

NO VERDICT IN THAW CASE

Jury Is Locked Up Shortly Before Midnight Until 10:30 O'Clock This Morning, After Deliberating for Thirty-One Hours.

Twice It Files Into Court and Requests Certain Information, All of Which Is Granted Except in One Particular—All Sorts of Rumors and Guesses Circulate as to How the Jurors Stand, but None Possess Authenticity—Disagreement Is Looked For.

New York, April 11.—Thirty-one hours of deliberation, and no verdict. Such was the condition of affairs at 11:40 o'clock tonight when the Thaw jury was ordered locked up for the night.

Although the jurors are hopelessly at sea, Justice Fitzgerald has not given up hope of having a verdict rendered. As yet Deming B. Smith, foreman of the jury, has not complained to the court that the jurors are unable to reach a decision, and until he does so it is not likely that Justice Fitzgerald will discharge them.

The mother, wife, sister and brothers of the defendant were in the criminal courts building up to the last minute, and when it was finally announced that the jury had been locked up overnight and there was no longer any prospect of a verdict before tomorrow, they returned to their hotel, cheerless.

Twice during the day the jury filed into the courtroom and asked the assistance of the court in an endeavor to bring about an agreement. The jurors wanted to hear again the evidence of numerous eye-witnesses to the tragedy. They wanted to hear what Dr. Hamilton had been allowed to testify as to Thaw's condition, the night of the tragedy, and what Evelyn Thaw had said as to her husband's conduct that evening; they wanted to hear repeated again the conversations Thaw had with James Clinch Smith just before he committed the homicide; they wanted to hear several portions of Justice Fitzgerald's charge once more, and, finally, they asked permission to take possession of all the writings of Thaw which had been introduced into the trial as indicative of the defendant's state of mind when he heard the story of Evelyn Nesbit's alleged wrangle at the hands of White.

All these requests were gladly granted by the court, but when Foreman Smith, on behalf of the jury, asked that certain portions of Attorney Deming's summings-up address be read, Justice Fitzgerald called a halt. He admonished the jurors that they were to be guided only by the evidence, and were not entitled to hear again the closing speeches of the lawyers.

There were all sorts of rumors and guesses today as to how the jury stood. None of the reports had any degree of authenticity. It seemed evident from the jury's action today that their deliberations were hinging upon the sanity or insanity of the defendant as shown by the defense. From the manner the jurors wish to go over the evidence in all its detail, it was surmised that verdict, if reached at all, would be predicated entirely upon the evidence and not upon the "unwritten law."

FOR HER DAUGHTER'S SAKE. Mrs. Charles Holman Hopes for the Acquittal of Harry Thaw.

Pittsburg, April 11.—"No matter how cruel Harry Thaw and Evelyn have been to me, I would like to see the jury acquit the defendant, and soon, for the sake of my daughter and what it means to her peace of mind." This was the statement made today by Mrs. Charles Holman, mother of Mrs. Harry K. Thaw, after a strenuous eighteen hours of anxiety, awaiting the return of the Thaw jury.

GETS A LIFE SENTENCE. Fred Troy Pleads Guilty—Killed Wife and Her Alleged Lover.

Joplin, Mo., April 11.—Fred W. Troy, a traveling photographer, who shot and killed his wife, Potosia Troy, and mortally wounded Ralph Guin in this city on New Year's Day, pleaded guilty to second degree murder today and was sentenced to ninety-nine years in the penitentiary. Troy represented that he had knowledge of his wife's unfaithfulness and a conspiracy against his life by Guin and the woman.

MRS. TAFT IN PORTO RICO. San Juan, P. I., April 11.—Mrs. William Taft, Miss Ide and Mr. Post arrived here today on the steamer Coamo. Several entertainments have been arranged in their honor.

INSTITUTE REDEDICATED. Pittsburg, April 11.—The rededication ceremonies of the magnificent Carnegie Institute were held today at the institute. A letter from President Roosevelt

ONE CENT A GALLON.

Standard Oil Company Again Boosts the Prices of Gasoline.

Cleveland, O., April 11.—Another advance of a cent per gallon on common grades of gasoline was announced by the Standard Oil company today.

FLOUR FOR STARVING CHINESE. Train of Thirty-Five Carloads Being Rushed to the Coast.

Evanston, April 11.—A special train of thirty-five carloads of flour went through Evanston last night, enroute to China for the famine sufferers. The train takes precedence over all classes of freight.

NOW SEVENTEEN CHILDREN. Stork Leaves Triplets in a Humble South Omaha Home.

South Omaha, Neb., April 11.—Triplets were born last night to Mrs. Anton Machal, wife of an Austrian, employed as a painting house employe. Including past visits to the hospital, she has had seventeen children left at the Machal home. Sixteen children are living. The family is in needy circumstances.

CLERGYMAN DISGRACED. Rev. Howard Mears, Episcopalian, Deposed from the Ministry.

New York, April 11.—Rev. Howard Mears, curate of St. Matthew's Episcopal church, arrested at a house in the Lenoxville district, March 12 last, where he had gone in the company of a negro woman, was today deposed from the ministry by Bishop Greer. This action followed a report by the committee of inquiry to investigate the conduct of the preacher on the occasion in question.

HER BODY FOUND IN LAKE MICHIGAN

MRS. S. T. SMITH, WEALTHY CHICAGOAN'S WIFE, TEMPORARILY INSANE, DROWNS HERSELF.

Chicago, April 11.—The dead body of Mrs. Sylvester T. Smith, wife of a wealthy retired railroad official, was found in Lake Michigan here today. It is believed that Mrs. Smith committed suicide while temporarily insane.

Mysterious Tragedy in Missouri. Cape Girardeau, Mo., April 11.—A sensation was created here today by the finding of the dead body of Mrs. A. D. Blomeyer in her home, following an alleged quarrel with her husband, Dr. Blomeyer, and his lapse into unconsciousness. Efforts to revive him have been of no avail.

Mother, Despondent, Poisons Baby. Memphis, Tenn., April 11.—The police report that late today, after poisoning her two-year-old baby, Mrs. Clarissa Gold, aged twenty-two, attempted suicide by swallowing a portion of the same drug. The child died, and the woman's condition is regarded as serious. Despondency over domestic affairs is alleged to be the cause.

TRAIN IS DERAILED; FIRE ADDS TO HORROR

FIFTEEN PERSONS MISSING IN CONSEQUENCE OF A WRECK ON THE CANADIAN PACIFIC.

Montreal, April 11.—Nine adults and six children are missing as a result of a wreck on the Canadian Pacific west of Chateaufort, yesterday. According to an official statement issued today by the Canadian Pacific, the train was partly derailed by a broken rail. Five cars ran down an embankment and caught fire from a cooking stove.

CARDINAL GIBBONS PRESIDES.

Catholic Hierarchy of America in Session at Washington.

Washington, April 11.—At the concluding session tonight of the Catholic hierarchy of America, Cardinal Gibbons presided and there were present, Archbishop Farley of New York, Moeller of Cincinnati, Ireland of St. Paul, Cleave of Dubuque, Glennon of St. Louis, Blank of New Orleans, Messmer of Milwaukee, William of Boston and Ryan of Philadelphia.

A committee consisting of Archbishop Ireland, Keane, Messmer and Glennon was appointed to act in conjunction with the United States census office to secure a more accurate estimate of the Catholics in this country. An urgent plea was made for more liberal contribution to the part of Catholics towards the "Peter's pence" fund for the vatican.

expressing regret at his inability to be present was read. Andrew Carnegie delivered an address.

REDUCED FARES FOR MICHIGAN

Lower House Passes the Senate Bill Without Amendment, and the Governor Will Make It a Law as Soon as It Reaches Him.

Passenger Travel Is Fixed at Two Cents in the Lower and Three Cents in the Upper Peninsula, Effective Sept. 1, but With Right to Any Railroad to Appeal to the Courts in the Event It Holds the Rate Applicable to Its Line Unreasonable.

Lansing, Mich., April 11.—[Special.]—All that stands between Michigan and two-cent fares below and three-cent fares above the straits is Governor Warlick's signature and the consent of the railroads. The governor's signature will be given as soon as the bill reaches him. The bill goes into effect about Sept. 1, and it remains to be seen whether the roads will come under it or will fight.

The state is given the right to regulate fares within "reasonable" bounds. Whether a two-cent fare is "reasonable" is a question each road must decide for itself. If it thinks it is not, under the conditions under which it works, then it may appeal to the courts. The Grand Rapids & Indiana, Ann Arbor and Pere Marquette are considered almost sure to make such appeal.

But one man—Representative Lesperance, of Detroit—in the house today dissented on the final vote, which was 92 to 11. Several amendments were offered, some of which would admittedly have bettered the bill, but fear that the measure might fall of passage in the senate if sent back there resulted in killing all the amendments, that of Representative Galbraith getting but seven votes and leading the list.

The bill allows the upper country roads to charge four cents for ten miles and under. Mr. Galbraith wanted to make this five cents, showing that eleven miles under the bill would cost thirty-three cents, while nine miles would cost thirty-six cents. Representatives F. T. Bennett, J. T. Bennett, L. L. Kelley, Lesperance (Detroit), J. H. Monroe and Stander voted with him. Representatives Abrams and Edwards were absent. The other upper country men voted against the amendment or did not vote. Representative John Gordon of Marquette spoke against Mr. Galbraith's proposition, expressing the wish that the minimum might be made fifteen instead of ten miles. Mr. Monroe, of Saginaw, spoke in favor of the amendment.

One other amendment offered, but rejected, would have made the fare a cent and a half on roads earning \$5,000 a mile or more, meaning the main line of the Michigan Central. Another would have made a universal interchangeable, transferable mileage book.

Today's action brings from the three or two-and-a-half-cent fare class the Grand Rapids & Indiana, the Pere Marquette, the Ann Arbor and the Vabash roads and puts the same rate in effect on all divisions of the Michigan Central and Lake Shore.

MISSOURI HOUSE LAUDS BRYAN.

Jefferson City, Mo., April 11.—In the house today Representative Stubbs, Republican, introduced a resolution endorsing President Roosevelt on his stand against the "unprincipled manipulation of the wealth of the country." Representative Barker, a Democrat, attacked the resolution on the ground that Mr. Roosevelt had denounced leading men who had differed with him. Representative Oliver, a Democrat, offered an amendment that it was the sense of the republicans that Roosevelt run for a third time. The amendment was adopted, and then the resolution was amended was tabled. A resolution was next adopted lauding Bryan and declaring that Roosevelt should speedily retire to make way for the Nebraskan.

ZELAYA'S AMBITION

PRESIDENT OF NICARAGUA WOULD MERGE TWO NATIONS.

He Had Not the Slightest Excuse for Making War on Honduras—He Is Blamed for Revolution in the Latter Country; Part of Plot to Overthrow Bonilla—United States and Other Governments May Unite to Prevent These Little Disturbances.

Washington, April 11.—Nicaragua's attitude throughout the recent Central American war has proved exceedingly expatriating to the United States and to Mexico. It has certainly not improved her relations with the two countries. Seldom if ever before has a war been waged with less provocation than that which Nicaragua recently declared upon Honduras. The flimsy charge set forth by the Nicaraguan government and made an excuse for the opening of hostilities when Honduran soldiers were coming across the border line is not borne out by the facts so far as unbiased inquiry can develop; this was merely a trumped up excuse for the purpose of enabling President Zelaya to wage his warfare uninterrupted by the civilized world, represented by the United States and Mexico. It is a fact that none of the officials here believe that Nicaragua had the slightest excuse for making war. As for Zelaya, who has been portrayed in some quarters as a sort of Central American Diaz, that gentleman comes much nearer being the Castro of Central America than a Diaz. His ambition is to merge those republics into one and set himself at its head.

This is one of the reasons why the United States has been especially unwilling to recognize the provisional government which has been set up in Honduras as a result of the victory of the Nicaraguans. Zelaya would never have been able to achieve his recent successes but for the activity of the revolutionists in Honduras against President Bonilla. It is generally believed here

Chicago, April 11.—Charles O. Duplessis, a widely known authority on athletics, is dead, aged fifty-three.

PRESIDENT'S WORD FINAL.

Roosevelt Would Not Take the Nomination, Proclaims Senator Burrows.

Kalamazoo, Mich., April 11.—Senator Burrows said tonight that even if President Roosevelt is given the nomination by the Republicans for president, he would not accept it.

"He has said that he will not accept, and the make-up of the mass is such that he will not retract the statement," continued Mr. Burrows. "The Republican party is united for him, but that does not mean that he will accept a re-nomination."

WILL ROOM SECRETARY TAFT.

Campaign Club Organized by Students at Michigan University.

Ann Arbor, Mich., April 11.—An idea originated by the Ohio students in the University of Michigan took definite form today in the organization of a club of Republican students to boom Secretary Taft for president. It is expected that similar clubs will be organized in other colleges. The officers chosen are: President, John Pasmore, Norwich, O.; treasurer, T. V. Bird, Mount Valley, Ia.; secretary, D. H. Sibbett, Pennsylvania.

SOLONS BOOST PAY

WISCONSIN LAWMAKERS TO DRAW \$1,000 PER ANNUM.

Double That Is Proposed in Illinois, and the House, 79 to 46, Votes in Favor of the Proposition.

Madison, Wis., April 11.—The senate today concurred in the assembly resolution increasing the pay of members of the legislature from \$500 to \$1,000.

Salary of \$2,000 in Illinois.

Springfield, Ill., April 11.—By the vote of seventy-nine to forty-six, the house today passed a bill increasing the salary of members of the legislature to \$2,000 a year.

Veto His Nebraska Institutions.

Lincoln, Neb., April 11.—Appropriation bills of the recent legislature aggregating \$250,000 were vetoed today by Governor Sheldon. The veto falls heavily on state educational institutions. The governor says the total appropriations exceed that state's revenues.

Highwood Anti-Saloon Bill Passes.

Springfield, Ill., April 11.—By the vote of 100 to 0, the house this afternoon passed the Highwood anti-saloon bill, prohibiting the sale of liquor within a mile and one-eighth of any military post or naval station, Highwood and part of North Chicago being effected. The bill now goes to the senate.

MISSOURI HOUSE LAUDS BRYAN.

Jefferson City, Mo., April 11.—In the house today Representative Stubbs, Republican, introduced a resolution endorsing President Roosevelt on his stand against the "unprincipled manipulation of the wealth of the country." Representative Barker, a Democrat, attacked the resolution on the ground that Mr. Roosevelt had denounced leading men who had differed with him. Representative Oliver, a Democrat, offered an amendment that it was the sense of the republicans that Roosevelt run for a third time. The amendment was adopted, and then the resolution was amended was tabled. A resolution was next adopted lauding Bryan and declaring that Roosevelt should speedily retire to make way for the Nebraskan.

SHIPYARDS STRIKE ENDS IN FAILURE

Men Out at Lorain Abandon Their Efforts to Secure Concessions and Indulge in a Veritable Stampede to Get Back to Work.

Between 700 and 800 Report for Duty During the Day—Butcher Workmen Who Tied Up the Meat Industry in 1904 Prepare for Concerted Action in Presenting Renewed Demands to Packers—Organizing the Past Few Months, Convention Is Called.

Lorain, O., April 11.—There was a regular stampede among the strikers returning to work at the local yards of the American Shipbuilding company today. The number of men who went back is estimated at between seven and eight hundred.

New Meat Tie-Up Threatened.

Chicago, April 11.—The butcher workmen who tied up the meat packing industry throughout the country in 1904, and who finally suffered defeat in the struggle, have been organizing for several months, and it is said they are about to present demands to the packers. A meeting of the Amalgamated Meat Cutters & Butcher Workmen of America will be held in New York, April 22, for the purpose of fixing a date for concerted action in presenting the demands.

Want Roosevelt Put on Record.

Chicago, April 11.—The Chicago Federation of Labor is endeavoring to place President Roosevelt on record regarding his reported opinions of Meyer and Heywood, officials of the Western Federation of Miners, charged with complicity in the assassination of ex-Governor Steiensen of Idaho. A telegram was today sent the president by the federation's secretary, asking him if he had expressed himself regarding Heywood and Meyer as reported in the newspapers.

