

THAW MAY NOT FACE JURY AGAIN

Justice Fitzgerald Orders a Commission in Lunacy to Inquire into the Present State of Mind of Stanford White's Slayer.

Affidavits Presented, He Says, Are So Directly at Odds as to Make Impartial Investigation Imperative—Downcast at First, Defense Is Elated at the Personnel of the Board, Three Men of High Standing, and the Prisoner Hears the News Philosophically.

New York, March 26.—Harry K. Thaw may never again face the jury empaneled more than nine weeks ago to try him on the charge of murder in the first degree. Justice Fitzgerald today unexpectedly ordered a commission in lunacy to inquire into the present state of mind of Stanford White's slayer. The decision of the three disinterested persons named to conduct the inquiry will guide the future action of the court as to committing Thaw to an asylum for the insane or directing that the interrupted trial for his life shall proceed.

Justice Fitzgerald announced his decision privately in his chambers. Evelyn Nesbit Thaw was there with Thaw's lawyers, and it became her task to break the news to her husband in the Tombs. Fearful when she left the judge's rooms in the criminal court building, she was smiling and cheerful when Thaw was brought from his cell to meet her. Thaw received the court's decision philosophically, and said that he had no doubt that the commission would declare him a sane man today.

Men of High Standing Named. The personnel of the commission named by Justice Fitzgerald lends new distinction to this already notable case. The men who will determine Thaw's mental capacity are: Morgan J. O'Brien, former justice of the appellate division of the supreme court; Peter B. Olney, former district attorney of New York county and a lawyer of high legal attainments; and Dr. Leopold Puzell, a practicing physician and an authority on mental disorders.

Judge O'Brien is one of the trustees, with Grover Cleveland, of the Hyde stock in the Equitable Life Assurance society. When he was a candidate for reelection to the bench in 1892, he was defeated by the late Justice O'Brien. Democrat, Judge O'Brien was unopposed. President Roosevelt made a trip from Washington to Oyster Bay to cast his ballot for him.

Before being elected district attorney of the district of New York, in 1893, Mr. Olney was a member, with Wm. C. Whitney, of the committee appointed in 1879 to revise the laws of the state affecting public interests in New York. Dr. Puzell is a graduate of the Bellevue hospital medical school and has had long experience in the treatment of insanity. He was qualified before the state medical board as an examiner in lunacy.

Authorized to Summon Witnesses. When the Thaw jury reports before Justice Fitzgerald tomorrow morning it will be excused indefinitely. No date has been fixed tonight for the first meeting of the commission. There probably will be some definite decision on this point tomorrow. The hearings before the lunacy commission will be attended by District Attorney Jerome and the lawyers for the defendant, and the commission may direct and compel the attendance of any witnesses it may desire. It is probable that Thaw will be asked, first of all, to submit to a rigid physical examination.

Thaw's lawyers and the defendant himself were downcast when they were first made acquainted with Justice Fitzgerald's decision, but all were manifested pleasure when the personnel of the commission was made known. Mr. Dolmas, in particular, declared that Justice Fitzgerald could hardly have selected a more generally satisfactory commission—one whose decision would command confidence and respect.

Justice Fitzgerald summoned all the lawyers of the defendant before him in his chambers this afternoon. Josiah and Edward Thaw, brothers of the defendant, and his wife also were called in. Affidavits Diametrically Opposed. In announcing his decision Justice Fitzgerald read a written memorandum which he had prepared for the minutes of the court. He based his decision on the conflict of the affidavits as presented by the opposing sides, saying that they were too diametrically at odds to permit of a decision either in favor of an impartial inquiry.

Justice Fitzgerald's conference with the attorneys lasted less than twenty minutes. To newspaper men waiting outside, Mr. Jerome, as he emerged, uttered the one word, "Commission."

The district attorney was soon followed by Thaw's lawyers. One of the latter was heard to remark as he left the chambers, "It couldn't be worse." Later, however, the attorneys seemed to take a brighter view of the decision. Mr. Harbridge said: "Now that the decision has been rendered, it is hard to see how Justice Fitzgerald could have done otherwise. Of course, there was a conflict of affidavits, and he cannot understand how firmly Thaw's counsel believe in his sanity."

Prisoner Has Confidence. Thaw, when informed, was not surprised, and said to his wife, who was accompanied by Attorneys Harbridge and O'Reilly: "It's all right, dearie. I am not afraid of a commission. I am a sane man now, just as sane as the judge himself, and I am sure that any fair-

-minded commission will so declare me." The attorneys quickly withdrew from the conference, and Thaw and his wife sat for a long time together discussing what the commission probably would do. Later in the afternoon Thaw sent out a statement in which he said: "Everything is perfectly satisfactory to me. I am sure I will be able to satisfy the commission that I am sane at the present time. Anything that Justice Fitzgerald does is all right. He has always acted in a fair and impartial manner."

KILLED SWEETHEART; GOES FREE. Victim of Melancholia Unable to Distinguish Between Right and Wrong. Ponce, Neb., March 26.—The trial of Frank Brick for murder of his sweet-heart, Bessie Newton, came to a sudden and unexpected termination today. Five physicians from Ponce and Sioux City unanimously agreed that he was suffering from melancholia and at the time of the tragedy was unable to distinguish between right and wrong. Under the court's instructions the jury returned a verdict of "not guilty."

CONFERENCE AT WHITE HOUSE. President and Callers Discuss Railroad and Financial Situation. Washington, March 26.—President Roosevelt discussed various features of the railroad situation at a conference with a number of his advisers at the White House today. These included Secretaries Cortelyou and Garfield and Interstate Commerce Commissioners Lane and Clark.

Tonight Edward J. Bacon, vice president of the Board of this Southwest, and Edward J. Berwind, president of the Berwind-White Coal Mining company and a director in a number of banks and railroads, were in conference with President Roosevelt for more than two hours. While neither would discuss their interview with the president, it is believed that the conference related to the railroad and financial situation.

Grand Rapids, Mich., March 26.—[Special.]—That the Calumet & Hecla company was not trying to form a trust in Lake copper; that the federal courts have no jurisdiction because there was no violation of the anti-trust law; that if Albert S. Bigelow or any other Osceola stockholder was injured recourse should have been had in the state courts, and that A. S. Bigelow, president of the Osceola, and Judge Norman W. Haire, general superintendent, are merely endeavoring to hold their positions were some of the allegations made by Calumet & Hecla men in urging before United States Judge Knappen here today that the restraining order issued by the court March 14, forbidding the Calumet & Hecla to vote its holdings of Osceola stock, should be dismissed. "The appeals to Osceola stockholders, the attempts at legislation and the present court action are but efforts of Messrs. Haire and Bigelow to maintain themselves in good positions and are not in the interest of the Osceola stockholders as claimed," said Allen F. Rees of Houghton, one of the attorneys for the Calumet & Hecla, in his answer to the allegations of the president of the Osceola company.

Willard F. Kelley put it in another way in his argument when he said: "This cause involves the aid of the criminal law of the land to help Mr. Bigelow and his official associates; and for what purpose? Merely to maintain them in good positions."

Many Affidavits Presented. Both sides introduced many affidavits today, and the arguments of the attorneys were not started until late this afternoon. It is likely that the case will be closed tomorrow. At one stage of the argument the defense—the Calumet & Hecla interests—seemed to indicate that it believed that President Bigelow had acted without the entire approval of the Osceola directors. The question of how far a stockholder may go in embarrassing a director by protesting against an action approved by them was being argued.

The directors can govern a corporation even against the wishes of the stockholders," asserted Otto Kirschner for the Calumet & Hecla. "Not under the anti-trust law," interjected H. E. Boynton, for the other side. "It expressly gives them the right to depose the directors at any time."

"Then let them depose them," said Mr. Kirschner. Proceeding, he asked a question which it was thought indicated a belief that President Bigelow had not fully consulted the Osceola directors or stockholders before beginning his action. "Simply because I own a few shares of stock, can I plunge a corporation into litigation against the best judgment of its governing body?" he asked.

Then Mr. Kelley took up the engels again. "It is claimed that Calumet & Hecla had no right to buy and vote the 20,000 shares of Osceola, but is this true it should have been the corporation, the whole body of stockholders, not Mr. Bigelow, which should have filed the bill," said he.

The Osceola side of the argument has not yet been presented, but it will be the first thing tomorrow morning. The Calumet & Hecla case is nearly in, Mr. Kirschner reserving the right to make a further statement after hearing the contentions of the other side. Lake Copper Not Indispensable. Mr. Rees began the case for the Calumet & Hecla, reading a long list of answers to the Bigelow allegations. He declared that the copper sold to the government cut but little figure in the total output, the Calumet & Hecla having sold but 1,800 tons to the United States since 1901. It was further maintained that Lake copper was not indispensable to any industry, this point being made to show that even were the output of Lake copper cornered and the supply entirely shut off, no enterprise would be put out of business thereby.

"Lake copper commands a higher price because of economies that can be made in its use," said Mr. Rees. "But this higher price is no greater than the difference in the cost of manufacturing between Lake and other copper. If it should go higher, other copper would be used."

Mr. Rees maintained that the Bigelow syndicate is a considerable factor in the United States copper industry, which he said controlled three-fifths of the copper output of the country. This statement was later combated by an affidavit from Mr. Bigelow, who swore that 500 shares he once owned in this company were given to his wife years ago. The 500 shares were but one percent of the capital stock.

Metal Sold Below the Market. Mr. Rees presented affidavits showing that Osceola copper was sold from 1903 to 1905 at three and four cents below the market price, this being an effort to show that the Bigelow interests had profited unduly from their control of Osceola because of their connection with the United Metals Selling company. In rebuttal, affidavits were presented from General Manager Haire, in which it was declared that President Bigelow had never at any time got any "rake-off."

DENIES IT PLANS A COPPER TRUST

Calumet & Hecla Company Makes Answer Before Judge Knappen at Grand Rapids to the Contentions of Albert S. Bigelow.

Says the Lake Metal Is Not Indispensable to Any Industry, and Hints That the Osceola Officials Are Merely Trying to Retain Their Positions, in Opposition to the Sentiments of the Great Body of Stockholders—Plaintiff's Side Will Be Heard Today.

Grand Rapids, Mich., March 26.—[Special.]—That the Calumet & Hecla company was not trying to form a trust in Lake copper; that the federal courts have no jurisdiction because there was no violation of the anti-trust law; that if Albert S. Bigelow or any other Osceola stockholder was injured recourse should have been had in the state courts, and that A. S. Bigelow, president of the Osceola, and Judge Norman W. Haire, general superintendent, are merely endeavoring to hold their positions were some of the allegations made by Calumet & Hecla men in urging before United States Judge Knappen here today that the restraining order issued by the court March 14, forbidding the Calumet & Hecla to vote its holdings of Osceola stock, should be dismissed.

"The appeals to Osceola stockholders, the attempts at legislation and the present court action are but efforts of Messrs. Haire and Bigelow to maintain themselves in good positions and are not in the interest of the Osceola stockholders as claimed," said Allen F. Rees of Houghton, one of the attorneys for the Calumet & Hecla, in his answer to the allegations of the president of the Osceola company.

Willard F. Kelley put it in another way in his argument when he said: "This cause involves the aid of the criminal law of the land to help Mr. Bigelow and his official associates; and for what purpose? Merely to maintain them in good positions."

Many Affidavits Presented. Both sides introduced many affidavits today, and the arguments of the attorneys were not started until late this afternoon. "Lake copper commands a higher price because of economies that can be made in its use," said Mr. Rees. "But this higher price is no greater than the difference in the cost of manufacturing between Lake and other copper. If it should go higher, other copper would be used."

BEAR CLIQUES ARE PUT TO ROUT

Wall Street Values Recover, and While the Extreme Gains Are Not Held the Close Is Materially Higher for the Day.

Further Drive Against the Market Is Made at the Opening, but When the Shorts Seek to Secure the Stocks They Need They Not Only Find Competition in Buying but a Meagre Supply of Securities Available—Support Is Aggressive, and Money Easier.

New York, March 26.—The bear party made a further drive against the stock market with the beginning of the trading today, and centered a particularly savage attack on the coppers. A further slump in the markets both for copper and tin, London suggested a symptom of yesterday's success in breaking the prices of these stocks.

Seeking to take advantage of this opening break to secure the stocks they needed, it was disclosed to the bears that the stocks offering were in scantier supply than yesterday, and that they were meeting with additional competition in buying. This was a decisive factor in turning the prices upwards and starting a rush to cover by the bears.

The most potent factor in the improvement was the check to the fall in prices, itself. Things feared, and which were prompting the indiscriminate selling of late, were likely to be brought about by the very force of the fall in prices, itself. It was the understanding of the danger of these forces of action and reaction which might be set loose in the market that probably prompted the more aggressive measures of support, which were undoubtedly extended today. The conviction of the presence of protective forces in the market had much to do with checking the demoralization and driving the shorts to cover.

It was announced during the day that the treasury department had determined to deposit \$15,000,000 of customs revenues in the New York banks, as well as to pre-pay the April interest on the 3 and 4 per cent bonds. The total interest due in April on these issues is upwards of \$7,000,000. At the same time the reports from Washington showed that the treasury's offer to accept saving bank investment bonds to secure deposits in banks in substitution for the government 4's of 1907, which could be offered for redemption under the treasury's proposal, was having a decidedly stimulating effect on the offerings of these bonds for redemption. One notable effect of these relief measures for the money market was a rebound in the foreign exchange market, which had shown further early declines from yesterday's low level.

