

DELMAS MAKES ELOQUENT PLEA

Thaw Case Is Closed, and for Nearly Three Hours the Chief Attorney for the Defense Addresses His Client's Judges.

His Argument a Striking Appeal to the Sympathies of the Jurors—Story of the Wife Is Made the Keynote, and in Turn the Mother of the Young Woman, the Slain Architect and Abe Hummel Become the Subjects of Bitter Denunciation.

New York, April 8.—The trial of Harry K. Thaw charged with the murder of Stanford White, is nearing an end. Attorney Delmas this afternoon began his closing address to the jury and after he had spoken for more than two hours and a half, adjournment was taken until tomorrow.

Mr. Delmas expects to conclude before the luncheon hour tomorrow. District Attorney Jerome will make the closing address Wednesday, and Thaw's fate should be in the hands of the jury Wednesday evening. Justice Fitzgerald today ordered the jury locked up until the end of the trial. In view of this the judge's charge to the jury undoubtedly will be delivered immediately the district attorney concludes.

Declaring that he would not base his plea upon the "unwritten law" because his client found ample protection in the written statutes of New York, Mr. Delmas made a striking appeal to the sympathies of the jurors, and so far as he progressed today the subject of Thaw's insanity at the time he committed the homicide was not even hinted at.

Wife's Mother Denounced. Mr. Delmas based his arguments only upon the story of Evelyn Nesbit Thaw. With flushed cheeks, but dry eyes, that young woman heard her life history repeated to the men who are to judge her husband and bowed her head as her mother was denounced in the bitterest terms and tones the eloquent lawyer could command.

"Ever a best protects its young," he declared with scornful emphasis, "but this unnatural mother deserted her daughter in this city of millions to be betrayed by a false friend, to be jured into a gilded palace and left there the victim of a gray-haired man—wounded, bleeding and devoured."

Mr. Delmas went with great detail into the life Evelyn Nesbit had led up to her meeting with Thaw. In all his remarks he referred to her as "this child," for a child he became the victim of Thaw's great love for her, and his efforts to rescue her from the "clutches of Stanford White," whose achievements in his profession, the attorney declared, "were an aggravation of his crime."

Architect Bitterly Attacked. Mr. Delmas before beginning his attack upon Evelyn Thaw's mother poured out a torrent of denunciation upon the architect who became the victim of Thaw's pistol. He accused him of "crime of rape," and then declared that President Roosevelt had said in a message to congress that such a crime should be visited with death. This was one of the suggestions which Thaw himself had made to his counsel for his summing-up speech—one of the suggestions which played so important a part in the proceedings before the lunacy commission.

Mr. Delmas declared that God had laid the eyes of the faded child upon whom White had fixed his gaze and had determined should be his. He quoted from the Scripture that "he who attacks a fatherless child shall perish," and declared that Providence had sent Thaw to avenge the wrong.

The attorney declared that Thaw is his wife's only protector—that he came into her life when she was on the downward path, told her that no matter what the world thought of her, she was to him an angel. He took her to be his wife, ready to share with her the joys of life, and had helped place upon her daughter.

Mr. Delmas accused Mrs. Nesbit of having lived upon the wages of her daughter's ruin. He sought to picture to the jury what he termed the sinister surroundings in which the girl had been reared, and in doing so he mercilessly attacked the mother.

Furnished Jerome's Arrows. The attorney for the defense rose to the highest point of his address when he told the jury that the girl's mother was the one who had furnished Jerome with the arrows with which to wound the daughter on cross-examination—a cross-examination which he declared would live long in the annals of criminal history, but which left the girl's story unshaken in all its essential details.

That Evelyn Nesbit's story was true, and was told to Thaw, formed the subject of an argument for more than an hour. Mr. Delmas declared that the only evidence the district attorney had to bring against the girl was a "mis-called affidavit" procured by Abraham Hummel, Slain Architect, and that no action was contemplated in her behalf. He said that the so-called affidavit itself convicted the man of these falsehoods.

Mr. Delmas devoted practically all his address today to a resume of the evidence of certain witnesses. The courtroom was crowded with an eager throng. Justice Fitzgerald's injunction that absolute quiet must be maintained was hardly necessary, for there was interest in every sentence of the attorney.

TWO CITIES TAKEN WITHOUT A FIGHT

Puerto Cortez and Ceiba, Honduras, Surrender to the Invading Nicaraguan Forces Without the Firing of a Shot.

Soldiers Defending the Towns Abandon Their Posts Prior to the Appearance of the Enemy, Returning to Their Work on Plantations Declaring the War Is Over, and in the Interim Order Is Preserved and Property Protected by American Sailors.

Mobile, April 8.—A steamer which has just arrived here brings the news that Puerto Cortez has fallen. The advice also states that Ceiba, Honduras, is in the hands of the Nicaraguans.

This latter information was contained in a message received this morning by the Thacker Steamship company over the telephone from New Orleans, stating that a cablegram had just been received from Puerto Barrios, Guatemala, to that effect. The Honduran railroad and cable have been in the control of the Nicaraguan army since the capture of Puerto Cortez, and all news from that post the past two weeks has been obtained by mail or telephone from Puerto Barrios.

Advice received today from Commander Wm. F. Fullam of the United States gunboat Marietta, via the steamer Columbia, just arrived, says that Ceiba was taken on the evening of April 7 by the Nicaraguan army, which is now in command of Commander-in-Chief Estrada. Ceiba was taken without a shot being fired. After taking Ceiba a portion of the Nicaraguan forces left for Puerto Cortez on board the gunboat Onetapote, a gasoline launch and a small gunboat. They were preceded to Ceiba by the Marietta to protect American interests. It had been agreed between General Estrada and Commander Fullam that Puerto Cortez should not be bombarded.

City Yields Without a Fight. New Orleans, April 8.—That Puerto Cortez was surrendered without fighting, and that about 3,500 Honduran soldiers abandoned the port two days before the Nicaraguan troops appeared, was the information brought here tonight by the steamer Anselmo, from Puerto Cortez.

The Hondurans did not desert their post through cowardice, according to these dispatches, but decided that war was over. They returned to the plantations where most of them had been employed as laborers before the war began.

United States marines closed all the schools in Ceiba after the abandonment of that port by the Hondurans. The following proclamation was issued by Commander Fullam, of the gunboat Marietta, and Virgil C. Reynolds, United States vice consul:

"To people of Ceiba: The generals of the Honduran army having left Ceiba, the civil authorities will assume charge of the city government. All liquor saloons will be immediately closed and remain so."

"Sailors from the United States ship Marietta will patrol the streets and assist the civil authorities to preserve order and protect property, foreign and private. The sailors are landed as friends of Honduras."

"All persons are warned that there must be no disorder or violation of the laws of Honduras, and all are advised to remain in their homes for the present. In case the Nicaraguan forces concentrate at Ceiba, they will not interfere with law-abiding people, and there need be no alarm whatever."

Cruiser Boston Relieves the Chicago. Washington, April 8.—The navy department was informed today that the cruiser Boston has arrived at Acapulco, Mexico, on her way to Amapala, Honduras, to relieve the cruiser Chicago, which has been ordered when relieved to proceed to Magdalena Bay, southern California, for target practice.

Information was received also that the gunboat Paducah has sailed from Port Limon, Costa Rica, for Trujillo, Honduras, for the better protection of the interests of the United States on account of the hostilities in progress in that city.

San Francisco. The Republican ticket was headed by Gillette, railroad man and anti-union labor. The Democratic ticket was headed by Bell, union labor and anti-railroad. Harriman wanted Gillette elected, and Hearst's independence league ticket accomplished it. Every appeal was made to Hearst to get him to pull off Langdon, but he refused. At the very same time Hearst was the regular Democratic candidate for governor of New York, and his attitude in California was injuring him in his own race in the east; yet appeals and insistence were vain. Langdon remained in the field, and as a result the pro-railroad, anti-union labor Republican was elected.

Supported Hearst in New York. "While the Hearst influence in California was thus working for Harriman's candidate in the west, it is common recollection that Harriman and Odell were for Hearst in New York. It seems to me the case is strong enough to justify all that has been said by the friends of the president about the combination of Harriman, Hearst and Rockefeller. Nobody doubts, I guess, that the Harriman and Rockefeller interests are united in railroad matters; and the record seems to show conclusively that Hearst and Langdon were in the field in California, headed by Langdon, district attorney at

ROYAL VISITORS GET OVATION.

British Sovereigns Accorded a Magnificent Reception in Spain.

Paris, April 8.—Official dispatches from Tangier say that the sultan in a proclamation read in the mosques has advised the population to maintain calm. He declares that France was within her rights in occupying Oudja, adding that the Moors by their excesses and outrages were themselves blameable for the step taken. The Moorish government was prepared to make sacrifices in order to restore good relations with France and terminate the occupation of Oudja.

NO BOMBARDMENTS OF COAST CITIES

IMPORTANT DOCTRINE PROMULGATED BY U. S. COMMANDER IN CENTRAL AMERICA.

Puerto Cortez, Honduras, April 4, via New Orleans, April 8.—An authoritative statement of great moment in the relations of the United States to the Central American republics has been given out here.

It is to the effect that the bombardments of coast towns cannot be permitted during the frequent wars and revolutions in Central American states.

"From this it is plainly evident that assurances regarding the safety of American and foreign interests would be of no value whatever unless bombardments of these unfortified wooden towns are forbidden, and it is equally plain that a population ordered here to protect American interests would be accused for subjecting these same interests to inevitable ruin by permitting the destruction of these towns by fire and bombardment."

"Fully three-fourths of the valuable mercantile and business houses in these towns are owned by foreigners. Neither foreigners nor their property should be permitted to occupy or take cover in these houses during the course of hostilities."

"Trusting that I may not be compelled to inform the United States government that I am mistaken regarding the attitude of the Nicaraguan forces toward foreign business interests on this coast, and hoping you will advise all proper complications by giving directions that foreign property shall not be subjected to destruction by fire and bombardment, I remain, etc."

FIRE IN NEW YORK CAUSES HEAVY LOSS

DAMAGE OF \$7,500,000 DONE WHEN CAR BARN AND POWER PLANT ARE DESTROYED.

New York, April 8.—As briefly bulletined in these dispatches in time for publication in this morning's newspapers, fire early today destroyed the car barn and power plant of the New York City Railway company, covering the greater part of the block bounded by Seventh avenue and 146th and 147th streets.

The loss will reach nearly one million dollars. More than three hundred cars were burned, and the electrical department was destroyed. One fireman—Captain J. Ryan—was killed under a falling wall, and half a dozen firemen were more or less seriously injured. None of the injured are in dangerous condition. It was supposed that six men had been killed along with Captain Ryan, but when reached by rescuers, all were found alive.

Dangerous Blaze at Galveston. Galveston, Tex., April 8.—Late this afternoon fire broke out in a second-hand furniture store between 24th and 25th streets, resulting in a loss of \$175,000. On account of a yard being the fire department was unable to check the flames until the buildings were totally destroyed. The fire is under control.

KLING BEHIND THE BAT. Premier Catcher Signs With the Cubs for Another Season.

Chicago, April 8.—John Kling, the mainstay of the National league team in the catching department, who has been holding out for more money, signed a contract today and will be seen behind the bat in the opening game here Thursday with St. Louis.

RAILROAD FIREMEN GET INCREASE IN PAY

AGREEMENT IS SIGNED AFFECTING THE ENGINEERS ON THIRTY-ONE WESTERN LINES.

Chicago, April 8.—An agreement between thirty-one railroads west of Chicago and the Brotherhood of Locomotive Firemen & Engineers was signed today.

The pay of firemen on all classes of engines is to be increased 25 cents per day of ten hours or less, 100 miles or less, over the rate in effect Jan. 1, 1907.

The rate for firemen in first class yards is \$2.25 per day of ten hours, with overtime pro rata; all other yards, \$2.15. The minimum rate for firemen in the passenger service on engines having cylinders under 18 inches diameter is \$2.25 per day of 100 miles or less, and \$2.50 on engines having 18-inch cylinders or over. An increase of fifteen cents per day of 100 miles or less is given to firemen on engines carrying the rate of \$2.50 or more.

In addition to the increase of pay, the firemen are to be relieved of all work in the cleaning of engines. The increase granted the firemen is estimated to be about in the same ratio as that recently granted the conductors and trainmen.

