

PRESIDENT ISSUES PUBLIC LETTER

Says With Reference to Corporations and the Financial Situation That He Stands by His Previously Expressed Views.

He Outlines Again His Wellknown Advocacy of Effective Supervision by the Government to Insure to All Interests a Square Deal, and Declares That When in the Right the Railroads Must Be Protected from Any Clamor, No Matter How Violent.

Washington, April 1.—President Roosevelt, in declining the invitation of the Illinois Manufacturers' association to make an address at a singed next week on the railroad and financial situation, wrote a letter to C. H. Smith, president of the association, explaining that such an address from him at this time would be useless, as his position was well understood, and as he stands by his previously expressed views.

The president outlines at length his position on the railroad and financial question by means of copious extracts from the speeches he delivered at Raleigh, N. C., and Washington in October and November, 1905, and from his late messages to congress. His position since the time of his addresses and messages, the president declares, has been amply justified by the course of events. His wisdom is obvious, he adds, and there is no occasion or reason for amplification at present.

The president calls attention to his belief that the government should own nothing which can properly be left in private hands, but that such regulations should be exercised against the railroads as to insure their operation in a spirit of fairness to all concerned.

Whatever power the government yields must be with wisdom, caution and self-restraint. The railroads, he declares, must be protected from any public clamor, but that such regulations should be exercised against the railroads as to insure their operation in a spirit of fairness to all concerned.

The president outlines again his well-known views favoring effective government supervision over corporate organizations, holding that any effort to prevent all combination would be useless and vicious. He also justifies the new interstate commerce commission law.

Denies Blame for "Panics." "Point to one word of mine, or one act, legislative or administrative of the national government, which has been the responsibility for the present situation which is attached directly or indirectly, is a challenge with which the president has greeted more than one of the men who have come to him recently with a plea that he restore public confidence. This point the president has strongly emphasized and none of his callers has been able to give him the slightest proof that he or any of his acts can be blamed for the present business anxiety.

Two years ago the railroads were arrayed in solid and marked out. To the railroad presidents who came to see him at that time Mr. Roosevelt said frankly: "You are committing an act of folly." He expressed his belief that the best possible thing for the honest railroad men as well as for the honest investors was the extension and perfection of the system to be inaugurated by the rate law. To the bankers and railway presidents who have seen him recently he has repeated this and reiterated his intention of strengthening if possible the law at the next session of congress so as to make it even more effective than it is today.

Not Attacking Capital. The president has repeated also his determination not to deviate one inch from the course he has marked out. To the various bankers and railway men who have been recent visitors at the White House, the president declared that he has never seen more foolish and hysterical speeches and acts than those of the so-called industrial leaders during the last few months. At one moment they have cried: "The president is usurping the rights of the state" and almost the next day they are being to Washington panic stricken to beg the president to make some public utterance forbidding the states to precisely do what they themselves have declared the states alone had the power to do. This utter lack of consistency has not been lost upon the president nor does he believe that some of the men who have talked to him have been wholly honest with him. The president does not think that all of these men really believe what they said when they told him that he was responsible for the present condition of the market. They have appealed to him in vague terms but none of them have offered definite and clear suggestions.

It cannot be stated too emphatically that the president has not the slightest desire to "tackle the panic." Blessed as he is with a confidence in his own powers, he has not permitted himself to be persuaded into the belief that he can give reassurance and ease to the financial markets of the world by speaking some magic word of his own devising. Not without bitterness and with great indignation the president has denied and will continue to deny that he is making any recovery will take several months, but it is the opinion of the doctors that ultimately he will regain his health.

BIG MAJORITY IN MICHIGAN

Republican Candidates for State Offices Lead the Nominees on the Opposition Tickets by Some Seventy-Five Thousand Votes.

Democrats Are Successful in Electing Mayors at Kalamazoo and Bay City, but They Are Snowed Under at Jackson—Contest Is Close at Grand Rapids for the Congressional Nomination, With Indications That Diekmann Leads by a Small Margin.

Two-Cent Fares in Gopher State

JOINT LEGISLATIVE COMMITTEE REJECTS COMPROMISE SUBMITTED BY THE RAILROADS.

St. Paul, Minn., April 1.—An offer of compromise by the railroads, which had been heralded as a panacea for all the traffic ills for which the legislature has been seeking a solution, was submitted to the joint legislative committee to-night, and was rejected. The committee declared that the enactment of a two-cent passenger rate law and no compromise on the freight rate reductions ordered last December by the state railroad and warehouse commission would be the plan recommended by it to the legislature to-morrow.

Public Debt Reduced. Cut \$11,538,000 in March—Surplus for Nine Months Is \$51,200,000.

Washington, April 1.—The monthly statement of the public debt shows that the debt, less the cash in the treasury, is \$909,106,566, a decrease, as compared with March 1, of \$11,538,288.

IS BLOW DEALT COMMERCE. President Decries the Defeat of the Ship Subsidy Bill.

Omaha, April 1.—Congressman E. M. Steward has received a letter from President Roosevelt, thanking him for his support of the ship subsidy bill, congratulating him and other Western congressmen for taking a broad and patriotic view of the situation and deprecating the defeat of the bill as a serious injury to the commercial interests of the United States.

RAISES TELEGRAPH RATES. Postal Company Follows the Action of the Western Union.

New York, April 1.—Charles P. Brush, assistant general manager of the Postal Telegraph company, was quoted today as stating that the company has raised its rates, practically to the same basis as recently announced by the Western Union. Mr. Brush said that the increase was caused entirely by the increased cost of maintenance.

CHARGES NOT DISPUTED. Secretary of Church and School Furniture Trust Acknowledges Guilt.

Chicago, April 1.—F. A. Holbrook, secretary of the combination in school and church furniture, who recently was indicted by the federal grand jury on the charge of acting in restraint of trade, today entered a plea of guilty. Sentence was deferred. Pleas of nolo contendere were entered by the various companies indicted at the same time.

PENDING COURT'S DECISION. Annual Meeting of the Osceola Company Is Further Adjourned.

Boston, April 1.—The adjourned annual meeting of the Osceola Consolidated Mining company was scheduled for today. A further adjournment was taken until April 16, pending the decision of the United States courts in the Osceola-Calamet & Hecla injunction proceedings.

MANSFIELD MUCH IMPROVED. New York, April 1.—After a conference of the physicians in attendance upon Richard Mansfield, Manager Stevens said today that they had reported Mr. Mansfield considerably improved. He is yet a very sick man, however, and full recovery will take several months, but it is the opinion of the doctors that ultimately he will regain his health.

ROYAL COUPLE IN PERIL. German Crown Prince and Princess Figure in an Exciting Runaway.

Berlin, April 1.—Crown Prince Frederick William and the crown princess had a narrow escape from an accident today while driving home in a dog cart from a visit to Prince Eitel Frederick. The horse took fright at an automobile, and bolted. For some distance the animal ran madly, but with the assistance and passersby the crown prince finally gained control near the Brandenburger gate. Neither of the occupants of the dog cart were hurt.

EARTHQUAKE SEVERE. Many Persons Reported Killed at Bitlis, Turkish Armenia.

Constantinople, April 1.—A report that a severe earthquake accompanied by much loss of life, has occurred at Bitlis, Turkish Armenia, appears to be confirmed, but the number of deaths is unknown.

ALL QUIET IN MOROCCO. Lalla Marina, Algeria, April 1.—In view of the satisfactory conditions prevailing in the Oudja region, General Lianley, commander of the French column of occupation, has decided to turn over the command of Oudja to General Delameau, and return to his regular duties at Oudja. He will leave Oudja to-morrow. The Bedouin tribesmen, who are encamped in the Oudja district, have expressed their satisfaction with the French occupation.

BLOODY RAID IN SERBIA. Belgrade, Serbia, April 1.—It is reported that a band of Bulgarians has attacked the Serbian towns of Rudnik and Topolcha, burning thirty houses, killing seven men and mauling a number of women and children.

PROMISES CARDINAL FOR UNITED STATES. RED HAT WILL COME THIS WAY LATER ON, THE PONTIFF IS QUOTED AS SAYING.

Rome, April 1.—The disappointment of a large number of Americans over the fact that there is not an American among the prelates to be created cardinal at the consistory of April 15 has been brought to the attention of the pope, who said today in this connection: "Let them have patience; they will be satisfied later. The number of red hats is limited, while the candidates are many."

NATIONS CLOSELY KNITTED. Italy and Germany United in Interest of Peace, Proclaims Von Buelow.

Rome, April 1.—The Giornale D'Italia publishes an interview with Prince von Buelow, the German imperial chancellor, who had a long conference yesterday with Foreign Minister Tittoni at Rapallo, in which the prince said: "Italy and Germany are bound to solid friendship. Their alliance serves admirably to maintain peace and preserve the territorial status quo in Europe. The two countries have no conflicting interests, while their mutual interests serve to unite them more closely."

Question of Disarmament. Rome, April 1.—In an interview today on the approaching peace conference at The Hague, Foreign Minister Tittoni said: "The agreement with Germany is complete. Although in favor of discussing the question of disarmament at The Hague, Italy never meant to give advance support to the idea. Germany also is in favor of discussing disarmament, but she is more skeptical than Italy. It is not true that Germany has refused to participate in The Hague conference because of the question of disarmament. Continuing Signor Tittoni intimated that Italy might exercise a sort of mediation in the lack of understanding between Great Britain and Germany regarding disarmament."

CENTRAL AMERICAN FIGHT. Honduran Port of Livingston Captured by Nicaraguan Forces.

New Orleans, April 1.—The capture of Port Livingston, Honduras, by the Nicaraguans was reported today. The steamer Harry T. Inge, which arrived here today from Central American ports. Four Honduran soldiers are reported killed. The defeated garrison numbered about 200. No details about the attacking force were obtained. The capture was made March 29. The following day the Hondurans, with about 100 reinforcements, made an unsuccessful attempt to recapture the port.

MEXICAN CONGRESS OPENS. Mexico City, April 1.—President Diaz tonight opened congress with a message dealing with commercial, industrial and financial questions, with appropriate recommendations.

FIVE PASSENGERS EADLY HURT. Street Car at South Omaha Dashes Into a Stone Wall.

Omaha, April 1.—A heavily loaded street car jumped the track near the corner of Twentieth and L streets, at South Omaha, tonight and dashed into a stone wall. Five passengers were seriously injured, one of whom—O. J. Norris, of South Omaha—will die. More than a score of others were hurt.

HAYWOOD'S TRIAL IN MAY. Boise, Idaho, April 1.—The trial of Haywood, one of the officers of the Western Federation of Miners, for conspiracy in the assassination of former Governor Steunenberg, was today set for May 9.

CHICAGO TO CAST TREMENDOUS VOTE

As Heavy a Ballot as a Presidential Contest Would Bring Out Is Expected to Be Polled in Today's Municipal Election.

Campaign Has Been the Most Spirited in the City's History, and It Closes With Both Parties Holding Scores of Meetings—Street Car Question, Now Up for Ten Years, Is in the Balance, Hinging on the Success of the Republican Ticket.

Chicago, April 1.—Chicago's street car question, which has been before the public for ten years, will be settled at the polls tomorrow at the mayoralty election, if the voters adopt by referendum vote the ordinance recently passed by the city council over Mayor Dunne's vote, granting twenty-year franchises to the street car companies. If these ordinances fail of public adoption, and Mayor Dunne, the Democratic candidate, is re-elected, efforts will be made at once, according to Mr. Dunne, to procure the immediate municipal ownership of the street railways.

The ordinances before the people provide that the city, on six months' notice, may acquire the street railway systems for \$50,000,000, plus the cost of rehabilitation, which is to be undertaken immediately under the supervision of the city engineer. The ordinances also provide for through routes, universal transfers, five-cent fares and the payment to the city of 55 per cent of net income. The books of the companies are to be open to the city officials.

Several non-partisan organizations have worked with the Republicans, who are supporting Postmaster Bussie for mayor, to procure the adoption of the ordinance, and the prediction was made tonight by the heads of these independent bodies that the ordinance will be adopted tomorrow. Mayor Dunne believes that the people want immediate municipal ownership, and that they will re-elect him and reject the ordinance.

The campaign, which closed tonight with both parties holding scores of meetings all over the city, has been the most spirited fight for mayor that has ever taken place in this city. As heavy a ballot as a presidential election would bring out is looked for.

HUGHES MAY TURN TO PEOPLE. Governor Resists the Amendment of the Utilities' Bill.

Albany, N. Y., April 1.—Friends of Governor Hughes announce that if the corporations succeed in amending the public utilities bill in respect to broader court review the governor will veto the bill and appeal directly to the people of the state without regard to party on the issues presented in his bill. Following this the governor is said to contemplate calling an extra session of the legislature to pass the original bill or else letting the matter stand open until the next session and then putting it up to the Republican party in the state and nation whether it will surrender this issue to Bryan and Hearst on the eve of a national campaign, or accept the bill that public sentiment demands. Those in the governor's confidence declared that his recent policy of silence is about at an end. That he has lost his patience at the fashion his party in the legislature has treated him is manifest and it is a matter of common knowledge that he is now ready to make the fight without the party if necessary. He feels that his obligation to his party ended when he had offered them a method of gaining public confidence by supporting his measures but his obligation to the people to pass this legislation continues and to the people he is now expected to appeal.

EVADe MICHIGAN TAX LAW. Citizens of Wolverine State Invest Money in Indiana Mortgages.

South Bend, Ind., April 1.—Moneyed men of Michigan, it has been discovered, are investing their money in Indiana for the purpose of escaping the taxation laws of the Wolverine state. This fact developed with the visit of Charles Metcalf of the Michigan tax board, who is now in Indiana on an investigation tour. He states that in South Bend he found investments of \$500,000 secured by mortgage. At Valparaiso he found \$250,000 and at Elkhart he discovered \$250,000. The state will begin action to collect taxes on these amounts.

ON WHITE HOUSE GROUNDS. Juvenile Washington Enjoys the Annual Egg Rolling Festival.