Of course the time will come when the United States and Mexico, and possibly Argentina and Brazil, will be obliged to act in unison to prevent the recurrence of revolutions in Central America, and in such South American States as Venezuela and Colombia. Since Mr. Root became secretary of state he has been his policy to let Mexico take the initiative in any steps looking to intervention in Central American trouble; this government has remained in the background and given Mexico its moral support. The reason for this is easily found. Mexico has a centralized government, and is also much nearer the scene of disorder. The continuance of peaceful conditions in Central America is even important to Mexico than to the United States. This government has not been very successful in its efforts to stop the recent war. This has been due in large measure to the attitude of President Zelaya. He has found fault with our diplomatic representative, and has plainly showed that he resents the co-operation of Mexico and the United States in the effort to restore peace. Foreign interests in Central America are already manifesting anxiety at the course of events there, and if Zelaya continues his high-handed policy the United States may be called upon to exercise a more drastic policy for the protection of American interests, and incidentally of European interests. Apparently his recent victory has completely cowed the other Central American states.

It is only because of the bad effect it would have upon South America that the president would call them severely to account for the manner in which they have acted on various occasions toward this country, were it not that such republic states as Argentina, Brazil and Peru might misinterpret such actions on the part of the United States as indication of an expansion policy in the direction of South America.

What the outcome of the present trouble in Central America will be the officials of the state department cannot surmise. Of course, for diplomatic reasons they are in good relations with Nicaragua and the other Central American states. At times, however, the effect of being undiplomatic is salutary and certainly the time has come for ridding the public mind of the idea that Zelaya is any better than the average South or Central American political adventurer who gets himself elected president and develops into a tyrant.

HOMEWARD BOUND WITH DEAD.

Gibraltar, April 11.—The American cruiser Baltimore left here today for New York. She has on board the remains of Rear Admiral Albert Kautz, retired, who died at Florence, Italy, Feb. 6, and Lieutenant Stanley Woods, who died on board the Baltimore Feb. 22.

INDICTMENTS STAND.

Government Scores in Case Against the Santa Fe Road.

Los Angeles, Cal., April 11.—Motions to quash the indictments for rebating returned against the Santa Fe railroad were denied in the federal court today. This is a distinct victory for the government.

Syracuse, N. Y., April 11.—The federal jury in the case against the New York Central railroad, charged with giving rebates to the General Electric company at Schenectady, reported this afternoon that it could not agree, and was discharged.

ENGLISHMEN DISAPPOINTED.

Hoped for Longer American Rule in Cuba Than Taft Indicates.

Havana, April 11.—Excepting among the English colony, where some disappointment is guardedly expressed regarding Secretary Taft's statement issued last night, there is every sign of general satisfaction with his remarks. Englishmen say that the secretary's statement only guarantees good business for a little over a year. It is plainly evident that the English anticipated a statement assuring a greater degree of permanent American control.

The Spanish commercial interests consider that Secretary Taft's conditions concerning tranquility amount to assurance of American control for several years. The American commercial and banking interests declare that Taft's words mean at least one year's continuance of business, during which time political passions probably will die out.

The Americans believe that the Cubans, recognizing the certainty of continued American intervention if they do not keep peace, will make a strong endeavor to do so.

OLD SOLDIERS HAVE FRIEND IN ROOSEVELT

CIVIL WAR VETERANS WILL BE CARED FOR, HE ASSURES A G. A. R. COMMITTEE.

Washington, April 11.—General R. B. Brown, commander-in-chief of the Grand Army; "Corporal" Tanner, past commander-in-chief, and various local officials of the organization, called on President Roosevelt today in regard to the dismissal from the government departments of many veterans of the Civil war, or their widows, for no other cause than old age. Some time ago the president took up this question at a cabinet meeting and gave instruction that any discrimination against veterans or their widows should cease. During the call today of Commander Brown and his friends, the president informed them of the instructions he had given and assured them that the old soldiers should be cared for.

COTTON FOOD FOR FLAMES.

Loss at Chickasha, I. T., Nearly Three Quarters of a Million.

Chickasha, I. T., April 11.—The company of the Traders Compress company, with its contents, 1,400 bales of cotton, burned today. The loss is \$700,000.

MAIL PACKAGE WAS "LOADED"

POSTOFFICE CLERK ENGAGED IN STAMPING IT LOSES A FINGER AND A THUMB.

St. Louis, April 11.—A mail package apparently containing dynamite, exploded while it was being stamped in the St. Louis postoffice today. The explosion blew away a finger and a thumb of John G. Bayer, a clerk, who was stamping the package. The explosion destroyed all trace of the contents and all the address, excepting the words, "Independence, Mo."

EUROPEANS IN PERIL.

Tangier, Morocco, April 11.—The diplomatic corps unanimously decided today to request the dismissal of the governor of Casablanca. That town is reported surrounded by revolted tribesmen who are threatening to pillage the place and throw the Europeans into the sea, and the consular corps there protested two days ago to the diplomatic corps here against the governor, declaring that he was doing nothing to insure the safety of Europeans.

BIG BALL TEAMS OPEN THE SEASON

Feature on the American League Diamonds Is the Shutting Out of the World's Champion Chicago Club by St. Louis, 0 to 1.

Weather at All Points Is Unfavorable—Detroit Downs Cleveland, 2 to 0, and Boston Defeats Philadelphia in a Fourteen-Inning Game by the Score of 8 Runs to 4—Chicago, Cincinnati and Philadelphia the Winners in the Yards of the National.

W. I. P. C. Detroit ..... 1 0 1000 St. Louis ..... 1 0 1000 Boston ..... 1 0 1000 New York ..... 0 1 900 Cleveland ..... 0 1 900 Chicago ..... 0 1 900 Philadelphia ..... 0 1 900 Washington ..... 0 1 900

National League Standing. W. I. P. C. Chicago ..... 1 0 1000 Cincinnati ..... 1 0 1000 Philadelphia ..... 1 0 1000 New York ..... 0 1 900 Pittsburg ..... 0 1 900 St. Louis ..... 0 1 900 Brooklyn ..... 0 0 900 Boston ..... 0 0 900

Games Scheduled for Today. In the American League: Chicago at St. Louis. Cleveland at Detroit. New York at Washington. Boston at Philadelphia. National League: Brooklyn at Boston. Philadelphia at New York. St. Louis at Chicago. Pittsburg at Cincinnati.

Chicago, April 11.—The features of the opening baseball games of the American league season today was the shutting out of the world's champion Chicago team by St. Louis at the latter city. The weather conditions were unfavorable at all points. At Washington, the New York team was victorious. At Philadelphia, a fourteen-inning game was played, Boston winning out. Summaries of the games follow:

R. H. E. St. Louis ..... 000001000—1 3 1 Chicago ..... 000000000—0 0 1 Batteries: Howell and Stephens; Altrock and Sullivan. Philadelphia—00100020100000—4 5 3 Boston—00010000300000—8 11 6 Batteries: Coombs and Schreckengost; Young, Tannehill and Criger. Detroit ..... 000100001—2 9 1 Cleveland ..... 000000000—0 3 3 Batteries: Mullin and Schmidt; Leibhardt and Clarke. Washington—000000110—2 10 1 New York ..... 100200001—3 6 4 Batteries: Hughes and Blankenship; Orth and Kleinow.

National League. Chicago, April 11.—Nearly ten thousand persons braved the cold weather today and witnessed the National league champions win the first game of the season from St. Louis. Summary: Chicago ..... 1011110—0 7 2 St. Louis ..... 000000000—1 4 3 Batteries: Overall and Moran; Fromme, McGinn and Marshall.

Cincinnati, April 11.—With Pittsburg one run ahead in the ninth, the locals went in and captured the game, scoring two tallies on McLean's double sacrifice, two bases on balls and Ganzel's single to right. Summary: Cincinnati ..... 000002002—4 11 1 Pittsburg ..... 011000001—3 6 4 Batteries: Ewing and Schlei; Philippe, Leifield, Gibson and Phelps.

New York, April 11.—Today's game was forfeited to Philadelphia, 9 to 0, on account of the home club being unable to clear the diamond of the crowd. The game was called in the eighth inning, with the score 3 to 0 in favor of the visitors. Summary: New York ..... 000000000—0 1 0 Philadelphia ..... 10001100—3 11 1 Batteries: McElderry, Ames and Breesnach; Corridon and Jacklitch.

Boston-Brooklyn game postponed because of wet grounds.

Schedule Committee Deadlocked. Lincoln, Neb., April 11.—At midnight tonight the schedule committee of the Western Baseball league was unable to reach an agreement on the playing dates for the coming season, and was still in session.

BRYAN TO MAKE ADDRESS AT LINCOLN EXERCISES. Washington, April 11.—William Jennings Bryan will make the principal address in connection with exercises which will be held in commemoration of the forty-second anniversary of the assassination of Abraham Lincoln, at the Columbia theater here on April 14. The services will be held under the auspices of the Union Veteran legion, and the committee having the memorial in charge has extended invitations to the officers of all organizations resulting from the Civil war (whether they or their fathers were in the gray), to officers of the army and navy and many persons prominent in social and public life in Washington.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month by carrier \$1.00; Per year by mail \$10.00

MARQUETTE, MICH., APRIL 12.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Hereafter the Rev. Donald MacDonald will be just plain Donald MacDonald. And it's high time.

It should be reflected, however, that Nick Longworth's declaration doesn't carry any delegates.

Berry Bros. of Detroit should understand that they are at liberty to start as many furnaces as they please in the vicinity of Marquette.

Michigan not having any favorite son of her own, it will be comparatively easy for her to back the president.

Press reports would indicate that the most important business of a large majority of the people is "standing with Roosevelt."

In the breaking of lanes at the close of the Thaw trial a reading of the reports shows that District Attorney Jerome did not come out second best.

"Brain storm" and "dementia Americana" are up-to-date Americanisms for which we are indebted to the attorneys and experts in the Thaw case.

Mayor Robertson will doubtless bear prominently in mind that if he is mayor for everybody, pretty much everybody will want to see him re-elected for another two year term.

With the late start of navigation we will have to have a busy season, and one unusually free of interruptions, to permit of the 42,000,000 tons estimated ore movement.

It is generally understood that Son-in-Law Longworth's sentiments in regard to Secretary Taft as a presidential possibility pretty accurately reflect those of his new father.

However, it should be remarked that the election count "error" in the First bore every evidence of being an honest error. It occurred in connection with the state ticket. And on April 1 no one was much concerned about the state ticket.

If there is to be any investigation at all of the game warden's department, let us hope it will be real, and not play, investigation. At the same time it does not appear that the need of an investigation has been made clear. State Game Warden Chapman has answered his critics in a satisfactory manner.

Menominee wants a breakwater, and Marinette will help her get it. The need is common to both cities. The storms from Lake Michigan have been the means of causing much damage on their river fronts. With the influences that they can bring to bear it should be simply a question of time when they get what they are looking for.

Senator Foraker's fine talk of rendering accounts of his stewardship to the people would be much more plausible were it not for the general knowledge that practically all the accounts Senator Foraker ever rendered were made to the Ohio "machine," in which he has ever been one of the chiefest cogs. And the machine has invariably said "well done, thou good and faithful servant."

The Mary Charlotte strikers did the obviously wise thing when they voted to return to work. The whole movement was poorly advised, and was destined to fail. The strikers were largely foreigners, or they would have possibly understood that they would get no support from disinterested people and have foreseen that the company would have no trouble filling their places, after a few days had elapsed. The suspension at the Section 21 mine and the curtailment at the Regent were the final blows for the strike, and they showed the men who walked out that if they didn't scurry to cover without delay there would be no jobs for them.

W. R. Hearst occasionally does a good thing. A press dispatch yesterday contained news of the fixing by Judge Hough, in U. S. court, of fines aggregating \$31,000 against the New York Herald Publishing company, James Gordon Bennett, its owner, and Manley W. Gilliam, its advertising manager, for the employment of the mails for improper purposes. In the New York Herald's columns for years appeared "personal" advertisements of abandoned women

SUPERIOR TRUST COMPANY HANCOCK MICHIGAN Capital \$150,000 This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee. C. A. WRIGHT, Pres. JACOB BAER, Vice Pres. M. C. GETCHELL, Sec'y.

soliciting appointments with men of easy morals, and other advertising matter of similar nature. That a paper of the Herald's standing, owned by a man of James Gordon Bennett's ancestry and fair repute, should accept such business seems beyond belief, but the fact is undoubted. It was Hearst and his papers that opened fire on the Herald's "rotten" personal columns, with the final result just noted. Whatever Mr. Hearst's motives were, there is no doubt that he performed a public service in compelling the Herald to be decenter than its proprietor, Mr. Bennett, elected it should be.

The governor's pet measure, the bill providing for a binder twine plant at the Jackson prison, is in a fair way to be considered in the legislature on its merits. The house ways and means committee this week decided to report the bill out. It carries an appropriation of \$50,000 to establish the plant and \$125,000 to purchase raw material as it is needed. The only amendment suggested in committee is one making the state a preferred creditor of all persons to whom binder twine may be sold. The bill will be considered in the house April 18, it having been made a special order for that day. There will be opposition to it in the house, but it is predicted that it will carry. It will encounter its principal opposition in the senate, and if defeated will probably be defeated there. Governor Warner, however, is apparently persuaded of the great merit of the proposed legislation, and will doubtless do all he can for the bill. If it is finally passed his support for it will doubtless have been one of the largest factors in bringing about its success. Evidence is not wanting that if the legislature was left to itself it would defeat the measure.

There is no doubt that Senator Foraker is entitled to his opinions. The best thing about the senator is the tenacity with which he has clung to them, stood behind them, and fought for them. It is a thing for which he is greatly admired, even where he is disagreed with. The president, too, is entitled to his opinions, and they are as definite and as well grounded as those of Senator Foraker. At the same time the opinions of these two public men are so widely at variance that there is a distinct line of cleavage between them. A third party must support either one or the other, as circumstances occur which they have no control or aligning them with hostile programs and hostile forces. In Ohio are some hundreds of thousands of voters with as much right to untrammelled opinions as either senator or president, and they, too, have them. The question in Ohio is whether a majority of these people will hold that the president or the senator has conferred the greatest benefits in the course of his public life on the whole nation; whether the president or the senator has best exemplified the principle of the "square deal" and an even administration of the laws. The people of Ohio, we believe, have their minds pretty well made up on this question and are prepared to speak in no uncertain terms, as soon as they have the opportunity.

NOT CRANKS, THESE. The advocacy of temperance measures is no longer confined to cranks, as was the case only a few years ago, but they are now supported by many business and professional men, whose counsels appear to be taken in regard to the manner in which the temperance campaign may best be carried on, for it is being carried on more effectively and with better results than accompanied it before. That these elements now comparatively prominent in the anti-saloon propaganda were little associated with it until recent years was not due to their lack of appreciation of the correctness of the basic principles of many things for which the temperance reformers contended, but to their distaste for the impracticable unbusinesslike and wholly chemical methods pursued by the early crank enthusiasts.

The new school of reformers is more practical and much more representative. This week it made a notable demonstration at Lansing in favor of the Lugers local option bill. Over 200 Michigan men marched in on the legislature, to show by their presence and expressions that they were in sympathy with the principles of the bill. The Detroit delegation, which went to Lansing by special train, fell but little short of 200, and included many well known Detroit men. Judge Frazer was among them, F. L. Barbour, Henry M. Leland, Rev. John Sweet, Alexander McVittie, Theodore O. Bryan, and numerous other Detroiters of excellent standing to whom the term "crank" will hardly stick. These gentlemen, reinforced by friends of the Lugers bill from other places, presented a number of strong and succinct arguments for that measure, which, as is generally known, a local option bill giving the smallest political units in the state the right to have or prohibit saloons, as they see fit. It is not a hard and fast temperance measure, but is a bill proposing the principle of home rule in the liquor traffic, and in practice it would make Michigan a wet or dry state, just as the majority opinion in different localities happened to run.

