BROACHES PLAN TO PUT END TO WAR

National Arbitration and Peace Congress Proposes That the Conference at The Hague Shall Be a Permanent Institution.

All International Disputes That Cannot Be Settled by Diplomacy, It Proposes, Shall Be Referred to This Tribunal for Adjudication—Features of Closing Session Speech by Bryan and Carnegie's Decoration With Cross of Legion of Honor.

New York, April 17.—The national arbitration and peace congress today adopted its platform, or resolutions, recommending among other things that the Hague conference shall become a permanent institution; that a general treaty of arbitration for ratification by all nations shall be drafted by the coming conference providing for the reference of the Hague court all international disputes which cannot be adjusted by diplomacy.

The resolutions speak in high praise of President Roosevelt, Secretary Root and the prime minister of Great Britain for the stand they have taken in favor of a settled policy of peace among the nations.

Peace Flag Presented Carnegie. At the afternoon session of the peace congress Mrs. Helen Beach Tillotson and Richard P. Hobson walked on the stage bearing a peace flag which they were commissioned to present to Andrew Carnegie on behalf of the Daughters of the Revolution, now in session in Washington.

The flag was the stars and stripes, set in a field of white, with the angle of peace surrounding the staff, from which floats a streamer bearing an inscription in gold on a field of white, "Peace to all nations."

After the presentation of the flag, Seth Low, chairman, introduced Congressman Bartholdi of Missouri. Following, John W. Foster, former secretary of state and the representative of China at the coming conference at The Hague, spoke on the growth of international legislation. "The world's prophesy—International Arbitration," was the subject of Senator Diego Mendoza, former minister of Colombia to the United States.

Ovation Given Bryan. William J. Bryan was the last speaker. When he was introduced the audience applauded wildly, and it was some minutes before he could proceed. During his address he was frequently interrupted by applause. In part, he said: "I enjoy with you the rare privilege of participating in this congress, the object of which is to develop a substitution of arbitration instead of war.

"This body is not official. We represent no government; therefore we can be more free in our expressions than any official body could be. A man is easier in speaking for himself than for millions whom he represents." Mr. Bryan cited instances where nations proclaimed their desire for peace and still keep armies in training ready to war upon each other.

Proposes Dollars Be Contraband. "There are some things I should like to see in the resolutions which are not there," he said. "I should like to see dollars classed as contraband of war. It is no more illogical to say that you shall not sell powder and shot to a belligerent than to furnish him with the wherewithal to buy munitions.

"Another thing which I hope much to see will be a permanent tribunal, whose convening will not depend upon any man. As our congress and legislatures meet at stated times, so this should, and be ready to consider all topics of international welfare.

At the final both parties will tell you it was a defensive war. When they will submit to having a thorough understanding of these grievances, war can be averted.

EARLE'S SCHEME IS PRESENTED

Bills Are Introduced in the Legislature Providing for a State Prison in Keweenaw County at a Cost of \$200,000.

Is Planned to Have Convicts Crush Rock to Be Sold Municipalities for Use in Road-Making—Boom for the Lieutenant Governorship Is Launched in Behalf of Representative Byrns, and Stannard of Greenland Is Touted for Secretary of State.

Lansing, Mich., April 17.—[Special.]—Senator Moriarty and Representative Stannard today introduced bills providing for a state prison in the trap rock district in Keweenaw county at an expense of \$200,000.

The great advantage of such treaties is that they interpose delays and allow the better sense of each nation to subdue its passions. Even if the matter in dispute is not one which a court of arbitration can ultimately settle, the resort to arbitration gives the voice of reason time to be heard and brings the opinion of the whole world to bear upon the two parties at variance.

The attachment of peace as seen from the historic words, "Liberty or death," the cry of "Liberty and life," sounded a chord that induced among his audience prolonged applause. This sentiment was the keynote of his address.

"The attachment of peace as seen from the view point of the clergy was presented by Archbishop Ireland in a brief speech.

GIVE THE BALLOT TO WOMAN. Dr. Anna Shaw's Suggestion for the Promotion of Universal Peace. New York, April 17.—The extension of suffrage to women is regarded by Rev. Anna H. Shaw, president of the National American Woman's Suffrage association, as necessary to a speedy realization of the hopes of the advocates of universal peace.

TAKES ISSUE WITH THE NATION'S CHIEF ANDREW CARNEGIE, PEACE PROMOTER, REPLIES, TO THE PRESIDENT'S "OBJECTIONS."

New York, April 17.—Andrew Carnegie, who is president of the peace congress, tonight gave out a statement as to the results of the convention. Although not so designated by Mr. Carnegie, the statement constitutes a reply to some suggestions contained in the letter which President Roosevelt addressed to the congress on its opening day.

We have all seen the phenomena. Some difference arises between two nations. Each nation has a right to be a good neighbor but, each nation thinks only of its own case and takes little trouble to understand the case on the other side.

GAVE JEROME NO ASSISTANCE

Mother of Evelyn Thaw Furnished No Information to the State in the Recent Trial, the District Attorney Announces.

He Vouches for This Portion of Her Story, but Declines to Comment on Sensational Features of Her Statement Given Out at Pittsburg—No Move Yet Instituted in the Direction of Making Application for the Release of the Prisoner.

New York, April 17.—Although District Attorney Jerome returned to his office from his visit to his home in Lakeville, Conn., today, no move has yet been made toward an application for Harry K. Thaw's release.

BUILDING FUND SWELLED. Cost of Continental Hall Raised by Daughters of the Revolution. Washington, April 17.—The features in today's proceedings of the continental congress of the Daughters of the American Revolution were the dedication of memorial tablets at Memorial Continental Hall and a collection of contributions to swell the Continental Hall building fund.

CRIME LAID TO ROBBERY.

Ohio Man's Charred Body Found in Ruins of His House.