The extreme advances reached to over 7 points in most of the Harriman and Hill stocks, 6 or over in St. Paul, Canadian Pacific and Smelting 5 1/2 in Reading and Louisville & Nashville, and 3 to over 4 in a large number of the most active stocks. The extreme gains were not all held, however, and the closing was rather irregular.

New Aid by Treasury Department. Washington, March 26.—Under instructions recently issued by the secretary of the treasury, collectors of customs throughout the country were directed to deposit their customs receipts in regular depositories. This, however, did not embrace the so-called sub-treasuries. These instructions have been today enlarged by the secretary so that the public deposits with the national bank depositories in New York city will be at once increased about fifteen million dollars from the customs receipts. The action is taken with a view to facilitating the redemption of the 4 per cent bonds of 1907, and also to render available additional funds for the usual disbursements occurring on April 1.

Anaconda Dividend. New York, March 26.—The directors of the Anaconda Copper Mining company today declared a quarterly dividend of \$1.75 per share, which is same amount as that declared three months ago.

GIVE HIM A LOVING CUP. Students of Princeton Parade to the Home of Grover Cleveland. Princeton, N. J., March 26.—The entire undergraduate body of Princeton University paraded to the home of former President Cleveland today and presented him with a loving cup. The cup was to have been given Mr. Cleveland on his seventieth birthday, March 18, but he was in the South at the time. The cup, which is of silver, stands more than eighteen inches high on an ebony base.

FIERCE UNDERGROUND FIRE. May Be Necessary to Flood Lower Workings of the Homestake Mine. Deadwood, S. D., March 26.—A fierce fire is burning in the 600-foot level of the Homestake mine at Lead, and it may become necessary to flood that part of the workings. A dozen miners were caught back of the point where the fire started, and were smothered with great difficulty. A number of them had been overcome by gas and smoke.

St. Louis, March 26.—The highest individual score in the bowling today was that of C. V. Gilbert, of Cleveland, 563. Ferguson and McDonald, of Detroit, made the high score, 1068, in the final flight of the two-men teams.

Rebels Crushed in Venezuela. Caracas, Venezuela, via Willemstad, Island of Curaçao, March 26.—It was officially admitted today that General Penabazola invaded the Venezuelan province of Tachira, March 15, from Colombia, with about four hundred followers, and cut the telegraph wires. General Castro, brother of the president and governor of Tachira, was sent with a large body of troops to engage Penabazola's forces. After seven days scouting through the mountains, the official report says, the forces of Penabazola were encountered at El Zumbador and were dispersed in a demoralized condition. Their leader is now a fugitive. The health of President Castro continues to improve.

NEGROES GIVE OFFICERS BATTLE

Sanguinary Encounter With Band of Colored "Socialists" Takes Place in the Indian Territory—Three Blacks Are Dead, Two Others Badly Wounded, and a White Policeman Fatally Shot.

Skogee, I. T., March 26.—As a result of a fight between members of an organization of negroes known as the United Socialists, on one side, and city and government officers, on the other, this afternoon, John Coffey, a white police officer, is fatally wounded; Guy Fisher, white, is shot through the shoulder; Sam and Albert Barker and a man named Scott, all negroes, are dead; two other negroes, whose names are not known, are badly wounded and are in hiding with friends, and six negroes are in jail. One of the claims of the United Socialists is that the United States authorities have no jurisdiction over their members. The leader, William Wright, a negro preacher, is among those arrested.

The fight took place at a house occupied by the organization. Officer Coffey went to the place to serve a warrant on Albert Barker, and was shot down. In response to a riot call, United States Deputy Marshals Ledbetter, Hubbard, Williams and Smith responded. When they reached the porch of the building they were met by the Barkers and in reply to demand that they surrender one of the negroes raised a Winchester rifle to fire on the officers. The four officers opened fire almost simultaneously, and both negroes were hit. Falling against the side of the house, although mortally wounded, the negroes returned the fire, but without effect. Then followed a fusillade in which about fifty shots were fired, resulting in the wounding of Fisher and two other negroes and the killing of Scott.

Tonight nearly every white man in the city is armed, but there is little fear of further trouble because this morning a gang of negroes is disliked by others of their race. They were known as "money finders," because it was their custom to travel about at night and hunt for buried money.

Salvador Appeals to Bigger Republics. Intervention in Central America by the United States and Mexico is Indicated. Mexico City, March 26.—Mexico has been asked to intervene in the present troubles in Central America by the republic of Salvador. Dr. Salazar Estapanian, minister to Mexico from that country, had a long conference with President Diaz this afternoon, and at its conclusion the latter sent a despatch to Ambassador Creel, at Washington. The contents of the message were not made public, but it was thought that the ambassador was instructed to say to the United States that Mexico was ready to join with the northern republic in demanding that hostilities cease.

Rebels Crushed in Venezuela. Caracas, Venezuela, via Willemstad, Island of Curaçao, March 26.—It was officially admitted today that General Penabazola invaded the Venezuelan province of Tachira, March 15, from Colombia, with about four hundred followers, and cut the telegraph wires. General Castro, brother of the president and governor of Tachira, was sent with a large body of troops to engage Penabazola's forces. After seven days scouting through the mountains, the official report says, the forces of Penabazola were encountered at El Zumbador and were dispersed in a demoralized condition. Their leader is now a fugitive. The health of President Castro continues to improve.

WILLS CONTEST STATE WITH SECRETARY TAFT

Senator Foraker, Presidential Possibility, Issues an Interesting Announcement.

Washington, March 26.—That Senator Foraker does not concede that Secretary Taft will be Ohio's choice for presidential nomination next year is made plain in a statement issued by the senator tonight. Mr. Foraker says that he "does not want any political honors from the people of Ohio without their hearty approval," and he suggests that the proper way to determine who is the choice of the people to head the Republican national ticket and to represent the state in the United States senate is for the Republican state executive committee to authorize a primary election to choose delegates to a state convention which will be called upon to determine these questions.

The announcement of State Superintendent of Insurance Vorys that he will support Secretary Taft for the presidential nomination led Mr. Foraker, it is believed, to issue the statement outlining his position. The senator declares that he is willing to go before the people on his record, and that he has "nothing to conceal from his constituents."

Senator Foraker does not say he will be a candidate to succeed President Roosevelt, but it is generally understood among his friends in Washington that at a later date he will formally announce his candidacy, and that if a primary election is called in Ohio he will enter into the fight to secure the endorsement of his own state.

MILWAUKEE COUPLE DIVORCED.

Milwaukee, March 26.—Mrs. Carrol M. Allis was today granted a divorce from Louis Allis, son of the late Edward P. Allis, founder of the Allis-Chalmers company. Cruelty and widely differing tastes and habits were alleged in Mrs. Allis' complaint.

PEASANTS MARCH ON BUCHAREST

Roumanian Capital Is Threatened by Hordes of Advancing Agrarians, and Troops Are Massed for City's Protection.

Bucharest, Roumania, March 26.—Reports have been received here of a regular battle between peasants and troops in the streets of Alexandria, Wallachia, about fifty miles from Bucharest. Sixty men were killed and 300 wounded before the rioters were repulsed. Alexandria has been placed under martial law. Four thousand peasants from the districts of Teleorman and Vlasia have joined the march and are now marching on Bucharest. A minor state of siege has been proclaimed here and the military authorities have taken measures to prevent the revolted peasants from invading the city. An additional thousand troops, under the command of General Cornilescu, have been concentrated in the vicinity of the capital for protection against the peasant attack, and in fear of such an occurrence the royal palace has been surrounded with artillery.

Whole Kingdom Involved. Vienna, March 26.—The rising of peasants in Roumania is assuming the proportions of a civil war. The movement is directed not only against the Jews, but also against Christian land-owners. The trouble now extends from one end of Roumania to the other. Reports of sanguinary encounters are received constantly, and each day shows the disorders to be more serious and far-reaching and the situation more serious. There was sanguinary fighting in the streets of Petrosow when 2,000 peasants entered the city and sacked and destroyed many buildings, including the palace of Prince Stirbey. In the districts of Teleorman and Vlasia more serious land-proprietors have been killed and forty-two villages burned. Probably the most serious engagement occurred at Alexandria, not far from Bucharest, where many men were killed before the rioters succeeded in dispersing the soldiers. A minor state of siege has been proclaimed on Bucharest, itself. The artillery commanders have been instructed to use shrapnel to prevent the revolting agrarians from invading the city.

TERRIFIC STORM SWEEPS CHICAGO

BOLTS OF LIGHTNING KILL ONE MAN AND CAUSE NINE DIFFERENT FIRES.

Chicago, March 26.—A severe electrical and rain storm passed over the city late this afternoon. John Mueller, an employe of a lumber concern, at 3500 Center avenue, was struck by lightning and was killed. Nine fires were caused by bolts of lightning inside of twenty minutes after the storm began. The rain fell, which was at times accompanied by hail, was slightly more than half an inch.

Much Havoc in Outlying Towns. Hammond, Ind., March 26.—A severe electrical and wind storm struck this city and vicinity this afternoon, and did considerable damage to out-buildings and trees. At Hegewisch, Ill., one man was severely injured and the plant of the Western Steel Car & Foundry company was badly damaged by the wind. The three big chimneys of the plant were leveled to the earth. One of these chimneys was 250 feet high, and the fall of brick which accompanied its destruction broke the roof and destroyed some costly machinery. Michael Nadowski was probably fatally injured. Other villages in this vicinity suffered similarly.

REPENTS SHOOTING HUSBAND. Cleveland Woman Dies from Cancer, Praying for His Recovery. Cleveland, March 26.—Mrs. Lillian Avery, who shot her husband Sunday when she slowly dying of malignant cancer, caused by the husband striking her while the couple lived in Chicago, according to her statement, died today. The husband is in precarious condition. Mrs. Avery died praying for his recovery.

LORD ROSEBERRY'S VIEW. Britain Would Never Tolerate a Separate Irish Parliament. London, March 26.—At a meeting of the Liberal league here this afternoon, Lord Roseberry said that Great Britain would never tolerate a separate Irish parliament. Such proposal, he said, went far beyond anything the late Gladstone intended. "A system suitable for Canada and Australia," Lord Roseberry added, "would be very different in a continental island which in its public declarations prided itself on its disloyalty."

San Francisco, March 26.—The grand jury's investigation of bribery and graft in San Francisco resulted in the finding of no new indictments today. But one session was held.

WILL CONTEST STATE WITH SECRETARY TAFT

Senator Foraker, Presidential Possibility, Issues an Interesting Announcement.

Washington, March 26.—That Senator Foraker does not concede that Secretary Taft will be Ohio's choice for presidential nomination next year is made plain in a statement issued by the senator tonight.  Per year, by mail.....\$10.00
MARQUETTE, MICH., MARCH 27.

Entered as mail matter of the second class
 at the postoffice at Marquette, Mich.

Cannot Mr. William Peters of Ishpeming
 be offered "something equally as
 good?"

It may be said, however, that these
 pleasures about copper stocks and
 automobiles, are not entirely jokes.

We are now provided with two candi-
 dates for the office of alderman-at-large,
 despite the fact that the prospective al-
 derman-at-large will be an entirely su-
 perfluous official.

It is a safe prediction that most of
 the trouble with the voting machines
 Monday will be experienced by voters
 who would prefer not to see them come
 out of the test successfully.

The thing has gone so far that the
 theory that the "slump" in stock values
 was a little diversion arranged by the
 magnates for the edification of the pres-
 ident has had to be given up.

Never in past speculative history has
 a bunch of Lake Superior bulls been so
 badly hit and yet remained so "cocky."
 They are all hanging on and they are all
 confident that time will bring things
 around to their former satisfactory
 basis.

Any time Marquette gets tired of its
 present system of conducting local elec-
 tions it might try partisan elections, as
 does the Soo, and run Republican and
 Democratic tickets. Only we suppose
 that the Democrats would register an
 emphatic protest.

The council is to meet Friday evening.
 Odds and ends of business will be cleaned
 up. Mayor Culver will, we are informed,
 appoint a member of the new parks,
 cemeteries, streets and sewers commit-
 tee, to succeed A. E. Archambeau, who
 did not care to qualify. Let us hope
 Mayor Culver will ponder this appoint-
 ment well, and make it with a view of
 mollifying such people as were disap-
 pointed with the original makeup of his
 commissions. Friday's session of the
 council will be the last until after elec-
 tion. Shortly after Monday next we
 will begin life under our amended gov-
 ernment.