Some strong arguments for the Lugers bill were presented. It is, however, said to be very doubtful whether the measure will be passed, as sentiment in the legislature runs against it. But its success or failure is comparatively unimportant in view of the evidence we have been given of the different character of men who are now interesting themselves in temperance legislation, compared with the "advocates" of a few years ago. The men who now seem persuaded that the whole citizen-

MARQUETTE COMMON COUNCIL PROCEEDINGS.

(Official.) Marquette, Mich., April 4th, 1907. Pursuant to Section 1 of Chapter V of the charter, a session of the common council was held in the recorder's office, and was called to order at 8 o'clock p. m. by the recorder, in the absence of the mayor, the Hon. Rush Culver.

Present—Aldermen Asire, Campbell, Corbett, Donovan, Downey, Ekstrom, Jenks, Peters, Reichel and Siegel—10. Moved by Alderman Donovan, supported by Alderman Siegel, and carried, that Alderman Asire be chairman of this session.

Alderman Asire thereupon took the chair. The recorder presented and read the petition of Edward J. McCarthy for a recount of the ballots cast in the Second and Fourth wards on the office of recorder, which petition was filed with the recorder at 2 o'clock p. m. April 4th, 1907.

The chairman inquired of the recorder if any proof of service of notice of said petition upon Daniel S. Donovan, the opposing candidate, had been filed, and the recorder announced that no such proof of service had been filed.

On motion of Alderman Siegel, supported by Alderman Donovan, the following was adopted: Whereas, the statute requiring notice of twelve hours upon the opposing candidate not having been complied with, that the petition of Edward J. McCarthy for recount of the ballots cast in the Second and Fourth wards on the office of recorder be rejected.

Moved by Alderman Donovan, supported by Alderman Ekstrom, and carried, that the chairman appoint a committee of three to tabulate the votes cast at the election held on Monday, the 1st day of April, 1907.

Chairman Asire thereupon appointed Aldermen Donovan, Peters and Siegel as such committee.

The canvassing committee reported as follows: To the Honorable, the Common Council: Your committee appointed to tabulate the votes cast at the election held Monday, April 1st, 1907, for city and ward officers, respectively, report that they have tabulated said votes from the returns thereof, and find votes to have been cast for the several officers as follows:

Table listing election results for various wards and positions, including names like John Robertson, Jacob P. Werner, Edward J. McCarthy, Daniel S. Donovan, Robert Peter Byrne, Samuel E. Byrne, Edward J. McCarthy, Daniel S. Donovan, Jacob Dolf, Christ Peterson, John Bergh, John A. Williams, Jeremiah P. Shand, Walter T. Ward, etc.

Supervisor—Martin Sweder. Said tabulating committee further reported that the total number of votes cast at said election on the question "Shall the Board of Fire and Water Commissioners be authorized to borrow \$75,000.00 and issue bonds for the purpose of raising money with which to make improvements in the Water Works system of the City of Marquette?" was 1,324, of which 869 were "Shall the Board of Fire and Water Commissioners be authorized to borrow \$75,000.00 and issue bonds for the purpose of raising money with which to make improvements in the Water Works system of the City of Marquette?" and 455 were "No."

Also that the total number of votes cast at said election on the question, "Shall Voting Machines be purchased by the City of Marquette?" was 1,324, of which 785 were "Shall Voting Machines be purchased by the City of Marquette?" and 539 were "Shall Voting Machines be purchased by the City of Marquette?"

The council then, on motion, adjourned. DANIEL S. DONOVAN, Recorder. (Official.) Marquette, Mich., April 4th, 1907.

An adjourned regular session of the common council was called to order by Alderman Asire, in the absence of the mayor, the Hon. Rush Culver. Present—Aldermen Asire, Campbell, Corbett, Donovan, Downey, Ekstrom, Jenks, Peters, Reichel, Siegel and Williams—10. Moved by Alderman Siegel, supported by Alderman Ekstrom, and carried, that Alderman Asire, be chairman of this session.

The following was presented and ordered placed on file: To the City of Marquette: The undersigned, Lake Superior Railway Construction company, of Cleveland, Ohio, accepts all the terms and conditions of the franchise granted said company by the City of Marquette, to construct, own, use and maintain and operate into and within the City of Marquette, an interurban street railway, in and by an ordinance of said city entitled, "An ordinance granting a franchise and right-of-way for an interurban street railway," adopted by the common council of said city on February 11, 1907, and re-adopted by said common council on March 4, 1907, and approved by the mayor of said city on March 4, 1907.

Dated April 3, 1907. Very respectfully, LAKE SUPERIOR RAILWAY CONSTRUCTION COMPANY, By J. W. Barber, Secretary of said Company. The monthly reports of the justices of peace were presented and ordered placed on file. The following bills and claims, having been audited by the controller, on motion of Alderman Corbett, were allowed and ordered paid: Robert F. Byrne, Treas., pay roll of street commissioner, \$365 46 Charles Pellissier, final payment on contract for grading, curbing and macadamizing Blomhuber avenue 486 15

If You Don't Get Good Cigars Now, It's Your Own Fault All you have to do is to stand up like a man and ask the dealer for cigars identified by the "Triangle A" on the box.

Nothing else. Nothing easier. Nothing surer. When you say "Give me a 'Triangle A' cigar," you are absolutely as certain of getting quality, and the same quality every time, no matter which particular brand you select, as if you had your cigars made up to order. We have succeeded in building up a fifteen per cent. share of the entire cigar business of this country. In the face of the keenest competition, take notice. You know well enough that there's only one way we could have done it: Simply by making better cigars of every grade than any other manufacturer has produced and telling the truth about them. And by making the strongest definite claims that any cigar manufacturer ever dared to make, and living up to them. The one reason why we started

If you have been buying your cigars by guess-work and want to put our claims to a most practical test, just take a new start. Begin by smoking one of the best-known of all the brands that are sold under the guarantee of the "Triangle A"—

The New CREMO Compare it fairly with any cigar sold at the same price that carries "Triangle A" guarantee—you won't fail to see why we are so confident of your co-operation as soon as you realize just what the "Triangle A" stands for. Every box is now extra-wrapped in glassine paper, sealed each end with the "Triangle A" in red. The cigars are kept an, fresh and in perfect smoking condition until the box opened. AMERICAN CIGAR COMPANY, Manufacturer

# Copper Country

**NAVAL RESERVE BOAT HOUSE.**  
Civil Organization of Hancock Division Plans to Provide a Structure.

The civil organization of the Hancock naval reserve, the businessmen who are interested in its welfare, plans to provide a boat house for the division. The reserve will have two large boats as soon as navigation opens, and it must have some place to house them. The association has undertaken to raise the money for the purpose.

As soon as navigation opens the division will start in on small boat practice, which will include learning the various styles of strokes used in the navy, signal practice, and service with the three-inch gun. This is all in anticipation of the annual cruise aboard the Yantic next summer.

The Hancock division will shortly begin a series of "smokers," social affairs for the amusement of the members and their friends. The reserve is growing in numerical strength and it promises to become an organization in which Hancock can take pride equal to that which it takes in the Scott Hotel, the asphalt pavement, the Elks' temple and the high school hockey team.

It is probable that the city of Hancock will be induced to provide a site for the boat house, and possibly the house itself.

**CHANGE IN THE WEATHER.**  
Snow from Recent Great Storm Began to Melt Yesterday.

Yesterday brought a change in the weather to the copper country, and the winter which has lingered in the lap of spring for so long, began to pack up and move out. At noon the streets were pretty slushy and there were evidences of coming freshets which might be serious if not according as preparation had been made for them. The copper country has tons of snow to dispose of just now, and particularly in the Portage Lake towns, which are built on steep hills, the danger of freshets is great.

There was a rumor in Houghton yesterday that the Haron dam, which in the old days backed up the water of Huron creek to make a pond for the old Huron mine, is liable to give way. Martin Foley, superintendent of public works of Houghton, laughed at the tale. He says that the snow could not possibly create a flood serious enough to injure the structure.

The temperature rose gradually yesterday and the streets in Houghton and Hancock threatened to become impassable to sleighs. Calumet will not feel the good effects of the sun so soon as the temperature there is lower. The effects of the snow blockade had passed yesterday, and all trains were running on schedule time.

**Another Blizzard Sets In.**  
Late yesterday still another change in the weather occurred. A fierce blizzard set in, and from 4 o'clock until midnight upwards of a foot of snow had fallen. The storm was still raging early this morning, and it looked as though there would be another serious blockade.

**THREE LITTLE RUNAWAYS.**  
Justice Brand Had a Pathetic Case on His Hands Yesterday.

Three weeping mothers and three little boys confronted Justice Brand of Houghton yesterday morning. The youngsters had run away from home and had got into trouble with the law, and the women were paying the price that all mothers of all ages have had to pay, suffering for the mistakes of their children.

The three culprits ranged in age from eleven to thirteen. One of the boys, it is said, stole a sum of money from his mother and with his chums decided to take a railroad ride. They did not intend to run away from home evidently because they bought tickets only from Houghton to Baraga, and they happened to buy them Monday night and they ran into the storm and could not get back. The mothers were distracted at their absence and called in the police. The youngsters came home Wednesday morning and were taken to the county jail until they could be heard by Justice Brand. County Agent Mason was interested in the case yesterday.

It was the thirteen-year-old boy who had taken money from his mother and he was committed to the industrial school until he is seventeen years of age. The other two boys also were ordered there, but on the recommendation of Mr. Mason their sentences were suspended. The eleven-year-old member of the trio is called a "phenom" by Justice Brand. The little fellow begged that he be sent to the school. He admitted that his home life was pleasant, still he wanted to go to the industrial school. However, he admitted that his mother made him wash dishes, and this efficient occupation is possibly the reason.

**SUPERVISORS LOSE PERQUISITE.**  
But They Are Pleased at the Prospect—Some Legislation.

A. D. Edwards of Atlantic, representative from Houghton county in the state legislature and chairman of the Houghton county board, gave his fellow supervisors a bit of information while he was home this week which they received with pleasure. It refers to the birth registration law, and the gathering of statistics under the same.

This law has been in operation for fifteen months and it has caused a lot of worry to physicians and to township officials. It is presumed under the statute that every child born in the township is reported by the attending physician to the township clerk, who keeps the record. At the end of every fiscal year the supervisor of the township is supposed to secure a list of the reported children from the clerk and, armed with this, to make a house-to-house canvass of the township for the purpose of ascertaining if all children born have been reported. This is to be done after Nov. 1.

In the supervisor finds a child which had not been reported he makes the proper record of the birth, and for this work receives twenty-five cents. The duty is somewhat onerous and the fee slight, and Mr. Edwards proposes to do away with both. He proposes to re-operate with the state board of health, and will draw up a bill repealing this portion of the registration law. The first canvass does not have to be made before May 1 and Mr. Edwards hopes to have the law rescinded by that time.

Mr. Edwards also hopes to relieve the physicians of the state to a certain extent. They are expected to report all children who are born under their care, a duty which involves considerable inconvenience for which they receive no compensation. Now Mr. Edwards has a bill before the legislature to give each physician fifty cents as compensation for making the record.

## SAFEGUARDS ON BRIDGE.

Engineer Bacheider Advises the County Board of Precautions.

At the session of the Houghton county board of supervisors this evening Frank L. Bacheider, engineer for the Copper Range railroad, which has charge of the operation of the Portage lake drawbridge, presented a communication relative to the steps being taken to guard the lives and limbs of pedestrians on the structure during the season of navigation, now about to open. The bridge was in use the greater part of last season but the safety gates were not in commission owing to the delay in securing the proper operating machinery. Men were stationed at the draw, however, to warn pedestrians when the bridge was about to open.

Mr. Bacheider this year provides an electrical operating device for opening and closing the safety gates, which device operates as the draw swings. He also will place at the end of the draw a large electric gong for day signaling and a red light at night. The gong will ring or the light will show just before the draw is about to open. If pedestrians do not heed them and stop at a distance from the draw, however, to warn pedestrians when the bridge was about to open.

The board approved these devices of the engineer, but Mr. Calverley, speaking as chairman of the bridge committee, said that he thought the railroad operating the draw should also place an additional safeguard by having a man on guard all day, as the men operating the bridge in the tower cannot see the pedestrians if they are near the draw. The bridge committee was given power to act in this matter.

Mr. Bacheider suggested that the automobile question is one which the board can take up with propriety. He says that automobiles frequently cross the bridge at high speed, thereby endangering the lives of the occupants of the machine as well as passing pedestrians. He suggested that they slow down to six or seven miles an hour when crossing the draw or else stop at thirty feet from the draw until advised that the way is clear and then proceed at slow speed. The bridge committee will take this matter up also.

## FATAL ACCIDENT AT TAMARACK.

John Novack, a Timberman, Killed in No. 5 Shaft.

John Novack, a timberman, employed on No. 5 shaft of the Tamarack mine, was almost instantly killed shortly before noon yesterday. It is believed the accident was caused by a falling timber. Novack was twenty years of age and was single. He made his home with relatives in Raynaboultown. He leaves one brother.

Coroner Fisher of Calumet summoned a jury yesterday afternoon and went to Tamarack to hold an inquest. It appears that Novack and a timber gang were working between the thirty-fifth and thirty-sixth levels, hoisting a heavy timber. The rope broke, and the timber fell on Novack, inflicting such injuries that he died a few minutes after he was taken to the Tamarack hospital.

## SOCIAL EVENTS TONIGHT.

High School and Amphidrome Dances—C. & H. Promenades.

The Houghton high school hockey team will give a dancing party in the Citizens bank hall tonight. Music will be by the Twin City Mandolin club. These high school dances are about the most popular affairs for young people in the copper country, and they are well patronized.

The Amphidrome will tonight institute a series of Friday night promenade dances in the new Armory hall. The Quincy band will provide the music. It is the intention to continue these dances throughout the summer, or at least while the roller skating season continues.

Manager Covley of the Calumet & Hecla band has again been compelled to threaten a discontinuance of the promenade concert-dances of the band unless the attendance does not improve. These dances are given under ideal conditions, the music of the C. & H. band being flawless and the Calumet army no less so, still the attendance has fallen off in the past year or more to the extent that the band does not find the venture a paying one.

## LIFESAVING STATION.

Captain McCormick Will Be Ready When the Season Opens.

Captain McCormick, commander of the Portage lake lifesaving station, has completed his preliminary arrangements for putting the station into commission immediately on the opening of navigation. He said yesterday that all is ready for business and the crew is prepared to report for duty as soon as the first boat passes through Portage lake. The crew will be made up of the same last season with one exception, and this new man has not as yet been named.

Captain McCormick does not expect that the opening will be with alarm-bells as in the case of the Portage lake ice unusually heavy for this time of the year, but this will have little effect on the opening. It is the ice in St. Mary's river which has been the trouble. The station was advised yesterday that the ice in that stream near Detour is still a foot thick, and good solid ice at that. There will be few innovations introduced at the lifesaving station this summer. In fact, the only one is the addition of a new crew member, or one of the large life boats with power. The department completed last season experiments in the matter of operating life boats with gasoline engines, and it has succeeded in perfecting an engine which works satisfactorily in all the peculiar conditions which the life savers meet.

The Portage lake boat will be shipped to Buffalo to be changed into a power boat as soon as navigation opens.

## COUNTY BOARD COMMITTEE.

Chairman Edwards Files List with the County Clerk.

County Clerk Richardson yesterday received from Chairman Edwards a list of his appointments of committees for the ensuing year. The list follows: Finance—Charles Smith, W. D. Calverley, W. J. Uren, J. J. Eickhorn. Highways and bridges—W. D. Calverley, W. J. Uren, J. J. Eickhorn. County poor—William Kroll, R. B. Seeler, Leonard Thompson, Samuel Edley. Equalization—James MacNaughton, Charles Smith, W. J. Uren, F. G. Coggin. County buildings—C. L. Lawton, J. S. Crawford, Webster Dock, E. A. Hamar. County poor—C. L. Lawton, F. D. Coggin, Ivar Lindgren, Arthur Finley.