ISLE OF PINES NOT AMERICAN

Washington, April 8.—That the Isle of Pines is not American territory was officially and judicially declared today by the supreme court of the United States. The decision was rendered in the famous case of Edward J. Tracy against Governor Stranahan of the port of New York. The opinion of the court was announced by Chief Justice Fuller, who said that up to the time of the Paris treaty the Isle of Pines had been considered a part of Cuba, and that it could not be held to be covered by Article 2 of that treaty, which included only the islands in the vicinity of Porto Rico.

In announcing the decision, Justice Fuller referred to the Platt amendment, and passing the status of the island with reference to customs, said in conclusion: "The Isle of Pines continues at least de facto under the jurisdiction of the government of the republic of Cuba, and that settles the question before us, because the United States has never taken possession of the island as having been ceded by the treaty of peace, and as it has been and is being governed by that republic, it has remained a foreign country within the meaning of the Dingley act. There has been no change of nationality for revenue purposes, but on the contrary the Cuban government has been recognized as rightfully exercising sovereignty as the de facto government until otherwise provided."

SHARP EXCEPTION TAKEN

Justice White concurred in the result, but took sharp exception to the court's holding of Cuba's right to sovereignty over the Isle of Pines in view of the provision of the Platt amendment declaring that while the island is de facto Cuban territory, it should be made the subject of treaty negotiations. He said that by taking this position the court puts itself in an attitude of contradicting itself, for while it professes to sustain the attitude of the legislative departments of the United States toward the island, it immediately proceeds to discredit the former by a decision which recognizes only one proper way of adjusting the matter by treaty.

BLIZZARD AT MONTREAL

Montreal, April 8.—A terrific snowstorm is raging in Montreal and vicinity, something not known here at this time of the year since 1887.

BAD FLOODS FEARED IN WISCONSIN

Grand Rapids, Wis., April 8.—Nearly a foot of snow covers the ground from Sunday's blizzard. Much anxiety is entertained as to high water, as the Wisconsin river at this point is near the danger point by treaty.

STILL ANOTHER BOOST IN OIL

Quotations on All Grades Go Up Half a Cent a Gallon.

Cleveland, April 8.—The Standard Oil company today put up quotations on all grades of refined oil one-half cent per gallon.

EXPRESS FRANKS TABOOED

Can't Be Given Railroad Officials, Rules Interstate Commerce Commission.

Washington, April 8.—The interstate commerce commission has held that express companies cannot give frank to railroad officials. In an opinion given to a western railroad president today, Interstate Commerce Commissioner Late said: "The law does not permit of an express company to give transportation to officers or employees of railroad companies. The president or other officer of a railroad is as much bound by the law limiting free transportation as any one not connected with the railroad."

AGREEMENT IS SIGNED AFFECTING THE ENGINEERS ON THIRTY-ONE WESTERN LINES.

Chicago, April 8.—An agreement between thirty-one railroads west of Chicago and the Brotherhood of Locomotive Firemen & Engineers was signed today.

ISLE OF PINES NOT AMERICAN

Washington, April 8.—That the Isle of Pines is not American territory was officially and judicially declared today by the supreme court of the United States.

REFORM LAWS FOR IOWA

Des Moines, Ia., April 8.—"Reform" was the watchword of the Iowa general assembly and among the several hundred bills that became laws during the session closing last week were many bearing upon the conduct of public service corporations, insurance companies and on social conditions.

Within the next two years a state-wide primary law goes into effect. A law was passed applying to all cities of the first class giving the mayor power to appoint heads of all city departments. Then a law was passed authorizing cities of 25,000 population or over to adopt the system of government by commission.

In connection with the railroads the 2-cent fare bill was passed as well as an antipass bill, which practically conforms to the federal statute of that nature. Another important measure was a law prohibiting more than sixteen hours continuous service by railway employees. However, the legislature failed to pass the reciprocal demurrage bill.

The legislature failed to enact a law providing a separate insurance department for the state. It is said such a law is scheduled for two years hence. A uniform fire insurance policy is now required and numerous other laws came as the result of last summer's work by the Iowa insurance investigation commission.

Probably the most important measure along social lines is the establishment of a state reformatory and adoption of the indeterminate sentence system. A wife desertion law was passed and hereafter divorcees will be prevented from marrying within one year after a decree is signed except on special order of the court. Preventing the desertion of Memorial day by making it a misdemeanor to engage in any sport before 3 p. m. Authorizing the making of an additional tax of 1 mill on the dollar on all taxable property for park purposes. Amending the law governing the letting of public utility franchises so as to include heating plants. Prohibiting the use and sale of toy pistols, freerackers, dynamite caps and blank cartridges.

The steel plant which the United States Steel Corporation has decided to establish at Duluth will include a blast furnace, six openhearth furnaces, a blooming mill, rail and shape mill, two bar mills, by-product coke ovens, coal docks, shops, cement plant, etc.

The situation appears exceedingly rosy, and it is hard to perceive that the achievement for the year will not meet the brightest expectations to the fullest.

Washington, April 8.—Secretary Garfield of the interior department has headed off a scheme of some lumber companies in the Indian Territory to obtain twenty sections of fine timber land for almost a song.

The original bill providing for the allotment of the lands in the Choctaw and Chickasaw Nations provided that in the timber country the timber as well as the land should be valued.

A short time ago Secretary Garfield received a letter from a lumberman in Texas stating that he desired to make a bid on the timber and land, providing the matter was to be "run on the square" and all bids received and opened here instead of at Muskogee.

The former expert also valued the land alone at seventy-five cents an acre. People in that section claim the land is worth on an average of \$3 an acre.

Secretary Garfield took the matter up with Griffin Pinchot, chief of the forestry bureau, who was sent down to make an estimate.

After witnessing the successful test of the powerful British warship, Dreadnought, the United States naval architects are now planning the construction of a battleship that will surpass anything ever before constructed.

Copper Country

COPPER COUNTRY WINTER.

Polar Conditions Prevail in Spite of the Almanac.

The idea has been advanced in these columns on occasions that St. Patrick's day is the first day of spring, the pun naturally being followed by the idea that at that time everything turns green. But the copper country winter hampers this theory in a disheartening manner. The copper country winter was present yesterday in as full bloom as on New Year's day, and the only signs of spring were in the shop windows, where they bid fair to remain, unaccepted invitations, for several days.

During mid-March the indications were good for a pleasant spring and a fairly good summer, but winter was toying with the copper country and March was something like a lion when it departed. This condition has recurred intermittently and there was daily cause for hope until Sunday morning about the time the snow was going to early church. Then the snow began to fall, and it kept on falling. A call at the Houghton station of the weather bureau yesterday morning resulted in the information that seven inches of snow had come down in the preceding twenty-four hours.

The only saving grace the storm had was that it was not accompanied by a low temperature. If it had been there would have been a snow blockade of

serious proportions. This idea is one of the many interesting things which the weather bureau gives out at times. To understand it, it must be remembered that the weather bureau in measuring snow fall, as precipitation, first melts the snow. This is done to have a sort of standard, because snow is of varying degrees of density according to the temperature. Thus in cold weather when the snow is light and feathery, it takes more snow to measure an inch of water when the snow is melted than it does when the snow is damp and heavy.

In a heavy snow fall of the past cold season the observer found that one inch of melted snow was equal to 22 inches of snow, an average. The snow yesterday was heavy, soggy, much like the biscuits of the comic paper's young housewife. So it required only eight and one-half inches of this snow in a vessel of the same diameter as in the first instance to make an inch of melted snow. This being so, it will be seen that if this snow was in equal quantity and of the feathery consistency of the twenty-two inches to the inch article in the previous instance, the snowfall would have been something stupendous. A little figuring will tell just what it would have amounted to.

The weather bureau records show that the present heavy snowfall is the latest heavy fall in the records of the station. A comparison with recent years, to prove this fact, brings out another theory. It appears that the winter conditions of the present time move in a cycle of about four years. This might be called a quadricycle without misapprehension, because the day of the bicycle built for four is past. Four years ago almost to a day there was a late snowfall in April under conditions similar to this. The intervening years have been fairly mild.

The copper country as a whole presents winter conditions peculiar to itself, and these conditions vary in three distinct zones of the country. In the Portage Lake district this late snow is accompanied by no wind. It falls silently, heavily, and covers the ground at a uniform level. On Quincy hill, where the winds from the lake have a sweep, there is always a blizzard with a snowstorm, and on Sunday the conditions were very mid-winter. In Calumet, which is still farther north, the snow is accompanied by winds and colder temperature, so that the snow drifts more and stays longer. It will be possible in a day or so to have such a storm that a man living in Houghton will be expected to have bids for work to go to Calumet on business he will carry his coat on his arm until he reaches Quincy hill, will put it on at that point and, reaching Calumet, will button it up and swear because he has forgotten his gloves. The copper country winter is a great study.

The Small Buyer of Paint who takes care that the Dutch Boy trade mark, shown below, appears on every keg of white lead he buys, is perfectly protected; as perfectly as if he were a railroad official buying hundreds of tons, and with a corps of chemists at his back to see that no adulterant is palmed off on him.

Southern Pure White Lead

and Pure Linseed Oil are absolutely necessary to good painting.

FIGHTERS WELL KNOWN HERE.

Former Occupants of Copper Country Rings Climbing to Fame.

About that will go a long way toward clearing up the second light of night will be decided Tuesday night at Los Angeles, when George Mensie and Johnny Thompson get together. This should be as tough a contest as the coast fans have seen in a long time. Both men have come to the front rapidly of late and appear to be the best of the second division. Both men are well known in Chicago, although neither was a star of any great magnitude when they were fighting around here—Chicago Examiner.

This fight tonight should be of interest to copper country people. Both of the men are well known in the copper country. George Mensie fought in Houghton on two occasions, beating Harry Sharkey once and losing to Harry Cobb on a foul, three years ago. He is now managed by Noah Brusco, Tony Burns, in whom the copper country also takes an interest. Johnny Thompson fought a draw with Harry Falls during the firemen's tournament in Hancock in 1903. During their copper country careers these boys had little standing in the larger pugilistic world, but they have since gained national reputations.

TWO CHURCH CONVENTIONS.

Methodist Episcopal and Congregational Gatherings in Copperton.

Rev. James Pascoe of Hancock, presiding elder of the Houghton district of the Methodist Episcopal, announces that the annual convention of the churches under his jurisdiction will be held in Laurium June 4 and 5. George Elliott, field secretary of the Home Missionary & Extension society, will be the principal speaker, and Miss Abbott, representative of the Woman's Missionary society, will be present to explain the work of her society. Rev. W. E. Marvin, pastor of the Congregational church, is in charge of the arrangements for the entertainment of the visitors, who will include all the pastors and many laymen and women of the district.

The annual conference of the Lake Superior Association of congregational churches will be held at Redridge, April 16 and 17. The first session will be held Tuesday afternoon, a business meeting. The various pastors and the congregations will be well represented.

Y. M. C. A. CONTRACT.

Building Committee Met in Calumet to Award It Last Night.

A committee of the Calumet Young Men's Christian association met last night for the purpose of opening the bids for the construction of the new \$50,000 building and letting the contract. The proposals were to have been considered April 1, but the committee decided to give the contractors a week of grace. All of the large builders in the county were expected to have bids, as the job is about the biggest in the copper country this season.

The Calumet township school board was to meet last night to open bids and award contracts for the erection of two new school buildings in District No. 2.

HOUGHTON COUNTY BOARD.

The April meeting of the county board of supervisors will be held at the court house in Houghton this morning. It will be the first session of the new board, and four new members will take their seats. The organization of the board and the appointment of a superintendent for the county poor farm will be the principal business.

CIRCUIT COURT THURSDAY.

The February term of the Houghton county circuit court will reconvene Thursday morning, Judge Streeter presiding. The business will be the hearing in a case involving taxes between the Osceola and Quincy mining companies.

COPPERDOME BRIEVITIES.

Attorney O. J. Larson of Calumet expects to leave this week for Battle Creek on a health-seeking trip.

D. C. Stecker of Hancock is in Canada attending the funeral of his father, who died there Friday. The deceased was a former resident of Hancock.

Dr. E. T. Abrams is home from Lansing on private business and will be compelled to remain in Hancock and away from his legislative duties practically all this week.

Copper country consignees and shippers of freights have been advised that the Anchor and Western lines of steamers will advance their rates over those prevailing last season. The raise generally is two cents the 100 pounds.

