## IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition. It cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

### City Brevities

Yesterday's temperatures: Seven a. m., 23 degrees; noon, 27; 7 p. m., 26. Maximum, 28 degrees; minimum, 23.

J. E. Schoen, of Escanaba, was here Saturday.

Frank Kraus, of Escanaba, spent Saturday in the city.

P. H. Cummings was down from Ishpeming Saturday.

Ben Neely, of Negaunee, spent Saturday in the city.

H. J. Block, of Escanaba, was a Marquette visitor Saturday.

E. E. Johnson, of Newberry, passed yesterday in Marquette.

J. M. Smith, of Negaunee, is transacting business in Marquette.

Miss Louise Guelf of Escanaba is visiting with Marquette friends.

George R. Purdy, of Green Bay, Wis., is spending several days in Marquette.

Miss Byrd Smith, of Negaunee, has returned home after a week's visit with Marquette friends.

Mr. and Mrs. Howard O'Keefe, of Ishpeming, attended the Commercial Travelers' dance Friday night.

Miss Elizabeth Wanberg, of Green Bay, Wis., has returned home after a visit with relatives in this city.

The funeral of the late Max Bielenberg will probably be held tomorrow. Advice is awaited from a sister at Pittsburg.

W. G. Salter has returned to his home at Rockland, after a visit with his parents, Mr. and Mrs. Edward Salter, West Crescent street.

J. E. Ball arrived home Saturday morning from New York, where he attended the marriage of his brother, Lieutenant George E. Ball.

Charles T. Fairbairn, general manager of the Mesaba range mines of the Republic Iron and Steel company, was a Marquette visitor Saturday.

W. F. Fitch, president of the South Shore, has gone to San Antonio, Tex., for the purpose of returning home with his daughter, Mrs. P. W. Phelps, who has spent the winter there.

The annual meeting of the Alumni association of the Marquette High school will be held in the English room at the high school building this evening at 7:30. A large attendance is desired.

Owing to the wind remaining in the northwest the fishermen have as yet been unable to raise the nets set a week ago. The tugs did not put out at all Saturday.

George Masterson, of Jacksonville, was in the city Saturday, and stated that though somewhat crumbly around the edges the ice in the body of Keweenaw bay is still solid.

Mrs. Duhane, mother of Mrs. Dan Mulally, observed her sixty-fourth birthday yesterday. A pleasant social gathering took place at the Mulally home in the evening, in celebration of the anniversary.

Dr. R. S. Killgore preached at the Baptist church last evening to a large congregation. It was the initial service of a series of union evangelized meetings to be held at that church every night this week.

Marquette council No. 689, K. C., will give a dancing party at Keough's hall Wednesday evening. Music will be furnished by Sweet's orchestra, and lunch will be served. Dancing will continue from 9 until 1 o'clock. Visiting brothers are invited to attend.

Death of an Infant—Mr. and Mrs. Lawrence Lattrell, 239 Rock street, mourn the loss of their little daughter Marie, whose death at the age of eighteen months occurred at 9:30 o'clock last evening in consequence of a seizure with cramp. The time of the funeral will be arranged today.

Student at Lehigh—Among the 123 candidates for degrees at Lehigh University this spring is John Herbert Farrell, of Marquette, who will present for the degree of engineer of mines, the thesis, "The Geology of the Chestnut Ridge District Near Easton, Pa." There are 708 students attending Lehigh University this year.

Steamer Friant Sold—The steamer Friant, wellknown in these waters, for she was operated out of Marquette a few seasons ago, has been purchased from Captain Charles Ripley of the Soo by Captain Benjamin Lewis and others associated with him and will be put on the Soo Grand Marais run as soon as navigation opens. Last season the Booth line touched at these two points, and it is expected that the Friant will get the business formerly handled by this line.

Season Very Backward—The Soo News Saturday said: "It is beginning to look bad for an early opening of navigation this season. The cold northwest wind that blew all last night and today retarded things greatly. Down at the docks the tugs are pretty well frozen in because of the cold spell last night. Captain Root reports that attempting to do anything on the river today would have been useless. No further attempt to get through to the Neeshib will be made until a noticeable break-up comes. At the locks all is in readiness and water will probably be let in tomorrow morning."

Marie Dockmann Is Injured—Marie Dockmann, "the girl with the chair," who appeared at the Bijou, this city, a few weeks ago, fell from a trapeze at West Bend, Wis., Thursday and broke her collar bone. Miss Dockmann is one of the best known gymnasts in vaudeville. Her act with a chair was made her famous all over the country. While showing in this city, however, she broke a tooth and was compelled to work up a new turn. She took to trapeze work and Roman rings and had performed but two weeks when she was injured at West Bend.