Marion, O., April 17.—The charred body of Charles Huersey, aged ninety, was found tonight in the ruins of his home, which had been burned. It is believed that Huersey was murdered and the house set on fire.

STATE'S SUIT DISMISSED. Springfield, Ill., April 17.—The supreme court today dismissed the suit of the state of Illinois against the Illinois Central for an accounting and the recovery of the state's alleged share of the gross receipts of the railroad.

BALLOT WITHOUT RESULT. Madison, Wis., April 17.—The legislative session, today, cast its first ballot for United States senator to succeed Mr. Spooner. The vote was without result.

TO CURE DRUNKARDS WITH HYPNOTISM. BOWERY MISSION IN NEW YORK TO BE SCENE OF NEW EXPERIMENT IN PSYCHOLOGY.

New York, April 17.—Now hypnotism is to be used to cure drunkenness. The experiment is to be used at the Bowery mission by Dr. S. A. Gayer, with the consent and approval of Dr. Louis Klopfch, editor of the Christian Herald and financial backer of the mission, and of J. S. Hallimond, the mission superintendent.

COMPLAINANTS ATTACKED. Good Faith Questioned in Suit Involving the Estate of Mrs. Eddy.

Concord, N. H., April 17.—The charge that the suit for an accounting of the property of Mrs. Mary Baker Eddy, filed March 1, was not brought in good faith by the so-called "next friends" named in the suit, is contained in the answer of the defendants in that action, filed in the superior court today.

FAMED AS A CORRESPONDENT. John P. Dunning, Newspaper Man, Is Dead at Philadelphia.

LAVA SETS FIRE TO THE FORESTS

Volcano in Chile Bursts Out in Violent Eruption, Terrorizing People in Nearby Towns and Causing Them to Flee in Panic.

Severe Shocks of Earthquake Are Felt in Spain, and Similar Disturbances Are Experienced at Constantinople—Death List Grows in Mexico, and It Is Discovered in the Capital City That the Famous Cathedral There Is Cracked from Top to Bottom.

Madrid, April 17.—Severe earth shocks were felt today at Tortosa and Murcia. Much damage was done, but no casualties are reported.

Constantinople, April 17.—An earthquake shock was felt here and in the suburbs at 4:30 o'clock this morning. It was especially sharp in the upper part of the Bosphorus.

Veracruz, Chi., April 17.—News was received here today that Psyche volcano, in the province of Valdivia, is in violent eruption. The eruptions are accompanied by awful subterranean rumblings, earthquakes, intense darkness, electrical displays, ashes and boiling water. The flowing lava has set fire to the surrounding forests, and the inhabitants are fleeing in terror.

Mexico City, April 17.—Details of the destruction wrought by the earthquake last Sunday and Monday are reaching this city slowly. A message from Acapulco today confirmed the story of the total destruction of Ayutela. A college in Santa Julia, supposed to have been earthquake-proof, collapsed. The roof fell in when seventy students were in the building, but no one was injured.

Famous Church Damaged. It was discovered today that the cathedral of Mexico City, one of the largest and most famous churches in the world, was cracked from top to bottom by the recent earthquake. An engineer has been appointed to examine the building. The cathedral is centuries old. It is built on the site of an Aztec temple, one of the most historic spots in Mexico.

MOROCCAN SITUATION GRAVE. Natives Suspicious France Plans Further Annexations of Territory.

Tangier, April 17.—A menacing French naval demonstration is taking place off Mogador, and the general situation is grave owing to the resentment of the Moors over the French occupation of Oudja. Native opinion is unanimous that France is seeking to pick a quarrel with Morocco in order to make further annexations of territory. Meanwhile the country is swarming with "provocating agents."

HAS QUIT CENTRAL AMERICA

President Bonilla of Honduras Takes Up His Residence in Mexico.

Mexico, April 17.—President Bonilla of Honduras was united with Salina Cruz, Mexico, from the United States gunboat Princeton today. Bonilla is expected to come directly to this city. He left the Honduran port of Amapala last Saturday aboard the Princeton, after having entered into an agreement with Presidents Zelaya of Nicaragua and Figueroa of Salvador that he should quit Central America.

INVENTOR OF THE TELEPHONE. Gold Medal Presented to Professor Alexander Graham Bell.

New York, April 17.—The dedicatory exercises of the new home presented to the United Engineering societies by Andrew Carnegie continued this afternoon. The exercises included the presentation of the John Fritz gold medal to Alexander Graham Bell for the invention and introduction of the telephone.

NAVY SAVED FROM FAMINE. Relief Committee in China Feeding Four Hundred Thousand Persons.

Shanghai, April 17.—The famine relief committee is feeding 400,000 persons, and will continue to feed that number until June. Thirty thousand men are employed on work provided by the relief committee.

LOCAL OPTION IN ILLINOIS. Springfield, Ill., April 17.—The senate today by the vote of 35 to 6 passed a bill for local option in townships, cities and villages, the question to be voted upon at general elections.

LAKE SCHOONER WRECKED. Glenhaven, Mich., April 17.—The schooner Elizabeth Day capsized off Pyramid point, in Lake Michigan, last night during a storm, and is a total loss. The crew were saved.

MURDER STORY FALSE. Greensboro, N. C., April 17.—Investigation today showed that the story furnished to the local papers and sent out by the Greensboro correspondent of the Associated Press concerning what was reported as the murder of Mrs. R. B. Patterson of Liberty, was wholly without foundation. The story, it seems, was concocted by an enemy of Dr. Patterson and was spread broadcast. Liberty is twenty miles from Greensboro.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., APRIL 18.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

There is no doubt that full light on campaign contributions would help some.

Solomon may have been a black man, but it doesn't follow that all black men are Solomons.

Negatives also want charter changes. But they are to be comparatively unimportant changes, affecting the matter of municipal bonds, and the recorder's salary.

