of this money was obtained by "a mysterious man" and that small sums were parceled out to permit granting the required franchises.

Another charge is that a corruption fund of \$20,000 was raised by prize fight promoters to secure a monopoly of light permits. The supervisors were directly concerned with all of these legislative acts.

Abbe Ruef's Trial Is Postponed. San Francisco, March 18.—Upon the request of the prosecution, the trial of Abraham Ruef was postponed today by Judge Dunne until March 25, in order to wait the action of the United States supreme court at Washington on the writ of error granted Ruef by Judge Hebbard. The writ of error will come up in Washington next Monday.

Nicaragua. Twenty-five hundred Salvadoran soldiers landed at Amapala March 10 and proceeded the next morning in the direction of Choluteca. This body of men came from San Miguel, Honduras, and are under command of General Presa.

It is further reported that General Bonilla, president of Honduras, at the head of troops, has started for Segovia, Nicaragua. In this movement he is supported by two detachments of Nicaraguan revolutionists. The government of Guatemala has refused a request made by Honduran revolutionists to be permitted to cross the frontier and invade Honduras.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: For month, by carrier.....\$1.50 For year, by mail.....\$15.00

MARQUETTE, MICH., MARCH 19.

Entered as mail matter of the second class at the postoffice at Marquette, Mich.

At the rate it is starting out 1907 promises to be the world's banner year for giving.

Apparently the thing we need to simplify our politics is the direct vote in the caucuses.

There is doubt about some things, but we are assured that there is no doubt that Harriman still reigns.

Developments go to prove that Senator Foraker's theory of the Brownsville, Texas, riots was wide of the mark.

The hockey season having closed, the copper country is free to devote its entire time to preparations for baseball.

Perhaps the visitation suffered by Upton Sinclair's Utopian colony was in payment for some of the fibs he told in "The Jungle."

Most people would be better satisfied if it were only the better part of two days, instead of the better part of two weeks, until election.

Now is the time for the several wards to avail themselves of the excellent talent that is so sure, between elections, that it knows just how to run the city.

The Escanaba Journal confesses to not having a definite knowledge of the ins and outs of the bill he fathered, but attests to an undying confidence in Senator Fuller.

Representative Monroe and Representative Monroe's district appear to be having serious differences. The Mining Journal hopes they will be able to adjust them to everyone's satisfaction.

Compared with a few weeks ago yesterday's markets did look somewhat sickish, but compared with the immediate past they gave but little cause for complaint.

Though we are assured that Mr. Rockefeller's reported plan of giving the Chinese \$30,000,000 to lead them into the ways of western civilization is based on business sanity, it must be confessed that it sounds a little fantastical.

The Mining Journal has heard nothing more of the council session at which it is proposed to reconsider the resolution authorizing the use of voting machines April 1. By common consent this is a meeting which might as well not be held.

The promoters of the Marquette-Negaunee interurban reiterate that they are much in earnest about their proposition. It is to be hoped that Negaunee will quibble no longer about the franchise ordinance, and thus give the promoters a chance to "show" the county.

It is but a few months ago that the railroads, through press bureaus and devious devices that only railroads are acquainted with, were appealing to the people to save them from the president. Now they appear to be appealing to the president to save them from the people.

We aren't hearing any more about the Osceola-Calumet & Hecla feud, but we are justified in taking it for granted that the high priced lawyers retained by the respective parties are putting in overtime on the cases they will present to the United States court March 25.

The reduction of the minimum rate for the city lighting service bears testimony to the interesting fact that there are some Marquette consumers who are getting all the light they need for less than the old minimum rate of \$1. They couldn't get along any cheaper on kerosene.

The upper peninsula has shown clearly that it isn't in favor of snap legislation. It should now be consistent and in the future frown down snap legislation of all kinds. Occasionally there may be some justification for that sort of legislation, but the occasions are few and far between. As a general rule any

bill that cannot stand the light of day and public discussion has something wrong or vicious about it. As a class, legislators ought to be chary about lending their approval to such bills, and the governor ought to be slow to sign them. Furthermore the home districts should hold their members to a close account for any part they may play in giving them the sanction of the legislature.

John Manning, James Moloney and T. J. Maney are all reported to be applicants to the police commission for appointment as chief. The Mining Journal hasn't heard when the commission will exert its powers, and organize the force. It cannot, however, do so until Marshal Manning's term expires, unless he should resign, and thus it is not unlikely that the whole matter will go over until after election.

A Negaunee report runs to the effect that the Cleveland-Cliffs Iron company, the Oliver company and the Breitung interests have patched up their differences, which came to a head in the Gordon-Butler fight last fall, and will not be at loggerheads in the municipal election in Negaunee this spring. If a permanent pact has been arrived at The Mining Journal hopes that one of its provisions is that the First district of the county will hereafter be allowed to manage its own legislative affairs.

In Ishpeming as in Marquette there is both a Citizens' and a People's party for the purposes of local politics. But the results are very different in the two cities. In Ishpeming there is a distinct line of cleavage between the parties. They hold separate conventions, and thus the preliminaries to the spring election are gotten through in an orderly manner. In Marquette the Citizens' partisans of one year are the People's partisans of the next, and the preliminaries are ordinarily involved in much confusion. Many people think that Ishpeming's way is the best.

If the amount of heat that Marquette people have of late years been able to develop over their municipal elections has led any outsiders to imagine that the city is going to the demeriton bowdows the preliminary report of the auditors will show them that it is one of the most honestly governed cities in the upper country. Marquette's plight is not a bad one. On the contrary, its condition is tolerably good, and if all hands will turn in and give the next mayor, whoever he may be, cordial support in getting the best results for the city there may be a steady clearing of the air of factionalism, of which we have had rather too much of recent years.

RAILWAY CAPITALIZATION.

"Overcapitalization"—this is a word that comes from the fluent of tongue when they speak of American railroads. Is the implied accusation justified? Is the tangible property of American railroads worth much less than the sum of the securities issued against them? Eliminating the duplication of railway securities, through the intercorporate ownership of railway stocks and bonds, the net capitalization of American railroads at the close of 1905 was \$11,167,105,922. At the close of 1906, although the figures are not complete, the net capitalization was approximately \$12,500,000,000. What is the property represented by this capitalization actually worth? No one knows with absolute accuracy, and no one can know. The statistician of the interstate commerce commission, in 1904, computed the value at eleven billions. If he was right, counting the new money invested and the general rise of values in the three years, the railroads should be easily intrinsically worth their present capitalization. It is the belief of most engineers who have considered the subject that the railroads of America, in view

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherry bark are extracted and preserved in a medium of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Cos. Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia, as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system. "The Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing by applying to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Sanitary Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post. You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

of the increase in the cost of terminals and rights-of-way, could not be reproduced for the sum of the securities now outstanding against them.

When comparison is made with foreign countries, where the issue of new securities is closely watched to the end that there shall be the least possible divergence between capitalization and actual value, the result is favorable to American railroads. Our railroads are capitalized at \$7,000,000,000; those of Great Britain at four times as much per mile, and the remainder of Europe at twice as much per mile. The 178,000 miles of railway in Europe are capitalized at twenty billions, while our 216,000 miles are capitalized at twelve and one-half billions. With respect to earnings the comparison is as favorable to American railroads. The gross earnings of the European railroads are \$2,200,000,000 a year; of ours \$2,100,000,000. With gross earnings but 5 per cent less our capitalization is 40 per cent less.

Mining News

GREENE-CANANEA.

New Operating Company Cutting Heavily Into the Costs.

Mine Superintendent James Kirk has returned from visits to Montana and the Lake copper country, reports a Cananea correspondent. With Dr. Ricketts, general superintendent of the Greene-Cananea, he is now engaged in completing plans for further extension of the caving system in the mines and for other economical steps in the production division. Costs here have been cut heavily in the last six months, and will be reduced still more during the first half of the year. Dr. Ricketts has to this time devoted his attention largely to studying the general Greene-Cananea situation, but is now understood to be about ready to begin execution of the various plans which he has outlined for the reduction of costs and the increase of production. The latter will be aided within the next few months by the going in commission of the two new furnaces ordered to replace the old Nos. 1 and 2 furnaces. One of these furnaces is now being set up and all is in readiness to receive the other. The one being set up will have capacity equal to that of both the displaced furnaces. The one yet to arrive will handle better than 300 tons a day.

Greene mines are working full-banded and producing upwards of 3,500 tons daily. Development work is being carried on well ahead of production and constantly showing greater and greater ore bodies. At the Cananea Central property the main working shaft, three compartments, electric hoist, has been started. At 175 feet drifting will be commenced to the levels of the Bonanza ore shafts of the America property, and all the ground of this mine worked through the main shaft. The Bonanza ore stands perpendicular, and will be followed up by the main shaft to be depth yet undetermined before halt is made for purposes other than the cutting of stations. On the Cananea-Duluth property the Central shaft, which has been accepted with pretty general favor, which means that everything will soon be straightened out to permit of the vigorous development of this property, considered by many to be a greater mine than the America.

Thomas F. Cole is understood to have made an agreement with Lindsay and Talbot, whereby he has the privilege of taking over the Bonanza de Cobre development of the first-named gentleman. It contains 700 pertenencias extending north from the smelter, and has been prospected to sufficient extent to determine that it is in the ore channel. It looks like another America. No papers have yet been signed in this deal, and it is understood to not be until title is acquired to the ground from the government. Report has it that the subsequent flotation will be made after the manner of Globe Consolidated, and probably, as in that case, under auspices of Howland & Smith and their Duluth associates.

The Thompson, Watson & Thompson pool, Boston and New York, have six shafts sinking on the Cananea-Bisbee, taken up two months ago. The sulphide zone has been reached in No. 3 shaft at 110 feet. The shaft is now sending up ore running between 1 per cent and 2 per cent. All the other shafts are making copper showing assays holding around one-half of 1 per cent. It is not expected that more enriched ground will be reached at this property under 300 feet. Enough has been demonstrated to this time to assure that if enrichment does occur the property will develop ore bodies of great extent. The same pool this week organized the Sonora-Cananea Development company, which will take over about 6,000 pertenencias of mineralized ground which it has acquired extending south from Cananea-Bisbee to the lower corner of Arizpa Development. Prospecting camps have been established and a thorough examination is under way preliminary to bringing in diamond drills and exploring for a site for a deep shaft.

Sierra Madre Lumber Company. The original contract which the Sierra Madre Land & Lumber company held with the Cananea Consolidated Copper company has been enlarged so that at the present time the Lumber company has a contract with both the Cananea Copper company and the San Pedro Copper company by which the copper companies agree to take for a term of twenty-five years at market prices at the point of delivery all the timber and lumber they use. It is estimated that the practical effect of this new or revised contract will be to increase the yearly gross lumber sales to those two companies from \$1,000,000 to \$2,000,000, out of which an estimated net profit of \$800,000 will be realized. The Sierra Madre Land & Lumber company has recently acquired 210,000 additional acres of timber land, making its recent holdings 2,525,000 acres, probably the largest tract of timberland under one control in the world. The company has issued \$3,000,000 6 per cent mortgage bonds, besides which Condon (Greene) and associates have subscribed to \$2,000,000 debenture bonds, the proceeds

of which will furnish working capital and pay for railroad equipment already derived. Additional lumber sales outside of the \$2,000,000 already assured by contract have been conservatively estimated at \$1,000,000, making a total gross business of about \$3,000,000 yearly.

OLD DOMINION.

Discussing conditions at the Old Dominion, the Boston Financial News says: "The company now has a stretch of over 200 feet on the vein of good width which will assure it of a big supply of sulphides and as a result of the showing made in the United Globe property it has ore with excess surplus in its sufficient to matter the rich carbonates, which the company has in the West country, but which have been over-shaded by the recent important strikes in the sulphide body in the East country. The management will almost immediately sink the shafts deeper in order to establish the next level at a depth, which will definitely settle whether or not the rich vein extends to extreme depth. The next level will be established 200 feet below the present line and the company has a part of this depth already penetrated so that it will be a question of sinking about 150 feet further and then cutting the station there before sinking. The most recent advices from Globe report that Superintendent Heggerdt is ready to begin this work at once. The company is also busy extending the drifts at the fourteenth level, which will eventually show the

condition of the sulphide vein at that level in its entirety. The company will be in a very much improved condition just as soon as it gets its fifth smelter unit into operation. This furnace, which will be of the regulation water-jacket type, has a nominal capacity of 250 tons a day, but the same type furnace when relieved of the burden of treating the fines and fine dust can handle 400 tons of crude ore a day under present conditions at Globe. The company at the present time is brigetting most of its dust and some of its fines, but this method has not proved economical, and the installation of its reverberatory will add another economical factor. The finding of just the grade of sulphides that have been desired, in the United Globe property, and the fact that the troublesome litigation in which the company has been engaged is one step nearer conclusion is a big factor in the improving condition of the Old Dominion's position.