The third anniversary of the dedication of the Trinitarian M. E. church was celebrated Sunday with appropriate exercises. Rev. James Pascoe of Hancock, presiding elder of the Houghton M. E. district, was the principal speaker.

Dr. Kilgore, the Southern evangelist, continues his revivals at the Laurium Baptist church. He came with the intention of staying two weeks, extended it into three, and now may stay for the remainder of this week. He has been very successful in Calumet.

The Northern Construction company of Houghton will this week begin repairs on the Houghton County Electric Light company's coal dock at the foot of Dakotah street. It will mean practically rebuilding the dock, which is an old one.

The Red Jacket and Laurium village councils met last night to make the annual appointments. No changes were expected yesterday. Following the Laurium meeting a mass meeting was held for a discussion of the paving question.

NEW LAND COMPANY.

The Northwestern Land company filed articles of incorporation with County Clerk Richardson yesterday morning. The company is capitalized at \$1,000, in one thousand shares at \$1.00 each. The office is located at Kenton, and the members of the company are residents of that place. Carl F. Moll owns 45 shares, Kate Moll 50, N. J. Dolph 45 and Luella Dolph 50.

BITTEN BY SPIDER.

Through blood poisoning caused by a spider bite, John Washington of Boqueville, Tex., would have lost his leg, which became a mass of running sores, had he not been persuaded to try Backen's Arnie's Salve. He writes: "The first application relieved, and four boxes healed me." The salve is guaranteed by The Stafford Drug Co.

MARVIN'S CASCARA CHOCOLATE TABLETS

THE LARGEST MANUFACTURER OF PURELY VEGETARIAN CHOCOLATE TABLETS IN THE WORLD.

SOLELY PREPARED BY THE STAFFORD DRUG CO.

BLOOD GETS SOUR.

At this time of year, says a well-known authority, the kidneys become weak, clogged and inactive, failing to filter out the poisons and acids, which sour the blood, causing not only facial and bodily eruptions, but rheumatism, Nervous and Stomach troubles, Backache and painful, annoying Urinary affections.

It is worth anyone's time now to get from some good prescription the following ingredients: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after your meals and at bedtime.

This simple home-made mixture will force the kidneys to normal, healthy action, so they will filter and strain all uric acid and poisonous waste matter from the blood, and expel this in the urine, at the same time restoring the "full blood count"—that is, 95 per cent red blood corpuscles—which is absolutely indispensable to perfect health.

BIDS SUBMITTED TOO HIGH.

Shelden-Carverly Building and Pavilion Contracts Held Up.

The building contractors are finding that the increase in cost of materials and the consequent raise in their bids to intending builders will keep a lot of business out of their hands this year. Two instances are found in Houghton.

The Shelden estate and W. D. Carverly, owners of the Shelden-Carverly building on Shelden street, had decided to erect upon the present one-story building two additional stories to be carried into flats. Architect Charlton of Marquette drew plans, and bids were asked for a new building. The contractors are finding that the increase in cost of materials and the consequent raise in their bids to intending builders will keep a lot of business out of their hands this year. Two instances are found in Houghton.

The Shelden estate and W. D. Carverly, owners of the Shelden-Carverly building on Shelden street, had decided to erect upon the present one-story building two additional stories to be carried into flats. Architect Charlton of Marquette drew plans, and bids were asked for a new building. The contractors are finding that the increase in cost of materials and the consequent raise in their bids to intending builders will keep a lot of business out of their hands this year. Two instances are found in Houghton.

ONTONAGON MINES.

There will be unusual activity in the Ontonagon county mining district during the coming summer, says the Ontonagon Herald. The four producing mines—Michigan, Victoria, Mass and Adventure—have made arrangements for doing a lot of exploratory and development work. The latter will materially increase the output of the mines. The Victoria mine is producing away and it is probable that the Porcupine district will receive considerable attention. Calumet & Hecla is continuing diamond drilling on the White Pine property.

The explorations on the Battie will be watched with the most interest. There are many who are sanguine that the development of this formation will prove the most important step in the history of the county.

Last month was a good one for the mines. No records were smashed but the yield showed an increase over the preceding month and still better results are assured for the future. Michigan turned out 157 tons of mineral, Mass 150, Adventure 88 and Victoria 70.

BASEBALL SCHEDULE.

Northern-Copper Country League Games for Coming Season.

Dr. P. H. Glass made known yesterday the playing schedule for the Northern-Copper Country Baseball league. The season opens May 16 and closes Sept. 5. Houghton and Calumet open away from home the former at Duluth and the latter at Winnipeg. The first games in the county will be played at Houghton at Calumet, May 29; Calumet at Redley Park the morning of May 30, Decoration Day, and the same clubs at Calumet the afternoon of the same day. The schedule, as far as games in the copper country are concerned, is as follows:

—Houghton at Home—
With Winnipeg—June, 3, 5, 7, 9; June, 11, 13; July, 30; Aug. 1, 3, 5, 7, 9.
With Duluth—June, 4, 6, 8; June, 10, 12; July, 31; Aug. 2, 4, 6, 8.
With Calumet—May, 30 (a. m.); June, 2; June, 14, 16, 18; July, 4 (a. m.); July, 7; July 10, 12, 14; Aug. 11, 13, 15, 18; Sept. 2 (a. m.), 4, 6, 8.

—Calumet at Home—
With Winnipeg—June, 6, 8; June, 10, 12; July, 31; Aug. 4, 6, 8.
With Duluth—June, 3, 5, 7, 9; June, 11, 13; July, 30; Aug. 1, 3, 5, 7, 9.
With Houghton—May 29, 30 (p. m.); June, 1; June, 15, 17; July, 4 (p. m.); 5, 6, 8, 9; July, 11, 13, 15, 16; Aug. 10; Aug. 12, 14, 16, 17; Sept. 2 (p. m.), 3, 5.

ONTONAGON CIRCUIT COURT.

The case of Martin Snyder, charged with criminal assault, was tried in the Ontonagon circuit court last week. The complainant was Blanch Terrien, fourteen-year-old daughter of John Terrien, who lives on the Rockland road. The testimony of a number of witnesses was taken and there was considerable diversity as to the legal facts. The jury, after deliberating upon the case for twenty-four hours, were unable to agree and were discharged.

Anthony Mayworm asked the Adventure Consolidated Copper company to pay him \$5,000 for the alleged loss of the company some four years ago. While handling logs, it was alleged that a hook broke and Mayworm sustained a fractured limb. The case was taken from the jury by the court and decided in favor of the defendant.

The case of Mrs. Maggie Rettell against the Chicago, Milwaukee & St. Paul Railway company is still under consideration, reports the Herald. Mrs. Rettell alleges that in October, 1905, she received injuries while riding on the accommodation train between here and Channing from which she has not recovered and is asking the company to reimburse her for loss of services during this time, for the pain she has suffered and for what she will continue to suffer. Mrs. Rettell testified that while the train was at Salford a sudden bumping of the cars she was thrown from her seat and sustained injuries to her back. The train was in charge of Conductor John Allen, who testified that she made no complaint to him. Mrs. Rettell was on her way to Oskola, and she had as witnesses two physicians who attended her while in that city and two of the local physicians.

HOW'S THIS.

We offer One Hundred Dollars Reward for anyone who can tell us that cannot be cured by Hall's Catarrh Cure.

Dr. J. CHENEY & CO., Toledo, O.

We have known P. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDING, KINNAM & MARVIN, Toledo, O.

"Halls' Catarrh Cure" is taken internally, acting directly upon the blood and mucous surfaces. It is guaranteed to cure or give free. Price, 25 cents per bottle. Sold by The Stafford Drug Co.

TWO NEW SUPERVISORS.

Election in the various townships of Ontonagon county was not waged as fiercely as in some former years. Atchewood seems to have had the most exciting contest. In the face of the fact that he made the run on slips Rudolf Stindt was re-elected supervisor by a majority of three. There will be but two changes in the personnel of the board of supervisors for the coming year—Clarence H. Emmons succeeds John Hawley from Ontonagon and Art James succeeds Stindt's successor from Rockland. In four out of ten townships there was no contest for supervisor—Bohemia, McMillan, Stannard and Rockland. The board is now made up as follows: Bohemia, Edward Rousseau; Carp Lake, H. D. McKenzie; Greenland, James M. Wilcox; Haight, Henry Carlson; Interior, George Harrier; Atchewood, Rudolf Stindt; McMillan, James Norton; Ontonagon, C. H. Emmons; Stannard, James Howlett; Rockland, Art James.

Ontonagon township closed the year with an indebtedness of \$65,121, besides the \$5,000 of special bridge bonds issued in 1897 to construct the bridge across the Ontonagon river. These bonds are being retired as rapidly as they mature. It has been voted to raise for the present year a highway tax of 1 per cent labor and one-half of one per cent money, a total of \$1,000. These are the same as were levied last year.

Ontonagon township school district is in the best financial condition that it has been in years. There is nearly \$9,000 on hand and the indebtedness is less than \$300.

NOTES OF COPPER NEWS.

The Battie Coalition has resumed sinking on the Ravus shaft and will carry it down to the 2,500-foot level. The shaft, already down about 700 feet. The remaining 400,000 shares are to be placed in the treasury and used partially for the acquisition of new property and for general development purposes as may be deemed advisable from time to time by your directors.

The Butte Coalition has resumed sinking on the Ravus shaft and will carry it down to the 2,500-foot level. The shaft, already down about 700 feet. The remaining 400,000 shares are to be placed in the treasury and used partially for the acquisition of new property and for general development purposes as may be deemed advisable from time to time by your directors.

COBALT GOSSIP.

The total capitalization of the Cobalt mines is now \$72,500,000. In 1903 the capitalization was but \$25,000.

It is said that the McMartin and Timmins merger is about consummated. It will embrace the Colonial, LaRose, Pees and University mines, and the capitalization is expected to be placed at \$30,000,000.

It is reported that the property of the National Cobalt Silver Mining company will shortly be under a new management. This claim is near the Temiskaming, and the policy of sinking a deep shaft and crosscutting will be followed.

General Howard Carroll, president of the St. Ignace Asphalt company of America, and one of the best known bankers in the United States, has accepted the presidency of the Keweenaw Silver Cobalt Mining company. He is a director in numerous important financial concerns in New York city.

The recent strike on the property of the Temiskaming & Hudson's Bay property at the north of town is taking rank as one of the leading veins in camp. It is in close proximity to the 100 acres' holding of the Nipissing west of Cobalt lake, as well as to the Trethewey property. It is declared that the most important strike in camp for months. The snow is about all gone on the Nipissing property, and surface prospecting can be commenced almost immediately.

It is stated that the balance of the treasury stock of the Lake George Silver Cobalt Mining company has been disposed of during the last few days in Ottawa, while the remainder of the stock has been pooled in an arrangement which will practically constitute the company a close corporation. Several capitalists interested in the properties, which lie north and south of Clear lake, adjoining the Cleveland Cobalt mines, have returned from the north and speak in high eulogiums of the values shown on development.

Recent visitors to Cobalt confirm the reports of the reports of the Lake George Silver Cobalt Mining company. The latter lake is about twenty miles long and has a coast line close upon 100 miles in extent. From this sheet of water to Lake Albion is a water route with only three portages and around Larder lake are forty to fifty veins showing gold on the surface. There are big dykes 400 feet and more in width, which yield from eight to several hundred dollars to the ton in gold. The deposits are similar to those in Alaska and the Rand.

Twenty veins of molybdenum have been discovered on the Temiskaming claim. Molybdenum is an alloy of molybdenum, and it is worth about \$800 a ton. An order has been received from an English syndicate for a carload of the metal. Molybdenum acid is an alloy of molybdenum, which is used in tempering the fine grades of steel and cutting the market for it is continuing to grow. The annual production of the mineral in Norway is fourteen long tons, and in the United States thirty short tons, and these countries hitherto have practically controlled the world's supply.

In relation to the present attempt of several American companies to sink Cobalt stocks in England, the manager of one of the largest London houses, which sells foreign mining securities in Great Britain says: "There is no market for Cobalt mining securities in London, and there is no use for American promoters to attempt to sell them there. We shall not try to make a sale. After the Nipissing fiasco, in which hundreds of our customers were caught, it is not likely that we shall attempt to offer those customers any more Cobalt stocks. Besides the smash in American stocks, in which many of our clients were badly hit, has not tended to increase confidence in American securities and promoters."

IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition. It cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

City Brevities

Today's weather: Generally fair; stationary temperature.

Yesterday's temperatures: Seven a. m., 32 degrees; noon, 32; 7 p. m., 32; Maximum, 32 degrees; minimum, 32.

Captain Joseph Hodgson was down from Ishpeming yesterday.

F. A. Bell was down from Ishpeming yesterday, on a business mission.

Controller Primeau was in his office yesterday, after a several days' illness.

Mrs. Charles Truscott and her mother, Mrs. Donahue, have gone to Mackinac island, where they will spend the summer.

There will be a meeting of the Knights of Columbus this evening at 8 o'clock. All outside members visiting in the city are invited to attend.

Neil Murray, of 112 Prospect street, for seven years a resident of this city, has left for Duluth to accept an excellent position with the Duluth, Missabe & Northern road.

There will be a special meeting at the Salvation Army hall this evening. Rev. Mr. Daily, pastor of the Presbyterian church at St. Ignace, will speak. A musical program will be rendered.

Mrs. Rushmore, of the Northern Normal faculty, has been engaged for an entertainment of readings to be given under the auspices of the Newberry Study club at that place Friday evening.

Julius Falck, who last week was so unfortunate as to lose his left foot, after slipping in an attempt to board a freight at Au Train, is now receiving treatment at St. Mary's hospital.

The Daughters of the American Revolution will meet with Mrs. B. O. Pearl, 10 E. Arch street, this afternoon at 3 o'clock. Any members of other chapters who may be in town are cordially invited.

Mrs. John Rough and Miss Mary F. Hadrich, of the Soo, a niece of the sheriff, have arrived home from a two months' trip to California. Miss Hadrich has returned to her home at the Soo.

E. E. Johnson, superintendent for Berry Bros., was in the city again yesterday. Yesterday morning twenty men were taken out to work on the Cheoclay plant, this representing an increase in the force.

A number of Munising delegates, including a party of about ten women, are expected in Marquette to attend the semi-annual meeting of the Lake Superior Presbytery and the Women's Missionary society.

John Robertson has qualified for mayor, and now acting as the city's executive. There will be a meeting of the council next Monday night, when Mayor Robertson will probably make his appointments and announce his commitments.

W. J. Sinail, for over a year in charge of the Western Union office at Munising, has been transferred by the railway company to Marquette, to take a position in the dispatcher's office.

Sheriff Rough was at Negaunee yesterday, keeping an eye on things at the Mary Charlotte mine, where a strike has been in progress. Work was resumed at the property yesterday, without any interference by the strikers.

Rev. Frank P. Knowles, of Iron Mountain, will arrive here today, to attend the meeting of the Lake Superior Presbytery. Mrs. L. T. Sterling and Mrs. A. E. Robbins will be the Iron Mountain delegates to the meeting of the Women's Missionary society.

Position Has Been Tendered—The Mining Journal is authoritatively informed that Judge Stone has tendered the position of county clerk, to be vacated by Mark Elliott, to a man well qualified for the place, and if he will take it the matter will be closed up this week.

Chapman Elected Supervisor—L. F. Chapman, superintendent of the C. H. Worcester company, who has an office in Marquette, has been elected chosen supervisor of the new township of Cusino in Schoolcraft county. The Worcester company has extensive holdings in Cusino township.

Will Rebuild Mill—Louis Jensen, whose sawmill at Mangum was recently destroyed by fire, has decided to rebuild the plant, and the equipment has already been ordered. All that was left of the old plant that can be used was the boiler and arch. Mr. Jensen owns a considerable acreage in the county, which he is adding to from time to time. He sold last season's cut to the Consolidated company.

Tabco on Slot Machines—Sheriff Rough ordered four slot machines out of Negaunee yesterday. There are no slot machines in use in Marquette, as the sheriff determined by a recent inspection, and it is generally understood that none will be allowed to be operated here. The slot machine nuisance was finally put at an end in this city several years ago, and it will never be allowed to crop up again.

Sleighs Taken Out—Many sleighs were in use about the city yesterday. On account of the heavy fall of snow, which continued without intermission, they gave better service than wheeled vehicles. The snowfall Sunday and yesterday was as heavy as any during the winter, but it will quickly disappear, as the ground is not frozen. The city will doubtless be wading in slush for the remainder of the week.

C. C. MacPhetran to Wed—C. C. MacPhetran, brother of E. W. MacPhetran, land commissioner of the South Shore, and who is well known in Marquette, has left Hancock, where he is superintendent of the steel plant at the Carroll Bros. foundry, for Milwaukee, where on the 11th he will wed Miss Fredricka Wohlrab, daughter of Mrs. Rosa A. Wohlrab of that city. Mr. MacPhetran is well known in Marquette, where he has visited on a number of occasions.

Paralysis Caused Death—The death of Dr. Drummond, noted in yesterday's issue of The Mining Journal, was caused by paralysis. Dr. Drummond was an older man than his friends here supposed, he having been born in Leitrim county, Ireland, in 1854. He removed to Canada when young and was educated at the English high school and McGill university, from which he received his degree of LL.D. Dr. Drummond read and lectured before many scientific and literary societies in Canada and the United States and several times visited the state university. It is a matter of curious note that Dr. Drummond never took

any particular pride in one of his best known poems, "The Wreck of the Julie La Plante."

Plan to Organize Band—An attempt is being made to organize a brass band in Marquette. A trombone player, who has had considerable experience in the direction of musical organizations, arrived in Marquette about a week ago, and has since consulted with a number of the local musicians relative to the matter. Whether the move reaches fruition or not will depend entirely upon the altitude of the business and professional men, as aid by subscription is deemed necessary for the organization of a band that would in any way reflect credit upon the town.

Early Sailing Announced—J. B. Bell yesterday received a telegram from M. A. Hanna company informing him that the steamer Pennington, which would sail from Milwaukee, light and would pass the Soo canals at the earliest possible date. Mr. Bell was asked to be ready to furnish 6,500 tons of Cambria ore on about the 16th. He was also asked to prepare to load the Warriner, which has wintered in this port, about the same date. However, it is expected that it will be a number of days later than the 16th before the first boat gets through to Marquette.

Endorse City Methods—Controller Primeau has received an acknowledgment from the Indiana Audit company of the city's report on the settlement of the account of the company. Its manager writes: "We were very much gratified with the information contained in the last paragraph of your letter, and can assure you that it is seldom we find the affairs of even a private corporation in as good shape as we did those of the city of Marquette. Our investigation developed the fact that the affairs of the city of Marquette had been administered honestly, and it was our pleasure so to state in our report."

Health Has Improved—Charles Devonshire, hall master at the prison, who is away in England on a leave of absence, writes a Marquette friend that his health is considerably improved. He encloses a postal card picture of the wreck of the White Star line's finest ship "Suevic," which was stranded, homeward bound from Australia, March 17, near the Lizard on the Starbuck near the Cornish coast. There were 260 persons on board, including seventy children, all of whom were saved by the Cornish lifeboat crews and fishermen. Mr. Devonshire saw the wreck the morning after it occurred.

Old Settler Passes Away—John Donahue, for thirty years a resident of West Branch township, passed away early Sunday evening, after an illness of but a week. The deceased was well known in the township and in Marquette. He was a man of sixty-five years of age, and is survived by a wife and five adult children. One son, Patrick Donahue, has been on the farm. There are four daughters, Mayme of Marquette, Mrs. Gaboury of Ishpeming, Mrs. Beardsley of Nestoria and Julia of Duluth, the whole family being at the bedside when death occurred. The funeral will be held from 8 o'clock to 10 o'clock here at 9 o'clock tomorrow morning.

WOLF HUNTERS RETAIN JOBS.

Oklahoma Men to Continue to Serve as Federal Marshals.

Guthrie, Ok., April 8.—The good records as wolf catcher and cowboy that first secured for John E. Abernathy and Grosvenor A. Porter their positions as United States marshals have proved sufficient to retain for them these positions after statehood. Both men came into these positions untried, but both have had excellent records, and while recently in Washington they were both assured by President Roosevelt that they would be reappointed Abernathy for the western or Oklahoma district of the new state and Porter for the eastern or Indian territory district.

It was while on a lobo wolf hunting trip in the "big pasture" in southwestern Oklahoma that President Roosevelt first met John Abernathy. The hunting trip had been engineered by Colonel Cecil Lyon of Texas and at the suggestion of President Roosevelt that some good man be procured to look after the details of the trip Colonel Lyon recommended "a hunter by the name of Abernathy living down in Oklahoma, who with his hands could catch the lobo alive."

This description pleased the president and instructions were given to secure Abernathy's services for the occasion. This was done and Mr. Abernathy arranged the details for the hunt in the "pasture." To the president's delight Mr. Abernathy performed the feat of catching a lobo wolf alive with his bare hands.

The week's hunt in the "pasture" were very successful, the president was highly pleased and as a result Mr. Abernathy was later appointed United States marshal for Oklahoma, a position that pays an annual salary of \$5,000.

Following the appointment of Abernathy as marshal the facts of his exploits as a hunter and trapper were published widely not only in the United States but even in England, France and Germany.

"Grover" Porter, a youth attending the St. Paul Military school at Garden City, L. I., caught the cowboy fever as a result of the tales of adventure that drifted back to civilization in connection with the cowboy experiences of Theodore Roosevelt at that time in the West.

The disease proved incurable as far as Porter was concerned and he went to Cheyenne, Wyo., a tenderfoot and at a time, too, when it took nerve for a tenderfoot to remain in that locality.

Porter was born about thirty-six years ago in Frederick county, Maryland, and when ten years old was placed by his parents in the St. Paul Military school, from which he ran away to become a cowboy.

"Grover" Porter, although but a young lad at that time, however, and stayed in Wyoming. He secured employment immediately and rode the range for six years.

The climax was reached when Porter was appointed a deputy marshal and served during the hottest period ever known in that state. This, too, was the first work as a peace officer for Porter, although not long afterward he was commissioned a deputy sheriff of Laraine county and he had four years more of strenuous life as an officer.

Mr. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did, I could not stand straight. I took Foley's Kidney Cure. One dollar bottle and part of the second cured me entirely. Foley's Kidney Cure work wonders where others are total failures. The Stafford Drug Co.

REDUCED TWO MILLIONS.

Government Printing Bill Much Smaller Because of Reforms.

Washington, April 8.—The government printing bill, which amounted to a little over \$7,500,000 last year, will drop to about \$5,500,000 this year, and this in spite of the fact that a number of new bureaus have been established and several new laws, including the immigration law, the pure food law, and the railroad law, which entailed an enormous amount of printing, have come into operation. The congressional printing commission is working out plans for a still further reduction of the printing bill. This commission will sit here from time to time during the summer and fall, and when congress meets again will be prepared to recommend additional reform legislation. Just now the commission is wrestling with the problem of what to do with the surplus stock of printed matter the government has on hand. One of the acts which the commission got through congress last year cut off the printing of more than 1,000,000 volumes a year, which had been turned out, not because they were needed, but because the law said so many volumes should be printed. Millions of these volumes, most of them obsolete and of no value except as old paper, are occupying warehouses here at the capital for which the government is paying annually \$15,000 in rent. These books are as sacred from the touch of anyone as the money in the vaults of the treasury, and the commission has decided that it will require legislation to dispose of them. The enormous saving this year is traced directly to the legislation of one year ago which made the office, or department which furnished the copy, responsible for the cost of printing. As a result of this legislation many government publications have shrunk to one-half the number of pages they formerly contained. Members of the commission have devoted much of their time during the last eighteen months to a study of this problem of government printing. No one is more pleased with the reforms that have been brought about than the president, who more than two years ago called attention to the fact that the government was wasting enormous sums of money in its printing.

OPPOSE MUZZLING OF DOGS.

Order of Omaha Mayor Precipitates Fight in Courts.

Omaha, Neb., April 8.—The question of muzzling dogs during the hot months has brought on a bitter fight in Omaha between Mayor Dahlgren on the one side and the Humane society, backed by thousands of people of the city on the other, and the fight now bids fair to develop into a political battle involving the mayor and other officials.

Recently Mayor Dahlgren issued a proclamation to the effect that for ninety days, beginning April 5, all dogs in the city must wear muzzles when they are permitted off their masters' premises and at the same time he issued instructions to the police to shoot and kill any dog found unmuzzled in the street.