The reception given the peerless leader, W. J. Bryan, wherever and whenever he appears before a Democratic gathering indicates that the task of heading him off from the Democratic nomination for president is one well nigh impossible.

A few days ago ex-Chief Collins, of the Chicago police department, was greatly worried lest he should not be able to resume his former rank as captain. His present solicitude is lest he serve a prison sentence for violation of the civil service law by prostituting the police department to base political purposes.

The sum of \$50,000 is said to have been raised from the police for Mayor Dunne's recent campaign. Under such circumstances the present civil service law in Chicago, insofar as it respects levies on public officials, appears to be a dead letter. Evidently it must be galvanized into life by an effective prosecution or two. And ex-Chief Collins might as well be the first defendant.

Mayor Busse's administration of Chicago's municipal affairs is now fairly afloat. It is a well managed administration, the new mayor's appointments having been of a high order and of a nature to justify confidence in the success of his efforts to govern the city well. The administration he succeeds was so ragged that a comparatively small measure of improvement would appear to be a big gain in Chicagoans' eyes. Thus Mayor Busse's task is not at all a hard one.

The commission plan of handling street and sewer work, in addition to caring for the parks and cemeteries, is either good, bad or indifferent. If it is good we will want to retain it; if it is bad or indifferent we will want to return to the system which it replaced. In any event the best way to find out its merits or demerits is to give the commission full and undivided responsibility. It was the understanding that this was being done. If it hasn't been done, it is the obviously wise thing to do now.

Numerous and circumstantial recitals of the havoc wrought by the wolves among the deer leave no doubt that this magnificent game is being decimated by its animal foe about as rapidly as by the hunters, both legitimate and illegitimate. It should be remembered that the numerous cases reported in which deer are slain by wolves are but a small part of the total number of such incidents. Most of the slaughter of this kind occurs in the remote backwoods, where lumbermen and landlookers rarely penetrate. There appears to be little doubt that the number of wolves is increasing, while the warfare waged against them does not yet give adequate results. There is a general demand by men who have made the most careful study of the situation for larger bounties. These men are not prospective wolf hunters, but disinterested observers who believe that only larger bounties will be effective to bring about an energetic fight against the wolves.

There is an unexpected hitch in the plans for providing Ishpeming with a modern Y. M. C. A. building. The bids, even the lowest of them, run considerably beyond the estimates, and the committee is doubtful whether it would be possible at this juncture to raise enough additional money to make up the difference. The actual building operations are to be held in abeyance until it is settled whether it is feasible to raise more funds. Should it be decided that the expenditures must be kept within the sum now available, it is proposed to modify the plans so as to lessen the cost of the contemplated structure. In any event it will likely be a number of months before bids can be passed on.

SUPERIOR TRUST COMPANY HANCOCK, MICHIGAN Capital - - \$150,000 This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee. C. A. WRIGHT, Pres. JACOB BAER, Vice Pres. M. C. GETCHELL, Secy.

finally, and as the Ishpeming structure will be a rather pretentious one the probabilities are all against its being occupied this year. Other towns besides Ishpeming have been compelled to see building operations of public importance postponed because the bids have run beyond the estimates. Building materials of all descriptions have reached unprecedented prices this year, and estimates made only a few months ago are of no present value.

It should not be overlooked that the offense of using the Chicago police department as a source of supply for depleted campaign funds has not been peculiar to the Democrats, but was committed by the Republicans when they chanced to be in power. According to testimony taken by the civil service commission, the practice has been common the past twenty years or more, before the civil service laws were enacted and since. This year the levies were made with perhaps more than the usual insistence and with less than the usual regard for the rights of the men, facts which, coupled with the unusual heat of the campaign for the mayoralty, brought about the exposure of the manner in which the money was raised and the amounts that were gotten together.

It had been a Republican administration, instead of one of Democrats, that was in a tight hole, we need be in no doubt that substantially the same methods would have been employed. It is the average citizenship, content to wink at such things, that has been to blame. It is to be hoped that this average citizenship will be so stirred by the revelations of the week that hereafter the Chicago police can be kept out of politics, at least to the extent of being relieved of the necessity of making campaign contributions.

The Mining Journal has had an opportunity to look over Road Commissioner Earle's first report. It is a voluminous document and demonstrates that the road commissioner is as prolific a writer as he is verbose as a talker. There are some good things in the report and evidences of actual progress along the lines of road improvement. On this subject Mr. Earle has ideas, and good ones, and some capacity for inculcating people at large with them. It's a pity he doesn't stick closer to the work which the office was established to further, and leave general policies to the state legislature, where they belong, instead of attempting to blaze the way for that body, and the governor, and the other members of the administration. In his report Mr. Earle couldn't avoid slipping over into the prison labor question, with his chimerical idea of establishing a Keweenaw county prison to crush rock for good roads. As a special pleading for his ideas on this subject he forgets what he owes to other state officials, boards and the legislature, and introduces in his report matter and illustrations in excruciating bad taste, to put mildly. But Mr. Earle's entire course since the day he was appointed to office has not led people to expect him to observe the proprieties usually regarded by men in public positions.

A bill was recently introduced to permit packages to be sent through the mails as first-class matter up to four pounds, and the postage to be two cents for the first ounce and one cent extra for each additional ounce. This is the first step toward penny postage, which must ultimately come. The first step toward good health is made when the sick man or woman takes the first dose of Hostetter's Stomach Bitters, and if given a fair chance will ultimately make them well again. At least this has been the experience of thousands of others during the past 53 years, and it is just as effective today. Start at once. You'll find it excellent in cases of flatulency, cramps, sour risings, dyspepsia, indigestion, constipation, female ill or liver troubles. We guarantee it pure.

PENNY POSTAGE. A CARD. This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe, coughs, and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. The Stafford Drug Co.