"The College Widow"—With its faithful recitation of people of the average small college town, "The College Widow" comes to this city Saturday next and those who are not planning therein an evening of unalloyed pleasure are those who have not been remotely in touch with stage history. George Ade had acquired fame before he wrote "The College Widow" but it remained for this fascinating comedy to crown his career as a playwright. From the opening of its remarkable run in New York there has been such a unanimity of opinion regarding the merits of "The College Wid-

### NORTHERN MONEY MAKES FLORIDA

CLIMATE, SAYS JUDGE STONE, IS ONLY VALUABLE ASSET OF THE LAND OF PONCE DE LEON.

"The prosperity of Florida is founded on northern enterprise," said Judge J. W. Stone Saturday. "Most of the hotels are conducted by northern men and it is northern money to a great extent that makes up the specie in circulation."

Judge Stone recently returned from a four weeks' trip through the south, on which he was accompanied by his daughters, the Misses Nina and Edith. The latter are now the guests of friends at Asheville, North Carolina. The party went directly to Florida from this city and visited, among other places, St. Augustine, Jacksonville, Orlando and New Smyrna, subsequently passing a week at Savannah, Georgia.

"We found the weather very hot in Florida," continued the judge, "ranging from 90 to 95 degrees at all times. There was a great rush of people south and the trains were crowded. I would not, however, advise people to go south as late as we did. We left this city the latter part of March, going from a cold climate into a very warm one, and the change is too abrupt to benefit one much physically. Returning, one experiences quite a shock to come suddenly from an almost tropical temperature into a land of ice and snow. The first snow that I had seen for a month I saw from the car window as we ran into northern Wisconsin on the trip home."

"As to the future of Florida, its entire assets is its climate. It is a land of sand hills and lagoons. The soil is sterile. It raises little but fruit, oranges especially. There is little grass and the natives make no effort to raise crops of any kind of cereal. The lack of nutriment in the soil is evidenced by the condition of the cattle. The hogs are of the 'razor-back' variety and the cows are poor, undersized creatures. Jacksonville has a northern air, as its business is mainly in the hands of northern men, who depend almost entirely on northern patronage. It is the one business city that I saw in Florida. The big hotels are mainly owned by northern men, who conduct resorts in the east during the summer and go south when the temperature begins to fall in the autumn."

PERIODS OF PAIN

While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely.

**TOO MUCH SNOW AND ICE.**  
Street Railway Employees Fought Storm Until Early Hour Saturday Morning.  
Manager J. V. McCorkindale of the Marquette County Gas & Electric company threw up his hands for the first time this year shortly after 2 o'clock Saturday morning. He and several of his men worked up to that hour trying to open the line so that the working men traveling between the two cities could be carried on the early trips Saturday morning, but everything seemed to go wrong. One of the new cars had been equipped with the new snow plows and when it was first brought out it seemed to Mr. McCorkindale that the reopening of the line would be an easy matter, as the car cut through snow drifts three feet thick. But there was so much ice and wet snow above the rails, that the flanges of the wheels soon became coated with ice. The car left the rails twice in getting down to Iron street in Negaunee, so it was finally decided to pull in for the night.  
The storm continued Saturday. There is a greater amount of snow near Union park than any other place on the system. The greatest difficulty in operating the cars is also experienced at that point, but at times delays occur on the steeper grades. Mr. McCorkindale made up his mind Saturday that there was no use attempting to again open the road until the storm ceased. He walked over the line Saturday afternoon and he found from two to four feet of snow in places, with several inches of ice above the rails. He expects to have the road opened to both terminals by this evening. A team plow will be run ahead of the cars and shovellers.  
The street commissioner had a number of men working on the walks Saturday, and both the sidewalk and road plows were out all day.

The "L. B." club will give a dance Saturday, April 20, at Woodman Hall. Trombly's orchestra of four pieces will furnish music. Tickets, fifty cents per couple. (4-15-19-21)

**FOUR BELOW ZERO.**  
Government Thermometer at Humboldt Showed Low Temperature.  
The government thermometer at Humboldt registered four degrees below zero yesterday morning at sunrise. It was the second time this month that the temperature had shown at below zero temperature at Humboldt, nine points below having been recorded on the morning of the 1st.  
The government records invariably credit Humboldt with the lowest temperatures of any place in Michigan, and it is one of the coldest points in the northwest. There are three government thermometers in this county, one at the Cleveland-Cliffs Iron company's main office in this city and the third at the weather bureau at Marquette.  
The Humboldt thermometer has been in use about ten years. The South Shore company's agent has the records for the past winter and they show below zero weather on forty-six days, including the two this month. The lowest temperature recorded was forty-two degrees below on Jan. 30; on the 23rd of that month it was forty below and on Feb. 5 forty-one below. The below-zero records in December, January, February, March and April, were:  
Dec. 4, one below; 7, eight; 8, nineteen; 18, twenty; 25, forty-one; 29, thirty.  
Jan. 10, five below; 15, one; 16, five; 20, one; 21, twenty-two; 22, twenty-one; 23, forty; 24, five; 25, ten; 27, fifteen; 28, twenty-four; 29, thirty-two; 30, forty-two; 31, two.  
Feb. 1, eighteen below; 2, seven; 3, fifteen; 4, thirty-three; 5, forty-one; 6, thirty-nine; 7, fifteen; 8, thirteen; 11, twelve; 12, two; 13, one; 20, three; 21, thirteen; 22, thirty-five; 23, thirteen; 25, ten; 27, three.  
March 4, eleven below; 6, twenty-four; 10, twelve; 11, eleven; 12, seven; 14, sixteen.  
April 1, nine below; 14, four below.