The proclamation aroused a storm of protests. Thousands of people, who owned dogs and many who did not, criticized the mayor for issuing the order. The mayor, however, was obdurate and declared that his instructions to the police would stand.

The Nebraska Humane society, through its president, Dr. George L. Miller, took up the cudgel in defense of the dog, with the result that the matter was taken into the courts.

A few days ago Dr. Miller and others applied to the district court for an injunction restraining the mayor and the chief of police from taking any steps to put into force the muzzling proclamation. Judge Redick granted a temporary injunction and before the question is settled it must be carried to the supreme court.

Columbus had just landed. Meeting a great Indian chief with a package under his arm he asked him what it was. "Great Medicine, Hollister's Rocky Mountain Tea" said the Indian. 35 Cents, Tea or Tablets. The Stafford Drug Co.

Marquette National Bank. Marquette, Michigan.

MARKETS

Trading in Stocks Is Light, Confined to the Smaller Professionals.

New York, April 5.—The stock market showed increasing indications today of lapsing into professional hands, and these of the smaller class of operators. The frequent turns in the course of prices, the narrowness of the fluctuations and the notable shrinkage in the aggregate sales for the day all point unmistakably to the abstention from the market of any large consistent class of supporters. The character of the business was a response to the rather general note of warning from responsible sources of the rate and extent to which the rebound was running after the recent extreme depression.

In the money market situation particularly there is inquiry as to the adequacy of the relief to meet all the needs to be faced. The terms to railroad corporations for borrowing large amounts are still onerous, as exemplified in the terms of the sale of Erie notes last week. Today's maturity of the four 10 per cent installments of the new Great Northern preferred stock, calling for \$24,000,000, directs attention to the recurrence for some time to come of 5 per cent installments of these subscriptions. The Northern Pacific new stock subscriptions also there will fall due in quarterly installments of 12 1/2 per cent, beginning July 1st, each of which will call for upwards of \$11,000,000, while of the St. Paul's \$100,000,000 new stock, 15 per cent is payable June 1st and 20 per cent installments in three half-yearly periods after that time, with a final 15 per cent to be paid in March, 1907.

Brokerage houses today reported a small volume of orders for stocks, and the early attempts to advance prices quite generally met with supplies of stock which turned round traders to the bear side of the market. The resulting decline was promptly recovered later, but the closing was rather heavy. The narrow net changes are significant in themselves of the professional origin of much of the day's transactions.

Paine, Webber & Co., report closing prices as follows: Washab... 70 1/2, N.Y. Cen... 119 1/4, D & H... 22, So. Ry... 22, Sugar... 12 1/2, Rock Island... 12 1/2, St. Paul... 12 1/2, B.R. & N... 12 1/2, U.S. Steel... 27 1/2, U.P. Pac... 27 1/2, Mex. Cen... 22 1/2.

Logan & Bryan telegraphed from New York yesterday as follows: "The stock market opened lower, following London's lead, but after the first half hour's trading active stocks had rallied about one per cent. This was not maintained, however, there appearing to be rather large offerings of long stock at the higher level. Prices sagged off from this point, but there was at no time any great pressure to sell at concessions. The market fluctuated irregularly nearly all the rest of the session. The price movements in most cases being narrow and unimportant. Call money rose between 1/2 and 2/2 per cent. The close was steady in tone, with trading moderate in volume."

Boston Stock Quotations. Paine, Webber & Co. wired regarding yesterday's copper market: "This was rather a gloomy day, both inside and outside of the exchange. Copper came out freely and showed a sagging tendency. One house was a steady seller of North Butte all day, getting rid of about fifteen hundred shares. Range was sold by the traders and ran off easily two points. There was no news of importance on any of the stocks and the bears took advantage of the dullness. We think the short interest is getting

opened at 76 1/2; highest, 77 1/2; lowest, 76 1/2; closing, 77 1/2. Corn—Small local receipts and the strength in wheat caused firmness. The trading, however, was small in volume. Commission houses and traders were the principal bidders. The close was firm, the May up 1/4 @ 3/4. May opened at 46 1/2 @ 3/4; highest, 46 1/2; lowest, 46 1/2; closing, 46 1/2 @ 3/4.

Logan & Bryan's Wheat Summary. Logan & Bryan wired Paine, Webber & Co. concerning yesterday's wheat market: "Today's market furnished another surprise, this time for the bears. The fact that rain did not materialize, as was expected, and that the weather was forecast gave to the market a strong start, and the tendency throughout the session was clearly upward, the market closing within 1/4 of the top. The world's shipments were only such as to be estimated, and the trade ignored the large increase in the visible, against a small decrease a year ago. Snow's reports from Kansas confirmed the reports of bugs, but say no damage is yet apparent. He admits, however, that wheat is beginning to suffer from top rot being hastened by a crust and that the plant is turning yellow in spots in a third of the fields examined. He calls attention, also, to the fact that wheat will deteriorate quickly without rain. As to the green bugs, he reports the plant is at about the same stage of growth as it was in central Oklahoma when they appeared there, so conditions are favorable for injury. We would still follow the buying side on all dips."

RECIPROCIITY WITH GERMANY.

Existing Tariff Agreement to Be Extended for Another Year.

Washington, April 5.—Conferees have been in progress for several weeks between Secretary Root and Secretary Cortelyou and the German ambassador regarding the commercial arrangement which is to take the place of the present protocol regulating the trade of the two countries. It is expected that as a result of these negotiations a new agreement will be signed forthwith which will extend for another year in a modified form the existing protocol, and will also declare the purpose of this government when next our tariff schedules are revised to provide for the permanent arrangement with Germany. These negotiations were made possible by the commission of tariff experts headed by S. N. D. North, director of the census, who visited Germany last winter and conducted a long series of conferences with a commission of German tariff experts. Between them the representatives of the two countries threshed out the difficulties of the present situation and the agreement to be signed is the immediate outcome. A more permanent result is the realization on the part of the German government of the difficulties which beset the revision of our tariff system at this time. At the state department it is said that the commission accomplished more during its comparative brief visit than a year's correspondence could have done. It is expected that the German government to be bringing the German government to a realization of the desire of the executive to avert a condition that will operate against the trade of both countries, but of his inability to obtain ratification at this time of a new commercial treaty which would at all satisfy Germany.

Western Gold Stocks.

Table listing Western Gold Stocks with columns for stock names and prices. Includes titles like Belmont, Chas. Boy, Golden Anchor, etc.

Copper Metal Prices.

New York, April 5.—Copper was higher in London today, with spot quoted at £98, 2s, 6d and futures at £98 7s, 6d. The local market was dull, and nominal, with Lake quoted at 24.50@25, electrolytic at 24@24.50 and casting at 23@23.50.

CHICAGO GRAIN MARKETS.

Chicago, April 5.—Prices in the wheat pit advanced today because of the continued absence of rain in Kansas and Nebraska. Although heavy showers were reported to have fallen yesterday in Missouri, Illinois and the Ohio valley, no rain worth mentioning was reported in Kansas or Nebraska, and the official forecast was for clear weather in those states for the next twenty-four hours. The absence of rain caused an urgent demand all day. Heavy snows in the Northwest are expected to interfere with seeding, and this gave additional strength to the market. The increase of 2,450,000 bushels in the visible supply had little apparent effect on local trading, for search and demand almost entirely by the drought and the "green bug" reports, the number of the latter showing a considerable increase. The offerings came mainly from longs. May

Governor Deneen for the surrender of Frank J. Constantine, under arrest in New York, charged with the murder of Mrs. Gentry in Chicago.

PROSECUTION FOR MANY ROADS.

Already 400 Cases of Violation of the Livestock Shipping Law.

Washington, April 5.—The railroads of the United States are being mulcted of about \$10,000 a day in fines for the violation of the "twenty-eight-hour law" in transporting livestock. Now \$10,000 is not a sum to make or break the average railroad, and as the fines have not yet begun to be collected, the railroads are paying but little attention. But the officials of the department of agriculture are looking for a bowl to go up after this systematic process of fining has gone on for a while and the assessments get around to the auditors of the roads who have to handle the funds.

RECIPROCIITY WITH GERMANY.

Existing Tariff Agreement to Be Extended for Another Year.

RULES AGAINST LIQUOR ACT.

Troublesome Indiana Bill Is Declared Unconstitutional.

Terre Haute, Ind., April 5.—The "Gained tiger" measure passed at the recent session of the legislature and proclaimed to go into effect April 10 already has made trouble for its saloon keeper friends, although it has been declared unconstitutional by Judge Fortum.

OHIO HAS A WILL MYSTERY.

If General Reilly's Testament Is Lost \$250,000 Will Go to State.

Lisbon, O., April 5.—Recent testimony having established beyond question the fact that the late General James W. Reilly of Wellsville had a will which disposed of his estate, estimated to be worth \$250,000, that city is in the throes of renewed excitement over the unprecedented situation.

General Reilly was a lawyer and for many years a leader of the Columbiana county bar. He entered the volunteer service of the federal government during the civil war as colonel of the One Hundred and Fourth Ohio Volunteer Infantry and quitted the service at the close of the war a brigadier general.

RUNS DOWN TAX DODGERS.

Captain McDonald, Texas Revenue Agent, Will Enforce Law.

Austin, Tex., April 5.—Captain "Bill" McDonald, the famous ranger, is the most talked of man in Texas today. It is not because he has had a fresh exploit with outlaws or any man of criminal character. He has gone in the face of public opinion and long-standing practice and is making it hot for the artful tax dodger.

Advertisement for Dr. D. Jayne's Expectorant. Includes illustration of a man coughing and text: "Fight It Off! This is the very season in which serious lung troubles attack thousands of people, coming in the wake of neglected colds, when the system is too run down to withstand the ravages of disease. Right now some fatal pulmonary affection may be securing a stealthy hold upon your weakened lungs, if you are carelessly neglecting to cure your cold. Stop it now, with DR. D. JAYNE'S EXPECTORANT. This is the remedy that four generations have relied on to cure colds and ward off lung troubles. This standard remedy has been recognized for 77 years as an effective, safe, and sure cure for Coughs, Colds, Bronchitis, Croup, Whooping Cough and other similar ailments. Jayne's Expectorant was fighting and curing quering disease-called 'croup' before other so-called 'cures' were even thought of. Get a bottle today \$1.00, 50c. and 25c. Sizes. Jayne's Expectorant is the best known and most reliable for all ailments. Beware of cheap imitations. The name is on the wrapper and is blown in the glass of each bottle." Includes illustration of a bottle.

Taxation of Money.

The last national bank statement showed that there are \$97,000,000 of money on deposit in the national banks in this state. There is nearly one-half that amount on deposit in the state banks of Texas. Of this \$150,000,000 of cash deposits only a few thousand dollars are rendered for taxation. This is another source of taxation that Captain McDonald insists shall be attended to by the assessors. He is now evolving a plan by which this can be done.

Hates to Discard Guns.

A day or two after the captain assumed the duties of the office he was asked by the governor if he was still wearing his guns. The captain answered in the affirmative. "You are no longer a peace officer; you will have to take them off," the governor told him. "Governor, you don't know what may happen to me if I take off these guns," he argued. "Like as not some fellow who don't like me will throw me down and take my tobacco away from me. I wouldn't mind being thrown down so very much, but I would hate to have my tobacco taken away from me."

HIT HARD BY FREE TRADE.

Birmingham Losing Its Firearms Industry to Belgium. London, April 7.—For many years past according to an interesting volume, "The Cause of Decay in a British Industry," the gun trade of Birmingham has been declining steadily, a state of affairs to be attributed to two distinct causes. The first is the free trade policy of the country, which allows guns of Belgian manufacture to be imported free of duty. The second is the hostile and increasing tariffs of other countries. It is no exaggeration to describe the situation today as precarious. After many years of commercial supremacy, a reaction has set in, and today Birmingham houses only as many genuine gunmakers as there were in 1770. To make the difference plainer, in 1850 England exported arms to the value of £236,331, while the Belgian exportation for the same year were £197,316. Fifty

years later the English exportations had decreased to £183,838, while those of Belgium were £219,518. In 1860 there were 6,840 gunsmiths in Birmingham. Today there are only 4,000.