For Catarrh, let me send you free, just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. It is a snow white, creamy, healing antiseptic balm that gives instant relief to Catarrh of the nose and throat. Make the free test and see. Address: Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by The Stafford Drug Co.

WHAT WILL TAFT DO? What will Taft do in regard to the Ohio situation? This query is furnishing a fruitful subject of discussion for press correspondents and for men in public life. Will he pursue the even tenor of his ways, on his return from his southern trip, and in the early summer set sail for the Philippines, or will he enter Ohio to give Senator Foraker battle?

Nobody knows what Taft will do, but there is a general belief that if he follows his own inclinations he will pursue the former course, and eschew any personal appeal to the Ohio voters for their support. A middle way has also been suggested. It is proposed that Taft neither entirely overlook Ohio nor abandon his Philippine trip, but that previous to his departure for our eastern possessions he devote a month or six weeks to his Ohio fences, delivering in that time a number of formal addresses in which he shall put his candidacy before the people. This course has many advocates among Taft's friends.

There seems to be a majority opinion in favor of the secretary holding to his original plan and visiting the Philippines. Some of his supporters favor a little preliminary excursion into Ohio, and others are reported to be of the opinion that the secretary's interests will be best served if he continues to devote his entire time to the duties of his office, leaving the situation in Ohio to look after itself. They believe that the voters will be more pleased by such an attitude than by any other he could assume, and that he would profit accordingly.

Of course the president is a big factor in the consideration of this question of what Taft will do. He is generally reported to favor the secretary becoming an active and aggressive candidate, but no authoritative word has come from him on this subject, and it is a fact that the speculation about his attitude is largely surmise. Nevertheless it is probable that the president, as a matter of temperament, would like to see Taft put some aggression into his campaign. It is unlikely, though, that he would judge it advisable for him to give up his proposed Philippine trip. Possibly the president will be found to favor the middle course suggested above.

On these various phases of the matter the public awaits enlightenment with much interest, and hopes to receive it when the secretary arrives home from the south. In the meantime there is no doubt about what Senator Foraker will do. He will put in twenty-four hours a day working for Foraker.

"PNEUMONIA'S DEADLY WORK" had so seriously affected my right lung," writes Mrs. Fancies Connor, of Rural Route 1, Georgetown, Tenn., "that I coughed continuously night and day and the neighbor's prediction—consumption—seemed inevitable, until my husband brought home a bottle of Dr. King's New Discovery, which in my case proved to be the only real cough cure and restorer of weak, sore lungs." When all other remedies utterly fail, you may still win in the battle against lung and throat troubles with New Discovery, the real remedy. Guaranteed by The Stafford Drug Co. 50c and \$1. Trial bottle free.

DOING BUSINESS AGAIN. "When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best of all tonic medicines. Guaranteed by The Stafford Drug Co. 50c. "Let us have some Cudahy's Peacock Bacon and calves liver for supper Mama," say young and old. (11-27-eod)

Cobalt Gossip

A big New York syndicate is said to be negotiating for the Peterson Lake and Nova Scotia properties.

Some of the shipments from the Cobalt camp have been solid silver recently and are of great value. Some of the richest specimens are from Nipissing and Cobalt Central. Some fine specimens have also been taken from the Nova Scotia mine.

Much trenching has been done on the Silver Queen Mining company's mine, directly south of the town site of Cobalt. Several veins have been opened, and samples of ore which will assay 20,000 ounces to the ton have been taken out. A six-drill compressor is now running. The shaft will be sunk to the 100-foot level.

At a meeting of the directors of the Silver Queen Mining company it was decided to pass the dividend. It was reported that the total amount of ore shipped to date was 442,141 tons, and that 100,273 tons were bagged for shipment. The policy of the company is to continue development work and pay dividends when the revenue warrants.

The Ontario government is considering a measure which, it is said, will grant a bonus of six cents a pound on nickel, five cents on cobalt, one and one-half cents on copper, and half a cent on the arsenic refined in the country. The maximum bounties given on these ores, however, will not be more than \$165,000 a year.

Superintendent La Blane, of Ontario-Quebec Cobalt Mining company, says that the vein in No. 2 shaft, which was about fifteen feet, made a better showing than the vein of No. 1 at the same depth. This vein is about eighteen inches wide. No. 1 shaft is down about a dozen feet, and it is expected that pure native silver will be reached in another fifteen feet. The vein here is about two feet wide.

Rapid progress is reported by the North Ontario Reduction & Refining company, which is erecting a refinery for the treatment of cobalt and other ores at Sturgeon Falls. The buildings are about completed, and contracts have been let for twenty-five carloads of machinery, which, when installed, will enable the refinery to treat 300 tons of ore every twenty-four hours. The plant will be ready to receive ore in June. It will make unmarketable much low grade ore now on the dumps in the Cobalt district.

At a meeting of the directors of the Golden Horn (Larder Lake) mines, the superintendent presented a report which showed that a shaft had been sunk fourteen feet and assays at this level showed a result of from \$3 to \$13,000 a ton. The company owns two lots of forty acres each, Larder Lake, forty miles from Cobalt town. One assay showed \$1,700 in the ton in gold. The capitalization is low, 249,000 shares having been set aside for developing the property and 100,000 shares being offered for subscription.

J. W. Evans, managing engineer of the Imperial Cobalt Silver Mining company, states that another good vein was struck in the shaft, sixty-eight feet from the surface on the Evans mine, in the Portage Bay district. The company has ordered an air compressor, and until this has been put in work has been stopping in the drifts and the steam drill is being used in sinking the shaft further. It was in this operation that the new vein was struck. It is the intention of the management to sink the shaft to 100 feet before again drifting, and as soon as the air drills are installed further drifting will be done at the forty-foot level.

DOING BUSINESS AGAIN. "When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best of all tonic medicines. Guaranteed by The Stafford Drug Co. 50c. "Let us have some Cudahy's Peacock Bacon and calves liver for supper Mama," say young and old. (11-27-eod)

IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition. It cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are mooping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elix." type.