William Peters of Ishpeming is indig-
 nant. He was a candidate for the nomi-
 nation as municipal judge on the Cit-
 izens' ticket, but didn't land. Now he
 threatens to run on slips, and great is
 the consternation among the Citizens'
 cohorts, for they fear that if Peters per-

sists in this purpose he will encompass
 the defeat of the Citizens' candidate and
 secure the election of Judge Andrews for
 another term. Now the Citizens' party
 was not originally Judge Andrews spon-
 sor, and would much prefer to see him
 defeated. Peters says that last year,
 when he pulled out of the race for re-
 corder, he was assured by the "powers"
 in the Citizens' party that he would this
 time be nominated for municipal judge.
 He alleges a breach of faith, and makes
 no concealment that he contemplates
 running on slips in large measure to
 "take it out of" the Citizens' party.
 All this has no direct interest for Mar-
 quette, but we can't help but remember
 that when the Second district was busy
 last fall trying to make out a case for
 John R. Gordon, then candidate for the
 legislature, Mr. Peters was one of the
 speakers shoved forward at the Negaunee
 mass meeting the night before elec-
 tion to recommend Mr. Gordon to the
 voters, a task which he shared with one
 other man, Billy Pounded hard on the
 old strings of "regularity" and did his
 all to "tear things up" for Johnny. No
 wonder, after that, he feels a bit dis-
 gusted at his non-success in the Ish-
 peming convention. A man who did
 such major service over at Negaunee,
 when volunteers for the task were scarce
 as hen's teeth, not unreasonably expect
 to be treated with some consideration.

WARD CAUCUSES.
 There are two theories concerning a
 second set of ward caucuses. One is that
 the supporters of the ticket placed in
 nomination by the convention following
 the first ward caucuses have no
 business in them; the other is that all
 ward caucuses are open to the voters,
 and that any clique of voters should be
 allowed to participate in the proceed-
 ings, irrespective of their sentiments in
 regard to the primary purpose for which
 the caucuses are called. The first view
 is the one popularly held here. Some
 years ago interference with a second set
 of caucuses and a second convention was
 a large factor in defeating a candidate
 for mayor. In the Second and Fifth
 wards Monday night the voters in sym-
 pathy with the movement for a People's
 ticket regarded the presence of support-
 ers of the Citizens' ticket as unwarranted,
 holding that these voters had had their
 say in the week previous, and that they
 were entitled to set up their People's
 ticket, both in the wards and for the
 general city offices, as they judged
 best. Acting on this theory, they recog-
 nized only the avowed friends of a
 movement for a People's ticket. This is
 all there was to the ward contests Mon-
 day evening. There was no desire on
 the part of anyone to trample on any
 voter's "inalienable rights," and it is a
 fact that these rights have not in any
 degree been impaired. Independent candi-
 dates can have their place on the vot-
 ing machine slides, and if the voters
 want them they can be elected. At the
 same time some confusion would be
 avoided if the party lineup here was
 more definite—if one distinct class of
 voters was known as the Citizens' party
 and another distinct class as the Peo-
 ple's, as in Negaunee and Ishpeming.
 But the political lineup in Marquette
 is subject to such kaleidoscopic changes
 that such a thing is perhaps impracticable
 in Marquette. That being the case,
 why not accept it as a rule that the
 voters who name the first ticket nomi-
 nated shall permit the voters favoring a
 second ticket to have full possession of
 both the second caucuses and conven-
 tion?

CANDIDATES FOR SUPERVISOR.
 Monday Marquette will elect only five
 supervisors. It is important that the
 five men best qualified by experience and
 natural attainments should be named
 for the board, or else the Marquette
 delegation, particularly in view of its
 reduced size, will come to be a negligible
 quantity on the board. In the First and
 Fifth wards the candidates are men who

Weak Lungs

NEED VINOL

its cod liver oil elements heal
 and strengthen the lungs

Many people inherit weak lungs
 which are likely to be attacked by
 consumption. So also are lungs
 weakened by disease or by a stubborn
 hacking cough.

Vinol, which is a real cod liver oil
 preparation with all the useless oil elimi-
 nated and tonic iron added, strength-
 ens weak lungs and gives one the
 power to throw off wasting diseases.

We ask every person suffering
 from weak lungs, stubborn hacking
 coughs or any wasting disease to try
 Vinol on our guarantee.

THE STAFFORD DRUG CO.
 also
 J. E. O'DONOGHUE, Negaunee.

have either not served at all on the
 county board, or whose service has been
 brief. Thus it is to the other three
 wards that Marquette must look for
 its old and experienced supervisors, if it
 is to have any such in its delegation. In
 the Third D. W. Powell is the only can-
 didate, and thus one old member is cer-
 tain to be elected from Marquette. In
 the Second Joseph Fay is a candidate.
 He, it is said, will be opposed by A.
 Fleury. It is generally recognized in the
 city that public interest would be best
 served by returning Mr. Fay. He has
 been a member of the board for two de-
 cades or more, and is one of the most
 influential men on it. He is chairman
 of the purchasing committee, one of the
 most important committee places, which,
 should Mr. Fay be defeated, would
 doubtless go to some member outside
 Marquette, as it is a position most cov-
 eted. Mr. Fleury, who, it is said, will
 run on slips against Mr. Fay, could vote
 on the various matters coming before the
 board, but it would require years for
 him to get the latter's influence in com-
 munity matters, if he ever could, and
 the change would, in the light of this fact,
 be a bad one for the ward and the city.
 In regard to these offices the voters
 should try to get above petty considera-
 tions of ward politics. In the Fourth
 ward two old members of the board are
 opposed, J. E. Neidhart and Jacob Smith.
 The former is the more aggressive man
 of the two, and has had a wider range
 of experience in public affairs than Mr.
 Smith, although the latter has been an
 attentive supervisor and conscientious in
 his acts. It is in the Second that there
 is the greatest comparison in the desir-
 ability of the two candidates, and there
 the considerations The Mining Journal
 refers to above should lead every voter
 desiring primarily to advance the inter-
 ests of the entire city to cast his ballot
 for Mr. Fay.

GOVERNMENT BY COMMISSION.
 The city of Memphis is about to try
 the government by commission which
 has been proved so successful to Gal-
 veston and which has given satisfaction
 in other towns that have given the plan
 a trial. Instead of a mayor, a common
 council and a long list of elected officials
 all branches of the Memphis municipal
 government will be looked after by a
 commission of five members, appointed
 by the governor of the state to serve un-

til their successors shall be elected by
 popular vote in the fall of 1908. The
 commissioners will divide the work of
 administering the city affairs as in the
 judgment will bring the best result and
 will name such subordinates as may be
 needed, including treasurer, comptroller
 and counselor. It is claimed in behalf
 of this system that its adoption will put
 the city on much the same basis as a
 corporation in the management of its
 affairs, that there will be greater econ-
 omy, quicker results and less politics. It
 is certain the commission plan has been
 highly successful in Galveston. But
 however well designed the system may
 be, it is likely that how well it will work
 will depend largely upon the kind of
 men chosen for the commission. A good
 system with bad men may be infinitely
 worse than the poorest system with good
 men in charge. It all depends upon the
 men. Before adopting the plan in the
 hope of gaining relief from present ills
 other cities might well try the effect of
 electing good men to the offices they now
 have.

Upper Peninsula

Fatality at Logging Camp—
 Henry Blake, better known as
 "Smoky," was killed at Arthur Bohman's
 camp in the vicinity of Shingleton,
 Schembrait county, last week by being
 struck on the head by a slight tongue.
 The unfortunate man was about thirty-
 two years of age and had no relatives
 in this region.

Primary Election Close—
 By the close margin of four votes,
 George A. Wickwio was nominated for
 the office of mayor at the Republican
 primaries at Manistique last week. His
 opponent was Norman W. Fox, the pres-
 ent city executive. The contest between
 the men was one of the liveliest in the
 history of the municipality, and a heavy
 vote was polled. James Christensen, for
 clerk, received 188 majority over Angus
 J. McLellan, and Eugene Carrington, for
 city treasurer, was successful over J. E.
 Paulsen and Theodore Norborg by a mar-
 gin of sixty.

Gets a Pythian Jewel—
 The supreme lodge, Knights of Pythias,
 in session a year ago, decided that a
 special jewel should be provided for
 members who had been identified with
 the order twenty-five years or over. At
 the last convention of Gladstone lodge C.
 W. Lightfoot was asked to present him-
 self at Castle Hall, where Rev. F. C.
 O'Meara of Escanaba addressed him in a
 short speech and at the close of his re-
 marks pinned one of the new veteran's
 jewels to the lapel of Mr. Lightfoot's
 coat. Mr. Lightfoot joined Forest lodge,
 of Warsaw, Ind., Sept. 21, 1881, and
 transferred to Gladstone lodge at its
 institution. The jewel given him is the
 first issued in the upper peninsula.

Merchants Organize—
 The retail merchants of Manistique
 have organized a Protective organization
 with the following officers: President,
 W. L. Middlebrook; vice president, Allan
 Stewart; temporary secretary, Jno. E.
 Falk; directors, S. Winkelman, John A.
 Falk, John Schuster, Frank Clark and S.
 Johnson. The objects of the association
 are: First: To advance business inter-
 ests and encourage improvements. Sec-
 ond: To harmonize trade relations and
 foster a friendly feeling and spirit of co-
 operation between the members as com-
 petitors and fellow merchants. Third:
 To disseminate trade information, en-
 courage improvements in business meth-
 ods and to abate trade abuses and in-
 jurious practices.

City Paving Comes High—
 That the present plan of spreading
 special assessments for street improve-
 ments has many unsatisfactory features
 has been long contended by some of the
 members of the city council, comments
 the Escanaba Mirror, and in light of
 street improvements contemplated for
 this year it has been proved that the
 entire system is faulty. Mayor M. Per-
 ron and City Engineer D. A. Brotherton
 are now working on a new plan of as-
 sessing for street improvements. If the
 present system is carried out each own-
 er of a lot between Ludington street and
 Wells avenue and abutting the blocks
 which it is proposed to pave this year,
 will be forced to pay, according to es-
 timates made by the city engineer, ap-
 proximately \$400. Thus an owner of a

lot at Ludington and Elmore, who two
 years ago was assessed \$500 for the Lud-
 ington street pavement, will in a period
 of two years be forced to pay a total of
 \$900 for street improvements. The pres-
 ent plan is defective principally in that
 it does not provide for an equitable dis-
 tribution of the assessment on streets
 where the lots run lengthwise, or where
 but a portion of the lots are placed in
 that position.

Rival Tickets at the Soo—
 As the outcome of the primary elec-
 tion at the Soo, rival municipal tickets
 have been nominated as follows: Repub-
 lican: Mayor, Frank P. Sullivan; treas-
 urer, Robert B. Holmes; aldermen, John
 Metzger, William O'Neil, Robert D.

Purvis, George Cairns. The Democratic
 ticket contains these names: For mayor,
 James L. Lipsett; for treasurer, Charles
 Ripley; alderman, James McAnley,
 Nathan Lines, William Coulin, Patrick
 McEvoy. For the Republican nomi-
 nation for treasurer the contest was close
 and interesting as all three candidates,
 Mr. Holmes, George Freeborn and Frank
 B. Atwood, were well known. The turn-
 ing down of J. F. Deadman came as a
 surprise to his democratic friends, as
 they were confident that he would carry
 the city. His defeat is generally attri-
 buted to the popularity of his opponent,
 Captain Ripley, and the fact that he has
 been holding down a chair in the treas-
 urer's office for the past six years.

To the Taxpayers of Michigan.
 A Plea for Humanity and Lower Taxes.

The Supreme Court of Michigan has decided that the Constitution
 of 1850 was intended to prevent teaching of trades in prisons, and
 that any industrial work in which a convict may incidentally learn a
 trade or any part of a trade is a violation of the Constitution. The
 opinion of the court went even further than that. It said the intent
 was also "To lessen the probability that the honest mechanics of
 Michigan should be compelled to associate with discharged convicts
 because the latter had been taught the trade of the former in the state
 prisons of this state."

It is not necessary to discuss the inhumanity of such a law. The
 barbarism of China and Tartary is enlightened civilization in com-
 parison. Your boy may be in prison tomorrow. Shall we keep him
 in idleness and ignorance in prison in order to prevent him from get-
 ting employment and becoming an honest, law-abiding and self-sustain-
 ing citizen when he shall again be free? Shall we say to him, "You
 were once a convict and cannot work beside an honest mechanic or
 an honest laboring man, although you have atoned for your sin and
 have paid your debt to the state." Shall we drive him to theft or
 beggary or starvation, or down the dark road of despair to which our
 Constitution points?

On April 1st, there will be submitted to the people of Michigan a
 constitutional amendment to repeal that odious and barbarous law.
 Vote "Yes" and you will vote to give the prisoner a chance to regain
 his lost place in society. Vote "Yes" and you will vote to repeal a
 law which would have disgraced the dark ages. Vote "Yes" and
 you will be reaching down a helping hand to lift those less fortunate
 than you, instead of helping to push them over the brink. Perhaps
 you will be voting to help your boy. You will surely be voting to
 help or hurt your neighbor's boy.

Under our Constitution, as the Supreme Court has interpreted it,
 the prisoners cannot lawfully bake their own bread. They cannot
 make their own shoes or their own clothes as they are now doing.
 They cannot paint the prison buildings. The prisoners cannot do the
 prison plumbing or carpenter work, fire the prison boilers or run the
 engines or electric light plant.