Washington, April 1.—Juvenile Washington in considerable numbers, attended by parents, friends and nurses, indulged in the annual egg rolling festival on the White House grounds today. Mrs. Roosevelt and the children were interested observers from the south windows of the White House of the pastimes of the children.

TRAINS CRASH TOGETHER. Six Employees of the Katy Railroad Die in a Wreck in Texas.

Fort Worth, Tex., April 1.—Six trainmen were killed in a head-on collision between two freight trains on the Missouri, Kansas & Texas railroad, six miles south of here, today. The failure of the northbound train to receive orders is said to have been responsible for the wreck.

BIG STEEL WORKS FOR ZENITH CITY

STEEL CORPORATION TO BUILD A PLANT AT DULUTH TO COST FIVE OR SIX MILLIONS.

St. Paul, April 1.—Word was received here tonight that the United States Steel corporation has definitely decided to establish an iron and steel plant at Duluth. The plant will probably involve an investment of five or six million dollars.

HOTEL SOON IN RUINS. Fire Alarm Ignored on Supposition It Was Only an April Fool Joke.

Kent, O., April 1.—Because everyone in the village regarded an alarm of fire turned in as only an April fool joke, the Sprey House, a local hotel, was destroyed early today. No one responded to the alarm, and the house was soon in ruins.

WAS TO BE TRIED TODAY. Minnesota Man, Accused of Misappropriating Funds, Shoots Himself.

St. Peter, Minn., April 1.—On the eve of his trial on the charge of misappropriating funds of the county, G. A. Blomberg, Jr., a former clerk of court of Nicollet county, shot himself in the head here today. He cannot recover.

BANKER GOES TO PRISON. Accepted Deposits When He Knew Failure Was Near.

Warsaw, April 1.—Major Harvey W. Salmon, one of the owners of the Salmon & Salmon bank, which failed at Clinton, Mo., June 21, 1905, with liabilities of one million dollars, was convicted tonight on the charge of grand larceny, based upon the allegation that he had received deposits when he knew that the bank was in a failing condition. His punishment was fixed at three years in the penitentiary.

THAW JURORS WANT MORE PAY

ASK \$5 A DAY, INSTEAD OF THE CUSTOMARY \$2—PROCEEDINGS OFF UNTIL THURSDAY.

New York, April 1.—When the jury in the Thaw case was called before the court today, Justice Fitzgerald again adjourned the trial, this time until Thursday morning. The jury commission will meet tomorrow and it is expected it will be ready to report on Thursday.

When Mrs. Evelyn Thaw made her daily visit to her husband in the Tombs today, she was met by a process server, who handed her a subpoena directing her to appear before the lunacy commission tomorrow. Mr. Jerome declined to make known his purpose in calling Mrs. Thaw. The members of the Thaw jury have drawn up a petition to Justice Fitzgerald, asking him to allow them \$5 a day for jury services, instead of the customary allowance of \$2. Their action is based on instances in which the courts have made a similar increase in the jury's allowance after a case has been extended to unusual length.

APPEALS TO SUPREME COURT. Ex-Boss Reef Asks Freedom from the Custody of Elmer Biggy.

San Francisco, April 1.—On the eve of his trial on the charge of extorting \$28,000 from French restaurant keepers in this city, which is to begin tomorrow morning before Judge Dunne in the superior court, Abraham Reef today asked the supreme court of California to free him from the custody of Elmer Biggy and order him into the charge of the sheriff, whom Judge Dunne disqualified on the ground of personal interest.

Reef by his attorneys filed in the high court an application for habeas corpus so extensive in its allegations, arguments and citations of authorities, that it occupies twenty-one typewritten pages and embraces sixty-two subdivisions, setting out in detail various occurrences declared by Reef to be contrary to law.

TAKES TWO STRAIGHT FALLS. Wrestler Frank Gotch Defeats Farmer Burns in Match at Chicago.

Chicago, April 1.—Frank Gotch defeated Farmer Burns here tonight at catch-as-catch-can wrestling in two straight falls. It took Gotch twenty minutes and five seconds to secure the first fall, and seven minutes and thirty seconds the second.

EASY VICTORY FOR MARVIN HART. Hot Spring, Ark., April 1.—Peter Maher, one time aspirant to the heavyweight championship honors, was knocked out tonight by Marvin Hart, of Louisville, in the second round of a scheduled twenty-round bout.

COSTLY FIRE AT THE ISTHMUS. Cold Storage House Damaged to the Extent of Several Hundred Thousand.

Colon, April 1.—The cold storage establishment at Mount Hope, one of the largest and most valuable on the isthmus, was almost completely destroyed by fire this afternoon. The loss is several hundred thousand dollars. The building was filled with a large variety of food stuffs and other property.

SHIPMENTS OF ARKANSAS STRAWBERRIES BEGINS. Van Buren, Ark., April 1.—Never in the history of the fruit industry in Crawford county has there been such encouraging prospects for a full crop of all kinds of fruits as growers are now feeling. The shipment of strawberries has begun in a small way, and by April 5 they will be shipping in train loads, showing the season to be at least three weeks earlier this year than ever before.

No danger of frost is felt here, notwithstanding the early season and the only fear felt now is that they will not be able to secure pickers enough to pick the crop. Promising as the berry crop is, the elberta peach crop promises to break all records. Fully a half million trees will bear their first crop this year, and as even the oldest trees are still vigorous and heavily fruited, with favorable conditions for maturing and marketing, the peach crop of Crawford county alone is estimated at 700 carloads.

TRAINMEN REDUCE THEIR DEMANDS

Western Railroad Employes Will Accept the General Managers' Proposed Wage Increase if Granted Nine-Hour Work Day.

Locomotive Firemen, Although Acting Independently, Stand Out for Similar Terms, and They, too, Will Walk Out in the Event of the Declaration of a Strike—Federal Commissioners Still in Chicago Working Hard to Bring About an Adjustment.

Chicago, April 1.—The trainmen on the Western railroads have reduced their demands to a nine-hour work day, and the government officials who came to Chicago last week to bring about a peaceable adjustment of the threatened strike, are working hard to overcome that obstacle.

Commissioners Knapp and Neill had almost a continuous session today with the general managers and representatives of the trainmen and conductors. The men signified their willingness to accept the wage increase offered by the railroads if the managers would grant the demand for a nine-hour work day. It was learned tonight that the nine-hour demand of the locomotive firemen is what has prevented a settlement of that end of the labor difficulties the Western roads are experiencing. While acting separately, from the conductors and trainmen, the firemen are standing out for the same demands, and it is said that in the event of a strike being ordered they, too, would walk out.

Brewery Strike Unchanged. St. Louis, April 1.—At a conference between the union officials and the brewers tonight, no agreement was reached, but both sides expressed the belief a settlement would be effected tomorrow.

FORMER SPEAKER OF THE HOUSE. Galusha Grow, Dead in Pennsylvania, Father of Homestead Act.

Glenwood, Pa., April 1.—The death of Galusha A. Grow, elected a member of congress in 1851, former speaker of the house and father of the homestead act, which occurred at his home here yesterday afternoon, was due to general breakdown attributed to old age.

Mr. Grow was elected to congress from the Wilmet district of Pennsylvania as the youngest member of that body. In 1851 and after retirement from public life for nearly forty years he recited the house of representatives as congressman at large from Pennsylvania fourteen years ago. When he retired four years ago his public service in the house extended over the longest period, although not continuous, service of any man who ever sat in that body.

During the antebellum days he was one of the best known men in the United States and in 1864 he came within one vote of being nominated for vice president in place of Andrew Johnson, who became president on the death of Abraham Lincoln.

Galusha Aaron Grow was born in Eastford, Windham county, Conn., Aug. 31, 1823. As a youth he worked on a farm during the summers and attended the common school in the winters. In 1840 he entered the freshman class at Amherst college. He was graduated in July, 1844, and took up the study of law. He was admitted to the Pennsylvania bar April 19, 1847, and three years later declined a unanimous nomination for the legislature.

He was elected a member of congress in 1850 and for six consecutive terms represented the same district. One term he was chosen by a unanimous vote. For the first three terms he was elected as a free soil democrat and the last three terms as a republican.

When the thirty-seventh congress convened in 1861 Mr. Grow was elected speaker and in that capacity had the pleasure of signing beneath President Lincoln and the president of the senate the homestead act, which had become a law mainly because of his ten years of work for it. His very first speech favored the cause of "man's right to the soil." Five times had he offered bills proposing action in this direction and each time he had been defeated. The sixth proved successful.

When flat money and greenbacks threatened to sweep the country in 1878 Mr. Grow's eloquence helped the republicans hold Pennsylvania.

In 1879 President Hayes tendered Mr. Grow the post of minister to Russia, but the offer was declined. "I prefer to serve my part at home," was Mr. Grow's decision.

One of Mr. Grow's hobbies was the care of deaf and dumb children. He was known as a good story teller.

He was chairman of the Pennsylvania state republican committee in 1868 and was president of the International and Great Northern Railroad company of Texas from 1871 to 1876. He was again elected to congress Feb. 20, 1894, at a special election to fill a vacancy caused by the death of William Lilly and was re-elected to the fifty-fourth, fifty-sixth and fifty-seventh congresses. In 1890 he had the largest plurality ever given a congressman in any state of the union. Mr. Grow was never married.

Washington, April 1.—The following is the weather bureau's forecast for Upper Michigan: Fair in our section west, Tuesday, warmer; Wednesday, fair.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., APRIL 2.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Chicago has her's today.

Rah for the new mayor.

Bumpy-bumpy-bump-bump-bump-Walter T.

In the dark, grey dawn of the morning after.

Yesterday none were found so poor as to regret the fading administration.

The new administration is off on a two years' journey. Now let us all pull together to make it a good one.

Now let our mayor-elect bear prominently in mind the fact that fool friends are worse than the most dangerous enemies.

It's getting along about time for some other crank to tell us that he is the reincarnation of Mr. Dowie, or, in other words, 'Lijah III.

About the only man having trouble in operating the voting machines yesterday was the man who had neglected the precaution of getting preliminary instructions.

The Hon. William Peters, the people's friend, is now numbered among the also-rans. We hope Representative Gordon hasn't overlooked sending a suitable message of condolence.

The issue that looms largest in Chicago today is whether the voters prefer home rule, or the paternal government of Mr. William Randolph Hearst, political buccaner of New York.

The Escanaba school board has decreed that the privileges of the high school shall be denied boys who are cigarette smokers or who carry the taint of liquor on their breath. Escanaba appears to be the only upper peninsula town that has ever found it necessary to take such radical action.

It remained for a writer in McClure's to tell us how bad Chicago is. And according to the aforesaid writer the brewers are in large measure to blame. To pay dividends on large capitalizations they keep the city beer-soaked by unduly multiplying saloons. Consequently Chicago's beer bill is all too large, and its per capita consumption of the amber fluid quite astonishing. The writer in McClure's brings home with a new force the truth that there is a brewery behind nine-tenths of the saloons and that in everything but name the breweries are our actual retail saloonists.

The news that the Chocolay furnace is to be put in blast by Barry Bros. of Detroit is welcomed by Marquette people, as the development will be one that will result in much indirect benefit to the city. Much of the business of the people employed at the furnace location will be transacted here, as the facilities for reaching the city, with two railroads passing within stone's throw, will be excellent. The resumption can't help but boost Marquette in a considerable degree. The Barry Bros. are a strong concern, already operating the Newberry furnace and having big business interests in Detroit. Under their guidance it is to be expected that the resumption at Chocolay will be for an indefinite term.

President Angell, of the University of Michigan, will appear before the legislature to ask for new buildings to cost nearly \$1,000,000, and people familiar with some of the old rookeries on the university campus will need no persuasion to admit that this request calls for only what is urgently needed. A dental building to cost \$125,000 is needed, but the money for this structure is on hand; an enlargement of the new engineering building to cost \$50,000 is urgently required; an enlargement of the library to cost \$125,000, or, if added to the Memorial building, to cost \$50,000; new chemical laboratory, \$200,000; new shops for mechanics and new barns off the campus, \$25,000; removal and enlargement of the heating and lighting plants, now overtaxed, \$25,000; science building,

\$100,000; administration building, \$50,000. In addition Michigan wants \$583,545 for current expenses. Large demands, these, but it should be remembered that the university has been treated parsimoniously in the matter of new buildings for many years, and now the price of neglect must be paid. The state legislature ought to deal as liberally as possible with the institution, and the upper peninsula members should vote in favor of this course.

Members of the senate committee, The Mining Journal is informed, would have liked to have excepted the small roads of the upper peninsula from the operations of the three-cent fare law, but they felt that they could not do this without doing an injustice to the small roads of the northern part of the lower peninsula, and they could not well legislate to give these roads the right to charge four cents. Thus they thought it advisable to lump the little and large upper peninsula railroads under a three-cent fare, despite the fact that they questioned the wisdom of their step. All this is very interesting, but in the very nature of things not particularly consoling for the management of the small roads.

The decision of the board of trustees to establish a school for the deaf here next fall, providing the requisite number of afflicted children are found, will meet with general approval. The expense, as it chances, will be trifling, through the generous provision of state aid for such a school, but even if it were considerable The Mining Journal believes the people of the city would want aid extended to children afflicted with deafness. State aid is a not much more expensive course for the state than having children sent to a state institution, while it has the advantage of permitting the afflicted pupils to reside at home. Superintendent Brooks already has located a number of children sufficient to serve as a nucleus for the proposed school, and it is expected that it will be opened next fall. Its work and progress will be observed with interest.

The state department of instruction, of which L. L. Wright, of Ironwood, is the head, is on record as favoring the amendment of the present law providing for the distribution of the primary school money so as to base the distribution on the number of teachers employed, instead of on the number of children of school age reported from the political units. Mr. Wright has reached the conclusion that the proposed change would bring about a more equitable distribution of the school funds. He believes that it would prevent the richer districts from getting more money from these funds than they can use for the payment of teachers, and that it would give the poorer districts a larger measure of assistance in educating their children. The case which the state department of instruction makes out for the proposed change is a strong one, and should be effective in influencing sentiment in favor of it.

WHAT WAS WHAT.