In only the committees on county lands, county buildings and county poor are any changes made from last year. This shows better than anything else the stable nature of the board of supervisors of Houghton county and its freedom from politics. Supervisors are usually re-elected from year to year, the four changes at this time being a large number than usual, and the committees are usually constituted the same from year to year so that the business of the board is in the hands of men who thoroughly understand the work of each department.

## HANCOCK PYTHIAN FAIR.

It Opened Yesterday Afternoon to a Big Business.

The fair which the Hancock lodge of the Knights of Pythias is holding this week opened yesterday afternoon to Germania Hall. The hall is brilliantly decorated and is fitted with booths and the other appendages and paraphernalia of this form of money raising enterprise. It will continue until tomorrow night, opening at 1 o'clock daily and closing at twelve. The feature each night will be dancing.

A gold watch is to be given away during the fair, either to a lady or a gentleman, according to the way of the person drawing the proper credentials. A baby show will be held tomorrow afternoon. A gold ring will be given the little one who is considered the prettiest by the concealed and closely guarded judges. The most popular school teacher in Houghton county is to be decided during the fair, and the young woman elected will receive a suitable gift, a set of Cooper's novels to be accurate, the fair is being given as a means of raising a fund to defray necessary expenses during the grand lodge and up to cure. E. W. Grove's signature is on each box. 25 cents.

## DR. SHOOP'S RHEUMATIC REMEDY

"Let us have some Cudahy's Peacock Bacon and eat liver for supper Mama, say young and old."

**DR. SHOOP'S RHEUMATIC REMEDY**  
THE STAFFORD DRUG CO.

## DON'T WAIT TOO LONG.

At the first sign of Backache or pain in the region of the Kidneys, or weakness and urinary trouble, the following simple prescription should be used:

Fluid Extract Juniper, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

Any good prescription pharmacy will supply these three ingredients in small cost, which can easily be mixed by shaking well in a bottle. This is said to force the kidneys to filter the sour acids and poisons from the blood, overcoming the worst cases of Rheumatism.

## MUSIC AND THE DRAMA.

Tekla Farm in Concert—Lyceum and Stage Attractions.

Miss Tekla Farm, soprano; Miss Margaret Bennett, dramatic reader, and the Michigan College of Mines Glee and Mandolin clubs, a tripartite of attractions with individual distinctive merit, entertained a large audience last night at the Amphidrome hall, appearing for the benefit of the Houghton, Presbyterian church. The variety in the program and the fine quality of each offering combined to make the entertainment one apart from the usual order of concert offerings. It was a success from the viewpoint of the audience at least.

Miss Bennett and the Glee club were at home, and Miss Farm, a stranger to Houghton, received such a welcome as a stranger should. She is a former Ishpeming girl, now making her home at the Scott and she has had great success on both stage and platform. This is Miss Farm's last season as a public singer. She confided to The Mining Journal yesterday a secret which will retain, though a ring is an eloquent speaker of news. Miss Farm leaves Houghton today to sing in Ishpeming and Marquette.

The Concert Favorites, a well recommended organization, will appear tonight in the Keredge theater as the closing number of the Grace M. E. church lyceum course.

The most important attraction in the copper country next week is "Forty-Five Minutes From Broadway," George M. Cohan's "comedy with music," which appears at the Calumet theater Monday night and the Keredge Tuesday night. Fortcoming productions are "George Ade's 'The College Widow'" and Isabelle Irving in "Susanne in Search of a Husband."

## IN THE CIRCUIT COURT.

Trial of Auditor General vs. Quincy Company—Hamel Case.

Judge Spencer reconvened the Houghton county circuit court, a continuation of the February term following a long recess, yesterday afternoon. The case was that of the auditor general vs. the Quincy Mining company and involved the school taxes assessed against the Quincy smelter in Osceola township.

Prosecuting Attorney Keer intended yesterday afternoon to bring the case of Joseph Hamel, the insane matrifide, before Judge Streeter yesterday afternoon if the other proceedings did not prevent. The procedure would be a petition asking the court to appoint a commission to examine into Hamel's mental condition, this at the instance of the county physician, in whose opinion Hamel is insane.

## CALUMET WOMAN'S CLUB.

Will Continue the Study of Greek Art This Afternoon.

The Calumet Woman's club will hold a regular meeting this afternoon. The program will be continued on the general theme of Greek art. It follows: "Archaeologists and their work in Greece"—Mrs. Elizabeth Kratz. "The Greek standard as compared with recent art"—Mrs. Mary Forbes. "Description of Greek art of great examples of Greek art: The Hermes of Praxiteles, Mrs. Eunice McFar; The Venus of Milo, Mrs. Rachel Mercer; The Victory of Samothrace, Mrs. Tena Reed. Music—Mrs. Anna G. Peterson.

## REFERRING TO THE BALL LEAGUE.

Up to date only four clubs have been picked as winners of the Northern-Copper Country league pennant. J. M. Lamb has an idea that his Winnipeg team is going to walk off with the buntings; Kid Taylor of Houghton picks the Giants to win the flag; Frank Mullens, the manager of the Calumet outfit, picks the Aristocrats to win again, and Manager Kuehnow of the Duluth team can see nothing but the White Sox. It is the firm belief of the sporting editor that one of the gentlemen is right.

## BASKETBALL AT CRYSTAL FALLS.

The Calumet High school basketball team, under the management of Secretary George D. Westerman of the Y. M. C. A., left yesterday afternoon for Crystal Falls, where tonight a game will be played with the team of that city. Captain Murphy, center; Roberts, Vivian and Anderson, guards; and Cirto and Lavers, forwards, compose the Calumet aggregation.

## COPPERDOM BREVITIES.

Frank Sedgy of Calumet leaves today to visit Chicago on business.

John Kingston of Laurium is convalescent after a serious illness.

A son has been born to Mr. and Mrs. William Hartman of Wolverine.

Mr. and Mrs. Paul Grierson of Calumet left yesterday to visit in Chicago.

Dr. and Mrs. W. H. Matchette of Houghton left Wednesday to visit in New York.

Philip Bowden of Calumet expects to leave shortly for Butte to locate permanently in the practice of dentistry.

A regular monthly meeting of the Lake Linden council was held last night. The question of paving portions of the principal streets was discussed.

Dr. John Miller of Calumet expects to leave shortly for Butte to look that town over with a view to locating there permanently in the practice of dentistry.

Reports concerning the condition of Captain Thomas Maslin of Laurium are to the effect that he is not likely to recover. His son, Thomas Maslin, Jr., has arrived from the West.

Mrs. J. J. Ellis, Sr., and Miss Ellis of Calumet have returned from Ashland, Wis., where they went last week to attend the funeral of Mrs. Ellis' brother, James Gillis, a former resident of the copper country.

A meeting of the trustees and members of the Lake Linden Congregational church was held last night, and Rev. J. A. Russenell of Lebanon, N. Y., who has been occupying the pulpit on probation, was asked to accept a permanent charge, which he will undoubtedly do.

R. W. Riggs, at present superintendent

## Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten distorted limbs of chronic cripples, nor turn bow growths back to flesh again. That is impossible! But I can now surely kill the pains and pouge this deplorable disease.

In Germany—a Chemist in the City Darmstadt—I found the last ingredient of which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. With that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I have found a cure for this horrid, maddening, maddening disease. Those who have long wasted, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now a real need—no actual cure to suffer longer with out help. We sell, and in confidence recommend

Calumet, Mich.

The ownership of the time Mr. Bigelow made his affidavit was probably the same as reported in the assets at the close of business Dec. 31st, 1906, but as it is known by Mr. Bigelow, stockholders would be interested in knowing why Tamarack's two-fifths should be given in the assets of that company at \$100,000, while Osceola's two-fifths appears valued at \$60,000, and Isle Royale's one-fifth at \$32,000.

**LAKE COPPER PRODUCTION.**  
The estimated production of the Lake Superior mines in March was 29,000,133 pounds, an increase of 2,001,582 pounds over February and about 200,000 pounds over January.

The output of the Lake mines for the first quarter of 1907 compares with same period of 1906 as follows:

Month	1907	1906
January	20,315,967	19,168,200
February	18,607,753	17,244,200
March	20,080,135	19,201,000
Total	59,003,855	55,713,400

The detailed figures for March follow:

Company	March	1907	1906
Calumet	2,240,000	45.4	2.27
Wolverine	771,120	30.1	1.5
Champion	1,920,000	25.5	1.23
Battle	1,645,900	25.6	1.23
Trinmontain	1,502,128	25.48	1.174
Almeek	772,490	19.04	.952
Osceola	340,000	18.02	.901
Osceola	1,647,000	18.05	.903
Allouez	240,904	15.12	.75

Mass.	220,000	14.8	.74
La Salle	40,000	18.05	.903
Total	20,099,135	55.	2.66

## NOTES OF COPPER NEWS.

The copper production of the Butte district during March was heavier than it has been during any one month since last October, but did not reach 27,000,000 pounds. The Washoe plant received an average of 10,000 tons of ore per day and the Great Falls plant between 3,000 and 3,500 during the last half of the month.

Excellent progress is being made with the construction of the Boston Consolidated mill at Garfield, twelve miles west of Salt Lake City. The crude ore receiving bin buildings and all the trestles for the railroad tracks leading to them are now completed, also the main crushing department of the mill proper. Mill Manager A. J. Bettles has expressed no doubt that the plant will be ready for operation by the middle of the coming summer.

## IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood, and tone up your system. When the spring fever strikes you you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition, it cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

## City Brevities

Today's weather: Partly cloudy with snow flurries, stationary temperature. Yesterday's temperatures: Seven a. m., 27 degrees; noon, 33; 7 p. m., 36 Maximum, 37 degrees; minimum, 27.

J. F. Coon, of Calumet, was in the city yesterday.

Miss Mollie Rogers is the guest of friends at the Soo.

Mrs. Della Steel of Thomson is visiting friends in the city.

Miss Edith Bloom, of Green Bay, Wis., is the guest of Marquette friends.

George B. Brunkhorst, of Duluth, is transacting business in the city.

F. H. Mirner, of Marinette, Wis., spent yesterday in the city.

Mrs. Dr. E. P. Bohn, of Newberry, is the guest of Marquette friends.

N. J. Fezzy, of South Range, has accepted a position as clerk at the Brunkwick.

Miss Edith Seidenfeld left yesterday to spend two weeks with friends in the copper country.

St. Mary's Guild will meet this afternoon at 2 o'clock with Miss Neidhart, Washington street.

The Woman's guild of St. Paul's church will meet in the chapel this afternoon at 2 o'clock.

Miss Gusta Robinson, West Johnson street, is entertaining Miss Matilda Weber, of Ishpeming.

County School Commissioner A. E. Sterne, of Ishpeming, was a Marquette visitor yesterday.

John Trebbleck, of Tilden township, chairman of the county board, spent yesterday in the city.

Clifford Dagnais has purchased the Jacques residence on Rock street, the consideration being \$2,100.

The Baptist Ladies' Aid society will meet this afternoon with Madame Sherwood, Arch street.

The Young Woman's Guild will meet this afternoon at 2 o'clock with Mrs. R. S. Rose, Pine street.

The Ladies' Aid of the M. E. church will meet with Mrs. Pearce, 341 W. Bluff street, at 2:30 o'clock this afternoon.

The Woman's Aid society of the Presbyterian church will meet this afternoon at 2:30 o'clock at the home of Mrs. H. L. Carriel, High street.

The Epworth league of the Methodist church invite the young people of Marquette to join with them tonight in the last of a series of "good time" socials conducted this winter.

Mr. and Mrs. Fred Stack, Fifth street, who have been seriously ill with pneumonia, are both much better and their complete recovery is but a matter of a short time.

P. S. Mattos, advance man for "Forty-Five Minutes From Broadway," was in the city yesterday. His attraction is billed here for the 18th, and the seat sale opens Monday morning at 8:30 o'clock.

The warmer weather yesterday put a big crimp in the sleighing, particularly after dinner, when the snow disappeared at a rapid rate. Wheeled vehicles will give better service than sleighs today, and will be in general use. The snow will disappear rapidly, considering the quantity of it that fell, as the ground is soft and not frozen.

Death of an Infant—Eulilia, infant daughter of Mr. and Mrs. J. Kearney, died last evening at their home in the Nester block. The funeral arrangements will be announced later.

Wedded at Duluth—Miss Jane Roberts, a former Marquette girl, was married Saturday at Duluth, Minn., to George Steers. The ceremony was performed in St. Patrick's church at 9 o'clock in the morning by the Rev. Father Phelin. The groom is employed in the barber shop at the Spalding.

Sterne's Vote a Large One—The official count of the election returns show that A. E. Sterne, candidate for county school commissioner, received nineteen more votes than all the candidates for the supreme court combined. The total for justices was 3,641, while Mr. Sterne received 3,660. The result is only significant in the light of the fact that Mr. Sterne was unopposed and conducted no canvass.

Funeral This Morning—The funeral of the late Patrick Henry Bradley, whose death occurred at St. Mary's hospital April 4, will be held this morning, with services at St. John's church at 9 o'clock. Philip Trombly, a lifelong friend of the deceased, has the arrangements for the obsequies in charge. Burial of the remains has been delayed because of difficulty in locating relatives of the deceased. A sister living at Hamilton, Ontario, appears to be the only surviving member of the family.

Snow Plows Had Been Stored—The railroads have entirely recovered from the effects of the recent heavy storm, and every train running into the city yesterday was on time. The only danger to be feared now is that of wash-outs at points further south where the snow is going off rapidly and where many localities are experiencing floods. The storm would not have handicapped the roads nearly as seriously as it did were it not for the lateness of the storm, as most of the snow plows and scrapers had been taken off the roads and stored.

Travelers' Ball Tonight—One of the prettiest social events of the season is promised tonight, when the U. P. council of the United Commercial Travelers will entertain at Fraternity Hall with its annual dancing party. Always notable for their success, these social functions of the travelers are looked forward to with pleasurable anticipations, and as far as advance arrangements indicate that of tonight will prove no exception to the rule. The hall has been elaborately decorated, and in all other ways the guests will find the appointments entirely adequate. Trombly's orchestra of Ishpeming will furnish the music.

Will Soon Be Staple Food—"Do you know that the olive is going to become a great staple article of diet in this country before many years are passed," said R. V. LeFevre, of Los Angeles, Cal., at the Marquette yesterday afternoon. "I am not boasting for the olive through personal interest," continued Mr. LeFevre, "as I don't own a single tree, but I base my assertion on knowledge gained through a recent trip in the

## olive country in lower California.

A few years ago olives were put on the market at about fifteen cents a quart. Then came a most unprecedented frost and the price rose to a point that rendered them a luxury. Now the young orchards set out since are beginning to bear and the price will soon sag and continue to sag. A great many people are not aware that olives are one of the most healthful and nutritious of foods. Americans have long used them as a relish, but in many European and Oriental countries they are one of the staples of life. Olive oil is being used more and more in this country, and I look to see the olive a part of every ordinary menu before a decade is past."

## PRESBYTERY DROPS DONALD M'DONALD

**MENOMINEE MINISTER AGAINST WHOM GRAVE CHARGES WERE PENDING ESCAPES ARRANGEMENT BY RESIGNING.**

At the first business session of the Lake Superior Presbytery, held yesterday at the Presbyterian church at 10 o'clock, the Rev. Donald Macdonald, of Menominee, was dropped from the role of the Presbytery. Grave charges had been pending against the Rev. Macdonald for some time, but he eliminated the necessity of formal arraignment by agreeing to tender his resignation, which was unanimously accepted.

The Rev. Macdonald claims to have been a minister of the Presbyterian church for thirty years, but it has been some time since he held a pastorate. For the past few years he has been engaged in the publication of newspapers at Menominee, Iron River, Republic and other points. The papers were all printed at his shop in Menominee, the subject matter in each being the same and the headlines alone being altered, to suit the locality.