The company has been estimating upon an output of copper slightly over 4,000,000 pounds per month, but if the present grade of ore maintain it will not stop at these figures, and it will easily be able to output somewhere in the neighborhood of 5,000,000 pounds of copper per month, which means over 60,000,000 pounds per year. At this figure the Old Dominion, considering its low price of production, ought to vie with the Copper Queen as the chief copper producer of Arizona. In light of the recent discovery it would seem that those who recently had an option on the

\$9,185 IN PRIZES INCLUDING

A \$500 GRINNELL BROS. PIANO FREE

In opening up our Spring Campaign in the Upper Peninsula, we have decided to institute something entirely novel in the way of advertising, for the purpose of encouraging and stimulating a greater interest in music and making the same of value to the residents of this section.

We propose to distribute \$9,185 in prizes. Why are we giving this amount away ABSOLUTELY FREE? Because, if we can impress upon the minds of 250,000 people the fact that

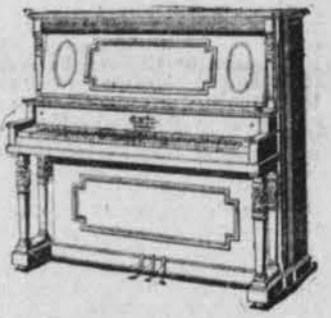

we are headquarters for everything in music and have Branch Stores at Hancock, Escanaba and Sault Ste. Marie, we can well afford to give away this extraordinary list of prizes. Therefore, to make the name of our house occupy a place in your mind as standing for everything that is best in Pianos, Piano Players, Organs, Talking Machines and Musical Goods of all kinds, we would like to know how many words you can make from the eleven different letters contained in the two words—

"GRINNELL BROTHERS"

CLASS "A" PIANO CONTEST--\$8,375 IN PRIZES

Including one "GRINNELL BROS." Piano valued at \$500

Any Person Eligible Who Does Not Own An Upright Piano. To the person able to form the greatest number of correct words from the eleven letters contained in the two words, GRINNELL BROTHERS (G-R-I-N-E-L-B-O-T-H-S), we will give the following prizes: FIRST PRIZE—One magnificent Grinnell Bros. piano, valued at \$500, together with a handsome stool and scarf. The TEN next highest answers will entitle contestants each to a Credit Certificate of \$100 on any new Grinnell Bros. own make of Piano. The TWENTY-FIVE next highest answers will entitle contestants each to a Credit Certificate of \$75 on any new Piano in our magnificent stock. The FIFTY next highest answers will entitle contestants each to a Credit Certificate of \$50 on a new Piano. The ONE HUNDRED next highest answers will entitle contestants each to a Credit Certificate of \$25 on a new Piano.

THE PRIZE PIANO, PRICE, \$500

Class "B" Organ Contest--\$810 in Prizes

Including a Beautiful 6-Octave "Silver Chimes" Organ worth \$85

Any Person Eligible Who Does Not Own An Organ or Piano. FIRST PRIZE—One Splendid Silver Chimes Organ, 6-Octave, valued at \$85, together with a handsome Stool and Instruction Book. The persons sending in the TEN next highest answers will each receive a Credit Certificate of \$25 to be applied on any Organ worth \$85 or more. The FIFTEEN next highest answers will entitle contestants each to a Credit Certificate of \$15, to be applied on any Organ worth \$50 or more. To the TWENTY-FIVE next highest answers we will award Credit Certificates of \$10, to be applied on any Organ worth \$35 or more.

THE PRIZE ORGAN; PRICE, \$85

The magnificent stock of Pianos from which customers have the opportunity of selecting and which are handled by us exclusively, includes such makes as: STEINWAY, SOHMER, GRINNELL BROS., STERLING, SHONINGER, HUNTINGTON, WEGMAN, KRAKAUER, WESER BROS., SCHAEFFER, MENDELSSOHN, SMITH & BARNES, and Others. In Organs we are sole agents for the celebrated ESTEY, SILVER CHIMES, PACKARD, UNITED STATES and Others.

RULES GOVERNING CONTEST | SPECIAL INSTRUCTIONS

All answers must be in our office not later than March 30th, 1907. Credit certificates are NOT TRANSFERABLE and cannot apply on any purchase made prior to March 30th, 1907. No person allowed to enter more than one class. No more than one credit certificate will be accepted on the same instrument. In the event of a tie between successful contestants, prizes identical in character and value will be given to each. No person allowed to compete who is in any way connected with the Piano and Organ business. Grinnell Bros. reserve the right to reject any list not signed by person compiling the same or not complying with all the rules and instructions herein set forth. The credit certificates will bear no cash surrender value, but are to apply only on the purchase of new Pianos or Organs in accordance with plan outlined above. EASY PAYMENT TERMS will be granted certificate holders who may not wish to pay the full balance in one cash payment. The \$500 GRINNELL BROS. PIANO offered free in this contest, is the product of our own Factory at Detroit. It is an instrument of the very highest class—absolutely the best that money and wide experience can produce. \$500 is its established price, and at this price its value is absolutely unapproachable. The person who wins this money prize will indeed be fortunate. It will be awarded strictly in accordance with the above rules and regulations.

GRINNELL BROS.

U. P. Branches of Grinnell Bros., Detroit—Michigan's Leading Music House

Copper Country

HAD TERRORIZED THE FAMILY.

States of the Fear Inspired by the Insane Joe Hamel.

There is abundant evidence coming out of the insanity of Joe Hamel, who is confined in the county jail on the charge of murdering his mother in their home in Ripley last Friday morning.

Miss Agnes Hamel, sister of the murderer and daughter of the victim, returned Saturday from Marquette, where she is a student at the Normal school.

Before Miss Hamel went to Marquette she had been the object of her insane brother's threats.

It was with a man like this that the three women had lived for months in constant terror.

After the younger girl had gone away to school his malice seemed to be directed against his mother.

He would not let either his mother or sister rest at night. His practice was to lie down

DIES IN COUNTY JAIL.

Sakari Koski Expired at Early Hour Yesterday Morning.

Sakari Koski, an insane man from Laird township, who was reported on Sunday as dying in the county jail, passed away at 2:20 o'clock yesterday morning.

Koski was brought to the county seat last Thursday from White's crossing, Laird township, as an insane patient.

He was found to be suffering with pneumonia, and every attention was given him by Dr. Jackson, the county physician.

But his system was weakened by exposure and was known on Monday that he could not live.

He was thirty-six years of age and as far as can be learned had not a relative in the world.

He had said some time ago that his parents and relatives were dead. The remains were taken to Kretzlow's morgue, and they will be interred today at the expense of the county unless some unexpected relative turns up to claim the body.

ST. PATRICK'S DAY AFFRAY.

Henry Auger of Hancock Arrested for Shooting Frank McDonald.

Henry Auger, a Hancock young man, was arrested Sunday night by Sheriff Beck on a charge of assault, the degree of which charge will be determined by the condition of Frank McDonald, also of Hancock, who is now lying in St. Joseph's hospital with a bullet wound in his right shoulder.

The matter was hushed up somewhat until Sunday night when Sheriff Beck heard of it, and made the arrest. McDonald's condition was not considered serious yesterday.

It was said in the sheriff's office yesterday that young Auger was in the habit of carrying a gun and that he has a reputation which is far from good.

He was employed for some time as a wiper in the Mineral Range roundhouse in Hancock, but recently lost his position.

DEATHS IN THE COPPER COUNTRY.

Timothy Sullivan and John Noonan of Calumet.

Timothy Sullivan, seventy years of age, is dead in Hancock, where he had lived for the past thirty years. The funeral arrangements were not made yesterday as the family was awaiting advice from relatives in the west.

The remains of John Noonan, who died at Calumet last Thursday, were interred yesterday in the Catholic cemetery in Hancock.

Mr. Noonan had expressed a wish for an old-fashioned funeral, and the cortege from the entire distance from Calumet to Hancock yesterday morning in deference to his desire.

Mr. Noonan had lived in Hancock for forty years, but recently made his home in Calumet with his son. He was sixty-five years of age.

The funeral of Mrs. Paul Tice was held in Houghton yesterday morning from St. Ignace's church. The remains were interred at Forest Hill.

FOUND AT LAST. J. A. Harmon, of Lizenore, West Va., says: "At last I have found the perfect pill that never disappoints me; and for the benefit of others afflicted with torpid liver and chronic constipation, will say: Take Dr. King's New Life Pills." Guaranteed satisfactory. 25c. at The Stafford Drug Co.

"What shall we have for breakfast?" "Why, today's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-cod)

COPPER COUNTRY BASEBALL.

Northern-Copper Country League Plans and Prospects.

The hockey season is over in the copper country, except for a few amateur games which may yet be played, and the sport lovers of the district may now turn to baseball, which after all leads in popularity.

The Northern-Copper Country league is well advanced with its plans, and all the clubs are practically ready for the opening day.

Dr. Percy R. Glass of Lake Linden, president and secretary of the league, has his hands full just now adjusting claims for players, forwarding contracts, planning a schedule and generally guiding the league through anti-season difficulties.

It is impossible at this time to give out a complete roster of each club, as the names which might be printed now are sure to be subject to changes before the season opens.

The playing managers of the four clubs have been selected, however. They are M. O. Taylor for Houghton, "Smiley" Smith for Duluth, Ed. Herr for Winnipeg and Frank Mullane for Calumet.

Each of these has signed a long string of men to report for spring practice about May 1, and President Glass says the list in each case guarantees such a race as was never seen before in copper country baseball.

The clubs will all have to draw down their lists to twelve men by the opening day of the season. In the past they have been allowed a period of probation in which to drop the extra men who have been tried.

The salary limit is \$1,100 per month, and any club exceeding this will be fined \$25 a day for every day the excess is in force.

The national commission's laws against contract jumping this year are strict. Hereafter any man jumping a baseball contract is forever barred from participating in organized baseball.

The new contracts also contain a non-reserve clause. Heretofore a reserve clause was in each contract, and if the player struck it out before signing it became a non-reserve contract, holding the player for only one season.

Now every player is reserved for one year whether he desires it or not. The non-reserve idea last year is what has created the present difficulty between Calumet and Houghton over the services of Mutter.

He did not sign the reserve clause, and if the manager of the Calumet team did not notify him of his reservation this year at the proper time he is free to go to what club he pleases.

Calumet claims he was so notified, and he says he was not. The league will have to settle it. The contracts this year make such a disagreement impossible.

Dr. Glass took The Mining Journal through the mazes of organized baseball yesterday, showing that baseball under the American agreement is the most thoroughly organized industry in the country.

Every baseball player in the country has a record, and it is kept up to date for his club. He has few opportunities of indulging in the vagaries of the professional athlete.

If he wants to play ball he has no control over his own services; he is entirely at the command of the organization, is bought and sold like a chattel, has practically no voice in choosing the club to which he will play, after he has once signed a national agreement contract.

He must submit to this or keep out of organized baseball. There is as usual a lot of talk about players who do not expect to come back this year, preferring to work at their trades or get into independent baseball.

As usual, the first time the gang gets out on the ball yard the alleged deserters will be among them. It is in their blood, and as long as they can play the game they want to be in it.

Some Humor from Detroit. There appears to be no reason why any one should attempt to have fun at the expense of the Northern-Copper Country league. But a sporting writer on the Detroit Times, who is about as funny as he is inaccurate, throws off these brilliant remarks: "According to present plans, the so-called Northern-Copper baseball league leagues will this season confine its membership to but four clubs, and, in all probability, a Class D grade of protection. There isn't anything so very majestic about the two facts mentioned, yet, in several respects the little league will be unique in baseball. Its four members—Houghton, Mich.; Duluth, Minn.; Fargo, N. Dakota, and Winnipeg, Man.—represent four different states and provinces of two countries.

ALL KIDNEY AND BLADDER TROUBLE

READILY RELIEVED BY THIS MIXTURE WHICH ANYONE CAN PREPARE AT HOME.