City Brevities

Today's weather: Probably rain or snow and warmer.

Yesterday's temperatures: Seven a. m., 23; noon, 27; 7 p. m., 28; Maximum, 30 degrees; minimum, 23.

J. H. Foster is in Chicago, on business.

J. H. Fisher, of Calumet, is a Marquette visitor.

Born, Tuesday morning, to Mr. and Mrs. Frank Stolpe, a son.

The A. O. H. will meet tonight at Keough's Hall.

A. L. Leiss, of Calumet, is transacting business in this city.

George Garceau, of Ishpeming, spent yesterday in the city.

Joseph Comer, of Ishpeming, passed yesterday in Marquette.

Nels Peterson, of Negaunee, was a Marquette visitor yesterday.

H. J. Williams and H. J. Thomas, of Ishpeming, spent yesterday in the city.

County Treasurer Charles Sundblad, of Ishpeming, was in the city yesterday.

Miss Jessie Fogarty has returned from a visit with friends at Negaunee.

Tom Williams is up from Ann Arbor, during the university spring recess.

Busy-Queen hive, L. O. T. M., will meet this afternoon at Keough's hall.

Mr. and Mrs. H. W. Crawford, of Negaunee, are the guests of friends in Marquette.

Miss Nettie Johnson, of Ishpeming, is being entertained by Miss Flora Smith, High street.

R. P. Bronson was down from Ishpeming yesterday, looking after business matters.

Fred Voiland, of Cuba City, Wis., was in Marquette yesterday, looking after business interests.

Dan Case, of Detroit, is a guest at the home of his mother, Mrs. J. M. Case, East Ohio street.

Miss Jennie Francis has returned to her home at Ishpeming, after a visit with Marquette friends.

The National League of Veterans and Sons held a regular weekly meeting, followed by a "smoker," last evening.

Charles E. Webb, of Houghton, commercial agent of the Northwestern, has spent the past two days in Marquette.

Paul Moilanen, of Negaunee, was examined by Drs. A. W. and H. J. Hornbogen in probate court yesterday morning before Judge Potter and committed to the state asylum at Newberry. The young man has been demented for the past three months.

Tickets are now being sold for the Normal-Crystal Falls basketball game at Fraternity Hall Friday evening. The Normal line-up will be the strongest of the year, and the players are practicing hard to perfect their teamwork. The game promises to be the best held in the upper peninsula this year.

A Yalmar Mill Owner—John V. Steak of Yalmar, was in the city yesterday. Mr. Steak operates a mill at Yalmar. Last year's cut was sold by him to the Superior Lumber company, but this year he is running his mill without having closed a contract for the cut. He now has 250,000 feet of logs on hand and expects to begin operations in about two weeks.

Over Twenty Boats at DeTour—Reports from the Soo run to the effect that there are over twenty boats at De Tour, awaiting the opening of the channels and the Soo locks. The Western and Rogers were the first to arrive at De Tour, about two weeks ago, and since then there have been daily additions to the fleet in waiting. By the time the canals are opened a sufficient number of boats will be ready to pass them to make an imposing naval procession.

Will Have Capacity House—Forty-Five Minutes From Broadway will play to capacity this evening. Yesterday all the seats but a few scattered about the edges of the theater had been sold, and these will be picked up today. The good reports from the production have created much interest in it. From all accounts it will be among the best attractions of the kind ever presented here. Corinne is given excellent support by a large company, and the production is elaborate in scenery, costumes and mountings.

Expert Gardener Comes to Marquette—August Kasky has accepted a position at the Stafford greenhouses. Mr. Kasky has had an extensive experience and thoroughly understands the care of roses, carnations and fancy plants. He learned the florist trade at the age of thirteen in Germany and was employed for fourteen years in Berlin. Since coming to this country he has been employed with leading Chicago greenhouses. He is also a landscape and botanical gardener.

Port at Escanaba Is Busy—Lighthouse Keeper L. A. Rose, of Escanaba, was in the city yesterday. Mr. Rose says that the bay in the vicinity of Escanaba has been entirely clear of ice for several days now and the docks have taken on an air of activity. Over a dozen boats have arrived in the city. Though snow fell at Escanaba during the recent storm the fall was nothing like as heavy as at Marquette, and the storm of Sunday and Monday barely touched there.

Houck Succeeds Landry—S. A. Houck has been appointed to succeed H. H. Landry as chief train dispatcher of the Duluth, South Shore & Atlantic railway and of the Houghton division of the Mineral Range railroad. Mr. Houck has been chief night train dispatcher for some time past. He has been in the employ of the company for fifteen years, being stationed for a good share of the time at this city. Mr. Landry will remain in the employ of the road, the order appointing Mr. Houck to his position specifying that he will be "transferred to other duties."

May Be in New Department—There is a general impression among employees of the weather bureau that in the not distant future they may form part of a new department of the government. For many years the weather bureau was under the jurisdiction of the war department. It was then transferred to the department of agriculture, which had been created but a short time previous. There are a number of bureaus of scientific investigation connected with the various departments of the government and there has been considerable discussion in administrative circles of late relative to the feasibility of combining them through the creation of the portfolio of secretary of science. Such a move

would conduce greatly toward lightening the labors of the other secretaries.

Logging Train Derailed—Spreading of the rails partially derailed a logging train between Munising Junction and Wetmore about 10 o'clock Tuesday night. The train was running at a low rate of speed at the time and the applying of the air brakes prevented it from entirely leaving the track. No one was hurt. Train No. 7 from the Soo, due here at 11 o'clock on the same evening, was unable to get by and a special was made up here and brought in the through passengers to Duluth and other northern points at 4 o'clock yesterday morning. A wrecking train from this city went out yesterday morning and cleared the track. No. 7, with the rest of the passengers, reached Marquette at 9:15 yesterday morning.