Some alleged "reformers" are pointing to the New York prison
 system of trade schools as a solution of the prison question in Michi-
 gan. Under that spectacular and costly system, the New York State
 Reformatory cost the taxpayers last year over \$320,000 and the year
 before over \$340,000, while under Michigan's splendid industrial sys-
 tem, Michigan Reformatory is costing less than \$20,000 a year. I
 have a letter from ex-Congressman S. J. Barrows, Corresponding
 Secretary of the New York Prison Association, and former official
 commissioner from the United States to the European Prison Confer-
 ence, saying: "THE NEW YORK SYSTEM SHOULD BE TAKEN
 AS A WARNING AND NOT AS AN EXAMPLE." In the New
 York Reformatory the prisoners are taught the gentle arts of war,
 and are marched around in military uniforms and with wooden guns
 on dress parade, for the entertainment of visiting ladies and states-
 men, while the taxpayers foot the bills of idleness and "all the pomp
 and circumstance of glorious war."

I think I am within reasonable bounds when I estimate that the
 prison labor grandstand play of New York's thrifty politicians has
 cost the taxpayers of that state five millions of dollars since the "re-
 form" era was inaugurated. That is the tribute which the farmer
 and business man and the general taxpayer pays to the ambitions of
 a handful of city politicians—sons of lingual toil. Michigan is edu-
 cating its prisoners. It is teaching them habits of thrift and industry
 and its prisoners are rapidly reaching the self-sustaining point. After
 a careful study of prison labor problems and prison systems for more
 than 12 years in the leading prisons of the United States, I have no
 hesitation in saying that the present Michigan system is the best in
 the Union, both for the prisoners and the taxpayers. To abandon it
 for any of the various "reform" fads which politicians are advocat-
 ing in an effort to gain popular favor at the polls, is to take a costly
 backward step.

These are some of the reasons why I ask you to vote YES on April
 1st, on the prison amendment. It will be a vote for humanity, for im-
 proved prison conditions, and for lower taxes.

OTIS FULLER,
 Warden of Michigan Reformatory.

Advice to Women

Mrs. Pinkham's Standing Invitation to Women

All sick women are invited to write Mrs. Pinkham, Lynn, Mass., for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham, in advising. Thus she is especially well qualified to give advice to sick women. Write today, don't wait until too late.

Mrs. Pinkham never violates the confidence thus entrusted to her, and although she is constantly receiving testimonials from women who have been benefited by her advice and medicine, never in all her experience has she published such a letter without the full consent, and often by special request of the writer. Neither has she ever disposed of her confidential letters in any other way. Every one of the hundreds of thousands of letters written to her by confiding women she has to-day under lock and key in the Company's laboratory at Lynn, Mass. Remember, the best medicine for women is

Lydia E. Pinkham's Vegetable Compound.

EVERY WOMAN SHOULD CONSIDER THESE FACTS

First, that almost every operation in our hospitals, performed upon women, became necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has overcome more cases of female ills than any other one medicine. It regulates, strengthens and restores women's health and is invaluable during the period of Change of Life.

Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the power of Lydia E. Pinkham's Vegetable Compound over the illnesses of women.

Copper Country

HAAS BREWING COMPANY.

A Frigid Trip Through the Arctic Vaults in the New Addition.

The Haas Brewing company of Houghton has practically completed the installation of the new machinery in the big addition which was made to the building during the winter, and within a few days the brew master will be turning amber liquid into the big new tanks, there to remain until age has mellowed it. W. F. Miller, manager of the brewing company and president of the village of Houghton, invited The Mining Journal to inspect the addition yesterday. It is a mere platitude to say that the invitation was accepted.

Breweries are pretty familiar industrial plants to the public, and an attempt will not be made here to describe the entire establishment. But worthy of mention are the immense steel, glass-lined tanks in which the beer is to be fermented and aged, there being separate tanks for the two processes. In the old portion of the brewery these tanks are wooden vats, huge barrels, which take up more room and hold less of the amber fluid. There are seventeen steel tanks in the new cellars, and they increase the capacity of the brewery by 15,000 barrels per year.

Another new feature is an ice machine which will make fifty tons of ice every twenty-four hours. The machine actually does not make ice, as the actual crystal is not used in the brewing, but it makes a chilling mixture of ammonia which is compressed and forced through

refrigerating pipes to all parts of the plant. A description of the ice-making process would involve too much chemistry here; it is enough to say that after the ammonia leaves the compressor it is so cold that the pipes in which it is contained are soon encrusted with snow. This snow-covered pipe is what keeps the brewery cellar cool. The building in which are contained these new machines and vats is of brick and concrete construction, insulated with non-conducting cork sheets. The object is to get the building cold and keep it cold, and none of the cold is permitted to escape.

Bottling Department.

In the rear of this building is a new shop, where the beer is bottled and where the bottles are prepared to receive the beer. The vats being soaking machines is here, and it is a curious contrivance. It is as ponderous as a threshing machine. It is composed of a web of iron receptacles for bottles, an endless carrier which draws the bottles through caustic soda. This solution cleans the bottles absolutely of old labels or any other soil, and mechanically delivers them to a rinsing machine, which dries them perfectly from the caustic soda and leaves them ready for the bottling.

The bottling machine is simple, a set of spouts arranged around a stand. The bottles stick to the bottle against a spout, and it forces in just the required amount of beer; then another machine grabs the bottle and forces in a cork. Still another machine puts on a metal cap and wires the cork on tight, and a third pushes on a sheet of tinfoil around the neck of the bottle.

But the labeling is where the mechanical ingenuity of the brewery mechanist comes in. When the bottle is full and corked, it is laid in the labeler. An arm reaches over and automatically picks up a Haas trademark, passes it over a rubber wheel coated with glue, slaps it on the bottle and two rubber hands gently press it down firmly as the bottle passes out of the machine.

The soaking machine will clean 2,900 bottles per hour and the other machines will perform their operations just as fast. Mr. Miller claims for the Haas brewery now absolute cleanliness, all modern conveniences, one of the most complete bottle shops in Michigan, and an absolutely pure product.

There are now five breweries in Houghton county, including the Park of Hancock, which is not yet in operation, and they sell their entire product in the county. There are 75,000 people in this county. Call the total product of the breweries 120,000 barrels a year, and it gives one and a half barrels of beer annually to every person in the county. The brewery business in Houghton county is large.

ingenuity of the brewery mechanist comes in. When the bottle is full and corked, it is laid in the labeler. An arm reaches over and automatically picks up a Haas trademark, passes it over a rubber wheel coated with glue, slaps it on the bottle and two rubber hands gently press it down firmly as the bottle passes out of the machine.

A BLESSING TO MANY PEOPLE HERE

MAY MEAN MUCH LESS SICKNESS HERE WHEN THIS SPLENDID PRESCRIPTION IS KNOWN.

This is a message that will bring happiness again into many families and sunshine into the lives of hundreds of disheartened and discouraged men and women here. It requires just a little convenience, for it can't be bought already prepared. It is a simple home prescription now being made known in all the large cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder trouble which have made so many cripples and invalids and weaklings of some of our brightest and strongest people. The druggists here have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; and Compound Syrup of Sarsaparilla three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime.

Recent experiments, even in severe hospital cases, prove this simple mixture the remedy for Rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels these most vital organs to filter from the blood and system the waste impurities and uric acid which are the cause of Rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful sealing and discolored urine. It acts as a powerful stimulant to the entire kidneys and bladder structure, puts new life into them and invigorates the entire tract. It makes the kidneys clean the blood. The Dandelion will take care of liver trouble and constipation, and is fine for the stomach.

All the ingredients, states a well-known local druggist, are of vegetable extraction, making it a safe and harmless prescription at any time.

Those who suffer and are accustomed to purchase a bottle of patent medicine should not let a little inconvenience interfere with making up this prescription. Wherever this becomes generally known, states the writer, Eastern publishers will ruin the sale of the patent medicines and so-called rheumatism and kidney cures, which is its best endorsement if true.

man; J. J. Eickhorn, supervisor.

In Quincy township C. L. Lawton was again named for supervisor, and the other officers were renominated without opposition.

Franklin township, at the regular caucus, Superintendant Cleaves was defeated for the nomination by Eugene R. Lynch, and Mr. Cleaves' friends at once held a second caucus and named him for the head of a new ticket.

It appears that the territory in and around Hancock will be the storm center of politics during the election to be held next Monday. The Republican ticket will be opposed by a full ticket in Hancock, to be named tonight as the Citizens' ticket, which will be in effect a Democratic ticket. The Franklin election will have some few belligerent features as Mr. Cleaves' supporters believe that Mr. Lynch, as an employee of the Quincy mine, should not represent Franklin township on the board.

There will be a contest in Portage township, Houghton, for clerk and treasurer, but it is not believed this opposition to the regular nominees will bring out the grand display of politics seen in Hancock and its environs.

HEART BREAKING MARKET.

Copper Country Investors Were Worried Yesterday Morning.

The opening of the stock market yesterday was of a nature to emphasize the worst fears of traders at the close on Monday. The slump continued, and it promised to break or at least seriously cripple many copper country people who were carrying heavy stock holdings on margin. It was reported that several traders, particularly in Houghton, had been closed out with heavy losses. This was denied by the brokers, who said that the instances of selling out were few.

The market began to stiffen up toward noon yesterday and there was a better feeling. The price of the metal was holding up and people owning stock outright saw no reason for concern in the conditions. The margin operators were of course in desperate straits, but yesterday afternoon were again confident.

"THE LION AND THE MOUSE."

"The Lion and the Mouse," Charles Klein's great play of business and love, will be seen at the Calumet theater to night and at the Kerledge, Hancock, tomorrow night. The sale opened at the Kerledge yesterday, and there was the greatest rush for seats in the history of the house. The attraction may safely be considered one of the two best bookings of the season in these provinces.

BASEBALL LEAGUE.

Schedule Committee Meets—Talk of the Ball Players.

Dr. Glass had not returned to Lake Linden yesterday when The Mining Journal called, and it is impossible to give out anything definite regarding the Northern-Copper Country Baseball League schedule committee's meeting in Duluth, except as is told by the Herald, as follows:

"Secretary-President Glass of the Northern Copper Country league called a meeting of the committee at the Spalding, and an all-day session was held. J. M. Lamb represented Winnipeg and A. W. Kuehnow the White Sox, but aside from President Glass, the copper country was not represented, a fact which caused a hitch in the proceedings. Mr. Glass did not consider himself entitled to represent the land when the pennies come from, and so felt obliged to submit the committee's findings to Houghton and Calumet before passing on them. The Winnipeg and Duluth managers agreed on a schedule, however, which they think will be highly satisfactory to the copper fans as well as to the followers of the Maroons and Sox, and President Glass will endeavor to secure the approval of the Houghton and Calumet managers on the proposition. Thomas McGraw, with the league last year, and W. E. Weisler of the Three-I league, will be the official umpires this year."

Houghton Team Signed.

M. O. Taylor, manager of the Houghton team, arrived yesterday from Chicago. He says he has a full team signed, but will not give out its personnel for a day or so. He has, however, secured Sundhim for third base again. Sundhim played great ball last season, leading the third basemen in the league. Hastings will not be back, as he is to manage the Green Bay team.

Taylor brought back the new Spalding guide, which gives some records of last season's players, the best being Mutter's. He led the catchers of the league, 1,000 per cent in 22 games, and he led the fielding first basemen, with 996 in 64 games.

Medicine Hat of the new Western Canada league plays an exhibition game with Houghton May 12. This team is organizing in Montreal and will barnstorm on the way west.

Umpire McGraw is a policeman in Chicago, Taylor learned. Taylor had about as much trouble with McGraw last season as any player, and when he was in Chicago he was afraid to look up the umpire for fear he would run him in.

Bart Rosevaur and Fred Anthony, battery for several years for the North Tamarack juvenile team, the phenomenal boys' team of the copper country, have gone to Virginia, Minn., to play with that club the coming season. Rosevaur was considered one of the most promising young pitchers in the upper peninsula.

Umpire Rudderham, last season in copper country ball yards, has taken a position as trainer with the Philadelphia Nationals.

POLITICS IN AND ABOUT HANCOCK.

Mayor Scott Renominated Last Night—Wards and Townships.

Archibald J. Scott, first and present mayor of Hancock, was renominated last night by the City Republican convention. City Clerk Macdonald and Justice Olivier were also chosen as their own successors, with opposition. The delegates to this convention were chosen at ward caucuses held Monday night, at which the following nominations were made:

First Ward—L. Levy, alderman; John D. Crawford, supervisor.

Second Ward—George C. Bentley, alderman; Webster Doek, supervisor.

Third Ward—Jas. H. Bakell, alder-

FUNERAL OF MRS. C. H. MOSS.

Service at the Home Monday Beautiful and Impressive.

The remains of the late Mrs. Moss, wife of Cashier C. H. Moss of the Citizens' National Bank, were interred at Forest Hill Monday afternoon after an affecting service at the family home in East Houghton. The service was attended by many friends of the family, while many floral offerings which were beautiful.

Rev. M. M. Allen, pastor of the Presbyterian church at Ishpeming, former pastor of Mrs. Moss, preached the requiem sermon and conducted the service with Rev. William Bryant, pastor of the Houghton Presbyterian church. George Tucker of Marquette and sang "Beautiful Home on High," and quartet, which included Miss Cox of Ishpeming, sang during the service.

John G. Stone, Dean L. Robinson, C. V. Seeber, O. P. Hood, F. S. Nichols and John W. Black, as pall bearers, carried the body to the flower strewn grave at Forest Hill, to which it had been escorted by a numerous cortege. Many relatives of the Moss family were present from out of town.