The Rev. Macdonald came to this city to face his accusers in the Presbytery under bail to appear at Menominee at an early date to answer to the charge of criminal libel, preferred by one John Tobbish, in behalf of his minor daughter, Mamie Tobbish. The Tobbish girl had formerly been a domestic in the Rev. Macdonald's family, and when she left his employ he published an article in his paper, the Menominee News, charging her with theft and various misdemeanors, concluding as follows: "For now she's gone with Rummy With Rummy of Broadway; Where she can sip her whisky And drink her oolong tea."

The Rev. Macdonald has secured various adjournments on the grounds of illness and pressing business affairs requiring his presence elsewhere.

One of the humorous developments of the case was that subsequent to the arrest of his father, Frank Macdonald, a youth of twenty-two, tried to secure the arrest of the girl on the charge of having stolen a ring. He was positive that the ring was taken on Christmas Day, 1906, but was unable to state positively whether Christmas of that year fell on Dec. 22 or 29. He said that they didn't observe Christmas at their home. The court refused to issue the warrant.

**COMMUNICATED.**

Marquette, Mich., April 11th, 1907.

To the editor of The Mining Journal:

Dear Sir—I was amused in reading a communication given to you in The Mining Journal on the morning of the 11th in regard to fault finding with the marshal in the way he handled the dogs and the dog tax. I was also amused to find that the writer of this communication would not look up from time to time the reports of the marshal, and it seems to me that after looking over these reports that this subscriber does not intend to be fair in giving our present marshal credit for the good showing he has made as against the former ones say from 1902.

In 1902 dog taxes collected and paid to city treasury was \$42.00.

In 1903 the report shows taxes collected and paid to city treasury were none at all.

In 1904 dog taxes collected and paid to city treasury were \$347.00. This no doubt is the dog tax for 1903 and 1904.

For 1905 dog taxes collected and paid to city treasury was \$28.00.

For 1906 amount of dog tax collected and paid to city treasury was \$223.00.

For 1907 under our present marshal there has been \$352.00 turned in to the city treasury and twenty-six dogs have been disposed of. Now in comparing this amount with other amounts from 1902 I do not see what special objection or fault finding that this subscriber has other than he is jealous of his next door neighbor for not being taxed for the dog he owns.

Now I would like to have this subscriber as he signs himself to notify the marshal who is the lucky one to escape paying his dog tax and I will guarantee that the marshal will get after the dog and either put him out of business or the owner will pay the tax.

Seeing that it is customary to sign yourself as a subscriber, I will also add that I am a subscriber and a property holder and a tax-payer, and am very much interested in every one paying their just dues.

**ANOTHER SUBSCRIBER.**

If you live out of town you can send us your deposits and our booklet "Banking by Mail" will tell you how. Send for it today. One dollar starts an account.

Marquette National Bank. Marquette, Michigan.

IT'S A FORD

Four-cylinder, 16-horsepower, forty miles an hour, down to four, on the high speed. Climbs hills on the high speed, too. It is the talk of the town wherever it goes, at the price \$1,600, six hundred dollars. Better see me.

F. H. FENNER -- Marquette.

MARKETS

NEW YORK STOCKS.

Sentiment of the Traders Is Uncertain—Prices Up, Then Down.

New York, April 11.—The stock market was still largely in professional hands today, but the operations were conducted in a more aggressive manner and were extended to greater lengths.

Such strength as the market showed was most in evidence in the early part of the day. Part of this was in response to a rise in the London market as a result of the reduction in the official discount rate of the Bank of England from 5 to 4 1/2 per cent.

Notwithstanding the general and continued yielding of money rates all over the world, the stock market begins to reflect minglings over its sufficiency to meet the large waiting demands. These include a large volume of authorized but unissued securities, or where the sale of these is impracticable, probable further note issues.

An important influence in the day's market was a report from Washington of the decision of the interstate commerce commission to advise proceedings against the Harriman railroad system as a combination in restraint of trade within the meaning of the law.

Paine, Webber & Co., report closing prices as follows: Wabash... 118 1/2, N.Y. C... 118 1/2, D. & H... 118 1/2, So. Ry... 21 1/2, Sugar... 120 1/2, Rock Island... 28, C. & O... 28, St. Paul... 125 1/2, B. & O... 28, C. & N... 28, Ill. Cen... 28, U.S. Steel... 100 1/2, P. & G... 100 1/2, Mex. Gas... 100 1/2, U.P. Mex... 100 1/2.

Logan & Bryan telegraphed from New York yesterday as follows: "The slump in the stock market today was more the result of liquidation by the various pools and activity of the bear element in selling against this liquidation and the exhaustion of the buy-

ing power than to the development of any actually unfavorable news. The declines extended to over two points in such stocks as Union Pacific, Great Northern, Northern Pacific, and Cooper, while Smelters at one time showed a decline of 4 1/2 points from last night's close.

The lowest prices were reached about noon, but at the close there was a rally of about a point in the active speculative issues. The action of the bank of England in reducing its discount rate was regarded as indicating the extent to which the money situation of Europe has changed.

The reduction has been discounted as far as its bullish influence on the stock market was concerned during the past week. We are still looking for a narrow trading market and think the tendency of prices will be toward work somewhat lower before any fresh upturn.

Closing prices were: Adv... 146 1/2, Arc... 146 1/2, All... 12 1/2, Arnold... 19, B. C... 25 1/2, C. & H... 180, C. & N... 17 1/2, C. & O... 17 1/2, C. & P... 17 1/2, D. & H... 17 1/2, E. & W... 17 1/2, G. & S... 17 1/2, H. & M... 17 1/2, I. & N... 17 1/2, J. & K... 17 1/2, L. & O... 17 1/2, M. & P... 17 1/2, N. & Q... 17 1/2, R. & S... 17 1/2, T. & U... 17 1/2, V. & W... 17 1/2, X. & Y... 17 1/2, Z. & A... 17 1/2.

The number of shares traded in were as follows: Amal Cop... 8176, Adv... 150, Arcadian... 390, All... 125, Cent... 235, D. & H... 50, Elm Rip... 50, Mass... 710, Mich... 20, Moh... 125, North Butte... 270, Nicola... 30, Erie... 25, Tecumseh... 105, B. C... 105, U. S. M... 250, U. S. S... 250, U. S. W... 250, U. S. X... 250, U. S. Y... 250, U. S. Z... 250.

The whole market continued to sag today. Money is gradually working easier, but there seems to be no interest at present in the stock market, and nobody wants to buy stocks, no matter how cheap it is to carry them.

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor.

Not a drop of Alcohol. Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor.

Copper Metal Prices.

New York, April 11.—Copper had another sharp break in the London market today, with spot quoted at £98, 5s and futures at £98, 5s. It is said that some European holders are reselling American copper in the local market, which has helped the decline in price, although the large producers are still holding relatively firm. Lake is quoted at 24@25, electrolytic at 23.50@24.50 and casting at 22.50@23, but these are nominal quotations only.

CHICAGO GRAIN MARKETS.

Chicago, April 11.—Conflicting influences kept the wheat market in a nervous state today. The early sentiment was quite bearish because of a weather bureau report which predicted scattered rains tonight throughout the Southwest, including portions of Kansas and Missouri. The market was further weakened by an estimate of the amount of wheat which will be exported from Argentina this week, the total shipments being placed at nearly a million bushels more than those of last week.

Corn.—The trading was dull and the prices fluctuated within a narrow range. At the start a slight firmness was manifested, but later the market eased off on profit-taking. Cash houses were the principal buyers. The market was easy, the May of 1/2 @ 1/4. May opened at 47 1/2 @ 1/4; highest, 47 1/4; lowest, 46 3/4; closing, 46 7/8 @ 47.

Oats.—The May touched a new high record mark, selling at 44 @ 1/2. The bulk of the trading was in July and September. Leading cash houses were active bidders for the July, while September was in good demand by investors. Reports of damage to the new crop constituted the main basis of strength. The May closed 1/2 higher. May opened at 43 1/2; highest, 44 1/4; lowest, 43 1/2; closing, 43 3/4.

Logan & Bryan's Wheat Summary.

Logan & Bryan wired Paine, Webber & Co. concerning yesterday's wheat market: "The bulls held their own today, despite heavy profit taking, induced by large Argentine estimates and possibly a rally of about a point in the active speculative issues. The action of the bank of England in reducing its discount rate was regarded as indicating the extent to which the money situation of Europe has changed.

The reduction has been discounted as far as its bullish influence on the stock market was concerned during the past week. We are still looking for a narrow trading market and think the tendency of prices will be toward work somewhat lower before any fresh upturn.

WILL LOSE MONEY.

The first trip of the steamers Rogers and Weston this season will be an expensive one to the owners, according to the belief of vesselmen who predict that owing to the long wait at the Soo, the expenses of operating the two boats on the first trip will amount to a sum considerably above that which the company will receive for transporting the two cargoes of coal to Duluth.

In order to be among the first boats to get started for Lake Superior the Rogers and Weston have been compelled to wait at DeTour for seven days already and they must wait several days longer in all probability unless they discharge their cargoes and return to Lake Erie. The two steamers left the lower lakes for Duluth on April 1 passed Detroit on last Wednesday and have been held at DeTour since that time.

It was estimated by marine men yesterday that the daily expense for the two steamers must amount to over \$200 each besides the insurance, and crews have been on each for nearly twelve days, so that if they are tied up at the Soo until the 15th the expenses will amount to nearly \$4,000.

CAST HEADED BY CORINNE.

Popular Star Appears in "Forty-Five Minutes From Broadway."

The approaching engagement at the Marquette Opera House of Geo. M. Cohen's most recent and most successful musical play, "Forty-Five Minutes From Broadway," is looked forward to as one of the most important events in the year's theatrical calendar. The production of this noteworthy success is made under the direction of Klaw & Erlanger, which means nothing to be desired in cast and a perfect scenic setting. The cast is headed by Corinne, one of the most popular stars in America.

Corinne's progress up the ladder of stage fame has been attended by hard, conscientious work. She made her debut when five years of age in R. M. Field's company at the Boston Museum, supported by a number of people who have since "made good" on the stage. At the close of a hundred-night run, Mrs. Jennie Kimball organized a juvenile "Amateur" company and toured the country, Frank Daniels being the Dick Dead-eye of the cast.

"THE COLLEGE WIDOW."

Big Metropolitan Success Here on the 20th of the Month.

"The College Widow," that sweetly gracious being who presides over the destinies of the under-grads, at once the despair and admiration of the entire student body, will be seen at the opera house on Saturday, April 20. Since Henry W. Savage first produced this satire on college life by George Ade, "The Widow" has moved from city to city with an ever growing train of admirers, and so strong has been the demand for her presence all over the country that it has been necessary to organize and equip three different companies to meet the demand of the man-

THE COLLEGE WIDOW.

agers from Maine to the Pacific Coast. The vivacious piquancy of "The Widow," the breezy off-hand good fellowship of the Athletic Girl; the quaint mannerisms of the boarding housekeepers daughter; the jaunty chaperon, and the careless, mischievous situations, furnish material for mirth provoking situations which Mr. Ade has utilized in his own inimitable way.

The football scene in the third act is one of the masterpieces of modern stagecraft, and in the absorbing interest of the game the beholder is carried away by the enthusiasm of the grand stand and can hardly contain himself until the great Billy Bolton wins the game for Atwater, and is carried from the field on the shoulders of his wildly cheering class mates. And during the celebration of the victory, even those who are not athletic enthusiasts cannot repress a thrill of sympathy as the singing, cheering students parade in front of the village inn.

Mr. Savage has expended much time and care in the selection of artists for the cast and in the staging of the play, and the popularity of the comedy speaks volumes for his judgment and the histrionic ability of his people.

JUDGE OF THE SUPREME COURT Suffered Four Months From the After-Effects of the Grip--Relieved By Pe-ru-na.

The grip more than any other disease in the world leaves the system in a run-down, nervous, bloodless condition. Peruna has become famous in relieving the deplorable condition which the grip produces.

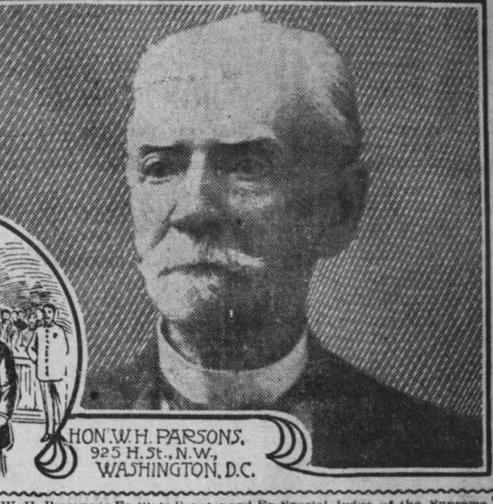

HON. W. H. PARSONS, 925 H. ST., N. W., WASHINGTON, D. C.

Catarrh Victims Susceptible. People who have had catarrh of the head, throat, nose or lungs are much more liable to catch the grip than other people. The reason for this is that the mucous membranes of the head, nose, throat or lungs are injured by the catarrh and the germs which cause the grip find easy entrance into the system.

Peruna a Preventive. As a preventive of grip, Peruna has done a great deal of good in the world by its beneficial effect upon the mucous membranes.

Catarrh has another untoward influence to be noticed in connection with the grip. Victims of catarrh who have had the grip find themselves after the acute stages have passed, in very weakened and deplorable conditions.

After-Effects of Grip. The whole nervous system is impaired; the digestive organs deranged; the circulation of the blood feeble and irregular. All these symptoms are produced, more or less, by the grip, and especially in people who have had catarrh previous to the grip.

HON. W. H. PARSONS, 925 H. ST., N. W., WASHINGTON, D. C.

W. H. Parsons is Ex-State Senator and Ex-Special Judge of the Supreme Court of Texas, and was also Brigadier-General in Confederate Army. In a letter from 925 H. St., N. W., Washington, D. C., this prominent gentleman says: "Upon the recommendation of personal friends and many strong testimonials as to the efficacy of Peruna in the treatment of the numerous symptoms of the grip with which I have been afflicted for four months past, I have been induced to undergo a treatment with this justly celebrated formula. I feel a decided change for the better after using it only one week. It is especially good in toning up the stomach and has a decided effect upon my appetite. I therefore feel much encouraged that I am on the road to complete restoration."

It is no longer merely a theory or an assertion that Peruna is applicable to these cases. Prompt Relief. In all of the after-effects of the grip, Peruna gives prompt relief. This has been the experience of such a great multitude of people that Peruna has come to be a standard remedy for these cases.

A Safe, Reliable Remedy. Even during the acute stages of the grip, Peruna taken in small, repeated doses, is so efficient that many people use nothing else.

In speaking of Peruna, Mr. Madison says: "I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for a gripper. It also cured my wife of nasal catarrh."

"YE HAVE DONE IT UNTO ME."

(Matt., 25:40.) Our gifts, dear Lord, we bring as unto Thee, With aching hearts that more we cannot give, Yet many little largess great might be To help some mothers and their babes to live. Oh, outstretched hands! Oh, famished faces, pale! Oh, hollow eyes that can no longer weep; Oh, feeble voices moaning on the gale, That echo o'er the troubled stormy deep. We hear and heed; and even as we would That others pass not by we would be wound and sore. Best pause for gentle ministry of good, And oil of healing on our bruised poor. Thus may we do; and though the gift be small, 'Twill swell the sum that love sends o'er the sea; Indifferent unto the anguished call, Not one who knows the dire need can be. C. E. ADAMS.

YALE MAKES BEST RECORD.

Claims Championship in Three Events of Indoor Season.

Boston, April 11.—With the holding of the intercollegiate fencing championships in New York the indoor season of college athletics came to an end. Without doubt it was the most successful season the minor sports have ever enjoyed. It is one of the peculiar features of eastern college athletics that the minor sports should be the ones which receive much more careful thought and prudent management than the more popular major sports such as football, baseball, rowing and track athletics.