OUTLOOK IS BRIGHT.

Notwithstanding Late Opening, Season Will Be a Record Breaker.

It looks like a busy season for the "package freight" lines plying on the Great Lakes. Preparations are being made by vessel owners for a more strenuous business than ever before. A big percentage of the general merchandise sold in the northwest every year comes up the lakes, and the prosperity of the country has created a tremendous demand for all sorts of commodities.

The "package freighters" are generally run by the eastern trunk line railroads, but there are also a number of independent lines. The reports from all the offices show that the prospect generally is brighter. The west and northwest are using a greater amount of commodities in the package freight class than ever before.

Lake vessels are united in the prophecy that the season will be a record-breaker in every sense of the word. More freight of all kinds is in sight than ever before and when the totals are figured up next December it is expected the statistics of the year's business will attract the attention of the entire world. The carrying capacity of the lake fleet has been greatly augmented since last fall, but marine men think there will be enough freight for all and at rates which will leave a substantial profit after expenses are paid.

The lowest figure for the total movement of it in one year for the coming season is 42,000,000 tons and it has been placed as high as 47,000,000 tons. A great deal of coal will be moved to the head of the lakes this spring on account of the famine in the northwest during the winter and already coal shippers are looking for vessels in an unprecedented manner.

The grain and lumber shipments may show a reduction during the season, but this will be more than made up by the great tonnage increase in iron ore and coal. The lumber shipments are disappearing about as fast as the business falls away, so that the lake commerce does not feel the change materially. The reduction in the grain shipment on the lakes may be explained by the fact that there is more and more being consumed in the western states.

Some of the owners of vessels consider the outlook so favorable that they will not make season contracts for coal cargoes, and will depend on what there is to be had from trip to trip. Last year the coal rates were marked up ten cents all around early in August and vessels not tied up by contracts made a good gain.

Duluth is the headquarters for a large and growing shipping. There are now enrolled at the port 263 vessels, with a gross tonnage of 679,265 and a net tonnage of 546,182. Seventeen are wooden sailing vessels; 121 wooden steamers; fifty-three wooden barges; twenty-one iron and steel sailing vessels; 139 iron and steel steamboats and twelve iron and steel barges.

The Cooks' and Stewards' union and the Lake Carriers' association have come to an agreement in regard to the wage scale to be in force the coming season of navigation, and thus the danger of any labor trouble to interfere with lake traffic is averted. Cooks on steamers of over 4,000 tons are to be paid \$26 a month for the full season and cooks on steamers under 4,000 tons \$25 per month.

Reports from the Soo continue to hold out no encouragement to people hopeful for an early opening of navigation. During the past ten days the ice in the channels has strengthened, instead of weakened, there having been no thawing weather for over two weeks. The channels are bound firmly in many places by solid blue ice. It will be the latter part of next week, at the earliest, before the first boats pass the canals, and on the present prospect it would not be surprising if the opening of navigation was held up as late as May 1, or a little later. In Marquette there has been no movement of ore to the docks, nor will there be until the situation has cleared up considerably.

REV. KILGORE'S MEETINGS.

The Baptist church was well filled in the union evangelistic meeting last night. Dr. Kilgore preached a sermon that would interest people who are seldom interested in sermons, however eloquent and helpful. His presentation is so novel, and his popular appeal so strong, that those who never enter a church may reasonably be expected to throng the edifice before the close of this series.

Foot-bearing was Mr. Kilgore's subject last night. He said it isn't wearing a Prince Albert coat and going to church three times in the week, though a church member surely ought to attend two services on Sunday and the mid-week prayer services. It isn't reading the Bible, though a knowledge of the charter is needed by every citizen of the Kingdom. It isn't being filled with joy so that one, forgetful of the condition of everybody else, dreams of soaring away on the wings of a dove. It isn't by singing that "salvation is free," for no such thing is true. It isn't by making a claim of being a Christian, though a man ought to stand out squarely for what he believes and what he is. Foot-bearing is the giving out of what one has received for the benefit of others, the yielding of life's sweets to the interests of a higher kingdom. This summing up of his thought scarcely suggests the beauty of his word pictures and the strength of their expression.

No other remedy on earth is so good for children as Hollister's Rocky Mountain Tea; makes them eat, sleep and grow. Bright eyes, rosy cheeks. 35 cents, Tea or Tablets. The Stafford Drug Co.

The excellent quality of Vandenberg's fresh Aerated milk is due to the perfect care of cattle and fine ventilated stables. (4-12-1w)

This is an attractive group because of the clothes the boys are wearing. The boy on the left has on a Norfolk suit with Knickerbocker pants, ages 8 to 17; the next child a Russian, ages 3 to 8; the next the popular blouse suit, ages 3 to 10; the boy on the right a D. B. Jacket and Pant, ages 7 to 17.

In selecting Children's Clothes you want the best quality at a fair price. With us quality is more than an advertising term. It means clothing that at every point, from one end to the other has the utmost value of material and workmanship. It's the XTRAGOOD kind.

SEE WEST WINDOW.

MARKETS

NEW YORK STOCKS.

New York, April 17.—The only factor of any importance to be drawn from the action of today's stock market was its narrowing proportions. The demand from uncovered shorts, which was responsible for the price movement in spite of the small dealings, was carried somewhat further today before it had exhausted its influence on prices.

Table with columns for stock names and prices. Includes items like Amal Cop., Atch., B. C., etc.

Logan & Bryan telegraphed from New York yesterday as follows: "The covering of shorts was going on at the opening and the market showed

yesterday's copper market: "The market today was a continuation of extreme dullness. The little flurry seems to have been caused by short covering and speculative purchases by some of the traders.

Copper Metal Prices. New York, April 17.—Copper was about 22 higher in the London market today, with spot and futures both quoted at 498, 10s.