The Firearms Industry of England was originated in the Tower of London by Henry VIII, who, objecting to dependence upon Belgium, Italy and Germany for his small arms, imported a number of gunsmiths, who could use, repair and make hand guns. In 1683 we have the first record of the gunsmiths of Birmingham, when Sir Richard Newdigate, the then member for Warwickshire, procured the Birmingham manufacturers their first government contract for muskets. Since those days the Birmingham manufacturers have been ceaseless in their endeavors to raise the standard of their weapons, and in the markets of the world today their guns have no equal. But the cupidity of the dealer has induced him to substitute for the Birmingham-made weapon that of Belgian manufacture. This, he insists, is "just as good," the chief argument in favor of the Liege gun being, of course, the prospect of a larger profit.

—The Output of Firearms—

Table with columns for years and output: 1885, 1895, 1905. Birmingham: 1,501,634, 328,791, 337,457. Liege: 815,085, 1,786,206, 2,682,111.

MISSING COAL BARGE SAFE.

Washington, April 5.—The navy department has received a telegram from the commander of the collier Caesar, dated Ferdinand, Florida, today, stating that the naval coal barge which had been lost at sea since April 1 had been picked up and is being towed into port at the mouth of St. John's river.

Advertisement for Arbuckle's Ariosa Coffee. Includes illustration of a man in a suit and text: "Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington. ARBUCKLE'S ARIOSA COFFEE. 'For over thirty years,' writes a gentleman in Los Angeles, 'I have used Arbuckle's Coffee. Many times my family has tried other coffee only to come back to our old reliable, unchangeable Arbuckle's. No other coffee has been so uniform never failing aroma. I care not at what price. I have often wished I could tell you this.' Many other people have the same opinion. Arbuckle's was the first roasted coffee, and its sales exceed all the other products together. That it costs you less is due simply to our coffee business being so much greater than any competitors, in fact, it is larger than the next four largest firms in the world combined. We naturally can and usually do give better coffee in Ariosa than anyone else can give for the price; being the standard article it is sold at the narrowest margin of profit. Some grocers will try to sell you instead loose coffee which the roaster is ashamed to sell in a package bearing his name. Don't take it, neither the looks nor the price indicate its cup quality. No matter when you buy Arbuckle's ARIOSA, or what you pay for it, it's the same old uniform Arbuckle's ARIOSA Coffee. If your grocer will not supply, write to ARBUCKLE BROS., New York City."

Advertisement for No more Alcohol. Text: "As now made, Ayer's Sarsaparilla does not contain the least particle of alcohol in any form whatever. You get all the tonic and alternative effects, without stimulation. When a stimulant is needed, your doctor will know it, and will tell you of it. Consult him freely about our remedies. J. C. Ayer & Co., Lowell, Mass. The formula of all our preparations."

FAVORS POLICE COMMISSION.
GRAND LODGE MEETING.

Business Man Thinks Officers Should Work Under Civil Service Rule.
Special Session of the Michigan Pythian Society Will Be Held at Hancock.

"It seems to me, from what I can hear since the election, that we will have another year of bad service in the police department," said a business man yesterday. "It does not mean by this that I think all our officers did not attend to their duties last year, but it is a well known fact that some did not. If the talk about Mayor Roberts' attitude toward the officers chosen by the Citizens party, and particularly Marshal Lehman, is true, I think our police department will be in an unsettled state the entire year. Personally, I do not believe Mayor Roberts will attempt to suspend Marshal Lehman if the majority of the council votes to retain him, as this would only complicate matters. Mr. Lehman has made an excellent officer, and so far as I can judge the people, particularly the taxpayers, want to see him retained.

"I have talked with a number of prominent business men who favor the appointment of a police commission, to have absolute control of the officers. I don't think it would matter much whether the commission should be designated by the council and it should be understood that the commission is accountable to the council. I believe that the officers under the chief should be retained indefinitely, so long as they do their work satisfactorily. I would like to see the police business taken entirely out of politics. We will never have first-class officers so long as that department is run under the present system.

"With the police force disorganized as it was much of the time last year the business houses on streets patrolled by the negligent officers received very little protection. We were fortunate in that there were no fires or burglaries to speak of, but the absence of trouble was due to our good luck and not to good management."

WAITING ON THE WEATHER.
Thomas M. Solar, who has the contract for the erection of the new high school building here, intends to begin work on the foundation as soon as the weather will permit. When he was in the city a short time ago he asked the school board to notify him by wire when they thought it advisable for him to begin work. It is likely that the board will ask Mr. Solar to come on with his men as soon as the snow which fell yesterday disappears.

HEAVY DEATH RATE.
Eight deaths have already occurred in Ishpeeming so far this month, this being equal to one a day, an average which exceeds any similar period this winter. If this rate is maintained during the balance of the month the number of deaths occurring in April will be more than double the March record, there being only fourteen last month.

ISHPEEMING IN BRIEF.
George H. Ross of Calumet was a visitor in the city yesterday.
The Zenith club's next play will be on Thursday of this week, instead of Thursday next week.
R. P. Bronson and wife, who have been in the south and southwest the past six weeks, arrived home yesterday morning.
The funeral of the late Mrs. Reid Lewis, who died Saturday in Milwaukee, will be held this afternoon at 1 o'clock at Republic.
J. Brayton departed last evening for his home near Billings, Mont., after spending a few days in the city visiting his wife and daughter.
Harold Lindholm, who attended the Ishpeeming business college the past year, has accepted a position as bookkeeper with J. Wahlman & Son, contractors, of this city.
Company L. M. N. G. will give the second of its series of dances on Friday evening, April 19, at its armory in the Broadway block. Trombly's orchestra will furnish the music.
About a foot of snow came down during the storm that started in Sunday afternoon and continued until late yesterday. Most of the business houses had their sleighs out again yesterday.

The Trembley orchestra will furnish music for the Traveling Men's ball at Marquette Friday evening. It is expected that a number of Ishpeeming and Negaunee people will attend the function.
Margaret, the five-year-old daughter of George E. Voyer, proprietor of the Nelson House, fell on the lower step of the stairs Sunday and fractured her right arm in two places, above and below the elbow.
The baby daughter of Martin Peterson, residing on Battery street, died Sunday. The funeral will be held this afternoon at 2 o'clock. Services will be conducted at the house by Rev. E. V. Isomson, pastor of the Swedish Lutheran church.
Henry R. Armstrong, a passenger conductor on the Chicago & Northeastern railway is again on his run between Ishpeeming and Green Bay, after a three weeks' leave of absence, which he and Mrs. Armstrong spent traveling through the western states.
The sixteen-months-old son of Ole Seem, 603 Bank street, died Sunday of meningitis, after a brief illness. The funeral will be held this afternoon at 2 o'clock, with services at the house, by Rev. J. Lilleho, pastor of the Norwegian Lutheran church.

"SAVE YOUR RED CEDARS."

Forestry Bureau's Advice to the South—Needed for Pencil-Making.

Washington, April 8.—How the world will write when its supply of cedar wood for pencils is exhausted is a problem not yet solved, and the forest service is endeavoring to postpone the day when such a necessity shall arise. Red cedar is used almost entirely for pencils because of its peculiar qualities for which no equally good substitute has ever been found. It has a soft, straight grain, and when grown under best conditions is free from defects. It is doubtful if any other wood-using industry is so dependent upon a single species as the pencil industry is dependent upon red cedar. This will be appreciated when it is known that 320,000,000 pencils are manufactured in this country every year and that to manufacture these 110,000 tons or 7,300,000 cubic feet of wood are required. In other words, each day in the year three hundred tons, or 20,000 cubic feet of wood are used for pencils. The supply of red cedar is greatly depleted in consequence of the steady growth of the pencil industry. It has been estimated that leaving out of consideration the imported pencils the average educated American over ten years of age uses six pencils of home manufacture each year, where ten years ago he used less than five.

Largely because of the lack of information on the rate of growth of the cedar and the habits of the tree no steps have heretofore been taken to provide for a future supply of red cedar. The belief has been widespread that second growth red cedar never reaches merchantable size. The forest service is making a careful study of this tree and has come to the conclusion that it can be profitably grown in regions of its development. In the southern forests the cedar must be given a better chance, instead of being considered, as it is now, of no use in its younger stages. Many of the forest-grown trees which are now cut for fence posts can probably be left to attain their full development, and thus become available for pencil wood. The forest service is sending the message through the south: "Save your red cedars for pencils."

CIVIC FEDERATION CONFERENCE.
New York, April 8.—The executive council of the National Civic Federation has decided on Chicago as the place and May 28 to 31 as the dates for holding the national conference on combinations and trusts which recently was announced by that organization.

ITCHING SCALP FALLING HAIR
Come Out Constantly—Hair Finally Had to Be Cut to Save Any—Scalp Now in Good Condition and No More Itching—Another Effective CURE BY THE CUTICURA REMEDIES

"I will gladly give you all the information concerning my case. I used the Cuticura Soap and Ointment for a diseased scalp, dandruff, and constant falling of hair. Finally I had to cut my hair to save any at all. Just at that time I read about the Cuticura Remedies. Once every week I shampooed my hair with the Cuticura Soap, and I used the Ointment twice a week. In two months' time my hair was long enough to do up in French twist. That is now five years ago, and I have a lovely head of hair. The length is six inches below my waist line, my scalp is in very good condition, and no more dandruff or itching of the scalp. I used other remedies that were recommended to me as good, but with no results. If you wish to publish any of what I have written you, you are welcome to do so. I am, respectfully, Mrs. W. F. Griess, Gay Center, Neb., Oct. 23, 1905."

FROM THE HOUR OF BIRTH
Mothers Should Use Cuticura Soap, the World's Favorite
Mothers are assured of the absolute purity and unflinching efficacy of Cuticura Soap and Cuticura Ointment, the great Skin Cure, in the preservation and purification of the skin, scalp, hair, and hands of infants and children. For baby eczemas, rashes, itchings and chafings, as well as for annoying irritations and ulcerative weaknesses, and many sensitive antiseptic purposes, which readily suggest themselves to mothers, as well as for all the purposes of the toilet, bath, and nursery, Cuticura Soap and Cuticura Ointment are priceless.

EACH PACKET OF

"SALADA"

Contains, inside the lead, exactly the QUANTITY OF TEA specified on the label.

30c, 40c, 50c, 60c and 70c per lb. AT ALL GROCERS. HIGHEST AWARD ST. LOUIS, 1904. Guaranteed absolutely pure, as required by the Pure Food Laws of 1907.

REO 1907 TOURING CAR \$1,250
F. O. B. LANSING

18-20 horse-power, 24-wheel-base. Five-passenger. Detachable tonneau. Two speeds and reverse. REO disc clutch, 40 miles an hour. Full lamp equipment. Top \$15 extra.

The car that beat 60 cars of double- and triple its price, at hill climbing.
The car that won more than 20 cups, medals and trophies from bigger and costlier cars—
The car that holds its class record up Mt. Washington; and that crossed Mt. Hood, and the 12,000 feet Raton Range, in New Mexico—
The car that went from Denver to Boulder, Colorado, (30 miles over rough hilly roads) in 15 minutes better than the railroad schedule—
The car that carried four passengers 1,500 miles over rough roads without stopping, motor-repairs or car repairs—
The car that won the National Economy trophy and four other prizes in the same contest; and that carried its passengers at a total cost of 30 cents each per 100 miles—
The only car that ever crossed this continent and back again on its own wheels—
The \$1,250 car which does all that the average \$3,000 car does—and more than most of them—
That is the car whose merit and real economy are self-evident. That is the car which you cannot afford to overlook. Write for the book that tells why.

You can be served quickly and faithfully in all money matters. If you want to borrow we are always ready to loan on proper security. If you want NOTES, DRAFT, COUPONS, or MATURING SECURITIES collected, we can do it quickly at reasonable rates. If you want to open a SAVINGS ACCOUNT, we pay the highest interest consistent with safety. If you want to open a commercial account you will find us ready to extend accommodations. 1-9-17

DO IT NOW!

Why not invest your money in a comfortable home where the bears of Wall Street will not have a chance to wrest it from you, and there is no danger of being "wiped out." Any money spent in this direction will return a greater amount of interest and less worry than can be had otherwise. The constant growth of the country and scarcity of timber is sure to cause the price of lumber to advance year after year, so that any repairs made now will mean a saving of from 20 to 50 per cent. If you contemplate building or remodeling, do not fail to get our prices before placing orders elsewhere. Large stock always on hand.

MARY CHARLOTTE RESUMES.

A Number of the Old Workmen Went Underground Yesterday.