During the winter indoor season just closed in the East there were ten sports in which the championship title was awarded. The following table shows these sports and the 1907 championships: Basketball (New England)—Yale, 1; Williams, 2; Hockey—Princeton; Chess (Quadrangular)—Columbia; Chess (Triangular)—Pennsylvania, Brown; Fencing—Annapolis; Bowling—Columbia; Wrestling—Yale; Gymnastics—N. Y. University; Swimming—Princeton; Water Polo—Yale; Association Football—Harvard; Yale easily carried off the honors of the indoor season, for the Elis won three championships, though one is disputed. Yale was first in basketball, water polo and wrestling. In basketball Yale's title is also claimed by Williams College, the winner of the New England championship. The majority of the

critics, however, are quite willing to concede the superiority of the Yale team. Besides winning these three championships Yale was a good contender in everything else in which the Blue competed. Princeton stands next to Yale with two clean cut championships. The Tigers, in fact, deserve unusual praise for they startled the college world first by winning the hockey championship without the loss of a game, dislodging the Harvard team which had held this championship for many years. This was really the first time Harvard had been able to do herself justice in hockey, for until the gift of Carnegie lake the Tigers had no suitable place for practice. From this time on they will be feared on the ice. Princeton also celebrated her entry into the swimming game by winning the championship in this sport, forcing the twice victorious Pennsylvania team into the background.

Columbia University is also credited with two championships, in bowling and chess, but the chess victory cannot be called an intercollegiate championship since the New Yorkers competed only in the quadrangular tournament with Princeton, Harvard and Yale. In the triangular league the championship was divided between Pennsylvania and Brown. New York University duplicated her victory of 1906 in gymnastics and showed decisive supremacy over all the other colleges. Pennsylvania was second this year and Harvard third. Harvard college still remains invincible in association football, though this year Pennsylvania and Harvard gave her a tussle.

Evansville, Ind., April 11.—It has developed that the death of Mrs. Z. Watson, in Posey county, Ind., was not the result of meningitis, as first reported, but was caused by a species of poison contained in the wall paper that covered the walls and ceiling of the parlor. The wall paper has been examined and was found to contain a virulent poison. When brushed or shaken, a fine micaceous substance falls from the paper in a cloud. It was to prevent the mail clerks and postal employes from being poisoned that the government recently forbade the mailing of souvenir postal cards covered with this preparation. Mr. Watson has lost three wives during the last three years. They all showed the same symptoms in their last illness and it is now believed that all were poisoned by the wall paper. Mr. Watson recalls that all of his three wives cleaned the wall paper in the parlor a short time before they were taken sick and died.

Work on the foundation for the re-crushing mill which the Calumet & Hecla Mining company plans to erect adjoining its stamp mills at Lake Linden will be started very shortly. The new structure will be 100 feet wide and 300 feet long, built of structural iron, and will furnish employment for fully fifty men. Preparations are being made for the building of a new steel boiler house. It will be equipped with automatic stokers. Two self-supporting steel stacks will be erected during the summer to replace the old stacks now standing. Several new steam turbines will be installed in the powerhouse, which already contains four engines. A new sand wheel fifty feet in diameter, to replace the forty-foot wheel now in commission, also will be erected.

### LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Is acknowledged to be the most successful remedy in the country for those painful ailments peculiar to women.

For more than 30 years it has been curing Female Complaints, such as Inflammation, and Ulceration, Falling and Displacements, and consequent Spinal Weakness, Backache, and is peculiarly adapted to the Change of Life.

Records show that it has cured more cases of Female Ills than any other one remedy known.

Lydia E. Pinkham's Vegetable Compound dissolves and expels Tumors at an early stage of development. Dragging Sensations causing pain, weight, and headache are relieved and permanently cured by its use. It corrects Irregularities or Painful Functions, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility; also, Dizziness, Faintness, Extreme Lassitude, "Don't care and want to be left alone" feeling, Irritability, Nervousness, Sleeplessness, Flatulency, Melancholia or the "Blues." These are sure indications of female weakness or some organic derangement.

For Kidney Complaints of either sex Lydia E. Pinkham's Vegetable Compound is a most excellent remedy.

#### Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Thus she is well qualified to guide sick women back to health. Her advice is free and always helpful.

## Ishpeming Department

(Additional Ishpeming on Page Seven.)

**GRANGER FARWELL HERE.**  
Principal Owner of Street Railway Line Inspected the Plant.

Granger Farwell of Chicago, principal owner of the property of the Marquette County Gas & Electric company, was in the city Wednesday, accompanied by Mr. Chapin, his London, Eng., representative. Mr. Farwell was appointed with the weather, as he had advised Mr. McCorkindale in advance of his coming that he would like to take an automobile trip about the two cities, the Cliffs drive and a spin to Marquette. A cutter ride was the best he could get.

There were no features of the business here that Mr. Farwell and Mr. Chapin did not look into. The gas and electric lighting plants were thoroughly inspected and a ride was taken over the street railway line in the new cars. Mr. Farwell obtained a pretty fair idea of what the manager of the system has to contend with during the winter season, as part of the track had not yet been opened up when he arrived. No more opportune time could have been chosen to give Mr. Farwell an idea of what work is necessary in the opening of the line.

Messrs. Farwell and Chapin left for Chicago that evening, after putting in a very busy day. While the improvements contemplated by the officials of the company have not been announced, it is understood that a number of important alterations will be made at the electric station. The present engine and generator on the street railway circuit are to be replaced with larger and more economical machinery, greatly increasing the power. Betterments will also be made at the gas plant, and the street railway line will receive a general overhauling.

Mr. McCorkindale has mapped out a new route for the street car line, but it is not certain that a change from the present route will be made this year, that depending largely upon what arrangements can be made with the Cleveland-Cliffs iron company relative to a right-of-way. The principal objection to the present route is its many grades. If a new route is chosen the greater part of the run, while not as short as the present one, will be over comparatively level territory. By next Wednesday evening, it is thought that the local railway patronage can be increased, and the cost of operation in both winter and summer considerably reduced. Manager McCorkindale, who was in the copper country yesterday on business for his company, has given this matter much consideration.

#### REPORT GROUNDESS.

No Foundation for Rumor Lake Angeline Mine Will Suspend.

The report current in this city yesterday that operations would be temporarily suspended at the Lake Angeline mine on account of the stocking ground being filled, also because there is no new railway track over which ore can be taken out, is without foundation. Captain Thomas Walters stated yesterday that there is absolutely no truth in the report; that the management had not talked of a suspension, and that there is sufficient room on surface in the vicinity of the present stockpiles to hold all the ore that will be shipped between now and the opening of navigation, and possibly longer.

Captain Walters stated that a temporary track will be run to the stockpiles from the South Shore main line north of the mine office, extending over ground directly east of the office. The South Shore company's engineer was at the mine yesterday laying out the route, and the work of building the track will be started within a few days, as soon as snow leaves the ground. Captain Walters does not anticipate that the tonnage of ore mined or shipped will be curtailed. He believes the temporary track will be ample for the time being.

The mining and railway officials have not yet decided on a permanent route for the tracks that will replace those carried down by the excavator late in December. While the mines in that vicinity can get along for a time, it will be impossible to run any trains over the South Shore's south side main line.

#### CHANCE FOR MINERS.

Representative of Missouri Lead Company Here Looking for Men.

L. W. Mayer, a representative of the Federal Lead company, operating properties in Missouri, is in the city endeavoring to secure competent miners. He will be at the Nelson House today, and possibly tomorrow.

Mr. Mayer said yesterday that his company has a property at which nine shafts are being operated, and that over 2,000 names are on the pay roll. He stated that he can use fifty good miners at this time, provided that he can secure that number. He will not engage any who cannot speak English or who are not good workmen. The scale of wages, both on contract and company account, is about the same as in this district for the ten-hour work day, but he declared that all the miners at his company's properties are working eight hours. Mr. Mayer was at the Winthrop yesterday, and he talked with a number of the men who had been thrown out of employment in consequence of the suspension of operations at Section 21 mine. Mr. Mayer stated that the cost of living is perhaps a little less in Missouri than it is here.

#### A WOMAN TELLS HOW TO RELIEVE RHEUMATIC PAINS.

I have been a very great sufferer from the dreadful disease rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked.—Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by The Stafford Drug Co.

#### PINE TREE LOOKS WELL.

Encouraging Information Received from the Superintendent.

A telegram received yesterday by the officials of the Pine Tree Lead & Zinc Mining company brought the information that the shaft on the Pine Tree Extension, in which operations were suspended a week ago Saturday, because of a flow of water, had been resumed, that seven feet of the ore body which was struck at a depth of thirty-nine feet had been passed through and that the quality of the ore was as good as anything previously struck either in the main shaft or in the drill hole.

The Pine Tree is being developed rapidly and satisfactorily. Several thousand tons of ore have already been raised from the shaft on the main property, and the daily report coming from the superintendent shows that its drifts and crosscuts on both the fifty and seventy-foot levels are in disseminated ore similar to that being mined at the famous Baxter property on adjoining lands. The officers are satisfied now that they have a second shaft to the other. It is thought that the Pine Tree deposit is an extension of the Baxter, both properties being on a direct line.

#### COHEN'S BIG SUCCESS.

"Forty-Five Minutes from Broadway" the Offering Here Wednesday.

After a remarkable career of prosperity in both New York and Chicago, Messrs. Klaw & Erlanger announce the forthcoming engagement at the Ishpeming theatre next Wednesday evening of George M. Cohen's brilliant success, "Forty-Five Minutes from Broadway," which will be seen here with all its wealth of gorgeous stage settings, presented by a company of well established reputation, headed by the excellent comedian, so long and favorably known as one of America's most famous comedians. She is surrounded by such capable and well-known people as Scott Welsh, Eugene MacGregor, Claire Granville, Elphie Snowden, Susan Chisnell, Arthur V. Gibson, and an excellent ensemble of pretty girls. In this play Mr. Cohen has succeeded in doing what many authors have tried to do, but with little success. He has given to the stage a semi-serious play with a musical setting. The musical numbers are all big favorites. "So Long, Mary" is probably more famous than any other song of recent years, while "Mary is a Grand Old Name" is giving it a close race for popularity. With the success of this play Mr. Cohen immediately resorted to the best of his best, a number of this style of stage entertainment in America. The play divided the entire past season and most of the summer between New York and Chicago, having been played twenty consecutive weeks in the former and over thirty weeks in the latter city. It requires two baggage cars to transport the company's special scenery and other equipment.

#### MINING MEN BOWL.

Cleveland-Cliffs Team Defeated Oliver Employees Wednesday Evening.

Bowling teams composed of office employees of the Oliver Iron company and the Cleveland-Cliffs iron company met Wednesday evening in a series of three games at the Cleveland Cliffs alleys. The Cleveland Cliffs team won all three games, with 107 pins to the good on the total. Following the games refreshments were served at the office club rooms. The scores were as follows:

Lake Superior	.....	136	127	123	386
Walters	.....	105	143	129	377

#### ATHLETES FROM FINLAND.

Snell Bros., athletes from Helsingfors, Finland, known by reputation to many of the Finnish residents of this city, will give an exhibition tomorrow evening at the Finnish Co-Operative society's hall. Their feats will consist of trapeze acts, wire walking, tumbling, balancing, magic, etc. The Snells are now giving exhibitions in America for six months past and as soon as they visit all the places in the country where there are any considerable number of their countrymen they will return home. Their prices of admission will be thirty-five cents for adults and fifteen for children.

#### CURED OF RHEUMATISM.

Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by The Stafford Drug Co.

# RHEUMATISM BREAKS DOWN THE STRONGEST CONSTITUTION

Rheumatism is caused by a sour, acid condition of the blood, brought on by chronic constipation, weak kidneys, poor digestion and a general sluggish condition of the system. Because of these irregularities the refuse and waste matters of the body are not promptly expelled, but are left to sour and ferment, producing irritating acids which are taken up by the blood and distributed to all parts of the system. This acid matter weakens and disorganizes the blood so that instead of supplying the body with nourishing, healthful properties it deposits the poison with which it is loaded into the muscles, nerves, bones and joints, and Rheumatism gets complete control of the system. Some suffer almost constantly with the disease, while others have intervals of freedom, during which they live in constant dread of the next attack, when an exposure to cold or dampness or some other irregularity will cause the symptoms to return. If the cause is not removed Rheumatism will progress and reach a point where it becomes incurable, and the strong constitution will break down. S. S. S. has been curing Rheumatism for more than forty years. It attacks the disease at its head by going down into the blood and removing every particle of the acid matter and building up the weak, sour blood to a state of purity and richness. S. S. S. is the King of blood purifiers, just what is needed for the cure of Rheumatism. Book on Rheumatism and any medical advice sent free.

## REO 1907

REO 1907 TOURING CAR \$1,250  
F. O. B. LANSING

18-20 horse-power, 94-wheel-base. Five passengers. Detachable tonneau. Two speeds and reverse. REO disc clutch. 40 miles an hour. Full lamp equipment. Top \$75 extra.

The car that beat 60 cars of double and triple its price, at hill climbing—  
The car that won more than 20 cups, medals and trophies from bigger and costlier cars—  
The car that holds its class record up Mt. Washington; and that crossed Mt. Hood, and the 12,000 feet Raton Range, in New Mexico—  
The car went from Denver to Boulder, Colorado, (30 miles over rough hilly roads) in 15 minutes better than the railroad schedule—  
The car that carried four passengers 1,050 miles over rough roads without stoppage, motor-repairs or car-repairs—  
The car that won the National Economy trophy and four other prizes in the same contest; and that carried its passengers at a total cost of 30 cents each per 100 miles—  
The car that was penalized 30 per cent, and practically barred out of the great 2-Gallon Efficiency Contest—  
The only car that ever crossed this continent and back again on its own wheels—  
The \$1,250 car which does all that the average \$3,000 car does—and more than most of them—  
That is the car whose merit and real economy are self-evident. That is the car which you cannot afford to overlook. Write for the book that tells why.

FELL FROM PLATFORM.

At the coroner's inquest yesterday in the case of the late Matthew Ready, who met death by falling two levels in B shaft of the Cliffs shaft mine Wednesday afternoon, John Phillip, the principal witness, testified that he thought Ready had been seized with a sinking spell, as he had fallen from a platform at a point eight feet below the landing of the fourth level. Phillip and Ready were entering the mine to resume work, the latter leading until they reached the platform. At this point Ready stopped and allowed Phillip to pass him. When the latter had gone down ten or fifteen feet from the platform he heard Ready fall, and as he dropped his body struck Phillip's shoulder. The verdict was that death was accidental.

### FROM HOPKINS' CURB LETTER.

"The prices came steady at the opening, but weakness all along the line soon developed and the market gradually eased off with Calumet & Arizona and North Butte the leaders in the decline. Boston was reported as a big seller of Amalgamated in New York. The metal market was weaker. The Bismarck labor situation is reported bad, and in some quarters it is claimed that fully 75 per cent of the men will go out; others, however, say that less than 25 per cent will be affected. The men have received their increased wage scale, but demand recognition of the union."

Yesterday's prevailing prices were:

### ISHPEMING IN BRIEF.

Ed Clark is spending a few days in Milwaukee and Chicago on business.

Miss Hettie Pread was tendered a social surprise party at her home on N. 2nd street Wednesday evening by a large number of her young friends.

Mrs. A. W. Holley, who has been in the city the past two or three weeks, visiting her parents, Captain and Mrs. T. Walters, will depart tonight for her home at Buhl, Minn.

Mrs. Mary Wasley, who has conducted the Wasley house in the Nolan block on First street for a number of years, intends to retire May 1. Mr. Nolan advertises the building for rent.

The ladies of Mrs. Harwood's division of the Presbyterian church desire their friends to know that they will have a large variety of catables for sale tomorrow morning at Harwood's drug store.

George W. Blake, representing the Abbott Voting Machine company, was in the city yesterday. He said that his company had excellent success with the machines used in the recent elections in the upper peninsula.

**AWNINGS.**  
The Kelly Hardware Co. can furnish you with awnings for stores, public buildings or residences. Any size.

WOLF KILLED ON GRAND ISLAND.

Vernon Bailey, a Government Expert, is Studying Wolf Problem.