CHICAGO GRAIN MARKETS.

Chicago, April 17.—Selling on a liberal scale caused weakness in the wheat pit the greater part of the session today, and was the result of a belief that improved conditions for the new crop are at hand.

Oats—The market opened higher on reports of frost, but later weakened on realizing sales. The weakness of wheat was a depressing factor.

Logan & Bryan's Wheat Summary.

Logan & Bryan writing Paine, Webber & Co. concerning yesterday's wheat market: "Miscellaneous longs took advantage of our strong opening to secure profits, and after the first show of strength the market suffered quite a reaction, subsequently rallying 3/8% of a cent, only to lose it all and close at the level of 47 1/2¢.

Western Gold Stocks.

COOK WITH GAS

Ishpeeming Department
CONDITIONS IMPROVING. Y. M. C. A. PROSPERING.
Grand Recorder of United Workmen Writes Encouragingly to Members.
The announcement of the recent failure of the Ancient Order of United Workmen in Ohio caused some apprehension among the members of the society here, but the order is now in better condition in Michigan than it has been for over a year past. According to Recorder Latchman of the Michigan grand lodge the unpaid death claims amount to about \$100,000, and while the only assets of the order in this state are between \$14,000 and \$15,000 received monthly, there is due from the supreme lodge out of the fraternal fund seventy-five per cent of the death claims, or about \$75,000. It is reported that the officers of the supreme lodge are soon to meet in Pennsylvania to consider the validity of these claims.
"Ohio did not adopt the supreme lodge rates and the organization in that state was in consequence deprived of assistance from that fund," the grand recorder writes. "But even if we do not get our apportionment from the fraternal fund we will manage to pull through in some way. In fact, I believe the conditions in this state are improving. The supreme lodge levied an assessment of fifteen cents toward payment of the unpaid death claims up to Oct. 1, 1906. Since then the rates have been sufficient to meet the unpaid death claims."

BIRTH REGISTRATION LAW.
Bills Soon to Be Introduced to Benefit City Clerks and Physicians.
A few weeks ago The Mining Journal noted that a clerk in a lower peninsula city had drafted a bill providing for the registration of births. Since the law went into effect, nearly sixteen months ago, the clerks in cities of over 10,000 population, as well as the physicians in all of the cities and townships, have been compelled to do considerable work without compensation. It is now proposed to amend the law to provide for the payment of twenty-five cents to clerks in cities of over 10,000 people for each birth registered.
In Ishpeeming the number of births recorded annually for some years past has been in excess of 400. When a clerk fills out in duplicate blanks required by the state department, furnishes the county clerk with a complete list every three months, and at the close of the year provides the assessor with a list of all births recorded during the twelve months' period, he does a great deal of work without pay.
As a meeting of the members of the Houghton County Medical association a few weeks ago several members expressed themselves dissatisfied with the registration law, because it lays a great deal of work on the doctors without any compensation.
Representative A. D. Edwards of Atlantic has promised to assist the physicians in their efforts to have the law changed. Under the provisions of the act a supervisor or assessor who, at the end of the year, on receiving reports from the registrar, finds that the names of children born during the preceding twelve months have not been recorded, is allowed a compensation of twenty-five cents for each additional birth reported.

MADE A BIG HIT HERE.
Geo. M. Cohan's musical comedy, "Forty-Five Minutes from Broadway," scored a notable hit before a capacity house at Ishpeeming theater last evening. The company is exceptionally strong. It is headed by Corinne, a comedienne whose superior has not been seen here, and ably assisting her in the fun-making is Scott Welch, who as Kid Burns fairly took the house by storm. All the musical numbers, especially the tango "So Long Mary," were well received. The production is magnificently staged. The performance continued for nearly three hours, and it was a joyous entertainment from start to finish. It is doubtful if a greater success has been recorded in the history of the house.

"THE COLLEGE WIDOW"
The greatest of all George Ade's comedies, "The College Widow," will fill an engagement at the Ishpeeming theater Monday evening. Unusual interest is manifested by theatergoers of this city and Negaunee and present indications point to a packed house, with a rush for seats at the opening of the sale that will surpass the demand Tuesday morning for the tickets for "Forty-Five Minutes from Broadway." "The College Widow" did a record-breaking business for more than eight months at the Garden theater, New York.

ISHPEMING IN BRIEF.
Dr. W. Scholtis of Munising was in the city yesterday.
A daughter was born Tuesday to Mr. and Mrs. F. H. Berg.
Miss N. Skogberg of Marquette visited friends in the city yesterday.
G. W. Guyer, traveling auditor of the Swift Packing company, was in the city yesterday.
Clark Fitzpatrick of Escanaba, for a number of years located at Palmer, was a visitor in the city yesterday.
John P. Sears, president of the Marquette County Gas & Electric company, was here from Chicago yesterday.
R. P. Bronson arrived home yesterday from Oshkosh and Milwaukee, where he spent a few days on business.
Superintendent E. E. Scribner of the Ishpeeming schools is confined to his home with a severe attack of bronchitis.
Fred Voland, of Cuba City, Wis., attended a meeting of the directors of the Pine Tree Lead & Zinc Mining company here yesterday afternoon.
Mrs. C. M. Talcen has sold her house, 617 East Michigan street, to Joseph B. Tears, who will move into it at once. The sale was made by E. C. Cooley.
W. C. Uren and wife have left on a visit to points in Arkansas, Missouri, Nebraska and Iowa, to be absent two or three months. Mr. Uren intends to purchase a trotting horse while away.
The prize received by Patrick Collins from Grinnell Bros., manufacturers of pianos, in the word contest recently conducted by the firm, is in the shape of a certificate for \$75, to be applied on the purchase price of an instrument.
Al H. Wilson, the German dialect comedian, will be at the Lyceum theater next Tuesday evening when he will present his new play of Switzerland, "Metz in the Alps," written by Sidney R. Ellis. "Metz in the Alps" is a strong romantic drama in four acts.
The street cars are again in operation, the line having been opened as far as the South Shore depot before noon yesterday and to the Lake Superior Ishpeeming depot later in the day. If there are no more snow storms Manager McCorkindale expects to have the cars running to the Lake Angeline terminal before tomorrow evening.
L. W. Meyer, who has been in the upper peninsula the past week or more for the Federal Lead company of Missouri, will be at the Nelson House today and tomorrow. He wants a number of miners, machine operators or shovelers to take positions at one of his company's mines near Joplin. The pay will be \$2.25 per day for eight hours work.