Election is over. The outcome was worse from the point of view of the supporters of the People's ticket than even the most pessimistic of their number in his dreariest moment dreamed it would be. Mr. Robertson is mayor-elect by a majority of some hundreds of votes. He carried four wards, and might as well have carried the one he didn't get.

When a town turns itself inside out in such a way there is some actuating cause of more than ordinary moment. Either the candidate opposed to the victor is positively bad, or there is something else back of the "landslide." This is true in Marquette this year.

The defeated candidate is Jacob Werner. He was not a bad candidate. On the contrary he was a good one. He is a heavy taxpayer, a man with an unimpeachable record, and is widely liked. True he made a late start against a strong man already in the field, but this doesn't explain away the weight of the vote against him. It is evident that many personal friends of Mr. Werner cast their ballots for Mr. Robertson.

When a thing like this happens the voters are shooting at something behind the man. This is what occurred yesterday. While not desiring to detract from Mr. Robertson's victory in the least—for it was fairly fought and fairly and well won—the Mining Journal believes that the voters yesterday shot over Mr. Werner's head to hit the people whom they held to be responsible for Mayor Culver's boards. Mr. Werner, to be sure, had no connection, direct or indirect, with the appointments, but Mr. Robertson was the very antithesis of everything connected with the big movement in his direction. It was commented after the first caucuses and convention that Culver's appointment killed John Godwin, another citizen of unimpeachable record, with a wide circle of personal friends. It is just as certain that these appointments were responsible, indirectly, for the grilling Mr. Werner got yesterday. Not that there are not good men on the boards; there are a number. But their make-up, for several reasons it is not necessary to specify, was injudicious. The whole proceeding of filing the boards on the eve of an incoming administration was high-handed. Only boards of exceptional personnel, representative of all classes and creeds, would have reconciled the voters to it. Mr. Culver's appointments, particularly his

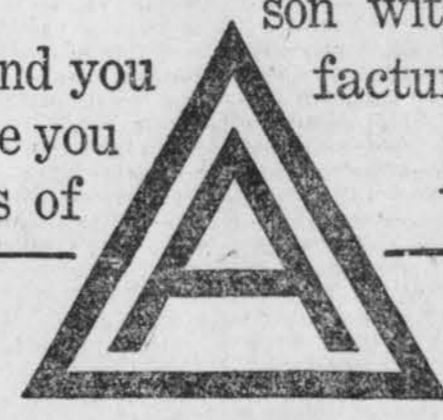

Who Makes the Cigars You Smoke

Perhaps you never thought the matter of very much importance—but considered it enough to know the retailer from whom you bought.

But when you are repeatedly stung with poor cigars you cannot always blame the retailer—that isn't the way to avoid unreliable brands. Because that very same retailer probably carries in stock the best brands of cigars made—if you only ask for them.

You ought to KNOW

When you get a poor cigar—and you don't know who made it—how are you going to avoid the other brands of the same manufacture? Don't you see that there is no way to prevent dishonest or incompetent manufacturers from repeatedly imposing on you by offering you unidentified brands of different names?

The NEW CREMO

is convincing evidence of the improved quality which the Triangle A guarantees. Every box is extra-wrapped in glassine paper to keep the cigars clean, fresh and in perfect smoking condition.

The American Cigar Company stands back of its brands with a responsible guarantee of their quality. We stamp the boxes of our standard brands with our Triangle A merit mark so you can immediately distinguish them wherever you go.

Then we invite you—even urge you—to go to any store and ask for any one of our Triangle A brands—then judge it strictly on its merits in critical comparison with the cigars of any other manufacture sold you at the same price.

Isn't that a square deal?

Do you know any other cigar manufacturer who stands back of his product in the same unmistakable way and on the same responsible basis, with as plain a guarantee of value?

AMERICAN CIGAR COMPANY, Manufacturer

elevation of Mr. Shea to the headship of the streets committee, enraged them; it was Mr. Culver's appointments that the voters were banging at over Mr. Werner's head yesterday. A day or two after they were made The Mining Journal said that while they were not satisfactory, there was no general indignation at them. The Mining Journal was mistaken; there was public indignation, as conclusively shown yesterday. It was not Mr. Werner the voters were rebuking yesterday; it was the dizzy-minded course of Mr. Culver throughout the year he served as mayor and the men who abetted his numerous "breaks" that they were reprimanding. As for Mr. Werner it is altogether too bad that he was led to try for office under such a weighty, killing handicap.

A REAL DANGER.

The country at large has a vital interest in the outcome of the negotiations pending between the western railroads and their 45,000 trainmen. Forty railroads whose operation is essential to the commerce of the entire country are involved and a struggle which tied them up would affect more or less directly every man in the country who works for wages and every one who is interested in a business enterprise. Many business concerns are now hampered by

the congestion on transportation lines. They would be compelled to suspend operations were these transportation lines tied up. They, therefore, have as great an interest in the negotiations as have the railroad companies themselves.

The public will sympathize quite strongly with the men in their demand for increased wages. All wage earners, and this class composes the great majority, realizes that the increased cost of living makes an increase of wages almost a necessity. A great many of this class do not appreciate a prosperity which calls more heavily on their financial resources and adds nothing to them. The railroad men ask for a straight increase of 12 per cent. The companies acknowledge the justice of a demand for increased wages by offering an increase of 10 per cent to brakemen, firemen, baggagemen and allied workers, and one of 7 per cent to passenger conductors. The poorest paid under this arrangement would get the larger increase. Whether this offer is a fair one depends somewhat on the conditions locally, and it is not easy at this distance to decide.

Wages, however, are but one of the questions involved. The men demand a nine-hour day. The railroads require a ten-hour day. The remainder of the men, therefore, is in reality for an increase of wages of more than 12 per cent and the offer of the railroads is not as much of a concession as would on the surface appear.

A strike at such a time as this, when it would seriously interfere with general business, will be sure to arouse the public greatly and quickly, and the public will strongly exert its influence in favor of those with whom it sympathizes. In the demand for more pay it will sympathize with the strikers, but it is not likely to sympathize with the demand for shorter hours at this time. In every branch of industry concerns are working full time and in many of them overtime. There is a scarcity of help.

It is not a time when a demand for shorter hours will be favorably considered by employers anywhere and in the majority of cases laboring men themselves would prefer more pay to shorter hours. The railroad men should consider this phase of the question before tying up the business of the country.

DOING BUSINESS AGAIN.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and generally debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best of all tonic medicines. Guaranteed by The Stafford Drug Co. 50c.

Cobalt Gossip

A report from A. E. Hague, consulting engineer on the McCormick property, says that 150 feet of diamond drilling has been done on No. 1 shaft. Some native silver has been found. The drill is going in the direction of the veins of the Jacobs mine. In No. 2 shaft, a promising deposit of calcite has been encountered, and this shaft will go much deeper.

Nine mines, which will have turned out in a year \$12,000,000, are located within twenty minutes' walk of the railroad station at Cobalt. Among these are the Peterson Lake, recently taken over by a New York and Boston syndicate, which has appropriated \$100,000 for immediate development. A strike of two new veins of argentite and silver was made last week on the property. There are now twenty shippers in the Cobalt region.

An important find of nicolite is reported to have been made on the Cobalt Lake property. E. L. Fralek, the engineer in charge, has expressed the opinion that the deposit, as far as uncovered at present, is the largest ever seen. The new shafthouse of the company is completed, while both the boilers have arrived. Development work on a larger scale than so far will be possible in a few weeks.

According to Cobalt and Larder Lake advices considerable anxiety is being felt by many managers who have vent machinery to install. The snow has been rapidly melting, and if the mild weather continues much longer it will be impossible to transport the machinery from the railway to the mines on sleighs. In consequence of an early break-up on the roads, much machinery may not be installed for months to come.

On the \$6,000,000 capitalization of the Nipissing, the 3 per cent dividend will require the expenditure of \$180,000. President Earle states that the company has ample funds to pay this, as it has cash on hand and ore in transit and at the smelter amounting to \$600,000. The \$120,000 saved by the discontinuance of the extra 2 per cent dividend will be spent in extensive prospecting, developing the surface and the interior workings of the mine, and erecting buildings for the accommodation of about 600 more men to be employed at the mines. The record of dividends declared by Nipissing since its inception is as follows: June 20, 1906, initial dividend of 3 per cent; Sept. 20, 1906, 3 per cent, an extra dividend of 2 per cent; Dec. 20, 1906, also 3 per cent and 2 per cent extra, and on March 25, 1907, the regular 3 per cent without the extra. The total amount disbursed to stockholders, including the dividend just declared, is \$900,000.

BITTEN BY SPIDER.

Through blood poisoning caused by a spider bite, John Washington of Bosqueville, Tex., would have lost his leg, which became a mass of running sores, had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." 25c. Guaranteed by The Stafford Drug Co.

ONTONAGON MINES.

The first shipment of copper from the Lake property to the smelter by the present company was made last Saturday. It consisted of a carload of mass copper, taken out during the development of the Knowlton shaft. At present, work is confined to stoping on the Knowlton lode. The stamp rock is stocked and it is probable that a test will be made of it during the coming summer. Reports are to the effect that excellent values are being secured. A dozen men are employed and the force is to be largely increased as soon as it is expedient to begin exploratory work on the Baltic formation.

There is a noticeable improvement in affairs at the Mass mine and it is estimated that the product for this month will be around 150 tons. Stoping was recently started on the Butler lode in shaft "C" and the result has been an agreeable surprise. Exceptionally good stamp rock and much heavy copper are being taken out and the lode has good dimensions. Work is progressing without interruption in shafts "A" and "B" and better things are expected after another lift or two has been reached. Not a little hope is being built on the Baltic lode. The Mass will begin diamond drill work on this inside of a few weeks. A little exploratory work has been done on this formation on the old Riddle farm by the company and now a thorough test is to be made with drills. If the formation contains commercial values in this county the Mass has as good a chance as any other property to profit by it. Superintendent Wilcox is satisfied that Mass is going to make good. He says that conditions are more favorable than they have been and that the company will begin to reap some benefit from the money which has been expended in extraordinary developments.—Ontonagon Herald.

AN INSIDIOUS DANGER.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. The Stafford Drug Co.

THIS IS WORTH REMEMBERING.

We do all kinds of upholstering, and always carry a full line of samples of furniture coverings in the latest patterns and do all kinds of furniture repairing; also renovate hair mattresses, and make them as good as new. We make and hang Window Shades, we make Picture Frames, we sell Cedarine Furniture polish, the best now on the market, and sell the best Carpet Cleaning Soap on earth. We sell Carpets, Rugs and Portieres, and as good Furniture as is made in this country, at a reasonable price. Last but not least we are manufacturers' agents, and can sell you as cheaply as any furniture house in Chicago, Grand Rapids or Detroit, assuming all risk of breakage and placing the goods in your home. When in need of anything in our line give us a call. HAGER BROS. CO. LTD., 118 South Front St. 3-7-11

Copper Country

ELECTION DAY QUIET.

Copper Country Townships Ballotted for Officers Yesterday.

Election day, yesterday, was very quiet, typical of such occasions in the copper country. There were a number of contests in the townships, and two tickets in the field in Hancock, but these did not serve to create any particular stir. Visits to the polling places showed, however, that the contending candidates were successful in bringing out an unusually large vote.

The Hancock contest, that for township clerk in Portage township, Houghton, and for treasurer of the same township, one for supervisor in Franklin and one for justice of the peace in Calumet, were the causes for the unusual interest of the voter. In deference to election day the banks were closed, as were the justice courts and county and municipal offices. The stock exchanges were in action, however, and the brokerage offices had their usual big attendance.

It appeared last night that all the regular nomination tickets in the various townships of Houghton county had been successful without exception. In the city of Hancock, the Republican ticket was successful save that in the First ward, A. L. Lehto was defeated for alderman by August Mette.

Words of Praise

For the several ingredients of which Dr. Pierce's medicines are composed, as given by leaders in all the several schools of medicine, should have far more weight than any amount of non-professional testimony. Dr. Pierce's Favorite Prescription has THE BADGE OF HONESTY on every bottle-wrapper, in a full list of its ingredients printed in plain English.

If you are an invalid woman and suffer from frequent headache, backache, gnawing distress in stomach, periodical pains, disagreeable catarrhal, pelvic drain, dragging-down distress in lower abdomen or pelvis, perhaps dark spots or specks dancing before the eyes, faint spells and kindred symptoms caused by female weakness, or the derangement of the feminine system, you can do better than take Dr. Pierce's Favorite Prescription.

The hesitant, surgeon's knife and operating table may be avoided by the timely use of "Favorite Prescription" in such cases. Thereby the obnoxious examinations and local treatments of the family physician can be avoided and a thorough course of successful treatment carried out in the privacy of the home. "Favorite Prescription" is a scientific medicine, based on the latest medical science for the cure of woman's peculiar ailments, contains no alcohol and no harmful or habit-forming drugs.

Do not expect too much from "Favorite Prescription"; it will not perform miracles; it will not dissolve or cure tumors. No medicine will do this. It must be given a fair chance by perseverance in its use for a reasonable length of time.

You can't afford to accept a secret nostrum as a substitute for this remedy of known composition. Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as strictly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. Only a laxative of two or three a cathartic. Easy to take as candy.

COL. BOOTH AT HOUGHTON.

Calumet Engineers Will Be Inspected Tonight by U. S. Officer.

Lieutenant Colonel Booth, U. S. regular army inspector for the Michigan National Guard, and Lieutenant Colonel W. H. Thielman of Calumet, assistant inspector general, inspected the Houghton Light Infantry, Company G, Third regiment, last night. The inspection was public and was held in the company's new armory in the Amphidrome. Captain Heckel's command made an excellent showing. It had previously passed a rigid inspection under Colonel Bates, the regimental commander, and awaited Colonel Booth's arrival confidentially. Lieutenant George H. Curry of Ironwood, battalion adjutant, arrived in Houghton yesterday to report for inspection. Lieutenant Curry is on detached service in this capacity, as his former company in Ironwood is mustered out of the service.