Here is a prescription that anyone can mix at home. Any good prescription pharmacy can supply the ingredients named at little cost; being composed of vegetable extracts, it is harmless and inexpensive.

Best of all it does its work well, relieving even the worst forms of bladder trouble, frequent urination, backache, kidney complaint, and by its direct action upon the eliminative tissues of the kidneys, makes these most vital organs rid the blood and system of waste matter and uric acid which causes rheumatism.

Here it is; try it if you suffer. Fluid Extract Dandelion, one-half ounce; Compound Kalmegh, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

A well-known local druggist is authority for the statement that one week's use shows good results in nearly every instance, and such symptoms as lame back, frequent desire to urinate, pain in bladder and even chronic rheumatism are generally relieved within a few days, the pain and swelling diminishing with each dose.

It would be practically represented by an organization taking in Detroit, Chicago, Kansas City and St. Louis.

"Why the players will have to struggle to play more than two days out of three, with those 300-mile jumps from town to town and a little 75-mile trapeze injected once in a while for good measure.

The magnates are game, though, and they are going ahead just as if their towns were all on one little dinky trolley line. They are good sports up in the northern country, and they may make a success out of what looks a certain failure.

With these jumps, though, they'd better call their organization the "Grasshopper league."

The writer should have had Calumet in his list instead of Fargo. He also should know that this is a Class C league. The class of a baseball league is determined by the population of its territory.

Duluth and Winnipeg alone exceed the 200,000 minimum for a Class C league, not counting the 40,000 from which Calumet draws and the 20,000 tributary to Houghton.

The "Grasshopper" league is the smallest in the United States and has as long as the National. The Western Canada league has also only four clubs but has a more restricted territory.

Dr. Glass says that he is certain the league will make money this year, and it can laugh at such criticism as the above.

Selbra, first baseman of last season's Lakes, has been signed by Houghton and writes that he is glad of it. Winnipeg had almost closed a deal for Selbra, the big pitcher of last season's Lakes, but did not turn over the purchase money, and John Morrison of the new Letbridge team captured him.

He will therefore play in the Arctic league. FIVE DELINQUENT TAXES. Houghton County Taxpayers Were Prompt in Paying Last Year.

County Treasurer Foley continues to receive delinquent returns from the various township treasurers, and the returns show that the taxpayers did ready money last year the delinquents being very few.

He received delinquent returns from Laird, Duncan and Franklin townships on Saturday. Treasurer Eugene R. Lynch of Franklin turned in a delinquent roll of \$38.33 out of a total roll of \$34,272.11.

Treasurer August Nerdine of Duncan turned in \$621.61 as delinquent out of a tax roll carrying \$10,500.22. Treasurer Peter Hiltunen of Laird submitted out of a roll totalling \$9,681.87 a delinquent list of \$1,818.00.

Laird township returns a proportionately larger delinquent list than any township in the county, but it is a purely agricultural township and has many large tracts of untaxed lands which are considered worthless and the owners choose to let them go by default rather than pay the taxes.

MILLAN MEMORIAL.

Ontonagon County People Will Contribute to Monument Fund.

Samuel Brady, of Rockland, has been made Ontonagon county chairman of the James McMillan Memorial association, and in that capacity he has completed the appointment of the associate members of his committee. They are as follows:

Rockland—L. Stannard, Chas. A. Mueller, Wm. B. Jeffs, C. P. Smith, H. L. Steverson, E. J. Evans, G. W. Stannard. Ontonagon—T. A. Green, John Jones, Z. C. Kimball, John Hawley, H. M. Powers, James Mercer, C. Mellicur.

Greenland—James D. Nelson, S. A. Prince, W. G. Van Slyck, W. L. Stannard, J. E. Bower, F. J. Larned, S. E. Sarges. Mass.—Captain J. M. Wilcox, J. C. Hansen, W. Thompson, W. A. Brown. Matchwood—Rudolf Stindt, Jerome Brown.

Bruces Crossing—Jas. N. Howlett, Henry Carlson. Even—August Wallen, Fred S. Ball, H. G. Lytle. Rubicon—Edward Rossau, Joseph Ouellette. Carp Lake—H. D. McKenzie, Gordon McLain. Trout Creek—George Harde, A. B. Payne.

The memorial association is organized for the purpose of securing funds to erect a monument in McMillan Park, Washington, D. C. The park enclosing the writer works plant of Washington was named for the late Senator McMillan by Secretary of War Taft, and Michigan people, recognizing the honor done to the senator's memory, will respond by erecting a monument, purchased by funds seemed through voluntary contributions throughout the state.

REVIVALS BEGIN TONIGHT.

Evangelist Kilgore, who conducted revivals in the Baptist church at Menominee last week and who was engaged for the First Baptist church at Laurium this week, did not make his appearance at the time expected.

His success in Menominee was so great that the church there prevailed upon him to remain over Monday. He was to have opened his week in Laurium Sunday night, but for the reason stated could not and he is therefore to conduct his first meeting in the copper country tonight.

KEWEENAW CENTRAL EQUIPMENT.

The Keweenaw Central railroad has put into commission two new coaches which were received last week. They are a day coach and a combination smoking and baggage car. They will replace the temporary equipment in use since the line opened a few months ago.

These cars will constitute the passenger equipment of the road until the opening of the summer season when several coaches will be added.

TWO IN ONE WINTER.

C. E. Emerson, of Fitzwilliam, N. H., had two attacks of pneumonia in one winter. He writes that two physicians said he could not recover from the last attack. After they had given up hope he began taking Foley's Honey and Tar, which brought him out all right.

He writes that he surely thinks Foley's Honey and Tar is the grandest remedy for throat and lung troubles. The Stafford Drug Co.

SAVED HER SON'S LIFE.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Rippee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him when by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold remedy by The Stafford Drug Co. 50c. and \$1. Trial bottle free.

NO CASE ON RECORD.

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a yellow package. Contains no opiates and is safe and sure. The Stafford Drug Co.

OBSCURED THE DEITY. One of the best known preachers of the old-time Methodist church of Maine was the Rev. William Bray, of Unity, and, as well known for his piety, was a certain trenchant and candid manner of speech. Through the influence of a presiding elder, who, as he thought, was prejudiced against him, he was appointed to a small and scattered settlement, when he and most of his friends felt that he ought to have been sent to some prominent position.

OLD AGE. Comes to Everyone, But Its Visits May Be Postponed. Old age is not a question of years. Some men are old at forty, others are young at sixty. It's a mighty hard proposition to look young, no matter how young you feel if your hair is falling out and your head becoming bald.

NO CASE ON RECORD. There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a yellow package. Contains no opiates and is safe and sure. The Stafford Drug Co.

Not a "Prospect" But a Mine In a Proven District SUNSET MINING AND MILLING CO. OF WILCOX, ARIZONA.

This company owns ten claims, or about 200 acres of mineral lands in Cochise County, Arizona, and within one-half mile of the new acquisition to the Calumet & Arizona, the Casey property, for which absolutely undeveloped property the said company paid \$100,000. The Sunset Mining & Milling Company's property is being rapidly developed under the able and conscientious management of Mine Superintendent George H. Wilson. The ore which is taken out is being shipped to the nearby smelters for treatment and everything indicates that in the near future this will be one of the richest mines in Arizona.

IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition. It cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

City Brevities

Today's weather: Rain or snow and warmer. Yesterday's temperatures: Seven a. m., 26 degrees; noon, 26; 7 p. m., 23 Maximum, 31 degrees; minimum, 26.

J. H. Parks of Crystal Falls was in the city yesterday.

W. J. McCorkindale was down from Ishpeming yesterday.

Burdie Anderson of Munising spent yesterday in the city.

Mrs. and Mrs. F. B. Spear have gone to Florida, to spend a few weeks.

O. M. McLaughlin of Munising was in the city yesterday on business.

James Healey left last evening for New York, to visit relatives for a time.

Mrs. J. H. LaRoche left last evening for Chicago, on a few days' purchasing trip.

Mr. and Mrs. E. S. Harris of Eaton Rapids, Mich., spent yesterday with Marquette friends.

Alex McLean, James Tobin and William J. Thomas of Calumet were in the city yesterday.

S. S. Blundell and Antoine Chasa of Keweenaw Bay called on Marquette friends yesterday.

Mrs. W. D. Stewart of Crystal Falls is visiting at the home of her father, T. P. Gill of Hewitt avenue.

A marriage license was issued by the county clerk yesterday to John Niemi and Hita Walima, both of Republic.

Miss Jessie Andrews has arrived in the city from Chicago, to take charge of the millinery department of L. Getz's store.

Messrs. Boxer, Osgood, Connell and Peters will give another of their series of parties at Legion hall next Friday evening.

W. W. Osband, special deputy collector of customs for the port of Duluth, where he will spend a few days on business.

The Young Woman's Aid society of the Baptist church will meet this afternoon at 2:30 o'clock with Mrs. Frank B. Spear, Jr., 230 E. Ridge street.

Con Corbeau, a member of the Calumet hockey team during the International league season just closed, was in Marquette for a short time yesterday.

U. P. Agricultural Society—The annual meeting of the Upper Peninsula Agricultural society will be held here today. It will be called to order at the city hall at 11 o'clock this morning. Delegates are expected from a number of counties.

Small Blaze—The fire department responded last evening about 5:30 to an alarm from North Marquette. The fire proved to be in a small house owned and occupied by Matt Maki. The blaze originated in the attic, evidently from a defective chimney. It was extinguished after a few minutes work, with slight damage.

Fishing Tug Crews—It is announced that the crews of the fishing tugs which operate here in the summer will be as follows for the coming season: Captain, Pat Molloy; mate, Frank Nason; engineer, Samuel York; Theora—Captain, William Parker; mate, Dan Morrison; engineer, Joseph Hawkins; Ethel J.—Captain, C. B. Brown; mate, Walter Moore; engineer, Ephraim McAuliffe.

Launch Used Yesterday—People along the lake shore yesterday observed a launch playing the waters outside the breakwater. The sheet of ice became detached Saturday and floated out, leaving a considerable space between the harbor ice and that in the open lake. Yesterday a launch from the life saving station cruised around in the open water, though ideal weather for launch riding is not yet here.

Juvenile Bostonians—William E. Burnham, manager of the Juvenile Bostonians company, was in the city yesterday and the company will probably appear at the Marquette Opera House shortly. The company is made up of children and one on the line of the Polard Opera company, which played this circuit last year. The children have an excellent repertoire and are meeting with success wherever they appear.

Public Nuisance—H. J. Wolf of the Lake Superior carriage works yesterday reported that the carcass of a horse had been left just behind his plant and entered a complaint with the city officials. Mr. Wolf says it is the second occurrence of the kind, and he has reason to believe that the same party was responsible both times. He says he has well grounded suspicions as to the culprit and another similar offense will result in an arrest and prosecution.

Meeting With Success—The committee of businessmen who took upon themselves the work of soliciting funds for the Salvation Army is meeting with success. The members have already approached a large number of businessmen and prominent citizens, and but in few cases do those approached refuse to contribute a small sum each month for the cause. The committee will make a tour of the city and have reason to believe that such a showing at the time of the visit of the staff officer that there will be no likelihood of Captain Corliss' being removed.

Bad breath, coated tongue, a languid feeling, is entirely unnatural. Your lazy liver and bowels need a tonic. The best soothing tonic to every organ is Hollister's Rocky Mountain Tea. 35 cents. Tea or Tablets. The Stafford Drug Co.

THIS IS WORTH REMEMBERING.

We do all kinds of upholstery, and always carry a full line of samples of furniture covers in the latest patterns; and do all kinds of furniture repairing; also renovate hair mattresses, and make them as good as new. We make and hang Window Shades, we make Picture Frames, we sell Cedarine Furniture polished to the best now on the market, and sell the best Carpet Cleaning Soap on earth. We sell Carpets, Rugs and Portieres, and as good Furniture as is made in this country, at a reasonable price. Last but not least we are manufacturers' agents, and can sell you as cheaply as any furniture house in Chicago, Grand Rapids or Detroit, assembling all risk of breakage and pleating the goods in your home. When in need of anything in our line give us a call.

HAGER BROS. CO. LTD. 118 South Front St. (3-7-1f)

HUNTING ACCIDENT.

Two Ontonagon Men Painfully Injured From One Shot.

Two hunters with one shot! Henry Blackwood and Antoine Kane are the victims. The accidental discharge of a thirty-eight revolver in the hands of Blackwood is the cause of the trouble. Both have painful wounds, but neither is regarded as being in serious condition unless complications develop.