Last week Thursday it became known that there was another wolf on Grand Island. A band of hunters was being organized Friday to begin a hunt on the following day, but late in the afternoon word was received that Billy Johnson had shot the marauder. Johnson is a local fisherman and a hunter of some note. The way in which he shot the wolf is rather singular. He was engaged in a "still" hunt, taking up the trail and following it quietly and alone. He came upon the wolf when the animal was sleeping. It started up, but was too late to escape the well-aimed load of buckshot. It was a she wolf, weighing 58 pounds. A close examination showed it to be a last year pup, about one year old when shot. It is a companion to the one shot a little over a year ago, which is mounted and on exhibition at the Beach Inn parlor. That was a she wolf also, and weighed sixty pounds. The wolf was brought over to Munising Saturday, where it was viewed by many in A. D. Jopling's office. It was taken to the Soc. Monday to F. R. Vignat, who has been selected to mount it. Johnson received a reward of \$50 from the Cleveland-Cliffs Iron company and many congratulations for his sure aim.

Vernon Bailey, assistant in charge of geological distribution, biological survey, and an expert on the wolf problem, is studying conditions in this part of the country. Mr. Bailey has spent about two weeks along the Pictured Rocks, at Chapel lake, along Chapel beach and Mear's river. He has found that the wolves' lair dens are almost exclusively in caves and crevices of rocks. In the western states, Wyoming especially, where he made an extended study of wolves last year, he found the breeding season to run from March 15 along to about April 15. This conclusion was arrived at from the approximate ages of pups of nine dens, which he robbed not quite a year ago in Wyoming. In his search in the upper peninsula he has so far been unable to locate any dens and has come to the conclusion that in the upper peninsula the breeding season must be about one month later. Mr. Bailey has made a thorough study of the wolf question and is an authority on habits and habitations of the animal. Much of his data is very interesting. He believes that the wolves are plentiful in the upper peninsula and thinks they are increasing in numbers.

In regard to hunting wolves he offers some good suggestions. He says that hunting wolves with dogs and horses can hardly be excelled for a thrilling sport and for a test of skill and nerve, but as a method of destroying wolves it is costly in horse flesh, dogs, and the time of the best riders. This is about the only method employed by ranchmen. Near Big River last year, he says, several wolf hunts were organized, on one of which the "wolf" was only a ruse, a party of riders. Occasionally a ruse surprises a wolf at close quarters and, if well mounted, overtakes and ropes or shoots it. There are also authentic records of wolves having been shot after being followed all day on soft snow, but few hunters will adopt so tiresome a method.

Mr. Bailey has little faith in hunting with hounds, as was planned by State Game Warden Chapman last fall. He says that the ordinary trail hounds are able to drive the wolves out of a given region and that the "wolf" is only temporary. The dogs cannot catch the wolves, and the wolves oftentimes turn and kill a number of the pack. Several packs of Russian wolf hounds and large grey hounds are kept in Green river valley, Wyoming, but so far as he was able to learn not a wolf had ever been killed by their aid.

For the purpose of exterminating wolves he favors the capturing of wolf pups. In this idea he is born out by many hunters who have made a business of hunting wolves and kept down so many, asserting that they are usually able to shoot one or both of the old wolves at the den by watching the trails, or hiding near the den early in the morning before the wolves return from the night round. Bailey says, "In no other way can the number of wolves be kept down so surely and so economically as by destroying the young in the breeding dens. Wolves always pair, at least for the breeding season, and a knowledge of their habits, time of breeding, and customary breeding grounds renders it a simple matter to find dens and secure pups. The large size of the litters makes this method peculiarly important. The usual number is eight, nine, ten or eleven, and the outside limits are five and thirteen."

Mr. Bailey spent Sunday here and is now the guest of A. O. Jopling at White's camp, near Desautel. On his return he will spend some time on Grand island.

### WORK PROGRESSING WELL.

New Quarters of the Y. M. C. A. Scene of Great Activity.

Work on the Young Men's Christian association building is progressing finely. The shower baths have arrived and the plumber is busy installing them. Thirty-five lockers have been placed in the bath room, and a dressing room is also being fitted up in the basement for those who wish to change a locker. The lockers will rent for one dollar a year. The heater was placed the first of the week, and water connections are now being made. The heater has a capacity of 200 gallons per hour and will also furnish the hot water for the toilet room and the showering.

The reading room, the class rooms, the general secretary's private office and the library rooms present a very neat appearance since the decorators have completed their work.

Lavatory conveniences have been

fitted up by the plumbers on the dormitory floor. With this added convenience the rooms are very desirable quarters for young men. That this fact is appreciated is shown by the number who have already asked to have rooms reserved.

The gymnasium apparatus has been slow in arriving, due to the fire suffered by Spalding & Co. in Chicago. Several pieces have arrived, however, and are already set up. The parallel bars, mats, medicine balls and jumping standards are in use.

At the meeting of the directors Monday evening G. A. Baldwin was elected a director to fill a vacancy. It was voted to purchase a roll top desk for the general secretary.

An auditing committee was appointed by President La Bounty, consisting of T. E. Bissell, W. L. Blossom and George Leipart. Several bills were allowed and the matter of having a formal opening was discussed. Arrangements will be perfected by the following committee: C. A. Briggs, W. L. Blossom, D. C. Everest, H. H. Hit and W. R. Goodrich.

### SALARIES CUT.

New Administration Largely Reduced Amounts Paid to Village Officials.

The new village administration opened up by cutting down the salary of the marshal, the driver and the firemen. The council voted to lower the monthly check of the marshal from \$80 to \$60. The night watchman is to receive the same salary as before and the two are to alternate in their work each week. The drivers salary was put to \$55 per month, and the chief of the fire department is to receive \$35. The firemen will receive \$1 for the first hour and fifty cents for each additional hour.

The salaries of the remaining officers were fixed as follows: Assessor, \$225; village attorney, \$150; clerk, \$300; health officer, \$125; treasurer, \$300; sexton, \$100; city engineer, \$90 per month.

Village President Smith made his appointments for the ensuing year at the council meeting Monday evening, as follows:

Marshals, day and night—James Metz and Carl Trill.  
Fire Chief—Jay T. Conry.  
Driver—George Ferguson.  
City Attorney—H. B. Freeman.  
Health Officer—Dr. G. A. Trueman.  
Sexton—Sylvester Schock.  
City Engineer—Frank Barber.  
Assistant City Engineer—G. A. Stein.  
Cemetery Committee—William Bauerman, chairman; Frank Hausler, M. M. Whitman.

A communication from the Cleveland-Cliffs Iron company was presented and read before the council. The above mentioned company granted an extension of sixty days on the trust deed of \$2,000 of the Munising State bank due the company from the city.

Oscar Olson was appointed temporary secretary, the vacancy being caused by C. H. Larson, who has gone to Webb City, Mo.

### SUPERVISORS IN SESSION.

Charles Schaffer Re-elected Chairman by a Unanimous Vote.

The newly elected county board of supervisors held its first meeting at the court house Monday afternoon. Charles Schaffer was the unanimous choice for chairman. Mr. Schaffer has served many years in this position and is thoroughly acquainted with the county. In re-electing him chairman the board conferred a well merited honor. A purchasing committee was appointed by the chair, consisting of Supervisors Wyman, McMillan, and Lobb.

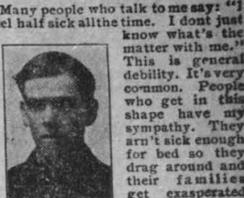

Bids were received for security of the country road bond fund of \$102,000, held by Farson, Son & Co. of Chicago. There were three, as follows: Munising State bank for 4.16 per cent, Cleveland-Cliffs Iron company for 4 per cent, and the Marquette National bank 3 1/2 per cent. Inasmuch as the directors of the Munising State bank had told Mr. Townsend of the Cleveland-Cliffs Iron company that if this company wanted the fund the Munising State bank would not bid, the State bank bid was withdrawn in favor of the Cleveland-Cliffs Iron company.

### MUNISING ECHOES.

D. C. Everest spent Saturday in Marquette.  
M. A. Doty spent last week in Chicago, on business.  
John Morrison, who has been here all winter doing carpenter work on the new

## SHORT TALKS BY L. T. COOPER.

DEBILITY.

Many people who talk to me say: "I feel half sick all the time. I don't just know what's the matter with me." This is general debility. It's very common. People who get in this shape have my sympathy. They aren't sick enough for bed so they drag around and their families get exasperated with them.

There are two causes for this condition; bad habits and a weak stomach. By bad habits I mean eating irregularly and too fast and not chewing the food thoroughly. The stomach gives out and loss of appetite, biliousness, constipation, and general debility result. First get the stomach in shape and then be more careful in the future, and the worn out, despondent, half sick feeling will be a thing of the past.

Two bottles of Cooper's New Discovery will put the stomach in shape. Common sense will do the rest. There are fifty thousand people in this country who know this to be true because they've tried it. Here's a letter from one of them:

"I was all run down from overwork, lost ambition and energy and could not sleep. It was difficult for me to attend to my work owing to that tired-out feeling. I secured two bottles of the New Discovery medicine and determined to try it. The result delighted me for renewed strength and vigor and energy came with the first few doses. It's effect was different from anything I had ever taken. I finished the two bottles now and feel well and strong again." E. McDade, 839 Dix Ave., Detroit, Mich.

We hear favorable reports of these famous medicines every day. Ask us about them.

peared in the workings above, the amount of ore that will have been opened by the running of the tunnel will pay back the shareholders and will assure success of the project. That is to say Boston & Corbin will be a property that can ship ore and pay dividends. In driving the tunnel the company has already gone through numbers of stringers, all in good ore, which indicates the close proximity of a mineralized region. These stringers in actual measurement amount to twenty feet of ore in all, which assays from 4 per cent to 6 per cent in copper and good values in silver. The company has done no work on these small and irregular ore bodies. After the Bertha vein has been opened and regular operations have been started the company will undoubtedly extract the ore developed in these bodies. After cutting the Bertha the company will drive on for the big main vein, which is generally thought to be the primary deposit of the property.

## Cobalt Gossip

The machinery plant of the McKinley-Darragh mine is being doubled. Two eighty horsepower boilers will replace two of forty horsepower and new compressors and drills will soon be installed.

By striking pay ore at the Princess mine, which lies beyond the Teniskamung and the Cochrane properties in Coleman township, the ore-bearing field of the camp is extended another degree to the south.

An example of the conditions prevailing in the new mining region is found in the district about Larder Lake, fifty miles to the north of Cobalt. Last August the first claim was staked there, today 4,000 claims are recorded and 120,000 acres are occupied.

A new Cobalt property has made its appearance. It is called "The Prince Rupert." The stock is being traded in on the New York Mining exchange. It is capitalized at \$1,000,000. John McMartin is president, Daniel Clark vice president, and John Ross secretary and treasurer.

Superintendent Madden, who is in charge of the development work at the Peterson Lake mine, reports that a second vein has been discovered on this property, only about eight feet from the first one, found a few weeks ago. The ore taken from the new vein will run as high as \$2,000 to the ton. This and the previous vein are running directly from the Nipissing claim into Peterson Lake.

D. M. Steindler, of New York, and J. A. Jacobs, of Montreal, are in Toronto in connection with their claims, the Kerr Lake and the Nova Scotia properties. Mr. Jacobs states that a recent shipment of sixteen tons netted no less than \$4,000 to the ton. He has a nugget from the Nova Scotia mine weighing about 200 pounds, which is practically pure silver. The nugget was taken from the 100-foot level.

A Cobalt dispatch says: The vein

recently encountered with a diamond drill under Kerr lake by the Kerr Lake Crown Reserve company is a continuation of the famous Lawson vein. The diamond drill core indicates that it is in the Lawson property. The Silver Leaf company is going after the same vein with a crosscut at a depth of eighty feet. This crosscut has within a few days encountered two small stringers of rich ore.

An important strike has been made on the Townsite Mining company's property, situated between the McKinley-Darragh and Buffalo mines. Crosscutting has just commenced at the fifty-foot level, and the vein has been struck the percentage of argente in one nugget being 87. The ore taken out was valued at 20,000 ounces to the ton by the superintendent. The argente level is quite the most remarkable in the camp. The rock is heavily shot through with leaf silver. Two cars of ore have already been shipped, and eleven more carloads are ready. All this ore is low-grade.

That the rush season has begun in America's youngest and richest silver mining camp is proved by the daily arrival of hundreds of prospectors, investors and laborers. Trains of seven and eight cars come in with every seat taken. All the hotels in this town and at Hail-every, ten miles above, are crowded to their capacity each night and rooms are secured in private houses with difficulty. Several freights each day bring in machinery, tools and supplies of all kinds that fill the storehouses and the platforms when unloaded. The only serious obstacle now met by mine operators is the difficulty in securing the delivery of machinery and coal as rapidly as required. Such conditions prevailing in a community that did not exist two years ago are significant.

## Negaunee Department

### ALL OFFICERS NAMED.

Council Made Its Annual Appointments at Meeting Last Evening.

The city council, composed of the same aldermen who served last year, held its annual organization meeting last night. The rumor current in the city Wednesday and yesterday that a head was to fall resulted in arousing much interest in the session. The appointments were as follows:

Marshal—Thomas Gribble.  
Police officers—Fred Zimmermann, Charles Vincent, Anthony Lavelle and John Mitchell.  
Assessor—John Shea.  
City attorney—E. A. Thoren.  
Janitor City building—Michael Curley.  
Chief of fire department—Julius Johnson.

Driver of hose team—Jerry Bennett.  
Driver of work team—Charles MacComber.

Health officer—Dr. N. J. Robbins.  
Librarian—Miss Szezerine Willett.  
Roundmaster—Al F. Willman.

Superintendent of the board of public works—Harvey Pearce.  
Clerk, board of public works—William Mitchell.

Clerk claims and accounts committee—Alderman M. T. Murphy.  
Roadmaster—Al F. Willman.

Engineers water works—Oscar Larson and John Allen.  
Electric light trimmer—John Reichel.  
Fireman at water works station—John Downing.

The position given Alderman M. T. Murphy is a new one. The salary to be paid for his services in checking up the claims and accounts each month is to be \$5.

### STREET CAR CREWS CHANGE.

The three regular motormen and conductors on the street railway line will hereafter make a change in their working hours every ten days. Under the former arrangement the crews worked the same hours all the time. This gave one crew the morning off, another the afternoon and the third the evening off duty. The hours were all right for some, but unsatisfactory to the others, so the new arrangement was made by Manager McCorkindale. The time at work is twelve hours for one crew, twelve hours and ten minutes for another and twelve hours and twenty minutes for the third. Whenever any of the regular men desire a day or a week off their places are filled by barn employes, all of whom know how to operate the cars.

### ROYAL ARCANUM CONVENTION.

James A. Goodman left Wednesday evening for Chicago, where he will meet his wife and son and father-in-law, Charles Muck, Sr., on their return from California. Mr. Goodman and his wife and son will go to Grand Rapids, Mich., where he will attend, as representative of the Negaunee branch of the Royal Arcanum society, the annual meeting of the state organization, in session Tuesday and Wednesday. Mr. Muck plans to stop off at Green Bay on his way home on a few days' visit to his daughter, Mrs. Smith.

### TO CONDUCT SPECIAL SALE.

Rosen Bros. & Klimes advertisement in this issue, announcing a special sale to be conducted during April, speaks for itself. Extensive preparation have been made for the sale in the several departments in the store and as it has been extensively advertised throughout the county a large business is anticipated. The list of prices quoted will be found of interest to the bargain hunters.

### EUREKA!

Yes, I have Found It At Last.  
Found what? Why that Chamberlain's Salve cures eczema and all manner of itching of the skin. I have been afflicted for many years with skin disease. I had to get up three or four times every night and wash with cold water to allay the terrible itching, but since using this salve in December, 1905, the itching has stopped and has not troubled me.—Elder John T. Ongley, Rootville, Pa. For sale by The Stafford Drug Co.

Father says: "Say, Mother; can't you make us some more of those fine doughnuts if I will bring home a pair of Cudaly's Peacock Lard again?" (11-27-eod)

"What shall we have for breakfast?"  
"Why Cudaly's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-eod)

### WORKING FULL FORCES.

All Vacant Places at Mary Charlotte Mine Will Be Filled Today.