Colonel Booth and General Wagner will tonight inspect the Calumet corps. This is the first inspection that organization has had since its transformation from a military company to a company of engineers, the only one in the state. Captain Trevarrow and his officers have been working hard to bring the organization up to a point of efficiency which would make the inspection a creditable one, this in the face of the changed conditions in the company and the fact that there are a great many recruits. But the officers were confident yesterday that Colonel Booth would find it not wanting in any essential.

TRAGEDY IN GOLDFIELD.

Former Calumet Resident Shot and Killed a Russian Lohario.

James C. Hines, a former resident of Calumet, was a principal in a shooting affair at Goldfield, Nev., recently. The story is told in the following dispatch from that place: Count Constantine Podhorski, a Russian Pole and alleged member of the royal family, was slain early today at the Ajax restaurant, in the heart of the Goldfield tenebrous, by J. C. Hines, a miner from Nome, Alaska. The killing was one of the most dramatic in the history of the West.

The count and a fashionably dressed woman were sitting in the restaurant which is back of the annex bar, when Hines entered. Hines had evidently seen the couple from the sidewalk, as the count was up, walking directly up to the count he suddenly drew a large revolver and fired five shots into the Russian's body, all of which took effect. The count fell over lifeless.

Pandemonium reigned at once. The woman with the count screamed and fled. Hines laid his weapon on the table and mounted a chair. "Lasten friends," he said, "I have been tracing this man for months. I have come 7,000 miles to kill him. He is dead at your feet. Men, this woman who was with him is my wife. I have the vengeance and am willing to take my medicine like a man."

Podhorski formerly lived in Seattle. He went to Nome, Alaska, two years ago and invested \$80,000 there. Of late he had been buying real estate and mining property in the Goldfield district and at Lansing. Mrs. Hines formerly lived in San Francisco. Hines is in jail.

INFLUX OF AUTOMOBILES.

First Consignment of New Machines Arrived Yesterday.

R. Skiff Sheldon of Houghton received yesterday morning from Chicago a new Northern automobile and W. D. Calverley received at the same time a new Simplex touring car. Mr. Sheldon's machine is a small touring car, but it is to be followed shortly by a larger machine. These are the first cars of a number which it is expected are to be added to the possessions of copper country people this summer.

This summer fully twice as many autos in the copper country as were in use in the past year, so that hereafter the arrival of a new machine will not excite the comment which it has in the past. A cursory study of the copper country would not reveal it as an ideal district in which to take pleasure in motoring, but then there are many fine roads and the towns are becoming well paved so that the machines are available for purely local use.

The Keweenaw county trip is a popular one with autoists and will be more so this year. Keweenaw county has excellent roads and these terminate in growing summer resorts so that the automobile parties find refreshment and entertainment at the close of their journey.

The roads between the copper country towns are also excellent for autoing, aside from the heavy climb up over Quincy hill. A great many people in all of the towns intend to enjoy these opportunities for autoing this year and many new cars will follow those of Mr. Sheldon and Mr. Calverley into the country in a short time.

CALUMET WOMAN'S CLUB.

The Calumet Woman's club extends an invitation to its friends to attend its meeting next Friday afternoon. It is to be a semi-public gathering for the discussion of home and education. The following program will be given:

Self-Education for the Masses; (a) University Extension; (b) Chautauque Circles; (c) Clubs, etc., Miss Philomena Ruppe. Oral Instruction of Deaf Children, topic to be discussed by Mrs. Estelle H. Thompson, Miss Maud Fuller, Mrs. Kate P. Galbraith, Mrs. Sarah H. Appleton. Music, Mrs. Rose Schlichting.

HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. Dr. J. C. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him to be a most honorable and successful business man and financially able to carry out any obligations made by him. WALTER D. KINMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 50 cents per bottle. Sold by The Stafford Drug Co.

DARANTELLA, 210 Monroe Street, Mich.

ROYAL Baking Powder

Absolutely Pure
Makes delicious, healthful food.
A pure, cream of tartar powder.

A can of Royal Baking Powder contains many more teaspoons full of baking powder than a can of the heavy acid-laden phosphate or alum powders.

IN THE BASEBALL LEAGUE.

Duluth Boy a Comer—Sale of Players Profitable, Sometimes.

Al Cummins, Duluth's ex-collegiate club artist, is slated for a rise after the close of the present season with Duluth. His work in general last year when aside from his pitching record he finished with a fielding average of .892, has attracted attention from several of the big league managers. The eighteen-inning game which he pitched against Hancock, when he pitched out three copper country pitchers, and was pitching better ball in the eighteenth than at any part of the game, has brought him into prominence, and he was received a number of tempting offers to go to the big leagues after the close of his work with the Sox this year. Cummins appeared in Houghton this winter as a member of the Duluth Hockey team.

Next Fall Northern-Copper Country League Managers Will Probably Have a List of Revenue Which Has Not Been Available in Former Years.

This is the sale of players. Some of the minor leagues of the East count on this income to keep them running, and every fall the clubs down a fat roll from the big team managers for players they have found and developed. The Northern has in former years been looked upon as a bush league, and was passed up by managers. This spring, however, a number of graduates have landed with the big league managers for players they have found and developed. The Northern has in former years been looked upon as a bush league, and was passed up by managers. This spring, however, a number of graduates have landed with the big league managers for players they have found and developed.

COPPER COUNTRY.

Season Delayed by Recent Storms and Weather Still Cold.

There was skating at the Amphidrome at Houghton last evening—the first time this has been possible on Easter Monday. It is said that forty-one persons in Copper country people coming home from the South or the West, or coming home from extended business trips in various directions, find that the winter season which they had sought to escape has lingered, and the springlike days which they had left in other places is still very faint in this region. Winter in the copper country is a visitor who stays for quite a while and is ever reluctant to go when his time comes.

March was a beautiful month, mild and pleasant, but it must have come in like a lamb if the old adage of the weather wise is true because it went out in a very leonine manner and left a second winter behind it. Portage lake had shown open water for days during the latter part of March, but on Sunday this was covered with a film of ice which the weak sun yesterday could barely dissolve.

People from the iron country find the copper country winter such as might be expected in a far north rather than in a district which is a next-door neighbor. A Houghton man returning from Indiana said yesterday that he was accused of mendacity last week when he said there were a couple of feet of snow and ice in the feet of the copper country towns. There was skating in copper country rinks Saturday night, and at Houghton again last night.

With Easter Sunday passed the weather yesterday was anything but what it should have been. The snow which fell in the latter part of March, but on Sunday this was covered with a film of ice which the weak sun yesterday could barely dissolve.

STEAMER MASCOTTE SINKS.

The steamer Mascotte, which has wintered at Hancock, sunk at her dock yesterday morning—the first marine accident in a season that has scarcely opened yet. Repairs were being made to the craft, and it is said that through some blunder a seam was opened, causing the boat to fill with water.

WHEN YOUR BACK ACHES.

Take one teaspoonful of the following simple mixture after your meals and again before going to bed, viz.: Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces.

Get the ingredients from some good prescription pharmacy and mix them yourself by shaking in a bottle.

The kidneys often become clogged up and inactive, either from overwork or change of weather, and cause the back and sides to pain and ache. This is said to readily relieve almost any lame back, and overcome the worst forms of Rheumatism, by toning up the kidneys and forcing them to filter the uric acid or Rheumatism poisons from the blood.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine. Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25 cents.

HANCOCK COUNCIL MEETING.

Contract for Pavement of Quincy Street May Be Let Tonight.

A special meeting of the Hancock city council will be held tonight for the purpose of letting the report of a committee appointed to get the opinion of the property owners on Quincy street as to the material to be chosen for the extension of the pavement on that thoroughfare. The meeting of property owners was held Friday night and the bids for the various kinds of material were made known. The cheapest was granted, and the property owners generally favored that material. The council will undoubtedly grant the contract to R. S. Blome & Co. of Chicago, the only bidders on city.

City Clerk MacDonald has been advised that the bill granting Hancock permission to bond for \$50,000, to take up a similar amount of outstanding orders has been passed by the legislature and signed by the governor. The council may tonight take action on the issue of the bonds and the steps to be taken in wiping out the old indebtedness.

LUMBER CAMPS BREAK UP.

Influx of Woodsmen into the Copper Country Recently.

The lumber camps in the vicinage of the copper country are breaking up, having finished their season's work, and as a result the towns are well peopled with woodsmen who are merely spending their winter's wages. Ontonagon county camps also are breaking up. The favorable season for the lumber industry now just about passed has brought about the completion of contracts entered into by various lumbermen of the copper country. The Ontario and Ontario county camps are breaking up, and consequently the influx of woodsmen into the copper country recently.

SECOND CASE IS ACQUITTED.

Alleged Rioter at Michigan Mine Is Found Not Guilty.

The August Huskunen riot case was given to the jury at 6:45 last evening and in less than an hour a verdict of not guilty was returned, says the Ontonagon Herald. The case had occupied the attention of court during the past two weeks and has been a hard-fought legal battle. The testimony of the last witness—the defendant—was taken yesterday forenoon and the summing up of the case was opened at the beginning of the afternoon session by Assistant Prosecutor John Jones. He was followed by P. H. O'Brien for the defense and Oscar J. Larson made the final plea for the people. Monday forenoon the jury was taken to Rockland and visited the scene of the riot at the Michigan mine. The court attendants are feeling the strain of the work. There was no session Thursday forenoon owing to Mr. Winchester, the stenographer, playing out. Sunday forenoon the regular man for this district, arrived Thursday noon and has taken up the work. Mr. Larson was also incapacitated from work Thursday by an attack of the gripe.

Postmistress Is Named.

Mrs. Cora Barnes has been appointed postmistress of Bruce Crossing and it is expected will take hold of her official duties in a few days. It is understood that the office will be in J. N. Suits' store.

A special election will soon be held in Hancock township for the purpose of submitting to the voters the advisability of bonding the township for about \$3,000. This has been sanctioned by a special bill which was put through the legislature by Representative Stannard, of whom the township is named. While the bill permits bonding for building township hall, bridges and other improvements and for paying indebtedness, the real purpose is to raise money for clearing up the indebtedness of the township. When Stannard was set off by McMillan it had to assume its portion of the indebtedness of the latter township and this has proved a burden which the officials deem can best be handled by bonding.

Looking for Mill Site.

M. L. Lake and H. Bates of Traverse City have been in Ontonagon looking for a site for locating a good-sized mill. Messrs. Lake and Bates and other lower Michigan men own jointly quite a large tract of cedar and hemlock timber up the Ontonagon river. Ontonagon appears to them the most profitable place for manufacturing it. The Ontonagon State & Veneer company has offered to lease to them the upper portion of the island. Accompanied by James Curgen, Mr. Lake visited the Martin mill in the Flintston district with a view of purchasing the plant and moving it to Ontonagon. Mr. Lake appeared favorably impressed with Ontonagon and its advantages for wood making industries. He said there is more cedar in this locality than is generally realized and that the quality is better than is found in the lower peninsula.

Notes of Ontonagon News.

Mrs. Katherine Corgan and A. G. Biesch sprung a surprise on their friends Wednesday. They went to Green Bay and were married in the Methodist church of that city. Mrs. Corgan and Biesch left on the night train for a wedding trip to Chicago. They will take up their residence in Ontonagon. Mrs. Biesch is a most estimable young woman and has resided in Ontonagon for a number of years. Mr. Biesch is an engineer on the Ontonagon-Channing way freight and popular among railroad men and others.

The last meeting of the old board of supervisors was held Tuesday and Wednesday. The work consisted principally of allowing and auditing bills, amounting to \$1,000.

ANTI-SALOON CAMPAIGN.

Rev. Rutledge Promises One for the Copper Country.

Rev. C. H. Rutledge of Ishpeming, head of the Upper Peninsula Anti-Saloon league, is still in Calumet, carrying on his campaign against saloon keepers who violate the liquor laws. He declares that there will be an active crusade against violators in Calumet this summer. No arrests were reported yesterday for Sunday violations, though each succeeding Sunday keeps the saloon keepers worried while Mr. Rutledge is in town. He is the complainant now against four Red Jacket saloon keepers whose cases are pending. Mr. Rutledge's operations in Red Jacket have been very effective in keeping the lid down and on the first day of the week the thirsty have been pretty generally compelled to stay so, drinking water, or anticipate the thirst by buying a home supply on Saturday.

FRESH CANDY

TAKE HOME A BOX OF
HUYLERS, FENWAY, REX, or any of our Fresh Candy.
 It will please your wife or sweetheart.
 Prices—50c, 60c, 75c and 90c a pound. Smaller packages for less money.

IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition, it cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

City Brevities

Today's weather: Generally fair; rising temperature.
 H. A. Batholtz of Ironwood spent yesterday in the city, on business.

W. B. Ransom left last night for Chicago, on a short business trip.
 Miss Grace Cook has returned to Calumet, after a few days' visit with relatives.

Mrs. Mary Murkley of Duluth is in the city, the guest of her mother, Mrs. H. Fox.

Mrs. Serena Case and Mrs. Belle S. Case have gone to Detroit, to visit friends for a short time.

Altar Boys and the Poles played a game this week, resulting in a score of 6 to 5 in favor of the former.

Miss Hazel Harris, a student at the Normal, has returned from L'Anse, where she spent the Easter vacation.

L. S. Glasier, train dispatcher for the L. S. & L. railroad, left last night for Chicago, where he will visit friends for a few days.

George Randolph, a student at the Michigan College of Mines, has returned to Houghton, after spending a week with Marquette friends.

The small boy with the ball, bat and glove has made his appearance and the cold winds are powerless to drive him from the vacant lots clear of snow. The

Miss Anna Grant has returned to resume her school duties at Dollarville after spending the Easter holidays with Miss Lydia Lanson-North Third street.

Will J. Ellison will leave this evening for Columbus Springs, Ind., for a two weeks' visit. He will be accompanied home by his family, who have been visiting there the past several weeks.

Hon. Peter White, president of the Marquette club, paid his first visit to the quarters of that organization since they were remodelled and redecorated yesterday. Mr. White was much pleased with the improvements. He has been a member of the club since it was formed, and has always been one of its most liberal supporters.