PAVING AFFAIRS PROMINENT.

Topic of Discussion in Several of the Village Councils.

Paving affairs will take up the attention this season of several of the village councils of the copper country. Lake Linden is considering the matter of paving, while the Hancock village council, which has done all the preliminary work for the Quincy extension; Red Jacket expects to pave its alleys, and the principal street of Laurium may be paved this year.

The granditoid in use at Red Jacket is the first example of that form of pavement in the upper peninsula. It is cheap and is believed to be durable. The granditoid is merely a concrete laid in the street in much the same manner as a cement sidewalk, and scored so as to have the appearance of brick, which scoring also serves to give horses a foothold. Hancock's present pavement is asphalt, and it has been in use for five years. At its junction with the street car tracks it shows wear and defects, but otherwise it has been a success.

Pavement has been a matter of much study to copper country councils in the past few years, and every well known form of pavement except bitulithic is now in use in the county. All forms have their friends, and all have good points, though creosoted brick is somewhat of a failure in Red Jacket while a success in East Houghton, though in the latter case the cause of a fierce legal battle, indirectly. Brick is successful use in Houghton and Red Jacket and macadam is in use with good success in the streets of the Calumet locality. The granditoid of Red Jacket has just passed its first winter and this test of its durability will not have been completed until all the snow disappears.

Two Bids Considered at Hancock.

The meeting of the Hancock council for the purpose of opening bids for the paving of Quincy street considered only two proposals, and by resolution made it impossible for other bidders to make tenders under the same notice. The first was the bid of Jas. J. Byers & Co., as follows: Metropolitan paving brick, \$31,462.40; Puritan paving brick, \$29,580.80; three inch creosoted wood block, \$33,344; four inch creosoted wood block, \$35,482.40; four inch creosoted brick, \$37,200.80. The second bid was by R. S. Blome company of Chicago proposed to pave the street with granditoid for \$25,871.58. The bids were referred to Engineer Craig and Attorney Finnegan, and they will report concerning them next Tuesday night at a special meeting. In the meantime a mass meeting of the property owners who will have to pay for the pavement will be called to consider the material to be adopted.

A HUSTLING "BUNCH."

Hancock Pythians Preparing to Give Fellow Knights a Big Time.

The Hancock Pythians are certainly an enterprising, hustling lot of fellows, judging at this distance of what they are doing and their intentions relative to the coming league meeting to be held in their city the last week in June. Information received is to the effect that they intend the program to extend over an entire week, with something doing every day. Arrangements are now being made to prepare for accommodations and entertainment for the families of Pythians, and to make the work a grand jubilee in upper peninsula Pythian circles. The team from the Soo that will contest for the cup has not been entirely selected as yet, but a number of the members composing the state championship team will take part.—Soo Times.

JOE HAMEL'S HEARING.

The most important case before the courts of Houghton county at present is that of Joe Hamel, who will be given a hearing Thursday by Justice Casper Hamel in the charge of murdering his mother at Ripley the morning of March 15. The murderer is admitted-

C. H. Moss.

ly insane, but the criminal proceeding must be taken against him as a matter of record. Sheriff Beck has subpoenaed nine witnesses in the case. The proceeding will involve Hamel's being held for trial on the murder charge in the circuit court, and when this action is taken Judge Streeter will appoint a commission of physicians to examine the young man as to his sanity. The brutal manner in which the mother was murdered, the wide acquaintance of the family in the copper country, and other circumstances connected with the sad event make this the most interesting case to the public of the county in many years, and Hamel's examination will undoubtedly attract a large attendance.

DELINQUENT TAX RETURNS.

County Treasurer Foley reported yesterday the receipt of delinquent tax returns from two townships. Treasurer Chabot of Schoolcraft collected all but \$278.01 of his total roll of \$12,489.38. In Torch Lake township Treasurer Burbank collected delinquent \$109.52 out of a total of \$47,689.27.

COPPERDOM BREVITIES.

Isador Gittler, a Chicago newspaperman, is visiting relatives at his old home in Calumet.

John Harvett slapped a man's face at Boston last Saturday. Justice Olivier charged him \$5 and the costs.

Mr. and Mrs. E. R. Hall of Chicago were in Houghton Monday to attend the funeral of the late Mrs. C. H. Moss.

The Albaroons, a glee club from Alma college, will give a concert in the Calumet Presbyterian church Saturday night.

Fred S. Eaton of Calumet has been appointed chief clerk of the Calumet & Hecla Mining company to succeed the late Major J. H. Lathrop.

J. J. Summers, principal of the commercial department of the Houghton high school, has been called to Elkhardt, Ind., by news of the accidental death of his brother.

Leonard Leigh has returned to Calumet from Camborne, B. C., where he has been superintending the operations at the old Northwestern mine for some months.

The remains of the late William Monroe, who was drowned in the wreck of the steamer Berlin off the Hook of Holland some weeks ago, were interred at Lansing Sunday.

Denis Sullivan, a former resident of Hancock, is dead at Bisbee, where he had been the past four years. His parents live on Quincy hill, and they will receive his remains Friday.

J. P. Peterman and Dr. W. King of Allouez have gone west to inspect various mining properties in which they are interested. They will include Bisbee and San Francisco in their itinerary.

The E. Ryan Estate store of Calumet has been closed to permit of extensive repairs and additions in anticipation of the opening of the Pantan & White company, which succeeds the Ryan firm.

Dr. Kilgore, the Southern evangelist, continues to draw crowds nightly to the Laurium Baptist church, where he is holding a revival. He will continue services throughout the week.

James MacNaughton, general manager of the C. & H., and Norman W. Haire, general manager of the Bigelow interests, are in Grand Rapids attending the United States circuit court hearing of the C. & H. Oseola case.

Dr. John Jackola of Hancock and E. W. Krukka of Painesdale have returned from Crystal Falls, where last Saturday night they attended a meeting of the Knights of Kaleva, the Finnish national organization. Dr. Jackola delivered an address and Mr. Krukka lectured on "The Kalevala," the great Finnish epic.

CAUSE OF STOMACH TROUBLE.

When a man has trouble with his stomach you may know that he is eating more than he should or of some article of food or drink not suited to his age or occupation, or that his bowels are habitually constipated. Take Chamberlain's Stomach and Liver Tablets to regulate the bowels and improve the digestion and see if that trouble does not disappear. Ask for a free sample. Sold by The Stafford Drug Co.

Heart Strength

Heart Strength, or Heart Weakness, means Nervousness, or Nerve Weakness—nothing more. It is not one weak heart in a hundred, it is itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have some controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart disease. Dr. Shoop's Restorative—a popular prescription—is alone directed to this weak and wasting nerve centers. It builds its strength; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Dr. Shoop's Restorative

THE STAFFORD DRUG CO.

Not a "Prospect" But a Mine
In a Proven District

Sunset Mining and Milling Co.
Of Wilcox, Arizona.

This company owns ten claims, or about 200 acres of mineral lands in Coehise County, Arizona, and within one-half mile of the new acquisition to the Calumet & Arizona, the Casey property, for which absolutely undeveloped property the said company paid \$100,000.

The Sunset Mining & Milling Company's property is being rapidly developed under the able and conscientious management of Mine Superintendent George H. Wilson. The ore which is taken out is being shipped to the nearby smelters for treatment and everything indicates that in the near future this will be one of the richest mines in Arizona. Samples of ore from this mine which have been assayed at the Michigan College of Mines by Professor L. S. Austin has shown an ore value of \$134.14 per ton of copper and silver.

A limited amount of stock in this excellent mine is now offered to the public at only 75 cents per share. This offer is good a few days only. For further information apply to:

O. E. Petterson, Fiscal Agent and Broker
Jacka Block. Over Merchants and Miners Bank. Calumet, Mich.

Orders for this stock may also be placed with Gust A. Larson, Druggist, at the People's Drug Store, Marquette, Mich., and the Wallace H. Hopkins' Co., Ishpeming, Mich.

VICTORIA COPPER.

Victoria Copper stock, listed on the Boston Stock Exchange, is on the eve of an advance in price, which will carry it from its present level of \$10 per share to very much higher prices.

This statement is based upon existing facts, and if my reader will investigate he will find that Victoria, overlooked in the recent copper speculation, has the merit and has been selling below intrinsic values.

VICTORIA A MARVEL OF ECONOMICAL OPERATION.

Located in the Lake Superior region of Michigan, the Victoria Copper Mine, opened in 1870, is the pioneer. Much money has been expended upon the property in recent years, which has brought it to a state of efficiency, placing it in the front ranks of Lake Copper.

The Victoria possesses a distinct advantage over all other Michigan mines in its recently completed hydraulic pneumatic

POWER PLANT.

The most powerful single-unit air compressor in existence, there being but four such plants in the world.

This wonderful power plant is practically automatic and furnishes five-fold as much power as the mill requires; hence it is possible for the Victoria to power its copper at a marvellously low cost. The plant has been in operation but a few months.

Nearly 500,000 tons of stamp rock have been developed and considerable has been accumulated on the surface from opening work. For the past three years the management, considering that enough ground had been opened, has devoted its time and money to the construction of a mill and water power plant. The property is now in a position to make money for its stockholders. An interesting description of the water power plant will be found in "Steven's Copper Hand Book," 1906 edition.

AN INDEPENDENT ASSET.

In the operation of its water power plant no machinery is required and no fuel is used. In this respect the Victoria is unique, as all other Michigan mines are of necessity large consumers of fuel. This hydraulic plant furnishes an energy of 5,000-horse power, of which it is using at present but one-fifth. If the mine were shut down, its power could be farmed out and produce a minimum net income of \$150,000 per annum. The investment to 20 per cent on the present selling price of the stock in the open market.

In short, the hydraulic plant is an independent asset, obviously worth the par capitalization of the Victoria Copper Mining company on a 6 per cent basis.

FACTS EASY TO GRIEF.

The Victoria Copper Mining company has 1,400 stockholders. Half of these are Michigan people, many of whom are employees of the Lake Copper mines. There are 700 stockholders in Boston and throughout New England; others in Chicago, Milwaukee, Duluth, Detroit and Cleveland.

Practically every prominent banking house and Stock Exchange firm in Boston is a Victoria stockholder.

The Victoria is now employing 250 men. Its profits have recently averaged \$10,000 per month. By the addition of an extra cylinder on the stamp mill, which will be accomplished within two weeks, the company will earn net from \$175,000 to \$225,000 per annum from its mining operations.

Negotiations now pending for furnishing power to a nearby corporation will add \$100,000 per year to the net earnings.

The capitalization is 100,000 shares, par value \$25.

The Victoria has absolutely the cheapest water power of any mine in the world.

Its property consists of 2,300 acres in Ontonagon county, Michigan, practically all on the mineral belt.

The main shaft is 2,000 feet deep, with 100,000 feet and 27,000 feet of underground workings.

Other property comprises a mill, machine shop, warehouse, boarding house, school house, general store and fifty-eight dwellings.

The company is out of debt.

1,400 STOCKHOLDERS WILL MAKE PROFITS.

One of the directors of the company, an being approached with an offer of \$10 per share, which was \$2 per share above existing quotations, telegraphed the following reply: "Will not sell my stock at twice your offer. Have been adding to my holdings, believing stock to be worth par."

The 1,400 stockholders know that sufficient rock is blocked out to test the present capacity for four years to come; also that by reason of its hydraulic power plant it has five times as much power as it can now deliver practically free, rendering it possible to make a reasonable safe margin of profit on a 13c copper market.

An upward movement in a particular stock, entitled by actual intrinsic merit to advance from 10 percent to 300 per cent, is facilitated by making the facts known to the investing public.

PUBLICITY CREATES BUYING POWER.

A public co-operative buying movement, accompanied by knowledge of intrinsic values, is a legitimate movement based upon facts, not theories, and therefore sane. It is minus the gambler's "risk of loss" and plus a confident conviction in higher prices, as 2x2 make 4, and not 0.

Assets, earnings and management are the three features which constitute value. Ascertain the percentage of profit for yourself whether Victoria stock, quoted under \$10 per share, is selling for all it is worth, or one-third or one-half of a reasonable valuation.

You can obtain the desired information from any reputable Boston stock broker or banking house, or through any legitimate stock broker having New York or Boston Stock Exchange connections.

Under the circumstances, it would be superfluous for the writer to predict just how high Victoria Copper stock will sell on this movement. My investigation has been most thorough, and I am warranted in stating that the stock is a safe investment, which will pay large dividends and steadily advance to very much higher prices.

Claude Ashbrook.
Cincinnati, March 18, 1907.

Mining News

QUINCY.

The leading interests in the Quincy company are figuring on a copper production this year of at least 20,000,000 pounds of copper. It is, of course, possible that accidents may cut down the production, so it is a matter of interest to note what the Quincy can earn and pay in dividends on a production of from 18,000,000 to 20,000,000 pounds with the price of the metal from eighteen cents to twenty-five cents. Basing the cost at 11 cents, earnings per share figure out as follows:

Production 25,000,000 lbs.	22 1/2%	20c	18c
20,000,000	25.45	\$20.90	\$16.35
19,000,000	24.18	19.85	15.32
18,000,000	22.91	18.81	15.71
17,000,000	21.64	17.77	15.10

It is apparent from the above figures that if Quincy only produces 18,000,000 pounds of copper this year, and if you can dispose of this copper at 22 1/2 cents per pound, it will more than earn its present rate of dividends—\$18 per annum. The management of the Quincy is apparently determined that stockholders shall derive the full benefit of its earnings this year.