There were nearly as many men working underground at the Mary Charlotte mine yesterday as could be employed to advantage, and another large crew resumed work last night. It was reported from the mine office that a sufficient number of applications, in addition to those who had already started to work, had been received to make up two full crews. A majority of the men who resumed work yesterday were formerly employed at the property, but several of those taken on were men who had been laid off at the Regent group early in the week.

Yesterday was the only day since the officials announced that the workmen could receive their pay in full that there was any particular rush for money at the bank. When the bank opened fifteen or twenty men were on hand to get their checks, which they immediately cashed. One of the workmen who was asked if the men drawing their money intended to leave the city or return to their old places replied that a large majority of them would resume work either last night or this morning, but that they had come to the conclusion that they might as well draw their money now as to wait until the 20th, the regular pay. From present indications work in all departments of the mine will be in full swing before the close of this week.

Five men, who were thrown out of work, left yesterday three for Brantwood, Wis., and two for Eveleth, Minn. Since the walkout over a week ago about forty men have left Negaunee for other points and it is expected that others will leave during the next few days, as there are now from 100 and 200 miners and trimmers idle in this city. It is not anticipated that any of the mines will increase their working forces at this time, but some additions will be made as soon as navigation opens.

### LOCAL LACONICS.

Arthur Gribble, who is doing diamond drill work on the Mesaba range, is here on a visit to his parents.

Ed. Roberts, who has been located at Hibbing, Minn., for several months past, is visiting his folks in Negaunee.

Robert G. Jackson, who is attending a meeting of the board of control of the Old Fellows home at Jackson, Mich., is expected home Saturday.

Hugo Muck has returned from Wisconsin, where he purchased a number of horses. He brought back a fine team for Hill & Rantakainen, the pop manufacturers.

George J. Maas, who has been confined to his home the past few weeks, is able to leave his room and is gaining strength daily. Mr. Maas will doubtless be strong enough to leave the house as soon as the warm weather sets in.

Dr. D. B. Riley of Milwaukee, who aided Mrs. Sheldon and Andrew of the Negaunee hospital during Dr. J. C. Larson's illness, has concluded his work here, and is relieving Dr. Paul Van Ripper at Champion, while the latter is away on a vacation trip. Dr. Larson is sufficiently recovered from his illness to resume his work.

L. Bushnell, father-in-law of T. C. Yates, has been critically ill the past few days and Mrs. Yates, who has been in Chicago, has advised her husband that his physician has no hope for his recovery. The old gentleman is known to many here, as he frequently visited the Yates' family during the past several years. He is eighty-one years of age.

F. Braastad & Co. will begin a slaughter sale of the Otto L. Peterson's bankrupt stock at Mr. Peterson's former stand in the Sundberg block next Monday morning. The firm announces in its advertisement in this issue that the goods are to be disposed of at exceptionally low prices. All of the goods carried by Mr. Peterson were new, as he had been in business less than a year.

### GENTLE AND EFFECTIVE.

A well-known Manitoba editor writes: "As an inside worker I find Chamberlain's Stomach and Liver Tablets invaluable for the troubles of biliousness natural to sedentary life, their action being gentle and effective, clearing the digestive tract and the head." Price 25 cents. Sample free at The Stafford Drug Co.

**DARANTELLA**  
210 Second Street, Negaunee, Mich.

## Upper Peninsula

### Salary too Small—

Professor W. T. Darling of Florence, who made application for the superintendency of the Iron River public schools for the ensuing year, and who was tendered the position at a salary of \$1,200 a year, has refused to accept the place. He has decided that he cannot afford to leave Wisconsin.

### Church Free of Debt—

The First Presbyterian church of Escanaba is now free of debt. The report of the treasurer, submitted at the annual meeting, showed that a total of \$8,787 had been raised during the past year and that in addition to paying the debt of \$4,300 all other expenses incurred have been met, and the year is closed with a balance on hand.

### Romantic Wedding—

As the culmination of one of the prettiest romances that has ever been recorded in Escanaba, Miss Mina Pohler, of Chemnitz, Germany, and Otto Erb, of Escanaba, were married this week at the Emanuel German Lutheran church, the Rev. Leonard Kasper officiating. The bride arrived a few days ago direct from Germany to meet the man of her choice and to whom she had been betrothed since early girlhood. The groom came to Escanaba several months ago to accept a position as chief dyer and cleaner at the dye works and after deciding that he would remain in this country permanently, the word was sent to Germany, which brought the bride to America by the next boat.

### Highest Price a Dime—

Menominee is to have the biggest five and ten cent store in the peninsula. The commodious double store building in the Spies block, last occupied by M. J. Cullen, will be opened to the public during the first week of May, with a stock of goods, and nothing will be sold for more than a dime. The new firm will be known as Davis & Hutchinson, and will be made up of Milton W. Davis, who has had success with his five and ten cent store in the Old Fellows' block, and Charles W. Hutchinson, a popular young business man. The members of the firm have left for Chicago to purchase the large additional stock required. Representatives of the largest houses in the country which make a specialty of manufacturing goods for five and ten cent stores are together exhibiting their goods this week at Chicago, so that the Menominee men will have opportunity to select the latest goods the market affords.

### Called to Milwaukee Church—

The most signal honor ever accorded any pastor in Escanaba is that which has come to Rev. P. B. Ferris, of the First Presbyterian church, who has been asked to consider a call to the Emmanuel church of Milwaukee. F. C. Comstock and W. N. Fitzgerald, representing the governing board of Emmanuel church went to Escanaba this week, and after an interview with Mr. Ferris expressed a strong desire that he should go to Milwaukee. Mr. Ferris gave no definite answer and will reach no definite decision for several weeks. The Milwaukee post carries with it a yearly salary of \$4,500. The Rev. J. Beveridge Lee was formerly pastor of Emmanuel church and he left Milwaukee several months ago to take up work for an Eastern college. Mr. Ferris has served as pastor of the Presbyterian church of Escanaba for slightly over two years, and he has achieved a notable success in his work. His most recent success was the clearing up of the entire indebtedness and placing the congregation on a more substantial financial basis than ever before in its history.

### His Back Is Broken—

While attempting to drive a heavily loaded wagon through the barn door of the Christiana hotel at Menominee, Joseph Neill, twenty-nine years of age, a teamster for the J. W. Wells Lumber company, was caught between the top of the wagon and the door casing, squeezed through a narrow opening far too small to admit his normal body, crushed and rolled about as the moving wagon entered the barn and finally hurled to the floor of the barn with his back broken and his spine badly shocked. He now lies in a critical condition at St. Joseph's hospital. The attending physician, states that he has a fighting chance for recovery. Seated on the top of his wagon, loaded several feet above the sides with wood, Neill drove to the hotel yard and seeing the barn door open, surmised that he could enter with the load, so drove straight ahead. As the horses entered the barn Neill bent his head slightly and an instant later the heavy casing struck him below the shoulders, doubling him up like a jackknife in a twinkling and crushing him into his pile of slabs. The unchecked horses, pulling their heavy load into the barn, caused the wagon to sway from side to side and Neill, pin-

### WETMORE BILL PASSES HOUSE

WENT THROUGH WITHOUT AMENDMENT YESTERDAY, AND GOVERNOR WILL SIGN IT.

### THREE CENT FARES FOR U. P.

Two-Cent Fares Will Be in Effect on All Big Lower Michigan Roads—Will Mean Big Saving for Traveling Public.

Marquette and upper peninsula people everywhere will be interested to learn that the Wetmore rate bill, substituted last week for the senate committee measure, yesterday passed the house. The Mining Journal had a dispatch from Representative Byrns last evening informing it that the bill had gone through without amendment. The governor will sign the measure, as he wholly approves of it, and it will become a law at the expiration of the usual ninety-day period, or in July.

The Wetmore bill is simple in its provisions. It provides for two-cent fares on all lower Michigan railroads having earnings of more than \$1,200 a mile; three-cent fares for all other lower peninsula railroads and three-cent fares for all upper Michigan railroads, with the proviso that for trips of ten miles or less four cents can be charged.

This measure was substituted in the senate for the committee bill, which was drawn to provide for two and a half and three-cent fares in lower Michigan, according as the earnings of different roads varied. The committee bill would have permitted the Pere Marquette, the Ann Arbor and the Big Four to charge two and a half cent fares, the other big lines being grouped in the two-cent class. The substitution of the Wetmore for the committee bill, therefore, hit the roads named, and they put up a big fight against it. In the senate the vote was sixteen to fourteen for the substitution, the majority being two.

In the house a big furor was created by the proceeding of making the senate substitute, or Wetmore bill, a special order for yesterday, instead of pursuing the customary course and referring it to the committee on railroads. The committee members cried out against this action, taking the position that it reflected on their integrity, but the house majority was strongly in favor of not allowing the measure to get out of its hands, fearing either delay or its amendment. Yesterday was set for action on the bill immediately on its being received from the senate. In the interim there was some effort made to secure amendments, but it was understood that the governor opposed all amendments, not wishing the bill to go back to the senate, so none of the proposed changes were given serious attention.

A Far-reaching Measure. By the passage of the Wetmore bill

Michigan is placed in line with the numerous other states that have enacted lower fare laws this year. The measure is far-reaching, and will save the people of the state hundreds of thousands of dollars annually. Possibly the railroads won't lose income to the amount of money that will be saved to the traveling public, for to some extent lower fares should lead to an increase in travel.

The terms of the Wetmore bill make two cents the legal fare on all lower Michigan roads of importance, as only the smaller roads will come in the three-cent class. The roads north of the straits, large and small, will be in the three-cent class. An effort was made to secure the amendment of the law to permit the small roads to charge four cents, but it failed at every point. The three-cent rate will be very burdensome on these roads, being in many cases less than the cost of service. The Chicago, Milwaukee & St. Paul and the Chicago & Northwestern have had the new rate in effect for over a year past, having made it voluntarily, but the South Shore and Soo line have been charging the four-cent rate.

On the long trips the lower rate of fare will mean quite a saving to people who have been in the habit of paying cash fares, though as a matter of fact most people who travel a great deal have even in the past been traveling at even a cheaper rate, or at two and a half cents per mile, for the South Shore, and the other roads, too, have sold a 1,000-mile book for \$25.

While it is too early for anything to have been given out definitely, it is believed that the new fare bill will result in any curtailment of the passenger accommodations now given the upper peninsula public. Indeed well informed people who have gone over the matter can't see where any curtailment is possible.

Children eat, sleep and grow after taking Hollister's Rocky Mountain Tea. Brings rosy cheeks, laughing eyes, good health and strength. A tonic for sickly children. 35 cents, Tea or Tablets. The Stafford Drug Co.

SAVINGS BANK BARBER SHOP. Thoroughly renovated, newly decorated and newly equipped. We have taken over this stand and solicit your patronage. The best of service guaranteed. CHARLES JOHNSON, GEORGE PERRIN, (4-10-11)

THIS IS WORTH REMEMBERING. We do all kinds of upholstering, and always carry a full line of samples of and do all kinds of furniture repairing; also renovate hair mattresses, and make furniture coverings in the latest patterns them as good as new. We make and hang Window Shades, we make Picture Frames, we sell Cedarine Furniture polish, the best now on the market, and sell the best Carpet Cleaning Soap on earth. We sell Carpets, Rugs and Portieres, and as good Furniture as is made in this country, at a reasonable price. Last but not least we are manufacturers' agents, and can sell you as cheaply as any furniture house in Chicago, Grand Rapids or Detroit, assuming all risk of breakage and placing the goods in your home. When in need of anything in our line give us a call.

### GIVE A TENTH TO THE CHURCH

PASTORS ADVISED TO FURGE MEMBERS OF THEIR FLOCK TO BE MORE LIBERAL.

### MONEY NEEDED FOR MISSIONS

Report of Committees Shows Presbytery to Have Gained Greatly in Membership and Churches—Gladstone Selected as Scene of Next Convention.

Though the session of the Lake Superior Presbytery which closed in this city yesterday was small in point of attendance it was characterized by all present as one of the most enthusiastic and fruitful in results in the history of the organization. Missionary work was the keynote of every meeting, the labors of the church in various portions of the world being thoroughly canvassed. The report yesterday morning showed the following present:

Ministers—J. A. Kennedy, Soo; H. F. Shier, Munising; T. A. Claggett, Pendar; G. C. Flett, Gladstone; F. B. Ferriss, Escanaba; J. H. Snook, Grand Marais; A. C. Smith, W. R. Youkers, Negaunee; M. M. Allen, Ishpeming; F. P. Knowles, Iron Mountain; F. G. Westphal, Ontonagon; D. E. Long, Menominee; Albert Torbet, Manistique; J. M. Rogers, Marquette.

Elders—Dr. J. D. Cameron, Iron Mountain; J. Kennedy, Calumet; J. M. Campbell, St. Ignace; George Cummings, Marquette. Guests of Presbytery—Rev. J. A. Daily, Saginaw; Rev. E. L. Annes, Ganada.

At the closing meeting in the afternoon, Moderator A. F. Shier, chairman of the committee on systematic beneficence, offered the following resolution which was unanimously adopted:

Resolved: That we urge our pastors to preach and teach the necessity of Christians giving one-tenth of their incomes to God. "That we urge the adoption of the method suggested by Dr. Braut in the presenting of our finances three times each year. Once in the interest of the local church, once in the interest of foreign missions and once in the interest of Home mission, including under this head all objects save local interests and foreign missions."

Gladstone was selected as the place for the next meeting, pressing invitations having been received from that city not only on this but on other occasions. At 9 o'clock in the morning the delegates paid a visit to the Normal school and were shown through the institution.

The Standing Committees. The following standing committees were appointed for the year: Home Missions—Rev. J. M. Rogers, Marquette.

Foreign Missions—Rev. D. E. Long, Menominee. Education—Rev. George C. Flett, Gladstone. Church Erection—Rev. M. M. Allen, Ishpeming. Ministerial Relief—Rev. F. P. Knowles, Iron Mountain. Freedmen—Rev. C. Bristol, Rudyard. Systematic Beneficence—Rev. H. F. Shier, Munising. Y. P. C. E.—Elder W. H. Moulton, Ishpeming. A. B. S. and A. T. C.—Rev. A. Torbet, Manistique. Temperance—Rev. T. A. Claggett, Pendar. Pure Literature—Elder W. J. Kennedy, Calumet. Sabbath Observance—Elder George P. Cummings, Marquette.

A new departure in the work of the presbytery will be the combination of the Home Mission and the Sunday school work, not only in this presbytery but in the entire state, whereby instead of each presbytery having separate Sunday school missionaries the work of the Sunday school and home missionaries will be combined. Both will in the future be under the direction of the synodical committee. The action taken by the presbytery of Lake Superior looking to this combination of work is expected to be adopted by the other eight presbyteries in the synod. The move is expected to lessen the expense and double the efficiency in this work.

During the year three churches were received from the United Presbyterian church. These churches are located in Chippewa county and are known as Donaldson, Duffer and Harper churches. The report of F. P. Knowles, chairman of the board of Freedmen, showed a large increase of offerings to this board. Mr. Knowles spoke strongly of the responsibility of the north toward the negro, as it was through the stand of this section of the country that the colored man was made a citizen.

A report on the Y. P. S. C. E. by the Rev. J. M. Rogers showed a healthy condition of their organization, both as to their local activities and missionary gifts. In his address address on these societies he called the attention of the pastors and elders to the great opportunity these young people's societies afforded for training on future church work.

Contrary to the usual custom, the entire presbytery stayed over last evening as the special guests of the Rev. and Mrs. J. M. Rogers.

All doctors and nurses recommend Vandenberg's fresh Aerated Gurnsey milk because they know the excellent quality of the goods. (4-12-11)

SPECIAL NOTICE. We will sell you whatever you need in the line of furniture, carpets and rugs at exactly the same prices and terms as you get from any Catalogue house in the city of Grand Rapids, Chicago or Milwaukee.