It is just another hunting accident. Messrs. Blackwood and Kane were hunting rabbits on the Blackwood homestead in the Flintsteel region. The former was armed with a revolver. After filling the chamber with cartridges he attempted to snap it back into place. This was followed by a report and a stinging sensation in his left hand; almost simultaneously Kane became aware that something had gone wrong with his right forearm. The bullet passed through the palm of Blackwood's hand, cutting the cord to the second finger and tearing an ugly wound and then into Kane's forearm, passing into the wrist where it lodged.

After stopping the flow of blood as well as they could they "hiked" for Ontonagon. The distance is some seven or eight miles and they found the first part of the way an arduous journey. At the Kane place a rig was secured. The wounds were dressed by a physician. An attempt to locate the bullet in Kane's arm was unsuccessful. It is an experience which neither of the young men care to have again, although they are consoling themselves with the thought that it might have been worse.

Village Election.

The Ontonagon village election was devoid of spectacular features. The only real contest was over the clerkship, the contestants being Ira N. Dowd and James J. Vincent. The returns gave Mr. Dowd 169 and Mr. Vincent 166, a majority of three for the former. Believing that possibly an error had been made in counting the ballots for clerk, Mr. Vincent petitioned for a recount. This was granted and took place. It resulted in increasing Mr. Dowd's vote to making 172, and decreasing Mr. Vincent's vote by one or two, giving Mr. Dowd a majority of seven. Four ballots, one of which was not marked in any way, were thrown out.

James P. Corgan for president, Louis Loranger for treasurer and Edward Carroll for assessor had no opposition and the vote was 237, 241 and 239, respectively. For trustee, John P. Donnelly had a walk away. He received 234 votes. The contest for the other two was between I. D. Mather and Sylvester Leflar, nominees of the village ticket, and Andrew Anderson and William Davison of the people's ticket. Mr. Molander received 159. Mr. Leflar 161. Mr. Anderson 177 and Mr. Davidson 167.

Bound Over to Circuit Court.

Richard Waldrin, who was arrested at Mass City on the charge of assault with intent to commit rape, was arraigned before Justice Hansen. He waived examination and was bound over to the June term of the circuit court, bonds being placed at \$2,000. He has been unable to furnish these and is consequently being held with Sheriff O'Rourke. Waldrin is said to have been employed in the camps near Mass City and while in an intoxicated condition attempted to commit the deeds. It was reported that he was of Finnish nationality, but this was not true.

Notes of Ontonagon News.

The Diamond Lumber company is getting the material on the ground for the construction of logging camps upon its big tract of timber southwest from Ontonagon. Logging operations will be started as soon as the weather will permit and will continue the year around. The logs will be shipped to the company's mill at Green Bay.

The arrangement committee for the annual tournament of the Upper Peninsula Firemen's association, which is to be held in Ontonagon, has been selected. James Corgan is chairman and the other members are: C. H. O'Rourke, John P. Donnelly, Charles F. Eichen and John Jones. A meeting of the citizens will be called shortly when active preparations for the big event will be started.

The railroad yards are to be reconstructed. This is to be done in anticipation of increased business. Among the changes will be the construction of a switch so that the logs for the McMillan mill will not have to be hauled over the main track. A party of St. Paul officials were here recently arranging for the contemplated work—Ontonagon Herald.

ANOTHER OBJECT LESSON.

President Roosevelt and the interstate commerce commission deserve unqualified praise for the Harriman investigation—Mr. Roosevelt for ordering it and the commission for making so searching an inquiry into Mr. Harriman's methods of exploitation. The beneficial results of this pitiless publicity will be felt for years to come.

But it may be worth while to remark that this fruitful investigation of the Harriman system of frenzied finance was not made under the so-called railroad rate law of June 29, 1906, but under the amendments of March 2, 1889, and Feb. 26, 1891, to section 12 of the original interstate commerce law.

The World has repeatedly expressed the opinion that Mr. Roosevelt's last work for the country was not in jamming new bills down the throat of congress, but in fearlessly invoking laws already on the statute books. The Harriman investigation is another object-lesson—New York World.

REPUBLIC IRON COMPANY.

The annual meeting of stockholders of Republic Iron company will be held at the office of the company, Arcade building, S. E. corner 15th and Market streets, Philadelphia, Pa., on Wednesday, March 20th, 1907, at 12 o'clock M., when an election will be held for directors to serve for the ensuing year, and for the transaction of such other business as may lawfully come before the meeting.

Banking by Mail

BEGIN TO SAVE NOW

Three important questions must be answered when you think of starting a bank account, especially if it be a savings account into which you put your hard earned dollars.

When? Where? How?

WHEN? The time to start is now—perhaps you think you only have a little money and it isn't worth while—that is a mistake. One dollar starts an account and once started it grows rapidly.

WHERE? Naturally you want your money to be absolutely safe—then select this bank—its strength and continued growth proves that it has the confidence of the people.

HOW? Write to us for a copy of our Booklet, "Banking by Mail"—it tells you **HOW** in a few words and you'll be surprised how easily you can bank your savings even though you live out of town.

MARKETS

STOCKS REACTIONARY.

New York, March 18.—There was a marked abatement of excitement in the dealings in stocks today from the enormous transactions and wild fluctuations of last week. The price movement still showed a degree of feverishness that was the after effect of last week's turbulent market, but the reduction in the volume of the day's sales is conclusive evidence of the setting back of the market into a more normal condition.

So also was the check to the headlong advancing tendency of Saturday, which was wholly due to the distress of bear operators who had continued to sell stocks short recklessly down to the lower depths of Thursday's plunge and who were compelled to buy to cover on Saturday by the volatile recovery. The violence of the recovery gave warning of its unreliable nature, and speculative sentiment was quite prepared for the check and reaction today.

The drop in the opening dealings here was wide and had the effect of reversing last week's excitement. But it appeared that the wilder fluctuations were largely due to the plunging operations of the professional element which had become habituated to free action by last week's experience. Effective support appeared in the market, and the prices then went quiet and more orderly, although the renewed weakness of the later market made the lowest prices of the day.

The diminishing activity of the market indicated a disposition to pause after the severe experience of last week and take stock of conditions and of prices before entering upon large operations in stocks. General information as to the cause of the unloading which produced the convulsion in the market is still largely lacking. The money market showed the effect of the passing of the March 15 settlements, and its greater ease conducted to a recovery in foreign exchange. The last prices of stocks showed substantial losses from Saturday's closing level.

Paine, Webber & Co., report closing prices as follows:

Wabash.....	72 1/2

expected, and the amount of breadstuffs on ocean passage decreased 400,000 bushels against an increase of 1,280,000 bushels last year. The late strength in corn and oats steadied wheat the last half hour. The close was steady, the May 1/4 @ 1/2 lower. May opened at 75 1/2 @ 1/2; highest, 75 1/2; lowest, 75; closing, 75 1/2. Corn—The market opened decidedly strong. Shorts and cash interests were good buyers all day, while at times the offerings were light. The market eased off early on selling by provision houses, but quickly rallied and continued strong. The May closed at 74 1/2. May opened at 45 1/2 @ 1/2; highest, 45 1/2; lowest, 44 1/2; closing, 45 1/2.

Oats—The market opened weak, but rallied on covering by shorts and closed strong, the May up 1/2. Liberal local receipts were a depressing factor early, but the market did not suffer the effect of the free movement. May opened at 39 1/2 @ 1/2; highest, 40 1/2; lowest, 39 1/2; closing, 40 1/2.

Receipts and shipments were as follows:

Flour, barrels.....	39,000	13,000
Wheat, bushels.....	24,000	12,000
Corn, bushels.....	462,000	179,000
Oats, bushels.....	426,000	144,000

Logan & Bryan's Wheat Summary.

Logan & Bryan wired concerning yesterday's wheat market:

"The May month made a new low price on the crop today and considering the bearish sentiment and the efforts made to depress values, the statistical news showing big increase in visible against a decrease a year ago, the primary receipts double last year's figures, the ideal weather, etc., the wonder is the market did not suffer a severe slump. The fact that it did not and only closed a quarter lower speaks volumes for the buying capacity of the outside trade on the reactions. Reports of damage by winter killing, bug, or otherwise, received no attention. The trade locally is not inclined to credit anything of a bullish nature. It seems to us that the bull stand better than a fighting chance later on. The crop is not made yet, and the character of the news coming to hand from the Southwest, Missouri, Michigan and Ohio indicates that the buyers of wheat are likely to receive much encouragement later. We still feel it wise to stick to the buying side on reactions. The local trade to a man is bearish. The short interest is large and scattered. This will result in a sharp advance on the least sign of determined buying."

Logan & Bryan had this to say of yesterday's New York market:

"The market closed weak and lower, in spots sharply so. Quite a little rally set in from the low point following the opening break, but at no time did the market sell on a level with the close prices of last week. The list was clearly under pressure the last fifteen minutes of trading. Some reaction was looked for following the sharp rise of Friday and Saturday, but it is an even question if today's setback was not greater than the average trader felt was warranted. The market is likely to be nervous and erratic, but it seems to us the sky was pretty well cleared last week. It will likely prove bad judgment getting enthusiastic on the bulges, but we feel like taking advantage of breaks to try to buy stocks."

New York, the Bank of England rate is likely to be advanced on Thursday. If this is realized it will likely have a depressing effect on the market. We are inclined to look for a good scalping affair."

NEW NEVADA PROPOSITION.

Salt Lake and Michigan talent has purchased four full claims in the Yerington copper belt and organized the Yerington Copper Mining company to operate the property, which is located in the Mason pass, midway between the Ludvig and the Ironides. The ground is joined on one side by the Galleguer group, belonging to the Ish brothers of Goldfield, and on the other by the Forey group, the property of the Nevada Pittsburg company, Stephen H. Love, president of the state senate, is president; W. B. Jeffs, representing his own and other Michigan interests, vice president; Walter L. Mass, secretary and treasurer, the other directors being Fred Lynch and Jay T. Harris. John C. Lynch, David Kennedy and L. A. Jeffs are the other incorporators. The company is capitalized for 1,000,000 shares, par \$1, with 400,000 shares in the treasury. Operations will begin within two weeks.

MASS CONSOLIDATED.

At the annual meeting of the Mass Consolidated Mining company at Boston last week, Superintendent Wilcox stated that the poor showing of the mine for last year was due to the falling off in the output of mass copper occasioned by a dip in the vein, which should shortly return. At the present time only about eighteen tons of mass rock is taken out a month while in 1906, from eighty to ninety tons a month of mass rock were

TORTURED BY ITCHING ECZEMA

Suffered Tremendous Itching Over Whole Body—Scratched Until Bled—Worse at Night, With Soreness and Excruciating Pains—A Western Lady's

WONDERFUL CURE BY CUTICURA REMEDIES

"Last year at this time I suffered with a tremendous itching on my back, which grew worse and worse, until it spread over the whole body, and only my face and hands were free. For four months or so I suffered the tortures of the damned, and I had to scratch, scratch, scratch, until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over, until I was sore as could be, and until I suffered excruciating pains. I did not know what it was, and resorted to a number of blood purifiers, using at times also Cuticura Soap. They told me then that I was suffering from eczema. Then I read of Cuticura Ointment and Cuticura Resolvent. I used them according to instructions, and very soon indeed I was greatly relieved. I continued until well, and now I am ready to recommend the Cuticura Remedies to any one who suffers as did your obedient servant. Mrs. Mary Metzger, Sweetwater, Okla., June 28, 1905."

TORTURING, DISFIGURING Humors, Eczemas, and Itchings Cured by Cuticura

The agonizing itching and burning of the skin, as in eczema, the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalded head—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt.

secured, comprising at that time 40 per cent of the output. Mr. Wilcox added, however, that he expected to be able to make a very favorable report shortly on the Baltic lode, which he was sure crossed the company's property for a half mile through the Riddle farm. Drill work on the Baltic lode will be started soon as the snow leaves the ground. In reply to a question of a stockholder Treasurer Bancroft stated that at the present time the company had \$61,000 in cash on hand, against \$53,000 on Dec. 31, 1906. President Lamb stated that it was the expectation of the directors to place the mine on a self-supporting basis very shortly, and, with the expected return of an increased mass rock output, it would be easy selling and dividends would be in sight.

STRAUS STARTS REFORM.

To Examine Offices of Shipping Commissioners.