CALUMET & ARIZONA.

Calumet & Arizona is one of the very cheapest things on the list rating it by its earning value, comments "Lennox," in the Boston Statist. It has earned during 1906 \$30 per share on a copper price that averaged the company for the year something like 18.5c. The pound. What its earnings will be on the present price of copper is astounding. The company's recent dividend all goes to show that the ore bodies are permanent and that values will be found in just as good if not better condition as depth is attained. The gold and silver values in the Calumet & Arizona ore make for very cheap copper prices. The condition of the company has strengthened month by month during the past two years and in fact ever since its organization. Returning \$20 per annum, it is paying about 14 per cent on its present purchase price.

BUTTE COALITION.

The Butte Coalition company in driving the crosscut from the 2200-foot level of the Copra into Alice ground has cut one good vein in an unexpected locality, carrying a big percentage of copper. The vein is believed to be in the Magna Charta, one of the Alice group of mines, and is possibly the offshoot of a very large vein.

IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition, it cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

JUVENILE BOSTONIANS. Played to Small House Again Last Night - "Rajah of Pazzala" Tonight.

The Juvenile Bostonian Opera company played to a preponderance of empty seats at the Marquette Opera House again last night. It may be that the inclemency of the weather contributed to the situation, but it is a regrettable fact that the house was deplorably small. The children's efforts are worthy of better patronage and Marquette people are missing a novel treat in not seeing the company. One song by Tiny Halsey-Martin is a gem in itself. She is the most marvelous child actress ever seen here. Her work is truly wonderful, both in the singing and speaking parts, and she carries herself naturally at all times. "Olyette" was the bill last night and it was much better suited to the children than "The Gypsy Girl" the night before. The costuming was pretty and there was something of a plot to the piece. Some of the scores were sung and the voices were excellent, all leading roles being in good hands. "Babe" and Lois Mason, the former as Olyette and the latter as Captain de Merrimac, divided the honors. They are both perfectly at home on the stage and "Babe" has all the marks of a coming soubrette. Tiny Halsey-Martin as Coquette was good and her songs were well received. Ruby Lang had opportunities to give an excellent voice full play in her role of Valentine and the other leading roles were also in good hands. Tonight, the engagement will close with "The Rajah of Pazzala," another musical comedy and one of the best in the company's repertoire.

GOES TO LAKE LINDEN. Roy A. Young Accepts Position With the First National There.

Roy A. Young, second assistant cashier of the Marquette National bank, has tendered his resignation, to take effect this week, and will leave Marquette to assume the position of assistant cashier of the First National bank of Lake Linden, succeeding J. Bruce Paton, who has resigned to assume the duties of cashier of the new Laurium National bank. Mr. Young has been with the Marquette National since its organization, some five and a half years ago, and has been advanced steadily to his present responsible position there. Previous to the formation of the Marquette National he had been with the First National for a short time. Mr. Young has enjoyed the full confidence of his employers and has been regarded as a very valuable man. The new position is a big step forward for him in the banking business, as it will carry increased responsibility. His friends will regret his departure from Marquette, but they are highly pleased to know that he has been asked to such a good post. This evening at the Marquette club a farewell dinner will be given in his honor.

The secret of fashionable beauty, I asked the question of a noted beauty specialist. "In order to be round, rosy, plump, very pretty and stylish take Hollister's Rocky Mountain Tea," 35 cents. The Stafford Drug Co.

GIFT TO THE LIBRARY. Framed Copy of Declaration of Independence Received.

The Peter White public library has received, through Peter White, from the Biographical Society of Washington, D. C., a beautiful copy of the Declaration of Independence, to be added to the art collection of the library. The work is truly artistic in design and execution, and is a most acceptable gift. It is a copy of the Declaration printed in small type, within a hand-worked oval design in oil. Besides the text of the Declaration, and within the oval, are fac-similes of the signatures of the signers. The main links of the surrounding design are copies of the coats-of-arms of the original thirteen states, with an engraving of the scene of the signing of the declaration at the bottom. There is a picture of Independence hall at the top. The reproduction is beautifully finished and is framed in solid mahogany. It was forwarded to Marquette from Washington and bears the inscription presented to Hon. Peter White by the Peter White Public Library by the Biographical Society of Washington, D. C. The reproduction will be on exhibition at the loan desk of the library for a few days before it is placed in its permanent position.

A MARQUETTE CASE. Mary More Like It in Marquette.

The following case is but one of many similar occurring daily in Marquette. It is an encouraging story, if it is correct, and sure you cannot ask for better proof than such conclusive evidence. C. C. Young, painter and decorator, of 522 Washington St., Marquette, Mich., was cured of kidney trouble by Doan's Kidney Pills in 1898, and has ever since been recommending this remedy to his friends for the cure has been permanent. Describing his experience, Mr. Young says: "When I first began using Doan's Kidney Pills I was completely run down and for two or three years had been practically unable to work. I had such severe pain through my back and loins that I could hardly get about and several times the intense pains in my back and shoulders compelled me to lay off and rest. The kidney secretions became affected by the trouble and were highly colored and unnatural, depositing a heavy sediment. Passages were irregular and on account of this trouble and the pain in my back I could not get more than three or four hours' sleep each night. I got Doan's Kidney Pills and began using them, finding quick relief. I gradually improved until I could enjoy a good night's rest and rise in the morning feeling strengthened and refreshed. I found this cure in 1898 and made a statement for publication at that time telling my experience. During the years that have passed I have had no return of my old trouble. My health had been good and is as good today as it was ten years ago. It is astonishing what Doan's Kidney Pills did for me and what I am sure they will do for others."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other. DARANTELLA

City Brevities

Today's weather: Snow; stationary temperature.

J. W. Byers of Iron River, Mich., was in the city yesterday.

A. B. Standish of the Soo is in the city for a few days on business.

W. B. Ransom left last evening for Chicago, on a few days' business trip. Born to Mr. and Mrs. H. R. Radrieh, Center street, yesterday morning, a daughter.

J. D. Staple, P. Damour and Charles Bettman of Gladstone spent yesterday in the city.

T. J. Dineman and Frank J. Riley of Nescora spent yesterday with Marquette friends.

The Women's Christian Temperance Union will meet with Mrs. J. R. McPherson, 214 N. Fourth street, at 2:30 o'clock this afternoon.

On account of an accident to a portion of the electric light system on Washington street last night, the lights in that part of the city were extinguished for a short time.

Mrs. F. J. Russell left yesterday afternoon for Utica, N. Y., where she will visit her parents, Mr. and Mrs. O. S. Foster, for a month.

J. A. Rivers of Duluth spent a few hours with Marquette friends. Mr. Rivers is a former Marquette resident and was employed in the general passenger agent office of the D. S. S. & A. railroad when that department was located here. He holds the same position at Duluth.

Elks' Initiation—An important meeting of the Marquette lodge of Elks will be held tomorrow evening. The election of officers for the ensuing year will be held and an initiation of several candidates is also on the evening's program. A large delegation of Musing members is expected, and that town will also send a number of candidates.

To Close Good Friday—Announcement was made yesterday that all groceries and meat markets in Marquette will close on Good Friday, in observance of the day. The different churches observing Lent will hold special services on that day. Easter Sunday will be appropriately observed in all churches of the city.

Commercial Travelers' Dance—The Upper Peninsula council of the U. C. T. has made arrangements for a dance to be given at Fraternity Hall on the evening of Friday, April 12. The Commercial Travelers' parties have in the past been social affairs of pronounced popularity and they can be depended upon to entertain their friends in royal style on the forthcoming occasion.

J. Sharland Instead of Bittner—The People party committee has decided to substitute J. Sharland for Herman Bittner as the candidate for alderman at large. Mr. Bittner's office on the police commission being one that he would have to resign if he was elected to the council. Mr. Sharland is well known and is expected to make a good run. L. M. Spencey has informed The Mining Journal that he expects to run for recorder on slips.

Market Closely Followed—The stock market was closely followed by the local "talent" yesterday. Recoveries from the low prices of Monday were the rule, varying from a point to a number of points. The advices from New York and Boston were also of a more cheerful tone. The drives at the stocks have created big paper losses among Marquette speculators and investors, but as yet little real money has been burned, and there have been large purchases at the low prices that sometime or other ought to show good profits.

Meeting Slimly Attended—The mass meeting in the assembly room of the city hall last evening, to hear remarks on the proposed amendment of the state constitution to remove the prohibition on the teaching of trades in the prisons, was very slimly attended, considerably under fifty people being present. A. W. Mulhauser called the meeting to order shortly before 9 o'clock. He expressed regret that more people were not present to consider such an important matter as the one to be discussed. E. W. MacPherson and C. F. Button spoke briefly, and the meeting took an early adjournment.

Greatly Enjoyed at Ishpeming—"The Lion and the Mouse" played to a good-sized house at Ishpeming theater last evening, and The Mining Journal is advised that it proved one of the most satisfactory attractions ever seen there. The company is described as unusually strong and well-balanced, the scenery excellent and the production in every way all that was claimed for it. The seat sales in the copper country, where the company appeared tonight and tomorrow evening, are said to have established a new record for the Hancock and Calumet theaters.

TETTER, SALT RHEUM AND ECZEMA. These are diseases for which Chamberlain's Salve is especially valuable. It quickly allays the itching and smarting and soon effects a cure. Price, 25 cents. For sale by The Stafford Drug Co.

THIS IS WORTH REMEMBERING. We do all kinds of upholstering, and always carry a full line of samples of furniture coverings in the latest patterns and do all kinds of furniture repairing; also renovate hair mattresses, and make them as good as new. We make and hang Window Shades, we make Picture Frames, we sell Cedarine Furniture polish, the best now on the market, and sell the best Carpet Cleaning Soap on earth. We sell Carpets, Rugs and Portieres, and as good Furniture as is made in this country, at a reasonable price. Last but not least we are manufacturers' agents, and can sell you as cheaply as any furniture house in Chicago, Grand Rapids or Detroit, assuming all risk of breakage and placing the goods in your home. When in need of anything in our line give us a call.

MATERIAL ARRIVING.
J. Wahlman & Son Will Begin Work Today on Dwellings at Smith Mine.

J. Wahlman & Son, who some time ago received a contract from the Cleveland-Cliffs Iron company for the erection of twenty-five double dwellings at the Smith mine location, in the Swanzy district, will send men and teams down there today, to begin unloading the first consignment of material. When the contract was awarded the firm expected to begin work within a week or two, but there has been an unexpected delay in the shipment of material, also the completion of the street survey, at the site. It will require fifty carloads of lumber to complete the twenty-five buildings and it is expected that all of this will be on the ground within from thirty to sixty days. Only one carload was received yesterday, but the firm has been assured that several more will arrive before the end of this week.

Between forty and fifty carpenters are to be employed on the job and the contractors expect to complete the last of the buildings not later than September 1. An effort will be made to finish them by the first of August. The contract is the largest that the Cleveland-Cliff company has ever awarded on this or the Swanzy range.

Wahlman & Son began work on Robert Maxwell's new dwelling, corner Maple and Ridge streets, last week. A large force of carpenters is employed and the building is already framed and boarded. It is expected that the construction work will be well advanced before Mr. Maxwell and his wife arrive home from the south, where they have spent the winter.

OLE WALSETH SELLS OUT.

Ole Walseth, who has conducted a blacksmith and wagon building business at the corner of Pearl and Second streets for the past quarter of a century, exclusive of about six years while the business was managed by others, has sold this branch of his enterprise to Mackennan & Co., who have conducted a similar business for several months past at the stand formerly occupied by John Lindberg on Pearl street. Mr. Walseth will continue his farm implement and buggy business while Mackennan & Co. will have exclusive control of all repair work in both departments, also the carriage painting. Both members of the firm are good workmen, they having been in Mr. Walseth's employ for a number of years prior to buying out Mr. Lindberg.

WOODMEN WON GAME.

In the baseball game Monday evening at Braastad's hall between the Pythian and Woodmen teams the latter won by a score of nine to two. Dave Devine, the Owl team's twirler, was in the box for the Woodmen, and it was largely due to his work that the Pythians' score was held down, as they were unable to find the ball. He had twenty strike-outs to his credit, and Harry Peterson, the Pythian twirler, had a similar number, though the latter allowed eight men to take first on balls. The Woodmen are endeavoring to get a game with the Owls.

CHAMBERLAIN'S COUGH REMEDY IS BOTH AGREEABLE AND EFFECTIVE.

Chamberlain's Cough Remedy has no superior for coughs, colds and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mrs. W. S. Delham, a merchant of Kirksville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading remedy for all throat troubles. It is especially successful in cases of croup. Children like it, and my customers who have used it will not take any other." For sale by The Stafford Drug Co.

Father says: "Say, Mother; can't you make us some more of those fine doughnuts if I will bring home a pail of Cudahy's Peacock Lard again?"

ISHPEMING IN BRIEF.

Guy St. Clair is here, to spend part of his Easter vacation.

The O. K. club will conduct a hop in the Mine Workers' hall Saturday evening of this week.