Mining operations were resumed yesterday morning at the Mary Charlotte where about 400 of the employees have been on a strike for a week past. A majority of the men who went underground had been employed at the property for some time and were among those who had been opposed to the walk out from the start, while a few new hands were taken on. A committee representing the strikers was near the mine but offered no particular objection when they saw the workmen preparing to go underground. It is expected that there will be a considerable increase in the number of applications for work this morning, and it is thought that many of the former workmen of the Regent group out of employment and over 200 Winthrop men looking for places many will apply at the Mary Charlotte. Superintendent Foley announces that he will not discriminate against the strikers and that any of them who desire to return will be hired until such time as all the men wanted are secured. About three-fourths of the strikers are Finns, the remainder being principally Italians. Most of the men out are young fellows, many of them new comers to this country. A large majority of the men laid off at the Regent are also unmarried, the officials giving the men of families a preference.

It is the general opinion of the business men of the city that the Mary Charlotte strikers are playing a losing game and that the sooner they realize this fact the better it will be for them, as from present indications it will not be more than a few days before all of the men needed at that property will be engaged, leaving the strikers out in the cold. The Mary Charlotte people are not particular whether they work the property with as large a force the coming summer as was employed there all winter, owing to the large tonnage of ore on hand.

FROM SUPERINTENDENT FOLEY.

Official of Mary Charlotte Mine Outlines Company's Position.

"I notice that many of the men have not called for their pay," said Superintendent James F. Foley of the Mary Charlotte mine yesterday. "I wish to say that for the convenience of the Mary Charlotte Mining company and the Breitung Hematite Mining company as well as the men themselves, an employee of the Mary Charlotte Mining company can be found at the First National bank at Negaunee with their time and checks, and every employee can receive his pay by calling there. There seems to be an idea prevalent among certain men that they are still in the employ of the company; this is entirely erroneous. Their relations with our companies ceased upon their walking out, and they have no connection whatever with the companies and will have no preference whatever in the matter of employment. There seems to be also some misapprehension about the stand these companies are taking relative to the number of hours to be worked. While the mines were developing rapidly an eight hour shift was put on with the express understanding that if it did not show better results than the ten hour shift in vogue at other mines on the range these companies would go back on the ten hour shift. I wish to say most emphatically that these companies have gone back on the ten hour shift and will stay there and whoever seeks employment with them will come on the understanding that they are ten hour mines. This is absolute and final, after careful consideration by the boards of directors of these two companies, and any man applying for a place at these mines must apply with that understanding. A small force of men is now working and we expect to increase it from time to time until we are working full hand."

"Another misapprehension that seems to have gained some currency is that notwithstanding these companies going back on ten hour shifts they will continue to pay the same wages as on the eight hour shifts. This is erroneous; we expect to pay the same wages as are paid by other mines on the ten hour shifts, for all classes of labor."

INDIANS LOOSE IN CONTEST.

The Pikers took the Indians into camp Saturday evening in the league bowling contest at Orr & Tompkins alleys, the scores being as follows:

Defrain	106	182	166	574
Johnson	114	144	161	419
Hooper	151	141	128	420

CURTAINMENT AT REGENT.

About 150 Men Have Been Laid Off at Oliver Iron Mining Co.'s Property.

Following the closing of the Oliver Iron Mining company's Section 21 mine at the Winthrop town, the announcement of a curtailment at the Regent group of mines in this city, which produces ore of similar grade to that of the Section 21. With this number laid off the force employed at the Regent is less than 250. The officials announce that there is a heavy over production of the variety of ore mined both at the Regent and Section 21 properties. Two of the largest mines on the Menominee range; one or two on the Gogebic and several of the properties on the Mesaba range operated by the Oliver company are producing ore of the same class as obtained at the Regent.

Should there be any extended delay in the opening of navigation it may be necessary to further reduce the force at the Regent, as the stockpile ground is practically filled. The shipments from the property last season were confined to the ore hoisted, only a very few carloads having been shipped from the stockpile. Towards the close of the season a steam shovel and a number of men were employed stripping the surface, making additional ground for the stacking of the ore. All of this space was filled during the winter.

Plans have been drawn for new buildings to be erected at the Regent mines, and it was announced a short time ago that the contract would soon be let, but there is a possibility that this work will be deferred for the present, on account of the necessary curtailment in the mining department. Considerable of the material to be used in the construction of these buildings has already arrived and has been distributed to several of the properties where improvements are to be made.

The Regent mine is not the only one in this city having unusually large stockpiles. The tonnage on hand at the Mary Charlotte is nearly twice as large as it was at this time last year, and there are also large piles at the Hartford and Negaunee mines. A portion of the Hartford ore is of a very similar grade to that mined at the Regent group, though there has been no intimation by the officials of the company that a curtailment will be made there, as there is sufficient ground for stocking the ore that will be raised between now and the opening of navigation.

COULDN'T STAND PRESSURE.

Manager of Burlesque Show Says Newspapers Killed His Business.

Manager McDonald, of the Negaunee opera house, has been advised by Duncan Clark, whose troupe was billed to appear here Saturday evening, but did not show up, that he was obliged to close his show on account of the roasting it received from the newspapers, particularly the ones published at Oshkosh and other Wisconsin towns.

From reports received here since the cancellation of the patrons of the local play house did not miss much in the absence of the Clark aggregation. Duncan Clark has the reputation of having been involved in more trouble on account of his show than any man in the theatrical business in this country. He appeared here Saturday evening, but he came over the same territory the following season and got as far north as Ishpeming, where he became involved in trouble over a bill. Manager McDonald has been advised by Clark to send his bills to him at Escanaba, where he is to remain a short time, presumably in the hope of getting a fresh start.

SLOT MACHINES TABOODED.

Sheriff Rough Visited Saloons Here Finding Four in Use.

Judge Stone was advised a few days ago that slot machines were being operated in certain saloons in Negaunee. Sheriff John Rough was instructed to investigate and yesterday he visited every saloon in the city. He found four machines in operation, but the proprietors of the saloons promised to immediately put them away. The sheriff stated that legal action will not be taken against the liquor men at this time, but he notified all of them that if another complaint is received they will be arrested.

Slot machines have not been in general use in the saloons here for a number of years, ever since Judge Stone prohibited their use in this and other counties in his jurisdiction.

SLEIGHTS OUT AGAIN.

About a foot of snow fell Sunday afternoon and night and yesterday sleights were in use again. For a week or so there had been no sleights out, except in the farming districts where the roads were better than in town. The storm did not interfere with the operation of the street cars, except early in the morning, when they were unable to make the run on the half-hour schedule. There was sleighting in Negaunee last spring up to April 11.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

CALIFORNIA FIG SYRUP CO.

San Francisco, Cal. U. S. A. New York, N. Y.
Louisville, Ky. London, England.

LOCAL LAONICS.

Phil Levine and wife visited relatives at Houghton Sunday and yesterday.

Ed. Stensrud of Michiganman transacted business in Negaunee yesterday.

E. C. Anthony arrived home yesterday from Lansing, where he spent a week or so.

"Tracey the Outlaw" will be the attraction at McDonald's opera house this evening.

William Murray, of the Chicago & North-western railway company's agent at Little Lake, spent Sunday in the city.

The three-months-old daughter of John Antilla, who resides in the Negaunee field, died Saturday and was buried yesterday morning.

Mrs. Colon Kemp and children expect to leave here in about ten days or two weeks for California, where her husband located about a short time ago.

The spur which the Lake Superior & Ishpeming Railway company is extending to the Rolling Mill mine will be completed within ten days or two weeks. The crew was idle yesterday on account of the storm.

Thomas Pellow's household goods have arrived from Virginia, Minn., and are being stored until such time as the family dwelling is ready for occupancy.

Mr. and Mrs. Pellow will be obliged to board for a few months, as they intend to improve the interior of the house as soon as L. Rosen and family vacate it.

John Arnett, with the Cleveland-Cliffs company for a number of years, has taken a position with Mrs. May Hudson as hostler. The work of remodeling Mrs. Hudson's barn for the accommodation of a horse and an automobile is now about completed. She has purchased a "Winton" car, which will accommodate six or seven persons. The car is expected here within two weeks.

IS YOUR Blood Bad?

Have you Pimples, Boils, Scrofula, etc.; try "Smith's Potassium Compound." Trial package mailed free by addressing John A. Smith Co., Milwaukee, Wis. Money refunded if a 50c bottle fails to satisfy you.

At Druggists.

A Beautiful Face! Send stamp for particulars and testimonials of the remedy that clears the complexion, removes skin imperfections. Makes new blood and improves the health. If you take "BEAUTYSKIN" beneficial results are guaranteed or money refunded.

Chichester Chemical Company, Madison Place, Philadelphia, Pa.

WARRING ABOUT THE ALAMO.

Two Factors at Odds in the Texas Daughters of the Republic.

San Antonio, Tex., April 8.—The old Dr. Zavala-Driscoll feud, which tore the Daughters of the Republic of Texas in twain and resulted in carrying the question of who should be custodian of the Alamo into the courts, has again broken out with renewed fury. The bitter hatred which has been slumbering has waked to full life again.

Miss Adina De Zavala had worked years to save the Alamo, but was not meeting with success. Finally Miss Clara Driscoll, a millionaire in her own right, stepped in and furnished the money necessary to save it. Then came the squabble as to who should bear the title of the "savior of the Alamo," the woman who had devoted the best years of her life to the object, who had visited every portion of the state to interest people in the project and who was largely responsible for the legislature coming to the rescue or the woman who furnished the money that prevented the sacred walls being razed. Finally the Daughters of the Republic voted that Miss De Zavala should have the credit and with that Miss Driscoll withdrew from the organization, and hundreds of her friends followed.

Now the old fight has broken out over the question of razing the walls of the old Mission San Antonio de Valero, which is an integral part of the Alamo, for the purpose of making a park. This project was suggested by St. Louis capitalists who desired to erect a big hotel on the block in the rear.

Miss Le Zavala and her friends at once took up the cry of "Save the Alamo," and just as quickly Miss Driscoll, who is now Mrs. Driscoll-Servier of New York, aligned itself on the other side. Petitions pro and con are being circulated all over the state, and the most bitter feeling has been engendered.

To tear down the walls of the mission a special act of the legislature is necessary, and the matter will probably come before that body this session for action. Those who are opposed to carrying down the walls of the Mission San Antonio de Valero propose to reconstruct it in its old-time beauty and make of it a historic museum. The feud is spreading so rapidly that it is not only dividing the Daughters of the Republic of Texas, but is threatening to split society in the state wide open. The feudists are not now on speaking terms, and the invitation to a social function are becoming a very diplomatic task if cold stares and other unpleasant incidents are to be avoided.

TORNADO HAVOC COSTLY.

Belated Advice from Stricken Alabama Towns Show Many Casualties.

Montgomery, Ala., April 8.—As communication is established with the towns in south and west Alabama that were storm-swept last Friday, the list of casualties increases and the loss to property is shown to be heavy. In Coffee county, Central City, Clayhatchee and Waterford were swept away, and at least twenty persons were injured. At Central City, a Mr. Odum was killed. At Brookton and Enterprise, many persons were hurt by flying timbers. At Lanesville, Hale county, one negro boy was killed. Special dispatches from various parts of Alabama state that growing cotton was whipped from the ground.

SHORT TALKS BY L. T. COOPER.

NERVOUSNESS.

Nervousness makes people miserable, blue, and unhappy. They think something terrible is going to happen. At night they toss and worry and are not rested. They tire easily and haven't much energy. They think many things are the matter with them—Consumption, Kidney trouble, or twenty other diseases. It's just stomach trouble, nothing else in the world. Two bottles of Cooper's New Discovery will put the stomach in shape in three weeks. I know this because I've seen it tried a thousand times. Then all nervousness will disappear. I know this too, because I've seen it happen a thousand times. Here's a letter I got the other day:

"My system was badly run down and my stomach and nerves in an awful shape. I could not digest my food, was always tired and would often feel faint and dizzy."

"I had heard so much of your New Discovery medicine that I began taking it. Relief and strength and happiness were found in the very first bottle and the benefit I have received from it has been truly wonderful. I am no longer nervous, my appetite and digestion are good and I eat everything and sleep well." Mrs. W. J. Schauer, 220 Guthrie St., Louisville, Ky.

We sell Cooper's New Discovery. It makes tired, worn out, nervous people happy.