Washington, March 18.—Following the first steps in the reform on the steamboat inspection service, Secretary Straus of the department of commerce and labor will in a few days appoint a committee to examine the shipping commissioners' offices on the Atlantic and the New York and the directors of the P. H. Mohawk. The committee will examine the entire workings of this branch of the public service. Besides ordinary administrative details, the committee will especially investigate crimping laws and the practice of shanghaiing in a difficult and obscure way. These offenses involve foreign vessels. Secretary Straus will address communications to the various ambassadors and ministers through the state department, with a view of obtaining the co-operation of the representatives of foreign maritime powers. There are twenty-two shipping commissioners in the country. It is said at the department that there has been no charge of improper conduct on the part of any of the commissioners, and therefore suspicion of wrongdoing did not prompt the determination to examine the offices. The committee will begin work at once.

Oppose Mail Weighing System.

The big mail carrying railroads have decided to make an appeal to the new postmaster general against the rule which the former incumbent of the position promulgated, requiring a change in the methods of weighing the mails. A meeting was held in Chicago yesterday by the superintendent of mails for nearly all the heavy mail-carrying roads, and it was the general opinion that the new order, if carried out, would make it impossible for the railroads to furnish the present service. The order requires that the average weight of mail carried, the basis on which the total pay is computed, shall be determined by dividing the total weight carried for seven days by seven instead of by six as at present. This will operate as a cut or fully 14 per cent in the pay for transportation of the mail. If there is to be any attempt to curtail the mail service it must be by a concerted move by all of the main mail routes in the country. Those who attended the conference yesterday declared that the crisis was a grave one.

THE WORLD'S BIGGEST DIAMOND.

A solitary man was walking across the veldt, intending to climb down into "No. 3 Workings." This was Captain Frederick Wells, the mine manager. Wells took off his hat on the high level, drew a long breath or two, planted his right foot firmly and began the descent of the bank. When less than half way his eye suddenly caught a glassy gleam from a large stone three parts imbedded in the soil. To lay hands upon it and wrench it from its matrix was the work of a moment. It was a diamond of the greatest size the world ever saw, or probably will ever see again—a colossal crystal of 3,024 1/2 carats—1,375 pounds avoirdupois. It has been named "the Cullinan,"—the American magazine.

PROGRESS IN PHILIPPINES

PROBLEMS SLOWLY BUT SURELY BEING ADJUSTED.

Act Providing for Elections Is a Long Step Toward the Policy of Granting the Islands Self-Government—Secretary Taft to Be Present at the Opening of the First Assembly, Which Will Be in September—How the President Turned Down a Kind Gentleman Who Wished to Relieve the Government of All Further Responsibility.

Washington, March 18.—Neutralization of the Philippines is a project as remote from the serious consideration of this administration today as when it originated in the minds of those theorists who love to sit at home and work out in elaborate detail the solution of an intricate problem thousands of miles away which commands the earnest attention of really able men on the spot. That this was to be the solution of the Philippine problem was the suggestion recently made in a Washington dispatch to a London paper and a few days later there was published in this country a statement to the effect that "a certain prominent Republican senator" was committed to this plan.

Soon after President Roosevelt entered the White House he received an urgent request by telephone one day, half an hour before his luncheon hour, from a well-known man in this country who had come to Washington from New York and called up the White House from the railway station to plead for an immediate audience with the president on a subject of apparently such grave import that the president consented to delay his luncheon a few minutes in order to receive the visitor. Ten minutes later a carriage dashed up to the White House bringing this gentleman, whose name it is not necessary to give, and he was ushered immediately into the president's private office in accordance with orders already given.

Catching his breath the visitor began his story somewhat in this way: "I am aware, Mr. President, that you are in favor of giving every man a square deal; that you are moved by the highest and most patriotic impulses; that while men may differ with you in matters of detail you are at heart always right and deserving of every honest man's support."

With this as an introduction, the visitor continued this eulogy of the president who meantime was walking up and down his office impatiently glancing at his clock every few moments and five ten, finally fifteen minutes passed. But his visitor continued his preliminary statement until the president interrupted with the question: "My time is limited, what can I do for you?"

"I am coming to that presently," replied the excited caller. "We realize that you are ready to do as much for the Philippines as you would do for the people of your own country," and then he branched off into a eulogy of the Philippines which consumed another five minutes.

With his watch in his hand the president again reminded his visitor that time was passing, and this brought the gentleman to his main proposition which was to this effect:

"The subject of the Philippines has been one to which Senator Hoar, Carl Schurz and myself have given our earnest attention. We have had many conferences and have finally evolved a plan which will solve the entire question. I am commissioned by them to come to you and request that you appoint a commission consisting of Senator Hoar, General Miles, Carl Schurz, Archbishop Ireland and myself and of Aguinaldo and two other Filipinos to take entire charge of the Philippine islands; that upon the convening of this commission the United States declare a truce, and prepare for our withdrawal from the islands three months hence."

Throughout the conversation the president had been pacing up and down his office very impatiently, nodding assent to this and that remark uttered by his visitor. When the latter began to unfold in detail his plan the president stopped short and amazed him. The president was not only amazed but indignant. Turning upon his caller, he said:

"Do you suppose when in response to your urgent request to see me on what you represented almost a life and death matter I granted you fifteen minutes time and kept a luncheon party of fifteen waiting while I received you that I supposed you would have the impudence to waste my time with any such outrageous nonsense?"

There was no doubt about the president being thoroughly aroused, and his visitor retreating a few paces said in an astonished tone:

"Am I to understand that you wish me to convey your answer to Senator Hoar and Mr. Schurz in those words?"

"In those words," replied the president in his most emphatic tone, "or in any others that will convey my exact meaning," and the president hurriedly joined his guests in the Blue Room.

day of November, 1909, and of each odd numbered year thereafter, and the delegates so elected shall assume office upon the first day of January next following such election, and shall hold office for two years, or until their successors are elected and qualified.

Provincial governors and a third member of the provincial board are to be elected at the same time, and municipal presidents and vice presidents are also to be elected at the time above designated. All of these officers are to hold office for a period of two years and to assume their duties upon the 1st of January next succeeding their election. The municipal councilors are also elected at the same time, but hold office for a period of four years. Certain temporary modifications are provided in order that previous legislation on the same subject may be brought into harmony with the general election law, but after the system is inaugurated, delegation to the assembly, provincial governors, the third member of the provincial board, municipal presidents and vice presidents and municipal councilors shall all be elected on the first Tuesday after the first Monday of November and assume office on the first day of the following January.

Provision is also made that whenever a vacancy occurs in an elective provincial office the vacancy shall be filled by appointment of the provincial board.

Voters must be males, twenty-three years of age, and have a legal residence in the municipality in which they desire to exercise the right of suffrage, and must not be citizens or subjects of any foreign power, and furthermore must be comprised within one of the three following classes:

(a) Those who, prior to Aug. 13, 1898, held certain offices under the Spanish government.

(b) Those who own real property to the value of five hundred pesos or who actually pay thirty pesos or more of the established taxes.

(c) Those who speak, read and write English or Spanish.

There must be, therefore, an ex-officio, property or educational qualification in order to exercise the right of suffrage. A list of disqualifications is also described, including non-payment of taxes since 1896, sentence of a court of competent jurisdiction, violation of the oath of allegiance to the United States, to have been in arms against the authority of the United States since May 1, 1901, or rendering aid to those who have opposed the authority of the United States.

Provision is also made for inspectors of elections whose duty shall be to prepare order and prepare a registry of qualified voters in their respective precincts.

The general revision of what is known as the Australian ballot system is provided for, both as to the printing of the official ballot and providing for polling booths where the voter may prepare his ballot in secret and without interruption. Provision is made for challenging the right of any voter to cast his ballot and also for the counting of votes and the announcement of results. Penalties are prescribed for the punishment of any corrupt practices by either voters, candidates or officers of the election. In short, those features that the experience of the United States has shown to be most conducive to the purity of the ballot and the honesty of elections have been embodied in the election law for the Philippine islands, and as the voters have now had some experience in provincial and municipal elections, it is thought that the election for members of the assembly will express the wishes of the majority of the qualified electors of the islands.

The assembly will be a legislative body composed of eighty-one members, apportioned on the basis of one delegate for each ninety thousand of population, and provision is made to increase this number, but the total number of delegates cannot exceed one hundred. It

may be compared in a general way to the United States of house of representatives, while the Philippine commission will be the upper house or senate, and the acts of the assembly must secure the approval of the commission in order to become laws.

SPEAKER NOT YET SECURED.

The Hancock school board is in a quandary regarding the selection of a speaker for the commencement exercises this year. Professor Preston W. Search of Cincinnati is to speak at the Marquette and Iron Mountain commencements, and it has been suggested that he be brought to Hancock and Calumet also. Calumet has practically decided not to invite Professor Search for the purpose, and the Hancock board favors a local man. The board will decide when Judge Bentley returns from the South, where he has been visiting for the past several weeks. Mr. Bentley is a member of the board.

Many business men are short-sighted in not looking into things. They are daily losing money by not adopting the great Hollister Rocky Mountain Tea system. Makes them well and keeps them well. 35 cents. The Stafford Drug Co.

A severe cold that may develop into pneumonia over night, can be cured quickly by taking Foley's Honey and Tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. The Stafford Drug Co.

Father says: "Say, Mother, can't you make us some more of those fine doughnuts if I will bring home a pair of Cudahy's Peacock Lard again?" (11-27-eod)

When a statesman of world-wide reputation approached today on the subject of the plan for the neutralization of the Philippines he was reminded of this experience of the president, and when he narrated it no comment seemed necessary regarding the neutralization project.

The fact is the Philippine problem is slowly but surely working itself out. In the last mail which came from the islands Secretary Taft received from the Philippine commission an official copy of the act making provision for the holding of elections in the islands for members of the Philippine assembly. Elections will be held on July 30 next and the visit of Secretary Taft to the islands will be so timed as to enable him to be present at the opening of the first assembly, which will convene in September. As the provisions of this act mark a long step in advance towards the policy of granting self government to the Philippines, a brief analysis of its main provisions is of interest.

In harmony with the provisions of the act of congress of July 1, 1902, an election to select delegates to the Philippine assembly shall be held July 30, 1907, who shall take office when the Philippine assembly convenes, and shall continue in office until their successors are elected and qualified. Subsequent elections for delegates to the assembly shall be held on the first Tuesday after the first Mon-

DELIGHTFUL ENTERTAINMENT.
Ishpeiming Clergyman Spoke of St. Patrick and the Irish Nation.

For nearly three hours the large audience assembled at the Ishpeiming theater Sunday evening listened to inspiring Irish music and entertaining addresses on the history of Ireland and its people. John Lacey, president of the Ishpeiming division of the Ancient Order of Hibernians, presided. Rev. J. A. Keul was the orator of the evening, and toward the close of the program Rev. Hugh Floyd of Eveleth, Minn., who spoke at Marquette the previous evening, was introduced. He reviewed briefly the standing and work of the Irish people in this and other countries, and also told a number of humorous stories. He responded to an enthusiastic encore by singing two popular Irish ballads. Rev. Father Keul said in part:

"Last August I made the trip to Europe, and on Sunday, the 26th, came to the harbor of Queenstown. As we sighted the shore all we could see was a green land. As the ship cast anchor in the harbor the Irish people came on board with baskets. The women were selling laces and the finest kind of linens and other articles, and as I watched them I thought how adapted they seemed for this work; and then the men, so tall, dark and handsome—I thought what a pity it was that these men and women were forced to leave their own land and go to foreign countries to earn their living."

"Before St. Patrick went to Ireland they had a religion called Druidism and it was a beautiful religion although it was pagan; they worshipped the sun and they worshipped the moon. And can you wonder this? As they had never heard the word of God they could do no better than worship that grand luminary of the day or the beautiful light of the night. They believed in the transmigration of the soul, that is when one good man died his soul entered the body of another good man."

"The early people of Ireland were called 'Thierbold.' Their means man and bold means skin, hence the whole word meant men with skin. Ireland never lost its nationality, but it always absorbed those who came into it. We read that in ages gone by, there came to Ireland from Spain that race of men called the Melitians, but Ireland conquered them and in the end there were nothing left of them, and the islanders did not give up but they fought the invaders, nearly exterminating them, and those who did not leave the country became natural inhabitants of the island. England was Angolized, Saxolized and Normandized, and all of the Celtic race lost its original nationality with the exception of those branches in Ireland and Cornwall to which St. Patrick preached the gospel."