Mr. and Mrs. Oscar Salo of 11 Barn street are rejoicing over the birth of a daughter.

Saverio Belpedio yesterday purchased a dwelling owned by Nicholas Rossi at the Barnum location. The consideration was \$720.

Joe Nolan, Herbert Johnson and George Goodman are down from the Michigan College of Mines, to spend their Easter vacation.

August Henriksen will today move his meat market from the Kjesboe block to the rear of his general store on Cleveland avenue.

The convent school will close today for Easter vacation, and the public schools will close tomorrow, both reopening a week from next Monday, April 8.

William Keskeys, an old and well-known resident of Ishpeming, who has been confined to his home for the past three weeks, is reported quite ill with an attack of sciatic rheumatism.

The rally and organization meeting of the Citizens' party will be held tonight at Braastad's hall at 8 o'clock. It is likely that a second rally will be held Saturday evening.

The city is removing the ice and snow from the cross walks in the business district. Nearly all of the principal walks are now clean, but it will be some days before all of the snow on the streets is gone.

Much interest is being manifested in the political fight in the Tenth ward between the candidates for the ward offices on the opposing tickets. It is said that the Tenth has not been a very dry place for two or three days past.

Sunday School Class No. 4 will conduct an old English tea, and will also serve supper, Friday evening at the First Methodist Episcopal church. The young ladies are preparing to serve a large number. The charge will be twenty-five cents for adults and fifteen for children.

The Oliver Iron Mining company is making preparations to do extensive work on its new western Mesaba range during the coming summer. It is reported that eleven steam shovels will be in operation and that eighty new dwellings are to be erected at the Coleraine and Holman mine locations.

RHEUMATIC PAIN RELIEVED.

B. F. Crocker, Esq., now eighty-four years of age, and for twenty years justice of the peace at Martinsburg, Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and it did me lots of good." For sale by The Stafford Drug Company.

Fight for Girl's Smiles—

The sight of two young men frantically pummeling each other in the presence of a young woman, who looked on with keen interest but without evidencing the slightest excitement, was the unusual one which presented itself to several passers-by on Ogden avenue at Menominee the other evening. The combatants tore into each other at a great rate and put up the finest kind of a mill unrestricted by any rules. At its conclusion the girl calmly accepted the arm of the winner and walked away with him in the most nonchalant manner imaginable. The fight is said by those who know to have had its inception in jealousy.

Not Able to Resume School Work—

Word has been received by Superintendent F. D. Davis that Miss Alice J. Houle, principal of the high school and instructor in French, will be unable to return to Escanaba to resume her work there during this school year. Miss Houle was forced to go to her home at Negaunee a short time ago because of ill health, and it was believed that she would recover soon and would be able to resume her work by April 1. She has now been advised by her physician to give up school work temporarily and Superintendent Davis has now been advised of that fact. Miss Effie M. Griffith, instructor in English, has been made

the principal of the high school to succeed Miss Houle and has also taken the classes formerly had by the principal. Miss Mia Lyons, who has been engaged as a Sixth grade teacher at the Washington building, has been selected to aid Miss Griffith in the English and French departments temporarily until other arrangements can be made. Says Baldwin Must Pay Up—According to a decision rendered by Judge Emil Glaser F. L. Baldwin, owner and publisher of the Escanaba Journal, must make the payments agreed to by him in the contract entered into with Mrs. A. B. Chambers when the Journal plant was purchased by the former mining editor. Mr. Baldwin according to evidence introduced in court still owes \$580 on the Journal plant and which according to the contract was to be paid in installments of \$50 a month. He had refused to meet two of the installments and one of the city banks, holding the claim, brought suit to force payment. It was held by Judge Glaser that despite the evidence introduced by Baldwin tending to show that the Journal plant has been sold to him under certain alleged misrepresentations, he must comply with the terms of the contract entered into. It is understood that Baldwin will appeal the case to the circuit court.

AWNINGS.

CATARRH A UNIVERSAL BLOOD DISEASE

Catarrh is usually worse in Winter, because of the cold, damp and suddenly changing climate. Colds are contracted, and neglected and as the secretions from the different inflamed membranes are absorbed into the blood the unpleasant symptoms of the disease commence. The nostrils are stopped up and a constant dripping of mucus back into the throat keeps up a continual hacking and spitting. The patient has dull headaches, ringing noises in the ears, and often slight fever and a depressed, half-sick feeling accompanies the disease. The blood becomes so fully charged with catarrhal matter that stomach troubles are brought on, the kidneys and bladder are affected, and if the blood is not purified of the poison the lungs become diseased because of the constant passage of impure blood through them. Catarrh cannot be cured with washes, sprays, inhalations and such treatment; these cannot reach the poison-laden blood where the real cause is located, and can only give temporary relief and comfort. A disease which affects the entire blood supply as does Catarrh, must be treated with a blood purifier. S. S. S. is the best remedy for Catarrh, which has grown to be a universal disease. It goes to the bottom of the trouble, rids the blood of the catarrhal matter, reinvigorates the circulation, and cures this disgusting disease permanently. When S. S. S. has purified the blood every part of the system receives a supply of fresh, healthy blood, then the inflamed membranes heal and every symptom of Catarrh passes away. Write for our book containing information about Catarrh, and ask for any medical advice you desire. No charge is made for either.

MAYOR WINTER HEADS TICKET.

Taxpayers' Party Makes Its Nominations—Only Fight in the Third.

Mayor—J. H. Winter. Recorder—W. H. Mitchell. Treasurer—Chas. Olson. Justice of the Peace—Theophile Roy. School Inspector—E. C. Anthony. Constables—Charles Grandberg, Anthony Lavalle, Charles Vincent, John Mitchell and Charles Dahlstrom. Ward Nominations—First—Supervisor, E. Tomis; alderman, John Deacon. Second—Supervisor, Napoleon Markety; alderman, Charles Johnson. Third—Supervisor, Edward Corey; alderman, Nicholas Laughlin, Jr. Fourth—Supervisor, Joseph Barabe; alderman, C. B. Driscoll. Fifth—Supervisor, Richard Roberts; alderman, William Haggaton.

The above are the city and ward tickets put in nomination last evening by the Taxpayers' party. There was a large attendance at all the caucuses, in anticipation of a sharp contest by the opposing faction of last spring, but only in the Third ward did a fight develop. In this precinct, two ward tickets were named, Hugo Mack, the present supervisor, being nominated in opposition to Edward Corey, the choice of the Taxpayers' caucus, with Louis Villeneuve as his running mate, for alderman. The city convention was held at McDonald's Opera House. The hall was filled with voters. V. R. Townsend presided as chairman, and Frank A. Bell was secretary. The nominations were made as above given. Mayor Winter was called upon for a speech and he responded at some length, reviewing the municipal issues. His remarks were heard with entire interest. The new city committee of the party was named as follows: John E. Nelson, T. A. Thoren, Edward Corey, J. H. Rough and William Haggaton.

WOULD NOT PRESENT BILL.

Copper Country Legislator Did Not Like Complexion of Primary Fund Law.

Representative W. J. Galbraith of Calumet was asked by the advocates of a change in the method of distributing the primary fund a few days ago, to present the bill amending the law, but he refused to do so. Mr. Galbraith is said to have studied the provisions of the bill carefully, and found some things in it that did not suit him. If the changes suggested by the pensioners at the head of the movement were made the primary school money would be distributed on a basis of the number of teachers employed in each city, township and village, instead of on the basis of a per capita for each child of school age. It is claimed that the change would be beneficial to some districts and an injury to others, as the distribution of funds would not be as uniform as it is under the present system. Mr. Galbraith doubtless recognized the possibility of disagreement over the changes from certain parts of the state, and his friends contend that he was wise in refusing to present the bill.

ALL ROADS PASSABLE.

The snow is disappearing rapidly and it now appears that a much smaller expenditure than was anticipated will make the roads passable, after the breakup. Monday the big plow was used to cut down the road leading to Ishpeming, and Mr. Wilman said yesterday that slight work is being done for at least a week yet. There are no bare spots on either the Negaunee or Ishpeming end, and in places the snow is from one to two feet deep. The plow was used to good advantage and very little shoveling was necessary. This thoroughfare has been closed in unusually good condition this winter, which accounted for the little work necessary Monday. The cemetery road is also in fine condition, and the only trouble experienced this spring has been on the thoroughfare leading to the Cambria mine location. The greater part of this road is on the north side of the hill where the sun does not strike it. In places the snow is five feet deep, and Monday, when the street commissioner attempted to run the plow over it, the horses were unable to get through.

WANT A BALL TEAM.

There are a number of Negaunee fans who have not given up the idea that a good amateur team could be organized in this city, and they believe a good nine would result to liberal support here, particularly if a park is provided. A fan yesterday said that he felt sure that the Cleveland-Cliffs officials will grant the use of a plot in the Maas field for a park, to be occupied until such time as the company will want the ground for its own use. He said that an effort will soon be made to see what can be done in the matter. Some few weeks ago several Negaunee men discussed the prospects of an amateur league, with teams from Ishpeming, Marquette, Escanaba, Iron Mountain, Crystal Falls and Negaunee, but the suggestion was not taken seriously, so no attempt will be made to organize a league.

DO NOT CROWD THE SEASON.

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their coats. Then comes the wave comes of people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by The Stafford Drug Co.

"What shall we have for breakfast?" "Why Cudahy's Peacock Ham and Eggs, because they are always acceptable, especially at this season of the year." (11-27-eod)

"Let us have some Cudahy's Peacock bacon and calves liver for supper Mama." say young and old. (11-27-eod)

LIENS ARE SETTLED.

Granger Farwell Company Has Paid Claims Against Old Company in Full.

The liens placed on the property of the Marquette County Gas, Light & Traction company by two individuals and two corporations, a short time before that concern went into the hands of a receiver have been settled in full by the Granger Farwell company. The attorneys representing the plaintiffs have waived interest and costs, and it is said that the settlement was satisfactory to all people concerned. The total amount of the claims was \$6,100, of which \$1,200 represented the lien of Henry Hallam, who built the coal trestle; \$2,300 the Superior Lumber company; \$2,000 the Consolidated Fuel & Lumber company, and \$600 the claim of Martin W. Sweder.

The settlement was not pending more than a week when the agreement was reached. It was conceded that both sides had a fighting chance to win in the courts, but the policy of the Granger Farwell company is to obtain the confidence of the people, so it was desirous of settling the matter. The Granger Farwell company has also settled in full the back taxes of the old concern, due both Negaunee and Ishpeming. The total sum paid over was about \$2,500, over \$1,300 of which went to the Negaunee treasury. Neither city made any particular effort to collect the taxes, the payment having been made voluntarily by the Granger Farwell company. For a time the officials of both cities were inclined to be antagonistic to the Marquette County Gas & Electric company, but since the Granger Farwell people have assumed control that feeling has been entirely wiped out and a very friendly attitude is now manifested by the residents of both towns. The people are disposed to aid the company in every way possible, and now that the new cars, which have been so badly needed, are here, it is generally predicted that the business of the railway will increase all the way from 25 to 50 per cent.

That the Granger Farwell company is disposed to treat its patrons justly and is desirous of building up its business is evident from the work that has been done at the gas plant since it has obtained control. The gas has at times contained sulphur, and since Mr. McCormick has taken charge he has spared no effort to ascertain what the trouble was. Experts were employed to examine the works and they found that a new purifier was needed. This, together with some other equipment, was immediately purchased. The purifier was installed Monday of this week.

HAVE RESUMED WORK.

Joseph Barabe has been advised by his uncle that operations have been resumed at the Barabe copper mine at Melen, Wis. The weather was so unfavorable in December that it was thought advisable to suspend operations until spring, but Mr. Barabe is informed that work will be pushed with a large force this coming summer. A shaft is to be sunk and as the ore deposits are near surface the mine should be in condition for drifting with a few months. A considerable quantity of ore has been taken out of the present pits, but these were not operated systematically. A number of the people purchased stock in the company last year, shortly after the company was organized. No effort has been made to dispose of the stock during the period the mine has been inactive.

OLD RESIDENT DIES.

John Brown, a resident of Negaunee for the past forty years, died yesterday afternoon. He had been in poor health for over two years past, during which time he had been unable to work. He was seventy-seven years of age and is survived by four daughters and one son, all of whom live in this city, his wife having died about seven years ago. Funeral arrangements have not yet been completed, though the obsequies will likely be held tomorrow morning at 1 o'clock from St. Paul's church.

CELEBRATE AT MARQUETTE.

The Negaunee French society will celebrate Midsummer day at Marquette, an invitation from the Marquette lodge having been accepted at the last regular meeting. A committee will be named at the next meeting to engage a band and to make other arrangements. The Ish-

For Coughs and COLDS

Nearly all other Cough Cures are constipating, especially those containing opiate. Kennedy's Laxative Cough Syrup moves the bowels. Contains no opiates.

Kennedy's Laxative Cough Syrup

CONTAINS HONEY AND TAR.

"A cold or a Cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For want of moisture the bowels become dry and hard." Kennedy's Laxative Cough Syrup relieves Colds by working them out of the system through a copious action of the bowels.

Conforms to National PURE FOOD & DRUG LAW

THE PEOPLE'S DRUG STORE, Marquette, Ishpeming.

peering lodge has also decided to celebrate at the Queen City, and it is expected that the societies at Champion and Republic will join in. The visiting lodges will assemble at Marquette in the morning and will attend mass in the new French church.