FROM HOPKINS' CURB LETTER.
"An undistakably better undertone is noticeable in the copper share list, and the tendency for the time being seems to be to buy them on the recessions. As a rule prices recovered easily. There has been one undesirable feature to the bear side of the market the past couple of weeks, and that has been that there has been too much company. In a great many quarters an increased dividend is expected on Amalgamated Copper at their meeting to be held today, or tomorrow; but we hardly anticipate such action. There is some adverse comment on the North Butte annual statement, but we can see little justification for it. Superior & Pittsburg was well taken up to 17% today, and the demand at fractionally lower prices is good. A better demand for Globe is also noticeable. American is in fair request."
The day's prevailing prices were:

American	Bid.	Asked.
Warren	8.90	10.00

HOW'S THIS.
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation he may incur by advertising in our behalf.
WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by The Stafford Drug Co.

RAMLEH
TURKISH CIGARETTES
If you didn't like most of the cigarettes you have tried, quite likely it was because they were either too strong or too mild for you. Try RAMLEH Cigarettes.
You'll find the RAMLEH has the real tobacco "taste"—just what all smokers want—yet it is not too heavy and does not tire. Neither is it too mild. Smokers who have tried them say RAMLEH Cigarettes are "just right"—you'll surely say so too, after you try a few. Get a box to-day.

Upper Peninsula
Literally Cooked to Death—
A shocking fate was that of Fing Regallo, an Italian workman, who fell into a sump at the Dunn mine at Crystal Falls and was literally cooked to death. The sump is used as the chamber into which the exhaust steam from an underground pump is permitted to escape. It contained only six inches of water at the time. Regallo being misadvised, companions found him lying in the sump so badly scalded that he died shortly afterward. It is believed that he was stunned by his accidental fall into the steam chest, otherwise he doubtless could have escaped with comparatively slight burns.
Extensive Mining Improvements—
Pickands, Mather & Co. have completed arrangements for some substantial improvements to be made at the Baltic and Caspian mines in the Stambaugh district of the Menominee range during the present season. Contracts have been let for the installation of complete electric underground haulage systems at both properties. Three locomotives will be required for each mine. The power will be furnished by two horsepower engines, which also will supply the current for an electric lighting plant on surface. Plans have been received for a new engine house, 40x50 feet on the foundations, at the Baltic mine, and work on the structure will commence shortly. At the Caspian mine an engine house, 50x50 feet in size, is nearing completion. Work on a large new shaft commencing at the Baltic will commence in the near future. An ore crusher size 7 1/2, is also to be erected at once at this property. During the winter thirty dwelling houses have been in course of construction at the Baltic mine and are now nearly all finished. It is the expectation that the output from these properties will be considerably increased this season. An air compressor of a capacity of 3,000 cubic feet per minute has been ordered for the Baltic.
Robbed Turnkey as He Slept—
After a bold get-away Francis Mengle, a lanky youth of 22, is once more in the Mackinac county jail at St. Ignace, awaiting trial for a charge of burglarizing a store at Corinne. He stands a good chance of a stiff sentence in state's prison, having pleaded guilty when arraigned in justice court. Mengle made a sensational escape from the county jail on the occasion of his initial incarceration there some days ago. He was supposed to be in his cell when Turnkey Therrien locked up for the night, but he had eluded the officer's vigilance and remained in the corridor. Then when Therrien was asleep he entered the turnkey's room, filled his pockets with \$52 in cash, and a revolver and hiked out. The county's bloodhound imported last year from the South, failed to pick up the scent when put on the trail of the man in the morning, but was surprised that Mengle had headed for the Soo, and this proved the case. He was re-arrested in the same hotel at that city in which he had first been taken. He had walked to Trout Lake, twenty-seven miles, and had boarded a freight train there. None of Therrien's money nor the revolver were found on his person; instead, Mengle was garbed in a new suit of clothes, wore gold-rimmed spectacles and had had a hair cut. He is closely guarded now.

Upper Michigan's First Grind Mill
Charles Kynoch, Sr., a St. Ignace man, has become the possessor of a rock of historic value—a portion of a grist mill fashioned at the straits of Mackinac and put into commission there more than two centuries ago. As soon past, the rock was part of some great granite ledge. When it was detached by some upheaval of nature. And in the glacial period it was rolled over great distances by the ice fields, grinding with and against its fellows, until at length it was left on a hillside, a rounded and mottled globe. Ages afterward the Jesuit priests exploring and settling a new land, or the early French voyageurs with the early-day fur companies, found it, scraped off the moss, and with a mallet and chisel and infinite toil cut the sphere in half, rounded yet more the outer surfaces, ground

TO WHOM IT MAY CONCERN.
As to the statement made in yesterday's issue, by F. B. Leonard, it is too late and to the Lake Superior Ishpeeming depot later in the day. If there are no more snow storms Manager McCorkindale expects to have the cars running to the Lake Angeline terminal before tomorrow evening.
L. W. Meyer, who has been in the upper peninsula the past week or more for the Federal Lead company of Missouri, will be at the Nelson House today and tomorrow. He wants a number of miners, machine operators or shovelers to take positions at one of his company's mines near Joplin. The pay will be \$2.25 per day for eight hours work.