Carl Moore, a former Marquette man, who is now chief engineer of the U. S. Mining company, with headquarters at Salt Lake City, Utah, is in the city visiting relatives for a few days, on his way west from New York, where he has been on business for his company. Mr. Moore was formerly an instructor at the Michigan College of Mines. Since he became active in the mining field his interest has been rapid, and the next few months will be one of great importance.

Dave Morgan Re-Elected—Dave T. Morgan was re-elected supervisor in Republic township yesterday, by a big majority.

Club House Night—A large party of members gathered at the Marquette club last evening to discuss the election returns. A toothsome luncheon was served. There have been many entries for the billiard tournament.

Funeral of Mrs. Foard—The funeral of the late Mrs. Hanna Foard will be held this morning from the residence of M. H. Foard, on Spruce street. Services will be held in St. Peter's cathedral at 9 o'clock and interment will be in Holy Cross cemetery.

Normal Opens Today—Some of the students of the Northern Michigan Normal returned yesterday from their homes after the regular Easter vacation and the remainder will arrive today. The regular sessions will be begun at the school today. The public schools resume sessions Thursday morning.

Instructor at the Normal—Principal Goodrich of the High school will teach French and German in the Normal summer school at Marquette this summer, says the Mining News. We do not in the least hesitate to say that the Normal is to be congratulated, as well as Mr. Goodrich. He begins work there June 26th.

Building New Houses—The erection of two new houses in North Marquette was begun yesterday. The building boom enjoyed by that portion of the city last year is to be more than a memory this coming season. The northern part of the city appears to appeal to home-builders, and the contractors will find a good deal of work there this year.

Water Is Safe—Superintendent John P. Kern, of the city water works, has received from Professor Y. C. Vaughan of the University of Michigan the report of the analysis of a sample of city water, drawn from the regular supply, and sent to Ann Arbor recently. The report states that there are no disease producing bacteria in the water, and that it is a very good water for drinking.

Election Day—Yesterday was a state holiday and was observed by the banks, the county offices and some business places. The day was clear, but the sun's rays were well nigh powerless to impart warmth to the earth against a chill north wind, which was blowing the city all day. The different candidates and their friends were out early and their work of getting the voters to the polls was facilitated by the favorable weather conditions.

New French Society—Members of the St. Jean Baptiste society here will be interested to learn that the Frenchmen at Marquette have formed a society with a similar name with fifty-two members, a very good beginning. The officers are as follows: President, Charles Cyr; first vice president, Joseph Hebert; second vice president, Alex. Monette; recording secretary, Eng. Charost; secretary of finance, J. A. Monette; corresponding secretary, Omer J. Bernier; order clerk, M. Comenot; sergeant-at-arms, Joseph Lavoux; directors, Joseph Pellissier, Joseph Berube, Albert Monette.

Crothers Taken to Newberry—Sheriff Rough of Marquette county is quoted by The Mining Journal as saying that that county is not responsible for the care of Wilburn Crothers, the youth who has been violently insane and confined in the county jail here for two or three weeks, says the Mining News. The Marquette county sheriff says the young man returned to that county from lower Michigan only ten days before he became violent. The position of the Alger county authorities is that the youth, since his father died, seven years ago, has made his home with his grandfather, now and for the past few years a resident of Marquette county. They insist that notwithstanding the youth spent a short time away from the only home he has known for many years his actual residence remains the same. The boy has been taken to the Newberry asylum.

NEW ADMINISTRATION TO SETTLE QUESTION

PRESENT FINANCE COMMITTEE WILL NOT MAKE DEAL FOR SECURING INTEREST ON CITY DEPOSITS.

Despite the fact that few were disposed to talk anything but election yesterday, the annual city report came in for considerable discussion. The comments were, for the most part, favorable to the general opinion being that the report showed the city's affairs to have been conducted efficiently during the year just closed. One matter, again brought to the fore by the issuing of the report, is the securing of interest on city funds on deposit in local banks. The amount of cash held in the different banks to the credit of the city is no inconsiderable item, and people realize, with a little figuring, that the sum which might be secured as interest on the money would be a not undesirable addition to the revenues. Many were anxious to know what had been done in the connection.

At a recent meeting of the city council, the securing of interest on deposits of city funds was talked over. Alderman Asire, chairman of the finance committee, reported that any action before the close of the fiscal year would be impossible, because of the fact that the city was under a contract with the banks, by which the city deposited its fund with them and they, in return, furnished the bonds of the city treasurer. The matter was dropped, with the understanding that it was to be taken up again at the beginning of the new fiscal year.

Alderman Asire was seen yesterday, and said that the present finance committee will not deal with the question. The arrangement with the banks expired at the end of the fiscal year, but the bonds of the treasurer are still in force and no action could therefore be taken until after election, when Mr. Byrne would qualify for the ensuing term. Then the finance committee can take up the negotiations with the banks. It is probable that some arrangement will be reached by which the city will receive a fair rate of interest on its deposits. The banks show a disposition to fall into line, and it is not expected that any trouble will be experienced in reaching a settlement satisfactory to all concerned.

The different boards of the city are also taking steps to secure interest on their deposits. Their movement is in line with that of the council, and in a short time all the deposits of the city will be a source of revenue.

WILL INCREASE VALUE OF CHOCOLAY LANDS

OWNERS OF LOTS AT SUMMER CAMP PLATS ARE DISCUSSING PROBABLE EFFECT OF RESUMPTION AT FURNACE.

Among Marquette people none were more pleased with the announcement yesterday that the Chocolay furnace would again be placed in operation than those who own lots at the summer camp locations near the Chocolay river. The resumption at the furnace will mean a marked increase in the value of lots in that vicinity, and those who already own land there are counting themselves fortunate.

The land near the mouth of the Chocolay river has been popular as a location for summer camps for the past two years. The Lakewood plat, placed on the market by M. E. Asire, has been sold out with the exception of four or five lots. East Lakewood, east of Mr. Asire's original plat, is also on the market, and Mr. Asire has also placed a location to be known as Riverside, south of the Chocolay river. The grounds of the Marquette Country club are between the southern boundary of Lakewood and the river.

For summer camp purposes only, land at the Chocolay is valuable. The D., S. S. & A. and Marquette and Southeastern railroads both pass nearby and the mouth of the Chocolay river is easily accessible by boat. There are now twelve or fourteen camps at Lakewood and more are to be built this spring. The ease with which the trip can be made there for an evening or a few days appeal to those looking for locations for summer camps, and the sale of the lots there has been rapid.

The possibilities of the location, with the placing of the furnace in operation, are immense. The accessibility, which makes the land valuable for summer camp purposes, would likewise make it valuable for living purposes, and, if a location is to grow up around the furnace, the location of the present summer camps is the logical place for it. If the value of the land should increase sufficiently to make it worth while there are few of the owners of lots there who would not be willing to part with them for the erection of permanent dwellings, meanwhile seeking other sites for the location of their summer camps.

Its virtues have been established for many years, and thousands of people have been made happy by taking Holister's Rocky Mountain Tea, 35 cents, Tea or Tablets, The Stafford Drug Co.

HOW TO AVOID APPENDICITIS.
 Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. The Stafford Drug Co.

DOLLARS BURNED.

THE VALUE OF A BANK

A Striking Illustration

A few days ago a man came into this bank with a small pasteboard box full of ashes and scraps of bills—all that was left of \$500. He had intended to PUT IT IN THE BANK SOME DAY, but the fire that destroyed his home did not wait for him to carry out his good intentions. Had this man's money been in our

Fire and Burglar Proof Vaults

It would have been safe, and at the same time **Earned Three per cent Interest.** One dollar starts an account. Begin to save today. Send for our booklet, "Banking By Mail."

MARKETS

FURTHER GAINS IN STOCKS.

Last Friday's Rebound in Prices Is Materially Extended.

New York, April 1.—The rebound of Friday in the stock market was materially extended by gains today. The drop in Canadian Pacific at the opening was largely due to stock supplied from foreign sources, as the extent of the short interest in that stock revealed Friday last made it in eager demand still. The demand from shorts promptly asserted its influence on the stock, and it rebounded violently.

The movement of Great Northern preferred acted as a damper on the early strength of the market. The heaviness of this stock seemed to be connected with the official notification by the company that the original terms for the payment of subscriptions to the new stock would be unchanged by the delay in the issue caused by the litigation to enjoin it. This would call for the payment of four 10 per cent installments, amounting to \$24,000,000, on April 9. Subscription rights were dealt in on the stock exchange for the first time today, and they declined to a lower level than was touched on the curb when the judicial decision in favor of the company was first announced.

Another factor in the early reaction was the knowledge that a formal announcement was imminent from President Roosevelt on the subject of the governmental policy towards the railroads. The rumors first current on the stock exchange were that the expected statement was to be in effect a reiteration of former views and an expressed determination to continue in them. This version caused a distinct halt in the rise in prices, but the rise was actively renewed when reports got abroad that emphasis was to be laid by the executive

of disapproval of any project that would invalidate railroad securities.

Decided relief was felt over the improved money situation, and with the first of April passed it was believed that relaxation would follow in the money market. The rates for time loans were marked down decisively. The sub-treasury report showing a further large gain by the banks demonstrated that the effects of the treasury relief measures were not to be confined to the bank statement of last week.

Another decisively strengthening influence was the better prospect reported of a settlement without a strike of the claims of the Western railroad employes for higher wages and reduced working day. Most of the day's gains were realized to the last, although the closing was rather feverish.

Paine, Webber & Co. report closing prices as follows:

Logan & Bryan telegraphed from New York yesterday as follows:

"Today's market opened higher and sheets were further run in during the morning though at the beginning stocks were lower than on last Friday. The prices gradually sagged off, however, but ineffectively accompanied the lower prices, and after the noon hour stocks again began to harden. The bears, when they attempted to cover, found very little stock offered, and this was responsible for a decidedly sharp rally during the afternoon, carrying such stocks as Union Pacific, Reading, Amalgamated, Smelters,

Alcohol not needed

Ayer's Sarsaparilla is not a strong drink. As now made, there is not a drop of alcohol in it. It is a non-alcoholic tonic and alterative. Ask your own doctor about your taking this medicine for thin, impure blood. Follow his advice every time. He knows. Trust him. We have no secret! We publish the formulas of our preparations.

J. C. Ayer & Co., Lowell, Mass.

ELECTION AT MUNISING.

John McMillan Elected Supervisor by Thirty-One Majority.

The election in Munising township of Alger county yesterday resulted in a triumph for the ticket headed by John McMillan for supervisor. Mr. McMillan was elected by a majority of thirty-one, and all his associates in the ticket were successful along with him by majorities ranging up to sixty. The contest at the polls was exciting, although quiet, and there were no untoward developments. Mr. McMillan is the present supervisor, having been appointed to the place on the resignation of Samuel Gibson when the latter assumed his present duties as county clerk. His forces are allied with the so-called Smith faction, which recently won out in the Munising village election.

In Rock River township, the fight between Barney and Tester for membership on the county board resulted in a victory for Tester by fifteen majority. In Au Train township, Lobb was chosen supervisor by a lead of sixteen votes.

SUPERIOR & PITTSBURG.

More Than Paying Expenses Despite Development and Construction.

The annual report of the Superior & Pittsburg company shows that the product for the year was 4,522 tons of refined copper. The gold and silver produced was \$21,941.41, averaging \$4.85 to the ton of copper. The price received for the copper averaged 17.96 cents a pound. The company employed an average of 799 men for the year.

The directors say: "Should the ground tributary to the Hoatson, Junction and Briggs shafts open up on the levels about to be opened as well as present developments, of 902 feet, the year should be a very successful one as with present output, notwithstanding the heavy expenses for development and construction, we are more than paying expenses. The company owns 1,388 acres of land. It is all paid for. \$182,000. The company has cash and copper worth \$875,248.43, in stock, \$20,500, supplies on hand, \$124,049.24, accounts receivable, \$88,541.25, and Warren stock worth \$25,500. Accounts payable amount to \$406,195.81, demand loans, \$182,000, showing an excess of assets over liabilities of \$551,703.11."

General Manager Powell details the machinery installed during the year. Under the head of developments the company shows a total amount of sinking on the four shafts, Cole, Briggs, Hoatson, and Hoatson, of 902 feet, drilling 37,958 feet, raising 1,341 feet, winzes 125 feet and stations 501 feet, making a total of 40,018 feet of work during the year. Mr. Powell says: "The development work for the year 1906 has been on the whole very satisfactory. Much of our work has been pioneer work into unexplored territory and while we have opened up some large and important ore bodies during the year the really encouraging feature has been the proving up that we are in heavily mineralized ground as is shown by the large bodies of copper bearing leached material developed; this being invariably the capping for the ore bodies of the district.

"The most important ore bodies developed on the property have been on the west side of the property from the Cole shaft where we have found and developed during the year oxide ore bodies on the Jessie Glenora claim on the 100-foot level and on the 100-foot level of the Sunnyside claim. The development of both of these ore bodies has been very satisfactory indeed."

"The development on the 100-foot level from the Cole shaft on the Sunnyside in the sulphide ore body has shown the area of this body to be large and the work on the 100-foot level shows still while continuing in the Cole shaft the ore bodies have grown larger with stopping. The lower level of this shaft is in leached and oxidized ground. At the Briggs shaft oxidized No. 20 ore south run through 400 feet of leached and copper stained ground. Sinking is going forward on the Cole, Hoatson and Junction shafts.

Has Immense Possibilities.

Commenting on the Superior & Pittsburg report, Mimmear & Co., of Laurium, say that it "clearly shows that the company is one of immense possibilities." However, it is added, it must be considered entirely as an organization which is still in toddling clothes. It is growing rapidly, and when it will have matured one thing can be depended upon, it will give an excellent account of itself. The great trouble of late at the Superior & Pittsburg has been in getting men enough to care for the work which had been outlined for the year. While the force employed is about 800 men, about 50 per cent more could be used advantageously. For instance it is said by visitors to the property recently that at the Junction alone another hundred men or more could be used if available. It is the future of the property more than the past which makes the Superior & Pittsburg very attractive. It owns 1,388 acres of land situated in the very heart of the mineral bearing district of Bisbee all paid for.