LOCAL LAONICS.

C. B. Ulrich of Hancock spent yesterday in Negaunee.

Peter Varelino yesterday purchased William Ayers' residence property on Peck street and will occupy it as soon as Mr. Ayers' family vacates.

Mrs. Louis Miller left Monday evening for Tecumseh, Mich., on a visit to her daughter, Miss Louise, who is instructor of music in the public schools there.

Wilfred Beauchie, L. Girard and two or three other Little Lake people, attended the funeral of the late James Legault in this city yesterday morning.

The new street cars for the local traction system attracted attention here yesterday, they having arrived about 8 o'clock. The unloading of the trucks was started yesterday and it is expected that the unloading of the bodies of the cars can be commenced today.

Joseph Richardson, who spent the greater part of last summer at his home in the Goose Lake district, expects to look over the place within the next few days. He and A. C. Seass will probably go down Monday to vote, but they will not visit the homesteads unless the roads are in good condition.

H. J. Peterson, who on Monday established a ladies' tailoring and dressmaking parlors in the Neeley block, with Mrs. H. V. Johnson, late of Milwaukee in charge, will have neat quarters. Mrs. Johnson has been busy ever since her arrival and a large number of orders have already been received.

Louis Miller is still suffering from the injury he received to his right arm in the wreck on the Rock Island system, while returning from Hot Springs, Ark. It will be some time before he will have the complete use of his hand and arm. Since returning home Mr. Miller has received a letter from the officials of the company asking him to give them full particulars as to the extent of his injuries.

CURE FOR DRUNKENNESS.

Orrine Treatment is to be Used at Home Without Publicity, or Loss of Time from Business.

Thousands of persons who really want to quit the use of whiskey or beer, realize that they cannot do so without medical help, yet they can not afford the time or perhaps the money to go to a sanatorium. Happily a new cure for drunkenness has been discovered which is to be taken at home and costs less than the average drinker will spend in a day for drinks.

In using Orrine there is absolutely no publicity, as the remedy is sold by the leading druggists in nearly every city and town, or it can be sent by mail. Sure relief is positive when Orrine is used. So uniformly successful is this treatment that in every box is a registered guarantee which entitles you to a refund of your money if Orrine fails to effect a cure.

Orrine is in two forms, No. 1, a secret remedy, absolutely tasteless and odorless which can be given in food or drink without the patient's knowledge; No. 2, in pill form for those who wish to be cured. The price of either form is \$1 a box. Send to The Orrine Co., Washington, D. C. for free booklet and consultation blank.

The desire for liquor is soon destroyed after Orrine treatment is commenced, and before long the patient is freed from the terrible drink craving, and the drink will not be missed.

Orrine is for sale by The Stafford Drug Co.

All manufacturers and mine owners contemplating doing any roof-work either Gravel or Felt, or repairing and coating the old metal or felt roofs, will do well to write to the Enamel Roof Paint and Roofing Co., 169 Deming St., Kenosha, Wis. They will be in the copper county this spring. (3-7-2m-6m)

Used in millions of homes

CALUMET BAKING POWDER

It is put up under the supervision of a competent chemist, from the finest material possible to select, insuring the user light, wholesome, easily digested food. Therefore, CALUMET is recommended by leading physicians and chemists.

Perfect in Quality Economical in Use Moderate in Price

Calumet is so carefully and scientifically prepared that the neutralization of the ingredients is absolutely perfect. Therefore, Calumet leaves no Rochelle Salts or Alum in the food. It is chemically correct. For your stomach's sake use Calumet. For economy's sake buy Calumet.

\$1,000.00 given for any substance injurious to health found in Calumet.

Ladies' Tailoring and Dressmaking

I have engaged Mrs. H. V. Johnson of Milwaukee, who has had many years experience as a ladies' tailor and dressmaker, and will conduct parlors on the second floor of the Neeley block, where Mrs. Johnson will be pleased to receive callers. Rooms will be open for business Monday morning, March 25.

Wood and Building Material

Kelley Island lime, gypsum and wood shavings; hard plaster and hard finish plaster, plaster paris, plastering hair; steel plates for plastered corners; fire clay; Atlas cement; Lake Shore sand, red brick; sewer pipe, drain tile; best Fibrecrete building paper; dry stove wood, hard and soft. Do everything and farm work and general teaming; clay and loam soil furnished to order. Receipts and horses for sale and houses for rent.

Geo. E. French, 302 Division C., Marquette, Mich. Bell phone 154. County phone 117.

Are You Going to Build This Spring?

Do you know lumber is higher and poorer than ever before?

THE ANCHOR CEMENT BLOCK meets the building problem fully. It is economical, everlasting, very warm, saves fuel, requires no paint, looks good, unlike wood it does not rot with age but gets harder and stronger. Anchor Cement Blocks make a perfect fireproof wall as plastering can be put direct on the block without furring and lathing. Our Cement Chimney Blocks and Pore Column Blocks cannot be beat by any other masonry construction. We refer you to the Dawson residence, Fifth Street, built with Anchor Blocks last season.

MITCHELL & SHERMAN, Ishpeming, Michigan.

Wahlman & Son Contract for Buildings using Anchor Block.

COMMISSIONERS HAVE A PROBLEM

WRESTLING WITH ARRANGEMENT OF TICKETS ON THE ABBOTT VOTING MACHINES.

TO MEET AGA'N TODAY

State Ticket May Be Voted on Machines and City on Regular Ballots, or Vice Versa—Decision Awaited With Interest.

The board of election commissioners, F. M. Moore, Joseph Fay and Lester Clark, met yesterday afternoon and took up the work of arranging the ticket in the voting machines for the election next Monday. After a two hours' session the meeting was adjourned until this morning at 10:30.

The commissioners have a problem before them, the solving of which is no light task. To be voted for at the coming election there are five state tickets, two city tickets, three amendments to the constitution, the question of giving the water board authority to bond for \$75,000 and the question of purchasing voting machines. It has already been decided that these latter two questions will not be voted on the machine, but separate ballots will be used. The commissioners are now considering whether or not ballots will be used in other cases.

Complicated Question.

On the Abbott machine there is room for seven tickets and a number of questions. The Republican state ticket is entitled to first place on the ballot, the Democrats second and so on. Under the ballot system, as used here, the state and city tickets have always been placed on separate ballots. If this plan were followed out this year, the Citizens' ticket would occupy first place on the ballot. But the commissioners must decide where to place the city tickets on the machines so that neither will have any advantage from their position in regard to the state tickets.

This suggestion was made that the two leading tickets be placed one under the other. This would put the Republican state ticket and the Citizens' city ticket in the same column, and in bringing the Republican party head into the voting column the voter would also bring the Citizens' ticket into that column. Then to vote the People's ticket he would be compelled to move all slides bearing the names of candidates for city offices on that ticket. This brought a storm of protest from the supporters of the People's ticket. They asserted that, as the normal Republican vote in Marquette is about 80 per cent of the total vote, placing the Citizens' ticket in the same column as the Republican state ticket would give that city ticket an undue advantage, even though it were under a different party head.

May Use Same Ballots.

Then it was suggested that the city

tickets be placed in separate columns from the state tickets, so that all slides for either the state or the city ticket would have to be moved by the voter before he could arrange his full ticket.

The proposition to vote either the state or city tickets on the regular Australian ballots was generally discussed yesterday. By doing this the machines could be tested, and all danger of complications remedied. The matter, however, is up to the election commissioners and their solution of it will be awaited with interest by the different candidates and their friends.

The protest of some Second ward voters against the conduct of the People's caucus in that ward Monday night is also before the election commissioners. After the regular caucus in the Second ward Monday night a second caucus was organized, and Alfred Fleury and Michael Hennessy were nominated for supervisor and alderman, respectively, in opposition to the candidates on the Citizens' ticket, who were endorsed by the first caucus. The commissioners have been asked to decide whether or not the nominations made by the dissenting caucus will have a place on the People's ticket.

Machines at Polling Places.

E. D. Clark, who has charge of the campaign of education into the workings of the Abbott voting machine, yesterday prepared to take up the work just as soon as the board of election commissioners decide upon the arrangement of the ticket. Yesterday the five Abbott machines, which arrived here last Saturday and which had since been in the express office, were distributed to the polling places in the several wards. As soon as the tickets have been arranged, the names will be printed and placed on the machines in the order they will occupy election day. A man will then be placed in charge of each machine and he will be at the polling place in each ward every day and evening for the remainder of the week to instruct voters. It is thought that there will be ample time between all today and election day to instruct all voters, so that everybody should be able to vote without hesitation Monday.

There are many tonics in the land As by the papers you can see, But none of them can equal Hollister's Rocky Mountain Tea. —The Stafford Drug Co.

CARPETS CLEANED NOW.

The Marquette Steam laundry's carpet wheel is now installed in the building erected especially to accommodate the machine, and it is ready for business. Orders for carpet cleaning are solicited. Carpets sent in for renovation can be returned, cleaned spick and span, the same day. (3-21-1f)

SPECIAL NOTICE.

We will sell you whatever you need in the line of furniture, carpets and rugs at exactly the same prices and terms as you get from any Catalogue house in the city of Grand Rapids, Chicago or Milwaukee. We deliver goods in your home and save you breakage and cost of handling. We represent the same factories as the Grand Rapids Catalogue houses do, and we are on the ground to make good any errors. Give us your orders instead of sending away. You will not regret it. Bring Catalogues with you. HAGER BROS. CO. LTD. (3-16-1f)

WANTS TO FIGHT GREAT WHITE PLAGUE

DR. F. M'D. HARKIN WILL BROACH SUBJECT TO BOARD OF SUPERVISORS AT MEETING TODAY.

A regular meeting of the county board of supervisors will be held at the court house today at 11 o'clock, and is expected to be of more than usual interest, on account of a novel proposition which is to be submitted by Dr. F. M'D. Harkin. Dr. Harkin is the upper peninsula member of the state committee conducting a campaign against tuberculosis, and he will make some suggestions to the supervisors as to the part Marquette county ought to take in the campaign against the "great white plague."

At a meeting of the county medical society Monday night at the Marquette club the subject of tuberculosis was thoroughly covered by Dr. Barnett of Ishpeming and by Dr. Harkin. The meeting was attended by a number of the members of the board of supervisors, and they showed a deep interest in the facts and figures presented.

Dr. Harkin will speak to the supervisors today with special reference to the sanitarium treatment of the disease. The committee having charge of the crusade against tuberculosis is working for the establishment of sanitariums in every center of population and Dr. Harkin will advocate the establishing of such an institution, either for Marquette county alone, jointly with other neighboring counties, or for the whole upper peninsula.

The state committee contends that tuberculosis is not the incurable disease it was thought to be for many years, but that with scientific treatment it can be absolutely cured. This treatment can be given in sanitariums, and the committee has been very successful in causing the aid of the civic authorities in its work. Dr. Harkin will today present the figures and facts upon which the crusade is based, and urge some steps on the part of Marquette county in battling against the disease.

AWNINGS.

The Kelly Hardware Co. can furnish you with awnings for stores, public buildings or residences. Any size. KELLY HARDWARE CO., Marquette. (3-27-1f)

\$2.50 SAVED.

By using Pea Coal at \$5.00 per ton. Just the thing for this mild weather in your furnace or range. A trial will convince you. Jas. Pickands & Co. Ltd. Both Phones No. 90. (3-22-1f)

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine. Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25 cents.

POLARIS MINERAL WATER delivered to any part of the city in sterilized one-gallon bottles. Telephone, Bell No. 217. Polaris Water Co., Marquette.

IT'S HIGH TIME FOR LIGHTER OVERCOATS

Never mind the weather. These spasmodic cold rains and winds can't continue much longer. The sun is too high for any severe cold and a Top-Coat, Rain Coat or any style of Spring Overcoat will be ample protection against any weather that may come. At any rate now is a good time to look over the most complete display of Spring Overcoats this store has ever essayed.

Prices range, \$10-\$30

Carpets, Rugs, Linoleums

Your opportunity to buy at figures way under the market value is present.

We are taking orders for room, hall or stair Carpets now. We measure, cut, fit and sew them, and store them until called for. We only require a deposit of 25 per cent with order. Every day from now on business will increase in our big Carpet and Rug departments in basement. Owing to the limited amount of available help of experience in this line we are delayed in getting out work during the busy season. Make your selections now and your purchase will be ready to deliver any day that you may desire.

We save you over 50 per cent

On your purchases from three big carloads salvage stock, and the Carpeting and Rugs are perfect; if not, still greater reductions are made. By actual comparison recently made by a customer who sent for samples from a large Chicago store, the following facts were discovered:

7 Wire Tapestry Carpets; Priced by Chicago Stores at 87 1-2c; our price 57 1-2c

8 Wire Tapestry Carpets; Priced by Chicago Stores at 98c; our price 62 1-2c

According to above we do not doubt that our 10 wire Tapestry at 80c would cost \$1.25 in Chicago, and our best Body Brussels and Velvets at \$1.15 would cost at least \$1.75 in any large city retail store. Remember, we are quoting prices on perfect goods; not damaged in the least. We are ready to save you money on Rugs and Linoleums. Hundreds of styles to choose from.