"Great honor should be given the Ancient Order of Hibernians for presenting the chair to the Catholic university at Washington for the teaching of Gaelic and Celtic literature, and I hope the day will come, and it is coming, when the wish of the Hibernians, especially in our own state, will be fulfilled and that the children of Irish parentage in the United States will know the history of Ireland. It will not make them love America less, and it will inspire them with the love for the country of their fathers."

FROM HOPKINS' CURB LETTER.

"Coppers continue strong and investment buying is in evidence. The highest priced issues seem to be the favorites. The Superior & Pittsburg annual statement is not expected to be out until early in April. In some quarters a very bullish document is looked for and in other more conservative directions it is claimed the statement will not be up to the more sanguine expectations. The labor trouble may bring the aggregate earnings down considerably, but we believe the statement will be moderately bullish. East Butte has been well taken up to 13. A new strike in the north drift 100 feet in from the shaft on the 600-foot level in the East Butte mine is attracting a great deal of attention. Black Mountain is steady between 6 1/2 and 7 with good demand. Of the total amount of stock offered, 100,000 shares, the Danes investors took 55,000 shares at 6, leaving but 5,000 shares for the underwriters."

SNOW PLOWS HERE.

Local Traction System Equipped to Battle With Summer Storms.

Manager J. W. McCorkindale of the Marquette City Gas & Electric company feels that the patrons of the railway line are entitled to consider him the victim of a joke. The snow plows for which he has been patiently waiting all winter, have arrived, but he stated yesterday that he did not expect to have opportunity to use them this season. Even if another storm occurs this winter, Mr. McCorkindale is not positive that he will attempt to use the plows as he believes that he will be able to get through very well with his present equipment, and besides it would take some time and labor to put the new plows in position on the cars.

The plows are constructed along lines similar to those used on railway locomotives. They can be raised or lowered several inches, while the wings extending on either side can be drawn in when necessary. It is Mr. McCorkindale's intention to equip both ends of the cars with them.

DECORATIVE ART NEEDLE WORK.

Miss N. E. Powers of Oshkosh will be at the Fringing Hotel, Negaunee, until Saturday noon, March 23, with a complete line of art needle work, including the Shadow, Biedermaier and Wallachian work; Stamping of shirt waists and French underwear a specialty. (3-19-21-c)

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

FOUGHT A REAL BURGLAR.

Former Ishpeiming Man Had Exciting Experience in Chicago.

The Chicago Daily News had the following account of an encounter Albert Ruttenberg, a former business man of this city, recently had with a burglar: "James Kelly, 'Artful Dodger,' said by the police to be one of the cleverest hotel thieves in the United States, who was captured several months ago after a chase and struggle in the Grand Pacific Hotel, is again in custody. He was arrested at 7:30 a. m. today, after an exciting chase through the corridors of the Morrison Hotel, Clark and Madison streets. A desperate fight with bellboys and private detectives followed before Kelly was finally forced to surrender. "The capture followed the robbery of Albert Ruttenberg, a merchant of Calumet, whose room on the second floor of the 'dodger' had entered. The man was searching the pockets of his victim when discovered by the latter."

"Leaping from his bed Ruttenberg ran toward Kelly, who grappled with him. Back and forth over the floor the struggle continued. Several times the merchant thought he had Kelly cornered, but the 'dodger' wiggled out of his grasp. Still Ruttenberg managed to prevent Kelly from escaping.

"The burglar had bent the key of the door, and had locked it. Mr. Ruttenberg stated that in the struggle the door was burst open. Finally when the struggle had lasted almost five minutes and both men were panting for breath Kelly managed to trip Ruttenberg. As the latter fell over the bed Kelly rushed toward the door.

"Ruttenberg leaped to his feet and followed but Kelly dodged out. Ruttenberg then screamed for assistance and the 'dodger' fled down the corridors.

"The merchant's shouts were heard by House Detective Daley and a number of bellboys, who hurried up the stairway in time to see the 'dodger' disappear around a bend in the corner. Then the pursuit followed.

"Kelly evidently not acquainted with the ins and outs of the corridors, finally ran into a blind hallway, where he was cornered. Turning on his pursuers he attacked them fiercely. Not until a blow from the first of the house detective had felled him did he surrender.

"Policeman J. J. Murphy appeared at this time and took the police character

ISHPEMING

DOING WELL AT ANTIGO.

Former Ishpeming Business Man Does Not Regret Change of Location.

Will Walters, who has been in the city the past few days visiting his brother and other relatives, has had a very successful painting business at Antigo, Wis., the past four years, ever since he left this city. He has handled a great many large contracts at Antigo and at other points in that region, and during the summer seasons is employing a large force. He does all of the painting for J. M. Solar, who has the contract for the erection of the Ishpeming High school. Mr. Walters' father, who was employed in the Chicago & Northwestern company's freight depot here for a number of years, is in charge of his store. Mr. Walters is the only dealer in town who carries an exclusive paint and wall paper stock. He likes Antigo very much, and he said that he does not regret having made the change. Mr. Solar was here yesterday from Antigo consulting members of the school board relative to building matters. He is quite anxious to get started on his contract, but he said yesterday that he does not expect to begin work until some time next month. There is much more snow on the ground here than he expected to find and he does not want to start in until he is certain the winter weather is over.

FUNERAL THIS AFTERNOON.

The funeral of the late William Pearce, who was killed Saturday evening at the Cleveland Lake mine, will be held this afternoon at 2 o'clock from the First Methodist Episcopal church, under auspices of Trelawney lodge, Sons of St. George. The sister lodges of this city and Negaunee are invited to assist. Al-

bert Osborne, brother-in-law of the deceased, is here from the copper country, with his wife and mother to attend the funeral. It is only three weeks since Mrs. Pearce and her daughter, Mrs. Osborne, arrived in this country from their native place in England. The deceased has a brother living in Denver.

ISHPEMING IN BRIEF.

Herman Jaaedeck left yesterday for the copper country, to be absent a week or more on business. The employees of the Oliver Iron Mining company will be paid tomorrow for last month's work. Captain Thomas Walters will leave tonight for the Mesaba range, to be absent a week or ten days. The ladies of Grace Episcopal church will conduct a pantry sale tomorrow morning, between 10 and 12 o'clock, at Sellwood's grocery store. The annual election of officers of the Ishpeming lodge of Elks will take place this evening at the regular meeting. Following the business session lunch will be served. William Goodman, for some time past employed as foreman at the Lake Superior Hematite mine, has resigned his position and has accepted a place under Captain Joseph Hodson, who will tomorrow assume the duties of assistant superintendent of the Mary Charlotte mine at Negaunee. The new section of thoroughfare leading to the locations in the southern part of the city and the Winthrop, which was completed last week, has not been used a great deal as yet as there is no snow on the surface. It is likely that the temporary road passing over the Section 16 mine property will be used until wagons are in commission again.

Negaunee Department

SOME POLITICAL TALK.

Two Tickets Will Most Likely Be Placed in Nomination Here.

There will be no strife between the Bretting and the Oliver and Cleveland-Cliff interests in the municipal election a week from next Monday. It is talked among the voters that the political differences of the three corporations have been patched up, and that there will be no opposition to the nominees on the Taxpayers' ticket. While Mayor Winter announced some time ago that he was not a candidate for re-election, it is now generally believed that he will be induced to again allow his name to be placed at the head of the ticket. Mr. Winter's nomination is greatly desired by many of the taxpayers, as he has given the city an excellent administration for two terms. He has been conservative and cautious and has promoted harmony among the aldermen. He has placed the city's affairs on a sound business basis and everything in the several departments is now running smoothly. A prominent business man who opposed Mr. Winter's appointment two years ago, following the death of the late Dr. J. H. Hudson, yesterday said that he is now strongly in favor of his retention in office. There are so many important matters to be disposed of this year, he said, that the taxpayers and business men of the city should support him.

There are some evidences of opposition to the Taxpayers' party, and it is now expected that a second ticket will be placed in nomination, under the head of the People's party. It is understood by those who are posted on what is doing politically that John A. Wasmuth, whose name has been prominently in connection with the office of mayor, is not a candidate, and that he will not accept the nomination. The names of Thomas Collins, who ran against Mayor Winter last spring, and Hugo G. Muck, have also been mentioned. Mr. Muck has advised The Mining Journal that he would not accept the nomination. It was predicted yesterday that in case a second ticket is nominated Mr. Collins will head it.

DIED IN CANADA.

Former Well-Known Negaunee Man Passes Away at Halifax.

Marshal Gribble received a telegram yesterday from an official at Halifax, N. S., advising him of the death of Thure A. Olin, and asking him if he could locate his relatives and learn what disposition they desired to have made of the remains. The deceased was well known in Negaunee, but he has no relatives here, though he had many friends among the Finnish people, one of his most intimate acquaintances being Werner Nikander. During the four or five years Mr. Olin resided in Negaunee he represented the New York Life Insurance company and was known to practically every Finnish resident. After leaving Negaunee Mr. Olin was appointed emigrant inspector by the United States, with headquarters in Halifax, St. Johns and other points. Mr. Nikander heard from him occasionally. In the last letter he wrote he said he was suffering considerably with rheumatism. It is possible that the remains will be brought to Negaunee for burial.

ANOTHER BOWLING LEAGUE.

Ten Teams Have Been Organized—First Contest Took Place Last Evening.

The Negaunee bowlers who participated in the league contests completed last week requested the management of Orr & Tompkins' alleys to arrange a second series to be played during the next two months. This has been done, and the teams will be made up as follows:

Wolves—Saunders, Reichel and Rogers.

Pikers—Defrain, J. Johnson and A. Hooper.

Indians—Mitchell, Willman and Wasmuth.

Eagles—Perkins, Maas and Yates.

Nationals—Purke, P. A. Johnson and one to be selected.

Green Sox—Boase, Pascoe and Curley.

Ravens—Miller, Nelson and Williamson.

Ice Wagons—Nightingale, Erickson and Kirkpatrick.

White Sox—Wentala, Berglund and Koski.

Cubs—Sporely, Klein and Tompkins.

The series opened last night with a contest between the Wolves and Pikers; the Eagles and the Indians bowl tonight; Wednesday the Nationals and Green Sox; Thursday the Ice Wagons and the Ravens; Friday, the Cubs and the White Sox. A special prize game between the teams having the highest scores during the week will be bowled Saturday evening. The prize to be awarded the winning team will be a stein and set of mugs, which are now on exhibition in the alleys.

2,500,000 HALF DOLLARS FOR MEXICO.

The U. S. mint in San Francisco is preparing for the coinage of 2,500,000 Mexican half dollars which that government has arranged to put out within the next six months. It is expected the work will begin as soon as the bullion arrives. As soon as you notice any defects or blemishes take a few doses of Hostetter's Stomach Bitters and you'll save yourself much unnecessary suffering. Delay only invites a more serious illness. Therefore get a bottle this very day from your druggist, grocer or general dealer but be sure to notice that our Private Stamp is over the neck. This is your guarantee of an absolutely pure medicine. It cures poor appetite, bloating, insomnia, headache, dyspepsia, indigestion, biliousness, grippe, female ills and malaria.

It is a snow white, creamy, healing antiseptic balm that gives instant relief to Catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine Wis. Large jars 50 cents. Sold by The Stafford Drug Co.

LOUIS MILLER RETURNS.

Was Slightly Injured Friday in Wreck on Rock Island System.

Louis Miller, of the firm of Miller Bros., arrived home yesterday from Hot Springs, Ark., where he spent the past six weeks receiving treatment for rheumatism, from which he has suffered for several years past. Mr. Miller has a most eventful return trip, as he was a passenger on the Rock Island train wrecked on the Choctaw division. Mr. Miller considers himself fortunate, for although the wreck was a bad one, he escaped with an injury to his arm. The wreck was caused by an open switch. When the train was within a few feet of the switch the engineer applied the air, stopping the train so suddenly that the locomotive and all of the cars left the rails, most of them overturning. The engineer and fireman were killed outright, and the baggage man was so badly injured that he died while he was being taken to Rock Island. Two porters in the dining car were also seriously injured, and most of the passengers were hurt. Mr. Miller was riding in the second car, which was broken in two. It was the only car of the train that was not either demolished completely or overturned. The trucks came through the floor. The body of the smoker, the car ahead, piled up on top of the locomotive. Fortunately there were no persons in any of the cars, and thus there was no conflagration following the wreck.