During the year 1906 the Superior & Pittsburg produced a little over nine million pounds of refined copper which was sold up to last October for an average of 17.95 cents per pound. Better prices were received for the remainder of the year, but the figures were not in when the report was made up. The Superior & Pittsburg is producing now at about a 50 per cent increase over that of the year past, and before many more months are gone another increase in the production for the year should be approximately 20,000,000, with 1908 production almost double that.

The Superior & Pittsburg is now to enter an era which will mark large earnings. There was expended in development work and construction account during the past year about one and one-half millions of dollars and this has served to open up the five shafts well. As an example of work done there was 3,700 feet of drifts extended during the twelve months, besides sinking etc. The water problem has not given as much trouble of late as heretofore. While serious difficulties from this source are encountered in sinking, once the ground is opened and drained no further trouble is experienced.

The Calumet & Arizona company will continue as in the past to operate for the ores mined at the Superior & Pittsburg. The fifth furnace is now ready to operate exclusively on its ores. A sixth has been ordered and is expected to be on the ground and ready for work Aug. 1, providing deliveries are made as promised. The sixth furnace is to have a capacity of 500 tons of ore per day. The Calumet & Arizona smelter has a capacity of 300 tons per day. Plans are already prepared for the erection of a seventh furnace which will probably be ready for use towards the close of the year.

Copper Metal Prices.

New York, April 1.—Copper continued dull and more or less steady. Lake is quoted at 24 1/2@25.25, electrolytic at 24.25@25 and casting at 23.75@24.25. The exports for the month of March were 3,906 tons.

CHICAGO GRAIN MARKETS.

Chicago, April 1.—An active demand, especially for the May, caused a strong market in wheat at the opening today. The buying was based upon reports of an increased area affected by the green bug and statements of damage by frost in Indiana. The market eased off the middle of the day because of the report of a crop expert which made the condition of wheat on April 1st 88.1, compared with 91.2 on the corresponding date of last year. This report seemed to dispel some of the fears aroused by the reports of the "green bug" damage. The market rallied near the close on buying by shorts. The close was steady, the May up 1/4@1/2. May opened at 76 1/2@76 3/4; lowest, 76 1/4; closing, 76 1/2.

Corn.—The trading was very quiet, and the tone easier. Scattered liquidation by longs and some selling by receiving houses were in evidence. The primary receipts were large. The close was easy, the May off 1/4. May opened at 46 1/2@46 3/4; lowest, 45 3/4; closing, 45 1/2.

Oats.—May at the opening sold at 43 1/2, the highest price of the season. The advance was caused by covering by shorts alarmed at the congested condition of the market. The prices were easier later on selling by elevator interests. The May closed 1/2 down. May opened at 43 1/2; highest, 43 1/2; lowest, 42 3/4; closing, 42 3/4.

Receipts and shipments were as follows:

Flour, barrels	54,000	17,000
Wheat, bushels	24,000	68,000
Corn, bushels	385,000	110,000
Oats, bushels	326,000	142,000

The board will be closed tomorrow election day.

The clock ticks and ticks the time away. Shortening up our lives each day. Eat, drink and be merry. For some day you will be where. You can't get Rocky Mountain Tea. (Free samples at The Stafford Drug Co.)

The Lesson of the Eagle and the Weasel

The familiar story goes that once, when an eagle pounced upon a weasel and soared with it high into the air, the weasel fastened its fangs deep into the eagle's breast and commenced to draw its life-blood. The eagle tried to shake the weasel off, but the weasel hung on until the eagle fell lifeless to the ground.

There is a moral in this for every sufferer from coughs or colds. Don't let your cough hang on—for every day it weakens your lungs and gradually wears down your system until serious lung troubles develop.

DR. D. JAYNE'S EXPECTORANT

is the oldest and most reliable cough remedy known. For 77 years it has been successful in relieving and curing Coughs, Colds, Bronchitis, Pleurisy, Inflammation of the Lungs, Croup and Whooping Cough. It is sold by all druggists in \$1.00, 50c, and 25c bottles. Get it for your cough today.

Jayne's Tonic Vermifuge is a gentle and effective tonic for adults and children. A safe Worm Cure.

BOY BURNS TO DEATH.

Cincinnati, April 1.—Henry Brake, aged five, was burned to death and four other members of the family were injured in a fire which destroyed the Brake residence in Covington, Ky., tonight.

Chicago, April 1.—Sergeant John A. Griffin, of the Ninth cavalry, who last Christmas shot and killed Corporal Taylor at Fort Sheridan, was today sentenced by the federal court to nine years and seven months in the military prison at Fort Leavenworth.

Mr. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did, I could not stand straight. I took Foley's Kidney Cure. One dollar bottle and part of the second cured me entirely. Foley's Kidney Cure work wonders where others are total failures. The Stafford Drug Co.

Brigadier General Andrew S. Burt is an enthusiastic sportsman, his especial hobby being baseball. At one time he was colonel of a colored regiment, two companies of which were having a game. Colonel Burt took the place of a poor player, but the men on the coaching lines did not shout him off as they did to the privates. The colonel took off his uniform coat and demanded to be treated like the other players. Shortly he came to bat, hit the ball and started for first. "Run, you skimp-legged, sawed-off mud turtle," yelled a coacher. "Get a move on you, you miserable runt," Colonel Burt got around the bases to this sort of accompaniment. Then he put on his coat again.

TORTURED BY ITCHING SCALP

Eczema Broke Out Also on Hands and Limbs—Suffering Intense—Doctors Said Too Old to Be Cured—An Old Soldier of 80 Years Declares:

"CUTICURA TREATMENT IS A BLESSING"

"At all times and to all people I am willing to testify to the merits of Cuticura. It saved me from worse than the tortures of hell, about the year 1900, with itching on my scalp and temples, and afterwards it commenced to break out on my hands. Then it broke out on my limbs. I was advised to use salt and water, which I did, to no effect. I then went to a Surgeon, who commenced treating me with a wash of borax. This treatment did me no good, but rather aggravated the disease. I then told him I would go and see a physician in Erie. The reply was that I could go anywhere, but a case of eczema like mine could not be cured; that I was too old (80). I went to an eminent doctor in the city of Erie and treated with him for six months, with like results. I had read of the Cuticura Remedies often. I was strongly tempted to give them a trial, so I sent for the Cuticura Soap, Ointment, and Resolvent and continued taking the Resolvent until I had taken six bottles, stopping it to take the Pills. I was now getting better. I took two baths a day, and at night I let the lather of the Soap dry on. I used the Ointment with great effect after washing in warm water, to stop the itching at once. I am now cured.

"The Cuticura treatment is a blessing and should be used by every one who has itching of the skin. I can't say any more, and thank God that He has given the world such a curative. You can use this letter as you please. A very much befriended friend, Wm. H. Gray, 3303 Mt. Vernon St., Philadelphia, Pa., August 2, 1905."

Complete External and Internal Treatment for every form of Itching, 100% Cure Guaranteed. Cuticura Remedies often. PEOPLE'S PARTY TRIUMPHANT.
Elects Entire City Ticket and Carries Most of the Wards.

Ishpeming's municipal election resulted in a victory for the People's party, headed by W. J. Roberts for mayor. Not only were all this faction's nominees on the city ticket successful, but in six of the ten wards, the People's candidates won out and in one other—the Third—only the aspirant for aldermanic honors met with defeat. The People's carried the First, Fifth, Sixth, Seventh, Eighth and Tenth wards, and in the Third it elected the supervisor and constable. Mayor Roberts' majority over John S. Olson, head of the Citizens' party ticket, is 104. William Andrews is re-elected municipal judge by a lead of 390 votes over Treblecock and of 215 over both Treblecock and Peters, who ran independently. Sundberg for treasurer, is successful by seventy-five majority, and Corneliuson, for school inspector, leads his opponent by 121 votes. By electing six aldermen yesterday, the People's party will have a representation of nine in the common council—ten with the mayor—against eleven aldermen elected this year and last spring on the Citizens' party ticket.

Ishpeming's Vote in Detail.
The vote for the People's and Citizens' candidates on the city ticket compares as follows:
Mayor—Roberts, 1,030; Olson, 955.
Municipal Judge—Andrews, 1,091; Treblecock, 791; Peters, 175.
Treasurer—Sundberg, 1,908; Johnson, 933.
School Inspector—Corneliuson, 1,021; Mollinen, 908.
The vote in the wards, given in order, from the First to the Tenth, in each case, is as follows, the People's principal candidate appearing first in each instance:
—Supervisors—
Lavigne, 91; Adams, 51.
Clairmont, 71; Hulst, 136.
Gill, 138; Pearce, 154.
Carlson, 120; Nord, 152.
Vivian, 118; Goodman, 92.
Williams, 135; Fransen, 110.
Nault, 87; Smith, 57.
Gustafson, 83; Miners, 46.

WANT BASEBALL TEAM.
Public Meeting Tomorrow Evening to Consider Organization Plans.

There are a large number of Ishpeming baseball fans who favor the organization of a semi-professional team; also a league to include Ishpeming, Negaunee, Marquette, Iron Mountain, Crystal Falls and Escanaba. This same plan was suggested a few weeks ago by Negaunee fans.

A meeting has been called for tomorrow evening at the Nelson House to talk over the advisability of organizing a team, also the proposed league. It will not be in the power of the Ishpeming men to take any definite steps for the organization of a league, but some suggestions will be offered, and a committee will probably be named to confer with the fans of the other five cities, with a view to arranging for a general meeting. An Ishpeming man, who has always been a liberal supporter of teams here, yesterday said that he found a strong sentiment in favor of both a team and a league.

VIR COMPANY'S MEETING.
Members of Local Organization Conducted Interesting Session.

The Vir Development company, recently organized for parliamentary training and debate, under auspices of the Young Men's Christian association, held its second regular meeting at the Y. M. C. A. secretary's office in the McKay block Friday evening. The principal feature of the evening was a debate on the subject: "Should Expeditions to Search for the North Pole Be Encouraged?" The affirmative side was upheld by Messrs. Biegler, Terrill, G. Tellefsen and Anderson and the negative by Messrs. Goodsell, Richard, Ans and W. Tellefsen. The question was discussed for an hour, the speakers on both sides bringing out some good points.

The judges, E. Allen, C. C. Quayle and W. Rose, gave a decision in favor of the negative. J. Saunders was to have given a talk on the "Slump in the Stock Market," but he was unable to be present. The program was concluded with an interesting and instructive lecture on "Parliamentary Training" by President Goodnow. The next meeting will be held a week from Friday evening, the 12th.

ORGAN AND SONG RECITAL.
The members of the Young People's society of the Swedish Bethany church expect a large attendance at the organ and song recital Thursday evening at the church, by Miss Tekla Farm and Richard W. Pellow. Many tickets have already been sold. Miss Farm is always welcomed by her many friends here and as she is to be aided by one of the finest pipe organ soloists of the country it is anticipated that the entertainment will be an exceptionally fine one. The following mention of Professor Pellow's work at a concert, given a year and a half ago at the Merrimack Park Presbyterian church in St. Paul is from a paper of that city: "Professor Pellow's playing is marked with fine phrasing, delicate shading and variety in registration. His conception of Bach was majestic. It was thoroughly intelligent and consistent in dignity and grace. We hope to hear more of this artist."

NATIONAL PROTECTIVE LEGION.
The Ishpeming branch of the National Protective Legion has elected officers as follows for the ensuing year:
Past President—Mary A. Moody.
President—Mary A. Wasley.
Vice President—Sarah Keskeys.
Secretary—John T. Bennetts.
Treasurer—Sarah J. Harris.
Chaplain—Mary Pascoe.
Conductor—Mary Atwell.
Guard—Jane Reed.
Sentinel—Caroline Drev.
Trustee (three years)—Ernest Bengry.
Degree Master—Thomas Warrick.
The installation will take place the evening of April 11. The branch has had a large increase in membership the past year. From two to a half dozen members are taken in at nearly every meeting, and the total membership now numbers over 400. The branch was organized eight years ago. All of the original members who retained their membership through the first five-year period received their pay-off, and many who joined later have since received a similar benefit. Before the close of this month seven members are to receive payments, part of the number obtaining \$150, and others \$500.

PRaise for Miss Hall.

Canadian Publication Speaks Highly of Violinist Who Is Coming Here.

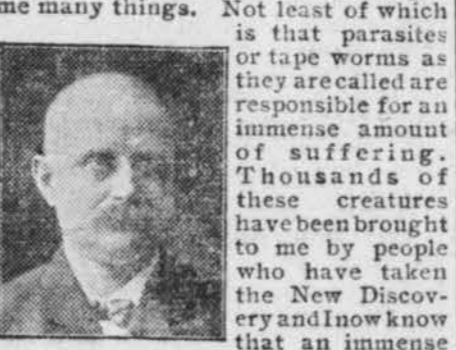

Miss Marie Hall, the talented young English violinist, who will be heard at the Ishpeming theater the evening of April 11, under auspices of Sons of St. George societies, has been highly praised by the press of this country and Canada since her arrival from abroad. The following from the Toronto Globe of recent date is only one of many favorable press comments received:
"No solo violinist who has appeared in this city during the past twenty years has won a greater triumph, judged by the evidence of the applause, than did Miss Marie Hall, the young English artist, who last evening at Massey hall, gave a recital, unassisted by anybody save her accompanist. The audience marvelled at the wondrous performance of this fragile girl with thoughtful eyes and expressive features, who, goaded simply in white, came modestly forward and without apparent self-consciousness, played the most difficult compositions in the range of violin music with supreme ease of technique, distinctive beauty of tone, and flawless intonation. The measure of her success may be estimated in recording the fact that she was recalled fourteen times during the evening, a demonstration of approval which she acknowledged by giving four extra numbers."

CHANGES IN SALOONS.
Charles Gustafson, bartender for John Anderson, and Peter Gunnerson, holding a similar position with John Ring, have formed a partnership and will engage in the liquor business May 1, in the Swedish Home society's block, now occupied by Mr. Ring. The latter is to move to the Gravelock building, occupied by Anton Friberg. Friends of Mr. Friberg, who has been in the south-west since last fall, understand that he is to retire from the business here, and that he will probably locate elsewhere. Erick Carlson, doing business in the Scandinavian society's block on Second street, previous May 1, and his place will be occupied by Charles Wallensline, for some time past employed as Carlson's bartender.