The People's Drug Store, W. J. Hebbard, Prop. Ishpeming, Mich.

WATCH US BREAK THE RECORD

THE RECORD

MARQUETTE PLANT IS HIGHLY PRAISED

CITED BY AN AUTHORITY AS MOST SUCCESSFUL EXAMPLE OF MUNICIPAL OWNERSHIP.

BUSINESS GROWING STEADILY

Force of Linesmen Kept Busy Without Interruption—Will Not Be Necessary to Push New Plant Project This Year.

James R. Gravath, western editor of the Electrical World, in an article in the April number of the World Today on "The Municipal Ownership of Electric Light Plants," cites the Marquette plant as the most growing example of successful municipal ownership that he can refer to. Mr. Gravath's conclusions in regard to electric light plants owned by cities are not favorable. He believes that the electric lighting business is better and safer allowed by cities to remain in the hands of private corporations, and instances many cases of failure of municipal plants. It is this fact that throws his praise of the Marquette plant into bolder relief. What he says in regard to it is contained in the following paragraph: "Space is now available here to cite the specific examples of successful and unsuccessful municipal plants at length, but I may mention a few of the extremes. One of the most successful municipal plants I know of is that at Marquette, Michigan, where the city developed a water power. The property is managed very much like that of a private company. Considerable power load is carried. So enterprising has been the management that the gross earnings from operation, according to the annual reports, are as high as \$2,449 per capita of population. Most private companies are not doing as well as to gross earnings. The lighting department of the city is kept separate from all others, just as if it were a company, and it is paid \$75 a year for a 2,000-c.p. arc lamp. For the balance of the revenue the plant is dependent on its own enterprise. Detroit's municipal plant is also to be rated among the most successful. While lamp costs in Chicago and Detroit are nowhere near as low as advertised by municipal ownership advocates, they are not far from prevailing contract rates."

both bodies will hold business sessions, beginning at 2 p. m. The sessions will conclude with a reception at the Presbyterian manse, 424 East Michigan street, where the congregation will have an opportunity to meet socially the visitors of both organizations.

FOR GOOD ROADS—\$280,000.

State Highway Department Wants Appropriation of That Amount.

A total of \$280,000 is asked for the cause of good roads in Michigan during the ensuing two years. The department has been in existence two years and \$800,000 was experimentally appropriated. Senator Ely, father of the good roads law, introduced the bill for the next appropriation. It carries \$100,000 the first year and \$180,000 the second, to be paid out in rewards to townships constructing new roads, and in addition \$15,000 a year for the expenses of the department. Commissioner Earle has sent Senator Ely a letter showing that with applications already filed and an estimate of those to be filed for rewards during the present year, \$171,000 would be needed the first year alone, if all demands were satisfied.

DECREASE IN EARNINGS.

Is Shown by Reports of Two of Largest Telegraph Companies.

Reports from the two telegraph companies doing business in the state and the largest telephone company of Michigan have been received by the auditor general. These reports, not sworn to by the companies, must, under the present law, be accepted by the state as a basis for taxation, and it is not within the power of any officer of the state to demand the books of the corporations interested for the purpose of verifying the reports. Under this law the companies are required to pay a tax of 3 per cent of their gross receipts. Here is a remarkable situation. In 1906 the Western Union Telegraph company reported gross earnings in Michigan of \$105,844.44, and paid a tax of \$5,292.22. The report for 1907, just received, shows gross earnings of \$113,375.93 on which a tax of \$3,411.25 should be paid. This is a decrease of \$3,469 in the earnings of the company and \$1,594 in its taxes, about 30 per cent. The Postal Telegraph company will this year pay a tax of \$638.45 on its Michigan business, which amounted to \$21,281.69, according to its report. This is a decrease of \$7 in the amount of business transacted. The Michigan State Telephone company's earnings last year were \$2,525,308.82 and the tax to be paid this year has been computed at \$75,705.26. This is an increase in earnings of \$371,124 and in taxes of \$11,337.75. The figures doubtless will have a bearing on the question of the ad valorem taxation of these companies.

AT THE BOWLING ALLEYS.

The city bowling tournament, which took place last week, was concluded Saturday night. It proved a decided success. All the matches in each event being finished on schedule time. The winners were as follows: A. E. Anderson in the singles, with a score of 547; Conklin and Miller in the doubles, with a score of 1,118; Conklin, Miller and Stafford in the three-men contest; score, 1,529. The second and third highest scores in each event were as follows: Singles—Sink, 542; Jenks, 533. Doubles—Van Iderstine and Elliott, 1,044; Anderson and H. O. Bell, 1,027. Three—Anderson, Brooks and H. O. Bell, 1,477; Foley, Werner and Foard, 1,449. The highest score in one game was made by Lawton—225; the highest score in one match by Conklin—575. The success of the tournament has started the bowlers talking of another event of the kind in the near future, and it is likely that the bowling season will wind up with a one-week tournament for pairs about May 1st, directly after the close of the regular three-men contest. The schedule for the three-men contest this week is as follows: Tuesday, team No. 2 vs. team No. 8; Wednesday, team No. 1 vs. team No. 7; Thursday, No. 3 vs. No. 5; Friday, No. 4 vs. No. 6.

TWO DEATHS YESTERDAY.

The death of Mrs. Margaret Bureau, 132 Fisher street, occurred yesterday afternoon, the sad climax of an illness of some months. The deceased was one of the oldest residents of the city. She came here from Canada fifty-three years ago with her husband, who died in Marquette in 1903. Mrs. Bureau was aged eighty-six, and is survived by one daughter and five sons. The obsequies will be held Wednesday morning at 9 o'clock, with services at St. John's church and interment in Holy Cross cemetery.

Wm. J. Christopher, 420 Oak street, died last evening at the age of fifty-three years, leaving wife and one daughter to mourn his loss. He had been ill for nearly two years with the so-called miners' complaint. Mr. Christopher was a former resident of Negaunee, whence he removed to Marquette a year and a half ago. Notice of the funeral will be given later.

Children eat, sleep and grow after taking Hollister's Rocky Mountain Tea. Brings rosy cheeks, laughing eyes, good health and strength. A tonic for sickly children. 35 cents. Tea or Tablets. The Stafford Drug Co.

SPECIAL NOTICE.

We will sell you whatever you need in the line of furniture, carpets and rugs at exactly the same prices and terms as you get from any catalogue house in the city of Grand Rapids, Chicago or Milwaukee. We deliver goods in your home and save you breakage and cost of handling. We represent the same factories as the Grand Rapids Catalogue houses do, and we are on the ground to make good any errors. Give us your orders instead of sending away. You will not regret it. Bring Catalogues with you.

3-16-11 HAGER BROS. CO., LTD.

"Preventives" will promptly check a cold or the Grippe when taken early at the "sneeze stage." Preventives cure all seated colds as well. Preventives are little candy cold cure tablets, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on Colds free, if you will write him. The samples prove their merit. Check early Colds with Preventives at top Pneumonia. Sold in 5c and 25c boxes by The Stafford Drug Co.

MUST SHOW CAUSE.

Or Else the Council Must Proceed to Re-count Votes in Two Wards.

C. F. Burton, who went to Iron Mountain to apply for an order compelling the council, as a board of canvassers, to recount the votes on the office of recorder in the Second and Fourth wards, yesterday was successful in accomplishing his purpose. Judge Stone granting an order requiring the council either to recount the votes or to show cause why it should not recount them on the 19th of this month. Mr. Burton asked for the order under the state statute providing for recounts. The order will be served on the council at once. Whether the council will recount or show cause is a matter yet undetermined, but it is commented by some that the logical thing for it to do, in view of its original stand on Mr. McCarthy's petition, is to attempt to show cause.

NEW P. O. ORDER.

Regarding Special Letter Delivery, in Effect July 1st.

After July 1st ordinary stamps may be used in place of a special delivery stamp and people will not be compelled to visit the postoffice in order to have letters or packages sent by special delivery. In addition to the stamps required to transmit any letter or package or matter through the mails, there must be attached to the envelope or covering ten cents worth of ordinary stamps of any denomination, with the words "Special Delivery," or their equivalent, written or printed on the envelope or covering, under such regulations as the postmaster general may prescribe. Mail thus stamped will be handled, transmitted and delivered exactly as though it bore the regulation special delivery stamp.

EARLY ORE HISTORY.

Recalled by Death of Jacob Reese, Long a Resident of Pittsburg.

Jacob Reese, one of the first men in the United States to recognize the value of Lake Superior ores, at a time when it was generally believed that they were worthless, died suddenly, March 25, at his home in Darby, near Philadelphia, says the Iron Trade Review. He was born in July, 1825, in Wales, and came to America with his parents in 1832. The family moved to Pittsburg within a few months after arriving in this country, and there Jacob Reese made his home until he retired from active business in 1887. He was an inventor, having taken out some 200 patents in connection with the treatment of steel and iron. He and his father are said to have made the first iron by the boiling process in the United States. He is also given credit for inventing the universal mill. He was for many years senior member of the firm of Reese, Grant & Woods, who operated rolling mills at Pittsburg. He had a winter home at Daytona, Fla., and came north only a few days before his death, having spent the entire winter there.

Jacob Reese is deserving of a distinct and honored place in the history of the American iron trade for he was a prophet crying in the wilderness. His first order was given to the Cleveland Iron Mining company in 1855. It was the first real order that the company received after the opening of the Great St. Marie canal was opened in 1855 and the Cleveland Iron Mining company shipped during that year 1,449 tons, which was the total shipment of the range, the Jackson Iron company not being prepared to ship any at all that year. The first cargo of iron ore carried through the canal after it was opened was in the brig Columbia, consisting of 132 tons. The Columbia was followed by the schooner George Worthington three days later with 322 tons, and by the propeller General Taylor with 617 tons. This ore was dumped on Crawford & Price's dock, Cleveland, where it was shortly thereafter sent by Jacob Reese. He placed an order with the company for some of the ore at once.

AWNINGS.

Wonders of a Modern Factory

The Perfect Food Is Made In Absolute Cleanliness.

A visit to the greatest modern food factory is a revelation to anyone not familiar with the development of machinery in recent years. Such a visit verifies the claims of the manufacturers of Malt-Vita, that this perfect whole-wheat food is cooked, steamed, mixed, baked and packed in absolute cleanliness. "Purity" is the watchword of this wonderful establishment. From the time the wheat is received in the factory until the finished product is shipped out to all parts of the world, Malt-Vita is not soiled by human hands. Machinery, clean, shining machinery conveys the wheat through all the long process, even to the packing and sealing of the air-tight, germ-proof, dirt-proof packages. After the wheat has been thoroughly cooked and steamed it is mixed with pure barley malt extract and each grain of the malted wheat is rolled into a wafer-like flake. Then it goes to the great ovens where, under intense heat, it is baked crisp and brown. Malt-Vita, the most delicious, the most healthful food in the world, is ready to eat. No cooking. No inconvenience. And you never tasted anything quite so good. All grocers, now 10 cents.

On account of overstock I must sell regardless of cost my large stock of wagons, carriages, buggies and harness at once.

THINK TWICE.

EPIDEMICS DIVERT BUSINESS.

"The recent epidemic of diphtheria and scarlet fever in the city have, it is reported, diverted thousands of dollars' worth of business from Chicago. In order to allay the fears of towns and cities near Chicago, which were said to be considering quarantine measures until the epidemic had passed, Health Commissioner Whalen called a consultation of big commercial interests which resulted in active co-operative measures being taken to prevent the spread of disease and stamping out the epidemic."—From American Carpet & Trade Record, Philadelphia, March 10, 1907. There is no greater source of infection than that related to the handling of carpets in infected districts and cities. They as a rule are bought up by the City Rug factories and lend their presence to infect other innocent patrons. In having your rugs made up from old carpets you will avoid all this risk by shipping to a well known sanitary factory that insures you against any chance of this kind we refer to

Petoskey Rug & Carpet Mfg. Co. Ltd., Petoskey, Mich.

WHEN THE DRUG FAILS

Doubtful drugs are as treacherous as a rope of sand. When sickness comes you must make certain of pure drugs and be just as sure that they are of proper strength as well as pure. You make sure of this when you get them here.

We buy drugs with utmost care, we examine them carefully when they come here and keep them carefully, we compound them carefully.

You had better let us fill your prescriptions. They will be compounded by an experienced pharmacist, who has a matchless stock of drugs at his command.