It took some time to remove the bodies of the dead and take care of the injured. Few of the passengers kept cool, most of the being panic-stricken. Mr. Miller aided in caring for the injured. One passenger whom Mr. Miller aided, had an artery severed in his arm and for a time it was thought he would bleed to death. When the excitement had subsided and the passengers had an opportunity to look the situation over the management of the road was very generally censured for the condition of the tracks and switches. Mr. Miller said that the switch signals had not been painted for years and that the engineer could not tell whether the red or the white side was facing him until he was within a few feet of it. If the signals had been in proper condition the engineer could have seen the danger signal in sufficient time to stop the train before reaching the siding.

OLD CITIZEN DIES.

One of Negaunee's First Italian Residents Has Passed Away.

John Emmano, one of the first Italians to locate in Negaunee, and one of its best known men of that race in this city, died Saturday evening at his home at the Cambria location, where he had lived for twenty-five years or more. Death was due to cancer of the stomach, which came on unexpectedly. About six weeks ago Mr. Emmano went to Chicago, where he submitted to a surgical operation, but his condition was such that the surgeons gave him no hope for recovery, and he was sent back home as soon as he could travel. His condition gradually grew worse until his death.

The deceased was one of the organizers of the Negaunee Italian society, which is now one of the most prosperous in the upper peninsula. He was a leader in the affairs of the society and was a man who had many friends outside the city of his own nationality. He was fifty-three years of age, and is survived by his widow and eight children.

COUNCIL MEETING TONIGHT.

The Negaunee council will meet this evening in special session to consider the ordinance granting the Lake Superior Railway Construction company a franchise. Secretary J. W. Barber will be present at the meeting and will show the company's right-of-way contracts, and give them any other information concerning his work they desire. Mr. Barber has labored earnestly and untrudgingly for his company during the time he has been in the county, and he has made an excellent headway. He has been assured by the officials of the mining companies that privileges to operate the line over their lands will be granted. It is likely that the ordinance will be adopted tonight, as several members of the council have the past few days expressed themselves as being favorable to its adoption.

Pure White Lead is the Natural Paint Pigment

Numerous compounds are being offered to take the place of Pure White Lead, but no real substitute for it has yet been found. Pure White Lead has a peculiar property of amalgamating with the wood upon which it is used—added to this it has an elasticity which permits the paint to follow the natural expansion and contraction of the wood. Pure White Lead alone fulfills all the requirements of the ideal paint.

Southern Pure White Lead

is White Lead with its full natural tenacity and elasticity unimpaired by adulterants. Every keg of it bears the Dutch Boy trade mark, which is a positive guarantee of absolutely Pure White Lead made by the Old Dutch Process.

Success Lies in Results

What REXALL Has Done:

In a little over three years REXALL Remedies have become the most widely known and trusted medicines in the world—have scored the biggest success in the history of the drug business.

Why? Because they're made of the purest drugs—but not that alone.

Because the most skilled pharmacists that can be employed make them—but not that alone.

Because they are based on the prescriptions of the most successful physicians in the world—but not that alone.

Because they represent the combined wisdom and experience of over a thousand of the foremost retail druggists in this country, of which we are one—but not that alone.

All these things have been indispensable. They CURE—that's why.

Every one of the three hundred REXALL Remedies is a tested and proved success for the particular ailment it is designed to cure—one for each human ill. They're not "cure-alls."

Not patent medicines, either—we'll tell you the formula of any one of them if you want to know it.

We can hold up any REXALL Remedy before you and honestly say: "We know what this is made of and all about it. It has cured thousands. It will cure you. Our reputation, the possession of your good will, our whole business existence depends on this REXALL Remedy giving satisfaction to you."

Isn't that what you want to buy, rather than the sort for which you can hold no one in sight responsible?

THIS "REXALL" GUARANTEE IS ON EVERY PACKAGE

"This preparation is guaranteed to give satisfaction. If it does not, come back and get your money. It belongs to you and we want you to have it."

THE STAFFORD DRUG CO., Druggists

The Rexall Store

A few of the 200 famous REXALL Remedies, one for each human ill, are:

FOR NERVES—AMERICAN'S ELIXIR

The Rexall American's Elixir is a tonic nerve food composed chiefly of free Phosphorus, Glycophosphates, Iron Phosphate and Calcium. The wonderful results of this remedy are due to the fact that it supplies Phosphorus to the nerve cells in a condition in which it can be immediately and easily taken up by them. The Glycophosphates, actual nerve tissue builders, are one of the most recent and valuable additions to this branch of medicine and unquestionably a more efficient remedy than the well-known Hypophosphates. The Iron Phosphates are the most easily assimilated form of iron which give tone and color, and the combined alkaloids of Calcium and Iron have a tonic effect on almost all the functions of the body. 75c. and \$1.50 a bottle.

REXALL "83" HAIR TONIC

The famous Rexall "83" Hair Tonic is composed in chief of Resorcin, Beta Naphthol and Pilocarpin. Resorcin is one of the latest and most effective germ killers discovered by science, in connection with Beta Naphthol, which is both germicidal and antipruritic, a combination is formed which not only destroys the germs which rob the hair of its nutriment, but creates a clean and healthy condition of the scalp, which prevents the development of new germs. Pilocarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. It is not a coloring matter or dye. This combination of curatives mixed with alcohol as a stimulant, perfects the most active remedy for hair and scalp troubles known today. For bottle, 50c.

"REXALL" ORDEALIES

The New Laxative

If you suffer from constipation or a sluggish liver, we want you to try this newest member of the Rexall family. It has never failed. "Rexall" Ordealies have all the virtues and none of the defects of those laxatives and cathartics already known. They are harmless vanilla-flavored tablets that effect a re-adjustment of Nature's functions—no griping, no nausea, no purging. A pleasant to the taste—they give immediate relief. A trial will prove to you that they are the best laxative and cathartic ever prescribed. 10c. a box of twelve; 25c. a box of 36.

Advertisement for Marvin's Cascara Chocolate Tablets, The Great Constipation Cure. Text: "Unrivalled as a remedy for Liver, Stomach and Bowel Troubles. Purely vegetable. They stimulate and tone the digestive organs, make pure and rich blood, and bring back health and vigor. For sale by all druggists. You can obtain a FREE sample by addressing MARVIN REMEDY CO., DETROIT."

HOW TO REMAIN YOUNG.

To continue young in health and strength, do as Mrs. E. E. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as lamplight. I am now practically twenty years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at The Stafford Drug Co.'s store. Price 50c.

ART NEEDLE WORK.

Miss N. E. Powers of Okoshok is at the Brething House for a few days with a complete line of art needle work. Stamping of shirt waists a specialty. (3-19-21)

JOHN ROBERTSON WAS NOMINATED

CARRIED THIRD, FOURTH AND FIFTH WARDS, GODWIN THE FIRST AND SECOND.

CAUCUSES LARGELY ATTENDED

Walter Ward Turned Down in the Fifth and Alderman Ball Lost Out in the Third—E. J. McCarthy Named for City Recorder.

Mayer—John Robertson. Recorder—Edward J. McCarthy. Treasurer—Robert P. Byrne. Justices of the Peace—Samuel E. Byrne, Edward J. McCarthy. Constables—Christ Peterson, Jacob Dolf.

Supervisors at Large—Joseph F. Neidhart, Charles H. Krieg, Dr. Z. Valdnis. Alderman at Large—John Williams. First Ward: Supervisor—Martin Gorman. Alderman—John Downey. Second Ward: Supervisor—Joseph Fay. Alderman—Peter Donovan. Third Ward: Supervisor—D. W. Powell. Alderman—Robert Peters. Fourth Ward: Supervisor—Jacob Smith. Alderman—George Reichel. Fifth Ward: Supervisor—Martin Swecher. Alderman—Herman Schauer.

The expected clash did not come in the city convention last night and the gathering was one of the most peaceful Marquette has seen in some years. With delegations solid for him from three wards, John Robertson secured the nomination for mayor over John Godwin. With one vote less than Mr. Robertson, Edward J. McCarthy was nominated for recorder over Daniel S. Donovan. All other nominations were by acclamation. There was not the shadow of a contest in the seating of delegates and the proceedings passed off quietly.

The real contests took place in the ward caucuses, held previous to the convention. Two sets of delegates were voted on at each caucus. Robertson carried the Third, Fourth and Fifth wards, giving him twenty-four delegates, and the First and Second wards each sent eight Godwin delegates.

In the absence of J. E. Sherman, chairman of the city committee, Walter T. Ward called the convention to order shortly after 9 o'clock. C. F. Button was made temporary chairman and Conrad Wellman temporary secretary. W. T. Ward, C. M. Gooding and C. Labonte were appointed a committee on credentials and F. O. Brown, Charles H. Krieg and Joseph B. Hogan on permanent organization and order of business. A recess of ten minutes was taken to allow the committees to confer and report.

The committee on credentials reported the following delegates entitled to seats in the convention:

First Ward—Albert Foubert, Thomas P. Carey, James Hogan, Cassimer Nowak, Joseph Knapp, Jr., John Matt, Timothy Downes, Joseph B. Hogan. Second Ward—Victor LaPorte, C. LaBonte, M. Dunnebacke, G. Yeshinsky, John Boyle, O. Hebard, John D. Mangum, W. Corbett, Jr.

Third Ward—J. T. Jones, L. S. Glazer, C. F. Button, F. O. Brown, C. M. Gooding, Dan L. Morrison, Joseph Clish, W. A. Johnson.

Fourth Ward—Charles Baundry, Charles Krieg, Thomas Anthony, Eric Johnson, Conrad Wellman, J. F. Zerbel, William Clendenning, William Henry, Amos Beaudin.

Fifth Ward—Morris Valdnis, Walter T. Ward, N. Johnson, James Hemmingson, J. Sharland, J. B. Wilson, Isaac Stillman.

The committee on permanent organization and order of business recommended that the temporary organization be made permanent and that the order of business be the nomination of candidates as given above. Both reports were adopted. Walter T. Ward, John T. Jones and John Boyle were chosen tellers.

For mayor, F. O. Brown presented the name of John Robertson and John D. Mangum that of John Godwin. The ballot resulted: Robertson, 24; Godwin, 16. For recorder, the names of Edward J. McCarthy and Daniel S. Donovan were offered. The ballot resulted: McCarthy, 23; Donovan, 17.

The other nominations were made by acclamation. C. F. Button was named chairman of the city committee, which is composed of the following: First ward, Joseph B. Hogan; second ward, John Boyle; third ward, F. O. Brown; fourth ward, J. F. Zerbel; fifth ward, Walter T. Ward.

The ward caucuses. As remarked above the city convention was a tame affair, but the ward caucuses were eventful. The redistricting of the city has largely increased the size of

the wards, and last evening the number of voters out in each precinct, with the exception of the First, ran between 200 and 300, making the largest caucuses ever held in Marquette. They, however, like the convention, were conducted amicably and with the best of feeling, and not one single untoward incident occurred to mar the proceedings in any of them.

As things turned out the caucus in the First was the smallest of the five, less work having been done by the rival candidates for mayor in that ward than in any other. But the caucus was the most interesting in a way, owing to the fact that there were four candidates for alderman. They were John Downey, a conductor on the South Shore road, George Knapp, F. D. Fletcher and Robert Rheinhart. The latter got into the field yesterday. The organization of the caucus was affected without trouble—a thing of note in the First. The vote on alderman on the first ballot was as follows: Downey, 67; Rheinhart, 23; Fletcher, 28, and Knapp 51. On the succeeding ballot the candidates polling the smallest vote withdrew, and the final vote was Downey 88 and Knapp 62. Martin Gorman, for many years an alderman of the First, was nominated for supervisor. The vote on delegates was 99 to 59 in favor of the Godwin slate.

Large Crowd in Second.

There were over 250 voters in attendance at the caucus in the Second. As announced yesterday A. Fleury, a former alderman, was a candidate for supervisor against Joe Fay, and he had a good strength out, though Mr. Fay, one of the oldest members of the board, won. The vote was Fay 118, Fleury 98. For alderman Michael Hennessy, an alderman in the city council further back than the present generation remembers, contested the nomination with Peter Donovan, a present member of the board. Donovan, however, won by a big margin, polling 158 votes against 86 for his opponent. Sentiment among the voters in the caucus ran heavily in favor of the Godwin slate, the vote being 143 to 109.