SHORT TALKS BY L. T. COOPER.
INTERNAL PARASITES.

Cooper's New Discovery has taught me many things. Not least of which is that parasites of tape worms as they are called are responsible for an immense amount of suffering. Thousands of these creatures have been brought to me by people who have taken the New Discovery and now know that an immense amount of supposed stomach trouble is caused in reality by one of these parasites. A man or woman may be afflicted in this manner for years and not realize the true cause of their suffering. When I first sold Cooper's New Discovery I did not know that the medicine would remove this trouble. I have since found that it invariably does so. The following letter is a fair sample of the symptoms as experienced by an individual thus affected:
"I was always tired. My stomach bloated and the slightest exertion made me sick, weak and dizzy. My appetite was variable and a good night's sleep was unknown to me. When I awoke in the mornings I had a bad taste in my mouth and a coated tongue. I heard of the wonderful benefits that were being derived from Cooper's New Discovery, and decided to try it."
"The horrible tape worm, sixty feet long that had been sapping my life away, passed from my system alive and squirming after I had taken three boxes. Now I have a splendid appetite, every trace of stomach trouble has disappeared and my digestion is good. I sleep well and am gaining in strength every day." Nick Emmerick, 1344 Louis Ave., Milwaukee, Wis.

REO 1907 TOURING CAR \$1,250
F. O. B. LANSING

19-20 horse-power, 94-wheel-base. Five passengers. Detachable tonneau. Two speeds and reverse. REO disc clutch. 39 miles an hour. Full lamp equipment. Top \$75 extra.

The car that beat 60 cars of double and triple its price, at hill climbing—
The car that won more than 20 cups, medals and trophies from bigger and costlier cars—
The car that holds its class record up Mt. Washington; and that crossed Mt. Hood, and the 12,000 feet Raton Range, in New Mexico—
The car that carried four passengers 1,050 miles over rough roads without stopping, motor-repairs or car repairs—
The car that won the National Economy trophy and four other prizes in the same contest; and that carried its passengers at a total cost of 39 cents each per 100 miles—
The car that was penalized 30 per cent, and practically barred out of the great 2 Gallon Efficiency Contest—
The only car that ever crossed this continent and back again on its own wheels—
The \$1,250 car which does all that the average \$3,000 car does—and more than most of them—
That is the car whose merit and real economy are self-evident. That is the car which you cannot afford to overlook. Write for the book that tells why.

EPIDEMICS DIVERT BUSINESS.

"The recent epidemic of diphtheria and scarlet fever in the city have, it is reported, diverted thousands of dollars' worth of business from Chicago. In order to allay the fears of towns and cities near Chicago, which were said to be considering quarantine measures until the epidemic had passed, Health Commissioner Whalen called a consultation of big commercial interests which resulted in active co-operative measures being taken to prevent the spread of disease and stamping out the epidemic."—From American Carpet & Trade Record, Philadelphia, March 10, 1907.

There is no greater source of infection than that related to the handling of carpets that are often sold from such homes in infected districts and cities. They as a rule are bought up by the City Rug Factories and lend their presence to infect other innocent patrons. In having your rugs made up from old carpets you will avoid all this risk by shipping to a well known sanitary factory that insures you against any chance of this kind we refer to

PROMISING TRACT LEASED.

New York State Steel Company Will Explore Gibson Acreage Near Amasa.

The New York State Steel Company, operating properties on the Mesaba range, has taken a lease on the Gibson tract, near Amasa, on the Menominee Range. This land was acquired some years ago by Thorburn Gibson of Amasa, Barney Levine, Mrs. Sarah Wilson and Frank Pascoe of Republic and Matt Gibson of Champion. Some five or six years ago the late William Anderson of Negaunee had the property under option, and it was at one time thought that he would dispose of it at a price very little under \$100,000. One has been discovered at several points on the land, Mr. Gibson having done considerable work there. The following relative to the property and the deal just closed is from a Saturday issue of the Crystal Falls Diamond Drill:

"The Crystal Falls district has a new concern interested within its zone. The New York State Steel Company, a wealthy corporation owning furnaces at Buffalo and other New York points, has taken the new finds made by J. Thorburn Gibson northwest of Amasa.

"This exploration is located on section 5, 44-23 and the option embraces the east half of the northwest quarter of the said section. One forty of the tract is owned in fee by Dr. D. M. & M. Company and the other by Mr. Gibson and others, it being a part of a large tract of land owned by these parties in that vicinity.

"The exploration has been pronounced to be the best showing in Iron county, by several mining men of prominence who have inspected it. It is the intention of the new option holders to start drill work at once to show up the ore that was found in the churn drill holes put down by Mr. Gibson.

"This exploration is considerably west from the 'beaten path' of the explorers in that section of the Crystal Falls district and to Mr. Gibson must be given the credit for leading the exploratory work to new quarters.

"Mr. Gibson is, probably, the best posted man in the county on that section and to his energy and exertions is credited every one of any consequence in that section. He it was who discovered and opened the Hemlock. Later he opened the Michigan and later the old Gibson, now being explored by the Illinois furnace people. This new find is another feather in his cap.

He informs a reporter for the Diamond Drill, that he has several other pieces of land that he considers likely and will now turn his attention to exploring them."

BOWLING SCHEDULE.

The bowling contests between teams of the three-men league opened last evening with tonight the Wolves and Eagles; tonight the Pikers and Indians will play; Wednesday evening the Ravens and Green Sox; Thursday the B. O. K. and Ice Wagon; Friday, the Cubs and Hustlers; Saturday the White Sox and Kings. In the prize game last Saturday evening the Pikers won from the Cubs by a total of eighty pins, the score being as follows:

Pikers.....	169	163	196	528
Johnsons.....	166	127	169	462
Hooper.....	141	179	158	478
Totals.....	476	469	523	1468
Cubs.....	134	140	187	461
Sporely.....	138	176	164	478
Klein.....	128	133	188	449
Totals.....	400	449	539	1388

CARS WORKED HARD.

The new street cars were in use the greater part of Sunday and despite the disagreeable weather they were crowded at times. Many people made the round trip to try the cars. It was found that the brakes needed adjusting. The brake rods and chains were too long and they were so stiff that the brake bands would at times cling to the wheels. The cars were run until the final trips, but yesterday morning they were not taken out until the brakes were put in better order. The new cars get over the line, particularly between here and the railway crossing at Ishpeming, in good time. They climb the hills well, and the engine end will be necessary to put in larger feed wires.

MARRIED SUNDAY EVENING.

Uno S. Berglund, the photographer, and Miss Ella Ito, for some time employed as clerk in Levine Bros. store, were united in marriage Sunday evening at the home of Werner Nikander. The bride is a sister of Mrs. Nikander. Rev. Sorenson, pastor of the Finnish Lutheran church, performed the ceremony in the presence of fifty or more of the contracting parties' most intimate friends. The guests were entertained during the evening.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Gustaf, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market today.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. The Stafford Drug Co. special agent.

A CARD.

It stops the cough, loosens the lungs and prevents serious results from a cold. Cures the grippe coughs, and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. The Stafford Drug Co.

CLOSE FIGHT IN THE THIRD.

Edward Corey Defeats Hugo Muck for Supervisor by One Majority.

Only in the Third ward was there opposition to the candidates of the Taxpayers' party in the municipal election yesterday, and in this precinct the fight was notably close and exciting. Edward Corey, running on the Taxpayers' ticket, and Hugo Muck, an independent candidate, fought hard here for membership on the county board, and the former won out by one majority. His vote was 79, and that of Mr. Muck 78. Nicholas Laughlin, Jr., defeated Louis Villeneuve for alderman in this ward, polling 91 votes to 64 for his opponent.

There were cast for the city ticket a total of 536 ballots, or a little over one-half of Negaunee's normal vote. The vote given the various nominees, all on the Taxpayers' ticket, was as follows: L. H. Winter, mayor, 447; Wm. H. Mitchell, recorder, 470; Charles Olson, treasurer, 467; E. C. Anthony, school inspector, 468; Theophile Roy, justice of the peace, 469. Charles Grandberg, Anthony Lavalle, Charles Vincent, John Mitchell and Adolph Wheeler were elected constables by votes ranging from 466 to 470. In the wards, votes were cast for the successful candidates as follows:

- First—Supervisor, E. Toms, 86; alderman, John Deacon, 89.
- Second—Supervisor, Napoleon Market, 85; alderman, Charles Johnson, 84.
- Third—Supervisor, Edward Corey, 79; alderman, Nicholas Laughlin, Jr., 91.
- Fourth—Supervisor, Joseph Barabe, 131; alderman, C. B. Driscoll, 129.
- Fifth—Supervisor, Richard Roberts, 51; alderman, William Haggaton, 51.

LIGHT REGISTRATION.

Only seventy-two names were registered in the five wards of Negaunee Saturday. There would not have been this number had it not been for the contest in the Third ward, where the candidates and their supporters worked hard. No particular effort was made to bring out the voters to register. In the Third a majority of the new names placed on the poll books were men working on the spur being built into the Jackson mine by the Lake Superior & Ishpeming Railway company. These men have been living in boarding cars for more than a month past. The total number of registrations in the Third ward was thirty-two; the First had nine; the Second, eleven; the Fourth, nine and the Fifth eleven. Yesterday was one of the quietest elections seen here in many years. There was no work at any of the mines, except in the repair department, where some work was done to better advantage when the miners were idle than at any other time, and there was very little stir around the polls, except in the Third.

ISHPEMING

FROM HOPKINS' CURE LETTER.

"Heavy accumulation of buying orders started things off with a rush, and business became brisk and considerable covering was noted. The Calumet & Arizona statement is out and regarded as a very bullish document on that stock. The statement shows an excess of assets over liabilities of \$4,696,827 or approximately \$23 a share. The company received an average of 17.93 for its metal for the year. Had the last three months' production been figured in, it would have shown an average of 19 cents per pound. The total production amounted to 37,500,000 pounds of refined copper; costs were about 6 cents per pound. The Superior & Pittsburg statement is somewhat of a disappointment to a great many stockholders. A summary of this statement shows that 110,000 tons of ore was produced and refined averaging slightly better than 4 cents per pound. Construction costs and development work total up about \$1,500,000. Production amounted to slightly over 9,000,000 pounds which was sold up to last October for an average of 17.35 cents per pound. Production

IT'S ARBUTICLES YOU BET

Yes, and "you bet it's good."

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

now is at an increased rate over last year of about 50 per cent."

ISHPEMING IN BRIEF.

The stores of the city closed yesterday at 1 o'clock, remaining closed the rest of the day.

Miss Geraldine Quinn and Miss Nellie Kennedy have gone to the copper country on a visit to friends.

Mrs. William Ripper and Miss Florence Pearce have returned home from a two weeks' visit with friends in Chicago.

It was four degrees below zero in this city yesterday morning at an early hour, this being several degrees colder than it had been for nearly a month.

The Ishpeming City band was out yesterday and rendered a number of selections on the business streets, as well as at the polling places in the several wards.

A special meeting of the city council will be held tomorrow evening, when the vote in yesterday's election will be canvassed and the finance committee will present its report for the past year.

Ed. Dehnenner and his sister, Alice, of Champion, spent Sunday visiting M. F. Lally and family, they having stopped off on their way from Milwaukee, where they purchased goods and fixtures for their mother's store.

S. H. Vaughan, for the past four years passenger and freight agent of the Lake Superior division of the Chicago, Milwaukee & St. Paul road, with headquarters in Milwaukee, has been promoted to the Des Moines division, succeeding E. C. Nettles, who has been advanced to the position of general agent.

Mr. Vaughan is very well known in this section, as for some time prior to his promotion to the position he held in Milwaukee he was the company's general agent, with headquarters in the copper country. While no announcement has been made as to who will succeed Mr. Vaughan it is likely that H. E. Stuart, the present general agent, with headquarters in Houghton, will be selected.

The Alma Glee club, assisted by three clever artists, will give an entertainment this evening at the Ishpeming theater, under auspices of the Epworth league of the Presbyterian church. An admission of thirty-five cents will be charged for seats on both floors, no seats being reserved in advance. The price for the gallery will be twenty-five cents.

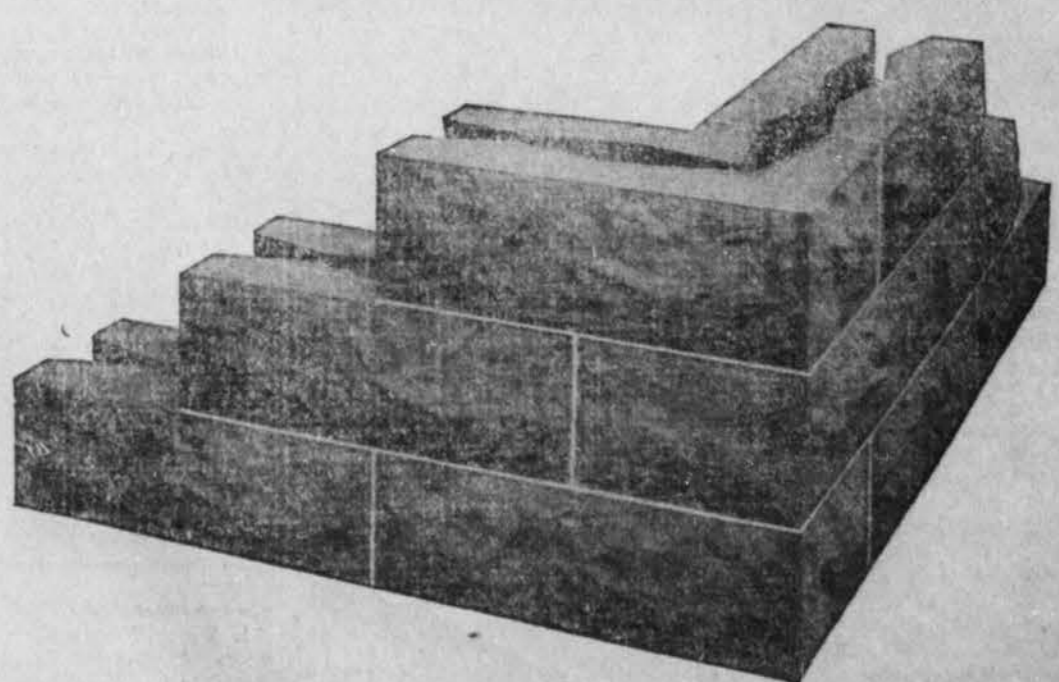

The first big meeting of the Ishpeming branch of the Clerks' union since before Lent will take place this evening at the Mine Workers' hall. A class of about a dozen new members will be received and following the business session a short musical and literary program will be rendered, after which there will be dancing. Lunch will also be served.