**INTERESTING MEETING.**  
The fourth regular meeting of the Vir Development company was held Friday evening at the office of the Young Men's Christian association in the McKee block. The attendance was large, in spite of the inclement weather. One member was voted into the company and an application for membership was filed. The debate of the evening was on the subject: "Resolved, That Salt is of More Benefit to the Human Race Than Iron." Ernest Allen and David T. Anderson spoke on the affirmative and Wilhelm and Oswald Tellefsen were the speakers on the negative side. The decision of the judges was in favor of the affirmative. An interesting and very instructive part of the program was the parliamentary practice session, with different members of the organization acting as chairman. The program closed with a talk by President Gensde on "The Duties of the Secretary," and the presentation of the report of the critic of the evening, C. G. Goodsell.

**DEATH OF OLD RESIDENT.**

John Trays, residing on West Empire street, who had been ill for some time, passed away Saturday morning. He was an old resident of the city, was well and favorably known and the announcement of his demise will be received with regret by a large circle of friends. His age was forty-nine years. He is survived by his widow and six sons and daughters under auspices of the Ishpeiming branch of the Rechabite society, in which he held membership. The cortege will leave the house at 2 o'clock and the services will be conducted at the First Methodist Episcopal church by Rev. C. L. Adams, the pastor, a half hour later.

**FROM HOPKINS' CURB LETTER.**

Saturday's market was but a repetition of Friday's and the day before. Prices ruled weak, with support indifferent, and from all appearances at the close we may expect further demoralization on the short side of the market. Amalgamated and North Butte led the decline. The Bihee labor situation is bad, but not as bad as thought at first. About 700 men are out, caused by the failure of the different companies to recognize the Western Federation of Miners. This is about 25 per cent of the total employed.

**NOT ENGAGING MANY MINERS.**

L. W. Mayer, who is here looking for miners for the Federal Lead company of Missouri, left Saturday for the Menominee range, where he expects to spend a few days. He did not engage any men here though he had several callers. He said before leaving the city that he will return in a few days and that his company will send a man to the upper peninsula to remain a few weeks.

### MAX BIELENBERG HAS TRAGIC DEATH

WELL KNOWN MAIL CARRIER DIES FROM BURNS.

#### HIS CLOTHING CAUGHT FIRE

Had Been Compelled to Retire from Force on Account of Injured Foot and Had Submitted to Three Operations—Stood High With All Who Knew Him.

Maxamillian Bielenberg, mail carrier, aged fifty years, was so badly burned at his home, corner of Park and High streets, at 10:30 Saturday morning that he died at St. Luke's hospital an hour later.

Mr. Bielenberg was alone in the lower part of the house at the time. His wife had left but a few moments before to go to a nearby telephone to summon a physician to treat her husband for an injured foot, which had been occasioning him great pain. His daughter, Irma, aged fifteen, was in the upper part of the house, and the three younger children were playing outside, with several other little comrades. Suddenly Mr. Bielenberg, enveloped in a sheet of flames, rushed from the building and began rolling in the snow. The children aided in extinguishing the flames by throwing snow on him. The screams of the burning man and the shrieks of the children soon drew a number of the neighbors to the scene. The driver of a wagon, who happened to be passing, volunteered to remove him to the hospital, and the trip was quickly made. Dr. Youngquist was summoned, but did no more than to administer an anesthetic, as the man was beyond the aid of medical skill. He died about an hour later.

#### Had Fine Record.

Mr. Bielenberg was up to last June one of the most trusted employees of the Marquette postoffice. He became a carrier in the spring of 1895, and during a period of service covering eleven years made a record of which any man might be proud. Postmaster Mangum says that he was one of the best men that ever carried a route. "He was clean, inside and out; honest, conscientious and tireless in the discharge of his duty; a good father and husband, and without an enemy in the world," is Mr. Mangum's tribute. In June last, the large toe of Mr. Bielenberg's left foot became sore and he was compelled to give up his route. At the time he believed that his indisposition was only temporary, but the injury grew worse, gangrene finally setting in. After three operations here, Mr. Bielenberg went to a Milwaukee hospital where the lower part of his foot was entirely removed.