In the Third ward the Robertson forces scored a victory by a large margin. In this ward dissatisfaction with Mayor Culver's disposition of the appointments on the new municipal boards was a large factor in determining the result. A large number of voters who were originally for Mr. Godwin having switched because they felt that he, in his capacity as alderman, should have stood out against some of them, one in particular. It was this same feeling that was popularly given in the Third ward last evening as the cause for the defeat of Alderman Ball. However this may be, it is certain that the Robertson forces had things all their own way in the Third. The vote on delegates was 134 to 65. Robert Peters was nominated over Mr. Ball by a much narrower margin, the vote in his favor being 97 to 80. Dan Powell, the supervisor, was nominated by acclamation for another term.

The Fourth ward caucus was held in the assembly room of the city hall, and it was one of the most interesting of the caucuses. In this ward the Robertson people again had a big majority. The vote on delegates was 124 to 68. Alderman Reichel was nominated over Alderman Gray by a vote of 121 to 66 and Joseph E. Neidhart, an old warhorse among local politicians, was defeated by Jacob Smith for supervisor 99 to 75.

Ward Turned Down.

Perhaps the greatest surprise of the caucuses was the turnout of Walter T. Ward, one time mayor in the Fifth, and the trick was turned by a big majority. In this precinct there was a division of the house on the nominations for caucus chairman, Mr. Ward and H. C. Davis having been nominated. The supporters of the latter held that they were not fairly used in the decision on the vote and proceeded to hold a caucus of their own, nominating John Tobin for supervisor and Emil Gustafson for alderman, also naming a delegation to the convention. In the meantime the other people out at the caucus stuck to the main show and proceeded to ballot for the ward officers and a delegation.

There was a clean cut issue between Mr. Ward and Mr. Schauer, and when the count was announced—and Mr. Ward in his capacity as chairman announced it—Mr. Schauer was shown to be far ahead. The count was Schauer 136, Ward 87. On supervisor the vote was Martin Swecher 180, John Tobin 17.

To Issue Second Call.

The Mining Journal was informed last evening that a call for a second convention will be issued today, and that it will be held as soon as possible under the law. What will be done at the second convention is, it is said, for the future to determine, though it is said by some that a candidate will be put forward. Mr. Godwin told a Mining Journal man last evening that he was in the hands of his friends in the matter and would do as they thought best. It is likely that some ward fights will develop, and some places on a second ticket would likely be filled. J. F. Neidhart would probably run for supervisor in the Fourth ward, and J. E. Ball's failure to land in the Third last night was a disappointment to his friends, who will doubtless urge him to be a candidate. In the Fifth it is reported that Mr. Ward will run on slips, and there will doubtless be other contests, as it is improbable that all defeated candidates are satisfied with last night's results. Recorder Don-

PRESIDENT CANCELS LAND OFFICE ORDER

PROCEEDINGS OF SECURING EVIDENCE OF TITLE PUT BACK ON NORMAL BASIS BY HIS ACTION.

The president's recession from his order requiring personal examinations of claims by authorized agents of the government before the issuance of final evidence of title has been made by the issuance of a cancellation of his order of February 12, 1907, relating to the issuance of evidence of title under the public land laws, is hereby canceled, for the reason that congress did not appropriate an amount sufficient to enable the commissioner of the general land office to properly carry out the purposes of that order, which were to have such examination made of all applications for patent as would facilitate the issuance of title to bona fide settlers and home-makers, would reduce illegal entries to a minimum, and bring the work of the land office up to date. With the amount actually appropriated it is not possible to carry out the order, or to provide with certainty for the detection of fraud without causing unreasonable hardship to bona fide settlers and home-makers.

Supervisors-at-Large.

Supervisors-at-large were nominated last evening, but it is on the cards that a bill abolishing the offices shall be given unanimous effect at Lansing today. If this is done it appears that supervisors-at-large will be superfluous, if not illegal. Last evening there was also some question raised about the legality of nominating an alderman-at-large to succeed Alderman Cadarette.

CONSTITUTIONAL AMENDMENTS.

Voters Will Be Asked to Pass on Three of Them April 1.

Three proposed amendments to the state constitution are to be submitted to the voters at the coming spring election, April 1. Two of them are of purely local interest to certain counties in the lower part of the state, while the third, in regard to convict labor, is of importance to the entire state. The proposed amendment to Article XVIII, Section 3, provides that that section which reads "No mechanical trade shall hereafter be taught to convicts in the state prison of this state, except the manufacture of those articles of which the chief supply for home consumption is imported from other states or countries," be stricken out, and thus remove the constitutional prohibition relative to the teaching of mechanical trades in the state prison.

The proposed amendment to Article VI, Section 6, of the constitution, if adopted, empowers the boards of supervisors in the counties of Ingham and Jackson and the counties in the judicial circuit in which the county of Isabella is or may be situated, to give and pay the circuit judge of the judicial circuit in which such counties are attached such additional salary or compensation as may be fixed and determined from time to time by such boards of supervisors.

The proposed amendment to Article X, Section 10, provides for boards of county auditors for the counties of Bay, Cheboygan and St. Clair.

DATE OF EASTER SUNDAY.

Rule Followed in Figuring Date on Which the Festival Falls.

Less than two weeks remain before Easter and preparations are going on for the annual observances. Organizations and individuals active in social affairs are preparing for the resumption of activity after Lent, and already numerous gatherings have been arranged for the weeks following Easter Sunday.

There has been some debate here as to how the date of Easter is determined. Easter has been observed by the Christian church since early times, in commemoration of the resurrection of Jesus Christ. It is observed by the Roman Catholic, Greek, Episcopal and Lutheran churches, and by other non-ritualized denominations which do not generally observe the church calendar. Easter is the Sunday following the fourteenth day of the calendar moon, which falls upon or next after the twenty-first day of March. This is true both of old style and new and the rule has been followed, though not universally, from a very early day.

Gauss has computed a rule for determining the date of Easter and it is used quite generally. First, take x and y from the following table:

Old style	15	6
New style 1583-1699	22	2
1700-1799	23	3
1800-1899	23	4
1900-2099	24	5

Second, calculate the five numbers, a, b, c, d and e, by the following rules, where N is the number of the year; a is the remainder after the division of N by 19.

b is the remainder after the division of N by 4.

c is the remainder after the division of N by 7.

d is the remainder after the division of 10a plus x by 30.

e is the remainder after the division of 2b plus 4c plus 6d plus y by 7.

Third, then d plus e plus 22 is the day of March, or d plus e minus 9 is the day of April on which Easter falls, except that when the rule gives April 26, the true day is April 19, and when the rule gives April 25, if d equals 28 and a is greater than 10, then the true date is April 18.

HAY. Prompt delivery in car or less car lots. F. B. Spar & Sons. (3-19-24)

WARM WEATHER. Is a long way off. You may need more coal. We have all kinds. Consolidated Fuel & Lumber Co. (2-1-14)

"Let us have some Cudaly's Peacock Bacon and calves liver for supper Mamma," say young and old. (11-27-eod)

PRESIDENT CANCELS LAND OFFICE ORDER

PROCEEDINGS OF SECURING EVIDENCE OF TITLE PUT BACK ON NORMAL BASIS BY HIS ACTION.

The president's recession from his order requiring personal examinations of claims by authorized agents of the government before the issuance of final evidence of title has been made by the issuance of a cancellation of his order of February 12, 1907, relating to the issuance of evidence of title under the public land laws, is hereby canceled, for the reason that congress did not appropriate an amount sufficient to enable the commissioner of the general land office to properly carry out the purposes of that order, which were to have such examination made of all applications for patent as would facilitate the issuance of title to bona fide settlers and home-makers, would reduce illegal entries to a minimum, and bring the work of the land office up to date. With the amount actually appropriated it is not possible to carry out the order, or to provide with certainty for the detection of fraud without causing unreasonable hardship to bona fide settlers and home-makers.

Supervisors-at-Large.

Supervisors-at-large were nominated last evening, but it is on the cards that a bill abolishing the offices shall be given unanimous effect at Lansing today. If this is done it appears that supervisors-at-large will be superfluous, if not illegal. Last evening there was also some question raised about the legality of nominating an alderman-at-large to succeed Alderman Cadarette.

CONSTITUTIONAL AMENDMENTS.

Voters Will Be Asked to Pass on Three of Them April 1.

Three proposed amendments to the state constitution are to be submitted to the voters at the coming spring election, April 1. Two of them are of purely local interest to certain counties in the lower part of the state, while the third, in regard to convict labor, is of importance to the entire state. The proposed amendment to Article XVIII, Section 3, provides that that section which reads "No mechanical trade shall hereafter be taught to convicts in the state prison of this state, except the manufacture of those articles of which the chief supply for home consumption is imported from other states or countries," be stricken out, and thus remove the constitutional prohibition relative to the teaching of mechanical trades in the state prison.

The proposed amendment to Article VI, Section 6, of the constitution, if adopted, empowers the boards of supervisors in the counties of Ingham and Jackson and the counties in the judicial circuit in which the county of Isabella is or may be situated, to give and pay the circuit judge of the judicial circuit in which such counties are attached such additional salary or compensation as may be fixed and determined from time to time by such boards of supervisors.

The proposed amendment to Article X, Section 10, provides for boards of county auditors for the counties of Bay, Cheboygan and St. Clair.

DATE OF EASTER SUNDAY.

Rule Followed in Figuring Date on Which the Festival Falls.

Cobalt Gossip

ITS A FORD

A new Cobalt stock has been launched on the New York curb. It is styled the Shamrock.

The Silver Mountain Mining company has struck on its vein a line of cobalt bloom and nicolite, showing good silver values.

The government mining tax at Cobalt will be a flat rate of 3 per cent on all net profits over \$10,000 and a levy of two cents an acre on all undeveloped mineral claims.

It is said in the New York papers that control of the Silver Queen has been offered to a firm of New York brokers at \$3 per share. The stock has been selling on the curb around \$2 per share. Local officials of the Silver Queen say they know nothing of the alleged offer.

A meeting of the directors of Peter-son Lake was held in New York last week, when it was decided to set aside \$100,000 for development of the property to commence at once. Among the new machinery to be installed will be a twenty-drill compressor plant. The recent reports of the property from eminent engineers is highly encouraging.

The excitement, which was recently all larrier lakwards, has now changed to what is called the New Cobalt. This district is situated along the Montreal river, due west of Cobalt and north from Latchford, the first station on the T. N. O. railway south of Cobalt. The first find of silver was made in this district last fall by a family of the name of Darley, who had been unfortunate in staking at Cobalt. The ore and rock formation of this new territory is very similar to that at Cobalt, and some excellent samples of silver ore have been brought out from the new camp. Three hundred prospectors left Cobalt and Latchford last week for Lady Evelyn lake and Elk lake, favorite spots in this new mineralized area.

An official of the Nipissing Mines company says the directors will meet this month and indications are that a dividend of 3 per cent for the quarter will be declared. This compares with 3 per cent and 2 per cent extra in the preceding quarter. The company's earnings for the last three months would not justify the declaration of the old rate, it is said. In the meantime the contest for Nipissing proxies from Canadian shareholders grows apace. George F. Morton of Toronto, one of the contestants for proxies, is making charges in connection with the past administration of the property and alleges that vein 49 is not being worked. The inference from the statement of this broker is that lack of development at the claims of the company is for ulterior purposes. The situation grows more interesting because of a conference between ex-President Earle and David Fasken, the Canadian counsel of the company. Earle and Fasken both deny the statement attributed to President Newhouse at New York a few days ago in which he is alleged to have said that the name which has hitherto been paid to shareholders was premature. Regarding the next dividend, both Messrs. Earle and Fasken said the rate would not be known until the meeting of the directors on March 29 or 21. Mr. Earle also stated that the property had been worked in the interests of the shareholders and that, so far as he knew, the Guggenheims neither had control of the property nor intention of trying to get control.

THIS IS WORTH REMEMBERING.

Whenever you have a cough or cold just remember that Foley's Honey and Tar will cure it. Do not risk health by taking any but the genuine. It is in a yellow package. The Stafford Drug Co.

Eggs

We have Eggs from the following breeds: White Wyandottas, Barred Plymouth Rocks, Rose Comb, Brown Leghorns; 15 for \$1.50; \$3.00 per 100.

DUCKS

Pike, Indian Runners and Malard, at \$1.50 per setting of 15. \$3.00 per hundred. Homer Pigeon and Chester White Swines.