The beautiful piano to be used by the Alma College Glee club at Ishpeming Tuesday evening is a Kimball, and is furnished gratis by A. E. Whitney, general agent for the W. W. Kimball company.

AWNINGS.
The Kelly Hardware Co. can furnish you with awnings for stores, public buildings or residences. Any size. KELLY HARDWARE CO. (3-27-11) Marquette.

Are You Going to Build This Spring?

Do you know lumber is higher and poorer than ever before?

THE ANCHOR CEMENT BLOCK meets the building problem fully. It is economical, everlasting, very warm, saves fuel, requires no paint, looks good, unlike wood it does not rot with age but gets harder and stronger. Anchor Cement Blocks make a perfect fireproof wall as plastering can be put direct on the block without furring and lathing. Our Cement Chimney Blocks and Porch Column Blocks cannot be beat by any other masonry construction. We refer you to the Dawson residence, Fifth Street, built with Anchor Blocks last season.

MITCHELL & SHERMAN, Ishpeming, Michigan.

Wahlman & Son Contract for Buildings using Anchor Block.

JOHN ROBERTSON IS ELECTED MAYOR

CITIZENS' PARTY CANDIDATE HAS MAJORITY OF 466 OVER JACOB P. WERNER.

DONOVAN WINS BY THREE

Only Close Contest Is For Recorder, Candidate on People's Ticket Winning By Small Margin—Ward Is Downed in the Fifth.

Mayor—John Robertson. Recorder—Daniel S. Donovan. Treasurer—R. P. Byrne. Justices of the Peace—Samuel E. Byrne, Edward J. McCarthy. Constables—Jacob Dolf, Christ Peterson.

Supervisors-at-Large—Nicholas Hankala, Charles Krieg, Zacharie Vadnais. Alderman-at-Large—John A. Williams.

Close Contest For Recorder.

The real contest was on recorder, for which office Daniel S. Donovan, the present incumbent and the candidate on the People's ticket, was elected by a majority of three over Edward J. McCarthy, the candidate on the Citizens' ticket.

Ward Is Defeated.

The results in the wards contained few surprises. Martin Gorman, the Citizens' party candidate, was downed by William Wiseman for supervisor in the First. In the Fifth ward, Walter T. Ward ran on slips, and made a strong run, but when the votes were counted, Herman Schauer had a majority of 45 over Ward.

180; Second, 172; Third, 244; Fourth, 306; Fifth, 274. Total, 1,176. Jacob P. Werner, People's—First, 181; Second, 166; Third, 119; Fourth, 172; Fifth, 72. Total, 710. Robertson's majority—466.

Supervisor—Martin Gorman, Citizens', 161; William Wiseman, People's, 190. Wiseman's majority—29. Alderman—John Downey, Citizens', 213; George Knapp, People's, 142. Downey's majority—73.

Supervisor—Joseph Fay, Citizens', 175; Albert Fleury, People's, 133. Fay's majority—40. Alderman—Peter J. Donovan, Citizens', 183; Michael Hennessy, People's, 113; Donovan's majority—70.

Supervisor—Daniel W. Powell, 270. Alderman—Robert Peters, Citizens', 194; J. E. Ball, People's, 164. Peter's majority—30. Fourth Ward—Supervisor—Jacob Smith, Citizens', 280; Joseph F. Neidhart, People's, 191. Smith's majority—89.

Alderman—George Reichel, Citizens', 293; James T. Gray, People's, 176. Reichel's majority—117. Supervisor—Martin Sweder, Citizens', 269; James E. Tobin, Jr., People's, 70. Sweder's majority—199.

Alderman—Herman Schauer, Citizens', 169; Emil Gustafson, People's, 43; Walter T. Ward, 124. Schauer's majority—126. Bonding Question—Yes—First, 186; Second, 84; Third, 230; Fourth, 211; Fifth, 152. Total, 869. No—First, 112; Second, 38; Third, 76; Fourth, 145; Fifth, 153. Majority in favor—343.

Normal Republican majorities were given to all candidates for state offices on that ticket. Two wards, the First and Second, failed to return the vote on the amendments to the constitution, and of the three which did report, the Fourth and Fifth, returned majorities against the amendment relative to prison labor. The other amendments were favorably voted upon.

The vote on the prison labor amendment was as follows: Yes—Third, 156; Fourth, 139; Fifth, 46. Total, 341. No—Third, 61; Fourth, 180; Fifth, 179. Total, 420. Majority against—79.

Majority against—79. County superintendent of schools, Albert Sterne had no opposition, and a heavy vote was polled for him in the city. Escanaba Election.

Mayor Perron was re-elected yesterday at Escanaba, by a majority report, ed as 267. He ran against McMartin, standing by his record during the past year. Abbott voting machines were used to poll the vote. The returns were complete at 5:20 o'clock, an interesting fact for Marquette people who were still looking for official figures at a late hour last evening. The vote in favor of purchasing the machines ran about three to one.

Abbott machines used at Manistique, Iron Mountain and in Brampton township, Delta county, also gave excellent satisfaction. AWNINGS.

FAVORS CHANGE IN PRESENT LAW

NUMBER OF TEACHERS SHOULD GOVERN DISTRIBUTION OF PRIMARY SCHOOL MONEY.

STATE DEPARTMENT SAYS SO

Manifold Advantages in Proposed New Way of Handling the Funds—Bill Has Been Presented to Legislature.

The state department of education favors changing the present method of apportioning primary school money, on the basis of school population, to a distribution on the basis of the number of teachers employed, believing that the proposed change would give a more equitable and helpful distribution of those funds. The method of distributing the primary school interest funds, according to the school census has been used since the rate bill was abolished, and the state fixing this method was probably based upon the idea of the rate bill, or that the cost of the school depends upon the number of children. Years of experience, however, have shown that this is not a true basis for computing the cost of a school. It should cost practically as much to conduct a school for ten or fifteen children as for forty or fifty, as equally good teachers are necessary, also a schoolroom fuel and certain incidental expenses. The present method of distributing the state funds gives to the district with few children a very small amount while to the district with a larger number of children a much larger amount is distributed. This system discriminates sharply against the schools in the poorer and more remote parts of the state.

There are strong arguments for the bill providing that the apportionment shall be based upon the number of teachers employed in the public schools, and that where children are instructed in schools other than public schools one teacher shall be counted for every fifty such children. This latter provision is based upon the fact that the parents of such children are required to pay school tax and have a right to have their school tax diminished because of the state aid.

Rather Startling Conditions.

Statistics received from the several school districts of the state show rather startling conditions in regard to the appropriation and use of the primary school interest fund. The law limits its use to the payment of teachers' wages and there are 1,200 districts in the state which receive more money from this fund than is used for teachers' wages and the balance tied up at the end of the year in the treasuries of these districts amounts to over \$200,000. At the same time there are 1,000 districts in the state with less than fifteen children, and 850 districts in the state unable to maintain school for more than six months. If this surplus could be distributed to these small districts the state could be doing its full duty toward the education of all the children. The present system of apportionment makes it impossible to relieve the people in the sparsely settled and poorer portions of the state.

This question is one in which every citizen is vitally interested and the following facts and figures are given in order that the people may more thoroughly understand the situation. It must be understood that all the taxes received from corporations, that is, the entire primary school fund, is to be appropriated for the use of the public schools and no part of it diverted to any other use, also that the proposed method of distributing the funds will give less money to the 1,200 districts which now receive more money than they can use, but that all other districts will receive more money, or as much money as they now receive, including nearly all cities. The following statement of fact and conclusions are given, based upon reports made by school officers to the department of public instruction.

Statement of Fact.

- Number of school districts, 7,267. Approximate amount of money to be apportioned hereafter each year, \$3,700,000. Approximate number of children on census, 745,000. Approximate number of teachers employed, 15,000. Approximate apportionment per child, \$5.00. Approximate apportionment per teacher, \$250. Number of districts under present method receiving more money than used for teachers' wages, 1,296. Number of additional districts receiving from primary money and mill tax more than used for teachers' wages, 3,297. Surplus of primary money in these districts unused at end of year, \$830,670. Number of districts receiving less than needed for teachers' wages, 2,674. Number of districts able to maintain five months of school only, or less, 200. Number of districts able to maintain between five and seven months only, 648. Total number of districts able only to maintain less than seven months of school, 848. Number of school districts in the state having less than fifteen children, 1,000. Average cost per annum for single-room rural schools, \$340.

Conclusions.

1. These figures show that 1,200 districts received more primary money than they needed.
2. That 2,600 districts received less than they needed for teachers' wages.
3. That 850 districts are not able to maintain more than the minimum amount of school required by law.
4. That nearly a million dollars of surplus is on hand at the end of the year, tied up and doing no one any good.
5. The present method of apportionment is therefore inequitable and discriminates severely against certain parts of the state.
6. The state should treat each dis-

trict on the same basis, in order to provide the greatest good to the greatest number.

7. The cost of schools does not depend upon the number of children. Therefore the number of children is an unfair basis for state aid.

8. The cost of school mainly depends upon the number of teachers employed, therefore this is the proper basis of apportionment.

9. The approximate amount paid for teachers' wages in the state is \$6,000,000. The apportionment being less than \$4,000,000 will, if based upon the number of teachers employed, use all the primary money each year and the necessity of raising \$2,000,000 by tax will be a sufficient check against an undue increase of the number of teachers.

MARCH WEATHER REPORT.

Summary of Weather Prevailing During Month Just Closed.

March of 1907 fully came up to the general records of that most changeable of months, according to the summary of March weather conditions issued by the United States weather bureau yesterday. March winds swept over Marquette with a vengeance, the total movement during the month being 8,410 miles a day. The prevailing winds were from the northwest and the greatest velocity was attained on the nineteenth, when it swept from the northwest at the rate of 56 miles an hour for a continuous five minutes.

The highest temperature was reached on the twenty-second, when the mercury mounted to 59 and the lowest was 2 degrees on the sixth of the month. The greatest daily range was 28 on the eleventh and the least daily range 6 degrees on the third. The mean temperature for the month was 28 degrees, considerably higher than the mean for the month for five years back. The mean for the month for 36 years is 23.8, the record for the month just past showing an average daily excess of 4.6 degrees. The absolute maximum for March for 36 years is 70 degrees and the absolute minimum 16 degrees below zero.

The total precipitation for the month was 1.34 inches, the least precipitation for March since 1902. The average precipitation for the month for 36 years is 2.30 inches. The snowfall during the month was 7.2 inches. The greatest precipitation in any twenty-four hours was .5 inches on the 23rd and 24th. There was no snow on the ground at the end of the month.

NEW STAMPS SOON ON SALE.

Postmaster Mangin has been advised by the postoffice department that requirements may now be made for the special issue of stamps to commemorate the founding of Jamestown. A requisition for these stamps will be made in a few days and they will be sold to the public not earlier than April 25, nor later than Nov. 30, 1907. This period includes the time the Jamestown exposition will be open. The stamps include one, two and five cent denominations.

The one cent stamp contains in a semi-circular frame the portrait of Capt. John Smith taken from an old engraving and in the upper corners are medallions in oval frames of Pocahontas and Powhatan. Upon the scroll about the portrait is the legend, "Founding of Jamestown, 1607" and on the base, "Captain John Smith, 1580-1631".

The two cent stamp contains a picture of the landing of the adventurers in Jamestown in 1607. On one side is a tobacco plant and on the other a stalk of Indian corn. The legend, "Founding of Jamestown, 1607," is placed beneath the scroll.

The five cent series contains a portrait of Pocahontas in an oval frame with the name, "Pocahontas, 1595-1617," beneath the scroll on either side of the portrait are shields, their base resting on the lower part of which are scrolls with the words, "Founding of Jamestown, 1607." The stamps will not be issued in book form, nor will any envelope or special forms be issued.

DEATH OF SAMUEL REDFERN.

Passed Away Yesterday Morning at San Pedro, Cal.

Sheriff Rough received a telegram yesterday announcing the death of his brother-in-law, Samuel Redfern, up to a few years ago land agent for the Cleveland-Cliffs Iron company at Negeague, which occurred at San Pedro, Cal., yesterday morning at 11:15 o'clock. Death was sudden heart disease being the cause. Yesterday Sheriff Rough received a letter from Mr. Redfern, written about a week ago, informing him that Mrs. Redfern and the sheriff's niece, Miss Mary Hadrich, had left for San Francisco, so the sheriff is not sure they were in San Pedro when the end came.

The deceased was widely known throughout the upper peninsula because of his quarter-century connection with the Cleveland-Cliffs Iron company, the latter half of which he was land agent. He was about fifty-one years of age, and had resided in San Pedro about a year. His health had been poor for two or three years. The remains, it is expected, will be brought to Negaunee for interment.

Gymnastics alone can never give that elasticity, ease and graceful figure which comes by taking Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. The Stafford Drug Co.

SPECIAL NOTICE.

We will sell you whatever you need in the line of furniture, carpets and rugs at exactly the same prices and terms as you get from any Catalogue house in the city of Grand Rapids, Chicago or Milwaukee. We deliver goods in your home and save you breakage and cost of handling. We represent the same factories as the Grand Rapids Catalogue houses do, and we are on the ground to make good any errors. Give us your orders instead of sending away. You will not regret it. Bring Catalogues with you. HAGER BROS. CO. LTD.