Mrs. Bielenberg, when seen at her home Saturday afternoon, was almost prostrated. She said that during the morning her husband had been in an exceptionally cheerful frame of mind.

He had laughed and joked with her, and when she was preparing to go out to summon Dr. Hornbogen to look after his injured foot, told her to be sure and wrap up warmly. She could advance no explanation of the fatality. There is a belief, however, that the tragic death was the result of an attempt to start a fire in the kitchen range by the use of kerosene.

#### A FORMER EDITOR.

Alderman Schauer, of the Fifth, Once Conducted Peshtigo Times.

Not all the Marquette men who know Herman Schauer, alderman of the Fifth ward, are acquainted with the fact that he is a former newspaper man, an editor, but it is a fact nevertheless. Alderman Schauer once guided the destinies of the Peshtigo Times, which comments as follows on his advent in Marquette political activities:

"Among the election returns received in this city this week from old-time residents and in whose welfare the present citizens are always glad to hear of, is the news that Herman Schauer, former editor of this paper, has been elected alderman of the Fifth ward of the city of Marquette. In the above mentioned ward it was a three-cornered fight between a gentleman named W. T. Ward, a former mayor of the city, and a Mr. Gustafson, and our friend, Herman Schauer. His opponents were cleaned up by a majority of forty-five. While the majority was small, it shows the standing of Mr. Schauer among the citizens of Marquette, and he has a host of friends in old Peshtigo who will be glad to hear of his success, and especially so when the odds are taken into consideration with which he had to contend. We extend congratulations.

"Appropos, we are very certain that Herman must have been moving more swiftly during the campaign than when he used edit the Peshtigo Times many years ago. We present herewith a natural representation of how he used to enjoy life in the Good Old Summer Time while a resident of the at that time village of Peshtigo. (Here is given a picture of Alderman Schauer reclining at his ease in the sunshine.)

"All joking aside, we can assure the citizens of Marquette, and especially those of the Fifth ward, that in our opinion they will have no cause to regret the election of Mr. Schauer. "He now holds a responsible position with the Pioneer Iron company of Marquette.

"If we can only get an inkling of when you are heading for Peshtigo, Herman, we will take to the tall timber."

### ALDERMEN AND MAYOR AGREE ON SLATE

INFORMAL SESSION OF COUNCIL HELD SATURDAY EVENING—FORMER CITY OFFICIALS TO GET THE PLUMS.

Controller—Franklin E. Ely. City Attorney—George P. Brown. Market Keeper—Timothy Hurley. Health Officer—Dr. Vadnais.

As a result of the informal meeting of the aldermen Saturday night the above appointments will be submitted to the council this evening by Mayor Robertson, and will doubtless be confirmed. The informal session is reported to have been a harmonious affair, though there were differences of opinion in regard to all the appointments. The names given above in each instance were voted for by a majority of the thirteen aldermen present.

Mr. Bay was Mayor Robertson's choice for controller, but the event showed that there was a strong Princeton sentiment among the aldermen, for the vote was but seven to six for Mr. Bay. Mr. Brown was the choice of a majority for city attorney. For health officer four names appeared on the first ballot, those of Dr. Vadnais, Dr. Lane, Dr. James and Dr. Carriel, with Dr. Vadnais showing the greatest strength. He was the choice of a majority on a subsequent ballot. For market keeper it is said Mr. Hurley was the only applicant.

#### All the Former Officials.

All of the prospective appointees have previously served in the offices for which they have been designated. Mr. Bay has had several years' experience as controller, and has an exceptional record in the office. He has been a faithful and able public servant, and his appointment will give very general satisfaction. George P. Brown has been city attorney for many consecutive years up to last year. He has always been attentive to his duties, a steady attendant at council sessions and is credited with a more comprehensive knowledge of the city charter and local ordinances than any other man in the city. Mr. Hurley has been market keeper ever since the market was established, and has handled the work well. Dr. Vadnais was health officer under former Mayor Ward.

If all the aldermen who voted for these prospective appointees Saturday night stand by their choice this evening the slate will go through intact, although there is some talk of a contest or two. It is not improbable, however, that nothing will come of it.

Two offices of some account remain to be disposed of, janitor at the city hall and poundmaster. For the former there are said to be fifteen applicants, among them that of Thomas Price, who now has the place. Several of the aldermen would like to see Price retained. John Flynn is again a candidate for poundmaster, and is said to have a majority of the aldermen pledged. These offices, it is stated, will be disposed of in accordance with the recommendations of the committees, which, along with the other committees, will be appointed tonight.

At this evening's session the aldermen also have to act on the order for a recount of the votes on recorder on the
